Watch NET explore how the University of Nebraska at Omaha and the College of Education have chosen to focus on Early Childhood Education and Child Welfare as a campus priority—identifying new research methods, best practices and skills for preparing UNO students to help children learn from birth through eight years.

A powerful vehicle for children's learning is the skill of play. It's through play that children learn how to problem solve, self-regulate and develop relationships. Through a collaboration with all four University of Nebraska campuses and the Buffett Early Childhood Institute (BECI), UNO students are placed at the heart of the most relevant real-world experiences to work with young children.
