**FROM:** Charlotte Jones-Ward / Frank Aquila

Please take a few minutes to complete this external evaluation of your service-learning program funded by the Ohio Department of Education Learn and Service Office.

We realize that this is a different type of report; nevertheless it is mandatory. This evaluation is being e-mailed to you as well as being sent by regular mail.

The extensive Essential Elements component is part of a national effort. While you may not initially see a connection to your program, we hope that this will eventually become evident. If you have any problems completing this form call Jennifer Dodd (440) 364-0160, Frank Aquila (216) 523-7133 or Charlotte Jones-Ward (614) 466-8920.

Please complete this evaluation and return no later than June 30, 2005.

Sincerely,

# Essential Element 1

Effective service-learning establishes clear educational goals that require the application of concepts, content and skills from the academic disciplines involves students in the construction of their own knowledge.

a) Examination of teacher lesson plans – written surveys, interviews; b) Student surveys – interviews

**KEY**

**LEVEL 1:** More like community service with an occasional element

<b>1.4</b> <b>Students are required to communicate information and ideas</b>	<input type="checkbox"/> <b>LEVEL 1</b> Students are rarely asked or required to summarize or community information and ideas in either written or oral form and then only to the teacher.	<input type="checkbox"/> <b>LEVEL 2</b> Students may employ both written and oral means of communication but on an infrequent basis and with a limited range of audience – usually just to the teacher.	<input type="checkbox"/> <b>LEVEL 3</b> Students use multiple methods of communications (oral, written, graphic) on an ongoing basis for multiple purposes and with diverse audiences.	<input type="checkbox"/> <b>LEVEL 4</b> Level 3 plus students promote dialogue with an understanding among diverse audiences.
<i>Examples:</i> Examine types of reflective activities used – variety, time spent, how often they occur <b>Explanation:</b> _____ _____ _____				

<b>1.5</b> <b>Students connect to state or local standards</b>	<input type="checkbox"/> <b>LEVEL 1</b> The teacher does not intentionally connect student activities to a state standard.	<input type="checkbox"/> <b>LEVEL 2</b> The teacher partially connects student activities to the fulfillment of a state or local standard.	<input type="checkbox"/> <b>LEVEL 3</b> The teacher directly connects the student activities to the fulfillment of a state or local standard.	<input type="checkbox"/> <b>LEVEL 4</b> Level 3 plus service-learning is publicly acknowledged and frequently used as a teaching methodology to utilize in fulfilling many of the state or local standards.
<i>Examples:</i> Examine service activities for connections with graded course of study and/or proficiency outcomes <b>Explanation:</b> _____ _____ _____				

## Essential Element 2

In effective service-learning, students are engaged in tasks that challenge and stretch them cognitively and developmentally.

<b>2.1</b> <b>Service tasks are challenging and promote development</b>	<input type="checkbox"/> <b>LEVEL 1</b> Students are essentially spectators, or, at most, assistants to others who are the primary providers of service.	<input type="checkbox"/> <b>LEVEL 2</b> Students take on developmentally appropriate tasks requiring them to apply existing knowledge and skills in relatively familiar settings and roles.	<input type="checkbox"/> <b>LEVEL 3</b> Students are engaged in challenging tasks that stretch them – physically, cognitively, socially and/or ethically – in new roles and/or in unfamiliar settings.	<input type="checkbox"/> <b>LEVEL 4</b> Level 3 plus students are increasingly able to identify external and internal factors that impose limits on what they can do or be, and devise strategies to expand these boundaries.
<i>Examples:</i> Activities are developmentally appropriate for students; what did they do? what did they learn? <b>Explanation:</b> _____ _____ _____				

# Essential Element 3

In effective service-learning, assessment is used as a way to enhance student learning as well as to document and evaluate how well students have met content and skills standards.

KEY	LEVEL 1: More like community service with an occasional element	LEVEL 2: Has some but not all of the Essential Elements of service-learning	LEVEL 3: Meets the needed Essential Elements for service-learning	LEVEL 4: Represents an exemplary or idealistic level of practice
<b>3.1</b> <b>Assessment is integrated with instruction</b>	<input type="checkbox"/> <b>LEVEL 1</b> Learning is expected, but goals are not spelled out and assessment is informal or by a single method such as a concluding interview.	<input type="checkbox"/> <b>LEVEL 2</b> The learning goals are an integral part of the program design, and are clearly communicated at the outset along with expected performance standards. ("Here's what you must do to get an 'A' ".)	<input type="checkbox"/> <b>LEVEL 3</b> Assessment of student learning is consciously employed as a dynamic instructional (not just evaluative) tool that contributes to the quality of the experience. Emphasis is placed on giving students the insight and tools to assess, demonstrate and articulate in a variety of ways, the things they are accomplishing.	<input type="checkbox"/> <b>LEVEL 4</b> Levels 2 and 3 plus special emphasis on assessing and articulating learning that goes beyond, or in a different direction than what was anticipated. Unique ways to communicate to others what is being learned are devised.
<i>Examples:</i> This Element is connected to Element 1. If the curriculum connection is missing, it will be difficult to determine appropriate assessment criteria	<b>Explanation:</b> _____ _____ _____			

# Essential Element 4

Students are engaged in service tasks that have clear goals, meet genuine needs in the school or community and have significant consequences for themselves and others.

KEY	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
<b>4.1</b> <b>Service goals are clearly stated</b>	<input type="checkbox"/> <b>LEVEL 1</b> The goals are not written and/or are unclear to students.	<input type="checkbox"/> <b>LEVEL 2</b> One or more service goals are specified, but the over-arching goal is unclear to students. (For instance, students may know that they will befriend an elderly person, but see no reason to examine the larger concept of aging and the role of institutionalized care in our society.	<input type="checkbox"/> <b>LEVEL 3</b> The task-specific goals of the service project have been developed with the assistance and with the agreement of all the participants.	<input type="checkbox"/> <b>LEVEL 4</b> Level 3 plus the goals of the service project have been developed with the assistance and with the agreement of all the participants.
<i>Examples:</i> Did students understand goals of the project: can they state them? Do they match teacher's written goals?	<b>Explanation:</b> _____ _____ _____			

**KEY****LEVEL 1:** More like community service with an occasional element**LEVEL 2:** Has some but not all of the Essential Elements of service-learning**LEVEL 3:** Meets the needed Essential Elements for service-learning**LEVEL 4:** Represents an exemplary or idealistic level of practice**4.2**  
**Address a genuine need** **LEVEL 1**

The identified need may be of minor consequence, or, even if significant, not understood to be so by all participants.

 **LEVEL 2**

The identified need is of some importance to those who are involved as providers or recipients of service.

 **LEVEL 3**

The identified need is genuine, is significant, and recognized as important by both the students and community at large.

 **LEVEL 4**

The identified need is of deep and urgent importance to the community (i.e., rebuilding after a natural disaster or working to solve a long-term community concern).

*Examples:* What is the need? How was it identified? By whom?**Explanation:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_**4.3**  
**Service tasks and their consequences are significant** **LEVEL 1**

Students provide assistance with useful, but routine tasks that would otherwise be handled by the individual or agency being helped.

 **LEVEL 2**

Students assist with tasks that provide unique assistance that requires special skills and/or knowledge and are central to the mission of the agency or life of individuals.

 **LEVEL 3**

Level 2 plus students perform tasks which add new dimensions to previous efforts and provide assistance that most likely would not be provided without the help of the students.

 **LEVEL 4**

Level 3 plus students work toward providing a lasting solution to the community need being addressed.

*Examples:* 1) Surveys and focus groups with students; 2) Surveys and interview with site supervisors; 3) Parent responses**Explanation:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_**Essential Element 5****Effective service-learning employs formative and summative evaluation in a systematic evaluation of the service effort and its outcomes.****5.1**  
**Evaluation of Service Outcomes** **LEVEL 1**

Evaluation is an after-thought, with no formal plan for how and when it will take place.

 **LEVEL 2**

The evaluation plan is developed by the teacher and consists of gathering information and impressions at the completion of the service via questionnaire, interview, discussion or paper. It is summative only and not used to improve the project.

 **LEVEL 3**

An evaluation plan is crafted before the project begins and students have a strong voice in its design and implementation. The evaluation occurs before, during and after service and is used to monitor and improve the project and to make recommendations for future projects.

 **LEVEL 4**

Students, teachers and when appropriate, community members, are all involved in the evaluation. Evaluation results are shared with interested audiences including community groups, parents and school faculty.

*Examples:* 1) Evidence of a plan: What is and is not included?; 2) Who is in charge of evaluation?; 3) How will information/data be collected? By whom?; 4) How will information/data be used?**Explanation:** \_\_\_\_\_  
\_\_\_\_\_

**LEVEL 3:** Meets the needed Essential Elements for service-learning

<p><i>Examples:</i> Describe the role you think students had in designing the service-learning project</p> <p><b>Explanation:</b> _____</p> <p>_____</p> <p>_____</p>				

<p><b>6.2</b> Promotes teacher role as facilitator</p>	<p><input type="checkbox"/> <b>LEVEL 1</b> Teacher directs and controls nearly all aspects of the service and learning.</p>	<p><input type="checkbox"/> <b>LEVEL 2</b> Teacher defines most aspects of service and learning but increases opportunities for student decision-making as s/he deems appropriate.</p>	<p><input type="checkbox"/> <b>LEVEL 3</b> Teacher acts as mentor, coach, motivator and facilitator, while students define significant aspects of service and learning.</p>	<p><input type="checkbox"/> <b>LEVEL 4</b> Teacher inspires, respects and encourages efforts that are student-directed in nearly all aspects of the service and learning.</p>

# Essential Element 7

## Effective service-learning values diversity through its participants, its practice and its outcomes.

The term "diverse" is here intended as broadly as possible; it refers to human variety in terms of personal identity, experience (e.g. educational, work or personal experience), and capacity/access to resources. These categories may very likely overlap, they are not intended as labels to "box in" a service-learning participant, but rather to recognize the richness s/he brings to the shared service-learning activity.

**KEY**

**LEVEL 1:** More like community service with an occasional element

**LEVEL 2:** Has some but not all of the Essential Elements of service-learning

**LEVEL 3:** Meets the needed Essential Elements for service-learning

**LEVEL 4:** Represents an exemplary or idealistic level of practice

	<input type="checkbox"/> <b>LEVEL 1</b> Diversity is rarely considered as more than an afterthought either in preparing for service, doing it, or reflecting on it.	<input type="checkbox"/> <b>LEVEL 2</b> Diversity is appreciated, but only discussed when students happen to bring it up. It is not an intentional part of the curriculum.	<input type="checkbox"/> <b>LEVEL 3</b> Diversity is one lens through which service work is always examined and consideration of it is planned for in the curriculum.	<input type="checkbox"/> <b>LEVEL 4</b> Diversity is discussed by all involved in the service work, included in the reflection and problem-solving not only regarding the service project itself but examining deeper issues relating to equity and justice in society.
<b>7.1</b> <b>Diversity is discussed and valued</b>  <i>Examples:</i> 1) Number of participating students; 2) Number of adult volunteers; 3) Ethnicity of participants	<b>Explanation:</b> _____ _____ _____			
<b>7.2</b> <b>Communication with diverse individuals is fostered</b>  <i>Examples:</i> Describe your interactions with individuals at your service site.	<input type="checkbox"/> <b>LEVEL 1</b> Communication and interaction occurs only incidentally and accidentally, being neither discouraged or encouraged.	<input type="checkbox"/> <b>LEVEL 2</b> Communication is encouraged at the comfort level of each participant. There are no deliberate attempts to assure or facilitate interaction.	<input type="checkbox"/> <b>LEVEL 3</b> Goals related to diversity are established. The teacher encourages communication, particularly through service projects that require ongoing interactive work.	<input type="checkbox"/> <b>LEVEL 4</b> Students embrace diversity is an asset to the program and seek out ways to insure interaction between and respect for all persons involved.
<b>Explanation:</b> _____ _____ _____				
<b>7.3</b> <b>Participation by diverse groups is encouraged</b>  <i>Examples:</i> 1) Characteristics of students involved: a) ethnicity, b) economics, c) conditions of handicapping.	<input type="checkbox"/> <b>LEVEL 1</b> Service work is characterized by relatively homogenous groups helping others very much like themselves.	<input type="checkbox"/> <b>LEVEL 2</b> Participation with diverse groups or individuals occurs largely through one group helping another group with whom they would not typically interact (e.g., student helping elders).	<input type="checkbox"/> <b>LEVEL 3</b> Service work involves diverse participants working together.	<input type="checkbox"/> <b>LEVEL 4</b> Service work involves a wide variety of community participants and groups working together in a sustained relationship.
<b>Explanation:</b> _____ _____ _____				

# Essential Element 8

Effective service-learning promotes communication and interaction with the community and encourages partnerships and collaborations.

**KEY**

**LEVEL 1:** More like community service with an occasional element

**LEVEL 2:** Has some but not all of the Essential Elements of service-learning

**LEVEL 3:** Meets the needed Essential Elements for service-learning

**LEVEL 4:** Represents an exemplary or idealistic level of practice

**8.1**  
Teachers and students are knowledgeable about community resources

**LEVEL 1**

Teachers and students have little experience with or knowledge of community resources and potential partnerships.

**LEVEL 2**

Teachers and students are knowledgeable about several key resources and potential partners in the community.

**LEVEL 3**

Teachers and students have a rich knowledge of community resources and a range of ideas for potential partnerships.

**LEVEL 4**

Level 3 plus students and teachers have become resources to others sharing their knowledge within and outside the school.

*Examples:* Describe the level of knowledge teachers & students have about community resources

**Explanation:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**8.2**  
Contact with community resources or partners is cultivated

**LEVEL 1**

There is only minimal contact between teacher, students and any service partners. The teacher sets up the project and the students implement it.

**LEVEL 2**

One or two individuals or representatives of community groups have interacted with the teacher and students to help set up and/or serve as consultants to the service project.

**LEVEL 3**

Ongoing partnerships have been established with one or more community groups to work on the fulfill the service and learning goals.

**LEVEL 4**

Individuals and community groups come to view the school as a regular community partner and resource. They understand that student learning and skills can be applied to help alleviate needs and solve community problems.

*Examples:* Describe the level of contact you had with your community partner during this project: Was this level adequate?

**Explanation:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**8.3**  
Communication, clear roles and outcomes and established among partners

**LEVEL 1**

Communications is irregular and unplanned, sometimes resulting in confusion around roles and responsibilities and intended service outcomes.

**LEVEL 2**

The roles, responsibilities and service outcomes are discussed and agreed upon between partners at the outset of the project and/or reviewed at the end.

**LEVEL 3**

Roles, responsibilities, procedures for handling conflict and other major issues are clarified and agreed upon beforehand. Efficient lines of communication remain open between partners. Feedback and discussion is planned and encouraged throughout.

**LEVEL 4**

Communication evolves into dialogue and from dialogue emerges new perceptions of roles and responsibilities, with those in the community seeing themselves as significant partners in education and those in schools as significant partners in improving communities.

*Examples:* Describe the quality of communication among partners

**Explanation:** \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

# Essential Element 9

Students are prepared for all aspects of their service work including a clear understanding of task and role, the skills and information required by the task, awareness of safety precautions, as well as knowledge about and sensitivity to the people with whom they will be working.

This could be accomplished through discussions, surveys, etc.</p>	<p><input type="checkbox"/> <b>LEVEL 3</b> Level 2 plus students prepare a presentation based on current levels of understanding related to the project area. This could include oral presentations, art work or written work. The teacher identifies levels of learning from these presentations.</p>	<p><input type="checkbox"/> <b>LEVEL 4</b> Level 3 plus upon completion of student presentations, the student/class inventories available class resources (knowledge, skills and attitudes) and areas where further preparation/training is needed.</p>
