Building an Institutional Repository
Managing Faculty Publication and Author Rights Workflow in the Wyoming Scholars Repository

Kelly Visnak, Scholarly Communication Librarian, MLS, PhD
Yumi Ohira, Library Specialist, MFA, MLS
Dear Faculty in the College of Engineering and Applied Sciences:

In an effort to increase the visibility of your scholarship, maximize research impact, and contribute to worldwide accessibility, the UN Library is proud to announce their recent initiative, the Wyoming Scholars Repository (WYSR). WYSR is an open access institutional repository highlighting scholarship at the University of Wyoming. You can view WYSR at http://repository.wyoming.edu.

Content housed in WYSR consists of a variety of scholarly works, including published articles, research papers, professional grade peer-review electronic journals, and conference platforms with papers.

There are many benefits to having your work archived in the Wyoming Scholars Repository:

- **Maximized discoverability**: This platform is optimized for visibility through Google, Google Scholar, and other research engines, making your scholarship highly visible and discoverable to your students and colleagues around the world.
- **Maximized dissemination**: Research articles that are open access are the most frequently read, downloaded, and cited publications.
- **Safeguarding intellectual property**: Protect your content from unauthorized use and ensure your work is protected.
- **Funding requirements**: Archiving publications in your institutional repository ensures your work is accessible for open access. Archiving publications in the institutional repository and making your research publicly available.
- **Funding requirements**: Archiving publications in your institutional repository.

This initiative is designed to help faculty, staff, and students at the University of Wyoming publish their research and share their work with the world. If you have any questions or need assistance, please do not hesitate to contact us.

Please feel free to contact us with any questions.

SINGLE AIRCRAFT INTEGRATION OF REMOTE SENSING AND IN SITU SAMPLING FOR THE STUDY OF CLOUD MICROPHYSICS AND DYNAMICS
In an effort to increase the visibility of your scholarship, reward it for research impact, and contribute to sustainable access, the UW Libraries are pleased to announce a new resource action, the University of Wyoming Department of Libraries’ SHERPA/RoMEO initiative. SHERPA/RoMEO is an open access institutional repository, a digital repository at the University of Wyoming. You can view SHERPA/RoMEO at https://repository.uwyo.edu.

The University of Wyoming is committed to enhancing the visibility and impact of your research. SHERPA/RoMEO is a platform that allows you to upload and share your published research, contributing to the global academic discourse.

To get started, please follow these steps:

1. Access the SHERPA/RoMEO repository at https://repository.uwyo.edu.
2. Search for your article or publication.
3. If your article is not yet visible in SHERPA/RoMEO, upload it to the repository.

If you have any questions or need assistance, please contact the University of Wyoming Libraries at libraries@uwyo.edu.

Best regards,
