Great Leader receives DRA's five year plan course participants

Great Leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the PDPA CC, and President of the RC talking to participants of the special course on five year development plan of DRA.

KABUL, June 17, (Bakhtar).—The Great Leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the Central Committee of the People's Democratic Party of Afghanistan and President of the Revolutionary Council of the Democratic Republic of Afghanistan received the representatives of the participants of the course conducted by the Ministry of Planning Affairs for the purpose of healthy implementation of the five year development plan of the Democratic Republic of Afghanistan at Gulkhana Palace of the People's House at 2:45 p.m. yesterday.

Present at this meeting were also Dip. Eng. Mohammad Siddiq Alemyar, minister of planning affairs and Dip. Eng. Sayed Daoud Taroon, aide de camp of the President of the Revolutionary Council and acting president of the office of the Revolutionary Council.

When the able leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the Central Committee of the People's Democratic Party of Afghanistan and President of RC entered the hall of the Gulkhana Palace of the People's House the audience stood up and welcomed the beloved leader of

the people of Afghanistan with long clapping and expression of enthusiasm.

After responding to the warm feelings of the audience the genius leader of the people of Afghanistan in valuable address said:

Dear friends, Welcome, I tell you welcome you are very fortunate that after the great Saur Revolution you take effective and full part in the five year plan of the Democratic Republic of Afghanistan.

This is indeed worth appreciation and of great pride because you know that the Khalqi state wants to build a new society with new principles and new outlook. This is not only wanted by the Khalqi state but also by all the toilers of Afghanistan. They want the construction of a society void of exploitation of man by man.

The foundation and ground for the construction of such a society cannot be made available without economic change and new economic foundation.

You know that all our ideology, the ideology of the working class, is based on economic. We are convinced that how production takes place, how the products are distributed and whom the products belong to. The society thinks this way; has the same opinion and the society is constructed that way, therefore it is the economics which alters all the infrastructures of the society. We are of the belief that as a person eats, lives and wears clothes the same way he thinks. If he lives in a palace he thinks one way and if he lives in a hut his way of thinking is different. Therefore we want to

bring all our people into the palace and give them palace-based thinking. Their thinking will indeed be high out of this thinking a high society will come up.

Therefore you friends have the honour that in the construction of such a society you are among the first bunch of 150 persons whom the state viewed to be trained so as they implement the five year plan.

Our great and beloved leader said:

If there is no five year plan the society will not be built by words nor happiness will come to Afghanistan. Our advancement should be according to a plan and if we do not move systematically according to a set plan nothing will be achieved. For this reason this course has been held at a high level in which such a group of our youth has taken part. They should be proud that they are such persons who take effective part in implementing the five year plan. They are trained well and are prepared to take part in the building of the country and to serve their country and their toiling people and the people of Afghanistan will indeed take pride in them. With this plan all their economic infrastructures will be indeed changed and once again I repeat that the foundation of a new society will be laid down and Afghanistan will be delivered for ever from misery, hunger, nakedness, and shelterlessness.

Your role in implementing the five year plan is very great and desirable and the people of Afghanistan will never forget it and the future generations will also remember for ever the memory of who have implemented the first five year plan,

who were its implementers and how were its experts, who were the workers which put the plan into effect. You are fortunate that such an opportunity has been provided to you and that you are determined and resolved to implement this first five year plan and that you will strive for the happiness and prosperity of the people. I am sure and you should also be sure that you will come out victorious because the people and the state are all with you and support you all and remove all the obstacles and difficulties which you may face and we can indeed remove them all.

The beloved leader of the people of Afghanistan Noor Mohammad Taraki, President of the Revolutionary Council said:

Indeed economics has important role in the affairs of the society, in the infrastructure of the society and in the construction of the society. As I said earlier it is the economics that changes everything. If economy changes, everything would change and if economy does not change no change would occur in the society. It is an absolute and decisive law that economy will change because new forces are developing and new mode of production comes into play and new ways are created.

Therefore economy is developing indeed. Fortunately in Afghanistan now the economy is rapidly changing and has left behind the tough ways full of difficulties and has now adopted a straight and firm path and that is the path where ownership, production relations and distribution are all founded on new principles and fundamentals and this indeed basically changes the society of Afghanistan becoming

when economy changes as I said earlier everything will change. Therefore you should take pride in the fact that you are a good vehicle in bringing change to the machine of this society. And this machine moves very well and we will forge ahead hand in hand joyfully.

No enemies of our toiling people can resist against us. They may attempt against us for sometime and they may bark. This is something natural. They should do so because we are building a new society and as such they should suffer and bark at us. But the people of Afghanistan at-

taches no importance to their barking and sufferings and on the basis of the five year plan they will bring such economic changes in their society as they brought about the great Saur Revolution.

Our genius and great leader of the Saur Revolution said: Once again I wish you all success and I say again that you will come out victorious because all the state and people's resources are with you and you are trained in this field and you know how to implement this great economic plan here.

Our people appreciate and respect the implementers of the first five year plan. (Continued on p.4)

Politburo discusses foreign interventions

KABUL, June 17, (Bakhtar).—The Secretariat of the Central Committee of People's Democratic Party of Afghanistan reports that under the chairmanship of Great Leader of the people, Noor Mohammad Taraki, General Secretary of the Central Committee of PDPA, President of Revolutionary Council and President of Homeland's High Defence Council in DRA, the meeting of Politburo of Central Committee was held yesterday from 11 a.m. to 12:30 p.m. at the People's House.

At the beginning, the Great Leader and teacher of the people of Afghanistan submitted a brief report to the Politburo on internal affairs and international situation.

Afterwards, the Politburo discussed the conspiracies

of internal reaction and interventions of imperialism and reaction of the region in the internal affairs of our beloved country and strongly condemned the bandit attacks of Pakistani militia on the border of dear Afghanistan and shameful intervention of religious fanatics of Iran in our internal affairs. The Politburo invited all patriotic and toiling people of the country to continue their just war, as so far they have fought and sacrificed themselves in unprecedented bravery, in one united front along with brave armed forces of the People of Afghanistan and under the leader of PDPA, for defending the soil and national honour of the sacred land and gains of great Saur Revolution and until full annihilation of the enemy.

H. Amin addresses Fariab compatriots

Following is the speech of Hafizullah Amin secretary and member of the Politburo of the Central Committee of the People's Democratic Party of Afghanistan and First Minister delivered to ulamas, clergymen, elders and representatives of the noble people of the Fariab province at the Stor palace of the Ministry of Foreign Affairs on Jauza 21 (June 11, 1979).

Dear compatriots, I have the great honour to welcome you at a time when the regime of oppressors, blood suckers and parasites have been toppled in Afghanistan and the political power has been transferred to the hands of the toiling people of Afghanistan represented by your brothers and sons.

While welcoming you again I would like to convey to you dear compatriots the best wishes of the Great Leader of the people of Af-

ghanistan our beloved leader Comrade Noor Mohammad Taraki, General Secretary of the Central Committee of the People's Democratic Party of Afghanistan and President of the Revolutionary Council of the Democratic Republic of Afghanistan.

We have been subjected to oppression of the historical tyrants of Afghanistan for centuries and tolerated a life of deprivations. However, today the people of Afghanistan are endowed with great honour. They have not only been freed of all those deprivations but an atmosphere has also been brought about under which the people of Afghanistan will no more be deprived and no one can carry out oppression and despotism towards the toilers of Afghanistan and they cannot tolerate deprivation anymore. REVOLUTIONARY SLOGAN

Defence of gains of the great Saur Revolution is the duty of all patriots.

Criminal acts of Pakistani militiamen

With every day passing since the establishment of our Khalqi order, clear-cut lines are drawn between the friends and enemies of our regime. The friends are normally acting to help us in different fields and further strengthen their solidarity with us against the ominous acts of the enemies of our people. Our friends show and have shown their goodwill and brotherly attitudes towards our cause from the very outset. The Democratic Republic of Afghanistan, of course, considers these attitudes of our friends as the highest humanitarian behaviour and is totally sure that they are indeed "the friends in need".

However, the desperate activities of our enemies and their objectives are becoming clearer day by day.

As our respected readers are aware the enemies of our people and Khalqi regime, in the guise of the sacred religion of Islam, are carrying out the most criminal acts against our people in the border areas. Recently a number of these treacherous have been killed by the heroic Afghan armed and security forces.

The documents found with one of them show that they are carrying their inhuman criminal acts in the interests of the reactionary circles of Pakistan and under their direct supervision and command. As an example, we are wondering how the Pakistani reactionary circles can deny the activities of one of their militiamen by the name of Garhan Khan, who treacherously has been carrying out criminal attacks on our defenceless villagers. As we have seen the blood of the innocent children, women and men has not been left without a revenge. Garhan Khan and a number of his treacherous friends were killed at the hand of the heroic Afghans.

The killing of the Pakistani militiamen is on one hand delivered innocent people from the tyranny of this criminal on the other hand it revealed that the Pakistani reactionary circles have direct hand in these operations. It showed meanwhile that any kind of denial and rejection on the part of reactionary circles of Pakistan would not have any place and could not be accepted.

Therefore, they have to take the whole responsibility in this regard and pay for whatever has been happening. Another point to refer is the cruel actions of the Pakistani reactionary circles and militiamen in connection with the deceived Afghan patriots.

On the basis of information given by the Afghan deceived returnees, the Pakistani militiamen did not let them by force to return to the Democratic Republic of Afghanistan.

This, of course, is due to the fact that the most obvious factor behind it is first of all the hiding of the encroachment made by the Pakistani reactionary circles on our land. The responsibility of which would be on you as you are trying to fan up the fire of war. Down with the warmongers. Eternal be peace and peaceful co-existence.

Science and experience dictate that people are the makers of history and the tools of every country make their history. Historical price is paid to a country belong to its people. We as your brothers and sons and a loyal part of your toiling people want to prepare the ground for making your glorious history and constructing your homeland. With all respect I tell you toilers, brothers and beloved compatriots, the atmosphere is prevailing under which we can join hands and build our country. Today, we make this commitment and give you the assurance that under the current situation all the enemies of our people are long to you toiling people. Our material and moral wealths are of our toilers; your toiling people are the real owners of our beloved and dear country Afghanistan. The earth and the sky and whatever the nature has endowed on Afghanistan today are at the disposal of you dear compatriots.

The establishment of the People's Democratic Party of Afghanistan and the victory of the great Saur Revolution have not been accidental.

The establishment of the People's Democratic Party of Afghanistan and the victory of the great Saur Revolution are the outcome of the long struggles of your heroic fathers and forefathers and the result of hardship, efforts and endeavours of you dear compatriots.

In dear Afghanistan the heroic sons have always risen up. Our beloved country has never been void of proud mettle and is not so now. There have always been patriots in Afghanistan who sacrificed their lives for the deliverance of the country, and securing better life to the toilers of the country. Thousands of the sons of our country have been martyred by the oppressors of the country. In Afghanistan we see no place, no stone, no mountain and no valley that has not been stained with the red blood of the sons of this country. Everywhere there are traces and signs of the martyrs of freedom in this country. Let us ask ourselves and our beloved and proud elders about the memories of their fathers and forefathers and recall the great Saur Revolution. We still remember the role of our patriots during the reign of Amanullah Khan. But whenever any such light has been shed on the history of our country, the oppressors of our country and the parasites who sucked the blood of our toilers and thrived on them, have joined hands and unleashed their conspiracies to obstruct the path of progress and advancement of the country. They did not let our toilers to get informed and aware because with the progress of the country and the awareness of our toilers they were losing their interest. One of the great and vast honours of the people of Afghanistan is the victory of the great Saur Revolution because the People's Democratic Party of Afghanistan was established as a result of the struggles of the sons of the country, the martyrs of the freedom and the historic heroes of Afghanistan. The great Saur Revolution was triumphed by the experiences of our toiling people and by 15 years struggles of the People's Democratic Party of Afghanistan.

That is why the Great Saur Revolution is the greatest deed of the long centuries of proud experiences of the people of Afghanistan. What is most worth attention is that during the 50 years reign of the tyrannical and despotic dynasty our toiling people suffered much and offered brave sons to the country to struggle for the freedom of their country. As the awareness of the toiling people of our country makes him realise who we are and how we are linked with you and how this awareness promotes the power and strength of toilers in the same way the awareness of oppressors place them against us. When the parasites realised that we were really working for our toilers they took position against us. Therefore, it is noticed that struggle is carried out consciously. We safeguard our regime and develop our country consistently and the oppressors and parasites take refuge to their masters consciously and issue commands against us from the laps of the masters of their fathers and forefathers and fire against us. These are two conscious struggles. With the realisation of this fact we forge ahead proudly towards the development and victory of class struggle and take firm position in the stronghold of the defence of the country day by day and crush all our enemies. The support of our toiling people is not so as they could deceive them and use them inhumanly someday against their own interests. It was as a result of this policy of patriotism and stand along with toilers and are busy constructing the country as our brothers and have stepped down from their power have been provided with all possibilities to live here like equal brothers.

Thus the oppressors have the right to be against us, to fight against the toilers and take refuge to their masters and now they vision the dream of the return of the old regime and the Nader-Daoud regime. That

is why we have declared to our toilers with all patriotism and love of people that all compatriots who have been deceived and displaced from their ancestral homes as a result of their ignorance and unawareness may return to their ancestral homes with all pride and honour and great sense of patriotism and reside with all safety and security and pride and prestige wherever they may want and place themselves on the stronghold of the defence of our country and the interest of the people as the best patriots of our country, and defend the great Saur Revolution along with their toiling people.

Today every toiler who has the least awareness of his rights and his country, the least awareness of the victory of the great Saur Revolution will know how his Khalqi regime is serving him. He knows that neither better regime can be created than our Khalqi regime for the toilers of Afghanistan nor can it be imaginable.

For the proof of this fact one can clearly see that it is a regime that the toilers have brought it about, a regime that the toilers are in power a regime in which it can be rescued from misery and how it can secure an honourable life.

It is for this reason that your workers' regime and your Democratic Republic of Afghanistan have regulated all the essential needs of Afghanistan and put the most important issues. It has drawn up programmes to meet the most essential needs of the people.

All these objectives have been organised in the form of the five year plan of the Democratic Republic of Afghanistan.

All our programmes reflect the fact that people are the makers of history, people build their country and people gain honours and the toiling people attain great honours for their beloved country.

With the victory of the great Saur revolution in Afghanistan an atmosphere has been created which has shaken not only the

region but also all the regions of oppression and exploitation in the world. It is for this reason that for the first time in the history of the world brotherhood and equality have been brought about between the nationalities living in Afghanistan.

From now on no nationality is superior or inferior in Afghanistan. All the nationalities of Afghanistan have the honour of living together in a brotherly and equal manner. Every nationality can proudly say that today it is the owner of Afghanistan, that today the country really belongs to them and all the nationalities of Afghanistan belong to them. Today all the nationalities of Afghanistan are giving education lesson to other nationalities of the region. Today the great Saur Revolution as a result of which freedom, brotherhood and equality have been reflected among the nationalities of Afghanistan has become an example for all those living beyond the borders of Afghanistan. Today, all the nationalities of the region of which we are a part support the great Saur Revolution. Therefore, we all should be prepared to give sacrifice. Your preparations and your sacrifice have shocked your enemies within Afghanistan and the common enemies of all the toiling people. Any one who deals a blow to the common enemy he will be a source of pride to all toilers.

Today the great Saur Revolution has created extraordinary enthusiasm and joy in our Pashtoon and Baluchi brethren. All the toilers of the peoples of Afghanistan and Baluchi side by side with you and with all sense of brotherhood and oneness, wish the great Saur Revolution further success and take position in the stronghold of the defence of the gains of your revolution together with you. Today not only the people of Pashtoon and Baluchi support us with joy but our toiling brothers in Sindh and Punjab also have a feeling of brotherhood and oneness towards you.

Our brother toilers whether they are in Sindh, Punjab, Kurdistan or Baluchistan, Khokhistan or Azerbaijan, wherever they may be, have set the great Saur Revolution as their example.

They consumed all their power and energy in constructing the countries of others. We were not only losing our youths and their energies but their wives were also sitting alone in their homes waiting for their husbands to return. But these brave and toiling youths of our country lost their lives and their families just for the sake of gaining a piece of bread.

With the victory of the great Saur Revolution we did away with this state of affairs and instead we have freedom, political power of Afghanistan and all the material and moral wealths of Afghanistan. The people of Afghanistan found the possibility to build their country and to ensure brotherhood and equality and joined hands without any sense of superiority and inferiority to live as equal brothers.

With the victory of the great Saur Revolution what did the oppressor lose? They lost their freedom, ownership of Afghanistan, political power, their means of merry-making and pleasure. They abandoned their country. However, the best of them who have the sense of patriotism and stand along with toilers and are busy constructing the country as our brothers and have stepped down from their power have been provided with all possibilities to live here like equal brothers.

Thus the oppressors have the right to be against us, to fight against the toilers and take refuge to their masters and now they vision the dream of the return of the old regime and the Nader-Daoud regime. That

is why we have declared to our toilers with all patriotism and love of people that all compatriots who have been deceived and displaced from their ancestral homes as a result of their ignorance and unawareness may return to their ancestral homes with all pride and honour and great sense of patriotism and reside with all safety and security and pride and prestige wherever they may want and place themselves on the stronghold of the defence of our country and the interest of the people as the best patriots of our country, and defend the great Saur Revolution along with their toiling people.

Hafizullah Amin addresses Fariab compatriots

Continued from page 17

Dear compatriots, With the establishment of the People's Democratic Party of Afghanistan vast efforts were made so as the toiling people of Afghanistan would realise their class stance and class consciousness and realise that the only way for their deliverance is class struggle.

It was with the establishment of the proud party class consciousness rapidly grew and evolved among our beloved toilers and the sons of our toilers gathered together and joined hands. Relying on the experiences of their fathers and grandfathers, they could topple down the oppressor and wrested political power in their hands. When the toiling people consciously took political power in their hands, they prepared for the construction of the country. Our toilers who have seized political power have been represented by the People's Democratic Party of Afghanistan. This party has established a workers' state in Afghanistan and provided a firm ground for building the country. It is now our honour and duty to build the country and strive to compensate the old backwardnesses inherited since centuries to us and to make up for ruins of the past. We have to build our beloved country with the strength of our toilers. We take pride now in the fact that an atmosphere has come into Afghanistan where revolutionary waves are rolling and expanding under which we can construct our country with full assurance and feel that the country is ours and we belong to it.

Today while every nation is fully aware of their cause they are equipped with all kinds of arms. It is too dangerous if they fan up the fire of war between the two nations. Thus we would like to ask the imperialist powers and black reaction to stop their help. We would like to warn the reactionary circles of Pakistan and reactionary forces of Iran that in case war breaks it would be the imperialist circles to gain. It would be totally in the loss of our nations and the responsibility of which would be on you as you are trying to fan up the fire of war. Down with the warmongers. Eternal be peace and peaceful co-existence.

Science and experience dictate that people are the makers of history and the tools of every country make their history. Historical price is paid to a country belong to its people. region but also all the regions of oppression and exploitation in the world. It is for this reason that for the first time in the history of the world brotherhood and equality have been brought about between the nationalities living in Afghanistan.

From now on no nationality is superior or inferior in Afghanistan. All the nationalities of Afghanistan have the honour of living together in a brotherly and equal manner. Every nationality can proudly say that today it is the owner of Afghanistan, that today the country really belongs to them and all the nationalities of Afghanistan belong to them. Today all the nationalities of Afghanistan are giving education lesson to other nationalities of the region. Today the great Saur Revolution as a result of which freedom, brotherhood and equality have been reflected among the nationalities of Afghanistan has become an example for all those living beyond the borders of Afghanistan. Today, all the nationalities of the region of which we are a part support the great Saur Revolution. Therefore, we all should be prepared to give sacrifice. Your preparations and your sacrifice have shocked your enemies within Afghanistan and the common enemies of all the toiling people. Any one who deals a blow to the common enemy he will be a source of pride to all toilers.

Today the great Saur Revolution has created extraordinary enthusiasm and joy in our Pashtoon and Baluchi brethren. All the toilers of the peoples of Afghanistan and Baluchi side by side with you and with all sense of brotherhood and oneness, wish the great Saur Revolution further success and take position in the stronghold of the defence of the gains of your revolution together with you. Today not only the people of Pashtoon and Baluchi support us with joy but our toiling brothers in Sindh and Punjab also have a feeling of brotherhood and oneness towards you.

Our brother toilers whether they are in Sindh, Punjab, Kurdistan or Baluchistan, Khokhistan or Azerbaijan, wherever they may be, have set the great Saur Revolution as their example.

They consumed all their power and energy in constructing the countries of others. We were not only losing our youths and their energies but their wives were also sitting alone in their homes waiting for their husbands to return. But these brave and toiling youths of our country lost their lives and their families just for the sake of gaining a piece of bread.

With the victory of the great Saur Revolution we did away with this state of affairs and instead we have freedom, political power of Afghanistan and all the material and moral wealths of Afghanistan. The people of Afghanistan found the possibility to build their country and to ensure brotherhood and equality and joined hands without any sense of superiority and inferiority to live as equal brothers.

With the victory of the great Saur Revolution what did the oppressor lose? They lost their freedom, ownership of Afghanistan, political power, their means of merry-making and pleasure. They abandoned their country. However, the best of them who have the sense of patriotism and stand along with toilers and are busy constructing the country as our brothers and have stepped down from their power have been provided with all possibilities to live here like equal brothers.

Thus the oppressors have the right to be against us, to fight against the toilers and take refuge to their masters and now they vision the dream of the return of the old regime and the Nader-Daoud regime. That

is why we have declared to our toilers with all patriotism and love of people that all compatriots who have been deceived and displaced from their ancestral homes as a result of their ignorance and unawareness may return to their ancestral homes with all pride and honour and great sense of patriotism and reside with all safety and security and pride and prestige wherever they may want and place themselves on the stronghold of the defence of our country and the interest of the people as the best patriots of our country, and defend the great Saur Revolution along with their toiling people.

Today every toiler who has the least awareness of his rights and his country, the least awareness of the victory of the great Saur Revolution will know how his Khalqi regime is serving him. He knows that neither better regime can be created than our Khalqi regime for the toilers of Afghanistan nor can it be imaginable.

For the proof of this fact one can clearly see that it is a regime that the toilers have brought it about, a regime that the toilers are in power a regime in which it can be rescued from misery and how it can secure an honourable life.

It is for this reason that your workers' regime and your Democratic Republic of Afghanistan have regulated all the essential needs of Afghanistan and put the most important issues. It has drawn up programmes to meet the most essential needs of the people.

All these objectives have been organised in the form of the five year plan of the Democratic Republic of Afghanistan.

All our programmes reflect the fact that people are the makers of history, people build their country and people gain honours and the toiling people attain great honours for their beloved country.

With the victory of the great Saur revolution in Afghanistan an atmosphere has been created which has shaken not only the

region but also all the regions of oppression and exploitation in the world. It is for this reason that for the first time in the history of the world brotherhood and equality have been brought about between the nationalities living in Afghanistan.

ns in other countries of workers' regime. I am sure that our future generations will also respect your work and will appreciate it. Our tolerance against all the difficulties we are faced with will not be useless because life is not only the apparent material living. The moral part of the life is very important, i.e., whatever work is done and whatever service is rendered to the people will not go out of mind of the society.

Therefore with full assurance I congratulate you on completing your course at a good time. You are well equipped how to go to this economic battlefield. As the course has equipped you I am sure you will become victorious in this battle.

The great leader of the people of Afghanistan Noor Mohammad Taraki after the speech of Dip. Eng. Mohammad Siddiq Alemyar, minister of planning affairs said: Again you toppled the palace of feudalism. It was not a palace but a mud ruined house which we toppled and in its place we are going to build a palace which would indeed be a lofty one, a very large and beautiful one. You are its engineers and architects. You are the ones who proceed ahead and all the people of Afghanistan say welcome to you and clap for you for the construction of a palace which is very great indeed.

As a replacement to this ruined palace another body had built another palace here and that was the bourgeois palace. We wiped it out and in its place we laid the foundation of the palace of a new society void of exploitation. Therefore you have the pride that you are now its workers and architects and we also proud that we have laid its foundation and we are also architects along with you and do joint work in this palace because it is for the people of Afghanistan. Therefore it is a pride for the people of Afghanistan when any stone and any brick is laid down. This will indeed bear a good fruit to the people of Afghanistan. Again I wish you youth all success. In your action and in your behaviour you should take one think in your view and that is high moral of the People's Democratic Party of Afghanistan and wherever you may live and wherever you may be you should be an example of high moral and good behaviour. If we are not example how the people of Afghanistan would trust

MEETING

KABUL, June 17, (Bakhtar).— Lt. Col Aslam Watanjar, minister of defence met Edward Baradzies, ambassador of Polish People's Republic to Kabul at his office at 4 p.m. yesterday and held talks on matters of mutual interest.

Lt. Col. Fazal Qadir, president of Foreign Liaison of Ministry of Defence of Afghanistan was also present at this meeting.

We should be example of high moral in all fields. We should work for them, not only work for them but even be their servants too. We should not act as their masters. We have the honour that we are the servants of our people and are their good and loyal servants. We will do good work for them as we did in the past. Now we again work for them.

Our beloved and dear leader at the end said:

We take pride in the fact that we take part as good architects in the implemen-

tation of the five year plan. Therefore we tell you again to be with the people and live within the people and behave well towards them. We should heartily serve everyone and should not deceive him. We should be heartily their friends and sympathisers and cooperate with them in solving their problems. They are really in need of our cooperation. They do not want us to act as their masters. These people have tolerated much mastership and lordship and have been injured much by mastership. Now they do not want masters but want

their younger brothers, and their sons so as they would really work for them. Therefore now that you are trained in this field I hope, not hope but am sure, that you will act as honest sons of the people and will be their good workers and will use all your energy and power in meeting their interests to the extent possible. We have not provided such opportunity only for the khalqis to serve the people. Whoever has interest in his homeland Afghanistan, whoever is the lover of the progress of Afghanistan and whoever is the lover

of his soil he is our brother and has the same opportunity with us to build Afghanistan.

We never monopolise the service to the nation and never make it a task of khalqis only. All the sons and daughters of Afghanistan who are really happy with the progress and advancement of their country and have interest in it should take this point into view that the state has provided them all with the same opportunity to serve their country and will give further opportunity in this connection.

Apart to the class war which has been waging since long time and is doing so now there is another war which is going on between two specific forces namely progressive and reactionary.

We are proud that we are standing on the progressive front and struggle against reaction.

I am sure that reaction will be eradicated because progress is the dictate of history and no body can obstruct the dictate of history.

The Bakhtar correspondent adds that after the speech of the Great Leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the Central Committee of the People's Democratic Party

of Afghanistan and President of the Revolutionary Council which was warmly welcomed by the audience in long clapping and expression of enthusiasm. Dip. Eng. Mohammad Siddiq Alemyar, minister of planning affairs on behalf of the audience in a speech addressed to our beloved leader said: The officials and employees of the Ministry of Planning Affairs and the participants of the course will try all their best with a spirit of revolutionary patriotism under the valuable guidances of our Great Leader to implement the five year plan of the Democratic Republic of Afghanistan which has been compiled for the happiness and welfare of the toiling people of Afghanistan and the blossoming of our beloved country Afghanistan.

The Minister of Planning Affairs said: As our oppressed people brought the great and invincible Saur Revolution to victory under the wise leadership of you the Great Leader of the people we are fully certain that they will not refrain from any sacrifice and selflessness in uprooting and full elimination of the abode of reaction and old feudalistic and imperialistic relations and will struggle decisively

in defending the glorious Saur Revolution and its gains.

Dip. Eng. Alemyar said: I give assurance to the Great Leader of the people of Afghanistan that we will not only complete the five year plan of the Democratic Republic of Afghanistan prior to its planned period but will also bury feudalism for ever in Afghanistan on the advice and scholarly guidance of you and the support and cooperation of our toiling people.

Protocol inked on Amu bridge with USSR

KABUL, June 17, (Bakhtar).— The protocol on determining the site for construction of Hairatan bridge on Afghan side over the Amu rival bank was signed at the Ministry of Public Works with the Union of Soviet Socialist Republics yesterday.

The protocol was signed by Dip. Eng. Saleh Mohammad Peroz, deputy minister of public works and Boris Titov, counsellor for economic affairs at the Embassy of the Soviet Union.

Functions held to welcome the beginning of full census

KABUL, June 17, (Bakhtar).— To welcome the start of the full census project in the country, the officials and employees of the Ministry of Higher Education held a grand meeting at the auditorium of that ministry.

At the meeting present was also Prof. Mahmoud Sooma, minister of higher education and heads of department of that ministry.

At the beginning of the meeting the national anthem was played. Afterwards, Qadir Ashna, president of Foreign Liaison and Cultural Relations Department of that Ministry delivered a speech on the importance and role of full census in the country.

The meeting was also addressed by Dr. Mahmoud, secretary of the Party ward 12 and first deputy minister of public health, Ghausuddin, assistant secretary of party ward 12 and President of Cartography and Cadastre and Abdul Qadir Assad, director-general of Construction Department of that Ministry.

Similar meetings were held yesterday on the same occasion by officials and employees of the Ministry of Mines and Industries.

The meeting, after the national anthem was played, was addressed by Eng. Mohammad Ismail Danesh, minister of mines and industries. Speaking on the role of full census in implementing useful plans and programmes of the country, Eng. Danesh said with the victory of great Saur Revolution, the country has undergone great and fundamental changes in all social, economic and political fields and it is fully certain that these fundamental changes will achieve great successes and will enable us to build a society void of exploitation of man by man. However, any plan undertaken for welfare and blossoming the country and prosperity of its people, cannot be fully and effectively implemented unless full and sound statistics and population census are not available.

The Minister of Mines and Industries said, the DRA government, having realised the importance of the census, one year ago assigned the statistics organs of the country to make preparation for full census project and implement it. Today, we are happy that the first stage of this national and important census project has begun successfully and will be carried out in true sense with the cooperation of our noble people.

Eng. Danesh added, the building of a society void of exploitation of man by man, which is the lofty objective of PDPA and aspiration of beloved and genius leader of the people of Afghanistan, Noor Mohammad Taraki, General Secretary of PDPA CC, and President of RC and aspiration of all our toiling people, is not possible without having statistics data and figures. It is now the duty of each patriotic individual, specially our toilers and intellectuals to carry out this project successfully and not to refrain from any necessary help and assistance towards this end.

Census taking continues

KABUL, June 17, (Bakhtar).— The census taking continued with full success in all parts of our dear country Afghanistan, yesterday.

Thousands of our noble and brave people took part, with patriotic spirit, in implementation of the khalqi state project, which is the first full census project in the country and refrained from no sincere help with the census officials. The people showed readiness, with revolutionary enthusiasm, to cooperate.

According to the reports reaching here, until 6 p.m. yesterday in the whole country some 130,000 families were interviewed and filled up the standard questionnaires provided by the enumerators.

The meeting was also addressed by Gul Nawaz, secretary of 1-A Party Ward of Kabul city and president of Afghanistan National Petroleum Institute and some other officials who spoke on the importance of full census in implementing the useful plans of the state.

According to another report similar functions were held by workers and officials of the Pule Charkhi woolen factory, officials and employees of the Ministry of Finance.

The Finance Ministry function was addressed by Khair Mohammad Sultani, deputy minister of finance who spoke on the importance and role of statistics in successful implementation of plans and program of our khalqi state and said. It is the duty of all noble and patriotic people not to refrain from any cooperation in carrying out this project so that the backwardness inherited to us from the past rotten regimes are remedied soon.

The Afghan Construction Unit also held a similar function yesterday which was addressed by Sur Gul Khatez, secretary of party wards nine and ten.

According to another report on the same occasion a function was held in primary school of Dare Qamchi of Ghorband woleswali.

The function was addressed by some local officials who expressed their readiness for implementing this national project.

Deputy Minister of Public Works and Economic Counsellor of embassy of the USSR here signing the protocol on choosing the site for construction of Hairatan bridge.

DRA peace body decries apartheid

KABUL, June 17, (Bakhtar).— The Solidarity Day with the people of South Africa was marked in a grand function by Peace and Solidarity Committee of Afghanistan in a function held yesterday at the gymnasium of Polytechnic Institute.

The function began with the playing of national anthem. Afterwards, some members of the PSCA spoke on the racial discrimination, apartheid, class oppression, tyranny, despotism and barbaric crimes of imperialism on toiling people of South Africa. In commemoration of heroic struggl-

es of people of South Africa against aggressors and agents of imperialism they said, the DRA strongly condemns any action against the world peace and scorns the aggressions, conspiracies, plots and barbaric actions of imperialism and their lackeys.

At the end of the function a resolution, issued by the PSCA in support of Solidarity Day with people of South Africa and condemnation of Soweto massacre that occurred three years ago in Soweto of South Africa, the PSCA on behalf of the peoples throughout Afghanistan, once more strongly condemns this anti-human move and merciless killing of hundreds of innocent and defenceless people of South Africa who lost their lives in ensuring human justice and equality.

The function was attended by members of PSCA, secretaries and members of party wards of Kabul city

and a great number of members of Khalqi Organisations for Afghan Women and Youth.

Following is the text of the Resolution issued by PSCA:

At the time when the majority of the people of the world in support of resolution of International Community is marking the June 16 as the Solidarity Day with people of South Africa and condemnation of massacre that occurred three years ago in Soweto of South Africa, the PSCA on behalf of the peoples throughout Afghanistan, once more strongly condemns this anti-human move and merciless killing of hundreds of innocent and defenceless people of South Africa who lost their lives in ensuring human justice and equality.

It is regrettable that after the elapse of 17 years since the massacre of Sharpeville, this incident is repeated and yet the racist government of South Africa ignores the basic rights of millions of human being in that country and does not refrain from any oppression and tyranny and deprivation of millions of people from their basic rights.

The people of DRA as a peace and justice loving, in the international community, and along with progressive countries of the world, assure of unreserved solidarity with the peoples of South Africa and wishes the success of the revolutionary people of that country in achieving their lofty objective for which they fight.
