> and cooperation with them. The claim of Pakistan that except food and shelter no other assistance has been given to these fugitives is an open lie. The conscious Pashtun and Baluchi people are witness that in addition to well organised military training a considerable amount of arm and ammunition are being provided to the fugitives and Pakistani soldiers are being kept on the Afghan borders.

We have asked the government of Pakistan what is the aim behind this duel policy. Is it not that Pakistan by violating the principle of international detente wants to start war against Afghanistan on the order of imperialism so that she is able to fight with the khalqi forces of Pashtun and Baluchi who have developed new determination and spirit in them and also to avoid the positive effect of the revolutionary reforms of Afghanistan over our people and in this way cool down the sentiments of the people which have been roused against the ruling exploitive classes as a result of political, economic and social stagn-

ation. The ruling class and, the reactionary religious elements and agents of imperialiem on the basis of the instruction of imperialism have been trying to sabotage the revolution of Afghanistan but we have firm belief that the toiling people of Afghanistan by all kinds of sacrifices will foil such black intrigues of world imperialism. awakened people too along with all the peoples of the world have been strongly

It is worth noticing that in spite of repeated claims of the ruling class of the Pakistani government arms and ammunition are being distributed among the tribes, whether the government of Pakistan can claim that this has not been done on their instruction. If it is so, then where is the source of these arms and whether the Pakistani army after supressing the people of the country has not been trying now to create new dangers for the world peace and the existance of Pakistan. This has been repeated so many times.

We ask all compatriots, students, scholars, journaworkers, peasants, lists, members of parliament and other toiling people that if any attack is made on the Democratic Republic of Afghanistan from our soil will Afghanistan remain silent and will our people remain quiet and inspect this event. Then you must make proper assessment regarding their role in this stage at the present moment neither Islam is threatened (nor any religious war is visible as reactionary elements want to create.

Imperialism and the classes related to it are endangered because the war among imperialists, capitalists, feudals, usurers and religious elements on one hand and the toiling people on the other has been continuing. We ask our people so that by utilising their experiences take decisions on the issue.
