Afghan Officials Meet With World Bank Delegation Here

KABUL, June 29—

THE first meeting between representatives of Afghan government and the World Bank mission was opened yesterday by Dr. Nour Ali, Deputy Minister of Commerce, who is leading the Afghan delegation.

In a short speech Dr. Nour Ali hoped that their discussion will bear fruitful results.

Anania, leader of the World Bank mission, said the main consideration in providing credit to Afghanistan will be overall development of the economy with special reference to development of agriculture.

To be able to draw up a proper credit programme the World Bank mission will seek information from Afghan officials on all aspects of development, Anania said. The mission will study banking institutions which provide credit to farmers to help them increase production. It will also review the conditions and procedures governing credits. He added that while extending credit or help in the form of agricultural equipment and fertilizers the farmers' capacity to repay debts should be kept in mind.

He advocated the setting up of an active office to administer the loans.

According to Bakhtar, matters relating to irrigation, provision of tractors and water pumps and

difficulties faced by the Agriculture Ministry and the Agricultural Bank were discussed at yesterday's meeting.

Members of the Afghan mission explained the country's agricultural problems and the measures taken by the government to improve the situation.

Dr. Abdul Ahad Afzal, President of Natural Resources, in the Ministry of Agriculture, said the main problems with regard to irrigation are insufficiency of water and the difficulties faced by farmers in distributing water. Canals in Afghanistan were old, some of them up to 100 years old. A few of the bigger canals required extensive repair work.

The Ministry of Agriculture has in hand a programme to improve the canals and he hoped that the World Bank would finance this programme. Thirteen Afghans and six foreign experts are working on this programme in the Ministry of Agriculture.

Yasin Mayel, President of Agricultural Bank, said requests for tractors and water pumps were being received in progressively larger numbers from farmers in Herat, Kandahar, and Ghazni.

It has been decided to import 2,000 water pumps through the Agricultural Bank and supply them on credit to farmers of Farah, Chakhsour and the Kunars.

Those who have been supplied with water pumps are satisfied with their utility, he added.

Referring to the importance of water in Afghanistan, Dr. Nour Ali said the main problem is irrigation and that is why great significance has been attached to it.

He stressed that the credit programme should be linked with an intensive extension programme to encourage the development of agriculture in the country.

The World Bank mission is scheduled to visit the Ministry of Agriculture today to collect information from the officials concerned.

The members of the Afghan delegation taking part in the talks are Mohammad Yasin Mayel, President of the Agricultural Bank; Mohammad Ehsan Rafiq, President of Extension Work in the Ministry of Agriculture; Dr. Abdul Ahad, President of Natural Resources in the Ministry of Agriculture; Zia Humayoun, President of the Treasury Department in the Ministry of Finance; and Sayyed Aminullah Baha, Director-General of Programmes in the Ministry of Planning.

Dutch Princess Engaged To West German Diplomat

THE HAGUE, June 29, (Reuter)—Queen Juliana Monday announced to the Dutch people the engagement of her eldest daughter, Princess Beatrix, to the West German Diplomat, Von Amsberg—"The choice of her heart".

The Queen in her radio and television broadcast was outspoken about the controversy over Von Amsberg's past as a member of the Hitler youth, but said they had applied "reason and conscience" to their decision.

"They were very early aware of the doubts and even the resistance which their engagement might arouse among many people. Yet they finally felt the objections should not be allowed to outbalance their love," Queen Juliana said.

Mohammad Yasin Mayel, President of the Agricultural Bank (fourth from right), makes a point at the first meeting of an Afghan delegation with the World Bank mission held at the Ministry of Planning yesterday.

Premier Yousuf Postpones Official Visit To Poland

KABUL, June 29.—Prime Minister Dr. Mohammad Yousuf's official visit to Poland which was to take place after the Algiers conference, has been postponed following the postponement of the Afro-Asian summit.

A Foreign Ministry spokesman said that the Polish government has been informed of the decision. The new date of the visit will be announced later.

U Thant Thanks Afghanistan For Support Of UN

KABUL, June 29.—Afghanistan's constant support to the United Nations has been an important element in attaining success achieved so far by the organization, Secretary General U Thant said in reply to Prime Minister Dr. Mohammad Yousuf's message sent on the occasion of the 20th anniversary of the signing of the UN Charter.

U Thant expressed the hope that Afghanistan will continue to support the UN during the difficult years that lie ahead.

Town Construction Dept. Plans New Organisation

KABUL, June 29.—Suggestions made by the Department of Housing and Town Construction on setting up machinery to deal with construction in Kabul and in the suburbs were discussed yesterday at a meeting held in the Ministry of Public Works.

Abdullah, President of the Department said, the suggestions were approved with some amendments that a final decision on them will be taken by the cabinet.

Present at yesterday's meeting were S. K. Rishya, Finance Minister; Abdullah Yafali, Planning Minister; Gen. M. Azim, Public Works Minister; the Mayor of Kabul; the Deputy Minister of Interior; and the President of the Construction Department of the Kabul Municipal Corporation.

LONDON, June 29, (Reuter).—The British Chancellor of the Exchequer Callaghan has flown from Ottawa to Washington for talks with the U.S. Secretary of Treasury.

Ben Bella Well-Treated, Trial Uncertain, Says Coup Leader

PARIS, June 29, (DPA).—

ALGERIAN Education Minister Sherif Belkacem said in an interview with the French daily "Le Monde" that it was not known yet whether ousted President Ahmed Ben Bella would be brought to trial or not.

He said Ben Bella was in good health and well-treated. His future, Belkacem noted, was unimportant now, since the main task was to construct the new state institutions of Algeria.

The Education Minister, one of the leaders of the June 19 coup, declined to reveal the names of the Revolutionary Council, but said it was likely a new President and possibly a new Prime Minister would be named.

He stressed that the Revolutionary Council would not continue to rule Algeria from behind a veil of secrecy but would turn back to parliamentary institutions abandoned or disregarded by Ben Bella.

Belkacem pointed out that, although many strange teachers had come from other countries to preach revolution, no specific action had been taken against them.

President Of Appellate Court Arrives In Mazar

MAZAR-I-SHARIF, June 29.—Mohammad Anwar Wahidi, President of the northern District Appellate Court, arrived in Mazar, the capital of Balkh Province, on Sunday. The secretary and members of the court arrived in Mazar three days ago.

Mazar has been selected as the centre for the Appellate Court which will have jurisdiction over Balkh, Badakhshan, Takhar Kunduz, Baghlan, Samangan, Jousjan and Faryab Provinces.

Introducing Wahidi to the departmental chiefs and members of Local Courts, Aziz Mohammad Alokozai, Governor of Balkh Province, expressed pleasure at Wahidi's appointment to the post.

He said that the new judiciary organisation which has been established to cope with the requirements of the time should be valuable in ensuring social justice.

Speaking of the new judicial institutions, Wahidi said the reforms in the system had been made after an intensive study by experts on law and justice.

With the reorganisation of the judiciary most of the criminal and civil cases will be settled in the local courts within their own jurisdiction.

Decisions of the appellate courts may be taken in appeal to the Supreme Court in Kabul.

ANZUS Ministers Talk In Washington

WASHINGTON, June 29, (AP). U.S. Secretary of State Dean Rusk met Australia's Foreign Secretary Paul Hasluck and New Zealand Prime Minister Keith Holyoake Monday in a Council of Ministers' meeting of the ANZUS defence alliance.

The pact links the three nations in the event their security is threatened in the Pacific and the Far East.

The one-day ANZUS meeting was focussed mainly on the military and political situations in Vietnam and Laos, but also included a review of the Indonesian-Malaysia confrontation.

Australia and New Zealand are both playing important roles in providing defence units and supplies to Malaysia while the United States has concentrated its efforts in Vietnam.

Australia has been increasing its participation, however, in South Vietnam and now has committed a battalion of combat troops.

The Australian viewpoint was expressed by Deputy Prime Minister in Canberra last week when he said that for better or worse, Australia's alliance with the United States or Vietnam must be a two-way affair.

The all-day session of ministers will result in a communique. The meeting in Washington took advantage of the fact that Holyoake, who serves as his own Foreign Minister, and Hasluck were on their way home from the meetings in London.

Afghan-Indian Deans of Colleges Meet

KABUL, June 29.—Prof. Awad Kishore Narayan, dean of the College of Indology of Banaras University and Professor of History and Archaeology, met Prof. Ghulam Hasan Mojaddidi, Dean of the College of Letters yesterday morning.

Prof. Narayan arrived in Kabul on Sunday.

During his 14-day stay in Afghanistan he will visit places of historical interest and deliver a number of lectures at the College of Letters.

Prof. Narayan also met Dr. Surabi, Assistant to the Rector of Kabul University, yesterday.

Common Market Countries Discuss Agricultural Policy

BRUSSELS, June 29, (DPA).—The governments of the six European Common Market (EEC) countries agreed here Monday to strive for simultaneous completion of the common agricultural market and the customs union for industrial goods on July 1, 1965.

The ministerial council, assembled for a three-day session, has succeeded in removing one of the obstacles blocking the way to the new arrangements regarding EEC earnings and spending, envisaged by the EEC commission.

The council, at the beginning of its meeting, expressly recognised that completion of the agricultural market would include a settlement of the West German request for subsidies for dairy products and the market regulation for sugar.

The agriculture ministers were instructed to work out a time schedule today regarding the still unfinished agricultural market regulations.

In the discussion, all delegations, while showing readiness to negotiate, stuck to their former positions, with France and Holland being still sharply opposed to each other over the new earnings and expenditure arrangement.

While Holland does not want to agree to this unless the ministerial council consents to greater powers to be invested in the European parliament at Strasbourg, France rejects the increase of powers of the parliament by an amendment of the EEC treaty for the time being.

EEC Commission President Walter Hallstein pointed out that with the simultaneous realisation of the agricultural and industrial markets there would virtually no longer be a difference between the tariffs for farming and industrial products.

Pakhtunistanis Arrested In Peshawar

KABUL, June 29.—Gulab Khan Morand and two of his friends have been arrested in Marchako Mandai, Peshawar, and jailed on a charge of taking part in nationalistic activities.

New Advance In
Education

Girls' high schools in two provincial centres — Kandahar and Balkh — have sent out their first groups of graduates. This is a welcome event in a country where women have still to attain their due position in society. Much has been accomplished since the Women's Society and some girls' schools were founded in Kabul. But women's education was mostly confined to the capital. It is encouraging to find that the provinces too have begun to make progress in this field and that people themselves are taking keen interest in women's education.

When Prime Minister Dr. Mohammad Yousuf toured Kandahar last April he visited the Zarghona Ana High School, which presented diplomas to its first group of graduates on Saturday. Students at the time asked the Prime Minister to provide facilities for them to be able to go in for higher education in Kabul. The Minister of Education said his Ministry was planning to open a dormitory in Kabul for provincial girls wishing to continue their education. Until next March when Kabul University's new academic year starts both the university and the Ministry of Education have ample time to provide facilities for these girls to come to Kabul and join colleges.

Since the plan for a dormitory is already there it should not be difficult to meet the girls' demand. It is however essential that only those with the best academic record should be encouraged to join institutions for higher education. This principle should be applied to both boys and girls so that we can make the best use of our limited facilities. We do not have resources enough to multiply educational institutions. The expansion of facilities will have to be at a slow pace. At the same time it is important that we should not lower educational standards at the university level.

Since enrolment in the university of girls from the provinces will be a new phase in the development of education in this country it should receive the most careful attention from the authorities.

Viet Cong Step Up Economic Squeeze

The Viet Cong guarantees a part of widespread destruction of rubber trees, which require many years to reach full production. Presumably, the Viet Cong wants to preserve the valuable rubber plantations in the hope it will one day possess them. Should the war start running strongly against them, the Viet Cong might turn to destruction.

What the strangulation of exports will mean by way of added costs to the American taxpayer remains to be seen. Generally, U.S. economic aid makes up the gap between what South Vietnam imports and what she earns in foreign exchange through exports.

The U.S. sources estimate the current rate of U.S. economic aid at about 330 million dollars a year, counting surplus foods. This is up some 50 million dollars from last year.

Reports have been received of heavy increases in Viet Cong taxes on the peasant farmers; of substantial guerrilla cutting of road and rail transportation arteries; of some outright takeovers of rubber plantations which the Viet Cong had formerly allowed the owners to operate.

The Viet Cong also are beginning to hurt rubber exports so sharply that they may slump to nil, too.

The Viet Cong are accomplishing this largely through disruption of transportation but also have been seizing or destroying some crops. Thus far there have been no re-

ports of widespread destruction of rubber trees, which require many years to reach full production.

PRESS

The editorial in yesterday's Anis was entitled "Why Are People Not Interested in the Meshrano Jirgah (House of the Elders)?" While many have been nominated for election to the Wolesi Jirgah (House of the People), there has been little interest in the Meshrano Jirgah. No candidates have been announced for this House from some provinces even though the deadline has already expired.

The editorial gave two reasons for this indifference. First, the very idea of elections is new as far as the Meshrano Jirgah is concerned. In the past all members of this House were nominated. Secondly while candidates for the Wolesi Jirgah have to campaign in a small area, those standing for the Meshrano Jirgah will have to make themselves known to a larger number of people over a much wider area.

The paper emphasised that the Meshrano Jirgah was in no way less important than the Wolesi Jirgah. Every bill will have to be passed by both Houses of Parliament and in case of disagreement over any issue a joint committee of the two Houses will be formed to find a solution. The paper suggested that the government (which has parliamentary authority during the interim period) should extend the date for candidacy to the Meshrano Jirgah so that people have more time to decide whether to stand for this House.

The same issue of the paper carried a letter by Ahmad Jan Niaz complaining about the unsatisfactory management of the Women's Hospital. He said: "Recently my six-year-old daughter fell down from the roof of the house. I had to rush her to the Women's Hospital. It was about 5 p.m. There were no doctors on duty. The two attendants at the gate were very polite but they did not help my injured daughter. I was impatient, but the attendants assured me the doctor on duty won't be long. After two and a half hours of waiting the attendants informed me that there was no need for the doctors to come since my daughter had died."

Will the authorities concerned see that the hospital is better organised? said the letter.

Yesterday's Anis also published an article signed Abdul Wali Shuhab complaining about the constantly rising prices of foodstuffs. Since last year the price of meat has risen by over 60 per cent, it said. The writer opposed the idea of people who are overcharged by shopkeepers complaining to the municipal authorities. This, he said, is not practical for two reasons. First, not everyone has the time to go to the municipality with their complaints. Secondly, they may not want to make enemies for themselves. The best way of checking rising prices is to form control committees consisting of honest and sincere persons. These committees should be given powers to investigate complaints and deal with those who do not keep to the official price lists.

Yesterday's Islah editorially criticised the present trend of government offices going in for expensive furniture and carpets. Carpets, like karakuls, are among our important export items. Their local use should be discouraged as far as possible. It would not be in the interest of our national economy if we furnish government offices with the most expensive carpets available. We should strive for simplicity and tidiness.

Lord Chalfont was addressing the opening of the fourth Atlantic Conference in Oxford, at which 150 young leading politicians from the 15 NATO member-states are taking part.

The Minister stressed that duplication within the alliance had to be avoided to prevent waste of the NATO forces.

The Oxford Conference will continue for the next eight days. Previous NATO conferences have been held in Bonn, Washington and Paris.

Chinese Say They Will Never Recognise
South Korean-Japanese Basic Treaty

The Chinese government has declared in a statement that it will never recognise the so-called Korean-Japanese basic treaty signed by the Japanese and South Korean governments.

The statement has pointed out that the signing of the basic treaty and the related agreements is a grave provocation not only to the Korean and Japanese peoples, but also against the peoples of other Asian countries.

"The Chinese people all stand unswervingly with the Korean and Japanese peoples as well as with the peoples of other Asian countries in carrying their struggle to the end against the U.S. imperialist scheme for using the reactionary to expand its aggression," it states.

The statement says, the government and the South Korean clique brazenly signed the basic treaty and a number of others on June 22. This is a grave attempt by U.S. imperialism to perpetuate the division of Korea and its occupation of South Korea and to enlist Japan and the South Korean clique in the service of its policies of aggression and war.

The statement expresses firm support for the just stand voiced in the statement of the government of North Korea. The statement says, in order to realise its plan of making Asians fight Asians, a plan which is directed against socialist countries in Asia and other peace-loving Asian countries, U.S. imperialism has long been actively fostering the forces of Japanese militarism and deliberately instigating the Japanese and the reactionaries in their attempt to "knock together a 'northeast Asia military alliance'".

with Japan as the nucleus and including the Korean puppet clique and the Chiang Kai-Shek remnant gang. To save itself from defeat U.S. imperialism must collect more cannon fodder from South Korea for its military adventures in Vietnam where it is expanding its war of aggression.

It criminally plots to make Asian fight Asians. The signing of the Korean-Japanese agreement has created great indignation among the Koreans and Japanese. A gigantic mass movement against U.S. imperialism, and the Sato government is being unfolded in the south and northern parts of Korea and throughout Japan. It can be said with certainty that, faced by the heroic Korean and Japanese peoples and the other awakened Asian peoples, the imperialists will go completely bankrupt. By obediently following U.S. imperialism and setting themselves against the people of Korea, Japan and other Asian countries, the Pak Chung Hi Clique will only come to an ominous end.

While at Bangmesa, she said, "The Simbas housed me and protected me. They went out of their way to treat me with every respect."

Then came the massacre. Afterwards she said she and others had been taken away partly because they were women. The rebel code prohibits the slaying of women," she said, "although some had been killed before."

"We lived on berries and learned to cook African food."

"We slept in a hut with two walls. We had nothing to cover us."

Finally she told of her rescue Saturday from a rebel camp: "The mercenaries had gathered behind a hill and all at once they came over the top like a photograph of the 1914-18 war. The Simbas scattered and ran. One was killed, it was all over in five minutes."

with Japan as the nucleus and including the Korean puppet clique and the Chiang Kai-Shek remnant gang. To save itself from defeat U.S. imperialism must collect more cannon fodder from South Korea for its military adventures in Vietnam where it is expanding its war of aggression.

It criminally plots to make Asian fight Asians. The signing of the Korean-Japanese agreement has created great indignation among the Koreans and Japanese. A gigantic mass movement against U.S. imperialism, and the Sato government is being unfolded in the south and northern parts of Korea and throughout Japan. It can be said with certainty that, faced by the heroic Korean and Japanese peoples and the other awakened Asian peoples, the imperialists will go completely bankrupt. By obediently following U.S. imperialism and setting themselves against the people of Korea, Japan and other Asian countries, the Pak Chung Hi Clique will only come to an ominous end.

Afghanistan Builds Exhibition Opens

Monday the exhibition "Afghanistan Builds" presented by the United States Information Service (USIS) opened at the Ministry of Education Rotunda to an audience of invited guests.

The Ambassador of the United States, John M. Steeves welcomed the guests among whom were Dr. Mohammad Anas, Minister of Education; Sayyed Shamsuddin Majrooh, Minister of Justice; Lt. Gen. Mohammad Azimi, Minister of Public Works; Mohammad Hussein Masa, Minister of Mines and Industries; and Abdullah Yafali, Minister of Planning.

This exhibition demonstrates with the aid of pictures and models the various development projects that have been carried out or begun in Afghanistan with funds generated by the sale of surplus American wheat in this country.

These funds are returned to the Royal government of Afghanistan as a grant—not as a loan—and spent upon projects mutually agreed upon. Some examples are the dormitories and other buildings of Kabul University, roads such as those between Kabul and Kandahar, Kandahar International Airport and Dar-e-Sooof Coal Mine.

Johnson Asks All To Develop Space Peacefully

WASHINGTON, June 29.—President Johnson helped start commercial use of the Early Bird communications satellite Monday with a plea that all nations join in the exploration and development of space for peaceful purposes.

Speaking directly to London, Rome, Bern, Paris and Bonn via the world's first commercial communications satellite, Johnson declared that the choice facing mankind today "is a very clear choice between cooperation or catastrophe."

The President said of the occasion:

"This is first of all—a tangible and valuable realization of the promise and potential of man's exploration of space on ahead. We shall take many more—and many longer—strides forward."

The President listened to messages by French Minister of State Louis Jaquinot; West German Chancellor Ludwig Erhard; Raymond Gaspari, Italian Undersecretary of State for Post and Telecommunications; Swiss President Hans-Peter Tschudi, and British Prime Minister Harold Wilson.

Indian Minister Expresses Value Of Health Meeting

HONOLULU, June 29.—"I think the value of this conference is in the exchange of ideas and in making contracts," said Doctor Sushila Nayar, Indian Health Minister, after attending a public health conference at East-West Center here June 21-25.

Dr. Nayar, now enroute home, told a press interviewer that challenging new ideas could result from the conference at which the subject of public health personnel was discussed generally.

"We might find new areas of co-operation," she said. "We might devise methods of improving the training of persons in the health field in different parts of the world through various forms of international co-operation."

"I think international co-operation is very important for the peace and progress of the world and it is bound to increase in spite of the apparent conflict one sees in the world, medical people are in a group particularly suited to international co-operation. You see, our job—medical health workers' job—is to relieve suffering and promote health and well-being. We are all working for the operation."

Five Nations Comment On Postponement At Algiers

MOSCOW, June 29, (AP, DPA, Tass).—LEADERS in Moscow, Peking, Tokyo, Jakarta, and New Delhi expressed varying reactions Monday to the postponement of the Algiers conference.

Commenting on the decision of the preparatory committee to postpone the second Afro-Asian Summit Conference till the autumn, Pravda's correspondents I. Belyayev, V. Mayevsky and N. Prozogin write from Algiers that this decision, "dictated by the situation in Algeria," will unquestionably help to strengthen the unity and understanding among the peoples of Asian and African countries.

"It is no secret that the imperialists have resorted and resort to the most diverse means in their efforts to undermine the unity and solidarity of young national states, of all the forces coming out against colonialism. The barbarous war of U.S. imperialism against heroic Vietnam, the invasion of the Dominican Republic by the American military, the support for Tshombe, the establishment of narrow alignments designed to undermine the unity of the African countries, the provocations in the Middle East are all links of a single chain of the crimes of imperialism endeavouring to hold on to its surviving colonial bastions and organizing a counter offensive against the fighting peoples."

Chinese News Agency said Tuesday the postponement of the second Afro-Asian Conference was a "positive achievement" won by countries which uphold Afro-Asian solidarity and want to make it steady.

NCNA, in a dispatch from Algiers, said "the imperialists and their agents are already coming out with the allegation that the Afro-Asian Conference is 'a failure' and that 'Afro-Asian solidarity has gone bankrupt' but

Chinese Delegation On Agriculture, Irrigation Here

KABUL, June 29.—A nine-man Chinese team of agricultural and irrigation experts arrived in Kabul yesterday. The team, led by agricultural expert Yi-Chey-May, is here under the economic cooperation agreement between Afghanistan and the People's Republic of China.

The team will survey some of the agricultural projects to be financed through Chinese credits to Afghanistan.

A Foreign Ministry source said that the delegation is scheduled to start talks with an Afghan delegation at the Ministry of Planning today.

The source added that the talks will be held on matters relating to agriculture, irrigation, sericulture, poultry breeding and fish farming.

Mohammad Reza, Deputy Minister of Agriculture and President of the Water and Soil Survey Department, will lead the Afghan delegation.

Members of the delegation are Faquir Nabi Alefi, President of the Department of Planning in the Ministry of Planning, and Sayyed Abdul Razak, Abedi, a Foreign Ministry official.

KABUL, June 29.—The Ministry of Public Health said yesterday that according to its medical team in Andkhoy, there have been no new cases of vomiting and stomach disorders there.

Those taken ill after drinking contaminated water are recovering.

they are only cherishing fond hopes." "The development of the cause of the Afro-Asian people unity against imperialism is the stand."

NCNA said proceeding from the principle of non-interference in the internal affairs of other countries, the Chinese government expressed support for the Algiers government, the same as was voiced by many other countries.

Blames Imperialists
It continued "from the very beginning the imperialists and their agents had been scheming to postpone the Summit Conference indefinitely through the Foreign Ministers' meeting. Since then they have intensified these activities."

"The Chinese delegation fully endorses and supports the decisions on the standing committee," said the statement.

In Japan a DPA report said Japan received as only "natural" the news of the preparatory committee's decision on Saturday to postpone the opening of the second Afro-Asian conference.

Shojiro Kawashima, Vice-president of the ruling Liberal Democratic Party, and other Japanese delegates to Algiers met in Tokyo on Monday and confirmed Japan's previous policy of participating in the conference.

Japanese delegation
They also decided to maintain the scale of the Japanese delegation as it has been already formed, at least for the time being.

The delegates, however, agreed to ask Japanese Ambassador to Turkey, Akira Yazaki, who attended the 15-nation preparatory committee session in Algiers to return home and report in detail the general circumstances in Algeria before making any final decision on the matter.

According to informed sources in Tokyo, the Japanese government was increasingly sceptical about the actual possibility of the postponed Afro-Asian meeting to be ever held at all.

They attributed the Japanese scepticism to the coming 20th General Assembly of the United Nations in October, on participation of which many of the Asian and African nations are expected to place more emphasis.

An AP dispatch from Jakarta said Indonesia's acting President Johannes Leimena said Monday the second Afro-Asian conference has not yet failed but it was being postponed.

Indonesian Reaction
Dr. Leimena's statement was the first official reaction here to the postponement of the conference.

He said the "neocolonial views" that the conference has failed are "completely wrong."

Jakarta newspapers Monday generally put the blame on "neocolonialism, colonialism and imperialism for the postponement of the conference."

In New Delhi, a DPA report said Indian Prime Minister Lal Bahadur Shastri felt the postponement of the Algiers "Bandung" conference would give time for the situation in Algeria to stabilize.

Shastri, who arrived here from the Commonwealth conference in London, said the rest of Afro-Asian governments attending the London meeting unanimously decided that the Algiers conference should be postponed in view of the atmosphere prevailing there following the change of government.

Elephant Steaks On Sale In Zambia

LUSAKA, June 29, (DPA).—Elephant steaks at the bargain price of 45 U.S. cents per kilogram have gone on sale in butcher shops in Zambia, according to reports reaching here.

The steaks are being placed on the market by poachers, who are reportedly decimating the large herds in the Luangwa River area. At least 20,000 elephants live in the 9,000 square kilometre area.

U.S. Prepared To Put \$200 Million In Asian Bank

BANGKOK, June 29.—Eugene Black, special advisor to President Johnson on Economic and Social Development in Southeast Asia, said Monday that the United States is prepared to invest 200 million dollars in the proposed Asian Development Bank.

Black, addressing a meeting of the Consultative Committee on the Bank, said the United States would support the bank to help speed Economic Development in Asia.

Black said he looks upon the bank as a "multilateral approach to mobilizing capital to contribute to the Economic Development of the region." He said it would be in a unique position to stimulate regional co-operation because it would be Asian in character, stem from Asian initiative, have substantial Asian capital and be located in Asia with a predominately Asian staff.

Black told the committee members—representing the nine member nations of the UN Economic Commission for Asia and the Far East (ECAFE)—that the United States is in full accord with the experts' proposal to capitalize the bank at 1,000 million dollars. The U.S. offer of 200 million dollars is subject to approval of the congress.

Black, former President of the World Bank, also proposed that a southeast Asia regional development fund be established and said that, again, subject to the approval of the Congress, the United States would offer an additional 100 million dollars for this fund. The money from this fund would be available for both hard and soft loans and in some cases for grants to regional projects.

Mr. Black said he agreed with the Asian Development Bank Committee that the bulk of the bank's ordinary resources should be used to finance projects which are economically and technically sound and capable of producing fairly rapid repayment.

He said he believed that up to 25 per cent of the bank's funds should be used to help countries which usually have least access to other channels of finance.

Home News In Brief

KABUL, June 29.—Gueorgui Kamov, the Bulgarian Charge d' Affaires in Kabul, met Dr. Abdul Wahid Surabi, assistant to the Rector of Kabul University, yesterday afternoon.

He presented a number of books to the library of the University which were accepted with appreciation.

KABUL, June 29.—Prof. Khalilullah Khalili, His Majesty the King's Press Adviser, has resigned his post to stand for membership of the Wolesi Jirga. His resignation has been accepted by His Majesty.

Abdul Hamid Mobarez has been nominated as a candidate for the Wolesi Jirga from the seventh and eighth districts of Kabul city.

ADVT.

Dr. Mohd. Aziz Seraj's Objectives

Candidate from Wards I and 2 to the Wolesi Jirga.

As a servant of the people I would like to describe briefly my aims and objectives to the readers. Each one of these points, however, needs a word of explanation and clarification, which I hope to provide, if asked, on the radio.

The following principles are nearest to my heart:

- 1—To serve the have-nots in the country.
- 2—To carry on an intense and persistent campaign against nepotism and favouritism.
- 3—To fulfil promises made.
- 4—To respect the legitimate and established rights of the people.
- 5—To support and endorse logical statements regardless of the person who wrote or uttered them.
- 6—To oppose rigidly racism and tribalism and to work for national unity or "Afghanism" throughout the country.
- 7—To help in developing outstanding personalities for the country's future.
