**Goals**

UNOmaha is committed to strategic utilization of resources in areas of programmatic strength, and in areas where community partnership impacts important issues in contemporary urban life. U Nomaha accepts accountability and responsiveness to taxpayers and the constituencies it serves. The University is committed to fiscal discipline as well as judicious and creative management in order to accomplish its vision of success.

Our progress toward achieving our vision will be measured/assessed as UNOmaha implements a comprehensive measurement system that allows the campus to establish and track improvements in relation to benchmarks associated with our goals and objectives. Focusing on students, academic excellence and community partnerships will mean little if we cannot determine where we are and what we have accomplished in achieving these goals.

All of these steps are essential as UNOmaha builds a reputation as one of the nation's leading state supported universities in an urban setting. Accordingly, the UNOmaha campus focuses on three overarching goals considered necessary to achieve its vision. UNOmaha will **place students at the center of its vision**, will **focus on academic excellence** to heighten the intellectual environment for scholarship and learning, and will **build bridges to its many communities**.

Objective 1: UNOmaha will meet the educational, training and service needs of its varied constituencies.
Objective 2: UNOmaha will continue to develop and expand partnerships that meet the educational, training and service needs of the community.

Administration, faculty and staff must create measurable, identifiable and concrete strategies to implement the plan. Annual evaluations must be undertaken to assess how each component of the UNOmaha community is engaged in such efforts.
