The Normal Training School at Santee Agency, Nebraska, has been established by the American Board of Commissioners for Foreign Missions for the purpose of raising up preachers, teachers, interpreters, business men, and model mothers for the Dakota Nation. This purpose has already been realized in the number of its former pupils who are now filling important places as pastors, teachers, and government clerks.

We furnish our students unequalled facilities for thorough instruction in the English Language and Science. Physical training and industrial education are also made prominent, for the sake of both health and usefulness.
