ACCREDITED STANDING

The University of Omaha is fully accredited by the North Central Association of Colleges and Secondary Schools, the National Council for Accreditation of Teacher Education, and is a member of the National Commission of Accrediting (not an accrediting agency), the American Association of Colleges for Teacher Education, the Association of Urban Universities, the Association of American Colleges, the National University Extension Association, the American Association of University Women, the Council of Graduate Schools in the United States, the Midwest Conference on Graduate Study and Research, the Engineering Council for Professional Development, the Association of University Evening Colleges, the Adult Education Association of the United States, Association of Governing Boards, the approved list of the International Reading Association, and the American Council on Education. Its courses are accepted, for purposes of teacher certification, by the Nebraska State Department of Public Instruction.

Course credits from the University of Omaha are accepted by other colleges and universities which are members of the North Central Association and by other regional accrediting agencies.

UNIVERSITY REGULATIONS

The University and its various colleges, divisions, and departments reserve the right to change the rules controlling admission to, instruction in, and graduation from the University or its various divisions.

Such regulations are operative whenever the University authorities deem necessary and apply not only to prospective students but also to those currently enrolled in the University.

The University also reserves the right to withdraw courses, to reassign instructors, and to change tuition and fees at any time.

THE COLLEGE OF GRADUATE STUDIES

George R. Bachford, Dean

The first Master's degree was awarded by a special vote of the Board of Regents of the "old" University of Omaha in June, 1931. Graduate work leading to the Master of Arts degree was authorized by the newly organized Municipal University, September, 1931, to be supervised by a Committee on Graduate Studies. In 1942, the Graduate Division was established. The degree of Master of Science in Education was approved in 1948. In 1954, the Committee on Graduate Studies became the Graduate Council and the Chairman became the Director of the Division. In 1960, the Board of Regents authorized a year of graduate study in Education beyond the Master's degree.

Recognizing the growing importance of graduate education, the Board of Regents, in October, 1962, established the College of Graduate Studies at the sixth college of the University of Omaha.

The College of Graduate Studies at the University of Omaha was established to provide an opportunity for advanced study and independent investigation in a limited number of fields of learning for qualified students:

(1) To work toward a Master of Arts or Master of Science degree.

(2) To earn graduate credit for the issuance or renewal of certificates for teachers and administrators.

(3) To provide for professional advancement and scholarly objectives.

Consistent with these objectives, numerous opportunities are provided for advanced students to pursue their studies to the point of original research and investigation, to the discovery of facts, methods, or values. Under the guidance of a major adviser, the student must rely upon his own initiative to apply the principles of methodic study; to master, criticize, and evaluate; and to discover the existing literature in a chosen field of study. To enable the student to attain these objectives, the College of Graduate Studies provides the following facilities: workshops, institutes, seminars, research and special problems courses, supervised thesis instruction, and the supervision of special projects in courses open to graduate credit.

Thus the College of Graduate Studies promotes the spirit of free investigation and free inquiry in the various fields of knowledge, and at the same time serves to unite the various branches of the University in the common task of advancing human knowledge and providing for society intelligent, capable leadership.

ADMINISTRATION

The Graduate Council, which is the legislative and executive body of the College, prescribes the qualifications of all professors who offer graduate work and approves all courses which may be taken for graduate credit. The Dean of the College is Chairman of the Council. The members of the Council are chosen by the President from the departments offering graduate work, upon the recommendation of the respective Deans and Department Heads. Members of the Graduate Faculty are recommended by the faculties and approved by the President.
Membership on the Graduate Faculty is subject to the following prerequisites: a Doctor's degree or a demonstrated interest in scholarly research and graduate teaching, as well as the recommendation of the Dean of the College. Members of the Graduate Faculty serve on the final comprehensive examination committees, as well as counsel the graduate student in his major and minor work. They are also primarily responsible for arranging these courses within their departments which are offered for graduate credit.

AIMS AND OBJECTIVES

The College of Graduate Studies offers major programs in the various areas of education: English, history, psychology, sociology, biology and general science—and minor programs in nine additional fields. With the increasing interest in graduate work and the growing research facilities of the University, it is anticipated that additional major programs will become available in the near future.

The graduate program in liberal arts is designed to meet a variety of needs. By offering advanced study in humanities, social sciences, and natural sciences, it emphasizes, as does the undergraduate program, the non-material aspects of life, providing for the student a fuller understanding and richer appreciation of man's intellectual and cultural heritage. In addition to these general objectives, the program leading to the Master of Arts degree offers a year of graduate work to students who plan to proceed to the doctorate. It is also adapted to the needs of secondary teachers who wish to add their graduate work entirely within the area of their respective teaching fields. A further objective is to furnish graduate students in education a sufficient variety of academic electives to satisfy the various programs in that area.

The graduate program in education has been organized to afford workers in the profession an opportunity to pursue advanced courses in terms of their abilities, interests, and needs. The complexity of modern democratic society places a premium on trained leadership to guide and direct it intelligently. Particularly is this true of the teaching profession, where the teacher is responsible for establishing an environment conducive to the training of citizens for effective living in a democracy. The specific problems which teachers face in their respective teaching-learning situations become the subject matter for intensive study. The teaching-learning situation is literally put under the microscope by experts in elementary and secondary education, educational, child, and adolescent psychology; test and measurements; and educational history and philosophy, as they aid teachers in solving their own problems. Thus, the graduate courses are vitalized by the practical applications and improvements which teachers are able to make in their teaching-learning situations.

Graduate students are expected to become familiar with the latest research in educational methods and techniques. At the University of Omaha, they are given opportunities to engage in the study of child growth and development, while continuing their studies in the teaching subjects. Workshops in curriculum building, as well as clinics in language arts, reading, and child psychology are definite parts of the program. Teachers who wish to advance in the profession by becoming principals, supervisors, or superintendents may take a graduate program leading to these particular certificates.

The University brings nationally recognized authorities to the campus to conduct conferences and clinics in various phases of educational administra-

SCHOLARSHIPS

Phi Delta Gamma, a national fraternity for women, offers an annual scholarship of $200 to a woman graduate student who has completed approximately half her graduate work with an excellent record. For applications and details concerning this scholarship, contact the Dean of the College of Graduate Studies. Applications should be in the Graduate Office by March 1 of each year to be considered for the following academic year.

ORGANIZATIONS

Phi Delta Gamma is a national fraternity for women who are graduate students in education. Membership is by invitation.

Phi Delta Kappa is a national fraternity for men who are graduate students in education. Membership is by invitation.
PROCEDURES AND REGULATIONS

ADMISSION AND TRANSCRIPTS

The student admitted to graduate study is advised and expected to familiarize himself with the academic regulations of the University, the College of Graduate Studies, and the particular requirements of his own academic program. The student is responsible for complying with all regulations of the University, the College of Graduate Studies, and the department of instruction, and for meeting all requirements for his degree. The student should consult with his adviser in the event that there is any question concerning the requirements for his degree.

Admission to the College of Graduate Studies may be granted to students who hold a baccalaureate degree from an accredited institution, and who offer at least fifteen semester hours of undergraduate work in the department of the proposed graduate major.

New students should correspond with, or go directly to, the Director of Admissions in order to apply for admission. Each new student will be required to file with the Director of Admissions:

(1) an application to the University of Omaha;
(2) an application to the College of Graduate Studies;
(3) present two (2) official transcripts of all undergraduate (and graduate, if any) college work previously taken. (Graduates of the University of Omaha need not submit transcripts);
(4) pay a transcript evaluation fee of $5 at the Cashier's Office and have the receipt validated by the Director of Admissions. When applying by mail, enclose a check for the transcript evaluation fee.

Applications for Admission should be in the office of the Director of Admissions at least three weeks prior to the term in which the student expects to matriculate. Application for admission, together with transcripts, must be filed not only by those students desiring to work for a degree, but also by students desiring certification of graduate credit for a teacher's certificate or fee graduate credit to be transferred to some other graduate school. A student whose application is received too late for proper review may be admitted provisionally. The provisional status will not be removed until one month after the opening of the semester.

Foreign students must provide letters of recommendation, statements of financial independence, and evidence of ability to speak and write the English language. The baccalaureate degree must be received from an institution accredited by the proper accrediting agencies.

Admission to the College of Graduate Studies does not admit the student to candidacy for the Master's degree. (See "Candidacy for Degree").

UNIVERSITY OF OMAHA

CLASSIFICATION OF ADMISSION

UNCONDITIONAL

Unconditional admission to graduate study may be granted to a student who has a Bachelor's degree from a regionally accredited institution, who has earned at least a B average in the undergraduate work in his proposed graduate major and/or minor, and who presents at least 15 semester hours of undergraduate work that meet specific requirements of the departments in his graduate major and/or minors. A student from an institution which is not regionally accredited will be admitted on the same basis as he would be admitted by the state university or reporting institution in that state. In such cases, further work may be required, or suitable examination, or in some cases the completion of a Bachelor's degree in an accredited institution.

PROVISIONAL

Provisional admission may be granted to a student who has a Bachelor's degree from a regionally accredited institution but who has not completed all of the undergraduate prerequisite course requirements for admission to the College of Graduate Studies. This provisional status will continue until such time as the student has completed all of the undergraduate prerequisites for graduate study. A student on a provisional basis may, with the recommendation of the department head concerned, and the approval of the Graduate Dean, take the undergraduate prerequisite courses and a graduate course concurrently, provided he has met the prerequisite requirements for the graduate course.

Provisional admission may occasionally be granted to a student who has less than a B average in the undergraduate work in his proposed graduate major and/or minor. (but in no case less than a C average) upon recommendation of the department head of the major department and/or minor if one is involved, and written approval by the Graduate Dean. This admission may be made for reasons of maturity, experience, or other extenuating circumstances under which the student may be deemed capable of high quality graduate study. This provisional admission will not be removed until the student has successfully demonstrated to the satisfaction of the Department and the Dean his ability to pursue graduate study. A student must apply for admission to candidacy for the degree until he has met the requirements of unconditional admission.

SPECIAL

Special students who are not working on a degree program may be permitted to take graduate courses. This applies to graduate students who are meeting requirements for renewal of a teaching certificate, professional growth courses for graduate credit or students who are taking courses for cultural reasons. Students taking work in the special student classification must hold a Bachelor's degree from a regionally accredited institution and meet the prerequisite requirements set up by the departments in which they are doing their work. Any graduate credit earned by such a special student may be applied toward a degree program only after a student has been granted full standing (unconditional admission) and only if the credits he has earned are applicable on the degree program he proposes to pursue.

CONDITIONAL

A student who is within three semester hours of having completed all requirements for the Bachelor's degree at the University of Omaha, may be provisionally admitted to the College of Graduate Studies.
ADMISSION TO TEACHER EDUCATION PROGRAMS

Students who plan to work for the Master's degree with a major in one of the fields of education must hold a valid teaching certificate or be eligible for such a certificate at the undergraduate level before entering the program.

GRADUATE RECORD EXAMINATION

Graduate students who are candidates for a Master's degree are required to take the Graduate Record Examination during their first semester of enrollment in the College of Graduate Studies unless they have taken it previously and the scores are available to the Dean of the College.

This examination, which requires no special preparation or review, gives valuable evidence of a student's qualifications for graduate work and is very helpful in planning courses of graduate study. A nominal fee is charged for the examination. A student who has not taken the examination prior to his application for admission to the College of Graduate Studies but who is judged from other evidence to be capable of graduate study, is assigned provisional status. A final determination of classification will be made after the examination scores have been studied.

FOREIGN LANGUAGE REQUIREMENT

The major department may require a candidate for the Master's degree to demonstrate by examination a satisfactory reading knowledge of one modern foreign language. Specific instructions regarding the language requirement may be obtained from the student's adviser or from the Graduate Office.

REGISTRATION PROCEDURE

The student is to follow the usual procedure in registering for courses by filling out the proper class cards and other registration blanks, and by paying fees at the business office. At each registration period the student must secure the signature of his major adviser and of the Dean of the College of Graduate Studies. Students must have been admitted to the College prior to their first registration.

Any student holding a baccalaureate degree should register in the College of Graduate Studies, unless he seeks an additional undergraduate degree. Graduate students who are not working toward a Master's degree are regarded as "Special" students. Special students include:

1) students working for graduate certification in teaching certificates
2) graduate students taking a Master's degree in another graduate school
3) graduate students working for professional growth
4) graduate students working for cultural advancement
5) graduate students whose admission is on a provisional or conditional basis; i.e. advanced senior, students who have undergraduate deficiencies, students from unaccredited institutions, etc.

CERTIFICATION OR PROFESSIONAL GROWTH

Students who wish to take courses for graduate credit to be used for certification purposes or professional growth must meet the same admission requirements as other graduate students. They must also make application for admission to the Graduate College. (See admission to Graduate College.)

ADMINISTRATIVE CERTIFICATE

Students who are preparing to meet the requirements for an Administrative or Supervisory Certificate must submit to the Office of the Dean of the College, at the time of application for certification, the names of three persons who can vouch for their personal and professional qualifications as a prospective school administrator.

ADMISSION TO CANDIDACY FOR DEGREE

AND PROGRAM OF STUDY

Admission to the Graduate College does not admit the student to candidacy for the Master's degree. After one semester or nine to twelve hours of graduate work have been completed, the Graduate Council will vote upon candidacy for the degree. It is the responsibility of the student to make application for candidacy for the degree as soon as possible after the completion of the first semester or nine hours of work. No degree can be awarded in the same semester as candidacy for degree is voted.

Application forms may be obtained at the Graduate Office, Room 203, and should be filled out by the student in consultation with his major and/or minor adviser. Both the major and/or minor programs are finally arranged at this time and must be signed by the major and minor advisers. The candidacy for the degree application together with the programs of study must be returned to the Graduate Office for filing, and the student will be notified of the action of the Graduate Council upon his application for candidacy for the degree.

Any modification of a program of study once approved is permissible only upon consent of the major adviser if the major is concerned, and of the minor adviser if the minor is concerned. Blanks for change of program can be obtained at the Graduate Office. The student may elect to take a straight major upon recommendation of the head of the major department.

A grade average of "B," with no grade lower than "C," is required for admission to candidacy for degree.

APPLICATION FOR THE DEGREE

The candidate for the degree must file an application for degree in the Registrar's Office in the semester or session in which the degree is to be granted. The graduation fees must be paid at the same time as the application is made. (See Calendar for date.)
THESIS

All candidates for the Master of Arts degree are required to prepare a thesis under the direction of the major adviser. The thesis provides an opportunity for the student to obtain first-hand experience in research methods under competent direction. Up to six hours of credit is allowed for the thesis and the candidate must include the thesis as a course in his schedule during one semester in residence. At the beginning of each semester after the student has initially registered for thesis credit he must inform the Graduate Office concerning the progress of his thesis. Failure to notify the Graduate Office or to be in continuous progress toward the completion of the thesis may result in loss of the thesis topic. The thesis should be initiated at least eight months before the commencement in which the student plans to receive his degree.

Three typewritten copies of the thesis (two copies for the University Library and the student’s personal copy), plus an additional copy if required by the department, must be approved by the major adviser and submitted to the Graduate Office in final form no later than the second week in November in the fall semester, the third week in March in the spring semester, and the second week of the summer semester. The first copy should be on permanent bond paper of 20-pound weight; the other two copies should be on paper of at least 16-pound weight. Either pica or elite type may be used in typing.

Thesis Manual: The responsibility for placing the thesis in final form rests with the student and his major adviser. All theses must be written in accordance with a standard thesis manual. The Graduate Council has approved an official manual for each department and the student will be advised by his major adviser of the standard form to be used.

The cost of binding three copies (see fees) must be paid by the candidate at the time the thesis is submitted in final form to the Graduate Office. If the department conducting the thesis requires an additional copy, it is to be bound at department expense. The fees are payable in the Cashier’s Office.

ORAL EXAMINATION ON THESIS

After the thesis has been delivered to the Graduate Office in final form, the Dean, upon nomination from the major adviser, will appoint a committee to read the thesis and conduct the oral examination over the thesis and thesis field. This committee shall consist of members from the major department and at least one graduate faculty member from another department of the University. One of the committee members must be a representative of the Graduate Council. If the thesis examination is to be combined with the oral comprehensive (noted above), one-half the time shall be devoted to the thesis and one-half to the graduate courses taken by the candidate.

Final comprehensive oral examinations must be taken at least 30 days before the convocation at which it is expected that the degree will be conferred.

Oral examinations cannot be scheduled during the period between the close of the first term of the summer session and the beginning of the sub-

UNIVERSITY OF OMAHA

FINAL COMPREHENSIVE EXAMINATION

A final comprehensive examination is required of all candidates for the Master’s degree near the conclusion of their graduate study. For those who are candidates for the 36-hour Master of Science degree, the examination is written and held on the University of Omaha campus on a specified date: the second Saturday in January, the last Saturday in April, and the fourth week of the first term of the Summer Session.

For the degree of Master of Arts, the final comprehensive examination may be either written or oral. If written, it must be arranged at the convenience of the major adviser. Candidates for the Master of Arts degree and those Master of Science degree candidates who are taking a comprehensive examination in their field of the academic minor must have completed both the major and minor comprehensives not later than 30 days prior to the commencement at which the degree is to be granted during the regular semesters, and not later than the first week of the second term of the Summer Session. If the comprehensive is to be oral, it should be arranged at the time of the oral examination over the thesis, at which time one-half of the examination can be devoted to the courses taken by the candidate and one-half to the thesis.

If the work has been of very high quality, the minor professor may excuse the candidate from the comprehensive examination covering the minor field. This does not prejudice the privilege of the minor professor giving a comprehensive, if he so desires. The minor comprehensive is given at a date arranged at the convenience of both the student and the minor adviser but falling within the limits established for all comprehensive examinations.

TIME LIMIT FOR ALL MASTER’S DEGREES

In evaluating credits earned toward an advanced degree, credits dating back five years or more are subject to reduction in value as determined by the Graduate Council. Once a student has been admitted to the College of Graduate Studies, he is expected to have completed the requirements for the degree within a period of five years. Time spent in the military service of the United States may be excepted in the application of this rule.

QUALITY OF WORK

A "B" average, with no grade lower than "C," must be maintained in all work taken as part of the requirements for the degree. A final grade of "C" in each of two courses will require action on the part of the Graduate Council before the student is allowed to count further work toward the degree.

A grade of "D" or below is considered a failing grade and the student receiving such a grade will automatically be dropped from the degree program. The student thus dropped may take course work as a "Special" student but may not be a candidate for a degree.

A course in which a student has received a "failing" grade may not be repeated or another course substituted for it.

INC—A student may be reported "incomplete" if some minor portion
course is not below "D." An incomplete must be made up during the first nine weeks of the following semester. After this time an "Inc." becomes a failure, unless the Dean of the College of Graduate Studies has approved an extension of the time limit.

Grades made in courses that are not part of the requirements for the degree are not counted as a part of the grade requirements.

CLASS ATTENDANCE

Students are required to attend all meetings of classes for which they are registered, and no student may be excused from any of the assigned class work. It may be assumed that irregular attendance will be reflected in lower course grades; moreover, absence reports are regularly sent to the academic deans and to the Dean of Student Personnel, who will take appropriate disciplinary action. In case of an unavoidable absence it is the student's responsibility to contact his instructor promptly and arrange to make up any work missed.

STUDY-LOAD

An average study load for a full time student is 12 hours of course work. The maximum load for anyone working full time on another job is six hours of course work.

COURSES FOR GRADUATE CREDIT

Courses which are available for graduate credit are those which have been especially approved by the Graduate Council with syllabi on file in the Graduate Office.

Courses numbered 500 and above are open only to graduate students. A limited number of upper-division courses (400 numbered) are available for graduate credit but the student is expected to do supplementary work under the direction of the instructor.

RESIDENCE REQUIREMENTS

A minimum of 30 semester credit hours in residence (36 in case of the Master of Science in Education degree), is required for granting of the Master's degree, except as provision is made for the transfer of credit. No credit will be allowed for extension or correspondence work.

TRANSFER OF CREDIT

Students who have completed graduate courses at other approved graduate schools (excluding extension schools) may petition to transfer as much as six hours of credit, provided the courses considered are pertinent to the student's graduate program. Courses for which transfer is requested must not have been used to satisfy the requirements for any previously awarded degree. Grades in courses for transfer of credit must be the equivalent of "B" or higher. No transfer of credit can be made until the student has been admitted to candidacy for the degree. All work accepted for transfer of credit must have been taken within the five-year period allowed for the Master's degree.

A student who has been approved as a candidate for the Master's degree may, with the prior recommendation of the major advisor and the Dean, avert all courses in residence with the prior recommendation of the master advisor and the Dean.

THE UNIVERSITY OF OMAHA
REQUIRED PROCEDURE
FOR GRADUATE STUDENTS

1. File two official transcripts of undergraduate credits (and graduate, if any) and an application for admission form with the Director of Admissions (Room 202). You will be notified by mail of your admission to the college.

2. Arrange your class schedule with your adviser and have him sign your registration slip before presenting it to the Dean of the College of Graduate Studies.

3. Arrange to take the Graduate Record Examination in Room 213, Administration Building, before applying for candidacy for degree. If you have previously taken the examination, have the scores sent to the Graduate Office.

4. Apply for admission to candidacy for the degree at the conclusion of nine hours of work, and arrange the final program of study on a form sheet. Return the completed form to the Graduate Office. The degree requirements must be completed within five years of the first matriculation date.

5. In the semester or session in which the degree is to be conferred, the candidate must file his intention of taking the degree in the Office of the Registrar (See Calendar for exact date).

6. Arrange with your adviser three weeks in advance for the major Comprehensive Examination and notify the Graduate Office of the time and place. In the case of candidates for the Master of Science degree, the established schedule is: fall semester, second Saturday in January; spring semester, last Saturday in April; summer session, some time to be arranged during the fourth week of the first term. Arrange with your minor adviser three weeks in advance of the intended date to take the minor comprehensive examination, and notify the Graduate Office of the time and place.

7. The thesis for the Master of Arts degree must be submitted in final form to the Graduate Office not later than the second week in November in the fall semester, the fourth week in March in the spring semester, or the second week of the summer session. No thesis examinations will be scheduled during the second Summer Session.

8. Master of Arts candidates must arrange for the Oral Examination to be given at least 30 days before the date of commencement. In the Summer Session, oral examinations must be completed before the close of the first term.

9. Order the cap and gown from the Book Store.

10. Attend Commencement unless excused by petition to the Graduate Council.

DEFINITION OF NON-RESIDENT STATUS

The Board of Regents' rules provide that the non-resident fee shall be assessed and collected each semester from:

1. All students who actually reside outside the city limits of Omaha.
2. Students who are under 21 years of age, unmarried, and whose parents or legal guardians live and maintain their place of domicile outside the city limits of Omaha.
3. Students over 21 years of age living in Omaha (whose parents or legal guardians live outside the City of Omaha), who have not qualified to vote in Omaha, or who have not furnished other satisfactory evidence of bona fide residence.

Note:

a. Residence of a wife follows that of the husband.

b. Residence status shall be determined at the time of each registration. Change of circumstances during the semester does not justify an adjustment of fees during the semester.

c. In case a legal resident of the City of Omaha is appointed guardian of a minor, the residence of such minor for the purpose of this rule shall be considered established in the City of Omaha unless such legal guardian is appointed solely for the purpose of avoiding the payment of non-resident tuition to the University of Omaha.

d. Proof of residence status rests with the student whenever he challenges assessment of the non-resident fee. Payment of such fee may not be postponed pending decision of any case, but fees shall be refunded to the student if it is later found that they have been collected through error. Willful misstatement or concealment of any facts to influence the decision of a non-resident case is cause for immediate dishonorable dismissal from the University.
ADVANCED DEGREES

The Master's degree or the Specialist in Education degree is conferred by the Board of Regents upon recommendation of the Graduate Council and with the final approval of the University Faculty.

The College offers work toward the following degrees: the Master of Science with a major in education, educational psychology, industrial psychology, and social work; and the Master of Arts with majors in biology, education, English, history, psychology, sociology, or general science.

The Specialist in Education degree is a two-year program of specialization in school administration or guidance and counseling. The program is offered for the first time in the 1964-1965 school year.

CO-OPERATIVE PROGRAM LEADING TO THE DOCTOR OF EDUCATION DEGREE

The University of Omaha in cooperation with Indiana University School of Education (Bloomington, Indiana), has arranged a program under which a student who wishes to complete the Doctor of Education degree may take all or part of the second year of graduate work at the University of Omaha, and then take the third year of work, leading to the degree, at Indiana University. For further details concerning this program, and the transfer of work beyond the Master's degree to other institutions, please consult the Dean, College of Graduate Studies at the University of Omaha.

THE MASTER OF ARTS DEGREE

WITH MAJORS IN EDUCATION, English, History, Psychology, Sociology

The program for the Master of Arts degree will usually be arranged to conform to either of the following general patterns:

(1) A major of 24 semester hours in the major field of study.
(2) A thesis not to exceed six semester hours in independent study under the direction of the major adviser.

OR:

(1) A major of 15 semester hours in the major field of study.
(2) A minor of nine semester hours in a related field of interest.
(3) A thesis not to exceed six semester hours in independent study under the direction of the major adviser.

Note: Sociology students - see Master of Science degree with a major in applied sociology for specific examination requirements.

THE MASTER OF ARTS DEGREE

WITH A MAJOR IN GENERAL SCIENCE

The program for the Master of Arts with a major in general science degree will be directed by a Graduate Science Committee consisting of the Dean of the College of Graduate Studies and the department heads of each of the science departments: biology, chemistry, mathematics, and physics. Each candidate will be assigned an adviser who will be responsible for the candidate's curriculum and thesis in accordance with the policies established by the Graduate Science Committee and the Graduate Council.

Prerequisites: An applicant for full admission to the graduate program in science must present, as a minimum, the following prerequisites:

Inorganic or General Chemistry ...........two semesters
General Physics ..........................two semesters
General Biology ..........................two semesters
General Zoology or General Botany ........two semesters
Mathematics .............................through Analytic Geometry

Degree Requirements: The degree requires a minimum of 36 semester hours for completion. Candidates must complete a minimum of 30 semester hours of approved course work and, in addition, submit a thesis, code for which will be allowed to a maximum of six semester hours. Courses leading to the degree will be distributed across the science areas according to the needs of the student with a maximum of fifteen semester hours allowed in any one field.

In general, the student's program will include at least one course in each of the following fields: chemistry, physics, mathematics, biology.

Any deficiency in a basic zoological, botanical, chemistry, physics, or mathematics course must be made up but may not be counted in part of the 36 hour graduate requirement.

THE MASTER OF ARTS DEGREE

WITH A MAJOR IN BIOLOGY

To enter the Master's program in biology, the student must present as a prerequisite a Baccalaureate degree and acceptable credit in:

1. Two semesters of basic biology that shall include both botany and zoology.
2. Twenty-four additional semester hours in biological sciences.
3. Three semesters of organic chemistry (may be taken at the undergraduate level concurrently with graduate work).
4. Two semesters of general physics.
5. Mathematics through trigonometry.

Graduate course requirements:

1. Minimum of 30 semester hours of biological sciences which shall include the undergraduate courses, will assure training in each of the areas of morphology, physiology, cytology, genetics, evolution, taxonomy, and ecology. At least nine hours must be in 500 level courses.
2. A thesis not to exceed six hours of independent research under the direction of a major adviser.

THE MASTER OF ARTS DEGREE

WITH A MAJOR IN SPEECH CORRECTION

Candidates for the degree Master of Arts with a major in speech correction are expected to meet the following requirements in addition to those for general admission:

1. Pass an examination to determine adequate personal voice and speech proficiency and adequate hearing acuity for speech. This examination is administered by the Speech and Hearing Clinic of the University.
2. Have successfully completed a minimum of 18 semester hours of courses in speech science and/or psychology. Speech science courses include such areas as phonetics, acoustics, anatomy and physiology of speech mechanisms, psychology of communication, etc. Psychology courses must include child psychology and psychology of adjustment areas.

A major sequence in speech therapy requires a minimum of 24 hours of course work plus a thesis (six hours). Candidates wishing to meet special national or state certification requirements for speech therapists often need additional hours of course work and practicum. Students should consult with their departmental adviser before planning their programs.

THE MASTER OF SCIENCE DEGREE

The Master of Science degree is offered with majors in a number of programs of education, special education, educational psychology, industrial psychology, and applied sociology.

THE MASTER OF SCIENCE DEGREE
WITH A MAJOR IN EDUCATIONAL PSYCHOLOGY
OR INDUSTRIAL PSYCHOLOGY

Entrance requirements: (1) For educational psychology: A minimum of 15 hours undergraduate work beyond Psychology 101 and including Psychology 213 or an equivalent course. (2) For industrial psychology: A minimum of 15 hours undergraduate in psychology including Psychology 101, Psychology 213, and Psychology 421 or equivalent courses.

Overall graduate course work requirement: EITHER 36 hours in psychology OR 24 hours in psychology plus 12 hours graduate work in a minor field.

Core course requirements: two of the four three-semester credit hour courses listed below are to be taken as part of the first nine hours of graduate work; and ALL of the courses must be taken at some time for either graduate or undergraduate credit.

415 Multiple Correlation and Factor Analysis 3 hours
552 Tests and Measurements 3 hours
457 Theories of Developmental Psychology 3 hours
501 Hist. and Current Trends in Psych. 3 hours

Special requirements:
1. Successful completion of a six-hour written comprehensive exam. This exam is to be taken when no more than three hours of graduate course work (excluding Psychology 595) remains beyond work in progress.
2. Psychology 595, Practicum, must be taken for at least three hours credit. Students are allowed to include up to three hours of additional credit in Psychology 490 or Psychology 595 as part of the 36 hours total.

After completion of the Master of Science in educational psychology or industrial psychology, students will find that graduation programs of study are available in such areas as educational administration, educational psychology, educational research methods, educational technology, developmental psychology, counseling psychology, and community psychology. Students should consult with their departmental adviser before planning their programs.

THE MASTER OF SCIENCE DEGREE
WITH A MAJOR IN APPLIED SOCIOLOGY

The applicant for admission to the graduate program in sociology must present a minimum of 15 undergraduate semester hours in sociology and a course in statistics.

The student will be expected to complete Sociology 501 and a minimum of 27 additional graduate semester hours which must include at least nine hours in an area of concentration, either Criminology—Penology or Community Organizations. In addition, the student must complete satisfactorily six semester hour equivalents in a supervised work practicum related to his academic area of concentration.

The Master of Arts degree is preferable as preparation for continued scholarly work, the Master of Science as preparation for work in applied sociology. Both degrees require the student to demonstrate proficiency in the subject by means of the following comprehensive examinations.

1. After nine hours of graduate work, the student is eligible to take the qualifying examinations which consist of written tests in (1) Sociological concepts and (2) Statistics and Methodology. Upon passing both parts of this examination, the student may apply for candidacy for the degree.
2. Some time before taking the final oral examination on thesis or Practicum, the student must successfully complete the written preliminary examination which covers topics in (1) social psychology, (2) social problems, (3) social organization, and (4) sociological theory, or a minor field.

THE MASTER OF SCIENCE DEGREE
WITH A MAJOR IN SPEECH CORRECTION

Candidates applying for admission to a Master of Science degree program with a major in speech therapy are expected to meet the following requirements:

1. Pass an examination to determine adequate personal voice and speech proficiency and adequate hearing acuity for speech. This examination is administered by the Speech and Hearing Clinic of the University.
2. Have successfully completed a minimum of 15 semester hours of course work leading towards eligibility to take the certification examination.

Those wishing to meet national or state certification requirements for speech therapists should consult with the departmental adviser before planning programs of study.
THE MASTER OF SCIENCE DEGREE
WITH A MAJOR IN EDUCATION

This degree is designed primarily for the master teacher, supervisor, or administrator. It is granted upon the completion of a program of advanced study to students who are working professionally in the field of education. Eligibility for teacher certification is a prerequisite for admission to any of the graduate programs with a major in education.

The requirement for this degree is 36 semester credit hours and must always include:

- Ed. 501, Introduction to Research 3 hours
- Psy. 531, Advanced Educational Psychology 3 hours
- Ed. 505, Seminar in Education 3 hours
- Ed. 502, History and Philosophy of Education 3 hours

The total program of courses will usually be arranged to conform to the following general pattern:

1. Eighteen to 24 semester hours in the major field of specialization; such as, elementary education, secondary education, educational administration, and guidance.
2. Nine to 18 semester hours in a minor field of study.
3. Curricula in administration will also include Education 570, Practicum.

The curriculum pattern covers three areas: professional education, specialized teaching fields, and directed academic electives.

Professional education may include courses in the following fields: administration, supervision, secondary education, elementary education, educational guidance, nursing education, and college business management.

Students may major in the following fields: elementary education, guidance, public school administration (includes elementary and secondary administration), secondary education, nursing education, reading, special education, (includes speech correction, education for the deaf or mentally retarded) and college business management. Minor fields include: education (for those majoring in academic fields), elementary education, reading, secondary education, and others.

The program in the major field of study will be determined by the student and his major adviser; the minor field of study by the student and his minor adviser, subject to the approval of the Dean.

UNIVERSITY OF OMAHA

PROGRAMS FOR MAJORS IN EDUCATION

Students pursuing a Master of Science degree with a major in education shall be expected to take at least 9 to 18 semester hours in selected academic courses. These should preferably be in courses other than those offered in education. These courses shall be selected on the basis of advisement and availability. For purposes of brevity, such courses shall be designated as selected academic courses. The following are suggested programs only which may apply to the Master of Science degree with a major in education. The program of studies for the Master of Arts degree with a major in education will be determined by the major adviser upon request.

MAJOR IN ELEMENTARY EDUCATION

I. Selected Academic Courses 6 to 12 hours
II. Required Courses 24 hours
- Ed. 501, Introduction to Research
- Ed. 502, History and Philosophy of Education
- Ed. 505, Educational Seminar
- Ed. 511, Problems in Teaching Reading—Elementary
- Ed. 514, Text Subjects in the Elementary School
- Ed. 512, Cultural and Content Subjects—Elementary School
- Ed. 560, Administration and Supervision in Elementary Schools
- Psych. 531, Advanced Educational Psychology

III. Selected Courses 3 to 6 hours
To be determined by student and his adviser

MAJOR IN SECONDARY EDUCATION

I. Selected Academic Courses 12 to 18 hours
II. Required Courses 9 hours
- Ed. 501, Introduction to Education
- Ed. 502, History and Philosophy of Education
- Ed. 505, Educational Seminar
- Psych. 531, Advanced Educational Psychology

III. Selected courses 9 to 15 hours
(To be determined by student and his adviser)

MAJOR IN READING

The Master of Science degree with a major in reading conforms to standards of the International Reading Association for the professional training of Reading Specialists. Applicants for admission must be eligible for teacher certification at the undergraduate level. The following programs of studies will prepare the student as a teacher of reading at either the elementary or secondary level.

I. Required Courses 30 to 33 semester hours
- Ed. 501, Introduction to Research
- Ed. 502, History and Philosophy of Education
- Ed. 505, Educational Seminar
- Ed. 511, Problems in Teaching Reading—Elementary
- Ed. 512, Problems in Teaching Reading—Secondary
- Ed. 513, Diagnostically Remedial Instruction in Reading
- Ed. 514, Individual Analysis of Reading Difficulties
- Ed. 515, Clinical Practice in Reading
- Psych. 531, Psychological and Educational Testing
- Psych. 552, Tests and Measurements
- Psych. 452, Child Psychology
- Psych. 454, Adolescent Psychology
- Psych. 443, Personality Theory
- Psych. 531, Advanced Educational Psychology

II. Selected Electives

UNIVERSITY OF OMAHA

MASTER OF SCIENCE DEGREE

WITH A MAJOR IN COLLEGE BUSINESS MANAGEMENT

A degree for administrators of colleges and universities — presidents, business managers, accountants, comptrollers, purchasing agents, registrars, etc. For more complete details of this program, write to the Dean of the College of Graduate Studies.

A portion of this degree program consists of short-courses (Education 546 College Business Management, 2 hours credit), offered during one week of the summer session, generally the last week in July.

In addition to the four hours in short-courses, the candidate for the Master's degree will offer 12 hours of standard courses in the field of education as noted below (Education 481, 500, 502, and 505). Academic electives comprising 18 to 21 credit hours, may be taken from graduate level courses in education, economics, political science or psychology. The student must present a total of 36 hours in regular education courses and electives for the Master of Science degree. If the student desires, he may receive a Master of Arts degree by presenting 24 hours of course work plus a thesis of three to six hours credit in lieu of a corresponding number of hours of elective work. It will be noted that as many as six hours of credit may be transferred from other accredited graduate schools, provided the transferred credits can be fitted into the degree program.

Prerequisite: Bachelor's degree from an accredited institution and preparation in accounting and major work in either business administration or education. Students with inadequate preparation in accounting must achieve reasonable proficiency in order to be admitted to the program for degree.

I. Academic Electives ........................................ (Not to exceed 21 hours)
   (From graduate level courses in education, political science, psychology, English, history, sociology or economics)

II. Required Courses ........................................ 12 hours
   Ed. 481, Principles of Adult Education
   Ed. 500, Special Studies (Subject to be associated with college business management and report worthy of publication)
   Ed. 502, History and Philosophy of Education
   Ed. 505, Education Seminar
   Ed. 546, College Business Management
SPECIALIST IN EDUCATION DEGREE

The Specialist in Education degree (Ed.S.) is an advanced degree, involving a minimum of one year of study beyond the Master's degree. It is designed to prepare school administrators and directors of guidance to be more competent members of their profession.

Each applicant will be considered in terms of his educational and professional background and experience. Programs will be planned to meet individual needs and objectives. The Specialist in Education degree is designed to be independent of further graduate study. It will be wholly within the province of an institution offering the Doctor's degree to determine whether or not any part of the Specialist program may be used in partial fulfillment of the requirements for such a degree.

Admission and Degree Requirements

Applications for admission should be made directly to the Director of Admissions, University of Omaha (See Admissions). In general, the applicant:

1. Must hold a Master's degree from an accredited institution offering graduate work. The major field of study in the Master's degree must be in the same field in which he proposes to continue his graduate work.
2. Must have had a minimum of four years successful teaching experience and must submit three letters of recommendation from principals, supervisors, or superintendents under whom he has taught.
3. Be approved for admission to the program before his first enrollment.
4. Must submit the results of the Graduate Record Examination with the application for admission.

Before the applicant is accepted for the program, he must be recommended by a faculty advisory committee which will base its recommendation on:

a. A personal interview
b. An evaluation of the applicant's general educational and professional qualifications to undertake the proposed program
c. The results of the Graduate Record Examination
d. A review of the applicants proposed plan of study including courses, practicums, and seminars
e. Prerequisite courses which must be completed, if necessary, before the student may be accepted into the program.

The applicant will be notified in writing concerning his admission to the program.

Permission to enter the program does not automatically designate the applicant as a candidate for the Ed.S. degree. He may become eligible for the degree only after he has completed 12 semester hours of course work and has taken a qualifying comprehensive examination over the field of his specialization.

After a review of his course work and the results of the qualifying examination the candidate's committee will recommend to the Graduate Council which will make the decision concerning the applicant's candidacy for the degree. The applicant will be notified in writing by the Graduate Office of the decision of the Graduate Council. A permanent plan of study will be filed by the committee with the Graduate Office at the time of admission to candidacy.

The candidate must spend a minimum of one semester and one summer in full-time residence study. In some cases, upon the recommendation of the committee and approval by the Dean, a student may be permitted to substitute four summer terms for the residence requirement.

Immediately after acceptance for admission to candidacy, the candidate will file with the Graduate Office a tentative topic for his field study. The field study is an independent study of a specific problem in the area of educational administration or guidance as the case may be. The subject of the study must be approved by the student's faculty committee and the Graduate Dean immediately after the candidate has been approved for candidacy for the degree. The student must continue to report to the Graduate Office each semester the progress of the field study. Failure to report progress may result in loss of the topic and the student may be dropped from the program.

The student must also be enrolled for course work each semester after admission or submit in writing to the Graduate Dean the reason why such enrollment cannot be made. If the student is not enrolled for course work for two consecutive semesters or summer terms, he shall be dropped from the program and must apply for readmission by petition to the Graduate Council.

All work for the Ed.S. degree, including the field project report, must be completed within a period of six years from the time of first admission to the program.

Upon completion of the field project, which will be done under the direction of the faculty committee, the student will submit three typewritten copies to the Graduate Office. This report, which shall be of thesis caliber, must conform to the style prescribed by the College of Graduate Studies.

A final oral examination will be required over the work of the field project and the examination may be extended to include the general field of the student's major and/or minor field. The examination shall be announced to the Graduate Faculty and any member who desires to do so may be present and participate in the questioning. The members of the student's faculty committee will vote upon acceptance of the study.
