*...to those who dedicate their lives to
the high calling of instruction
to all students who shall here
learn to earn a living
and to live a cultured life
not as two processes
but as one ...*

THE UNIVERSITY OF NEBRASKA AT OMAHA

SETTING THE PACE

We believe setting the pace accurately describes University of Nebraska at Omaha's place in the agenda of the future.

The theme takes its lead from our Role and Mission Statement, in which the University of Nebraska at Omaha declares itself a "pacesetting, comprehensive metropolitan university."

Implicit is our commitment to offer the highest quality curriculum in an environment of innovation.

We are proud to be an intricate part of the fabric of our city and state. Through diverse and far-reaching programs, UNO is touching the lives of our citizens, helping to create better schools and businesses, a stronger economy, a vibrant arts community and much more. Through a diverse academic curriculum, a spirit of inquiry and high standards of achievement, UNO is setting the pace for growth, leadership and innovation in the key issues which affect us all.

The University of Nebraska at Omaha ... *Setting the Pace*.

ACADEMIC REGALIA

Identification of the hood and robe as academic apparel is believed to have originated at the English universities of Oxford and Cambridge during the twelfth and thirteenth centuries. The hoods are a carry-over from the times when monks, who operated these universities, wore them to protect their shaved heads in winter. The robe is an adaptation of the shoulder cape also worn by these same monks while collecting alms.

Use of the academic robe came to the United States in 1754 with the founding of what is now Columbia University. In 1895, a commission of University officials adopted a universal code of design and color for the academic garb. This code has undergone several revisions in subsequent years.

Styling of the robes varies for the bachelor's and master's degrees with the width of sleeve borders and length of the hood increasing with each advanced degree. Hoods are normally not used for bachelor's degrees today. Instead, the tassel colors are used to indicate the degree program.

UNIVERSITY HONORS PROGRAM

The University Honors Program is an all-University program which provides maximum educational opportunities for students of high ability through special multidisciplinary seminars and participation in an academic level not generally possible in usual curricular offerings.

The program is an outgrowth of the Arts and Sciences Honors program and was initiated in 1978. It is governed through the office of the Vice Chancellor for Academic Affairs and administered through the Honors Coordinator. UNO colleges which implement honors programs include Arts and Sciences, Business Administration, Education, Fine Arts and Public Affairs and Community Service.

As part of their Honors Program requirements, students undertake a research project that results in a Senior Honors Thesis. Students and their theses topics are listed at the end of the list of graduates. Students who have been designated in this booklet as Honors Program students have fulfilled the academic requirements of this program.

MEDALLION COLORS

Students receiving their baccalaureate degree with honors will be presented medallions in the colors designated.

THE CHANCELLOR'S MEDAL

The Chancellor's Medal of the University of Nebraska at Omaha was established to recognize the contributions of faculty and administrative staff which are a mixture of academic prowess, physical vigor, the ability to visualize social structure and an applied sense of humanity.

People are responsible for the growth of vitality of institutions. At the University of Nebraska at Omaha we are fortunate to have men and women who have accepted this charge. They have a belief in the University's destiny and this dedication has resulted in a kind of genius that merits special attention. The Chancellor's Medal is one means of recognizing these people. It is bestowed only to those within the University community who have demonstrated unusual excellence.

CHANCELLOR'S MEDAL RECIPIENT

RAYMOND A. GUENTHER, Ph.D.

Raymond Guenther, Ph.D., Chair of the Department of Physics at the University of Nebraska at Omaha, is recognized throughout the campus for his tireless work both in and out of the classroom. A member of the UNO faculty since 1969, Dr. Guenther holds the rank of Professor and Graduate Faculty Fellow, with research interests in computer modelling of phase transitions, energy alternatives and product-integral calculus.

A graduate of the Illinois Institute of Technology, Dr. Guenther was selected as a student research associate at the prestigious Argonne National Laboratory. He is a prolific writer and presenter, having authored, co-authored and presented research in dozens of scholarly publications and at several professional conferences.

His service to the University includes extensive academic instructional development, including the introduction of new courses, retention of academic programs and serving as a departmental advisor to other colleges. A distinguished member of the Faculty Senate, Dr. Guenther formerly was on the Senate's Executive and Academic and Curricular Affairs Committees. Currently, he serves on the College of Arts and Sciences' Educational Policy Committee and the Subcommittee on Curricular Review. Frequently called upon for a variety of other university committees, Dr. Guenther has lent his advice and counsel regarding program review, computer usage, general education, interdisciplinary science courses and the development of UNO's spring open house, *Celebrate UNO*.

Respected by colleagues and students alike, Dr. Guenther is credited for his leadership in the development of UNO's Materials and Science focus as part of the Nebraska Research Initiative.

CHANCELLOR'S MEDAL RECIPIENT

RODNEY L. OBERLE

Rodney L. Oberle was hired as payroll manager at the University of Nebraska at Omaha in 1972. In 1974, he was promoted to personnel director, the position he now holds. UNO also is his alma mater in that he graduated from the College of Business Administration in 1967. In 1986, he received a commendation from the University of Nebraska Board of Regents and an Award of Excellence from UNO's Athletic Department. He now serves on the Board of Directors of the UNO Alumni Association.

Mr. Oberle is very active in the professional organization, College and University Personnel Association (CUPA). He has published numerous articles in the association's magazine, *The CUPA Journal*, and is a frequent speaker and seminar leader at both regional and national conferences. In 1987, he was the founding president of CUPA's Great Plains Chapter. In 1989-90, he served as the director of membership in CUPA's Midwest Region. In 1990-91 he was secretary/treasurer of the Midwest Region; last year he served as chair-elect. This year he is chair of the organization. Mr. Oberle was a two-time recipient of CUPA's Achievement Award for Research (1985 and 1987) and CUPA's Certificate of Appreciation (1989 and 1990). He also was the 1990 recipient of the organization's *Outstanding Service Award*.

Mr. Oberle also is involved in various civic organizations. He has been active for many years in Optimist International and has received numerous awards from that organization. As a member of the Gretna Optimist Club, he served as secretary/treasurer in 1984-85, president in 1985-86 and Nebraska lieutenant governor in 1986-87. He also has been elected as chair of the Board of Trustees of Sanitary and Improvement District No. 34 of Sarpy County, Nebraska for the past ten years.

COMMENCEMENT SPEAKER

JOHN SHRODER JR., Ph.D.

Today's commencement address will be delivered by UNO faculty member John Shroder Jr., Ph.D. , a professor in the Department of Geography and Geology. A distinguished researcher, author, and lecturer, Dr. Shroder is internationally recognized for his study of Afghanistan and the surrounding region. During the mid-1970s, Dr. Shroder served as the director of the National Atlas of Afghanistan Project, a joint effort between Kabul University and UNO. He returned to the region in 1983-84 as an exchange professor at the University of Peshawar, Pakistan. Widely published, Dr. Shroder is one of a small group of world-class researchers with extensive background in the mineral resources and geographic composition of Afghanistan. He also served as a member of the President's Special Committee on South Africa from 1990-91.

Closer to home, Dr. Shroder also is known as a tireless worker on behalf of the University and its faculty. Formerly the president of the UNO Faculty Senate (1990-91), he has been the chair of the Department of Geography-Geology since 1989 and serves as an elected member of the Executive Graduate Council of the University system. He continues his service to the UNO Faculty Senate as an elected member and is a past chair of the University Committee on Research.

A doctoral graduate of the University of Utah at Salt Lake City, Dr. Shroder also holds degrees from the University of Massachusetts at Amherst and Union College in Schenectady, New York. In 1988, Dr. Shroder received the UNO Award for Distinguished Research and Creative Activity. A prolific grantsman, Dr. Shroder's research has received the support of the National Science Foundation, the Fulbright Foundation, the Smithsonian Institution and most recently, the Kiewit Foundation in support of the Nebraska-Dartmouth Partnership. This research combined field, laboratory and a remote sensing study of the geologically active mountain belt in Czechoslovakia and Pakistan.

Dr. Shroder joined the UNO faculty in 1969.
