Academic Calendar

SUMMER SESSION 1923

June 18—Monday, Summer Session begins.
June 27—Wednesday, Summer Session closes.

ACADEMIC YEAR 1923-24

First Semester

1923
September 10—Monday, Entrance Examinations.
September 11—12, 13, Tuesday, Wednesday and Thursday, Regular Registration Days.
September 17—Monday, Convocation and Formal Opening.
September 21—Friday, Y. M. C. A. and Y. W. C. A. Reception.
November 29—Thursday, Thanksgiving Recess.
December 20—Friday, Holiday Season begins.

1924
January 2—Wednesday, Resumption of Work after Holidays.
January 23-30—Wednesday to Wednesday, Semester End Examinations.
January 30-31—Wednesday and Thursday, Registration for Second Semester.
February 4—Monday, Beginning of Second Semester.
February 14—Thursday, Lincoln's Birthday, Special Convocation.
March 28—Friday, Recital of Department of Expression.
May 9—Friday, Dramatic Club's Annual Play.
May 23—Friday, Gala Day: Crowning of May Queen; May Pole Dance; Student's Entertainment.
June 1—Sunday, Baccalaureate Sermon.
June 2—Monday, Faculty Reception for Seniors.
June 4—Wednesday, Musical Recital.
June 5—Thursday, Commencement.
June 6—Friday, Alumni Banquet.

Historical Statement

THE University of Omaha is an outcome of the modern educational trend in the direction of establishing institutions of higher liberal, technical and professional training in the great centers of population. The growth of cities is the phenomenon of our modern civilization. In all countries which have progressed beyond the merely agricultural stage of industrial development, the proportion of the total population residing in cities is steadily increasing at an astounding rate.

PROBLEMS ENTAILED BY PHENOMENAL GROWTH OF CITIES

This persistent and rapid concentration of populations entails grave economic, civic and social problems of the most crucial sort. Indeed, the problem of the city may be said to be the outstanding problem of our modern social organization. America's greatest menace lies in her failure to adequately reckon with her municipal problems. For this great task there must be trained efficiency and this can be best provided only through appropriate agencies conducted in closest proximity to the problems which require to be scientifically studied and treated. It is the recognition of this fact that has led to locating nowadays in cities various philanthropic institutions which formerly were thought to be rightly located only beyond the city limits.

MODERN CITIES AS EDUCATIONAL CENTERS

It is only a further recognition of this same fact that has led to the establishment of city universities and colleges, conceived on broad lines, permeated with civic pride and devotion to human welfare, and articulating themselves with the varied needs of cities for scientific guidance and trained efficiency. Indeed, philanthropic and remedial agencies, in general, serve their purposes better when operated in correlation with the systematic processes of investigation which obtain in a university.

Similarly, the industrial enterprises of a city may, with advantage, become quite extensively articulated with the scientific department of a well-equipped university. Every great city may be likened to a ready-made laboratory where the materials and processes of production and distribution are assembled on a vast scale and lend themselves most readily and normally to scientific study and manipulation. Here as nowhere else, should theory and practice meet. Here is where science and its application should be most skillfully exemplified.

AN EXPLODED NOTION

Once the opinion prevailed that a university is an institution for the cultivation merely of speculative, theoretical and aesthetic tastes, a so-called "republic of learning," or agency for engineering an intellectual aristocracy, and that it should be properly located "under classic shades" and in romantic surroundings remote from the work-a-day world. But our modern world with its spirit of mastery, its highly organized industry, its political and social purposiveness, its demand for scientific specialistm, technical skill, and trained efficiency, will no longer brook such a divorce of higher education from practical affairs. The times demand that educational ideals and aims be democratic, humanitarian and practical. More than ever Wisdom, like the tabernacle of old, must take up its abode in the midst of the people. All the advantages of higher liberal, technical and professional education must be made accessible to the masses of young humanity and, indeed, to all educable per-
sons of whatever age, who live within our throbbing centers of popula-
tion. They must be brought within at least a street car fare of every
person craving and ready to use these advantages.

A BIT OF HISTORY

Actuated by such considerations as the foregoing and by a sincere
civic pride and devotion, a group of representative citizens organized
themselves, in the early summer of 1908, into a Board of Trustees and
began the active promotion of the movement for the founding of a non-
sectarian, co-educational institution of higher liberal, professional and
technical learning under such auspices as would conduce to the highest
type of intelligent and efficient citizenship. This Board incorporated
as the University of Omaha on October 8, 1908, and inaugurated its edu-
cational work on September 14, 1909, with an enrollment of 26 students.

During the present school year more than eight hundred students
have been enrolled.

The University has steadily, year by year, extended the range of its
educational work and is providing the advantages of higher liberal and
practical education for hundreds of ambitious, intelligent, and worthy
young Omaha people who otherwise would have been compelled to go
from home to secure these advantages.

WHAT THE UNIVERSITY HAS DONE FOR OMAHA

It has attracted a continually increasing number of non-resident
students. It has done much toward making Omaha a recognized educa-
tional center. It has made Omaha a more desirable place of residence
by multiplying those influences which minister to idealism and culture.
It has, during its brief thirteen years of existence, expended in Omaha
approximately $1,400,000.00 for buildings, equipment, supplies and sal-
aries. In addition it has saved and brought to Omaha, in the way of
student expenses, an average sum of more than $100,000.00 annually.
Its expenses have increased from year to year with the growth of the
student body and extending range of its educational work. It is con-
servatively estimated that, since it was founded, the institution has
either brought to or saved to Omaha a sum of, at least $1,800,000.00.

General Information

INFORMATION

The University of Omaha is located in a very attractive residential
part of North Omaha, closely adjoining Kountze Place, and also quite
near to Kountze Park. It is easily accessible from all parts of the city
and its environs by way of the North Twenty-fourth Street Car line,
which is the principal thoroughfare of the city.

GOVERNMENT

No elaborate system of rules is imposed upon the students for the
regulation of their conduct. Each student is expected to prove himself
or herself capable, in a large measure, of self-government in accordance
with the highest accepted principles of rectitude and propriety. Honor-
able character, devotion to learning, loyalty to the University, regard
for its standards of character and scholarship, and unstinted courtesy
toward the faculty and fellow-students are absolutely required. Students
who are found to be out of sympathy with these broad essentials of self-
government will be requested to withdraw from the University even though there be no specific breach of conduct.

Regular and punctual attendance at recitations and lectures is required. It is also expected that students will be faithful in attending the daily Convocation. Any lack of cordial acquiescence with the requirements and recommendations of the faculty will be regarded as sufficient ground for discipline.

MORAL AND RELIGIOUS INFLUENCE

No religious tests are prescribed either for entrance into the University, for participation in any of its privileges, or for graduation and title to any degrees conferred by it.

Nevertheless, the educational system of the University is being built on the assumption that moral and religious atmosphere is not only conducive to the completest culture, but that it is necessary to the development of the highest type of manhood and womanhood. While, therefore, religious freedom is guaranteed to all, thorough instruction is imparted in the history, the literature, the ethics, and the religious conceptions of the Bible. In addition, a religious character is maintained in the daily Convocation. The students are also encouraged to maintain an active interest in their own religious welfare by identifying themselves with the churches of the city and with the Y. M. and Y. W. Christian Associations of the University.

CONVOCATION

Convocation exercises are conducted daily in the chapel. These exercises are opened with a reading from the Scripture and prayer. Various matters of interest to the life of the students are dismissed. Addresses are frequently made by members of the faculty and invited speakers from the city and abroad. Students are expected to habitually attend these exercises.

RELIGIOUS ORGANIZATIONS

There are two distinctively religious organizations of students, namely, the Young Men's Christian Association, and the Young Women's Christian Association. Both are well organized for the purposes of volunteer study of the Bible, of Missions, and of practical religious problems. These organizations also aim to promote the highest type of social life among the students and, particularly, to aid new students in every possible way during the early days of each new school year. On Friday evening of the opening week the two Associations hold a joint reception in order to further acquaintance and good-fellowship among the students.

MEN'S DEBATING CLUB

This club, to which all male students of the University are eligible, aims to promote oratory, debate, and a general forensic interest. Public contests are held among the members and with other institutions of learning. From its membership are chosen representatives for the Inter-Collegiate debates.

DRAMATIC CLUB

This club has been organized for the purpose of furthering interest among the students in amateur dramatics. Entertainments are given from time to time by members of the club. The special aim is to develop dramatic appreciation and power of expression.
ATHLETIC ASSOCIATION

This organization represents in a wide way, the athletic spirit and enterprise of the student body. It promotes and, in co-operation with the faculty, regulates all games and contests between students and with teams of other institutions. Great credit is due the Association for the commendable results it has attained in developing wholesome and manly sports.

STUDENT PUBLICATIONS

There are two student publications: The Gateway, and the Annual. The Gateway, which is published weekly, is the usual type of College newspaper. It is intended for a wide circle of readers, including the Alumni and the friendly public. It aims to be a reliable medium of college news as well as an organ of expression for the serious, humorous and sentimental sides of college life.

The Annual is the June number of the Gateway. It is highly artistic in appearance and is intended very especially to perpetuate the memory of the personal traits and achievements of the members of the graduating class. It contains a brief account of each class and recognized organizations of the school. Thus it serves as a general souvenir of the year's events.

COLLEGE ORGANIZATIONS

Student Council

The Student Council is composed of two members from each college class, one selected by the class and one by the Faculty. A faculty representative is appointed by the President of the University. The Council holds regular meetings for the discussion of problems of interest to the students, and is free to make recommendations to the Faculty on matters of student life and activity. As a medium through which student sentiment finds expression, the Council does much to promote a healthy college spirit.

Student Volunteer Band

The object of the Student Volunteer Band is to bring together for mutual stimulation and study of Christian Missions young men and women who have volunteered for service as Christian missionaries in non-Christian lands.

Alumni Association

The Alumni Association is composed of graduates holding degrees conferred by the University. Its object is to advance the interests of the Institution, to revive and renew the associations of college days, to promote class reunions at commencement seasons and to keep a complete list of the names, addresses and after-college employments of all matriculates.

CLASSIFICATION AND STANDARDS

Students should confer with the Classification Committee of the faculty at the beginning of each semester in arranging their schedule of studies. It is the duty of this committee to estimate all certificates of credit presented for admission and to advise students in regard to their schedules of study. Failure to consult the committee is liable to cause difficulty and delay in effecting final registration.

ATTENDANCE AND PUNCTUALITY

Students are required to attend regularly and punctually all lectures, recitations and laboratory courses of classes in which they have been registered.
EXAMINATIONS AND GRADES

Semester examinations are held for each course. Examinations are two hours in length. Grades are determined in part by daily record of the student, in part by the semester examination, the weight attached to each being determined by the instructor giving the course. Four passing grades are provided as follows:

A—95-100%—Indicating excellent.
B—85-94%—Indicating good.
C—75-84%—Indicating fair.
D—70-74%—Indicating passing, but unsatisfactory.

Grades below passing are provided as follows:

P—Passed but not graded.
Con—Conditional.
Inc—Incomplete.

Final credits are not granted in year courses until the full course is completed.

If a student is reported failed in any subject, he or she can not receive credit for that course until it has been pursued a second time in the regular way.

A student may be reported incomplete, if some minor portion of the work remains unfinished, providing the student’s standing in the course is not below D.

RULES REGARDING TARDINESS AND ABSENCE

Three tardy marks count as an absence.

No cuts are granted.

Excuses for absences must be presented within the limit of one week.

A deduction of two per cent will be made from the semester grade for all unexcused absences.

Work must be made up for all absences, excused or unexcused.

Preparatory students must bring written excuses from parents.

In case of an extreme number of absences, the teacher’s discretion shall determine what, if any credit is to be given for the course.

Presentation of excuses and application for permission to make up work rests with the student.

DISCIPLINE

Offences against good order in the class rooms are generally dealt with by the individual instructors. Flagrant cases are reported to the Discipline Committee.

Wilful disregard of summons from the Discipline Committee or the Dean or the Student Council, shall render the offender liable to suspension.

Students are suspended or dismissed whenever, in the opinion of the Faculty, they are pursuing a course of conduct detrimental to themselves or the University.

DELINQUENCIES

Warning—Any student whose work is unsatisfactory is warned. In such cases notice is sent to the student, and if practicable, to his parents or guardian.

Probation—Any student whose work is extremely unsatisfactory is put on probation. This means that he is in danger of dismissal from the class or from the University. During the period of probation the student is on trial to prove his fitness to continue the work.

Final Action—Any student failing to maintain a grade of 70 in 75% of his studies will be dropped and cannot reregister.
DEGREES

Two baccalaureate degrees are conferred by the College of Liberal Arts and Sciences, namely, the degree of Bachelor of Arts and of Bachelor of Science. The former degree is conferred on all graduates of the College of Liberal Arts and Science who, having satisfied all other requirements of the curriculum for graduation, have sufficiently specialized in languages and literature. The latter degree is similarly bestowed upon those who, having satisfied all other requirements of the curriculum for graduation, have sufficiently specialized in the sciences.

The degrees of Master of Arts and Master of Science respectively, will be conferred upon candidates holding the corresponding baccalaureate degrees upon completion of a year of approved post-graduate study at the University.

The degree of Bachelor of Laws is conferred on those who complete satisfactorily the prescribed courses of studies in the School of Law and pass the State Bar Examination.

SCHOLARSHIPS

Mary Stoddard Scholarship, a fund of $1,000.00 bequeathed by Mrs. Stoddard to the University of Omaha.

Dr. S. K. Spalding Scholarship, a fund of $1,500.00 donated to the University of Omaha by Mrs. Spalding in memory of her husband.

Colonial Dames Americanization Scholarship, a fund comprising an initial donation of $251.30 from the Douglas County branch of the Woman's Committee of the Council of National Defense and supplemented by an additional donation of $250.00 from the Omaha Society of Colonial Dames.

Marie H. Martin Scholarship, a fund of $2,000 donated by Mrs. C. Vincent in memory of her deceased friend (Mrs.) Marie H. Martin, who was for many years a much beloved teacher in the Omaha Public Schools.

Joseph Barker, Sr., Scholarship, a fund of $2,000.00 donated by Joseph Barker, Jr., to establish a scholarship in memory of his father, a prominent and highly esteemed pioneer citizen of Omaha.

Jerome Prize in Economics—A prize of $15 offered annually by Prof. Harry Jerome of Wisconsin State University to the student of Economics writing the best essay on an assigned subject.

D. A. R. History Prize—A prize of $5 offered by the Sadler Chapter annually for the best essay on an assigned subject in American History.

A. F. Jenkins Prizes—Two prizes of $15 each and two of $10 each offered annually to the winners of the first and second places in the contests in Oratory and Declamation.

Stoddard Loan Scholarship of the Woman's Club, a fund of $200.00 donated to the University of Omaha through the Omaha Woman's Club for the purpose of providing, from time to time, a loan to some daughter of a member of the Omaha Woman's Club.

Domestic Economy:
- Cooking: 5.00
- Sewing: 1.00
- Designing: 3.00
- Diploma Fee: 10.00

Teacher’s Certificate: 2.00

Tuition for special work varies according to the amount and character of the courses.

Fees in Art:
- Regular Students taking Art:
  - One day each week: $10.00
  - Two days each week: 15.00

- Special Students taking Art:
  - One day each week: 25.00
  - Four days each week: 37.50

Fees in Music:
- Private Vocal Lessons—1 lesson a week per semester: 50.00
- Private Vocal Lessons—2 a week per semester: 100.00
- Private Piano Lessons—1 a week per semester: 50.00
- Private Piano Lessons—2 a week per semester: 100.00
- Private Violin Lessons—1 a week per semester: 50.00
- Private Violin Lessons—2 a week per semester: 100.00

Students are expected as a matter of honor to make good all damage or loss of college property.

**INFORMATION**

For General Information address the President of the University or the Registrar. For Special Information concerning the School of Law address Secretary of School of Law, 404 Omaha National Bank Building.
Curriculum of the College of Liberal Arts and Sciences

The academic year is divided into two semesters of eighteen weeks duration each. A summer session of 6 and 8 weeks duration has been added for the accommodation of teachers, prospective teachers, and others who desire to pursue special courses of concentrated study. The academic requirements for graduation are measured in units termed "credits." Those who have satisfied the entrance requirements will receive such "credits" for all courses successfully completed during either the regular or the special summer session. A total of one hundred and twenty-eight (128) credits is required for graduation and title to a degree. The courses from which these credits are to be earned are distributed into the following classes:

No student is recommended for a degree who has not been reported as within 17 hours of this requirement at the beginning of his last semester.

I. Fixed Requirements.

II. Required Electives.

III. Free Electives.

I. The Fixed Requirements include the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>B.A.</th>
<th>B.S.</th>
<th>B.S. in Med.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman English</td>
<td>6</td>

<td></td>
</tr>
</tbody>
</table>

* A credit equals 1 semester hour or 18 hours of recitation or its equivalent in laboratory work.

† Presupposes two years of preparatory Language.
III. **Free Electives:**

(a) The remaining credits of the required 128 for graduation must be made from the following groups of studies. This group system is intended to give a list of related subjects from which major and minor subjects may be chosen:

- **Group 1.** Ancient Languages (Latin, Greek).
- **Group 2.** Modern Language (except English).
- **Group 3.** English Language and Literature and Public Speaking.
- **Group 4.** Psychology and Education.
- **Group 5.** Philosophy, Logic and Ethics.
- **Group 6.** History, Economics, Political Science and Sociology.
- **Group 7.** Mathematics and Physics.
- **Group 8.** Physics and Chemistry.
- **Group 9.** Biological Sciences and Geology.
- **Group 10.** Home Economics and Fine Arts.
- **Group 11.** Moral and Religious Education.

(b) Every student is advised (particularly in looking forward to post-graduate work), before the opening of the Junior year, to select a major subject, and one or two collateral minor subjects, the latter to be chosen under the advice of the professor in charge of the major subjects.

(c) What groupings of individual courses may constitute a given major or minor is to be determined by the professor in charge of the major subject.

(d) Regulations are designed, not only to limit specialization, but also to throw what specialization is permitted late in the course, in order that as much general education as possible may be secured before specialization begins.

---

Note: The credits in Required Electives vary according to amount offered at entrance. None of the Fixed Requirements or Required Electives shall be waived or modified in any case without the action of the Faculty, and the record of such an action shall show the reasons therefor.

PREPROFESSIONAL COURSES

1. Law—While acquiring a liberal education, the student may by judicious selection of courses in history, economics, political and social sciences, etc., advance his preparation materially for the study of law. He may also pursue legal studies with an attorney-at-law in the city and thus shorten his preparation for admission to the bar.

2. Theology—The attention of students who expect to enter the ministry is called to the courses in Bible study, moral philosophy, psychology and sociology as particularly serviceable. At the same time he will, of course, be gaining the broad, liberal foundation necessary to satisfactory work in the seminary.

3. Medicine—Students expecting to enter the medical profession will find the courses in chemistry, physics and biology outlined to suit their needs. The Nebraska entrance requirements to the medical college consist of at least two years of college preparation. The detailed requirements are stated elsewhere.

4. Teaching—The courses offered in the departments of psychology and education are of interest and cultural value to all students. They are of special interest to prospective teachers. Graduates who meet the requirements of state certification are entitled to a first grade state certificate. A feature of special interest in these departments is the beginning of well known specialists in the various fields of psychology and education to the University of Omaha summer school session of eight weeks. This affords unusual opportunities to prospective teachers as well as to teachers of the city.

5. Engineering—The University offers all the essential theoretical and practical training usually included in the first two years, of a standard four-year engineering course.
TERMS OF ADMISSION TO COLLEGE OF ARTS AND SCIENCES

All candidates for admission to the University, in any of its departments, must afford satisfactory evidence of good character and, if they come from other institutions of higher learning, they must afford evidence of favorable dismissal.

There are two methods of admission to regular standing in the Freshman class of the College of Liberal Arts and Sciences, namely, by certificate from accredited preparatory schools or by passing an entrance examination. In either case a total number of thirty credits* in preparatory studies must be presented and they must conform to the following distribution into Requisites and Electives:

1. Requisites:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>6</td>
</tr>
<tr>
<td>Algebra</td>
<td>2 to 3</td>
</tr>

<tr>
<td>Foreign Language</td>
<td>4 to 6</td>
</tr>
<tr>
<td>History†</td>
<td>2</td>
</tr>
<tr>
<td>Laboratory Science</td>
<td>2</td>
</tr>
</tbody>
</table>

A total of 10 credits in Language and Mathematics (Physics preferred)

2. Electives:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>History</td>
<td>Not more than 4 credits</td>
</tr>
<tr>
<td>Solid Geometry</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Chemistry</td>
<td>Not more than 2 credits</td>
</tr>
<tr>
<td>Physics</td>
<td>Not more than 2 credits</td>
</tr>
<tr>
<td>Biology</td>
<td>Not more than 2 credits</td>
</tr>
<tr>
<td>Civics</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Physical Geography</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Geology</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Physiology</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Latin, Greek, German, French</td>
<td>No credit for less than a year's work.</td>
</tr>
<tr>
<td>Agriculture</td>
<td>Not more than 2 credits from this list.</td>
</tr>
<tr>
<td>Mechanical Drawing</td>
<td>Not more than 2 credits from this list.</td>
</tr>
<tr>
<td>Normal Training</td>
<td>Not more than 2 credits from this list.</td>
</tr>
<tr>
<td>Domestic Science</td>
<td>Not more than 1 credit</td>
</tr>
<tr>
<td>Business</td>
<td>Not more than 4 credits.</td>
</tr>
</tbody>
</table>

3. Total for Regular Entrance:

<table>
<thead>
<tr>
<th>Category</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Requisites</td>
<td>20</td>
</tr>
<tr>
<td>Electives</td>
<td>10</td>
</tr>
<tr>
<td>Total</td>
<td>30</td>
</tr>
</tbody>
</table>

* A study successfully pursued in five recitations of forty-five minutes duration each week for one semester (18 weeks) constitutes a credit.
† Greek and Roman History preferred.
‡ Not less than a year's work in either Physics or Chemistry will be accepted.
AREARAGE OF CREDITS

Candidates who have satisfied the above exhibited entrance requirements with an arrearage of not more than 2 credits may be conditionally classified as Freshmen. This concession will be made only with the understanding that the arrearage will be removed by the end of the Freshman year.

ADMISSION OF ADVANCED STUDENTS

A student coming from another University or College of recognized high standing may, upon presentation of a certificate of honorable dismissal, be admitted to the University of Omaha ad eundem gradum and be regularly graduated providing he pursue at least one full year of a regular course in the University. Every such applicant for admission is required to present along with a catalogue of the institution in which he has studied, a detailed statement, adequately certified, of all the studies he has completed, including the preparatory studies for which he has credit.

ADMISSION OF SPECIAL STUDENTS

Candidates for admission as special students, not looking forward to regular graduation with a degree, must give satisfactory evidence to the Faculty that they have sufficient attainment in scholarship to advantageously pursue the courses which they seek to enter. Such students are otherwise subject to the same regulations as determine the admission of regular students and will, upon request, be granted certificates of work done. Providing they have met the requirements for regular entrance into the Freshman class they will be given full college credits for all studies completed and these credits may, upon later request, be applied to satisfy the requirements for a degree.

ENTRANCE EXAMINATIONS

Prospective students desiring to present themselves for the entrance examination, in accordance with the above described requirements, should do so on the Thursday in September preceding the opening day of the first semester of the college year.

MATRICULATION AND REGISTRATION

The opening day of the first semester is entirely devoted, after the Convocation services, to the work of matriculation and registration of students. It is necessary before being matriculated and registered to makesettlement with the Treasurer for tuition; also to arrange schedule of studies with the Classification Committee. On applying to the Registrar for matriculation and registration all candidates should present, along with their certificates of credit and other testimonials, the Treasurer’s receipt for tuition.
Description of Courses

GREEK LANGUAGE AND LITERATURE

1 and 2. Elementary Greek — Essentials of Greek grammar, exercises and easy readings. Xenophon's Cyropaedia or Moss' First Greek Reader; preparation for Xenophon's Anabasis.
Five hours. Throughout the year. Ten credits.

3. Xenophon's Anabasis — Selections from Books I, III. Grammatical drill and prose composition.
Three hours. One semester. Three credits.

Three hours. One semester. Three credits.

5. Odyssey — Two books read consecutively; selections from other books. Entire Greek philosophy. Life and teachings of Socrates.
Three hours. One semester. Three credits.

7 and 8. The Greek Drama. Tragedy.
Aeschylus — Prometheus Bound.
Sophocles — Antigone.
Euripides — Medea.
Detailed study of the Greek theatre, style and literary characteristics of each dramatist. Other selected dramas read in translation.
Three hours. Throughout the year. Six credits.

Two hours. One semester. Two credits.

Two hours. One semester. Two credits.

11. Study of Greek Oratory — Special orations of Lysias and Demosthenes.
Two hours. One semester. Two credits.

Two hours. One semester. Two credits.

The advanced Greek courses may be varied somewhat according to the previous preparation of the students. Courses will be offered in New Testament Greek and Greek lyric poetry upon request of students.

LATIN — LANGUAGE, LITERATURE AND LIFE

Pre-requisites to College Latin.

(a) Beginner's Latin — Pronunciation, inflections, syntax, by thorough drill. Constant oral and written composition of easy Latin sentences. Simple idioms. Reading of Latin fables and stories from Roman History.
Caesar's Gallic War, four books.
College Courses.

Three hours. Throughout the year. Six credits.

Pre-requisite, Courses 1 and 2.

Three hours. Throughout the year. Six credits.

Pre-requisite. Courses 3 and 4.

Three hours. Throughout the year. Six credits.

7. **Lyric Poems**—Horace's Odes and Epodes. Literary Analysis and Criticisms. Aims to cultivate the faculty feeling the sentiment of the author.

Pre-requisite, Courses 5 and 6.

Three hours. First semester. Three credits.

8. **Teacher's Latin**—For those who wish to acquire a knowledge of teaching and a teaching knowledge of an ancient language. The principles and methods to be acquired in this course are applicable to the teaching of any foreign language. The course begins with eighteen lessons in pedagogy and the remainder of the course is given to practice teaching and a thorough review of Latin vocabulary and Latin principles and rules of syntax; a thorough classification of Latin words and practice in distinguishing synonyms.

Pre-requisite, five years of Latin. Given alternate years.

Three hours. One semester. Three credits.

9. **Rapid Reading**—Aim: To acquire the habit of gathering the Latin author's thought without translation. Selections from such works as the Epistles of Cicero, Latin Hymns, the Vulgate, Eutropius, Martial, Aulus Gellius and Suetonius. Critical and literary study of texts.

Pre-requisite, five years of Latin. To be given in alternate years with the Teachers.

Three hours. One semester. Three credits.

Pre-requisites, five years of Latin.

Three hours. First semester. Three credits.

11. Continuation of Course 10.

Three hours. Second semester. Three credits.
GERMAN LANGUAGE AND LITERATURE

1. **Beginning German**—For students with no previous training in German. Textbook: Spannhoofd, Lehrbuch der deutschen Sprache, or its equivalent.
   
   Five hours per week. First semester. Five credits.

2. **Beginning German continued.** Drill in grammar continued. Easy German short stories. Composition and conversation. Folk songs.
   
   Five hours per week. Second semester. Five credits.

3. **Conversational German**—German in daily life. Reading of a comedy.
   
   Three hours per week. First semester. Three credits.

4. **Classics and Composition**—Masterpieces of Schiller and Goethe read in class and discussed orally and in writing.
   
   Three hours per week. Second semester. Three credits.

5. **History of German Literature**—From the Great Epics to the Classic Period. Copious reading from sources.
   
   Three hours per week. First semester. Three credits.

6. **History of German Literature continued.** The Nineteenth Century. The German Novel.
   
   Three hours per week. Second semester. Three credits.

7. **Goethe**—With special attention to the first part of Goethe's "Faust."
   
   Three hours per week. First semester. Three credits.

8. **Teachers' Course in German Grammar and Composition**—Discussion of methods of teaching German. Three hours per week. Second semester. Three credits.

9. **Scientific German**—Reading of easy science texts, preceded by a rapid review of elementary grammar.
   
   Three hours per week. First semester. Three credits.

10. **Scientific German, continued.** Rapid reading of texts on Chemistry, Physics, Physiology and Economics.
    
    Three hours per week. Second semester. Three credits.

ROMANCE LANGUAGE AND LITERATURE

**FRENCH**

1 and 2. **Elementary Grammar**—Pronunciation and spelling, simple dictation and composition; translation of easy selections. Constant drill on all fundamentals in grammar work.
   
   Five hours per week. Throughout the year. Ten credits.

3 and 4. **Literature and Composition**—Dictation; prose composition; sentence building; study of all verb forms. Provincial literature such as Sand's La Mare au Diable, Loti's Percheur d'Islande.
   
   Three hours throughout year. Six credits.

5 and 6. **Classic Drama and Advanced Prose**—Composition. Drill on French idioms. Analysis of dramas by Corneille, Moliere, Racine.
   
   Three hours throughout year. Six credits.
7 and 8. **History of French Literature and Conversation**—A study of the rise and development of the French language. Conversation based on daily life and customs in France. Reading and dictation from literature of the seventeenth and eighteenth centuries.

Three years throughout the year. Six credits.

9 and 10. **Modern French Literature**—A study of eminent French writers of the nineteenth and twentieth centuries.

Three hours throughout the year. Six credits.

11 and 12. **Poetry**—A study of the representative poets of the seventeenth and eighteenth and nineteenth centuries.

Two hours throughout the year. Four credits.

**SPANISH**

1 and 2. **Elementary Grammar**—Pronunciation and spelling of the Castilian language. Composition and translation of easy selections. Drill on all fundamentals in grammar work.

Five hours throughout the year. Ten credits.

3 and 4. **Literature and Composition**—Dictation, prose composition, grammar review. Reading in literature of eighteenth and nineteenth centuries.

Three hours throughout the year. Six credits.

5 and 6. **Advanced Composition and Conversation**—Dictation and conversation based on daily life and customs in Spain.

Three hours throughout the year. Six credits.

7 and 8. **History of Spanish Literature**—Reading and dictation from representative literature.

Three hours throughout the year. Six credits.

**ENGLISH LANGUAGE AND LITERATURE**

1 and 2. **Freshman Rhetoric and Composition**—Instruction in rhetorical principles and the forms of discourse. Themes, conferences. Required of all Freshmen.

Three hours throughout the year. Six credits.

Three hours throughout the year. Six credits.

5 and 6. **Argumentation**—The theory of argumentation with practice in the preparation of briefs and forensics. Outlined under Public Speaking. Open to Sophomores and upper classmen.

Pre-requisite, courses 1 and 2.

Two hours throughout the year. Four credits.

7 and 8. **Advanced Composition**—A practical course in criticism and style designed to give a critical and philosophical basis to one's judgments on men, affairs, literature and art. Junior and Senior elective.

Pre-requisite, courses 1, 2, 3, 4.

Two hours throughout the year. Given alternate years. Four credits.
9 and 10. **Development of the Oration**—A study of the oration as a distinct type of literature. Analysis of modern orations, and the development of original orations. The same to be delivered under the direction of the Public Speaking Department.

Pre-requisite, courses 1 and 2 under composition and course 2 under public speaking. Junior or Senior elective.

One hour throughout the year. Given alternate years. Two credits.

11. **Seventeenth and Eighteenth Century Prose**—A study of the leading prose forms, exclusive of the novel: viz., biography, history, essays and criticisms will be considered. Given in alternate years. Junior elective.

Two hours. First semester. Two credits.

12. **Seventeenth and Eighteenth Century Poetry**—Textbook work lectures and reports upon the history and character of the English poetry of that period and upon individual poets. Given in alternate years. Junior elective.

Two hours. Second semester. Two credits.

Two hours. First semester. Two credits.

Two hours. Second semester. Two credits.

15. **Study of Drama and Shakespeare**—A study of the origin, development and decline of the English drama, with special reference to Shakespeare. Collateral readings and study of selected plays. Given in alternate years. Senior elective.

Two hours. First semester. Two credits.

16. **Study of Browning**—Interpretive reading and critical discussion of Browning's representative work. Given in alternative years. Senior elective.

Two hours. Second semester. Two credits.

Two hours. First semester. Two credits.

18. **American Fiction**—History of the novel in America to the present day. Works of the following authors read and discussed: Brown, Rowson, Irving, Poe, Hawthorne, Cooper, Twain, Stowe, James, Howells; also many of the works written by present day authors. Given in alternate years. Senior elective.

Pre-requisite course 3 and 4, 19 and 20.

Two hours. Second semester. Two credits.

Pre-requisite, courses 3 and 4.

Two hours throughout the year. Four credits.
21 and 22. **Literary Criticism**—Given in alternate years. Open to upperclassmen and post-graduate students. One hour throughout year. Two credits.

23 and 24. **Literary Analysis**—Given in alternate years. Open to upperclassmen and post-graduate students. One hour throughout year. Two credits.

**PUBLIC SPEAKING**

1. **Fundamentals of Expression**—Instruction is given in the management of the breath; the proper use of the body to gain vocal energy and grace of action; the most advanced knowledge of English phonation; the best methods of acquiring perfect articulation; the various qualities of voice and their use; the application of force, stress, pitch, quality and emphasis; the use of inflection for gaining emphasis, expression and variety in speech.

   Required of students specializing in public speaking and expression. Open to others by permission. One hour throughout year. Two hours credit.

2. **Practical Public Speaking**—Lectures and text-book. Continuous practice before the class with criticism. Work adapted to development of the individual in any line of endeavor where it is necessary to induce others to act.

   Required of all Freshmen. Two hours throughout year. Four credits.

4. **Debating**—Open to those having had Course 3. Intercollegiate debating.

   One hour throughout year. Two credits.

5. **Oratory**—Outlined under composition, Courses 9 and 10. Junior and Senior elective.

   One hour throughout year. Given alternate years. Two credits.

**DEPARTMENT OF EXPRESSION**

For those desiring to specialize in Public Speaking and Expression the following course is offered. The course covers a period of two years based on at least 15 units of work from an accredited high school. Those completing the course satisfactorily are given a certificate or diploma. Students pursuing an A. B. course in the University and majoring in English language, literature and speaking will be given a diploma in Oratory, if they so desire, provided the following subjects have been included in their Bachelor course.

32
Frequent recitals are given in which students participate. Each Junior and Senior is required to give a public recital during his respective year. All students of the department take part in the production of several good plays and are taught to coach the same.

**PSYCHOLOGY**

1 and 2. **Child Psychology**—This course seeks to provide the student with sound criteria for estimating principles of the development of the child and to give him adequate training in the concrete study of child life.

Three hours throughout year. Six credits.

3 and 4. **Introductory Psychology**—An introductory course in which consciousness is viewed from an angle of the different processes, sensation perception, etc., in their relation to our mental life and to the correlated bodily processes. To make clear the principles and laws of mental life, constant reference is made to their application in teaching, business, social and professional life.

Three hours. Two semesters. Six credits.

Laboratory work to be arranged.

5. **Advanced Psychology**—The aim is to make a much more thorough analysis of mental life than does the elementary course.

One semester. Three hours credit.

6. **Laboratory Course in Psychology**—This course is intended to acquaint the student with laboratory methods in the measurement of physical and mental traits.

One hour recitation. Four hours laboratory. One semester. Three credits.

7. **Psychology and Treatment of Exceptional Children**—This course aims to give a scientific understanding of children and adolescents who deviate from the normal.

8. **Seminary in Psychology**—The purpose of this course is to meet the individual needs of advanced students. The subject will be determined by the needs of those who elect the course.

Hours to be arranged.

**PHILOSOPHY**

1. **Logic. Deductive and Inductive**—Includes logical treatment of terms, propositions, syllogism, classification of fallacies, and practice in their detection. The grounds, methods, and criteria of inductive reasoning, with special regard to the principles underlying hypotheses. Relation of deduction and induction in complete scientific observation, experiment, classification, and the use of scientific method.

Three hours. One semester. Three credits.

2. **Advanced Logic**—Consists in a study of the principles and method of probable reasoning in its bearing upon induction, upon the use of statistics, and upon the more important problems of speculative philosophy.

Three hours. One semester. Three credits.

3. **Ethics**—A general course introducing the student by way of a brief historical survey to the sphere of ethical inquiry and the main ethical problems. Accurate analysis of the facts of the moral conscious-
ness is attempted in connection with the study of empirical and evolutionary explanation of moral obligation. Special attention is given to the social significance of moral conduct.

Pre-requisite, Psychology 3 and 4. Three hours. One semester. Three credits.

4. **Theories of Ethics**—A study of the chief theories concerning the basis, sanctions, and standards of morality. Hedonism, in its egotistic and universalistic forms, Intuitionalism and Evolutionism are critically discussed.

Pre-requisite, Course 3. One semester. Three credits.

5. **History of Philosophy**—A course will be offered in the History of either Ancient or Modern Philosophy.

(a) The course in Ancient Philosophy includes a survey of the systems, or fragments of systems, of the Greek thinkers from the speculations of Thales to those of the Neo-Platonists.

(b) The course in Modern Philosophy will begin with Descartes and Bacon and will give main attention to Scottish natural realism, English empiricism, and German thought from Kant through Hegel up to the present time.

Pre-requisite, Course 5. Three hours. First semester. Three credits.

6. **Problems of Philosophy**—This course aims to deal first critically and then constructively, with the problems of Epistemology and Ontology.

Pre-requisite, Courses 1 and 5. Three hours. Second semester. Three credits.

7. **Philosophy of Theism**—One hour. Two semesters. Two credits.

**EDUCATION**

1 and 2. **History of Education**—A study of educational ideals and practices from early civilization as typified by Oriental, Jewish, Greek, Roman and early Christian education systems to the Renaissance during the first semester. Followed the second semester by a study of humanistic, realistic, naturalistic, scientific, psychological and sociological phases of modern development of the educational aim, considered largely from the standpoint of representative men of the period.

Three recitations. Throughout the year. Six credits.

3. **Educational Psychology**—A special study of those aspects of psychology which are important in the handling of educational problems on such topics as the growth of instincts; the learning process; individual differences, and the correlation of mental abilities.

Three hours. One semester. Three credits.

4. **Theory of Education**—This is a course in the principles and laws of psychology applied to teaching.

Two hours. One semester. Two credits.

5. **Mental Tests**—The purpose of this course is: (1) to give acquaintance with the wide range of tests now available; (2) to give practice in the statistical treatment of results and in the standardization of new tests.

Two hours. One semester. Two credits.

6. **Educational Measurements**—A study of the standard test movement in education; a brief historical perspective; principles underlying
the demand for standards; attempts to standardize the content of the course of study; an organization of the principal tests designed to measure the outcome of specific studies in elementary secondary curricula; a critical discussion of the validity of the tests; the use of standard tests to the administrator, to the teacher, and to school surveyors.

Two hours. One semester. Two credits.

Two hours. One semester. Two credits.

8. School Supervision—The aim of this course is to study problems of supervision in the light of a broader view of education as a factor in community, social, religious, moral and domestic life.

Three hours. One semester. Three credits.

9. Educational Administration—This course considers the problems of attendance, organization, and classification of pupils; the school census bureau; regularity and punctuality in attendance; the visiting teacher and other means of securing co-operation of parents; classification of pupils; marking systems; promotion plans; acceleration, retardation, and elimination of pupils, adaptation of work to individual needs; special groups of pupils; vocational and continuation schools, and other problems of interest to those who are interested in professional service.

Three hours. One semester. Three credits.

Three hours. One semester. Three credits.

11. Methods of Teaching In the Elementary School—A study of the methods of teaching and organization of subject matter adapted to the needs of the elementary school.

Three hours. One semester. Three credits.

Two hours. One semester. Two credits.

13. Practicum Philosophy of Education—This course will consider the aims and methods appropriate to a system of education in a democracy. Education for morals, education for citizenship, etc.

Two hours. One semester. Two credits.

14. School and Personal Hygiene—A study of problems relating to building requirements such as heating, lighting, ventilating, and janitor service. The matter of personal hygiene of the teacher and the pupil, the relation of hygiene to the everyday life of the school, and in the prevention of epidemics, will receive special attention.

Two hours. One semester. Two credits.

15. Practice Teaching and Observation—Students of senior classification who are electing courses leading to University First Grade City and State Certificates must give five periods a week for a semester to conducting classes in our secondary department under the personal supervision of the Department of Education. Three credits are allowed for this practice teaching and 90 hours of observation.

Two hours. One semester. Two credits.

16. Courses for Teachers in Service—Special courses will be arranged for teachers.
TEACHERS' CERTIFICATES

First Grade State and City Certificates are issued by the educational department of this institution as a standard college with the approval of the State Board of Inspectors and the State Superintendent of Public Instruction, to those who finish the courses prescribed and take the work in practice teaching. Courses 1, 2, 3, 4, 5 and 6 or equivalents are required for these certificates.

TEACHERS' BUREAU

The Department of Education offers a special advantage to its students, and also to all other students of the University, in the service which it renders through the Teachers' Bureau. It is the aim of this Bureau to render competent and trustworthy aid to those of the University who may be seeking employment as teachers, and to school authorities who may be in need of teachers. Greatest care is exercised in naming candidates for positions in the schools of the state. It is the one aim of the Bureau so to locate its candidates that all concerned may derive the greatest benefit from its assistance. There are always calls for teachers—more than we can fill. The services of the Bureau are free to all members and alumni of the University, except expenses for postage and stenographic work.

ECONOMICS

1 and 2. Economic Theory—Course 1 and 2 together constitute a single general introductory course running throughout the year. In no case will credit be given for less than the full year's work. Required of all candidates for a degree. It is advised that the course be taken during the sophomore year as pre-requisite to other courses in the department. Not open to Freshmen.

Three hours. Throughout the year. Six credits.

3 and 4. Economic Problems—An examination of America's economic problems and policies, such as immigration, labor, transportation, trusts, tariff, agricultural problems.

Pre-requisites, Courses 1 and 2.

Two hours. Two semesters. Two credits.

Two hours. One semester. Two credits.

6. Economic History of the United States—including a brief survey of colonial industry; the economic aspects of the Revolutionary War; early commerce and manufacturing; the settlement and development of the West; the public land system; economic aspects of slavery and transportation and labor organizations.

Two hours. One semester. Two credits.

7. Money and Banking—The history and theory of money, credit and banking; price theories; monetary history of the United States; banking systems and proposals for banking reforms.

Pre-requisites, courses 1 and 2.

Two hours. One semester. Two credits.
8. **Public Finance**—Theories of public expenditure; public borrowing; budget making; finance, and principles and problems of taxation. Two hours. One semester. Two credits.

9. **Commercial Law**. Three hours. One semester. Three credits.

**POLITICAL SCIENCE**

2. **American State and Local Government**—Special attention will be paid to the government of Nebraska and Omaha. Three hours. One semester. Three credits.

3. **Contemporary Problems of Government**—Reform of legislative organization and procedure, administrative consolidation, the budget, law enforcement, the police system, problems of international relations, etc. Three hours. One semester. Three credits.

4. **Elementary Jurisprudence**—The aim of this course is to acquaint the student with the fundamental conceptions and principles of law. Two hours. One semester. Two credits.

6. **Comparative Study of Constitutions**—A study of typical and outstanding power of constitutional government with a view to recognizing their comparative merits and defects. Two hours. One semester. Two credits.

**SOCIology**

1. **Principles of Sociology**—The nature and scope of sociology. A study of social origins, forms, functions and social progress. Open to Juniors and Seniors and to others by permission. Three hours. One semester. Three credits.

2. **Applied Sociology**—A survey of modern movements for social betterment. Includes a study of social settlements, housing reform, public recreations, social centers, modern methods of philanthropy, institutions for dependents, and other forms of social service. Field work and reports. Open to those having taken Course 1. Three hours. One semester. Three credits.

3. **Theories of Society**—A study of the various forms of social organization propounded and advocated in the interest of human betterment. Includes an examination of Socialism, Communism, Anarchism, etc. Three hours. One semester. Three credits.

4. **Educational Sociology**—Deals primarily with present-day educational social problems. Open to Juniors, Seniors and Teachers. One semester. Three credits.
HISTORY

1 and 2. Mediaeval European History—From the Germanic Migrations to the Era of the Reformation. The aim of the course is to give a general knowledge of the Migrations and Settlements of Teutonic tribes, Monasticism, Mohammedanism, the Empire of Charlemagne, Feudalism, the Rise of the Papal Power, the Holy Roman Empire, the Crusades, the Supremacy of the Papacy, the Growth of the Towns, the Universities and Scholasticism, the Renaissance, and the Formation of National Governments and Literatures.

Three hours. Throughout the year. Six credits.

3 and 4. Modern European History—The history of Europe from the fifteenth century to the present time. The Era of the Protestant Reformation and the Wars of Religion; the Age of the Absolute Monarchy; the French Revolution and Napoleonic period; the Rise of the Modern European Nations, with special emphasis on the progress of Nationalism and Democracy; the Expansion of Europe in the Nineteenth Century.

Three hours. Throughout the year. Six credits.

5 and 6. History of England—This course covers the history of the English nation from the invasion of the Anglo-Saxons to the present time. Special effort is made to discern the political and social forces affecting national life and development, the events and movements exhibiting the progress of liberty, and, in particular, the growth of constitutional government.

Three hours. Throughout the year. Six credits.

7 and 8. History of the United States—This is an advanced course in which special attention is given to the political and constitutional principles exemplified in our State and Federal Government which have been involved in and have contributed to the evolution of our national ideals.

Pre-requisite two years of European History and a course in Economics.

Three hours. Two semesters. Six credits.

9. Holy Roman Empire—A study of the history of the effort to reconstruct the Roman Empire as a politico-ecclesiastical order, based on Bryce's Holy Roman Empire.

Two hours. One semester. Two credits.

Pre-requisites, Courses in History 1, 2, 3, 4, 5, 6, 7 and 8.

Two hours. One semester.

MATHEMATICS

Three hours. One semester. Three credits.

2. College Algebra—Variation, systems, indeterminate equations, graphic solutions, derivatives, series, logarithms, the binomial theorem.

Required of Freshmen. Three hours. One semester. Three credits.
3. **Plane and Spherical Trigonometry**—Conception, analysis, reasoning by formulas, applications in commerce, industry and scientific investigation.

   Required of Freshmen. Three hours. One semester. Three credits.

4. **Analytic Geometry**—Systems of co-ordinates; loci and their equations; the plotting of curves; the properties of the straight line and conic sections. Co-ordinate and loci in three dimensions.

   Pre-requisite, Courses 2 and 3. Three hours. Throughout the year. Six credits.

5. **Differential and Integral Calculus**—Semester one. The functions of variables and the idea of the derivative are presented; process of differentiation of algebraic and transcendental functions practical application in physics and mechanics.

   Semester Two. The idea of the integral, definite integration and its practical applications, solution of simple differential equations.

   Pre-requisite, Course 4. Three hours. Two semesters. Six credits.

**ENGINEERING**

Mechanical Drawing, Descriptive Geometry, Physics, Chemistry, Rhetoric 1, Mathematics and Shop work make up the work of the first two years in engineering. Following are the courses in Mechanical Drawing, Descriptive Geometry and Shop work:

1. **Mechanical Drawing**—The care and use of drafting instruments, instrument exercises, Geometrical constructions, lettering, shading, orthographic projections, exercises in drawing to scale and dimensioning.

   Six hours per week in drafting rooms. Second semester. Two credits.

2. **Mechanical Drawing**—Continuation of Course 1 including orthographic projections, rotation of objects, shades and shadows, sectioning, oblique projections, intersections, development of surfaces, isometric drawing and dimensioning.

   Six hours per week in drafting rooms. Second semester. Two credits.

3. **Mechanical Sketching and Drafting**—Courses 1 and 2 required. A series of graded exercises in the measuring and sketching of mechanical constructions, and the subsequent detail drafting of the same.

   Six hours per week in drafting room. Two credits.

4. **Descriptive Geometry**—A critical study of the science of representing by drawing; the location of points, lines, planes, single curved surfaces, and surfaces of revolution, with their relation to each other.

   Six hours drawing per week. One hour lecture. Three credits.

5. **Woodworking**—Bench work; care and use of bench tools; exercises in wood. Lathe work; practice with turning tools.

   Eight hours per week in shop. One hour lecture. Three credits.

6. **Metal Working**—Bench work; lathe work; drilling, etc.; shop practice.

   Eight hours per week in shop. One hour lecture. Three credits.
CHEMISTRY

1. **General Inorganic Chemistry**—The aim in this course in general chemistry is to present the more important facts concerning the non-metallic elements and the metals and their compounds. The fundamental principles of chemistry are emphasized and the important theories such as chemical equilibrium and the modern theories of solution, are freely used. The course is designed to meet the needs of those who wish to study the science as a part of a liberal education and also for those who wish to go deeper into chemistry.

Three hours lecture. Four hours laboratory. First semester. Three credits.

2. **General Inorganic Chemistry**—Course 1 continued.

Three hours lecture. Four hours laboratory. Second semester. Three credits.

3. **Analytical Chemistry; Qualitative Analysis**—Lectures, recitations and laboratory work on the principles and practice of qualitative analysis. The class room work deals with the chemistry of the analytical reactions, special attention being given to the development and application of the laws of chemical equilibrium, theories of solution and periodic table.

Pre-requisite Courses 1 and 2. Two hours class. Six hours laboratory. First semester. Three credits.

4. **Qualitative Analysis**—Course 3 continued.

Two hours class. Six hours laboratory. Second semester. Three hours credit.

5. **Quantitative Analysis**—Principles of gravimetric analysis.

Pre-requisite, Courses 1, 2, 3 and 4. One hour lecture. Eight to fourteen hours laboratory. Three to five hours credit.

6. **Quantitative Analysis**—Principles of volumetric analysis.

Pre-requisite, Courses 1, 2, 3 and 4. One hour lecture. Eight to fourteen hours laboratory. Three to five hours credit.

7. **Advanced Analytical Chemistry**—Pre-requisite, Courses 1, 2, 3, 4 and 6.

No hours class. Nine to fifteen hours laboratory. Three to five hours credit.

10. **General Organic Chemistry**—Courses 10 and 11 from a continuous course covering the compounds of carbon, including the fatty and aromatic series. The chemical behavior, the characteristic reactions and relationships of the different classes of carbon compounds are studied.

Pre-requisite, Courses 1 and 2. Three hours class.

Four hours laboratory. First semester. Three credits.

11. **General Organic Chemistry**—Course 10 continued.

Pre-requisite, Courses 1, 2 and 10. Three hours class. Four hours laboratory. Second semester. Three credits.

12. **Special Topics in Chemistry**—Discussion of selected topics, collateral readings, reports.

Pre-requisite, Courses 1, 2 and 10. Two hours class. Second semester. Two credits.

13. **Biochemistry**—This course includes the chemistry of carbohydrates, fats, proteins, colloids and inorganic food materials. The chem-
istry of enzyme action, the chemistry of digestion, food value, metabolism and excretion and the chemistry of nutrition are considered.

Pre-requisite, Courses 1, 2, 10 and 11. Three hours class. Four hours laboratory. First semester. Three hours credit.

14. **Food and Sanitary Chemistry**—Analysis of water, milk, flour, etc. Study of preservatives, detection of adulterants and food laws.

Pre-requisite, Courses 1, 2, 10 and 12. Two hours class. Six hours laboratory. Second semester. Three hours credit.

15. **Co-operative Chemistry**—The aim of this course is to give the student practical experience in chemistry while college courses, leading to a Bachelor's Degree and a major in chemistry, are being continued. The work will be taken in that branch of chemistry in which the student is most interested and in the laboratory of a co-operating firm. Regular reports must be made stating the kind of work being done, the number of hours per week spent in the laboratory, and the progress being made. The course is supervised and conferences are held.

Pre-requisite. The pre-requisite will be largely determined by the course selected, however, usually courses 1, 2, 3, 4, 6, 10 and 11.

Credit. College credit is given, the amount being determined by the number of hours spent in the laboratory, the standard of the work, and the number of regular college hours of work being continued.

For a Bachelor's Degree, a major in Chemistry shall include Courses 1, 2, 3, 4, 5, 6, 10, 11 and sufficient hours from 7, 12, 13 and 14.

**BIOLOGY**

**Zoology 1 and 2**—Lectures, recitations, laboratory work, introductory into the entire field of animal life; structure, functions, life history and evolution of animal life. Experiments, study of protozoa, dissection of higher forms and microscopic study of tissues.

Three hours class. Four hours laboratory. Throughout year. Six credits.

**Botany 1 and 2**—Study of the structure, functions and relationships of plants as living organisms, with chief emphasis upon higher forms, but enough attention to the lower to indicate their peculiarities and importance.

Three hours class. Four hours laboratory. Throughout year. Six credits.

**Physiology 1**—A study of the human body, its structure, functions, and the conditions of its healthy working.

Three class hours. Four hours laboratory. First semester. Three credits.

**Hygiene 1**—Lectures, recitations, on hygiene and sanitation, including both civic and personal hygiene.

Three class hours. Second semester. Three credits.

**Entomology 1**—The anatomy and physiology of insects, the principles of their classification and methods for the control of injurious forms.

Three class hours. Four hours laboratory. Second semester. Three credits.

**Elementary Bacteriology**—An introduction to the study of bacteriology, including the relation of bacteria to other organisms, their mor-
phology and structure, and chemical changes which they produce, also the principles of sterilization and disinfection.

Two hours lecture. Four hours laboratory. Two credits.

**Comparative Anatomy of Vertebrates**—Class and laboratory work of an intensive type. The structures, functions and development of vertebrate animals are considered as an introduction to human anatomy, physiology and embryology.

Pre-requisite, Zoology 1 and 2.

Two hours lecture. Four hours laboratory. Second semester. Two credits.

**PHYSICS**

1. **General Physics**—Elementary Mechanics, Hydrostatics, Pneumatics and Heat. This course is offered for students who enter with a deficiency in Physics of preparatory grade. With Course 2 the whole subject of General Physics is covered with the aim of giving the student a reasonable insight into the fundamental physical laws and their application to practical life.

Three hours recitation. Two hours laboratory. First semester. Three credits.

2. **General Physics**—Elementary Magnetism, Electricity, Sound and Light. This course is a continuation of Course 1.

Three hours recitation. Two hours laboratory. Second semester. Three credits.

3. **Advanced Physics**—Mechanics, Heat and Sound. Algebra, Geometry, Plane Trigonometry and Elementary Physics required for entrance. This course with Course 4 is designed to meet the requirements of those who wish to pursue further the study of Physics as a part of a liberal education and of those who wish to obtain entrance to professional and technical schools.

Three hours lectures and recitations. Six hours laboratory. First semester. Four credits.

4. **Advanced Physics**—Electricity and Light. This course is a continuation of Course 3.

Three hours lectures and recitations. Six hours laboratory. Second semester. Four credits.

**HOME ECONOMICS**

**FOOD AND NUTRITION**

1. **Selection and Preparation of Food**—Composition, nutritive values, and digestibility of common foods. Principles and processes of food preparation.

One hour class. Three hours laboratory. First semester. Two credits.

2. **Selection and Preparation of Food**—Continuation of course 1. Analysis of recipes. Planning and preparation of meals of definite cost.

One hour class. Three hours laboratory. Second semester. Two credits.

3. **Economic Problems of Food Supply**—A study of home and commercial methods of preparation and manufacture of food. Standard products prepared in laboratory scored and compared. Food laws—fed-
eral, state and local regulations. Scoring of stoves, cooking utensils, fireless cookers, etc.

One hour class. Three hours laboratory. First semester. Two credits.

4. Economic problems of Food Supply—Continuation of course 3.
   One hour class. Three hours laboratory. Second semester. Two credits.

   Two hours class. Four hours laboratory. First semester. Three credits.

   Two hours class. Four hours laboratory. Second semester. Three credits.

7. Institutional Cookery and Food Problems.—Credit and hours arranged after conference with instructor.

8. Diet in Disease—(Hospital dietetics.)
   One hour class. Three hours laboratory. First semester. Two credits.

9. Diet in Disease (Hospital Dietetics)—Course 8 continued.
   One hour class. Three hours laboratory. Second semester. Two credits.

   Two hours laboratory. First semester. One credit.

11. Home Management—Problems of home management including detailed analysis of budgets and accounts.
   Pre-requisite, Economics 1 and 2.
   Two hours class. Second semester. Two credits.

12. Theory and Practice—This course considers the place of Home Economics in education, its relation to various subjects in the curriculum. It includes the outlining of courses of study in various kinds of schools, development of the lesson plan. Practical work includes practice teaching and assisting in practice classes.
   One hour class. Three hours laboratory. Either semester. Three credits.

**TEXTILES AND CLOTHING**

   One hour class. Three hours laboratory. First semester. Two credits.

   Pre-requisite, Course 1.
   One hour class. Three hours laboratory. Second semester. Two credits.

3. Dressmaking and Advanced Clothing Problems—Dress is considered from the artistic and economic standpoint. Designing and mak-
ing of wool dresses. Problems in making over. Careful and impartial study of ready made garments.

Pre-requisite, Clothing 11 and Design.

One hour class. Three hours laboratory. First semester. Two credits.

Pre-requisites, Clothing 3, Costume Design, and Textiles.

One hour class. Three hours laboratory. Second semester. Two credits.

5. **Textiles**—Primitive forms of textile industries and development of modern methods of manufacture textile fibres, production and characteristics. Chemical and microscopic test for different textiles to determine their composition and adulteration.

Pre-requisite, Chemistry 1.

One hour class. Two hours laboratory. Second semester. Two credits.

6. **Millinery**—Planning and making wire and rice net frames suited to the season. Study of color, shape and trimmings as to suitability and becomingness. Simple trimmings.

Two hours laboratory. Two hours preparation. First and Second semesters. One credit.

Attention is called to the following courses in art:
2. Costume Design.
3. Home Decoration and Furnishing.

**HOME ECONOMICS**

The following courses in Home Economics are planned to meet the need of:
1. Those students who desire general courses in preparation for home making or as a part of their general education.
2. Those who are preparing to teach Home Economics or become dieticians.

For a Bachelor of Science Degree in Home Economics the following course is required:

**COURSE LEADING TO BACHELOR OF SCIENCE DEGREE IN HOME ECONOMICS**

### RELIGIOUS EDUCATION

#### BIBLE

1. **Life of Christ**—This is a brief survey of the life of Christ as recorded in the Four Gospels, with the express purpose of setting forth the outstanding characteristics of each period of His Ministry. Required of all Freshmen.
   
   Two hours. One semester. Two credits.

2. **Life and Teachings of Christ**—This is a continuation of Course 1. An attempt is made to train the mind for direct and scientific study of the life and teachings of Christ as given in the Gospel according to Matthew. Required of all Freshmen.
   
   Two hours. One semester. Two credits.

3. **Life of Paul**—This course attempts to acquaint the student with the personality of Paul and with the outstanding periods of his life.
   
   Two hours. One semester. Two credits.
4. **Life and Times of Paul**—This is the continuation of Course 5, leading the student from the personality of Paul to the consideration of first century Christianity as depicted in the Book of Acts.
   Two hours. One semester. Two credits.

5. **History of the Hebrew People**—A study of the history of the Hebrews, from the origin of the nation to the restoration from the Exile, as given in their sacred books.
   Two hours. One semester. Two credits.

6. **Hebrew Prophets**—This course concerns itself with the study of the prophetic literature covering the periods of the Northern and Southern Kingdoms and the Exile.
   Two hours. One semester. Two credits.

7 and 8. **Literary Study of the Bible**—A detailed study of the leading forms of literature represented in the Sacred Writings. Open to Juniors and Seniors elective.
   Two hours throughout the year. Four credits.

**SCIENCE OF RELIGION**

1. **Christianity and Social Problem**—This is an attempt to analyze the social and economic problems of the present day and to suggest the Christian principles upon which a new social order must be founded. Must be preceded by ethics.
   Three hours. Second semester. Three credits.

2. **Comparative Religion**—This course aims to bring forward the universal elements in world religions, especially in Hindooism, Buddhism, Confucianism, Zoroastrianism, Mohammedanism, Judaism and Christianity. It attempts to compare, to classify and to evaluate these religions according to ethical and religious concepts. Modern cults are made subjects of special discussion. Open to Juniors and Seniors.
   Three hours. One semester. Three credits.

3. **Psychology of Religion**—The aim of this course is to study the phenomena and the development of the religious nature of man. “Religious Consciousness,” by James B. Pratt is used as a text. Open to Juniors and Seniors.
   Three hours. One semester. Three credits.

4. **Religions of the World**—An alternate course with “Comparative Religion,” for advanced students. Open only for those who have taken Course 2.
   Three hours. One semester. Three credits.

5. **Advanced Psychology of Religion**—An alternate course with “Psychology of Religion” for those who have completed Course 3.
   Three hours. One semester. Three credits.

**DEPARTMENT OF JOURNALISM**

Direct preparation for work as reporter, copy-reader, feature writer, advertising and publicity man is the aim of the course in journalism. Work on Omaha newspapers will be given as a special experience asset. Individual conferences in connection with lecture and laboratory work enable the instructor to correct errors peculiarly the student's own. Direct touch with magazine markets for stories of merit will be given in feature and short story writing.

Aside from writing technical aspects, the course aims to promote simple, concise, accurate writing as an asset to any profession. It aims to promote breadth of vision from the newspaper's human angle.
1. **Reporting I and II**—Practical instruction and training in all the details of the work of the reporter. Opportunity is given for work on Omaha newspapers. Weekly conferences are required. 
   First and second semester. Six hours credit.

2. **Reporting III and IV**—News story speed tests. The object of the course is the development of an accurate, competent reporter. 
   Pre-requisite, Courses 1 and 2. 
   First and second semester. Six hours credit.

3. **Editing I and II**—The writing of newspaper headlines. Instruction and practice in editing copy, correcting proof, writing headlines, and newspaper make-up. First and second semester. Six hours credit.

4. **Feature Writing and Magazine Short Story Writing**—A study of leading magazines and their demands. Students will be put in touch with short story markets. First and second semester. Six hours credit.

5. **The Psychology of Advertising**—The effectiveness of advertising as it is dependent upon the understanding of the human emotions, instincts and will. The use of suggestion psychology as it may be practically applied in salesmanship. 
   First semester. Three hours credit.

6. **Advertising I**—A complete study of the styles of type, point system, border, engravings, papers and inks, preparation of the layout. 
   Pre-requisite, Course 5. Second semester. Three hours credit.

7. **Advertising II and III**—Practical work in advertising by preparation of copy for advertising campaigns. A study of special fields, including agency and department store advertising. 
   Pre-requisite, Courses 5 and 6. 
   First and second semester. Six hours credit.

**PHYSICAL EDUCATION**

Credits will be allowed for regular and systematic training in Athletics as follows:

- Three credits out of a total of 128 credits.
- Two and one-half credits out of a total of 96 credits.
- Two credits out of a total of 64 credits.
- One credit out of a total of 32 credits.
- One-half credit will be allowed per year for regular and systematic participation in foot ball, basket ball and tennis practice and games; also for a corresponding amount of participation in wrestling, boxing, field and track athletics, or calisthenics.
PHYSICAL DRILL FOR WOMEN

First Year
- Elementary Marching Tactics
- Indian Clubs
- Floor Work
- Esthetic and Folk Dancing
- Games
- Volley Ball

Second Year
- Marching Tactics
- Corrective Work
- Advanced Indian Clubs
- Advanced Floor Work
- Greek Dancing
- Games
- Basket Ball

Third Year
- Advanced Marching Tactics
- Advanced Floor Work
- Corrective Work
- Basket Ball
- Tennis

Required of all women students not presenting a medical certificate of inability.

Two hours. Three years. Three credits.

ART

The Department of Fine and Applied Arts aim to develop the ability of various types of college students to cultivate an appreciation of art and expression as a part of a liberal education.

It aims also to give to students specializing in Art the fundamental training in drawing design and color theory and composition upon which to build for future success. Special additional courses are contemplated and will be added upon request of a sufficient number of students. Credits are given for all work satisfactorily completed.

1. **Free-hand Drawing**—In pencil, charcoal or pen and ink from casts and still life, in line, light and shade and value. Application of principles of free-hand perspective.

2. **Elementary Drawing**—For Kindergarten students. Drawing, color theory, figure sketching, pencil and water color, sketching of nature forms, some manual problems, such as toy making.

3. **Design**—A study of spacing in line, dark and light and color. Required of all handcraft students working for credits.

4. **Design B**—Principles of design, line color theory, space relations. A course for students of Home Economics.

5. **Pictorial Composition**—Principles or arrangement, balance of shapes in spaces, using still life, landscape and figure. Lettering, poster and other forms of commercial art design. This course aims especially to develop artistic appreciation and artistic rendering of commercial work.

6. **Painting**—Still life, flowers and fruits in oil and water color. Outdoor sketching in season.

7. **Drawing**—From casts and costumed model, media, charcoal, tempera, pencil, pen and ink.

8. **Handicraft Group**—(a) Jewelry and metal work. Use of tools and processes of construction in making of pins, rings, pendants, bowls, spoons, etc., also etting of tone.

   (b) Leather tooling includes dyeing and making up of bags, purses and other articles of utility and beauty.

   (c) Wood block printing, toy making and various other crafts involving study and practice of original design.

No credit given in connection with Design A.
9. **Saturday Classes for Teachers**—These courses offer practical help to grade teachers as well as widening their horizon. Drawing color theory, industrial arts design, toy making and handicrafts. Through them is secured increased proficiency in drawing, a better knowledge of design and color, a keener appreciation of art principles and a foundation for class-room criticism.

10. **History or Art**—A study of the art of all peoples from primitive times to present day.

An Art Club has been organized for the promotion of good fellowship. It aims to stimulate interest in art among the student body and to provide social diversion. Its active membership comprises students in Art Department.

Special schedules may be arranged for those preparing to teach Manual Training or Public School Drawing. A certificate is given for work completed.

#### KINDERGARTEN—PRIMARY EDUCATION

The University of Omaha offers a two-year course in Kindergarten—Primary Education. On the completion of this course a certificate is given which enables the holder to teach in the kindergarten and primary grades. The course may be taken in connection with the regular four-year college course, leading to a degree in addition to the certificate.
First Year

Child Psychology ............................................................ 3 hours throughout year
Kindergarten Methods and Observation ......................... 3 hours throughout year
Rhetoric ............................................................................ 3 hours throughout year
Music .................................................................................. 1 hour throughout year
History of Education...................................................... 3 hours throughout year
Plays and Games ................................................................. 2 hours 1st half year
Children's Literature—Story telling .................................. 2 hours 2nd half year

17

Second Year

Kindergarten—Primary Practice ......................................... 5 hours throughout year
Primary Methods .................................................................. 2 hours throughout year
Constructive Occupations for Kindergarten and Primary .... 2 hours 2nd half year
Nature Study ........................................................................ 3 hours 1st half year
Psychology .......................................................................... 3 hours throughout year
Art .......................................................................................... 1 hour throughout year
Kindergarten Theory ............................................................. 2 hours throughout year

18

Child Psychology and Allied Subjects—Child psychology; study of the periods of child's development; instincts; impulses; and forms of activity. Theories of play. Modern leaders in education of children from 4 to 8 years.

Kindergarten Theory—Subject matter in relation to the child's development. The Kindergarten curriculum, its relation to child's activity; its relation to primary work. Study of project-problem method.

Kindergarten Methods and Observations—Study of the play material in relation to child's development. Short review of historic material of the kindergarten. Discussion of modern materials and methods. Observation and discussion.

Primary Methods—Relation between the kindergarten and primary grades. Curriculum and methods in relation to reading, writing, language, number work and manual arts. Discussion of constructive program.

Kindergarten—Primary Teaching—Students will spend three hours daily in practice teaching in both the kindergarten and the primary grades, throughout the second year, under supervision. Plan writing with criticism.

Constructive Occupations for Kindergarten and Primary—Place and value of manual activities in the first three grades. Work with material in connection with the project-problem method.

Plays and Games—Rhythm work, singing games and folk dances suitable for children from 4 to 8 years of age. Physical and social value of traditional and folk games.

Children's Literature and Story Telling—Study and selection of stories suitable for kindergarten and primary children. Value and presentation of stories and poetry. Practice in story telling.

Nature Study—Natural science adapted to the first three grades. Methods of selection and presentation of material, related songs, stories and pictures.
School of Music
of the University of Omaha

ADMINISTRATION

DANIEL E. JENKINS, Ph. D. D. D.
President of the University of Omaha.

FREDERICK K. KRUEGER, Ph. D.
Director of the School of Music.

MISS LUCILLE KENDALL, B. A., Registrar.

DR. F. K. KRUEGER, MRS. HOWARD KENNEDY,
MRS. C. W. AXTELL, Administrative Committee

FACULTY

FREDERICK KONRAD KRUEGER, Ph. D., History of Music.
Thorough piano and general music training in Germany; post graduate
studies in History and Appreciation of music under Professors Fried­
lander and Fleischer at the University of Berlin; choir leader for many
years; Director of Music of the Omaha Musikverein; Director Girls'
Glee Club of the University of Omaha.

MISS CORINNE PAULSON, Piano.
Five years of advanced piano study at Berlin under Rudolph Ganz,
Ossip Gabrilowitsch and Ernst Hoffzimmer. As concert soloist she ap­
ppeared with the Berlin Philharmonic and Bluthner orchestras in 1913
and with the New York Symphony orchestra.

LOUISE JANSEN-WYLIE, Voice.
Student of Lovato Gazzulani of Milan, Italy; Lamputi of Dresden, Ger­
many; Moratti, Mrs. Wilsnach and Lilli Lehmann of Berlin, Germany.
Concert tour as Liedersinger and singer of operatic airs from Italian,
French and German operas in Germany and the United States of Amer­
ica. Director of Music of the First Presbyterian Church of Omaha.

ROBERT CUSCADEN, Violin.
Early study under Hans Albert. Studied in Europe from 1897-1903;
pupil of Anton Witek of Berlin, Germany. At the age of twenty, mem­
ber of the Berlin Philharmonic orchestra. Returned to Omaha 1903 and
established a conservatory of stringed instruments from which some of
the best known professionals of the middle-west have graduated. Re­
turned to Europe in 1908 and resumed position as first violinist in the
Berlin Philharmonic orchestra. Played under Nikisch, Richard Strauss,
Hans Richter, Karl Muck and other famous conductors. Concert Mas­
ter of the “Komische Oper” of Berlin for three years. Conducted the
Esplanade Concerts in Helsingfors, Finland, during the summers of
1910-1911. Returned from Europe to the U. S. A. at the outbreak of the
World War; did concert work and teaching at Boston until 1917; since
then in Omaha.

JOHANNA ANDERSON, Theory and Public School Music
Graduate of Ypsilanti Conservatory, Ypsilanti, Mich. Assistant student
teacher there. Studied voice with F. Ellis and Mary Munchhoff of
Omaha, Eleanore Hazard Peacock, Detroit, and Madame Barbareu Perry
of Chicago. Studied methods of teaching, singing with John Levien,
London, Alice Dupre Parder, New York, Carlton Hackett, D. A. Clippinger, David Bispham, Chicago. Taught music and harmony in Omaha Grade and High Schools. Choir director of the Lowe Avenue Presbyterian Church. Teacher of voice in Sioux City and Omaha. Over 300 Omaha teachers and many supervisors from out in the state have taken work of Miss Anderson.

AIM OF THE SCHOOL OF MUSIC

The aim of the School of Music is to produce intelligent musicians of liberal culture in the various fields of musical activity besides training professional musicians. It desires to cultivate the love and understanding of true music in the home and community, to broaden the cultural basis of the regular college student, to supply educated and competent teachers and supervisors of music for public schools.

SPECIAL ADVANTAGES

The connection of the School of Music with an institution of the recognized standing of the University of Omaha affords great advantages for the pursuit of literary studies in connection with music. The city of Omaha with a population of nearly 200,000 people is known for its growing interest in music. Most of the leading artists give concerts in this city when touring the West, and thus opportunity is offered to the students to hear every year several excellent vocal and instrumental concerts.

Many large and small societies help to create a musical atmosphere in the city.

The musical organizations of the University consist of a Boys’ Glee Club and a Girls’ Glee Club which are sometimes combined into a choir for mixed voices. Steps are being taken for the organization of an orchestra in connection with the School of Music. Attention of future teachers of music is directed to the Art Department of the University. Teachers with a combined knowledge of music and art will find an excellent choice of positions.

EXPENSES

The charges for lessons and lectures are payable in advance. Those for lessons in practical music by the half semester, those for lectures by the semester. No deduction will be made for lessons that are missed for any cause except sickness and then only if the instructor has been notified the previous day or if a physician’s certificate of the same day is presented. The charge for one lesson is $3.00, that for a one hour per week lecture course $12.00 per semester and for each additional hour per week $2.00 more. The tuition for a regular college course per semester is $10.00.

REGULATIONS

Unless expressly stated, the same rules for registration, discipline, grading, examinations, as those for the University apply to its School of Music. The requirements for regular admission to the School of Music are the same as those for the College of Arts and Sciences. Special students are admitted at the discretion of the Faculty.

A semester hour of credit in practical music represents one lesson per week and six hours of practice each week during eighteen weeks. Two credits are acquired by two lessons and nine hours of practice. Participation in 18 recitals throughout the term of the course will earn one credit for the student.
DEGREES AND CERTIFICATES

The student of the School of Music may take a four-year course leading to the degree of Bachelor of Science, a course leading to a state certificate as teacher or supervisor of music in public schools, and a course leading to a certificate of the School of Music evidencing that the holder thereof is qualified to appear as a soloist in public and to give competent instruction in music.

BACHELOR OF MUSIC COURSE

Requirements for admission to this course are the same as those for the B. S. in the College of Liberal Arts and Sciences. For graduation the following course is required:

A.—Required General Courses

<table>
<thead>

</tr>
<tr>
<td>Total</td>
<td>23-27</td>
</tr>
</tbody>
</table>

Altogether 128 credits are required for graduation. The rest of the credits may be earned in any other recognized department of the University.

UNIVERSITY SCHOOL OF MUSIC CERTIFICATE

Candidates for the University Certificate are classed as special students. The requirements are the same as those of Class C in the outline for the Bachelor of Music course, modified in certain cases in regard to Public School Music and chorus work. The certificate is, however, issued at the discretion of the department in which the student has taken his instrumental work.
COURSES OF INSTRUCTION

THEORY

1. **Rudiments of Harmony**—Ear training, sight singing, transposition. Two hours. Two credits.
2. **Advanced Harmony**—Elements of counterpoint and composition. Two hours. Two credits.
   Pre-requisite: At least an elementary knowledge of practical music.

HISTORY AN APPRECIATION OF MUSIC

This course covers the history of music from the beginning to the present time. Emphasis is placed on those composers and works that affect the musical life of today.
Lectures and illustrations on the piano. Throughout the year. Two hours per semester. Two credits.

PIANOFORTE

No definite course can be outlined since instruction in musical performance must be adapted to the character and needs of each individual student. In the first place a very thorough technical foundation is necessary. At the same time careful attention is given to musical interpretation.
The technical, intellectual and aesthetic aspects of artistic performance are taught through the study of the classical masters of the pianoforte.

ORGAN

The aim of this course is to lead the student to a mastery of the organ for sacred as well as secular music through systematic studies in technics, registration and the art of accompaniment.

VIOLIN

A thorough technical training is the basis of work in this department. The study pertains to the development of finger dexterity, bowings, scales, study of higher positions, tone quality, progressive interpretation of classic violin music, solos, sonatas and concertos.

VOICE

Correct use of breath, tone placement, diction, interpretation are taught by a combination of exercises, songs, oratorio and opera work. Students whose special study is voice are required to do at least two years work in a modern language. They are also advised to take special work in expression.

PUBLIC SCHOOL MUSIC

Training in methods of teaching music in elementary and high school; care and development of children's voices; organization and conducting of boys' and girls' glee clubs and school orchestras.
Two hours. Two credits.

CHORUS WORK

The boys' glee club and the girls' glee club study under experienced directors standard chorus work and are made acquainted with the art of conducting.

RECITALS

Students' recitals are given twice during the semester and once at the end of the semester. Through these recitals students are trained for appearance in public.
For further information address the University of Omaha, 24th and Pratt Streets, Omaha, Nebraska.
BUSINESS COURSE

Shorthand—Standard Method. One hour, first semester. Two hours, second semester. Three credits.

This course includes the study of business forms and office practices, and is conducted with a view to meeting the needs of students who are preparing for business or professional careers.

Salesmanship—The principles and practice of salesmanship. One semester. Two hours. Two credits.

Commercial Arithmetic—Adapted to needs of those entering business. Five hours. One semester. One credit.

Commercial Law—Study of law in its general application to business procedure. Three hours. One semester. Three credits.

Summer Session

Calendar—1923

May 31—Thursday. Commencement, 8 P. M.

SUMMER SESSION, 1923

June 7-10—Thursday-Saturday. Registration for Elementary and Science Courses.

June 14-16—Thursday-Saturday. Registration for General College Courses.

June 18—Monday. General College classes open. Six-week classes.

July 27—Friday. Six-week classes end.

August 3—Friday. Eight-week classes end.

ACADEMIC YEAR, 1923-24

September 10-15—Monday-Thursday. Registration for first semester in all departments.

September 17—Monday. Classes begin in all departments.

GENERAL INFORMATION

The annual Summer Session of The University of Omaha will begin June 11 and June 18, 1923. Instruction will be offered for six and eight weeks as follows:

1. The majority of courses in the Summer Session will be conducted for six weeks, beginning June 18 and ending July 27.

2. Elementary courses and courses in Chemistry and Physics will be conducted for eight weeks, beginning June 11 and ending August 3.

OBJECT OF THE SUMMER SESSION

The Summer Session is planned to meet the needs of all who wish to use part of the summer vacation for study. The courses of instruction are especially adapted to the following purposes:

Teachers holding college degrees may study to fit themselves better for their immediate work; they may review courses in preparation for state examinations; or they may pursue a regular course for credit in the Graduate School.

2. Teachers who are not college graduates may fit themselves more thoroughly for their profession and at the same time secure credit toward college degrees.

3. College students may work off conditions or may secure advanced credit on their college courses.

4. Students preparing to enter Omaha or another university in September may either make up entrance deficiencies or may secure advanced credit on their courses.

5. Persons engaged in business or professional work may pursue to advantage any of the courses for which they are qualified.
CHARACTER OF SUMMER SESSION WORK

All work in the Summer Session is equivalent in character and credit value to that of the academic year. The teaching staff is selected from the regular faculty of the University, and is supplemented by instructors from other universities and colleges and by lecturers engaged in educational work.

ADMISSION AND REGISTRATION

No formal requirements for admission to the Summer Session are made, except ability to do the work of the courses for which registration is made. Students desiring to become candidates for degrees, however, must matriculate and satisfy the usual admission requirements before credit on a degree is granted.

TUITION AND LABORATORY FEES

All tuitions are payable during the first week of the course at the following rate:

<table>
<thead>
<tr>
<th>Credit Hours</th>
<th>Tuition</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 hour</td>
<td>$10.00</td>
</tr>

<td>50.00</td>
</tr>
</tbody>
</table>

Laboratory fees from $1 to $10.

CREDIT

Six semester hours (fifteen recitation hours per week) is considered a full schedule for the six weeks; seven semester hours is the maximum for which credit is given except upon petition. Upon petition to the Director in advance of registration, permission to receive eight semester hours of credit is granted to students of high academic standing, teachers of experience, etc.

The elementary courses in Science which are conducted for eight weeks give four semester hours of credit each.

Graduate students may register for six semester hours of work in the six weeks session. In exceptional cases permission for additional hours will be granted upon petition filed with the Dean of the Graduate School.

SPECIAL COURSES OF STUDY

1. **Social Aspects of the Curriculum**—Dr. Finney. June 18-June 29. Lecture and discussion. One hour and a half. Ten days. One credit. 9:00 to 10:30.

2. **General Psychology**—Mrs. Weber. June 18-July 27. One hour per day. Six weeks. Two credits. 8:00 A.M.

3. **Psychology of Thinking**—Mrs. Weber. June 18-July 27. One hour a day. Six weeks. Two credits. 9:00 A.M.

4. **Public School Methods**—Mrs. Weber. June 18-July 27. One hour a day. Six weeks. Two credits. 10:30 A.M.

5. **Theory and Practice**—Mrs. Weber. June 18-July 27. One hour a day. Six weeks. Two credits. 11:30 A.M.
6. **Personal Hygiene**—Dr. Hedger. June 25-July 7. Three hours a day. Lecture and discussion. Ten days. Two credits. 8:00 to 11:00 A. M. Room 215, Central High School.

7. **School Health**—Miss Townsend. June 25-July 7. One hour and a half. Lecture and demonstration. Ten days. One credit. 11:00 A. M. to 12:30 P. M. Room 215, Central High School.

8. **Child Psychology, Primary Methods, Handwork, Story Telling**—Miss Leathers. June 18-July 27. One hour each per day. Six weeks. Two credits each. Time arranged later.

9. **Methods in the Teaching of English, Oral and Written**—Dr. Weng er. July 2-July 13. Lecture and discussion. One hour and a half. Ten days. One credit. 9:00 to 10:30 A. M.

10. **The Making of Citizens Through the Curriculum**—Dr. Hall. July 20-July 25. Lecture and discussion. One hour and a half. Morning and afternoon. One credit. 9:00 to 10:30 A. M.; 2:00 to 3:30 P. M. Afternoon session downtown.

**REGULAR COURSES OF STUDY**

**Eight Weeks Courses June 11 to August 3**

**Botany**—General Elementary Botany; Microtechnique; Special Work and Microbiology. Professor Ward and assistant.

**Chemistry**—General Chemistry, Qualitative Analysis; Quantitative Analysis; Organic and Volumetric. Four credits. Professor Ward and assistants.

**Physics**—General Physics; Advanced Physics. Four credits. Prof. Young and assistants.

**Elementary Latin and Mathematics**—Beginning Latin, Caesar; Beginning Algebra, Plane Geometry. One High School credit.

**Six Weeks Courses June 18 to July 27**

**Political Science, Sociology and Economics**—Introduction to World Politics; Elements of Sociology; Economic Problems of the United States. One hour each per day. Six weeks. Two credits each. Dr. Krueger.

**English**—Composition and Rhetoric; History of English Literature, from Chaucer to Shakespeare; Shakespeare; Second National Period in American Literature. One hour each per day. Six weeks. Two credits. Professor James and assistants.

**Psychology**—General Psychology; Child Psychology; Psychology of Thinking. For instructors and credits see Special Courses of Study.

**Education**—Theory and Practice; Elementary School Methods; Primary and Kindergarten Methods; Social Aspects of the Curriculum; Handwork; Story Telling; Personal Hygiene; School Health; Methods in Teaching English; Making of Citizens Through the Curriculum. For instructors and credits see Special Courses of Study on third page of this Bulletin.

**Romance Language**—Elementary French; Intermediate French; Elementary Spanish; Intermediate Spanish; Elementary German. Two credits. Prof. Zozaya and Prof. Kuhn.

**Public Speech**—Expression, as applied to public school work; Dramatics. Two credits. Professor James and assistant.
Music—Voice; Piano; Harmony; Violin; History of Music; Public School Music; Methods; Sight-Seeing and Ear-Training. Professors Wylie, Paulson, Anderson, Krueger and Cuscaden.

Manual Training—Clay work; wood work. Instructor, Miss Thompson.

Methods in Writing—Applied to public school work. One credit. Instructor, J. A. Savage.

Training for Community Service—Several departments co-operate in arranging courses adapted to the needs of teachers, pastors and others interested in community service. This list includes background courses in Sociology, Psychology, Education and Public Address.

This Bulletin is submitted as a preliminary announcement, and is, therefore, subject to minor modifications before the opening of the Session.

For further information address University of Omaha, Twenty-fourth and Pratt Streets, Phone Webster 4845. W. Gilbert James, Ph. D., Dean, Director of Summer Session.

JOHN W. YEAGER, Kent College of Law
GENERAL STATEMENT

The Law Department of the University of Omaha has been in existence as such five years. It was formerly the Omaha School of Law, a night school, which had been in successful operation for more than twenty years. Since its affiliation with the University of Omaha, however, our Law Department has made rapid strides in growth and development, the enrollment of students having increased five hundred per cent.

Our Law Department is a night school, and presents the opportunity to obtain a practical and thorough education to men who could not afford to spare the time to attend day classes.

Our instructors are competent, capable practicing lawyers of the Omaha Bar, and are not only well versed in the theory of the law, but being active practitioners, they are able to give the students of their own knowledge through their experience and lead the way easily to a practical understanding of the study, and the application of theory to practice.

The design of this school is to prepare students for the practice of law in any court of all the States of the Union, particular attention being given to the practice and courts of Nebraska.

METHOD OF INSTRUCTION

We have combined the two systems of the study of law, namely: The Text-book System and the Case Book System; that is, a text-book is used for the study of every subject, wherein the subject is treated logically, comprehensively and completely. Then case books are used in conjunction with each text book, which contain the leading and most important cases which have been decided by the highest courts, and which cases furnish a practical application of all important rules of law as contained in the text books.

The system is now recognized by many of the leading Universities throughout the United States as being the most efficient and thorough.

REQUIREMENTS FOR ADMISSION

Applicants for admission must be of good moral character. The faculty realizes that there are many young men who desire to pursue the study of law for commercial reasons and do not care about a degree; and to enable such men to take up the work, no particular educational qualifications are required for admission.

However, those who seek admission to the degree of Bachelor of Laws are required to have a preliminary education equal to a complete four-year high school course and must have thirty-two high school credits. Graduates of recognized universities and colleges, persons presenting diplomas or certificates from accredited high schools, normal schools and academies, and persons holding state or county teachers' certificates, will be admitted without examination. Other applicants for admission to the degree of Bachelor of Laws will be examined and must give satisfactory evidence of possessing the equivalent to such preparation as is afforded by the completion of a high school course.

ADVANCED STANDING

Students presenting proper credits from an approved law school may be admitted to advanced standing without examination. Others possessing the required preliminary education may be admitted to advanced standing upon passing satisfactorily an examination on the studies of the preceding year or years.
SPECIAL STUDENTS

Persons not candidates for a degree will be permitted to pursue special studies under the direction and supervision of the faculty.

REQUIREMENTS FOR GRADUATION

Bachelor of Laws

For admission to the degree of Bachelor of Laws, the following requirements are made of each student:

First—He must have received eighty credits.

Second—He must have passed satisfactorily examinations upon all studies of the undergraduate course.

Third—He must have prepared such legal papers as have been assigned for practice; and in addition, an original thesis upon some legal topic approved by the faculty.

Fourth—He must have prosecuted or defended to judgment such cases in the practice courts as have been assigned to him by the faculty.

Fifth—He must be, at least, twenty-one years of age upon graduation, and must have settled with the treasurer for all fees, dues and expenses.

Master of Laws

For admission to the degree of Master of Laws, the following requirements are made:

First—The candidate must be regularly admitted to the Post-Graduate course.

Second—He must have pursued the study of law in this school for one year after such admission and have completed, to the satisfaction of the faculty, such a course of study as may be required.

COURSE OF INSTRUCTION

The course of study covers four years of thirty-six weeks each. The sessions of the school are held in the evenings, the classes meeting at the Y. M. C. A. and McCague Buildings, located downtown. The classes meet from 6:15 to 8:00 o'clock in the evenings.

The regular course of instruction, subject to necessary modifications, will be as follows:

FIRST YEAR

Elementary Law—Lectures and text-book references, embracing history and sources of common law. The design of this course is thoroughly to ground the student in the fundamental elements, to give him a general survey of the science, acquaint him with its leading rules and the connection of each with the principle from which it is derived, and to implant clear conceptions of legal terms. Text-book: Smith's Elementary Law. Twenty-six days at the beginning of the first semester.

Personal Property—Text-book; Schouler. No cases. Two hours. One semester.

Sales—Text-book: Tiffany on Sales: Cooley's Cases. Two hours. One semester.
Torts—Including fraud and negligence. Text-book: Chapin on Torts. Two hours. One semester.

Criminal Procedure—Text-book: Beale’s Criminal Pleading and Practice. Two hours. One semester.

Elements of Logic—An exposition of the fundamental rules underlying the processes of reasoning. Text-book: Elements of Logic by Jevons-Hill. Two hours. Two semesters.

Argumentation—The application of the principles of Logic to Argumentation. Text-book: Baker & Huntington. Two hours. Two semesters.

SECOND YEAR

Bailments and Carriers—Including inn-keepers, express companies and telegraph companies. Text-book: Dobie, and cases. Two hours. One semester.

Real Property—Text-book: Tiffany, and Cases. Two hours. Two semesters.

Civil Procedure—In Inferior Courts. Nebraska code and Lectures.

THIRD YEAR

Suretyship and Guarantyship—Text-book: Childs, and leading cases. Two hours. One semester.

Two hours. One semester.

Moot Courts—Court Practice. Cases are assigned for preparation and tried before one or more of the faculty acting as judges, the first and second year students acting as witnesses and jurors.
Two hours. Two semesters.

FOURTH YEAR

Two hours. Two semesters.

Two hours. One semester.

Two hours. One semester.

Two hours. One semester.

Two hours. One semester.

Two hours. One semester.

Moot Court—Same as third year.
Two hours. Two semesters.

Conflict of Laws—including the jurisdiction of state and federal courts, the conflict of jurisdiction between courts of the state and the courts of another. Text-book: Minor; and leading cases.
Two hours. One semester.

ADVANTAGES

The facilities at the disposal of our law students, which are afforded by the City of Omaha, are in many respects superior to any to be found in the west. The large business interests of a metropolis afford opportunities for an acquaintance with their management which will be of inestimable value to the lawyer. The Omaha Bar has the reputation of being one of the strongest in the United States, and cases of the greatest importance are constantly being heard before Omaha courts. The following courts are in session during the school year: United States District Court; four Civil Law branches, two Equity branches and one Criminal branch of the State District Court; the County Court of Douglas County; the Municipal Court of the City of Omaha, which has three judges; and two Police Courts. These are all within a short distance of the law school. Nowhere are facilities more convenient for acquiring familiarity with court practice, federal, state and city, observing the methods, and listening to the legal arguments of able and successful practitioners.

In addition to the above, a few minutes’ ride brings the student to the several courts sitting in Council Bluffs, Iowa, where he can familiarize himself with the Iowa Code and Practice, and this will be of great advantage to those students who intend to practice in Iowa.
Our law library now consists of about two thousand volumes, and
is constantly being contributed to by friends of the University. Other
library facilities in Omaha are extensive and convenient. The City
Library, containing about 90,000 volumes, is one of the best selected and
most complete libraries in the West. The Douglas County Law Library
has a complete line of state reports of all the states of the Union, as well
as Law Digests and Statutes of the various states. By the courtesy of
the individual members of the Omaha Bar, students may have access to
well-equipped private libraries.

FEES AND EXPENSES

The annual tuition is $80.00, payable one-half at the beginning of
each year, and the balance within sixty days thereafter. A diploma fee
of $10.00 is charged when issued. No deductions will be made for ab­
sences or for failure to complete any course.

Students desiring to pursue one or two subjects only, and not candi­
dates for a degree will be required to pay a fee of $15.00 per subject.
