Meet UNO Libraries’ Newest Faces

Marina Hand joined the Patron Services Team as a Patron Services Associate. She comes to us from California. As a former California State University student, with a lifelong love and connecting to libraries, working at UNO fulfills two dreams at the same time! Mom, I did it!”

New Discovery Tool

Users of University of Nebraska libraries will notice big changes on the libraries’ websites thanks to a next-generation library catalog and discovery tool. This change is the outcome of an 18-month project of the Nebraska Consortium of Libraries (UNCL). In upgrade to a new library catalog, which matches nearly all aspects of academic library operations.

There will be familiar features, such as the searchability on the UNO Libraries’ homepage, and new features like the ability to save records or identify favorite sources.

For information specific to your subject you can contact your subject specialist. Click here for more information.

Spring 2021 Services Update

Welcome back, Mavericks! During the fall 2020 semester, the library put many safety protocols in place due to the COVID-19 pandemic.

This semester, you will see many of those same protocols in place. In order to help keep the UNO community healthy and safe, you may notice a different feel to the building. Not only will our new face mask grant you access into the building, but I will also serve as your library card for any books, technology, and item check out.

When you are in the library, you will notice some changes to how the physical spaces look. You will see more signage that sits above eye level and you will need to check in at the new welcome desk. You will also have to check out a pass to use the space in person.
