O.M.B. NO. 51-RO561
APPROVAL EXPIRES: 6/30/72

1. INSTITUTION CODE NUMBER
002554
2. DUE DATE
Not later than August 15, 1971

Items 1, 3, 4, 5, and 6 MUST be completed by all institutions. If applicable, complete items 7 and 8. Submit a separate survey form for each of the campuses or branch campuses of the institution. If it is impossible to provide separate data for any branch campus, and the data for that branch must be included in the parent institution's report, indicate this in item 8 below.

<p>3. NAME AND MAILING ADDRESS OF INSTITUTION OR CAMPUS COVERED BY THIS REPORT (Include city, State, and ZIP code)</p> <p>University of Nebraska at Omaha Omaha NE 68101</p>	<p>4. NAME AND TITLE OF RESPONDENT</p> <p>Robert C. O'Reilly, Director</p> <hr/> <p>5. TELEPHONE NUMBER OF RESPONDENT (Area code, local number and extension)</p>
--	---

6. THE INSTITUTION COVERED BY THIS REPORT IS (Check only one)

(a) A SINGLE-CAMPUS INSTITUTION

(b) A MAIN CAMPUS ("Parent" institution) WITH ONE OR MORE BRANCH CAMPUSES AND/OR OTHER CAMPUSES (Specify in item 8 below)

(c) A BRANCH CAMPUS OF A PARENT INSTITUTION (Write the name of parent institution below)

(d) ONE OF THE ADMINISTRATIVELY EQUAL CAMPUSES OF A MULTI-CAMPUS INSTITUTION

7. IF THE INSTITUTION COVERED BY THIS REPORT IS INCLUDED IN AN "INSTITUTIONAL SYSTEM", WRITE THE NAME OF THE SYSTEM BELOW.

University of Nebraska

8. PARENT INSTITUTIONS (As checked in item 6b) SHOULD LIST THE NAMES OF ALL THEIR BRANCH CAMPUSES BELOW. USE THE FIRST COLUMN TO SHOW WHETHER DATA FOR ANY OF THESE UNITS ARE INCLUDED WITH THE DATA FOR THE "PARENT" IN THIS REPORT.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

SURVEY COVERAGE

This report is divided into 3 parts.

PART A is concerned with first-professional degrees only.

PART B is concerned with bachelor's, master's, and doctor's degrees.

PART C is concerned with awards below the bachelor's level (*Associate in Arts degrees and other formal awards*).

Many institutions will appropriately skip one or more of the 3 parts. If a particular part (*A, B or C*) does not apply to you, please indicate that fact and forward that part to us along with those you did complete.

NOTE: Listings of data for individual institutions are regularly included in published reports of this survey.

SEPARATE SPECIFIC INSTRUCTIONS ARE PROVIDED FOR EACH OF THE 3 PARTS.

NEW CLASSIFICATION OF MAJOR FIELDS OF STUDY

Introduced into the degrees survey this year is the new Taxonomy of Instructional Programs in Higher Education, the result of several years of intensive effort in cooperation with the higher education community. A major reorganization of the content of the survey was necessary in order to take advantage of the new classification of discipline divisions and discipline specialties. The purpose was to attain a standard system, in tune with current practice, which is comprehensive and flexible enough for a wide variety of institutional uses and survey programs related to higher education.

The developmental work on the taxonomy included extensive consultation and review. Preliminary copies for comment and criticism were sent to all colleges and universities in the United States as well as to a large number of educational associations and organizations and to Federal agencies concerned with education. The final version was developed cooperatively by the National Center for Educational Statistics and the Bureau of Research, both of the U. S. Office of Education, and the Western Interstate Commission on Higher Education.

Copies of the published taxonomy have been made available to all institutions of higher education. The publication reference is:

U. S. Department of Health, Education, and Welfare,
Office of Education, National Center for Educational

Statistics. *A Taxonomy of Instructional Programs in Higher Education*. By Robert A. Huff and Marjorie O. Chandler, OE-50064-70.
Washington: U.S. Government Printing Office, 1970.
Price \$.45.

In addition to the classification system itself, the publication provides an alphabetized index of discipline specialties, and four "translation" tables relating the taxonomy to other or previous classification systems. The translation table which applies to the present survey is Table 1, "HEGIS Degrees and Other Formal Awards Conferred Between July 1, 1968, and June 30, 1969." Table 1 relates item numbers in the 1968-69 survey to the taxonomy code numbers to be used beginning with the present 1970-71 survey. The user may be guided by these translations, but his dominant orientation should be in the direction of classifying degree programs in such a way as to reflect their content accurately in terms of the structure of the new survey form.

The Office of Education is ready to cooperate in every way possible to facilitate the transition to the new classification and to discuss any problems which may arise.

INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS

Only the 8 professions listed below should be reported in Part A. Within these professions, report **first-professional** degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria:

(1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 8 professions other than those specifically named in connection with those professions.

Please note that the 8 disciplines have been grouped in Part A for convenience in analysis; in the Taxonomy listing they appear in the numerical sequence indicated by their code numbers.

For each of the 8 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of all entries in columns 4 and 5.

PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS (Requiring at least six years of study)

INSTRUCTIONS FOR PART B: BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

1. **TYPES OF DEGREES.** Report **earned** bachelor's, master's, and doctor's degrees, except for those first-professional degrees reported in Part A. Report certificates and diplomas if they are equivalent to a bachelor's degree and if they are based on at least 4 years of college work.

Do not report honorary degrees.

Certificates for work between the master's degree and the doctor's degree should be separately listed at the end of Part B. See 5(d) below.

(Report Associate in Arts degrees or similar awards below the bachelor's level in Part C.)

2. **GROUPING OF DISCIPLINES.** The major fields of study to be reported here, classified in accordance with Section I of the Taxonomy of Instructional Programs in Higher Education, fall in the following discipline divisions:

0100 Agriculture and Natural Resources	1300 Home Economics
0200 Architecture and Environmental Design	1400 Law
0300 Area Studies	1500 Letters
0400 Biological Sciences	1600 Library Science
	1700 Mathematics
0500 Business and Management	1800 Military Sciences
0600 Communications	1900 Physical Sciences
0700 Computer and Information Sciences	2000 Psychology
0800 Education	2100 Public Affairs and Services
0900 Engineering	2200 Social Sciences
1000 Fine and Applied Arts	2300 Theology
1100 Foreign Languages	4900 Interdisciplinary Studies
1200 Health Professions	

3. **SKIPPING INAPPLICABLE DISCIPLINES.** Skip those discipline divisions in which your institution does not grant degrees. Many registrars, for example, will skip one or more of the following: 0100; 1200; 1800; 2300.

4. **NUMBER OF DEGREES.** Report all degrees (within the limitations of paragraph 1, above). If a student earned two degrees between July 1, 1970 and June 30, 1971 (e.g., a bachelor's degree at the end of the summer session and a master's degree at the end of the following academic year), report each of the two degrees in its appropriate classification.

5. DEGREE LEVELS.

(a) Report all **BACHELOR'S DEGREES** requiring at least 4 but not more than 5 years of academic work in Columns (4) and (5) of the report-form. Also, report **ALL** bachelor's degrees conferred in a **COOPERATIVE** or **WORK-STUDY**

PLAN or **PROGRAM** in Columns (4) and (5). A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with his college studies.

(b) **MASTER'S DEGREES.** The master's degree in liberal arts and sciences is the degree customarily granted upon successful completion of one (*sometimes two*) academic years of work beyond the bachelor's degree.

Except for the Master of Divinity degree (Part A), report all master's degrees in Part B, Columns (6) and (7) (*even though the master's is required in some fields, such as Library Science, Hospital Administration, and Social Work, for employment at the professional level, and even though, as in the case of Social Work, 4 years of undergraduate work are required for entrance into the program and an additional 2 years for completion.*) Report Education specialist (6-year degree) in same columns as master's degrees, in appropriate discipline specialty in Education (0800).

(c) **DOCTORATE.** The doctorate classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Ph.D. degree in any field whether Agronomy, Food Technology, Education, Engineering, Public Administration, Ophthalmology, Radiology, etc. (*In the case of the Doctor of Public Health, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.*) Please report the doctor's degrees (*except those included in Part A*) in Columns (8) and (9) of the report-form.

(d) **OTHER DEGREE OR CERTIFICATE.** If your institution provides any recognition (*degree or certificate*) for a program intermediate between the master's degree and the doctor's degree (*Ph.D., Ed.D., etc.*) which in essence is the doctor's degree without the dissertation (*for example, Master of Philosophy, Candidate-in Philosophy, etc.*) (*do not include 6-year specialist degrees*), please report the name of the degree or certificate and the number of students receiving it in the item at the end of Part B (*after Item No. 9800.*) (*Do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees in the report-form.*)

6. CLASSIFICATION OF DEGREES ACCORDING TO MAJOR FIELD OF STUDY.

(a) **Specific Classification.** Classify degrees as specifically as the list of specialties in the broad discipline divisions of the report form permits. Thus, report a bachelor's degree in business administration with an accounting major in Accounting (0502), **NOT** in Business and commerce, general (0501).

(b) **Degree of Doctor of Philosophy.** Classify the Doctor of Philosophy degree according to the student's major field of study. Thus, a Ph.D. in Chemistry should be reported as a degree in Chemistry, **NOT** as one in Philosophy.

PART B - BACHELOR'S, MASTER'S, AND DOCTOR'S DEGREES

Do you provide any recognition (*degree or certificate*) for a program intermediate between the master's degree and the doctor's degree (*Ph.D., Ed.D., etc.*), which in essence is the doctor's degree without the dissertation? For example, Master of Philosophy, Candidate in Philosophy, etc.

(Do not include specialist degrees.) (Also, do not include in the tabulated figures for Bachelor's, Master's, and Doctor's degrees.)

YES NO If "YES", specify the name(s) of the degree(s) or certificate(s) and the number of students receiving them from July 1, 1970 to June 30, 1971.

NAME OF DEGREE OR CERTIFICATE	NO. OF STUDENTS RECEIVING DEGREE OR CERTIFICATE

INSTRUCTIONS FOR PART C: DEGREES AND COMPLETIONS BASED ON LESS THAN 4 YEARS

Part C consists of 5 sections, as follows:

- Section 1: Arts and science or general programs, NOT organized as occupational curriculums
- Section 2: Science-related or engineering-related organized occupational curriculums at the technical or semiprofessional level, subdivided by subject field designation
- Section 3: Nonscience-related and nonengineering-related organized occupational curriculums at the technical or semiprofessional level, subdivided by subject field designation
- Section 4: Total of sections 1, 2, and 3
- Section 5: Organized occupational curriculums BELOW the technical or semiprofessional level

Each student's curriculum is to be reported in the ONE section where it best fits. If a student has received both an associate degree and a certificate for the same 2-year curriculum, the completion is to be counted just once. A combination curriculum which includes both general courses and occupational courses at the technical or semiprofessional level should be reported in section 2 or 3 if it meets all the criteria of an organized occupational curriculum (*see below*); otherwise it would be reported in section 1. Organized occupational curriculums BELOW the technical or semiprofessional level should be reported only in section 5. In all sections, report whole curriculums only—not individual courses.

For purposes of this survey, an organized occupational curriculum is one which meets all four of the following criteria:

- A. High school graduation or equivalent, but no work beyond high school, is required for admission to the curriculum.
- B. The curriculum is a series of required and elective courses constituting an integrated program designed to prepare students for IMMEDIATE employment in a SPECIFIC occupation or cluster of occupations. A group of courses, even when all of them are in a given subject area, do not necessarily constitute an organized curriculum.
- C. Completion of the curriculum requires at least one but less than four years of full-time attendance, or the equivalent in part-time attendance over a longer period. A "year" means an academic year of approximately nine months.

- D. The curriculum leads to ANY type of formal recognition (*certificate, associate degree, diploma, a transcript recognizing successful completion, a statement of completion from an administrator of the institution, or other FORMAL recognition*) signifying that the student has completed an organized curriculum; or the State grants a license or other formal recognition, upon examination, to all graduates of the curriculum.

Note that, for purposes of this survey, organized occupational programs are NOT designed as the equivalent of the first one, two, or three years of a baccalaureate degree program.

Example: Pre-engineering is NOT an organized occupational curriculum as defined in this survey, because it is designed to prepare students for CONTINUATION in the regular engineering program for the bachelor's degree. If an associate degree was awarded for this program, it should be reported in Section 1, columns 4-5. If no associate degree was awarded, it should be excluded from this survey altogether.

Engineering technology IS an organized occupational curriculum, as defined in this survey, because it is designed to prepare students for immediate employment upon completion. It should be reported in Section 2.

Work taken in an organized occupational curriculum may or may not be wholly or chiefly creditable toward a bachelor's degree in your institution or by transfer to another institution. The columns on the survey form provide for the following distinctions in reporting completed programs of 2 or more years but less than 4 years:

Work wholly or chiefly creditable toward a bachelor's degree:

Associate degree
Other formal recognition (*without associate degree*)

Work NOT wholly or chiefly creditable toward a bachelor's degree:

Associate degree
Other formal recognition (*without associate degree*)

Before submission of the survey form, please verify the accuracy of all column totals.
