PURPOSE OF THE SURVEY

The primary purpose of this survey is to collect basic data to describe the financial condition of postsecondary education in the nation; to monitor changes in postsecondary education finance; and to promote research involving institutional financial resources and expenditures. The survey is being conducted in compliance with the Center's mission "to collect, analyze, and disseminate statistics and other information related to education in the United States . . .," (P.L. 103-382, National Education Statistics Act of 1994, Sec. 404(a)).

USES OF DATA

Survey results will be used in a variety of ways. For example, they will be used, together with other data, to describe the condition of postsecondary education in the nation. The information will be summarized by various institutional categories to detect any changes over the years in the sources of revenues and types of expenditures. Results will allow institutions to compare their financial data to national averages. The data will also be merged with other institutional data, such as enrollment and completions, to provide a valuable national resource for institutional research.

Changes from the 1996 form for FY 1997 FINANCE SURVEY

- ▶ Specific instructions have been added asking institutions not to report any amounts of funds that they administer under the Federal Direct Loan Program, even though these may be included in their general purpose financial statement as revenues from federal sources or expenditures on scholarships and grants. This program began in academic year 1994-95. This includes loans administered under the William D. Ford Direct Loan Program and Stafford loans made directly by the institution.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 30 minutes to 10.0 hours per response, with an average of 3.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:**

**National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652**

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.
