DEFINITIONS

**INSTITUTIONAL SYSTEM.** A complex of two or more institutions of higher education, each separately organized or independently administered, under the control of a single administrative body.

**MULTI-CAMPUS INSTITUTION.** An organization resembling an institutional system, but clearly designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses.

**MAIN CAMPUS.** In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the

parent institution) is usually the location of the core, primary, or comprehensive program (Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is understood to be the location of the central administrative office.)

**BRANCH CAMPUS.** A campus of an institution of higher education is located in a community different from that of its parent institution, is, beyond a reasonable commuting distance from the main campus of a parent institution. To be considered a branch campus, rather than an extension center, the educational activities at the location must be organized on a relatively permanent basis (i.e., have a relatively permanent administration) and include course offerings for one or more complete college-level programs of at least one full year.

**INSTRUCTIONS FOR PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS, 1981-82**

Only the 10 professions listed below should be reported in Part A. Within these professions, report first-professional degrees only. A first-professional degree is defined herein as one which meets all three of the following criteria:

- (1) it signifies completion of the academic requirements to begin practice in the profession; (2) it is based on a program which requires at least 2 years of college work prior to entrance; and (3) a total of at least 6 academic years of college work is required to complete the degree program, including prior required college work plus the length of the professional curriculum itself.

The "Other" category is to be used only in the event that there are first-professional degrees within the 10 professions other than those specifically named in connection with those professions.

For each of the 10 disciplines, degrees other than first-professional are to be reported in Part B.

The TOTAL line (line 14) should show the sums of the entries in each discipline in columns 4 and 5.

**PART A: FIRST-PROFESSIONAL DEGREES CONFERRED IN SELECTED FIELDS (Requiring at least six years of study, 1981-82)**

IS PART A APPLICABLE TO YOUR INSTITUTION?  YES  NO (If not applicable, return this page and discard pages 6 through 9.)
