This form is authorized by law (20 U.S.C. 1221e-1). While you are not required to respond, your cooperation is needed to make the results of this survey comprehensive, accurate and timely.

PURPOSE OF THE SURVEY

The National Center for Education Statistics (NCES) will collect enrollment data through this component of IPEDS each year in order to update several annual publications including its college enrollment projections, the Digest of Education Statistics and the Condition of Education. Racial/ethnic data are necessary for the Office for Civil Rights to perform functions mandated by Title VI and Title IX and to aid in the monitoring and desegregation plans. IPEDS fall enrollment by age of student will offer insight into the relationship between the changing demographics of college-going cohorts and enrollment in different types of postsecondary institutions.

USES OF DATA

Fall enrollment traditionally is used to measure student access to postsecondary education and IPEDS will continue to provide this important statistical series. The Department also uses fall enrollment data in program planning and for setting funding allocation standards for legislatively controlled programs. Other Federal and State agencies use enrollment data in policymaking decisions, economic and financial planning, manpower forecasting, and policy formulation.

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.
