Instructions for Use of
the Child Care Facility Locator System

The package should include the following items:

1. One deck (100) computer cards.
2. A listing of all child care facilities by card number.
3. One map showing location categories.
4. An alphabetical listing of all child care facilities, their street addresses, and phone numbers.

All child care facilities have been sorted into four categories, and each category has been assigned a set of code numbers. These are as follows:

Day Care Homes	100-199
Day Care Centers	300-399

Upon receiving a request, establish the following:

- a. the type of facility desired (Day care home, center, pre-school or boarding home)
- b. what tuition the requestor will pay
- c. the age of the child needing day care
- d. whether there is a preference for small or large center
- e. whether there is a preference for a particular type of sponsor (religious, etc.)
- f. the time of day the care is needed
- g. any special requirements of child, or preference for special training
- h. preference for specially qualified staff
- i. any racial qualifications
- j. location desired.

After the client's requirements have been ascertained, pull from the card deck the cards corresponding to the stated requirements. If the client has no preference in certain categories, do not pull a card for that category.

When all pertinent cards have been pulled, stack the cards one on top of the other. Hold the stacked cards up to the light and you will see light through some holes. These correspond to facilities meeting the requirements. Record the numbers corresponding to the holes. If light shows through no holes, remove pulled cards one at a time in order of least preference until light shows through. Then go to the Child Care Listing Guide, locate the numbers, and you will find the names and addresses of facilities meeting the specified requirements.
