ACADEMIC REGALIA

Identification of the hood and robe as academic apparel is believed to have originated at the English universities of Oxford and Cambridge during the twelfth and thirteenth centuries. The hoods are a carry-over from the times when monks, who operated these universities, wore them to protect their shaved heads in winter. The robe is an adaptation of the shoulder cape also worn by these same monks while collecting alms.

Use of the academic robe came to the United States in 1754 with the founding of what is now Columbia University. In 1895, a commission of University officials adopted a universal code of design and color for the academic garb. This code has undergone several revisions in subsequent years.

Styling of the robes varies for the bachelor's, master's and doctoral degrees with the width of sleeve borders and length of the hood increasing with each advanced degree. Hoods are normally not used for bachelor's degrees today. Instead, the tassel colors are used to indicate the degree program. All doctoral degree recipients are indicated by a gold tassel.

UNIVERSITY HONORS PROGRAM

The University Honors Program is an all-University program which provides maximum educational opportunities for students of high ability through special multidisciplinary seminars and participation in an academic level not generally possible in usual curricular offerings.

The program is an outgrowth of the Arts and Sciences Honors program and was initiated in 1978. It is governed through the office of the Vice Chancellor for Academic Affairs and administered through the Honors Coordinator. UNO colleges which implement honors programs include Arts and Sciences, Business Administration, Education, Fine Arts, Public Affairs and Community Service, and Information Science and Technology.

As part of their Honors Program requirements, students undertake a research project that results in a Senior Honors Thesis. Students and their theses topics are listed at the end of the list of graduates. Students who have been designated in this booklet as Honors Program students have fulfilled the academic requirements of this program.

MEDALLION COLORS

Students receiving their baccalaureate degree with honors will be presented medallions in the colors designated.

Blue and white cords with the blue tassels honor graduating members of Pi Gamma Mu, International Honor Society in Social Science.

COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT

MARIAN ANDERSEN

Marian Andersen has been described by many as a shining example of "service above self." She has spent countless hours working for the betterment of the community, including the University of Nebraska.

A graduate of the University of Nebraska-Lincoln, Andersen broadened her involvement with the NU system in 1974 after being elected a trustee of the University of Nebraska Foundation. She became the first woman chair of the NU Foundation Board of Directors in 1984.

Andersen and her husband, Harold, chaired the 1993-2000 Campaign Nebraska fundraising effort, which raised in excess of \$727 million for NU initiatives. The Harold and Marian Andersen Hall, home of the UN-L College of Journalism and Mass Communications, is named in their honor.

The Andersens' financial support of and collaboration with UNO has provided for the annual Andy Award, which recognizes media professionals who internationalize the perspectives of Nebraskans, and the Andersen-Gouttierre Award, which honors UNO faculty, staff and students who promote international understanding. Their generosity also helped launch the Del and Lou Ann Weber Lecture Series and has benefited the UNO Athletic Department by establishing the Andersen Scholarships and facilitating renovations in the Sapp Fieldhouse.

In the Omaha community, the Andersens continue to be avid supporters of the Shakespeare Festival. The annual event entertains more than 30,000 attendees each summer and is regarded as one of the nation's premiere outdoor theatre experiences. The Heartland Chapter of the American Red Cross also has recognized their efforts by establishing a philanthropy leadership award in their honor.

STUDENT COMMENCEMENT SPEAKER

KATRINA L. JACOBBERGER

Katrina L. Jacobberger, a native of Omaha, is fascinated by all the world has to offer. Her double major in history and international studies has provided many opportunities, including teaching French at local elementary schools as part of an after-school program.

A firm believer that an education in history is necessary for success in any field, her commencement address is titled "Changes."

At UNO, she has been involved with Golden Key International Honor Society, Sigma Iota Rho Honor Society and Pi Delta Phi Honor Society. She was named to the Dean's List each semester at the University of Nebraska at Omaha and has been placed on the Chancellor's List as well. Jacobberger is the recipient of the UNO History Department's Graduating Senior of the Year Award.

After receiving her bachelor of arts degrees in history and international studies from UNO, Jacobberger plans to attend Fordham University's International Political Economy and Development Program this fall in New York City. She enjoys traveling and would like to visit every country in the world. Her ultimate goal is to pursue non-profit humanitarian and development work with the United Nations or World Bank.

CHANCELLOR'S MEDAL RECIPIENT

JANET TSCHUDIN

Janet Tschudin is the director of the Nebraska Business Development Center (NBDC) Business and Technology Services in the College of Business Administration at the University of Nebraska at Omaha.

Tschudin received her bachelor of science degree cum laude from the University of Nebraska at Kearney in 1977 and earned her master of business administration degree from UNO in 1990. Prior to joining UNO in 1992, she taught at Southeast Community College in Beatrice, Neb.

In her work with the NBDC, Tschudin assists the business community with project management, leadership, technology training and consulting. She also mentors clients on leadership, team building, conflict resolution, communication and managing change. She has a proven track record of identifying client needs and implementing solutions.

Tschudin speaks at various professional engagements, including local, state and regional workshops and conferences. Active in the community, she is a member of the American Society for Training and Development, the Midwest Information System Professionals and the Information Technology Council.

In 1999, she was named Professor of the Year by the Applied Information Management Institute. She also is a member of the UNO business honorary society Beta Gamma Sigma.

The Chancellor's Medal at the University of Nebraska at Omaha was established to recognize the contributions of faculty and administrative staff who embody the institution's mission and values. It is bestowed only to those within the university community who have demonstrated unusual excellence.

ORDER OF THE TOWER

CARL MAMMEL

Carl Mammel continues to be a leading force in the advancement of the University of Nebraska at Omaha. With his support, the university has experienced growth and development in a variety of areas, namely the College of Business Administration (CBA).

Mammel has led an extensive business and public service career, including serving as chairman of the board of Mammel and Associates of the Silverstone Group from 1959 to 2001. He has provided leadership with the Omaha Community Foundation since 1991 and the board of directors of the Commercial Federal Corporation since 1992. Additionally, he has the distinction of being an investor in the original Buffet Partnership that eventually became Berkshire Hathaway.

His business sense also has been showcased through his service as chairman of the board of trustees for Children's Hospital and involvement with the Omaha Symphony Association, the Rotary Club of Omaha, the Salvation Army and the United Way's Alexis de Tocqueville Society.

In 1994, the Mammel Family Foundation was formed. The generous support of the annual Mammel scholarship has enabled top students from the Omaha metropolitan area to attend UNO and the CBA. By keeping students in the community, recruitment of other local talented students has increased, and CBA faculty partnerships have allowed for cutting-edge experience on the policies and practices governing today's businesses.

The Order of the Tower is UNO's highest non-academic award. It is bestowed upon community leaders whose service and/or financial support has made it possible for the university to address the academic, cultural and economic needs of the people of Omaha and citizens of Nebraska. Recipients of the award embody virtues and attributes valued highly by the university and are recognized as an example to others.

ALUMNUS ACHIEVEMENT AWARD RECIPIENT

GUINTER KAHN, M.D.

Guinter Kahn, M.D., has been a practicing dermatologist at Parkway Regional Medical Center in Miami since 1974. He graduated cum laude from the University of Omaha in 1954, earning a bachelor's degree in biology.

In 1958, he received his medical degree with honors from the University of Nebraska Medical Center. Dr. Kahn then completed an internship at Philadelphia General Hospital and served a medical residency in dermatology at the University of Miami.

He has contributed his time and financial resources to the advancement of a variety of humanitarian and charitable endeavors. In addition, he has been a key benefactor of many institutions, including the UNMC, which named a floor in its Leon S. McGoogan Library of Medicine in his honor. The dermatology department at Rambam Medical Center in Haifa, Israel, also bears his name. Recently, his generosity extended to the UNO library, creating the Guinter Kahn Library addition, which celebrates the 50th anniversary of his UNO graduation.

A native of Trier, Germany, Dr. Kahn immigrated to the United States in 1938. He researched and documented the role German physicians played in the Holocaust and has presented on that topic at more than 20 medical universities in Germany and Austria. His support of the Anti-Defamation League has provided funding for college students to visit sites in Israel and Poland, including Nazi concentration camps at Auschwitz and Birkenau.

His special interests include the treatment of skin cancer, children's skin diseases and infections of the skin, of which he has authored more than 100 articles.

Dr. Kahn has received numerous awards, including UNMC College of Medicine Alumnus of the Year (1996), Distinguished Inventor of the Year (1998), an honorary doctorate of science from UNMC (2002), membership in the Dermatovenereology Association of Turkey and selection to "The Best Doctors in America: Southeast Region."

He revolutionized the hair-growth industry with his discovery in the early 1970s that the drug Minoxidil is an effective hair-growth stimulant. Minoxidil today remains the only substance that is approved by the FDA for growing hair.
