- Effective with the Fall semester 2011, students entering a baccalaureate program in the College of Engineering on the Omaha campus must satisfy the Achievement Centered Education (ACE) requirements of the University of Nebraska Lincoln as part of their degree requirements.
- Students in the College of Engineering are not encouraged to take courses as Credit/No Credit (Pass / No Pass). Exception: Engineering 4000. In addition, students may take up to 12 credit hours of courses in the humanities and social sciences as Credit / No Credit basis. Typically, students in the College of Engineering may not take other required courses or technical electives with a grading option of Credit / No Credit.
- Credits for “Intensive English Program” at UNL and “English as a Second Language” at UNO are not applicable to degree programs in the College of Engineering.
- Students who are officially accepted into the College of Engineering need to maintain continuous enrollment must fulfill the requirements as stated in this UNO Undergraduate Catalog (or UNL Bulletin when applicable) or in any other UNO Catalog which is published while they are enrolled in the College, provided that the catalog is no more than ten (10) years old at the time of graduation. A student must, however, meet the graduation requirements from one catalog only. A student may not choose a portion from one catalog and the remainder from another catalog. Additional departmental and program based conditions and requirements may apply.
  - The College of Engineering does not accept courses for transfer from outside the University of Nebraska system (UNK, UNL, or UNO) in which a grade less than “C” is received.
  - Subject to space availability, any student with a cumulative GPA less than 2.40 may enroll in AE 1010, CNST 1310, CIVE 112, CONE 1030 and ECEN 2250 providing they have permission from the College of Engineering and their enrollment does not violate course repeat policies of the College of Engineering. Similarly, students who have College of Engineering permission, do not violate College of Engineering course repeat policies, have the appropriate course prerequisites and whose cumulative GPA is above 2.0 may enroll in, MENG 2200, MENG 3240, and ENGR 3000.
  - Excluding exemptions specified under the student classification and general college policy sections, a minimum cumulative GPA of at least 2.40 is required to enroll in engineering and construction management courses.

Program Controls

The department reserves the right to change or update programs. Classes which are dropped from a required curriculum may no longer apply to degree requirements. Classes added to a required curriculum may be required of all subsequent graduates. Some prerequisites may not apply after two years. A non-continuous student (one who drops out for one semester, or longer) will face revised or updated graduation requirements. Prior approvals, acceptances or other advising agreements will no longer apply in such cases of non-continuous enrollment. Access to departmental courses is controlled by the department. Students whose GPAs are below certain limits, and students who fail to acquire prior departmental approval to enroll, may not be eligible. If space is limited in classes, priority may be given to those students who are near to graduation, and need such classes for graduation.

Life Long Learning

The education of professionals in engineering and construction management is a continuing process. The ground work in both technical and nontechnical studies is laid while in college, but education does not stop on the day of graduation. For a professional, education will continue
not only in the technical areas but in areas that relate to human and social concerns. A professional may expect to take a leadership role in the community and must have a broad awareness of human and social accomplishments, needs, values, and a willingness to take the responsibility for meeting these needs. For these reasons, an integrated program of course work in the humanities and social sciences is part of the educational requirements.

Other College Information

Application for the Diploma
Each student who expects to receive a diploma must file an application of candidacy for the diploma on-line on Maverick Weekly email to students, and by an email sent by the UNO Registrar’s office.

It is the responsibility of the students to inform the Registrar’s Office of their graduation plans including their mailing address and the manner in which they are completing their requirements.

Failure to meet these stipulations may necessitate postponement of graduation until the next semester.

Graduation with Distinction
Students with outstanding scholastic records may obtain the College special honor of graduation WITH DISTINCTION, with HIGH DISTINCTION, or HIGHEST DISTINCTION upon the recommendation of the faculty of the College. Check with your major department for specific requirements.

Professional Registration
The College encourages students to seek professional registration. Many of the College’s seniors take the Fundamentals of Engineering (FE) examination prior to graduation. This examination is the first step in the process of becoming a registered professional engineer. To become a licensed professional engineer, one must pass the FE exam, have four years of experience, and pass a professional practice examination. Students typically take the FE exam in the last semester of their engineering baccalaureate program. Arrangements are made online through NCEES.org (http://NCEES.org).

Academic Amnesty and Appeals
The following policies shall apply for academic amnesty, appeals of course grades, and appeals of academic suspension.

Academic Amnesty
A student may remove one or more full semesters of work from degree consideration by applying to the Office of the Dean after either completing a minimum of 15 simultaneous or sequential credit hours with at least a 3.0 grade point average or 30 hours with at least a 2.5 grade point average at the University of Nebraska at Omaha following the semester(s) the student wishes to remove. The application will be forwarded to the campus College Academic Appeals Committee for review and approval, if appropriate.

Appeals of Course Grades
In the event of a dispute involving grades, the student should appeal to his/her instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, students who have a valid cause for appealing a grade for a course may file a written appeal with the Office of the Dean. Appeals must be filed within 21 days after the date of electronic posting of the grades by the Registrar for the semester in which the appealed grade was earned. Appeals will be forwarded to the campus College Academic Appeals Committee for consideration.

Appeals of Academic Suspension
Appeals of academic suspension must be filed in writing with the Office of the Dean within 21 days after official electronic notification/posting of the grades by the Registrar for the semester at the end of which the suspension was invoked. Suspended students who have filed a notice of appeal may apply to the Office of the Dean for a temporary release from suspension pending the final disposition of their appeal by the Academic Appeals Committee of the College of Engineering.

Regulations
The college and its various divisions and departments reserve the right to change the rules governing admission to, instruction in, and graduation from the college or its various divisions.

Such regulations are operative whenever the college authorities deem necessary and apply not only to prospective students but also to those currently enrolled in the college. The college also reserves the right to withdraw courses and to reassign instructors.

Prerequisites for courses offered in the college are effective even if they are not listed in the schedule. A maximum amount of credit that a student may earn during any semester does not generally exceed 18 credit hours without the Dean’s permission.

Admission and Academic Policies
These policies are subject to change. Students should consult their adviser, their department chair, or Engineering Student Services, if they have questions on current policies.

Engineering and Construction Management
Admission Requirements
- High school transcripts are required of students including those transferring from colleges within UNO or the University of Nebraska system. Students wishing to enter engineering or the construction management program must have the following minimum units (one unit equals one year) of high school credit for:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td></td>
<td>4</td>
</tr>
<tr>
<td>Trigonometry or pre-calculus</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Algebra</td>
<td></td>
<td>2</td>
</tr>
<tr>
<td>Geometry</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Physics</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Chemistry</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Natural Science</td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

- A second unit of natural science may be used in place of chemistry for construction management applicants.
- In addition to the specific high school unit requirements listed previously, students are expected to meet core course requirements as specified for admission by the University of Nebraska at Omaha.
- Students having composite ACT scores of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack one unit of the following: trigonometry / pre-calculus, chemistry, or physics.
- Official transcripts are required from all institutions of higher education previously attended. A minimum cumulative grade point average from the last institution of higher education attended (for 12 or more earned collegiate semester credit hours) of 2.5 for residents of Nebraska and 3.0 for non-residents is required for admission to engineering and construction management. Exception: a grade point average (cumulative and most recent term) of 2.5 is required for both residents and non-residents transferring within the College of Engineering or transferring from another college in the University of Nebraska system or from an EAC of ABET accredited program at another institution.
- A composite ACT (enhanced) score of 24 or greater, or a SAT (verbal + math) score of 1110 or greater. Exception: transfer and readmitted students with 12 or more earned collegiate semester credit hours.
Students may not graduate with a degree in construction management with a minimum cumulative GPA of 2.4 may be reclassified as restricted students. These students are generally restricted from taking College of Engineering courses while in this restricted status. Students may be reclassified from pre-engineering to restricted status when their accumulative GPA falls below 2.4.

Transfer students who have attended a two-year community college transfer program in engineering should meet with an adviser to consider all options available to him/her. All prospective students are invited to visit the campus and meet with an adviser.

Engineering and Construction Management Student Classification

Regular Engineering Students
Students who have completed 43 credit hours that are applicable to the engineering degree they seek in the College of Engineering may apply for formal admission to a degree program. Those students whose credit hours applicable to the degree they seek exceeds 61 must receive formal admission to an engineering degree program if they are to continue to take engineering courses taught in the College of Engineering and/or be identified with the college.

Students in the College of Engineering, students from other majors or colleges in the University, readmitted students, and transfer students from other institutions may make application to an engineering degree program during the first four weeks of the fall or spring semester. Students must have at least 12 credit hours of course work from the University of Nebraska on record before an application will be considered. The application must be submitted with a complete record of course work. Students may select a first and second choice of an engineering degree program on a single application and may submit no more than two applications and only in successive semesters. Applications will be judged on a competitive academic performance basis.

Regular engineering students may have their admission to a degree program suspended if their academic record is unsatisfactory. In addition, regular engineering students whose cumulative GPA falls below 2.4 will be reclassified to restricted status. Students may not graduate with a degree in engineering while in the restricted status.

Regular Construction Management Students
Pre-construction management students must apply and be admitted to the construction management degree program after completing 30 credit hours of required course work. Students failing to be admitted to the construction management degree program prior to earning 65 credit hours may be dropped as a construction management degree candidates.

Regular construction management students who fail to maintain a minimum cumulative GPA of 2.4 may be reclassified as a restricted student. Students may not graduate with a degree in construction management while in the restricted status.

College of Engineering Programs
Architectural Engineering
- B.S. Degree Program (p. 326)

Civil Engineering
- B.S. Degree Program (p. 329)

Computer Engineering
- B.S. Degree Program (p. 339)

Construction Engineering
- B.S. Degree Program (p. 351)

Electrical Engineering
- B.S. Degree Program (p. 340)

Electronics Engineering
- B.S. Degree Program (p. 341)

First two years of:
- Agricultural Engineering (p. 346)
- Biological Systems Engineering (p. 346)
- Mechanical Engineering (p. 347)

Management
Construction Management
- B.S. Degree Program (p. 352)

Graduate Programs
A variety of graduate programs in engineering and construction management are available. For details on programs leading to masters and
doctorate degrees, including the application process, individuals should contact the appropriate department or office of the dean in the College of Engineering. Application forms are available at http://www.unl.edu/gradstudies.

Requirements for Minor Offered by Department
This minor is for Engineering and Architecture majors ONLY.

The College of Engineering enables students to participate in approved minors subject to the following conditions:

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.

2. A student’s minor program must be organized and approved by an advisor prior to the submission of the senior check to the department chair or head.

3. The minor must be approved by the advisor, the department chair or head, and the cognizant program offering the minor.

4. The College of Engineering will follow the “Plan A/B” format of the College of Arts and Sciences in which a student pursuing a single minor must complete the “Plan A” requirements. A student pursuing a double (or greater) minor must fulfill either the “Plan A” or “Plan B” requirements for both minors depending on which plan is offered by the cognizant department.

5. Minors on either the City Campus in Lincoln or the Scott Campus in Omaha may be added by approval of the College of Engineering Curriculum Committee and faculty.

Total Credits 24

Architectural Engineering, Bachelor of Science

The architectural engineering (BSAE) undergraduate program is a four-year program requiring 130 credit hours. A one-year Master of Architectural Engineering (MAE) program of 36 credits is also offered. The MAE degree is accredited by ABET and almost all of our BSAE graduates continue to complete the MAE degree.

The following are the BSAE/MAE program educational objectives (PEOs):

• Professional Accomplishment: The AE program will prepare graduates to become licensed professional engineers a few years after graduation.

• Career Accomplishment: The AE program will prepare graduates to contribute to society by working in an occupation related to the built environment a few years after graduation.

Architectural engineering (AE) is the engineering design of buildings. Students have the option to specialize in either the design of:

• building structural systems,

• building mechanical systems and acoustics, or

• building lighting and electrical systems.

The first three years are common to all three fields of specialization, and include the math and science courses common to all engineering programs. Students take an introductory course in AE in their first semester where the students learn about the materials and systems that comprise a building, visit a construction site, and interact with their industry mentors. It provides a preview of the work they can expect to perform after graduation. This introductory course helps the student to decide if AE is the career path he/she wishes to pursue.

In the second semester, the AE student begins the first of a four-course sequence of courses in AE Design and Simulation Studio. These courses familiarize the engineering student with building information technology (BIM), building systems, and how they support the design process of architects. The AE degree is keenly focused on integrating engineering concepts with architectural features to deliver aesthetic and high performing buildings. Exposure to construction is an important part of the AE student’s education. It develops creativity and constructability where AE graduates enjoy a special ability to work effectively with all professionals on the design and construction team.

The intent of the AE program is to develop both breadth and depth. This is done by requiring the students to have a good understanding of all the systems that make up a building while also giving them a specialized education in their chosen option areas. The breadth is provided in the 5th and 6th semesters, with all students taking courses in each of the three areas of specialization. The depth is provided in the 7th and 8th semesters, as the program splits into the three option areas.

A one-year Master of Architectural Engineering degree follows the four-year undergraduate program. This fifth year continues the specialized education in each of the three option areas, and provides an introduction to some of the professional practice topics that Architectural Engineers will need later in their careers.

The year of the AE program features a MAE design project. The project requires the student to practice all the design skills and understanding of building systems developed throughout the program. Students in teams will complete a significant building design in a manner that closely simulates professional practice. Industry and faculty members will serve as consultants to the students.

Architectural engineering is accredited by the EAC-ABET, Inc.

Program Controls

Because of rapid technical developments, the AE curriculum will be continually reviewed and upgraded. Currently enrolled students are expected to modify their programs to take advantage of such revisions. Students who do not maintain continuous progress toward the degree through enrollment in applicable course work will be considered as new students upon re-entering the program and will be subject to the requirements of the undergraduate catalog current at the time of their re-entry.

AE students must pass any course offered by the AE program (those with an AE or CE prefix) with a grade of “C” or higher to obtain credit toward graduation for that course. All courses that are prerequisites for AE or CE
courses must be passed with a grade of "C-" or higher to obtain entry into the subsequent course.

Students must complete at least 43 credit hours in the AE program before applying for professional admission to the degree program in AE. The students must have a minimum of 3.0 GPA over a pre-determined set of 43 credit hour freshman and sophomore level courses to be professionally admitted to the AE program and continue to take 300-level AE courses. A spreadsheet for calculation of AE professional admittance GPA is provided on the AE website. The number admitted students will depend on the availability of space, faculty, and other academic resources. Students are not permitted to register for more than 61 credit hours of courses listed in the AE curriculum until they have been accepted into the degree program in AE.

The AE program follows the UNL ACE general education requirements. Because of the specific needs of the program, most of these courses are specified in the curriculum.

Please contact the department at 402-554-4482, if you are interested in more information about this program.

**Career Opportunities**

Architectural engineering graduates normally enter the building design industry and become registered professional engineers. There about 20 accredited Architectural Engineering programs in the country, so there is a large unfulfilled demand for engineers educated in building design. In Nebraska, the home of several large Architectural and Engineering design firms, this is especially true.

AE 3130 HVAC LAB (1 credit)
Conduct experiments and prepare written reports involving fluid flow, pumps, fans, ducts, piping; basic heat transfer and thermodynamics.
Prerequisite(s)/Corequisite(s): CIVE310 and CIVE319 and AE 3100

AE 3200 LIGHTING I: FUND FOR DESIGN (3 credits)
General introduction to illumination engineering for building interiors. Topics include fundamental principles of light and vision, lighting equipment, requirements for building lighting, and basic illuminating design methods.
Prerequisite(s)/Corequisite(s): AE 2250 and CIST1400

AE 3220 ELECTRICAL SYSTEMS FOR BLDGS I (3 credits)
General introduction to the design of electrical power systems as they apply to buildings. Topics include electrical systems, and the basic engineering design methods.
Prerequisite(s)/Corequisite(s): AE 2250 and ELEC2110

AE 3230 LIGHTING & ELECT SYSTEMS LAB (1 credit)
General introduction to lighting and electrical systems in building interiors, through hands-on exercises using a range of currently available lighting and electrical technologies. Topics include: principles of object modeling, lamp and luminaire workshops, field measurements of lighting and electrical systems, motor workshop, power consumption and power factor workshops.
Prerequisite(s)/Corequisite(s): AE 3200 and coreq AE 3220

AE 3300 BUILDING ACOUSTICS FUND (3 credits)
An introduction to the acoustics of buildings. Topics include the fundamentals of sound generation, propagation, and measurement; human hearing; acoustic properties of materials and constructions; basic room acoustics; and noise control.
Prerequisite(s)/Corequisite(s): PHYS2120

AE 3770 GLOBAL EXPER IN ARCH ENGR (1-3 credits)
Individual or group educational experience in Architectural Engineering that combine classrooms, lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

AE 3920 INDIVIDUAL INSTR IN AE III (1-3 credits)
Individual instruction in Architectural Engineering at the junior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 3940 SPECIAL TOPICS IN AE III (3 credits)
Special topics in Architectural Engineering at the junior level that are not yet covered in other courses in the Architectural Engineering curriculum.

AE 4020 ARCHITECTURAL ENGINEERING SENIOR DESIGN PROJECT IN LIGHTING (4 credits)
Senior design project that integrates lighting design and illuminating engineering through a semester long design problem. A self-directed execution of the lighting design process culminating with a professional design solution.
Prerequisite(s)/Corequisite(s): AE 3220 and AE 4200

AE 4120 BUILDING ENERGY II: SEC SYS (3 credits)
Analysis and design of building air distribution systems, fans, pumps, piping, space air diffusion and heat exchangers.
Prerequisite(s)/Corequisite(s): CIVE310 and MENG4200 and AE 3100

AE 4150 HVAC DESIGN (4 credits)
Develop and design the mechanical system for an actual building, from the programming phase to the final construction documents. (Is the first option-specific mechanical systems design course and is to be taken during the forth year of B.S.A.E. program.)
Prerequisite(s)/Corequisite(s): AE 4120, not open to nondegree students

AE 4200 LIGHTING II: THEORY, DES & APP (3 credits)
Design and analysis of lighting systems; emphasis is on the integration between the lighting design process and the technical foundations for building lighting; topics include design criteria; lighting design procedures, lighting modes and subjective effects; calculation tools. Lab sessions include photometric measurements and computer applications. (Cross-listed with AE 8206)
Prerequisite(s)/Corequisite(s): AE 3200

AE 4250 LIGHTING DESIGN (4 credits)
Advanced design and analysis of lighting systems. Application of the lighting design process for advanced interior applications such as multimedia facilities, and outdoor applications such as sports lighting. (Requires the initiation of the design process, proceeding in a self-directed manner through intermediate steps, and producing professional lighting design solutions.)
Prerequisite(s)/Corequisite(s): AE 4200, not open to nondegree students

AE 4300 ADVANCED NOISE CONTROL (3 credits)
Characterization of acoustic sources; use and measurement of sound and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control. (Cross-listed with AE 8306)
Prerequisite(s)/Corequisite(s): AE 3200

AE 4920 INDIVIDUAL INSTR IN AE IV (1-3 credits)
Individual instruction in Architectural Engineering at the senior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 4940 SPECIAL TOPICS IN AE IV (3 credits)
Special topics in Architectural Engineering at the senior level that are not yet covered in other courses in the Architectural Engineering curriculum.

Civil Engineering, Bachelor of Science

The Department of Civil Engineering (CIVE) offers a complete undergraduate program to students on the Lincoln and Omaha campuses of the University of Nebraska (www.engineering.unl.edu/civil). Curriculum requirements are nearly identical on both campuses. The goal is to prepare students for entry into the civil engineering profession immediately after graduation or to pursue graduate-level work. The program educational objectives of the University of Nebraska civil engineering undergraduate program are to prepare our graduates to:

- apply their solid foundation in civil engineering toward the practice and to obtain an advanced-degree education toward a broad range of career choices;
- perform technical analysis or design of a complex system, component or process as acting representative of governmental agencies, private consulting engineering firms, research organizations or industry;
- explain engineering concepts accurately and effectively to informed technical and non-technical audiences using appropriate verbal, written, virtual and graphical means;
- apply basic project management and business concepts and processes;
- engage in lifelong learning to foster technical growth, ethical conduct, and the practice of professional communication, teamwork and leadership skills; and
- obtain licensure in a profession, such as civil engineering, after the requisite number of years of practice.

As a professional discipline, civil engineering is closely related to the total human environment. In all professional endeavors, the civil engineer must consider ecological effects as well as the social, economic, and political needs of people.
The civil engineer designs systems to control and manage our water resources to provide electric power, agricultural irrigation, flood control, recreation, water supplies and wastewater treatment systems for our urban and industrial needs. The civil engineer plans, designs, and constructs our transportation systems including highways, railroads, waterways, and airports to connect rural, urban, and industrial areas. The civil engineer also designs and constructs housing and facilities for recreational, industrial, and commercial complexes, which comprise the urban environment.

It is the responsibility of civil engineering to minimize air, water, and land pollution and protect the environment. Instructional emphasis is placed on fundamental engineering principles derived from mathematics, chemistry, physics, and engineering science. These subjects provide a sound background for the subsequent introductory courses in environmental, geotechnical, structural, transportation, and water resources engineering.

Students are introduced to design concepts in the freshman year. Design is incorporated throughout the curriculum which culminates in CIVE 489, Senior Design Project. Instructional laboratories in environmental engineering, hydraulics, geotechnical engineering, structures, and surveying provide each student with an opportunity to learn, through individual participation, the operation of the testing equipment used to establish engineering design criteria and to monitor and model engineering facilities such as water and wastewater treatment plants, highway systems, river control systems, and structural systems.

### Professional Admission to Civil Engineering

Students must apply for Professional Admission to the Civil Engineering Degree Program once they have completed 43 credits toward the degree. Once students have been professionally admitted, they are allowed to take 400-level courses to complete their degree. Department-specific Professional Admission requirements are:

- if the cumulative GPA is 2.7 or above, a grade of C or better must be earned in PHYS 2110, MENG 2230, MENG 3730, and MENG 3250
- if the cumulative GPA is below 2.7 a grade of C or better must be earned in all math, science, and engineering courses leading to the degree.

To be considered for Professional Admission, the following College of Engineering general criteria must be met:

- completion of at least 12 credits (one semester) after admission to the College of Engineering.
- cumulative grade point average of 2.4 or greater, and
- no more than two declined admission requests to other engineering majors.

### Requirements

(Lincoln and Omaha campuses)

Civil Engineering Technical Electives

Technical Electives: Technical electives will be selected by the student in consultation with his/her adviser to formulate a coherent program in civil engineering. Two technical electives (up to six credits) can be taken from MENG 2000, ECEN 2110, CONE 2060 or any approved course in science, mathematics, or other engineering areas approved by the department. The department has an approved list.

CIVE 481   COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING 3

CIVE 498   SPEC TOPICS IN CIVIL ENGR 1-6

For more information...
Call 402-554-2462 or visit www.engineering.unl.edu/civil/
(http://www.engineering.unl.edu/civil)

CIVE 112 INTRO TO CIVIL ENGR (1 credit)
Introduction to civil engineering as a career by use of case studies; alternate approaches to engineering designs illustrated by use of engineering principles.

CIVE 125 ECOLOGY, THE ENVIRONMENT AND THE ENGINEER (3 credits)
Investigation into the nature of ecology, man’s relation with the environment and man’s chance of survival in that environment, and the potential influence, for good or bad, of modern man’s activities.

CIVE 130 COMPUTER-AIDED DESIGN (2 credits)
Use of computer-aided design software to communicate engineering ideas. Specifications, dimensioning, tolerancing, 2- and 3-D model development, topographic mapping, and process layout with environmental, bioprocess, and biomedical emphases.

Prerequisite(s)/Corequisite(s): CIVE 112, not open to nondegree students

CIVE 221 GEOMETRIC CONTRL SYS (3 credits)
Introduction to the theory and application of mensuration and geometric information processing in civil engineering. Measurement of distance, direction, elevation and location using mechanical, electronic and satellite systems; collection of field data; error propagation; elementary geometric data bases for design, construction, operation and control of civil works. (Cross-listed with CONE 2210)

Prerequisite(s)/Corequisite(s): MATH 1950, not open to nondegree students

CIVE 252 CONSTRUCTION MATERIALS LAB (1 credit)
Introduction to ASTM and AASHTO standard procedures used to measure soil and concrete properties; common modifications to soil and concrete mixes are discussed and analyzed.

Prerequisite(s)/Corequisite(s): MATH 1950 and CNST 2510 coreq

CIVE 310 FLUID MECHANICS (3 credits)
Fluid statics, equations of continuity, momentum, and energy; dimensional analysis and dynamic similarity. Applications to: flow meters; fluid pumps and turbines; viscous flow and lubrication; flow in closed conduits and open channels. Two-dimensional potential flow.

Prerequisite(s)/Corequisite(s): MATH 2350; and MENG 3730 or EMEC 3730; MENG 2000 coreq. Not open to non-degree graduate student.

CIVE 319 HYDRAULICS LAB (1 credit)
Hydraulic experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.

Prerequisite(s)/Corequisite(s): CIVE 310 pre/coreq

CIVE 326 INTRODUCTION TO ENVIRONMENTAL ENGINEERING (3 credits)
Introduction to the principles of environmental engineering, including water quality, atmospheric quality, pollution prevention, and solid and hazardous waste engineering. Design of water, air, and waste management systems.

Prerequisite(s)/Corequisite(s): CHEM 1180 and MATH 2350.

CIVE 327 ENVIRONMENTAL ENGINEERING LABORATORY (1 credit)
Environmental engineering experiments, demonstrations, field trips, and projects. Experiments include the measurement and determination of environmental quality parameters such as solids, dissolved oxygen, biochemical and chemical oxygen demand, and alkalinity.

Prerequisite(s)/Corequisite(s): CHEM 1180 and MATH 2350 and CIVE 326 coreq

University of Nebraska at Omaha Catalog 331
CIVE 328 CONCRETE MATERIALS (2 credits)
Prerequisite(s)/Corequisite(s): MENG 2230 and CHEM 1180. Not open to non-degree graduate students.

CIVE 334 INTRODUCTION TO GEOTECHNICAL ENGINEERING (4 credits)
Soil composition, structure and phase relationships; soil classification. Principles of effective stress; loading induced subsurface stresses; load history; deformation and failure of soils. Elastic and limit analysis with applications to design for bearing capacity, settlement, retaining walls and slope stability. Steady state seepage. 
Prerequisite(s)/Corequisite(s): EMEC 3250 or MENG 3250; Coreq: CIVE 310.

CIVE 341 INTRODUCTION TO STRUCTURAL ENGINEERING (4 credits)
Introduction to the analysis and design of structural systems. Analyses of determinate and indeterminate trusses, beams, and frames are covered, and design philosophies for structural engineering are explored. Laboratory experiments deal with the analysis of determinate and indeterminate structures. 
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250

CIVE 352 INTRODUCTION TO WATER RESOURCES ENGINEERING (3 credits)
Introduction to water resources engineering design and planning, surface hydrology, groundwater hydraulics, reservoirs and other control structures. Introduction to field measurement and computational methods in water resources. 
Prerequisite(s)/Corequisite(s): CIVE310 or MENG3100

CIVE 361 HIGHWAY ENGINEERING (3 credits)
Introduction to the principles of highway engineering and traffic operations and control. 
Prerequisite(s)/Corequisite(s): MENG 2230 or EMEC 2230; and CIVE 221 or CONE 2210.

CIVE 378 MATERIALS OF CONSTRUCTION (3 credits)
(Lect 2, Lab 2) Introduction to the behavior, testing and design of soil, Portland cement concrete, steel, wood and composites. Experiments covering the concepts of stress and strain under axial, torsional, shear and flexural loading conditions. Common ASTM laboratory test procedures and specifications, field quality control tests and statistical applications. 
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250

CIVE 385 PROF PRACT & MGMT IN CIVIL ENG (3 credits)
Basic elements of civil engineering practice. Roles of all participants in the process-owners, designers, architects, contractors, and suppliers. Basic concepts in business management, public policy, leadership, and professional licensure. Professional relations, civic responsibilities, and ethical obligations for engineering practice. Project management, contracts, allocation of resources, project estimating, planning, and controls. 
Prerequisite(s)/Corequisite(s): Junior standing and CIVE major, not open to nondegree students

CIVE 401 CIVIL ENGINEERING SYSTEMS (3 credits)
Systems analysis approach to civil engineering problems. System model elements and principles of systems theory with applications to civil engineering. (Cross-listed with CIVE801)
Prerequisite(s)/Corequisite(s): MATH 2350

CIVE 419 FLOW SYSTEMS DESIGN (3 credits)
Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems and treatment facilities. (Cross-listed with CIVE 819)
Prerequisite(s)/Corequisite(s): CIVE 326 or CIVE 327; CIVE 352 coreq.

CIVE 421 HAZARDOUS WASTE MGT & TREATMNT (3 credits)
Survey of the hazardous waste management system in the USA. State and federal hazardous waste regulations. Chemical characteristics of hazardous waste and unit operations and processes used for treatment of soil, water, and air. (Cross-listed with CIVE821)
Prerequisite(s)/Corequisite(s): CIVE326, not open to nondegree students

CIVE 422 POLLUTN PREVENTN:PRINC & PRACT (3 credits)
Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information. (Cross-listed with CIVE 822.)

CIVE 424 SOLID WASTE MANAGEMENT ENGINEERING (3 credits)
Planning and operation of solid waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems. (Cross-listed with CIVE 824.)
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 334

CIVE 425 PROC DSGN WTR SUP & WAST TRMT (3 credits)
(LEC 3) Design of unit operations and processes associated with drinking water and wastewater treatment facilities. 
Prerequisite(s)/Corequisite(s): CIVE326 and CIVE310

CIVE 426 DSGN WATER TREATMNT FACILITIES (3 credits)
Analyses of water supplies and design of water treatment and distribution systems. (Cross-listed with CIVE826)
Prerequisite(s)/Corequisite(s): CIVE425

CIVE 427 DSGN OF WSTWTR TRMT & DSPL FAC (3 credits)
Analysis of systems for wastewater treatment and disposal. (Cross-listed with CIVE827)
Prerequisite(s)/Corequisite(s): CIVE425

CIVE 430 FUND WTR QUAL MODEL (3 credits)
A comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables. (Cross-listed with CIVE830)
Prerequisite(s)/Corequisite(s): CIVE326

CIVE 431 SMALL TREATMENT SYSTEMS (3 credits)
Design of small and decentralized water management systems. (Cross-listed with CIVE 831.)
Prerequisite(s)/Corequisite(s): Coreq: CIVE 425. Not open to non-degree graduate students.

CIVE 432 BIOREMEDIATION OF HAZARDOUS WASTES (3 credits)
Principles, applications, and limitations of bioremediation of hazardous wastes and design of some bioremediation systems. 
Prerequisite(s)/Corequisite(s): CIVE326 and (CIVE310 or MENG3100), not open to nondegree students

CIVE 434 SOIL MECHANICS II (3 credits)
(Lecture 3, option Lab 3) Application of the effective stress principle to shear strength of cohesive soils; analysis of stability of slopes. Development of continuum relationships for soils; solutions for stresses and displacements for an elastic continuum, solution of the consolidation equation for various initial and boundary conditions. (Cross-listed with CIVE834)
Prerequisite(s)/Corequisite(s): CIVE334

CIVE 436 FOUNDATION ENGINEER (3 credits)
(Lecture 3, Optional Lab 3) Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater. (Cross-listed with CIVE836)
Prerequisite(s)/Corequisite(s): CIVE334
CIVE 439  INTRODUCTION TO BRIDGE ENGINEERING (3 credits)
Structural types, bridge loads, design of bridge slabs, steel girder bridges, and prestressed concrete girder bridges. Evaluation of existing bridges. Problems related to fatigue and corrosion. Field testing of bridges. (Cross-listed with CIVE839)
Prerequisite(s)/Corequisite(s): CIVE440 or CIVE441 or CIVE840

CIVE 440  REINFORCED CONCRETE DESIGN I (3 credits)
Introduction to the design of reinforced concrete building components. Emphasis is placed on the design of flexural and compression members, simple walls, foundations, and floor systems using the latest ACI design requirements. (Cross-listed with CIVE840)
Prerequisite(s)/Corequisite(s): CIVE341

CIVE 441  STEEL DESIGN I (3 credits)
Introduction to the design concepts for structural steel building components. Design of tension members, bolted and welded connections, column members, and beam members are covered. Limit state design concepts are used throughout the course, and emphasis is placed on behavior of members and code design procedures.
Prerequisite(s)/Corequisite(s): CIVE341

CIVE 443  ADVANCED STRUCTURAL ANALYSIS (3 credits)
Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformation, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads. (Cross-listed with CIVE 843)
Prerequisite(s)/Corequisite(s): CIVE 341. Not open to non-degree graduate students.

CIVE 444  STR DESIGN & PLANNING (3 credits)
(Lect 2, Lab 2) Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete. (Cross-listed with CIVE844)
Prerequisite(s)/Corequisite(s): CIVE440 and CIVE441

CIVE 446  STEEL DESIGN II (3 credits)
A continuation of CIVE 441. The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, and introduction to seismic design of steel buildings. Plate buckling, beam, column, and beam-column design. Frame stability. Introduction to connection design. (Cross-listed with CIVE846)
Prerequisite(s)/Corequisite(s): CIVE441

CIVE 447  REINFORC CONCRETE II (3 credits)
Shear friction theory, strut-and-tie modeling, anchorage, deflection, slender and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various designs. (Continuation of topics covered in CIVE 440, 840.) (Cross-listed with CIVE847)
Prerequisite(s)/Corequisite(s): CIVE440 or CIVE840

CIVE 451  INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)
Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow. (Cross-listed with CIVE851)
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC 3250; and MENG 4800 or EMEC 4800.

CIVE 452  WATER RESOURCES DEVL (3 credits)
Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hyroelectric power, drainage, water quality, water distribution, irrigation and water measurement. (Cross-listed with CIVE852)
Prerequisite(s)/Corequisite(s): CIVE352

CIVE 454  HYDRAULIC ENGR (3-4 credits)
(Lecture 2-3, Lab 0-3) Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids; engineering economics to the design of hydraulic structures, continuity, momentum; energy principles are applied to special problems from various branches of hydraulic engineering. (Cross-listed with CIVE854)
Prerequisite(s)/Corequisite(s): CIVE352

CIVE 455  NONPOINT POLLUTION (3 credits)
Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies. (Cross-listed with CIVE855)
Prerequisite(s)/Corequisite(s): CIVE326 and CIVE352

CIVE 456  SURFACE WATER HYDRO (3 credits)
Advanced topics in surface water hydrology including parametric and stochastic processes and systems analysis of hydrologic problems with particular emphasis on the application of techniques in the design of engineering particles. (Cross-listed with CIVE856)
Prerequisite(s)/Corequisite(s): CIVE352

CIVE 458  GROUND WATER ENGINEERING (3 credits)
The application of engineering principles to the movement of ground water. The influence of the physical and geologic environment on ground water hydraulics, water well hydraulics and aquifer evaluation. Emphasis is placed on practical ground water engineering problems. (Cross-listed with CIVE858)
Prerequisite(s)/Corequisite(s): CIVE352.

CIVE 459  RELIABILITY OF STRUCTURES (3 credits)
Fundamental concepts related to structural reliability, safety measures, load models, resistance models, system reliability, optimum safety levels, and optimization of design codes.
Prerequisite(s)/Corequisite(s): CIVE 341. Not open to non-degree students.

CIVE 461  URBAN TRANS PLANNING (3 credits)
Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analysis, and traffic assignment. Site development and traffic impact analysis. (Cross-listed with CIVE861)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 462  HIGHWAY DESIGN (3 credits)
Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects. (Cross-listed with CIVE862)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 463  TRAFFIC ENGINEERING (3 credits)
Design of signalized intersections, arterial street and network signal systems, and freeway control systems. Emphasis on design projects. (Cross-listed with CIVE863)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 468  AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation parking and terminal buildings. Air-side components include aircraft apron-gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with CIVE868)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 469  COMPUTER-AIDED INTERCHANGE DESIGN (3 credits)
Principles of high-speed traffic operations, safety, and decision making related to critical design parameters used for optimal interchange geometric design through development of an interchange design project using graphical and civil engineering software. (Cross-listed with CIVE869)
Prerequisite(s)/Corequisite(s): CIVE 462. Not open to non-degree graduate students.
CIVE 471 BITUMINOUS MATERIALS AND MIXTURES (3 credits)
Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing. (Cross-listed with CIVE 871)
Prerequisite(s)/Corequisite(s): CIVE 378. Not open to non-degree graduate students.

CIVE 472 PAVEMENT DESIGN & EVALUATION (3 credits)
Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements. (Cross-listed with CIVE 872)
Prerequisite(s)/Corequisite(s): CIVE 334

CIVE 475 WATER QUALITY STRATEGY (3 credits)
Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems for selecting strategies; and for evaluating present strategies.
Prerequisite(s)/Corequisite(s): Senior standing, not open to nondegree students

CIVE 476 CONSTRUCTION COST CONTROLS (3 credits)
Development of cost accounting principles and financial controls appropriate for construction contractors. Includes purchasing policies and procedure, labor and equipment cost reporting techniques, accounting procedures for control of materials and supplies, billing methods, principles of financial reporting and analysis.
Prerequisite(s)/Corequisite(s): ACCT 2010 and ACCT 2020.

CIVE 481 COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING (3 credits)
Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems. (Cross-listed with CIVE 881)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CIVE 489 SENIOR DESIGN PROJECT (3 credits)
Requires the formulation and completion of a civil engineering design project. Course provides senior civil engineering students with the opportunity to apply engineering concepts and principles to a comprehensive design project of multiple sub-disciplinary nature. The principal objectives are for students to develop an understanding of the entire life-cycle of civil engineering projects with emphasis on the development of a unified and sustainable design that addresses the client's needs; project team work; strong engineer-client relationships; and effective project communications.
Prerequisite(s)/Corequisite(s): Senior standing and CIVE 385

CIVE 498 SPEC TOPICS IN CIVIL ENGR (1-6 credits)
Special problems, topics, or research in civil engineering. (Cross-listed with CIVE 498)

CIVE 801 CIVIL ENGINEERING SYSTEMS (3 credits)
Systems analysis approach to civil engineering problems. System model elements and principles of systems theory with applications to civil engineering. (Cross-listed with CIVE 401)
Prerequisite(s)/Corequisite(s): MATH 3350

CIVE 819 FLOW SYSTEMS DESIGN (3 credits)
Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems and treatment facilities. (Cross-listed with CIVE 419)
Prerequisite(s)/Corequisite(s): CIVE 326 or CIVE 327; Corequisite: CIVE 352

CIVE 821 HAZARDOUS WASTE MANAGEMENT AND TREATMENT (3 credits)
Survey of the hazardous waste management system in the USA. State and federal hazardous waste regulations. Chemical characteristics of hazardous waste and unit operations and processes used for treatment of soil, water, and air. (Cross-listed with CIVE 421)
Prerequisite(s)/Corequisite(s): CIVE 326. Not open to non-degree graduate students.

CIVE 822 POLLUTION PREVENTION: PRINC/PRACT (3 credits)
Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information. (Cross-listed with CIVE 422)

CIVE 823 PHYS/ CHEM TRMT PROC ENV ENGR (3 credits)
Evaluation and analysis of physical and chemical unit operations and processes applied to the treatment of water, wastewater, and hazardous wastes.
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 425

CIVE 824 SOLID WASTE MANAGEMENT ENGINEERING (3 credits)
Planning design and operation of solid waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems. (Cross-listed with CIVE 424)
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 334

CIVE 826 DSGN WATER TREAT FAC (3 credits)
Analyses of water supplies and design of water treatment and distribution systems. (Cross-listed with CIVE 426)
Prerequisite(s)/Corequisite(s): CIVE 425

CIVE 827 DSGN WASTEWATER TRT & DISP FAC (3 credits)
Analysis of systems for wastewater treatment and disposal. (Cross-listed with CIVE 427)
Prerequisite(s)/Corequisite(s): CIVE 425

CIVE 828 ENVIRONMENTAL ENGINEERING CHEMISTRY (3 credits)
Basic concepts from general chemistry. Thermodynamic and kinetic basis for the composition of aquatic systems. Equilibrium chemistry, including acid-base reactions, reduction-oxidation reactions, metal speciation and precipitation, and gas/liquid partitioning.
Prerequisite(s)/Corequisite(s): CIVE 326. Not open to non-degree graduate students.

CIVE 829 BIOLOGICAL WASTE TREATMENT (3 credits)
Principles of biological processes and their application in the design of waste treatment systems.
Prerequisite(s)/Corequisite(s): CIVE 326 or equivalent.

CIZE 830 FUND WATR QUAL MODEL (3 credits)
A comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables. (Cross-listed with CIVE 430)
Prerequisite(s)/Corequisite(s): CIVE 326

CIVE 831 SMALL TREATMENT SYSTEMS (3 credits)
Design of small and decentralized waste water management systems. (Cross-listed with CIVE 431)
Prerequisite(s)/Corequisite(s): Coreq: CIVE 425. Not open to non-degree graduate students.

334 Civil Engineering, Bachelor of Science
CIVE 834 SOIL MECHANICS II (3 credits)
(Lecture 3, option Lab 3) Application of the effective stress principle to shear strength of cohesive soils; analysis of stability of slopes. Development of continuum relationships for soils; solutions for stresses and displacements for an elastic continuum, solution of the consolidation equation for various initial and boundary conditions. (Cross-listed with CIVE434)
Prerequisite(s)/Corequisite(s): CIVE 334

CIVE 836 FOUNDATION ENGINEER (3-4 credits)
(Lecture 3, Optional Lab 3) Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater. (Cross-listed with CIVE436)
Prerequisite(s)/Corequisite(s): CIVE 334

CIVE 839 INTRODUCTION TO BRIDGE ENGINEERING (3 credits)
Structural types, bridge loads, design of bridge slabs, steel girder bridges, and prestressed concrete girder bridges. Evaluation of existing bridges. Problems related to fatigue and corrosion. Field testing of bridges. (Cross-listed with CIVE439)
Prerequisite(s)/Corequisite(s): CIVE 444 or CIVE 441 or CIVE 840

CIVE 840 REINFORCED CONCRETE DESIGN I (3 credits)
Introduction to the design of reinforced concrete building components. Emphasis is placed on the design of flexural and compression members, simple walls, foundations, and floor systems using the latest ACI design requirements. (Cross-listed with CIVE440)
Prerequisite(s)/Corequisite(s): CIVE 841

CIVE 842 STRUCTURAL DYNAMICS (3 credits)
Prerequisite(s)/Corequisite(s): CIVE 841

CIVE 843 ADVANCED STRUCTURAL ANALYSIS (3 credits)
Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformation, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads.
Prerequisite(s)/Corequisite(s): CIVE 341. Not open to non-degree graduate students.

CIVE 844 STR DESIGN & PLANNING (3 credits)
(Lect 2, Lab 2) Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete. (Cross-listed with CIVE444)
Prerequisite(s)/Corequisite(s): CIVE 440 and CIVE 441

CIVE 846 STEEL DESIGN II (3 credits)
A continuation of CIVE 441. The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, and introduction to seismic design of steel buildings. Plate buckling, beam, column, and beam-column design. Frame stability. Introduction to connection design. (Cross-listed with CIVE446)
Prerequisite(s)/Corequisite(s): CIVE 444

CIVE 847 REINFORC CONCRETE II (3 credits)
Shear friction theory, strut-and-tie modeling, anchorage, deflection, slider and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various designs. (Continuation of topics covered in CIVE 440/840.) (Cross-listed with CIVE447)
Prerequisite(s)/Corequisite(s): CIVE 440 or CIVE 840

CIVE 849 INTRODUCTORY FINITE ELEMENT ANALYSIS IN SOLID MECHANICS (3 credits)
Matrix methods of analysis. The finite element stiffness method with a focus on solid mechanics. Isoparametric elements formulation based on energy principles. Perform finite element analyses using commercial software.
Prerequisite(s)/Corequisite(s): CIVE 443 or 843

CIVE 850 PRESTRESSED CONCRETE (3 credits)
Analysis and design of prestressed concrete members. Axial force, bending, shear, torsion, prestress losses, initial and long-term deflection, partial prestressing, statically indeterminate structures.
Prerequisite(s)/Corequisite(s): CIVE 341 and CIVE 440

CIVE 851 INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)
Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow. (Cross-listed with CIVE 451)
Prerequisite(s)/Corequisite(s): CIVE 341 and CIVE 440

CIVE 852 WATER RESOURCES DEVl (3 credits)
Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hydroelectric power, drainage, water quality, water distribution, irrigation and water measurement. (Cross-listed with CIVE 452)
Prerequisite(s)/Corequisite(s): CIVE 352

CIVE 853 GIS IN WATER RESOURCES (3 credits)

CIVE 854 HYDRAULIC ENGR (3-4 credits)
(Lecture 2-3, Lab 0-3) Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids; engineering economics to the design of hydraulic structures, continuity, momentum; energy principles are applied to special problems from various branches of hydraulic engineering. (Cross-listed with CIVE 454)
Prerequisite(s)/Corequisite(s): CIVE 352

CIVE 855 NONPOINT POLLUTION (3 credits)
Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies. (Cross-listed with CIVE 455)
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 352

CIVE 856 SURFACE WATER HYDRO (3 credits)
Advanced topics in surface water hydrology including parametric and stochastic processes and systems analysis of hydrologic problems with particular emphasis on the application of techniques in the design of engineering particles. (Cross-listed with CIVE 456)
Prerequisite(s)/Corequisite(s): CIVE 352

CIVE 857 APPLIED STRUCTURAL ANALYSIS (3 credits)
Prerequisite(s)/Corequisite(s): CIVE 851

CIVE 858 GROUND WATER ENGINEERING (3 credits)
The application of engineering principles to the movement of ground water. The influence of the physical and geologic environment on ground water hydrology, water well hydraulics and aquifer evaluation. Emphasis is placed on practical ground water engineering problems. (Cross-listed with CIVE 458)
Prerequisite(s)/Corequisite(s): CIVE 352.
CIVE 859 RELIABILITY OF STRUCTURES (3 credits)
Fundamental concepts related to structural reliability, safety measures, load models, resistance models, system reliability, optimum safety levels, and optimization of design codes.
Prerequisite(s)/Corequisite(s): CIVE341, not open to non-degree students.

CIVE 861 URBAN TRANS PLANNING (3 credits)
Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analysis, and traffic assignment. Site development and traffic impact analysis. (Cross-listed with CIVE461.)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 862 HIGHWAY DESIGN (3 credits)
Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects. (Cross-listed with CIVE462)

CIVE 863 TRAFFIC ENGINEERING (3 credits)
Design of signalized intersections, arterial street and network signal systems, and freeway control systems. Emphasis on design projects. (Cross-listed with CIVE463)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 864 ANALYSIS AND ESTIMATION OF TRANSPORTATION DEMAND (3 credits)
Introduction to conceptual, methodological and mathematical foundations of analysis and design of transportation services; review of probabilistic modeling; application of discrete choice models to demand analysis.
Prerequisite(s)/Corequisite(s): CIVE461 or CIVE861 or equivalent

CIVE 865 HIGHWAY GEOMETRICS (3 credits)
Principles of highway geometrics. Sight distances, design vehicles, vehicle characteristics, horizontal and vertical alignment, cross section elements, and at-grade intersections and interchanges.
Prerequisite(s)/Corequisite(s): CIVE462 or CIVE862, not open to non-degree students

CIVE 866 TRAFFIC CHARACTERISTICS (3 credits)
Use of the concepts of volume, speed, density, and capacity to describe the characteristics and performance of surface, air, and water transportation systems.
Prerequisite(s)/Corequisite(s): CIVE463 or CIVE863 and (STAT3800 or MATH3800)

CIVE 867 TRANS SAFETY ENGR (3 credits)
Safety criteria in the planning, design and operation phases of highway, rail, airport, mass transit, pipeline, and waterway transportation systems. Background of safety legislation and funding requirements. Identification of high accident locations and methods to determine cost/effectiveness of improvements.

CIVE 868 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation parking and terminal buildings. Air-side components include aircraft apron-gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with CIVE468)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 869 COMPUTER-AIDED INTERCHANGE DESIGN (3 credits)
Principles of high-speed traffic operations, safety, and decision making related to critical design parameters used for optimal interchange geometric design through development of an interchange design project using graphical and civil engineering software. (Cross-listed with CIVE469)
Prerequisite(s)/Corequisite(s): CIVE 862. Not open to non-degree graduate students.

CIVE 871 BITUMINOUS MATERIALS AND MIXTURES (3 credits)
Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing. (Cross-listed with CIVE 471)
Prerequisite(s)/Corequisite(s): CIVE 378. Not open to non-degree graduate students.

CIVE 872 PAVEMENT DESIGN & EVALUATION (3 credits)
Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements. (Cross-listed with CIVE472)
Prerequisite(s)/Corequisite(s): CIVE334

CIVE 875 WATER QUALITY STRATEGY (3 credits)
A holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. An introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystem for selecting strategies; and for evaluating present strategies.

CIVE 881 COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING (3 credits)
Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems. (Cross-listed with CIVE 481)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CIVE 889 SPECIAL TOPICS (1-6 credits)
Special problems, topics, or research in civil engineering. (Cross-listed with CIVE498)

CIVE 899 MASTERS THESIS (1-10 credits)
Master's Thesis
Prerequisite(s)/Corequisite(s): Admission to masters degree program and permission of major adviser. Not open to nondegree students.

CIVE 916 ENVIRONMENTAL LAW AND WATER RESOURCE MANAGEMENT SEMINAR (3 credits)
An interdisciplinary seminar with the Department of Civil Engineering. Contemporary environmental issues and water resource Management. Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CIVE 940 BEHAVIOR OF STEEL MEMBERS (3 credits)
Behavior and/or design of structural steel members and their connections. Torsion effects on open and closed thin walled members. Frame buckling and stability considerations in structural steel frames. Dynamic analysis and seismic design considerations.
Prerequisite(s)/Corequisite(s): CIVE 446/CIVE 846. Not open to non-degree graduate students.

CIVE 945 STRUCTURAL ANALYSIS AND DESIGN FOR DYNAMIC LOADS (3 credits)
Behavior of structural materials and systems under dynamic loads. Analysis and design for dynamic loads. Computational techniques. Selected laboratory demonstrations of the dynamic behavior of structural systems.
Prerequisite(s)/Corequisite(s): CIVE 443 or CIVE 843, and CIVE 842; or permission. Not open to non-degree graduate students.

CIVE 948 BLAST-RESISTANT STRUCTURAL DSIGN (3 credits)
Prerequisite(s)/Corequisite(s): CIVE842
CIVE 949 STEEL BRIDGE DESIGN (3-6 credits)
Analysis and design of steel bridges for short, medium-, and long-span road and water crossings. Stringer bridges. Truss, arch, cable-stayed, and suspension bridges. High performance steel and accelerated construction. Prerequisite(s)/Corequisite(s): CIVE 436 or CIVE 836 and (CIVE 446 or CIVE 846). Not open to non-degree graduate students.

CIVE 954 ADVANCED HYDRAULICS (3 credits)
Advanced studies involving pipe and culvert hydraulics, rapidly-varied flow in open channels, sediment transport, river mechanics, control, and design. Prerequisite(s)/Corequisite(s): CIVE 854. Not open to non-degree graduate students.

CIVE 958 CONTAMINANT TRANSPORT IN POROUS MEDIA (3 credits)
Theory of flow and contaminant transport in porous media including groundwater flow, multiphase flow, equilibrium contaminant distribution, reactive transport of contaminants, and colloid transport in porous media. Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CIVE 961 MASS TRANSIT SYSTEMS (3 credits)
The place of mass transit in solving urban transportation problems: transit system and terminal characteristics and planning criteria. Speed, capacity, accessibility, and operation of mass transit systems. Future prospects in transit technology and case studies of existing systems. Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CIVE 962 APPLICATION OF GEOGRAPHIC INFORMATION SYSTEMS (GIS) TO TRANSPORTATION (3 credits)
Geographic Information Systems (GIS) structure, function, and concepts such as spatial data models, relational databases, and spatial analyses. GIS project planning, management, and applications to transportation-related issues. Prerequisite(s)/Corequisite(s): Not open to nondegree students.

CIVE 963 HIGHWAY SAFETY DATA ANALYSIS (3 credits)
Highway safety issues and appropriate accident data analysis. Quantify changes in safety when modifications are made to highways in an effort to enhance safety. Judge reported safety improvements and carry out appropriate analysis for assessing the effectiveness of safety improvements. Prerequisite(s)/Corequisite(s): STAT 8805, not open to non-degree graduate students.

CIVE 964 THEORY TRAFFIC FLOW (3 credits)
Analysis of traffic characteristics as applied to traffic engineering facility design and flow optimization. Capacity of expressways, ramps, weaving sections, and intersections. Analytical approaches to flow analysis, queueing theory, flow density relationships, and traffic simulation. Prerequisite(s)/Corequisite(s): CIVE 866 and (STAT 3800 or STAT 8805). Not open to non-degree graduate students.

CIVE 965 TRAFFIC CONTROL SYSTEMS (3 credits)
Principles of traffic control. Design and analysis of intersection, arterial street, network, and freeway control systems. Traffic surveillance and driver information systems. Prerequisite(s)/Corequisite(s): CIVE 966 and permission. Not open to non-degree graduate students.

CIVE 966 TRANSPORTATION PLNG & ECONOMCS (3 credits)
Community growth and development based on planning decisions regarding land use whereby transportation facilities are fitted to land use. Economic studies that consider the consequences to transportation agencies, users, and nonusers. Agency expenditures, capital outlay and annual expenses for maintenance and operations. User consequences such as vehicle operating costs; commercial time costs; accident costs; discomfort and inconvenience costs; and assignment of money valuations to pleasure, recreation, and culture. Nonusers consequences items such as cost reductions or increases in public services; increases in value of crops and natural resources where areas become more readily accessible; changes in business and industrial activities; and increase or decrease of residential property values.

CIVE 967 ANALYSIS AND DESIGN OF TRANSPORTATION SAFETY SYSTEMS (3 credits)
Operations research techniques for modeling system performance and design of transportation services. Routing and scheduling problems. Network equilibration and partially distributed queuing systems. Prerequisite(s)/Corequisite(s): Not open to nondegree students.

CIVE 969 SEMINAR IN CIVIL ENGINEERING (1-6 credits)
Current topics, research projects, and review of current literature in the various areas of civil engineering. Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CIVE 998 SP PRBLMS CIVIL ENGR (1-6 credits)
Reading and evaluation of technical publications concerned with theory and/or experimental data. Subsequent assignments are coordinated with the student's particular interests in his/her field of specialization. Prerequisite(s)/Corequisite(s): Not open to nondegree students.

CIVE 999 DOCTORAL DISSERTATION (1-24 credits)
Doctoral Dissertation. Prerequisite(s)/Corequisite(s): Admission to doctoral degree program and permission of supervisory committee chair. Not open to nondegree students.

Electrical & Computer Engineering

The mission of the department of Electrical & Computer Engineering (ECE) at the University of Nebraska is to provide undergraduate and graduate level education in electrical and computer engineering, perform research and other scholarly activities, and furnish service to the state, nation, industry, and the profession. To fulfill this mission, the ECE department offers the degrees of Bachelor of Science in electrical, computer, and electronics engineering as well as several graduate programs. The faculty takes pride in its high level of interaction with both undergraduate and graduate students.

General Requirements

The following sections apply to the electrical, computer, and electronics engineering programs. For more details visit the ECE department’s web site at http://engineering.unl.edu/ece

Advisement

Upon entry into the curriculum, each student will be assigned an academic advisor. It is required that each student meet with the advisor prior to each class registration period and that all courses to be applied toward the degree be selected with the advice and approval of the advisor.

The student is expected to have his/her academic records reviewed and approval obtained from the ECE department prior to application to the University registrar for award of a degree in order to ensure that all curricular requirements have been satisfied by the time of the student’s intended graduation.

Curriculum

Because of the rapid developments in the fields of electrical, computer, and electronics engineering, the curricular requirements are continually reviewed and upgraded to reflect technological advances. Curricular sequence and course descriptions contained herein are intended to serve as general guidelines. Contact the ECE department for information on any changes to the requirements that are currently in effect but not listed in this catalog.

Students who do not maintain continuous progress toward a degree through enrollment in applicable course work will be considered as new students upon reentering the electrical, computer, or electronics engineering curricular sequence and will be subject to the requirements of
Students are encouraged to develop their professional and leadership potential through participation in student chapters of related professional organizations and in University extracurricular activities. Participation in the University Honors Program is encouraged for those who qualify.

Transfer Course Work
The applicability of transfer course work with engineering content toward credit in the curriculum is determined on a case-by-case basis by the department.

Financial Aid
Numerous opportunities exist for students to obtain financial aid during the course of their academic work at the university. The office of the dean of the college and the campus financial aid office should be consulted to determine the availability of such assistance.

Degrees Offered
- Electrical Engineering (p. 340)
- Computer Engineering (p. 339)
- Electronics Engineering (p. 341)

Emphasis Areas
The ECE department offers several emphasis areas in electrical engineering so that students can pursue an in-depth study of a topic of interest.

The requirements for an emphasis area are that a student must take at least 12 credit hours from electrical engineering courses referred to as “EE Technical Electives.” At least 6 of the 12 credit hours must be taken from one emphasis area, one of which must be a course listed as core below. At least one 3 credit hour course from a different EE emphasis area must be taken. The remaining 3 credits may be satisfied by any nonrequired 300 or 400 level electrical engineering course except ELEC 399.

The emphasis areas are:

- **Communications and Signal Processing**
  ECEN 4100, ECEN 3250/ECEN 4620 Core, ECEN 4240/ECEN 4630 Core, ECEN 4610/ECEN 4640, ECEN 4650
- **Electromagnetic Fields and Optics**
  ECEN 4080 Core, ECEN 4670, ECEN 4680, ECEN 4790, ECEN 4800, ECEN 4860
- **Energy and Power Systems**
  ECEN 3380 Core, ECEN 4060, ECEN 4070, ECEN 4280 Core, ECEN 4300, ECEN 4360, ECEN 4440, ECEN 4980X
- **Electronics**
  ECEN 3520/ECEN 3610 Core, ECEN 3620, ECEN 4690, ECEN 4700, ECEN 3100/ECEN 4740 Core
- **Materials and Devices**
  ECEN 4170, ECEN 4200, ECEN 4210 Core, ECEN 4220
- **Bioengineering**
  ECEN 4500 Core, ECEN 4600, ECEN 4980E, ECEN 4980S
- **Modeling and Simulation**
  ECEN 3980M Core, ECEN 4480, ECEN 4980M
- **Telecommunications**
  ECEN 3620, ECEN 4610/ECEN 4640 Core, ECEN 4660 Core

Consult with an academic advisor for further information on the courses within each option area and any prerequisites that may be needed.
Computer Engineering, Bachelor of Science

The Electrical and Computer Engineering (ECE) department’s Computer Engineering Program (CENG) is accredited by the Engineering Accreditation Commission of ABET http://www.abet.org.

Program Educational Objectives

The department’s Program Educational Objectives are a statement of what graduates are doing, or are capable of doing, three to five years after graduation. The students in the Computer Engineering program receive a strong foundation in engineering science and design that not only enables them to pursue productive careers in the computer engineering field but that can be used as the foundation for careers in other areas, such as business, management, and medicine. Typical industries in which Computer Engineering graduates are employed include microprocessor/embedded system design, digital design, hardware/software integration, and computer architecture and parallel processing.

The Computer Engineering program prepares graduates for their professional careers with the objective that within five years after graduation they will be:

• Employed in business, academia, or government.
• Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in computer engineering or related fields.
• Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
• Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
• Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program’s educational objectives constituency consisting of employers (including the Industry Advisory Board), graduates of the program, and faculty of the department.

Student Outcomes

Student Outcomes are those abilities that a graduate of the Computer Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the ECE Computer Engineering program will have:

a. An ability to apply knowledge of mathematics, science, and engineering.

b. An ability to design and conduct experiments, as well as to analyze and interpret data.

c. An ability to design a system, component, or process to meet desired needs within realistic constraints, such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

d. An ability to function on multidisciplinary teams.

e. An ability to identify, formulate, and solve engineering problems.

f. An understanding of professional and ethical responsibility.

g. An ability to communicate effectively.

h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.

i. A recognition of the need for, and an ability to, engage in lifelong learning.

j. A knowledge of contemporary issues.

k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

These student outcomes have been developed with input from the program outcomes constituency group consisting of: employers (including the Industry Advisory Board), graduates of the program, faculty of the department, and students in the program.

The 124 credit hour program in computer engineering leads to the Bachelor of Science degree in Computer Engineering. Thirty-two hours of mathematics and physics and 9 hours of computer science complement the required 44 hours of work in the computer engineering area. Six hours in written and oral communications, 18 hours in the humanities and social sciences, and 15 hours of engineering electives provide the opportunity for the student to acquire a general educational background and gain the cultural attributes associated with a university education.

The individual holding this degree will have advanced knowledge in his or her field of engineering interest and in addition will have a university educational background involving mathematics, the physical sciences, and the humanities and social sciences. Completion of this curriculum will enable the graduate to enter employment in positions involving computer hardware design and applications, computer software design and development, microcomputer based applications, and computer networking. The program also leads to the preparation for graduate work in computer engineering, computer science or electrical engineering.

### Electrical Engineering, Bachelor of Science

The Electrical and Computer Engineering (ECE) department’s Electrical Engineering Program (EE) is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org

#### Program Educational Objectives

The Program Educational Objectives (PEOs) for the electrical engineering program are a statement of what its graduates are doing or are capable of doing three to five years after graduation. Electrical engineering is concerned with the production, transmission, and utilization of electrical energy and the transmission and processing of information. Employment opportunities for electrical engineers cover a wide spectrum of activities including design, development, research, sales, and management. These activities are carried on in industrial organizations, public and private utilities, the communications and computer industry, governmental and educational institutions, and consulting engineering firms. Careers may encompass electronic materials, nanotechnology, optical systems, communications, biomedical applications, signal processing, microelectronics design, energy systems, and electromagnetics. The objective of this program is to offer students an education to become productive electrical engineers and be active, contributing citizens of the nation and the world.

The Program Educational Objectives for the electrical engineering program are that graduates will be:

- Employed in business, academia, or government.
- Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in electrical engineering or related fields.
- Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
- Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
- Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

#### Student Outcomes

Student Outcomes are those abilities that a graduate of the Electrical Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the ECE Electrical Engineering program will have:

a. An ability to apply knowledge of mathematics, science, and engineering.

b. An ability to design and conduct experiments, as well as to analyze and interpret data.

c. An ability to design a system, component, or process to meet desired needs within realistic constraints, such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

d. An ability to function on multidisciplinary teams.

e. An ability to identify, formulate, and solve engineering problems.
f. An understanding of professional and ethical responsibility.

g. An ability to communicate effectively.

h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.

i. A recognition of the need for, and an ability to, engage in lifelong learning.

j. A knowledge of contemporary issues.

k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Students graduating with a Bachelor of Science in Electrical Engineering degree must successfully complete 124 credit hours as follows:

<table>
<thead>
<tr>
<th>Code</th>

1. Choose one course from not yet satisfied ACE outcomes 5, 6, 7, 8 or 9.
2. ENGR 1000 may be substituted for CMST 1110.
3. The department maintains or approved list of technical electives (within and outside of ECE) on the department website.
4. Can substitute ENGR 3000 for ENGL 3980.

Total Credit Hours Required for Graduation - **124 Hours**

### Electronics Engineering, Bachelor of Science

The Electrical and Computer Engineering (ECE) department’s Electronics Engineering Program (EENG) is accredited by the Engineering Accreditation Commission of ABET, [http://www.abet.org](http://www.abet.org).
Program Educational Objectives

The Program Educational Objectives (PEOs) for the electronics engineering program are a statement of what its graduates are doing or are capable of doing three to five years after graduation. The students in the electronics engineering program receive a strong foundation in engineering science and design that not only enables them to pursue productive careers in the electronics engineering field but also in other areas such as business, management, and medicine. Typical industries in which electronics engineering graduates are employed could include those in communication systems, telecommunication networks, analog systems, hardware/software integration, and digital and microprocessor systems.

The Program Educational Objectives for the electronics engineering program are that graduates will be:

• Employed in business, academia, or government.
• Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in electronics engineering or related fields.
• Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
• Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
• Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program’s educational objectives constituency consisting of employers (including the Industry Advisory Board), graduates of the program, and faculty of the department.

Student Outcomes

Student Outcomes are those abilities that a graduate of the Electronic Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the ECE Electronic Engineering program will have:

  a. An ability to apply knowledge of mathematics, science, and engineering.
  b. An ability to design and conduct experiments, as well as to analyze and interpret data.
  c. An ability to design a system, component, or process to meet desired needs within realistic constraints, such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
  d. An ability to function on multidisciplinary teams.
  e. An ability to identify, formulate, and solve engineering problems.
  f. An understanding of professional and ethical responsibility.
  g. An ability to communicate effectively.
  h. The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
  i. A recognition of the need for, and an ability to, engage in lifelong learning.
  j. A knowledge of contemporary issues.
  k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

These student outcomes have been developed with input from the program outcomes constituency group consisting of: employers (including the Industry Advisory Board), graduates of the program, faculty of the department, and students in the program.

The 124 credit hour program in electronics engineering leads to the Bachelor of Science degree in Electronics Engineering. Thirty-two hours of mathematics and physics complement the required 60 hours of work in the electronics engineering area. Six hours in written and oral communications, 15 hours in Achievement Centered Education (ACE) electives, and 8 hours of technical electives provide the opportunity for the student to acquire a general educational background and gain the cultural attributes associated with a university education. The individual holding this degree will have advanced knowledge in his or her field of engineering interest and in addition will have a university educational background involving mathematics, the physical sciences, and the humanities and social sciences. Completion of this program will enable the graduate to enter employment in positions involving telecommunications engineering design, analog circuit design, telecommunications network performance analysis, and technical management of telecommunications networks. The program also leads to the preparation for graduate work in electronics engineering or electrical engineering.

4 Engineering electives may be selected from ECE junior and senior or approved sophomore level courses. Three hours of engineering electives may be selected from an approved list of non-ECE courses.

Engineering Leadership Minor

Overview and Purpose
The engineering leadership minor provides students an opportunity to focus on building leadership, management, and interpersonal skills needed to solve many of our societal challenges. Students complete a series of leadership, project management and interpersonal skills courses using experiential learning strategies and combine subject area knowledge gained in courses from their majors with strategies and skills to effectively lead in the engineering profession.

Leadership Courses (9 credit hours required)

Select one or two theory-based courses from the following:

- ALEC 202 FOUNDATION OF LEADERSHIP THEORY & PRACTICE
- ALEC 302 DYNAMICS OF EFFECTIVE LEADERSHIP IN ORGANIZATIONS
- ALEC 433 DYNAMICS OF EFFECTIVE LEADERSHIP IN GROUPS & TEAMS 1
- ALEC 477 LEADERSHIP & MOTIVATION

Select one or two application courses from the following:

- ALEC 407 SUPERVISORY LEADERSHIP
- ALEC 410 ENVIRONMENTAL LEADERSHIP 1
- ALEC 422 FACILITATION & PROJECT PLANNING 1
- ALEC 466 LEADERSHIP & DIVERSITY IN ORGANIZATIONS & COMMUNITIES 1

Experiential Learning in Leadership (0 - 3 cr hrs)

- ALEC 337 INSTRUCTIONAL INTERNSHIP IN LEADERSHIP DEVELOPMENT 2

Total Credits 18

1 Note that junior standing is required for these courses.
2 Credit received for being an undergraduate teaching assistant at the selection of the instructor.
Additional Minor Requirements

All courses must be completed with a Pass, or grade of C or higher.

Up to 6 credit hours may be taken as Pass/No Pass.

ENGR 100 FRESHMAN ENGINEERING SEMINAR (0 credits)
Overview of the engineering field as well as major specific information. Information will be provided to help with transitional needs to UN and the college of engineering (time management, study skills, and resources), involvement opportunities (student organizations, research, and study abroad, tours of engineering facilities for experiential learning, and interactive learning to increase business knowledge and skills).
Prerequisite(s)/Corequisite(s): First year College of Engineering students. Not open to non-degree graduate students.

ENGR 200 SOPHOMORE ENGINEERING SEMINAR (0 credits)
Overview of career opportunities in engineering and construction management. Emphasizes internships, cooperative education and career placement.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ENGR 1000 INTERPERSONAL SKILLS FOR ENGINEERING LEADERS (3 credits)
Establishes a foundation in communication and leadership skills that is needed for engineering students to be successful in their academic endeavors and future career opportunities. Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ENGR 1010 INTRODUCTION TO ENGINEERING (3 credits)
Students will examine relevant and practical industrial and commercial engineering applications to gain necessary engineering skills that will help them succeed as a student as well as a professional engineer. A variety of engineering disciplines will be highlighted and discussed, as well as topics in the underlying physical, chemical, and biological scientific principles and processes related to each topic. The class will use a specified focus area that involves real world applications to aid in the conceptualization and learning of the course material. Students will develop engineering problem solving skills; gain expertise and experience using modern engineering and computational tools; and emulate an engineering team atmosphere - each of which can be applied to a profession engineering environment.

ENGR 1910 FRESHMAN ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 2000 PROFESSIONALISM & GLOBAL PERSPECTIVE (3 credits)
Enhance essential professional skills for personal and team success through investigating issues in a global context. Explore in-demand professional aptitudes (self-awareness, emotional intelligence, teamwork, communication, and workplace interaction expectations). Through industry/community interaction, explore cultural and business norms and the application of broader perspectives to identify issues/solutions responsive and adaptive to their global context.

ENGR 2500 ENGINEERING COOPERATIVE EDUC (1-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Sophomore standing; permission of College of Engineering Dean’s Office and department chair of student’s engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 2910 SOPHOMORE ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 3000 CREATIVITY & WRTNG FOR ENGNRS (3 credits)
Writing technical engineering reports; creative thinking and brainstorming applied to a real engineering problem with individual solutions submitted in report form.
Prerequisite(s)/Corequisite(s): ENGL1160 and Sophomore

ENGR 3010 INTRO NUCLEAR/RAD ENGR CONCEPTS (1 credit)
History of nuclear development, basic concepts of radiation and radioactivity, radioactive waste management, global warming, and the impact of nuclear power plants. Industrial applications, health, and nuclear medicine. Job opportunities at power plants, graduate school, and national laboratories. Tour of the University of Texas nuclear research reactor and demonstration experiments. (Requires off-campus travel.)
Prerequisite(s)/Corequisite(s): Not open to nondegree students

ENGR 3100 UTILZTN OF NUCLEAR TECH SOC (3 credits)
The applications of nuclear science to society and the fundamental radiation principles utilized in these applications.
Prerequisite(s)/Corequisite(s): Not open to nondegree students

ENGR 3200 LEADERSHIP, MANAGEMENT, AND ETHICS (3 credits)
Explore professional leadership, ethics, project management tools and skills, and how to successfully implement and respond to change. In a team based environment, enhance essential professional skills for personal and team success by developing and presenting a responsive proposal considering: client needs, basic project controls and scheduling. Learn about personal styles, motivation and effectively implementing change. Examine ethical dilemmas regarding principles, stewardship, and civics from ethical, legal, and expediency perspectives.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ENGR 3500 ENGINEERING COOPERATIVE EDUC (1-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Junior standing; permission of College of Engineering Dean’s Office and department chair of student’s engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 3910 JUNIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 4000 PROFESSIONAL ETHICS&SOC RSPNSBLY (1 credit)
Discussions on professionalism and ethics of engineering practice; problems encountered by new graduates.
Prerequisite(s)/Corequisite(s): Senior

ENGR 4020 ENERGY SYSTEMS AND RESOURCES (3 credits)
Energy as a critical component of civilization. The critical role of energy from the economic and political point of view world wide. Energy resources available, the technology to use the resources, the economics of energy production, the environmental consequences of energy use, and energy policy.
Prerequisite(s)/Corequisite(s): ENGR3010, not open to nondegree students

ENGR 4050 ANALYSIS OF ENGINEERING MANAGEMENT (3 credits)
General concepts and principles of engineering management applied to cases. (Cross-listed with ENGR 8056)
Prerequisite(s)/Corequisite(s): CONE 2060

ENGR 4070 PROJECT MANAGEMENT (3 credits)
Project development, role of the project manager, project selection, project planning, budgeting and cost estimation, project scheduling, and project termination. (Cross-listed with ENGR 8076)
ENGR 4100 RADIATION PROTECTION AND SHIELDING (3 credits)
Basic principles and concepts of radiation protection and shield design.
Dosi-metric units and response functions, hazards of radiation doses, radiation sources, basic methods for dose evaluation, and shielding design
for photons and neutrons.
Prerequisite(s)/Corequisite(s): MENG 4010 or 8016 or ENGR 4210

ENGR 4110 NUCLEAR REACTOR THEORY (3 credits)
Introduction to neutron diffusion theory, neutron moderation, neutron
thermalization, and criticality condition of nuclear reactor.
Prerequisite(s)/Corequisite(s): ENGR 3100, not open to nondegree
students

ENGR 4120 NUCLEAR REACTOR ANALYSIS (3 credits)
Group diffusion method, multiregional reactors, heterogeneous reactors, reactor kinetics, and change in reactivity.
Prerequisite(s)/Corequisite(s): ENGR 4110, not open to nondegree
students

ENGR 4150 COGNITIVE ERGONOMICS (3 credits)
Human factors affecting work. Focus on humans: energy requirements,
lighting, noise, monotony and fatigue, learning, simulations versus
sequential tasks. Experimental evaluation of concepts. (Cross-listed with
ENGR 8156)
Prerequisite(s)/Corequisite(s): ENGR 4300 or permission.

ENGR 4160 PHYSICAL ERGONOMICS (3 credits)
Human performance in work. Human response to various environmental
and task-related variables with emphasis on physical and physiological
effects. (Cross-listed with ENGR 8166)
Prerequisite(s)/Corequisite(s): ENGR 4300 or permission

ENGR 4170 OCCUPATIONAL SAFETY HYGIENE ENGINEERING (3
credits)
Introduction to occupational hygiene engineering with emphasis on
workplace environmental quality. Heat, illumination, noise, and ventilation.
(Cross-listed with ENGR 8176)
Prerequisite(s)/Corequisite(s): Senior standing or permission

ENGR 4200 NUCLEAR REACTOR ENGINEERING (3 credits)
The physics governing nuclear reactors and the design principles for
commercial nuclear power plants. Reactor designs currently operating in
the power industry.

ENGR 4210 ELEMENTS OF NUCLEAR ENGINEERING (3 credits)
Survey of nuclear engineering concepts and applications. Nuclear reactions,
radioactivity, radiation interaction with matter, reactor physics, risk and
dose assessment, applications in medicine, industry, agriculture, and
research. Cross-listed with MENG 4210.
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 2120, and ENGR 3010
or 3100

ENGR 4300 APPLIED STATISTICS AND QUALITY CONTROL (3 credits)
Systematic analysis of processes through the use of statistical analysis,
methods, and procedures; statistical process control, sampling, regression,
ANOVA, quality control, and design of experiments. Use of software for
performing a statistical analysis. (Cross-listed with ENGR 8306).
Prerequisite(s)/Corequisite(s): MENG 3210.

ENGR 4400 DISCRETE EVENT SIMULATION MODELING (3 credits)
Development of simulation models of discrete systems. Model development,
Monte Carlo techniques, random number generators, and output analysis.
(Cross-listed with ENGR 8406)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210 and CIST 1400
or CSCI 1620 or CSCI 2240 or permission

ENGR 4410 ENGINEERING ECONOMY (3 credits)
Economic factors involved in the comparison of engineering alternatives
and the techniques of equipment selection and replacement.
Prerequisite(s)/Corequisite(s): Senior

ENGR 4500 ENGINEERING COOPERATIVE EDUC (0-12 credits)
Cooperative education work in a regularly established cooperative
education work-study program in any engineering curriculum. Special
approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Senior standing; permission of College
of Engineering Dean's Office and department chair of student's engineering
major. All engineering students participating in cooperative education must
register each term prior to commencing work.

ENGR 4600 PACKAGING ENGINEERING (3 credits)
Investigation of packaging processes, materials, equipment and design.
Container design, material handling, storage, packing and environmental
regulations, and material selection. (Cross-listed with ENGR 8606)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210, MENG 3730

ENGR 4610 RFID SYSTEMS IN THE SUPPLY CHAIN (3 credits)
Foundations of Radio Frequency identification Systems (RFID). The
fundamentals of how RFID components of tag, transponder, and antennae
are utilized to create RFID systems. Best practices for implementation of
RFID systems in common supply operations. (Cross-listed with ENGR 8616)

ENGR 4690 TECH, SCIENCE & CIVILIZATION (3 credits)
(Lect 2 Dis. 2) This course studies the development of technology as a
trigger of change upon humankind, from the earliest tools of Homo Habilis
to the advent of the radio telescope in exploring the creation of the universe.
The course traces the paths from early science to development of the
sciences and technologies that will dominate the new millennium. (8696 is
for non SET students) (Cross-listed with ENGR 8696)
Prerequisite(s)/Corequisite(s): Senior

ENGR 4810 SUPPLY CHAIN OPTIMIZATION (3 credits)
Foundations of supply chain network modeling. The concepts that
support the economic and service trade-offs in supply chain and logistics
management. Using decision support system (DSS) to design optimal
logistics network models given data requirements and operational
parameters. Using leading software packages to model problems arising in
strategic management of logistics networks. (Cross-listed with ENGR 8816)

ENGR 4830 LOGISTICS IN THE SUPPLY CHAIN (3 credits)
The process of planning, implementing and controlling the efficient,
effective flow and storage of goods, services and related information from
the point of origin to the point of consumption. Domestic transportation
systems, distribution centers and warehousing, international logistics,
logistic system controls, and reengineering logistics systems. (Cross-listed
with ENGR 8836)

ENGR 4900 GLOBAL EXPERIENCES IN ENGR (1-3 credits)
Individual or group educational experience combining classroom lectures,
discussions, and/or seminars with field and/or classroom studies in a
foreign country. Choice of subject matter and coordination of on- and off-
campus activities are at the discretion of the instructor. Course offered
credit/no credit only.

ENGR 4910 SENIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

Pre-Engineering

Two years of course work applicable to Bachelor of Science degrees in
Agricultural Engineering, Biological Systems Engineering, and Mechanical
Engineering are provided on the Omaha campus.

The courses listed below are similar in content to equivalent courses at the
University of Nebraska-Lincoln, allowing for maximum transferability of
credit.

Students should select courses at UNO that meet degree requirements as
stated in the Catalog of the institution to which they plan to transfer.

For more information...
please call 402-554-3562
Programs Offered

- Pre-Agricultural Engineering (p. 346)
- Pre-Biological Systems Engineering (p. 346)
- Pre-Mechanical Engineering (p. 347)

Pre-Agricultural Engineering

Agricultural Engineering (AGEN) involves the analysis and design of field machinery systems and machine components; testing to evaluate machine or mechanical system functional performance; and analysis and design of soil and water management-related infrastructure. Students choosing the pre-agricultural engineering program on the Omaha campus should be aware that there are four courses in the first two years (AGEN 100, AGEN 112, AGEN 212 and AGEN 225); nine total credit hours) for which there are no equivalents on the Omaha campus. However, substitutions for AGEN 100 may be available on a case by case basis.

Pre-Biological Systems Engineering

Biological Systems Engineering (BSEN) brings engineering to life-by working with living systems and applying engineering, biology, and mathematics to improve lives and our world. Biological systems engineers are trained to solve problems in biomedical engineering, environmental and water resources engineering, and bioenergy and food engineering. Students who choose pre-biological systems engineering on the Omaha campus, should be aware that there are four courses in the first two years (BSEN 100, BSEN 112, BSEN 225; six total credit hours) for which there are no equivalents on the Omaha campus. However, substitutions for BSEN 100 may be available on a case by case basis.

**Pre-Mechanical Engineering**

Mechanical engineers are considered the “general practitioners” of engineering because their education is extremely broad and their services span many interdisciplinary technical, social environmental and economic problems. These engineers deal with a wide realm of motion, all forms of energy conversion and transmission; the flow of fluids and heat; the development, design and operation of machinery and equipment; material structure and properties; and transportation processes. Here, you’ll choose among three major areas: thermal-fluid science engineering, systems and design engineering, and materials science engineering. Your career could include research and development, design of equipment and systems, testing, plant and sales engineering, and management.

**Robotics Engineering Minor**

**Description**

Chair and Advisor: Justin Bradley (CSE)

Faculty: Detweiler (CSE), Duncan (CSE), Elbaum (CSE), Farritor (MME), Gilmore (ECE), Nelson (MME), Qiao (ECE), Terry (MME)

The robotics engineering minor is jointly administered by the Departments of:

- Electrical & Computer Engineering (ECE)
- Computer Science and Engineering (CSE)
- Mechanical and Materials Engineering (MME)

**Requirements**

This minor is available to all majors. Consult with your advisor before declaring this minor.

The robotics engineering minor consists of three core courses and three elective courses. When selecting electives, the student must take two courses outside of their major area of study. For example, a student in mechanical engineering might take an elective from the Department of Computer Science and Engineering and one from the Department of Electrical Engineering.

**Code**

**Title**

1. ACE Elective: Selected from ACE elective list.
2. ENGL 3980: EPPE sophomore level placement or successful completion of ENGL 1160 required.

**Core Requirements**

Select one course from each of the three following topic areas: 9

**Topic Area: Core Programming**
Construction Engineering

Construction engineering (CONE) is a program of the Charles W. Durham School of Architectural Engineering and Construction. The Construction Engineering major integrates engineering, construction and management courses. This program is designed for persons fulfilling the construction industry’s need for licensed professional engineers. It resembles the construction management program but provides a greater emphasis on engineering, scientific, and technical courses to meet requirements for licensure as a professional engineer. The courses focus on the application of engineering principles to solve real-world construction problems.

The Durham School Construction Engineering program is accredited by EAC-ABET, Inc.

The educational objectives of the Construction Engineering program are to produce graduates who will (in three to five years after graduation):

- Possess knowledge acquisition skills enabling them to remain current throughout their careers;
- Apply engineering principles of analysis and design to the systems being constructed;
- Employ technical skills with innovation and dedication to pursue improved functionality, increasing efficiency and decreasing costs;
- Use communication skills to effectively share their ideas with many forms of media;
- Adapt to the constantly changing, interdisciplinary design and construction by applying teamwork and team building skills; and
- Apply appropriate construction practices including business organization, estimating, scheduling, project delivery and ethics.

Under the stimulus of increasing demand for global services, many Nebraska company have expanded their reach well beyond the US borders. This demand gives the Construction Engineering graduate an unprecedented number of opportunities for employment (locally, nationally, and internationally), and for pursuing an advanced degree at UNL or elsewhere.

Construction engineers participate in the preparation of engineering and architectural documents, including specifications, which they translate into finished projects, such as buildings for housing, commerce and industry, highways, railroads, waterways, airports, power plants, energy distribution systems, military bases and space center complexes. These projects involve thousands of details shared by a team of owners, architects, engineers, and maintained.

The constructor assumes responsibility for delivery of the completed project at a specified time and cost and also accepts associated legal, financial, and management obligations. Because of the broad scope of the construction engineer’s project responsibility, he/she must assure the project’s constructibility well as its capability to be operated and maintained.

Construction Engineering students are required to enroll in a set of courses specifically designed for general construction education. Each student selects, with the guidance of an advisor, a set of approved electives. The program outlined below leads to the Bachelor of Science degree in Construction Engineering.

Learning Outcomes

Majors in Construction Engineering will be able to:

a. Professional Achievement: The Construction Engineering program prepares graduates to become Licensed Professional Engineers and Certified Professional Constructors.

<table>

1 On the Omaha campus, similar courses being offered by CIST could be substitutions.

Construction Degrees

The Charles W. Durham School of Architectural Engineering and Construction offers students an education that opens up a full range of professional opportunities in the construction industry. The two bachelor’s degree options, Construction Engineering and Construction Management, are described in further detail below.
b. Career Achievement: The Construction Engineering program prepares graduates to contribute to society by working in an occupation related to the architecture-engineering-construction industry.

Construction Management

Construction Management (CNST) is a complete undergraduate degree program available to students within The Charles W. Durham School of Architectural Engineering and Construction located at Nebraska Hall on the City Campus in Lincoln and at the Peter Kiewit Institute (PKI) on the Scott Campus in Omaha. Construction is one of the largest and most diversified industries in the country, accounting for approximately 4 percent of the U.S. gross domestic product (GDP). The key professional in this vast enterprise is the “constructor,” a term given to leaders and managers in the construction industry who are responsible for planning, scheduling and building the projects designed by architects and engineers. These highly specialized efforts are indispensable in meeting the country’s growing need for new structures, infrastructure, and environmental controls that are of high quality, and are cost effective, efficient, and sustainable.

Construction firms vary in size from large corporations to small proprietorships and partnerships. These are often classified according to the kind of construction work they do: general contractors, heavy and highway contractors, specialty contractors – including mechanical and electrical – and residential builders and developers. Many firms engage in more than one category of work. Some larger companies incorporate the architectural and engineering design functions as part of their role as a design/build firm. Collectively, constructors manufacture our entire built environment – buildings for housing, commerce and industry, highways, railroads, waterways, airports, power plants, energy distribution systems, military bases and space center complexes. Thus, the construction management field is broad, requiring a unique educational background for its professional practitioners.

Although the range of construction activities appears wide and diverse, the general educational requirements for construction management are universal regardless of a particular firm’s area of specialization. Since construction is primarily a business enterprise, the graduate must have a sound background in business management and administration, as well as an understanding of the fundamentals of architecture and engineering as they relate to project design and the actual construction process in the field. Professional expertise lies in the fields of construction science, methods, and management. A working knowledge of structural design, mechanical and electrical systems, methods and materials, soil mechanics, and construction equipment is also essential.

The Construction Management curriculum embraces a course of study in:

1. construction project management from pre-design through commissioning
2. project life-cycle and sustainability
3. health and safety, accident prevention, and regulatory compliance
4. law, contract documents administration, and dispute prevention
5. resolution
6. materials, labor and methods of construction
7. finance and accounting principles
8. planning and scheduling
9. cost management including plan reading, quantity take offs and estimating
10. project delivery methods
11. leadership and managing people
12. business and communication skills

Student Learning Outcomes

Technical and humanities electives provide a well-rounded education that leads to a rewarding career in the construction industry. Upon graduation, students will be able to demonstrate construction management skills and knowledge with:

(a) an ability to apply knowledge of mathematics, science, and applied sciences
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to formulate or design a system, process, or program to meet desired needs
(d) an ability to function on multidisciplinary teams
(e) an ability to identify and solve applied science problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of solutions in a global and societal context
(i) a recognition of the need for and an ability to engage in life-long learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern scientific and technical tools necessary for professional practice

The long-term program educational objectives are to produce graduates who, as leaders in the field who can:

• Develop construction project objectives and plans including delineation of scope, budget, and schedule.
• Select project participants and set performance requirements.
• Maximize resource efficiency through judicious procurement and management of labor, materials and equipment.
• Implement and complete construction activities through coordination and control of scheduling, contracting, estimating and cost control.
• Develop effective communication protocols and mechanisms for resolving conflicts associated with the construction process, and
• Ensure quality and safety through design, measurement, analysis, and control.

Educational standards and criteria for construction education are established by the American Council for Construction Education (ACCE) which is the accrediting agency for construction education programs at all levels. The program at the University of Nebraska–Lincoln, having met these standards and criteria, is currently fully accredited by ACCE.

Degrees Offered

• Construction Engineering, Bachelor of Science (p. 351)
• Construction Management, Bachelor of Science (p. 352)
CONE 1030 INTRO TO CONSTRUCTN ENGINEERNG (1 credit)
Introduction to the organization and terminology of construction engineering. Overview of technical and management skills required to succeed in the construction engineering profession.

CONE 2060 ENGINEERING ECONOMICS (3 credits)
Introduction to methods of economics comparisons of engineering alternatives: time value of money, depreciation, taxes, concepts of accounting, activity-based costing, ethical principles, civics and stewardship, and the importance to society.
Prerequisite(s)/Corequisite(s): Sophomore Standing.

CONE 2110 CONSTRUCTION BUSINESS METHODS (3 credits)
Business concepts and practices used by construction contractors. The construction industry, management principles, forms of business ownership, company organization, construction contracts, estimating and bidding, business ethics, bonds and insurance, financial statements, cost accounting, equipment management, planning and scheduling, labor relations and personnel management.
Prerequisite(s)/Corequisite(s): CONE1030

CONE 2210 GEOMETRIC CONTROL SYSTEMS (3 credits)
Introduction to the theory and application of mensuration and geometric information processing in civil engineering. Measurement of distance, direction, elevation and location using mechanical, electronic and satellite systems; collection of field data, error propagation; elementary geometric data bases for design, construction, operation and control of civil works.
Cross-listed with CIVE221
Prerequisite(s)/Corequisite(s): MATH1950, not open to nondegree students

CONE 3190 CONSTRUCTION METHODS AND EQUIPMENT (3 credits)
Characteristics, capabilities and selection of equipment and methods used in the building construction industry. Estimating job production, equipment production rates, machine operating costs, earth-moving equipment, hoisting equipment, operations analysis, and use of various other construction methods and equipment.
Prerequisite(s)/Corequisite(s): ISMG 2060

CONE 3780 CONSTRUCTION ESTIMATING (3 credits)
How to estimate the cost of projects to be constructed. Interpretation of plans and specifications for the purpose of preparing a bid. Topics include: approximate and detailed estimates of materials, equipment and labor costs, lump-sum and unit cost estimates, overhead, profit and production rates.
Prerequisite(s)/Corequisite(s): CONE2110 and AE 2250

CONE 4140 ACCIDENT PREVNTN IN CONSTRUCTN (3 credits)
Safety practices in the construction industry and the national safety and health standards of the Occupational Safety and Health Administration (OSHA). The theory of accidents; personal attitudes; statistics and environment; accident occurrence; prevention and inspection in connection with the construction of buildings, highways, and associated heavy facilities. Nationally accepted safety codes and their relationship to accepted practices in the industry.
Prerequisite(s)/Corequisite(s): Senior standing and CONE2110 and CONE2410

CONE 4160 WOOD/CONTEMPORARY MATERIALS DESIGN (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design. Masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis.
Prerequisite(s)/Corequisite(s): CIVE 341

CONE 4170 FORMWORK SYSTEMS (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design, masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis.
Prerequisite(s)/Corequisite(s): CONE 4160; Pre/Co-req.: CIVE 441

CONE 4500 SUSTAINABLE CONSTRUCTION (3 credits)
Sustainable construction and its application to the green building industry. Topics include: LEED certification process, sustainable building site management, efficient wastewater applications, optimizing energy performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials.
Prerequisite(s)/Corequisite(s): Senior standing

CONE 4590 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
This course instructs CAD users on the effective use of Building Information Model (BIM) for integration of design, document and construction estimate. Topics include: model-based 3D design, file formats, interoperability, and MEP modeling.
Prerequisite(s)/Corequisite(s): CONE 1120, or Graduate standing in AE, CIVE, CNST or CONE.

CONE 4660 HEAVY &/OR CIVIL ESTIMATING (3 credits)
Estimating techniques and strategies for heavy and/or civil construction. Unit pricing, heavy and civil construction takeoffs and estimating, equipment analysis, overhead cost and allocations, estimating software and government contracts.
Prerequisite(s)/Corequisite(s): CONE2410 and CONE3780 and CONE4850

CONE 4760 PROJECT BUDGETS AND CONTROLS (3 credits)
The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. ACCT 2020 may be substituted toward degree requirements for CONE/CNST 4760. Credit toward degree can be earned in only one of ACCT 2020 and CONE/CNST 4760.
Prerequisite(s)/Corequisite(s): CONE/CNST 3780 and CONE/ISMG 2060.

CONE 4810 HIGHWAY & BRIDGE CONSTRUCTION (3 credits)
The methods and equipment required in the construction of roads and bridges. Methods and equipment necessary for roads and bridges. Substructure and superstructures, precast and cast-in-place segments, and standard and specialized equipment.
Prerequisite(s)/Corequisite(s): CONE2410 or CNST2410

CONE 4820 HEAVY &/OR CIVIL CONSTRUCTION (3 credits)
Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production.
Prerequisite(s)/Corequisite(s): Senior standing and (ARCH major or AE major or CIVE major or CNST major or CONE major), not open to nondegree students

CONE 4830 SUPPORT OF EXCAVATION (3 credits)
The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, heet piling and cofferdams. Soil mechanics, lateral loads, hydrology, and pumping methods.
Prerequisite(s)/Corequisite(s): CET 2180 and CET 3290
CONE 4850 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling and monitoring project activities. (Cross-listed with CNST 4850, CNST 8856, CONE 8856)
Prerequisite(s)/Corequisite(s): CNST 3780 and CNST 2250.

CONE 4890 CONSTRUCTN ENGINEERING CAPSTONE (3 credits)
CONE 4890 embodies the cumulative CONE experience in a project format and uses teams to simulate actual construction enterprises operating in cooperative and competitive situations which replicate the construction industry. An integrated, comprehensive project; to be taken in the term prior to graduation.
Prerequisite(s)/Corequisite(s): Senior standing

CONE 4980 SPECIAL PROJECTS (1-6 credits)
Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST4980, CNST8986)
Prerequisite(s)/Corequisite(s): Master of engineering in construction management or related discipline and permission

Construction Engineering, Bachelor of Science
Construction Engineering students must pass all courses offered within the College of Engineering and all math and science courses with a grade of "C" or higher. In addition, all seniors are encouraged to take the FE exam before graduation.

| Credits   | 15 |

| Total Credits | 126 |

1 PHYS 1154: PHYS 1164 is an acceptable substitute if taken with PHYS 2120.
2 ACE elective: Choose one course from each ACE Student Learning Outcome (SLO) 5, 7 or 9 elective courses.
3 ECON 2200 satisfies SLO area 6.
4 Technical elective: AE, CIVE, CNST and CONE courses approved by the student’s advisor can satisfy this requirement.

Technical Electives
Technical electives are selected from the following list. One (3 credit hour) of the required two electives needs to be considered a design technical elective.

**Construction Management, Bachelor of Science**

**Grade Rules**

C- and D Grades

Construction Management students must pass all courses offered within the College of Engineering and all math and science courses with a grade of “C” or higher.

Students must complete 28 semester hours or be classified as a sophomore before applying for admission to the CM Degree Program.

**ACE Requirements**

The CNST program follows the UNL ACE general education requirements. Because of the specific needs of the program, most of these courses are specified in the curriculum. Please contact Melissa Hoffman at melissa.hoffman@unl.edu or 402-554-4482, if you are interested in more information about this program.

**Exit Examination**

Senior students enrolled in the Capstone are required to participate in the American Institute of Constructors’ Level I examination during their last semester. Students who pass the exam will be reimbursed a majority portion of their exam registration fee.

Technical/Design Elective 3
Credits 15
Total Credits 120

1 ACE elective: Choose one course from not yet satisfied ACE outcomes 5, 7, or 9
2 ENGL 3980: ENGR 3000 is an accepted substitute for ENGL 3980.
3 PHYS 1050/PHYS 1054; CHEM 1180/CHEM 1184, PHYS 1110/PHYS 1154, PHYS 2110/PHYS 1154 are acceptable science electives.

Achievement-Centered Education Electives

Engineering majors who will complete their undergraduate degree program on the UNL or UNO campus must satisfy the general education requirements of the Achievement Centered Education (ACE) program at UNL. The ACE program contains 4 Institutional Objectives with 10 Student Learning Outcomes (SLO). ACE electives are associated with SLO requirements of the Achievement Centered Education (ACE) program on the UNL or UNO campus must satisfy the general education requirements.

---

**College of Information Science & Technology**

The College of Information Science and Technology (IS&T) was established on July 1, 1996 and represents the joint efforts of the University of Nebraska, the State of Nebraska and private industry to address the
The College of IS&T offers five undergraduate degree programs:

1. BS in Bioinformatics (BSBI)
2. BS in Computer Science (BSCS)
3. BS in Cybersecurity (BSIA)
4. BS in Information Technology Innovation (BITI)
5. BS in Management Information Systems (BIS)

Concentrations

The ISQA Department offers additional optional concentrations to MIS degree-seeking students in the following areas: IT Audit and Control; i-Business Application Development and Management; and Global IT Leadership and Management.

The Computer Science Department offers an additional optional concentration in Game Programming and Design.

Certificates

The College of IS&T currently offers three undergraduate certificate options to all students enrolled in the College. Students who hold an associate’s degree from a community college in Information Technology or a related area may also enroll in one of these certificate programs:

1. Data Management Certificate
2. Systems Development Certificate
3. Information Technology Administration Certificate

Integrated Undergraduate/Graduate Track Programs (4+1 Track)

1. The ISQA Department offers an Integrated Undergraduate/Graduate Track (IUG) that enables students to complete the undergraduate BS degree in MIS and the graduate MS degree in MIS in five years.
2. The CS Department offers a similar IUG track that enables students to complete the undergraduate BS degree in CS and the MS graduate degree in CS in five years.
3. The College of IS&T’s School of Interdisciplinary Informatics also offers a similar IUG track for the Cybersecurity (CYBR) and IT Innovation (ITIN) programs. Students majoring in Cybersecurity can complete the undergraduate BS degree in CYBR and the MS in CYBR graduate degree in five years. (Students pursuing undergraduate degrees in MIS or CS with an Information Assurance concentration may also be eligible to pursue an MS in CYBR through this track option.) In addition, the College of IS&T has partnered with the University of Nebraska Medical Center’s College of Public Health to enable ITIN majors to complete the BS in ITIN and an MS in Public Health with a concentration in Biostatistics in five years.

Honors Program

The College of Information Science and Technology actively supports the University of Nebraska at Omaha’s University Honors Program. For more information about the Honors Program visit: http://honors.unomaha.edu/.

The Honors Program office is located in Kayser Hall 208. Phone: 402-554-2696
Admission Requirements for the College of IS&T

Application deadlines for the College of Information Science & Technology are:

- August 1 for fall semester
- December 1 for spring semester
- June 1 for summer sessions

Students who have been admitted to the University may apply for entrance to the College of IS&T during initial registration by indicating their preference in the appropriate place on the University Application for Admission form. A minimum ACT score of 24 or an SAT score of 1110 (Verbal/Math) or a ranking in the top third of a graduating class is required for all incoming freshmen to be admitted to the College.

Transfer admission from other colleges or universities: Students may transfer into the College of Information Science & Technology from other institutions by completing the application process described above and meeting the minimum cumulative grade point average (GPA) of 2.5 (on a 4.00 scale) with a minimum of 12 credit hours.

Maximum/Minimum Credits

A minimum of 120 credit hours are required for a Bachelor of Science degree in the College of IS&T. A maximum enrollment of 17 credit hours is allowed per semester. For the summer term, a maximum enrollment of 12 credit hours is allowed.

Residency Requirement

Thirty of the last 36 credit hours required for the degree must be University of Nebraska at Omaha courses.

Transfer Credit Policy

A maximum of 64 credit hours are accepted from an accredited community college. A minimum of C- or higher grade is required to transfer credits toward College of IS&T degree programs with the exception of the following business courses, which require a C grade or better if transferred without ACCT 2020 or ECON 2220: ACCT 2010 and ECON 2200.

Unacceptable Credits

Courses such as ENGL 1050, ENGL 1090 and ENGL 1100 and orientation courses in other colleges or divisions may not be counted as part of the minimum 120 credit hours for the degree program. The course, College and Career Success (US 1010), can, however, be counted as elective credit if taken in the first 30 hours of the degree program. A maximum of four hours of physical education activities courses may be applied toward the general elective area.

Quality of Work

Students must obtain a grade of C- or better in each class for the purpose of meeting General Education, Departmental, and College requirements. A grade of C or better is required to meet the prerequisite requirement for business courses. A minimum cumulative GPA of 2.5 is required for the College of Information Science & Technology.

Incompletes

To receive an “incomplete,” students must contact their instructor prior to the end of the semester, request a grade of incomplete, and make arrangements to complete the work. The rules which govern the issuance of an incomplete are as follows:

1. The grade “I” is used by an instructor at the end of a semester or summer session to designate incomplete work in a course. It is given when a student, due to circumstances such as illness, military service, hardship or death in the immediate family, is unable to complete the requirements of the course in the term in which the student is registered for credit. Incompletes will only be given if the student has already substantially completed the major requirements of the course.

2. Each instructor will judge each situation. The instructor will also indicate by a departmental record with a copy to the student how the incomplete is to be removed. If the instructor is at the University at the time of removal, he/she will supervise the makeup work and report the permanent grade.

3. In the event the instructor is not available at the time of the student’s application for removal of an incomplete, the department chairperson will supervise the removal of the incomplete and turn in the permanent grade for the student.

4. A student shall have no longer than the end of the next regular semester following receipt of the “I” to remove the incomplete. After that time, the “I” will automatically become a “W,” or such other grade specified by the instructor depending on the amount and quality of the coursework previously completed. Exceptions to this rule will be permitted if initiated by the student and approved by the instructor, department chairperson and dean. Exceptions to this rule will be made only in response to circumstances over which the student has no control, and these must be detailed.

5. In registering for courses, students receiving one or more “I” grades from the previous semester should take into account the time needed to complete the required work and plan their schedules accordingly.

Repeating Courses

A repeated course may count only once for graduation. Exceptions are internships, independent studies, physical education activity courses, and special topic courses.

For students repeating any Computer Science course (CSCI 1xxx-4xxx):

1. A formal warning shall be conveyed to the student upon failing a course for the second time.

2. The student shall not be allowed to enroll in the course after the third failure.

Attendance Policy for Computer Science Courses

1. A formal warning shall be conveyed to the student upon the second instance (first instance for summer session) of unexcused absence from a class.

2. The student shall be withdrawn from the class after the third instance (second instance for summer session) of unexcused absence from the class.

Grade Appeal Policy

Students who wish to appeal a grade which they feel was erroneously given shall first discuss the matter with the instructor and/or department chairperson. If a satisfactory agreement cannot be reached, the student may submit a written appeal to the Office of the Dean within 30 days of receipt of the grade report from the Registrar’s Office. The Academic Evaluation Committee of the College of Information Science & Technology will hold a hearing to make a final determination based on the facts presented.

Probation and Suspension

Probation

Probation constitutes a period of formal warning that the student is doing unsatisfactory work. A student whose cumulative grade point average is below 2.0 after having attempted six or more semester hours of study will be placed on probation. Probationary status will remain in effect as long as the student’s cumulative grade point average (GPA) remains below 2.0. No student will be allowed to enroll for any course on a Pass/Fail or Credit/No Credit basis while on probation.

The student is encouraged to use every opportunity during time on probation to seek counsel and guidance from various university agencies
which have been established to offer assistance in study and academic planning. For information on such services, the student should consult with his or her academic advisor or counselor.

Suspension
Starting with the fall 2005 semester, students will no longer be suspended at the end of the fall term; students will only be suspended at the end of the spring term. This rule applies to all UNO colleges, including University Division and all University of Nebraska-Lincoln Omaha-based programs in the Colleges of Architecture, Agriculture, Education and Human Resources, and Engineering.

Students who are on probation will be suspended at the end of the spring semester when their semester grade point average is lower than 2.0 and their cumulative grade point average (GPA) falls below the following standards:

<table>
<thead>
<tr>
<th>Hours Attempted</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-12</td>
<td>No Suspension</td>
</tr>
<tr>
<td>13-45</td>
<td>1.75</td>
</tr>
<tr>
<td>46 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Academic suspension under these conditions will be automatic and will be for a minimum period of one year.

Students will be notified by the College of Information Science & Technology and given instructions on how to appeal, should they choose to do so, as well as any applicable deadlines associated with an appeal.

Appeals properly filed shall delay implementation of the suspension until the appropriate appeal committee has acted. However, if the appeal is denied, the student shall be disenrolled and tuition shall be refunded.

Academic Amnesty
A student who did not perform well during one or two consecutive semesters (not necessarily the first and second ones) at UNO, UNL or UNK may petition the College of IS&T for academic amnesty to have either one or both semesters’ grades removed from his or her cumulative grade point average (GPA). In order to petition for academic amnesty, a student must have completed 24 semester hours (12 semester hours if the student is part time) of coursework at UNO, UNL, or UNK with a GPA of 2.5 or better subsequent to the semester or semesters in question. In addition, a minimum of four years are required between the semester(s) to be deleted and the petition for academic amnesty.

If the Academic Amnesty Committee agrees, those courses that were completed with a C- or better during the academic amnesty semester or semesters may still count toward graduation. Students who are granted academic amnesty may not graduate with academic honors.

Academic Advising
The College of IS&T's Undergraduate Academic Advising office recognizes that students have individual academic, career and sometimes personal needs which may require special assistance. Below are some guidelines on how academic advisors help ensure success. Students are strongly encouraged to meet with their advisor regularly.

What do IS&T academic advisors do?
IS&T academic advisors explain the rules and requirements of the College of IS&T programs and help students understand how they apply to individual situations. The advisors prepare each student record so that students meet all the requirements for the degree in the final audit process. In addition, advisors provide advice about what degree-program specific courses and scheduling will be most helpful. They can also help with difficult situations such as concerns about grades, course instruction, time management, scheduling conflicts, or other academic issues.

When should I see an academic advisor?
During freshman and sophomore year, students in the College of IS&T are required to meet with an advisor every semester. After that, though not required, students are strongly encouraged to continue to meet with an advisor at least once per semester to make sure that all records are up-to-date and to catch any problems early. Seniors are required to schedule a meeting for a senior check when they reach 91 earned hours.

Senior Check
When students reach 91 hours of completed coursework, they must request a senior check to be done by an academic advisor. Assuming satisfactory completion of all approved courses, this process will assure the student’s graduation date. Should this procedure not be followed, responsibility for meeting graduation requirements falls on the student and may prevent graduation on the anticipated date.

Application for Degree
Each student who expects to receive a diploma must file an Application for Degree. The Application for Degree is available online by logging in to Mavlink. Announcements about deadline dates are also posted via Mavlink. It is the responsibility of the student to inform the Registrar’s Office of his/her graduation plans, the manner in which requirements are to be completed, and to provide a diploma mailing address. Failure to meet these stipulations may necessitate postponement of graduation until the following semester.

Other Information Relevant to the College of IS&T
Catalog Choice
A student registering in the College of IS&T for the first time will work with an advisor to develop a matriculation form based on the current online catalog. The matriculation form is used to establish a plan of study for students in the College and will be the primary source for a student’s most current academic plan, provided the student has continuous enrollment. It is the responsibility of each student admitted to the College of Information Science & Technology to become familiar with the procedures and regulations in the undergraduate catalog as well as the program brochure for his or her degree program. The College of Information Science & Technology reserves the right, after due notice during the course of a student’s work toward a degree, to institute and make effective any new ruling which may be necessary for the general good of the College and to substitute courses currently offered for those no longer offered.

Interdisciplinary Informatics (Si2)
The mission of the School of Interdisciplinary Informatics (Si2) is to provide students and faculty the opportunity to pursue their passions, to use technology in all its facets, and to be transformative. We collaborate to deliver individualized education, world class research, and immersive experiences to create and harmonize knowledge from multiple disciplines.

The School of Interdisciplinary Informatics is a key driver in taking the College of Information Science & Technology (IS&T) to the next level. The School is a hub for technology innovation for undergraduate and graduate students. It provides opportunities for collaboration with other disciplines through sharing curriculum and collaborative applied research.

The School is also an "IT solution-finding" resource for our community partners in the areas of cybersecurity, healthcare, bioinformatics, public health informatics, business and government.

The School provides a unique opportunity for undergraduate students to integrate education, research and outreach into their college experience. For example, many students have been involved in a public health informatics project that focuses on providing an emergency response.
system for public health laboratories. Students are able to earn academic credit working on this project and also have opportunities to do research and publish papers.

Faculty also engage students with community partners through our service learning initiatives. Students have worked with the Douglas County Correctional Center, KIDS Can! Alegent Health, Douglas County Health Services, and Nebraska Family and Children Services, to name a few.

These initiatives are a win/win situation for everyone involved: the students, the community partners and the schools. Ultimately, they have a positive economic impact that flows throughout the community and the state.

The School of Interdisciplinary Informatics reflects the role and mission of UNO’s College of Information Science & Technology, The Peter Kiewit Institute, and the University of Nebraska at Omaha in a number of ways. It is a direct response to the opportunities and challenges presented by information technology as it relates to economic growth for the state and region in applied IT areas such as medical informatics and cybersecurity. The School encourages the enhancement and fostering of new educational, research and creative activities by bringing together practitioners, researchers and students in interdisciplinary fields of importance to the state and the University. The School is unique in the country and leads to increased national visibility of the University of Nebraska in the area of interdisciplinary applications of information technology.

The School of Interdisciplinary Informatics addresses the following needs and demands of our academic, business, and community stakeholders:

1. Promotion of growth of interdisciplinary areas;
2. Facilitation of innovative partnerships with external constituents, including leveraging the expertise of the local community;
3. Diversity of personnel;
4. Reduction of barriers to collaboration;
5. Flexible and agile structure for quick response to opportunities;
6. Solidification of regional and national recognition as an important resource for the study and advancement of IT in the domain of healthcare, biosciences, and information security;
7. Visibility of the college and its interdisciplinary focus;
8. A magnet for collaborative external funding;
9. Development of the next generation workforce to address local, regional and national needs in exciting, new interdisciplinary domains.

Second Baccalaureate Degree for Bioinformatics

General Requirements

Students who have satisfied the requirements for a first baccalaureate degree other than Bioinformatics at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second baccalaureate degree.

Bioinformatics Requirements (92 hours)

To obtain Bioinformatics as a second bachelor’s degree, students must complete academic requirements for the degree which include 24 credit hours of IS&T core courses, 17 credit hours of Biology courses, 16 credit hours of Chemistry courses, and 24 credit hours of Bioinformatics courses. Students must consult an academic advisor in the College of IS&T prior to starting this program. Some transfer coursework may apply; however, 30 of the last 36 hours for the degree must be University of Nebraska at Omaha courses.

Second Baccalaureate Degree for Cybersecurity

General Requirements

Students who have satisfied the requirements for a first baccalaureate degree other than Cybersecurity at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second baccalaureate degree.

Cybersecurity Requirements (83 hours)

To obtain Cybersecurity (CYBR) as a second Bachelor’s degree, students must complete academic requirements for the degree, which include 9 credit hours of IS&T core courses, 21 credit hours of required Computer Science core courses, 30 credit hours of required Cybersecurity core courses, and 8 hours of Mathematics courses. Students must also complete 9 credit hours of required Cybersecurity electives and 6 credit hours of co-requisite courses in Political Science. Students must consult an academic advisor in the College of IS&T prior to starting this program. Some transfer coursework may apply; however, 30 of the last 36 hours for the degree must be University of Nebraska at Omaha courses.

Second Baccalaureate Degree for IT Innovation

General Requirements

Students who have satisfied the requirements for a first baccalaureate degree other than IT Innovation (ITIN) at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second baccalaureate degree.

IT Innovation Requirements (87 hours)

To obtain IT Innovation as a second Bachelor’s degree, students must complete academic requirements for the degree which include 6 credit hours of Mathematics courses, 48 credit hours of required IS&T core courses, and 33 credit hours of area of focus courses. (Approval of the area of focus courses by the ITIN Undergraduate Program Committee is required prior to course enrollment.) Students must consult an academic advisor in the College of IS&T prior to starting this program. Some transfer coursework may apply; however, 30 of the last 36 hours for the degree must be University of Nebraska at Omaha courses.

Opportunities for Graduate Study

Integrated Undergraduate/Graduate Tracks (IUG) in Cybersecurity and IT Innovation

The College of IS&T’s School of Interdisciplinary Informatics offers IUG tracks for the Cybersecurity and IT Innovation programs. Students majoring in Cybersecurity can complete the undergraduate BS degree in CYBR and the graduate MS degree in CYBR in five years. Students pursuing undergraduate degrees in MIS or CS with an Information Assurance concentration may also be eligible for this track option.

The College of IS&T has partnered with the University of Nebraska Medical Center’s College of Public Health to enable ITIN majors to complete the BS in ITIN and an MS in Public Health with a concentration in Biostatistics in five years.

Integrated Undergraduate/Graduate Track (IUG) in Cybersecurity

The primary purpose of this program is to provide outstanding undergraduate students in the College of IS&T an opportunity to complete a BS and an MS degree in Cybersecurity in five years (141 hours). The IUG program is designed for dedicated students who are motivated and willing to take on the challenges relating to graduate studies early; the program involves both intensive study and preparation in the CYBR field.
General Guidelines

IUG in Cybersecurity Program of Study

The CYBR IUG track is a 141-hour undergraduate-graduate option that allows eligible students to work toward the MS in CYBR degree requirements while completing their undergraduate degree. Students interested in this option will work closely with an academic advisor in the College of IS&T and a faculty mentor to develop an integrated plan of study.

Time of Admission to the Program

Students will be eligible for admission to the integrated degree program when they have completed their junior year in the College of IS&T; they can apply for consideration in the last part of their junior year. Students admitted to the program will start taking graduate courses in their senior year and are allowed to use a maximum of 12 hours of CYBR/CSCI/CIST 8xx6 courses toward the undergraduate degree.

Joint Admission

Students must apply to and meet the admission requirements of the graduate degree in Cybersecurity.

Plan of Study

In consultation with an academic advisor and a faculty mentor, students will be required to prepare a plan of study. The plan of study will cover the entire time period of the program and will be periodically reviewed with an advisor. Students admitted to the integrated degree program will be required to complete any applicable graduate foundation courses or their equivalent undergraduate courses during their junior/senior years.

Students will present their plan of study in person to the Graduate Program Committee (GPC) for the CYBR master’s degree program prior to being admitted to the program.

Tuition Charges

Students will be required to pay graduate tuition rates when taking graduate courses.

Admission Requirements and Procedures

1. Students with junior standing and at least 85 hours of completed coursework in their undergraduate degree program may apply for admission consideration into the integrated undergraduate/graduate (IUG) track. Students pursuing undergraduate degrees in CYBR are automatically eligible to apply. Students pursuing undergraduate degrees in MIS or Computer Science (CS) with an IA concentration may also be eligible for this track option and can apply to the CYBR GPC for permission to apply.

2. At the time of application, students must have a GPA of 3.0 or above overall as well as in their major coursework.

3. Interested students will be required to present a portfolio of the following credentials, and whenever possible, this presentation will be made to the IUG Selection Committee. The portfolio is to include the following:
   a. Three letters of recommendation, at least two from faculty
   b. Statement of Intent: a personal statement about why the student wishes to apply for the IUG track
   c. Undergraduate transcripts
   d. Other supporting documents (e.g. resume, projects and papers, software, work experience, etc.) should be included where possible

4. All applicants will need to meet any other admission requirements established for the MS in CYBR program.

Additional Information

- Students are highly encouraged to identify and work with a faculty mentor who knows their background and can champion their application to the IUG track.
- Students are allowed to use a maximum of 12 hours of CYBR/CSCI/CIST 8xx6 courses towards the undergraduate degree.

Integrated Undergraduate/Graduate Track (IUG) in IT Innovation

The IUG in IT Innovation from UNO and the Master of Public Health (MPH) with a concentration in Biostatistics from the University of Nebraska Medical Center (UNMC) can be completed in five years. This IUG track is a 144-hour undergraduate-graduate option that allows eligible students to work toward the MPH degree requirements while completing their undergraduate degree in IT Innovation. Students interested in this option will work closely with an academic advisor in the College of IS&T and a faculty mentor to develop an integrated plan of study.

General Guidelines

Time of Admission to the Program

Students will be eligible for admission to the integrated degree program during their sophomore year in the College of IS&T and can apply for consideration after completing at least 48 hours of coursework in their undergraduate degree. Students admitted to the program will start taking graduate courses in their junior year and are allowed to use up to 21 credit hours of graduate courses toward the ITIN undergraduate degree’s area of focus.

Joint Admission

Students must apply to and meet admission requirements of the MPH graduate program.

Plan of Study

In consultation with an academic advisor and a faculty mentor, students will be required to prepare a plan of study. The plan will cover the entire time period of the program and will be periodically reviewed with an advisor.

Tuition Charges

Students will be required to pay graduate tuition rates when taking graduate courses.

MPH Program Requirements for Admission

- Completion of the UNMC MPH degree application.
- Three letters of the recommendation from academic or professional references.
- A resume reflecting one or more years of work/volunteer history related to health and/or human services.
- A one page personal statement describing the applicant’s career objectives and interest in and potential for contributing to the field of public health.
- Self-assessment of the applicant’s computer, quantitative analysis, personal skills and general preparation for succeeding in a program of professional studies in public health.
- Official transcripts with a 3.5 or higher grade point average for a minimum of 48 completed undergraduate hours.

Biostatistics Concentration Prerequisites

- The student must have received the equivalent of at least a B (3.00 or higher on the University of Nebraska grade scale) in a statistics course taken within 5 years of the program application.
- The student must have taken differential and integral calculus as well as linear algebra within 10 years of the program application and received at least a B (3.00 or higher on the University of Nebraska grade scale) for each class.
• The GRE will be waived for students in the Integrated Undergraduate/Graduate Track in IT Innovation and MPH with a concentration in Biostatistics.
• All applicants will need to meet any other admission requirements established for the MPH.

Additional Information
• The application to the IUG track will be considered as a complete package, and therefore, obtaining a high undergraduate GPA is not a guarantee of admission.
• Students are highly encouraged to identify and work with a faculty mentor who knows their background and can champion their application to the IUG track.
• The number of students admitted to the MPH program is limited to the number that can best be served to the advantage of the students and program operations. Preference is given to residents of Nebraska, to individuals who wish to pursue study that can be adequately supported by MPH program resources, and to those who have adequate preparation and time for their proposed program. The program is projected to admit up to ten students each year.
• Upon acceptance to the Integrated Undergraduate/Graduate Track in IT Innovation and Master of Public Health with a concentration in Biostatistics, students’ advising will be done collaboratively by an advisor from the UNO College of Information Science & Technology and an advisor from the UNMC College of Public Health.

Contact
For more information, contact the College of IS&T Academic Advising Office at 402-554-3819.

Website (http://www.unomaha.edu/college-of-information-science-and-technology/school-of-interdisciplinary-informatics)

Writing in the Discipline
All UNO students are required to take an writing in the discipline course within their major. Students must take CIST 3000.

Degrees Offered
The three degrees offered by the School are:
• Bioinformatics, Bachelor of Science (p. 365)
• Cybersecurity, Bachelor of Science (p. 366)
• Information Technology (IT) Innovation, Bachelor of Science (p. 368)

The three degrees above all have three very important common characteristics:
First, they each have interdisciplinary components in their curriculum.
Second, they rely on working collaboratively with other disciplines and the community.
Third, according to the Bureau of Labor Statistics, all of these career areas have tremendous growth potential over the next ten years.

Minors Offered
• IT Innovation Minor (p. 369)
• Cybersecurity Minor (p. 367)
• Bioinformatic Minor (p. 366)

IT Innovation (ITIN) Minor
The objective of the ITIN Minor is to provide students across the University with a substantive qualification in information technology to augment their respective majors and allow them to be even more innovative as to the application of IT to their learning and career choices.

Cybersecurity (CYBR) Minor
Cybersecurity is the practice of managing information-related risks by ensuring confidentiality, integrity, and availability of information. The minor will provide students across the University with an opportunity to earn credits in CYBR, and it will enable them to understand the nuances of everyday cybersecurity issues. The CYBR minor will also provide students an opportunity to strengthen their portfolio, resulting in increased job opportunities.

Bioinformatics Minor
Bioinformatics is a rapidly expanding interdisciplinary field focused on collecting, processing, and analyzing vast amounts of biological and biomedical data and has become an indispensable component of biomedical research. The minor in Bioinformatics offers an opportunity for students majoring in other disciplines to acquire the foundations of the field and add in-demand skills to their portfolio.

Bioinformatics
BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)
Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics covered in the course will include an overview of the biology, mathematics and computer science needed to understand these problems and an examination of some of the tools used by bioinformaticians to address them.

Distribution: Natural/Physical Science General Education course

BIOI 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)
Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.

Prerequisite(s)/Corequisite(s): BIOI 1000 or BIOL 1450

BIOI 3000 APPLIED BIOINFORMATICS (3 credits)
This course will provide students with the practical skills needed for the analysis of -omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computation tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.

Prerequisite(s)/Corequisite(s): BIOI 1000, BIOL 1450, and CIST 1400; or permission.
BIOI 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)
Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.
Prerequisite(s)/Corequisite(s): BIOI 1000 and CSCI 1620. CSCI 3320 and an introductory course in biology (e.g., Biology 1450) are strongly recommended but not required.

BIOI 4500 INDEPENDENT STUDY (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.
Prerequisite(s)/Corequisite(s): Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

BIOI 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

BIOI 4860 BIOINFORMATICS ALGORITHMS (3 credits)
The main objective of this course is to provide an organized forum for students to learn recent developments in Bioinformatics, particularly, from the algorithmic standpoint. The course will present basic algorithmic concepts in Bioinformatics and show how they are connected to molecular biology and biotechnology. Standard topics in the field such as restriction mapping, motif finding, sequence comparison, and database search will be covered. The course will also address problems related to Bioinformatics like next generation sequencing, DNA arrays, genome rearrangements and biological networks. (Cross-listed with BMI 8866).
Prerequisite(s)/Corequisite(s): CSCI 3320 and BIOL 1450; Or permission of instructor.

BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)
The course provides students basic knowledge on database aspects related to bioinformatics. The course presents fundamental materials on database management systems, including data modeling, relational database design and queries, XML, as well as basics of information retrieval. Various approaches related to biodatabase search, machine learning and pattern discovery will be covered.
Prerequisite(s)/Corequisite(s): CSCI 3320

BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the class will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny.
Prerequisite(s)/Corequisite(s): Junior or senior-level standing in the Bioinformatics program or permission from the instructor. Not open to non-degree students.

BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)
This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.
Prerequisite(s)/Corequisite(s): Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.

BIOI 4960 SEMINAR IN BIOINFORMATICS (1 credit)
This is a variable-content course that engages students in current research in bioinformatics and develops skills in the oral and written presentation of scientific research.
Prerequisite(s)/Corequisite(s): Senior level status in the Bioinformatics program.

BIOI 4970 SENIOR PROJECT IN BIOINFORMATICS I (1 credit)
This course is the first part of a two-part series that allows students to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to decide on a research topic and to write a detailed proposal based on this topic that outlines the goals and objectives of the proposed research. The topic and proposal will be approved by the supervising faculty member.
Prerequisite(s)/Corequisite(s): Senior level status in the Bioinformatics program. Not open to nondegree students.

BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II (2 credits)
This course is the second part of a two-part series that allows the student to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to perform the research proposed in Part I of the course and to present the results of his or her work. Presentations will be made in the form of a report, written as a scientific research paper, and an oral defense.
Prerequisite(s)/Corequisite(s): Senior-level standing in the Bioinformatics program and successful completion of BIOI 4970. Not open to nondegree students.

BIOI 4990 INDEPENDENT STUDY IN BIOINFORMATICS (1-3 credits)
This is a variable-content course designed for the junior or senior bioinformatics major who would benefit from independent reading assignments and research-type problems. Independent study enables coverage of topics not taught in scheduled course offerings.
Prerequisite(s)/Corequisite(s): Junior/senior standing, permission of supervising faculty member & approval of Bioinformatics UG Prog Comm Chair. A formal description of the problem area to be investigated, the resources to be used, & the results to be produced must be prepared.

Cybersecurity

CYBR 1100 INTRODUCTION TO INFORMATION SECURITY (3 credits)
This course emphasizes our current dependence on information technology and how its security in cyberspace (or lack thereof) is shaping the global landscape. Several historical and contemporary global events that have been influenced by the exploitation of information technology motivates topics on cyber crime, malware, intrusion detection, cryptography, among others, and how to secure one’s own data and computer system. Several aspects of this course are geared towards developing an understanding of the “cyberspace” as a new medium that breaks all geographical boundaries, while highlighting noticeable influences on it from social, political, economic and cultural factors of a geographical region.
Distribution: Global Diversity General Education course
CYBR 2250  LOW-LEVEL PROGRAMMING (3 credits)
This course will teach the cybersecurity students low-level programming in the 'C' and assembly languages, and the interrelationship between these two programming paradigms. The student will learn the various control structures in 'C' and how they are implemented in machine code, memory allocation and management, and the basics of allocation classes such as static versus automatic variables. The students will also learn x86 assembly language in the 'C' environment and will be able to write useful, functional, stand-alone assembly language programs with no help from external libraries.
Prerequisite(s)/Corequisite(s): CSCI 1620. Not open to non-degree graduate students.

CYBR 2980  SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring subject areas in Information Assurance and related fields for sophomore undergraduate students. Specific topics vary, in keeping with research interests of faculty and students. Examples include network configuration, network security, forensics, regulatory compliance, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance.
Prerequisite(s)/Corequisite(s): Instructor permission required. Not open to non-degree graduate students.

CYBR 3350  SECURITY ADMINISTRATION - LINUX (3 credits)
This course covers topics a system administrator would encounter in their profession. The student will learn how a system administrator fulfills various organizational information resource management requirements using the a Linux-based Operating System. Topics will include; installation; creating and maintaining file systems; user and group administration; backup and restore processes; network configuration; various system services; simple security administration; and updating and maintaining the system.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840 or Instructor Permission.

CYBR 3370  SECURITY ADMINISTRATION - WINDOWS (3 credits)
This course covers topics a system administrator would encounter in their profession. The student will learn how a system administrator fulfills various organizational information resource management requirements using the Windows Operating System. Topics will include; installation; creating and maintaining file systems; user and group administration; backup and restore processes; network configuration; various system services; simple security administration; and updating and maintaining the system.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840 or Instructor Permission

CYBR 3450  NATURAL LANGUAGE PROCESSING (3 credits)
The course will provide overview of the topics in natural language processing such as word and sentence tokenization, syntactic parsing, semantic role labeling, text classification. We will discuss fundamental algorithms and mathematical models for processing natural language, and how these can be used to solve practical problems. We will touch on such applications of natural language processing technology as information extraction and sentiment analysis. (Cross-listed with CSCI 3450).
Prerequisite(s)/Corequisite(s): CSCI 2030; Co-requisite: CSCI 3320; Students should be comfortable w/ scripting (Python will be the language extensively used in natural language processing tools including NLTK). Not open to non-degree graduate students.

CYBR 3570  CRYPTOGRAPHY (3 credits)
The course will provide a broad overview of the concepts, fundamental ideas, vocabulary, and literature base central to the study and development of cryptography and cryptanalysis. This course will explore historical development of cryptography, as well as methods used to defeat it. In addition, the course will cover the mathematical foundations of cryptography today, as well as some current uses of such cryptography, such as public key infrastructures, the Internet Key Exchange protocol, and more.
Prerequisite(s)/Corequisite(s): CSCI 3320 or ISQA 3300. Not open to non-degree graduate students.

CYBR 3600  INFORMATION SECURITY, POLICY AND AWARENESS (3 credits)
This course will cover the planning and development for information governance, security policies and procedures, and security awareness. (Cross-listed with CIST 3600)
Prerequisite(s)/Corequisite(s): CIST 2100; CIST 3110, which may be taken concurrently.

CYBR 4000  CENTER OF ACADEMIC EXCELLENCE-CYBER OPERATIONS COMPLETION CERTIFICATE (0 credits)
This course is utilized to provide a specific designation for students that have completed the Center of Academic Excellence - Cyber Operations coursework. It is a zero credit hour class used to designate the completion of this focus area in the cybersecurity curriculum.
Prerequisite(s)/Corequisite(s): Instructor Permission. The program committee will work w/ the UG advisors to verify that the student has fulfilled the requirements for this designation. If the student has fulfilled (or will soon) all the requirements, they may register for this class.

CYBR 4360  FOUNDATIONS OF INFORMATION ASSURANCE (3 credits)
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption systems; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 8366, CSCI 8366)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 3325 OR ISQA 3300 OR By instructor permission

CYBR 4380  COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction and documentation of computer evidence stored on a computer. This course takes a technical, legal, and practical approach to the study and practice of incident response, computer forensics, and network forensics. Topics include legal and ethical implications, duplication and data recovery, steganography, network forensics, and tools and techniques for investigating computer intrusions. This course is intended as a second course in information assurance for undergraduate students as well as other qualified students. It is also intended as a foundation course for graduate digital forensics studies. (Cross-listed with CIST 4380, CYBR 8386)
Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3550 or ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.
Prerequisite(s)/Corequisite(s): CYBR 8546, ISQA 8546

The course introduces the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that built using these principles. We will discuss the security definitions and protocols within the quantum realm. We will discuss what advantages quantum computing and cryptography offers compared to classical computing and cryptography and limitations thereof. It will cover the integration of quantum cryptography into existing public key infrastructure. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course students will also implement several of the quantum algorithms. (Cross-listed with CYBR 8436)

Prerequisite(s)/Corequisite(s): Co-requisites: CYBR 3570 or CSCI 4560; or Instructor permission.

CYBR 4440 INDUSTRIAL CONTROL SYSTEM SECURITY (3 credits)

The objective of this course is to research vulnerabilities into, and provide guidance for securing, industrial control systems (ICS). ICS is a general term that encompasses several types of control systems, including supervisory control and data acquisition (SCADA) systems, distributed control systems (DCS), and other control system items such as Programmable Logic Controllers (PLC). The student will learn to identify network and device vulnerabilities and potential countermeasures to these weaknesses. (Cross-listed with CYBR 8446)

Prerequisite(s)/Corequisite(s): CSCI 3550.

CYBR 4450 HOST-BASED VULNERABILITY DISCOVERY (3 credits)

The class will cover security issues at an implementation and hardware level. The students will learn assembly language and the use of a reverse assembler and debugger. This will allow the student to analyze various packing algorithms for computer viruses, the viruses themselves, operating system hooking, fuzzing, and other machine code, host-based exploits. The class will be using both Windows and Linux as operating systems. (Cross-listed with CYBR 8456.)

Prerequisite(s)/Corequisite(s): Permission of the instructor and CSCI 3710.

CYBR 4460 NETWORK-BASED VULNERABILITY DISCOVERY (3 credits)

The course is an advanced class in which the students learn various techniques for testing for and identifying security flaws in network software and web applications. Internet technologies such as HTTP, DNS, DHCP, and others are examined in the context of cyber security. Students are expected to participate in numerous hands-on experiments related to Information Assurance with respect to web technologies. (Cross-listed with CYBR 8466)

Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 4540 COMPUTER SECURITY MANAGEMENT (3 credits)

The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 8546, ISQA 8546)

Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

CYBR 4580 CERTIFICATION AND ACREDITATION OF SECUR SYSTEMS (CAPSTONE) (3 credits)

This is the BSIA capstone course where students extend and apply their knowledge in defining, implementing, and assessing secure information systems. Students will demonstrate their ability to specify, apply, and assess different types of countermeasures at different points in the enterprise with a special focus on system boundaries. Students will complete and defend a Certification and Accreditation package.

Prerequisite(s)/Corequisite(s): CIST 3600 or CYBR 3600; CIST 4360; CYBR 3350 or CYBR 3370; and CIST 4540 or CYBR 4540 may be taken prior to or concurrently. Not open to non-degree graduate students.

CYBR 4950 INTERNSHIP IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for an Information Assurance student to work with a local or national industry partner in a cyber security oriented position, and to receive credit for this practical experience. The internship may or may not be a paid position, but will definitely be directly related to Information Assurance. The class is proposed and organized by the student, with participating faculty supervising and input provided by the industry partner.

Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 4980 SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research. (Cross-listed with CYBR 8986)

Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 4990 INDEPENDENT STUDY IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. The class is designed for students that would like to explore specific Information Assurance topics at a greater depth, or topics which are not currently a part of the IA curriculum. The class is proposed and organized by the student, with participating faculty mentoring.

Prerequisite(s)/Corequisite(s): Instructor Permission.

IT Innovation

ITIN 1010 ACTIVATING INNOVATION IN SOCIETY (3 credits)

This course surveys and applies the use of qualitative methods, especially interview-based research, in order to maximize the insight that informs and activates the innovation process, with emphasis on technological innovation.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

ITIN 1110 INTRODUCTION TO IT INNOVATION (3 credits)

In almost every modern human endeavor, creativity and Information Technology are essential. In the Internet age, information has become a commodity that is available to everyone. Similarly, current technology has largely become commoditized. Therefore, creating new value is becoming the basis for successful professionals. This course introduces students to tools, techniques, and methods for generating innovative information technology ideas and solutions. It teaches them to think about future possibilities and equips them with the ability to critically evaluate proposed innovations and ideas. The goal of the course is to increase students' ability to creatively solve challenging problems in new ways using information technology. This class is inherently interdisciplinary as it now touches every aspect of modern academic pursuits.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
ITIN 2150 AUDIO FOR MULTIMEDIA (3 credits)
This course provides an overview of audio production techniques as they pertain to multimedia.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ITIN 2220 APPLIED IT INNOVATION (3 credits)
The course extends the concepts learned in the Introduction to IT Innovation course and focuses on market dynamics and monetizing innovations. It moves past idea generation and focuses on identifying and gathering resources, innovation implementation, sustainable innovation models and how ideas can be monetized. The goal is for students to take their original ideas from concept to initial implementation with thoughts towards commercialization. Upon completing the course, students will have created at least a rudimentary implementation of an original idea and have a defensible plan for how the idea can be monetized.
Prerequisite(s)/Corequisite(s): ITIN 1110 & CIST 1400. Not open to non-degree graduate students.

ITIN 2990 IT INNOVATION SYMPOSIUM (1 credit)
The seminar exposes students to information technology innovators from multiple industries and varied backgrounds. It teaches the practical aspects of IT Innovation from those that have done it and are doing it in both research and practice. The purpose is to cause students to reflect on applying innovation to the real-world, connect them to the innovation community and to equip them with best practices and tools to make their innovations a reality.
Prerequisite(s)/Corequisite(s): Enrollment in the IT Innovation Major or IT Innovation Minor. Not open to non-degree graduate students.

ITIN 3100 MUSIC INFORMATICS (3 credits)
Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students. (Cross-listed with MUS 3100).
Prerequisite(s)/Corequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

ITIN 3180 DIGITAL SYNTHESIS (3 credits)
An exploration of the potentials of computer music synthesis. Concepts of music synthesis are presented through the use of a computer, keyboard, and appropriate software. Students create assignments that demonstrate the application of basic techniques. (Cross-listed with MUS 3180).

ITIN 3330 PRODUCT DESIGN AND DEVELOPMENT (3 credits)
This course will cover elements and principles of excellent product design and development. The history of design will be introduced and an overarching set of tenets of design will be introduced. The course will particularly focus on innovation and students will be expected to develop an original concept and create quality designs and low-fidelity prototype implementations of their unique idea. The proposed solutions must be novel and meet a real-world market need. This course will be hands-on and will examine developmental models for innovation.
Prerequisite(s)/Corequisite(s): CSCI 2240. Not open to non-degree graduate students.

ITIN 4000 SPECIAL TOPICS IN IT INNOVATION (1-6 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the IT Innovation area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ITIN 8006).
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ITIN 4090 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with BSAD 8095, MGMT 4090).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

ITIN 4440 AGILE DEVELOPMENT METHODS (3 credits)
The course presents an introduction to agile development methods for IT application development. Students will also learn Unified Modeling Techniques as they go through the agile iterations. This course is a foundation course for the IT Innovation capstone course.
Prerequisite(s)/Corequisite(s): CIST 2100, CSCI 4850 or ISQA 3310. Not open to non-degree graduate students.

ITIN 4500 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the IT Innovation Undergraduate Program Committee at least three weeks prior to registration.
Prerequisite(s)/Corequisite(s): Written permission required.

ITIN 4510 INFORMATION TECHNOLOGY INNOVATION INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the ITIN undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by professionals in the workplace.
Prerequisite(s)/Corequisite(s): Junior/Senior standing and permission of School of interdisciplinary Informatics Director. Not open to non-degree graduate students.

ITIN 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations and studying, understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ISQA 4880).
Prerequisite(s)/Corequisite(s): CIST 1400, CSCI 2500, or equivalent.

ITIN 4980 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT I (3 credits)
This course serves as Part 1 of the capstone project for the Information Technology Innovation program. As such the student will design a prototype of an IT product or service as well as a business case pertaining to what is required to launch their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s)/Corequisite(s): This course is for seniors who are enrolled in the BS in IT innovation degree. Not open to non-degree graduate students.
ITIN 4990 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT PART II (3 credits)
This course serves as Part 2 of the capstone project for the Information Technology Innovation program. Following the designs and business plan developed in Part I ITIN 4980, the student will create a prototype of an IT product or service as well as refine and implement the required business aspects involved in launching their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s)/Corequisite(s): ITIN 4980. This course is for seniors who are enrolled in the BS in IT Innovation degree. Not open to non-degree graduate students.

Bioinformatics, Bachelor of Science
Bioinformatics is an exciting and rapidly-growing field that uses techniques from the computer and information sciences to study biological information and structure. Specifically, it is the science of developing computer databases and algorithms to facilitate and expedite biological research, particularly in the area of genomics. Bioinformatics is an interdisciplinary science, bringing together aspects of computer science, molecular biology, chemistry and mathematics. In order to capitalize on the growing body of genetic information, there is an immense and growing need for experts in this field. A graduate of the College of IS&T Bioinformatics program will have the background to pursue a wide variety of positions in the biomedical and biotechnology industries, graduate studies in bioinformatics or related areas, or medical school (with the addition of only a few courses).

Student Group
UNO’s Bioinformatics students, or those interested in bioinformatics, can join the Maverick Club for Bioinformatics (MCBI). http://www.unomaha.edu/college-of-information-science-and-technology/school-of-interdisciplinary-informatics/student-involvement/index.php

Writing in the Discipline
All UNO students are required to take a writing in the discipline course within their major. Bioinformatics degree students must take CIST 3000.

Degree Requirements
A minimum of 120 credit hours is required for a Bachelor of Science degree in Bioinformatics (BSBI). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BSBI, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

Bioinformatics Minor

Bioinformatics is a rapidly expanding interdisciplinary field focused on collecting, processing, and analyzing vast amounts of biological and biomedical data and has become an indispensable component of the science of the 21st century. The lack of adequately secure information systems has been cited as one of the likely impediments to the emergence of the digital society.

## Requirements

### Prerequisites

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIST 1400</td>
<td>INTRODUCTION TO COMPUTER SCIENCE I</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 1450</td>
<td>BIOLOGY I</td>
<td>5</td>
</tr>
</tbody>
</table>

**Total Credits**: 8

### Core Courses

1. **BIOI 1000** INTRODUCTION TO BIOINFORMATICS 3
2. **BIOI 2000** FOUNDATIONS OF BIOINFORMATICS 3
3. **BIOI 3000** APPLIED BIOINFORMATICS 3

**Elective Courses**

Select 9 hours from the following:

- **BIOI 3500** ADVANCED BIOINFORMATICS PROGRAMMING 3
- **BIOI 4500** INDEPENDENT STUDY 2
- **BIOI 4050** SUPERVISED RESEARCH IN BIOINFORMATICS 2
- **BIOI 4860** BIOINFORMATICS ALGORITHMS 3
- **BIOI 4870** DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS 3
- **BIOI 4890** COMPUTERIZED GENETIC SEQUENCE ANALYSIS 3
- **BIOI 4950** SPECIAL TOPICS IN BIOINFORMATICS 3
- **BIOI 4970** SENIOR PROJECT IN BIOINFORMATICS I 3
- **BIOI 4980** SENIOR PROJECT IN BIOINFORMATICS II 3
- **BIOI 2140** GENETICS 3

**Total Credits**: 9

1. **BIOL 1450** and **CHEM 3650** count toward the Natural and Physical Sciences requirement.

2. **BIOL 1450** and **CHEM 3650** are required for students majoring in other disciplines to acquire the foundations of the field of biomedical research. The Minor in Bioinformatics offers an opportunity for students majoring in other disciplines to acquire the foundations of the field and add in-demand skills to their portfolio.

3. **BIOI 1000** Bioinformatics of Metabolism or two semesters of Biochemistry and the accompanying labs (CHEM 4650, CHEM 4654, CHEM 4660, and CHEM 4664) in place of CHEM 2274.

4. **BIOI 1000** Bioinformatics of Metabolism or two semesters of Biochemistry and the accompanying labs (CHEM 4650, CHEM 4654, CHEM 4660, and CHEM 4664) in place of CHEM 2274.

5. **CHEM 3650** and **CHEM 3654** in place of CHEM 2274.

### Elective Courses

- **CSCI 3110** FUNDAMENTALS OF BIOCHEMISTRY 3
- **CHEM 3650** and **CHEM 3654** in place of CHEM 2274.

**Total Credits**: 95-96

1. **CSCI 1200** and **CSCI 1204** count toward the Natural and Physical Sciences requirement.

2. **CIST 3110** counts toward the Humanities requirement.

3. **BIOI 1000** counts toward the Natural and Physical Sciences requirement.

4. **BIOI 1450** counts toward the Natural and Physical Sciences requirement.

5. **Students pursuing the pre-med requirements for the Bioinformatics degree take CHEM 2250, CHEM 2260 and CHEM 2274 in place of CHEM 2210 and CHEM 2214. Pre-Med majors also take either CHEM 4610 Biochemistry of Metabolism or two semesters of Biochemistry and the accompanying labs (CHEM 4650, CHEM 4654, CHEM 4660, and CHEM 4664) in place of CHEM 3650 and CHEM 3654 to satisfy the chemistry requirements for the BIOI major.**

Information Technology (IT) Innovation, Bachelor of Science

The IT Innovation (ITIN) program involves the study of entrepreneurship as it relates to IT and an individual field of interest. Courses in this degree program are listed in the catalog as IT Innovation (ITIN).

Why major in IT Innovation?

- To have flexibility in designing your own curriculum
- To be able to take more courses that are aligned with your career goals
- To be prepared to be an entrepreneur (an ambitious leader who combines his/her ideas with labor and capital to create and market new goods or services)
- To be prepared to be an intrapreneur (using entrepreneurial skills as an employee within an established organization)
- To have a degree that appeals to a wide variety of potential employers

The IT Innovation degree has three simple but distinguishing features:

1. You pick 33 credit hours from anywhere on campus that line up with your career goals.
2. You participate in seminars, workshops, and conferences on entrepreneurship.
3. You take a solid core of IT courses, plus a two-semester senior capstone course where:
   - You have an idea for a new IT product or service.
   - You document your idea's technical and market feasibility.
   - You pick 33 credit hours from anywhere on campus that line up with your career goals.
   - You participate in seminars, workshops, and conferences on entrepreneurship.

Student Groups

UNO’s IT Innovation students are invited to join the Information Technology Innovation Group (IT Inc.)

Writing in the Discipline

All UNO students are required to take a writing in the discipline course within their major. IT Innovation degree students must take CIST 3000.

Requirements

A minimum of 120 credit hours is required for a Bachelor of Science degree in IT Innovation (BITI). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BITI, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

Area of Emphasis

Approval of ITIN Undergraduate Program Committee members required prior to enrollment in courses 33

Total Credits 84-85

1 NOTE: CSCI 1200 and CSCI 1204 count toward the Natural and Physical Sciences requirement.
2 NOTE: CYBR 1100 counts toward Global Diversity requirement.
3 NOTE: CIST 2100 and ITIN 1010 counts toward Social Sciences requirement.
4 NOTE: CIST 3110 counts toward Humanities requirement.
5 ITIN 2990 (Students need to take a total of 3 credits over the course of three terms)
Minor Offered

- ITIN Minor (p. 369)

IT Innovation Minor

The objective of the ITIN Minor is to provide students with a substantive qualification in information technology to augment their respective major and allow them to be even more innovative as to the application of IT to their learning and career choices.

The ITIN Minor will serve all students that have a desire to pursue their academic major and wish to supplement it with an innovative approach of IT to that major.

Requirements

A minor in IT Innovation may be earned by completing the following 21 hours:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</table>

Electives

Select 9 hours to include 6 hours of 3000 level or above from the following:

- ITIN 2150 AUDIO FOR MULTIMEDIA
- ITIN/MUS 3100 MUSIC INFORMATICS
- ITIN 3330 PRODUCT DESIGN AND DEVELOPMENT
- MGMT/ITIN 4090 PRINCIPLES OF COLLABORATION
- ITIN 4440 AGILE DEVELOPMENT METHODS
- ART 3140 CGI: COMPUTER GENERATED IMAGERY
- ART 3150 VIDEO ART
- ART 3160 GAME DESIGN AS ART
- ART 3170 DIGITAL GAME DESIGN
- ART 4180 ADVANCED DIGITAL GAME DESIGN
- CSCI 2850 PROGRAMMING ON THE INTERNET
- CSCI 4260 USER INTERFACE DESIGN AND DEVELOPMENT
- ISQA 3310 MANAGING THE DATABASE ENVIRONMENT
- ISQA 3400 BUSINESS DATA COMMUNICATIONS or CSCI 3550 COMMUNICATION NETWORKS
- ISQA 3520 GRAPHICAL USER INTERFACE DESIGN
- ENTR 3710 ENTREPRENEURIAL FOUNDATIONS
- MUS 3170 INTRODUCTION TO MUSIC TECHNOLOGY
- MUS 4200 AUDIO RECORDING TECHNIQUES I
- MUS 4210 AUDIO RECORDING TECHNIQUES II

Total Credits 21

Computer Science

The Computer Science program provides a firm foundation in the theory and application of computing while allowing for additional concentration in areas of choice, such as information systems, mainframe computing, computer networking, telecommunications, data and knowledge engineering, and software development. This discipline is based on building software tools that make computers useful.

Mission and Vision

The mission of the Department is:

- to provide outstanding undergraduate and graduate education in computer science;
- to conduct research that advances the state of the art in computer science, to integrate our educational, research, and service activities with other programs in the College of Information Science and Technology, the University of Nebraska at Omaha, and the communities we serve to reflect the role of computer science in information science and technology; and
- to ensure our efforts are of value and relevance to those we serve by continual assessment and improvement.

The vision of the Department is to be recognized nationally and internationally for delivering outstanding computer science education and conducting research of high distinction, both of value and relevance to the communities we serve.

Accreditation

The Computer Science program is accredited by the Computing Accreditation Commission of ABET, Inc., which is the recognized accreditor of college and university programs in applied science, computing, engineering, and engineering technology. ABET accreditation demonstrates a program’s commitment to providing its students with a quality education.

General Guidelines

Time of Admission to the Program

Students will be eligible for admission to the integrated degree program when they have completed their junior year in the College of IS&T; they can apply for consideration in the last part of their junior year. Students will start taking courses in the graduate program in their senior year.

Joint Admission

Students must apply to and meet admission requirements of the MS in CS graduate program.

Advising and Plan of Study

In consultation with an advisor and a faculty mentor, students will be required to prepare a plan of study. The plan will cover the entire time of the program, and it will be periodically reviewed with an advisor.

Tuition Charges

Students will be required to pay graduate tuition rates when taking graduate courses.

Admission Requirements and Procedures

1. Students with junior standing and at least 85 hours of completed course work in their undergraduate CS degree program may apply for admission consideration into the IUG-CS track.
2. At the time of application, a student must have a GPA in their CS major area (or equivalent to the UNO CS major for transfer students) greater than or equal to 3.50 and an overall GPA of 3.50 or above.
3. Interested students will be required to present a portfolio of the following credentials; whenever possible, this presentation will be made to the IUG-CS Program Advisory Committee:
   - Two letters of recommendations, at least one from faculty.
   - Statement of intent about why the student wishes to apply for the IUG-CS track.
   - Undergraduate transcripts.
   - GRE GENERAL score for non-UNO transfer students.
Other supporting documents (e.g., projects and papers, research activities, software, work experience, etc.) should be included where possible.

4. Students are highly encouraged to identify and work with a faculty mentor who knows their background and can champion their application to the IUG-CS track.

5. All applicants will need to meet any other admission requirements established for the MS in CS program.

**Other Requirements**

- The application to the IUG-CS track will be considered as a complete package, and therefore, obtaining a high undergraduate GPA and/or GRE GENERAL score is not a guarantee of admission.

Students are allowed to use a maximum of 6 hours of 8xx6 and 6 hours of 8xx0 courses towards the core extension requirements of the undergraduate degree, provided the courses are not the graduate equivalent of the CS core undergraduate requirements. The choice of graduate level courses in the core extension must also meet the requirements of the concentration of the integrated program.

**Contact**

For more information, contact the College of IS&T Academic Advising Office at 402-554-3819.

**Writing in the Discipline**

All UNO students are required to take a writing in the discipline course within their major. Computer Science degree students must take CIST 3000.

**Degrees Offered**

- Computer Science, Bachelor of Science (p. 374)

**Bachelor of Science in Computer Science (BSCS)**

The Bachelor of Science in Computer Science provides students with a solid background in the fundamentals of computing and prepares each individual for employment in a wide variety of positions and for graduate study in computer science. The content of the Department’s courses is continually monitored to ensure they are consistent with the fast-changing developments in the discipline. Courses are offered in day and evening sections for the convenience of the students. Appropriate university and departmental computing resources are available to students taking computer sciences courses.

A minimum of 120 credit hours is required for a Bachelor of Science degree in Computer Science (BSCS). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

**Second Baccalaureate Degree**

**General Requirements**

Students who have satisfied the requirements for a first baccalaureate degree other than computer science at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second bachelor’s degree.

**Second Degree Requirements**

To obtain computer science as a second bachelor’s degree, students must complete academic requirements for the degree which include 18 credit hours of IS&T core courses, 27 credit hours of computer science core courses, 21 credit hours of a computer science core extension, and 16 credit hours of Mathematics courses, provided that the first baccalaureate degree is not in computer science. Students who are admitted to a second degree program in CS must meet with an academic advisor in the College of IS&T before beginning the degree to make a plan of study. Some transfer coursework may apply; however, 30 of the last 36 hours must be University of Nebraska at Omaha courses.

**Minors Offered**

- Computer Science Minor (p. 376)

**Computer Science Minor**

A minor in computer science may be earned by completing 12 hours of the IS&T core courses (CIST 1400, CSCI 1620, CIST 2100 and CIST 2500), including 6 hours of computer science courses at the 2000 level or above and 6 hours at the 3000 level or above.

_Students are accountable for prerequisite courses._

**Other Information**

**Integrated Undergraduate/Graduate Track (IUG) in Computer Science**

The Department of Computer Science offers an integrated undergraduate/graduate track that provides undergraduate students in the College of IS&T the option to complete the undergraduate degree (BS) in computer science (CS) and the graduate degree (MS) in computer science in five years. The program is a 141 to 144 hour undergraduate-graduate program that allows eligible students who are motivated and willing to take on early the challenges related to graduate education to work toward an accelerated MS degree in CS while completing their undergraduate degree. Students interested in this program will work closely with an adviser and a faculty mentor to develop an integrated plan of study. The program also allows students to follow either a general computer science study plan or a specialized concentration study plan. Seven areas of specialized concentration are provided in the graduate CS program:

1. Artificial Intelligence
2. Databases and Knowledge Engineering
3. Programming Languages
4. Network Technologies
5. Software Engineering
6. Information Systems
7. Information Assurance

The area of concentration will be noted on the student’s transcript.

The program offers three degree options:

1. Thesis
2. Project
3. Coursework

**CSCI 1200 COMPUTER SCIENCE PRINCIPLES (3 credits)**

This course introduces students to the foundational principles of computer science. It aims to help students learn the essential thought processes used by computer scientists to solve problems, expressing those solutions as computer programs. The exercises and projects make use of mobile devices and other emerging platforms.

_Prerequisite(s)/Corequisite(s):_ MATH 1310 or equivalent.

_Distribution:_ Natural/Physical Sci General Education lecture
CSCI 1204 COMPUTER SCIENCE PRINCIPLES LABORATORY (1 credit)
This is a laboratory course for students enrolled in CSCI 1200. It consists of programming exercises designed to help students practice computational thinking and apply computational solutions to practical problems. The exercises make use of mobile devices and other emerging platforms.
Prerequisite(s)/Corequisite(s): CSCI 1200, prior or concurrent.
Distribution: Natural/Physical Sci General Education lab course

CSCI 1620 INTRODUCTION TO COMPUTER SCIENCE II (3 credits)
Advanced topics in programming; topics in data representation and manipulation, data structures, problem solving and algorithm design. This course has a required laboratory component; students must register for a laboratory section when enrolling in lecture.
Prerequisite(s)/Corequisite(s): CIST 1400 and MATH 1930 or MATH 1950 (with a grade of "C-" or better)

CSCI 2030 MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE (3 credits)
This course introduces discrete mathematics concepts that are foundational for the study of computer science such as functions, relations, and sets, basic logic, methods of proof, mathematical induction, computational complexity, recursion, counting, recurrences, and relations.
Prerequisite(s)/Corequisite(s): CIST 1400, MATH 1950 or MATH 1930

CSCI 2240 INTRODUCTION TO C PROGRAMMING (3 credits)
Programming in 'C' in a UNIX operating system environment; algorithm and program development and file manipulation using 'C'; UNIX-like utility development.
Prerequisite(s)/Corequisite(s): CSCI 1620; Facility w/high-level prog lang like Pascal, Modula, Java, or C++; Ability to design & implement solutions to modest problems.

CSCI 2310 VIDEO GAME DESIGN (3 credits)
The course will cover game design and theory techniques used by the gaming industry. This course is designed for students who have gone through the introductory programming course and have an interest in what it takes to design current games.
Prerequisite(s)/Corequisite(s): CIST 1400.

CSCI 2510 INTRODUCTION TO GAME PROGRAMMING (3 credits)
The course will cover programming and development techniques used in a game programming environment. The course is designed for students who have an interest in game programming to be eased into the concepts in a familiar environment.
Prerequisite(s)/Corequisite(s): CIST 1400.

CSCI 2840 C++ & OBJECT-ORIENTED PROGRAMMING (3 credits)
C++ and Object Oriented Programming (OOP) is taught in the UNIX environment. Topics include C++ as a 'Better C,' OOP with C++, classes and data abstraction, operator overloading, inheritance, virtual functions and polymorphism, C++ stream I/O.
Prerequisite(s)/Corequisite(s): CSCI 2240; High-level programming language like Pascal, Java, or C++; solid understanding of pointers & scope; ability to design & implement solutions to modest problems.

CSCI 2850 PROGRAMMING ON THE INTERNET (3 credits)
This course is an introduction to and overview of Internet-based application development focusing on the use of Java, Perl and other server-based programming languages. Software development in the context of the World Wide Web and other Internet services will be emphasized. Internet application development will also be discussed. Other techniques will be covered.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840.

CSCI 2980 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the sophomore level. Topics not covered in the computer science degree program, but suitable for sophomore-level students.
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

CSCI 3100 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya's formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with CSCI 8105, MATH 3100, MATH 8105).
Prerequisite(s)/Corequisite(s): MATH 2030 with a C- or better or MATH 2040 with a C- or better or MATH 2230 with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

CSCI 3300 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with CSCI 8305, MATH 3300, MATH 8305).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor

CSCI 3320 DATA STRUCTURES (3 credits)
This is a core that will cover a number of data structures such as tree, hashing, priority queues and graphs as well as different algorithm design methods by examining common problem-solving techniques. (Cross-listed with CSCI 8325)
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 2030 or MATH 2030. Programming Languages: Java or C++ Topics: Arrays, Pointers, Introductory Lists, Storage Allocation

CSCI 3450 NATURAL LANGUAGE PROCESSING (3 credits)
The course will provide overview of the topics in natural language processing such as word and sentence tokenization, syntactic parsing, semantic role labeling, text classification. We will discuss fundamental algorithms and mathematical models for processing natural language, and how these can be used to solve practical problems. We will touch on such applications of natural language processing technology as information extraction and sentiment analysis. (Cross-listed with CYBR 3450).
Prerequisite(s)/Corequisite(s): Prerequisite: CSCI 2030; Co-requisite: CSCI 3320; Students should be comfortable w/ scripting (Python will be the language extensively used in natural language processing tools including NLTK). Not open to non-degree graduate students.

CSCI 3510 ADVANCED GAME PROGRAMMING (3 credits)
This course is intended for those with an interest in video game programming. This course introduces the advanced concepts of game programming including 3D programming, game networking, and development of a multiplayer, networked game by learning and using the XNA environment.
Prerequisite(s)/Corequisite(s): CSCI 2510 and CSCI 3320 or Instructor permission. Not open to non-degree graduate students.

CSCI 3550 COMMUNICATION NETWORKS (3 credits)
This course is designed to bring students up to the state of the art in networking technologies with a focus on Internet. It will cover the principles of networking with an emphasis on protocols, implementations and design issues. (Cross-listed with CSCI 8555)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325. Data structures and algorithms. C or C++ programming.

CSCI 3660 THEORY OF COMPUTATION (3 credits)
The course is intended to introduce the students to the theory of computation in a fashion that emphasizes breadth and away from detailed analysis found in a normal undergraduate automata course. The topics covered in the course include methods of proofs, finite automata, nondeterminism, regular expressions, context-free grammars, pushdown automata, no-context free languages, Church-Turing Thesis, decidability, reducibility, and space and time complexity.
Prerequisite(s)/Corequisite(s): CSCI 3320
CSCI 3710 INTRODUCTION TO DIGITAL DESIGN AND COMPUTER ORGANIZATION (3 credits)
The course is intended to introduce the students to the topics found in introductory digital design and computer organization classes.

Prerequisite(s)/Corequisite(s): CSCI 3320 (could be taken concurrently)

CSCI 3830 ADVANCED JAVA PROGRAMMING (3 credits)
This course teaches students Web-based programming techniques in the Java programming language. It begins with programming using traditional models such as the client-server model and then transitions to advanced programming paradigms including middleware programming using RMI and CORBA, the distributed JINI/JavaSpaces model, the peer-to-peer networking model and the agent-based programming model.

Prerequisite(s)/Corequisite(s): CSCI 1620

CSCI 3850 FOUNDATIONS OF WEB SEARCH TECHNOLOGIES (3 credits)
This course provides students a basic understanding of how search and information flow works on the web. Main topics include: document representation, inverted indexing, ranking of web search results, vector-space model, web graph, PageRank, search-based advertising, information cascades, and web crawling.

Prerequisite(s)/Corequisite(s): CSCI 2030 and CSCI 2850, or instructor Approval. Not open to non-degree graduate students.

CSCI 4000 ASSESSMENT (0 credits)

This course provides various resources to students about to graduate, and provides a mechanism that guarantees these students complete the final assessments required to maintain the currency and quality of the program. It is intended for undergraduate computer science majors in their last semester prior to graduation. It is required for all students entering after the spring 2004 semester. All degree requirements should be completed by the end of the semester during which this course is taken. Students taking this course will be expected to file an application for graduation during the semester.

Prerequisite(s)/Corequisite(s): All degree requirements should be completed by the end of the semester during which this course is taken. Students taking this course will be expected to file an application for graduation during the semester.

CSCI 4010 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with MATH 4010, MATH 8016, CSCI 8016).

Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor's permission

CSCI 4100 INTRODUCTION TO ALGORITHMS (3 credits)
The course provides students a basic understanding of algorithm analyses. Main topics include: growth of functions, asymptotic notation, recurrences, divide and conquer, sorting and its lower bounds, dynamic programming, greedy algorithms, and graph traversal.

Prerequisite(s)/Corequisite(s): CSCI 3320.

CSCI 4150 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 8156, MATH 4150, MATH 8156).

Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor.

CSCI 4220 PRINCIPLES OF PROGRAMMING LANGUAGES (3 credits)
This course covers the foundational concepts and principles underlying the design and implementation of programming languages. Language constructs including assignment, equality, references, aggregations, scope, encapsulation, and parameter passing are discussed. A central theme is how a particular language construct relates to the concept of equational reasoning (referential transparency). Formal notations for describing syntax and semantics are presented.

Prerequisite(s)/Corequisite(s): CSCI 3320, CSCI 3660

CSCI 4250 HUMAN COMPUTER INTERACTION (3 credits)
Human computer interaction is concerned with the joint performance of tasks by humans and machines; human capabilities to use machines (including learnability of interfaces); algorithms and programming of the interface; engineering concerns that arise in designing and building interfaces; the process of specification, design, and implementation of interfaces; and design trade-offs. (Cross-listed with CSCI 8256).

Prerequisite(s)/Corequisite(s): CSCI 4830 (may be taken concurrently). Knowledge of object-oriented programming concepts. Demonstrated fluency in any visual programming language.

CSCI 4260 USER INTERFACE DESIGN AND DEVELOPMENT (3 credits)
Graphical user interface (GUI) design is concerned with the application of user-centered design principles to graphical computer interfaces. Topics include user-centered design, establishing usability criteria and measures, usability testing, psychology of the user, rapid prototyping, iterative design and design tools. This course is an extension and application of its prerequisite, Human Computer Interaction. (Cross-listed with CSCI 8266).

Prerequisite(s)/Corequisite(s): CSCI 4250 or instructor's permission. CSCI 4830, Knowledge of object-oriented programming concepts, Visual programming language.

CSCI 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 8306, MATH 4300, MATH 8306).

Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor.

CSCI 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations research models and algorithms. Topics include Markov chains, queuing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 8316, MATH 4310, MATH 8316).

Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

CSCI 4350 COMPUTER ARCHITECTURE (3 credits)
The course deals with: processor design different instruction set architectures; memory hierarchy; input output organization and communication; and an introduction to parallel architecture. Analytic study of design alternatives for each of the above topics will be covered. The course is designed primarily for third year students in Computer Science.

Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320 or CSCI 8325.
CSCI 4380 COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction and documentation of computer evidence stored on a computer. This course takes a technical, legal, and practical approach to the study and practice of incident response, computer forensics, and network forensics. Topics include legal and ethical implications, duplication and data recovery, steganography, network forensics, and tools and techniques for investigating computer intrusions. This course is intended as a second course in information assurance for undergraduate students as well as other qualified students. It is also intended as a foundation course for graduate digital forensics studies. (Cross-listed with CYBR 4380, CYBR 8386).
Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3550 or ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.

CSCI 4440 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
Need for higher-performance computers. Topics discussed include: classification of parallel computers; shared-memory versus message passing matchings; for ms of parallelism, measure of performance; designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel computers. (Cross-listed with CSCI 8446)
Prerequisite(s)/Corequisite(s): CSCI 4500 which may be taken concurrently.

CSCI 4450 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3 credits)
An introduction to artificial intelligence. The course will cover topics such as machine problem solving, uninformed and informed searching, propositional logic, first order logic, approximate reasoning using Bayesian networks, temporal reasoning, planning under uncertainty and machine learning. (Cross-listed with CSCI 8456).
Prerequisite(s)/Corequisite(s): CSCI 3320

CSCI 4470 PATTERN RECOGNITION (3 credits)
Prerequisite(s)/Corequisite(s): CSCI 1620, and MATH 2050. Recommended: MATH 4740/8746 or STAT 3800/8805.

CSCI 4480 ALGORITHMS FOR ROBOTICS (3 credits)
This course provides an introduction to software techniques and algorithms for autonomously controlling robots using software programs called controllers. Students will be taught how to program and use software controllers on simulated as well as physical robots. (Cross-listed with CSCI 8486).
Prerequisite(s)/Corequisite(s): CSCI 3320. CSCI 4450/8456 is a recommended but not essential pre-requisite.

CSCI 4500 OPERATING SYSTEMS (3 credits)
Operating system principles. The operating system as a resource manager; I/O programming, interrupt programming and machine architecture as it relates to resource management; memory management techniques for uni- and multiprogrammed systems; process description and implementation; processor management (scheduling); I/O device, controller, and channel management; file systems. Operating system implementation for large and small machines. (Cross-listed with CSCI 8506).
Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320/8325, MATH 1950, and CSCI 4350/8356

CSCI 4510 ADVANCED OPERATING SYSTEMS (3 credits)
State-of-the-art techniques for operating system structuring and implementation. Special purpose operating systems. Pragmatic aspects of operating system design, implementation and use. (Cross-listed with CSCI 8516)
Prerequisite(s)/Corequisite(s): CSCI 4500

CSCI 4560 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 8566, MATH 4560, MATH 8566).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor

CSCI 4620 COMPUTER GRAPHICS (3 credits)
An introduction to the acquisition, manipulation and display of graphical information using digital techniques. Topics include discussion of the various hardware devices used for input and output, the classical algorithms and data structures used in manipulation of graphical objects, the user interface to the graphics system, and applicable standards. (Cross-listed with CSCI 8626).
Prerequisite(s)/Corequisite(s): ISQA 3300 or CSCI 3320

CSCI 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation, and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 8666, MATH 4660, MATH 8666).
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/8325.

CSCI 4700 COMPILER CONSTRUCTION (3 credits)
Assemblers, interpreters and compilers. Compilation of simple expressions and statements. Analysis of regular expressions. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation and error diagnostics. (Cross-listed with CSCI 8706).
Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 4220. Recommended: CSCI 4500.

CSCI 4760 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. (Cross-listed with CSCI 8766, MATH 4760, MATH 8766).
Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

CSCI 4830 INTRODUCTION SOFTWARE ENGINEERING (3 credits)
Basic concepts and major issues of software engineering, current tools and techniques providing a basis for analyzing, designing, developing, maintaining and evaluating the system. Technical, administrative and operating issues. Privacy, security and legal issues. (Cross-listed with CSCI 8836).
Prerequisite(s)/Corequisite(s): CSCI 3320.

CSCI 4850 DATABASE MANAGEMENT SYSTEMS (3 credits)
Basic concepts of database management systems (DBMSs). The relational, hierarchical and network models and DBMSs which use them. Introduction to data base design. (Cross-listed with CSCI 8856).
Prerequisite(s)/Corequisite(s): CSCI 3320
CSCI 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with ISQA 4890).
Prerequisite(s)/Corequisite(s): ISQA 3310 or CSCI 4850

CSCI 4900 INTERNET SYSTEMS DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. This is a rapidly moving, hands-on course that mirrors real-world development of internet-based applications.
Prerequisite(s)/Corequisite(s): CSCI 1620, CSCI 2850, (recommended) CSCI 3830, CSCI 4830.

CSCI 4950 INTERNSHIP IN COMPUTER SCIENCE (1-3 credits)
The purpose of this course is to provide students with opportunities to apply their academic studies in non-academic environments such as those found in business, industry and other non-academic organizations. The student intern will sharpen their academic focus and develop better understanding of non-academic application areas. The course is intended primarily for juniors and seniors in computer science.
Prerequisite(s)/Corequisite(s): Permission of the computer science program chair.

CSCI 4970 CAPSTONE PROJECT (3 credits)
The Capstone Project completes a Computer Science student's undergraduate experience. Students will work on a team-based real-world project, practicing software engineering skills and applying fundamental computer science principles acquired throughout their undergraduate study.
Prerequisite(s)/Corequisite(s): CSCI 4830; Senior standing in Computer Science. Not open to non-degree graduate students.

CSCI 4980 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the senior level. Topics not normally covered in the computer science degree program, but suitable for senior-level students. (Cross-listed with CSCI 8986).
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

CSCI 4990 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research type projects. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the Computer Science Undergraduate Program Committee at least three weeks prior to registration.
Prerequisite(s)/Corequisite(s): Written permission required.

Computer Science, Bachelor of Science
The Bachelor of Science in Computer Science provides students with a solid background in fundamentals of computing and prepares them for employment in a wide variety of positions and for graduate study in computer science. The content of the department's courses is continually monitored to ensure they are consistent with fast-changing developments in the discipline. Courses are offered in day and evening sections for the convenience of our students. Appropriate university and departmental computing resources are available to students taking computer science courses.

Student Group
The Association of Computer Machinery (ACM) is a major force in advancing the skills of information technology professionals and students worldwide, providing the industry's leading portal to computing literature and more.

Requirements
A minimum of 120 credit hours is required for a Bachelor of Science degree in Computer Science (BSCS). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BSCS, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

**Computer Science Core Extension Courses**

See "Computer Science Core Extension Courses" below. 21

Total Credits 85-86

1. NOTE: CSCI 1200 and CSCI 1204 count toward the Natural and Physical Sciences requirement.
2. NOTE: CIST 2100 counts toward Social Science requirement.
3. NOTE: CIST 3110 counts toward Humanities requirement.

**MFT - Major Field Test** - The Computer Science Department uses the MFT to statistically compare our graduates to graduates from other institutions of higher education nationwide. The test consists of 60 multiple-choice questions. Individual scores on the MFT give an effective metric to measure levels of achievement and allow students to compare their scores with national comparative data. The Computer Science Department uses the scores to assist in its ongoing, detailed curriculum review and evaluation. All results are confidential.

**Computer Science Core Extension Courses (21 hours)**

Various core extensions and areas of emphasis for the Computer Science Core Extension may be taken to form an area of specialization, such as the Information Systems Engineering track. A core extension of at least 21 semester hours must be completed to obtain the Bachelor of Science degree in Computer Science. At least 12 of the 21 hours selected must be approved upper-division computer science courses (courses with numbers of 3000 or higher). The remaining hours must be in an area of emphasis consistent with the computer science degree. They may include additional upper-division computer science courses or courses selected from a different academic area.

- 12 credit hours must be upper-division (3000-) Computer Science courses
- 9 credit hours must be related courses and can be selected from 2000 to 4000 level courses

**Computer Science Upper-Division Courses (12 hours)**

**Writing in the Discipline**

All UNO students are required to take a writing in the discipline course within their major. Computer Science degree students must take CIST 3000.

**Computer Science Elective Tracks and Concentrations**

Students may incorporate one of the elective tracks or one of the concentrations below as their Core Extension focus.

**Computer Science (CSCI) Tracks**

- Software Engineering Track (http://catalog.unomaha.edu/undergraduate/college-information-science-technology/computer-science/software-engineering-track)
- Computer Networking and Communications Track (http://catalog.unomaha.edu/undergraduate/college-information-science-technology/computer-science-networking-and-communications-track/)

- Computer Science Major Concentrations (http://catalog.unomaha.edu/undergraduate/college-information-science-technology/computer-science-major-concentration)
technology/computer-science/computer-science-bs/computer-
networking-communications-track)

- Information Systems Engineering Track (http://catalog.unomaha.edu/
  undergraduate/college-information-science-technology/computer-
  science/computer-science-bs/information-systems-engineering-track)

- Internet and Intranet Software Application Development Track (http://
catalog.unomaha.edu/undergraduate/college-information-science-
technology/computer-science/computer-science-bs/internet-intranet-
software-application-development-track)

Core Extension Elective Tracks from Other Academic Areas

- Mathematics (MATH) Track (http://catalog.unomaha.edu/
  undergraduate/college-information-science-technology/computer-
  science/computer-science-bs/mathematics-track)

- Computer and Electronics Engineering (CEEN) Track (http://
catalog.unomaha.edu/undergraduate/college-information-science-
technology/computer-science/computer-science-bs/computer-
electronics-engineering-track)

- Information Systems & Quantitative Analysis (ISQA) Track (http://
catalog.unomaha.edu/undergraduate/college-information-science-
technology/computer-science/computer-science-bs/information-
systems-quantitative-analysis-track)

Other Elective Areas

Other elective areas may be acceptable. The entire core extension
must be approved by the Computer Science Undergraduate Program
Committee (UPC), and should be submitted at the end of the sophomore
year. Completed core extension proposals should be turned into the IS&T
Undergraduate Advising Office in PKI 170. Allow at least one month to
receive a response from the UPC.

Optional Concentrations or Electives

Optional Concentrations or Electives (*some courses may apply
towards the CS core extension area)

See your advisor for more information on this option.

- Game Programming Concentration (http://catalog.unomaha.edu/
  undergraduate/college-information-science-technology/computer-
  science/computer-science-bs/game-programming-concentration)

- Internet Technologies (IT) Concentration for Computer Science Majors
  (http://catalog.unomaha.edu/undergraduate/college-information-science-
technology/computer-science/computer-science-bs/internet-
technologies-IT-concentration-computer-science-majors)

- Information Assurance Concentration (http://catalog.unomaha.edu/

</table>
when they have completed their junior year in the College of IS&T. Students will be eligible for admission to the integrated degree program while completing their undergraduate degree. Students interested in this option will work closely with an advisor and a faculty mentor to develop an integrated plan of study.

In all cases, students are responsible for completing any courses identified as prerequisites or co-requisite for the courses in the minor.

### Information Systems and Quantitative Analysis

The study of Information Systems and Quantitative Analysis involves application of computers, mathematics, statistics, and other quantitative techniques in the solution of a wide variety of business problems. While computer science often concentrates on building the computer tools which make computers useful, it is information systems and quantitative analysis which specifically focuses on effectively applying these tools in the solution of everyday business problems.

The discipline of information systems (IS) includes the acquisition, deployment and management of information systems resources. IS encompasses the development, implementation and management of computers, communications and data for organization-wide systems as well as departmental and individual technology systems. It also includes the responsibility for acquiring new information technology and incorporating it in the organization’s strategy, planning and practices.

IS also includes the development and evolution of organizational infrastructure and systems to support organizational processes by applying methods, techniques and technology. The creation of information systems requires innovative and quality human machine systems and interfaces as well as recognition of socio-technical design issues and change management.

### Accreditation Information

The Bachelor of Science in Management Information Systems has been accredited by the Computing Accreditation Commission of ABET, Inc., the recognized accreditor of college and university programs in applied science, computing, engineering, and technology. ABET accreditation demonstrates a program’s commitment to providing its students with a quality education.

More information about the College’s accreditation and learning objectives can be found online at [http://www.ist.unomaha.edu/?p=about/abetaccred](http://www.ist.unomaha.edu/?p=about/abetaccred). Specific program educational objectives for the ABET accredited programs in Management Information Systems can also be found on the following Web page: [http://www.ist.unomaha.edu/?p=about/abetaccred](http://www.ist.unomaha.edu/?p=about/abetaccred).

### Other Information

#### Admissions

#### Integrated Undergraduate/Graduate Track (IUG) in Management Information Systems

The IUG track is a 144-hour undergraduate-graduate option that allows eligible students to work toward the MS in MIS degree requirements while completing their undergraduate degree. Students interested in this option will work closely with an advisor and a faculty mentor to develop an integrated plan of study.

### General Guidelines

#### Time of Admission to the Program

Students will be eligible for admission to the integrated degree program when they have completed their junior year in the College of IS&T. Students can apply for consideration in the last part of their junior year. Student will start taking courses in the graduate program in their senior year.

### Joint Admission

Students must apply to and meet admission requirement of the MS in MIS graduate program.

### Plan of Study

In consultation with an adviser and a faculty mentor, students will be required to prepare a plan of study. The plan will cover the entire time period of the program and it will be periodically reviewed with an adviser.

### Advising

Students will present their portfolio and a plan of study in person to the integrated program committee prior to being admitted to the program.

### Tuition charges

Students will be required to pay graduate tuition rates when taking graduate courses.

### Admission Requirements and Procedures

1. Students with junior standing and at least 85-90 hours of completed course work in their undergraduate degree program may apply for admission consideration into the integrated undergraduate/graduate (IUG) track.
2. Interested students will be required to present a “portfolio” of the following credentials.
   a. Three letters of recommendations, at least two from faculty.
   b. Statement of intent—a personal statement about why the student wishes to apply for the IUG track.
   c. Undergraduate transcripts
   d. Other supporting documents (e.g., projects and papers, software, work experience, etc.) should be included where possible.
3. Students are highly encouraged to identify and work with a faculty mentor who knows their background and can champion their application to the IUG track.
4. All applicants will need to meet any other admission requirements established for the MS in MIS program. Other Requirements:
   a. The application to the IUG track will be considered as a complete package and therefore obtaining a high UGPA and/or GMAT/GRE Score is not a guarantee of admission.
   b. Students are allowed to apply up to 12 hours of ISQA 8xx5 or ISQA 8xx6 courses towards the undergraduate degree.

### Student Groups

MISSO - the MIS Student Organization - was founded in 1999 and has been an active part of UNO ever since. In the past few years, MISSO has hosted guest speakers from a variety of information systems-related companies and organizations. MISSO has also sponsored field trips, workshops, and a variety of social events.

MISSO’s goals are:

- To provide a sense of community and camaraderie among students enrolled in and/or interested in the MIS program.
- To provide MIS students with career development advice and contacts through professional and social events.
- To provide students with presentations by and valuable contacts with professionals in business and industry.

MISSO has a general meeting once a month, usually featuring a guest speaker. In addition, other activities are planned. MISSO membership is open to all UNO and UNL students. Students of all majors who are interested in the field of information systems are invited to join the meetings. [http://www.unomaha.edu/college-of-information-science](http://www.unomaha.edu/college-of-information-science)
and-technology/information-systems-and-quantitative-analysis/student-involvement/index.php

**Contact**
For more information, contact the academic advising office at 402-554-3819.

[Website](http://www.unomaha.edu/college-of-information-science-and-technology/academics/advising.php)

**Writing in the Discipline**
All UNO students are required to take a writing in the discipline course within their major. Management Information Systems degree students must take CIST 3000.

**Degrees Offered**
- Management Information Systems, Bachelor of Science (p. 381)

**Bachelor of Science in Management Information Systems**
The Bachelor of Science in Management Information Systems (BIS) degree will provide the students with the educational background for pursuing an exciting career in applying computers in business and government to process data and solve a wide variety of business problems. The computer is an important tool, which processes information for management decision-making.

Managers can be more effective and efficient when assisted by computer-based information systems. The student will learn how the computer can be applied to produce information both for controlling the day-to-day operations of a business and for planning for the future of that business. Information systems and quantitative analysis produces the educational background appropriate for pursuing career opportunities in business data management, management information systems, information centers, systems analysis, systems design, decision support, information security, electronic commerce, and other related areas.

A minimum of 120 credit hours is required for the degree. Thirty of the last 36 hours required for the degree must be registered for and carried at UNO. Registration in courses without having taken the stated prerequisites could result in administrative withdrawal. To obtain a BIS a student must fulfill certain university, college and departmental requirements listed below.

**Integrated Undergraduate/Graduate Track (IUG) in Management Information Systems**
The department of Information Systems and Quantitative Analysis offers an Integrated Undergraduate/Graduate Track which allows dedicated students to complete the BS and in MIS undergraduate degree and the MS in MIS graduate degree in five years. The primary purpose of UNO’s College of IS&T’s integrated undergraduate/graduate (IUG) track in MIS is to provide outstanding students in the College of IS&T an option to complete the BS undergraduate degree in MIS and the MS graduate degree in MIS in five years (144 total hours). The IUG program is designed for dedicated students who are motivated and willing to take on early the challenges relating to graduate education. As such, the program involves both intensive study and preparation in the MIS field. Interested students are encouraged to meet with their adviser to find more information about this track.

**Second Baccalaureate Degree**
A student who has met the degree requirements for a BS in MIS at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second, (different), degree. In particular, students interested in obtaining a Bachelor of Science in Business Administration should plan early in their academic career with an adviser to reduce the number of hours needed to accomplish this task. ISQA, in conjunction with the College of Business Administration, has developed a set of courses, which can satisfy requirements in each college. The two baccalaureate’s degrees may be awarded simultaneously when the student becomes eligible to receive them.

**Minors Offered**
- Management Information Systems Minor (p. 384)
- Management Information Systems for Accounting Majors Minor (p. 385)
- Enterprise Resource Planning (ERP) Systems for Business Majors Minor (p. 385)

**Minor in Management Information Systems**
A minor in management information systems may be obtained by completing ISQA 3310, ISQA 3910 and ISQA 4110, plus three hours of upper-division information systems and quantitative analysis courses in management information systems. A grade of “C-” or better is required in each course applied toward this minor in management information systems.

**Minor in Management Information Systems for Accounting Majors**
Courses have been approved by the departments of ISQA and Accounting as specifically relevant to students in the accounting area. The prerequisites are consistent with course requirements of accounting students.

**Minor in ERP Systems for Business Majors**
Enterprise Resource Planning (ERP) systems such as SAP, PeopleSoft or Oracle are used to integrate internal and external management of information across an entire organization-embracing finances/accounting, manufacturing, sales and service, customer relationship management, etc. The purpose of ERP is to facilitate the flow of information between all business functions inside the boundaries of the organization and manage the connections to outside stakeholders. The college of IS&T offers a verity of courses that utilize ERP systems as a technology platform to apply course concepts.

**Certificates Offered**
- Information Technology Administration Certificate (http://catalog.unomaha.edu/undergraduate/college-information-science-technology/information-systems-quantitative-analysis/information-technology-administration-certificate)

Undergraduate certificates allow the college of IS&T to offer a path for individuals who do not hold a baccalaureate to advance their education along a focused, professional-orientated course of study and to have those studies acknowledged, documented, and later (should the student so desire) to a related bachelor’s degree program.

The goal of the certificate is to provide non-traditional and traditional students an opportunity to take a focused set of undergraduate courses and earn a certificate of completion. Prospective students in the workplace who have only an Associate Degree would benefit from advanced certifications in targeted areas. Such certifications fit with organizational professional development requirements and could be used, at the discretion of the organization, as professional development units (PDUs).
Data Management

Data Management (DM) is the practice of managing data-related issues for organizations. Data management practitioners seek to optimize the design, storage, and use of organizational data.

Systems Development

Systems Development practitioners seek to optimize the design, implementation, and use of information systems for organizational purposes.

Information Technology Administration

The undergraduate certificate in Information Technology (IT) Administration is designed for students who are interested in managing the complex technical infrastructure of today's organizations and is offered in partnership with University of Agder in Norway (UiA), a sister university to UNO. The certificate consists of 14 credit hours of hands-on courses, covering such areas as systems administration, network administration, database administration, security administration, and distributed systems. All courses will be offered online. Students will take courses taught by both UNO and UiA instructors and will have the opportunity to work with students residing in a country other than their own.

ISQA 2000 SPECIAL TOPICS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (1-5 credits)
The course content and topic will vary. Please contact the ISQA department office for specific course offerings.
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 3150 PRINCIPLES OF QUANTITATIVE ANALYSIS (3 credits)
An introduction to structuring real-life situations into mathematical models. The class covers four groups of decision making models: decision trees, inventory, linear programming, network planning, and winning strategy. A number of the existing commercial computer software packages will be used in the course.
Prerequisite(s)/Corequisite(s): CIST 2500

ISQA 3300 FILE STRUCTURES FOR INFORMATION SYSTEMS (3 credits)
The purpose of this course is to introduce the student to computer file organizations and access methods. A fundamental understanding of the performance implications of each file organization is developed to allow the students to make information systems design choices that will optimize the performance of business information systems.
Prerequisite(s)/Corequisite(s): CSCI 1620

ISQA 3310 MANAGING THE DATABASE ENVIRONMENT (3 credits)
Introduction to business database design and management functions. The focus is on the use of current database management systems (DBMS) to support the data management function of an organization. Topics include data modeling, database design, SQL, data management and database administration. Hands-on experience in database design, creation, and use is provided.
Prerequisite(s)/Corequisite(s): CIST 2100.

ISQA 3400 BUSINESS DATA COMMUNICATIONS (3 credits)
Data Communications principles and service operations with computers and telecommunications systems for operational analysis and decision making. This course will focus on breadth, not depth – concepts rather than specific technologies because concepts remain constant over time, while technologies change from year to year. Students are expected to master the basic terminologies and concepts, not necessarily to become experts in computer networking, nor to know the engineering details of any technology.
Prerequisite(s)/Corequisite(s): CIST 2100

ISQA 3420 MANAGING IN A DIGITAL WORLD (3 credits)
This course introduces the fundamentals of information systems/technology (IS/T) management. Students are introduced to the various roles, responsibilities, skills, and concepts essential to successful management of IS/T in the context of a dynamic environment of technology workforce diversity, a global economy, and concern for ethics and social responsibility in the development of systems.
Prerequisite(s)/Corequisite(s): CIST 2100
Distribution: Global Diversity General Education course

ISQA 3520 GRAPHICAL USER INTERFACE DESIGN (3 credits)
This course is an introduction to interaction design with a primary emphasis on designing usable and useful computer interfaces. Students will learn the principles of interface design grounded in a fundamental understanding of human cognitive processes. They will learn how end-users develop and use mental models of interaction and will apply this knowledge to the design of interfaces for real-world applications. A design project will challenge students to plan their own designs, to develop interfaces and to integrate them into a working application prototype, to test their application with real users, and to effectively communicate the overall results. (Cross-listed with ISQA 8525)
Prerequisite(s)/Corequisite(s): CIST 1300

ISQA 3910 INTRODUCTION TO PROJECT MANAGEMENT (3 credits)
This course will cover the basics of project planning, scheduling and control. Earned value management techniques and project quality will be covered. Risk management will also be covered. The student will be introduced to the IEEE Standards for Project Management. The purpose of the course is to provide students with an introduction to the tools and techniques used to manage projects to achieve successful completion. The project management methods taught are suitable for a wide variety of project types such as software development or engineering projects (e.g. construction).
Prerequisite(s)/Corequisite(s): CIST 2100; or equivalent.

ISQA 4000 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ISQA 8086)
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 4010 BUSINESS INTELLIGENCE (3 credits)
The course focuses on the various topics on knowledge management by utilizing both behavioral approaches and information technology tools. It includes data collection and analysis, intelligent agents, business concerns on data warehousing and data mining, customer relationship management. The course will also cover information overload, human expert systems vs. artificial intelligent systems and intelligent decision making.
Prerequisite(s)/Corequisite(s): CIST 1400; CIST 2500

ISQA 4100 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
This course examines the frameworks and tools used to develop an organization's information system architecture. It provides the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information system architecture. (Cross-listed with ISQA 8106)
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 3310

ISQA 4110 INFORMATION SYSTEMS ANALYSIS (3 credits)
This course examines and applies the principles of information systems analysis, following a structured systems development methodology. It surveys project management, feasibility and analysis and systems requirement definition using modern systems analysis techniques and automated tools. Course utilizes a case approach where students initiate the analysis and logical design of a limited-scope information system.
Prerequisite(s)/Corequisite(s): CIST 2100, ISQA 3910 and ISQA 3310 prior to or concurrent.
ISQA 4120 SYSTEM DESIGN AND IMPLEMENTATION (3 credits)
This is the second course in a sequence in computer information systems analysis, design, and implementation. This course extends the basic foundations of systems development started in ISQA 4110 and examines the activities comprising the design, construction and implementation of information systems.
Prerequisite(s)/Corequisite(s): ISQA 3310 and ISQA 4110

ISQA 4130 INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social and human development. In this service-learning course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. (Cross-listed with ISQA 8136)
Prerequisite(s)/Corequisite(s): Though not required, the following courses or their equivalent would provide the necessary background : CIST 1100, CIST 1300, ISQA 3210, ISQA 3310, ISQA 3400. Not open to non-degree graduate students.

ISQA 4150 ADVANCED STATISTICAL METHODS FOR IS&T (3 credits)
This course emphasizes the application and interpretation of statistical methods including design of experiments, analysis of variance, multiple regression, and nonparametric procedures and the use of statistical computer packages. The intent is to develop quantitative abilities needed for quantitatively intensive jobs and for advanced study in management information systems, computer science and information technology. (Cross-listed with ISQA 8156)
Prerequisite(s)/Corequisite(s): CIST 2500 or equivalent, at least one course in statistics, and an understanding of basic calculus (a calculus review will be conducted at the beginning of class).

ISQA 4160 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross functional nature of ERP software. In the process of learning about ERPs, the students develop “hands on” experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 8166, SCMT 4160)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

ISQA 4180 ELECTRONIC COMMERCE (3 credits)
Critical examination of the issues, technologies, standards and business and social implications of electronic commerce in Cyberspace.  
Prerequisite(s)/Corequisite(s): ISQA 3400 or equivalent.

ISQA 4190 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY (3 credits)
Business process reengineering issues are examined. Reengineering concepts and methods are introduced. Additional special project(s) are required. SAP will be introduced. (Cross-listed with ISQA 8196.)
Prerequisite(s)/Corequisite(s): CIST 2500; prerequisite/co-requisite ISQA 4110.

ISQA 4200 INFORMATION AND DATA QUALITY MANAGEMENT (3 credits)
The course primarily focuses on developing an in-depth understanding of Data and Information Quality (DQ and IQ) concepts and issues. On completing this course students will be able to understand and use DQ and IQ. Concepts in Information Systems projects, be able to recognize various patterns of Data and Design Deficiencies in Systems and be able to suggest appropriate DQ and IQ improvement plans in light of known deficiencies in systems. (Cross-listed with ISQA 8206)
Prerequisite(s)/Corequisite(s): CIST 2500 and CIST 2100.

ISQA 4300 DATABASE ADMINISTRATION (3 credits)
This course is designed to give students an applied, practical introduction to database administration. Students will gain an understanding of the functioning of a database management system and its relationship to the computing environment in which it runs. They will learn the concepts, principles, and techniques necessary to carry out such functions as database object creation, storage management, capacity planning, performance tuning, backup and recovery, and security management. Each semester the course will focus on one commercial database management system (DBMS), such as Oracle. (Cross-listed with ISQA 8306)
Prerequisite(s)/Corequisite(s): ISQA 3300, ISQA 3310 or CSCI 4850. Not open to non-degree graduate students.

ISQA 4380 DISTRIBUTED TECHNOLOGIES AND SYSTEMS (3 credits)
The course introduces students to concepts, issues and tools needed to develop distributed computing systems. Topics include distributed systems architecture, middleware, Internet-based systems development, security and performance. Hands-on systems development using current technologies is provided.
Prerequisite(s)/Corequisite(s): ISQA 3310 or equivalent and knowledge of database design and SQL.

ISQA 4500 SPECIAL PROBLEMS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (2-3 credits)
Individual investigation of specific problems in information systems and quantitative analysis and related areas.
Prerequisite(s)/Corequisite(s): Senior and permission of program chair.

ISQA 4510 INFORMATION SYSTEMS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application of their academic studies in the business world to help prepare them for their professional career and to provide a view of the challenges they will face.
Prerequisite(s)/Corequisite(s): Junior/senior standing and permission of department.

ISQA 4590 IT AUDIT AND CONTROL (3 credits)
This course explores organizational and managerial issues relevant to planning and conducting IT audit and control activities. The course covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, and the basic type of controls required in a business system in order to control IT risks. Issues associated with new risks created by the use of the internet for business applications and electronic business are also covered. (Cross-listed with ISQA 8596)
Prerequisite(s)/Corequisite(s): A solid understanding of business foundations such as accounting and introductory auditing and exposure to the IS discipline is essential for success in this course. Permission of instructor is required to enroll.

ISQA 4730 DECISION SUPPORT SYSTEMS (3 credits)
This course examines a set of information systems which specifically support managerial decision makers: Decision Support Systems, Group Decision Support Systems, Executive Information Systems, Data Warehouses, Expert Systems, and Neural Networks. This course explores the development, implementation, and application of these systems, how these systems can be applied to current business problems, as well as how organizational issues impact the implementation and usage of these systems. (Cross-listed with ISQA 8736)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent.
ISQA 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations and studying, understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ITIN 4880)
Prerequisite(s)/Corequisite(s): CIST 1400 and CIST 2500 or equivalent

ISQA 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with CSCI 4890).
Prerequisite(s)/Corequisite(s): ISQA 3310 or CSCI 4850

ISQA 4900 INTERNET SYSTEMS DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. Topics include: Multi-tiered systems architecture; rapid application development; object-oriented analysis and design; prototyping; testing, verification, and validation; lifecycle models; and component-based development. This is a rapidly moving, hands-on course that mirrors real-world development.
Prerequisite(s)/Corequisite(s): CSCI 2850 and CSCI 2830 plus completion of two additional courses within the IT concentration.

Management Information Systems, Bachelor of Science
The Bachelor of Science in Management Information Systems (BIS) degree will provide students with the educational background for pursuing an exciting career in applying computers in business and government to process data and solve a wide variety of business problems. The computer is an important tool, which processes information for management decision making.

Managers can be more effective and efficient when assisted by computer-based information systems. Students in the MIS program will learn how the computer can be applied to produce information both for controlling the day-to-day operations of a business and for planning the future of that business. Information systems and quantitative analysis produce the educational background appropriate for pursuing career opportunities in business data management, management information systems, information centers, systems analysis, systems design, decision support, information security, electronic commerce, and other related areas.

Website (http://www.unomaha.edu/college-of-information-science-and-technology/academics/management-information-systems.php)

Student Group
MIS Student Organization (MISSO)
The Management Information Systems Student Organization (MISSO) was founded in 1999 and has been an active part of UNO ever since.

Requirements
A minimum of 120 credit hours is required for a Bachelor of Science degree in Management Information Systems (BIS). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BIS, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

College of IS&T Core Courses for MIS Majors (21 hours)
The College of IS&T has developed a series of courses that are required for students wishing to obtain a degree from the College. The development and implementation of this core curriculum is unique; it serves as a basis for preparing students to enter more advanced courses. The core curriculum is as follows (students are accountable for prerequisites courses):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>46 hours of University General Education courses (21 hours of which can be satisfied by courses in the required areas below)</td>
<td></td>

1 Note: MATH 1930 counts toward University Math requirement.

### Optional Concentration or Elective/Prerequisite Courses (20 hours)

#### Internet Technologies (IT) Concentration for MIS Majors (18 Hours)

The Internet Technologies (IT) Concentration supplements the Computer Sciences (CS) and Management Information Systems (MIS) curricula by focusing on the expertise needed to implement solutions that involve contemporary Internet technologies and software applications. The concentration is designed to accommodate the differing backgrounds of MIS and CS majors, while providing the necessary knowledge to pursue the IT concentration. The IT concentration provides extensive hands-on, project-based experience for students.

1 NOTE: The ISQA 4000 topic MUST be related to Internet Technologies. Prior approval from the ISQA Undergraduate Program Committee is required prior to taking this course.
Global IT Leadership and Management (18 Hours)
The education and training of globally savvy professionals in science, engineering and information technology (IT) are important for the long-term viability of many American firms today. Future business leaders must:

- appreciate the challenges and opportunities of IT management in the context of 21st century global organizations
- understand the international aspects of IT leadership and management as a basis for integrating a global and multi-cultural view
- learn about the various roles, responsibilities, skills, and concepts essential to being a successful IT manager in the context of a dynamic technological environment, a diverse workforce, a global economy, and a concern for ethics and social responsibility in the development and deployment of systems.

The College of Information Science and Technology (CIST) and UNO’s International Studies and Programs (ISP) have joined to offer an interdisciplinary “Global IT Leadership Management” (GITLM) specialization in both the International Studies (INST) undergraduate program and the CIST undergraduate program in Management Information Systems. The GITLM specialization fosters the integration of technology and internationalization through an interdisciplinary program offered through intercampus collaboration with UNO’s sister universities in Norway, India, Germany, Austria, and China. GITLM will bring a global perspective to the intercampus collaboration with UNO’s sister universities in Norway, India, Germany, Austria, and China. GITLM will bring a global perspective to the

### i-Business Application Development and Management

The i-Business Application Development and Management Concentration is available only to MIS majors and provides students with the technical, organizational, and managerial background to plan, develop, and manage Internet-based applications. The concentration includes courses that give students an understanding of the issues, concepts, and technologies involved in establishing and implementing a corporate strategy for electronic businesses. These courses address issues of organizational strategy, process re-engineering, and information systems architecture support. Students will also learn and apply technical skills needed to develop Internet-based distributed applications.

¹ ISQA 4000: Topic MUST be related to i-Business. Prior approval from the Undergraduate Program Committee is required prior to taking this course.

### Information Assurance Concentration for MIS Majors (18 Hours)

The Information Assurance Concentration supplements and extends the Computer Science (CS) and Management Information Systems (MIS) curricula by focusing on the foundational principles, worked examples, theory, and skills necessary to analyze, design, and construct secure information systems. The courses in the concentration address the fundamental technologies, policies, assurance and ethics involved in the protection of information systems. Hands-on experience is gained through numerous laboratory exercises associated with each course. The
Management Information Systems Minor

Concentration is designed to accommodate students with either CS or MIS backgrounds.

**IT Audit and Control (18 Hours)**

The IT Audit and Control Concentration is available only to MIS majors and provides students with the technical, organizational, accounting/auditing, and managerial background to plan and conduct IT audit and control activities. The concentration covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, basic type of controls required in a business system in order to control IT risks, controls associated with top management, system development, quality assurance, boundary controls, and communications. Issues associated with new system control risks created by the use of the Internet for business applications and electronic business will also be covered in one or more courses. Students learn to apply and integrate technical, managerial and conceptual skills needed to plan and conduct IT audits and establish appropriate controls.

Enterprise Resource Planning (ERP) Systems for Business Majors Minor

Requirements
Enterprise Resource Planning (ERP) systems such as SAP, PeopleSoft and Oracle are used to integrate internal and external management of information across an entire organization, encompassing finances, accounting, manufacturing, sales and service, customer relationship management, etc. The purpose of ERP is to facilitate the flow of information between all business functions inside the boundaries of the organization and manage the connections to outside stakeholders. The College of Information Science and Technology IS&T offers a variety of courses that utilize ERP systems as a technology platform to apply course concepts.

College of Public Affairs and Community Service

The College of Public Affairs and Community Service (CPACS) was established in 1973 to ensure university responsiveness to the critical social needs of the community and state. The college was charged with the mission of providing educational programs of the highest caliber to prepare
students for leadership in public service and reaching out to the community to help solve public problems.

The mission of the College of Public Affairs and Community Service is to:

1. Foster a learning environment in which undergraduate students, graduate students, adult learners and both traditional and nontraditional students can gain a comprehensive and quality education helpful in preparing for careers in their respective fields;
2. Conduct research, especially as it relates to concerns of local and statewide constituencies; and,
3. Offer professional services to the community, including continuing education opportunities designed to further personal, professional, organizational, and community improvement goals.

**Contact Information**

CPACS Deans Office | 109 CPACS
University of Nebraska at Omaha
6001 Dodge Street
Omaha, Nebraska 68182
Phone – 402.554.2276
Fax – 402.554.4871

College Website ([http://cpacs.unomaha.edu](http://cpacs.unomaha.edu))

**General Information**

The College of Public Affairs and Community Service (CPACS) offers undergraduate coursework leading to the Bachelor of Science Degree in aviation, criminology and criminal justice, gerontology, social work, and emergency management. The Division of Continuing Studies administers the Bachelor of Multidisciplinary Studies (BMS) Degree. In addition to its undergraduate degree programs, CPACS offers courses in urban studies, and public administration; the Goodrich Scholarship Program, a specialized program for students with marked financial need; and particular areas of independent study developed in conjunction with other UNO colleges or governmental units.

The College of Public Affairs and Community Service strives to make available to students an interdisciplinary education based on classroom learning, research, and community service. Students are expected to participate in each of these activities.

**Admission to the College of Public Affairs and Community Service**

Students who have been admitted to the University of Nebraska at Omaha may apply for admission into the College of Public Affairs and Community Service by indicating their preference in the appropriate place on the university application for admission. Refer to the section “Division of Continuing Studies” for DCS and Bachelor of Multidisciplinary Studies Degree admission requirements.

Students who wish to transfer into CPACS from another college or school within UNO must request permission from the CPACS Dean’s Office and the department offering the student’s intended major.

A minimum cumulative grade point average (GPA) of 2.5 is required to transfer into CPACS.

The College of Public Affairs and Community Service does not accept undeclared students. Exceptions to this rule are made when the student can demonstrate (by written request) substantial reasons for the undeclared status. Permission is granted by the CPACS Dean.

**Requirements for the Bachelor of Science Degree**

**Total Hours**
Each candidate must present a total of at least 120 credit hours of college credit to meet graduation requirements.

**Quality of Work**
Each candidate for the degree must attain a cumulative GPA of at least 2.0 (“C”) in all college work, including work transferred from other institutions. A grade of at least “C-” must be earned in all required courses within the major, unless a higher grade is designated by the department/unit. All grades reported by the faculty to the registrar become a part of the student’s permanent record and are included in the computation of the grade point average, even though some of these grades may be for work done in excess of the 120 hours required for graduation.

**Residency**
Thirty of the last 36 hours required for the degree must be registered for and carried within the University of Nebraska System.

**General Education Requirements**
All students in a CPACS degree program must meet the university general education requirements. Certain majors/programs in the College of Public Affairs and Community Service require specific foundational coursework that may also count for general education requirements. Review general education requirements for particular majors/programs at the CPACS website ([http://cpacs.unomaha.edu](http://cpacs.unomaha.edu)) or contact an academic advisor.

**English Placement Exam**
See the UNO general education requirements.

**Major Field**
Each student must present a major including at least 15 credit hours of upper division work designated as appropriate by the faculty of the department in which enrolled. A candidate meeting the requirements of each of two fields may present a double major in these fields. Individual departments should be consulted for the number of upper division hours required.

**Acceptability/Transferability of Credits**
All questions concerning the acceptability or transferability of credits earned at other institutions or via programs such as cooperative education and credit by examination should be directed to the department in which enrolled. Credit earned in courses below the 1000 level may not be applied toward the degree offered by the College of Public Affairs and Community Service.

**Prerequisite Courses**
Completion of a course within the major with a grade below a “C-” will not be considered as having fulfilled prerequisite requirements for additional courses taken in the major field of study. A higher grade may be designated by the department/unit.

**Requirements for the Bachelor of Multidisciplinary Studies Degree**
Refer to the section “Division of Continuing Studies” for Bachelor of Multidisciplinary Studies (BMS) Degree requirements.

**Goodrich Scholarship Program**
The Goodrich Scholarship Program is designed to provide scholarship funds and supportive services for students with financial need. The overall intent of the program is to provide a college education for persons who might otherwise find college difficult to afford, while offering them a broad and meaningful experience in general education. The program has a three-pronged approach. It provides 1) financial aid in the form of tuition and fees
toward a bachelor’s degree; 2) a specialized curriculum emphasizing the humanities and the social sciences via a multicultural perspective; and, 3) a comprehensive program of academic support, counseling, and related student services.

**Admission to the Goodrich Scholarship Program**
A composite of selection criteria is used to evaluate both merit and financial need. Criteria include the individual’s application data, financial analysis, academic record, in-person interview, English Placement/Proficiency Exam (EPEP), personal life-experience essay, and references. For more information, contact the Goodrich Scholarship Program:

Goodrich Scholarship Program
123 College of Public Affairs and Community Service
University of Nebraska at Omaha
6001 Dodge Street
Omaha, NE 68182
Phone – 402.554.2274

http://www.unomaha.edu/goodrich/index.php

**Center for Public Affairs Research**
The Center for Public Affairs Research (CPAR) is the major research component of the College of Public Affairs and Community Service. The Center conducts research on a broad range of community problems and issues of local, regional, state, and national concern. In conjunction with CPACS departments, CPAR administers a research internship program designed to give students applied research experience. Students find CPAR a valuable resource for class projects and papers focused on urban and public affairs topics.

**The William Brennan Institute for Labor Studies**
The William Brennan Institute for Labor Studies provides continuing education for a specialized audience. The Institute serves the labor movement state-wide by helping develop citizenship and leadership. Through educational programs, workers gain knowledge and skills to be effective leaders in a democratic labor movement in a democratic society.

**Academic Advising**
The purpose of academic advising within the College of Public Affairs and Community Service is to provide guidance and support to students striving to meet degree requirements. CPACS academic advising is provided at the departmental level. Students are encouraged to communicate with an academic advisor prior to registration each semester and should contact an advisor with any academic program questions. It is especially important for students nearing graduation to consult with an academic advisor to ensure all program requirements are met.

**Academic Amnesty Policy**
Students who have completed one full year of successful coursework at UNO (at least two consecutive semesters of 12 hours each with a 2.5 GPA) or four consecutive semesters (may include summer semester) with a total of 24 or more hours and with at least a GPA of 2.5 or better may petition the CPACS Committee on Academic Standards and Curriculum for removal of all coursework taken during either or both of the first two semesters. This petition is subject to the following stipulations:

- The student shall be at least three years removed from the semester or year to be deleted.
- The student is responsible for initiation of the petition.
- This petition originates with the student’s counselor or academic advisor and is then submitted to the Committee on Academic Standards and Curriculum. Consideration and action by the CPACS Dean is the final step of the process.

- Individuals who apply under this rule may not be considered for degrees with Honors at graduation.
- There shall be no physical obliteration of any part of the student’s record.

**Choice of Catalog Policy**
A student registering in the College of Public Affairs and Community Service for the first time may, except for the limitations described below, complete work for the degree according to the requirements of the catalog in effect the year the student enters the college or the catalog current at the time the student applies for the degree.

Students entering the college for the first time in the summer will be subject to the catalog for the academic year immediately following. Failure to complete the requirements for the degree within seven years after the date the student first enters the college will subject the student to graduation under the requirements of a later catalog to be approved by the Dean. CPACS reserves the right to institute and make effective, after due notice, during the course of a student’s work toward a degree, any new ruling which may be necessary for the general good of the college and to substitute courses currently offered for those no longer offered. Contact a DCS academic advisor for Bachelor of Multidisciplinary Studies Degree catalog information.

**Grade Appeals Procedure**
Students who wish to appeal a grade they believe was capriciously or prejudicially given shall first discuss the matter with the instructor within 30 days of the final course grade being posted. If the matter is not resolved, the student must then meet with the department/school chair or director. If a satisfactory agreement cannot be reached, the student must then appeal, in writing, to the department/school curriculum committee. If a satisfactory agreement cannot be reached, the student may submit a written appeal to the CPACS Dean’s Office within 20 working days of the exhaustion of departmental procedures.

The Committee on Academic Standards and Curriculum for the College of Public Affairs and Community Service is the official body for handling the appeal.

In the event the instructor is unavailable for handling a grade complaint, the student will meet with the department chair and the Dean to determine the most appropriate course of action agreeable to all parties.

**University Honors Program**
The University Honors Program provides expanded educational opportunities for highly motivated students who have demonstrated outstanding academic achievement. Students entering or enrolled in any CPACS undergraduate program may apply for membership in UNO’s Honors Program. For more information, contact the CPACS Honors Coordinator in the CPACS Dean’s Office or a CPACS academic advisor.

**Dean’s List**
Students enrolled in the College of Public Affairs and Community Service who maintain a GPA of 3.5 or better while carrying 12 hours or more of graded course work will earn the distinction of being placed on the Dean’s Honor List at the end of each semester. Part-time students must earn a GPA of 3.5 or better for courses taken at UNO on a continuous part-time basis. These students may be placed on the Dean’s List when they complete course work in 12 semester hour blocks at UNO (i.e., 12, 24, 48, etc.). Continuous part-time basis is defined as taking one or more courses totaling 1-11 semester hours during each fall and spring semester each academic year.
Aviation

College Vision Statement

Mission/Vision
The mission of the Aviation Institute is to:

• provide an environment where students are supported and challenged as they develop the skills, knowledge, and experiences that prepare them for personally and professionally rewarding careers in aviation and transportation;
• conduct research that enhances the safety, security, efficiency, reliability, and sustainability of aviation and transportation services, and improves mobility and quality of life for the citizens of the State of Nebraska;
• engage the community through partnerships and other collaborative initiatives that improve the lives of the citizens of the State of Nebraska and others through innovative education, training, research, and service projects; and
• maintain the highest standards of integrity and transparency in the conduct of the Institute’s business and the management and stewardship of its resources.

Accreditation Information
One of the concentrations in the Bachelor of Science in Aviation, the Air Transport Administration Specialization, is accredited by the Aviation Accreditation Board, International

Program Contact Information
402-554-3424
unoaviation@unomaha.edu

General Information

Admission Requirements
Incoming students who are not considered transfer students are guaranteed admission to the Bachelor of Science in Aviation program upon admission to the University of Nebraska at Omaha. Transfer students who want to complete the Bachelor of Science in Aviation Program must have a cumulative GPA of 2.5 to be accepted into the College of Public Affairs and Community Service. Current UNO students accepted for admission to any of the University’s colleges may enroll in the Institute’s aviation courses for elective credit.

Maximum/Minimum Credits
Students are required to complete a minimum of 120 credit hours to complete a Bachelor of Science in Aviation.

Residency Requirement
n/a default to college

Transfer Credit Policy
See the Academic Advisor

Unacceptable Credits
See the Academic Advisor

Dean’s List
n/a default to college

Honors
Default to College

Quality of Work
For purposes of meeting general education requirements, distribution requirements, and prerequisite requirements for courses, a grade of “C-” performs the role of a grade of “C”, and a grade of “D-” performs the role of a grade of “D”. A minimum grade of “C” (2.0) must be earned in each of the required courses within the major area of study.

Completion of Incomplete Grade
Students who receive instructor permission to take an incomplete must have the incomplete resolved the following semester or the incomplete changes to withdraw. If a student has a question in regard to this policy, they should see their academic adviser for clarification

Repeating Courses

Grade Appeal Policy
n/a Default to College

Probation/Suspension
n/a Default to College

Academic Amnesty
n/a Default to College

Academic Advising
The Aviation Institute offers both academic and career advising to students. The academic adviser is available to assist students in meeting their career requirements and to interpret Institute and university policies regarding academic requirements. Students are encouraged to contact their adviser whenever questions arise concerning their academic program. As a minimum, students should see an adviser before registering for the next semester and review their academic progress, when choosing an area of specialty, and prior to registering for their senior year. The Aviation Institute faculty are also available to discuss career planning, opportunities, and advising. The faculty have a strong connection to the aviation industry and students are encouraged to use the faculty as a resource in determining their career goals. Students are encouraged to make an appointment as a freshman or sophomore with the Aviation Institute faculty to discuss their career path. For more information or to setup and appointment contact the Aviation Institute.

Senior Check
See your Academic Advisor

Application for Degree
Students apply for graduation through Mavlink.

Scholarship and Internship Opportunities
There are several scholarship and internship opportunities available to students within the Aviation Institute. Scholarships for current UNOAI students are awarded annually through an application process. The applications for these scholarships are available in February and are awarded at the Aviation Institute’s annual honors convocation in April. The Aviation Institute also sponsors scholarships for new students through a recruitment scholarship program. Additionally, the Aviation Institute also offers the UNO Advantage Scholarships that provide non-resident students the opportunity to attend UNO at resident tuition rates. Close partnerships with a number of Omaha metro organizations allow for several internship opportunities to current Aviation Institute students each semester. To apply for an internship, students must contact the internship coordinator, CPACS 120. A list of all UNOAI scholarships and internships can be found on the Aviation Institute Web site.
Advanced Simulation Facility

Flight students will use the Advanced Simulation Facility on a regular basis. Simulator fees are built into their student fees and are paid directly to the University of Nebraska at Omaha. The amount of time a student spends in the simulator will vary per semester depending on the flight lab requirements. Students will need to work with the Flight Training Coordinator to provide all necessary TSA documentation in order to use the flight simulators. The Aviation Institute currently has two Redbird MCX Simulators, one motion, one non-motion.

Aviation Resource Center

The Aviation Resource Center is available to all Aviation students. In the Aviation Resource Center, students can utilize the many resources offered to help them achieve academic success. Resources available are: computers for research, testing, and personal use, printing services, FAA Practical Test Study Guides, Gleim Test Prep Software, Jeppesen Study Materials, King CD-Rom Study Courses, free use of PC-ATD simulator, Current Trade Magazines and Publications, Complete AOPA Air Facts DVD Series, Sporty’s Training DVDs, ASA Study Guides, complete collections of Jeppesen Training Videos, current copies of FAA’s FAR/AIM, tutoring, various aviation related referencing textbooks, ASA-JSCH PP2 headsets, Garmin 396, and a Garmin 295.

In addition, the Aviation Resource Center is a LaserGrade certified FAA Testing Center, where students can take FAA Practical Exams.

Financial Aid

Students should apply for financial aid immediately upon acceptance to UNO and at the beginning of each calendar year thereafter. Priority is given to applicants who apply early. Additional financial aid may be available to qualified students to pay for the added cost of flight training. See the Aviation Institute academic adviser for information regarding additional financial aid for flight training. Flight training is optional and not required for students working toward the Air Transport Administration concentration.

Graduate Programs

The Aviation Institute offers a concentration in aviation in both the MPA and the Ph.D. in public administration. Contact the Academic Program Coordinator in the School of Public Administration for more information about either of these options.

Language Fluency

International and other students enrolling in the Aviation Institute for whom English is not their primary language will be required to be sufficiently fluent in English as a second language. This requirement is particularly critical for successfully completing the flight training portion of the Institute’s curriculum.

Degrees Offered

- Aviation, Bachelor of Science (p. 393)

Overview of Degree Programs

Air Transport Administration Concentration

The Air Transport Administration area of concentration is conferred under the Bachelor of Science in Aviation degree program. This option is oriented toward the public/private sector interface of individuals looking for administration careers. Potential career opportunities exist within the Federal Aviation Administration, Transportation Security Administration, National Transportation Safety Board, state aviation organizations, local and regional aviation organizations, airport administration, fixed-based operators, aviation consulting firms, airline operations, flight department operations, aircraft manufacturing companies, aviation marketing firms, and non-profit organizations such as Aircraft Owners and Pilot Association, National Business Aviation Association, and the Experimental Aircraft Association. The Air Transport Administration specialization gives the student the opportunity to gain knowledge in several aspects of the aviation and aerospace industry. Students will take specific classes in areas of general aviation, airport planning, statistical analysis, security, and airline operations. Students will also have the opportunity to become involved in an internship or cooperative education experience. This experience will expose students to working in an area that relates to their potential career path; both local and national programs are available. Students who are looking to work in these highly competitive and regulated areas should choose the Air Transport Administration specialization program for their course of study.

Professional Flight Concentration

The Aviation Institute offers flight training from private pilot to certified flight instructor. Flight training is closely coordinated through local flight schools. Students who successfully complete any of the training under UNO requirements courses will receive appropriate academic credit. The Aviation Institute’s Professional Flight curriculum is approved by the FAA to grant the Restricted Airline Transport Pilot (R-ATP) authorization to graduates. With the R-ATP, a pilot can be hired by a FAA Part 121 scheduled airline at age 21 with 1,000 flight hours versus at age 23 and 1,500 flight hours. Students who plan on enrollment in a flight training course should be able to successfully complete a first class aviation medical examination conducted by an FAA designated Aviation Medical Examiner in accordance with Federal Aviation Regulation Part 67, Medical Standards and Certification. Flight costs are paid directly to the flight provider where you conduct your training and are in addition to regular University tuition and fees. Approximate costs for flight training are available in the Aviation Student Handbook. Costs for each training phase are based on the average number of hours required by the FAA for that particular phase. If a student requires additional flying or ground training to complete a particular training phase course, the student will be obligated to pay for the extra training. Additional financial aid is available for flight training, but does not cover 100% of flight training costs.

Flight training schedules are arranged by the student and flight instructor at each flight center. Students are responsible for contacting the flight training provider and establishing a schedule that will allow for completion of course requirements within the time allowed. It is suggested that students plan to fly three times a week. Instructors are available day, night, and weekends. For a current list of flight providers, see the Aviation Institute Web site at ai.unomaha.edu (http://ai.unomaha.edu). Consult with an aviation academic adviser for additional information.

Minor in Aviation

An aviation minor is available to students who are interested in achieving an associated aviation background to supplement their major area of study. The aviation minor has been developed as an interdisciplinary program to broaden the educational opportunities for UNO students. Consistent with the current and future demands of the aviation industry is the need for quality educated and trained professionals from a variety of disciplines. This program will provide the aviation foundation to prepare a student from any major to meet those needs as a professional in an aviation-related field.

A minor in aviation requires a minimum of 18 credit hours, including at least nine hours of upper-level aviation courses. A minimum grade of “C-” is required in each course. The minor can complement any major at the University of Nebraska at Omaha and has been a popular choice among students in criminology and criminal justice, computer science, international studies, geography, public administration, management and marketing.

For the minor to appear on the student’s transcript, it must be declared by completing the minor application at the Aviation Institute. To obtain additional information about the minor options and to develop a plan of study, students should contact an academic adviser from the Aviation Institute, Room 120, CPACS Building, 402-554-3424.
AVN 1000 INTRODUCTION TO AVIATION AND AEROSPACE (3 credits)
This course provides a broad understanding of all aspects of the air transportation and aerospace industries. Lectures will cover what has happened in the industry to date, with emphasis on present and future developments in air transportation. The course will include the impact the airline industry is making on airports and other segments of aviation and aerospace.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

AVN 1020 PRIVATE PILOT THEORY (3 credits)
This course will familiarize the student with theories associated with flight. These include aerodynamics, weather, FAA regulations, navigation, airports, airspace and aviation safety. There is no flight requirement associated with this course.

AVN 1024 PRIVATE PILOT FLIGHT LABORATORY (1 credit)
This laboratory course is designed for students pursuing flight requirements for the FAA private pilot certificate. The student will complete all flight requirements for solo flight. Course will include flight in aircraft simulators and single-engine aircraft. Class is conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): Completion of or concurrent enrollment in AVN 1020, or successful completion of the FAA Private Knowledge Test.

AVN 1030 PRIVATE PILOT FLIGHT CERTIFICATE (2 credits)
This course will prepare the student for the FAA practical flight examination for the private pilot certificate. Course involves flight in personal computer assisted training device and single-engine aircraft. Student is required to successfully complete all FAA certification requirements and obtain a private pilot certificate. Classes will be conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 1020 and AVN 1024.

AVN 1040 HISTORY OF AVIATION AND AEROSPACE (3 credits)
The course introduces students to the history of aviation and aerospace with emphasis on the evolution of technologies, policies, business models, and transportation.
Distribution: Social Science General Education course

AVN 1160 AVIATION SAFETY (3 credits)
This course provides the student with a detailed introduction to aspects of aviation safety as well as the associated components of flight human factors, aircraft technology, weather related accidents and accident investigation.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 1500 INTRODUCTION TO UNMANNED AIRCRAFT SYSTEMS (3 credits)
This course is an introductory overview of Unmanned Aircraft Systems including the regulatory process, history, application and career opportunities, ethical concerns, and safety management of UAS operations.
Prerequisite(s)/Corequisite(s): AVN 1000 and AVN 1020. Not open to non-degree graduate students.

AVN 2020 AIRLINE OPERATIONS (3 credits)
The purpose of this course is to introduce the student to operational aspects of airline management. Topics to be covered include management, leadership, labor relations, marketing, forecasting, and fleet planning.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 2050 INTRODUCTION TO AIRPORT ADMINISTRATION (3 credits)
This course examines airport operations, safety and security, various administrative roles within the airport community, and the impact airports can have on local and regional economies. Students will explore the unique role public airports play as an interface between the traveling public and private airlines.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 2104 INSTRUMENT RATING 1 (2 credits)
The student will complete approximately 25 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator and FAA-approved Advanced Aviation Training Devices on the UNO Main Campus; objective is to complete the first portion of training needed for the FAA Instrument Rating. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): Concurrent enrollment in AVN 2170 or instructor permission. Not open to non-degree graduate students.

AVN 2114 INSTRUMENT RATING 2 (1 credit)
The student will complete approximately 20 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the final portion of training needed for the FAA Instrument Rating. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2170 and AVN 2104 or instructor permission. Not open to non-degree graduate students.

AVN 2124 COMMERCIAL PILOT CERTIFICATE 1 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator and FAA-approved Advanced Aviation Training Devices on the UNO Main Campus; objective is to complete the first of three sections of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): Concurrent enrollment in AVN 2180 or instructor permission. Not open to non-degree graduate students.

AVN 2134 COMMERCIAL PILOT CERTIFICATE 2 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the second of three sections of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2124 or instructor permission. Not open to non-degree graduate students.

AVN 2144 COMMERCIAL PILOT CERTIFICATE 3 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the final third of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2134 or instructor permission. Not open to non-degree graduate students.

AVN 2164 PROFESSIONAL PILOT DEVELOPMENT (2 credits)
This course is intended to supplement the Instrument Rating and Commercial Certificate courses by providing flight experience and simulator training in the areas of instrument flying, complex airplane/multiengine operations, abnormal and emergency situations, and crew resource management.
Prerequisite(s)/Corequisite(s): AVN 1030 or hold a valid US Private Pilot Certificate.

AVN 2170 INSTRUMENT FLIGHT THEORY (3 credits)
This course provides the student with an understanding of the theories and regulations involved in instrument flight. Course will include a strong foundation in attitude instrument flying and instrument navigation to prepare the student for the FAA Instrument Rating Knowledge Test. There is no flight training involved in this course.
Prerequisite(s)/Corequisite(s): AVN 1030 or hold a valid U.S. Private Pilot Certificate; or instructor permission.

AVN 2174 INSTRUMENT RATING (3 credits)
This course consists of approximately 35 hours of dual flight training in instrument procedures. Ten hours of the minimum 35 required training hours will be conducted using the personal computer assisted training device.
Prerequisite(s)/Corequisite(s): AVN 2170 or instructor permission. AVN 2170 may be taken concurrently.
AVN 2180  COMMERCIAL PILOT THEORY (3 credits)
This course provides the student with an understanding of the theories involved in flight at the commercial level. Course will include extensive review and study of VFR and IFR cross-country procedures and night flight procedures to prepare the student for the FAA commercial Pilot Knowledge Test. There is no flight training involved in this course.
Prerequisite(s)/Corequisite(s): AVN 1030 or possess a U.S. FAA issued Private Pilot Certificate; or instructor permission. Strongly recommended that student possess a U.S. instrument rating.

AVN 2184  COMMERCIAL CERTIFICATE (3 credits)
This course is designed to accomplish all remaining flight training requirements for the commercial pilot certificate. Student must obtain the commercial pilot certificate to successfully complete this course. Training also conducted using the personal computer assisted training device. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 2174 and AVN 2180; or instructor permission. AVN 2174 and AVN 2180 may be taken concurrently.

AVN 2510  DIVERSITY IN AVIATION (3 credits)
This course provides an overview of the contributions women and minorities have made to the field of aviation. Emphasis is placed on past, present and future roles of women and minorities in aviation. The course includes other topics such as international aspects and issues of aviation.
Prerequisite(s)/Corequisite(s): Not open to non-degree Graduate Students.

AVN 2750  AVIATION METEOROLOGY (3 credits)
An introductory study of the key elements of the atmosphere's structure from the earth's surface to the upper levels; weather systems and hazards to aviation operations plus impact of adverse weather on aeronautical operations. Course will include review of air mass characteristics, frontal weather, and pressure system structure.
Prerequisite(s)/Corequisite(s): AVN 1020, and MATH 1310 or equivalent.

AVN 2900  INDEPENDENT STUDY IN GENERAL AVIATION (3 credits)
This course will cover various topics in aviation to be determined with the instructor and student. Possible topics include Ground Instructor Ratings, crew resource management, airline airport analysis, military history, effects of privatization, etc.

AVN 3000  BUSINESS AND CORPORATE AVIATION (3 credits)
This course will provide a broad understanding of aspects related to the field of business and corporate aviation. Information that will be covered includes: the history of business and corporate aviation; regulations and associations; the value of using business aircraft; aircraft selection; the differences between corporate flight department, fractional ownership, and charter departments; insurance requirements; and safety and security issues.
Prerequisite(s)/Corequisite(s): AVN 1000 and Junior or Senior standing

AVN 3040  HUMAN FACTORS IN AVIATION SAFETY (3 credits)
The purpose of this course is to provide students with an understanding of human factors as it applies to pilots and administrators. Topics will include pilot physiological and psychological issues, work station design, crew resource management, and related public sector issues for managers.
Prerequisite(s)/Corequisite(s): AVN 1160

AVN 3060  WRITING IN AVIATION (3 credits)
This course will further develop the communication skills of aviation students through various forms of writing. Students will compose a research paper and other writing assignments. This course may be used as the third writing course for general education degree requirements.
Prerequisite(s)/Corequisite(s): ENGL 1160 and AVN 1000

AVN 3070  AIR TRAFFIC CONTROL (3 credits)
The purpose of this course is to introduce students to the Federal Aviation Administration (FAA) Air Traffic Control system. Elements and requirements of the course will include: basic air traffic control procedures for pilots, navigation aids, control tower operations, radar approach and departure regulations, and airport traffic control (ATC).

AVN 3080  AVIATION WEATHER SERVICES (3 credits)
The course is a study of aviation weather services, their components and methods of observing, analyzing, distributing, and presenting weather data applicable to aviators.

AVN 3090  AIRPORT ADMINISTRATION AND PLANNING (3 credits)
This course covers the nation's airspace design, navigation and air traffic systems and their effect on airport capacity. Additionally, the national airport system will be investigated as well as airport design and development parameters, fiscal processes, and management considerations. (Cross-listed with AVN 8095)
Prerequisite(s)/Corequisite(s): AVN 2050

AVN 3150  AVIATION LAW (3 credits)
The purpose of this course is to increase the student's knowledge of aviation law and regulations. Particular attention will focus on the American legal system; important legal concepts, regulators of the industry and international aviation law. Case studies will be discussed throughout the course. (Cross-listed with AVN 8155)
Prerequisite(s)/Corequisite(s): AVN 1000 and junior standing.

AVN 3190  CERTIFIED FLIGHT INSTRUCTOR THEORY (3 credits)
Provide the student with an understanding of the theories involved in flight instruction. Course will include extensive oral presentation of complex aerodynamical information and use of the personal computer assisted training device. Students are expected to pass FAA Fundamentals of Instructing and FAA Flight Ground Instructor Knowledge tests. There is no flight training in this course.
Prerequisite(s)/Corequisite(s): AVN 2184 and SPCH 1110.

AVN 3194  CERTIFIED FLIGHT INSTRUCTOR I (2 credits)
This course consists of approximately 25 hours of flight training in flight instruction procedures required to obtain the FAA flight instructor certificate. Special Fees apply.
Prerequisite(s)/Corequisite(s): AVN 3190 (may enroll concurrently).

AVN 3200  COOPERATIVE EDUCATION IN AVIATION (1-6 credits)
This course will complement course work with a relevant professional work experience or practicum in aviation. The practicum/field experience may be a special project in an aviation organization to be coordinated by the instructor. Offered as a credit/no-credit course.
Prerequisite(s)/Corequisite(s): AVN 3060, aviation major, junior/senior standing, and instructor permission.

AVN 3250  AVIATION MAINTENANCE ADMINISTRATION (3 credits)
This course is designed to introduce the student to the basic concepts related to managing an aviation maintenance facility. Topics to be covered include regulatory requirements, responsibilities, procedures, applications of maintenance concepts, professional development, safety, and current issues related to the field of maintenance management. (Cross-listed with AVN 8255.)

AVN 3300  CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT/MULTI ENGINE THEORY (3 credits)
Provide the student with an understanding of the theories involved in instrument flight and multiengine instruction. Course includes extensive oral presentations of flight instrument approaches, training procedures, and use of the Personal Computer Assisted Training Device. Students will pass FAA IFI and exam. There is no flight training in this course.

AVN 3304  CERTIFIED FLIGHT INSTRUCTOR II (2 credits)
This course consists of approximately 10 hours of flight training in instructing in instrument procedures and approaches in preparation for FAA certified flight instructor-instrument rating. Class is conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 3300 or concurrent enrollment.
AVN 3400 MULTI-ENGINE CERTIFICATION (2 credits)
Course consists of ground and flight training in multi-engine aircraft procedures. Student will meet all flight requirements for the FAA multi-engine rating. Training will include use of the Personal Computer Assisted Training Device. Class is conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 2184 or concurrent enrollment or instructor permission.

AVN 3500 RESEARCH METHODS IN AVIATION (3 credits)
An introductory research methods course focused on contemporary as well as historical aviation problems and topics, but from an investigatory perspective. The primary focus will be the preparation of standard research documents and the use of traditional statistical methods to evaluate various data sources.
Prerequisite(s)/Corequisite(s): 60 hours of undergraduate credit and AVN 3060 completed or in progress.

AVN 3510 AEROSPACE SCIENCES (3 credits)
This introductory course will provide pre-service teacher candidates, aviation students, and students at large the opportunity for a science oriented general education course. The curriculum will be focused in the areas of earth and space science, geospatial technology, and aeronautics. Key topics for this course will include the geoscience practice of Geographic Information Systems, Global Positioning System, and the NASA Jet Propulsion Laboratory/ UNO designed Data-Slate remote sensing program. Also included will be space sciences focused solar system exploration, satellite technology, and astrophysics. Students will engage in aeronautic science topics inclusive of the study of aerodynamics of flight, meteorological science and weather, and flight technology. All students will be provided opportunity to apply concepts of flight in the Aviation Institute's Advanced Simulation Facility.

AVN 3600 INTERNATIONAL AVIATION (3 credits)
This course examines global air transport and its impact on the development of the global economy. Lectures and readings will provide a solid foundation of historical knowledge about international air transport and its development in various countries, before exploring current policy debates about liberalization, global alliances, and other critical issues.
(Cross-listed with AVN 8605)
Prerequisite(s)/Corequisite(s): AVN 2020

AVN 3700 TRANSPORTATION ANALYSIS (3 credits)
This course is an extension of introductory financial courses; special emphasis on service characteristics of air carriers. Review of airline revenue and expense streams, pricing and fares, fiscal market segmentation, and fleet planning. Focused approach to understanding the monetary forces that underlie the business practices of domestic and international passenger and cargo airlines.
Prerequisite(s)/Corequisite(s): ECON1200 or higher and junior standing

AVN 4000 INDEPENDENT RESEARCH IN AVIATION (1-3 credits)
The purpose of this course is to provide the aviation student an opportunity to complete an in-depth analysis of a specific aviation topic. Examples: aerodynamics, airports rates/charges analysis, cost-allocation for airside/ landside, aviation marketing relative to aircraft manufacturing, airline promotion, flight component, off-airport subjects, comprehensive regional planning, environmental subject, etc.
Prerequisite(s)/Corequisite(s): Aviation major, senior standing, and written permission of the instructor.

AVN 4010 AERODYNAMICS AND AIRCRAFT PERFORMANCE (3 credits)
Provides the student with an understanding of the factors affecting aircraft performance during various phases of flight. Topics will include aircraft performance requirements outlined in the Federal Aviation Administration Regulations, use of performance charts and tables, runway airport analysis, and climb cruise descent performance.
Prerequisite(s)/Corequisite(s): AVN 1000, 2184, MATH 1320 or instructor permission.

AVN 4020 AIRCRAFT SYSTEMS (3 credits)
Provides the student with an understanding of systems employed on technologically advanced, sophisticated aircraft. Systems covered will include electrical, hydraulic, engines, flight control and pneumatic systems.
Prerequisite(s)/Corequisite(s): AVN 1000 and AVN 2184 or instructor permission.

AVN 4030 CERTIFIED FLIGHT INSTRUCTOR III (2 credits)
A study of the principles and methodology of instruction in multi-engine flight. This course will prepare the student for the FAA multi-engine flight instructor rating through ground and flight training. The Personal Computer Assisted Training Device will be used to enhance training. Class is conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 3194, AVN 3304 and AVN 3400.

AVN 4050 GENERAL AVIATION OPERATIONS (3 credits)
Organization and operation of general aviation facilities to include administration, aircraft maintenance considerations, flight line operations, and decision making.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 4060 ADVANCED AIR TRANSPORT FLIGHT OPERATIONS (3 credits)
The course will be a capstone event in the professional pilot sequence. Specific emphasis will be on the pre-flight planning and execution of air carrier flight operations. Additional instructional segments will cover regional and corporate flight operations.
Prerequisite(s)/Corequisite(s): AVN 4020 or instructor permission.

AVN 4080 AIRPORT SAFETY AND SECURITY (3 credits)
This course will explore the role of airports in relation to safety and security. Topics will include regulations, responsibilities, security issues, ramp safety, disaster preparedness, and emergency management. (Cross-listed with AVN 8086).
Prerequisite(s)/Corequisite(s): AVN 3060, junior/senior standing.

AVN 4100 MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with AVN 8106)

AVN 4200 INTERNSHIP IN AVIATION (1-6 credits)
This course is designed to provide direct hands-on experience in the aviation industry for selected students. Students will be selected for internships competitively by a panel of Aviation Institute faculty and industry representatives from companies providing the internships. This experience will be in a full-time, preferably paid position in a highly structured environment using a syllabus designated by the faculty and industry committee.
Prerequisite(s)/Corequisite(s): AVN 3060, junior/senior standing, aviation major, instructor permission.

AVN 4620 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carry airports. Land-side components include vehicle ground access systems, vehicle circulation, parking and terminal buildings. Air-side components include aircraft apron-gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with AVN 8626)
Prerequisite(s)/Corequisite(s): CIVE 361 or permission from instructor.

AVN 4890 SPECIAL TOPICS IN AVN ADMIN (3 credits)
A study of the timely as well as timeless issues in aviation. These issues emphasize recent and significant changes and evolutionary developments found in various components of the aviation industry. (Cross-listed with AVN 8896, PA 4890, PA 8896)
AVN 4900  SPECIAL TOPICS IN AVIATION (1-3 credits)
This course will discuss various topics in the Aviation Industry determined each course the offering is possible. Topics include International Aviation, Current Issues, and Cockpit Resource Management along with other topics. (Cross-listed with AVN 8906)
Prerequisite(s)/Corequisite(s): AVN 1000 and junior standing.

AVN 4970  SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

AVN 4980  SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

AVN 4990  AIR TRANSPORTATION (3 credits)
This course fulfills the Aviation Institute capstone projects for undergraduates. Lectures and readings will cover contemporary issues and problems in air transportation, as well as material related to research design and implementation. (Cross-listed with AVN 8996).
Prerequisite(s)/Corequisite(s): AVN 3700, junior or senior standing, or instructor permission.

Aviation, Bachelor of Science

Bachelor of Science in Aviation, Air Transport Administration Concentration:
The curriculum includes the University of Nebraska at Omaha’s general education requirements, departmental requirements, a core of aviation classes and specialized courses in air transport administration. All students in a degree program in the aviation department must meet the university general education requirements. Additional information on these requirements can be found in this catalog and on the University General Education website (http://gened.unomaha.edu/). Please contact an academic advisor for recommended choices for the major. Certain majors/programs in the Aviation Institute require specific foundational coursework that may also count for General Education requirements. For further information and details, contact an academic advisor.

Bachelor of Science in Aviation, Professional Flight Concentration:
The curriculum includes the University of Nebraska at Omaha’s general education requirements, departmental requirements, a core of aviation classes and specialized courses in professional flight. All students in a degree program in the aviation department must meet the university general education requirements. Additional information on these requirements can be found in this catalog and on the University General Education website (http://gened.unomaha.edu/). Please contact an academic advisor for recommended choices for the major. Certain majors/programs in the Aviation Institute require specific foundational coursework that may also count for General Education requirements. For further information and details, contact an academic advisor.

Criminology and Criminal Justice

Mission
The mission of the School of Criminology & Criminal Justice is to offer quality undergraduate and graduate educational programming that provides students with the opportunity to learn the knowledge and develop the skills necessary for being successful in career fields related to criminology and criminal justice. We support and encourage both scholarly research endeavors and applied research projects involving collaborative partnerships with local and federal agencies, and encourage knowledge of and the use of emerging technologies and sciences as a means of improving and advancing criminology and criminal justice career fields.

Contact
The School of Criminology & Criminal Justice is located in the College of Public Affairs and Community Service Building (CPACS) office suite 218. Our office can be reached by phone at (402) 554-2610.

Other Information
Academic Advising
Academic advising is provided for all students. The program recommends that students participate in each semester to ensure timely degree completion. The academic advisor assists students with degree planning, course scheduling, addressing any questions or concerns regarding major/minor, academic performance, and/or policies and procedures. To contact an advisor, schedule an appointment in MovTRACK (https://www.unomaha.edu/my/advising-system-mavtrack.php), visit CPACS 218, or call 402.554.2610.

Transferring to Criminology and Criminal Justice
Students wishing to transfer from another institution or department within the University of Nebraska must have a 2.5 cumulative grade point average. They also must complete the required PCCJ courses and apply for admission to the School of Criminology and Criminal Justice before being admitted to the upper division CRCJ program. Students may transfer without having PCCJ requirements completed and will be admitted to the PCCJ curriculum. Students wishing to transfer are encouraged to contact the school for more details on the transfer policy.

Students must fulfill program requirements in effect during the academic year they are admitted to the School of Criminology and Criminal Justice.

The policies set out above are intended to apply to all students who seek admission to the upper division CRCJ program. For good cause shown, the Admissions Committee has the discretion to make exceptions to the admission policy.

A minimum of 30 of the last 36 semester credit hours must be earned by the student in residence in the University of Nebraska System. Summer independent study courses are not considered in residence.

At least 21 hours of criminal justice must be taken at the University of Nebraska, on either the Omaha or Lincoln campus.

A minimum of 33 credit hours must be earned in upper division (3000/4000-level) courses. At least 21 of these upper division hours must be taken in the School of Criminology and Criminal Justice courses, and 12 hours of 3000/4000 level courses are required in a concentration/minor (see course requirements section).

A maximum of 12 credit hours of departmental independent study or internship courses may be applied toward the BCCJ degree. Of these, no more than six hours can come from one department and no more than six hours from another institution.

A maximum of 30 hours from any one department may be applied toward the BCCJ degree.

A maximum of 24 hours may be taken pass/no pass and none of the 39 hours required for the criminology and criminal justice major may be taken pass/no pass (excluding CRCJ 3970).

Six hours of credit for basic military training may be applied to the BCCJ degree. Credit from an institution that is not regionally accredited cannot be applied to the BCCJ degree.

Student Groups
Criminal Justice Student Organization (CJSO)
Alpha Phi Sigma (APS) National Criminal Justice Honor Society, Eta Chapter

Degrees Offered
- Criminology & Criminal Justice (BCCJ), Bachelor of Science (p. 397)

**Criminal justice course work is offered on both the Omaha and Lincoln campuses of the University of Nebraska. The BCCJ degree can be earned in its entirety on the Lincoln campus; however, the degree is conferred by the University of Nebraska at Omaha. All of the departmental policies and requirements applicable to students seeking the BCCJ degree are the same on both campuses.

Minors Offered
- Criminology & Criminal Justice Minor (p. 398)
CRCJ 1010 SURVEY OF CRIMINAL JUSTICE (3 credits)
This course is designed to provide an overview of the justice process and the criminal justice system in general. Concepts of crime and justice are discussed as well as the rights of individuals in a democratic society. The law enforcement, judicial, juvenile justice, and corrections systems are explored.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission
Distribution: Social Science General Education course

CRCJ 2030 POLICE AND SOCIETY (3 credits)
This course is designed to present an overview of the role of the police in American society. Attention is given to the origins of policing, the nature of police organizations and police work, and patterns of relations between the police and the public.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2110 CRIMINAL COURT SYSTEM (3 credits)
This course is designed to provide an analysis of the structure and function of the criminal court system in the United States, including the roles of prosecutor, defender, judge, jury and court administrator. The issues confronting the system will be considered from historical, philosophical, sociological and psychological perspectives. The ideals of the system will be compared with actual functioning, and court reform programs and proposals will be explored.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2210 SURVEY OF CORRECTIONS (3 credits)
A general course describing the history and evolution of the corrections process. Covers all aspects of institutional and community-based corrections.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2510 RESEARCH METHODS (3 credits)
A basic introduction to the principles, methods and techniques of empirical social research.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or instructor permission

CRCJ 3000 APPLIED STATISTICS AND DATA PROCESSING IN THE PUBLIC SECTOR (3 credits)
A course in the basic statistics of social work. The emphasis is on exploration of data processing and techniques as they relate to statistical analysis and on understanding the proper application of statistics. (Cross-listed with PA 3000, SOWK 3000).
Prerequisite(s)/Corequisite(s): MATH 1310 or permission of the School.

CRCJ 3010 PHILOSOPHY OF CRIMINAL JUSTICE (3 credits)
This course is a philosophical examination of justice and its administration. It provides the student with a richer understanding of the conceptual foundations of justice.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission

CRCJ 3100 WRITING FOR CRIMINAL JUSTICE (3 credits)
This is a writing course for all Criminology and Criminal Justice majors. Students will learn how to write effective cover letters, incident reports, position papers, and executive summaries.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1160, and CRCJ 1010. Not open to non-degree graduate students.

CRCJ 3310 CRIMINAL LAW (3 credits)
This course examines the means by which society attempts to use criminal law to prevent harm to society. It examines the acts which are declared criminal and the punishment prescribed for committing those acts. The course also examines the philosophies and rationales that have shaped current day substantive criminal law. It looks at the English Common Law and traces the historic evolution of substantive criminal law from its early origins.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing, or instructor permission.

CRCJ 3350 CRIMINOLOGY (3 credits)
General survey of the nature and causes of crime and the effort of the criminal justice system to predict, prevent, modify and correct this behavior.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3370 JUVENILE DELINQUENCY AND JUVENILE JUSTICE (3 credits)
This course focuses on how delinquents and juveniles in need of supervision are handled within the juvenile justice system. The nature and extent of delinquent behavior, status offenses, child abuse and neglect; theories of delinquency and their implications for intervention; cultural and social factors related to delinquency; as well as the philosophy and functioning of the juvenile justice system are covered.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3380 RACE, ETHNICITY, AND CRIMINAL JUSTICE (3 credits)
This course provides a survey of minority groups and their experiences with regard to crime and criminal justice in the United States. This course will focus on racial and ethnic minorities as victims, as offenders, as defendants, and as criminal justice professionals.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

CRCJ 3390 WOMEN, CRIME, AND JUSTICE (3 credits)
This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with WGST 3390)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ or WGST major; CRCJ or WGST minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3510 CRIMINAL PROCEDURE (3 credits)
This course deals with the legal aspects of the investigation and arrest processes as well as the rules governing the admissibility of evidence in court.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3970 INTERNSHIP IN CRIMINAL JUSTICE (3 credits)
Job-related experience in criminal justice agencies. Permission to enroll must be received from the student's adviser each semester. (May be repeated for a maximum of six hours.)
Prerequisite(s)/Corequisite(s): Admission into upper-division CRCJ program or CRCJ minor, 75 credit hours completed, GPA of 2.5, and permission of instructor. Not open to non-degree graduate students.

CRCJ 4030 CRIMINAL JUSTICE ORGANIZATION AND ADMINISTRATION (3 credits)
This course covers contemporary concepts, principles and theories of organization and administration as they relate to criminal justice agencies. The historical development and modern practices of public policy are also considered.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4060 CRIMINAL JUSTICE ETHICS (3 credits)
This course is designed to examine ethical issues that arise in the three major areas of criminal justice: police; courts; and corrections. The course explores general philosophical theories of ethics as well as Codes of Ethics that operate to control the institutional and personal behavior of police, court, and correctional systems.
Prerequisite(s)/Corequisite(s): Admission into upper-division CRCJ program or CRCJ minor, 75 credit hours completed, GPA of 2.5, and permission of instructor. Not open to non-degree graduate students.
CRCJ 4130 SOCIOLOGY OF DEVIANT BEHAVIOR (3 credits)
This course is designed to investigate the etiology of many forms of norm-violating conduct. Emphasis will be placed on rule-breaking behavior as defined in the criminal statutes. (Cross-listed with CRCJ 8136.)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major, CRCJ minor, CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4210 INSTITUTIONAL CORRECTIONS (3 credits)
The course presents an in-depth analysis of the history and operation of prisons and jails in the United States and other countries. The course covers the management and operation of prisons and jails from the perspective of both employees and incarcerated persons.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4350 COMMUNITY-BASED CORRECTIONS (3 credits)
This course is designed for advanced students with a special interest in the correctional process as applied in a community setting. It is designed to focus on innovative community-based strategies for dealing with the offender as well as the traditional processes of probation and parole. (Cross-listed with CRCJ 8356.)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4500 DRUGS AND CRIME (3 credits)
This course looks at the socially constructed nature of drugs and drug policy, focusing on the variety of ways drugs and crime are connected and the socio-historical context of contemporary U.S. drug policy.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4510 VIOLENCE (3 credits)
This course is a survey of the nature and extent of violence. The focus is on patterns of violence across social groups, the causes and correlates of violence and violent behavior, and programs/policies geared toward violence prevention and reduction. Also of interest is the relationship between theory and violence research. (Cross-listed with CRCJ 8516.)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor or CRCJ 1010 and jr/sr standing.

CRCJ 4550 GANGS AND GANG CONTROL (3 credits)
This course focuses on American youth street gangs. Topics include the history of gangs, gang and gang member characteristics, gang life, and strategies of gang control. The link between youth street gangs, prison gangs, and other deviant collectivities will be explored.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4710 COMPARATIVE CRIMINAL JUSTICE SYSTEMS: ENGLAND (3 credits)
This is a specialized course which provides a comparison of the criminal justice systems of the United States and the United Kingdom. The design of the course allows for an exploration of how the American system developed from the British system and why social and cultural factors influenced the differences/similarities in their development.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and permission of the instructor. Not open to non-degree graduate students.

CRCJ 4750 INTERNATIONAL CRIMINOLOGY AND CRIMINAL JUSTICE (3 credits)
This course analyzes the dynamics of criminality and the social response to criminality across countries. Differences in crime and justice between developed and developing countries and between socialist and capitalist nations are emphasized.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.
Distribution: Global Diversity General Education course

CRCJ 4760 TERRORISM (3 credits)
This course is designed to assist the student in developing an understanding of terrorism as a political crime. It includes an examination of the social, political and psychological aspects of this behavior.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.
Distribution: Global Diversity General Education course

CRCJ 4770 ORGANIZED CRIME (3 credits)
A course designed to trace the origins and historical development of the activities that have come to be known as organized crime. These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling, shylocking and narcotics trafficking to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery and political corruption.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4780 WHITE COLLAR CRIME (3 credits)
This course is designed to examine those illegal acts committed by non-physical means and by concealment or guile, to obtain money or property, to avoid the payment or loss of money or property, or to obtain business or personal advantage.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4800 SPECIAL TOPICS (1-3 credits)
This course is a topical approach that explores various aspects of Criminology and Criminal Justice. Topics and disciplines will vary from term to term. Course description will be announced in advance. This course will be devoted to the exploration and analysis of contemporary problems in the criminal justice system. On occasion the course will be offered in three one-credit hour modules and students may register for one, two or three credit hours.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4950 INDEPENDENT STUDY (1-3 credits)
Faculty-guided research in an area of mutual interest to the student and his instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. May be repeated to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major and instructor permission. Not open to non-degree graduate students.

CRCJ 4960 ISSUES IN CRIME AND JUSTICE (3 credits)
This is a capstone course that will focus on contemporary issues of crime and justice. It will examine the justice process and the general operations of the criminal justice system. Concepts of crime and deviance, rights and discrimination in a democratic society will be reviewed and critiqued against the backdrop of contemporary issues. The law enforcement, judicial, juvenile justice, and corrections subsystems will be explored, and a number of reform proposals presented and considered.
Prerequisite(s)/Corequisite(s): CRCJ majors with senior standing, OR permission of the instructor. Not open to non-degree graduate students.

CRCJ 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by School faculty. The senior honors project must be approved by the CPACS Honors Coordinator.

CRCJ 4999 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the School’s Student Outcomes effort. It is designed to monitor the School’s performance and to identify changes needed. Graduating seniors must register for and complete CJUS4999 - Senior Assessment in the term in which they plan to graduate.
Prerequisite(s)/Corequisite(s): Students must register for CJUS 4999 in the term in which they plan to graduate. Not open to non-degree graduate students.
Criminology & Criminal Justice, Bachelor of Science

The Bachelor of Science in Criminology and Criminal Justice (BCCJ) degree requires the completion of 120 credit hours with a cumulative grade point average (GPA) of 2.0. The curriculum for this degree is divided into two segments—the pre-criminology and criminal justice curriculum (PCCJ) and the upper division criminology and criminal justice program (CRCJ). Students who declare criminology and criminal justice as their major must complete the PCCJ requirements with no grade lower than “C-” in their criminology and criminal justice courses, maintain a 2.5 or better GPA, and apply for admittance into the CRCJ program. Upon acceptance into the CRCJ program, students will qualify to register for 3000/4000 level criminology and criminal justice courses and complete any remaining course requirements for the BCCJ degree.

Requirements

Courses Required for Major (Core Curriculum)
The PCCJ curriculum consists of 45 credit hours as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1150 or ENGL 1154</td>
<td>ENGLISH COMPOSITION I</td>
<td>3</td>
</tr>
<tr>
<td>ENGL 1160 or ENGL 1164</td>
<td>ENGLISH COMPOSITION II</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1310</td>
<td>INTERMEDIATE ALGEBRA (or higher)</td>
<td>3</td>
</tr>
<tr>
<td>CRCJ 1010</td>
<td>SURVEY OF CRIMINAL JUSTICE</td>
<td>3</td>
</tr>
<tr>
<td>CRCJ 2510</td>
<td>RESEARCH METHODS</td>
<td>3</td>
</tr>
<tr>
<td>Select a minimum of six hours in the following:</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2030</td>
<td>POLICE AND SOCIETY</td>
<td>3</td>
</tr>
<tr>
<td>CRCJ 2110</td>
<td>CRIMINAL COURT SYSTEM</td>
<td>3</td>
</tr>
<tr>
<td>CRCJ 2210</td>
<td>SURVEY OF CORRECTIONS</td>
<td>3</td>
</tr>
</tbody>
</table>

Students are encouraged to fulfill the remaining 24 hours with course work from their general education requirements.

Students seeking entrance into the upper division CRCJ program must apply to the School of Criminology and Criminal Justice. Students may apply with fewer than 45 hours if they are enrolled for the remaining hours during the semester in which they make application. In such cases, students may be granted admission contingent upon completion of the remaining hours with no grade lower than a “C-” in their criminology and criminal justice courses.

Application forms may be obtained through an academic advisor in School of Criminology and Criminal Justice

Criminology & Criminal Justice Major Requirements

Minimum 39 credit hours, all students must complete:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRCJ 1010</td>
<td>SURVEY OF CRIMINAL JUSTICE</td>
<td>3</td>
</tr>
<tr>
<td>CRCJ 2510</td>
<td>RESEARCH METHODS</td>
<td>3</td>
</tr>
<tr>
<td>Select 6-9 hours from the following:</td>
<td>6-9</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2030</td>
<td>POLICE AND SOCIETY</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2110</td>
<td>CRIMINAL COURT SYSTEM</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2210</td>
<td>SURVEY OF CORRECTIONS</td>
<td></td>
</tr>
</tbody>
</table>

After admission to the upper division CRCJ program, students must complete a minimum of 21 hours of upper division (3000/4000) courses including the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRCJ 3350</td>
<td>CRIMINOLOGY</td>
<td></td>
</tr>
<tr>
<td>CRCJ 3510</td>
<td>CRIMINAL PROCEDURE</td>
<td></td>
</tr>
</tbody>
</table>

A minimum grade of “C-” is required in courses used as part of the 39 hour CRCJ major requirement.

Students are not required to complete an internship (CRCJ 3970) though participation in an internship is strongly encouraged. Up to six hours of internship credit may be included in the program of study. Participation in the internship requires admission into upper division CRCJ program, 75 credit hours completed, GPA of 2.5 and permission of instructor. Students seeking an internship must complete the internship application, which may be obtained from the School of Criminology and Criminal Justice.

The following sociology courses may be substituted for equivalent criminal justice courses and applied toward the 39 hour major: SOC 2510 for CRCJ 2510 and SOC 4130 for CRCJ 4130. Credit toward the degree will not be allowed for both courses which are considered equivalent.

Statistics

Each student must complete one three-hour course in basic statistics; CRCJ 3000 may be used to satisfy this requirement but does not apply toward the 39 hours of required criminal justice courses. Statistics courses from statistics, mathematics, public administration, social work, psychology or sociology may also apply.

Writing in the Discipline (3 hours)

All students are required to take a writing in the discipline course within their major. For the Criminology and Criminal Justice major, this can be fulfilled through one of the following: CRCJ 3100, ENGL 2400, ENGL 3980 or MKT 3200.

Area of Concentration or Minor

The area of concentration must contain at least 12 credit hours of 3000/4000-level work chosen in consultation with the CRCJ academic adviser. In certain instances, a minor can fulfill the area of concentration requirement. Please meet with a CRCJ academic adviser for specific guidelines.

Senior Assessment

During the semester in which students plan to graduate, they must register for and complete the senior assessment, CRCJ 4999. This instrument is designed to assess student learning, monitor school performance and identify changes needed.

Criminal Justice Specific General Education Requirements

(In addition to UNO general education requirements)

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Social Science</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>Natural &amp; Physical Science</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>Electives</td>
<td></td>
<td>15</td>
</tr>
</tbody>
</table>

Degree Milestones

Students should adhere to the following recommendations to ensure timely degree completion. All pre-criminology and criminal justice students must complete CRCJ 1010 within their first year. All students must have a minor declared before the start of their junior year. After admission to the upper division criminology and criminal justice program, students must complete both CRCJ 3350 and CRCJ 3510 before the start of their senior year.
Criminology & Criminal Justice Minor

Requirements
The requirements to earn a minor in criminology and criminal justice will consist of a minimum of 18 credit hours to include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRCJ 1010</td>
<td>SURVEY OF CRIMINAL JUSTICE</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Select a minimum of two of the following:</td>
<td>6</td>
</tr>
<tr>
<td>CRCJ 2030</td>
<td>POLICE AND SOCIETY</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2110</td>
<td>CRIMINAL COURT SYSTEM</td>
<td></td>
</tr>
<tr>
<td>CRCJ 2210</td>
<td>SURVEY OF CORRECTIONS</td>
<td></td>
</tr>
</tbody>
</table>

Select a minimum of 9 credit hours of upper level (3000/4000) criminology and criminal justice courses (excluding CRCJ 3000).

An overall "C" average in courses applied to the minor is required and all courses applied to the minor must be taken for letter grade (not CR/NC). In addition, all nine credit hours of upper division course work must be taken in residence at the University of Nebraska.

Emergency Services Program
The Emergency Services Program offers a Bachelor of Science in Emergency Management as well as minors in Emergency Management, Fire Service Management, Tribal Management and Emergency Services and a certificate in Tribal Management and Emergency Services. The Emergency Services Program was developed over a two year period by an interdisciplinary group composed of faculty from diverse University departments and programs, as well as community and public safety leaders in related professions and was approved in the summer of 2012. The program is intended to provide an education that encompasses the broad array of knowledge and experience necessary to conduct emergency services and emergency administration, and to meet the demand for Emergency Management professionals at the federal, state, and local government levels and in the business community.

The Mission of the Emergency Services Program is to:

- Develop student talents, wisdom, and experiences in a supportive yet demanding academic environment that prepares them for a personally rewarding successful professional career in Emergency Management.
- Initiate and lead superior research initiatives while supporting continuous improvements in efficiency, reliability, safety, and sustainability for provision of emergency services in the State of Nebraska and beyond.
- Foster cooperative relationships with neighboring communities, state and federal agencies, and private enterprise through collaborative education, training, and service projects that enhance performance and productivity.
- Set, preserve, and promote the utmost standards of honesty, integrity, and transparency through the teaching of and adherence to ethical conduct and open dialogue while ensuring good stewardship and management of program resources

The Emergency Services Program is a division of the School of Public Administration in the College of Public Affairs and Community Service (CPACS).

Admissions
Readmit students and students wishing to transfer from another institution or department within the University of Nebraska must have a 2.5 cumulative grade point average. Students with a GPA of 2.0 to 2.49 may be admitted to the Pre-Emergency Management program. Once students have achieved a 2.5 cumulative grade point average or better, they will be admitted to the BSEM program.

Transfer Credit
Sixty-four credit hours from regionally accredited two-year institutions may be applied toward the degree. Twelve credit hours of American Council on Education (ACE) approved military credit may be applied toward electives in the BSEM degree. Credit from an institution that is not regionally accredited cannot be applied to the BSEM degree.

Academic Advising
Academic Advising is provided for all students. The program recommends advising each semester to ensure degree completion. The academic advisor assists students with degree planning, course scheduling, addressing any questions or concerns regarding major/minor, academic performance, and/or policies and procedures. The faculty in the Emergency Services Program are also available to speak with students regarding internships, careers, and mentoring. To contact an advisor, visit CPACS 114, email unoemgt@unomaha.edu or call 402.554.4900.

Contact
The Emergency Services Program is located in the College of Public Affairs and Community Service in room 114. The office can be reached by phone at (402) 554-4900 or by email at unoemgt@unomaha.edu.

MavReady

Degrees Offered
• Emergency Management (BSEM), Bachelor of Science (p. 400)

Minors Offered
• Emergency Management Minor (p. 403)
• Fire Service Management Minor (p. 404)
• Tribal Management and Emergency Services Minor (p. 404)

Certificates Offered:
• Tribal Management and Emergency Services Certificate (p. 404)

EMGT 1000 INTRODUCTION TO EMERGENCY MANAGEMENT (3 credits)
This course is an introduction to the National Response Framework (NRF) and the National Incident Management System (NIMS) and their influence on modern community Emergency Management and Homeland Security. The course conceptually introduces the four phases of Emergency Management: Mitigation, Preparedness, Response, and Recovery.

Distribution: Social Science General Education course

EMGT 1150 INTRODUCTION TO TRIBAL EMERGENCY MANAGEMENT (3 credits)
This course is an introduction to how Tribal history and contemporary governance affect the delivery of emergency management services on Tribal lands as well as how the National Response Framework (NRF) and the National Incident Management System (NIMS) are integrated to provide emergency services. The course focuses on the challenges of implementing the five mission areas of Emergency Management: Mitigation, Preparedness, Prevention, Response, and Recovery for Native American Communities.

Distribution: U.S. Diversity General Education course and Social Science General Education course
EMGT 2020  EMERGENCY MANAGEMENT STRATEGIES AND COMMUNICATION (3 credits)
This course covers tactical issues, current communication methods, and critical information channels utilized during actual disaster and emergency management field operations. Topics include inter-agency linkages, command and control tactics, National Incident Management System and the Incident Command System, (NIMS-ICS) and other crucial management requirements for successful disaster planning, mitigation, and recovery operations.
Prerequisite(s)/Corequisite(s): EMGT 1150 or concurrent.

EMGT 2050  POLITICAL AND LEGAL FOUNDATIONS IN EMERGENCY SERVICES (3 credits)
The provision of Emergency Services in contemporary society occurs within an environment of legal requirements and community resource allocation that often requires difficult administrative and political decisions. Successful professionals who control, manage, and operate these services must understand and adhere to the demand and intent of the law. Also, they must master the practical art of politics related to the various community constituents and shareholders who fund and support them, staff them, and utilize them. This course examines the legal aspects and social consequences of emergency management provision. Environmental issues and Occupational Health and Safety policy and programs affecting emergency services are also examined.
Prerequisite(s)/Corequisite(s): EMGT 1150 or concurrent with EMGT 1000.

EMGT 2060  FOUNDATIONAL INDIAN LAW & POLICY ISSUES (3 credits)
This course provides an examination of the federal and tribal legal cases and policies that affect the delivery of critical services on tribal lands. The course will also examine how such case law and resulting policy affects current U.S./Tribal/State relationship, specifically in the area of sovereignty and regulatory jurisdiction of emergency management principles. The student will gain an understanding of the legal obligations of Tribal Government and the emergency manager with regard to disaster response within the legal context of tribal law and policy.
Prerequisite(s)/Corequisite(s): EMGT 1150 (can be taken concurrently with EMGT 1150 with instructor approval).

EMGT 2500  DISASTERS AND VULNERABLE POPULATIONS (3 credits)
This course is an introduction to the sociological examination of disasters. In the course students will learn about vulnerability in terms of social, economic, political, geographical and cultural factors. Students will investigate how vulnerable groups such as children, elderly, racial and ethnic minorities, and low income, are affected and cope before, during and after hazardous events. Other topics covered include: disaster warning responses, evacuation behavior, survival behavior, roles of volunteers, and disaster impacts.
Distribution: U.S. Diversity General Education course and Social Science General Education course

EMGT 3020  FEDERAL/TRIBAL GOVERNMENT TO GOVERNMENT RELATIONS (3 credits)
This course will introduce the Federal/Tribal government to government relationship that has evolved through U.S. Supreme Court case law; federal Indian policy; and through the Indian Self Determination and Education Assistance Act of 1975. Specifically, this course will focus on overcoming the challenges of implementing Emergency Management principles between the U. S. and Tribal governments by understanding how the government to government relationship works.
Prerequisite(s)/Corequisite(s): EMGT 1150; (can be taken concurrently with EMGT 1150 with instructor approval).

EMGT 3040  PREPAREDNESS/PLANNING AND RISK MITIGATION (3 credits)
Provision of emergency and management of emergency services is dependent on extensive planning and preparedness. This process aids in the reduction of loss of property and life in extreme circumstances, even when confronted with a variety of environmental and politically motivated risks. An open society, which becomes ever more highly technological, demonstrates new sources of stress, complicated threats, and complex inter-relationships. Together, these factors present a significant challenge to those tasked with preventing and managing emergencies and disasters. This course provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk analysis and mitigation, and a methodology for the development of comprehensive community risk preparedness planning.
Prerequisite(s)/Corequisite(s): EMGT 2020, EMGT 2050, PA 3000 / CRCJ 3000 or concurrent.

EMGT 3080  INTRA- AND NON-GOVERNMENTAL ORGANIZATION AND COOPERATION IN EMERGENCY MANAGEMENT (3 credits)
Federal, state, and local agency cooperation and interoperability in the provision of emergency management will be studied in this course. Federal, state, and local government authority and roles will be explored in concert with collaborative management programs. The origins of collaborative partnerships will be presented along with introduction of the Emergency Management Assistance Compact, development of volunteer networks, and formation of partnerships with the Citizen Corps, Community emergency Response Teams, the Medical Reserve Corps and Mercy Medical Airlift, and other groups that have the potential to contribute to the emergency management and response effort.
Prerequisite(s)/Corequisite(s): EMGT 2020, EMGT 2050, PA 3000 / CRCJ 3000 or concurrent.

EMGT 4050  INTEGRATION OF CONTEMPORARY ISSUES IN TRIBAL EMERGENCY MANAGEMENT (3 credits)
This course covers application and integration of Tribal Management and Emergency Service (TMES) principles and practices, as well as contemporary issues affecting Tribal nations and their citizens; recent federal/tribal TMES legislation and case law; Federal/Tribal agency collaborative efforts; TMES Tribal Code development and implementation; and TMES funding resources such as PL 93-638 Contracts, grants and tribal taxation.
Prerequisite(s)/Corequisite(s): EMGT 1150 Introduction to Tribal Management and Emergency Services

EMGT 4060  DISASTER RESPONSE AND RECOVERY (3 credits)
This course examines concepts and principles of: 1) community risk assessment, 2) disaster recovery planning, 3) responses specific to fires and natural and man-made disasters, 3) National Incident Management System and the Incident Command System (NIMS ICS), 4) mutual aid and automatic response, 5) training and preparedness, 6) communications, 7) civil disturbances, 8) terrorist threats/incidents, 9) hazardous materials planning, 10) mass casualty incidents, 11) earthquake preparedness, and 12) disaster mitigation and recovery.
Prerequisite(s)/Corequisite(s): EMGT 3040 (May be taken concurrently) or by instructor's permission
EMGT 4200 INTERNSHIP IN EMERGENCY MANAGEMENT (3 credits)
This course is designed to provide direct work experience in the emergency management field for selected students. This experience will be in a full-time or part-time, preferably paid position, in a highly structured environment. Student will be selected following formal job placement procedures and screening by Emergency Management Faculty and the participating organization. This course is intended for upper level, Emergency Management majors who have been selected following an application and interview process approved by both the School of Public Administration and the intern provider.
Prerequisite(s)/Corequisite(s): PA 3000 / CRCJ 3000; EMGT 3040, EMGT 3080, EMGT 4060; Instructor’s Permission Required.

EMGT 4800 SPECIAL READING IN EMERGENCY MANAGEMENT (3 credits)
This course is intended for upper-level Emergency Management degree students who are pursuing advanced specialized areas of knowledge in Emergency Management. The course is conducted under an independent study format, and subject matter will vary based on the interests of the student. Learning outcomes will be established by the instructor and shall remain consistent with Emergency Management curriculum goals. Faculty approval is required prior to registration.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree or non-degree graduate students. Students will need faculty approval.

EMGT 4900 SPECIAL TOPICS IN EMERGENCY MANAGEMENT (3 credits)
This course is meant to provide upper-level EMGT students with an in-depth look at current and future issues affecting the Emergency Management industry and industry professionals. Possible topics include disaster case studies, comparative international studies, issues in federalism, and Continuity of Operations (COOP). Subject matter will vary by student interest and by faculty preference. Students may repeat the course for additional academic credit as long as the course topic is not duplicated.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree or non-degree graduate students. Students will need faculty approval.

EMGT 4990 CAPSTONE PROJECT IN EMERGENCY MANAGEMENT (3 credits)
This course fulfills the Emergency Management Capstone senior project demonstrating expertise on a specific issue area and/or problem in emergency management. The student will be required to construct and execute a research project analyzing a contemporary operational, economic, or managerial issue within emergency management utilizing an appropriate research or analytical methodology. Both a written report and PowerPoint presentation will be presented as part of the course requirements.
Prerequisite(s)/Corequisite(s): PA 3000 / CRCJ 3000; EMGT 3040, EMGT 3080, EMGT 4060; Instructor’s Permission Required.

Emergency Management (BSEM), Bachelor of Science
The Bachelor of Science in Emergency Management is interdisciplinary in nature with core coursework focusing on emergency management. A minimum cumulative GPA of 2.0 is required to graduate.

The program prepares students academically for employment in the public sector at the local, state, or federal level of government, as well as in nonprofit and private companies performing risk management, emergency preparedness planning and mitigation to support continuity of operations (COO) and sustainability of communities and private enterprise. Students will gain a thorough understanding of interagency cooperation, public/private partnership coordination, and communication as well as administrative issues involving policies and procedures, labor relations, and fiscal matters.

Requirements
A minimum of 120 credit hours is required for a Bachelor of Science in Emergency Management (BSEM). Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.
To obtain a BSEM, a student must fulfill the University, College, and Program requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once. Grades of C- or better are required in the University General Education courses and in the 60 core hours.
• 40 to 46 hours of University General Education courses
• 30 hours of Emergency Management Core courses
• 30 hours in two 15-hour areas of concentration
• Elective hours as needed to reach 120 total credit hours

TOTAL HOURS: 120

Writing in the Discipline Courses:

Total Credits: 30
Concentration Areas (two 15-hour concentrations with 9 upper level hours in each)

- Aviation Administration
- Criminology and Criminal Justice
- Fire Service Management
- Gerontology
- Geospatial Science
- Information Technology and Communication
- Intelligence and Security
- Natural Disasters
- Nonprofit Management
- Planning and Preparing for Urban Hazards
- Private Sector Management
- Public Administration and Management
- Public Health
- Tribal Management and Emergency Services

Aviation Administration
An emphasis on threats related to air travel, airport security, and disaster response.

Total Credits 18
Fire Service Management Minor

A minor in Fire Service Management provides an in depth cross-section of the Fire Service profession. Students will gain valuable information that will enhance their primary field of study as well as their marketability in the workforce.

Requirements

The minor requires the following 18 credit hours with grades of C- or better:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EMGT 1000</td>
<td>INTRODUCTION TO EMERGENCY MANAGEMENT</td>

<td>3</td>
</tr>
<tr>
<td>FSMT 4450</td>
<td>FIRE AND EMERGENCY SERVICES ADMINISTRATION</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 18

Tribal Management and Emergency Services Minor

Tribal Management and Emergency Services provides an in depth cross-section of the Tribal Management and Emergency Services profession. At present, there are 567 recognized U.S. Tribal Nations. Each of these nations possess inherent rights of self-governance that are expected to simultaneously conduct governmental tribal functions while cooperating and complying with many local, state, and federal government regulations and laws.

This complex system of administration presents many challenges for Native Governments, particularly when faced with natural or man-made disasters that threaten tribal lands and interests. These threats to tribal communities are often compounded by lack of resources existing in reservation populations. Understanding the complex legal, historical, and cultural issues affecting tribal government management and provision of crisis response is essential to provide routine and emergency services to native communities.

Requirements

The certificate requires 15 credit hours of the following with grades of C- or better:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EMGT 1150</td>

</tr>
<tr>
<td>EMGT 4050</td>
<td>INTEGRATION OF CONTEMPORARY ISSUES IN TRIBAL EMERGENCY MANAGEMENT</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 15

Nonprofit Management Minor

As UNO continues to serve as the State’s premiere metropolitan university, the Nonprofit Management Minor exemplifies UNO’s metropolitan and collaborative extension to the community.

Our Mission

Along with the University of Nebraska at Omaha’s strategic plan, the School of Public Administration upholds the esteemed pleasure of placing students first and achieving academic excellence all while engaging with the community.

By entrusting students with the necessary information to lead, manage, and ignite change within the nonprofit sector, our university continues to rise to the forefront of community engagement.

Skills Acquired

Upon completion of the Nonprofit Management Minor, students will have the necessary skills needed to work in the nonprofit field.
• To equip students with the knowledge and competencies to successfully manage and lead organizations in the nonprofit sector.
• To provide a foundation in financial management, facilitating community change, marketing, and managing volunteers and staff within a nonprofit organization.
• To complement a wide variety of majors across the university system.

Student-Centered
The nonprofit sector is on the rise, with wages and employment exceeding both private and government entities the past decade. With 1.6 million registered nonprofits in the U.S., the need to educate and empower UNO students with the skills to lead the nonprofit sector in the Omaha metro is crucial. As interest in the nonprofit sector continues to climb, so will the need to service the Omaha community and the State of Nebraska in its effort to meet the needs of its growing population. The Nonprofit Management Minor is open to students in any discipline area at UNO.

What is the Nonprofit Leadership Alliance?
Another way to work toward these Nonprofit Management Minor courses is to join the Nonprofit Leadership Alliance. The Nonprofit Leadership Alliance (NLA) is a coalition of colleges, universities, and nonprofit organizations devoted to preparing, educating and certifying college students to excel in nonprofit careers. UNO is one of over 30 campus affiliates offering the Certified Nonprofit Professional (CNP) credential. The program is open to all undergraduate students, pursuing any major, and is housed in the School of Public Administration, College of Public Affairs and Community Service.

Gerontology

A mission/vision statement for the unit:
As the primary provider of gerontological education and research in the state of Nebraska, the mission of the Gerontology department is to advance the study of aging by educating future, post-secondary instructors, researchers and practitioners in a manner that will prepare them to address the challenges and opportunities of an aging population in areas such as program planning, evaluation and effective service delivery.

Department Website (http://www.unomaha.edu/gero)
Undergraduate Programs Website (http://www.unomaha.edu/college-of-public-affairs-and-community-service/gerontology/academics)

General Information

Overview of Degree Programs

Bachelor of Science in Gerontology
The Bachelor of Science in Gerontology requires completion of 120 credit hours with a cumulative GPA of 2.0. Admission into the program requires a 2.50 GPA.

General Education
All students complete the UNO General Education requirements.

Admission Requirements
All undergraduate Gerontology programs require a 2.50 GPA to be admitted. Students should consult with the academic advisors on the best program to fit their needs. To set up an appointment, students should contact the academic advisor directly.

Maximum/Minimum Credits
B.S. in Gerontology – 120 credits
Certificate in Gerontology – 18 credits (15 credits of coursework, 3 credits of practicum)
Minor in Gerontology – 18 credits

Residency Requirement
B.S. in Gerontology:

• 30 out of the last 36 credit hours must be taken at UNO or UNL.
• 21 hours of Gerontology Core and Gerontology Electives must be taken at UNO or UNL.

Transfer Credit Policy
All Programs:

• Transfer courses from other institutions must be a “C-” or higher.
• Transfer coursework will only be accepted from regionally accredited institutions.

B.S. in Gerontology:

• Up to 64 credits can be applied from regionally accredited two-year institutions.
• Up to 12 credits of military training can be applied to the degree.

Unacceptable Credits
Gerontology coursework from UNO, UNL and other institutions that is over 10 years old will be reviewed on an individual basis. Depending on current course content and updated research, older courses may not be applicable to the program.

Credit from technical programs such as Certificate Nursing Assistant (CNA) and Medical Assistant (MA) do not apply to Gerontology programs. Clinical hours from Nursing programs (RN, BSN & LPN) do not apply. Students with these types of transfer credit should consider the Gerontology concentration in the Division of Continuing Studies as an alternative.

Dean’s List
See University and College policies

Honors
See University and College policies

Quality of Work
All Programs:
• A 2.50 GPA is required for admission to any program.

B.S. in Gerontology:
• All Gerontology coursework must be completed with a “C-” or higher. CR/NC is not accepted.
• Students must maintain a 2.0 GPA to be in good academic standing with the University.

Certificate in Gerontology:
• All Gerontology courses must be completed with a “C” (2.0 GPA) average. CR/NC is not accepted.

Minor in Gerontology:
• All Gerontology courses must be completed with a “C” (2.0 GPA) average. CR/NC is not accepted.

Completion of Incomplete Grade
By the end of the following semester.

Repeating Courses
Allowed with no limit.

Grade Appeal Policy
See College policy.

Probation/Suspension
See University policy.

Academic Amnesty
N/A

Academic Advising
Academic advising is provided for all students. To contact an advisor, visit CPACS 210A, email aselden@unomaha.edu or call (402) 554-2114.

Senior Check
N/A

Application for Degree
Must apply online through Registrar’s office.

Administration of the Program
The Bachelor of Science is available on the UNO campus only. The minor is available on the UNL and UNO campuses.

The UNO Department of Gerontology administers the Certificate in Gerontology program for all campuses of the University of Nebraska under an agreement approved by the Board of Regents in 1977. Students at UNL, UNO, UNK, and UNMC are thus able to earn the certificate as part of their academic work at the University of Nebraska.

In addition to undergraduate and graduate courses, the department of gerontology conducts research, community service and provides educational programming for the community.

Degrees Offered
• Gerontology, Bachelor of Science (p. 408)

Double Major or Double Degree in Gerontology
Due to the multidisciplinary nature of Gerontology, a double major or double degree may be applicable to many programs. Admission into the program requires a 2.50 GPA. A double major requires 42 credit hours.

Double Degree in Gerontology
Students must complete all general education, college requirements and major requirements for two programs with a minimum of 150 credit hours. Students will receive two diplomas and must meet the University Double Degree requirements outlined in the catalog.

Double Major in Gerontology
Students will earn one diploma and will complete all general education, college requirements and major requirements for one program, while completing only Gerontology major coursework for their second major.

GERO 4100 EDUCATIONAL GERONTOLOGY (3 credits)
This course is intended for students in gerontology and other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people. (Cross-listed with GERO 8356).

GERO 4420 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with GERO 8426, RLS 4420, RLS 8426).

GERO 4460 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with PSYC 4460, GERO 8466).

Prerequisite(s)/Corequisites:
1. Each course must be completed with a "C-" or higher. No CR/NC can be applied.
2. Course must be completed with a "C" or higher. No CR/NC can be applied.
3. Pre-requisite: 9 credit hours in Gerontology, 2.50 GPA
4. To encourage important real-world experience before graduation, all students complete 156 hours in a practicum site of their choice.

Minors Offered
- Gerontology Minor (p. 410)

Certificates Offered
- Gerontology Certificate (p. 410)

GERO 1070 SURVEY OF AGING & DYING (3 credits)
A survey of important concepts relating to later maturity and the end of life. This course will serve as an elective for students who do not intend to specialize in gerontology, but who wish to have some perspective on development in late life and issues relating to death and dying.

GERO 2000 INTRODUCTION TO GERONTOLOGY (3 credits)
An introduction to social gerontology and human development in later life; emphasis is on important elements of aging, such as socialization, family interaction, retirement, physical and psychological aging, and perceptions of older persons in contemporary society.

Distribution: Social Science General Education course and U.S. Diversity General Education course

GERO 3070 DEATH & DYING (3 credits)
An interdisciplinary survey of literature in the field of thanatology, with an emphasis on working with the older patient and his or her family. (Cross-listed with HED 3070).

GERO 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)
The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with BIOL 3500, NEUR 3500)

Prerequisite(s)/Corequisites:
1. Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

GERO 4100 EDUCATIONAL GERONTOLOGY (3 credits)
An introduction to the field of education for and about the aging. The institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging. (Cross-listed with GERO 8106).
**GERO 4590 DISORDERS OF COMMUNICATION IN OLDER ADULTS (3 credits)**
This course is designed to familiarize the student with the identification and symptomatology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. It is beneficial to students majoring in gerontology or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields. Graduate: Students are assigned contacts with and written reports of contacts with an older adult who manifests a disorder of communication. (Cross-listed with GERO 8596).

**GERO 4670 PROGRAMS AND SERVICES FOR THE ELDERLY (3 credits)**
This course is provided to give the student an historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO 8676).  
Prerequisite(s)/Corequisite(s): Junior or senior. Not open to non-degree graduate students.

**GERO 4690 WORKING WITH MINORITY ELDERLY (3 credits)**
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 8696, SOWK 4040, SOWK 8046).

**GERO 4720 BABY BOOMERS AND THE 21ST CENTURY (3 credits)**
Marketing decisions and strategies apply to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses. (Cross-listed with GERO 8726).  
Prerequisite(s)/Corequisite(s): Junior, Senior or Graduate Level Standing.

**GERO 4750 MID-LIFE, CAREER CHANGE, PRERETIREMENT PLANNING (3 credits)**
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implication of preretirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with COUN 8756, GERO 8756).  
Prerequisite(s)/Corequisite(s): Junior Standing, permission of instructor. Not open to non-degree graduate students.

**GERO 4850 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)**
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 8856, SOWK 4850, SOWK 8856.)  
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**GERO 4920 SPECIAL STUDIES IN GERONTOLOGY (1-3 credits)**
Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics or politics of aging, as well as operation of various service systems. The studies may be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.  
Prerequisite(s)/Corequisite(s): Six hours in gerontology or permission.

**GERO 4940 PRACTICUM (3 credits)**
This course provides the opportunity to students to share field experiences; to obtain guidance concerning various relationships with agency, staff and clients; and to develop a broadly based perspective of the field of aging.  
Prerequisite(s)/Corequisite(s): Nine hours in gerontology and permission. Students must be enrolled in the GERO program and have a minimum GPA of 2.5. Not open to non-degree graduate students.

**GERO 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)**
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.  
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

**GERO 4980 COUNSELING SKILLS IN GERONTOLOGY (3 credits)**
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with COUN 8986, GERO 8986).  
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

Gerontology Certificate

The Certificate in Gerontology requires completion of 18 credit hours and a cumulative GPA of 2.0 for all Gerontology coursework. Admission into the program requires a 2.50 GPA. The requirements for the Certificate can be completed online or on campus.

Gerontology Coursework

(15 credit hours, an overall average of 2.0, no CR/NC can be applied.)

Students choose coursework based on career objectives and interest areas and should consult with a Gerontology academic advisor for a plan of study.

Strongly Recommended Courses for all students: GER 2000, GER 4460 and GER 4670

Strongly Recommended Course for Pre-Health: GER 4550

Gerontology Practicum

(3 credit hours, course must be complete with a "C" or higher. No CR/NC can be applied.)

To encourage important real-world experience before graduation, all students complete 156 hours in a practicum site of their choice.

GER 4940: Practicum (Pre-requisite: 9 credit hours in Gerontology, 2.50 GPA. No CR/NC can be applied.)

The Certificate program may be used as a minor or a concentration within other degrees. Students should consult with their major/college academic advisor to determine how the Certificate applies to their degree program. Students who wish to work toward the Certificate must meet with an academic advisor in the Department of Gerontology to apply.

Gerontology Minor

Requirements

The Minor in Gerontology requires completion of 18 credit hours with a cumulative GPA of 2.0 for all Gerontology coursework. Admission into the program requires a 2.50 GPA. The requirements for the Minor can be completed online or on campus.

Code  Title  Credits
GER 2000  INTRODUCTION TO GERONTOLOGY  3
GER 4460  PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING  3
GER 4670  PROGRAMS AND SERVICES FOR THE ELDERLY  3

Select coursework based on career objectives and interest areas and consult with a Gerontology academic advisor for a plan of study.

Total Credits  18

1  An overall average of 2.0, no CR/NC can be applied.

For students pursuing a career path in the Pre-Health, GER 4550 is strongly recommended.

Goodrich Scholarship Program

Description

The Goodrich Scholarship Program, established by the Nebraska legislature in 1972, is an academic unit of the College of Public Affairs and Community Service. The program offers a merit-and-need-based scholarship for Nebraska residents who qualify through the Goodrich scholarship application process. The program provides financial aid in the form of tuition and general fees for up to 135 credit hours or until graduation (whichever comes first). The Goodrich scholarship is designed for full-time students at UNO only. The program also offers a UNO GenEd-related humanities/social science curriculum that emphasizes intellectual and cultural diversity at local and global levels. Goodrich programing includes a comprehensive menu of academic and non-academic support services and activities that enhance or advance student success.

Mission

The mission of the Goodrich Scholarship Program is to offer affordable quality undergraduate education to eligible low-income Nebraska residents who qualify through the Goodrich scholarship application process.

Other Information

Strategic Goals

The Goodrich Scholarship Program aligns itself with CPACS and the University of Nebraska at Omaha’s strategic goals of being student-centered, maintaining academic excellence, and being community-engaged.

Program Goals

• To provide scholars opportunities for sound and innovative educational experiences
• To enable scholars to connect with each other, with faculty, with the university, and with the community
• To empower scholars to build strong positive self-concepts, and
• To equip scholars with skills that will enable them to assume leadership roles.
Student Group
The Goodrich Organization! (GOI). Goodrich's student body, opens up leadership opportunities to all Goodrich students. GOI's many activities include fundraising and community engagement with organizations such as P4K and BBBS. For suggestions or more specific GOI information, contact GOI faculty adviser Troy Romero (402) 554-3466.

Admissions
Goodrich uses a composite of selection criteria to evaluate both merit and financial need. Criteria include the individual’s application data, financial analysis, academic record, in-person interview, English Placement/Proficiency Exam (EPPE), personal life-experience essay, and references. Note that applicants who will have earned more than 31 college credits by May of the application year are not eligible. For more information, contact the Goodrich Scholarship Program.

Scholarship Note
Applicants who receive tuition scholarships, including but not limited to Regents, Chancellor’s, Dean’s and Buffett, cannot combine or stack any of those awards with a Goodrich scholarship. For more information about stacking scholarships, please contact UNO's Office of Financial Support and Scholarships at (402) 554.2327.

BSSW Program
The Bachelors of Science in Social Work (BSSW) program has received continuous accreditation from the Council on Social Work Education since 1975. The mission of the Grace Abbott School of Social Work is to educate students to become highly qualified social workers who serve people of all ages and influence the systems that affect them, to advance knowledge through teaching and research, and to engage with diverse communities to promote socially just societies.

The BSSW program prepares graduates for beginning social work practice within a variety of social service settings. This degree qualifies graduates to receive the Certified Social Worker credential (CSW) in the state of Nebraska. Other states with licensure and certification of BSSW level social workers will also recognize this degree for licensure or certification. It also prepares students for advanced graduate social work education (the MSW degree).

Admission to the BSSW Program
Upon completion of approximately 50 credit hours, the student may apply for formal application for the BSSW degree program. The deadline for application is March 15th for admission for the following fall semester (the start of the junior year). Admission to the BSSW Program is competitive, based on a combination of the following criteria:

- Completion of pre-professional courses with a cumulative Grade Point Average of 2.50 or higher.
- Successful performance in the two pre-professional social work courses (SOWK 1000 and SOWK 1500) with a grade of B or better.
- Positive references and a well written personal statement evidencing potential for successful practice in the field of Social Work.

For more information:
please visit the Web (https://www.unomaha.edu/college-of-public-affairs-and-community-service/social-work) or call 402-554-4928

SOWK 1000 SOCIAL WORK AND SOCIAL WELFARE (3 credits)
This course is designed for the student who wants to explore a possible major in social work, and/or to learn more about social work and its functions in society. We examine historical and current issues and problems in social welfare, social services, and the social work profession. The focus of this course is on the values, beliefs, and goals of social work in the United States.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course and Social Science General Education course
SOWK 1500 SOCIAL WORK AND CIVIC ENGAGEMENT (3 credits)
This course is designed to acquaint the student with the social work profession, professional roles and functions, and social services delivery systems. Students will learn about the diverse opportunities associated with social work practice, agency systems and macro perspectives. This is a service learning course, and requires 30 hours of volunteer service in an approved social service agency.

SOWK 2120 RACE, CLASS AND GENDER IN THE UNITED STATES (3 credits)
This course examines the effects of race, class, and gender on social policy and social injustice. The focus is on the institutional manifestations of racism, classism and sexism, and how these are interconnected and are mutually reinforcing. The consequences of these institutionalized oppressions are examined at the individual, group, family and societal levels.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

SOWK 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR (3 credits)
A course in the basic statistics of social work. The emphasis is on exploration of data processing and techniques as they relate to statistical analysis and on understanding the proper application of statistics. (Cross-listed with CRCJ 3000, PA 3000).
Prerequisite(s)/Corequisite(s): MATH 1310 or permission of the School.

SOWK 3010 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I (3 credits)
This course focuses on major contributions of theories from the biological, social, and behavioral sciences that help to understand human functioning across the lifespan, particularly infancy through adolescence, within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities), as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): PSYC 1010, SOC 1010, BIOLOGY 1020, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3020 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II (3 credits)
This course focuses on major contributions of theories from the biological, social, and behavioral sciences that help to understand human functioning across the lifespan, particularly infancy through adolescence, within the social environment at the micro- and macro-level (e.g., large groups, organizations, institutions, communities, society), as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): SOWK 3010. Not open to non-degree graduate students.

SOWK 3110 SOCIAL WELFARE POLICY I (3 credits)
This course is an introduction to social welfare policy analysis. The course examines social welfare policy taking into account historical, political, economic, social, and cultural perspectives. Basic concepts and choices are examined in relation to values, ethics, context, social functioning and social consequences.
Prerequisite(s)/Corequisite(s): PSCI 1000 or PSCI 1100, ECON 1200 or ECON 2220, HIST 1120, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3320 SOCIAL WORK PRACTICE I (3 credits)
This course provides an introduction to the values, ethics, knowledge, and skills of generalist social work practice. Using constructs from the Generalist Intervention Model, systems theory, and the strengths-based perspective, students learn about engagement, assessment, planning and contracting, intervention, evaluation, and termination. Diversity and case management are emphasized as part of bringing planned change to client systems.
Prerequisite(s)/Corequisite(s): PSYC 1010, SOC 1010, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3350 SOCIAL WORK PRACTICE II (3 credits)
This course reinforces the values, ethics, knowledge, and skills of generalist social work practice. Students gain specific knowledge and skills in assessing, intervening and terminating with families. Students will learn about the process of development and implementation of groups.
Prerequisite(s)/Corequisite(s): SOWK 3320. Not open to non-degree graduate students.

SOWK 3890 WRITING FOR SOCIAL WORK (3 credits)
This course emphasizes the process of critical thinking and analysis and the process of effective professional writing as required for generalist social work practice. Students will apply selected generalist social work concepts to prepare writing samples such as research/term papers, client progress/psychosocial reports, analytical reviews, professional development papers, business communications, and grant proposals. Research and writing skills emphasized are: conducting electronic literature searches, outlining, paragraph and sentence structure, revising, using APA format, and proofreading for correct grammar, word usage, and punctuation.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1160, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 4020 SOCIAL WORK WITH THE AFRICAN AMERICAN FAMILY (3 credits)
This course seeks to develop in students an awareness and understanding of some of the social and psychological/cognitive realities influencing the behavior of African American youth and families across the lifespan. The content draws upon theories, research and social work practice skills relevant to African American youth and families, as well as the cognitive process and social systems which impact African youth and families. (Cross-listed with SOWK 8026)
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School.

SOWK 4040 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 4690, GERO 8696, SOWK 8046).
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School.

SOWK 4050 ETHNIC DIVERSITY AND SOCIAL WORK PRACTICE (3 credits)
This course focuses on effective generalist social work practice with clients of ethnic diversity. (Cross-listed with SOWK 8056)
Prerequisite(s)/Corequisite(s): BSSW degree students only. Not open to non-degree graduate students.

SOWK 4360 SOCIAL WORK PRACTICE III (3 credits)
This course is an introduction to a goal-oriented planned change process with an emphasis on task groups, organizations, and communities.
Prerequisite(s)/Corequisite(s): SOWK 2120, SOWK 3110, and SOWK 3350. Not open to non-degree graduate students.

SOWK 4400 RESEARCH METHODS IN SOCIAL WORK PRACTICE (3 credits)
Focus will be on the scientific method as it is applied to social work research. The purpose of all social work research is to answer questions or solve problems. The six phases of the research process will be identified and the basic tasks to be accomplished in each phase will be learned. Special attention will be given to evaluating social work practice.
Prerequisite(s)/Corequisite(s): SOWK 3000. Prior to or concurrent: SOWK 4360. Not open to non-degree graduate students.
SOWK 4410 GENERALIST SOWK PRACTICUM I (5 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a selected social service agency. The student will be introduced to a variety of social work practice roles, develop professional relationships with client systems and learn to apply a number of interventional modalities to effect change across the life span. In order to facilitate integration of classroom theory with practice, students will attend a seven-week practicum seminar (2 hours per week).
Prerequisite(s)/Corequisite(s): Prior: SOWK 2120, SOWK 3020, SOWK 3350. Prior to or concurrent: SOWK 3890 and SOWK 4360. Not open to non-degree graduate students.

SOWK 4420 GENERALIST SOWK PRACTICUM II (5 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a social service agency, typically the same agency as in SOWK 4410. This course builds upon opportunities provided and competence achieved in Generalist Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 4410 prior to or concurrent. Not open to non-degree graduate students.

SOWK 4450 SENIOR SOCIAL WORK SEMINAR (1 credit)
This course is intended as an integrating senior seminar designed to be taken with the final course of practicum. It facilitates the transition from student to professional social worker through the use of specific assignments focused on areas of resume development, continuation of research, awareness of continuing education needs, issues of licensure, and exposure to social work professionals.
Prerequisite(s)/Corequisite(s): SOWK 4410 prior to or concurrent. Not open to non-degree graduate students.

SOWK 4510 TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, COUN 8516, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.

SOWK 4620 TRAMA AND RESILIENCE (3 credits)
This course provides an overview of issues related to trauma including: the factors related to development of trauma, definitions of trauma, the impact of trauma on individuals, families and communities, and the programming and practices that are most effective and appropriate regarding the social work role in responding to trauma. (Cross-listed with SOWK 8626)
Prerequisite(s)/Corequisite(s): SOWK 3010 and SOWK 3020

SOWK 4640 SOCIAL WORK IN CHILD WELFARE (3 credits)
This course examines the history, challenges, and issues of governmental intervention in families to protect at-risk children. The course concentrates on the effects of the 1980 federal legislation (PL 96-272) on child welfare delivery systems and practice. It provides a comprehensive overview of child welfare services, including child protective services, in-home services, foster care, group care, intergenerational childcare, and adoption. It also provides an overview of the juvenile justice system and its impact on children and their families.
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]

SOWK 4650 SOCIAL WORK IN MENTAL HEALTH AND WITH INTELLECTUAL DISABILITIES (3 credits)
This is an introductory course to increase understanding of mental health and intellectual disability issues facing social workers. The focus is on history, contemporary trends, legal and practice implications, human rights, social justice, assessment and delivery of culturally competent services.
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]

SOWK 4680 MEDICAL AND PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 8686, COUN 4680, COUN 8686).
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or permission of the School.

SOWK 4690 ASSESSMENT AND CASE MANAGEMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, COUN 8696, SOWK 8696).
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or permission of the School and SOWK 4680 or COUN 4680 (or equivalent course) prior to or concurrent.

SOWK 4800 SOCIAL WORK AND THE LAW (3 credits)
This course presents the fundamental principles of criminal and civil law that have relevance to the practice of social work. Topics include the legal system; legal research methods; professional ethical/legal responsibilities and liabilities; family law; elder law; criminal law; juvenile law; personal injury law; employment discrimination law; capacity to make contracts and wills; rights of institutionalized patients; and rights of handicapped children to an education. (Cross-listed with SOWK 8806)
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.

SOWK 4810 SPIRITUALITY AND SOCIAL WORK PRACTICE (3 credits)
Social work literature defines spirituality as the human striving for a sense of meaning, purpose, values, and fulfillment. Spirituality is expressed through diverse forms throughout a client’s lifespan; it is central to clients’ understanding of suffering and their attempts to resolve it. This course examines major issues pertaining to spiritually-sensitive social work practice with clients of diverse religious and non-religious (i.e., outside sectarian institutional contexts) perspectives. (Cross-listed with SOWK 8816)
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.

SOWK 4830 CRISIS INTERVENTION (3 credits)
This course is designed to increase knowledge and skills for practice with crisis situations. The prevalence of crisis experiences within our society and lifespan development necessitates that social workers acquire a knowledge and skill-base for effective and professional crisis intervention practice. Students will study the ABC Model of Crisis Intervention and how to ethically practice with diverse and vulnerable populations. Students will apply crisis intervention theory and models of intervention to various concern areas including but not limited to: suicide, sexual assault, domestic violence, substance abuse, grief and loss, and violence. A systems, strengths, and cultural emphasis will be applied to the various crisis situations covered. (Cross-listed with SOWK 8836)
Prerequisite(s)/Corequisite(s): SOWK 3320. Not open to non-degree graduate students.

SOWK 4850 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, GERO 8856, SOWK 8856.)
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.
SOWK 4880 TOPICAL SEMINAR IN SOCIAL WORK (3 credits)
Specific seminar topics will focus on advanced content in social work theory and practice. The course description will be announced when a specific topical seminar is proposed. The topics selected will be consistent with School of Social Work program objectives, faculty expertise, and student needs. This course may be repeated for up to nine hours credit. (Cross-listed with SOWK 8886)
Prerequisite(s)/Corequisite(s): SOWK 3320.

SOWK 4890 SPECIAL STUDIES IN SOCIAL WORK (1-4 credits)
This independent study course allows students to pursue a special selected area or topic within social welfare in order to deepen knowledge and/or skills in that particular area.
Prerequisite(s)/Corequisite(s): SOWK 3010, SOWK 3110, SOWK 3320, and permission of the School. Not open to non-degree graduate students.

SOWK 4890 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by an approved faculty member. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program and permission of the School.

Social Work, Bachelor of Science

Requirements
The curriculum for the degree is divided into two segments – the pre-professional social work curriculum and the BSSW program. An undergraduate student who selects a social work major is required to take the following pre-requisite courses during their freshman and sophomore years:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOWK 1000</td>
<td>SOCIAL WORK AND SOCIAL WELFARE</td>

</tr>
<tr>
<td>BIOL 1020</td>
<td>PRINCIPLES OF BIOLOGY</td>
<td>5</td>
</tr>
</tbody>
</table>

Total Credits: 38

Along with the 62 pre-requisite credits and the 44 credits required for the social work major, students will need to take an additional 14 credits of general electives to complete 120 credit hours in order to graduate.

Division of Continuing Studies
The Division of Continuing Studies (DCS) is committed to fostering the success of students enrolled in the Bachelor of Multidisciplinary Studies Degree Program (BMS). The Division of Continuing Studies is an academic unit located in the College of Public Affairs and Community Service (CPACS). DCS has maintained an office presence at Offutt Air Force Base (AFB) since 1950.

The Bachelor of Multidisciplinary Studies Degree (BMS) is a flexible, multidisciplinary bachelor’s degree program designed especially for adult, military, and transfer students. The individualized nature of the program provides opportunities to customize the degree to support career goals, satisfy personal aspirations, or prepare for graduate study.

The BMS Degree is available online, on-campus, or through a combination of online and on-campus classes. Awarded to over 23,000 students since 1951, it is one of the nation’s oldest multidisciplinary degrees and is part of UNO’s longstanding, rich tradition of serving military and veteran students.

Degrees Offered
• Bachelor of Multidisciplinary Studies (p. 414)

Bachelor of Multidisciplinary Studies
Designed to accommodate the unique circumstances and needs of adult, transfer and military students, the Bachelor of Multidisciplinary Studies Degree:
• Offers over 50 areas of study and affords maximum flexibility of course selection and degree design. Students may choose courses and areas of study to meet individual career goals or requirements, prepare for graduate study, or satisfy personal interests and aspirations.
• Maintains its origins as a military/veteran-friendly degree and grants credit for military experience and education.
• Facilitates student success through professional, personalized academic advising services.
• Supports the geographic mobility through its residency policy and extensive array of course options. Students can take classes online, on campus, or at off-campus locations, including Offutt Air Force Base.
• Includes credit by examination provisions, enabling students to establish academic credit for acquired knowledge (e.g. CLEP, DSST).
• Allows liberal acceptance of academic transfer credit from regionally accredited postsecondary institutions.
• Offers an academic amnesty policy. This policy gives students the opportunity to improve their grade point average by retaking classes to replace low course grades earned within the University of Nebraska System.
• Permits students to complete degree requirements of the UNO Catalog under which they entered the Division of Continuing Studies, allowing unforeseen interruption of studies without changes in degree requirements.
• Features credit-granting policies for approved formal learning experiences obtained outside the college/university classroom (non-traditional credit).

To learn more about the Bachelor of Multidisciplinary Studies Degree, visit www.unomaha.edu/dcs (https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies) or schedule a meeting with an academic advisor at one of our two division of Continuing Studies locations:
• CPACS 207 | 402.554.2370 | unodcs@unomaha.edu
• Office at Offutt Air Force Base | 402.595-2371 | unooffutt@unomaha.edu

Admission Requirements
• Students must be 21 years of age to be admitted into the Division of Continuing Studies. Exceptions to this rule include military students; students who are “holding” for their preferred UNO academic degree/department/college, usually for the purpose of raising their grade point average; and students pursuing an area of concentration that is not represented by a UNO Bachelor of Arts or Bachelor of Science degree.
• Students must submit a high school transcript. Adults who have not completed high school must complete the high school equivalency examination (GED).
• ACT or SAT scores are not required.
• Active duty military personnel may be admitted prior to reaching age 21; however, military students under age 21 must submit high school transcripts and either an ACT or SAT score.
• College/university-level courses completed with a grade of C or better are usually accepted from regionally accredited colleges and universities. A maximum of 64 semester hours is accepted from two-year institutions such as community colleges.

Bachelor of Multidisciplinary Studies Requirements
To complete the Bachelor of Multidisciplinary Studies Degree (BMS), a student must earn a minimum of 120 semester hours and maintain a minimum 2.0 cumulative grade point average. Twenty-four of the last 48 semester hours must be from UNO courses. Thirty hours must be upper division courses numbered 3000-4000, including 9 hours from UNO in the area of concentration. A grade of C- or above must be earned in all UNO General Education core courses and in all courses applied toward an area of concentration or an area of emphasis (non-concentration).

The Bachelor of Multidisciplinary Studies is available through two degree plans:

The “Area of Concentration Required” plan generally requires a 30-credit area of concentration and two secondary fields of 12 credits each. The

<table>

Cultural diversity requirements include 3 hours in U. S. Diversity and 3 hours in Global Diversity.

**Bachelor of Multidisciplinary Studies Degree**

**Non-Traditional Credit**

The Division of Continuing Studies grants non-traditional credit for formal training experiences evaluated by the American Council on Education (ACE) and the Board of Regents of the State of New York System (PONSI) and/or approved by the Division’s Faculty Academic Policy Committee (FAPC). A maximum of 65 hours from non-traditional sources can be used in the Bachelor of Multidisciplinary Studies Degree.

The Division of Continuing Studies does not support portfolio or non-portfolio evaluation of students’ life experiences. The Division and the FAPC rely on expert opinion to evaluate standardized training and examinations and believe that such a policy upholds the quality, integrity, and standards of the BMS Degree. When appropriate, students may be encouraged to test for credit in areas they believe they are knowledgeable.

**Bachelor of Multidisciplinary Studies Degree Areas of Concentration**

The curriculum of each BMS Area of Concentration is determined by the faculty of the respective academic department. Area of Concentration curricular revisions are at the discretion of the academic department.

**Agricultural Sciences and Natural Resources**

**General Information**

The University of Nebraska at Omaha (UNO) cooperates with the College of Agricultural Sciences and Natural Resources (CASNR) at the University of Nebraska-Lincoln (UNL) in providing four-semester pre-agricultural sciences, pre-natural resources, pre-food science and technology, pre-turf and landscape management, and pre-horticulture transfer programs. A student enrolled in these programs may transfer all satisfactorily completed academic credits identified in the suggested program of study, and enter CASNR to study toward a major leading to a Bachelor degree. The total program would require a minimum of four years or eight semesters (15 credit hours/semester or 120 credit hours).

UNL CASNR faculty teach horticulture and food science and technology courses at UNO to assist an urban population in better understanding the food processing, horticulture, and landscape horticulture industries. For further information on these classes, see the “Course Descriptions” section in this catalog.

**For More Information...**

Dean’s Office, CASNR, University of Nebraska-Lincoln, 1-800-742-8800; ext. 2541; or Anne Streich, Undergraduate Coordinator, UNL Agronomy/Horticulture, astreich2@unl.edu, 402-472-1640.

**Web Sites**

www.agronomy.unl.edu (http://www.agronomy.unl.edu) and http://mavtrack.unomaha.edu/

**Pre-Agricultural Sciences - Transfer Program**

Students who successfully complete this program may enter CASNR to study in a program of their choice that leads to a Bachelor of Science or a Bachelor of Arts degree.

Degrees for four-year programs include agribusiness, agricultural economics, agricultural education, agricultural & environmental sciences communication, agronomy, animal science, applied science, biochemistry, forensic science, grazing livestock systems, hospitality, restaurant & tourism management (bachelor of arts), insect science, integrated science, mechanized systems management, microbiology, plant biology, PGA golf management, veterinary science, and veterinary technology.
Requirements

The following suggested program of study fulfills the minimum requirements for the first four semesters of any agricultural sciences degree program. Since degree program requirements vary, students are expected to work closely with UNL advisors to ensure appropriate course selection.

Credits 15-17

Additional Information

Requirements for natural sciences vary among degree programs, and not all programs require biology, chemistry and physics (some minimally require courses from two of the three science areas). Please verify specific requirements with a CASNR advisor and/or the UNL Catalog before selecting natural sciences courses.

Biology Requirements

Majors vary in biology course sequence and availability of equivalent courses at UNO. Please verify specific requirements.

Hours earned in MATH 1320 will not count toward the mathematics requirements for UNL CASNR. Students are encouraged to use MATH 1320 as a free elective for their UNL CASNR program of study if they have an algebra deficiency. Students should complete their mathematics sequence at UNO. Since certain majors require calculus, the student is encouraged to review the UNL Undergraduate Bulletin for requirements in specific degrees of interest.

Emphasis Electives

Students in the Pre-Agricultural Sciences Program may select from a variety of degrees. Some emphasize the social sciences while others emphasize the physical and biological sciences in the first two years. The student is encouraged to review the UNL Undergraduate Bulletin to identify the appropriate "Emphasis Elective" for their degrees of interest.

Economics

Two semesters of economics (macro and micro) are not required in all agricultural sciences majors. For majors that require only one semester of economics, the second course can count as an ACE 8 requirement.

Pre-Food Science and Technology - Transfer Program

Food Science and Technology students find career opportunities with food processing firms, government agencies, and educational institutions. Positions available to food science and technology graduates include new product development, quality assurance, food plant management, food research, food marketing and sales, food inspection, education, and extension. The curriculum includes a balance of courses in food science, biological sciences, physical sciences, mathematics, social sciences and humanities. Food science courses include food processing, food engineering, food analysis, food chemistry, food microbiology, nutrition and quality assurance. Five options are offered: science, technology, business, food service/nutrition, and international. A major in food technology for companion animals is also offered as a joint program with Animal Sciences. Students may participate in an internship program that provides summer employment in the food industry.

Requirements

The following list of courses are recommended for the first four semesters of a food science and technology transfer program.

University of Nebraska at Omaha Catalog
**Pre-Horticulture - Transfer Program**

Horticulture students find exciting career opportunities as managers or owners of horticultural businesses in retail or wholesale nurseries, floral shops and greenhouses, landscape contracting businesses, and in fruit and vegetable enterprises. Graduates in horticulture may also enter the horticulture industry in horticultural journalism, extension, teaching and research. The degree curriculum allows for specialization in the following options: entrepreneurship, landscape design, organic, plant science, and production. The curriculum includes a balance of courses in horticulture, biological and physical sciences, social sciences and humanities. Students are required to participate in an internship program that provides employment in various horticultural enterprises.

**Requirements**

The following list of courses are recommended for the first four semesters of a horticulture transfer program:

### Additional Information

Hours earned in MATH 1320 will not count toward the mathematics requirements for UNL CASNR. Students are encouraged to use MATH 1320 as a free elective for their UNL CASNR program of study if they have an algebra deficiency. Students should complete their mathematics sequence at UNO. Since certain degrees require calculus, the student is encouraged to review the UNL Undergraduate Bulletin for requirements in specific degrees of interest.

Required elective courses correlate to UNL Achievement-Centered Education Program categories; selected UNO courses in these categories should be verified for transfer approval prior to registration.
Additional Information

Additional courses (in areas such as business and science) are available at UNO that will transfer for specific options at UNL. Required and elective courses vary with option, so students should consult with the UNL advisor, Anne Streich, and the UNL Undergraduate Catalog to carefully plan their course selections while at UNO.

Required elective courses correlate to UNL Achievement-Centered Education Program categories; selected UNO courses in these categories should be verified for transfer approval prior to registration.

Students should complete their mathematics sequence at UNO. Since certain options require calculus, students are encouraged to review the UNL Undergraduate Bulletin for requirements in specific majors of interest.

Option electives could be: ECON 2220 for entrepreneurship option, BIOL 1750 or BIOL 3340, and CHEM 1190 and CHEM 1194. Please check with advisor for specific recommendations. In addition, HORT 153 is taught via distance in the summer.

Pre-Natural Resources - Transfer Program

A student who successfully completes this program may enter CASNR to study for a Bachelor of Science degree. Degrees for four-year programs in natural resources include applied climate science, environmental restoration science, environmental studies, fisheries and wildlife, grassland ecology and management, natural resource and environmental economics, and water science. The following suggested program of study fulfills the minimum requirements for the first four semesters of any natural resources program. Since degree program requirements vary, students are expected to work closely with UNL advisors to ensure appropriate course selection.

Emphasis Electives

Students in the Pre-Natural Resources Program may select from a variety of degrees. Some emphasize the social sciences while others emphasize the physical and biological sciences in the first two years. The student is encouraged to review the UNL Undergraduate Bulletin to identify the appropriate "Emphasis Elective" for their degrees of interest.

Pre-Turfgrass and Landscape Management - Transfer Program

The turfgrass and landscape management industry is part of one of the fastest growing segments of the nation’s agricultural economy, often experiencing growth and expansion even during recessionary periods. Career opportunities in turfgrass and landscape management are wide ranging and diverse. They include the establishment and management of turfgrass and landscapes in courses, parks, schools and cemeteries. Additional opportunities are in the production of seed, sod, and nursery stock, the development of private landscape management businesses, and employment in municipal and state positions. Other areas include golf course and landscape design, marketing, and urban and environmental planning.
## Requirements

The following list of courses are recommended for the first four semesters of a turf/landscape management transfer program:

Accounting (ACCT)
ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)
This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.
Prerequisite(s)/Corequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 with 'C' (2.0) or better. Not open to non-degree graduate students
Distribution: Social Science General Education course
ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)
Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners' equity; analysis and reporting of cash flows; financial statement analysis.
Prerequisite(s)/Corequisite(s): 18 earned credits, MATH 1310 with a 'C' (2.0) or better, and a 2.3 GPA.
ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)
A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.
Prerequisite(s)/Corequisite(s): ACCT 2010 with a C (2.0) or better and a 2.3 GPA.
ACCT 3000  MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)
This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)
Prerequisite(s)/Corequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. Not open to non-degree graduate students.

ACCT 3020  BASIC FEDERAL INCOME TAXATION (3 credits)
This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030  INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)
A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, current assets, plant assets, intangible assets and liabilities. (Fall, Spring)
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA.

ACCT 3040  INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)
This is the second of two courses in intermediate financial accounting. It focuses on financial reporting issues relating to stockholders' equity, leases, pensions and other postretirement benefits, and income taxes. Other topics include earnings per share and cash flows. It is intended for students who plan to major in accounting. However, it would also be useful for prospective users of financial statements. (Fall, Spring)
Prerequisite(s)/Corequisite(s): ACCT 3030 with a 'C' (2.0) or better.

ACCT 3050  INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)
The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5.

ACCT 3080  ACCOUNTING INFORMATION SYSTEMS (3 credits)
Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200 and ECON 2220, BSAD 3100, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5.

ACCT 4000  SPECIAL TOPICS IN ACCOUNTING (1-3 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

ACCT 4010  ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)
Prerequisite(s)/Corequisite(s): ACCT 3030 and ACCT 3040 with "C+" (2.33) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4020  ADVANCED ACCOUNTING INFORMATION SYSTEMS (3 credits)
Specialized issues in computerized accounting information systems. Principal topics include advanced spreadsheet analysis, data capture and cleansing, database development and implementation, and the use of accounting information for business decisions. Emphasis is on reporting objectives, documentation, security, internal controls, and the evaluation and selection of software. (Cross-listed with ACT 8026)
Prerequisite(s)/Corequisite(s): ACCT 3080 with C- (2.33) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4040  ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)
Prerequisite(s)/Corequisite(s): ACCT 3020 and ACCT 3030, both with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4060  ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)
Prerequisite(s)/Corequisite(s): ACCT 3050 with "C" (2.0) or better and ACCT 3030 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4070  GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)
Prerequisite(s)/Corequisite(s): ACCT 3030 with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5.

ACCT 4080  PRINCIPLES OF AUDITING (3 credits)
An introduction to auditing, Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.
Prerequisite(s)/Corequisite(s): ACCT 3030, ACCT 3080, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5.

ACCT 4090  INFORMATION SYSTEMS AUDITING (3 credits)
This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.
Prerequisite(s)/Corequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500  INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific problems in the field of accounting.
Prerequisite(s)/Corequisite(s): Must have permission of the accounting department.

ACCT 4510  ACCOUNTING INTERNSHIP (1-3 credits)
A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)
Prerequisite(s)/Corequisite(s): ACCT 3030 with a C (2.0) or better, and permission of internship coordinator.
Aerospace Studies (AERO)

AERO 1010 LEADERSHIP LABORATORY (0 credits)
Leadership Laboratory courses (LLABs) include a study of Air Force customs and courtesies, drill and ceremonies, and military commands. The LLAB also includes studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. During the junior and senior year, LLABs consist of activities classified as leadership and management experiences. They involve the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other oral and written communications. LLABs also include interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets.

AERO 1310 FOUNDATIONS OF UNITED STATES AIR FORCE I (1 credit)
Survey courses designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officer-ship and professionalism, military customs and courtesies, Air Force officer opportunities, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with leadership experiences. (Fall)

AERO 1320 FOUNDATIONS OF UNITED STATES AIR FORCE II (1 credit)
Survey courses designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officer-ship and professionalism, military customs and courtesies, Air Force officer opportunities, and an introduction to communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with leadership experiences. (Fall)

AERO 2310 THE EVOLUTION OF USAF AIR AND SPACE POWER I (1 credit)
The courses are designed to examine general aspects of air and space power through a historical perspective. Utilizing this perspective, the courses cover a time period from the first balloons and dirigibles to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to extrapolate the development of Air Force capabilities (competencies), and missions (functions) to demonstrate the evolution of what has become today’s USAF air and space power. Furthermore, the courses examine several fundamental truths associated with war in the third dimension: e.g. Principles of War and Tenets of Air and Space Power. As a whole, these courses provide students with a knowledge level understanding for the general element and employment of air and space power, from an institutional, doctrinal, and historical perspective. In addition, the students will continue to discuss the importance of the Air Force Core Values with the use of operational examples and historical Air Force leaders and will continue to develop their communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with leadership experiences. (Fall)

Prerequisite(s)/Corequisite(s): AERO 1310 & 1320 or permission of instructor.

AERO 2320 THE EVOLUTION OF USAF AIR AND SPACE POWER II (1 credit)
The courses are designed to examine general aspects of air and space power through a historical perspective. Utilizing this perspective, the courses cover a time period from the first balloons and dirigibles to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to extrapolate the development of Air Force capabilities (competencies), and missions (functions) to demonstrate the evolution of what has become today’s USAF air and space power. Furthermore, the courses examine several fundamental truths associated with war in the third dimension: e.g. Principles of War and Tenets of Air and Space Power. As a whole, these courses provide students with a knowledge level understanding for the general element and employment of air and space power, from an institutional, doctrinal, and historical perspective. In addition, the students will continue to discuss the importance of the Air Force Core Values with the use of operational examples and historical Air Force leaders and will continue to develop their communication skills. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with leadership experiences. (Spring)

Prerequisite(s)/Corequisite(s): AERO 1310 & 1320 or permission of instructor.

AERO 3110 AIR FORCE LEADERSHIP STUDIES I (3 credits)
A study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course. (Fall)

Prerequisite(s)/Corequisite(s): AERO 1310, 1320, 2310, and 2320 or permission of instructor.

AERO 3120 AIR FORCE LEADERSHIP STUDIES II (3 credits)
A study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course. (Spring)

Prerequisite(s)/Corequisite(s): AERO 1310, 1320, 2310, and 2320 or permission of instructor.

AERO 4110 NATIONAL SECURITY AFFAIRS/PREPARATION FOR ACTIVE DUTY, I (3 credits)
These courses examine the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officer-ship, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences, giving students the opportunity to apply the leadership and management principles of this course. (Fall)

Prerequisite(s)/Corequisite(s): AERO 3110 and AERO 3120 or permission of instructor.
AERO 4120 NATIONAL SECURITY AFFAIRS/PREPAREMENT FOR ACTIVE DUTY, II (3 credits)
These courses examine the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences, giving students the opportunity to apply the leadership and management principles of this course. (Spring)
Prerequisite(s)/Corequisite(s): AERO 3110 and 3120 or permission of instructor.

Anthropology (ANTH)

ANTH 1050 INTRODUCTION TO ANTHROPOLOGY (3 credits)
Anthropology is the humanistic and scientific study of humans, past and present. This course will present an overview of the four subdisciplines of anthropology: sociocultural, archaeological, biological, and linguistic.
Distribution: Social Science General Education course

ANTH 2000 ETHNOGRAPHY (1-4 credits)
This is a self-paced course in which the student views films and reads books and articles regarding a specific culture. Each culture will be a one (1) credit hour module. The intent is to acquaint the student in some depth with other cultures in the world.
Prerequisite(s)/Corequisite(s): One course in the social sciences and the instructor's permission.

ANTH 2990 GUIDED READING (1-6 credits)
The course is designed to allow the student enrolled in an anthropology course to pursue a specialized interest or topic in greater depth than is or was possible for the other course as a whole.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in an anthropology course or enrollment in an anthropology course in the immediately preceding semester and permission of instructor.

ANTH 3210 CULTURES OF AFRICAN PEOPLE (3 credits)
An introduction to cultures and societies of Africa. Analysis of kinship systems; political, economic and religious institutions; social change. Emphasis on the dynamics of social organization of African people.
Prerequisite(s)/Corequisite(s): Sophomore or above with one three-hour introductory social science course

ANTH 3220 CULTURES AND SOCIETIES OF NORTH AMERICA (3 credits)
A survey of the native peoples and cultures of North America, past and present. Topics covered include: economics, religion, social organization, kinship, political organization, material culture, gender and culture change through time.
Prerequisite(s)/Corequisite(s): Sophomore or above with one three-hour introductory social science course

ANTH 3260 WORLD CULTURES AND PEOPLES (AREA ETHNOGRAPHY) (3 credits)
An introduction to the ethnography of a to-be-specified area of the world. The intent is to examine the cultures and societies of that part of the world, how they are interrelated with their neighbors and how they change. The specific area will be announced each time the course is offered.
Prerequisite(s)/Corequisite(s): Sophomore with one three-hour introductory course in a social science.

ANTH 3910 INTRODUCTION TO PHYSICAL ANTHROPOLOGY (3 credits)
An introduction to physical anthropology through an examination of theories and techniques used to investigate human origins; the relationship between humans and their physical environment; human variation, growth and development; and the evolution of human diseases.
Prerequisite(s)/Corequisite(s): ANTH 1050 or High School Biology recommended.
Distribution: Natural/Physical Science General Education course

ANTH 3920 ESSENTIALS OF ARCHAEOLOGY (3 credits)
This course introduces students to the essentials of scientific archaeology. Topics addressed include the history of archaeology, site survey, mapping, testing, excavation, laboratory methods, analysis, interpretation, and documentation. Scientific archaeology focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.
Prerequisite(s)/Corequisite(s): Anthropology 1050 or permission of instructor.

ANTH 4200 URBAN ANTHROPOLOGY (3 credits)
The course is intended to examine the city from an anthropological point of view. Included will be an overview of its history and the processes by which cities are formed and grow as well as the internal structure and processes within the city. The course is intended to be comparative geographically and temporally. Topics covered will include urbanization and cities in both the so-called third-world countries as well as in the developed, industrialized ones. Graduate students will be required to do a substantive term paper on a topic mutually acceptable to both the instructor and the student. In addition to the written work, the student will also be required to make a presentation in class of the research done and the major findings. (Cross-listed with ANTH 8206)
Prerequisite(s)/Corequisite(s): Junior or senior with a minimum of six hours of social science courses.

ANTH 4210 CULTURAL ANTHROPOLOGY (3 credits)
Art, economics, family, kinship, politics, religion, subsistence, technology, war and world view approached as parts of an integrated whole, a way of life in human society. Illustrations will be drawn from a number of societies, anthropological theories and methods of study. (Cross-listed with ANTH 8216)
Prerequisite(s)/Corequisite(s): Junior or senior with a minimum of six hours of social science.

ANTH 4220 NORTH AMERICAN ARCHAEOLOGY (3 credits)
Utilizing the archaeological record, this course explores more than 20,000 years of Native American culture and lifeways in North America, from Paleo-Indian big game hunters to complex, agricultural societies. Within this broad context, a range of archaeological concepts, methods and theoretical perspectives central to American archaeology will be presented. (Cross-listed with ANTH 8226)
Prerequisite(s)/Corequisite(s): ANTH 1050 or ANTH 4210.

ANTH 4230 ETHNOMEDICINES OF THE AMERICAS (3 credits)
An anthropological approach to the study of the cultural systems of specific American ethnomedicines (traditional medicines) of North, Central and South America. For each ethnomedicine the historical context, philosophy, practice, therapeutics, and utilization will be examined to understand how and why each ethnomedicine has survived despite tremendous extermination pressure.
Prerequisite(s)/Corequisite(s): ANTH1050

ANTH 4240 MEDICAL ANTHROPOLOGY (3 credits)
Medical anthropology is the cross-cultural study of human culture, health and illness. Using multiple theoretical perspectives, this course examines how cultural, social, environmental, and biological factors interact to produce patterns of health and illness in past and present human societies. (Cross-listed with ANTH 8246)
Prerequisite(s)/Corequisite(s): ANTH1050 and junior or senior standing; or permission of the instructor.
ANTH 4250 ENVIRONMENTAL ANTHROPOLOGY AND NATIVE PEOPLES OF THE GREAT PLAINS (3 credits)
Environmental anthropology seeks to understand the interrelationships between human societies and their biophysical and social environments. This course introduces students to basic concepts and theories used by anthropologists to study environmental influences upon both past and present Native American societies on the North American Great Plains. Particular attention will be given to the rapid and dramatic environmental changes that continue to challenge Native Americans in the Great Plains today. (Cross-listed with ANTH 8256)
Prerequisite(s)/Corequisite(s): Anthropology 1050 and junior standing; or permission of instructor.

ANTH 4260 TOPICS IN ETHNOLOGY (3 credits)
The comparative study of cultures in a particular behavior realm. Each semester the course is offered, one topic will be selected from substantive topics in ethnoLOGY, such as: Applied Anthropology, Medical Anthropology, Economic Anthropology, Political Anthropology, Psychological Anthropology (culture & personality), Comparative Analysis of Kinship, or the Anthropology of Religion. Since the topic will vary, students may elect to take this course more than once.
Prerequisite(s)/Corequisite(s): Junior or senior with six hours in any of the social sciences.

ANTH 4520 PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with ANTH 8526)
Prerequisite(s)/Corequisite(s): Senior or graduate. Recommended: ANTH 1050.

ANTH 4900 ANTHROPOLOGICAL RESEARCH (1-6 credits)
Supervised experience in anthropological research. The student either (1) joins an ongoing research project undertaken by a member of the faculty and gains experience and competence in anthropological research, or (2) the student has a research project that is suitable for academic credit and that the student wishes to undertake under the aegis of a faculty member.
Prerequisite(s)/Corequisite(s): Since course is individualized and changing, the course number may be repeated in a student's program without implying duplication. The total credits in anthropological research not to exceed six hours.

ANTH 4920 SEMINAR IN ANTHROPOLOGICAL PROBLEMS (3 credits)
The seminar will cover a specific topic which will be announced each time the course is offered. The students will work with the instructor on projects designed to increase the student's depth of knowledge in specific areas. Cross-listed with ANTH 8926.
Prerequisite(s)/Corequisite(s): Permission of instructor.

ANTH 4940 ARCHAEOLOGICAL FIELD METHODS (3 credits)
This course introduces students to the field methods of scientific archaeology. These field methods include map reading, use of satellite and aerial photographs, instrument survey and mapping, pedestrian survey or reconnaissance, site survey data collection, identification of artifacts (stone tools, ceramics, etc.) and ecofacts (animal remains, macrobotanicals, etc.), systematic artifact collection and documentation, soil probes and coring methods, GPS-based mapping, excavation methods, and data recording. Additional topics include laboratory methods (artifact and ecofact analysis, interpretation, and documentation). This field course ultimately focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.
Prerequisite(s)/Corequisite(s): ANTH 1050 and Junior standing. Not open to non-degree graduate students.

Architectural Engineering (AE)

AE 1000 DURHAM SCHOOL OF ARCHITECTURAL ENGINEERING AND CONSTRUCTION SEMINAR (0 credits)
Presentation of professional problems and practices by students, faculty, and professionals associated with careers in the Durham School of Architectural Engineering and Construction

AE 1010 INTRO TO ARCHITECTURAL ENGR (1 credit)

AE 1020 SUSTAINABLE BUILDINGS (3 credits)
Introduction to building systems. Sustainable design and construction. The United States Green Building Council's rating system. Sustainable building sites, water efficiency, energy performance, building commissioning, building and/or material reuse, sustainable materials, indoor environmental quality, and innovation in sustainable design and construction.
Prerequisite(s)/Corequisite(s): Not open to nondegree students

AE 2010 ARCH ENGINEERING SEMINAR (1 credit)
This course will inform students about careers in Architectural Engineering and about non-technical issues of engineering practice. It will include visits to offices and job sites, and talks by practicing professionals. Professional, ethical, social, and environmental issues will be addressed. Students will gain experience in teamwork, and in presentation of information.
Prerequisite(s)/Corequisite(s): AE 1010 and 30 credit hours completed

AE 2110 THERMODYNAMICS FOR ARCHITECTURAL ENGINEERING (3 credits)
First and Second Laws of Thermodynamics, properties of gases and vapors. Sources of energy and its conversion to work. Applications on Architectural Engineering and Construction.
Prerequisite(s)/Corequisite(s): MATH 1960, PHYS 2110. Not open to nondegree graduate students.

AE 2250 CONSTR GRAPHICS & DES PROCESS (3 credits)
Introduction to typical computer-graphics and calculation applications used in a contemporary architectural engineering design office. Extensive use of CAD and electronic spreadsheet software to solve typical analysis and design problems. Fundamentals of descriptive geometry and two and three-dimensional drawing systems. Use of drawing conventions common to construction design. Basics of personal computer applications. Conceptual review of engineering design and technical problem solving processes.

AE 2400 BUILDING SYSTEMS (3 credits)
Building systems as integral elements in architecture; building assemblies and materials; building system relationships; communication of ideas between design professionals, clients, contractors and manufacturers; construction drawings and specifications.

AE 2400 BUILDING SYSTEMS (3 credits)
Building systems as integral elements in architecture; building assemblies and materials; building system relationships; communication of ideas between design professionals, clients, contractors and manufacturers; construction drawings and specifications.
Prerequisite(s)/Corequisite(s): AE 2250

AE 3070 MECHANICS OF MATERIALS LAB (1 credit)
Introduction to the behavior and testing of various building materials. The concepts of axial stress and strain, flexural stress and strain, beam deflections and column buckling.
Prerequisite(s)/Corequisite(s): Coreq: MENG 3250 or EMEC 3250.

AE 3100 HVAC FUNDAMENTALS (3 credits)
Topics will include an introduction to the types of air conditioning systems; the properties of moist air, psychrometric processes in HVAC equipment; indoor air quality; thermal comfort; heat transmission in buildings; solar radiation; and the calculation of building infiltration rates, space heating loads and space cooling loads.
Prerequisite(s)/Corequisite(s): MENG 2000; Co-Req.: MENG 4200.

AE 3120 MECHANICAL SYS FOR BLDNSGS (3 credits)
Fluid flow, pumps, and piping design; space air diffusion; fans, ducts, and building air distribution; refrigeration equipment.
Prerequisite(s)/Corequisite(s): CIVE310 and CIVE319 and AE 3100
AE 3130 HVAC LAB (1 credit)
Conduct experiments and prepare written reports involving fluid flow, pumps, fans, ducts, piping; basic heat transfer and thermodynamic principles.
Prerequisite(s)/Corequisite(s): CIVE310 and CIVE319 and AE 3100

AE 3200 LIGHTING I: FUND FOR DESIGN (3 credits)
General introduction to illumination engineering for building interiors. Topics include the fundamentals of light and vision, lighting equipment, requirements for building lighting, and basic illuminating engineering design methods.
Prerequisite(s)/Corequisite(s): AE 2250 and CIST1400

AE 3220 ELECTRICAL SYSTEMS FOR BLDGS I (3 credits)
General introduction to the design of electrical power systems as they apply to buildings. Topics include electrical systems, and the basic engineering design methods.
Prerequisite(s)/Corequisite(s): AE 2250 and ELEC2110

AE 3230 LIGHTING & ELECT SYSTEMS LAB (1 credit)
General introduction to lighting and electrical systems in building interiors, through hands-on exercises using a range of currently available lighting and electrical technologies. Topics include: principles of object modeling, lamp and luminaire workshops, field measurements of lighting and electrical systems, motor workshop, power consumption and power factor workshops.
Prerequisite(s)/Corequisite(s): AE 3200 and coreq AE 3220

AE 3300 BUILDING ACOUSTICS FUND (3 credits)
An introduction to the acoustics of buildings. Topics include the fundamentals of sound generation, propagation, and measurement; human hearing; acoustic properties of materials and constructions; basic room acoustics; and noise control.
Prerequisite(s)/Corequisite(s): PHYS2120

AE 3770 GLOBAL EXPER IN ARCH ENGR (1-3 credits)
Individual or group educational experience in Architectural Engineering that combine classrooms, lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

AE 3920 INDIVIDUAL INSTR IN AE II (1-3 credits)
Individual instruction in Architectural Engineering at the junior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 3940 SPECIAL TOPICS IN AE III (3 credits)
Special topics in Architectural Engineering at the junior level that are not yet covered in other courses in the Architectural Engineering curriculum.

AE 4020 ARCHITECTURAL ENGINEERING SENIOR DESIGN PROJECT IN LIGHTING (4 credits)
Senior design project that integrates lighting design and illuminating engineering through a semester long design problem. A self-directed execution of the lighting design process culminating with a professional design solution.
Prerequisite(s)/Corequisite(s): AE 3220 and AE 4200

AE 4120 BUILDING ENERGY II: SEC SYS (3 credits)
Analysis and design of building air distribution systems, fans, pumps, piping, space air diffusion and heat exchangers.
Prerequisite(s)/Corequisite(s): CIVE3100 and MENG4200 and AE 3100

AE 4150 HVAC DESIGN (4 credits)
Develop and design the mechanical system for an actual building, from the programming phase to the final construction documents. (Is the first option-specific mechanical systems design course and is to be taken during the forth year of B.S.A.E. program.)
Prerequisite(s)/Corequisite(s): AE 4120, not open to nondegree students

AE 4200 LIGHTING II: THEORY, DES & APP (3 credits)
Design and analysis of lighting systems; emphasis is on the integration between the lighting design process and the technical foundations for building lighting; topics include design criteria; lighting design procedures, lighting modes and subjective effects; calculation tools. Lab sessions include photometric measurements and computer applications. (Cross-listed with AE 8206)
Prerequisite(s)/Corequisite(s): AE 3200

AE 4250 LIGHTING DESIGN (4 credits)
Advanced design and analysis of lighting systems. Application of the lighting design process for advanced interior applications such as multimedia facilities, and outdoor applications such as sports lighting.
(Requires the initiation of the design process, proceeding in a self-directed manner through intermediate steps, and producing professional lighting design solutions.)
Prerequisite(s)/Corequisite(s): AE 4200, not open to nondegree students

AE 4300 ADVANCED NOISE CONTROL (3 credits)
Characterization of acoustic sources; use and measurement of sound and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control. (Cross-listed with AE 8306)
Prerequisite(s)/Corequisite(s): AE 3300

AE 4920 INDIVIDUAL INSTR IN AE IV (1-3 credits)
Individual instruction in Architectural Engineering at the senior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 4940 SPECIAL TOPICS IN AE IV (3 credits)
Special topics in Architectural Engineering at the senior level that are not yet covered in other courses in the Architectural Engineering curriculum.

Architecture (ARCH)

ARCH 1060 INTRO TO DESIGN (3 credits)
Investigations into architecture, interior design and related design fields. The forces that shape these fields and the process of production they rely upon. Cross-listed with IDSG 1060.

ARCH 1400 VISUAL LITERACY LECTURE I (1 credit)
Introduction to critical and analytical skills in a variety of contexts. Focus on understanding modes of visual language as they relate to descriptive and analytical understanding modes of visual language as they relate to descriptive and analytical process, drawing upon contemporary and historical works and issues. Cross-listed with IDSG 1400.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture and Parallel ARCH 1404.

ARCH 1404 VISUAL LITERACY LAB I (4 credits)
Development of creative and perceptual skills through problem solving in drawing and design with emphasis on composition, analysis, and perceptual drawing. (Lab rotations consist of analysis/composition and perceptual drawing.) Cross-listed with IDSG 1404.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture and Parallel ARCH 1400.

ARCH 1410 VISUAL LITERACY LECTURE II (1 credit)
Introduction to critical and analytical skills in a variety of contexts. Focus on understanding modes of visual language as they relate to descriptive and analytical understanding modes of visual language as they relate to descriptive processes and color theory application, drawing upon contemporary and historic works and issues. Cross-listed with IDSG 1410.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture and Parallel ARCH 1414.
ARCH 1414 VISUAL LITERACY LAB II (4 credits)
Development of creative and perceptual skills through problem solving in drawing and design with emphasis on composition, color theory application and drawing. (Lab rotations consist of color theory application and speculative drawing.) Cross-listed with IDSG 1414.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture and Parallel ARCH 1410.

ARCH 2100 ELEMENTS OF ARCH DESIGN I (3 credits)
(Lect 1, Studio 4) Exploration of the controls that determine abstract form. Exercises in two-and three-dimensional composition. Introduction to the design vocabulary and elements of visual organization. Cross-listed with IDSG2100.
Prerequisite(s)/Corequisite(s): Pre-architecture and pre-interior design majors only and ARCH 1410/1414. Parallel: ARCH 2200.

ARCH 2110 ELEMENTS OF ARCH DESIGN II (3 credits)
(Lect 1, Studio 4) Basic design concepts as applied to the design of architectural space and form. Human scale, natural light, and structure as for determinants. Design parameters initially considered as isolated entities and then synthesized into mutually reinforcing totalities. Cross-listed with IDSG2110.
Prerequisite(s)/Corequisite(s): Pre-architecture and pre-interior design majors only, and ARCH 2100, 2200. Parallel: Arch 2210.

ARCH 2200 GRAPHIC COMMUNICATION I (2 credits)
(Lect 1, Studio 4) Representation of depth, movement, and structure through use of line, tone, and transparency. Perspective drawings of interior and exterior architectural space. Projects emphasizing pencil and pen and ink as presentation tools. Cross-listed with IDSG2200.
Prerequisite(s)/Corequisite(s): Pre-architecture and pre-interior design majors only and ARCH 1400/1404, ARCH 1410/1414 or by permission. Parallel: Arch 2100.

ARCH 2210 GRAPHIC COMMUNICATIONS II (2 credits)
(Lect 1, Studio 4) Introduction to theory and effects of color. Representation of depth, movement, and structure through use of color. Perspective drawing interior and exterior architectural space in color. Cross-listed with IDSG2210.
Prerequisite(s)/Corequisite(s): Pre-architecture and pre-interior design majors only and ARCH 2100, 2200. Parallel: Arch 2110.

ARCH 2230 COMP APP IN ARCH & INT DES I (3 credits)
The architecture student will be provided with a basic understanding of the wide range of man-machine relationships that apply to the profession of architecture. Emphasis will be directed toward introducing the student to the operational procedure and usage of computer programs that exist in the architecture computer program library. Upon completion of this course, the student should be able to make effective use of the computer facilities. Cross-listed with IDSG 2230.
Prerequisite(s)/Corequisite(s): Pre-architecture and pre-interior design majors only.

Art (ART)

ART 1010 ART APPRECIATION (3 credits)
This course is designed as an introductory-level art history for the non-art major. It surveys the aesthetic principles of the visual arts and their interpretation in a socio-historical context. (May not be taken for major credit.) Lab fee required.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

ART 1040 CROSS-CULTURAL SURVEY OF ART (3 credits)
This is an introductory course that explores the painting, sculpture and decorative arts of five cultures: Mesoamerican, Native American, Asian, European and African. Typical of art history introductory courses, it surveys several cultures and time periods. Students explore reasons for making art and its relationship to the religion, politics and everyday life of the cultures. This course also explores the influence of these various cultures on contemporary American art. Lab fee required.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 1100 FOUNDATION DRAWING & DESIGN: TWO DIMENSIONAL APPLICATIONS (3 credits)
This course is an introduction to the essential tools of art making through an active exploration of drawing mediums and design concepts. The focus is on the development of conceptual and technical skills used in contemporary studio practice. The course will have a strong emphasis on learning to see in the context of an observational studio practice.
Prerequisite(s)/Corequisite(s): Lab fee required.

ART 1110 FOUNDATION DRAWING & DESIGN: THREE DIMENSIONAL APPLICATIONS (3 credits)
An introduction to the technical and conceptual aspects of three dimensional design, focusing on drawing and sculpture problems. Students will develop an understanding of 3-D design components and principles, learn handmade and shop oriented technologies, and explore analytical and conceptual drawing. They will also address critical skills and the cultural analysis of art practice.
Prerequisite(s)/Corequisite(s): Lab fee required.

ART 1210 FOUNDATIONS THEORY & PRACTICE: COLOR AND VISUAL LITERACY (3 credits)
An introduction to using color to recreate nature and fabricate the environments in which we live and work. Focus will be on aspects of color physics and visual perception, color schemes, harmonies, and systems, within the structure of design elements and principles. These will also be investigated through compositional strategies, gestalt, critical thinking, and concepts of visual literacy such as semiotics and the meaning of images. Lab fee required.
Prerequisite(s)/Corequisite(s): Lab fee required.

ART 1220 FOUNDATION THEORY & PRACTICE: DIGITAL MEDIA (3 credits)
An introduction to digital art and design skills, nomenclature, and practice while learning aesthetics and art and design history. Students learn to balance practical knowledge with visual, theoretical, and historical frameworks, and they complete digital skills exercises that incorporate art and design history. These digital skills are then practiced and reinforced with more in-depth art and design projects.
Prerequisite(s)/Corequisite(s): Lab fee required.

ART 1810 WATERCOLOR I (3 credits)
This course cover beginning watercolor techniques with basic water media skills taught in the class. No experience is necessary for students enrolled in 1810.

ART 1820 WATERCOLOR II (3 credits)
This course will review fundamental methods and techniques associated with watercolor painting and will introduce more advanced techniques. Advanced watercolor students submit a written contract for their semester plan which includes the concept or content and approximate number of paintings.
Prerequisite(s)/Corequisite(s): ART 1810
ART 2000 CORE ONE PORTFOLIO REVIEW (0 credits)
ART 2000 Core One Portfolio Review is a zero credit hour course offered every Fall and Spring semester. All BASA majors on the 2013-14 catalog year and after must complete the ART 2000 Core I Portfolio review to graduate with the BASA or BFA major. ART 2000 will usually be completed during the sophomore year; i.e. between 27 and 57 credit hours, but may be completed later.
Prerequisite(s)/Corequisite(s): Students must complete ART 1100; ART 1110; ART 1210; ART 1220. Not open to non-degree graduate students.

ART 2050 SURVEY OF WESTERN ART HISTORY I (3 credits)
A survey of the major developments in painting, sculpture and architecture from Paleolithic cave paintings through the Middle Ages.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ART 2060 SURVEY OF WESTERN ART HISTORY II (3 credits)
This course is a survey of the major developments in painting, sculpture and architecture from the Renaissance to the 20th century. Lab fee required.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 2070 ART OF INDIA & SOUTHEAST ASIA (3 credits)
A study of the arts of India and cultures under its influence, with attention to religious and philosophical background. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1070. Not open to non-degree graduate students.

ART 2080 ART OF CHINA AND JAPAN (3 credits)
This course is a study of the arts of China and Japan, with attention to religious and philosophical backgrounds. Lab fee required.
Prerequisite(s)/Corequisite(s): Sophomore. Not open to non-degree graduate students.

ART 2100 LIFE DRAWING I (3 credits)
Life Drawing I is an introduction to drawing the human form. The goal of the course is to introduce drawing media and relate them to the problems of drawing the figure. Both perceptual and conceptual skill building are emphasized. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210. Lab fee required.

ART 2110 LIFE DRAWING II (3 credits)
Life Drawing II is an expansion of the instruction and skill set obtained during Life Drawing I. This course continues to assist the student become aware of unfamiliar forms in the figure. Perceptual and conceptual skill building is again emphasized. Lab Fee required.
Prerequisite(s)/Corequisite(s): ART 2100

ART 2200 TYPEFACE DESIGN AND TYPOGRAPHY (3 credits)
Typeface Design and Typography is foundational to the practice of graphic design and the Graphic Design Concentration sequence. This intensive studio course focuses on the skills, theory, history and practice of typeface design as well as the theory and practice of typography and layout.
Prerequisite(s)/Corequisite(s): ART 2100

ART 2300 WEB DESIGN (3 credits)
This course is an introduction to basic web design skills and topics, with an emphasis on design and visual communication.
Prerequisite(s)/Corequisite(s): ART 1220. Not open to non-degree graduate students.

ART 2600 SURVEY OF COMICS: MORE THAN CAPES AND TIGHTS (3 credits)
This course is a survey of the history of the Western comic from its earliest days to the modern era.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ART 2610 EXPLORATION OF GLOBAL COMICS (3 credits)
This course is a survey of the history, influences and evolution of comics from countries around the world such as France, Italy, the Middle East, Japan, South America and Africa. Students will come to understand how comics grew and evolved under different social, political and cultural climates around the world.
Distribution: Global Diversity General Education course

ART 3000 MEDIA ARTS 1 (3 credits)
This course is an introduction and overview to the concentration of Media Arts. The curriculum is designed to provide a basic knowledge of electronic imaging and production techniques for students wishing to continue in digital media or those working with media production artists. Areas introduced will be Digital Image Production, Digital Video Production, and Animation.
Prerequisite(s)/Corequisite(s): ART 1220 or permission of instructor

ART 3100 ADVANCED DRAWING I (3 credits)
Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 2110

ART 3110 ADVANCED DRAWING II (3 credits)
Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 2110 and ART 3100

ART 3120 MEDIA ARTS 2 (3 credits)
Advanced overview of Intermedia and digital production as well as critical theory for artists. The course includes both fine art and applied uses of Intermedia and digital art through the development of individual and group projects using digital and electronic media means.
Prerequisite(s)/Corequisite(s): ART 3000 or permission of instructor.

ART 3130 GRAPHIC DESIGN 1 (3 credits)
The first course in the Graphic Design sequence, Graphic Design I is an upper division course focusing on the essential elements of Graphic Design as a discipline and practice. Working individually, students learn the tools, terminology, theory, and history of Graphic Design as a professional and artistic practice. Focused attention and time is spent learning conceptualization skills, digital skills, design practice and the relationship between the designer and their social and historical context.
Prerequisite(s)/Corequisite(s): ART 1220, or permission of instructor

ART 3140 CGI: COMPUTER GENERATED IMAGERY (3 credits)
The goal of this course is to introduce students to basic principles and aesthetic considerations of computer generated imagery and interactive virtual spaces (such as game mods and second life). The course will focus on the use of computers as a tool to generate three dimensional forms and create spaces and navigable worlds. The course exposes students to a variety of theoretical and aesthetic positions and encourages them to think of CGI and virtual space building as an art making process. Students will produce art works through the acquisition of technical skills and the exploration of creative uses within the medium.
Prerequisite(s)/Corequisite(s): ART 3000 or permission of the instructor

ART 3150 VIDEO ART (3 credits)
An introduction to video art production and critical theory for artists. The course exposes students to a variety of theoretical and aesthetic positions and encourages them to think of video as an art making process rather than mass media product. Students are required to produce a number of video art works. Production rather than consumption is stressed as a pedagogical mode.
ART 3160 GAME DESIGN AS ART (3 credits)
This course will encompass theory and practice of game development, game creation as an art process, and an exploration of the work of artists who have created game based work. Areas of study during the course will include game design and mechanics, explorations of theory, narrative and storytelling with game paradigms, social and ethical concerns of gaming and gaming as cultural resistance.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ART 3170 DIGITAL GAME DESIGN (3 credits)
This course provides an introduction to digital game development. It will explore all aspects of creating 2d games. Students will work on individual and team projects. Students will learn to do concept art, pre-production planning, prototyping and testing, all working towards creating completed games.
Prerequisite(s)/Corequisite(s): Non-degree graduate students not allowed.

ART 3200 THE HAND PRODUCED BOOK I: TYPOGRAPHY AND BOOK DESIGN (3 credits)
This course is an introduction to the typographic principles and fundamental letterpress techniques as applied to printed books. Each student learns hand typesetting and letterpress procedures, then designs and prints a small edition of their selected text. Lab fee required.

ART 3210 COLOR THEORY (3 credits)
Instruction in the study of color through directed classroom assignments.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210

ART 3220 HAND PRODUCED BOOK II: LETTERPRESS PRINTING (3 credits)
Continuing work in typography and book design with an emphasis on book illustration, multi-color printing, and the standardization and control of edition work. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 3200

ART 3230 BOOK STRUCTURES: INTRODUCTION TO BOOKBINDING (3 credits)
This course investigates basic approaches to bookbinding, introducing students to the history, tools and techniques of the discipline. In addition to the concertina structure and simple presentation wrappers, students execute a variety of non-adhesive bindings, both Western and Japanese, and learn basic case-binding methods. Lab fee required.

ART 3250 PATTERNED PAPER (3 credits)
This course examines various techniques employed in the creation of decorative patterned papers traditionally used in bookbinding for both cover material and/or end sheets. The emphasis of the course will be on effective pattern design, the mastery of pattern paper production methods, and fine craft standards. Lab fee required.

ART 3300 ELEMENTARY ART METHODS (3 credits)
Study of the theory, methods, curriculum and recent research affecting art education with emphasis on the elementary art program. Lab fee required.
Prerequisite(s)/Corequisite(s): TDED 2400 & TDED 2404, PPST, K-12 ART/ED majors only, Junior standing. Lab fee required.

ART 3304 ELEMENTARY ART FIELD EXPERIENCE (0 credits)
ART 3304 is an in-school practicum taken in conjunction with ART 3300. Candidates must demonstrate competencies related to performance in their assigned classroom. This is the first of two required art practicum experiences prior to the clinical practice semester.
Prerequisite(s)/Corequisite(s): EDUC 2520 or TDED 2400; Co-requisite ART 3300. Not open to non-degree graduate students.

ART 3310 ELEMENTARY SCULPTURE (3 credits)
This course begins the exploration of the 3-dimensional artistic form which can be constructed using a variety of materials including clay, plaster, wood, steel and new media. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1220

ART 3320 INTERMEDIATE SCULPTURE (3 credits)
Intermediate Sculpture continues and expands upon the elementary level of sculpture and builds upon methods, technologies, problem solving and professional practice. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 3310

ART 3330 ART IN PUBLIC PLACES, THEORY AND PRACTICE (3 credits)
The goal of this course is to introduce students to the concepts and practice related to displaying artwork in public places. Following a thorough examination of the history of public art, the course will focus on the various visual languages and iconography appropriate for public venues. The course emphasizes building original artwork using both traditional and digital technologies, displaying work in public spaces, artist responsibilities and related professional practice.
Prerequisite(s)/Corequisite(s): ART 1110

ART 3340 DIGITAL SCULPTURE - DESIGN AND BUILD TECHNOLOGIES (3 credits)
The goal of this course is to introduce students to the methods of designing objects in a digital environment and realizing them as objects in the physical world. Students will learn to create forms using a variety of 3D modeling software and scanning technologies. The course will introduce students to the Autodesk suite of programs, including 3D Studio Max, Maya Inventor, 123D Catch, as well as Zbrush. Once students have achieved a high level of competency on the computer, the class will begin exploring systems for building their creations. Using Make 123D, Pepakura and Makerware students will fabricate objects in plastic, cardboard and wood. Additionally, the class will address both the artistic and functional applications of these methods.
Prerequisite(s)/Corequisite(s): ART 1110

ART 3360 APPLIED ART & DESIGN (3 credits)
This course is designed to present an opportunity for education and other undergraduate students to develop basic skills, knowledge and appreciation of the arts and crafts of our culture and other world cultures. The course content will be individualized for the purposes of adapting methods, values, content, and media for students working with special populations or in special settings. Lab fee required.
Prerequisite(s)/Corequisite(s): Sophomore.

ART 3370 TECHNOLOGY IN ARTS EDUCATION (3 credits)
This course is specifically designed for pre-service art teachers to learn how to integrate media arts, visual and instructional technology, and digital visual culture into arts curriculum appropriate for application to K-12 contexts. Students will critically examine digital arts, digital art media and technology, and digital visual culture environments and address pedagogical and implementation issues as they simultaneously create their own digital art and digital visual culture.
Prerequisite(s)/Corequisite(s): TDED 2400 and TDED 2404, PPST/CME, K-12 ART/ED majors only, CRQ: ART 3300. Junior standing. Lab fee required. Not open to non-degree graduate students.

ART 3380 INTERMEDIATE PAINTING (3 credits)
Instruction in oil painting permits each student the time and environment to work and develop individually. Perceptual and conceptual skill building emphasized. Knowledge of contemporary painting integral to painting practice. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210

ART 3420 INTERMEDIATE PAINTING (3 credits)
Instruction in oil painting permits each student the time and environment to work and develop individually. Emphasis on developing cohesive body of work in context of experimentation. Knowledge of contemporary painting integral to painting practice. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 3410

ART 3510 ELEMENTARY PRINTMAKING (3 credits)
This is an introductory course to the history and studio practices of printmaking. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210
ART 3520 PHOTOGRAPHIC DIGITAL PRINTMAKING (3 credits)
Introduction to photographic and digital printmaking technologies including pre-press and printing techniques. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210

ART 3530 PAPERMAKING (3 credits)
This course examines the history and techniques of classic papermaking, sheet formation and producing edition sheets. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1110 and ART 1210

ART 3610 ELEMENTARY CERAMICS (3 credits)
This course is an introduction to the medium of ceramics. The focus of this course will be the use of clay as a sculptural medium with the emphasis on various, basic techniques for creating objects in clay. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1220

ART 3620 INTERMEDIATE CERAMICS (3 credits)
This course is a continuation of processes covered in the Elementary Ceramics course with basic pottery techniques utilizing the wheel, hand building, object prototyping and advanced mold making. Additional emphasis will be on scale and completion of mid-to large size projects.
Prerequisite(s)/Corequisite(s): ART 3610. Lab fee required.

ART 3700 INTRODUCTION TO ANCIENT ART (3 credits)
This course provides an introduction into the art and cultures of the ancient Mediterranean areas. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2050 or permission of instructor. Not open to non-degree graduate students.

ART 3710 EGYPTIAN ART (3 credits)
This course will examine ancient Egyptian culture through its art and architecture. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2050 or permission of instructor. Not open to non-degree graduate students.

ART 3720 GREEK ART (3 credits)
This course will immerse students in the art and culture of ancient Greece. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2050 or permission. Not open to non-degree graduate students.

ART 3730 ETRUSCAN & ROMAN ART (3 credits)
This course provides an in-depth investigation of Etruscan and Roman civilizations. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2050 or permission. Not open to non-degree graduate students.

ART 3750 AMERICAN ART (3 credits)
This course provides a study of art, architecture, and material culture produced in the United States approached through varied contexts (artistic, religious, political, economic, etc.) and methodologies. Lab fee required.
Prerequisite(s)/Corequisite(s): Completion of ART 2050 & ART 2060. For non-majors, permission of the instructor is required. Not open to non-degree graduate students.

ART 3760 ART HISTORY SEMINAR (3 credits)
A seminar in a selected area of art history. This course is designed to introduce students to readings in journals and to methods of research in art history. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2050 and ART 2060

ART 3770 HISTORY OF ARCHITECTURE TO 1850 (3 credits)
A survey of the history, aesthetics and technical developments in architecture from ancient times to the middle of the 19th century. Lab fee required.
Prerequisite(s)/Corequisite(s): None. Recommended: ART 1050 or 1060.

ART 3780 HISTORY OF ARCHITECTURE SINCE 1850 (3 credits)
This course is a survey of the history of architecture since the coming of the industrial age, including the major schools and movements in architecture of the 20th century.
Prerequisite(s)/Corequisite(s): None. Recommended: ART 2050 or ART 2060. Lab fee required.

ART 3800 HISTORY OF DESIGN (3 credits)
The history of modern global design movements, primarily 1851 to present. The movements cover a range of media, from graphic arts and industrial design to furnishing and interior design.
Prerequisite(s)/Corequisite(s): ART 2060, or permission of the instructor.

ART 3830 HISTORY OF PHOTOGRAPHY (3 credits)
This course provides an introduction to the history of photography from its earliest forms to that of contemporary society and culture. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1060 or permission of instructor.

ART 3850 WOMEN IN ANCIENT AND MEDIEVAL ART (3 credits)
The purpose of this course is to provide an introduction of women through the art and culture of the ancient Mediterranean and western Middle Ages.
Prerequisite(s)/Corequisite(s): Junior standing and ART 2050 or permission of instructor. Lab fee required. Not open to non-degree graduate students.

ART 3870 GENDER & SEXUALITY IN MODERN ART (3 credits)
This course provides an introduction to topics of gender and sexuality in modern art, from 1860 to the present.
Prerequisite(s)/Corequisite(s): This course requires the completion of the Survey of Art History (ART 1050 & Art 1060) and junior standing. For non-majors, junior standing and permission of the instructor.

ART 3910 INTERMEDIATE PRINTMAKING (3 credits)
Intermediate Printmaking expands upon basic printmaking concepts and techniques and includes monotype variations, intaglio techniques, Moku Hanga woodcuts and other woodcut processes. Students will be involved with drawing, creating, problem solving and understanding the printmaking studio and its processes.
Prerequisite(s)/Corequisite(s): ART 3510. Not open to non-degree graduate students.

ART 4000 SPECIAL SEMINARS IN ART EDUCATION (1-3 credits)
A series of intensive courses in the history and theory of art education designed specifically for elementary and secondary school art teachers.
These courses are scheduled as special seminars or workshops according to purpose. (Cross-listed with ART 8006.)
Prerequisite(s)/Corequisite(s): Junior and Department Permission

ART 4010 SPECIAL TOPICS IN STUDIO ART (3 credits)
This course deals with a limited topic in the field of Studio Art. A course may be coordinated with an external event such as a visiting artist, exhibition or study trip. Content will be determined by the offering instructor.
Prerequisite(s)/Corequisite(s): To be determined by instructor

ART 4020 PROFESSIONAL STUDIO PRACTICES (3 credits)
This is a capstone course for the Studio Arts area that includes book arts, ceramics, drawing, painting, printmaking, sculpture and media (2D, 3D, and Media). During the semester, students will learn the administrative component that is essential for cultivating and maintaining a sustainable studio practice in art. Activities include writing artist statements, an artist curriculum vitae alongside participating in the simulated arts activities of applying for an exhibition and artist grant and understanding the benefits and liabilities of social media.
Prerequisite(s)/Corequisite(s): Students must be of Junior standing. Not open to non-degree graduate students.

ART 4130 MEDIA ART III (3 credits)
This is a digital studio course for students interested in exploring interactive digital projects using current or emerging technologies. The course includes both fine art and applied uses of digital art through the development of individual and group projects using digital and electronic media means.
Prerequisite(s)/Corequisite(s): ART 3120 or permission of instructor.
ART 4140 CGI: COMPUTER GENERATED IMAGERY II (3 credits)
This course is a continuation of principles and practices introduced in ART 3140. The goal of this course is intended for experienced students to create projects that explore advanced principles and aesthetic considerations of computer generated imagery and interactive 3D virtual spaces.
Prerequisite(s)/Corequisite(s): ART 3140 or permission of the instructor.

ART 4150 GRAPHIC DESIGN 2 (3 credits)
A continuation of the Graphic Design sequence, Graphic Design 2 is an advanced course utilizing the knowledge and skills acquired in Graphic Design 1. In Graphic Design 2 students apply acquired knowledge and skills to solve design problems for more complex systems. Intermediate digital skills are paired with intermediate production and materials problems as students complete product and package design systems. These design systems are then paired with companion web and video components. Additionally, students continue their study of professional practices and presentation skills.
Prerequisite(s)/Corequisite(s): ART 3130, or permission of instructor.

ART 4160 GRAPHIC DESIGN 3 (3 credits)
A continuation of the Graphic Design sequence, Graphic Design 3 is an advanced, professional simulation course utilizing the knowledge and skills acquired in Graphic Design 1 and 2. Working individually and in teams, students create large-scale design systems over multiple communication channels for consumer product or services. The course culminates in a thesis presentation with accompanying brand book.
Prerequisite(s)/Corequisite(s): ART 4150, or permission of instructor.

ART 4170 GRAPHIC DESIGN STUDIO (3 credits)
A continuation of the Graphic Design sequence, Design Studio is an advanced, capstone course utilizing the knowledge and skills acquired in Graphic Design 1, 2, and 3. Working individually and in teams, students design thesis research projects, create professional portfolios, present their work to the public, and work on client projects for on and off-campus organizations.
Prerequisite(s)/Corequisite(s): ART 4160, or permission of instructor.

ART 4180 ADVANCED DIGITAL GAME DESIGN (3 credits)
This course provides an advanced experience to digital game development. It explores all aspects of creating 3D games. Students will work on individual and team projects and will learn concept art, pre-production planning, prototyping and testing while working towards creating completed games using a three dimensional platform.
Prerequisite(s)/Corequisite(s): ART 3140 and ART 3170, or permission of the instructor. Not open to non-degree graduate students.

ART 4190 GAME DESIGN STUDIO (3 credits)
This course provides a capstone study in game development. It explores game design, game prototyping, finalization, distribution and promotion. Students will work in teams to conceptualize, pitch, prototype, and present an audience ready game.
Prerequisite(s)/Corequisite(s): ART 4180, or permission of instructor. Not open to non-degree graduate students.

ART 4210 PRINTED BOOKS (3 credits)
This course covers the invention of moveable type through the refinement in printing styles and technology to the present age.
Prerequisite(s)/Corequisite(s): ART 3220 and ART 3230, or permission of instructor.

ART 4300 SECONDARY ART METHODS (3 credits)
This course is the study of theory, methods, art curriculum content, and recent research in art education relative to art education in middle and high school settings. Lab fee required
Prerequisite(s)/Corequisite(s): TED 2400 & TED 2404, PPST, K-12 ART/ED majors only. Junior standing.

ART 4310 ADVANCED SCULPTURE (3 credits)
Advanced work in area of student's choice with facilities for oxyacetylene welding, arc welding and wood working. Lab fee required. (Cross-listed with ART 8316.)
Prerequisite(s)/Corequisite(s): ART 3310

ART 4320 BFA INDEPENDENT STUDY I (3 credits)
This course is an advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design.
Prerequisite(s)/Corequisite(s): Advanced level courses in area of concentration, and permission of instructor.

ART 4330 BFA INDEPENDENT STUDY II (3 credits)
BFA II is the second semester of an advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. Lab fee required.
Prerequisite(s)/Corequisite(s): Completion of ART 4320 and 4330 and permission of instructor as this course is only used when the student is unable to proceed to the BFA Thesis.

ART 4340 BFA INDEPENDENT STUDY III (3 credits)
This course is the continuation of BFA II for the advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. This course is only used if, for some reason the student is unable to proceed to BFA Thesis after completing BFA II. Lab fee required.
Prerequisite(s)/Corequisite(s): Completion of ART 4320 and 4330 and permission of instructor as this course is only used when the student is unable to proceed to the BFA Thesis.

ART 4350 TRENDING TOPICS IN ART EDUCATION (3 credits)
This is a series of intensive courses dealing with the theory and practice of current trends in art education designed specifically for pre-service art teachers. These courses are scheduled as special seminars or workshops according to purpose. Lab fee may be required.
Prerequisite(s)/Corequisite(s): TED 2400, TED 2404, and PRAXIS Core; K-12 ART/ED majors only. Junior standing or to be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course.

ART 4410 ADVANCED PAINTING (3 credits)
Advanced instruction in oil painting permits students the time and environment to work and develop individually. Emphasis on developing cohesive body of work as continuation from work done in Intermediate painting. Knowledge of contemporary painting integral to painting practice. Lab fee required. (Cross-listed with ART 8416.)
Prerequisite(s)/Corequisite(s): ART 3420

ART 4420 BFA THESIS (3 credits)
This course is the culmination of the BFA process with an individually designed study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. A faculty committee and thesis exhibition are required for completion of this course. Lab fee required.
Prerequisite(s)/Corequisite(s): Completion of ART 4320 and ART 4330 and permission of instructor.

ART 4440 INDEPENDENT STUDY IN STUDIO ART (1-3 credits)
This course is an independent study with variable credit for studio art students who have already taken the most advanced level course in their chosen degree program.
Prerequisite(s)/Corequisite(s): This course requires permission from instructor.

ART 4510 ADVANCED TECHNIQUES IN PRINTMAKING (3 credits)
This course allows students to develop their skills in both lithography and intaglio and the color processes for each printmaking technique. Lab fee required. (Cross-listed with ART 8516.)
Prerequisite(s)/Corequisite(s): ART 3510
ART 4530 ART INTERNSHIP (1-3 credits)
A tutored internship at a local arts institution that will introduce students to following areas of concentration: Curatorial Collections Research, Education Outreach, and Preparation/Installation. Working as an Artist’s Studio Assistant or in the areas of Web page design or graphic design are also appropriate internship projects. Ideally, the internship should provide the student with an opportunity to gain pre-professional experiences and skills. It should also increase his or her awareness of current issues and practices within the field of art.
Prerequisite(s)/Corequisite(s): Reserved for studio art (BASA & BFA), Art Education, or Art History majors; junior standing & min GPA of 3.0. Permission of Faculty Advisor & Intern Sponsor required. Advanced art history, art education, or studio courses may be required.

ART 4610 ADVANCED CERAMICS (3 credits)
This course will consist of advanced work on the potter’s wheel, casting and preparations in glaze composition, as well as loading and firing of a high-fire kiln. Lab fee required. (Cross-listed with ART 8616.)
Prerequisite(s)/Corequisite(s): ART 3610

ART 4700 CROSS-CULTURAL ART HISTORY FOR TEACHERS (3 credits)
An exploration of the arts of five cultures: Pre-Colombian, Native American, African, Asian and European. A comparative approach will be taken to allow students to explore the reasons for making art and its relationship to the religion, politics and everyday life of the cultures. The influence of these cultures on contemporary American art will also be explored. Lab fee required. (Cross-listed with ART 8706.)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor. Lab fee required.

ART 4720 CLASSICAL ART HISTORY (3 credits)
A study of painting, sculpture, architecture and minor arts of the classical world beginning with Cycladic art and including Minoan, Mycenaean, Greek, Etruscan and Roman art through 300 A.D. Lab fee required. (Cross-listed with ART 8736.)
Prerequisite(s)/Corequisite(s): ART 2050 and Junior or permission.

ART 4750 LATE ROMAN AND BYZANTINE ART HISTORY (3 credits)
A study of painting, sculpture and architecture of the Eastern Roman Empire from the founding of Constantinople, and of Western Europe from the time of Constantine to the dissolution of the Western Roman Empire. Lab fee required. (Cross-listed with ART 8756.)
Prerequisite(s)/Corequisite(s): ART 2050 and Junior standing, or permission.

ART 4770 EARLY MEDIEVAL ART (3 credits)
This course provides a study of painting, sculpture and architecture of Western Medieval Art.
Prerequisite(s)/Corequisite(s): ART 2050 and junior or permission. Lab fee required.

ART 4780 LATE MEDIEVAL ART HISTORY (3 credits)
This course is a study of painting, sculpture and architecture of the European Middle Age periods of Romanesque and Gothic Art.
Prerequisite(s)/Corequisite(s): ART 2050 and Junior. Lab fee required. Not open to non-degree graduate students.

ART 4810 NORTHERN EUROPEAN RENAISSANCE ART HISTORY (3 credits)
This course is a study of the paintings, sculpture and architecture during the 14th, 15th and 16th centuries in France, the Low Countries, Germany, Spain and England. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 2060 and junior standing, or permission. Not open to non-degree graduate students.

ART 4830 ITALIAN RENAISSANCE ART HISTORY (3 credits)
Study of painting, sculpture and architecture in Italy during the 14th, 15th and 16th centuries. (Cross-listed with ART 8836.)
Prerequisite(s)/Corequisite(s): ART 2060 and junior or permission. Lab fee required.

ART 4850 BAROQUE AND ROCOCO ART HISTORY (3 credits)
This course is a study of painting, sculpture and architecture in Europe during the 17th and 18th centuries. Lab fee required. (Cross-listed with ART 8856.)
Prerequisite(s)/Corequisite(s): ART 2060 and Junior or permission.

ART 4880 MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920) (3 credits)
A study of the most significant developments in European art and architecture dating from the early Modern period and examined in varied contexts (artistic, religious, political, economic, etc.). (Cross-listed with ART 8886.)
Prerequisite(s)/Corequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4890 MODERN ART II (ART OF EUROPE AND THE AMERICAS, 1918-1968) (3 credits)
This course explores the major artistic movements and artists active in Europe and the Americas between the end of WWI and the Vietnam Era circa 1968. (Cross-listed with ART 8896.)
Prerequisite(s)/Corequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4900 CONTEMPORARY ART HISTORY SINCE 1968 (3 credits)
This course introduces contemporary visual arts in a global context from 1968 to the present with topics of discussion including art, aesthetics, politics, gender and sexuality, race and economics. (Cross-listed with ART 8906.)
Prerequisite(s)/Corequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4910 INDEPENDENT STUDY IN ART HISTORY (1-3 credits)
This course is an independent research project under the direct supervision of the sponsoring faculty member, generally involving the writing of a paper. Lab fee required.
Prerequisite(s)/Corequisite(s): Art History major in upper division and permission of instructor.

ART 4920 ART IN THEORY AND IN PRACTICE SINCE 1900 (3 credits)
This course introduces BFA students to the essential theories and critical positions that have shaped the practice of contemporary art in the West since 1900. It also addresses the purpose and nature of the artist's statement, the studio critique, the exhibition, and professionally written art criticism.
Prerequisite(s)/Corequisite(s): Acceptance in BFA program, ART 2050 & ART 2060, & ART 4890 or ART 4900. Other students will need instructor's permission. Students not meeting the min qualifications or instructor’s permission will be dropped. Not open to non-degree graduate students.

ART 4930 SPECIAL TOPICS IN ART HISTORY (3 credits)
These illustrated lecture courses deal with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip. Lab fee required. (Cross-listed with ART 8936)
Prerequisite(s)/Corequisite(s): ART 2060 or instructor permission.

ART 4940 ART HISTORY METHODS (3 credits)
This is a seminar course surveying major developments in aesthetics and selected problems in the discipline of Art History. Lab fee required.
Prerequisite(s)/Corequisite(s): ART 1050 and ART 1060 and preferably, one other art history course. Required of all art history majors.

ART 4950 ART CRITICISM (3 credits)
This course is a seminar in art criticism with attention to the act of writing art criticism.
Prerequisite(s)/Corequisite(s): ART 2050; 2060 or permission of instructor.
ART 4990 ART HISTORY THESIS (1 credit)
Art History majors will revise a scholarly paper from an upper-level Art History course in order to obtain a well-written and thoroughly researched paper (20 pages) to submit as part of a graduate school application. Students will also give a required 20-minute oral presentation.
Prerequisite(s)/Corequisite(s): Senior standing in Art History and completion of or concurrent enrollment in ART 3760 (Art History Seminar) or Art 4940 (Art History Methods) plus the approval of the Art History faculty.

Aviation (AVN)

AVN 1000 INTRODUCTION TO AVIATION AND AEROSPACE (3 credits)
This course provides a broad understanding of all aspects of the air transportation and aerospace industries. Lectures will cover what has happened in the industry to date, with emphasis on present and future developments in air transportation. The course will include the impact the airline industry is making on airports and other segments of aviation and aerospace.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

AVN 1020 PRIVATE PILOT THEORY (3 credits)
This course will familiarize the student with theories associated with flight. These include aerodynamics, weather, FAA regulations, aviation and airspace safety. There is no flight requirement associated with this course.

AVN 1024 PRIVATE PILOT FLIGHT LABORATORY (1 credit)
This laboratory course is designed for students pursuing flight requirements for the FAA private pilot certificate. The student will complete all flight requirements for solo flight. Course will include flight in aircraft simulators and single-engine aircraft. Class is conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): Completion of or concurrent enrollment in AVN 1020, or successful completion of the FAA Private Knowledge Test.

AVN 1030 PRIVATE PILOT FLIGHT CERTIFICATE (2 credits)
This course will prepare the student for the FAA practical flight examination for the private pilot certificate. Course involves flight in personal computer assisted training device and single-engine aircraft. Student is required to successfully complete all FAA certification requirements and obtain a private pilot certificate. Classes will be conducted off campus. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 1020 and AVN 1024.

AVN 1040 HISTORY OF AVIATION AND AEROSPACE (3 credits)
The course introduces students to the history of aviation and aerospace with emphasis on the evolution of technologies, policies, business models, and transportation.
Distribution: Social Science General Education course

AVN 1160 AVIATION SAFETY (3 credits)
This course provides the student with a detailed introduction to aspects of aviation safety as well as the associated components of flight human factors, aircraft technology, weather related accidents and accident investigation.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 1500 INTRODUCTION TO UNMANNED AIRCRAFT SYSTEMS (3 credits)
This course is an introductory overview of Unmanned Aircraft Systems including the regulatory process, history, application and career opportunities, ethical concerns, and safety management of UAS operations.
Prerequisite(s)/Corequisite(s): AVN 1000 and AVN 1020. Not open to non-degree graduate students.

AVN 2020 AIRLINE OPERATIONS (3 credits)
The purpose of this course is to introduce the student to operational aspects of airline management. Topics to be covered include management, leadership, labor relations, marketing, forecasting, and fleet planning.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 2050 INTRODUCTION TO AIRPORT ADMINISTRATION (3 credits)
This course examines airport operations, safety and security, various administrative roles within the airport community, and the impact airports can have on local and regional economies. Students will explore the unique role public airports play as an interface between the traveling public and private airlines.
Prerequisite(s)/Corequisite(s): AVN 1000

AVN 2104 INSTRUMENT RATING 1 (2 credits)
The student will complete approximately 25 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator and FAA-approved Advanced Aviation Training Devices on the UNO Main Campus; objective is to complete the first portion of training needed for the FAA Instrument Rating. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): Concurrent enrollment in AVN 2170 or instructor permission. Not open to non-degree graduate students.

AVN 2114 INSTRUMENT RATING 2 (1 credit)
The student will complete approximately 20 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the final portion of training needed for the FAA Instrument Rating. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2170 and AVN 2104 or instructor permission. Not open to non-degree graduate students.

AVN 2124 COMMERCIAL PILOT CERTIFICATE 1 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator and FAA-approved Advanced Aviation Training Devices on the UNO Main Campus; objective is to complete the first of three sections of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2180 or instructor permission. Not open to non-degree graduate students.

AVN 2134 COMMERCIAL PILOT CERTIFICATE 2 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the second of three sections of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2124 or instructor permission. Not open to non-degree graduate students.

AVN 2144 COMMERCIAL PILOT CERTIFICATE 3 (2 credits)
The student will complete approximately 40 hours of training in a single-engine aircraft at a UNO-approved Fixed Base Operator; objective is to complete the final third of training needed for the FAA Commercial Pilot Certificate. Special fees, FAA medical examination and TSA clearance required. (AC 61-139 Area 1)
Prerequisite(s)/Corequisite(s): AVN 2134 or instructor permission. Not open to non-degree graduate students.

AVN 2164 PROFESSIONAL PILOT DEVELOPMENT (2 credits)
This course is intended to supplement the Instrument Rating and Commercial Certificate courses by providing flight experience and simulator training in the areas of instrument flying, complex airplane/multiengine operations, abnormal and emergency situations, and crew resource management.
Prerequisite(s)/Corequisite(s): AVN 1030 or hold a valid US Private Pilot Certificate.
AVN 2170 INSTRUMENT FLIGHT THEORY (3 credits)
This course provides the student with an understanding of the theories and regulations involved in instrument flight. Course will include a strong foundation in attitude instrument flying and instrument navigation to prepare the student for the FAA Instrument Rating Knowledge Test. There is no flight training involved in this course.
Prerequisite(s)/Corequisite(s): AVN 1030 or hold a valid U.S. Private Pilot Certificate; or instructor permission.

AVN 2174 INSTRUMENT RATING (3 credits)
This course consists of approximately 35 hours of dual flight training in instrument procedures. Ten hours of the minimum 35 required training hours will be conducted using the personal computer assisted training device.
Prerequisite(s)/Corequisite(s): AVN 2170 or instructor permission. AVN 2170 may be taken concurrently.

AVN 2180 COMMERCIAL PILOT THEORY (3 credits)
This course provides the student with an understanding of the theories involved in flight at the commercial level. Course will include extensive review and study of VFR and IFR cross-country procedures and night flight procedures to prepare the student for the FAA commercial Pilot Knowledge Test. There is no flight training involved in this course.
Prerequisite(s)/Corequisite(s): AVN 1030 or possess a U.S. FAA issued Private Pilot Certificate; or instructor permission. Strongly recommended that student possess a U.S. instrument rating.

AVN 2184 COMMERCIAL CERTIFICATE (3 credits)
This course is designed to accomplish all remaining flight training requirements for the commercial pilot certificate. Student must obtain the commercial pilot certificate to successfully complete this course. Training also conducted using the personal computer assisted training device. Special fees apply.
Prerequisite(s)/Corequisite(s): AVN 2174 and AVN 2180; or instructor permission. AVN 2174 and AVN 2180 may be taken concurrently.

AVN 2510 DIVERSITY IN AVIATION (3 credits)
This course provides an overview of the key elements of the atmosphere's structure from the earth's surface to the upper levels; weather systems and hazards to aviation operations plus impact of adverse weather on aeronautical operations. Course will include review of air mass characteristics, frontal weather, and pressure system structure.
Prerequisite(s)/Corequisite(s): Not open to non-degree Graduate Students.
Distribution: Social Science General Education course

AVN 2750 AVIATION METEOROLOGY (3 credits)
An introductory study of the key elements of the atmosphere's structure from the earth's surface to the upper levels; weather systems and hazards to aviation operations plus impact of adverse weather on aeronautical operations. Course will include review of air mass characteristics, frontal weather, and pressure system structure.
Prerequisite(s)/Corequisite(s): AVN 1020, and MATH 1310 or equivalent.

AVN 2900 INDEPENDENT STUDY IN GENERAL AVIATION (3 credits)
This course will cover various topics in aviation to be determined with the instructor and student. Possible topics include Ground Instructor Ratings, crew resource management, airline airport analysis, military history, effects of privatization, etc.

AVN 3000 BUSINESS AND CORPORATE AVIATION (3 credits)
This course will provide a broad understanding of aspects related to the field of business and corporate aviation. Information that will be covered includes: the history of business and corporate aviation; regulations and associations; the value of using business aircraft; aircraft selection; the differences between corporate flight department, fractional ownership, and charter departments; insurance requirements; and safety and security issues.
Prerequisite(s)/Corequisite(s): AVN 1000 and Junior or Senior standing

AVN 3040 HUMAN FACTORS IN AVIATION SAFETY (3 credits)
The purpose of this course is to provide students with an understanding of human factors as it applies to pilots and administrators. Topics will include pilot physiological and psychological issues, work station design, crew resource management, and related public sector issues for managers.
Prerequisite(s)/Corequisite(s): AVN 1160

AVN 3060 WRITING IN AVIATION (3 credits)
This course will further develop the communication skills of aviation students through various forms of writing. Students will compose a research paper and other writing assignments. This course may be used as the third writing course for general education degree requirements.
Prerequisite(s)/Corequisite(s): ENGL 1160 and AVN 1000

AVN 3070 AIR TRAFFIC CONTROL (3 credits)
The purpose of this course is to introduce students to the Federal Aviation Administration (FAA) Air Traffic Control system. Elements and requirements of the course will include: basic air traffic control procedures for pilots, navigation aids, control tower operations, radar approach and departure regulations, and airport traffic control (ATC).

AVN 3080 AVIATION WEATHER SERVICES (3 credits)
The course is a study of aviation weather services, their components and methods of observing, analyzing, distributing, and presenting weather data applicable to aviators.

AVN 3090 AIRPORT ADMINISTRATION AND PLANNING (3 credits)
This course covers the nation's airspace design, navigation and air traffic systems and their effect on airport capacity. Additionally, the national airport system will be investigated as well as airport design and development parameters, fiscal processes, and management considerations. (Cross-listed with AVN 8095)
Prerequisite(s)/Corequisite(s): AVN 2050

AVN 3150 AVIATION LAW (3 credits)
The purpose of this course is to increase the student's knowledge of aviation law and regulations. Particular attention will focus on the American legal system; important legal concepts, regulators of the industry and international aviation law. Case studies will be discussed throughout the course. (Cross-listed with AVN 8155)
Prerequisite(s)/Corequisite(s): AVN 1000 and junior standing.

AVN 3190 CERTIFIED FLIGHT INSTRUCTOR THEORY (3 credits)
Provide the student with an understanding of the theories involved in flight instruction. Course will include extensive oral presentation of complex aeronautical information and use of the personal computer assisted training device. Students are expected to pass FAA Fundamentals of Instructing and FAA Flight Ground Instructor Knowledge tests. There is no flight training in this course.
Prerequisite(s)/Corequisite(s): AVN 2184 and SPCH 1110.

AVN 3194 CERTIFIED FLIGHT INSTRUCTOR I (2 credits)
This course consists of approximately 25 hours of flight training in flight instruction procedures required to obtain the FAA flight instructor certificate. Special Fees apply.
Prerequisite(s)/Corequisite(s): AVN 3190 (may enroll concurrently).

AVN 3200 COOPERATIVE EDUCATION IN AVIATION (1-6 credits)
This course will complement course work with a relevant professional work experience or practicum in aviation. The practicum/field experience may be a special project in an aviation organization to be coordinated by the instructor. Offered as a credit/no-credit course.
Prerequisite(s)/Corequisite(s): AVN 3060, aviation major, junior/senior standing, and instructor permission.

AVN 3250 AVIATION MAINTENANCE ADMINISTRATION (3 credits)
This course is designed to introduce the student to the basic concepts related to managing an aviation maintenance facility. Topics to be covered include regulatory requirements, responsibilities, procedures, applications of maintenance concepts, professional development, safety, and current issues related to the field of maintenance management. (Cross-listed with AVN 8255.)
AVN 3300 CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT/ MULTIENGINE THEORY (3 credits)
Provide the student with an understanding of the theories involved in instrument flight and multiengine instruction. Course includes extensive oral presentations of flight instrument approaches, training procedures, and use of the Personal Computer Assisted Training Device. Students will pass FAA IFI and exam. There is no flight training in this course.

AVN 3304 CERTIFIED FLIGHT INSTRUCTOR II (2 credits)
This course consists of approximately 10 hours of flight training in instructing in instrument procedures and approaches in preparation for FAA certified flight instructor-instrument rating. Class is conducted off campus. Special fees apply. Prerequisite(s)/Corequisite(s): AVN 3300 or concurrent enrollment.

AVN 3400 MULTI-ENGINE CERTIFICATION (2 credits)
Course consists of ground and flight training in multi-engine aircraft procedures. Student will meet all flight requirements for the FAA multi-engine rating. Training will include use of the Personal Computer Assisted Training Device. Class is conducted off campus. Special fees apply. Prerequisite(s)/Corequisite(s): AVN 2184 or concurrent enrollment or instructor permission.

AVN 3500 RESEARCH METHODS IN AVIATION (3 credits)
An introductory research methods course focused on contemporary as well as historical aviation problems and topics, but from an investigative perspective. The primary focus will be the preparation of standard research documents and the use of traditional statistical methods to evaluate various data sources. Prerequisite(s)/Corequisite(s): 60 hours of undergraduate credit and AVN 3060 completed or in progress.

AVN 3510 AEROSPACE SCIENCES (3 credits)
This introductory course will provide pre-service teacher candidates, aviation students, and students at large the opportunity for a science oriented general education course. The curriculum will be focused in the areas of earth and space science, geospatial technology, and aeronautics. Key topics for this course will include the geoscience practice of Geographic Information Systems, Global Positioning System, and the NASA Jet Propulsion Laboratory/ UNO designed Dato-Slate remote sensing program. Also included will be space sciences focused solar system exploration, satellite technology, and astrophysics. Students will engage in aeronautical science topics inclusive of the study of aerodynamics of flight, meteorological science and weather, and flight technology. All students will be provided opportunity to apply concepts of flight in the Aviation Institute’s Advanced Simulation Facility.

AVN 3600 INTERNATIONAL AVIATION (3 credits)
This course examines global air transport and its impact on the development of the global economy. Lectures and readings will provide a solid foundation of historical knowledge about international air transport and its development in various countries, before exploring current policy debates about liberalization, global alliances, and other critical issues. (Cross-listed with AVN 8605) Prerequisite(s)/Corequisite(s): AVN 2020

AVN 3700 TRANSPORTATION ANALYSIS (3 credits)
This course is an extension of introductory financial courses; special emphasis on service characteristics of air carriers. Review of airline revenue and expense streams, pricing and fares, fiscal market segmentation, and fleet planning. Focused approach to understanding the monetary forces that underlie the business practices of domestic and international passenger and cargo airlines. Prerequisite(s)/Corequisite(s): ECON1200 or higher and junior standing

AVN 4000 INDEPENDENT RESEARCH IN AVIATION (1-3 credits)
The purpose of this course is to provide the aviation student an opportunity to complete an in-depth analysis of a specific aviation topic. Examples: aerodynamics, airports rates/charges analysis, cost-allocation for airside/ landside, aviation marketing relating to aircraft manufacturing, airline promotion, flight component, off-airport subjects, comprehensive regional planning, environmental subject, etc. Prerequisite(s)/Corequisite(s): Aviation major, senior standing, and written permission of the instructor.

AVN 4010 AERODYNAMICS AND AIRCRAFT PERFORMANCE (3 credits)
Provides the student with an understanding of the factors affecting aircraft performance during various phases of flight. Topics will include aircraft performance requirements outlined in the Federal Aviation Administration Regulations, use of performance charts and tables, runway airport analysis, and climb cruise descent performance. Prerequisite(s)/Corequisite(s): AVN 1000, 2184, MATH 1320 or instructor permission.

AVN 4020 AIRCRAFT SYSTEMS (3 credits)
Provides the student with an understanding of systems employed on technologically advanced, sophisticated aircraft. Systems covered will include electrical, hydraulic, engines, flight control and pneumatic systems. Prerequisite(s)/Corequisite(s): AVN 1000 and AVN 2184 or instructor permission.

AVN 4030 CERTIFIED FLIGHT INSTRUCTOR III (2 credits)
A study of the principles and methodology of instruction in multi-engine flight. This course will prepare the student for the FAA multi-engine flight instructor rating through ground and flight training. The Personal Computer Assisted Training Device will be used to enhance training. Class is conducted off campus. Special fees apply. Prerequisite(s)/Corequisite(s): AVN 3194, AVN 3304 and AVN 3400.

AVN 4050 GENERAL AVIATION OPERATIONS (3 credits)
Organization and operation of general aviation facilities to include administration, aircraft maintenance considerations, flight line operations, and decision making. Prerequisite(s)/Corequisite(s): AVN 1000

AVN 4060 ADVANCED AIR TRANSPORT FLIGHT OPERATIONS (3 credits)
The course will be a capstone event in the professional pilot sequence. Specific emphasis will be on the pre-flight planning and execution of air carrier flight operations. Additional instructional segments will cover regional and corporate flight operations. Prerequisite(s)/Corequisite(s): AVN 4020 or instructor permission.

AVN 4080 AIRPORT SAFETY AND SECURITY (3 credits)
This course will explore the role of airports in relation to safety and security. Topics will include regulations, responsibilities, security issues, ramp safety, disaster preparedness, and emergency management. (Cross-listed with AVN 8086) Prerequisite(s)/Corequisite(s): AVN 4020 or instructor permission.

AVN 4090 MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with AVN 8106)
AVN 4200 INTERNSHIP IN AVIATION (1-6 credits)
This course is designed to provide direct hands-on experience in the aviation industry for selected students. Students will be selected for internships competitively by a panel of Aviation Institute faculty and industry representatives from companies providing the internships. This experience will be in a full-time, preferably paid position in a highly structured environment using a syllabus designated by the faculty and industry committee.
Prerequisite(s)/Corequisite(s): AVN 3060, junior/senior standing, aviation major, instructor permission.

AVN 4620 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation, parking and terminal buildings. Air-side components include aircraft apron gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with AVN 8626)
Prerequisite(s)/Corequisite(s): CIVE 361 or permission from instructor.

AVN 4890 SPECIAL TOPICS IN AVN ADMIN (3 credits)
A study of the timely as well as timeless issues in aviation. These issues emphasize recent and significant changes and evolutionary developments found in various components of the aviation industry. (Cross-listed with AVN 8896, PA 4890, PA 8896)

AVN 4900 SPECIAL TOPICS IN AVIATION (1-3 credits)
This course will discuss various topics in the Aviation Industry determined each time the course is offered. Possible topics include International Aviation, Current Issues, and Cockpit Resource Management along with other topics. (Cross-listed with AVN 8906)
Prerequisite(s)/Corequisite(s): AVN 1000 and junior standing

AVN 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

AVN 4980 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

AVN 4990 AIR TRANSPORTATION (3 credits)
This course fulfills the Aviation Institute capstone projects for undergraduates. Lectures and readings will cover contemporary issues and problems in air transportation, as well as material related to research design and implementation. (Cross-listed with AVN 8996).
Prerequisite(s)/Corequisite(s): AVN 3700, junior or senior standing, or instructor permission.

Bioinformatics (BIOI)

BIOL 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)
Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics covered in the course will include an overview of the biology, mathematics and computer science needed to understand these problems and an examination of some of the tools used by bioinformaticians to address them.
Distribution: Natural/Physical Science General Education course

BIOL 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)
Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.
Prerequisite(s)/Corequisite(s): BIOL 1000 or BIOL 1450

BIOL 3000 APPLIED BIOINFORMATICS (3 credits)
This course will provide students with the practical skills needed for the analysis of -omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computing tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.
Prerequisite(s)/Corequisite(s): BIOL 1000, BIOL 1450, and CIST 1400; or permission.

BIOL 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)
Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.
Prerequisite(s)/Corequisite(s): BIOL 1000 and CSCI 1620. CSCI 3320 and an introductory course in biology (e.g., Biology 1450) are strongly recommended but not required.

BIOL 4500 INDEPENDENT STUDY (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.
Prerequisite(s)/Corequisite(s): Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

BIOL 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

BIOL 4860 BIOINFORMATICS ALGORITHMS (3 credits)
The main objective of this course is to provide an organized forum for students to learn recent developments in Bioinformatics, particularly, from the algorithmic standpoint. The course will present basic algorithmic concepts in Bioinformatics and show how they are connected to molecular biology and biotechnology. Standard topics in the field such as restriction mapping, motif finding, sequence comparison, and database search will be covered. The course will also address problems related to Bioinformatics like next generation sequencing, DNA arrays, genome rearrangements and biological networks. (Cross-listed with BMI 8666).
Prerequisite(s)/Corequisite(s): CSCI 3320 and BIOL 1450; Or permission of instructor.
BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)
The course provides students basic knowledge on database aspects related to bioinformatics. The course presents fundamental materials on database management systems, including data modeling, relational database design and queries, XML, as well as basics of information retrieval. Various approaches related to biodatabase search, machine learning and pattern discovery will be covered.
Prerequisite(s)/Corequisite(s): CSCI 3320

BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the class will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny.
Prerequisite(s)/Corequisite(s): Junior or senior-level standing in the Bioinformatics program or permission from the instructor. Not open to nondegree students.

BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)
This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.
Prerequisite(s)/Corequisite(s): Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.

BIOI 4960 SEMINAR IN BIOINFORMATICS (1 credit)
This is a variable-content course that engages students in current research in bioinformatics and develops skills in the oral and written presentation of scientific research.
Prerequisite(s)/Corequisite(s): Senior level status in the Bioinformatics program.

BIOI 4970 SENIOR PROJECT IN BIOINFORMATICS I (1 credit)
This course is the first part of a two-part series that allows students to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to decide on a research topic and to write a detailed proposal based on this topic that outlines the goals and objectives of the proposed research. The topic and proposal will be approved by the supervising faculty member.
Prerequisite(s)/Corequisite(s): Senior level status in the Bioinformatics program. Not open to nondegree students.

BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II (2 credits)
This course is the second part of a two-part series that allows the student to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to perform the research proposed in Part I of the course and to present the results of his or her work. Presentations will be made in the form of a report, written as a scientific research paper, and an oral defense.
Prerequisite(s)/Corequisite(s): Senior-level standing in the Bioinformatics program and successful completion of BIOI 4970. Not open to nondegree students.

BIOI 4990 INDEPENDENT STUDY IN BIOINFORMATICS (1-3 credits)
This is a variable-credit course designed for the junior or senior bioinformatics major who would benefit from independent reading assignments and research-type problems. Independent study enables coverage of topics not taught in scheduled course offerings.
Prerequisite(s)/Corequisite(s): Junior/senior standing, permission of supervising faculty member & approval of Bioinformatics UG Prog Comm Chair. A formal description of the problem area to be investigated, the resources to be used, & the results to be produced must be prepared.

Biology (BIOL)

BIOL 1000 INTRODUCTION TO CAREERS IN THE HEALTH FIELD (1 credit)
A course designed to introduce students to the many diversified opportunities in the health field, the personal and educational requirements for the various careers, and selected experiences to assist the student in deciding on a health field career. Usually offered every year.

BIOL 1020 PRINCIPLES OF BIOLOGY (5 credits)
Principles of Biology introduces fundamental concepts at all levels of organization in biology. The laboratory emphasizes inquiry-based and problem-oriented approaches to these concepts. Must enroll in one laboratory. Usually offered Fall, Spring, Summer.
Distribution: Natural/Physical Sci General Education lecture&lab

BIOL 1030 BIOLOGY OF HUMAN DISEASES (2 credits)
A course on the general principles of human disease. Concepts include an introduction to immunity, heredity, cancer, and infectious disease. Diseases of all major organ systems will be discussed, including the cardiovascular, blood, respiratory, urinary, gastrointestinal, reproductive, endocrine, nervous, immune, and musculoskeletal systems. Sections will cover the most common diseases in organ systems, including the overall pathology, diagnosis, and treatment of diseases that occur in these systems. The course is intended as a science course for non-science majors - for example those who may be involved in the business aspects of the health care industry. The course is also intended to be a general overview for pre-health professionals. Usually offered in the fall.
Prerequisite(s)/Corequisite(s): High school biology and chemistry.

BIOL 1060 INTRODUCTION TO MEDICAL CAREERS & ETHICS (2 credits)
A general overview of modern healthcare professions, plus foundational career concepts which include vocational discernment, undergraduate preparation, healthcare ethics, HIPAA certification, challenges and opportunities in healthcare, and evidence-based medicine. An exploration of various careers in healthcare is included. Intended as a preparatory healthcare professional course. Usually offered during the Fall, Spring, and Summer semesters.

BIOL 1330 ENVIRONMENTAL BIOLOGY (3 credits)
This course is a study of human ecology with emphasis on the effects of human populations on the earth’s resources and on the environment. Usually offered Fall, Spring, Summer.
Distribution: Natural/Physical Science General Education course

BIOL 1350 SCIENCE OF FOOD (3 credits)
General scientific concepts in biology, chemistry, and physics using food as a model. What food is from both chemical and nutritional perspectives, and the fate of food from when it leaves the farm to when it becomes part of the individual. Assists students in making intelligent choices about many food related controversial issues (e.g. food irradiation, food additives, health foods). (Cross-listed with FSCI 1310)
Biology (BIOL)

BIOL 1450 BIOLOGY I (5 credits)
First semester of a two semester series on the general principles of biology. Concepts including the chemical and physical basis of living systems, cell structure and function, energy and metabolism, genetics and molecular genetics, and evolution of biological diversity will be presented. Laboratory will provide inquiries into these same topics. Intended as the first course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.
Prerequisite(s)/Corequisite(s): High school biology and chemistry. College level chemistry recommended.
Distribution: Natural/Physical Sci General Education lecture&lab

BIOL 1750 BIOLOGY II (5 credits)
Second semester of a two semester series on the general principles of biology. Introduction to the study of life, concentrating on whole organisms and their interactions with the environment. This course will focus on evolution and natural selection, biodiversity, physiologic responses to the environment, organ systems, population dynamics, community ecology, and energy and material flow through ecosystems. Laboratory will provide inquiries into these same topics. Intended as the second course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.
Prerequisite(s)/Corequisite(s): BIOL 1450. College level chemistry is recommended.

BIOL 1950 ANALYZING DYNAMIC LIVING SYSTEMS (3 credits)
A foundations course in systems/mathematical biology. The course is an introduction to the use of mathematical concepts in molecular, cellular, and higher level biological systems. Both continuous and discrete methods will be covered. Topics include classical modeling techniques as well as the more modern concepts such as chaos theory, complexity systems, discrete modeling, and neural networks and their applications to molecular, cellular, organismic, and population biology.

BIOL 2120 SUSTAINABLE LANDSCAPE PLANTS (4 credits)
This course focuses on the identification of native and adapted landscape plants, including herbaceous perennials, groundcovers, vines, trees and shrubs in natural and urbanized landscapes. In addition, it covers the ecological and design contexts for the landscape roles, sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with ENVN 2120)
Prerequisite(s)/Corequisite(s): High school biology
Distribution: Natural/Physical Sci General Education lecture&lab

BIOL 2130 SUSTAINABLE LANDSCAPE PLANTS II (3 credits)
This course requires the identification of native and adapted landscape plants, including groundcovers, vines, trees and shrubs, in natural and urbanized landscapes. In addition, it covers the sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with ENVN 2130)
Prerequisite(s)/Corequisite(s): BIOL 2120 or ENVN 2120 is recommended.

BIOL 2140 GENETICS (4 credits)
This course provides students with a foundational understanding of genetics. First, students will learn to analyze patterns of Mendelian inheritance. Then, they will develop molecular explanations for these patterns and understandings of how gene genes are defined and identified. They will also learn how variations in inheritance patterns arise, using analytical and statistical tools to distinguish between variations on inheritance patterns and to analyze quantitative traits. Then, students will focus on the nucleus to examine the structure, organization, packaging, and inheritance of chromosomes. They will consider the consequences of genetic recombination on inheritance patterns and for genetic mapping. They will zoom in even further to examine the molecular details of genetic processes: the regulation of gene expression, the basis of mutation and recombination, and the movement of transposable elements. With this background, they will consider the contributions of genome projects to genetics. Finally, students will zoom out to the level of populations and analyze the genetic structure of populations and the contribution of genetics to evolution. Usually offered Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750, CHEM 1140 or 1180 or the equivalent or permission of the instructor. Must enroll in discussion.

BIOL 2440 THE BIOLOGY OF MICROORGANISMS (4 credits)
An introduction to the structure and properties of different types of microorganisms, the importance of microorganisms to our society and our environment, the methods used to control microorganisms, the diseases caused by microorganisms and the defenses of the human body against microorganisms including immune cells. Must enroll in one lab section. Usually offered Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): High school biology and chemistry.

BIOL 2740 HUMAN PHYSIOLOGY AND ANATOMY I (4 credits)
Structure and function of the cell, and the nervous, skeletal, muscle systems and special senses as well as necessary aspects of chemistry, physics, embryology and histology. Usually offered Fall, Summer.
Prerequisite(s)/Corequisite(s): High school or college biology or zoology and high school or college chemistry. Must enroll in one lab section.

BIOL 2840 HUMAN PHYSIOLOGY AND ANATOMY II (4 credits)
Structure and function of the circulatory, respiratory, digestive, excretory, endocrine, reproductive systems and embryology. Usually offered Spring, Summer.
Prerequisite(s)/Corequisite(s): BIOL 2740 or permission of instructor. Must enroll in one lab section.

BIOL 3020 MOLECULAR BIOLOGY OF THE CELL (3 credits)
A study of molecular and cellular biology. Topics to be covered include gene expression and regulation, structure and function of biological macromolecules, metabolism, membrane function and transport, and cell differentiation. Usually offered Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): BIOL 2140 and at least one semester of general chemistry.

BIOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)
An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with BIOL 3104 for one credit hour. (Cross-listed with GEOL 3100.)
Prerequisite(s)/Corequisite(s): GEOL 1180 or permission; coreq BIOL 3104.

BIOL 3104 INVERTEBRATE PALEONTOLOGY LAB (1 credit)
An examination of representative specimens of groups of organisms important in the fossil record and an introduction to analytical techniques in paleontology.
Prerequisite(s)/Corequisite(s): GEOL 1180 or permission; coreq BIOL 3100.
**Biol 3150 Writing in Biology (3 credits)**
This is a course in writing for students majoring in the biological sciences. It is designed primarily to prepare students to report results of original research in biology. Topics will include scientific literature, the organization and presentation of data in biological reports, and the preparation of posters and oral presentations for scientific meetings. Usually offered Fall, Spring, Summer.

**Prerequisite(s)/Corequisite(s):** Biology major, junior or senior standing, ENGL 1150 and 1160 or equivalent.

**Biol 3240 Introduction to Immunology (3 credits)**
An introduction to the fundamentals of immunology including the immune system, the immune response, humoral and cellular immunity, and antibodies. In addition, immunooassay, immunopathology, cancer immunology, and histocompatibility will be considered. Usually offered Fall, Summer.

**Prerequisite(s)/Corequisite(s):** BIOL 1450, 1750 and 2140; junior. Recommended: BIOL 2440 or CHEM 3650 or Organic Chemistry.

**Biol 3340 Ecology (4 credits)**
Study of interrelationships between organisms and their biotic and abiotic environment; includes population biology, community dynamics, biotic interactions and evolution. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 8345)

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and 1750; junior-senior. Must enroll in one lab section.

**Biol 3500 Biological Principles of Ageing (3 credits)**
The Biological Bases of Ageing Course provides a survey of the primary topics in the biology of ageing field for undergraduate students. This required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of ageing field. Furthermore, students will learn how to critically analyze and interpret primary research about biological ageing. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, NEUR 3500)

**Prerequisite(s)/Corequisite(s):** Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

**Biol 3530 Flora of the Great Plains (4 credits)**
A study of common vascular plants found in the Great Plains region, including identification, description, and classification techniques and an introduction to the plant communities of Nebraska. Usually offered every Fall and Summer. (Cross-listed with BIOL 8535.)

**Prerequisite(s)/Corequisite(s):** BIOL 1450, 1750 and junior-senior. Must enroll in lab.

**Distribution:** OBIOWRT3 - Tier III Biology Writing Course

**Biol 3630 Plant Anatomy and Development (4 credits)**
A study of cells, tissues and organs of vascular plants with particular emphasis on the internal structures of seed plants, their development, and structure-function relationships. Must enroll in lab. Usually offered in alternate years. (Cross-listed with BIOL 8635)

**Prerequisite(s)/Corequisite(s):** BIOL 1450, 1750 and junior-senior.

**Biol 3660 Introduction to Sustainable Landscape Design (3 credits)**
This course provides an overview of graphic techniques and process for landscape design; the analysis and conceptual design of the landscape; and the exploration of the design characteristics of plants, landform, and structures through discussion, case studies and applied design development. A focus on sustainable design components and applications is included, including native and adapted plant selection, stormwater management, water conservation, efficient irrigation concepts, and practical landscape management and maintenance considerations. (Cross-listed with ENVN 3660)

**Distribution:** Humanities and Fine Arts General Education course

**Biol 3670 Introduction to Sustainable Landscape Design Laboratory (1 credit)**
This course covers the basic use of graphic techniques for landscape design; the analysis and process for conceptual design of the landscape; studio problems in value, texture, form and space; and the exploration of the design characteristics of plants, landform, and structures supporting sustainable landscape design and management principles. (Cross-listed with ENVN 3670)

**Prerequisite(s)/Corequisite(s):** ENVN 3660 or BIOL 3660 (prior or concurrent).

**Biol 3730 Fauna of the Great Plains (3 credits)**
A survey of the common animal groups found in the Great Plains, including their evolution, ecology, distribution and specific adaptations to the environment of the temperate North American grasslands. Must enroll in lab. Usually offered in alternate years. (Cross-listed with BIOL 8735.)

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and BIOL 1750.

**Biol 3740 Histology (4 credits)**
Analysis of the microscopic anatomy of tissues and organs, their adaptations and functional significance. Must enroll in one lab section. Usually offered Spring semesters. (Cross-listed with BIOL 8745)

**Prerequisite(s)/Corequisite(s):** BIOL 1750 and a course in vertebrate anatomy, or 2740 or 2840; junior-senior. Must enroll in one lab section.

**Biol 3830 Biology of Pathogenic Microorganisms (3 credits)**
A study of the biology, epidemiology and pathogenicity of bacteria, viruses, fungi and protozoa, with emphasis on human pathogens. Usually offered in Spring semesters.

**Prerequisite(s)/Corequisite(s):** BIOL 2440 or 3240, or 2140 or the equivalent.

**Biol 4030 Special Topics in Biology (1-3 credits)**
A variable credit lecture and/or laboratory course for biology majors pertaining to a specific biological topic not available in the regular curriculum. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit.

**Prerequisite(s)/Corequisite(s):** Junior-senior.

**Biol 4040 Directed Readings in Biology (1-3 credits)**
A faculty directed study of a biological subject through selected readings, oral reports and a final written report. May be repeated up to a total of six hours for 4040 and 4050 combined.

**Prerequisite(s)/Corequisite(s):** Junior-senior and written permission of instructor.

**Biol 4050 Supervised Research in Biology (1-3 credits)**
Completion of a faculty supervised research project involving experimental design, data collection and analysis, and a final written report. May be repeated up to a total of six hours of BIOL 4040 and 4050 combined.

**Prerequisite(s)/Corequisite(s):** Junior-senior and written permission of instructor.

**Biol 4100 Biogeography (3 credits)**
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with BIOL 8106, GEOG 4100, GEOG 8106, GEOL 4100, GEOL 8106)

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and 1750 or GEOG 3100 or BIOL 3100, junior-senior.

**Biol 4110 Statistics for Biological Sciences (4 credits)**
Introduction to statistical methods and software used to display, summarize, analyze, and interpret biological and medical data. (Cross-listed with BIOL 8116)

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and BIOL 1750, and MATH 1310 or equivalent, or permission by the instructor.
BIOL 4120  CONSERVATION BIOLOGY (3 credits)
Study of biological diversity at the genetic, species and ecosystem levels, its
diversity. Usually offered every year. (Cross-listed with BIOL 8126)
Prerequisite(s)/Corequisite(s): BIOL 1750; Junior-Senior in biology.
Recommended: BIOL 3340/8345. Not open to non-degree graduate

BIOL 4130  MOLECULAR GENETICS (4 credits)
A lecture and lab course that explores the frontiers of molecular genetics
research. Topics addressed will include DNA replication, gene function, gene
expression, genetic manipulation, cloning, mutational analysis, genome
sequencing, and epigenetics. Research techniques will include DNA/RNA
isolation, PCR, cloning, gel electrophoresis, transgene generation, data
analysis, and quantitative rtPCR. Students will get a solid grounding in
scientific writing and presentations, as well as reading and assessing
primary scientific literature. Lecture, discussion, and laboratory. (Cross-
listed with BIOL 8136)
Prerequisite(s)/Corequisite(s): BIOL 2140, 3020 and CHEM 2210 or
2260; or their equivalents. Must enroll in one lab section.

BIOL 4140  CELLULAR BIOLOGY (4 credits)
This course is a modern study of mammalian cell function. Focus will be
placed on developing skills in experimental cellular biology. Material
covered will include tissue culture techniques, cell staining applications,
fluorescent microscopy, determination of gene expression, and high-
throughput assay design. (Cross-listed with BIOL 8146)
Prerequisite(s)/Corequisite(s): BIOL 2140, 3020 and CHEM 2210 or
2250. Junior or senior undergraduate standing Must enroll in laboratory
section and lecture for this course. Not open to non-degree graduate

BIOL 4150  CANCER BIOLOGY (3 credits)
This is a 100% online course devoted to understanding Cancer Biology. The
etiologies of cancers, differences between types of malignancies, oncogenes
and genetic modifiers, treatments, susceptibility, and tumor-induced
immunosuppression are discussed. This is an active course focused on
inquiry-based learning and the purpose of this course is to provide students
a foundation in cancer biology while applying tools learned through cell
biology, genetics, and immunology classes. (Cross-listed with BIOL 8156)
Prerequisite(s)/Corequisite(s): Undergraduate and Graduate: Molecular
Biology of the Cell (BIOL3020) and Genetics (BIOL 2140). Recommended:
Introduction to Immunology (BIOL3240).

BIOL 4180  LIMNOLOGY (4 credits)
A study of the physical, chemical, and biotic relationships that serve to
establish and maintain plant and animal communities in a freshwater
environment. Usually offered in alternate years. (Cross-listed with
BIOL 8186)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, organic chemistry, and
junior-senior. Must enroll in lab.

BIOL 4210  FIRE ECOLOGY (3 credits)
Study of fire in ecosystems including characteristics of fire, effects on
flora, fauna, and the abiotic environment, and use in maintaining native
ecosystems. Includes an optional 4-day fieldtrip. Usually offered in alternate
years. (Cross-listed with BIOL 8216)
Prerequisite(s)/Corequisite(s): BIOL 3340, junior-senior.

BIOL 4220  POPULATION BIOLOGY (4 credits)
An examination of topics in population ecology and population genetics
including selection on individuals and groups, mating systems, life history
characteristics, growth and regulation of populations and population
interactions. Must enroll in lab. Usually offered in alternate years. (Cross-
listed with BIOL 8226)
Prerequisite(s)/Corequisite(s): BIOL 2140 and 3340; junior-senior.

BIOL 4230  ORGANIC EVOLUTION (3 credits)
The mechanisms of evolution (natural selection, gene flow, mutation and
gene drift) are explained. Evidence for and examples of micro- and
macroevolution, speciation and human evolution are presented. Lecture and
discussion. Usually offered every year. (Cross-listed with BIOL 8236)
Prerequisite(s)/Corequisite(s): BIOL 2140, junior-senior.

BIOL 4240  MARINE BIOLOGY (3 credits)
An introduction to the marine environment, this course explores physical
conditions of the ocean including ocean chemistry, salinity, waves and
currents, and tides as well as the ecology of planktonic, nektonic and
benthic organisms– their communities and environments. Impacts of
humans on the marine environment will also be covered. (Cross-listed with
BIOL 8246)
Prerequisite(s)/Corequisite(s): BIOL 1750

BIOL 4250  FIELD MARINE BIOLOGY (1 credit)
This lab is a hands-on introduction to the marine environment using a field
trip to the Gulf Coast. Students will observe first-hand examples of local
marine habitats and organisms. Students will be required to take a trip to
the Gulf Coast of Texas, Louisiana, Mississippi, and Alabama during Spring
Break. Students will be required to provide their own basic camping and
snorkeling gear. (Cross-listed with BIOL 8256)
Prerequisite(s)/Corequisite(s): BIOL 1750, previous or concurrent
enrollment in BIOL 4240 and permission of instructor.

BIOL 4260  BEHAVIORAL ECOLOGY (3 credits)
Behavioral ecology is the study of behavior from an evolutionary and
ecological point of view. Through the integration of research at different
organization levels and the use of many different organisms, behavioral
ecology is one of the most integrative fields in biological sciences. This
course will provide an introduction to the basic concepts of behavioral
ecology and the integrative approaches used in behavioral ecology. Further,
the course will train students in critical reading and discussion of primary
literature in writing and in an oral setting. (Cross-listed with BIOL 8266)
Prerequisite(s)/Corequisite(s): For BIOL 4260: BIOL 2140 Genetics and
BIOL 3340 Ecology; or permission by the instructor. Not open to non-degree
graduate students.

BIOL 4270  ANIMAL BEHAVIOR (3 credits)
Behavior of diverse animals for the understanding of the relationships
between nervous integration and the behavior manifested by the organism,
as well as the evolution and adaptive significance of behavior as a
functional unit. Lecture only. (Cross-listed with BIOL 8276, PSYC 4270,
PSYC 8276)
Prerequisite(s)/Corequisite(s): BIOL 1750 and PSYC 1010 or permission
of instructor, junior-senior.

BIOL 4280  ANIMAL BEHAVIOR LABORATORY (3 credits)
Laboratory and field studies of animal behavior with an ethological
emphasis. Classical laboratory experiences and independent study will be
conducted. (Cross-listed with BIOL 8286, PSYC 4280, PSYC 8286)
Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276
or BIOL 8273

BIOL 4320  HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones,
chemical messengers released from endocrine glands, and behavior in
both human and animal systems. Methods for studying hormonal issues on
behavior will be addressed. This course will provide students in psychology,
biology, and related disciplines an understanding of how hormones affect
sensory processing, motor activities, and processing of information in
the central nervous system. (Cross-listed with BIOL 8326, PSYC 4320,
PSYC 8326)
Prerequisite(s)/Corequisite(s): PSYC 1010 and either BIOL 1020 or
1750. Not open to non-degree graduate students.
BIOL 4340  ICYTHYOLOGY (4 credits)
A study of the biology of fishes, including their evolution, anatomy, physiology, ecology, distribution, classification and identification with emphasis on North American freshwater fishes. Usually offered in alternate years. (Cross-listed with BIOL 8346)
Prerequisite(s)/Corequisite(s): BIOL 1750, junior-senior. Must enroll in lab.

BIOL 4350  LICHENOLOGY (3 credits)
Taxonomy, morphology and ecology of lichenized fungi with laboratory emphasis on identification of the local species. Other topics for discussion will include symbiosis, air pollution and lichens, chemosystematics, and modern herbarium techniques for lichens and other cryptogams. Usually offered in alternate years. (Cross-listed with BIOL 8356)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, junior-senior. Must enroll in lab.

BIOL 4370  PHYCOLOGY (3 credits)
A survey of the algae dealing with their ecology, morphology, physiology, taxonomy and evolution. (Cross-listed with BIOL 8376)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, junior-senior.

BIOL 4380  MORPHOLOGY OF NON-VASCULAR PLANTS (4 credits)
Structural, reproductive, ecological and evolutionary features of the major non-vascular plant groups including prokaryotes, algae, fungi, lichens, and bryophytes. Usually offered in alternate years. (Cross-listed with BIOL 8386)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, junior-senior. Must enroll in lab.

BIOL 4390  VASCULAR PLANT MORPHOLOGY (3 credits)
A survey of living and fossil vascular plants with emphasis on their comparative anatomy and morphology and their evolution. Usually offered in alternate years. (Cross-listed with BIOL 8396)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750 or equivalent, junior-senior. Must enroll in lab.

BIOL 4410  WETLAND ECOLOGY AND MANAGEMENT (3 credits)
This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with ENVN 4410 and BIOL 8416)
Prerequisite(s)/Corequisite(s): BIOL 3340 or instructor permission.

BIOL 4420  RESTORATION ECOLOGY (3 credits)
Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 8426, ENVN 4420)
Prerequisite(s)/Corequisite(s): Junior or Senior standing.

BIOL 4430  BIOLOGY OF FUNGI (3 credits)
A functional and developmental approach to the study of fungi. Fungal structure, growth, physiology and biotic interactions will be examined. Usually offered spring semester. (Cross-listed with BIOL 8436)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, junior-senior.

BIOL 4440  PLANT PHYSIOLOGY (4 credits)
A study of plant processes and functions with emphasis on photosynthesis, growth and development, metabolism and mineral nutrition. (Cross-listed with BIOL 8446)
Prerequisite(s)/Corequisite(s): BIOL1450, BIOL1750, and CHEM2210 or CHEM2250; or permission of instructor.

BIOL 4450  VIROLOGY (3 credits)
A comprehensive course about viruses. The course will address principles of viral infection, virus-host interaction, viral evolution and viral disease processes. Cellular and molecular aspects of viral infection will be the primary focus. This will include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will also be addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with BIOL 8456)
Prerequisite(s)/Corequisite(s): CHEM 2260 and 2274 or CHEM 2210 and 2214, BIOL 3020 and 2140. Recommended: Biochemistry.

BIOL 4454  VIROLOGY LABORATORY (1 credit)
A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include host cell characterization, viral infection, virus purification from infected cells, viral genome isolation and viral transfection. Sequence analysis and sequence comparison will also be introduced. Laboratory exercises will emphasize fundamental molecular biology techniques and instrumentation. Usually offered in Fall semester. (Cross-listed with BIOL 8454)
Prerequisite(s)/Corequisite(s): Biology 4450 - Virology is a prerequisite or co-requisite.

BIOL 4490  MEDICINAL USES OF PLANTS (3 credits)
A scientific study of the biochemical properties and physiological effects of medicinal plants, including their historical uses, current applications to varying systems of the human body, and pathways by which today's potent drugs have transitioned from wild flora. Usually offered Fall semesters of even-numbered years. (Cross-listed with BIOL 8496)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750 and junior-senior.

BIOL 4540  PRINCIPLES OF SYSTEMATICS (3 credits)
A thorough study of phylogenetics, including tree inference techniques, proper interpretation of evolutionary relationships and character evolution, and applications to investigations in various fields of study. Usually offered in fall semesters of odd-numbered years.
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750, junior-senior.

BIOL 4550  BIOTECHNOLOGY INTERNSHIP (3 credits)
Practical laboratory experience for students in the bachelor's of science program in biotechnology. In consultation with the biotechnology adviser and principal investigators, students will select a research laboratory where they will carry out an independent investigation for one semester. Most placements will be at UNMC or UNO. Recommended: Biochemistry. Usually offered Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): Biotechnology major and at least one 4000 level BIOL laboratory course.

BIOL 4570  PALEOBOTANY (4 credits)
A comprehensive study of the biology and evolution of plants through geologic time, including fossil plant structure, function and paleoecology. (Cross-listed with BIOL 8576)
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750. Must enroll in lab.

BIOL 4600  GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 8606, ENVN 4600)
Prerequisite(s)/Corequisite(s): BIOL 3340 or permission of instructor.
BIOL 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. Cross-listed with ENVN 4610, GEOG 4610, GEOG 8616, GEOL 4610, GEOL 8616.
Prerequisite(s)/Corequisite(s): Permission of instructor.

BIOL 4640 MICROBIAL PHYSIOLOGY (4 credits)
Examination of physiological diversity found among microorganisms with an emphasis on experimental procedures and practical applications. Lecture and laboratory. Usually offered Fall semesters. (Cross-listed with BIOL 8646)
Prerequisite(s)/Corequisite(s): BIOL 3020. Must enroll in one lab section.

BIOL 4650 BIOCHEMISTRY I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 8656, CHEM 4650, CHEM 8656).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. BIOL 4654 must be taken concurrently.

BIOL 4654 BIOCHEMISTRY I LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 8654, CHEM 4654, CHEM 8654).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 4650 must be taken concurrently.

BIOL 4660 BIOCHEMISTRY II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 8666, CHEM 4660, CHEM 8666).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. BIOL 4664 must be taken concurrently.

BIOL 4664 BIOCHEMISTRY II LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 8664, CHEM 4664, CHEM 8664).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654 with a C- or better. Concurrent enrollment in BIOL 4660.

BIOL 4710 TOXICOLOGY (3 credits)
An overview of the fundamentals of toxicology. Concepts include the dose-response relationship, absorption, distribution and excretion of toxicants, and the biotransformation of xenobiotics. Emphasis will be given to metals, pesticides, pharmaceutical compounds, chemical carcinogenesis and endocrine disruption. Usually offered Fall. (Cross-listed with BIOL 8716)
Prerequisite(s)/Corequisite(s): CHEM 2210 or 2260 and BIOL 1750, BIOL 3020 or equivalent.

BIOL 4720 VERTEBRATE ENDOCRINOLOGY (3 credits)
An overview of the fundamentals of vertebrate endocrinology. Concepts include: the mammalian hypothalamus-pituitary system, the endocrinology of mammalian reproduction, the mammalian adrenal glands, endocrine disruption, endocrinology and metabolism. (Cross-listed with BIOL 8736)
Prerequisite(s)/Corequisite(s): CHEM 2250, BIOL 1750, BIOL 3020 or equivalent.

BIOL 4740 ANIMAL PHYSIOLOGY (3 credits)
An overview of the fundamentals of animal physiology. Concepts include: the physiology of nerve and muscle function, endocrine function, cardiovascular and respiratory function, oxygen and carbon dioxide delivery by the blood, and osmoregulation and excretion. The course is comparative in nature, including examples from humans, mammals, vertebrates and invertebrate animals. Usually offered Spring. (Cross-listed with BIOL 8746)
Prerequisite(s)/Corequisite(s): Organic Chemistry, BIOL 1750, BIOL 3020 or equivalent.

BIOL 4760 GENOME TECHNOLOGY AND ANALYSIS (3 credits)
This course will introduce the latest genome sequencing technologies and their broad applications in biology and medicine. Students will learn how genome sequencing is conducted by different platforms and obtain practical experience of how to use bioinformatics tools for genome analysis. Students are expected to be able to perform sequence analysis efficiently and interpret the results properly. (Cross-listed with BIOL 8766)
Prerequisite(s)/Corequisite(s): BIOL2140 Genetics; or Permission of instructor

BIOL 4780 VERTEBRATE ZOOLOGY (4 credits)
A study of the general biology of the subphylum vertebrata including the morphology, anatomy, physiology and ecology of vertebrate representatives. (Cross-listed with BIOL 8786)
Prerequisite(s)/Corequisite(s): BIOL 1750, junior-senior.

BIOL 4790 MAMMALOLOGY (4 credits)
The biology of mammals, including their evolution, functional morphology, physiology, ecology, zoogeography, behavior, classification and identification, with emphasis on North American groups. Field trips. Usually offered in alternate years. (Cross-listed with BIOL 8796)
Prerequisite(s)/Corequisite(s): BIOL 1750, junior or senior standing. Must enroll in lab.

BIOL 4800 INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)
Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with ENVN 4800)
Prerequisite(s)/Corequisite(s): Permission of the Environmental Studies Program.

BIOL 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulations. Addresses federal regulations, implementing instructions, legal principles and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation are discussed. Usually offered Fall semesters. (Cross-listed with BIOL 8826, ENVN 4820, GEG 4820, GEG 8826, PA 4820, PA 8826)
Prerequisite(s)/Corequisite(s): Junior-senior and permission.
BIOL 4830 DEVELOPMENTAL GENETICS (2 credits)
This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics. (Cross-listed with BIOL 8836)
Prerequisite(s)/Corequisite(s): Completion of, or concurrent registration in, BIOL 4850.

BIOL 4840 HERPETOLOGY (4 credits)
The biology of amphibians and reptiles, including their evolution, classification, anatomy, physiology, ecology, distribution and identification, with emphasis on North American groups. Usually offered in alternate years. (Cross-listed with BIOL 8846)
Prerequisite(s)/Corequisite(s): BIOL 1750. Must enroll in lab.

BIOL 4850 DEVELOPMENTAL BIOLOGY (3 credits)
This course explores principles underlying the development of multicellular organisms, stressing the environmental, genetic, molecular, cellular, tissue, and evolutionary mechanisms of animal development. Usually offered once per year. (Cross-listed with BIOL 8856)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, 2140, 3020, and CHEM 3650 or BIOL 4650 or CHEM 4650 and junior-senior status.

BIOL 4860 COMPARATIVE GENOMICS (3 credits)
This course will introduce fundamental concepts in genomics and genome comparison. Students will learn how genomes are constructed, how they evolve, how individual genomes are unique, and what genomic knowledge means in terms of human health and medicine. (Cross-listed with BIOL 8866)
Prerequisite(s)/Corequisite(s): BIOL2140 Genetics; BIOL3020 Molecular Biology of the Cell; Or Permission of instructor. Not open to nondegree students.

BIOL 4870 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with NEUR 4870, NEUR 8876, BIOL 8878)
Prerequisite(s)/Corequisite(s): NEUR 1500 and BIOL 3020 or permission of instructor.

BIOL 4880 INVERTEBRATE ZOOLOGY (4 credits)
A comprehensive study of the invertebrate animals. (Cross-listed with BIOL 8886)
Prerequisite(s)/Corequisite(s): BIOL 1750.

BIOL 4890 GENES, BRAIN, AND BEHAVIOR (3 credits)
This course will evaluate the complex interaction between an organism’s genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetic differentiations, and regulatory mechanisms) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 4890, BIOL 8896, PSYC 8896)
Prerequisite(s)/Corequisite(s): NEUR 1500 and BIOL 2140 or by permission of instructor. Not open to non-degree graduate students.

BIOL 4920 PARASITOLOGY (4 credits)
A look at the most common mode of life on earth. Lectures will focus on parasites of humans. Labs will examine the nature of parasitism in Nebraska’s animals. Topics will include life histories, identification and diagnosis, parasitic diseases, host-parasite interactions, and parasite evolution. Must also enroll in one lab section. Usually offered alternate semesters. (Cross-listed with BIOL 8926)
Prerequisite(s)/Corequisite(s): BIOL 1750.

BIOL 4940 ENTOMOLOGY (4 credits)
The study of insects, their classification, morphology, physiology, behavior, life histories, ecology and evolution. (Cross-listed with BIOL 8946)
Prerequisite(s)/Corequisite(s): BIOL 1750, junior-senior.

BIOL 4950 VERTEBRATE EMBRYOLOGY AND ANATOMY (4 credits)
Development and phylegy of vertebrate organ systems. Dissection of major vertebrate types, and study of developmental stages from fertilized egg to adult condition Usually offered in alternate years. (Cross-listed with BIOL 8956)
Prerequisite(s)/Corequisite(s): BIOL 1750. Must enroll in lab.

BIOL 4960 ADVANCED GENETICS (3 credits)
An in-depth consideration of topics in genetic analysis. Through reading and discussion of primary and secondary literature in genetics, students will develop a deeper understanding of genetic principles, including mutation, recombination, complementation, gene regulation, the genetic structure of populations and the genetic contributions to complex traits, and how these principles and associated methodologies, including next-generation sequencing and high throughput “omics” approaches, can be used to gain insight into fundamental biological questions. (Cross-listed with BIOL 8966)
Prerequisite(s)/Corequisite(s): BIOL 2140 and BIOL 3020 and concurrent enrollment or completion of either CHEM 3650 or CHEM 4610 or CHEM 4650 or BIOL 4650, or permission of the instructor.

BIOL 4980 ORNITHOLOGY (4 credits)
An introduction to the general biology of birds, including their anatomy, physiology, behavior, ecology, classification and identification, with emphasis on North American groups. Usually offered in alternate years. (Cross-listed with BIOL 8986)
Prerequisite(s)/Corequisite(s): BIOL 1750.
Distribution: OBIOWRT3 - Tier III Biology Writing Course

Biomechanics (BMCH)

BMCH 1000 INTRODUCTION TO BIOMECHANICS (3 credits)
This is an introductory course in biomechanics that provides a brief history, an orientation to the profession, and explores the current trends and problems and their implications for the discipline.
Distribution: Social Science General Education course

BMCH 1100 ETHICS OF SCIENTIFIC RESEARCH (3 credits)
This course is a survey of the main ethical issues in scientific research.
Distribution: Humanities and Fine Arts General Education course

BMCH 2200 ANALYTICAL METHODS IN BIOMECHANICS (3 credits)
Through this course, students will learn the fundamentals of programming and problem solving for biomechanics with Matlab and Excel. Students will also learn the attributes and uses of other programming languages.

BMCH 2400 HUMAN PHYSIOLOGY & ANATOMY I (4 credits)
The study of the structure and function of the systems of the body with an emphasis on the skeletal, muscular, cardiovascular and respiratory systems.
Distribution: Natural/Physical Sci General Education lecture&lab

BMCH 2500 HUMAN PHYSIOLOGY AND ANATOMY II (4 credits)
The study of the structure and function of the systems of the body with an emphasis on the nervous system, special senses, digestive system, endocrine system, metabolism and body temperature regulation, lymphatic system, and urinary system.
Prerequisite(s)/Corequisite(s): PE 2400 or BMCH 2400 with a grade of C- or better.

BMCH 3000 BIOMECHANICAL STATICS & DYNAMICS (3 credits)
This course is the study and exploration of the effect of forces on biological systems, mainly the human body, during static and dynamic situations.
Prerequisite(s)/Corequisite(s): PHYS 2110, PHYS 1154
BMCH 4100 BIOINSPIRED ROBOTICS (3 credits)
The goal of the course is to involve students in an interdisciplinary vision of biomechanics, biology, engineering and architecture by learning the principles of how humans, other animals and plants function in their environment. These design principles from nature can be translated into novel devices and structures.

BMCH 4200 METHODS IN BIOMECHANICS I (3 credits)
In this course students learn about the methods and equipment used in biomechanics as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning.
Prerequisite(s)/Corequisite(s): BMCH 3000, BMCH 2200 with a grade of C- or better or department permission.

BMCH 4210 METHODS IN BIOMECHANICS II (3 credits)
In this course students learn about advanced methods and equipment used in biomechanics, as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning. This course builds on the experience gained in BMCH 4200, Methods in Biomechanics I.
Prerequisite(s)/Corequisite(s): BMCH 4200 with a grade of C- or better or department permission.

BMCH 4630 BIOMECHANICS (3 credits)
A study of the forces that act on a human body and the effects that they produce.
Prerequisite(s)/Corequisite(s): BMCH 2400 [previously PE 2400] or PE 2880 or BIOL 2740 or equivalent with a grade of C- or better.

BMCH 4640 ORTHOPEDIC BIOMECHANICS (3 credits)
Orthopedic Biomechanics focuses on the use of biomechanical principles and scientific methods to address clinical questions that are of particular interest to professionals such as orthopedic surgeons, physical therapists, rehabilitation specialists, and others.
Prerequisite(s)/Corequisite(s): BMCH 4630, BMCH 3000, or department permission.

BMCH 4650 NEUROMECHANICS OF HUMAN MOVEMENT (3 credits)
A study of basic principles of neural process as they relate to human voluntary movement. Applications of neural and mechanical principles through observations and assessment of movement, from learning to performance, as well as development.
Prerequisite(s)/Corequisite(s): BMCH 1000 or PE 2430.

BMCH 4980 CAPSTONE DESIGN IN BIOMECHANICS I (4 credits)
Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields.

BMCH 4990 CAPSTONE DESIGN IN BIOMECHANICS II (4 credits)
Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields. The Capstone Design II course is intended to further develop and validate the concept direction chosen during Capstone Design I by designing the specific details necessary to build and test a proof-of-concept prototype.
Prerequisite(s)/Corequisite(s): BMCH 4980, or department permission.

Biotechnology (BIOT)

BIOT 4060 BASIC LABORATORY CONCEPTS (1 credit)
This course introduces basic clinical laboratory practices and techniques, principles of laboratory safety and infection control, professional ethics, specimen collection, handling, and processing, laboratory math concepts, and phlebotomy.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program.

BIOT 4080 CLINICAL IMMUNOLOGY & SEROLOGY (1 credit)
The course introduces the study of the immune system and the laboratory tests used to identify its disorders with practical application of immunologic and serologic principles to aid in the diagnosis of infectious and autoimmune diseases. The theory and application of basic molecular diagnostic tools are also addressed. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program.

BIOT 4100 CLINICAL CHEMISTRY I (4 credits)
This is the first semester of a two semester series on clinical chemistry. This course introduces the theory, technical performance, and evaluation of clinical chemistry laboratory procedures. Basic physiology of organ systems and clinically significant analytes are emphasized. Correlation of clinical laboratory data with the diagnosis and treatment endocrine disorders is also introduced. The course will include instrumentation, methodologies and quality control. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program.

BIOT 4110 CLINICAL CHEMISTRY II (3 credits)
This is the second semester of a two semester series on clinical chemistry. This course expands on the theory, technical performance, and evaluation of chemistry laboratory procedures introduced in BIOT 4100 Clinical Chemistry I. Practical application and correlation of clinical laboratory data with disease states and treatment is emphasized, with a thorough examination of methodologies and problem-solving concepts. Advanced analytical skills, improved laboratory testing efficiency, workload management, and the resolution of unexpected laboratory results are covered in this course. Quality management which includes quality control, quality assurance, and instrument maintenance will also be included. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4100.

BIOT 4120 CLINICAL HEMATOLOGY I (4 credits)
This is the first semester of a two semester series on clinical hematology and hemostasis. The course involves the study and testing of red blood cells, white blood cells, and blood clotting factors. In addition, the function of blood and the blood-forming organs is taught in this course. The course includes an overview of basic microscopy. Practical application and correlation of clinical laboratory data with disease states is emphasized. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program.

BIOT 4130 CLINICAL HEMATOLOGY II (3 credits)
This is the second semester of a two semester series on clinical hematology and hemostasis; the course builds on the material introduced in BIOT 4120 Clinical Hematology I. Theoretical aspects of specialized hematology and coagulation techniques are reviewed, with a thorough examination of testing methodologies and problem-solving concepts. Hematology and coagulation disease states are thoroughly studied and correlated to the clinical laboratory data. Emphasis is placed on advanced analytical skills, improved laboratory testing efficiency, workload management, and the resolution of unexpected laboratory results. Quality management which includes quality control, quality assurance, laboratory techniques, and instrument maintenance will also be included. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4120.
BIOT 4140 CLINICAL IMMUNOHEMATOLOGY I (3 credits)
This is the first semester of a two semester series on immunohematology. This course introduces the study of blood group antigens and antibodies as applied to the transfusion of blood and blood components. The course involves the study of the principles, procedures, and clinical significance of transfusion medicine. Included will be a brief overview of genetics, immunology, and regulations governing blood banks. Recognition of unexpected laboratory results will be emphasized. Quality testing which includes quality control, basic transfusion medicine laboratory techniques and procedures, and safety will also be included.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program

BIOT 4150 CLINICAL IMMUNOHEMATOLOGY II (3 credits)
This is the second semester of a two semester series on immunohematology. The course continues the study of the principles, procedures, and clinical significance of transfusion medicine introduced in BIOT 4140 Clinical Immunohematology I. Advanced immunohematology theory and laboratory techniques are taught, with a thorough examination of methodologies and problem-solving concepts. These include, but are not limited to: compatibility testing, adverse transfusion events, hemolytic anemia, differentiating multiple blood group antibodies, and the resolution of unexpected laboratory results. Emphasis is placed on advanced analytical skills, improved laboratory testing efficiency, and workload management. Quality management which includes quality control, quality assurance, laboratory techniques, and instrument maintenance will also be included.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4140

BIOT 4160 CLINICAL MICROBIOLOGY I (4 credits)
This is the first semester of a two semester series on clinical microbiology. This course introduces the study and laboratory identification of bacteria of clinical significance using culture, biochemical, molecular, and microscopic methods, as well as, the performance and interpretation of bacterial antibiotic susceptibility testing. The course introduces the study of viruses and their detection and identification. Instrumentation and quality control are also included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program

BIOT 4170 CLINICAL MICROBIOLOGY II (4 credits)
This is the second semester of a two semester series in clinical microbiology; the course builds on the material introduced in BIOT 4160 Clinical Microbiology I and BIOT 4080 Clinical Immunology and Serology. This course advances the study and laboratory identification of bacteria of clinical significance, with a thorough examination of methodologies and problem-solving concepts, including the resolution of unexpected laboratory results. The course includes the study of viruses, parasites, and fungi, and their detection and identification. The course continues the study of serologic principles and methods to aid in the diagnosis of infectious diseases. Emphasis is placed on advanced analytical skills, improved laboratory testing efficiency, and workload management. Quality management which includes quality control, quality assurance, laboratory techniques, and instrument maintenance will also be included.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4160; BIOT 4080.

BIOT 4180 CLINICAL MICROSCOPY I (1 credit)
This is the first semester of a two semester series on clinical urine and body fluid analysis. Study of urine includes physiology of renal function, as well as, the significance of cellular and chemical constituents of urine. Microscopic evaluation of other significant body fluids and clinical diagnoses are introduced. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program

BIOT 4190 CLINICAL MICROSCOPY II (1 credit)
This is the second semester of a two semester series on clinical urine and body fluid analysis. This course expands on the theory, technical performance, and evaluation of laboratory procedures introduced in BIOT 4180 Clinical Microscopy I. The physiology of renal function and the significance of cellular and chemical constituents of urine are reviewed, with a thorough examination of methodologies and problem-solving concepts. Practical application and correlation of clinical laboratory data along with patient diagnosis is emphasized. Students develop multi-tasking and trouble-shooting skills to aid in workload management. Quality management which includes quality control, quality assurance, laboratory techniques, and instrument maintenance will also be included. A laboratory component is included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4180

BIOT 4200 CLINICAL LABORATORY MANAGEMENT I (1 credit)
This course introduces the study of the basic concepts and principles of the management process with particular emphasis on laboratory operations. Laboratory safety, quality control, professionalism, scope of practice, research applications, and educational methodologies are topics included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program

BIOT 4210 CLINICAL LABORATORY MANAGEMENT II (1 credit)
This course builds on the study of the basic concepts and principles of the management process introduced in BIOT 4200 Clinical Laboratory Management I. Laboratory compliance and regulatory issues, financial resource management, human resource management, method validation, professionalism, and quality management are topics included in this course.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4200.

BIOT 4230 MEDICAL LABORATORY SCIENCE CLINICAL CORRELATION (2 credits)
This is a comprehensive course that uses lecture and case studies as an in-depth review of the theory and laboratory findings in all areas of the clinical laboratory including: immunology & serology, chemistry, hematology, immunohematology, microbiology, and microscopy. Practical application and correlation of clinical laboratory data, disease states, and diagnoses are emphasized.
Prerequisite(s)/Corequisite(s): Enrollment in the Nebraska Methodist Hospital Medical Laboratory Science Program; BIOT 4080; BIOT 4100; BIOT 4120; BIOT 4140; BIOT 4160; BIOT 4180

Black Studies (BLST)

BLST 1000 INTRODUCTION TO BLACK STUDIES (3 credits)
BLST 1000 provides students with an overview of African culture and history and the black Diaspora. A key component of this course is to interrogate the meanings and dimensions of slavery and colonialism, and their continuing political, social and cultural implications. Approaches essentially include historical examination of African and African American societies and cultures from pre-colonial and slavery periods to the present.
Distribution: Social Science General Education course and U.S. Diversity General Education course

BLST 1050 ANCIENT AFRICAN CIVILIZATION (3 credits)
Investigates the development of the civilization of ancient Egypt and its influences on the cultural development of other African and Mediterranean states, including ancient Greece. Emphasis is on religion/philosophy, archaeology, art and history. (Cross-listed with HIST 1050)

BLST 1220 LAW IN THE BLACK COMMUNITY (3 credits)
Justice relative to the black community experience; the sociology of crime, enforcement and penology, including attention to the political prisoner.
BLST 1260 SURVEY OF BLACK LITERATURE (3 credits)
This course will give students a general background in black literature and will encourage them to take advanced courses in this field. It consists of black literature not only in the U.S. but also in the West Indies and Africa. The main themes common to the black experience will be analyzed through an interesting study of some of the major works of some important black writers.

BLST 1340 INTRODUCTION TO CONTEMPORARY AFRICA (3 credits)
A survey of the geography, population and cultural traditions of contemporary Africa. Economic, political, cultural and social changes in the second half of the 20th century, including the problems and the struggle for national integration and economic adjustments will also be examined.

BLST 1950 BLACK WOMEN IN AMERICA (3 credits)
Examines the evolution of the social, economic, and political status of the black woman in this society, with special emphasis on her struggle for freedom and equality. (Cross-listed with WGST 1950)
Prerequisite(s)/Corequisite(s): BLST 1000.

BLST 2000 THE BLACK EXPERIENCE IN SOCIETY (3 credits)
Review, analysis and evaluation of the research literature oriented toward the field of black studies. Special attention will be given to historical, theoretical and methodological considerations.

BLST 2100 BLACK AMERICAN CULTURE (3 credits)
This course surveys the cultural forms, expressions, and patterns developed by African Americans as well as the social contexts of their development. Literature, music, drama, visual arts, psychology, black popular culture and media among other forms will be studied, with an emphasis on the twentieth century.
Distribution: U.S. Diversity General Education course

BLST 2120 HISTORY OF MODERN AFRICA (3 credits)
This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of alien cultures on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - the Islamic, Western and Indigenous. (Cross-listed with HIST 2920).

BLST 2130 PATTERNS OF AFRICAN GOVERNMENT (3 credits)
The course will deal with the profiles of selected African social formations, political parties, ethnic groupings, and leaders, their backgrounds, ideologies and political strategies for ruling their countries or movements.

BLST 2210 THE BLACK FAMILY IN THE UNITED STATES (3 credits)
Analysis of historical, social, and institutional and comparative elements of family life in the United States with particular emphasis on social science theory.
Prerequisite(s)/Corequisite(s): BLST 1000.

BLST 2260 BLACK SHORT STORY (3 credits)
A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with ENGL 2260)
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2350 BLACK LITERATURE IN AMERICA 1746-1939 (3 credits)
This course traces the development of black literature from 1746 to 1939. Included will be a study of four genres: poetry, short story, novel and drama. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem renaissance and Depression era schools of thought. (Cross-listed with ENGL 2350)
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.

BLST 2360 CONTEMPORARY BLACK LITERATURE (3 credits)
This course traces the development of the literary contribution that black Americans have made from 1940 to the present. Included will be a study of four genres: poetry, short story, novel, and drama. Trends to be studied include the movement toward literary assimilation in the 1940s-1950s and the subsequent movement toward black art in the 1960s to the present. (Cross-listed with ENGL 2360).

BLST 2410 AFRICAN AMERICAN HISTORY TO 1865 (3 credits)
The course examines the history of the earliest Africans in the Americas and briefly examines traditional African societies. It covers the transatlantic slave trade and its effects on Europe, Africa and the Americas, and analyzes the development of Afro-American culture and the struggle for freedom.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2420 AFRICAN-AMERICAN HISTORY: EMANCIPATION TO BROWN (3 credits)
A survey of Afro-American history from the Civil War to the present. Covers Reconstruction and its overthrow, including the new methods of control which replaced slavery. Discusses the development of black ideologies and institutions. Traces urban migration and its impact on black society and culture. Follows black progress through World War II, the 1954 Supreme Court Decision, and rising militancy.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2430 AFRICAN AMERICAN HISTORY SINCE 1954 (3 credits)
This course is divided into three main parts: the Civil Rights Phase (1954-1963), during which the dominant mood was optimism over the possibilities of integration; the Black Power Phase (1963-1974), and the Pragmatist Phase (1972-present), characterized by attempts to preserve and maintain gains already won.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

BLST 2510 MUSIC AND THE BLACK EXPERIENCE (3 credits)
The course will examine the origin and deeper meanings of black music as cultural history of Africans and people of African descent.

BLST 2700 AFRICAN PHILOSOPHY (3 credits)
This course explores ancient, traditional and contemporary philosophical/theological concepts and doctrines of Africans through an investigation of their cosmological, metaphysical, ontological and ethical world views.

BLST 2710 AFRICANA WORLDVIEWS (3 credits)
This course presents the basic epistemological and ontological elements of the Africana worldview, explains how that is different from the classical Eurocentric worldview, and why that difference is significant in the pursuit of scientific examination under the rubric of Black Studies.
Prerequisite(s)/Corequisite(s): BLST 1000 or permission of the instructor.

BLST 2730 RELIGION AND THEOLOGY IN AFRO-AMERICA (3 credits)
Examines the development of the black church in America from the period of the First Great Awakening and investigates and analyses the theological foundation, the nature and source of Afro-American religious expression.
Distribution: Humanities and Fine Arts General Education course

BLST 2830 CONTEMPORARY NOVEL (EMPHASIS ON BLACK WRITERS) (3 credits)
A study of some of the most important ideas and techniques of the novel as genre, using primarily the black-authored novel.

BLST 2890 AFRICAN CIVILIZATION - THE MIDDLE PERIOD (3 credits)
This course traces the development of African History from the beginning of the Civilization of Ghana (800 B.C.) to the period of European exploration of Africa (mid 15th century). It examines the main achievements, events and individuals in the Empires of Ghana, Mali, Songhay, Zimbabwe, etc. (Cross-listed with HIST 2900)
BLST 3000 SURVEY OF BLACK EDUCATION (3 credits)
Prerequisite(s)/Corequisite(s): BLST 1000 or permission of instructor.

BLST 3030 GEOGRAPHY OF AFRICA (3 credits)
The political, physical, economic and demographic features of Africa with emphasis on the effect of these factors in development. The major features of the broad geographical regions of Africa.
Prerequisite(s)/Corequisite(s): Junior.

BLST 3120 THE BLACK EXPERIENCE IN AMERICAN POLITICS (3 credits)
A survey of the African-American quest for liberation within and outside the orthodox political system of the United States with a focus on the institutional and structural arrangements which have denied liberation and prescriptions for meaningful change. (Cross-listed with PSCI 3120).
Prerequisite(s)/Corequisite(s): BLST 1000 or junior.

BLST 3200 BLACK NATIONALISM AND PAN AFRICANISM (3 credits)
A study of the development of movements for self-determination in Afro-America and an analysis of various nationalistic conceptual frameworks in the Diaspora and on the Continent. (Cross-listed with BLST 8205)
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2410, or permission of instructor.

BLST 3400 ISSUES IN BLACK COMMUNITIES (3 credits)
Focusing primarily on urban areas, this course will analyze the roles of municipal, state, and federal governments in African American communities. Various political, educational, economic, cultural and social aspects of those communities will be analyzed. Data from specific examples of such communities throughout the U.S. will be examined, and their strategies for engaging the larger social-environmental contexts will be explored.
Prerequisite(s)/Corequisite(s): Junior or senior standing or permission of the instructor.
Distribution: Social Science General Education course and U.S. Diversity General Education course

BLST 3500 ECONOMIC DEVELOPMENT IN AFRICA (3 credits)
This course traces the evolution of modern African economic systems. Methods of production, distribution, and exchange are examined. There will also be a survey of the processes and problems of colonial economic exploitation to post-independence underdevelopment. The nature of economic development, planning, regional cooperation, international trade and foreign aid will be critically analyzed.
Prerequisite(s)/Corequisite(s): BLST 2130 and BLST 3030 or GEOG 3030 or junior.

BLST 3510 CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)
This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema. (Cross-listed with CMST 3510)
Prerequisite(s)/Corequisite(s): Junior standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

BLST 3650 SLAVERY AND RACE RELATIONS IN AMERICA (3 credits)
This course focuses on the black experience in the Americas outside of the U.S. Four major geographical areas are studied: Canada, Central America, the Caribbean and South America. Black life is considered with regard to historical background and geographical factors, and in comparison to white and Native American experience. An effort is made to trace common themes by using the cross-cultural approach. (Cross-listed with BLST 8655)
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

BLST 3750 ISSUES IN BLACK LITERATURE (3 credits)
This course is designed to provide a forum for consideration of critical issues in black literature. An examination of some of the theoretical issues in black aesthetics will be undertaken, including: the role of the black artist as purposeful agent and guardian of image; the role of literature in the black community; and the audience. Recent trends in the black novel will be studied, especially the emergence of contemporary African writers as modern technicians of language and literary form through the development of new forms from old narrative ones.
Prerequisite(s)/Corequisite(s): BLST 1260 and BLST 2360 or permission.

BLST 3920 BLACK AESTHETICS (3 credits)
This is a critical study of the theories of artistic beauty and their application in the poetic, fictional and dramatic works of Afro-Americans from the 18th century to the present. Special attention will be paid to the role of the black artist in American society.
Prerequisite(s)/Corequisite(s): BLST 1260 or permission of instructor.

BLST 3970 INTERNSHIP IN BLACK STUDIES (1-3 credits)
A department-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of department head and/or Internship Coordinator and completion of an internship project form required.
Prerequisite(s)/Corequisite(s): Completion of BLST 1000, enrollment either as a BLST major or minor or as a BGS concentration in BLST, permission of Department Head and/or Internship Coordinator and completion of an internship project form.

BLST 3980 SPECIAL TOPICS IN BLACK STUDIES (3 credits)
Intensive research into specific but unrelated topics germane to the black experience. Since the topics are of a variable nature, this course may be repeated for credit as long as the topics are different.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

BLST 3990 COMMUNITY STUDY PROJECT (3 credits)
Designed for the student to do field work in a community-based project in the areas of housing, education or social services.
Prerequisite(s)/Corequisite(s): Junior or above, or permission of instructor.

BLST 4000 SPECIAL TOPICS SEMINARS: HUMANITIES AND THE BLACK EXPERIENCE (3-6 credits)
The special topics: Humanities and the black experience would be a group of seminars presented by scholars of various disciplines related to black studies.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

BLST 4090 BLACK STUDIES ORAL HISTORY (3 credits)
The focus of this course is to examine the methods, procedure, transcription and use of oral history in black studies research. Emphasis will be directed toward describing and evaluating the variables of memory, history and cultural authority to produce written source materials collected from oral interviews. (Cross-listed with BLST 8096).
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2100, BLST 2430 or permission of the instructor.
BLST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)
This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Especial focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with WGST 4120)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

BLST 4260 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray woman. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with BLST 8266)
Prerequisite(s)/Corequisite(s): Black studies major or permission of instructor.

BLST 4580 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with BLST 8586, CMST 4580, CMST 8586)
Prerequisite(s)/Corequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.
Distribution: U.S. Diversity General Education course

BLST 4880 SEMINAR ON BLACK LEADERSHIP IN AMERICA (3 credits)
Designed as a senior and graduate seminar, this course will examine the meaning and attributes of effective leadership. The role of black leadership in the African American experience will be examined. Profiles of selected African American leaders and their political strategies also will be analyzed in the seminar. (Cross-listed with BLST 8886).
Prerequisite(s)/Corequisite(s): Senior or graduate student or instructor permission.

BLST 4900 INDEPENDENT STUDY (1-3 credits)
This course is designed for those students who are capable of pursuing, independently, an area of Black Studies that is not covered under the existing curriculum. The student will be supervised by a member of the BLS department. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.

Business Administration (BSAD)

BSAD 1010 CBA SCHOLARS ACADEMY SEMINAR (0 credits)
This course will provide CBA Scholars Academy students the opportunity to learn about their Gallup Strengths, network with other CBA Scholars and staff, and create strategies for connecting with business professionals. Prerequisite(s)/Corequisite(s): Limited to students who are first-year freshman members of the College of Business Administration Scholars Academy. Not open to non-degree graduate students.

BSAD 2100 PRINCIPLES OF SUSTAINABILITY: IMPACT OF INDIVIDUALS & ORGANIZATIONS ON ECOLOGY, EQUITY & ECONOMICS (3 credits)
This course will introduce participants to the principles and practical applications of sustainability from science, engineering, policy, and business perspectives. The course will focus on systems thinking and analyzing the impact of human activities on the triple-bottom-line of People, Planet and Profits. We will examine and debate the major environmental issues and trends happening in modern society from a scientific and practical perspective, including energy and resource use, pollution, climate change, water, and population. Current examples and case studies will be examined and critiqued. The course presents practical skills for participants in the area of integrating sustainability into business practices, consumer decisions, policies, and development. Prerequisite(s)/Corequisite(s): Admission to the University Honors Program.
Distribution: Social Science General Education course

BSAD 2130 PRINCIPLES OF BUSINESS STATISTICS (3 credits)
An accelerated course covering statistical methods used in business analysis. Topics include descriptive statistics, graphical and tabular methods of data presentation, probability, discrete and continuous distributions, hypothesis testing of means and proportions for single and multiple populations, and regression analysis. Prerequisite(s)/Corequisite(s): Math 1320 (for students who matriculated at or prior to Summer 2015) or Math 1360 or MATH 1370 or Math 1930 with a ‘C’(2.0) or better and at least a 2.3 GPA.

BSAD 2600 ETHICS IN ORGANIZATIONS (3 credits)
This course will cover general ethics challenges, processes, and decision-making in organizations. Participants will learn the value of abiding by high ethical standards and will gain the knowledge necessary to make sound ethical decisions. This course is intended for all majors, and students who are permitted to enroll will receive a scholarship. Prerequisite(s)/Corequisite(s): ENGL 1150 and 1160, MATH 1310, SPCH 1110, and a min GPA of 2.0. Students should contact instructor to apply for the Schumacher Scholarship that accompanies this course. Not open to non-degree graduate students.
Distribution: Social Science General Education course

BSAD 2700 GLOBALIZATION OF BUSINESS ENTERPRISE (3 credits)
This course is for students who are interested in gaining a framework for thinking broadly but systematically about international business and differences across countries.
Distribution: Social Science General Education course and Global Diversity General Education course

BSAD 3140 BUSINESS STATISTICAL APPLICATIONS (3 credits)
Applies inferential statistics analysis of variance, multiple regression and correlation, time series, non-parametric statistics such as chi-square analysis, and decision analysis to business problems. Prerequisite(s)/Corequisite(s): BSAD 2130 with ‘C’ (2.0) or better.

BSAD 3160 MANAGERIAL STATISTICS FOR BUSINESS (4 credits)
An accelerated course covering statistical methods used in business analysis. Topics include descriptive statistics, graphical and tabular presentation of data, probability, analysis of discrete and continuous data, regression analysis, forecasting methods.
Prerequisite(s)/Corequisite(s): MATH 1320 or MATH 1370 with a ‘C’(2.0) or better, 2.5 GPA.

BSAD 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with MGMT 3600, MKT 3600)
Prerequisite(s)/Corequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 with a minimum grade of ’C’ (2.0).
BSAD 4000 INTNATIONAL BUS STUDY ABROAD (3 credits)
The purpose of this course is to provide students with an international business and cultural experience through a study tour in a selected international location. Students will develop an understanding of the factors that affect international business decisions by visiting American companies operating abroad and foreign companies that export goods and services to the U.S. Typically, travel is conducted during Spring Break.
Prerequisite(s)/Corequisite(s): Junior standing

Chemical Engineering (CHME)

CHME 1130 INTR TO CHEMICAL ENGINEERING I (2 credits)
The profession of chemical engineering. Chemical engineers’ impact on today’s societal issues, team problem solving, communication skills, and the introduction of chemical process flow sheets. (Has guess lectures and requires field trips.)
Prerequisite(s)/Corequisite(s): Not open to nondegree students

CHME 1140 INTRODUCTION TO CHEMICAL ENGINEERING II (2 credits)
Analytical and computational methods for solving problems related to chemical process measurements, properties of single compounds, properties of mixtures, stoichiometry.
Prerequisite(s)/Corequisite(s): MATH 1950, CHEM 1180, CHEM 1184 (prereq or coreq). Not open to nondegree students.

CHME 2020 MASS & ENERGY BALANCES (3 credits)
Application of the principle of conservation of mass in energy in the analysis of steady-state chemical processes. Selected topics in physical, chemical and thermal property estimation.
Prerequisite(s)/Corequisite(s): CHEM1190 and CHME1140 and coreq MATH1960, not open to nondegree students

CHME 2030 EQUILIBRIUM STAGE OPERATIONS (3 credits)
Phase equilibria and mass and energy balances applied to staged mass transfer operations.
Prerequisite(s)/Corequisite(s): MATH1960 and CHME2020 and coreq CIST1400, not open to nondegree students.

CHME 3120 CHEMICAL ENGINEERING COMPUTATN (3 credits)
Computational methods in orthogonal polynomials, numerical integration, matrix operations and ordinary differential equations as they apply to chemical engineering problems such as separations, reactor design, transport operations and control.
Prerequisite(s)/Corequisite(s): Junior standing and CIST1400 and MATH2350, not open to nondegree students.

CHME 3220 CHEMICAL ENGINEERING THERMODYNAMICS I (3 credits)
Application of three fundamental laws to chemical engineering problems. Selected experiments in chemical engineering. Emphasis on experimental design, interpretation of results, and formal oral and written reports. (Cross-listed with CHME8306)
Prerequisite(s)/Corequisite(s): CHME2030 and CHME3330 and coreq CHME4420

CHME 4300 CHEMICAL ENGINEERING LAB (4 credits)
Selected experiments in chemical engineering. Emphasis on experimental design, interpretation of results, and formal oral and written reports. (Cross-listed with CHME8306)
Prerequisite(s)/Corequisite(s): CHME3330, not open to nondegree students.

Chemistry (CHEM)

CHEM 1010 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY (3 credits)
A study of modern society’s impact on our environment and the chemistry needed to understand it. The primary focus is the underlying chemistry of the effects of energy production and properties of fuels while including social, political and economic connections. Impacts on air and water quality, climate change, and fossil fuels are discussed. Additional course topics may also include the ozone layer, plastics, medicine and nutrition. (Fall, spring) Fulfills a University General Education Natural/Physical Science Requirement.
Prerequisite(s)/Corequisite(s): MATH 1310 with a grade of C- or better or equivalent.
Distribution: Natural/Physical Sci General Education lecture

CHEM 1014 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY LABORATORY (1 credit)
Laboratory for CHEM 1010, a survey of the relationship of chemistry to current problems in environmental control, medicine, technology and energy production. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 1010 to be taken concurrently or completed previously with grade of C- or better.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1120 STRATEGIES IN CHEMICAL PROBLEM SOLVING (2 credits)
This course focuses on the development of problem solving skills and learning strategy tools in the context of first semester college chemistry topics. It is primarily intended for students seeking a stronger background before enrolling in CHEM 1140 or CHEM 1180. However, the content should be valuable for a variety of courses. Not available for natural science credit, nor intended to meet chemistry requirements for other programs. (Fall)
Prerequisite(s)/Corequisite(s): MATH 1310 with C- or better or equivalent. Math 1310 may also be taken concurrently. Not open to non-degree graduate students.
CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY (4 credits)
A comprehensive introduction to the basic principles of chemistry. This course is intended for all students needing a one-semester introductory course with laboratory including allied health students continuing to CHEM 2210, or those seeking a stronger background before enrollment in CHEM 1180. (Fall, spring, possibly summer). Fulfills a University General Education Natural/Physical Science Requirement.
Prerequisite(s)/Corequisite(s): MATH 1310 with a C- or better or equivalent. CHEM 1144 concurrent or prior with C- or better.
Distribution: Natural/Physical Sci General Education lecture

CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (1 credit)
Laboratory explorations of chemical measurements, modeling, reactions and analyses. To be taken with CHEM 1140. (Fall, spring, possibly summer).
Prerequisite(s)/Corequisite(s): CHEM 1140 concurrent or prior with C- or better.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1180 GENERAL CHEMISTRY I (3 credits)
A comprehensive survey of chemical principles; the first course in a two-semester sequence primarily for majors and those in the sciences. It is assumed that students will have a good background in elementary chemical principles. CHEM 1184 normally to be taken concurrently. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science Requirement.
Prerequisite(s)/Corequisite(s): Placement above or completion of MATH 1320, 1340, or 1360 (C- or better) OR 1310 (C- or better) and CDT placement into 1180 OR completion of CHEM 1120 (B- or better) OR 1140 (C- or better). CHEM 1184 concurrent or prior (C- or better). Distribution: Natural/Physical Sci General Education lecture

CHEM 1184 GENERAL CHEMISTRY I LABORATORY (1 credit)
A laboratory program designed to enhance laboratory skills and illustrate chemical principles. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science requirement.
Prerequisite(s)/Corequisite(s): CHEM 1180 concurrent or prior with a grade of C- or better.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1190 GENERAL CHEMISTRY II (3 credits)
A study of the chemistry of water, air and earth by application of chemical principles. CHEM 1194 to be taken concurrently. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science requirement.
Prerequisite(s)/Corequisite(s): CHEM 1180 and 1184 with a grade of C or better. Concurrent enrollment in CHEM 1194.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1194 GENERAL CHEMISTRY II LABORATORY (1 credit)
Quantitative analysis and study of solution equilibria. Includes statistics applied to quantitative analysis. (Fall, Spring, Summer)
Prerequisite(s)/Corequisite(s): CHEM 1180 and 1184 with a grade of C or better or department recommendation of advanced placement. Prereq or coreq: CHEM 1190 if prereq must be with a grade of C or better.

CHEM 2210 FUNDAMENTALS OF ORGANIC CHEMISTRY (4 credits)
Lecture three hours and discussion one hour. Chemistry of carbon compounds. A one-semester course designed primarily for students in biology, elementary science education, home economics, nursing and allied health fields.
Prerequisite(s)/Corequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C or better in each. CHEM 2214 to be taken concurrently.

CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (1 credit)
Elementary organic chemistry laboratory to be taken concurrently with CHEM 2210.
Prerequisite(s)/Corequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C or better in each. CHEM 2210 to be taken concurrently.

CHEM 2250 ORGANIC CHEMISTRY I (3 credits)
The fundamental chemistry of carbon compounds.
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C or better.

CHEM 2260 ORGANIC CHEMISTRY II (3 credits)
A continuation of the foundational study of the compounds of carbon. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 2250 with a grade of C or better, obtained within the prior twelve months. CHEM 2274 concurrent or prior with a grade of C or better.

CHEM 2274 ORGANIC CHEMISTRY LABORATORY (2 credits)
A laboratory course in the skills and techniques of experimentation in organic chemistry. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 1194 with a grade of C or better and CHEM 2260 concurrent or prior with C- or better.

CHEM 2400 QUANTITATIVE ANALYSIS (3 credits)
Theory of quantitative analysis applied to gravimetric and volumetric analysis; theory of error and evaluation of analytical data; introduction to instrumental analysis and separation methods. (Fall)
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C or better or equivalent. CHEM 2404 to be taken concurrently.

CHEM 2404 QUANTITATIVE ANALYSIS LAB (1 credit)
Laboratory application of principles of quantitative analysis and experience with its unit operations. Use of reaction chemistry, separations, potentiometry and spectrophotometry in determinations. Introduction to quality control. (Fall)
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C or better. CHEM 2400 to be taken concurrently.

CHEM 2500 INTRODUCTION TO INORGANIC CHEMISTRY (3 credits)
A survey of the inorganic chemistry of metallic and nonmetallic species, including atomic, molecular and crystal structures, composition, properties and reactivities. (Spring)
Prerequisite(s)/Corequisite(s): CHEM1190 with a grade of C- or better.

CHEM 2930 APPLIED TOPICS IN CHEMISTRY (1-3 credits)
More thorough examination of a chemistry topic than in the regular curriculum. Content (e.g. polymers, forensics, brewing and cooking, chemical industry, historical chemistry, art and chemistry, glassblowing) will vary with offering.
Prerequisite(s)/Corequisite(s): Completion 4 credit hours of university chemistry with grade(s) of C+ or better, or 8 CH of chemistry with grades of C or better.

CHEM 2950 INTRODUCTION TO RESEARCH IN CHEMISTRY (1 credit)
This course is intended to give students, possessing at least a high school background in chemistry, the opportunity to work with faculty and/or advanced students on an established research project. The creativity and communication expectations of these students will be less than for students enrolled in the 4000 level research courses. Guided laboratory/library work on an established research project.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

CHEM 3030 ENVIRONMENTAL CHEMISTRY (3 credits)
The study of the chemistry of water, air and earth by application of fundamental principles of chemistry to environmental processes.
Prerequisite(s)/Corequisite(s): CHEM 1180 and CHEM 1184, CHEM 1190 and CHEM 1194, CHEM 2210 or CHEM 2214, or CHEM 2260 and CHEM 2274 and one of the following: CHEM 2400 and CHEM 2404, CHEM 2500, BIOL 2440 or GEOL 2750 (all chemistry courses must be with a grade of C or better)
CHEM 2500 INTRODUCTION TO MOLECULAR MODELING (3 credits)
The course covers the advantages and limitations of current modeling systems, the criteria for choosing the appropriate modeling system to best solve a given problem and the computer resources needed to conduct the modeling experiments. Following an introduction to the theory behind a variety of modeling systems, students model organic and bioorganic compounds in projects designed to mimic real world applications. (Alternate Spring semesters). (Cross-listed with CHEM 8215).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 3250 ADVANCED ORGANIC LABORATORY (1 credit)
Advanced course in laboratory practices.
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274 with a grade of C or better, and permission. (Offered on demand)

CHEM 3350 PHYSICAL CHEMISTRY I (3 credits)
A presentation of selected topics from the areas of classical thermodynamics and electrochemistry. (Fall) (Cross-listed with CHEM 8355).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404, PHYS 2120; MATH 1960. (Chemistry courses must be with a grade of C or better). Concurrent enrollment in CHEM 3354.

CHEM 3354 PHYSICAL CHEMISTRY I LABORATORY (1 credit)
Physical chemistry laboratory covering topics in thermodynamics, kinetics and electrochemistry, to be taken concurrently with CHEM 3350/8355. Instruction and practice in scientific writing is also an emphasis of the course. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with CHEM 8359)
Prerequisite(s)/Corequisite(s): CHEM 2240, CHEM 2274; Coreq: CHEM 3350.

CHEM 3360 PHYSICAL CHEMISTRY II (3 credits)
A presentation of selected topics from the areas of quantum mechanics, spectroscopy, kinetics and statistical mechanics. (Spring) (Cross-listed with CHEM 8365).
Prerequisite(s)/Corequisite(s): CHEM 3350 and CHEM 3354 with a grade of C- or better.

CHEM 3364 PHYSICAL CHEMISTRY II LABORATORY (1 credit)
Physical chemistry laboratory covering topics in quantum mechanics, computational chemistry, spectroscopy, and kinetics, to be taken concurrently with CHEM 3360. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with CHEM 8369).
Prerequisite(s)/Corequisite(s): CHEM 3350 and 3354 with a grade of C- or better; to be taken concurrently with CHEM 3360.

CHEM 3414 INSTRUMENTAL METHODS (1 credit)
Laboratory course involving use of modern instrumentation to conduct analytical determinations following standard methods. Topics include use of standards, field sampling and sample storage. (Fall, Spring) (Cross-listed with CHEM 8419).
Prerequisite(s)/Corequisite(s): CHEM 2400 and CHEM 2404 with a grade of C or better.

CHEM 3424 SPECTROMETRIC CHARACTERIZATIONS (1 credit)
Laboratory course involving the use of spectrometric instrumentation for the identification of compounds containing organic functional groups. (Fall, alternate years) (Cross-listed with CHEM 8429).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274, CHEM 2400 and CHEM 2404 with a grade of C or better.

CHEM 3514 INORGANIC PREPARATIONS (1 credit)
Laboratory preparation and characterization of representative types of inorganic compounds by various standard and special techniques. (Spring)
Prerequisite(s)/Corequisite(s): CHEM 2274, CHEM 2400, CHEM 2404, CHEM 2500 with a grade of C- or better.

CHEM 3610 PRINCIPLES OF BIOCHEMISTRY FOR THE HEALTH SCIENCES (3 credits)
This course covers the introduction of biochemistry, biomolecules, and metabolism. It is primarily intended for students entering allied health fields.
Prerequisite(s)/Corequisite(s): CHEM 2210 or CHEM 2260 with a C- or better. Not open to non-degree graduate students.

CHEM 3650 FUNDAMENTALS OF BIOCHEMISTRY (3 credits)
A survey of biochemistry emphasizing: cell structure, energy, and water; amino acid and protein structure/function, enzymes, and protein isolation; carbohydrates and carbohydrate metabolism (glycolysis, glycogen metabolism); aerobic metabolism (citric acid cycle and oxidative phosphorylation); lipids, membranes, transport, cholesterol, and lipid metabolism; and nucleic acids. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 2210 or CHEM 2260 and CHEM 2274 with a grade of C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 3654 must be taken concurrently.

CHEM 3654 FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in the fundamentals of biochemistry lecture with the development of biochemical laboratory skills including data analysis. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 2210, CHEM 2214 or CHEM 2260, CHEM 2274 with a grade of C- or better. CHEM 3650 must be taken concurrently.

CHEM 3710 ESSENTIALS OF MEDICINAL CHEMISTRY (3 credits)
This course is an introduction to human drug discovery, mechanism of action, metabolism, and drug-drug interaction, while demonstrating the interdisciplinary nature of medicinal chemistry. An emphasis is placed on drug design, drug structure, and the relationship of structure to drug action and metabolism. (Spring)
Prerequisite(s)/Corequisite(s): ENGL 1160 and CHEM 2260/2274 with a grade of C- or better.

CHEM 4230 ADVANCED ORGANIC CHEMISTRY - SYNTHESIS (3 credits)
An advanced lecture course in modern theories and organic reactions with application to synthesis. (Alternate Fall semesters) (Cross-listed with CHEM 8236).
Prerequisite(s)/Corequisite(s): CHEM 2260 with a grade of C- or better.

CHEM 4240 ADVANCED ORGANIC CHEMISTRY - MECHANISM (3 credits)
An advanced lecture course in organic chemical reactions. (Cross-listed with CHEM 8246).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 3350 and CHEM 3360 with a grade of C or better, or graduate. (CHEM 3350, CHEM 3360 may be taken concurrently.)

CHEM 4250 ADVANCED ORGANIC CHEMISTRY: MECHANISM AND MODELING (4 credits)
Presentation of advanced topics in organic chemistry focused on structure, bonding and reaction mechanisms. The use of molecular modeling software as means to predict structure, relative stabilities and reaction thermodynamics are covered in a hands-on environment. The course will survey various modeling methods and show its relevance to molecular orbital theory. The basic methodologies used to explore organic mechanisms are presented and then used to study mechanistic details of various reaction types. Students cannot count both CHEM 4250 and CHEM 4240 toward their degree. (Cross-listed with CHEM 8256).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a C- or better.
CHEM 4310 POLYMER CHEMISTRY (3 credits)
An introduction to the chemical and physical properties of polymers. Emphasis will be on physical properties and structure/property relationships. Topics will include kinetics and synthesis. Students will gain an understanding of the characteristics of polymers and their applications.
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 3350, each with a grade of C- or better, or instructor permission. Not open to non-degree graduate students.

CHEM 4400 INSTRUMENTAL ANALYSIS (3 credits)
Study of instrumentation for use in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 8406).
Prerequisite(s)/Corequisite(s): CHEM 3360, CHEM 3364 and CHEM 3414 with a grade of C or better. Concurrent enrollment in CHEM 4404.

CHEM 4404 INSTRUMENTAL ANALYSIS LABORATORY (1 credit)
Use of instrumentation in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 8409).
Prerequisite(s)/Corequisite(s): CHEM 3360, CHEM 3364, CHEM 3414 with a grade of C or better. Concurrent enrollment in CHEM 4400.

CHEM 4500 ADVANCED INORGANIC CHEMISTRY (3 credits)
The application of bonding models for understanding of the composition, structure, and reactions of inorganic molecules, including organometallic and bioinorganic complexes. (Cross-listed with CHEM 8506).
Prerequisite(s)/Corequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better. CHEM 3350 may be taken concurrently.

CHEM 4510 SOLID STATE INORGANIC CHEMISTRY (3 credits)
A study of the structural and electronic basis of materials properties in the solid state. Properties examined include electrical conductivity, ferromagnetism, ferroelectricity, and superconductivity. Some experimental work will be conducted.
Prerequisite(s)/Corequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better; or permission of instructor.

CHEM 4540 GEOCHEMISTRY (3 credits)
This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of igneous, metamorphic and sedimentary rocks and ore deposits.
Prerequisite(s)/Corequisite(s): GEOL 1170, MATH 1950, CHEM 1190 and GEOL 2750 or CHEM 2500 (chemistry courses must have a grade of C or better)

CHEM 4610 BIOCHEMISTRY OF METABOLISM (4 credits)
The course covers the structure-function relationships of proteins, carbohydrates, lipids and nucleotides, with an emphasis on the biochemistry of metabolism and molecules of metabolism. It is primarily intended to prepare students for health-related professional schools. (Spring)
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 4650 BIOCHEMISTRY I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 4650, BIOL 8656, CHEM 8656).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 4654 must be taken concurrently.

CHEM 4654 BIOCHEMISTRY I LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 4654, BIOL 8654, CHEM 8654).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. CHEM 4650 must be taken concurrently.

CHEM 4660 BIOCHEMISTRY II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 4660, BIOL 8666, CHEM 8666).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. CHEM 4664 must be taken concurrently (Chemistry courses must have a grade of C- or better)

CHEM 4664 BIOCHEMISTRY II LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 4664, BIOL 8664, CHEM 8664).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654, with a grade of C- or better. Concurrent enrollment in CHEM 4660.

CHEM 4670 PROTEIN PURIFICATION AND CHARACTERIZATION (2 credits)
This course is a study of protein biochemistry, protein purification techniques, and characterization strategies with an emphasis on chromatography and crystallography. The course has a significant laboratory component. (Cross-listed with CHEM 8676).

CHEM 4810 CHEMISTRY INTERNSHIP (1-6 credits)
Application of chemical skills in a non-academic laboratory or workplace through part-time employment or contracted work; written report required. Grading will be ‘S’ or ‘U’ only.
Prerequisite(s)/Corequisite(s): Major in Chemistry, CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404 with a grade of C or better and permission of department chair.

CHEM 4930 SPECIAL TOPICS IN CHEMISTRY (1-3 credits)
Selected special topics in chemistry. (Cross-listed with CHEM 8936).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2400 with a grade of C or better. Some topics will require more advanced prerequisites and will be accepted for advanced course work in chemistry.

CHEM 4950 CHEMISTRY PROJECTS (1 credit)
Initiation of an independent student research project, and communication of the results.

CHEM 4960 CHEMISTRY PROBLEMS (1-3 credits)
Independent student research and communication of the results in a written report. If NSCI 4960 is taken concurrently, the CHEM 4960 report is replaced by an oral presentation. (Cross-listed with CHEM 8966).
Prerequisite(s)/Corequisite(s): CHEM 4950 with a grade of C or better and permission of instructor.
Chinese (CHIN)

CHIN 1000 PRACTICAL MANDARIN CHINESE CONVERSATION (3 credits)
Pronunciation and oral practice involving everyday situations. Introduction to reading and writing Chinese characters. Not applicable to the foreign language requirement in the College of Arts and Sciences.

CHIN 1010 PRACTICAL MANDARIN CHINESE CONVERSATION II (3 credits)
A continuation of CHIN 1000, the emphasis is on communicating orally in Chinese in a basic, practical manner and on writing basic Chinese characters and sentences.
Prerequisite(s)/Corequisite(s): CHIN 1000 or permission.

CHIN 1110 ELEMENTARY MANDARIN CHINESE I (5 credits)
Elementary Mandarin Chinese I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues from the Chinese speaking world.

Civil Engineering (CIVE)

CIVE 112 INTRO TO CIVIL ENGR (1 credit)
Introduction to civil engineering as a career by use of case studies; alternate approaches to engineering designs illustrated by use of engineering principles.

CIVE 125 ECOLOGY, THE ENVIRONMENT AND THE ENGINEER (3 credits)
Investigation into the nature of ecology, man’s relation with the environment and man’s chance of survival in that environment, and the potential influence, for good or bad, of modern man’s activities.

CIVE 130 COMPUTER-AIDED DESIGN (2 credits)
Use of computer-aided design software to communicate engineering ideas. Specifications, dimensioning, tolerancing, 2- and 3-D model development, topographic mapping, and process layout with environmental, bioprocess, and biomedical emphases.
Prerequisite(s)/Corequisite(s): CIVE112, not open to nondegree students

CIVE 221 GEOMETRIC CONTRL SYS (3 credits)
Introduction to the theory and application of mensuration and geometric information processing in civil engineering. Measurement of distance, direction, elevation and location using mechanical, electronic and satellite systems; collection of field data, error propagation; elementary geometric data bases for design, construction, operation and control of civil works. (Cross-listed with CONE2210)
Prerequisite(s)/Corequisite(s): MATH1950, not open to nondegree students

CIVE 252 CONSTRUCTION MATERIALS LAB (1 credit)
Introduction to ASTM and AASHTO standard procedures used to measure soil and concrete properties; common modifications to soil and concrete mixes are discussed and analyzed.
Prerequisite(s)/Corequisite(s): MATH1950 and CNST2510 coreq

CIVE 310 FLUID MECHANICS (3 credits)
Fluid statics, equations of continuity, momentum, and energy; dimensional analysis and dynamic similitude. Applications to: flow meters; fluid pumps and turbines; viscous flow and lubrication; flow in closed conduits and open channels. Two-dimensional potential flow.
Prerequisite(s)/Corequisite(s): MATH 2350; and MENG 3730 or EMEC 3730; MENG 2000 coreq. Not open to non-degree graduate student.

CIVE 319 HYDRAULICS LAB (1 credit)
Hydraulic experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.
Prerequisite(s)/Corequisite(s): CIVE310 pre/coreq

CIVE 326 INTRODUCTION TO ENVIRONMENTAL ENGINEERING (3 credits)
Introduction to the principles of environmental engineering, including water quality, atmospheric quality, pollution prevention, and solid and hazardous wastes engineering. Design of water, air, and waste management systems.
Prerequisite(s)/Corequisite(s): CHEM1180 and MATH2350.

CIVE 327 ENVIRONMENTAL ENGINEERING LABORATORY (1 credit)
Environmental engineering experiments, demonstrations, field trips, and projects. Experiments include the measurement and determination of environmental quality parameters such as solids, dissolved oxygen, biochemical and chemical oxygen demand, and alkalinity.
Prerequisite(s)/Corequisite(s): CHEM1180 and MATH2350 and CIVE326 coreq

CIVE 328 CONCRETE MATERIALS (2 credits)
Prerequisite(s)/Corequisite(s): MENG 2230 and CHEM 1180. Not open to non-degree graduate students.

CIVE 334 INTRODUCTION TO GEOTECHNICAL ENGINEERING (4 credits)
Principles of effective stress; loading induced subsurface stresses; load history; deformation and failure of soils. Elastic and limit analysis with applications to design for bearing capacity, settlement, retaining walls and slope stability. Steady state seepage.
Prerequisite(s)/Corequisite(s): EMEC 3250 or MENG 3250; Coreq: CIVE 310.

CIVE 341 INTRODUCTION TO STRUCTURAL ENGINEERING (4 credits)
Introduction to the analysis and design of structural systems. Analyses of determinate and indeterminate trusses, beams, and frames are covered, and design philosophies for structural engineering are explored. Laboratory experiments deal with the analysis of determinate and indeterminate structures.
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250

CIVE 352 INTRODUCTION TO WATER RESOURCES ENGINEERING (3 credits)
Introduction to water resources engineering design and planning, surface hydrology, groundwater hydraulics, reservoirs and other control structures. Introduction to field measurement and computational methods in water resources.
Prerequisite(s)/Corequisite(s): CIVE310 or MENG3100

CIVE 361 HIGHWAY ENGINEERING (3 credits)
Introduction to the principles of highway engineering and traffic operations and control.
Prerequisite(s)/Corequisite(s): MENG 2230 or EMEC 2230; and CIVE 221 or CONE 2210.

CIVE 378 MATERIALS OF CONSTRUCTION (3 credits)
(Lect 2, Lab 2) Introduction to the behavior, testing and design of soil, Portland cement concrete, steel, wood and composites. Experiments covering the concepts of stress and strain under axial, torsional, shear and flexural loading conditions. Common ASTM laboratory test procedures and specifications, field quality control tests and statistical applications.
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250

CIVE 385 PROF PRACT & MGMT IN CIVIL ENG (3 credits)
Basic elements of civil engineering practice. Roles of all participants in the process-owners, designers, architects, contractors, and suppliers. Basic concepts in business management, public policy, leadership, and professional licensure. Professional relations, civic responsibilities, and ethical obligations for engineering practice. Project management, contracts, allocation of resources, project estimating, planning, and controls.
Prerequisite(s)/Corequisite(s): Junior standing and CIVE major, not open to nondegree students
CIVE 401 CIVIL ENGINEERING SYSTEMS (3 credits)
Systems analysis approach to civil engineering problems. System model elements and principles of systems theory with applications to civil engineering. (Cross-listed with CIVE 801)
Prerequisite(s)/Corequisite(s): MATH 2350

CIVE 419 FLOW SYSTEMS DESIGN (3 credits)
Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems and treatment facilities. (Cross-listed with CIVE 819)
Prerequisite(s)/Corequisite(s): CIVE 326 or CIVE 327; CIVE 352 coreq.

CIVE 421 HAZARDOUS WASTE MGT & TREATMT (3 credits)
Survey of the hazardous waste management system in the USA. State and federal hazardous waste regulations. Chemical characteristics of hazardous waste and unit operations and processes used for treatment of soil, water, and air. (Cross-listed with CIVE 821)
Prerequisite(s)/Corequisite(s): CIVE 326, not open to nondegree students

CIVE 422 POLLUTN PREVENTN:PRINC & PRACT (3 credits)
Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information. (Cross-listed with CIVE 822.)

CIVE 424 SOLID WASTE MANAGEMENT ENGINEERING (3 credits)
Planning design and operation of solid waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems. (Cross-listed with CIVE 824)
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 334

CIVE 425 PROC DSGN/WTR SUP & WAST TRMT (3 credits)
(LEC 3) Design of unit operations and processes associated with drinking water and wastewater treatment facilities.
Prerequisite(s)/Corequisite(s): CIVE 326 and CIVE 310

CIVE 426 DSGN WATER TREATMNT FACILITIES (3 credits)
Analyses of water supplies and design of water treatment and distribution systems. (Cross-listed with CIVE 826)
Prerequisite(s)/Corequisite(s): CIVE 425

CIVE 430 FUND WTR QUAL MODEL (3 credits)
A comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables. (Cross-listed with CIVE 830)
Prerequisite(s)/Corequisite(s): CIVE 326

CIVE 431 SMALL TREATMENT SYSTEMS (3 credits)
Design of small and decentralized wastewater management systems. (Cross-listed with CIVE 831.)
Prerequisite(s)/Corequisite(s): Coreq: CIVE 425. Not open to non-degree graduate students.

CIVE 432 BIOREMEDIATION OF HAZARDOUS WASTES (3 credits)
Principles, applications, and limitations of bioremediation of hazardous wastes and design of some bioremediation systems.
Prerequisite(s)/Corequisite(s): CIVE 326 and (CIVE 310 or MENG 3100), not open to nondegree students

CIVE 434 SOIL MECHANICS II (3 credits)
(Lecture 3, option Lab 3) Application of the effective stress principle to shear strength of cohesive soils; analysis of stability of slopes. Development of continuum relationships for soils; solutions for stresses and displacements for an elastic continuum, solution of the consolidation equation for various initial and boundary conditions. (Cross-listed with CIVE 834)
Prerequisite(s)/Corequisite(s): CIVE 334

CIVE 436 FOUNDATION ENGINEER (3 credits)
(Lecture 3, Optional Lab 3) Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater. (Cross-listed with CIVE 836)
Prerequisite(s)/Corequisite(s): CIVE 334

CIVE 439 INTRODUCTION TO BRIDGE ENGINEERING (3 credits)
Structural types, bridge loads, design of bridge slabs, steel girder bridges, and prestressed concrete girders. Evaluation of existing bridges. Problems related to fatigue and corrosion. Field testing of bridges. (Cross-listed with CIVE 839)
Prerequisite(s)/Corequisite(s): CIVE 440 or CIVE 441 or CIVE 840

CIVE 440 REINFORCED CONCRETE DESIGN I (3 credits)
Introduction to the design of reinforced concrete building components. Emphasis is placed on the design of flexural compression, simple walls, foundations, and floor systems using the latest ACI design requirements. (Cross-listed with CIVE 840)
Prerequisite(s)/Corequisite(s): CIVE 341

CIVE 441 STEEL DESIGN I (3 credits)
Introduction to the design concepts for structural steel building components. Design of tension members, bolted and welded connections, column members, and beam members are covered. Limit state design concepts are used throughout the course, and emphasis is placed on behavior of members and code design procedures.
Prerequisite(s)/Corequisite(s): CIVE 341

CIVE 443 ADVANCED STRUCTURAL ANALYSIS (3 credits)
Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformation, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads. (Cross-listed with CIVE 843)
Prerequisite(s)/Corequisite(s): CIVE 341. Not open to non-degree graduate students.

CIVE 444 STR DESIGN & PLANNING (3 credits)
(Lect 2, Lab 2) Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete. (Cross-listed with CIVE 844)
Prerequisite(s)/Corequisite(s): CIVE 444 and CIVE 441

CIVE 446 STEEL DESIGN II (3 credits)
A continuation of CIVE 441. The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, and introduction to seismic design of steel buildings. Plate buckling, beam, column, and beam-column design. Frame stability. Introduction to connection design. (Cross-listed with CIVE 846)
Prerequisite(s)/Corequisite(s): CIVE 444

CIVE 447 REINFORC CONCRETE II (3 credits)
Shear friction theory, strut-and-tie modeling, anchorage, deflection, slender and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various designs. (Continuation of topics covered in CIVE 440/840.) (Cross-listed with CIVE 847)
Prerequisite(s)/Corequisite(s): CIVE 440 or CIVE 840

CIVE 451 INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)
Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow. (Cross-listed with CIVE 851)
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC 3250; and MENG 4800 or EMEC 4800.
CIVE 452 WATER RESOURCES DEVL (3 credits)
Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hydrowlectric power, drainage, water quality, water distribution, irrigation and water measurement. (Cross-listed with CIVE852)
Prerequisite(s)/Corequisite(s): CIVE352

CIVE 454 HYDRAULIC ENGR (3-4 credits)
(Lecture 2-3, Lab 0-3) Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids; engineering economics to the design of hydraulic structures, continuity, momentum; energy principles are applied to special problems from various branches of hydraulic engineering. (Cross-listed with CIVE854)
Prerequisite(s)/Corequisite(s): CIVE326 and CIVE352

CIVE 455 NONPOINT POLLUTION (3 credits)
Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies. (Cross-listed with CIVE855)
Prerequisite(s)/Corequisite(s): CIVE326 and CIVE352

CIVE 456 SURFACE WATER HYDRO (3 credits)
Advanced topics in surface water hydrology including parametric and stochastic processes and systems analysis of hydrologic problems with particular emphasis on the application of techniques in the design of engineering particles. (Cross-listed with CIVE856)
Prerequisite(s)/Corequisite(s): CIVE352

CIVE 458 GROUND WATER ENGINEERING (3 credits)
The application of engineering principles to the movement of ground water. The influence of the physical and geologic environment on ground water hydraulics, water well hydraulics and aquifer evaluation. Emphasis is placed on practical ground water engineering problems. (Cross-listed with CIVE858)
Prerequisite(s)/Corequisite(s): CIVE352.

CIVE 459 RELIABILITY OF STRUCTURES (3 credits)
Fundamental concepts related to structural reliability, safety measures, load models, resistance models, system reliability, optimum safety levels, and optimization of design codes.
Prerequisite(s)/Corequisite(s): CIVE 341. Not open to nondegree students.

CIVE 461 URBAN TRANS PLANNING (3 credits)
Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analysis, and traffic assignment. Site development and traffic impact analysis. (Cross-listed with CIVE861)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 462 HIGHWAY DESIGN (3 credits)
Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects. (Cross-listed with CIVE862)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 463 TRAFFIC ENGINEERING (3 credits)
Design of signalized intersections, arterial street and network signal systems, and freeway control systems. Emphasis on design projects. (Cross-listed with CIVE863)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 468 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation parking and terminal buildings. Air-side components include aircraft apron-gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with CIVE868)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 469 COMPUTER-AIDED INTERCHANGE DESIGN (3 credits)
Principles of high-speed traffic operations, safety, and decision making related to critical design parameters used for optimal interchange geometric design through development of an interchange design project using graphical and civil engineering software. (Cross-listed with CIVE869)
Prerequisite(s)/Corequisite(s): CIVE 462. Not open to non-degree graduate students.

CIVE 471 BITUMINOUS MATERIALS AND MIXTURES (3 credits)
Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing. (Cross-listed with CIVE 871)
Prerequisite(s)/Corequisite(s): CIVE 378. Not open to non-degree graduate students.

CIVE 472 PAVEMENT DESIGN & EVALUATION (3 credits)
Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements. (Cross-listed with CIVE872)
Prerequisite(s)/Corequisite(s): CIVE334

CIVE 475 WATER QUALITY STRATEGY (3 credits)
Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems for selecting strategies; and for evaluating present strategies.
Prerequisite(s)/Corequisite(s): Senior standing, not open to nondegree students

CIVE 476 CONSTRUCTION COST CONTROLS (3 credits)
Development of cost accounting principles and financial controls appropriate for construction contractors. Includes purchasing policies and procedure, labor and equipment cost reporting techniques, accounting procedures for control of materials and supplies, billing methods, principles of financial reporting and analysis.
Prerequisite(s)/Corequisite(s): ACCT 2010 and ACCT 2020.

CIVE 481 COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING (3 credits)
Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems. (Cross-listed with CIVE 881)
Prerequisite(s)/Corequisite(s): CIVE361

CIVE 489 SENIOR DESIGN PROJECT (3 credits)
Requires the formulation and completion of a civil engineering design project. Course provides senior civil engineering students with the opportunity to apply engineering concepts and principles to a comprehensive design project of multiple sub-disciplinary nature. The principal objectives are for students to develop an understanding of the entire life-cycle of civil engineering projects with emphasis on the development of a unified and sustainable design that addresses the client’s needs; project team work; strong engineer-client relationships; and effective project communications.
Prerequisite(s)/Corequisite(s): Senior standing and CIVE 385

CIVE 498 SPEC TOPICS IN CIVIL ENGR (1-6 credits)
Special problems, topics, or research in civil engineering. (Cross-listed with CIVE898)
CIST 1010 FOUNDATIONS OF IS&T (1-3 credits)
An introduction to the information age; focus on foundations of information technologies, problem solving, information system applications and social issues. Also describes careers in information related fields.

CIST 1300 INTRODUCTION TO WEB DEVELOPMENT (3 credits)
This course will provide students with a practical introduction to web development. By learning the basic skills needed to develop an interactive website, students will develop an understanding of the web development task and an appreciation of the importance of the Internet in both business and academic environments. Specific technical topics to be covered include XHTML, CSS, the Unix/Linux operating system, web server software, and a programming language. As part of the class, each student will develop a working website.
Prerequisite(s)/Corequisite(s): MATH 1310 (or equivalent)

CIST 1400 INTRODUCTION TO COMPUTER SCIENCE I (3 credits)
An introduction to programming within the context of a high level modern programming language. Coverage of fundamental programming concepts and program design; including arrays, user defined types, and objects. This course has a required laboratory component; students must register for a laboratory section when enrolling in lecture.
Prerequisite(s)/Corequisite(s): MATH 1320 and either CSCI 1200 or CIST 1300

CIST 1404 INTRODUCTION TO COMPUTER PROGRAMMING LABORATORY (1 credit)
A laboratory course to accompany CIST 1400 Introduction to Computer Programming. This requires two contact hours per week.
Prerequisite(s)/Corequisite(s): CIST 1100

CIST 1510 CULTURE AND HISTORY OF VIDEO GAMES (3 credits)
This course is an overview of the history of video gaming; its evolution, genres, and how games and gaming relate to their audience and the world in which we live. Topics include Project Management, HCI, GUI Design, Pattern Language[s], game design, console evolution, gaming/industry milestones, gaming cultures and subcultures, and the profound impact gaming has had on life in the modern world.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CIST 1940 INTRODUCTION TO FUNCTIONAL PROGRAMMING (3 credits)
This course provides an introduction to the functional programming language SML. Topics covered are beneficial for a number of courses in the CSCI curriculum including CSCI 2030, CSCI 3660, and CSCI 4220.

CIST 2100 ORGANIZATIONS, APPLICATIONS AND TECHNOLOGY (3 credits)
This survey course provides an introduction to organizations and the role information and information systems play in supporting operations, decision-making, processes, quality management, and strategic activities of an organization. In addition, the course covers management of the IS function, strategic and regulatory issues of telecommunications, and ethical and legal issues.
Distribution: Social Science General Education course

CIST 2500 INTRODUCTION TO APPLIED STATISTICS FOR IS&T (3 credits)
The course emphasizes the function of statistics in information science and technology including topics such as descriptive statistical measures, probability discrete probability, sampling, estimation analysis, hypothesis testing, regression, and analysis of variance. A well-known computer package will be used to support the problem-solving process.
Prerequisite(s)/Corequisite(s): MATH 2040 or MATH 2030 or CSCI 2030.

CIST 2910 MULTIMEDIA SYSTEMS (3 credits)
The purpose of this course is to introduce students to the fundamentals of multimedia design. The course provides students with the fundamental skills and knowledge to define a problem and design a multimedia application to solve it, to understand and recognize the characteristics of good multimedia design, to begin to use and apply popular multimedia development tools, and to work as part of a team to produce a workable multimedia solution.
Prerequisite(s)/Corequisite(s): CIST 1400

CIST 3000 ADVANCED COMPOSITION FOR IS & T (3 credits)
Advanced Composition for IS & T provides students with instruction and practice in academic writing for the technical sciences. The course focuses on principles of rhetoric and composition, advanced library-based research techniques, academic modes of writing suited to the technical sciences, style, grammar, and punctuation, all with attention to adapting writing to suit the needs of various academic and professional audiences.
Prerequisite(s)/Corequisite(s): ENGL 1160 (or placement in a 3rd year writing course) Not open to non-degree graduate students.
Distribution: Fundamental Academic Skills-Advanced Writing

CIST 3110 INFORMATION TECHNOLOGY ETHICS (3 credits)
The course will cover the development and need for issues regarding privacy and the application of computer ethics to information technology.
Distribution: Humanities and Fine Arts General Education course

CIST 3600 INFORMATION SECURITY, POLICY AND AWARENESS (3 credits)
This course will cover the planning and development for information governance, security policies and procedures, and security awareness. (Cross-listed with CYBR 3600)
Prerequisite(s)/Corequisite(s): CIST 2100; CIST 3110, which may be taken concurrently.

CIST 4100 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
To examine the frameworks and tools used to develop an organization’s information systems architecture. To provide the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information systems architecture. (Cross-listed with CIST 8106).
Prerequisite(s)/Corequisite(s): CIST 3100 or ISQA 3310

CIST 4540 COMPUTER SECURITY MANAGEMENT (3 credits)
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CYBR 4540, CYBR 8546, ISQA 8546)
Prerequisite(s)/Corequisite(s): CIST 4360 or permission of the instructor.

Communication Studies (CMST)

CMST 1110 PUBLIC SPEAKING FUNDS (3 credits)
Public Speaking Fundamentals helps students become effective public speakers, as well as critical listeners and evaluators of public communication. Students will learn the principles of audience adaptation, topic selection, organization, development of ideas and presentation of speeches. Each student will design and present a minimum of four public speeches. (Special 'Speaking Confidently' sections are available for the students with excessive levels of fear about public communication. Contact the School of Communication for applications.)
Distribution: Fundamental Academic Skills-Public Speaking
CMST 1310 PERSPECTIVES IN COMMUNICATION STUDIES (3 credits)
This course surveys concepts in the dynamic field of speech communication. Students will examine how communication practices shape our worldviews and our relationships in both private and public contexts. This course emphasizes concepts including, but not limited to: a) interpersonal relationships, b) organizational communication & employee relations, c) public & political communication, d) communication technology & human relationships, e) culture & communication, f) health communication, g) communication training & instructional development and h) conflict resolution. Students will also have the opportunity to be informed about possible careers in speech communication.
Prerequisite(s)/Corequisite(s): Not open to nondegree graduate students
Distribution: Social Science General Education course

CMST 1710 ORAL INTERPRETATION OF LITERATURE (3 credits)
Analysis and oral reading of various types of literature. (Cross-listed with THEA 1090)

CMST 2010 INTERPERSONAL COMMUNICATION (3 credits)
This course is an introduction to the study of interpersonal communication. Within this course, students will be introduced to the theories, research, and concepts relevant to interpersonal communication and will be given opportunities to develop and enhance their own communication skills.
Distribution: Social Science General Education course

CMST 2120 ARGUMENTATION AND DEBATE (3 credits)
Theory and practice of effective argumentation and debate. Students will participate in a variety of speaking activities involving the application of argumentation principles to current political and social issues.
Distribution: Fundamental Academic Skills-Public Speaking

CMST 2410 SMALL GROUP COMMUNICATION AND LEADERSHIP (3 credits)
This course is an introduction to the theory and practice of communication and leadership within small group settings. This course will provide students with broad knowledge about small group communication processes.
Distribution: Social Science General Education course

CMST 2420 PARLIAMENTARY PROCEDURE AND MEETING MANAGEMENT (2 credits)
Theory and practice of parliamentary procedure; forming organizations and drawing up constitutions and by-laws.
Prerequisite(s)/Corequisite(s): CMST 1110 or CMST 2120. Not open to non-degree graduate students.

CMST 3100 PRESENTATION & INTERVIEW ANXIETY REDUCTION TECHNIQUES (3 credits)
This course will provide you with the knowledge and practice of techniques related to reducing presentational speaking and interview anxieties. You will learn the causes, bases, measurement, correlates, effects, and treatment techniques for those who experience communication anxieties, especially related to giving a speech or preparing for an interview. Then you will develop a plan and execute the plan to reduce your presentation and interview anxieties.
Prerequisite(s)/Corequisite(s): A minimum cumulative GPA of 2.25.

CMST 3120 PERSUASIVE SPEAKING (3 credits)
This course explores persuasive public speaking and helps students learn to create messages of influence. Students will engage in audience analysis, organization, language choices, presentational slide development, delivery, and evaluation with an emphasis on effective use of persuasion speaking methodologies.
Prerequisite(s)/Corequisite(s): CMST 1110 or CMST 2120 (or SPCH 1110 or SPCH 2120); and minimum cumulative GPA of 2.25

CMST 3130 SPEECH COMMUNICATION IN BUSINESS AND THE PROFESSIONS (3 credits)
This course is designed to introduce students to the important and varied role communication plays in the workplace and other professional settings. The course emphasizes informative and persuasive communication principles and practices in one-to-many presentational situations as well as group communication and interviewing.
Prerequisite(s)/Corequisite(s): Junior standing and CMST 1110 or 2120; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 3140 ADVANCED PUBLIC SPEAKING (3 credits)
This course covers the techniques, theory, and practice in the composition and presentation of public speeches.
Prerequisite(s)/Corequisite(s): CMST 1110 or CMST 2120 (or SPCH 1110 or SPCH 2120); and a minimum cumulative GPA of 2.25.

CMST 3150 INTERCOLLEG FORENSIC ACTVTS (1-3 credits)
For those communication, pre-law, and other interested students who desire to participate in intercollegiate debate and forensics (informative, persuasive, impromptu, extemporaneous, and after-dinner speaking; oral interpretation, solo and or duet acting, rhetorical criticism, and discussion).
Prerequisite(s)/Corequisite(s): Permission of the Director of Forensics only

CMST 3160 INTERCOLLEG FORENSIC ACTVTS (1-3 credits)
For those communication, pre-law, and other interested students who desire to participate in intercollegiate debate and forensics (informative, persuasive, impromptu, extemporaneous, and after-dinner speaking; oral interpretation, solo and or duet acting, rhetorical criticism, and discussion).
Prerequisite(s)/Corequisite(s): Permission of the Director of Forensics only

CMST 3510 CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)
This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema. (Cross-listed with BLST 3510)
Prerequisite(s)/Corequisite(s): Junior standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

CMST 3520 INTERVIEWING (3 credits)
This course is a practical course that focuses on various types of interview performances. The course will explore interview types such as probing/journalistic, survey, recruiting/employment, performance, counseling, and persuasive
Prerequisite(s)/Corequisite(s): SPCH 1110 or SPCH 2120 or CMST 1110 or CMST 2120; junior standing; a minimum cumulative GPA of 2.25.

CMST 3600 SPECIAL TOPICS IN SPEECH COMMUNICATION (3 credits)
A variable topic course in communication studies at the Junior level. Topics to be covered may include but are not limited to: marital and family communication, instructional communication, organizational communication, intercultural communication, conflict, relational communication, communication competence, health communication, communication research or theory, communication and gender, social movements, political communication, listening, communication and the aged, etc. (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s)/Corequisite(s): Junior standing and CMST 2010 or permission of the instructor; a minimum cumulative GPA of 2.25.
CMST 3750 GENDER AND COMMUNICATION (3 credits)
This course provides a survey of literature on communication about, by, and between women and men in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with WGST 3750).
Prerequisite(s)/Corequisite(s): Junior standing; minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

CMST 4110 RHETORICAL THEORY AND CRITICISM (3 credits)
Rhetorical theory and criticism, emphasizing ways of evaluating oral communication. (Cross-listed with CMST 8116)
Prerequisite(s)/Corequisite(s): Junior standing and (Journalism/Media Communication major or Communication Studies major)

CMST 4120 COMMUNICATION AND SOCIAL PROTEST (3 credits)
This class will examine the role played by communication in movements for social change in contemporary society. We will examine social movements which rely on speeches (i.e. women's rights movements), social movements which rely on the grassroots political efforts of their members (i.e. the environmental rights movement) and the overall strategies of persuasion utilized in movements which seek social change, including emerging communication technologies. (Cross-listed with CMST 8126)
Prerequisite(s)/Corequisite(s): Junior Standing; 2.25 GPA

CMST 4130 FAMILY COMMUNICATION (3 credits)
This course emphasizes the role of communication in family relationships. Theories, models, and research methods will be used to examine the family in various cultures and contexts (e.g., nuclear families, single-parent families, and blended families). Topics that will be covered in this course include: family conflict, family roles, family stories, family stress, family well-being, genograms, marriage, and divorce. (Cross-listed with CMST 8136)
Prerequisite(s)/Corequisite(s): The prerequisite for the course is junior standing, and CMST 2010 or CMST 2410; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4140 COMMUNICATION AND HUMAN RELATIONSHIPS (3 credits)
This course applies theories of interpersonal processes and communication principles to the study of close, significant and personal human relationships. Discussion focuses on the communication in different types of relationships and relational stages, e.g., strangers, acquaintances, friendships and intimates. (Cross-listed with CMST 8146)
Prerequisite(s)/Corequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4150 CORPORATE TRAINING AND DEVELOPMENT (3 credits)
This course introduces students to the process of designing communication training programs and workshops for a variety of professional settings. It provides students, especially those who are prospective trainers and/or consultants, with experiential and cognitive knowledge about needs assessment, adult learning, communication training research, objectives writing, module design, interactive delivery methods and program evaluation. (Cross-listed with CMST 8156)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4160 COMMUNICATION FOR INSTRUCTIONAL SETTINGS (3 credits)
This course is designed to help prospective instructors and/or trainers understand and apply the principles of communication in instructional settings (i.e., classrooms, workshops, training programs). It introduces students to the research area in the speech communication discipline called 'Instructional Communication' by covering these five units: 1) Communication Strategies, Objectives, & Content; 2) Student Communication Needs & Expectations; 3) Feedback, Reinforcement, & Discussion; 4) Context, Climate, & Influence; and 5) Teacher Communicator Style, Characteristics, & Behaviors. (Cross-listed with CMST 8166)
Prerequisite(s)/Corequisite(s): Junior standing, and CMST 2010 or CMST 2410 (or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25.

CMST 4170 ORGANIZATIONAL COMMUNICATION (3 credits)
This course will help students understand organizational communication theories, models, and processes; apply these principles in organizational communication speaking exercises; and learn management and leadership skills. (Cross-listed with CMST 8176)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4180 COMMUNICATION LEADERSHIP AND POWER AND ORGANIZATIONS (3 credits)
This course provides theoretical and experiential knowledge about such topics as communication leadership styles and tactics, superior and subordinate interactions, power, ethical responsibilities, and diversity issues related to communication leadership. (Cross-listed with CMST 8186)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4190 COMPUTER-MEDIATED COMMUNICATION (3 credits)
Computer Mediated Communication addressing emerging issues of virtual communities, identity, civic life and participation, online relationships, collaborative work environments, digital networks, gender race class issues, legal and ethical considerations of technology, and commodification of mediated communication. (Cross-listed with CMST 8196)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4220 HEALTH COMMUNICATION (3 credits)
This course introduces students to the interdisciplinary field of health communication. In this course, students will learn various theories of health communication as well as current research and trends in health communication and its related fields. To speak to the complexity and dynamism of health communication, this course will expose students to the multiple voices and perspectives involved in the delivery of health and healthcare. (Cross-listed with CMST 8226)
Prerequisite(s)/Corequisite(s): Junior standing; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4510 PERSUASION AND SOCIAL INFLUENCE (3 credits)
The primary goal of this course is to provide students with a solid grounding in theories, principles, and strategies of persuasion social influence as they apply to everyday contexts in which influence attempts take place. Students should gain familiarity with findings from empirical investigations on persuasion, social influence, and compliance gaining, and will learn about strategies and techniques of persuasion relating. (Cross-listed with CMST 8516)
Prerequisite(s)/Corequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.
CMST 4520  PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with CMST 8526.)
Prerequisite(s)/Corequisite(s): Senior standing; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4530  INTERCULTURAL COMMUNICATION-US (3 credits)
This course will provide a foundation that leads to Intercultural Communication competence. Specifically, this course is to introduce the concepts of cross-cultural communication. Theory and research are integrated with application and necessary skills are identified and developed. (Cross-listed with CMST 8536)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.
Distribution: U.S. Diversity General Education course

CMST 4540  CONTEMPORARY SYSTEMS OF COMMUNICATION (3 credits)
An adaptation of General Systems Theory concepts to the study of human communication processes with emphasis on systems analysis of contemporary interpersonal communication perspectives. (Cross-listed with CMST 8546)
Prerequisite(s)/Corequisite(s): CMST 1110 and three hours of mathematics and three hours of natural sciences; or permission; and a minimum cumulative GPA of 2.25.

CMST 4550  NONVERBAL COMMUNICATION (3 credits)
This course is designed to familiarize the student with current knowledge and research about nonverbal communication and to provide a wide variety of practical experiences through which the student can analyze and evaluate his or her own nonverbal behavior and that of others. The course, also, reviews the functions, areas and applied contexts of nonverbal communication. (Cross-listed with CMST 8556)
Prerequisite(s)/Corequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4560  COMMUNICATION, TEAMWORK, & FACILITATION (3 credits)
This course focuses on the communication practices, process tools, and theory associated with team problem solving, group discussion, facilitation skills, facilitative leadership, meeting management, and training in effective group interaction. (Cross-listed with CMST 8566)
Prerequisite(s)/Corequisite(s): A minimum cumulative GPA of 2.25. Not open to non-degree students.

CMST 4570  INTERCULTURAL COMMUNICATION IN THE GLOBAL WORKPLACE (3 credits)
This course examines the intercultural perspective of organizational communication in a modern global world by focusing on the management of cultural differences in the global workplace. The trend towards a global economy is bringing people of different ethnic and cultural background together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. The trend towards a global economy is bringing people of different ethnic and cultural background together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. (Cross-listed with CMST 8576)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.
Distribution: Global Diversity General Education course

CMST 4580  COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with CMST 8586, BLST 4580, BLST 8586)
Prerequisite(s)/Corequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.
Distribution: U.S. Diversity General Education course

CMST 4600  COMMUNICATION THEORY AND APPLICATION (3 credits)
This course begins by introducing students to two broad categories of theory development - objective and interpretive. Then concepts and assumptions associated with each of these two perspectives are employed to critically evaluate several specific theories that fall within different of the sub-disciplines of the field of communication: interpersonal, group, organizational, mass, public/theoretical, cultural, and intercultural/gender. Along with critically evaluating and comparing/contrasting different communication theories, emphasis is placed on how the theories can be effectively applied in concrete settings and circumstances. (Cross-listed with CMST 8606)
Prerequisite(s)/Corequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.

CMST 4620  DIRECTING FORENSICS (3 credits)
To provide students planning to teach speech in high school or college with a philosophy and detailed knowledge of how to direct a forensics program. (Cross-listed with CMST 8626)

CMST 4700  INTERPERSONAL CONFLICT (3 credits)
This course provides an overview of interpersonal conflict processes. It examines perspectives on conflict, patterns of constructive and destructive conflict, conflict styles and tactics, interpersonal power, negotiation strategies, conflict assessment, and conflict skill development. (Cross-listed with CMST 8706)
Prerequisite(s)/Corequisite(s): Junior standing and (CMST 2010 or CMST 3520 or CMST 4700 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25.

CMST 4790  SPEECH COMMUNICATION SENIOR CAPSTONE SEMINAR (3 credits)
Speech Communication Senior Capstone Seminar is an undergraduate course designed to provide students with the opportunity to integrate the knowledge and skills they have acquired as communication majors and to prepare them to enter the job market or graduate school using their speech communication skills and knowledge.
Prerequisite(s)/Corequisite(s): Senior standing; minimum cumulative GPA of 2.25 and major in Communication Studies. Not open to non-degree students.

CMST 4960  INTERNSHIP AND CAREER PREPARATION SEMINAR (1 credit)
This course will prepare students for doing an internship in a communication-related field by addressing such topics as writing resumes and cover letters, interviewing for jobs, and organizing a professional portfolio of their work. The topics covered also will assist with general career preparation. (Cross-listed with JMC 4960)
Prerequisite(s)/Corequisite(s): Junior standing; School of Communication major or minor; and minimum cumulative GPA of 2.25.
**CMST 4970 INTERNSHIP EXPERIENCE (1 credit)**

This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication. (Cross-listed with JMC 4970)

**Prerequisite(s)/Corequisite(s):** Junior standing and (Journalism/Media Communication major or Communication Studies major)

**CMST 4980 INDEPENDENT STUDY COMMUNICATN (1-3 credits)**

Specialized studies in communication supplementing regular courses: readings, research, tutorial. Repeatable up to six credits if content differs.

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**Distribution:** Humanities and Fine Arts General Education course

---

**Communication, Fine Arts, & Media (CFAM)**

**CFAM 1000 SPECIAL TOPICS IN THE ARTS (3 credits)**

This course utilizes topical approach that explores various inter-/ multidisciplinary connections between the various units of the College of Communication, Fine Arts, and Media (Communication, Music, Art, Theatre, Creative Writing) and their relationship to the individual, society, and culture. Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to six credits if content differs.

**Prerequisite(s)/Corequisite(s):** Junior standing and (Journalism/Media Communication major or Communication Studies major)

---

**Computer Science (CSCI)**

**CSCI 1200 COMPUTER SCIENCE PRINCIPLES (3 credits)**

This course introduces students to the foundational principles of computer science. It aims to help students learn the essential thought processes used by computer scientists to solve problems, expressing those solutions into computer programs. The exercises and projects make use of mobile devices and other emerging platforms.

**Prerequisite(s)/Corequisite(s):** MATH 1310 or equivalent.

**Distribution:** Natural/Physical Sci General Education lab course

**CSCI 1204 INTRODUCTION TO COMPUTER SCIENCE LABORATORY (3 credits)**

Advanced topics in programming; topics in data representation and manipulation, data structures, problem solving and algorithm design. This course has a required laboratory component; students must register for a laboratory section when enrolling in lecture.

**Prerequisite(s)/Corequisite(s):** CIST 1400 and MATH 1930 or MATH 1950 (with a grade of "C" or better)

**CSCI 2030 MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE (3 credits)**

This course introduces discrete mathematics concepts that are foundational for the study of computer science such as functions, relations, and sets, basic logic, methods of proof, mathematical induction, computational complexity, recursion, counting, recurrences, and relations.

**Prerequisite(s)/Corequisite(s):** CIST 1400, MATH 1950 or MATH 1930

**CSCI 2240 INTRODUCTION TO C PROGRAMMING (3 credits)**

Programming in 'C' in a UNIX operating system environment; algorithm and program development and file manipulation using 'C'; UNIX-like utility development.

**Prerequisite(s)/Corequisite(s):** CSCI 1620; Facility w/high-level prog lang like Pascal, Modula, Java, or C++; Ability to design & implement solutions to modest problems.
CSCI 2310 VIDEO GAME DESIGN (3 credits)
The course will cover game design and theory techniques used by the
gaming industry. This course is designed for students who have gone
through the introductory programming course and have an interest in what
it takes to design current games.
Prerequisite(s)/Corequisite(s): CIST 1400.

CSCI 2510 INTRODUCTION TO GAME PROGRAMMING (3 credits)
The course will cover programming and development techniques used in a
game programming environment. The course is designed for students who
have an interest in game programming to be eased into the concepts in a
familiar environment.
Prerequisite(s)/Corequisite(s): CSCI 2240. Not open to non-degree
graduate students.

CSCI 2840 C++ & OBJECT-ORIENTED PROGRAMMING (3 credits)
C++ and Object Oriented Programming (OOP) is taught in the UNIX
environment. Topics include C++ as a ‘Better C’ OOP with C++, classes and
data abstraction, operator overloading, inheritance, virtual functions and
polymorphism, C++ stream I/O.
Prerequisite(s)/Corequisite(s): CSCI 2240; High-level programming
language like Pascal, Java, or C++; solid understanding of pointers & scope;
ability to design & implement solutions to modest problems.

CSCI 2850 PROGRAMMING ON THE INTERNET (3 credits)
This course is an introduction to and overview of Internet-based application
development focusing on the use of Java, Perl and other server-based
programming languages. Software development in the context of the
World Wide Web and other Internet services will be emphasized. Internet
application development will also be discussed. Other techniques will be
covered.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840.

CSCI 2980 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the sophomore level. Topics
not covered in the computer science degree program, but suitable for
sophomore-level students.
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional
prerequisites may be required for particular topic offerings.

CSCI 3100 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations,
principle of inclusion-exclusion. Polya’s formula. Elements of graph theory,
trees and searching network algorithms. (Cross-listed with CSCI 8105,
MATH 3100, MATH 8105).
Prerequisite(s)/Corequisite(s): CSCI 2240 with a C- or better
or MATH 2040 with a C- or better or MATH 2230 with a C- or better.

Mathematical logic; Set theory; Relations; Functions; Congruences;
Inductive and recursive definitions; Discrete probability; sets, graphs, trees,
& matrices

CSCI 3300 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems
of equations, interpolation and polynomial approximation, numerical
differentiation and integration, numerical solutions to ordinary differential
equations, analysis of algorithms and errors, and computational efficiency.
(Cross-listed with CSCI 8305, MATH 3300, MATH 8305).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or
permission of instructor

CSCI 3320 DATA STRUCTURES (3 credits)
This is a core that will cover a number of data structures such as tree,
hashing, priority queues and graphs as well as different algorithm design
methods by examining common problem-solving techniques. (Cross-listed
with CSCI 8325)
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 2030 or
MATH 2030. Programming Languages: Java or C++

CSCI 3450 NATURAL LANGUAGE PROCESSING (3 credits)
The course will provide overview of the topics in natural language
processing such as word and sentence tokenization, syntactic parsing,
semantic role labeling, text classification. We will discuss fundamental
algorithms and mathematical models for processing natural language, and
how these can be used to solve practical problems. We will touch on such
applications of natural language processing technology as information
extraction and sentiment analysis. (Cross-listed with CYBR 3450).
Prerequisite(s)/Corequisite(s): Prerequisite: CSCI 2030; Co-requisite:
CSCI 3320; Students should be comfortable w/ scripting (Python will be the
language extensively used in natural language processing tools including
NLTK). Not open to non-degree graduate students.

CSCI 3510 ADVANCED GAME PROGRAMMING (3 credits)
This course is intended for those with an interest in video game
programming. This course introduces the advanced concepts of game
programming including 3D programming, game networking, and
development of a multiplayer, networked game by learning and using the
XNA environment.
Prerequisite(s)/Corequisite(s): CSCI 2510 and CSCI 3320 or Instructor
permission. Not open to non-degree graduate students.

CSCI 3550 COMMUNICATION NETWORKS (3 credits)
This course is designed to bring students up to the state of the art in
networking technologies with a focus on Internet. It will cover the principles
of networking with an emphasis on protocols, implementations and design
issues. (Cross-listed with CSCI 8555)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325. Data structures
and algorithms. C or C++ programming.

CSCI 3660 THEORY OF COMPUTATION (3 credits)
The course is intended to introduce the students to the theory of
computation in a fashion that emphasizes breadth and away from detailed
analysis found in a normal undergraduate automata course. The topics
covered in the course include methods of proofs, finite automata, non-
determinism, regular expressions, context-free grammars, pushdown
automata, no-context free languages, Church-Turing Thesis, decidability,
reducibility, and space and time complexity.
Prerequisite(s)/Corequisite(s): CSCI 3320

CSCI 3710 INTRODUCTION TO DIGITAL DESIGN AND COMPUTER
ORGANIZATION (3 credits)
The course is intended to introduce the students to the topics found in
introductory digital design and computer organization classes.
Prerequisite(s)/Corequisite(s): CSCI 3320 (could be taken concurrently)

CSCI 3830 ADVANCED JAVA PROGRAMMING (3 credits)
This course teaches students Web-based programming techniques in the
Java programming language. It begins with programming using traditional
models such as the client-server model and then transitions to advanced
programming paradigms including middleware programming using RMI
and CORBA, the distributed JINI/JavaSpaces model, the peer-to-peer
networking model and the agent-based programming model.
Prerequisite(s)/Corequisite(s): CSCI 1620

CSCI 3850 FOUNDATIONS OF WEB SEARCH TECHNOLOGIES (3
credits)
This course provides students a basic understanding of how search
and information flow works on the web. Main topics include: document
representation, inverted indexing, ranking of web search results, vector-
space model, web graph, PageRank, search-based advertising, information
clouds, and web crawling.
Prerequisite(s)/Corequisite(s): CSCI 2030 and CSCI 2850, or instructor
Approval. Not open to non-degree graduate students.
CSCI 4000 ASSESSMENT (0 credits)
This course provides various resources to students about to graduate, and
provides a mechanism that guarantees these students complete the final
assessments required to maintain the currency and quality of the program.
Prerequisite(s)/Corequisite(s): CSCI 4500 which may be taken
This course is designed primarily for third year students in Computer Science.
The course takes a technical, legal, and practical approach to the study
and documentation of computer evidence stored on a computer. This
course is intended as a second course in information assurance for undergraduate students as well as
other qualified students. It is also intended as a foundation course
for graduate digital forensics studies. (Cross-listed with CYBR 4380,
CSCI 4380 COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction
and documentation of computer evidence stored on a computer. This
course takes a technical, legal, and practical approach to the study
and practice of incident response, computer forensics, and network
forensics. Topics include legal and ethical implications, duplication and
data recovery, steganography, network forensics, and tools and techniques
for investigating computer intrusions. This course is intended as a second
course in information assurance for undergraduate students as well as
other qualified students. It is also intended as a foundation course
for graduate digital forensics studies. (Cross-listed with CYBR 4380,
CSCI 4444 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
Need for higher-performance computers. Topics discussed include:
classification of parallel computers; shared-memory versus message passing matchings; for ms of parallelism, measure of performance;
designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel
computers. (Cross-listed with CSCI 8446)
Prerequisite(s)/Corequisite(s): CSCI 4450 which may be taken concurrently.
CSCI 4450 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3 credits)
An introduction to artificial intelligence. The course will cover topics
such as machine problem solving, uninformed and informed searching,
propositional logic, first order logic, approximate reasoning using Bayesian
networks, temporal reasoning, planning under uncertainty and machine
learning. (Cross-listed with CSCI 8456).
Prerequisite(s)/Corequisite(s): CSCI 3320
CSCI 4100 INTRODUCTION TO THE THEORY OF RECURSIVE
FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion
Theory. We present the definition and properties of the class of primitive
recursive functions, study the formal models of computation, and
investigate partially computable functions, universal programs. We
prove Rice’s Theorem, the Recursion Theorem, develop the arithmetic
hierarchy, demonstrate Post’s theorem. Introduction to the formal theories
of computability and complexity is also given. (Cross-listed with MATH 4010,
MATH 8016, CSCI 8016).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor’s
permission
CSCI 4100 INTRODUCTION TO ALGORITHMS (3 credits)
The course provides students a basic understanding of algorithm analyses.
Main topics include: growth of functions, asymptotic notation, recurrences,
divide and conquer, sorting and its lower bounds, dynamic programming,
greedy algorithms, and graph traversal.
Prerequisite(s)/Corequisite(s): CSCI 3320.
CSCI 4150 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph
isomorphism. Trees as a special case of graphs. Connectivity, covering,
matching and coloring in graphs. Directed graphs and planar graphs.
Applications of graph theory in several fields such as networks, social
sciences, VLSI, chemistry and parallel processing. (Cross-listed with
CSCI 8156, MATH 4150, MATH 8156).
Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor.
CSCI 4220 PRINCIPLES OF PROGRAMMING LANGUAGES (3 credits)
This course covers the foundational concepts and principles underlying
the design and implementation of programming languages. Language
constructs including assignment, equality, references, aggregations, scope,
encapsulation, and parameter passing are discussed. A central theme is
how a particular language construct relates to the concept of equational
reasoning (referential transparency). Formal notations for describing syntax
and semantics are presented.
Prerequisite(s)/Corequisite(s): CSCI 3320, CSCI 3660
CSCI 4250 HUMAN COMPUTER INTERACTION (3 credits)
Human computer interaction is concerned with the joint performance
of tasks by humans and machines; human capabilities to use machines
(including learnability of interfaces); algorithms and programming of
the interface; engineering concerns that arise in designing and building
interfaces; and design trade-offs. (Cross-listed with CSCI 8256).
Prerequisite(s)/Corequisite(s): CSCI 4830 (may be taken concurrently).
Knowledge of object-oriented programming concepts. Demonstrated
fluency in any visual programming language.
CSCI 4260 USER INTERFACE DESIGN AND DEVELOPMENT (3
credits)
Graphical user interface (GUI) design is concerned with the application of
user-centered design principles to graphical computer interfaces. Topics
include user-centered design, establishing usability criteria and measures,
usability testing, psychology of the user, rapid prototyping, iterative
design and design tools. This course is an extension and application of its
prerequisite, Human Computer Interaction. (Cross-listed with CSCI 8266).
Prerequisite(s)/Corequisite(s): CSCI 4250 or instructor's permission.
CSCI 4830, Knowledge of object-oriented programming concepts, Visual
programming language.
CSCI 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3
credits)
This is a survey course of deterministic operations research models and
algorithms. Topics include linear programming, network programming,
and integer programming. (Cross-listed with CSCI 8306, MATH 4300,
MATH 8306).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or
permission of instructor.
CSCI 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3
credits)
This is a survey course of probabilistic operations research models and
algorithms. Topics include Markov chains, queueing theory, inventory
models, forecasting, and simulation. (Cross-listed with CSCI 8316,
MATH 4310, MATH 8316).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or
MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or
permission of instructor.
CSCI 4350 COMPUTER ARCHITECTURE (3 credits)
The course deals with: processor design different instruction set
architectures; memory hierarchy; input output organization and
communication; and an introduction to parallel architecture. Analytic study
of design alternatives for each of the above topics will be covered. The
course is designed primarily for third year students in Computer Science.
Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320 or CSCI 8325.
CSCI 4380 COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction
and documentation of computer evidence stored on a computer. This
course takes a technical, legal, and practical approach to the study
and practice of incident response, computer forensics, and network
forensics. Topics include legal and ethical implications, duplication and
data recovery, steganography, network forensics, and tools and techniques
for investigating computer intrusions. This course is intended as a second
course in information assurance for undergraduate students as well as
other qualified students. It is also intended as a foundation course
for graduate digital forensics studies. (Cross-listed with CYBR 4380,
CYBR 8386).
Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3550 or
ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.
CSCI 4440 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
Need for higher-performance computers. Topics discussed include:
classification of parallel computers; shared-memory versus message passing matchings; for ms of parallelism, measure of performance;
designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel
computers. (Cross-listed with CSCI 8446)
Prerequisite(s)/Corequisite(s): CSCI4500 which may be taken concurrently.
Prerequisite(s)/Corequisite(s): CSCI 3320
CSCI 4470 PATTERN RECOGNITION (3 credits)

Prerequisite(s)/Corequisite(s): CSCI 1620, and MATH 2050. Recommended: MATH 4740/8746 or STAT 3800/8805.

CSCI 4480 ALGORITHMS FOR ROBOTICS (3 credits)
This course provides an introduction to software techniques and algorithms for autonomously controlling robots using software programs called controllers. Students will be taught how to program and use software controllers on simulated as well as physical robots. (Cross-listed with CSCI 8486).

Prerequisite(s)/Corequisite(s): CSCI 3320. CSCI 4450/8456 is a recommended but not essential pre-requisite.

CSCI 4500 OPERATING SYSTEMS (3 credits)
Operating system principles. The operating system as a resource manager; I/O programming, interrupt programming and machine architecture as it relates to resource management; memory management techniques for uni-multiprogrammed systems; process description and implementation; processor management (scheduling); I/O device, controller, and channel management; file systems. Operating system implementation for large and small machines. (Cross-listed with CSCI 8506).

Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320/8325, MATH 1950, and CSCI 4350/8356

CSCI 4510 ADVANCED OPERATING SYSTEMS (3 credits)
State-of-the art techniques for operating system structuring and implementation. Special purpose operating systems. Pragmatic aspects of operating system design, implementation and use. (Cross-listed with CSCI 8516)

Prerequisite(s)/Corequisite(s): CSCI 4500

CSCI 4560 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 8566, MATH 4560, MATH 8566).

Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2230 with a C- or better or CSCI 4220 with a C- or better or permission of instructor

CSCI 4620 COMPUTER GRAPHICS (3 credits)
An introduction to the acquisition, manipulation and display of graphical information using digital techniques. Topics include discussion of the various hardware devices used for input and output, the classical algorithms and data structures used in manipulation of graphical objects, the user interface to the graphics system, and applicable standards. (Cross-listed with CSCI 8626).

Prerequisite(s)/Corequisite(s): ISQA 3300 or CSCI 3320

CSCI 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation, and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 8666, MATH 4660, MATH 8666).

Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/ CSCI 8325.

CSCI 4700 COMPILER CONSTRUCTION (3 credits)
Assemblers, interpreters and compilers. Compilation of simple expressions and statements. Analysis of regular expressions. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation and error diagnostics. (Cross-listed with CSCI 8706).

Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 4220. Recommended: CSCI 4500.

CSCI 4760 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with CSCI 8766, MATH 4760, MATH 8766).

Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

CSCI 4830 INTRODUCTION SOFTWARE ENGINEERING (3 credits)
Basic concepts and major issues of software engineering, current tools and techniques providing a basis for analyzing, designing, developing, maintaining and evaluating the system. Technical, administrative and operating issues. Privacy, security and legal issues. (Cross-listed with CSCI 8836).

Prerequisite(s)/Corequisite(s): CSCI 3320.

CSCI 4850 DATABASE MANAGEMENT SYSTEMS (3 credits)
Basic concepts of data base management systems (DBMSs). The relational, hierarchical and network models and DBMSs which use them. Introduction to data base design. (Cross-listed with CSCI 8856).

Prerequisite(s)/Corequisite(s): CSCI 3320

CSCI 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with ISQA 4890).

Prerequisite(s)/Corequisite(s): ISQA 3310 or CSCI 4850

CSCI 4900 INTERNET SYSTEMS DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. This is a rapidly moving, hands-on course that mirrors real-world development of internet-based applications.

Prerequisite(s)/Corequisite(s): CSCI 1620, CSCI 2850, (recommended) CSCI 3830, CSCI 4830,

CSCI 4950 INTERNSHIP IN COMPUTER SCIENCE (1-3 credits)
The purpose of this course is to provide students with opportunities to apply their academic studies in non-academic environments such as those found in business, industry and other non-academic organizations. The student interns will sharpen their academic focus and develop better understanding of non-academic application areas. The course is intended primarily for juniors and seniors in computer science.

Prerequisite(s)/Corequisite(s): Permission of the computer science program chair.

CSCI 4970 CAPSTONE PROJECT (3 credits)
The Capstone Project completes a Computer Science student's undergraduate experience. Students will work on a team-based real-world project, practicing software engineering skills and applying fundamental computer science principles acquired throughout their undergraduate study.

Prerequisite(s)/Corequisite(s): CSCI 4830 ; Senior standing in Computer Science. Not open to non-degree graduate students.
CSCI 4980 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the senior level. Topics not
normally covered in the computer science degree program, but suitable for
senior-level students. (Cross-listed with CSCI 8986).
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional
prerequisites may be required for particular topic offerings.

CSCI 4990 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from
independent reading assignments and research type problems. Independent
study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent
study course should find a faculty member willing to supervise the course
and then submit, for approval, a written proposal (including amount of
credit) to the Computer Science Undergraduate Program Committee at
least three weeks prior to registration.
Prerequisite(s)/Corequisite(s): Written permission required.

Construction Engineering
(CONE)

CONE 1030 INTRO TO CONSTRUCTN ENGINEERING (1 credit)
Introduction to the organization and terminology of construction
engineering. Overview of technical and management skills required to
succeed in the construction engineering profession.

CONE 2060 ENGINEERING ECONOMICS (3 credits)
Introduction to methods of economics comparisons of engineering
alternatives: time value of money, depreciation, taxes, concepts of
accounting, activity-based costing, ethical principles, civics and
stewardship, and the importance to society.
Prerequisite(s)/Corequisite(s): Sophomore Standing.

CONE 2110 CONSTRUCTION BUSINESS METHODS (3 credits)
Business concepts and practices used by construction contractors.
The construction industry, management principles, forms of business
ownership, company organization, construction contracts, estimating
and bidding, business ethics, bonds and insurance, financial statements,
cost accounting, equipment management, planning and scheduling, labor
relations and personnel management.
Prerequisite(s)/Corequisite(s): CONE 1030

CONE 2210 GEOMETRIC CONTROL SYSTEMS (3 credits)
Introduction to the theory and application of mensuration and geometric
information processing in civil engineering. Measurement of distance,
direction, elevation and location using mechanical, electronic and satellite
systems; collection of field data; error propagation; elementary geometric
data bases for design, construction, operation and control of civil works.
(Cross-listed with CIVE 2211)
Prerequisite(s)/Corequisite(s): MATH 1950, not open to nondegree students

CONE 3190 CONSTRUCTION METHODS AND EQUIPMENT (3 credits)
Characteristics, capabilities and selection of equipment and methods
used in the building construction industry. Estimating job production,
equipment production rates, machine operating costs, earth-moving
equipment, hoisting equipment, operations analysis, and use of various
other construction methods and equipment.
Prerequisite(s)/Corequisite(s): ISMG 2060

CONE 3780 CONSTRUCTION ESTIMATING (3 credits)
How to estimate the cost of projects to be constructed. Interpretation of
plans and specifications for the purpose of preparing a bid. Topics include:
approximate and detailed estimates of materials, equipment and labor
costs, lump-sum and unit cost estimates, overhead, profit and production
rates. (Cross-listed with CNST 3780)
Prerequisite(s)/Corequisite(s): CONE 2110 and AE 2250

CONE 4110 ACCIDENT PREVNTN IN CONSTRUCTN (3 credits)
Safety practices in the construction industry and the national safety and
health standards of the Occupational Safety and Health Administration
(OSHA). The theory of accidents; personal attitudes; statistics and
environment; accident occurrence; prevention and inspection in connection
with the construction of buildings, highways, and associated heavy facilities.
Nationally accepted safety codes and their relationship to accepted
practices in the industry.
Prerequisite(s)/Corequisite(s): Senior standing and CONE 2110 and
CONE 2410

CONE 4160 WOOD/CONTEMPORARY MATERIALS DESIGN (3 credits)
Design of structural timber, beams, columns, and connections. Introduction
to applicable design philosophies and codes. Overview of materials design.
Masonry, aluminum, and contemporary materials such as plastics and fiber
reinforced systems and composite material groups. Design considerations,
cost and constructability analysis. (Cross-listed with CONE 8166)
Prerequisite(s)/Corequisite(s): CONE 3780 and CONE 2410

CONE 4170 FORMWORK SYSTEMS (3 credits)
Design of structural timber, beams, columns, and connections. Introduction
to applicable design philosophies and codes. Overview of materials design,
masonry, aluminum, and contemporary materials such as plastics and fiber
reinforced systems and composite material groups. Design considerations,
cost and constructability analysis. (Cross-listed with CONE 8176)
Prerequisite(s)/Corequisite(s): CONE 4160, Pre/Co-req.: CIVE 441

CONE 4500 SUSTAINABLE CONSTRUCTION (3 credits)
Sustainable construction and its application to the green building industry.
Topics include: the LEED certification process, sustainable building site
management, efficient wastewater applications, optimizing energy
performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials. (Cross-listed with CONE 8506)
Prerequisite(s)/Corequisite(s): Senior standing

CONE 4590 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
This course instructs CAD users on the effective use of Building Information
Model (BIM) for integration of design, document and construction estimate.
Topics include: model-based 3D design, file formats, interoperability, and
MEP modeling. (Cross-listed with CONE 8596)
Prerequisite(s)/Corequisite(s): CSNT 1120, or Graduate standing in AE,
CIVE, CSNT or CONE.

CONE 4660 HEAVY &/OR CIVIL ESTIMATING (3 credits)
Estimating techniques and strategies for heavy and/or civil construction.
Unit pricing, heavy and civil construction takeoffs and estimating,
equipment analysis, overhead cost and allocations, estimating software and
government contracts. (Cross-listed with CONE 8666)
Prerequisite(s)/Corequisite(s): CONE 2410 and CONE 3780 and
CONE 4850

CONE 4760 PROJECT BUDGETS AND CONTROLS (3 credits)
The basic systems related to revenues and expenses associated with
record keeping of construction contracts. Managerial accounting related to
planning and control of construction projects. ACCT 2020 may be
substituted toward degree requirements for CONE/CNST 4760. Credit
toward degree can be earned in only one of ACCT 2020 and CONE/
CNST 4760. (Cross-listed with CNST 4760)
Prerequisite(s)/Corequisite(s): CONE/CNST 3780 and CONE/ISMG
2060.

CONE 4810 HIGHWAY & BRIDGE CONSTRUCTION (3 credits)
The methods and equipment required in the construction of roads and
bridges. Methods and equipment necessary for roads and bridges.
Substructure and superstructures, precast and cast-in-place segments, and
standard and specialized equipment. (Cross-listed with CONE 8816)
Prerequisite(s)/Corequisite(s): CONE 2410 or CNST 2410
CONE 4820 HEAVY &/OR CIVIL CONSTRUCTION (3 credits)
Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production. (Cross-listed with CNST4820, CNST8826, CONE8826)
Prerequisite(s)/Corequisite(s): Senior standing and (ARCH major or AE major or CIVE major or CNST major or CONE major), not open to nondegree students

CONE 4830 SUPPORT OF EXCAVATION (3 credits)
The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, heet piling and cofferdams. Soil mechanics, lateral loads, hydrology, and pumping methods. (Cross-listed with CONE8836)
Prerequisite(s)/Corequisite(s): CET 2180 and CET 3290

CONE 4850 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling and monitoring project activities. (Cross-listed with CNST 4850, CNST 8856, CONE 8856)
Prerequisite(s)/Corequisite(s): CNST 3780 and CNST 2250.

CONE 4890 CONSTRCTN ENGINEERING CAPSTONE (3 credits)
CONE 4890 embodies the cumulative CONE experience in a project format and uses teams to simulate actual construction enterprises operating in cooperative and competitive situations which replicate the construction industry. An integrated, comprehensive project; to be taken in the term prior to graduation.
Prerequisite(s)/Corequisite(s): Senior standing

CONE 4980 SPECIAL PROJECTS (1-6 credits)
Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST4980, CNST8986)
Prerequisite(s)/Corequisite(s): Master of engineering in construction management or related discipline and permission

Construction Management (CNST)

CNST 1120 CONSTRUCTION COMMUNICATIONS (3 credits)
Development of construction industry communication skills including the ability to read contract documents. Complete comprehension of working drawings, technical terminology including graphic symbols and abbreviations. Fundamentals of drafting principles, sketching, and dimensioning techniques.

CNST 1310 INTRODUCTION TO THE CONSTRUCTION INDUSTRY (1 credit)
Introduction to basic management principles and practices used in the control of manpower, materials, machinery, and money in the construction of the built environment.

CNST 2250 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
This course will expose students to the fundamentals of Building Information Modeling (BIM), and established a solid foundation for further study in this area. Students will learn about BIM concepts and Modeling Techniques. BIM by its very nature is software driven. This class will make use of Autodesk Revit and Navisworks. Students will use Revit to create 3D models of construction projects. The great number of benefits offered by BIM will be exposed to the students.

CNST 2410 CONSTRUCTION METHODS & EQUIPMENT I (3 credits)
Introduction to earthmoving equipment and methods used in the U.S. construction industry. Labor, productivity, economic aspects of site, excavation, and foundation work utilizing various mixes of manpower and machinery. Introduction to financial principles of equipment operation and ownership.
Prerequisite(s)/Corequisite(s): CNST 1120, GEOL 1170, and MATH 1950. Parallel registration in CNST 2510 is recommended.

CNST 2420 CONSTRUCTION EQUIPMENT AND METHODS II (3 credits)
Continuation of CNST 2410, with emphasis on the structure from grade to topping out. Functions and applications of material handling equipment from simple pulleys to large cranes. Methods of constructing concrete formwork in a variety of applications. Assembly and erection of steel, wood, precast concrete, and masonry structural elements. Material finishing methods and equipment.
Prerequisite(s)/Corequisite(s): CNST 2410.

CNST 2510 CONSTRUCTION MATERIALS AND SPECIFICATIONS (3 credits)
Introduction to construction materials. Physical, mechanical and aesthetic properties of soils, concrete, masonry, metals, plastics and other materials as they relate to in-service conditions and acceptability either individually or in combination with other materials. Proper methods of specifying to achieve design and construction goals, construction safety and inspection, and to meet zoning code and environmental requirements.
Prerequisite(s)/Corequisite(s): CNST 1120 and 1310.

CNST 2520 CONSTRUCTION MATERIALS AND TESTING (3 credits)
Introduction to basic materials used in construction. Laboratory testing and evaluation of material properties. Inspection and quality control of construction material types, including aggregates. Laboratory emphasizes testing of aggregates, soil, and concrete. (Laboratory testing procedures emphasizing testing of aggregates, soil, and concrete.)
Prerequisite(s)/Corequisite(s): CNST 1120, MATH 1950; Parallel registration in CNST 241 is recommended

CNST 3050 BUILDING ENVN TECHNICAL SYST I (3 credits)
Characteristics and performance of buildings with respect to thermal and psychometric environment in buildings related to human comfort, heat gain/heat loss, ventilation, natural energy systems and sustainable design principles, and plumbing and life safety systems in the built environment.
Prerequisite(s)/Corequisite(s): PHYS1050 and MATH1950

CNST 3060 BUILDING ENVIRONMENTAL TECHNICAL SYSTEMS II (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1950, PHYS 1050, PHYS 1054.

CNST 3310 ARCHITECTURAL STRUCTURES I (3 credits)
Analysis and design of structural members in wood, steel, and concrete. Emphasis on slabs, joists, beams, girders, and connections. Comparative building designs.
Prerequisite(s)/Corequisite(s): MENG 2200 or EMEC 2200; and MENG 3240 or EMEC 3240. Not open to non-degree graduate students.

CNST 3320 ARCHITECTURAL STRUCTURES II (3 credits)
Analysis and design of structural members in wood, steel, and concrete. Emphasis on columns, walls, footings, soils, trusses, and construction. Comparative building designs.
Prerequisite(s)/Corequisite(s): CNST3310, not open to nondegree students

CNST 3350 STRUCTURAL MECHANICS (3 credits)
Introduction to various external force systems, and their resulting internal forces and deformations, which act on structural elements.
Prerequisite(s)/Corequisite(s): Admission to the Construction Management degree program.
CNST 3360 STRUCTURAL OPTIMIZATION (3 credits)
Structural Mechanics Optimization of key properties of elements and systems of building structures: force, geometric, and material.
Prerequisite(s)/Corequisite(s): CNST 3350.

CNST 3780 CONSTRUCTION ESTIMATING (3 credits)
How to estimate the cost of projects to be constructed. Interpretation of plans and specifications for the purpose of preparing a bid. Topics include: approximate and detailed estimates of materials, equipment and labor costs, lump-sum and unit cost estimates, overhead, profit and production rates. (Cross-listed with CONE3780)
Prerequisite(s)/Corequisite(s): CNST2420

CNST 3790 CONSTRUCTION ESTIMATING II (3 credits)
Continuation of CNST 3780 with emphasis on implementing basic elements of estimating, including: quantity survey, price extension, and bidding. Advanced computer applications of estimating to various construction projects.
Prerequisite(s)/Corequisite(s): CNST3780

CNST 4050 MECHANICAL ESTIMATING (3 credits)
Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of mechanical construction.
Prerequisite(s)/Corequisite(s): CNST3050 and CNST3060 and CNST3790

CNST 4060 ELECTRICAL ESTIMATING (3 credits)
Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of electrical construction.
Prerequisite(s)/Corequisite(s): CNST 3050, CNST 3060 and 3790.

CNST 4110 PROJECT ADMINISTRATION (3 credits)
An introduction to construction project administration. Ownership and organization of construction companies, construction documentation specifications, type of contracts, takeoffs, estimating, bidding, bonds, insurance, project management and administration, scheduling, time and cost management, labor law and labor relations, and project safety. (Crosslisted with CNST 8116.)
Prerequisite(s)/Corequisite(s): CIVE 378 or CNST 3790. Not open to non-degree graduate students.

CNST 4150 MECHANICAL/ELECTRICAL PROJECT MANAGEMENT (3 credits)
Fundamentals of project management within the mechanical and electrical contracting industry. Codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, from a specialty contracting perspective. (Cross-listed with CNST8156)
Prerequisite(s)/Corequisite(s): CNST 3050, CNST 3060 and CNST 3790. CNST 4050 and CNST 4060 are recommended.

CNST 4200 PROFESSIONAL PRACTICE AND ETHICS (3 credits)
Orientation to professional practice through a study of the designers' and the contractors' relationship to society, specific clients, their professions, and other collaborators in environmental design and construction fields. Ethics, professional communication and responsibility, professional organization, office management, construction management, professional registration, and owner-contractor relationships. (Cross-listed with CNST8206)
Prerequisite(s)/Corequisite(s): CNST 3790; and LAW 3930

CNST 4340 PROFESSIONAL TRENDS IN DESIGN/BUILD (3 credits)
The organizational, managerial, ethical, and legal principles involved in design/build as a construction project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system. (Cross-listed with CNST8346)
Prerequisite(s)/Corequisite(s): CNST 3790.

CNST 4360 INTENT AND APPLICATION OF INTERNATIONAL BUILDING CODE (3 credits)
This course is designed to provide a fundamental understanding of how to research, interpret and apply building code requirements to the design and construction of new and renovated structures. (Cross-listed with CNST 8366)
Prerequisite(s)/Corequisite(s): CNST 1120 and 2510.

CNST 4400 BUILDING INFORMATION MODELING (BIM) II (3 credits)
Advance topics in building information modeling, including structural and MEP modeling, 4/5 dimensional construction animations and visualization. Good knowledge of Revit Architectural Modeling and knowledge of construction estimating and scheduling is required before registering in this class. (Cross-listed with CNST 8406)
Prerequisite(s)/Corequisite(s): CNST 2250 and CNST 3780.

CNST 4410 INDUSTRIALIZED SYSTEMS BUILDING (3 credits)
Historical background of industrialized systems building; its economic and social relevance in modern society; and its influence on the traditional role of the contractor within the construction industry. Changes industrialized systems building will impose on the contractor's approach to finance, management, and construction methods and equipment. (Cross-listed with CNST8416)
Prerequisite(s)/Corequisite(s): Graduate standing

CNST 4440 CONSTRUCTION SITE SAFETY MANAGEMENT (3 credits)
Provides introductory construction site safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers' compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA record-keeping and reporting. Satisfactory completion will partially qualify the individual to be designated by their employer as a construction site "competent person" by successfully completing the OSHA 30-hour Construction Safety Card as well as additional certifications in basic first aid, CPR and AED. (Cross-listed with CNST 8446)
Prerequisite(s)/Corequisite(s): CNST 2420.

CNST 4760 PROJECT BUDGETS AND CONTROLS (3 credits)
The basic systems related to revenue and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. ACCT 2020 may be substituted toward degree requirements for CONE/CNST 4760. Credit toward degree can be earned in only one of ACCT 2020 and CONE/CNST 4760. (Cross-listed with CONE4760)
Prerequisite(s)/Corequisite(s): CONE/CNST 3780; and CONE/ISMG 2060

CNST 4800 PRODUCTIVITY AND HUMAN FACTORS IN CONSTRUCTION (3 credits)
Motivation and productivity improvement methods in the management of construction workers in their typical job environments. Methods to improve working environment in the field and in the office. Procedures and mechanisms to implement human behavior concepts and ergonomic concepts for enhanced productivity and safety. (Cross-listed with CNST8806)
Prerequisite(s)/Corequisite(s): Senior standing; CNST 3780; MGMT 3490

CNST 4820 HEAVY AND/OR CIVIL CONSTRUCTION (3 credits)
Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production. (Cross-listed with CNST8826, CONE4820, CONE8826)
Prerequisite(s)/Corequisite(s): Senior standing and (ARCH major or AE major or CIVE major or CNST major or CONE major), not open to nondegree students
CNST 4850 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling and monitoring project activities. (Cross-listed with CNST 8856, CONE 4850, CONE 8856)
Prerequisite(s)/Corequisite(s): CNST 3780 and CNST 2250.
CNST 4860 CONSTRUCTION MANAGEMENT SYSTEMS (3 credits)
Application of selected topics in systems analysis (operations research) to construction management. Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis and analytic hierarchy processes as used in the construction industry. (Cross-listed with CNST 8866).
Prerequisite(s)/Corequisite(s): CNST 3790.
CNST 4880 RESIDENTIAL CONSTRUCTION AND REAL ESTATE DEVELOPMENT (3 credits)
Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the preconstruction and bidding process. (Cross-listed with CNST 8886)
Prerequisite(s)/Corequisite(s): CNST 3790.
CNST 4890 SENIOR CONSTRUCTION PROJECT (3 credits)
Execution of a construction project involving conceptual design and location, estimating, bidding, site layout, construction organization, planning and scheduling, cost control, records management, and project completion and documentation. Lec: 2 contact, Lab: 6 contact.
Prerequisite(s)/Corequisite(s): CNST 3790; CNST 4200; CNST 4760; CNST 4850. Pre/Coreq: CNST 4800.
CNST 4980 SPECIAL TOPICS IN CNSTRCTN MGM (1-6 credits)
Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST8986, CONE4980)
Prerequisite(s)/Corequisite(s): Master of engineering in construction management or related discipline and permission

Cooperative Education (COOP)

COOP 2700 COOPERATIVE EDUCATION (1-3 credits)
A semester of off-campus relevant semi-professional and professional work experience coordinated to complement classroom academics with practical firsthand involvement in the business world.
Prerequisite(s)/Corequisite(s): Permission of the dean of the College of Public Affairs and Community Service (CPACS)
COOP 3700 COOPERATIVE EDUCATION (1-3 credits)
A semester of off-campus relevant semi-professional and professional work experience coordinated to complement classroom academics with practical firsthand involvement in the business world.
Prerequisite(s)/Corequisite(s): Permission of the dean of the College of Public Affairs and Community Service (CPACS).

Counseling (COUN)

COUN 4000 SPECIAL STUDIES IN COUNSELING (1-6 credits)
This course is designed to allow candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities are mutually agreed upon by the candidate and instructor. This course will prepare graduate (or undergraduate) candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with COUN 8006).
Prerequisite(s)/Corequisite(s): Permission by the Department. Must be seeking a Bachelor of General Studies with a Concentration in Behavioral Health. Not open to non-degree graduate students.

COUN 4010 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)
This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 8016, SPED 4010, SPED 8016).
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA, and SPED 1500 or EDUC 2510

COUN 4300 COUNSELING TECHNIQUES I (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Adlerian counseling (specified in this syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 8306)
Prerequisite(s)/Corequisite(s): Not open to non-degree students. Must take prior to practicum.

COUN 4310 COUNSELING TECHNIQUES II (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Rational Emotive Behavior Therapy (REBT) (specified in this syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 8316)
Prerequisite(s)/Corequisite(s): Admission to students seeking a Bachelor degree in General Studies Option One Major with a concentration in Behavioral Health. Not open to non-degree graduate students

COUN 4400 COUNSELING TECHNIQUES III (1 credit)
This course will assist candidates in developing more systematic integration of previously learned information and skills and the application to specific counseling situations related to various approaches. Topics may include Solution Focused Counseling - SFC (specified in this syllabus), Dialectical Behavioral Therapy, anger management, art therapy, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 8406)
Prerequisite(s)/Corequisite(s): Admission to students seeking a Bachelor degree in General Studies Option One Major with a concentration in Behavioral Health. Not open to non-degree graduate students.

COUN 4510 TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 8516, SOWK 4510, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.
COUN 4680 MEDICAL AND PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 4680, SOWK 8686, COUN 8686).
Prerequisite(s)/Corequisite(s): Open to those admitted to the Counseling program or by permission.

COUN 4690 ASSESSMENT AND CASE MANAGEMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 8690, SOWK 8696).
Prerequisite(s)/Corequisite(s): Admission to the Counseling program or by permission.

Criminology and Criminal Justice (CRCJ)
CRCJ 1010 SURVEY OF CRIMINAL JUSTICE (3 credits)
This course is designed to provide an overview of the justice process and the criminal justice system in general. Concepts of crime and justice are discussed as well as the rights of individuals in a democratic society. The law enforcement, judicial, juvenile justice, and corrections systems are explored.
Distribution: Social Science General Education course
CRCJ 2030 POLICE AND SOCIETY (3 credits)
This course is designed to present an overview of the role of the police in American society. Attention is given to the origins of policing, the nature of police organizations and police work, and patterns of relations between the police and the public.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2110 CRIMINAL COURT SYSTEM (3 credits)
This course is designed to provide an analysis of the structure and function of the criminal court system in the United States, including the roles of prosecutor, defender, judge, jury and court administrator. The issues confronting the system will be considered from historical, philosophical, sociological and psychological perspectives. The ideals of the system will be compared with actual functioning, and court reform programs and proposals will be explored.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2210 SURVEY OF CORRECTIONS (3 credits)
A general course describing the history and evolution of the corrections process. Covers all aspects of institutional and community-based corrections.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or permission

CRCJ 2510 RESEARCH METHODS (3 credits)
A basic introduction to the principles, methods and techniques of empirical social research.
Prerequisite(s)/Corequisite(s): CRCJ 1010, or instructor permission

CRCJ 3000 APPLIED STATISTICS AND DATA PROCESSING IN THE PUBLIC SECTOR (3 credits)
A course in the basic statistics of social work. The emphasis is on exploration of data processing and techniques as they relate to statistical analysis and on understanding the proper application of statistics. (Cross-listed with PA 3000, SOWK 3000).
Prerequisite(s)/Corequisite(s): MATH 1310 or permission of the School.

CRCJ 3010 PHILOSOPHY OF CRIMINAL JUSTICE (3 credits)
This course is a philosophical examination of justice and its administration. It provides the student with a richer understanding of the conceptual foundations of justice.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission

CRCJ 3100 WRITING FOR CRIMINAL JUSTICE (3 credits)
This is a writing course for all Criminal Justice majors. Students will learn how to write effective cover letters, incident reports, position papers, and executive summaries.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1160, and CRCJ 1010. Not open to non-degree graduate students.

CRCJ 3310 CRIMINAL LAW (3 credits)
This course examines the means by which society attempts to use criminal law to prevent harm to society. It examines the acts which are declared criminal and the punishment prescribed for committing those acts. The course also examines the philosophies and rationales that have shaped current day substantive criminal law. It looks at the English Common Law and traces the historic evolution of substantive criminal law from its early origins.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3350 CRIMINOLOGY (3 credits)
General survey of the nature and causes of crime and the effort of the criminal justice system to predict, prevent, modify and correct this behavior.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3370 JUVENILE DELINQUENCY AND JUVENILE JUSTICE (3 credits)
This course focuses on how delinquents and juveniles in need of supervision are handled within the juvenile justice system. The nature and extent of delinquent behavior, status offenses, child abuse and neglect; theories of delinquency and their implications for intervention; cultural and social factors related to delinquency; as well as the philosophy and functioning of the juvenile justice system are covered.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 3380 RACE, ETHNICITY, AND CRIMINAL JUSTICE (3 credits)
This course provides a survey of minority groups and their experiences with regard to crime and criminal justice in the United States. This course will focus on racial and ethnic minorities as victims, as offenders, as defendants, and as criminal justice professionals.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

CRCJ 3390 WOMEN, CRIME, AND JUSTICE (3 credits)
This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with WGST 3390)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ or WGST major; CRCJ or WGST minor; CRCJ 1010 and jr/sr standing; or instructor permission.
Distribution: U.S. Diversity General Education course

CRCJ 3510 CRIMINAL PROCEDURE (3 credits)
This course deals with the legal aspects of the investigation and arrest processes as well as the rules governing the admissibility of evidence in court.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.
CRCJ 3970 INTERNSHIP IN CRIMINAL JUSTICE (3 credits)
Job-related experience in criminal justice agencies. Permission to enroll must be received from the student’s adviser each semester. (May be repeated for a maximum of six hours.)
Prerequisite(s)/Corequisite(s): Admission into upper-division CRCJ program or CRCJ minor, 75 credit hours completed, GPA of 2.5, and permission of instructor. Not open to non-degree graduate students.

CRCJ 4030 CRIMINAL JUSTICE ORGANIZATION AND ADMINISTRATION (3 credits)
This course covers contemporary concepts, principles and theories of organization and administration as they relate to criminal justice agencies. The historical development and modern practices of public policy are also considered.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4060 CRIMINAL JUSTICE ETHICS (3 credits)
This course is designed to examine ethical issues that arise in the three major areas of criminal justice: police; courts; and corrections. The course explores general philosophical theories of ethics as well as Codes of Ethics that operate to control the institutional and personal behavior of police, court, and correctional systems.
Prerequisite(s)/Corequisite(s): Admission into upper-division CRCJ program or CRCJ minor, 75 credit hours completed, GPA of 2.5, and permission of instructor. Not open to non-degree graduate students.

CRCJ 4130 SOCIOLOGY OF DEVIAN'T BEHAVIOR (3 credits)
This course is designed to investigate the etiology of many forms of norm-violating conduct. Emphasis will be placed on rule-breaking behavior as defined in the criminal statutes. (Cross-listed with CRCJ 8136).
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4210 INSTITUTIONAL CORRECTIONS (3 credits)
The course presents an in-depth analysis of the history and operation of prisons and jails in the United States and other countries. The course covers the management and operation of prisons and jails from the perspective of both employees and incarcerated persons.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4350 COMMUNITY-BASED CORRECTIONS (3 credits)
This course is intended for advanced students with a special interest in the correctional process as applied in a community setting. It is designed to focus on innovative community-based strategies for dealing with the offender as well as the traditional processes of probation and parole. (Cross-listed with CRCJ 8356).
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4500 DRUGS AND CRIME (3 credits)
This course looks at the socially constructed nature of drugs and drug policy, focusing on the variety of ways drugs and crime are connected and the socio-historic context of contemporary U.S. drug policy.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4510 VIOLENCE (3 credits)
This course is a survey of the nature and extent of violence. The focus is on patterns of violence across social groups, the causes and correlates of violence and violent behavior, and programs/policies geared toward violence prevention and reduction. Also of interest is the relationship between theory and violence research. (Cross-listed with CRCJ 8516).
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor or CRCJ 1010 and jr/sr standing.

CRCJ 4550 GANGS AND GANG CONTROL (3 credits)
This course focuses on American youth street gangs. Topics include the history of gangs, gang and gang member characteristics, gang life, and strategies of gang control. The link between youth street gangs, prison gangs, and other deviant collectivities will be explored.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and CJUS1010 and jr/sr standing; or instructor permission.

CRCJ 4710 COMPARATIVE CRIMINAL JUSTICE SYSTEMS: ENGLAND (3 credits)
This is a specialized course which provides a comparison of the criminal justice systems of the United States and the United Kingdom. The design of the course allows for an exploration of how the American system developed from the British system and why social and cultural factors influenced the differences/similarities in their development.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major or CRCJ minor and permission of the instructor. Not open to non-degree graduate students.

CRCJ 4750 INTERNATIONAL CRIMINOLOGY AND CRIMINAL JUSTICE (3 credits)
This course analyzes the dynamics of criminality and the social response to criminality across countries. Differences in crime and justice between developed and developing countries and between socialist and capitalist nations are emphasized.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.
Distribution: Global Diversity General Education course

CRCJ 4760 TERRORISM (3 credits)
This course is designed to assist the student in developing an understanding of terrorism as a political crime. It includes an examination of the social, political and psychological aspects of this behavior.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.
Distribution: Global Diversity General Education course

CRCJ 4770 ORGANIZED CRIME (3 credits)
A course designed to trace the origins and historical development of the activities that have come to be known as organized crime. These crimes are some of the most dangerous to American society and range from the commonly known offenses of gambling, shylocking and narcotics trafficking to the more subtle and sophisticated, less understood but equally serious, crimes of extortion, commercial bribery and political corruption.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4780 WHITE COLLAR CRIME (3 credits)
This course is designed to examine those illegal acts committed by non-physical means and by concealment or guile, to obtain money or property, to avoid the payment or loss of money or property, or to obtain business or personal advantage.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4800 SPECIAL TOPICS (1-3 credits)
This course is a topical approach that explores various aspects of Criminology and Criminal Justice. Topics and disciplines will vary from term to term. Course description will be announced in advance. This course will be devoted to the exploration and analysis of contemporary problems in the criminal justice system. On occasion the course will be offered in three one-credit hour modules and students may register for one, two or three credit hours.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; CRCJ 1010 and jr/sr standing; or instructor permission.

CRCJ 4950 INDEPENDENT STUDY (1-3 credits)
Faculty-guided research in an area of mutual interest to the student and his instructor. Students are responsible for selecting the area of inquiry prior to contacting the instructor. May be repeated to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major and instructor permission. Not open to non-degree graduate students.
CRCJ 4960 ISSUES IN CRIME AND JUSTICE (3 credits)
This is a capstone course that will focus on contemporary issues of crime and justice. It will examine the justice process and the general operations of the criminal justice system. Concepts of crime and deviance, rights and discrimination in a democratic society will be reviewed and critiqued against the backdrop of contemporary issues. The law enforcement, judicial, juvenile justice, and corrections subsystems will be explored, and a number of reform proposals presented and considered.
Prerequisite(s)/Corequisite(s): CRCJ majors with senior standing, OR permission of the instructor. Not open to non-degree graduate students.

CRCJ 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by School faculty. The senior honors project must be approved by the CPACS Honors Coordinator.

CRCJ 4999 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the School's Student Outcomes effort. It is designed to monitor the School's performance and to identify changes needed. Graduating seniors must register for and complete CJUS4999 - Senior Assessment in the term in which they plan to graduate.
Prerequisite(s)/Corequisite(s): Students must register for CJUS 4999 in the term in which they plan to graduate. Not open to non-degree graduate students.

Cybersecurity (CYBR)

CYBR 1100 INTRODUCTION TO INFORMATION SECURITY (3 credits)
This course emphasizes our current dependence on information technology and how its security in cyberspace (or lack thereof) is shaping the global landscape. Several historical and contemporary global events that have been influenced by the exploitation of information technology motivates topics on cyber crime, malware, intrusion detection, cryptography, among others, and how to secure one's own data and computer system. Several aspects of this course are geared towards developing an understanding of the "cyberspace" as a new medium that breaks all geographical boundaries, while highlighting noticeable influences on it from social, political, economic and cultural factors of a geographical region.

Distribution: Global Diversity General Education course

CYBR 2250 LOW-LEVEL PROGRAMMING (3 credits)
This course will teach the cybersecurity students low-level programming in the 'C' and assembly languages, and the interrelationship between these two programming paradigms. The student will learn the various control structures in 'C' and how they are implemented in machine code, memory allocation and management, and the basics of allocation classes such as static versus automatic variables. The students will also learn x86 assembly language in the 'C' environment and will be able to write useful, functional, stand-alone assembly language programs with no help from external libraries.
Prerequisite(s)/Corequisite(s): CSCI 1620. Not open to non-degree graduate students.

CYBR 2980 SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring subject areas in Information Assurance and related fields for sophomore undergraduate students. Specific topics vary, in keeping with research interests of faculty and students. Examples include network configuration, network security, forensics, regulatory compliance, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance.
Prerequisite(s)/Corequisite(s): Instructor permission required. Not open to non-degree graduate students.

CYBR 3350 SECURITY ADMINISTRATION: LINUX (3 credits)
This course covers topics a system administrator would encounter in their profession. The student will learn how a system administrator fulfills various organizational information resource management requirements using the Linux-based Operating System. Topics will include; installation; creating and maintaining file systems; user and group administration; backup and restore processes; network configuration; various system services; simple security administration; and updating and maintaining the system.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840 or Instructor Permission.

CYBR 3370 SECURITY ADMINISTRATION - WINDOWS (3 credits)
This course covers topics a system administrator would encounter in their profession. The student will learn how a system administrator fulfills various organizational information resource management requirements using the Windows Operating System. Topics will include; installation; creating and maintaining file systems; user and group administration; backup and restore processes; network configuration; various system services; simple security administration; and updating and maintaining the system.
Prerequisite(s)/Corequisite(s): CSCI 1620 or CSCI 1840 or Instructor Permission.

CYBR 3450 NATURAL LANGUAGE PROCESSING (3 credits)
The course will provide an overview of the topics in natural language processing such as word and sentence tokenization, syntactic parsing, semantic role labeling, text classification. We will discuss fundamental algorithms and mathematical models for processing natural language, and how these can be used to solve practical problems. We will touch on such applications of natural language processing technology as information extraction and sentiment analysis. (Cross-listed with CSCI 3450).
Prerequisite(s)/Corequisite(s): CSCI 2030; Co-requisite: CSCI 3320; Students should be comfortable w/ scripting (Python will be the language extensively used in natural language processing tools including NLTK). Not open to non-degree graduate students.

CYBR 3570 CRYPTOGRAPHY (3 credits)
The course will provide a broad overview of the concepts, fundamental ideas, vocabulary, and literature base central to the study and development of cryptography and cryptanalysis. This course will explore historical development of cryptography, as well as methods used to defeat it. In addition, the course will cover the mathematical foundations of cryptography today, as well as some current uses of such cryptography, such as public key infrastructures, the Internet Key Exchange protocol, and more.
Prerequisite(s)/Corequisite(s): CSCI 3320 or ISQA 3300. Not open to non-degree graduate students.

CYBR 3600 INFORMATION SECURITY, POLICY AND AWARENESS (3 credits)
This course will cover the planning and development for information governance, security policies and procedures, and security awareness. (Cross-listed with CIST 3600)
Prerequisite(s)/Corequisite(s): CIST 2100; CIST 3110, which may be taken concurrently.

CYBR 4000 CENTER OF ACADEMIC EXCELLENCE-CYBER OPERATIONS COMPLETION CERTIFICATE (0 credits)
This course is utilized to provide a specific designation for students that have completed the Center of Academic Excellence - Cyber Operations coursework. It is a zero credit hour class used to designate the completion of this focus area in the cybersecurity curriculum.
Prerequisite(s)/Corequisite(s): Instructor Permission. The program committee will work w/ the UG advisors to verify that the student has fulfilled the requirements for this designation. If the student has fulfilled (or will soon) all the requirements, they may register for this class.
CYBR 4360 FOUNDATIONS OF INFORMATION ASSURANCE (3 credits)

Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption systems; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 8366, CSCI 8366)

Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 OR ISQA 3300 OR By instructor permission

CYBR 4380 COMPUTER AND NETWORK FORENSICS (3 credits)

Computer forensics involves the preservation, identification, extraction and documentation of computer evidence stored on a computer. This course takes a technical, legal, and practical approach to the study and practice of incident response, computer forensics, and network forensics. Topics include legal and ethical implications, duplication and data recovery, steganography, network forensics, and tools and techniques for investigating computer intrusions. This course is intended as a second course in information assurance for undergraduate students as well as other qualified students. It is also intended as a foundation course for graduate digital forensics studies. (Cross-listed with CSCI 4380, CYBR 8386)

Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3550 or ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.

CYBR 4430 QUANTUM COMPUTING AND CRYPTOGRAPHY (3 credits)

The course aims at understanding the exciting concepts behind quantum computing and quantum cryptography. The course will introduce the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that built using these principles. We will discuss the security definitions and protocols within the quantum realm. We will discuss which advantages quantum computing and cryptography offers compared to classical computing and cryptography and limitations thereof. It will cover the integration of quantum cryptography into existing public key infrastructure. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course students will also implement several of the quantum algorithms. (Cross-listed with CYBR 8436)

Prerequisite(s)/Corequisite(s): Co-requisites: CYBR 3570 or CSCI 4560; or Instructor permission.

CYBR 4440 INDUSTRIAL CONTROL SYSTEM SECURITY (3 credits)

The objective of this course is to research vulnerabilities into, and provide guidance for securing, industrial control systems (ICS). ICS is a general term that encompasses several types of control systems, including supervisory control and data acquisition (SCADA) systems, distributed control systems (DCS), and other control system items such as Programmable Logic Controllers (PLC). The student will learn to identify network and device vulnerabilities and potential countermeasures to these weaknesses. (Cross-listed with CYBR 8446)

Prerequisite(s)/Corequisite(s): CSCI 3550.

CYBR 4450 HOST-BASED VULNERABILITY DISCOVERY (3 credits)

The class will cover security issues at an implementation and hardware level. The students will learn assembly language and the use of a reverse assembler and debugger. This will allow the student to analyze various packing algorithms for computer viruses, the viruses themselves, operating system hooking, fuzzing, and other machine code, host-based exploits. The class will be using both Windows and Linux as operating systems. (Cross-listed with CYBR 8456.)

Prerequisite(s)/Corequisite(s): Permission of the instructor and CSCI 3710.

CYBR 4460 NETWORK-BASED VULNERABILITY DISCOVERY (3 credits)

The course is an advanced class in which the students learn various techniques for testing for and identifying security flaws in network software and web applications. Internet technologies such as HTTP, DNS, DHCP, and others are examined in the context of cyber security. Students are expected to participate in numerous hands-on experiments related to Information Assurance with respect to web technologies. (Cross-listed with CYBR 8466)

Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 4540 COMPUTER SECURITY MANAGEMENT (3 credits)

The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 8546, ISQA 8546)

Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

CYBR 4580 CERTIFICATION AND ACCREDITATION OF SECURE SYSTEMS (CAPSTONE) (3 credits)

This is the BSIA capstone course where students extend and apply their knowledge in defining, implementing, and assessing secure information systems. Students will demonstrate their ability to specify, apply, and assess different types of countermeasures at different points in the enterprise with a special focus on system boundaries. Students will complete and defend a Certification and Accreditation package.

Prerequisite(s)/Corequisite(s): CIST 3600 or CYBR 3600; CIST 3650 or CYBR 3350 or CYBR 3370; and CIST 4540 or CYBR 4540 may be taken prior to or concurrently. Not open to non-degree graduate students.

CYBR 4950 INTERNSHIP IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for an Information Assurance student to work with a local or national industry partner in a cyber security oriented position, and to receive credit for this practical experience. The internship may or may not be a paid position, but will definitely be directly related to Information Assurance. The class is proposed and organized by the student, with participating faculty supervising and input provided by the industry partner.

Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 4980 SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research. (Cross-listed with CYBR 8986)

Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 4990 INDEPENDENT STUDY IN INFORMATION ASSURANCE (1-3 credits)

The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. The class is designed for students that would like to explore specific Information Assurance topics at a greater depth, or topics which are not currently a part of the IA curriculum. The class is proposed and organized by the student, with participating faculty mentoring.

Prerequisite(s)/Corequisite(s): Instructor Permission
Design (DSGN)

DSGN 1010 INTRODUCTION TO DESIGN (2 credits)
Introduction to architecture, industrial design, interior design, landscape architecture and related design fields; the forces that shape these fields and the processes of production they rely upon.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture or permission.

DSGN 1100 DESIGN THINKING (3 credits)
Introduction to an approach to problems employing a user-focused, iterative, team-based process. Through experiential labs, lectures, workshops, and class discussions students practice design thinking to promote innovation in a wide variety of disciplines.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture or permission

DSGN 1110 DESIGN MAKING (4 credits)
Builds upon the skills acquired in Design Thinking by focusing on formal and spatial constructs. Integrates craft and compositional principles into the design process. Introduces multiple techniques for communicating ideas through physical and digital modeling, orthographic projection, freehand drawing, and other forms of graphic representation.
Prerequisite(s)/Corequisite(s): Acceptance into the College of Architecture or permission.

DSGN 1200 DESIGN DRAWING (3 credits)
Introduction to the fundamental practice and exploration of observational, projective and speculative drawing for design through a variety of media and drawing techniques.
Prerequisite(s)/Corequisite(s): Acceptance into the College of Architecture or permission.

DSGN 1230 COMPUTER APPLICATIONS IN DESIGN (3 credits)
Application of computer technology to the design disciplines. Enabling the effective use of computer technology to produce measured drawings and digital models to aid the investigation, visualization, and communication of design.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture or permission.

DSGN 1400 HISTORY OF DESIGN (3 credits)
Thematic exploration of the history and theory of design as it relates to political, economic, and societal shifts.
Prerequisite(s)/Corequisite(s): Admission to the College of Architecture or permission.

Economics (ECON)

ECON 1200 AN INTRODUCTION TO THE U.S. ECONOMY (3 credits)
An introduction to U.S. economy and an investigation of U.S. and international economic problems and policies.
Prerequisite(s)/Corequisite(s): Not available to students who have completed either ECON 2200 or 2220.
Distribution: Social Science General Education course

ECON 2000 SPECIAL TOPICS IN ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)
An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.
Prerequisite(s)/Corequisite(s): ENGL 1150 and MATH 1310 with 'C' (1.67) or better.
Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)
An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.
Prerequisite(s)/Corequisite(s): MATH 1310, ENGL 1150, and ECON 2200 with a 'C' (1.67) or better.
Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)
This course is designed to teach principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. In addition students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON2200 and/or ECON2220.
Prerequisite(s)/Corequisite(s): MATH1310, ENGL1150. Not open to non-degree graduate students.

ECON 3100 AGRICULTURAL ECONOMICS (3 credits)
Introduction to American agricultural structure and production with special emphasis on production methods and technology, farm supply industry, markets and marketing systems, domestic and foreign trade, government programs, farm organizations and financial institutions.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)
A comprehensive study of production, consumption and exchange in primary, secondary and tertiary economic activities as related to spatial factors. (Cross-listed with GEOG 3130).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200, and ECON 2220, each with a "C" (2.0) or better.

ECON 3150 LABOR ECONOMICS (3 credits)
The course examines labor supply issues including work-leisure decisions and cost-benefit decisions relative to education and training and labor demand issues including wage determination in competitive and monopsonistic labor markets and when union or labor market discrimination are present. Also, the course examines issues related to employment, unemployment, labor force participation and labor productivity.
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better.

ECON 3180 COLLECTIVE BARGAINING (3 credits)
The course studies the issues and procedures of collective bargaining in the private and public sectors. The history and organization of the American labor movement are examined, including the relevant legislation and court cases. Students participate in an in-class collective bargaining exercise.
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)
Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better.
ECON 3220 ECONOMIC THEORY: MACRO (3 credits)
The course teaches the theory and practice of how the domestic economy works, critically evaluates the economic policies of the federal government and the Federal Reserve that attempt to solve economic problems, discusses the economy in a global environment, and explains how new capital and technology enhance the ability of business management and labor to compete in the domestic and international markets.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3250 BUSINESS CONDITIONS ANALYSIS (3 credits)
The course is a study of business fluctuations in the national economy. The causes and measurement of cyclical fluctuations are examined. The relationship between the domestic economy and other major economies of the world is studied. Macroeconomic stabilization policies and economic forecasting are important topics in this course.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3260 EVOLUTION OF ECONOMIC THOUGHT (3 credits)
Tracing the evolution of economic thought from the medieval through the current period. Focus is on the interactions of institutional milieu, thought and economic doctrine.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)
An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)
This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better.

ECON 3350 COMPARATIVE ECONOMIC SYSTEMS (3 credits)
Analysis of the underlying concepts and characteristics of modern economic systems.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3550 PUBLIC FINANCE (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)
An introduction to analyses of international trade and international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3800 MANAGERIAL ECONOMICS (3 credits)
This course provides analytical tools and techniques to help managers find solutions to their day-to-day decision problems. It is concerned with the motivation of the firm and how decisions should be made. Among the topics that are covered are: optimization techniques, demand, production, costs, market structure, strategic behavior, pricing techniques and international issues.
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact the economics department for specific course offerings.

ECON 4150 HUMAN RESOURCES ECONOMICS (3 credits)
Employment statistics and forecasts; labor force composition and change; alternative labor market concepts; investment in human capital; government manpower programs; human resource planning within organizations.
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)
This course applies economic analysis to public policy issues in industrial economics. It is concerned with the strategic behavior of firms: the nature of interaction among competing firms within a game-theory framework. Among the topics covered are: discriminatory pricing, predatory conduct, product design, patent infringement, price wars, location decisions, and entry-deterrence. (Cross-listed with ECON 8216).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4260 HISTORY OF ECONOMIC THOUGHT (3 credits)
The first half of the course focuses on the development of economics from Adam Smith in 1776 to John Maynard Keynes in the 1930s. The second half uses the history sketched in the first half as a partial basis for addressing important questions about methodology, institutional structure and policy impact of economics. (Cross-listed with ECON 8266).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.
Prerequisite(s)/Corequisite(s): ECON 2200, ECON 2220, ECON 3200, and ECON 3220 or permission of the instructor. Not open to non-degree graduate students.

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. (Cross-listed with ECON 8306).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.
ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)
Energy, minerals, fisheries, water, land, pollution and congestion are among the topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors which determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)
The seminar discusses whether innovation is more driven by demand or supply forces, the optimal timing of adoption of new technology, whether new technology benefits workers and consumers, and whether government is successful at supporting promising new technology. (Cross-listed with ECON 8346).
Prerequisite(s)/Corequisite(s): MATH 1310 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4450 MONETARY THEORY AND POLICY (3 credits)
Monetary policy has an important effect on economic magnitudes, including the level of output, interest rates, inflation rates, exchange rates, and many other variables. This course provides an in-depth analysis of the role that the Federal Reserve plays in our economy. This involves how monetary policy is transmitted to various markets. (Cross-listed with ECON 8456).
Prerequisite(s)/Corequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)
Individual investigation of specific problems in the field of economics. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)
(maximum of 3 credits) Students engage in part time employment in their area of specialization to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required.
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; "C" (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4560 STATE AND LOCAL FINANCE (3 credits)
Theoretical and policy analysis of state and local government fiscal behavior. Revenues, expenditures, borrowing, and intergovernmental fiscal relations. Applications to education, transportation, and economic development. (Cross-listed with ECON 8566).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4610 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, alternative exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 8626).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
Problems relating to early stages of economic development; investment priorities, mobilizing savings and policies and programs are studied. (Cross-listed with ECON 8666).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4700 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted as a seminar with ample student participation, including a research paper. A 'New Economy' has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 8706, BSAD 8706).
Prerequisite(s)/Corequisite(s): Admission to the MBA program; or admission to the economics graduate program; or senior economics undergraduate or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4910 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with BSAD 8916, ECON 8916).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

Educational Professional Sequence (EDUC)

EDUC 2510 APPLIED SPECIAL EDUCATION (3 credits)
This course is designed to describe the characteristics and learning styles of students with various exceptional learning needs. This course is also intended to provide pre-service teachers with the knowledge base and many of the teaching strategies/techniques essential for modifying the learning environment and individualizing instruction for students with exceptional learning needs. This course will prepare pre-service teacher candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Undergraduate, EDUC 2010, EDUC 2030; GPA=2.75 or better; Co-requisites EDUC 2520 and EDUC 2524

EDUC 2514 INTERMEDIATE FIELD EXPERIENCES ORIENTATION (0 credits)
Orientation for intermediate field experiences.
Prerequisite(s)/Corequisite(s): EDUC 2010

EDUC 2520 PLANNING FOR EFFECTIVE TEACHING (3 credits)
The course provides an overview of effective teaching practices and includes curriculum design and appropriate instructional delivery strategies and assessment practices. Pedagogical incorporation of technology is included and field experiences outside of class time are required.
Prerequisite(s)/Corequisite(s): EDUC 2010; Co-requisites EDUC 2510 and EDUC 2524. Not open to non-degree graduate students.
EDUC 2524 INTERMEDIATE FIELD EXPERIENCES PRACTICUM (0 credits)
Co-requisite for EDUC 2510 and EDUC 2520
Prerequisite(s)/Corequisite(s): EDUC 2010

Electrical and Computer Engineering (ECEN)

ECEN 1030 COMPUTER AND ELECTRONICS ENGINEERING FUNDAMENTALS (4 credits)
Introduction to DC circuit analysis and digital logic. Topics include Ohm’s and Kirchhoff’s laws, mesh and nodal analysis, Boolean algebra, logic gates, minimization, counters and flip-flops. Uses of computer based resources for data analysis and report generation. Use of internet to locate and retrieve engineering resources.
Prerequisite(s)/Corequisite(s): MATH1950 (pre or coreq)

ECEN 1060 MICROPROCESSOR APPLICATIONS (3 credits)
Introduction to assembly language programming of microprocessors/microcontrollers, assemblers, and debugging tool utilization. Microprocessor system hardware components, control signals, and ‘C’ language micro-controller programming.
Prerequisite(s)/Corequisite(s): ECEN1030, CIST1400

ECEN 1210 INTRODUCTION TO ELECTRICAL ENGINEERING I (3 credits)
Introduction to basic electrical engineering concepts including energy, power systems, communications and signal processing.

ECEN 1220 INTRODUCTION TO ELECTRICAL ENGINEERING II (3 credits)
Introduction to several electrical engineering areas including digital, circuits, electromagnetics, materials and devices, and optics.

ECEN 1920 INDIVIDUAL STUDY IN COMPUTER AND ELECTRONICS ENGINEERING I (1-3 credits)
Individual study at the freshman level in a selected computer or electronics engineering area under the supervision and guidance of a computer and electronics engineering faculty member.
Prerequisite(s)/Corequisite(s): Departmentally approved proposal

ECEN 1940 SPECIAL TOPIC IN COMPUTER ELECTRONICS ENGINEERING I (1-4 credits)
Special topics in the emerging areas of computer and electronics engineering at the freshman level which may not be covered in the other courses in the computer and electronics engineering curriculum.
Prerequisite(s)/Corequisite(s): Freshman standing or permission.

ECEN 1980 SPECIAL TOPICS IN ELECTRICAL ENGINEERING I (1-6 credits)
Offered as the need arises to treat electrical engineering topics for first-year students not covered in other courses.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 2110 ELEMENTS OF ELECTRICAL ENGINEERING (3 credits)
Basic circuit analysis including direct and alternating currents and operational amplifiers. Digital signals and circuits. Not for electrical engineering majors.
Prerequisite(s)/Corequisite(s): MATH1960 and PHYS2110

ECEN 2130 ELECTRICAL CIRCUITS I (3 credits)
Electrical circuit theory, Kirchhoff’s and Ohm’s laws, circuit analysis theorems, Norton and Thevenin equivalence. The analysis of resistor circuits, with capacitors and inductors, in DC and AC steady state. Transients and variable frequency response are studied, including computer solutions to circuit problems.
Prerequisite(s)/Corequisite(s): ECEN 1030 and ECEN 2250. MATH 2350 prior to or concurrent.

ECEN 2140 ELECTRICAL CIRCUITS II (3 credits)
Introduction to the analysis of electrical circuits in sinusoidal steady states. The concepts of impedance, phasors, power, frequency response, resonance, magnetic circuits and two-part networks. Transform techniques for circuit analysis.
Prerequisite(s)/Corequisite(s): ECEN 2130 and ECEN 2184. Pre or Corequisite: MATH 2050.

ECEN 2150 ELECTRONICS AND CIRCUITS I (3 credits)
Introduction to electrical engineering circuit theory. Kirchhoff’s law and circuit analysis theorem applied to steady state DC resistive circuits. Analysis of transient RLC and sinusoidal steady-state circuits. Modern computer methods are employed.
Prerequisite(s)/Corequisite(s): Co-Req; MATH 1970

ECEN 2160 ELECTRONICS AND CIRCUITS II (3 credits)
Prerequisite(s)/Corequisite(s): ECEN 2150 with grade of C or higher. Coreq: MATH 2350.

ECEN 2170 ELECTRICAL CIRCUITS III (1 credit)
Analysis of first and second order RLC circuits using differential equations and Laplace transforms. Variable frequency network performance analysis. This course is for computer engineering majors only.
Prerequisite(s)/Corequisite(s): ECEN 2130. Not open to non-degree graduate students.

ECEN 2184 ELECTRICAL Ckt I LAB (1 credit)
The use of laboratory tools for measurement and verification of electrical concepts. Experiments using both passive and semiconductor devices at audio frequencies. Analysis verification with computer simulation.
Prerequisite(s)/Corequisite(s): Coreq: ECEN 2130.

ECEN 2200 INTRODUCTION TO EMBEDDED SYSTEMS (3 credits)
Basic hardware and software concepts of embedded microprocessor systems and interfacing with other hardware components. Simple circuits are designed and drivers to run these circuits are written. Design and build hardware and write drivers in assembly language.
Prerequisite(s)/Corequisite(s): ECEN 1220 or CSCI 3710, and CSCI 2240 or working knowledge of C programming. Not open to non-degree graduate students.

ECEN 2220 ELECTRONIC CIRCUITS I (4 credits)
Analysis and design of modern electronic circuits. Diode circuits, bipolar and field effect transistor switching and amplifier circuits, and operational amplifier circuits.
Prerequisite(s)/Corequisite(s): ECEN 2130 with grade of C or better, and ECEN 2184.

ECEN 2240 INTRODUCTION TO SIGNAL PROCESSING (4 credits)
This course demonstrates the use of mathematical and digital computation tools key to engineering applications. Auditory and visual senses are used in the presentation and study of sinusoidal signals, sampling, frequency response and filtering theory.
Prerequisite(s)/Corequisite(s): ECEN 1060, CIST 1400, MATH 1960.

ECEN 2250 COMPUTER AND ELECTRONICS ENGINEERING SEMINAR (1 credit)
This course provides an overview of computer electronics and telecommunication fields. There will be information on professional careers available upon graduation. Professionalism and ethics are addressed as well as the need for lifelong learning experiences.
Prerequisite(s)/Corequisite(s): ECEN 1030.

ECEN 2310 ELECTRICAL ENGINEERING LABORATORY (1 credit)
Laboratory accompanying ELEC 2110.
Prerequisite(s)/Corequisite(s): Coreq: ECEN 2110, not open to non-degree graduate students.
ECEN 2350 INTRODUCTORY ELECTRICAL LABORATORY I (1 credit)
Laboratory accompanying ELEC 2150.
Prerequisite(s)/Corequisite(s): Coreq: ECEN 2150.

ECEN 2360 INTRODUCTORY ELECTRICAL LABORATORY II (1 credit)
Laboratory accompanying ELEC 2160
Prerequisite(s)/Corequisite(s): ECEN 2350, Coreq: ECEN 2160.

ECEN 2920 IND STUDY IN CEEN II (1-3 credits)
Individual study at the sophomore level in a selected computer or electronics engineering area under the supervision and guidance of a computer and electronics engineering faculty member.
Prerequisite(s)/Corequisite(s): Sophomore and ECE departmentally approved proposal.

ECEN 2940 SPECIAL TOPICS IN COMPUTER AND ELECTRONICS ENGINEERING II (1-4 credits)
Special topics in the emerging areas of computer and electronics engineering at the sophomore level which may not be covered in the other courses in the computer and electronics engineering curriculum.
Prerequisite(s)/Corequisite(s): Sophomore standing or permission.

ECEN 3040 SIGNALS AND SYSTEMS I (3 credits)
Prerequisite(s)/Corequisite(s): ECEN 2140 or ECEN 2160 with a grade of C or better and MATH 2530.

ECEN 3050 PROBABILITY THEORY AND STATISTICS FOR ELECTRICAL AND COMPUTER ENGINEERS (3 credits)
Random experiment model, random variables, functions of random variables, and introduction to random processes; statistics and practical data analysis.
Prerequisite(s)/Corequisite(s): ECEN 2150 or ECEN 2130 with grade of C or better, PHYS 2120, MATH 1970, MATH 2350., not open to non-degree graduate students.

ECEN 3060 ELECTROMAGNETIC FIELD THEORY (3 credits)
Prerequisite(s)/Corequisite(s): ECEN 2150 or ECEN 2130 with grade of C or better, PHYS 2120, MATH 1970, MATH 2350., not open to non-degree graduate students.

ECEN 3070 ELECTRICAL ENGINEERING LABORATORY I (2 credits)
Laboratory work on circuits and systems, digital and analog electronic circuits, and electromagnetism.
Prerequisite(s)/Corequisite(s): ECEN 1060 or ECEN 2220; and ECEN 2220 or 2360 Coreq: ECEN 3130 or 3700; Admission to College of Engineering; not open to non-degree graduate students.

ECEN 3100 DIGITAL DESIGN AND INTERFACING (4 credits)
Digital design from both the circuit and system perspectives. Topics include the structure and analysis of digital integrated circuits, interface signal integrity, Field Programmable Gate Array (FPGA) design and synthesis, software simulation. Lab exercises provide hands-on experience with design tools and the design process.
Prerequisite(s)/Corequisite(s): ECEN 2220. Prereq or coreq: ECEN 3130.

ECEN 3130 SWITCHING CIRCUITS THEORY (4 credits)
Combination circuit analysis and design. State machine analysis and design. Includes synchronous/clock mode circuits and asynchronous sequential circuits. Minimization, race and hazard elimination are covered. Circuits are implemented in discrete logic and in CPLD/FPGA devices. VHDL hardware description language is used to describe circuits. Circuits are implemented in discrete logic and in CPLD/FPGA devices.
Prerequisite(s)/Corequisite(s): ECEN 1060.

ECEN 3160 ELECTRONICS AND CIRCUITS III (3 credits)
Kirchhoff's laws and circuit analysis theorems applied to steady state transistor circuits. Frequency response of filters and amplifiers. Basic power amplifier types. Advanced operational amplifier circuits. Introduction to the fundamentals of semiconductor theory and their application to p-n junction and field devices.
Prerequisite(s)/Corequisite(s): ECEN 2160 with grade of C or better.

ECEN 3170 ELECTRICAL ENGINEERING LABORATORY II (2 credits)
Lab work on electromagnetic fields and waves, solid state devices, discrete systems, control systems, and communications.
Prerequisite(s)/Corequisite(s): ECEN 3040, ECEN 3070 Coreq: ECEN 3060, ECEN 3160, not open to non-degree graduate students.

ECEN 3250 COMMUNICATIONS SYSTEMS (4 credits)
Relevant communication systems; principles of transmission and reception; amplitude; frequency and phase modulation. Sampling theorem, pulse-code modulation and delta modulation.
Prerequisite(s)/Corequisite(s): ECEN 2220; STAT 3800.

ECEN 3280 APPLIED FIELDS AND LINES I (3 credits)
Prerequisite(s)/Corequisite(s): MATH1970 and MATH2350

ECEN 3290 APPLIED FIELDS AND LINES II (3 credits)
Metallic waveguides with rectangular, circular and coaxial cross section, antennas, free space, propagation in free space, applications.
Prerequisite(s)/Corequisite(s): ECEN 3280.

ECEN 3320 ASSEMBLY LANGUAGE PROGRAMMING (1 credit)
Introduction to the architecture and assembly language programming of 80 x 86 microprocessors, Assemblers and debugging tool utilization.
Prerequisite(s)/Corequisite(s): ECEN 1060.

ECEN 3330 INTRODUCTION TO POWER AND ENERGY SYSTEMS (3 credits)
Energy sources, environmental impacts, power systems principles, three phase circuits, transmission lines, transformers, per unit analysis, generators, loads, and power system modeling.
Prerequisite(s)/Corequisite(s): ECEN 2160 or ECEN 2140 with grade of C or better. Not open to non-degree graduate students.

ECEN 3340 MOBILE ROBOTICS I (4 credits)
Introduction to the primary issues spanning the field of mobile robotics, including robotics history, robot components (sensors, actuators), robot system design considerations, low-level control (feedback control) and robotics control architectures. The lab focuses on the practical implementation of autonomous robot control on a real mobile robot using behavior-based methods in the C language.
Prerequisite(s)/Corequisite(s): ECEN 1060, ECEN 2130.

ECEN 3350 ELECTRICAL ENGINEERING INTERNSHIP OR COOPERATIVE EDUCATION (1-3 credits)
Approval of faculty sponsor prior to the internship or Co-op is required. For Internships or Cooperatives primarily technical in nature lasting 4.5 months or greater. Weekly communication and/or final report required. Must be taken during or after the semester in which the Internship/Co-op occurs.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 3352 ELECTRONIC CIRCUITS II (4 credits)
Operational amplifier circuit design and analysis with emphasis on feedback and stability. Design and analysis of large signal power amplifiers. Other integrated devices such as regulators, comparators, Schmitt triggers, oscillators and active filters.
Prerequisite(s)/Corequisite(s): ECEN 2220
ECEN 3550 SIGNALS AND LINEAR SYSTEMS (3 credits)
Continuous and discrete time representations of signals. System modeling and analysis using differential and difference equations. Fourier, Laplace and z transforms. State description of continuous and discrete time transfer functions. The primary mathematical tools used in the analysis of continuous and discrete time systems.
Prerequisite(s)/Corequisite(s): ECEN 2140; Pre or Coreq.: STAT 3800.

ECEN 3610 ADVANCED ELECTRONICS AND CIRCUITS (3 credits)
Analog and digital electronics for discrete and integrated circuits. Multistage amplifiers, frequency response, feedback amplifiers, simple filters and amplifiers MOS and bipolar logic gates and families A/D and D/A converters.
Prerequisite(s)/Corequisite(s): ECEN 3160; not open to non-degree graduate students.

ECEN 3620 DATA AND TELECOMMUNICATIONS TRANSCEIVERS (4 credits)
Noise and signal distortions in communication systems, impedance matching techniques, high frequency measurement techniques, design of high frequency amplifiers and oscillators, PLL and frequency synthesizers, data synchronization and multiplexing techniques, Antennas and their arrays.
Prerequisite(s)/Corequisite(s): ECEN 3520; Pre or Coreq.: ECEN 3250, ECEN 3280

ECEN 3700 DIGITAL LOGIC DESIGN (3 credits)
Combinational and sequential logic circuits. MSI chips, programmable logic devices (PAL, ROM, PLA) used to design combinational and sequential circuits. CAD tools. LSI and PLD components and their use. Hardware design experience.
Prerequisite(s)/Corequisite(s): ECEN 1210, not open to non-degree graduate students.

ECEN 3920 INDIVID STUDY IN CEEN III (1-3 credits)
Individual study at the junior level in a selected computer or electronics engineering area under the supervision and guidance of a computer and electronics engineering faculty member.
Prerequisite(s)/Corequisite(s): Junior and ECE departmentally approved proposal

ECEN 3940 SPECIAL TOPICS IN COMPUTER AND ELECTRONICS ENGINEERING III (1-4 credits)
Special topics in the emerging areas of computer and electronics engineering at the junior level which may not be covered in the other courses in the computer and electronics engineering curriculum.
Prerequisite(s)/Corequisite(s): Junior standing or permission.

ECEN 3980 SPECIAL TOPICS ELECTRICAL ENGINEERING III (1-6 credits)
Offered as the need arises to treat electrical engineering topics for third-year students not covered in other courses.
Prerequisite(s)/Corequisite(s): Permission. Not open to nondegree students.

ECEN 3990 UNDERGRADUATE RESEARCH (1-3 credits)
Research accompanied by a written report.
Prerequisite(s)/Corequisite(s): Electrical engineering seniors or permission, not open to non-degree graduate students

ECEN 4000 ELECTRONIC INSTRUMENTATION (3 credits)
Applications of analog and digital devices to electronic instrumentation. Includes transducers, instrumentation amplifiers, mechanical and solid state switches, data acquisition systems, phase-lock loops, and modulation techniques. Demonstrations with working circuits and systems. (Cross-listed with ECEN 8006)
Prerequisite(s)/Corequisite(s): Senior Standing in Engineering or Permission. Not open to non-degree graduate students.

ECEN 4060 POWER SYSTEMS ANALYSIS (3 credits)
Symmetrical components and fault calculations, power system stability, generator modeling (circuit view point), voltage control system, high voltage DC transmission, and system protection. (Cross-listed with ECEN 8066)
Prerequisite(s)/Corequisite(s): ECEN 3380, not open to non-degree graduate students.

ECEN 4070 POWER SYSTEMS PLANNING (3 credits)
Economic evaluation, load forecasting, generation planning, transmission planning, production simulation, power plant reliability characteristics, and generation system reliability. (Cross-listed with ECEN 8076)
Prerequisite(s)/Corequisite(s): ECEN 3050, not open to non-degree graduate students.

ECEN 4080 ENGINEERING ELECTROMAGNETICS (3 credits)
Applied electromagnets: Transmission lines in digital electronics and communication. The quasistatic electric and magnetic fields; electric and magnetic circuits and electromechanical energy conversion. Guided waves; rectangular and cylindrical metallic waveguides and optical filters. Radiation and antennas; line and aperture antennas and arrays. (Cross-listed with ECEN 8086)
Prerequisite(s)/Corequisite(s): ECEN 3060, not open to non-degree graduate students.

ECEN 4100 MULTIVARIATE RANDOM PROCESSES (3 credits)
Probability space, random vectors, multivariate distributions, moment generating functions, conditional expectations, discrete and continuous-time random processes, random process characterization and representation, linear systems with random inputs. (Cross-listed with ELEC 8106)
Prerequisite(s)/Corequisite(s): ECEN 3050. Not open to non-degree graduate students.

ECEN 4160 MATERIALS AND DEVICES FOR COMPUTER MEMORY, LOGIC, AND DISPLAY (3 credits)
Survey of fundamentals and application of devices used for memory, logic, and display. Magnetic, superconductive, semi-conductive, and dielectric materials. (Cross-listed with ECEN 8166)
Prerequisite(s)/Corequisite(s): PHYS 2120, not open to non-degree graduate students.

ECEN 4170 SEMICONDUCTOR FUNDAMENTALS II (3 credits)
Analysis of BJTs and MOSFETs from a first principle materials viewpoint. Statics and dynamic analysis and characterization. Device fabrication processes. (Cross-listed with ECEN 8176)
Prerequisite(s)/Corequisite(s): ECEN 4210 or ECEN 8216. Not open to non-degree graduate students.

ECEN 4200 PLASMA PROCESSING OF SEMICONDUCTORS (3 credits)
Physics of plasmas and gas discharges developed. Includes basic collisional theory, the Boltzman equation and the concept of electron energy distribution. Results are related to specific gas discharge systems used in semiconductor processing, such as sputtering, etching, and deposition systems. (Cross-listed with ECEN 8206)
Prerequisite(s)/Corequisite(s): Senior or graduate standing. Not open to non-degree graduate students.

ECEN 4210 PRINCIPLES OF SEMICONDUCTOR MATERIALS AND DEVICES I (3 credits)
Introduction to semiconductor fundamentals, charge carrier concentration and carrier transport, energy bands, and recombination. PN junction, static and dynamic, and special PN junction diode devices. (Cross-listed with ECEN 8216)
Prerequisite(s)/Corequisite(s): PHYS 2130. Not open to non-degree graduate students.

ECEN 4240 DIGITAL SIGNAL PROCESSING (3 credits)
The temporal and spectral analysis of digital signals and systems, the design of digital filters and systems, and advanced systems including multi-rate digital signal processing techniques. (Cross-listed with ECEN8246)
Prerequisite(s)/Corequisite(s): ECEN 3550
ECEN 4280 POWER ELECTRONICS (3 credits)
Basic analysis and design of solid-state power electronic devices and converter circuitry. (Cross-listed with ECEN 8286)
Prerequisite(s)/Corequisite(s): ECEN 3040, ECEN 3160.

ECEN 4300 WIND ENERGY (3 credits)
This broad multidisciplinary course will combine engineering principles of both the mechanical/aerodynamical and electrical components and systems, along with economic and environmental considerations for siting and public policy, to appropriately cover the relevant topics associated with all scales of wind energy implementations. (Cross-listed with ECEN 8306)
Prerequisite(s)/Corequisite(s): Senior standing or permission.

ECEN 4330 MICROPROCESSOR SYSTEM DESIGN (4 credits)
Microprocessor based systems. Architecture; design and interfacing. Memory design, input/output ports, serial communications, and interrupts. Generating assembly ROM code, assembly/C firmware generation, and designing device drivers. (Cross-listed with ECEN 8336)
Prerequisite(s)/Corequisite(s): ECEN 3100 with grade of C or better and ECEN 3320 with grade of C or better.

ECEN 4350 EMBEDDED MICROCONTROLLER DESIGN (4 credits)
Microcontroller architecture: design, programming, and interfacing for embedded systems. Timing issues, memory interfaces, serial and parallel interfacing, and functions for common microcontrollers. (Cross-listed with ECEN 8356)
Prerequisite(s)/Corequisite(s): ECEN 4330/8336 with grade of C or better, STAT 3800.

ECEN 4360 ELECTRIC MACHINES (3 credits)
Provides a solid background in electric machine analysis, covering fundamental concepts, techniques, and methods for analysis and design. Discussion of transformers and presentation of some new systems and applications. (Cross-listed with ECEN 8366)
Prerequisite(s)/Corequisite(s): PHYS 2120 and ECEN 2160

ECEN 4370 PARALLEL AND DISTRIBUTED PROCESS (3 credits)
Parallel and Distributed Processing concepts, principles, techniques and machines. (Cross-listed with ECEN 8376)
Prerequisite(s)/Corequisite(s): ECEN 4350 or ECEN 8356

ECEN 4420 BASIC ANALYTICAL TECHNIQUES IN ELECTRICAL ENGINEERING (3 credits)
Applications of partial differential equations, matrices, vector analysis, complex variables, and infinite series to problems in electrical engineering. (Cross-listed with ECEN 8426)
Prerequisite(s)/Corequisite(s): MATH 2350. Not open to non-degree graduate students.

ECEN 4440 LINEAR CONTROL SYSTEMS (3 credits)
Classical (transfer function) and modern (state variable) control techniques. Both time domain and frequency domain techniques are studied. Traditional, lead, lag, and PID compensators are examined, as well as state variable feedback. (Cross-listed with ECEN 8446)
Prerequisite(s)/Corequisite(s): ECEN 3040. Not open to non-degree graduate students.

ECEN 4480 DECISION ANALYSIS (3 credits)
Principles of engineering economy including time value of money, net present value, and internal rate of return. Use of influence diagram and decision tree to structure and analyze decision situations under uncertainty including use of stochastic dominance, value of information, and utility theory. Fundamentals of two-person matrix games including Nash equilibrium. (Cross-listed with ECEN 8486)
Prerequisite(s)/Corequisite(s): ECEN 3050 or STAT 3800.

ECEN 4500 BIOINFORMATICS (3 credits)
This course examines how information is organized in biological sequences such as DNA and proteins and will look at computational techniques which make use of this structure. During this class various biochemical processes that involve these sequences are studied to understand how these processes effect the structure of these sequences. In the process bioinformatics algorithms, tools, and techniques which are used to explore genomic and amino acid sequences are also introduced. (Cross-listed with ECEN 8506)
Prerequisite(s)/Corequisite(s): Computer programming language and ECEN 3050 or STAT 3800 or equivalent.

ECEN 4510 INTRODUCTION TO VLSI SYSTEM DESIGN (3 credits)
The concepts, principles, and methodology at all levels of digital VLSI system design and focused on gate-level VLSI implementation. (Cross-listed with ECEN 8516).
Prerequisite(s)/Corequisite(s): ECEN 3100

ECEN 4520 INTRODUCTION TO COMPUTER-AIDED DIGITAL DESIGN (3 credits)
The concepts, simulation techniques and methodology in computer-aided digital design at system and logic levels. (Cross-listed with ECEN 8526)
Prerequisite(s)/Corequisite(s): ECEN 3100

ECEN 4540 POWER SYSTEMS OPERATION AND CONTROL (3 credits)
Characteristics and generating units. Control of generation, economic dispatch, transmission losses, unit commitment, generation with limited supply, hydrothermal coordination, and interchange evaluation and power pool. (Cross-listed with ECEN 8546)
Prerequisite(s)/Corequisite(s): ECEN 3380 or ECEN 8385. Not open to non-degree graduate students.

ECEN 4600 LABVIEW PROGRAMMING (3 credits)
Labview as a programming language and for applications to acquire data, to access the network, control lab instruments, and for video and sound applications. (Cross-listed with ECEN 8606)
Prerequisite(s)/Corequisite(s): Prior programming experience.

ECEN 4610 DIGITAL COMMUNICATIONS MEDIA (4 credits)
Topics related to the transport of bit streams from one geographical location to another over various physical media such as wire pairs, coaxial cable, optical fiber, and radio waves. Transmission characteristics, media interfacing, delay, distortion, noise, and error detection and correction techniques. (Cross-listed with ECEN 8616)
Prerequisite(s)/Corequisite(s): ECEN 3250 or ECEN 4620

ECEN 4620 COMMUNICATION SYSTEMS (3 credits)
Mathematical descriptions of signals in communication systems. Principles of analog modulation and demodulation. Performance analysis of analog communication systems in the presence of noise. (Cross-listed with ECEN 8626)
Prerequisite(s)/Corequisite(s): ECEN 3040 and ECEN 3050. Not open to non-degree graduate students.

ECEN 4630 DIGITAL SIGNAL PROCESSING (3 credits)
Discrete system analysis using Z-transforms. Analysis and design of digital filters. Discrete Fourier transforms. (Cross-listed with ECEN 8636)
Prerequisite(s)/Corequisite(s): ECEN 3040. Not open to non-degree graduate students.

ECEN 4640 DIGITAL COMMUNICATION SYSTEMS (3 credits)
Principles of digital transmission of information in the presence of noise. Design and analysis of baseband PAM transmission systems and various carrier systems including ASK, FSK, PSK. (Cross-listed with ECEN 8646)
Prerequisite(s)/Corequisite(s): ECEN 4620. Not open to non-degree graduate students.

ECEN 4650 INTRODUCTION TO DATA COMPRESSION (3 credits)
Introduction to the concepts of Information Theory and Redundancy removal. Simulation of various data compression schemes such as Delta Modulation, Differential Pulse Code Modulation, Transform Coding and Runlength Coding. (Cross-listed with ECEN 8656)
Prerequisite(s)/Corequisite(s): ECEN 3050. Not open to non-degree graduate students.
ECEN 4660 TELECOMMUNICATION ENGINEERING I (4 credits)
Standard telecommunications protocols, architecture of long distance integrated data networks, local area networks, wide area networks, radio and satellite networks. Network management, internetworking, system modeling and performance analysis. (Cross-listed with ECEN 8666)
Prerequisite(s)/Corequisite(s): ECEN 3620; ECEN 4610/8616 prior to or concurrent.

ECEN 4670 ELECTROMAGNETIC THEORY AND APPLICATION (3 credits)
Engineering application of Maxwell's equations. Fundamental Parameters of Antennas, Radiation analysis, and synthesis of antenna arrays. Aperture Antennas. (Cross-listed with ECEN 8676)
Prerequisite(s)/Corequisite(s): ECEN 3060. Not open to non-degree graduate students.

ECEN 4680 MICROWAVE ENGINEERING (3 credits)
Applications of active and passive devices to microwave systems. Includes impedance matching, resonators, and microwave antennas. (Cross-listed with ECEN 8686)
Prerequisite(s)/Corequisite(s): ECEN 3060. Not open to non-degree graduate students.

ECEN 4690 ANALOG INTEGRATED CIRCUITS (3 credits)
Analysis and design of analog integrated circuits both bipolar and MOS. Basic circuit elements such as differential pairs, current sources, active loads, output drivers used in the design of more complex analog integrated circuits. (Cross-listed with ECEN 8696)
Prerequisite(s)/Corequisite(s): ECEN 3610. Not open to non-degree graduate students.

ECEN 4700 DIGITAL AND ANALOG VLSI DESIGN (3 credits)
Introduction to VLSI design techniques for analog and digital circuits. Fabrication technology and device modeling. Design rules for integrated circuit layout. LSI design options with emphasis on the standard cell approach of digital and analog circuits. Lab experiments, computer simulation and layout exercises. (Cross-listed with ECEN 8706)
Prerequisite(s)/Corequisite(s): ECEN 3610. Not open to non-degree graduate students.

ECEN 4710 COMPUTER COMMUNICATION NETWORKS (4 credits)
This course investigates the standard protocols and hardware solutions defined by the International Standard Organization (ISO) and Institute of Electrical and Electronics Engineers (IEEE) for the computer communications networks. Included are ISO OSI model, IEEE 802.X (Ethernet, token bus, token ring) and Asynchronous Transfer Modals (ATM) networks. (Cross-listed with ECEN 8716)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 4730 MOBILE AND PERSONAL COMMUNICATIONS (4 credits)
This course provides basic concepts on mobile and personal communications. Concepts on mobile and personal communications. Modulation techniques for mobile radio, equalization, diversity, channel coding, and speech coding. (Cross-listed with ECEN 8736)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 4740 DIGITAL SYSTEMS (3 credits)
Synthesis using state machines; design of digital systems; micro programming in small controller design; hardware description language for design and timing analysis. (Cross-listed with ECEN 8746)
Prerequisite(s)/Corequisite(s): ECEN 3700. Not open to non-degree graduate students.

ECEN 4750 SATELLITE COMMUNICATIONS (4 credits)
The fundamental concepts of satellite communications. Orbits, launching satellites, modulation and multiplexing, multiple access, earth stations, coding, interference and special problems in satellite communications. (Cross-listed with ECEN 8756)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 4760 WIRELESS COMMUNICATIONS (3 credits)
The fundamental concepts of wireless communications. Basic communications concepts such as multiple access, and spectrum. Propagation, radio, standards, and internetworking. Current issues in wireless communications. (Cross-listed with ECEN 8766)

ECEN 4770 DIGITAL SYSTEMS ORGANIZATION AND DESIGN (3 credits)
Hardware development languages, hardware organization and realization, microprogramming, interrupt, intersystem communication, and peripheral interfacing. (Cross-listed with ECEN 8776)
Prerequisite(s)/Corequisite(s): ECEN 4740 or ECEN 8746. Not open to non-degree graduate students.

ECEN 4790 OPTICAL FIBER COMMUNICATIONS (4 credits)
Fundamentals of lightwave communication in optical fiber waveguides, physical description of fiber optic systems. Properties of the optical fiber and fiber components. Electro-optic devices: light sources and modulators, detectors and amplifiers; optical transmitter and receiver systems. Fiber optic link design and specification; fiber optic networks. (Cross-listed with ECEN 8796)
Prerequisite(s)/Corequisite(s): ECEN 4630.

ECEN 4800 INTRODUCTION TO LASERS AND LASER APPLICATIONS (3 credits)
Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering. (Cross-listed with ECEN 8806)
Prerequisite(s)/Corequisite(s): PHYS 2130

ECEN 4820 ANTENNAS AND RADIO PROPAGATION FOR WIRELESS COMMUNICATIONS (4 credits)
Fundamental theory of antennas and radio propagation for wireless communications. Basic antenna characteristics and various antennas and antenna arrays. Basic propagation mechanisms and various channel models, such as Friis free space model, Hata model, lognormal distribution, and multipath model. Includes practical antenna design for high radio frequency (RF) with modeling software tools such as Numerical Electromagnetic Code (NEC) and Advanced Design System (ADS). Design projects will be assigned as the main part of course. (Cross-listed with ECEN 8826)
Prerequisite(s)/Corequisite(s): ECEN 3280

ECEN 4840 NETWORK SECURITY (4 credits)
Network security and cryptographic protocols. Classical encryption techniques, block ciphers and stream ciphers, public-key cryptography, authentications digital signatures, key management and distributions, network vulnerabilities, transport-level security, IP security. (Cross-listed with ECEN 8846)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 4860 APPLIED PHOTONICS (3 credits)
Introduction to the use of electromagnetic radiation for performing optical measurements in engineering applications. Basic electromagnetic theory and light interaction with matter are covered with corresponding laboratory experiments conducted. (Cross-listed with ECEN 8866)
Prerequisite(s)/Corequisite(s): ECEN 3060 or permission. Not open to non-degree graduate students.

ECEN 4880 WIRELESS SECURITY (4 credits)
A comprehensive overview on the recent advances in wireless network and system security. Covers security issues and solutions in emerging wireless access networks and systems as well as multihop wireless networks. (Cross-listed with ECEN 8886)
Prerequisite(s)/Corequisite(s): ECEN 3250
ECEN 4910 SPECIAL TOPICS IN COMPUTER AND ELECTRONICS ENGINEERING IV (1-4 credits)
Special topics in the emerging areas of computer and electronics engineering at the upper level which may not be covered in the other courses in the computer and electronics engineering curriculum. (Cross-listed with ELEC 8916)
Prerequisite(s)/Corequisite(s): Senior standing

ECEN 4920 INDIVIDUAL STUDY IN COMPUTER AND ELECTRONICS ENGINEERING IV (1-3 credits)
Individual study at the senior level in a selected computer or electronics engineering area under the supervision and guidance of a Computer and Electronics Engineering faculty member. (Cross-listed with ELEC 8926).
Prerequisite(s)/Corequisite(s): Senior or graduate standing and departmentally approved proposal.

ECEN 4940 CAPSTONE I (2 credits)
A substantial design project that allows application of electrical engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals. (The first in a two semester capstone senior design course sequence.)
Prerequisite(s)/Corequisite(s): ECEN 3170 or ECEN 2220 and ECEN 3040 and ECEN 3060 and ECEN 3130; ENGL 3980 or permission; Admission to College of Engineering. Not open to non-degree students.

ECEN 4950 CAPSTONE II (3 credits)
The second in a two semester senior design course sequence. Continuation of a substantial design project that allows application of electrical engineering skills to multidisciplinary project. A project that meets specifications and that is completed according to a predetermined schedule and within budget. Requires effective written and oral communication at technical ideas, incorporation of realistic constraints, engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals.
Prerequisite(s)/Corequisite(s): ECEN 4940 or permission. Not open to non-degree students.

ECEN 4960 CAPSTONE I (2 credits)
Preliminary investigation into topics for the Senior Thesis course. Defining deliverables, scheduling, interdisciplinary team design. For Computer and Electronics Engineering students.
Prerequisite(s)/Corequisite(s): ECEN 3130 with grade of C or better, ENGL 3980, and ECEN 4350/8356 or pre-coreq of ECEN 4660/8666.

ECEN 4980 SPECIAL TOPICS IN ELECTRICAL ENGINEERING IV (1-6 credits)
Offered as the need arises to treat electrical engineering topics for fourth-year and graduate students not covered in other courses. (Cross-listed with ELEC 8980)
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 4990 CAPSTONE II (3 credits)
Requires the completion of a design project that demonstrates the ability to combine knowledge from individual courses in the program to complete a design task. The capstone design course for the B.S. in computer engineering, electrical engineering and electronics engineering.
Prerequisite(s)/Corequisite(s): ECEN 4960. Not open to non-degree graduate students.
EMGT 2050 POLITICAL AND LEGAL FOUNDATIONS IN EMERGENCY SERVICES (3 credits)
The provision of Emergency Services in contemporary society occurs within an environment of legal requirements and community resource allocation that often requires difficult administrative and political decisions. Successful professionals who control, manage, and operate these services must understand and adhere to the demand and intent of the law. Also, they must master the practical art of politics related to the various community constituents and shareholders who fund and support them, staff them, and utilize them. This course examines the legal aspects and social consequences of emergency management provision. Environmental issues and Occupational Health and Safety policy and programs affecting emergency services are also examined. 
Prerequisite(s)/Corequisite(s): EMGT 1000 or taken concurrently with EMGT 1000.

EMGT 2060 FOUNDATIONAL INDIAN LAW & POLICY ISSUES (3 credits)
This course provides an examination of the federal and tribal legal cases and policies that affect the delivery of critical services on tribal lands. The course will also examine how such case law and resulting policy affects current U.S./Tribal/State relationship, specifically in the area of sovereignty and regulatory jurisdiction of emergency management principles. The student will gain an understanding of the legal obligations of Tribal Government and the emergency manager with regard to disaster response within the legal context of tribal law and policy.
Prerequisite(s)/Corequisite(s): EMGT 1150 (can be taken currently with EMGT 1150 with instructor approval).

EMGT 2500 DISASTERS AND VULNERABLE POPULATIONS (3 credits)
This course is an introduction to the sociological examination of disasters. In the course students will learn about vulnerability in terms of social, economic, political, geographical and cultural factors. Students will investigate how vulnerable groups such as children, elderly, racial and ethnic minorities, and low income, are affected and cope before, during and after hazardous events. Other topics covered include: disaster warning responses, evacuation behavior, survival behavior, roles of volunteers, and disaster impacts.
Distribution: U.S. Diversity General Education course and Social Science General Education course

EMGT 3020 FEDERAL/TRIBAL GOVERNMENT TO GOVERNMENT RELATIONS (3 credits)
This course will introduce the Federal/Tribal government to government relationship that has evolved through U.S. Supreme Court case law; federal Indian policy; and through the Indian Self Determination and Education Assistance Act of 1975. Specifically, this course will focus on overcoming the challenges of implementing Emergency Management principles between the U. S. and Tribal governments by understanding how the government to government relationship works.
Prerequisite(s)/Corequisite(s): EMGT 1150; (can be taken currently with EMGT 1150 with instructor approval).

EMGT 3040 PREPAREDNESS/PLANNING AND RISK MITIGATION (3 credits)
Provision of emergency and management of emergency services is dependent on extensive planning and preparedness. This process aids in the reduction of loss of property and life in extreme circumstances, even when confronted with a variety of environmental and politically motivated risks. An open society, which becomes ever more highly technological, demonstrates new sources of stress, complicated threats, and complex inter-relationships. Together, these factors present a significant challenge to those tasked with preventing and managing emergencies and disasters. This course provides a theoretical framework for the understanding of the ethical, sociological, organizational, political, and legal components of community risk analysis and mitigation, and a methodology for the development of comprehensive community risk preparedness planning.
Prerequisite(s)/Corequisite(s): EMGT 2020, EMGT 2050, PA 3000 / CRCJ 3000 or concurrent.

EMGT 3080 INTRA- AND NON-GOVERNMENTAL ORGANIZATION AND COOPERATION IN EMERGENCY MANAGEMENT (3 credits)
Federal, state, and local agency cooperation and interoperability in the provision of emergency management will be studied in this course. Federal, state, and local government authority and roles will be explored in concert with collaborative management programs. The origins of collaborative partnerships will be presented along with introduction of the Emergency Management Assistance Compact, development of volunteer networks, and formation of partnerships with the Citizen Corps, Community emergency Response Teams, the Medical Reserve Corps and Mercy Medical Airlift, and other groups that have the potential to contribute to the emergency management and response effort.
Prerequisite(s)/Corequisite(s): EMGT 2020, EMGT 2050, PA 3000 / CRCJ 3000 or concurrent.

EMGT 4020 PROTECTING AND SUSTAINING TRIBAL ECONOMIES (3 credits)
This course provides an understanding of unique tribal economies and how they operate under tribal law, constitutions and federal legislation, as well as an appreciation of how vulnerable tribal economies are to man-made and natural disasters. This course will also introduce Emergency Management principles and practices designed to assist tribal governments in protecting and sustaining their economies during crisis events.
Prerequisite(s)/Corequisite(s): EMGT 1150 Introduction to Tribal Management and Emergency Services

EMGT 4050 INTEGRATION OF CONTEMPORARY ISSUES IN TRIBAL EMERGENCY MANAGEMENT (3 credits)
This course covers application and integration of Tribal Management and Emergency Service (TMES) principles and practices, as well as contemporary issues affecting Tribal nations and their citizens; recent federal/tribal TMES legislation and case law; Federal/Tribal agency collaborative efforts; TMES Tribal Code development and implementation; and TMES funding resources such as PL 93-638 Contracts, grants and tribal taxation.
Prerequisite(s)/Corequisite(s): EMGT 1150

EMGT 4060 DISASTER RESPONSE AND RECOVERY (3 credits)
This course examines concepts and principles of: 1) community risk assessment, 2) disaster recovery planning, 3) responses specific to fires and natural and man-made disasters, 3) National Incident Management System and the Incident Command System (NIMS ICS), 4) mutual aid and automatic response, 5) training and preparedness, 6) communications, 7) civil disturbances, 8) terrorist threats/incidents, 9) hazardous materials planning, 10) mass casualty incidents, 11) earthquake preparedness, and 12) disaster mitigation and recovery.
Prerequisite(s)/Corequisite(s): EMGT 3040 (May be taken concurrently) or by instructor’s permission

EMGT 4200 INTERNSHIP IN EMERGENCY MANAGEMENT (3 credits)
This course is designed to provide direct work experience in the emergency management field for selected students. This experience will be in a full-time or part-time, preferably paid position, in a highly structured environment. Student will be selected following formal job placement procedures and screening by Emergency Management Faculty and the participating organization. This course is intended for upper level, Emergency Management majors who have been selected following an application and interview process approved by both the School of Public Administration and the intern provider.
Prerequisite(s)/Corequisite(s): PA 3000 / CRCJ 3000; EMGT 3040, EMGT 3080, EMGT 4060; Instructor’s Permission Required.
EMGT 4800 SPECIAL READING IN EMERGENCY MANAGEMENT (3 credits)
This course is intended for upper-level Emergency Management degree students who are pursuing advanced specialized areas of knowledge in Emergency Management. The course is conducted under an independent study format, and subject matter will vary based on the interests of the student. Learning outcome objectives will be established by the instructor and shall remain consistent with Emergency Management curriculum goals. Faculty approval is required prior to registration.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree or non-degree graduate students. Students will need faculty approval.

EMGT 4900 SPECIAL TOPICS IN EMERGENCY MANAGEMENT (3 credits)
This course is meant to provide upper-level EMGT students with an in-depth look at current and future issues affecting the Emergency Management industry and industry professionals. Possible topics include disaster case studies, comparative international studies, issues in federalism, and Continuity of Operations (COOP). Subject matter will vary by student interest and by faculty preference. Students may repeat the course for additional academic credit as long as the course topic is not duplicated.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree or non-degree graduate students. Students will need faculty approval.

EMGT 4990 CAPSTONE PROJECT IN EMERGENCY MANAGEMENT (3 credits)
This course fulfills the Emergency Management Capstone senior project demonstrating expertise on a specific issue area and/or problem in emergency management. The student will be required to construct and execute a research project analyzing a contemporary operational, economic, or managerial issue within emergency management utilizing an appropriate research or analytical methodology. Both a written report and PowerPoint presentation will be presented as part of the course requirements.
Prerequisite(s)/Corequisite(s): PA 3000 / CRCJ 3000; EMGT 3040, EMGT 3080, EMGT 4060; Instructor’s Permission Required.

Engineering (ENGR)

ENGR 1000 INTERPERSONAL SKILLS FOR ENGINEERING LEADERS (3 credits)
Establishes a foundation in communication and leadership skills that is needed for engineering students to be successful in their academic endeavors and future career opportunities. Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ENGR 1010 INTRODUCTION TO ENGINEERING (3 credits)
Students will examine relevant and practical industrial and commercial engineering applications to gain necessary engineering skills that will help them succeed as a student as well as a professional engineer. A variety of engineering disciplines will be highlighted and discussed, as well as topics in the underlying physical, chemical, and biological scientific principles and processes related to each topic. The class will use a specified focus area that involves real world applications to aid in the conceptualization and learning of the course material. Students will develop engineering problem solving skills; gain expertise and experience using modern engineering and computational tools; and emulate an engineering team atmosphere - each of which can be applied to a profession engineering environment.

ENGR 1910 FRESHMAN ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 2000 PROFESSIONALISM & GLOBAL PERSPECTIVE (3 credits)
Enhance essential professional skills for personal and team success through investigating issues in a global context. Explore in-demand professional aptitudes (self-awareness, emotional intelligence, teamwork, communication, and workplace interaction expectations). Through industry/community interaction, explore cultural and business norms and the application of broader perspectives to identify issues/solutions responsive and adaptive to their global context.

ENGR 2500 ENGINEERING COOPERATIVE EDUC (1-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Sophomore standing; permission of College of Engineering Dean’s Office and department chair of student’s engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 2910 SOPHOMORE ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 3000 CREATIVITY & WRITNG FOR ENGNRS (3 credits)
Writing technical engineering reports; creative thinking and brainstorming applied to a real engineering problem with individual solutions submitted in report form.
Prerequisite(s)/Corequisite(s): ENGL 1160 and Sophomore

ENGR 3100 INTRO NUCLEAR/RAD ENGR CONCEPTS (1 credit)
History of nuclear development, basic concepts of radiation and radioactivity, radioactive waste management, global warming, and the impact of nuclear power plants. Industrial applications, health, and nuclear medicine. Job opportunities at power plants, graduate school, and national laboratories. Tour of the University of Texas nuclear research reactor and demonstration experiments. (Requires off-campus travel.)
Prerequisite(s)/Corequisite(s): Not open to nondegree students

ENGR 3100 UTILZTN OF NUCLEAR TECH SOC (3 credits)
The applications of nuclear science to society and the fundamental radiation principles utilized in these applications.
Prerequisite(s)/Corequisite(s): Not open to nondegree students
ENGR 3200 LEADERSHIP, MANAGEMENT, AND ETHICS (3 credits)
Explore professional leadership, ethics, project management tools and skills, and how to successfully implement and respond to change. In a team-based environment, enhance essential professional skills for personal and team success by developing and presenting a responsive proposal. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ENGR 3500 ENGINEERING COOPERATIVE EDUC (1-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Junior standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 3910 JUNIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary

ENGR 4000 PROFESSIONAL ETHICS & SOCIETY RESPONSIBILITY (1 credit)
Discussions on professionalism and ethics of engineering practice; problems encountered by new graduates.
Prerequisite(s)/Corequisite(s): Senior
ENGR 4020 ENERGY SYSTEMS AND RESOURCES (3 credits)
Energy as a critical component of civilization. The critical role of energy from the economic and political point of view world wide. Energy resources available, the technology to use the resources, the economics of energy production, the environmental consequences of energy use, and energy policy.
Prerequisite(s)/Corequisite(s): ENGR3010, not open to nongrade students

ENGR 4050 ANALYSIS OF ENGINEERING MANAGEMENT (3 credits)
General concepts and principles of engineering management applied to cases. (Cross-listed with ENGR 8056)
Prerequisite(s)/Corequisite(s): CONE 2060
ENGR 4070 PROJECT MANAGEMENT (3 credits)
Project development, role of the project manager, project selection, project planning, budgeting and cost estimation, project scheduling, and project termination. (Cross-listed with ENGR 8076)

ENGR 4100 RADIATION PROTECTION AND SHIELDING (3 credits)
Basic principles and concepts of radiation protection and shield design. Dosi-metric units and response functions, hazards of radiation doses, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neutrons.
Prerequisite(s)/Corequisite(s): MENG 4010 or 8016 or ENGR 4210

ENGR 4110 NUCLEAR REACTOR THEORY (3 credits)
Introduction to neutron diffusion theory, neutron moderation, neutron thermalization, and criticality condition of nuclear reactor.
Prerequisite(s)/Corequisite(s): ENGR3100, not open to nondegree students

ENGR 4120 NUCLEAR REACTOR ANALYSIS (3 credits)
Group diffusion method, multiregional reactors, heterogeneous reactors, reactor kinetics, and change in reactivity.
Prerequisite(s)/Corequisite(s): ENGR4110, not open to nondegree students

ENGR 4150 COGNITIVE ERGONOMICS (3 credits)
Human factors affecting work. Focus on humans: energy requirements, lighting, noise, monotony and fatigue, learning, simulations versus sequential tasks. Experimental evaluation of concepts. (Cross-listed with ENGR 8156)
Prerequisite(s)/Corequisite(s): ENGR 4300 or permission.

ENGR 4160 PHYSICAL ERGONOMICS (3 credits)
Human performance in work. Human response to various environmental and task-related variables with emphasis on physical and physiological effects. (Cross-listed with ENGR 8166)
Prerequisite(s)/Corequisite(s): ENGR 4300 or permission

ENGR 4170 OCCUPATIONAL SAFETY HYGIENE ENGINEERING (3 credits)
Introduction to occupational hygiene engineering with emphasis on workplace environmental quality. Heat, illumination, noise, and ventilation. (Cross-listed with ENGR 8176)
Prerequisite(s)/Corequisite(s): Senior standing or permission

ENGR 4200 NUCLEAR REACTOR ENGINEERING (3 credits)
The physics governing nuclear reactors and the design principles for commercial nuclear power plants. Reactor designs currently operating in the power industry.

ENGR 4210 ELEMENTS OF NUCLEAR ENGINEERING (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 2120, and ENGR 3010 or 3100

ENGR 4300 APPLIED STATISTICS AND QUALITY CONTROL (3 credits)
Systematic analysis of processes through the use of statistical analysis, methods, and procedures; statistical process control, sampling, regression, ANOVA, quality control, and design of experiments. Use of software for performing a statistical analysis. (Cross-listed with ENGR 8306).
Prerequisite(s)/Corequisite(s): MENG 3210

ENGR 4400 DISCRETE EVENT SIMULATION MODELING (3 credits)
Development of simulation models of discrete systems. Model development, Monte Carlo techniques, random number generators, and output analysis. (Cross-listed with ENGR 8406)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210 and CIST 1400 or CSCI 1620 or CSCI 2240 or permission

ENGR 4410 ENGINEERING ECONOMY (3 credits)
Economic factors involved in the comparison of engineering alternatives and the techniques of equipment selection and replacement.
Prerequisite(s)/Corequisite(s): Senior

ENGR 4500 ENGINEERING COOPERATIVE EDUC (0-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s)/Corequisite(s): Senior standing; permission of College of Engineering Dean’s Office and department chair of student’s engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 4600 PACKAGING ENGINEERING (3 credits)
Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packing and environmental regulations, and material selection. (Cross-listed with ENGR 8606)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210, MENG 3730

ENGR 4610 RFID SYSTEMS IN THE SUPPLY CHAIN (3 credits)
Foundations of Radio Frequency Identification Systems (RFID). The fundamentals of how RFID components of tag, transponder, and antennas are utilized to create RFID systems. Best practices for implementation of RFID systems in common supply operations. (Cross-listed with ENGR 8616)
ENGR 4690 TECH, SCIENCE & CIVILIZATION (3 credits)
(Lect 2 Dis. 2) This course studies the development of technology as a trigger of change upon humankind, from the earliest tools of Homo Habilis to the advent of the radio telescope in exploring the creation of the universe. The course traces the paths from early science to development of the sciences and technologies that will dominate the new millennium. (8696 is for non SET students) (Cross-listed with ENGR8696)
Prerequisite(s)/Corequisite(s): Senior

ENGR 4810 SUPPLY CHAIN OPTIMIZATION (3 credits)
Foundations of supply chain network modeling. The concepts that support the economic and service trade-offs in supply chain and logistics management. Using decision support system (DSS) to design optimal logistics network models given data requirements and operational parameters. Using leading software packages to model problems arising in strategic management of logistics networks. (Cross-listed with ENGR 8816)

ENGR 4830 LOGISTICS IN THE SUPPLY CHAIN (3 credits)
The process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption. Domestic transportation systems, distribution centers and warehousing, international logistics, logistic system controls, and reengineering logistics systems. (Cross-listed with ENGR 8836)

ENGR 4900 GLOBAL EXPERIENCES IN ENGR (1-3 credits)
Individual or group educational experience combining classroom lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor. Course offered credit/no credit only.

ENGR 4910 SENIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

Engineering Mechanics
(EMEC)

EMEC 4600 VIBRATION THEORY AND APPLICATIONS (3 credits)

English (ENGL)

ENGL 1010 INTRODUCTION TO GENRE STUDIES: PROSE (3 credits)
This course introduces students to the study of short stories, novels, and creative non-fiction (optional; inclusion may vary by instructor).
Prerequisite(s)/Corequisite(s): Completion of ENGL1150 / 1160 is recommended.
Distribution: Humanities and Fine Arts General Education course

ENGL 1020 INTRODUCTION TO GENRE STUDIES: POETRY, DRAMA, FILM (3 credits)
This course introduces students to the study of poetry, drama, and film (optional; inclusion may vary by instructor).
Prerequisite(s)/Corequisite(s): Completion of ENGL1150 is recommended.
Distribution: Humanities and Fine Arts General Education course

ENGL 1050 COLLEGE READING STRATEGIES (2 credits)
Beginning course designed to help students improve comprehension and retention, establish proper study techniques, develop vocabulary and increase reading speeds. Formerly called "Reading Improvement."

ENGL 1090 ENGLISH AS A SECOND LANGUAGE I (3 credits)
This class is an intermediate writing-intensive course that will help students learn about the nature of the academic essay in American university settings; it is intended to help students whose language of nurture is not English to prepare for the English composition sequence. (NOTE: Students who complete this course are not eligible to take ENGL 1050 for credit.)
Prerequisite(s)/Corequisite(s): A Score >= 500 on the paper TOEFL, 61 on the Internet TOEFL, 6.0 on the IELTS, 44 on the PTE (Pearson Test of English), or a placement of ENGL 1090 by Dept of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE).

ENGL 1100 ENGLISH AS A SECOND LANGUAGE II (3 credits)
This class is an advanced writing-intensive course that will help students learn about the nature of the academic essay in American university settings; it is intended to help students whose language of nurture is not English to prepare for the English composition sequence. (NOTE: Students who take this course are not eligible to take ENGL 1050 for credit.)
Prerequisite(s)/Corequisite(s): Placement of ENGL 1100 by Department of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE), or C- or better in ENGL 1090

ENGL 1150 ENGLISH COMPOSITION I (3 credits)
Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts. Sections identified as "ENGL 1154" are taught in a computer classroom.
Prerequisite(s)/Corequisite(s): ENGL 1150 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition 1

ENGL 1154 ENGLISH COMPOSITION I (3 credits)
Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts. Sections identified as "ENGL 1154" are taught in a computer classroom.
Prerequisite(s)/Corequisite(s): ENGL 1150 / ENGL 1154 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition 1

ENGL 1160 ENGLISH COMPOSITION II (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom.
Prerequisite(s)/Corequisite(s): ENGL 1150 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition II

ENGL 1164 ENGLISH COMPOSITION II (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom.
Prerequisite(s)/Corequisite(s): ENGL 1160 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition II

ENGL 1200 AUTOBIOGRAPHICAL READING AND WRITING (3 credits)
This course helps students to write effectively by focusing on their own personal experience and by examining a variety of autobiographical writings. Students are exposed to multicultural perspectives throughout the course.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course
ENGL 2000 TOPICS IN LANGUAGE AND LITERATURE (1-3 credits)
A variety of topics primarily for the non-major. (For example, this course might study the image of the American businessman in American literature.) One or two such topics may be offered each term, depending upon current student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term. (Cross-listed with WGST 2000 when topic is appropriate.)
Prerequisite(s)/Corequisite(s): Variable according to topic.

ENGL 2110 INTRODUCTION TO CREATIVE NONFICTION WRITING (3 credits)
ENGL 2110 is an introduction to creative nonfiction writing. This course focuses on the study and analysis of creative nonfiction, which will focus primarily on the foundational elements of creative nonfiction writing, including characterization, dialogue, mood, rhythm and style, point-of-view, and voice.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or equivalent, or special permission from instructor. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course
ENGL 2160 HONORS COMPOSITION: REASON AND RESEARCH (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. A variant of Composition II for honors students.
Prerequisite(s)/Corequisite(s): Admission to the Honors Program and placement by the English Proficiency Placement Exam.
Distribution: Fundamental Academic Skills-Composition II
ENGL 2230 ETHNIC LITERATURE (3 credits)
An introduction to the literature of Native Americans, black Americans, Hispanic Americans (Chicanos, Puerto Ricans or Cubans), and Asian Americans (Chinese and Japanese). Explains and defines cultural terms and practices, and attempts to prepare students for multicultural living.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course
ENGL 2250 THE SHORT STORY (3 credits)
Readings in the modern short story with particular attention to literature as a reflection of life and to form as an outgrowth of content.
Prerequisite(s)/Corequisite(s): ENGL 1160 / ENGL 1164 or permission.
Distribution: Humanities and Fine Arts General Education course
ENGL 2260 BLACK SHORT STORY (3 credits)
A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with BLST 2260).
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course
ENGL 2270 INTRODUCTION TO POETRY (3 credits)
An analysis of the poetic art from a variety of periods and a variety of poets, proceeding from analysis of techniques to critical judgment of many different types of poems.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
ENGL 2280 INTRODUCTION TO LANGUAGE (3 credits)
A study of the nature of language and its role in human affairs.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Social Science General Education course
ENGL 2300 INTRODUCTION TO LITERATURE (3 credits)
An introduction to the study of at least three literary genres (fiction, drama, and poetry) selected from English, American, and world literature.
Prerequisite(s)/Corequisite(s): ENGL 1160, open to College of Education students only.
ENGL 2310 INTRODUCTION TO BRITISH LITERATURE I (3 credits)
A survey of British literature from c.600 to the end of the 18th century.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course
ENGL 2320 INTRODUCTION TO BRITISH LITERATURE II (3 credits)
A survey of English literature from the Romantic period to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course
ENGL 2350 BLACK LITERATURE IN AMERICA 1746-1939 (3 credits)
This course traces the development of black literature from 1746 to 1939. Included will be a study of four genres: poetry, short story, novel and drama. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem renaissance and Depression era schools of thought. (Cross-listed with BLST 2350).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
ENGL 2360 CONTEMPORARY BLACK LITERATURE (3 credits)
This course traces the development of the literary contribution that black Americans have made from 1939 to the present. Included will be a study of four genres: poetry, short story, novel and drama. Trends to be studied include the movement toward literary assimilation in the 1940s-1950s and the subsequent movement toward black art in the 1960s to the present. (Cross-listed with BLST 2360).
ENGL 2400 ADVANCED COMPOSITION (3 credits)
A study in the principles of rhetoric, expository modes, research techniques, consistency in grammatical structure, and variety of usage with attention to audience adaptation and writer's style.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
ENGL 2410 CRITICAL APPROACHES TO LITERATURE (3 credits)
An introduction to research, theory, and writing about literary and cultural studies; includes, but is not limited to, reading literary works and a variety of critical interpretations of those works, specialized library research, learning the discipline's documentation style, and writing in diverse genres (e.g. synopses, abstracts, poetry explications, prose analyses, reviews, essay exams and research papers).
Prerequisite(s)/Corequisite(s): ENGL 1160, English major or minor, SED major, WRWS major or permission.
ENGL 2420 CRITICAL APPROACHES TO LANGUAGE STUDIES (3 credits)
This course introduces students to Language Studies, including disciplinary theories and discourses, key issues, and methodologies in rhetoric, composition, technical communication, and linguistics. Students will also practice and become familiar with the writing conventions within Language Studies.
Prerequisite(s)/Corequisite(s): ENGL 1160.
Distribution: Fundamental Academic Skills-Advanced Writing
ENGL 2450 AMERICAN LITERATURE I (3 credits)
A survey of American literature to the Civil War.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission of instructor.
Distribution: Humanities and Fine Arts General Education course
ENGL 2460 AMERICAN LITERATURE II (3 credits)
A survey of American literature since the Civil War.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course
ENGL 2470 SURVEY OF NATIVE AMERICAN LITERATURE (3 credits)
An introduction to the literature of the oral tradition among the Native American peoples and to the written literature of post-contact and contemporary times.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course
ENGL 2480 THE AMERICAN LANGUAGE (3 credits)
A study of the historical development, current condition and variety, and possible future of the English language in America.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 2490 LATINO/A LITERATURE (3 credits)
This course is an introduction to contemporary literature by Latinos/as in the United States, providing an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from the mid-19th Century to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or by permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2500 LITERATURE OF WESTERN CIVILIZATION: THE ANCIENT WORLD (3 credits)
A study of European literature in English translation. Includes the works of such writers as Homer, Sophocles, Sappho, Virgil, Horace, Ovid and St. Augustine.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2510 LITERATURE OF WESTERN CIVILIZATION: MIDDLE AGES TO ENLIGHTENMENT (3 credits)
A study of European (excluding English) literature in English translation. Includes the works of such writers as Dante, Chretien de Troyes, Christine de Pisan, Petrarch, Rabelais, Calderon, Cervantes, von Eschenbach, or Voltaire.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2520 LITERATURE OF WESTERN CIVILIZATION: THE MODERN WORLD (3 credits)
A study of the modern period in European literature (exclusive of English literature) from the 18th century Romantic movement to recent 20th century developments, including writings from Rousseau through Solzhenitsyn.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 2830 CONTEMPORARY NOVEL (3 credits)
Readings in the contemporary novel and a discussion format for criticism and interpretation. A study in breadth of the present state of the novel.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 2850 CONTEMPORARY DRAMA (3 credits)
Readings in contemporary drama since 1940 (with some background extending to 1900); emphasis on problems of form and content rather than historical development.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 3000 SPECIAL TOPICS IN ENGLISH (1-3 credits)
A study of designated special topics in language and literature. (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s)/Corequisite(s): Variable according to topic.

ENGL 3050 WRITING FOR THE WORKPLACE (3 credits)
In this course students learn to write polished, professional communication, focusing content for specific audiences and contexts. Instruction stresses audience and situational analysis, clarity, and professional tone and style as well as elements of format and pattern, research, and revision techniques.
Prerequisite(s)/Corequisite(s): ENGL 1160, ENGL 1164, or permission of instructor

ENGL 3100 NATIVE AMERICAN LITERATURE: MAJOR FIGURES (3 credits)
An in-depth study of elements of Native American literature or of particular poets, novelists, biographers or short story writers.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 3130 AMERICAN NONFICTION (3 credits)
This is an intermediate literature course intended to give students broad exposure to American nonfiction. Students will study and analyze a variety of literary forms, including the personal essay, memoir, and literary journalism, from a wide range of historical periods.
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

ENGL 3150 FORM AND STYLE IN CREATIVE NONFICTION (3 credits)
This is an introduction to creative nonfiction. This course focuses on the study and analysis of the art of creative nonfiction and its various subgenres: personal essay, memoir, literary journalism, travel writing, segmented/collage essay, and literary/cultural analysis.
Prerequisite(s)/Corequisite(s): ENGL 1160 or ENGL 1164 or a composition II equivalent. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

ENGL 3280 IRISH LITERATURE I (3 credits)
This course explores Irish literature from the early medieval period (c. 600) to the late nineteenth century and the Irish Literary Renaissance. Texts include works written in Irish as well as in English, and cover a variety of genres, including but not limited to: early medieval monastic nature poetry, medieval prose saga literature, the Irish bardic and aising traditions, political satire and laments, Anglo-Irish Ascendancy novels, and the Irish Gothic.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission required; ENGL 2410 and ENGL 2310 recommended.

ENGL 3290 IRISH LITERATURE II (3 credits)
A survey of Irish literature in both English and Irish from the beginning of the Irish Literary Renaissance (c. 1880) to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission required; ENGL 2410, and ENGL 2320 or ENGL 3280 recommended. Not open to non-degree graduate students.
Distribution: Global Diversity General Education course

ENGL 3300 JUNIOR TOPICS IN AMERICAN LITERATURE (3 credits)
This course is an introduction to topics in American literature, to include colonial, modern, and postmodern literature and also Native American and immigrant/diaspora literature written in English or read in translation. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420

ENGL 3400 JUNIOR TOPICS IN BRITISH/IRISH/ANGLOPHONE LITERATURE (3 credits)
This course introduces students to topics in British or Irish literature or the literature of the former British commonwealths. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420

ENGL 3500 JUNIOR TOPICS IN GLOBAL LITERATURE (3 credits)
Topics in world literature, to include trans-national and trans-continental literature written in English or read in translation. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3610 INTRODUCTION TO LINGUISTICS (3 credits)
An introduction to the concepts and methodology of the scientific study of language; includes language description, history, theory, variation, and semantics as well as first and second language acquisition. Formerly ENGL 4610. (Cross-listed with ENGL 8615).
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent.
Distribution: U.S. Diversity General Education course and Social Science General Education course
ENGL 3770 WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH (3 credits)
This course is an introduction to writing center theory, pedagogy, research, and history. The course is designed for undergraduate and graduate students interested in or already working in a writing center. Throughout the course we will explore a wide range of models for writing center work and the often problematic metaphors associated with those models. The overall aim in this course will be to help students develop multiple strategies for teaching writing one-to-one, for conducting research in writing centers, and for understanding writing center administration. (Cross-listed with ENGL 8775).

ENGL 3800 JUNIOR TOPICS IN LANGUAGE STUDIES (3 credits)
This is a special topics course in language studies intended primarily for juniors in the English major. Topics include specific study in the areas of composition, rhetoric, technical communication, and/or linguistics, and will often include considerations of other cultures and languages. Readings may vary according to the topic.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3980 TECHNICAL WRITING ACROSS THE DISCIPLINES (3 credits)
This course emphasizes the problem-solving processes of producing effective written documents and visuals in technical professions. Students will study the genres, situations, and audiences related to professional settings, the contexts in which writing occurs, the process involved in individual and collaborative projects, and the production of technical documents.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission
Distribution: Fundamental Academic Skills-Advanced Writing

ENGL 4040 CONTEMPORARY POETRY OF ENGLAND AND AMERICA (3 credits)
A study of English and American poetry, the important ideas it contains, and the relevant critical theory of the contemporary period. Formerly ENGL 4910/8916. (Cross-listed with ENGL 8046).
Prerequisite(s)/Corequisite(s): ENGL 2270 or ENGL 2320 or ENGL 2460 or ENGL 2520.

ENGL 4060 THE AMERICAN NOVEL (3 credits)
A comprehensive survey of the evolution of the American Novel from 1789 to the present day. Special emphasis will be placed on how authors have responded to changing cultural circumstances and expressed widely varying viewpoints depending on their own gender, race, geographic region, and/or ethnicity. (Cross-listed with ENGL 8066).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, and ENGL 2450 or ENGL 2460.

ENGL 4140 AMERICAN LITERARY REALISM AND NATURALISM (3 credits)
This course examines a wide range of 19th century American literary works, written by male and female authors of various races, geographic regions, and/or ethnicities. The influence of cultural, economic, political, and social environments on the construction and reception of these works will be emphasized. (Cross-listed with ENGL 8146).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, and ENGL 2450 or ENGL 2460.

ENGL 4160 TOPICS IN AMERICAN REGIONALISM (3 credits)
A study of major trends in American literary regionalism, with special emphasis on social, cultural, and ecological contexts. Focus will be determined by instructor, but may include particular authors, literary themes, historical periods, or geographic regions. (Cross-listed with ENGL 8166).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalent; ENGL 2450 or ENGL 2460 recommended.

ENGL 4180 MAJOR MOVEMENTS IN CONTEMPORARY LITERATURE (3 credits)
A critical study of selected major literary figures or major literary movements which have appeared since World War II. Formerly ENGL 4950/8956 Contemporary Literature: Major Figures and Major Movements. (Cross-listed with ENGL 8186).
Prerequisite(s)/Corequisite(s): ENGL 2460 or ENGL 2320 or permission.

ENGL 4230 LATINO LITERATURE (3 credits)
A study of representative works of Mexican-American, Spanish-American, and American writers, along with their cultural and historical antecedents. Formerly ENGL 4190/8186 Chicano Literature and Culture. (Cross-listed with ENGL 8236).
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENGL 4240 TEACHING LATINO LITERATURE (3 credits)
This course is designed specifically for current or future teachers of high school students. It introduces pedagogical approaches of contemporary literature by Latinos/as in the United States. The course provides an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from mid-19th Century to the present and complement that with social, cultural, historical and other approaches to developing teaching strategies. (Cross-listed with ENGL 8246)
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: U.S. Diversity General Education course

ENGL 4250 INTRODUCTION TO WOMEN'S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 8256, WGST 4250).
Prerequisite(s)/Corequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420 recommended.

ENGL 4260 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray women. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with ENGL 8266).
Prerequisite(s)/Corequisite(s): English major.

ENGL 4270 WOMEN WRITERS OF THE WEST (3 credits)
A survey of American and Canadian women writers who explore issues of settlement, land use, cultural displacement, and survival in western territories, states, and provinces. Readings span 19th and 20th-Century literacy and reflect the cultural diversity of the American and Canadian wests. (Cross-listed with ENGL 8276 and WGST 4270).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalent; ENGL 2410 recommended.

ENGL 4310 MIDDLE ENGLISH LITERATURE (3 credits)
A survey of the principal writings in English, excluding those of Chaucer, from 1100 to 1500. Formerly ENGL 4320/8326. (Cross-listed with ENGL 8316).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.

ENGL 4320 CHAUCER (3 credits)
A literary, linguistic and historical study of the works of Geoffrey Chaucer: his dream visions, Troilus and Criseyde and the Canterbury Tales. Formerly ENGL 4340/8346. (Cross-listed with ENGL 8326).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420 or permission.
ENGL 4340 SHAKESPEARE (3 credits)
A critical study of selected plays from among the four traditional
Shakespearean genres: comedy, history, tragedy, and romance. Formerly
ENGL 4600/8606. (Cross-listed with ENGL 8346).
Prerequisite(s)/Corequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420
and ENGL 2310 are recommended.

ENGL 4350 SHAKESPEARE'S CONTEMPORARIES (3 credits)
A study of the development of the English drama, exclusive of Shakespeare,
from beginnings to 1642. (Cross-listed with ENGL 8356).
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent

ENGL 4360 17TH CENTURY LITERATURE (3 credits)
A study of English poetry and prose from 1600 to 1660 with emphasis on
Milton. Formerly ENGL 4480/8486. (Cross-listed with ENGL 8366).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320

ENGL 4370 RESTORATION AND EIGHTEENTH CENTURY LITERATURE
(3 credits)
Poetry, prose (exclusive of the novel), and drama of England in the
Restoration and 18th century (1660-1800), with emphasis on Swift and
Johnson. Formerly ENGL 4620/8626. (Cross-listed with ENGL 8376).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320 or permission.

ENGL 4380 THE EIGHTEENTH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Daniel Defoe to Jane Austen. Formerly
ENGL 4640/8646. (Cross-listed with ENGL 8386).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320

ENGL 4390 MEDIEVAL CELTIC LITERATURE (3 credits)
This course examines the literature and culture of the Celtic civilizations.
The course examines the archeological record and texts about the Celts
by Greek and Roman authors, as well as later medieval tales from the
Irish, Welsh, and Breton traditions. All texts are in translation with guided
reference to the original languages. (Cross-listed with ENGL 8395).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420 and one ENGL
course above 3299; or instructor permission; ENGL 2310 recommended.
Not open to non-degree graduate students.

ENGL 4410 LITERATURE OF THE ROMANTIC PERIOD (3 credits)
Poetry and prose (excluding the novel) of England from 1798 to 1830.
Formerly ENGL 4810/8816. (Cross-listed with ENGL 8416).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320.

ENGL 4420 LITERATURE OF VICTORIAN PERIOD (3 credits)
English poetry and prose (excluding the novel) from 1830 to 1900. Formerly
ENGL 4820/8826. (Cross-listed with ENGL 8426).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320 or permission;
ENGL 2410 or ENGL 2420 recommended.

ENGL 4430 THE 19TH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Jane Austen to Thomas Hardy. Formerly
ENGL 4650/8656. (Cross-listed with ENGL 8436).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320 or permission;
ENGL 2410 or ENGL 2420 recommended.

ENGL 4460 THE 20TH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Joseph Conrad to the present. Formerly
ENGL 4660/8666. (Cross-listed with ENGL 8466).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420; ENGL 2320
is recommended.

ENGL 4480 20TH CENT ENGLISH LITERATURE (3 credits)
Readings in English literature from Shaw and Yeats to the present. Formerly
ENGL 4850/8856. (Cross-listed with ENGL 8486).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420; ENGL 2320
recommended.

ENGL 4620 HISTORY OF ENGLISH (3 credits)
A critical study of both the internal and external histories of English.
Includes historical development of English phonology, morphology,
graphics, syntax, diction, dialects, and semantics. (Cross-listed with
ENGL 8626).
Prerequisite(s)/Corequisite(s): Junior or permission

ENGL 4640 APPLIED LINGUISTICS (3 credits)
This course is designed to develop knowledge and skills for second
language instructors and others interested in second language learning
and instruction. Content covers relevant second language acquisition (SLA)
theory and second language pedagogy. (Cross-listed with ENGL 8464).
Prerequisite(s)/Corequisite(s): ENGL 3610 and Junior standing or with
permission from instructor.

ENGL 4650 STRUCTURE OF ENGLISH (3 credits)
A study of grammar as it has been conceived through history, including
traditional prescriptive and descriptive approaches as well as
transformational-generative grammar. Formerly ENGL 4780/8786. (Cross-
listed with ENGL 8656).
Prerequisite(s)/Corequisite(s): ENGL 3610 / ENGL 8615 or permission.

ENGL 4670 SOCIOLINGUISTICS (3 credits)
An exploration of interconnections between language, culture, and
communicative meaning, stressing interactional, situational, and social
functions of language as they take place and are created within social
contexts. Formerly ENGL 4880/8886. (Cross-listed with ENGL 8676).

ENGL 4690 TOPICS IN LINGUISTICS (3 credits)
Studies in a selected subfield or problem area of linguistics such as
sociolinguistics, generative semantics, applied linguistics, descriptive
linguistics, teaching English as a foreign language, etc. Formerly
ENGL 4960/8966 Studies in Linguistics. (Cross-listed with ENGL 8696).

ENGL 4730 RHETORIC (3 credits)
A study of contemporary theories of invention, form, and style and their
application in written discourse. Formerly ENGL 4750/8756. (Cross-listed
with ENGL 8756, ENGL 8736).
Prerequisite(s)/Corequisite(s): Any 2000 or above writing course or
permission

ENGL 4750 COMPOSITION THEORY & PEDAGOGY (3 credits)
Students will review and evaluate 20th century theories with an emphasis
on theories developed since 1968. Students will investigate current research
practices and design and execute their own research projects. Formerly
ENGL 4760/8766. (Cross-listed with ENGL 8756).
Prerequisite(s)/Corequisite(s): Any 2000 or above writing course or
permission

ENGL 4790 ENGLISH CAREER PREPARATION (1 credit)
This course will prepare students for an internship or a career, addressing
topics such as: finding and applying for internships, workplace and
industry, resume and cover letters, interviewing techniques, developing a
professional portfolio, and statement of goals. Taking this course prior to an
internship is highly recommended. (Cross-listed with ENGL 8796).
Prerequisite(s)/Corequisite(s): Junior or senior level, one 4000-level
English course, or permission of instructor. Not open to non-degree
graduate students.

ENGL 4800 ENGLISH INTERNSHIP (1-3 credits)
Supervised internship in a professional setting with a local employer or
nonprofit organization. Hands-on experience. Work hours, activities, and
responsibilities must be specified in a written agreement between the
employer and the student in consultation with the internship director. Some
internships will be paid and some will not. (Cross-listed with ENGL 8806).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, an ENGL
4000-level writing course, Junior/Senior standing, and permission of
internship director.
ENGL 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 8816, JMC 4810, JMC 8816).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110, or permission of instructor.

ENGL 4820 AUTOBIOGRAPHY (3 credits)
Students will read as well as write autobiography. Students will read texts representing various social, political, and religious points of view. Students will also study these texts for theoretical principles and autobiographical techniques which they will use to inform their own autobiographical essays. (Cross-listed with ENGL 8826).
Prerequisite(s)/Corequisite(s): ENGL 2450 or ENGL 2460

ENGL 4830 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 8836, JMC 4830, JMC 8836).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110, or permission of instructor.

ENGL 4840 TRAVEL WRITING (3 credits)
Travel Writing is a course in professional writing. Although the course includes critical examinations of texts, the primary focus is on the composition of various kinds of travel essays. (Cross-listed with ENGL 8846).
Prerequisite(s)/Corequisite(s): ENGL 2410

ENGL 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 8856, JMC 4850, JMC 8856).
Prerequisite(s)/Corequisite(s): ENGL 4810 and ENGL 4830, or permission of instructor.

ENGL 4860 MODERN FAMILIAR ESSAY (3 credits)
A study of the modern familiar essay, with an emphasis on writing the informal essay. Formerly ENGL 4700/8706. (Cross-listed with ENGL 8866).
Prerequisite(s)/Corequisite(s): ENGL 2000, ENGL 2400, ENGL 2410 or ENGL 2420

ENGL 4870 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 8876, JMC 4870, JMC 8876).
Prerequisite(s)/Corequisite(s): ENGL 4830 or ENGL 3980, and ENGL 4850, or permission of instructor.

ENGL 4880 COMMUNITY SERVICE WRITING (3 credits)
A study of the relationship between texts and the social contexts in which they function, with particular attention to differences between academic and nonacademic discourse communities. This is a service-learning course: students work as volunteer writers at community organizations. (Cross-listed with ENGL 8886).
Prerequisite(s)/Corequisite(s): ENGL 1160 with grade of A or B (or 200 placement on EPPE).

ENGL 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 8896, JMC 4890, JMC 8896).
Prerequisite(s)/Corequisite(s): ENGL 4810, ENGL 4830, ENGL 4870 and ENGL 4850, or permission of instructor.

ENGL 4920 GREAT CHARACTERS (3 credits)
Great Characters is a study of literary characters in fiction and drama from the standpoint of temperament theory. The course uses Keirsey's model of temperament to focus on conflict and conflict resolution between characters as this constitutes the dynamics of plot. Formerly ENGL 4050/8056. (Cross-listed with ENGL 8926).
Prerequisite(s)/Corequisite(s): Senior standing, or one 4000 level English course.

ENGL 4960 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
Specific subjects (when offered) appear in class schedules. Complete syllabi available in English Department. Formerly ENGL 4940 / ENGL 8946. (Cross-listed with WGST 4960).
Prerequisite(s)/Corequisite(s): Will vary depending on what the topic is.

ENGL 4980 TOPICS: INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or language, carried out under the supervision of a member of the English faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. Formerly ENGL 4990 Independent Study.
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior, and no incompletes outstanding.

ENGL 4990 SENIOR PAPER OR PROJECT (1 credit)
Attached to an existing 4000-level English course in which a student is currently enrolled and normally added during the first six weeks of the academic semester, the Senior Paper or Project contracts a student to produce a culminating paper or project in an area of the English major. The paper or project produced in conjunction with this course will constitute a student's most dedicated accomplishment at the end of her or his undergraduate career.
Prerequisite(s)/Corequisite(s): Permission of the instructor and senior standing. Not open to non-degree graduate students.

Entrepreneurialship (ENTR)

ENTR 3710 ENTREPRENEURIAL FOUNDATIONS (3 credits)
A study of the analytical techniques and managerial tasks associated with developing and executing business plans for small firms and start-ups. These skills, including strategic positioning and competitor analysis, marketing, teaming, project and operations management, and cash flow projection will be taught through a combination of contemporary readings, speakers, and hands-on practice problems.
Prerequisite(s)/Corequisite(s): Sophomore standing and 2.0 GPA.
ENTR 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 8156, GEOG 4150, GEOG 8156, WGST 4150, WGST 8156)
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

ENTR 4530 ENTREPRENEURSHIP INTERNSHIP (1-3 credits)
Students engage in part time employment in a new or small business to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to establishing or growing a small business such as market research, customer development, systems design and implementation, funding activities, etc.
Prerequisite(s)/Corequisite(s): ENTR 3710 with a C+ or better, a 2.5 GPA, and junior level standing, and permission of instructor. Not open to non-degree graduate students.

ENTR 4730 NEW VENTURE FORMATION (3 credits)
This course is a comprehensive study of the interrelationships between functional business areas in a start-up or small firm. These interrelationships will be taught through the development of a complete business plan for a start-up or small business.
Prerequisite(s)/Corequisite(s): ENTR 3710 with a C (2.00) or better; GPA 2.5

ENTR 4740 TECHNOLOGY AND INNOVATION MANAGEMENT (3 credits)
This course covers the challenges that surround technology and innovation management. Approaching innovation management as a strategic process, this course will focus in on how the innovation process works and what kinds of organizational environments support this process, as well as how innovation affects the competitive dynamics of markets so that firms can better manage their innovation(s).
Prerequisite(s)/Corequisite(s): ENTR 3710. Not open to non-degree graduate students.

ENTR 4750 SOCIAL ENTREPRENEURSHIP (3 credits)
Motivated by the desire for social change and community betterment, social entrepreneurs use innovation to solve society's problems in a variety of settings - nonprofits, for-profit businesses, or government agencies. Guest speakers, case discussion, lecture, and student presentations will be used in this course and students will be expected to develop a detailed business plan for a social enterprise.
Prerequisite(s)/Corequisite(s): Minimum GPA 2.5

ENTR 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth as other pressing issues such as financing, staffing, product development are addressed. This course will focus on consultative solution-based sales fundamentals that can be applied in the entrepreneurial selling environment. (Cross-listed with MKT 4760, BSAD 8766)
Prerequisite(s)/Corequisite(s): GPA 2.5 or better; MKT 3100 with a 2.5 grade or better; MKT 3310 with a 2.5 grade or better; or permission of instructor. Not open to non-degree graduate students.

Environmental Studies

ENVN 2000 LANDSCAPE APPRECIATION AND ENVIRONMENTAL SUSTAINABILITY (3 credits)
This course enables students to observe, document and critically examine the values and processes associated with human-designed landscapes and their connection to natural environments. Through concepts and tools presented in the course, students understand the environmental, social and economic contexts of local and global environments. Emphasis is placed on landscape as an indicator of aesthetic quality; the preference and restorative attributes of nature; design principles and processes as integrators of humans and nature in sustainable urbanized landscapes; and the various ways that sustainability can define a framework for multifunctional landscapes.
Distribution: Humanities and Fine Arts General Education course

ENVN 2010 ENVIRONMENTAL PROBLEMS AND SOLUTIONS (1 credit)
An overview of current environmental problems and the efforts to solve those problems. Intended for Environmental Studies majors and other students with an interest in conservation, the human environment, and management of natural resources. This course examines current local, regional, and global environmental issues and explores work being done to improve environmental quality. The purpose of the course is to give students a broad, interdisciplinary overview of environmental topics to prepare them for advanced course work in the field. Usually offered Spring.
Prerequisite(s)/Corequisite(s): BIOL 1330 or GEOL 1010 (or concurrent enrollment). Not open to non-degree graduate students.

ENVN 2120 SUSTAINABLE LANDSCAPE PLANTS (4 credits)
This course focuses on the identification of native and adapted landscape plants, including herbaceous perennials, groundcovers, vines, trees and shrubs in natural and urbanized landscapes. In addition, it covers the ecological and design contexts for the landscape roles, sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with BIOL 2120)
Prerequisite(s)/Corequisite(s): High school biology
Distribution: Natural/Physical Sci General Education lecture&lab

ENVN 2130 SUSTAINABLE LANDSCAPE PLANTS II (3 credits)
This course requires the identification of native and adapted landscape plants, including groundcovers, vines, trees and shrubs, in natural and urbanized landscapes. In addition, it covers the sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with BIOL 2130)
Prerequisite(s)/Corequisite(s): ENVN 2120 or BIOL 2130

ENVN 3660 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN (3 credits)
This course provides an overview of graphic techniques and process for landscape design; the analysis and conceptual design of the landscape; and the exploration of the design characteristics of plants, landform, and structures through discussion, case studies and applied design development. A focus on sustainable design components and applications is included, including native and adapted plant selection, stormwater management, water conservation, efficient irrigation concepts, and practical landscape management and maintenance considerations. (Cross-listed with BIOL 3660)
Distribution: Humanities and Fine Arts General Education course
ENVN 3670 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN LABORATORY (1 credit)
This course covers the basic use of graphic techniques for landscape design; the analysis and process for conceptual design of the landscape; studio problems in value, texture, form and space; and the exploration of the design characteristics of plants, landform, and structures supporting sustainable landscape design and management principles. (Cross-listed with BIOL 3670)
Prerequisite(s)/Corequisite(s): ENVN 3660 or BIOL 3660 (prior or concurrent).

ENVN 4090 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (1-5 credits)
A variable credit lecture and/or laboratory course pertaining to a specific topic in environmental studies or sustainability not available in the regular curriculum. May be repeated as topics change.
Prerequisite(s)/Corequisite(s): Junior or senior standing.

ENVN 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with PSCI 4270, PSCI 8276)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

ENVN 4310 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)
This course emphasizes a critical analysis of our energy options and their environmental, economic and ethical connections. The course includes the underlying chemistry necessary to accurately assess energy positions described in the mainstream media and ultimately to make informed, creative energy choices. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 8316, CACT 8316)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENVN 4320 ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH (3 credits)
The course will explore and develop the complex context of the systemic links among ecosystems and human health (and more broadly human well-being) using case studies including climate change, water quality, infectious diseases and agricultural production. Students will develop skills in critical thinking and applied research by studying biological connections between humans and ecosystems and how social, economic and cultural processes and practices mediate these connections. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8326)
Prerequisite(s)/Corequisite(s): Junior or Senior standing.

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT (3 credits)
This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with BIOL 4410 and BIOL 8416)
Prerequisite(s)/Corequisite(s): BIOL 3340 or instructor permission.

ENVN 4420 RESTORATION ECOLOGY (3 credits)
Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 4420, BIOL 8426)
Prerequisite(s)/Corequisite(s): Junior or Senior standing.

ENVN 4600 GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 4600, BIOL 8606)
Prerequisite(s)/Corequisite(s): BIOL 3340 or permission of instructor.

ENVN 4610 ENVIRONMENTAL MONITOR AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, GEOG 4610, GEOG 8616, GEOL 4610, GEOL 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENVN 4700 SUSTAINABLE SOLUTIONS CAPSTONE (3 credits)
This is a capstone experience for students interested in sustainability and related fields. Students work as part of a multidisciplinary team under the guidance of faculty mentors to develop sustainable solutions to challenges faced by local, regional, or global organizations.
Prerequisite(s)/Corequisite(s): Instructor permission.

ENVN 4800 INTERNSHIP ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)
Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 4800)
Prerequisite(s)/Corequisite(s): Permission of the Environmental Studies Program.

ENVN 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulations. Addresses federal regulations, implementing instructions, legal principles and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation are discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, GEOG 4820, GEOG 8826, PA 4820, PA 8826)
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

Finance and Banking (FNBK)

FNBK 2280 PERSONAL FINANCE (3 credits)
A study of the personal and family finance designed to assist the student develop sound financial habits. (Fall, Spring)
FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)
This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)
Seeks to develop students’ understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.
Prerequisite(s)/Corequisite(s): ACCT 2020 with ‘C’ (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)
As a comprehensive introduction to financial management, the course will cover various fields of finance and discuss topics including the time value of money, bond and stock valuation, capital budgeting.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, ECON 2220, MATH 1320 or MATH 1370, BSAD 2130 or BSAD 3160, and MGMT 3200 each with a ‘C’(2.0) or better; 2.5 cumulative GPA.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)
This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures.
Prerequisite(s)/Corequisite(s): FNBK 3250 with ‘C’ (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)
A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)
Prerequisite(s)/Corequisite(s): FNBK 3250 with ‘C’+ (2.33) or better, or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)
An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with ‘C’ or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)
A study of the organization, structure and operation of commercial banks with an emphasis on the banking functions, competitive aspects and the nature and framework of regulation.
Prerequisite(s)/Corequisite(s): FNBK 3250 with ‘C’ (2.0) or better.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)
Application of basic principles and techniques of international financial management to the decision-making process of the multinational firm. The course covers the foreign exchange markets, management of the foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on the international financing and investment decisions, such as political risk and international taxation issues will be also examined. (Fall, Spring, Summer).
Prerequisite(s)/Corequisite(s): FNBK 3250 with ‘C’+ (2.3) or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

FNBK 4150 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)
Seeks to develop the students’ ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).
Prerequisite(s)/Corequisite(s): FNBK 3250 with ‘C’+ (2.33) or better, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)
Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).
Prerequisite(s)/Corequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; ‘C’ or better in FNBK 3250; 2.5 cumulative GPA; junior or senior standing

FNBK 4560 STATE & LOCAL FINANCE (3 credits)
Theoretical and policy analysis of state and local government fiscal behavior. Revenues, expenditures, borrowing, and intergovernmental fiscal relations. Applications to education, transportation and economic development. (Cross-listed with BSAD 8566).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220.

FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).
Prerequisite(s)/Corequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).
Prerequisite(s)/Corequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)
The course introduces students to the financial derivatives market, and the use (or abuse) of derivative instruments for risk management (or speculative) purposes. It employs computer applications to illustrate various hedging strategies with derivative instruments. (Cross-listed with BSAD 8606).
Prerequisite(s)/Corequisite(s): FNBK 3400 and FNBK 3500 both with a ‘C’ (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)
This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.
Prerequisite(s)/Corequisite(s): FNBK 3400 with a “C”+ (2.33) or above, and a 2.5 GPA.
Fire Service Management (FSMT)

FSMT 1600 FUNDAMENTALS OF FIRE SCIENCE (3 credits)
Fundamentals of Fire Science is an applied science which focuses on basic understanding of the chemical and physical nature of fire. Students will learn about common fire hazards, extinguishing agent properties, as well as fire ignition and growth phenomena.

FSMT 2200 CODES AND INSPECTIONS (3 credits)
Fire protection requirements, including zoning laws and primary access routes for flammable and explosive materials will be discussed. Major considerations and rationales employed in the formulation and creation of zoning and building codes are examined and exploration and understanding of local, state and national codes are also introduced. Safety education program development and implementation, fire inspection techniques and fire investigation procedures are additionally covered.
Prerequisite(s)/Corequisite(s): EMGT 1000 or concurrent.

FSMT 2300 FIRE INVESTIGATION (3 credits)
The origin and cause of fire and explosion incidents will be explored. Fire and arson investigation procedures such as on-site investigations and inspections, documentation, and fact gathering, collection of witness statements and canvassing, and procedures for gathering and storage of critical evidence will be presented. Legal and jurisdictional issues affecting fire investigation will also be discussed.
Prerequisite(s)/Corequisite(s): EMGT 1000 or concurrent

FSMT 2310 FIRE PROTECTION SYSTEMS (3 credits)
A study of the procedures necessary to evaluate the firefighting requirements and how these needs drive the design and utilization of various types of fire protection equipment, including design of structural protection systems and associated construction materials, fire detection technology and fire suppression systems.
Prerequisite(s)/Corequisite(s): EMGT 1000 or concurrent

FSMT 2410 STRATEGIES AND TACTICS IN FIRE AND EMERGENCY SERVICES (3 credits)
This course will provide examples of strategic and tactical considerations that members of the emergency services can employ during structure fires to include residential, commercial, high-rise, special hazard structures, and other types of emergencies like hazardous materials incidents, mass casualty emergencies, and technical rescues.
Prerequisite(s)/Corequisite(s): EMGT 1000 or concurrent

FSMT 2510 BUILDING CONSTRUCTION FOR THE FIRE SERVICE (3 credits)
The visible and hidden dangers inherently involved with fighting structural fires are examined in this course. Characteristics of construction materials, construction types, fire protection systems, smoke development, fire containment, high rise construction and many other topics relevant to firefighter life safety as related to building construction issues will be studied and evaluated.
Prerequisite(s)/Corequisite(s): EMGT 1000 or concurrent

FSMT 3020 FIRE DYNAMICS (3 credits)
This course examines the underlying principles involved in structural fire protection systems, building furnishings, and fire protection systems including water-based fire suppression systems, fire alarm and detection systems, special hazard suppression systems, and smoke management systems.
Prerequisite(s)/Corequisite(s): Students must have completed FSMT 1600.

FSMT 3140 FIRE RELATED HUMAN BEHAVIOR (3 credits)
The goal of Fire Related Human Behavior is to provide students with knowledge about how humans respond to fire and how that knowledge has been integrated into life safety systems design and development.
Prerequisite(s)/Corequisite(s): FSMT 2200

FSMT 3350 FIRE PREVENTION, ORGANIZATION, AND MANAGEMENT (3 credits)
This course examines the factors that shape fire risk and the tools for fire prevention, including risk reduction education, codes and standards, inspection and plans review, fire investigation, research, master planning, various types of influences, and strategies.
Prerequisite(s)/Corequisite(s): FSMT 2200

FSMT 3680 ANALYTICAL APPROACHES TO PUBLIC FIRE PROTECTION (3 credits)
This course examines rational decision making tools and techniques that can be used in Fire and Emergency Services agencies, including data collection, statistics, probability, decision analysis, utility modeling, resource allocation, and cost-benefit analysis.
Prerequisite(s)/Corequisite(s): FSMT 2200.

FSMT 4300 ADVANCED PRINCIPLES OF FIRE AND EMERGENCY SERVICES SAFETY AND SURVIVAL (3 credits)
This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavioral change within the emergency services industry relating to safety, incorporating leadership, supervision, accountability, and personal responsibility. Instruction utilizes the lessons learned from case studies and other investigations that support cultural change throughout emergency services administration.
Prerequisite(s)/Corequisite(s): FSMT 2410.

FSMT 4450 FIRE AND EMERGENCY SERVICES ADMINISTRATION (3 credits)
This course provides students with the knowledge to understand how to help the fire and emergency services administrator perform as an effective risk manager by recognizing legal and political issues affecting public safety, finding and applying appropriate legal rules and/or political constructs, and articulating supportable conclusions and recommendations.
Prerequisite(s)/Corequisite(s): FSMT 2410.

FSMT 4800 SPECIAL READINGS IN FIRE SERVICE MANAGEMENT (3 credits)
This course is intended for upper-level Fire Service Management degree students who are pursuing specialized areas of knowledge in Fire Services. The course is conducted under an independent study format, and subject matter will vary based on the interests of the student and learning outcome objectives established by the instructor. Faculty approval is required prior to registration.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree graduate students. EMGT students will need faculty approval.

FSMT 4860 APPLICATIONS OF FIRE RESEARCH (3 credits)
This course examines the basic principles of research and methodology for analyzing current fire-related research. The student will be able to understand the rationale that fire research organizations use for conducting fire-related research and evaluation.
Prerequisite(s)/Corequisite(s): FSMT 2410.

FSMT 4900 SPECIAL TOPICS IN FIRE SERVICE MANAGEMENT (3 credits)
This course is meant to provide upper-level FSMT students with an in-depth look at current and future issues affecting the Fire Services industry and industry professionals. Possible topics include fire case studies, comparative international studies, issues in federalism, fire education, and fiscal administration. Subject matter will vary by student interest and by faculty preference. Students may repeat the course for additional academic credit as long as the course topic is not duplicated.
Prerequisite(s)/Corequisite(s): Prerequisites will be established by the coordinating instructor to meet the foundational knowledge requirements for the area being studied. Not open to non-degree graduate students. EMGT students will need faculty approval.
French (FREN)

FREN 1000 PRACTICAL FRENCH CONVERSATION (3 credits)
Pronunciation, oral practice involving everyday situations. Not applicable to the foreign language requirement of the College of Arts and Sciences.

FREN 1110 ELEMENTARY FRENCH I (5 credits)
Elementary French I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues from the francophone world.

FREN 1120 ELEMENTARY FRENCH II (5 credits)
Pronunciation, listening, comprehension, speaking, and reading.
Prerequisite(s)/Corequisite(s): FREN 1110 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 2110 INTERMEDIATE FRENCH I (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): FREN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 2120 INTERMEDIATE FRENCH II (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): FREN 2110 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 3020 SPECIAL TOPICS IN FRENCH (3 credits)
Topics for this course will include French grammar review, conversation practice, composition, and structure. This course is a bridge course designed for students who have completed FREN 2120, FREN 3030, or FREN 3040, to prepare them for 3000/4000-level content courses in French.
Prerequisite(s)/Corequisite(s): FREN 2120 or equivalent. Not open to non-degree graduate students.

FREN 3030 FRENCH CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels.
Prerequisite(s)/Corequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3040 FRENCH GRAMMAR AND COMPOSITION (3 credits)
Review of grammatical principles, practice in written composition.
Prerequisite(s)/Corequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3050 TRADUCTION LITTERAIRE (3 credits)
Grammar review and introduction to techniques of translation for general literature.
Prerequisite(s)/Corequisite(s): FREN 3040 or permission

FREN 3060 READINGS IN FRENCH (3 credits)
This course aims to increase students’ fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students’ vocabulary through the use of a variety of primary sources; many genres will be sampled.
Prerequisite(s)/Corequisite(s): FREN 2120. Not open to non-degree graduate students.

FREN 3150 INTRODUCTION TO FRENCH LITERATURE II (3 credits)
Readings of French authors from the Middle Ages to 1800. Lectures, reports, collateral readings.
Prerequisite(s)/Corequisite(s): FREN 3030 or FREN 3040.
FREN 3160 INTRODUCTION TO FRENCH LITERATURE II (3 credits)
Readings of French authors from 1800 to the present. Lectures, reports, collateral readings.
Prerequisite(s)/Corequisite(s): FREN 3150 or permission. For majors, FREN 3150 and 3160 are prerequisites to all other literature courses but may be taken concurrently with such courses.

FREN 3370 FRENCH CIVILIZATION (3 credits)
A historical view of France through its political, artistic, musical, literary, architectural and philosophical development from prehistory to the present.
Prerequisite(s)/Corequisite(s): FREN 2120 or permission

FREN 3580 BUSINESS FRENCH (3 credits)
An introduction to the French Francophone business world. Students will acquire the necessary skills and strategies to perform adequately in a French/Francophone business environment so they can understand the cultural differences between American and Francophone business worlds.
Prerequisite(s)/Corequisite(s): FREN 2120 or equivalent

FREN 4030 ADVANCED FRENCH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with FREN 8036).
Prerequisite(s)/Corequisite(s): FREN 3030 or departmental permission

FREN 4040 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition, and stylistics. (Cross-listed with FREN 8046).
Prerequisite(s)/Corequisite(s): FREN 3040 or departmental permission, and ENGL 1160

FREN 4050 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3-6 credits)
Resident study in Quebec City, Quebec, with emphasis on total immersion in the language, homestays, intensive classroom instruction and cultural activities. Summer, 5-week term, 5 hours daily. (Cross-listed with FREN 8056).
Prerequisite(s)/Corequisite(s): FREN 3040 or departmental permission, and ENGL 1160

FREN 4150 CONTEMPORARY FRENCH NOVEL (3 credits)
Selected contemporary French novels are analyzed and discussed. (Cross-listed with FREN 8156).
Prerequisite(s)/Corequisite(s): FREN 3150 and FREN 3160, or permission

FREN 4160 FRENCH THEATER OF THE 17TH TO 19TH CENTURIES (3 credits)
An introduction to French theater and its development in the 17th, 18th and 19th centuries. Plays will be discussed and analyzed.
Prerequisite(s)/Corequisite(s): FREN 3150 or FREN 3160

FREN 4170 CONTEMPORARY FRENCH DRAMA (3 credits)
Selected contemporary French plays are analyzed and discussed.
Prerequisite(s)/Corequisite(s): FREN 3150 or FREN 3160, or permission

FREN 4220 THE STRUCTURE OF FRENCH (3 credits)
A survey of the linguistic structure of French. Topics include phonology, morphology, syntax and semantics. (Cross-listed with FREN 8226).
Prerequisite(s)/Corequisite(s): FREN 3040 and FREN 4610/8616, or departmental permission.

FREN 4860 MODERN FRENCH WOMEN AUTHORS (3 credits)
A comparative treatment of works by women in contemporary and recent French literature; the “feminine” perspective on society, politics and human values as expressed in those works. (Cross-listed with FREN 8866).
Prerequisite(s)/Corequisite(s): FREN 3150 or FREN 3160, or permission.

FREN 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work. (Cross-listed with FREN 8906).
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission.

FREN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 8956).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and or cultural studies of the Francophone world. (Cross-listed with FREN 8966).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 8976).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

Geography (GEOG)

GEOG 1000 FUNDAMENTALS OF WORLD REGIONAL GEOGRAPHY (3 credits)
An introductory course designed to acquaint students with the basic concepts of geography and to examine the interrelationships between people and their environments.
Distribution: Social Science General Education course and Global Diversity General Education course

GEOG 1020 INTRODUCTION TO HUMAN GEOGRAPHY (3 credits)
An introductory course which studies the geography of human activity through a topic by topic coverage of cultural traits and complexes that characterize different societies in the world. Major cultural topics of focus are the geography of population, agricultural systems, settlement, language, religion, political patterns, and man's ways of occupying urban and industrial space, among others.
Distribution: Social Science General Education course and Global Diversity General Education course

GEOG 1030 INTRODUCTION TO PHYSICAL GEOGRAPHY (4 credits)
This course is designed to acquaint the student with those processes active in shaping the surface of the earth and their relationship to one another. Includes the study of the atmosphere, river systems and hydrology, glaciers, climate, plate tectonics and landforms. Includes weekly laboratory sessions. One half-day field trip is included.
Distribution: Natural/Physical Sci General Education lecture&lab

GEOG 1050 HUMAN-ENVIRONMENT GEOGRAPHY (4 credits)
Learn about how sustainability and quality of life depend on human interactions with environmental phenomena such as Climate, Drought, Energy, Water, and Biodiversity. These interactions influence patterns of Urbanization, Technology, Consumption, and Agriculture that can improve or degrade quality of life and sustainability. Lecture emphasizes concepts for understanding and explaining human-environment interaction. Labs focus on fundamentals of physical earth science and how these offer possibilities for sustainable development.
Distribution: Natural/Physical Sci General Education lecture&lab
GEOG 1090 INTRODUCTION TO GEOSPATIAL SCIENCES (4 credits)
An introductory lecture/lab that has students learn and apply the principles of geospatial science within the frameworks of Geographic Information Science (GISc), Remote Sensing, Aerial Photography, Photogrammetry, Global Positioning Systems and Cartography/Visualization. The course focuses on the underlying scientific basis that is shared across all of these frameworks. Students will produce both maps and spatial analysis by the end of the course using all of the above frameworks.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Natural/Physical Sci General Education lecture/lab

GEOG 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLGY (1 credit)
This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Various classes will be offered as sections of GEOG/GEOL 2500, but will be separate from one another. Students may repeat GEOG/GEOL 2500 as often as they like as long as no specific subject is duplicated.
Prerequisite(s)/Corequisite(s): Variable.

GEOG 2620 AERIAL PHOTOGRAPHIC INTERPRETATION (3 credits)
A practical application of various types of aerial photographs to the interpretation and analysis of both physical and cultural landscapes. Provides a fundamental tool for those interested in geography, geology, ecology and the environment. Recommended: Three hours in geography or geology.

GEOG 3000 TRAVEL STUDY IN GEOGRAPHY (3 credits)
The course examines the development of travel as a human endeavor and the process of planning a trip to a foreign country. A major objective of the course is the use and evaluation of Internet travel resources. This is accomplished by searching for relevant sources and assembling this material for presentation to others through the Internet.
Prerequisite(s)/Corequisite(s): An introductory course in geography is highly recommended along with a basic knowledge of online tools available through the Internet.

GEOG 3030 GEOGRAPHY OF AFRICA (3 credits)
The political, physical, economic and demographic features of Africa with emphasis on the effect of these factors in development. The major features of the broad geographical regions of Africa.
Prerequisite(s)/Corequisite(s): Junior

GEOG 3050 GEOGRAPHY IN FILM (3 credits)
An introduction to the concepts and techniques of map construction and interpretation. This course will also give hands-on experience in the production of maps using scientific principles techniques, procedures and data associated with meteorology. Offered on-line only.
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

GEOG 3080 EAST & SOUTHEAST ASIA (3 credits)
An introduction to the physical and cultural landscape of East (China, Japan, etc.), and Southeast Asia. Emphasis is placed upon the sequence of occupancy of the land agrarian traditional economies and contemporary problems of development. Offered infrequently, on demand.
Prerequisite(s)/Corequisite(s): Junior

GEOG 3130 ECONOMIC GEOGRAPHY (3 credits)
An introduction to the basic concepts and approaches in contemporary economic geography. The course examines the core economic activities from a geographical perspective, the historical development of the world economy, and the geographical effects of economic globalization. (Cross-listed with ECON 3130)
Prerequisite(s)/Corequisite(s): Junior

GEOG 3230 GEOGRAPHY OF EUROPE (3 credits)
A comprehensive examination of contemporary Europe from a geographical perspective. The course covers physical, cultural, political, urban, population and economic geography of Europe as well as the recent political and economic transformations in both Western and Eastern Europe.
Prerequisite(s)/Corequisite(s): GEOG 1000, GEOG 1020, or GEOG 1060 or GEOG 1070, and junior.

GEOG 3240 RUSSIA AND FORMER SOVIET REPUBLICS (3 credits)
A comprehensive examination of Russia and the former Soviet republics from a geographical perspective. The course is organized topically to cover physical, historical, political, urban, population and environmental geography. Special attention is given to geographical and environmental effects of the collapse of the former Soviet Union and the post-Communist transformation.
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020 or GEOG 3130 and junior, or permission of instructor

GEOG 3330 UNITED STATES & CANADA (3 credits)
A consideration by regions of the economic life from a geographic viewpoint.
Prerequisite(s)/Corequisite(s): Junior

GEOG 3440 NEBRASKA NATURAL RESOURCES MANAGEMENT (3 credits)
Method and actual application of managing natural resources in Nebraska, with emphasis on individual stewardship. The course will focus on the most current political, physical and economic developments in resources management.
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

GEOG 3510 METEOROLOGY (3 credits)
A course designed to acquaint the student with the atmospheric environment. The course deals with atmospheric processes, their relationship and variation in both time and space, and their effect on the overall environment of the earth.
Distribution: Natural/Physical Sci General Education lecture and lab

GEOG 3514 INTRODUCTION TO METEOROLOGY LABORATORY (1 credit)
This lab is designed to give students practice with atmospheric processes using scientific principles techniques, procedures and data associated with meteorology. Offered on-line only.
Prerequisite(s)/Corequisite(s): Concurrent or previous enrollment in GEOG 3510
Distribution: Natural/Physical Sci General Education lab course

GEOG 3530 CARTOGRAPHY & GIS (2 credits)
An introduction to the concepts and techniques of map construction and computer-based geographic information systems. Topics include map scale, map projections, thematic cartography, history of cartography, computer mapping, and global positioning systems. Particular attention is given to the processing and presentation of spatial data by the computer and the distribution of maps through the Internet. (Cross-listed with GEOG 8535).
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020 and GEOG 1060 or GEOG 1070 and a statistics course.
GEOG 3540 CARTOGRAPHY & GIS LAB (2 credits)
An introduction to the methods and techniques of map construction using both graphic design and geographic information system software. Topics include map design for both general reference and thematic maps. Particular attention is given to the processing, compilation, data classification, and symbolization of various types of spatial data. This course is the lab component of GEOG 3530.
Prerequisite(s)/Corequisite(s): Concurrent or previous registration in GEOG 3530.

GEOG 3930 POLITICAL GEOGRAPHY (3 credits)
An introduction to the basic concepts and approaches in contemporary political geography at the global, national and local scales. Core topics to be examined include geopolitics, imperialism, war and peace, global ecopolitics, states, nationalism and electoral geography.
Prerequisite(s)/Corequisite(s): Junior

GEOG 4010 CONSERVATION OF NATURAL RESOURCES (3 credits)
A study of conservation techniques and problems with particular emphasis on the United States. Includes philosophical and economic aspects of resource management and a systematic survey of traditional conservation topics including soils, forestry, water resources and energy. (Cross-listed with GEOG 8016).
Prerequisite(s)/Corequisite(s): Three hours of geography.

GEOG 4020 QUANTITATIVE ANALYSIS IN GEOGRAPHY (3 credits)
An introduction to multivariate statistical analysis and spatial statistics. Emphasis will be placed on the nature of geographic data, sampling theory and design, descriptive and spatial statistics, inferential statistics, correlation and regression analysis. Students will receive hands-on experience working with statistical data sets, software and scientific visualization of numerical results. (Cross-listed with GEOG 8026).
Prerequisite(s)/Corequisite(s): MATH 1530 or equivalent

GEOG 4030 COMPUTER MAPPING AND VISUALIZATION (3 credits)
Computer techniques in mapping and visualization of spatial data. Various forms of spatial data manipulation and computer graphic output techniques are examined. Particular attention is given to the incorporation of interaction and animation in the display of maps as well as the creation of maps for distribution through the Internet. (Cross-listed with GEOG 8036).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540 or permission of instructor

GEOG 4040 GEOARCHEOLOGY (3 credits)
The study of archaeology with the use of geological and geographical methodology. (Cross-listed with GEOG 8046).
Prerequisite(s)/Corequisite(s): Major in geology or geography; or major in anthropology, philosophy or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEOL 1010; or permission

GEOG 4050 GEOGRAPHIC INFORMATION SYSTEMS I (4 credits)
An introduction to the history and principles and geographic information systems (GIS). Emphasis will be placed on geographic data input, manipulation, analysis, and output functions. Exercises introduce students to GIS software and applications. (Cross-listed with GEOG 8056).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540 or 6 credit hours of GEOG course.

GEOG 4100 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with BIOL 4100, GEOG 4100, BIOL 8106, GEOG 8106, GEOL 8106).
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750 or GEOG 3100 or BIOL 3100, junior-senior.

GEOG 4120 URBAN GEOGRAPHY (3 credits)
A geography of the city from the viewpoint of history, site and situation, external relations, internal relations and the comparative study of cities. (Cross-listed with GEOG 8126).

GEOG 4140 URBAN SOCIOLOGY (3 credits)
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with GEOG 8146).
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010 or permission of instructor.

GEOG 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership.(Cross-listed with WGST 4150, ENTR 4150, ENTR 8156, GEOG 8156 and WGST 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

GEOG 4160 URBAN SUSTAINABILITY (3 credits)
Using sustainability as a conceptual framework, students in this course will investigate a variety of social, economic, and environmental challenges facing cities of the 21st century. Topics and issues explored include urban growth and expansion, livability, equity & gentrification, energy use & production, urban farming, poverty, automobile & transportation, water security, urban pollution, and the role of cities in climate change. (Cross-listed with GEOG 8166)
Prerequisite(s)/Corequisite(s): Junior

GEOG 4170 ADVANCED CULTURAL GEOGRAPHY (3 credits)
This course examines current theoretical debate and research practice in a select topic in Cultural Geography. Emphasis will be on readings and discussion with students engaging in original research. Specific thematic focus will vary from year to year. This course may be taken multiple times as long as topics differ. (Cross-listed with GEOG 8176).
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020, junior standing, or permission of the instructor.

GEOG 4230 GREAT PLAINS & NEBRASKA (3 credits)
A study of the major physical and cultural attributes of the region. Emphasizes settlement history and the role of agriculture on the regional economy. (Cross-listed with GEOG 8236).

GEOG 4250 LANDFORM STUDIES: THEORY AND STRUCTURAL GEOMORPHOLOGY (3 credits)
Primarily a lecture course with emphasis on the historical development of theories in evolution of earth surface features and processes, coupled with underlying structural controls of landforms. (Cross-listed with GEOG 8256).
Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOL 1170

GEOG 4260 PROCESS GEOMORPHOLOGY (3 credits)
Primarily a lecture and laboratory course. Emphasis on methodology and modern process-oriented geomorphology. (Cross-listed with GEOG 8266).
Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOL 1170

GEOG 4320 CLIMATOLOGY (3 credits)
A study of climatic processes and their effect on shaping the physical landscape. Emphasis on physical and applied aspects of the field. (Cross-listed with GEOG 8326).
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1060 or GEOG 3510
GEOG 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOG 8336).
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1050, GEOG 1010, GEOG 1170 or instructor permission.

GEOG 4340 WATER RESOURCES (3 credits)
A study of the applied principles of hydrology, water systems modeling, river basin development, and water management issues and practices in the United States and other parts of the world. (Cross-listed with GEOG 8346).
Prerequisite(s)/Corequisite(s): GEOG 1060 and Junior standing

GEOG 4530 HISTORICAL GEOGRAPHY OF U.S. (3 credits)
An analysis of historical circumstances behind contemporary patterns of American cultural geography. (Cross-listed with GEOG 8536).
Prerequisite(s)/Corequisite(s): GEOG 1060 and Junior standing

GEOG 4550 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)
A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 8556, CACT 8116).
Prerequisite(s)/Corequisite(s): An introductory level human geography course. GEOG 1020 or GEOG 1000

GEOG 4600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional and primary materials concerned with a region. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOL 4600).
Prerequisite(s)/Corequisite(s): Permission of department chair.

GEOG 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOG 8616, GEO 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOG 4620 GEOGRAPHICAL FIELD STUDIES (3 credits)
Field experience course based on variable topics and themes. Students must attend the multiple day field trip that will require overnight stays. (Cross-listed with GEOG 8626).
Prerequisite(s)/Corequisite(s): Instructor Permission. Not open to non-degree graduate students.

GEOG 4630 ENVIRONMENTAL REMOTE SENSING (4 credits)
Introduction to remote sensing science and technology. Emphasis will be placed on multispectral data, matter/energy interactions, sensor system characteristics, photogrammetry, image interpretation, digital image processing and environmental applications. Formal laboratory instruction will provide students with problem-solving skills and hands-on experience with remote sensing and GIS software. (Cross-listed with GEOG 8636).
Prerequisite(s)/Corequisite(s): GEOG 1060 or GEOG 1070 or GEOG 1170. Introductory statistics highly recommended.

GEOG 4640 CRITICAL ZONE SCIENCE (3 credits)
This course examines the Critical Zone (CZ), Earth’s permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZO) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 8646, GEO 4640)
Prerequisite(s)/Corequisite(s): GEOG 1170, GEOG 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOG 4660 GEOGRAPHIC INFORMATION SYSTEMS II (4 credits)
An Introduction to advanced geographic information system (GIS) topics. Emphasis will be placed on algorithms and analysis for information extraction. Topics include spatial interpolation, remote sensing GIS integration, software development, spatial analysis, GIS modeling, and future advances in GIS. Formal laboratory instruction will provide students with GIS experience to solve application problems. (Cross-listed with GEOG 8666).
Prerequisite(s)/Corequisite(s): GEOG 4050 / GEOG 8056

GEOG 4800 INTERNSHIP IN ENVIRONMENTAL REGIONAL PLANNING EARTH SCIENCE (1-6 credits)
Internship with local agencies or corporations enabling students to gain knowledge and experience in comprehensive regional or environmental planning or environmental science.
Prerequisite(s)/Corequisite(s): Senior, major or area of concentration in geography or environmental science and permission

GEOG 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulation. The course will address federal regulations, implementing instructions, legal principles and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation will be discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, ENVN 4820, GEOG 8826, PA 4820, PA 8826)
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

GEOG 4900 URBANIZATION IN DEVELOPING AREAS (3 credits)
The functions and morphology of various types of cities found in presently developing areas of the world. Emphasis will be upon contrasting the cities of the developed and developing areas. (Cross-listed with GEOG 8906).
Prerequisite(s)/Corequisite(s): Six hours of geography, or junior and GEOG 4120

GEOG 4950 SENIOR THESIS (3 credits)
An independent research project undertaken by geography majors during their final year. Topics will be selected in consultation with two appropriate faculty formally approved in writing by them before student registers for the course. Research will be field work, laboratory work and/or library sources.
Prerequisite(s)/Corequisite(s): Senior geography major
**Geology (GEOL)**

**GEOL 1010 ENVIRONMENTAL GEOLOGY (3 credits)**
This is an introductory course for non-majors designed to make students aware of their physical environment and those factors that should influence where we site our home and communities. Topics will include hazards associated with volcanoes, earthquakes, landslides, floodplains and the problems associated with toxic waste disposal.

**Distribution:** Natural/Physical Science General Education course

**GEOL 1100 EARTH SYSTEM SCIENCE (3 credits)**
This course is an introduction to system science as applied to the earth. Students learn about simple earth system models, focusing on the hydrologic, rock and carbon cycles and energy flow through and linkages among them. Students also learn how short and long term global changes result from system interactions.

**Distribution:** Natural/Physical Science General Education course

**GEOL 1104 EARTH SYSTEM SCIENCE LAB (1 credit)**
This laboratory course is an optional companion to GEOL 1100, Earth System Science, but can be taken alone. Computer and web based exercises lead students through scientific investigation of Earth components, processes and systems. Topics include: scientific visualization and methodology, energy flow in the earth environment, convection in fluids, population dynamics, plate tectonics, river systems, coastal systems, biodiversity and Earth system history.

**Distribution:** Natural/Physical Science General Education lab course

**GEOL 1170 INTRODUCTION TO HISTORICAL GEOLOGY (4 credits)**
Fundamentals of geology. The study of the internal geologic processes and external and erosional and depositional processes which create the subsurface and surface features of the earth. Fundamentals of contour mapping, topographic map interpretation and identification of common minerals and rocks will be covered in a required laboratory period. One field trip required.

**Distribution:** Natural/Physical Science General Education lecture lab

**GEOL 1180 INTRODUCTION TO HISTORICAL GEOLOGY (4 credits)**
Basic fundamentals for interpretation of earth history. Deduction of history of earth-moon system through interpretation of geologic phenomena using principles of stratigraphy, sedimentation, structure and fossil content. Global tectonics, encompassing theories of sea-floor spreading and continental drift are presented. Fundamentals and interpretation of geologic environments and geologic maps, coupled with identification of fossils will be covered in a required laboratory period. One field trip required.

**Prerequisite(s)/Corequisite(s):** GEOL 1170 or GEOL 1070 or permission of Geography-Geology Department.

**GEOL 2014 ENVIRONMENTAL GEOLOGY LAB (1 credit)**
Basic topics such as geohydrology, water quality, waste management (including landfill siting and design), flood frequency, slope stability and earthquake hazards are covered via labs and field trips at a detailed introductory level. Local sites and associated data are used where possible to illustrate fundamental principles and commonly used analytic techniques.

**Prerequisite(s)/Corequisite(s):** GEOL 1010 or GEOG 1170 or GEOG 1030 or permission of instructor.

**GEOL 2100 GEOLOGY OF NEBRASKA (3 credits)**
An introduction to the geologic features of Nebraska, and how the evidence they provide can be used to scientifically interpret the ancient history of the region. A review of the geologic history of Nebraska as it is currently understood will place the events documented in the larger context of Earth history.

**Distribution:** Natural/Physical Science General Education course

**GEOL 2300 GEOSCIENCE DATA ANALYSIS AND MODELING (3 credits)**
Introduction to foundation geoscience analysis and modeling techniques. Topics covered include: describing and comparing populations, simple data manipulations, fractals, surface contouring and modeling, exponential behavior, GIS, graphic representation, and computer modeling. Abundant examples and exercises will work with actual geoscience data.

**Prerequisite(s)/Corequisite(s):** GEOL 1010 or GEOL 1170, or GEOG 1030 or GEOG 1060 or GEOG 1070, or permission of instructor.

**GEOL 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLOGY (1 credit)**
This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Various classes will be offered as sections of GEOL 2500, but will be separate from one another. Students may repeat GEOL 2500 as often as they like as long as no specific subject is duplicated.

**Distribution:** Natural/Physical Science General Education course

**GEOL 2600 GEOHYDROLOGY (3 credits)**
A course dealing with geology, chemistry and hydraulics of groundwater. Designed mainly for Geology majors but can be helpful to other disciplines where ground water is involved.

**Prerequisite(s)/Corequisite(s):** MATH 1930 or MATH 1950

**GEOL 2750 MINERALOGY (3 credits)**
Introduction to crystallography and mineralogy. Crystallography section is a study of crystal structure, symmetry and crystal systems. Mineralogy section is devoted to the description, identification and classification of minerals based on their crystal forms, physical properties, chemical composition and occurrence in nature. Must be taken concurrently with GEOL 2754.

**Prerequisite(s)/Corequisite(s):** GEOL 1170. Must be taken concurrently with GEOL 2754.

**GEOL 2754 MINERALOGY LABORATORY (1 credit)**
A systematic investigation of minerals and the techniques of studying minerals to be taken concurrently with GEOL 2750. (Fall)

**Prerequisite(s)/Corequisite(s):** Concurrent enrollment in GEOL 2750

**GEOL 2760 IGNEOUS AND METAMORPHIC PETROLOGY (3 credits)**
A study of the nature of igneous and metamorphic rocks. Topics include genesis and crystallization of magmas, phase equilibria of mineral assemblages, and pressure and temperature conditions of metamorphism. One weekend field trip will be required. Must be taken concurrently with GEOL 2764.

**Prerequisite(s)/Corequisite(s):** GEOL 2750. Must be taken concurrently with GEOL 2764.

**GEOL 2764 IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY (1 credit)**
Petrology Laboratory is an introduction to the methods of petrology with emphasis on hand specimen identification and use of the petrographic microscope. Must be taken concurrently with GEOL 2760. (Spring)

**Prerequisite(s)/Corequisite(s):** Concurrent enrollment in GEOL 2760

**GEOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)**
An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with GEOL 3104. (Cross-listed with BIOL 3100).

**Prerequisite(s)/Corequisite(s):** GEOL 1180. Must be taken concurrently with GEOL 3104.

**GEOL 3104 INVERTEBRATE PALEONTOLOGY LABORATORY (1 credit)**
An examination of representative specimens of groups of organisms important in the fossil record and an introduction to analytical techniques in paleontology. Must be taken concurrently with GEOL 3100.

**Prerequisite(s)/Corequisite(s):** GEOL 1180 or permission; Concurrent enrollment in GEOL 3100
GEOL 3300 STRUCTURAL GEOLOGY (3 credits)
A study of the deformation of rocks in the earth's crust. Analysis of stress and strain in rocks under physical conditions occurring in the earth's crust. Recognition and interpretation of structural features. Must be taken concurrently with GEOL 3310.
Prerequisite(s)/Corequisite(s): GEOL 2760, MATH 1930 or MATH 1950. Must be taken concurrently with GEOL 3310.

GEOL 3310 STRUCTURAL GEOLOGY FIELD METHODS (1 credit)
A course to accompany GEOL 3300. Field trips are included. Emphasis will be on collection and presentation of field data. Must be taken concurrently with GEOL 3300.
Prerequisite(s)/Corequisite(s): GEOL 2760, MATH 1930 or MATH 1950. Concurrent enrollment in GEOL 3300.

GEOL 3400 INTRODUCTION TO SEDIMENTARY GEOLOGY (3 credits)
An introduction to the basic principles and concepts of sedimentology and stratigraphy. It will include a review of sedimentary processes and depositional environments and principles and techniques of stratigraphy, such as biostratigraphy and radiometric dating.
Prerequisite(s)/Corequisite(s): GEOL 2760 and GEOL 2764

GEOL 3700 PLATE TECTONICS (3 credits)
An introduction to and analysis of the all-embracing concept that has revolutionized the Earth Sciences, the theory of plate tectonics; paleomagnetic data, polar wandering and magnetic reversals; structure and life cycle of the oceanic crust, origin of the major structural features of the earth, ice-age form distribution, island arcs, crustal rejuvenation, continental collisions, mineral deposits.
Prerequisite(s)/Corequisite(s): GEOL 1170, GEOL 1180 and upper division standing.

GEOL 4040 GEOARCHAEOLOGY (3 credits)
The study of archaeology with the use of geological and geographical methodology. (Cross-listed with GEOG 4040, GEOG 8046).
Prerequisite(s)/Corequisite(s): Major in geology or geography; or major in anthropology, philosophy, or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEOL 1010; or permission.

GEOL 4100 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with GEOL 8106, BIOL 4100, BIOL 8106, GEOG 4100, GEOG 8106).
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior.

GEOL 4250 LANDFORM STUDIES: THEORY AND STRUCTURAL GEOMORPHOLOGY (3 credits)
Primarily a lecture course with emphasis on the historical development of theories in evolution of earth surface features and processes, coupled with underlying structural controls of landforms.
Prerequisite(s)/Corequisite(s): GEOG 1030 or GEOG 1170.

GEOL 4260 PROCESS GEOMORPHOLOGY (3 credits)
Primarily a lecture and laboratory course. Emphasis on methodology and modern process-oriented geomorphology. (Cross-listed with GEOL 8266).
Prerequisite(s)/Corequisite(s): GEOG 1030 or GEOG 1170.

GEOL 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOG 8336)
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1050, GEOG 1010, GEOL 1170 or instructor permission.

GEOL 4400 GEOPHYSICS (3 credits)
A study of geophysical techniques used to understand the earth and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock rheology and plate tectonics will also be addressed. Interpretive skills will be emphasized.
Prerequisite(s)/Corequisite(s): GEOL 1170, PHYS 2110, MATH 1930 or MATH 1950 or permission of instructor

GEOL 4540 GEOCHEMISTRY (3 credits)
This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of igneous, metamorphic and sedimentary rocks and ore deposits. (Every third semester).
Prerequisite(s)/Corequisite(s): GEOL 1170, CHEM 1190 and either GEOL 2750 or CHEM 2500

GEOL 4600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional and primary materials concerned with a region. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOG 4600).
Prerequisite(s)/Corequisite(s): Permission of department chair.

GEOL 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOG 8616, GEOG 8616).
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOL 4620 ADVANCED FIELD COURSE (6 credits)
Six weeks of advanced study on selected field problems. Conducted in a geologically classic area where all the major rock types and structures may be studied in a variety of geological situations. Reports, which integrate the geology, surface processes and literature of the studied areas, is required. Recommended to follow the junior year.
Prerequisite(s)/Corequisite(s): GEOL 1170, GEOL 1180, GEOL 2750, GEOL 2760, GEOL 3300: GEOL 3450 recommended.

GEOL 4640 CRITICAL ZONE SCIENCE (4 credits)
This course examines the Critical Zone (CZ), Earth's permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZO) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 4640, GEOG 8646)
Prerequisite(s)/Corequisite(s): GEOL 1170, GEOL 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.
GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/Earth Science (1-6 credits)
Internship with local agencies or corporations enabling students to gain knowledge and experience in comprehensive regional or environmental planning or environmental science.
Prerequisite(s)/Corequisite(s): Senior, major or area of concentration in geography or environmental science and permission.

GEOL 4950 SENIOR THESIS (3 credits)
An independent research project undertaken by all geology majors during their final year. Topics will be selected in consultation with appropriate faculty and researched through field work, laboratory work and/or library sources.
Prerequisite(s)/Corequisite(s): Senior

GERM (GERM)

GERM 1000 PRACTICAL GERMAN CONVERSATION (3 credits)
Oral practice involving everyday situations. Not applicable to the foreign language requirement in the College of Arts and Sciences.

GERM 1110 ELEMENTARY GERMAN I (5 credits)
Elementary German I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural issues from the German-speaking world.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

GERM 1120 ELEMENTARY GERMAN II (5 credits)
Pronunciation, listening comprehension, speaking and reading.
Prerequisite(s)/Corequisite(s): GERM 1110 or three years of high school German. Department permission is needed for transfer credit.

GERM 2110 INTERMEDIATE GERMAN I (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): GERM 1120 or four years of high school German. Department permission is needed for transfer credit.

GERM 2120 INTERMEDIATE GERMAN II (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): GERM 2110. Department permission is needed for transfer credit.

GERM 3030 GERMAN CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3040 GERMAN GRAMMAR & COMPOSITION (3 credits)
Review of grammatical principles, practice in written composition.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3060 READINGS IN GERMAN (3 credits)
This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.
Prerequisite(s)/Corequisite(s): GERM 2120; Not open to non-degree graduate students

GERM 3250 CONTEMPORARY CULTURE IN GERMAN SPEAKING COUNTRIES (3 credits)
The study of political, social, economic and cultural life in Germany, Austria, and Switzerland.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3370 GERMAN HISTORY FROM THE BEGINNINGS UNTIL THE EARLY MODERN PERIOD (3 credits)
This course covers history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from prehistory until the early 18th century.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3380 GERMAN HISTORY FROM THE ENLIGHTENMENT TO THE PRESENT (3 credits)
This course will cover the history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from the Enlightenment until the present.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3500 SPECIAL TOPICS IN GERMAN (3 credits)
Detailed study of narrower phases of literature, language or culture.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3580 GERMAN FOR PROFESSIONAL LIFE (3 credits)
This course focuses upon the development of German language skills and concomitant cultural awareness that can be utilized to conduct oneself appropriately in professional situations in German-speaking countries.
Prerequisite(s)/Corequisite(s): GERM 2120 or the equivalent.

GERM 3650 INTRODUCTION TO GERMAN FILM (3 credits)
This course introduces students to seminal works in the history of German film.
Prerequisite(s)/Corequisite(s): GERM 2120 or by permission.

GERM 4030 ADVANCED GERMAN CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with GERM 8036).
Prerequisite(s)/Corequisite(s): GERM 3030 or departmental permission.

GERM 4040 ADVANCED GERMAN COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition and stylistics. (Cross-listed with GERM 8046).
Prerequisite(s)/Corequisite(s): GERM 3040 or departmental permission, and ENGL1160.

GERM 4150 INTRODUCTION TO GERMAN LITERATURE (3 credits)
Introduction to the history of literature of Germany, Austria, and German-speaking Switzerland. Students will read selections from the 18th, 19th and 20th centuries.
Prerequisite(s)/Corequisite(s): GERM 3060 or instructor permission.

GERM 4210 TRANSLATING GERMAN (3 credits)
Students learn basic translation theory and techniques from the German to the English language.
Prerequisite(s)/Corequisite(s): GERM 3030 and GERM 3040 or by permission

GERM 4220 THE STRUCTURE OF GERMAN (3 credits)
A survey of the linguistic structure of modern German, including phonology, morphology, and syntax. (Cross-listed with GERM 8226).
Prerequisite(s)/Corequisite(s): GERM 3040 and GERM 4610, or permission of instructor.

GERM 4380 GERMAN CIVILIZATION FROM THE 18TH CENTURY TO THE PRESENT (3 credits)
Detailed analysis of German art, architecture, literature, music and philosophy. The influence of the sciences and of technology upon modern German civilization and culture. (Cross-listed with GERM 8386).
Prerequisite(s)/Corequisite(s): GERM 3370 or permission

GERM 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work. (Cross-listed with GERM 8906).
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior standing, and no incompletes outstanding.
GERM 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 8956).
Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4960 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 8966).
Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
The course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 8976).
Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060.

Gerontology (GERO)

GERO 1070 SURVEY OF AGING & DYING (3 credits)
A survey of important concepts relating to later maturity and the end of life. This course will serve as an elective for students who do not intend to specialize in gerontology, but who wish to have some perspective on development in late life and issues relating to death and dying.

GERO 2000 INTRODUCTION TO GERONTOLOGY (3 credits)
An introduction to social gerontology and human development in later life; emphasis is on important elements of aging, such as socialization, family interaction, retirement, physical and psychological aging, and perceptions of older persons in contemporary society.
Distribution: Social Science General Education course and U.S. Diversity General Education course

GERO 3070 DEATH & DYING (3 credits)
An interdisciplinary survey of literature in the field of thanatology, with an emphasis on working with the older patient and his or her family. (Cross-listed with HED 3070).

GERO 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)
The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with BIOL 3500, NEUR 3500)
Prerequisite(s)/Corequisite(s): Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

GERO 4100 EDUCATIONAL GERONTOLOGY (3 credits)
An introduction to the field of education for and about the aging. The institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging. (Cross-listed with GERO 8106).

GERO 4350 ISSUES IN AGING (3 credits)
This course is intended for students in gerontology and other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people. (Cross-listed with GERO 8356).

GERO 4420 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with GERO 8426, RLS 4420, RLS 8426).

GERO 4460 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with PSYC 4460, GERO 8466).
Prerequisite(s)/Corequisite(s): Junior or senior.

GERO 4470 MENTAL HEALTH & AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with GERO 8476, PSYC 4470, PSYC 8476).
Prerequisite(s)/Corequisite(s): Junior or senior.

GERO 4480 COMPARATIVE GERONTOLOGY (3 credits)
The study of aging around the world by a comparative method in a cross-cultural and cross-national framework. An explanation of some practical experiences and developments in Europe, Asia and Africa will be examined. (Cross-listed with GERO 8486).

GERO 4500 LEGAL ASPECTS OF AGING (3 credits)
Consideration of the legal concerns which are likely to arise as people age. Includes introduction to the American legal system and emphasis on underlying legal concepts and issues of special importance to older persons. (Cross-listed with GERO 8506).

GERO 4510 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 8516, PA 4510, PA 8516).

GERO 4520 SENIOR HOUSING (3 credits)
The senior housing course is designed to provide students with an in-depth understanding of the various housing options available to older adults including aging in place to hospice. At the end of the course students will have a working knowledge of the needs of older adults and how this is used in making decisions about housing. (Cross-listed with GERO 8526).
Prerequisite(s)/Corequisite(s): Junior/Senior Standing

GERO 4550 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 8556, HED 4550, HED 8556, WGST 4550).

GERO 4560 NUTRITION AND AGING (3 credits)
The goal of this course is to provide an understanding of the relationship between nutrition and successful or usual aging. This course will review the basics of good nutrition and relate them to the usual food intake of older adults. It will identify the impact of poor nutrition. This course will also look at the role nutrition plays in various disease processes that are associated with aging. It will provide information about support services that are available to assure good nutrition into old age for those living independently. (Cross-listed with GERO 8566).
Prerequisite(s)/Corequisite(s): Junior Standing.
GERO 4590 DISORDERS OF COMMUNICATION IN OLDER ADULTS (3 credits)
This course is designed to familiarize the student with the identification and symptomatology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. It is beneficial to students majoring in gerontology or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields. Graduate: Students are assigned contacts with and written reports of contacts with an older adult who manifests a disorder of communication. (Cross-listed with GERO 8596).

GERO 4670 PROGRAMS AND SERVICES FOR THE ELDERLY (3 credits)
This course is provided to give the student an historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO 8676).
Prerequisite(s)/Corequisite(s): Junior or senior. Not open to non-degree graduate students.

GERO 4690 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 8696, SOWK 4040, SOWK 8046).

GERO 4720 BABY BOOMERS AND THE 21ST CENTURY (3 credits)
Marketing decisions and strategies apply to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses. (Cross-listed with GERO 8726).
Prerequisite(s)/Corequisite(s): Junior, Senior or Graduate Level Standing.

GERO 4750 MID-LIFE, CAREER CHANGE, PRERETIREMENT PLANNING (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implications of preretirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with COUN 8756, GERO 8756).
Prerequisite(s)/Corequisite(s): Junior Standing, permission of instructor. Not open to non-degree graduate students.

GERO 4850 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 8856, SOWK 4850, SOWK 8856.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 4920 SPECIAL STUDIES IN GERONTOLOGY (1-3 credits)
Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics or politics of aging, as well as operation of various service systems. The studies may be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.
Prerequisite(s)/Corequisite(s): Six hours in gerontology or permission.

GERO 4940 PRACTICUM (3 credits)
This course provides the opportunity to students to share field experiences; to obtain guidance concerning various relationships with agency, staff and clients; and to develop a broadly based perspective of the field of aging.
Prerequisite(s)/Corequisite(s): Nine hours in gerontology and permission. Students must be enrolled in the GERO program and have a minimum GPA of 2.5. Not open to non-degree graduate students.

GERO 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

GERO 4980 COUNSELING SKILLS IN GERONTOLOGY (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with COUN 8986, GERO 8986).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

Goodrich Program (GDRH)

GDRH 1210 LEARNING THEORY AND STRATEGIES (3 credits)
This course focuses on the acquisition of specific learning strategies designed to improve students' ability to manage and monitor learning in a variety of college contexts. Emphasis is given to investigation of students' individual learning orientations as part of their development of strategic learning systems.
Prerequisite(s)/Corequisite(s): Goodrich Student

GDRH 2110 CORE TOPICS IN THE SOCIAL SCIENCES: LIFESPAN DEVELOPMENT (3 credits)
This course surveys the growth and development of humans from the prenatal stage through the end of life. Emphasis is on physical, cognitive, and socio-emotional processes with special attention given to the cultural contexts of development and the rich diversity that is produced. Key elements of the course include the importance of the scientific methods, socio-cultural comparisons, and critical thinking considerations.
Prerequisite(s)/Corequisite(s): Acceptance into the Goodrich Scholarship Program and typically completion of the freshmen curriculum. Not open to non-degree graduate students.
Distribution: Social Science General Education course

GDRH 2120 CORE TOPICS IN SOCIAL SCIENCES: SOCIAL ISSUES (3 credits)
This course uses the methods of the social sciences to help students understand social issues facing our society such as health care, aging, poverty, crime, the environment, racial and ethnic diversity, the economy, and education. Students are challenged to think critically and imaginatively about social problems and how the issues affect local, national, and global communities.
Prerequisite(s)/Corequisite(s): Students are expected to be accepted into the Goodrich Scholarship Program. Not open to non-degree graduate students.
Distribution: Social Science General Education course

GDRH 3010 SPECIAL TOPICS SEMINAR (1-3 credits)
The content of this topical seminar varies each semester. May be repeated as long as the topic is not the same.
Prerequisite(s)/Corequisite(s): May vary with each offering.
Health Education (HED)

HED 1500 FOUNDATIONS IN PUBLIC HEALTH (3 credits)
An introductory course for health education majors and minors that examines the relationship of health education to general education. The course includes an orientation to the process and the profession of community and school health education and a consideration of current trends, problems and issues and their implications for health professionals. The course will help candidates develop the knowledge, skills, competencies, and attitudes necessary to orchestrate the learning environment to health education.

HED 2070 DRUG AWARENESS (3 credits)
An introduction to the effects and rationales of drug use, misuse, and abuse. Included are the physiological, psychological, sociological, pharmacological, and legal aspects of drugs in a culturally diverse United States and abroad.

HED 2310 HEALTHFUL LIVING (3 credits)
A study of selected health problems and controversies in our society as related to knowledge, attitudes, and behaviors necessary for healthful living in a culturally diverse society.

HED 2850 STRESS MANAGEMENT (3 credits)
The health-related aspects of stress will be the focus of this course. Selected techniques for the self-regulation of stress will be demonstrated, practiced, and analyzed. Pressures from the culturally diverse United States and implications of a global society will be analyzed. Students will develop skills and competencies necessary to create a learning environment conducive to reducing stress.

HED 3000 SPECIAL PROJECTS (1-3 credits)
This course is designed to provide an opportunity to study a topic in health education through short course, seminar, workshop, or special project. Prerequisite(s)/Corequisite(s): The prerequisite for the special project will be determined by the instructor.

HED 3030 FIRST AID (3 credits)
Designed to give students knowledge and skill in implementing immediate, temporary treatment in case of injury or sudden illness before the services of a physician. Upon successful completion of the course, a student will receive a standard first aid and cardiopulmonary resuscitation certificate.

HED 3070 DEATH AND DYING (3 credits)
An interdisciplinary survey of literature in the field of thanatology, with an emphasis on working with the older patient and his or her family. (Cross-listed with GERO 3070).

HED 3080 HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)
An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today’s culturally diverse, global society. (Cross-listed with WGST 3080).

HED 3310 GENERAL SAFETY EDUCATION (3 credits)
This course is designed to develop an awareness of safe living in today’s multicultural and global society. It explores a multitude of safety programs for school, business, recreation, transportation, and the home. Special emphasis is placed on school safety education. The course is primarily designed for students, teachers, and administrators so that they may intelligently participate in the development of a program conducive to teaching safety.

HED 4000 METHODS & MATERIALS IN HEALTH EDUCATION (3 credits)
This course will provide an opportunity to study, develop and use different materials and equipment in health education. Various methods of teaching health will be practiced and evaluated. Candidates will be able to gain classroom and field experience (service-learning) in planning lessons and presentations. Prerequisite(s)/Corequisite(s): Junior standing, HED 1500

HED 4040 EPIDEMIOLOGY & PREVENTION OF DISEASE (3 credits)
The course is designed for school and community health education students and others who are interested in public health. The cause, prevention, treatment and control of prevalent communicable and non-communicable disease in a culturally diverse and global society will be emphasized. Special emphasis will be given to diseases and health problems that can be prevented or controlled through education and advocacy. Prerequisite(s)/Corequisite(s): HED 1500

HED 4050 INTRODUCTION TO RESEARCH IN PUBLIC HEALTH (3 credits)
This course will assist students to develop the basic skills to read and evaluate applied research to address contemporary problems in public health. The course will provide an introduction to proposal writing, data collection, research design, statistical analysis, computer application, and writing of research reports. Unique problems associated with data collection in public health settings such as public health departments, neighborhood health centers, and community based organizations will be addressed. Prerequisite(s)/Corequisite(s): Junior standing

HED 4060 SCHOOL HEALTH PROGRAMS (3 credits)
The purpose of this course is to provide information and strategies for planning, implementing, and evaluating Coordinated School Health Programs (CSHP) for diverse cultural groups. Content includes an overview of school health programs, the essential functions of each of the eight components, the role of national and state organizations in working with local agencies and school districts in promoting the development of comprehensive school health programs. Prerequisite(s)/Corequisite(s): HED 1500

HED 4130 COMMUNITY HEALTH (3 credits)
A survey course of community health issues. The basics of epidemiology/statistical sciences, environmental health, managerial/administrative sciences, and behavioral/social sciences for community health are examined. Health education candidates will gain skills needed to develop and manage community health programs. Prerequisite(s)/Corequisite(s): HED 1500

HED 4280 SOCIAL MARKETING FOR PUBLIC HEALTH (3 credits)
This course will introduce students to current theory, practices and resources in the field of social marketing as it relates to public health. Students will analyze and implement social marketing techniques. Prerequisite(s)/Corequisite(s): HED 1500, HED 4040 and HED 4050.

HED 4400 HEALTH LITERACY (3 credits)
This course is designed to provide students with the competencies to reduce problems associated with low health literacy. The two primary foci will be strategies to help patients and other health consumers improve their health literacy, and strategies to help health providers and health educators communicate in a manner that can be understood by all persons regardless of their health literacy. Prerequisite(s)/Corequisite(s): HED 1500.

HED 4420 PUBLIC HEALTH INFORMATICS (3 credits)
Students will learn the implementation, operation, and application of health information systems. Students will explore the legal and ethical issues surrounding health informatics and patient records, management and communication in health informatics, and social and organizational issues pertaining to health informatics. Prerequisite(s)/Corequisite(s): HED 1500.

HED 4550 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550 and GERO 8556 and HED 8556 and WGST 4550).
Health, Physical Education & Recreation (HPER)

HPER 2400  HEALTH ED. & PHYSICAL ED. FOR THE ELEMENTARY SCHOOL TEACHER (3 credits)
This course is designed to aid the classroom teacher in developing and implementing health education and physical education programs in the elementary school curriculum.
Prerequisite(s)/Corequisite(s): EDUC 2010

HPER 3090  APPLIED NUTRITION (3 credits)
The purpose of this course is to provide candidates with information from which to make informed decisions about their own personal nutrition and to apply nutritional concepts to the design of interventions in health, exercise science, physical education, and athletic training.

Hebrew (HEBR)

HEBR 1110  ELEMENTARY HEBREW I (5 credits)
Pronunciation, listening comprehension, speaking, and reading.

HEBR 1120  ELEMENTARY HEBREW II (5 credits)
Pronunciation, listening comprehension, speaking, and reading.
Prerequisite(s)/Corequisite(s): HEBR 1110

HEBR 2110  INTERMEDIATE HEBREW I (3 credits)
Grammar review, continued oral practice, more advanced readings. There is a strong emphasis on Biblical Hebrew with some Rabbinic texts studied.
Prerequisite(s)/Corequisite(s): HEBR 1110

HEBR 2120  INTERMEDIATE HEBREW II (3 credits)
Grammar review, continued oral practice, more advanced readings. There is a strong emphasis on Biblical Hebrew with some Rabbinic texts studied.
Prerequisite(s)/Corequisite(s): HEBR 2110

History (HIST)

HIST 1000  WORLD CIVILIZATIONS I (3 credits)
An examination of selected traditional and pre-industrial civilizations in the context of their regional, cultural and historical roots.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 1010  WORLD CIVILIZATIONS II (3 credits)
An examination of selected societies since the beginning of the modern era.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 1050  ANCIENT AFRICAN CIVILIZATION (3 credits)
Investigates the development of the civilization of ancient Egypt and its influences on the cultural development of other African and Mediterranean states, including ancient Greece. Emphasis is on religion/philosophy, archaeology, art and history. (Cross-listed with BLST 1050)

HIST 1110  AMERICAN HISTORY TO 1865 (3 credits)
A survey of North American history from the Indigenous and pre-contact era to the end of the Civil War.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

HIST 1120  AMERICAN HISTORY SINCE 1865 (3 credits)
A general survey of American history since the Civil War, emphasizing social and political change and the emergence of the United States as a global power.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2020  HISTORY OF SCIENCE SINCE 1650 (3 credits)
A survey of the historical and intellectual development of modern science and its relation to technology, society and social thought.
HIST 2190 THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a crucible of global tensions. (Cross-listed with RELI 2190, SOC 2190).
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2470 LATIN AMERICA: MEXICO AND THE CARIBBEAN (3 credits)
A history of Mexico and the Caribbean nations from the pre-Columbian Indian cultures to the present time.

HIST 2480 LATIN AMERICA: SOUTH AMERICA (3 credits)
A history of the nations of South America from the pre-Columbian Indian cultures to the present time.

HIST 2510 ANCIENT HISTORY-GREECE (3 credits)
A study of cultures in the ancient eastern Mediterranean basin from the Bronze Age through Alexander the Great, to better appreciate their influence on later cultures, namely those of Rome, Europe and North America.

HIST 2520 ANCIENT HISTORY - ROME (3 credits)
A study of the growth and development of the Roman Empire with emphasis on the unique contributions of Rome to the modern world.

HIST 2560 MODERN FRANCE: 1789 TO THE PRESENT (3 credits)
A study of the role of France in the development of modern democracy, and her successes and failures in the practice of that theory. (This course fulfills the Political Science's comparative politics requirement). (Cross-listed with PSCI 2560).

HIST 2580 MODERN GERMANY (3 credits)
A study of the institutions and problems of modern Germany with an emphasis on the achievements of German thought in the nineteenth century as well as German unification and rise to world power by 1914. The post-1914 period will be concerned with the rise of totalitarianism and the subsequent emergence of the two Germanies.

HIST 2610 ENGLAND TO 1668 (3 credits)
The development of British society and institutions from prehistoric times to the Glorious Revolution.

HIST 2620 ENGLAND SINCE 1668 (3 credits)
The development of British society and institutions from 1668 to the present.

HIST 2630 HISTORY OF CANADA (3 credits)
A survey of Canadian development from the early explorations to the present time.

HIST 2660 THE PEOPLES OF EAST CENTRAL EUROPE SINCE 1815 (3 credits)
A survey of social, political and cultural developments with emphasis upon Poland, the Czech Republic, Slovakia, Hungary and the Balkan states. Principal themes include 19th century movements for national liberation and social reform, the struggle for national unity and independence during World War I, problems and achievements of the independent East European states to 1938, and Second World War and Nazi occupation, the era of Communist rule, and post-1989 efforts to establish democracy and a market economy. (This course fulfills the Political Science department's comparative politics requirement). (Cross-listed with PSCI 2660).

HIST 2710 RUSSIA TO 1855 (3 credits)
An interpretative analysis of the development of Russian culture and society from their Kievian beginnings through the establishment of autocracy and serfdom to the end of the reign of Nicholas I.

HIST 2720 RUSSIA SINCE 1855 (3 credits)
An interpretative analysis of Russian culture and society under the last three Tsars, the Bolshevik Revolution, the USSR and post-communist Russia and neighboring states.

HIST 2810 EAST ASIA: TRADITIONAL AND MODERN CHINA (3 credits)
A study of traditional Chinese society with special emphasis upon those traits which in large part shaped China's response to the impact of the west in the 19th century and conditioned her search for a new political structure in the 20th century.

HIST 2820 EAST ASIA: TRADITIONAL AND MODERN JAPAN (3 credits)
A study of the development of traditional Japan and the ensuing transition in the 19th and 20th centuries to a major world power.

HIST 2900 AFRICAN CIVILIZATION - THE MIDDLE PERIOD (3 credits)
This course traces the development of African history from the beginning of the Civilization of Ghana (800 B.C.) to the period of European exploration of Africa (Mid 15th C.) It examines the main achievements, events and individuals in the Empires of Ghana, Mali, Songhay, Zimbabwe and other states. (Cross-listed with BLST 2900).

HIST 2920 HISTORY OF MODERN AFRICA (3 credits)
This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of alien cultures on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - the Islamic, Western and Indigenous. (Cross-listed with BLST 2120).

HIST 2980 HISTORICAL METHODOLOGY (3 credits)
The critical method in collecting, organizing, and presenting historical material. Required for history majors. Students are encouraged to enroll in this course as soon as possible after declaring their major.
Prerequisite(s)/Corequisite(s): ENGL 1160 and permission of department chair or chair's designee. Not open to non-degree graduate students.

HIST 2990 PEOPLE AND ISSUES IN HISTORY (1-3 credits)
An in-depth investigation of a topic as announced in the course subtitle. Students may enroll for different sections as long as no specific subject is duplicated.

HIST 3000 UNITED STATES MILITARY: CIVIL WAR-PRESENT (3 credits)
A survey of the development of the American armed forces as instruments of national policy at home and abroad and as organizations reflecting American society. Topics to be examined include military organization and operations, the transformation of warfare by technology and the effect of war and preparation for war on politics and society.

HIST 3420 HISTORY OF OMAHA (3 credits)
An examination of major themes in the history of Omaha and its immediate environs from the early 19th century through the 1970s.

HIST 3520 HISTORY OF ROMAN EMPIRE (3 credits)
This course will consider the history of the Roman Empire from the founding of the Principate to the division of the Empire in the fourth century A.D. with an emphasis on assessing the Empire's importance for its contemporary as well as subsequent civilizations.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 3580 QUEENS AND MISTRESSES OF EARLY MODERN EUROPE (3 credits)
This course will consider the historical impact of women who occupied roles of potential influence in early modern Europe. Attention will be given to social, cultural and intellectual influences as well as any political influence which any of them may have had. (Cross-listed with WGST 3580).
Prerequisite(s)/Corequisite(s): Junior
HIST 4010 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 8016, RELI 4050).
Prerequisite(s)/Corequisite(s): Junior or senior standing. Not open to non-degree graduate students.

HIST 4040 HOMESCAPES: THE MATERIAL CULTURE OF EVERYDAY LIFE IN AMERICA, 1600-1860 (3 credits)
This course examines the culture and technologies of house forms and work landscapes in North America, 1600-1860. (Cross-listed with HIST 8046).
Prerequisite(s)/Corequisite(s): 60 hours. Not open to non-degree graduate students.

HIST 4050 HISTORY OF WOMEN IN AMERICA TO 1875 (3 credits)
This course examines the history of women in what is now the United States from the seventeenth century to 1875. Topics include law, work, sexuality and reproduction, slavery, cross-cultural encounters, religion, political activism, and the transformation of gender by the market and industrial revolutions. (Cross-listed with HIST 8056).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor. Not open to non-degree graduate students.

HIST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with WGST 4060, WGST 8066, and HIST 8066).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor; Not open to non-degree graduate students.

HIST 4120 AMERICAN SOCIAL AND INTELLECTUAL HISTORY SINCE 1865 (3 credits)
Primarily a non-political approach to American history, this course will examine significant topics in American thought and society. (Cross-listed with HIST 8126).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4130 THE REVOLUTIONARY ERA, 1763-89 (3 credits)
An analysis of the imperial and internal forces which led to the revolution and an examination of the economic, social and political problems of the emerging nation. (Cross-listed with HIST 8136).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4140 COLONIAL AMERICAN HISTORY (3 credits)
This course provides a study of the settlement and development of North America to c. 1763 with an emphasis on the British colonies. (Cross-listed with HIST 8146).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

HIST 4160 THE U.S.: EARLY NATIONAL PERIOD: 1789-1828 (3 credits)
An interpretive study of the middle period of American history. (Cross-listed with HIST 8166).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4170 AMERICAN FRONTIER 1800-1900 (3 credits)
The Trans-Mississippi West from the Rocky Mountain Fur Trade days to the disappearance of the frontier around 1900. (Cross-listed with HIST 8176).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4180 CIVIL WAR AND RECONSTRUCTION (3 credits)
A period study from 1845 to 1877. The background of the Civil War, the war years and the reshaping of the Union during Reconstruction. (Cross-listed with HIST 8186).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4240 EMERGENCE OF MODERN AMERICA (3 credits)
A study of a transitional period in American history, this course considers the importance of industrialization, urbanization, immigration and the emergence of the United States as a significant world power. (Cross-listed with HIST 8246).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4270 20TH CENTURY AMERICA TO 1932 (3 credits)
A study of the history of the United States from the end of the 19th century to the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 8276).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4280 TWENTIETH CENTURY AMERICA SINCE 1932 (3 credits)
A study of the history of the United States since the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 8286).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4330 U.S. CONSTITUTIONAL HISTORY TO 1860 (3 credits)
A history of constitutional theory and practice to 1860. (Cross-listed with HIST 8336).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4340 U.S. CONSTITUTIONAL HISTORY SINCE 1860 (3 credits)
A history of constitutional theory and practice since 1860. (Cross-listed with HIST 8336).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4350 AMERICAN DIPLOMATIC HISTORY (3 credits)
A history of the foreign relations of the United States. (Cross-listed with HIST 8356).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4400 HISTORY OF NORTH AMERICAN INDIANS (3 credits)
A survey of traditional North American Indian cultures, their contact with transplanted European peoples, and the continuing problems faced today. (Cross-listed with HIST 8406).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4410 HISTORY OF NEBRASKA (3 credits)
From the earliest known records to the present. (Cross-listed with HIST 8416).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4420 THE SIOUX TRIBE (3 credits)
A cultural and historical study of the Sioux tribes emphasizing the earliest historic period to the present. (Cross-listed with HIST 8426).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

HIST 4430 AMERICAN URBAN HISTORY (3 credits)
Historical survey of urban development in the United States from the colonial period to the present, with attention to urbanization as a social process affecting the nation at large as well as cities in particular. (Cross-listed with HIST 8436).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4440 HISTORY OF THE SOUTH (3 credits)
Economic, social and political development of the South as a region.
Prerequisite(s)/Corequisite(s): Junior

HIST 4450 NATIVE AMERICAN ENVIRONMENTALISM (3 credits)
This course studies North American tribal subsistence and natural resource use practices from the early historic period to the present, Native Americans as environmentalists, and modern tribal environmentalism. (Cross-listed with HIST 8456).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.
HIST 4460 AMERICAN IMMIGRATION HISTORY (3 credits)
A study of American immigration from the colonial era to the present. Topics covered include Old World origins of migration, the old immigrants from western Europe, the new immigrants from southern and eastern Europe, non-European immigrants, native-born American responses to immigrants, the periods of immigrant adjustment in the new physical environment, and the contemporary revival of ethnicity.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4470 AMERICAN MEDICINE AND PUBLIC HEALTH (3 credits)
Analysis of the relationship and interaction of medical thought and practice, public health problems and institutional development, and the changes in American society and culture from the 17th to the 20th century. (Cross-listed with WGST 8476, WGST 4470, HIST 8476).
Prerequisite(s)/Corequisite(s): Junior

HIST 4480 THE UNITED STATES IN THE 1960S (3 credits)
This course is a review of the economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 8486).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

HIST 4510 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of enduring political, religious, economic, scientific and philosophical ideas in their historical setting. (Cross-listed with HIST 8516).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4520 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of leading political, religious, economic, scientific, and philosophical ideas in times of extraordinary social change. (Cross-listed with HIST 8526).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4530 THE AGE OF THE RENAISSANCE-REFORMATION (3 credits)
A study of the politics and economics of the 15th and 16th centuries as well as the achievements of Renaissance culture and the emergence of the Protestant churches and the Tretine Catholicism. (Cross-listed with HIST 8536).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor. Not open to non-degree graduate students.

HIST 4540 MEDIEVAL EUROPE (3 credits)
An examination of medieval European history with emphasis upon social and economic developments. (Cross-listed with HIST 8546).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4550 THE AGE OF ENLIGHTENMENT (3 credits)
A study of the politics and economics of the late-17th century and of the 18th century as well as the emergence of modern secular thought and its impact upon traditional European society. (Cross-listed with HIST 8556).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor. Not open to non-degree graduate students.

HIST 4560 ANGLO-AMERICAN LEGAL HISTORY (3 credits)
The development of the English structure of government and its impact outside the United Kingdom.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4570 EUROPE:1789-1815 (3 credits)
Particular attention is given to the development of democratic practice concurrently with the development of modern authoritarianism. (Cross-listed with HIST 8566).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4570 EUROPE:1815-1890 (3 credits)
A study of reform and reaction which resulted in the Balkanization of Europe. (Cross-listed with HIST 8576).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4600 AMERICAN IMMIGRATION HISTORY (3 credits)
A study of American immigration from the colonial era to the present. Topics covered include Old World origins of migration, the old immigrants from western Europe, the new immigrants from southern and eastern Europe, non-European immigrants, native-born American responses to immigrants, the periods of immigrant adjustment in the new physical environment, and the contemporary revival of ethnicity.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4620 ENGLAND: FROM EMPIRE TO WELFARE STATE (3 credits)
A study of the change and development in Great Britain from the late 18th century to 1918. (Cross-listed with HIST 8626).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4640 BRITISH EMPIRE AND COMMONWEALTH (3 credits)
Britain in America, Africa, India and the Pacific. The development of a dependent empire and the transformation into independent nations. (Cross-listed with HIST 8646).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4650 HISTORY OF MODERN IRELAND (3 credits)
A survey of Irish history from the Act of Union of 1801 through the civil rights movement of “Troubles” of Northern Ireland in the 1970s. (Cross-listed with HIST 8656).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

HIST 4660 THE FRENCH REVOLUTION AND THE NAPOLEONIC ERA, 1789-1815 (3 credits)
A study of economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 8486).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

HIST 4670 EUROPE: 1933 TO THE PRESENT (3 credits)
A study of the conditions and forces immediately precedent to World War I, the war itself, the peace following the war and the rise of the modern dictatorships. (Cross-listed with HIST 8776).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4700 EUROPE: 1933 TO THE PRESENT (3 credits)
A study of the ever increasing tensions between the Fascist and Communist dictatorships and the Western democracies, World War II, the resultant dislocation of power and the emergence of the balance of terror. (Cross-listed with HIST 8786).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.
HIST 4800 U.S. AND THE MIDDLE EAST (3 credits)
This course focuses on the evolution of US relations with and Foreign Policy vis-a-vis the Middle East over the last six decades. It seeks to illuminate the constant features in contrast to the changes in direction, examining the agendas of varying administrations as well as the treatment by the media of this region. It follows a chronological framework with particular emphasis on key thematic topics. While emphasizing the political dimensions of international relations, the class will also explore cultural and social aspects of the ties between the US and the peoples of the Middle East. (Cross-listed with HIST 8806).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.
HIST 4820 MESOPOTAMIA AND PRE-ISLAMIC PERSIA (3 credits)
Examination of the Ancient Near East from the emergence of its earliest civilizations—Sumer, Akkad and Babylonia—through the Bronze and Iron Ages, concluding with Persia in the Common Era (CE) just before the rise of Islam. (Cross-listed with HIST 8826).
Prerequisite(s)/Corequisite(s): Junior standing.
HIST 4840 ALEXANDER THE GREAT AND THE MACEDONIAN ORIGIN (3 credits)
Examination of the conquests of Alexander the Great, as well as controversies in Alexander studies. Includes discussion of both the Macedonian culture that produced him and the career of his father, Philip II. (Cross-listed with HIST 8846).
Prerequisite(s)/Corequisite(s): HIST 2510, or PHIL 3110, or HIST 4820/ HIST 8826 at another accredited university, or permission of the instructor
HIST 4900 PROBLEMS IN HISTORY (1-3 credits)
Project arranged individually with undergraduate students. May be repeated as long as the subject differs, to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Written permission of instructor.
HIST 4910 TOPICS IN HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910 / WGST 8916 when topics are appropriate to Women’s and Gender Studies. (Cross-listed with HIST 8916).
Prerequisite(s)/Corequisite(s): Junior
HIST 4920 INTERNSHIP IN HISTORICAL STUDIES (1-3 credits)
The undergraduate student is supervised by a member of the faculty in a project involving part-time employment or service with a museum, historic site, historical society or other institution. Work hours, activities, reporting requirements, and responsibilities must be specified in written agreement between employer, student, and/or History Intern Program Coordinator. This course is normally taken for 3 hours. If a hosting institution cannot commit to a supervised workload which the departmental advisor believes to be equivalent to 3 hours, course may be taken for fewer hours. In such circumstances, students may repeat the course up to a total of 3 hours.
Prerequisite(s)/Corequisite(s): Student must have completed or enrolled in at least 6 hours of upper-division history courses (3000-4000). Student must have approval of History Intern Program Coordinator before enrolling. Not open to non-degree graduate students.
HIST 4990 SENIOR SEMINAR (3 credits)
Capstone research course for history majors. Students will be required to produce an original research paper. Each section of this course will be offered with a specific subject or theme.
Prerequisite(s)/Corequisite(s): HIST 2980 and permission of department chair or chair’s designee. Not open to non-degree graduate students.
HONR 2120 HONORS IDENTITY (1 credit)
Course designed to heighten students’ self awareness in University and global contexts.
Prerequisite(s)/Corequisite(s): Must be a current Honors Program student. Not open to non-degree graduate students.
HONR 3000 HONORS COLLOQUIUM (3 credits)
The Honors Colloquium is an inter-disciplinary seminar offered each semester under the auspices of one of the University’s seven colleges. The content matter changes each semester and includes all disciplines from the fine arts through business.
Prerequisite(s)/Corequisite(s): Member of the University Honors Program or permission of instructor.
HONR 3010 HONORS TUTORING (0 credits)
Honors Tutoring is available to qualified Honors students in good standing in the program who wish to provide tutoring in a specific course or courses in order to serve the University community throughout the semester.
Prerequisite(s)/Corequisite(s): Active status in the University Honors Program; A or better in and completion of the course for which tutoring will be provided; documentation from professor of student's ability to tutor in the nominated course. Not open to non-degree graduate students.
HONR 3970 HONORS INTERNSHIP (3-6 credits)
The Honors Internship is offered to juniors and seniors in the University Honors Program and combines theoretical knowledge with the practical through placement in community businesses and organizations.
Prerequisite(s)/Corequisite(s): Junior or senior in the University Honors Program and permission of the University Honors Program Coordinator.
HONR 4980 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by University Faculty. The Senior Honors Project must be approved by the College Honors Coordinator.
Prerequisite(s)/Corequisite(s): Junior or senior in the University Honors Program.

Horticulture (HORT)
HORT 1300 INTRODUCTION TO HORTICULTURAL SCIENCES (3 credits)
An introductory course in horticulture that offers a hands-on perspective to science. Students will discuss the scientific factors affecting the growth of vegetables, bedding plants, cut flowers, and woody plants in greenhouse, laboratory and landscape settings.
Distribution: Natural/Physical Sci General Education lecture
HORT 1310 INTRODUCTION TO HORTICULTURAL SCIENCES LABORATORY (1 credit)
A laboratory designed to enhance basic scientific method skills as applied to propagation of plants using a variety of techniques from seedling and grafting to cloning.
Prerequisite(s)/Corequisite(s): HORT 1300, prior or concurrent. Lab fee $25.
Distribution: Natural/Physical Sci General Education lab course
HORT 2210 PLANT PROPAGATION (3 credits)
Principles and practices involved in sexual and asexual propagation of horticultural plants. Laboratory exercises will provide practical applications of physiological principles (and an understanding of structures of the different methods of propagating plants). Lab fee $35.
HORT 2610 FLORAL DESIGN (3 credits)
Exposes students to the principles of floral design and retail florist shop management, while offering practical experience in all aspects of flower arranging. Includes the making of corsages and nosegays; home and novelty arrangements; seasonal, sympathy and wedding flowers. Lab fee $50
Prerequisite(s)/Corequisite(s): Lab fee $50.
HORT 2620 FLORAL DESIGN II (3 credits)
Exposes students to advanced styles of floral design, foliage plant care and retail shop layout, as well as practical business knowledge in managing a small business. Topics include personnel, advertising, sales and floral marketing. Lab fee $50.
Prerequisite(s)/Corequisite(s): HORT 2610 or permission. Lab fee $50.
HUMN 1010 INTRODUCTION TO THE HUMANITIES (5 credits)
An attempt to see how art, music, literature and the history of ideas in Western culture contribute to the understanding of human existence. The first semester explores classical Greek, medieval and Renaissance views of the meaning of life.

HUMN 1020 INTRODUCTION TO THE HUMANITIES (5 credits)
A survey of the interrelationship of arts and ideas in the modern world, and their impact on the question of the meaning of being human.

HUMN 1110 PERSPECTIVES ON USAMERICAN CULTURE (6 credits)
Perspectives on US American Culture focuses on the imaginative arts in modern and contemporary cultures within the United States as they reflect the beliefs and values of those cultures. This course may include a special focus on one US American culture and that focus may change from instructor to instructor. Generally speaking, European American, Native American, African American, Asian American, Hispanic or Latino American, and Jewish American cultures will be explored with attention to issues of gender, race, ethnicity, and socio-economic class.
Prerequisite(s)/Corequisite(s): ENGL 1150 and HUMN 1200. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

HUMN 1200 AUTOBIOGRAPHICAL READING AND WRITING (3 credits)
This course helps students to write effectively by focusing on their own personal experience and by examining a variety of autobiographical writings. Students are exposed to multicultural perspectives throughout the course.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

HUMN 2100 THE HUMAN EXPERIENCE I (5 credits)
An interdisciplinary, topical approach to the methods and views of the humanities. Topics will vary, but topics offered under HUMN 2100 will be different from those offered under HUMN 2200.
Prerequisite(s)/Corequisite(s): Completion of the freshman English requirement.

HUMN 2200 THE HUMAN EXPERIENCE II (5 credits)
An interdisciplinary, topical approach to the methods and views of the humanities. Topics will vary, but topics offered under HUMN 2200 will be different from those offered under HUMN 2100.
Prerequisite(s)/Corequisite(s): Completion of the freshman English requirement.

IT Innovation (ITIN)

ITIN 1010 ACTIVATING INNOVATION IN SOCIETY (3 credits)
This course surveys and applies the use of qualitative methods, especially interview-based research, in order to maximize the insight that informs and activates the innovation process, with emphasis on technological innovation.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

ITIN 1110 INTRODUCTION TO IT INNOVATION (3 credits)
In almost every modern human endeavor, creativity and Information Technology are essential. In the Internet age, information has become a commodity that is available to everyone. Similarly, current technology has largely become commoditized. Therefore, creating new value is becoming the basis for successful professionals. This course introduces students to tools, techniques, and methods for generating innovative information technology ideas and solutions. It teaches them to think about future possibilities and equips them with the ability to critically evaluate proposed innovations and ideas. The goal of the course is to increase student's ability to creatively solve challenging problems in new ways using information technology. This class is inherently interdisciplinary as IT now touches every aspect of modern academic pursuits.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ITIN 2150 AUDIO FOR MULTIMEDIA (3 credits)
This course provides an overview of audio production techniques as they pertain to multimedia.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ITIN 2220 APPLIED IT INNOVATION (3 credits)
The course extends the concepts learned in the Introduction to IT Innovation course and focuses on market dynamics and monetizing innovations. It moves past idea generation and focuses on identifying and gathering resources, innovation implementation, sustainable innovation models and how ideas can be monetized. The goal is for students to take their original ideas from concept to initial implementation with thoughts towards commercialization. Upon completing the course, students will have created at least a rudimentary implementation of an original idea and have a defensible plan for how the idea can be monetized.
Prerequisite(s)/Corequisite(s): ITIN 1110 & CIST 1400. Not open to non-degree graduate students.

ITIN 2990 IT INNOVATION SYMPOSIUM (1 credit)
The seminar exposes students to information technology innovators from multiple industries and varied backgrounds. It teaches the practical aspects of IT Innovation from those that have done it and are doing it in both research and practice. The purpose is to cause students to reflect on applying innovation to the real-world, connect them to the innovation community and to equip them with best practices and tools to make their innovations a reality.
Prerequisite(s)/Corequisite(s): Enrollment in the IT Innovation Major or IT Innovation Minor. Not open to non-degree graduate students.
ITIN 3100 MUSIC INFORMATICS (3 credits)
Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students. (Cross-listed with MUS 3100).
Prerequisite(s)/Corequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

ITIN 3180 DIGITAL SYNTHESIS (3 credits)
An exploration of the potentials of computer music synthesis. Concepts of music synthesis are presented through the use of a computer, keyboard, and appropriate software. Students create assignments that demonstrate the application of basic techniques. (Cross-listed with MUS 3180).

ITIN 3330 PRODUCT DESIGN AND DEVELOPMENT (3 credits)
This course will cover elements and principles of excellent product design and development. The history of design will be reviewed and overarching tenets of design will be introduced. The course will particularly focus on innovation and students will be expected to develop an original concept and create quality designs and low-fidelity prototype implementations of their unique idea. The proposed solutions must be novel and meet a real-world market need. This course will be hands-on and will examine developmental models for innovation.
Prerequisite(s)/Corequisite(s): CSCI 2240. Not open to non-degree graduate students.

ITIN 4000 SPECIAL TOPICS IN IT INNOVATION (1-6 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the IT Innovation area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ITIN 8006).
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ITIN 4090 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with BSAD 8096, MGMT 4090).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

ITIN 4440 AGILE DEVELOPMENT METHODS (3 credits)
The course presents an introduction to agile development methods for IT application development. Students will also learn Unified Modeling Techniques as they go through the agile iterations. This course is a foundation course for the IT Innovation capstone course.
Prerequisite(s)/Corequisite(s): CIST 2100, CSCI 4850 or ISQA 3310. Not open to non-degree graduate students.

ITIN 4500 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the IT Innovation Undergraduate Program Committee at least three weeks prior to registration.
Prerequisite(s)/Corequisite(s): Written permission required.

ITIN 4510 INFORMATION TECHNOLOGY INNOVATION INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the ITIN undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by professionals in the workplace.
Prerequisite(s)/Corequisite(s): Junior/Senior standing and permission of School of interdisciplinary Informatics Director. Not open to non-degree graduate students.

ITIN 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations and studying, understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ISQA 4880).
Prerequisite(s)/Corequisite(s): CIST 1400, CIST 2500, or equivalent.

ITIN 4980 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT I (3 credits)
This course serves as Part 1 of the capstone project for the Information Technology Innovation program. As such the student will design a prototype of an IT product or service as well as a business case pertaining to what is required to launch their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s)/Corequisite(s): This course is for seniors who are enrolled in the BS in IT innovation degree. Not open to non-degree graduate students.

ITIN 4990 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT PART II (3 credits)
This course serves as Part 2 of the capstone project for the Information Technology Innovation program. Following the designs and business plan developed in Part I ITIN 4980, the student will create a prototype of an IT product or service as well as refine and implement the required business aspects involved in launching their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s)/Corequisite(s): ITIN 4980. This course is for seniors who are enrolled in the BS in IT Innovation degree. Not open to non-degree graduate students.

Industrial & Management Systems Engineering (ISMG)

ISMG 2010 TECHNOLOGY AND SOCIETY (3 credits)
Understanding technology and its impact on society. (Intended for students majoring in areas other than engineering and science.)
Prerequisite(s)/Corequisite(s): Sophomore standing, not open to nondegree students.

ISMG 3150 INTRODUCTION TO ERGONOMICS (3 credits)
Analysis and design of work systems considering human capabilities and limitations, human anatomy and physiology, interacting with physical environment, and occupational safety and health. Overview of physical ergonomics, safety, hygiene, and cognitive ergonomics.
Prerequisite(s)/Corequisite(s): ISMG2500

ISMG 3280 DETERMINISTIC OPER RSrch MDLS (3 credits)
Application of deterministic operations research techniques: linear programming, transportation problems, assignment problems, integer programming. Model formulation and problem solving using a computer package.
ISMG 4060 DECISION AND RISK ANALYSIS (3 credits)
Theory and practice of decision making under uncertainty. Graphical modeling techniques including influence diagram and decision trees. The value of information. Utility theory foundations, risk preference, and multi-attribute decision models. Economic justification or projects. (Cross-listed with ISMG8066)
Prerequisite(s)/Corequisite(s): ISMG 2060; STAT 3800 or STAT 8805 or ISMG 3210

ISMG 4120 OCCUP SAFETY-SYSTEMS ANALYSIS (3 credits)
Analysis of safety performance, attribution of cost, identification and analysis of accident potential. Fault Tree analysis. Systems safety and reliability. (Cross-listed with ISMG8126)
Prerequisite(s)/Corequisite(s): ISMG3210

ISMG 4710 TOOL AND DIE DESIGN (3 credits)
General consideration in tool design, design of tool and workholding devices, forming machines and presswork tools; application of computer graphics and finite element techniques, and prediction of tool paths in CNC machines.
Prerequisite(s)/Corequisite(s): ISMG3700, not open to non-degree students

Information Systems & Quantitative Analysis (ISQA)

ISQA 2000 SPECIAL TOPICS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (1-5 credits)
The course content and topic will vary. Please contact the ISQA department office for specific course offerings.
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 3150 PRINCIPLES OF QUANTITATIVE ANALYSIS (3 credits)
An introduction to structuring real-life situations into mathematical models. The class covers four groups of decision making models: decision trees, inventory, linear programming, network planning, and winning strategy. A number of the existing commercial computer software packages will be used in the course.
Prerequisite(s)/Corequisite(s): CIST 2500

ISQA 3300 FILE STRUCTURES FOR INFORMATION SYSTEMS (3 credits)
The purpose of this course is to introduce the student to computer file organizations and access methods. A fundamental understanding of the performance implications of each file organization is developed to allow the students to make information systems design choices that will optimize the performance of business information systems.
Prerequisite(s)/Corequisite(s): CSCI 1620

ISQA 3310 MANAGING THE DATABASE ENVIRONMENT (3 credits)
Introduction to business database design and management functions. The focus is on the use of current database management systems (DBMS) to support the data management function of an organization. Topics include data modeling, database design, SQL, data management and database administration. Hands-on experience in database design, creation, and use is provided.
Prerequisite(s)/Corequisite(s): CIST 2100.

ISQA 3400 BUSINESS DATA COMMUNICATIONS (3 credits)
Data Communications principles and service operations with computers and telecommunication systems for operational analysis and decision making. This course will focus on breadth, not depth – concepts rather than specific technologies because concepts remain constant over time, while technologies change from year to year. Students are expected to master the basic terminologies and concepts, not necessarily to become experts in computer networking, nor to know the engineering details of any technology.
Prerequisite(s)/Corequisite(s): CIST2100

ISQA 3420 MANAGING IN A DIGITAL WORLD (3 credits)
This course introduces the fundamentals of information systems/technology (IS/T) management. Students are introduced to the various roles, responsibilities, skills, and concepts essential to successful management of IS/T in the context of a dynamic environment of technology workforce diversity, a global economy, and concern for ethics and social responsibility in the development of systems.
Prerequisite(s)/Corequisite(s): CIST 2100

ISQA 3520 GRAPHICAL USER INTERFACE DESIGN (3 credits)
This course is an introduction to interaction design with a primary emphasis on designing usable and useful computer interfaces. Students will learn the principles of interface design grounded in a fundamental understanding of human cognitive processes. They will learn how end-users develop and use mental models of interaction and will apply this knowledge to the design of interfaces for real-world applications. A design project will challenge students to plan their own designs, to develop interfaces and to integrate them into a working application prototype, to test their application with real users, and to effectively communicate the overall results. (Cross-listed with ISQA 8525)
Prerequisite(s)/Corequisite(s): CIST 1300

ISQA 3910 INTRODUCTION TO PROJECT MANAGEMENT (3 credits)
This course will cover the basics of project planning, scheduling and control. Earned value management techniques and project quality will be covered. Risk management will also be covered. The student will be introduced to the IEEE Standards for Project Management. The purpose of the course is to provide students with an introduction to the tools and techniques used to manage projects to achieve successful completion. The project management methods taught are suitable for a wide variety of project types such as software development or engineering projects (e.g. construction).
Prerequisite(s)/Corequisite(s): CIST 2100; or equivalent.

ISQA 4000 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ISQA 8086)
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 4010 BUSINESS INTELLIGENCE (3 credits)
The course focuses on the various topics on knowledge management by utilizing both behavioral approaches and information technology tools. It includes data collection and analysis, intelligent agents, business concerns on data warehousing and data mining, customer relationship management. The course will also cover information overload, human expert systems vs. artificial intelligent systems and intelligent decision making.
Prerequisite(s)/Corequisite(s): CIST 1400; CIST 2500

ISQA 4100 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
This course examines the frameworks and tools used to develop an organization’s information system architecture. It provides the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information system architecture. (Cross-listed with ISQA 8106)
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 3310

ISQA 4110 INFORMATION SYSTEMS ANALYSIS (3 credits)
This course examines and applies the principles of information systems analysis, following a structured systems development methodology. It surveys project management, feasibility and analysis and systems requirement definition using modern systems analysis techniques and automated tools. Course utilizes a case approach where students initiate the analysis and logical design of a limited-scope information system.
Prerequisite(s)/Corequisite(s): CIST 2100, ISQA 3910 and ISQA 3310 prior to or concurrent.
ISQA 4120 SYSTEM DESIGN AND IMPLEMENTATION (3 credits)
This is the second course in a sequence in computer information systems analysis, design, and implementation. This course extends the basic foundations of systems development started in ISQA 4110 and examines the activities comprising the design, construction, and implementation of information systems.
Prerequisite(s)/Corequisite(s): ISQA 3310 and ISQA 4110

ISQA 4130 INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social, and human development. In this service-learning course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. (Cross-listed with ISQA 8136)
Prerequisite(s)/Corequisite(s): Though not required, the following courses or their equivalent would provide the necessary background: CIST 1100, CIST 1300, ISQA 3210, ISQA 3310, ISQA 3400. Not open to non-degree graduate students.

ISQA 4150 ADVANCED STATISTICAL METHODS FOR IS&T (3 credits)
This course emphasizes the application and interpretation of statistical methods including design of experiments, analysis of variance, multiple regression, and nonparametric procedures and the use of statistical computer packages. The intent is to develop quantitative abilities needed for quantitatively intensive jobs and for advanced study in management information systems, computer science and information technology. (Cross-listed with ISQA 8156)
Prerequisite(s)/Corequisite(s): CIST 2500 or equivalent, at least one course in statistics, and an understanding of basic calculus (a calculus review will be conducted at the beginning of class).

ISQA 4160 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross functional nature of ERP software. In the process of learning about ERPs, the students develop "hands on" experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 8166, SCMT 4160)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

ISQA 4180 ELECTRONIC COMMERCE (3 credits)
Critical examination of the issues, technologies, standards and business and social implications of electronic commerce in Cyberspace.
Prerequisite(s)/Corequisite(s): ISQA 3400 or equivalent.

ISQA 4190 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY (3 credits)
Business process reengineering issues are examined. Reengineering concepts and methods are introduced. Additional special project(s) are required. SAP will be introduced. (Cross-listed with ISQA 8196.)
Prerequisite(s)/Corequisite(s): CIST 2500; prerequisite/co-requisite ISQA 4110.

ISQA 4200 INFORMATION AND DATA QUALITY MANAGEMENT (3 credits)
The course primarily focuses on developing an in-depth understanding of Data and Information Quality (DQ and IQ) concepts and issues. On completing this course students will be able to understand and use DQ and IQ. Concepts in Information Systems projects, be able to recognize various patterns of Data and Design Deficiencies in Systems and be able to suggest appropriate DQ and IQ improvement plans in light of known deficiencies in systems. (Cross-listed with ISQA 8206)
Prerequisite(s)/Corequisite(s): CIST 2500 and CIST 2100.

ISQA 4300 DATABASE ADMINISTRATION (3 credits)
This course is designed to give students an applied, practical introduction to database administration. Students will gain an understanding of the functioning of a database management system and its relationship to the computing environment in which it runs. They will learn the concepts, principles, and techniques necessary to carry out such functions as database object creation, storage management, capacity planning, performance tuning, backup and recovery, and security management. Each semester the course will focus on one commercial database management system (DBMS), such as Oracle. (Cross-listed with ISQA 8306)
Prerequisite(s)/Corequisite(s): ISQA 3300, ISQA 3310 or CSCI 4850.
Not open to non-degree graduate students.

ISQA 4380 DISTRIBUTED TECHNOLOGIES AND SYSTEMS (3 credits)
The course introduces students to concepts, issues and tools needed to develop distributed computing systems. Topics include distributed systems architecture, middleware, Internet-based systems development, security and performance. Hands-on systems development using current technologies is provided.
Prerequisite(s)/Corequisite(s): ISQA 3310 or equivalent knowledge of database design and SQL.

ISQA 4500 SPECIAL PROBLEMS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (2-3 credits)
Individual investigation of specific problems in information systems and quantitative analysis and related areas.
Prerequisite(s)/Corequisite(s): Senior and permission of program chair.

ISQA 4510 INFORMATION SYSTEMS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application of their academic studies in the business world to help prepare them for their professional career and to provide a view of the challenges they will face.
Prerequisite(s)/Corequisite(s): Junior/senior standing and permission of department.

ISQA 4590 IT AUDIT AND CONTROL (3 credits)
This course explores organizational and managerial issues relevant to planning and conducting IT audit and control activities. The course covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, and the basic type of controls required in a business system in order to control IT risks. Issues associated with new risks created by the use of the internet for business applications and electronic business are also covered. (Cross-listed with ISQA 8596)
Prerequisite(s)/Corequisite(s): A solid understanding of business foundations such as accounting and introductory auditing and exposure to the IS discipline is essential for success in this course. Permission of instructor is required to enroll.

ISQA 4730 DECISION SUPPORT SYSTEMS (3 credits)
This course examines a set of information systems which specifically support managerial decision makers: Decision Support Systems, Group Decision Support Systems, Executive Information Systems, Data Warehouses, Expert Systems, and Neural Networks. This course explores the development, implementation, and application of these systems, how these systems can be applied to current business problems, as well as how organizational issues impact the implementation and usage of these systems. (Cross-listed with ISQA 8736)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent.
ISQA 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations and studying, understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ITIN 4880)
Prerequisite(s)/Corequisite(s): CIST 1400 and CIST 2500 or equivalent

ISQA 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with CSCI 4890).
Prerequisite(s)/Corequisite(s): ISQA 3310 or CSCI 4850

ISQA 4900 INTERNET SYSTEMS DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. Topics include: Multi-tiered systems architecture; rapid application development; object-oriented analysis and design; prototyping; testing, verification, and validation; lifecycle models; and component-based development. This is a rapidly moving, hands-on course that mirrors real-world development.
Prerequisite(s)/Corequisite(s): CSCI 2850 and CSCI 2830 plus completion of two additional courses within the IT concentration.

International Studies (INST)

INST 2130 INTERNATIONAL STUDIES (3 credits)
An interdisciplinary, team-taught course which introduces the student to the range of interdependent factors and forces that influence international affairs. The topical approach combines the expertise of numerous social humanistic disciplines in each class session. This course may be taken for honors credit.
Distribution: Social Science General Education course and Global Diversity General Education course

INST 3000 PERSPECTIVES IN INT STUDY (1-6 credits)
Topical and/or general analysis of selected countries and regions offered in conjunction with possible study tours in those areas under investigation. Internships and/or study abroad experiences usually form the basis for the course. Can be repeated up to 12 hours. This course may be taken for honors credit.

INST 4140 TOPICS IN INTERNATNL STUDIES (3 credits)
This course examines a topic involving a wide range of international studies theories, methods, and fields to provide international studies majors a sense of how the elements of international studies fit together to form a coherent interdisciplinary. A student may take the course more than once as topics will change each semester.
Prerequisite(s)/Corequisite(s): ENGL 1160, junior or above

Italian (ITAL)

ITAL 1110 ELEMENTARY ITALIAN I (5 credits)
Pronunciation, listening comprehension, speaking, and reading.

ITAL 1120 ELEMENTARY ITALIAN II (5 credits)
Pronunciation, listening comprehension, speaking, and reading.
Prerequisite(s)/Corequisite(s): ITAL 1110

ITAL 2110 INTERMEDIATE ITALIAN I (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): ITAL 1120

ITAL 2120 INTERMEDIATE ITALIAN II (3 credits)
Grammar review, continued oral practice, and more advanced readings.
Prerequisite(s)/Corequisite(s): ITAL 2110

Japanese (JAPN)

JAPN 1000 PRACTICAL JAPANESE CONVERSATION I (3 credits)
Pronation and oral practice involving everyday situations. Not applicable to the foreign language requirement in the College of Arts and Sciences.

JAPN 1010 PRACTICAL JAPANESE CONVERSATION II (3 credits)
A continuation of Japanese 1000; the emphasis is on communicating orally in Japanese in a basic, practical manner and on writing basic Japanese characters and sentences.
Prerequisite(s)/Corequisite(s): JAPN 1000 or permission

JAPN 1110 ELEMENTARY JAPANESE I (5 credits)
Elementary Japanese I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural issues in Japan.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

JAPN 1120 ELEMENTARY JAPANESE II (5 credits)
Pronation, listening comprehension, speaking, and reading.
Prerequisite(s)/Corequisite(s): JAPN 1110

JAPN 2050 JAPANESE INTENSIVE LANGUAGE (16 credits)
This summer course covers the material offered in Japanese 1110-2120 but does so in only eight weeks and satisfies the foreign language requirement of the College of Arts and Sciences. Class meets six and one half hours per day, five days a week. Students must complete the entire course of study to receive any credit.
Prerequisite(s)/Corequisite(s): Permission

JAPN 2110 INTERMEDIATE JAPANESE (3 credits)
Grammar review, continued oral practice, and introduction to literary readings.
Prerequisite(s)/Corequisite(s): JAPN 1120

Journalism and Media Communication (JMC)

JMC 1050 FILM HISTORY AND APPRECIATION (3 credits)
Aesthetic values of the motion picture; history of the film and survey of the elements involved. (Cross-listed with THEA 1050).
Distribution: Humanities and Fine Arts General Education course

JMC 1500 INTRODUCTION TO JOURNALISM AND MEDIA COMMUNICATION (3 credits)
A survey of the history, organization and social significance of the mass media, including newspapers, radio, television, books, magazines, advertising, public relations and films.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course
JMC 2000 INFORMATION LITERACY FOR COMMUNICATION PROFESSIONALS (3 credits)
This course adapts information literacy to the specific needs of communication professionals, focusing on subject matter that is often in the news, in areas (such as geography, mathematics, various methods of professional practice, and concepts in natural sciences) that have been identified as shortcomings by faculty.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

JMC 2100 MEDIA WRITING LABORATORY (3 credits)
This class will teach students to gather information and write for all areas of mass communication, including print, broadcast, online media, public relations and advertising.
Prerequisite(s)/Corequisite(s): ENGL 1150; concurrent registration with JMC 2104

JMC 2104 MEDIA WRITING LECTURE (1 credit)
Media Writing Lecture will help students master grammar, punctuation, spelling, Associated Press style and other language skills required for working in communication fields.
Prerequisite(s)/Corequisite(s): ENGL 1150; concurrent registration with JMC 2100

JMC 2150 NEWS WRITING AND REPORTING (3 credits)
The class addresses the theory and practice of writing and reporting for media audiences, with an emphasis on print and online media. Some of the assignments in the class will focus on covering public affairs and analyzing media coverage of public affairs.
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum cumulative GPA of 2.25.

JMC 2160 EDITING PRINCIPLES (3 credits)
This class encompasses the evaluation, editing and production of content for the print and online media, as well as public relations. It also includes writing headlines and captions, as well as learning layout and design principles.
Prerequisite(s)/Corequisite(s): JMC 2150 and minimum overall GPA of 2.25

JMC 2200 MEDIA STORYTELLING I (3 credits)
Media Storytelling I applies the skills learned in JOUR 2100 and JOUR 2104, Media Writing Lab and Lecture. Writing will remain a central focus of the class. Students will create online spaces and manage the content of those spaces. The class will provide a survey of skills in photography, videography, audio production and social media.
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 2300 MEDIA STORYTELLING II (3 credits)
Media Storytelling II will continue the development of writing, photography, videography, audio production and social media skills learned in JMC 2200, Media Storytelling I. Basic graphic design and visual literacy skills will be introduced. Students will use all elements of media to create projects telling compelling narratives about the surrounding community. To display their work, students will develop content for online spaces and promote the content of those spaces.
Prerequisite(s)/Corequisite(s): JMC 2200; minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 2320 VIDEO FIELD PRODUCTION (3 credits)
The class provides in-depth, hands-on theory and practice of field production and editing principles and techniques. It expands from single-camera to multi-camera projects. The goal is for students to leave this course with a strong understanding of aesthetic shooting principles, audio and video equipment, and a solid working knowledge of field production and post-production practices.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

JMC 2370 RADIO/AUDIO I (3 credits)
This course emphasizes the fundamentals of audio production and writing for radio and its online communication venues. On-air delivery, use of video and audio streaming and broadcast industry issues are also covered.

JMC 3030 ELECTRONIC NEWS WRITING AND REPORTING (3 credits)
This class offers an overview of writing news stories for radio, television and online venues. Writing style and technique, as well as news judgment, are emphasized. Some of the assignments in the class will focus on covering public affairs and analyzing media coverage of public affairs.
Prerequisite(s)/Corequisite(s): JMC 2100 or JMC 2104; and minimum cumulative GPA of 2.25.

JMC 3110 PHOTOGRAPHY (3 credits)
The theory, techniques and application of basic photographic operations of exposure, development and printing.
Prerequisite(s)/Corequisite(s): Sophomore standing and minimum overall GPA of 2.25

JMC 3220 CRITICAL WRITING FOR THE MASS MEDIA (3 credits)
This course is an introduction into journalistic opinion writing covering editorials, columns and popular entertainment reviews.
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum cumulative GPA of 2.25.

JMC 3230 PRINCIPLES OF PUBLIC RELATIONS (3 credits)
This course will focus primarily on techniques to garner and sustain public understanding, acceptance and support for an organization. This course will explain the merits of these techniques through theory and application, and will offer constant reminders of the relationship between theory and practice. Understanding theory can result in more efficient and effective use of techniques. (Cross-listed with JMC 8235).
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum GPA of 2.25.

JMC 3270 PUBLIC AFFAIRS REPORTING (3 credits)
The class is designed to help students build and refine their researching, interviewing, reporting and writing skills through the coverage of a public affairs news beat for print, broadcast and online formats.
Prerequisite(s)/Corequisite(s): JMC 2150 or JMC 3030; minimum cumulative GPA of 2.25.

JMC 3280 ADVANCED PUBLIC AFFAIRS REPORTING (3 credits)
Investigative reporting and writing of interpretative stories on metropolitan problems, business and industry, labor, law, politics, health and science.
Prerequisite(s)/Corequisite(s): JMC 2150, JMC 3270 and minimum overall GPA of 2.25

JMC 3300 SOCIAL MEDIA METRICS (3 credits)
Social Media Metrics applies quantitative literacy methods and online media skills to current measurement of social media. Students will experiment with currently available measurement tools to identify and learn to use best practices.
Prerequisite(s)/Corequisite(s): JMC 2200; and minimum cumulative GPA of 2.25

JMC 3320 VIDEO FIELD AND STUDIO PRODUCTION (3 credits)
The class introduces the student to the studio-production environment, equipment, and best practices. It applies single- and multi-camera field-production concepts to a multi-camera live switched environment. It provides reinforcement of field production and editing principles by integrating pre-produced elements into a live production. The goal is for students to leave this course with a strong understanding of live-production principles, studio-production equipment, and a solid working knowledge of studio-production and field-production practices.
Prerequisite(s)/Corequisite(s): JMC 2320 and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 3330 TELEVISION NEWS VIDEO (3 credits)
Theories and techniques of shooting and editing TV news video.
Prerequisite(s)/Corequisite(s): JMC 3030 and minimum cumulative GPA of 2.25.
JMC 3350 MEDIA COMMUNICATION RESEARCH (3 credits)
Comprehensive overview of mass communication research focusing on planning, conducting, analyzing, interpreting and applying research to address communication issues and problems.
Prerequisite(s)/Corequisite(s): Junior standing, and 2.25 cumulative GPA.

JMC 3370 RADIO/AUDIO II (3 credits)
This course emphasizes the use of audio-editing techniques in multimedia digital production. The course uses computer-based audio production systems to create interactive media.
Prerequisite(s)/Corequisite(s): JMC 2370; and cumulative GPA of 2.25.

JMC 3400 MAGAZINE ARTICLE WRITING (3 credits)
This course is an introduction to news and feature writing for magazines.
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104, and minimum cumulative GPA of 2.25.

JMC 3410 MAGAZINE EDITING (3 credits)
A survey of the magazine as an area of specialization involving editorial objectives and content, production processes and planning, business management and layout design.
Prerequisite(s)/Corequisite(s): JMC 3400 and minimum overall GPA of 2.25.

JMC 3500 PR AND ADVERTISING DESIGN (3 credits)
This is a course concerned with the principles of print and electronic public relations and advertising design using applied digital methods and skills. Students will learn the principles of design in a variety of print and interactive formats relating to public relations and advertising. Concepts will be taught in a lecture setting, and skills will be demonstrated in a lab setting. An advertising and public relations design campaign will be completed.
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum cumulative GPA of 2.25.

JMC 3620 PRINCIPLES OF CREATIVE ADVERTISING (3 credits)
This is an introduction to advertising principles in all media, including the psychology of advertising; the creative, production and marketing aspects; and practical exercises in print, broadcast and social media. The course is organized in a way to take students through the process of creating relevant solutions to solve client advertising problems/opportunities.
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA of 2.25.

JMC 3630 ADVANCED CREATIVE ADVERTISING (3 credits)
Theory and practice of advertising campaigns, including creation and production of campaigns for a variety of goods and services.
Prerequisite(s)/Corequisite(s): JMC 3620 and minimum overall GPA of 2.25.

JMC 3700 INTRODUCTION TO VISUAL COMMUNICATION AND CULTURE (3 credits)
This course will introduce students to 'the visual,' both in production and critique. This course provides students the opportunity to further their own understanding of what "visual culture" is and how they both can critically create and consume the various products of that culture. In addition, this course will help students create, develop, and cultivate the knowledge base they will need to successfully complete the Visual Communication and Culture minor.
Distribution: Humanities and Fine Arts General Education course.

JMC 3970 APPLIED JOURNALISM/BROADCASTING (1 credit)
For work on the campus student newspaper or radio or TV station.
Prerequisite(s)/Corequisite(s): Permission of instructor, minimum overall GPA of 2.25.

JMC 4010 HISTORY OF MASS COMMUNICATION (3 credits)
This class covers development of the U.S. media from 1690 to present day, including newspapers, magazines, radio, television, the new media of the Internet, advertising and public relations. A special emphasis is placed on freedom of the press.(Cross-listed with JMC 8016).
Prerequisite(s)/Corequisite(s): Junior and ENGL1160 and minimum overall GPA of 2.25.

JMC 4040 SOCIAL MEDIA MEASUREMENT AND MANAGEMENT (3 credits)
Social Media Measurement and Management explores the dynamic development of social media platforms within a journalism and media communication context. Students of journalism, broadcasting, public relations, advertising and marketing will examine theories and best practices of social media interaction and engagement. (Cross-listed with JMC 8046).
Prerequisite(s)/Corequisite(s): JMC 2200; JMC 3350 taken previously or concurrently; and minimum cumulative GPA of 2.25.

JMC 4100 ROLE OF THE PRODUCER (3 credits)
Students will develop and refine skills in understanding the planning process behind various types of media production. Students will utilize information gathering, strategic thinking, writing, storyboarding, site surveys, analysis of lighting requirements, audio requirements, selecting and working with voiceover or on-camera talent, with the goal of taking these elements through various projects. Students will shoot, edit, and post-produce finished projects reflecting an understanding of professional requirements and the necessity for planning and troubleshooting.
Prerequisite(s)/Corequisite(s): JMC 3320; sophomore status; and cumulative GPA of 2.25.

JMC 4110 RADIO/AUDIO III (3 credits)
This course builds on skills, techniques and theory introduced in Radio/ Audio I and Radio/Audio II. It will emphasize the management of college, public and commercial radio stations. Students will learn the administrative, program, production, news and sales aspects of a station. Because of the rapid growth of online media, students will also be expected to write online content for the university's radio and television stations. In addition to advanced production projects and managerial duties, students will research, write and produce an audio documentary.
Prerequisite(s)/Corequisite(s): JMC 3370 and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 4200 VISUAL COMMUNICATION AND CULTURE CAPSTONE (3 credits)
This course is meant for those students who have declared the Visual Communication and Culture minor (VCC), housed within the School of Communication (CFAM). This course allows completion of the minor through an independent, juried research project that is conducted by the student under the direct supervision of the instructor of record for the course.
Prerequisite(s)/Corequisite(s): Junior-standing is required for registration; Declaration of VCC Minor; Completion of JMC 3700; Completion of other courses declared for Minor.

JMC 4220 LITERARY JOURNALISM (3 credits)
Survey of the journalistic works of pertinent American writers through readings, lectures, discussions plus creative writing assignments. (Cross-listed with JMC 8226).
Prerequisite(s)/Corequisite(s): Junior standing and JMC 2100 or JMC 2150 and minimum overall GPA of 2.25.

JMC 4240 PUBLIC RELATIONS CASE STUDIES (3 credits)
The course is designed to enabled the student: 1) to integrate issue-management and decision-making theoretical models with the communication theory and research techniques presented in JMC 3230/ JMC 8236 and 2) to apply professional judgment to the public relations problem-solving process through the development of structured analysis of historical cases. (Cross-listed with JMC 8246).
Prerequisite(s)/Corequisite(s): JMC 3230 and minimum overall GPA of 2.25.

JMC 4250 STRATEGIC WRITING FOR PUBLIC RELATIONS AND ADVERTISING (3 credits)
This is an advanced skills course that combines theory and practical application in writing for public relations and advertising. Students will plan and execute strategy and tactics to craft and deliver a persuasive message to a variety of audiences.
Prerequisite(s)/Corequisite(s): JMC 3500 & JMC 3230, minimum overall GPA of 2.25 Not open to non-degree graduate students.
JMC 4260 MEDIA RELATIONS (3 credits)
This course focuses on the communication tools used in media relations, the nuances of working with reporters from press and various media, news writing, news judgment, strategic planning, and the application of communication theories in understanding the relationship between news organizations and media relations representatives for organizations and corporations. (Cross-listed with JMC 8266).
Prerequisite(s)/Corequisite(s): JMC 3230; junior standing; and minimum cumulative GPA of 2.25.

JMC 4310 MEDIA & POLITICS (3 credits)
An in-depth study of the impact of the media on political communication. This course will explore the symbiotic relationship of media and political communication, including the influence of traditional mass media, digital media, and social media on the political communication process. Students will delve into media theories and critically examine the influence of the media on the political communication process. (Cross-listed with JMC 8316).
Prerequisite(s)/Corequisite(s): Junior standing and ENGL 1160, and cumulative GPA 2.25

JMC 4340 SPORTS BROADCASTING AND PRODUCTION (3 credits)
Students will learn to distinguish between the differences between sports production and sports performance. Students will also learn to broadcast a variety of sports using multiple platforms. Accuracy and immediacy are vital skills that students will be expected to develop. Students will learn and understand the importance and process of preparing for play-by-play and color commentary.
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; JMC 2200; JMC 2300; JMC 2370; sophomore status; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 4370 COMMUNICATION WORKSHOP (3 credits)
A workshop to explore communication theory and processes and to develop skills in their application. (Cross-listed with JMC 8376).
Prerequisite(s)/Corequisite(s): Junior standing, ENGL1160, permission of instructor, and minimum overall GPA of 2.25

JMC 4380 FILM THEORY AND CRITICISM (3 credits)
Study of major trends in film criticism and theory in (primarily) Europe and America, with concentrated analysis of selected films. (Cross-listed with JMC 8386).
Prerequisite(s)/Corequisite(s): JMC 1050/THEA 1050, ENGL 1160, and Junior standing. Minimum overall GPA of 2.25

JMC 4390 MEDIA ENTREPRENEURSHIP (3 credits)
4390 Media Entrepreneurship (3) explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 8396).
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA- 2.25; Junior standing, ENGL 1160 or equivalent, or instructor permission.

JMC 4400 MASS MEDIA ETHICS (3 credits)
The course examines ethical standards and practices of the media - print, electronic and online media, as well as advertising, public relations and entertainment media. It includes development of ethical decision-making skills. (Cross-listed with JMC 8406).
Prerequisite(s)/Corequisite(s): Junior and ENGL1160 and minimum overall GPA of 2.25

JMC 4410 COMMUNICATION LAW AND POLICY (3 credits)
Communication practitioners need to understand legal protections and constraints. This course explores legal concepts, frameworks and principles to understand constitutional, statutory, regulatory and case law and policies. The student must have a basic understanding of government, social studies and human rights principles. The First Amendment and international law provide a framework for exploring current cases and issues. (Cross-listed with JMC 8416).
Prerequisite(s)/Corequisite(s): Junior and ENGL1160 and minimum overall GPA of 2.25

JMC 4420 SPORTS WRITING (3 credits)
Students will learn all aspects of the specialized aspect of sports media communication. Areas covered will include writing, interviewing, storytelling, using multiple media platforms and the ethics of sports reporting. Various writing experiences across the media spectrum, from traditional media to the new forms of online journalism, will be addressed. (Cross-listed with JMC 8426).
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104; JMC 2200; JMC 2300; JMC 2370; sophomore status; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 4430 GLOBAL MEDIA COMMUNICATION (3 credits)
In-depth study of global media communication systems. This course will examine cultural influence of dominant global media, the changing global media climates, information flow, regulation and censorship of media worldwide. Students will look at the various aspects of mass communication including advertising, public relations, broadcasting, movies and social media. There will be an emphasis on global communication theories and on critical examinations of media systems. (Cross-listed with COMM 8436).
Prerequisite(s)/Corequisite(s): Junior standing, ENGL 1160 and permission of instructor, minimum overall GPA of 2.25.

JMC 4450 JOURNALISM AND MEDIA COMMUNICATION CAPSTONE I (3 credits)
Students will work in a professional environment to produce content for various School of Communication media outlets. This brings together the skills and theory they have learned throughout their coursework.
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA of 2.25. Senior standing. JMC 2300; instructor permission. A portfolio of work must be submitted for admission to the class, which may not be taken concurrently with JMC 4460. Not open to non-degree graduate students.

JMC 4460 JOURNALISM AND MEDIA COMMUNICATION CAPSTONE II (3 credits)
This advanced course provides students with professional development opportunities to polish their skills. Students will continue to create content for the School of Communication’s media outlets and will assume mentoring and leadership roles under the supervision of instructors of the capstone classes.
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA of 2.25. JMC 4450; This class may not be taken concurrently with JMC 4450. Not open to non-degree graduate students.

JMC 4500 MASS COMMUNICATION AND PUBLIC OPINION (3 credits)
This class represents a study of the philosophy, process and effects of mass communication; the relationship between the mass media and public opinion and propaganda; and the nature, function and measurement of public opinion. (Cross-listed with JMC 8506).
Prerequisite(s)/Corequisite(s): Junior and ENGL1160 and minimum overall GPA of 2.25

JMC 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810, ENGL 8816, JMC 8816).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110, or permission of instructor.

JMC 4820 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with PSCI 4820, JMC 8826, PSCI 8826).
**JMC 4830 TECHNICAL COMMUNICATION (3 credits)**

Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, ENGL 8836, JMC 8836).

**Prerequisite(s)/Corequisite(s):** ENGL1160 and CMST 1110 and minimum overall GPA of 2.25

**JMC 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)**

This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, ENGL 8856, JMC 8856).

**Prerequisite(s)/Corequisite(s):** JMC 4810 and JMC 4830 and minimum overall GPA of 2.25

**JMC 4870 TECHNICAL EDITING (3 credits)**

This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, ENGL 8876, JMC 8876).

**Prerequisite(s)/Corequisite(s):** JMC 4810 and JMC 4830 and minimum overall GPA of 2.25

**JMC 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)**

In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 4890, ENGL 8896, JMC 8896).

**Prerequisite(s)/Corequisite(s):** JMC 4810, JMC 4830, JMC 4870, JMC 4850 and minimum overall GPA of 2.25

**JMC 4900 SEMINAR MASS COMMUNICATION (3 credits)**

A senior seminar applying historical and theoretical perspective to current issues and developments in mass communication. (Cross-listed with JMC 8906).

**Prerequisite(s)/Corequisite(s):** Junior standing and (Communication Studies or Journalism and Media Communication major) and ENGL 1160 and minimum overall GPA of 2.25

**JMC 4910 SEMINAR MASS COMMUNICATION (3 credits)**

A senior seminar applying historical and theoretical perspective to current issues and developments in mass communication. (Cross-listed with JMC 8916).

**Prerequisite(s)/Corequisite(s):** Junior standing and (Communication Studies or Journalism and Media Communication major) and ENGL 1160 and minimum overall GPA of 2.25

**JMC 4920 MEDIA LITERACY (3 credits)**

An advanced seminar on the study of media and information literacy through deconstruction of mass communication content, meaning construction, framing analyses and critical/cultural approaches. (Cross-listed with JMC 8926).

**Prerequisite(s)/Corequisite(s):** Junior standing and minimum GPA of 2.25

**JMC 4960 INTERNSHIP AND CAREER PREPARATION SEMINAR (1 credit)**

This course will prepare students for doing an internship in a communication-related field by addressing such topics as writing resumes and cover letters, interviewing for jobs, and organizing a professional portfolio of their work. The topics covered also will assist with general career preparation. (Cross-listed with CMST 4960).

**Prerequisite(s)/Corequisite(s):** Junior standing; School of Communication major or minor; and minimum cumulative GPA of 2.25.

**JMC 4970 INTERNSHIP EXPERIENCE (1 credit)**

This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication. (Cross-listed with CMST 4970).

**Prerequisite(s)/Corequisite(s):** JMC 4960, CMST 4960; junior standing; School of Communication major or minor; instructor permission; and minimum cumulative GPA of 2.25.

**JMC 4980 INDEPENDENT STUDY IN COMMUNICATION (1-3 credits)**

Specialized studies in communication supplementing regular courses: readings; research; tutorial.

**Prerequisite(s)/Corequisite(s):** Junior standing and (Communication Studies or Journalism and Media Communication major) and minimum overall GPA of 2.25

**JMC 4990 ADV COMMUNICATION PRACTICUM (1-3 credits)**

Special practicum experience in an area of communication.

**Prerequisite(s)/Corequisite(s):** Junior standing and (Communication Studies major or Journalism and Media Communication major)

---

**Latin (LATN)**

**LATN 1110 ELEMENTARY LATIN I (5 credits)**

This course will provide opportunities for students to develop a basic reading knowledge of Latin.

**LATN 1120 ELEMENTARY LATIN II (5 credits)**

This is the second semester of a university-oriented two-year Latin course. The course will cover the basics of Latin grammar, which will be instrumental in preparing the student for reading Latin primary sources and making connections between that content and the literatures of Western Europe.

**Prerequisite(s)/Corequisite(s):** LATN 1110 or placement by instructor's diagnostic examination.

**LATN 2110 INTERMEDIATE LATIN I (3 credits)**

This is the third semester of a university-oriented two-year sequence of Latin courses. The course will cover the basics of Latin grammar, which will be instrumental in preparing the students for reading Latin primary sources and making connections between their contents and the literatures of Western Europe.

**Prerequisite(s)/Corequisite(s):** LATN 1120 or placement by instructor's diagnostic examination.

**LATN 2120 INTERMEDIATE LATIN II (3 credits)**

This is the fourth semester of a university-oriented two-year sequence of Latin courses. The course will cover the basics of Latin grammar, which will be instrumental in preparing the students for reading Latin primary sources and making connections between their contents and the literatures of Western Europe.

**Prerequisite(s)/Corequisite(s):** LATN 2110 or placement by instructor's diagnostic examination.
Latino/Latin American Studies (LLS)

LLS 1000 INTRODUCTION TO LATINO/LATIN AMERICAN STUDIES (3 credits)
Interdisciplinary introduction to all Latino Latin American Studies majors. Presents basic elements for studying Latin American cultures, society, economy, and politics. Special attention is paid to issues of race, gender, and class, to the changing situation of the Americas within the world economy, and to the efforts of Latin America’s peoples and Latinos in the U.S. to take control of their own destinies.
Distribution: Global Diversity General Education course and Social Science General Education course

LLS 1010 INTRO CHICANO-LATINO STUDIES: SOCIAL SCIENCES (3 credits)
The course introduces the students to key social, political, economic, and cultural issues related to the Latino experience in the U.S., and it utilizes conceptual, analytical, and methodological tools from the social sciences in order to promote their understanding.
Distribution: U.S. Diversity General Education course and Social Science General Education course

LLS 1020 INTRODUCTION TO CHICANO-LATINO STUDIES: HUMANITIES (3 credits)
The course introduces students to intellectual, artistic, literary, musical, and other cultural traditions and contributions of Chicanos Latinos in the U.S. and in their historical crossing of real and imaginary borders. The unique contributions of different racial, ethnic, gender, and other social groups within the Latino population are discussed.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

LLS 2800 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES: HUMANITIES (3 credits)
An interdisciplinary topical approach that explores various aspects of Latino/Latin American Studies. Selected topics will be suitable for examination from an inter- and multidisciplinary humanities perspective (literature, visual and performance arts, music, religion, history, philosophy). Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to six credits if content differs.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

LLS 2900 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES: SOCIAL SCIENCES (3 credits)
he course introduces students to in-depth examinations of novel topics related to Latin American societies, U.S. Latinos and migrants. The courses draw from varying combinations of social sciences (sociology, anthropology, political science, psychology, law, economics and international studies). Topics vary from term to term and examples include: Immigration Laws and Latinos across the Americas, Violence and human security in Central America. Repeatable up to nine credits if content differs
Distribution: Global Diversity General Education course and Social Science General Education course

LLS 3140 LATINO/-A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, PSCI 3140, LLS 8145)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

LLS 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with LLS 8685, PSCI 3680, PSCI 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor
Distribution: Global Diversity General Education course

LLS 3800 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES: HUMANITIES (3 credits)
An interdisciplinary topical approach that explores various aspects of Latino/Latin American humanistic expressions. Selected topics will be suitable for examination from an inter and multidisciplinary humanities perspective (literature, visual and performing arts, history, music, religion, and philosophy). Topics and disciplines will vary from term to term. Repeatable up to six credits if content differs.
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor

LLS 3900 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES (1-3 credits)
A discussion-led course on current and evolving issues and questions pertaining to the Latino population in the United States and its transnational ties to Latin America and the Caribbean. Topics fall within the social sciences. The course may also include service-learning assignments when appropriate.
Prerequisite(s)/Corequisite(s): A social science course.

LLS 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department's international politics requirement). (Cross-listed with LLS 8286, PSCI 4280, PSCI 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of the instructor.
Distribution: Global Diversity General Education course

LLS 4900 INDEPENDENT STUDY (1-3 credits)
This course is designed for those students who are capable of pursuing, independently, an area of Latino/Latin American Studies that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the LLS department. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.
Prerequisite(s)/Corequisite(s): Permission of LLS faculty member required.

LLS 4910 CONTEMPORARY TOPICS IN LLS: SOCIAL SCIENCES (3 credits)
This is a discussion-led course on current and evolving issues and questions pertaining to the Latino and Latin American immigrant population in the United States and its transnational ties to Latin America and the Caribbean. Topics fall within the social sciences. The course may also include service-learning assignments when appropriate. (Cross-listed with LLS 8916.)
Prerequisite(s)/Corequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above and/or permission of the instructor.
**LLS 4920 CONTEMPORARY TOPICS IN LLS: HUMANITIES (3 credits)**
This course is an interdisciplinary topical approach that explores various aspects of Latino/Latin American Studies. Selected topics will be suitable for examination from the perspective of the humanities (literature, art, dance, music, theatre, and philosophy topics). Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to nine credits if content differs. (Cross-listed with LLS 8926.)

**Prerequisite(s)/Corequisite(s):** One humanities and one LLS course and junior standing or permission of the instructor.

**LLS 4950 LATIN AMERICAN STUDY ABROAD (1-3 credits)**
This course is designed as an international study abroad course that will introduce undergraduate and graduate students to the dynamism of socioeconomic, economic and political changes taking place across Latin America. Note: International travel and special fees required. (Cross-listed with LLS 8956)

**Prerequisite(s)/Corequisite(s):** Senior standing or Junior standing with permission of the department. LLS 1000 or LLS 1010 or equivalent and departmental permission.

**LLS 4990 SENIOR PROJECT (3 credits)**
This is a research-based and writing-intensive course for students majoring in Latino/Latin American Studies. Students will propose and develop an original research project on a topic of their choice but one which is informed by the previous course work, practical experience, as well as the interdisciplinary, comparative, and transnational perspectives to which they have been exposed during the course of their major field of study.

**Prerequisite(s)/Corequisite(s):** Senior standing or Junior standing with permission from the instructor) and LLS 1000, LLS 1010 or 1020, and a research methods course approved for LLS credit, and ENGL 1160 or equivalent. Not open to non-degree graduate students.

---

**Law and Society (LAWS)**

**LAWS 2000 SPECIAL TOPICS IN LAW AND SOCIETY (1-5 credits)**
The course content and topic will vary. Please contact the CBA for specific course offerings.

**LAWS 3170 ETHICS IN BUSINESS (3 credits)**

**Prerequisite(s)/Corequisite(s):** ECON 2200 and ECON 2220.

**LAWS 3460 REAL ESTATE LAW (3 credits)**
This course is concerned with the sources of real estate law, both cases and statutes, and covers estates in land, conveyances, leases, mortgages, easements, zoning, brokers, contracts, taxes, foreclosures and open occupancy. (Fall, Spring) (Cross-listed with RELU 3460)

**Prerequisite(s)/Corequisite(s):** RELU 2410 or RELU 3410.

**LAWS 3930 BUSINESS LAW FUNDAMENTALS (3 credits)**
LAWS 3930 introduces students to the legal system governing business transactions. This course emphasizes constitutional law, the Common Law, and relevant statutory law. The legal topics covered include litigation and ADR, torts, contracts, Sale of Goods, insurance, international law, and regulation of business.

**Prerequisite(s)/Corequisite(s):** ENGL 1160, CMST 1110, ECON 2200, & MGMT 3200 all with 'C' (2.0) or better, 2.5 GPA.

**LAWS 3940 LEGAL AND ETHICAL APPLICATIONS (3 credits)**
LAWS 3940 exposes students to business organization law and ethics. Emphasis is on business organizations (e.g., agency, partnerships, corporations), financial transactions (e.g., checks, liens, securities), and property (e.g., environment, intellectual). Ethics is a discrete subject area studied and its analytical tools are applied to all of these areas of law.

**Prerequisite(s)/Corequisite(s):** LAWS 3930 and ACCT 2020 both with C+ (2.3) or better; 2.5 GPA

**LAWS 4220 LEGAL ISSUES IN MANAGEMENT (3 credits)**
Overview of the general nature of legal knowledge in human resources administration. The course is designed to alert students of the legal considerations when an employer-employee relationship is established. Discusses how human resource practices have been impacted by recent legal developments, anti-discrimination laws, affirmative action and labor relations. (Spring)

**Prerequisite(s)/Corequisite(s):** MGMT 3490 with a C+ or better, MGMT 3510 with a C (2.0) or better, and a 2.5 GPA

**LAWS 4500 SPECIAL PROBLEMS IN LAW AND SOCIETY (1-6 credits)**
Individual investigation of specific problems in the field of business law. (Fall, Spring)

**Prerequisite(s)/Corequisite(s):** Senior and permission of program chair.

**LAWS 4510 LAW AND SOCIETY INTERNSHIP (1-3 credits)**
(maximum of 3 credits) Students engage in part time employment in their area of specialization to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and or reading may be required.

**Prerequisite(s)/Corequisite(s):** Permission of internship coordinator; ‘C’ (2.0) or better in Laws 3930; 2.5 cumulative gpa; junior or senior standing.

**LAWS 4910 SEMINAR ON BUSINESS LAW (3 credits)**
Contact the instructor since the content will vary from semester to semester, but will have a strong emphasis on current events. The course will focus on one aspect of relationship between government and business, and its related ethical and international law issues. A major student research project is included.

**Prerequisite(s)/Corequisite(s):** LAWS 3930 and ECON 2200, its equivalent, or permission of department chair.

**LAWS 4930 INTERNATIONAL BUSINESS LAW (3 credits)**
This course is designed to inform students interested in international business transactions of the major legal principles governing international law, the major legal systems affecting the conduct of international business transactions, the domestic and foreign policies of the United States which affect business overseas, and foreign business inside American borders.

**Prerequisite(s)/Corequisite(s):** LAWS 3930.

---

**Management (MGMT)**

**MGMT 1500 INTRODUCTION TO BUSINESS (3 credits)**
This course is for students who are interested in gaining foundational knowledge in many aspects of the business world including economics, finance, marketing, management, and accounting.

**Distribution:** Social Science General Education course

**MGMT 2000 SPECIAL TOPICS IN MANAGEMENT (1-5 credits)**
The course content and topic will vary. Please contact the CBA for specific course offerings.

**MGMT 2010 MINORITIES IN THE PRIVATE ENTERPRISE SYSTEM (3 credits)**
To acquaint students with the opportunities, challenges and successes in minority businesses. Emphasis is given to the role of the individual and importance of these businesses to the aggregate economic structure. Additionally, the opportunities for minorities in majority-owned businesses. (Spring)

**Prerequisite(s)/Corequisite(s):** 2.0 GPA

**MGMT 2800 SURVEY OF BUSINESS (3 credits)**
A four-part survey of business: a study of the foundation of business, an analysis of the functional relationships within the business concerns, a discussion of the societal issues confronting contemporary business and the simulation of business operations by means of a computer. Although open to all students, it is intended for non-business majors who want to develop a basic understanding of the world of business and management. (Fall, Spring)
MGMT 3100 MANAGEMENT INFORMATION SYSTEMS (3 credits)
The course covers a broad spectrum of knowledge and techniques in MIS. It presents an overview of the issues and strategies in managing IT resources for organizational effectiveness. Covered topics include but are not limited to IT planning, network computing, functional information systems and their integration, electronic commerce, decision support systems, and data and knowledge management.
Prerequisite(s)/Corequisite(s): ACCT 2020, MGMT 3200, and MGMT 3490, each with a "C" (2.0) or better, and a 2.5 GPA. Not open to non-degree graduate students.

MGMT 3490 MANAGEMENT (3 credits)
In this course, students will develop a clear understanding of management concepts, develop critical thinking skills in applying management concepts to real world problems and begin to develop the technical, interpersonal, communication, conceptual and decision-making skills that are important to success as a manager in modern organizations. Current management trends are emphasized.
Prerequisite(s)/Corequisite(s): ENGL 1160 and MGMT 3200 each with a "C" (2.0) or above, and a 2.5 cumulative GPA.

MGMT 3510 HUMAN RESOURCE MANAGEMENT (3 credits)
This course is a comprehensive review of human resource management concepts and practices. The course is designed to educate future managers and leaders on the importance of utilizing effective human resource methods that comply with federal laws and provide the organization with high-quality talent that provides a competitive advantage.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MKT 3600)
Prerequisite(s)/Corequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MGMT 4000 SPECIAL TOPICS IN MANAGEMENT (1-6 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a management concentration.
Prerequisite(s)/Corequisite(s): Permission from the Department of Management chairperson.

MGMT 4040 ORGANIZATIONAL BEHAVIOR (3 credits)
In this course students will learn the knowledge and skills necessary to effectively manage and lead others. The discussion and application of topics such as leadership, motivation and attitudes will provide a theoretical grounding in these areas and the opportunity to practice applying these concepts to real-world problems.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4050 MANAGERIAL DECISION MAKING (3 credits)
Students will have the opportunity to understand and apply techniques for effective individual and organizational problem solving. The students will interactively participate in generating, prioritizing and organizing their ideas in order to become better managerial decision-makers/problem solvers.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4090 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with BSAD 8096, ITIN 4090)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

MGMT 4110 ORGANIZATION CHANGE AND DESIGN (3 credits)
This course is designed to increase students' understanding and knowledge of how organizations are designed and structured in order to create value and competitive advantage, and how organizations can operate in an effective and efficient manner in an ever-changing environment.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4110 STAFFING THE ORGANIZATION (3 credits)
This course is a comprehensive review of issues and techniques related to the acquisition of high-quality human resources for optimal organizational effectiveness. The course is designed to enable future managers and human resource professionals to utilize effective strategies for recruiting, selecting, placing, and integrating new employees into the organization's workforce.
Prerequisite(s)/Corequisite(s): MGMT 3490 and MGMT 3510 with a C+ or better and a 2.5 GPA; or permission of instructor. Students are encouraged to take MGMT 4220 prior to taking this course.

MGMT 4120 TALENT DEVELOPMENT (3 credits)
This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee training and development programs to optimize human capital effectiveness in modern organizations. The course is designed to enable future managers and human resource professionals to utilize effective strategies for assessing employee training needs and developing appropriate solutions to maximize talent utilization.
Prerequisite(s)/Corequisite(s): MGMT 3490 and MGMT 3510 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4150 INTERNATIONAL MANAGEMENT (3 credits)
The purpose of this course is to explore management theory and practice from an international or cross-cultural perspective to gain an appreciation for the complexities of managing in diverse cultural, political and economics environments. Specific emphasis is placed on studying the challenges of management and organization in multinational corporations.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.
MGMT 4220 EMPLOYMENT LAW (3 credits)
This course is a comprehensive review of the legal framework in human resource management practice. The course is designed to prepare future managers and human resource professionals for the myriad legal issues involved in the employer-employee relationship and what is required for effective compliance. (Spring)
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better, MGMT 3510 with a C (2.0) or better, 2.5 GPA; or permission of instructor.

MGMT 4230 APPLIED LEADERSHIP FOR MANAGERS (3 credits)
The course provides an introduction to applied leadership concepts and practices. Students are given a background into systematic decision-making processes, and then are introduced to cases of how actual leaders think and solve problems. Building on these foundational models, students learn how to perform problem solving requirements they will experience as managers. Finally, it concludes with a look at psychological biases and traps that may affect decision-makers.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better, a minimum cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

MGMT 4330 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with SCMT 4330, BSAD 8336)
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

MGMT 4340 MANAGEMENT OF TEAMS (3 credits)
Students have the opportunity to learn how to create teamwork, develop team dialogue, lead and share leadership in teams, solve problems and make team decisions, and handle team pressure, conflicts and role responsibilities. Application of tools and techniques to develop each of these topics is an integral part of this course.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)
Major topics in this course include TQM, reengineering, process improvement, and tools and techniques to formulate, change and implement in the employer-employee organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course.
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with SMCT 4450, BSAD 8456)
Prerequisite(s)/Corequisite(s): MGMT 3490 with a grade of C+ or above, at least a cumulative GPA of 2.5, or permission of instructor.

MGMT 4480 CORPORATE AND BUSINESS STRATEGY (3 credits)
A comprehensive study of the analytical techniques and managerial tasks associated with developing, executing and monitoring a strategic course of action for medium to large firms. The interrelationships between the functional business areas will be stressed using a combination of contemporary readings, business cases, team projects or computerized situations.
Prerequisite(s)/Corequisite(s): Enrollment only with advisor permit. Must have a declared major in BSBA program; 2.5 GPA; completion of 99 or more hours; MGMT 3200, MGMT 3490, MKT 3310, FNKB 3250 with a “C” (2.0) or better. Graduating seniors are given enrollment priority.

MGMT 4500 SPECIAL PROBLEMS IN MANAGEMENT (1-3 credits)
This is an independent study course in which the student completes a focused project in the field of management, human resource management, international business, supply chain management, or entrepreneurship under faculty supervision.
Prerequisite(s)/Corequisite(s): MGMT 3490 C+ or better, 2.5 GPA; permission of program chair; junior/senior standing; must obtain agreement from a faculty member to supervise; submit completed Special Problems contract to MGMT Dept chairperson. Forms in CBA advising office.

MGMT 4510 MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general management or a specialization within the domain (i.e. strategy, production/operations, project management, planning, organizing, leading, or controlling).
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4520 HUMAN RESOURCES MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the human resource management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general human resource management or a specialization within the domain (i.e. staffing, training, employee relations). Students engage in part time employment in the human resource management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general human resource management or a specialization within the domain (i.e. staffing, training, employee relations).
Prerequisite(s)/Corequisite(s): MGMT 3510 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4560 APPLIED LEADERSHIP FOR MANAGERS (3 credits)
The course provides an introduction to applied leadership concepts and practices by providing students with the knowledge and skills necessary to solve problems and make decisions as leaders.
Prerequisite(s)/Corequisite(s): Completion of at least 30 credit hours and a minimum 3.3 GPA. Not open to non-degree graduate students.

Marketing (MKT)

MKT 2000 SPECIAL TOPICS IN MARKETING (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.
Prerequisite(s)/Corequisite(s): ENGL 1160 with grade of ‘C’ (2.0) or better and 2.3 or better GPA; or permission of instructor.

MKT 2210 SURVEY OF MARKETING (3 credits)
This course is for any student majoring in business. Course content focuses on basic product and service marketing for business and non-business organizations. Additional topics include marketing for career development and marketing for non-profit organizations.
Prerequisite(s)/Corequisite(s): ENGL 1160 with grade of ‘C’ (2.0) or better and GPA of 2.3 or better.
MKT 3100 PROFESSIONAL SELLING (3 credits)
A course to teach professional selling and relationship marketing principles and practices. A variety of personal and direct sales techniques, psychology and application of personal communication theory will be applied. Use of current sales/marketing research, interactive sales training technology, and systems contracting to professional selling.
Prerequisite(s)/Corequisite(s): ECON 2220 and ENGL 1160 both with 'C' (2.0) or better and GPA of 2.3 or better; or permission of instructor.

MKT 3200 BUSINESS COMMUNICATIONS (3 credits)
This course develops business communication skills such as selecting and using appropriate technologies for reaching intended audiences. Students will practice effective explanatory, narrative, persuasive, and investigative writing in the context of business communication.
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110, each with a grade of "C" (2.0) or better; 2.5 GPA.

MKT 3310 PRINCIPLES OF MARKETING (3 credits)
An examination of marketing functions and the institutions which perform them, choice of criteria for marketing strategy decisions, marketing structural relationships, and the role of marketing in society.
Prerequisite(s)/Corequisite(s): ECON 2200, MATH 1310, ENGL 1160, and MGMT 3200 all with 'C' (2.0) or better, and 2.5 GPA.

MKT 3320 CONSUMER BEHAVIOR (3 credits)
A study of the conceptual and theoretical foundation of consumer and industrial buyer behavior. Emphasis is placed upon the applications in the operational marketplace and research relating to specific consumer problems and patterns in marketing.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3340 CHANNELS OF DISTRIBUTION (3 credits)
Channels management focuses on the associations of businesses and the performance of required functions making products and services available to end users when and where buyers demand them. Attention is paid to how intermediaries (e.g. wholesalers and retailers) interact and organize an efficient system to ensure that products and services are available in proper quantities and on time for consumers.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; and GPA of 2.5 or better; or permission of instructor.

MKT 3350 MARKETING SERVICE PRODUCTS (3 credits)
This elective explores how intangibility forces customers to evaluate service products differently, creating more challenges for marketers. The course is based on the premise that financial benefits reward services that provide value to customers, and develops strategies for creating value.
Prerequisite(s)/Corequisite(s): MKT 3310 with a 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 3360 INTEGRATED MARKETING COMMUNICATIONS (3 credits)
This course considers the functions and resources necessary to place effective integrated marketing communications (IMC) before target audiences and thus help to achieve marketing objectives for both business and non-business organizations. Specifically, it includes integrated marketing communications institutions, budgeting, positioning, creative strategy, media strategy, and determining communication effectiveness. It also considers social and economic effects of IMC.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better and GPA of 2.5 or better; or permission of instructor.

MKT 3370 SOCIAL MEDIA MARKETING (3 credits)
The students will become familiar with the full range of promotional media, techniques and methodologies, understand the structuring of a promotional campaign according to the strategic objectives, be able to effectively integrate promotions into a composite marketing program, and be able to design and present a complex promotional strategy employing a diverse array of techniques and methods according to the specific objectives.
Prerequisite(s)/Corequisite(s): Completion of MKT 3310 and MKT 3360 with a C- or better.

MKT 3380 INTERNATIONAL MARKETING (3 credits)
A study of the processes, procedures, characteristics and environments for goods and services in foreign market places. Reference is drawn to the theories and concepts of domestic marketing to appraise their applicability to international markets. Considerable attention is given to the features of the foreign market environments which both facilitate the marketing processes, inhibit them, and require strategies and tactics of accommodation.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better.

MKT 3390 GRAPHIC DESIGN FOR MARKETERS (3 credits)
The course provides a hands-on introduction to the concepts and tools used in graphic design to create marketing communications. Material and assignments will focus on how design supports marketing communication strategy. Students will learn the principles and vocabulary of design, how to critique graphic design, and how to create basic print materials. Students will learn and practice the skills necessary to communicate with graphic designers and advertising professionals in order to successfully implement marketing strategies.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better.

MKT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).
Prerequisite(s)/Corequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 with a minimum grade of ‘C’ (2.0). Not open to non-degree graduate students.

MKT 3610 BUSINESS TO BUSINESS MARKETING (3 credits)
An introductory marketing management course which examines the decisions involved in marketing goods and services to the industrial buyer as opposed to the consumer buyer. Buyer motivation, promotion decisions, channel decisions, product development and pricing policies involved in the marketing of industrial goods are considered.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4000 SPECIAL TOPICS IN MARKETING (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.
Prerequisite(s)/Corequisite(s): MKT 3310 plus 6 hours of Marketing, all with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4100 AVIATION MARKETING (3 credits)
This course will provide an understanding of the principles of marketing and aviation in general. An overview of the marketing relationship with the aviation industry will be explored. This course will introduce students to developing marketing plans and campaigns for aviation related businesses.
Prerequisite(s)/Corequisite(s): AVN 1000 and MKT 3310 both with a grade of 'C'(2.0) or better and minimum GPA of 2.5.

MKT 4200 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with BSAD 8206)
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; MKT 3100 with C- or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.
MKT 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216)
Prerequisite(s)/Corequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

MKT 4220 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long-term growth and profitability with a base of core strategic buyers. (Cross-listed with BSAD 8226)
Prerequisite(s)/Corequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

MKT 4300 MARKETING MANAGEMENT (3 credits)
A case study course which examines product, price, promotion and channel of distribution policies. Major emphasis is placed on analysis of marketing problems and the facets of making decisions in the marketing area.
Prerequisite(s)/Corequisite(s): MKT 3310 with grade of 'C+' or better plus 6 hours of marketing, all with 'C' (2.0) or better, senior standing; GPA of 2.5 or better; or permission of instructor.

MKT 4320 SALES MANAGEMENT (3 credits)
Planning, organizing and controlling the sales force. Special emphasis on application of latest research to the areas of compensation, selection, motivation, training, time and territory management, opportunity analysis and cost control. (Cross-listed with BSAD 8326).
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4340 MARKETING RESEARCH (3 credits)
Application of analytical tools to marketing problems including markets, products, distribution channels, sales efforts and advertising. Emphasis on planning, investigation, collection, interpretation of data and presentation of results.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor.

MKT 4360 MARKETING IN A HIGH-TECH ENVIRONMENT (3 credits)
The focus of this course is understanding the Internet as a marketing tool. The content includes discussion of how the Internet is used by business for designing products, pricing, promotions, and distribution thereof. The larger impact of the Internet on businesses and future trends is also discussed. (Cross-listed with BSAD 8366).
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with SCMT 4380, BSAD 8386.)
Prerequisite(s)/Corequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 4420 BUSINESS DEMOGRAPHICS (3 credits)
The development of a demographic perspective to assist in understanding the business environment and business policy. How population change impacts upon consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of U.S. population change and policy as well as a view toward international population considerations.
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C+' or better; GPA 2.5 or better, Junior Standing; or permission of instructor.

MKT 4500 SPECIAL PROBLEMS IN MARKETING (2-3 credits)
Individual investigation of specific problems in marketing. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Senior and permission of instructor.

MKT 4510 MARKETING INTERNSHIP (1-3 credits)
Students engage in part time employment in the marketing discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general marketing or a specialization within the domain (i.e. selling, social media, advertising, market research).
Prerequisite(s)/Corequisite(s): MKT 3310 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MKT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with SCMT 4540)
Prerequisite(s)/Corequisite(s): SCMT 3410 and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

MKT 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth as other pressing issues such as financing, staffing, product development are addressed. This course will focus on consultative solution-based sales fundamentals that can be applied in the entrepreneurial selling environment. (Cross-listed with ENTR 4760, BSAD 8766)
Prerequisite(s)/Corequisite(s): GPA 2.5 or better; MKT 3100 with a 2.5 grade or better; MKT 3310 with a 2.5 grade or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4800 HONORS STUDIES IN MARKETING (3 credits)
A comprehensive examination of marketing as it is practiced among firms representing different industrial sectors. Course objectives include individual inquiry, theoretical applications and limitations, and an increased academic understanding of the discipline of marketing. Only grades 'B' and above will be awarded. Students exhibiting performance below the 'B' level will receive an 'F' for the course. Admission to this course is by invitation only.
Prerequisite(s)/Corequisite(s): Permission of instructor. Senior standing, 3.2 GPA or above, declared business college specialization in MKT or BFIN or MGMT or communications (journalism, PR or broadcasting). Not open to non-degree graduate students.

MKT 4910 SPECIAL TOPICS IN MARKETING (3 credits)
A series of special courses each designed to focus on current major topics and developments in a specific area of marketing or business. Scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Senior standing or permission of instructor.
Materials Engineering (MATL)

MATL 2600 ELEMENTS OF MATERIAL SCIENCE (3 credits)
Relation of atomic, molecular, and crystal structure to the physical, mechanical, and chemical properties of metals, alloys, polymers, and ceramics.
Prerequisite(s)/Corequisite(s): CHEM 1180 and PHYS 2120; and MENG 2230 or EMEC 2230 coreq. Not open to non-degree graduate students.

MATL 2620 MATERIALS LABORATORY I (1 credit)
Engineering behavior of materials with emphasis on macroscopic properties; relationship between these properties, processing history, composition and microstructure. Introduction to the use of metallographic tools used in interpretation.
Prerequisite(s)/Corequisite(s): MATL 2600 coreq. Not open to non-degree graduate students.

MATL 3600 ELEMENTS OF MATERIAL SCIENCE (4 credits)
Relation of atomic, molecular and crystal structure to the physics, mechanical and chemical properties of metals, alloys, polymers and ceramics. Experience in investigation of properties of engineering material.
Prerequisite(s)/Corequisite(s): CHEM 1180 and PHYS 2120; and MENG 2230 or EMEC 2230 coreq. Not open to non-degree graduate students.

MATL 4600 MECHANICAL ASPECTS OF MATERIALS (3 credits)
Emphasizes those principles at the atomic or molecular level that relate mechanical properties and behavior of different classes of materials to their structure and environment.
Prerequisite(s)/Corequisite(s): MATL 3600; and MENG 3250 or EMEC 3250. Not open to non-degree graduate students.

MATL 4610 MATERIALS LABORATORY II (3 credits)
Application of scientific principles in the laboratory to the analysis of materials problems and selection of engineering materials. (Cross-listed with MATL 8616)
Prerequisite(s)/Corequisite(s): MATL 3600. Not open to non-degree graduate students.

MATL 4620 X-RAY DIFFRACTION (3 credits)
Prerequisite(s)/Corequisite(s): PHYS2120, not open to non-degree students.

MATL 4650 APPLIED PHYSICAL METALLURGY AND DESIGN (3 credits)
Principles of alloying; alloy selection; modification of the physical properties of structural alloys by thermal, mechanical, and chemical treatment; solidification and joining phenomena. (Cross-listed with MATL 8656)
Prerequisite(s)/Corequisite(s): MATL 3600. Not open to non-degree graduate students.

MATL 4660 MATERIALS SELECTION FOR MECHANICAL DESIGN (3 credits)
Rational selection procedure for the most suitable materials for each particular mechanical design. Introduction of materials selection charts and the concept of materials performance indices. Case studies in mechanical design, taking materials selections, shape and process into account. Projects on materials selection at the design concept and the design embodiment stages.
Prerequisite(s)/Corequisite(s): MATL 3600; and MENG 3250 or EMEC 3250. Not open to non-degree graduate students.

MATL 4670 PRINCIPLES OF POWDER METALLURGY (3 credits)
Basic principles of powder metallurgy, with emphasis on methods of producing metal powders, determination of their characteristics; the mechanics of powder compaction; sintering methods and effects; and engineering applications.
Prerequisite(s)/Corequisite(s): MENG 2000 and MATL 3600; and MENG 3250 or EMEC 3250. Not open to non-degree graduate students.

MATL 4680 FAILURE ANALYSIS: PREVENTION AND CONTROL (3 credits)
Metallurgical tools for analysis of failures; types and modes of failure; sources of design and manufacturing defects. Case histories utilized to illustrate modes of failures and principles and practices for analysis. Design concepts and remedial design emphasized with these case studies. Several projects involving case analyses and design by students included.
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC 3250; and MATL 3600. Not open to non-degree graduate students.

MATL 4690 PHYSICAL MATERIALS SYSTEMS (3 credits)
The principles controlling the formation of the structure of engineering materials. Phase diagrams, diffusion, interfaces and microstructures, solidification and diffusional transformation and diffusionless transformations.
Prerequisite(s)/Corequisite(s): PHYS 2120 and MATL 3600. Not open to non-degree graduate students.

MATL 4700 THERMODYNAMICS OF ALLOYS (3 credits)
Materials thermodynamics of closed systems, introduction to liquid and solid solution alloys, relationship to gas phase, application to binary systems.
Prerequisite(s)/Corequisite(s): MENG 2000 and MATL 3600; and MATH 1970 coreq. Not open to non-degree graduate students.

MATL 4710 ELECTRON MICROSCOPY OF MATERIALS (3 credits)
Prerequisite(s)/Corequisite(s): PHYS2120, not open to non-degree students.

MATL 4720 KINETICS OF ALLOYS (3 credits)
Kinetics of gas-liquid-solid reactions in alloy systems; analysis of diffusion models applicable to such systems.
Prerequisite(s)/Corequisite(s): MATL 3600 and MATH 2350. Not open to non-degree graduate students.

MATL 4730 CORROSION (3 credits)
Fundamentals of corrosion engineering, underlying principles, corrosion control, and materials selection and environmental control.
Prerequisite(s)/Corequisite(s): CHEM1180 and CHEM1184, not open to non-degree students.

MATL 4740 EXTRACTIVE METALLURGY (3 credits)
Unit operations and processes utilized in production of ferrous, nonferrous, and refractory metals. Examples of production techniques for metal bearing ores, scrap metals, and domestic waste. Control of impurity and alloy content and their relationship to physical properties.
Prerequisite(s)/Corequisite(s): MENG 2000 and MATL 3600. Not open to non-degree graduate students.

MATL 4980 LAB & ANALYTICAL INVESTIGATION (1-6 credits)
Investigation and written report of research into specific problems in any major area of materials engineering.
Prerequisite(s)/Corequisite(s): Not open to nondegree students.
Mathematics (MATH)

MATH 1000 PRE-INTERMEDIATE ALGEBRA (2 credits)
An introductory level algebra course designed to prepare students to be successful in MATH 1310 (Intermediate Algebra). Topics include whole numbers, integers, fractions and mixed numbers, decimals, simplifying mathematical expressions, the properties of equality, solving linear equations in one variable, using linear equations to solve problems, ratios and proportions, graphing and the rectangular coordinate system. This course is worth two credit hours and will not satisfy the Math General Education requirement.

Prerequisite(s)/Corequisite(s): ACT Math sub score of 11-18, Math SAT at least 220 or Math SAT2016 at least 230 within the last 5 years; or Accuplacer score of 1 or COMPASS score of 1 or 2 within the last two years; or an F or better in MATH 1000 within the last 2 years

MATH 1200 QUANTITATIVE LITERACY (3 credits)
Relevant mathematical skills for educated citizens in today’s society. Topics include: personal finance; linear equations and inequalities in one and two variables; quadratic, exponential and logarithmic functions; probability and statistics; and systems of equations. This course is intended to satisfy the general education mathematics requirement. It does not serve as a prerequisite for any other mathematics course.

Prerequisite(s)/Corequisite(s): Math ACT score of 19 (or equivalent MPE) within the last two years.

MATH 1310 INTERMEDIATE ALGEBRA (3 credits)
This course presents properties of real numbers, linear equations and graphing, systems of equations, linear inequalities, quadratic equations, polynomials, algebraic fractions, exponents and radicals, and logarithms.

Prerequisite(s)/Corequisite(s): ACT Math at least 19, Math SAT at least 460, or Math SAT2016 at least 500 within the last 5 years; or Accuplacer OR COMPASS score at least 3 within the last 2 years; or MATH 1000 with C- or better within the last 2 years; or MATH 1310 within last 2 years

Distribution: Math

MATH 1320 COLLEGE ALGEBRA (3 credits)
An advanced algebra course that teaches the following topics: algebraic operations, functions, graphs, linear and quadratic equations and inequalities, polynomials, rational functions, exponential and logarithmic functions, systems of equations, binomial theorem, complex numbers, exponentials, logarithms, sequences, series, and combinatorics.

Prerequisite(s)/Corequisite(s): ACT Math at least 23, Math SAT at least 540, or Math SAT2016 at least 570 within the last 5 years; or Accuplacer or COMPASS score at least 4 within the last 2 years; or MATH 1310 with at least C- within the last 2 years; or MATH 1320 within last 2 years

MATH 1330 TRIGONOMETRY (3 credits)
This course introduces elements of plane trigonometry, including trigonometric and circular functions, inverse trigonometric functions, solutions of triangles, identities and conditional equations, vectors, complex numbers, and conic sections.

Prerequisite(s)/Corequisite(s): ACT Math at least 23, Math SAT at least 540, or Math SAT2016 at least 570 within last 5 years; or Accuplacer at least 5 or COMPASS at least 4 within last 2 years; or MATH 1320 with at least C- within last 2 years; or MATH 1330 within last 2 years

MATH 1340 ALGEBRA AND TRIGONOMETRY FOR CALCULUS (5 credits)
A combined algebra and trigonometry course for science and engineering students planning to enroll in MATH 1950. Topics include: systems of equations, polynomials and rational functions, exponential and logarithmic functions, trigonometric functions and their inverses, trigonometric identities and applications, conic sections, and complex numbers. Credit for both MATH 1320/MATH 1340 and MATH 1340, or both MATH 1330 and MATH 1340 will not be given.

Prerequisite(s)/Corequisite(s): ACT Math at least 23, Math SAT at least 540, or Math SAT2016 at least 570 within last 5 years; or Accuplacer at least 5 or COMPASS at least 4 within last 2 years; or MATH 1310 with at least C- within last 2 years; or MATH 1340 within last 2 years

MATH 1360 APPLIED ALGEBRA WITH DATA ANALYSIS (3 credits)
This is an applied algebra course teaching the following topics with an emphasis on data analysis and application: algebraic, exponential, and logarithmic functions; probability and statistics. The course will emphasize data analysis and applications of covered topics in order to demonstrate the relevance of mathematics to solving real-world problems.

Prerequisite(s)/Corequisite(s): Students must have an ACT Math sub score of at least 23 within the last 2 years, a COMPASS Test score of at least 4 within the last 2 years, or MATH 1310 within the last 2 years with a grade of C- or better.

MATH 1370 APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS (4 credits)
This is an applied algebra course with optimization, teaching the following topics with an emphasis on data analysis and application: algebraic, exponential, and logarithmic functions; derivatives and applications thereof; and statistics. The course will emphasize data analysis and applications of covered topics in order to demonstrate the relevance of mathematics to solving real-world problems.

Prerequisite(s)/Corequisite(s): ACT Math sub score at least 23, Math SAT at least 540, or Math SAT2016 at least 570 within last 5 years; or Accuplacer or COMPASS score at least 4 within last 2 years; or MATH 1310 with C- or better with in last 2 years

MATH 1530 INTRODUCTION TO APPLIED PROBABILITY AND STATISTICS (3 credits)
An elementary introduction to the basic concepts of probability, descriptive statistics, and statistical inference, including point estimation, confidence intervals, and hypotheses testing.

Prerequisite(s)/Corequisite(s): ACT Math sub score at least 19, Math SAT at least 460, or Math SAT2016 at least 500 within last 5 years; Accuplacer or COMPASS score at least 3 within last 2 years; or MATH 1000 with C- or better within last 2 years; or MATH 1530 within last 2 years

MATH 1600 COMPUTER ALGEBRA (1 credit)
An introductory course to computer algebra systems such as MAPLE or MATHEMATICA. The course will discuss files and their management, the package interface, and the basic package commands. Emphasis will be placed on solving equations, systems of equations, sets, lists, tables, and matrices. The graphing capabilities of the package will be explored.

Prerequisite(s)/Corequisite(s): MATH 1320 or equivalent.

MATH 1930 CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (3 credits)
Basic ideas of calculus are surveyed with applications: functions, limits, derivatives, and integrals. Trigonometry is not required. May not be used as a prerequisite for MATH 1960. Credit will not be granted for both MATH 1930 and MATH 1950.

Prerequisite(s)/Corequisite(s): ACT Math sub score at least 25, Math SAT at least 570, or Math SAT2016 at least 590 within last 5 years; or Accuplacer or COMPASS score at least 5 within last 2 years; or MATH 1320 with at least C- within last 2 years; or MATH 1930 within last 2 years
MATH 1940  CALCULUS FOR BIOMEDICINE (5 credits)  
Introductory calculus with an emphasis on dynamical systems analysis applied to biological systems. Topics include differential and integral calculus, elementary chaos theory, discrete modeling, neural networks, and elementary differential equations, population dynamics, and biochemical signal transduction.  
Prerequisite(s)/Corequisite(s): ACT Math sub score at least 25, Math SAT at least 570, or Math SAT2016 at least 590 within last 5 years; or Accuplacer or COMPASS score at least 6 within last 2 years; or MATH 1320 with at least C- within last 2 years; or permission of instructor  
MATH 1950  CALCULUS I (5 credits)  
This is a course in plane analytic geometry emphasizing the study of functions, limits, derivatives and applications, and an introduction to integration.  
Prerequisite(s)/Corequisite(s): ACT Math sub score at least 26, Math SAT at least 590 or Math SAT2016 at least 610 within last 5 years; or Accuplacer or COMPASS score of 7 within last 2 years; or MATH 1320 and MATH 1330 or MATH 1340 with C- or better within last 2 years  
MATH 1960  CALCULUS II (5 credits)  
This course introduces applications of integration, techniques of integration, infinite sequences and series, vectors in the plane, and polar functions. A mathematical software package is introduced, with required assignments.  
Prerequisite(s)/Corequisite(s): MATH 1950 with a grade of C- or better, or MATH 1960 with a grade of F or better, or permission of instructor.  
MATH 1970  CALCULUS III (4 credits)  
This course presents vector functions, parametric equations, solid analytic geometry, partial differentiation, multiple integration, and an introduction to vector calculus. A mathematical software package is introduced with required assignments.  
Prerequisite(s)/Corequisite(s): MATH 1960 with a grade of C- or better, or MATH 1970 with a grade of F or better, or permission of instructor.  
MATH 2030  DISCRETE MATHEMATICS (3 credits)  
A foundations course in discrete mathematics for applied disciplines, including computer science and computer engineering. Topics include: logic, sets, relations, functions, complexity functions and big congruences, induction and recursive definitions, elementary combinatorics, discrete probability, graphs and trees.  
Prerequisite(s)/Corequisite(s): MATH 1950 or MATH 1930.  
MATH 2040  FIN DISC MATH FOR INFO SCI/ENG (3 credits)  
A foundations course in discrete mathematics for applied disciplines including information science and computer engineering. Topics include: logic, sets, relations, functions, complexity functions and big congruences, induction and recursive definitions, elementary combinatorics, discrete probability, graphs, trees, vectors, matrices, linear equations, eigenvalues, Markov chains, and linear programming.  
Prerequisite(s)/Corequisite(s): MATH 1950 or MATH 1930.  
MATH 2050  APPLIED LINEAR ALGEBRA (3 credits)  
This course presents Matrix algebra, simultaneous equations, vector spaces, with applications of linear algebra and computational considerations. Mathematical software is utilized, with required assignments.  
Prerequisite(s)/Corequisite(s): MATH 1950 with a grade of C- or better  
MATH 2200  MATHEMATICAL COMPUTING I (3 credits)  
This is a first course in mathematical computing. It covers the basic elements of scientific programming in both a computer algebra system and a high-level programming language. Exploring are implementation issues, problem description, model building, method development, and solution assessment.  
Prerequisite(s)/Corequisite(s): MATH 1950  
MATH 2230  INTRODUCTION TO ABSTRACT MATH (3 credits)  
This course provides a transition from the calculus to more abstract mathematics. Topics include logic, sets and functions, an introduction to mathematical proof, mathematical induction, relations. Important prerequisite material for a number of more advanced mathematics courses is studied. Credit will not be given for both MATH 2030 (or MATH 2040) and MATH 2230.  
Prerequisite(s)/Corequisite(s): MATH 1960 or permission  
MATH 2350  DIFFERENTIAL EQUATIONS (3 credits)  
Topics include solutions of linear and first-order nonlinear differential equations with applications, higher-order linear differential equations with applications, power series solutions, and Laplace transform methods.  
Prerequisite(s)/Corequisite(s): MATH 1960 with a grade of C- or better  
MATH 3100  APPLIED COMBINATORICS (3 credits)  
A foundations course in discrete mathematics for applied disciplines including computer science and computer engineering. Topics include: logic, sets, relations, functions, complexity functions and big congruences, induction and recursive definitions, elementary combinatorics, discrete probability, graphs and trees.  
Prerequisite(s)/Corequisite(s): MATH 1940 and permission of instructor.  
MATH 3100  APPLIED COMBINATORICS (3 credits)  
A foundations course in discrete mathematics for applied disciplines including computer science and computer engineering. Topics include: logic, sets, relations, functions, complexity functions and big congruences, induction and recursive definitions, elementary combinatorics, discrete probability, graphs and trees.  
Prerequisite(s)/Corequisite(s): MATH 1940 and permission of instructor.  
MATH 3200  MATHEMATICAL COMPUTING II (3 credits)  
This course is a second course in mathematical computing. It covers the design and development of algorithms and more advanced elements of programming in a mathematical context. The computer algebra system Maple will be used. The programming assignments are primarily based on calculus concepts and are designed to reinforce and deepen the understanding of these concepts.  
Prerequisite(s)/Corequisite(s): CIST 1400 or MATH 2200, and MATH 1970 (the latter may be taken concurrently)  
MATH 3230  INTRODUCTION TO ANALYSIS (3 credits)  
Provides a theoretical foundation for the concepts of elementary calculus. Topics include real number system, topology of the real line, limits, functions of one variable, continuity, differentiation, integration. (Cross-listed with MATH 8235).  
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2230  
MATH 3300  NUMERICAL METHODS (3 credits)  
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with MATH 8305, CSCI 3300, CSCI 8305).  
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor.  
MATH 3400  THEORY OF INTEREST (3 credits)  
A study of the measurement of interest, annuities, amortization schedules and other miscellaneous topics.  
Prerequisite(s)/Corequisite(s): MATH 1970  
MATH 3500  SELECTED TOPICS IN MATHEMATICS (1-6 credits)  
This is a variable content course with selected topics in the mathematical sciences which may be of interest to students in other disciplines such as mathematics education, psychology and business. The course may be taken more than once for credit provided topics differ, with a maximum of nine hours. Mathematics majors may apply no more than three hours of MATH 3500 toward the minimum major requirements. (Cross-listed with MATH 8505).  
Prerequisite(s)/Corequisite(s): Permission of instructor.
MATH 3640 MODERN GEOMETRY (3 credits)
Axiomatic systems, finite geometries, modern foundations of Euclidean geometry, hyperbolic and other non-Euclidean geometries, projective geometry. (Cross-listed with MATH 8645).
Prerequisite(s)/Corequisite(s): MATH 2230 or MATH 2030, or equivalent mathematical maturity.

MATH 3850 HISTORY OF MATHEMATICS (3 credits)
An overview of the historical development of mathematical concepts and methods. Brief biographies of major mathematicians, descriptions of the cultural context of selected major advances and examples of the solution of problems using the knowledge and methods appropriate for each time period will be included. (Cross-listed with MATH 8855).
Prerequisite(s)/Corequisite(s): Students who enroll in this course should have completed MATH 1970 and MATH 2230 in order to have the minimum amount of mathematical background needed to appreciate the mathematical content of the course.

MATH 4010 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with CSCI 4010, CSCI 8016, MATH 8016).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor's permission.

MATH 4030 MODERN ALGEBRA (3 credits)
Algebra is the study of mathematical manipulations that preserve something (like equality - when solving equations). The areas in which Algebra finds application are quite diverse, from Ancient Greek Geometry through to Modern Information Protection and Security (error correcting codes, data compression, and cryptography). This course begins with topics that should be familiar (such as ruler-and-compass constructions, and modular arithmetic) and builds upon this foundation through polynomial rings up to finite fields and basic group theory. (Cross-listed with MATH 8036).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better

MATH 4050 LINEAR ALGEBRA (3 credits)
The theory of vectors, vector spaces, inner product spaces, linear transformations, eigenvalues, canonical forms, complex vectors and matrices and orthogonality. Unlike MATH 2050, this course emphasizes the theoretical aspects of linear algebra. (Cross-listed with MATH 8056).
Prerequisite(s)/Corequisite(s): MATH 2050; MATH 2030 or MATH 2230 or equivalent; or permission

MATH 4110 ABSTRACT ALGEBRA I (3 credits)
An introduction to group theory. Various classes of group are studied: symmetric groups, abelian, cyclic, and permutation groups. Basic tools are developed and used: subgroups, normal subgroups, cosets, the Lagrange theorem, group homomorphisms, quotient groups, direct products, and group actions on a set. The course culminates with the Sylow theorems in finite group theory. The theory is illustrated with examples from geometry, linear algebra, number theory, crystallography, and combinatorics. (Cross-listed with MATH 8116).
Prerequisite(s)/Corequisite(s): MATH 4050/MATH 8056 with a C- or better or MATH 4560/MATH 8566 with a C- or better or permission of instructor.

MATH 4120 ABSTRACT ALGEBRA II (3 credits)
An introduction to ring and field theory. Various classes of commutative rings are considered including polynomial rings, and the Gaussian integers. Examples of fields include finite fields and various extensions of the rational numbers. Concepts such as that of an ideal, integral domain, characteristic and extension field are studied. The course culminates with an introduction to Galois theory. Applications include the resolution of two classical problems: the impossibility of angle-trisection and the general insolvability of polynomial equations of degree 5 or higher. (Cross-listed with MATH 8126).
Prerequisite(s)/Corequisite(s): MATH 4110/MATH 8116 with a C- or better or permission of instructor

MATH 4150 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with MATH 8156, CSCI 4150, CSCI 8156).
Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor.

MATH 4230 MATHEMATICAL ANALYSIS I (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include ordered fields and the real number system, basic properties of complex numbers, metric space topology, sequences and series in Rk, limits and continuity in a metric space, monotonic functions. (Cross-listed with MATH 8236).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235

MATH 4240 MATHEMATICAL ANALYSIS II (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include differentiation and Riemann-Stieltjes Integration, sequences and series of functions, uniform convergence, power series, functions of several variables, Implicit Function Theorem. (Cross-listed with MATH 8246).
Prerequisite(s)/Corequisite(s): MATH 4230

MATH 4270 COMPLEX VARIABLES (3 credits)
Differentiation, integration and power series expansions of analytic functions, conformal mapping, residue calculus and applications. (Cross-listed with MATH 8276).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or equivalent.

MATH 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, CSCI 8306, MATH 8306).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better of instructor.

MATH 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations research models and algorithms. Topics include Markov chains, queuing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, CSCI 8316, MATH 8316).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

MATH 4320 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)
Survey of computational methods used in the solution of operations research problems. Topics include scripting to guide optimization software, metaheuristics for optimization, and basic machine learning algorithms. (Cross-listed with MATH 8326).
Prerequisite(s)/Corequisite(s): MATH 3200 and MATH 4300 each with a grade of C- or better or permission of instructor.
MATH 4330 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
This course introduces the basic methods of PDEs guided by applications in physics and engineering. The main topics to be covered include The Linear First order PDEs, Transport equations, Characteristics, Classification of PDEs, Separation of variables, Heat conduction, vibrating membranes, boundary value problems, Maximum principle, Sturm-Liouville problems, Fourier series, Fourier integrals, Harmonic functions, Legendre polynomials, Distributions, Green's functions. (Cross-listed with MATH 8336).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better, or permission of instructor; MATH 2050 recommended, not required.

MATH 4350 ORDINARY DIFFERENTIAL EQUATIONS (3 credits)
Ordinary Differential Equations develops the theory of initial-, boundary-, and eigenvalue problems, existence theorems, real and complex linear systems of differential equations, and stability theory. There will be a strong emphasis on methods for finding solutions of initial and boundary value problems and analyzing properties of these solutions for various differential equations. (Cross-listed with MATH 8356).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better and MATH 2350 with a C- or better or instructor’s permission. It is recommended, but not required, that students take MATH 3230, which would require a C- or better.

MATH 4400 FINITE ELEMENT METHODS FOR SOLVING ORDINARY AND PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better or instructor’s permission. It is recommended, but not required, that students take MATH 3230, which would require a C- or better.

MATH 4500 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with MATH 8566, CSCI 4560, CSCI 8566).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor

MATH 4580 TENSOR ANALYSIS (3 credits)
Review of vector spaces and matrix theory, tensor algebra, the metric tensor and Riemannian curvature, geodesics, applications to geometry, mechanics, relativity, and continuous media. (Cross-listed with MATH 8586).
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2050, MATH 2350

MATH 4600 DIFFERENTIAL GEOMETRY (3 credits)
Curvature, torsion, Frenet frames, Fundamental theorem of curve theory, Frenét’s theorem, tangent spaces, first and second fundamental forms, shape operator, Fundamental theorem of surfaces theory, covariant derivative, parallel transport, geodesics. (Cross-listed with MATH 8606).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or permission of instructor.

MATH 4610 ELEMENTARY TOPOLOGY (3 credits)
This course covers topological spaces, connectedness, compactness, homotopy of paths, covering spaces, and fundamental groups. (Cross-listed with MATH 8616).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better and MATH 3230 with a C- or better or permission of instructor.

MATH 4650 TRANSFORM METHODS & APPLICATIONS (3 credits)
Laplace transform and the inversion integral. Fourier transform. Other transforms and special techniques. Applications to differential equations, boundary value problems of mathematical physics and signal analysis. (Cross-listed with MATH 8656).
Prerequisite(s)/Corequisite(s): MATH 2350/MATH 8355 and MATH 4270/MATH 8276.

MATH 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, CSCI 8666, MATH 8666)
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/ CSCI 8325.

MATH 4740 INTRODUCTION TO PROBABILITY AND STATISTICS I (3 credits)
A mathematical introduction to probability theory including the properties of probability; probability distributions; expected values and moments; specific discrete and continuous distributions; and transformations of random variables. (Cross-listed with MATH 8746).
Prerequisite(s)/Corequisite(s): MATH 1970 and either MATH 2230 or MATH 2030

MATH 4750 INTRODUCTION TO PROBABILITY AND STATISTICS II (3 credits)
Theory and methods of statistical inference including estimators, statistical hypotheses, multivariate estimation, chi-square tests, analysis of variance and statistical software. (Cross-listed with MATH 8756).
Prerequisite(s)/Corequisite(s): MATH 4740/MATH 8746

MATH 4760 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with MATH 8766, CSCI 4760, CSCI 8766).
Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

MATH 4900 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research-type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the MATH/STAT Undergraduate Curriculum Committee at least one week prior to registration.
Prerequisite(s)/Corequisite(s): Junior and permission of the chair

MATH 4980 SEMINAR (1-3 credits)
A seminar in mathematics.
Prerequisite(s)/Corequisite(s): At least one math course numbered 3000 or above (not including MATH 3500) and permission.
Mathematics for Teachers (MTCH)

MTCH 2000 MATHEMATICS FOR ELEMENTARY SCHOOL TEACHERS I (3 credits)
A course for prospective elementary school teachers that involves mathematical reasoning, conjecturing, problem-solving, and connecting mathematical thought to its applications. Topics include fractions, decimals, arithmetic operations, and proportional reasoning.
Prerequisite(s)/Corequisite(s): At least C in MATH 1310 and TEO 2100 (EDUC 2020) or TEO 2200 (EDUC 2030); OR at least C in MATH 1310 and passing the Praxis I - Core

MTCH 2010 MATHEMATICS FOR ELEMENTARY TEACHERS II (3 credits)
This course represents a collection of topics, developed specifically for elementary school teachers, not covered in other courses.
Prerequisite(s)/Corequisite(s): MTCH 2000 with a grade of C or better.

MTCH 2020 NUMBER SENSE, ALGEBRA, AND GEOMETRY FOR MIDDLE SCHOOL EDUCATION (3 credits)
The course covers the following major concepts: standard algorithms for Arithmetic with rational numbers, proportional reasoning, number theory topics in K-8, beginning Algebra concepts, and beginning Geometry.
Prerequisite(s)/Corequisite(s): EDUC 2020 with a C or better and College of Education major and MATH 1950 with a C or better. Not open to non-degree graduate students.

MTCH 4800 MATHEMATICS EDUCATION CAPSTONE (3 credits)
This capstone course for preservice and inservice teachers is intended to help connect the undergraduate mathematics curriculum to the secondary mathematics curriculum. Course topics include functions, equations, algebraic structures, congruence, trigonometry, and calculus. Topics are explored via strategies useful for studying mathematics called concept analysis and problem analysis. (Cross-listed with MTCH 8806).
Prerequisite(s)/Corequisite(s): MATH 4030 with a C or better or MATH 3640 with a C or better.

Mechanical Engineering (MENG)

MENG 1300 INTRODUCTION TO CAD (3 credits)
Principles and accepted practices of geometric design. Computer generation of 2D and 3D models for mechanical systems. Introduction to engineering design practices such as specifications, dimensioning and tolerancing.

MENG 2000 ENGINEERING THERMODYNAMICS (3 credits)
First and Second Laws of Thermodynamics, properties of gases and vapors. Sources of energy and its conversion to work.
Prerequisite(s)/Corequisite(s): PHYS 2120; and MENG 2230 or EMEC 2230. Not open to non-degree graduate students.

MENG 2200 STATICS (3 credits)
Fundamental concepts, equilibrium of force systems, analysis of simple frames and trusses. Centroid and moments of inertia and friction.
Prerequisite(s)/Corequisite(s): MATH1950

MENG 2230 ENGINEERING STATICS (3 credits)
The action of forces on engineering structures and machines. Force systems, static equilibrium of frames and machines. Friction, center of gravity, moment of inertia, vector algebra.
Prerequisite(s)/Corequisite(s): MATH 1960 with grade of C or better and PHYS2110 with grade of C or better

MENG 2500 MECHANICS I (2 credits)
Force actions in static coplanar systems with applications to engineering structures and machines. Resultants, moments, couples, equivalent force systems, vector algebra. Static equilibrium conditions and equations. (For Electrical Engineering majors.)
Prerequisite(s)/Corequisite(s): PHYS2110 and MATH1970 coreq, not open to nondegree students

MENG 3000 THERMAL SYSTEMS AND DESIGN (3 credits)
Applications of control-volume analysis (mass, energy and momentum), both transient and steady; mixture of gases and vapors; introduction to combustion; thermodynamic relations and establishment of data books of thermal properties; applications of computer-aided engineering to processes and cycles; methodologies and case studies for thermal systems design; execution of small-scaled design projects.
Prerequisite(s)/Corequisite(s): MENG2000, not open to nondegree students

MENG 3100 FLUID MECHANICS (3 credits)
Fluidstatics, equations of continuity, momentum and energy; dimensional analysis and dynamic similitude. Applications to: flow meters; fluid pumps and turbines; viscous flow and lubrication; flow in closed conduits and open channels. Two-dimensional potential flow.
Prerequisite(s)/Corequisite(s): MENG 3730 or EMEC 3730; and MATH2350; MENG2000 coreq. Not open to nondegree students.

MENG 3110 FLUID MECHANICS LABORATORY (1 credit)
Fluid mechanics experiments and demonstrations. Conservation principles; determination of fluid properties, velocity, pressure, and flow measurements; pipe flow; open channel flow; and instrumentation.
Prerequisite(s)/Corequisite(s): (MENG3100 preq/coreq or CIVE310 pre/ coreq), not open to nondegree students

MENG 3210 ENGINEERING STATISTICS AND DATA ANALYSIS (3 credits)
An application-oriented course for formulating and solving engineering statistical problems. Includes Descriptive statistics, probability distributions, variability, sampling, confidence intervals, tests of significance, basics of statistical process control, and design of experiments.
Prerequisite(s)/Corequisite(s): MATH1970 (Math208 UNL)

MENG 3240 STRENGTH OF MATERIALS (3 credits)
Stress and strain analysis in elastic materials. Use of properties of materials in the analysis and design of welded and riveted connections, statically determinate and indeterminate flexure members, columns. Combined stresses, axial, eccentric and torsional loading. Observations of laboratory tests for axially loaded specimens. Introduction to shear and moment diagrams.
Prerequisite(s)/Corequisite(s): MENG 2200 or EMEC2200

MENG 3250 MECHANICS OF ELASTIC BODIES (3 credits)
Concept of stress and strain considering axial, torsional and bending forces. Shear and moments. Introduction to combined stresses and column theory.
Prerequisite(s)/Corequisite(s): MENG 2230 or EMEC2230; and MATH1970

MENG 3300 MECHANICAL ENGINEERING ANALYSIS (3 credits)
Conceptual modeling of mechanical engineering systems. Analytical exploration of engineering behavior of conceptual models. Case studies drawn from mechanical engineering problems.
Prerequisite(s)/Corequisite(s): MATH 2350 and CSCI 1800 and MENG 3250 and MENG 3730 and MENG 2000. Not open to non-degree graduate students.
MENG 3400 KINEMATICS AND DYNAMICS OF MACHINERY (3 credits)
Prerequisite(s)/Corequisite(s): MENG 1000 and MENG 3730. Not open to non-degree graduate students.

MENG 3420 ELEMENTS OF MACHINE DESIGN (3 credits)
Design of machine elements under different conditions of loading. Design work includes a project of broader scope (done primarily out of class) requiring a breath of knowledge. Failure theories for static and dynamic loading of bolts, springs, bearings, and shafts.
Prerequisite(s)/Corequisite(s): MENG 3250, ISMG or CONE 2060, MENG 3420, MATL 3600, and ENGL 3980. CoReq: STAT 3800 or MENG 3210. Not open to non-degree graduate students.

MENG 3500 INTRODUCTION TO DYNAMIC AND CONTROL OF ENGINEERING SYSTEMS (3 credits)
Unified treatment of the dynamics and control of engineering systems. Emphasis on physical aspects, formulate of mathematical models, application of various mathematical methods, and interpretation of results in terms of the synthesis and analysis of real systems. (Strong working knowledge of Matlab required.)
Prerequisite(s)/Corequisite(s): MENG 3730, and ELEC 2110 or ECEN 2110. Coreq: MATH 2050. Not open to non-degree graduate students.

MENG 3510 MECHANICS II (2 credits)
Applications of Newton’s laws to engineering problems involving coplanar kinematics and kinetics of particles. Work, energy, impulse, and momentum. Conservative systems. Periodic motion. (For Electrical Engineering majors.)
Prerequisite(s)/Corequisite(s): MENG 2500 or EMEC 2500, not open to nondegree students

MENG 3600 ELEMENTS OF MATERIAL SCIENCE (4 credits)
(Lec 3, lab 2) A four credit-hour lecture-lab class designed to acquaint students with the concepts of atomic, molecular and crystal structure of metals, alloys, polymers and ceramics. These fundamental concepts will be applied to design and optimization problems.
Prerequisite(s)/Corequisite(s): CHEM1180 and EMEC2230

MENG 3700 MANUFACTURING METHODS AND PROCESSES (3 credits)
An introduction to traditional and modern manufacturing processes and methods to include: foundry; forming processes; welding; metal removal theory and practices; modern manufacturing systems and automation; and economics of process selection.
Prerequisite(s)/Corequisite(s): MATL 3600 and MENG 3250. Not open to non-degree graduate students.

MENG 3730 ENGINEERING DYNAMICS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 2230 or EMEC 2230; and MATH1970

MENG 3800 MECHANICAL ENGINEERING MSRMNTS (3 credits)
Theory, statistics, applications and design of mechanical engineering experiments.
Prerequisite(s)/Corequisite(s): ELEC2310 and ENGL3980 and (STAT3800 coreq or ISMG3210 coreq) and MENG3500 and MENG3100, not open to nondegree students

MENG 3810 ELEMENTS OF COMPUTER-AIDED DESIGN (3 credits)
Principles and techniques currently used for the computer aided design (CAD). Applications of interactive graphics devices for drafting, design, and analysis. Modeling and analog of engineering systems. Elementary finite element, Bode, and numerical analyses. CAD case studies and term project.
Prerequisite(s)/Corequisite(s): MATH2350 and (MENG1300 or CSCI1620), not open to nondegree students

MENG 3890 UNDERGRADUATE RESEARCH AND THESIS (1-5 credits)
Engineering design or laboratory investigation that an undergraduate is qualified to undertake.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

MENG 4010 ELEMENTS OF NUCLEAR ENGINEERING (3 credits)
Survey of nuclear engineering concepts and applications. Nuclear reactions, radioactivity, radiation interaction with matter, reactor physics, risk and dose assessment, applications in medicine, industry, agriculture, and research.
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 2120, and ENGR 3010 or ENGR 3100.

MENG 4020 TURBOMACHINERY (3 credits)
Thermodynamic analysis and design of axial and radial flow turbines, compressors, and pumps. Fundamentals of the operating characteristics and performance of turbomachines. Cavitation and blade element theory.
Prerequisite(s)/Corequisite(s): MENG3000 and (MENG3100 or CIVE310), not open to nondegree students

MENG 4030 INTERNAL COMBUSTION ENGINES (3 credits)
Basic cycle analysis and engine types, fundamental thermodynamics and operating characteristics of various engines are analyzed, combustion processes for spark and compression-ignition engines, fuels, testing procedures, and lubrication systems are evaluated. Emphasis on the thermodynamic evaluation of the performance and understanding the basic operation of various engine types.
Prerequisite(s)/Corequisite(s): MENG3000, not open to nondegree students

MENG 4040 THEORY OF COMBUSTION (3 credits)
Prerequisite(s)/Corequisite(s): MENG3000 and MENG4200, not open to nondegree students

MENG 4060 AIR CONDITIONING SYSTEM DESIGN (3 credits)
Application of thermodynamic principles to the design of air conditioning systems. A comprehensive design project will be an integral part of the course. (Cross-listed with MENG8066)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 4070 POWER PLANT SYSTEM DESIGN (3 credits)
Application of the thermodynamic and fluid dynamic principles to the design of power plants. A comprehensive design project will be an integral part of the course. (Cross-listed with MENG8076)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 4080 HEAT EXCHANGER DESIGN (3 credits)
Design methodology for various heat exchangers employed in mechanical engineering. Introduction to computer-aided design as applied to heat exchangers. Hands-on exercises in actual design tasks. (Cross-listed with MENG8086)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 4130 AERODYNAMICS (3 credits)
Subsonic and supersonic air flow theory, dynamics of flight, performance parameters, rotor analysis, and special topics.
Prerequisite(s)/Corequisite(s): MENG2000 and (MENG3100 or CIVE310), not open to nondegree students
MENG 4140 COMPRRESSIBLE FLOW (3 credits)
Analysis of the flow of compressible fluids by means of the momentum equation, continuity equation, and the laws of thermodynamics and some application of thermodynamic laws to incompressible fluids.
Prerequisite(s)/Corequisite(s): MENG3000 and (MENG3100 or CIVE310), not open to nondegree students

MENG 4150 TWO-PHASE FLOW (3 credits)
Transportation phenomena of homogeneous and heterogeneous types of mixtures such as solid-liquid, liquid-liquid, and liquid-gas. Properties of components and mixtures. Flow induced vibrations and parameter distributions. Optimization and design problems in multiphase systems.
Prerequisite(s)/Corequisite(s): (MENG3100 or CIVE310) and MENG3800 coreq, not open to nondegree students

MENG 4160 ENGINEERING ACOUSTICS (3 credits)
Prerequisite(s)/Corequisite(s): MENG3100 and MATH2350, not open to nondegree students

MENG 4200 HEAT TRANSFER (3 credits)
Heat Transfer by conduction, convection, and radiation. Correlation of theory with experimental data and engineering design. (Cross-listed with MENG8206)
Prerequisite(s)/Corequisite(s): (CIVE310 or MENG3100), not open to nondegree students

MENG 4210 ELEMENTS OF NUCLEAR ENGINEERING (3 credits)
Survey of nuclear engineering concepts and applications. Nuclear reactions, radioactivity, radiation interaction with matter, reactor physics, risk and dose assessment, applications in medicine, industry, agriculture, and research. (Cross-listed with ENGR 4210).
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 2120, and ENGR 3010 or 3100

MENG 4220 INDUSTRIAL QUALITY CONTROL (3 credits)
Statistical process control and quality assurance techniques in manufacturing. Control charts, acceptance sampling, and analyses and design of quality control systems. (Cross-listed with MENG 8226)
Prerequisite(s)/Corequisite(s): MENG 3210 or STAT 3800

MENG 4240 LSR MTRL PROC/W/COMP FLOW PRSP (3 credits)
Fundamentals of laser material processing. Laser material interactions from the compressible flow perspective. Analytical, semi-analytical, and numerical approaches.
Prerequisite(s)/Corequisite(s): Not open to nondegree students

MENG 4250 SOLAR ENERGY ENGINEERING (3 credits)
Conservation of solar energy into more useful forms with emphasis on environmental heating and cooling applications. Includes solar energy availability, solar collectors and design, solar systems and their simulation
Prerequisite(s)/Corequisite(s): MENG4200, not open to nondegree students

MENG 4260 HEAT TRANSFER AT NANOSCALES (3 credits)
Prerequisite(s)/Corequisite(s): MENG4200, not open to nondegree students

MENG 4310 COMP HEAT TRNSFR & FLUID FLOW (3 credits)
Prerequisite(s)/Corequisite(s): MENG3100 and MATH2050 and MENG4200 coreq, not open to nondegree students

MENG 4360 INTRO CONTINUUM BIOMECHANICS (3 credits)
Introduction to biomechanics. Basic anatomy, biomaterials, kinematics, dynamics, Viscoelasticity, bio-fluid mechanics, and bio-heat transfer.
Prerequisite(s)/Corequisite(s): MENG 3730 and MENG 3100 and MENG 4200. Not open to non-degree graduate students.

MENG 4370 BIOMEDICAL DEVICE DESIGN (3 credits)
Design of devices intended for use in biomedical environments. Introduction to modeling of the bio-environmental, biomaterials, and material selection. Overview of design methodologies and strategies used in biomedical device design from a material properties perspective. Introduction to federal regulation and other pertinent issues.
Prerequisite(s)/Corequisite(s): MENG 2230, MENG 3250, and MENG 3730 or equivalent.

MENG 4380 MECHANICS OF BIOMATERIALS (3 credits)
Theory, application, simulation, and design of biomaterials that apply mechanical principles for solving medical problems (case studies in artery, brain, bone, etc.). Tentative topics include Mechanical characterization of biomaterials; Bio-manufacturing a tissue; Function-structure relationship; Design and analysis of medical implants; Active response of biomaterials; growth and remodeling mechanism; Cellular behavior and measurements, etc. (Cross-listed with MENG 8386)
Prerequisite(s)/Corequisite(s): MENG 3430. Not open to non-degree graduate students

MENG 4420 INTERMEDIATE KINEMATICS (3 credits)
Analytical can design. Geometry of constrained plane motion and application to the design of mechanisms. Analysis and synthesis of pin-joint linkage mechanisms.
Prerequisite(s)/Corequisite(s): MENG3420, not open to nondegree students

MENG 4440 INTRM DYNAMICS OF MACHINERY (3 credits)
Fundamentals of vibration, vibration and impact in machines, balance of rotors, flexible rotor dynamics and instabilities, parametric vibration, advanced dynamics and design of cam mechanisms, and dynamics of flywheel.
Prerequisite(s)/Corequisite(s): MENG3420 and MENG3500, not open to nondegree students

MENG 4450 MECHANICAL ENGINEERING DESIGN CONCEPTS (3 credits)
Development of design concepts. Introduction to synthesis techniques and mathematical analysis methods. Application of these techniques to mechanical engineering design projects. (Cross-listed with MENG 8456)
Prerequisite(s)/Corequisite(s): MENG 2000 and MENG 3420 and MENG 3500 and (MENG 3100 or CIVE 310). Not open to non-degree graduate students.

MENG 4460 MECHANICAL ENGINEERING DSGN I (3 credits)
Synthesis, design, and a written report on two projects, plus a proposal for the student's final design project in MENG 4470. The two projects should span the general areas of mechanical engineering developing breadth, resourcefulness, creativity, and most importantly, the use of the design process. Guest lectures by practicing designers will be a part of the class when appropriate.
Prerequisite(s)/Corequisite(s): MENG300 and MENG3100 and MENG3430 and MENG3500, not open to nondegree students

MENG 4470 MECHANICAL ENGINEERING DSGN II (2 credits)
Definition, scope, analysis, synthesis, and the design for the solution of a comprehensive engineering problem in any major area of mechanical engineering. (Cross-listed with MENG8476)
Prerequisite(s)/Corequisite(s): MENG4460, not open to nondegree students
MENG 4480 ADVANCED MECHANICS OF MATERIALS (3 credits)
Stresses and strains at a point. Theories of failure. Thick-walled pressure vessels and spinning discs. Torsion of non-circular sections. Torsion of thin-walled sections, open, closed and multicelled. Bending of unsymmetrical sections. Cross shear and shear center. Curved beams. Introduction to elastic energy methods. (Cross-listed with EMEC8486)

Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC 3250; and MENG 3730 or EMEC 3730

MENG 4490 ADVANCED DYNAMICS (3 credits)
Particle dynamics using Newton's laws, energy principles, momentum principles. Rigid body dynamics using Euler's equations and Lagrange's equations. Variable mass systems. Gyroscopic motion. (Cross-listed with EMEC 8496)

Prerequisite(s)/Corequisite(s): MENG 3730 or EMEC 3730; and MATH 2350. Not open to non-degree graduate students.

MENG 4500 MECH ENGR CONTROL SYSTEMS DSGN (3 credits)
Applications of control systems analysis and synthesis for mechanical engineering equipment. Control systems for pneumatic, hydraulic, kinematic, electromechanical, and thermal systems. (Cross-listed with MENG 8506)

Prerequisite(s)/Corequisite(s): MENG 3500. Not open to non-degree graduate students.

MENG 4510 INTRODUCTION TOFINITE ELEMENT ANALYSIS (3 credits)

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

MENG 4520 EXPERIMENTAL STRESS ANALYSIS I (3 credits)
Investigation of the basic theories and techniques associated with the analysis of stress using mechanical strain gages, electric strain gages, brittle lacquer, photoelasticity and membrane analogy. (Cross-listed with MENG 8526)

Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250

MENG 4530 ROBOTICS: KINEMATICS & DESIGN (3 credits)
Robotics synthesize some aspects of human function by the use of mechanisms, sensors, actuators, and computers.

Prerequisite(s)/Corequisite(s): MENG3500, not open to nondegree students

MENG 4540 INTRODUCTION TO CONTINUUM MODELING (3 credits)
Basic concepts of continuum modeling. Development of models and solutions to various mechanical, thermal and electrical systems. Thermo-mechanical and electro-mechanical coupling effects. Differential equations, dimensional methods and similarity. (Cross-listed with MENG 8546)

Prerequisite(s)/Corequisite(s): MATH 2350; and MENG 3250 or EMEC 3250; and MENG 3730 or EMEC 3730. Not open to non-degree graduate students.

MENG 4550 VEHICLE DYNAMICS (3 credits)
Introduction to basic mechanics governing automotive vehicle dynamic acceleration, braking, ride, handling and stability. Analytical methods, including computer simulation, in vehicle dynamics. The different components and subsystems of a vehicle that influence vehicle dynamic performance. (Cross-listed with MENG 8556)

Prerequisite(s)/Corequisite(s): MENG3430, MENG 3500. Not open to non-degree graduate students.

MENG 4560 DYN OF INTRNL COMBUSTN ENGINES (3 credits)
basics of design of the internal combustion engines. Design of various engine parts such as pistons, connecting rods, valve trains, crankshafts, and the vibration dampers. Dynamics of the engine. The vibration of the crankshaft assembly and the valve train. Balancing of the engines.

Prerequisite(s)/Corequisite(s): MENG3420 and MENG3430, not open to nondegree students

MENG 4580 DIGITAL CONTROL OF MECH SYSTEMS (3 credits)
Introduction to digital measurement and control of mechanical systems. Applications of analysis and synthesis of discrete time systems. (Cross-listed with MENG 8586)

Prerequisite(s)/Corequisite(s): MENG 4500. Not open to non-degree graduate students.

MENG 4700 THEORY AND PRACTICE OF MATERIALS PROCESSING (3 credits)
Theory, practice and application of conventional machining, forming, and non-traditional machining processes with emphasis on tool life, dynamics of machine tools and adaptive control. (Cross-listed with MENG 8706)

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

MENG 4740 MANUFACTURING SYSTEMS I (3 credits)
Principles of automated production lines; analysis of transfer lines; group technology; flexible manufacturing systems; and just-in-time; and optimization strategies for discrete parts manufacturing. (Cross-listed with MENG 8746)

MENG 4750 INTRODUCTION TO VIBRATIONS AND ACOUSTICS (3 credits)

Prerequisite(s)/Corequisite(s): MENG 3730 or EMEC 3730; and MATH 2350. Not open to non-degree students.

MENG 4760 MANUFACTURING INFORMATION SYSTEMS (3 credits)
An exploration of information systems and their impact in a manufacturing environment. Software, hardware, database systems, enterprise resource planning, networking, and the internet. (Cross-listed with MENG 8766)

Prerequisite(s)/Corequisite(s): MENG3000, MENG 3800; MENG 4200 or CSCI 1620 or CSCI 2240.

MENG 4800 NUMERICAL METHODS IN ENGINEERING (3 credits)
Numerical algorithms and their convergence properties in: solving nonlinear equations; direct and iterative schemes for linear systems of equations; eigenvalue problems; polynomial and spline interpolation; curve fitting; numerical integration and differentiation; initial and boundary value problems for Ordinary Differential Equations (ODE's) and systems of ODE's with applications to engineering; finite difference methods for partial differential equations (potential problems, heat-equation, wave-equation). (Cross-listed with MENG 8806)

Prerequisite(s)/Corequisite(s): MATH2350 or MATH8355

MENG 4830 ENGINEERING ANALYSIS WITH FINITE ELEMENTS (3 credits)
Analysis of engineering systems using finite elements; a critical and challenging task performed during the design process for many engineering systems. Four very distinct domains are studied: Structural stress analysis, heat transfer, fluid flow, and modal analysis. (Cross-listed with MENG 8836)

Prerequisite(s)/Corequisite(s): MENG 3100, MENG 3430, MENG 3500; Pre/Coreq: MENG4200. Not open to non-degree graduate students.

MENG 4870 THERMAL FLUIDS LABORATORY (2 credits)
Design, execution, and evaluation of physical experiments in the area of thermodynamics, fluid mechanics, and heat transfer.

Prerequisite(s)/Corequisite(s): MENG 3000, MENG 3800; MENG 4200 coreq.

MENG 4880 KINEMATICS AND MACHINE DESIGN LABORATORY (2 credits)
Design projects and physical experiments in the area of machine design and kinematics.

Prerequisite(s)/Corequisite(s): MENG 3420, MENG 3430; MENG 3800 coreq.
MENG 4910 SPECIAL TOPICS IN ENGINEERING MECHANICS (1-6 credits)
Treatment of special topics in engineering mechanics by experimental, computational and/or theoretical methods. Topics will vary from term to term. (Cross-listed with MENG 8916)

MENG 4980 LABORATORY AND ANALYTICAL INVESTIGATIONS (0-6 credits)
Investigation and written report of research into specific problem in any major area of mechanical engineering. (Cross-listed with MENG 8986)

Military Science (MILS)

MILS 1000 LEADERSHIP LABORATORY (0 credits)
Leadership Laboratory provides basic and advanced military leadership experience in military courtesy, drill and ceremonies, and practical application of classroom taught subjects. Functions and responsibilities of leadership positions are developed through cadet staff actions and command positions. Leadership Laboratory meets Mondays through Fridays from 0620-0750 at the Military Science Building or the Kiewit Fitness Center at Creighton University. All military science scholarship students must register for MILS 1000. All other military science students will be required to attend selected Leadership Laboratories.

MILS 1010 LEADERSHIP AND PERSONAL DEVELOPMENT (1 credit)
Examines the role of the commissioned officer in the U.S. Army. Discussion focuses on the role and organization of the Army, the military profession, general leadership, role of the non-commissioned officer and officer, customs of the service, military pay and benefits, career opportunities, and personal development.

MILS 1020 INTRODUCTION TO TACTICAL LEADERSHIP (1 credit)
Focuses on the relationship between leadership and personal development. Also introduces basic soldier skills, to include land navigation and map reading.

MILS 1030 INTRODUCTION TO OFFICER PROFESSIONALISM (3 credits)
Designed for nursing students as an introduction to issues and competencies that are central to commissioned officers responsibilities. Prerequisite(s)/Corequisite(s): Instructor Approval - Must also enroll in MILS 1000

MILS 2000 LEADERSHIP LABORATORY (0 credits)
Leadership Laboratory provides basic and advanced military leadership experience in military courtesy, drill and ceremonies, and practical application of classroom taught subjects. Functions and responsibilities of leadership positions are developed through cadet staff actions and command positions. Leadership Laboratory meets Mondays through Fridays from 0620-0750 at the Military Science Building or the Kiewit Fitness Center at Creighton University. All military science scholarship students must register for MILS 2000. All other military science students will be required to attend selected Leadership Laboratories.

MILS 2010 INNOVATIVE TEAM LEADERSHIP (2 credits)
Develops student leadership and critical individual skills. Training is basic in nature and includes leadership techniques, written and oral communication, rifle marksmanship, fundamentals of land navigation, and physical fitness. Prerequisite(s)/Corequisite(s): MILS 1010 and MILS 1020.

MILS 2020 UNITED STATES MILITARY HISTORY (3 credits)
This course will introduce students to the history of the American Military establishment and its relationships to American society from colonial times to the present. Students will become acquainted with the evolution of warfare, military theory and the military profession, with particular emphasis on the place of military institutions in society, so as to develop a sense of historical awareness.

MILS 2050 LEADERSHIP TRAINING CAMP (3 credits)
Five weeks of training at Fort Knox, Kentucky. Travel pay and salary stipend provided through the Department of Military Science. The student is not obligated to any military service as a result of attending Training Camp. Camp graduates are eligible to enroll in Advanced Military Science courses and compete for two-year military science scholarships.

MILS 2070 FUNDAMENTALS OF ARMY RANGER TRAINING (2 credits)
Course designed to challenge the individual in leadership, physical endurance, special operations and small-unit tactics. Competitive area success would lead to regional championship participation at Fort Lewis, Washington. Prerequisite(s)/Corequisite(s): Departmental approval.

MILS 2080 ADVANCED ARMY RANGER TRAINING (2 credits)
A continuation of MILS 2070. Prerequisite(s)/Corequisite(s): Departmental approval.

MILS 2120 FOUNDATIONS OF TACTICAL LEADERSHIP (2 credits)
Continues the development of student leadership and critical individual military skills. Training focuses on advanced military skills and includes orienteering, field survival skills, operation and training. Prerequisite(s)/Corequisite(s): MILS 2010

MILS 2130 INNOVATIVE TEAM LEADERSHIP (2 credits)
Designed to develop leadership and critical individual skills. Training is basic in nature and includes leadership techniques, written and oral communication, rifle marksmanship, fundamentals of land navigation, and physical fitness. Prerequisite(s)/Corequisite(s): MILS 1030. Not open to non-degree graduate students.

MILS 3000 LEADERSHIP LABORATORY (0 credits)
Leadership Laboratory provides basic and advanced military leadership experience in military courtesy, drill and ceremonies, and practical application of classroom taught subjects. Functions and responsibilities of leadership positions are developed through cadet staff actions and command positions. Leadership Laboratory meets Mondays through Fridays from 0620-0750 at the Military Science Building or the Kiewit Fitness Center at Creighton University. All military science scholarship students must register for MILS 3000. All other military science students will be required to attend selected Leadership Laboratories.

MILS 3010 ADAPTIVE TACTICAL LEADERSHIP (3 credits)
Students learn the fundamentals of land navigation, the role and functions of a military line and staff organization, the role of the non-commissioned officer, training management, how to prepare military correspondence, how to conduct oral presentations, and how to arrange and conduct meetings and conferences. Includes physical training. Prerequisite(s)/Corequisite(s): Department approval and enrollment in MILS 3000.

MILS 3020 LEADERSHIP IN A CHANGING ENVIRONMENT (3 credits)
Students learn the fundamentals of small unit leadership skills and tactics, how to conduct personal, performance and discipline counseling, and examine leadership case studies in detail. Includes physical training. Prerequisite(s)/Corequisite(s): Department approval and enrollment in MILS 3000.

MILS 3070 LEADERSHIP DEVELOPMENT AND ASSESSMENT (3 credits)
The ROTC cadet attends four weeks of intensive leadership and management training. The training is conducted during the summer months at Fort Lewis, Washington. The student’s ability to lead his unit and to plan and conduct small unit operations is thoroughly evaluated. Travel pay and salary stipend are provided through the Army. Prerequisite(s)/Corequisite(s): MILS 3010 and MILS 3020
MILS 4000 LEADERSHIP LABORATORY (1 credit)
Leadership Laboratory provides basic and advanced military leadership experience in military courtesy, drill and ceremonies, and practical application of classroom taught subjects. Functions and responsibilities of leadership positions are developed through cadet staff actions and command positions. Leadership Laboratory meets Mondays through Fridays from 0620-0750 at the Military Science Building or the Kiewit Fitness Center at Creighton University. All military science scholarship students must register for MILS 4000. All other military science students will be required to attend selected Leadership Laboratories.

MILS 4010 DEVELOPING ADAPTIVE LEADERS (2 credits)
Leadership seminar on military ethics, ethical reasoning, decision making and value clarification. Contemporary problems and ethical issues are discussed using the case study method. Entering a new organization, communications and human relations skills, the importance of power and influence are learned.
Prerequisite(s)/Corequisite(s): Department approval and enrollment in MILS 4000.

MILS 4020 LEADERSHIP IN A COMPLEX WORLD (2 credits)
Develops military management skills by providing a working knowledge of the Army personnel management system, the military justice system, the Army logistical system and post and installation support agencies. The focus of this course is to provide an understanding of basic leadership and management skills required by newly commissioned officers.
Prerequisite(s)/Corequisite(s): Department approval and enrollment in MILS 4000.

MILS 4030 DIRECTED INDEPENDENT READINGS (1-3 credits)
A variable topic course in Military Science designed to consider an issue or field of interest that relates to the military establishment. Student will read and report on military related books. Students should register for this course to see specific course requirement prior to registration.
Prerequisite(s)/Corequisite(s): Permission of instructor.

MILS 4040 DIRECTED INDEPENDENT STUDIES (1-3 credits)
A variable credit course in Military Science designed to consider an issue or field of interest that relates to the military establishment. Students should contact designated faculty member for specific course requirement prior to registration.
Prerequisite(s)/Corequisite(s): Permission of instructor.

Music (MUS)

MUS 115A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): An audition performed for & approved by the woodwind faculty. Students must be concurrently enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 115B CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Students must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 115C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty. Students must be concurrently enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 115D DOUBLE BASS (1-2 credits)
The primary goal of the bass student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 115E EUPHONIUM (1-2 credits)

MUS 115F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Students enrolled in this course must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 and MUS 1000-007.

MUS 115G FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty. OR successful completion of 1 hr of MUS 115G. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 115H GUITAR (1-2 credits)
The primary goal of the guitar student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 115I HARP (1-2 credits)
The primary goal of the Harp student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.
MUS 115J OBOE (1-2 credits)
MUS 115K APPLIED PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (percussion majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.
MUS 115L PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (piano majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the piano faculty. Must also enroll in an ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.
MUS 115M PIPE ORGAN (1-2 credits)
MUS 115N SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty. Must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 and MUS 1000-007 (both of which are 0 credit courses).
MUS 115O APPLIED TROMBONE (1-2 credits)
Applied lessons are scheduled to meet weekly for 1/2 hour (one credit hour) or 1 hour (two credit hours). Students are evaluated at each lesson on their musical and technical progress.
Prerequisite(s)/Corequisite(s): Students can enroll in this course following a successful audition performed for and approved by the Brass Faculty. Must also enroll in an ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass. A lab fee is required.
MUS 115P TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 1 hr of MUS 115P. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.
MUS 115Q TUBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 1 hr of MUS 115Q. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.
MUS 115R VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ens. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass on Mondays from 3:00p.m.-3:50 p.m.
MUS 115S VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (violin majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.
MUS 115T APPLIED VOICE (1-2 credits)
This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour (non music majors) or two credit hours (voice music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for and approved by the voice faculty. Must also enroll in a choral ensemble (MUS 2700, MUS 4100, MUS 4120). Music majors must be co-enrolled in both MUS 1000-001 and MUS 1000-004.
MUS 115U CARILLON (1-2 credits)
MUS 167A APPLIED CLASS - GUITAR I (1 credit)
Class instruction in the development of basic skills in the applied guitar area.
Prerequisite(s)/Corequisite(s): Permission.
MUS 167B APPLIED CLASS - PIANO (1 credit)
Class instruction in the development of elementary basic skills in the applied piano area.
MUS 167C APPLIED CLASS - VOICE I (1 credit)
Class instruction in the development of basic skills in the applied voice area.
MUS 167D CLASS APPLIED JAZZ IMPROVISATION (2 credits)
This course is intended for the serious music student who wishes to gain basic knowledge and skills in the area of jazz improvisation. The course will emphasize beginning improvisation skills, basic jazz literature, chord scale relationships, melodic concepts, ear training, and analysis of improvised solos.
Prerequisite(s)/Corequisite(s): MUS 1420
MUS 167A APPLIED CLASS - GUITAR II (1 credit)
Class instruction in the development of basic skills in the applied guitar area.
Prerequisite(s)/Corequisite(s): MUS 167A (Guitar) or equivalent. Permission.
MUS 168C APPLIED CLASS - VOICE II (1 credit)
Class instruction in the development of basic skills in the applied voice area.
Prerequisite(s)/Corequisite(s): MUS 167C (Voice) or equivalent. Permission.
MUS 168D CLASS APPLIED JAZZ IMPROVISATION II (2 credits)
This course is intended for the serious music student who wishes to gain advanced knowledge and skills in the area of jazz improvisation. This course will emphasize advanced improvisation skills, standard jazz literature, advanced jazz harmony, chord/scale relationships, melodic concepts, ear training, and analysis of improvised solos.
Prerequisite(s)/Corequisite(s): MUS 167D: Class Applied Jazz Improvisation I

MUS 169D APPLIED CLASS JAZZ PIANO (1 credit)
This course will consist of class instruction designed to teach students basic jazz piano skills.
Prerequisite(s)/Corequisite(s): MUS 1420

MUS 215A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR completion of 4 hrs of MUS 115A. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215B CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 215C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for and approved by the woodwind faculty, OR completion of 4 hrs of MUS 115C. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215D DOUBLE BASS (1-2 credits)
This course, applied bass, is intended for private study of the double bass or electric bass at the university level.
Prerequisite(s)/Corequisite(s): An audition is required for all students. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 215E EUPHONIUM (1-2 credits)
MUS 215F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition for & approval by the woodwind faculty, OR successful completion of 4 hours of MUS 115F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 215G FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 115G. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215H GUITAR (1-2 credits)
The primary goal of the guitar student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass.

MUS 215I HARP (1-2 credits)
The primary goal of the Harp student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 215J OBOE (1-2 credits)
MUS 215K PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires successful completion of MUS 115K. Students must be Music Majors in the area of percussion. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 215L PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (piano majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course is limited to music majors & requires an audition performed for & approved by the piano faculty. Must also enroll in an ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215M PIPE ORGAN (1-2 credits)
MUS 215N SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR completion of 4 hours of MUS 115N. Must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & MUS 1000-007.
MUS 215O TROMBONE (1-2 credits)
This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 115Q. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215P APPLIED TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 115P. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215Q TUBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 115Q. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215R VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215S VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 215T APPLIED VOICE (1-2 credits)
This course is a continuation of the applied music sequence of study for music majors. This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for two credit hours (voice music majors only). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires successful completion of 4 credits of MUS 115T. Students enrolled in this course must also enroll in a choral ensemble (MUS 2700, MUS 4100, or MUS 4120). Music majors must be co-enrolled in both MUS 1000-001 and MUS 1000-004.

MUS 315A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR completion of 4 hours of MUS 215A. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 315B CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 315C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR completion of 4 hours of MUS 215C. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass.

MUS 315D DOUBLE BASS (1-3 credits)
The primary goal of the bass student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.  
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 315E EUPHONIUM (1-3 credits)
Extra credit during semester of half or full recital.  
Prerequisite(s)/Corequisite(s): audition and permission.

MUS 315F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition for & approval by the woodwind faculty, OR successful completion of 4 hrs of MUS 215F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 315G FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.  
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR successful completion of 4 hrs of MUS 215G. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 315H GUITAR (1-3 credits)
The primary goal of the guitar student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.  
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass.
MUS 315J OBOE (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 315K PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires successful completion of a continuation jury following successful completion of MUS 215k. Students must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00 p.m.-3:50 p.m.

MUS 315L PIANO (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 315M PIPE ORGAN (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 315N SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Students enrolled in this course must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & MUS 1000-007.

MUS 315O TROMBONE (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 315P TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 215F. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 315Q TUBA (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 215F. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 315R VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00 p.m.-3:50 p.m.

MUS 315S VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Must also enroll in an instrumental ensemble. Students must be concurrently enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 315T APLIED VOICE (1-2 credits)
This course is a continuation of the applied music sequence of study for music majors. This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires successful completion of four credits of MUS 215T. Must also enroll in a choral ensemble (MUS 2700, MUS 4100, MUS 4120). Students must be co-enrolled in both MUS 1000-001 & attend the weekly masterclass.

MUS 415A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hours of MUS 315F. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 415B CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets Mondays from 3:00-3:50.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 and MUS 1000-005 (both of which are 0 credit courses).

MUS 415C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR completion of 4 hours of MUS 315C. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass.
MUS 415D DOUBLE BASS (1-3 credits)
The primary goal of the bass student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 415E EUPHONIUM (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415F FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition for & approval by the woodwind faculty, OR successful completion of 4 credit hours of MUS 315F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 415G FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the woodwind faculty, OR successful completion of 4 hrs of MUS 315G. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 415H GUITAR (1-3 credits)
The primary goal of the guitar student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students. Their level of skill should be at the capability of the course number. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass.

MUS 415I HARP (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415J OBOE (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415K PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 315k & MUS 3190 (when applicable). Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 and attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 415L PIANO (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415M PIPE ORGAN (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415N SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for & approved by the woodwind faculty. Students enrolled in this course must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 and MUS 1000-007.

MUS 415O TROMBONE (1-3 credits)
Extra credit during semester of half or full recital.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 415P TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 315P. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 415Q TROMBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the brass faculty, OR successful completion of 4 hrs of MUS 315Q. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass.

MUS 415R VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must be co-enrolled in MUS 1000-001 & attend the weekly masterclass that meets on Mondays from 3:00p.m.-3:50 p.m.

MUS 415S VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Students must be concurrently enrolled in MUS1000-001 & attend the weekly masterclass.

MUS 415T VOICE (1-2 credits)
This course is a continuation of the applied music sequence of study for music majors. This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): This course requires successful completion of four credits of MUS 315T. Must also enroll in a choral ensemble (MUS 2700, MUS 4100, MUS 4120). Students must be co-enrolled in both MUS 1000-001 & attend the weekly masterclass.
MUS 1000 APPLIED MUSIC LABORATORY RECITAL (0 credits)
This course is a weekly meeting of all music majors which provides students with performance opportunities for themselves as well as recitals and lectures by guest artists.
Prerequisite(s)/Corequisite(s): Music majors only.

MUS 1010 MUSIC TECHNOLOGY SEMINAR (0 credits)
This course is a weekly meeting of all music technology majors which provides students with technical ear training, recording & sound reinforcement opportunities as well as lectures by guest scholars.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

MUS 1050 MUSIC OF THE PEOPLE: THE BEATLES (3 credits)
The Beatles are arguably the most influential and important rock band in history. Their music influenced not only the shape of popular music but youth culture in general. The objectives of this course are 1) to learn the history of the music of the Beatles from their early influences and formation to their break-up and legacy; 2) to understand the relationship of this music to larger cultural, political, and economic formations; 3) to become familiar with aspects of the diverse musical structures which were being used in their music; and 4) to become familiar with the advances in sound and recording technology that their music spawned and the influence of these innovations to recorded music today.
Distribution: Humanities and Fine Arts General Education course

MUS 1060 MASTERPIECES OF MUSICAL THEATER (3 credits)
Study of significant popular works from the musical theater with emphasis on American innovations. Designed for non-music majors. Lab fee required.

MUS 1070 MUSIC OF THE PEOPLE: ROCK AND POP (3 credits)

A study of music of various cultures throughout the world practiced primarily by individuals who produce music as a part of their everyday life. Using music as a window into various cultures the course gives students an insight into cultures that may vary from their own.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

MUS 1090 MUSIC APPRECIATION (3 credits)
A listening course for the non-music major designed to promote a better understanding of noteworthy compositions from various periods and styles. Lab fee required.
Distribution: Humanities and Fine Arts General Education course

MUS 1100 MUSIC OF THE PEOPLE: JAZZ (3 credits)
In this course, the history of jazz will be traced from its origins up to the present. Designed primarily for non-music majors, the course will chronicle the development of various stylistic trends which characterize jazz and discuss the prominent musical artists that influenced each style period within the history of jazz. Lab fee required.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

MUS 1390 FUNDAMENTALS OF MUSIC THROUGH EXPERIENCE (3 credits)
This course is designed to develop basic music reading skills through experiential learning that promotes music literacy skills of note reading, rhythmic reading, key signatures, and simple meter. It is designed for students interested in music degree tracks who have limited understanding of music theory.
Prerequisite(s)/Corequisite(s): Music major or permission of the instructor. Not open to non-degree graduate students.

MUS 1400 MUSIC FUNDAMENTALS (3 credits)
Introduction to Music Studies will cover the basics of music including music reading in multiple clefs, scales, key signatures, meter signatures, rhythm, triads seventh chords, and elementary aural and singing skills. The primary purpose of the course is to prepare students for further study in music at the college level.
Prerequisite(s)/Corequisite(s): Music major or permission of instructor.

MUS 1410 MUSIC CORE CURRICULM I (4 credits)
The study of basic elements of music and their application to musical performance, education, and analysis.
Prerequisite(s)/Corequisite(s): Music Major or permission from the instructor. Successful completion of 1400 (C or better). Not open to non-degree graduate students.

MUS 1420 MUSIC CORE CURRICULUM II (4 credits)
The study of basic elements of music and their application to musical performance, education, and analysis.
Prerequisite(s)/Corequisite(s): Completion of MUS 1410 with the grade C or better or permission of the instructor. Not open to non-degree graduate students.

MUS 1600 INTRODUCTION TO MUSIC EDUCATION (1 credit)
This course is designed to provide an overview of the music education profession. It will focus on the history, philosophy, and fundamentals of music education in the United States.
Prerequisite(s)/Corequisite(s): Because the requirements of the course include taking the Praxis Core Exam, it is highly recommended that students be in the music education degree program.

MUS 1640 DICTION FOR SINGERS I (1 credit)
A study of the International Phonetic Alphabet (IPA) and the rules of pronunciation as applied to vocal literature of the English and Italian languages.
Prerequisite(s)/Corequisite(s): Music major

MUS 1650 DICTION FOR SINGERS II (1 credit)
A study of the rules and guidelines of pronunciation as applied to vocal literature of German and French languages.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 1640

MUS 1690 KEYBOARD SKILLS I (1 credit)
Class instruction in the development of basic skills for the keyboard including scales, arpeggios, figured bass, harmonization and accompaniment.
Prerequisite(s)/Corequisite(s): MUS 167B (Piano) or equivalent. Permission.

MUS 2410 MUSIC CORE CURRICULUM III (4 credits)
The study of intermediate elements of music and their application to musical performance, education, and analysis.
Prerequisite(s)/Corequisite(s): MUS 1420 or permission. Not open to non-degree graduate students.

MUS 2420 MUSIC CORE CURRICULUM IV (4 credits)
The study of advanced elements of music and their application to musical performance, education, and analysis.
Prerequisite(s)/Corequisite(s): MUS 2410 or permission. Not open to non-degree graduate students.

MUS 2550 MUSIC HISTORY I (3 credits)
History and Literature of Music I: Antiquity to 1800 is the first half of a two-semester team-taught course on the history and literature of music in Europe and the Americas.
Prerequisite(s)/Corequisite(s): Sophomore standing.

MUS 2560 MUSIC HISTORY II (3 credits)
History and Literature of Music II: 1800-Modern Times is the second half of a two-semester course on the history and literature of music in Europe and the Americas.
Prerequisite(s)/Corequisite(s): Sophomore standing.
**MUS 2600 FUNDAMENTALS OF CONDUCTING (2 credits)**
The purpose of this course is to provide a basic foundation of conducting skills.

Prerequisite(s)/Corequisite(s): This course is limited to music majors. Students must have successfully completed MUS 1410, MUS 1420. Not open to non-degree graduate students.

**MUS 2690 KEYBOARD SKILLS II (1 credit)**
Class instruction in advanced development of keyboard skills including sight reading, harmonization, open score reading, accompaniments and facility.

Prerequisite(s)/Corequisite(s): MUS 1690 or equivalent. Permission.

**MUS 2700 UNIVERSITY CHORUS (0-1 credits)**
Mixed choral ensemble open to all University students, faculty and staff. No audition necessary. All styles of music, including popular. Students wanting humanities/fine arts general education credit must register for 1 credit hour.

Prerequisite(s)/Corequisite(s): There are no prerequisites for University Chorus, but participants need to be aware of the importance of rehearsals and concerts, and commit to those times in their schedule.

Distribution: Humanities and Fine Arts General Education course

**MUS 2720 CHAMBER ORCHESTRA (1 credit)**
A string orchestra with selected winds performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community.

**MUS 2740 CHAMBER MUSIC (0-1 credits)**
Specialized chamber music groups from the string, wind, percussion, or technology area. Literature will be chosen from the extensive materials available for these combinations of instruments.

Prerequisite(s)/Corequisite(s): Audition and permission.

**MUS 2750 MARCHING BAND (0 credits)**
Open to all full and part-time UNO students during the fall semester only. No audition is required. K-12 instrumental music education majors are required to enroll in Marching Band for two semesters.

**MUS 2760 UNIVERSITY CONCERT BAND (0-1 credits)**
University Band is a performing ensemble that is open to all UNO students, staff, and faculty. The band has varied programming of contemporary and classical works. There is no audition necessary.

Prerequisite(s)/Corequisite(s): There are no prerequisites for University Band, but participants need to be aware of the importance of rehearsals and concerts and commit to those times in their schedules.

Distribution: Humanities and Fine Arts General Education course

**MUS 2770 JAZZ ENSEMBLE (0-1 credits)**
A select ensemble performing jazz literature from all periods. Open to all full- and part-time UNO students. An audition is required with the director.

Prerequisite(s)/Corequisite(s): Acceptance into jazz ensemble is by audition only. Students must demonstrate technical command of their instrument, sightreading skills in multiple jazz styles and ability to demonstrate credible jazz improvisation skills.

**MUS 2790 COLLABORATIVE PIANO (1 credit)**
This course is designed to develop skills useful to piano accompanists and ensemble musicians. A laboratory setting allows for coaching and observation. May be repeated.

Prerequisite(s)/Corequisite(s): Completion of MUS 1678, MUS 1690, MUS 2690. Permission. Not open to non-degree graduate students.

**MUS 2800 SOUND REINFORCEMENT (3 credits)**
This course provides students with basic instruction in live sound reinforcement.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**MUS 2900 UNIVERSITY ORCHESTRA (1 credit)**
Heartland Philharmonic Orchestra is a full symphony orchestra performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community. Repertoire is drawn from the four periods of music associated with symphonic literature: Baroque, Classical, Romantic, and Modern.

Prerequisite(s)/Corequisite(s): Audition and permission.

**MUS 3050 MUSIC FUNDAMENTALS AND METHODS FOR ELEMENTARY TEACHERS (3 credits)**
An introduction to the content, concepts, skills and teaching methods for the integration of the arts, with a particular emphasis on music, into K-6 core curriculum.

Prerequisite(s)/Corequisite(s): EDUC 2010 and EDUC 2020, PPST/CLEE, ED

**MUS 3100 MUSIC INFORMATICS (3 credits)**
Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students.

Prerequisite(s)/Corequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

**MUS 3170 INTRODUCTION TO MUSIC TECHNOLOGY (3 credits)**
An overview of computers and music. The course will focus on broad themes of people, procedures, data structures, software, hardware, and computer music environments. Intended for students with limited music or computer backgrounds.

**MUS 3180 DIGITAL SYNTHESIS (3 credits)**
An exploration of the potentials of computer music synthesis. Concepts of music synthesis are presented through the use of a computer, keyboard, and appropriate software. Students create assignments that demonstrate the application of basic techniques. (Cross-listed with ITIN 3100)

**MUS 3190 JUNIOR/NON DEGREE RECITAL (1 credit)**
This course is designed for all undergraduate music majors performing a junior or non-degree recital.

Prerequisite(s)/Corequisite(s): Students must be concurrently enrolled in MUS 1150-3150 for two credit hours. Not open to non-degree graduate students.

**MUS 3200 JAZZ PEDAGOGY (1 credit)**
The study of musical forms and their application to musical arranging for chorus, band and orchestra.

Prerequisite(s)/Corequisite(s): MUS 2410

**MUS 3400 FORM AND ANALYSIS (2 credits)**
The study of musical forms and their application to musical arranging for chorus, band and orchestra.

Prerequisite(s)/Corequisite(s): MUS 2420

**MUS 3440 COMPOSITION I (3 credits)**
Individualized applied study of the basic craft of musical composition in small media and various styles.

Prerequisite(s)/Corequisite(s): MUS 2420 and written permission.

**MUS 3600 MUSIC EDUCATION CORE I - ELEMENTARY (9 credits)**
Methods and materials for teaching elementary (K-6) general, instrumental and choral music.

Prerequisite(s)/Corequisite(s): Students must be accepted to the College of Education Teacher Preparation Program and MUS 1600 w/ C or better. Music Education Majors only. Completion of or concurrent registration in EDUC 2010. Not open to non-degree graduate students.
MUS 3610 MUSIC EDUCATION CORE II - MIDDLE SCHOOL/JUNIOR HIGH SCHOOL (5 credits)
Course includes brass and percussion pedagogy, middle school instrumental and choral literature and techniques, general music, conducting, and laboratory ensemble experiences.
Prerequisite(s)/Corequisite(s): MUS 3600 or permission.

MUS 3630 MUSIC EDUCATION CORE III - HIGH SCHOOL METHODS (5 credits)
This course explores all aspects of administering high school vocal and instrumental music programs as well as prepares the student for clinical teaching and the job search process.
Prerequisite(s)/Corequisite(s): MUS 3600 and MUS 3610 or permission.

MUS 3640 MUSIC EDUCATION INTERNSHIPS (3 credits)
This course is designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with the profession of music education. Hours completed in this course count as the final practicum as specified by the College of Education Teacher Preparation Program and required by the Nebraska Department of Education for teacher certification.
Prerequisite(s)/Corequisite(s): MUS 3630. Not open to non-degree graduate students.

MUS 3650 INTERNSHIPS IN MUSIC (0-3 credits)
A course designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with attitudes, operations and programs of various musical organizations.
Prerequisite(s)/Corequisite(s): Junior standing or permission of Music Department Chair. Not open to non-degree graduate students.

MUS 3660 ADVANCED CONDUCTING AND REPERTOIRE (2 credits)
An advanced course in conducting for music majors. This course will provide a theoretical and practical study of various materials and methods as they relate to conducting score study, gestures, rehearsal strategy and related performance practices.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 2420.

MUS 4000 SPECIAL STUDIES IN MUSIC (1-3 credits)
Seminars or workshops in Theory, History, Performance, and Music Education designed to meet specific interests and needs of students. Topics and number of credits for each specific offering will be announced during the prior semester. (Cross-listed with MUS 8006).

MUS 4100 CONCERT CHOIR (0-1 credits)
A select choral ensemble specializing in outstanding examples of music of all styles and from all periods. Public performance. Open to all University students. Students enrolled in this course may participate in University Chorus but need not register for MUS 2700.
Prerequisite(s)/Corequisite(s): The prerequisite for Concert Choir is an audition.

MUS 4120 CHAMBER CHOIR (0-1 credits)
A select choral ensemble of 20-32 singers, specializing in outstanding examples of a cappella choral music. Preparation and performance of all styles of music. Appearances in concerts throughout the year, on campus; in the metropolitan area; and occasionally, in various other regions of Nebraska and the world.
Prerequisite(s)/Corequisite(s): Auditions are held at the start of each semester. Individuals must sing a solo, sight-sing, complete a range check, then participate in a group audition with other singers in order to match voice qualities. Not open to non-degree graduate students.

MUS 4130 UNIVERSITY ORCHESTRA (0-1 credits)
Heartland Philharmonic Orchestra is a full symphony orchestra performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community. Repertoire is drawn from the four periods of music associated with symphonic literature: Baroque, Classical, Romantic, and Modern.
Prerequisite(s)/Corequisite(s): Audition and permission.

MUS 4160 SYMPHONIC WIND ENSEMBLE (0-1 credits)
The Symphonic Wind Ensemble performs the finest concert band literature at four campus concerts, professional conferences, and tours. Open to all full- and part-time students.
Prerequisite(s)/Corequisite(s): Audition is required for membership in the Symphonic Wind Ensemble.

MUS 4190 RECITAL (1 credit)
This course is designed for all undergraduate students performing a non-degree, junior or senior recital. All recitals are to be one half hour to one hour depending on the student's degree requirements.

MUS 4200 AUDIO RECORDING TECHNIQUES I (3 credits)
This course provides students with basic instruction in analog and digital audio recording. Topics include hardware, software, microphones, and basic production. Upon completion of the course students will have the skills and the knowledge to do basic audio recording such as recording live concerts and simple multi-track recording.
Prerequisite(s)/Corequisite(s): Any one of the following: MUS 3170 OR permission of the instructor. Not open to non-degree graduate students.

MUS 4210 AUDIO RECORDING TECHNIQUES II (3 credits)
This course provides students with advanced instruction in sound recording and digital audio production. Topics include microphone technique, analog audio hardware, digital audio software, and advanced production techniques.
Prerequisite(s)/Corequisite(s): MUS 3170 & MUS 4200

MUS 4220 AUDIO RECORDING TECHNIQUES III (3 credits)
This course provides students with advanced instruction in sound mixing, digital audio editing, audio post-production and mastering. Topics include advanced digital audio editing, audio signal processing techniques, analog signal processing hardware, automation, and final product authoring and mastering.
Prerequisite(s)/Corequisite(s): MUS 3170, MUS 4200 & MUS 4210. Not open to non-degree graduate students.

MUS 4290 MUSIC CAPSTONE PROJECT (1-3 credits)
This course is to serve as a capstone project for students in the Bachelor of Arts in Music degree. Projects must be approved by the faculty and a member of the faculty will be assigned to advise on the project. Senior standing.
Prerequisite(s)/Corequisite(s): MUS 3630. Not open to non-degree graduate students.

MUS 4300 BUSINESS OF MUSIC (3 credits)
An overview of the global music industry as practiced in the United States, this course will provide insights into a number of key areas of business related to music. Students will also explore a diversity of music industry career paths in areas such as arts management, music products & merchandizing, public relations, music production & recording, publishing, and online music distribution.

MUS 4400 ADVANCED COMPOSITION (3 credits)
Individualized applied study of the craft of musical composition in larger media and various styles.
Prerequisite(s)/Corequisite(s): MUS 3440 and written permission.

MUS 4420 JAZZ IMPROVISATION (3 credits)
Basic techniques of keyboard and instrumental improvisation.

MUS 4430 ARRANGING FOR JAZZ ENSEMBLE (3 credits)
Techniques of writing for jazz ensembles of various combinations of instruments.
Prerequisite(s)/Corequisite(s): MUS 167D and MUS 2410

MUS 4440 MUSIC SINCE 1945 (3 credits)
This course covers important developments in music in the United States and Europe since 1945. The purpose of the course is to familiarize students with the issues, techniques, composers and literature found in this period. (Cross-listed with MUS 8446).
Prerequisite(s)/Corequisite(s): Completion of MUS 3420 or permission of instructor.
MUS 4450 ORCHESTRATION (2 credits)
Basics of instrumentation and scoring for band and orchestra.
Prerequisite(s)/Corequisite(s): Completion of MUS 2420 with a C or better. Not open to non-degree graduate students.
MUS 4470 COUNTERPOINT (3 credits)
Counterpoint will deal with topics of species counterpoint. Emphasis will be on masterpieces of the literature and study will be through analysis and composition. (Cross-listed with MUS 8476).
Prerequisite(s)/Corequisite(s): Completion of MUS 2420 with a C or better, or permission by instructor.
MUS 4530 HISTORY OF OPERA (3 credits)
This course will consist of a study of significant music theater works in the Western world from 1600 to the present. (Cross-listed with MUS 8536).
Prerequisite(s)/Corequisite(s): Junior standing.
MUS 4540 RENAISSANCE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature c. 1350-1600. (Cross-listed with MUS 8546).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560, and MUS 2570.
MUS 4550 BAROQUE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1600-1750. (Cross-listed with MUS 8556).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560, and MUS 2570.
MUS 4560 CLASSICAL MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1750-1815. (Cross-listed with MUS 8566).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560, and MUS 2570.
MUS 4570 ROMANTIC MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1815-1912. (Cross-listed with MUS 8576).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560, and MUS 2570.
MUS 4580 MUSIC FROM 1900 - 1945 (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from the post-romantic period to 1945. The objective will be to provide the student with a broad overview with special attention given to composers and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live, film and/or television performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 8586).
Prerequisite(s)/Corequisite(s): MUS 2550.
MUS 4600 PIANO PEDAGOGY (3 credits)
This course is designed for piano majors and private music teachers in "how to teach piano," from the beginning stages through elementary and advanced levels. Procedures of instruction, basic principles of technique and materials used in teaching piano are covered. (Cross-listed with MUS 8606).
Prerequisite(s)/Corequisite(s): Permission of instructor.
MUS 4610 VOICE PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of the vocal mechanism and of various techniques used in developing the "singing" voice. Also, it will apply knowledge acquired about the voice through studio teaching and observations of other voice teachers. (Cross-listed with MUS 8616).
Prerequisite(s)/Corequisite(s): MUS 315T or permission of instructor.
MUS 4620 INSTRUMENTAL PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of various instruments and of techniques used in developing instrumental technique. Also, it will apply knowledge acquired about the instrument through studio teaching and observations of other instrumental teachers. 
Prerequisite(s)/Corequisite(s): Sophomore standing

MUS 4720 CHORAL LITERATURE (3 credits)
A survey course in the study of significant choral genre of the various periods of musical composition from plainsong to contemporary music. This course is intended for senior-level students in the K-12 music education track and for students working on a masters degree in music education with emphasis in choral music. (Cross-listed with MUS 8726).
Prerequisite(s)/Corequisite(s): MUS 2570 and MUS 3640.
MUS 4730 KEYBOARD LITERATURE (3 credits)
Survey and study of major piano repertoire from the Baroque keyboard composers to the 20th century composers. Included are keyboard concertos with orchestra. (Cross-listed with MUS 8736).
Prerequisite(s)/Corequisite(s): Permission of instructor.
MUS 4740 VOICE LITERATURE (3 credits)
This course is a study of the development of art song in Europe and America. Emphasis will be given to German and French song literature and their influence on English and American song. (Cross-listed with MUS 8746)
Prerequisite(s)/Corequisite(s): Junior voice or permission of instructor.
MUS 4750 INSTRUMENTAL LITERATURE (3 credits)
This course is a study of the development of instrumental (brass, winds, percussion) literature in Europe and America. 
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor. Not open to non-degree graduate students.

Native American Studies (NAMS)

NAMS 1100 INTRODUCTION TO NATIVE AMERICAN STUDIES (3 credits)
This course will introduce the diverse cultures of Native Americans. Using both historical and contemporary experiences, students will learn about the cultural, historical, social, economic and/or political factors that have shaped Native experience in North America. Students will also acquire new insights about American history and culture by looking through the lens of contemporary native cultures, nations and individuals.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

NAMS 4140 INDIAN GAMING (3 credits)
This course will be an in depth study of the history and development of Indian Gaming law and policy.
Prerequisite(s)/Corequisite(s): NAMS 1100 or permission of the Instructor.

NAMS 4240 CONTEMPORARY TRIBAL NATION BUILDING (3 credits)
This course applies traditional North American tribal governance and leadership beliefs and practices in a critical examination of contemporary tribal governments, tribal courts and programs, and tribal leaders. This course challenges students to assess present tribal governments and leaders concerning their effectiveness in meeting the needs of tribal people today.
Prerequisite(s)/Corequisite(s): NAMS 1100

NAMS 4440 FEDERAL INDIAN LAW (3 credits)
This course provides an overview of tribal legal authority as it exists within federal law. It includes traditional North American tribal governance and leadership practices. Key topics include the federal-tribal trust relationship, Indian treaties, federal Indian policies and case law, and 20th Century establishment of modern tribal governments and courts.
Prerequisite(s)/Corequisite(s): NAMS 1100

NAMS 4900 INDEPENDENT STUDY (1-3 credits)
An individualized course of study with a member of the Native American Studies faculty. Either independent research or advanced readings may be pursued.
Prerequisite(s)/Corequisite(s): NAMS 1100 and permission of the instructor
NAMS 4920 SPEC TOPICS IN NAT AM STUDIES (3 credits)
The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate a variety of topics in Native American Studies. May be repeated for credit as long as the topic differs.
Prerequisite(s)/Corequisite(s): NAMS1100 and/or permission of instructor

Natural Sciences (NSCI)

NSCI 1050 SCIENCE AND CRITICAL THINKING (3 credits)
Introduction to the fundamental laws and principles of science and practice using the scientific method in everyday life to distinguish between scientific evidence and pseudoscientific thinking. Students will examine the science underlying popular pseudoscientific subjects such as ghosts, psychics, Bigfoot and other monsters, and space aliens. Offered every fall semester.
Distribution: Natural/Physical Science General Education course

NSCI 2010 NATURAL SCIENCE I (5 credits)
An interdisciplinary course designed for students wishing to explore topics in the natural sciences emphasizing an integrated, problem-solving model. Although general themes will vary from semester to semester, the course will provide both theoretical and laboratory experiences exploring fundamental concepts from biology, chemistry, physics and the earth sciences.
Prerequisite(s)/Corequisite(s): Recommended: MATH 1310 and ENGL 1160.

NSCI 2020 NATURAL SCIENCE II (5 credits)
An interdisciplinary course designed for students wishing to explore topics in the natural sciences emphasizing an integrated, problem-solving model. Although general themes will vary from semester to semester, the course will provide both theoretical and laboratory experiences exploring fundamental concepts from biology, chemistry, physics and the earth sciences.
Prerequisite(s)/Corequisite(s): Recommended: MATH 1310 and ENGL 1160.

NSCI 3930 CHEMICAL COMMUNICATION (1 credit)
Instruction in the basic skills in oral and written communication of scientific results to peer and lay communities. Partially fulfills the third writing requirement for the chemistry major.
Prerequisite(s)/Corequisite(s): Chemistry major, CHEM 2260, NSCI 2500 and ENGL 1160 or permission. Other majors may enroll with instructor permission.

NSCI 3940 WRITING IN CHEMISTRY (2 credits)
Techniques and practices for writing in chemistry. Fulfills 2 credit hours of the third writing course requirement for students with a major in chemistry. (Spring)
Prerequisite(s)/Corequisite(s): ENGL 1160, and CHEM 2400 or 2500 with a grade of C- or better.

NSCI 4960 RESEARCH REPORT (1 credit)
A writing course which may be used to partially fulfill the third writing course requirement for chemistry majors.
Prerequisite(s)/Corequisite(s): ENGL 1160. Must be taken concurrently with CHEM 4960. NSCI 2500 and NSCI 3354 are recommended.

Neuroscience (NEUR)

NEUR 1520 INTRODUCTION TO NEUROSCIENCE I (3 credits)
The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 1 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the cellular and molecular levels: anatomy and function of neurons, communication within and between neurons, and how neurons interact to perceive and process sensory information.
Prerequisite(s)/Corequisite(s): High school biology and chemistry. Not open to non-degree graduate students.

NEUR 1540 INTRODUCTION TO NEUROSCIENCE II (3 credits)
The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 2 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the organismal, behavioral and cognitive levels: how the nervous system develops, how the motor system, hormones, and physiology influences behavior, and how cognition and systems neuroscience leads to understanding of the mind.
Prerequisite(s)/Corequisite(s): NEUR 1520 or permission of instructor. Not open to non-degree graduate students.

NEUR 2500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)
The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, BIOL 3500)
Prerequisite(s)/Corequisite(s): Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

NEUR 4000 SYSTEMS NEUROSCIENCE (3 credits)
This is an advanced course for the Neuroscience major designed to provide a solid understanding of the peripheral and central connections that make the systems of the body function. Data and theories of brain-behavior relationships from current research in neuroscience will be discussed. (Cross-listed with NEUR 8006)
Prerequisite(s)/Corequisite(s): NEUR 1500, BIOL 1450, BIOL 1750, and PSYC 1010; or permission. Not open to non-degree graduate students.

NEUR 4200 ADVANCED NEUROSCIENCE LABORATORY (3 credits)
This course is designed as a capstone laboratory course for Neuroscience majors. The course will provide students with hands-on experience in collecting data in diverse areas of neuroscience, analyzing these data, interpreting the data, and preparing written and verbal presentations of the data.
Prerequisite(s)/Corequisite(s): PSYC 3130, PSYC 3140, BIOL 1450, BIOL 1750, and NEUR 1500 are prerequisites for the course. Not open to non-degree graduate students.

NEUR 4330 SOCIAL NEUROSCIENCE (3 credits)
This course will evaluate the biological substrates of sociality and social behavior, and explore the impact of social environments on brain function and development. Students in the course will explore the molecular, cellular, neurotransmitter, and endocrine influences on social behavior, including affiliative care, aggression, social bonding, altruism, and social cognition. (Cross-listed with PSYC 8336)
Prerequisite(s)/Corequisite(s): PSYC 1010 BIOL 1450, and NEUR 1500. Not open to non-degree graduate students.
NEUR 4870 MOLECULAR AND CELLULAR BIOLOGY (3 credits)
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with BIOL 4870, BIOL 8876, NEUR 8876)
Prerequisite(s)/Corequisite(s): NEUR 1500 and BIOL 3020 or permission of instructor

NEUR 4890 GENES, BRAIN, AND BEHAVIOR (3 credits)
This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with BIOL 4890, BIOL 8896, PSYC 8896)
Prerequisite(s)/Corequisite(s): NEUR 1500 and BIOL 2140 or by permission of instructor. Not open to non-degree graduate students.

NEUR 4900 SPECIAL TOPICS IN NEUROSCIENCE (1-3 credits)
A study of designated special topic in neuroscience. Students may repeat this class as long as the specific topic is not duplicated.
Prerequisite(s)/Corequisite(s): NEUR 1500, junior-senior status, instructor permission. Not open to non-degree graduate students.

Philosophy (PHIL)

PHIL 1010 INTRODUCTION TO PHILOSOPHY (3 credits)
A first course in philosophy designed to introduce students to the major philosophic positions.
Distribution: Humanities and Fine Arts General Education course

PHIL 1020 CONTEMPORARY MORAL PROBLEMS (3 credits)
Introduction to the application of basic moral concepts and theories to contemporary moral issues. Discussion topics will vary and may include: distribution of wealth and resources, environmental ethics and sustainability, animal rights, capital punishment, torture, euthanasia, abortion, cloning, genetic engineering, privacy rights, drug laws, marriage and sexuality, gun control, and affirmative action.
Distribution: Humanities and Fine Arts General Education course

PHIL 1210 CRITICAL REASONING (3 credits)
A study of the principles of correct reasoning: induction, deduction, formal and informal fallacies. Critical reasoning is excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.
Distribution: Humanities and Fine Arts General Education course

PHIL 2010 SYMBOLIC LOGIC (3 credits)
A first course in symbolic logic designed to introduce students to formal systems of propositional and predicate logic. Logic is excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.

PHIL 2020 INTRODUCTION TO PHILOSOPHY OF MIND (3 credits)
This course is an introductory overview of fundamental issues in the study of mind, thinking and consciousness. Provides a forum for students to explore these philosophical issues from the perspective of current research in psychology, neuroscience, linguistics and computer science.
Prerequisite(s)/Corequisite(s): 3 hours in philosophy or permission of instructor.

PHIL 2030 INTRODUCTION TO ETHICS (3 credits)
A critical study of basic moral concepts and problems contained in ethical theories of important western philosophers: relativism, egoism, happiness, obligation, justice, freedom, conscience, love, religious precepts, moral rules, moral attitudes and moral language.
Distribution: Humanities and Fine Arts General Education course

PHIL 2040 INTRODUCTION TO EAST ASIAN PHILOSOPHY (3 credits)
This course makes a critical and philosophical inquiry into the fundamental questions raised in East Asian Philosophy, typically including a critical evaluation of the traditional theories in Confucianism, Buddhism, and Taoism of China, Korea, and Japan, as well as contemporary responses to those theories, e.g., Kyoto School or Maoism.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

PHIL 2300 HUMAN VALUES IN MEDICINE (3 credits)
An opportunity for pre-medical students and students preparing for other health professions to confront questions of meaning and value that arise in the context of medical research and practice.

PHIL 3010 PHILOSOPHY OF JUSTICE (3 credits)
An examination of the concept of justice from Greek moral philosophy to modern moral philosophy with focus on the problems of modern moral philosophy and the application of those ideas in government and society.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3020 THE JUSTIFICATION OF PUNISHMENT (3 credits)
The course examines the major philosophical arguments concerning the conditions under which punishment is justifiable, and provides a background of ethical theory in order to make these arguments comprehensible.
Prerequisite(s)/Corequisite(s): Junior, or 3 credits in philosophy, or 1 course in criminology & criminal justice.

PHIL 3040 PHILOSOPHY OF LAW (3 credits)
An overview of central issues in the philosophy of law, including the nature, source, and legitimacy of law, the relationship between law and morality, competing theories of legal reasoning and interpretation, the sources and structuring of rights and responsibilities, and theories of punishment.
Prerequisite(s)/Corequisite(s): Junior standing or 6 hours in Philosophy.

PHIL 3050 ETHICAL THEORY (3 credits)
A detailed examination of selected topics in normative ethics and/or metaethics. Normative ethical questions to consider may include: Is the morally right thing to do always the thing that has the best consequences, as so-called "consequentialists" believe? What sorts of things are intrinsically good, i.e., good in themselves, regardless of their effects? Metaethical questions to be considered may include: Are there any objective moral facts? If so, where do they come from?
Prerequisite(s)/Corequisite(s): PHIL 2030 or 6 hours in philosophy or permission of instructor.

PHIL 3060 VALUES AND VIRTUES (3 credits)
This course explores advanced topics in ethics with particular emphasis on value theory and virtue ethics. Topics to be considered include the meaning and status of value claims, sources of value, intrinsic goods, agent-relative goods, practical reason, moral development, happiness, moral ambiguity, moral luck, the identification of virtues, and relationships of care, trust, and responsibility. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8215)

PHIL 3110 HISTORY OF ANCIENT PHILOSOPHY (3 credits)
A survey of philosophy from its beginning to the Middle Ages: pre-Socrates, Plato, Aristotle, Cynics, Epicureans, Stoics, Skeptics, Neo-Platonists.

PHIL 3130 HISTORY OF MODERN PHILOSOPHY (3 credits)
An examination of the leading philosophical ideas of the 17th and 18th centuries: Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume and Kant. This course also fulfills the writing requirements for philosophy majors.
Prerequisite(s)/Corequisite(s): 6 hours in Philosophy or permission.

PHIL 3140 NINETEENTH CENTURY PHILOSOPHY (3 credits)
An examination of major views in 19th century philosophy including the development of German idealism, British empiricism and Marxism. Special attention will be paid to the origins of existentialism, pragmatism and modern empiricism as reactions to 19th century positions.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.
PHIL 3150 PHILOSOPHY OF HISTORY (3 credits)
An introduction to representative problems of historical interpretation including theories of historical facts, history and values, periodization of history, history and political actions. The course will emphasize certain major philosophies of history such as Christianity, idealism, positivism and Marxism.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3170 ETHICS IN BUSINESS (3 credits)

PHIL 3180 ENVIRONMENTAL ETHICS (3 credits)
Analysis and evaluation from ethical viewpoints, of such topics as: animal rights, intrinsic value of animals, plants and ecosystems; pollutions of nature; preservation of historic structures and rare species; environmental law and politics; obligations to future generations; cost/benefit analysis of natural resources; agribusiness; hazardous technologies and wastes; and the worth of wilderness.
Prerequisite(s)/Corequisite(s): Junior or 3 hours of philosophy.

PHIL 3200 PHILOSOPHY OF RELIGION (3 credits)
A study of the major arguments for and against the existence of God, religious knowledge, miracles, morality without religion and immortality.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3210 SOCIAL PHILOSOPHY (3 credits)
An examination of the problems and concepts of social and political philosophy.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy or junior or permission of instructor.

PHIL 3220 PHILOSOPHY OF ART (3 credits)
An inquiry into historical and contemporary philosophical perspectives on the making, interpreting and criticizing of works of art, including relations of the arts to other dimensions of cultures. (Cross-listed with PHIL 8225)
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3250 LIMITS OF CONSCIOUSNESS (3 credits)
A course focusing on the scientific study of the psychology, neurology, and philosophy of the mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 4250, PSYC 8255)
Prerequisite(s)/Corequisite(s): PSYC 1010; or 6 hours in Philosophy.

PHIL 3260 HISTORY OF AMERICAN PHILOSOPHY: 20TH CENTURY (3 credits)
A study of the thinkers and movements in 20th century American thought: pragmatism, critical realism, new realism; along with selected readings from contemporary American thinkers.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3300 ANALYTIC PHILOSOPHY (3 credits)
This course studies a number of fundamental issues in the philosophy of language and the philosophy of logic by considering some of the classic papers of Gottlob Frege and Bertrand Russell and the Tractatus of Ludwig Wittgenstein. It will provide a foundation for the study of many of the central works of 20th century philosophy.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy or permission of instructor.

PHIL 3370 CONCEPTS OF NATURE (3 credits)
An examination of key philosophical conceptions of nature from the Greeks through the 20th century.

PHIL 3400 PHILOSOPHY OF NATURAL SCIENCE (3 credits)
An examination of the philosophical problems associated with the methods of the natural sciences, the presuppositions of scientific inquiry, and the nature of scientific laws and theories.
Prerequisite(s)/Corequisite(s): 6 credits in philosophy and junior, or permission of instructor.

PHIL 3410 PHILOSOPHY OF SOCIAL SCIENCE (3 credits)
An examination of the history and nature of the goals and methods of social science in general and certain social science disciplines in particular.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy and junior, or permission of instructor.

PHIL 3430 PHILOSOPHY OF BIOLOGY (3 credits)
An examination and evaluation of contrasting views on philosophical issues in the biological sciences, including explanation, observation, reduction, units of description analysis and the role of values. Attention will be paid to ways in which the study of biology has produced a new understanding of the nature of scientific inquiry.
Prerequisite(s)/Corequisite(s): 6 hours in philosophy or biology or permission of instructor.

PHIL 3490 GENDER AND PHILOSOPHY (3 credits)
This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. (Cross-listed with WGST 3490).
Prerequisite(s)/Corequisite(s): Junior or 6 hours in PHIL or 6 hours in WGST.

PHIL 3500 PROBLEMS IN PHILOSOPHY (3 credits)
Seminar on specialized topics in philosophy. Topics to be arranged.
Prerequisite(s)/Corequisite(s): Junior or 6 hours in philosophy.

PHIL 3510 PHENOMENOLOGY AND EXISTENTIALISM (3 credits)
A critical examination of phenomenology and existentialism as historical and philosophical movements. Course focus includes such thinkers as Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, and Simone De Beauvoir.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3520 HERMENEUTICS IN PHILOSOPHY (3 credits)
Introduction to hermeneutics or the notion of interpretation in certain thinkers and philosophy movements since the late 19thC. Focus includes Nietzsche, pragmatism, Peirce, James, Dewey, Gadamer, Frankfurt School, and Derrida. Course will exclude topics or things covered in PHIL3510.
Prerequisite(s)/Corequisite(s): 3 hours in philosophy, junior or permission of instructor.

PHIL 3570 UNDERSTANDING SELF-DECEPTION (3 credits)
This course is designed to introduce students to a variety of problems associated with the special issue of self-deception. Conceptual and linguistic issues concerning the paradox of self-deception, as well as epistemological issues concerning self-deception are considered.
Prerequisite(s)/Corequisite(s): Junior or 6 hours in philosophy or permission.

PHIL 3600 THEORY OF KNOWLEDGE (3 credits)
An examination of the nature and limits of human knowledge and related issues such as skepticism, certainty, rationality and perception, and the problem of other minds.
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3610 PHILOSOPHY OF LANGUAGE (3 credits)
A course dealing with classical philosophical problems about language such as meaning and reference as well as with conceptual issues raised by contemporary linguistics and psycholinguistics.
Prerequisite(s)/Corequisite(s): 6 hours philosophy or background in linguistics or psycholinguistics or permission of instructor.
PHIL 3650 PHILOSOPHY OF MIND (3 credits)
A discussion of various accounts of the nature of minds which focuses upon philosophical problems such as whether the mind is identical with the brain, the extent of similarities between human minds and computers, the nature of personal identity, and the relationship of mental activity to behavior. (Cross-listed with PHIL 8655)
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3700 METAPHYSICS (3 credits)
This course introduces students to the critical study of selected philosophical theories of reality. Some representative views from the history of philosophy will be covered as well as contemporary debates. The course includes examination of the relation of metaphysical positions to other areas of knowledge and belief and the critical evaluation of metaphysics as an intellectual enterprise.
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3960 READINGS IN PHILOSOPHY (1-3 credits)
Readings in specialized areas or individual problems in philosophy.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHIL 4000 ADVANCED PHILOSOPHY WRITING SEMINAR (3 credits)
This is the capstone course of the philosophy major, designed to teach students to write at an advanced level. Students will present their own writing and critique the writing of others, under close guidance of the instructor. By the end of the seminar, each student will have produced a professional-length (approximately 20-page) paper on a philosophical topic, and gained extensive experience in revising a paper and editing the work of others.
Prerequisite(s)/Corequisite(s): Junior standing and 15 hours in philosophy including 9 hours consisting of 3000-level courses, or instructor permission. Not open to non-degree graduate students.

Physical Education (PE)

PE 1010 INTRO ATHLETIC TRAINING (1 credit)
This course will provide an opportunity for candidates to investigate careers in athletic training. Clinical observation of professionals in the field of sports medicine will be supported by lecture and demonstration of skills involved in the profession of athletic training. This course also will introduce the candidate to basic medical terminology.

PE 1800 FITNESS FOR LIVING (3 credits)
This course is aimed at exploring the values of physical activity, assessing fitness needs and prescribing appropriate activities. The course will be taught as a lecture lab.

PE 2130 LIFESAVING (3 credits)
This course is designed to prepare candidates in assuming the duties and responsibilities of a lifeguard. The main focus will be accident prevention in and around the water. Also stressed will be the recognition of a person in distress and a drowning victim. The development of an emergency plan and the articulation with the emergency rescue service will also be key elements in this course.

PE 2140 WATER SAFETY INSTRUCTOR (3 credits)
This is a course in water safety instruction. The purpose of this course is to teach those enrolled how to teach the various swimming skills. This would include teaching beginning swimming through emergency water safety. Candidates who satisfactorily complete the course will be issued a Water Safety Instructor Certificate.
Prerequisite(s)/Corequisite(s): Seventeen years of age and possession of current Advanced Lifesaving or Emergency Water Safety Certificate

PE 2210 GROUP EXERCISE LEADERSHIP (2 credits)
This course is designed to provide students with competencies in the theory, concepts, and skills related to group exercise instruction and leadership. Students will explore both the dynamics of group participation and instructions across various modalities including: step, hi-low aerobics, cardio kickboxing, water aerobics, dance fitness, sports conditioning, indoor cycling, yoga, Pilates, and barre.
Prerequisite(s)/Corequisite(s): PE 1800 with a grade of C- or better, and ATHT Major or PYED Major, or Secondary Education Major with endorsement code: 0802C

PE 2220 THEORY AND PRACTICE OF TEACHING RESISTANCE TRAINING (2 credits)
This course is designed for the college student majoring in Exercise Science, Physical Education and related degrees to develop leadership skills necessary to teach safe and effective resistance training programs.
Prerequisite(s)/Corequisite(s): PE 1800 with a grade of C- or better, School of HPER majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE 5k-6th and 7-12.

PHIL 3700 METAPHYSICS (3 credits)
This course introduces students to the critical study of selected philosophical theories of reality. Some representative views from the history of philosophy will be covered as well as contemporary debates. The course includes examination of the relation of metaphysical positions to other areas of knowledge and belief and the critical evaluation of metaphysics as an intellectual enterprise.
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3960 READINGS IN PHILOSOPHY (1-3 credits)
Readings in specialized areas or individual problems in philosophy.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHIL 4000 ADVANCED PHILOSOPHY WRITING SEMINAR (3 credits)
This is the capstone course of the philosophy major, designed to teach students to write at an advanced level. Students will present their own writing and critique the writing of others, under close guidance of the instructor. By the end of the seminar, each student will have produced a professional-length (approximately 20-page) paper on a philosophical topic, and gained extensive experience in revising a paper and editing the work of others.
Prerequisite(s)/Corequisite(s): Junior standing and 15 hours in philosophy including 9 hours consisting of 3000-level courses, or instructor permission. Not open to non-degree graduate students.

Physical Education (PE)

PE 1010 INTRO ATHLETIC TRAINING (1 credit)
This course will provide an opportunity for candidates to investigate careers in athletic training. Clinical observation of professionals in the field of sports medicine will be supported by lecture and demonstration of skills involved in the profession of athletic training. This course also will introduce the candidate to basic medical terminology.

PE 1800 FITNESS FOR LIVING (3 credits)
This course is aimed at exploring the values of physical activity, assessing fitness needs and prescribing appropriate activities. The course will be taught as a lecture lab.

PE 2130 LIFESAVING (3 credits)
This course is designed to prepare candidates in assuming the duties and responsibilities of a lifeguard. The main focus will be accident prevention in and around the water. Also stressed will be the recognition of a person in distress and a drowning victim. The development of an emergency plan and the articulation with the emergency rescue service will also be key elements in this course.

PE 2140 WATER SAFETY INSTRUCTOR (3 credits)
This is a course in water safety instruction. The purpose of this course is to teach those enrolled how to teach the various swimming skills. This would include teaching beginning swimming through emergency water safety. Candidates who satisfactorily complete the course will be issued a Water Safety Instructor Certificate.
Prerequisite(s)/Corequisite(s): Seventeen years of age and possession of current Advanced Lifesaving or Emergency Water Safety Certificate

PE 2210 GROUP EXERCISE LEADERSHIP (2 credits)
This course is designed to provide students with competencies in the theory, concepts, and skills related to group exercise instruction and leadership. Students will explore both the dynamics of group participation and instructions across various modalities including: step, hi-low aerobics, cardio kickboxing, water aerobics, dance fitness, sports conditioning, indoor cycling, yoga, Pilates, and barre.
Prerequisite(s)/Corequisite(s): PE 1800 with a grade of C- or better, and ATHT Major or PYED Major, or Secondary Education Major with endorsement code: 0802C

PE 2220 THEORY AND PRACTICE OF TEACHING RESISTANCE TRAINING (2 credits)
This course is designed for the college student majoring in Exercise Science, Physical Education and related degrees to develop leadership skills necessary to teach safe and effective resistance training programs.
Prerequisite(s)/Corequisite(s): PE 1800 with a grade of C- or better, School of HPER majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE 5k-6th and 7-12.

PE 2310 TEACHING GAMES 1 (3 credits)
The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of invasion games and field run/score games (e.g. basketball, soccer, team handball, football, speedball, ultimate Frisbee, hockey, softball, cricket, and modified kickball).
Prerequisite(s)/Corequisite(s): Not open to non-degree students.

PE 2320 TEACHING GAMES 2 (3 credits)
The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of net/wall games and lifetime activities (e.g. volleyball, badminton, tennis, racquetball, golf, archery, pickleball, table tennis).
Prerequisite(s)/Corequisite(s): Not open to non-degree students.

PE 2330 OUTDOOR/ADVENTURE ACTIVITIES (3 credits)
The course will address the basic requirements for living comfortably and traveling in wilderness areas. Basic orienteering skills, team building activities, identifying and minimizing risks associated with outdoor pursuits, and environmental safety issues will be included.
Prerequisite(s)/Corequisite(s): SED or ELED major, HED 3030. Not open to nondegree students.

PE 2430 FOUNDATIONS IN PHYSICAL EDUCATION (3 credits)
This is an introductory course in physical education that includes an orientation to the profession and a consideration of current trends, problems and issues and their implications for the field of physical education. The course also examines the relationship of physical education to other cultures, general education, and global perspective.

PE 2700 FUNDAMENTALS OF ATHLETIC TRAINING (3 credits)
An introduction to the field of athletic training as well as injury prevention and basic athletic training skills in wound care, taping/bracing, evaluation, and treatment.
Prerequisite(s)/Corequisite(s): PE 1010, PE 2400, PE 2500 and admission into the Athletic Training Program. Not open to non-degree graduate students.

PE 2800 MOTOR BEHAVIOR (3 credits)
This course is the study of motor development, and the conditions and factors that influence the normal development and the learning of motor skills. Emphasis is placed upon normal developmental patterns and behaviors and learning principles throughout the life-span as it relates to a diverse American culture.
Prerequisite(s)/Corequisite(s): PE 2430 with a grade of C- or better, or ATHT majors, or permission of instructor.

PE 3000 SPECIAL PROJECTS (1-3 credits)
Conducted as short course, seminar, workshop or special project.
Prerequisite(s)/Corequisite(s): The prerequisite for the special project will be determined by the instructor.
PE 3010 SCIENTIFIC PRINC OF COACHING (3 credits)
Designed for coaches and potential coaches who are not physical education majors. Covers basic information to include kinesiology, physiology of exercise and behavioral aspects of coaching.
Prerequisite(s)/Corequisite(s): For non physical education majors.

PE 3040 PREVENTION AND CARE OF ATHLETIC INJURIES (3 credits)
This course covers selected topics related to the prevention and care of athletic related injuries. Emphasis will be placed on injury prevention through proper training, conditioning, nutrition and hydration strategies. Basic evaluation and treatment of athletic related injuries and legal aspects will also be covered.
Prerequisite(s)/Corequisite(s): PE 3010 and HED 3030 or current CPR certification and First Aid certification. PYES majors: PE 2400 or PE 2880 or BIOL 2740 and HED 3030 or current CPR certification and First Aid certification. ATHT majors can not enroll.

PE 3060 METHODS OF PRESCHOOL AND PRIMARY SCHOOL PHYSICAL EDUCATION (3 credits)
The study of current methodology in developmentally appropriate preschool and primary school physical education. Candidates will use the assessment, planning, implementation and evaluation model in developing physical education programs for this age group.
Prerequisite(s)/Corequisite(s): PE 2800, EDUC 2010 or TED 2300, & EDUC 2520 & EDUC 2524 or TED 2400.

PE 3110 INTRODUCTION TO DANCE (3 credits)
This course provides an introduction to dance as a performing art focusing on the choreographer, the dancer, the audience, the different dance genres and dance as a means of communication and expression.

PE 3120 DANCE SOMATICS: AN INTEGRATED APPROACH TO UNDERSTANDING THE BODY IN MOTION (3 credits)
This course explores the body in motion through the lenses of various dance and movement theories, as well as self-reflection. Students will learn to move in an embodied way and understand the physiological, developmental, and psychological foundation of movement for dance.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 3130 CHOREOGRAPHY 1: AN INTRODUCTION TO CHOREOGRAPHIC TOOLS, ARTISTIC AESTHETICS, & PERFORMANCE ELEMENTS (3 credits)
This course explores the act of choreography as a medium for artist expression through improvisation, choreographic constructs, and content themes. Students will learn how to build ideas into choreographic dances through experimentation, structured frameworks, and feedback. Students will also present their work in a small performance at the conclusion of the semester.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 3140 SPORTS OFFICIATING (3 credits)
The general principles, basic guidelines, philosophy, mechanics and rules of officiating several team and individual sports will be covered.

PE 3300 TEACHING DANCE IN THE SCHOOLS (3 credits)
The course is designed for physical education pedagogy majors, elementary teachers, and recreation leaders who are interested in obtaining the fundamentals of a variety of rhythmic and creative dance activities and their teaching methods for preschool through twelfth grade.
Prerequisite(s)/Corequisite(s): EDUC 2010 or permission of instructor.

PE 3350 TEACHING & CURRICULUM DEVELOPMENT IN ELEMENTARY PHYSICAL EDUCATION (3 credits)
The study of teaching methodology and curriculum development in the elementary schools. Particular attention will be given to meeting the motor needs and interests of children aged 9-12. Assessing children's motor performance, prescribing activities, and evaluating the program effectiveness will be addressed.
Prerequisite(s)/Corequisite(s): PPST, PE 3060 and PE 3300 or PE 3210, EDUC 2010, TED 2400, and TED 2404.

PE 3480 ORGANIZATN & ADM OF ATHLETICS (3 credits)
A study of the organization and administration of athletics in the secondary schools.
Prerequisite(s)/Corequisite(s): Sophomore

PE 3710 SWIMMING COACHING THEORY AND PRACTICE (3 credits)
This course is designed to develop the competencies essential to the successful coaching of swimming at all levels. The focus is on theory, swimming techniques, rules, safety, and coaching methods of competitive swimming.

PE 3720 SOCCER COACHING THEORY & PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of soccer. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection, and modern coaching theories specific to the sport of soccer.

PE 3730 SOFTBALL COACHING THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of fast pitch softball. The course will encompass the philosophy of coaching, coaching techniques, conditions/training activities and the analysis and correction of skills.

PE 3740 VOLLEYBALL COACHG THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of volleyball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories.

PE 3750 WRESTLING COACHING THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of wrestling. The focus is on conditioning/training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of wrestling.

PE 3760 BASEBALL COACHING THEORY (3 credits)
A course of study designed to develop knowledge in all phases of the game. Special focus is on fundamentals, drills, managing and psychology of coaching.

PE 3770 FOOTBALL COACHING THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of football on all levels. The focus is on theory, history and origin, conditioning, safety techniques, coaching techniques, strategy, equipment selection and modern coaching theories.

PE 3780 TRACK/FIELD COACHG THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of track and field. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of track and field.

PE 3790 BASKETBALL COACHING THEORY/PRAC (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of basketball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of basketball.

PE 3800 HOCKEY COACHING THEORY (3 credits)
An introductory course in the developing the desirable attributes of hockey players, rules of the game, fundamental skills and systems of ice hockey as well as the study of key principles in successful players. Basic offensive and defensive strategies will be discussed. Also discussed will be the evolution of the sport and its equipment.
PE 3900 MOTIVATION FOR PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological basis of exercise and physical activity. The majority of the course will focus on traditional theories and principles of psychology as they relate to exercise. Emphasis is placed on understanding the motives underlying involvement in exercise and physical activity and the psychological benefits derived from acute and chronic involvement in an exercise program. Throughout the course, consideration will be given to theoretical models, research findings, and practical application of the concepts to a variety of performance settings.
Prerequisite(s)/Corequisite(s): PSYC 1010 with a grade of C- or better.

PE 4000 TEACHING & CURRICULUM DEVELOPMENT IN SECONDARY PHYSICAL EDUCATION (3 credits)
This course is designed to help candidates develop knowledge and teaching strategies in secondary physical education, with an emphasis on understanding the impact of secondary physical education on students with disabilities. Candidates will develop lesson plans and objectives that cater to diverse learning styles and abilities.
Prerequisite(s)/Corequisite(s): Junior standing and PYED major or Secondary Education major with endorsement codes: 0802S or 0802C or 1913S.

PE 4010 LABORATORY METHODS IN EXERCISE SCIENCE (6 credits)
This course will provide students an opportunity to achieve competency in various exercises of significant biomechanics and exercise physiology laboratories. The students will gain experience in interpreting the results of the tests administered, and writing exercise prescriptions based upon those results. Students must have current CPR certification.
Prerequisite(s)/Corequisite(s): PE 2500 or BMCH 2500 or BIOL 2840, PE 4630 or BMCH 4630, PE 4940, CPR certification, department consent; must be School of HPER major or ATHt major.

PE 4070 OPTIMIZING SPORTS PERFORMANCE (3 credits)
The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration of several disciplines in sports medicine aimed at preparing one for optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed with PE 8076)
Prerequisite(s)/Corequisite(s): PE 4630 with a grade of C- or better or BMCH 4630 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 4080 CLINICAL EXERCISE PHYSIOLOGY (3 credits)
The course will offer students the knowledge, skills, and abilities to take the American College of Sports Medicine's health fitness instructor certification exam. This course will emphasize health risk assessment, exercise testing, and exercise prescription for healthy and clinical populations. (Cross-listed with PE 8086)
Prerequisite(s)/Corequisite(s): PE 2210 with a grade of C- or better, PE 2500 with a grade of C- or better or BMCH 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 4150 ADAPTED PHYSICAL EDUCATION THEORY AND PRACTICE (3 credits)
A study of problems as they relate to philosophy, procedures and practices, and organization and administration of physical education and physical activity programs for exceptional students. This course survey's movement problems associated with specific disabilities and provides the student with an opportunity to work with a child who has a disability.
Prerequisite(s)/Corequisite(s): PE 2800 with a grade of C- or better and Jr Standing and PYED major or Secondary Education major with endorsement codes: 0802S or 0802C or 1913S.

PE 4170 MOTOR ASSESSMENT & PRESCRIPTION (3 credits)
An in-depth survey of motor and fitness assessment instruments for use with pre-school, elementary, and secondary school students. The use of test scores for diagnosis and prescription of physical education activities for special populations will be addressed. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs. (Cross-listed with PE 8175)
Prerequisite(s)/Corequisite(s): PE 4150

PE 4180 PRACT PE FOR DISABLED CHILD (3 credits)
This course is designed as a practicum with theoretical and practical experience in addressing the motor needs of children with disabilities in a physical education setting. (Cross-listed with PE 8186)
Prerequisite(s)/Corequisite(s): PE 4170

PE 4200 PLANNING WORKSITE WELLNESS PROGRAM (3 credits)
This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs will also be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care. (Cross-listed with PE 8206)
Prerequisite(s)/Corequisite(s): Junior standing.

PE 4250 INCL INDV W/DISABILITIES IN PE (3 credits)
This course is for physical education, health education, special education and therapeutic recreation candidates interested in the inclusion of children with disabilities in physical education environments. (Cross-listed with PE 8266)
Prerequisite(s)/Corequisite(s): PE 3060 or PE 4000 and PE 4150

PE 4310 LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the lower back, hip, and lower extremities. (Cross-listed with PE 8316)
Prerequisite(s)/Corequisite(s): PE 2700 and 4710. Not open to non-degree graduate students.

PE 4320 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with PE 8326)
Prerequisite(s)/Corequisite(s): PE 4310, PE 4330, and PE 4720. Not open to non-degree graduate students.

PE 4330 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with PE 8336)
Prerequisite(s)/Corequisite(s): PE 2700 and 4710. Not open to non-degree graduate students.

PE 4340 REHAB TECH ATHL TRAINING (3 credits)
The use of basic theories and principles of athletic injury rehabilitation, including therapeutic exercise and the use of physical agents. The development of rehabilitation programs including hands-on practical application. (Cross-listed with PE 8346)
Prerequisite(s)/Corequisite(s): PE 4330
PE 4350 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with PE 8356)
Prerequisite(s)/Corequisite(s): PE 4340, PE 4320.

PE 4360 ORTHOPEDIC AND MEDICAL ASPECTS OF ATHLETIC TRAINING (3 credits)
This course will enhance the candidate's knowledge of orthopedic and medical aspects of athletic training. Involves directed observation, experiential learning, literature review and hands-on experience under the supervision of local medical professionals in various settings. The student will be exposed to advanced evaluation and treatment skills, including imaging techniques and surgical procedures, rehabilitation and athletic training management.
Prerequisite(s)/Corequisite(s): PE 4320 and PE 4340.

PE 4500 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with PE 8506)

PE 4700 AN INTRODUCTION TO FITNESS MANAGEMENT (3 credits)
This course is an introduction to management concepts for fitness professionals such as human resource management, financial management, marketing, and facility risk management. Assessment, development, prescription, implementation, and evaluation strategies will be presented for each management concept. Students will develop the knowledge and skills necessary to orchestrate and manage high quality programs in various fitness settings.
Prerequisite(s)/Corequisite(s): PE 2400 or PE 2880 or BIOL 2740, PE 2210, and PE 2220.

PE 4710 CLINICAL PRACTICUM ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate skills and proficiencies in emergency procedures and the basic therapeutic modalities.
Prerequisite(s)/Corequisite(s): Formal admission to the Athletic Training Program, instructor permission, & continued compliance w/ published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 2700. Not open to non-degree graduate students.

PE 4720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate advanced proficiencies in emergency procedures and initial proficiencies in lower extremity evaluation and application of therapeutic modalities.
Prerequisite(s)/Corequisite(s): Formal admission to Athletic Training Program, PE 4710 , instructor permission, & continued compliance w/ published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4310 and 4330. Not open to non-degree grad students.

PE 4730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills and proficiencies in lower extremity care and initial proficiency in upper extremity evaluation and care.
Prerequisite(s)/Corequisite(s): Formal admission to Athletic Training Program, PE 4720, instructor permission, & continued compliance w/ published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4320 & 4340. Not open to non-degree graduate students.

PE 4740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of upper extremity evaluation and care and skills in medical exam techniques, pharmacology and interviewing.
Prerequisite(s)/Corequisite(s): Formal admission to the Athletic Training Program, PE 4730, instructor permission, & continued compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4360. Not open to non-degree graduate students.

PE 4750 CLINICAL PRACTICUM IN ATHLETIC TRAINING V (1 credit)
Clinical Practicum in Athletic Training V is the fifth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills in medical examination techniques and administrative tasks.
Prerequisite(s)/Corequisite(s): Formal admission to the Athletic Training Program, PE 4740, instructor permission, & continued compliance w/ published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4350. Not open to non-degree graduate students.

PE 4800 EXERCISE LEADER PRACTICUM I (3 credits)
This practicum places the candidate in the role of an exercise leader in a Fitness for Living class. During this experience the candidate will participate in a seminar which will meet three days a week. Responsibilities in the role of an exercise leader will include: direct contact with students enrolled in this class during all lectures and activities and exercise leadership and supervision, fitness testing, and class presentations. During the seminar sessions the candidates will participate in discussions, group activities, and share experiences relative to their exercise leadership roles. Candidates must have current CPR certification.
Prerequisite(s)/Corequisite(s): PE 2210, 2220, 4010 and department consent.

PE 4850 CARDIOVASCULAR DISEASE PREVENTION AND REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with PE 8856).
Prerequisite(s)/Corequisite(s): PE 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better, PE 4940 with a grade of C- or better

PE 4910 INTERNSHIP IN EXERCISE SCIENCE (6 credits)
This course is a supervised, educational work experience of at least 300 clock hours over at least a ten week period at an approved worksite offering programs and experiences in fitness development and health promotion.
Prerequisite(s)/Corequisite(s): PE 4800, 2.5 GPA, CPR Certification, and department consent.
PE 4930 MEASUREMENT AND EVALUATION OF PHYSICAL EDUCATION (3 credits)
This course is designed to present the theory and application of measurement and evaluation techniques commonly used in physical education, exercise science, physical activity, and health promotion. Appropriate test selection, administration, and the interpretation of results with fundamental statistical methods will be emphasized. Students will participate in selected practical testing and measurement procedures.
Prerequisite(s)/Corequisite(s): PE 4940 with a grade of C- or better.

PE 4940 PHYSIOLOGY OF EXERCISE (3 credits)
A study of the major physiological systems of the human body and its acute and chronic responses to exercise. Includes application of physiological concepts to physical training and conditioning.
Prerequisite(s)/Corequisite(s): PE 1800, PE 2400 or PE 2880 or BIOL 2740 and BIOL 2840, and CHEM 1120 and School of HPER majors or ATHT majors only.

PE 4960 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition. (Cross-listed with PE 8966)
Prerequisite(s)/Corequisite(s): PE 4340, PE 4350, and PE 4730; or instructor permission.

PE 4970 PROBLEMS OF PE (1-3 credits)
This course is designed to provide an opportunity for individuals or groups to study problems in physical education.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PE 4980 COACHING PRACTICUM (1 credit)
This course is designed to give the candidate practical experiences in the coaching of specific sports.
Prerequisite(s)/Corequisite(s): Junior standing and related coaching methods course. Permission of instructor.

PE 4990 INTERNSHIP IN ATHLETIC TRAINING (6 credits)
This course is a supervised, educational work experience of at least 300 clock hours over a minimum of a 10-week period at an approved athletic training worksite.
Prerequisite(s)/Corequisite(s): 90 hours completed, 2.5 GPA and department consent.

Physical Education Activities (PEA)

PEA 111A RACQUETBALL (1 credit)
This course is designed to develop the fundamental skills and knowledge of the sport of racquetball.

PEA 111B TENNIS (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of tennis. Included will be the fundamental skills and strategies of playing the game.

PEA 111C GOLF (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of golf.

PEA 111D JUDO (1 credit)
A basic judo course designed primarily for men and women students with limited experience in judo. The course includes techniques of falling, self-defense, body management, disturbing opponent’s balance, throwing techniques, techniques of pins, recognition of choking and armlocks, and judo principles for self-defense and individual sport techniques.

PEA 111E SELF-DEFENSE (1 credit)
This is a self defense course designed primarily for men and women students with little experience in self defense.
**PEA 111W SCUBA (1 credit)**
This course in Beginning Scuba is designed to expose the student to the skills and equipment necessary to explore the world below the surface of the water through the use of a mask, fins, snorkel and compressed air tanks.  
Prerequisite(s)/Corequisite(s): Swimming 50 yds. using two basic strokes; basic water adjustment; underwater swim at least 15 feet; treading water for two minutes; demonstrate two surface dives

**PEA 111X BASKETBALL (1 credit)**
This course is designed to develop the fundamental skills and knowledge of the game of basketball.

**PEA 111Z BACKPACKING & CAMPING (1 credit)**
This course is designed to introduce the student to backpacking and orienteering in order to provide the students with an appreciation for the outdoor environment.

**PEA 112A SWIM CONDITIONING (1 credit)**
This course in Swim Conditioning is designed to expose the participants to the benefits and variety of swimming as a lifetime fitness exercise.  
Prerequisite(s)/Corequisite(s): Participants should have the ability to continuously swim 25 yards.

**PEA 112B ADAPTIVE AQUATICS (1 credit)**
This course provides an exercise program based on traditional yoga poses (asanas) in a continuous series of exercises. The course will concentrate on safe, effective, exercise that will develop the cardiovascular fitness, muscular strength, endurance and flexibility of the student.

**PEA 112D PILATES MATWORK (1 credit)**
This course is based on a method of exercise develop by Joseph H. Pilates. The course will concentrate on safe, effective exercise that will develop the cardiorespiratory fitness, muscular strength, endurance and flexibility of the student.

**PEA 112E JAZZ II (1 credit)**
The course is designed to build upon the techniques learned in Jazz Dance I.  
Prerequisite(s)/Corequisite(s): PEA 111R or permission of instructor

**PEA 112F ROCK CLIMBING (1 credit)**

**PEA 112G BALLET II (1 credit)**
The course builds on the work introduced in Ballet I. While still basic, there is increased complexity as the student begins to demonstrate greater ability.  
Prerequisite(s)/Corequisite(s): PEA 111Q or permission of instructor

**PEA 112H BALLET DANCE II (1 credit)**
This course is designed to introduce the student to various fundamental techniques in Ballroom social dance and to incorporate these into basic Ballroom, Latin, and Swing dances.

**PEA 112I TAI CHI FOR MOVEMENT IMPROVEMENT (1 credit)**
The course is designed to teach students various forms of Tai Chi. There will be emphasis on balance, coordination, flexibility, relaxation, and strength. It is designed for all levels of ability.

**PEA 112J MODERN DANCE 2 (1 credit)**
The course is designed to further the student's study of modern dance techniques.  
Prerequisite(s)/Corequisite(s): PEA 111P or permission of instructor. Not open to non-degree graduate students.

**PEA 112K SOCCER (1 credit)**
This course is designed to develop the fundamental skills and knowledge of the game of soccer.

**PEA 112L WALKING/JOGGING (1 credit)**
This course is designed to help the students improve personal fitness through walking and jogging.

**PEA 112M VOLLEYBALL (1 credit)**
This course is designed to develop the fundamental skills and knowledge of the game of volleyball.

**PEA 112N ZUMBA (1 credit)**
Zumba is a fitness program inspired by Latin dance. Zumba combines Latin rhythms (salsa, bachata, merengue, and chachachá) with cardiovascular exercise to create an aerobic routine that is fun and easy to follow.

**PEA 112O BALLROOM DANCE II (1 credit)**
The course is designed to teach students the fundamental skills and rules of Badminton, Tennis, Pickleball, and Table Tennis.

**PEA 112P INDOOR CYCLING (1 credit)**
This activity course is an indoor stationary cycling program. It is a high intensity, cardiovascular fitness program designed to promote lifetime fitness.

**PEA 112Q HIP HOP (1 credit)**
This course is designed to give students a beginning understanding and appreciation of hip hop dance.

**PEA 112R NET GAMES (1 credit)**
This course is designed to teach students the fundamental skills and rules of Badminton, Tennis, Pickleball, and Table Tennis.

**PEA 112S CROSS-TRAINING (1 credit)**
This course is designed to develop the technique, fitness level and knowledge base to effectively participate in cross-training activities. Individuals will be exposed to a variety of methods such as, but not limited to, plyometrics, agility training, kettlebells, and core training.

**PEA 112T ADVANCED MARTIAL ARTS (1 credit)**
The purpose of this course is to expand upon the basic techniques and philosophies presented in the UNO Martial Arts Introductory classes. The class will review the basic concepts and techniques taught in the intro classes which may be new to the student depending on the introductory class experience of the student.  
Prerequisite(s)/Corequisite(s): PEA 111G, PEA 111F, or PEA 111D; or instructor consent.

**PEA 112U QI GONG (1 credit)**
This course actively covers the scope of Qi Gong through demonstration and participation as well as through a systematic elucidation of the history and theoretical underpinnings of Qi Gong.

**PEA 112V MINDFULNESS MEDITATION (1 credit)**
This course actively covers the scope of Meditation practices, including Mindfulness, through demonstration, lecture, discussion, and participation. Various methods will be taught, as well as the history, philosophy and practices of meditation. Contemporary research will also be discussed.

**PEA 112W TAP I (1 credit)**
The course is designed to introduce the student to various fundamental techniques in tap dance and to incorporate these techniques into dance sequences.

**PEA 112X BARRE FITNESS (1 credit)**
This is a fitness course that utilizes safe barre exercises to develop muscular endurance, flexibility, and neuromotor training. The course will concentrate on integrating the use of the ballet barre, light weights, and various props.

**PEA 113A BEGINNING ICE SKATING (1 credit)**
This course is designed for beginning ice skaters. Instructional emphasis will be placed on safely learning the life-long activity of ice skating. Students will develop an understanding of the basic principles and terminology of the sport of ice skating, improve on any current ice skating skills, and develop new skills such as forward and backward skating, crossovers, turns, and stops.
PEA 1130 ADAPTED PHYSICAL EDUCATION (1 credit)
This course is designed to provide an opportunity for independent physical education activity for a disabled person.
Prerequisite(s)/Corequisite(s): A disability which does not allow participation in regularly scheduled physical education activity courses.

Physics (PHYS)

PHYS 1000 PHYSICS OF EVERYDAY LIFE (3 credits)
A conceptual course in the principles of physics and their relationship to man and his environment. Topics include the basic laws of physics and recent developments in science to their effects on man. This course is intended for students not majoring in the sciences and may be used in partial fulfillment of the natural science requirement.
Prerequisite(s)/Corequisite(s): High School algebra or equivalent.
Distribution: Natural/Physical Sci General Education laboratory

PHYS 1350 PRINCIPLES OF ASTRONOMY (3 credits)
An introductory course that satisfies divisional requirements in natural science. Topics discussed include the night sky, gravity, telescopes, atoms and radiation, the solar system, the sun and stars; and cosmology.
Prerequisite(s)/Corequisite(s): High school algebra or equivalent.
Distribution: Natural/Physical Sci General Education lecture

PHYS 1354 INTRODUCTORY ASTRONOMY LAB (1 credit)
Laboratory sessions acquaint students with basic phenomena, methods and data acquisition in astronomy. By use of the experiments, students will be able to explore and add to what has been discussed in lecture. Several night observing sessions will also be available for students to use telescopes.
Prerequisite(s)/Corequisite(s): PHYS 1350 prior or concurrent.
Distribution: Natural/Physical Sci General Education lab course

PHYS 1750 FUNDAMENTAL PHYSICS OF SOUND (4 credits)
A course designed for music and communication majors. It covers transmission of sound, wave motion, pitch, quality, sound synthesis, acoustics, resonance, interference, musical scales, string and wind instruments, recording and reproduction of sound. Three lectures and one discussion per week.
Prerequisite(s)/Corequisite(s): High school algebra or equivalent.

PHYS 1754 FUNDAMENTAL PHYSICS OF SOUND LABORATORY (1 credit)
A laboratory that accompanies PHYS 1750. The experiments are coordinated with the music-related portions of lecture course. The laboratory is designed for music majors.
Prerequisite(s)/Corequisite(s): PHYS 1750 prior or concurrent and music major or permission of instructor.

PHYS 1950 PHYSICS GATEWAY COURSE (1 credit)
Designed for first year physics majors, a one-semester introduction to concepts and tools to be encountered and used in earning a physics degree.
Prerequisite(s)/Corequisite(s): High school algebra or equivalent.

PHYS 2030 ENERGY AND FUELS (3 credits)
This one semester course focuses on energy from a macroscopic perspective. Viewpoints based on the law of physics are distinguished from unsupported opinion. Topics include: electricity production and consumption; mineral and fossil fuel resources; nuclear, solar, fossil fuel and biomass energies; pollution, conservation and recycling; extrapolation and interconnections.
Prerequisite(s)/Corequisite(s): MATH 1310, minimum of PHYS 1050.

PHYS 2040 RADIATION FUNDAMENTALS (3 credits)
This one-semester course examines the ways radiation affects our daily lives. Topics include: structure of matter and types of radiation, half-life and activity, biological effects of radiation, radiation standards and protection, uses of isotopes and radiation, nuclear wastes life-cycle, nature of risk versus benefit, dose calculations and shielding fundamentals.
Prerequisite(s)/Corequisite(s): MATH 1310, minimum of PHYS 1050.

PHYS 2110 GENERAL PHYSICS I - CALCULUS LEVEL (4 credits)
First part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Mechanics, molecular properties of matter and heat are covered in the first semester.
Prerequisite(s)/Corequisite(s): MATH 1950 (MATH 1930 for Geology majors) or permission of the instructor. High school physics or PHYS 1050 is recommended.
Distribution: Natural/Physical Sci General Education lecture

PHYS 2120 GENERAL PHYSICS-CALCULUS LEVEL (4 credits)
Second part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Wave motion, electricity, magnetism and light are considered during the second semester.
Prerequisite(s)/Corequisite(s): PHYS 2110 and MATH 1960 (MATH 1930 for Geology majors) or permission of the instructor.
PHYS 2130 MODERN PHYSICS (4 credits)
The course is composed of introductions to relativity theory and quantum theory with applications to atomic and nuclear structure. Topics include: Planck radiation law; Compton Effect; photoelectric effect; the Rutherford experiments and Bohr model of the atom; the Schrödinger electronic structure of atoms; nuclear reactions, nuclear models, radioactive decay, fission, fusion and elementary particles.
Prerequisite(s)/Corequisite(s): PHYS 2110, PHYS 2120, MATH 1950, & MATH 1960; or permission.

PHYS 2350 SPECIAL TOPICS IN ASTRONOMY: OBSERVATIONAL ASTRONOMY (2-3 credits)
This one semester course emphasizes personal study of the sky, including observing, measuring and recording celestial positions. Students will be shown how to observe and measure the Sun, the Moon, visible planets, and stars, and how to document astronomical observations. Students will be required to study outdoors on their own and will also use the department's observing facilities.
Prerequisite(s)/Corequisite(s): PHYS 1350 or instructor permission.

PHYS 3050 THE PHILOSOPHY OF SPACE EXPLORATION (3 credits)
This course deals mainly with the justification of space exploration in the face of conflicting needs. Topics to be studied include objections to the space program and responses to them, spin-off benefits, space industrialization, planetary and interstellar exploration, space colonies, search for life elsewhere, and other related theoretical issues. (Cross-listed with PHYS 8055)
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

PHYS 3150 MODERN DEVELOPMENTS IN PHYSICS (3 credits)
A resume of the most important discoveries, changes and new concepts gleaned from the last decade of research in physics. Superconductivity, lasers, masers, superfluidity, ultra large magnetic fields, space plasmas, nuclear fusion power, etc. Designed for updating physical science concepts for science majors and for science teachers. (Cross-listed with PHYS 8155)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120

PHYS 3160 CURRENT TOPICS IN SCIENCE (1-3 credits)
The subject matter of this course will generally not be presented in a standard physics course and may be of an interdisciplinary nature. The specific topics and prerequisites will be listed in the schedule. (Cross-listed with PHYS 8165)
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHYS 3250 MATHEMATICAL METHODS OF PHYSICS (3 credits)
Training in the use of mathematical techniques applicable to physics problems encountered in upper-level physics courses. Vector operators, Fourier analysis, frequently used differential equations (ordinary and partial), orthogonal functions, and matrix methods of coordinate transformation are included. Emphasis is given to solving problems from mechanics such as vectoral mechanics, oscillatory systems, wave motion, potential theory, etc.
Prerequisite(s)/Corequisite(s): MATH 1950, MATH 1960, MATH 1970 and PHYS 2160 or 2120 or permission.

PHYS 3260 COMPUTER TOOLS FOR PHYSICISTS (2 credits)
This course will introduce a wide selection of computer-powered mathematical tools for doing physics or any upper level science courses. It will introduce software packages in real and complex algebra, trigonometry, calculus I & II, linear algebra, statistics, differential equations, special functions, graphics, document preparation, and programming in the manner of a research scientist.
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1960.

PHYS 3300 INTRODUCTION TO BIOMEDICAL PHYSICS (3 credits)
This course is designed primarily for students desiring to specialize in Biomedical Physics. The course emphasizes an understanding of the fundamental principles of physics and the use of these principles in a variety of biological and medical applications with the major goal to merge physics, biology, and medicine in a unified perspective. PHYS 3300 covers various topics relating basic physics to living systems, including mechanics, fluid mechanics, thermodynamics, sound, electricity, optics, atomic physics, nuclear physics, and nanotechnology. It also describes various technologies widely used in modern medicine such as laser surgery, ultrasound imaging, X-ray, computed tomography, and magnetic resonance imaging. Each topic briefly introduces related background of physics principles as well as comprehensive overview of biological/medical application, thus (although highly recommended) very little background in physics or biology is required. This course will benefit students with interests in medicine, biology, biophysics, or medical physics.
Prerequisite(s)/Corequisite(s): PHYS 1110 is required. PHYS 2110 and PHYS 1120 or PHYS 2120 are recommended.

PHYS 3450 CLASSICAL MECHANICS (3 credits)
Statics and dynamics of particles and rigid bodies including the equations of Lagrange and Hamilton. (Cross-listed with PHYS 8455)
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 3250 or permission.

PHYS 3500 ELEMENTS OF ELECTRONICS (3 credits)
The topics covered will include basic circuit theory, principles and operation of electronic devices such as diodes, transistors and integrated circuits. Application of these devices in various electronic circuits. Both analog and digital circuitry will be studied. (Cross-listed with PHYS 8505)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 3504 EXPERIMENTAL PHYSICS I (1 credit)
A set of experiments designed to complement PHYS 3750 and PHYS 4200.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3524 EXPERIMENTAL PHYSICS II (1 credit)
A set of experiments designed to complement PHYS 3760 and PHYS 4210.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3544 EXPERIMENTAL PHYSICS III (1 credit)
A set of experiments designed to complement PHYS 3450, PHYS 3850, and PHYS 4200.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3564 EXPERIMENTAL PHYSICS IV (1 credit)
A set of experiments designed to complement PHYS 3020 and PHYS 4220.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3600 THERMODYNAMICS AND STATISTICAL PHYSICS (3 credits)
Topics include: empirical and absolute temperature, equations of state, work, heat, entropy, the four laws of thermodynamics, phase changes, thermodynamic potentials, classical and quantum statistics of an ideal gas. Applications to be included: Einstein theory of a solid, paramagnetism, blackbody radiation, and conduction electrons. (Cross-listed with PHYS 8605)
Prerequisite(s)/Corequisite(s): PHYS 2120 and MATH 1970.

PHYS 3750 ELECTRICITY AND MAGNETISM I (3 credits)
An advanced study of electrostatics and magnetostatics, including Coulomb's law, Gauss' law, the scalar potential, conductors and dielectrics, electrostatic energy, special methods, electric current, Ampère's law, the magnetic induction, Faraday's law, and the electromagnetic wave equation as obtained from Maxwell's equations, with simple examples such as transmission lines and antennas. (Cross-listed with PHYS 8755)
Prerequisite(s)/Corequisite(s): MATH 1950, MATH 1960, MATH 1970, PHYS 3250, or permission.
PHYS 3760 ELECTRICITY AND MAGNETISM II (3 credits)
A selection of more advanced topics from electromagnetic theory, including a deeper treatment of the electromagnetic wave equations derived from Maxwell's equations, extending to propagation, reflection and refraction of plane waves, waves in wave guides, and radiation. Other topics covered might be magnetism and magnetic energy, plasmas and special relativity. (Cross-listed with PHYS 8765)
Prerequisite(s)/Corequisite(s): PHYS 3750

PHYS 3800 OPTICS (3 credits)
The behavior of electromagnetic radiation as formulated in the ray, wave, and quantum models. Topics will include: reflection and refraction, vergence, matrix method, optical instruments, scalar waves, electromagnetic waves, blackbody radiation, interference, diffraction, and lasers; if time permits, fiber optics and holography will also be included. (Cross-listed with PHYS 8805)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 4200 INTRODUCTION TO QUANTUM MECHANICS (3 credits)
This course provides an introduction to the historical development of modern physics and to the Schroedinger formulation of quantum mechanics. Specific topics will include square wells potential barriers, the simple harmonic oscillator potential and the hydrogen atom. Characteristics of multi-electron atoms, including angular momentum coupling schemes, spectra and transition rules will also be included. (Cross-listed with PHYS 8206)
Prerequisite(s)/Corequisite(s): PHYS 3250 or permission.

PHYS 4210 QUANTUM THEORY (3 credits)
The matrix operator formalism is covered along with philosophical implications of this approach. The methods developed will be applied to simple harmonic oscillator and hydrogen atom potentials. Raising and lowering operators, creation-annihilation operators, and first and second order perturbation theory will be discussed. (Cross-listed with PHYS 8216)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4220 PHYSICS OF MOLECULES AND SOLIDS (3 credits)
This course covers the various types of atomic bonding found in molecules and solids. Electronic energy levels and spectra of molecules will be discussed. Topics in solid state physics will include mechanics and thermodynamics of crystals, the scattering of waves, including x-ray and neutron scattering, electron scattering and phonon and photon interactions. (Cross-listed with PHYS 8226)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4230 SPECIAL RELATIVITY AND NUCLEAR PHYSICS (3 credits)
This course includes a brief historical background of the development of relativity theory and the importance of the experiments performed in conjunction with it. Lorentz transformations and covariant formalism will be developed and applied to certain problems in mechanics and electricity and magnetism. The nuclear physics portion of the course will include the historical development of the concept of the nuclear atom. Theoretical models of nuclear structure will be discussed, along with the theory of alpha, beta and gamma decay. Fission and fusion discussed as time permits. (Cross-listed with PHYS 8236)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4300 GENERAL RELATIVITY (3 credits)
A study of general relativity theory and its leading applications. Physical motivations and conceptual foundations will be explored. Students will be guided step-by-step to mastery of the tensor analysis required by this theory. Topics covered will include the equivalence principle, recap of special relativity, tensors, curvature and geodesics, Einstein field equations, black holes, cosmology, and gravitational waves. (Cross-listed with PHYS 8306)
Prerequisite(s)/Corequisite(s): PHYS 3750 and PHYS 4230, or permission of instructor.

PHYS 4350 ASTROPHYSICS (3 credits)
This course introduces the fundamentals of astrophysics to students with a prior knowledge of physics and mathematics. A review will be given of light and telescopes, classical and quantum mechanics and special relativity. Basic laws of physics will be applied to various topics such as: the sun, nuclear fusion and particle physics, evolution and end state of stars, interstellar medium, galaxies and cosmology. (Cross-listed with PHYS 8356)
Prerequisite(s)/Corequisite(s): PHYS 2130 or 4200 and MATH 1970. Recommended: PHYS 1350.

PHYS 4400 GEOPHYSICS (3 credits)
A study of geophysical techniques used to understand the earth and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock, rheology, and plate tectonics will also be addressed. Interpretive skills will be emphasized.
Prerequisite(s)/Corequisite(s): GEOL 1170, PHYS 1110 and MATH 1950, MATH 1960 or permission of instructor.

PHYS 4550 PHYSICS IN MEDICINE (3 credits)
This course is designed primarily for students desiring to specialize in Biomedical Physics. As a part of Biomedical Physics program at the Department of Physics, the course introduces the fundamental principles of physics and the use of these principles for various biological applications. PHYS 4500 covers various topics including cells, polymers, polyelectrolytes, membranes, mesoscopic forces, self-assembly, photonics, fluid mechanics, motility, chemical kinetics, enzyme kinetics, modern experimental techniques of biophysics. Each topic connects biomolecules with their functions and relevant biological phenomena from a physics perspective. This course will benefit students with interests in biological and medical physics, as well as chemistry, biology, and biomedical engineering.
Prerequisite(s)/Corequisite(s): PHYS 1110 & PHYS 1120 is required. PHYS 52110 & PHYS 52120 and PHYS 3300 are recommended.

PHYS 4800 INTERNESHIP (1-6 credits)
Internship with agencies or corporations enabling students to gain knowledge and experience in practical applications of physics and/or environmental principles.
Prerequisite(s)/Corequisite(s): Junior or senior standing. Permission.

PHYS 4950 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4960, PHYS 8956, PHYS 8966)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

PHYS 4960 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4950, PHYS 8956, PHYS 8966)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

Political Science (PSCI)

PSCI 1000 INTRODUCTION TO POLITICAL SCIENCE (3 credits)
This course introduces students to political ideas, behaviors, processes, institutions, and issues on a national and global level.
Distribution: Global Diversity General Education course and Social Science General Education course
PSCI 1100  INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT (3 credits)
This course introduces students to the foundational principles, institutions, processes, and policies of national government in the United States.
Distribution: Social Science General Education course.

PSCI 2000  INTRODUCTION TO POLITICAL ANALYSIS (3 credits)
This course introduces students to how political scientists conduct research in preparation for upper division political science courses. Using experiential learning, students will be introduced to the use of the library, data, computers and statistics to answer research questions.
Prerequisite(s)/Corequisite(s): PSCI 1100 or PSCI 1000.

PSCI 2110  INTRODUCTION TO PUBLIC POLICY (3 credits)
An introduction to the formation and evaluation of public policy, with particular focus on the stages of public policy development.
Distribution: Social Science General Education course.

PSCI 2120  INTRODUCTION TO LEADERSHIP (3 credits)
This course introduces students to civic leadership in a public setting, including theories of leadership, models of leadership, cases of success and failure, and the inherent tensions among democracy, leadership, and administration.
Distribution: Social Science General Education course.

PSCI 2150  CAREERS IN LAW AND POLITICS (3 credits)
This course introduces students to a diversity of career paths in both the public and private sector that are available in the fields of law and politics, and the motivations, qualifications, and expertise necessary for each.
Prerequisite(s)/Corequisite(s): PSCI 1000 or PSCI 1100 is recommended. Not open to non-degree graduate students.

PSCI 2180  INTRODUCTION TO LAW (3 credits)
This course introduces students to the foundations, principles, functions, institutions, processes, issues, and fields of law with a special emphasis on the American political and legal systems.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course.

PSCI 2210  INTRODUCTION TO INTERNATIONAL RELATIONS (3 credits)
This course introduces students to historical and contemporary questions and major theoretical approaches to world affairs through examination of the international system in terms of the economic, military, and political forces between states, international organizations, and transnational actors.
Distribution: Social Science General Education course and Global Diversity General Education course.

PSCI 2310  INTRODUCTION TO POLITICAL THEORY (3 credits)
This course introduces students to the nature and scope of politics, the foundations of political thought, and competing traditions of political theory through the ideas of major political philosophers, the interpretation of their ideas, and the possible application of their ideas today.
Distribution: Humanities and Fine Arts General Education course.

PSCI 2500  INTRODUCTION TO COMPARATIVE POLITICS (3 credits)
This course introduces students to the fundamental concepts and theoretical approaches used to study political institutions, processes, and public policies in different country settings. This course also illustrates the rich diversity of political life and the importance of global political and economic change.
Distribution: Social Science General Education course and Global Diversity General Education course.

PSCI 2560  MODERN FRANCE: 1789 TO THE PRESENT (3 credits)
A study of the role of France in the development of modern democracy, and her successes and failures in the practice of that theory. (This course fulfills the department's comparative politics requirement). (Cross-listed with HIST 2560)

PSCI 2660  THE PEOPLES OF EAST CENTRAL EUROPE SINCE 1815 (3 credits)
A survey of social, political and cultural developments with emphasis upon Poland, the Czech Republic, Slovakia, Hungary and the Balkan states. Principal themes include 19th century movements for national liberation and social reform, the struggle for national unity and independence during World War I, problems and achievements of the independent East European states to 1938, and Second World War and Nazi occupation, the era of Communist rule, and post-1989 efforts to establish democracy and a market economy. (This course fulfills the Political Science department's comparative politics requirement). (Cross-listed with HIST 2660)

PSCI 3000  QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE (3 credits)
This course introduces students to the techniques that political scientists use to answer research questions with quantitative data, as well as issues of research design, hypothesis formation, and causation. The course emphasizes the methods used to collect, analyze, and extract information from data using statistical computer software. (Cross-listed with PSCI 8005).
Prerequisite(s)/Corequisite(s): PSCI 2000 or permission of instructor.

PSCI 3010  URBAN POLITICS (3 credits)
This course introduces students to the development, powers, forms of government, and functions of cities and their suburbs as well as the problems faced by elected officials, businesses, and community leaders, and citizens in the urban setting. (Cross-listed with PSCI 8015)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3040  GOVERNMENT AND POLITICS OF NEBRASKA (3 credits)
This course introduces students to the development, structures, functions and public policies of the government of the state of Nebraska. (Cross-listed with PSCI 8045)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3050  STATE GOVERNMENT AND POLITICS (3 credits)
This course introduces students to the development, structures, functions and public policies of states. (Cross-listed with PSCI 8055)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3100  LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, WGST 3100, WGST 8105)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course.

PSCI 3120  THE BLACK EXPERIENCE IN AMERICAN POLITICS (3 credits)
A survey of the African-American's quest for liberation within and outside the orthodox political system of the United States with a focus on the institutional and structural arrangements which have denied liberation and prescriptions for meaningful change. (Cross-listed with BLST 3120)
Prerequisite(s)/Corequisite(s): BLST 1000 or junior.

PSCI 3130  WOMEN AND POLITICS (3 credits)
This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 8135, WGST 3130, WGST 8135)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course.
PSCI 3140 LATINO-/A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, LLS 3140, LLS 8145)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U. Diversity General Education course

PSCI 3150 ASIAN PACIFIC AMERICANS AND THE NEW MINORITY POLITICS (3 credits)
This course will be devoted to a broad discussion about the emergence of Asian Pacific Americans by birth and immigration, the fastest growing minority in the U.S., as a significant factor in American politics. (This course fulfills the department's American politics requirement).
Prerequisite(s)/Corequisite(s): Junior standing or by professor's permission.

PSCI 3160 POLITICAL PARTIES (3 credits)
This course introduces students to the origin, development, structure, and functions of political parties in the United States as political organizations, coalitions of voters, and governing coalitions that seek to hold office and influence public policy. (Cross-listed with PSCI 8165)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3170 INTEREST GROUPS (3 credits)
This course introduces students to the theories, formation, organization, and activities of interest groups and their impact on public policy, particularly through their role in campaigns and elections and lobbying. (Cross-listed with PSCI 8175)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3180 CAMPAIGNS AND ELECTIONS (3 credits)
This course introduces students to the evolution and modern application of campaigns and elections in the United States through examination of campaign management and campaign strategy in congressional and presidential elections. (Cross-listed with PSCI 8185)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3220 INTERNATIONAL ORGANIZATIONS (3 credits)
This course introduces students to the history, principles, structures, and processes developed to organize and legitimize peaceful reconciliation of the differences of nation-states and to advance their mutual interests in the contemporary global political and economic system. (Cross-listed with PSCI 8225)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3230 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 8235, WGST 3230, WGST 8235)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.
Distribution: Global Diversity General Education course

PSCI 3240 THE POLITICS AND PRACTICE OF HUMAN RIGHTS (3 credits)
This course introduces students to human rights issues across the globe and explores the theoretical foundations of human rights as well as human rights institutions and transitional justice. (Cross-listed with PSCI 8245)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of the instructor.

PSCI 3250 GLOBAL SECURITY ISSUES (3 credits)
This course introduces students to issues of national and international security that cross boundaries and threaten all countries including issues such as climate change, environmental deterioration, population and demographics, gender issues, disease and public health, the media, asymmetrical warfare, drugs/organized crime, and cyberthreats. (Cross-listed with PSCI 8255)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 3260 UNITED STATES FOREIGN POLICY (3 credits)
This course introduces students to the analysis of foreign and defense policy processes in the United States, including the role of the President, Congress, Departments of State and Defense, the intelligence community, and other actors/factors affecting policy formulation and implementation. (Cross-listed with PSCI 8265)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3340 AMERICAN POLITICAL THOUGHT (3 credits)
This course introduces students to the ideals, ideologies, identities, and institutions of American political thought from the country's origins to the present. Topics to be covered may include the political thought of the early American settlers and of the founding generation, the debates over the creation and implementation of the Constitution, the 19th century arguments over slavery, the rise of progressivism, the New Deal and its critics, and contemporary American conservatism and liberalism. (Cross-listed with PSCI 8345)
Prerequisite(s)/Corequisite(s): PSCI 1100 or PSCI 2310 or junior standing or permission of instructor.

PSCI 3500 EUROPEAN POLITICS (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Europe, including the European Union. (Cross-listed with PSCI 8505)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3560 GOVERNMENT AND POLITICS OF EAST CENTRAL EUROPE (3 credits)
A comparative analysis of the governmental and political processes operating in East Central Europe. (This course fulfills the department's comparative politics requirement).

PSCI 3580 GOVERNMENT AND POLITICS OF RUSSIA AND THE POST-SOVIET STATES (3 credits)
This course introduces students to the political cultures, institutions, processes, and public policies of Russia and the states of the former Soviet Union. (Cross-listed with PSCI 8585)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3640 GOVERNMENT AND POLITICS OF CHINA AND EAST ASIA (3 credits)
This course introduces students to the political cultures, institutions, processes, and other characteristics of China and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 8645)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with PSCI 8685, LLS 3680, LLS 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course
PSCI 3700 GOVERNMENT AND POLITICS OF THE MIDDLE EAST (3 credits)
This course introduces students to government and politics in the contemporary Middle East, including considerations of state formation, authoritarianism and democratization, state-society relations, religion, culture, gender, and economy. (Cross-listed with PSCI 8705)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3920 SPECIAL TOPICS IN POLITICAL SCIENCE (3 credits)
This course introduces students to a specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

PSCI 4030 THE PRESIDENCY (3 credits)
This course introduces students to the development and modern application of presidential leadership through examination of presidential selection, presidential decision-making, the relationship of the presidency with other governmental and non-governmental actors, and the role of the presidency in making public policy. (Cross-listed with PSCI 8036)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4040 CONGRESS AND THE LEGISLATIVE PROCESS (3 credits)
This course introduces students to the development of the Congress and modern application of the legislative process through examination of congressional elections, congressional leadership, congressional decision-making, legislative rules and procedures, the relationship of the Congress with other governmental and non-governmental actors, and the role of the Congress in making public policy. (Cross-listed with PSCI 8046)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4050 THE JUDICIAL PROCESS (3 credits)
This course introduces students to the administration of law in federal and state courts with respect to the organization of the courts, judicial selection, judicial powers, judicial decision-making, judicial policy-making, the bar, and reform movements in the pursuit of justice. (Cross-listed with PSCI 8056)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4110 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 8116, PSYC 4110, PSYC 8116)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4120 PUBLIC OPINION AND POLLING (3 credits)
This course introduces students to the origins, nature, measurement, and consequences of public opinion on policymaking. (Cross-listed with PSCI 8126)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of the instructor.

PSCI 4140 CONSTITUTIONAL LAW: CIVIL RIGHTS (3 credits)
This course introduces students to the history, principles, and judicial interpretation of key constitutional provisions and federal statutes regarding civil rights in the United States. (Cross-listed with PSCI 8146)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4150 LAW AND THE COURTS: MOCK TRIAL (3 credits)
This course introduces students to the American legal system, including its courtroom aspects, through preparation of and participation in a mock trial case.
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4160 LAW AND THE COURTS: MOCK TRIAL PRACTICUM (1-3 credits)
This course introduces students to the American legal system through participation in mock trial competition.
Prerequisite(s)/Corequisite(s): PSCI 4150 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4170 CONSTITUTIONAL LAW: FOUNDATIONS (3 credits)
This course introduces students to the principles, design and operation of the American constitutional system with emphasis on analysis of the Declaration of Independence, the Articles of Confederation, the proceedings of the Constitutional Convention, and the Federalist Papers. (Cross-listed with PSCI 8176)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4180 CONSTITUTIONAL LAW: THE FEDERAL SYSTEM (3 credits)
This course introduces students to American constitutional law as it relates to issues of federalism, the relation of the nation and the states, and separation of powers, the relation of the three branches of the national government. (Cross-listed with PSCI 8186)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4190 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3 credits)
This course introduces students to the philosophy, history, and development of the personal liberties guaranteed by the Constitution including freedom of speech, religion, assembly, petition, and the right of privacy, primarily through examination of Supreme Court decisions. (Cross-listed with PSCI 8196)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4200 INTERNATIONAL RELATIONS OF EAST ASIA (3 credits)
This course introduces students to the international politics of East Asia with an emphasis on the contemporary relations among major East Asian states (China, Japan, the Korean peninsula) and the United States. (Cross-listed with PSCI 8206)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 4210 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3 credits)
This course focuses on the international politics of the Middle East region, specifically looking at conditions for peace and causes of war. It examines how the international system, domestic politics, ideologies, and leaders influence international politics in the Middle East. (Cross-listed with PSCI 8216)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 4240 INTERNATIONAL CONFLICT RESOLUTION (3 credits)
This course introduces students to different approaches to peace, their basic assumptions, and their application to current conflicts. (Cross-listed with PSCI 8246)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4250 INTELLIGENCE AND NATIONAL SECURITY (3 credits)
This course introduces students to the United States intelligence services, and their relation to broader U.S. national security policy. (Cross-listed with PSCI 8256)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.
PSCI 4260 INTERNATIONAL LAW (3 credits)
The course introduces students to the general principles of international law, including the key actors, the creation and sources of international law, the interpretation of international law by courts and tribunals, and its enforcement. (Cross-listed with PSCI 8266)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with ENVN 4270, PSCI 8276)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department's international politics requirement). (Cross-listed with PSCI 8286, LLS 4280, LLS 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of the instructor.

PSCI 4290 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 8296, CACT 8306)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4310 CLASSICAL POLITICAL THEORY (3 credits)
This course introduces students to key works representative of premodern political philosophy. Authors examined may include Plato, Aristotle, Xenophon, Cicero, Augustine, and Aquinas. (Cross-listed with PSCI 8316)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4320 EARLY MODERN POLITICAL THEORY (3 credits)
This course introduces students to key works of the 16th through mid-18th centuries. Authors examined may include Machiavelli, Hobbes, Hume, Smith and Montesquieu. (Cross-listed with PSCI 8326)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4330 LATE MODERN POLITICAL THEORY (3 credits)
This course introduces students to key texts of the mid-18th through 19th centuries. Authors to be examined may include Rousseau, Burke, Mill, Tocqueville, Marx, and Nietzsche. (Cross-listed with PSCI 8336)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4340 CONTEMPORARY POLITICAL THEORY (3 credits)
This course introduces students to leading works of contemporary political philosophy including Marx, Spencer, Dahl, Rawls, feminism, and rational choice. The theories, their interrelationships, the theorists, and the manifestations of these works will be discussed and analyzed. (Cross-listed with PSCI 8346)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4350 DEMOCRACY (3 credits)
A basic study of theory, practice and practitioners of political democracy, its roots, development, present application and problems and future. (This course fulfills the department's comparative politics requirement). (Cross-listed with PSCI 8356)
Prerequisite(s)/Corequisite(s): Junior

PSCI 4380 TOPICS IN POLITICAL THEORY (3 credits)
This course will conduct an in-depth exploration of an important issue, movement, thinker, or work in political theory. The particular subject matter will vary and will be chosen by the instructor.
Prerequisite(s)/Corequisite(s): Junior, or permission of instructor. Junior, or permission of instructor. Not open to non-degree graduate students.

PSCI 4500 GOVERNMENT AND POLITICS OF GREAT BRITAIN (3 credits)
A comprehensive study of British politics and government. Emphasis will be focused on the formal institutions and informal customs and practices of the British political system. (This course satisfies the department's comparative politics requirement). (Cross-listed with PSCI 8506)
Prerequisite(s)/Corequisite(s): Junior

PSCI 4520 POLITICS OF FRANCE (3 credits)
This course introduces students to the political heritage of France, contemporary political institutions and problems, and political and policy responses to these problems. (Cross-listed with PSCI 8526)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 4620 ISLAM AND POLITICS (3 credits)
This course introduces students to the interaction between religion and politics in the Muslim world, covering various political ideologies in the Muslim world and different experiences of Muslim-majority countries such as Saudi Arabia, Pakistan, Iran, Turkey, Indonesia, and Egypt. It will also analyze mainstream and radical transnational Islamic movements. (Cross-listed with PSCI 8626)
Prerequisite(s)/Corequisite(s): PSCI 2210 or 2500 is recommended.

Distribution: Global Diversity General Education course

PSCI 4680 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with JMC 4820, JMC 8826, PSCI 8826)

PSCI 4900 READINGS IN POLITICAL SCIENCE (1-3 credits)
This course provides students an opportunity to study an advanced and specialized subject matter in the field of political science not covered in existing courses. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PSCI 4910 POLITICAL SCIENCE INTERNSHIP (1-6 credits)
This course offers students an opportunity to experience the resolution of public issues through direct involvement in career-oriented policy organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PSCI 4920 ADVANCED SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with PSCI 8926)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.
Psychology (PSYC)

PSYC 1010 INTRODUCTION TO PSYCHOLOGY I (3 credits)
An overview of scientific understanding of the human mind and behavior. Theories and empirical tests of explanations for how we think, feel, and act. This course is a prerequisite to all subsequent, more specialized courses in psychology.

Distribution: Social Science General Education course

PSYC 1020 INTRODUCTION TO PSYCHOLOGY II (4 credits)
Provides students who have completed a course in introductory psychology with an opportunity for in-depth study of selected areas of psychology along with related laboratory experiences. Research methodology is emphasized.

Prerequisite(s)/Corequisite(s): PSYC 1010. The proposed course is designed to build upon the content knowledge gained in a first introductory psychology course.

PSYC 1024 LABORATORY: INTRODUCTION TO PSYCHOLOGY II (1 credit)
Laboratory work coordinated with PSYC 1020 including experimentation with human and animal subjects.

Prerequisite(s)/Corequisite(s): PSYC 1020 (may be taken concurrently) or permission of instructor.

PSYC 2000 CAREERS IN PSYCHOLOGY (1 credit)
A course that introduces the student to the different paths within psychology, including graduate school and employment. Required of psychology majors. This is a one (1) hour credit course. The grades for this course will be C/NC.

Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 2100 LEARNING ASSISTANT SEMINAR (0 credits)
This course focuses on effective methods of college teaching and instructional strategies. Students participate in activities design to increase instructional strategies. Students participate in activities design to increase

Prerequisite(s)/Corequisite(s): PSYC 1010 and permission of instructor. Not open to non-degree graduate students.

PSYC 2500 LIFESPAN PSYCHOLOGY (3 credits)
A life span approach to development focusing on the biological, cognitive, and social emotional changes in development occurring from infancy through old age. The impact of these changes on the individual's behavior and interactions with society will be emphasized.

Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3130 STATISTICS FOR THE BEHAVIORAL SCIENCES (3 credits)
An introduction to statistics with particular emphasis on models and hypothesis testing covering analysis of variance, chi-square, F and t-tests, first-order regression and correlation.

Prerequisite(s)/Corequisite(s): MATH 1310.

PSYC 3140 METHODS OF PSYCHOLOGICAL INQUIRY (3 credits)
An introduction to the methods by which psychologists attempt to create, disseminate and integrate knowledge about behavior.

Prerequisite(s)/Corequisite(s): PSYC 3130, ENGL 1160, majoring in Psychology or Neuroscience or permission of instructor.

PSYC 3410 CLINICAL PSYCHOLOGY (3 credits)
A broad survey of problems and practices in the diagnosis and treatment of emotional and behavioral disorders.

Prerequisite(s)/Corequisite(s): PSYC 1010.
PSYC 4090 COGNITIVE NEUROSCIENCE (3 credits)
This course is concerned with the relationship between cognition and the brain. Special attention will be devoted to the techniques used to study specific relationships and the theoretical perspectives that have guided research in the area. Topics for the course include history, neural mechanisms, methods, lateralization of function, sensation and perception, memory, language, action and movement, executive processes, computer models, and the social brain.
Prerequisite(s)/Corequisite(s): PSYC 1020. Not open to non-degree graduate students.

PSYC 4110 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSCI 8116, PSYC 8116)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSYC 4210 SENSATION AND PERCEPTION (3 credits)
Reading and discussing psychophysical methods, sensory physiology, phenomenology of various sensory systems and theories of the perceptual process.
Prerequisite(s)/Corequisite(s): PSYC 1020.

PSYC 4214 LABORATORY IN PSYCHOLOGY: SENSATION AND PERCEPTION (3 credits)
Laboratory work coordinated with PSYC 4210 which is designed to increase comprehension of psychology as a laboratory science in general and the experimental study of the perceptual process in particular. Emphasis will be placed on the development of skills involved in the design of experiments, data collection, data analysis, reasoning about experimental results and scientific report writing.
Prerequisite(s)/Corequisite(s): PSYC 3140 and PSYC 4210 or PSYC 4070.

PSYC 4230 BEHAVIORAL NEUROSCIENCE (3 credits)
A comprehensive study of the relationship of the nervous and other organ systems to behavior. Research on both human and other animal species is considered.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4234 LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE (3 credits)
Laboratory course designed to introduce the students to the techniques and procedures of physiological psychology. Scientific report writing, problems of research design and data analysis also will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 3140 and PSYC 4230.

PSYC 4250 LIMITS OF CONSCIOUSNESS (3 credits)
A course focusing on the scientific study of the psychology, neurology and philosophy of mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 8256, PHIL 3250)
Prerequisite(s)/Corequisite(s): PSYC 1010; or 6 hours in Philosophy.

PSYC 4270 ANIMAL BEHAVIOR (3 credits)
Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. Lecture only. (Cross-listed with PSYC 8276, BIOL 4270, BIOL 8276)
Prerequisite(s)/Corequisite(s): PSYC 1010 or permission of instructor, junior-senior.

PSYC 4280 ANIMAL BEHAVIOR LABORATORY (3 credits)
Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent study will be conducted. (Cross-listed with PSYC 8286, BIOL 4280, BIOL 8286)
Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273

PSYC 4310 PSYCHOLOGICAL AND EDUCATIONAL TST (3 credits)
The use of standardized tests in psychology and education is considered with special regard to their construction, reliability and validity. (Cross-listed with PSYC 8316)
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior/senior.

PSYC 4320 HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provided students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with PSYC 8326, BIOL 4320, BIOL 8326)
Prerequisite(s)/Corequisite(s): PSYC 1010 and either BIOL 1020 or 1750. Not open to non-degree graduate students.

PSYC 4440 ABNORMAL PSYCHOLOGY (3 credits)
A course designed to examine the aberrant behavior of individuals. Symptoms, dynamics, therapy and prognosis of syndromes are considered. (Cross-listed with PSYC 8446)
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4450 PERSONALITY THEORIES (3 credits)
A comparative approach to the understanding and appreciation of personality theories considering history, assertions, applications, validations and prospects. (Cross-listed with PSYC 8456)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4460 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, GERO 8466).
Prerequisite(s)/Corequisite(s): Junior or Senior.

PSYC 4470 MENTAL HEALTH AND AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with PSYC 8476, GERO 4470, GERO 8476)
Prerequisite(s)/Corequisite(s): Junior or senior

PSYC 4510 PSYCHOLOGY IN THE SCHOOLS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with PSYC 8526)
Prerequisite(s)/Corequisite(s): Senior or graduate or permission of instructor.
PSYC 4530 CULTURAL PSYCHOLOGY (3 credits)
This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about "culture" can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals' psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8536, CACT 8106).
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4544 LABORATORY IN DEVELOPMENTAL PSYCHOLOGY (3 credits)
Laboratory work coordinated with PSYC 3520 and PSYC 3540 emphasizing the methods of research and statistical analyses used in the study of human development. Emphasis will be placed on the development of skills involved in the design of experiments, data collection, data analysis, reasoning about results, and scientific report writing.
Prerequisite(s)/Corequisite(s): PSYC 3140, PSYC 3520, and PSYC 3540 or permission of instructor. Not open to non-degree graduate students.

PSYC 4560 FORENSIC PSYCHOLOGY (3 credits)
The roles and functions of forensic psychologists, as participants in the legal system, are studied, with special emphasis on the relevance of theories and principles from social psychology. Psychological concepts, theories, data, research methods and applications to varied substantive topics are examined (e.g., forensic careers, police psychology, violence, criminal profiling, sociopathy and psychopathy, risk assessment, expert testimony, and corrections).
Prerequisite(s)/Corequisite(s): PSYC 1010 or SOC 1010 and PSYC 3450 or SOC 3450.

PSYC 4570 BEHAVIOR ANALYSIS AND INTERVENTIONS (3 credits)
Introduction to the experimental methodology, rationale and research literature of changing behavior through behavior modification techniques. Particular attention will be paid to methodological concerns regarding single subject design, ethical considerations and ramifications of behavioral intervention with children and youth. (Cross-listed with PSYC 8576)
Prerequisite(s)/Corequisite(s): PSYC 1010, PSYC 4020 and permission of instructor.

PSYC 4590 PSYCHOLOGY OF EXCEPTIONAL CHILDREN (3 credits)
A study of exceptional children and adolescents with sensory or motor impairments, intellectual retardations or superiorities, talented or gifted abilities, language or speech discrepancies, emotional or behavioral maladjustments, social or cultural differences, or major specific learning disabilities.
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior/senior.

PSYC 4610 HUMAN FACTORS ENGINEERING (3 credits)
Based on knowledge of human strengths and limitations, this course will provide an overview of how basic principles of human factors can be utilized to reduce error, increase productivity, and enhance safety, comfort and health. Applications to real-world equipment design, task design, environmental design, selection and training will be included. (Cross-listed with PSYC 8616)
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4630 ORGANIZATIONAL PSYCHOLOGY (3 credits)
This is a survey course which will cover the major concepts, theories and empirical research related to organizational psychology. Specific topics will include: work motivation, leadership, decision making and job satisfaction as well as more recent trends such as cultural diversity, work teams, work-family and quality issues. (Cross-listed with PSYC 8636)
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4640 PERSONNEL PSYCHOLOGY (3 credits)
A survey of psychological principles, theories and research related to personnel issues. Course includes discussion of personnel selection, performance appraisal, recruitment, training and health and safety. (Cross-listed with PSYC 8646)
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4650 CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8656, CACT 8506)

PSYC 4800 LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICES (3 credits)
This course presents legal principles relevant to all psychological specialties, with special reference to mental health services. Ethical reasoning and the APA ethics code are considered. (Cross-listed with PSYC 8806)
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior standing or approval of the instructor.

PSYC 4920 SPECIAL TOPICS IN PSYCHOLOGY (1-3 credits)
A discussion of specific topics which will be announced whenever the course is offered. May be repeated as topics change, but six hours is the maximum that may be applied toward a psychology major.
Prerequisite(s)/Corequisite(s): Variable according to topic.

PSYC 4960 INDEPENDENT STUDY IN PSYCHOLOGY (1-6 credits)
A faculty-supervised special research project and or directed readings involving empirical research and appropriate oral and written reports arranged individually with students on topics not explored in other offerings. If students do not complete the work during the semester they enroll in the course, they must complete all the work within an academic year of their enrollment.
Prerequisite(s)/Corequisite(s): A minimum of 10 hours of Psychology including PSYC 1010 & PSYC 1020 and 1 additional course. Completion of the Independent Study Form and permission from the Undergraduate Program Committee (UPC).

PSYC 4990 SENIOR THESIS (3-6 credits)
The course is designed to provide the student with the opportunity to initiate, design, analyze, and write-up an original experimental study in an area of interest to the student. Although the course is intended primarily for students who need to satisfy the requirement of a second experimental/laboratory course in the Bachelor of Science degree program, all students interested in this course will be considered on an individual basis.
Prerequisite(s)/Corequisite(s): PSYC 3140 with a ‘B’ or better; and an average in major; signed statement from faculty member of Psychology Department who is willing to serve as advisor; written approval from chair of undergraduate program committee. Must be a 2nd semester junior or later.

Public Administration (PA)
PA 1000 INTRO TO AVIATION & AEROSPACE (3 credits)
This course provides a broad understanding of all aspects of the air transportation and aerospace industries. Lectures will cover what has happened in the industry to date, with emphasis on present and future developments in air transportation. The course will include the impact the airline industry is making on airports and other segments of aviation and aerospace.
**PA 1010 INTRODUCTION TO URBAN STUDIES (3 credits)**
Introduction to history, concepts, development and literature of urbanism. An interdisciplinary examination of issues confronting contemporary urban society and how various academic disciplines relate to those issues. (Cross-listed with UBNS 1010).

**PA 2000 LEADERSHIP & ADMINISTRATION (3 credits)**
This course is designed to offer students the opportunity to increase their leadership skills by providing them with a series of competency-based seminars/workshops on the characteristics and tasks in which leaders are engaged.

**PA 2020 AIRLINE OPERATIONS (3 credits)**
This course provides students the opportunity to discuss operational issues and examples of techniques used in airlines and corporate flight organizations. Aviation industry representatives will make presentations in selected classes. Topics will include deregulation, airports, airline operations, scheduling, airline aircraft procurement, capability and congestion, economic impact, revenue passenger miles and seat capacity.

**PA 2050 INTRODUCTION TO AIRPORT ADMINISTRATION (3 credits)**
This course examines airport operations, safety and security, various administrative roles within the airport community, and the impact airports can have on local and regional economies. Students will explore the unique role public airports play as an interface between the traveling public and private airlines.

**PA 2170 INTRODUCTION TO PUBLIC ADMINISTRATION (3 credits)**
A study of governmental administration and its involvement in the social and economic problems of American democracy. It includes but is not limited to the organizational, financial, personnel and planning problems and administrative relations with legislatures, political parties, chief executives and the courts.

**PA 3000 APPLIED STATISTICS AND DATA PROCESSING IN THE PUBLIC SECTOR (3 credits)**
A course in the basic statistics of social work. The emphasis is on exploration of data processing and techniques as they relate to statistical analysis and on understanding the proper application of statistics. (Cross-listed with CRCJ 3000, SOWK 3000).

**Prerequisite(s)/Corequisite(s):** MATH 1310 or permission of the School.

**PA 3090 AIRPORT ADMINISTRATION AND PLANNING (3 credits)**
This course examines airports as individual organizations and as components in the larger air transport system. Students will explore various aspects of airport planning, design, and development. Special attention is given to the issue of airport and system capacity and the role that airports play in the provision of air travel services.

**Prerequisite(s)/Corequisite(s):** AVN 2050

**PA 3180 ELEMENTS OF PUBLIC MANAGEMENT (3 credits)**
This course is designed to provide a general and summary introduction of key aspects of public management. It will emphasize field and simulated problems as well as text and specialized readings.

**Prerequisite(s)/Corequisite(s):** PA 2170

**PA 3200 PROGRAM PLANNING AND EVALUATION (3 credits)**
Research, program design, and evaluation are critical functions in the non-profit sector. Leaders and managers of non-profit organizations are continually challenged to monitor community needs, select and develop services and programs that respond to those needs, and to evaluate and modify the services they provide. This recurrent process is the foundation of quality non-profit programs. This course prepares students to undertake the research, program design and evaluation process employed in non-profit organizations.

**Prerequisite(s)/Corequisite(s):** PA 3000. Not open to non-degree graduate students.

**PA 3500 NONPROFIT ORGANIZATIONS AND MANAGEMENT (3 credits)**
Introduces students to the nonprofit sector, including several aspects of nonprofit management. Intended for any student who wishes to understand nonprofit organizations and/or who may wish to work in the nonprofit sector. Required for all American Humanities students. Service learning in a nonprofit agency is an important aspect of the class.

**Prerequisite(s)/Corequisite(s):** Junior standing or permission of instructor.

**PA 3600 PERSONNEL AND VOLUNTEER MANAGEMENT IN NONPROFITS (3 credits)**
This is a required course for students in the Bachelor of General Studies Nonprofit Administration concentration. It examines the managerial practices and problems in recruiting, hiring and other staffing issues within nonprofit organizations. It also addresses issues of personnel leadership, accountability, and performance associated with working with volunteers.

**Prerequisite(s)/Corequisite(s):** PA 2170 & PA 3500 or permission from the school. Not open to non-degree graduate students.

**PA 3700 FINANCIAL MANAGEMENT FOR NONPROFITS (3 credits)**
This course will prepare students to oversee the financial management of nonprofit organizations by focusing on four areas: key financial concepts, financial statements presentation, accounting and reporting, and operational issues - emphasizing the links between accounting staff, program staff, fundraising staff and board of directors.

**Prerequisite(s)/Corequisite(s):** PA 2170 and PA 3500. Not open to non-degree graduate students.

**PA 4050 GENERAL AVIATION OPERATIONS (3 credits)**
Organization and operation of general aviation facilities to include administration, aircraft maintenance considerations, flight line operations, and decision making.

**Prerequisite(s)/Corequisite(s):** AVN 1000

**PA 4100 MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)**
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with PA 8106).

**PA 4200 COMMUNITY ORGANIZING & SOCIAL CHANGE (3 credits)**
This course will focus on various theories and applications of organizing communities and neighborhoods to effect change. Of particular interest is the role of engaging citizens in improving their communities. (Cross-listed with PA 8206).

**Prerequisite(s)/Corequisite(s):** Permission of instructor. Not open to non-degree graduate students.

**PA 4206 INTRODUCTION TO HEALTH CARE SYSTEMS (3 credits)**
This course is designed to familiarize students with the structure of the health services system in the United States. It addresses quality, access and cost of health services delivery, personnel and funding resources for providing health care, financing health care, traditional and alternative health services delivery settings, and forces that shape the current and future health care sector.

**PA 4300 SEMINAR IN PUBLIC POLICY (3 credits)**
A study of the economic, social and political determinants of public policy in terms of administration and decision-making and of measuring and evaluating policy impact. The course includes both study of general policy processes, and, to a lesser extent, particular policy topics.

**Prerequisite(s)/Corequisite(s):** PA 2170

**PA 4390 PUBLIC BUDGETING (3 credits)**
A study of the processes, procedures and politics of public sector budgeting.
PA 4410 PUBLIC PERSONNEL MANAGEMENT (3 credits)
A study of the personnel process in American governmental administration. The processes and problems of recruiting, structuring and operating public bureaucracies are examined as well as problems in personnel leadership, neutrality, accountability and performance.
Prerequisite(s)/Corequisite(s): PA 2170, junior.

PA 4430 MUNICIPAL ADMINISTRATION (3 credits)
The administrative structure and administrative practices of American cities covering such areas as finance, personnel, public works, public safety, health, utilities and planning. (Cross-listed with PA 8436).
Prerequisite(s)/Corequisite(s): PA 2170, junior.

PA 4440 ORGANIZATIONAL DEVELOPMENT AND CHANGE (3 credits)
The ability to lead and manage organizational change is a required competency for individuals working public sector related fields. Civic leaders, public administrators and non-profit managers must diagnose and respond to the dynamic and interconnected environment in which they work. This course prepares students to conduct the forms of analysis that organizational development and change requires.

PA 4490 PUBLIC SECTOR LABOR RELATIONS (3 credits)
This course deals with the origin, characteristics and implications of public sector employee unions and how they relate to public sector personnel practices. (Cross-listed with PA 8496).
Prerequisite(s)/Corequisite(s): Permission of advisor.

PA 4500 NONPROFIT FUNDRAISING (3 credits)
Introduces students to issues and techniques for resource development within nonprofit organizations, including fundraising, program planning and budgeting, and marketing. Intended for students who wish to understand resource development within nonprofit organizations. Required for all American Humanities students. Service learning with a nonprofit agency is an important aspect of the class.
Prerequisite(s)/Corequisite(s): PA 2170 and PA 3500

PA 4510 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, GERO 8516 and PA 8516).
Prerequisite(s)/Corequisite(s): PA 2170

PA 4530 STRATEGIC PLANNING (3 credits)
The ability to lead and manage a strategic planning process is a required competency for individuals working public sector related fields. Civic leaders, public administrators and non-profit managers must diagnose and respond to the dynamic and interconnected environment in which they work. This course prepares students to conduct the forms of analysis that strategic planning requires.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 4560 INTERGOVERNMENTAL MANAGEMENT (3 credits)
This course is for students wanting to improve their knowledge and understanding of intergovernmental relations as they impact policy and administration in the United States. (Cross-listed with PA 8566).

PA 4590 TECHNIQUES TOPICS IN NONPROFIT MANAGEMENT (1-3 credits)
A variable content course emphasizing nonprofit management techniques and topics. Topics include nonprofit leadership, board executive staff roles and relationships, personnel and volunteer management, financial management, proposal and grant writing community resources, special events planning and administration, needs assessments and legal ethical aspects. (Cross-listed with PA 8596).
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

PA 4600 ADMINISTRATIVE LAW (3 credits)
A review of the principal elements of the role and character of legal processes in government administration, including delegation of powers, legal forms of administrative action, liability of government units and officers and judicial review of administrative action.
Prerequisite(s)/Corequisite(s): PA 2170 and permission of instructor

PA 4610 MUNICIPAL LAW (3 credits)
This course is directed at both undergraduates and graduates who wish to have some exposure to the legal issues which affect public administrators. At the conclusion of the course, each student should have a basic understanding of municipal law which defines the parameters within which a public administrator must function, as well as other laws or legal concepts which will affect them on a day-to-day basis. Upon completion of the course, the student should be able to identify potential legal problems with their proposed action. (Cross-listed with PA 8616).

PA 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulations. Addresses federal regulations, implementing instructions, legal principles, and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation are discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, ENVR 4820, GEOG 4820, GEOG 8826, PA 8826)
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

PA 4890 SPECIAL TOPICS PUBLIC ADMIN (3 credits)
A course with the purpose of acquainting the student with key issues and topics of special concern to public and non-profit management that they otherwise would not receive elsewhere. (Cross-listed with AVN 4890, AVN 8896, PA 8896)

PA 4900 SPECIAL TOPICS IN PUBLIC ADMINISTRATION (1-3 credits)
A variable content course with public administration and urban studies topics selected in accordance with student and faculty interests. Possible topics include urban homesteading, administrative federalism and economic development and the public sector. (Cross-listed with PA 8906).
Prerequisite(s)/Corequisite(s): PA 2170 and permission of instructor.

PA 4950 INTERNSHIP (3 credits)
A course designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with attitudes, operations and programs of governmental units.
Prerequisite(s)/Corequisite(s): Major in public administration, senior, and permission of the school.

PA 4970 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

PA 4980 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by department/school faculty. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program.

PA 4990 AIR TRANSPORTATION AND INTERMODAL SYSTEMS (3 credits)
A study of the historical development of air transportation and intermodal systems, domestic and international, and the impact of federal regulations upon this development. Topics will cover facilities, problems of commercial services, future requirements, economic and social implications. This course fulfills the Aviation Institute capstone and assessment course requirements.
Prerequisite(s)/Corequisite(s): AVN 2020, AVN 3150, and senior.
Real Estate & Land Use Economics (RELU)

RELU 2000 SPECIAL TOPICS IN REAL ESTATE AND LAND USE ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact CBA for specific offerings.

RELU 2410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)
An introductory survey of real estate principles and practices which introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2410 and RELU 3410. (Fall, Spring)

RELU 3410 REAL ESTATE CONCEPTS AND PROCESSES (3 credits)
A survey course for business students introducing theory and practice applicable to real estate markets. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Junior.

RELU 3420 BUILDING INDUSTRY AND REAL ESTATE (3 credits)
Site planning, orientation and design of buildings with emphasis on residential building; introduction to architectural styles, building materials, methods, techniques and processes, preparation of working plans and specifications. (Spring)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 3430 REAL ESTATE BROKERAGE AND SALES (3 credits)
The basic principles of the real estate brokerage and sales business, such as brokerage business operation, legal environment and understanding contracts and closing statements. (Spring)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 3450 REAL ESTATE MANAGEMENT (3 credits)
Commercial and residential property management fundamentals, including leasing space, tenant selection and relations, maintenance and investor relations. (Fall)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 3460 REAL ESTATE LAW (3 credits)
This course is concerned with the sources of real estate law, both cases and statutes, and covers estates in land, conveyances, leases, mortgages, easements, zoning, brokers, contracts, taxes, foreclosures and open occupancy. (Fall, Spring). (Cross-listed with LAWS 3460)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 3470 METROPOLIS CONFLICTS AND HOUSING PROBLEMS (3 credits)
Urban value conflicts, urbanization, transportation and land use, the environment, the property tax base. Housing: needs, goals, housing markets, government housing programs. Housing and community development. (Fall)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 3480 CITY PLANNING (3 credits)
Cities: ancient, classic, medieval, industrial, commercial. Planning process: general plan, zoning, circulation, neighborhood unit, commercial. Urban renewal: new regional distribution of settlements; dynamic planning for change. (Spring)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 4000 SPECIAL TOPICS IN REAL ESTATE AND LAND USE ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

RELU 4390 REAL ESTATE INVESTMENTS (3 credits)
Methods used to analyze existing commercial real estate investments through traditional, as well as more technical, dynamic programming models.
Prerequisite(s)/Corequisite(s): RELU 2410 and FNBK 3250

RELU 4400 RESIDENTIAL REAL ESTATE FINANCE (3 credits)
Methods of financing residential real estate, analysis of mortgage risks, mortgage instruments, mortgage lenders, financial calculations, influences of governmental agencies. (Fall, Spring)
Prerequisite(s)/Corequisite(s): RELU 2410 and junior standing.

RELU 4410 BASIC APPRAISAL PROCEDURES (3 credits)
Introduction to the theory and concepts of income capitalization approaches, methods and techniques to valuation of real estate income property. Characteristics of yield on investment real estate; future income projections; mortgage coefficients; purchase and leaseback reversions; Ellwood Tables; capitalization rates and investment yields; types of annuities; and condemnation appraisal. (Spring)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410; and FNBK 3250

RELU 4420 INCOME PROPERTY APPRAISAL (3 credits)
Survey of environmental problems, air pollution, man's structural changes; environmental policy analysis and controls and their effect on real estate markets; legislation and regulatory structures; land use problems and environmental impact statements. (Fall)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 4430 REAL ESTATE ENVIRONMENTAL PROBLEMS (3 credits)
On-site analysis of history, economics, design and profitability status on local low-, medium-, and high-income housing, both single and multiple family. Public housing and housing for the aged. Shopping centers, industrial parks, central business district and recreational real estate. Planning board and city council zoning change hearings, county recorder, assessor, treasurer offices.
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 4440 CREATING A REAL ESTATE COMMUNITY (3 credits)
Survey of environmental problems, air pollution, man's structural changes; environmental policy analysis and controls and their effect on real estate markets; legislation and regulatory structures; land use problems and environmental impact statements. (Fall)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 4450 URBAN REAL ESTATE LABORATORY (2 credits)
Survey of environmental problems, air pollution, man's structural changes; environmental policy analysis and controls and their effect on real estate markets; legislation and regulatory structures; land use problems and environmental impact statements. (Fall)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

RELU 4460 COMMERCIAL REAL ESTATE FINANCE (3 credits)
A foundation course in commercial real estate finance including legal, analytical, institutional and governmental aspects.
Prerequisite(s)/Corequisite(s): RELU 2410 and FNBK 3250

RELU 4470 SPECIAL PROBLEMS IN REAL ESTATE AND LAND USE ECONOMICS (1-3 credits)
Individual investigation of specific problems in real estate and land use economics.
Prerequisite(s)/Corequisite(s): Senior and permission of program chair.

RELU 4510 REAL ESTATE INTERNSHIP (1-3 credits)
Correlation of theory and practice through part-time employment and weekly seminars; required readings. (Maximum of 4 hours).
Prerequisite(s)/Corequisite(s): Permission of program chair or internship coordinator.
Recreation-Leisure Study (RLS)

RLS 2440 FOUNDATIONS OF RECREATION AND LEISURE (3 credits)
A survey approach to the recreation, leisure services, parks professional field to include the historical philosophical bases of the overall profession. Provides the necessary foundational knowledge for majors as well as candidates within other areas of study.

RLS 2500 OUTDOOR RECREATION (3 credits)
A survey of the dynamics of outdoor recreation in American life. Designed to guide candidates through a learning experience that results in an introduction to and a broad-based understanding and appreciation of outdoor recreation.

RLS 3100 SOCIAL ASPECTS OF SPORT AND LEISURE (3 credits)
A critical examination of the function and significance of sports within the overall leisure behavior patterns of Western society. Recreational sport, sport spectatorship, and competitive athletics are considered from the dominant theoretical perspectives within sociology. (Cross-listed with SOC 3100)
Prerequisite(s)/Corequisite(s): Six hours of social science or permission.

RLS 3500 FOUNDATIONS OF RECREATION THERAPY (3 credits)
An introduction to therapeutic recreation services as a specialized field within recreation. Course content touches on the majority of the special populations recognized within American society. An in-depth survey approach is utilized.

RLS 4000 SPECIAL TOPICS IN RECREATION AND LEISURE STUDIES (3 credits)
A series of intensive courses especially designed for student majors within recreation and leisure studies; scheduled as seminars or workshops, according to purpose.

RLS 4070 CAMPUS RECREATION MANAGEMENT (3 credits)
A review of the knowledge, skills, and abilities required for the management of typical campus recreation programs and facilities. This course will prepare students for entry level positions managing campus recreation employees, programs, facilities and services. (Cross-listed with RLS 8076)

RLS 4100 FACILITY DESIGN AND MANAGEMENT (3 credits)
This course is designed to acquaint the recreation major or practitioner with the knowledge and certifications necessary to maintain and operate a recreation building including all major activity areas using the latest standards and technology. Attention will be devoted to the design and management process, including terminology, court specifications, handicapped accessibility, and swimming pool operation.

RLS 4240 RECREATION ADMINISTRATION (3 credits)
Designed to provide a background of information on public, private, and commercial recreation with special attention to organization, promotion, and development from the administrative aspect. (Cross-listed with RLS 8246)
Prerequisite(s)/Corequisite(s): RLS Major and Senior status

RLS 4300 RECREATION PROGRAMMING AND LEADERSHIP (3 credits)
An advanced study of recreational programming and leadership through practical applications. Emphasis is placed upon understanding proven programming and leadership knowledge and skills; understanding participant leisure behavior; understanding participant leisure needs; and skill development in ways through which organization, agencies, and businesses create services to respond to the leisure needs of the consumer. (Cross-listed with RLS 8306)
Prerequisite(s)/Corequisite(s): Junior, Senior or Graduate Standing

RLS 4400 TRAVEL AND TOURISM (3 credits)
This course is designed to provide the recreation major or practitioner, and other interested candidates, with an awareness of the major components of the travel and tourism industry, including its costs and benefits to a resident community. (Cross-listed with RLS 8406)
Prerequisite(s)/Corequisite(s): Junior Standing.

RLS 4420 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with RLS 8426, GERO 4420, GERO 8426)

RLS 4550 PRACTICUM I (6 credits)
Practical learning experience in leisure service delivery under close University and agency supervision.
Prerequisite(s)/Corequisite(s): Senior, 2.5 GPA and department consent.

RLS 4560 PRACTICUM II (6 credits)
Practical learning experience in leisure service delivery under close University and agency supervision.
Prerequisite(s)/Corequisite(s): Senior, 2.5 GPA and department consent.

RLS 4970 PROBLEMS OF RECREATION (1-3 credits)
The purpose of this course is to provide an opportunity for candidates to participate in special conferences on problems in the field of recreation and to further professional improvement and growth beyond the normal four-year undergraduate program.
Prerequisite(s)/Corequisite(s): Permission of instructor.

Religion (RELI)

RELI 1010 INTRODUCTION TO WORLD RELIGIONS (3 credits)
A introductory course in religious studies, designed both to introduce students to ways of understanding religion as a phenomenon in human culture and history and also to survey a wide variety of the religions of the world.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2000 ARCHAEOLOGY OF BIBLICAL LANDS (3 credits)
This course introduces students to the purpose and methods of biblical archaeology and includes a survey of the material culture of the land of the Bible from the Chalcolothic (5th - 4th millennia BCE) to the Persian periods (4th century BCE). Special emphasis will be placed on the relationship between biblical narratives and the archaeological reconstruction of ancient social and natural environments.

RELI 2060 THE RELIGION OF ANCIENT EGYPT AND MESOPOTAMIA (3 credits)
This course is designed to familiarize the student with the religions of ancient Egypt and Mesopotamia. The course will use archaeological discoveries together with ancient Egyptian and Mesopotamian texts to explore the religions of these two civilizations. It will deal with Mesopotamian and Egyptian beliefs surrounding issues such as creation, afterlife, ethics, morality and rituals.
Prerequisite(s)/Corequisite(s): Intro to World Religion is recommended but not necessary.

RELI 2120 HINDU SCRIPTURES (3 credits)
An introduction to some of the foundational scriptures of Hinduism (Sanatana Dharma) from traditional and modern perspectives, including the Vedas, the Upanishads, and the Bhagavad-Gita.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
REL 2150 HEBREW SCRIPTURES (3 credits)
A historical introduction to the study of the Hebrew Scriptures from the Biblical to Talmudic period in the light of recent scholarship. 
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

REL 2160 NEW TESTAMENT (3 credits)
An introduction to the literature of the New Testament from a historical perspective.

REL 2170 QUR’AN (3 credits)
This course provides an introduction to the academic study of the Qur'an, its uses, interpretations, and applications in society from its earliest appearance up to the present. 
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

REL 2190 THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a crucible of global tensions. (Cross-listed with HIST 2190, SOC 2190)
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

REL 2200 INTRODUCTION TO RELIGIOUS ETHICS (3 credits)
An introduction to the main types of ethical thought in the history of religion (with special attention to current approaches) and the relation of religious ethics to contemporary moral problems.

REL 2300 INTRODUCTION TO JEWISH ETHICS (3 credits)
An introduction to the main types of ethical thought in the history of Judaism (with special attention to contemporary approaches) and the relation of Jewish ethics to other religious and non-religious moral systems. The following issues will be examined: truth-telling, self-sacrifice, political ethics, sexual ethics, abortion, suicide, euthanasia and others.

REL 2400 RELIGION IN AMERICA (3 credits)
The role of religion in American culture, seen in the interaction between the inherited religious traditions and the crucial events in American experience and how this affects American identity - past and present.
Prerequisite(s)/Corequisite(s): Sophomore or permission of instructor.

REL 2500 SPIRITUALITY AND WELLNESS (3 credits)
This course provides an introduction to the emerging field of spirituality and wellness. Utilizing perspectives from multiple disciplines and incorporating both third-person (research, theory) and first-person (experiential, reflective) approaches, students will explore topics such as: the nature of spirituality; mindfulness, meditation and wellness; spirituality and public health; spiritual wellness on campuses; and eco-spirituality.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

REL 3010 METHODS AND PHENOMENA OF RELIGIOUS STUDIES (3 credits)
A seminar considering the various attempts to define religion and the various specialties and methodologies which comprise the field of Religious Studies. Multiple faculty from the religion subject areas will participate in the seminar. The course is intended for majors and minors in Religion and others with high interest in the field of Religious Studies.
Prerequisite(s)/Corequisite(s): 9 hours in Religion and junior standing or above, or permission of instructor.

REL 3020 NATIVE AMERICAN RELIGIONS (3 credits)
Study of the sacred stories, symbols, ceremonies, and belief systems of selected Native American peoples, representing the major cultural regions of North America.
Prerequisite(s)/Corequisite(s): Junior, or NAMS 1100, or three hours in religion.

REL 3030 SHAMANISM (3 credits)
Study of the forms and techniques of shamanic experience from its Paleolithic and Neolithic origins to its contemporary practice among indigenous peoples, including its role in the development of human religious traditions and systems of healing.

REL 3050 RELIGIONS OF THE EAST (3 credits)
A study of the major religions which considers their histories and contemporary forms. Included are the religions of Hinduism, Buddhism, Taoism, Confucianism and Shintoism.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

REL 3060 RELIGIONS OF THE WEST (3 credits)
A study of Judaism, Christianity and Islam, with an introduction to their ancient predecessors.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

REL 3120 HEBREW PROPHETS (3 credits)
A critical survey of the messages and roles of the Hebrew prophets in light of their historical, cultural and theological background in Israel and the Ancient Near East. The course will include an examination of prophecy in the Biblical literature.
Prerequisite(s)/Corequisite(s): Junior or three hours in religion.

REL 3130 WOMEN AND THE BIBLE (3 credits)
A survey of the female characters of the Hebrew Bible and New Testament, a critical analysis of Biblical imagery of and teachings concerning women, and an examination of the impact of Biblical interpretations on women in society. (Cross-listed with WGST 3120).
Prerequisite(s)/Corequisite(s): Junior, three hours in Religion or Women's Studies or permission.

REL 3150 THE JUDAIC TRADITION (3 credits)
A study of the Judaic understanding of God, man and world in three stages: (1) The early Hebraic understanding of law and history; (2) The Rabbinical tradition and development of Jewish mysticism and philosophy; and (3) Contemporary Judaism and movements such as Hasidism, reconstructionism and Zionism.
Prerequisite(s)/Corequisite(s): Junior or RELI 1010, or RELI 2300, or RELI 2150; or permission.

REL 3160 HISTORY OF CHRISTIANITY (3 credits)
The development of Christian theological, ritual, and social practice from the beginnings of Christianity through the Reformation.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

REL 3180 MODERN CHRISTIAN THOUGHT (3 credits)
The history of Christian thought from the Enlightenment to Vatican II.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

REL 3200 ISLAM (3 credits)
A study of history, beliefs, and practices of Islam, including both Sunni and Shi’i traditions as well as the role of Sufism and contemporary movements.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

REL 3220 RELIGION AND REASON (3 credits)
A critical study of the dialogue between philosophical reason and religious belief. Reason is seen historically in the various roles of enemy, ally and servant of religion. Consideration of contemporary options for applying intellect to faith.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.
RELI 3250 THE FEMININE IN MYTHOLOGY (3 credits)
The course will acquaint students with (1) the images of the feminine in the earliest strata of human culture, (2) the symbols of the feminine in the myths of the primary religious traditions of the world, and (3) the role of feminine image-making within contemporary religious consciousness. (Cross-listed with WGST 3250).
Prerequisite(s)/Corequisite(s): Junior, or three hours in Religion, or permission.

RELI 3310 CONTEMPORARY RELIGIOUS THOUGHT (3 credits)
A survey of recent developments in religious thought, emphasizing central themes and basic issues in current discussion.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3330 ROMAN CATHOLIC THEOLOGY TODAY (3 credits)
An investigation of differences and developments in Roman Catholic theology in last decades of the 20th century, with consideration of the bases in the tradition for the progressive and conservative theologies of today.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3400 RELIGION AND FILM (3 credits)
This course examines the relationship between religion and film. From the very beginning of filmmaking, religion or religious themes have been the subject of movies. And, religion is found in many different kinds of movies, from Hollywood blockbusters to art films, from documentaries to short films. This course explores the various ways in which movies treat religion or religious topics.
Prerequisite(s)/Corequisite(s): RELI 1010 or permission of the instructor. Not open to non-degree graduate students.

RELI 3500 SPECIAL TOPICS IN RELIGION (3 credits)
The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate various subjects of interest in religious studies. (May be repeated for credit as long as the topic is different.)
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3960 READINGS IN RELIGION (1-6 credits)
Individual research in selected areas or particular questions in religious studies.
Prerequisite(s)/Corequisite(s): Nine hours in religion and permission of instructor.

RELI 4000 RELIGIOUS STUDIES INTERNSHIP (1-6 credits)
A supervised internship enabling students to develop and apply knowledge and gain expertise related to the field of Religious Studies while working at a non-profit, educational, non-governmental or related organization. The host organization for the student must be approved in advance in consultation with the internship coordinator and the Chair of Religious Studies. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Junior or senior. Religious Studies major, Religious Studies minor, or concentration in Religious Studies. Permission of internship coordinator. Not open to non-degree graduate students.

RELI 4010 SENIOR SEMINAR IN RELIGION (3 credits)
This course provides a capstone experience in religious studies. It serves as the third writing course and is required for Religion majors. The readings will be on a topic chosen by the instructor each time the course is taught. Each student will complete a major research paper and will present it orally.
Prerequisite(s)/Corequisite(s): Five courses in Religion, or permission of instructor.

RELI 4020 BUDDHIST TRADITION (3 credits)
A study of the Buddhist understanding of man's religious circumstances, including the life and teachings of Gautama the Buddha, the development of Theravada tradition, the philosophy of Nagarjuna, and the major Mahayana movements with special attention to Zen and Tantrism.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

RELI 4040 RELIGION AND HOMOSEXUALITY (3 credits)
A study of homoeroticism in (1) ancient Near Eastern and classical Mediterranean traditions, and in (2) traditions from one or more non-Western cultural regions. The course will include cross-cultural study of religious understandings of homosexuality in modern cultures, with attention to the relation between sexuality and spirituality and to issues of gender identity. (Cross-listed with WGST 4040).
Prerequisite(s)/Corequisite(s): Junior standing, six hours in religion and/or women's studies, or permission of instructor.

RELI 4050 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010; HIST 8016).
Prerequisite(s)/Corequisite(s): Junior or senior standing. Not open to non-degree graduate students.

RELI 4150 JUDAISM IN THE MODERN AGE (3 credits)
A critical investigation of Judaism since the Enlightenment emphasizing historical, intellectual and religious-legal developments. Pivotal movements (e.g., Hassidism, Reform, Historical Conservative Judaism, Modern Orthodoxy, Zionism) and major historical events (e.g., the American and French Revolutions, Tsarist oppression, the Holocaust and the establishment of the State of Israel) will be analyzed for their ongoing impact. (Cross-listed with RELI 8156)
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 4160 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 8166, HIST 4720, HIST 8726)
Prerequisite(s)/Corequisite(s): Junior or instructor permission.

RELI 4200 COMPARATIVE RELIGIOUS ETHICS (3 credits)
An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8206, CACT 8206)

RELI 4220 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)
This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8226, CACT 8226)

RELI 4300 EXISTENTIALISM AND RELIGIOUS THOUGHT (3 credits)
A study of existentialism in its theistic (e.g., Kierkegaard) and atheistic (e.g., Sartre) forms, and its impact on recent Jewish and Christian thought. (Cross-listed with RELI 8306)
Prerequisite(s)/Corequisite(s): Junior
RELI 4400  WOMEN IN ISLAM (3 credits)
This course examines the religious, political and cultural assignments ascribed to Muslim women. Starting with the Qur'an, social, legal, and scriptural norms will be explored through the voices of Muslim women around the world. Passages of the Qur'an, hadiths and the commentaries that lead to the elevation and/or demise of Muslim women and their rights are studied. Examining the role of the female body, sexuality and seclusion within a historical context will lead to an understanding of the gendering of women in Islam. (Cross-listed with RELI 8406)
Prerequisite(s)/Corequisite(s): RELI 3200

RELI 4420  MUSLIMS IN AMERICA (3 credits)
This course is designed to familiarize the student with the multiplicity of Muslim voices in the United States and to examine the myths created through stereotyping and orientalizing. The course will also investigate how Muslims in America form identities as hybrids and transnationals and follows the chronological development of American Muslims including their identity construction, religious issues, and politics. (Cross-listed with RELI 8426)
Prerequisite(s)/Corequisite(s): RELI 3200 or permission.

Russian (RUSS)

RUSS 1110  ELEMENTARY RUSSIAN I (5 credits)
Elementary Russian I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues in Russia.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

RUSS 1120  ELEMENTARY RUSSIAN II (5 credits)
Pronunciation, listening, comprehension, speaking, and reading.
Prerequisite(s)/Corequisite(s): RUSS 1110 or three years of high school Russian. Department permission is needed for transfer credit.

RUSS 2110  INTERMEDIATE RUSSIAN I (3 credits)
Grammar review, more advanced readings.
Prerequisite(s)/Corequisite(s): RUSS 1120 or four years of high school Russian. Department permission is needed for transfer credit.

RUSS 2120  INTERMEDIATE RUSSIAN II (3 credits)
Grammar review, more advanced readings.
Prerequisite(s)/Corequisite(s): RUSS 2110. Department permission is needed for transfer credit.

RUSS 3030  RUSSIAN CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels.
Prerequisite(s)/Corequisite(s): RUSS 2120 or permission.

RUSS 3040  RUSSIAN GRAMMAR AND COMPOSITION (3 credits)
Review of grammatical principles, practice in written composition.
Prerequisite(s)/Corequisite(s): RUSS 2120 or permission.

RUSS 3050  WOMEN IN RUSSIAN SOCIETY & CULTURE: A HISTORICAL PERSPECTIVE (3 credits)
This course discusses the history of women in Russia beginning from early Russia (10th century) to the present. It includes the study of feminist activists, female educational, professional, and employment opportunities, historical and current status of women, and their social, cultural, and intellectual influences on Russian society. Course offered in English. (Cross-listed with WGST 3050)
Prerequisite(s)/Corequisite(s): Junior or permission.

RUSS 3150  INTRODUCTION TO RUSSIAN LITERATURE I (3 credits)
Introduction to the principal authors and works of 19th century Russian literature.
Prerequisite(s)/Corequisite(s): RUSS 3030 and RUSS 3040, or permission.

RUSS 3370  RUSSIAN CULTURE AND CIVILIZATION (3 credits)
A historical view of Russia through its political, literary, musical, religious and philosophical development from the 10th to the 20th centuries.
Prerequisite(s)/Corequisite(s): Junior standing or permission.

RUSS 4900  INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student’s regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission. Not open to non-degree graduate students.

RUSS 4940  RUSSIAN MASTERPIECES (3 credits)
Russian literature in translation. Critical study of artistic achievements, thought, and values of modern Russian culture through analysis of representative literary texts by major Russian 19th and 20th century writers. (Cross-listed with RUSS 8946)
Prerequisite(s)/Corequisite(s): Junior or permission.

Social Sciences (SSCI)

SSCI 2000  SOCIAL SCIENCE ISSUES I (3-5 credits)
An interdisciplinary course which explores the nature and scope of social science, and seeks an integrated understanding of selected social science topics within the context of contemporary issues. Course topics will vary, but will typically include a multidisciplinary approach.

SSCI 2100  SOCIAL SCIENCE ISSUES II (5 credits)
An interdisciplinary course which explores the nature and scope of social science, and seeks an integrated understanding of selected minority and/or gender issues confronting society and its members. The course may be repeated for credit when a different issue is considered.

Social Work (SOWK)

SOWK 1000  SOCIAL WORK AND SOCIAL WELFARE (3 credits)
This course is designed for the student who wants to explore a possible major in social work, and/or to learn more about social work and its functions in society. We examine historical and current issues and problems in social welfare, social services, and the social work profession. The focus of this course is on the values, beliefs, and goals of social work in the United States.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course and Social Science General Education course

SOWK 1500  SOCIAL WORK AND CIVIC ENGAGEMENT (3 credits)
This course is designed to acquaint the student with the social work profession, professional roles and functions, and social services delivery systems. Students will learn about the diverse opportunities associated with social work practice, agency systems and macro perspectives. This is a service learning course, and requires 30 hours of volunteer service in an approved social service agency.

SOWK 2120  RACE, CLASS AND GENDER IN THE UNITED STATES (3 credits)
This course examines the effects of race, class, and gender on social policy and social injustice. The focus is on the institutional manifestations of racism, classism and sexism, and how these are interconnected and mutually reinforcing. The consequences of these institutionalized oppressions are examined at the individual, group, family and societal levels.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course
SOWK 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR (3 credits)
A course in the basic statistics of social work. The emphasis is on exploration of data processing and techniques as they relate to statistical analysis and on understanding the proper application of statistics. (Cross-listed with CRCJ 3000, PA 3000).
Prerequisite(s)/Corequisite(s): MATH 1310 or permission of the School.

SOWK 3010 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I (3 credits)
This course focuses on major contributions of theories from the biological, social, and behavioral sciences that help to understand human functioning across the lifespan, particularly infancy through adolescence, within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities), as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): PSYC 1010, SOC 1010, BIOLOGY 1020, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3020 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II (3 credits)
This course focuses on major contributions of theories from the biological, social, and behavioral sciences that help to understand human functioning across the lifespan, particularly young adulthood through late adulthood, within the social environment at the mezzo- and macro-level (e.g., large groups, organizations, institutions, communities, society), as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): SOWK 3010. Not open to non-degree graduate students.

SOWK 3110 SOCIAL WELFARE POLICY I (3 credits)
This course is an introduction to social welfare policy analysis. The course examines social welfare policy taking into account historical, political, economic, social, and cultural perspectives. Basic concepts and choices are examined in relation to values, ethics, context, social functioning and social consequences.
Prerequisite(s)/Corequisite(s): PSCI 1000 or PSCI 1100, ECON 1200 or ECON 2220, HIST 1120, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3220 SOCIAL WORK PRACTICE I (3 credits)
This course provides an introduction to the values, ethics, knowledge, and skills of generalist social work practice. Using constructs from the Generalist Intervention Model, systems theory, and the strengths-based perspective, students learn about engagement, assessment, planning and contracting, intervention, evaluation, and termination. Diversity and case management are emphasized as part of bringing planned change to client systems.
Prerequisite(s)/Corequisite(s): PSYC 1010, SOC 1010, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 3250 SOCIAL WORK PRACTICE II (3 credits)
This course reinforces the values, ethics, knowledge, and skills of generalist social work practice. Students gain specific knowledge and skills in assessing, intervening and terminating with families. Students will learn about the process of development and implementation of groups.
Prerequisite(s)/Corequisite(s): SOWK 3320. Not open to non-degree graduate students.

SOWK 3890 WRITING FOR SOCIAL WORK (3 credits)
This course emphasizes the process of critical thinking and analysis and the process of effective professional writing as required for generalist social work practice. Students will apply selected generalist social work concepts to prepare writing samples such as research/term papers, client progress/psychosocial reports, analytical reviews, professional development papers, business communications, and grant proposals. Research and writing skills emphasized are: conducting electronic literature searches, outlining, paragraph and sentence structure, revising, using APA format, and proofreading for correct grammar, word usage, and punctuation.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1160, and admission to the BSSW program. Not open to non-degree graduate students.

SOWK 4020 SOCIAL WORK WITH THE AFRICAN AMERICAN FAMILY (3 credits)
This course seeks to develop in students an awareness and understanding of some of the social and psychological/cognitive realities influencing the behavior of African American youth and families across the lifespan. The content drawn upon theories, research and social work practice skills relevant to African American youth and families, as well as the cognitive process and social systems which impact African American youth and families. (Cross-listed with SOWK 8026)
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or SOWK 1000, junior or senior standing, and permission of the School. Not open to non-degree graduate students.

SOWK 4040 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 4690, GERO 8696, SOWK 8046).
Prerequisite(s)/Corequisite(s): Admitted to the BSSW program or SOWK 1000, junior or senior standing, and permission of the School.

SOWK 4050 ETHNIC DIVERSITY AND SOCIAL WORK PRACTICE (3 credits)
This course focuses on effective generalist social work practice with clients of ethnic diversity. (Cross-listed with SOWK 8056)
Prerequisite(s)/Corequisite(s): BSSW degree students only. Not open to non-degree graduate students.

SOWK 4360 SOCIAL WORK PRACTICE III (3 credits)
This course is an introduction to a goal-oriented planned change process with an emphasis on task groups, organizations, and communities.
Prerequisite(s)/Corequisite(s): SOWK 2120, SOWK 3110, and SOWK 3350. Not open to non-degree graduate students.

SOWK 4400 RESEARCH METHODS IN SOCIAL WORK PRACTICE (3 credits)
Focus will be on the scientific method as it is applied to social work research. The purpose of all social work research is to answer questions or solve problems. The six phases of the research process will be identified and the basic tasks to be accomplished in each phase will be learned. Special attention will be given to evaluating social work practice.
Prerequisite(s)/Corequisite(s): SOWK 3000. Prior to or concurrent: SOWK 4360. Not open to non-degree graduate students.

SOWK 4410 GENERALIST SOWK PRACTICUM I (5 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a selected social service agency. The student will be introduced to a variety of social work practice roles, develop professional relationships with client systems and learn to apply a number of interventional modalities to effect change across the life span. In order to facilitate integration of classroom theory with practice, students will attend a seven-week practicum seminar (2 hours per week).
Prerequisite(s)/Corequisite(s): Prior: SOWK 2120, SOWK 3020, SOWK 3350. Prior to or concurrent: SOWK 3890 and SOWK 4360. Not open to non-degree graduate students.
SOWK 4420  GENERLIST SOWK PRACTICUM II (5 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a social service agency, typically the same agency as in SOWK 4410. This course builds upon opportunities provided and competence achieved in Generalist Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 4410 prior to or concurrent. Not open to non-degree graduate students.

SOWK 4450  SENIOR SOCIAL WORK SEMINAR (1 credit)
This course is intended as an integrating senior seminar designed to be taken with the final course of practicum. It facilitates the transition from student to professional social worker through the use of specific assignments focused on areas of resume development, continuation of research, awareness of continuing education needs, issues of licensure, and exposure to social work professionals.
Prerequisite(s)/Corequisite(s): SOWK 4410 prior to or concurrent. Not open to non-degree graduate students.

SOWK 4510  TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, COUN 8516, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.

SOWK 4620  TRAMA AND RESILIENCE (3 credits)
This course provides an overview of issues related to trauma including: the factors related to development of trauma, definitions of trauma, the impact of trauma on individuals, families and communities, and the programs and practices that are most effective and appropriate regarding the social work role in responding to trauma. (Cross-listed with SOWK 8626)
Prerequisite(s)/Corequisite(s): SOWK 3010 and SOWK 3020

SOWK 4640  SOCIAL WORK IN CHILD WELFARE (3 credits)
This course examines the history, challenges, and issues of governmental intervention in families to protect at-risk children. The course concentrates on the effects of the 1980 federal legislation (PL 96-272) on child welfare delivery systems and practice. It provides a comprehensive overview of child welfare services, including child protective services, in-home services, foster care, group care, intergenerational childcare, and adoption. It also provides an overview of the juvenile justice system and its impact on children and their families.
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]

SOWK 4650  SOCIAL WORK IN MENTAL HEALTH AND WITH INTELLECTUAL DISABILITIES (3 credits)
This is an introductory course to increase understanding of mental health and intellectual disability issues facing social workers. The focus is on history, contemporary trends, legal and practice implications, human rights, social justice, assessment and delivery of culturally competent services.
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]

SOWK 4680  MEDICAL AND PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 8686, COUN 4680, COUN 8686).
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or permission of the School.

SOWK 4690  ASSESSMENT AND CASE MANAGEMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, COUN 8696, SOWK 8696).
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or permission of the School and SOWK 4680 or COUN 4680 (or equivalent course) prior to or concurrent.

SOWK 4800  SOCIAL WORK AND THE LAW (3 credits)
This course presents the fundamental principles of criminal and civil law that have relevance to the practice of social work. Topics include the legal system; legal research methods; professional ethical/legal responsibilities and liabilities; family law; elder law; criminal law; juvenile law; personal injury law; employment discrimination law; capacity to make contracts and wills; rights of institutionalized patients; and rights of handicapped children to an education. (Cross-listed with SOWK 8806)
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.

SOWK 4810  SPIRITUALITY AND SOCIAL WORK PRACTICE (3 credits)
Social work literature defines spirituality as the human striving for a sense of meaning, purpose, values, and fulfillment. Spirituality is expressed through diverse forms throughout a client's lifespan; it is central to clients' understanding of suffering and their attempts to resolve it. This course examines major issues pertaining to spiritually-sensitive social work practice with clients of diverse religious and non-religious (i.e., outside sectarian institutional contexts) perspectives. (Cross-listed with SOWK 8816)
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.

SOWK 4830  CRISIS INTERVENTION (3 credits)
This course is designed to increase knowledge and skills for practice with crisis situations. The prevalence of crisis experiences within our society and lifespan development necessitates that social workers acquire a knowledge and skill-base for effective and professional crisis intervention practice. Students will study the ABC Model of Crisis Intervention and how to ethically practice with diverse and vulnerable populations. Students will apply crisis intervention theory and models of intervention to various concern areas including but not limited to: suicide, sexual assault, domestic violence, substance abuse, grief and loss, and violence. A systems, strengths, and cultural emphasis will be applied to the various crisis situations covered. (Cross-listed with SOWK 8836)
Prerequisite(s)/Corequisite(s): SOWK 3320. Not open to non-degree graduate students.

SOWK 4850  HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, GERO 8856, SOWK 8856.)
Prerequisite(s)/Corequisite(s): Admission to the BSSW program or [SOWK 1000, junior or senior standing, and permission of the School]. Not open to non-degree graduate students.

SOWK 4880  TOPICAL SEMINAR IN SOCIAL WORK (3 credits)
Specific seminar topics will focus on advanced content in social work theory and practice. The course description will be announced when a specific topical seminar is proposed. The topics selected will be consistent with School of Social Work program objectives, faculty expertise, and student needs. This course may be repeated for up to nine hours credit. (Cross-listed with SOWK 8886)
Prerequisite(s)/Corequisite(s): SOWK 3320.
SOWK 4890 SPECIAL STUDIES IN SOCIAL WORK (1-4 credits)
This independent study course allows students to pursue a special selected area or topic within social welfare in order to deepen knowledge and/or skills in that particular area.
Prerequisite(s)/Corequisite(s): SOWK 3010, SOWK 3110, SOWK 3320, and permission of the School. Not open to non-degree graduate students.

SOWK 4980 SENIOR HONORS PROJECT/THESIS (3-6 credits)
An independent research project supervised by an approved faculty member. The senior honors project must be approved by the CPACS Honors Coordinator.
Prerequisite(s)/Corequisite(s): Senior in Honors Program and permission of the School.

Sociology (SOC)

SOC 1010 INTRODUCTORY SOCIOLOGY (3 credits)
An introduction to the study of human societies. The course presents the fundamental concepts and theories that make up the sociological perspective. These serve as tools for the analysis of social inequality, social institutions and social change.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2100 SOCIAL PROBLEMS (3 credits)
An analysis of the origins of social problems in American society. Attention is given to the nature, consequences and solutions of selected social problems.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2120 SOCIOLOGICAL THEORY (3 credits)
SOC 2120 is an intellectual history of sociology as an academic discipline surveying outstanding contributions to its body of theory. The social contexts in which a variety of classical and contemporary theoretical traditions have arisen will be considered. Stress is placed on understanding and applying different approaches to sociological analysis through detailed textual interpretation of theoretical writings.
Prerequisite(s)/Corequisite(s): SOC 1010 and Sociology major or permission of instructor. Not open to non-degree graduate students.

SOC 2130 SOCIAL STATISTICS (3 credits)
An introduction to the fundamental statistical techniques used in the analysis of social data, including descriptive and inferential statistics. The focus is on the production and interpretation of statistical information in the study of social life.
Prerequisite(s)/Corequisite(s): MATH 1310 or permission of instructor.

SOC 2134 SOCIAL STATISTICS LAB (1 credit)
A computer-based laboratory course to be taken in conjunction with SOC 2130. The focus is on using computer software to produce and interpret statistical information in the study of social life.
Prerequisite(s)/Corequisite(s): MATH 1310 and SOC 2130 (taken previously or concurrently) or permission of instructor. Not open to non-degree graduate students.

SOC 2150 SOCIOLOGY OF FAMILIES (3 credits)
This course provides a description and analysis of contemporary families from a sociological perspective. A life course perspective traces the development of family life, with special attention to change, choice, and diversity. Topics such as family structure, the functions of the family as an institution, family comparisons across culture and time, and difficulties faced by families in contemporary society will also be explored.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2190 THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a crucible of global tensions. (Cross-listed with RELI 2190, SOC 2190)
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

SOC 2510 RESEARCH METHODS (3 credits)
A basic introduction to the principles, methods and techniques of empirical social research.
Prerequisite(s)/Corequisite(s): SOC 1010 or permission of instructor.

SOC 2800 MAJOR SOCIAL ISSUES (3 credits)
The course examines a major social issue with readings and required materials designed for non-majors. The specific topic will vary from semester to semester. Students may take the course more than once.
Prerequisite(s)/Corequisite(s): SOC 1010 or permission of instructor.

SOC 3100 SOCIAL ASPECTS OF SPORT AND LEISURE (3 credits)
A critical examination of the function and significance of sport within the overall leisure behavior patterns of Western society. Recreational sport, sport spectatorship, and competitive athletics are considered from the dominant theoretical perspectives within sociology. (Cross-listed with RLS 3100)
Prerequisite(s)/Corequisite(s): Six hours of social science or permission.

SOC 3140 AMERICAN SOCIETY (3 credits)
The origins of American behavior patterns and institutions and their influence on values, thinking and social character are stressed. A sociological perspective of contemporary American life styles and social organization is developed from a variety of sources. The influences of contemporary social change and diversity in American society are unifying themes.
Prerequisite(s)/Corequisite(s): Sophomore or above.

SOC 3180 OCCUPATIONS AND CAREERS (3 credits)
Examines changing job market, meaning of work and job satisfaction, career stages from aspirations to retirement, the effects of occupational discrimination and segregation, and the impact of work on family and leisure.
Prerequisite(s)/Corequisite(s): SOC 1010.

SOC 3200 SOCIOLOGY OF GENDER (3 credits)
This course critically examines the meaning, purpose, and consequences of gender, by using sociological methods and theories to explore the institutions that structure gender relationships and identities, and form the contexts that shape social life in the United States. Particular attention will be given to how social institutions like the state, the economy, family and the mass media shape the definitions of femininity and masculinity, as well as how the gender system intersects with other structures of inequality - race, class, and sexual orientation.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing, or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3450 SOCIAL PSYCHOLOGY (3 credits)
Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods, and applications of varied substantive topics are examined. (Cross-listed with PSYC 3450)
Prerequisite(s)/Corequisite(s): SOC 1010 or PSYC 1010

SOC 3510 RESEARCH METHODS (3 credits)
This course is a basic introduction to the principles, methods and techniques of empirical social research. The common methods used by sociologists and anthropologists are addressed such as surveys, interviews, and observation.
Prerequisite(s)/Corequisite(s): SOC 1010 or permission of instructor
SOC 3514 RESEARCH METHODS LAB (1 credit)
This is a laboratory course to be taken in conjunction with SOC 3510. The focus is on applying methodology and basic data analysis learned in SOC 3510 and the development of a sociological research proposal. 
Prerequisite(s)/Corequisite(s): SOC 1010 or permission of instructor; SOC 3510 (taken previously or concurrently); and junior or senior standing.

SOC 3610 SOCIAL ORGANIZATION (3 credits)
An overview of organizations using sociological insights to introduce students to the study of organizations with emphasis on selected forms of organizations, organizational structure, members' behaviors, organizational environments and social change. 
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore.

SOC 3630 COMPARATIVE SOCIAL INSTITUTIONS (3 credits)
An examination of the interlocking network of institutions in society with particular stress on social institutions not covered in other department of sociology courses, e.g., political, economic, religious institutions, and science as an institution. A comparison among societies with differing institutional arrangements.
Prerequisite(s)/Corequisite(s): SOC 1010 and 1050 and sophomore or permission of instructor.

SOC 3690 SOCIAL STRATIFICATION (3 credits)
Considers the inequalities of social class, power and status and their relationships to race, ethnicity and gender in order to determine who gets what and why. The consequences of social stratification for life chances, consumption and social mobility are examined.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore.

SOC 3700 INTRODUCTION TO LGBTQ STUDIES (3 credits)
Introduces key themes and critical frameworks in Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Studies. This course examines scholarly contributions from a range of academic disciplines and traces some of the ways that LGBTQ Studies has influenced cultural and social theory more broadly. Topics include LGBTQ histories and social movements; forms of oppression including heterosexism, homophobia, and transphobia; resistance to oppression; queer activism; intersecting identities; and representations in literature, art, and popular media.
Prerequisite(s)/Corequisite(s): SOC 1010 or WGST 2010 or WGST 2020; or permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3800 WORK AND SOCIETY (3 credits)
Examines work in the societal context. Focuses on major changes in the quality of working life and the labor force, and the power and influence of professions, bureaucracies and unions. Examines the impact of technology, education and government in producing and coping with these changes. Historical and cross-cultural comparisons will be made.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore.

SOC 3810 SOCIOLOGY OF EDUCATION (3 credits)
An examination of education from a sociological perspective. Particular attention is given to educational attainment and its consequences for occupation and income; enlarging access to educational opportunities; student subcultures, teacher recruitment; alternatives and changes in education; relationships of sociology and education.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore.

SOC 3820 MEDICAL SOCIOLOGY (3 credits)
The study of the social patterning of health and illness, including inequalities in health by stratifying elements such as race, class, and gender. Examines the social definition of health, illness, and the social position of being a sick person in society. Also examines the interaction individuals have with health care providers and the structure of medicine in the U.S. and around the world. Offers a critical examination of the social institution of medicine.
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing; or permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3840 WORLD POPULATION AND SOCIAL ISSUES (3 credits)
Basic knowledge of demographic methods and U.S. and world population data. Includes census and other data sources; demographic theory and population change; fertility, mortality and migration; age and sex structure; race, ethnicity, income; marital status and family indicators; urbanization; and population policies. Connects population dynamics to world economic development; poverty; refugee and immigration issues; decisions about childbearing; the status of women; intergenerational competition; population pressure on food and environment; and urban and rural life.
Prerequisite(s)/Corequisite(s): Six hours of social science and sophomore.

SOC 3850 SOCIETY, ENVIRONMENT, AND RESOURCE CONSERVATION (3 credits)
This course focuses on the sociological analysis of the impacts of economic activities on the bio-physical environment and the people within it, at the national and international levels. Topics include the foundations of environmental sociology, social change, national and international institutions, monitoring pollution prevention and control, the uses of applied sociological techniques, etc.
Prerequisite(s)/Corequisite(s): Six hours of social sciences, three of which must be in sociology or permission.

SOC 3900 RACE AND ETHNIC RELATIONS IN THE U.S. (3 credits)
The course explores historical and contemporary meanings of race and ethnicity and introduces students to the ways sociologists think about 'race,' race relations and racism. It views current theoretical issues, and focuses on the recent histories and the current position of several major racial-ethnic populations in the U.S.: African Americans, Latino/a Americans, Native Americans, Asian Americans, and white/European ethnics. Emphasis is on how race/ethnicity has structured groups' experiences in relation to social institutions like health, education, culture and media, the legal system, and the economy.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing, or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3950 SOCIOLOGY OF LATIN AMERICA (3 credits)
The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's insertion in the global economy are examined.
Prerequisite(s)/Corequisite(s): Six hours in social sciences, three of which, at least, must be in Sociology, or by permission of the instructor.
Distribution: Global Diversity General Education course

SOC 4020 COLLECTIVE BEHAVIOR (3 credits)
Group and individual processes of ephemeral social action and institution formation are studied. The development of transitory groups and ideologies in new movements and organizations through opinion formation; case and comparative investigations of the origins and growth of collective movements are made and relevant social theories are applied. (Cross-listed with SOC 8026)
Prerequisite(s)/Corequisite(s): Nine hours of sociology, including SOC 1010, or permission of instructor.

SOC 4100 THE COMMUNITY (3 credits)
A basic course in community sociology. Sociological theory and the techniques of empirical research are applied to published studies of communities in the United States and elsewhere. The comparative social scientific method is elaborated as it pertains to data derived from community investigation. (Cross-listed with SOC 8106)
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010.
SOC 4130 SOCIOLGY OF DEVIANT BEHAVIOR (3 credits)
A theoretical analysis of the relation of deviant group behavior and subcultures to community standards of conventional behavior as expressed in law and norms. (Cross-listed with SOC 8136)
Prerequisite(s)/Corequisite(s): Nine hours of sociology, including SOC 1010, or permission of instructor.

SOC 4140 URBAN SOCIOLOGY (3 credits)
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with SOC 8146)
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010, or permission of instructor.

SOC 4150 AMERICAN FAMILY PROBLEMS (3 credits)
This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both "family" and "problems" is addressed throughout the course. (Cross-listed with SOC 8156)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing, or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4170 SOCIOLOGY OF FATHERHOOD (3 credits)
This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children's and men's well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 8176)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing, or permission of instruction. Not open to non-degree graduate students.

SOC 4200 SOCIOLOGY OF THE BODY (3 credits)
This course offers an overview of contemporary sociological theories of the body and uses these theories to explore substantive issues pertaining to the discourses, practices, and politics of the body in modern societies.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4210 DISABILITY AND SOCIETY (3 credits)
This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 8216)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4250 LATINO/A MIGRATION IN THE WORLD ECONOMY (3 credits)
This course covers issues related to: 1) the political-economic and socio-cultural factors that have shaped Latino/a migration streams historically and in today's world economy and, 2) contemporary empirical methodologies and findings related to the causes and multiple socioeconomic costs and benefits of migration streams for immigrants as well as sending and receiving communities. (Cross-listed with SOC 8256)
Prerequisite(s)/Corequisite(s): Enrollment in the sociology program or permission of the instructor.
Distribution: Global Diversity General Education course

SOC 4310 SOCIOLGY OF SEXUALITIES (3 credits)
This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomenon such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 8316)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing; or permission of the instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4350 WORK & FAMILY (3 credits)
This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 8356)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior or Senior standing; or permission of instructor.

SOC 4500 LAW, THE FAMILY, AND PUBLIC POLICY (3 credits)
This course analyzes law and public policy affecting the family in a variety of areas, which include: family violence; divorce, child custody, and child support; reproductive technology, contraception, and abortion; unmarried couples' and parents' rights; welfare; care and support of the aged; rights of parents to determine education and health care of their children; adoption and foster care, etc. New policy proposals and likely changes in law are considered, as well as the process of policy formation and legal change. The role of the professional in this system, including legal regulation and ethical issues, is considered. (Cross-listed with SOC 8506)
Prerequisite(s)/Corequisite(s): Junior standing or above and six hours of social sciences or human services or permission.

SOC 4550 SOCIAL DIVERSITY IN ORGANIZATIONS (3 credits)
This course focuses on the sociological understanding, analysis and management of social diversity in the workplace. Major issues and attitudes toward racial and ethnic minorities, older workers and workers with disabilities, as well as strategies for implementing diversity in the workplace are examined. (Cross-listed with SOC 8556)
Prerequisite(s)/Corequisite(s): Junior or senior standing, plus two of the following: SOC 1010, SOC 3180, SOC 3610, SOC 3800, SOC 3900, or SOC 4620

SOC 4620 SOCIOLOGY OF FORMAL ORGANIZATIONS (3 credits)
Examines organizational theory and research. Analyzes organizational problems such as goals and effectiveness; authority, leadership and control; professionals in organizations; communications; clients; organizational change, and organizations and their environments. Comparative analysis of many types of organizations such as business, industry, schools, prisons, and hospitals with special attention given to human-service organizations. (Cross-listed with SOC 8620)
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010

SOC 4700 WOMEN’S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with SOC 8706, HED 4700, HED 8706)
Prerequisite(s)/Corequisite(s): Junior Standing or permission of the instructor.
Distribution: U.S. Diversity General Education course
### SOC 4710 DEVELOPMENT OF SOCIOLOGICAL THEORY (3 credits)
An intellectual history of sociology as an academic discipline surveying outstanding contributions to its body of theory. Stress is placed on the development of sociology as a science with illustrative materials drawn from the established works of recent decades although backgrounds to these are traced to their ancient and medieval antecedents where applicable.
**Prerequisite(s)/Corequisite(s):** Sociology major (seniors only) or permission of instructor.

### SOC 4740 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)
This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 8746)
**Prerequisite(s)/Corequisite(s):** SOC 1010 and junior standing; or permission of instructor.

### SOC 4750 SOCIAL CHANGE AND GLOBALIZATION (3 credits)
A historical and comparative review of theories, models, and political ideologies of social change. Topics include the globalization model of social change and the role that governments, transnational corporations, multilateral agencies, and local groups and organizations play today in creating and responding to social change. (Cross-listed with SOC 8756)
**Prerequisite(s)/Corequisite(s):** SOC 1010 and junior or higher.

### SOC 4800 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)
This course reviews research and writing in an area which is of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topic will vary, students may elect to take this course more than once. (Cross-listed with SOC 8806)
**Prerequisite(s)/Corequisite(s):** Permission.

### SOC 4820 TEAM RESEARCH SEMINAR (3 credits)
Students participate in a semester long class research project. Students will be involved in all stages of research: problem formulation, literature review, research design, measurement construction, data collection, data analysis, report writing and presentation of findings. The project's focus will vary, but it may often involve issues confronting Omaha, a particular organization or a specific group of people. (Cross-listed with SOC 8826)
**Prerequisite(s)/Corequisite(s):** Junior and SOC 2510 and permission of instructor.

### SOC 4830 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)
This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 8836)
**Prerequisite(s)/Corequisite(s):** SOC 1010, and junior standing; or permission of the instructor.

### SOC 4850 SOCIOLOGY OF RELIGION (3 credits)
Analysis of religious behaviors from a sociological and social-psychological perspective, and utilizing both theoretical and empirical materials. The class is designed as an introductory approach to the sociology of religion, and the first in a two-step sequence, undergraduate and graduate. (Cross-listed with SOC 8856)
**Prerequisite(s)/Corequisite(s):** SOC 1010 or permission of instructor.

### SOC 4900 SENIOR THESIS (4 credits)
This is a research course designed for sociology majors who are in their senior year. Each student will develop an original thesis project in this course. This course meets the UNO general education requirement for a third, upper division writing course. Students will produce an original 20 page thesis based upon material of special interest to them over the course of their major field of study.
**Prerequisite(s)/Corequisite(s):** SOC 1010, 2120, 2130, 2134, 3510, 3514, and six (6) additional hours of upper division sociology or anthropology courses. Sociology majors and senior standing. Not open to non-degree graduate students.

### SOC 4910 INTERNSHIP IN SOCIOLOGY (1-3 credits)
This course offers students an opportunity to experience sociology and/or anthropology through direct involvement in non-profit, for profit, government, or other organization. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
**Prerequisite(s)/Corequisite(s):** Senior standing and permission of instructor.

### SOC 4990 INDEPENDENT STUDY (1-3 credits)
Guided readings or independent research in special topics under the supervision of a faculty member. A formal contract specifying the nature of the work to be completed must be signed before registering for the course. SOC 4990 may be taken for a maximum of six hours.
**Prerequisite(s)/Corequisite(s):** Permission of instructor.

### Spanish (SPAN)

#### SPAN 1000 PRACTICAL SPANISH CONVERSATION (3 credits)
Oral practice involving everyday situations. Not applicable to the foreign language requirement in the College of Arts and Sciences.

#### SPAN 1110 ELEMENTARY SPANISH I (5 credits)
Elementary Spanish I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural topics from across the Spanish-speaking world.
**Distribution:** Global Diversity General Education course and Humanities and Fine Arts General Education course

#### SPAN 1120 ELEMENTARY SPANISH II (5 credits)
Pronunciation, listening comprehension, speaking, reading, and writing.
**Prerequisite(s)/Corequisite(s):** SPAN 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

#### SPAN 2110 INTERMEDIATE SPANISH I (3 credits)
Grammar review, continued oral practice, writing and introduction to literary readings.
**Prerequisite(s)/Corequisite(s):** SPAN 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

#### SPAN 2120 INTERMEDIATE SPANISH II (3 credits)
Grammar review, continued oral practice, writing and introduction to literary readings.
**Prerequisite(s)/Corequisite(s):** SPAN 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

#### SPAN 2130 ACCELERATED SECOND-YEAR SPANISH (6 credits)
This accelerated course combines the content of Intermediate Spanish I and Intermediate Spanish II, including grammar review, continued oral practice, writing, and introduction to literary readings. Successful completion of this course fulfills the College of Arts and Sciences foreign language requirement. The entire course must be completed to receive credit.
**Prerequisite(s)/Corequisite(s):** SPAN 1120 or placement by Department of Foreign Languages diagnostic examination.
SPAN 3010 SPANISH FOR HERITAGE SPEAKERS I (3 credits)
This course is designed to offer Spanish-speaking students an opportunity to study Spanish in an academic setting. Students will acquire Spanish literacy skills, develop their academic language skills in Spanish, and learn more about the Spanish language and their cultural heritage.
Prerequisite(s)/Corequisite(s): Placement exam results or adviser permission

SPAN 3020 SPANISH FOR HERITAGE SPEAKERS II (3 credits)
This course will continue to build upon the Spanish language skills students have covered in Spanish for Heritage Speakers I. Students will develop strategic academic vocabulary, learn to critically analyze a text, produce a variety of written texts, and acquire new information in different academic content areas.
Prerequisite(s)/Corequisite(s): SPAN 3010 or adviser permission

SPAN 3030 SPANISH CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels.
Prerequisite(s)/Corequisite(s): SPAN 2120 or placement by Department of Foreign Languages diagnostic examination, or departmental permission.

SPAN 3040 SPANISH GRAMMAR AND COMPOSITION (3 credits)
Review of grammatical principles and practice in written composition.
Prerequisite(s)/Corequisite(s): SPAN 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission.

SPAN 3060 READINGS IN SPANISH (3 credits)
This course aims to increase students’ fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students’ vocabulary through the use of a variety of primary sources; many genres will be sampled.
Prerequisite(s)/Corequisite(s): SPAN 2120: Intermediate Spanish II. Not open to non-degree graduate students.

SPAN 3170 SURVEY OF SPANISH LITERATURE I (3 credits)
Introduction to the principal authors and works of Spanish literature from El Cid to the 17th century.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3180 SURVEY OF SPANISH LITERATURE II (3 credits)
Major Spanish writers and works of the 18th, 19th and 20th centuries.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3210 SURVEY OF LATIN AMERICAN LITERATURE I (3 credits)
Spanish American literature from the colonial period to modernism.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3220 SURVEY OF LATIN AMERICAN LITERATURE II (3 credits)
From modernism to contemporary works and writers.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3410 SPANISH CIVILIZATION (3 credits)
History, geography, national economy, education, art, music and literature of Spain.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3420 LATIN AMERICAN CIVILIZATION (3 credits)
History, architecture, painting, music, education, religion, and literature of Latin America.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3510 SPANISH PHONETICS AND PHONOLOGY (3 credits)
Introduction to basic concepts in phonetics and phonology, and intensive practice in Spanish pronunciation.
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3040. Not open to non-degree graduate students.

SPAN 3580 BUSINESS SPANISH (3 credits)
An introduction to the Spanish business world. Students will acquire the necessary skills and strategies to understand the differences in business practices and cultures between the US and Spanish-speaking countries. No prior business knowledge is required.
Prerequisite(s)/Corequisite(s): SPAN 3030 and SPAN 3040, or permission from a Spanish advisor.

SPAN 4030 ADVANCED SPANISH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with SPAN 8036)
Prerequisite(s)/Corequisite(s): SPAN 3030 or departmental permission.

SPAN 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition and stylistics. (Cross-listed with SPAN 8046)
Prerequisite(s)/Corequisite(s): SPAN 3040 or departmental permission, and ENGL 1160.

SPAN 4150 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/ Culture: Central America and the Caribbean 1898-2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 8156, CACT 8416)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040 and SPAN 3060 or permission of instructor

SPAN 4160 LATIN AMERICAN LITERATURE OF THE 20TH CENTURY (3 credits)
Critical and analytical study of Spanish-American dramatists, poets, and essayists from modernism to the present. (Cross-listed with SPAN 8166)
Prerequisite(s)/Corequisite(s): SPAN 3220 or departmental permission.

SPAN 4220 THE STRUCTURE OF SPANISH (3 credits)
A survey of the linguistic structure of Spanish. Topics include phonology, morphology, syntax, and semantics. (Cross-listed with SPAN 8226)
Prerequisite(s)/Corequisite(s): SPAN 3040 and ENGL 3610 or ENGL 8615, or departmental permission.

SPAN 4350 LATIN AMERICAN SHORT STORY (3 credits)
Representative stories of the 19th and 20th centuries, from Romanticism to the present. (Cross-listed with SPAN 8356)
Prerequisite(s)/Corequisite(s): SPAN 3210 and SPAN 3220 or departmental permission.

SPAN 4450 INTRODUCTION TO LITERARY CRITICISM (3 credits)
An introduction to modern literary theory, from Ferdinand de Saussure’s course in general linguistics and Russian formalism, to postmodernism. Theory will be read in English and Spanish. Literature for discussion and analysis will be read in Spanish. (Cross-listed with SPAN 8456)
Prerequisite(s)/Corequisite(s): SPAN 3030 and SPAN 3040, or permission.

SPAN 4800 INTERNSHIP IN SPANISH (3 credits)
This course is a supervised internship in a professional setting with a for-profit, government or non-profit organization. Students will receive hands-on experience involving translation, interpretation, community outreach, planning of educational opportunities or community events in Spanish. Internship specific projects and goals will be decided between employer and student and approved by the Spanish internship director. Some internships will be paid, but most will not.
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060, junior or senior standing, and internship director permission. Not open to non-degree graduate students.
SPAN 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student’s regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work. (Cross-listed with SPAN 8906)
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission.

SPAN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 8956)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 8966)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060.

SPAN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONA (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 8976)
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060

Special Education & Communication Disorders (SPED)

SPED 1110 AMERICAN SIGN LANGUAGE I (3 credits)
This is the beginning course in a five course series teaching American Sign Language. Candidates will be introduced to use of body language/mime, basic sentence types, manual alphabet, manual numbers/number systems, basic vocabulary (n=300).
Prerequisite(s)/Corequisite(s): co-requisite SPED 1114

SPED 1114 AMERICAN SIGN LANGUAGE I LAB (1 credit)
This is the co-requisite lab course for SPED 1110, American Sign Language I. Students will complete a minimum of 10 hours in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s)/Corequisite(s): Co-requisite: SPED 1110

SPED 1120 AMERICAN SIGN LANGUAGE II (3 credits)
This is the second course in a five course series teaching American Sign Language. Candidates will continue to develop the use of body language/mime, basic sentence types, manual alphabet, manual numbers/number systems, and intermediate vocabulary (n=300).
Prerequisite(s)/Corequisite(s): Co-requisite: SPED 1124; SPED 1110 and SPED 1114 with a grade of C or higher.

SPED 1124 AMERICAN SIGN LANGUAGE II LAB (1 credit)
This is the co-requisite lab course for SPED 1120, American Sign Language II. Students will complete a minimum of 10 hours in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s)/Corequisite(s): SPED 1110 and SPED 1114 with a grade of C or higher; Co-requisite: SPED 1120.

SPED 1400 INTRODUCTION TO COMMUNICATION DISORDERS (3 credits)
This course is designed to introduce the candidate to the fields of speech-language pathology, audiology, and education of the deaf/hard of hearing. The course is an overview of normal development of speech, language, and hearing, and the disorders of human communication in children and adults.
Distribution: U.S. Diversity General Education course and Social Science General Education course

SPED 1500 INTRODUCTION TO SPECIAL EDUCATION (3 credits)
This course is designed to help students explore issues and perspectives related to children, adolescents, and young adults with a variety of abilities and disability experiences. It provides an introduction to the historical factors, legislation, terminology, etiology, characteristics that are commonly encountered when addressing the needs of diverse students with disabilities ranging from mild, moderate to severe.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course and Social Science General Education course

SPED 2100 PROFESSIONALISM & ETHICS OF INTERPRETING (3 credits)
This survey course provides an introduction to the profession and ethics of sign language interpreting. The student learns what is expected of an interpreter (roles, functions, responsibilities) and applies this knowledge to a variety of settings. Information about the history of the profession, professional organizations, and settings where interpreters work is presented. Students will be introduced to Demand/Control Schema as a foundation for assessment ethical scenarios.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA and/or special permission from the instructor.

SPED 2110 AMERICAN SIGN LANGUAGE III (3 credits)
This is the third course in a five course series teaching American Sign Language (ASL). Candidates will continue to develop the use of body language/mime, sentence types, and advanced-intermediate vocabulary (n=300).
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 1120 and SPED 1124 with a grade of C or higher; co-requisite: SPED 2114.

SPED 2114 AMERICAN SIGN LANGUAGE III LAB (1 credit)
This is the co-requisite lab course for SPED 2110, American Sign Language III. Students will complete a minimum of 10 hours in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 1120 and SPED 1124 with a grade of C or higher; co-requisite: SPED 2110.

SPED 2120 AMERICAN SIGN LANGUAGE IV (3 credits)
This is the fourth course in a five course series teaching American Sign Language (ASL). Candidates will continue to develop the use of body language/mime, sentence types, and advanced vocabulary (n=300).
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 2110 and SPED 2114 with a grade of C or higher; co-requisite: SPED 2110.

SPED 2124 AMERICAN SIGN LANGUAGE IV LAB (1 credit)
This is the co-requisite lab course for SPED 2120, American Sign Language IV. Students will complete a minimum of 10 hours in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s)/Corequisite(s): Co-requisite SPED 2120, minimum , cumulative 2.75 GPA, SPED 2110 and SPED 2114 with a grade of C or higher, or comparable coursework and/or demonstrated proficiency.

SPED 2200 HISTORY, PSYCHOLOGY AND SOCIETY OF DEAFNESS (3 credits)
This is an introductory course which surveys historical, psychological, and sociological aspects of deafness. This course introduces students to aspects of Deaf Culture and the Deaf Community. It will also examine current issues and future directions in the education of children who are deaf or hard of hearing. Basic concepts, theories, research, and philosophical debates are explored through assigned readings, independent work, and classroom activities.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA.
Distribution: U.S. Diversity General Education course

SPED 3000 SPECIAL STUDIES (1-3 credits)
This course is designed to allow candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.
Prerequisite(s)/Corequisite(s): Permission by instructor
SPED 3020 DATA COLLECTION TECHNIQUE: ROLE IN TEACHING LEARNING PROCESS (3 credits)
This is a course on formal and informal assessment for Special Education. Candidates will learn how to collect assessment data to be used for data based decision making.
Prerequisite(s)/Corequisite(s): EDUC 2510 & EDUC 2520 or SPED 1500 & TED 2400; GPA = 2.75 and Co-requisite SPED 4640 & SPED 4000

SPED 3100 ENGLISH/ASL COMPARATIVE LING (3 credits)
This course offers a study of the fundamental concepts of linguistics and its application to the study of American Sign Language. Candidates will compare and contrasting English and American Sign Language structure. Focus will be on the fundamental areas of linguistic inquiry, which include phonology, morphology, syntax, semantics, and the use of language. Using current research, candidates will begin to think critically about the structure of ASL and its recognition as a language. Candidates will be expected to translate between English and signed languages to deepen understanding of the study of linguistics. A video will supplement the textbook by providing examples of signs/concepts discussed in the course.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 2120 ASL IV or comparable course work, or demonstrated proficiency.

SPED 3110 AMERICAN SIGN LANGUAGE V (3 credits)
This is the fifth course in a series teaching American Sign Language. Focus will be on cognitive processing, fingerspelling and communicating personal experiences. Students will develop translations between English and ASL to demonstrate knowledge and understanding of both languages. This course is one of many that prepares candidates to be dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of C or higher; co-requisite: SPED 3114.

SPED 3114 AMERICAN SIGN LANGUAGE V LAB (1 credit)
This is the fifth lab course in a series teaching American Sign Language. The lab course will focus on aspects of receptive and expressive fingerspelling, numeral incorporation and classifiers of ASL. Students will demonstrate conversational skills incorporating ASL representative, descriptive and instrumental classifiers. Students will complete a minimum of 10 hours in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s)/Corequisite(s): Minimum cumulative 2.5 GPA and SPED 2120, SPED 2124, or permission of instructor. Not open to non-degree graduate students.

SPED 3120 ACADEMIC INTERPRETING (3 credits)
In this course candidates will focus on skills required for interpreting in a variety of academic settings. Candidates will learn to produce appropriate and equivalent interpreted messages between signed and spoken communication. Candidates will observe and analyze spoken and signed language used in the classroom and in extracurricular activities. Candidates will understand the interpreter’s role as part of the educational team and how that impacts their work with students. Also included will be review and deeper exploration of communication styles, modes and language used by children.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 3110 or special permission from the instructor. Not open to non-degree graduate students.

SPED 3130 COMMUNITY INTERPRETING (3 credits)
In this course students will learn skills in producing equivalent ASL and/or English messages in both consecutive and simultaneous interpreting. Students will interpret for adults and children moving from monologues to dialogues developing fluency, speed and accuracy. Students will continue to develop their English vocabulary, ASL vocabulary, interpreting analysis skills and strategies for team interpreting within the genres of medical and mental health, employment and vocational settings, social services, business and insurance.
Prerequisite(s)/Corequisite(s): GPA 2.75 or better and SPED 3110, or special permission from the instructor.

SPED 3140 DISCOURSE ANALYSIS AND SOCIOLINGUISTICS FOR INTERPRETERS (3 credits)
During the course students will analyze language use in spoken English and American Sign Language (ASL) so that features of language use rise to the level of explicit awareness. Students collect, transcribe, and analyze various speech activities while reading and discussing theoretical notions underlying language use.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 2110 and SPED 2114 or special permission from the instructor. Not open to non-degree graduate students.

SPED 3150 COGNITIVE PROCESSING IN ASL AND ENGLISH (3 credits)
This course presents practice of cognitive skills used in the process of interpreting. Skills include visualization, prediction, listening, memory, abstracting, closure, dual tasking, and processing time. Integration and application of these skills will lead to a self-monitoring process that will allow for self-assessment and commentaries on work performed. This course will prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Minimum cumulative 2.75 GPA, and SPED 2110 and SPED 2114 or instructor permission. Not open to non-degree graduate students.

SPED 3200 WRITING FOR THE PROFESSION OF SPEECH-LANGUAGE PATHOLOGY (3 credits)
This course provides candidates with instruction and practice in professional and scientific writing in the area of communication disorders. The focus is on principles of composition and modes of writing suited to scientific and clinical demands. Participants will learn to adapt writing for the needs of various academic and professional audiences including the ethical implications. Professional and evidence-based writing are essential functions for dedicated practitioners, reflective scholars and responsible citizens working in school, medical, and university settings.
Prerequisite(s)/Corequisite(s): ENGL 1160 and SPED major.

SPED 3800 DIFFERENTIATION AND INCLUSIVE PRACTICES (3 credits)
This course is designed to examine characteristics of students with various learning needs and how to apply principles of Universal Design for Learning (UDL) to meet their needs in an inclusive environment. This course will expand the special education content knowledge of general education teachers so they can meet the needs of all students by planning lessons using the UDL framework. The purpose of this course is for general education teacher candidates to gain content knowledge about special education policies and procedures to utilize various educational, emotional, and social accommodations necessary to provide unique and effective educational or alternative responses for students with various learning needs.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA. Not open to non-degree graduate students.

SPED 4000 PRACTICUM IN SPECIAL EDUCATION (3 credits)
This practicum will examine special education methods, techniques and strategies used with children and youth with disabilities in a variety of K-12 school settings. Classroom practice and application of instructional planning and implementation, assessment techniques and behavior management will be emphasized. Collaboration and consultation models will also be included in this experience.
Prerequisite(s)/Corequisite(s): EDUC 2510 & EDUC 2520 or SPED 1500 & TED 2400; GPA 2.75 or higher. Co-requisites: SPED 3020 & SPED 4640. Not open to non-degree graduate students.
SPED 4010 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)
This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 4010, COUN 8016, SPED 8016).
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA, and SPED 1500 or EDUC 2510

SPED 4040 WORKSHOP SPECIAL EDUCATION OR SPEECH PATHOLOGY (1-6 credits)
The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 8046).
Prerequisite(s)/Corequisite(s): Must have a GPA of 2.75 or higher and permission.

SPED 4110 SIGNED ENGLISH AND OTHER SYSTEMS (3 credits)
This course examines the communication modes and methods used in educational settings with people who are deaf or hard of hearing. Students will learn to sign simultaneously and consecutively when viewing video or listening to audio of native English speakers from a variety of educational settings. Video relay, Deaf-Blind, Mental Health, Legal, Religious, Multi-cultural and Theatrical settings are among the specialized settings in which interpreting students will participate in additional training.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 3110 or special permission from the instructor.

SPED 4150 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)
This course is designed to provide preservice teacher candidates and graduate candidates skills and strategies for instructing students with mild to moderate disabilities that struggle to acquire literacy skills. Emphasis is placed on diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.
Prerequisite(s)/Corequisite(s): Candidates must have successfully completed TED 2400 and SPED 1500. Not open to non-degree graduate students.

SPED 4180 INTERPRETING IN SPECIALIZED SETTINGS (3 credits)
This course focuses on interpreting/transliterating for special populations in a variety of specialized settings. Video relay, Deaf-Blind, Mental Health, Legal, Religious, Multi-cultural and Theatrical settings are among the specialized settings in which interpreting students will participate in additional training.
Prerequisite(s)/Corequisite(s): GPA 2.75 or better and SPED 3110 or special permission from the instructor. Not open to non-degree graduate students.

SPED 4220 TEACHING SPEECH TO THE DEAF/HARD OF HEARING (3 credits)
This course will provide an investigation of the speech skills of the deaf/hard of hearing child, preschool through high school. Current theories and practices in teaching speech will be examined. This course will also present methods for assessing speech problems in deaf/hard of hearing children, making the necessary adaptations and modifications, and integrating technology.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; EDUC 2510 or SPED 1500 or permission of the instructor.

SPED 4230 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)
This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 8236).
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; EDUC 2510 or SPED 1500.

SPED 4240 TEACHING/INTERPRETING LANGUAGE TO DEAF/HARD OF HEARING (5 credits)
This course is designed for candidates seeking to be teachers of the Deaf/Hard of Hearing or sign language interpreters. It will examine specific programs, methods, and techniques employed in fostering literacy and signacy with D/HH children from primary through secondary levels. Current theories and practices in reading and language arts instruction will be examined. This course will also present methods for assessing reading and writing, differentiating instruction, integrating technology, and collaborating with families.
Prerequisite(s)/Corequisite(s): D/HH Endorsement: minimum 2.75 GPA; SPED 2110; EDUC 2510 or SPED 1500; TED 2400. Sign Language Interpreting Concentration: minimum 2.75 GPA; SPED 2110; or permission of the instructor.

SPED 4280 TEACHING AMERICAN SIGN LANGUAGE AS A WORLD LANGUAGE (3 credits)
This course provides a hands-on experience in the design and implementation of ASL instruction and curriculum. The course will address methods, materials, program evaluation, and teaching approaches for preparing professional instructors of ASL.
Prerequisite(s)/Corequisite(s): Min 2.75 GPA & proficiency in ASL. Prof shown by one of the following: complete ASL I-V courses, personal interview w/instructor, or a min level of 3 on ASL Proficiency Interview or Sign Comm Proficiency Interview. Not open to non-degree grad students.

SPED 4310 VOICE-TO-SIGN (3 credits)
This course begins consecutively interpreting monologues from the source language (English) to the target language (ASL). Students will listen to entire English monologues, process them, analyze them, and then choose appropriate ASL to match the message. The course provides instruction on refining and enhancing voice-to-sign skills, specifically simultaneously producing equivalent ASL messages from spoken English source messages. Students will learn to sign simultaneously and consecutively when viewing video or listening to audio of native English speakers from a variety of settings.
Prerequisite(s)/Corequisite(s): Minimum GPA 2.75 or better, and SPED 3110 or special permission from the instructor.

SPED 4320 SIGN-TO-VOICE (3 credits)
This course provides instruction on refining and enhancing sign-to-voice skills, specifically simultaneously sign-to-voice transliterating and interpreting. Students will learn to voice simultaneously and consecutively when viewing video of native signers who use a variety of signing modalities to communicate. Students will develop the ability to produce an equivalent English message from ASL source messages.
Prerequisite(s)/Corequisite(s): Minimum 2.75 GPA; SPED 3110 or special permission from the instructor.

SPED 4330 AURAL REHABILITATION (3 credits)
This course examines the processes and procedures in determining the aural rehabilitation needs of individuals with hearing loss (children through adult) and developing effective intervention programs.
Prerequisite(s)/Corequisite(s): SPED 4370 and GPA 3.0 or higher, or permission by instructor for D/HH majors.
Prerequisite(s)/Corequisite(s):

 Responsible citizens.

 SPED 4370 BASIC AUDIOLOGY (3 credits)
The purpose of the course is to provide a general introduction to the study of audiology. Emphasis is on hearing disorders, hearing screening, the basic audiological assessment battery, and site-of-lesion assessment. Competency is obtained in performance of hearing and impedance screening and in interpretation of basic audiological assessment results.

 Prerequisite(s)/Corequisite(s): Minimum 3.0 GPA and SPED 4390

 SPED 4380 ANATOMY AND PHYSIOLOGY (3 credits)
This course introduces candidates to the field of speech science. It examines the anatomy and physiology of the human communication process. The mechanisms of respiration, phonation, resonance, speech articulation, and basic neurology will be explored from the biological standpoint.

 Prerequisite(s)/Corequisite(s): Minimum 3.0 GPA

 SPED 4390 HEARING SCIENCE (3 credits)
This course is designed for undergraduate majors in speech-language pathology and audiology and for graduate candidates in education of the deaf/hard of hearing. The course will include basic terminology, anatomy and physiology of the hearing mechanism, acoustics and physics of sound, the processes of human hearing, elements of basic hearing measurements, psychophysics. This course will prepare speech-language pathology candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 8396).

 Prerequisite(s)/Corequisite(s): 2.8 GPA and SPTH major

 SPED 4420 EARLY LANGUAGE DEVELOPMENT IN CHILDREN (3 credits)
This course is designed to introduce the candidate to the typical development of speech and language in young children. Theories of development and the major developmental processes, which occur during the early childhood years, will be presented.

 Prerequisite(s)/Corequisite(s): Overall GPA of 3.0. Not open to non-degree graduate students.

 SPED 4430 ARTICULATION AND PHONOLOGICAL DISORDERS (3 credits)
The purpose of the course is to introduce candidates to the study of the disorders of articulation and of phonological processes. The course will include the study of normal phonological development and normal acquisition of speech sounds in addition to the study of phonological simplification processes and disordered articulatory patterns.

 Prerequisite(s)/Corequisite(s): Minimum 3.00 GPA; SPED 4450. This course is designed for undergraduate candidates majoring in speech-language pathology.

 SPED 4440 PHONETICS (3 credits)
The course covers basic theories of phonetics and experience in the application and use of the IPA. It also addresses the use of phonetics in the assessment process. Candidates learn about one aspect of their career that will lead to their becoming dedicated practitioners, reflective scholars, and responsible citizens.

 Prerequisite(s)/Corequisite(s): SPTH major

 SPED 4450 PRINCIPLES OF ASSESSMENT AND INTERVENTION (3 credits)
The purpose of the course is to examine the various aspects of the profession of speech-language pathology as related to scope of practice, prescriptive methodology, models of assessment and service delivery and the selection and use of clinically-oriented technology and materials. Accountability (documentation, data collection, report writing, and service plans), multi-interdisciplinary team membership, case selection and referral processes will also be examined. This course will provide the students with the knowledge and skills to implement appropriate assessment procedures and create an effective learning environment for each individual client.

 Prerequisite(s)/Corequisite(s): SPED 4490

 SPED 4460 LATER LANGUAGE DEVELOPMENT IN CHILDREN (3 credits)
This course is designed to introduce the student to the normal development of speech and language in children beyond five years of age. Theories of development and the major developmental processes which occur during school age and adolescent years will be presented. The relationship of language to academic performance and learning processes will be included.

 Prerequisite(s)/Corequisite(s): Admission to the Pre-Professional Speech-Language Pathology program and SPED 4420

 SPED 4470 NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE (3 credits)
The purpose of this course is to provide speech-language pathology undergraduate students an introduction to human neuroanatomy and neurophysiology of the speech, language and hearing mechanisms, across the lifespan. Emphasis is placed on developing an understanding of the neurophysiological underpinnings of human communication and its disorders.

 Prerequisite(s)/Corequisite(s): Undergraduate standing, speech-language pathology majors only, and SPED 4380 or equivalency. Not open to non-degree graduate students.

 SPED 4480 RESEARCH METHODS IN COMMUNICATION DISORDERS (3 credits)
This course will provide candidates with an introductory set of skills to interpret and evaluate research in communication disorders and closely related fields. In addition, this course will provide candidates with basic knowledge regarding research designs and analyses commonly used in communication disorders and related fields. The content addressed in this course will prepare candidates to judiciously evaluate evidence-based practice and apply the scientific method to clinical decision-making. It offers an opportunity to cultivate critical thinking skills imperative to becoming dedicated practitioners, reflective scholars, and responsible citizens who can adeptly meet the ever-evolving challenges of their profession. (Cross-listed with SPED 8486).

 Prerequisite(s)/Corequisite(s): This course is designed for graduate and undergraduate students majoring in speech-language pathology and is a required course for speech-language pathology candidates.

 SPED 4490 INTRO TO PROFESSIONAL PRACTICES (3 credits)
This course is designed to precede the candidates' first practicum experiences. Candidates will learn about issues affecting their roles and responsibilities as speech-language pathologists. Information about state and national certification, licensure and professional organizations, professional ethics, philosophical bases and professional practice patterns regarding the assessment process in speech-language pathology, and counseling parents in prevention of speech/language disorders is central to the course. Candidates will develop an understanding of how cultural/ethnic diversity affects the assessment process and learn how to identify speech/language differences vs. disorders.

 Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

 SPED 4500 PRINCIPLES OF ASSESSMENT AND INTERVENTION (3 credits)
The purpose of the course is to examine the various aspects of the profession of speech-language pathology as related to scope of practice, prescriptive methodology, models of assessment and service delivery and the selection and use of clinically-oriented technology and materials. Accountability (documentation, data collection, report writing, and service plans), multi-interdisciplinary team membership, case selection and referral processes will also be examined. This course will provide the students with the knowledge and skills to implement appropriate assessment procedures and create an effective learning environment for each individual client.

 Prerequisite(s)/Corequisite(s): SPED 4490
SPED 4510 BASIC CLINICAL PRACTICUM IN SPEECH PATHOLOGY (3 credits)
This course is the entry level clinical course for undergraduate candidates majoring in Speech-Language Pathology. Candidates are offered their first opportunity to apply theoretical knowledge in a hands-on clinical experience under the direct supervision of licensed and certified speech-language pathologists.
Prerequisite(s)/Corequisite(s): SPED 4490, overall 3.0 GPA in major, Senior standing, Speech-Language Pathology major, Permission from program faculty. Not open to non-degree graduate students.

SPED 4550 SPECIAL NEEDS STUDENTS FROM DIVERSE COMMUNITIES (3 credits)
The purpose of this course is to study the impact of cultural and linguistic diversity on communication, learning, and behavior. The contrast between what is considered normal language / learning development and in the presence of culturally and linguistically diverse (CLD) P-12 students will receive special emphasis. (Cross-listed with SPED 8556).

SPED 4640 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)
This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and many evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL). (Cross-listed with SPED 8646).
Prerequisite(s)/Corequisite(s): SPED 1500 or EDUC 2510 or SPED 1500.

SPED 4650 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with COUN 8656 and SPED 8656). Prerequisite(s)/Corequisite(s): EDUC 2510 or SPED 1500

SPED 4700 CLINICAL PRACTICE IN SPECIAL EDUCATION (6 credits)
This course provides candidates with experience teaching students with exceptionalities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate’s involvement in this course. This course is intended for candidates who are completing a dual endorsement program (special education and another endorsement).
Prerequisite(s)/Corequisite(s): GPA minimum of 2.75 and completion of all required coursework in special education. Co-Requisite: TED 4650. Not open to non-degree graduate students.

SPED 4710 INTERACTIONS AND COLLABORATION (3 credits)
This course is offered to investigate the building blocks of collaboration. Effective interpersonal communication and collaboration skills are presented as the foundation necessary to build relationships among school personnel, families and community members. (Cross-listed with SPED 8716).
Prerequisite(s)/Corequisite(s): SPED 1500 or EDUC 2510, EDUC 2520 or TED 2400, Minimum 2.75 GPA.

SPED 4720 CLINICAL PRACTICE IN SPECIAL EDUCATION (12 credits)
This course provides candidates with a practical experience teaching students with disabilities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate’s involvement in this course.
Prerequisite(s)/Corequisite(s): GPA minimum of 2.75, Completion of all required course work in special education.

SPED 4724 SPECIAL EDUCATION CLINICAL TEACHING ORIENTATION (0 credits)
This course is the special education clinical teaching orientation that is paired with the Clinical Teaching in Special Education course.
Prerequisite(s)/Corequisite(s): GPA = 2.75 or better. Completion of all required course work in special education. Co-requisite SPED 4720 or SPED 4730.

SPED 4730 ADVANCED CLINICAL PRACTICE IN SPECIAL EDUCATION (3 credits)
A second semester of special education clinical practice experience in a placement working with exceptional children. Observation, participation and actual teaching will be part of the candidate’s experience.
Prerequisite(s)/Corequisite(s): GPA minimum of 2.75, SPED 4720 and permission.

SPED 4740 EDUCATIONAL INTERPRETING PRACTICUM AND SEMINAR (6 credits)
The practicum candidate will work with a mentor to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.
Prerequisite(s)/Corequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, and SPED 4240.

SPED 4750 INTRODUCTION TO CHILDHOOD LANGUAGE DISORDERS (3 credits)
This course is designed to introduce the candidate to the theory and clinical practices related to assessment and management of language disorders in children and adolescents. It will cover specific strategies for identifying language disorders and evidence-based approaches to the management of language disorders, including data collection strategies and methods of evaluating efficacy of intervention.
Prerequisite(s)/Corequisite(s): SPED 4420 and SPED 4460. Not open to non-degree graduate students.

SPED 4760 COMMUNITY INTERPRETING PRACTICUM AND SEMINAR (6 credits)
The practicum candidate will work with a mentor in various community settings to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.
Prerequisite(s)/Corequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, and SPED 4240. Not open to non-degree graduate students.

SPED 4800 SOCIAL AND EMOTIONAL DEVELOPMENT OF CHILDREN AND YOUTH (3 credits)
This course is designed to prepare teacher candidates and graduate candidates with the understanding of the psychological, biological and environmental factors that affect the social-emotional development of children and adolescents. Emphasis is placed on the interaction of these factors for children with exceptional learning needs and the implications for the learning environment. (Cross-listed with SPED 8806).
Prerequisite(s)/Corequisite(s): GPA = 2.75 or better and completion of EDUC 2510 or SPED 1500.

SPED 4810 BEHAVIOR INTERVENTIONS AND SUPPORTS (3 credits)
This course introduces a variety of practical interventions that teachers may use to support the positive classroom behavior of all students within a tiered model. Universal, targeted, and individualized strategies are presented. (Cross-listed with SPED 8816).
Prerequisite(s)/Corequisite(s): 2.75 GPA, EDUC 2510 or SPED 1500.
SPED 4820 EARLY CHILDHOOD INCLUSIVE EDUCATION SYSTEMS, POLICY, AND ADVOCACY (1 credit)
The purpose of this course is to provide an overview of the history and perspectives of key developmental theories, laws, and policies related to inclusive early childhood education. Particular attention will be paid to culturally responsive approaches to ECIE, local, state, federal, and global policy, professional roles, ethics, and advocacy. Emphasis is on current research, theory, and evidence-based practice.
Prerequisite(s)/Corequisite(s): TED 2250. Not open to non-degree graduate students.

SPED 4830 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)
This course is designed to help students develop skills for effective and culturally responsive assessment and evaluation of infants, toddlers, and young children. Such assessment is vital for understanding developmental needs of young children, planning appropriate curriculum and interventions, identifying children’s special needs, evaluating early childhood programs, and providing accountability information to funders and stakeholders.
Prerequisite(s)/Corequisite(s): Admission to the Early Childhood Inclusive Education program, TED 2250. Not open to non-degree graduate students.

SPED 4850 HEALTH AND WELL-BEING OF INFANTS AND TODDLERS (3 credits)
This course is designed to help students gain knowledge and skills that will enable them to promote the healthy development of infants and young children. There will be an emphasis on effective and culturally responsive collaboration with families and caregivers.
Prerequisite(s)/Corequisite(s): Admission to the Early Childhood Inclusive Education program. The following course is a prerequisite: TED 2250. Not open to non-degree graduate students.

SPED 4860 RESPONSIVE AND REFLECTIVE TEACHING IN EARLY CHILDHOOD (3 credits)
This course will prepare early childhood inclusive education majors to plan and deliver supports to a diverse array of young children (birth to age 8) and their families. Candidates will be trained in evidence-based practices used for promoting language, problem-solving, motor skills, adaptive behavior, play, and social/emotional growth in young children. There is an emphasis on anti-bias approaches to education, as well as educators’ reflections upon their practices.
Prerequisite(s)/Corequisite(s): Admission to the Early Childhood Inclusive Education program, TED 2250. Not open to non-degree graduate students.

SPED 4870 PRACTICUM WITH INFANTS AND TODDLERS (3 credits)
This advanced practicum is a guided experience for candidates pursuing an emphasis in the area of Early Childhood Inclusive Education (ECIE) birth through age 3. Candidates will be required to demonstrate competencies related to promoting the development of infants and toddlers, and the skills and confidence of their families/caregivers. This is the last practicum course prior to the clinical practice semester.
Prerequisite(s)/Corequisite(s): Completion of ECIE undergraduate courses: TED 2250, TED 2350, SPED 4230, TED 4250, SPED 4830, SPED 4860; GPA 2.75 or higher. Co-requisites: TED 4210 and SPED 4850. Not open to non-degree graduate students.

Statistics (STAT)

STAT 3000 STATISTICAL METHODS I (3 credits)
Distributions, introduction to measures of central value and dispersion, population and sample, the normal distribution, inference: single population, inference: two populations, introduction to analysis of variance. Statistical packages on the computer will also be utilized in the course.
Prerequisite(s)/Corequisite(s): MATH 1310 or equivalent.

STAT 3010 STATISTICAL METHODS II (3 credits)
Regression and correlation, analysis of covariance, chi-square type statistics, more analysis of variance, questions of normality, introduction to non-parametric statistics. Statistical packages are used when appropriate.
Prerequisite(s)/Corequisite(s): STAT 3000 or STAT 8005.

STAT 3800 APPLIED ENGINEERING PROBABILITY AND STATISTICS (3 credits)
An introduction to the application of probability and statistics to engineering problems. Topics include: probability and probability distributions, mathematical expectation, distribution of random variables, binomial, Poisson, hypergeometric, gamma, normal, and t-distributions, Central Limit Theorem, confidence intervals, hypothesis testing, linear regression, contingency tables. Credit for both MATH 4740 and STAT 3800 will not be given.
Prerequisite(s)/Corequisite(s): MATH 1970

STAT 4410 INTRODUCTION TO DATA SCIENCE (3 credits)
Topics covered in this course include Data Technology, Methods of gathering and cleaning structured or unstructured data, Exploratory data analysis & Dynamic and interactive data visualization, Modeling data for prediction, forecasting or classification. (Cross-listed with STAT 8416)
Prerequisite(s)/Corequisite(s): MATH 4750 with a C- or better or STAT 3800 with a C- or better or permission of instructor. Students planning to enroll in this course should be comfortable with computer programming & have knowledge of data structures & preliminary statistical methods.

STAT 4420 EXPLORATORY VISUALIZATION AND QUANTIFICATION (3 credits)
Topics covered in this course include Exploratory Data Visualization for categorical/qualitative single/multivariate data, Grammar of Graphics, Organizing Data for Visualization, Methods of Displaying Data that include dynamic and interactive visualization, Visual Diagnostics of Statistical Models and Visual Statistical Inference. Students planning to enroll in this course should be comfortable with computer programming and have knowledge of data structures and preliminary statistical methods. (Cross-listed with STAT 8426)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8005 w/ a C- or better or another introductory probability/statistics course w/ a C- or better, & CSC 1620 or equivalent with a grade of C- or better, or permission of instructor.

STAT 4430 LINEAR MODELS (3 credits)
This is an introduction to linear statistical models which will include: simple linear regression models, multiple linear regression models, ANOVA models including one way ANOVA, randomized block designs and other designs. Also, logistic regression models, Poisson regression models, bootstrapping/ resampling models, survival analysis. Some necessary linear algebra and mathematical statistics ideas will be covered in the course also. If time allows, some mixed models and/or survival models. Much use of computer software will be made. (Cross-listed with STAT 8436)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a C- or better or STAT 3800 or STAT 8005 w/ a C- or better or instructor permission based on students' having taken a basic statistics course w/ a grade of C- or better & having at least a basic knowledge of calculus.

STAT 4440 TIME SERIES ANALYSIS (3 credits)
The objective of this course is to learn and apply statistical methods for the analysis of data that have been observed over time. Topics covered include: Models for Stationary and Non-Stationary Time Series, Model Specification, Parameter Estimation, Model Diagnostics, Forecasting. Seasonal Models, Time Series Regression, and Spectral Analysis. Statistical software will be used. (Cross-listed with STAT 8446)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8005 w/ a C- or better or another introductory probability/statistics course w/ a C- or better, & CSC 1620 or equivalent with a grade of C- or better, or permission of instructor.
Supply Chain Management (SCMT)

SCMT 2000 SURVEY OF SUPPLY CHAIN MANAGEMENT (3 credits)
The principles and methods involved in supply chain management with emphasis on creating customer value. This course makes extensive use of company tours, plant visits and industry professionals to introduce students to the global dimensions of supply chain management and related disciplines such as IT, HR management, marketing, transportation, logistics, operations management, project management and production scheduling.
Prerequisite(s)/Corequisite(s): Sophomore standing and 2.33 GPA. Not open to non-degree graduate students.

SCMT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)
This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with ACCT 3000)
Prerequisite(s)/Corequisite(s): ACCT 2020 with a grade of C (2.0) or better and ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. Not open to non-degree graduate students.

SCMT 3410 SUSTAINABLE SUPPLY CHAIN MANAGEMENT (3 credits)
Sustainable supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable, competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators.
Prerequisite(s)/Corequisite(s): Sophomore standing; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 3500 OPERATIONS MANAGEMENT (3 credits)
The course is designed to introduce students to strategic, tactical, and control decisions in manufacturing and service operations. Students will learn how operations integrate all other business processes for competitive advantage. It covers current applications of quality concepts, business process reengineering, supply-chain management, lean systems, and ERP systems for business operations efficiency and effectiveness.
Prerequisite(s)/Corequisite(s): BSAD 2130 or BSAD 3160, and MGMT 3200 with a grade of C (2.0) or better and 2.5 GPA.

SCMT 4160 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross-functional nature of ERP software. In the process of learning about ERP systems, the students develop "hands on" experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 4160, ISQA 8166)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

SCMT 4230 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with MGMT 4330, BSAD 8336)
Prerequisite(s)/Corequisite(s): MGMT 490 with a C+ or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

SCMT 4330 GLOBAL SOURCING AND INNOVATION (3 credits)
This course will focus on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems focused on new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with BSAD 8356)
Prerequisite(s)/Corequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4370 SUPPLY CHAIN ANALYTICS (3 credits)
This course focuses on the integration of supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with BSAD 8376)
Prerequisite(s)/Corequisite(s): SCMT 3490 with a grade of C+ or above, at least a cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

SCMT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, BSAD 8386)
Prerequisite(s)/Corequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with MGMT 4450, BSAD 8456)
Prerequisite(s)/Corequisite(s): MGMT 3490 with a grade of C+ or above, at least a cumulative GPA of 2.5, or permission of instructor.

SCMT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics).
Prerequisite(s)/Corequisite(s): SCMT 3410 and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

Sustainability (SUST)

SUST 1000 INTRODUCTION TO SUSTAINABILITY (3 credits)
Introduction to Sustainability explores from multiple perspectives the interconnectedness of earth's physical, ecological, and human systems, and how to maintain and improve earth's resources and systems for current and future generations.
Distribution: Global Diversity General Education course and Social Science General Education course
SUST 4090 SPECIAL TOPICS IN SUSTAINABILITY (1-5 credits)
This is a variable credit lecture and/or laboratory course pertaining to a specific topic in sustainability and not available in the regular curriculum. May be repeated as topics change.
Prerequisite(s)/Corequisite(s): Junior or senior standing or permission of instructor. Other pre-requisites may apply: please consult with instructor of course.

SUST 4800 INTERNSHIP IN SUSTAINABILITY (1-6 credits)
This course offers students an opportunity to experience sustainability studies through direct involvement in career-oriented sustainability organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

SUST 4000 INDEPENDENT STUDY (1-3 credits)
Specially planned readings or independent research in a well-defined field within sustainability carried out under the supervision of a faculty member. As independent study courses are intended to enrich a student's regular academic program, they may not normally be taken as substitutes for scheduled classroom courses of the same nature. May be repeated, for credit, up to six hours, under a different topic.
Prerequisite(s)/Corequisite(s): Permission of instructor required.

Teacher Education (TED)

TED 1010 INTRODUCTION TO EDUCATION (3 credits)
The course will provide an introduction to the education profession through career exploration and initial exposure to the dynamics of PK-12 classroom teaching. The course will provide an overview of ethics and professionalism, pre-service preparation, societal influences, classroom practices, and the governance structures which impact teachers and schools. The course has a required field experience.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

TED 1100 INQUIRY-BASED THINKING IN STEM (3 credits)
This course provides students with hands-on science content experiences that model the inquiry-based thinking used in science, technology, engineering and mathematics careers. Students will undertake interdisciplinary science modules to understand prairie ecosystems and to study how living things (such as animals, plants, and microbes) interact with non-living things (such as water, soil, and energy) within a dynamic system. Students will study the prairie at UNO's Glacier Creek Preserve facility from an interdisciplinary perspective, investigating the geology, biology and chemistry of the prairie environment, while using information science to analyze data and model prairie systems.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Natural/Physical Science General Education course

TED 2050 INTRODUCTION TO TEACHING ENGLISH AS A SECOND LANGUAGE (3 credits)
This course offers teacher candidates an introduction to the linguistic, social, political, and cultural factors that impact the teaching of English Language Learners (ELLs) entering the United States school system. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students will study best practices for ELLs in the mainstream classroom that promotes language and cultural understanding among students and teachers.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

TED 2060 EQUITY, LANGUAGE, AND CULTURAL LITERACY (3 credits)
This course explores the relationship among equity, language, and cultural literacy and its implications for programming and advocacy within school and community contexts. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students study the impact these relationships have for historically underrepresented groups in the United States.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

TED 2100 EDUCATIONAL FOUNDATIONS (3 credits)
The course will provide prospective teacher candidates with the philosophical, ethical, historical, and social foundations that will enable them to understand their role as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. Also, the prospective teacher candidates will study and understand the national and state standards relevant to P-12 education and to teacher preparation in the USA. Each prospective candidate will acquire competency in using educational technologies such as Internet based course delivery systems, database software, and digital portfolios.
Prerequisite(s)/Corequisite(s): 2.50 GPA

TED 2160 INTRODUCTION TO LIBRARY SERVICES (3 credits)
This course introduces students to the discipline and profession of library and information science and to the wide array of information organizations whose purpose is to gather, organize, and transfer information to patrons in a diverse society.

TED 2200 HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS (3 credits)
This course is designed to increase multicultural knowledge and positively impact the diversity disposition of prospective teacher candidates. It is also designed to help them become more aware of ways to motivate and positively impact the youths they will encounter in their future classrooms. Prospective teacher candidates will examine existing attitudes toward various groups by race, ethnicity, age, gender, disability, and social class with the goal of becoming dedicated practitioners, reflective scholars, and responsible citizens who can meet their professional responsibilities.
Prerequisite(s)/Corequisite(s): 2.50 GPA
Distribution: U.S. Diversity General Education course

TED 2250 INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3 credits)
This course provides an overview of early childhood education programs with particular emphasis on programs for children birth to age five. Observations in preschool and child care programs and fourteen hours of field experience are required components of the course.

TED 2300 HUMAN GROWTH AND LEARNING (3 credits)
This course will examine human growth and learning from conception through adolescence. It will focus on how current educational practices and theories of development and learning impact and influence each other. The course includes field-based and laboratory experiences for the students.
Prerequisite(s)/Corequisite(s): Admission to Teacher Preparation. Not open to non-degree graduate students.

TED 2310 FAMILY-CENTERED PARTNERSHIPS (3 credits)
This course will examine the purposes and methods for developing family-centered partnerships for young children. Candidates will develop the skills necessary for the planning, designing, implementing, and evaluating effective family engagement in early childhood settings. Candidates will also explore characteristics of diverse families by engaging in service learning and exploring diverse settings in the community.
Prerequisite(s)/Corequisite(s): TED 2250
TED 2350  PLAY IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)
The purpose of this course is to provide theoretical and empirical bases for observing and understanding children in play; an understanding of cognitive, social, and communicative stages related to developmental theory through play; and opportunity to consider biological, cultural, and environmental influences on children’s play and development, as well as, plan play experiences for young children. This course is designed primarily to prepare early childhood inclusive education teachers to develop the knowledge, skills, and dispositions to understand and use play as part of early childhood education and care programming for all young children.  
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

TED 2360  CHILDREN’S LITERATURE (3 credits)
This course focuses on children’s literature as a significant component of a 21st Century educational environment through the use of multiple literacies, e.g., cultural, information, visual, and digital literacy strategies. An emphasis will be based on research-based literacy strategies and literature that supports culturally relevant teaching.  
Prerequisite(s)/Corequisite(s): Admission to Teacher Preparation Program

TED 2400  PLANNING FOR EFFECTIVE TEACHING (6 credits)
The course provides an initial overview of lesson planning through an introduction to the concepts of standards, objectives, anticipatory sets, instructional strategies, assessments, and closure. The course also introduces culturally responsive teaching practices which are intentionally supportive of English Language Learners, students with disabilities, and students who live in poverty or other difficult circumstances. A practicum completed outside of scheduled class time is required. The practicum includes coaching support for the candidates.  
Prerequisite(s)/Corequisite(s): TED 2300 or EDUC 2010, TED 2100 or EDUC 2020, & TED 2200 or EDUC 2030. Not open to non-degree graduate students.

TED 3000  SPECIAL PROJECTS (0-3 credits)
This course allows offerings with a broad (PK-12) multigrade application. Study is often field-based and is conducted as a short course, seminar, or special project.

TED 3050  FOUNDATIONS OF ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)
This course is designed to enhance candidates’ understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Language Learners (ELLs) in the U.S. context. As dedicated practitioners, candidates will engage in dialogues on the three components of effective pedagogy: 1) use of instructional strategies, 2) use of classroom management strategies, and 3) effective classroom curriculum design. Candidates will also examine the changing role of the secondary school and selected professional issues in secondary education and be able to apply key ideas of classroom management. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the third in a series of four required practicum experiences prior to the clinical practice semester.  
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3690

TED 3060  LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 3606).

TED 3070  CHILDREN’S LITERATURE (3 credits)
This course examines the roles of children’s literature in the classroom environment. Candidates will explore how to use children’s literature to engage young readers and suggest techniques for teaching reading and writing.  
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 3080  SPECIAL METHODS IN THE CONTENT AREA (3 credits)
This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 8006).

TED 3120  TEACHING GRAMMAR IN CONTEXT (3 credits)
This course is an analysis of the integration of grammar throughout the writing process and the most effective contexts for and means for teaching grammar. The emphasis is on the application in the secondary school English classroom, on the development of teaching materials for the classroom, and on appropriate methodology for grammar instruction.  
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 3150  SECONDARY CLASSROOM MANAGEMENT (3 credits)
This is a general methods course required of all candidates preparing to teach at the secondary level. Candidates will apply educational sequence competencies in understanding the characteristics of effective teachers by learning how to apply the three components of effective pedagogy: 1) use of instructional strategies, 2) use of classroom management strategies, and 3) effective classroom curriculum design. Candidates will also examine the changing role of the secondary school and selected professional issues in secondary education and be able to apply key ideas of classroom management. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the third in a series of four required practicum experiences prior to the clinical practice semester.  
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3690

TED 3160  LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 8006).

TED 3170  SPECIAL METHODS IN THE CONTENT AREA (3 credits)
This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 8006).

TED 4120  TEACHING GRAMMAR IN CONTEXT (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching reading and writing in the content areas (science, social studies, math, art, music). Candidates will learn about teaching practices that engage elementary students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.  
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4130  SOCIO-CULTURAL UNDERSTANDINGS OF INFANTS, TODDLERS, AND FAMILIES (3 credits)
This course will examine socio-cultural conceptions of infant and toddler-aged children. The influences of culture, social context, and socio-economic status on parental goals, beliefs and practices will also be covered.  
Prerequisite(s)/Corequisite(s): Admission to the Early Childhood Inclusive major program and TED 2250. Not open to non-degree graduate students.
TED 4220 ADVANCED PRACTICUM IN EARLY CHILDHOOD EDUCATION (3 credits)
TED 4220 is an in-school guided practicum taken at the end of ECE program coursework. Candidates must demonstrate competencies related to performance in pre-kindergarten education. This is the last practicum course prior to the clinical practice semester.

Prerequisite(s)/Corequisite(s): Completion of ELEM/ECE undergraduate courses: TED 2250, TED 2310, TED 4250, TED 4260, TED 4280, TED 4290. Not open to non-degree graduate students.

TED 4250 GUIDANCE OF YOUNG CHILDREN (3 credits)
This course will provide an overview of social and emotional development of the young child and an investigation of effective and appropriate guidance techniques as they relate to ages three to eight. Candidates will explore relationship-based approaches to guiding children and building caring and trusting classroom communities.

Prerequisite(s)/Corequisite(s): TED 2250 and TED 2300 (EDUC 2010).

TED 4260 LANGUAGE AND LITERACY IN EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed for teacher candidates who are preparing to teach children from three to eight years of age, with particular emphasis on the language and literacy development of the young child and appropriate curriculum based on . Particular attention will be given to the role of the teacher as a dedicated practitioner in the early learning environment.

Prerequisite(s)/Corequisite(s): TED 2250 and TED 2300 or EDUC 2010. Not open to non-degree graduate students.

TED 4270 CURRENT TRENDS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides a context for examining the impacts of the issues and trends of the programs for young children and their families at the local, national and international level. A minimum of 24 hours of service-learning experience will be required toward the completion of this course.

Prerequisite(s)/Corequisite(s): TED 2250.

TED 4280 THE CREATIVE ARTS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course prepares the early childhood teacher candidate on how to implement and use the creative and expressive arts in the classroom for developing conceptual understanding, building vocabulary, and assessing.

Prerequisite(s)/Corequisite(s): TED 2250 and TED 2300 or EDUC 2010. Not open to non-degree graduate students.

TED 4290 INQUIRY IN EARLY CHILDHOOD SCIENCE AND MATHEMATICS EDUCATION (3 credits)
This course is designed to educate teacher candidates about developing early mathematics and science foundations in young children (ages 3-8) with emphasis on inquiry-based teaching, learning, and assessing strategies.

Prerequisite(s)/Corequisite(s): TED 2250 and TED 2300 or EDUC 2010. Not open to non-degree graduate students.

TED 4310 ASSESSMENT AND CLASSROOM MANAGEMENT FOR THE ELEMENTARY TEACHER (3 credits)
TED 4310 studies assessment and classroom management principles, effective practices, and assessment and classroom management processes through the elementary curriculum. A practicum completed outside of scheduled class time is required.

Prerequisite(s)/Corequisite(s): TED 3350, TED 4330 and TED 4340; Co-requisite: TED 4320 and TED 4350. Not open to non-degree graduate students.

TED 4320 TEACHING OF SOCIAL STUDIES: ELEMENTARY (3 credits)
This course is designed to prepare elementary teacher candidates with an introduction to the issues and methods related to teaching social studies to elementary students. An in-school guided practicum is associated with this course. Candidates must demonstrate instructional and professional competencies related to performance in PK-6 classrooms. This is the final practicum experience prior to the clinical practice semester.

Prerequisite(s)/Corequisite(s): TED 3350, TED 4330 and TED 4340; co-requisite TED 4350.

TED 4330 TEACHING OF MATHEMATICS: ELEMENTARY (3 credits)
This course is designed to prepare elementary teacher candidates as mathematics education professionals at the elementary level. The course utilizes "hands-on" discussion and laboratory oriented activities where participants actively practice instructional topics and techniques related to the learning of mathematics at the elementary level. The course will further prepare pre-service elementary teachers to be dedicated practitioners, reflective scholars, and responsible citizens, who can meet the instructional challenges of their profession, as it relates to the student learning of mathematics in a modern and changing world.

Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; Co-requisite TED 4340 and TED 3350.

TED 4340 TEACHING OF SCIENCE: ELEMENTARY (3 credits)
This course is designed to give the undergraduate elementary education candidate a survey of the content of science in the elementary and middle school and a study of the methods and techniques of teaching science.

Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; Co-requisite TED 4330 and 3350.

TED 4350 TEACHING OF READING AND LANGUAGE ARTS (3 credits)
This course is designed to prepare elementary teacher candidates as educators of reading and the other language arts. Teacher candidates will implement appropriate strategies and assessments in a practicum experience that demonstrate knowledge and dispositions appropriate for teaching reading and language arts to all students. This course will prepare preservice elementary teacher candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

Prerequisite(s)/Corequisite(s): TED 3350, 4330 and 4340; co-requisite of TED 4320.

TED 4370 TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. This course is designed to introduce candidates to the unique characteristics of the middle student, school, curriculum, history, and philosophy. (Cross-listed with TED 8376).

Prerequisite(s)/Corequisite(s): EDUC 2010 or TED 2300.

TED 4390 TEACHING AT THE MIDDLE SCHOOL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TED 8396).

Prerequisite(s)/Corequisite(s): Junior standing, TED 4370, EDUC 2510, EDUC 2520, EDUC 2524.

TED 4570 LIBRARY SCIENCE CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their public, academic and special libraries.

Prerequisite(s)/Corequisite(s): There are no specific course prerequisites for the Capstone Practicum but students must be in the final two semesters of their Library Science Education Program.

TED 4590 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course introduces technology and technical literacies required of educators and information specialists in 21st Century libraries and classrooms. Course topics include information literacy, instructional design in digital environments, Web page design and construction, social networking and learning, and academic integrity. (Cross-listed with TED 8596).
TED 4600 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (12 credits)
A supervised teaching experience under the direction of university faculty/supervisor and a classroom teacher in the candidate's teaching area. Prerequisite(s)/Corequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, and be accepted into Clinical Practice.

TED 4604 STUDENT TEACHING ORIENTATION: FIELD EXPERIENCE (0 credits)
This course provides an orientation to the clinical practice experience. Prerequisite(s)/Corequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, and be accepted into Student Teaching.

TED 4610 TEACHING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing extends throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world. Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4630 INSERVICE STUDENT TEACHING: ELEMENTARY AND SECONDARY (3 credits)
Designed as an additional student teaching experience for in-service teachers and students seeking certain additional certificates. Candidates must successfully complete an intermediate level field experience prior to student teaching. Prerequisite(s)/Corequisite(s): Permission. Application is made in the Office of Student Services.

TED 4640 K-12 STUDENT TEACHING AND SEMINAR: ELEMENTARY/SECONDARY (12 credits)
A supervised teaching experience designed for students seeking certification in art, music, physical education, and library media in the K-12 preparatory program. Prerequisite(s)/Corequisite(s): Candidates must complete all course work and obtain a minimum overall (cumulative) consistent GPA of 2.75 and be accepted into student teaching.

TED 4644 CLINICAL PRACTICE ORIENTATION (0 credits)
This experience provides an introduction to clinical practice. Prerequisite(s)/Corequisite(s): Candidates must have complete all course work, obtained a minimum overall (cumulative) consistent GPA of 2.75, and been accepted into Clinical Practice.

TED 4650 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (6 credits)
A supervised teaching experience under the direction of university faculty/supervisor and a cooperating teacher in the candidate's teaching area. Prerequisite(s)/Corequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, and be accepted into Clinical Practice. Co-requisite of the course SPED 4700.

TED 4660 YOUNG ADULT LITERATURE (3 credits)
This course extends candidates' knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.

TED 4710 RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 4720 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 8726).

TED 4740 ORGANIZATION OF INFORMATION (3 credits)
Candidates will demonstrate a basic understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 8746).

TED 4750 ADVANCED CATALOGING AND CLASSIFICATION (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging of non-book materials (including serials and digital resources) in 21st Century libraries and information agencies using the Library of Congress and Dewey Decimal classification schemes and Library of Congress subject headings. (Cross-listed with TED 8756). Prerequisite(s)/Corequisite(s): TED 4740.

TED 4760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 8766). Prerequisite(s)/Corequisite(s): TED 4750.

TED 4770 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 4790 COORDINATION TECHNIQUES IN VOCATIONAL EDUCATION (3 credits)
This course reviews responsibilities and techniques of coordination for the vocational teacher-coordinator and/or vocational coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 8856).
TED 4980 SPECIAL STUDIES (1-3 credits)
A series of intensive courses for undergraduate candidates, scheduled as regular seminars or classes, according to purpose.
Prerequisite(s)/Corequisite(s): Permission

Theatre (THEA)

THEA 1000 THEATRE PRACTICUM (1 credit)
Lecture discussion experience on theatre production concepts and techniques. One hour formal meeting each week and an average of two hours per week in a chosen or assigned technical production area. Required of dramatic arts majors and may be taken by all other students. May be repeated eight times.

THEA 1010 INTRODUCTION TO THEATRE (3 credits)
A survey course designed to acquaint the theatre major and the non-major alike with all basic areas of theatre practice and study. Several major periods of theatre art will be explored and, depending on the instructor, emphasis can include acting, playwriting, design and theatre technology, and or theatre literature.
Distribution: Humanities and Fine Arts General Education course
Prerequisite(s)/Corequisite(s): THEA 1630 or permission of instructor.

THEA 1050 FILM HISTORY AND APPRECIATION (3 credits)
Aesthetic values of the motion picture: history of the film and a survey of the elements involved. (Cross-listed with JMC1050)
Distribution: Humanities and Fine Arts General Education course
Prerequisite(s)/Corequisite(s): THEA 1010

THEA 1090 ORAL INTERPRETATION OF LITERATURE (3 credits)
Analysis and oral reading of various types of literature. (Cross-listed with CMST 1710)
Distribution: Humanities and Fine Arts General Education course

THEA 1210 VOICE FOR THE ACTOR (3 credits)
Discovery and training of the human voice as a technical instrument and as one of the key expressive elements of any performance-oriented medium.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course
Prerequisite(s)/Corequisite(s): THEA 1220

THEA 1220 MOVEMENT FOR THE ACTOR (3 credits)
Discovery and training of the human body as a technical instrument and as one of the key expressive elements of any performance-oriented medium.
THEA 1510 FOUNDATIONS OF PRODUCTION DESIGN (3 credits)
An introductory course introducing students to the omnipresence and role of design in contemporary society; and to fundamental elements and principles of analysis, conceptualization, and visual interpretation, as they apply to the production design process.

THEA 1550 COSTUME AND MAKEUP FOR THEATRE (3 credits)
An introductory course covering foundational vocabulary, skills, materials, tools, and processes used for costume construction and makeup application specifically for the theatre.

THEA 1610 SCENIC PRODUCTION LABORATORY (1-3 credits)
Directed, practical experiences in scenic production skills.

THEA 1630 STAGECRAFT (3 credits)
An introduction stagecraft class designed to develop the skills, knowledge, theories and materials of professional designers and craftpersons, as well as developing a working knowledge of the practices in the business of technical theatre.

THEA 2000 SUMMER THEATRE WORKSHOP (3 credits)
Intensive supervised workshop experience involving significant overall contribution(s) to the summer theatre program.

THEA 2030 INTERNSHIP:NEBRASKA SHAKESPEARE FESTIVAL (1-6 credits)
This course provides an opportunity for the student to participate in the Nebraska Shakespeare Festival (NSF), a professional summer theatre company. The course will involve practical application. Areas of study might include artistic direction, direction, dramaturgy, arts management, production management, design and technology, or performance. Assignments are made according to the individual interests and skills of the student as they match NSF opportunities and needs.
Prerequisite(s)/Corequisite(s): Permission of instructor.

THEA 2310 ACTING I (3 credits)
The basic acting class, for majors and non-majors. Emphasis on freeing oneself as a preparation for basic character and scene work using exercises for relaxation, energy generation, concentration and group interaction. Three relationships basic to the actor are explored: to oneself, to another actor, to the ensemble.
Distribution: Humanities and Fine Arts General Education course
Prerequisite(s)/Corequisite(s): THEA 2320 ACTING II (3 credits)
Incorporating skills and awareness developed in Acting I, this class moves toward examining various tools for character development by oneself, in large group improvisations and with written scripts. Specific scene work leads to a final scene presented both for the class and for all interested persons.

THEA 2510 ACTING II (3 credits)
Characteristics and control of light and color and their application to the theatre that involves social change. Students will study the history of such theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems. (Cross-listed with THEA 8615)
Prerequisite(s)/Corequisite(s): THEA 1510 or permission of instructor.

THEA 2630 DRAFTING FOR THE THEATRE (3 credits)
Guided, practical experience in the use of common drafting equipment and in drafting mechanical drawings commonly used in the theatre.
Prerequisite(s)/Corequisite(s): THEA1630

THEA 3020 SPECIAL TOPICS IN THEATRE (3 credits)
This course utilizes a topical approach that explores various aspects of theatre that are outside the set Theatre curriculum. Topics and disciplines will vary from term to term. Course description will be announced in advance. It is repeatable for credit if content differs.
Prerequisite(s)/Corequisite(s): Permission of instructor.

THEA 3610 COLLABORATIVE DESIGN STUDIES (3 credits)
Collaborative Design Studies explores the integration and process of theatrical production including scenery, lighting, costume, projection and sound. It chronicles their individual and collective impact on storytelling. While developing the skills of the Scenographer, students will work collaboratively as they foster their individual artistic design talents, and recognize the impact of design on society through storytelling. (Cross-listed with THEA 8615)
Prerequisite(s)/Corequisite(s): THEA 1510.

THEA 3660 STAGE AND TV LIGHTING (3 credits)
Characteristics and control of light and color and their application to the theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems. (Cross-listed with THEA 8665)
Prerequisite(s)/Corequisite(s): THEA 1630 or permission of instructor.

THEA 3750 THEATRE AND SOCIAL JUSTICE (3 credits)
This service-learning course will combine both research and practice in theatre that involves social change. Students will study the history of such theatre, with special focus on developments in the 20th century. All research will be accompanied by several community-based projects whereby students will create theatre with specific populations (schools, community centers, health centers, senior homes, etc.). (Cross-listed with THEA 8755)
Prerequisite(s)/Corequisite(s): Sophomore, junior, or senior standing regardless of major.
THEA 3760 THEATRE HISTORY AND LITERATURE: MODERN / 1850-2000 (3 credits)
This course is a survey of both western European and world theatre from the emergence of modernism to 1980, about the time of the emergence of post-modernism.
Prerequisite(s)/Corequisite(s): ENGL 1160 & Junior standing OR permission of the instructor

THEA 3770 THEATRE HISTORY AND LITERATURE: CONTEMPORARY (3 credits)
This course offers a brief survey of European and world theatre from the emergence of post-modernism to the present time. It also focuses especially on theatre for social change, community development, and the community-based theatre movement. It will include a service-learning component with one or more regional social-service or similar agencies.
Prerequisite(s)/Corequisite(s): ENGL 1160 & Sophomore standing OR permission of the instructor

THEA 4000 SUMMER THEATRE WORKSHOP (3 credits)
Intensive supervised workshop experience involving significant overall contribution(s) to the summer theatre program.

THEA 4010 ADVANCED PROJECTS IN THEATRE (1-3 credits)
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 8016)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 4020 ADVANCED PROJECTS IN THEATRE (1-3 credits)
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 8026)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 4030 INTERNSHIP: NEBRASKA SHAKESPEARE FESTIVAL (1-6 credits)
This course provides an opportunity for the student to participate in the Nebraska Shakespeare Festival (NSF), a professional summer theatre company. The course will involve practical application. Areas of study might include artistic direction, direction, dramaturgy, arts management, production management, design and technology, or performance. Assignments are made according to the individual interests and skills of the student as they match NSF opportunities and needs.
Prerequisite(s)/Corequisite(s): Permission of instructor.

THEA 4050 SHAKESPEARE ON FILM: THE ART OF INTERPRETATION (3 credits)
Study how Shakespeare’s plays are interpreted for performance. Explore how production shapes our understanding of the text. Understand how the change of medium from page to stage to screen reveals meaning in unique ways. Experience a dynamic way of making the most extraordinary plays your own. Classes will feature readings, lecture, class discussion, and film screenings of different cinematic interpretations of several of Shakespeare’s plays. Previous study of Shakespeare is helpful but not required.
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.
Distribution: Humanities and Fine Arts General Education course

THEA 4060 CHILDREN’S THEATRE PRODUCTION (3 credits)
Study of the methods of direction, design, acting and production of plays for children. Students plan a complete children’s theatre production or become actively involved in an actual production.
Prerequisite(s)/Corequisite(s): THEA 1010 and THEA 1630 and THEA 2320 and THEA 3660 and THEA 4430 and Junior standing; or permission of instructor.

THEA 4310 ADVANCED ACTING: POST REALISM (3 credits)
Advanced work in the technical skills of voice, speech, movement and textual analysis needed for post-realist material. (Cross-listed with THEA 8316)
Prerequisite(s)/Corequisite(s): THEA 2310 and THEA 2320 and Junior standing.

THEA 4320 ADVANCED ACTING: GREEKS TO RESTORATION (3 credits)
The fundamental theories and practices of major styles from ancient Greece to Restoration, including performance work from outstanding dramatic literature. (Cross-listed with THEA 8326)
Prerequisite(s)/Corequisite(s): THEA 2310 and THEA 2320 and Junior standing.

THEA 4330 ADVANCED ACTING: ENSEMBLE PLAY PRODUCTION (3 credits)
In-depth exploration of a play or playwright’s work to connect acting class with performance. Special emphasis on creating a working process that allows the ensemble to emerge. The class will culminate in public performance. (Cross-listed with THEA 8336)
Prerequisite(s)/Corequisite(s): THEA 2310 and THEA 2320 and Junior standing.

THEA 4340 ADVANCED ACTING: AUDITIONING (3 credits)
An acting class designed to develop audition skills and material as well as cultivate a working knowledge of the business of acting. (Cross-listed with THEA 8346)
Prerequisite(s)/Corequisite(s): THEA 2310 and THEA 2320 and Junior standing.

THEA 4430 DIRECTING I (3 credits)
The emergence of the director as an influential force in Western theatrical production; consideration of alternative approaches to directing; workshop development of a personal style. (Cross-listed with THEA 8436)
Prerequisite(s)/Corequisite(s): THEA 1510 and THEA 1630 and THEA 2310 and THEA 2320 and THEA 2810 and THEA 2820.

THEA 4440 DIRECTING II (3 credits)
A practicum in play selection, analysis, casting, directing and performing. (Cross-listed with THEA 8446)
Prerequisite(s)/Corequisite(s): THEA 4430.

THEA 4500 COSTUME DESIGN (3 credits)
An introduction to the fundamentals of stage costume design, including line silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with figure drawing and rendering technique. (Cross-listed with THEA 8506)
Prerequisite(s)/Corequisite(s): THEA 4550 and ART 1100 and ART 1210 or permission of instructor.

THEA 4510 COSTUME DESIGN (3 credits)
An introduction to the fundamentals of stage costume design, including line, silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with life drawing and rendering technique. (Cross-listed with THEA 8516)

THEA 4550 PERIOD STYLES IN DRESS AND DECOR (3 credits)
An historical survey course introducing students to the major periods and iconic styles and trends in western architecture, dress and interior décor of the past 2000 years; and to the social, cultural and technological influences on those trends, particularly as they relate to theatrical and production design. (Cross-listed with THEA 8556)

THEA 4610 SCENE DESIGN (3 credits)
Principles of composition, perspective and color for the stage; the designer’s approach to the play, production of ground plans, elevations and sketches. (Cross-listed with THEA 8616)
Prerequisite(s)/Corequisite(s): THEA 1010 and THEA 1630 and THEA 2630 and Junior standing.
THEA 4780 THEATRE HIST/LIT:CLASSICL-1500 (3 credits)
This course is a survey of both western European and early Asian theatre and the related theatre literature in ancient Greece and Rome, India, and medieval Europe from the fifth century BCE to the beginning of the European renaissance.
Prerequisite(s)/Corequisite(s): ENGL1160 and Junior standing

THEA 4790 THEATRE HISTORY AND LITERATURE: RENAISSANCE TO 1850 (3 credits)
This course is a survey of primarily western European theatre and the related theatre literature from the Renaissance until the emergence of modernism.
Prerequisite(s)/Corequisite(s): ENGL1160 and Junior standing or Permission of the Instructor.

University Seminar (US)

US 1000 BRIDGE PROGRAM (0 credits)
The Bridge Program within the Thompson Learning Community provides additional support to students enrolled in English as a Second Language courses (ESL I and ESL II). Curriculum and supplemental activities are designed to help these students better navigate the University of Nebraska at Omaha campus.
Prerequisite(s)/Corequisite(s): Be a member of the Thompson Learning Community, enrolled in ENGL 1090 or ENGL 1100. Not open to non-degree graduate students.

US 1010 COLLEGE & CAREER SUCCESS (2 credits)
This 12 week hybrid on-line course is intended to enhance first year students' potential for success in college and provide opportunity for academic and career exploration. First Year Experience Seminar (FYSE) focuses on three primary themes: student sense of self, student as learner, and developing linkages with the university community. This course prepares students to responsibly meet the individual and interpersonal challenges of college life.
Prerequisite(s)/Corequisite(s): Limited to students who have earned 15 or fewer credit hours & have not taken US 1010 or US 1020 or with permission of instructor or the Director of the Academic & Career Development Center. Not open to non-degree graduate students.

US 1020 TLC ACADEMIC SUCCESS SEMINAR (0 credits)
This course is intended to enhance first-year students' potential for success in college. This course will provide students the opportunity to learn about academic strategies, network with other TLC community members and staff, and become familiar with UNO resources and programs.
Prerequisite(s)/Corequisite(s): Thompson Learning Community members only. Freshman only or permission. Not open to non-degree graduate students.

US 1030 LEADING YOUR MONEY (0 credits)
Personal finance for the collegiate leader.

US 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE (3 credits)
A survey course which explores social science perspectives on women, men, and gender, including the biological contribution to human behavior and the impact of science as an institution. Examines challenges to traditional definitions of women’s place and movements for change. Includes historical and multicultural materials.
Prerequisite(s)/Corequisite(s): ENGL 1150. Distribution: U.S. Diversity General Education course

US 2020 TLC SOPHOMORE SEMINAR (0 credits)
TLC Sophomore Seminar is a course designed to assist students in exploring university and academic identity, build leadership competency, introduce students to resources that will lead to major and career exploration, and build networking relationships at UNO and in the community.
Prerequisite(s)/Corequisite(s): Second-year Thompson Learning Community Students. Not open to non-degree graduate students.

US 3030 TLC MENTOR INTERNSHIP (0-1 credits)
Students serve as peer mentors who help first-year students to transition into college and connect them to necessary resources for academic and personal success.
Prerequisite(s)/Corequisite(s): Current Thompson Learning Community (TLC) student with a 2.5 GPA. Not open to non-degree graduate students.

Urban Studies (UBNS)

UBNS 1010 INTRODUCTION TO URBAN STUDIES (3 credits)
Introduction to history, concepts, development and literature of urbanism. An interdisciplinary examination of issues confronting contemporary urban society and how various academic disciplines relate to those issues. (Cross-listed with PA 1010).

UBNS 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR (3 credits)
A course in the basic statistics of public sector research and public administration decision-making. The emphasis is on exploration of data processing techniques as they relate to statistical analysis and on understanding the proper application of statistics.
Prerequisite(s)/Corequisite(s): MATH 1430 or permission of instructor.

UBNS 4900 SPECIAL STUDIES IN PUBLIC ADMINISTRATION AND URBAN STUDIES (1-6 credits)
Special studies are designed around the interests and needs of individual students. Topics may be either in urban studies or public administration and must be approved by a faculty adviser.
Prerequisite(s)/Corequisite(s): UBNS 1010 or PA 1010 or PA 2170.

Women's and Gender Studies (WGST)

WGST 1950 BLACK WOMEN IN AMERICA (3 credits)
Examines the environment of the social, economic, and political status of the black woman in this society, with special emphasis on her struggle for freedom and equality. (Cross-listed with BLST 1950)

WGST 2000 TOPICS IN GENDER, LANGUAGE AND LITERATURE (1-3 credits)
A variety of topics primarily for the non-major. (For example, this course might study the image of the American businesswoman in American literature.) One or two such topics may be offered each term, depending upon current student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term.

WGST 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES (3 credits)
An introduction to women's and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women's and gender studies.
Prerequisite(s)/Corequisite(s): ENGL 1150. Distribution: U.S. Diversity General Education course and Humanities General Education course

WGST 2020 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES (3 credits)
An introduction to women's and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women's and gender studies.
Prerequisite(s)/Corequisite(s): ENGL 1150. Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

WGST 2030 INTRODUCTORY TOPICS IN WOMEN'S STUDIES (3 credits)
This course offers an introductory level course in Women's Studies from a topics approach. The content will vary from semester to semester, according to instructor. May be repeated for credit when topic differs.
WGST 3000  SPECIAL TOPICS IN LITERATURE (1-3 credits)
Special Topics in Literature (1-3). A study of designated specific topics in literature. (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s)/Corequisite(s): Variable according to topic.

WGST 3020  GENDER AND LEADERSHIP I (3 credits)
This course studies scholarship on and the practices of gender and leadership for junior-level undergraduate students. It is a service-learning course.
Prerequisite(s)/Corequisite(s): WGST 2010 or WGST 2020, junior standing or permission.

WGST 3050  WOMEN IN RUSSIAN SOCIETY & CULTURE: A HISTORICAL PERSPECTIVE (3 credits)
This course discusses the history of women in Russia beginning from early Russia (10th Century) to the present. It includes the study of feminist activists, female educational, professional, and employment opportunities, historical and current status of women, and their social, cultural, and intellectual influences on Russian society. Course offered in English. (Cross-listed with RUSS 3050)
Prerequisite(s)/Corequisite(s): Junior or permission.

WGST 3080  HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)
An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today's culturally diverse, global society. Health education students will gain skills needed to orchestrate a learning environment conducive to developing sexual awareness. (Cross-listed with HED 3080).

WGST 3100  LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, PSCI 3100, WGST 8105)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3120  WOMEN AND THE BIBLE (3 credits)
A survey of the female characters of the Hebrew Bible and New Testament, a critical analysis of Biblical imagery of and teachings concerning women, and an examination of the impact of Biblical interpretations on women in society. (Cross-listed with RELI 3130),
Prerequisite(s)/Corequisite(s): Junior, and three hours in Religion or Women's Studies or permission.

WGST 3130  WOMEN AND POLITICS (3 credits)
This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 8135)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3230  GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 8235)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.
Distribution: Global Diversity General Education course

WGST 3250  THE FEMININE IN MYTHOLOGY (3 credits)
The course will acquaint students with (1) the images of the feminine in the earliest strata of human culture, (2) the symbols of the feminine in the myths of the primary religious traditions of the world, and (3) the role of feminine image-making within contemporary religious consciousness. (Cross-listed with RELI 3250).
Prerequisite(s)/Corequisite(s): Junior, or three hours in Religion, or permission.

WGST 3390  WOMEN, CRIME AND JUSTICE (3 credits)
This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with CRCJ 3390)
Prerequisite(s)/Corequisite(s): Upper-division CRCJ or WGST major; CRCJ or WGST minor; CRCJ 1010 and jr/sr standing; or instructor permission.

Distribution: U.S. Diversity General Education course

WGST 3490  GENDER AND PHILOSOPHY (3 credits)
This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. (Cross-listed with PHIL 3490).
Prerequisite(s)/Corequisite(s): Junior or 6 hours in PHIL or 6 hours in WGST.

WGST 3580  QUEENS AND MISTRESSES OF EARLY MODERN EUROPE (3 credits)
This course will consider the historical impact of women who occupied roles of potential influence in early modern Europe. Attention will be given to social, cultural and intellectual influences as well as any political influence which any of them may have had. (Cross-listed with HIST 3580)
Prerequisite(s)/Corequisite(s): Junior.

WGST 3600  SPECIAL TOPICS IN GENDER AND RELIGION (3 credits)
The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate various subjects of interest in religious studies. (May be repeated for credit as long as the topic is different.)
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

WGST 3750  GENDER AND COMMUNICATION (3 credits)
This course provides a survey of literature on communication about, by, and between women and men in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with CMST 3750).
Prerequisite(s)/Corequisite(s): Junior standing; minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

WGST 4010  SENIOR SEMINAR (3 credits)
This course provides a capstone experience in women's studies. It serves as the third writing course, and is required for women's studies majors. It is open to seniors who have completed five courses in women's studies, including WGST 2010 and WGST 2020, with a 'C' or better; others may enroll with permission.
Prerequisite(s)/Corequisite(s): Senior standing, completion of five women's studies courses, including WGST 2010 and WGST 2020, with a grade of 'C' or better; or permission.

WGST 4020  INTERNSHIP IN WOMEN'S STUDIES (1-6 credits)
A faculty-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of instructor is required.
Prerequisite(s)/Corequisite(s): WGST 2010 and WGST 2020, enrollment either as a WGST major or minor or as a BGS concentration in WGST, a 3.0 GPA, and permission of instructor.

WGST 4030  GENDER AND LEADERSHIP II (3 credits)
In addition to a survey of leadership styles and theories, Gender and Leadership II provides historical and contemporary perspectives of gender and leadership, barriers to women's leadership, bias, and discrimination. Individual leadership is examined within the context of being a change agent. This is a service learning course.
Prerequisite(s)/Corequisite(s): WGST 3020
WGST 4040 RELIGION AND HOMOSEXUALITY (3 credits)
A study of homoeroticism in (1) ancient Near Eastern and classical Mediterranean traditions, and in (2) traditions from one or more non-Western cultural regions. The course will include cross-cultural study of religious understandings of homosexuality in modern cultures, with attention to the relation between sexuality and spirituality and to issues of gender identity. (Cross-listed with RELI 4040).
Prerequisite(s)/Corequisite(s): Junior standing, six hours in religion and/or women's studies, or permission of instructor.

WGST 4050 SPECIAL TOPICS IN WOMEN'S STUDIES (3 credits)
This course will give instructor and students the opportunity to investigate a variety of advanced topics in Women's Studies. The content will vary from semester to semester, according to instructor. May be repeated for credit as long as topic differs.
Prerequisite(s)/Corequisite(s): WGST 2010 and WGST 2020 or permission of instructor.

WGST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1922 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 8066, and HIST 8066).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

WGST 4070 GENDER AND LEADERSHIP: COMMUNITY ACTION PROJECT (3 credits)
This course is designed for students in the final stage of the Gender and Leadership Certificate. Activities include practical experience in an organization that will allow students to exercise, observe, and later share lessons with classmates about leadership qualities and skills.
Prerequisite(s)/Corequisite(s): WGST 3020 and WGST 4030

WGST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)
This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Special focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with BLST 4120)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

WGST 4130 GENDER & LEADING SOCIAL CHANGE (3 credits)
This course will cover theories, philosophies, movements, and concepts related to social change as a process and outcome. It is a service-learning course.
Prerequisite(s)/Corequisite(s): WGST 2010 or 2020. Junior standing or permission.

WGST 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 4150, ENTR 8156, GEG 4150, GEG 8156 and WGST 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 4200 INTRODUCTION TO WOMEN'S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 4250).
Prerequisite(s)/Corequisite(s): ENGL 1160 and one additional course in literature or permission.

WGST 4260 WOMEN OF COLOR WRITERS (3 credits)
Women of Color writers is designed to introduce students to the multiculture, literacy experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray woman. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences.
Prerequisite(s)/Corequisite(s): English major or permission of instructor.

WGST 4270 WOMEN WRITERS OF THE WEST (3 credits)
A survey of American and Canadian women writers who explore issues of settlement, land use, cultural displacement, and survival in western territories, states, and provinces. Readings span 19th and 20th-Century literacy and reflect the cultural diversity of the American and Canadian wests. (Cross-listed with ENGL 8276 and ENGL 4270).
Prerequisite(s)/Corequisite(s): ENGL 1150 and 1160 or equivalent; ENGL 2410 recommended.

WGST 4470 AMERICAN MEDICINE AND PUBLIC HEALTH (3 credits)
Analysis of the relationship and interaction of medical thought and practice, public health problems and institutional development, and the changes in American society and culture from the 17th to the 20th century. (Cross-listed with WGST 8476, HIST 4470 and HIST 8476).
Prerequisite(s)/Corequisite(s): Junior.

WGST 4550 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with HED 4550, HED 8556, GERO 4550, GERO 8556)

WGST 4880 WOMEN'S ISSUES IN SOCIAL WORK (3 credits)
Topics and experiences in social work theory and practice pertaining to women's issues. Specifics will be announced when the course is offered. The topics selected will be consistent with faculty expertise and student needs. This course may be repeated for up to nine hours credit.
Prerequisite(s)/Corequisite(s): Junior or senior, or graduate standing in a social science.

WGST 4910 TOPICS IN WOMEN'S HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/8916 when topics are appropriate to Women's and Gender Studies.
Prerequisite(s)/Corequisite(s): Junior

WGST 4920 SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)
An illustrated lecture course dealing with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.
Prerequisite(s)/Corequisite(s): To be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course. Lab fee required.

WGST 4960 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
Specific subjects (when offered) appear in class schedules. Complete syllabi available in English Department. Formerly ENGL4960 / ENGL 8946 Studies in Language and Literature. (Cross-Listed with ENGL 4960).
Prerequisite(s)/Corequisite(s): Will vary depending on what the topic is.

WGST 4970 PRO-SEMINAR (1-3 credits)
Detailed study of narrower phases of literature, language, or culture. (Cross-listed with WGST 8976).
Prerequisite(s)/Corequisite(s): Permission
WRWS 4990 INDEPENDENT STUDY (1-3 credits)
An individualized course of study with a member of the Women's and Gender Studies Faculty. Either independent research or advanced readings may be pursued. No more than 6 hours of independent study may be used towards the minor.
Prerequisite(s)/Corequisite(s): Permission from the Women's Studies director and the supervising faculty member is required.

Writer's Workshop (WRWS)

WRWS 1010 CONTEMPORARY WRITERS: IN PERSON IN PRINT (3 credits)
An introduction to reading contemporary literature by studying the ways in which a writer shapes a poem or tale to communicate with an audience. Emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose books are the texts for the class.
Prerequisite(s)/Corequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

WRWS 1500 INTRODUCTION TO CREATIVE WRITING (3 credits)
An introduction for non-majors in creative writing to the art and craft of writing fiction, poetry, and creative nonfiction. Follows a workshop format based on individual and group critique of students' writing, discussion of principles and techniques of the craft, and reading and analysis of instructive literary examples.
Prerequisite(s)/Corequisite(s): ENGL1160
Distribution: Humanities and Fine Arts General Education course

WRWS 2050 FUNDAMENTALS OF FICTION WRITING (3 credits)
A study of the ways in which the writer confronts the technical choices of his craft. Introduces the student to the major elements of a piece of fiction in order to increase his critical awareness both as reader and writer and prepare him for work in succeeding fiction studios.
Prerequisite(s)/Corequisite(s): ENGL1160 or equivalent.

WRWS 2060 FUNDAMENTALS OF POETRY WRITING (3 credits)
A beginning writing course in poetry with emphasis on the manner in which the poet meets and deals with the technical choices confronting him in the making of a poem. Written work introduces the student to a number of established forms in order to increase his understanding of the elements of a successful poem.
Prerequisite(s)/Corequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

WRWS 2100 BASIC FICTION STUDIO (4 credits)
A basic workshop course in fiction writing, studying the shapes and techniques of composing complete fictions. This is the first of four fiction studios.
Prerequisite(s)/Corequisite(s): WRWS2050

WRWS 2200 BASIC POETRY STUDIO (4 credits)
A basic course in the making of the poem. Explores different forms while encouraging the poet to find his/her own voice.
Prerequisite(s)/Corequisite(s): WRWS2060

WRWS 2300 BASIC CREATIVE NONFICTION STUDIO (4 credits)
A beginning studio in various forms and craft techniques of creative nonfiction. Students study and practice writing such forms as the personal essay, the memoir, the adventure narrative, the essay of issues, etc.
Prerequisite(s)/Corequisite(s): WRWS 2050. Not open to non-degree graduate students.

WRWS 2400 FOUNDATIONS OF SCREENWRITING (3 credits)
This course introduces the student to the foundational elements of screenwriting. The student will learn and practice the techniques of conveying a story in images and sound, creating characters with human motives and conflicts, editing for economy and thematic significance. Proper script formatting will be taught and expected.
Prerequisite(s)/Corequisite(s): English 1160 or equivalent.
Distribution: Humanities and Fine Arts General Education course

WRWS 2600 BASIC SCREENWRITING AND TELEVISION WRITING STUDIO (4 credits)
This studio introduces the fundamentals of screenwriting. The student will produce a pitch, outline and completed industry-standard screenplay that conveys a story, creates characters, and is edited for economy and theme. Proper script formatting will be taught and expected.
Prerequisite(s)/Corequisite(s): WRWS 2050, or WRWS 2060. Not open to non-degree graduate students.

WRWS 3000 SELECTED TOPICS IN WRITING (1-3 credits)
This course presents selected theoretical and practical approaches to crafting one or more the following genres: poetry, fiction, creative nonfiction, screenwriting, young adult literature, the video game narrative, or the graphic novel. Specific topics for the course will vary from semester to semester. Consult current class scheduled for the semester’s topic(s). This course may be repeated for credit as a different course under a new topic.
Prerequisite(s)/Corequisite(s): Vary according to specific topics being offered.

WRWS 3010 LITERARY MAGAZINE (APPLIED) (3 credits)
For writing majors as an applied experience in editing and publishing a literary journal. During his/her involvement in the course, the student will assume responsibility as a member of the editorial staff of the UNO literary magazine. May be repeated up to six hours.
Prerequisite(s)/Corequisite(s): Sophomore and permission of magazine adviser

WRWS 3030 ADVANCED CONTEMPORARY WRITERS (3 credits)
This advanced course explores contemporary literature by studying the ways in which writers in multiple genres shape their work to communicate with an audience. It emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose books are the texts for the class.
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent.

WRWS 3100 FICTION STUDIO (4 credits)
An intermediate course in fiction writing. Emphasis on developing complete short stories or constructing a novel.
Prerequisite(s)/Corequisite(s): WRWS 2100 or permission of instructor. Not open to non-degree graduate students.

WRWS 3200 POETRY STUDIO (4 credits)
An intermediate course in the making of poetry. Emphasis on further development of poetic technique by making poetry and subjecting what is made to critical analysis. (Cross-listed with WRWS 4210)
Prerequisite(s)/Corequisite(s): WRWS 2200. Not open to non-degree graduate students.

WRWS 3300 CREATIVE NONFICTION STUDIO (4 credits)
An intermediate-level studio course in forms and crafting techniques of creative nonfiction. Students study and practice writing within such forms as the literary essay, the essay of issues, historical nonfiction, the nonfiction novel, etc.
Prerequisite(s)/Corequisite(s): WRWS 2300 or permission of instructor. Not open to non-degree graduate students.
WRWS 3500 CREATIVE WRITING FOR THE ARTS (3 credits)
An introduction to the art and craft of writing fiction, poetry, creative nonfiction, and analyses of works in the fields of art, music, and journalism/political rhetoric. The course is intended for non-majors in creative writing, and it is tailored to the needs of other arts disciplines, notably those in CFAM. The course will follow a workshop format based on individual and group critique of students' writing, discussion of principles and techniques of craft and selected literary readings. A strong component of the course will be the experiencing and analysis of other arts forms, which may include exhibits of visual and performance art, journalistic essays (dovetailed with nonfiction) and/or the texts of significant political speeches.
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent.
Distribution: Humanities and Fine Arts General Education course

WRWS 3600 INTERMEDIATE SCREENWRITING STUDIO (4 credits)
This course will build on the foundation established in the Beginning Screenwriting Studio (2600). The student will complete and revise the first draft of a feature-length screenplay. The student will also pitch, note-card, and begin writing a speculation script for television. The class will attend Film Streams once a month to view the current independent offering. There will be lectures and assigned reading. The course will culminate in the student beginning work on a second feature-length screenplay.
Prerequisite(s)/Corequisite(s): WRWS 2600. Not open to non-degree graduate students.

WRWS 3990 INDEPENDENT STUDIES (3-6 credits)
For the writing major who has need of work not currently available in program offerings and who has demonstrated a capacity for working independently. Emphasis on in-depth study in some specific aspect of writing.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

WRWS 4000 FORM AND THEORY (3 credits)
Advanced study of varying forms, structures, and techniques in creative writing. Specific topics of study may change from term to term, and students may repeat the course under a new topic. Consult current class schedule.

WRWS 4100 FICTION STUDIO-ADVANCED (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, using the vocabulary and perspective they have gained so far to discuss their and others' work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4110, WRWS 8116)
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4110 FICTION STUDIO-ADVANCED (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, using the vocabulary and perspective they have gained so far to discuss their and others' work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4100, WRWS 8116)
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4200 POETRY STUDIO (4 credits)
An advanced course in poetry writing. Emphasis on refining poetic technique. (Cross-listed with WRWS8206)
Prerequisite(s)/Corequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

WRWS 4210 POETRY STUDIO (4 credits)
An intermediate course in the making of poetry. Emphasis on further development of poetic technique by making poetry and subjecting what is made to critical analysis. (Cross-listed with WRWS 3200)
Prerequisite(s)/Corequisite(s): WRWS 2200. Not open to non-degree graduate students.

WRWS 4300 ADVANCED CREATIVE NONFICTION STUDIO (4 credits)
An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting.
Prerequisite(s)/Corequisite(s): WRWS 3300 or permission of instructor. Not open to non-degree graduate students.

WRWS 4310 CREATIVE NONFICTION STUDIO (4 credits)
An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting.
Prerequisite(s)/Corequisite(s): WRWS 2300 and WRWS 3300, or permission of instructor. Not open to non-degree graduate students.

WRWS 4600 ADVANCED SCREENWRITING STUDIO (4 credits)
This course will apply the experience and knowledge gained in the Beginning Screenwriting Studio (2600) and the Intermediate Screenwriting Studio (3600). The student will focus on finishing a second screenplay and pitching, note-carding, and writing an original pilot for television. The class will attend Film Streams once a month to view the current independent offering. There will be lectures and assigned reading. The student will prepare and submit inquiries to agents, managers, and independent producers. The student will submit polished screenplays to major contests and development programs (such as the Nicholl Fellowship and the Sundance Writers¿ Lab).
Prerequisite(s)/Corequisite(s): WRWS 2600 and WRWS 3600. Not open to non-degree graduate students.

WRWS 4610 ADVANCED SCREENWRITING STUDIO (4 credits)
This class will build on the knowledge gained in Beginning Screenwriting Studio (2600) and Intermediate Screenwriting Studio (3600). The student will complete a second feature-length screenplay and an original pilot for television. There will be lectures and assigned reading. Once a month the student will view the current independent offering at Film Streams. This class will guide the student in completing a work portfolio, querying agents, applying to internships, and preparing for a career in film and television after graduation.
Prerequisite(s)/Corequisite(s): WRWS 2600 and WRWS 3600. Not open to non-degree graduate students.

WRWS 4860 MODERN FAMILIAR ESSAY (3 credits)
A study of the modern familiar essay, with an emphasis on writing the informal essay.
Prerequisite(s)/Corequisite(s): ENGL 2000 or ENGL 2400 or ENGL 2410, or permission.

WRWS 4990 SENIOR THESIS (3-6 credits)
An option for the writing majors in their last year of study to enable them to prepare a body of original work in their areas of concentration for judging by a committee of faculty.
Prerequisite(s)/Corequisite(s): Permission of department chair and thesis advisor. Not open to non-degree graduate students.

The MACC program is dedicated for designed students and career aspirations demanding a high level of accounting expertise. As such, the program involves both intensive and extensive professional preparation. Our program provides a broad-based preparation for individuals seeking careers in public, private or not-for-profit organizations. For more information regarding career options in accounting, please visit http://cba.unomaha.edu/ACCT/.

Program Website (http://cba.unomaha.edu//MACC/home.cfm)

Financial Assistance
A limited number of graduate scholarships, and assistantships, may be available to MACC students. Those interested in information about these opportunities may call (402) 554-3650. Employed applicants should explore tuition reimbursement plans from their employers.

Admissions
Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Admissions Requirements
- International students must provide evidence of ability to speak and understand the English language; i.e., a minimum of 600 on the paper-based TOEFL, 250 computer-based, 100 if internet-based, 8 IELTS, or 68 PTE. The baccalaureate degree must have been received from a properly accredited institution.
- Applicants must have earned a minimum GPA of 3.0 (on a 4.0 scale) in their undergraduate program. If the applicant’s undergraduate degree is in Accounting, then we further require a minimum GPA of 3.0 overall upper-division Accounting GPA. Students with a GPA less than 3.0 may petition for admission after they have submitted a satisfactory GMAT score.
- GMAT Requirement:
  - Students may be admitted by taking the GMAT and scoring at least 550. The student must score at least 26 or in the 40th percentile on the verbal section and 35 or in the 40th percentile on the quantitative section of the GMAT.
- GMAT exemptions: You may qualify for a GMAT exemption under one of the following three conditions:
  a. If you have earned a CPA license; or
  b. If you have successfully completed a master’s degree in a business field from an AACSB accredited university; or
  c. If you answer “Yes” to ALL of the following questions.
     - Am I working on, or have I completed, an undergraduate business degree with a major in accounting?
     - Is my college of business for my undergraduate degree AACSB accredited?
     - Have I completed a minimum of nine upper division (3000/4000 level) accounting credit hours?
• Is my upper division accounting GPA 3.33 or higher?
• Is my overall undergraduate GPA 3.33 or higher?

**Note:** Credit received for Internships is excluded from these calculations of overall and upper division accounting GPA.

• **Note:** Students who have met the admission requirements above, but who have not completed all of the foundation course requirements (listed below), will be admitted provisionally. Provisionally admitted students must earn a minimum GPA of B (3.0 on a 4.0 scale) in all foundation courses taken to satisfy the requirements set out in their provisional admittance. Provisionally admitted students who do not earn a minimum GPA of B (3.0 on a 4.0 scale) in all foundation courses will be immediately dismissed from the MACC program.

### Degree Requirements

#### Foundation Requirements

Accounting is a technical subject and graduate work in the discipline requires a solid understanding of the material covered in the undergraduate curriculum. To make sure our students are adequately prepared we have a list of Foundation requirements below. Students may be provisionally accepted to the program before they have completed or attempted any of the foundation requirements. However, admission will be provisional and no Graduate-only accounting classes may be taken before the Foundation requirements have been successfully completed—except students enrolled in their final Foundation course may elect to enroll in graduate classes that do not require that course as a prerequisite.

Students who have completed the Foundation requirements or their equivalents at a properly accredited institution before their application must have an overall GPA of (3.0/4.0) in these courses and earned no grade on any of the foundation courses lower than a C (2.0/4.0).

#### MACC Program Requirements

The basic structure of the MACC program is as follows:

• 15 credit hours of Accounting Core Courses
• 6 credit hours of Contemporary Business Environment Courses
• 9 credit hours of Elective Courses

Students select one of the four concentration areas. The choice will determine the courses to be completed within the three sections above.

### Exit Requirement

• Comprehensive Examination

---

### Other Program-Related Information

**Transfer credits:** All transfer credits must be approved by the Director of the MACC Program. A maximum of 6 credit hours may be considered, and must be earned at an AACSB-accredited institution.

#### Generalist Concentration

**Code** | **Title**                                      | **Credits** |

**Academic Performance**

In addition to the Quality of Work Standards required by the UNO Graduate College, MACC students may repeat only once any ACCT 8--0 or ACCT 8--6 level course in which they receive any grade, including "W" or "I".

Students earning a third grade of "C+" or lower (or any single grade below "C-" (1.67 on a 4.0 scale) will be automatically dismissed from the MACC program. Dismissed students will be immediately administratively withdrawn from all courses in which they are enrolled for MACC credit in any subsequent semester or summer session until reinstatement has been granted by the MACC Graduate Program Committee (MACC GPC).

Students who have been dismissed from the MACC program may submit a written petition for reinstatement to the MACC GPC. Students who have petitioned the MACC GPC for reinstatement may not enroll in any courses for MACC credit. Upon receiving a petition for reinstatement, the MACC GPC will evaluate the student's petition. As part of the reinstatement petitioning process, the MACC GPC reserves the right to examine the student's academic record and reserves the right to speak to any previous instructor who has taught the student, and this information may be used by the MACC GPC in the reinstatement decision. Information provided by previous instructors will not be shared with the student. Reinstatement is a privilege, and not all students who are dismissed will be reinstated. Students who have been reinstated will be subject to reinstatement conditions as specified by the MACC GPC. These reinstatement conditions...
may include retaking one or more courses in which the student must earn a grade of "B" (3.0) or higher (the exact grade requirements for retaken courses may in fact be higher than "B" (3.0)). Students not achieving the reinstatement conditions will be automatically dismissed with no additional opportunity for reinstatement.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8026 ADVANCED ACCOUNTING INFORMATION SYSTEMS (3 credits)
Specialized issues in computerized accounting information systems. Principal topics include advanced spreadsheet analysis, data capture and cleansing, database development and implementation, and the use of accounting information for business decisions. Emphasis is on reporting objectives, documentation, security, internal controls, and the evaluation and selection of software. (Cross-listed with ACCT 4020.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8036 TAX ISSUES FOR DECISION MAKING (3 credits)
An introduction to the basic taxation principles for the non-accountant. This course is designed to elevate the tax awareness of and to provide tax knowledge for future decision makers. (Cross-listed with ACCT 4030.)

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)
Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8080 ADVANCED ACCOUNTING TOOLS & DATA ANALYTICS (3 credits)
This course will cover tools and methods that facilitate business analytic techniques, including database development and use, data mining, and information analysis for decision-making. A working understanding of spreadsheet software is assumed.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. Not open to non-degree students. MBA students must have successfully completed BSAD8110 or its equivalent.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)
This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.
Prerequisite(s)/Corequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MACC or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)
The development of accounting, current accounting theory and present controversies and suggested theory and practice.
Prerequisite(s)/Corequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)
This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)
An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) of better. Not open to non-degree students.

ACCT 8250 SEMINAR IN ACCOUNTING (3 credits)
A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260 FEDERAL TAX RESEARCH AND PLANNING (3 credits)
This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8280 SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)
This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of instructor. Not open to non-degree students. MBA students must have successfully completed BSAD 8110 or its equivalent.

ACCT 8290 ADVANCED FINANCIAL AUDITING (3 credits)
This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.
Prerequisite(s)/Corequisite(s): Admission to MACC or MBA program or permission of the Director of the MACC program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8900 INDEPENDENT STUDY (3 credits)
Individual research complementing graduate study in a specific area within the Accounting discipline. May be repeated to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Completed contract and permission needed from director of MACC program.
ACCT 8910 SPECIAL TOPICS IN ACCOUNTING (3 credits)
A variable content course with accounting topics selected in accordance with student and faculty interest. May be repeated to a maximum of six (6) hours.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

Athletic Training, MA
School of Health and Kinesiology, College of Education

Vision Statement
The Athletic Training Program at the University of Nebraska at Omaha is committed to prepare students for successful careers or advanced academic studies in the field of athletic training by providing comprehensive and progressive studies leading to national certification as an athletic trainer. Our students acquire the knowledge, skills, and dispositions of clinicians ready to fulfill critical roles in shaping the future of healthcare delivery to physically active populations. The athletic training program provides resources and opportunities for growth and development of dedicated practitioners, reflective scholars, and responsible citizens through diverse didactic and clinical experiences, based on the competencies set forth by the National Athletic Trainers’ Association (NATA).

Admissions
Application Deadlines
• Summer: January 15 (committee will begin reviewing applications around December 1)

Program-Specific Requirements
• Minimum cumulative undergraduate GPA of 3.0 (on a 4.0 scale) is required for unconditional admission.
  • Students with a 2.70-2.99 cumulative GPA may apply and be admitted provisionally. Provisional admission typically means that the admitted student must maintain a 3.0 GPA or higher, and earn “B” or higher on all courses during the first 12 hours of graduate coursework.
  • International applicants are required to have a TOEFL score of 550 paper-based, 213 computer-based, 80 internet-based, 6.5 IELTS, or 53 PTE in order to be considered a strong candidate for admission.
  • Entrance Exam
    • Minimum cumulative score on the Graduate Record Examination (GRE) General Test of 287 (Verbal + Quantitative)- preferred score is 300
    • Two (2) Letters of Recommendation
      • These individuals should be able to speak about your abilities as a student, your leadership and problem-solving skills, and your potential as an athletic training student.
  • Statement of Purpose
    • Address the following in under 1000 words:
      • What is/are your primary career goal(s)?
      • What in your life has most directly influenced your choice of becoming an Athletic Trainer?
    • Describe your ATTRIBUTES that you feel are clearly and directly related to the profession of Athletic Training.
    • Why should you be selected for the University of Nebraska at Omaha Graduate Athletic Training Program?
  • Applicants must complete a minimum of 25 hours of observation with a credentialed athletic trainer (ATC).
  • These hours should be completed in the 12-month period prior to application to the program. For students with more than 25 hours, a minimum of 25 hours must be completed in the 12-month period prior to application.
  • Applicants that are currently enrolled in a prerequisite (“deficiency”) course at the time of application must send in a Deficiency Report for that course. This Deficiency Report must be sent directly to the Athletic Training Program (ATP), H&K 207, University of Nebraska at Omaha, 6001 Dodge St, Omaha, NE 68182.
  • All graduate candidates accepted to the UNO Athletic Training Program:
    • Who received their bachelor’s degree from another institution must provide the course syllabi and course outlines/schedules in order to provide evidence that specific National Athletic Trainers’ Association Educational Competencies and Proficiencies were completed.
    • Must show proof of current Cardiopulmonary Resuscitation for the Professional Rescuer and Healthcare Provider, and Basic First Aid Certification prior to admission. Certification must remain current through April of the applicant’s first year in the program. Certification by the American Red Cross is strongly preferred. Students are required to maintain these certifications throughout the entire academic program.
    • Must provide proof of physical examination and required vaccinations prior to admission. The physical exam must be completed within 12 months of the first day of our summer session course (typically the first week of July).

Athletic Training Degree Requirements
The following undergraduate prerequisites (deficiencies) must be completed prior to admission with a grade of “C” or better:

<table>

Other Requirements
Once admitted to the Athletic Training Program, the student will obtain clinical hours as part of course requirements. Students will be expected to obtain an average of 20 hours of clinical experience per week during each fall and spring semester, which include some nights, weekends, and travel. Required clinical experiences must be obtained over a minimum of six (6) semesters.

Required Courses
In order to graduate with an MA in Athletic Training, the following courses must be passed with grades of “B” or better and an overall cumulative GPA 3.0 or higher.
better.

Prerequisite(s)/Corequisite(s):

with PE 4070)

themes, trainability, and designing of multi-year training schedules. (Cross-listed in PE 4940)

The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration

injury, efficiency, special foods and nutritional requirements, genetics and optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed

is focused on current issues related to weight management. Candidates will review the guidelines for physical activity and nutrition, apply them to current reading material sold in book stores, and develop a best practice for weight management using what they have learned.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PREREQUISITE (3 credits)

This course will focus on current issues related to weight management. Candidates will review the guidelines for physical activity and nutrition, apply them to current reading material sold in book stores, and develop a best practice for weight management using what they have learned.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 8130 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)

This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 9131)

Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.

PE 8140 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)

This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 9141)

PE 8176 MOTOR ASSESSMENT & PRESCRIPTN (3 credits)

An in-depth survey of motor and fitness assessment instruments for use with pre-school, elementary, and secondary school students. The use of test scores for diagnosis and prescription of physical education activities for special populations will be addressed. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs. (Cross-listed with PE 4170)

Prerequisite(s)/Corequisite(s): PE 4150

PE 8186 PRACT PE FOR DISABLED CHILD (3 credits)

This course is designed as a practicum with theoretical and practical experience in addressing the motor needs of young disabled children in a physical education setting. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs.

Prerequisite(s)/Corequisite(s): PE 4170 or PE 8176

PE 8206 PLANNING WORKSITE WELLNESS PROGRAM (3 credits)

This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs also will be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care. (Cross-listed with PE 4200)

Prerequisite(s)/Corequisite(s): Junior standing.
PE 8210 EMERGENCY MANAGEMENT OF INJURY AND ILLNESS (2 credits)
The purpose of this course is to prepare students to respond to emergent conditions that affect patients involved in physical activity. Students will learn to recognize the signs and symptoms of acute injury and illness, assess patients using evidence-based methods, apply appropriate treatments, make appropriate referral decisions, and implement effective prevention strategies to reduce the risk of injury and illness.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training program. Not open to non-degree graduate students.

PE 8240 SPORT IN AMERICAN CULTURE (3 credits)
Sport in American culture is a study of sport from a theoretical perspective. The relationship between sport and sub-cultures (to include disadvantaged American cultures), economics, global influences, and technology will be analyzed.

PE 8266 INCL INDV W/DISABILITIES IN PE (3 credits)
This course is for physical education, health education, special education and therapeutic recreation candidates interested in the inclusion of children with disabilities in physical education environments. (Cross-listed with PE 4260)
Prerequisite(s)/Corequisite(s): PE 3060 or PE 4000 and PE 4150

PE 8280 CURRICULUM IN PE (3 credits)
A study of the foundations for curriculum development. Special consideration is given to curriculum change, curriculum patterns and programs in physical education which will meet a culturally diverse, global society.

PE 8310 ATHLETIC TRAINING TECHNIQUES (2 credits)
Overview course including basic components of the athletic training profession including the prevention, recognition, evaluation and immediate care of athletic injuries. Medical terminology, tissue healing, taping procedures, and professional considerations will be covered.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training. Not open to non-degree graduate students.

PE 8316 LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced extremity injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the low back, hip, and lower extremities. (Cross-listed with PE 4310)
Prerequisite(s)/Corequisite(s): PE 8326 and 8710. Not open to non-degree graduate students.

PE 8326 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with PE 4320)
Prerequisite(s)/Corequisite(s): PE 8316, PE 8336, and PE 8720. Not open to non-degree graduate students.

PE 8336 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with PE 4330)
Prerequisite(s)/Corequisite(s): PE 8326 and PE 8710. Not open to non-degree graduate students.

PE 8346 REHAB TECH IN ATH TRAINING (3 credits)
The use of basic theories and principles of athletic injury rehabilitation including therapeutic exercise and the use of physical agents. The development of rehabilitation programs including hands-on practical application. (Cross-listed with PE 4340)
Prerequisite(s)/Corequisite(s): Written Permission Required

PE 8356 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with PE 4350)
Prerequisite(s)/Corequisite(s): PE 3430, PE 4320.

PE 8360 ADV ORTHO & MED ASPECTS (3 credits)
This course will enhance the candidate’s knowledge of orthopedic aspects and general medical conditions of the athlete. Involves lecture, directed observation, experiential learning, literature review and hands-on experience. Local medical professionals will be providing instruction and supervision within their specialties. The candidate will be exposed to advanced evaluation and treatment skills, including imaging techniques, surgical procedures, rehabilitation and athletic training management.
Prerequisite(s)/Corequisite(s): PE 8316 and PE 8326

PE 8370 ANALYZING PE TCH & SPORT INST (3 credits)
This course will examine the teaching and coaching in physical education and sport. It will identify assessment techniques utilized in teaching and coaching behavior research as well as typical prescriptions in an effort to improve one’s performance.

PE 8460 OCCUPATIONAL BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance in work places and provide candidates with information in the application of biomechanics, engineering for designing industrial tools, equipment, products, and jobs that take into consideration human physical capabilities and limitations.
Prerequisite(s)/Corequisite(s): PE 4630 or equivalent and PE 2880. Not open to non-degree students.

PE 8506 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with PE 4500)

PE 8700 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 9701)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; instructor permission.

PE 8710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, instructor permission, & continued compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite with enrollment in PE 8326. Not open to non-degree graduate students.
PE 8720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8710 Clinical Practicum AT I, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8316 & 8336. Not open to non-degree grads.

PE 8730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8720 Clinical Practicum AT II, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8346 & 8356. Not open to non-degree grads.

PE 8740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, PE 8730 Clinical Practica in Athletic Training III, instructor permission, and continued compliance with published Athletic Training Program Technical Standards for Admission. Co-req: PE 8966.

PE 8800 RISK MGT HLTH/FIT PROFESSIONALS (3 credits)
A study of risk management for health fitness professionals with a focus on minimizing liability exposures for health fitness facilities and their personnel. Principles of risk management such as the assessment of liability exposures, the development and implementation of risk management strategies, and the evaluation of these strategies will be explored as well as the law as it pertains to health fitness liability. Candidates will develop the knowledge and skill to manage high quality health fitness programs in various settings.
Prerequisite(s)/Corequisite(s): PE 4010 or PE 8016

PE 8856 CARDIOVASCULAR DISEASE PREVENTION & REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with PE 4850)
Prerequisite(s)/Corequisite(s): PE 8946

PE 8865 SCIENTIFIC ASPECTS STRENGTH DEV (3 credits)
This course is designed to explore the nature of muscular strength development, to investigate the physiological basis of physical conditioning, and to provide teachers, coaches and trainers with practical experience in designing specialized conditioning programs for a variety of sports and cultures. (Cross-listed with PE 3860)

PE 8900 MGMT & LEAD SKILLS FOR FIT MGRS (3 credits)
This course is a study of management and leadership skills necessary for the successful management of fitness and wellness facilities and programs. Candidates will develop knowledge and practical skills in the areas of personnel and financial management, marketing, and operating policies procedures as well as develop a personal leadership philosophy based on sound principles of leaders.
Prerequisite(s)/Corequisite(s): PE 8016 or ACSM Health Fitness Certification.

PE 8910 INTERNSHIP IN EXERCISE SCIENCE (3 credits)
This course is an off-campus, supervised, educational work experience of at least 150 clock hours at an approved worksite offering programs and experiences in fitness development or health promotion. Candidates must have current CPR certification.
Prerequisite(s)/Corequisite(s): The prerequisites for this course include 90 hours completed, 2.5 GPA, PE 4900 and permission of instructor.

PE 8950 ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of exercise on metabolic, pulmonary, and cardiovascular function; and sports nutrition. Current research findings and methodology will be emphasized. (Cross-listed with PE 9951)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent

PE 8966 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition. (Cross-listed with PE 4960)
Prerequisite(s)/Corequisite(s): PE 8346, PE 8356, and PE 8730, or Instructor consent.

PE 9040 PHYSICAL ACTIVITY EPIDEMIOLOGY (3 credits)
This course will cover the broad scope of the issues related to epidemiological methods that are relevant to the study of physical activity populations. It is intended to enhance students' ability to understand and apply epidemiological methods to physical activity related research.
Prerequisite(s)/Corequisite(s): PE 8130 Implementing Physical Activity I and PE 8040 Advanced Statistics in PE or related course or permission by the instructor; not open to non-degree graduate students

PE 9041 ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in descriptive and experimental research in physical education and exercise science. Application, particularly regarding the purpose, selection, and interpretation of statistical procedures will be emphasized. (Cross-listed with PE 9041)
Prerequisite(s)/Corequisite(s): HPER 9031 or equivalent.

PE 9131 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 8130)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.

PE 9141 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 8140)

PE 9701 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 8700)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.
of a wide variety of organisms. The MS degree prepares students for employment in industry, private or government agencies, and academics, as well as further education in professional programs, such as the PhD or MD.

**Program Contact Information**
Dr. P. Roxanne Kellar, Graduate Program Chair (GPC)
Allwine Hall (AH) 211A
402-554-2840
rkellar@unomaha.edu

**Program Website** (http://www.unomaha.edu/college-of-arts-and-sciences/biology/academics/graduate-programs.php)

**Other Program Related Information**

The Department of Biology annually awards 17 graduate assistantships. New applicants should indicate their interest in applying for an assistantship as part of the admission application and should include your employment history along with names and contact information of three references in your resume or CV. The assistantships require 20 hours per week of teaching and/or other assignments.

**Admissions**

**Application Deadlines**
- Fall: February 15
- Spring: October 15
- Summer: February 15

**Program-Specific Requirements**
- The applicant’s GPA in undergraduate biology courses will be determined and must be 3.0 or above (on a 4.0 scale)
- An applicant must normally present 24 semester hours of credit in the biological sciences, including genetics ( sophomore level or above), ecology (junior level or above) and molecular/cell biology (junior level or above). Preparation in the supporting sciences must include a course in inorganic or introductory chemistry, a course in organic chemistry or biochemistry, a course in introductory physics and a course in mathematics (college algebra, trigonometry or calculus) or statistics. Students with inadequate backgrounds in biology or the supporting sciences may be admitted provisionally and will be required to complete courses in the named areas.
- Applicants for whom English is not the language of nurture should have a minimum TOEFL of 95 iBT, 7.5 IELTS or 76 PTE.
- Entrance Exam
- Graduate Record Exam (GRE) General Test with a combined score (verbal + quantitative) of 297 and a minimum writing score of 3.5.
- Three (3) Letters of Recommendation
- Current resume or curriculum vitae (CV)
  - Shall include an outline of your educational background, employment history, research experience, and a list of references.
- Statement of Purpose
  - The Biology Department strongly encourages applicants to contact a professor whose research interests overlap with their own goals for graduate research. Because of the individualized nature of the Biology Graduate Program, otherwise qualified applicants may not be admitted if appropriate faculty are not available to serve as advisors. Please indicate in your Statement of Purpose who you have contacted or plan to contact.
- Applicants not meeting the criteria in terms of GPA or standardized test scores may provide written evidence of experience or potential to perform outstanding graduate work and petition the department for provisional admission as long as their Biology GPA is above the 2.7 minimum set by the Graduate College. Students seeking provisional admission should contact two or more biology faculty to discuss
admission. Provisional admission will not be removed until the student has earned at least the grade of "B" (3.0 on a 4.0 scale) in each course involved in the first 12 hours of graduate study. Questions about requirements for admission should be directed to the Department of Biology.

Requirements

Thesis Option
At least 50% of the 30 credit hours will be taken in 8000-level (graduate only) courses. The 30 credit hours of graduate course work must include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 8010</td>
<td>SEMINAR IN BIOLOGY</td>
<td>1</td>
</tr>
</tbody>
</table>

Electives
To be determined by the student, and approved by his/her graduate advisory committee; courses in other departments may be included.

Exit Requirements
BIOL 8990  THESIS  6
Total Credits: 30

Non-Thesis Option
At least 50% of the 36 credit hours will be taken in 8000-level (graduate only) courses. The 36 credit hours of graduate course work must include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 8010</td>
<td>SEMINAR IN BIOLOGY</td>
<td>1</td>
</tr>
<tr>
<td>BIOL 8020</td>
<td>INDEPENDENT RESEARCH IN BIOLOGY</td>
<td>2</td>
</tr>
</tbody>
</table>

(minimum of 2 credit hours)

Electives
To be determined by the student, and approved by his/her graduate advisory committee; courses in other departments may be included.

Exit Requirements
All degree students must form a supervisory committee of faculty, chaired by a major advisor from the Department of Biology. In consultation with the Supervisory Committee, students will develop a Plan of Study list courses required for graduation. This will include any deficiencies required as a condition of admission and a minimum of 30 graduate credits for the thesis option and a minimum of 36 credits for the non-thesis option. Graduate students are expected to attend the Graduate Seminar (BIOL 8010) even when not registered for it.

Thesis Option (6 hours):
Thesis candidates must complete 6 credit hours of BIOL 8990, Thesis. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms and final approval and submission of a thesis.

Non-Thesis Option:
Comprehensive Examination administered by the Supervisory Committee.

Certificates Offered
- Biomedical Science Certificate (p. 611)
- Business for Bioscientists Certificate (p. 612)
BIOL 8156 CANCER BIOLOGY (3 credits)

This is a 100% online course devoted to understanding Cancer Biology. The etiology of cancers, differences between types of malignancies, oncogenes and genetic modifiers, treatments, susceptibility, and tumor-induced immunosuppression are discussed. This is an active course focused on inquiry-based learning and the purpose of this course is to provide students a foundation in cancer biology while applying tools learned through cell biology, genetics, and immunology courses. (Cross-listed BIOL 4150)

Prerequisite(s)/Corequisite(s): Undergraduate or Graduate Molecular Biology of the Cell (Biol3020) and Genetics (Biol 2140). Recommended: Introduction to Immunology (Biol3240).

BIOL 8170 ECOSYSTEM ANALYSIS FOR EDUCATORS (3 credits)

This course is designed for education graduate students who wish to take a field-based biology course that uses an interdisciplinary approach to understanding the ecosystem of the tallgrass prairie. This course engages graduate students in methods reflecting multidisciplinary STEM strategies (e.g. scientific inquiry, modeling, geographic information system mapping, etc.) associated with research taking place at the Glacier Creek Preserve. Graduate students completing this course will develop advanced knowledge of ecology, restoration ecology, and monitoring of prairie habitat restoration. Graduate students will focus on the technical, biogeochemical, ecological and cultural aspects of analyzing and restoring the prairie ecosystem and its various habitats. (Cross-listed with STEM 8170)

Prerequisite(s)/Corequisite(s): Graduate Standing or Permission from the Instructor.

BIOL 8186 LIMNOLOGY (4 credits)

A study of the physical, chemical and biotic relationships that serve to establish and maintain plant and animal communities in a freshwater environment. (Cross-listed with BIOL 4180)

Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, and organic chemistry. Not open to nondegree students.

BIOL 8190 COMMUNITIES AND ECOSYSTEMS (3 credits)

Advanced study of populations, communities and ecosystems; may require overnight weekend field trips.

Prerequisite(s)/Corequisite(s): BIOL 3340/8345, graduate in biology. Not open to nondegree students.

BIOL 8200 PLANT ECOLOGY (4 credits)

Advanced study of plant communities and of individual plant species including relationships with the environment and vegetative dynamics. Emphases on methods of evaluation and analysis. May require overnight field trips.

Prerequisite(s)/Corequisite(s): BIOL 3340/8345, graduate in biology. Recommended: BIOL 3530/8535. (Fall) Not open to nondegree students.

BIOL 8216 FIRE ECOLOGY (3 credits)

Study of fire in ecosystems including characteristics of fire, effects on flora, fauna and the abiotic environment, and use in maintaining native ecosystems. May include two weekend field exercises. (Cross-listed with BIOL 4210)

Prerequisite(s)/Corequisite(s): BIOL 3340, graduate in biology. Not open to nondegree students.

BIOL 8226 POPULATION BIOLOGY (4 credits)

An examination of topics in population ecology and population genetics including selection on individuals and groups, mating systems, life history characteristics, growth and regulation of populations and population interactions. Outside research project required. (Cross-listed with BIOL 4220)

Prerequisite(s)/Corequisite(s): BIOL 2140 and 3340, junior-senior. Not open to nondegree students.

BIOL 8236 ORGANIC EVOLUTION (3 credits)

A study of organic evolution in terms of evidences which support the theory and the mechanisms involved in the process. (Cross-listed with BIOL 4230)

Prerequisite(s)/Corequisite(s): BIOL 2140. Lecture and discussion only. Not open to nondegree students.

BIOL 8246 MARINE BIOLOGY (3 credits)

An introduction to the marine environment, this course explores physical conditions of the ocean including ocean chemistry, salinity, waves and currents, and tides as well as the ecology of planktonic, nektonic and benthic organisms— their communities and environments. Impacts of humans on the marine environment will also be covered. (Cross-listed with BIOL 4240)

Prerequisite(s)/Corequisite(s): BIOL 1750

BIOL 8250 DESIGN AND ANALYSIS OF BIOLOGICAL RESEARCH (3 credits)

This course examines the statistical aspects of the design of laboratory and field experiments in biology. Basic statistical methods are reviewed and advanced methods presented. Statistical computer packages are used.

Prerequisite(s)/Corequisite(s): Undergraduate course in statistics is recommended. Not open to nondegree students.

BIOL 8256 FIELD MARINE BIOLOGY (1 credit)

This lab is a hands-on introduction to the marine environment using a field trip to the Gulf Coast. Students will observe first-hand examples of local marine habitats and organisms. Students will be required to take a trip to the Gulf Coast of Texas, Louisiana, Mississippi, and Alabama during Spring Break. Students will be required to provide their own basic camping and snorkeling gear. (Cross-listed with BIOL 4250)

Prerequisite(s)/Corequisite(s): BIOL 1750, previous or concurrent enrollment in BIOL 4240 and permission of instructor.

BIOL 8266 BEHAVIORAL ECOLOGY (3 credits)

Behavioral ecology is the study of behavior from an evolutionary and ecological point of view. Through the integration of research at different organizational levels and the use of many different organisms, behavioral ecology is one of the most integrative fields in biological sciences. This course will provide an introduction to the basic concepts of behavioral ecology and the integrative approaches used in behavioral ecology. Further, the course will train students in critical reading and discussion of primary literature in writing and in an oral setting. (Cross-listed with BIOL 4260)

Prerequisite(s)/Corequisite(s): Admission into the graduate college. Not open to non-degree graduate students.

BIOL 8276 ANIMAL BEHAVIOR (3 credits)

Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. Lecture only. (Cross-listed with BIOL 4270, PSYC 4270, PSYC 8276)

Prerequisite(s)/Corequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

BIOL 8286 ANIMAL BEHAVIOR LABORATORY (3 credits)

Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with BIOL 4280, PSYC 4280, PSYC 8286)

Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273. Not open to non-degree graduate students.

BIOL 8300 ECOLOGY OF RUNNING WATER (4 credits)

This course will cover current topics in stream ecology with an emphasis on the impact of modern human management of prairie and Midwestern streams. Students will read, analyze, and discuss selected articles from major journals. Several field trips will be conducted to allow students to examine actual streams of different types throughout the Midwest.

Prerequisite(s)/Corequisite(s): BIOL 3340/8345 or BIOL 4180/8186. Not open to nondegree students.
BIOL 8326 HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with BIOL 4320, PSYC 4320, PSYC 8326)
Prerequisite(s)/Corequisite(s): Admission to graduate level PSYC program or permission of dept. Not open to non-degree graduate students.

BIOL 8330 ADVANCED TOPICS IN GENERAL PHYSIOLOGY (3 credits)
Studies in general physiology including such topics as photo-physiology, hormonal regulation of metabolic pathways, temperature-related phenomena, and cytogenetic physiology. Lecture, laboratory, and written report.
Prerequisite(s)/Corequisite(s): Graduate in biology. Not open to nondegree students.

BIOL 8345 ECOLOGY (4 credits)
Study of interrelationships between organisms and their biotic and abiotic environment; includes population biology, community dynamics, biotic interactions and evolution. Labs include field exercises. (Cross-listed with BIOL 3340)
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750. Not open to nondegree students.

BIOL 8346 ICHTHYOOLOGY (4 credits)
A study of the biology of fishes, including their evolution, anatomy, physiology, ecology, distribution, classification and identification with emphasis on North American freshwater fishes. (Cross-listed with BIOL 4340)
Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

BIOL 8356 LICHENOLOGY (3 credits)
Taxonomy, morphology and ecology of lichenized fungi with laboratory emphasis on identification of the local species. Other topics for discussion will include symbiosis, air pollution and lichens, chemosystematics and modern herbarium techniques for lichens and other cryptograms. (Cross-listed with BIOL 4350)
Prerequisite(s)/Corequisite(s): BIOL 1450/1750, graduate in biology. Not open to nondegree students.

BIOL 8376 PHYCOLOGY (3 credits)
A survey of the algae dealing with their ecology, morphology, physiology, taxonomy and evolution. (Cross-listed with BIOL 4370)
Prerequisite(s)/Corequisite(s): BIOL 1450/1750 or permission of instructor, graduate in biology. Not open to nondegree students.

BIOL 8386 MORPHOLOGY OF NON-VASCULAR PLANTS (4 credits)
Structural, reproductive, ecological and evolutionary features of the major non-vascular plant groups including prokaryotes, algae, fungi, lichens and bryophytes. (Cross-listed with BIOL 4380)
Prerequisite(s)/Corequisite(s): BIOL 1450/1750, graduate. Not open to nondegree students.

BIOL 8396 VASCULAR PLANT MORPHOLOGY (3 credits)
A survey of living and fossil vascular plants with emphasis on their comparative anatomy and morphology and their evolution. (Cross-listed with BIOL 4390)
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750 or equivalent, graduate in biology.

BIOL 8416 WETLAND ECOLOGY AND MANAGEMENT (3 credits)
This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with ENVN 4410 and BIOL 4410)
Prerequisite(s)/Corequisite(s): BIOL 3340 or instructor permission.

BIOL 8426 RESTORATION ECOLOGY (3 credits)
Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 4420, ENVN 4420)
Prerequisite(s)/Corequisite(s): Graduate standing.

BIOL 8436 BIOLOGY OF FUNGI (3 credits)
A functional and developmental approach to the study of fungi. Fungal structure, growth, physiology and biotic interactions will be examined. (Cross-listed with BIOL 4430)
Prerequisite(s)/Corequisite(s): BIOL 1450-1750, graduate. Not open to nondegree students.

BIOL 8446 PLANT PHYSIOLOGY (4 credits)
A study of plant processes and functions with emphasis on photosynthesis, growth and development, metabolism and mineral nutrition. (Cross-listed with BIOL 4440)
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750, and CHEM 2210 or CHEM 2250; or permission of instructor.

BIOL 8450 BIOLOGY EDUCATION RESEARCH METHODS (3 credits)
In this course, students will learn the methods of conducting pedagogical research in Biology, understand how people learn the concepts, practices, and ways of thinking in science and engineering; understand the nature and development of expertise in a discipline; help identify and measure appropriate learning objectives and instructional approaches that advance students toward those objectives; contribute to the knowledge base in a way that can guide the translation of statistical findings to classroom practice; and identify approaches to make science and engineering education broad and inclusive. Students will work with live data sets to evaluate effective pedagogical approaches in the biology classroom of various audiences (K-16).

BIOL 8454 VIROLOGY LABORATORY (1 credit)
A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include host cell characterization, viral infection, virus purification from infected cells, viral genome isolation and viral transfection. Sequence analysis and sequence comparison will also be introduced. Laboratory exercises will emphasize fundamental molecular biology techniques and instrumentation. Usually offered in Fall semester. (Cross-listed with BIOL 4454)
Prerequisite(s)/Corequisite(s): Biology 8456 - Virology is a prerequisite or co-requisite.
Biol 8456 Virology (3 credits)
A comprehensive course about viruses. The course will address principles of viral infection, virus-host interaction, viral evolution and viral disease processes. Cellular and molecular aspects of viral infection will be the primary focus. This will include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will also be addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with Biol 4450)
Prerequisite(s): CHEM 2260 and 2274 or CHEM 2210 and 2214, BIOL 3020 and 2140. Recommended: Biochemistry.

Biol 8496 Medicinal Uses of Plants (3 credits)
A scientific study of the biochemical properties and physiological effects of medicinal plants, including their historical uses, current applications to varying systems of the human body, and pathways by which today's potent drugs have transitioned from wild flora. Usually offered Fall semesters of even-numbered years. (Cross-listed with Biol 4490)

Biol 8535 Flora of the Great Plains (4 credits)
A study of common vascular plants found in the Great Plains region, including identification, description, and classification techniques and an introduction to the plant communities of Nebraska. Usually offered every Fall and Summer. (Cross-listed with Biol 3530.)
Prerequisite(s): BIOL 1450-1750. Not open to nondegree students.

Biol 8576 Paleobotany (4 credits)
A comprehensive study of the biology and evolution of plants through geologic time, including fossil plant structure, function and paleoecology. (Cross-listed with Biol 4570)
Prerequisite(s): BIOL 1450-1750, graduate status or permission of instructor. Not open to nondegree students.

Biol 8606 GIS Applications for Environmental Science (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with Biol 4600, Envn 4600)
Prerequisite(s): BIOL 3340 or permission of instructor.

Biol 8635 Plant Anatomy and Development (4 credits)
A study of cells, tissues and organs of vascular plants with particular emphasis on internal structure of seed plants, their development, and structure-function relationships. Must enroll in lab. Usually offered in alternate years. (Cross-listed with Biol 3630)
Prerequisite(s): BIOL 1450, 1750 and junior-senior.

Biol 8646 Microbial Physiology (4 credits)
Examination of physiological diversity found among microorganisms with an emphasis on experimental procedures and practical applications. Lecture and laboratory. (Cross-listed with Biol 4640)
Prerequisite(s): BIOL 3020. Not open to nondegree students.

Biol 8654 Biochemistry I Laboratory (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry I lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with Biol 4650, Chem 4650, Chem 8656).
Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 8654 must be taken concurrently.

Biol 8656 Biochemistry I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with Biol 4650, CHEM 4650, CHEM 8656).
Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. BIOL 8654 must be taken concurrently.

Biol 8664 Biochemistry II Laboratory (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with Biol 4664, Chem 4664, Chem 8664).
Prerequisite(s): CHEM 8654 and CHEM 8656 or BIOL 8654 and BIOL 8656 with a grade of B- or better. Concurrent enrollment in CHEM 8666.

Biol 8666 Biochemistry II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipid, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with Biol 4664, Chem 4664, Chem 8666).
Prerequisite(s): CHEM 8656 and CHEM 8654 or BIOL 8654 and BIOL 8656 with a grade of B- or better. BIOL 8664 must be taken concurrently.

Biol 8716 Toxicology (3 credits)
An overview of the fundamentals of toxicology. Concepts include the dose-response relationship, absorption, distribution and excretion of toxicants, and the biotransformation of xenobiotics. Emphasis will be given to metals, pesticides, pharmaceutical compounds, chemical carcinogenesis and endocrine disruption. Usually offered Fall. (Cross-listed with Biol 4710)
Prerequisite(s): BIOL 2210 or BIOL 1750, BIOL 3020 or equivalent.

Biol 8735 Fauna of the Great Plains (3 credits)
A survey of the common animal groups found in the Great Plains, including their evolution, ecology, distribution and specific adaptations to the environment of the temperate North American grasslands. (Cross-listed with Biol 3730)
Prerequisite(s): BIOL 1750. Not open to nondegree students.

Biol 8736 Vertebrate Endocrinology (3 credits)
An overview of the fundamentals of vertebrate endocrinology. Concepts include: the mammalian hypothalamus-pituitary system, the endocrinology of mammalian reproduction, the mammalian adrenal glands, endocrine disruption, endocrinology and metabolism. (Cross-listed with Biol 4730)
Prerequisite(s): Organic Chemistry, Biol 1750, Biol 3020 or equivalent.

Biol 8745 Histology (4 credits)
Analysis of the microscopic anatomy of tissues and organs, their adaptations and functional significance. (Cross-listed with Biol 3740)
Prerequisite(s): BIOL 1750. Not open to nondegree students.
**BIOL 8746 ANIMAL PHYSIOLOGY (3 credits)**
An overview of the fundamentals of animal physiology. Concepts include: the physiology of nerve and muscle function, endocrine function, cardiovascular and respiratory function, oxygen and carbon dioxide delivery by the blood, and osmoregulation and excretion. The course is comparative in nature, including examples from humans, mammals, vertebrates and invertebrate animals. Usually offered Spring. (Cross-listed with BIOL 4740.)
**Prerequisite(s)/Corequisite(s):** Organic Chemistry, Biol 1750, Biol 3020 or equivalent.

**BIOL 8760 CLINICAL REASONING (3 credits)**
This is an intensive class in which students will translate biological concepts into solving case-based scenarios in clinical medicine. Relevant readings will prepare students to address these challenges in small-group settings. Intended as an advanced preparatory course for healthcare professionals or students desiring exposure to clinical decision-making. Usually offered during Summer semester.
**Prerequisite(s)/Corequisite(s):** Molecular Biology; Microbiology or Immunology; plus instructor approval.

**BIOL 8766 GENOME TECHNOLOGY AND ANALYSIS (3 credits)**
This course will introduce the latest genome sequencing technologies and their broad applications in biology and medicine. Students will learn how genome sequencing is conducted by different platforms and obtain practical experience of how to use bioinformatics tools for genome analysis. Students are expected to be able to perform sequence analysis efficiently and interpret the results properly. (Cross-listed with BIOL 4760)
**Prerequisite(s)/Corequisite(s):** BIOL2140 Genetics; or Permission of instructor

**BIOL 8770 CLINICAL READINGS (3 credits)**
This course is a rigorous study of current biomedical, translational, and clinical primary literature spanning a wide range of human health and disease.
**Prerequisite(s)/Corequisite(s):** Graduate and written permission of graduate faculty member.

**BIOL 8786 VERTEBRATE ZOOLOGY (4 credits)**
A study of the general biology of the subphylum vertebrata including the morphology, anatomy, physiology and ecology of vertebrate representatives. (Cross-listed with BIOL 4780)
**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to nondegree students.

**BIOL 8796 MAMMALOLOGY (4 credits)**
The biology of mammals, including their evolution, functional morphology, physiology, ecology, zoogeography, behavior, classification and identification with emphasis on North American groups. Field trips. (Cross-listed with BIOL 4790)
**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to nondegree students.

**BIOL 8826 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)**
Seminar on environmental law and regulation. The course will address federal regulations, implementing instructions, legal principles and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation will be discussed. Usually offered Fall semesters. Cross-listed with (BIOL 4820, ENVN 4820, GEOG 4820, GEOG 8826, PA 4820, PA 8826)
**Prerequisite(s)/Corequisite(s):** Junior-senior and permission.

**BIOL 8830 ENVIRONMENTAL PHYSIOLOGY (3 credits)**
A detailed study of selected dynamic environmental factors and mechanisms of physiologic adaptation by organisms of various taxa. General physics, algebra, animal physiology, or permission of instructor.
**Prerequisite(s)/Corequisite(s):** General physics, algebra, animal physiology. Not open to nondegree students.

**BIOL 8836 DEVELOPMENTAL GENETICS (2 credits)**
This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics. (Cross-listed to BIOL 4830)
**Prerequisite(s)/Corequisite(s):** This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics.

**BIOL 8846 HERPETOLOGY (4 credits)**
The biology of amphibians and reptiles, including their evolution, classification, anatomy, physiology, ecology, distribution and identification with emphasis on North American groups. (Cross-listed with BIOL 4840)
**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to nondegree students.

**BIOL 8856 DEVELOPMENTAL BIOLOGY (3 credits)**
This course explores principles underlying the development of multicellular organisms, stressing the environmental, genetic, molecular, cellular, tissue, and evolutionary mechanisms of animal development. Usually offered once per year. (Cross-listed with BIOL 4850)
**Prerequisite(s)/Corequisite(s):** BIOL 1450, 1750, 2140, 3020, and CHEM 3650 or BIOL 4650 or CHEM 4650 and junior-senior status.

**BIOL 8866 COMPARATIVE GENOMICS (3 credits)**
This course will introduce fundamental concepts in genomics and genome comparison. Students will learn how genomes are constructed, how they evolve, how individual genomes are unique, and what genomic knowledge means in terms of human health and medicine. (Cross-listed with BIOL 4860)

**BIOL 8876 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)**
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with NEUR 4870, BIOL 4870, NEUR 8878)
**Prerequisite(s)/Corequisite(s):** NEUR 1500 and BIOL 3020 or permission of instructor.

**BIOL 8886 INVERTEBRATE ZOOLOGY (4 credits)**
A comprehensive study of the invertebrate animals. (Cross-listed with BIOL 4880)
**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to nondegree students.

**BIOL 8886 GENES, BRAIN, AND BEHAVIOR (3 credits)**
This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with BIOL 4890, NEUR 4890, PSYC 8896)
**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**BIOL 8926 PARASITOLOGY (4 credits)**
Taxonomy, morphology, physiology, life history dissemination and control of the parasitic protozoans, helminths and arthropods. (Cross-listed with BIOL 4920)
**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to nondegree students.

**BIOL 8946 ENTOMOLOGY (4 credits)**
The study of insects; their classification, morphology, physiology, behavior, life histories, ecology and evolution. (Cross-listed with BIOL 4940)
**Prerequisite(s)/Corequisite(s):** BIOL 1750.
BIOL 8956 VERTEBRATE EMBRYOLOGY AND ANATOMY (4 credits)
Development and phylogeny of vertebrate organ systems. Dissection of major vertebrate types, and study of developmental stages from fertilized egg to adult condition. (Cross-listed with BIOL 4950)
Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

BIOL 8966 ADVANCED GENETICS (3 credits)
An in-depth consideration of topics in genetics, including the conceptual and molecular definition of a gene, cytogenetics, mutation, population genetics, developmental genetics, gene regulation and the application of genetics to other areas of biology. (Cross-listed with BIOL 4960).
Prerequisite(s)/Corequisite(s): BIOL 2140 and BIOL 3020 and concurrent enrollment or completion of either CHEM 3650 or CHEM 4610 or CHEM 4650 or BIOL 4650, or permission of the instructor.

BIOL 8986 ORNITHOLOGY (4 credits)
An introduction to the general biology of birds, including their anatomy, physiology, behavior, ecology, classification and identification with emphasis on North American groups. Usually offered in alternate years. (Cross-listed with BIOL 4980)
Prerequisite(s)/Corequisite(s): BIOL 1750.

BIOL 8990 THESIS (1-6 credits)
An original and independent research project written under the supervision of a faculty thesis advisory committee.
Prerequisite(s)/Corequisite(s): Not open to nondegree students.

Biomedical Science Certificate
Department of Biology, College of Arts and Sciences

Vision Statement
The goal of the proposed certificate is to provide a post-baccalaureate experience that will prepare students for future clinical training, particularly schooling for medicine, dentistry, pharmacy, physician assistant, or veterinarian. This certificate is distinct from the MS in Biology, which aims to provide a broad experience in biological research. Certificate students receive integrated career and academic advising through the UNO Health Careers Resource Center (HCRC).

Admissions
Application Deadlines
• Fall: February 15
• Spring: October 15

Program-Specific Requirements
• Applicant’s are required to have completed a bachelor’s degree and present a GPA of 3.0 or above (on a 4.0 scale).
• Applicant must complete the following prerequisite courses: students who have not completed all courses may apply for admission and will be expected to complete remaining prerequisites during their first semester.
• Applicants for whom English is not the language of nurture should have a minimum TOEFL of 95 iBT, 7.5 IELTS or 76 PTE.
• Entrance Exam

• Graduate Record Exam (GRE) General Test with scores for the verbal and quantitative sections above the 35th percentile and a minimum writing score of 3.5.
• Two (2) Letters of Recommendation from college or university faculty members.

Total Credits 16

1 If a student has completed UNO CHEM 4660 within three years; CHEM 8666 and CHEM 8664 will be waived and four additional credit hours will be fulfilled with elective hours. 2 Courses taken for undergraduate credit cannot be retaken for graduate credit.
Business for Bioscientists Certificate

College of Business Administration; Department of Biology, College of Arts and Sciences

Vision Statement
This certificate program provides a basic understanding of business principles to biomedical PhD students. While UNMC PhD students receive extensive training in research methods and the principles of biology and medicine, they receive no formal training in business fundamentals. However, a significant portion of biomedical PhD students obtain employment in pharmaceutical, biotechnology, and other industries. For students with these career goals, formal training in business would markedly enhance their career options and competitiveness for these industry positions.

Admissions
Application Deadlines
• Fall: July 1
• Spring: November 1

Program-Specific Requirements
• All applicants must have earned a minimum Junior/Senior GPA of 2.85.
• Entrance Exam
  • Official GMAT score: minimum GMAT score of 500 with a minimum 20th percentile for both the verbal and quantitative portions, or 299 on the Graduate Record Exam (GRE) with a minimum 20th percentile for both verbal and quantitative sections for GRE test dates after July 1, 2015.
• Resume
  • Include employment and educational history
  • International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores. The minimum TOEFL score required for this certificate program is 80 or 6.5 on the IELTS.

Degree Requirements (12 hours)
The 12 credit hours needed to fulfill certificate requirements does not include the foundation courses listed below.

Biomedical Informatics

Degree Programs Offered

• Biomedical Informatics, MS (p. 613)
• Biomedical Informatics, PhD (p. 616)

BMI 8020 ADVANCED COURSE IN BIOINFORMATICS (3 credits)
This is a special topics course designed to explore the research interests of faculty and students. Therefore, topics may include, but are not limited to, such areas of study as next-generational sequencing, biological networks, proteomics, metabolomics, and biomedical informatics.
Prerequisite(s)/Corequisite(s): Admission to the MS/PhD Program in the College of Information Science and Technology, or permission of the instructor. Not open to non-degree graduate students.

BMI 8080 SEMINAR IN BIOMEDICAL INFORMATICS (1-3 credits)
This is a variable-content course that engages students in current research in Biomedical Informatics and develops skills in the oral and written presentation of scientific research.
Prerequisite(s)/Corequisite(s): Permission of the instructor. Additional prerequisite courses may be required for particular course offerings.

BMI 8100 INTRODUCTION TO BIOMEDICAL INFORMATICS (3 credits)
This course offers students an overview of the field of biomedical informatics, combining perspectives from computing, biosciences and medicine. The historical development of the field and its influence on biological, clinical, and translational research will be discussed. Issues related to bioinformatics, clinical, bioimaging and public health/population informatics will be explored.
Prerequisite(s)/Corequisite(s): Class standing of senior or above.
BMI 8300 PUBLIC HEALTH GENOMICS (3 credits)
This course will address the biopsychosocial issues that bridge genomics and public health, which are generally considered two vastly different disciplines. The focus will center on understanding how genomics may be incorporated into health promotion and disease prevention efforts for individuals and population.
Prerequisite(s)/Corequisite(s): Class standing of senior or above.

BMI 8850 BIOMEDICINE FOR THE NONMEDICAL PROFESSIONAL (3 credits)
This course will cover the basic principles of molecular and cellular biology, human anatomy, physiology, and pathology that are essential to an informed use of biomedical data. The biomedical topics will be interspersed and complemented with discussions about relevant data sources and datasets, emphasizing their strengths and weaknesses, and the lectures will be enriched with virtual anatomical dissections. Reading assignments from the primary literature and multimedia materials will supplement the textbook.
Prerequisite(s)/Corequisite(s): Class standing of senior or above

BMI 8866 BIOINFORMATICS ALGORITHMS (3 credits)
The main objective of this course is to provide an organized forum for students to learn recent developments in Bioinformatics, particularly, from the algorithmic standpoint. The course will present basic algorithmic concepts in Bioinformatics and show how they are connected to molecular biology and biotechnology. Standard topics in the field such as restriction mapping, motif finding, sequence comparison, and database search will be covered. The course will also address problems related to Bioinformatics like next generation sequencing, DNA arrays, genome rearrangements and biological networks. (Cross-listed with BIOI 4860).
Prerequisite(s)/Corequisite(s): CSCI 3320 and BIOL 1450; Or permission of instructor.

BMI 8896 GENETIC SEQUENCE ANALYSIS (3 credits)
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the course will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny.
Prerequisite(s)/Corequisite(s): Permission from the instructor.

BMI 8900 INDEPENDENT RESEARCH IN BIOMEDICAL INFORMATICS (1-3 credits)
The content of the course will vary, however both the student and the faculty member must sign an Independent Research Agreement and file it with the Biomedical Informatics Graduate Program Committee before registration for the course. This agreement will detail the project, the schedule for its completion, the form of the output, the method of evaluation and other relevant information pertaining to the project.
Prerequisite(s)/Corequisite(s): Permission of instructor, and at least 12 hours of course work toward the MS BMI program should be completed.

BMI 8910 INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Biomedical Informatics graduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Students must have completed a minimum of 12 credit hours towards the MS in BMI program. Not open to non-degree graduate students.

BMI 8970 INDEPENDENT STUDY IN BIOINFORMATICS (1-3 credits)
This is a variable-credit course designed for graduate students in bioinformatics who would benefit from independent reading assignments and research-type problems. Independent study enables coverage of topics not taught in scheduled course offerings.
Prerequisite(s)/Corequisite(s): Permission of a supervising faculty member and approval of the Bioinformatics Program Committee Chair. A formal description of the problem area to be investigated, the resources to be used, and the results to be produced must be prepared.

BMI 8990 THESIS IN BIOMEDICAL INFORMATICS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student's thesis advisory committee. In this project the student will develop and perfect a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation.
Prerequisite(s)/Corequisite(s): Graduate major in BMI and approval of the Thesis Advisory Committee. Not open to non-degree graduate students.

BMI 9900 ADVANCED RESEARCH IN BIOMEDICAL INFORMATICS (1-3 credits)
This course provides a format for exploring advanced research areas for doctoral students in Biomedical Informatics and related fields. Specific topics will vary in keeping with research interest of faculty and students.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Biomedical Informatics. Not open to non-degree graduate students.

BMI 9980 INDEPENDENT RESEARCH IN BIOMEDICAL INFORMATICS (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.
Prerequisite(s)/Corequisite(s): Admission to Ph.D. program in Biomedical Informatics and permission of instructor. Not open to non-degree graduate students.

BMI 9990 DISSERTATION (1-12 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee supervisory committee. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge in health or bioinformatics and demonstrate technical mastery of the discipline.
Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in Biomedical Informatics and candidacy for the Ph.D. degree. Prior to enrolling for dissertation hours, the students must have permission of the supervisory committee. Not open to non-degree graduate students.

Biomedical Informatics, MS
School of Interdisciplinary Informatics College of Information Science & Technology

Vision Statement
The vision of this program is to develop the next generation of biomedical specialists who are uniquely positioned to advance research and practice in contemporary information and knowledge management that impact biomedical, clinical and translational research, healthcare services, healthcare practice, public health care, and healthcare delivery in general. Graduates will be able to use their preparation to apply and investigate information and communication technologies to solve problems in the related biomedical fields in a comprehensive, competitive and effective way.

The program is designed as a research-oriented program with the goals of preparing graduate students to conduct advanced basic and applied research while capably serving as prospective employees in academic research as well as the IT healthcare industry. The program is geared towards motivated traditional students and technology specialists with the appropriate educational background that are ready to expand their
knowledge of contemporary Biomedical Informatics issues and become biomedical informatics in academic, clinical, and organizational settings.

Admissions

Application Deadlines
• Fall: July 1
• Spring: December 1
• Summer: April 1

Program-Specific Requirements

1. Submit a detailed resume indicating your work experience and background.

2. Submit a writing sample from work or previous academic experiences. Alternatively, if you do not have a writing sample, please submit a two-page, double-spaced, word-processed essay that addresses the following two topics:
   a. Discussion of two accomplishments that demonstrate your potential for success in the graduate program.
   b. Discussion of your unique personal qualities and life experiences that distinguish you from other applicants to our graduate program.

3. Submit three (3) letters of recommendation from references who are able to give an in-depth evaluation of your strengths and weaknesses with respect to academic work, and who are competent to judge your probability of success in graduate school.

4. The minimum undergraduate grade point average requirement for the MS in BMI program is 3.00 or equivalent score on a 4.00 scale. All applicants must have the equivalent of a four-year undergraduate degree.

5. GRE or GMAT entrance exams are required for those without a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, United Kingdom, Canada, English-speaking Africa, Australia, Ireland, or New Zealand. Programs offered in English-speaking Africa, Australia, Ireland, or New Zealand.
   a. Verbal: 146
   b. Quantitative: 154

6. TOEFL, IELTS, or PTE exams are required for those without a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, United Kingdom, Canada, English-speaking Africa, Australia, Ireland, or New Zealand.
   a. Paper-based TOEFL: 550
   b. Computer-based TOEFL: 213
   c. Internet-based TOEFL: 80
   d. IELTS: 6.5
   e. PTE: 53

7. Interview (optional): Although not required, applicants are strongly encouraged to arrange for an interview either one or more members of the Graduate Program Committee by directly contacting the committee chair. Telephone interviews are highly recommended for applicants outside the local area.

Admission Criteria

All applicants are considered on an individual basis. All applicants for the MS in BMI program must have earned a bachelor’s degree from a regionally-accredited, four-year institution of higher learning or the equivalent foreign institution and earned a GPA of 3.00 (on a 4.00 scale). Since many factors influence the success of a graduate student, an applicant’s maturity, motivation, employment history, writing samples, work experience and other accomplishments will also be considered in making admission decisions. In addition, for international applicants, TOEFL, IELTS, and PTE scores will be used along with other factors outlined above to make an admission recommendation.

Degree Requirements

Health Informatics Track - Foundation Requirements

Foundation courses ensure that all students in the MS BMI program have a strong foundation on which to build the rest of the program. These courses not only provide essential prerequisite knowledge and skills for subsequent classes in the program, but they also contain a distinct body of knowledge that is an important part of the BMI professional’s education.

All foundation courses are required for all students. However, students who have obtained an undergraduate IA degree will typically already have this foundation. In such a case, most, if not all, foundation courses are waived. Students with undergraduate degrees in other disciplines, including Computer Science, Management Information Systems, or Engineering, will usually require one or more foundation courses. Occasionally, a student’s work experience may be sufficient to waive one or more of the foundation courses.

Waivers for foundation courses are granted by the chair of the Graduate Program Committee upon the recommendation of the faculty member who is responsible for an individual course. Students requesting a waiver for a particular course should be prepared to meet with a faculty member and answer questions in the area of the course. They should bring to the meeting any relevant transcripts, course syllabi, course material, or evidence of practical experience. Some foundation courses may have an option for testing out.

Applicants should have background in anatomy, physiology, cell biology or equivalent (any health science degree). Students with degrees in other disciplines will usually have to take foundation courses.

Foundation courses cannot be used to satisfy the 36 semester hours required for the MS in Biomedical Informatics degree. Students who have not completed all the foundation course requirements may be admitted on a provisional status until those requirements have been completed. All foundation courses must be completed prior to or concurrent with the first six (6) hours of MS in BMI graduate coursework.

### Additional Electives: Non-Thesis only (6 hours):

Select six (6) graduate hours in consultation with your advisor.
Exit Requirements

- Thesis Option: BMI 8990 6 Hours
- All thesis candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and the final approval and submission of the thesis. This committee will be responsible for planning and supervising the student’s thesis in coordination with the the BMI Graduate Program Chair (GPC). A Supervisory Committee shall be formally established for each student upon completion of at least nine (9) hours of coursework or one year (which ever comes first) in the MS program. This committee will have responsible for planning and supervising the student’s thesis in coordination with the campus-based BMI Graduate Program Committee.

- Non-Thesis Option: Comprehensive Examination
- Only student’s admitted to the UNO PhD Biomedical Informatics program are eligible for the comprehensive examination exit option. The comprehensive examination must be taken in the final semester of study.

Biomedical Informatics, PhD

School of Interdisciplinary Informatics, College of Information Science & Technology

Vision Statement

The Doctor of Philosophy in Biomedical Informatics (BMI) degree is designed to prepare the next generation of biomedical informatics researchers who are uniquely positioned to advance research and practice in contemporary information and knowledge management that impact biomedical, clinical and translational research, healthcare services, healthcare practice, public health care, and healthcare delivery in general. Graduates will be able to use their preparation to investigate and apply information and computer technologies to solve problems in the biomedical domain.

The mission of the PhD program is to prepare students with the following abilities:

- Understand the theory and application of biomedical informatics focused around the core areas of computer science, medicine, biology, and healthcare
- Knowledge of the analysis, design, development, and implementation of current and future biomedical informatics systems & technologies
- Competence in conducting and managing high quality, basic and applied research in the BMI domain
- Solid grounding in the fundamentals of academic teaching
- Strong foundation in multidisciplinary and emergent areas in biomedical informatics

Program Website (http://www.ist.unomaha.edu/phd-bmi)

Admissions

Application Deadlines

- Fall: July 1
- Spring: December 1
- Summer: April 1

Program-Specific Requirements

- For applicants who are required to take the TOEFL, a score of at least 577 (paper-based), 233 (computer-based), 90 (IBT),7.0 (IELTS) or 61 (PTE) is required.
- Graduate Record Exam (GRE) score of 310 out of 346, or a GMAT score above the 80th percentile.
- Three (3) letters of recommendation from references who are able to give an in-depth evaluation of your strengths and weaknesses with respect to academic work, and who are competent to judge your probability of success in graduate school.
- Statement of Purpose (not to exceed two pages) that address the following questions:
  - What do you hope to accomplish with a PhD in Biomedical Informatics?
  - Why you are applying to this specific program?
  - What background or qualifications do you have that you believe are essential to success in this program?
  - What general area or topics do you hope to study?
  - What you expect to be doing five to ten years after completion of the doctoral program?

Writing Sample

- Evidence of graduate potential in the form of academic papers, publications, thesis or project reports done in an academic or industrial setting.

Resume

- Submit a detailed resume indicating your work experience and background.

Applicants must follow the formal procedures established for admission to the graduate program at the appropriate NU campus. Applicants must have:

- successfully completed a baccalaureate degree from an accredited institution; preference will be given to students with a masters or doctoral degree from a related field
- demonstrate superior performance in mathematics, including calculus, discrete mathematics and statistics, and a sequence of courses in the theory and practice of one or more information technology areas
- documented test aptitude, interest and commitment to scholarly activities and research
- proficiency in English, sufficient to engage in advanced studies

Evaluation for admission will be based on a portfolio approach that will include the following:

- class standing during the applicant’s baccalaureate and masters level studies.
- grade point average in the undergraduate degree that is equivalent to 3.5 or higher.
- verbal, quantitative, and analytic scores on the aptitude tests of the Graduate Record Examination (GRE)
- letters of recommendation
- other evidence of graduate potential, such as a portfolio of quality of papers or publications, projects, etc., completed by the applicant either in an academic or industrial setting.
- A personal interview, if warranted and feasible.
International students may be assessed for English proficiency and asked to take courses in English as a second language. All students will be encouraged to take courses to improve their technical writing and professional communication skills.

**Degree Requirements**

The doctoral BMI program typically requires 90 credit hours beyond a baccalaureate degree. It consists of common required foundation/core courses to include doctoral seminars and colloquia, a major field of study, and a cognate/minor field of study in a related discipline.

The doctoral program is divided into four phases from a student's perspective: foundation/core coursework, major-field-of-study/research coursework, additional elective coursework in cognate field/minor-field-of-study (as advised by the student's supervisory committee), and doctoral research and dissertation.

**Prerequisite Requirements-Bioinformatics Track**

Applicants should have background in programming languages, data structures, statistics, math or experimental methods (any engineering, computer science related degree). Students with degrees in other disciplines will usually have to take foundation courses. Occasionally, a student's work experience may be sufficient to waive one or more foundation courses.

Total Credits 18

Doctoral Program Supervisory Committee

The supervisory committee shall be established before a doctoral student begins the last 45 credit hours of their program of study. This committee will have responsibility for planning and supervision of the student's doctoral program in coordination with the BMI Graduate Program Committee, including the development of the comprehensive exam, defense of the doctoral dissertation proposal, the approval of the completed dissertation, and the final oral examination. Review the BMI Doctoral Handbook for more information on requirements for selecting the supervisory committee members. The student’s dissertation advisor will nominate the individual to serve on the supervisory committee in consultation with the student. The responsibilities, procedures, and actions of the supervisory committee are regulated by the rules and bylaws of the Graduate College as established in the UNO Graduate catalog.

Within three weeks of its appointment, the supervisory committee will meet to designate and subsequently file in the Office of Graduate Studies a complete program of studies conforming to the requirements for the degree. At least half of the total hours for the degree must be completed at the University of Nebraska after the filing of the program of studies. Any subsequent change in the program or in the dissertation topic must be approved by the supervisory committee and recommended to the Dean of Graduate Studies.

Academic Requirements

Up to 36 credit hours of the coursework in the preparatory and advanced studies of the doctoral program may be accepted if from an accredited institution. Academic requirements for the doctorate degree include:

- Participating in relevant graduate research seminars each semester.
- Successful passing of qualifying (comprehensive) examination.
- Presentation and defense of a dissertation research proposal on a topic in the approved major field of study/research area.
- Submission of the final dissertation manuscript in appropriate format after a successful dissertation defense.

Requirements for Admission to Candidacy

Students will follow the general candidacy requirements in the UNO Graduate College. Admission to the graduate program does not necessarily imply admission to candidacy for a higher degree.

To be admitted to candidacy for the doctorate degree, a doctoral student must:

- Pass the written qualifying (comprehensive) examination.
- Successfully complete all coursework with satisfactory grades.
- Receive the approval of his/her dissertation proposal before the supervisory committee (oral examination).

After the student has met these requirements, the supervisory committee will recommend to the Office of Graduate Studies his/her admission to candidacy for the doctorate degree, the recommendation will note the dates of completing the comprehensive exam. Such a recommendation must be filed at least seven months prior to the final oral examination for defending his/her dissertation in the presence of his/her supervisory committee. Following admission to candidacy, the student must register during each academic year semester until he/she receives the doctorate degree. Students not in residence may register for a minimum of one semester hour credit in dissertation. Failure to register during each academic year semester will result in termination of candidacy. The term of candidacy is limited to three years.

Dissertation and Final Examination

The dissertation should treat a subject in depth from the candidate’s major field of study/research area and as approved by his/her supervisory committee. The student’s dissertation should show his/her technical mastery of the field and create novel material by advancing or modifying knowledge, creating new material, finding new results, drawing new conclusions, or interpret old material in a new light.

If the dissertation proposal is approved, the student may conduct the dissertation research under the guidance of the dissertation advisor. The student is advised to consult with his/her supervisory committee until the committee accepts the dissertation. After the dissertation research is completed, the dissertation document and/or product must be presented to all the members of the supervisory committee in time to permit review and approval. Manuscripts must be turned in at least thirty days in advance of the final oral examination over the dissertation. The dissertation will be defended at an open meeting conducted by the student’s supervisory committee.

Grade Requirements

In addition to maintaining at least a 3.0 GPA for all course work, all doctoral students must obtain a grade of B or better in any of the required courses. Any student failing the grade requirements will be denied from taking the comprehensive examination and/or dismissed from the program.

Exit Requirements

- Completing Graduation Requirements

After successfully defending his or her dissertation, the student should complete a Report on Completion of Degree form and submit the form along with a copy of their title and abstract page to the Office of Graduate Studies.
• Teaching Requirements
All doctoral students are required to teach at least one course while studying in the program.

• Residency Requirements
All full-time doctoral students must complete 24 hours within 18 months in order to meet the residency requirement of the University. Part-time students must complete 18 hours during the same period. The residency requirement ensures that progress toward the degree occurs within a reasonably compact time frame, enabling the doctoral student to integrate his or her course work with the dissertation.

• Progress Report
At the end of each semester, every doctoral student (full-time or part-time) must complete the Progress Report form and submit it to the Chair of the Doctoral Program Committee.

• Satisfactory Progress
A minimum of three years of full-time graduate study is normally required to complete a doctoral program. The maximum time allowed by the Graduate School is eight years from the filing of the student’s program of study in the Office of Graduate Studies. Students not making satisfactory progress will be counseled out of the program.

• Leave of Absence
Under extraordinary circumstances, e.g., medical problems, a student may request a leave of absence from the program for a period of no more than one year. The request must be submitted to and approved by the student’s supervisory committee and/or Doctoral Program Committee. The request should include necessary modifications to the Plan of Study as a result of the leave. The leave of absence stops the clock for the total time required for the program and the time required to meet the residency requirement. If a student withdraws in mid-semester and is approved for a leave of absence, the clock starts at the beginning of the following semester. A student does not have to have met the residency requirement in order to apply for a leave of absence. If a student does not return to the program within the one year approved for the leave of absence, then the student must submit an application to re-apply to the program. Re-admission to the program is not guaranteed at that point. Please refer to the Graduate Catalog for the complete policy on a leave of absence.

Business Administration

Degree Programs Offered
• Business Administration, MBA (p. 626)
• Business Administration, Executive MBA (p. 634)
• Business Administration, MBA and Management Information Systems, MS (MBA/MIS) (p. 642)
• Business Administration, MBA and Public Health, MPH (MBA/MPH (p. 646))
• Business Administration, MBA and UNMC PharmD (MBA/PharmD (p. 648)

Certificates Offered
• Business for Bioscientists Certificate (p. 612)
• Human Resources and Training Certificate (p. 657)

BSAD 8000 BUSINESS ETHICS: ACHIEVING SOCIAL RESPONSIBILITY (2 credits)
This core MBA course will explore the relationship between law and ethics, will examine the generally-accepted theoretical principles associated with doing business ethically, and will examine practical ethical issues associated with various facets of business.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent) or admission to the MAcc program. Students with an undergraduate major or a graduate degree in Law may not include this course in a plan of study for the MBA degree. Not open to non-degree students

BSAD 8010 LEGAL, ETHICAL & SOC ENV (3 credits)
Focus upon law and ethics. Business law, legal processes, and regulation will be the subject matter focus. Business ethics will be a recurring focus of analysis. Analysis of the social environment will include public policy. Both subject matter and analysis will be integrated to build the student’s critical thinking skills.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation requirements and BSAD 8060 (BSAD 8060 prior to or concurrent); or admission to the MAcc program. Not open to nondegree students.

BSAD 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with ECON 8020)
Prerequisite(s)/Corequisite(s): Principles of Microeconomics (ECON 2200) and Principles of Macroeconomics (ECON 2220), or Analytical Foundations of Economics (BSAD 8180), or permission of the instructor. Not open to non-degree graduate students.

BSAD 8026 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper. (Cross-listed with ECON8296.)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to nondegree students.

BSAD 8030 INFORM TECH IN BUSINESS (3 credits)
The premise of this course is that today’s managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses and BSAD 8060 (prior to or concurrent). Not open to nondegree students.

BSAD 8040 BUSINESS AND INFORMATION TECHNOLOGY: CONNECTING PEOPLE AND INFORMATION (2 credits)
The premise of this course is that today’s managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management information systems may not include this course in a plan of study for the MBA degree. Not open to non-degree graduate students.
BSAD 8050 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, and the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of the statistical techniques of analysis to the business situation, within the framework of the aggregate economy. 
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8180. Not open to nondegree students.

BSAD 8060 PEOPLE: CULTIVATING SKILLS FOR LEADERSHIP (2 credits)
This course will prepare students with the skills to effectively enact the critical leadership skills of listening, employee feedback and coaching, goal-setting, empowerment/delegation, influencing, interviewing, conflict, negotiation, intercultural awareness, team/group discussions, and business etiquette. 
Prerequisite(s)/Corequisite(s): Admission to the MBA program. Not open to non-degree students.

BSAD 8070 EXECUTIVE COMMUNICATION (1 credit)
This course emphasizes both strategic and practical approaches to business communication from an executive perspective and provides students with tools to improve their business communication skills. This course will focus on composing effective executive/business documents business reports, and briefings. 
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8080 BUSINESS FORECASTING (3 credits)
This course includes a comprehensive survey of forecasting methods and in-depth study of selected techniques most commonly used in business environments. Emphasis is given to an application and therefore students will be required to develop forecasting models and test their performance as part of their course. (Cross-listing with ECON 8310).
Prerequisite(s)/Corequisite(s): Admission to Graduate College and one semester of statistics. Not open to non-degree graduate students.

BSAD 8090 ESSENTIAL LEADERSHIP SKILLS (3 credits)
This course will teach students the interpersonal skills necessary to effectively manage others. Second, this course will serve as a vehicle to assess the business content knowledge and computer literacy of incoming MBA students in order to provide customized remediation recommendations for each student. Third, the course will collect information that will be used for assessment and accreditation purposes to evaluate the effectiveness of the MBA program. This course will address the following MBA program themes: communication, change agent, teamwork, information technology, critical thinking and information gathering and analysis.
Prerequisite(s)/Corequisite(s): Admission to the MBA program and completion of MBA foundation courses (or equivalent) or may be taken concurrently with the final foundation course. Not open to nondegree students.

BSAD 8096 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with MGMT 4090, ITIN 4090)
Prerequisite(s)/Corequisite(s): Admission to a graduate program at UNO or the STRATCOM Leader Fellow Program. Not open to non-degree students.

BSAD 8100 MANAGERIAL ECONOMICS (3 credits)
The course will offer students tools of analysis drawn from consumer theory and the theory of the firm in order to improve the understanding of human behavior as it is constrained in the context of business decision-making. This course is intended for students who are seeking the degree of Master of Science in Economics or the degree of Master of Business Administration. (Cross-listed with ECON 8210).
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180 and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.

BSAD 8110 ACCT & FINANCIAL FUNDAMENTALS (3 credits)
The course is designed to give incoming graduate students the foundation in accounting that is necessary for subsequent graduate courses. Emphasis is on introducing the students to as many accounting concepts as possible. 
Prerequisite(s)/Corequisite(s): Graduate admission or permission of the appropriate graduate advisor. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8150 ECONOMICS: ESSENTIAL CONCEPTS FOR MANAGERS (2 credits)
This course exposes MBA students to fundamental economic concepts necessary for successful business planning and financial success. Topics include: Comparative advantage and international trade, market dynamics, the role that the competitive landscape plays in company decision-making, macroeconomic growth and development, and monetary and fiscal policy and their impact on business activity. 
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in economics may not include this course on their plan of study for the MBA degree.

BSAD 8180 ANALYTICAL FOUNDATIONS OF ECON (3 credits)
To familiarize students with the basic economic theory and policy analysis (principles level) required to analyze economic problems and to understand and evaluate recommendations designed to solve those problems. This is a course for students and professionals seeking a degree of Master of Business Administration with little or no formal background in economics. 
Prerequisite(s)/Corequisite(s): Graduate. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8200 MANAGERIAL ACCOUNTING (3 credits)
A study of concepts, analysis and procedures of accounting utilizing internal financial and non-financial data which provides management with information for planning and controlling routine operations, for non-routine decisions, policy-making and long-range planning; and for external reporting to stockholders, governments and interested parties. 
Prerequisite(s)/Corequisite(s): ACCT 2010 and 2020 or BSAD 8110, and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.

BSAD 8206 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with MKT 4200)
Prerequisite(s)/Corequisite(s): MKT 3310 with ‘C+’ or better; MKT 3100 with C- or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.
BSAD 8210 ACCOUNTING: DECISIONS & CONSEQUENCES (2 credits)
Managers and administrators must be able to understand, analyze, and use accounting information to make operational and strategic business decisions. In this course, we will study practical uses of accounting information to address the problems and decisions managers face in business. Emphasis is placed on the user of accounting information rather than the preparer. Upon completion of this course, a student should be able to use accounting information to make management decisions, understand how accounting rules inform those decisions, and consequently, how those decisions affect a company’s financial reports.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or graduate degree in accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree students.

BSAD 8216 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course’s focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with MKT 4210)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

BSAD 8226 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long term-growth and profitability with a base of core strategic buyers.
Prerequisite(s)/Corequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

BSAD 8230 CHANGE MANAGEMENT (2 credits)
This course provides a theoretical as well as pragmatic approach to change management for executive and senior level leaders in all types of organizations. Focus is given to organizational structure, managing culture, and critical components of senior level management effectiveness in leading change.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8240 EXECUTIVE LEADERSHIP DEVELOPMENT (2 credits)
This course aims to enhance the leadership effectiveness of students by developing executive competencies in problem solving, collaborative behaviors, teamwork, and conflict resolution. Students will gain crucial experience in using effective leadership tools to become leaders who act with a deeper understanding of themselves, their organizations, and their communities, and contribute positively to the growth of each.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8250 ORGANIZATIONAL BEHAVIOR: ENHANCING HUMAN & ORGANIZATIONAL CAPABILITIES (2 credits)
This course will prepare students with the knowledge necessary to manage and lead organizations effectively. Students will learn management theories, understand important research findings in organizational behavior, and apply both theory and research results to real organizational situations, thus giving them the capacity to use OB theories to enhance organizational effectiveness.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8260 ACCOUNTING THEORY & PRACTICE (2 credits)
This course is designed to enhance students’ understanding of financial statements and how executive decisions can influence these statements. Financial statements, including footnotes and explanatory material, are the primary instruments utilized by parties external to the enterprise in making judgments about the enterprise. By understanding how management decisions are reflected in the financial statements, managers will understand how they can influence their judgment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8270 CONTEMPORARY ECON FOR BUS MGMT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. This course will familiarize students and professionals with the microeconomic and the macroeconomic principles relevant to: (a) individual and business firm decision-making; (b) the domestic and international environment in which economic decisions are made; (c) the evaluation of policies designed to solve economic problems.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8280 STEWARDSHIP OF THE FIRM’S RESOURCES: HR MANAGEMENT (2 credits)
This course provides a comprehensive review of effective human resource theory and practice with an emphasis on managerial influence on attracting, retaining, developing, and rewarding employees.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8290 MARKETING MANAGEMENT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. As this course is the initial course of marketing in the degree program, it establishes the basic foundation of the marketing discipline as well as provides the basis for further exploration and study of the discipline of marketing. The foundation of principles, concepts and nomenclature of marketing are the primary structure of the course. It is intended to provide a comprehensive knowledge of marketing. Further, the course challenges the students to explore further the applications of the foundation knowledge of the course.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8300 ORGANIZATION THEORY & DESIGN (3 credits)
A study of theories and guidelines for enhancing organizational effectiveness by matching an organization’s structure to its environment, strategy, technology and size.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8310 MANAGING PERFORMANCE IN ORGANIZATIONS (3 credits)
A human behavior course emphasizing the areas of individual behavior, interpersonal behavior, group behavior and the interplay of human and non-human factors.
Prerequisite(s)/Corequisite(s): Essential Leadership Skills (BSAD 8060) or admission to the MAcc program. Not open to nondegree students.

BSAD 8320 SEMINAR IN HUMAN RESOURCE MGMT (3 credits)
Extensive treatment of the relevant developing theories and coverage of certain new methods, techniques and procedures that relate to personnel administration and human resource management. Efforts are made to select and present material to illustrate the practical, applied aspects of resource management and personnel administration, as related to human problems in organizations.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.
BSAD 8326 SALES MANAGEMENT (3 credits)
The student will be exposed to the current research findings in sales management and to business cases where the theories and concepts will be applied. The cases will come from either academic sources such as the Harvard Business School or from business owners and managers from the local business community. (Cross-listed with MKT 4320.)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program. Not open to nondegree students.

BSAD 8330 STRATEGIC COLLABORATION: LEADING HIGH IMPACT TEAMS (1 credit)
This course is designed to enhance students’ understanding of collaboration principles, practices and processes. In this interactive course, students will learn how to utilize collaboration tools and techniques and creative problem solving methods to enhance strategic decision making. Other concepts that will be introduced include building and assessing high-performing teams, managing and leading teams, identifying and resolving team dysfunctions, and team decision making approaches. Ultimately, students will learn how to be more influential and improve interactions so people and organizations can work together more efficiently.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8336 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with MGMT 4330, SCMT 4330)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program; or by permission of the instructor. Not open to non-degree students.

BSAD 8340 INTL BUS STUDY ABROAD (3 credits)
This course provides students with an international business and cultural experience through a study tour in a selected international location. Students will develop an understanding of the factors that affect international business decisions by visiting American companies operating abroad and foreign companies that export goods and services to the U.S. Typically, travel is conducted during Spring Break.
Prerequisite(s)/Corequisite(s): Not open to nondegree students.

BSAD 8350 SEMINAR IN MANAGEMENT (3 credits)
A student participation course emphasizing current issues and problems in the areas of management theory and operation.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8356 GLOBAL SOURCING AND INNOVATION (3 credits)
This course will focus on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems focused on new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with SCMT 4350)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8360 FINANCIAL MANAGEMENT FOR EXECUTIVES (3 credits)
Students will develop strategic decision making skills by using financial concepts including time value of money, capital budgeting processes, cash flow forecasting and project risk analysis. Topics covered include: capital budgeting, financial statement analysis, capital structure, financial risk analysis and others.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8366 E-MARKETING (3 credits)
The focus of this course is understanding the Internet as a marketing tool. The content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, and distributions thereof. The larger impact of the Internet on businesses and future trends also is discussed. (Cross-listed with MKT 4360.)
Prerequisite(s)/Corequisite(s): BSAD 8400 with a grade of ‘B’ or above. Not open to nondegree students.

BSAD 8370 BUSINESS LAW AND ETHICS (2 credits)
Only students who have been admitted to the Executive MBA program may take this course. A comprehensive examination of the existing structure and mechanisms used to resolve disputes in the United States, which allows the student to understand the strengths and weaknesses of this system. It will specifically examine the body of substantive law that affects management, including court decisions, statutes (federal and state), traditional ethical theories as they relate to the law, and international problems that exist in the legal environment.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to nondegree students.

BSAD 8376 SUPPLY CHAIN ANALYTICS (3 credits)
This course focuses on the integration of supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with SCMT 4370)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8380 STRATEGIC OPERATIONS MANAGEMENT (2 credits)
Students will learn how effective decision-making skills can be used to create a long-term competitive advantage for an organization through operational excellence. Key concepts in this course will include operations management, quality management, and data analytics. Specific topics will include process improvement, quality assurance, supply chain management, project management, and performance assessment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8386 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, SCMT 4380)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree graduate students.

BSAD 8390 CONT ACCT SYSTEMS: MGMT ACCT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. The course is designed to give students an in-depth understanding of how accounting information is used by management decision-makers. The accounting information system generates information managers use for pricing, budgeting, performance appraisal, purchasing production, capital acquisition, etc. The course focuses on both theoretical and practical dimensions of the topic.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.
BSAD 8400 MARKETING POLICIES (3 credits)
This course provides an introduction to the fundamental concepts of marketing, including a customer orientation, matched with attention to competition and core strengths. The course will illustrate strategies and principles that will help you understand how marketing managers, product managers or service managers must think through their situations, determine their goals and lay a course to achieve those goals.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses and BSAD 8060 (prior to or concurrent); or admission to MAcc program. Not open to nondegree students.

BSAD 8420 MARKETING: UNDERSTANDING CONSUMERS AND MARKETS (2 credits)
This course exposes MBA students to the fundamental concepts, practices and issues of marketing. A wide range of marketing practices and structures will be explored including product and service firms, consumer and business markets, profit and not-for-profit organizations, domestic and global companies, and small and large businesses.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in marketing may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8460 MGMT & ORGANIZATION THEORY (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. A systematic analysis of the principles and concepts of organization and management theory including the basic process of management and the fundamentals of organization design. From a micro perspective, the course focuses on the planning, organizing, directing and controlling functions of management with emphasis on the classical, neoclassical, behavioral and systems schools of thought. From a macro perspective, the course focuses on the relationships between such factors as environment, goals, strategy, management process and organizational structure.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8470 INVEST MGMT FOR EXECUTIVES (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. Investigation of the principles involved in building an investment portfolio of securities, and financial analysis of securities, and in learning practices of the securities markets.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8480 APPLICATIONS IN ECONOMICS (2 credits)
Students will learn how to apply micro-economic concepts to corporate strategy. Topics covered include demand analysis and consumer behavior, cost efficiencies such as economies of scale and scope, market structure and strategic pricing, applications of game theory to strategy, and others. The course will also cover macroeconomic conditions and concepts that affect business decisions such as the detection, measurement, and determinants of business cycles and the resulting impact of macroeconomic policy.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8490 IT: LEVERAGING TECH FOR COMP ADV (2 credits)
The premise of this course is that today's executives and managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8500 FINANCIAL MANAGEMENT (3 credits)
This course is an introduction to corporate financial management. Lectures and case studies will be used to acquaint the student with financial decision-making involving such topics as capital budgeting, working capital management, financial statement analysis, capital structure policy and others. This course is required for all students working toward the Master of Business Administration degree.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation requirements and BSAD 8060, 8100 and 8200; or admission to the MAcc program. Not open to nondegree students.

BSAD 8510 SECURITY ANALYSIS (3 credits)
Study of the efficient market, fundamental and technical analysis approaches for the valuation of marketable securities. Methods of analysis are considered for the economy, industry groups and individual corporations.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8520 SEMINAR INVESTMENT MANAGEMENT (3 credits)
Modern Portfolio Theory of Investment Management and its application in formulation of policies for individuals and institutional investors. Qualitative and quantitative analysis of the risks and returns of portfolio management using efficient market, fundamental and technical analysis approaches.
Prerequisite(s)/Corequisite(s): BSAD 8510. Not open to nondegree students.
BSAD 8530 BANK & FINANCIAL MARKETS (3 credits)
A comprehensive study of the structure and functioning of financial firms and markets; recent policies affecting the financial system; proposals for structural and functional changes of the financial system.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8540 MULTINATIONAL FIN MGMT (3 credits)
The focus of this course is on multinational financial management as viewed and practiced by the multinational firm and on current developments in international financial markets, including global banking. Familiarity with certain areas of the firm's environment, such as the international monetary system, the European Monetary System, and determination of exchange rates under alternative regimes, is essential to the international financial manager.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8550 SEMINAR IN FINANCE (1-3 credits)
Selected topics from areas of business finance.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8560 MARKETING STRATEGIES (3 credits)
Marketing is the core of an operating business. Marketing is the art and science of creating customer value and market place exchanges that benefit the organization and its stakeholders. It is an organizational philosophy and a set of guiding principles for interfacing with customers, competitors, collaborators, and the environment. Students will learn how successful businesses match their objectives and resources with opportunities in the marketplace by identifying and measuring consumer needs, determining target markets and deciding which products and services to offer. Strategies for pricing, promoting and distributing the firm's products and services to create competitive advantage in domestic and international markets are covered.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA program. Not open to non-degree graduate students.

BSAD 8566 STATE & LOCAL FINANCE (3 credits)
Theoretical and policy analysis of state and local government fiscal behavior. Revenues, expenditures, borrowing and intergovernmental fiscal relations. Applications to education, transportation, and economics development. (Cross-listed with FNBK 4560.)
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180. Not open to nondegree students.

BSAD 8570 STRATEGIC MANAGEMENT (3 credits)
This course centers around the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. Students will develop the strategic thinking skills needed to formulate and execute successful strategies for firms/organizations in a variety of industries and dynamic environments. Emphasis is given to the contributions of several business disciplines of study, such as marketing, finance and management, to understanding both the internal operations of the organization and the influences of the external environment. This course is integrative and introduces both the theory and practice that enables that integrative process.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA program. Not open to non-degree graduate students.

BSAD 8576 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with FNBK 4570)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8580 INTERNATIONAL: COMPETING IN GLOBAL MARKETS (3 credits)
Students will develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage international conflicts and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to nondegree students.

BSAD 8590 SEMINAR IN BUSINESS ADMIN (3 credits)
This course hosts the international business consulting project. Both a theory and a practical course, it examines opportunities and challenges for a domestic U.S. firm or industry attempting to enter or expand its presence in an international market. Emphasis is placed on developing focused and appropriate research objectives, the collection and analysis of data for decision-making, development and evaluation of strategy alternatives, and on the production and presentation of a professional, prescriptive consulting report.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8596 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control, and risk avoidance, among others. (Cross-listed with FNBK 4590.)

BSAD 8600 REAL ESTATE & LAND USE THEORY (3 credits)
This course brings together the best of the technical literature dealing with the development of advanced tools of analysis and concepts of Real Estate and Land Use Economics. The tools are presented and developed which assist real estate decision-makers in identifying and evaluating professionally the complex factors which determine real estate productivity, value, investment and land-use patterns.
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180. Not open to nondegree students.

BSAD 8606 FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with FNBK 4600.)
Prerequisite(s)/Corequisite(s): BSAD 8500 and 8510 or their equivalent, and graduate standing. Not open to nondegree students.

BSAD 8610 CURRENT PROBLEMS IN RELU (3 credits)
A study of current problems in real estate markets affecting decision policies in the private and public sectors. Analysis of economics of land development and use and re-use of real property to provide a viable environment for all citizens.
Prerequisite(s)/Corequisite(s): RELU 2410, 4400, 4410 and LAWS 3460 or equivalent experience. Not open to nondegree students.

BSAD 8620 VALUATION OF INTELLECTUAL PROP (3 credits)
Intellectual Property (IP) is critical to business success. Accounting, economics, and finance all struggle to quantify “value” of individual IP (e.g., trademark) and bundles of IP (e.g., patent pool). Value depends on the context (e.g., infringement versus depreciation versus sale). This course focuses on application of theory.
Prerequisite(s)/Corequisite(s): BSAD 8010 or BSAD 8100 or BSAD 8110 or BSAD 8500. Not open to nondegree students.

BSAD 8630 FINANCE: UNDERSTANDING CAPITAL AND CASH (2 credits)
As a comprehensive introduction to financial management, the course will cover various fields of finance and discuss topics including the time value of money, bond and stock valuation, capital budgeting.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070, 8150 and 8210. Students with an undergraduate major or a graduate degree in finance or accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.
BSAD 8640 IT: STRATEGIC DEVELOPMENT AND DEPLOYMENT (1 credit)
Students will gain a strategic perspective of information technology management, including current trends and best practices, and understand how technology can be used in competitive positioning. Processes for innovation and research and development spending and new business models will be covered.

BSAD 8650 INTERNATIONAL: COMPETING IN GLOBAL MARKETS (2 credits)
This course allows students to develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage international conflicts, and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to non-degree graduate students.

BSAD 8700 BUSINESS ANALYTICS: MAKING SENSE OF DATA (2 credits)
The purpose of this course is to provide business managers with an understanding of the important role data analytics has assumed in today's organizations. Data analytics has become a key component in accomplishing strategic and operational goals. This course is designed to familiarize students with the concepts and principles of analytics. It is targeted for graduate or MBA students who have little or no background in analytics. Therefore, it focuses on breadth of coverage rather than depth in any specific area.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent); or admission to the MAcc program. Not open to non-degree graduate students.

BSAD 8706 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted mainly as a seminar with ample student participation, including a research paper. A "New Economy" has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 4700, ECON 8706.)
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent); or admission to the MAcc program. Not open to non-degree graduate students.

BSAD 8710 SUPPLY CHAIN MANAGEMENT (3 credits)
This course will focus on supply chain management as a key functional area of organizational success. Students will learn about current techniques used by supply chain practitioners to make strategic and tactical decisions that support the overall strategy and day-to-day operations of an organization. Students will develop an understanding of how supply chain decisions and appropriate metrics of performance can be utilized to improve the operational efficiency and effectiveness of an organization.
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8720 STRATEGIC FINANCIAL MANAGEMENT (2 credits)
This course is intended to be advanced financial management. It will stress the theory and application of topics including, but not limited to capital budgeting, cash flow estimation, real options, capital structure, dividends and share repurchases, working capital management, budgeting, planning and forecasting, and lease management. The material covered in Strategic Financial Management will increase the student's knowledge of how to strategically manage financial resources to increase the intrinsic value of the organization.
Prerequisite(s)/Corequisite(s): For MBA students, BSAD 8630. For MAcc students, completion of all Master of Accounting (MAcc) foundation courses. Not open to non-degree students.

BSAD 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, ECON 8436)
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students

BSAD 8750 TELECOMM IN BUSINESS (3 credits)
This course is designed to introduce students to basic technology of modern telecommunications, including voice, data and video, as well as the contemporary issues of telecommunication policy. In addition, the course will address managerial issues of modern telecommunications in business.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8766 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth as other pressing issues such as financing, staffing, product development are addressed. This course will focus on consultative solution-based sales fundamentals that can be applied in the entrepreneurial selling environment. (Cross-listed with ENTR 4760, MKT 4760)
Prerequisite(s)/Corequisite(s): GPA 2.5 or better; MKT 3100 with a 2.5 grade or better; MKT 3310 with a 2.5 grade or better; or permission of instructor. Not open to non-degree graduate students.

BSAD 8800 MBA PROJECT-FOCUSED CAPSTONE (2-3 credits)
As the project-focused capstone course for the Master's of Business Administration (MBA) degree, this course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in the MBA program.
Prerequisite(s)/Corequisite(s): Students must complete this course in the final semester or within the last 9 hours of their MBA program courses. A minimum B grade required to complete the course successfully and qualify for graduation. Not open to non-degree graduate students.

BSAD 8810 APP STRATEGIC LEADERSHIP (3 credits)
Applied and integrative course in the MBA program, with an emphasis on field experiences when possible.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in, or completion of, BSAD 8060. Not open to nondegree students.

BSAD 8830 STRATEGY: DEVELOPING SUSTAINABLE COMPETITIVE ADVANTAGE (2 credits)
This course centers on the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. The primary objective of this course is to sharpen the ability of students to think strategically, to diagnose situations from a strategic perspective and to develop creative solutions to enable firms to achieve a sustainable competitive advantage.
Prerequisite(s)/Corequisite(s): Students must successfully complete BSAD 8150 and BSAD 8210 before enrolling in this course. This course must be taken within the first 20 hours of the MBA program. Not open to non-degree graduate students.

BSAD 8880 ARTS AND THE EXECUTIVE (3 credits)
The course will provide the graduate student with an understanding of the organizational and managerial issues involved in an arts organization as the role of the arts in the business community. (Cross-listed with FINA 8010.)
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.
new opportunities. These leaders can position their firms to be a step ahead of competitors, who can effectively anticipate unfortunate surprises and uncover emerging trends. A TBL framework for the MBA program will develop principled leadership capabilities in its graduates.

The TBL framework that has been incorporated into the curriculum of the UNO MBA program focuses on developing essential understanding of the technological and global business environment. It compels students to become responsible, the graduate of the UNO MBA program will be an effective problem solver who is influential, innovative, and socially conscious. The graduate will be prepared in advanced undergraduate student and as indicated for specific workshop or seminar. The graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

BSAD 8990 THESIS (1-6 credits)
A research project, under the supervision of a faculty thesis adviser in the College of Business Administration, in which the student establishes his capacity to design, conduct and complete an independent, scholarly investigation of a high order of originality. The research topic and the completed project must be approved by the student’s faculty thesis adviser and two other faculty members, one of whom must be from outside the program area.

Prerequisite(s)/Corequisite(s): Permission of graduate adviser. Not open to nondegree students.

Mission Statement
The mission of the MBA program at the University of Nebraska-Omaha is to prepare students to contribute significantly to organizational productivity through learning experiences emphasizing the application of sound and innovative business techniques. By acquiring the knowledge and abilities necessary to be a problem solver who is influential, innovative, and socially responsible, the graduate of the UNO MBA program will be an effective leader in enhancing organizational capabilities. The graduate will be well prepared for a responsible management position and will have an understanding of the technological and global business environment.

In addition to developing a strong background in the functional areas of business, the UNO MBA program focuses on developing essential leadership capabilities in its graduates.

Triple Bottom Line (TBL)
The TBL framework that has been incorporated into the curriculum provides a distinctive structure to the program that we can communicate to students, employers and others. TBL will help students see relationships between issues in a turbulent business environment. It compels students to understand the relationship between social, economic and environmental trends. A TBL framework for the MBA program will develop principled leaders who can effectively anticipate unfortunate surprises and uncover new opportunities. These leaders can position their firms to be a step ahead of competitors.

Other Program Related Information

Enrollment of Non-Degree Students
Students seeking enrollment in graduate-level MBA classes must complete the GMAT or GRE and qualify for admission to the MBA program. Following a review of their transcripts by the MBA Advisor, non-degree students may be permitted to enroll in MBA Foundation Courses, BSAD 8110 and BSAD 8180 (3.0 Jr/Sr GPA required).

Admissions

Application Deadlines
• Fall: July 1
• Spring: November 1
• Summer: April 1

Program-Specific Requirements which are more stringent than OGS

MBA Admission Requirements:
• Unconditional Admission: may be granted to an applicant whose record includes at least the following:
  • 2.85 Junior/Senior GPA,
  • 500 GMAT (minimum 20th percentile for both the verbal and quantitative portions required) OR
  • 299 GRE (minimum 20th percentile for both the verbal and quantitative portions required) for a test date after July 1, 2015.
  • GMAT/GRE Waiver policy - Applicants who meet one of the following conditions are eligible for a waiver:
    • Confirmed CPA certification
    • Confirmed CFA designation
    • Professional Engineer (PE) designation
    • Beta Gamma Sigma members
    • UNO Bachelor of Science in Business Administration alumni with a 3.75 cumulative GPA and graduation date within the last 10 years
  • Resume (employment and educational history)
• Applicants qualifying for Unconditional Admission, based on the standards outlined above, but lacking some foundation courses, will be granted provisional status until all foundation courses are completed with grades of “B” (3.0 on a 4.0 scale) or above.
• International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores. The minimum TOEFL score required for the MBA is 80 for the internet-based test, or 6.5 for the IELTS, or 53 for the PTE.
• Provisional Admission: Applicants who do not meet the conditions for Unconditional Admission may be considered for Provisional Admission
status for the Fall or Spring term. These applicants will be notified that the CBA Graduate Program Council (CBA GPC) will evaluate the files of all applicants being considered for Provisional Admission. Candidates being considered for admission on this basis will receive notification of the outcome by August 1 or December 1 for the Fall or Spring semesters, respectively. If granted Provisional Admission, the student must earn minimum “B” (3.0 on a 4.0 scale) grades in each of the MBA courses completed in the first 12 hours of the program. Students not meeting this standard are subject to dismissal. There is no provisional admission for the Summer term.

- Foundation courses: A student must have completed basic courses in the following areas, either as an undergraduate student or prior to enrolling in the first MBA course:

1 ENGL 1150 is required as a foundation course for all students admitted to the MBA program who are required to complete the TOEFL/IELTS. The English Composition requirement must be satisfied within the first two semesters of a student’s program.

- Courses successfully completed with a grade of A, B, or C (2.0 on a 4.0 scale) in the student’s undergraduate program are considered as sufficient preparation. Otherwise, the student must complete foundation requirements prior to enrolling in the first MBA course with a minimum B (3.0 on a 4.0 scale) grade. Additional remediation may be identified as part of the BSAD 8060 – People: Cultivating Skills for Leadership evaluation. Foundation courses including BSAD 8110 and BSAD 8180, as well as additional, identified remediation, may not be used on a plan of study.

### Degree Requirements

#### Directed Elective Requirement

For students who have earned an undergraduate or graduate degrees in accounting, economics, finance, management, management information systems, or marketing, the core course(s) corresponding to the student’s previously earned degree(s) will be waived. To satisfy degree requirements, the student must complete a directed elective in the waived field as indicated.

BSAD 8630  FINANCE: UNDERSTANDING CAPITAL AND CASH  2

BSAD 8700  BUSINESS ANALYTICS: MAKING SENSE OF DATA  2

BSAD 8720  STRATEGIC FINANCIAL MANAGEMENT  2

BSAD 8830  STRATEGY: DEVELOPING SUSTAINABLE COMPETITIVE ADVANTAGE  2

Total Credits  22

1 BSAD 8060 This is the first graduate-level course MBA students have to complete.
2 BSAD 8630 (prereq: completion of BSAD 8150 and BSAD 8210)
3 BSAD 8720 (prereq: BSAD 8630)
4 BSAD 8830 Must complete within first 20 hours in the MBA program. (prereq: completion of BSAD 8150 and BSAD 8210)

Project Capstone Course (2-3 hours)

BSAD 8800 - MBA Project-Focused Capstone. As the project-focused capstone course for the Master of Business Administration (MBA) degree, this course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in the MBA program. A minimum B (3.0 on a 4.0 scale) grade required to complete the course successfully and qualify for graduation. Prerequisite: Students must complete this course in the final semester or within the last nine (9) hours of their MBA program courses. Not open to non-degree graduate students.

MBA Electives (9 hours)

Electives (8000-level) may be chosen from MBA, master’s level Accounting and Economics, as well as in other departments as listed below.

A directed elective, if required, is part of the 9 hours of electives required for degree completion.

A maximum of nine (9) hours of dual-level (graduate/undergraduate) electives may be included in the plan of study for an MBA degree.

MBA policy limits the number of Special Topics/Special Studies (BSAD 8910/BSAD 8916) electives to a maximum of 9 hours, which may be applied to the MBA program as electives.

Not all elective courses are offered each semester.

Transfer of Graduate Credit

Students, who have completed graduate courses at other approved AACSB (Association to Advance Collegiate Schools of Business) graduate schools may request permission to transfer as many as nine (9) semester hours of credit, provided the courses are pertinent to the student's graduate program. Grades in courses for transfer credit must be equivalent to "B" (3.0 on a 4.0 scale) or better. All work for transfer of credit must have been taken within the ten-year period allowed for the master's degree. Petitions for the transfer of credit are submitted by the student to the MBA advisor who forwards the petition with a recommendation to the Dean for Graduate Studies for approval. Visit the AACSB website (http://www.aacsb.edu) for the listing of AACSB accredited institutions.

MBA Exit Requirements

Comprehensive Examination

All students earning an MBA degree must complete a comprehensive examination or a comprehensive examination equivalent. The comprehensive examination requires the student to demonstrate the knowledge gained from the core courses and the ability to synthesize that knowledge in the analysis of questions involving more than one concept. Completion of the project focused capstone course (BSAD 8800) with a grade of "B" (3.0 on a 4.0 scale) or better is equivalent to completion of the comprehensive examination. If a student transfers in credit for the non-comprehensive examination components of the project focused capstone course, then the student must pass a written comprehensive examination prepared by and graded by the Graduate Program Council.

Thesis Option

MBA students may elect to complete a 6-hour thesis under the guidance of a Supervisory Committee. The student is responsible for compliance with all Graduate College and MBA Graduate Program Council rules and procedures with respect to formation of a Supervisory Committee and completion of a thesis. The student shall submit to the Supervisory Committee a document including: 1) a proposed Plan of Study; 2) a description of the student’s research topic; and 3) the student’s research methodology. The student shall make an oral defense of the document to the Supervisory Committee. The Supervisory Committee’s approval shall be in writing. A Supervisory Committee’s approval should be obtained at least seven months before the intended graduation date. If a student elects to complete a thesis, then the Supervisory Committee of the thesis shall decide how the student will satisfy the comprehensive examination requirement and the business case requirement. The Supervisory Committee’s written approval of the plan of study shall require either the student’s completion of
the project focused capstone course or a comprehensive examination (either written or oral) prepared by and graded by the Supervisory Committee.

**Other Requirements to Complete the Program**

Participation in a minimum of two (2) MBA Leadership Seminars prior to graduation.

**Total Credit Hours: 33**

**Concentrations**

The MBA Program offers concentrations in the areas listed below. A concentration shall include at least nine (9) credit hours. Completion of the concentration requires students to complete courses (8000-level) from at least two academic departments.

With the prior, written approval of the College of Business Administration Graduate Program Council and the Dean of Graduate Studies, an independent research, special studies, or special topics graduate-level course from Accounting, Business Administration or Economics, when such course has as its principal focus issues relevant to business administration or the concentration, may be substituted.
