**Academic Performance**

**MBA Program Two Strikes Rule**

A UNO MBA student may enroll only twice in each MBA course. If the class is not successfully completed on the second attempt then the student will be dismissed from the MBA program. An enrollment is defined as being enrolled in the course after the last day to withdraw via MavLINK and receive a 100% refund. The last day for withdrawal will be as stated in the current academic calendar for a full semester course (3 credits) [http://registrar.unomaha.edu/calendar/]; for an 8-week graduate course (2 credits) the last day for withdrawal will be the third day (including the start date) of the course as designated in MavLINK.

In addition to the Quality of Work Standards established by the Graduate College, MBA students may repeat only once a BSAD 8xx0 level course in which they receive any grade, including "W" or "I". Each semester, student files will be reviewed where a student received a grade lower than a "B" (3.0 out of 4.0). Following this review, the Graduate Program Council (GPC) may place conditions or restrictions on the student.
Following notification to the student, the student may petition GPC for a review of the conditions or restrictions imposed.

Students earning a third grade of “C+” or lower (or any single grade below “C” (1.67 on a 4.0 scale)) will be automatically dismissed from the MBA program. Dismissed students will be immediately administratively withdrawn from all courses in which they are enrolled for MBA credit. Students who have been dismissed may not enroll in any courses for MPA credit in any subsequent semester or summer session until reinstatement has been granted by the College of Business Administration’s Graduate Program Council (CBA GPC) and the Graduate Dean.

Students who have been dismissed from the MBA program may submit a written petition for reinstatement to the CBA GPC. Students who have petitioned the CBA GPC for reinstatement may not enroll in any courses for MPA credit. Upon receiving a petition for reinstatement, the CBA GPC will evaluate the student’s written petition for reinstatement. As part of the reinstatement petitioning process, the CBA GPC reserves the right to examine the student’s academic record and reserves the right to speak to any previous instructor who has taught the student and this information may be used by the CBA GPC in the reinstatement decision. Information provided by previous instructors will not be shared with the student.

Reinstatement is a privilege and not all students who are dismissed will be reinstated. Students who have been reinstated will serve a probationary period of the CBA GPC’s discretion and must satisfy the probationary conditions specified by the CBA GPC. In addition to probationary conditions, reinstated students will be subject to additional reinstatement conditions as specified by the CBA GPC. These reinstatement conditions will include retaking one or more courses in which the student must earn a grade of “B” (3.0) or higher (the exact grade requirements for retaken courses may in fact be higher than “B” (3.0)). Students not achieving the probationary or reinstatement conditions will be automatically dismissed.

**GPC Will Consider Grades Earned in Repeated Courses**

When making decisions based on Quality of Work Standards issues, the Graduate Program Council will consider the initial grade(s) received in a course as well as the most recent grade received for the course. This approach differs from the method used to calculate GPA in a student’s MavLINK/Degree Works file, where the most recent grade replaces the grade received in the previous attempt.

**Student Responsibilities**

Each student admitted to graduate studies is responsible for knowing the procedures and regulations of the Graduate College.

Each student should consult with the MBA advisor at least once each semester to assure continued progress toward the degree objective. Students must maintain a 3.0 (“B”) average to fulfill the program and graduation requirements. No more than two “C’s” or two “C+’s” in graduate courses are permitted.

The Executive MBA program is designed for middle- and upper-level managers, experienced professionals, and established business owners who have a vision for themselves and their firms. The alternating-weekend program format takes class members, as a group, through the carefully structure sequences of courses required to complete the degree in an 17-month period.

**Program Contact Information**

Melanie Krings, Executive Director
Mammel Hall (MH) 100G
6708 Pine Street
402-554-2867
mdkrings@unomaha.edu

**Program Website** (http://cba.unomaha.edu/xmba)

**Admissions**

**Application Deadlines**

- Fall: July 15

**Program-Specific Requirements**

- A minimum of six (6) years of professional-level work experience is required
- Managerial/supervisory experience and accomplishments preferred
- Statement of Purpose
  - In two-pages or less, describe your: a). interest in the Executive MBA Program; b). objectives for the degree and how it will help you further your career goals; c). highest personal/professional accomplishments; and d). most valuable strengths you bring to a workplace team.
  - Resume
  - Current resume detailing employment history, nature of duties and responsibilities, accomplishments, leadership roles, and community involvement.
  - Two Letters of Recommendation:
    - One letter must be from your current employer, to support your qualifications for the Executive MBA Program; the second letter can be either from personal or professional in nature. The letters should describe how they know you (how long and in what capacity), and why they believe you would be a good candidate for the Executive MBA Program.
    - Entrance Exam is Not Required with Exception
      - The GMAT may be required for candidates with a 3.0 or better undergraduate GPA if their undergraduate degree is from a program characterized as significantly accelerated or for which academic credit is awarded for education and life experiences attained from other than an accredited university or college.

**Business Administration-Executive MBA**

**Executive MBA Department, College of Business Administration**

**Vision Statement**

The mission and overarching themes of the Executive MBA program are to provide experienced managers and professionals with an applied and integrative business management education that develops and furthers their critical thinking and leadership abilities so they can better manage resources, leverage information technology, understand diverse cultures, and effectively address strategic issues in a dynamic global economy.

BSAD 8000 BUSINESS ETHICS: ACHIEVING SOCIAL RESPONSIBILITY (2 credits)
This core MBA course will explore the relationship between law and ethics, will examine the generally-accepted theoretical principles associated with doing business ethically, and will examine practical ethical issues associated with various facets of business.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent) or admission to the MAcc program. Students with an undergraduate major or a graduate degree in Law may not include this course in a plan of study for the MBA degree. Not open to non-degree students

BSAD 8010 LEGAL, ETHICAL & SOC ENV (3 credits)
Focus upon law and ethics. Business law, legal processes, and regulation will be the subject matter focus. Business ethics will be a recurring focus of analysis. Analysis of the social environment will include public policy. Both subject matter and analysis will be integrated to build the student's critical thinking skills.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation requirements and BSAD 8060 (BSAD 8060 prior to or concurrent); or admission to the MAcc program. Not open to nondegree students.

BSAD 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with ECON 8020)
Prerequisite(s)/Corequisite(s): Principles of Microeconomics (ECON 2200) and Principles of Macroeconomics (ECON 2220), or Analytical Foundations of Economics (BSAD 8180), or permission of the instructor. Not open to non-degree graduate students.

BSAD 8026 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper. (Cross-listed with ECON 8296.)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to nondegree students.

BSAD 8030 INFORM TECH IN BUSINESS (3 credits)
The premise of this course is that today's managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses and BSAD 8060 (prior to or concurrent). Not open to nondegree students.

BSAD 8040 BUSINESS AND INFORMATION TECHNOLOGY: CONNECTING PEOPLE AND INFORMATION (2 credits)
The premise of this course is that today's managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management information systems may not include this course in a plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8050 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, and the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of the statistical techniques of analysis to the business situation, within the framework of the aggregate economy.
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8180. Not open to nondegree students.

BSAD 8060 PEOPLE: CULTIVATING SKILLS FOR LEADERSHIP (2 credits)
This course will prepare students with the skills to effectively enact the critical leadership skills of listening, employee feedback and coaching, goal-setting, empowerment/delegation, influencing, interviewing, conflict, negotiation, intercultural awareness, team/group discussions, and business etiquette.
Prerequisite(s)/Corequisite(s): Admission to the MBA program. Not open to non-degree students.

BSAD 8070 EXECUTIVE COMMUNICATION (1 credit)
This course emphasizes both strategic and practical approaches to business communication from an executive perspective and provides students with tools to improve their business communication skills. This course will focus on composing effective executive/business documents, business reports, and briefings.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8080 BUSINESS FORECASTING (3 credits)
This course includes a comprehensive survey of forecasting methods and in-depth study of selected techniques most commonly used in business environments. Emphasis is given to an application and therefore students will be required to develop forecasting models and test their performance as part of their course. (Cross-listing with ECON 8310.)
Prerequisite(s)/Corequisite(s): Admission to Graduate College and one semester of statistics. Not open to non-degree graduate students.

BSAD 8090 ESSENTIAL LEADERSHIP SKILLS (3 credits)
This course will teach students the interpersonal skills necessary to effectively manage others. Second, this course will serve as a vehicle to assess the business content knowledge and computer literacy of incoming MBA students in order to provide customized remediation recommendations for each student. Third, the course will collect information that will be used for assessment and accreditation purposes to evaluate the effectiveness of the MBA program. This course will address the following MBA program themes: communication, change agent, teamwork, information technology, critical thinking and information gathering and analysis.
Prerequisite(s)/Corequisite(s): Admission to the MBA program and completion of MBA foundation courses (or equivalent) or may be taken concurrently with the final foundation course. Not open to nondegree students.
BSAD 8096 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with MGMT 4090, ITIN 4090)
Prerequisite(s)/Corequisite(s): Admission to a graduate program at UNO or the STRATCOM Leader Fellow Program. Not open to non-degree students.

BSAD 8100 MANAGERIAL ECONOMICS (3 credits)
The course will offer students tools of analysis drawn from consumer theory and the theory of the firm in order to improve the understanding of human behavior as it is constrained in the context of business decision-making. This course is intended for students who are seeking the degree of Master of Science in Economics or the degree of Master of Business Administration. (Cross-listed with ECON 8210).
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180 and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.

BSAD 8110 ACCT & FINANCIAL FUNDAMENTALS (3 credits)
The course is designed to give incoming graduate students the foundation in accounting that is necessary for subsequent graduate courses. Emphasis is on introducing the students to as many accounting concepts as possible.
Prerequisite(s)/Corequisite(s): Graduate admission or permission of the appropriate graduate advisor. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8150 ECONOMICS: ESSENTIAL CONCEPTS FOR MANAGERS (2 credits)
This course exposes MBA students to fundamental economic concepts necessary for successful business planning and financial success. Topics include: Comparative advantage and international trade, market dynamics, the role that the competitive landscape plays in company decision-making, macroeconomic growth and development, and monetary and fiscal policy and their impact on business activity.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in economics may not include this course on their plan of study for the MBA degree.

BSAD 8180 ANALYTICAL FOUNDATIONS OF ECON (3 credits)
To familiarize students with the basic economic theory and policy analysis (principles level) required to analyze economic problems and to understand and evaluate recommendations designed to solve those problems. This is a course for students and professionals seeking a degree of Master of Business Administration with little or no formal background in economics.
Prerequisite(s)/Corequisite(s): Graduate. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8200 MANAGERIAL ACCOUNTING (3 credits)
A study of concepts, analysis and procedures of accounting utilizing internal financial and non-financial data which provides management with information for planning and controlling routine operations, for non-routine decisions, policy-making and long-range planning; and for external reporting to stockholders, governments and interested parties.
Prerequisite(s)/Corequisite(s): ACCT 2010 and 2020 or BSAD 8110, and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.

BSAD 8206 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with MKT 4210)
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C-' or better; MKT 3100 with C+ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

BSAD 8210 ACCOUNTING: DECISIONS & CONSEQUENCES (2 credits)
Managers and administrators must be able to understand, analyze, and use accounting information to make operational and strategic business decisions. In this course, we will study practical uses of accounting information to address the problems and decisions managers face in business. Emphasis is placed on the user of accounting information rather than the preparer. Upon completion of this course, a student should be able to use accounting information to make management decisions, understand how accounting rules inform those decisions, and consequently, how those decisions affect a company's financial reports.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or graduate degree in accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree students.

BSAD 8216 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with MKT 4210)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

BSAD 8226 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long term-growth and profitability with a base of core strategic buyers.
Prerequisite(s)/Corequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

BSAD 8230 CHANGE MANAGEMENT (2 credits)
This course provides a theoretical as well as pragmatic approach to change management for executive and senior level leaders in all types of organizations. Focus is given to organizational structure, managing culture, and critical components of senior level management effectiveness in leading change.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8240 EXECUTIVE LEADERSHIP DEVELOPMENT (2 credits)
This course aims to enhance the leadership effectiveness of students by developing executive competencies in problem solving, collaborative behaviors, teamwork, and conflict resolution. Students will gain crucial experience in using effective leadership tools to become leaders who act with a deeper understanding of themselves, their organizations, and their communities, and contribute positively to the growth of each.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA program. Not open to non-degree graduate students.
BSAD 8250 ORGANIZATIONAL BEHAVIOR: ENHANCING HUMAN & ORGANIZATIONAL CAPABILITIES (2 credits)
This course will prepare students with the knowledge necessary to manage and lead organizations effectively. Students will learn management theories, understand important research findings in organizational behavior, and apply both theory and research results to real organizational situations, thus giving them the capacity to use OB theories to enhance organizational effectiveness.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8260 ACCOUNTING THEORY & PRACTICE (2 credits)
This course is designed to enhance students' understanding of financial statements and how executive decisions can influence these statements. Financial statements, including footnotes and explanatory material, are the primary instruments utilized by parties external to the enterprise in making judgments about the enterprise. By understanding how management decisions are reflected in the financial statements, managers will understand how they can influence their judgment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8270 CONTEMPORARY ECON FOR BUS MGMT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. This course will familiarize students and professionals with the microeconomic and the macroeconomic principles relevant to: (a) individual and business firm decision-making; (b) the domestic and international environment in which economic decisions are made; (c) the evaluation of policies designed to solve economic problems.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA Program. Not open to non-degree students.

BSAD 8280 STEWARDSHIP OF THE FIRM'S RESOURCES: HR MANAGEMENT (2 credits)
This course provides a comprehensive review of effective human resource theory and practice with an emphasis on managerial influence on attracting, retaining, developing, and rewarding employees.
Prerequisite(s)/Corequisite(s): Admission to the Executive MBA Program. Not open to non-degree students.

BSAD 8290 MARKETING MANAGEMENT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. As this course is the initial course of marketing in the degree program, it establishes the basic foundation of the marketing discipline as well as provides the basis for further exploration and study of the discipline of marketing. The foundation of principles, concepts and nomenclature of marketing are the primary structure of the course. It is intended to provide a comprehensive knowledge of marketing. Further, the course challenges the students to explore further the applications of the foundation knowledge of the course.
Prerequisite(s)/Corequisite(s): Admission to the Executive MBA Program. Not open to non-degree students.

BSAD 8300 ORGANIZATION THEORY & DESIGN (3 credits)
A study of theories and guidelines for enhancing organizational effectiveness by matching an organization's structure to its environment, strategy, technology and size.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8310 MANAGING PERFORMANCE IN ORGANIZATIONS (3 credits)
A human behavior course emphasizing the areas of individual behavior, interpersonal behavior, group behavior and the interplay of human and non-human factors.
Prerequisite(s)/Corequisite(s): Essential Leadership Skills (BSAD 8060) or admission to the MAcc program. Not open to nondegree students.

BSAD 8320 SEMINAR IN HUMAN RESOURCE MGMT (3 credits)
Extensive treatment of the relevant developing theories and coverage of certain new methods, techniques and procedures that relate to personnel administration and human resource management. Efforts are made to select and present material to illustrate the practical, applied aspects of resource management and personnel administration, as related to human problems in organizations.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8326 SALES MANAGEMENT (3 credits)
The student will be exposed to the current research findings in sales management and to business cases where the theories and concepts will be applied. The cases will come from either academic sources such as the Harvard Business School or from business owners and managers from the local business community. (Cross-listed with MKT 4320.)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program. Not open to nondegree students.

BSAD 8330 STRATEGIC COLLABORATION: LEADING HIGH IMPACT TEAMS (1 credit)
This course is designed to enhance students' understanding of collaboration principles, practices and processes. In this interactive course, students will learn how to utilize collaboration tools and techniques and creative problem solving methods to enhance strategic decision making. Other concepts that will be introduced include building and assessing high-performing teams, managing and leading teams, identifying and resolving team dysfunctions, and team decision making approaches. Ultimately, students will learn how to be more influential and improve interactions so people and organizations can work together more efficiently.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8336 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with MKT 4330, SCMT 4330.)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program; or by permission of the instructor. Not open to non-degree students.

BSAD 8340 INTL BUS STUDY ABROAD (3 credits)
This course provides students with an international business and cultural experience through a study tour in a selected international location. Students will develop an understanding of the factors that affect international business decisions by visiting American companies operating abroad and foreign companies that export goods and services to the U.S. Typically, travel is conducted during Spring Break.
Prerequisite(s)/Corequisite(s): Not open to nondegree students.

BSAD 8350 SEMINAR IN MANAGEMENT (3 credits)
A student participation course emphasizing current issues and problems in the areas of management theory and operation.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8356 GLOBAL SOURCING AND INNOVATION (3 credits)
This course will focus on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems focused on new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with SCMT 4350)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.
BSAD 8360 FINANCIAL MANAGEMENT FOR EXECUTIVES (3 credits)
Students will develop strategic decision making skills by using financial concepts including time value of money, capital budgeting processes, cash flow forecasting and project risk analysis. Topics covered include: capital budgeting, financial statement analysis, capital structure, financial risk analysis and others.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8366 E-MARKETING (3 credits)
The focus of this course is understanding the Internet as a marketing tool. The content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, and distributions thereof. The larger impact of the Internet on businesses and future trends also is discussed. (Cross-listed with MKT 4380)
Prerequisite(s)/Corequisite(s): BSAD 8400 with a grade of ‘B’ or above. Not open to nondegree students.

BSAD 8370 BUSINESS LAW AND ETHICS (2 credits)
Only students who have been admitted to the Executive MBA program may take this course. A comprehensive examination of the existing structure and mechanisms used to resolve disputes in the United States, which allows the student to understand the strengths and weaknesses of this system. It will specifically examine the body of substantive law that affects management, including court decisions, statutes (federal and state), traditional ethical theories as they relate to the law, and international problems that exist in the legal environment.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree students.

BSAD 8376 SUPPLY CHAIN ANALYTICS (3 credits)
This course focuses on the integration of supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with SCMT 4370)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8380 STRATEGIC OPERATIONS MANAGEMENT (2 credits)
Students will learn how effective decision-making skills can be used to create a long-term competitive advantage for an organization through operational excellence. Key concepts in this course will include operations management, quality management, and data analytics. Specific topics will include process improvement, quality assurance, supply chain management, project management, and performance assessment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8386 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, SCMT 4380)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree graduate students.

BSAD 8390 CONT ACCT SYSTEMS: MGMT ACCT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. The course is designed to give students an in-depth understanding of how accounting information issued by management decision-makers. The accounting information system generates information managers use for pricing, budgeting, performance appraisal, purchasing production, capital acquisition, etc. The course focuses on both theoretical and practical dimensions of the topic.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8400 MARKETING POLICIES (3 credits)
This course provides an introduction to the fundamental concepts of marketing, including a customer orientation, matched with attention to competition and core strengths. The course will illustrate strategies and principles that will help you understand how marketing managers, product managers or service managers must think through their situations, determine their goals and lay a course to achieve those goals.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses and BSAD 8060 (prior to or concurrent); or admission to MAcc program. Not open to nondegree students.

BSAD 8420 MARKETING: UNDERSTANDING CONSUMERS AND MARKETS (2 credits)
This course exposes MBA students to the fundamental concepts, practices and issues of marketing. A wide range of marketing practices and structures will be explored including product and service firms, consumer and business markets, profit and not-for-profit organizations, domestic and global companies, and small and large businesses.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in marketing may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8426 BUSINESS DEMOGRAPHICS (3 credits)
The development of a demographic perspective to assist in understanding the business environment and business policy. How population change impacts upon consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with MKT 4420)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8430 STRATEGIC BRAND MANAGEMENT (3 credits)
An exploration of the characteristics, meanings, and management of brands in the business world. The course examines brands as a strategic asset, and draws on managerial, consumer, and cultural perspectives.
Prerequisite(s)/Corequisite(s): BSAD 8420 or permission of instructor. Not open to nondegree students.

BSAD 8440 DECISION ANALYTICS (2 credits)
Students will learn to use statistical and decision making tools to interpret data to solve practical management problems and gain desired results. Areas of focus will include market research, decision analysis, data analytics, and business forecasting.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8450 SEMINAR IN MARKETING (3 credits)
Exploration, study and critical analysis of contemporary marketing problems, trends, methods and approaches for seminar discussion and written report.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.
BSAD 8456 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with MGMT 4450, SCMT 4450).
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8460 MGMT & ORGANIZATION THEORY (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. A systematic analysis of the principles and concepts of organization and management theory including the basic process of management and the fundamentals of organization design. From a micro perspective, the course focuses on the planning, organizing, directing and controlling functions of management with emphasis on the classical, neoclassical, behavioral and systems schools of thought. From a macro perspective, the course focuses on the relationships between such factors as environment, goals, strategy, management process and organizational structure.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to non-degree students.

BSAD 8470 INVEST MGMT FOR EXECUTIVES (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. Investigation of the principles involved in building an investment portfolio of securities, and financial analysis of securities, and in learning practices of the securities markets.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8480 APPLICATIONS IN ECONOMICS (2 credits)
Students will learn how to apply micro-economic concepts to corporate strategy. Topics covered include demand analysis and consumer behavior, cost efficiencies such as economies of scale and scope, market structure and strategic pricing, applications of game theory to strategy, and others. The course will also cover macroeconomic conditions and concepts that affect business decisions such as the detection, measurement, and determinants of business cycles and the resulting impact of macroeconomic policy.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to non-degree students.

BSAD 8490 IT: LEVERAGING TECH FOR COMP ADV (2 credits)
The premise of this course is that today’s executives and managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8500 FINANCIAL MANAGEMENT (3 credits)
This course is an introduction to corporate financial management. Lectures and case studies will be used to acquaint the student with financial decision-making involving such topics as capital budgeting, working capital management, financial statement analysis, capital structure policy and others. This course is required for all students working toward the Master of Business Administration degree.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation requirements and BSAD 8060, 8100 and 8200; or admission to the MAcc program. Not open to nondegree students.

BSAD 8510 SECURITY ANALYSIS (3 credits)
Study of the efficient market, fundamental and technical analysis approaches for the valuation of marketable securities. Methods of analysis are considered for the economy, industry groups and individual corporations.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8520 SEMINAR INVESTMENT MANAGEMENT (3 credits)
Modern Portfolio Theory of Investment Management and its application in formulation of policies for individuals and institutional investors. Qualitative and quantitative analysis of the risks and returns of portfolio management using efficient market, fundamental and technical analysis approaches.
Prerequisite(s)/Corequisite(s): BSAD 8510. Not open to nondegree students.

BSAD 8530 BANK & FINANCIAL MARKETSS (3 credits)
A comprehensive study of the structure and functioning of financial firms and markets; recent policies affecting the financial system; proposals for structural and functional changes of the financial system.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8540 MULTINATIONAL FIN MGMT (3 credits)
The focus of this course is on multinational financial management as viewed and practiced by the multinational firm and on current developments in international financial markets, including global banking. Familiarity with certain areas of the firm’s environment, such as the international monetary system, the European Monetary System, and determination of exchange rates under alternative regimes, is essential to the international financial manager.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8550 SEMINAR IN FINANCE (1-3 credits)
Selected topics from areas of business finance.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8560 MARKETING STRATEGIES (3 credits)
Marketing is the core of an operating business. Marketing is the art and science of creating customer value and market place exchanges that benefit the organization and its stakeholders. It is an organizational philosophy and a set of guiding principles for interfacing with customers, competitors, collaborators, and the environment. Students will learn how successful businesses match their objectives and resources with opportunities in the marketplace by identifying and measuring consumer needs, determining target markets and deciding which products and services to offer. Strategies for pricing, promoting and distributing the firm’s products and services to create competitive advantage in domestic and international markets are covered.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8566 STATE & LOCAL FINANCE (3 credits)
Theoretical and policy analysis of state and local government fiscal behavior. Revenues, expenditures, borrowing and intergovernmental fiscal relations. Applications to education, transportation, and economics development. (Cross-listed with FNBK 4560.)
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180. Not open to nondegree students.
BSAD 8570 STRATEGIC MANAGEMENT (3 credits)
This course centers around the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. Students will develop the strategic thinking skills needed to formulate and execute successful strategies for firms/organizations in a variety of industries and dynamic environments. Emphasis is given to the contributions of several business disciplines of study, such as marketing, finance, and management, to understanding both the internal operations of the organization and the influences of the external environment. This course is integrative and introduces both the theory and practice that enables that integrative process.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8576 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with FNBK 4570)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8580 INTERNATIONAL: COMPETING IN GLOBAL MARKETS (3 credits)
Students will develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage international conflicts and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to non-degree graduate students.

BSAD 8590 SEMINAR IN BUSINESS ADMIN (3 credits)
This course hosts the international business consulting project. Both a theory and a practical course, it examines opportunities and challenges for a domestic U.S. firm or industry attempting to enter or expand its presence in an international market. Emphasis is placed on developing focused and appropriate research objectives, the collection and analysis of data for decision-making, development and evaluation of strategy alternatives, and on the production and presentation of a professional, prescriptive consulting report.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to non-degree graduate students.

BSAD 8596 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control, and risk avoidance, among others. (Cross-listed with FNBK 4590.)

BSAD 8600 REAL ESTATE & LAND USE THEORY (3 credits)
This course brings together the best of the technical literature dealing with the development of advanced tools of analysis and concepts of Real Estate and Land Use Economics. The tools are presented and developed which assist real estate decision-makers in identifying and evaluating professionally the complex factors which determine real estate productivity, value, investment and land-use patterns.
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180. Not open to non-degree students.

BSAD 8606 FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with FNBK 4600.)
Prerequisite(s)/Corequisite(s): BSAD 8500 and 8510 or their equivalent, and graduate standing. Not open to nondegree students.

BSAD 8610 CURRENT PROBLEMS IN RELU (3 credits)
A study of current problems in real estate markets affecting decision policies in the private and public sectors. Analysis of economics of land development and use and re-use of real property to provide a viable environment for all citizens.
Prerequisite(s)/Corequisite(s): RELU 2410, 4400, 4410 and LAWS 3460 or equivalent experience. Not open to nondegree students.

BSAD 8620 VALUATION OF INTELLECTUAL PROP (3 credits)
Intellectual Property (IP) is critical to business success. Accounting, economics, and finance all struggle to quantify “value” of individual IP (e.g., trademark) and bundles of IP (e.g., patent pool). Value depends on the context (e.g., infringement versus depreciation versus sale). This course focuses on application of theory.
Prerequisite(s)/Corequisite(s): BSAD 8010 or BSAD 8100 or BSAD 8110 or BSAD 8500. Not open to nondegree students.

BSAD 8630 FINANCE: UNDERSTANDING CAPITAL AND CASH (2 credits)
As a comprehensive introduction to financial management, the course will cover various fields of finance and discuss topics including the time value of money, bond and stock valuation, capital budgeting.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070, 8150 and 8210. Students with an undergraduate major or a graduate degree in finance or accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8640 IT: STRATEGIC DEVELOPMENT AND DEPLOYMENT (1 credit)
Students will gain a strategic perspective of information technology management, including current trends and best practices, and understand how technology can be used in competitive positioning. Processes for innovation and research and development spending and new business models will be covered.

BSAD 8650 INTERNATIONAL: COMPETING IN GLOBAL MARKETS (2 credits)
This course allows students to develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage international conflicts, and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to non-degree graduate students.

BSAD 8700 BUSINESS ANALYTICS: MAKING SENSE OF DATA (2 credits)
The purpose of this course is to provide business managers with an understanding of the important role data analytics has assumed in today’s organizations. Data analytics has become a key component in accomplishing strategic and operational goals. This course is designed to familiarize students with the concepts and principles of analytics. It is targeted for graduate or MBA students who have little or no background in analytics. Therefore, it focuses on breadth of coverage rather than depth in any specific area.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent); or admission to the MAcc program. Not open to non-degree graduate students.

BSAD 8705 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted mainly as a seminar with ample student participation, including a research paper. A “New Economy” has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 4700, ECON 8705.)
Prerequisite(s)/Corequisite(s): Admission to the MBA program or the Economics graduate program. Not open to nondegree students.
BSAD 8710 SUPPLY CHAIN MANAGEMENT (3 credits)
This course will focus on supply chain management as a key functional area of organizational success. Students will learn about current techniques used by supply chain practitioners to make strategic and tactical decisions that support the overall strategy and day-to-day operations of an organization. Students will develop an understanding of how supply chain decisions and appropriate metrics of performance can be utilized to improve the operational efficiency and effectiveness of an organization.
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8720 STRATEGIC FINANCIAL MANAGEMENT (2 credits)
This course is intended to be advanced financial management. It will stress the theory and application of topics including, but not limited to capital budgeting, cash flow estimation, real options, capital structure, dividends and share repurchases, working capital management, budgeting, planning and forecasting, and lease management. The material covered in Strategic Financial Management will increase the student's knowledge of how to strategically manage financial resources to increase the intrinsic value of the organization.
Prerequisite(s)/Corequisite(s): For MBA students, BSAD 8630. For MAcc students, completion of all Master of Accounting (MAcc) foundation courses. Not open to non-degree students.

BSAD 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, ECON 8436)
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students

BSAD 8750 TELECOMM IN BUSINESS (3 credits)
This course is designed to introduce students to basic technology of modern telecommunications, including voice, data and video, as well as the contemporary issues of telecommunication policy. In addition, the course will address managerial issues of modern telecommunications in business.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8766 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth as other pressing issues such as financing, staffing, product development are addressed. This course will focus on consultative solution-based sales fundamentals that can be applied in the entrepreneurial selling environment. (Cross-listed with ENTR 4760, MKT 4760)
Prerequisite(s)/Corequisite(s): GPA 2.5 or better; MKT 3100 with a 2.5 grade or better; MKT 3310 with a 2.5 grade or better; or permission of instructor. Not open to non-degree graduate students.

BSAD 8800 MBA PROJECT-FOCUSED CAPSTONE (2-3 credits)
As the project-focused capstone course for the Master’s of Business Administration (MBA) degree, this course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in the MBA program.
Prerequisite(s)/Corequisite(s): Students must complete this course in the final semester or within the last 9 hours of their MBA program courses. A minimum B grade required to complete the course successfully and qualify for graduation. Not open to non-degree graduate students.

BSAD 8810 APP STRATEGIC LEADERSHIP (3 credits)
Applied and integrative course in the MBA program, with an emphasis on field experiences when possible.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in, or completion of, BSAD 8060. Not open to nondegree students.

BSAD 8830 STRATEGY: DEVELOPING SUSTAINABLE COMPETITIVE ADVANTAGE (2 credits)
This course centers on the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. The primary objective of this course is to sharpen the ability of students to think strategically, to diagnose situations from a strategic perspective and to develop creative solutions to enable firms to achieve a sustainable competitive advantage.
Prerequisite(s)/Corequisite(s): Students must successfully complete BSAD 8150 and BSAD 8210 before enrolling in this course. This course must be taken within the first 20 hours of the MBA program. Not open to nondegree graduate students.

BSAD 8880 ARTS AND THE EXECUTIVE (3 credits)
The course will provide the graduate student with an understanding of the organizational and managerial issues involved in an arts organization as the role of the arts in the business community. (Cross-listed with FINA 8010.)
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8900 INDEPENDENT STUDY (1-6 credits)
Individual research in an academic area in business administration.
Prerequisite(s)/Corequisite(s): Requires submission of completed Independent Study Contract to MBA Advisor prior to registration. Not open to nondegree students.

BSAD 8910 SPECIAL STUDIES IN BUSINESS (1-3 credits)
May be repeated up to (6). A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Graduate in good standing and as indicated for specific workshop or seminar. Not open to nondegree students.

BSAD 8916 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with ECON 8916, ECON 4910).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

BSAD 8990 THESIS (1-6 credits)
A research project, under the supervision of a faculty thesis adviser in the College of Business Administration, in which the student establishes his capacity to design, conduct and complete an independent, scholarly investigation of a high order of originality. The research topic and the completed project must be approved by the student's faculty thesis adviser and two other faculty members, one of whom must be from outside the program area.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser. Not open to nondegree students.
Business Administration, MBA and Management Information Systems, MS (MBA/MIS)

Department of Business Administration, College of Business Administration

Department of Information Systems & Quantitative Analysis, College of Information Science & Technology

Vision Statement
In today’s context of globally integrated and interdependent businesses, ubiquitous information technologies, and a mobile workforce, it is critical that graduate education provides students opportunities to develop integrated business and technology skills. The primary purpose of this dual degree program is to provide this integration by enabling students to complete the MBA and MS in MIS degrees simultaneously. This track is designed for students who are willing to take on the challenges related to graduate education from two perspectives—Business Administration and Management Information Systems. As such, this program involves intensive preparation in both business administration and information systems and a specialization in an area that combines both backgrounds. The dual degree program requires a minimum of 55 hours of course work beyond foundation requirements. Students who wish to pursue this option must work closely with an adviser to develop an integrated plan of study at an early stage. Students who complete the dual degree program will receive two degrees, two diplomas, and will have both degrees recorded on their transcript.

Admissions
Application Deadlines
• Fall: July 1
• Spring: November 1
• Summer: April 1

Program-Specific Requirements
• All applicants must have earned a minimum Junior/Senior GPA of 3.0 for both the MBA and the MS in MIS programs.
• International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores. The minimum TOEFL scores required (internet-based):
  • 85 for both the MBA and the MS in MIS programs
  • 6.5 IELTS for both the MBA and the MS in MIS programs
• Entrance Exam
  • Official GMAT score: minimum GMAT score of 500 with a minimum 20th percentile for both the verbal and quantitative portions; or 299 on the GRE for a test date after July 1, 2015 with a minimum 20th percentile for both the verbal and quantitative portions.
• Three (3) Letters of Recommendation (names and addresses submitted as part of the online application)
  • From individuals who can evaluate your work and/or academic achievement
• Writing Sample
  • From work or previous academic experiences
  • If you do not have a writing sample, please submit a two-page double-spaced word-processed essay that addresses the following two topics:
    • Discussion of two accomplishments that demonstrate your potential for success in the dual-degree MBA/MIS program
    • Discussion of your unique personal qualities and life experiences that distinguish you from other applicants to the dual-degree MBA/MIS program
• Resume
  • Include work experience and education.
• Interview: optional
  • Although not required, applicants are strongly encouraged to arrange for an interview with one or more members of the Graduate Program Committees of the MBA and MIS programs by directly contacting the Committee Chairperson of the College of IS&T. Telephone interviews are highly recommended for applicants outside the local area.
• Students qualifying for admission based on the standard outlined above, but lacking some foundation courses, will be granted provisional status until all foundation courses are completed with grades of “B” (3.0 on a 4.0 scale) or better.

Total Credits 20

1 BSAD 8060: this is the first graduate-level course MBA students are to complete.
2 BSAD 8630 (prereq: BSAD 8150 and BSAD 8210)
3 BSAD 8720 (prereq: BSAD 8630)
4 BSAD 8830 must complete within the first 20 hours in the MBA program. (prereq: BSAD 8150 and BSAD 8210)

### MBA Directed Elective Requirements

#### Directed Elective Requirement

For students who have earned an undergraduate or graduate degrees in accounting, economics, finance, management, or marketing, the core course(s) corresponding to the student’s previously earned degree(s) will be waived. To satisfy degree requirements, the student must complete a directed elective in the waived field as indicated.

MBA/MIS Electives

12 hours from one of the areas of focus listed below

Students must take a minimum of 3 credit hours of the ISQA 8000-level elective courses and a minimum of 3 credit hours of the BSAD or ECON 8000-level elective courses

Students may enroll in a maximum of 6 credit hours of dual-level (8–6) elective courses

Students may pursue an alternate area of focus with the approval of the Graduate Program Committee

Technology Entrepreneurship Focus

MBA/MIS Non-Course Requirements

Each student admitted to the dual degree option will, within the first semester of their enrollment, file a plan of study in close consultation with a graduate advisor.

MBA/MIS Exit Requirements

Capstone Courses (5-6 hours)

BSAD 8800 MBA Project-Focused Capstone (2-3 credits) (taken within the last 9 hours or the final semester of the program). This course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in this program. Minimum B (3.0 on a 4.0 scale) grade required to complete the course successfully and qualify for graduation. Not open to non-degree graduate students.

ISQA 8950 MIS Capstone (3 credits) (taken within the last 6 hours or the final semester of the program, and all core courses have been completed). Minimum grade of “B-” grade is required to complete the course successfully and qualify for graduation.

<table>

</tr>
</tbody>
</table>

Six (6) credit hours or fewer may be left in the student’s program

All other core classes must have been completed except for ISQA 8380.

Thesis Option

To take this option, a student will be required to enroll in six (6) hours of thesis credit:

MBA Program

<table>

<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSAD 8990</td>
<td>THESIS</td>
<td>1-6</td>
</tr>
</tbody>
</table>

The thesis must be in an area that relates to both the business administration and information systems domains. The Supervisory Committee must include at least one CBA faculty member and one ISQA faculty member.

Other Program-Related Information

Transfer Credits

A student may transfer credits into the MBA/MIS dual-degree program subject to the following conditions:

- No more than 1/3 of the credits for the dual-degree program may be transfer credits
- No more than 1/3 of the business credits for the dual-degree program may be transfer credits
- No more than 1/3 of the MIS credits for the dual-degree program may be transfer credits
- The transfer credits must conform to the transfer policies of the individual programs that make up the dual-degree program

Other Requirements to Complete the Program

Attendance at a minimum of 2 MBA leadership seminars

Total Credit Hours: 55

Academic Performance

In addition to UNO Graduate College Quality of Work Standards, Dual Degree (DD) students may repeat only once a BSAD 8-0-level course in which they receive any grade, including "W" or "I". Students earning three “C/C+” grades, or a grade of "C-" or below, will be automatically dismissed from the DD program. Dismissed students will be immediately administratively withdrawn from all courses in which they are enrolled for DD credit.

Students who have been dismissed may not enroll in any courses for DD credit in any subsequent semester or summer session until reinstatement has been granted by the Dual-Degree Program Academic Standards Committee (DDPASC) comprised of the 2 GPC Chairs and 1 faculty member from each GPC.

Students who have been dismissed from the DD program may submit a written petition for reinstatement to the DDPASC. Students petitioning the DDPASC for reinstatement may not enroll in any course for DD credit until after the DDPASC has ruled on the petition. Upon receiving a petition for reinstatement, the DDPASC will evaluate the student’s written petition for reinstatement. As part of the reinstatement petitioning process, the DDPASC reserves the right to examine the student’s academic record and reserves the right to speak to any previous instructor who has taught the student; this information may be used by the DDPASC in the reinstatement decision. Information provided by previous instructors will not be shared with the student. Reinstatement is a privilege and not all students who are dismissed will be reinstated. Students who have been reinstated will serve a probationary period at the DDPASC’s discretion and must satisfy the probationary conditions specified by the DDPASC. In addition to probationary conditions, reinstated students will be subject to additional reinstatement conditions as specified by the DDPASC. These reinstatement conditions will include taking one or more courses in which the student must earn a grade of “B” (3.0) or higher (the exact grade requirements for retaken courses may in fact be higher than “B” (3.0)). Students not satisfying the probationary or reinstatement conditions will be automatically dismissed.
Grades Earned in Repeated Courses
When making decisions related to the Quality of Work Standards issues outlined in the UNO Graduate Catalog, the Dual-Degree Program Academic Standards Committee (DDPASC) will consider the initial grade(s) received in a course as well as the most recent grade received for the course. This approach differs from the method used to calculate GPA in a student’s MavLINK/DegreeWorks file, where the most recent grade replaces the grade received in the previous course attempt.

Business Administration, MBA and Public Health, MPH (MBA/MPH)
Department of Business Administration, College of Business Administration; College of Public Health, UNMC

Vision Statement
The MBA/MPH dual degree program is designed for students who desire specialized expertise and training in public health management and administration. Graduates will be equipped to work in a variety of public interest arenas, commercial or industrial employment, hospitals or insurance settings, or in universities.

  • November 1 MBA
  • October 1 MPH

International Students
• Fall:
  • July 1 MBA
  • April 1 MPH
• Spring:

Apply Now! for the MBA program.

Apply Now! for the MPH program.

Program Specific Requirements
• If English is not the language of nurture, official test scores from the TOEFL or IELTS exam are required
  • 80 on the TOEFL
  • 6.5 on the IELTS
• Minimum junior/senior GPA of at least 2.85 in undergraduate courses related to proposed major
• Resume (employment and educational history)
• Official GRE minimum score of 299 for a test date after July 1, 2015 with both verbal and quantitative percent score of 20% or higher must be received prior to the student’s admission to the MBA and MPH programs. To register for the GRE test, please access the Official ETS website (http://www.ets.org/gre).

Admission Criteria
• Students who have already graduated with the MBA or MPH degree are not eligible for the MBA/MPH dual degree program.
• The admission requirements for the MBA program can be found on the UNO MBA website (https://www.unomaha.edu/college-of-business-administration/mba).
• Students applying for admission based on the standards outlined above but lacking MBA foundation courses will be granted provisional status until all foundation courses are completed with grades of "B" (3.0 on a 4.0 scale) or above.
• Students who are already enrolled in the MBA program at the College of Business Administration may apply for admission to the MBA/MPH dual degree program if they are in good academic standing and have not completed more than 12 semester hours within the MBA program.
• The admission requirements for the MPH program can be found on the UNMC College of Public Health – Master of Public Health website (http://www.unmc.edu/publichealth/programs/mphdualdegree/mba-mp.html).
• Students who are already enrolled in the MPH program at the College of Public Health may apply for admission to the MBA/MPH dual degree program if their GPA is at least 3.0 and have not completed more than 18 semester hours toward the MPH program.

Dual Admission
Applicants must complete the application process for each of the programs, MBA and MPH, separately, and MUST meet the requirements for each program. The student must indicate that he or she is applying for admission to the MBA/MPH dual degree program on the application.

Applications are evaluated by each degree program in separate admissions processes. It is possible that an applicant will be admitted to one program and not the other. In this case the applicant can matriculate into the accepted program, but not participate in the dual degree option.

Degree Requirements
Foundation Courses
A student must complete the foundation courses listed below prior to, or concurrent with enrollment in the first MBA course. Courses successfully completed A, B, or C (2.0 on a 4.0 scale) grades in the student’s undergraduate program are considered as sufficient preparation. Otherwise, the student must complete the foundation requirements with a grade of B (3.0 on a 4.0 scale) or above.

Elective and Concentration Courses (12 credit hours)

Elective and Concentration Courses (12 credit hours)

MBA/MPH students qualifying for an MBA core course waiver based on their undergraduate major(s) or previous degree(s) will be required to complete a Directed Elective in the waived field(s). The waived core course will not satisfy degree requirements. For the list of approved directed electives please consult with your advisor.

MBA/MPH students are not eligible to choose a concentration area for the MBA program. Instead, they will select one of the three MBA/MPH concentrations listed below, and complete the four elective courses required to earn the chosen designation.

Public Health and Policy Concentration

Total Credits 12

Students completing the MBA/MPH will transfer a maximum of nine (9) hours of coursework from the MPH courses listed below to fulfill elective requirements for the MBA program. Minimum "B" (3.0 on a 4.0 scale) grade required in each course to be transferred. Transfer and application of the "professional" hours from UNMC to the UNO MBA program will take place upon completion of the MPH degree. These courses are:

</tbody>
</table>
Other MBA Requirements
 Attendance at a minimum of two (2) MBA leadership seminars.

Capstone Courses & Service Learning (8 credit hours)
 BSAD 8800 MBA Project-Focused Capstone (2-3 credits) (taken within the last 9 hours or the final semester of the program). The project-focused capstone course for the Master’s of Business Administration (MBA) degree will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in the MBA program.

- Students will complete the MPH program capstone course (CPH 529: MPH Capstone Experience, 3 credit hours) with a grade of B (3.0) or higher.
- Students will complete the MPH program service learning course (CPH 528: Service Learning, 3 credit hours)

Prerequisite:
 CPH 505 or HPRO 805: Applied Research in Public Health

Students must complete all core and concentration area courses, be within 12 hours of graduation (including 6 hours of service learning/capstone experience), and be in good academic standing to start the Service Learning/MPH Capstone Experience.

Academic Performance
 Foundation courses cannot be used to meet the 63 semester-hour requirement for the MBA/MPH joint degree.

MBA Program Two Strikes Rule
 A UNO MBA student may enroll only twice in each MBA course. If the class is not successfully completed on the second attempt then the student will be dismissed from the MBA program. An enrollment is defined as being enrolled in the course after the last day to withdraw via MavLINK and receive a 100% refund. The last day for withdrawal will be as stated in the current academic calendar for a full semester course (3 credits); for an 8-week course (2 credits) the last day for withdrawal will be the third day (including the start date) of the course as designated in MavLINK.

MBA Program Academic Performance
 Students earning a third grade of "C+" or lower (or any single grade below "C" (1.67 on a 4.0 scale)) will be automatically dismissed from the MBA program. Dismissed students will be immediately administratively withdrawn from all courses in which they are enrolled for MBA credit. Students who have been dismissed may not enroll in any courses for MBA credit in any subsequent semester or summer session until reinstatement has been granted by the College of Business Administration’s Graduate Program Council (CBA GPC) and Graduate Dean.

Students who have been dismissed from the MBA program may submit a written petition for reinstatement to the CBA GPC. Students who have petitioned the CBA GPC for reinstatement may not enroll in any courses for MBA credit. Upon receiving a petition for reinstatement, the CBA GPC will evaluate the student’s written petition for reinstatement. As part of the reinstatement petitioning process, the CBA GPC reserves the right to examine the student’s academic record and reserves the right to speak to any previous instructor who has taught the student and this information may be used by the CBA GPC in the reinstatement decision. Information provided by previous instructors will not be shared with the student.

Reinstatement is a privilege and not all students who are dismissed will be reinstated. Students who have been reinstated will serve a probationary period of the CBA GPC’s discretion and must satisfy the probationary conditions specified by the CBA GPC. In addition to probationary conditions, reinstated students will be subject to additional reinstatement conditions as specified by the CBA GPC. These reinstatement conditions will include retaking one or more courses in which the student must earn a grade of "B" (3.0) or higher (the exact grade requirements for retaken courses may in fact be higher than "B" 3.0). Students not achieving the probationary or reinstatement conditions will be automatically dismissed.

GPC Will Consider Grades Earned in Related Courses
 When making decisions based on Quality of Work Standards issues, the Graduate Program Committee will consider the initial grade(s) received in a course as well as the most recent grade received for the course. This approach differs from the method used to calculate GPA in a student’s MavLINK file, where the most recent grade replaces the grade received in the previous attempt.

Student Responsibilities
- Each student admitted to graduate studies is responsible for knowing the procedures and regulations of the Graduate College.
- Each student admitted to the dual degree option will, within the first semester of their enrollment, file a plan of study in close consultation with a graduate advisor.
- Once admitted to the MBA/MPH dual degree program, the MBA director in the College of Business Administration will oversee the student’s progress in the MBA curriculum, and faculty in the College of Public Health will oversee the student’s progress in the MPH curriculum.
- Each student has to complete both the MBA and MPH orientations.
- Students must maintain academic eligibility as defined by each degree program.

Business Administration, MBA and UNMC PharmD (MBA/PharmD)

Department of Business Administration, College of Business Administration; UNMC College of Pharmacy

Vision Statement
 The MBA/PharmD dual degree program is designed for pharmacy students who desire to possess both clinical skills and an understanding of business management, leadership and strategic decision making. Graduates will be prepared to anticipate change and to make decisions that balance patient outcomes and the overall cost of care.

Admissions

MBA Application Deadlines
• Fall: July 1
• Spring: November 1
• Summer: April 1

Apply Now! for the MBA program.

Program Specific Requirements
College of Pharmacy Students
To be eligible for enrollment in the UNO MBA program, the UNMC student must:
1. Be in the top 50% of his/her pharmacy school class;
2. Secure approval from the UNMC COP Associate Dean of Student Affairs;
3. Secure approval from the MBA Advisor;
4. Meet UNO MBA admission requirements including the submission of required transcripts, test scores, and resume;
5. Complete UNO’s Application for Graduate Admission;
6. Applicants that did not complete a baccalaureate degree prior to enrollment in the PharmD program must have completed a minimum of ninety (90) college level credits to qualify for admission;
7. Jr./Sr. GPA calculation will be based on the most recent sixty (60) credits including PharmD credits; and
8. PCAT will be accepted in lieu of GMAT/GRE requirement.

MBA Program Specific Requirements
Admission may be granted to an applicant whose record includes at least the following:
1. 2.85 junior/senior grade point average;
2. PCAT score in lieu of GMAT or GRE;
3. Resume (employment and educational history)

Admission Criteria
• Students who have already graduated with the MBA or PharmD degree are not eligible for the MBA/PharmD dual degree program.
• Students qualifying for admission based on the standards outlined above but lacking MBA foundation courses will be granted provisional status until all foundation courses are completed with grades of “B” (3.0 on a 4.0 scale) or above.

Students not achieving the probationary or reinstatement conditions will be automatically dismissed.

**GPC Will Consider Grades Earned in Repeat Courses**

When making decisions based on Quality of Work Standards issues, the Graduate Program Committee will consider the initial grade(s) received in a course as well as the most recent grade received for the course. This approach differs from the method used to calculate GPA in a student's MavLINK file, where the most recent grade replaces the grade received in the previous attempt.

**Student Responsibilities**

- Each student admitted to graduate studies is responsible for knowing the procedures and regulations of the Graduate College.
- Each student admitted to the MBA/PharmD will, within the first semester of their enrollment in the MBA program, file a plan of study in close consultation with a graduate advisor.
- Once admitted to the MBA/MPH dual degree program, the MBA director in the College of Business Administration will oversee the student’s progress in the MBA curriculum, and faculty in the College of Public Health will oversee the student’s progress in the MPH curriculum.
- Each student has to complete both the MBA orientation.
- Students must maintain academic eligibility as defined by each degree program.

**Business for Bioscientists Certificate**

**College of Business Administration; Department of Biology, College of Arts and Sciences**

**Vision Statement**

This certificate program provides a basic understanding of business principles to biomedical PhD students. While UNMC PhD students receive extensive training in research methods and the principles of biology and medicine, they receive no formal training in business fundamentals. However, a significant portion of biomedical PhD students obtain employment in pharmaceutical, biotechnology, and other industries. For students with these career goals, formal training in business would markedly enhance their career options and competitiveness for these industry positions.

## Communication

### Degree Programs Offered

- Communication, MA (p. 655)

### Certificates Offered

- Human Resources and Training Certificate (p. 657)
- Technical Communication Certificate (p. 729)

---

**COMM 8010 SEMINAR IN COMMUNICATION RESEARCH: QUANTITATIVE EMPHASIS (3 credits)**

Philosophy of scientific investigation from a quantitative standpoint, including process and products, in comparison to other ways of knowing. Introduces students to quantitative designs and statistical applications for communication research and to data gathering methods appropriate for such designs. Emphasis is placed on preparing, evaluating and writing quantitatively oriented communication research proposals and reports.

**Prerequisite(s)/Corequisite(s):** Graduate majoring in communication or permission of instructor.

**COMM 8020 SEMINAR IN COMMUNICATION RESEARCH: QUALITATIVE EMPHASIS (3 credits)**

This course is an introduction to the methodology and practice of qualitative research. Within the course, students will be exposed to research paradigms, approaches to qualitative research, and ways to collect and analyze qualitative data. Students will be required to design and carry out their own qualitative research project.

**COMM 8030 TOPICS IN COMMUNICATION METHODS (1-6 credits)**

This variable-content course provides students with in-depth knowledge about such topics as communication research methods (e.g., survey or experimental, content analysis, legal or other communication methods and assessment in contexts such as instructional, health, media, interpersonal, or organizational).

**Prerequisite(s)/Corequisite(s):** Graduate standing or permission of instructor. Graduate non-degree students not allowed.

**COMM 8110 SEMINAR IN MODERN PUBLIC ADDRESS (3 credits)**

Studies in figures, movements and institutions prominent in modern public address.

**COMM 8180 TOPICS IN SPEECH COMMUNICATION (3 credits)**

A variable content course dealing with speech communication. Each offering will treat a single aspect of speech communication in-depth - e.g., interpersonal conflict, gender and communication, organizational culture, health systems communication, relational communication, political communication, marital and family communication, communication education, etc. Course may be repeated.

**COMM 8200 SEMINAR IN POPULAR CULTURE, MASS MEDIA AND VISUAL RHETORIC (3 credits)**

This course studies how discursive meaning is made through established and emerging visual technologies and the impact visual symbol systems are having upon the field of rhetoric in general. Students will investigate how visual technologies, discourse theory, and semiotic theory has intersected with and expanded contemporary rhetorical theories, and they will apply these theories to visual texts. (Cross-listed with ENGL8760)

**COMM 8300 TOPICAL SEMINAR MASS MEDIA (3 credits)**

Substantive study of specialized areas and modes of broadcasting, film and print communication. Content will vary. Course may be repeated.

**Prerequisite(s)/Corequisite(s):** Graduate and majoring in communication or permission of instructor.

**COMM 8436 GLOBAL MEDIA COMMUNICATION (3 credits)**

In-depth study of global media communication systems. This course will examine cultural influence of dominant global media, the changing global media climates, information flow, regulation and censorship of media worldwide. Students will look at the various aspects of mass communication including advertising, public relations, broadcasting, movies and social media. There will be an emphasis on global communication theories and on critical examinations of media systems. (Cross-listed with JMC 4430)
COMM 8470 FOUNDATIONS SEMINAR: COMMUNICATION STUDIES (3 credits)
This course is part of the Communication graduate degree core coursework.
The course exposes students to the structure and historical development of the Communication Studies discipline. It also addresses issues involved in conceptualizing, evaluating, and doing research in Communication Studies from post-positive, interpretive, and critical perspectives. Additionally, the course examines Communication Studies in selected contexts and sub-disciplines. Finally, current and future directions in the development of the Communication Studies discipline are addressed.
Prerequisite(s)/Corequisite(s): Communication graduate students admitted to program; others may enroll only with instructor permission

COMM 8500 SEMINAR IN COMMUNICATION THEORY (3 credits)
This course has a twofold purpose: (1) to expose students to different perspectives on building and critiquing theory (e.g., the classical versus the interpretive naturalistic perspectives.) (2) to apply perspectives to the analysis and critique of a range of influential theoretical approaches employed in the communication discipline (e.g., systems theory, semiotics, message reception/processing theories).
Prerequisite(s)/Corequisite(s): Graduate and majoring in communication, or permission of instructor.

COMM 8570 FOUNDATIONS OF MASS COMMUNICATION (3 credits)
This course is part of the Communication graduate degree core coursework. This course presents a broad-based historical, theoretical, and methodological introduction to Mass Communication research and interconnection with Communication Studies. Course content moves from the initial, early 20th century research through contemporary studies and critique.
Prerequisite(s)/Corequisite(s): Communication graduate students admitted to program; others may enroll only with instructor permission. Not open to non-degree graduate students.

COMM 8900 THESIS (1-6 credits)
Independent research project written under the supervision of an adviser. May be taken multiple times with approval of graduate adviser.

COMM 9400 SEMINAR IN COMMUNICATION & TECHNOLOGY (3 credits)
A synthesis of speech and mass communication research as it relates to the study of computers and technology. Computer Mediated Communication (CMC) will be emphasized. Students write a research paper appropriate for submission to an academic conference. (Cross-listed with ISQA 9900)
Prerequisite(s)/Corequisite(s): COMM 8470 or 8570, and COMM 8010 or 8020, or permission of instructor.

CMST 8136 FAMILY COMMUNICATION (3 credits)
This course emphasizes the role of communication in family relationships. Theories, models, and research methods will be used to examine the family in various cultures and contexts (e.g., nuclear families, single-parent families, and blended families). Topics that will be covered in this course include: family conflict, family roles, family stories, family stress, family well-being, genograms, marriage, and divorce. (Cross-listed with CMST 4130)
Prerequisite(s)/Corequisite(s): Graduate majoring in the School of Communication or permission of instructor. Not open to non-degree graduate students.

CMST 8146 COMMUNICATION AND HUMAN RELATIONSHIPS (3 credits)
This course applies theories of interpersonal processes and communication principles to the study of close, significant and personal human relationships. Discussion focuses on the communication in different types of relationships and relational stages, e.g., strangers, acquaintances, friendships and intimates. (Cross-listed with CMST 4140)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8156 CORPORATE TRAINING AND DEVELOPMENT (3 credits)
This course introduces students to the process of designing communication training programs and workshops for a variety of professional settings. It provides students, especially those who are prospective trainers and/or consultants, with experiential and cognitive knowledge about needs assessment, adult learning, communication training research, objectives writing, module design, interactive delivery methods and program evaluation. (Cross-listed with CMST 4150)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8166 COMMUNICATION FOR INSTRUCTIONAL SETTINGS (3 credits)
This course is designed to help prospective instructors and/or trainers understand and apply the principles of communication in instructional settings (i.e., classrooms, workshops, training programs). It introduces students to the research area in the speech communication discipline called ‘Instructional Communication’ by covering these five units: 1) Communication Strategies, Objectives, & Content; 2) Student Communication Needs & Expectations; 3) Feedback, Reinforcement, & Discussion; 4) Context, Climate, & Influence; and 5) Teacher Communicator Style, Characteristics, & Behaviors. (Cross-listed with CMST 4160)
Prerequisite(s)/Corequisite(s): Graduate Standing.

CMST 8176 ORGANIZATIONAL COMMUNICATION (3 credits)
This course will help students understand organizational communication theories, models, and processes; apply these principles in organizational communication speaking exercises; and learn management and leadership skills. (Cross-listed with CMST 4170)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8186 COMMUNICATION LEADERSHIP AND POWER AND ORGANIZATIONS (3 credits)
This course provides theoretical and experiential knowledge about such topics as communication leadership styles and tactics, superior and subordinate interactions, power, ethical responsibilities, and diversity gender issues related to communication leadership. (Cross-listed with CMST 4180)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8196 COMPUTER-MEDIATED COMMUNICATION (3 credits)
Computer-Mediated Communication addressing emerging issues of virtual communities, identity, civic life and participation, online relationships, collaborative work environments, digital networks, gender race class issues, legal and ethical considerations of technology, and commodification of mediated communication. (Cross-listed with CMST 4190)
Prerequisite(s)/Corequisite(s): Admission into the graduate program
CMST 8226 HEALTH COMMUNICATION (3 credits)
This course introduces students to the interdisciplinary field of health communication. In this course, students will learn various theories of health communication as well as current research and trends in health communication and its related fields. To speak to the complexity and dynamism of health communication, this course will expose students to the multiple voices and perspectives involved in the delivery of health and healthcare. (Cross-listed with CMST 4220)
Prerequisite(s)/Corequisite(s): Junior standing; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 8516 PERSUASION AND SOCIAL INFLUENCE (3 credits)
The primary goal of this course is to provide students with a solid grounding in theories, principles, and strategies of persuasion and social influence as they apply to everyday contexts in which influence attempts take place. Students should gain familiarity with findings from empirical investigations on persuasion, social influence, and compliance gaining, and will learn about strategies and techniques of persuasion relating (Cross-listed with CMST 4510)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

CMST 8526 PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with CMST 4520)
Prerequisite(s)/Corequisite(s): Admission into graduate program. Not open to non-degree graduate students.

CMST 8536 INTERCULTURAL COMMUNICATION (3 credits)
This course will provide a foundation that leads to Intercultural Communication competence. Specifically, this course is to introduce the concepts of cross-cultural communication. Theory and research are integrated with application and necessary skills are identified and developed. (Cross-listed with CMST 4530)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CMST 8546 CONTEMPORARY SYSTEMS OF COMMUNICATION (3 credits)
An adaptation of General Systems Theory concepts to the study of human communication processes with emphasis on systems analysis of contemporary interpersonal communication perspectives. (Cross-listed with CMST 4540)
Prerequisite(s)/Corequisite(s): Graduate standing and major in communication; or permission of instructor.

CMST 8556 NONVERBAL COMMUNICATION (3 credits)
This course is designed to familiarize the student with current knowledge and research about nonverbal communication and to provide a wide variety of practical experiences through which the student can analyze and evaluate his or her own nonverbal behavior and that of others. The course, also, reviews the functions, areas and applied contexts of nonverbal communication. (Cross-listed with CMST 4550)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8566 COMMUNICATION, TEAMWORK, & FACILITATION (3 credits)
This course focuses on the communication practices, process tools, and theory associated with team problem solving, group discussion, facilitation skills, facilitative leadership, meeting management, and training in effective group interaction. (Cross-listed with CMST 4560)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to nondegree students.

CMST 8576 INTERCULTURAL COMMUNICATION IN THE GLOBAL WORKPLACE (3 credits)
This course examines the intercultural perspective of organizational communication in a modern global world by focusing on the management of cultural differences in the global workplace. The trend towards a global economy is bringing people of different ethnic and cultural backgrounds together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. (Cross-listed with CMST 4570)
Prerequisite(s)/Corequisite(s): Graduate standing.

CMST 8586 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with CMST 4580, BLST 4580, BLST 8586)
Prerequisite(s)/Corequisite(s): Graduate major/minor in Communication or Black Studies or instructor permission.

CMST 8606 COMMUNICATION THEORY AND APPLICATION (3 credits)
This course begins by introducing students to two broad categories of theory development - objective and interpretive. Then concepts and assumptions associated with each of these two perspectives are employed to critically evaluate several specific theories that fall within different of the sub-disciplines of the field of communication: interpersonal, group, organizational, mass, public/thetorical, cultural, and intercultural/gender. Along with critically evaluating and comparing/contrasting different communication theories, emphasis is placed on how the theories can be effectively applied in concrete settings and circumstances.(Cross-listed with CMST 4600)
Prerequisite(s)/Corequisite(s): Graduate standing.

CMST 8626 DIRECTING FORENSICS (3 credits)
To provide students planning to teach speech in high school or college with a philosophy and detailed knowledge of how to direct a forensic program. (Cross-listed with CMST 4620)

CMST 8706 INTERPERSONAL CONFLICT (3 credits)
This course provides an overview of interpersonal conflict processes. It examines perspectives on conflict, patterns of constructive and destructive conflict, conflict styles and tactics, interpersonal power, negotiation strategies, conflict assessment, and conflict skill development. (Cross-listed with CMST 4700)
Prerequisite(s)/Corequisite(s): Communication major

CMST 8806 CONFLICT MEDIATION (3 credits)
This course develops knowledge of mediation theory, research, and practice and communication skills essential to the effective mediation of disputes in various contexts. (Cross-listed with CMST 4800)
Prerequisite(s)/Corequisite(s): Graduate major in Communication or Master of Business Administration (MBA) program, or instructor permission.

JMC 8016 HISTORY OF MASS COMMUNICATION (3 credits)
This class covers development of the U.S. media from 1690 to present day, including newspapers, magazines, radio, television, the new media of the Internet, advertising and public relations. A special emphasis is placed on freedom of the press. (Cross-listed with JMC 4010).

University of Nebraska at Omaha Catalog 653
JMC 8046 SOCIAL MEDIA MEASUREMENT AND MANAGEMENT (3 credits)
Social Media Measurement and Management explores the dynamic development of social media platforms within a journalism and media communication context. Students of journalism, broadcasting, public relations, advertising and marketing will examine theories and best practices of social media interaction and engagement. (Cross-listed with JMC 4390).
Prerequisite(s)/Corequisite(s): Good standing as a UNO graduate student.

JMC 8226 LITERARY JOURNALISM (3 credits)
Survey of the journalistic works of pertinent American writers through readings, lectures, discussions, plus creative writing assignments. (Cross-listed with JMC 4220).

JMC 8235 PRINCIPLES OF PUBLIC RELATIONS (3 credits)
This course will focus primarily on techniques to garner and sustain public understanding, acceptance and support for an organization. This course will explain the merits of these techniques through theory and application, and will offer constant reminders of the relationship between theory and practice. Understanding theory can result in more efficient and effective use of techniques. (Cross-listed with JMC 3230).
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum GPA of 2.25

JMC 8246 PUBLIC RELATIONS CASE STUDIES (3 credits)
The course is designed to enable the student: 1) to integrate issue-management and decision-making theoretical models with the communication theory and research techniques presented in JMC 4230/ JMC 8236 and 2) to apply professional judgement to the public relations problem-solving process through the development of structured analysis of historical cases. (Cross-listed with JMC 4240).
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; JMC 2200; JMC 2300; JMC 2370; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 8266 MEDIA RELATIONS (3 credits)
This course focuses on the communication tools used in media relations, the nuances of working with reporters from press and various media, the application of communication theories in understanding the relationship between news organizations and media relations representatives for organizations and corporations. (Cross-listed with JMC 4260).
Prerequisite(s)/Corequisite(s): JMC 3230 and minimum cumulative GPA of 2.25

JMC 8316 MEDIA & POLITICS (3 credits)
An in-depth study of the impact of the media on political communication. This course will explore the symbiotic relationship of media and political communication, including the influence of traditional mass media, digital media, and social media on the political communication process. Students will delve into media theories and critically examine the influence of the media on the political communication process. (Cross-listed with JMC 4310).

JMC 8346 MEDIA REGULATION & FREEDOM (3 credits)
Media and Internet regulation and free expression as defined and interpreted through First Amendment rights, prior restraint and obscenity case law, advertising and public relations, broadcast and cable TV regulation and deregulation policy, new telecommunication media, and privacy. (Cross-listed with JMC 4340).
Prerequisite(s)/Corequisite(s): ENGL1160

JMC 8376 COMMUNICATION WORKSHOP (3 credits)
A workshop to explore communication theory and processes and to develop skills in their application. (Cross-listed with JMC 4370).

JMC 8386 FILM THEORY AND CRITICISM (3 credits)
Study of major trends in film criticism and theory in Europe and America, with concentrated analysis of selected films. (Cross-listed with JMC 4380).
Prerequisite(s)/Corequisite(s): JMC 1050/THEA 1050, ENGL 1160, and Junior standing. Minimum overall GPA of 2.25

JMC 8396 MEDIA ENTREPRENEURSHIP (3 credits)
4390 Media Entrepreneurship (3) explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 4390).
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA- 2.25; Junior standing, ENGL 1160 or equivalent, or instructor permission.

JMC 8406 MASS MEDIA ETHICS (3 credits)
The course examines ethical standards and practices of the media - print, electronic and online media, as well as advertising, public relations and entertainment media. It includes development of ethical decision-making skills. (Cross-listed with JMC 4400).

JMC 8416 COMMUNICATION LAW AND POLICY (3 credits)
Communication practitioners need to understand legal protections and constraints. This course explores legal concepts, frameworks and principles to understand constitutional, statutory, regulatory and case law and policies. The student must have a basic understanding of government, social studies and human rights principles. The First Amendment and international law provide a framework for exploring current cases and issues. (Cross-listed with JMC 4410).

JMC 8426 SPORTS WRITING (3 credits)
Students will learn all aspects of the specialized aspect of sports media communication. Areas covered will include writing, interviewing, storytelling, using multiple media platforms and the ethics of sports reporting. Various writing experiences across the media spectrum, from traditional media to the new forms of online journalism, will be addressed. (Cross-listed with JMC 4420)
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; JMC 2200; JMC 2300; JMC 2370; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 8506 MASS COMMUNICATION AND PUBLIC OPINION (3 credits)
This class represents a study of the philosophy, process and effects of mass communication; the relationship between the mass media and public opinion and propaganda; and the nature, function and measurement of public opinion.. (Cross-listed with JMC 4500).

JMC 8816 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awaremess of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810, ENGL 8816, JMC 4810).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110

JMC 8826 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with PSCI 4820, JMC 4820, PSCI 8826).

JMC 8836 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, ENGL 8836, JMC 4830).
JMC 8856 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgement necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, ENGL 8856, JMC 4850).

JMC 8876 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, ENGL 8876, JMC 4870).
Prerequisite(s)/Corequisite(s): ENGL 4830 or ENGL 3980, and ENGL 4850, or permission of instructor.

JMC 8896 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 4890, ENGL 8896, JMC 4890).
Prerequisite(s)/Corequisite(s): JMC 8816 and JMC 8836 and JMC 8856 and JMC 8876 highly recommended.

JMC 8906 SEMINAR MASS COMMUNICATION (3 credits)
A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 4900)

JMC 8916 SEMINAR MASS COMMUNICATION (3 credits)
A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 4910)

JMC 8926 MEDIA LITERACY (3 credits)
An advanced seminar on the study of media and information literacy through deconstruction of mass communication content, meaning construction, framing analyses and critical/cultural approaches. (Cross-listed with JMC 4920).
Prerequisite(s)/Corequisite(s): Must be enrolled in the School of Communication program or receive permission of instructor.

Admissions
Application Deadlines
  • Fall: March 1
  • Spring: October 1

If you are applying for a graduate assistantship, both admissions and assistantship application materials must be completed by February 1 (for Fall admit) and October 1 (for Spring admit).

Program-Specific Requirements
  • Three (3) Letters of Recommendation - (A minimum of 1 letter from a faculty member of the applicant's undergraduate program should be included if at all possible. Other letters should address an applicant's ability to do advanced-level academic work.)
  • Statement of Purpose - The Statement of Purpose should be 500 words in length and should answer the following questions:
    • Why have you chosen the UNO School of Communication Master's degree program?
    • What are your areas of scholarly interest and research?
    • What are your personal or professional plans after you complete the Master's degree?
  • Writing Sample - An academic or otherwise-demonstrative writing sample (e.g., term paper, senior thesis, or research paper) that demonstrates the applicant's strengths as a writer and researcher
  • Resume or CV - Identify Major and Minor field(s) of study, overall GPA, and GPA within major, as well as all relevant experience
  • Graduate Record Examination (GRE) - There is no minimum score for acceptance.
  • International Students - International students are also required to have a minimum score of 550 on the TOEFL, 213 computer-based, 80 if internet-based, 6.5 if IELTS, or 53 if PTE

Admission Status
  • Unconditional Admission may be granted to a student whose record includes at least the following:
    • Certification of a bachelor’s degree from a regionally accredited institution
    • Documentation through official transcripts using a 4.0 grade point scale of having earned at least:
      • A 3.25 in Communication or undergraduate major work.
      • Either a 3.0 overall undergraduate average GPA or a 3.25 average GPA in the last half of undergraduate credit hours, and
      • Inclusion of nine (9) to 15 undergraduate [junior or senior level] theory and/or research courses in Communication (e.g., Communication Studies, Speech Communication, Broadcasting, Journalism, Mass Communication, Media Communication or Studies, Rhetoric) or a related field as approved by the Graduate Program Chair and/or the Graduate Admissions Committee.
  • Provisional Admission may be granted for reasons of experience, maturity or other circumstances to a student who does not meet the unconditional admission standards. A student will not be admitted who

Communication, MA
School of Communication, College of Communication, Fine Arts & Media

Vision Statement
The School of Communication offers a Master of Arts degree emphasizing a blend of broad theoretical instruction and application of the communication discipline in all its iterations. Graduate students achieve in-depth knowledge of communication processes and effects and acquire the skills needed to discover new knowledge through research and other forms of scholarly activity and professional growth. Once coursework is complete, graduate students conduct original research for a thesis or project.

School of Communication graduate faculty offer an impressive blend of academic and professional experience. Faculty are actively involved in the discovery of new knowledge through publication in top scholarly journals. The faculty seek to cultivate students’ breadth and depth of knowledge about communication, as well as foster a spirit of free investigation.
does not meet UNO Graduate College provisional admission standards (a 2.75 GPA for both undergraduate major and minor).

- The School's graduate admission committee may require any one or any combination of the following in deciding whether or not to recommend provisional admission:
  - Completion of prescribed course(s) (not for graduate credit) with a grade of "B" (3.0 on a 4.0 scale) or better, with course(s) approved in advance by the Graduate Program Chair and/or the Graduate Admission Committee.
  - Completion of the first 12 graduate hours of coursework with a grade of "B" (3.0 on a 4.0 scale) or better as a non-declared student.

**Degree Requirements**

**Required Courses**

The Core courses provide basic, intensive and broad coverage of communication as a field of advanced study. The Core integrates mass and speech communication theories and research methodologies from all aspects of the discipline. If a student fails to achieve an average grade of "B" (3.0 on a 4.0 scale) in the overall Core, the student may retake each Core course with a grade below "B" once, and must obtain an average grade of "B" or higher to remain in the program. The core courses must be completed within the first 18-21 credit hours of a student's program. (This requirement may be waived for students entering the Communication graduate program with approved graduate credits to be used in the plan of study).

The project, in lieu of a thesis, is based on a proposal approved by the student’s committee. The student must complete a project which is defended orally before his or her project committee.

**Exit Requirements**

Students will take either six (6) thesis credit hours or three (3) project hours during the final semester(s) of their program. These credit hours must be 1) taken either concurrently or after the student’s final semester of coursework and 2) must be taken and completed in order to successfully complete the program. The thesis or project is considered the final part of the program. With this in mind, coursework will be completed before or concurrently with the thesis or project (it is strongly encouraged that coursework is completed prior to the thesis or project). Students will meet with the GPC to discuss which option consider.

**Thesis Option**

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms and final approval and submission of the thesis. Theses are defended orally before the student’s committee once completed.

**Project Option**

The project, in lieu of a thesis, is based on a proposal approved by the student’s committee. The student must complete a project that is defended orally before the student’s project committee.

**Certificates Offered**

- Human Resources and Training Certificate (p. 657)
- Technical Communication Certificate (p. 729)
Human Resources and Training Certificate

School of Communication, College of Communication, Fine Arts & Media, Department of Psychology, College of Arts & Sciences, Department of Business Administration, College of Business Administration

Vision Statement
The purpose of the Graduate Certificate in Human Resources and Training (HRST) is to help post-baccalaureate students and working professionals expand their educational background and enhance their knowledge and skills in one of the two concentrations. The first concentration, Human Resources, focuses on enhancing organizational effectiveness through employee recruitment, selection, placement, performance evaluation, motivation, and retention. The second concentration, Training and Development, focuses on enhancing training skills and program design including developing, implementing, assessing, and delivering training programs. The HRST Certificate is useful for individuals currently employed in the Human Resources or Training fields and for individuals who desire to enter those fields. The graduate courses required for this certificate address both theory and application from the fields of Communication, Psychology, and Business.

kdwyer@unomaha.edu

Admissions

Application Deadlines
- Fall: July 1
- Spring: December 1
- Summer: April 1

Program-Specific Requirements
- Admission to the HRST graduate certificate program requires a baccalaureate degree with at least a 3.0 GPA, a major or a minor (or at least a 15 credit concentration) in communication studies, psychology, business, or related area, plus at least one 3 credit course in research methods or statistics.
- Statement of purpose
  - Please include a 1000 word essay describing which concentration you will be pursuing and why.
- One letter of recommendation is required from a professor or supervisor
  - Please submit the name of the person who will write your recommendation and the email address where they can be contacted so that the reference can be completed online.
- Resume
  - Please include your work history

Required Courses

Students must identify an area of concentration:

Twelve of the fifteen required graduate credits must be selected from one of the two concentrations. Three of the 15 required graduate credits are electives and must be selected from either concentration course list or from the approved electives list.

See Human Resources and Training Certificate Concentrations

Exit Requirements
Portfolio
Students admitted to the HRST graduate certificate program must create a portfolio (notebook) containing at least one sample project from each course. A portfolio review will be conducted by the student's advisor before the certificate is awarded. Contact your advisor during the last semester of your program.

Total Credit Hours: 15

Other Program-Related Information
To enroll in each course, students may need approval and a permit. For Psychology (PSYC) 9000 level courses, please contact the instructor for approval; for Business Administration (BSAD) courses, please contact the MBA Advisor at 402-554-3010, and for Communication Studies (CMST) courses, please contact the certificate advisor at 402-554-2253.

Human Resources and Training Certificate Concentrations

Human Resources Concentration
This concentration focuses on enhancing organizational performance through improving employee recruitment, selection, placement, performance evaluation, motivation, and retention. You will need to complete all 15 credit hours with grades of "B" or better. All classes are 3 credits unless otherwise indicated.

Courses must be taken in at least two of the units within the certificate program (i.e., Communication, Psychology, and Business Administration).

See Human Resources and Training Certificate Concentrations

Exit Requirements
Portfolio
Students admitted to the HRST graduate certificate program must create a portfolio (notebook) containing at least one sample project from each course. A portfolio review will be conducted by the student's advisor before the certificate is awarded. Contact your advisor during the last semester of your program.

Total Credit Hours: 15

Other Program-Related Information
To enroll in each course, students may need approval and a permit. For Psychology (PSYC) 9000 level courses, please contact the instructor for approval; for Business Administration (BSAD) courses, please contact the MBA Advisor at 402-554-3010, and for Communication Studies (CMST) courses, please contact the certificate advisor at 402-554-2253.

Human Resources and Training Certificate Concentrations

Human Resources Concentration
This concentration focuses on enhancing organizational performance through improving employee recruitment, selection, placement, performance evaluation, motivation, and retention. You will need to complete all 15 credit hours with grades of "B" or better. All classes are 3 credits unless otherwise indicated.

Total Credits: 15

Certificates Offered

- Artificial Intelligence Certificate (p. 667)
- Communication Networks Certificate (p. 668)
- Software Engineering Certificate (p. 669)
- Systems and Architecture Certificate (p. 669)

CSCI 8000 ADVANCED CONCEPTS IN PROGRAMMING LANGUAGES (3 credits)
This course studies the concepts and properties of programming languages in general. It covers the syntax of major programming languages such as the imperative, functional, and logic programming languages, and the semantics of programming languages such as those dealing with concurrency and object oriented programming. Topics in formal language theory, parsing, and formal methods of syntax description are also covered. 
Prerequisite(s)/Corequisite(s): CSCI 3320. Not open to non-degree graduate students.

CSCI 8010 FOUNDATIONS OF COMPUTER SCIENCE (3 credits)
This is a foundational course for students enrolled in the graduate program in computer science. The objectives are to introduce students to a large body of concepts so that they are better prepared for undertaking the core courses in the graduate program. It is assumed that the student would have programmed in a high-level language and have exposure to basic college level mathematical concepts such as logarithms, exponents, sequences, and counting principles.
Prerequisite(s)/Corequisite(s): Students are expected to have written programs using a high-level programming language and should understand basic mathematical concepts including exponents, logarithms, sequences, and counting principles. Not open to non-degree graduate students.

CSCI 8016 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice’s Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post’s theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with MATH 4010, MATH 8016, CSCI 4010).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor’s permission
CSCI 8040 LARGE SCALE NETWORK ANALYSIS ALGORITHMS (3 credits)
The course will provide a review of the properties of large complex network systems, such as those occurring in social networks, epidemiology and biological systems. We will discuss algorithms to analyze these properties, their implementations, their stability under information fluctuation and how information spreads through networks.
Prerequisite(s)/Corequisite(s): Students should be comfortable with programming, have knowledge of data structures, preliminary graph algorithms, & linear algebra. Suggest Prep Courses: CSCI 4150 or CSCI 8156; MATH 4050 or Permission. Not open to non-degree graduate students.

CSCI 8050 ALGORITHMIC GRAPH THEORY (3 credits)
Review of the basic concepts of graph theory. Introduction to perfect graphs and their characterizations. Main classes of perfect graphs and their properties. Algorithms for main problems of perfect graphs. Applications of perfect graphs in several fields such as scheduling, VLSI and communication networks. (Cross-listed with MATH 8050).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and MATH 4150 or MATH 8156 or permission of instructor. Not open to non-degree graduate students.

CSCI 8060 ALGORITHMIC COMBINATORICS (3 credits)
This course includes classical combinatorial analysis of graphs theory, trees, network flow, matching theory, external problems, and block designs. (Cross-listed with MATH 8060).
Prerequisite(s)/Corequisite(s): MATH 3100, CSCI 3100, MATH 8105 or CSCI 8105 or instructor's permission.

CSCI 8070 GENETIC ALGORITHMS (3 credits)
This course introduces the student to the fast growing field of genetic algorithms. The course covers the basic concepts of genetic algorithms and their implementations. Case studies from different fields such as chip design, scheduling, and information gathering are used to illustrate how genetic algorithms can be used to solve important problems effectively.
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325; bachelor's degree and permission from the graduate program committee. Not open to non-degree graduate students.

CSCI 8080 DESIGN AND ANALYSIS OF ALGORITHMS (3 credits)
The study of algorithms important in computer programming. Principles and underlying concepts of algorithm design, fundamental techniques of algorithm analysis, typical types of algorithms and computer architecture. (Cross-listed with MATH 8080).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or equivalent. Not open to non-degree graduate students.

CSCI 8100 EXPERT SYSTEMS (3 credits)
A study of the theoretical basis and practical design of expert systems. Knowledge engineering. Foundations in logic programming, the architecture of expert systems, languages (Prolog, LISP) for expert systems, expert system shells, knowledge acquisition, current issues.
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456 or equivalent. Not open to non-degree graduate students.

CSCI 8105 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya's formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with MATH 8105, MATH 3100, CSCI 3100).
Prerequisite(s)/Corequisite(s): MATH 2030 with a C- or better or MATH 2040 with a C- or better or MATH 2230 with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

CSCI 8110 ADVANCED TOPICS IN ARTIFICIAL INTELLIGENCE (3 credits)
An in-depth study of one or more topics selected from: search techniques, knowledge representation, knowledge programming, parallel processing in Artificial Intelligence, natural language processing, image processing, current and future directions, etc. May be repeated with different topics, with permission of adviser.
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456 or equivalent. Not open to non-degree graduate students.

CSCI 8150 ADVANCED COMPUTER ARCHITECTURE (3 credits)
Various parallel architectures, models of parallel computation, processor arrays, multiprocessor systems, pipelined and vector processors, dataflow computers and systolic array structures.
Prerequisite(s)/Corequisite(s): CSCI 4350, CSCI 4500 and graduate. Not open to non-degree graduate students.

CSCI 8156 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 4150, MATH 4150, MATH 8156).
Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor.

CSCI 8160 INTRODUCTION TO VLSI DESIGN (3 credits)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and CSCI 4350 or CSCI 8356. Not open to non-degree graduate students.

CSCI 8170 VLSI TESTING (3 credits)
This course covers topics in VLSI testing. In particular, topics covered include fault modeling, fault simulation, test generation, testability profiles, built-in tests, and binary decision diagrams.
Prerequisite(s)/Corequisite(s): Bachelors degree and permission from the Graduate Program Committee; CSCI 4350. Not open to non-degree graduate students.

CSCI 8200 INTERCONNECTION NETWORKS (3 credits)
This course is to introduce the technology of interconnection networks from topology of networks, through routing and flow control, to a discussion of hardware/software fault tolerance, and to understand parameters affecting performance.
Prerequisite(s)/Corequisite(s): Bachelors degree and permission from the Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8210 ADV COMMUNICATIONS NETWORKS (3 credits)
Advanced study of communication networks, analysis of communication needs, special problems encountered in different types of networks, efficiency and traffic analysis and emerging hardware software technologies. Detailed "hands-on" study of the TCP/IP networking protocols.
Prerequisite(s)/Corequisite(s): CSCI 3550 or 8555 or equivalent. Not open to non-degree graduate students.
CSCI 8220 TELECOMMUNICATIONS MANAGEMENT (3 credits)
This course will focus on the management required to operate today's complex telecommunications networks. The course will be based on the standards that are currently in place as well as examining the future directions. The student, upon the successful completion of this course, will have: an operational knowledge of the components of complex telecommunications networks, the management structures and computer systems needed to maintain that network, and the security solutions used to protect that network. (Cross-listed with ISQA 8230)
Prerequisite(s)/Corequisite(s): Acceptance into the Graduate program of CSCI or MIS or by permission of the instructor. Not open to non-degree graduate students.

CSCI 8256 HUMAN COMPUTER INTERACTION (3 credits)
Human-computer interaction is concerned with the joint performance of tasks by humans and machines; human capabilities to use machines (including learnability of interfaces); algorithms and programming of the interface; engineering concerns that arise in designing and building interfaces; the process of specification, design, and implementation of interfaces; and design trade-offs. (Cross-listed with CSCI 4250).
Prerequisite(s)/Corequisite(s): CSCI 4830 (may be taken concurrently). Knowledge of object-oriented programming concepts. Demonstrated fluency in any visual programming language.

CSCI 8266 USER INTERFACE DESIGN AND DEVELOPMENT (3 credits)
Graphical user interface (GUI) design is concerned with the application of user-centered design principles to graphical computer interfaces. Topics covered include user-centered design, establishing usability criteria and measures, usability testing, psychology of the user, rapid prototyping, iterative design, and design tools. This course is an extension and application of its prerequisite, Human Computer Interaction. (Cross-listed with CSCI 4260).
Prerequisite(s)/Corequisite(s): CSCI 4250 or instructor's permission and CSCI 4830. C++ or demonstrated fluency in any visual programming language is preferred.

CSCI 8300 IMAGE PROCESSING COMPTR VISION (3 credits)
This course introduces the computer system structures and programming methodologies for digital image processing and computer vision. The course will cover the mathematical models of digital image formation, image representation, image enhancement and image understanding. Techniques for edge detection, region growing, segmentation, two-dimensional and three-dimensional description of object shapes will be discussed. The course will concentrate on the study of knowledge-based approaches for computer interpretation and classification of natural and man-made scenes and objects.
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 3220. Not open to non-degree graduate students.

CSCI 8305 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with CSCI 3300, MATH 3300, MATH 8305).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor.

CSCI 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, MATH 4300, MATH 8306).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor.

CSCI 8316 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations, research models and algorithms. Topics include Markov chains, queuing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, MATH 4310, MATH 8316).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

CSCI 8325 DATA STRUCTURES (3 credits)
This is a core that will cover a number of data structures such as tree, hashing, priority queues and graphs as well as different algorithm design methods by examining common problem-solving techniques. (Cross-listed with CSCI 3320)
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 2030 or MATH 2030. Programming Languages: Java or C++ Topics: Arrays, Pointers, Introductory Lists, Storage Allocation.

CSCI 8340 DATABASE MANAGEMENT SYSTEMS II (3 credits)
A continuation of the study of Data Base Management Systems. Extended discussion of logical data base design, normalization theory, query optimization, concurrent issues. Advanced topics including distributed data bases, deductive data bases, data base machine, and others.
Prerequisite(s)/Corequisite(s): CSCI 8856 or equivalent. Not open to non-degree graduate students.

CSCI 8350 DATA WAREHOUSING AND DATA MINING (3 credits)
Covers topics related to decision support queries. In particular, topics covered include building data warehouses, On-Line Analysis Processing (OLAP), maintenance of materialized views, indexing, various data mining techniques, and integration of OLAP and data mining.
Prerequisite(s)/Corequisite(s): CSCI 8856; bachelors degree and permission from Graduate Committee. Not open to non-degree graduate students.

CSCI 8360 INFORMATION STORAGE AND RETRIEVAL (3 credits)
The course presents basic techniques for analyzing, indexing, representing, storing, searching, retrieving, and presenting desired information in information storage and retrieval systems. Models, document processing, thesauri, evaluation of system effectiveness, as well as special hardware will be discussed. Selected advanced topics will also be covered.
Prerequisite(s)/Corequisite(s): CSCI 4850 or CSCI 8856; bachelors degree and permission from Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8366 FOUNDATIONS OF INFORMATION ASSURANCE (3 credits)
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption programs; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 4360, CYBR 8366).
Prerequisite(s)/Corequisite(s): CSCI 3320 OR CSCI 8325 OR ISQA 3300 OR By instructor permission.

CSCI 8390 ADVANCED TOPICS IN DATA BASE MANAGEMENT (3 credits)
An in-depth study of one or more topics in the field of Data Base Management Systems, such as logical and/or physical data base design, query optimization, distributed data bases, intelligent knowledge-based systems, emerging technologies and applications. May be repeated with different topics with permission of adviser.
Prerequisite(s)/Corequisite(s): CSCI 4850 or CSCI 8856 or equivalent. Not open to non-degree graduate students.
CSCI 8400 ADVANCED COMPUTER GRAPHICS (3 credits)
This course covers advanced rendering and modeling techniques. Topics covered include: Three-dimensional viewing, visible-surface detection methods, illumination models and surface rendering methods, color models and color applications, and computer animation.
Prerequisite(s)/Corequisite(s): Bachelors degree and permission from the Graduate Program Committee; CSCI 4620 or CSCI 8626. Not open to non-degree graduate students.

CSCI 8410 DISTRIBUT SYSTEM & NETWORK SEC (3 credits)
The course aims at understanding the issues surrounding data security, integrity, confidentiality and availability in distributed systems. Further, we will discuss various network security issues, threats that exist and strategies to mitigate them. This course will cover topics in cryptography, public key infrastructure, authentication, hashing, digital signatures, ARP protection, IP and IPSEC, IP Tables, SSL/TLS, firewalls, etc. (Cross-listed with CYBR 8410)
Prerequisite(s)/Corequisite(s): CSCI 8366 or equivalent(s). Not open to non-degree graduate students.

CSCI 8420 SOFTWARE ASSURANCE (3 credits)
Software assurance is a reasoned, auditable argument created to support the belief that the software will operate as expected. This course is an intersection of knowledge areas necessary to perform engineering activities or aspects of activities relevant for promoting software assurance. This course takes on a software development lifecycle perspective for the prevention of flaws. (Cross-listed with CYBR 8420)
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836 OR by permission of the instructor. Not open to non-degree graduate students.

CSCI 8430 TRUSTED SYSTEM DESIGN, ANALYSIS AND DEVELOPMENT (3 credits)
This course examines in detail: the principles of a security architecture, access control, policy and the threat of malicious code; the considerations of trusted system implementation to include hardware security mechanisms, security models, security kernels, and architectural alternatives; the related assurance measures associated with trusted systems to include documentation, formal specification and verification, and testing, and approaches that extend the trusted system, into applications and databases and into networks and distributed systems.
Prerequisite(s)/Corequisite(s): CSCI 8366 or equivalents, or instructor permission. Not open to non-degree graduate students.

CSCI 8440 SECURE SYSTEMS ENGINEERING (3 credits)
This course takes a global risk-based view of the process of defining, verifying, validating and continuously monitoring secure information systems. The course will investigate a number of secure system solutions, starting with the definition of the system security needs, and tracing through methods of verification and validation of security controls, as well as ways to continuously monitor the corresponding assurances. (Cross-listed with CYBR 8440)
Prerequisite(s)/Corequisite(s): CSCI 8366 or IASC 8366

CSCI 8446 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
Need for higher-performance computers. Topics discussed include: classification of parallel computers; shared-memory versus message passing matchings; for ms of parallelism, measure of performance; designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel computers. (Cross-listed with CSCI 4440)
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506 (May be taken concurrently). Not open to non-degree graduate students.

CSCI 8450 ADVANCED TOPICS IN NATURAL LANGUAGE UNDERSTANDING (3 credits)
The course will provide in depth study of the topics in natural language processing and understanding, such as syntax, lexical and computational semantics, natural language ambiguities and their disambiguation, logical form construction and inference. The course will survey state-of-the-art natural language processing toolkits and knowledge bases that boost the development of modern language processing and understanding applications.
Prerequisite(s)/Corequisite(s): CSCI 3320 OR CSCI 3660 OR CSCI 4450. Not open to non-degree graduate students.

CSCI 8456 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3 credits)
An introduction to artificial intelligence. The course will cover topics such as machine problem solving, uninformed and informed searching, propositional logic, first order logic, approximate reasoning using Bayesian networks, temporal reasoning, planning under uncertainty and machine learning. (Cross-listed with CSCI 4450).
Prerequisite(s)/Corequisite(s): CSCI 8325

CSCI 8476 PATTERN RECOGNITION (3 credits)
Structures and problems of pattern recognition. Mathematics model of statistical pattern recognition, multivariate probability, Bay's decision theory, maximum likelihood estimation, whitening transformations. Parametric and non-parametric techniques, linear discriminant function, gradient-descent procedure, clustering and unsupervised learning, and feature selection algorithms. (Cross-listed with CSCI 4470)
Prerequisite(s)/Corequisite(s): CSCI 1620, MATH 2050. Recommended: MATH 3740 or MATH 8745 or STAT 3080 or STAT 8085. Not open to non-degree graduate students.

CSCI 8480 MULTI-AGENT SYSTEMS AND GAME THEORY (3 credits)
This course covers advanced topics in the area of coordination of distributed agent-based systems with a focus on computational aspects of game theory. The main topics covered in this course include distributed constraint satisfaction, distributed constraint optimization, and competitive and cooperative game theory. (Cross-listed with MATH 8480)
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456. Suggested background courses: CSCI 4480 or CSCI 8486; CSCI 8080. Not open to non-degree graduate students.

CSCI 8486 ALGORITHMS FOR ROBOTICS (3 credits)
This course provides an introduction to software techniques and algorithms for autonomously controlling robots using software programs called controllers. Students will be taught how to program and use software controllers on simulated as well as physical robots. (Cross-listed with CSCI 4480).
Prerequisite(s)/Corequisite(s): CSCI 3320. CSCI 4450/8456 is a recommended but not essential pre-requisite.

CSCI 8500 NUMERICAL ANALYSIS I (3 credits)
Topics covered in this course include error propagation, solutions of nonlinear equations, solutions of linear and nonlinear systems by various schemes, matrix norms and conditioning, and computation of eigenvalues and eigenvectors. (Cross-listed with MATH 8500).
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2050, or permission of instructor. Familiarity with computer programming is assumed.

CSCI 8506 OPERATING SYSTEMS (3 credits)
Operating System principles. The operating system as a resource manager; I/O programming, interrupt programming and machine architecture as it relates to resource management; memory management techniques for uni-multiprogrammed systems; process description and implementation; processor management (scheduling); I/O device, controller and channel management; file systems. Operating system implementation for large and small machines. (Cross-listed with CSCI 4500).
Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320 or CSCI 8325; MATH 1950; and CSCI 4350 or CSCI 8356.
CSCI 8510 NUMERICAL ANALYSIS II (3 credits)
Topics covered in this course include interpolation and approximations, numerical differentiation, numerical integration, and numerical solutions of ordinary and partial differential equations. (Cross-listed with MATH 8510)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or permission of instructor. Familiarity with computer programming is assumed.

CSCI 8520 ADVANCED TOPICS IN OPERATIONS RESEARCH (3 credits)
Advanced treatment of a specific topic in the area of operations research not available in the regular curriculum. Topics, developed by individual faculty members, will reflect their special interests and expertise. The course may be repeated for credit as topics differ. (Cross-listed with MATH 8520).
Prerequisite(s)/Corequisite(s): MATH 4300 or MATH 8306 or CSCI 4300 CSCI 8306 or permission of the instructor.

CSCI 8530 ADVANCED OPERATING SYSTEMS (3 credits)
State of the art techniques for operating system structuring and implementation. Special purpose operating systems. Pragmatic aspects of operating system design, implementation, and use. (Cross-listed with CSCI 4510)
Prerequisite(s)/Corequisite(s): CSCI 4500/8506. Not open to nondegree students.

CSCI 8536 FILE STRUCTURES (3 credits)
File structures is an introduction to the principles behind the design and manipulation of file structures. This course gives special emphasis to the complexity analysis of algorithms used to implement the storage and retrieval of data to/from bulk storage devices and programming techniques for large data manipulation.
Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 1840. Not open to non-degree graduate students.

CSCI 8540 ADVANCED DATA STRUCTURES (3 credits)
A theoretical study of the design and analysis of data structures and efficient algorithms for manipulating them. Emphasis is placed on developing the fundamental principles underlying efficient algorithms and their analysis.
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8326 or equivalent. Not open to non-degree graduate students.

CSCI 8550 ADVANCED OPERATING SYSTEM THEORY (3 credits)
An advanced study of modern operating systems. Intended for graduate students who have mastered the fundamental material in an undergraduate course. Emphasis on advanced theoretical material on topics introduced in undergraduate courses, and material not generally covered in undergraduate courses. Advanced material on process synchronization, deadlock, virtual memory, and new material on parallel processing, security, distributed systems and control, object-oriented programming, and modeling and analysis.
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506. Recommended: CSCI 4510 or CSCI 8516. Not open to non-degree graduate students.

CSCI 8555 COMMUNICATION NETWORKS (3 credits)
This course is designed to bring students up to the state of the art in networking technologies with a focus on Internet. It will cover the principles of networking with an emphasis on protocols, implementations and design issues. (Cross-listed with CSCI 3550)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325. Data structures and algorithms. C or C++ programming.

CSCI 8566 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 4560, MATH 4560, MATH 8566).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor.

CSCI 8610 FAULT TOLERANT DISTRIBUTED SYSTEMS (3 credits)
This course is to study the theory and practice of designing computer systems in the presence of faulty components. Emphasizes the basics of how faults can affect systems and what is required to mask or compensate for their efforts.
Prerequisite(s)/Corequisite(s): CSCI 4500 and CSCI 4500. Not open to non-degree graduate students.

CSCI 8620 MOBILE COMPUTING AND WIRELESS NETWORKS (3 credits)
Contemporary issues in mobile computing and wireless networks, including the differences between mobile computing and the traditional distributed computing paradigm, impediments of the mobile and wireless environments, problems and limitations due to such impediments, using the spectrum, wireless data networks, various network layer solutions, location management techniques, mobile IP, wireless LANs, wireless TCP, ad hoc networks, performance issues, security issues.
Prerequisite(s)/Corequisite(s): CSCI 3550/8555. Not open to non-degree graduate students.

CSCI 8626 COMPUTER GRAPHICS (3 credits)
An introduction to the acquisition, manipulation and display of graphical information using digital techniques. Topics include discussion of the various hardware devices used for input and output, the classical algorithms and data structures used in manipulation of graphical objects, the user interface to the graphics system, and applicable standards. (Cross-listed with CSCI 4620).
Prerequisite(s)/Corequisite(s): ISQA 3300 or CSCI 3320.

CSCI 8666 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, MATH 4660, MATH 8666).
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/ CSCI 8325.

CSCI 8690 ADVANCED TOPICS IN PARALLEL AND DISTRIBUTED COMPUTING (3 credits)
This course offers advanced study of parallel computing at the graduate level. It covers several parallel programming paradigms such as: shared-memory programming, distributed-memory programming, object oriented programming, data parallel programming, functional dataflow programming. The course also covers other advanced topics such as: scheduling parallel programs, parallel troops, parallelizing sequential programs, parallel programming support environments, and design and analysis of parallel algorithms. The course gives the students the opportunity to re-think programming from an entirely fresh perspective.
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506 or equivalent. Not open to non-degree graduate students.
CSCI 8700 SOFTWARE SPECIFICATIONS AND DESIGN (3 credits)
A continuation of the study of software engineering with an emphasis on early phases of software development, namely requirements engineering/specification and design. Fundamentals of quality software design. In-depth study of various software requirements specification and design techniques. Related topics such as metrics and CASE tools.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836. Not open to non-degree graduate students.

CSCI 8706 COMPILER CONSTRUCTION (3 credits)
Assemblers, interpreters and compilers. Compilation of simple expressions and statements. Analysis of regular expressions. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation and error diagnostics. (Cross-listed with CSCI 4700).
Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 4220. CSCI 4500 is recommended.

CSCI 8710 MODERN SOFTWARE DEVELOPMENT METHODOLOGIES (3 credits)
Designed to introduce students to advanced object technology and other modern methodologies for developing software systems. Intended for graduate students who have mastered the basic concepts and issues of software engineering. Course covers advanced object-oriented software development. The course also covers several offshoots of object technology, including: component-based software engineering, aspect-oriented software development, software product line engineering, service-oriented computing, etc.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836.

CSCI 8760 FORMAL METHODS IN SOFTWARE ENGINEERING (3 credits)
In the high consequence system domain, a primary objective of any construction technique employed is to provide sufficiently convincing evidence that the system, if put into operation, will not experience a high consequence failure or that the likelihood of such a failure falls within acceptable probabilistically defined limits. Systems for which such evidence can be provided are called high assurance systems. The objective of this course is to examine software-engineering techniques across the development life cycle that are appropriate for high assurance systems. The course will analyze the nature of the evidence provided by various techniques (e.g., does a given technique provide sufficiently strong evidence in a given setting).
Prerequisite(s)/Corequisite(s): CSCI 8000 and CSCI 8836 or CSCI 4830

CSCI 8766 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with CSCI 4760, MATH 4760, MATH 8766).
Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

CSCI 8790 ADVANCED TOPICS IN SOFTWARE ENGINEERING (3 credits)
An in-depth study of one or more topics in the field of software engineering such as human factors in software engineering, software specifications and modeling, reuse and design recovery, software valuations, software management, emerging technology and applications.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836. Not open to non-degree graduate students.

CSCI 8836 INTRODUCTION SOFTWARE ENGINEERING (3 credits)
Basic concepts and major issues of software engineering, current tools and techniques providing a basis for analyzing, designing, developing, maintaining and evaluating the system. Technical, administrative and operating issues. Privacy, security and legal issues. (Cross-listed with CSCI 4830).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325.

CSCI 8850 ADVANCED AUTOMATA AND FORMAL LANGUAGES (3 credits)
A continuation of MATH 4660/MATH 8666/CSCI 4660/CSCI 8666. The course will be an introduction to Computational Complexity. Topics that will be covered include space and time complexities of Turing Machines, deterministic versus non-deterministic machines, NP-Complete problems, alternating Turing machines, and concepts of reducibility. (Cross-listed with MATH 8850).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CSCI 8856 DATABASE MANAGEMENT SYSTEMS (3 credits)
Basic concepts of data base management systems (DBMS). The relational, hierarchical and network models and DBMSs which use them. Introduction to data base design. (Cross-listed with CSCI 4850).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325.

CSCI 8876 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)
The course provides students basic knowledge on database aspects related to bioinformatics. In order to make this course self-contained, it starts with a brief introduction on key concepts in computational molecular biology, as well as a review of database management systems, artificial intelligence and related aspects in computer science. The major part of this course will cover various issues related to biostatistics and pattern discovery. (Cross-listed with BION 4870)
Prerequisite(s)/Corequisite(s): CSCI 3320. Not open to non-degree graduate students.

CSCI 8910 MASTER OF SCIENCE CAPSTONE (3 credits)
The capstone course is to integrate coursework, knowledge, skills and experimental learning to enable the student to demonstrate a broad mastery of knowledge, skills, and techniques across the Master degree curriculum of Computer Science for a promise of initial employability and further career advancement. The course is designed to be in a student-centered and student-directed manner which requires the command, analysis and synthesis of knowledge and skills. Students may apply their knowledge and skill to a project which serves as an instrument of evaluation. Students are encouraged to foster an interdisciplinary research and cultivate industry alliances and cooperation in this course. This capstone course should be taken only after students have completed at least 3/4 of course requirements for the major.
Prerequisite(s)/Corequisite(s): Master's degree of Computer Science with course-only option (program III). Not open to nondegree students.

CSCI 8915 DATA STRUCTURES AND ALGORITHMS (3 credits)
The purpose of this course is to introduce the student to several basic and advanced data structures and their use in modeling and solving practical problems. The course also introduces basic techniques in algorithm design such as recursion, divide and conquer, and greedy techniques. Searching, sorting graph algorithms and the main concept of complexity theory are presented.
Prerequisite(s)/Corequisite(s): CSCI 1910 or knowledge of C++ and a baccalaureate degree and approval of the computer science graduate program committee. Not open to non-degree graduate students.

CSCI 8920 ADVANCED TOPICS COMPUTER SCIENCE (3 credits)
An in-depth study, at the graduate level, of one or more topics that are not treated in other courses. May be repeated with different topics with permission of adviser.
Prerequisite(s)/Corequisite(s): Permission of instructor; will vary with offering. Not open to non-degree graduate students.
CSCI 8950 GRADUATE INTERNSHIP IN COMPUTER SCIENCE (1-3 credits)
The purpose of this course is to provide students with opportunities to apply their academic skills in environments such as those found in business, industry, and other non-academic organizations. The student intern will sharpen their academic focus and develop better understanding of non-academic application areas.
Prerequisite(s)/Corequisite(s): Permission of the graduate program chairperson and a minimum grade point average of 3.0 (B), with at most one grade below B, but not lower than C+ for all CS graduate classes. Not open to non-degree graduate students.

CSCI 8960 THESIS EQUIVALENT PROJECT IN COMPUTER SCIENCE (1-6 credits)
This course allows a graduate student to conduct a research project in computer science or a related area. The project is expected to place an emphasis on applied, implementations-based, or experimental research. The process for development and approval of the project must include: appointment of supervisory committee (chaired by project adviser), a proposal approved by the supervisory committee, monitoring of the project by the supervisory committee, an oral examination over the completed written product conducted by the supervisory committee, & final approval by the supervisory committee. The approved written project will be submitted to the Office of Graduate Studies by the advertised deadlines.
Prerequisite(s)/Corequisite(s): Permission of Graduate Adviser. Not open to non-degree graduate students.

CSCI 8970 INDEPENDENT STUDY (1-3 credits)
Under this number a graduate student may pursue studies in an area that is not normally available in a formal course. The topics to be studied will be in a graduate area of computer science to be determined by the instructor.
Prerequisite(s)/Corequisite(s): Permission of the Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8980 GRADUATE SEMINAR (1-3 credits)
This course offers an up-to-date coverage of the contemporary and emerging concepts, models, techniques and methodologies, and/or the current research results in the fundamental areas of computer science. Topics to be covered by the course will vary in different semesters.
Prerequisite(s)/Corequisite(s): Permission of the Instructor. Not open to non-degree graduate students.

CSCI 8986 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the senior/graduate level. Topics not normally covered in the computer science degree program, but suitable for senior/graduate-level students. (Cross-listed with CSCI 4980).
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

CSCI 8990 THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student’s thesis advisory committee. In this project the student will develop and perfect a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation.
Prerequisite(s)/Corequisite(s): Permission of Graduate Adviser. Not open to non-degree graduate students.

CSCI 9210 TYPE SYSTEMS BEHIND PROGRAMMING LANGUAGES (3 credits)
Empirical evidence suggests that a large number of errors made when writing software can be detected by analyzing the behavior of the program from the perspective of type. This course provides an in-depth exploration of various type systems for programming languages.
Prerequisite(s)/Corequisite(s): CSCI 8000. Not open to non-degree graduate students.

CSCI 9220 REWRITING AND PROGRAM TRANSFORMATION (3 credits)
This course begins by exploring the foundations of term rewriting. Topics such as unification, confluence, completion and termination are covered. Then a strategic framework is considered in which the application of rewrite rules can be controlled.
Prerequisite(s)/Corequisite(s): CSCI 8000. Not open to non-degree graduate students.

CSCI 9340 COMPUTATIONAL INTELLIGENCE FOR DATA MANAGEMENT (3 credits)
The course provides students advanced knowledge on computational intelligence methods related to various aspects of data management. Rather than treating computational intelligence and database management systems separately, the course allows students to examine the integration of these two research disciplines. The emphasis is on how to apply computational intelligence methods to various data management problems.
Prerequisite(s)/Corequisite(s): CSCI 8456 and CSCI 8856 Not open to non-degree graduate students.

CSCI 9350 MATHEMATICAL AND LOGICAL FOUNDATIONS OF DATA MINING (3 credits)
With the maturity of data mining techniques, it is extremely important to examine the foundations of data mining. Instead of providing coverage of basic data mining methods, the course will focus on methodology employed in data mining, logical and mathematical foundations of data mining, as well as other issues related to the intrinsic nature of data mining.
Prerequisite(s)/Corequisite(s): CSCI 8456, CSCI 8856, and CSCI 8390. Not open to non-degree graduate students.

CSCI 9410 ADVANCED TOPICS IN LOGIC PROGRAMMING (3 credits)
This course will examine some advanced topics in logic programming, inductive logic programming, and their parallel and distributed implementation. Each advanced topic will be followed by how it has been applied in practice to software development research. Advanced applications such as program analysis and verification will be covered in detail.
Prerequisite(s)/Corequisite(s): CSCI 8000 and doctoral student standing in Information Technology or the permission of the instructor. Not open to non-degree graduate students.

CSCI 9420 INTELLIGENT AGENT SYSTEMS (3 credits)
This course covers the principles of interaction between agents in multi-agent systems using game theory. Relevant topics studied in this course include competitive games, statistical Bayesian games, cooperative games, and mechanism design. Students will have to implement projects related to the material studied in the course.
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and CSCI 4450 or CSCI 8456. Not open to non-degree graduate students.

CSCI 9710 FOUNDATIONS OF SOFTWARE ENGINEERING RESEARCH (3 credits)
This course provides guidelines on how to conduct research in the field of software engineering by presenting the research methods, classic readings, and development of theories and their application to real life problems. The main emphasis of the course is to provide opportunity for in-depth study of topics such as modern software engineering development methodologies and process.
Prerequisite(s)/Corequisite(s): CSCI 8836 or equivalent course and doctoral student standing in Information Technology or permission of the instructor. Not open to non-degree graduate students.
CSCI 9810 RESEARCH FOUNDATIONS IN THEORETICAL COMPUTING (3 credits)
This course offers an up-to-date coverage of the contemporary and emerging concepts, models, techniques, and methodologies, and/or the current research results in the fundamental areas of theoretic computing. The course will examine advanced research topics in computer science and engineering, including foundations of automata theory, computability, complexity analysis, computational logics and algorithmic analysis, hybrid dynamic systems theory, number theory, adaptation and learning theory, concepts and principles in computational geometry, stochastic processes, and random optimization. Each topic will be discussed with a perspective of research issues and directions. Active student participation in investigation of the research topics, survey of the current state-of-art, and identifying the future research insights is required. Students will take turn presenting their research results on specific topics. Topics to be covered by the course will vary in different semesters.

Prerequisite(s)/Corequisite(s): The prerequisites of this course vary depending on the areas to be covered in the semester the course is offered. Good standing in Ph.D. program is required. Permission of the instructor may be required. Not open to non-degree graduate students.

Computer Science, MS
Department of Computer Science, College of Information Science & Technology

Vision Statement
The vision of the department is to be recognized nationally and internationally for delivering outstanding computer science education and conducting research of high distinction, both of value and relevance to the communities we serve.

Program Contact Information
Dr. Azad Azadmanesh, Graduate Program Chair (GPC)
Peter Kiewit Institute (PKI) 282G

Iplanos@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-information-science-and-technology/computer-science/graduate)

Other Program-Related Information
The Department of Computer Science offers an Integrated Undergraduate-Graduate Program of 146-149 hours to include both the undergraduate BS in Computer Science and the MS in Computer Science degrees. It allows eligible students to work toward the master’s degree in computer science while completing their undergraduate degree. For further information about this program please contact 402-554-3819.

Graduate Assistantships
• Applications will be solicited before the Fall semester begins with the limited number of available assistantships. These positions are highly competitive and evaluated based on qualifications and computer science faculty research needs.

Advantage Scholarship for Non-Nebraska Residents
• Awarded to qualified students who are not residents of Nebraska.
• Tuition scholarships partially reduce the difference between resident and non-resident tuition
• Application submission deadlines:
  • Fall: April 15
  • Spring: November 15
• Must maintain a cumulative GPA of 3.20 or better for renewal of the scholarship
• If an application is submitted after a deadline, it will be added to the wait-list. If funds become available, the department will notify the applicant.

Admissions
Application Deadlines
• Fall: July 1
• Spring: November 1
• Summer: March 1

Program-Specific Requirements
• Minimum GPA of at least 3.0 in undergraduate courses related to proposed major.
• If English is not the language of nurture, the following minimum official test scores from the TOEFL, IELTS or PTE exam are required:
  • 550 for the written TOEFL
  • 213 for the computer-based TOEFL
  • 80 for the internet-based TOEFL
  • 6.5 on the IELTS
  • 53 PTE
• Minimum Graduate Record Examination (GRE) score 158 in Quantitative Reasoning and 146 in Verbal Reasoning. The submitted score must not be older than five years.
• GRE is waived if the student is a graduate of the University of Nebraska system with a degree in Computer Science and a GPA of 3.5; or the student has earned an MS or a higher advanced degree in a closely related discipline
• Two (2) letters of recommendation
• Professional resume

Undergraduate Deficiencies
The curriculum for the MS in Computer Science requires a basic knowledge of computer fundamentals including mathematics, programming, data structures, computer architecture and operating systems. Successful completion of these courses with a “B” or better (3.0 on a 4.0 scale) in each course is required to become an unconditionally admitted student.

Core Courses
The five courses listed below provide an overall breadth in the areas of languages, algorithms, architecture, operating systems, and software engineering. Refer to the UNO Graduate College quality of work standards for additional grade requirements.

Students selecting the Thesis/Project option or declaring a concentration area as part of their program are required to take three core courses; students selecting Coursework option with no area of concentration must
take all five core courses (note that some core courses are needed as prerequisites for certain areas of concentration).

#### Core Courses

Select three of the following:

- **CSCI 8000**: ADVANCED CONCEPTS IN PROGRAMMING LANGUAGES
- **CSCI/MATH 8080**: DESIGN AND ANALYSIS OF ALGORITHMS
- **CSCI 8150**: ADVANCED COMPUTER ARCHITECTURE
- **CSCI 8530**: ADVANCED OPERATING SYSTEMS
- **CSCI 8700**: SOFTWARE SPECIFICATIONS AND DESIGN

#### Electives

Select either three or five elective courses depending on whether a computer science area of concentration is declared.

### Concentrations

All areas of concentration require four (4) classes selected according to the requirements of each concentration. See Computer Science Concentrations.

#### Artificial Intelligence

Students must take any 3 of the 5 Core Courses listed under the Requirements tab (9 hours).

Quality of Work Standards

The Graduate College Quality of Work Standards shall be applied to foundation courses as well as courses taken as part of the degree program. In particular, the GPC will recommend to the Graduate College that any

1. Student receiving a grade of "C-" or below in any foundation course will be dismissed from the program or, in the case of unclassified or non-degree students, be automatically denied admission.

2. Student receiving a grade of "C" in any foundation course will be placed on probation or dismissed from the program.

3. At most two graduate courses ending in 6 (8xx6) will be counted toward the degree requirements. Graduate courses with an undergraduate component (listed under Undergraduate Deficiencies) are not eligible as elective courses.

4. Students must have a minimum grade point average (GPA) of 3.0 ("B"), with at most one grade below "B", but not lower than "C+", for all Computer Science graduate courses in order to register for CSCI 8950.

Artificial Intelligence Certificate

**Department of Computer Science, College of Information Science & Technology**

**Vision Statement**

The objective of the certificate in artificial intelligence is to expose students to the principles and technologies used to embody machines with human-like intelligent capabilities and to enable the machines to assist humans in performing complex and hazardous tasks. Students completing this certificate program have an opportunity to learn as well as perform hands-on experiments in different areas of artificial intelligence, including automated software systems such as software agents, multi-agent and multi-robot systems, machine vision and image processing technologies, neural network-based adaptive software systems, heuristics and stochastic optimization techniques for critical decision making and machine learning and knowledge engineering techniques that embed intelligence in computers and information systems.

**Program Contact Information**

Dr. Azad Azadmanesh, Graduate Program Chair (GPC)
Peter Kiewit Institute (PKI) 282G
Vision Statement

The Communication Network Certificate Program is a career program designed to meet the growing industry demand for qualified, highly trained individuals in the field of computer network systems. It is designed to give the working professional both a conceptual view and an in-depth understanding of the latest technologies. The program includes courses ranging from basic concepts such as Local Area Networks to advanced networking concepts such as mobile wireless communication systems and networks.

Communication Networks Certificate

Department of Computer Science, College of Information Science & Technology
SOFTWARE ENGINEERING CERTIFICATE

Vision Statement
Software engineering is defined as the systematic application of science, mathematics, technology and engineering principles to the analysis, development and maintenance of software systems, with the aim of transforming software development from an ad hoc craft to a repeatable, quantifiable and manageable process. The Certificate in Software Engineering will provide students with specific knowledge and skills required to analyze and develop complex software systems, exposing them to modern software engineering processes, methods, and tools, and equipping them for career advancement as software professionals.

SYSTEMS AND ARCHITECTURE CERTIFICATE

Vision Statement
This certificate provides students with knowledge in the underlying architecture of computers. Students may choose either the hardware track or the software track. In the hardware track, students gain more in-depth knowledge of the field. Students in this track will develop skills to perform system and component design, quality assurance, and testing.

In the software track, knowledge in the underlying architecture helps in generating and understanding optimized software. Students in this track will develop skills that will help them perform systems programming, language processing, and system administration.

Total Credits 12

Computer Science Education, MS

Department of Computer Science and Department of Teacher Education, College of Information Science and Technology and College of Education

Vision Statement

This degree program is intended for those with a passion for the teaching and learning of computational thinking, computer science, and information technology skills. By developing both content knowledge and pedagogical skills related to the computing disciplines, this program is ideal for educators looking to empower young people to become the creators of next generation technologies. In completing program coursework, certified Nebraska teachers will also meet requirements for the IT Supplemental Endorsement.

Program Website (http://www.unomaha.edu/college-of-information-science-and-technology/computer-science-education/graduate/ms-csed.php)

Other Program Related Information

Students who hold current Nebraska teaching certification are eligible for the IT Supplemental endorsement upon successfully completing the 15 hour "Core" courses.

Admissions

Application Deadlines

• Fall: July 1
• Spring: December 1
• Summer: April 1

Program-Specific Requirements

• UNO College of Education's "Personal and Professional Fitness Form"
• Copy of your current teacher certification (if applicable)
• Professional Resume or Curriculum Vitae
• Statement of Purpose addressing the following:
  • Describe your academic and professional journey. Discuss your background personal and professional experiences, and your current educational context. Be sure to explain your motivation for pursuing this program at this point in your career.
  • In order to advise you on initial coursework, please describe any prior formal or informal training you have completed in computing, computer science, and information technology. This includes, but is not limited to programming/coding, web design, systems administration, computing networking, databases, and computer applications.
  • Finally discuss your post-master's degree plans. How will the MS in Computer Science Education contribute to your future endeavors related to P-12 students, educators, administrators or other community stakeholders.

• International students who do not intend to teach in the U.S. may be eligible for admission.
  • 550 for the written TOEFL
  • 213 for the computer-based TOEFL
  • 80 for the internet-based TOEFL
  • 6.5 on the IELTS
  • 53 PTE

Select 3-6 hours of graduate coursework in consultation with your advisor

Exit Requirement 3-6
Thesis Option 1
TED 8990  THESIS 6

Project Option 2
Course in consultation with advisor as the course that has been identified has not yet been approved.

Capstone 3
Course in consultation with advisor as the course that has been identified has not yet been approved.

Total Credits 30
1 Thesis credits must be completed over two or more academic terms.
2 Project credits must be completed over two or more academic terms.
3 The Capstone course may only be taken upon completion of at least 21 credit hours in the program.

• Computer Science Education Certificate (p. 671)

CSTE 8040  OBJECT ORIENTED PROGRAMMING FOR TEACHERS (3 credits)
This course provides an in-depth treatment of the fundamentals of object-oriented programming (OOP) in Java programming language environment. Topics include data types and information representation, control structures, classes and objects, methods, encapsulation, inheritance and polymorphism, and use of introductory data structures to solve real-world problems. Additionally, this course interleaves coverage of OOP content with discussion of common learner misconceptions and teaching strategies/tools that can be employed to aid learners; mastery of this material. This course prepares students to implement the Advanced Placement Computer Science A curriculum in a secondary school setting.
Prerequisite(s)/Corequisite(s): CSTE 8020 or CSTE 8030.

CSTE 8970  CS ED INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently.
Prerequisite(s)/Corequisite(s): Permission of the department and graduate faculty member.

CSTE 8990  THESIS (1-6 credits)
This course is an independent research project completed under the direction of a thesis advisor and required of all candidates pursuing a Master of Science with Thesis option. Thesis credits must be completed over two or more academic terms.
Prerequisite(s)/Corequisite(s): Completion of Required Core Courses and approval of advisor. Not open to non-degree graduate students.

Computer Science Education Certificate

Computer Science Education Certificate
Department of Computer Science and Department of Teacher Education, College of Information Science and Technology and College of Education

Vision Statement
This graduate certificate is intended for educators seeking to extend their knowledge and skills in the teaching computational thinking, computer science, and information technology. In completing program coursework, certified Nebraska teachers will also meet requirements for the IT Supplemental Endorsement. Prior background in computer science is not required.

CSTE 8020  EXPLORING COMPUTER SCIENCE FOR TEACHERS (3 credits)
This course provides a breadth first introduction to computer science for pre-service and in-service teachers. The Exploring Computer Science curriculum (http://www.exploringcs.org) serves as a guiding framework for this course, which introduces domain knowledge and appropriate teaching techniques related to teaching human computer interaction, computational problem solving, web design, programming, data analysis, and robotics in school environments. In addition the course covers ethical and social issues in computing along with an overview of computing careers.

CSTE 8030  COMPUTER SCIENCE PRINCIPLES FOR TEACHERS (3 credits)
This course introduces pre-service and in-service teachers to the foundational principles of computer science. It aims to help them learn the essential thought processes used by computer scientists to solve problems, expressing those solutions as computer programs. It prepares them to teach the CS Principles course (http://www.apcsprinciples.org) proposed by the College Board and the National Science Foundation as a new AP course in Computer Science. The exercises and projects make use of mobile devices and other emerging platforms.
Prerequisite(s)/Corequisite(s): MATH 1310 (or equivalent)
Counseling

Program Website (http://www.unomaha.edu/college-of-information-science-and-technology/computer-science-education/graduate/csed-grad-cert.php)

Other Program-Related Information
Students who hold current Nebraska teaching certificates are eligible for the IT Supplemental endorsement upon completing all required courses except CSCI 8010. Those who seek to earn only the IT Supplemental endorsement upon completing all required courses should apply for this graduate certificate program.

All students must apply for completion of the Graduate Certificate through MavLINK. Please see the Academic Calendar for deadlines on applying.

Admissions

Application Deadlines
- Fall: July 1
- Spring: December 1
- Summer: April 1

Program Specific Requirements:
- International students who do not intend to teach in the U.S. may be eligible for admission.
- International students seeking admission to this program must have a minimum TOEFL score of 550 (paper), 213 (computer-based), 80 (internet-based), 6.5 IELTS, or 53 PTE.
- UNO College of Education’s "Personal and Professional Fitness Form"
- A copy of your current teacher certification (if applicable)

Statement of Purpose addressing the following:
- Describe your academic and professional journey. Discuss your background personal and professional experiences, and your current educational context. Be sure to explain your motivation for pursuing this program at this point in your career.
- In order to advise you on initial coursework, please describe any prior formal or informal training you have completed in computing, computer science, and information technology. This includes, but is not limited to, programming/coding, web design, systems administration, computing networking, databases, and computer applications.
- Finally discuss your post-Master’s degree plans. How will the MS in Computer Science Education contribute to your future endeavors related to P-12 students, educators, administrators or other community stakeholders?
- Professional Resume or Curriculum Vitae

Degree Programs Offered
- Counseling, MA (p. 676)
- Counseling, MS (p. 676)

COUN 8006 SPECIAL STUDIES IN COUNSELING (1-6 credits)
This course is designed to allow candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities are mutually agreed upon by the candidate and instructor. This course will prepare graduate (or undergraduate) candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with COUN 4000.)
Prerequisite(s)/Corequisite(s): Permission by the Department. Must be admitted to the Counseling Program. Not open to non-degree graduate students.

COUN 8010 INTRODUCTION TO COUNSELING (3 credits)
This is an exploratory course for students entering, or considering entering, the field of professional counseling. The focus is on: 1) the development of the profession of counseling, 2) your own professional and personal development as well as your understanding of what contributes to your development as an effective counselor, and 3) a general overview of specific requirements for successful completion of a master’s degree in Counseling at UNO.
Prerequisite(s)/Corequisite(s): Undergraduate Degree. This course is also open to non-degree seeking students (pace permitting).

COUN 8016 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)
This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 4010, SPED 4010, SPED 8016).

COUN 8020 INTRODUCTION TO COUNSELING (1 credit)
This is an exploratory course for students entering, or considering entering, the field of professional counseling. The focus is on 1) the development of the profession of counseling within the United States, 2) your own professional development as well as your understanding of what contributes to your development as an effective counselor, and 3) a general overview of specific requirements for successful completion of a master’s degree in Counseling at UNO.
Prerequisite(s)/Corequisite(s): This course is open to non-degree seeking students.

COUN 8030 COUNSELING PRACTICES (3 credits)
The major purpose of Counseling 8030 is to assist students in skill development as noted in Ivey’s Intentional Interviewing and Counseling Model. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism. Candidates will continue to develop counseling skills through additional coursework leading to practicum and internship experiences.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and the Counseling Department. Not open to non-degree graduate students.

COUN 8040 ETHICAL ISSUES FOR PROFESSIONAL COUNSELORS (3 credits)
This course examines the ethical, professional, and legal aspects of individual, couple and family counseling including liabilities incurred by the professional. The course addresses the appropriate ethical guidelines as stated by the American Counseling Association (ACA) code of ethics in a participatory format.
Prerequisite(s)/Corequisite(s): Graduate standing and admission into the Counseling program or related academic graduate programs.
COUN 8050 INTRODUCTION TO PROFESSIONAL SCHOOL COUNSELING (1 credit)
This is an exploratory course for candidates considering entering the field of professional school counseling. This introductory course is required for candidates majoring in counseling, with a concentration in school counseling. Selected issues underlying the school counseling profession are studied.
Prerequisite(s)/Corequisite(s): Permission of department. Not open to non-degree graduate students.

COUN 8100 RESEARCH PROJECT IN COUNSELING (1-3 credits)
Individual or group study and analysis of specific problems/issues in the field.
Prerequisite(s)/Corequisite(s): Admission to Counseling program and permission of instructor. Not open to non-degree students.

COUN 8110 HUMAN DEVELOPMENT AND PSYCHO-SOCIAL INTERVENTION STRATEGIES (3 credits)
This course is designed to examine theories of human development covering the lifespan of the individual and the psychosocial interventions appropriate to various phases of the lifespan. The course will emphasize human development as an interactive process involving individuals in a number of contexts; hence human diversity factors (racial ethnic groups, gender, sexual orientation) also will be considered.
Prerequisite(s)/Corequisite(s): Graduate status.

COUN 8150 STUDENT AND STUDENT PERSONNEL WORK IN HIGHER EDUCATION (3 credits)
An overview of the characteristics of college students and their interaction with campus environmental influences. The impact of student personnel work is considered as it affects personality growth, social development and career planning by college students.
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree graduate students.

COUN 8160 ALCOHOL & OTHER DRUG PREVENTION/EDUCATION IN SCHOOLS & COMMUNITIES (3 credits)
This course will focus on a team approach to address alcohol and other drug education, prevention, referral techniques and counseling strategies through the cooperation of school staff and community representatives who work with children from pre-school through 12th grade. Topics will include etiology of alcohol and other drug problems, current factual information concerning alcohol and other drugs, strategies for instruction, gaining parental and community support, developing youth leadership for prevention, intervention techniques for school youth, multicultural factors in prevention education, alternatives to drug use, referral and support resources, and the development of mini-networks for dissemination of information within the school and community. (Cross-listed with HED 8160).
Prerequisite(s)/Corequisite(s): Graduate. Not open to non-degree graduate students.

COUN 8190 RESEARCH PROJECT IN COUNSELING (1-3 credits)
Research study on a problem in the area of guidance and counseling.
Prerequisite(s)/Corequisite(s): Admission to Counseling program and permission of instructor. Not open to non-degree graduate students.

COUN 8200 COUNSELING THEORIES (3 credits)
This course is designed to examine counseling theories and the historical and geographic influence on counseling theory development.
Prerequisite(s)/Corequisite(s): Admission to counseling program or permission of department. Not open to non-degree graduate students.

COUN 8210 ORGANIZATION & ADMINISTRATION OF SCHOOL COUNSELING PROGRAMS (3 credits)
The course introduces graduate candidates to an administrative systems approach to organizing comprehensive and developmental school counseling programs for all K-12 students. The American School Counselor Association’s (ASCA) National Model for School Counseling Programs provides the foundation for content. Topics include, but are not limited to, school counseling programs: Foundation, Delivery System, Management System, and Accountability domains. Special focus is also placed on developing educational leadership skills, advocacy for K-12 students, and bringing about positive systemic change. Teaching counselor candidates to effectively manage school counseling programs is an important part of our effort to prepare individuals to become professionals who are ready for positions as educational leaders.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and/or the Counseling Department. Not open to non-degree graduate students.

COUN 8220 COUNSELING PRACTICUM (3 credits)
This course is the first of the clinical applications of counseling knowledge, techniques, and specialty areas in community settings. Candidates practice, develop and improve counseling skills in an environment of professional constructive criticism.
Prerequisite(s)/Corequisite(s): COUN 8040, COUN 8920, COUN 8610, a grade of B or higher in COUN 8030. Students must also complete the block of techniques courses (COUN 8306, COUN 8316, COUN 8406) or COUN 8280 Crisis Intervention Techniques. Not open to non-degree graduate students.

COUN 8226 CAREER DEVELOPMENT AND LIFESTYLE (3 credits)
This course will serve as an introduction to the topics of career counseling and career development.
Prerequisite(s)/Corequisite(s): Graduate standing; open to non-degree seeking students.

COUN 8230 APPRAISAL TECHNIQUES IN COUN (3 credits)
Appraisal Techniques in Counseling includes the history of individual appraisal, the major technical considerations governing assessments, and a survey of measurement devices in the cognitive and affective domains. The course will include uses and implications of standardized and non-standardized assessment devices. Additionally, this course will cover the responsible use and interpretation of ability, aptitude, interest, personality, and career development assessment tools. Whenever it is applicable, a strengths-based, positive psychology approach will be integrated and utilized throughout this course.
Prerequisite(s)/Corequisite(s): Counseling Major and TED 8010. Not open to non-degree students.

COUN 8250 INTERNSHIP: CLINICAL MENTAL HEALTH COUNSELING (3 credits)
This course is the first of the clinical applications of knowledge, techniques, and specialty areas in community settings. Students practice, develop and improve counseling skills in an environment of professional constructive criticism. This course is required for all graduate students in counseling who meet the prerequisites.
Prerequisite(s)/Corequisite(s): COUN 8040, COUN 8230, COUN 8270, COUN 8406, COUN 8610, a grade of B or higher in COUN 8030. Not open to non-degree graduate students.

COUN 8260 ADVANCED INTERNSHIP: CLINICAL MENTAL HEALTH COUNSELING (3 credits)
Field experience in an approved agency program under the supervision of a licensed counselor and university instructor.
Prerequisite(s)/Corequisite(s): Successful completion of COUN 8250. Not open to non-degree graduate students.
COUN 8270 GROUP TECHNIQUES (1 credit)
This course is intended to prepare students to effectively incorporate group principles appropriate to various counseling settings including schools, treatment centers, and agencies. This class includes a group experience.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Counseling or permission of instructor. Not open to non-degree graduate students.

COUN 8280 CRISIS INTERVENTION STRATEGIES AND TECHNIQUES (3 credits)
This course will present approaches to crisis intervention which include definitions and characteristics of a crisis, a brief history of crisis intervention and associated theories/models and a practice of skills for intervention and crisis case management. Topics will include applied therapeutic counseling strategies in general casework and in crisis intervention cases, in particular, which describe actual techniques to alleviate the crisis.
Prerequisite(s)/Corequisite(s): Graduate status and admitted to program. Not open to non-degree graduate students.

COUN 8306 COUNSELING TECHNIQUES I (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Adlerian counseling (specified in this syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4300).
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree students; must take prior to practicum.

COUN 8316 COUNSELING TECHNIQUES II (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Rational Emotive Behavior Therapy (REBT) (specified in the syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4310).
Prerequisite(s)/Corequisite(s): Admission to Counseling program; must take prior to practicum. Not open to non-degree students.

COUN 8330 PRACTICUM FOR SCHOOL COUNSELORS (3 credits)
This course is the first of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of 20 hours in the Counseling Program, Grade of B in COUN 8030 and COUN 8040. Not open to non-degree graduate students.

COUN 8350 ADVANCED ELEMENTARY SCHOOL COUNSELING PRACTICUM (1-6 credits)
Advanced clinical experience in counseling in the elementary school setting under the supervision of a school site supervisor and a counseling professor from the Counseling Department.
Prerequisite(s)/Corequisite(s): Counseling Major and COUN 8330. Not open to non-degree students.

COUN 8360 GROUP THEORY & TECHNIQUES (3 credits)
This course is intended to prepare students to effectively incorporate group principles appropriate to various counseling settings including schools, treatment centers, and agencies. This class includes a group experience.
Prerequisite(s)/Corequisite(s): Undergraduate Degree. Successful admission into the Counseling Graduate Program and Consent of the Instructor. Not open to non-degree graduate students.

COUN 8370 GROUP COUNSELING: THEORY AND PRACTICE (2 credits)
A course designed primarily for counselors with a combination of theory and experiences necessary to the understanding of effective leadership skills involved in the group counseling process.
Prerequisite(s)/Corequisite(s): Counseling Major and COUN 8030 and COUN 8200. Not open to non-degree graduate students.

COUN 8400 ADVANCED THEORY AND TECHNIQUES IN COUNSELING (3 credits)
This course introduces students to the basic knowledge and skills necessary to understand and apply counseling techniques related to differential approaches to treatment. Topics may include Solution-Focused, Adlerian, Cognitive-Behavioral (CBT), Dialectical Behavioral (DBT), Motivational Interviewing, and other techniques as deemed to be relevant/appropriate.
Prerequisite(s)/Corequisite(s): Graduate Level - Admission to Counseling program. Not open to non-degree students; must take prior to practicum.

COUN 8406 COUNSELING TECHNIQUES III (1 credit)
This course will assist candidates in developing more systematic integration of previously learned information and skills and the application to specific counseling situations related to various approaches. Topics may include Solution-Focused Counseling - SFC (specified in the syllabus), Dialectical Behavioral Therapy, anger management, art therapy, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4400)
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree students.

COUN 8430 INTERNSHIP IN SCHOOL COUNSELING (3 credits)
This course is the second of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of COUN 8330. Not open to non-degree graduate students.

COUN 8450 COLLEGE STUDENT PERSONNEL INTERNSHIP (1-6 credits)
This course is designed to provide practical work experience under supervision in various areas within student personnel services.
Prerequisite(s)/Corequisite(s): Admission to counseling program and permission of instructor. Not open to non-degree students.

COUN 8460 ADVANCED INTERNSHIP IN SCHOOL COUNSELING (3 credits)
This course is the third of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of COUN 8330 and COUN 8430. Not open to non-degree graduate students.
COUN 8500  CONSULTATION IN PROFESSIONAL COUNSELING (2 credits)
This course is founded upon commitment to the beliefs that individuals are valuable, responsible, and capable, and that all human service professionals should work to create the conditions in which people value themselves as human beings and behave accordingly. As reflective decision-makors, such professionals value human potential and purposefully design policies, processes, and programs that facilitate the realization of that potential. The counselor learns that consultation and collaboration are first and foremost helping relationships that have as their foundation the dignity and respect of individuals/groups involved. Consultation and collaboration are characterized as problem-solving processes that involve a variety of key decision points. A generic model is provided for students as a “cognitive map” upon which they can reflect when attempting to determine effective practice.
Prerequisite(s)/Corequisite(s): Admission to the Counseling Program. Not open to non-degree graduate students

COUN 8516  TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, SOWK 4510, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.

COUN 8520  COUNSELING MULTICULTURAL AND DIVERSE POPULATIONS (3 credits)
This course will make candidates more aware of the societal context in which counseling takes place and to help prepare candidates for work with persons who are members of populations which require special knowledge and skills of the counselor. Certain special populations will be considered in comparative detail as well as a general information which will emphasize acquiring broader understandings transferable to counseling with any special population.
Prerequisite(s)/Corequisite(s): COUN 8030 Counseling Practices. Not open to non-degree graduate students.

COUN 8600  PARENT-STAFF DEVELOPMENT & CONSULTATION (3 credits)
The study of information, research, consultation and programs for the development of effective parenting skills and effective school staff interaction skills.
Prerequisite(s)/Corequisite(s): This course is intended for Graduate candidates in counseling or other areas of education. Not open to non-degree students.

COUN 8610  INTRODUCTION TO MARITAL AND FAMILY THERAPY (3 credits)
This course is the first of the clinical mental health applications to provide the prospective mental health counselor with instruction in marital and family therapy. Students will continue to develop counseling skills and will become immersed in the work of a professional counselor. Students practice, develop and improve marital and family counseling skills in an environment of professional and constructive peer feedback.
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Course prerequisites include good standing as a graduate student. Not open to non-degree graduate students.

COUN 8620  SURVEY OF ISSUES IN SCHOOL COUNSELING (2 credits)
This course is designed to provide school counselors with information on topics that are current and relevant to secondary school settings. It will allow candidates and practicing counselors the opportunity to study and evaluate what activities school counselors are currently engaged in and consideration of strategies to deal with students and families.
Prerequisite(s)/Corequisite(s): Admission to counseling program. Not open to non-degree graduate students.

COUN 8630  FOUNDATIONS AND ISSUES IN SECONDARY COUNSELING (3 credits)
This course is designed to introduce the history, current ASCA (American School Counselor Association) model, and the role of a professional school counselor; and to provide information on and practice with topics that are current and relevant to secondary school settings.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and/or the Counseling Department. Not open to non-degree graduate students.

COUN 8650  ISSUES IN ELEMENTARY AND MIDDLE SCHOOL COUNSELING (3 credits)
This course is intended to prepare students to effectively implement an elementary and/or middle school counseling program. Candidates will develop awareness and skill sets through an overview of the unique issues, approaches, systems and practice of elementary and middle school counseling.
Prerequisite(s)/Corequisite(s): Admission to graduate study in counseling, COUN 8050 or permission. Not open to non-degree graduate students.

COUN 8656  TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with SPED 4650 and SPED 8656)
Prerequisite(s)/Corequisite(s): EDUC 2510 or SPED 1500.

COUN 8670  CAREER DEVELOPMENT AND POST-SECONDARY TRANSITIONS (3 credits)
This course is an introduction to career counseling and career development, post-secondary planning, and crisis intervention. This course is required for all graduate students who are seeking a master’s degree in counseling with a concentration in school counseling.
Prerequisite(s)/Corequisite(s): Graduate status, COUN 8200, COUN 8210, COUN 8030 (corequisite), COUN 8040

COUN 8686  MEDICAL AND PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 4680, SOWK 8686, COUN 4680).
Prerequisite(s)/Corequisite(s): Admission to the MSW program or permission of the School. Open to those admitted to the Counseling program or by permission.

COUN 8696  ASSESSMENT AND CASE MANAGEMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, SOWK 4690, SOWK 8696).
Prerequisite(s)/Corequisite(s): Admission to the Counseling program or by permission.
COUN 8700 CHILD AND ADOLESCENT COUNSELING (3 credits)
This course is an introduction to counseling children and adolescents and will examine the theories, techniques, professional settings, cultural, and ethical/legal issues associated with counseling children and adolescents in a diverse society. Although diagnosis of mental disorders will be discussed, the course is designed to build competencies in counseling children and adolescents, with specific attention to social, developmental, and behavioral issues across professional settings.
Prerequisite(s)/Corequisite(s): COUN 8006 or COUN 8630; and COUN 8030, COUN 8200, COUN 8110, and COUN 8040. Not open to non-degree graduate students.

COUN 8720 INDIVIDUAL COUNSELING WITH CHILDREN AND CONSULTATION (3 credits)
The study of individual counseling with children and consultation with parents and professionals.
Prerequisite(s)/Corequisite(s): Counseling Major and COUN 8030 and COUN 8404 and COUN 8200 and COUN 8306 and COUN 8316 and COUN 8406. Not open to non-degree graduate students.

COUN 8730 ORGANIZATION AND ADMINISTRATION OF ELEMENTARY COUNSELING PROGRAMS (3 credits)
The study of organization and administration of elementary guidance and counseling programs.
Prerequisite(s)/Corequisite(s): Open to graduate level candidates. Not open to non-degree students.

COUN 8740 SCHOOL COUNSELING GROUPS (3 credits)
This course is designed to provide the school counselor candidate with a focused study of small group counseling and enrichment programs in schools.
Prerequisite(s)/Corequisite(s): Admission to graduate study in counseling, COUN 8030 or permission. Not open to non-degree graduate students.

COUN 8750 SCHOOL COUNSELING GROUPS & ENRICHMENT PROGRAMS (2 credits)
This course is intended to prepare students to effectively incorporate small group design, implementation, and assessment as part of a school counseling program. Candidates will develop small group counseling skills and strategies for enrichment program development and delivery.
Prerequisite(s)/Corequisite(s): Counseling Major. COUN 8030 and COUN 8270 and COUN 8406 or permission. Not open to non-degree graduate students.

COUN 8756 MID-LIFE, CAREER CHANGE, PRERETIREMENT PLANNING (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implication of preretirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with GERO 4750 and GERO 8756)
Prerequisite(s)/Corequisite(s): Junior Standing, permission of instructor. Not open to non-degree graduate students.

COUN 8800 CLINICAL MENTAL HEALTH COUNSELING (3 credits)
This course is an introduction to the specialization of clinical mental health counseling. The course content examines the historical, philosophical, educational, ethical, and psychological concepts and foundations of clinical mental health counseling. Additionally, the course will explore key public and private professional settings and programs within the clinical mental health paradigm, professional advocacy and leadership, and the personal and professional skills and traits expected of professional counselors.
Prerequisite(s)/Corequisite(s): COUN 8006, COUN 8300, COUN 8200, and COUN 8040. Not open to non-degree graduate students.

COUN 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles practices underlying how schools can better prepare students for the workplaces of the future. The emphasis will be on the integration of career education within broader academic preparation. Roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined.

COUN 8920 TREATMENT PLANNING AND THE DSM (3 credits)
This course is designed to orient students to the stages of treatment planning and use of the DSM-5 as a part of the treatment process in mental health settings. The course will examine the stages of treatment planning and offer opportunities to integrate counseling theories into practice. Factors such as psychopathology/pharmacology, ethics, and human diversity will be considered.
Prerequisite(s)/Corequisite(s): Course prerequisites include good standing as a graduate student, completion of COUN 8200 and completion or concurrent enrollment in PSYC 8446. Not open to non-degree graduate students.

COUN 8986 COUNSELING SKILLS IN GERONTOLOGY (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with GERO 4980, GERO 8986).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

COUN 8990 THESIS (1-6 credits)
To develop the candidate's ability to carry out accepted procedures associated with the research process.
Prerequisite(s)/Corequisite(s): Permission of instructor committee chairperson. Not open to non-degree graduate students.

COUN 9200 INDEPENDENT STUDY IN COUNSELING THEORIES AND TECHNIQUES (1-3 credits)
Guided study of counseling theory and techniques under supervision of faculty member.
Prerequisite(s)/Corequisite(s): Counseling Major, TED 8010 and permission of instructor. Not open to non-degree graduate students.

Counseling, MA

Department of Counseling, College of Education

Vision Statement
The vision of the UNO Counseling Department is to prepare a diverse student population at the master’s degree level for professional service as school counselors, clinical mental health counselors, student affair professionals, and advance study. Graduates of the program are eligible for professional licensure and certification in the school and mental health areas and are well prepared to function professionally within their area(s) of concentration. As dedicated practitioners, reflective scholars, and responsible citizens, our graduates are prepared to fill the need for licensed/certified clinical mental health counselors, school counselors, and student affairs professionals across the Omaha metropolitan region, Nebraska, and the nation.

Other Program Related Information
- Earning a graduate degree in clinical mental health counseling or school counseling satisfies only the academic requirements for licensure.
admitted and permitted to continue programs in counseling on the basis of their potential for successful training and professional practice. Candidates are evaluated on an ongoing basis while enrolled with respect to their suitability for continuation in the program prior to taking the Counseling Practicum or Internship courses. Specific course and grade requirements to take Practicum courses are available in the Counseling Department office.

• The P-12 School Counseling and Clinical Mental Health Counseling concentrations are accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP; 2009), the national accrediting agency for Counselor Education programs.

Admissions
Application Deadlines
• Fall: March 1
• Spring: October 1
• Summer: March 1

Program-Specific Requirements
• Program-Specific Requirements

• Bachelor's degree
• 9 credit hours of courses in behavioral sciences or closely related field for both areas of concentration in Clinical Mental Health Counseling and Student Affairs Practice in Higher Education applicants.
• Abnormal Psychology is a requirement for licensure as a mental health practitioner in Nebraska, but is not a required course within any Department of Counseling curriculum. However, Abnormal Psychology must be taken prior to COUN 8920. Abnormal Psychology may be taken at the undergraduate or graduate level but graduate level is recommended.
• Graduate Record Exam (GRE) or Miller Analogy Test (MAT)
  • May be waived if an advanced degree has been completed
• Three (3) Letters of Recommendation
  • Letters should be from persons who can speak to the applicants professional competence and/or academic ability.
• Statement of Purpose: 2-3 pages in length addressing the following information:
  • Reason(s) for pursuing the counseling profession,
  • Relevant experience,
  • Personal career goals,
  • Reason(s) for choosing UNO’s Counseling program.
• Resume or curriculum vitae
• A minimum of 9 hours of behavioral sciences or human services related course is required. Students without these courses may be provisionally admitted with the expectation that these 9 hours will be completed within the first year of their program of study. Questions regarding the appropriateness of courses for this requirement should be submitted to Dr. Kissinger via email (dkissinger@unomaha.edu). A response will be provided following a faculty review of the selected course(s).
• Group admissions interview (required for admission).

Ethical Conduct: It should be understood that academic performance is not the only criterion for continuation in the program or for graduation. Candidates are expected to maintain the highest standards of ethical conduct pertaining to academic course work, professional practice and research activity. Any breach in ethical conduct shall be subject to disciplinary action, regardless of the candidate’s prior or current academic performance. See the “American Counseling Association Code of Ethics” for specific guidelines.

Counseling, MS

Department of Counseling, College of Education

Vision Statement

The purpose of the Counseling Department is to prepare a diverse student population at the master’s degree level for professional service as school counselors, clinical mental health counselors, student affairs professionals, and/or for advanced study. Graduates of the program are prepared to function professionally within their area(s) of concentration.

As dedicated practitioners, reflective scholars, and responsible citizens, our graduates are prepared to fill the need for highly trained professionals. Graduates are trained to support the broad range of counseling needs of the metropolitan community including: individual, couples, family and group counseling.

Program Contact Information

Program Website (http://www.unomaha.edu/college-of-education/counseling)

Other Program Related Information

- Earning a graduate degree in clinical mental health counseling or school counseling satisfies only the academic requirements for licensure and/or certification in the state of Nebraska. Students should consult the appropriate state agency/department for guidance on gaining state licensure and/or certification.
- Students should be aware that licensure and/or certification requirements often vary by state. Students interested in gaining professional licensure and/or certification outside of Nebraska should consult their intended state’s licensing/certification office/department for appropriate guidelines and timelines.
- An alternative teaching endorsement is available for students who do not hold degrees in education. This endorsement eliminates the two-year teaching requirement and includes an additional 12 credit hours. Students choosing the alternative endorsement route will complete a 60 credit school counseling curriculum instead of the 48 credit school counseling curriculum.
- Successful completion of all courses and a comprehensive exam in the student’s respective concentration are requirements for graduation.
- Graduates are recommended only for positions consistent with the concentration they completed.
• Professional background checks are required for all students following admission to the program and again prior to beginning their practicum experience.
• Candidates are admitted and permitted to continue programs in counseling on the basis of their potential for successful training and professional practice. Candidates are evaluated on an ongoing basis while enrolled with respect to their suitability for continuation in the program prior to taking the Counseling Practicum or Internship courses. Specific course and grade requirements to take Practicum courses are available in the Counseling Department office.
• The P-12 School Counseling and Clinical Mental Health Counseling concentrations are accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP, 2009), the national accrediting agency for Counselor Education programs.

Certificates Offered

- Managing Juvenile and Adult Populations Certificate (p. 691)
- Nature of Crime (3 credits)
- Criminal Justice Research Theory and Methodology (3 credits)
- Seminar in Police and Society (3 credits)
- Seminar in Corrections (3 credits)
- Seminar in the Criminal Court System (3 credits)
- Seminar in Criminal Law and Procedure (3 credits)

Criminology and Criminal Justice

Degree Programs Offered

- Criminology and Criminal Justice, MA (p. 683)
- Criminology and Criminal Justice, MS (p. 684)
- Criminology and Criminal Justice, PhD (p. 687)
- Master of Social Work, MSW-Criminology and Criminal Justice, MS (MSW/CRCJ) (p. 689)
CRCJ 8080 SEMINAR IN JUVENILE JUSTICE (3 credits)
An inquiry in the social ramifications of the entire juvenile delinquency process including labeling, detention, incarceration and tolerance. Pre- and post-adjudicatory issues are dealt with as well as a realistic perspective given to delinquency prevention strategies.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 8090 SEMINAR IN THEORETICAL CRIMINOLOGY (3 credits)
A study of the etiology of crime as a social phenomenon and an objective analysis of the historical influences and thought which molded its development into an accepted contemporary science.
Prerequisite(s)/Corequisite(s): Admission to graduate program in criminology and criminal justice; or admission to UNO graduate program and instructor permission.

CRCJ 8100 CRIMINAL JUSTICE ORGANIZATION, ADMINISTRATION AND MANAGEMENT (3 credits)
This course will deal with issues in the organization and administration of modern justice agencies. The students will be exposed to theories, concepts, and issues relating to the administration and organization of justice agencies.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in Criminology and Criminal Justice; or admission to UNO graduate program and permission of instructor.

CRCJ 8130 SEMINAR IN WOMEN AND CRIMINAL JUSTICE (3 credits)
This course focuses on the experiences of women in the criminal justice system. It will cover the history of criminological theory on women, application of mainstream criminological theory to women, and women as offenders, victims, and professionals in the criminal justice system.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8136 SOCIOLOGY OF DEVIANT BEHAVIOR (3 credits)
This course is designed to provide supervised individualized learning experiences in a selected criminal justice agency. The principal objective of the internship is to provide students with the opportunity to apply theoretical and methodological principles acquired in graduate courses to the analysis of problems in local criminal justice agencies.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8180 CRIMINAL JUSTICE INTERNSHIP (3 credits)
This course is designed to provide supervised individualized learning experiences in a selected criminal justice agency. The principal objective of the internship is to provide students with the opportunity to apply theoretical and methodological principles acquired in graduate courses to the analysis of problems in local criminal justice agencies.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; successful completion of 15 hours of graduate work, and permission of instructor. Not open to non-degree graduate students.

CRCJ 8190 INDEPENDENT STUDY (1-3 credits)
Individual projects in research, literature review or creative production which may or may not be an extension of course work. The work will be supervised and evaluated by departmental graduate faculty members.
Prerequisite(s)/Corequisite(s): Admission to graduate program at UNO, and permission of instructor.

CRCJ 8210 PROGRAM EVALUATION AND POLICY ANALYSIS (3 credits)
This course is a survey of program evaluation and policy analysis techniques. The focus is on theoretical foundations of the Criminal Justice policy program, process development and implementation, research designs specific to program evaluation and policy research, and methodological techniques commonly used to evaluate criminal justice programs and policies
Prerequisite(s)/Corequisite(s): Admission to doctoral program in Criminology and Criminal Justice; or admission to graduate program at UNO and CRCJ 8030; or instructor permission.

CRCJ 8230 TERRORISM (3 credits)
A course devoted to an exploration and analysis of contemporary special problems in the broad spectrum of law enforcement and corrections.

CRCJ 8356 COMMUNITY-BASED CORRECTIONS (3 credits)
This course is intended for advanced students with a special interest in the correctional process as applied in a community setting. It is designed to focus on innovative community-based strategies for dealing with the offender as well as the traditional processes of probation and parole. (Cross-listed with CRCJ 4350).
Prerequisite(s)/Corequisite(s): Admission to Criminal Justice and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8516 VIOLENCE (3 credits)
This course is a survey of the nature and extent of violence. The focus is on patterns of violence across social groups, the causes and correlates of violence and violent behavior, and programs/policies geared toward violence prevention and reduction. Also of interest is the relationship between theory and violence research. (Cross-listed with CRCJ 4510).
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; or CRCJ 1010 and jr/sr standing.

CRCJ 8800 SPECIAL PROBLEMS IN CRIMINAL JUSTICE (3 credits)
A course devoted to an exploration and analysis of contemporary special problems in the broad spectrum of criminal justice philosophy. This course looks at philosophical issues related to social control. The purpose of this course is to foster a deeper understanding of the reasons, justifications, and problems related to societal approaches to the control of its citizens.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or UNO graduate student and permission of instructor.

CRCJ 8850 RISK/NEEDS ASSESSMENT INSTRUMENTS (3 credits)
This course is designed to provide students with advanced knowledge and understanding in the area of risk/needs assessment tools used in the juvenile and adult justice system.
Prerequisite(s)/Corequisite(s): Admission to graduate program in criminology and criminal justice; or, instructor permission.

CRCJ 8950 STATISTICAL APPLICATIONS IN CRIMINAL JUSTICE & PUBLIC ADMIN (3 credits)
This is a required course which provides a foundation for the use of statistical methods in criminal justice and public affairs research. It will review fundamentals of research, showing the interplay between the theory, the research, the statistical method, and the interpretation.
Prerequisite(s)/Corequisite(s): Admission to UNO Graduate college.

CRCJ 8970 CAPSTONE PROJECT IN CRIMINOLOGY AND CRIMINAL JUSTICE (3 credits)
The Capstone Project offers each student the opportunity to demonstrate mastery of the theory and practice of Criminal and Criminal Justice by applying the knowledge and skills gained in the Master of Science program to a project of the student’s choice. This involves completing a project report reflecting the cumulative knowledge gained from these experiences. This class is intended only for students who are completing their Master of Science degree in Criminology and Criminal Justice.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice MS program, and completion of a minimum of 24 credit hours; or permission of Masters Program Coordinator. Not open to non-degree graduate students.
CRCJ 9090  MASTERS THESIS (1-6 credits)
The thesis is required for all students in the MA program. It provides students with an opportunity to integrate theories, concepts, and aspects of the criminology and criminal justice literature with methods and techniques for conducting research, through the completion of an original research project. The thesis project should constitute original research and is conducted under the supervision of a Masters Thesis Committee.
Prerequisite(s)/Corequisite(s): Admission to the MA program in Criminology and Criminal Justice; and, CRCJ 8010, CRCJ 8020, CRCJ 8030, CRCJ 8950 and 6 other 8000+ CRCJ courses. Not open to non-degree graduate students.

CRCJ 9010  SEMINAR ON LAW & SOCIAL CONTROL (3 credits)
This is a required course which will examine the relationships between the state, the law, and the citizen in a democratic society. It will also examine the relationship between social control, law and social change.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or UNO graduate student and permission of instructor.

CRCJ 9020  SEMINAR ON THEORIES OF CRIME (3 credits)
This is a required course which emphasizes conceptual and theoretical issues in contemporary criminological theory. It also provides students with a working knowledge of theory construction.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice MA or PhD graduate programs; or admission to UNO graduate program and instructor permission.

CRCJ 9030  SEMINAR ON RACE, ETHNICITY, AND CRIMINAL JUSTICE (3 credits)
This is a required course which introduces students to current empirical research and theory on racial minorities and the criminal justice system. It focuses on racial minorities as victims of crime, as offenders, and as criminal justice professionals.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 9040  COMPARATIVE CRIMINOLOGY AND CRIMINAL JUSTICE SYSTEMS (3 credits)
This course provides a cross-national examination of the dynamics of criminality and the social response to crime. It also describes the extent and nature of crime in different countries.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or admission to UNO graduate program and instructor permission.

CRCJ 9050  ACADEMIC WRITING (3 credits)
This course is designed to familiarize students with academic and professional writing with the goal of promoting the development of formal writing and organizational skills. Students will learn how to construct and organize scholarly papers to better prepare them for the comprehensive examination, the doctoral dissertation, the development of scholarly journal articles and monographs, and the development of funded project proposals.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and permission of instructor.

CRCJ 9080  ADVANCED STATISTICAL APPLICATIONS (3 credits)
This is a required course which will provide the student with fundamentals of modern statistical techniques used in criminal justice and public affairs research. (Cross-listed with PA 9080.)
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and CRCJ 8950 or PA 8950 and instructor permission.

CRCJ 9090  SPECIAL PROBLEMS IN RESEARCH METHODS (3 credits)
This course will explore specialized topics in research methodology. The course assumes that participants have a firm understanding of the basic principles of research methods and statistics.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CRCJ 9100  SPECIAL PROBLEMS IN STATISTICAL ANALYSIS (3 credits)
This course will explore advanced techniques of statistical analysis within the field of criminal justice. It assumes that participants have taken courses in basic descriptive and inferential statistics and advanced multivariate analysis of variance and regression.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in Criminology and Criminal Justice and CRCJ 9080; or admission to UNO graduate program, CRCJ 9080, and permission of the instructor.

CRCJ 9130  ADVANCED RESEARCH ON POLICING (3 credits)
This course will explore critical research issues in American policing. The focus of the course may vary and cover topics such as police discretion, police use of force, labor unions in law enforcement, gender differences in policing, and police organization management.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and permission of the instructor.

CRCJ 9150  SPECIAL TOPICS IN CRIMINAL JUSTICE RESEARCH (3 credits)
This course will focus on specialized topics in criminology & criminal justice research. The purpose of the course is to provide students with an opportunity to read and critique current research on topics such as the history of the criminal justice system, civilian review of the police, sentencing, or the application of the death penalty.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CRCJ 9160  SEMINAR IN COMMUNITY-BASED CORRECTIONS (3 credits)
This course will deal with strategies of correctional reform and with models and practices of community-based corrections. Recent innovations in community-based corrections will be examined to demonstrate how they fit into an overall correctional strategy.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 9170  SEMINAR ON INSTITUTIONAL CORRECTIONS (3 credits)
This course will examine the role of correctional institutions in the criminal justice system. The student will be exposed to the historical, current, and projected role of these institutions.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 9180  SEMINAR ON THE CRIMINAL COURT SYSTEM (3 credits)
This course will focus on the structure, organization, and operation of the state and federal court systems in the United States. The purpose of the course is to survey recent research on the dynamics of courthouse justice—charging, plea bargaining, bail decision making, jury decision making, and sentencing.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or UNO graduate program and permission of instructor.

CRCJ 9200  SEMINAR ON VIOLENT CRIME AND CRIMINAL BEHAVIOR (3 credits)
This course exposes students to the leading theories and research in the area of violent criminal behavior. It addresses major violent crimes including rape, homicide, and child sexual physical abuse.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.
CRCJ 9220 ADVANCED CRIMINOLOGICAL THEORY AND THEORY CONSTRUCTION (3 credits)
This course is designed to extend students' knowledge of theory and theory construction beyond the basics of the elements and propositions of particular criminological theories. Students will have an opportunity to examine in depth topics such as theory construction, theory integration, theory compatibility and synthesis, and new directions in criminological theory.
Prerequisite(s)/Corequisite(s): CRCJ 8090 or CRCJ 9020 and admission to graduate program in Criminology and Criminal Justice; or permission of instructor.

CRCJ 9250 SEMINAR ON VICTIMIZATION ACROSS THE LIFE-COURSE (3 credits)
The Seminar on Victimization across the Life-course provides graduate students a survey of the primary topics regarding the predictors and consequences of victimization at various points in life. This an elective course for graduate students in Criminology and Criminal Justice. By the end of the course, students will understand major theories, research methods, and seminal research studies in the victimology field. Furthermore, students will learn how to critically analyze and interpret primary research regarding victimization.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program. Not open to non-degree graduate students.

CRCJ 9700 TEACHING CRIMINAL JUSTICE AT THE COLLEGE/UNIVERSITY LEVEL (3 credits)
This seminar is a required course for doctoral students in criminal justice. The purpose of the course is to provide students with the knowledge and skills that will enable them to become informed, effective, and stimulating teachers. A variety of pedagogical issues will be covered during the course of the semester; theories of learning and student motivation; constructing a course syllabus; designing effective writing assignments and in-class exercises; leading class discussions; testing and grading; and managing the classroom.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice PhD graduate program; or admission to Criminology and Criminal Justice MA or MS graduate program and instructor permission. Not open to nondegree students.

CRCJ 9800 ADVANCED RESEARCH DESIGN (3 credits)
This is a required course which will expose students to advanced topics in research methods in preparation for writing their doctoral dissertation. It will also apply advanced methodological techniques to problems in the field.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CRCJ 9980 DIRECTED READINGS IN CRIMINOLOGY & CRIMINAL JUSTICE (1-6 credits)
This course is designed to provide the advanced graduate student with the opportunity to do extended readings on a specialized criminology or criminal justice topic.
Prerequisite(s)/Corequisite(s): Admission to graduate program in criminology and criminal justice or UNO graduate program, and permission of instructor.

CRCJ 9990 DISSERTATION (1-20 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge on crime and criminal justice.
Prerequisite(s)/Corequisite(s): Completion of all coursework, completion of the comprehensive examination, and permission of Supervisory Committee Chair. Not open to non-degree graduate students.
• Student has a 3.00 GPA (average of “B”) overall in undergraduate work
• At least 12 credit hours of criminal justice courses or related courses that meet the requirements of the current School undergraduate curriculum, including a basic statistics course, a research methods course, an introductory criminal justice course, and a criminology course.
• Provisional Admission:
  • Student has not completed all of the undergraduate prerequisite course requirements for unconditional admission to graduate study
  • Student has no less than a 2.75 overall GPA for the last two years of undergraduate work and not less than a 2.75 GPA in the undergraduate major

**Optional Course**

Students can also take a diversity class from any field at the 8000 level or higher with adviser approval.

**Electives**

Select nine hours of CRCJ courses at the 8000 level or higher, with adviser approval:

- 9

CRCJ 8990   **MASTERS THESIS**   6

**Total Credits**  30

1 If CRCJ 8130 or CRCJ 9030 is taken, they will serve as a diversity class, so another class should be selected to fulfill the 9 credit hours of CRCJ electives.

**Exit Requirement**

- Thesis 6 hours CRCJ 8990

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval/submission of the thesis.

Other Program-Related Information

NOTE: The MS degree in Criminology & Criminal Justice can be obtained entirely online. All courses required for the MS degree will be offered online in a two-year rotation. Elective courses in Criminology are also offered in spring, summer and fall semesters.

### Admissions

**Application Deadlines**

Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

**Program-Specific Requirements**

- International Applicants:
  - International students seeking admission to the graduate program must meet UNO Graduate Studies requirements governing the admission of international students. In addition, all English as Second Language (ESL) students are required to submit scores from the IELTS, the PTE, or the internet-based TOEFL (the paper version of the TOEFL will NOT be accepted). Minimum required scores are as follows:
    - IELTS: 7.5 required; 8.0+ preferred
    - PTE: score of 76 or higher
    - Internet-based TOEFL: minimum of 21 in each of the 4 areas, and a minimum of 95 overall
  - All ESL students are required to take a proficiency assessment examination at UNO upon admission, which will be used to determine if further assistance is required

- Two (2) Letters of Recommendation
- Statement of Purpose
- One page discussing reasons for pursuing a graduate degree, interests in the field, and career goals for the future
- Unconditional Admission:
  - Possession of a bachelor’s degree from a regionally accredited institution
  - Student has at least a 3.00 GPA (average of “B”) overall in the undergraduate work
  - At least 12 credit hours of criminal justice courses or related courses that meet the requirements of the current School undergraduate curriculum, including a basic statistics course, research methods course, an introductory criminal justice course, and a criminology course.

- Provisional Admission:
  - Student must have a bachelor’s degree from a regionally accredited institution (if the institution is non-accredited, 12 credit hours of graduate course work at UNO must be successfully completed before the student is eligible for unconditional admission)
  - Student has not completed all of the undergraduate prerequisite course requirements for unconditional admission to graduate study

### Vision Statement

The Master of Science (MS) degree is a terminal non-thesis degree designed to meet the needs of professional practitioners in the field of criminal justice. To complete the MS degree, students must complete a comprehensive exam or the Capstone course, in which students will conduct an independent research project and write a report similar to those written in agencies and Criminal Justice.

**Criminology and Criminal Justice, MS**

**School of Criminology & Criminal Justice, College of Public Affairs & Community Service**

### Criminology and Criminal Justice Specializations

Students may either choose to pursue one of the two following specializations or select a minor. A minor generally requires nine (9) hours and the permission of the minor department/school. If all 9 or 12 credit hours are completed, the student should consult with the minor department/school for approval.

<tr>
<td>CRCJ 8970</td>
<td>CAPSTONE PROJECT IN CRIMINOLOGY AND CRIMINAL JUSTICE</td>
<td>3</td>
</tr>
</tbody>
</table>

Capstone course is only offered in either the fall or spring semesters. Once all required coursework has been completed, the student can register to take the capstone course. In this course, students will make arrangements with the instructor to conduct a research project. The course will end with a research report detailing results and written in a way consistent with agency and/or Criminal Justice organizational standards.

**Vision Statement**

The vision of the School of Criminology and Criminal Justice is to be a program that is recognized nationally for its quality and impact on research and instruction. In terms of doctoral education, the aim is to foster a learning environment in which graduate students may gain the necessary knowledge, skills, and competencies to prepare them for careers in academia or in the public or private sectors. The curriculum emphasizes written and verbal communication skills, methodological competency, a strong statistical foundation, and hands-on research experience. Doctoral students will actively engage in research under the supervision of the Director of the School’s Nebraska Center for Justice Research, the Director of the Juvenile Justice Institute, and/or with faculty on local, national, and international projects. Such instruction and experiences will serve to enhance the national visibility of our students and faculty.

**Program Contact Information**

**Program Website**

**Admissions**

**Application Deadlines**

- Fall: January 10

**Program-Specific Requirements**

- An earned Master of Arts or Master of Science degree in criminology or criminal justice from an accredited institution is required for unconditional admission into the program.
- Applicants with a master’s degree in an allied field (sociology, political science, public administration, etc.) and who lack substantial coursework in criminology & criminal justice may be granted provisional admission. They will be granted unconditional admission upon successful completion of 18 hours of criminology & criminal justice coursework from the core curriculum.
- Applicants who have completed a baccalaureate degree must first complete the requirements for the Master of Arts degree prior to admission into the Ph.D. program.
- International students seeking admission to the program must meet UNO Graduate College requirements governing the admission of international students. In addition to these requirements, all ESL students are required to submit scores from the IELTS, the internet-based TOEFL (the paper TOEFL will NOT be accepted), or PTE exam. Minimum required scores are as follows:
  - IELTS: minimum score of 7.5 is required; 8.0 is preferred
  - Internet-based TOEFL: minimum score of 21 in each of the four areas, and a minimum overall score of 95
  - PTE: 76 or higher
- **NOTE:** all English-as-second-language students will be required to take a proficiency assessment examination upon admission. That assessment will be used to determine if further assistance is required.
- Decisions regarding admission to the program are made by the Graduate Recruitment and Admissions Committee in the School of Criminology & Criminal Justice. The Committee will evaluate applicant materials and make recommendations for student admissions during the spring semester of each year, and newly admitted students will begin taking courses in the fall semester of each year. Admissions
decisions are competitive. If more students than the School can reasonably handle apply for admission in any given year, the Committee will admit those most qualified.

• Entrance Exam: GRE is required
  • A combined score of at least 300 on the verbal and quantitative portions of the revised Graduate Record Examination (GRE); students demonstrating exceptional academic potential may be considered with a GRE score of less than 300.
  • Three (3) Letters of Recommendation
    • Individuals who are qualified to comment on the applicant’s ability to pursue doctoral-level coursework. At least two of the three letters must be from academics who have known the applicant as a student and/or as an individual who worked under their direct supervision.
  • Statement of Purpose
    • A statement of purpose, not to exceed five (5) typewritten, double-spaced pages, describing the applicant’s prior education, relevant professional experience, career goals, and the specific relationship of the Ph.D. degree to the achievement of these goals, must be submitted. Within their statements, applicants should note their research interests and the faculty with whom they may wish to work.
  • Writing Sample
    • This may be a chapter from a master’s thesis, a published article, or a manuscript written in a scholarly style.
  • Resume

Total Credits 62

1 This course may be substituted with a course from another department. Permission for course substitution must be granted by a student’s Supervisory Committee and DPC.

Both 8000- and 9000-level elective courses are available to doctoral students.

There is a series of 9000-level courses that are required for doctoral students.

A maximum of six (6) hours of dual-level courses (4—8—6 course number) can be included in the program of study.

A maximum of three (3) hours of directed readings (CRCJ 9980) may be included in the program of study; these three (3) hours must be used in preparation for the comprehensive examination. All coursework, excluding coursework in the form of directed readings related to the comprehensive examination, must be completed within two and half (2.5) years from the time a student’s program of study is approved by the Dean of Graduate Studies. Three (3) hours for directed readings are to be used for the comprehensive examination in the fall semester of the student’s third year in the program. All students will be required to complete all courses listed as required courses. Students also must take elective courses in criminal justice or related fields.

Students are expected to complete 36 hours of coursework within two years. Except in extraordinary circumstances. Some of these hours may be taken during summer semesters.

### Comprehensive Examination and Admission to Candidacy

After completion of 36 hours of coursework, doctoral students will be required to pass a comprehensive examination. The examination has two parts-criminological theory and criminal justice systems. Students are
expected to work on their comprehensive examinations during the fall and spring semesters of their third year in the program. During this time, students may take three (3) hours of CRCJ 9980. It is, therefore, expected that a doctoral student will complete 42 hours of coursework by the end of the fall semester of their third year.

**Dissertation**

Students may begin work on the dissertation after successful completion of the comprehensive examination. The dissertation must reflect original scholarship and contribute to the body of knowledge on Criminology & Criminal Justice. The dissertation topic must be approved by the student’s Dissertation Committee, which consists of a chair and three other members. One Committee member must be a faculty member from outside the School of Criminology & Criminal Justice. The dissertation topic, prospectus, and the dissertation all require the approval of the Dissertation Committee. A doctoral student will be required to take at least one hour of CRCJ 9990 each fall and spring semester while working toward the completion of the dissertation. A minimum of 20 credit hours of CRCJ 9990 is required for all doctoral students.

**Total Credit Hours**

A minimum of 92 graduate hours beyond the baccalaureate degree. This includes up to 30 hours earned in a master’s degree. Satisfactory completion of a teaching practicum is also required.

---

**Social Work, MSW and Criminology and Criminal Justice, MS (MSW/CRCJ)**

**Grace Abbott School of Social Work, School of Criminology & Criminal Justice, College of Public Affairs & Community Service**

**Vision Statement**

There is much overlap in the clientele social worker and criminal justice professionals serve. Correctional officers, probation/parole officers, and law enforcement professional are often placed in positions of addressing and counseling delinquents and criminals with several social maladies to manage. Moreover, social work professionals in schools, private practices, and in the capacity of Health and Human Services agencies often work with delinquent and/or criminal populations. In order to help criminal justice professionals better serve the people with whom they work, and for social workers to better understand criminal populations, the UNO Grace Abbott School of Social Work and the School of Criminology and Criminal Justice graduate degree in which students can obtain a Masters in Social Work and a Master of Science in Criminology and Criminal Justice simultaneously.

A dual MSW/MS in Criminology and Criminal Justice would respond to the needs of the community by providing specialized training in working with delinquent and criminal populations. The dual degree will provide highly qualified personnel trained to work in schools, Health Service agencies, criminal justice agencies, and non-profit organizations.

**Other Program-Related Information**

- Students must enroll in a minimum of two courses (6 credit hours) per semester.
- Students must seek prior approval from the director of the Grace Abbott School of Social Work if they wish to take more than 12 hours of coursework in a single semester.

**Admissions**

**Application Deadlines**

- Fall: January 15

**Program-Specific Requirements**

- Academic Record/Transcript-Undergraduate weighted cumulative GPA of 3.0
- Three (3) Letters of Recommendation
  - The letters must be professional in nature. Each recommender should describe how they know you (how long and in what capacity), and why you would be a good candidate for the MSW/CRCJ program.
- Statement of Purpose: Please answer the following statements/questions in a total of five (5) double-spaced, typewritten pages (12-point font). Your application is considered incomplete if these instructions are not followed.
  - A brief autobiographical statement that discusses who you are and the experiences that led you to social work. Trace the development of your interest in social work. Why have you chosen social work as a profession? Describe the key motivating figure(s), role model(s), or experience(s) important to your decision to become involved in social work.
  - Discuss your career objectives as a professional social worker as you now conceive them. What do you see yourself doing immediately after receiving your MSW?
  - Discuss a contemporary social problem. Include possible causes and potential solutions in your response. What contribution do you want to make to the pursuit of social and economic justice?
  - The Grace Abbott School of Social Work is committed to enrolling students who represent diverse backgrounds and have an aptitude for working with clients of diverse backgrounds. Diversity can be defined by virtue of personal characteristics such as race, ethnicity, gender, age, sexual orientation, disability, class and religion as other characteristics. Diversity may also include personal life experiences such as class, career history, belonging to another culture, working among another culture, dealing with significant personal challenge(s), and knowledge of more than one language. Even if you have minimal contact with people from diverse backgrounds, please address how you “think” about diversity in relation to the practice of social work ad respond to the following questions: a) What are your vies regarding diversity? b) How does diversity relate to experiences in your life?
- Resume
• Current resume detailing employment history, nature of duties and responsibilities, accomplishments, leadership roles, and community involvement.

• The MSW application for Criminology and Criminal Justice is completed online adhering to the same admission criteria for the MSW degree. The personal statement and letters of recommendation for admission to the MSW degree will be used by the School of Criminology and Criminal Justice to admit students.

The MSW/CRCJ **Foundation Program** is a 81 credit hour program available to applicants who do not hold a BSSW degree from an accredited school of social work within the last 10 years.

The MSW/CRCJ **Advanced Standing Program** is a 39 credit hour program available to applicants who have earned a BSSW degree from an accredited school of social work within the last 10 years.

Completion of the following undergraduate prerequisite courses is required before entering the MSW/CRCJ Program.

• A human biology course or equivalent such as anatomy

• A research methods course (Note: There is a waiver exam available for this prerequisite)

• A statistics course

**Other Program Related Information:**

Note: This certificate can be obtained entirely online. All courses for the certificate will be offered online in a two-year rotation. Elective courses in Criminology and Criminal Justice are also offered in the spring, summer and fall semester.

**Admissions**

**Application Deadlines**

Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

**Program-Specific Requirements**

**Statement of Purpose**

• stating how the certificate will help you achieve your professional goals

**International Applicants:**

• IELTS: 7.5 required; 8.0 preferred  
• PTE: score of 76 or higher  
• Internet-based TOEFL: minimum of 21 in each of the 4 areas, and a minimum of 95 overall  
• All ESL students are required to take a proficiency assessment examination at UNO upon admission, which will be used to determine if further assistance is required.

Critical and Creative Thinking, MA

College of Arts and Sciences

Vision Statement
The Master of Arts in Critical and Creative Thinking (MA CCT) embodies the College of Arts and Sciences’ ongoing commitment to personal enrichment as well as to the practical application of analytical skills and knowledge in a diverse array of both for-profit and nonprofit professional environments. This interdisciplinary degree provides a unique opportunity to pursue both breadth and depth within the rich and diverse landscape of the liberal arts and sciences. Students pursuing this degree will enhance their career potential by developing advanced skills and abilities necessary for critical thinking, creativity, and leadership.

Admissions

Application Deadlines
• Fall: July 15
• Spring: November 1
• Summer: March 1

Program-Specific Requirements
• All applicants must have the equivalent of a 4-year undergraduate degree from a regionally-accredited four-year institution of higher learning or the equivalent foreign institution with a minimum GPA of at least 3.0 in undergraduate courses related to major.
• If English is not the language of nurture, official test scores from the TOEFL, IELTS, or PTE exam are required.
  • 600 on the written TOEFL
  • 250 on the computer-based TOEFL
  • 100 on the internet-based TOEFL
  • 7.5 on the IELTS
  • 76 on the PTE

**Total Credits** 12

**CACT 8000** INTRODUCTION TO CRITICAL AND CREATIVE THINKING (3 credits)

This course is the foundational introductory course for the Master of Arts in Critical and Creative Thinking (MA CCT). It focuses on the development of students' skills as critical thinkers and creative problem solvers as well as the cultivation of students' capacity to recognize and leverage tools, resources, and ideas towards finding innovative solutions to everyday problems.

**Prerequisite(s)/Corequisite(s):** Graduate status and acceptance into MA CACT program or permission of instructor.CACT8000

**CACT 8060** TOPICS IN CRITICAL AND CREATIVE THINKING (3 credits)

This is a course on selected topics offered on a one-time or occasional basis. The course may be repeated as long as the topic is different each time. May be cross listed with other departments when topics are appropriate to other departments. A complete topics syllabus will be available on file in the Office of the Master of Arts in Critical and Creative Thinking program.

**Prerequisite(s)/Corequisite(s):** Graduate standing.

**CACT 8080** INDEPENDENT STUDY (1-3 credits)

This course is designed for those students who are independently pursuing an area of study that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the MA in Critical and Creative Thinking program. All course assignments, readings, requirements, and expectations will be clearly communicated to the student in advance. May be repeated for credit for a total of six credit hours.

**Prerequisite(s)/Corequisite(s):** Admission into the MA CCT program, successful completion of 6 hours of CACT coursework, and permission of faculty member. Not open to non-degree graduate students.

**CACT 8090** CRITICAL AND CREATIVE THINKING GRADUATE PROJECT (3 credits)

The Graduate Project is an applied student project under the direction of a faculty advisor. In the project, the student will apply interdisciplinary knowledge and skills gained within the program to address a problem or to expand knowledge within or across disciplines. The product or artifact produced by the student may take a variety of forms.

**Prerequisite(s)/Corequisite(s):** Permission of faculty advisor and Graduate Program Committee Leadership (or its designee). Not open to non-degree graduate students.

**CACT 8100** GLOBAL CINEMA (3 credits)

A critical and analytic study of foreign films focusing on overlapping global issues. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking.

**CACT 8106** CULTURAL PSYCHOLOGY (3 credits)

This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about “culture” can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals’ psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4530, PSYC 8536).

**Prerequisite(s)/Corequisite(s):** Enrollment in MA in Critical & Creative Thinking program or by permission of the instructor.

**CACT 8110** GLOBAL-LOCAL: OPPORTUNITIES, BARRIERS, ENGAGEMENT (3 credits)

This course focuses on global cultural and social forces and how they interact to form nexuses of both opportunity and obstacle to constructive human engagement on a wide array of social issues. An overview of topics covered in the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. This course will provide students with the analytical tools, collaborative engagement skills, and applied problem-solving techniques that will help students succeed in this concentration and program. (Cross-listed with BLST 8110)

**Prerequisite(s)/Corequisite(s):** Graduate standing.

**CACT 8116** GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)

A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 4550, GEOG 8556)

**Prerequisite(s)/Corequisite(s):** Graduate status.
CACT 8200 SEMINAR IN POLITICAL THEORY (3 credits)
This course introduces students to the history of political theory, from its origins in ancient Greece to its manifestations in contemporary thought. (Cross-listed with PSCI 3200)
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

CACT 8206 COMPARATIVE RELIGIOUS ETHICS (3 credits)
An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4200, RELI 8206)

CACT 8215 VALUES AND VIRTUES (3 credits)
This course explores advanced topics in ethics with particular emphasis on value theory and virtue ethics. Topics to be considered include the meaning and status of value claims, sources of value, intrinsic goods, agent-relative goods, practical reason, moral development, happiness, moral ambiguity, moral luck, the identification of virtues, and relationships of care, trust, and responsibility. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PHIL 3060)

CACT 8226 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)
This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4220, RELI 8226)

CACT 8306 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 4290, PSCI 8296)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

CACT 8310 ECOLOGICAL WRITING AND ANALYSIS (3 credits)
This course provides students with the opportunity to develop expertise in a wide range of foundational works and key techniques of ecological writing and theory in English. By engaging mindfully with these works and techniques, students will develop advanced skills in ecologically oriented critical analysis and creative thinking. This course supports the Writing and Critical Reflection and the Health and the Environment concentrations in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8310)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8316 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)
This course emphasizes a critical analysis of our energy options and their environmental, economic and ethical connections. The course includes the underlying chemistry necessary to accurately assess energy positions described in the mainstream media and ultimately to make informed, creative energy choices. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 4310, ENVN 8316)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8326 ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH (3 credits)
The course will explore and develop the complex context of the systemic links among ecosystems and human health (and more broadly human well-being) using case studies including climate change, water quality, infectious diseases and agricultural production. Students will develop skills in critical thinking and applied research by studying biological connections between humans and ecosystems and how social, economic and cultural processes and practices mediate these connections. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 4320)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8400 A HISTORY OF AMERICAN IMMIGRATION POLICIES AND LAWS (3 credits)
This seminar will examine the evolution of American immigration policies and laws from the colonial period to the present day. Where appropriate, the course will examine American immigration laws in a comparative context. It will pay particular attention to how state policies create and/or sustain inclusionary or exclusionary practices for members of different racial, ethnic, religious, or gender groups in American society.
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8410 IMMIGRATION, MIGRATION, AND DIASPORA: CRITICAL APPROACHES AND THEORIES OF MOVEMENT IN LITERATURE (3 credits)
This seminar in literature and some film analyzes the depictions in non-fiction and fiction of displacement as a result of immigration, migration, refugee status, or any other considered movement, intentional or imposed. It will focus largely on the U.S. experiences of those displaced from all locales. (Cross-listed with ENGL 8410)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8416 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/ Culture: Central America and the Caribbean 1898-2000* studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 4150, SPAN 8156)

CACT 8420 MEXICO AND THE U.S. BORDERLANDS: TWO HISTORIES, ONE DESTINY (3 credits)

CACT 8420 INTERNATIONAL MIGRATION, DEVELOPMENT AND CITIZENSHIP (3 credits)
The course allows students to gain an understanding of the forces driving contemporary world migration, the policies and practices of development expelling or attracting migrants from and to different parts of the world, and migrants' relative success in their quest for belonging and citizenship in their host communities. This course supports the International Migration, Development and Citizenship concentration in the Master of Arts in Critical and Creative Thinking.

CACT 8500 COMPLEX ORGANIZATIONS (3 credits)
This graduate seminar provides an overview focused on the understanding and analysis of intricate internal and external organizational forces such as organizational bureaucracy, organizational culture, autonomy and control systems, which affect performance of organizational members as well as influence organizational survival. (Cross-listed with SOC 8500)
Prerequisite(s)/Corequisite(s): Graduate enrollment or permission of class instructor.
CACT 8506 CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4650, PSYC 8656)

CACT 8510 SEMINAR IN LEADERSHIP (3 credits)
This course introduces students to classical and contemporary scholarship on leadership theory, research, and application. Students gain a foundation in models of leadership, assess their own leadership styles, and learn to integrate what they learn in corporate, governmental, non-profit, or community organizations. (Cross-listed with PSCI 8120)
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

CACT 8520 ORGANIZATIONAL PSYCHOLOGY AND LEADERSHIP (3 credits)
This course is a graduate seminar on organizational psychology and leadership that focuses on the understanding and critical analysis of theory and practice pertaining to individual functioning at work. Positive organizational psychology theories and practices will provide the overarching framework in understanding potential solutions to challenges and problems facing leaders and their employees. (Cross-listed with PSYC 9421)
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

CACT 8530 PERSONNEL PSYCHOLOGY AND LEADERSHIP (3 credits)
This course provides an overview of personnel psychology from a leadership perspective. Topics include methodology, employee selection, performance appraisal, organizational attitudes and behavior, motivation, and leadership style.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor

CACT 8560 PROFESSIONAL AND TECHNICAL WRITING (3 credits)
This course will introduce students to the theory, research, and practices of professional and technical writing. Through readings, discussions, and assignments, students will gain an understanding of the types and circumstances of communication challenges encountered in the workplace. The course will also consider the roles of persuasion and ethics in written communication. (Cross-listed with ENGL 8610)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8630 DIGITAL RHETORIC (3 credits)
This course provides students with the opportunity to develop expertise in the theory and practice of digital rhetoric by considering technology’s deep impact on how we define and engage in writing. Students examine contemporary writing practices as part of a rich rhetorical tradition while they design and create effective multimodal compositions and analyze foundational works in digital rhetoric. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8630)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8640 CREATIVE NONFICTION IN DIGITAL ENVIRONMENTS (3 credits)
Students in this course will study creative nonfiction in digital environments, analyze rhetorical situations created in digital environments, and create individual creative nonfiction blogs—which might include, in addition to other modalities, sounds, animations, and hypertext. The course will also focus on the study and analysis of craft-elements of creative nonfiction: narrative persona, tone, rhythm and style, scenic construction, among others. Students taking this course will learn to read with interpretative and analytical proficiency a broad range of creative nonfiction in digital environments. (Cross-listed with ENGL 8640)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8650 WRITING ACROSS DIFFERENCES: RHETORICAL THEORY FOR PERSUASION AND PUBLIC ADVOCACY (3 credits)
This course provides students a theoretical foundation for understanding how language is used in various types of discourses and texts as a means of convincing others of a given viewpoint or idea. Students will apply this theory to real-world writing scenarios in their scholarly areas of interest, to advocacy and social issues movements, or to address workplace needs and goals. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8650)
Prerequisite(s)/Corequisite(s): Graduate standing.

Cybersecurity
School of Interdisciplinary Informatics, College of Information, Science, and Technology

Vision Statement
The School of Interdisciplinary Informatics (Si2) is the academic home of the Master of Science (MS) in Cybersecurity (previously Information Assurance). Cybersecurity is a rapidly expanding, multi-faceted science that integrates a diverse set of disciplines to address fundamental problems in the design, development, implementation and support of secure information systems. The Master of Science is a full graduate degree program balancing theory with practice in order to provide students with the knowledge and skills necessary to protect information systems. Because of the wide variety of subject areas to which Cybersecurity can be applied, this degree program has two paths; Cyber Operations, a concentration with highly technical content, and Interdisciplinary, with the opportunity for the students to tailor the degree to specific management goals. Students may also choose between a thesis or capstone exit option based on their individual interests.

Program Contact Information
Dr. William Mahoney, Graduate Program Chair (GPC)
Peter Kiewit Institute (PKI) 282F

wmahoney@unomaha.edu

Ms. Leslie Planos, Advisor
Peter Kiewit Institute (PKI) 176C
402-554-3819
lplanos@unomaha.edu

Admissions
Application Deadlines
• Fall: July 1
• Spring: December 1
required for the MS in CYBR degree. Students who have not completed
Foundation courses cannot be used to satisfy the 33 semester hours
of MS in CYBR graduate coursework. All foundation course requirements may be admitted on a provisional
status until those requirements have been completed. All foundation
courses must be completed prior to or concurrent with the first six (6) hours
of MS in CYBR graduate coursework.

**Program-Specific Requirements**

1. All applicants must have the equivalent of a 4-year undergraduate
degree.
2. International applicants without a baccalaureate or equivalent degree
from an English-speaking institution of higher education in the US, the
United Kingdom, Canada, English-speaking Africa, Australia, Ireland or
New Zealand are required to submit TOEFL scores.
   a. Paper-based TOEFL: 550
   b. Computer-based TOEFL: 213
   c. Internet-based TOEFL: 80
   d. IELTS: 6.5
   e. PTE: 53
3. International applicants without a baccalaureate or equivalent degree
from an English-speaking institution of higher education in the US, the
United Kingdom, Canada, English-speaking Africa, Australia, Ireland or
New Zealand are required to submit GRE scores. There is no minimum
GRE requirement, but for international applicants the score will be one
factor used in evaluating the student’s portfolio.
4. Three (3) letters of recommendation from references who can evaluate
your work and/or academic achievements.
5. Writing Sample from work or previous academic experiences.
Alternatively, if you do not have a writing sample, please submit a two-
page double-spaced word-processed essay that addresses the following
two topics:
   a. Discussion of two accomplishments that demonstrate your potential
      for success in the graduate program
   b. Discussion of your unique personal qualities and life experiences
      that distinguish you from other applicants to this graduate program
6. Resume
   • Include your work experience and background
7. OPTIONAL: Interview
   • Although not required, the Graduate Program Committee may ask
      to conduct a telephone interview to further assess the experiences
      of the applicant.

1. ISQA 8060 is strongly recommended as an elective for students considering the thesis option.

**Quality of Work Standards**

The Graduate College’s Quality of Work Standards shall be applied to foundation courses as well as courses taken as part of the degree program. In particular, the GPC will recommend to the Graduate College that any

1. Student receiving a grade of “C-” or below on any foundation course will be dismissed from the program or, in the case of unclassified or non-degree students, be automatically denied admission.
2. Student receiving a grade of “C+” or “C” in any foundation course will be placed on probation or dismissed from the program.
3. Student not maintaining a “B” (3.0 on a 4.0 scale) average in foundation courses will be placed on probation or dismissed from the program.
CYBR 8000 CENTER OF ACADEMIC EXCELLENCE-CYBER OPERATIONS COMPLETION CERTIFICATE (0 credits)
This course is utilized to provide a specific designation for students that have completed the Center of Academic Excellence - Cyber Operations coursework. It is a zero credit hour class used to designate the completion of this focus area in the cybersecurity curriculum.
Prerequisite(s)/Corequisite(s): Instructor Permission. The program committee will work with the UG advisors to ascertain that the student has fulfilled all requirements for this designation if he/she has or will within the last semester, they will be allowed to register for this class.

CYBR 8080 SPECIAL TOPICS IN INFORMATION ASSURANCE (1-6 credits)
The course provides a format for exploring advanced research areas for graduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research.
Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 8366 FOUNDATIONS OF INFORMATION ASSURANCE (3 credits)
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption programs; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 4360, CSCI 8366)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 OR ISQA 3300 OR By instructor permission

CYBR 8386 COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction and documentation of computer evidence stored on a computer. This course takes a technical, legal, and practical approach to the study and practice of incident response, computer forensics, and network forensics. Topics include legal and ethical implications, duplication and data recovery, steganography, network forensics, and tools and techniques for investigating computer intrusions. This course is intended as a second course in information assurance for undergraduate students as well as other qualified students. It is also intended as a foundation course for graduate digital forensics studies. (Cross-listed with CYBR 4380, CSCI 4380)
Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3500 or ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.

CYBR 8410 DISTRIBUTED SYSTEMS AND NETWORK SECURITY (3 credits)
The course aims at understanding the issues surrounding data security, integrity, confidentiality and availability in distributed systems. Further, we will discuss various network security threats, threats that exist and strategies to mitigate them. This course will cover topics in cryptography, public key infrastructure, authentication, hashing, digital signatures, ARP protection, IP and IPSEC, IP Tables, SSL/TLS, firewalls, etc. (Cross-listed with CSCI 8410)
Prerequisite(s)/Corequisite(s): IASC 8366 or equivalent(s); or instructor permission. Not open to non-degree graduate students.

CYBR 8420 SOFTWARE ASSURANCE (3 credits)
Software assurance is a reasoned, audible argument created to support the belief that the software will operate as expected. This course is an intersection of knowledge areas necessary to perform engineering activities or aspects of activities relevant for promoting software assurance. This course takes on a software development lifecycle perspective for the prevention of flaws. (Cross-listed with CSCI 8420)
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836 OR by permission of the Instructor. Not open to non-degree graduate students.

CYBR 8436 QUANTUM COMPUTING AND CRYPTOGRAPHY (3 credits)
The course aims at understanding the exciting concepts behind quantum computing and quantum cryptography. The course will introduce the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that built using these principles. We will discuss the security definitions and protocols within the quantum realm. We will discuss what advantages quantum computing and cryptography offers compared to classical computing and cryptography and limitations thereof. It will cover the integration of quantum cryptography into existing public key infrastructure. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course students will also implement several of the quantum algorithms. (Cross-listed with CYBR 4430)
Prerequisite(s)/Corequisite(s): Co-requisites: CYBR 3570 or CSCI 4560; or Instructor permission

CYBR 8440 SECURE SYSTEMS ENGINEERING (3 credits)
This course takes a global risk-based view of the process of defining, verifying, validating, and continuously monitoring secure information systems. The course will investigate a number of secure system solutions, starting with the definition of the system security needs, and tracing through methods of verification and validation of security controls, as well as ways to continuously monitor the corresponding assurances. (Cross-listed with CYBR 4440)
Prerequisite(s)/Corequisite(s): CSCI 8366 or IASC 8366.

CYBR 8446 INDUSTRIAL CONTROL SYSTEM SECURITY (3 credits)
The objective of this course is to research vulnerabilities into, and provide guidance for securing, industrial control systems (ICS). ICS is a general term that encompasses several types of control systems, including supervisory control and data acquisition (SCADA) systems, distributed control systems (DCS), and other control system items such as Programmable Logic Controllers (PLC). The student will learn to identify network and device vulnerabilities and potential countermeasures to these weaknesses. (Cross-listed with CYBR 4440)
Prerequisite(s)/Corequisite(s): CSCI 3550.

CYBR 8450 APPLIED CRYPTOGRAPHY (3 credits)
In this course we will implement stream and block ciphers in different modes, public key algorithms, hash functions, message authentication codes, random number generators, etc. Along the way we will also explore weaknesses of these algorithms and implement well-known attacks on them. We will also solve crypto challenges and puzzles. This is a hands-on course and will require programming proficiency. The preferred language will be Python; you can, however, use other object oriented languages.
Prerequisite(s)/Corequisite(s): CSCI 2030, CSCI 3320, CYBR 3570 or equivalent or Instructor Permission.

CYBR 8456 HOST-BASED VULNERABILITY DISCOVERY (3 credits)
The class will cover security issues at an implementation and hardware level. The students will learn assembly language and the use of a reverse assembler and debugger. This will allow the student to analyze various "packing" algorithms for computer viruses, the viruses themselves, operating system "hacking", "fuzzing", and other machine code, host-based exploits. The class will be using both Windows and Linux as operating systems. (Cross-listed with CYBR 4450.)
Prerequisite(s)/Corequisite(s): Permission of the instructor and CSCI 3710.
CYBR 8460 SECURITY OF EMBEDDED SYSTEMS (3 credits)
An embedded system is some combination of computer hardware and software, either fixed in capability or programmable, which is specifically designed for a particular function. Industrial machines, automobile electronic systems, medical equipment, cameras, household appliances, airplanes, vending machines, cellular phones and PDAs are among the myriad possible hosts of an embedded system. This class concerns itself with the security aspects of these often computationally restricted computing platforms.
Prerequisite(s)/Corequisite(s): IASC 8366, CYBR 4450 or CYBR 8456.

CYBR 8466 NETWORK-BASED VULNERABILITY DISCOVERY (3 credits)
The course is an advanced class in which the students learn various techniques for testing for and identifying security flaws in network software and web applications. Internet technologies such as HTTP, DNS, DHCP, and others are examined in the context of cyber security. Students are expected to participate in numerous hands-on experiments related to Information Assurance with respect to web technologies. (Cross-listed with CYBR 4460)
Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 8470 SECURE WEB APPLICATION DEVELOPMENT (3 credits)
Web applications are pervasive fixtures of 21st century culture. Web application security is an inclusive, amorphous, term that spans application level security, i.e. ensuring high level code cannot be exploited, server level security, i.e. ensuring server resources such as databases and file systems cannot be exploited, and network security, i.e. ensuring unauthorized parties cannot access a server or tamper with user sessions. This course cross-cuts the web application security concepts across the different categories above and takes a heavily hands-on approach to introduce students to the world of secure web app. design and development.
Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 8546 COMPUTER SECURITY MANAGEMENT (3 credits)
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 4540, ISQA 8546)
Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

CYBR 8570 INFORMATION SECURITY POLICY AND ETHICS (3 credits)
The course will cover the development and need for information security policies, issues regarding privacy, and the application of computer ethics. (Cross-listed with ISQA 8570)
Prerequisite(s)/Corequisite(s): CIST 2100 or BSAD 8030, or permission of instructor.

CYBR 8900 INDEPENDENT STUDY IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring advanced research areas for graduate students in Information Assurance and related fields. The class is designed for students that would like to explore specific Information Assurance topics at a greater depth, or topics that are not currently a part of the IA curriculum. The class is proposed and organized by the student, with participating faculty mentoring.
Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 8910 INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the MS in CyberSecurity (CYBR) program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Students must have completed a minimum of 12 credit hours towards the MS in CYBR program. Instructor permission is required to register. Not open to non-degree graduate students.

CYBR 8950 GRADUATE CAPSTONE IN INFORMATION ASSURANCE (3 credits)
This is the graduate capstone course where students extend and apply their knowledge in defining, implementing, and assessing secure information systems. Students will demonstrate their ability to specify, apply, and assess different types of countermeasures at different points in the enterprise with a special focus on system boundaries. Students will complete and defend a Certification and Accreditation package. This course is intended for graduate students in the MS in IA degree program, coursework option, that are close to graduation (see prerequisites). This course replaces the MS in IA comprehensive examination requirement.
Prerequisite(s)/Corequisite(s): CYBR 8366, CYBR 8410, and CYBR 8456 and concentration area (systems or management and policy). Students must have 6 credit hours or less left in the program.

CYBR 8986 SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research. (Cross-listed with CYBR 4980)
Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 8990 THESIS IN INFORMATION ASSURANCE (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student’s thesis advisory committee. In this project the student will develop and perfect a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation.
Prerequisite(s)/Corequisite(s): Instructor Permission.

Economics

Degree Programs Offered

• Economics, MA (p. 702)
• Economics, MS (p. 705)

ECON 8010 SEMINAR PUBLIC FINANCE (3 credits)
This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes will be emphasized.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission

ECON 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with BSAD 8020).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220 or BSAD 8180, or permission of the instructor. Not open to non-degree graduate students.

ECON 8050 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles and how they can be related to the teacher’s classroom presentation. This course is designed to furnish the public school teacher (K-12) with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles.
Prerequisite(s)/Corequisite(s): No previous course work in economics. Not open to Economics majors.
ECON 8160 SEMINAR IN LABOR ECONOMICS (3 credits)
A study of the demand for labor, the supply of labor, the theory of compensating differentials, investment in human capital, worker mobility, discrimination, unions, inequality and unemployment.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission.

ECON 8200 SEMINAR IN MICRO THEORY (3 credits)
This course deals with the current state of microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, distribution theory and welfare theory.
Prerequisite(s)/Corequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.

ECON 8210 MANAGERIAL ECONOMICS (3 credits)
Microeconomics for graduate students of business. Economic analysis of the business firm and its environments, with emphasis on market structure, production possibilities and cost factors. Additional consideration is given to the theory of the firm under conditions of uncertainty. (Cross-listed with BSAD 8100).
Prerequisite(s)/Corequisite(s): Graduate student in economics and ECON 2200 or equivalent.

ECON 8216 INDUSTRIAL ORGANIZATION (3 credits)
This course applies economic analysis to public policy issues in industrial economics. It is concerned with the strategic behavior of firms: the nature of interaction among competing firms within a game-theory framework. Among the topics covered are: discriminatory pricing, predatory conduct, product design, patent infringement, price wars, location decisions, and entry-deterrence. (Cross-listed with ECON 4210).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8220 SEMINAR IN MACRO THEORY (3 credits)
This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, and the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical techniques of analysis to the business situation, within the framework of the aggregate economy.
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8180.

ECON 8266 HISTORY OF ECONOMIC THOUGHT (3 credits)
The first half of the course focuses on the development of economics from Adam Smith in 1776 to John Maynard Keynes in the 1930s. The second half of the course uses the history sketched in the first half as a partial basis for addressing important questions about the methodology, institutional structure and policy impact of economics. (Cross-listed with ECON 4260).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or equivalent.

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.
Prerequisite(s)/Corequisite(s): ECON 3200, ECON 3220, or equivalents, or permission of the instructor. Not open to non-degree graduate students.

ECON 8300 ECONOMETRICS (3 credits)
The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.
Prerequisite(s)/Corequisite(s): Basic Statistics, ECON 8306/ECON 4300 and ECON 8290/ECON 4290, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. (Cross-listed with ECON 4300).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8100.

ECON 8310 BUSINESS FORECASTING (3 credits)
This course includes a comprehensive survey of forecasting methods and in-depth study of selected techniques most commonly used in business environments. Emphasis is given to applications and therefore students will be required to develop forecasting models and test their performance as part of the course. (Cross-listed with BSAD 8080).
Prerequisite(s)/Corequisite(s): BSAD 8000 or equivalent or ECON 8300 or permission of instructor. Not open to non-degree graduate students.

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)
The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8100 or permission of instructor.

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)
Energy, minerals, fisheries, water, land, pollution and congestion are among the topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors which determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8330 DATA ANALYSIS FROM SCRATCH (3 credits)
Econometrics is routinely taught as an application class to a `black box¿ like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators a multivariate or regression analysis with the help of libraries useful in econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8150 (or equivalent); BSAD 2130 or equivalent; or instructor approval.

ECON 8335 ECONOMIC DEVELOPMENT (3 credits)
The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.
Prerequisite(s)/Corequisite(s): Basic Statistics, ECON 8306/ECON 4300 and ECON 8290/ECON 4290, or permission. Not open to non-degree graduate students.
ECON 8450 SEMINAR IN MONEY & BANKING (3 credits)
Original research and writing of papers on basic problems in the area of money and banking.
Prerequisite(s)/Corequisite(s): Six hours in undergraduate monetary courses or permission of the instructor.

ECON 8456 MONETARY THEORY AND POLICY (3 credits)
Monetary policy has an important effect on economic magnitudes, including the level of output, interest rates, inflation rates, exchange rates, and many other variables. This course provides an in-depth analysis of the role that the Federal Reserve plays in our economy. This involves how monetary policy is transmitted to various markets. (Cross-listed with ECON 4450).
Prerequisite(s)/Corequisite(s): ECON 3220, or permission of the instructor.

ECON 8500 INFORMATION ECONOMICS (3 credits)
This class provides an overview of various issues that can arise under the general heading of information economics. It encompasses a wide range of literature as the absence of information is often a key feature of analysis in fields such as industrial organization, labor economics, experimental economics, and financial economics, as well as various areas in management.
Prerequisite(s)/Corequisite(s): ECON 2200

ECON 8566 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course deals with the economics of developing countries. It introduces theories of development and endogenous growth. It analyzes domestic problems such as income distribution, population growth, unemployment, urbanization and education. It also analyzes international economic issues such as trade, foreign investment and debt. It discusses government development policies. (Cross-listed with ECON 4660).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8600 HEALTH ECONOMICS (3 credits)
This course is designed to help students understand how the theories and models of economics can be applied to the study of health and health care. The examination of the markets (demand and supply) for health, health care and health insurance is stressed. In addition, the economic analytic tools such as microeconomic theories and economic evaluation methods also will be reviewed and introduced. The objective of this course is to equip students with the knowledge tools to examine and analyze the problems issues of health care from the perspective of economics.
Prerequisite(s)/Corequisite(s): ECON 2200 or equivalent.

ECON 8606 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economic education i.e., economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, students develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. (Cross-listed with TED 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.

ECON 8626 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, international exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 4620).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8636 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736.)
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8650 SEMINAR IN INTERNATIONAL ECONOMICS (3 credits)
An analysis of the theory of international trade and the working of the international monetary system.
Prerequisite(s)/Corequisite(s): ECON 3600 or ECON 4660 or permission of instructor.

ECON 8656 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted mainly as a seminar with ample student participation, including a research paper. A "New Economy" has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 8706, BSAD 8705).
Prerequisite(s)/Corequisite(s): Admission to the MBA program or the Economics graduate program or permission of the instructor.

ECON 8676 ECONOMICS OF URBAN DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8700 SEMINAR IN REGIONAL ECONOMICS (3 credits)
An examination of the current developments and issues involving regional economic development and planning. These courses provide the theoretical basis for understanding and analyzing economic problems of a regional nature. In addition, policy alternatives, decision-making and measurement techniques are examined.
Prerequisite(s)/Corequisite(s): At least six hours of upper division course work in economics or permission of instructor.
ECON 8910 SPECIAL STUDIES IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses, each designed to focus on current major issues and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8916 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6 hours) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with BSAD 8916, ECON 4910).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research under tutorial supervision.
Prerequisite(s)/Corequisite(s): Graduate student in economics and permission of instructor.

ECON 8930 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research under tutorial supervision.
Prerequisite(s)/Corequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)
Guided internship in a firm or organization that makes use of, or extends, the student’s skill in economics.
Prerequisite(s)/Corequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.

ECON 8990 THESIS (1-6 credits)
An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.

### Degree Requirements

</table>

#### Electives and Concentrations

Elective courses will be selected in consultation with the Graduate Program Chair and Advisor. Students are strongly encouraged to complete an area of concentration which requires 9 hours of elective courses. Students’ area(s) of concentration will appear on the transcript. Dual-level (“8--6”) course(s) completed as an undergraduate cannot be repeated for graduate credit.

### Admissions

New Economics graduate students will be admitted only to the MS Economics Program (non-thesis option). After completing nine (9) hours of coursework in the Master’s in Economics program, a student may submit a written request to the Economics Graduate Program Committee (GPC) to transfer from the MS program to the MA (thesis option) program. Students are strongly encouraged to seek the advice of the Economics Graduate Program Advisor prior to submitting the written request. The student’s request should include a thesis proposal written in consultation with a student-identified main thesis advisor (must be a tenure-track faculty in the economics department) who will serve as the chair of the thesis committee. In addition, the student should include an unofficial graduate transcript, a writing sample, and any other relevant information in the request. The GPC, based on its evaluation of the student’s potential to complete a quality master’s thesis, will approve or deny this request. Upon transfer to the MA program an oral defense of the proposal will be scheduled and the thesis committee members will approve the scope of work. If the GPC denies the student’s request to transfer to the MA program, the student may submit a second (and final) written request to transfer to the MA program with supporting materials to the GPC after he/she has completed 18 credit hours of coursework in the Master’s in Economics Program.

**Credits**

1. ECON 8306: This course is not required for students demonstrating satisfactory mathematical skills. If this course is not taken, students should take three (3) additional hours of elective courses.

**Exit Requirement**

- Thesis 6 hours ECON 8990

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, the Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

The graduate program in economics is designed to provide a solid background in theory, quantitative methods and application appropriate to the needs of economists involved in the analysis of domestic and international business and economic conditions, financial analysis, policy analysis, forecasting, simulation and related work. In addition, the program prepares students for further graduate work in economics and related fields.

**Program Contact Information**
Dr. Catherine Yap Co, Graduate Program Chair and Advisor
Mammel Hall (MH) 332R
6708 Pine Street
402-554-2805
cco@unomaha.edu

**Program Website** (http://www.unomaha.edu/college-of-business-administration/economics/graduate-programs)

**Admissions**

**Application Deadlines**
- Fall Admission:
  - June 1 for international applicants who are required to secure a new student visa
  - July 15 for all other applicants
- Spring Admission:
- Summer Admission:
  - March 1 for international applicants who are required to secure a new student visa
  - April 15 for all other applicants

**Program-Specific Requirements**
- Unconditional admission may be granted to an applicant whose record includes:
  - Junior/Senior GPA of at least 2.85 (on a 4.0 point scale)
  - International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States or other approved countries, such as Australia, Canada, Ireland, New Zealand, the United Kingdom (see International Admissions for details), are required to submit TOEFL scores. The minimum TOEFL score required to be admitted to the Economics Graduate Program is 80 for the internet-based test (550 for the paper-based test), or 6.5 for the IELTS test, or 53 for the PTE test.
- Student must have completed courses equivalent to the following five foundation courses (UNO undergraduate courses):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2200</td>
<td>PRINCIPLES OF ECONOMICS (MICRO)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 2220</td>
<td>PRINCIPLES OF ECONOMICS (MACRO)</td>

<td>ECONOMIC THEORY: MACRO (also known as Intermediate Macro)</td>
<td>3</td>
</tr>
<tr>
<td>BSAD 2130</td>
<td>PRINCIPLES OF BUSINESS STATISTICS</td>
<td>3</td>
</tr>
</tbody>
</table>

- Applicants meeting the minimum GPA and language requirement but lacking some foundation courses will be granted provisional admission status until all foundation courses are completed with grades of “B” (3.0 on a 4.0 point scale) or above.
- New Economics graduate students will be admitted only to the MS Economics Program (non-thesis option). After completing nine (9) hours of coursework in the Master’s in Economics program, a student may submit a written request to the Economics Graduate Program Committee (GPC) to transfer from the MS program to the MA (thesis option) program. Students are strongly encouraged to seek the advice of the Economics Graduate Program Advisor prior to submitting the written request. The student’s request should include a thesis proposal written in consultation with a student-identified main thesis advisor (must be a tenure-track faculty in the economics department) who will serve as the chair of the thesis committee. In addition, the student should include an unofficial graduate transcript, a writing sample, and any other relevant information in the request. The GPC, based on its evaluation of the student’s potential to complete a quality master’s thesis, will approve or deny this request. Upon transfer to the MA program, an oral defense of the proposal will be scheduled, and the thesis committee members will approve the scope of work. If the GPC denies the student’s request to transfer to the MA program, the student may submit a second (and final) written request to transfer to the MA program with supporting materials to the GPC after he/she has completed 18 credit hours of coursework in the Master’s in Economics Program.

Students dismissed from the MS/MA Economics program may request for reinstatement to the program by following this procedure. Write a reinstatement letter addressed to the Economics Graduate Program Committee (GPC) and hand delivered to the Economics graduate program advisor as soon as possible addressing the following points at the minimum:

1. Request for reinstatement;
2. Explanations for below par performance;
3. Arguments for why despite item #2 student be reinstated back into the program;
4. Describe activities student will do to ensure that performance moving forward will meet the quality of work standards set by Graduate Studies.

The Economics Graduate Program Committee (GPC) will evaluate the student’s request and inform the student of its decision as soon as practically possible.

Educational Leadership

Degree Programs Offered

- Educational Leadership, MS (p. 711)
- Educational Administration, EdD (p. 712)

EDL 8000 SPECIAL STUDIES IN EDUCATIONAL LEADERSHIP (3 credits)
This course will provide candidates in educational leadership with the opportunities and experiences of in-depth study of a specialized area of practice and research in school leadership.

Prerequisite(s)/Corequisite(s): Admission to Graduate Studies or permission of instructor.

EDL 8020 EDUCATIONAL POLICY AND LEADERSHIP (1 credit)
This course explores the expanded federal and state presence in local school districts. Historical and political factors influencing the governance of today's schools are explored, as well as current trends and policy decisions.

Prerequisite(s)/Corequisite(s): Acceptance to Graduate Studies or department permission.

EDL 8030 INTRODUCTION TO EDUCATIONAL LEADERSHIP (3 credits)
This course is designed to introduce the beginning school leadership candidate to theories and practices of organization, motivation, leadership, and change processes, in order to develop an understanding of schools as complex organizations and the nature and challenges of leadership.

Prerequisite(s)/Corequisite(s): Admission to UNO Graduate Studies or department permission.

EDL 8050 SCHOOL-COMMUNITY CONNECTIONS (3 credits)
School leaders engage the external and internal communities in their buildings and districts. This course assists candidates in developing an understanding of school-community relations, practicing the skills of positive influence with education stakeholders, and refining the dispositions of responsible citizenship by connecting to diverse community needs.

Prerequisite(s)/Corequisite(s): Admission to Graduate Studies or department permission.

EDL 8060 PLANNING FOR SAFE AND ORDERLY SCHOOLS (3 credits)
This course examines the components of school-wide discipline policies, programs, and problems from an administrative point of view. Candidates will assess strengths and weaknesses of policies and approaches to student behavior management, and will have an opportunity to apply ideas through case study situations.

Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

EDL 8100 INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP (1-6 credits)
This course is designed to allow graduate candidates in educational leadership to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities are mutually agreed upon by the candidate and instructor. This course will prepare school leaders as practitioners and researchers who can meet the dynamic challenges of education.

Prerequisite(s)/Corequisite(s): Admission to the doctoral program in educational administration/leadership, or instructor permission.

EDL 8250 TECHNOLOGY FOR SCHOOL LEADERS (3 credits)
A course designed for current and aspiring school leaders. The course content will relate to the ways in which technology can support the leadership and management of schools. Embracing the College of education theme, “Preparing Professionals to Serve the Community”, the course for school leaders is planned to include administration of the school site and system. This course is specifically designed to address the technological needs of school leaders.

Prerequisite(s)/Corequisite(s): Admission to Graduate College.

EDL 8400 ELEMENTARY SCHOOL INTERNSHIP IN EDUCATIONAL LEADERSHIP (3 credits)
Elementary internship is designed to provide practice in elementary and general administration and supervision according to the interests and needs of the candidates. Candidates will work with practicing administrators and a university supervisor.

Prerequisite(s)/Corequisite(s): Candidates must be enrolled in the Master's and/or the Building Administration Endorsement program in Educational Leadership and be in their last year of the program or have department permission.
EDL 8410 SECONDARY SCHOOL INTERNSHIP IN EDUCATIONAL LEADERSHIP (3 credits)
Secondary school internship is designed to provide practice in 7-12 and general administration and supervision according to the interests and needs of the candidates. Candidates will work with practicing administrators and a university supervisor.
Prerequisite(s)/Corequisite(s): Candidates must be enrolled in the Master's and/or the School Administration Endorsement Program in Educational Leadership and be in their last year of the program or have department permission.

EDL 8470 ADMINISTRATION AND SUPERVISION IN SCHOOLS (3 credits)
This course is designed to prepare educational leaders as dedicated practitioners, reflective scholars, and responsible citizens as they relate to the administration of a school site and system. This course is specifically designed to address the problems, issues, and opportunities of building level leadership.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8490 INSTRUCTIONAL LEADERSHIP (3 credits)
School leaders serve as instructional leaders in their buildings and districts. This course assists candidates in developing knowledge and practices necessary to lead educators and schools in the areas of instruction and curriculum.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College

EDL 8550 SCHOOL BUSINESS MANAGEMENT (3 credits)
This course will analyze the functions of school business management: budgetary processes, financial accounting, auditing and reporting, management of funds, purchasing procedures, transportation, food services, insurance and inventory control.
Prerequisite(s)/Corequisite(s): EDAD8030 (previously or concurrently). Not open to non-degree graduate students.

EDL 8560 SCHOOL FINANCE (3 credits)
This course provides a study of the current sources of school financing: local, state, and federal. In addition to a review of the history of school finance, emphasis is placed on current problems in school finance, especially those related to overseeing the financial aspects of a school district.
Prerequisite(s)/Corequisite(s): EDL8550 or permission of the instructor.

EDL 8620 SCHOOL PLANTS AND EQUIPMENT (3 credits)
This course is designed for aspiring superintendents and central office leaders. It will prepare school leaders to be proactive in developing specifications for school buildings that will enhance educational processes. It includes planning procedures for new and remodeled buildings, soliciting support for projects, site selection, design, maintenance and operations of school buildings.
Prerequisite(s)/Corequisite(s): Admission to Graduate College

EDL 8700 LEADING HUMAN RESOURCES IN SCHOOLS (3 credits)
Many human resources functions that had previously belonged to the central office are now the responsibility of school leaders. The field of human resources administration is changing. This course serves as a guide to exemplary practices in leading a school.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8710 INTERPERSONAL RELATIONSHIPS IN EDUCATIONAL LEADERSHIP (3 credits)
This course deals with the establishment of quality interpersonal and group relations among adults in school settings. Candidates will develop an increased awareness of their own and others’ perspectives and will develop dispositions and skills that will allow them to work more productively. This course does not meet the requirements of Nebraska law LB 250 (Multi-Cultural and Interpersonal Relations).
Prerequisite(s)/Corequisite(s): Admission to the Graduate Studies and Department of Educational Leadership or department permission.

EDL 8720 MULTICULTURAL AND NON-SEXIST AWARENESS (1 credit)
This course is designed for certificated educational employees, both teachers and administrators, seeking renewal of Nebraska certification under Nebraska LB 250 (Multi-Cultural and Interpersonal Relations). This course meets the requirements of Nebraska law LB 250 (Multi-Cultural and Interpersonal Relations). The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate level. Permit of department required.

EDL 8730 COMMUNICATION AND CULTURE IN EDUCATIONAL HUMAN RESOURCES (1 credit)
This course focuses upon the interpersonal and professional knowledge, skills, and dispositions of human resources issues and functions for effective leadership in education.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8740 PROFESSIONAL DEVELOPMENT FOR SCHOOL LEADERSHIP (1 credit)
This course addresses strategies and models of planning, implementing, and evaluating adult and organizational learning for effective leadership in education.
Prerequisite(s)/Corequisite(s): Admittance to Graduate College. Not open to non-degree graduate students.

EDL 8750 FUNDAMENTALS OF HUMAN RESOURCES IN EDUCATION (1 credit)
This course examines the frameworks that schools utilize to recruit, select, place, and support faculty and staff. School leaders need human resources skills and knowledge in order to effectively implement strategies and policies related to staff management, motivation, and evaluation.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8780 CAPSTONE IN EDUCATIONAL LEADERSHIP (2 credits)
The capstone in educational leadership synthesizes the program of school administration, supervision, and management in a manner that can be professionally presented and clearly articulated.
Prerequisite(s)/Corequisite(s): Twenty four credit hours must be completed or taken concurrently in educational leadership. Not open to non-degree graduate students.

EDL 8800 SCHOOL LEADERSHIP ACADEMY (3 credits)
A leadership course designed for current and aspiring school administrators and teacher-leaders. The course content will relate administrative theory to operations of schools drawing on research, models, and various organizational structures. This course is specifically designed to bridge leadership and management theory to the practical operations of schools.
Prerequisite(s)/Corequisite(s): Advisor's approval.

EDL 8810 URBAN SCHOOL LEADERSHIP (3 credits)
This course is designed to acquaint candidates with urban concerns and issues which most significantly affect the administration of schools in and around metropolitan areas.
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

EDL 9000 SEMINAR IN RESEARCH DESIGN (3 credits)
This course will provide support and assistance concerning principles of research design as related to topics in educational leadership. Instruction as to appropriate format, style, and content of educational research as well as designing methodology for dissertation proposal will be emphasized.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. EDL 9610 or permission from instructor. Not open to non-degree students.
EDL 9010 ADVANCED SEMINAR IN EDUCATIONAL RESEARCH (3 credits)
This seminar will provide support for doctoral candidates in applying skills of educational research to the creation of a successful dissertation.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 9020 CONCEPTS AND CONTEXTS FOR LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
Concepts and Context for School Libraries will introduce candidates to the broad landscape of school librarianship and its relationship to the greater library and information profession.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Doctoral Program in Educational Administration or other University of Nebraska doctoral program in education, and instructor permission. Not open to non-degree graduate students.

EDL 9110 FIELD PROJECT IN EDUCATIONAL ADMINISTRATION (1-3 credits)
Administrative practitioners will study a current or anticipated educational problem using research techniques. Candidates will review a change process to their school or district that has recently been implemented or is under consideration for future implementation as the capstone work for the Educational Specialist degree.
Prerequisite(s)/Corequisite(s): Admittance to the Ed.S. program and completion of EDL 9200. Candidates are encouraged, but not required, to utilize the project from EDL 9200 for the focus of the field project. Not open to non-degree students.

EDL 9200 ADVANCED PRACTICUM IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is an independent, advanced practicum course meant to help practitioners prepare to be reflective scholars. It builds upon theory and practice of educational leadership and provides a guided experience.
Prerequisite(s)/Corequisite(s): Admittance to the Ed.S. program and completion of EDL 9200. Candidates are encouraged, but not required, to utilize the project from EDL 9200 for the focus of the field project. Not open to non-degree students.

EDL 9500 FRAMEWORKS OF BEST PRACTICE: LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
This class will explore best practice in school libraries using the framework of current national standards for school librarianship preparation programs. Major areas for exploration include but are not limited to teaching for learning, literacy and reading, information and access, advocacy and leadership, and program management and administration.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Joint Doctoral Program in Educational Administration pursuing studies in educational leadership with an emphasis in school librarianship or with instructor permission. Not open to non-degree students.

EDL 9510 SEMINAR IN CULTURE AND CONTEXT OF SCHOOLING (3 credits)
An advanced seminar designed to enhance understanding of the cultural and social forces, trends, and issues that influence the delivery and effectiveness of schooling.
Prerequisite(s)/Corequisite(s): Admission to the Department of Educational Administration and Supervision and the UNL-UNL Joint Ed.D. Program. Not open to non-degree graduate students.

EDL 9520 ACHIEVING SCHOOL EXCELLENCE (3 credits)
An advanced seminar on the pursuit of improvement in education and the role of administration in guiding positive school change through influence, persuasion, power, ethics, and research.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Joint Doctoral Degree program or admission to another University of Nebraska doctoral program. Not open to non-degree graduate students.

EDL 9530 PARADIGMS AND PRACTICES OF SCHOOLING (3 credits)
This is an advanced seminar to explore leadership and supervisory practices. Particular attention will be given to organizational conceptualizations (paradigms) for addressing current educational problems and issues. Candidates will be encouraged to think outside the traditional frames of education in order to improve student achievement in PK-12 schools. When a paradigm shifts, the way we view the world and what we assume to be true dramatically changes. When faced with shifting circumstances, school leaders can turn change into opportunity and opportunity into success.
Prerequisite(s)/Corequisite(s): Admission to the UNO-UNL Joint Doctorate Program. Not open to non-degree graduate students.

EDL 9540 SCHOOL LAW (3 credits)
This course is concerned with laws related to schools. Topics include certification, contract, negligence, student rights, due process, curriculum, and discipline. Each topic is approached through study of most recent court cases.
Prerequisite(s)/Corequisite(s): EDL 8030 (previously or concurrently) or instructor permission. Not open to non-degree graduate students.

EDL 9550 SYMPOSIUM ON SCHOOL LEADERSHIP (3 credits)
The purpose of this seminar is to relate research, theory, and practice in educational organizations. The course is designed to engage candidates with a systematic examination of school reform, best practices, and the implications for practitioners. The symposium will involve candidates with the changing roles and functions of educational leaders in rapidly changing metropolitan educational environments.
Prerequisite(s)/Corequisite(s): Permission of instructor.

EDL 9610 APPLIED INTERMEDIATE STATISTICS IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is designed to develop competence in using intermediate-level statistics. Topics include descriptive and inferential statistics including measures of central tendency and variability, independent and dependent t-tests, correlation analysis, and regression. Emphasis is placed on the appropriateness of statistical methods relative to the type of data involved.
Prerequisite(s)/Corequisite(s): Admission to the UNO-UNL Joint Doctoral Program in Educational Administration or instructor's permission. Not open to non-degree or non-degree graduate students.

EDL 9620 APPLIED ADVANCED STATISTICS IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is designed to develop competence in using advanced-level statistics. The course includes parametric and nonparametric inferential statistics and scale development. The statistical analyses include: analyses of variance, regression analyses, factor and reliability analyses, chi-square, Mann-Whitney U, Wilcoxon Signed-Ranks, and Kruskal-Wallis.
Prerequisite(s)/Corequisite(s): EDL 9510 and must be admitted to the UNO-UNL Joint Doctoral Program in Educational Administration, or instructor's permission. Not open to non-degree or non-degree graduate students.

EDL 9650 PROGRAM EVALUATION FOR EDUCATIONAL ADMINISTRATORS (3 credits)
This course provides an introduction to program evaluation theory and practice. It will address the range of approaches within education human service program evaluation, the standards established by the profession, the "how to" of program evaluation, and the skills needed to conduct program evaluation.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and successful completion of TED 8010 or instructor's permission.
EDL 9670 INQUIRY AND RESEARCH FOR LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
Inquiry and Research for Leadership in School Librarianship will examine current research in the school library field and focus on action research based on authentic need.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Joint Doctoral Program in Educational Administration or to any other doctoral program in the University of Nebraska, or instructor permission. Not open to non-degree graduate students.

EDL 9980 SUPERINTENDENT INTERNSHIP IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is a guided, field-based internship for candidates seeking the school superintendent endorsement from the Nebraska Department of Education (NDE). The internship will provide candidates with experiences in the various roles and responsibilities of a superintendent.
Prerequisite(s)/Corequisite(s): Admittance to the UNO-UNL Joint Doctoral Program in Educational Administration or departmental permission. Candidates must submit an internship application.

EDL 9990 DISSERTATION (1-12 credits)
The course provides doctoral candidates in Educational Administration and Supervision with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation.
Prerequisite(s)/Corequisite(s): Admittance to the UNO-UNL Joint Doctoral Program in Educational Administration and successful completion of doctoral coursework, EDL 9980, doctoral comprehensive examinations, EDL 9000, and EDL 8100. Not open to non-degree graduate students.

Educational Leadership, MS
Department of Educational Leadership, College of Education

Vision Statement
The mission of the Department of Educational Leadership is to develop effective visionary, intellectual, and moral leaders who can cause positive change in education to promote the success of all students. The department’s degree and endorsement programs have a distinctive Metropolitan education orientation. The Department of Educational Leadership offers a Master of Science Degree in Education (MS) as well as non-degree administration endorsement programs for students who have completed a master’s degree. The department also provides a Doctoral Degree in Education (EdD).

kkeiser@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-education/educational-leadership)

Other Program Related Information
To be considered for financial aid students must be admitted to the MS in Educational Leadership. Unclassified and non-degree admission students are not eligible for financial aid consideration.

Students who have earned a previous master’s degree in the education field should apply as Unclassified in Educational Administration.

Students needing fewer than 12 credits for re-certification or professional advancement may apply as Non-Degree. Note that Non-Degree students will need to speak with the department to enroll in required classes.

Admissions
Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
- 2 Letters of Recommendation
- Statement of Purpose
  - 1-2 pages that addresses such topics as why you want to become a school administrator; interests; experiences; and career goals
- Resume
- Copy of Teaching Certificate
- Professional Fitness Statement (formally Rule 20/21)
- Evidence that the candidate has met the State of Nebraska’s Special Education and Human Resources requirements. Most candidates will probably have satisfied this requirement while earning their teaching endorsements; if not, they will be required to complete relevant coursework.

Educational Administration, EdD

Department of Educational Leadership, College of Education

Vision Statement
The mission of the Department of Educational Leadership is to develop effective visionary, intellectual, and moral leaders who can cause positive change in education to promote the success of all students. The department’s degree and endorsement programs have a distinctive Metropolitan education orientation. The Department of Educational Leadership offers a Doctoral Degree in Education (Ed.D.) jointly with the University of Nebraska-Lincoln. The department also provides a Master of Science Degree in Education (MS), as well as non-degree administration endorsement programs for students who have completed a master's degree.

Elementary Education, MS

Department of Teacher Education, College of Education

Vision Statement
The master’s degree in Elementary Education will:
• Extend 21st-century teaching skills and technology applications.
• Enhance the ability to design engaging, authentic instruction for today’s students.
• Emphasize diversity and culturally responsive teaching.
• Expand professional connections with educators from Midwestern and metro school districts with diverse perspectives.
• Encourage engagement with the community.
• Enable graduate students to make course selections that best fit their individual learning needs in a flexible program.

rpasco@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-education/teacher-education/graduate/elementary-education.php)

Other Program-Related Information
The master’s degree in Elementary Education does not lead to initial teacher certification.

Unclassified Students
Students who are not planning to pursue a program leading to a graduate certificate or a master’s degree can be admitted to the Elementary Education program as unclassified students. Candidates holding a previous master’s degree in education who are seeking additional teaching endorsements may wish to choose an unclassified status. Unclassified students are allowed to take courses for which they meet the prerequisite. Successful completion of graduate courses as an unclassified student does not obligate the department to accept those courses for credit toward the fulfillment of degree requirements. Formal advisement in an endorsement area is required.

Admissions
Application Deadlines
• Fall: August 1
• Spring: December 1
• Summer: June 1

Program-Specific Requirements
• A minimum undergraduate GPA of 3.0 (on a 4.0 scale)
• A valid teaching certificate or statement of interest in/evidence of work or research with children, youth, or adults in teaching and learning environments.
• UNO College of Education’s Personal and Professional Fitness Form
• International students who do not intend to teach in the U.S. may be eligible for admission.
  • International students seeking admission to the graduate program must have a minimum TOEFL score of 550 paper, 213 computer, or 80 internet based, 6.5 IELTS, or 53 PTE
• Contact the TED Graduate Program Chair for additional information.
• All new graduate candidates are admitted provisionally. When candidates successfully complete twelve (12) TED graduate credit hours, candidates will work with their assigned advisor to complete the formal admissions process required to achieve an unconditional admission status. The formal admission process replaces all admission exams.

Degree Requirements
Formal Admission
Candidates are admitted provisionally until completion and successful evaluation of formal admission materials. Submitted materials are reviewed to determine if the candidate’s status will be changed to fully admitted after successful completion of 12 graduate hours. The formal admission process replaces the admission exam.

To move from provisional to formally admitted:
• During the term in which you will complete 12 hours of TED courses -
  • Submit a formal letter of application
  • Complete a degree plan of study with an assigned advisor

- Instruction in Urban Schools Certificate (p. 858)

### TED 8000 SPECIAL STUDIES (1-3 credits)

A series of intensive studies especially for in-service teachers scheduled as regular seminars or classes, according to purpose.

Prerequisite(s)/Corequisite(s): Graduate status
TED 8055 FOUNDATIONS OF ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)
This course is designed to enhance candidates’ understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Language Learners (ELLs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Language Learners (ELLs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education’s English as a Second Language (ESL) teaching endorsement; required for undergraduate students pursuing the ESL endorsement. (Cross-listed with TED 3050).
Prerequisite(s)/Corequisite(s): TED 2300 (EDUC 2010) prior to or concurrent enrollment.

TED 8060 CURRENT ISSUES AND TRENDS IN EDUCATION (3 credits)
The course is an advanced study of current issues and trends which have substantial impact on PK-12 education. The graduate candidates who take this class will read, analyze, and evaluate relevant research in order to become conversant in those issues.
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8070 TEACHING MULTIPLE INTELLIGENCE (3 credits)
This course focuses on the utilization of the multiple intelligences (MI) theory by teachers to enhance children’s understanding of various disciplines. Graduate candidates will have the opportunity to explore, evaluate, and develop various methodologies that foster understanding.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8080 STORYTELLING AND EDUCATION (3 credits)
This course is designed to consider the importance of storytelling, to provide teacher candidates with the background materials for storytelling, to study resource material for storytelling from a variety of cultures, and to develop techniques for storytelling. Actual experience in storytelling and opportunities for evaluating storytelling experiences will be provided.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8090 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles, teaching strategies, and curriculum materials and how they can be related to the teacher’s classroom presentation. This course is designed to furnish the teachers with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles to help the teacher become an effective teacher of economics K-12.
Prerequisite(s)/Corequisite(s): Open to any graduate candidates with no previous college work in economics who are teaching K-12. Not open to majors in economics.

TED 8100 RESEARCH PROJECT (1-3 credits)
This course is designed for individual or group study and analysis of specific problems in schools dealing with curriculum and instruction in areas which have a broad scope of application rather than a specific level.
Prerequisite(s)/Corequisite(s): Approval of Advisor.

TED 8110 INTRODUCTION TO MULTICULTURAL EDUCATION (1 credit)
This course is designed for certificated teachers seeking renewal of Nebraska certification under Nebraska LB 250. The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8120 LANGUAGE, CULTURE, AND POWER (3 credits)
This course will focus on the intersection of language, culture, and power in the schools. This seminar will research how each component impacts the students and teachers in the classroom.

TED 8150 ANTI-RACISM EDUCATION: PRINCIPLES AND PRACTICES (3 credits)
This course provides a theoretical analysis of race, racism in the United States, and the implications for anti-racist education. In addition to exploring the key features of anti-racism education, the course also addresses other axes of oppression, namely, class and gender, with a critical focus on racialized power and privilege, and how such features function in the broader U.S context as well as the schooling environment. Of equal importance is a critical interrogation of the historical, ideological, and political processes that produce and maintain racism. Course participants explore pedagogies, curriculum, and school leadership strategies as mechanisms for instituting anti-racism work in schools and communities.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8170 DEVELOPMENTAL ASSESSMENT OF THE YOUNG CHILD (3 credits)
This course is designed as a survey of developmental assessment in early childhood education (ages birth to eight years). Selection of assessment tools and strategies, implementation, data collection, analysis of results, and teaching impact are addressed in context of key assessment purposes in the early childhood field.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8180 CULTURALLY RESPONSIVE TEACHING (3 credits)
This course includes an introductory analysis of the societal and institutional processes and problems which have bearing upon the education of children in urban settings. In addition, the course will focus on knowledge, skills and dispositions related to instructional strategies and classroom management needed for effective teaching in an urban environment.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8190 CONTEMPORARY ISSUES IN URBAN EDUCATION (3 credits)
This course is designed for candidates who wish to keep abreast of contemporary issues which confront the educational institution and teaching profession within the urban milieu.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8200 SOCIAL WORLDS OF THE YOUNG CHILD (3 credits)
This course will explore theoretical and cultural perspectives on the social and emotional development of young children. This course will also examine the relationship between social emotional development, guidance practices, democratic life skills, and school readiness.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8210 THE PRINCIPLES OF MULTICULTURAL EDUCATION (3 credits)
This course will develop practicing teachers’ awareness of and skill in meeting the needs of P-12 students with regards to the areas of human understanding, acceptance and value. Candidates will examine existing attitudes towards various minority groups such as racial, ethnic, gender, exceptionality, etc. School materials and attitudes will also be examined in determining the effect they have on PK-12 students.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8220 PLAY AS A LEARNING MEDIUM IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides an in-depth examination of young children’s play and its curricular role in the early childhood classroom. The origins, developmental outcomes, assessment, curricular implementation, and evaluation of play will be covered, with an emphasis on play as a major component of developmentally appropriate practice with young children. The focus is on teachers learning to help children become partners in the operation of the learning environment.

TED 8230 LITERATURE FOR THE YOUNG CHILD (3 credits)
Literature for the young child is examined through the lens of developmentally appropriate practice for informing educators’ interactions with children and also for developing high-quality, literature-related projects of study across the early childhood (birth-through-age-eight) continuum.
Prerequisite(s)/Corequisite(s): Graduate Status.
TED 8240 FAMILY, SCHOOL, AND COMMUNITY PARTNERS (3 credits)
This course will examine the purposes and methods for developing family, school, and community partnerships. Candidates will explore characteristics of diverse families and develop the skills necessary for planning, design, implementation, and evaluation of effective partnerships in early childhood settings.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8250 ASSESSMENT FOR CLASSROOM TEACHER (3 credits)
This course studies assessment principles, effective practices, and classroom assessment processes throughout the curriculum. The research regarding assessment for learning is studied and application is made to classroom practices.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8260 ADVANCED CURRICULUM IN EARLY CHILDHOOD (3 credits)
This course is designed to provide an in-depth examination of the processes used in selecting and implementing appropriate curricular content in programs for children ages three to eight years. Particular emphasis is on the role of the teacher as a dedicated practitioner and reflective scholar in the early learning environment.

TED 8270 TRENDS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides a context for examining socio-political and research-based influences underlying trends in early childhood education at the local, national and international levels.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8286 PATTERNS OF CARE IN EARLY CHILDHOOD EDUCATION (3 credits)
Exploration of contemporary patterns of home and school care of the young child from birth to six years.

TED 8296 LEARNING MATERIALS FOR EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed to promote the development of sound criteria for use in selecting appropriate learning materials for children from three to eight years of age.
Prerequisite(s)/Corequisite(s): TED 8260

TED 8300 EFFECTIVE TEACHING PRACTICES (3 credits)
This course focuses on specific characteristics and behaviors of effective teachers. Course content will be derived from research on teaching and learning.
Prerequisite(s)/Corequisite(s): Graduate Status

TED 8330 ANALYSIS OF TEACHER BEHAVIOR (3 credits)
This course is designed for educators who want to study, implement, reflect upon and share best practice. Candidates will examine the role and responsibilities of teachers as educational leaders and assume a role in advancing the scholarship of teaching.

TED 8376 TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TED 4370).
Prerequisite(s)/Corequisite(s): TED 4370, EDUC 2510, EDUC 2520, EDUC 2524

TED 8396 TEACHING AT THE MIDDLE SCHOOL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TED 4390).
Prerequisite(s)/Corequisite(s): Junior standing, TED 4370, EDUC 2510, EDUC 2520, EDUC 2524

TED 8410 IMPROVEMENT OF INSTRUCTION: SPECIAL TOPICS (3 credits)
This course provides an in-depth study of instructional theory, research, and methodology designed to extend teachers' professional knowledge base and enhance their pedagogical skills. When offered, a course may be limited to improvement of instruction in a selected subject area. (Cross-listed with STEM 8410).
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8420 TRENDS AND TEACHING STRATEGIES IN SCIENCE EDUCATION (3 credits)
This course is designed for the graduate candidate in the Department of Teacher Education whose study program emphasis is in the area of science education. The course will describe and analyze past and present trends in science education, including curricula, teaching-learning strategies, the laboratory and instructional materials. The course focus will be K-12 and as such is meant to serve both elementary and secondary graduate candidates. (Cross-listed with STEM 8420).

TED 8430 SCHOOL CURRICULUM PLANNING (3 credits)
This course is designed to provide advanced degree candidates with an understanding of the theory, principles, and practices utilized in curriculum planning in American schools. This course focuses on the principles and practices of effective curriculum planning and teachers' part in these processes as curriculum developers. (Cross-listed with STEM 8430).

TED 8470 TEACHING THE LANGUAGE ARTS (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching reading, writing, listening, and speaking. Candidates will learn about research supported appropriate language arts instruction strategies and assessments. This course will inform graduate students as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

TED 8480 FOUNDATIONS OF BILINGUAL EDUCATION (3 credits)
This course is designed to give future and current teachers a thorough understanding of the theoretical, political, historical, and practical foundations of bilingual/multicultural education in the United States. As dedicated practitioners, reflective scholars, and responsible citizens, graduate students will have knowledge of factors that contribute to effective multilingual and multicultural learning environments that promote individual and societal bilingualism. Advanced Spanish language proficiency required.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8490 SPANISH LANGUAGE ARTS (3 credits)
This course is designed to reinforce first and second language acquisition theory as it relates to dual immersion settings. Best practices for developing and reinforcing bilingualism and biliteracy are presented and used for planning and delivering instruction. Spanish fluency is required for the course.
Prerequisite(s)/Corequisite(s): Graduate status required for graduate students pursuing the bilingual education endorsement and concentration (does not lead to a Nebraska Department of Education teaching endorsement). Advanced Spanish language proficiency required.

TED 8510 AEROSPACE EDUCATION WORKSHOP (3 credits)
This course will focus on aviation and space education and its impact on society. It will seek to communicate knowledge, impart skill, and develop attitudes relative to the scientific, engineering and technical as well as the social, economic and political aspects of aviation and space flight efforts. (Cross-listed with AVN 8510, STEM 8510).
Prerequisite(s)/Corequisite(s): Graduate standing.
TED 8520 SCHOOL LIBRARY CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their schools and communities.
Prerequisite(s)/Corequisite(s): There are no course prereqs for the Capstone Practicum but candidates must be in the final 2 semesters of their library media program & must complete an application for the Practicum the semester prior to their practicum. Not open to non-degree grads.

TED 8530 INSTRUCTIONAL DESIGN STRATEGIES FOR STEM EDUCATORS (3 credits)
This course is designed to provide graduate candidates with the opportunity to enhance interdisciplinary instructional strategies, curricular understanding, and lesson preparation in the areas of science, technology, engineering, and mathematics (STEM) through analysis and reflective practices in STEM. This course provides hands-on experiences that model STEM integration techniques, including how to effectively engage with community agencies and partners to bring STEM into the classroom. Teacher professionals will be provided with tools, resources, and strategies to help them explore and enhance current, new, or supplemental curriculum activities that will enhance STEM learning, student engagement, and motivation. (Cross-listed with STEM 8530).
Prerequisite(s)/Corequisite(s): Graduate Standing

TED 8540 INTRO TO TECHNOLOGY TOOLS FOR LEARNING (3 credits)
This course is designed to help educators become comfortable and competent with infusing a wide variety of computer-mediated educational technologies into the learning environments of the students with whom they work, as well as become familiar with philosophical, psychological and sociological notions of the impacts of computer applications upon social institutions, such as schools.

TED 8550 DIGITAL MULTI-MEDIA IN LEARNING (3 credits)
This course provides participants with an introduction to the use of multimedia for teaching and learning. Participants will research and share the current knowledge base on the issues and effectiveness of various media learning programs, gain experience with multimedia applications, create multimedia learning materials, evaluate existing multimedia learning opportunities and articulate personal principles concerning multimedia instruction and learning.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8560 SUPPORTING INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for educators who wish to become better advocates of technology integration in the classroom and/or to become a Technology Coordinator or Educational Technician in all curricular areas and all grade levels. Course candidates will learn to use problem-solving skills to evaluate and implement strategies to keep technology up to date, effectively use technology in the classroom, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8570 INTERNET IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators actively explore instructional implementations of Internet use appropriate for use in K-12 classrooms, successful diffusion of Internet innovations in educational environments, and emerging multicultural “breaking down the walls of the classroom” concepts available to educators through Internet use.

TED 8580 COLLABORATION TOOLS IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators design, author, and utilize collaborative web-based instructional materials that will implement active learning and will be appropriate for use in K-12 classrooms.
Prerequisite(s)/Corequisite(s): TED 8570 or equivalent

TED 8596 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course introduces technology and technical literacies required of educators and information specialists in 21st Century libraries and classrooms. Course topics include information literacy, instructional design in digital environments, Web page design and construction, social networking and learning, and academic integrity. (Cross-listed with TED 4590).

TED 8600 ADVANCED SEMINAR IN EDUCATIONAL TECHNOLOGY (1-3 credits)
This is a variable content course focusing on selected advanced topics in educational technology. Course topics will include such subjects as optical technologies, robotics, distance education, and virtual realities. The course may be taken more than once for credit, provided that the topics differ, with a maximum of 6 credit hours.

TED 8610 TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing genres extend throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8620 ADVANCED SUPPORT OF INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for P-12 educators who wish to become better advocates of technology integration or become technology coordinators or school technicians. Course enrollees will evaluate and implement advanced strategies to keep technology up to date, effectively use technology, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): TED 8560

TED 8650 CHILDREN’S LITERATURE AND EDUCATION (3 credits)
Candidates in this graduate course will explore story, poetry, drama, and informational materials for elementary students with an emphasis on methods for including literature in school curricula with an awareness of diverse children’s lives, discourses, and understandings. Examines current issues, recent materials, and the theoretical and research base of this field to develop meaningful and creative learning, literacy, and library experiences for children.

TED 8660 YOUNG ADULT LITERATURE (3 credits)
This course extends candidates’ knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8690 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economics education, i.e. economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, candidates develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. Not open to economics majors. (Cross-listed with ECON 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.
TED 8695 LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 3690).
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550.

TED 8700 ELEMENTARY EDUCATION CAPSTONE COURSE (3 credits)
This course is designed as a required, final capstone course for Elementary Education graduate students to be taken in the last nine hours of the Master of Science program. A grade of B or better must be received in TED 8700 to show satisfactory completion of the course and for program completion.
Prerequisite(s)/Corequisite(s): TED 8010 and permission of the Elementary Education Program Chair. Not open to non-degree graduate students.

TED 8710 RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 8726 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 4720).

TED 8746 ORGANIZATION OF INFORMATION (3 credits)
Candidates will demonstrate a basic understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 4740).

TED 8756 ADVANCED CATALOGING AND CLASSIFICATION (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging of non-book materials (including serials and digital resources) in 21st Century libraries and information agencies using the Library of Congress and Dewey Decimal classification schemes and Library of Congress subject headings. (Cross-listed with TED 4750).
Prerequisite(s)/Corequisite(s): TED 8746

TED 8760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources.

TED 8770 INTEGRATING TECHNOLOGY INTO INSTRUCTIONAL DESIGN (3 credits)
The purpose of this course is to introduce participants to effective methods for the integration of educational media into instructional design, thereby further developing themselves as dedicated practitioners, reflective scholars and community leaders. The course provides participants (1) knowledge of broad instructional design theories and models with a concentration on constructivism, (2) experience in designing instruction that effectively integrates technology into the teaching-learning process, and (3) experience in producing instructional media. This course is intended to provide fundamentals in the selection, evaluation, production, application and utilization of educational media. This course is designed for in-service library media or instructional technology specialists as well as regular classroom teachers. It is also useful for others interested in learning about the various types and applications of educational media.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8800 MULTICULTURAL LITERATURE FOR CHILDREN AND YOUTH (3 credits)
This is designed as a graduate-level course dealing with utilization of literary materials representing authors and content from multiple perspectives, particularly authors whose cultural and ethnic backgrounds differ from the mainstream.

TED 8806 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
Candidates will demonstrate an understanding of the concepts and activities integral to leading and managing 21st Century libraries and information agencies. Candidates will demonstrate an understanding of leadership principles and management strategies that engage policies and procedures in support of the personal, academic and professional information needs for a diverse array of patrons and stakeholders. (Cross-listed with TED 4800).
Prerequisite(s)/Corequisite(s): Graduate status or non-degree graduate student

TED 8810 STEM IN EARLY CHILDHOOD EDUCATION: CURRICULUM AND RESEARCH (3 credits)
This course will explore theoretical and foundational pedagogical strategies in early childhood education used to deliver integrative STEM education in the preK-12 setting. In order to understand the research and practice of STEM disciplines in preK-12, it is necessary to examine the social, cultural, political, and functional aspects that influence them. Candidates will investigate the nature of STEM education, Early Childhood Education (ECE) pedagogy and perspectives of learning, content knowledge and dispositions for educators of STEM topics, and issues of access and equity for STEM education through literature, discussion, and practice. This course includes a community outreach component in which candidates will use qualitative methods to observe class topics in public settings. (Cross-listed with STEM 8810)
Prerequisite(s)/Corequisite(s): Graduate status

TED 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 4810).
TED 8820 CAPSTONE IN STEM EDUCATION (3 credits)
This course will prepare graduate students for the integration, articulation, and differentiation of curriculum and instruction in and between the STEM core areas of Science, Technology, Engineering, and Mathematics. Special emphasis will be on using the STEM core content to help provide applications and context to existing science and mathematics curriculum and instruction and on providing leadership in developing curriculum for mathematics and science dependent courses in engineering and technology. Prerequisite(s)/Corequisite(s): Graduation status. Not open to non-degree graduate students.

TED 8840 ENGINEERING EDUCATION EXTERNSHIP (3 credits)
This graduate course will address the best practice of effective teaching and learning in Engineering Education through professional collaboration between K-12 STEM (Science, Technology, Engineering, and Mathematics) teachers and practicing engineering professionals. K-12 STEM teachers, as graduate students in the course, will learn about and address real-world applications and career opportunities in STEM education through the externship. K-12 STEM teachers will research and develop authentic, experiential learning opportunities and projects for the classroom through course supports associated with lecture, discussion, and partnerships with practicing engineering professionals. The externship will be integral to the K-12 STEM teachers' experiences and work in this course, as the course models effective professional collaboration founded on experience, knowledge, and skills to achieve a curriculum enhancement goal. K-12 STEM teachers' project-development work will align closely with current national and Nebraska science, technology, and mathematics standards as well as with the interdisciplinary context of STEM instruction, through the instructional lens and context of utilizing the engineering design process. (Cross-listed with STEM 8840)
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

TED 8850 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with SPED 8850).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

TED 8856 COORDINATION TECHNIQUES IN VOCATIONAL EDUCATION (3 credits)
This course reviews responsibilities and techniques of coordination for the vocational teacher-coordinator and/or vocational coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 4850).

TED 8860 INVENTION & INNOVATION IN ENGINEERING EDUCATION (3 credits)
This course will address emerging trends in STEM education for in-service K-12 STEM teachers with a focus on the use of engineering education practices in teaching and learning content. STEM teachers will receive applicable, hands-on, classroom-ready experiences through lecture, professional instruction, and projects that will emphasize product design and creation through the Engineering Design Process. The Engineering Design Process will be central to the candidates’ experiences in this course and will be used by the candidates to develop curriculum utilizing emerging trends to supplement current course content and standards. Interdisciplinary planning will be central to the course. (Cross-listed with STEM 8860).
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8880 LEADERSHIP IN EARLY CHILDHOOD EDUCATION (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8900 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments.
Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8970 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently.
Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8980 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner.
Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8990 THESIS (1-6 credits)
This course is an independent research project completed under the direction of a thesis advisor and required of all candidates pursuing a Master of Science with Thesis option.
Prerequisite(s)/Corequisite(s): Completion of Selective Retention and approval of advisor. Not open to non-degree graduate students.

TED 9100 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course develops a framework about the theories, models, practices, processes, and related research associated with literacy. The content looks across grade levels and student populations, and across social and cultural contexts in an examination of factors that impact theories and processes of literacy.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 9110 PRINCIPLES AND PRACTICES FOR TEACHING READERS (3 credits)
This graduate course for both elementary and secondary teachers is open to any candidate who has graduate standing in education. The purpose of the course is to develop a broad understanding of the reading process as well as materials and instructional strategies that support students who are emerging, developing, and maturing as readers in all areas of the curriculum.
TED 9130 ASSESSMENTS AND INTERVENTIONS - ELEMENTARY (3 credits)
This course is designed for graduate candidates enrolled in the Literacy Masters or Reading Specialist endorsement program. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches that support reading development. This knowledge is applied through a practicum experience with elementary students in which candidates integrate knowledge and practices related to assessment and evaluation of readers' strengths and needs.

TED 9140 ASSESSMENT AND INTERVENTION - SECONDARY (3 credits)
This course is designed for graduate candidates in literacy endorsement and Master's programs. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches as they relate to reading difficulties among middle and high school students. Included in this course is knowledge about the role and responsibility of a literacy leader as it relates to coaching, mentoring, supervision, and evaluation of a reading program. Application of this information is demonstrated through a practicum experience with middle and high school students in which candidates integrate knowledge and practices related to assessment and evaluation of readers' strengths and needs.

TED 9180 LITERACY RESEARCH SEMINAR (3 credits)
This course will develop advanced degree candidates' understanding and ability to critically examine current literacy research through work with (1) scientific methods of quantitative and qualitative research (2) discussion of historical trends in literacy research, (3) designs, methods, and tools of research, and (4) reviewing and critically examining current research studies in literacy. These examinations will be conducted from the perspectives of knowledge about literacy processes, classroom practice, and influence of previous research results. Teacher candidates will apply these issues in an action research project they design.

TED 9190 LITERACY GRADUATE CAPSTONE (3 credits)
This course is designed to help Literacy Masters students synthesize the knowledge gained from the program in order to serve as literacy leaders within the complex organizations of classrooms, schools, and school districts. In this course students will integrate their learning across the program in order to organize their future activities in teaching, leadership, advocacy, and engagement opportunities in ways that honor the interrelationships among classroom, school, sociocultural and economic contexts. They will prepare to engage with all literacy education stakeholders in cutting edge, innovative ways that advance both the learning of PK-12 students and the literacy education field.
Prerequisite(s)/Corequisite(s): This course is designed as a capstone event. Accordingly, students must have no more than 6 additional remaining credit hours of coursework. Permit to enroll required.

TED 9200 CRITICAL PEDAGOGY: TEACHING FOR SOCIAL JUSTICE (3 credits)
This course examines ways in which ideology, power, and culture intersect in P-12 educational settings. Undemocratic, inequitable, and oppressive structures are identified. Possibilities for democratic, equitable transformations are proposed.
Prerequisite(s)/Corequisite(s): Graduate status

English
Degree Programs Offered
• English, MA (p. 726)

Certificates Offered
• Advanced Writing Certificate (p. 728)
• Teaching English to Speakers of Other Languages Certificate (p. 729)
• Technical Communication Certificate (p. 729)

ENGL 8010 SEMINAR: LITERARY RESEARCH (3 credits)
A survey of the resources, methodologies, and protocol for conducting and reporting the results of research appropriate to graduate-level study in English and its related disciplines.

ENGL 8020 SEMINAR: COLLEGE WRITING INSTRUCTION (5 credits)
The seminar in college writing instruction prepares Graduate Teaching Assistants to fulfill their responsibilities as teachers of first-year composition.
Prerequisite(s)/Corequisite(s): Graduate status and a teaching assistantship. Not open to non-degree graduate students.

ENGL 8025 AMERICAN POETRY (3 credits)
The practice and theory of American poetry from the colonial period up to the contemporary period. Formerly ENGL 4930/8936. (Cross-listed with ENGL 4020).

ENGL 8030 FIELD-BASED RESEARCH METHODS IN ENGLISH STUDIES (3 credits)
An overview of resources and methods for conducting qualitative, field-based research in English and related disciplines; students gain experience collecting data and analyzing data and reporting findings.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in English or permission of instructor. Not open to non-degree graduate students.

ENGL 8046 CONTEMPORARY POETRY OF ENGLAND AND AMERICA (3 credits)
A study of English and American poetry, the important ideas it contains, and the relevant critical theory of the contemporary period. Formerly ENGL 4910/8916. (Cross-listed with ENGL 4040).

ENGL 8066 THE AMERICAN NOVEL (3 credits)
A comprehensive survey of the evolution of the American Novel from 1789 to the present day. Special emphasis will be placed on how authors have responded to changing cultural circumstances and expressed widely varying viewpoints depending on their own gender, race, geographic region, and/or ethnicity. (Cross-listed with ENGL 4060).

ENGL 8100 SEMINAR: TOPICS IN AMERICAN LITERATURE (3 credits)
Individual research and group discussion relating to a general topic in American literature. (The course may be repeated for additional credits under different topics.) Formerly ENGL 8060.

ENGL 8146 AMERICAN LITERARY REALISM AND NATURALISM (3 credits)
This course examines a wide range of 19th- and 20th-century American literary works, written by male and female authors of various races, geographic regions, and ethnicities. The influence of cultural, economic, political, and social environments on the construction and reception of these works will be emphasized. (Cross-listed with ENGL 4140).

ENGL 8160 SEMINAR: POSTMODERN FICTION OF THE UNITED STATES (3 credits)
A seminar in American Fiction from the second half of the twentieth century into the twenty-first century which presents and discusses some of the major trends and issues associated with postmodern culture in America.

ENGL 8166 TOPICS IN AMERICAN REGIONALISM (3 credits)
A study of major trends in American literary regionalism, with special emphasis on social, cultural, and ecological contexts. Focus will be determined by instructor, but may include particular authors, literary themes, historical periods, or geographic regions. (Cross-listed with ENGL 4160).

ENGL 8180 SEMINAR: CONTEMPORARY AMERICAN POETRY (3 credits)
A study of the work of selected contemporary American poets, especially the technical aspects of the poetry. Texts usually will be a full single volume by each poet or in some cases the selected or collected works of a poet. Formerly ENGL 8920.
ENGL 8186 MAJOR MOVEMENTS IN CONTEMPORARY LITERATURE (3 credits)
A critical study of selected major literary figures or major literary movements which have appeared since World War II. Formerly ENGL 4950/8956 Contemporary Literature: Major Figures and Major Movements. (Cross-listed with ENGL 4180).

ENGL 8200 SEMINAR: MIDDLE ENGLISH LITERATURE (3 credits)
A study of selected writings in Middle English.
Prerequisite(s)/Corequisite(s): Graduate and one course in Middle English language or writings.

ENGL 8236 LATINO LITERATURE (3 credits)
A study of representative works of Mexican-American, Spanish-American, and American writers, along with their cultural and historical antecedents. Formerly ENGL 4180/8186 Chicano Literature and Culture. (Cross-listed with ENGL 4230).
Prerequisite(s)/Corequisite(s): Graduate, permission.

ENGL 8246 TEACHING LATINO LITERATURE (3 credits)
This course is designed specifically for current or future teachers of high school students. It introduces pedagogical approaches of contemporary literature by Latinos/as in the United States. The course provides an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from mid-19th Century to the present and complement that with social, cultural, historical and other approaches to developing teaching strategies. (Cross-listed with ENGL 4240)

Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 8250 SEMINAR: CHAUCER (3 credits)
A study of selected works of Geoffrey Chaucer.

Prerequisite(s)/Corequisite(s): Graduate and one course in Middle English language or writings.

ENGL 8256 INTRODUCTION TO WOMEN'S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluate standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 2450).

ENGL 8266 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray women. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with ENGL 4260).

Prerequisite(s)/Corequisite(s): Graduate English major or permission of instructor.

ENGL 8276 WOMEN WRITERS OF THE WEST (3 credits)
A survey of American and Canadian women writers who explore issues of settlement, land use, cultural displacement, and survival in western territories, states, and provinces. Readings span 19th and 20th-Century literacy and reflect the cultural diversity of the American and Canadian wests. (Cross-listed with ENGL 4270 and WGST 4270).

Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalent; ENGL 2410 recommended.

ENGL 8300 SEMINAR: SHAKESPEARE (3 credits)
Critical analysis of ten tragedies, ten histories, or ten comedies of Shakespeare. Formerly ENGL 9120.

ENGL 8310 ECOLOGICAL WRITING AND ANALYSIS (3 credits)
This course provides students with the opportunity to develop expertise in a wide range of foundational works and key techniques of ecological writing and theory in English. By engaging mindfully with these works and techniques, students will develop advanced skills in ecologically oriented critical analysis and creative thinking. This course supports the Writing and Critical Reflection and the Health and the Environment concentrations in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8310)

ENGL 8316 MIDDLE ENGLISH LITERATURE (3 credits)
A survey of the principal writings in English, excluding those of Chaucer, from 1100 to 1500. Formerly ENGL 4320/8326. (Cross-listed with ENGL 4310).

ENGL 8326 CHAUCER (3 credits)
A literary, linguistic, and historical study of the works of Geoffrey Chaucer: his dream visions, Troilus and Criseyde, and the Canterbury Tales. Formerly ENGL 4340/8346. (Cross-listed with ENGL 4320).

ENGL 8346 SHAKESPEARE (3 credits)
A critical study of selected plays from among the four traditional Shakespearean genres: comedy, history, tragedy, and romance. Formerly ENGL 4600/8606. (Cross-listed with ENGL 4340).

ENGL 8356 SHAKESPEARE'S CONTEMPORARIES (3 credits)
A study of the development of the English drama, exclusive of Shakespeare, from the beginning to 1642. Formerly ENGL 4500/8506. (Cross-listed with ENGL 4350).

ENGL 8376 RESTORATION AND 18TH CENTURY LITERATURE (3 credits)
Poetry, prose (exclusive of the novel), and drama of England in the Restoration and 18th century (1660-1800), with emphasis on Swift and Johnson. Formerly ENGL 4620/8620. (Cross-listed with ENGL 4370).

ENGL 8396 MEDIEVAL CELTIC LITERATURE (3 credits)
This course examines the literature and culture of the Celtic civilizations. The course examines the archiological record and texts about the Celts by Greek and Roman authors, as well as later medieval tales from the Irish, Welsh, and Breton traditions. All texts are in translation with guided reference to the original languages. (Cross-listed with ENGL 4390).

Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420 and one ENGL course above 3299, or instructor permission; ENGL 2310 recommended. Not open to non-degree graduate students.

ENGL 8400 SEMINAR: ENGLISH RENAISSANCE (3 credits)
A seminar in a few significant literary figures of the English Renaissance. Formerly ENGL 8080.

ENGL 8410 IMMIGRATION, MIGRATION, AND DIASPORA: CRITICAL APPROACHES AND THEORIES OF MOVEMENT IN LITERATURE (3 credits)
This seminar in literature and some film analyzes the depictions in non-fiction and fiction of displacement as a result of immigration, migration, refugee status, or any other considered movement, intentional or imposed. It will focus largely on the U.S. experiences of those displaced from all locales. (Cross-listed with CACT 8410).

Prerequisite(s)/Corequisite(s): Graduate standing.

ENGL 8416 LITERATURE OF THE ROMANTIC PERIOD (3 credits)
Poetry and prose (excluding the novel) of England from 1798 to 1830. Formerly ENGL 4810/8816. (Cross-listed with ENGL 4410).

ENGL 8426 LITERATURE OF VICTORIAN PERIOD (3 credits)
English poetry and prose (excluding the novel) from 1830 to 1900. Formerly ENGL 4820/8820. (Cross-listed with ENGL 4420).

ENGL 8436 THE 19TH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Jane Austen to Thomas Hardy. Formerly: ENGL 4650/8656. (Cross-listed with ENGL 4430).

ENGL 8450 SEMINAR: JOHN MILTON (3 credits)
Intensive seminar in the major works of John Milton and investigation of specific critical and scholarly problems. Formerly ENGL 8140.
ENGL 8486 20TH CENTURY ENGLISH LITERATURE (3 credits)
Readings in English literature from Shaw and Yeats to the present. Formerly ENGL 4850/8856. (Cross-listed with ENGL 4480).

ENGL 8500 SEMINAR: RESTORATION AND 18TH CENTURY (3 credits)
A detailed study of selected English authors and works of the Restoration and the 18th century (1660-1800). Formerly ENGL 8090.

ENGL 8600 SEMINAR: 19TH CENTURY ENGLISH LITERATURE (3 credits)
An intensive study of selected Victorian authors and their works. Formerly ENGL 8100.

ENGL 8610 PROFESSIONAL AND TECHNICAL WRITING (3 credits)
This course will introduce students to the theory, research, and practices of professional and technical writing. Through readings, discussions, and assignments, students will gain an understanding of the types and circumstances of communication challenges encountered in the workplace. The course will also consider the roles of persuasion and ethics in written communication. (Cross-listed with CACT 8610).

ENGL 8615 INTRODUCTION TO LINGUISTICS (3 credits)
An introduction to the concepts and methodology of the scientific study of language; includes language description, history, theory, variation, and semantics as well as first and second language acquisition. Formerly ENGL 8616. (Cross-listed with ENGL 3610).
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent

ENGL 8620 SEMINAR: JANE AUSTEN (3 credits)
This seminar examines Jane Austen’s oeuvre from her juvenilia to her posthumous fragments, giving particular emphasis to her six great novels, Northanger Abbey, Sense and Sensibility, Pride and Prejudice, Mansfield Park, Emma, and Persuasion. Austen biography and scholarship provide the framework for studying her literary career.

ENGL 8626 HISTORY OF ENGLISH (3 credits)
A critical study of both the internal and external histories of English. Includes historical development of English phonology, morphology, graphics, syntax, diction, dialects, and semantics. (Cross-listed with ENGL 4620).

ENGL 8630 DIGITAL RHETORIC (3 credits)
This course provides students with the opportunity to develop expertise in the theory and practice of digital rhetoric by considering technology's deep impact on how we define and engage in writing. Students examine contemporary writing practices as part of a rich rhetorical tradition while they design and create effective multimodal compositions and analyze foundational works in digital rhetoric. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8630).

ENGL 8640 CREATIVE NONFICTION IN DIGITAL ENVIRONMENTS (3 credits)
Students in this course will study creative nonfiction in digital environments, analyze rhetorical situations created in digital environments, and create individual creative nonfiction blogs-which might include, in addition to other modalities, sounds, animations, and hypertext. The course will also focus on the study and analysis of craft-elements of creative nonfiction: narrative persona, tone, rhythm and style, scenic construction, among others. Students taking this course will learn to read with interpretative and analytical proficiency a broad range of creative nonfiction in digital environments. (Cross-listed with CACT 8640).

ENGL 8646 APPLIED LINGUISTICS (3 credits)
This course is designed to develop knowledge and skills for second language instructors and others interested in second language learning and instruction. Content covers relevant second language acquisition (SLA) theory and second language pedagogy. (Cross-listed with ENGL 4640)
Prerequisite(s)/Corequisite(s): ENGL 3610 and Junior standing or with permission from instructor.

ENGL 8650 WRITING ACROSS DIFFERENCES: RHETORICAL THEORY FOR PERSUASION AND PUBLIC ADVOCACY (3 credits)
This course provides students a theoretical foundation for understanding how language is used in various types of discourses and texts as a means of convincing others of a given viewpoint or idea. Students will apply this theory to real-world writing scenarios in their scholarly areas of interest, to advocacy and social issues movements, or to address workplace needs and goals. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8650).

ENGL 8656 STRUCTURE OF ENGLISH (3 credits)
A study of grammar as it has been conceived through history, including traditional prescriptive and descriptive approaches as well as transformational-generative grammar. Formerly ENGL 4780/8786. (Cross-listed with ENGL 4650).
Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8676 SOCIOLINGUISTICS (3 credits)
An exploration of interconnections between language, culture, and communicative meaning, stressing interactional, situational, and social functions of language as they take place and are created within social contexts. Formerly ENGL 4880/8886. (Cross-listed with ENGL 4670).
Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8696 TOPICS IN LINGUISTICS (3 credits)
Studies in a selected subfield or problem area of linguistics such as sociolinguistics, generative semantics, applied linguistics, descriptive linguistics, teaching English as a foreign language, etc. Formerly ENGL 4960/8966. (Cross-listed with ENGL 4690).
Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8736 RHETORIC (3 credits)
A study of contemporary theories of invention, form, and style and their application in written discourse. Formerly ENGL 4530/8536. (Cross-listed with ENGL 4730).

ENGL 8740 SEMINAR: DISCOURSE, CULTURE, AND POWER (3 credits)
A graduate-level introduction to theories and methodologies of analyzing spoken and written discourse. This seminar will prepare students to conduct field research and analyze natural language data based on theoretical orientations to discourse analysis.

ENGL 8750 OXBOX WRITING PROJECT (3 credits)
Oxbox Writing Project summer institute immerses K-16 educators in writing pedagogy via their own writing, presentations about writing and pedagogy, reading and discussing professional literature, designing and implementing an in-depth inquiry project, and developing leadership strengths. Oxbox is a National Writing Project Site.
Prerequisite(s)/Corequisite(s): Acceptance into Oxbox Writing Project Summer Institute

ENGL 8756 COMPOSITION THEORY & PEDAGOGY (3 credits)
Students will review and evaluate 20th century theories with an emphasis on theories developed since 1968. Students will investigate current research practices and design and execute their own research projects. Formerly ENGL 4760/8766. (Cross-listed with ENGL 4750).

ENGL 8760 SEMINAR IN POPULAR CULTURE, MASS MEDIA AND VISUAL RHETORIC (3 credits)
This course studies how discursive meaning is made through established and emerging visual technologies and the impact visual symbol systems are having upon the field of rhetoric in general. Students will investigate how visual technologies, discourse theory, and semiotic theory has intersected with and expanded contemporary rhetorical theories, and they will apply these theories to visual texts. (Cross-listed with COMM 8200).
ENGL 8775 WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH (3 credits)
This course is an introduction to writing center theory, pedagogy, research, and history. The course is designed for undergraduate and graduate students interested in or already working in a writing center. Throughout the course we will explore a wide range of models for writing center work and the often problematic metaphors associated with those models. The overall aim in this course will be to help students develop multiple strategies for teaching writing one-to-one, for conducting research in writing centers, and for understanding writing center administration. (Cross-listed with ENGL 3770).

ENGL 8780 PEDAGOGIC FIELD EXPERIENCE IN TESOL (3 credits)
A semester of observation and participation in a service-learning and/or classroom situation in Teaching English to Speakers of Other Languages (TESOL). The course will emphasize the orchestration of the learning environment in a multicultural and global society.

Prerequisite(s)/Corequisite(s): Graduate Standing and TED 4000 / TED 8006

ENGL 8796 ENGLISH CAREER PREPARATION (1 credit)
This course will prepare students for an internship or a career, addressing topics such as finding and applying for internships, workplace and industry, resume and cover letters, interviewing techniques, developing a professional portfolio, and statement of goals. Taking this course prior to an internship is highly recommended. (Cross-listed with ENGL 4790).

Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

ENGL 8800 SEMINAR: TOPICS IN ENGLISH LANGUAGE AND LITERATURE (3 credits)
An intensive study of one or more authors, genres, literary movements, or literary problems not covered by regular period or genre courses. (This course may be repeated for additional credits under different topics.) Formerly ENGL 8130.

ENGL 8806 ENGLISH INTERNSHIP (1-3 credits)
Supervised internship in a professional setting with a local employer or nonprofit organization. Hands-on experience. Work hours, activities, and responsibilities must be specified in a written agreement between the employer and the student in consultation with the internship director. Some internships will be paid and some will not. (Cross-listed with ENGL 4800).

Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, an ENGL 4000-level writing course, and permission of internship director.

ENGL 8816 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810).

Prerequisite(s)/Corequisite(s): ENGL 1150 and CMST 1110, or permission of instructor.

ENGL 8826 AUTOBIOGRAPHY (3 credits)
Students will read as well as write autobiography. Students will read texts representing various social, political, and religious points of view. Students will also study these texts for theoretical principles and autobiographical techniques which they will use to inform their own autobiographical essays. (Cross-listed with ENGL 4820).

Prerequisite(s)/Corequisite(s): ENGL 2450 or ENGL 2460

ENGL 8836 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, JMC 4830, JMC 8836).

Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

ENGL 8846 TRAVEL WRITING (3 credits)
Travel Writing is a course in professional writing. Although the course includes critical examinations of texts, the primary focus is on the composition of various kinds of travel essays. (Cross-listed with ENGL 4840, JMC 4840, JMC 8846).

ENGL 8850 SEM: SPIRITUAL NONFICTION (3 credits)
Spiritual Nonfiction is a creative nonfiction writing seminar where students study and practice various forms and styles of spiritual nonfiction. The comparative study of spirituality and religion is not the focus of this course. Writing is the focus. Discussion of the characteristics of spiritual experiences and ideas will be limited to their formalistic treatment within individual works.

Prerequisite(s)/Corequisite(s): Graduate Standing. At least one creative nonfiction writing course at 4000/8000 level.

ENGL 8856 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, JMC 4850, JMC 8856).

Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

ENGL 8866 THE MODERN FAMILIAR ESSAY (3 credits)
A study of the modern familiar essay, with an emphasis on writing the informal essay. Formerly ENGL 4700/8706. (Cross-listed with ENGL 4860).

ENGL 8870 SEMINAR: PUBLISHING NON-FICTION (3 credits)
A seminar in the process leading to publication of essays in one or more of the following genres: scholarly essay, personal essay, travel essay, pedagogical essay, autobiographical essay.

Prerequisite(s)/Corequisite(s): Graduate standing and 6 hours of graduate credit.

ENGL 8876 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, JMC 4870, JMC 8876).

ENGL 8880 ADVANCED PLACEMENT INSTITUTE: ENGLISH & COMPOSITIONS (3 credits)
An intensive workshop devoted to the organization, planning, implementation and improvement of advanced placement courses in literature and composition. Intended for secondary school teachers of English who are presently teaching or are planning to propose and/or teach advanced placement courses in their school.

Prerequisite(s)/Corequisite(s): Graduate in English.
ENGL 8886 COMMUNITY SERVICE WRITING (3 credits)
A study of the relationship between texts and the social contexts in which they function, with particular attention to differences between academic and non-academic discourse communities. This is a service-learning course: students work as volunteers at community organizations. (Cross-listed with ENGL 4880).

ENGL 8890 SEM: EXPERIMENTS IN CREATIVE NONFICTION (3 credits)
This is a graduate seminar in creative nonfiction. This course explores, through an intensive engagement with long and short forms of creative nonfiction, the ways in which contemporary practitioners of the genre have experimented with form and meaning. Students will attempt their own experiments in writing.
Prerequisite(s)/Corequisite(s): Graduate Standing. Two graduate-level creative nonfiction courses from ENGL 8846, ENGL 8866, ENGL 8870, or ENGL 8800, when topic is appropriate.

ENGL 8896 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. ENGL 8816, ENGL 8836, ENGL 8856 and ENGL 8876 highly recommended.

ENGL 8900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or language, carried out under the supervision of a member of the graduate faculty. Designed primarily for the student who has need of work not currently available in the departmental offering and who has demonstrated capability of working independently. May be repeated for credit once. Formerly ENGL 8980.
Prerequisite(s)/Corequisite(s): Graduate, permission of instructor, and no "incompletes" outstanding.

ENGL 8910 SEMINAR: CRITICAL THEORY (3 credits)
Seminar in theories of literary criticism, with emphasis on modern approaches. Formerly ENGL 8040.

ENGL 8926 GREAT CHARACTERS (3 credits)
Great Characters is a study of literary characters in fiction and drama from the standpoint of temperament theory. The course uses Keirsey’s model of temperament to focus on conflict and conflict resolution between characters as this constitutes the dynamics of plot. Formerly ENGL 4050/8056. (Cross-listed with ENGL 4920).
Prerequisite(s)/Corequisite(s): One 4000 level English course.

ENGL 8966 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
Specific subjects (when offered) appear in class schedules. Complete syllabus available in English Department. Formerly ENGL 4940/8946. (Cross-listed with ENGL 4960).

ENGL 8990 THESIS (3-6 credits)
Independent research project written under the supervision of an adviser.
Prerequisite(s)/Corequisite(s): Graduate, permission of thesis director.

Admissions

Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
- International student applicants score at least 600 on the paper-based TOEFL examination, 250 on the computer-based TOEFL, 100 on the internet-based TOEFL, 8 IELTS, or 68 PTE in order to be eligible for unconditional admission.
- Statement of Purpose
  - The statement (of about 500-1000 words) should convey the applicant’s previous study in the field of English, any relevant work or life experience, the applicant’s philosophy of learning and reason for pursuing a Master’s degree in English, and anything else that might help convey the applicant’s personality, spirit, or intellectual character.
  - To be admitted to graduate study in English, a student should have completed at least 18 credit hours in undergraduate English courses above the freshman level with an average grade of “B” (3.0 on a 4.0 scale) or higher.

Teaching Assistantship
The application for a graduate assistantship requires the following additional materials, which should all be sent directly to Dr. Ramón Guerra, Graduate Program Chair, Department of English, ASH 192D, University of Nebraska at Omaha, 6001 Dodge St., Omaha, NE 68182-0175.

- Application coversheet (available online (https://www.unomaha.edu/college-of-arts-and-sciences/english/_files/engl-ta-application%202017.pdf))
- Statement of Purpose: 500-1000 words detailing the applicant’s ambitions in the graduate program and his or her motivation for pursuing an assistantship. In addition, this statement should convey some sense of the applicant’s identity and philosophy of learning.
- Writing Sample or Samples of academic or creative non-fiction prose by the applicant totaling 10-20 pages in length. The sample(s) should reflect the applicant’s best writing, demonstrating a cohesive argument and/or sustained thematic focus and excellent control of syntax and style.
- Three Letters of Recommendation from past teachers or anyone else reasonably able to offer an objective assessment of the applicant’s writing, critical reasoning skills, and promise as a teacher. These letters should be sent to the above address directly by the recommenders, along with waiver forms.
- Either Graduate Record Exam (GRE) scores or Miller Analogies Test (MAT) scores sent directly to UNO from the testing entities.
## Degree Requirements

### Option 1: Thesis
(24 hours of coursework; 6 hours of thesis)

- For this option at least 12 hours of coursework must be seminar-level.

Coursework Outside English
With the approval of the student’s advisor and the English Graduate Program Committee, a student may include a minor or coursework from another related discipline or disciplines as part of the Plan of Study. For both the thesis and non-thesis options, a minor is 9 hours (3 courses). The maximum amount of coursework that may be applied from another discipline or disciplines is the same as that for a minor in both options (9 hours).

Exit Requirement
Option 1 Thesis:
• ENGL 8990 Thesis 6 hours
• Comprehensive Examination

Option 2 Non-Thesis:
• Comprehensive Examination

Advanced Writing Certificate
Department of English, College of Arts & Sciences

Vision Statement
The Graduate Certificate in Advanced Writing is designed for students interested in becoming more expressive, powerful writers of nonfiction prose. Students interested in securing publication of their writing are mentored in the publication process by the faculty.

The Advanced Writing Certificate is designed for the following students:
• Writers interested in developing and publishing their creative nonfiction;
• Graduate students in English and related fields;
• Educators seeking writing-specific training and credentials;
• Working professionals who either are currently employed or will be seeking employment as experts in written communication;
• Individuals who work in community service organizations;
• Individuals dedicated to cultural activities in the community.

Admissions
Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
• Applicants must have completed a baccalaureate degree in English, or a related degree, with at least a 3.0 (on a 4.0 scale) GPA
• Statement of Purpose (letter of intent)
  • The statement (of about 500-1000 words) should convey the applicant’s interest in creative nonfiction, previous study in the field of English, any relevant work or life experience, reason for pursuing a graduate certificate in Advanced Writing, and anything else that might help convey the applicant’s personality, spirit, or intellectual character.
  • If the applicant has been admitted to the MA in English program, an application fee and transcripts are not required.

1 If registering for ENGL 8800; the topics must be related to Advanced Writing such as Rhetoric and Memory, Nature Writing, etc.
Exit Requirements:

Portfolio Requirement
Students will assemble a portfolio representing their achievement in the five courses (15 hours) applied toward the Advanced Writing Certificate. The portfolio will contain at least one writing sample from each course and will be reviewed by the student’s advisor and one other graduate faculty member involved in offering courses approved for the Advanced Writing Certificate. As part of the portfolio requirement, each student will make an oral presentation to the reviewing professors. The website (http://www.unomaha.edu/college-of-arts-and-sciences/english/academics/graduate-programs) for the Advanced Writing Graduate Certificate contains a detailed description of the portfolio requirement and the deadlines for submission.

Teaching English to Speakers of Other Languages Certificate

Department of English, College of Arts & Sciences

Vision Statement
The Department of English offers students the opportunity to obtain a Certificate in Teaching English to Speakers of Other Languages. Completion of these requirements does not certify a graduate to teach in Nebraska public schools. Instead, it is an academic credential meant for teachers already certified in other areas, for people who plan to teach in venues other than public schools, and for anyone who works in some capacity with non-native speakers of English.

Program Website (http://www.unomaha.edu/college-of-arts-and-sciences/english/academics/graduate-programs)

Admissions
Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
• Bachelor’s degree
• An Introduction to Linguistics course is required. Equivalent course(s) from other institutions will be considered.
• Students in the College of Education should meet with the certification director to plan a program of study.
• All students whose language of nurture is not English must demonstrate oral and written mastery of English as certified by the Department of English. The Department of English requires non-native speakers of English to have a TOEFL score of 600 (paper-based), 250 (computer-based), 100 (internet-based), 8 IELTS, or 68 PTE to be eligible for conditional admission.
• If an applicant has been admitted to the MA in English, an application fee and transcripts are not required.

</tbody>
</table>

Total Credits: 12

This is a 4 course, 12 hour graduate certificate. Students may not repeat any courses already taken at the undergraduate level. Students are encouraged to take more than the minimum required. All courses must be taken at the graduate level. The Linguistics faculty strongly recommends that all TESOL certificate students achieve an oral and written proficiency in a second language.

Technical Communication Certificate

Department of English, College of Arts & Sciences, and School of Communication, College of Communication, Fine Arts and Media

Vision Statement
The Graduate Certificate in Technical Communication is designed for graduate students and industry professionals seeking a foundation in the theory and practice of Technical Communication. This foundation provides students with the kinds of competencies expected from technical communication professionals, including writing, editing, design, and software applications.
The Technical Communication Certificate is designed for the following students:

- Part- and full-time UNO students pursuing graduate degrees, who are seeking a cognate area outside, but relevant to, their primary program of study;
- Industry professionals seeking to develop the knowledge and skills for a career in Technical Communication; and
- Business or technical professionals seeking to enhance their employment opportunities through a professional development program.

Some courses from English or the School of Communication may be substituted with the director’s approval.

Total Credits: 15

### Technical Communication Exit Requirements

Students will assemble a final portfolio representing their achievement in the five courses (15 hours). The portfolio will contain at least one writing sample/project from each course and will be reviewed by the Technical Communication program director and one other member of the Graduate Faculty from the Department of English or the School of Communication. Faculty teaching these courses will be aware of this portfolio requirement and will assign work that can be used as part of the portfolio (e.g., a report, user’s manual, website, etc.).

### Exercise Science, PhD

#### School of Health and Kinesiology, College of Education, Department of Biomechanics, College of Education

#### Vision Statement
The doctoral degree in Exercise Science at the University of Nebraska at Omaha (UNO) is a joint program between the Department of Biomechanics and the School of Health and Kinesiology. The degree is based on the physiology, biochemistry, biomechanics, motor control and development, and biopsychosociology of human movement. The program is aimed at improving movement function and physical activity level using evidence-based approaches through interdisciplinary clinical and translational research. A problem-solving approach is used across the age and health spectrum for disease prevention, health enhancement, physical rehabilitation, and exercise motivation. The program offers four areas of concentration in biomechanics, physiology of exercise, motor development and control, and physical activity.

#### Program Contact Information

### Admissions

#### Application Deadlines
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.
Program-Specific Requirements

- GPA of 3.2 in Master’s program or in the last 30 hours of previous graduate work
- Master’s degree, or minimum of 30 graduate hours in a related field, e.g., health, physical therapy
- For applicants whose native language is not English, score of 550 paper-based, 213 computer-based, 80 internet-based, 6.5 IELTS, or a 53 PTE is required, with a score of at least 20 in all categories (listening, reading, writing, and speaking)
- GRE Score:
  - Total score (verbal and quantitative) of at least 297 if GRE was taken after August 2011; total score (verbal and quantitative) of at least 1000 if GRE was taken before August 2011. Exam and scores must have been taken within the last three (3) years.
- Three (3) Letters of Recommendation
- Statement of Purpose:
  - Needs to state goals and objectives for seeking the degree.
  - Students will identify their intended area of focus and the name of the faculty advisor with whom they wish to work (maximum 500 words).
- Writing Sample:
  - If any scientific papers were published with the student’s name listed first among authors, then they should be submitted.
- Resume
- Undergraduate Course Deficiencies: these courses are determined by the student’s mentor in collaboration with their supervisory committee. Each student’s individual deficiency courses will be approved in their plan of study.
- Approval by a faculty member willing to act as advisor and mentor to the student. The applicant is expected to contact a potential advisor to determine if a suitable match in interests exists. This assures that the student will be able to develop a program of study that meets the specific goals intended.

Take the following course for a minimum of 15 credit hours:

| PE/BMCH 9910 | DOCTORAL SEMINAR |

Concentrations

See Exercise, PhD Concentrations 24

PE/BMCH 9990 | DISSERTATION |

Total Credits 60

¹ If HPER 9031 and PE 9041 (or equivalent courses) have previously been taken, additional research core courses must be taken in order to meet the 21-hour requirement.

² This seminar is designed to enhance success in academia and maximize the student’s research experiences. The student will be required to register for 3 credit hours per semester. In these credit hours the student will attend formal reading clubs with the advisor where he/she will be engaged in reviewing the related literature via journal articles, conducting research projects, reviews of literature, meta-analyses, etc. In addition, the student will be taught how to write successful grants and develop a successful line of research. Each semester the student will have to produce as the graded outcome a manuscript based on data acquired in the laboratory from the ideas developed in the seminar or submit a grant that will support the research ideas developed. Ethical training will be offered as part of the seminar hours. In their first year, all doctoral students will be required to attend a training session on scientific integrity and the responsible conduct in research. A complementary, mandatory, web-based component will be completed before the didactic material. This component is offered through the UNMC IRB office and provides an extensive literature-based review of the topics, allowing interactive “chat-room” discussion of a series of relevant case-based problems.

Exit Requirements

- Comprehensive Examination
- Dissertation

Program-Related Information

- Advisor and Supervisory Committee
  - Preliminary contact is made with a potential advisor prior to applying to the program. Once admitted, a student is assigned an advisor based on the match in interests with those of the advisor and willingness of the advisor to take on the student.
  - In the students first year, the student must form a Supervisory Committee. It should consist of at least four Exercise Science affiliated graduate faculty members including the faculty advisor, one of whom must be from a department different than that of the dissertation advisor. The Dean for Graduate Studies at UNO will appoint the committee upon recommendation of the advisor. The committee will be responsible for approving the program of study, comprehensive exam, dissertation proposal, dissertation and its oral defense.

- Program of Study (must have 45 hours remaining after approval)
  - The student and his/her advisor will determine the Program of Study, including the required courses and general area of research for the dissertation. This Program of Study is subject to final approval from the student's doctoral supervisory committee. After this approval, the student will submit the Program of Study form with course information to the Graduate Studies Office.

- Comprehensive Exam
  - The required comprehensive exam will be taken towards the end of the student’s coursework. The Supervisory Committee, in conjunction with the student will determine the nature of the exam; the exam could include a take-home exam followed by an oral defense, or writing an NIH-type grant followed by an oral exam. The Supervisory Committee will evaluate the exam.

- Dissertation Proposal Form
  - Within one year of successfully completing the comprehensive exam and being admitted to candidacy, a formal research proposal for the dissertation topic should be presented to the Supervisory Committee. The format of the proposal is subject to approval by the advisor and the supervisory committee. The proposal could include a formal written proposal with an oral defense or oral presentation of the proposed research project.

- Dissertation
  - After successfully completing the comprehensive exam and being admitted to degree candidacy, the student must register for at least one credit hour of dissertation for each semester until completion
of the degree. A minimum of 15 hours of dissertation credit must be completed within the course of the degree.

- It is expected that the dissertation will result in manuscript submissions in referred journals in the discipline.

- Residency
  - The residency will be reasonably compact, continuous, and coherent, and a substantial portion done at and under close supervision of the University. Most of the students in the program will be full-time and continuously enrolled.

Total Credits 24

BMCH 8000 SEMINAR IN BIOMECHANICS (0 credits)
Required non-credit course for graduate students in biomechanics. Intended to familiarize the graduate student with current ongoing biomechanical research at UNO and other institutions. The seminar will additionally include topics focusing on professional development, job and educational opportunities, and biomechanical methodologies.
Prerequisite(s)/Corequisite(s): Must be a student in BMCH graduate program. Not open to non-degree graduate students.

BMCH 8030 BIOSTATISTICS IN BIOMECHANICS I (3 credits)
The focus of the course is to prepare students to understand and apply research and biostatistical methods needed in the design and analysis of biomechanical investigations. The major topics to be covered include research design and multiple linear regression. (Cross-listed with BMCH 9031)
Prerequisite(s)/Corequisite(s): Graduate Standing in Biomechanics program or Department Permission.

BMCH 8100 NONLINEAR ANALYSIS FOR MOVEMENT STUDIES (3 credits)
This course is to introduce different nonlinear methods for the analysis of biological and movement time series. Emphasis will be given on understanding the algorithms behind each nonlinear method. (Cross-listed with BMCH 9101)
Prerequisite(s)/Corequisite(s): Instructor Permission.

BMCH 8200 MATLAB FOR MOVEMENT SCIENCES (3 credits)
Introduction to Matlab software, plotting data, spectral analysis and the Fourier transform, data smoothing, and image analysis of movement related data. All topics will be implemented using Matlab. (Cross-listed with BMCH 9201)
Prerequisite(s)/Corequisite(s): Instructor permission.

BMCH 8400 MOTOR LEARNING I (3 credits)
Discussion and analysis of scientific principles related to the learning of motor skills; review related literature and research in motor learning. The focus of the course is on recent theories of how movements are acquired and performed, and on factors that have implications for motor learning throughout the life span. (Cross-listed with BMCH 9401)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 8410 MOTOR CONTROL I (3 credits)
The focus of the course is to explore the study of the conditions and factors that influence the control and performance of motor skills from both neurophysiological and psychobiological perspectives. (Cross-listed with BMCH 9411)
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 8420 MOTOR DEVELOPMENT (3 credits)
This course focuses on the study of motor development, the processes that underlie this development and the factors that influence it. Students will gain an understanding of the major theoretical perspectives of motor development across the life span with special emphasis given in child development. (Cross-listed with BMCH 9421)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 8450 ADVANCED BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance including mechanical analysis of human gait, fundamental movement patterns and techniques used for collecting biomechanical data. (Cross-listed with BMCH 9451)
Prerequisite(s)/Corequisite(s): BMCH 4630 (Biomechanics) [previously PE 4630] or Instructor Permission.

BMCH 8900 INDEPENDENT RESEARCH IN BIOMECHANICS (1-6 credits)
In this course individuals or groups will conduct research projects for the study and analysis of biomechanical topics.
Prerequisite(s)/Corequisite(s): Permission of the Department and approval by Faculty Advisor. Not open to non-degree graduate students.
BMCH 8910 INDEPENDENT STUDY IN BIOMECHANICS (1-6 credits)
This is a variable credit course designed for graduate students in Biomechanics who would benefit from independent reading assignments and problems. Independent study enables individual students or a small group of students to focus on topics typically not explored in other offerings or to explore topics currently offered in further depth. (Cross-listed with BMCH 9911)
Prerequisite(s)/Corequisite(s): Graduate student in BMCH and approval by Faculty Advisor. Not open to non-degree graduate students.

BMCH 8990 THESIS IN BIOMECHANICS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student's advisory committee. In this project the student will develop skills in research design, research conduct, data analysis, and reporting. The final product of this course will be an original thesis of independent scientific investigation.
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 9031 BIOSTATISTICS IN BIOMECHANICS I (3 credits)
The focus of the course is to prepare students to understand and apply research and biostatistical methods needed in the design and analysis of biomechanical investigations. The major topics to be covered include research design and multiple linear regression. (Cross-listed with BMCH 8030)
Prerequisite(s)/Corequisite(s): Graduate Standing in Biomechanics program or Department Permission.

BMCH 9101 NONLINEAR ANALYSIS FOR MOVEMENT STUDIES (3 credits)
This course is to introduce different nonlinear methods for the analysis of biological and movement time series. Emphasis will be given on understanding the algorithms behind each nonlinear method. (Cross-listed with BMCH 8100)
Prerequisite(s)/Corequisite(s): Instructor Permission

BMCH 9201 MATLAB FOR MOVEMENT SCIENCES (3 credits)
Introduction to Matlab software, plotting data, spectral analysis and the Fourier transform, data smoothing, and image analysis of movement related data. All topics will be implemented using Matlab. (Cross-listed with BMCH 8200)
Prerequisite(s)/Corequisite(s): Instructor permission.

BMCH 9401 MOTOR LEARNING I (3 credits)
Discussion and analysis of scientific principles related to the learning of motor skills; review related literature and research in motor learning. The focus of the course is on recent theories of how movements are acquired and performed, and on factors that have implications for motor learning throughout the life span. (Cross-listed with BMCH 8400)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 9411 MOTOR CONTROL I (3 credits)
The focus of the course is to explore the study of the conditions and factors that influence the control and performance of motor skills from both neurophysiological and psychobiological perspectives. (Cross-listed with BMCH 8410)
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 9421 MOTOR DEVELOPMENT (3 credits)
This course focuses on the study of motor development, the processes that underlie this development and the factors that influence it. Students will gain an understanding of the major theoretical perspectives of motor development across the life span with special emphasis given in child development. (Cross-listed with BMCH 8420)
Prerequisite(s)/Corequisite(s): PE 2800 (Motor Behavior) or permission of instructor.

BMCH 9451 ADVANCED BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance including mechanical analysis of human gait, fundamental movement patterns and techniques used for collecting biomechanical data. (Cross-listed with BMCH 8450)
Prerequisite(s)/Corequisite(s): BMCH 4630 (Biomechanics) [previously PE 4630] or Instructor Permission.

BMCH 9460 ADVANCED BIOMECHANICS II (3 credits)
A comprehensive and advanced detailed investigation of the biomechanics of motor performance in special populations such as stroke, Parkinson’s disease, and amputees. Includes advanced study of the mechanical analysis of motor skills and movement patterns and the research techniques for collecting and interpreting biomechanical data. Detailed lectures will cover etiology of such special populations with a focus on the endpoint movement disorders.
Prerequisite(s)/Corequisite(s): BMCH 8450 or BMCH 9451 or Instructor Permission. Not open to non-degree graduate students.

BMCH 9500 MOTOR LEARNING II (3 credits)
The focus of the course is to further explore the study of the conditions and factors that influence the learning and performance of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8400, BMCH 9401 or Instructor Permission. Not open to non-degree graduate students.

BMCH 9510 MOTOR CONTROL II (3 credits)
The focus of the course is to further explore the study of the conditions and factors that influence the control and performance of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8410, BMCH 9411 or Department Permission. Not open to non-degree graduate students.

BMCH 9520 MOTOR DEVELOPMENT II (3 credits)
This course focuses on the study of motor development, the processes that underlie this development and the factors that influence it. This course will focus on exploring motor development in clinical populations of people with autism, down syndrome, cerebral palsy, etc. and the factors that influence the progression of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8420 or permission from instructor.

BMCH 9910 DOCTORAL SEMINAR (3 credits)
The major goal of this course is to teach the graduate student how to write manuscripts/grants and be an effective academician with strong ethics. The outcome of this course is for the student to produce a manuscript based on data acquired in the laboratory from the ideas developed in the seminar or submit a grant that will support the research ideas developed in at least one semester. The material covered is intended to equip students with the skills necessary to be successful in their academic careers with emphasis given on writing scientific papers. (Cross-listed with PE 9910)
Prerequisite(s)/Corequisite(s): Admission into the PhD program. Not open to non-degree graduate students.

BMCH 9911 INDEPENDENT STUDY IN BIOMECHANICS (1-6 credits)
This is a variable credit course designed for graduate students in Biomechanics who would benefit from independent reading assignments and problems. Independent study enables individual students or a small group of students to focus on topics typically not explored in other offerings or to explore topics currently offered in further depth. (Cross-listed with BMCH 8910)
Prerequisite(s)/Corequisite(s): Graduate student in BMCH and approval by Faculty Advisor. Not open to non-degree graduate students.
BMCH 9990 DISSERTATION (1-15 credits)
The course provides doctoral candidates in Exercise Science with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation. (Cross-listed with PE 9990)
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science, successful completion of doctoral coursework & comprehensive exams, approval of the dissertation supervisory committee chair & advancement to candidacy. Not open to non-degree graduate students.

HPER 8000 SPECIAL STUDIES (1-3 credits)
A series of intensive courses - scheduled as regular seminars or workshops according to purpose.
Prerequisite(s)/Corequisite(s): Permission of department.

HPER 8030 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master's thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 9031).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 8100 RESEARCH PROJECT (1-3 credits)
Individual or group study and analysis of specific problems in health, physical education or recreation.
Prerequisite(s)/Corequisite(s): Permission of instructor.

HPER 8220 PROBLEMS & ISSUES IN HPER (3 credits)
An examination of current problems and issues in HPER that relate to the general aims and purposes of HPER.

HPER 8300 ANALYSIS OF RESEARCH AND LITERATURE IN HUMAN MOVEMENT (3 credits)
Survey of research and literature in Human Movement for the purpose of orienting the candidate to possible areas of research and developing an understanding of and appreciation for writings in the field. The course may be offered focusing on only one specific area in HPER.
Prerequisite(s)/Corequisite(s): HPER 8030

HPER 8500 QUALITATIVE RESEARCH METHODS (3 credits)
An examination of qualitative research methods. Emphasis on the broad application of qualitative research in public health, education, and social sciences. Course topics include research design, data collection, data analysis, and reporting.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HPER 8850 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation. (Cross-listed with PE 9990)
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

HPER 8990 THESIS (1-6 credits)
The thesis experience is designed to help develop the candidate's ability to execute accepted procedures associated with the research process appropriate to the Master's degree.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

HPER 9031 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master's thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 9030).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 9851 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will examine the physiological and medical limitations imposed on people with various common chronic diseases/conditions including arthritis, osteoporosis, exercise-induced asthma, obesity, diabetes, hypertension and pregnancy. Special groups such as children and elders will be discussed. Content will emphasize the etiology and guidelines for exercise testing, prescription, and supervision. (Cross-listed with HPER 8850).
Prerequisite(s)/Corequisite(s): PE 4940 or PE 8946.

PE 8040 ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in descriptive and experimental research in physical education and exercise science. Application, particularly regarding the purpose, selection, and interpretation of statistical procedures will be emphasized. (Cross-listed with PE 9041)
Prerequisite(s)/Corequisite(s): HPER8030

PE 8076 OPTIMIZING SPORTS PERFORMANCE (3 credits)
The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration of several disciplines in sports medicine aimed at preparing one for optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed with PE 4070)
Prerequisite(s)/Corequisite(s): PE 4630 with a grade of C- or better or BMCH 4630 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 8086 CLINICAL EXERCISE PHYSIOLOGY (3 credits)
This course will offer students the knowledge, skills, and abilities to take the American College of Sports Medicine’s health fitness instructor certification exam. This course will emphasize health risk assessment, exercise testing, and exercise prescription for healthy and clinical populations. (Cross-listed with PE 4080)
Prerequisite(s)/Corequisite(s): PE 2210 with a grade of C- or better, PE 2500 with a grade of C- or better or BMCH 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 8120 CURRENT TOPICS IN WEIGHT MANAGEMENT (3 credits)
This course will focus on current issues related to weight management. Candidates will review the guidelines for physical activity and nutrition, apply them to current reading material sold in book stores, and develop a best practice for weight management using what they have learned.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 8130 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 9131)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.
PE 8140 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 9141)

PE 8176 MOTOR ASSESSMENT & PRESCRIPTION (3 credits)
An in-depth survey of motor and fitness assessment instruments for use with pre-school, elementary, and secondary school students. The use of test scores for diagnosis and prescription of physical education activities for special populations will be addressed. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs. (Cross-listed with PE 4170)
Prerequisite(s)/Corequisite(s): PE 4150

PE 8186 PRACTICE PROF FOR DISABLED CHILD (3 credits)
This course is designed as a practicum with theoretical and practical experience in addressing the motor needs of young disabled children in a physical education setting. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs.
Prerequisite(s)/Corequisite(s): PE 4170 or PE 8176

PE 8206 PLANNING WORKSITE WELLNESS PROGRAM (3 credits)
This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs also will be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care.
(Cross-listed with PE 4200)
Prerequisite(s)/Corequisite(s): Junior standing.

PE 8210 EMERGENCY MANAGEMENT OF INJURY AND ILLNESS (2 credits)
The purpose of this course is to prepare students to respond to emergent conditions that affect patients involved in physical activity. Students will learn to recognize the signs and symptoms of acute injury and illness, assess patients using evidence-based methods, apply appropriate treatments, make appropriate referral decisions, and implement effective prevention strategies to reduce the risk of injury and illness.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training program. Not open to non-degree graduate students.

PE 8240 SPORT IN AMERICAN CULTURE (3 credits)
Sport in American culture is a study of sport from a theoretical perspective. The relationship between sport and sub-cultures (to include disadvantaged American cultures), economics, global influences, and technology will be analyzed.

PE 8266 INCLUSION W/DISABILITIES IN PE (3 credits)
This course is for physical education, health education, special education and therapeutic recreation candidates interested in the inclusion of children with disabilities in physical education environments. (Cross-listed with PE 4260)
Prerequisite(s)/Corequisite(s): PE 3060 or PE 4000 and PE 4150

PE 8280 CURRICULUM IN PE (3 credits)
A study of the foundations for curriculum development. Special consideration is given to curriculum change, curriculum patterns and programs in physical education which will meet a culturally diverse, global society.

PE 8310 ATHLETIC TRAINING TECHNIQUES (2 credits)
Overview course including basic components of the athletic training profession including the prevention, recognition, evaluation and immediate care of athletic injuries. Medical terminology, tissue healing, taping procedures, and professional considerations will be covered.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training. Not open to non-degree graduate students.

PE 8316 LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the lower extremities.
(Prerequisite(s)/Corequisite(s): PE 8326 and 8710. Not open to non-degree graduate students.

PE 8326 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities.
(Prerequisite(s)/Corequisite(s): PE 8316, PE 8336, and PE 8720. Not open to non-degree graduate students.

PE 8336 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses.
(Cross-listed with PE 4330)
Prerequisite(s)/Corequisite(s): PE 8326 and PE 8710. Not open to non-degree graduate students.

PE 8346 REHAB TECH IN ATH TRAINING (3 credits)
The use of basic theories and principles of athletic injury rehabilitation including therapeutic exercise and the use of physical agents. The development of rehabilitation programs including hands-on practical application.
(Cross-listed with PE 4340)
Prerequisite(s)/Corequisite(s): Written Permission Required

PE 8356 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns.
(Cross-listed with PE 4350)
Prerequisite(s)/Corequisite(s): PE 3430, PE 4320.

PE 8360 ADV ORTHO & MED ASPECTS (3 credits)
This course will enhance the candidate’s knowledge of orthopedic aspects and general medical conditions of the athlete. Involves lecture, directed observation, experiential learning, literature review and hands-on experience. Local medical professionals will be providing instruction and supervision within their specialties. The candidate will be exposed to advanced evaluation and treatment skills, including imaging techniques, surgical procedures, rehabilitation and athletic training management.
Prerequisite(s)/Corequisite(s): PE 8316 and PE 8326

PE 8370 ANALYZING PE TCH & SPORT INST (3 credits)
This course will examine the teaching and coaching in physical education and sport. It will identify assessment techniques utilized in teaching and coaching behavior research as well as typical prescriptions in an effort to improve one’s performance.

PE 8460 OCCUPATIONAL BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance in work places and provide candidates with information in the application of biomechanics, engineering for designing industrial tools, equipment, products, and jobs that take into consideration human physical capabilities and limitations.
Prerequisite(s)/Corequisite(s): PE 4630 or equivalent and PE 2880. Not open to non-degree students.
PE 8506 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with PE 4500)

PE 8700 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 9701)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.

PE 8710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, instructor permission, & continued compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite with enrollment in PE 8326. Not open to non-degree graduate students.

PE 8720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8710 Clinical Practicum AT I, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8316 & 8335. Not open to non-degree grads.

PE 8730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8720 Clinical Practicum AT II, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8346 & 8355. Not open to non-degree grads.

PE 8740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, PE 8730 Clinical Practica in Athletic Training III, instructor permission, and continued compliance with published Athletic Training Program Technical Standards for Admission. Co-req: PE 8966.

PE 8800 RISK MGT HLTH/FIT PROFESSIONALS (3 credits)
A study of risk management for health fitness professionals with a focus on minimizing liability exposures for health fitness facilities and their personnel. Principles of risk management such as the assessment of liability exposures, the development and implementation of risk management strategies, and the evaluation of these strategies will be explored as well as the law as it pertains to health fitness liability. Candidates will develop the knowledge and skill to manage high quality health fitness programs in various settings.
Prerequisite(s)/Corequisite(s): PE 4010 or PE 8016

PE 8856 CARDIOVASCULAR DISEASE PREVENTION & REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with PE 4850)
Prerequisite(s)/Corequisite(s): PE 8946

PE 8865 SCIENTIFIC ASPECTS STRENGTH DEV (3 credits)
This course is designed to explore the nature of muscular strength development, to investigate the physiological basis of physical conditioning, and to provide teachers, coaches and trainers with practical experience in designing specialized conditioning programs for a variety of sports and cultures. (Cross-listed with PE 3860)

PE 8890 MGMT & LEAD SKILLS FOR FIT MGRS (3 credits)
This course is a study of management and leadership skills necessary for the successful management of fitness and wellness facilities and programs. Candidates will develop knowledge and practical skills in the areas of personnel and financial management, marketing, and operating policies procedures as well as develop a personal leadership philosophy based on sound principles of leaders.
Prerequisite(s)/Corequisite(s): PE 8016 or ACSM Health Fitness Certification.

PE 8910 INTERNSHIP IN EXERCISE SCIENCE (3 credits)
This course is an off-campus, supervised, educational work experience of at least 150 clock hours at an approved worksite offering programs and experiences in fitness development or health promotion. Candidates must have current CPR certification.
Prerequisite(s)/Corequisite(s): The prerequisites for this course include 90 hours completed, 2.5 GPA, PE 4900 and permission of instructor.

PE 8950 ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of exercise on metabolic, pulmonary, and cardiovascular function; and sports nutrition. Current research findings and methodology will be emphasized. (Cross-listed with PE 9951)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent

PE 8966 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition. (Cross-listed with PE 4960)
Prerequisite(s)/Corequisite(s): PE 8346, PE 8356, and PE 8730, or Instructor consent.

PE 9040 PHYSICAL ACTIVITY EPIDEMIOLOGY (3 credits)
This course will cover the broad scope of the issues related to epidemiological methods that are relevant to the study of physical activity populations. It is intended to enhance students’ ability to understand and apply epidemiological methods to physical activity related research.
Prerequisite(s)/Corequisite(s): PE 8130 Implementing Physical Activity I and PE 8040 Advanced Statistics in PE or related course or permission by the instructor; not open to non-degree graduate students
PE 9041  ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in descriptive and experimental research in physical education and exercise science. Application, particularly regarding the purpose, selection, and interpretation of statistical procedures will be emphasized. (Cross-listed with PE 9041)
Prerequisite(s)/Corequisite(s): HPER 9031 or equivalent.

PE 9131  IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 8130)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.

PE 9141  PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 8140)

PE 9070  PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 8700)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.

PE 9810  HIGHER EDUCATION TEACHING SEMINAR (3 credits)
The seminar is designed to prepare students for entry into a higher education teaching career. This seminar requires doctoral students to teach an undergraduate or graduate lecture course relevant to their field of preparation. The seminar includes an examination of the roles, responsibilities, and privileges associated with teaching in higher education.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science and successful completion of 24 hours of doctoral coursework and approval from advisor. Not open to non-degree students.

PE 9820  SERVICE EXPERIENCE IN HIGHER EDUCATION (3 credits)
This seminar will allow students the opportunity to gain valuable knowledge of the service expectations of faculty in higher education settings. The seminar will focus on service opportunities within the university, within the profession and within the community. Participants in the seminar will complete appropriate service activities.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral program in Exercise Science, successful completion of 24 hours of doctoral coursework, and approval from advisor. Not open to non-degree students.

PE 9910  DOCTORAL SEMINAR (3 credits)
The major goal of this course is to teach the graduate student how to write manuscripts/grants and be an effective academician with strong ethics. The outcome of this course is for the student to produce a manuscript based on data acquired in the laboratory from the ideas developed in the seminar or submit a grant that will support the research ideas developed in at least one semester. The material covered is intended to equip students with the skills necessary to be successful in their academic careers with emphasis given on writing scientific papers. (Cross-listed with BMCH 9910)
Prerequisite(s)/Corequisite(s): Admission into the PhD program. Not open to non-degree graduate students.

PE 9951  ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of exercise on metabolic, pulmonary, cardiovascular function, skeletal muscle function, and sports nutrition. Current research findings and methodology will be emphasized. (Cross-listed with PE 8950)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent.

PE 9960  ADVANCED EXERCISE PHYSIOLOGY II (3 credits)
The focus of this course is a detailed analysis of the mechanisms responsible for acute and chronic responses to exercise at the cellular and molecular level. Current and historical research will be emphasized.
Prerequisite(s)/Corequisite(s): PE 8950/9951. Not open to non-degree graduate students.

PE 9990  DISSERTATION (1-15 credits)
The course provides doctoral candidates in Exercise Science with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation. (Cross-listed with BMCH 9990)
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science, successful completion of doctoral coursework & comprehensive exams, approval of the dissertation supervisory committee chair & advancement to candidacy. Not open to non-degree graduate students.

Geography

Degree Programs Offered
- Geography, MA (p. 742)

Certificates Offered
- Geographic Information Science Certificate (p. 744)

GEOG 8000  HISTORY AND PHILOSOPHY GEOGRAPHY (3 credits)
Introduction to history of geography. Emphasis on significant ideas, concepts, methodologies and philosophies in geography from classical Greeks to present.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8016  CONSERVATION OF NATURAL RESOURCES (3 credits)
A study of conservation techniques and problems with particular emphasis on the United States. Includes philosophical and economic aspects of resource management and a systematic survey of traditional conservation types including soils, forestry, water resources and energy. (Cross-listed with GEOG 4010).
Prerequisite(s)/Corequisite(s): Three hours of geography

GEOG 8026  QUANTITATIVE ANALYSIS IN GEOGRAPHY (3 credits)
An introduction to multivariate statistical analysis and spatial statistics. Emphasis will be placed on the nature of geographic data, sampling theory and design, descriptive and spatial statistics, inferential statistics, correlation and regression analysis. Students will receive hands-on experience working with statistical data sets, software and scientific visualization numerical results. (Cross-listed with GEOG 4020).
Prerequisite(s)/Corequisite(s): MATH 1530 or permission

GEOG 8036  COMPUTER MAPPING AND VISUALIZATION (3 credits)
Computer techniques in the mapping and visualization of spatial data. Various forms of spatial data manipulation and computer graphic output techniques are examined. Particular attention is given to the incorporation of interaction and animation in the display of maps as well as the creation of maps for distribution through the internet. (Cross-listed with GEOG 4030).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540
GEOG 8040 SEMINAR IN EDUCATION GEOGRAPHY (3 credits)
A survey of methods, instruction aids and goals for teaching geography. Designed to aid the teacher in the improvement of geographic instruction in elementary and secondary schools as well as in higher education. 
Prerequisite(s)/Corequisite(s): Permission

GEOG 8046 GEOARCHAEOLOGY (3 credits)
The study of archaeology with the use of geological and geographical methodology. (Cross-listed with GEOG 4040, GEOG 4040).

GEOG 8056 GEOGRAPHIC INFORMATION SYSTEMS I (4 credits)
An introduction to the concepts and principles and geographic information systems (GIS). Emphasis will be placed on geographic data inputs, manipulation, analysis, and output functions. Exercises introduce students to GIS software and applications. (Cross-listed with GEOG 4050).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540 or 6 hours in Geography

GEOG 8106 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with BIOL 4100, GEOL 4100, BIOL 8106, GEOL 8106, GEOG 4100).
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior

GEOG 8126 URBAN GEOGRAPHY (3 credits)
A geography of the city from the viewpoint of history, site and situation, external relations, internal relations, and the comparative study of cities. (Cross-listed with GEOG 4120).

GEOG 8130 SEMINAR IN ECONOMIC GEOGRAPHY (3 credits)
A seminar course which investigates the development of current world economic systems through the elements of primary, secondary, tertiary, quaternary and quinary production on a micro and macro scale. Exchange and transactional systems, consumption linkages, resource management, economic health on global and local scales, and location decision-making are major topics.
Prerequisite(s)/Corequisite(s): Graduate in geography and permission of instructor

GEOG 8146 URBAN SOCIOLOGY (3 credits)
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with GEOG 4140).
Prerequisite(s)/Corequisite(s): Permission

GEOG 8156 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with WGST 4150, GEOG 4150, ENTR 4150, ENTR 8156, WGST 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

GEOG 8166 URBAN SUSTAINABILITY (3 credits)
Using sustainability as a conceptual framework, students in this course will investigate a variety of social, economic, and environmental challenges facing cities of the 21st century. Topics and issues explored include urban growth and expansion, livability, equity & gentrification, energy use & production, urban farming, poverty, automobile & transportation, water security, urban pollution, and the role of cities in climate change. (Cross-listed with GEOG 4160)
Prerequisite(s)/Corequisite(s): Graduate standing.

GEOG 8176 ADVANCED CULTURAL GEOGRAPHY (3 credits)
This course examines current theoretical debate and research practice in a select topic in Cultural Geography. Emphasis will be on readings and discussion with students engaging in original research. Specific thematic focus will vary from year to year. This course may be taken multiple times as long as topics differ. (Cross-listed with GEOG 4170).
Prerequisite(s)/Corequisite(s): Graduate standing and permission of the instructor.

GEOG 8210 SEMINAR IN CULTURAL GEOGRAPHY (3 credits)
The philosophy of cultural and historical geography with emphasis on describing and interpreting the cultural landscape.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8236 GREAT PLAINS & NEBRASKA (3 credits)
A study of the major physical and cultural attributes of the region. Emphasizes settlement history and the role of agriculture on the regional economy. (Cross-listed with GEOG 4230).

GEOG 8256 THEORY AND STRUCTURAL GEOMORPHOLOGY (3 credits)
Primarily a lecture course with emphasis on the historical development of theories in evolution of earth surface features and processes, coupled with underlying structural controls of landforms. (Cross-listed with GEOG 4250).
Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOL 1170

GEOG 8266 PROCESS GEOMORPHOLOGY (3 credits)
Primarily a lecture and laboratory course. Emphasis on methodology and modern process-oriented geomorphology. (Cross-listed with GEOG 4260).
Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOL 1170

GEOG 8310 GEOGRAPHY OF AGRICULTURE (3 credits)
A systematic study of the characteristics and patterns of world agriculture.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8326 CLIMATOLOGY (3 credits)
A study of climatic processes and their effect on shaping the physical landscape. Emphasis on physical and applied aspects of the field. (Cross-listed with GEOG 4320).
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1060 or GEOG 3510

GEOG 8336 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors affect soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOL 4330).
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1050, GEOL 1010, GEOL 1170 or instructor permission.

GEOG 8346 WATER RESOURCES (3 credits)
A study of the applied principles of hydrology, water systems modeling, river basin development, and water management issues and practices in the United States and other parts of the world. Two local Saturday field trips will be required. (Cross-listed with GEOG 4340).
Prerequisite(s)/Corequisite(s): Six hours of Physical Geography or equivalent and graduate standing.

GEOG 8500 SPECIAL TOPICS IN GEOGRAPHY (1-3 credits)
This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Subjects will be offered as sections of GEOG 8500, but will be separate from one another. Students may repeat GEOG 8500 as often as they like as long as no specific subject is duplicated. Course to be offered with approval of Graduate Program Committee and Dean for Graduate Studies.
Prerequisite(s)/Corequisite(s): Variable
GEOG 8510 ADVANCED GEOMORPHOLOGY (3 credits)
A seminar and lecture course on the current concepts and literature in the field of landform studies. Discussion will emphasize classic ideas as well as the modern concepts of climatic, dynamic, and quantitative geomorphology. Some study of Quaternary chronology will be necessary. Several optional Saturday field trips.
Prerequisite(s)/Corequisite(s): GEOG 8256 or GEOG 8266 and GEOL 1170 or GEOG 1070. Permission.

GEOG 8535 CARTOGRAPHY & GIS (2 credits)
An introduction to the concepts and techniques of map construction and computer-based geographic information systems. Topics include map scale, map projections, thematic cartography, history of cartography, computer mapping, and global positioning systems. Particular attention is given to the processing and presentation of spatial data by the computer and the distribution of maps through the Internet. (Cross-listed with GEOG 3530).
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020, GEOG 1060 or GEOG 1070, and a course in statistics.

GEOG 8536 HISTORICAL GEOGRAPHY OF U.S. (3 credits)
An analysis of historical circumstances behind contemporary patterns of American cultural geography. (Cross-listed with GEOG 4530).
Prerequisite(s)/Corequisite(s): Graduate and HIST 1110 and HIST 1120 or GEOG 1020 or GEOG 3330.

GEOG 8545 CARTOGRAPHY & GIS LAB (2 credits)
An introduction to the methods and techniques of map construction using both graphic design and geographic information system software. Topics include map design for both general reference and thematic maps. Particular attention is given to the processing, compilation, data classification, and symbolization of various types of spatial data. This course is the lab component of GEOG 8535.
Prerequisite(s)/Corequisite(s): Concurrent or previous registration in GEOG 8535.

GEOG 8556 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)
A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 4550, CACT 8116).
Prerequisite(s)/Corequisite(s): Graduate status.

GEOG 8580 SOILS (3 credits)
An examination of the older geographical concepts of the distribution and morphology of soil and the new works concerned with soil forms on a regional, rather than zonal, basis.
Prerequisite(s)/Corequisite(s): GEOG 1060 or GEOG 1070 and permission.

GEOG 8600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major research project. Students are required to submit a written proposal and gain written approval of the supervising faculty member and Graduate Program Committee. In addition to a formal written report, the student is required to make an oral presentation of research results to General Seminar or a professional meeting.
Prerequisite(s)/Corequisite(s): Fifteen graduate hours in geography and permission.

GEOG 8616 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgronds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOL 4610, GEOG 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOG 8626 GEOGRAPHICAL FIELD STUDIES (3 credits)
Field experience course based on variable topics and themes. Students must attend the multiple day field trip that will require overnight stays. (Cross-listed with GEOG 4620).
Prerequisite(s)/Corequisite(s): Instructor Permission. Not open to non-degree graduate students.

GEOG 8636 ENVIRONMENTAL REMOTE SENSING (4 credits)
An introduction to remote sensing science and technology. Emphasis will be placed on multispectral data, matter/energy interactions, sensor system characteristics, photogrammetry, image interpretation, digital image processing and environmental applications. Formal laboratory instruction will provide students with problem-solving skills and hands-on experience with remote sensing and GIS software. (Cross-listed with GEOG 4630).
Prerequisite(s)/Corequisite(s): GEOG 1060 or GEOG 1070 or GEOG 1170. Introductory statistics highly recommended.

GEOG 8640 REMOTE SENSING ADVANCED CONCEPTS AND APPLICATIONS (3 credits)
Designed for the graduate student desiring to do advanced work in remote sensing. The emphasis of the course is on non-photographic sensors and especially digital processing of multispectral satellite data. The applications are multidisciplinary in nature.
Prerequisite(s)/Corequisite(s): GEOG 4120 / GEOG 8126

GEOG 8646 CRITICAL ZONE SCIENCE (4 credits)
This course examines the Critical Zone (CZ), Earth’s permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZOs) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 4640, GEOL 4640)
Prerequisite(s)/Corequisite(s): GEOG 1170, GEOL 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOG 8650 LAND USE (3 credits)
A field course designed to understand, by actual field investigation, land use patterns in urban areas through the comprehension of social, physical and economic factors which tend to shape the land use of a given place. The major emphasis will be placed upon field investigations in the urban area, with the functional region receiving the major consideration.
Prerequisite(s)/Corequisite(s): GEOG 4120 / GEOG 8126
GEOG 8666 GEOGRAPHIC INFORMATION SYSTEMS II (4 credits)
An introduction to advanced geographic information systems (GIS) topics. Emphasis will be placed on algorithms and analysis for information extraction. Topics include spatial interpolation, remote sensing GIS integration, software development, spatial analysis, GIS modeling, and future advances in GIS. Formal laboratory instruction will provide students with GIS experience to solve application problems. (Cross-listed with GEOG 4660).
Prerequisite(s)/Corequisite(s): GEOG 4050/ GEOG 8056

GEOG 8670 CARTOGRAPHIC METHODS (3 credits)
Teaches effective map layout and the latest cartographic techniques, leading to a high level of competence in the design and interpretation of maps.

GEOG 8700 RESEARCH METHODS (3 credits)
A course designed to provide students with an overview of the discipline of geography with two purposes in mind: (1) a graduate-level introduction to the chief issues and concepts on the research frontiers of geography; and (2) preparation by the graduate students to begin their own thesis research.

GEOG 8800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING (1-6 credits)
(repeatable up to six hours) Internship with local planning agencies enabling students to gain knowledge and experience in comprehensive regional or environmental planning.
Prerequisite(s)/Corequisite(s): Permission and 12 graduate hours in geography.

GEOG 8810 SEMINAR IN METROPOLITAN PLANNING (3 credits)
An overview of metropolitan planning with special emphasis on the planning process and current problems encountered by planning officials.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8826 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulation. The course will address federal regulations, implementing instructions, legal principles, and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation will be discussed. Usually offered fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, GEOG 4820, ENVN 4820, PA 4820, PA 8826).
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

GEOG 8830 SEMINAR IN URBAN STUDIES (3 credits)
This course provides an interdisciplinary overview of the forces influencing and influenced by urbanization and urbanism. (Cross-listed with UBNS 8000)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GEOG 8840 DIRECTED RESEARCH IN URBAN STUDIES (3 credits)
The course is intended for advanced graduate students in urban studies. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with UBNS 8940).
Prerequisite(s)/Corequisite(s): Completed 9 graduate hours in Urban Studies. Permission from the School.

GEOG 8850 GISCIENCE PRACTICUM (3 credits)
This course is designed to provide students with geographic information system (GIS) application experience. Emphasis will be placed on advanced topics and GIS technology. Students will integrate scientific theory, GIS technology and application knowledge. Student internships or independent projects will provide students with practical software system expertise and GIS industry experience.
Prerequisite(s)/Corequisite(s): GEOG 8026, GEOG 8036, GEOG 8056, GEOG 8636, GEOG 8666, or consent of professor.

GEOG 8906 URBANIZATION IN DEVELOPING AREAS (3 credits)
The functions and morphology of various types of cities found in presently developing areas of the world. Emphasis will be upon contrasting the cities of the developed and developing areas. (Cross-listed with GEOG 4900).
Prerequisite(s)/Corequisite(s): Six hours of geography and GEOG 8126.

GEOG 8990 THESIS (1-6 credits)
Independent research project written under the supervision of an adviser.

GEOG 9550 TOPICS IN GEOMORPHOLOGY AND THE QUATERNARY (3 credits)
A seminar on the landforms of a particular area from the perspective of a particular geomorphic process operating through Quaternary time. Writing of research grant proposals emphasized as well.
Prerequisite(s)/Corequisite(s): Permission

Geography, MA

Department of Geography & Geology, College of Arts & Sciences

Vision Statement
The mission of the geography graduate program is to provide quality graduate education in physical geography, human geography and spatial analysis (GIS, cartography and remote sensing). The department offers a rich learning environment for students with close interaction between faculty and students, technology-enhanced instruction, and opportunities for fieldwork. Courses enhance student’s perception and appreciation of the earth’s human and physical environments as well as geography’s essential role in both understanding and navigating our increasingly interconnected world. The department, an active participant in its community, has ties throughout the city and state, leading to a wide variety of internship opportunities. The department is committed to providing students with the essential knowledge and skills needed to succeed, be it in professional employment or further graduate education.

Program Contact Information

Other Program Related Information
The Department of Geography/Geology offers graduate assistantships. Applications should be directed to the department and are due March 1 for the fall semester and October 15 for the spring semester. The assistantship requires 20 hours per week of teaching or similar duties. Applications received after the deadline will be considered for the next available opening.

Admissions
Application Deadlines
• Fall: July 1
• Spring: December 1
• Summer: May 1

Program-Specific Requirements
• Applicants must have a GPA in geography of at least a 3.0 on a 4.0 scale
• Present as a prerequisite a minimum of 15 undergraduate semester hours of geography including physical and human geography and cartography, plus at least three hours in spatial analysis, quantitative methods or statistics;
• Applicants for whom English is not the native language must have a minimum TOEFL score of 550 (213 if computer-based; 80 internet-based; 53 PTE, or 6.5 IELTS)
• Two (2) letters of recommendation
• Statement of Purpose
• Resume

Total Credits 36

1 GEOG 8026: or an approved graduate level statistics course from another department

### Exit Requirements:

- Thesis Option - 6 hours GEOG 8990
- Non-Thesis Option - Comprehensive Examination or Professional Conference
  - As an alternative to the oral and written non-thesis exams, a student pursuing the non-thesis option can instead present a paper or a poster at a professional conference. Poster or paper must be based on the student’s original research. Student must create a three-person committee and defend a research proposal first. The committee must be approved by the Graduate Studies Coordinator. Once their research is complete, their paper and poster or Powerpoint must be reviewed and approved by their committee. Once approved, the presentation or poster must be presented to the department before the conference and the Poster/Presentation Non-Thesis Option form completed. Student must then present at the conference and write up a one-page reflection of their experience presenting, giving the form and the reflection to the Graduate Studies coordinator.

### Geography, MA Concentrations

Select an area of concentration (9 hours)

Courses offered through GEOG 8500 and GEOG 8600 will be submitted for inclusion in a concentration accompanied by a letter from the student’s advisor or from the graduate program chair with the course title and specifying the concentration to which it applies.

Geographic Information Science Certificate

Department of Geography, College of Arts & Sciences

Vision Statement

The mission of the geography graduate program is to provide quality graduate education in physical geography, human geography and spatial analysis (GIS, cartography and remote sensing). The department offers a rich learning environment for students with close interaction between faculty and students, technology-enhanced instruction, and opportunities for fieldwork. Courses enhance student's perception and appreciation of the earth’s human and physical environments as well as geography’s essential role in both understanding and navigating our increasingly interconnected world. The department, an active participant in its community, has ties throughout the city and state, leading to a wide variety of internship opportunities. The department is committed to providing students with the essential knowledge and skills needed to succeed, be it in professional employment or further graduate education.

Program Contact Information

Admissions

Application Deadlines

• Fall: July 1
• Spring: December 1
• Summer: May 1

Program-Specific Requirements

• Applicants for whom English is not the native language must have a minimum TOEFL score of 550; 213 if computer based; 80 internet-based, 53 if Pearson Test of English (PTE), or 6.5 if IELTS.
• Only required if not admitted to MA in Geography program
  • Two (2) letters of recommendation
  • Statement of Purpose

Program-Specific Requirements

Applicants must have a GPA in geography of at least a 3.0 on a 4.0 scale

The student must demonstrate a background in geography, statistics, and computer science.

Prerequisites would include courses in human and physical geography, statistics, and programming such as the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEGH 1020</td>
<td>INTRODUCTION TO HUMAN GEOGRAPHY</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1530</td>
<td>INTRODUCTION TO APPLIED PROBABILITY AND STATISTICS</td>
<td>3</td>
</tr>
<tr>
<td>CIST 1400</td>
<td>INTRODUCTION TO COMPUTER SCIENCE I</td>
<td>3</td>
</tr>
</tbody>
</table>

Degree Requirements

Required Courses

<table>

</tr>
</tbody>
</table>

Total Credits 18

Students may substitute advanced courses in GIS for required courses already taken. Students will be allowed a maximum of two substitutions for these required courses. Substitution must be approved by the department GIS advisor.

Gerontology

Degree Programs Offered

• Gerontology, PhD (p. 746)
• Social Gerontology, MA (p. 747)
• Gerontology Certificate (p. 749)

GEGH 8020 INTRODUCTION TO RESEARCH METHODS (3 credits)

An introduction to research methods and statistical procedures in the social and behavioral sciences.

GEGH 8106 EDUCATIONAL GERONTOLOGY (3 credits)

An introduction to the field of education for and about the aging. The institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging. (Cross-listed with GEGH 4100).

GEGH 8280 COUNSELING OLDER ADULTS AND THEIR FAMILIES (2 credits)

A study of issues related to the counseling of older adults and their families.
GERO 8356 ISSUES IN AGING (3 credits)
This course is intended for students in gerontology and in other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people. (Cross-listed with GERO 4350).
Prerequisite(s)/Corequisite(s): Graduate.

GERO 8426 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with GERO 4420, RLS 4420, RLS 8426).

GERO 8466 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, PSYC 4460)

GERO 8476 MENTAL HEALTH AND AGING (3 credits)
The goal of this courses is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with GERO 4470, PSYC 4470, PSYC 8476).
Prerequisite(s)/Corequisite(s): Junior or senior.

GERO 8486 COMPARATIVE GERONTOLOGY (3 credits)
The study of aging around the world by a comparative method in a cross-cultural and cross-national framework. An explanation of some practical experiences and developments in Europe, Asia and Africa will be examined. (Cross-listed with GERO 4480).

GERO 8500 POLITICS IN AGING (3 credits)
The purpose of this course is to provide an understanding of the role of the political process in the emergence of public policy towards older adults in the United States, particularly during the past century.

GERO 8506 LEGAL ASPECTS OF AGING (3 credits)
Consideration of the legal concerns which are likely to arise as people age. Includes introduction to American legal system, and emphasis on underlying legal concepts and issues of special importance to older persons. (Cross-listed with GERO 4500).

GERO 8516 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, PA 4510, PA 8516).

GERO 8526 SENIOR HOUSING (3 credits)
The senior housing course is designed to provide students with an in-depth understanding of the various housing options available to older adults including aging in place to hospice. At the end of the course students will have a working knowledge of the needs of older adults and how this is used in making decisions about housing. (Cross-listed with GERO 4520.)
Prerequisite(s)/Corequisite(s): Graduate student.

GERO 8556 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550, HED 4550, HED 8556, WGST 4550).

GERO 8566 NUTRITION AND AGING (3 credits)
The goal of this course is to provide an understanding of the relationship between nutrition and successful or usual aging. This course will review the basics of good nutrition and relate them to the usual food intake of older adults. It will identify the impact of poor nutrition. This course will also look at the role nutrition plays in various disease processes that are associated with aging. It will provide information about support services that are available to assure good nutrition into old age for those living independently. (Cross-listed with GERO 4560).

GERO 8596 DISORDERS OF COMMUNICATION IN OLDER ADULTS (3 credits)
This course is designed to familiarize the student with the identification and symptomatology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. It is beneficial to students majoring in gerontology or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields. Graduate: Students are assigned contacts with and written reports of contacts with an older adult who manifests a disorder of communication. (Cross-listed with GERO 4590).

GERO 8676 PROGRAMS AND SERVICES FOR THE ELDERLY (3 credits)
This course is provided to give the student a historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO 4670).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8696 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 4690, SOWK 4040, SOWK 8046).

GERO 8726 BABY BOOMERS AND THE 21ST CENTURY (3 credits)
Marketing decisions and strategies apply to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses. (Cross-listed with GERO 4720).
Prerequisite(s)/Corequisite(s): Junior, Senior and Graduate Level Standing.

GERO 8730 DYING, DEATH & GRIEVING (3 credits)
An examination of theory and research relevant to interaction with the older, terminally ill person, focusing on communication with widows and other survivors as well as the dying patient. (Cross-listed with HED 8730).

GERO 8756 MID-LIFE, CAREER CHANGE, PRERETIREMENT PLANNING (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implication of preretirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with COUN 8756, GERO 4750).
Prerequisite(s)/Corequisite(s): Junior, permission of instructor. Not open to non-degree graduate students.
GERO 8856 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/ FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, SOWK 4850, SOWK 8856).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8920 SPECIAL STUDIES IN GERONTOLOGY (1-3 credits)
Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics or politics of aging, as well as operation of various service systems. The studies may be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.
Prerequisite(s)/Corequisite(s): Six hours of gerontology, or permission

GERO 8940 GRADUATE PRACTICUM (3 credits)
This course provides the opportunity to students to share field experiences; to obtain guidance concerning various relationships with agency, staff and clients; and to develop a broadly based perspective of the field of aging.
Prerequisite(s)/Corequisite(s): Nine hours in gerontology and permission. Students must be enrolled in the certificate or degree program (MA, PhD) as well as have a minimum GPA of 3.0. Not open to non-degree students.

GERO 8960 DIRECTED READINGS COUNSELING AND GERONTOLOGY (1-3 credits)
A study of recent and current literature on counseling with older people.
Prerequisite(s)/Corequisite(s): GERO 8960 or COUN 8966, counseling major, or permission

GERO 8970 PERSONAL VALUES AND AGING (1 credit)
Course designed to increase students' self-awareness of personal values and feelings related to aging and the aged.

GERO 8986 COUNSELING SKILLS IN GERONTOLOGY (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with COUN 8965, GERO 4980).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8990 THESIS (1-6 credits)
Independent research project required of all students working toward the Master of Arts degree. The thesis is written under the supervision of the thesis adviser and the thesis committee.
Prerequisite(s)/Corequisite(s): Permission from adviser.

GERO 9020 GRADUATE SEMINAR IN STATISTICAL APPLICATIONS (3 credits)
Provides an introduction to statistical methods and data management used in the social, behavioral and health sciences.

GERO 9110 APPLIED SOCIAL GERONTOLOGY (3 credits)
An overview of social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life. Restricted to graduate students only; required of gerontology students. (Cross-listed with SOC 9110).
Prerequisite(s)/Corequisite(s): Graduate.

GERO 9460 SEMINAR IN AGING AND HUMAN BEHAVIOR (3 credits)
This course will examine in detail age-related changes in psychological processes and explore the implications of these changes for behavior. The course is intended primarily for graduate students in psychology and gerontology. (Cross-listed with PSYC 9460).
Prerequisite(s)/Corequisite(s): Graduate standing in gerontology or psychology or permission of the instructor.

GERO 9480 GEROPSYCHOLOGY (3 credits)
To become familiar with the psychology of aging from a research perspective. The focus will be on psychological research in the middle years and in later years. (Cross-listed with PSYC 9480).

GERO 9560 SEMINAR: THE OLDER WOMAN (3 credits)
This course is designed to provide students with a critical understanding of older women. Primary focus will be directed towards an exploration of lifestyles, needs and interests of women in the later half of life. Reading and discussion of current literature will provide a basis for continued exploration through the preparation, administration and analysis of a group research project.

GERO 9990 DISSERTATION (1-6 credits)
This course provides doctoral students pursuing the PhD in Human Sciences with a specialization in gerontology to complete a dissertation research plan. The course learning activities will focus on the completion of an approved dissertation.
Prerequisite(s)/Corequisite(s): Admittance to the PhD in Human Sciences with a specialization in gerontology. Not open to non-degree graduate students.

Gerontology, PhD

Department of Gerontology, College of Public Affairs & Community Service

Vision Statement
Our program provides interdisciplinary training, preparing students to be leaders in the field of gerontology. Due to the multidisciplinary nature of the field, our students have much flexibility as we create individualized programs tailored to each student’s research and substantive interests to ensure that their training has enough breadth and depth. Our graduates acquire knowledge through various approaches including symposia, formal classes, directed studies, research projects and workshops. All students develop abilities to understand, analyze and evaluate the challenges and opportunities of an aging population. Finally, through training by our multidisciplinary faculty, students strengthen their research and writing skills to produce quality research suitable for peer-reviewed publication and presentation at national conferences.

Admissions

Application Deadlines
• Fall: February 1

Program-Specific Admissions Requirements
• Graduate Record Exam (GRE)
• Resume
• Three letters of recommendation
• Statement of Purpose describing your prior education, relevant professional experience, career goals, and the specific relationship of the PhD degree to the achievement of those goals. If there are particular faculty you are interested in working with, or areas of study that you would like to pursue please include in your statement. If you are interested in a graduate assistantship, please indicated your interest and the skills you have to assist the faculty.
• Writing Sample this may be a master’s or honors thesis, a published article, or any similar manuscript written in a scholarly style.
• TOEFL for all international students and a financial statement

Comprehensive Examination and Admission to Candidacy

When all or most of the coursework is completed on the plan of study, you must pass a written comprehensive examination. Once these exams are passed the supervisory committee will submit the necessary Application for Candidacy form for approval by the Office of Graduate Studies.

1 GER 8356-003 is the designated section that one must take for this course.

2 Students may begin work on the dissertation after successful completion of the comprehensive examination. The dissertation topic must be approved by the student’s Dissertation Committee, which consists of a chair and three other members. One Committee member must be a faculty member from outside the Department of Gerontology. The dissertation topic, prospectus, and the dissertation all require the approval of the Dissertation Committee. A doctoral student will be required to take at least one hour of GER 9990 Dissertation each fall and spring semester while working toward the completion of the dissertation. A minimum of 20 credit hours of GER 9990 is required for all doctoral students.

Social Gerontology, MA

Department of Gerontology, College of Public Affairs & Community Service

Vision Statement

Students pursuing the MA in Social Gerontology are seeking a formalized and in-depth understanding of the aging process by either pursuing a thesis or non-thesis option.

Program Contact Information

Dr. Christopher M. Kelly, Graduate Program Chair
College of Public Affairs & Community Service (CPACS) 210K
402-554-4124
cmkelly@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-public-affairs-and-community-service/gerontology/academics)

Other Program-Related Information

Alternative Delivery

Distance courses are available (online) for both the MA and the certificate programs.

Dual Degree in Social Gerontology and Law

Prospective students must apply to both UNO and UNL. Please refer to the Gerontology Departmental Handbook for more information. If pursuing the dual Social Gerontology and Law degree the LSAT will be accepted in lieu of the GRE.

Admissions

Application Deadlines

Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements

- Two (2) Letters of Recommendation
- Personal Statement (minimum two-pages)

Exit Requirements

- Thesis Option- GER 8990 6 hours
- Non-Thesis Option - Comprehensive Examination

GER 8020 INTRODUCTION TO RESEARCH METHODS (3 credits)

An introduction to research methods and statistical procedures in the social and behavioral sciences.
**GERO 8106 EDUCATIONAL GERONTOLOGY (3 credits)**
An introduction to the field of education for and about the aging. The institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging. (Cross-listed with GERO 4100).

**GERO 8280 COUNSELING OLDER ADULTS AND THEIR FAMILIES (2 credits)**
A study of issues related to the counseling of older adults and their families.

**GERO 8356 ISSUES IN AGING (3 credits)**
This course is intended for students in gerontology and in other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people. (Cross-listed with GERO 4350).

**Prerequisite(s)/Corequisite(s):** Graduate.

**GERO 8426 RECREATION FOR THE AGING (3 credits)**
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with GERO 4420, RLS 4420, RLS 8426).

**GERO 8466 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)**
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, PSYC 4460)

**GERO 8476 MENTAL HEALTH AND AGING (3 credits)**
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with GERO 4470, PSYC 4470, PSYC 8476).

**Prerequisite(s)/Corequisite(s):** Junior or senior.

**GERO 8486 COMPARATIVE GERONTOLOGY (3 credits)**
The study of aging around the world by a comparative method in a cross-cultural and cross-national framework. An explanation of some practical experiences and developments in Europe, Asia and Africa will be examined. (Cross-listed with GERO 4480).

**GERO 8500 POLITICS IN AGING (3 credits)**
The purpose of this course is to provide an understanding of the role of the political process in the emergence of public policy towards older adults in the United States, particularly during the past century.

**GERO 8506 LEGAL ASPECTS OF AGING (3 credits)**
Consideration of the legal concerns which are likely to arise as people age. Includes introduction to American legal system, and emphasis on underlying legal concepts and issues of special importance to older persons. (Cross-listed with GERO 4500).

**GERO 8516 LONG-TERM CARE ADMINISTRATION (3 credits)**
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, PA 4510, PA 8516).

**GERO 8526 SENIOR HOUSING (3 credits)**
The senior housing course is designed to provide students with an in-depth understanding of the various housing options available to older adults including aging in place to hospice. At the end of the course students will have a working knowledge of the needs of older adults and how this is used in making decisions about housing. (Cross-listed with GERO 4520.)

**Prerequisite(s)/Corequisite(s):** Graduate student

**GERO 8556 HEALTH ASPECTS OF AGING (3 credits)**
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550, HED 4550, HED 8556, WGST 4550).

**GERO 8566 NUTRITION AND AGING (3 credits)**
The goal of this course is to provide an understanding of the relationship between nutrition and successful or usual aging. This course will review the basics of good nutrition and relate them to the usual food intake of older adults. It will identify the impact of poor nutrition. This course will also look at the role nutrition plays in various disease processes that are associated with aging. It will provide information about support services that are available to assure good nutrition into old age for those living independently. (Cross-listed with GERO 4560).

**GERO 8596 DISORDERS OF COMMUNICATION IN OLDER ADULTS (3 credits)**
This course is designed to familiarize the student with the identification and symptomatology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. It is beneficial to students majoring in gerontology or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields. Graduate: Students are assigned contacts with and written reports of contacts with an older adult who manifests a disorder of communication. (Cross-listed with GERO 4590).

**GERO 8676 PROGRAMS AND SERVICES FOR THE ELDERLY (3 credits)**
This course is provided to give the student a historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO 4670).

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**GERO 8696 WORKING WITH MINORITY ELDERLY (3 credits)**
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 4690, SOWK 4040, SOWK 8046).

**GERO 8726 BABY BOOMERS AND THE 21ST CENTURY (3 credits)**
Marketing decisions and strategies applied to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses. (Cross-listed with GERO 4720).

**Prerequisite(s)/Corequisite(s):** Junior, Senior and Graduate Level Standing.

**GERO 8730 DYING, DEATH & GRIEVING (3 credits)**
An examination of theory and research relevant to interaction with the older, terminally ill person, focusing on communication with widows and other survivors as well as the dying patient. (Cross-listed with HED 8730).
**GERO 8756** MID-LIFE, CAREER CHANGE, PRERETIREMENT PLANNING (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implication of preretirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with GERO 8756, GER 4750).
Prerequisite(s)/Corequisite(s): Junior, permission of instructor. Not open to non-degree graduate students.

**GERO 8856** HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/ FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, SOWK 4850, SOWK 8856).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**GERO 8920** SPECIAL STUDIES IN GERONTOLOGY (1-3 credits)
Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics or politics of aging, as well as operation of various service systems. The studies may be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.
Prerequisite(s)/Corequisite(s): Six hours of gerontology, or permission

**GERO 8940** GRADUATE PRACTICUM (3 credits)
This course provides the opportunity to students to share field experiences; to obtain guidance concerning various relationships with agency, staff and clients; and to develop a broadly based perspective of the field of aging.
Prerequisite(s)/Corequisite(s): Nine hours in gerontology and permission. Students must be enrolled in the certificate or degree program (MA, PhD) as well as have a minimum GPA of 3.0. Not open to non-degree students.

**GERO 8960** DIRECTED READINGS AND COUNSELING IN GERONTOLOGY (1-3 credits)
A study of recent and current literature on counseling with older people.
Prerequisite(s)/Corequisite(s): GERO 8986 or COUN 8986, counseling major, or permission

**GERO 8970** PERSONAL VALUES AND AGING (1 credit)
Course designed to increase students' self-awareness of personal values and feelings related to aging and the aged.

**GERO 8986** COUNSELING SKILLS IN GERONTOLOGY (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with COUN 8986, GER 4980).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**GERO 8990** THESIS (1-6 credits)
Independent research project required of all students working toward the Master of Arts degree. The thesis is written under the supervision of the thesis adviser and the thesis committee.
Prerequisite(s)/Corequisite(s): Permission from adviser.

**GERO 9020** GRADUATE SEMINAR IN STATISTICAL APPLICATIONS (3 credits)
Provides an introduction to statistical methods and data management used in the social, behavioral and health sciences.

**GERO 9110** APPLIED SOCIAL GERONTOLOGY (3 credits)
An overview of social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life. Restricted to graduate students only; required of gerontology students. (Cross-listed with SOC 9110).
Prerequisite(s)/Corequisite(s): Graduate.

**GERO 9460** SEMINAR IN AGING AND HUMAN BEHAVIOR (3 credits)
This course will examine in detail age-related changes in psychological processes and explore the implications of these changes for behavior. The course is intended primarily for graduate students in psychology and gerontology. (Cross-listed with PSYC 9460).
Prerequisite(s)/Corequisite(s): Graduate standing in gerontology or psychology or permission of the instructor.

**GERO 9480** GEROPSYCHOLOGY (3 credits)
To become familiar with the psychology of aging from a research perspective. The focus will be on psychological research in the middle years and in later years. (Cross-listed with PSYC 9480).

**GERO 9560** SEMINAR: THE OLDER WOMAN (3 credits)
This course is designed to provide students with a critical understanding of older women. Primary focus will be directed towards an exploration of lifestyles, needs and interests of women in the later half of life. Reading and discussion of current literature will provide a basis for continued exploration through the preparation, administration and analysis of a group research project.

**GERO 9990** DISSERTATION (1-6 credits)
This course provides doctoral students pursuing the PhD in Human Sciences with a specialization in gerontology to complete a dissertation research project. The course learning activities will focus on the completion of an approved dissertation.
Prerequisite(s)/Corequisite(s): Admittance to the PhD in Human Sciences with a specialization in gerontology. Not open to non-degree graduate students.

---

**Gerontology Certificate**

**Gerontology Certificate**

**Department of Gerontology, College of Public Affairs & Community Service**

**Vision Statement**
Students pursuing the graduate certificate in gerontology are seeking a formalized understanding of the aging process that serves to complement existing graduate degree such as counseling, business, public administration or social work. Students also pursue the graduate certificate in gerontology to expand their knowledge beyond the undergraduate level.

**Program Contact Information**
Dr. Christopher M. Kelly, Graduate Program Chair
College of Public Affairs & Community Service (CPACS) 210K
402-554-4124
cmkelly@unomaha.edu

**Alternative Delivery**
Distance courses are available (online) for both the MA and the certificate programs.

**Admissions**
**Application Deadlines**
Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

**Program-Specific Requirements**
- Two (2) Letters of Recommendation

Health, Physical Education and Recreation

Degree Programs Offered

- Health, Physical Education and Recreation, MA (p. 755)
- Health, Physical Education and Recreation, MS (p. 757)

HED 8050 APPLIED RESEARCH IN PUBLIC HEALTH (3 credits)
This course will assist candidates to develop the basic skills to conduct applied research to address contemporary problems in public health. The course will emphasize proposal writing, data collection, research design, statistical analysis, computer application, and writing of research reports. 
Prerequisite(s)/Corequisite(s): Graduate status. Not open to non-degree graduate students.

HED 8080 TOPICS IN HEALTH EDUCATION (3 credits)
This course will explore important current issues in Health Education. Candidates will explore economic, political, ethical and technological developments that affect the practice of Health Education. There is no limit to the number of times a candidate may enroll in HED 8080 as long as a different topic is offered each time.
Prerequisite(s)/Corequisite(s): Graduate.

HED 8160 ALCOHOL & OTHER DRUG PREVENTION/EDUCATION IN SCHOOLS & COMMUNITIES (3 credits)
This course will focus on a team approach to address alcohol and other drug education, prevention, referral techniques and counseling strategies through the cooperation of school staff and community representatives who work with children from pre-school through 12th grade. Topics will include etiology of alcohol and other drug problems, current factual information concerning alcohol and other drugs, strategies for instruction, gaining parental and community support, developing youth leadership for prevention, intervention techniques for school youth, multicultural factors in prevention education, alternatives to drug use, referral and support resources, and the development of mini-networks for dissemination of information within the school and community. (Cross-listed with COUN 8160).
Prerequisite(s)/Corequisite(s): Graduate. Not open to non-degree graduate students.

HED 8250 HUMAN SEXUALITY (3 credits)
This course-level course is aimed at providing an overview of the current scientific knowledge concerning human sexuality. The course is designed to be interdisciplinary in nature, providing the biological, behavioral and cultural aspects of human sexuality. Priority will be given to candidates from the helping professions. Qualified candidates from other related disciplines must have permission of instructor.
Prerequisite(s)/Corequisite(s): Undergraduate Anatomy and Physiology.

HED 8270 INTERVENTIONS IN HEALTH EDUCATION (3 credits)
This course will provide health behavior candidates with an opportunity to investigate, contrast, develop, implement and evaluate a variety of intervention activities, to be applied in different settings. Theories regarding methods to enhance behavior change and teaching strategies to meet the health needs of a diverse population will be explored.
Prerequisite(s)/Corequisite(s): Graduate status.

HED 8330 ALCOHOL EDUCATION (3 credits)
A study of the problems associated with alcohol use, misuse and abuse. The patterns and trends of use, theories of dependence, pharmacological aspects and health consequences are explored. Emphasis is given to the identification of people with alcohol related problems and the role of the private and public sectors in prevention, education, intervention, and referral. Methods of assessing needs, prescribing, implementing, and evaluating alcohol education programs will be explored.

HED 8360 COMMUNITY HEALTH (3 credits)
An in-depth examination of community health and determinants of community health issues. The epidemiology, statistical sciences, environmental health, political influences on health, and behavioral social sciences for community health are examined. Students are expected to be able to apply concepts addressed in class to contemporary health issues.

HED 8400 HEALTH PROMOTION PROGRAM PLANNING (3 credits)
An in-depth application of the health promotion program planning process utilizing a choice of planning models. Students develop a comprehensive plan in response to an actual grant announcement and follow appropriate guidelines.

HED 8450 EPIDEMIOLOGY & PREVENTION OF DISEASE (3 credits)
The course is designed for health behavior graduate students and others who are interested in public health. The causes, prevention, treatment and control of prevalent communicable and non-communicable diseases in a culturally diverse and global society will be emphasized. Special emphasis will be given to diseases and health problems that can be prevented or controlled through education and advocacy. Students will apply skills to contemporary issues.

HED 8556 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with HED 4550, GERO 4550, GERO 8556, WGST 4550).
HED 8600 HEALTH BEHAVIOR (3 credits)
The purpose of this course is to study the theoretical foundations of health behavior. Candidates will develop an understanding of the determinants of health behavior, the models and theories that provide a framework for predicting health behavior, and the strategies employed to bring about behavioral changes for health and disease prevention in individuals and groups.

HED 8706 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with HED 4700, SOC 4700, SOC 8706).
Prerequisite(s)/Corequisite(s): Graduate standing.

HED 8730 DYING, DEATH & GRIEVING (3 credits)
An examination of theory and research relevant to interaction with the terminally ill person, focusing on communication with widows and other survivors as well as the dying person. (Cross-listed with GER 8730).
Prerequisite(s)/Corequisite(s): HED 8720 or permission of instructor.

HED 8750 PROGRAM EVALUATION AND INSTRUMENTATION (3 credits)
This course will build skills for selection, development and analysis of various types of instruments and techniques for conducting process, impact, and outcome evaluations in health promotion, education, and behavior. Evaluation of health behavior change and its antecedents, changes in community services programs, and community health status will be discussed. Candidates will learn methods for developing choosing psychometric tools, choosing appropriate evaluation designs, procedures for data collection, and describing evaluation results. Emphasis will be placed on political, statistical, and theoretical aspects of instrumentation and evaluation practices.
Prerequisite(s)/Corequisite(s): HED 8270 or permission of instructor.

HED 8850 HEALTH ASPECTS OF STRESS MANAGEMENT (3 credits)
The health-related aspects of stress management and control will be the focus of this course. Selected techniques for self-regulating stress will be demonstrated, practiced and analyzed. Candidates will be introduced to current scientific research in human stress.
Prerequisite(s)/Corequisite(s): Graduate.

HED 8950 PUBLIC HEALTH LEADERSHIP AND ADVOCACY (3 credits)
This course incorporates public health leadership theory and practices that are grounded in biomedical and social science and sanctioned by public law. Also included is the politics of communities and organizations. Advocacy is emphasized as a key tool to secure funding and to help assure that local, state, and federal policy-makers will adopt, implement, and maintain important public health regulations, policies and programs.
Prerequisite(s)/Corequisite(s): Fifteen (15) health education graduate credits. Not open to non-degree graduate students.

HED 8980 HEALTH EDUCATION PRACTICUM (1-3 credits)
This course offers graduate candidates in health education an opportunity to gain practical, on-the-job training in health education in local schools, businesses, hospitals, clinics, voluntary health agencies or governmental health agencies.
Prerequisite(s)/Corequisite(s): Candidates must have completed 21 credit hours at the undergraduate or graduate level (3.0 GPA or above) in health education prior to enrolling in this course. Not open to non-degree graduate students.

HPER 8000 SPECIAL STUDIES (1-3 credits)
A series of intensive courses - scheduled as regular seminars or workshops according to purpose.
Prerequisite(s)/Corequisite(s): Permission of department.

HPER 8030 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master's thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 9031).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 8100 RESEARCH PROJECT (1-3 credits)
Individual or group study and analysis of specific problems in health, physical education or recreation.
Prerequisite(s)/Corequisite(s): Permission of instructor.

HPER 8220 PROBLEMS & ISSUES IN HPER (3 credits)
An examination of current problems and issues in HPER that relate to the general aims and purposes of HPER.

HPER 8300 ANALYSIS OF RESEARCH AND LITERATURE IN HUMAN MOVEMENT (3 credits)
Survey of research and literature in Human Movement for the purpose of orienting the candidate to possible areas of research and developing an understanding of and appreciation for writings in the field. The course may be offered focusing on only one specific area in HPER.
Prerequisite(s)/Corequisite(s): HPER 8030

HPER 8500 QUALITATIVE RESEARCH METHODS (3 credits)
An examination of qualitative research methods. Emphasis on the broad application of qualitative research in public health, education, and social sciences. Course topics include research design, data collection, data analysis, and reporting.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HPER 8850 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will examine the physiological and medical limitations imposed on people with various common chronic diseases/conditions including arthritis, osteoporosis, exercise-induced asthma, obesity, diabetes, hypertension and pregnancy. Special groups such as children and elders will be discussed. Content will emphasize the etiology and guidelines for exercise testing, prescription, and supervision. (Cross-listed with HPER 9851).
Prerequisite(s)/Corequisite(s): PE 4940 or PE 8946

HPER 8890 THESIS (1-6 credits)
The thesis experience is designed to help develop the candidate’s ability to execute accepted procedures associated with the research process appropriate to the Master’s degree.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

HPER 9031 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master’s thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 8030).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 9851 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will examine the physiological and medical limitations imposed on people with various common chronic diseases/conditions including arthritis, osteoporosis, exercise-induced asthma, obesity, diabetes, hypertension and pregnancy. Special groups such as children and elders will be discussed. Content will emphasize the etiology and guidelines for exercise testing, prescription, and supervision. (Cross-listed with HPER 8850).
Prerequisite(s)/Corequisite(s): PE 4940 or PE 8946.
PE 8040  ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in
descriptive and experimental research in physical education and exercise
science. Application, particularly regarding the purpose, selection, and
interpretation of statistical procedures will be emphasized. (Cross-listed
with PE 9041)
Prerequisite(s)/Corequisite(s): HPER8030

PE 8076  OPTIMIZING SPORTS PERFORMANCE (3 credits)
The course is designed for coaches, athletes and physically active people,
and allied health professionals. Course content emphasizes integration
of several disciplines in sports medicine aimed at preparing one for
optimal sports performance. Topics include peaking, detraining, overuse
injury, efficiency, special foods and nutritional requirements, genetics and
trainability, and designing of multi-year training schedules. (Cross-listed
with PE 4070)
Prerequisite(s)/Corequisite(s): PE 4630 with a grade of C- or better or
BMCH 4630 with a grade of C- or better and PE 4940 with a grade of C-
or better.

PE 8086  CLINICAL EXERCISE PHYSIOLOGY (3 credits)
This course will offer students the knowledge, skills, and abilities to take the
American College of Sports Medicine's health fitness instructor certification
exam. This course will emphasize health risk assessment, exercise testing,
and exercise prescription for healthy and clinical populations. (Cross-listed
with PE 4080)
Prerequisite(s)/Corequisite(s): PE 2210 with a grade of C- or better, PE
2500 with a grade of C- or better or BMCH 2500 with a grade of C- or better
or BIOL 2840 with a grade of C- or better and PE 4940 with a grade of C-
or better.

PE 8120  CURRENT TOPICS IN WEIGHT MANAGEMENT (3 credits)
This course will focus on current issues related to weight management.
Candidates will review the guidelines for physical activity and nutrition,
apply them to current reading material sold in book stores, and develop a
best practice for weight management using what they have learned.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 8130  IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE
POPULATIONS (3 credits)
This course will focus on information necessary to assess, design,
implement, and evaluate the need for and effectiveness of physical
activity interventions in diverse populations, races, and ethnicities. These
populations will include: African American, Native American, Hispanic,
Asian American, Pacific Islanders, and Caucasian. Additionally, candidates
will complete a health and physical activity service learning project in which
they will work with diverse populations in the community. (Cross-listed
with PE 9131)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or
HED 8600. Not open to non-degree graduate students.

PE 8140  PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED
RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and
public health. Emphasis will be placed on the application of physical activity
assessment techniques. (Cross-listed with PE 9141)

PE 8176  MOTOR ASSESSMENT & PRESCRIPTIN (3 credits)
An in-depth survey of motor and fitness assessment instruments for use
with pre-school, elementary, and secondary school students. The use of test
scores for diagnosis and prescription of physical education activities for
special populations will be addressed. This course will enhance the skills
of the teacher to orchestrate the learning environment for students with
special needs. (Cross-listed with PE 4170)
Prerequisite(s)/Corequisite(s): PE 4150

PE 8186  PRACT PE FOR DISABLED CHILD (3 credits)
This course is designed as a practicum with theoretical and practical
experience in addressing the motor needs of young disabled children in a
physical education setting. This course will enhance the skills of the teacher
to orchestrate the learning environment for students with special needs.
Prerequisite(s)/Corequisite(s): PE 4170 or PE 8176

PE 8206  PLANNING WORKSITE WELLNESS PROGRAM (3 credits)
This course will focus on the planning of quality worksite wellness programs
utilizing standards established by the Association for Worksite Health
Promotion. Steps in the planning process such as needs assessment,
strategic planning, implementation, and evaluation will be taught with
special application to the worksite. Critical issues involving worksite
programs also will be addressed such as upper management support,
program standards, corporate culture, competencies for worksite health
promotion professionals, economic benefits, behavioral theories, legal
issues, and the integration of worksite wellness programs and health care.
(Cross-listed with PE 4200)
Prerequisite(s)/Corequisite(s): Junior standing.

PE 8210  EMERGENCY MANAGEMENT OF INJURY AND ILLNESS (2
credits)
The purpose of this course is to prepare students to respond to emergent
conditions that affect patients involved in physical activity. Students will
learn to recognize the signs and symptoms of acute injury and illness,
assess patients using evidence-based methods, apply appropriate
treatments, make appropriate referral decisions, and implement effective
prevention strategies to reduce the risk of injury and illness.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in
Athletic Training program. Not open to non-degree graduate students.

PE 8240  SPORT IN AMERICAN CULTURE (3 credits)
Sport in American culture is a study of sport from a theoretical perspective.
The relationship between sport and sub-cultures (to include disadvantaged
American cultures), economics, global influences, and technology will be
analyzed.

PE 8266  INCL INDV W/DISABILITIES IN PE (3 credits)
This course is for physical education, health education, special education
and therapeutic recreation candidates interested in the inclusion of children
with disabilities in physical education environments. (Cross-listed with PE
4260)
Prerequisite(s)/Corequisite(s): PE 3060 or PE 4000 and PE 4150

PE 8280  CURRICULUM IN PE (3 credits)
A study of the foundations for curriculum development. Special
consideration is given to curriculum change, curriculum patterns and
programs in physical education which will meet a culturally diverse, global
society.

PE 8310  ATHLETIC TRAINING TECHNIQUES (2 credits)
Overview course including basic components of the athletic training
profession including the prevention, recognition, evaluation and immediate
care of athletic injuries. Medical terminology, tissue healing, taping
procedures, and professional considerations will be covered.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in
Athletic Training. Not open to non-degree graduate students.

PE 8316  LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill
in the area of advanced athletic injury assessment. The candidate will be
exposed to current methodology in the field of orthopedic assessment,
pathophysiology of orthopedic injury, and application of current research
in injury evaluation. The candidate will receive practical experience in the
management of athletic injuries. This course will focus on the lower back, hip,
and lower extremities. (Cross-listed with PE 4310)
Prerequisite(s)/Corequisite(s): PE 8326 and 8710. Not open to non-
degree graduate students.
PE 8326 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with PE 4320)
Prerequisite(s)/Corequisite(s): PE 8316, PE 8336, and PE 8720. Not open to non-degree graduate students.

PE 8336 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with PE 4330)
Prerequisite(s)/Corequisite(s): PE 8326 and PE 8710. Not open to non-degree graduate students.

PE 8346 REHAB TECH IN ATH TRAINING (3 credits)
The use of basic theories and principles of athletic injury rehabilitation including therapeutic exercise and the use of physical agents. The development of rehabilitation programs including hands-on practical application. (Cross-listed with PE 4340)
Prerequisite(s)/Corequisite(s): Written Permission Required

PE 8356 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with PE 4350)
Prerequisite(s)/Corequisite(s): PE 3430, PE 4320.

PE 8360 ADV ORTHO & MED ASPECTS (3 credits)
This course will enhance the candidate's knowledge of orthopedic aspects and general medical conditions of the athlete. Involves lecture, directed observation, experiential learning, literature review and hands-on experience. Local medical professionals will be providing instruction and supervision within their specialties. The candidate will be exposed to advanced evaluation and treatment skills, including imaging techniques, surgical procedures, rehabilitation and athletic training management.
Prerequisite(s)/Corequisite(s): PE 8316 and PE 8326

PE 8370 ANALYZING PE TCH & SPORT INST (3 credits)
This course will examine the teaching and coaching in physical education and sport. It will identify assessment techniques utilized in teaching and coaching behavior research as well as typical prescriptions in an effort to improve one's performance.

PE 8460 OCCUPATIONAL BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance in work places and provide candidates with information in the application of biomechanics, engineering for designing industrial tools, equipment, products, and jobs that take into consideration human physical capabilities and limitations.
Prerequisite(s)/Corequisite(s): PE 4630 or equivalent and PE 2880. Not open to non-degree students.

PE 8506 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with PE 4500)

PE 8700 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 9701)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.

PE 8710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, instructor permission, & continued compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite with enrollment in PE 8326. Not open to non-degree graduate students.

PE 8720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to MA in Athletic Training program, PE 8710 Clinical Practicum AT I, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8316 & 8336. Not open to non-degree grads.

PE 8730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to MA in Athletic Training program, PE 8720 Clinical Practicum AT II, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8346 & 8356. Not open to non-degree grads.

PE 8740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to MA in Athletic Training program, PE 8730 Clinical Practica in Athletic Training III, instructor permission, and continued compliance with published Athletic Training Program Technical Standards for Admission. Co-req: PE 8966.

PE 8800 RISK MGT HLTH/FIT PROFESSIONS (3 credits)
A study of risk management for health fitness professionals with a focus on minimizing liability exposures for health fitness facilities and their personnel. Principles of risk management such as the assessment of liability exposures, the development and implementation of risk management strategies, and the evaluation of these strategies will be explored as well as the law as it pertains to health fitness liability. Candidates will develop the knowledge and skill to manage high quality health fitness programs in various settings.
Prerequisite(s)/Corequisite(s): PE 4010 or PE 8016
PE 8856 CARDIOVASCULAR DISEASE PREVENTION & REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to
the theories and practices involved in all phases of cardiac rehabilitation.
(Cross-listed with PE 4850)
Prerequisite(s)/Corequisite(s): PE 8946

PE 8865 SCIENTIFIC ASPECTS STRENGTH DEV (3 credits)
This course is designed to explore the nature of muscular strength
development, to investigate the physiological basis of physical conditioning,
and to provide teachers, coaches and trainers with practical experience
in designing specialized conditioning programs for a variety of sports and
cultures. (Cross-listed with PE 3860)

PE 8900 MGMT & LEAD SKILLS FOR FIT MGRS (3 credits)
This course is a study of management and leadership skills necessary for
the successful management of fitness and wellness facilities and programs.
Candidates will develop knowledge and practical skills in the areas of
personnel and financial management, marketing, and operating policies
procedures as well as develop a personal leadership philosophy based on
sound principles of leaders.
Prerequisite(s)/Corequisite(s): PE 8016 or ACSM Health Fitness
Certification.

PE 8910 INTERNSHIP IN EXERCISE SCIENCE (3 credits)
This course is an off-campus, supervised, educational work experience of
at least 150 clock hours at an approved worksite offering programs and
experiences in fitness development or health promotion. Candidates must
have current CPR certification.
Prerequisite(s)/Corequisite(s): The prerequisites for this course include
90 hours completed, 2.5 GPA, PE 4900 and permission of instructor.

PE 8950 ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of
exercise on metabolic, pulmonary, and cardiovascular function; and sports
nutrition. Current research findings and methodology will be emphasized.
(Cross-listed with PE 9951)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent

PE 8966 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of
sports participation. Some areas to be covered include the medical
supervision of the athlete, special populations, conditioning, environmental
concerns and sports nutrition. (Cross-listed with PE 4960)
Prerequisite(s)/Corequisite(s): PE 8346, PE 8356, and PE 8730, or
Instructor consent.

PE 9040 PHYSICAL ACTIVITY EPIDEMIOLOGY (3 credits)
This course will cover the broad scope of the issues related to
epidemiological methods that are relevant to the study of physical activity
populations. It is intended to enhance students' ability to understand and
apply epidemiological methods to physical activity related research.
Prerequisite(s)/Corequisite(s): PE 8130 Implementing Physical Activity
I and PE 8040 Advanced Statistics in PE or related course or permission by
the instructor; not open to non-degree graduate students

PE 9041 ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in
descriptive and experimental research in physical education and exercise
science. Application, particularly regarding the purpose, selection, and
interpretation of statistical procedures will be emphasized. (Cross-listed
with PE 9041)
Prerequisite(s)/Corequisite(s): HPER 9031 or equivalent.

PE 9131 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 8130)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or
HED 8600. Not open to non-degree graduate students.

PE 9141 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and
public health. Emphasis will be placed on the application of physical activity
assessment techniques. (Cross-listed with PE 8140)

PE 9701 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological
antecedents and consequences of exercise and physical activity behaviors.
The course will focus on traditional theories/principles of psychology as they
relate to various physical activity settings. (Cross-listed with PE 8700)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course
in either: Motivation for Physical Activity (PE 3900), or equivalent;
Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor
permission.

PE 9810 HIGHER EDUCATION TEACHING SEMINAR (3 credits)
The seminar is designed to prepare students for entry into a higher
education teaching career. This seminar requires doctoral students to
teach an undergraduate or graduate lecture course relevant to their
field of preparation. The seminar includes an examination of the roles,
responsibilities, and privileges associated with teaching in higher education.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral
Program in Exercise Science and successful completion of 24 hours of
doctoral coursework and approval from advisor. Not open to non-degree
students.

PE 9820 SERVICE EXPERIENCE IN HIGHER EDUCATION (3 credits)
This seminar will allow students the opportunity to gain valuable knowledge of the service expectations of faculty in higher education settings. The seminar will focus on service opportunities within the university, within the profession and within the community. Participants in the seminar will complete appropriate service activities.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral
Program in Exercise Science, successful completion of 24 hours of doctoral
coursework, and approval from advisor. Not open to non-degree students.

PE 9910 DOCTORAL SEMINAR (3 credits)
The major goal of this course is to teach the graduate student how to write
manuscripts/grants and be an effective academician with strong ethics. The
outcome of this course is for the student to produce a manuscript based on
data acquired in the laboratory from the ideas developed in the seminar or
submit a grant that will support the research ideas developed in at least
one semester. The material covered is intended to equip students with the
skills necessary to be successful in their academic careers with emphasis
given on writing scientific papers. (Cross-listed with BMCH 9910)
Prerequisite(s)/Corequisite(s): Admission into the PhD program. Not
open to non-degree graduate students.

PE 9951 ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of
exercise on metabolic, pulmonary, cardiovascular function, skeletal muscle
function, and sports nutrition. Current research findings and methodology
will be emphasized. (Cross-listed with PE 8950)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent.
PE 9960  ADVANCED EXERCISE PHYSIOLOGY II (3 credits)
The focus of this course is a detailed analysis of the mechanisms responsible for acute and chronic responses to exercise at the cellular and molecular level. Current and historical research will be emphasized.
Prerequisite(s)/Corequisite(s): PE 8950/9951. Not open to non-degree graduate students.

PE 9990  DISSERTATION (1-15 credits)
The course provides doctoral candidates in Exercise Science with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation. (Cross-listed with BMCH 9990)
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science, successful completion of doctoral coursework & comprehensive exams, approval of the dissertation supervisory committee chair & advancement to candidacy. Not open to non-degree graduate students.

Health, Physical Education and Recreation, MA
School of Health and Kinesiology, College of Education

Vision Statement
The School of Health and Kinesiology (H&K’s) graduate programs prepare students for careers in health, physical education, exercise science, athletic training, physical activity, and recreation. By fostering the development of evidence-based work, we train students to be lifelong learners who can perform leadership roles as educators, practitioners and researchers.

Admissions
Application Deadlines
• Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
• Two (2) letters of recommendation
• Statement of Purpose
  • Statement of goals and rationale for entering graduate program (maximum of 300 words)

Degree Requirements

Exit Requirements
Comprehensive Examination

History, MA
Department of History, College of Arts & Sciences

Vision Statement
The mission of History MA program is to develop in students an understanding both of history itself and of history as a profession. In so doing, students will move beyond thinking of history as simply a series of events.

Since the professionalization of history in the late nineteenth century, historians have sought to explain not only what happened but why events unfolded the way they do. In subsequent years, this has led to an increasingly sophisticated volume of materials which deepen our understanding of the past. The process has also led to the formulation, and frequently the subsequent refutation, of models of interpretation.

In order to develop a proper understanding of the past, graduate students in history need to understand not only the events of the past but how historians have interpreted those events. As such the History MA program is committed to exposing our students to the events of history, the records of history, as well as to those who have sought to explain them. In so doing, our graduate will understand history at a much deeper level than when they entered the program.

Program Website (http://www.unomaha.edu/history)

Admissions
Application Deadlines
- Fall: May 15
- Spring: October 15

Program-Specific Requirements
- Complete 21 semester hours of undergraduate work in history, including a course on historical research, with a 3.0 grade point average (on a 4.0 scale).
- Two (2) Letters of Recommendation are required.
  - Because we seek to determine your potential as a historian, letters of recommendation should be solicited primarily from historians with whom you have worked during your academic career. If you did not major in history and therefore cannot get letters from historians, then the best remaining option is to obtain letters from professors in the field in which you majored. Letters of recommendation from employers, family friends, and the like are essentially useless to us.
  - Statement of Purpose (Essay)
    - Submit an essay of 250-500 words describing the applicant’s interests in history and why he or she wishes to earn an MA degree in History.
  - Writing Sample
    - 10-12 pages in length from an upper-division history (or cognate) course, or equivalent-length history-related article published in a peer-reviewed publication.
  - The History Graduate Program Committee may choose, in rare cases, to admit provisionally any student who does not meet all of the above requirements, with the understanding that all conditions for unconditional admission must be met before HIST 8010 or HIST 9100 courses may be taken.
  - Students who have no undergraduate course in historical research and methodology must successfully complete HIST 2980 during one of the first two semesters of their enrollment. This course, required of all undergraduate history majors at UNO, seeks to develop two skills essential to all historians: the ability to write clearly and the ability to conduct critical and thorough research. Students who lack these skills may anticipate serious problems in their studies.
    - Interpretation of this requirement rests with the History Graduate Program Committee. Students who believe that they have taken a comparable course may be asked to submit examples of their work, which will enable the Graduate Program Committee to assess their proficiency.

Required Courses
Thesis Option (36 hours)
The 36-hour thesis program includes six (6) hours of thesis credit, plus thirty (30) credit hours in graduate coursework. This program is especially recommended for students who wish to continue work toward a PhD, but is open to any student.

Students who intend to write a thesis should bear in mind that this is a substantial undertaking and one that normally takes at least a year of focused research, background reading, writing, and revision to complete, in addition to previous coursework. An MA thesis must present original research and provide evidence of both extensive work in primary sources and engagement with the current scholarship on the subject matter in question. Students should develop some idea of a topic well before they complete their coursework and, in conjunction with the Graduate Program Chair, identify the department member best suited to supervise the thesis. Each faculty member of the department has complete discretion as to whether he or she will work with a particular student and whether the proposed topic is acceptable. Further discussion on thesis topics will be addressed during advising and/or new student orientation.

Total Credits 36
have completed all the required coursework for their MA program. Rare expectations may be considered at the discretion of the GPC.

As comps are not a course, they are graded only as pass/fail – with a B-being the minimum grade to pass. The three questions will be graded separately – students must pass all questions in order to earn their MA. Retaking all or part of a comprehensive exam should be scheduled within two semesters (including summer) of the original exam, except in extraordinary circumstances and with the special permission of the Graduate Committee. Failure of 1 question will require a rewrite of that question (new or revised to be determined by the committee); failure of 2 or more questions will require a retake of the entire exam (new or revised, again to be determined by the committee). Retakes will be limited to one attempt. Further details on comprehensive exams will be provided during advising and/or new student orientation.

As is the case with regular courses, students may appeal comprehensive exam grades ONLY IF they believe such grading was “prejudiced or capricious” (see Bylaws of the Board of Regents of the University of Nebraska. Details here (http://www.unomaha.edu/policies)). The process of appeal will follow that provided in the Department of History Grade Appeal outlined here (http://www.unomaha.edu/cas/gradeappeal.php), with the GPC standing as Instructor of Record.

Course Attendance Requirement and Withdrawal Policy
- All History Department faculty may, at their own discretion, remove from any class any graduate student who misses three or more classes during a single semester.
- The History Department Graduate Program Committee may remove from the program any student who withdraws from three or more courses.

Academic Progress
- Each candidate must complete his or her MA degree within eight (8) years of starting the program. A candidate who, owing to extenuating circumstances, is unable to meet this requirement may appeal in writing to the Graduate Program Chair and/or the History Department Graduate Committee for an extension of time. Such extensions will normally be granted only in cases of serious illness or military deployment.
- In addition to conforming to all requirements for academic progress laid down by the Office of Graduate Studies, the History Department notes the following: pursuant to the section “Automatic Dismissal,” wherein is noted “Departments/Schools may have additional and more stringent criteria for evaluating a student’s performance and may demand a higher level of performance than that demanded by the Graduate College,” please note:
  - The History Department at UNO will automatically dismiss from the program any student who withdraws from three or more courses, regardless of whether or not they have complied with other requirements of satisfactory progress.

HIST 8010 RESEARCH DIRECTED READINGS PROJECT (1-3 credits)
Special research problems and directed readings arranged individually with students on topics not explored in other graduate offerings. If students do not complete all the readings during the semester in which they enroll in the course, they must complete all the readings within one academic year of their enrollment.

Prerequisite(s)/Corequisite(s): Minimum of nine graduate hours in history completed. Permission of history Graduate Program Chair. Open only to students enrolled in the History MA program. Not open to non-degree graduate students.

Non-Thesis Option (36 hours)
Thirty-six (36) hours of graduate coursework in history.

The 36-hour non-thesis program consists entirely of coursework. This program is especially recommended for students who wish to pursue work in public history, archiving, secondary-school teaching, park-service work, etc. Students will receive guidance and support regarding future career paths from their comprehensive exam committee.

Students completing an MA with thesis may include no more than six (6) hours total from among HIST 8010 and HIST 8020.

Non-thesis Option

Comprehensive Examination
Successfully pass comprehensive exams which may only be taken after the candidate has successfully completed all other requirements for the MA. Full details on comprehensive examinations will be provided during advising and/or new student orientation.

Exams will be offered in each semester of the academic year i.e. fall, spring summer. Students generally may not take their exams until they
HIST 8016 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010, RELI 4050).
Prerequisite(s)/Corequisite(s): Must be a graduate student enrolled in History MA program. Not open to non-degree graduate students.

HIST 8020 GRADUATE INTERNSHIP (1-3 credits)
The graduate student is supervised by a member of the faculty in a project involving part-time employment or service with a museum, historic site, historical society or other institution. Work hours, activities, reporting requirements, and responsibilities must be specified in written agreement between employer, student, Graduate Program Chair, and/or supervising faculty member. Normally taken for 3 hours. If a hosting institution cannot commit to a supervised workload which the departmental advisor and/or Graduate Program Chair believe to be equivalent to 3 hours, course may be taken for fewer hours. In such circumstances, student may repeat course up to a total of 3 hours.
Prerequisite(s)/Corequisite(s): Must be enrolled in the History MA program and have completed at least 6 hours of graduate credit. Student must have approval of Graduate Program Chair (GPC) and/or supervising faculty before enrolling. Not open to non-degree graduate students.

HIST 8030 GRADUATE HISTORICAL METHODOLOGY (3 credits)
This course will examine various historical methodologies which have been employed by historians to provide structural interpretations of the past. Although exact content may vary, examples of methodologies include the Whig Interpretation, Marxism, Structuralism, Postmodernism, and the New Social History.
Prerequisite(s)/Corequisite(s): Students must be enrolled in the MA program in history. Not open to non-degree graduate students.

HIST 8046 HOMESCAPES: THE MATERIAL CULTURE OF EVERYDAY LIFE IN AMERICA, 1600-1860 (3 credits)
This course examines the culture and technologies of house forms and work landscapes in North America, 1600-1860. (Cross-listed with HIST 4040).
Prerequisite(s)/Corequisite(s): Graduate student in history, or permission of the graduate chair.

HIST 8056 HISTORY OF WOMEN IN AMERICA TO 1875 (3 credits)
This course examines the history of women in what is now the United States from the seventeenth century to 1875. Topics include law, work, sexuality and reproduction, slavery, cross-cultural encounters, religion, political activism, and the transformation of gender by the market and industrial revolutions. (Cross-listed with HIST 4050).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HIST 8066 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 4060, WGST 8066).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HIST 8126 AMERICAN SOCIAL AND INTELLECTUAL HISTORY SINCE 1865 (3 credits)
Primarily a non-political approach to American history, this course will examine significant topics in American thought and society. (Cross-listed with HIST 4120).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HIST 8136 THE REVOLUTIONARY ERA, 1763-89 (3 credits)
An analysis of the imperial and internal forces which led to the revolution and an examination of the economic, social and political problems of the emerging nation. (Cross-listed with HIST 4130).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8146 COLONIAL AMERICAN HISTORY (3 credits)
This course provides a study of the settlement and development of North America to c. 1763 with an emphasis on the British colonies. (Cross-listed with HIST 4140).

HIST 8166 THE U.S.: EARLY NATIONAL PERIOD: 1789-1828 (3 credits)
An interpretative study of the middle period of American history. (Cross-listed with HIST 4160).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8176 AMERICAN FRONTIER 1800-1900 (3 credits)
The Trans-Mississippi West from the Rocky Mountain Fur Trade days to the disappearance of the frontier around 1900. (Cross-listed with HIST 4170).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8186 CIVIL WAR AND RECONSTRUCTION (3 credits)
A period study from 1845 to 1877. The background of the Civil War, the war years and the reshaping of the Union during reconstruction. (Cross-listed with HIST 4180).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8246 EMERGENCE OF MODERN AMERICA (3 credits)
A study of a transitional period in American history, this course considers the importance of industrialization, urbanization, immigration and the emergence of the United States as a significant world power. (Cross-listed with HIST 4240).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8276 20TH CENTURY AMERICA TO 1932 (3 credits)
A study of the history of the United States from the end of the 19th century to the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 4270).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8286 TWENTIETH CENTURY AMERICA SINCE 1932 (3 credits)
A study of the history of the United States since the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 4280).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8336 U.S. CONSTITUTIONAL HISTORY TO 1860 (3 credits)
A history of constitutional theory and practice to 1860. (Cross-listed with HIST 4340).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8346 U.S. CONSTITUTIONAL HISTORY SINCE 1860 (3 credits)
A history of constitutional theory and practice since 1860. (Cross-listed with HIST 4340).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8356 AMERICAN DIPLOMATIC HISTORY (3 credits)
A history of the foreign relations of the United States. (Cross-listed with HIST 4350).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students
HIST 8406 HISTORY OF NORTH AMERICAN INDIANS (3 credits)
A survey of traditional North American Indian cultures, their contact with transplanted European peoples, and the continuing problems faced today. (Cross-listed with HIST 4400).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8416 HISTORY OF NEBRASKA (3 credits)
From the earliest known records to the present. (Cross-listed with HIST 4410).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8426 THE SIOUX TRIBE (3 credits)
A cultural and historical study of the Sioux tribes emphasizing the earliest historic period to the present. (Cross-listed with HIST 4420).

HIST 8436 AMERICAN URBAN HISTORY (3 credits)
Historical survey of urban development in the United States from the colonial period to the present, with attention to urbanization as a social process affecting the nation at large as well as cities in particular. (Cross-listed with HIST 4430).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8446 HISTORY OF THE SOUTH (3 credits)
Economic, social and political development of the south as a region. (Cross-listed with HIST 4440).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8456 NATIVE AMERICAN ENVIRONMENTALISM (3 credits)
This course studies North American tribal subsistence and natural resource use practices from the early historic period to the present, Native Americans as environmentalists, and modern tribal environmentalism. (Cross-listed with HIST 4450).

HIST 8476 AMERICAN MEDICINE AND PUBLIC HEALTH (3 credits)
Analysis of the relationship and interaction of medical thought and practice, public health problems and institutional development, and the changes in American society and culture from the 17th to the 20th century. (Cross-listed with WGST 8476, WGST 4470, HIST 4470).
Prerequisite(s)/Corequisite(s): Junior.

HIST 8486 THE UNITED STATES IN THE 1960S (3 credits)
This course is a review of the economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 4480).

HIST 8516 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of enduring political, religious, economic, scientific and philosophical ideas in their historical setting. (Cross-listed with HIST 4510).

HIST 8526 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of leading political, religious, economic, scientific and philosophical ideas in times of extraordinary social change. (Cross-listed with HIST 4520).

HIST 8536 THE AGE OF THE RENAISSANCE-REFORMATION (3 credits)
A study of the politics and economics of the 15th and 16th centuries as well as the achievements of Renaissance culture and the emergence of the Protestant churches and the Tretine Catholicism. (Cross-listed with HIST 4530).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8546 MEDIEVAL EUROPE (3 credits)
An examination of medieval European history with emphasis upon social and economic developments. (Cross-listed with HIST 4540).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8556 THE AGE OF ENLIGHTENMENT (3 credits)
A study of the politics and economics of the late-17th century and of the 18th century as well as the emergence of modern secular thought and its impact upon traditional European society. (Cross-listed with HIST 4550).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8566 THE FRENCH REVOLUTION AND THE NAPOLEONIC ERA, 1789-1815 (3 credits)
Particular attention is given to the development of democratic practice concurrently with the development of modern authoritarianism. (Cross-listed with HIST 4560).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8576 EUROPE:1815-1890 (3 credits)
A study of reform and reaction with resulted in the Balkanization of Europe. (Cross-listed with HIST 4570).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8616 TUDOR AND STUART ENGLAND (3 credits)
A study of England under the Tudors when the English people solidified the monarchy and experienced a golden age, and the Stuarts continued modernization and formulated the new institutions foreshadowing those of our world today. (Cross-listed with HIST 4610).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8626 ENGLAND: FROM EMPIRE TO WELFARE STATE (3 credits)
A study of the change and development in Great Britain from the late 18th century to 1918. (Cross-listed with HIST 4620).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8646 BRITISH EMPIRE AND COMMONWEALTH (3 credits)
Britain in America, Africa, India and the Pacific. The development of a dependent empire and transformation into independent nations. (Cross-listed with HIST 4640).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8656 HISTORY OF MODERN IRELAND (3 credits)
A survey of Irish history from the Act of Union of 1801 through the civil rights movement of “Troubles” of Northern Ireland in the 1970s. (Cross-listed with HIST 4650).

HIST 8716 EUROPE AND AMERICA IN TWO WORLD WARS (3 credits)
A military, social and political history analyzing the causes, conduct and consequences of each war, the war time transformation of European and American society, and the emergence of the United States as a world power. (Cross-listed with HIST 4710).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8726 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the “final solution.” It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with HIST 4720, RELI 4160, RELI 8166).

HIST 8736 ISRAEL AND PALESTINE (3 credits)
This course will outline the history of the conflict over Palestine/Israel, examine its present status, and explore its likely unfolding in the future. It seeks to provide a broad and concise understanding of the historical events which have shaped the relations between Israelis and Palestinians, as well as a keen awareness of the challenges and prospects related to their future. (Cross-listed with HIST 4730).
HIST 8746 COMPARATIVE GENOCIDE (3 credits)
This course explores genocide and its many forms throughout history. It begins by considering the varied elements and definitions of the term. Next it looks at what makes people kill before going on to examine many different genocides throughout history. Finally, the course addresses the prosecution and prevention of genocide. (Cross-listed with HIST 4740).
Prerequisite(s)/Corequisite(s): Graduate student enrolled in History MA program. Not open to non-degree graduate students.

HIST 8776 EUROPE: 1890-1932 (3 credits)
A study of the conditions and forces immediately precedent to World War I, the war itself, the peace following the war and the rise of the modern dictatorships. (Cross-listed with HIST 4770).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8786 EUROPE: 1933 TO THE PRESENT (3 credits)
A study of the ever-increasing tensions between the Fascist and Communist dictatorships and the Western democracies, World War II, the resultant dislocation of power and the emergence of the balance of terror. (Cross-listed with HIST 4780).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8806 U.S. AND THE MIDDLE EAST (3 credits)
This course focuses on the evolution of US relations with and Foreign Policy vis-à-vis the Middle East over the last six decades. It seeks to illuminate the constant features in contrast to the changes in direction, examining the agendas of varying administrations as well as the treatment by the media of this region. It follows a chronological framework with particular emphasis on key thematic topics. While emphasizing the political dimensions of international relations, the class will also explore cultural and social aspects of the ties between the US and the peoples of the Middle East. (Cross-listed with HIST 4800).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8826 MESOPOTAMIA AND PRE-ISLAMIC PERSIA (3 credits)
Examination of the Ancient Near East from the emergence of its earliest civilizations—Sumer, Akkad and Babylonia—through the Bronze and Iron Ages, concluding with Persia in the Common Era (CE) just before the rise of Islam. (Cross-listed with HIST 4820).

HIST 8846 ALEXANDER THE GREAT AND THE MACEDONIAN ORIGIN (3 credits)
Examination of the conquests of Alexander the Great, as well as controversies in Alexander studies. Includes discussion of both the Macedonian culture that produced him and the career of his father, Philip II. (Cross-listed with HIST 4840).

HIST 8916 TOPICS IN HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/ WGST 8916 when topics are appropriate to Women’s and Gender Studies. (Cross-listed with HIST 4910).

HIST 8990 THESIS (1-6 credits)
Thesis research project written under supervision of an adviser.
Prerequisite(s)/Corequisite(s): Completion of twenty-four hours of history graduate work. Approval of Graduate Program Chair. Not open to non-degree graduate students.

HIST 9100 SEMINAR IN HISTORY (3 credits)
This seminar guides advanced graduate students through critical readings and practices in historical research or historiography. Topics will vary and course can be repeated under different topics.
Prerequisite(s)/Corequisite(s): Open only to History MA students who have completed HIST 3930 or equivalent. Non-History MA students may be admitted after consultation with History GPC and instructor. Not open to non-degree graduate students.

HIST 9200 COLLOQUIUM (3 credits)
The colloquium guides advanced graduate students through the historiography of a specific subject. Topics will vary and course can be repeated under different topics. Open only to students enrolled in MA program in history unless permission granted by History Department Graduate Program Chair.
Prerequisite(s)/Corequisite(s): Open only to History MA students who have completed HIST 2980, HIST 3930 or equivalent. Non-History MA students may be admitted after consultation with History GPC and instructor. Not open to non-degree graduate students.

Information Technology

Information Technology, Executive MS

College of Information Science and Technology

Vision Statement
The vision of this program is to provide flexible, innovative and technologically current education to rising IT professionals who want to prepare for corporate leadership positions through their functional expertise. The EMIT program brings together leaders in the IT field and world class instruction from the College of IS&T, other units at UNO, international university partners and local businesses. This accelerated graduate program is designed to be completed in 12-months in a cohort fashion using instructional modules delivered on every alternative Saturday.

Program Website (http://www.unomaha.edu/college-of-information-science-and-technology/executive-masters-it)

Admissions
Application Deadlines
• Applications for this program are accepted on a rolling basis for fall only. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program Specific Requirements
• Employer Sponsorship: Applicants to the EMIT program are required—regardless of the level of financial support from their employer—to submit a signed sponsorship letter from an authorized representative of their organization, briefly stating the terms of support. Financial sponsorship is not required, but the organization must agree to keep the applicant’s travel time to a minimum and completely release him or her from all job responsibilities on class days. Sponsorship letters must be uploaded into the online application system. Independent professionals or consultants and applicants who head their own firms are eligible, though these applicants will have to write their own sponsorship letters.
• Resume: A two page (maximum) abbreviated resume highlighting the candidate’s key education and IT related experience is required. This will need to be electronically uploaded with the application.
• Essays: Applicants must complete one short answer question and two essays.
• **Short Answer Question:** What is your immediate post-EMIT professional goal? (50 characters maximum)
  • Examples of possible responses:
    - “Work as CTO for an insurance company.”
    - “Join an IT consulting firm.”
    - “Launch a new technology start-up.”

• **Essay 1:** Through your resume and recommendations, we have a clear sense of your professional path to date. What are your career goals going forward, and how will the UNO EMIT program help you achieve them? (Maximum 500 words)

• **Essay 2:** UNO’s EMIT program will challenge you by offering a rigorous and innovative academic experience and the opportunity to immediately apply what you learn to your career. How will you approach balancing the demands of the program with your professional and personal life while you are in school? (Maximum 250 words)

• **Interview:** Interviews are required for admission to the EMIT program. Once your online application is complete and under review, you may be contacted by a member of the Admissions Office and/or the Director of the EMIT Program to schedule an on-campus or skype interview. Please keep in mind interviews are by invitation only.

• **International Applicants:** International students are welcome. However, if you do not have a degree from an institution in which all instruction is conducted in English, you must take either the TOEFL (Test of English as a Foreign Language) or the International English Language Testing System (IELTS) or the Pearson Test of English (PTE). You may be exempted from the TOEFL or IELTS or PTE only if you have earned a degree from an institution in which English is the language of instruction. We will not accept requests for exceptions to this policy.
  • The TOEFL or IELTS scores are valid for two years. Your TOEFL or IELTS score must be valid when you submit your application.
  • Be sure to self-report your TOEFL score when completing your application. Admission to the EMIT Program does not require a minimum TOEFL or IELTS score.
  • The IELTS score must be valid when you submit your application.

Degree Requirements

The EMIT curriculum includes course modules on topics that address the following major themes: Globalization; Data Analytics & Visualization; Information Assurance; IT Leadership; Distributed Project Management; and IT Infrastructure and Emerging Technologies. Students will take the coursework in the same sequence and as a cohort. Classes will be offered in a variety of flexible and hybrid formats, including on the UNO campus, online via the internet, and in partner locations (when applicable).

**EMIT 8700 MANAGING & LEADING IN A DIGITAL WORLD (2 credits)**
This course introduces Executive Master of Science in Information Technology (EMIT) students to the challenges and opportunities of managing and leading in a digital world within the context of a dynamic environment of technology workforce diversity, a global and emerging collaborative economy, and concern for ethics and social responsibility in the development of systems/technologies.

**EMIT 8050 IT LEADERSHIP (2 credits)**
This course equips students with the knowledge, skills and tools to be an effective information technology (IT) leader. The primary focus of the course is on developing leadership capability and ability to contribute, both strategically and operationally, to the performance of an organization through IT.

**Prerequisite(s)/Corequisite(s):** This course is intended exclusively for IT professionals in the EMIT program. Not open to non-degree graduate students.

**EMIT 8100 IT STRATEGY AND CHANGE MANAGEMENT (2 credits)**
This course introduces students to a critical view of both strategic and tactical levels of IT management. The course also addresses the challenges of managing IT-enabled change and the complexities associated with managing people, processes, and technology.

**Prerequisite(s)/Corequisite(s):** Admission to the executive Master of Science in IT (EMIT) program is required. Not open to non-degree graduate students.

**EMIT 8150 BIG DATA ANALYTICS AND VISUALIZATION (2 credits)**
This course introduces students to data analytics including big data analytics, data quality, and visualization. Topics will include concepts, exercises, tools and techniques surrounding data analytics, quality, visualization, IoT and cloud computing within the context of addressing business challenges and/or to create competitive advantage.

**Prerequisite(s)/Corequisite(s):** This course is intended exclusively for IT professionals in the EMIT program. Not open to non-degree graduate students.

**EMIT 8200 MANAGING INFORMATION TECHNOLOGY INNOVATION (2 credits)**
This course introduces students to data analytics including big data analytics, data quality, and visualization. Topics will include concepts, exercises, tools and techniques surrounding data analytics, quality, visualization, IoT and cloud computing within the context of addressing business challenges and/or to create competitive advantage.

**Prerequisite(s)/Corequisite(s):** Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8250 MANAGING INFORMATION ASSURANCE (2 credits)**
This course introduces Executive Master of Science in Information Technology (EMIT) students to information assurance topics including areas such as managing cloud and mobile security, IT governance and policy, and information assurance planning and deployment.

**Prerequisite(s)/Corequisite(s):** Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8300 SYSTEMS DEVELOPMENT AND MAINTENANCE (2 credits)**
This course introduces Executive Master of Science in Information Technology (EMIT) students to the development and maintenance of software-intensive systems.

**Prerequisite(s)/Corequisite(s):** Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.
**EMIT 8350  ENTERPRISE COMPUTING IN THE ERA OF BIG DATA (2 credits)**

This course explores design, managerial and technical issues relevant to creating big data based solutions from a holistic viewpoint. Students will develop an understanding of both the technical and business aspects by exploring a balanced view of the theoretical foundation and practical implications of Enterprise Computing in the context of Big Data and other related (emerging) technologies.

### Prerequisite(s)/Corequisite(s):

- Admission to the Executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8400  LEADING TEAMS AND MANAGING VIRTUAL WORK (2 credits)**

This course introduces students in the Executive Master of Science in Information Technology (EMIT) program to fundamental concepts, principles, theories, and practices related to organizational teamwork. Students will learn and practice skills to run productive & effective collaborative problem solving efforts, using modern collaboration technology.

### Prerequisite(s)/Corequisite(s):

- Admission to the Executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8450  EVALUATION OF ENTERPRISE I.T. (2 credits)**

This course introduces students to concepts associated with evaluation of enterprise IT investments. Topics addressed will include understanding financial statements, IT investment value vs risk tradeoffs, understanding cost of adopting IT innovations and/or emerging technologies, designing reports, designing of IT-KPIs, performance measurement systems such as balanced scorecard and more.

### Prerequisite(s)/Corequisite(s):

- Admission to the Executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8500  MANAGING AND LEVERAGING EMERGING TECHNOLOGIES (2 credits)**

This course introduces Executive Master of Science in Information Technology (EMIT) students to industry models and processes to identify, track, pilot and eventually adopt business innovations and/or emerging technologies that could provide an advantage for a business. Students will also learn how IT can facilitate business process change. Concepts and exercises surrounding Lean IT will be covered to optimize the processes in the IT organization.

### Prerequisite(s)/Corequisite(s):

- Admission to the Executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8700  EMERGING CHALLENGES FOR IT EXECUTIVES (2 credits)**

This course introduces Executive Master of Science in Information Technology (EMIT) students to emerging challenges that will be faced by IT executives.

### Prerequisite(s)/Corequisite(s):

- Admission to the Executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

**EMIT 8990  INTEGRATED EMIT CAPSTONE PROJECT (2-6 credits)**

This course serves as the integrated capstone project for the Executive Master of Science in Information Technology (EMIT) program and completion of all cohort modules prior to submission of integrated project. Concurrent enrollment with other EMIT modules will be required. Not open to non-degree graduate students.

### Program Contact Information

**Dr. Sojda Qureshi, Graduate Program Chair (GPC)**

lplanos@unomaha.edu

**Program Website** ([http://phd.ist.unomaha.edu](http://phd.ist.unomaha.edu))

**Admissions Application Deadlines**

- **Fall:** February 15
- **Spring:** September 15

**Program-Specific Requirements**

- For applicants that are required to take the TOEFL: must score at least 577 paper-based; 233 computer-based; 90 iBT, 7 IELTS, or 61 PTE.
- Graduate Record Examination (GRE): must score 310 out of 346, or GMAT: must score above the 80th percentile
- Three (3) Letters of Recommendation
  - From references who are able to give an in-depth evaluation of your strengths and weaknesses with respect to academic work, and who are competent to judge your probability of success in graduate school.
- Statement of Purpose is required (not to exceed two pages) which address the following questions:
  - What do you hope to accomplish with a Ph.D. in Information Technology?
  - Why are you applying to this specific program?
  - What background or qualifications do you have that you believe are essential to success in this program?
  - What general area or topics do you hope to study?
  - What do you expect to be doing five to ten years after finishing the Ph.D. program?
- Writing Sample
  - Evidence of graduate potential in the form of academic papers, publications, theses or project reports done in an academic or industrial setting.
- Resume

**Degree Requirements**

The PhD in IT program requires 90 credit hours of graduate-level studies. Undergraduate course credits taken at UNO or another institution cannot be counted toward the PhD degree in IT. Dual-listed undergraduate courses ending in 8**5 cannot be counted as course credits in the PhD program. Only three courses ending in 8xx6 are allowed in the 45 hours of doctoral-only coursework.
The coursework taken by a student is entered into a plan of study that must be approved by the doctoral program committee before the beginning of the PhD student’s second year of studies.

The coursework consists of foundation courses, doctoral seminar and colloquia, a major field of study, an optional minor field of study, and the dissertation. Incoming PhD students are placed into one of three tracks (computer science, information systems, or integrated informatics) based on their backgrounds and research interests. The different categories of credit-hour requirements for the program are outlined below.

**Total Credits** 90

**Comprehensive Examination & Admission to Candidacy**

The comprehensive examination can be taken after the student has completed all coursework according to his or her plan of study and formed a supervisory committee. Comprehensive exams comprise of three parts: Part 1 of the comprehensive exam is set by the Doctoral Program Committee which comprises faculty who are not on the candidate’s supervisory committee. Part 2 of the comprehensive exam is set by the candidate’s supervisory committee. Part 3 is the dissertation proposal defense. The comprehensive exam consists of a written part (1 and 2) and an oral part (3). The written part of the exam is divided into two sub-parts that will be scheduled over two consecutive days in the following order.

1. Written Part I Examination Format and Procedure: The Doctoral Program Committee is responsible for examining the candidate’s knowledge and ability to conduct academic research in the Breadth area. Before taking the written part of the exam, students will provide a selection of 4-5 topics from the areas covered in the CIST 9080 course. The selected topics should not have significant overlap within the major or minor area of study given in the student’s plan of study. The topics should be selected so that they express a breadth in the areas in the core disciplines of the program in computer science, information systems and integrated informatics. The Doctoral Program Committee will select two topics from the set of 4-5 topics and inform the student in advance of the exam. The material related to the topic for preparing for the comprehensive exam (e.g., paper reading list) will already have been provided to the student when the student took the CIST 9080 course. Questions on the selected topics will be set by the faculty presenter(s) of the topic in CIST 9080. The answers will also be evaluated by the topic’s presenter(s), either individually or by a group of faculty members selected by the topic’s presenter(s).

2. Written Part II Examination Format and Procedure: Depth exam is set and graded by the candidate’s supervisory committee. The questions for the second part of the written comprehensive exam evaluate the student’s understanding of his or her major field of study.

Once the student has successfully passed both written portions of the comprehensive exam, they may proceed to the oral exam.

1. Oral Examination Procedure: The oral component of the comprehensive exam is the defense of the student’s dissertation proposal. The oral portion cannot be taken without successfully passing both written parts of the exam.

The faculty grading the candidates’ exams will be responsible for communicating the pass/fail grade to the Doctoral Program Committee. A PhD student advances to candidacy after successfully passing all parts of the comprehensive examination. Should the student fail the comprehensive examination or a part thereof, he/she may be allowed to re-take it during the following academic term upon specific recommendation by the Doctoral Program Committee. Students may appeal their comprehensive exam grade if they believe that their grade was assigned in an arbitrary or capricious manner. See the PhD IT program grade appeal policy and process for more information.

**Dissertation**

**Dissertation Credits**

The dissertation of a PhD candidate is supervised by the chair or co-chairs of the student’s supervisory committee in consultation with other members of the supervisory committee. While doing his or her dissertation, the candidate should take the course CIST 9990. A minimum of 24 hours of this course is required for graduation. Dissertation course credits should be taken only after the PhD student advances to candidacy. PhD students may take dissertation credits during the semester they apply for candidacy if they have completed all their other courses, but the dissertation credits taken under these circumstances should be kept to a minimum. Dissertation credits cannot be taken if the student does not pass the written part of the comprehensive exam.

**IMPORTANT NOTE**: A minimum of seven months must elapse between the date of the PhD student’s advancement to candidacy and the date of his or her dissertation defense.

**Scheduling Dissertation Defense**

When the supervisory committee deems it appropriate for the PhD candidate to defend his or her dissertation, the PhD candidate should prepare a dissertation thesis and submit it to the supervisory committee members. While submitting the dissertation thesis to the supervisory committee, the candidate should also submit a final oral exam form to the Office of Graduate Studies. The final oral exam form requires the signatures of the supervisory committee members and the doctoral program committee chair, and should be submitted at least four weeks before the desired date of the dissertation defense. Supervisory committee members should sign this form after receiving the final draft of the dissertation.
Progress Report

IMPORTANT NOTE: Before scheduling his or her dissertation defense, the student should refer to the Office of Graduate Studies website and/or the current Graduate Catalog for the graduation checklist, thesis filing deadlines and commencement dates for the semester in which he or she plans to graduate.

Exit Requirements

- Completing Graduation Requirements
- After successfully defending his or her dissertation, the student should complete a Report on Completion of Degree form and contact the Office of Graduate Studies to apply for graduation.

Teaching Requirements

- All PhD students are required to teach at least ONE course while studying in the program.
- Students who are assigned to teach a course will be designated as the instructor for a section of the course, and will be trained and evaluated by a mentor before teaching the course.

Method of Allocation

The steps for a student being allocated as a teaching assistant for a course are outlined below:

- The student will inform the DPC chair about the plan to teach a course along with a list of preferred courses
- If the student is teaching a course for the first time, this information should be sent TWO semesters before the semester in which the planned course is intended to be offered
- If the student has taught the course in the past, this information should be sent ONE semester before the semester in which the planned course is intended to be offered
- The DPC chair will consult with the unit chairs responsible for course scheduling to determine the need of instructors for different courses to make a suitable allocation
- The student will undergo mentorship under the faculty member responsible for teaching the course by attending the lectures and doing additional duties as determined by the mentor, ONE semester BEFORE the semester in which the planned course will be offered
- The student will be assigned as an instructor for the planned course, if, after undergoing the mentorship, the mentor determines the student is suitable for teaching the course

Timing of Teaching Activities

Teaching a course is an intense activity and can usually consume considerable time and effort. To avoid interference with his or her research work, a student should plan to teach a course, especially if teaching it for the first time, toward the beginning or mid-point of their Ph.D. studies. Students should plan to teach a course usually in the second or third year of studies.

Residency Requirements

All full-time doctoral students must complete 24 hours within 18 months in order to meet the residency requirement of the University. Part-time students must complete 18 hours during the same period. The residency requirement ensures that progress toward the degree occurs within a reasonably compact time frame, enabling the doctoral student to integrate his or her course work with the dissertation.

Progress Report

At the end of each semester, every doctoral student (full-time or part-time) must complete the Progress Report form and submit it to the Director of the Doctoral Committee. An electronic copy of this form is available on the PhD website under the “Current Students/Forms” link.

Satisfactory Progress

A minimum of three years of full-time graduate study is normally required to complete a doctoral program. The maximum time allowed by the Graduate School is eight years from the filing of the student’s program of study in the Office of Graduate Studies. Students not making satisfactory progress will be counseled out of the program. This timeline applies as long as the quality of work standards are maintained by the student.

Leave of Absence

Under extraordinary circumstances, e.g., medical problems, a student may request a leave of absence from the program for a period of no more than one year. The request must be submitted to and approved by the student’s supervisory committee and/or Doctoral Program Committee. The request should include necessary modifications to the Plan of Study as a result of the leave.

The leave of absence stops the clock for the total time required for the program and the time required to meet the residency requirement. If a student withdraws in mid-semester and is approved for a leave of absence, the clock starts at the beginning of the following semester. A student does not have to have met the residency requirement in order to apply for a leave of absence.

If a student does not return to the program within the one year approved for the leave of absence, then the student must submit an application to re-apply to the program. Re-admission to the program is not guaranteed at that point. Please refer to the Graduate Catalog for the complete policy on a leave of absence.

Grade Appeal Policy

The Grade Appeal Policy for UNO Graduate Courses policy will be followed in determining the course grades that are eligible for appeal. In the event that a doctoral student would like to appeal their grade, the PhD in IT program grade appeal policy and process will be followed. According, to the PhD in IT program grade appeal policy, doctoral students may initiate a grade appeal when they believe their grade for a doctoral course or exam has been arbitrary or capricious (see the Grade Appeal Policy for UNO Graduate College Courses). An “arbitrary or capricious action” is an action taken without regard for the facts or circumstances. The Student Grade Appeal Committee will be assembled by the chair of the Doctoral Program Committee (DPC) and will comprise of eligible representatives or those with no conflict of interest from the DPC and specialization advisory committee. The Student Grade Appeal Committee will adopt the UNO Graduate Council’s criteria for determining whether a grade has been assigned in an arbitrary or capricious manner. Please refer to the full PhD in IT grade appeal policy.

CIST 8106 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)

To examine the frameworks and tools used to develop an organization’s information systems architecture. To provide the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information systems architecture. (Cross-listed with CIST 4100).

Prerequisite(s)/Corequisite(s): CIST3100, ISQA3310 or ISQA8050
CIST 9040 COLLOQUIUM ON IT RESEARCH (1 credit)
The purpose of the course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as researchers. Topics to be discussed include: nature of research in information technology; research problem selection, development, and presentation with special emphasis on the doctoral dissertation; dissertation process; development and crafting of papers for journals; collaboration on research projects; and review process for journal papers. Prerequisite(s)/Corequisite(s): Admission to Ph.D program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9050 COLLOQUIUM ON IT TEACHING (1 credit)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as teachers/educators in university settings. Prerequisite(s)/Corequisite(s): Admission to Ph.D program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9060 COLLOQUIUM ON IT PROFESSION AND ETHICS (1 credit)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as members of the academy. Prerequisite(s)/Corequisite(s): Admission to Ph.D program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9080 RESEARCH DIRECTIONS IN IT (3 credits)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to IT research and make them familiar with current and future research directions in IT. Prerequisite(s)/Corequisite(s): Doctoral standing in Information Technology or permission of course coordinators. CIST 9040 is recommended. Not open to non-degree graduate students.

CIST 9900 SPECIAL TOPICS IN INFORMATION TECHNOLOGY (1-3 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the information technology area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. Prerequisite(s)/Corequisite(s): Permission of the instructor. Additional prerequisite courses may be required for particular topic offerings.

CIST 9980 INDEPENDENT STUDY IN INFORMATION TECHNOLOGY (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor. Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

CIST 9990 DISSERTATION (1-12 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee “supervisory committee”. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge in information systems and/or information technology. Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in Information Technology. Admission to candidacy for the Ph.D. degree. Prior to enrolling for dissertation hours, the students must have permission of the supervisory committee. Not open to non-degree graduate students.

Language Teaching, MA
Department of Foreign Languages, College of Arts & Sciences

Vision Statement
The Master of Arts in Language Teaching program at the University of Nebraska at Omaha is the only graduate program in the region that provides practicing and future teachers of Spanish, French, German, and English as a second or other language with a rigorous, practically oriented education founded on scholarship specifically in the pedagogy of language teaching. Students expand not only their familiarity with the latest research on applied linguistics and effective instructional techniques but also the literature and culture of their language of focus. The program strives to strengthen language education in the region by equipping its students with the knowledge and skills to apply best pedagogical practices in world language and TESOL classrooms and by connecting area teachers via its annual colloquium on language teaching.

Admissions
Application Deadlines
- Fall: April 15
- Spring: November 15
- Summer: April 15

Program-Specific Requirements
- International students are required to have a minimum TOEFL score of 600 paper-based, 250 computer-based, 100 internet-based, 8 IELTS, or 68 PTE.
- Two (2) letters of recommendation
- Writing Sample
  - For students pursuing a concentration in French, German, or Spanish, a written target-language sample of five to seven pages in length. Students may submit a paper prepared for an undergraduate language class, or compose a new paper on any topic.
  - For students pursuing a concentration in Teaching English to Speakers of Other Languages (TESOL), a five- to seven-page writing sample in English. Students may submit a paper prepared for an undergraduate English class, or compose a new paper on any topic.

  - Applicant must have taken ENGL 3610 or an equivalent course. Those who do not meet this requirement may be admitted provisionally.
  - Applicant must schedule an oral target language interview with a MALT faculty member. This includes an interview in English for non-native speakers who apply to the TESOL concentration.

or TED 8540 INTRO TO TECHNOLOGY TOOLS FOR LEARNING
or TED 8006 SPECIAL METHODS IN THE CONTENT AREA

Concentration
Student must select an area of concentration. See Language Teaching, MA Concentrations 18

Total Credits 36

Exit Requirements
The final requirements of the degree for all four concentrations are as follows:

1. Successful completion of a written and oral comprehensive examination in which linguistic and pedagogical knowledge is applied to the student's target language area. The exam is administered in the student's final semester in the program.

2. Approval of student's Portfolio at the end of the second to the last semester in the Program (i.e. the semester before the student is scheduled to take the comprehensive examination). The Portfolio should include one paper or project from each of the three areas of instruction (language, second language acquisition theory & theory, and pedagogy), as well as an Introduction and Conclusion. Its purpose is to help students both gain a cohesive view of the program and review for the comprehensive exam.

3. Successful poster presentation at the MALT Student Poster Presentation Session during the Annual MALT Colloquium on Language Teaching.

French

FREN 8036 ADVANCED FRENCH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with FREN 4030).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

FREN 8046 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition, and sylistics. (Cross-listed with FREN 4040).
Prerequisite(s)/Corequisite(s): FREN 3040 or departmental permission, and English 1160. Not open to non-degree graduate students.

FREN 8056 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3-6 credits)
Resident study in Quebec City, Quebec, with emphasis on total immersion in the language, homestays, intensive classroom instruction and cultural activities. Summer, 5-week term, 5 hours daily. (Cross-listed with FREN 4050).
Prerequisite(s)/Corequisite(s): FREN 2120 or departmental permission. Not open to non-degree graduate students.

FREN 8156 CONTEMPORARY FRENCH NOVEL (3 credits)
Selected contemporary French novels are analyzed and discussed. (Cross-listed with FREN 4150).
Prerequisite(s)/Corequisite(s): FREN 3150 and FREN 3160, or departmental permission. Not open to non-degree graduate students.

FREN 8176 CONTEMPORARY FRENCH THEATER (3 credits)
Selected contemporary French plays are analyzed and discussed.
Prerequisite(s)/Corequisite(s): FREN 3150 and FREN 3160, or departmental permission. Not open to non-degree graduate students.
FREN 8226 THE STRUCTURE OF FRENCH (3 credits)
A survey of the linguistic structure of modern French, including phonology, morphology, and syntax. (Cross-listed with FREN 4220).
Prerequisite(s)/Corequisite(s): FREN 3040 and GERM 4610. Not open to non-degree graduate students.

FREN 8440 SEMINAR: FRENCH COMPOSITION (3 credits)
This course provides opportunities for students to refine their composition skills in French through extensive writing workshops and peer editing. Computer applications to composition will be employed.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

FREN 8866 MODERN FRENCH WOMEN AUTHORS (3 credits)
A comparative treatment of works by women in contemporary and recent French literature; the "feminine" perspective on society, politics and human values as expressed in those works. (Cross-listed with FREN 4860).
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

FREN 8900 FRENCH INDEPENDENT STUDY (1-3 credits)
Specifically planned projects and readings in a well-defined field of French literature or linguistics carried out under the supervision of a member of the foreign languages faculty holding graduate faculty status.

FREN 8906 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with FREN 4900).
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior standing, and no incompletes outstanding. Not open to non-degree graduate students.

FREN 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 4950).
Prerequisite(s)/Corequisite(s): Graduate student status.

FREN 8966 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Francophone world. (Cross-listed with FREN 4960).
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

FREN 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 4970).
Prerequisite(s)/Corequisite(s): Graduate student status.

German

GERM 8386 GERMAN CIVILIZATION FROM THE 18TH CENTURY TO THE PRESENT (3 credits)
Detailed analysis of German art, architecture, literature, music and philosophy. The influence of the sciences and of technology upon modern German civilization and culture. (Cross-listed with GERM 4380).
Prerequisite(s)/Corequisite(s): GERM 3370 or departmental permission. Not open to non-degree graduate students.

GERM 8440 SEMINAR: GERMAN COMPOSITION (3 credits)
This course will provide opportunities for students to refine their composition skills in German through extensive writing practice, writing workshops, and peer editing. Computer applications to composition will be employed.
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

GERM 8906 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with GERM 4900).
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior standing, and no incompletes outstanding.

GERM 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 4950).
Prerequisite(s)/Corequisite(s): Graduate student status.

GERM 8966 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 4960).
Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060.

GERM 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 4970).
Prerequisite(s)/Corequisite(s): Graduate student status.

Spanish

SPAN 8036 ADVANCED SPANISH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with SPAN 4030).
Prerequisite(s)/Corequisite(s): SPAN 3030 or departmental permission.

SPAN 8046 ADVANCED COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition, and stylistics. (Cross-listed with SPAN 4040).
Prerequisite(s)/Corequisite(s): SPAN 3040 or departmental permission, and ENGL 1160.

SPAN 8156 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/ Culture: Central America and the Caribbean 1898-2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 4150, CACT 8156).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060 or permission of instructor.

SPAN 8166 LATIN AMERICAN LITERATURE OF THE 20TH CENTURY (3 credits)
Critical and analytical study of Spanish-American dramatists, poets, and essayists from modernism to the present. (Cross-listed with SPAN 4160).
Prerequisite(s)/Corequisite(s): SPAN 3220 or departmental permission.
SPAN 8226 THE STRUCTURE OF SPANISH (3 credits)
A survey of the linguistic structure of Spanish. Topics include phology, morphology, syntax, and semantics. (Cross-listed with SPAN 4220)

SPAN 8356 LATIN AMERICAN SHORT STORY (3 credits)
Representative stories of the 19th and 20th centuries, from Romanticism to the present. (Cross-listed with SPAN 4350)
Prerequisite(s)/Corequisite(s): SPAN 3210 and SPAN 3220 or departmental permission.

SPAN 8440 SEMINAR: SPANISH COMPOSITION (3 credits)
This course provides opportunities for students to refine their composition skills in Spanish through extensive writing workshops and peer editing. Computer applications to composition will be employed.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

SPAN 8456 INTRODUCTION TO LITERARY CRITICISM (3 credits)
An introduction to modern literary theory, from Ferdinand de Saussure's course in general linguistics and Russian formalism, to postmodernism. Theory will be read in English and Spanish. Literature for discussion and analysis will be read in Spanish. (Cross-listed with SPAN 4450)
Prerequisite(s)/Corequisite(s): SPAN 3030 and SPAN 3040, or permission.

SPAN 8900 SPANISH INDEPENDENT STUDY: GRADUATE ONLY (1-3 credits)
Specifically planned projects and readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign languages faculty holding graduate faculty status.
Prerequisite(s)/Corequisite(s): Acceptance into the Master of Arts in Language Teaching Program (MALT). Must have completed a minimum of six graduate credit hours.

SPAN 8906 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with SPAN 4900)
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission.

SPAN 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 4950)
Prerequisite(s)/Corequisite(s): Graduate standing

SPAN 8966 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 4960)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060.

SPAN 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONALS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 4970)
Prerequisite(s)/Corequisite(s): Graduate standing.

Literacy, MS
Teacher Education Department, College of Education

Vision Statement
For candidates who hold a current teaching certificate, the Master of Science in Literacy leads to eligibility for an added PK-12 Reading Specialist Endorsement. The NE Dept. of Education requires two years contracted teaching experience at time of endorsement and successful Praxis II.

The Master of Science in Literacy focuses on literacy pedagogy. During the program candidates will expand their knowledge in the following areas:

- Ability to apply research in reading and writing to teaching
- Skills for working with struggling readers and writers in PK-12 settings
- Leadership skills to work with students and their teachers in literacy
- Understanding components of students’ diversity as readers and writers
- Using various types of literature to increase students’ skills as readers and writers

Program Contact Information
Dr. Kathleen Danielson, Advisor

rPasco@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-education/teacher-education/graduate/literacy.php)

Other Program-Related Information
The master’s degree in Literacy does not lead to initial teacher certification.

Unclassified Students
Students who are not planning to pursue a program leading to a graduate certificate or a master’s degree can be admitted to the Literacy program with unclassified status. Candidates holding a previous master’s degree in education who are seeking additional teaching endorsements may wish to choose an unclassified status. Unclassified students are allowed to take courses for which they meet the prerequisite. Successful completion of graduate courses as an unclassified student does not obligate the department to accept those courses for credit toward the fulfillment of degree requirements. Formal advisement in an endorsement area is required. Students admitted as unclassified are not eligible for financial aid.

Admissions
Application Deadlines
- Fall: August 1
- Spring: December 1
- Summer: June 1

Program-Specific Requirements
- A minimum undergraduate GPA of 3.0 (on a 4.0 scale).
- A valid teaching certificate or statement of interest in/evidence of work or research with children, youth, or adults in teaching and learning environments.
- UNO College of Education’s “Personal and Professional Fitness” form
- International students who do not expect to teach in the US may be eligible for admission.
  - International students seeking admission to the graduate program must have a minimum TOEFL score of 550 (written), 213 (computer), 80 (internet); 6.5 IELTS, or 53 PTE.
- All new graduate candidates are admitted provisionally. When candidates successfully complete 12 TED graduate credit hours, candidates will work with their assigned advisor to complete the formal
admissions process required to achieve unconditional admission status. The formal process replaces all admission exams.

**Elective Courses**

These must be literacy-related courses, to be determined in consultation with the student’s advisor (9 hours unless developing a thesis).

- TED 9190 or TED 8990 LITERACY GRADUATE CAPSTONE or THESIS: 1-6 credits

**Total Credits:** 36 credits

1. The thesis is completed under the direction of a major advisor and supervisory committee. Thesis hours will be used as electives within the required 36 hours.

**Exit Requirements**

- Capstone - 3 hours TED 9190 or TED 8990
- Thesis - 6 hours TED 8990

**TED 8000 SPECIAL STUDIES** (1-3 credits)

A series of intensive studies especially for in-service teachers scheduled as regular seminars or classes, according to purpose.

Prerequisite(s)/Corequisite(s): Graduate status

**TED 8006 SPECIAL METHODS IN THE CONTENT AREA** (3 credits)

This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 4000).

Prerequisite(s)/Corequisite(s): TED 3690 and TED 3550

**TED 8010 INTRODUCTION TO RESEARCH** (3 credits)

This course will introduce advanced degree candidates to (1) an understanding of the scientific method as applied to behavioral research, (2) assessment, evaluation, descriptive, causal-comparative, experimental and historical data gathering procedures and analytical strategies, (3) sampling theory, techniques, distribution and hypothesis testing, (4) specific designs, methods, and tools of research, (5) search and retrieval of published research, both American and international (global), in the library and over the Internet, (6) critical evaluation of research studies, (7) basic statistics, both descriptive and inferential, and (8) preparation of a research proposal containing three chapters: Problem, Review of Related Research (from an international global perspective with particular sensitivity toward multicultural issues), and Methodology.

Prerequisite(s)/Corequisite(s): Graduate standing.

**TED 8020 HISTORY AND PHILOSOPHY OF EDUCATION** (3 credits)

This course is designed to provide a critical perspective, both historical and philosophical, for understanding education in the United States. The course examines critically the evolution of educational thought and practice from the Colonial era to the present U.S.

Prerequisite(s)/Corequisite(s): Graduate standing.

**TED 8030 SEMINAR IN EDUCATION: SPECIAL TOPICS** (1-3 credits)

This is a variable content course focusing on topics of current relevance to PK-12 teachers.

Prerequisite(s)/Corequisite(s): Graduate standing.

**TED 8040 SEMINAR ON STUDENT TEACHING/NEW TEACHER INDUCTION** (3 credits)

The seminar is designed for experienced teachers who are, or may be, serving as cooperating teachers for student teachers or as mentor teachers for beginning teachers. Participants will study the purposes, techniques, and trends involved in serving as a cooperating teacher or as a mentor.

Prerequisite(s)/Corequisite(s): Successful teaching experience is required for this course.

**TED 8050 DATA-DRIVEN DECISION MAKING FOR EDUCATORS** (3 credits)

This course provides graduate students with hands-on experiences that model data-driven decision making for building educational success in today’s classroom. Graduate students will learn how to create valid and reliable assessments; to interpret standardized test data; to build data models that identify student, classroom, program, and school needs; and in general, to systematically enhance educational decision making from a base of carefully collected information. Graduate students will also explore data collection and analysis strategies associated with technologies such as cloud computing, tablet computers and smart phones. In addition, they will experience data-driven decision-making models that can be integrated into student lessons to not only teach more effectively with data-driven decisions, but to also be able to teach students about data-driven decision making. The course will use real data sets and cases, in interesting, hands on and technology-rich activities, to help educators learn how to find the “educational story” represented by a set of carefully collected data points. (Cross-listed with STEM 8050).

Prerequisite(s)/Corequisite(s): Graduate standing.

**TED 8055 FOUNDATIONS OF ENGLISH AS A SECOND LANGUAGE (ESL)** (3 credits)

This course is designed to enhance candidates' understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Language Learners (ELLs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Language Learners (ELLs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education's English as a Second Language (ESL) teaching endorsement; required for undergraduate students pursuing the ESL endorsement. (Cross-listed with TED 3050).

Prerequisite(s)/Corequisite(s): TED 2300 (EDUC 2010) prior to or concurrent enrollment.

**TED 8060 CURRENT ISSUES AND TRENDS IN EDUCATION** (3 credits)

The course is an advanced study of current issues and trends which have substantial impact on PK-12 education. The graduate candidates who take this class will read, analyze, and evaluate relevant research in order to become conversant in those issues.

Prerequisite(s)/Corequisite(s): Graduate status is required.
TED 8070 TEACHING MULTIPLE INTELLIGENCE (3 credits)
This course focuses on the utilization of the multiple intelligences (MI) theory by teachers to enhance children’s understanding of various disciplines. Graduate candidates will have the opportunity to explore, evaluate, and develop various methodologies that foster understanding.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8080 STORYTELLING AND EDUCATION (3 credits)
This course is designed to consider the importance of storytelling, to provide teacher candidates with the background materials for storytelling, to study resource material for storytelling from a variety of cultures, and to develop techniques for storytelling. Actual experience in storytelling and opportunities for evaluating storytelling experiences will be provided.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8090 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles, teaching strategies, and curriculum materials and how they can be related to the teacher’s classroom presentation. This course is designed to furnish the teachers with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles to help the teacher be a more effective teacher of economics K-12.
Prerequisite(s)/Corequisite(s): Open to any graduate candidates with no previous college work in economics who are teaching K-12. Not open to majors in economics.

TED 8100 RESEARCH PROJECT (1-3 credits)
This course is designed for individual or group study and analysis of specific problems in schools dealing with curriculum and instruction in areas which have a broad scope of application rather than a specific level.
Prerequisite(s)/Corequisite(s): Approval of Advisor.

TED 8110 INTRODUCTION TO MULTICULTURAL EDUCATION (1 credit)
This course is designed for certificated teachers seeking renewal of Nebraska certification under Nebraska LB 250. The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8120 LANGUAGE, CULTURE, AND POWER (3 credits)
This course will focus on the intersection of language, culture, and power in the schools. This seminar will research how each component impacts the students and teachers in the classroom.

TED 8150 ANTI-RACISM EDUCATION: PRINCIPLES AND PRACTICES (3 credits)
This course provides a theoretical analysis of race, racism in the United States, and the implications for anti-racist education. In addition to exploring the key features of anti-racism education, the course also addresses other axes of oppression, namely, class and gender, with a critical focus on racialized power and privilege, and how such features function in the broader U.S. context as well as the schooling environment. Of equal importance is a critical interrogation of the historical, ideological, and political processes that produce and maintain racism. Course participants explore pedagogies, curriculum, and school leadership strategies as mechanisms for instituting anti-racism work in schools and communities.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8170 DEVELOPMENTAL ASSESSMENT OF THE YOUNG CHILD (3 credits)
This course is designed as a survey of developmental assessment in early childhood education (ages birth to eight years). Selection of assessment tools and strategies, implementation, data collection, analysis of results, and teaching impact are addressed in context of key assessment purposes in the early childhood field.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8180 CULTURALLY RESPONSIVE TEACHING (3 credits)
This course includes an introductory analysis of the societal and institutional processes and problems which have bearing upon the education of children in urban settings. In addition, the course will focus on knowledge, skills and dispositions related to instructional strategies and classroom management needed for effective teaching in an urban environment.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8190 CONTEMPORARY ISSUES IN URBAN EDUCATION (3 credits)
This course is designed for candidates who wish to keep abreast of contemporary issues which confront the educational institution and teaching profession within the urban milieu.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8200 SOCIAL WORLDS OF THE YOUNG CHILD (3 credits)
This course will explore theoretical and cultural perspectives on the social and emotional development of young children. This course will also examine the relationship between social emotional development, guidance practices, democratic life skills, and school readiness.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8210 THE PRINCIPLES OF MULTICULTURAL EDUCATION (3 credits)
This course will develop practicing teachers’ awareness of and skill in meeting the needs of P-12 students with regards to the areas of human understanding, acceptance and value. Candidates will examine existing attitudes towards various minority groups such as racial, ethnic, gender, exceptionality, etc. School materials and attitudes will also be examined in determining the effect they have on PK-12 students.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8220 PLAY AS A LEARNING MEDIUM IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides an in-depth examination of young children’s play and its curricular role in the early childhood classroom. The origins, developmental outcomes, assessment, curricular implementation, and evaluation of play will be covered, with an emphasis on play as a major component of developmentally appropriate practice with young children. The focus is on teachers learning to help children become partners in the operation of the learning environment.

TED 8230 LITERATURE FOR THE YOUNG CHILD (3 credits)
Literature for the young child is examined through the lens of developmentally appropriate practice for informing educators’ interactions with children and also for developing high-quality, literature-related projects of study across the early childhood (birth-through-age-eight) continuum.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8240 FAMILY, SCHOOL, AND COMMUNITY PARTNERS (3 credits)
This course will examine the purposes and methods for developing family, school, and community partnerships. Candidates will explore characteristics of diverse families and develop the skills necessary for planning, design, implementation, and evaluation of effective partnerships in early childhood settings.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8250 ASSESSMENT FOR CLASSROOM TEACHER (3 credits)
This course studies assessment principles, effective practices, and classroom assessment processes throughout the curriculum. The research regarding assessment for learning is studied and application is made to classroom practices.
Prerequisite(s)/Corequisite(s): Graduate status.
TED 8260 ADVANCED CURRICULUM IN EARLY CHILDHOOD (3 credits)
This course is designed to provide an in-depth examination of the processes used in selecting and implementing appropriate curricular content in programs for children ages three to eight years. Particular emphasis is on the role of the teacher as a dedicated practitioner and reflective scholar in the early learning environment.

Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8270 TRENDS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides a context for examining socio-political and research-based influences underlying trends in early childhood education at the local, national and international levels.

Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8286 PATTERNS OF CARE IN EARLY CHILDHOOD EDUCATION (3 credits)
Exploration of contemporary patterns of home and school care of the young child from birth to six years.

TED 8296 LEARNING MATERIALS FOR EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed to promote the development of sound criteria for use in selecting appropriate learning materials for children from three to eight years of age.

Prerequisite(s)/Corequisite(s): TESD 8260

TED 8300 EFFECTIVE TEACHING PRACTICES (3 credits)
This course focuses on specific characteristics and behaviors of effective teachers. Course content will be derived from research on teaching and learning.

Prerequisite(s)/Corequisite(s): Graduate status

TED 8305 ANALYSIS OF TEACHER BEHAVIOR (3 credits)
This course is designed for educators who want to study, implement, reflect upon and share best practice. Candidates will examine the role and responsibilities of teachers as educational leaders and assume a role in advancing the scholarship of teaching.

Prerequisite(s)/Corequisite(s): TESD 8260

TED 8376 TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. This course is designed to introduce candidates to the unique characteristics of the middle student, school, curriculum, history, and philosophy. (Cross-listed with TESD 4370). Prerequisite(s)/Corequisite(s): TESD 2300 or TESD 2010.

TED 8390 CLASSROOM MANAGEMENT IN PRACTICE (3 credits)
This course will provide graduate students with a survey of general classroom management methods for classrooms. Candidates will enhance their understanding of three basic components of effective pedagogy: 1) proactive classroom management, 2) high-impact instructional strategies that impact student engagement and learning, 3) behavior management techniques that incorporate practice, feedback, research, and reflection.

Prerequisite(s)/Corequisite(s): Graduate standing

TED 8396 TEACHING AT THE MIDDLE SCHOOL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TESD 4390).

Prerequisite(s)/Corequisite(s): Junior standing, TESD 4370, TESD 2510, TESD 2520, TESD 2524

TED 8410 IMPROVEMENT OF INSTRUCTION: SPECIAL TOPICS (3 credits)
This course provides an in-depth study of instructional theory, research, and methodology designed to extend teachers' professional knowledge base and enhance their pedagogical skills. When offered, a course may be limited to improvement of instruction in a selected subject area. (Cross-listed with STEM 8410).

Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8420 TRENDS AND TEACHING STRATEGIES IN SCIENCE EDUCATION (3 credits)
This course is designed for the graduate candidate in the Department of Teacher Education whose study program emphasis is in the area of science education. The course will describe and analyze past and present trends in science education, including curricula, teaching-learning strategies, the laboratory and instructional materials. The course focus will be K-12 and as such is meant to serve both elementary and secondary graduate candidates. (Cross-listed with STEM 8420).

TED 8430 SCHOOL CURRICULUM PLANNING (3 credits)
This course is designed to provide advanced degree candidates with an understanding of the theory, principles, and practices utilized in curriculum planning in American schools. This course focuses on the principles and practices of effective curriculum planning and teachers' part in these processes as curriculum developers. (Cross-listed with STEM 8430).

TED 8460 TEACHING THE LANGUAGE ARTS (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching reading, writing, listening, and speaking. Candidates will learn about research supported appropriate language arts instruction strategies and assessments. This course will inform graduate students as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

TED 8480 FOUNDATIONS OF BILINGUAL EDUCATION (3 credits)
This course is designed to give future and current teachers a thorough understanding of the theoretical, political, historical, and practical foundations of bilingual/multicultural education in the United States. As dedicated practitioners, reflective scholars, and responsible citizens, graduate students will have knowledge of factors that contribute to effective multilingual and multicultural learning environments that promote individual and societal bilingualism. Advanced Spanish language proficiency required.

Prerequisite(s)/Corequisite(s): Graduate status

TED 8490 SPANISH LANGUAGE ARTS (3 credits)
This course is designed to reinforce first and second language acquisition theory as it relates to dual immersion settings. Best practices for developing and reinforcing bilingualism and biliteracy are presented and used for planning and delivering instruction. Spanish fluency is required for the course.

Prerequisite(s)/Corequisite(s): Graduate status required for graduate students pursuing the bilingual education endorsement and concentration (does not lead to a Nebraska Department of Education teaching endorsement). Advanced Spanish language proficiency required.

TED 8510 AEROSPACE EDUCATION WORKSHOP (3 credits)
This course will focus on aviation and space education and its impact on society. It will seek to communicate knowledge, impart skill, and develop attitudes relative to the scientific, engineering and technical as well as the social, economic and political aspects of aviation and space flight efforts. (Cross-listed with AVN 8510, STEM 8510).

Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8520 SCHOOL LIBRARY CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts, and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their schools and communities.

Prerequisite(s)/Corequisite(s): There are no course prerequisites for the Capstone Practicum but candidates must be in the final 2 semesters of their library media program & must complete an application for the Practicum the semester prior to their practicum. Not open to non-degree graders.
TED 8530 INSTRUCTIONAL DESIGN STRATEGIES FOR STEM EDUCATORS (3 credits)
This course is designed to provide graduate candidates with the opportunity to enhance interdisciplinary instructional strategies, curricular understanding, and lesson preparation in the areas of science, technology, engineering, and mathematics (STEM) through analysis and reflective practices in STEM. This course provides hands-on experiences that model STEM integration techniques, including how to effectively engage with community agencies and partners to bring STEM into the classroom. Teacher professionals will be provided with tools, resources, and strategies to help them explore and enhance current, new, or supplemental curriculum activities that will enhance STEM learning, student engagement, and motivation. (Cross-listed with STEM 8530).
Prerequisite(s)/Corequisite(s): Graduate Standing

TED 8540 INTRO TO TECHNOLOGY TOOLS FOR LEARNING (3 credits)
This course is designed to help educators become comfortable and competent with infusing a wide variety of computer-mediated educational technologies into the learning environments of the students with whom they work, as well as become familiar with philosophical, psychological and sociological notions of the impacts of computer applications upon social institutions, such as schools.

TED 8550 DIGITAL MULTI-MEDIA IN LEARNING (3 credits)
This course provides participants with an introduction to the use of multimedia for teaching and learning. Participants will research and share the current knowledge base on the issues and effectiveness of various media learning programs, gain experience with multimedia applications, create multimedia learning materials, evaluate existing multimedia learning opportunities and articulate personal principles concerning multimedia instruction and learning.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8560 SUPPORTING INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for educators who wish to become better advocates of technology integration in the classroom and/or to become a Technology Coordinator or Educational Technician in all curricular areas and all grade levels. Course candidates will learn to use problem-solving skills to evaluate and implement strategies to keep technology up to date, effectively use technology in the classroom, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8570 INTERNET IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators actively explore instructional implementations of Internet use appropriate for use in K-12 classrooms, successful diffusion of Internet innovations in educational environments, and emerging multicultural “breaking down the walls of the classroom” concepts available to educators through Internet use.

TED 8580 COLLABORATION TOOLS IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators design, author, and utilize collaborative web-based instructional materials that will implement active learning and will be appropriate for use in K-12 classrooms.
Prerequisite(s)/Corequisite(s): TED 8570 or equivalent

TED 8596 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course introduces technology and technical literacies required of educators and information specialists in 21st Century libraries and classrooms. Course topics include information literacy, instructional design in digital environments, Web page design and construction, social networking and learning, and academic integrity. (Cross-listed with TED 4590).

TED 8600 ADVANCED SEMINAR IN EDUCATIONAL TECHNOLOGY (1-3 credits)
This is a variable content course focusing on selected advanced topics in educational technology. Course topics will include such subjects as optical technologies, robotics, distance education, and virtual realities. The course may be taken more than once for credit, provided that the topics differ, with a maximum of 6 credit hours.

TED 8610 TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing genres extend throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8620 ADVANCED SUPPORT OF INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for P-12 educators who wish to become better advocates of technology integration or become technology coordinators or school technicians. Course enrollees will evaluate and implement advanced strategies to keep technology up to date, effectively use technology, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): TED 8560

TED 8650 CHILDREN’S LITERATURE AND EDUCATION (3 credits)
Candidates in this graduate course will explore story, poetry, drama, and informational materials for elementary students with an emphasis on methods for including literature in school curricula with an awareness of diverse children’s lives, discourses, and understandings. Examines current issues, recent materials, and the theoretical and research base of this field to develop meaningful and creative learning, literacy, and library experiences for children.

TED 8660 YOUNG ADULT LITERATURE (3 credits)
This course extends candidates’ knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8670 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economics education, i.e. economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, candidates develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. Not open to economics majors. (Cross-listed with ECON 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.

TED 8680 LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 3690).
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550.
TED 8700 ELEMENTARY EDUCATION CAPSTONE COURSE (3 credits)
This course is designed as a required, final capstone course for Elementary Education graduate students to be taken in the last nine hours of the Master of Science program. A grade of B or better must be received in TED 8700 to show satisfactory completion of the course and for program completion.
Prerequisite(s)/Corequisite(s): TED 8010 and permission of the Elementary Education Program Chair. Not open to non-degree graduate students.

TED 8710 RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 8726 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 4720).

TED 8746 ORGANIZATION OF INFORMATION (3 credits)
Candidates will demonstrate a basic understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 4740).

TED 8756 ADVANCED CATALOGING AND CLASSIFICATION (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging of non-book materials (including serials and digital resources) in 21st Century libraries and information agencies using the Library of Congress and Dewey Decimal classification schemes and Library of Congress subject headings. (Cross-listed with TED 4750). Prerequisite(s)/Corequisite(s): TED 8746

TED 8760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources. Prerequisite(s)/Corequisite(s): TED 8746

TED 8770 INTEGRATING TECHNOLOGY INTO INSTRUCTIONAL DESIGN (3 credits)
The purpose of this course is to introduce participants to effective methods for the integration of educational media into instructional design, thereby further developing themselves as dedicated practitioners, reflective scholars and community leaders. The course provides participants (1) knowledge of broad instructional design theories and models with a concentration on constructivism, (2) experience in designing instruction that effectively integrates technology into the teaching-learning process, and (3) experience in producing instructional media. The course is intended to provide fundamentals in the selection, evaluation, production, application and utilization of educational media. This course is designed for in-service library media or instructional technology specialists as well as regular classroom teachers. It is also useful for others interested in learning about the various types and applications of educational media.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8800 MULTICULTURAL LITERATURE FOR CHILDREN AND YOUTH (3 credits)
This is designed as a graduate-level course dealing with utilization of literary materials representing authors and content from multiple perspectives, particularly authors whose cultural and ethnic backgrounds differ from the mainstream.

TED 8806 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
Candidates will demonstrate an understanding of the concepts and activities integral to leading and managing 21st Century libraries and information agencies. Candidates will demonstrate an understanding of leadership principles and management strategies that engage policies and procedures in support of the personal, academic and professional information needs for a diverse array of patrons and stakeholders. (Cross-listed with TED 4800). Prerequisite(s)/Corequisite(s): Graduate status or non-degree graduate student

TED 8810 STEM IN EARLY CHILDHOOD EDUCATION: CURRICULUM AND RESEARCH (3 credits)
This course will explore theoretical and foundational pedagogical strategies in early childhood education used to deliver integrative STEM education in the preK-12 setting. In order to understand the research and practice of STEM disciplines in preK-12, it is necessary to examine the social, cultural, political, and functional aspects that influence them. Candidates will investigate the nature of STEM education, Early Childhood Education (ECE) pedagogy and perspectives of learning, content knowledge and dispositions for educators of STEM topics, and issues of access and equity for STEM education through literature, discussion, and practice. This course includes a community outreach component in which candidates will use qualitative methods to observe class topics in public settings. (Cross-listed with STEM 8810). Prerequisite(s)/Corequisite(s): Graduate status

TED 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 4810).

TED 8820 CAPSTONE IN STEM EDUCATION (3 credits)
This course will prepare graduate students for the integration, articulation, and differentiation of curriculum and instruction in order to bridge the STEM core areas of Science, Technology, Engineering, and Mathematics. Special emphasis will be on using the STEM core content to help provide applications and context to existing science and mathematics curriculum and instruction and on providing leadership in developing curriculum for mathematics and science dependent courses in engineering and technology. Prerequisite(s)/Corequisite(s): The student must be enrolled in one of the following concentrations: STEM, mathematics, science, technology; and be enrolled in the last six hours of their program of study. Not open to non-degree graduate students.
TED 8840 ENGINEERING EDUCATION EXTERNSHIP (3 credits)
This graduate course will address the best practice of effective teaching and learning in Engineering Education through professional collaboration between K-12 STEM (Science, Technology, Engineering, and Mathematics) teachers and practicing engineering professionals. K-12 STEM teachers, as graduate students in the course, will learn about and address real-world applications and career opportunities in STEM education through the externship. K-12 STEM teachers will research and develop authentic, experiential learning opportunities and projects for the classroom through course supports associated with lecture, discussion, and partnerships with practicing engineering professionals. The externship will be integral to the K-12 STEM teachers' experiences and work in this course, as the course models effective professional collaboration founded on experience, knowledge, and skills to achieve a curriculum enhancement goal. K-12 STEM teachers' project-development work will align closely with current national and Nebraska science, technology, and mathematics standards as well as with the interdisciplinary context of STEM instruction, through the instructional lens and context of utilizing the engineering design process. (Cross-listed with STEM 8840)
Prerequisite(s)/Corequisite(s): Graduate status. Not open to non-degree graduate students.

TED 8850 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with SPED 8980).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

TED 8856 COORDINATION TECHNIQUES IN VOCATIONAL EDUCATION (3 credits)
This course reviews responsibilities and techniques of coordination for the vocational teacher-coordinator and/or vocational coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 4850).

TED 8860 INVENTION & INNOVATION IN ENGINEERING EDUCATION (3 credits)
This course will address emerging trends in STEM education for in-service K-12 STEM teachers with a focus on the use of engineering education practices in teaching and learning content. STEM teachers will receive applicable, hands-on, classroom-ready experiences through lecture, professional instruction, and projects that will emphasize product design and creation through the Engineering Design Process. The Engineering Design Process will be central to the candidates' experiences in this course and will be used by the candidates to develop curriculum utilizing emerging trends to supplement current course content and standards. Interdisciplinary planning will be central to the course. (Cross-listed with STEM 8860).
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8880 LEADERSHIP IN EARLY CHILDHOOD EDUCATION (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8900 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments.
Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8970 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently.
Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8980 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner.
Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8990 THESIS (1-6 credits)
This is an independent research project completed under the direction of a thesis advisor and required of all candidates pursuing a Master of Science with Thesis option.
Prerequisite(s)/Corequisite(s): Completion of Selective Retention and approval of advisor. Not open to non-degree graduate students.

TED 9100 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course develops a framework about the theories, models, practices, processes, and related research associated with literacy. The content looks across grade levels and student populations, and across social and cultural contexts in an examination of factors that impact theories and processes of literacy.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 9110 PRINCIPLES AND PRACTICES FOR TEACHING READERS (3 credits)
This graduate course for both elementary and secondary teachers is open to any candidate who has graduate standing in education. The purpose of the course is to develop a broad understanding of the reading process as well as materials and instructional strategies that support students who are emerging, developing, and maturing as readers in all areas of the curriculum.

TED 9130 ASSESSMENTS AND INTERVENTIONS - ELEMENTARY (3 credits)
This course is designed for graduate candidates enrolled in the Literacy Masters or Reading Specialist endorsement program. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches that support reading development. This knowledge is applied through a practicum experience with elementary students in which candidates integrate knowledge and practices related to assessment and evaluation of readers' strengths and needs.
TED 9140 ASSESSMENT AND INTERVENTION - SECONDARY (3 credits)
This course is designed for graduate candidates in literacy endorsement and Master's programs. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches as they relate to reading difficulties among middle and high school students. Included in this course is knowledge about the role and responsibility of a literacy leader as it relates to coaching, mentoring, supervision, and evaluation of a reading program. Application of this information is demonstrated through a practicum experience with middle and high school students in which candidates integrate knowledge and practices related to assessment and evaluation of readers’ strengths and needs.

TED 9180 LITERACY RESEARCH SEMINAR (3 credits)
This course will develop advanced degree candidates' understanding and ability to critically examine current literacy research through work with (1) scientific methods of quantitative and qualitative research (2) discussion of historical trends in literacy research, (3) designs, methods, and tools of research, and (4) reviewing and critically examining current research studies in literacy. These examinations will be conducted from the perspectives of knowledge about literacy processes, classroom practice, and influence of previous research results. Teacher candidates will apply these issues in an action research project they design.

TED 9190 LITERACY GRADUATE CAPSTONE (3 credits)
This course is designed to help Literacy Masters students synthesize the knowledge gained in the program in order to serve as literacy leaders within the complex organizations of classrooms, schools, and school districts. In this course students will integrate their learning across the program in order to organize their future activities in teaching, leadership, advocacy, and engagement opportunities in ways that honor the interrelationships among classroom, school, sociocultural and economic contexts. They will prepare to engage with all literacy education stakeholders in cutting edge, innovative ways that advance both the learning of PK-12 students and the literacy education field.

Prerequisite(s)/Corequisite(s): This course is designed as a capstone event. Accordingly, students must have no more than 6 additional remaining credit hours of coursework. Permit to enroll required.

TED 9200 CRITICAL PEDAGOGY: TEACHING FOR SOCIAL JUSTICE (3 credits)
This course examines ways in which ideology, power, and culture intersect in P-12 educational settings. Undemocratic, inequitable, and oppressive structures are identified. Possibilities for democratic, equitable transformations are proposed.

Prerequisite(s)/Corequisite(s): Graduate status

Management Information Systems

Degree Programs Offered
- Management Information Systems, MS (p. 782)
- Business Administration, MBA and Management Information Systems, MS (MBA/MIS (p. 642))
- Public Administration, MPA and Management Information Systems, MS (MPA/MIS (p. 791))

Certificates Offered
- Data Analytics Certificate (p. 793)
- Information Assurance Certificate (p. 794)
- Project Management Certificate (p. 795)
- Systems Analysis and Design Certificate (p. 796)

ISQA 8016 BUSINESS INTELLIGENCE (3 credits)
This course intends to provide graduate students in-depth exposure to the growing field of business intelligence. Business intelligence (BI) consists of the set of concepts and techniques used to analyze business data in support of decision-making and planning. BI spans a number of areas of management information systems, including Decision Support Systems (DSS), Enterprise Resource Planning (ERP), Data Warehousing, Knowledge Management, Customer Relationship Management, Data Mining, and others.

Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156 and ISQA 8040 and ISQA 8050. Not open to non-degree graduate students.

ISQA 8030 INFORMATION SYSTEMS AND ETHICS (3 credits)
This course gives you an introduction to organizations and the role that information and information systems play in supporting an organization’s operations, decision-making processes, quality management, and strategic activities. The course provides an introduction to the management of information systems function, the strategic and regulatory issues of telecommunications, and ethical and legal issues related to information systems.

Prerequisite(s)/Corequisite(s): Admission into the MS in MIS program.

ISQA 8040 AN OVERVIEW OF SYSTEMS DEVELOPMENT (3 credits)
The course presents an overview of information systems and the systems development lifecycle. Course emphasis will focus on theory, current tools and techniques that the programmer or analyst can use to develop and document information systems. This course may not be used in a plan of study for any graduate program at UNO.

Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent

ISQA 8050 DATA ORGANIZATION AND STORAGE (3 credits)
The course will provide concepts of data organization, data storage, and data transfer through computer networks. The performance implications of various design decisions will be explored. The purpose of this course is to prepare the student for further graduate-level study of information systems. This course may not be used in a plan of study for any graduate program at UNO.

ISQA 8060 RESEARCH IN MIS (3 credits)
This course covers research methods and their application to the development and evaluation of management information systems. Also covered is the relationship between organization theory and IS research.

Prerequisite(s)/Corequisite(s): CIST 2500, CIST 2100, and ISQA 8040, or permission of the instructor.

ISQA 8080 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.

Prerequisite(s)/Corequisite(s): 1) Permission of the instructor. 2) Additional prerequisite courses may be required for particular course offerings.

ISQA 8086 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ISQA 4000)

Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 8106 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
This course examines the frameworks and tools used to develop an organization’s information system architecture. It provides the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information system architecture. (Cross-listed with ISQA 4100)

Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 3310
ISQA 8136 INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social and human development. In this service-learning course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. (Cross-listed with ISQA 4130) Prerequisite(s)/Corequisite(s): Though not required, the following courses or their equivalent would provide the necessary background: CIST 1100, CIST 1300, ISQA 3210, ISQA 3310, ISQA 3400. Not open to non-degree graduate students.

ISQA 8156 ADVANCED STATISTICAL METHODS FOR IS&T (3 credits)
This course emphasizes the application and interpretation of statistical methods including design of experiments, analysis of variance, multiple regression, and nonparametric procedures and the use of statistical computer packages. The intent is to develop quantitative abilities needed for quantitatively intensive jobs and for advanced study in management information systems, computer science and information technology. (Cross-listed with ISQA 4150) Prerequisite(s)/Corequisite(s): CIST 2500 or equivalent (at least one course in statistics), and an understanding of basic calculus (a calculus review will be conducted at the beginning of class).

ISQA 8160 APPLIED DISTRIBUTION FREE STATS (3 credits)
The primary objective of this course is to expose students to methods of analyzing data from non-normal populations including binomial tests, contingency tables, use of ranks, Kolmogorov-Smirnov type statistics and other selected topics. Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156

ISQA 8166 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross functional nature of ERP software. In the process of learning about ERPs, the students develop "hands on" experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 4160, SCMT 4160) Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

ISQA 8180 ELECTRONIC COMMERCE (3 credits)
Electronic Commerce is the digital enablement of transactions between multiple parties. A multitude of technologies, tools and applications have brought about changes in business, and society that require careful consideration. Students are given an overview of electronic commerce business models and required to apply these to solve business problems or take on opportunities presented. They will cover topics such as social networking, electronic markets, and political and ethical issues associated with electronic commerce, and business plans for technology ventures. They will apply these concepts using Web 2.0 tools, mobile applications and website design assignments.

ISQA 8196 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY (3 credits)
Business process reengineering issues are examined. Reengineering concepts and methods are introduced. Additional special project(s) are required. SAP will be introduced. (Cross-listed with ISQA 4190) Prerequisite(s)/Corequisite(s): CIST 2500; prerequisite/co-requisite ISQA 4110.

ISQA 8206 INFORMATION AND DATA QUALITY MANAGEMENT (3 credits)
The course primarily focuses on developing an in-depth understanding of Data and Information Quality (DQ and IQ) concepts and issues. On completing this course students will be able to understand and use DQ and IQ Concepts in Information Systems projects, be able to recognize various patterns of Data and Design Deficiencies in Systems and be able to suggest appropriate DQ and IQ improvement plans in light of known deficiencies in systems. (Cross-listed with ISQA 4200) Prerequisite(s)/Corequisite(s): CIST 2500 and CIST 2100.

ISQA 8210 MANAGEMENT OF SOFTWARE DEVELOPMENT (3 credits)
This course will integrate concepts and techniques from software engineering, management science, psychology, organization behavior, and organization change to identify, understand, and propose solutions to the problems of software project management. The purpose of the course is to prepare the student for leadership positions in software development and software maintenance. Prerequisite(s)/Corequisite(s): ISQA 8040 or equivalent. Not open to non-degree graduate students.

ISQA 8220 ADVANCED SYSTEMS ANALYSIS AND DESIGN (3 credits)
This course is a systems analysis and design course for systems and business analysts. The course presents an overview of object-oriented system analysis and design. The course will then focus on theory, best practices, and modern methodologies that analysts can use to analyze and design information systems. Prerequisite(s)/Corequisite(s): ISQA 8040 or (ISQA 4110 and ISQA 4120) or equivalent.

ISQA 8230 TELECOMMUNICATIONS MANAGEMENT (3 credits)
This course will focus on the management required to operate today's complete telecommunications networks. The course will be based on the standards that are currently in place as well as examining the future directions. The student, upon the successful completion of this course, will have: an operational knowledge of the components of complex telecommunications networks, the management structures & computer systems needed to maintain that network, and the security solutions used to protect that network. (Cross-listed with CSCI 8220) Prerequisite(s)/Corequisite(s): Acceptance into the graduate program of MIS or CSCI or by permission of the instructor. Not open to non-degree graduate students.

ISQA 8240 TELECOMMUNICATIONS PLANNING, ANALYSIS AND DESIGN (3 credits)
This course presents an in-depth discussion of systems analysis, design and implementation of telecommunication systems with a special emphasis on wide area networking and internetworking systems. The primary purpose of this course is to introduce students to methods, tools, techniques, and technology choices for telecommunication systems planning, analysis, design and implementation. Prerequisite(s)/Corequisite(s): ISQA 8220 and ISQA 8310, not open to non-degree graduate students.

ISQA 8250 FACILITATION OF COLLABORATIVE PROBLEM SOLVING (3 credits)
The course focuses on the facilitation of collaborative problem solving and decision making processes. Students learn how to design and facilitate collaborative workshops, with support from both paper-based and electronic meeting tools. The course is hands-on and experiential, with students working in small teams to conduct real workshops.
ISQA 8306 DATABASE ADMINISTRATION (3 credits)
This course is designed to give students an applied, practical introduction to database administration. Students will gain an understanding of the functioning of a database management system and its relationship to the computing environment in which it runs. They will learn the concepts, principles, and techniques necessary to carry out such functions as database object creation, storage management, capacity planning, performance tuning, backup and recovery, and security management. Each semester the course will focus on one commercial database management system (DBMS), such as Oracle. (Cross-listed with ISQA 4300)
Prerequisite(s)/Corequisite(s): ISQA 8050. Not open to non-degree graduate students.

ISQA 8310 DATA COMMUNICATIONS (3 credits)
This course will provide a comprehensive review of data and computer communications for business information systems within the framework of the ISO OSI model, evolving techniques for effective data communications, telecommunications infrastructure and services, and the design and management of organizational data and voice communications resources.
Prerequisite(s)/Corequisite(s): ISQA 8050, not open to non-degree graduate students.

ISQA 8340 APPLIED REGRESSION ANALYSIS (3 credits)
The primary objective of this course is to expose students to regression models and applications with particular emphasis on applying these concepts to IT research. Topics to be discussed include: Foundations of regression analysis using least squares procedures; model formulation, stepwise regression, transformations; graphical methods, estimation; inference; influence diagnosis; matrix formulation, multicollinearity, time series, and nonlinear models.
Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156, not open to non-degree graduate students.

ISQA 8380 ENTERPRISE ARCHITECTURE AND SYSTEMS INTEGRATION (3 credits)
This course is designed to give students grounding in the concepts, issues, and tools needed to manage enterprise architecture, distributed systems & Internet-based environments. The goal of the course is to equip students to make the architecture and infrastructure-related decisions needed for successful development and use of contemporary client/server and Internet-based systems. Topics include middleware, architecture, XML, JSON, web services, service-oriented architecture, enterprise application integration, distributed computing services, Model View Controller (MVC) development frameworks.
Prerequisite(s)/Corequisite(s): ISQA 8310 and ISQA 8050 or equivalent; permit required.

ISQA 8400 CLINICAL SYSTEMS ARCHITECTURE AND FUNCTION (3 credits)
This course serves to integrate multiple topics into an understanding of clinical health care information system history, architecture, and design. The needs of multiple disciplines will be explored to understand how they can share, communicate, and manage patient information using clinical information standards.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

ISQA 8410 DATA MANAGEMENT (3 credits)
The course provides in-depth coverage of such areas as: the relational model, SQL, data modeling, data quality management, database design, data warehousing, business intelligence, document and content management, NoSQL systems, and data governance. The course offers a mix of theoretical treatment and hands-on application. Current DBMS and data modeling software will be used.
Prerequisite(s)/Corequisite(s): ISQA 8050 or equivalent, permit only.

ISQA 8420 MANAGING THE IS FUNCTION (3 credits)
The course provides a focus on the business management implications of the information explosion. The course is organized around a management audit of the information services activity to help present and future managers recognize and implement effective information services management.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8040. Not open to non-degree graduate students.

ISQA 8450 NOSQL AND BIG DATA TECHNOLOGIES (3 credits)
The course will cover topics in the area of NoSQL and Big Data management. The course is intended to get students familiarized with NoSQL and Big Data technologies, explore how these database technologies differ conceptually from traditional relational database technologies, understand their applications, uses, advantages, and disadvantages, and provide hands-on experience with NoSQL and Big Data databases. The course offers a mix of theoretical treatment and hands-on application of the discussed NoSQL and Big Data technologies.
Prerequisite(s)/Corequisite(s): Prior exposure to data management is expected. The prerequisite is: ISQA 3310, ISQA 8050, CSCI 4850, or work experience that has given you a comparable grounding in database concepts and technologies; in this case permission by the instructor is needed.

ISQA 8500 READINGS IN CLINICAL INFORMATICS (3 credits)
An overview of clinical informatics topics with readings covering history, foundation knowledge and current developments in the field. The purpose of this course is to provide integrative knowledge of theory and applications in clinical informatics. NOTE: This course is crosslisted with UNMC's SURG 850.
Prerequisite(s)/Corequisite(s): Student must have completed all MS in IS core courses and have permission of the department to enroll in courses for the Health Informatics concentration.

ISQA 8510 MANAGING USABILITY FUNCTIONS IN SYSTEMS DEVELOPMENT ORGANIZATION (3 credits)
This course deals with usability of information systems, from the perspective of organizing and managing usability functions in a systems development organization. After briefly introducing the background to system usability and usability principles, the course focuses specifically on the introduction, organization, support, management and evaluation of usability functions in systems development organizations. The role of the usability professional in the organization is emphasized.
Prerequisite(s)/Corequisite(s): Two semesters of programming or demonstrable experience and ISQA 8040 or equivalent, not open to non-degree graduate students.

ISQA 8525 GRAPHICAL USER INTERFACE DESIGN (3 credits)
This course is an introduction to interaction design with a primary emphasis on designing usable and useful computer interfaces. Students will learn the principles of interface design grounded in a fundamental understanding of human cognitive processes. They will learn how end-users develop and use mental models of interaction and will apply this knowledge to the design of interfaces for real-world applications. A design project will challenge students to plan their own designs, to develop interfaces and to integrate them into a working application prototype, to test their application with real users, and to effectively communicate the overall results. (Cross-listed with ISQA 3520)
Prerequisite(s)/Corequisite(s): CIST 1300

ISQA 8530 E-COMMERCE SECURITY (3 credits)
The course will integrate concepts, principles, and technologies from business, telecommunications, and computer science to identify, understand, and propose solutions to the security threats to e-commerce.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8310. Not open to non-degree graduate students.
ISQA 8546 COMPUTER SECURITY MANAGEMENT (3 credits)
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 4540, CYBR 8546)
Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

ISQA 8560 INFORMATION WARFARE AND SECURITY (3 credits)
This course will study the nature of information warfare, including computer crime and information terrorism, as it relates to international, national, economic, organizational, and personal security. Information warfare policy and ethical issues will be examined.
Prerequisite(s)/Corequisite(s): CIST 2100 or permission of instructor required.

ISQA 8570 INFORMATION SECURITY POLICY AND ETHICS (3 credits)
The course will cover the development and need for information security policies, issues regarding privacy, and the application of computer ethics. (Cross-listed with IASC 8570)
Prerequisite(s)/Corequisite(s): CIST 2100 or BSAD 8030, or permission of instructor required.

ISQA 8580 SECURITY RISK MANAGEMENT AND ASSESSMENT (3 credits)
The purpose of this course is to prepare the student for managing information security at the organizational level. This course will combine concepts from strategic management, decision science and risk analysis to prepare the student to integrate security issues into an organizational strategic planning process.
Prerequisite(s)/Corequisite(s): ISQA 8060 and ISQA 8546 or equivalents, not open to non-degree graduate students.

ISQA 8596 IT AUDIT AND CONTROL (3 credits)
This course explores organizational and managerial issues relevant to planning and conducting IT audit and control activities. The course covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, and the basic type of controls required in a business system in order to control IT risks. Issues associated with new risks created by the use of the internet for business applications and electronic business are also covered. (Cross-listed with ISQA 4590)
Prerequisite(s)/Corequisite(s): A solid understanding of business foundations such as accounting and introductory auditing and exposure to the IS discipline is essential for success in this course. Permission of instructor is required to enroll.

ISQA 8700 DATA MINING: THEORY AND PRACTICE (3 credits)
This course provides students theoretical issues as well as practical methods for conducting data mining process, including the implementation of a warehouse. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course also promotes students to conduct a real-life data analyzing project in Big Data Era.
Prerequisite(s)/Corequisite(s): ISQA 8050 and ISQA 8310 and ISQA 8040, not open to non-degree graduate students.

ISQA 8736 DECISION SUPPORT SYSTEMS (3 credits)
This course examines a set of information systems which specifically support managerial decision makers: Decision Support Systems, Group Decision Support Systems, Executive Information Systems, Data Warehouses, Expert Systems, and Neural Networks. This course explores the development, implementation, and application of these systems, how these systems can be applied to current business problems, as well as how organizational issues impact the implementation and usage of these systems. (Cross-listed with ISQA 4730)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent.

ISQA 8810 INFORM TECHNOLOGY PROJECT FUNDAMENTALS (3 credits)
The course will integrate concepts and techniques from management science, psychology, organizational behavior, & administration change to identify, understand & propose solutions to the problems of project management. The purpose of the course is to prepare the graduate for project participation and leadership.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8040. Not open to non-degree graduate students.

ISQA 8820 PROJECT RISK MANAGEMENT (3 credits)
This course will cover project risk management, i.e., the process of measuring or assessing risk in projects and then developing strategies to manage the risk. The topics covered will include: Risk Management Planning, Risk Identification, Quantitative Risk Analysis, Qualitative Risk Analysis, Risk Response Planning, and Risk Monitoring and Control will be covered in detail. Students will learn how to apply and use the tools and techniques needed to perform these project management tasks. A collection of readings on risk management from the empirical literature coupled with risk management standards from organizations such as IEEE and the Project Management Institute (PMI) will be used to provide the student with an excellent foundation in risk management and control.
Prerequisite(s)/Corequisite(s): ISQA 8810 or permission of instructor.

ISQA 8900 INDEPENDENT RESEARCH IN MANAGEMENT INFORMATION SYSTEMS (1-3 credits)
The content of the course will vary. However, both the student and the faculty member must sign an Independent Research Agreement and file it with the Master of Science in Management Information Systems Graduate Program Committee before registration for the course. This agreement will detail the project, the schedule for its completion, the form of the output, the method of evaluation and other relevant information pertaining to the project.
Prerequisite(s)/Corequisite(s): Permission of instructor, and at least 12 hours of course work toward a M.S. in MIS should be completed.

ISQA 8910 INFORMATION SYSTEMS INTERNSHIP (1-3 credits)
Information Systems Internship provides students with an opportunity for practical application and further development of knowledge and skills acquired in the MS MIS degree program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Permission of the instructor required. Students must have completed a minimum of 12 credit hours towards the MS MIS program. Not open to non-degree graduate students.

ISQA 8950 CAPSTONE MANAGEMENT INFORMATION SYSTEMS (3 credits)
The course consists of a student executed Information Systems design project providing an in-depth practical experience. It typically covers system conceptualization, analysis, and design. It may also involve prototyping. The project will typically not include the actual implementation of the system. This course replaces the MS in MIS comprehensive exam requirement.
Prerequisite(s)/Corequisite(s): Students must have 6 credit hours or fewer left in the program. Students must have completed all core classes except ISQA 8380. Not open to non-degree graduate students.

ISQA 8990 THESIS (3 credits)
A research project designed and executed under supervision of a Thesis Advisory Committee. Student will develop skills, including the ability to design, conduct, analyze, and report results in writing (i.e., thesis) of an original, independent, scientific investigation. Student’s Thesis Advisory Committee must approve the project plan.
Prerequisite(s)/Corequisite(s): Graduate major in MIS and approval of the Thesis Advisory Committee. Not open to non-degree graduate students.
ISQA 9010 FOUNDATIONS OF INFORMATION SYSTEMS RESEARCH (3 credits)
This course covers the following areas: (1) information systems as an academic discipline including classic readings in IS and its reference disciplines, (2) theory development and evaluation, (3) research methods and application in IS.
Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 8060 or equivalent. Not open to non-degree graduate students.

ISQA 9020 TECHNICAL AND PROCESS ISSUES IN INFORMATION SYSTEMS RESEARCH (3 credits)
This seminar is a survey course on the technical and process issues in information systems research. The course balances the acquisition of knowledge about the conduct of research in technical and process issues with the application of that knowledge to research on information systems. Major topics include: software engineering, programming, database systems, decision support systems, data warehousing and mining systems, object-oriented systems, adaptive and expert systems, client-service systems, information filtering and multimedia systems, information agents, mobile computing, telecommunications, and electronic commerce.
Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 9010 is recommended. Not open to non-degree graduate students.

ISQA 9030 BEHAVIORAL AND ORGANIZATIONAL ISSUES IN INFORMATION SYSTEMS (3 credits)
This seminar is a survey course on the behavioral and organizational issues in information systems research. The course balances the acquisition of knowledge about the conduct of research in behavioral and organizational issues with the application of that knowledge to research on information systems. Major topics include: foundations of behavioral and organizational research in Information Systems; general research on systems design and problem solving; cognitive perspectives; decision making processes; human aspects of computing; computer-mediated communication; systems development; IS implementation; organizational change; organizational structure and new forms; information systems adoption; management of the information systems function; social, cultural, and ethical issues in information systems; and project management.
Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 9010 is recommended. Not open to non-degree graduate students.

ISQA 9120 APPLIED EXPERIMENTAL DESIGN AND ANALYSIS (3 credits)
Constructing and analyzing designs for experimental investigations; completely randomized, randomized complete block and Latin-square designs, split-plot designs, incomplete block designs, confounded factorial designs, nested designs, and treatment of missing data, comparison of designs. The course will use computer-assisted analysis and graphic techniques included in software such as SAS or SPSS.
Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156 or consent of instructor. Not open to non-degree graduate students.

ISQA 9130 APPLIED MULTIVARIATE ANALYSIS (3 credits)
The use of multivariate analysis for solving business problems. MANOVA, factor, cluster, and discriminant analysis techniques in IT research. The course will use computer-assisted analysis and graphic techniques included in software such as SAS or SPSS.
Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156 or consent of instructor. Not open to non-degree graduate students.

ISQA 9150 RESEARCH IN INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social and human development. In this course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class.
Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

ISQA 9900 SEMINAR IN COMMUNICATION & TECHNOLOGY (3 credits)
A synthesis of speech and mass communication research as it relates to the study of computers and technology. Computer Mediated Communication (CMC) will be emphasized. Students write a research paper appropriate for submission to an academic conference. (Cross-listed with COMM 9400)
Prerequisite(s)/Corequisite(s): COMM 8470 or COMM 8570, and COMM 8010 or COMM 8020, or permission of instructor.

Management Information Systems, MS
Department of Information Systems and Quantitative Analysis, College of Information Science & Technology

Vision Statement
The Master of Science in Management Information Systems (MIS) degree is designed to give students the skills and background needed to develop and manage an organization’s information resources, technology, and infrastructure. It will serve as a source of added knowledge and experience for MIS graduates and practitioners interested in obtaining an advanced degree. It will also provide career growth opportunities for the non-MIS and non-business degree holders who find that their careers demand graduate level MIS education. The MS in MIS prepares students for a variety of positions, including applications and web-site developer, computer network manager, business system analyst/manager, consultant, and technology manager. The MS in MIS also prepares students for admission to doctoral programs in information systems. A community advisory committee helps keep the program current with the needs of the business community.

Program Contact Information
Dr. Martina Greiner, Graduate Program Chair (GPC)

Program Website (http://www.unomaha.edu/college-of-information-science-and-technology/information-systems-and-quantitative-analysis/graduate)

Other Program Related Information
The College of IS&T offers an integrated undergraduate/graduate (IUG) track in MIS to provide outstanding undergraduate students in the College of IS&T an option to complete the BS (undergraduate) degree in MIS and the MS (graduate) degree in MIS in five years (147 total hours). The IUG program is designed for dedicated students who are motivated and willing to take on the challenges relating to graduate education earlier than
other students do. As such, the program involves both intensive study and preparation in the MIS field. Students interested in this option will work closely with an advisor and a faculty mentor to develop an integrated plan of study.

The College of IS&T wishes to extend its relationship with Management Center Innsbruck (Austria) (MCI) and with the Technical University of Braunschweig (Germany) (TUB) by offering a small number of interested students the opportunity to receive both the MS in MIS (UNO) degree and the MA in Management, Communications and Information Technology (MCiT) (MCI) or the Masters in MIS (TUB) degree in a two-year, full-time equivalent period. This will be implemented as an international dual degree track within the MS in MIS degree with an articulation of courses that will be transferred in both directions. The international dual degree track, like the traditional MS in MIS program, will require the equivalent of 36 US credit hours of course work beyond any foundation requirements. Students who wish to pursue this option will work closely with an advisor to develop a detailed plan of study.

Admissions

Application Deadlines
- Fall: July 1
- Spring: December 1
- Summer: April 1

Program-Specific Requirements
- International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores.
  - Paper-based TOEFL: 563
  - Computer-based TOEFL: 223
  - Internet-based TOEFL: 85
  - IELTS: 6.5
  - PTE: 53
  - GMAT: 500

- The minimum undergraduate grade point average (GPA) requirement for the MS in MIS program is 3.00 or equivalent score on a 4.00 scale. Applicants should have the equivalent of a 4-year undergraduate degree.

- Entrance Exam for those who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required. Submit GMAT or GRE scores with at least these minimum scores:
  - Verbal: 144
  - Quantitative: 148

- Three (3) letters of recommendation
- Ask three references who can evaluate your work and/or academic achievements to write a letter of recommendation. You will need to provide contact information for these references during the on-line application, and they will automatically be given instructions for submitting the recommendation electronically.

- Writing Sample
- Applicants are required to submit a writing sample from work or previous academic experiences. Alternatively, if you do not have a writing sample, please submit a two page double-spaced word processed essay that addresses the following two topics:
  - Two accomplishments that demonstrate your potential for success in the graduate program.
  - Your unique personal qualities and life experiences that distinguish you from other applicants to our graduate program.

- Resume

- Submit a detailed resume indicating your work experience and background.

Students interested in taking courses without admission to the MS in MIS degree program may do so with permission of the Graduate Program Committee. Contact mgreiner@unomaha.edu.

Requirements

Foundation Courses
Foundation courses ensure that all students in the MS MIS program have a strong foundation on which to build the rest of the program. These courses not only provide essential prerequisite knowledge and skills for other courses in the program, but they also contain a distinct body of knowledge that is an important part of the MIS professional’s education. All foundation courses are required for all students. Students who have obtained an undergraduate MIS degree will typically have this foundation. Other students, including computer science or engineering majors, will usually have to take one or more foundation courses. Occasionally, a student’s work experience may be sufficient to waive one or more foundation courses.

Waivers for foundation courses are granted by the chair of the graduate program committee upon the recommendation of the faculty member who is responsible for an individual foundation course. Students requesting a waiver for a particular course should be prepared to meet with a faculty member and answer questions in the area of the course. They should bring to the meeting any relevant transcripts, course syllabi, course material, or evidence of practical experience. Some foundation courses may have an option for testing out.

Foundation courses cannot be used to satisfy the 36 semester hours required for the MS in MIS degree. Students who have not completed all the foundation course requirements may be admitted on provisional status until those requirements have satisfactorily been completed. All must be completed prior to or concurrent with the first six hours of MS in MIS graduate course work.

Total Credits: 18-24
**Degree Requirements**

TAKE ISQA 8310 AS EARLY AS POSSIBLE IN YOUR PROGRAM, provided you have met the prerequisite of ISQA 8030 or equivalent.

Earn a total of 36 credit hours with a number 8000 or above (excluding foundation courses listed in the admissions requirements).

The 36 credit hours may be earned in two ways:

- Capstone option: 18 hours core classes (6 courses) + 15 hours electives (5 courses) + 3 hours capstone (ISQA 8950)
- Thesis option: 18 hours core classes (6 courses) + 9 hours electives (3 courses) + 3 hours research methods (ISQA 8060) + 6 hours thesis (ISQA 8990)

**Capstone Option**

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

Transfer students may request permission to transfer as many as twelve (12) semester hours of credit on a 36-hour program provided the courses are pertinent to the student’s graduate program. Submit petitions to the Graduate Program Committee for transfer credit and include a syllabus for each course to be transferred.

Students have 7 years to complete their MS in MIS degree. The 7-year time limit starts with the first degree-program class on the plan of study.

**Concentrations**

The ISQA faculty has developed a set of concentrations to assist students as they work to complete the MS in MIS program. Concentrations consist of a set of elective courses that are related to a particular subject area. Students may choose to take courses that make up a concentration, or not, as they see fit. Concentrations are not minors in the traditional sense, but rather reflect areas in demand in the community. If you have any questions regarding these concentrations, please contact the MS in MIS graduate advisor.

**Analytics Concentration**

Data analytics uses a variety of techniques to examine large amounts of data to discover patterns that can lead to business insights. Data analytics has broad applicability in customer behavior analysis, fraud detection, scientific inquiry, process improvement, financial analysis, trend analysis, forecasting, and decision-making. Techniques may include statistical methods, data mining, modeling and simulation, and data visualization. The analytics concentration prepares students for work in the area of analytics, and also offers the necessary methodological foundation for thesis work in a master’s or PhD program.

- CSCI/MATH 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS

1 See Exit Requirements below for additional details.
Formal concentration by contacting the graduate advisor. Students interested in Electronic Commerce are encouraged to declare a Electronic Commerce Concentration.

Data Management Concentration

The effective management of data and information is a fundamental task not only in the information society, but also for civilization as a whole. This concentration will prepare students to manage a growing variety of types of data throughout the data lifecycle. The curriculum gives students theoretical and practical training in database design, database administration, data quality management, knowledge management, business intelligence, data integration, and data governance. Students will gain exposure to transaction processing systems, data warehouses, and XML data stores. Students may also gain experience managing geospatial data.

Total Credits 12

1 NOTE: This is not an exhaustive list. Other courses may be taken as electives with approval of the GPC.
1 ISQA 8080, ISQA 8900 and ISQA 8990 must be related to Analytics.
2 Prior approval from the GPC is required to use these courses.
3 Only three hours of the required six hours of thesis may be applied to the concentration.

Geographic Information Systems Concentration

The use of spatial data for management, analysis, and decision-making has grown dramatically in both the public and private sectors, as global positioning systems, mobile devices, and geographic information systems (GIS) have become widespread. The concentration in GIS provides students with the technical and conceptual skills to manage geospatial data and apply it to solving geospatial problems. Students will learn the principles of geospatial data and mapping systems, global positioning systems, representation and management of geospatial data within computer systems, construction and use of maps, and the use of geospatial functions for decision-support.

Total Credits 12

1 NOTE: This is not an exhaustive list. Other courses may be taken as electives with approval of the GPC.
1 ISQA 8080, ISQA 8900 and ISQA 8990 must be related to Analytics.
2 Prior approval from the GPC is required to use these courses.
3 Only three hours of the required six hours of thesis may be applied to the concentration.

Health Informatics Concentration

Students interested in Health Informatics are encouraged to declare a formal concentration by contacting the MS in MIS advisor. The Health Informatics concentration integrates MIS, medical informatics theories and methods, and medical data representation and coding requirements. Students selecting this concentration are strongly encouraged to choose the thesis option to enhance their opportunities for obtaining gainful employment in this field. Students accepted into this concentration are expected to have prior experience or education in the life sciences and allied disciplines such as pharmacy, medicine and nursing.

- ISQA 8080 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS
- ISQA 8900 INDEPENDENT RESEARCH IN MANAGEMENT INFORMATION SYSTEMS
- ISQA/CYBR 8386 COMPUTER AND NETWORK FORENSICS
- ISQA 8990 THESIS

Total Credits 12

NOTE: This is not an exhaustive list. Other courses may be taken as electives with approval of the GPC.

IT Audit and Control Concentration
The IT Audit and Control concentration will provide students with the technical, organizational, accounting/auditing, and managerial background to plan and conduct IT audit and control activities. The concentration will cover the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, basic type of controls required in a business system in order to control IT risks, controls associated with top management, system development, programming, data resource management, database, security, operations management, quality assurance, boundary controls, and communications. Issues associated with new system control risks created by the use of the internet for business applications and electronic business will also be covered in one or more courses. Students will learn and apply and integrate technical, managerial and conceptual skills needed to plan and conduct IT audits and establish appropriate controls.

Prerequisite Courses
Students must have completed at least 9 hours of the MS in MIS core concentration (beyond foundation requirements) prior to enrolling for the concentration. In addition, the following preparation is required for this concentration:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSAD 8110</td>
<td>ACCT &amp; FINANCIAL FUNDAMENTALS</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 12

NOTE: This course is only required for students who have had no exposure to accounting fundamentals. Students will be given an automatic waiver if they have taken two semesters of accounting in their undergraduate degree.

Electives
Select two of the following:  
- ISQA 8596 IT AUDIT AND CONTROL
- ISQA 8546 COMPUTER SECURITY MANAGEMENT
- ISQA 8196 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY
- ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING
- ACCT 8090 INFORMATION SYSTEMS AUDITING
- ISQA 8080 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS
- ISQA 8900 INDEPENDENT RESEARCH IN MANAGEMENT INFORMATION SYSTEMS
- ISQA 8990 THESIS

Total Credits 12

NOTE: This is not an exhaustive list. Other courses may be taken as electives with approval of the GPC.

1. ISQA 8080, ISQA 8900 and ISQA 8990 must be related to Information Assurance. Prior approval from the GPC is required to use these courses.
2. Only three hours of the required six hours of thesis credit may be applied to the concentration.

Project Management Concentration
The Project Management concentration will provide students with the technical, organizational and managerial background to be effective project managers, project leaders, information technology managers, and software engineers. The curriculum in this concentration integrates project management standards developed by organizations such as IEEE (The Institute of Electrical and Electronics Engineers) and PMI (Project Management Institute) with conceptual background from disciplines such as project management, software engineering, management science, psychology, organization behavior, and organization change. Students are to start coursework in the project management concentration after completion of at least 9 hours of the core courses, including ISQA 8210.

- ISQA/CYBR 8570 INFORMATION SECURITY POLICY AND ETHICS
- ISQA 8196 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY
- ISQA 8080 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS
- ISQA 8900 INDEPENDENT RESEARCH IN MANAGEMENT INFORMATION SYSTEMS

Total Credits 12

1. Only three hours of the required six hours of thesis credit may be applied to the concentration.
2. ISQA/CYBR 8570 and ISQA 8900 must be related to IT Audit and Control. Prior approval from the GPC is required to use these courses.
3. This course is only required for students who have had no exposure to accounting fundamentals. Students will be given an automatic waiver if they have taken two semesters of accounting in their undergraduate degree.
Quality of Work Standards

The Graduate College’s Quality of Work standards shall be applied to foundation courses as well as courses taken as part of the degree program. In particular, the GPC will recommend to the Graduate College that any student receiving a grade of “C-” or below in any foundation courses will be automatically dismissed from the program or, in the case of unclassified or non-degree students, be automatically denied admission.

1. Student receiving a grade of “C-” or below in any foundation course will be placed on probation or dismissed from the program.
2. Student receiving a grade of “C+” or “C” in any foundation course will be placed on probation or dismissed from the program.
3. Student not maintaining a “B” (3.0 on 4.0 scale) average in foundation courses will be placed on probation or dismissed from the program.

Admissions

Application Deadlines

• Fall: July 1
• Spring: November 1
• Summer: April 1

Program-Specific Requirements

• All applicants must have earned a minimum Junior/Senior GPA of 3.0 for both the MBA and the MS in MIS programs.
• International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores. The minimum TOEFL scores required (internet-based):
  • 85 for the TOEFL for both the MBA and the MS in MIS programs
  • 6.5 IELTS for both the MBA and the MS in MIS programs
• Entrance Exam
  • Official GMAT score: minimum GMAT score of 500 with a minimum 20th percentile for both the verbal and quantitative portions; or 299 on the GRE for a test date after July 1, 2015 with a minimum 20th percentile for both the verbal and quantitative portions.
• Three (3) Letters of Recommendation (names and addresses submitted as part of the online application)
  • From individuals who can evaluate your work and/or academic achievement
• Writing Sample
  • From work or previous academic experiences
  • If you do not have a writing sample, please submit a two-page double-spaced word-processed essay that addresses the following two topics:
    • Discussion of two accomplishments that demonstrate your potential for success in the dual-degree MBA/MIS program
    • Discussion of your unique personal qualities and life experiences that distinguish you from other applicants to the dual-degree MBA/MIS program
• Resume
  • Include work experience and education.
• Interview: optional
  • Although not required, applicants are strongly encouraged to arrange for an interview with one or more members of the Graduate Program Committees of the MBA and MIS programs by directly

Program Contact Information

Business Administration, MBA and Management Information Systems, MS (MBA/MIS)

Department of Business Administration, College of Business Administration

Department of Information Systems & Quantitative Analysis, College of Information Science & Technology

Vision Statement

In today’s context of globally integrated and interdependent businesses, ubiquitous information technologies, and a mobile workforce, it is critical that graduate education provides students opportunities to develop integrated business and technology skills. The primary purpose of this dual degree program is to provide this integration by enabling students to complete the MBA and MS in MIS degrees simultaneously. This track is designed for dedicated students who are willing to take on the challenges related to graduate education from two perspectives—Business Administration and Management Information Systems. As such, this program involves intensive preparation in both business administration and information systems and a specialization in an area that combines both backgrounds. The dual degree program requires a minimum of 55 hours of course work beyond foundation requirements. Students who wish to pursue this option must work closely with an adviser to develop an integrated plan of study at an early stage. Students who complete the dual degree program will receive two degrees, two diplomas, and will have both degrees recorded on their transcript.

Program Specific Requirements

1. Note: This is not an exhaustive list. Other courses may be taken as electives with approval of the GPC.
2. ISQA 8080, ISQA 8900 and ISQA 8990 must be related to Project Management. Prior approval from the GPC is required to use these courses.
3. Only three hours of the required six hours of thesis credit may be applied to the concentration.

Total Credits 20

1 BSAD 8060: this is the first graduate-level course MBA students are to complete.
2 BSAD 8630 (prereq: BSAD 8150 and BSAD 8210)
3 BSAD 8720 (prereq: BSAD 8630)
4 BSAD 8830 must complete within the first 20 hours in the MBA program. (prereq: BSAD 8150 and BSAD 8210)

MBA Directed Elective Requirements

Directed Elective Requirement

For students who have earned an undergraduate or graduate degrees in accounting, economics, finance, management, or marketing, the core course(s) corresponding to the student’s previously earned degree(s) will be waived. To satisfy degree requirements, the student must complete a directed elective in the waived field as indicated.

MBA/MIS Non-Course Requirements

Each student admitted to the dual degree option will, within the first semester of their enrollment, file a plan of study in close consultation with a graduate advisor.

MBA/MIS Exit Requirements

Capstone Courses (5-6 hours)

BSAD 8800 MBA Project-Focused Capstone (2-3 credits) (taken within the last 9 hours or the final semester of the program). This course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in this program. Minimum B (3.0 on a 4.0 scale) grade required to complete the course successfully and qualify for graduation. Not open to non-degree graduate students.

ISQA 8950 MIS Capstone (3 credits) (taken within the last 6 hours or the final semester of the program, and all core courses have been completed). Minimum grade of “B” grade is required to complete the course successfully and qualify for graduation.

<td>3</td>
</tr>
</tbody>
</table>

Six (6) credit hours or fewer may be left in the student’s program

All other core classes must have been completed except for ISQA 8380.

Thesis Option

To take this option, a student will be required to enroll in six (6) hours of thesis credit:

MBA Program

<table>

<td>THESIS</td>
<td>3</td>
</tr>
</tbody>
</table>

The thesis must be in an area that relates to both the business administration and information systems domains. The Supervisory Committee must include at least one CBA faculty member and one ISQA faculty member.

Other Program-Related Information

Transfer Credits

A student may transfer credits into the MBA/MIS dual-degree program subject to the following conditions:

- No more than 1/3 of the credits for the dual-degree program may be transfer credits
- No more than 1/3 of the business credits for the dual-degree program may be transfer credits
- No more than 1/3 of the MIS credits for the dual-degree program may be transfer credits
- The transfer credits must conform to the transfer policies of the individual programs that make up the dual-degree program

Other Requirements to Complete the Program

Attendance at a minimum of 2 MBA leadership seminars

Total Credit Hours: 55

Academic Performance

In addition to UNO Graduate College Quality of Work Standards, Dual Degree (DD) students may repeat only once a BSAD 8-0-level course in which they receive any grade, including "W" or "I". Students earning three "C/C+" grades, or a grade of "C-" or below, will be automatically dismissed from the DD program. Dismissed students will be immediately administratively withdrawn from all courses in which they are enrolled for DD credit.

Students who have been dismissed may not enroll in any courses for DD credit in any subsequent semester or summer session until reinstatement has been granted by the Dual-Degree Program Academic Standards Committee (DDPASC) comprised of the 2 GPC Chairs and 1 faculty member from each GPC.
Students who have been dismissed from the DD program may submit a written petition for reinstatement to the DDPASC. Students petitioning the DDPASC for reinstatement may not enroll in any course for DD credit until after the DDPASC has ruled on the petition. Upon receiving a petition for reinstatement, the DDPASC will evaluate the student’s written petition for reinstatement. As part of the reinstatement petitioning process, the DDPASC reserves the right to examine the student’s academic record and reserves the right to speak to any previous instructor who has taught the student; this information may be used by the DDPASC in the reinstatement decision. Information provided by previous instructors will not be shared with the student. Reinstatement is a privilege and not all students who are dismissed will be reinstated. Students who have been reinstated will serve a probationary period at the DDPASC’s discretion and must satisfy the probationary conditions specified by the DDPASC. In addition to probationary conditions, reinstated students will be subject to additional reinstatement conditions as specified by the DDPASC. These reinstatement conditions will include retaking one or more courses in which the student must earn a grade of “B” (3.0) or higher (the exact grade requirements for retaken courses may in fact be higher than “B” (3.0)). Students not satisfying the probationary or reinstatement conditions will be automatically dismissed.

Grades Earned in Repeated Courses
When making decisions related to the Quality of Work Standards issues outlined in the UNO Graduate Catalog, the Dual-Degree Program Academic Standards Committee (DDPASC) will consider the initial grade(s) received in a course as well as the most recent grade received for the course. This approach differs from the method used to calculate GPA in a student’s MavLINK/DegreeWorks file, where the most recent grade replaces the grade received in the previous course attempt.

Public Administration, MPA and Management Information Systems, MS (MPA/MIS)

School of Public Administration, College of Public Affairs & Community Service, Department of Information Systems & Quantitative Analysis, College of Information Science & Technology

Vision Statement
In government and non-profit organizations, there is a significant need and a long-term demand for persons with advanced skills in information management technology. The primary purpose of this dual degree option is to prepare students to manage and lead organizations in the future. To meet this need, the School of Public Administration and the College of Information Science & Technology offer the option to complete both the MPA and the MS in MIS degree jointly by completing 54-57 hours of coursework beyond foundation requirements. This joint degree program is designed for dedicated students who are able to successfully complete graduate intensive study from two perspectives—Public Administration and Management Information Systems—while achieving a synergy between the two fields. As such, the program involves graduate coursework in both public administration and information systems, with integrative experiences that will attain the desired synergy. Students interested in this option will work closely with a faculty mentor to develop an integrated plan of study at an early stage.

Admissions Application Deadlines
- Fall: June 1
- Spring: October 1

Program-Specific Requirements
- International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL and GRE scores.
  - The minimum TOEFL requirement is 563, 223 computer-based, 85 internet-based, 6.5 IELTS, or 53 PTE.
  - The general prerequisite for admission to the program is a four-year bachelor’s degree with a minimum of a 3.0 GPA of the junior-senior year (last 50-60 credit hours).
- Graduate Record Exam (GRE)
  - Applicants to the UNO School of Public Administration (MPA) program may be granted a waiver from the GRE requirement, under one of the following circumstances:
    - The applicant is enrolled in the UNO Grace Abbott School of Social Work (MSW) program and has completed at least four courses with a minimum GPA of 3.2 and no less than a “B” in any course.
    - The applicant is enrolled in the UNO College of Information Science and Technology MS in MIS program and has completed at least four courses with a minimum GPA of 3.2 and no less than a “B” in any course.
- Two (2) letters of recommendation
- Statement of Purpose
- Writing Sample
  - From work or previous academic experiences. Alternatively, if you do not have a writing sample, please submit a two-page double-spaced word processed essay that addresses the following two topics:
• Two accomplishments that demonstrate your potential for success in the graduate program
• Your unique personal qualities and life experiences that distinguish you from other applicants to our graduate program
• Resume indicating your work experience and background

Degree Requirements

MPA/MIS Foundation Courses

A student must have completed some basic courses either as an undergraduate student or prior to enrolling in the first MS in MIS course. Students may start MPA courses while completing the MIS foundation courses.

<tbody>
<tr>
<td>ISQA 8990</td>
<td>THESIS (6 Hours Required)</td>
<td>3</td>
</tr>
</tbody>
</table>

The thesis must be in an area that relates to both the public administration and information systems domains.

Total Credit Hours: 57

Data Analytics Certificate

Department of Information Systems and Quantitative Analysis, College of Information Science & Technology

Vision Statement

Data analytics uses a variety of techniques to examine large amounts of data to discover patterns that can lead to business insights. Data analytics has broad applicability in customer behavior analysis, fraud detection, scientific inquiry, process improvement, financial analysis, trend analysis, forecasting, and decision-making. Techniques may include statistical methods, data mining, modeling and simulation, and data visualization. The certificate is designed to equip students to apply the theory and practice of data analytics to solving problems in a variety of economic, social, and scientific domains.

1 ISQA 8080, and ISQA 8900: must be related to Information Assurance. Prior approval from the GPC is required to use these courses.

Completion of the Certificate

During what is expected to be the semester the certificate is completed and prior to the posted deadline, students should apply for the certificate through MovILINK on or before the deadline. If you complete the application form and do not complete all of the requirements for the certificate, contact the Office of Graduate Studies as soon as possible. You must reapply during the next semester in which you expect to complete the certificate; no additional fee is charged to reactivate your application.

The following requirements are due 12 working days prior to commencement:

- "Incomplete" and "NR" grades from previous terms must be removed so that the grade will be in the Office of Graduate Studies.
- All fees, fines, and other obligations due the university must be settled.

For students currently enrolled in courses that are a part of their plan of study, enrollment must be maintained in order to complete the certificate. A grade for any current enrollment must be received by the Registrar's Office no later than the close of business on the fifteenth working day following the end of a semester.

Awarding of Graduate Certificates

The Office of Graduate Studies will mail the certificate to students when all requirements are completed and all obligations to the university are satisfied. The Graduate College will not approve any changes in the student's permanent record once the certificate is awarded.

Project Management Certificate

Department of Information Systems and Quantitative Analysis, College of Information Science & Technology

Vision Statement

The goal of the ISQA graduate certificate program is to allow post-baccalaureate students and working professionals to expand their educational background and complete work that could count towards a graduate degree. Earning the graduate certificate will enhance skill sets; provide exposure to new information technologies, theories and practices; allow individuals to work towards various professional certifications; increase growth potential with employers; and increase prospects of obtaining a graduate degree. The graduate certificate programs offer existing technical and managerial professionals the chance to improve and hone their communication skills to aide in their professional development.

The Project Management Certificate will provide students with the technical, organizational and managerial background to become project managers, project leaders, information technology managers, and software engineers.

Total Credits 12

1 ISQA 8080 and ISQA 8900: must be related to Project Management. Prior approval from the GPC is required to use these courses.

### Completion of the Certificate

During what is expected to be the semester the certificate is completed and prior to the posted deadline, students should apply for the certificate through MavLINK on or before the deadline. Information can be found here (http://www.ses.unomaha.edu/Registrar/graduate.php). If you complete the application form and do not complete all of the requirements for the certificate, contact the Office of Graduate Studies as soon as possible. You must reapply during the next semester in which you expect to complete the certificate; no additional fee is charged to reactivate your application.

The following requirements are due 12 working days prior to commencement:

- “Incomplete” and “NR” grades from previous terms must be removed so that the grade will be in the Office of Graduate Studies.
- All fees, fines, and other obligations due the university must be settled.

For students currently enrolled in courses that are a part of their plan of study, enrollment must be maintained in order to complete the certificate. A grade for any current enrollment must be received by the Registrar’s Office no later than the close of business on the fifteenth working day following the end of a semester.

### Awarding of Graduate Certificates

The Office of Graduate Studies will mail the certificate to students when all requirements are completed and all obligations to the university are satisfied. The Graduate College will not approve any changes in the student’s permanent record once the certificate is awarded.

### Vision Statement

The goal of the ISQA graduate certificate program in Systems Analysis & Design is to allow post-baccalaureate students and working professionals to expand their educational background and complete work that could count towards a graduate degree. Earning the graduate certificate will enhance students’ skill sets; provide exposure to new information technologies, theories and practices; allow individuals to work towards various professional certifications; increase growth potential with employers; and increase prospects of obtaining a graduate degree. The graduate certificate program offers existing technical and managerial professionals the chance to improve and hone their communication skills to aide in their professional development.

The Systems Analysis and Design Certificate will provide students with the advanced technical, organizational and managerial background to become systems or business analysts and software developers.

### Program Contact Information

**Dr. Martina Greiner, Graduate Program Chair (GPC)**
Peter Kiewit Institute (PKI) 282B
402-554-2174
mgreiner@unomaha.edu

Ms. Leslie Planos, Advisor
Peter Kiewit Institute (PKI) 176C
402-554-3819
lplanos@unomaha.edu

**Program Website** (https://www.unomaha.edu/college-of-information-science-and-technology/information-systems-and-quantitative-analysis/graduate/graduate-certificates.php)

### Admissions

**Application Deadlines**

- Fall: July 1
- Spring: December 1
- Summer: April 1

### Program-Specific Requirements

- International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores.
  - Paper-based TOEFL: 563
  - Computer-based TOEFL: 223
  - Internet-based TOEFL: 85
  - IELTS: 6.5
  - PTE: 53
- The minimum undergraduate grade point average requirement is 3.00 or equivalent score on a 4.00 scale. Applicants should have the equivalent of a 4-year undergraduate degree.

### Degree Requirements

**Prerequisite Requirements**

The following courses are prerequisites for the required courses. Elective courses may have additional prerequisites. All prerequisites must be completed with grades of “B” or better.

Awarding of Graduate Certificates
The Office of Graduate Studies will mail the certificate to students when all requirements are completed and all obligations to the university are satisfied. The Graduate College will not approve any changes in the student's permanent record once the certificate is awarded.

Mathematics
Degree Programs Offered
- Mathematics, MA (p. 801)
- Mathematics, MS (p. 804)
- Mathematics, MAT (p. 803)

MATH 8016 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with CSCI 4010, CSCI 8016, MATH 4010).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor's permission

MATH 8036 MODERN ALGEBRA (3 credits)
Algebra is the study of mathematical manipulations that preserve something (like equality - when solving equations). The areas in which Algebra finds application are quite diverse, from Ancient Greek Geometry through to Modern Information Protection and Security (error correcting codes, data compression, and cryptography). This course begins with topics that should be familiar (such as ruler-and-compass constructions, and modular arithmetic) and builds upon this foundation through polynomial rings up to finite fields and basic group theory. (Cross-listed with MATH 4030).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better

MATH 8050 ALGORITHMIC GRAPH THEORY (3 credits)
Review of the basic concepts of graph theory. Introduction to perfect graphs and their characterizations. Main classes of perfect graphs and their properties. Algorithms for main problems of perfect graphs. Applications of perfect graphs in several fields such as scheduling, VLSI and communication networks. (Cross-listed with CSCI 8050).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and MATH 4150 or MATH 8156 or permission of instructor. Not open to non-degree graduate students.

MATH 8056 LINEAR ALGEBRA (3 credits)
The theory of vectors, vectorspaces, inner product spaces, linear transformations, eigenvalues, canonical forms, complex vectors and matrices and orthogonality. Unlike MATH 2050, this course emphasizes the theoretical aspects of linear algebra. (Cross-listed with MATH 4050).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 8325 and MATH 4150 or CSCI 8156 or permission of instructor. Not open to non-degree graduate students.

MATH 8060 ALGORITHMIC COMBINATORICS (3 credits)
This course includes classical combinatorial analysis graph theory, trees, network flow, matching theory, external problems, and block designs. (Cross-listed with CSCI 8060).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or equivalent; or permission

MATH 8080 DESIGN AND ANALYSIS OF ALGORITHMS (3 credits)
The study of algorithms important in computer programming. Principles and underlying concepts of algorithm design, fundamental techniques of algorithm analysis, typical types of algorithms. Related topics such as algorithms and computer architecture. (Cross-listed with CSCI 8080).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or equivalent. Not open to non-degree graduate students.
MATH 8105 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya's formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with CSCI 3100, CSCI 8105, MATH 3100).
Prerequisite(s)/Corequisite(s): MATH 2030 or MATH 2040 with a C- or better or MATH 2230 with a C- or better.

MATH 8116 ABSTRACT ALGEBRA I (3 credits)
An introduction to group theory. Various classes of group are studied: symmetric groups, abelian, cyclic, and permutation groups. Basic tools are developed and used: subgroups, normal subgroups, cosets, the Lagrange theorem, group homomorphisms, quotient groups, direct products, and group actions on a set. The course culminates with the Sylow theorems in finite group theory. The theory is illustrated with examples from geometry, linear algebra, number theory, crystallography, and combinatorics. (Cross-listed with MATH 4110).
Prerequisite(s)/Corequisite(s): MATH 4050/MATH 8056 with a C- or better or MATH 4560/MATH 8566 with a C- or better or permission of instructor.

MATH 8126 ABSTRACT ALGEBRA II (3 credits)
An introduction to ring and field theory. Various classes of commutative rings are considered including polynomial rings, and the Gaussian integers. Examples of fields include finite fields and various extensions of the rational numbers. Concepts such as that of an ideal, integral domain, characteristic and extension field are studied. The course culminates with an introduction to Galois theory. Applications include the resolution of two classical problems: the impossibility of angle-trisection and the general insolvability of polynomial equations of degree 5 or higher. (Cross-listed with MATH 4120).
Prerequisite(s)/Corequisite(s): MATH 4110/MATH 8116 with a C- or better or permission of instructor.

MATH 8156 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 4150, CSCI 8156, MATH 4150).
Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor.

MATH 8235 INTRODUCTION TO ANALYSIS (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include the real number system, topology of the real line, limits, functions of one variable, continuity, differentiation, integration. (Cross-listed with MATH 3230).
Prerequisite(s)/Corequisite(s): MATH 1970, and MATH 2030 or MATH 2230 or equivalent.

MATH 8236 MATHEMATICAL ANALYSIS I (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include ordered fields and the real number system, basic properties of complex numbers, metric space topology, sequences and series in R^k, limits and continuity in a metric space, monotonic functions. (Cross-listed with MATH 4230).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or equivalent.

MATH 8246 MATHEMATICAL ANALYSIS II (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include differentiation and Riemann-Stieltjes Integration, sequences and series of functions, uniform convergence, power series, functions of several variables, Implicit Function Theorem. (Cross-listed with MATH 4240).
Prerequisite(s)/Corequisite(s): MATH 4230/MATH 8236

MATH 8250 PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
Partial differential equations (PDEs) are fundamental in the application of mathematics to science and engineering. Topics to be covered will include: Linear and nonlinear first-order equations, classification of second-order linear equations, elliptic, hyperbolic and parabolic equations and boundary value problems, and Green's functions.
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or instructor's permission. MATH 4330/MATH 8336 is recommended, but not required.

MATH 8276 COMPLEX VARIABLES (3 credits)
Differentiation, integration and power series expansions of analytic functions, conformal mapping, residue calculus, and applications. (Cross-listed with MATH 4270).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or equivalent.

MATH 8305 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with CSCI 3300, CSCI 8305, MATH 3300).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor.

MATH 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, CSCI 8306, MATH 4300).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor.

MATH 8316 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations research models and algorithms. Topics include Markov chains, queueing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, CSCI 8316, MATH 4310).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

MATH 8326 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)
Survey of computational methods used in the solution of operations research problems. Topics include scripting to guide optimization software, metaheuristics for optimization, and basic machine learning algorithms. (Cross-listed with MATH 4320).
Prerequisite(s)/Corequisite(s): MATH 3200 and MATH 4300 each with a grade of C- or better or permission of instructor.

MATH 8336 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
This course introduces the basic methods of PDEs guided by applications in physics and engineering. The main topics to be covered include The Linear First order PDEs, Transport equations, Characteristics, Classification of PDEs, Separation of variables, Heat conduction, vibrating membranes, boundary value problems, Maximum principle, Sturm-Liouville problems, Fourier series, Fourier integrals, Harmonic functions, Legendre polynomials, Distributions, Green's functions. (Cross-listed with MATH 4330).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better or permission of instructor; MATH 2050 recommended, not required.
MATH 8356 ORDINARY DIFFERENTIAL EQUATIONS (3 credits)
Ordinary Differential Equations develops the theory of initial-, boundary-, and eigenvalue problems, existence theorems, real and complex linear systems of differential equations, and stability theory. There will be a strong emphasis on methods for finding solutions of initial and boundary value problems and analyzing properties of these solutions for various differential equations. (Cross-listed with MATH 4350).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better and MATH 2350 with a C- or better or instructor's permission. It is recommended, but not required, that students take MATH 3230, which would require a C- or better.
MATH 8370 FUZZY SET THEORY AND ITS APPLICATIONS (3 credits)
The course is focused on the fundamental theory of fuzzy sets and its applications to data mining and decision making.
Prerequisite(s)/Corequisite(s): MATH 2030, MATH 2230, MATH 3230/ MATH 8235, or permission of instructor.
MATH 8400 DYNAMICAL SYSTEMS AND CHAOS (3 credits)
Review of difference equations and differential equations, stability theory, periodic orbits, lyapunov exponents, fractals, chaos, state reconstruction from time series data.
Prerequisite(s)/Corequisite(s): Permission from Instructor
MATH 8406 FINITE ELEMENT METHODS FOR SOLVING ORDINARY AND PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or instructor's permission. MATH 3300/MATH 8305 and MATH 4330/ MATH 8336 are recommended, but not required. Familiarity with MATLAB programming is assumed.
MATH 8410 TOPICS IN DESCRIPTIVE DYNAMICAL SYSTEMS:
BOOLEAN NETWORKS (3 credits)
This course is focused on introduction to discrete dynamical networks, in particular logical networks, and their applications.
Prerequisite(s)/Corequisite(s): MATH 1960 (Calculus II), MATH 2230 (proof writing skills), MATH 4740 or equivalent (basic probability theory), basic computer skills, or permission of the instructor.
MATH 8430 LINEAR PROGRAMMING (3 credits)
This course includes a complete development of theoretical and computational aspects of linear programming. Basic theoretical foundations covered include polyhedra, convexity, linear inequalities and duality. Advanced topics such as decomposition and column generation are covered. Both simplex methods and interior point methods are included.
Prerequisite(s)/Corequisite(s): MATH 4300/MATH 8306
MATH 8440 NETWORK PROGRAMMING (3 credits)
A presentation of network flow models and optimization algorithms. Topics include pure, generalized, integer, and constrained network problems, plus special cases of each, including transportation, assignment, shortest-path, transshipment, and multicommodity.
Prerequisite(s)/Corequisite(s): MATH 4300/MATH 8306
MATH 8450 CALCULUS OF VARIATIONS (3 credits)
Functionals, the Euler-Lagrange Equation, the Brachistochrone, minimum surface of revolution, isoperimetric problem, Fermat's Principle, Hamilton's Principle, least action, the vibrating string and membrane, max-min characterization of eigenvalues, further applications.
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 and MATH 3350/MATH 8355.
MATH 8460 INTEGER PROGRAMMING (3 credits)
Advanced study in mathematical programming with integer or mixed integer variables. Topics include integer programming, model creation, developing solution algorithms, and applications of integer programming.
Prerequisite(s)/Corequisite(s): MATH 2030 or MATH 2230 Not open to non-degree graduate students.
MATH 8480 MULTI-AGENT SYSTEMS AND GAME THEORY (3 credits)
This course covers advanced topics in the area of coordination of distributed agent-based systems with a focus on computational aspects of game theory. The main topics covered in this course include distributed constraint satisfaction, distributed constraint optimization, and competitive and cooperative game theory. (Cross-listed with CSCI 8480).
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456. Suggested background courses: CSCI 4480 or CSCI 8486; CSCI 8080. Not open to non-degree graduate students.
MATH 8490 APPLIED COMPLEX VARIABLES (3 credits)
Applications of complex variables to potential theory, Fourier and Laplace transforms, ordinary and partial differential equations, number theory, chaotic dynamical systems, etc.
Prerequisite(s)/Corequisite(s): MATH 4270/MATH 8276
MATH 8500 NUMERICAL ANALYSIS I (3 credits)
Topics covered in this course include error propagation, solutions of nonlinear equations, solutions of linear and nonlinear systems by various schemes, matrix norms and conditioning, and computation of eigenvalues and eigenvectors. (Cross-listed with CSCI 8500).
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2050, or permission of instructor. Familiarity with computer programming is assumed.
MATH 8505 SELECTED TOPICS IN MATHEMATICS (1-6 credits)
This is a variable content course with selected topics in the mathematical sciences which may be of interest to students in other disciplines such as mathematics education, psychology and business. The course may be taken more than once for credit provided topics differ, with a maximum credit of nine hours. Mathematics majors may apply no more than three hours of MATH 3500 toward the minimum major requirements. MATH 8505 does not apply to M.A. or M.S. in mathematics. (Cross-listed with MATH 3500).
Prerequisite(s)/Corequisite(s): Permission of instructor
MATH 8510 NUMERICAL ANALYSIS II (3 credits)
Topics covered in this course include interpolation and approximations, numerical differentiation, numerical integration, and numerical solutions of ordinary and partial differential equations. (Cross-listed with CSCI 8510)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or permission of instructor. Familiarity with computer programming is assumed.
MATH 8520 ADVANCED TOPICS IN OPERATIONS RESEARCH (3 credits)
Advanced treatment of a specific topic in the area of operations research not available in the regular curriculum. Topics, developed by individual faculty members, will reflect their special interests and expertise. The course may be repeated for credit as topics differ. (Cross-listed with CSCI 8520).
Prerequisite(s)/Corequisite(s): MATH 4300 or MATH 8306 or CSCI 4300 or CSCI 8306 or permission of the instructor.
MATH 8530 NONLINEAR OPTIMIZATION WITH NONLINEAR INTEGRALS (3 credits)
The course is focused on using a new mathematical aggregation tool, the nonlinear integral, in nonlinear optimizations and on its applications in information fusion and data mining, where a soft computing technique (genetic algorithms and/or neural networks) is adopted to search numerical optimal solutions approximately.
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 4740. Preferred MATH 4300 and CIST 1400 or equivalent.
MATH 8566 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 4560, CSCI 8566, MATH 4560).
**Prerequisite(s)/Corequisite(s):** MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor

MATH 8586 TENSOR ANALYSIS (3 credits)
**Prerequisite(s)/Corequisite(s):** MATH 1970, MATH 2050, MATH 2350

MATH 8606 DIFFERENTIAL GEOMETRY (3 credits)
Curvature, torsion, Frenet frames, Fundamental theorem of curve theory, Frenchel's theorem, tangent spaces, first and second fundamental forms, shape operator, Fundamental theorem of surfaces theory, covariant derivative, parallel transport, geodesics. (Cross-listed with MATH 4600).
**Prerequisite(s)/Corequisite(s):** MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or permission of instructor.

MATH 8616 ELEMENTARY TOPOLOGY (3 credits)
This course covers topological spaces, connectedness, compactness, homotopy of paths, covering spaces, and fundamental groups. (Cross-listed with MATH 4610).
**Prerequisite(s)/Corequisite(s):** MATH 1960 with a C- or better and MATH 3230 with a C- or better or permission of instructor.

MATH 8620 GENERAL TOPOLOGY (3 credits)
The concepts of MATH 4610/MATH 8616 are studied at an advanced level in conjunction with ordinal and cardinal numbers, open and closed maps, separation axioms and countable compactness.
**Prerequisite(s)/Corequisite(s):** MATH 4610/MATH 8616

MATH 8645 MODERN GEOMETRY (3 credits)
Axiomatic systems, finite geometries, modern foundations of Euclidean geometry, hyperbolic and other non-Euclidean geometrics, projective geometry. (Cross-listed with MATH 3640).
**Prerequisite(s)/Corequisite(s):** MATH 2230 or MATH 2030, or equivalent mathematical maturity.

MATH 8650 INTRODUCTION TO PROBABILITY MODELS (3 credits)
This is an introduction to probability modeling including Poisson Processes, Markov chains, birth-death processes, queueing models and renewal theory. Applications will be an important part of the course.
**Prerequisite(s)/Corequisite(s):** MATH 4740/MATH 8746, MATH 4760/MATH 8766/CSCI 4760/CSCI 8766, STAT 3800/STAT 8805, or permission of instructor.

MATH 8656 TRANSFORM METHODS & APPLICATIONS (3 credits)
Laplace transform and the inversion integral. Fourier transform. Other transforms and special techniques. Applications to differential equations, boundary value problems of mathematical physics, and signal analysis. (Cross-listed with MATH 4650).
**Prerequisite(s)/Corequisite(s):** MATH 3350/MATH 8355 and MATH 4270/MATH 8276

MATH 8666 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with MATH 4660, CSCI 8666, MATH 4660).
**Prerequisite(s)/Corequisite(s):** MATH 2030. Recommended: CSCI 3320/CSCI 8325.

MATH 8670 TOPICS IN PROBABILITY AND STATISTICS (3 credits)
A variable topics course in probability and or statistics. Topics covered will include one or more of the following: reliability theory and applications in engineering and science, advanced probability and statistical models, theory of parametric estimation and applications, and advanced probability theory and application.
**Prerequisite(s)/Corequisite(s):** MATH 4740/MATH 8740 or STAT 3800/STAT 8800 or permission from instructor

MATH 8746 INTRODUCTION TO PROBABILITY AND STATISTICS I (3 credits)
A mathematical introduction to probability theory including the properties of probability; probability distributions; expected values and moments; specific discrete and continuous distributions; and transformations of random variables. (Cross-listed with MATH 4740).
**Prerequisite(s)/Corequisite(s):** MATH 1970 and MATH 2030 or MATH 2230

MATH 8756 INTRODUCTION TO PROBABILITY AND STATISTICS II (3 credits)
Theory and methods of statistical inference including estimators, statistical hypotheses, multivariate estimation, chi-square tests, analysis of variance, and statistical software. (Cross-listed with MATH 4750).
**Prerequisite(s)/Corequisite(s):** MATH 4740/MATH 8746

MATH 8766 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, deterministic versus non-deterministic machines, NP-Complete problems, alternating Turing machines, and concepts of reducibility. (Cross-listed with CSCI 8850).
**Prerequisite(s)/Corequisite(s):** MATH 2350 and MATH 4740 or MATH 8746.

MATH 8850 ADVANCED AUTOMATA AND FORMAL LANGUAGES (3 credits)
A continuation of MATH 4660/MATH 8666/CSCI 4660/CSCI 8666. The course will be an introduction to computational complexity. Topics that will be covered include space and time complexities of Turing Machines, deterministic versus non-deterministic machines, NP-Complete problems, alternating Turing machines, and concepts of reducibility. (Cross-listed with CSCI 8850).
**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

MATH 8855 HISTORY OF MATHEMATICS (3 credits)
An overview of the historical development of mathematical concepts and methods. Brief biographies of major mathematicians, descriptions of the cultural context of selected major advances, and examples of the solution of problems using the knowledge and methods appropriate for each time period will be included. (Cross-listed with MATH 3850).
**Prerequisite(s)/Corequisite(s):** Students who enroll in this course should have completed MATH 1970 and MATH 2230 in order to have the minimum amount of mathematical background needed to appreciate the mathematical content of the course.
MATH 8880 ADVANCED PLACEMENT INSTITUTE: CALCULUS (3 credits)
A workshop for teachers planning to offer an advanced placement course in calculus. Objectives include increasing teaching competencies in single-variable calculus, discussion and study of AP calculus exams, implementations of AP courses in calculus, and development and presentation of projects for graduate credit. (This course will not count toward the M.A. or M.S. degrees in Mathematics.)
Prerequisite(s)/Corequisite(s): Graduate in mathematics or mathematics education.

MATH 8960 MASTER’S PROJECT (1-6 credits)
An applied project, designed and executed under the supervision of both a faculty and industry advisor. In the project the student will apply their mathematical and/or statistical skills to an applied problem. The student will present their results via a written report and oral presentation. (Cross-listed with STAT 8960).
Prerequisite(s)/Corequisite(s): Permission of faculty advisor and graduate program chair. Not open to non-degree graduate students.

MATH 8970 INDEPENDENT GRADUATE STUDIES (1-3 credits)
Under this number a graduate student may pursue studies in an area that is not normally available to him/her in a formal course. The topics studied will be a graduate area in mathematics to be determined by the instructor.
Prerequisite(s)/Corequisite(s): Permission of instructor and graduate classification.

MATH 8980 GRADUATE SEMINAR (1-3 credits)
A graduate seminar in mathematics.

MATH 8990 THESIS (1-6 credits)
Master’s Thesis.

MATH 9110 ADVANCED TOPICS IN APPLIED MATHEMATICS (3 credits)

MATH 9230 THEORY OF FUNCTION OF REAL VARIABLES (3 credits)
Real number system, convergence, continuity, bounded variation, differentiation, Lebesgue-Stieltjes integration, abstract measure theory, the Lp spaces.
Prerequisite(s)/Corequisite(s): MATH 4230/MATH 8236 and MATH 8240 or equivalent.

Mathematics, MA
Department of Mathematics, College of Arts & Sciences

Vision Statement
The Master of Arts in Mathematics is designed to achieve two objectives:

- Provide a strong program of course work in mathematics beyond the undergraduate level and
- Be flexible enough to accommodate a wide variety of student interests and backgrounds. There are no required courses in the program, but students are strongly encouraged to develop an emphasis in the courses which make up their individual plan of study; such an emphasis provides both focus and depth in the graduate experience.

Whatever their objectives in their graduate programs, students should form a close working relationship with a faculty member having similar mathematical interests as soon as possible. This will ensure good advice in planning a coherent plan of study. In addition, an advisor may be able to suggest special topics courses, independent study, or the thesis option which could all be used to pursue one’s interests in greater depth.

Finally, students who plan to pursue a doctoral degree in mathematics should include a sequence in analysis and a sequence in algebra in their plans of study.

Other Program Related Information
Graduate Assistantships
The mathematics department annually awards graduate assistantships for work within the department. There are also several joint UNO/MCC positions where the teaching assignments are at Metropolitan Community College. All of these positions pay an annual stipend plus a waiver of tuition. For the details of the nature of the work, please visit the assistantships page of the math department website.

Admissions
Application Deadlines
- Fall: July 31
- Spring: November 30
- Summer: April 15

Program-Specific Requirements
For unconditional admission, an applicant should:

1. Have completed a bachelor’s degree with a grade point average of at least 3.0 in mathematics courses taken.
2. Have completed 15 credit hours of mathematics courses beyond calculus, including MATH 3230/MATH 8235 or equivalent.
3. Students lacking the 15 credit hours beyond calculus may be eligible for admission in a provisional or unclassified status with a deficiency to be made up in addition to the degree requirements listed.
4. Students who satisfy the admission requirements in (1) above except for the GPA requirement may be granted provisional admission to the graduate program. They will be granted unconditional admission upon completion of 12 graduate hours with a grade of "B" or better in each course.
5. International applicants must satisfy the Graduate College's English Proficiency Examination Requirement. While individual programs may require a higher score, the UNO Graduate Council has set a minimum score for admission to graduate studies of 550 written TOEFL, 80 internet-based TOEFL, 6.5 IELTS, or 53 PTE, with no exceptions to this policy.

Degree Requirements
Required Courses
There are no required courses. Choose mathematics courses with a MATH or STAT prefix numbered 8000 or above and ending in the digit zero or six, excluding MATH 8880. At least fifteen of these hours must be in courses with a number ending in the zero digit. These fifteen hours may include the six hours of thesis, MATH 8990, and three hours of independent study, MATH 8970.

Electives
Since all courses are electives with the exception of the six thesis credit hours, all courses taken must satisfy the above requirements for the 30 credit hours. Up to 12 hours of graduate work electives may be taken in areas related to mathematics such as physics, computer science, and economics, if permission is obtained from the Graduate Program Committee.
Exit Requirements
Students are required to take 6 hours of MATH 8990. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

Concentrations
Students may choose (although there is no requirement to do so) to add a concentration. There are currently three available concentrations. For information about the requirements of each concentration, click on the links below:

Mathematics, MA with Computational Mathematics Concentration
Mathematics, MA with Operations Research Concentration
Mathematics, MA with Statistics Concentration

Total Credit Hours: 30

Electives

Select at least 12 credit hours of courses with a statistical nature (see below)

MATH 8990   THEESIS                                   6

Total Credits 30

1 Students who were undergraduates at UNO and took MATH 4740, MATH 4750, or STAT 4430 may not take MATH 8746, MATH 8756, or STAT 8436 at the graduate level. Students will replace these requirements with additional elective courses.

Electives

At least 12 credit hours of courses with a statistical nature, with at least 6 credit hours of courses ending in 0.

Some suggested courses are provided below. Other elective courses may be possible with the prior permission of the graduate program chair.

If any of the core course requirements were waived, then additional electives should be taken in their place.

1 Students who were undergraduates at UNO and took MATH 4310, MATH 4410, MATH 4420, or STAT 4440 may not take MATH 8316, MATH 8416, STAT 8426 or STAT 8446 at the graduate level.

Exit Requirement

Students are required to take 6 hours of MATH 8990. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

Mathematics, MAT

Department of Mathematics, College of Arts & Sciences

Vision Statement

The Master of Arts for Teachers of Mathematics degree is ideal for:

- Current high school teachers who are planning on teaching advanced secondary mathematics such as Dual-Enrollment calculus at their high school.
- Any student interested in teaching freshman/sophomore level mathematics courses at local universities.
- Any student interested in pursuing a PhD in Education with an emphasis in mathematics.

NOTE: This program does not help a student get a state certification to teach high school math. For those students with an undergraduate degrees already interested in pursuing a degree to teach high school math, but do not yet have a state certification to teach, consider the Teacher Academy Project (http://www.unomaha.edu/college-of-education/moec/projects/teacher-academy-project).

Program Contact Information

michaelmatthews@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-arts-and-sciences/mathematics)

Other Program-Related Information

Graduate Assistantships

The Mathematics Department annually awards four graduate assistantships for work within the department. There are also several joint UNO/Metropolitan Community College positions in which the teaching assignments are at MCC. All of these positions pay an annual stipend plus a waiver of tuition. For the details of the nature of the work, please contact the department chair.

Teachers of Mathematics Scholarship

The Teacher of Mathematics Scholarship is awarded to teachers of high school mathematics who are interested in obtaining a graduate degree in mathematics (MS, MA, or MAT) at UNO for the purpose of becoming eligible to teach UNO Calculus Dual Enrollment courses. These scholarships are awarded to teachers in school districts that are participating in the Dual Enrollment program. They will provide for the reimbursement of resident tuition for up to six graduate credit hours per semester for one year. No scholarship award becomes final until UNO graduate admission status is obtained. Continuation beyond the first year depends upon satisfactory academic progress and funds available. For further information contact Dr. Janice Rech.
Admissions

Application Deadlines

Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements

- Have obtained at least a “B” (3.0 on a 4.0 scale) average in previous mathematics courses, including two courses beyond elementary calculus.
- Hold state certification for teaching secondary school mathematics

Education Courses

Graduate only courses TED 8xx0 to be selected in consultation with your advisor 9

Mathematic Sequences

Complete two advisor approved Mathematics (not MTCH) sequences of courses (total of 18 hours). Each sequence must consist of 3 connected courses (as defined by the MAT advisors). 18

Total Credits 36

1 For example: Applied Modern Algebra, Algebra 1, and Algebra 2. If one of the courses has been taken previously as an undergraduate the course will not count toward the 36 credits, however it will count in terms of completed the three course sequence. Such a situation would in effect enable the MAT student to finish the 3 course sequence quicker and free up 1 class for an elective in mathematics.

Exit Requirements

- Comprehensive Examination
  - Pass the Mathematics comprehensive examination. The examination is offered three times a year; on April 15, July 15, and November 15th (or the proceeding Friday if any of these dates falls on a weekend). The Mathematics exam is three hours in length and covers the terminal course of each of the 2 Math sequence of courses. Each course instructor will write a 1.5 hour exam and grade the exam as pass or fail. To pass the overall MAT mathematics portion comprehensive exam, the student must pass both.

Mathematics, MS

Department of Mathematics, College of Arts & Sciences

Vision Statement

The Master of Science in Mathematics is designed to achieve two objectives:

- Provide a strong program of course work in mathematics beyond the undergraduate level and
- Be flexible enough to accommodate a wide variety of student interests and backgrounds. There are no required courses in the program, but students are strongly encouraged to develop an emphasis in the courses which make up their individual plan of study; such an emphasis provides both focus and depth in the graduate experience.

Whatever their objectives in their graduate programs, students should form a close working relationship with a faculty member having similar mathematical interests as soon as possible. This will ensure good advice in planning a coherent plan of study. In addition, an advisor may be able to suggest special topics courses, independent study, or the thesis option which could all be used to pursue one’s interests in greater depth. Finally, students who plan to pursue a doctoral degree in mathematics should include a sequence in analysis and a sequence in algebra in their plans of study.

Admissions

Application Deadlines

• Fall: July 31
• Spring: November 30
• Summer: April 15

Program-Specific Requirements

For unconditional admission, an applicant should:

1. Have completed a bachelor’s degree with a grade point average of at least 3.0 in mathematics courses taken.
2. Have completed 15 credit hours of mathematics courses beyond calculus, including MATH 3230/MATH 8235 or equivalent.
3. Students lacking the 15 credit hours beyond calculus may be eligible for admission in a provisional or unclassified status with a deficiency to be made up in addition to the degree requirements listed.
4. Students who satisfy the admission requirements in (1) above except for the GPA requirement may be granted provisional admission to the graduate program. They will be granted unconditional admission upon completion of 12 graduate hours with a grade of “B” or better in each course.
5. International applicants must satisfy the Graduate College’s English Proficiency Examination Requirement. While individual programs may require a higher score, the UNO Graduate Council has set a minimum score for admission to graduate studies of 550 written TOEFL, 80 internet-based TOEFL, 6.5 IELTS, or 53 PTE, with no exceptions to this policy.

Degree Requirements

Required Courses

There are no required courses. Choose mathematics courses with a MATH or STAT prefix numbered 8000 or above and ending in the digit zero or six, excluding MATH 8880. At least eighteen of these hours must be in courses
with a number ending in a zero digit. These eighteen hours may include three hours of independent study, MATH 8970. Courses numbered 8xx5 will not count towards the MS degree in Mathematics.

If the project option is chosen, the six required hours of MATH 8960 or STAT 8960 will count towards the overall credit hour total, and the required eighteen hours of courses ending in a zero digit.

If a student chooses to add a concentration to their degree program (see below) then there will be specific courses that will be needed to be completed to fulfill the concentration requirements.

Electives
Since there are no required courses, all courses are electives which must satisfy the requirements given above for the 36 credit hours. Up to 12 hours of graduate work electives may be taken in areas related to mathematics, physics, computer science, and economics, if permission is obtained from the Graduate Program Committee.

Exit Requirements
Select One:

- **Comprehensive Examination**
  - The comprehensive examination is based on three related courses (one of which must have a number ending in a zero digit) consisting of two parts. The first part is a one-week take-home examination. The second part is a 3-hour examination which may be open book, at the discretion of the instructor(s). The examination is normally taken in the student’s final semester and should be scheduled well in advance of the graduate college deadlines.

- **Project**
  - A mathematical or statistical project undertaken under the supervision of both a faculty advisor and an external (industry) advisory. The purpose of the project is for the student to work on a 'real-world' problem. The student will produce a written report and give an oral presentation of their work. Students are required to register for 6 hours of MATH 8960 or STAT 8960.

Concentrations
Students may choose (although there is no requirement to do so) to add a concentration to their Mathematics MS degree. There are currently four available concentrations:

Mathematics, MS with Computational Mathematics Concentration
Mathematics, MS with Data Science Concentration
Mathematics, MS with Operations Research Concentration
Mathematics, MS with Statistics Concentration

Total Credit Hours: 36

Concentrations
Courses numbered 8-5 will not count towards the MS degree in Mathematics.

**Computational Mathematics Concentration**

Electives
Select one of the following (see below):

For students choosing the comprehensive exam option, at least 21 credit hours of courses related to operations research.

For students choosing the project option, at least 15 credit hours of courses related to operations research and 6 credit hours of MATH 8960.

Total Credits 36

1 Students who were undergraduates at UNO and took MATH 4740 or MATH 4750 may not take MATH 8746 or MATH 8756. For those students who can demonstrate previous statistical exposure can appeal to the graduate program chair to waive the MATH 8746/MATH 8756 requirements. Students can replace these requirements with additional elective courses.

2 Students who were undergraduates at UNO and took STAT 4410, STAT 4420, or MATH 4300 may not take STAT 8416, STAT 8426, or MATH 8306 at the graduate level. Students can replace these requirements with additional elective courses.

3 If any of the introductory or core course requirements were waived, then additional electives should be taken in their place. Other elective courses may be possible with the prior permission of the graduate program chair.

4 Students who were undergraduates at UNO and took MATH 4310, STAT 4430, or STAT 4440 may not take MATH 8316, STAT 8436, or STAT 8446 at the graduate level.

Electives
For students choosing the comprehensive exam option, at least 21 credit hours of courses related to operations research.

For students choosing the project option, at least 15 credit hours of courses related to operations research.

Students must have at least 18 hours of courses ending on 0, including the core courses and, for those choosing the project option, the 6 hours of project, MATH 8960.

Some suggested courses are provided below. Other elective courses may be possible with the prior permission of the graduate program chair.

If any of the core course requirements were waived, then additional electives should be taken in their place.

Comprehensive Examination or

**MATH/STAT 8960**  **MASTER’S PROJECT**  **6**

The comprehensive examination is based on three related courses (one of which must have a number ending in a zero digit) consisting of two parts. The first part is a one-week take-home examination. The second part is a 3-hour examination which may be open book, at the discretion of the instructor(s). The examination is normally taken in the student’s final semester and should be scheduled well in advance of the graduate college deadlines.

A project undertaken under the supervision of both a faculty advisor and an external (industry) advisory. The purpose of the project is for the student to work on a ‘real-world’ problem using the skills learned during their coursework. The student will produce a written report and give an oral presentation of their work. Students are required to register for 6 hours of MATH 8960.

**Music, MM**

**School of Music, College of Communication, Fine Arts & Media**

**Vision Statement**

The Master of Music degree at the University of Nebraska at Omaha is divided into three concentrations: Music Education, Music Performance, and Conducting. The Music Performance concentration is a thirty-hour program that emphasizes performance and applied music. Courses dealing with history, theory, and pedagogy (as they relate to performance) are included, and opportunities for internships and performances in local professional organizations such as Opera Omaha and the Omaha Symphony are enjoyed by students at UNO. The Music Education concentration is available in both a thirty-hour thesis and thirty-six hour non-thesis option. Music Education graduate courses emphasize pedagogy and practical application of music skills and research for teachers at all levels. The Conducting concentration is a thirty-hour program that
emphasizes individualized instruction in conducting and maximizes experiences in front of an ensemble. Courses in music history, literature, and theory supplement the practical experience to help produce well-rounded graduates with considerable knowledge of techniques and literature.

Admissions
Application Deadlines
- Fall: June 15
- Spring: November 15
- Summer: April 15

Program-Specific Requirements
- Resume
- Student must have an undergraduate degree in music from an accredited institution and have an undergraduate cumulative GPA of 3.0 or a GPA of 3.0 or better in all music courses.
- If the student does not have an undergraduate degree in music, the student must take the School of Music Graduate Diagnostic Exam before enrolling in any graduate courses in order to determine which undergraduate foundation courses may be necessary.
- An audition for a panel of three graduate faculty members is required for all applicants wishing to pursue either the Performance or Conducting concentration.

Degree Requirements
Student must select an area of concentration.

MUS 8980 RECITAL 6

Total Credits 30

Exit Requirements
All students must take final comprehensive examinations. Students can take comprehensive exams before the semester in which they intend to graduate; however, all required coursework in the program must be completed. The
exception is if a student has not completed one required course and is enrolled in that course during the semester in which they are taking their comprehensive exams. Comprehensive exams will be offered three times during the course of the year—Fall, Spring and Summer. Normally the exams are administered on the last Saturday of October or first Saturday in November (Fall Semester), the last Saturday of March or first Saturday in April (Spring Semester), and the last Friday of June or the first Friday of July (Summer Term).

**MUS 815A BASSOON (1-3 credits)**

This course, applied cello, is intended for private study of the double bass at the university graduate level.

**Prerequisite(s)/Corequisite(s):** An audition is required of all students registering for three hours of study and declaring cello as their major instrument.

**MUS 815C APPLIED CLARINET (1-3 credits)**

This course consists of advanced private study in applied clarinet. This course is intended for Master of Music candidates.

**Prerequisite(s)/Corequisite(s):** Permission and audition consisting of excerpts of advanced études or solos such as Rose, Cavallini, von Weber, Brahms, Poulenc, Debussy, Hindemith, Copland or Stravinsky.

**MUS 815D DOUBLE BASS (1-3 credits)**

This course, applied bass, is intended for private study of the double bass at the university graduate level.

**Prerequisite(s)/Corequisite(s):** An audition is required of all students registering for three hours of study and declaring bass as their major instrument.

**MUS 815E EUPHONIUM (1-3 credits)**

This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors), two credit hours (music education majors), or three credit hours (music performance majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

**Prerequisite(s)/Corequisite(s):** Enrollment in this course requires an audition performed for and approved by the windwood faculty, or successful completion of at least 1 credit of 815N. Students enrolled in this course must also enroll in an instrumental ensemble.

**MUS 815L PIANO (1-3 credits)**

**MUS 815M PIPE ORGAN (1-3 credits)**

**MUS 815N SAXOPHONE (1-3 credits)**

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors), two credit hours (music education majors), or three credit hours (music performance majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

**Prerequisite(s)/Corequisite(s):** Enrollment in this course requires an audition performed for and approved by the windwood faculty, or successful completion of at least 1 credit of 815N. Students enrolled in this course must also enroll in an instrumental ensemble.

**MUS 815O APPLIED TROMBONE (1-3 credits)**

Applied lessons are scheduled to meet weekly for 1/2 hour (one credit hour), 1 hour (two credit hours) or 1 & 1/2 hours (three credit hours). Students are evaluated at each lesson on their musical and technical progress.

**Prerequisite(s)/Corequisite(s):** Students can enroll in this course following a successful audition performed for and approved by the Brass Faculty. Students enrolled in applied music must also enroll in an ensemble. A lab fee is required.

**MUS 815P TRUMPET (1-3 credits)**

**MUS 815Q TUBA (1-3 credits)**

**MUS 815R VIOLA (1-3 credits)**

This course, applied viola, is intended for private study of the double bass at the university graduate level.

**Prerequisite(s)/Corequisite(s):** An audition is required of all students registering for three hours of study and declaring viola as their major instrument.

**MUS 815S VIOLIN (1-3 credits)**

This course, applied violin, is intended for private study of the double bass at the university graduate level.

**MUS 815T VOICE (1-3 credits)**

**MUS 815U BARITONE HORN (1-3 credits)**

**MUS 8006 SPECIAL STUDIES IN MUSIC (1-3 credits)**

Seminars or workshops in Theory, History, Performance, and Music Education designed to meet specific interests and needs of students. Topics and number of credits for each specific offering will be announced during the prior semester. (Cross-listed with MUS 4000).

**Prerequisite(s)/Corequisite(s):** Graduate and permission of department.

**MUS 8160 PERFORMING ENSEMBLES (0-1 credits)**

This course is designed to provide high quality performance experience for the graduate level string, voice and instrumental students. In addition to the series concerts on campus, there are frequent appearances at professional music conferences and community/statewide events. Students will be exposed to a wide variety of music from appropriate style periods.

**Prerequisite(s)/Corequisite(s):** Graduate standing, audition. Not open to non-degree graduate students.

**MUS 8406 ADVANCED COMPOSITION (3 credits)**

Individualized applied study of the craft of musical composition in larger media and various styles.

**MUS 8446 MUSIC SINCE 1945 (3 credits)**

This course covers important developments in music in the United States and Europe since 1945. The purpose of the course is to familiarize students with the issues, techniques, composers and literature found in this period. (Cross-listed with MUS 4440).

**Prerequisite(s)/Corequisite(s):** Graduate standing or permission of the instructor.
MUS 8460 MUSIC ANALYSIS FOR PERFORMANCE (3 credits)
The study of performance practice and music analysis.
Prerequisite(s)/Corequisite(s): Graduate.

MUS 8476 COUNTERPOINT (3 credits)
Counterpoint will deal with topics of species counterpoint. Emphasis will be on masterpieces of the literature and study will be through analysis and composition. (Cross-listed with MUS 4470).
Prerequisite(s)/Corequisite(s): Completion of MUS 2420 with a C or better, or permission by instructor.

MUS 8520 MUSIC BIBLIOGRAPHY (3 credits)
This course includes a study of music reference and research materials. Basic procedures and tools of investigative studies are treated, culminating in a research project.
Prerequisite(s)/Corequisite(s): Graduate and permission.

MUS 8536 HISTORY OF OPERA (3 credits)
This course will consist of significant music theater works in the Western world from 1600 to the present. (Cross-listed with MUS 4530).
Prerequisite(s)/Corequisite(s): Junior standing.

MUS 8546 RENAISSANCE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature c. 1350-1600. (Cross-listed with MUS 4540).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8556 BAROQUE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1600-1750. (Cross-listed with MUS 4550).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8566 CLASSICAL MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1750-1815. (Cross-listed with MUS 4560).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8576 ROMANTIC MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of Music literature from c. 1815-1912. (Cross-listed with MUS 4570).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560 and graduate.

MUS 8586 MUSIC FROM 1900 - 1945 (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from the post-romantic period to 1945. The objective will be to provide the student with a broad overview with special attention given to composers and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live, film and/or television performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 4850).
Prerequisite(s)/Corequisite(s): MUS 2560.

MUS 8606 PIANO PEDAGOGY (3 credits)
This course is designed for piano majors and private music teachers in "how to teach piano," from the beginning stages through elementary and advanced levels. Procedures of instruction, basic principles of technique and materials used in teaching piano are covered. (Cross-listed with MUS 4600).
Prerequisite(s)/Corequisite(s): Permission of instructor.

MUS 8610 ORGANIZATION AND ADMINISTRATION IN MUSIC (3 credits)
Course is designed to acquaint students with the knowledge and concepts necessary for understanding and developing music education programs in the public schools and specific knowledge pertaining to policies and procedures for administering and supervising programs of music education.

MUS 8616 VOICE PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of the vocal mechanism and of the various techniques used in developing the "singing" voice. Also, it will apply knowledge acquired about the voice through studio teaching and observations of other voice teachers. (Cross-listed with MUS 4610).
Prerequisite(s)/Corequisite(s): MUS 815T or permission of instructor.

MUS 8630 RESEARCH IN MUSIC EDUCATION (3 credits)
A study of research techniques and literature in music and music education toward the objectives of reading and evaluating music education research and doing independent work in the area.
Prerequisite(s)/Corequisite(s): Graduate standing in the UNO School of Music.

MUS 8640 FOUNDATIONS OF MUSIC EDUCATION (3 credits)
A study of psychological and historical backgrounds of music education through attention to relevant topics in the psychology of music and learning theory and through relevant readings in the history of music education as well as sociological trends in American schools.
Prerequisite(s)/Corequisite(s): Graduate.

MUS 8660 PEDAGOGY OF MUSIC THEORY (3 credits)
Designed to introduce teachers to the techniques and problems of teaching music theory in elementary and secondary schools and colleges. This will be accomplished through a variety of methods to include a review of texts, teaching, and research.
Prerequisite(s)/Corequisite(s): Acceptance to the graduate program in music.

MUS 8670 KODALY I: METHODOLOGY (3 credits)
This course provides strategies for teaching music based on the philosophies and practices of musician-composer-educator Zoltan Kodály. Level I courses focus specifically on pedagogy, repertoire, and materials for grades prekindergarten through grade 1.

MUS 8680 KODALY II: METHODOLOGY (3 credits)
This course provides strategies for teaching music based on the philosophies and practices of musician-composer-educator Zoltan Kodály. Level I courses focus specifically on pedagogy, repertoire, and materials for grades 2 through grade 4.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 8670.

MUS 8686 PEDAGOGY OF MULTICULTURAL MUSIC (3 credits)
This class will cover the two primary approaches to teaching multicultural music; the world music curriculum and the music in America curriculum. Pedagogical approaches to the case study and the cultural survey will be included. Activities relating to performing and listening to multicultural music are also part of the course. (Cross-listed with MUS 8700).

MUS 8700 CONDUCTING PRACTICUM (3 credits)
Private instruction in conducting and an intense study of the various disciplines in music and their relationship and application to the art of conducting. Course may include a group seminar component. This course may be repeated for credit.
Prerequisite(s)/Corequisite(s): Acceptance into the graduate program for conducting majors. Permission of instructor for performance or music education majors.

MUS 8726 CHORAL LITERATURE (3 credits)
A survey course in the study of significant choral genre of the various periods of musical composition from plain song to contemporary music. This course is intended for senior level students in the K-12 music education track and for students working on a masters degree in music education with emphasis in choral music. (Cross-listed with MUS 4720).
Prerequisite(s)/Corequisite(s): MUS 2570, 3640 and graduate.

MUS 8736 KEYBOARD LITERATURE (3 credits)
Survey and study of major piano repertoire from the Baroque keyboard composers to the 20th century composers. Included are keyboard concertos with orchestra. (Cross-listed with MUS 4730).
Prerequisite(s)/Corequisite(s): Permission of instructor.
MUS 8746 VOICE LITERATURE (3 credits)
This course is a study of the development of art song in Europe and America. Emphasis will be given to German and French song literature and their influences on English and American song. (Cross-listed with MUS 4740)
Prerequisite(s)/Corequisite(s): MUS 815 or permission of graduate instructor.

MUS 8960 KODALY III: METHODOLOGY (3 credits)
This course provides strategies for teaching music based on the philosophies and practices of musician-composer-educator Zoltan Kodaly. Level III courses focus specifically on pedagogy, repertoire, and materials for grades 5-6.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 8680.

MUS 8970 TREATISE (3 credits)
Preparation of a written project about some aspect of the student's recital. Should demonstrate competency in writing and research of appropriate aspects of music. To be taken concurrently or prior to MUS 8980.
Prerequisite(s)/Corequisite(s): A written proposal for the written project must be approved by the appropriate departmental committee.

MUS 8980 RECITAL (3-6 credits)
This course involves the selection, preparation and public performance of a full recital in the student's major applied area. The recital should demonstrate the student's competency in a variety of styles and make advanced technical and interpretative demands. The course also includes a written project on the music performed at the recital. A full public recital and related written project as approved by the appropriate departmental committee is a graduation requirement for masters-level students in the performance track. Method of grading will be a designation of "satisfactory" or "unsatisfactory".
Prerequisite(s)/Corequisite(s): A written proposal for the recital and related written project must be approved by the appropriate departmental committee.

MUS 8990 THESIS (3 credits)
The purpose of this course is to allow graduate students in Music Education (Option I) to develop a substantive thesis which employs and mirrors research or original thought of a quality and quantity appropriate to advanced work in music education. This course will be handled on an individual study basis with aid and consultation from a faculty thesis adviser and thesis committee. Method of grading will be a designation of "satisfactory" or "unsatisfactory".
Prerequisite(s)/Corequisite(s): Permission of Graduate Committee and twenty-four (24) hours of graduate course work completed.

PSCI 8005 QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE (3 credits)
This course introduces students to the techniques that political scientists use to answer research questions with quantitative data, as well as issues of research design, hypothesis formation, and causation. The course emphasizes the methods used to collect, analyze, and extract information from data using statistical computer software. (Cross-listed with PSCI 3000)
Prerequisite(s)/Corequisite(s): PSCI 2000 or permission of instructor.

PSCI 8015 URBAN POLITICS (3 credits)
This course introduces students to the development, powers, forms of government, and functions of cities and their suburbs as well as the problems faced by elected officials, business and community leaders, and citizens in the urban setting. (Cross-listed with PSCI 3010)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8026 THE PRESIDENCY (3 credits)
This course introduces students to the development and modern application of presidential leadership through examination of presidential selection, presidential decision-making, the relationship of the presidency with other governmental and non-governmental actors, and the role of the presidency in making public policy. (Cross-listed with PSCI 4030)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8040 SEMINAR IN AMERICAN GOVERNMENT AND POLITICS (3 credits)
This course introduces students to classic and contemporary scholarship on the principles, institutions, processes, and policies of national government in the United States with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser

PSCI 8045 GOVERNMENT AND POLITICS OF NEBRASKA (3 credits)
This course introduces students to the development, structures, functions and public policies of the government of the state of Nebraska. (Cross-listed with PSCI 3040)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8046 CONGRESS AND THE LEGISLATIVE PROCESS (3 credits)
This course introduces students to the development of the Congress and modern application of the legislative process through examination of congressional elections, congressional leadership, congressional decision-making, legislative rules and procedures, the relationship of the Congress with other governmental and non-governmental actors, and the role of the Congress in making public policy. (Cross-listed with PSCI 4040)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8055 STATE GOVERNMENT AND POLITICS (3 credits)
This course introduces students to the development, structures, functions and public policies of states. (Cross-listed with PSCI 3050)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8056 THE JUDICIAL PROCESS (3 credits)
This course introduces students to the administration of law in federal and state courts with respect to the organization of the courts, judicial selection, judicial powers, judicial decision-making, judicial policy-making, the bar, and reform movements in the pursuit of justice. (Cross-listed with PSCI 4050)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 8100 SEMINAR IN POLITICAL ECONOMY (3 credits)
A comprehensive study of theories of political economy, linkages between politics and economics, and major contemporary issues.
Prerequisite(s)/Corequisite(s): Permission of the graduate adviser

PSCI 8105 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 3100, WGST 3100, WGST 8105)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
PSCI 8116 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSYC 4110, PSYC 8116)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8120 SEMINAR IN LEADERSHIP (3 credits)
This course introduces students to classical and contemporary scholarship on leadership theory, research, and application. Students gain a foundation in models of leadership, assess their own leadership styles, and learn to integrate what they learn in corporate, governmental, non-profit, or community organizations. (Cross-listed with CACT 8510)
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

PSCI 8126 PUBLIC OPINION AND POLLING (3 credits)
This course introduces students to the origins, nature, measurement, and consequences of public opinion on policymaking. (Cross-listed with PSCI 4120)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8135 WOMEN AND POLITICS (3 credits)
This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, WGST 3130, WGST 8135)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8145 LATINO/A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 3140, LLS 3140, LLS 8145)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8146 CONSTITUTIONAL LAW: CIVIL RIGHTS (3 credits)
This course introduces students to the history, principles, and judicial interpretation of key constitutional provisions and federal statutes regarding civil rights in the United States. (Cross-listed with PSCI 4140)
Prerequisite(s)/Corequisite(s): PSCI 1100 or equivalent.

PSCI 8150 SEMINAR IN CONSTITUTIONAL LAW (3 credits)
This course introduces students to the Constitution and the Supreme Court's exercise of judicial review in relation to governmental powers, civil rights, and civil liberties.
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8165 POLITICAL PARTIES (3 credits)
This course introduces students to the origin, development, structure, and functions of political parties in the United States as political organizations, coalitions of voters, and governing coalitions that seek to hold office and influence public policy. (Cross-listed with PSCI 3160)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8175 INTEREST GROUPS (3 credits)
This course introduces students to the theories, formation, organization, and activities of interest groups and their impact on public policy, particularly through their role in campaigns and elections and lobbying. (Cross-listed with PSCI 3170)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8176 CONSTITUTIONAL LAW: FOUNDATIONS (3 credits)
This course introduces students to the principles, design and operation of the American constitutional system with emphasis on analysis of the Declaration of Independence, the Articles of Confederation, the proceedings of the Constitutional Convention, and the Federalist Papers. (Cross-listed with PSCI 4170)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 8185 CAMPAIGNS AND ELECTIONS (3 credits)
This course introduces students to the evolution and modern application of campaigns and elections in the United States through examination of campaign management and campaign strategy in congressional and presidential elections. (Cross-listed with PSCI 3180)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8186 CONSTITUTIONAL LAW: THE FEDERAL SYSTEM (3 credits)
This course introduces students to American constitutional law as it relates to issues of federalism, the relation of the nation and the states, and separation of powers, the relation of the three branches of the national government. (Cross-listed with PSCI 4180)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8196 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3 credits)
This course introduces students to the philosophy, history, and development of the personal liberties guaranteed by the Constitution including freedom of speech, religion, assembly, petition, and the right of privacy, primarily through examination of Supreme Court decisions. (Cross-listed with PSCI 4190)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8200 SEMINAR IN FOREIGN POLICY AND NATIONAL SECURITY (3 credits)
This course introduces students to classic and contemporary scholarship on the formulation and implementation of foreign and national security policy in the United States with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of the graduate adviser.

PSCI 8206 INTERNATIONAL RELATIONS OF EAST ASIA (3 credits)
This course introduces students to the international politics of East Asia with an emphasis on the contemporary relations among major East Asian states (China, Japan, the Korean peninsula) and the United States. (Cross-listed with PSCI 4200)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8216 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3 credits)
This course focuses on the international politics of the Middle East region, specifically looking at conditions for peace and causes of war. It examines how the international system, domestic politics, ideologies, and leaders influence international politics in the Middle East. (Cross-listed with PSCI 4210)
Prerequisite(s)/Corequisite(s): PSCI 2210 is recommended.

PSCI 8225 INTERNATIONAL ORGANIZATIONS (3 credits)
This course introduces students to the history, principles, structures, and processes developed to organize and legitimize peaceful reconciliation of the differences of nation-states and to advance their mutual interests in the contemporary global political and economic system. (Cross-listed with PSCI 3220)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8235 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, WGST 3230, WGST 8235)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.
PSCI 8245 THE POLITICS AND PRACTICE OF HUMAN RIGHTS (3 credits)
This course introduces students to human rights issues across the globe and explores the theoretical foundations of human rights as well as human rights institutions and transitional justice. (Cross-listed with PSCI 3240)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8246 INTERNATIONAL CONFLICT RESOLUTION (3 credits)
This course introduces students to different approaches to peace, their basic assumptions, and their application to current conflicts. (Cross-listed with PSCI 4240)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8250 SEMINAR IN INTERNATIONAL RELATIONS (3 credits)
This course introduces students to classic and contemporary scholarship on the issues, theories, and methodological approaches associated with the study of the nation-state system, international law, international organizations, international security, and globalization.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser

PSCI 8255 GLOBAL SECURITY ISSUES (3 credits)
This course introduces students to issues of national and international security that cross boundaries and threaten all countries including issues such as climate change, environmental deterioration, population and demographics, gender issues, disease and public health, the media, asymmetrical warfare, drugs/organized crime, and cyberthreats. (Cross-listed with PSCI 3250)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8256 INTELLIGENCE AND NATIONAL SECURITY (3 credits)
This course introduces students to the United States intelligence services, and their relation to broader U.S. national security policy. (Cross-listed with PSCI 4250)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8265 UNITED STATES FOREIGN POLICY (3 credits)
This course introduces students to the analysis of foreign and defense policy processes in the United States, including the role of the President, Congress, Departments of State and Defense, the intelligence community, and other actors/factors affecting policy formulation and implementation. (Cross-listed with PSCI 4260)
Prerequisite(s)/Corequisite(s): PSCI 2210.

PSCI 8266 INTERNATIONAL LAW (3 credits)
The course introduces students to the general principles of international law, including the key actors, the creation and sources of international law, the interpretation of international law by courts and tribunals, and its enforcement. (Cross-listed with PSCI 4260)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8276 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with ENVN 4270, PSCI 4270)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8286 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional institutional and ideological environment, power relations, policies, and contemporary problems. (Cross-listed with PSCI 4280, LLS 4280, LLS 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8296 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 4290, CACT 8306)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8300 SEMINAR IN POLITICAL THEORY (3 credits)
This course introduces students to the history of political theory, from its origins in ancient Greece to its manifestations in contemporary thought. (Cross-listed with CACT 8200)
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8316 CLASSICAL POLITICAL THEORY (3 credits)
This course introduces students to key works representative of premodern political philosophy. Authors examined may include Plato, Aristotle, Xenophon, Cicero, Augustine, and Aquinas. (Cross-listed with PSCI 4310)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8326 EARLY MODERN POLITICAL THEORY (3 credits)
This course introduces students to key works of the 16th through mid-18th centuries. Authors examined may include Machiavelli, Hobbes, Hume, Smith and Montesquieu. (Cross-listed with PSCI 4320)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8336 LATE MODERN POLITICAL THEORY (3 credits)
This course introduces students to key texts of the mid-18th through 19th centuries. Authors to be examined may include Rousseau, Burke, Mill, Tocqueville, Marx, and Nietzsche. (Cross-listed with PSCI 4330)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8345 AMERICAN POLITICAL THOUGHT (3 credits)
This course introduces students to the ideals, ideologies, identities, and institutions of American political thought from the country’s origins to the present. Topics to be covered may include the political thought of the early American settlers and of the founding generation, the debates over the creation and implementation of the Constitution, the 19th century arguments over slavery, the rise of progressivism, the New Deal and its critics, and contemporary American conservatism and liberalism. (Cross-listed with PSCI 3340)
Prerequisite(s)/Corequisite(s): PSCI 2310 is recommended.

PSCI 8346 CONTEMPORARY POLITICAL THEORY (3 credits)
This course introduces students to leading works of contemporary political philosophy including Marx, Spencer, Dahl, Rawls, feminism, and rational choice. The theories, their interrelationships, the theorists, and the manifestations of these works will be discussed and analyzed. (Cross-listed with PSCI 4340)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8356 DEMOCRACY (3 credits)
A basic study of theory, practice and practitioners of political democracy, its roots, development, present application and problems and future. (Cross-listed with PSCI 4350)
PSCI 8500 SEMINAR IN COMPARATIVE POLITICS (3 credits)
This course introduces students to classic and contemporary scholarship on the issues, theories, and methodological approaches associated with the systematic and comparative study of nation-states and their political systems with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

PSCI 8505 EUROPEAN POLITICS (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Europe, including the European Union. (Cross-listed with PSCI 3500)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8506 GOVERNMENT AND POLITICS OF GREAT BRITAIN (3 credits)
A comprehensive study of British politics and government. Emphasis will be focused on the formal institutions and informal customs and practices of the British political system. (This course satisfies the department’s comparative politics requirement). (Cross-listed with PSCI 4500)

PSCI 8526 POLITICS OF FRANCE (3 credits)
This course introduces students to the political heritage of France, contemporary political institutions and problems, and political and policy responses to these problems. (Cross-listed with PSCI 4520)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.

PSCI 8585 GOVERNMENT AND POLITICS OF RUSSIA AND THE POST-SOVIET STATES (3 credits)
This course introduces students to the political cultures, institutions, processes, and public policies of Russia and the states of the former Soviet Union. (Cross-listed with PSCI 3580)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8626 ISLAM AND POLITICS (3 credits)
This course introduces students to the interaction between religion and politics in the Muslim world, covering various political ideologies in the Muslim world and different experiences of Muslim-majority countries such as Saudi Arabia, Pakistan, Iran, Turkey, Indonesia, and Egypt. It will also analyze mainstream and radical transnational Islamic movements. (Cross-listed with PSCI 4620)
Prerequisite(s)/Corequisite(s): PSCI 2210 or 2500 is recommended.

PSCI 8645 GOVERNMENT AND POLITICS OF CHINA AND EAST ASIA (3 credits)
This course introduces students to the political cultures, institutions, processes, policies, and other characteristics of China and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 3640)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8685 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with PSCI 3680, LLS 3680, LLS 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8705 GOVERNMENT AND POLITICS OF THE MIDDLE EAST (3 credits)
This course introduces students to government and politics in the contemporary Middle East, including considerations of state formation, authoritarianism and democratization, state-society relations, religion, culture, gender, and economy. (Cross-listed with PSCI 3700)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.

PSCI 8826 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with JMC 4820, JMC 8826, PSCI 4820)

PSCI 8900 READINGS IN POLITICAL SCIENCE (1-3 credits)
This course provides students an opportunity to study an advanced and specialized subject matter in the field of political science not covered in existing courses. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

PSCI 8910 POLITICAL SCIENCE INTERNSHIP (3 credits)
This course offers students an opportunity to experience the resolution of public issues through direct involvement in career-oriented policy organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PSCI 8920 SEMINAR IN SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of twelve credit hours.
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8926 ADVANCED SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with PSCI 4920)

PSCI 8980 RESEARCH IN POLITICAL SCIENCE (3 credits)
This course provides students an opportunity to conduct research in a specialized subject matter in the field of political science. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser, not open to non-degree graduate students.

PSCI 8990 THESIS (3-6 credits)
A research project, written under the supervision of a graduate adviser in the Department of Political Science, in which the students establish their capacity to design, conduct and complete an original, independent, scholarly investigation of a high order. The research topic and the completed project must be approved by the student's departmental committee.
Prerequisite(s)/Corequisite(s): Permission of graduate program chair. Not open to non-degree graduate students.

Political Science, MS
Department of Political Science, College of Arts & Sciences

Vision Statement
The Department of Political Science’s vision is to provide quality research, teaching, and service for our students, community, and academic field in order to produce qualified individuals and advanced knowledge to benefit communities regionally, nationally, and internationally. UNO is recognized by the Carnegie Foundation for the Advancement of Teaching as a doctoral and research institution. We value diversity among faculty, staff, and students and recognize its essential contribution to campus culture and development of knowledge. The Master of Science in Political Science offers a broad foundation in the discipline with a high degree of interdisciplinary collaboration, if desired. Some students enter the program
with the intention of continuing on with their PhD, while others use the program to prepare themselves as practitioners in the fields of education, government, intelligence, law, journalism, non-profit, or lobbying. Students can earn the degree completely online, on-campus, or blended (on-line/on-campus).

Other Program-Related Information

Alternative Delivery

1. The University of Nebraska at Omaha Department of Political Science offers a program to earn a Master’s Degree for which all courses can be taken online. Many of our students are mid-career professionals seeking a better understanding of the subject matter from fields such as: education, military, and public service. Others are more traditional students who intend to continue onto a PhD. Our program has been in place since 1969 and we currently have over 80 active students. There are several advantages to UNO’s Online Master’s of Science in Political Science (PSCI):

   • High-quality curriculum from a distinguished university. UNO is one of 88 institutions of higher education nationally classified as a doctoral/research university, according to the Carnegie Foundation for the Advancement of Teaching—out of the 4000 academic institutions it categorizes. In addition, UNO received a first-tier regional best ranking in the U.S. News & World Report’s 2010 edition of America’s Best Colleges.

   • Low tuition from a convenient, accessible location—your computer. Students can select courses that are taught entirely online. It is very rare for our courses to have specific times in which you are required to be online.

   • The UNO PSCI Master’s program affords its students an environment that serves as an incubator for acquiring the skills necessary for students’ desired careers, and for developing a self-understanding that will enable students to succeed both professionally and personally. Students are assured of a high-quality degree program that not only meets but exceeds national standards of education in political science.

   • Our Flexibility: our program offers the maximum possible flexibility to tailor an area of specialization. This flexibility encourages students to create an approved program of study that incorporates interests in other disciplines, such as communications, criminal justice, economics, geography, history, psychology, public administration, social work, sociology, teacher education, and urban studies. We accept up to 10 hours of graduate-level transfer credit, graded at a B or above, from another accredited institution that has not been applied towards another degree or completed program. In addition, students can apply up to 12 approved elective credit hours of courses outside the field of political science.

3+2 Program
The Political Science Department has developed a program through which high caliber UNO undergraduate students can obtain a joint Bachelor of Arts or Bachelor of Science and a Master of Science in Political Science within a five-year period. During this program, students complete 4 of their 5 upper-level PSCI required courses as a graduate student. These 4 courses (12 credit hours) will count towards their undergraduate major requirement as well as their graduate electives. These 4 courses will be spread out between their junior and senior years. Students must graduate with their BA/BS before starting their graduate-only seminars.

1. Student must be an undergraduate student at UNO majoring in Political Science.
2. Student must have a GPA of 3.5 or above.
3. Must have at least sophomore status when applying.
4. Student must apply to the program (specifying that they are applying as a 3+2 student) and provide all supplemental materials.

It is highly recommended that students take 2.3 (3000/4000) level Political Science courses before beginning their graduate-level courses.

At this time this program is only applicable to on-campus students. Please inquire with the Political Science Department for more information about this program.

Outstanding Teaching
Our faculty regularly wins campus and system-wide teaching awards, making us one of the most recognized departments on campus. The awards earned are among the highest honors that UNO bestows on its faculty.

• Our faculty utilize active and service-learning teaching strategies; multiple assessment tools; participate in extended education on improving teaching and learning; and publish research on pedagogy.

• For many years we have conducted exit interviews with our graduates. They show very high levels of satisfaction with the quality of instruction, the advising process, the amount of attention paid to students, and the ease with which the students interact with university personnel and procedures.

We have a proven track record of excellence in undergraduate and graduate instruction, and are nationally known for our innovative research on some of the discipline’s most important questions.

Admissions

Application Deadlines

• Fall: June 15 (February 15 if interested in scholarship or graduate assistantship)

• Spring: October 15 (September 15 if interested in scholarship or graduate assistantship)

• Summer: March 15

Program Specific Requirements

• Baccalaureate degree with a minimum of 3.0 GPA

• 15 credit hours in political science-related courses is preferred. Courses can be in: American government, political theory, international relations, comparative politics, and social science (quantitative) methodology. Students without the above undergraduate background may be admitted on a provisional basis to address these educational gaps. Students must earn a grade of B or above in each of these courses.

• Two (2) Letters of Recommendation from a former professor, supervisor, or individual that can speak to one’s academic potential in a graduate program.

• Submission of an academic, research-based writing sample, written in English, of at least five pages in length. If no such paper exists, the applicant should contact the Academic Program Coordinator for an alternative assignment.

• Applicants whom English is not the language of nurture should have a minimum score of 80, internet-based TOEFL, with no sub-score under 15. The IELTS and PTE English proficiency tests are also accepted. Those scores must translate to the minimum internet-based TOEFL equivalent
to be considered for admission. Passing with a minimum score does not guarantee admission into the program.

**Degree Requirements**

**Required Course**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSCI 8000</td>
<td>SEMINAR IN THE RESEARCH METHODS IN POLITICAL SCIENCE</td>
<td>3</td>
</tr>
</tbody>
</table>

Each student is required to complete PSCI 8000: Seminar in Research Methods. If a student does not have an undergraduate course in statistical analysis or quantitative methods (where he/she earned a B or above); he/she will be required to take a provisional undergraduate course before taking this required seminar.

**Seminar Course Requirement (9-12 hours)**

Thesis students must complete nine (9) credit hours and non-thesis students must complete twelve (12) credit hours from the following core seminar courses. Not all seminars will be offered every term. Seminars may also only be available online or on-campus during specific terms. At times there may be a special topics seminar course offered that may count towards a student’s core seminars.

A student who does not have sufficient background in one or more of these subfields may be required to take a provisional undergraduate course before taking its equivalent graduate seminar.

**Electives (12 hours)**

Students must complete 12 credit hours of elective course work.

The electives are traditionally PSCI courses ending in 5 or 6, however, electives can be taken outside of the political science department with approval from the graduate chair. The course must be related to political science. Additional seminars may count towards the elective requirement if all seminar requirements are met.

Students who were undergraduate students at UNO cannot take a cross-listed course at the graduate level if they have already taken the course at the undergraduate level.

Students may not count more than 6 credit hours of courses ending in -5 (for example, 8265) towards the completion of their degree.

**Exit Requirements**

All students begin this program as a non-thesis student. Students who would like to complete a thesis may petition to do so after completing 15 credit hours, but at least one term before he/she plans on starting his/her thesis. To petition to change to the thesis track, a student must request an application form, and submit to, the program coordinator during the time specified above. The Graduate Chair will then evaluate whether a thesis track is the best option for the petitioning student. If denied, a student may appeal once in a following term by going through the same process. During a petition, the graduate program committee will review the application.

**Non-Thesis Exit Requirement (3 hours)**

Non-thesis students must take 3 credit hours of a capstone project. They may choose from PSCI 8980 or PSCI 8910.

1. PSCI 8980: students will work with one faculty member on a political science-related topic of their choice and will produce a research-based product at the end of the term.
2. PSCI 8910: students will be hired for a paid or volunteer, approved internship during a specific term. Students must submit the internship approval form before the term, complete 150 hours of documented work, and turn in an end-of-internship assignment documenting their experience as directed by the internship coordinator. Students may not already work for this organization or company. See academic program coordinator for the forms noted above.

**Thesis Exit Requirement (6 hours)**

Students whose thesis applications have been approved by the graduate chair must complete 6 credit hours of thesis work PSCI 8990.

Students must complete the thesis over the course of two terms (three credit hours each term).

The first term of thesis includes the forming of the thesis committee and approval of one’s thesis proposal.

The second three credit hours will focus on writing and defending the thesis.

Students must have a minimum of 3 voting committee members. All committee members must be faculty members with a PhD and employed by UNO. One of the committee members must have a PhD and have graduate faculty status in a field/department other than political science. Distance students may work with a faculty member outside of UNO, however, this member cannot be a voting member on the committee.

Students must follow UNO’s Graduate College’s thesis submission guidelines and ensure that all paperwork has been submitted to the graduate office on time.

**International Affairs Concentration**

Students who are completing the International Affairs concentration as part of their Master’s degree must ensure that 12 out of their required 30 credit hours include the 2 required seminars below and a choice of 2 electives listed below.

**Required Seminars (6 credit hours)**

Global Information Operations Certificate

Departments of Political Science, Computer Science and Religion, College of Arts and Sciences and Information Science and Technology

Vision Statement
The certificate in Global Information Operations is a program designed to meet the need for a broad-based, interdisciplinary understanding of international cultures and related issues in today's global society by graduate students, active duty military and civilian professionals working in the fields of public service, national security, defense policy and intelligence analysis. The program seeks to satisfy varying academic, career, and professional post graduate goals of traditional and non-traditional students that prepare them for their responsibility as active citizens through leadership, participation and employment in diverse environments throughout the nation and the world. At this point in time, this certificate is not offered for online students.

1. Any student who was an undergraduate at UNO cannot take any cross-listed course he/she took while an undergraduate student.

Students must earn a 3.0 GPA or above in these courses to graduate with this certificate.

Students may be required to take provisional courses before their ISQA, CYBR, PSCI, and/or RELI graduate courses. Such requirements are to be determined by the specific department in question.

### Government Certificate

#### Department of Political Science, College of Arts and Sciences

#### Vision Statement

UNO’s Department of Political Science is offering an 18 credit hour Graduate Certificate in Government for educators and other professionals who already have an advanced degree in another field and wish to expand their knowledge in political science. This certificate is designed to help educators meet the new requirements set by the Higher Learning Commission to teach government related courses in institutions of higher education or dual enrollment/concurrent enrollment courses in high schools. This certificate can be earned completely online.

#### Program Contact Information

Kristin Broiyhill, Academic Program Coordinator (APC)

### Admissions

#### Application Deadlines

- Fall: June 15
- Spring: October 15
- Summer: March 15

#### Program Specific Requirements

For students applying to, or who are currently a student in good standing in UNO’s PSCI Program:

- Apply online through the UNO application system
- 3.0 GPA (most recent GPA)

For students applying for this certificate as a stand-alone program:

- Bachelor’s degree and/or Master’s degree related to American government.
- 3.0 GPA (most recent GPA)
- 2 Letters of Recommendation from a former professor, supervisor, or individual that can speak to one’s academic potential in a graduate program
- Official transcripts from all institutions previously attended
- Professional resume
- Applicants whom English is not the language of nurture should have a score of 80, internet-based TOEFL, with no sub-score under 15. The IELTS and PTE English proficiency tests are also accepted. Those scores must translate to the minimum internet-based TOEFL equivalent to be considered for admission. Passing with a minimum score does not guarantee admission into the program.

### Degree Requirements

Students must take a minimum of 2 PSCI seminars and a maximum of 4 PSCI electives. We highly suggest students taking PSCI 8040 and PSCI 8500 if they are dual enrollment/concurrent enrollment educators.

Department of Political Science, College of Arts and Sciences

Intelligence and National Security Certificate

Students must earn a 3.0 GPA or above in these courses to graduate with this certificate.

If a student was an undergraduate student at UNO, he/she cannot take any cross-listed courses he/she took as an undergraduate student.

Vision Statement

The Intelligence and National Security certificate is a program designed to meet the need for an in-depth and critical analysis of US foreign policy and national security by graduate students, active duty military and civilian professionals working in the fields of public service, national security, defense policy and intelligence analysis. The program of study seeks to satisfy varying academic, career, and personal post-graduate goals of traditional and non-traditional students that prepare them for their responsibility as active citizens through leadership, participation and employment in intelligence, military, and foreign relations careers. This certificate can be earned completely online.

Admissions

Application Deadlines
- Fall: June 15
- Spring: October 15
- Summer: March 15

Application Requirements

For students applying to, or who are a current MS-PSCI student in good standing:
- 3.0 GPA (most recent GPA)
- Apply online through the UNO application system

For students applying for this certificate as a stand-alone program:
- Bachelor’s degree and/or Master’s degree with course related to American government
- 3.0 GPA (most recent GPA)
- 2 Letters of Recommendation from a former professor, supervisor, or individual that can speak to one’s academic potential in a graduate program
- Professional resume
- Official transcripts from all institutions previously attended
- Applicants whom English is not the language of nurture should have a score of 80, internet-based TOEFL, with no sub-score under 15. The IELTS and PTE English proficiency tests are also accepted. Those scores must translate to the minimum internet-based TOEFL equivalent to be considered for admission. Passing with a minimum score does not guarantee admission into the program.

Degree Requirements

Required Courses (12 hours)

Any student who was an undergraduate at UNO cannot take any cross-listed course he/she took while an undergraduate student. UNO undergraduates who took PSCI 3260 and/or PSCI 4250 cannot take

Students must earn a 3.0 GPA or above in these courses to graduate with this certificate.

Students who took PSCI 8256 or 8265 at the undergraduate level may not qualify for this program.

**Psychology**

**Degree Programs Offered**

- Psychology, MA (p. 826)
- Psychology, PhD (p. 829)
- Industrial/Organizational Psychology, MS (p. 831)
- School Psychology, MS (p. 832)
- School Psychology, EdS (p. 832)

**Certificates Offered**

- Applied Behavior Analysis Certificate (p. 833)
- Human Resources and Training Certificate (p. 657)

**PSYC 8000 THE PROFESSION OF PSYCHOLOGY (0 credits)**

Required non-credit course for graduate students in psychology. Intended to familiarize the beginning graduate student with the profession of psychology including such topics as ethics, professional organizations, job and educational opportunities, use of reference materials, licensing and certification and other relevant material.

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**PSYC 8016 HISTORY OF PSYCHOLOGY (3 credits)**

A study of the origins, development and nature of psychology and its relation to external events; emphasis on the period since 1875. (Cross-listed with PSYC 4010)

**Prerequisite(s)/Corequisite(s):** Admission to graduate program in Psychology or permission of instructor. Not open to non-degree students or students in other departments or programs.

**PSYC 8060 COMPUTER CONCEPTS IN PSYCHOLOGY AND BEHAVIORAL SCIENCES (3 credits)**

Introductory course emphasizing the applications of computers in the areas of psychology, sociology and education. Includes a functional description of computers and a discussion of programming languages as well as specific uses.

**Prerequisite(s)/Corequisite(s):** PSYC 3130 or equivalent. Not open to non-degree graduate students.

**PSYC 8116 POLITICAL PSYCHOLOGY (3 credits)**

This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSCI 8116, PSYC 4110)

**Prerequisite(s)/Corequisite(s):** PSCI 1100 is recommended.

**PSYC 8140 NONPARAMETRIC STATISTICS (3 credits)**

Study of distribution-free statistics with particular emphasis on application of distribution-free tests to research problems in social behavioral sciences.

**Prerequisite(s)/Corequisite(s):** PSYC 3130 or equivalent. Not open to non-degree graduate students.

**PSYC 8250 FAMILY ANALYSIS AND TREATMENT (3 credits)**

This courses covers theories and techniques for family therapy, with special reference to adopting individual and group therapeutic, as well as consultation, principles for family interventions. Case analyses and evaluation methods are considered.

**Prerequisite(s)/Corequisite(s):** Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

**PSYC 8256 LIMITS OF CONSCIOUSNESS (3 credits)**

A course focusing on the scientific study of the psychology, neurology, and philosophy of mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 4250, PHIL 3250)

**Prerequisite(s)/Corequisite(s):** PSYC 1010. Not open to non-degree graduate students.

**PSYC 8276 ANIMAL BEHAVIOR (3 credits)**

Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. Lecture only. (Cross-listed with PSYC 4270, BIOL 4270, BIOL 8276)

**Prerequisite(s)/Corequisite(s):** BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

**PSYC 8286 ANIMAL BEHAVIOR LABORATORY (3 credits)**

Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with PSYC 4280, BIOL 4280, BIOL 8286)

**Prerequisite(s)/Corequisite(s):** PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273 and not open to non-degree graduate students.

**PSYC 8316 PSYCHOLOGICAL AND EDUCATIONAL TESTING (3 credits)**

The use of standardized tests in psychology and education is considered with special regard to their construction, reliability and validity. (Cross-listed with PSYC 4310)

**Prerequisite(s)/Corequisite(s):** PSYC 1010 and junior/senior and not open to non-degree graduate students.

**PSYC 8326 HORMONES & BEHAVIOR (3 credits)**

In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with PSYC 4320, BIOL 4320, BIOL 8326)

**Prerequisite(s)/Corequisite(s):** Must be admitted to a graduate level PSYC program or permission of department. Not open to non-degree graduate students.

**PSYC 8336 SOCIAL NEUROSCIENCE (3 credits)**

This course will evaluate the biological substrates of sociality and social behavior, and explore the impact of social environments on brain function and development. Students in the course will explore the molecular, cellular, neurotransmitter, and endocrine influences on social behavior, including affiliative care, aggression, social bonding, altruism, and social cognition. (Cross-listed with NEUR 4330)

**Prerequisite(s)/Corequisite(s):** PSYC 1010, BIOL 1450, and NEUR 1500. Not open to non-degree graduate students.
PSYC 8446 ABNORMAL PSYCHOLOGY (3 credits)
A course designed to examine the aberrant behavior of individuals. Symptoms, dynamics, therapy and prognosis of syndromes are considered. (Cross-listed with PSYC 4440)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 8456 PERSONALITY THEORIES (3 credits)
A comparative approach to the understanding and appreciation of personality theories considering history, assertions, applications, validations and prospects. (Cross-listed with PSYC 4450)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 8476 MENTAL HEALTH AND AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families also are discussed. (Cross-listed with PSYC 4476)
Prerequisite(s)/Corequisite(s): Junior or senior.

PSYC 8500 PROFESSIONAL, LEGAL, AND ETHICAL FOUNDATIONS OF SCHOOL PSYCHOLOGY (3 credits)
This course covers the role description and job activities of a school psychologist, as well as theories, assessment and intervention techniques, certification requirements, employment opportunities, public policy, legislation, and ethics relevant to school psychology. School-based field experiences will also be included in the course.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of dept. Not open to non-degree graduate students.

PSYC 8520 FOUNDATIONS OF ASSESSMENT (3 credits)
Course content covers traditional psychometric concepts (e.g., norms, reliability, validity) and their application to various areas of human behavior that are assessed (e.g., cognitive ability, personality, achievement). Clinical considerations are applied to how assessment information is integrated into a problem-solving process.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8526 PSYCHO/LINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with PSYC 4520)
Prerequisite(s)/Corequisite(s): Permission of instructor and not open to non-degree graduate students.

PSYC 8530 EARLY CHILDHOOD ASSESSMENT (3 credits)
This course is an introduction to the assessment of children during early development including infancy, toddler, preschool and early primary ages. Assessment will be discussed as it relates to problem-solving and data-based decision making (i.e., diagnosis, treatment, program evaluation). Students will learn the principles of working with young children and their families and how these principles will be used in conducting valid and reliable assessments that, in turn, lead to appropriate interventions.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8536 CULTURAL PSYCHOLOGY (3 credits)
This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about "culture" can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals' psychological makeup and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4530, CACT 8106).
Prerequisite(s)/Corequisite(s): Enrollment in MA in Critical & Creative Thinking program or by permission of the instructor.

PSYC 8540 SCHOOL AGE ASSESSMENT (3 credits)
This course covers data-based decision-making as it applies to schools. Students will learn and practice the skills of reviewing records, interviewing, systematically observing, and testing. They will be exposed to the following types of assessments: academic, behavior, curriculum-based, intellectual, social-emotional, and screening measures.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8550 PSYCHOTHERAPEUTIC INTERVENTIONS (3 credits)
This course provides graduate students knowledge in the application of evidence-based therapeutic interventions that can be utilized with children and adolescents in school, home, and family settings. Various approaches and techniques are presented along with supporting research. Observation and participation in clinical cases may be arranged.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8576 BEHAVIOR ANALYSIS AND INTERVENTIONS (3 credits)
Introduction to experimental methodology, rationale and research literature of changing behavior through behavior modification techniques. Particular attention will be paid to methodological concerns regarding single subject design, ethical considerations and ramifications of behavior intervention with children and youth. (Cross-listed with PSYC 4570)
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8590 PSYCHOLOGY OF EXCEPTIONAL CHILDREN (3 credits)
The content of this course will focus on children who are identified as "exceptional"; in terms of behavioral, cognitive, and learning problems. Exceptionality in this sense includes students who are in need of preventative and/or intervention-based services. The topics will be approached from a multidisciplinary perspective and emphasis will be placed on utilizing a response to intervention approach in working with exceptional individuals. The service-learning component of the course will require students to learn about the educational environment by spending time in an elementary classroom, consulting with school staff and addressing the educational needs of students.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.
PSYC 8616 HUMAN FACTORS ENGINEERING (3 credits)
Based on knowledge of human strengths and limitations, this course will provide an overview of how basic principles of human factors can be utilized to reduce error, increase productivity, and enhance safety, comfort, and health. Applications to real-world equipment design, task design, environmental design, selection and training will be included. (Cross-listed with PSYC 4610)
Prerequisite(s)/Corequisite(s): PSYC 1010 or permission of instructor, not open to non-degree graduate students.

PSYC 8636 ORGANIZATIONAL PSYCHOLOGY (3 credits)
This is a survey course which will cover the major concepts, theories and empirical research related to organizational psychology. Specific topics will include: work motivation, leadership, decision making and job satisfaction as well as more recent trends such as cultural diversity, work teams, work-family and quality issues. (Cross-listed with PSYC 4630)
Prerequisite(s)/Corequisite(s): Admission to a graduate program or graduate certificate program. Not open to non-degree graduate students.

PSYC 8646 PERSONNEL PSYCHOLOGY (3 credits)
A survey of psychological principles, theories and research related to personnel issues. Course includes discussion of personnel selection, performance appraisal, recruitment, training and health and safety. (Cross-listed with PSYC 4640)
Prerequisite(s)/Corequisite(s): Admission to a graduate program or graduate certificate program, not open to non-degree graduate students.

PSYC 8656 CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4650, CACT 8506)

PSYC 8700 ETHICS AND LAW FOR PSYCHOLOGY AND APPLIED BEHAVIOR ANALYSIS (3 credits)
This course provides graduate students with advanced knowledge of ethical codes, legal statutes, and case law that guide the profession of psychology and related applied fields with particular attention to the practice of applied behavior analysis. The primary emphasis of the class is on clinic, community-, and school-based practice with children and adolescents.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 8806 LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE (3 credits)
This course presents legal principles relevant to all psychological specialties, with special reference to mental health services. Ethical reasoning and the APA ethics code are considered. (Cross-listed with PSYC 4800)
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 8896 GENES, BRAIN, AND BEHAVIOR (3 credits)
This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 4890, BIOL 4890, BIOL 8896)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 8900 PROBLEMS IN PSYCHOLOGY (1-6 credits)
A faculty-supervised research project, involving empirical or library work and oral or written reports.
Prerequisite(s)/Corequisite(s): Written permission of department. Not open to non-degree graduate students.

PSYC 8950 PRACTICUM FOR MASTER'S STUDENTS (1-6 credits)
Faculty-supervised experience in industry or business designed to bridge the gap between the classroom and a job, emphasizing use of previously acquired knowledge in dealing with practical problems for master's students.
Prerequisite(s)/Corequisite(s): Written permission of your practicum committee. Not open to non-degree graduate students.

PSYC 8970 MASTER'S LEVEL PRACTICUM IN SCHOOL PSYCHOLOGY (1-6 credits)
Faculty-supervised experience designed to provide experience in academic and behavioral assessment and intervention with children, and consultation with parents and school personnel.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8980 PRACTICUM IN DEVELOPMENTAL PSYCHOLOGY (1-6 credits)
Faculty-supervised experience in a setting designed to provide a practical understanding of theoretical concepts of human development. Emphasizes direct observation and/or personal interaction as a means of training, and can be directed toward various populations within the developmental life span (e.g., infants, preschoolers, middle childhood, adolescents, adults, aged persons).
Prerequisite(s)/Corequisite(s): PSYC 9560 and permission of Developmental Psychology Area Committee. Not open to non-degree graduate students.

PSYC 8990 THESIS (1-6 credits)
Independent research project written under supervision of a faculty committee. May be repeated up to a total of six hours.
Prerequisite(s)/Corequisite(s): Written permission of your thesis committee. Not open to non-degree graduate students.

PSYC 9010 PROSEMINAR: STATISTICAL METHODS I (3 credits)
The purpose of this course is to introduce students to the statistical concepts of correlation and regression. The course will cover basic understanding of these techniques, their applications, and interpretations of results.
Prerequisite(s)/Corequisite(s): Graduate standing and an undergraduate course in basic statistics which included an introduction to correlation and linear regression. Not open to non-degree graduate students.

PSYC 9020 PROSEMINAR: STATISTICAL METHODS II (3 credits)
An advanced approach to experimental design and inferential statistics using the analysis of variance models.
Prerequisite(s)/Corequisite(s): A course in basic statistics which included an introduction to analysis of variance. Not open to non-degree graduate students.

PSYC 9030 SEMINAR: TOPICS IN INDUSTRIAL ORGANIZATIONAL PSYCHOLOGY (3-9 credits)
A topic area within field of Industrial Organizational Psychology will be explored in depth.
Prerequisite(s)/Corequisite(s): Admission to Industrial Organizational graduate program and permission of instructor. Not open to non-degree graduate students.

PSYC 9040 PROSEMINAR LEARNING (3 credits)
A comprehensive and intensive coverage of experimental literature on learning in humans and animals.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

Permission of instructor. Not open to non-degree graduate students.
PSYC 9070 PROSEMINAR: COGNITIVE PSYCHOLOGY (3 credits)
This course will be a comprehensive overview of the field of cognitive psychology including the topics of attention and performance, memory, problem solving, and language. In addition, there will be a more in-depth coverage of selected issues.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. Not open to non-degree graduate students.

PSYC 9090 THEORY OF MEASUREMENT AND DESIGN (3 credits)
Study of theoretical and practical problems related to the development and use of psychological measures and research designs covering such topics as scaling, test development, reliability, validity, interpretation of results and generalizability.
Prerequisite(s)/Corequisite(s): PSYC 3130 or equivalent. Not open to non-degree graduate students.

PSYC 9100 SMALL N RESEARCH DESIGNS (3 credits)
This course uses applications of research methodology that involve direct observation and single-subject designs to identify evidence-based practices that address clinical problems experienced by individuals across a variety of settings. Topics covered include behavioral assessment techniques, graphing data, single subject experimental designs, and consumer satisfaction with interventions.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor.

PSYC 9120 MULTIVARIATE STATISTICAL ANALYSIS (3 credits)
An examination of statistical techniques for describing and analyzing multivariate data commonly collected in behavioral research. Analytic techniques derived from general linear model will be considered, focusing on proper interpretation and use. The course is intended for doctoral students in psychology and (selectively) for advanced masters students in behavioral sciences.
Prerequisite(s)/Corequisite(s): PSYC 9090, 9010 and 9020 or permission of instructor. Not open to non-degree graduate students.

PSYC 9130 APPLICATIONS OF ADVANCED STATISTICS IN PSYCHOLOGY (3 credits)
This course covers a variety of statistical tools that may be used to answer research questions for group designs. A primary focus of the class is the application of statistical tools to psychology research and practice.
Prerequisite(s)/Corequisite(s): Admission to a graduate program in Psychology. Not open to non-degree graduate students.

PSYC 9210 PROSEMINAR: PERCEPTION (3 credits)
A comprehensive and intensive coverage of the experimental literature on perception in humans and animals.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9230 PROSEMINAR: BEHAVIORAL NEUROSCIENCE (3 credits)
A study of the biological substrates of behavior with emphasis upon neuroanatomy, neurophysiology and neuropsycharmacology.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9240 PROSEMINAR: EVOLUTIONARY PSYCHOLOGY (3 credits)
A comprehensive overview of behavioral biology including topics of evolution and behavior, behavioral ecology, physiology and genetics of behavior, and learning.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9290 SEMINAR IN DEVELOPMENTAL PSYCHOBIOLOGY (3-6 credits)
An in-depth analysis of a specific topic in psychobiology.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9320 SEMINAR IN PROGRAM EVALUATION (3 credits)
This course is intended to help advanced graduate students in the applied social sciences understand the literature and conduct evaluation research. The history of program evaluation and philosophies manifest in evaluation research are reviewed, alternative evaluation models are discussed, and relevant methodological and practical issues such as quasi-experimental design and utilization are explored.
Prerequisite(s)/Corequisite(s): Students should have prior graduate-level course work or experience in research design and statistics in the applied social sciences. Not open to non-degree graduate students.

PSYC 9421 ORGANIZATIONAL PSYCHOLOGY AND LEADERSHIP (3 credits)
This course is a graduate seminar on organizational psychology and leadership that focuses on the understanding and critical analysis of theory and practice pertaining to individual functioning at work. Positive organizational psychology theories and practices will provide the overarching framework in understanding potential solutions to challenges and problems facing leaders and their employees. (Cross-listed with CACT 8520)
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

PSYC 9430 PROSEMINAR: PERSONALITY (3 credits)
A course considering the effects of personality variables on behavior. A historical, theoretical, psychometric and experimental approach will be emphasized.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9440 PROSEMINAR: SOCIAL PSYCHOLOGY (3 credits)
Examination of theories, research findings and controversies in social psychology. Topics will include socialization; person perception; interpersonal attraction, leadership and group effectiveness; attitudes, attitude measurement, and attitude change; intergroup relations, power and social influence. New topics will be added as they become part of the research interests of social psychologists.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9460 SEMINAR IN AGING AND HUMAN BEHAVIOR (3 credits)
This course will examine in detail age-related changes in psychological processes and explore the implications of these changes for behavior. The course is intended for graduate students in psychology and gerontology. Students from other programs may enroll with permission of the instructor. (Cross-listed with GERO 9460)
Prerequisite(s)/Corequisite(s): Graduate standing in gerontology or psychology. Not open to non-degree graduate students.

PSYC 9470 PRACTICUM IN APPLIED BEHAVIOR ANALYSIS (1-6 credits)
The practicum in applied behavior analysis provides students with intensive supervised experience providing behavior analytic services to improve the well-being of children and their families. Students will be assigned to practicum sites based on their respective interests, career goals, and availability of positions.
Prerequisite(s)/Corequisite(s): One semester of coursework in the Applied Behavior Analysis Master’s degree program or admission to the Applied Behavior Analysis Certificate program. Not open to non-degree graduate students.

PSYC 9500 SOCIOEMOTIONAL DEVELOPMENT (3 credits)
This seminar is designed to provide an in-depth examination of the research literature on socioemotional development (emotional development that influences social behavior & development), with particular emphasis on both classic issues and current topics of debate. The course topics cover issues of importance in infancy, childhood, and adolescence. Research methods, as they apply to socioemotional development, will be emphasized throughout the course.
Prerequisite(s)/Corequisite(s): Graduate standing and PSYC 9560. Not open to non-degree graduate students.
PSYC 9510 RESEARCH METHODS IN DEVELOPMENTAL PSYCHOLOGY (3 credits)
This course is designed to provide graduate students in developmental psychology and school psychology with the necessary skills to enable them to frame a research question and to design a study to answer that question. In addition, students will become familiar with methodologies for specialized areas within developmental psychology. Research ethics is a major component in the course.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

PSYC 9520 LANGUAGE DEVELOPMENT (3 credits)
Students will explore the course of language development as well as current theoretical views attempting to explain how language is acquired. Coverage includes all aspects of language including phonology, syntax, semantics, and pragmatics. A portion of this course will be devoted to current computer-based methods in the analysis of child language.
Prerequisite(s)/Corequisite(s): PSYC 9560 or a background in linguistics or communication disorders. Not open to non-degree graduate students.

PSYC 9530 COGNITIVE DEVELOPMENT (3 credits)
This course covers contemporary issues in theory and research concerning the development of processes by which environmental information is perceived, attended to, stored, transformed and used. Both Piagetian and information processing orientations will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

PSYC 9540 MEMORY AND MECHANISM OF DEVELOPMENT (3 credits)
The focus of this course is on research and theory concerning transition processes in cognitive development. Topics include the role of memory in development and the mechanisms underlying children's advancing cognitive abilities. The emphasis on memory is based on the assumption that mental representations are crucial for development to take place.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

PSYC 9550 PSYCHOSOCIAL DEVELOPMENT (3 credits)
A seminar focusing on research methods, theory and the empirical literature as they apply to social and personality development across the life span. All students will be expected to design and conduct a mini-observational experimental study in some specific area of social and personality development.
Prerequisite(s)/Corequisite(s): Graduate standing and PSYC 9560. Not open to non-degree graduate students.

PSYC 9560 PROSEMINAR: DEVELOPMENTAL PSYCHOLOGY (3 credits)
A survey of developmental processes across the life-span, with a particular emphasis on the interface of biological, cognitive and social influences. Theories of human development and issues pertaining to developmental processes are examined. The primary focus in the course is on the research literature pertaining to developmental psychology. Special emphasis is given to the role of context in development and to the topics of research methods, multicultural factors in development and social policy.
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

PSYC 9570 APPLIED BEHAVIOR ANALYSIS (3 credits)
A comprehensive introduction to experimental methodology in applied behavior analysis. Topics covered include observational recording systems, reliability indices, procedural implementation of behavioral techniques, single-subject research designs and a broad review of the research literature.
Prerequisite(s)/Corequisite(s): A minimum of one course in learning theory (PSYC 8560, PSYC 8576, PSYC 9040, or equivalent) and permission. Not open to non-degree graduate students.

PSYC 9580 PSYCHOLOGICAL ASSESSMENT IV: ADULTHOOD (3 credits)
This course deals with intelligence, perceptual, and achievement tests and projective and objective personality methods for the psychological assessment of adults. It is intended for advanced graduate students in psychology preparing to be clinical practitioners in schools and mental health facilities.
Prerequisite(s)/Corequisite(s): PSYC 8520; PSYC 8530 and/or PSYC 8540; PSYC 8590 or PSYC 8446; and permission of instructor. Not open to non-degree graduate students.

PSYC 9590 SEMINAR IN DEVELOPMENTAL PSYCHOLOGY (3-9 credits)
Faculty and student presentations organized around one of the following three major subdivisions of child psychology: (1) Social and personality development, (2) Developmental changes in memory and learning, (3) Cognitive growth and functioning. The course may be repeated each time a different topic is covered, up to a maximum total of nine credit hours.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9600 DEVELOPMENTAL PSYCHOPATHOLOGY: RESEARCH AND PRACTICE (3 credits)
This advanced course provides an overview of developmental factors relevant to psychopathology across the life span. Emphasis is on analysis of research, and adoption of research findings to therapeutic interventions and programs.
Prerequisite(s)/Corequisite(s): PSYC 4440 or 8446, 9010 or 9020, 9560; admission to program in PSYC or a related field and permission of instructor. Not open to non-degree graduate students.

PSYC 9610 INDUSTRIAL MOTIVATION & MORALE (3 credits)
A course focusing on theory and research in the areas of work motivation, work behavior and job satisfaction. Emphasis is placed on such topics as expectancy theory, job redesign, leadership, absenteeism, turnover, goal setting and behavior modification.
Prerequisite(s)/Corequisite(s): Admission into industrial/organizational psychology graduate program and permission of instructor. Not open to non-degree graduate students.

PSYC 9620 INDUSTRIAL TRAINING AND ORGANIZATIONAL DEVELOPMENT (3 credits)
This course will review theory and research relevant to training and organizational development, with emphasis on diagnosis, design, implementation, and evaluation. Practical concerns associated with intervention will be addressed.
Prerequisite(s)/Corequisite(s): Admission into industrial/organizational psychology graduate program and PSYC 9090, PSYC 9010, and PSYC 9020. Not open to non-degree graduate students.

PSYC 9630 LEADERSHIP THEORIES AND RESEARCH (3 credits)
The purpose of this course is to provide the student with a thorough review of the theories and research in the area of leadership. Theories reviewed will be those that focus on the role of the individual in effective leadership, the role of the situation, and the role of the followers. Special attention will be given to the psychological theories of leadership. The application of leadership research and theory to areas such as selection and training will also be review.
Prerequisite(s)/Corequisite(s): Admission into the psychology graduate program or graduate standing and instructor permission. Not open to non-degree graduate students.
PSYC 9640 PROBLEM SOLVING & DECISION MAKING (3 credits)
The primary objective of the course is to acquaint students with some of the
canonical, methodological, and measurement issues within the
field of problem solving and decision making. Due to the scope of this
field, the course will focus on the psychological research on individual decision
making, with special emphasis on the cognitive and motivational processes
underlying problem solving and decision making. The second major
objective of the course is to encourage students to creatively integrate
and apply decision making approaches and findings to traditional areas
of concern to the industrial-organizational psychologist (e.g., employee
selection, performance appraisal, training, leadership, motivation). The
third objective is to hone students' critical thinking skills and their ability to
present their ideas in a clear and coherent manner using oral and written
formats.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level
PSYC program or permission of instructor. Not open to non-degree graduate
students.

PSYC 9650 RESEARCH METHODS IN PSYCHOLOGY (3 credits)
A course designed to allow students to integrate and extend their
knowledge and understanding of psychological research. Students will
develop skills in writing research proposals, conducting research, and
preparing manuscripts for publications.
Prerequisite(s)/Corequisite(s): PSYC 9010 or PSYC 9020. Not open to
non-degree graduate students.

PSYC 9660 CRITERION DEVELOPMENT AND PERFORMANCE
APPRAISAL (3 credits)
An in-depth examination of the fundamentals of personnel psychology
including job analysis, criterion development and performance
measurement and appraisal in organizations. Practical experience in the
application of techniques and procedures is emphasized through group and
individual projects in organizational settings.
Prerequisite(s)/Corequisite(s): Admission to industrial/organizational
psychology graduate program and PSYC 9090 (may be taken concurrently).
Not open to non-degree graduate students.

PSYC 9670 PERSONNEL SELECTION (3 credits)
An exploration of current theory and practice in personnel selection.
Problem solving strategies are emphasized through the design, analysis,
and interpretation of selection research and the implementation of selection
programs consistent with Equal Opportunity Guidelines and federal law.
Prerequisite(s)/Corequisite(s): Admission to industrial organizational
psychology graduate program, PSYC 9660. Not open to non-degree
graduate students.

PSYC 9780 ADVANCED CONSULTATION IN PSYCHOLOGY AND
EDUCATION (3 credits)
The course is designed to provide education and psychology professionals
with a comprehensive understanding of foundational theories and processes
of consultation applied to education and psychology problems of children.
A major objective is to focus on developing consultation skills considered
necessary to be an effective consultant through direct practice and
feedback. The course will emphasize the relationship between the
consultant and parents, teachers, and other professionals within the school
and child mental health settings.
Prerequisite(s)/Corequisite(s): Admission to School Psychology
Graduate Program and/or permission of instructor. Not open to non-degree
graduate students.

PSYC 9790 SEMINAR IN SCHOOL PSYCHOLOGY: ADMINISTRATION
OF PSYCHOLOGICAL SERVICES (3 credits)
This course is designed to give the advanced student in the School
Psychology Program an overview of significant professional topics in the
field, particularly administration of psychological services. Ordinarily topics
such as state licensing laws, state of Nebraska certification requirements,
public and state laws, special education department guidelines, roles and
functions and ethics will be included in the course.
Prerequisite(s)/Corequisite(s): Admission to School Psychology
Graduate Program. Not open to non-degree graduate students.

PSYC 9910 TOPICAL SEMINAR IN PSYCHOLOGY (1-3 credits)
A discussion of specific advanced topics which will be announced whenever
the course is offered.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to
non-degree graduate students.

PSYC 9940 SCHOOL PSYCHOLOGY APPLIED RESEARCH PROJECT
(1-7 credits)
The applied research project consists of students conducting an
independent research project from start to finish. This project should have
relevance to a practical aspect of school psychology and provide a unique
contribution to the field. It may be quantitative or qualitative in nature, and
must rely on sound research methodology.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level
PSYC program or permission of instructor. Not open to non-degree graduate
students.

PSYC 9950 PRACTICUM FOR DOCTORAL STUDENTS (1-6 credits)
Faculty-supervised experience in industry or business designed to bridge
the gap between the classroom and a job, emphasizing use of previously
acquired knowledge in dealing with practical problems for doctoral
students.
Prerequisite(s)/Corequisite(s): Admission to industrial/organizational
psychology graduate program. Not open to non-degree graduate students.

PSYC 9960 RESEARCH OTHER THAN THESIS (1-12 credits)
Research work under supervision of a faculty member. May be repeated up
to a total of 12 credit hours.
Prerequisite(s)/Corequisite(s): Enrollment in a graduate program
beyond the master's level. Not open to non-degree graduate students.

PSYC 9970 ED.S. LEVEL PRACTICUM IN SCHOOL PSYCHOLOGY (1-6
credits)
School Psychology School-Based Practicum is a capstone course in school
psychology intended for students who have completed their Master's
degree in School Psychology. This course is designed to reflect the scientist-
practitioner model of training and practice in School Psychology. To
accomplish this goal, students will be assigned to a practicing school
psychologist employed by the public schools. The content of this course will
focus on integrating previous and concurrent training experiences from
courses and field experiences.
Prerequisite(s)/Corequisite(s): Admission to School Psychology
Graduate Program and/or permission of instructor. Not open to non-degree
graduate students.

PSYC 9980 INTERNSHIP IN SCHOOL PSYCHOLOGY (3-6 credits)
School Psychology Internship is the final course in school psychology
intended for students who have completed all of their other coursework. It
is a 1200 hour culminating experience leading to licensure/certification as
a school psychologist in most states, and eligibility for the NCSP exam. The
internship requires that students apply the domains of training and practice
that are outlined in the School Psychology program philosophy and training
objectives. University and site-based supervision is required.
Prerequisite(s)/Corequisite(s): Admission to School Psychology
Graduate Program and/or permission of instructor. Not open to non-degree
graduate students.

PSYC 9990 PSYCHOLOGY DISSERTATION (1-24 credits)
The course provides doctoral candidates in Psychology with a process
to complete a dissertation research plan. The course learning activities
will focus on the completion of a candidate's dissertation. The course is
designed to allow advanced doctoral candidates to demonstrate technical
mastery of the discipline and to advance knowledge by completing an
investigation.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level
PSYC program or permission of instructor. Not open to non-degree graduate
students.
Psychology, MA
Department of Psychology, College of Arts and Sciences

Vision Statement
The Master of Arts in Psychology is designed to give students a broad background in the field of psychology plus a sufficient degree of specialization to prepare them for either careers or further graduate training.

Program Contact Information
Dr. Joseph Brown, Graduate Program Chair (GPC)
Arts & Sciences Hall (ASH) 347J
402-554-2313

Program Website (http://www.unomaha.edu/psych)

Admissions
Application Deadlines
• Fall: January 5

Program-Specific Requirements
• Baccalaureate degree with a minimum of 3.0 GPA.
• A minimum of 15 undergraduate semester hours or the equivalent of psychology or related courses including: basic statistics and an upper level laboratory course, independent research, or equivalent, emphasizing the experimental method, data collection, statistical analysis, and report writing are required.
• Graduate Record Examination (GRE)
• Three (3) Letters of Recommendation
  • From professors and individuals who can speak to applicant’s potential for success in a graduate program.
• Statement of Purpose
• Writing Sample (preferred APA style)
• Resume

Degree Requirements
Student must select an area of concentration.

Social/Personality Exit Requirements

- Thesis
  - All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms and final approval of a thesis and final submission of the thesis.

Social/Personality MA Comps

- Option 1- PSYC GRE
  - Proseminar requirement (3 non-stat prosems or 2 non-stat prosems and a waiver/substitution) with a grade of B- or better.
  - PSYC GRE score of 600 or better.

- Option 2- Research
  - Proseminar requirement (3 non-stat prosems or 2 non-stat prosems and a waiver/substitution) with a grade of B- or better.
  - Research requirement- one from the list below. All research must be conducted at UNO and be supervised by a faculty member from the social/personality psychology area.
    1. Co-author on a presentation or poster at an approved international or national level conference.
    2. First author on a presentation or poster at an approved regional level conference.
    3. Co-author on an accepted publication in a peer review journal.

  - We expect that the student will play a significant role in the research process for satisfaction of the comps requirement. If a co-author, the student must have contributed significantly and meaningfully to the paper or manuscript.

  - List of approved conferences (other conferences may be approved by request).
    1. International/National: APA, APS, SPSP, SPSSI, SESP, EASP.
    2. Regional: regional APA conference (e.g., MPA).

- Student will submit an e-mail of request to the Social/Personality director and his/her advisor. Student letter must include citation (authors, title, and conference) and a letter or e-mail showing acceptance.

- Social/Personality area faculty will review the request in case there are any concerns, or the conference is not on the approved list.
Developmental Concentration (31-37 hours)

Plan A (Thesis Option 31 hours)

Plan A is recommended for students who plan to pursue a PhD and/or who wish to complete an independent research project (the thesis).

This plan requires completion of a minimum of 31 credit hours, as listed below:

<table>

Total Credits: 31

¹ PSYC 9960: (1-6 credit hours)
² Note you must take either PSYC 9070 or PSYC 9230 as one of the options.

Plan B (Non-Thesis Option 37 hours)

Plan B is recommended for students who plan to work in an applied setting involving children and/or families and who do not plan to pursue a PhD. This plan requires completion of a minimum of 37 credit hours. In addition to required course work, students choose 3 elective courses (within or outside the Department of Psychology).

Instead of a thesis, students complete two applied practica (6 credit hours).

Exit Requirements

- Comprehensive Examination

Special Performance Quality Rule

If at any time a grade of "C", (2.0 on a 4.0 scale) in graduate courses become a matter of record, a graduate student in the Department of Psychology will be placed on probation. An unexcused grade of "W" in a proseminar course will be considered equivalent to a grade of "C" for purposes of this policy. An excused "W" must be approved by the chair of the department of psychology. Students placed on this probation will forfeit any departmental graduate assistantship they may have and any approved programs of study will be subject to re-evaluation and change. Before registering for additional courses, a student placed on probation must, with the assistance and approval of his/her advisor, submit a plan for remediation of his/her academic problems, and have that plan approved by the Graduate Program Committee. The Graduate Program Committee will review and, if appropriate, modify the plan. Further, any enrollment in graduate courses must be approved by the Graduate Program Committee. The student will remain on probation until the Graduate Program Committee approves termination of probation status. If a student earns a second "C", the student will be dismissed from the program and the GPC will work to come up with a plan, and evaluate if it is possible for the student to return to the program at some point.

Psychology, PhD

Department of Psychology, College of Arts & Sciences

Our PhD programs prepare students for applied, research, or teaching positions in the areas of Developmental Psychology, Industrial/Organizational Psychology and Neuroscience and Behavior.

Program Contact Information

Admissions

Application Deadlines

- Fall: January 5

Program-Specific Requirements

- Graduate Record Examination (GRE)
- Three (3) Letters of Recommendation

• From professors and individuals who can speak to the applicant’s potential for success in a graduate program.
  - Statement of Purpose
  - Writing Sample (preferred APA style)
  - Resume

Degree Requirements

Concentrations

Student must select an area of concentration.

Students have ten (10) years to complete the PhD in Psychology from the time of filing a program of study.

Total Credit Hours: 90

Industrial/Organizational Psychology Concentration

Noted courses are required as part of our MA concentration in Industrial/Organizational Psychology. These courses or their equivalent will be required for students who have earned their MA from another institution.

**Additional Psychology Coursework**

Select at least 12 hours from the following (must include at least one additional Proseminar course):

PSYC 9070  PROSEMINAR: COGNITIVE PSYCHOLOGY
PSYC 9230  PROSEMINAR: BEHAVIORAL NEUROSCIENCE
PSYC 9430  PROSEMINAR: PERSONALITY
PSYC 9440  PROSEMINAR: SOCIAL PSYCHOLOGY
PSYC 9520  LANGUAGE DEVELOPMENT
PSYC 9540  MEMORY AND MECHANISM OF DEVELOPMENT
PSYC 9590  SEMINAR IN DEVELOPMENTAL PSYCHOLOGY
PSYC 9040  PROSEMINAR LEARNING
PSYC 8446  ABNORMAL PSYCHOLOGY
PSYC 8526  PSYCHOLINGUISTICS
PSYC 9210  PROSEMINAR: PERCEPTION
PSYC 9290  SEMINAR IN DEVELOPMENTAL PSYCHOBIOLOGY
PSYC/GERO 9460  SEMINAR IN AGING AND HUMAN BEHAVIOR

PSYC 9600  DEVELOPMENTAL PSYCHOPATHOLOGY: RESEARCH AND PRACTICE

**Methods, Design and Evaluation Coursework**

Select at least 12 hour from the following:

Required:

PSYC 9650  RESEARCH METHODS IN PSYCHOLOGY

Eligible courses:

PSYC 9510  RESEARCH METHODS IN DEVELOPMENTAL PSYCHOLOGY
PSYC 8316  PSYCHOLOGICAL AND EDUCATIONAL TESTING
PSYC 8520  FOUNDATIONS OF ASSESSMENT
PSYC 9320  SEMINAR IN PROGRAM EVALUATION
PSYC 9090  THEORY OF MEASUREMENT AND DESIGN
SOC 8060  QUALITATIVE METHODS

**Statistical Analysis Coursework**

Select at least 12 hours from the following:

Required:

PSYC 9010  PROSEMINAR: STATISTICAL METHODS I
PSYC 9020  PROSEMINAR: STATISTICAL METHODS II

Eligible courses:

PSYC 8140  NONPARAMETRIC STATISTICS
PSYC 9120  MULTIVARIATE STATISTICAL ANALYSIS
GERO 8356  ISSUES IN AGING
PSYC 9910  TOPICAL SEMINAR IN PSYCHOLOGY

**Human Diversity Coursework**

PSYC 8590  PSYCHOLOGY OF EXCEPTIONAL CHILDREN  3

Course in Cross-Cultural Development  3

**Elective Coursework**

Select at least 12 hours of Elective Coursework. Students will also find eligible courses in (among other disciplines):

- Child, Youth, and Family Studies
- Sociology/Anthropology
- Gerontology
- Latino/Latin American Studies

**Empirical Research Coursework**

PSYC 9960  RESEARCH OTHER THAN THESIS  3  1-12

**Included in MA Concentration in Industrial/Organization Psychology**

PSYC 8990  THESIS  4  6
PSYC 9990  PSYCHOLOGY DISSERTATION  5  12-24

1. PSYC 8900: Readings, Presentation, Review Paper
2. PSYC 9040: (in conjunction with MMI)
3. PSYC 9960: (at least 3 hours)
4. PSYC 8990: (6 hours; required for Master's degree)
5. PSYC 9990: (12-24 hours)

Every student must complete a two-party qualifying examination consisting of:

- Psychology readings including a written and oral examination across domains
- Grant Proposal OR Course Development (child development, adolescent development or lifespan development)

Additionally, each student is expected to demonstrate proficiency with at least one research tool.

Admissions

Application Deadlines

- Fall: January 5

Program-Specific Requirements

- A minimum of 15 undergraduate semester hours (or the equivalent) of psychology courses including: basic statistics and an upper level laboratory course, independent research, or equivalent, emphasizing the experimental method, data collection, statistical analysis, and report writing are required.
- Graduate Record Examination (GRE)
- Three (3) Letters of Recommendation
- Statement of Purpose
  - The statement of purpose should include: your purpose in applying for graduate study, your particular area of specialization within the major field, your plans for future occupation or profession, and any additional information that may aid the selection committee in evaluating your preparation and your aptitude for graduate study. You should specifically address your goals and objectives in pursuing graduate study.

School Psychology, EdS
Department of Psychology, College of Arts & Sciences

Vision Statement
The UNO School Psychology Program’s mission is to graduate students who have met high levels of academic excellence relevant to the knowledge and skills in the profession of school psychology and that are engaged in and committed to the community. The program is designed to prepare graduates to function as scientist-practitioners in service to children and their families, schools, and communities. The program emphasizes an indirect service delivery approach that is oriented in data-based problem-solving and is responsive to cultural and ecological contexts. Although indirect approaches are emphasized (e.g., consultation, assessment, prevention, and early intervention), graduates are prepared to apply direct psychological services (e.g., individual-, group-, and systems-level interventions) when conditions warrant.

Program outcomes and his or her ability to effect positive change for portfolio is intended to represent the student's progress towards meeting school's Master's-level comprehensive examination requirement. The CP meets the graduate collection of work that documents a student's professional competencies end of their Master's work. A portfolio is a systematic and purposeful Students are required to submit a Comprehensive Portfolio (CP) near the end of their Master's work. A portfolio is a systematic and purposeful collection of work that documents a student's professional competencies within the program's training objectives. The CP meets the graduate school's Master's-level comprehensive examination requirement. The portfolio is intended to represent the student's progress towards meeting program outcomes and his or her ability to effect positive change for children, schools, and families. Thus, it is a formative and summative evaluation of student progress through the program's training objectives.

Special Performance Quality Rule
If at any time a grade of "C", (2.0 on a 4.0 scale) in graduate courses become a matter of record, a graduate student in the Department of Psychology will be placed on probation. An unexcused grade of "W" in a proseminar course will be considered equivalent to a grade of "C" for purposes of this policy. Applied Behavior Analysis Certificate

Department of Psychology, College of Arts & Sciences

Vision Statement
The certificate program complements the existing MA in Psychology with a concentration in Applied Behavior Analysis. The MA degree is for those individuals who have little or no prior education in Applied Behavior Analysis and need all the courses in the MA. The certificate program enhances the existing EdS degree in School Psychology. Graduates of the EdS program have taken many of the courses required for the BCBA but generally are missing 2-3 courses and the supervised practicum experience. The certificate program in Applied Behavior Analysis will allow these individuals to pursue an additional degree that will increase their marketability in educational and service agencies.

1 PSYC 8550: the other course is taken at the EdS level.

Exit Requirement
Comprehensive Portfolio (CP)
Students are required to submit a Comprehensive Portfolio (CP) near the end of their Master’s work. A portfolio is a systematic and purposeful collection of work that documents a student's professional competencies within the program's training objectives. The CP meets the graduate school's Master's-level comprehensive examination requirement. The portfolio is intended to represent the student's progress towards meeting program outcomes and his or her ability to effect positive change for...
psychology, education, or a related area, plus at least one 3 credit course in research methods or statistics.

- Statement of purpose: a 1000-word essay describing why they seek admission to this program
- One (1) letter of recommendation.

Students enrolled in other UNO master’s degree programs must submit another graduate application for the ABA certificate program.

Total Credits 12

1. In order to enroll in each course, students must obtain instructor approval and permit prior to registration. All courses for the certificate must be completed with grades of "B" or better.

2. All courses with the exception of PSYC 9470, are taken as 3 credits in the MA program, PSYC 9470 is taken for 6 credits.

Exit Requirement

Students must create a portfolio containing a sample project from practicum. A portfolio review will be conducted by the student’s advisor before the certificate is awarded.

Special Performance Quality Rule

If at any time a grade of "C", (2.0 on a 4.0 scale) in graduate courses become a matter of record, a graduate student in the Department of Psychology will be placed on probation. An unexcused grade of "W" in a proseminar course will be considered equivalent to a grade of "C" for purposes of this policy. An excused "W" must be approved by the chair of the department of psychology. Students placed on this probation will forfeit any departmental graduate assistantship they may have and any approved programs of study will be subject to re-evaluation and change. Before registering for additional courses, a student placed on probation must, with the assistance and approval of his/her advisor, submit a plan for remediation of his/her academic problems, and have that plan approved by the Graduate Program Committee. The Graduate Program Committee will review and, if appropriate, modify the plan. Further, any enrollment in graduate courses must be approved by the Graduate Program Committee. The student will remain on probation until the Graduate Program Committee approves termination of probation status. If a student earns a second "C", the student will be dismissed from the program and the GPC will work to come up with a plan, and evaluate it if it is possible for the student to return to the program at some point.

Public Administration

Degree Programs Offered

- Public Administration, MPA (p. 839)
- Public Administration, PhD (p. 842)

- Public Administration, MPA and Management Information Systems, MS (MPA/MIS (p. 791)) (p. 791)
- Public Administration, MPA and Social Work, MSW (MPA/MSW) (p. 844)

Certificates Offered

- Public Management Certificate (p. 848)

PA 8010 THE PUBLIC ECONOMY (3 credits)
This course focuses on microeconomics and its application to policy and management in the public and non-profit sectors. The concept of efficiency is developed along with the goal of social equity to help determine the roles of the public, private, and non-profit sectors. Some key issues examined are: the balance between equity and efficiency, government intervention in the market, privatization of public services, and cost benefit analysis.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8020 AVIATION MANAGEMENT AND POLICY (3 credits)
The purpose of the course is to acquaint students with advanced concepts of aviation administration and the implementation of aviation policy within the public sector and to identify key concepts and critical issues both domestic and international. The primary focus is to explore the various effects that have resulted from the formation and enactment of major aviation and transportation regulatory issues. (Cross-listed with AVN 8020).

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8030 INTERNSHIP IN PA (1-6 credits)
Maximum of 3 hours to be granted upon completion of written report on internship. Internship in some government: national, state, local or nonprofit agency and in some instances public-oriented private agencies. Students will take course as Satisfactory/Unsatisfactory. An additional 3 hours may be taken through PA 8040.

Prerequisite(s)/Corequisite(s): Nine hours of MPA coursework and permission of school. Not open to nondegree students.

PA 8040 INTERNSHIP IN PA (1-6 credits)
Maximum of 3 hours to be granted upon completion of written report on internship. Internship in some government: national, state, local or nonprofit agency and in some instances public-oriented private agencies. Students will take the course as Satisfactory/Unsatisfactory. An additional 3 hours may be taken through PA 8030.

Prerequisite(s)/Corequisite(s): Nine hours of MPA course work and permission of the school. Not open to nondegree students.

PA 8050 FOUNDATIONS OF PUBLIC ADMINISTRATION (3 credits)
The purpose of this course is to introduce the student to the art and science of public administration and to enable the student to develop the knowledge, skills and abilities requisite to the pursuit of graduate education in public administration.

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8060 ACCOUNTING AND FINANCIAL REPORTING FOR PUBLIC MANAGERS (3 credits)
This course focuses on the basic elements of governmental and non-profit accounting and their managerial implications. The course is directed toward students who have entered the Master’s of Public Administration Program and who have little if any academic course work in accounting.

Prerequisite(s)/Corequisite(s): Not open to nondegree students
PA 8070  CASE RESEARCH (3 credits)
The purpose of this course is to introduce the student to key concepts through the casewriting method of interactive learning. Issues within the public sector will be explored. The casewriting experience integrates key issues and concepts. This opportunity allows the student to explore specific topical areas through the case research method. (Cross-listed with AVN 8070)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8090  ORG THEORY & BEHAVIOR (3 credits)
A study of the various approaches to understanding public organizations and people in them with special emphasis on the design, functioning and management of public agencies.
Prerequisite(s)/Corequisite(s): Not open to non-degree students

PA 8100  ADVANCED MANAGEMENT AND LEADERSHIP FOR PUBLIC AND NONPROFIT PROFESSIONALS (3 credits)
This course is designed to advance students' understanding and techniques about the role of leadership and ethics in the public and nonprofit sectors. Special attention will be paid on the application of theories of leadership and ethics to manage various boundary spanning activities including managing external relationships, collaborations/networks, performance, and innovation and change. (Cross-listed with AVN 8100)
Prerequisite(s)/Corequisite(s): PA 8050 and PA 8090. Not open to non-degree graduate students.

PA 8106  MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with PA 4100).
Prerequisite(s)/Corequisite(s): Graduate and permission of instructor, and PA 8010, PA 8090; or permission of department.

PA 8110  MANAGING INFORMATION IN THE PUBLIC SECTOR (3 credits)
This course is directed toward in-career and pre-career students in public administration who wish to acquire knowledge of issues in the management of information in the public sector and the basics of computing applications in the public sector. Its primary focus is on special issues in the management of information.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090; or permission of school. Not open to non-degree graduate students.

PA 8120  ANALYSIS AND DECISION MAKING (3 credits)
This course assists students to develop their skills in research design and data analysis, covering both qualitative and quantitative data relevant to public affairs. The course introduces students to the fundamentals of research design, data collection, data and statistical analysis, and drawing pertinent policy and management recommendations. (Cross-listed with AVN 8120).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8130  MANAGING DIGITAL GOVERNANCE (3 credits)
This course equips current and future public and nonprofit managers with capabilities and strategies to evaluate, participate in, and/or lead an information technology (digital governance) project to improve or even transform public service and governance. Because information technology has become increasingly integrated into public service and governance, understanding the role of information and information technology in government has become a necessity. This course provides the concepts and tools for public and nonprofit managers to succeed in the information age by better managing information as a resource and information technology as an enabler for public services and governance. The topics include digital divide, online participation, strategic IT management and change management, information resource and knowledge management, financing IT projects, IT project and performance management, management of IT outsourcing, and business process management. Basic literacy in computing and information technology is an integral part of the course. The discussion of these topics will address the growing use of information and communication technologies such as social media, smart mobile devices, and Internet of things. Moreover, this course addresses the interplay of management, technology, and policy in the context of public service organizations, including governmental and non-profit organizations. This course offers the best of both practical and academic worlds via assigned readings and exercises, discussions, and a service-oriented project. The emphasis is on research-based knowledge and best practices informing one another. The class discussion is aimed at integrating professional experience with quality research to generate additional insights.
Prerequisite(s)/Corequisite(s): PA 8050. Not open to non-degree graduate students.

PA 8206  COMMUNITY ORGANIZING & SOCIAL CHANGE (3 credits)
This course will focus on various theories and applications of organizing communities and neighborhoods to effect change. Of particular interest is the role of engaging citizens in improving their communities. (Cross-listed with PA 4200).
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

PA 8300  POLICY DESIGN AND IMPLEMENTATION (3 credits)
This course examines the formulation, adoption, implementation and evaluation of public policy. Important topics include the basic features of American government, the causes and determinants of public policies, the dynamics of decision-making in the public sector, the obstacles to "successful" public programs, and the criteria for the assessment of a public program's impact. Special emphasis is given to the role public managers play within the policy process.
Prerequisite(s)/Corequisite(s): PA 8050, 8090 and 8120, not open to non-degree graduate students.

PA 8320  PUBLIC POLICY EVALUATION (3 credits)
This course is designed to have the students understand the role of evaluation in the policy process, to demonstrate how to conduct and implement evaluations of public programs, to illustrate the procedures for presenting an evaluation report to public officials and citizens, to introduce operational issues and problems associated with management of an office of policy evaluation, and to insure the exploration of conflicts and limitations inherent to public policy evaluation.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120 and completion of at least 24 hours in the MPA program, not open to nondegree students.

PA 8330  SEMINAR IN POLICY ANALYSIS (3 credits)
Application of analytical techniques to the assessment of alternative courses of public action and the development and design of public programs; utilization and impact of expert analysis by public officials and political groups; impact and role of technical analysis in a democracy; management of policy analysis units within government.
Prerequisite(s)/Corequisite(s): PA 8050 and PA 8120, not open to non-degree graduate students
PA 8400 PUBLIC BUDGETING (3 credits)
The purpose of the course is to familiarize public administration students with the basic characteristics and features of public budgets and enable them to deal competently with them.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree graduate students.

PA 8410 PUBLIC HUMAN RESOURCE MGMT (3 credits)
A study of the personnel process in American governmental administration. The processes and problems of recruiting, structuring and operating public bureaucracies are examined as well as problems in personnel leadership, neutrality, accountability and performance.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree graduate students.

PA 8420 PUBLIC WORKS MANAGEMENT (3 credits)
This course is designed to develop an understanding of the profession of public works management, and its relationship with urban service delivery. Students will learn substantive specialty areas of public works, as well as management techniques to improve service delivery efficiency.
Prerequisite(s)/Corequisite(s): PA 8050. Not open to non-degree graduate students.

PA 8436 MUNICIPAL ADMINISTRATION (3 credits)
The administrative structure and administrative practices of American cities covering such areas as finance, personnel, public works, public safety, health, utilities and planning. (Cross-listed with PA 4430).
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8440 ORGANIZATION DEVELOP. & PLANNED CHANGE IN THE PUBLIC SECTOR (3 credits)
This course provides students with the theories and skills necessary to manage organizational change in the public sector. To accomplish this will require that the student become versed in the strategies of organizational development (OD) and planning in the public sector while at the same time mastering intervention techniques.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090, PA 8120 and completion of at least 24 hours in the MPA, not open to non-degree graduate students.

PA 8450 SEMINAR IN ADVANCED MANAGEMENT ANALYSIS IN PUBLIC AGENCIES (3 credits)
A study of theory and method related to analysis of problems of organization and workflow in public agencies. The course includes problem analysis, field study methods, design of improved methods, selecting alternatives and developing decision packages.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090, PA 8120 and completion of at least 24 hours in the MPA program.

PA 8460 SEMINAR IN PUBLIC PERSONNEL ADMINISTRATION (3 credits)
This course focuses on the principal considerations affecting the selection and utilization of personnel by government agencies. The emphasis is less in terms of description of processes than in terms of identifying and exploring solutions to problems.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8090, PA 8410 or permission of school. Not open to non-degree graduate students.

PA 8470 ADMINISTRATIVE ETHICS AND LEADERSHIP (3 credits)
Ethical action and effective leadership are especially important in public service and they are closely related. This course introduces students to concepts from public sector ethics and from leadership theory. Emphasis is placed on decision-making processes, relationships between public and nonprofit sector professionals and elected officials and citizens, and the role of the career public service professional in a democratic society.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8480 SEMINAR IN PUBLIC FINANCIAL ADMINISTRATION (3 credits)
The study of public finance administration policy and techniques areas. Emphasis is placed on the technical aspects of public finance administration with particular emphasis on the purposes, processes and issues associated with particular techniques or technique areas. (Cross-listed with AVN 8480).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of department.

PA 8496 PUBLIC SECTOR LABOR RELATIONS (3 credits)
This course deals with the origin, characteristics and implications of public sector employee unions and how they relate to public sector personnel practices. (Cross-listed with PA 4490).
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8500 ISSUES IN PUBLIC-PRIVATE SECTOR COOPERATION (3 credits)
This course introduces students to the organization and processes, as well as the tools and techniques, of public-private sector cooperation. The objective of such a course is to familiarize students with the concepts and skills needed to develop and administer joint activities between the public and private sectors. Such cooperative activities have become an important aspect of public administration in recent years.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8516 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, GERO 8516, PA 4510).
Prerequisite(s)/Corequisite(s): Permission of instructor and PA 8050, PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8520 SEMINAR IN GRANT WRITING (3 credits)
This course explores the grant-writing process from initial conceptualization through submission and award to final report. The purposes of the course are to provide graduate students with the expertise and tools needed to fund their own research, to provide effective grant-writing assistance to faculty mentors and other colleagues, and to compete more effectively in the job market and/or for acceptance into doctoral and post-doctoral programs.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090. Not open to non-degree graduate students.

PA 8530 PLANNING AND EVALUATION (3 credits)
The basic question presented in this course is how we can use strategic planning and evaluation to build public and nonprofit organizations that function creatively and effectively, and that enhance the overall public value of their services.
Prerequisite(s)/Corequisite(s): PA 8100, PA 8050, PA 8090, and PA 8120 and PA 8300, not open to non-degree students.

PA 8550 INTRO NONPROFIT SECTOR (3 credits)
This course focuses on the contribution and importance of philanthropy, volunteerism and nonprofit organizations in society. Includes the differentiation between both public and private nonprofit organizations and the for profit sector. Management issues regarding nonprofit agencies is introduced.
Prerequisite(s)/Corequisite(s): Permission of adviser and PA 8100 and PA 8090, not open to nondegree students.

PA 8560 NONPROFIT FINANCIAL MANAGEMENT (3 credits)
The focus of this course is on developing an understanding of the managing of financial resources within a nonprofit organization. A special emphasis is also placed on developing and executing budgets for such organizations.
Prerequisite(s)/Corequisite(s): Graduate standing and PA 8550 or permission of instructor. Not open to non-degree graduate students.
PA 8566 INTERGOVERNMENTAL MANAGEMENT (3 credits)
This course is directed at those who wish to improve their knowledge and understanding of intergovernmental relations as it impacts policy and administration in the United States. The course will look at history and theoretical underpinnings of intergovernmental relations, the different elements of these relationships and review specific management arenas that are affected by these relationships. (Cross-listed with PA 4560).
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090; or permission of school. Not open to non-degree graduate students.

PA 8580 NONPROFIT HUMAN RESOURCES MANAGEMENT (3 credits)
This graduate-level course provides an introduction to the theories, principles, policies and practices related to leading and managing human resources in nonprofit organizations, including personnel, board and volunteer management and development.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of adviser; PA 8050; or permission of school. Not open to non-degree graduate students.

PA 8596 TECHNIQUES TOPICS IN NONPROFIT MANAGEMENT (1-3 credits)
A variable content course emphasizing nonprofit management techniques and topics. Topics include nonprofit leadership, board executive staff roles and relationships, personnel and volunteer management, financial management, proposal and grant writing community resources, special events planning and administration, needs assessments and legal ethical aspects. (Cross-listed with PA 4590).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8600 ADMINISTRATIVE LAW (3 credits)
A review of the principal elements of the role and character of legal processes in government administration, including delegation of powers, legal forms of administrative action, liability of government units and officers and judicial review of administrative action.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree graduate students.

PA 8616 MUNICIPAL LAW (3 credits)
This course is directed at both graduates and undergraduates who wish to have some exposure to the legal issues which affect public administrators. At the conclusion of the course, each student should have a basic understanding of municipal law which defines the parameters within which a public administrator must function, as well as other laws or legal concepts which will affect them on a day-to-day basis. Upon completion of the course, the student should be able to identify potential legal problems with their proposed actions. (Cross-listed with PA 4610).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8676 PGRMS & SERVICES FOR ELDERLY (3 credits)
This course is provided to give the student a historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO8676).
Prerequisite(s)/Corequisite(s): Not open to nondegree students.

PA 8710 FUND RAISING IN PUBLIC AND NON-PROFIT ORGANIZATIONS (3 credits)
The purpose of this course is to introduce students to a variety of fund raising methods, provide the context in which these methods might be used, and provide an understanding of how fund raising operates within public and not-for-profit organizations.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of instructor, PA 8010, and PA 8090; or permission of school. Not open to non-degree graduate students.

PA 8720 HEALTH CARE FINANCE (3 credits)
Health care finance represents an analysis of health care concepts, issues and trends from a health care and an organizational perspective. Application of specific principles, concepts, and techniques of financial management to health care systems will be addressed. Examination of the role and responsibilities of health care administrators in relation to financial management will also be explored.
Prerequisite(s)/Corequisite(s): PA 8120; not open to non-degree graduate students.

PA 8730 ADMINISTRATION OF HEALTH CARE SYSTEMS (3 credits)
This course is designed to familiarize students with the structure and administration of health services systems in the United States. It addresses quality, access and cost of the health services delivery, personnel and funding resources, traditional and alternative health services delivery settings, and forces that shape the current and future health care sector.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8740 HEALTH CARE POLICY (3 credits)
This course helps students understand major health care policy making and related issues. It focuses on the history/background; physical, social, and economic environment; policy process; and political marketplace of contemporary U.S. health care policies. Topics include health care reform, cost containment, indigent health care and urban vs. rural health care. A health care background is helpful, but not required.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8760 THE U.S. HEALTH CARE SYSTEM (3 credits)
Overview of the U.S. health and medical care delivery system. Topics are covered from a historical, economic, sociological, and policy perspective and include the following: social values in health care; need, use, and demand for services; providers of health systems; public and private payment systems; alternative delivery systems; and models from other countries.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8810 SEMINAR IN METROPOLITAN PLANNING (3 credits)
An overview of the present status of planning in metropolitan areas with special emphasis on structure of planning departments, comprehensive plans and problems of annexation.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of instructor or permission of school. Not open to non-degree graduate students.

PA 8826 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminar on environmental law and regulations. Addresses federal regulations, implementing instructions, legal principles, and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and prevention and remediation are discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, ENVN 4820, GEOG 4820, GEOG 8826, PA 4820).
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

PA 8896 SPECIAL TOPICS PUBLIC ADMIN (3 credits)
A course with the purpose of acquainting the student with key issues and topics of special concern to public and non-profit management that they otherwise would not receive elsewhere. No more than six hours of total credit in PA 8896 and PA 8906 can be taken without prior permission by the graduate program committee. Further, each topic in the course will need the approval of the Dean of Graduate Studies prior to being offered. (Cross-listed with AVN 4890, AVN 8896, PA 4890).

PA 8906 SPECIAL TOPICS IN PUBLIC ADMINISTRATION (1-3 credits)
A variable content course with Public Administration and Urban Studies topics selected in accordance with student and faculty interest. Possible topics include urban homesteading, administrative federalism and economic development and the public sector. (Cross-listed with PA 4900).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of the school. Not open to non-degree graduate students.
PA 8920  READINGS IN PUBLIC ADMIN (1-3 credits)
Specially planned readings in public administration for the graduate student who encounters scheduling problems in the completion of his degree program, or who has special preparatory needs and who is adjudged by the department to be capable of pursuing a highly independent course of study.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120, not open to nondegree students.

PA 8930  NEGOTIATION SKILLS MANAGEMENT (3 credits)
This course will focus on the theories of negotiation and the negotiating process.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090, not open to nondegree students.

PA 8940  RESEARCH IN PUBLIC ADMIN (1-3 credits)
The course is intended for advanced graduate students in public administration. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of public administration rather than classroom courses.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120, not open to nondegree students.

PA 8970  INTRO TO QUAL RESEARCH (3 credits)
The purpose of this course is to provide an introduction to qualitative research and its application in public administration. Students will learn the philosophic assumptions underlying qualitative research methods, especially as they differ from quantitative methods. Students will study the process of qualitative inquiry—including the formulation of research questions, collection and analysis of data, various strategies (e.g. case studies and ethnographies), verification, and the place of theory and literature in the research process.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program and PA 8050, not open to nondegree students.

PA 8980  THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and members of the graduate student's Thesis Advisory Committee. In this project, the student will develop and perfect a number of skills including the ability to design, conduct, analyze, and report the results in writing (i.e., thesis) of an original, independent scientific investigation. The project plan must be approved by the student's Thesis Advisory Committee. (Cross-listed with AVN 8980)
Prerequisite(s)/Corequisite(s): Graduate major in Public Administration and approval of Thesis Advisory Committee, not open to nondegree students.

PA 8990  CAPSTONE PROJECT IN PUBLIC ADMINISTRATION (3 credits)
The Capstone Project offers each student the opportunity to demonstrate mastery of the theory and practice of public administration by applying the knowledge and skills gained in the MPA program to a project of the student's choice. This involves completing a project report reflecting the cumulative knowledge gained from these experiences. The course is intended only for students who are completing their Masters of Public Administration (MPA).
Prerequisite(s)/Corequisite(s): Completion of at least 30 hours in the M.P.A., PA 8050, 8100, 8090, 8120, 8300, 8400, 8530 and school permission. Not open to nondegree students.

PA 9000  FOUNDATIONS OF PUBLIC ADMIN (3 credits)
This course is designed as a doctoral seminar that surveys the development of public administration from its earliest antecedents to the present day, taking both a historical and topical approach.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students.

PA 9080  ADVANCED STATISTICAL APPLICATIONS (3 credits)
This is a required course which will provide the student with fundamentals of modern statistical techniques used in criminal justice and public affairs research. Cross-listed with CJUS 9080.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Public Administration. Not open to nondegree students.

PA 9200  THEORIES OF THE POLICY PROCESS (3 credits)
Proseminar in public policy with emphasis on the development and application of theories of the formulation, adoption, and implementation of public policy.
Prerequisite(s)/Corequisite(s): Completion of a Master's degree in Public Administration or a related field, and permission of the instructor.
Not open to nondegree students.

PA 9300  KNOWLDG DEV/USE PUB SERV PROFF (3 credits)
This course will examine current issues in knowledge, development and use in the public service professions. Emphasis is placed on understanding various systematic research to effect social change.
Prerequisite(s)/Corequisite(s): Admission to doctoral program. Not open to nondegree students.

PA 9400  THE ENVRMNT OF PUBLIC ADMIN (3 credits)
The purpose of this course is to enable the doctoral student to understand the role and responsibility of public administration in the context of the broader political economy.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students.

PA 9420  ORGANIZATIONAL DYNAMICS (3 credits)
This course is designed as a doctoral seminar which expands the student's knowledge of organizations and the people in them. It will equip the student to understand and develop the behavior necessary for success at upper levels of administration in the public sector.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students.

PA 9600  SMNR:ADVANCED MANAGEMENT THR (3 credits)
This course examines how recent advances in management theory may be incorporated into the practice of public administration.
Prerequisite(s)/Corequisite(s): Admission to doctoral program and PA 8090. Not open to nondegree students.

PA 9700  PUB BUDGETING FIN THEORY (3 credits)
This seminar is focused on theoretical issues in public budgeting and governmental finance. The aim of the seminar is for the student to understand the central issues in public budgeting and finance, and the place of this field of study within public administration.
Prerequisite(s)/Corequisite(s): Admission to doctoral program. Not open to nondegree students.

PA 9800  ADVANCED RESEARCH DESIGN (3 credits)
This is a required course which will expose students to advanced topics in research methods in preparation for writing their doctoral dissertation. It will also apply advanced methodological techniques to problems in the field.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students.

PA 9900  ADVANCED TOPICS (3 credits)
This course provides a format for exploration of topics of interest to advanced students in public administration. Topics covered will change periodically in keeping with the interests of faculty and students. (Cross-listed with AVN 9900)
Prerequisite(s)/Corequisite(s): Admission to PhD program in Public Administration. Not open to nondegree students.
PA 9920 TCH’G & PROF SKILLS WKSHOP (1 credit)
The workshop offers training for a career in higher education. Instruction and practice in teaching includes creating and presenting lecture material, facilitating discussion, constructing syllabi, and related matters. Prerequisite(s)/Corequisite(s): Admission to Ph.D. program. Not open to nondegree students.

PA 9950 QUANTITATIVE METHODS IN PA (3 credits)
This course is designed to prepare the student to understand and apply advanced statistical methods needed in the design and analysis of public administration investigations. The major topics to be covered include research designs, nonexperimental research and specialized research designs, multiple linear regression, analysis of covariance, and logistic regression. Prerequisite(s)/Corequisite(s): CJUS 8030 or equivalent, PA 8050. Not open to nondegree students.

PA 9960 QUALITATIVE RESEARCH METHODS (3 credits)
This course is a doctoral seminar in the methods and practice of qualitative research. Advanced research design techniques, validity, mixed methodology, and qualitative research tools common to the practice of public administration are presented. Prerequisite(s)/Corequisite(s): Admission to the doctoral program in public administration. Not open to nondegree students.

PA 9970 DIRECTED RESEARCH IN PUBLIC ADMINISTRATION (3 credits)
This course offers a structure for doctoral students to conduct advanced research in their chosen area of specialization. (Cross-listed with AVN 9970). Prerequisite(s)/Corequisite(s): Admission to the doctoral program in Public Administration. Not open to nondegree students.

PA 9980 DIRECTED READINGS IN PUBLIC ADMINISTRATION (1-6 credits)
This course is designed to provide the advanced graduate student with the opportunity to do extended readings on a specialized public administration topic. (Cross-listed with AVN 9980). Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in public administration. Not open to nondegree students.

PA 9990 DISSERTATION (1-20 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge in public administration. Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in public administration. Admission to candidacy for the Ph.D. degree. Prior to enrolling for dissertation hours, the student must have permission from the chair of the supervisory committee. Not open to nondegree students.

Public Administration, MPA
School of Public Administration, College of Public Affairs & Community Service

Vision Statement
The mission of the Master of Public Administration program is to strengthen the public service in a democratic and diverse society by educating students to manage and lead public and nonprofit institutions effectively, ethically and democratically.

Admissions
Application Deadlines
• Fall: June 1
• Spring: October 1
• Summer: NA

Program-Specific Requirements
• The general prerequisite for admission to the MPA program is a four-year bachelors’ degree with a minimum 3.0 GPA in the junior and senior years (last 50-60 credit hours)
• Students who plan to attend the MPA program and whose native language is not English may be granted provisional or unclassified admission subject to the following conditions:
  • They must complete the TOEFL exam with a score of 550 paper-based, 213 computer-based, 80 internet-based, 6.5 IELTS, or 53 PTE
• Graduate Record Exam (GRE) score:
  • Applicants to the UNO School of Public Administration (MPA) program may be granted a waiver from the GRE requirement, under one or more of the following circumstances:
    • The applicant is enrolled in the UNO Grace Abbott School of Social Work (MSW) program and has completed at least four courses within the minimum GPA of 3.2 and no less than a "B" in any course.
    • The applicant is enrolled in the UNO College of Information Science and Technology MS in MIS program and has completed at least four courses with a minimum of 3.2 and no less than a "B" in any course.
    • The applicant has GMAT or LSAT scores less than five years old.
    • The applicant has previously received a graduate or terminal degree from a regionally-accredited U.S. institution of higher education. These degrees may include, for example, an M.S., M.A., MPH, MSW, M.D., Ph.D., or J.D.
  • The applicant is enrolled in the UNO School of Public Administration Certificate of Public Management program and has completed at least two courses in the program with a minimum Grade Point Average of 3.2 and no less than a B in any course.
  • Two (2) Letters of Recommendation
  • Statement of Purpose/Admissions Essay
    • The essay should be two to four pages (doubled-spaced) and answer the following questions:
      • Please tell us about the factors in your background that will help us understand your interest in a profession in the public or nonprofit sectors.
      • What are your professional goals? Ten years from now, what do you hope to be doing professionally?
      • How can an MPA from UNO help you to achieve these goals?
    • Resume

Generally, students will be admitted unconditionally if they have a strong undergraduate record, demonstrate good communication skills in their admission essay, receive favorable recommendations, score well on the GRE exam, and have goals consistent with the mission of the MPA program.
Degree Requirements

**Required Courses**
The School of Public Administration has seven (7) core courses required for all MPA students.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PA 8050</td>

</tr>
</thead>
<tbody>
<tr>
<td>PA/AVN 8980</td>
<td>THESIS</td>
<td>3-6</td>
</tr>
<tr>
<td>PA 8990</td>
<td>CAPSTONE PROJECT IN PUBLIC ADMINISTRATION</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**
39-42

1 Must maintain a grade point average (gpa) of 3.2 or above during the first twelve (12) hours of public administration coursework in PA 8050, PA 8090, PA 8100 and PA 8120. Provisional students can earn no grade below a "B" in the first twelve (12) hours of coursework or the student will be dismissed or placed on academic probation. A grade of "C+" or below results in automatic dismissal.

Exit Requirements

- Capstone - 3 hours PA 8990 or
- Thesis - 6 hours PA 8990 For the thesis option, candidates should carefully review the Graduate College requirements related to forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

Total Credit Hours
Non-Thesis Option: 39
Thesis Option: 42

The Non-Thesis Option requires students to complete the 21-hour core, nine hours in an area of concentration, six hours of general elective courses, and the Capstone Project.

The Thesis Option requires students to complete a 21-hour core, nine hours in an area of concentration, six hours of general elective courses, and six hours of thesis. The thesis must be assigned a total of at least six hours on the approved plan of study. The thesis should be initiated no later than one semester before the anticipated date of graduation in order to provide sufficient time for research, writing and examination. It is the responsibility of the student to follow all regulations found here (http://www.unomaha.edu/graduate-studies/current-students/thesis-format.php). The student must orally defend his or her thesis. At that time, the supervisory committee must sign the acceptance page of the thesis. Approval of a thesis by every member of the thesis supervisory committee is required.

**MPA General Electives**
Students take two general elective courses. Any 8000 level Public Administration course may be taken as an elective (other than the required core and concentration classes). Courses from other departments may also be used as elective courses, but require approval in advance.

Public Administration, PhD

School of Public Administration, College of Public Affairs & Community Service

Mission, Vision, Values

Mission: The UNO PhD in Public Administration creates a supportive, collaborative, and rigorous environment for students to develop their intellectual identities and a comprehensive understanding of the field and a range of research traditions.

Vision: Our students and alumni will make significant contributions to theory, policy, research, and practice towards enhancing a democratic society.

Values: Intellectual openness, collaboration, diversity, and excellence.

Program Website (http://www.pubadphd.unomaha.edu)

Admissions

Application Deadlines

• For applicants seeking a funded graduate assistantship: February 1
• For all other applicants: June 1

Program-Specific Requirements

• An earned Master’s degree in public administration or related field from an accredited institution.
• Generally, the target master’s degree level GPA is above 3.20 (on a 4.0 scale).
• Applicants whose language of nurture is not English and who do not have a Master’s degree from an institution located in a country whose primary language is English should present a TOEFL score of 557 or higher; (213 computer-based; 90 internet-based, IELTS 6.5 or PTE 61 or better). International applicants are expected to demonstrate the ability
to communicate orally and in writing in a manner sufficient to compete effectively at the doctoral level.

- Graduate Record Examination (GRE): combined scores of at least 305 on the verbal and quantitative portions of the exam, and a score from the new analytical writing section
- At least 3 Letters of Recommendation, two of which must come from academic references
- Statement of Purpose
  - A statement of purpose, not to exceed 5 double-spaced, type-written pages, explaining why the student wishes to pursue a doctoral degree in public administration. The statement of intent should also address the applicant’s interest in one of the six areas of specialization listed below. These statements are reviewed for quality of writing, academic sophistication, and the extent to which the applicant’s goals are compatible with the strengths and interests of the public administration faculty and the stated objectives of the program.
- Resume
  - The resume will be examined to assess an applicant’s professional work experience and/or extracurricular activities while attending school. Additionally, resumes are examined to assess an applicant’s potential ability to understand and do research on the context and practice of contemporary public management.
- Students are responsible for additional information found on the Doctor of Philosophy in Public Administration here (http://www.pubadphd.unomaha.edu)
- The Doctoral Program Committee reviews student academic preparation, specifying appropriate courses that must be taken as prerequisites to doctoral study. Except for those who have completed an MPA degree, all new doctoral students may be required to first complete 9 hours of MPA course prerequisites prior to enrolling in 9000-level core or research courses.

#### Required Courses Summary

90 hours of graduate credit hours beyond the baccalaureate degree. This includes 12 hours of core courses, 9 hours of research courses, 6 hours each in two areas of specialization (12 hours total), a 1-hour workshop in teaching and professional skills, 20 hours of dissertation coursework, and 36 hours of additional graduate-level coursework. The 36 hours of additional graduate-level coursework may be earned from an accredited institution toward a Master of Public Administration degree or a master’s degree (MA or MS) in a related academic discipline or field.

#### Research Courses

Research is an integral aspect of doctoral education. The faculty expects that graduates of the program will have the ability to contribute original and systematically rigorous knowledge to the field. Thus, the Ph.D. in public administration requires three research courses. These courses focus on logic and techniques of basic and applied research in public administration. They include:

- PA 9950 QUANTITATIVE METHODS IN PA 3
- PA 9960 QUALITATIVE RESEARCH METHODS 3
- PA 9800 ADVANCED RESEARCH DESIGN 3

#### Area Specialization Courses

Select 6 hours each in two of the following areas:

- Information & Technology Management 12
- Public Administration Theory
- Public Aviation and Transportation
- Public Budgeting and Finance
- Public Policy
- Urban Management

#### Workshop

<table>

<td>20</td>
</tr>
</tbody>
</table>

1 Students fully admitted and enrolled in another doctoral program can take one or more of the required research courses, but only upon the approval of the instructor.

#### Progress Review

The Doctoral Program Committee will conduct a review of student progress each year. The Committee will make such recommendations as appropriate to the student’s advisor. As part of the review, students will be required to submit a summary of annual progress.

#### Field Examination

Following completion of all coursework, doctoral students take the field examination, covering work in the areas of specialization and related research methods. The purpose of the field exam is for the doctoral student to demonstrate his or her mastery of the area in which the dissertation will be conducted. The field exam testing periods are September 1-November 15 in the fall semester and February 1-April 15 in the spring semester. The field exam is given in closed-book format in an eight-hour period, which can be divided into two four-hour sessions. The exam is designed and graded by the student’s Supervisory Committee.

#### Degree Candidacy

Students who have successfully passed the required coursework in their program of study and the field examination apply for Admission to Candidacy for the Doctoral Degree. This application requires majority consent of the student’s Supervisory Committee, the Doctoral Program Committee, and the Dean for Graduate Studies.

After admission to degree candidacy, the student must maintain continuous enrollment until he/she receives the degree. The school monitors this enrollment. Students not in residence must register for a minimum of one
Semester credit hour of dissertation research. Failure to register during each academic semester will result in termination of the Candidacy.

The time limit on granting the Ph.D. in public administration degree is eight (8) years from the time of filing the plan of study in the Office of Graduate Studies.

Quality of Work Standards
GPA of at least 3.35 for all coursework
No more than one grade of C+ or below
Must maintain continuous enrollment
Must establish program residency through completion of 24 hours in 24 months

Public Administration, MPA and Social Work, MSW (MPA/MSW)

School of Public Administration and Grace Abbott School of Social Work, College of Public Affairs & Community Service

Vision Statement
The MPA/MSW program prepares students to provide a variety of advanced direct and indirect social work services and assume leadership in the public service sector, specifically in administrative and policy work with governmental units and nonprofit organizations.

Other Program-Related Information
- The Master of Social Work (MSW) program prepares students for advanced social work practice. Master’s level social workers are employed in public and private agencies, including medical settings, schools, residential treatment centers, court and correctional agencies, and community planning and development agencies. Their activities and interventions are designed to promote a more effectively-functioning society as it struggles to “provide for the general welfare,” as well as to help people, families, groups and institutions within that society achieve self-fulfillment.
- The MSW degree at the Grace Abbott School of Social Work is accredited by the Council on Social Work Education (CSWE), the national accrediting body for all social work education.
- Information on certification and licensure is available on the Nebraska Department of Health and Human Services website (http://dhhs.ne.gov/Pages/default.aspx).
- Students must enroll in a minimum of two courses (6 credit hours) per semester.
- Students must seek prior approval from the director of the Grace Abbott School of Social Work if they wish to take more than 12 hours of coursework in a single semester.

Admissions
Application Deadlines
- Fall: January 15

Note: if admitted to the Master of Social Work program and you wish to become a dual degree MSW/MPA student you will need to adhere to the MPA deadline date which is June 1 or October 1.

Program-Specific Requirements
- International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the US, United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL scores
  - The minimum TOEFL requirement is 550 (written), 213 (computer-based), 80 internet-based, 6.5 IELTS, or 53 PTE.
- The general prerequisite for admission to the program is a four-year bachelor’s degree with a minimum of a 3.0 GPA (on a 4.0 scale) in the junior and senior years (last 50-60 hours).
- Graduate Record Exam (GRE) score
  - Applicants to the UNO School of Public Administration (MPA) program may be granted a waiver from the GRE requirement, under one or more of the following circumstances:
    - The applicant is enrolled in the UNO Grace Abbott School of Social Work (MSW) program and has completed at least four courses with a minimum GPA of 3.2 and no less than a “B” in any course.
    - The applicant is enrolled in the UNO College of Information Science and Technology MS in MIS program and has completed at least four courses with a minimum GPA of 3.2 and no less than a "B" in any course.
- Three (3) Letters of Recommendation
  - The letters must be professional in nature. Each recommender should describe how they know you (how long and in what capacity), and why they believe you would be a good candidate for the MPA/MSW program.
- Two (2) Statements of Purpose, one for the School of Public Administration and one for the Grace Abbott School of Social Work
  - For Social Work, please answer the following statements/questions in a total of five double-spaced, typewritten pages (12-point font). Your application is considered incomplete if these instructions are not followed:
    - A brief autobiographical statement that discusses who you are and the experiences that led you to social work. Trace the development of your interest in social work. Why have you chosen social work as a profession? Describe the key motivating figure(s), role model(s), or experience(s) important to your decision to become involved in social work.
• Discuss your career objectives as a professional social worker as you now conceive them. What do you see yourself doing immediately after receiving your MSW degree?
• Discuss a contemporary social problem. Include possible causes and potential solutions in your response. What contribution do you want to make to the pursuit of social and economic justice?
• The Grace Abbott School of Social Work is committed to enrolling students who represent diverse backgrounds and have an aptitude for working with clients of diverse backgrounds. Diversity can be defined by virtue of personal characteristics such as race, ethnicity, gender, age, sexual orientation, disability, class and religion as other characteristics. Diversity may also include personal life experiences such as class, career history, belonging to another culture, working among another culture, dealing with significant personal challenge(s), and knowledge of more than one language. Even if you have had minimal contact with people from diverse backgrounds, please address how you “think” about diversity in relation to the practice of social work and respond to the following questions: a) What are your views regarding diversity? b) How does diversity relate to experiences in your life?

• For Public Administration, the essay should answer the following questions:
  • Please tell us about the factors in your background that will help us understand your interest in a profession in the public or nonprofit sectors.
  • What are your professional goals? Ten years from now, what do you hope to be doing professionally?
  • How can this dual degree from UNO help you achieve these goals?
• Resume
  • Current resume detailing employment history, nature of duties and responsibilities, accomplishments, leadership roles, and community involvement.

The MSW Foundation Program is a 63 credit hour program available to applicants who do not hold a BSSW degree from an accredited school of social work within the last 10 years.

The MPA/MSW Advanced Standing Program is a 39 credit hour program available to applicants who have earned a BSSW degree from an accredited school of social work within the last 10 years.

Completion of the following undergraduate prerequisite courses is required before entering the MPA/MSW Program.

• A human biology course or equivalent such as anatomy
• A research methods course (Note: There is a waiver exam available for this prerequisite)
• A statistics course

Admissions
Application Deadlines
• Fall: June 1
• Spring: October 1

Program-Specific Requirements
• International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand are required to submit TOEFL and GRE scores.
  • The minimum TOEFL requirement is 563, 223 computer-based, 85 internet-based, 6.5 IELTS, or 53 PTE.
  • The general prerequisite for admission to the program is a four-year bachelors’ degree with a minimum of 3.0 GPA of the junior-senior year (last 50-60 credit hours).
• Graduate Record Exam (GRE)
  • Applicants to the UNO School of Public Administration (MPA) program may be granted a waiver from the GRE requirement, under one of the following circumstances:
    • The applicant is enrolled in the UNO Grace Abbott School of Social Work (MSW) program and has completed at least four courses with a minimum GPA of 3.2 and no less than a “B” in any course.
    • The applicant is enrolled in the UNO College of Information Science and Technology (MS) in MIS program and has completed at least four courses with a minimum GPA of 3.2 and no less than a “B” in any course.
  • Two (2) letters of recommendation

Exit Requirements
• Capstone - 3 Credits PA 8990
• Comprehensive Examination
  • Students will complete a social work comprehensive exam focused on Advanced Generalist Social Work Practice, administered by the Grace Abbott School of Social Work. The comprehensive exam is offered twice each academic year, during the Fall and Spring semesters. It is recommended that students take the comprehensive exam during the semester of graduation, but they may take it earlier, provided no more than 9 semester hours are remaining to complete after the semester in which the comprehensive exam is taken.

Academic Policies and Standards

Public Administration, MPA and Management Information Systems, MS (MPA/MIS)

School of Public Administration, College of Public Affairs & Community Service, Department of Information Systems & Quantitative Analysis, College of Information Science & Technology

Vision Statement
In government and non-profit organizations, there is a significant need and a long-term demand for persons with advanced skills in information management technology. The primary purpose of this dual degree option is to prepare students to manage and lead organizations in the future. To meet this need, the School of Public Administration and the College of Information Science & Technology offer the option to complete both the MPA and the MS in MIS degree jointly by completing 54-57 hours of course work beyond foundation requirements. This joint degree program is designed for dedicated students who are able to successfully complete graduate intensive study from two perspectives—Public Administration and Management Information Systems—while achieving a synergy between the two fields. As such, the program involves graduate coursework in both public administration and information systems, with integrative experiences that will attain the desired synergy. Students interested in this option will work closely with a faculty mentor to develop an integrated plan of study at an early stage.

• Statement of Purpose
• Writing Sample
  • From work or previous academic experiences. Alternatively, if you do not have a writing sample, please submit a two-page double-spaced word processed essay that addresses the following two topics:
    • Two accomplishments that demonstrate your potential for success in the graduate program
    • Your unique personal qualities and life experiences that distinguish you from other applicants to our graduate program
• Resume indicating your work experience and background

Degree Requirements

MPA/MIS Foundation Courses

A student must have completed some basic courses either as an undergraduate student or prior to enrolling in the first MS in MIS course. Students may start MPA courses while completing the MIS foundation courses.

MPA/MIS Exit Requirements

Capstone Option

MPA Capstone Course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PA 8990</td>
<td>CAPSTONE PROJECT IN PUBLIC ADMINISTRATION</td>
<td>3</td>
</tr>
</tbody>
</table>
The MPA Capstone Course is taken at the end of the program, with no more than nine credit hours remaining. All Public Administration core classes must be completed prior to taking the Capstone Course.

**MIS Capstone Course:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISQA 8950</td>
<td>CAPSTONE MANAGEMENT INFORMATION SYSTEMS</td>
<td>3</td>
</tr>
</tbody>
</table>

Six credit hours or fewer may be left in the program. All MIS core courses must have been completed.

**Thesis Option**

To take this option, a student will be required to enroll in six (6) hours of thesis credit.

Either in the MPA program:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PA/AVN 8980</td>
<td>THESIS</td>
<td>6</td>
</tr>
</tbody>
</table>

or in the MIS program:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISQA 8990</td>
<td>THESIS (6 Hours Required)</td>
<td>3</td>
</tr>
</tbody>
</table>

The thesis must be in an area that relates to both the public administration and information systems domains.

**Total Credit Hours: 57**

---

**Admissions**

**Application Deadlines**

- Fall: June 1
- Spring: October 1
- Summer: NA

**Program-Specific Requirements**

- Students must have 3 years of work experience in the public sector.
- The general prerequisite for admission to the Graduate Certificate in Public Management program is a four-year bachelors' degree with a minimum of a 3.0 GPA of the junior-senior year (70-80 credit hours).
- Students who plan to attend the program from foreign countries where English is not their native language may be granted provisional or unclassified admission subject to the following conditions:
  - TOEFL exam with a score of 550 paper-based, 213 computer-based, 80 internet-based, 6.5 IELTS, or 53 PTE.
  - Two (2) letters of recommendation
  - Statement of purpose
    - 2-4 pages double spaced, answering the following questions:
      - Why are you pursuing the certificate?
      - What are your goals?
  - Resume

**Public Management Certificate**

**School of Public Administration, College of Public Affairs & Community Service**

**Vision Statement**

The purpose of the Certificate in Public Management is to allow working professionals with careers in the public sector or graduate students in a related field of study (such as political science or city and regional planning) to expand their educational background and to enhance their knowledge in the area of public management. The graduate certificate is designed to extend students' understanding of theory and practice in the field of public management.

**Program Contact Information**

Dr. Craig Maher, Graduate Program Chair (GPC)
College of Public Affairs & Community Service (CPACS 111)
402-554-3204
csmaher@unomaha.edu

Meagan Van Gelder, Coordinator
College of Public Affairs & Community Service (CB) 111
402-554-3480
mvangelder@unomaha.edu

**Program Website** ([http://spa.unomaha.edu/GraduateCertificate](http://spa.unomaha.edu/GraduateCertificate))

**Other Program Related Information**

The certificate in Public Management can be obtained online. These courses can be transferred into the MPA program upon acceptance into the MPA program.
Secondary Education, MS

Department of Teacher Education, College of Education

Vision Statement
Designed for those teaching young people in secondary schools across a variety of curricular areas, our Secondary Education program offers an integrated approach to developing the skills and dispositions needed for today's educational environments. Choose a program of study that will allow you to explore both content and pedagogy that supports your professional goals and standards of practice.

Our program is specifically designed around the four pillars of:

- Evaluating research to determine impact on classroom practice
- Using assessment to drive instructional decision making
- Considering culturally responsive teaching practices to teach to student strengths
- Developing personalized theoretical frameworks for effective teaching

Program Contact Information
Dr. Rebecca Pasco, Graduate Program Chair (GPC)
Roskens Hall (RH) 308
402-554-2119
rpasco@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-education/teacher-education/graduate/secondary-education.php)

Other Program-Related Information
The master's degree in Secondary Education does not lead to initial teacher certification.

Unclassified Students
Students who are not planning to pursue a program leading to a graduate certificate or a master’s degree can be admitted to Secondary Education with unclassified status. Candidates holding a previous master’s degree in education who are seeking additional teaching endorsements may wish to choose an unclassified status. Unclassified students are allowed to take courses for which they meet the prerequisite. Successful completion of graduate courses as an unclassified student does not obligate the department to accept those courses for credit toward the fulfillment of degree requirements. Formal advisement in an endorsement area is required.

Admissions

Application Deadlines
- Fall: August 1
- Spring: December 1
- Summer: June 1

Program-Specific Requirements
- A minimum undergraduate GPA of 3.0 (on a 4.0 scale).
- A valid teaching certificate or statement of interest in/evidence of work or research with children, youth, or adults in teaching and learning environments.
- UNO College of Education’s "Personal and Professional Fitness" form
- International students who do not intend to teach in the U.S. may be eligible for admission.
  - International students seeking admission to this program must have a minimum TOEFL score of 550 (paper), 213 (computer-based), 80 (internet-based), 6.5 IELTS, or 53 PTE.
  - Contact the TED Graduate Program Chair for additional admission information.
  - All new graduate candidates are admitted provisionally. When candidates, successfully complete 12 TED graduate credit hours, candidates will work with their assigned advisor to complete to complete the formal admissions process required to achieve an unconditional admission status. The formal admission process replaces all admission exams.

Degree Requirements
The Master of Science in Secondary Education requires 36 hours of graduate level courses in four areas:

- Research
- Assessment
- Culturally responsive teaching
- Theoretical frameworks for effective teaching

Formal Admission
Candidates are admitted provisionally until completion and successful evaluation of formal admission materials. Submitted materials are reviewed to determine if the candidate’s status will be changed to fully admitted after successful completion of 12 graduate hours. The formal admission process replaces the admission exam.

To move from provisional to formally admitted:
- During the term in which you will complete at least 12 hours of TED courses -
  - Submit a formal letter of application
  - Complete a degree plan of study with an assigned advisor

- Instruction in Urban Schools Certificate (p. 858)

TED 8000 SPECIAL STUDIES (1-3 credits)

A series of intensive studies especially for in-service teachers scheduled as regular seminars or classes, according to purpose.

Prerequisite(s)/Corequisite(s): Graduate status

TED 8006 SPECIAL METHODS IN THE CONTENT AREA (3 credits)

This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 4000).

Prerequisite(s)/Corequisite(s): TED 3690 and TED 3550

TED 8010 INTRODUCTION TO RESEARCH (3 credits)

This course will introduce advanced degree candidates to (1) an understanding of the scientific method as applied to behavioral research, (2) assessment, evaluation, descriptive, causal-comparative, experimental and historical data gathering procedures and analytical strategies, (3) sampling theory, techniques, distribution and hypothesis testing, (4) specific designs, methods, and tools of research, (5) search and retrieval of published research, both American and international (global), in the library and over the Internet, (6) critical evaluation of research studies, (7) basic statistics, both descriptive and inferential, and (8) preparation of a research proposal containing three chapters: Problem, Review of Related Research (from an international global perspective with particular sensitivity toward multicultural issues), and Methodology.

Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8020 HISTORY AND PHILOSOPHY OF EDUCATION (3 credits)

This course is designed to provide a critical perspective, both historical and philosophical, for understanding education in the United States. The course examines critically the evolution of educational thought and practice from the Colonial era to the present U.S.

Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8030 SEMINAR IN EDUCATION: SPECIAL TOPICS (1-3 credits)

This is a variable content course focusing on topics of current relevance to PK-12 teachers.

Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8040 SEMINAR ON STUDENT TEACHING/NEW TEACHER INDUCTION (3 credits)

The seminar is designed for experienced teachers who are, or may be, serving as cooperating teachers for student teachers or as mentor teachers for beginning teachers. Participants will study the purposes, techniques, and trends involved in serving as a cooperating teacher or as a mentor.

Prerequisite(s)/Corequisite(s): Successful teaching experience is required for this course.

TED 8050 DATA-DRIVEN DECISION MAKING FOR EDUCATORS (3 credits)

This course provides graduate students with hands-on experiences that model data-driven decision making for building educational success in today's classroom. Graduate students will learn how to create valid and reliable assessments; to interpret standardized test data; to build data models that identify student, classroom, program, and school needs; and in general, to systematically enhance educational decision making from a base of carefully collected information. Graduate students will also explore data collection and analysis strategies associated with technologies such as cloud computing, tablet computers and smart phones. In addition, they will experience data-driven decision-making models that can be integrated into student lessons to not only teach more effectively with data-driven decisions, but to also be able to teach students about data-driven decision making. The course will use real data sets and cases, in interesting, hands on and technology-rich activities, to help educators learn how to find the "educational story" represented by a set of carefully collected data points.

(Cross-listed with STEM 8050).

Prerequisite(s)/Corequisite(s): Graduate standing.
TED 8055 FOUNDATIONS OF ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)
This course is designed to enhance candidates' understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Language Learners (ELLs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Language Learners (ELLs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education's English as a Second Language (ESL) teaching endorsement; required for undergraduate students pursuing the ESL endorsement. (Cross-listed with TED 3050).
Prerequisite(s)/Corequisite(s): TED 2300 (EDUC 2010) prior to or concurrent enrollment.

TED 8060 CURRENT ISSUES AND TRENDS IN EDUCATION (3 credits)
The course is an advanced study of current issues and trends which have substantial impact on PK-12 education. The graduate candidates who take this class will read, analyze, and evaluate relevant research in order to become conversant in those issues.
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8070 TEACHING MULTIPLE INTELLIGENCE (3 credits)
This course focuses on the utilization of the multiple intelligences (MI) theory by teachers to enhance children's understanding of various disciplines. Graduate candidates will have the opportunity to explore, evaluate, and develop various methodologies that foster understanding.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8080 STORYTELLING AND EDUCATION (3 credits)
This course is designed to consider the importance of storytelling, to provide teacher candidates with the background materials for storytelling, to study resource material for storytelling from a variety of cultures, and to develop techniques for storytelling. Actual experience in storytelling and opportunities for evaluating storytelling experiences will be provided.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8090 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles, teaching strategies, and curriculum materials and how they can be related to the teacher's classroom presentation. This course is designed to furnish the teachers with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles to help the teacher be an effective teacher of economics K-12.
Prerequisite(s)/Corequisite(s): Open to any graduate candidates with no previous college work in economics who are teaching K-12. Not open to majors in economics.

TED 8100 RESEARCH PROJECT (1-3 credits)
This course is designed for individual or group study and analysis of specific problems in schools dealing with curriculum and instruction in areas which have a broad scope of application rather than a specific level.
Prerequisite(s)/Corequisite(s): Approval of Advisor.

TED 8110 INTRODUCTION TO MULTICULTURAL EDUCATION (1 credit)
This course is designed for certificated teachers seeking renewal of Nebraska certification under Nebraska LB 250. The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8130 LANGUAGE, CULTURE, AND POWER (3 credits)
This course will focus on the intersection of language, culture, and power in the schools. This seminar will research how each component impacts the students and teachers in the classroom.

TED 8150 ANTI-RACISM EDUCATION: PRINCIPLES AND PRACTICES (3 credits)
This course provides a theoretical analysis of race, racism in the United States, and the implications for anti-racist education. In addition to exploring the key features of anti-racism education, the course also addresses other axes of oppression, namely, class and gender, with a critical focus on racialized power and privilege, and how such features function in the broader U.S context as well as the schooling environment. Of equal importance is a critical interrogation of the historical, ideological, and political processes that produce and maintain racism. Course participants explore pedagogies, curriculum, and school leadership strategies as mechanisms for instituting anti-racism work in schools and communities.
Prerequisite(s)/Corequisite(s): Graduate Status

TED 8170 DEVELOPMENTAL ASSESSMENT OF THE YOUNG CHILD (3 credits)
This course is designed as a survey of developmental assessment in early childhood education (ages birth to eight years). Selection of assessment tools and strategies, implementation, data collection, analysis of results, and teaching impact are addressed in context of key assessment purposes in the early childhood field.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8180 CULTURALLY RESPONSIVE TEACHING (3 credits)
This course includes an introductory analysis of the societal and institutional processes and problems which have bearing upon the education of children in urban settings. In addition, the course will focus on knowledge, skills and dispositions related to instructional strategies and classroom management needed for effective teaching in an urban environment.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8190 CONTEMPORARY ISSUES IN URBAN EDUCATION (3 credits)
This course is designed for candidates who wish to keep abreast of contemporary issues which confront the educational institution and teaching profession within the urban milieu.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8200 SOCIAL WORLDS OF THE YOUNG CHILD (3 credits)
This course will explore theoretical and cultural perspectives on the social and emotional development of young children. This course will also examine the relationship between social emotional development, guidance practices, democratic life skills, and school readiness.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8210 THE PRINCIPLES OF MULTICULTURAL EDUCATION (3 credits)
This course will develop practicing teachers' awareness of and skill in meeting the needs of P-12 students with regards to the areas of human understanding, acceptance and value. Candidates will examine existing attitudes towards various minority groups such as racial, ethnic, gender, exceptionality, etc. School materials and attitudes will also be examined in determining the effect they have on PK-12 students.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8220 PLAY AS A LEARNING MEDIUM IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides an in-depth examination of young children's play and its curricular role in the early childhood classroom. The origins, developmental outcomes, assessment, curricular implementation, and evaluation of play will be covered, with an emphasis on play as a major component of developmentally appropriate practice with young children. The focus is on teachers learning to help children become partners in the operation of the learning environment.

TED 8230 LITERATURE FOR THE YOUNG CHILD (3 credits)
Literature for the young child is examined through the lens of developmentally appropriate practice for informing educators’ interactions with children and also for developing high-quality, literature-related projects of study across the early childhood (birth-through-age-eight) continuum.
Prerequisite(s)/Corequisite(s): Graduate Status.
TED 8240 FAMILY, SCHOOL, AND COMMUNITY PARTNERS (3 credits)
This course will examine the purposes and methods for developing family, school, and community partnerships. Candidates will explore characteristics of diverse families and develop the skills necessary for planning, design, implementation, and evaluation of effective partnerships in early childhood settings.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8250 ASSESSMENT FOR CLASSROOM TEACHER (3 credits)
This course studies assessment principles, effective practices, and classroom assessment processes throughout the curriculum. The research regarding assessment for learning is studied and application is made to classroom practices.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8260 ADVANCED CURRICULUM IN EARLY CHILDHOOD (3 credits)
This course is designed to provide an in-depth examination of the processes used in selecting and implementing appropriate curricular content in programs for children ages three to eight years. Particular emphasis is on the role of the teacher as a dedicated practitioner and reflective scholar in the early learning environment.

TED 8270 TRENDS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides a context for examining socio-political and research-based influences underlying trends in early childhood education at the local, national and international levels.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8286 PATTERNS OF CARE IN EARLY CHILDHOOD EDUCATION (3 credits)
Exploration of contemporary patterns of home and school care of the young child from birth to six years.

TED 8296 LEARNING MATERIALS FOR EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed to promote the development of sound criteria for use in selecting appropriate learning materials for children from three to eight years of age.
Prerequisite(s)/Corequisite(s): TED 8260

TED 8300 EFFECTIVE TEACHING PRACTICES (3 credits)
This course focuses on specific characteristics and behaviors of effective teachers. Course content will be derived from research on teaching and learning.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8330 ANALYSIS OF TEACHER BEHAVIOR (3 credits)
This course is designed for educators who want to study, implement, reflect upon and share best practice. Candidates will examine the role and responsibilities of teachers as educational leaders and assume a role in advancing the scholarship of teaching.

TED 8376 TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TED 4390).
Prerequisite(s)/Corequisite(s): Junior standing, TED 4370, EDUC 2510, EDUC 2520, EDUC 2524

TED 8410 IMPROVEMENT OF INSTRUCTION: SPECIAL TOPICS (3 credits)
This course provides an in-depth study of instructional theory, research, and methodology designed to extend teachers' professional knowledge base and enhance their pedagogical skills. When offered, a course may be limited to improvement of instruction in a selected subject area. (Cross-listed with STEM 8410).
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8420 TRENDS AND TEACHING STRATEGIES IN SCIENCE EDUCATION (3 credits)
This course is designed for the graduate candidate in the Department of Teacher Education whose study program emphasis is in the area of science education. The course will describe and analyze past and present trends in science education, including curricula, teaching-learning strategies, the laboratory and instructional materials. The course focus will be K-12 and as such is meant to serve both elementary and secondary graduate candidates. (Cross-listed with STEM 8420).

TED 8430 SCHOOL CURRICULUM PLANNING (3 credits)
This course is designed to provide advanced degree candidates with an understanding of the theory, principles, and practices utilized in curriculum planning in American schools. This course focuses on the principles and practices of effective curriculum planning and teachers' part in these processes as curriculum developers. (Cross-listed with STEM 8430).

TED 8470 TEACHING THE LANGUAGE ARTS (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching reading, writing, listening, and speaking. Candidates will learn about research supported appropriate language arts instruction strategies and assessments. This course will inform graduate students as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

TED 8480 FOUNDATIONS OF BILINGUAL EDUCATION (3 credits)
This course is designed to give future and current teachers a thorough understanding of the theoretical, political, historical, and practical foundations of bilingual/multicultural education in the United States. As dedicated practitioners, reflective scholars, and responsible citizens, graduate students will have knowledge of factors that contribute to effective multicultural and bilingual learning environments that promote individual and societal bilingualism. Advanced Spanish language proficiency required.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8490 SPANISH LANGUAGE ARTS (3 credits)
This course is designed to reinforce first and second language acquisition theory as it relates to dual immersion settings. Best practices for developing and reinforcing bilingualism and biliteracy are presented and used for planning and delivering instruction. Spanish fluency is required for the course.
Prerequisite(s)/Corequisite(s): Graduate status required for graduate students pursuing the bilingual education endorsement and concentration (does not lead to a Nebraska Department of Education teaching endorsement). Advanced Spanish language proficiency required.

TED 8510 AEROSPACE EDUCATION WORKSHOP (3 credits)
This course will focus on aviation and space education and its impact on society. It will seek to communicate knowledge, impart skill, and develop attitudes relative to the scientific, engineering and technical as well as the social, economic and political aspects of aviation and space flight efforts. (Cross-listed with AVN 8510, STEM 8510).
Prerequisite(s)/Corequisite(s): Graduate standing.
TED 8520 SCHOOL LIBRARY CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their schools and communities.
Prerequisite(s)/Corequisite(s): There are no course prerequisites for the Capstone Practicum but candidates must be in the final 2 semesters of their library media program & must complete an application for the Practicum the semester prior to their practicum. Not open to non-degree grads.

TED 8530 INSTRUCTIONAL DESIGN STRATEGIES FOR STEM EDUCATORS (3 credits)
This course is designed to provide graduate candidates with the opportunity to enhance interdisciplinary instructional strategies, curricular understanding, and lesson preparation in the areas of science, technology, engineering, and mathematics (STEM) through analysis and reflective practices in STEM. This course provides hands-on experiences that model STEM integration techniques, including how to effectively engage with community agencies and partners to bring STEM into the classroom. Teacher professionals will be provided with tools, resources, and strategies to help them explore and enhance current, new, or supplemental curriculum activities that will enhance STEM learning, student engagement, and motivation. (Cross-listed with STEM 8530).
Prerequisite(s)/Corequisite(s): Graduate Standing

TED 8540 INTRO TO TECHNOLOGY TOOLS FOR LEARNING (3 credits)
This course is designed to help educators become comfortable and competent with infusing a wide variety of computer-mediated educational technologies into the learning environments of the students with whom they work, as well as become familiar with philosophical, psychological and sociological notions of the impacts of computer applications upon social institutions, such as schools.

TED 8550 DIGITAL MULTI-MEDIA IN LEARNING (3 credits)
This course provides participants with an introduction to the use of multimedia for teaching and learning. Participants will research and share the current knowledge base on the issues and effectiveness of various media learning programs, gain experience with multimedia applications, create multimedia learning materials, evaluate existing multimedia learning opportunities and articulate personal principles concerning multimedia instruction and learning.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8560 SUPPORTING INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed to help educators and others who wish to become better advocates of technology integration in the classroom and/or to become a Technology Coordinator or Educational Technician in all curricular areas and all grade levels. Course candidates will learn to use problem-solving skills to evaluate and implement strategies to keep technology up to date, effectively use technology in the classroom, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8570 INTERNET IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators actively explore instructional implementations of Internet use appropriate for use in K-12 classrooms, successful diffusion of Internet innovations in educational environments, and emerging multicultural “breaking down the walls of the classroom” concepts available to educators through Internet use.

TED 8580 COLLABORATION TOOLS IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators design, author, and utilize collaborative web-based instructional materials that will implement active learning and will be appropriate for use in K-12 classrooms.
Prerequisite(s)/Corequisite(s): TED 8570 or equivalent

TED 8596 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course introduces technology and technical literacies required of educators and information specialists in 21st Century libraries and classrooms. Course topics include information literacy, instructional design in digital environments, Web page design and construction, social networking and learning, and academic integrity. (Cross-listed with TED 4590).

TED 8600 ADVANCED SEMINAR IN EDUCATIONAL TECHNOLOGY (1-3 credits)
This is a variable content course focusing on selected advanced topics in educational technology. Course topics will include such subjects as optical technologies, robotics, distance education, and virtual realities. The course may be taken more than once for credit, provided that the topics differ, with a maximum of 6 credit hours.

TED 8610 TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing genres extend throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8620 ADVANCED SUPPORT OF INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for P-12 educators who wish to become better advocates of technology integration or become technology coordinators or school technicians. Course enrollees will evaluate and implement advanced strategies to keep technology up to date, effectively use technology, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): TED 8560

TED 8650 CHILDREN’S LITERATURE AND EDUCATION (3 credits)
Candidates in this graduate course will explore story, poetry, drama, and informational materials for elementary students with an emphasis on methods for including literature in school curricula with an awareness of diverse children's lives, discourses, and understandings. Examines current issues, recent materials, and the theoretical and research base of this field to develop meaningful and creative learning, literacy, and library experiences for children.

TED 8660 YOUNG ADULT LITERATURE (3 credits)
This course extends candidates’ knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8690 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economics education, i.e. economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, candidates develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. Not open to economics majors. (Cross-listed with ECON 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.
TED 8695 LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 3690).
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550.

TED 8700 ELEMENTARY EDUCATION CAPSTONE COURSE (3 credits)
This course is designed as a required, final capstone course for Elementary Education graduate students to be taken in the last nine hours of the Master of Science program. A grade of B or better must be received in TED 8700 to show satisfactory completion of the course and for program completion.
Prerequisite(s)/Corequisite(s): TED 8010 and permission of the Elementary Education Program Chair. Not open to non-degree graduate students.

TED 8710 RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 8726 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 4720).

TED 8746 ORGANIZATION OF INFORMATION (3 credits)
Candidates will demonstrate a basic understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 4740).

TED 8756 ADVANCED CATALOGING AND CLASSIFICATION (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging of non-book materials (including serials and digital resources) in 21st Century libraries and information agencies using the Library of Congress and Dewey Decimal classification schemes and Library of Congress subject headings. (Cross-listed with TED 4750).
Prerequisite(s)/Corequisite(s): TED 8746

TED 8760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources.

TED 8770 INTEGRATING TECHNOLOGY INTO INSTRUCTIONAL DESIGN (3 credits)
The purpose of this course is to introduce participants to effective methods for the integration of educational media into instructional design, thereby further developing themselves as dedicated practitioners, reflective scholars and community leaders. The course provides participants (1) knowledge of broad instructional design theories and models with a concentration on constructivism, (2) experience in designing instruction that effectively integrates technology into the teaching-learning process, and (3) experience in producing instructional media. This course is designed for in-service library media or instructional technology specialists as well as regular classroom teachers. It is also useful for others interested in learning about the various types and applications of educational media.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8800 MULTICULTURAL LITERATURE FOR CHILDREN AND YOUTH (3 credits)
This is designed as a graduate-level course dealing with utilization of literary materials representing authors and content from multiple perspectives, particularly authors whose cultural and ethnic backgrounds differ from the mainstream.

TED 8806 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
Candidates will demonstrate an understanding of the concepts and activities integral to leading and managing 21st Century libraries and information agencies. Candidates will demonstrate an understanding of leadership principles and management strategies that engage policies and procedures in support of the personal, academic and professional information needs for a diverse array of patrons and stakeholders. (Cross-listed with TED 4800).
Prerequisite(s)/Corequisite(s): Graduate status or non-degree graduate student

TED 8810 STEM IN EARLY CHILDHOOD EDUCATION: CURRICULUM AND RESEARCH (3 credits)
This course will explore theoretical and foundational pedagogical strategies in early childhood education used to deliver integrative STEM education in the preK-12 setting. In order to understand the research and practice of STEM disciplines in preK-12, it is necessary to examine the social, cultural, political, and functional aspects that influence them. Candidates will investigate the nature of STEM education, Early Childhood Education (ECE) pedagogy and perspectives of learning, content knowledge and dispositions for educators of STEM topics, and issues of access and equity for STEM education through literature, discussion, and practice. This course includes a community outreach component in which candidates will use qualitative methods to observe class topics in public settings. (Cross-listed with STEM 8810)
Prerequisite(s)/Corequisite(s): Graduate status

TED 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 4810).
TED 8820 CAPSTONE IN STEM EDUCATION (3 credits)
This course will prepare graduate students for the integration, articulation, and differentiation of curriculum and instruction in and between the STEM core areas of Science, Technology, Engineering, and Mathematics. Special emphasis will be on using the STEM core content to help provide applications and context to existing science and mathematics curriculum and instruction and on providing leadership in developing curriculum for mathematics and science dependent courses in engineering and technology. Prerequisite(s)/Corequisite(s): The student must be enrolled in one of the following concentrations: STEM, mathematics, science, technology; and be enrolled in the last six hours of their program of study. Not open to non-degree graduate students.

TED 8840 ENGINEERING EDUCATION EXTERNSHIP (3 credits)
This graduate course will address the best practice of effective teaching and learning in Engineering Education through professional collaboration between K-12 STEM (Science, Technology, Engineering, and Mathematics) teachers and practicing engineering professionals. K-12 STEM teachers, as graduate students in the course, will learn about and address real-world applications and career opportunities in STEM education through the externship. K-12 STEM teachers will research and develop authentic, experiential learning opportunities and projects for the classroom through course supports associated with lecture, discussion, and partnerships with practicing engineering professionals. The externship will be integral to the K-12 STEM teachers' experiences and work in this course, as the course models effective professional collaboration founded on experience, knowledge, and skills to achieve a curriculum enhancement goal. K-12 STEM teachers' project-development work will align closely with current national and Nebraska science, technology, and mathematics standards as well as with the interdisciplinary context of STEM instruction, through the instructional lens and context of utilizing the engineering design process. (Cross-listed with STEM 8840)
Prerequisite(s)/Corequisite(s): Graduate status. Not open to non-degree graduate students.

TED 8850 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with SPED 8980).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

TED 8856 COORDINATION TECHNIQUES IN VOCATIONAL EDUCATION (3 credits)
This course reviews responsibilities and techniques of coordination for the vocational teacher-coordinator and/or vocational coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TDE 4850).

TED 8860 INVENTION & INNOVATION IN ENGINEERING EDUCATION (3 credits)
This course will address emerging trends in STEM education for in-service K-12 STEM teachers with a focus on the use of engineering education practices in teaching and learning content. STEM teachers will receive applicable, hands-on, classroom-ready experiences through lecture, professional instruction, and projects that will emphasize product design and creation through the Engineering Design Process. The Engineering Design Process will be central to the candidates' experiences in this course and will be used by the candidates to develop curriculum utilizing emerging trends to supplement current course content and standards. Interdisciplinary planning will be central to the course. (Cross-listed with STEM 8860).
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8880 LEADERSHIP IN EARLY CHILDHOOD EDUCATION (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8890 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments. Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8895 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently. Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8896 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8900 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner. Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8905 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8910 PRINCIPLES AND PRACTICES FOR TEACHING READERS (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8910 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8910 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments. Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8920 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently. Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8930 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner. Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8940 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments. Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8950 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8960 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently. Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8970 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner. Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8980 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.

TED 8990 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship. Prerequisite(s)/Corequisite(s): Graduate status.
TED 9130 ASSESSMENTS AND INTERVENTIONS - ELEMENTARY (3 credits)
This course is designed for graduate candidates enrolled in the Literacy Masters or Reading Specialist endorsement program. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches that support reading development. This knowledge is applied through a practicum experience with elementary students in which candidates integrate knowledge and practices related to assessment and evaluation of readers' strengths and needs.

TED 9140 ASSESSMENT AND INTERVENTION - SECONDARY (3 credits)
This course is designed for graduate candidates in literacy endorsement and Master's programs. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches as they relate to reading difficulties among middle and high school students. Included in this course is knowledge about the role and responsibility of a literacy leader as it relates to coaching, mentoring, supervision, and evaluation of a reading program. Application of this information is demonstrated through a practicum experience with middle and high school students in which candidates integrate knowledge and practices related to assessment and evaluation of readers' strengths and needs.

TED 9180 LITERACY RESEARCH SEMINAR (3 credits)
This course will develop advanced degree candidates' understanding and ability to critically examine current literacy research through work with (1) scientific methods of quantitative and qualitative research (2) discussion of historical trends in literacy research, (3) designs, methods, and tools of research, and (4) reviewing and critically examining current research studies in literacy. These examinations will be conducted from the perspectives of knowledge about literacy processes, classroom practice, and influence of previous research results. Teacher candidates will apply these issues in an action research project they design.

TED 9190 LITERACY GRADUATE CAPSTONE (3 credits)
This course is designed to help Literacy Masters students synthesize the knowledge gained from the program in order to serve as literacy leaders within the complex organizations of classrooms, schools, and school districts. In this course students will integrate their learning across the program in order to organize their future activities in teaching, leadership, advocacy, and engagement opportunities in ways that honor the interrelationships among classroom, school, sociocultural and economic contexts. They will prepare to engage with all literacy education stakeholders in cutting edge, innovative ways that advance both the learning of PK-12 students and the literacy education field.

Prerequisite(s)/Corequisite(s): This course is designed as a capstone event. Accordingly, students must have no more than 6 additional remaining credit hours of coursework. Permit to enroll required.

TED 9200 CRITICAL PEDAGOGY: TEACHING FOR SOCIAL JUSTICE (3 credits)
This course examines ways in which ideology, power, and culture intersect in P-12 educational settings. Undemocratic, inequitable, and oppressive structures are identified. Possibilities for democratic, equitable transformations are proposed.

Prerequisite(s)/Corequisite(s): Graduate status can be applied to all school settings, especially those with diverse student populations.

Admissions
Application Deadlines
• Fall: August 1
• Spring: December 1
• Summer: June 1

Program-Specific Requirements
• A minimum undergraduate GPA of 3.0 (on a 4.0 scale).
• A valid teaching certificate or statement of interest in/evidence of work or research with children, youth, or adults in teaching and learning environments.
• UNO College of Education's "Personal and Professional Fitness" form
• International students who do not expect to teach in the US may be eligible for admission.
  • International students seeking admission to this program must have a minimum TOEFL score of 550 (paper), 213 (computer-based), 80 (internet-based), 6.5 IELTS, or 53 PTE.
  • Contact the TED Graduate Program Chair for additional admission information.

All new graduate candidates are admitted provisionally. When candidates have successfully completed 12 TED graduate credit hours, candidates will work with their assigned advisor to complete the formal admissions process required to achieve an unconditional admission status. The formal admission process replaces all admission exams.

Social Work

Degree Programs Offered
• Social Work, MSW (p. 862)
• Social Work, MSW and Criminology and Criminal Justice, MS (MSW/CRCJ) (p. 689)
• Public Administration, MPA and Social Work, MSW (MPA/MSW) (p. 844)
Certificates Offered

- Managing Juvenile and Adult Populations Certificate (p. 691)

SOWK 8026 SOCIAL WORK WITH THE AFRICAN AMERICAN FAMILY (3 credits)
This course seeks to develop in students an awareness and understanding of some of the social and psychological/cognitive realities influencing the behavior of African American youth and families across the lifespan. The content draws upon theories, research and social work practice skills relevant to African American youth and families, as well as the cognitive process and social systems which impact African youth and families. Cross-listed with SOWK 4020.
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8046 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly (Cross-listed with GERO 4690, GERO 8696, SOWK 4040)

SOWK 8056 ETHNIC DIVERSITY AND SOCIAL WORK PRACTICE (3 credits)
This course focuses on effective generalist social work practice with clients of ethnic diversity. (Cross-listed with SOWK 4050)
Prerequisite(s)/Corequisite(s): MSW degree students only. Not open to non-degree graduate students.

SOWK 8070 HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT I (3 credits)
This course covers the major contributions of theories from the biological, behavioral and social sciences relevant to understanding human functioning across the lifespan, particularly infancy through adolescence, within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities) as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): Admission to the MSW program and undergraduate human biology content. Not open to non-degree graduate students.

SOWK 8080 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II (3 credits)
This course covers the major contributions of theories from the biological, behavioral and social sciences relevant to understanding human functioning across the life span, particularly young adulthood through late adulthood within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities) as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): SOWK 8070. Not open to non-degree graduate students.

SOWK 8090 SOCIAL WELFARE POLICY (3 credits)
This course is an introduction to social welfare policy analysis. The course examines social welfare policy taking into account historical, political, economic, social, and cultural perspectives. Basic concepts and choices are examined in relation to values, ethics, context, social functioning and social consequences.
Prerequisite(s)/Corequisite(s): Admission to the MSW program. Not open to non-degree graduate students.

SOWK 8110 INSTITUTIONAL OPPRESSION (3 credits)
This course is about institutional racism, sexism and classism as it relates to social policy and social injustice. The focus is on how institutional oppressions are related and are mutually reinforcing. The consequences of institutional racism, sexism and classism are examined at the individual, group, family, and agency levels.
Prerequisite(s)/Corequisite(s): Admission to MSW Program or permission of the School of Social Work. Not open to non-degree graduate students.

SOWK 8130 GENERALIST PRACTICE I (3 credits)
This course provides an introduction to the values, ethics, knowledge, and skills of generalist social work practice. Using constructs from the Generalist Intervention Model, systems theory, and the strengths-based perspective, students learn about engagement, assessment, planning and contracting, intervention, evaluation, and termination. Diversity and case management are emphasized as part of bringing planned change to client systems, including individuals and families.
Prerequisite(s)/Corequisite(s): SOWK 8070 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8150 GENERALIST PRACTICE II (3 credits)
This practice course is an introduction to a goal-oriented planned change process with an emphasis on educational, support, and task groups, organizations, and communities. The focus is on building knowledge and developing indirect practice skills in collaboration, planning, empowerment, and advocacy to effect social change using the Generalist Intervention Model.
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to, and SOWK 8080 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8160 GENERALIST SOWK PRACTICUM I (3 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a selected social service agency. The student will be introduced to a variety of social work practice roles, develop professional relationships with client systems and learn to apply different interventions to effect change across the life span. In order to facilitate integration of classroom theory with practice, students will attend a seven-week practicum seminar (2 hours per week).
Prerequisite(s)/Corequisite(s): Prior: (deficiencies determined at admission)/grad/undergrad research and grad/undergrad statistics, and permission of the School. Prior to or concurrent: SOWK 8070, SOWK 8090, and SOWK 8130. Not open to non-degree graduate students.

SOWK 8170 GENERALIST SOWK PRACTICUM II (3 credits)
This course is designed to provide supervised, individual, experiential learning offered within the setting of a social service agency, typically the same agency as in SOWK 8160. This course builds upon opportunities provided and competence achieved in Generalist Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 8160, SOWK 8080, SOWK 8110, and SOWK 8150 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8190 RESEARCH & COMPUTER APPLICATIONS (3 credits)
This course focuses on the use of research and computer programs in social work practice. Social and behavioral science research methods are reviewed. Students learn to analyze existing data using SPSS and to write an empirical research report. The use of Microsoft Word, Excel, and PowerPoint in social work practice are explored.
Prerequisite(s)/Corequisite(s): Undergraduate or graduate research course, undergraduate or graduate statistics course. Not open to non-degree graduate students.

SOWK 8220 CLINICAL SOCIAL WORK WITH INDIVIDUALS (3 credits)
This advanced course provides an in-depth study of several theories of personality and behavior, and of therapeutic approaches derived from the theories. Major focus is on therapy with individuals across the life span, but application to family systems is also considered, as well as the fit of each theory within the broader social systems framework.
Prerequisite(s)/Corequisite(s): SOWK 8160 or admitted as an Advanced Standing student. Not open to non-degree graduate students.
SOWK 8230 CLINICAL SOCIAL WORK WITH GROUPS (3 credits)
This advanced course provides knowledge of and experience in working with groups as systems. It includes both assessment of dynamics as well as developing skills in intervention modalities appropriate for working with various types of groups.
Prerequisite(s)/Corequisite(s): SOWK 8220; Not open to non-degree graduate students.

SOWK 8240 SOCIAL WORK PRACTICE WITH CHILDREN (3 credits)
This advanced practice course provides an overview of several social work interventions used with children and adolescents. A brief review of normal child development and the family life cycle is the context for presenting a range of children’s problems and special needs. The course will cover several intervention models and address their application in various service settings and in individual, family, group, and social action formats. Children in diverse family settings, institutions, and in minority families and cultures are considered to understand unique therapeutic issues present for them.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8250 SOCIAL WORK PRACTICE WITH FAMILIES (3 credits)
This course considers the family context as a system for therapeutic intervention. The family unit and its diverse forms are defined; theories for assessment and understanding family’s interactions across the lifespan are considered, and the alternative modalities useful for treating family dysfunction are presented. As a practice-oriented course, it emphasizes the development of professional skills in working with the family across the lifespan.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8260 SOCIAL WORK PRACTICE WITH OLDER ADULTS (3 credits)
This course in the advanced social work practice curriculum focuses on micro- and macro-level practice skills essential to effective social work practice with older adults. This course emphasizes clinical interventions that focus on individuals and small groups as well as community practice skills that involve social marketing and community organizing, networking, and collaborating with community professionals.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8270 SOCIAL WORK PRACTICE WITH SEXUAL CONCERNS (3 credits)
This course provides a survey of the current knowledge base, theory and research in human sexuality with a focus on advanced practice intervention and prevention approaches for a variety of sexuality issues faced by individuals, couples, and families throughout the lifespan.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8280 SOCIAL WORK PRACTICE WITH COUPLES AND CHANGING FAMILY STRUCTURES (3 credits)
This is an advanced practice course designed to prepare students to provide therapy for couples and families at all life stages who are experiencing problems in intimacy, marital, divorce, or remarriage adjustment.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8290 SOCIAL WORK PRACTICE IN HEALTH AND MENTAL HEALTH (3 credits)
This course emphasizes the development of advanced level clinical and social work practice skills for working with selected acute and chronic health and mental health conditions affecting individuals across the life cycle.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8400 ADVANCED SOWK PRACTICUM I (3 credits)
This course is designed to provide supervised, individual professional learning experiences offered within the setting of a selected social service agency in the student's chosen concentration. The student will be introduced to a variety of advanced direct and indirect social work practices. The Dual Degree Program is a part of Integrated Practice. Dual Degree students may take SOWK 8400 as their administrative practicum. If so, then PA 8010, 8050 and 8090 must be taken prior to and one course from concentration prior to or concurrently.
Prerequisite(s)/Corequisite(s): SOWK 8190, SOWK 8220, and permission of the School. Not open to non-degree graduate students.

SOWK 8410 ADVANCED SOWK PRACTICUM II (3 credits)
This course is designed to provide supervised, individual professional learning experiences offered within the setting of a social service agency in the student's chosen concentration, typically the same agency as in SOWK 8400. This course builds upon opportunities provided and competence achieved in Advanced Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 8400 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8420 ADVANCED SOWK PRACTICUM III (1-3 credits)
This course is designed to provide a third supervised, individual professional learning experience offered within the setting of a social service agency in the student's chosen concentration. This course builds upon opportunities provided and competence achieved in Advanced Social Work Practicum II.
Prerequisite(s)/Corequisite(s): SOWK 8410 prior to or concurrent, and permission of the School. Not open to non-degree graduate students.

SOWK 8510 SUPERVISION AND PERSONNEL ADMINISTRATION (3 credits)
This course is an introduction to the administration of social welfare programs in the areas of clinical supervision, administrative leadership, and personnel practices. It provides a basic understanding for professionals who work in agency settings and a foundation for supervisory and administrative practice. It is expected that those who become administrators will build upon this base with specific legal, technical, and procedural knowledge related to their type of agency and level of responsibility.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8516 TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, COUN 8516, SOWK 4510).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. For social work students, SOWK 8686 or COUN 8696 and SOWK 8696 or COUN 8696 must be taken prior to COUN 8516 or SOWK 8516. Not open to non-degree graduate students.

SOWK 8540 SOCIAL WELFARE PLANNING (3 credits)
This course is a macro practice course in social planning in the context of strategic planning and its application to social policy and program change, administrative planning for social services, and planning at the program, agency, and community level.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student. Not open to non-degree graduate students.
SOWK 8550 SOCIAL JUSTICE AND SOCIAL ADVOCACY (3 credits)
This course provides a perspective on national and international social and economic injustices experienced by people under corporate globalization. Practice implications for social workers are addressed.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student or permission of the School. Not open to non-degree graduate students.

SOWK 8560 ADVANCED COMMUNITY PRACTICE (3 credits)
The course uses a community-based service-learning pedagogy designed to help students develop an analytical and empirical approach to empowering communities. The course builds on the social work “person-in-environment” perspective by focusing on the client system and their environmental contexts as a partner in practice. This course is particularly relevant to direct practice with and advocacy for diverse disempowered groups in society.
Prerequisite(s)/Corequisite(s): BSW Degree or SOWK 8170. Not open to non-degree graduate students.

SOWK 8570 ADMINISTRATION OF SOCIAL WELFARE AGENCIES (3 credits)
This course is an advanced macro practice course in administration of social welfare agencies and programs which focuses on resource acquisition, leadership, and financial management in public, non-profit, and for-profit social agencies.
Prerequisite(s)/Corequisite(s): SOWK 8540. Not open to non-degree graduate students.

SOWK 8600 PERMANENCE FOR CHILDREN (3 credits)
This course is about the child welfare system and focuses on policies, laws, and agency structures designed to help abused and neglected children and their families.
Prerequisite(s)/Corequisite(s): SOWK 8170 prior to or concurrent, or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8610 FAMILY AND COMMUNITY VIOLENCE (3 credits)
This course covers family and community violence across the life span with an emphasis on gaining knowledge of the issue, skills in policy analysis, and a broad framework for developing effective services in various service settings.
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8626 TRAUMA AND RESILIENCE (3 credits)
This course provides an overview of issues related to trauma including: the factors related to development of trauma, definitions of trauma, the impact of trauma on individuals, families and communities, and the programs and practices that are most effective and appropriate regarding the social work role in responding to trauma. (Cross-listed with SOWK 4620)
Prerequisite(s)/Corequisite(s): SOWK 8070 and SOWK 8080

SOWK 8650 HEALTH/MENTAL HEALTH POLICIES FOR SOCIAL WORK (3 credits)
This course emphasizes the development of health and mental health policy analysis skills and knowledge for social work students. Major topics include government response to health care, cultural and historical perspectives, service provision, and epidemiological trends across the life span. It provides a framework for clinical interventions in a variety of health and mental health settings.
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8686 MEDICAL & PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopathology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 4680, COUN 4680, COUN 8686)
Prerequisite(s)/Corequisite(s): Admission to the MSW program or permission of the School. Open to those admitted to the Counseling program or by permission.

SOWK 8696 ASSESSMENT AND CASE ASSESSMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, COUN 8696, SOWK 4690).
Prerequisite(s)/Corequisite(s): Admission to MSW program or permission of the School and SOWK 8686 or COUN 8686 (or equivalent course) prior to or concurrent.

SOWK 8806 SOCIAL WORK AND THE LAW (3 credits)
This course presents the fundamental principles of criminal and civil law that have relevance to the practice of social work. Topics include the legal system; legal research methods; professional ethical/legal responsibilities and liabilities; family law; elder law; criminal law; juvenile law; personal injury law; employment discrimination law; capacity to make contracts and wills; rights of institutionalized patients; and rights of handicapped children to an education. (Cross-listed with SOWK 4800)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8816 SPIRITUALITY AND SOCIAL WORK PRACTICE (3 credits)
Social work literature defines spirituality as the human striving for a sense of meaning, purpose, values, and fulfillment. Spirituality is expressed through diverse forms throughout a client’s lifespan; it is central to clients’ understanding of suffering and their attempts to resolve it. This course examines major issues pertaining to spiritually-sensitive social work practice with clients of diverse religious and non-religious (i.e., outside sectarian institutional contexts) perspectives. (Cross-listed with SOWK 4810)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8836 CRISIS INTERVENTION (3 credits)
This course is designed to increase knowledge and skills for practice with crisis situations. The prevalence of crisis experiences within our society and lifespan development necessitates that social workers acquire a knowledge and skill-base for effective and professional crisis intervention practice. Students will study the ABC Model of Crisis Intervention and how to ethically practice with diverse and vulnerable populations. Students will apply crisis intervention theory and models of intervention to various concern areas including but not limited to: suicide, sexual assault, domestic violence, substance abuse, grief and loss, and violence. A systems, strengths, and cultural emphasis will be applied to the various crisis situations covered. (Cross-listed with SOWK 4830)
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8856 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, GERO 8856, SOWK 4850.)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or admitted as Advanced Standing. Not open to non-degree graduate students.
SOWK 8880 TOPICAL SEMINAR IN SOCIAL WORK (3 credits)
Specific seminar topics will focus on advanced content in social work theory and practice. The course description will be announced when a specific topical seminar is proposed. The topics selected will be consistent with School of Social Work program objectives, faculty expertise, and student needs. This course may be repeated for up to nine hours credit.

SOWK 8886 TOPICAL SEMINAR SOCIAL WORK (3 credits)
Specific seminar topics will focus on advanced content in social work theory and practice. The course description will be announced when a specific topical seminar is proposed. The topics selected will be consistent with School of Social Work program objectives, faculty expertise, and student needs. This course may be repeated for up to nine hours credit. (Cross-listed with SOWK 4880)

Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student.

SOWK 8900 SPECIAL STUDIES IN SOCIAL WELFARE (1-3 credits)
This independent study course allows students to pursue a special selected area or topic within social welfare in order to deepen knowledge and/or skills in that particular area.

Prerequisite(s)/Corequisite(s): Admission to the School, and permission of the School. Not open to non-degree graduate students.

SOWK 8940 EVALUATION OF SOCIAL PROGRAMS (3 credits)
This is an advanced research course in the evaluation of social programs and social agencies which focuses on agency organizational structure, program design and effectiveness, and social impact.

Prerequisite(s)/Corequisite(s): SOWK 8190 prior to.

SOWK 8950 RESEARCH METHODS IN CLINICAL PRACTICE (3 credits)
This course provides a study of the issues involved in clinical research methodology. Students are introduced to the tools for documenting the effects of clinical practice interventions for individuals, couples, families and groups (including qualitative and quantitative methodologies: single-case design, standardized measurement, self-report data, self-monitoring, case study, grounded theory etc.).

Prerequisite(s)/Corequisite(s): SOWK 8190 and SOWK 8220. Not open to non-degree graduate students.

SOWK 8960 RESEARCH OTHER THAN THESIS (3 credits)
This course enables students, under faculty supervision, to prepare a research proposal, carry out the study, and prepare a detailed report of the purpose, design, outcome, and significance of the study.

Prerequisite(s)/Corequisite(s): SOWK 8190 and permission of the School. Not open to non-degree graduate students.

SOWK 8990 MASTER'S THESIS (3-6 credits)
The Master's thesis provides students the opportunity to acquire first-hand experience in research methods under faculty direction. With the guidance of the thesis coordinator and a supervisory committee, the student prepares a research proposal, conducts the proposed study, and prepares a detailed report of the purpose, design, results, and implications of the findings.

Prerequisite(s)/Corequisite(s): SOWK 8190 and permission of the School. Not open to non-degree graduate students.

Social Work, MSW
Grace Abbott School of Social Work, College of Public Affairs & Community Service

Vision Statement
The mission of the Grace Abbott School of Social Work at the University of Nebraska at Omaha is to educate students to become highly qualified social workers who serve people of all ages and influence the systems that affect them; to advance knowledge through teaching and research; and to engage with diverse communities to promote socially just societies.

The primary purpose of the social work profession is to enhance human well-being. Social workers help to meet the basic human needs of all people and empower those who are vulnerable, oppressed, or affected by poverty. The social work profession was founded on a set of core principles that still guide its unique purpose and perspective today:

- Service
- Social justice
- Dignity and worth of the person
- Importance of human relationships
- Integrity
- Competence

Social Work maintains a dual focus on individual well-being in a social context and on the betterment of society. Social workers seek to enhance the capacity of people to address their own needs, helping people to identify and address the environmental forces that create and contribute to problems in living. For over 100 years, social workers have worked to promote social justice and social change with and on behalf of individuals, families, groups, organizations and communities, helping millions of people to challenge their circumstances and change their lives, and promoting the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, research and evaluation.

Other Program-Related Information
- The Master of Social Work (MSW) program prepares students for advanced social work practice. Master’s level social workers are employed in public and private agencies, including medical settings, schools, residential treatment centers, court and correctional agencies, and community planning and development agencies. Their activities and interventions are designed to promote a more effectively-functioning society to “provide for the general welfare,” as well as to help individuals, families, groups, communities, and institutions within that society achieve self-fulfillment.

- The MSW degree at the Grace Abbott School of Social Work is accredited by the Council on Social Work Education (CSWE), the national accrediting body for all social work education.

- Information on certification and licensure is available on the Nebraska Department of Health and Human Services website (http://dhhs.ne.gov/Pages/default.aspx).

- Students must enroll in a minimum of two courses (6 credit hours) per semester.
• Students must seek prior approval from the director of the Grace Abbott School of Social Work if they wish to take more than 12 hours of coursework in a single semester.
• Degree must be completed within four (4) years. Exceptions can be requested from the Director.

Admissions
Application Deadlines
• Fall: January 15

Program-Specific Requirements
• Academic Record/Transcript-Undergraduate weighted cumulative GPA of 3.0
• Three (3) Letters of Recommendation.
  • The letters must be professional in nature. Each recommender should describe how they know you (how long and in what capacity), and why they believe you would be a good candidate for the Master of Social Work program.
• Resume
  • Current resume detailing employment history, nature of duties and responsibilities, accomplishments, leadership roles, and community involvement.
• Statement of Purpose: Please answer the following statements/questions in a total of five (5) double-spaced, typewritten pages (12-point font). Your application is considered incomplete if these instructions are not followed.
  • A brief autobiographical statement that discusses who you are and the experiences that led you to social work. Trace the development of your interest in social work. Why have you chosen social work as a profession? Describe the key motivating figure(s), role model(s), or experience(s) important to your decision to become involved in social work.
  • Discuss your career objectives as a professional social worker as you now conceive them. What do you see yourself doing immediately after receiving your MSW?
  • Discuss a contemporary social problem. Include possible causes and potential solutions in your response. What contribution do you want to make to the pursuit of social and economic justice?
  • The Grace Abbott School of Social Work is committed to enrolling students who represent diverse backgrounds and have an aptitude for working with clients of diverse backgrounds. Diversity can be defined by virtue of personal characteristics such as race, ethnicity, gender, age, sexual orientation, disability, class and religion as other characteristics. Diversity may also include personal life experiences such as class, career history, belonging to another culture, working among another culture, dealing with significant personal challenge(s), and knowledge of more than one language. Even if you have had minimal contact with people from diverse backgrounds, please address how you "think" about diversity in relation to the practice of social work and respond to the following questions: a) What are your views regarding diversity? b) How does diversity relate to experiences in your life?

The MSW Foundation Program is a 63 credit hour program available to applicants who do not hold a BSSW degree from an accredited school of social work within the last 10 years.

The MSW Advanced Standing Program is a 39 credit hour program available to applicants who have earned a BSSW degree from an accredited school of social work within the last 10 years.

Completion of the following undergraduate prerequisite courses is required before entering the MSW Program.

• A human biology course or equivalent such as anatomy
• A research methods course (Note: There is a waiver exam available for this prerequisite)
• A statistics course

**Academic Policies and Standards**

**Social Work, MSW and Criminology and Criminal Justice, MS (MSW/CRCJ)**

**Vision Statement**

There is much overlap in the clientele social worker and criminal justice professionals serve. Correctional officers, probation/parole officers, and law enforcement professional are often placed in positions of addressing and counseling delinquents and criminals with several social maladies to manage. Moreover, social work professionals in schools, private practices, and in the capacity of Health and Human Services agencies often work with delinquent and/or criminal populations. In order to help criminal justice professionals better serve the people with whom they work, and for social workers to better understand criminal populations, the UNO Grace Abbott School of Social Work and the School of Criminology and Criminal Justice graduate degree in which students can obtain a Masters in Social Work and a Master of Science in Criminology and Criminal Justice simultaneously.

A dual MSW/MS in Criminology and Criminal Justice would respond to the needs of the community by providing specialized training in working with delinquent and criminal populations. The dual degree will provide highly qualified personnel trained to work in schools, Health Service agencies, criminal justice agencies, and non-profit organizations.

Other Program-Related Information
- Students must enroll in a minimum of two courses (6 credit hours) per semester.
- Students must seek prior approval from the director of the Grace Abbott School of Social Work if they wish to take more than 12 hours of coursework in a single semester.

Admissions
Application Deadlines
- Fall: January 15

Program-Specific Requirements
- Academic Record/Transcript-Undergraduate weighted cumulative GPA of 3.0
- Three (3) Letters of Recommendation
  - The letters must be professional in nature. Each recommender should describe how they know you (how long and in what capacity), and why you would be a good candidate for the MSW/CRCJ program.
- Statement of Purpose: Please answer the following statements/questions in a total of five (5) double-spaced, typewritten pages (12-point font). Your application is considered incomplete if these instructions are not followed.
  - A brief autobiographical statement that discusses who you are and the experiences that led you to social work. Trace the development of your interest in social work. Why have you chosen social work as a profession? Describe the key motivating figure(s), role model(s), or experience(s) important to your decision to become involved in social work.
  - Discuss your career objectives as a professional social worker as you now conceive them. What do you see yourself doing immediately after receiving your MSW?
  - Discuss a contemporary social problem. Include possible causes and potential solutions in your response. What contribution do you want to make to the pursuit of social and economic justice?
  - The Grace Abbott School of Social Work is committed to enrolling students who represent diverse backgrounds and have an aptitude for working with clients of diverse backgrounds. Diversity can be defined by virtue of personal characteristics such as race, ethnicity, gender, age, sexual orientation, disability, class and religion as other characteristics. Diversity may also include personal life experiences such as class, career history, belonging to another culture, working among another culture, dealing with significant personal challenge(s), and knowledge of more than one language. Even if you have minimal contact with people from diverse backgrounds, please address how you “think” about diversity in relation to the practice of social work ad respond to the following questions: a)What are your vies regarding diversity? b) How does diversity relate to experiences in your life?
- Resume
  - Current resume detailing employment history, nature of duties and responsibilities, accomplishments, leadership roles, and community involvement.
- The MS application for Criminology and Criminal Justice is completed online adhering to the same admission criteria for the MSW degree. The personal statement and letters of recommendation for admission to the MSW degree will be used by the School of Criminology and Criminal Justice to admit students.

Degree Requirements

The MSW/CRCJ Foundation Program is a 81 credit hour program available to applicants who do not hold a BSSW degree from an accredited school of social work within the last 10 years.

The MSW/CRCJ Advanced Standing Program is a 39 credit hour program available to applicants who have earned a BSSW degree from an accredited school of social work within the last 10 years.

Completion of the following undergraduate prerequisite courses is required before entering the MSW/CRCJ Program.
- A human biology course or equivalent such as anatomy
- A research methods course (Note: There is a waiver exam available for this prerequisite)
- A statistics course

### Exit Requirements

- Capstone - 3 Credits PA 8990
- Comprehensive Examination
  - Students will complete a social work comprehensive exam focused on Advanced Generalist Social Work Practice, administered by the Grace Abbott School of Social Work. The comprehensive exam is offered twice each academic year, during the Fall and Spring semesters. It is recommended that students take the comprehensive exam during the semester of graduation, but they may take it earlier, provided no more than 9 semester hours are remaining to complete after the semester in which the comprehensive exam is taken.

### Academic Policies and Standards

Social Work, MSW and Public Health, MPH (MSW/MPH)
Grace Abbott School of Social Work, College of Public Affairs & Community Service, College of Public Health, University of Nebraska Medical Center

Vision Statement
The MSW/MPH dual degree program is a collaborative effort between the University of Nebraska Medical Center, College of Public Health and the University of Nebraska Omaha, Grace Abbott School of Social Work. This program offers interdisciplinary preparation in the fields of social work and public health leading to the master of social work and the master of public health degrees, with fewer required credit hours than it would take to obtain these degrees independently. The MSW/MPH dual degree program is for students who have a BSSW degree or have completed the MSW Foundation program. Students in the MSW/MPH dual degree program receive both the MSW and MPH degrees. If beginning the dual degree program at the Foundation MSW level, 81 credit hours total will be completed; if beginning it at the Advanced Standing level, the program consists of 57 credit hours of required advanced social work courses and public health courses; no electives are possible. After completing all of the MSW courses, students may choose to take either the Clinical or Advanced Generalist social work comprehensive exam. This dual degree program prepares students to provide the range of advanced social work services and assume leadership in the public health sector to promote and protect physical and mental health, with a focus on population-based services, prevention, collaboration, and strategies grounded in basic science.

Program Website

Other Program-Related Information
• The Master of Social Work (MSW) program prepares students for advanced social work practice. Master’s-level social workers are employed in public and private agencies, including medical settings, schools, residential treatment centers, court and correctional agencies, and community planning and development agencies. Their activities and interventions are designed to promote a more effective-functioning society as it struggles to “provide for the general welfare,” as well as to help people, families, groups, and institutions within the society achieve self-fulfillment.

• The MSW degree at the Grace Abbott School of Social Work is accredited by the Council on Social Work Education (CSWE), the national accrediting body for all social work education.

• Information on certification and licensure is available on the Nebraska Department of Health and Human Services’ website (http://dhhs.ne.gov/publichealth/Pages/public_health_).

• Students must enroll in a minimum of two courses (6 credit hours) per semester.

• Students must seek prior approval from the director of the Grace Abbott School of Social Work if they wish to take more than 12 hours of coursework in a single semester.

Admissions
Application Deadlines
• Fall: January 15 (MSW), June 1 (MPH)
• The MPH application is completed online (http://www.unmc.edu/publichealth/admissions/mphdualdegree/mph-msw.html) through the College of Public Health at the University of Nebraska Medical Center.

• The MSW Admissions Committee decides on admission to the MSW program; the MPH Admissions Committee decides on admission to the MPH program. A student not admitted to both programs may pursue the other degree if admitted.

MSW Program-Specific Requirements
• Academic Record/Transcript-Undergraduate weighted cumulative GPA of 3.0
• Three (3) Letters of Recommendation
  • The letters must be professional in nature. Each recommender should describe how they know you (how long and in what capacity), and why they believe you would be a good candidate for the MSW/MPH program.

• Statement of Purpose
  • Please answer the following statements/questions in a total of five (5) double-spaced, typewritten pages (12 point font). Your application is considered incomplete if these instructions are not followed.
    • A brief autobiographical statement that discusses who you are and the experiences that led you to social work. Trace the development of your interest in social work. Why have you chosen social work as a profession? Describe the key motivating figure(s), role model(s), or experience(s) important to your decision to become involved in social work.
    • Discuss your career objectives as a professional social worker as you now conceive them. What do you see yourself doing immediately after receiving your MSW degree?
    • Discuss a contemporary social problem. Include possible causes and potential solutions in your response. What contribution do you want to make to the pursuit of social and economic justice?
    • In the School’s criteria for admission, we assert our commitment in having students representing diverse backgrounds. Diversity is defined by virtue of: personal characteristics such as race, gender, age, sexual orientation, disability, and geography, as well as life experiences such as career history, experience dealing with a significant personal challenge, belonging to or working in or among another culture, economic disadvantage, knowledge of more than one language, and/or deep broad life experiences. What evidence can you present to demonstrate your capacity to work with human diversity.
  • Please review the Social Work admission requirements for additional information and details regarding the essay requirement.

Total Credits 57

1 SOWK 8400 and SOWK 8410 will include MPH Capstone Requirements.

Other Program Related Information:
Note: This certificate can be obtained entirely online. All courses for the certificate will be offered online in a two-year rotation. Elective courses in Criminology and Criminal Justice are also offered in the spring, summer and fall semester.

Admissions

Application Deadlines
• Applications for this program are accepted on a rolling basis. All materials must be submitted prior to the beginning of the semester in which the student has elected to begin coursework.

Program-Specific Requirements
Statement of Purpose
• stating how the certificate will help you achieve your professional goals

International Applicants:
• IELTS: 7.5 required; 8.0 preferred
• PTE: score of 76 or higher
• Internet-based TOEFL: minimum of 21 in each of the 4 areas, and a minimum of 95 overall
• All ESL students are required to take a proficiency assessment examination at UNO upon admission, which will be used to determine if further assistance is required.

Sociology, MA

Department of Sociology & Anthropology, College of Arts & Sciences

Vision Statement
This innovative degree program provides students with advanced knowledge in sociological theory, methods, and research. The flexible and interdisciplinary nature of the program allows students to focus on an additional academic specialty area within or outside of sociology. Department faculty members have strengths in several areas, including families and gender, health, inequality and social justice, work and organizations, race and ethnicity, and anthropology. The department also has close connections to the Office of Latino/Latin American Studies, Native American Studies, and Women’s and Gender Studies.

Program Contact Information

Program Website (http://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/academics/graduate.php)

Admissions

Application Deadlines
• Fall: April 15
• Spring: November 15

Program-Specific Requirements
• Three (3) letters of recommendation
  • It is preferred that at least two (2) of the letters are written by references who are familiar with your academic ability.
• Statement of purpose
  • Outline your educational and professional background and goals, and describe how graduate work in sociology at UNO will help you achieve these goals. Please limit your essay to two double-spaced pages.
• Writing sample
  • Provide a paper that is representative of your academic writing ability, such as a term paper, senior thesis, or other scholarly work.
• Resume
  • Please highlight the education and employment experiences that are especially relevant to graduate work in sociology.
• Applicants for admission to the graduate program in sociology should present a minimum of 15 undergraduate credit hours in the following social sciences:
  • Statistics, research methods, and social theory
  • A minimum of six (6) additional hours of sociology or other social science courses
• Deficiencies in statistics, research methods, and/or theory can also be removed by taking undergraduate courses or through a program of independent study approved by the graduate committee.
  • Students without the specific prerequisite courses may be admitted provisionally, but deficiencies should be removed in the first year of graduate study.
  • All prerequisite courses must be passed with a grade of “B” (3.0 on a 4.0 scale) or better

Electives
Elective courses will be chosen in consultation with the Graduate Program Chair and/or your advisor. The department offers a rotating selection of elective courses based on faculty specialty areas. Students in the thesis option (see below) may take up to six (6) hours of electives outside of Sociology; students pursuing the applied project option (comprehensive exams) may take up to nine (9) hours outside of Sociology. All outside courses must be relevant to the student's interest area within sociology and should be approved by the Graduate Program Chair and/or advisor.

Exit Requirements:

**Thesis Option**
This option is especially recommended for students who wish to pursue the PhD degree after completing their MA and/or who wish to gain research and writing experience through the thesis process.

**Coursework**
Students must complete a minimum of 24 credit hours of approved graduate work in sociology and related disciplines, plus six (6) hours of thesis credit, for a total of 30 credit hours.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 8990</td>
<td>THESIS</td>
<td>6</td>
</tr>
</tbody>
</table>

**Thesis Committee**
Students will form a thesis committee of UNO faculty members who are knowledgeable about the thesis topic. The committee will consist of at least three members, all of whom must be Graduate Faculty, and at least one of whom must be a sociologist:

- a committee chair from within the department
- at least one additional member from within the department
- at least one outside member from another academic department

Prior to beginning the thesis, students must have their project formally approved by the thesis committee. Students must pass an oral defense structured around the thesis to complete the degree requirements.

**Applied Project Option**
The capstone experience in this program option is a research project conducted in an applied setting. Students will use the skills and knowledge they have acquired in the program to conduct a project and produce a report for a "client" in the community (or elsewhere). Students may seek out their own project site or choose from among the community organizations with which the department already has relationships. Examples of potential projects include evaluating program effectiveness, assessing community needs, or designing training programs for employees.

This option is especially recommended for students who plan to enter the job market immediately after completion of the MA degree; would like to gain a better idea of the type of employment for which they are qualified with an MA in sociology; and/or are already working in a setting amenable to a project of this nature.

**Coursework**
Students must complete a minimum of 30 credit hours of approved graduate work in sociology and related disciplines, plus six (6) hours of applied project credit, for a total of 36 credit hours.

<table>

<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 8960</td>
<td>PRACTICUM IN APPLIED SOCIOLOGY (6 Hours Required)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Project Committee**
Students will form a project committee that consists of:

- a committee chair from within the department
- a representative from the project site
- at least one other faculty member from the university with expertise or interest in the project

Prior to beginning the project, students must have their proposal formally approved by the project committee. Students must also have their final project report approved. While the project site representative must sign off on the proposal approval form, only the UNO faculty members will be responsible for approving the final project.

**Non-Thesis Option**
The non-thesis, comprehensive exam option is recommended for students who wish to maximize their exposure to coursework in sociology and related disciplines.

**Coursework**
Students must complete a minimum of 36 credit hours of approved graduate work in sociology and related disciplines.

**Comprehensive Exam**
The comprehensive examination focuses on the student's coursework, particularly the topical focus area developed by the student. Students will answer one of two questions on sociological theory, one of two questions on research methods, and one of two questions from the focus area.

The exam is a one-week take-home exam to be scheduled in consultation with the Graduate Program Chair. Students may suggest particular faculty to serve as their primary readers in each exam area, and each of the primary readers will select an additional faculty member to evaluate the exam. Each of the three sections of the exam will be evaluated separately on the following basis:

- high pass
- pass
- conditional pass
- or fail

In the case of a conditional pass in a section or sections, the students will have an opportunity to revise their answers for reevaluation by the faculty readers.

In the case of a failing evaluation in a section or sections, the student will have one more opportunity per section to re-take the exam. The student will answer the other of the two questions they were originally presented with for each failing section. Both readers will evaluate the new answer(s), with conditional pass available as a possible recommendation.

**Total Credit Hours**
Thesis Option: 30
Project Option: 36
Non-Thesis Option: 36

**SOC 8010 CLASSICAL SOCIOLOGICAL THEORY (3 credits)**
This course surveys the nineteenth century writers whose ideas have had a strong influence on the development of contemporary sociology and sociological theories. It examines work in such areas as: structural functionalism; conflict theory; rationalism; and the beginnings of modern symbolic interaction, feminist, and race theory. The course emphasizes a close reading of original texts, as well as seminar-style class discussions.

**Prerequisite(s)/Corequisite(s):** Graduate; permission of instructor if outside Sociology MA program.
SOC 8020 CONTEMPORARY SOCIOLOGICAL THEORY (3 credits)
This course reviews some of the most important developments in contemporary sociological theory. It examines work in such areas as: symbolic interactionism, phenomenology and ethnography; dramaturgical analysis; functionalism and neo-functionalism; structuralism, post-structuralism and postmodernism; postcolonial and subaltern studies; neo-marxism; critical theory; critical race studies; feminist theory; cultural theory; and world systems and globalization theory. The course emphasizes a close reading of original texts, as well as seminar-style class discussions.
Prerequisite(s)/Corequisite(s): Graduate; permission of instructor if outside Sociology MA program.

SOC 8026 COLLECTIVE BEHAVIOR (3 credits)
Group and individual processes of ephemeral social action and institution formation are studied. The development of transitory groups and ideologies in new movements and organizations through opinion formation; case and comparative investigations of the origins and growth of collective movements are made and relevant social theories are applied. (Cross-listed with SOC 4020)

SOC 8030 SOCIOLOGICAL INQUIRY & RESEARCH DESIGN (3 credits)
This course focuses on the research design process from a sociological perspective. It gives broad, intermediate-level coverage to social science research methodology, with an emphasis on the logic of research procedures. Topics covered include the relationship of theory and research, causal analysis, sampling, and quantitative and qualitative design approaches.
Prerequisite(s)/Corequisite(s): Graduate; undergraduate course in research methods; permission of instructor if outside Sociology MA program.

SOC 8040 SOCIOLOGICAL STATISTICS (3 credits)
This course focuses on intermediate statistics and data analysis as applied to social research. Topics include descriptive statistics, probability, significance tests, multiple regression, and more advanced topics as time permits. Students will also learn how to utilize computer software packages to perform statistical analyses.
Prerequisite(s)/Corequisite(s): Graduate; undergraduate statistics course; permission of instructor if outside Sociology MA program.

SOC 8050 SEMINAR ON TEACHING: PEDAGOGICAL THEORY AND PRACTICE (3 credits)
A survey of various approaches to teaching at the college level (including critical, feminist, and other pedagogical theories) as well as strategies that can be employed in teaching. Topics include: syllabus and course design, evaluation and assessment strategies, developing a teaching style and philosophy, and the scholarship of teaching and learning. Emphasis is on preparing new teachers in sociology, but the course is intended for any graduate student who may already be teaching or anticipates teaching in the future.
Prerequisite(s)/Corequisite(s): Enrollment in the graduate program in sociology or permission of the instructor.

SOC 8060 QUALITATIVE METHODS (3 credits)
This course familiarizes students with contemporary qualitative methodologies and techniques by which the social sciences explore social and cultural relations in natural settings. Students will conduct individual and or group field projects.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of the instructor.

SOC 8080 THEORIES OF FAMILIES (3 credits)
A core course in sociology and anthropology of the family. Gender and kinship systems are analyzed in the comparative study of family institutions and relationships. In addition to substantive material on the family in various societies, the course covers theoretical perspectives on the family and the history of family studies in sociology and anthropology.
Prerequisite(s)/Corequisite(s): Enrollment in the graduate program in sociology or permission of the instructor.

SOC 8100 SOCIAL INEQUALITY (3 credits)
This course examines social inequality from a sociological vantage point. Students will review theoretical frameworks for studying social inequality, processes that result in the unequal distributions of individual resources, empirical analyses of inequality, and the consequences of various inequalities for intergenerational social mobility. While the course focuses on inequality in the United States, global and international dimensions of social inequality are also covered.
Prerequisite(s)/Corequisite(s): Graduate; permission of instructor if outside of Sociology MA program.

SOC 8106 THE COMMUNITY (3 credits)
A basic course in community sociology. Sociological theory and the techniques of empirical research are applied to published studies of communities in the United States and elsewhere. The comparative social scientific method is elaborated as it pertains to data derived from community investigation. (Cross-listed with SOC 4100)

SOC 8110 SOCIAL PROBLEMS OF THE DISADVANTAGED (3 credits)
A survey of the social problems existing in disadvantaged communities. The effects upon individuals of such settings. The subculture of poverty.
Prerequisite(s)/Corequisite(s): SOC 8110

SOC 8120 SEMINAR IN SOCIAL GERONTOLOGY (3 credits)
A topical seminar focusing on the sociology of aging. Students are encouraged to develop proposals for research, programs or social policy. Focus is upon generational differences and age changes throughout the adult life.
Prerequisite(s)/Corequisite(s): Permission of instructor.

SOC 8136 SOCIOLOGY OF DEVIANT BEHAVIOR (3 credits)
A theoretical analysis of the relation of deviant group behavior and subcultures to community standards of conventional behavior as expressed in law and norms. (Cross-listed with SOC 4130)

SOC 8146 URBAN SOCIOLOGY (3 credits)
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with SOC 4140)

SOC 8156 AMERICAN FAMILY PROBLEMS (3 credits)
This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both "family" and "problems" is addressed throughout the course. (Cross-listed with SOC 4150)
Prerequisite(s)/Corequisite(s): SOC 8156

SOC 8176 SOCIOLOGY OF FATHERHOOD (3 credits)
This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children's and men's well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 4170)
Prerequisite(s)/Corequisite(s): SOC 8176

SOC 8180 SOCIETY & HEALTH (3 credits)
The course provides a critical sociological understanding of health, illness, healing, and medical care within a social context. The focus ranges from examining health and illness behavior and patient-provider interaction to issues addressing the social organization of health care and medicine.
Prerequisite(s)/Corequisite(s): Enrollment in sociology graduate program or permission of the instructor.
SOC 8216 DISABILITY AND SOCIETY (3 credits)
This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 4210)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 8256 LATINO/A MIGRATION (3 credits)
The course covers major issues related to: 1) the political-economic and socio-cultural factors that have shaped Latino migration streams historically and in today's world economy and, 2) contemporary empirical methodologies and findings related to the causes and multiple socioeconomic costs and benefits of migration streams for immigrants as well as "sending" and "receiving" communities.

SOC 8316 SOCIOLOGY OF SEXUALITIES (3 credits)
This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomenon such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 4310)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

SOC 8356 WORK & FAMILY (3 credits)
This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 4350)

SOC 8500 COMPLEX ORGANIZATIONS (3 credits)
This graduate seminar provides an overview focused on the understanding and analysis of intricate internal and external organizational forces such as organizational bureaucracy, organizational culture, autonomy and control systems, which affect performance of organizational members as well as influence organizational survival. (Cross-listed with CACT 8500)
Prerequisite(s)/Corequisite(s): Graduate enrollment or permission of class instructor.

SOC 8506 LAW, THE FAMILY AND PUBLIC POLICY (3 credits)
This course analyzes law and public policy affecting the family in a variety of areas, which include: family violence; divorce, child custody, and child support; reproductive technology, contraception, and abortion; unmarried couples' and parents' rights; welfare; care and support of the aged; rights of parents to determine education and health care of their children; adoption and foster care, etc. New policy proposals and likely changes in law are considered, as well as the process of policy formation and legal change. The role of the professional in this system, including legal regulation and ethical issues, is considered. (Cross-listed with SOC 4500)
Prerequisite(s)/Corequisite(s): Six hours social science or human services or permission.

SOC 8550 ORGANIZATIONAL CULTURE (3 credits)
As a core course in sociology of organizations, this course provides a sociological understanding of the processes of cultural formation as well as the nature of cultures within organizations. Emphasis will be placed on the roles of organizational culture and subcultures to organizational processes.
Prerequisite(s)/Corequisite(s): Graduate standing, graduate certificate enrollment or permission.

SOC 8556 SOCIAL DIVERSITY IN ORGANIZATIONS (3 credits)
This course focuses on the sociological understanding, analysis and management of social diversity in the workplace. Major issues and attitudes toward racial and ethnic minorities, older workers and workers with disabilities, as well as strategies for implementing diversity in the workplace are examined. (Cross-listed with SOC 4550)
Prerequisite(s)/Corequisite(s): Graduate students or certificate students.

SOC 8600 SEMINAR IN SOCIAL ORGANIZATION (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in social organization selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Permission.

SOC 8626 SOCIOLOGY OF FORMAL ORGANIZATIONS (3 credits)
Examines organizational theory and research. Analyzes organizational problems such as goals and effectiveness; authority, leadership and control; professionals in organizations; communications; clients; organizational change; and organizations and their environments. Comparative analysis of many types of organizations such as business, industry, schools, prisons and hospitals with special attention given to human-service organizations. (Cross-listed with SOC 4620)
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010 or permission of instructor.

SOC 8650 SEMINAR IN OCCUPATIONS AND PROFESSIONS (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in sociological theory selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Graduate and permission of instructor.

SOC 8700 SEMINAR IN SOCIOLOGICAL THEORY (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in sociological theory selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Permission.

SOC 8706 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with SOC 4700, HED 4700, HED 8706)
Prerequisite(s)/Corequisite(s): Graduate standing.

SOC 8746 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)
This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 4740)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 8756 SOCIAL CHANGE AND GLOBALIZATION (3 credits)
A historical and comparative review of theories, models, and political ideologies of social change. Topics include the globalization model of social change and the role that governments, transnational corporations, multilateral agencies, and local groups and organizations play today in creating and responding to social change. (Cross-listed with SOC 4750)

SOC 8806 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)
This course reviews research and writing in an area which is of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topic will vary, students may elect to take this course more than once. (Cross-listed with SOC 4800)
Prerequisite(s)/Corequisite(s): Permission.
SOC 8826 TEAM RESEARCH SEMINAR (3 credits)
Students participate in a semester-long class research project. Students will be involved in all stages of research: problem formulation, literature review, research design, measurement construction, data collection, data analysis, report writing and presentation of findings. The project’s focus will vary, but it may often involve issues confronting Omaha, a particular organization or a specific group of people. (Cross-listed with SOC 4820)
Prerequisite(s)/Corequisite(s): Junior and SOC 2510 and permission of instructor.

SOC 8836 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)
This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 4830)
Prerequisite(s)/Corequisite(s): SOC 1010, and junior standing, or permission of the instructor.

SOC 8856 SOCIOLOGY OF RELIGION (3 credits)
Analysis of religious behaviors from a sociological and social-psychological perspective and utilizing both theoretical and empirical materials. The class is designed as an introductory approach to the sociology of religion, and the first in a two-step sequence, undergraduate and graduate. (Cross-listed with SOC 4850)

SOC 8950 PRACTICUM IN APPLIED SOCIOLOGY (3 credits)
A practical work experience under supervision which provides opportunity for applying principles from the student’s academic area of concentration.
Prerequisite(s)/Corequisite(s): Graduate sociology major for the MS degree.

SOC 8960 PRACTICUM IN APPLIED SOCIOLOGY (3 credits)
A practical work experience under supervision which provides opportunity for applying principles from the student’s academic area of concentration.
Prerequisite(s)/Corequisite(s): Graduate sociology major for the MS degree.

SOC 8980 INDEPENDENT STUDY IN SOCIOLOGY (1-3 credits)
Guided reading or independent research in special topics in Sociology under the supervision of a member of the Sociology faculty. This course is designed primarily for the student interested in topics not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated once for credit.
Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

SOC 8990 THESIS (1-6 credits)

SOC 9110 APPLIED SOCIAL GERONTOLOGY (3 credits)
An overview of social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life. Restricted to graduate students only; required of Gerontology students. (Cross-listed with GERO 9110)
Prerequisite(s)/Corequisite(s): Graduate.

Special Education, MS
Department of Special Education, College of Education

Vision Statement
The mission of the Special Education and Communication Disorders department is to prepare dedicated practitioners, reflective scholars, and responsible citizens who are unique in their ability to facilitate, design, implement, and evaluate programs for individuals with disabilities. This is accomplished by creating opportunities for the acquisition and maintenance of knowledge, skills, and dispositions as prescribed by the Council for Exceptional Children, the Council on Academic Accreditation in Audiology and Speech-Language Pathology (for graduate program only), and state and federal regulations.

Graduate candidates follow a course of study with accompanying practical experiences that are grounded in learned society theory, research, evidence-based practice, and experience. Our candidates develop essential interpersonal skills that make them valued members of collaborative, interdisciplinary teams in a variety of settings. Thus, each program of study is designed to promote problem-solving skills that enable candidates to continue to broaden their skills and enhance their expertise throughout their professional career. These skills facilitate the recognition and integration of professional ethics with the individual needs and values of the communities they serve.

Program Contact Information
Dr. Philip Nordness, Graduate Program Chair (GPC)
Roskens Hall (RH) 512
402-554-3582
pnordness@unomaha.edu

Program Website (http://www.unomaha.edu/college-of-education/special-education-communication-disorders/graduate/special-education.php)

Other Program-Related Information
Candidates seeking a Master’s degree in special education must meet the criteria for admission to the Graduate College and the Department. Candidates seeking only endorsement in a special education teaching area, but who do not wish to obtain a Master’s degree, must meet the admission criteria to be admitted to the program. Graduate-level hours taken as a non-degree student may be subsequently included in a program of study at the discretion of the Graduate Program Committee and the Dean of Graduate Studies. The department adheres to all restrictions on non-degree students. No student with non-degree status may enroll in an internship course.

Candidates completing the degree program meet the academic requirements for K-6 or 7-12 endorsement by the Nebraska Department of Education. Candidates may seek K-12 endorsement by completing internship experiences at both the K-6 and 7-12 levels. One of these internship experiences may be completed in the candidate’s classroom. The other must be completed outside the candidate’s classroom.

Praxis II Contest Test Information
All candidates are required to receive a passing score on the Praxis II content test in each endorsement area of their preparation prior to the endorsement being recommended.

This link (http://www.ets.org/praxis/ne/requirements) will take you to the ETS website page for the Nebraska Department of Education requirements, which lists the Nebraska requirements for each endorsement area.

Admissions
Application Deadlines
- Fall: July 1
- Spring: November 1
- Summer: April 1

Program-Specific Requirements
- Two Letters of Recommendation
  - Must submit the name and email of two persons who are well acquainted with the applicant’s undergraduate academic work, the applicant’s potential to do graduate work, and/or the applicant’s professional competence.
- Statement of Purpose
  - Include a formal written statement, at least one page in length, of why you want to pursue a Master’s degree in Special Education or Behavior Intervention Specialist. Explain your current job/position,
career goals and additional experiences with individuals with disabilities.

- Personal and Professional Fitness Form
- Copy of Teaching Certificate
- All candidates must have completed SPED 4800/SPED 8806 and EDUC 2510 or SPED 8030 (or an equivalent to any of these), and methods courses in reading and math.

</table>

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms and final approval and submission of the thesis.

All candidates must complete 6 credit hours in SPED 8990 in order to receive a Master's of Science degree in special education.

**Graduate-Level Internships**

All candidates must obtain the permission of their academic advisor prior to applying for and registering for internship. All candidates must complete one (or more) internship experience(s) as part of their preparation. At least one of these experiences must be an all-day, 16-week experience in the endorsement area. Applications will not be considered unless all materials are submitted by September 15 for Spring internship and February 1 for all Fall internship.

Upon admission to the internship, the department will issue a permit that allows the candidate to enroll in the appropriate course. It is the candidate’s responsibility to apply for the proper course. Professional seminars are required as part of the experience and attendance is mandatory.

Candidates may be removed from their placement at the request of the candidate, department, or school district/community agency.

All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms and final approval and submission of the thesis.

All candidates must complete 6 credit hours in SPED 8990 in order to receive a Master's of Science degree in special education.

</table>

This course is designed to allow graduate candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.

**Total Credits**: 36

A student can enroll only twice in each graduate course included on a plan of study. If the class is not successfully completed on the second attempt, the student will be dismissed from the program. An enrollment is defined as being enrolled in the course after the last day to withdraw via MavLINK and receive a 100% refund. The last day to withdrawal will be stated in the current academic calendar. (https://www.unomaha.edu/registrar/academic-calendar.php) In addition to the Quality of Work Standards established by the Graduate College, students may only repeat a graduate level course on a plan of study one time in which they receive any grade, including "W" or "I".

A student can enroll only twice in each graduate course included on a plan of study. If the class is not successfully completed on the second attempt, the student will be dismissed from the program. **SPED 8000 SPECIAL PROJECTS (1-3 credits)**

This course is designed to allow graduate candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.

**Prerequisite(s)/Corequisite(s):** Permission by the instructor. Not open to non-degree graduate students.
SPED 8016 MENTAL HEALTH IN SCHOOLS: RICK FACTORS AND INTERVENTIONS (3 credits)
This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 4010, COUN 8016, and SPED 4010).

SPED 8030 TEACHING STUDENTS WITH EXCEPTIONALITIES (3 credits)
This course is designed to describe the characteristics and learning styles of students with various exceptional learning needs. This course also is intended to provide candidates with a knowledge base for the foundation of special education including the basic procedural flow of referral, identification and instruction and strategies for modifying the learning environment and individualizing instruction.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8046 WORKSHOP IN SPECIAL EDUCATION OR SPEECH PATHOLOGY (1-6 credits)
The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4040).
Prerequisite(s)/Corequisite(s): Must have graduate status and permission.

SPED 8100 RESEARCH PROJECTS (1-3 credits)
The purpose of this course is to allow candidates to participate in research activities other than those related to the thesis. Specific course content and type of research will be dependent on the nature of the intended research and must be approved by the supervising advisor and Department Chair prior to registration.
Prerequisite(s)/Corequisite(s): Graduate standing and admitted into a special education or speech-language pathology program of study.

SPED 8120 HIGH INCIDENCE DISABILITIES (3 credits)
This introductory course is designed to examine characteristics of learners with high incidence disabilities and the impact of those characteristics on learning. The focus will be on the manifestation of disabilities including learning disabilities, behavior disorders, mild to moderate intellectual disabilities, speech and language disorders, attention-deficit hyperactivity disorders, and autism spectrum disorders.
Prerequisite(s)/Corequisite(s): Graduate Standing.

SPED 8156 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)
This course is designed to provide preservice teacher candidates and graduate candidates skills and strategies for instructing students with mild to moderate disabilities that struggle to acquire literacy skills. Emphasis is placed on diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education or permission of the instructor. Not open to non-degree graduate students.

SPED 8236 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)
This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 4230).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8240 LANGUAGE DISORDERS IN SCHOOL-AGE CHILDREN (3 credits)
This course focuses on the relationship between spoken and written language and its role in language-based learning disabilities in school-age students. It addresses the characteristics of language and reading impairments; the subtypes of these disorders; and the different diagnostic strategies, assessment tools, and intervention approaches used with them. Various models of language and reading as they relate to development and disorders will be reviewed.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology and a course in later (school age) language development. Not open to non-degree graduate students.

SPED 8300 READINGS IN SPECIAL EDUCATION (1-3 credits)
Reading and discussion of current methodological developments, research, and innovations in special education.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8396 HEARING SCIENCE (3 credits)
This course is designed for undergraduate majors in speech-language pathology and audiology and for graduate candidates in education of the deaf/hard of hearing. The course will include basic terminology, anatomy and physiology of the hearing mechanism, acoustics and physics of sound, the processes of human hearing, elements of basic hearing measurements, psychophysics. This course will prepare speech-language pathology candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4390).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8400 LEARNING DISABILITIES (3 credits)
The purpose of this course is to introduce students to the field of learning disabilities. The course covers the laws that affect students with learning disabilities (No Child Left Behind Act, and the Individuals with Disabilities Education Improvement Act of 2004), characteristics of learning disabilities, definitions, history, assessment, medical aspects, teaching of preschoolers and adolescents, and teaching strategies for pre-academic learning, oral language, reading, writing, mathematics, and social-emotional development. This course will prepare special education candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8410 MOTOR SPEECH DISORDERS (3 credits)
This course is designed to integrate background information from neurophysiology related to motor speech disorders (MSDs). The term motor speech disorders refers to speech deficits and differences resulting from injury to the human nervous system. This course will focus on acquired and developmental movement-based disorders of speech production that impact one or more of the following subsystems of speech: respiration, phonation, resonance, and/or articulation, including the dysarthrias and apraxia of speech. This course will entail clinical description and characteristics of the impairments as well as the psychosocial changes in life activities and participation of individuals who live with MSDs.
Prerequisite(s)/Corequisite(s): SPED 4470 or SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.
SPED 8420 VOICE DISORDERS (3 credits)
The purpose of this course is to provide candidates the opportunity to study the disorders of voice in depth so that they are able to effectively orchestrate caseloads including this disorder type. Voice disorders of both organic and functional etiology will be studied. Candidates will have opportunities to conduct instrumental voice evaluation techniques. The disorders will be discussed to cover the range of topics including etiology, symptomology, assessment and diagnosis, prognosis, and treatment, both medical and non-medical. Phonatory and resonatory aspects will be included.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8430 FLUENCY DISORDERS (3 credits)
This course examines the types and causes of rate, rhythm, and stress pattern differences as they relate to child, adolescent, and adult fluency disorders.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8440 APHASIA & RELATED LANGUAGE DISORDERS (3 credits)
This course is designed to integrate background information from neurophysiology to aphasia and related disorders such as right hemisphere syndrome, traumatic brain injury (TBI), and dementia. The term aphasia refers to linguistic deficits resulting from injury to the human nervous system. This course will focus on acquired cognitive and linguistic-based disorders of the human communication system and will entail clinical description and characteristics of the impairments as well as on the psychosocial changes in life activities and participation of individuals who live with aphasia and/or related disorders.
Prerequisite(s)/Corequisite(s): SPED 4470, SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8470 NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE (3 credits)
The purpose of this course is to provide speech-language pathology graduate candidates an introduction to human neuroanatomy and neurophysiology of the speech, language and hearing mechanisms, across the lifespan. Emphasis is placed on developing an understanding of the neurophysiological underpinnings of human communication and its disorders. Ultimately, the course will prepare speech-language pathology graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate Standing in Speech-Language Pathology Majors Only. Not open to non-degree graduate students.

SPED 8486 RESEARCH METHODS IN COMMUNICATION DISORDERS (3 credits)
This course will provide candidates with an introductory set of skills to interpret and evaluate research in communication disorders and closely related fields. In addition, this course will provide candidates with basic knowledge regarding research designs and analyses commonly used in communication disorders and related fields. The content addressed in this course will prepare candidates to judiciously evaluate evidence-based practice and apply the scientific method to clinical decision-making. It offers an opportunity to cultivate critical thinking skills imperative to becoming dedicated practitioners, reflective scholars, and responsible citizens who can adeptly meet the ever-evolving challenges of their profession. (Cross-listed with SPED 4480)
Prerequisite(s)/Corequisite(s): This course is designed for graduate and undergraduate students majoring in speech-language pathology and is a required course for speech-language pathology candidates.

SPED 8500 BASIC CLINICAL PRACTICUM IN SPEECH-LANGUAGE PATHOLOGY (2 credits)
These courses are designed to provide the speech-language pathology candidate with experiences of a clinical nature prior to intensive participation in practice in the educational, medical, clinical, and/or other rehabilitation settings.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology, 3.0 GPA overall. Permission from program faculty. Not open to non-degree graduate students.

SPED 8510 EDUCATIONAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language pathology candidate with experiences of a clinical nature in educational settings. The purpose of the course is to advance the candidate’s skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED 8500 unless otherwise indicated plus permission. Not open to non-degree graduate students.

SPED 8520 MEDICAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language pathology candidate with experiences of a clinical nature in medical settings. The purpose is to advance the candidates’ skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED8500 unless otherwise indicated plus permission. Not open to non-degree students.

SPED 8530 SEMINAR IN SPEECH-LANGUAGE PATHOLOGY (3 credits)
This course is designed to provide intensive discussion of research or problems of current professional interest based on current literature in speech-language pathology. This course will prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8540 AUTISM SPECTRUM DISORDERS (2 credits)
This course is designed to familiarize candidates with the features of and interventions for individuals with autism spectrum disorders. The course will emphasize current research into various methodologies for social and communication skills.
Prerequisite(s)/Corequisite(s): Co-requisite: SPED 8560. Admission to the Graduate College. Not open to non-degree graduate students.

SPED 8550 SPECIAL NEEDS STUDENTS FROM DIVERSE COMMUNITIES (3 credits)
The purpose of this course is to study the impact of cultural and linguistic diversity on communication, learning, and behavior. The contrast between what is considered 'normal' language / learning development and in the presence of culturally and linguistically diverse (CLD) P-12 students will receive special emphasis. (Cross-listed with SPED 4550)

SPED 8560 AUGMENTATIVE & ALTERNATIVE COMMUNICATION (2 credits)
This course is designed to introduce the candidate to the nature and process of augmentative and alternative communication (AAC), current theories and models of AAC, basic elements of AAC systems, and contemporary AAC clinical practices and principles. Topics will be examined from educational and rehabilitational perspectives as they relate to assessment, prescription, implementation and evaluation. The course will emphasize practical solutions in AAC for children and adults using both high technology and other less-complex communication strategies. This content is intended to prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology program; co-requisite: SPED 8540.
SPED 8570 DYSPHAGIA (3 credits)
This course is designed to integrate background information from neurophysiology to dysphagia. The term dysphagia refers to swallowing disorders resulting from congenital birth anomalies (i.e., cleft palate, cerebral palsy, etc.) as well as acquired injury to the central nervous system (i.e., stroke, head injury, etc.). This course will introduce candidates to bedside, radiographic, and endoscopic assessment procedures as well as direct, indirect, and medical management techniques of dysphagia. Additionally, this course will provide clinical description and characteristics of swallowing impairments as well as on the psychosocial changes in life activities and participation of individuals who live with dysphagia.
Prerequisite(s)/Corequisite(s): SPED 4470 or equivalent, graduate standing in speech-language pathology. Not open to non-degree graduate students.

SPED 8590 LANGUAGE DISORDERS: BIRTH TO FIVE (3 credits)
This course is designed to provide candidates with knowledge about communicative disorders in young children within a multicultural and global framework. It will cover assumptions underlying current approaches to the evaluation and treatment of language disorders in the developing child. Major emphasis will be upon the theoretical foundations of the study and treatment of communication disorders in children from birth to age five.
Prerequisite(s)/Corequisite(s): SPED 4420 or equivalent.

SPED 8600 MENTAL RETARDATION (3 credits)
This course introduces candidates to concepts related to mental retardation/developmental disabilities such as definitions, identification, etiology, and assessment of persons with mental retardation as well as current models and research in the areas of residential, vocational, educational, and recreation/leisure programming in least restrictive settings. This course will prepare undergraduate and graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED4600)
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8646 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)
This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and many evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL). (Cross-listed with SPED 4640).
Prerequisite(s)/Corequisite(s): Admission into a Special Education Master's program and SPED 8120. Not open to non-degree students.

SPED 8656 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with COUN 8656, SPED 4650).
Prerequisite(s)/Corequisite(s): EDUC 2510 or SPED 1500.

SPED 8670 MATH INTERVENTIONS (3 credits)
The purpose of this course is to prepare graduate candidates to teach, co-teach or consult in the area of mathematics interventions. Graduate candidates will examine and apply the existing research in mathematics instruction for students with exceptional needs.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in Special Education. Not open to non-degree graduate students.

SPED 8700 SEMINAR IN SPECIAL EDUCATION (3 credits)
The seminar in Special Education is designed to be one of the very last courses taken by a master's degree candidate. Content covers a wide range of topics such as: 1) continuum of care; 2) educational and community service systems; 3) legislation; 4) family concerns; and 5) comparative special education. Each candidate develops a teaching module on one of the course topics, which is discussed and evaluated in class.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8716 INTERACTIONS AND COLLABORATION (3 credits)
This course is offered to investigate the building blocks of collaboration. Effective interpersonal communication and collaboration skills are presented as the foundation necessary to build relationships among school personnel, families and community members. (Cross-listed with SPED 4710).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8720 INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This special education internship course provides candidates with either in-service experience or placement in a school program for students with exceptionalities at an academic level commensurate with the candidate's desired level of endorsement (K-6 or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in the desired endorsement, completion of 30 hours of required course work, and permission. Not open to non-degree graduate students.

SPED 8730 ADVANCED INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This course provides candidates with a second semester of classroom experience teaching students with disabilities. This experience is for graduate candidates who are extending their initial endorsement to complete a PK-12 endorsement.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in the desired endorsement and completion of SPED 8720 or equivalent. Not open to non-degree graduate students.

SPED 8806 SOCIAL EMOTIONAL DEVELOPMENT OF CHILDREN AND YOUTH (3 credits)
This course is designed to prepare teacher candidates and graduate candidates with the understanding of the psychological, biological and environmental factors that affect the social-emotional development of children and adolescents. Emphasis is placed on the interaction of these factors for children with exceptional learning needs and the implications for the learning environment. (Cross-listed with SPED 4800).
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8810 RESEARCH METHODS IN SPECIAL EDUCATION (3 credits)
This course is designed to provide an examination of the theoretical approaches to conducting educational research, research design and analysis, and interpretation and evaluation of existing research in special education and related fields.
Prerequisite(s)/Corequisite(s): SPED 8120 or permission from the instructor. Not open to non-degree graduate students.

SPED 8816 BEHAVIOR INTERVENTIONS AND SUPPORT (3 credits)
This course introduces a variety of practical interventions that teachers may use to support the positive classroom behavior of all students within a tiered model. Universal, targeted, and individualized strategies are presented. (Cross-listed with SPED 4810).

SPED 8820 CHARACTERISTICS OF EMOTIONAL AND BEHAVIORAL DISORDERS (3 credits)
This course is designed to assess and examine the causes and characteristics of behavioral disorders, which constitute internalizing, externalizing, and pervasive developmental disorders. Extensive use of the case study method will be used.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education.
SPED 8830 INTERNSHIP IN BEHAVIORAL DISORDERS (3 credits)
This course provides candidates with either in-service experience or placement in a school program for students with Behavioral Disorders at an academic level commensurate with the candidate’s desired level of endorsement (PK-5, or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education with an emphasis in behavior intervention specialist, completion of 30 hours of the required coursework, and permission by the department. Not open to non-degree graduate students.

SPED 8840 ADVANCED PRACTICUM IN BEHAVIOR INTERVENTION SPECIALIST (3 credits)
This course provides candidates with additional experiences in working with students with disabilities who present challenging behaviors, including emotional disturbance and autism, at an academic level (PK-6, or 7-12) that is at a different level from their previous clinical practice or internship.
Prerequisite(s)/Corequisite(s): Behavior Intervention Specialist program and permission. Not open to non-degree graduate students.

SPED 8850 INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH EMOTIONAL AND BEHAVIORAL DISORDERS (3 credits)
The focus of the course will be on interventions which have been effective with students with behavior disorders which include life space intervention, social skills training, anger management, and cognitive behavior modification in multi-cultural settings.
Prerequisite(s)/Corequisite(s): Graduate standing and successful completion of SPED 8820, not open to non-degree students.

SPED 8860 BEHAVIOR MODIFICATION (3 credits)
This course is designed to equip candidates with the skills necessary to assess, modify, and evaluate behavior in accordance with best practice and research-based approaches. In addition, this course will train candidates on how to conduct a functional behavioral assessment and create behavioral intervention plans in accordance with IDEA.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8870 AUTISM SPECTRUM DISORDERS: BEHAVIORAL SUPPORT AND INTERVENTIONS (3 credits)
This course is designed to provide information on the behavioral characteristics, instructional needs and necessary curriculum development specifically for children and youth with autism spectrum disorder (ASD).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8900 SPECIAL EDUCATION LAW (3 credits)
The purpose of this course is to research and explore legal and policy issues affecting special education within our schools. Case law will be examined to ensure effective special education programs for children and youth with disabilities.
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

SPED 8910 ASSESSMENT IN SPECIAL EDUCATION (3 credits)
This course provides an overview of measurement and evaluation concepts, strategies, and techniques that are appropriate for students with special needs. Graduate candidates will implement and analyze formal and informal assessments using a systematic and comprehensive approach. Emphasis is placed on those assessment strategies that yield objective data regarding individual learning characteristics that provide a basis for educational decision making.
Prerequisite(s)/Corequisite(s): Graduate standing and SPED 8120

SPED 8920 SPECIAL EDUCATION LEADERSHIP (3 credits)
The purpose of this course is to examine special education administration and leadership issues. This course will focus on policies and procedures necessary to effectively provide leadership to programs for children and youth with disabilities.
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

SPED 8930 INCLUSION/COLLABORATION PRACTICUM (3 credits)
This course provides candidates with a practicum experience in the inclusion/collaboration specialty area with emphasis across PK-12 settings.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in inclusion/collaboration and permission by the department. Not open to non-degree graduate students.

SPED 8960 ADVANCED ASSESSMENT AND INTERVENTION (3 credits)
This course provides graduate candidates with in-depth practicum experiences in the administration, and interpretation of standardized academic achievement measures, criterion-referenced tests, informal assessments, and progress monitoring with children experiencing learning difficulties. Emphasis is placed on utilizing assessment information in order to develop and monitor intervention plans.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education; SPED 8910, SPED 8646, SPED 8156, and SPED 8970; or have permission from the instructor. Not open to non-degree graduate students.

SPED 8970 INSTRUCTIONAL STRATEGIES (3 credits)
This course is designed to prepare graduate candidates with in-depth information regarding effective teaching strategies for students with high-incidence disabilities. Primary emphasis is placed on providing students with theoretical and practical foundations in the design and implementation of cognitive strategy instruction and the use of evidence-based practices and the selection and monitoring of individualized interventions.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree in special education, SPED 8120, SPED 8646 or equivalent or permission of the instructor. Not open to non-degree graduate students.

SPED 8980 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with TED 8850).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

SPED 8990 THESIS (1-6 credits)
This course is intended for all graduate candidates in the Department of Special Education and Communication Disorders who are seeking a Master of Arts degree. The candidate is expected to generate and complete an independent research project under the guidance of a thesis advisor.
Prerequisite(s)/Corequisite(s): Permission of Thesis Committee Chair and TED 8810. Not open to non-degree graduate students.

Speech-Language Pathology, MS
Department of Special Education, College of Education

Vision Statement
The mission of the Special Education and Communication Disorders department is to prepare dedicated practitioners, reflective scholars, and responsible citizens who are unique in their ability to facilitate, design, implement, and evaluate programs for individuals with disabilities. This is accomplished by creating opportunities for the acquisition and maintenance of knowledge, skills, and dispositions as prescribed by the Council for Exceptional Children, the Council on Academic Accreditation in Audiology and Speech-Language Pathology, and state and federal regulations. The master’s degree education program in speech-language pathology at the University of Nebraska at Omaha is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA), of the American Speech-Language-Hearing Association, 2200 Research Boulevard, Ste 10, Rockville, Maryland 20850, 800-498-2071 or 301-296-5700. The next CAA re-accreditation review will be in 2020. The
program also is accredited by the Nebraska Department of Education and the Council for the Accreditation of Educator Preparation (CAEP).

**Program Contact Information**  
Dr. Philip Nordness, Graduate Program Chair (GPC)

**Admissions**  
**Application Deadlines**  
- Fall: January 15

**Program-Specific Requirements**  
- A bachelor’s degree in speech-language pathology or communication disorders or if bachelor’s degree in another field, must have completed the following undergraduate courses or an equivalent of these courses in communication disorders;

- If English is not the language of nurture, official test scores from the TOEFL, IELTS, or PTE exam are required
  - 550 for the written TOEFL
  - 213 for the computer-based TOEFL
  - 80 for the internet-based TOEFL
  - 6.5 for the IELTS
  - 53 for the PTE
  - If scores are more than two years old you may be required to retake the TOEFL, IELTS, or PTE exam.
- GRE
- Two Letters of Recommendation
  - Must submit the name and email of two persons who are well acquainted with the applicant’s undergraduate academic work, the applicant’s potential to do graduate work, and / or the applicant’s professional competence
- Statement of Purpose
  - Covering your long range goals in the profession, a summary paragraph of a research-based article in your area of interest, a brief description of what distinguishes you from other highly qualified applicants, and your experience with individual with special needs.
- Personal Fitness Statement
- Interview (application process)

**Degree Requirements**  
- In order to acquire the knowledge and skills requisite to the practice of speech-language pathology to function in a broad variety of clinical situations, and to render a wide spectrum of patient care, individuals must have skills and attributes in five areas: communication, motor, intellectual-cognitive, sensory-observational, and behavioral-social. These skills enable a student to meet graduate and professional requirements as measured by state licensure and national certification. (Council of Academic Programs in Communication and Sciences and Disorders, 2007).
- Candidates must complete a speech-language-hearing screen within the **first 30 days** of enrollment.
- Academic integrity is expected for all interactions and requirements. This includes, but is not limited to: original work on exams, accountability and completion of requirements, maintenance of confidentiality for individuals and class discussions when appropriate, and accurate citation for original work. Plagiarism will result in an automatic failing grade for the assignment. Please refer to the UNO Academic Integrity Policy for more specific descriptions of academic integrity violations.
- The Praxis I - CORE Academic Skills for Educators test must be taken within the **first 30 days** of enrollment or the student will be prohibited from registering for classes. Scores must be sent to UNO directly from ETS, using code 6420.
- A Background check and Nebraska Adult and Child Abuse & Neglect Registry Release must be successfully completed prior to enrollment and prior to each externship.
- Each candidate must take the Praxis II - Subject Assessment test. Scores must be submitted prior to applying for graduation. Scores must be sent to UNO directly from ETS, using code RA0174.

**Electives**
Student, in consultation with an advisor, will select an elective. The 3 hours of elective credit will be waived if the thesis option is chosen. The following list is a sampling of recommended electives:

- SPED 8030 TEACHING STUDENTS WITH EXCEPTIONALITIES
- SPED 8120 HIGH INCIDENCE DISABILITIES
- SPED 8980/TED 8850 PROFESSIONAL COLLABORATION
- SPED 8556 SPECIAL NEEDS STUDENTS FROM DIVERSE COMMUNITIES
- SPED 8970 INSTRUCTIONAL STRATEGIES
- SPED 8820 CHARACTERISTICS OF EMOTIONAL AND BEHAVIORAL DISORDERS
- GERO/PSYC 8476 MENTAL HEALTH AND AGING
- GERO 8506 LEGAL ASPECTS OF AGING
- GERO 8676 PROGRAMS AND SERVICES FOR THE ELDERLY
- GERO 8696/SOWK 8046 WORKING WITH MINORITY ELDERLY
- SPED 8156 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES
- SPED 8900 SPECIAL EDUCATION LAW

1 SPED 8500 (register three times)
2 SPED 8510 (Schools). Placements for this practicum are made as space permits.
3 SPED 8520 (Hospitals; Rehabilitation Centers). Placements for this practicum are made as space permits.

SPED 8510 and SPED 8520 each will be taken once for four (4) credit hours each. Students must receive a grade of "B" or better in each of these courses, as students may not retake either course. Failure to achieve a grade of "B" or better in either course will result in automatic dismissal from the program. These varied practica are designed to provide the candidate with a wide range of clinical experiences with individuals across the age span, cultural backgrounds, cognitive levels, and disability categories.

**All student clinicians need to receive a B or higher in order to pass externships. Externships may not be retaken.**

For the thesis option, candidates must complete 6 credit hours of SPED 8990.

**Remediation Policy for Content, Writing, and Clinicals**

Every course assignment and all practica skills in the speech-language pathology program are connected to the Council for Clinical Certification in Audiology and Speech-Language Pathology (CFCC) standards and reflect specific competencies. Remediation is required for any grade below a 'B' on any class or clinic requirement and any inadequate written product. Students will be required to meet with the instructor/supervisor to remediate any problem area. Please refer to a more detailed Remediation Policy in course syllabi.

In addition to the Quality of Work Standards set forth by the Graduate College, MS students in the speech-language pathology program may repeat only once a required course in which they receive any grade, including "W" or "I". Students may only withdraw from a total of three required courses (including the clinical sequence) over the course of their program. If there are extenuating circumstances that require more than three withdrawals, this will require an appeal to the program director.

- **SPED 8000 SPECIAL PROJECTS (1-3 credits)**
  This course is designed to allow graduate candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor. Prerequisite(s)/Corequisite(s): Permission by the instructor. Not open to non-degree graduate students.

- **SPED 8016 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)**
  This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 4010, COUN 8016, and SPED 4010).

- **SPED 8030 TEACHING STUDENTS WITH EXCEPTIONALITIES (3 credits)**
  This course is designed to describe the characteristics and learning styles of students with various exceptional learning needs. This course also is intended to provide candidates with a knowledge base for the foundation of special education including the basic procedural flow of referral, identification and instruction and strategies for modifying the learning environment and individualizing instruction. Prerequisite(s)/Corequisite(s): Graduate standing.

- **SPED 8046 WORKSHOP IN SPECIAL EDUCATION OR SPEECH PATHOLOGY (1-6 credits)**
  The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4040). Prerequisite(s)/Corequisite(s): Must have graduate status and permission.

- **SPED 8100 RESEARCH PROJECTS (1-3 credits)**
  The purpose of this course is to allow candidates to participate in research activities other than those related to the thesis. Specific course content and type of research will be dependent on the nature of the intended research and must be approved by the supervising advisor and Department Chair prior to registration. Prerequisite(s)/Corequisite(s): Graduate standing and admitted into a special education or speech-language pathology program of study.

- **SPED 8120 HIGH INCIDENCE DISABILITIES (3 credits)**
  This introductory course is designed to examine characteristics of learners with high incidence disabilities and the impact of those characteristics on learning. The focus will be on the manifestation of disabilities including learning disabilities, behavior disorders, mild to moderate intellectual disabilities, speech and language disorders, attention-deficit hyperactivity disorders, and autism spectrum disorders. Prerequisite(s)/Corequisite(s): Graduate Standing.
SPED 8156 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)
This course is designed to provide preservice teacher candidates and graduate candidates skills and strategies for instructing students with mild to moderate disabilities that struggle to acquire literacy skills. Emphasis is placed on diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education or permission of the instructor. Not open to non-degree graduate students.

SPED 8236 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)
This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers' knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 4230).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8240 LANGUAGE DISORDERS IN SCHOOL-AGE CHILDREN (3 credits)
This course focuses on the relationship between spoken and written language and its role in language-based learning disabilities in school-age students. It addresses the characteristics of language and reading impairments; the subtypes of these disorders; and the different diagnostic strategies, assessment tools, and intervention approaches used with them. Various models of language and reading as they relate to development and disorders will be reviewed.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology and a course in later (school age) language development. Not open to non-degree graduate students.

SPED 8300 READINGS IN SPECIAL EDUCATION (1-3 credits)
Reading and discussion of current methodological developments, research, and innovations in special education.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8396 HEARING SCIENCE (3 credits)
This course is designed for undergraduate majors in speech-language pathology and audiology and for graduate candidates in education of the deaf/hard of hearing. The course will include basic terminology, anatomy and physiology of the hearing mechanism, acoustics and physics of sound, the processes of human hearing, elements of basic hearing measurements, psychophysics. This course will prepare speech-language pathology candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4390).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8400 LEARNING DISABILITIES (3 credits)
The purpose of this course is to introduce students to the field of learning disabilities. The course covers the laws that affect students with learning disabilities (No Child Left Behind Act, and the Individuals with Disabilities Education Improvement Act of 2004), characteristics of learning disabilities, definitions, history, assessment, medical aspects, teaching of preschoolers and adolescents, and teaching strategies for pre-academic learning, oral language, reading, writing, mathematics, and social-emotional development. This course will prepare special education candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8410 MOTOR SPEECH DISORDERS (3 credits)
This course is designed to integrate background information from neuropsychology related to motor speech disorders (MSDs). The term motor speech disorders refers to speech deficits and differences resulting from injury to the human nervous system. This course will focus on acquired and developmental movement-based disorders of speech production that impact one or more of the following subsystems of speech: respiration, phonation, resonance, and/or articulation, including the dysarthrias and apraxia of speech. This course will entail clinical description and characteristics of the impairments as well as the psychosocial changes in life activities and participation of individuals who live with MSDs.
Prerequisite(s)/Corequisite(s): SPED 4470 or SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8420 VOICE DISORDERS (3 credits)
The purpose of this course is to provide candidates the opportunity to study the disorders of voice in depth so that they are able to effectively orchestrate caseloads including this disorder type. Voice disorders of both organic and functional etiology will be studied. Candidates will have opportunities to conduct instrumental voice evaluation techniques. The disorders will be discussed to cover the range of topics including etiology, symptomology, assessment and diagnosis, prognosis, and treatment, both medical and non-medical. Phonatory and resonatory aspects will be included.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8430 FLUENCY DISORDERS (3 credits)
This course examines the types and causes of rate, rhythm, and stress pattern differences as they relate to child, adolescent, and adult fluency disorders.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8440 APHASIA & RELATED LANGUAGE DISORDERS (3 credits)
This course is designed to integrate background information from neuropsychology to aphasia and related disorders such as right hemisphere syndrome, traumatic brain injury (TBI), and dementia. The term aphasia refers to linguistic deficits resulting from injury to the human nervous system. This course will focus on acquired cognitive and linguistic-based disorders of the human communication system and will entail clinical description and characteristics of the impairments as well as on the psychosocial changes in life activities and participation of individuals who live with aphasia and/or related disorders.
Prerequisite(s)/Corequisite(s): SPED 4470, SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8470 NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE (3 credits)
The purpose of this course is to provide speech-language pathology graduate candidates an introduction to human neuroanatomy and neurophysiology of the speech, language and hearing mechanisms, across the lifespan. Emphasis is placed on developing an understanding of the neurophysiological underpinnings of human communication and its disorders. Ultimately, the course will prepare speech-language pathology graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate Standing Speech-Language Pathology Majors Only. Not open to non-degree graduate students.
SPED 8486 RESEARCH METHODS IN COMMUNICATION DISORDERS (3 credits)
This course will provide candidates with an introductory set of skills to interpret and evaluate research in communication disorders and closely related fields. In addition, this course will provide candidates with basic knowledge regarding research designs and analyses commonly used in communication disorders and related fields. The content addressed in this course will prepare candidates to judiciously evaluate evidence-based practice and apply the scientific method to clinical decision-making. It offers an opportunity to cultivate critical thinking skills imperative to becoming dedicated practitioners, reflective scholars, and responsible citizens who can adeptly meet the ever-evolving challenges of their profession. (Cross-listed with SPED 4480).
Prerequisite(s)/Corequisite(s): This course is designed for graduate and undergraduate students majoring in speech-language pathology and is a required course for speech-language pathology candidates.

SPED 8500 BASIC CLINICAL PRACTICUM IN SPEECH-LANGUAGE PATHOLOGY (2 credits)
These courses are designed to provide the speech-language pathology candidate with experiences of a clinical nature prior to intensive participation in practice in the educational, medical, clinical, and/or other rehabilitation settings.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology, 3.0 GPA overall. Permission from program faculty. Not open to non-degree graduate students.

SPED 8510 EDUCATIONAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language pathology candidate with experiences of a clinical nature in educational settings. The purpose of the course is to advance the candidate’s skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED 8500 unless otherwise indicated plus permission. Not open to non-degree graduate students.

SPED 8520 MEDICAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language candidate with experiences of a clinical nature in medical settings. The purpose is to advance the candidates’ skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED 8500 unless otherwise indicated plus permission. Not open to non-degree graduate students.

SPED 8530 SEMINAR IN SPEECH-LANGUAGE PATHOLOGY (3 credits)
This course is designed to provide intensive discussion of research or problems of current professional interest based on current literature in speech-language pathology. This course will prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8540 AUTISM SPECTRUM DISORDERS (2 credits)
This course is designed to familiarize candidates with the features of and interventions for individuals with autism spectrum disorders. The course will emphasize current research into various methodologies for social and communication skills.
Prerequisite(s)/Corequisite(s): Co-requisite: SPED 8560. Admission to the Graduate College. Not open to non-degree graduate students.

SPED 8556 SPECIAL NEEDS STUDENTS FROM DIVERSE COMMUNITIES (3 credits)
The purpose of this course is to study the impact of cultural and linguistic diversity on communication, learning, and behavior. The contrast between what is considered ‘normal’ language / learning development and in the presence of culturally and linguistically diverse (CLD) P-12 students will receive special emphasis. (Cross-listed with SPED 4550).

SPED 8560 AUGMENTATIVE & ALTERNATIVE COMMUNICATION (2 credits)
This course is designed to introduce the candidate to the nature and process of augmentative and alternative communication (AAC), current theories and models of AAC, basic elements of AAC systems, and contemporary AAC clinical practices and principles. Topics will be examined from educational and rehabilitational perspectives as they relate to assessment, prescription, implementation and evaluation. The course will emphasize practical solutions in AAC for children and adults using both high technology and other less-complex communication strategies. This content is intended to prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology program; co-requisite: SPED 8540.

SPED 8570 DYSPHAGIA (3 credits)
This course is designed to integrate background information from neurophysiology to dysphagia. The term dysphagia refers to swallowing disorders resulting from congenital birth anomalies (i.e., cleft palate, cerebral palsy, etc.) as well as acquired injury to the central nervous system (i.e., stroke, head injury, etc.). This course will introduce candidates to bedside, radiographic, and endoscopic assessment procedures as well as direct, indirect, and medical management techniques of dysphagia. Additionally, this course will provide clinical description and characteristics of swallowing impairments as well as on the psychosocial changes in life activities and participation of individuals who live with dysphagia.
Prerequisite(s)/Corequisite(s): SPED 4470 or equivalent, graduate standing in speech-language pathology. Not open to non-degree graduate students.

SPED 8590 LANGUAGE DISORDERS: BIRTH TO FIVE (3 credits)
This course is designed to provide candidates with knowledge about communicative disorders in young children within a multicultural and global framework. It will cover assumptions underlying current approaches to the evaluation and treatment of language disorders in the developing child. Major emphasis will be upon the theoretical foundations of the study and treatment of communication disorders in children from birth to age five.
Prerequisite(s)/Corequisite(s): SPED 4420 or equivalent.

SPED 8600 MENTAL RETARDATION (3 credits)
This course introduces candidates to concepts related to mental retardation/developmental disabilities such as definitions, identification, etiology, and assessment of persons with mental retardation as well as current models and research in the areas of residential, vocational, educational, and recreation/leisure programming in least restrictive settings. This course will prepare undergraduate and graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED4600)
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8646 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)
This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and many evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL). (Cross-listed with SPED 4640).
Prerequisite(s)/Corequisite(s): Admission into a Special Education Master's program and SPED 8120. Not open to non-degree students.
SPED 8656 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the
career development and transition of individuals with disabilities within
a multicultural and global society. Includes information for elementary
through adulthood with emphasis on transition from high school to
community living. (Cross-listed with COUN 8656, SPED 4650).
Prerequisite(s)/Corequisite(s): EDUC 2510 or SPED 1500.

SPED 8670 MATH INTERVENTIONS (3 credits)
The purpose of this course is to prepare graduate candidates to teach,
co-teach or consult in the area of mathematics interventions. Graduate
candidates will examine and apply the existing research in mathematics
instruction for students with exceptional needs.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
Special Education. Not open to non-degree graduate students.

SPED 8700 SEMINAR IN SPECIAL EDUCATION (3 credits)
The seminar in Special Education is designed to be one of the very last
courses taken by a master's degree candidate. Content covers a wide range
of topics such as: 1) continuum of care; 2) educational and community
service systems; 3) legislation; 4) family concerns; and 5) comparative
special education. Each candidate develops a teaching module on one of
the course topics, which is discussed and evaluated in class.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8716 INTERACTIONS AND COLLABORATION (3 credits)
This course is offered to investigate the building blocks of collaboration.
Effective interpersonal communication and collaboration skills are
presented as the foundation necessary to build relationships among school
personnel, families and community members. (Cross-listed with SPED 4710).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8720 INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This special education internship course provides candidates with either
in-service experience or placement in a school program for students with
exceptionalities at an academic level commensurate with the candidate's
desired level of endorsement (K-6 or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
the desired endorsement, completion of 30 hours of required course work,
and permission. Not open to non-degree graduate students.

SPED 8730 ADVANCED INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This course provides candidates with a second semester of classroom
experience teaching students with disabilities. This experience is for
graduate candidates who are extending their initial endorsement to
complete a PK-12 endorsement.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
the desired endorsement and completion of SPED 8720 or equivalent. Not
open to non-degree graduate students.

SPED 8806 SOCIAL EMOTIONAL DEVELOPMENT OF CHILDREN AND
YOUTH (3 credits)
This course is designed to prepare teacher candidates and graduate
candidates with the understanding of the psychological, biological and
environmental factors that affect the social-emotional development of
children and adolescents. Emphasis is placed on the interaction of these
factors for children with exceptional learning needs and the implications for
the learning environment. (Cross-listed with SPED 4800).
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8810 RESEARCH METHODS IN SPECIAL EDUCATION (3 credits)
This course is designed to provide an examination of the theoretical
approaches to conducting educational research, research design and
analysis, and interpretation and evaluation of existing research in special
education and related fields.
Prerequisite(s)/Corequisite(s): SPED 8120 or permission from the
instructor. Not open to non-degree graduate students.

SPED 8816 BEHAVIOR INTERVENTIONS AND SUPPORT (3 credits)
This course introduces a variety of practical interventions that teachers
may use to support the positive classroom behavior of all students within
a tiered model. Universal, targeted, and individualized strategies are
presented. (Cross-listed with SPED 4810).

SPED 8820 CHARACTERISTICS OF EMOTIONAL AND BEHAVIORAL
DISORDERS (3 credits)
This course is designed to assess and examine the causes and
characteristics of behavioral disorders, which constitute internalizing,
externalizing, and pervasive developmental disorders. Extensive use of
the case study method will be used.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science
degree program in special education.

SPED 8830 INTERNSHIP IN BEHAVIORAL DISORDERS (3 credits)
This course provides candidates with either in-service experience or
placement in a school program for students with Behavioral Disorders
at an academic level commensurate with the candidate's desired level of
endorsement (PK-9, or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
special education with an emphasis in behavior intervention specialist,
completion of 30 hours of the required coursework, and permission by the
department. Not open to non-degree graduate students.

SPED 8840 ADVANCED PRACTICUM IN BEHAVIOR INTERVENTION
SPECIALIST (3 credits)
This course provides candidates with additional experiences in working
with students with disabilities who present challenging behaviors, including
emotional disturbance and autism, at an academic level (PK-6, or 7-12) that
is at a different level from their previous clinical practice or internship.
Prerequisite(s)/Corequisite(s): Behavior Intervention Specialist program
and permission. Not open to non-degree graduate students.

SPED 8850 INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH
EMOTIONAL AND BEHAVIORAL DISORDERS (3 credits)
The focus of the course will be on interventions which have been effective
with students with behavior disorders which include life space intervention,
social skills training, anger management, and cognitive behavior
modification in multi-cultural settings.
Prerequisite(s)/Corequisite(s): Graduate standing and successful
completion of SPED 8820, not open to non-degree students.

SPED 8860 BEHAVIOR MODIFICATION (3 credits)
This course is designed to equip candidates with the skills necessary to
assess, modify, and evaluate behavior in accordance with best practice and
research-based approaches. In addition, this course will train candidates on
how to conduct a functional behavioral assessment and create behavioral
intervention plans in accordance with IDEA.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
special education. Not open to non-degree graduate students.

SPED 8870 AUTISM SPECTRUM DISORDERS: BEHAVIORAL SUPPORT
AND INTERVENTIONS (3 credits)
This course is designed to provide information on the behavioral
characteristics, instructional needs and necessary curriculum development
specifically for children and youth with autism spectrum disorder (ASD).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in
special education. Not open to non-degree graduate students.

SPED 8900 SPECIAL EDUCATION LAW (3 credits)
The purpose of this course is to research and explore legal and policy issues
affecting special education within our schools. Case law will be examined
to ensure effective special education programs for children and youth with
disabilities.
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-
dergadee graduate students.
Vision Statement
To ignite in the student, teacher and community a capacity for critical thinking, compassionate feeling, collaborative vision, and ability to delight.

“The true purpose of theatre is to create myths, to express life in its immense, universal aspect, and from that, to extract images in which we find pleasure in discovering ourselves.” - Antonin Artaud

The overall goal of the program is to help our students develop a deeper understanding of their roles as theatre artists by studying and applying theory and criticism, history, and literature to their work as actors, directors, designers, dramaturgs, or scholars. We emphasize the interaction between scholarship and production. All of our students work in multiple disciplines in preparation for Ph.D. work or careers in professional, academic, or community theatres.

Admissions
Application Deadlines
- Fall: Rolling (if applying for funding all application materials are due February 22)
- Spring: Rolling (if applying for funding all application materials are due October 1)
- Summer: Rolling

Program-Specific Requirements
- Minimum of 15 undergraduate semester hours with a "B" (3.0 on a 4.0 scale) average in appropriate courses or experience equivalent to undergraduate training in theatre.
- Two (2) Letters of Recommendation
  - Letters should address your potential for scholarly and artistic achievement at the graduate level.
- Statement of Purpose
  - Not to exceed three double-spaced typewritten pages explaining why you wish to pursue a Master of Arts in Theatre. The statement of purpose should also address your interest in an area of concentration. These statements are reviewed for quality of writing and the extent to which your goals are compatible with the strengths and interests of the theatre faculty and the stated objectives of the program.
- Writing Sample
  - Sample can be from any academic discipline and should show the candidate’s ability to conceptualize and write at a graduate level
- (optional) Resume (theatre resume or work resume)
- (optional) Portfolio

**THEA 8000 SPECIAL TOPICS IN THEATRE AND DRAMA (3 credits)**
A variable content course dealing with theatre and drama. Each offering will treat a single aspect of theatre or drama in depth - e.g., Shakespeare in performance, the history of acting theory, the history of theatrical design, etc.
Prerequisite(s)/Corequisite(s): Graduate or permission of instructor.

**THEA 8001 ADVANCED PROJECTS IN THEATRE (1-3 credits)**
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 4010)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

**THEA 8026 ADVANCED PROJECTS IN THEATRE (1-3 credits)**
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 4020)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

**THEA 8030 INTERNSHIP IN THEATRE (1-6 credits)**
Maximum of six hours to be granted upon completion of written report on internship. The internship will be in some area of theatre. Students will receive a letter grade for the course. May be taken for a maximum of six hours of credit.
Prerequisite(s)/Corequisite(s): Permission of the theatre graduate program committee chair

**THEA 8040 INTERNSHIP IN THEATRE (1-6 credits)**
Maximum of six hours to be granted upon completion of written report on internship. The internship will be in some area of theatre. Students will receive a letter grade for the course. May be taken for a maximum of six hours of credit.
Prerequisite(s)/Corequisite(s): Permission of the theatre graduate program committee chair

**THEA 8130 GLOBAL CITIZENSHIP IN THE ARTS (3 credits)**
This course is about artistic excellence married to ethical practices and responsible world citizenship. Students will analyze and evaluate ways to use art to address community issues and discover a roadmap that allows for authentic, consistent and sustainable commitment to the community and its needs.

**THEA 8316 ADVANCED ACTING: POST REALISM (3 credits)**
Advanced work in the technical skills of voice, speech, movement and textual analysis needed for post-realist material. (Cross-listed with THEA 4310)
Prerequisite(s)/Corequisite(s): graduate with an undergraduate major or minor in theatre or permission of instructor.

**THEA 8326 ADVANCED ACTING: GREEKS TO RESTORATION (3 credits)**
The fundamental theories and practices of major styles of acting from ancient Greece to the Restoration, including interpretation of outstanding dramatic literature. (Cross-listed with THEA 4320)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of instructor.

**THEA 8336 ADVANCED ACTING: ENSEMBLE PLAY PRODUCTION (3 credits)**
In-depth exploration of a play or playwright's work to connect acting class with performance. Special emphasis on creating a working process that allows the ensemble to emerge. The class will culminate in public performance. (Cross-listed with THEA 4330)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of instructor.

**THEA 8346 ADVANCED ACTING: AUDITIONING (3 credits)**
An acting class designed to develop auditioning skills and material as well as cultivate a working knowledge of the business of acting. (Cross-listed with THEA 4340)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of the instructor.

**THEA 8436 DIRECTING I (3 credits)**
Directing I examines the development of the role of director in Western Theatre; provides practice in the directing process including script analysis, dramaturgical research, staging visual composition, collaboration with designers and performers; considers alternative approaches to directing and encourages students to begin to develop a personal directing style. (Cross-listed with THEA 4430)
Prerequisite(s)/Corequisite(s): Graduate standing with an undergraduate major or minor in theatre or permission of instructor.

**THEA 8446 DIRECTING II (3 credits)**
A practicum in play selection, analysis, casting, rehearsing and performing. (Cross-listed with THEA 4440)
Prerequisite(s)/Corequisite(s): THEA 8436.

**THEA 8506 COSTUME DESIGN (3 credits)**
An introduction to the fundamentals of stage costume design, including line, silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with life drawing and rendering technique. (Cross-listed with THEA 4500)
Prerequisite(s)/Corequisite(s): THEA 4550 and ART 1100 and ART 1210 or permission of instructor.

**THEA 8516 COSTUME DESIGN (3 credits)**
An introduction to the fundamentals of stage costume design, including line, silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with life drawing and rendering technique. (Cross-listed with THEA 4510)
Prerequisite(s)/Corequisite(s): THEA 4550 and ART 1100 and ART 1210 or permission of instructor.

**THEA 8556 PERIOD STYLES IN DRESS AND DECOR (3 credits)**
An historical survey course introducing students to the major periods and iconic styles and trends in western architecture, dress and interior décor of the past 2000 years; and to the social, cultural and technological influences on those trends. Particularly as they relate to theatrical and production design. (Cross-listed with THEA 4550)
Prerequisite(s)/Corequisite(s): Graduate standing.

**THEA 8615 COLLABORATIVE DESIGN STUDIES (3 credits)**
Collaborative Design Studies explores the integration and process of theatrical production including scenery, lighting, costume, projection and sound. It chronicles their individual and collective impact on storytelling. While developing the skills of the Scenographer, students will work collaboratively as they foster their individual artistic design talents, and recognize the impact of design on society through storytelling. (Cross-listed with THEA 3610)
Prerequisite(s)/Corequisite(s): THEA 1510.

**THEA 8616 SCENE DESIGN (3 credits)**
Principles of composition, perspective and color for the stage; the designer's approach to the play, production of ground plans, elevations, sketches and models. (Cross-listed with THEA 4610)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of the instructor.
THEA 8650 TECHNICAL THEATRE PROBLEMS (3 credits)
Research and dialogue in the aesthetics and physical results of the relationships between dramatic form, theatre architecture and scenic design and lighting from historical and contemporary points of view.
Prerequisite(s)/Corequisite(s): THEA 1010 and THEA 3660 and THEA 4610 and THEA 4710 and THEA 4720 or permission.
THEA 8665 STAGE AND TV LIGHTING (3 credits)
Characteristics and control of light and color and their application to the theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems; automation. (Cross-listed with THEA 3660)
Prerequisite(s)/Corequisite(s): THEA 1630 or permission of instructor.
THEA 8755 THEATRE AND SOCIAL JUSTICE (3 credits)
This service-learning course will combine both research and practice in theatre that involves social change. Students will study the history of such theatre, with special focus on developments in the 20th century. All research will be accompanied by several community-based projects whereby students will create theatre with specific populations (schools, community centers, health centers, senior homes, etc.). (Cross-listed with THEA 3750)
Prerequisite(s)/Corequisite(s): Graduate in theatre. Graduate outside theatre with sufficient background in theatre and sociology political science requires permission of the instructor.
THEA 8900 THEATRE RESEARCH METHODS (2 credits)
This course is designed to introduce graduate students in theatre to basic techniques of scholarly research: gathering material, defining the problem, and improving basic writing. Special emphasis will be placed on computer searches, resources available at UNOmaha, and community-based research.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in theatre.
THEA 8910 RESEARCH METHODS II (1 credit)
Research Methods II is a follow-up course to Research Methods. In this one credit course, graduate students will write drafts of their final thesis project proposals with the intention of being able to use them for official submission at the end of the spring semester.
Prerequisite(s)/Corequisite(s): Graduate student in theatre and THEA 8900.
THEA 8920 DRAMATIC THEORY & CRITICISM (3 credits)
An introduction to selected dramatic theories and criticism from antiquity to the nineteenth century. This course is intended for graduate students with a strong background in dramatic literature and interest in theatre production.
Prerequisite(s)/Corequisite(s): Graduate standing, in THEA. Graduate students outside of theatre must have the permission of the instructor.
THEA 8930 THEATRE IN OUR COMMUNITY: THEORY & CRITICISM (3 credits)
Students will apply dramatic theory and criticism to the theatre in our area. Students will visit different area theatres, analyze their work, and have discussions with their artistic directors.
Prerequisite(s)/Corequisite(s): Graduate student.
THEA 8940 MODERN THEATRE AESTHETICS: REALISM & NATURALISM TO 1980 (3 credits)
Research and discussion on the aesthetic theories and movements in the modern theatre (Realism & Naturalism of the 20th Century). Emphasis on primary source material from Meyerhold, Brecht, Artaud, Grotowski, Schechner and others.
Prerequisite(s)/Corequisite(s): Graduate standing.
THEA 8950 CONTEMPORARY THEATRE AESTHETICS: 1980-PRESENT AND BEYOND (3 credits)
This seminar is the chronological capstone for the theatre department graduate seminar series. It focuses on theories and practice in theatre during the last two decades with the aim of acquainting students with the most recent forces shaping current theatre in the U.S. and selected areas of the world.
Prerequisite(s)/Corequisite(s): Graduate standing, in THEA. Graduate students outside of theatre must have permission of the instructor.
THEA 8980 FINAL PROJECT (1-3 credits)
Final project for Option II or III.
Prerequisite(s)/Corequisite(s): Admission to candidacy and approval of the project proposal
THEA 8990 THESIS (1-3 credits)
Independent research project written under the supervision of an adviser.

Urban Studies, MS
School of Public Administration, College of Public Affairs & Community Service

Vision Statement
Our graduates are social entrepreneurs, urban thinkers and agents of change. The Master of Science in Urban Studies (UBNS) is the degree for individuals desiring to make a difference in urban areas. UNO's Urban Studies Program is a professional degree that trains leaders to critically analyze urban problems and engage residents in the creation of innovative solutions to conditions in the human community, built environment and natural systems.

Admissions

Application Deadlines
• Fall: June 1

Program-Specific Requirements
• The general prerequisite for admission to the Urban Studies program is a four-year bachelors' degree with a minimum grade point average of 3.0 in the junior and senior years combined (last 50-60 credit hours). Under extenuating circumstances an average below 3.0 will be considered.
• International applicants who do not have a baccalaureate or equivalent degree from an English-speaking institution of higher education in the US, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland, or New Zealand are required to submit TOEFL and GRE scores.
  • The minimum TOEFL requirement is 550 (written) or 213 (computer-based), or 80 (internet-based), or an IELTS of 6.5 or better, or a PTE with a score of 53 or better.
• Two (2) Letters of Recommendation
• Statement of Purpose
  • A two-page typed essay on how the Master of Science in Urban Studies will further the applicant’s career objectives must be included with the application for admission
  • Resume

**Electives**

Urban studies is an interdisciplinary field. The UBNS strives to expose students to courses taught by faculty in the School of Public Administration who have expertise in urban studies, as well as faculty in other academic units. Students select five (5) elective courses with the approval of the UBNS Chair from the following list based on interests in the human community, built environment or natural systems. This is subject to change depending on course availability, and prospective as well as current students should check the program’s website periodically for updates.

**Exit Requirements**

Select one of the following: 3-6

- **Non-Thesis Option:**
  - PA 8990 | CAPSTONE PROJECT IN PUBLIC ADMINISTRATION

- **Thesis Option:**
  - UBNS 8980 | THESIS

**Total Credits:** 37-40

**Internship**

Students who have not had at least two years full-time professional experience in the public or nonprofit sector (experience must have been in the sector of the student’s primary future career interest) are encouraged to complete an internship. The internship may be given as a supervised course of three credit hours in addition to the 37 hours required in the Urban Studies program. The internship is taken following completion of preparatory coursework as determined by the Director of the Urban Studies program.

**Total Credit Hours**

Non-Thesis Option 37

Thesis Option 40

- **UBNS 8000** | SEMINAR IN URBAN STUDIES (3 credits)
  This course provides an interdisciplinary overview of the forces influencing and influenced by urbanization and urbanism. (Cross-listed with GEOF 8830)
  **Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

- **UBNS 8020** | RACE, ETHNICITY, AND AMERICAN URBAN CULTURE (3 credits)
  This course explores two central themes, race and ethnicity, which have played a dominant role in the shaping of American society and American culture. (Cross-listed with BLST 8020).
  **Prerequisite(s)/Corequisite(s):** BLST 1000, BLST 1100, or permission by the instructor.

- **UBNS 8060** | INTRODUCTION TO URBAN PLANNING (3 credits)
  This course is an introduction to the development of urban planning as it has shaped and reacted to major trends in U.S. history. It provides students with major themes and traditions in the field of planning and includes planning practice, planning procedures and methods and contemporary issues in the field.
  **Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

- **UBNS 8200** | COMMUNITY ORGANIZING AND DEVELOPMENT (3 credits)
  The course is intended for advanced graduate students in urban studies. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with GEOF 8840).
  **Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

- **UBNS 8220** | COMPARATIVE URBAN STUDIES (3 credits)
  Emphasis is upon contrasting the cities of the developed and developing areas of the world.
  **Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

- **UBNS 8940** | DIRECTED RESEARCH IN URBAN STUDIES (1-3 credits)
  The course is intended for advanced graduate students in urban studies. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with GEOF 8840).
  **Prerequisite(s)/Corequisite(s):** Completed 9 graduate hours in Urban Studies. Permission from the School. Not open to non-degree graduate students.

- **UBNS 8980** | THESIS (1-6 credits)
  A research project, designed and executed under the supervision of the chair and members of the graduate student’s Thesis Advisory Committee. In this project, the student will develop and perfect a number of skills including the ability to design, conduct, analyze, and report the results in writing (i.e., thesis) of an original, independent scientific investigation. The project plan must be approved by the student’s Thesis Advisory Committee.
  **Prerequisite(s)/Corequisite(s):** Graduate student in UBNS and approval of Thesis Advisory Committee.
Writing, MFA

Writer’s Workshop Department, College of Communication, Fine Arts & Media

Vision Statement
The MFA in Writing is a two-year program of focused instruction for creative writers who are committed to a literary career. The program comprises four 16-week distance writing seminars and five 10-day, conference-style Nebraska residency sessions. The seminars and residencies are integrated to help those who need to hone their writing and critical thinking in order to participate competitively in the wider domain of contemporary American letters. In a two-year course of study, the student earns 60 credit hours toward a Masters of Fine Arts degree in one of four genres: fiction, poetry, playwriting/screenwriting, or nonfiction.

Program Contact Information
Dr. Miles Waggener, Graduate Program Chair (GPC)
Weber Fine Arts Building (WFAB) 223
402-554-2151
mwaggener@unomaha.edu

Ms. Jenna Lucas Finn, Associate Coordinator
Weber Fine Arts Building (WFAB) 301
402-554-3020
jlucas@unomaha.edu

Program Website (http://www.unomaha.edu/unmfw)

Other Program-Related Information
• The MFA in Writing at the University of Nebraska is “low-residency”.
• Upon acceptance, a $500 non-refundable deposit is required to hold the student’s place in the program. This deposit is applied toward the first Residency Meals and Lodging Fee.

Admissions
Application Deadlines
• Fall: May 1
• Spring: October 1
• Summer: NA

Program-Specific Requirements
• Three (3) Letters of Recommendation
  • From persons who can attest to your ability to complete a course of graduate study, the ability to work independently, and/or the quality of your prior literary achievements
  • Statement of Purpose
    • A one- to two-page single-spaced self-assessment of your background in writing, reasons for wanting to enter the MFA program, and your goals as a writer.
    • For fiction, creative nonfiction, and poetry, include any other experience you have in the wider community of literature; e.g., organizing or participating in craft workshops, attending conferences, working for literary magazines, etc.
    • For playwriting/screenwriting, include any specific experience as it pertains to full-length plays, one-act plays, and ten-minute plays, plus any experience in other areas of theatre or film.
• Writing Sample
  • A manuscript representing your best work in the genre track (fiction, creative nonfiction, playwriting, or poetry) for which you are applying
    • 30-40 pages of fiction or nonfiction

NOTE: Your self-assessment statement and your manuscript sample must be submitted in your online application in .pdf format. If you are unable to submit these materials in .pdf format or have questions regarding the content of your submissions, please contact Jenna Lucas Finn at 402-554-3020. Fiction, creative nonfiction, and poetry manuscript format should be in 12-point typeface with 1” margins; poetry may be single-spaced; prose should be double-spaced; pages numbered in the top right corner with the applicant’s last name on the top left of each page. Playwriting submissions should follow standard Playwriting format. Screen scripts should follow standard screenwriting format. Material in genres other than the one in which you are applying will not be read. For specific information, requirements, and current residency dates for the program, please consult the program website (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/writers-workshop/mfa-program).

<td>RESIDENCY SESSION</td>
<td>3</td>
</tr>
</tbody>
</table>

Residencies are conference-style sessions (10 days) consisting of a combination of workshops on student writing, craft and theory classes, individual conferences with mentoring faculty, and performance readings. All students are required to take a minimum of 20 hours of a combination of these events, and to meet with their mentoring faculty member to design a course of study for the semester.

Writing Options (choose one)

Seminars
Seminars are semester-long (16 weeks) supervised distance studies in writing, during which the student corresponds regularly with a faculty mentor on the work which was proposed during the preceding residency session individual conferences. At least four times a semester, the student must submit creative and critical writing to the faculty mentor. The mentor will respond with revisions, suggestions for further readings, and discussion. Seminars are composed of a maximum of 5 students each. Students must register for one 12-hour seminar session per semester for four semesters.

Total Credit Hours: 60
MFAW 8700 RESIDENCY SESSION (3 credits)
A ten-day colloquium presenting lectures, classes, workshops, readings and individual conferences with seminar faculty. Taken 4 times, the Residency Session ends one session seminar and begins the next. The session affords students intensive contact with faculty and peers before returning to their writing projects.
Prerequisite(s)/Corequisite(s): Admission to MFA in Writing program. Permission of the Program Director. Not open to non-degree graduate students.

MFAW 8710 GRADUATING RESIDENCY SESSION (0 credits)
The Graduation Residency Session is the final residency for MFA students who have successfully completed their seminars and creative thesis. In the ten days of this residency, students will give a graduating lecture, “mentor” new students in their first residency, and give a reading from their thesis. A graduating ceremony will cap their activities during this session.

MFAW 8720 ENRICHMENT RESIDENCY SESSION (2 credits)
An eight-day creative writing symposium-style course presenting lectures, workshops, readings and individual conferences with faculty. The Enrichment Residency affords advanced writing students additional intensive contact with published and apprentice writers to reinforce and enrich their life-long commitment to the art of writing and to the continuing development of their craft.
Prerequisite(s)/Corequisite(s): MFA Program Director’s permission. Must have completed MFA/PhD with writing emphasis. Writers with MA in English and emphasis in writing, or writers with an extensive background in writing may also be considered. Not open to non-degree graduate students.

MFAW 8820 POETRY SEMINAR (6-12 credits)
An individualized course in poetry writing. Taken 4 times, the required seminar offers practical instruction in writing and criticism. Using distance technology, student and instructor work through independent projects designed to sharpen the student’s writing skills. Each student will compose both original poetry and critical analyses of poetry by other writers preparatory to submitting an original book-length manuscript of publishable quality by the final semester.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8830 FICTION SEMINAR (6-12 credits)
An individualized course in fiction writing. Taken four times, the seminar offers practical instruction in fiction writing and criticism. Using distance technology, student and instructor work through individualized writing projects designed to sharpen the student’s writing skills to a professional edge. Students will compose both original fiction and critical analyses of fiction preparatory to submitting an original book-length manuscript of publishable quality by their final semester’s work.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8840 NONFICTION SEMINAR (6-12 credits)
An individualized course in nonfiction writing. Taken four times, the seminar offers practical instruction in writing and criticism. Students will compose both original nonfiction and critical analyses of nonfiction.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8850 PLAYWRITING SEMINAR (6-12 credits)
An individualized seminar in playwriting. Taken 4 times, the seminar offers practical instruction in playwriting and criticism. Using distance technologies, student and instructor work through independent projects designed to sharpen the student’s writing and staging skills. Each student will compose both original scripts and critical analyses of plays by other playwrights preparatory to submitting at minimum a full-length playscript, a one-act playscript, and a ten-minute playscript by the final semester.
Prerequisite(s)/Corequisite(s): Acceptance into the MFA in Writing Program and permission of the MFA program director. Not open to non-degree graduate students.

MFAW 8870 ENRICHMENT SEMINAR IN WRITING (6 credits)
An advanced writing semester for those who want assistance launching a new writing project; or have a degree in one genre and want to pursue study of another, in poetry, fiction and young adult fiction, creative nonfiction or playwriting; or would like to spend a semester of intense practical study in a radical departure from one’s prior literary aesthetic.
Prerequisite(s)/Corequisite(s): MFAW 8720; MFA Program Dir. permission, U of NE MFA-Writing or MFA/PhD w/writing emphasis at other coll/univ. Writers w/ MA-English & emphasis-writing or writers w/ extnsv bkgrd in writing may also be considered. Not open to non-degree graduate students.

WRWS 8106 FICTION STUDIO (4 credits)
An advanced course in fiction writing. Emphasis on refining the techniques of developing short fiction or the novel.
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor.

WRWS 8116 FICTION STUDIO-ADVANCED (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others’ work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4100, WRWS 4110)
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 8206 POETRY STUDIO (4 credits)
An advanced course in poetry writing. Emphasis on refining poetic technique. (Cross-listed with WRWS 4200)
Prerequisite(s)/Corequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

WRWS 8216 POETRY STUDIO (4 credits)
A graduate workshop in poetry writing with emphasis on such elements of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4200)
Prerequisite(s)/Corequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

Ancient Mediterranean Studies Minor

Departments of History, English, Religious Studies, Philosophy, Political Science, and Art and Art History

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student's transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Black Studies Minor

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Business Administration Minor

Graduate students may complete a graduate minor in Business Administration. The minor requires the approval of the MBA Advisor, completion of the MBA Foundation Courses, and the completion of a minimum of nine (9) graduate credit hours of BSAD courses, at least six (6) of which are in BSAD courses open only to graduate students (8000-level or higher), excluding courses which are Foundation courses for any degree program. BSAD 8060 cannot be counted toward the minor. A grade of “B” (3.0 on a 4.0 scale) must be earned in each course counting toward the minor. All hours counting toward the minor must be earned at UNO.

Total Credits 9

Economics Minor

The Department of Economics offers a graduate minor to students pursuing a graduate degree in other programs. The requirement for the minor is that the student completes a minimum of three graduate courses (9 hours) in economics with grades of “B” or better (3.0 on a 4.0 scale) in each course. The courses to be taken for the minor are to be approved by both the student’s advisor in the student’s major subject and by the Graduate Program Chair of Economics.

English Minor

With the approval of the student’s advisor and the English Graduate Program Committee, a student may include a minor as part of their Plan of Study. A minor requires nine (9) hours of approved coursework.

French Minor

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Total Credits 9

German Minor

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the
minor advisor, but falling within the limits established for all comprehensive examinations.

**Gerontology Minor**

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

**History Minor**

*(9 hours)*

To earn a graduate minor in history, a student must complete 9 hours of graduate-level history courses with the grade of a "B" (3.0 on a 4.0 scale) or better.

**Management Information Systems Minor**

*(9 hours)*

The Management Information Systems Department offers a graduate minor to students pursuing graduate degrees in other programs at UNO. The requirements for the minor are that the student completes a minimum of three graduate courses (nine semester hours ending in 0), receiving a grade of "B" (3.0 on a 4.0 scale) or better in each course. The courses to be taken for the minor are to be approved by the student's advisor in the student's major subject and by the Graduate Program Chair (GPC) in management information systems. For declaring a MIS minor, a minimum TOEFL score of 550 is required and a GPA of 3.0 or better in current graduate program are required.

**Mathematics Minor**

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours of MATH or STAT prefixed courses, with at least a B average. At least six of the nine graduate credit hours must be from courses ending in zero. Note that MATH 8880 cannot be used to satisfy the requirements of a Mathematics Minor. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Total Credits 9

NOTE: The preceding list does not include the various departmental numbers for Graduate Directed Readings courses, even though these highly individualized reading and research classes may be applied to the requirements for the Minor. This list also does not include the various Special Topics courses in individual departments which may be taken for graduate credit.

**Native American Studies Minor**

*(9 hours)*

The minimum requirement for the graduate minor is 9 credits taken at the 8000 and/or 9000 levels.

A student’s program will be planned in consultation with the Native American Studies (NAS) Graduate Advisor, who will hold Graduate Faculty status. This cross-disciplinary minor will include choices among approved graduate lecture courses, seminars, and Directed Reading courses.

Three (3) hours of thesis can be counted toward the minimum requirement of 9 credits, but only in the Graduate Advisor and the thesis committee members agree that the topic is related to Native American Studies.

Students must complete each course of their 9-credit minor with a grade of "B" (3.0 on a 4.0 scale) or better.

No comprehensive exam will be required after completion of the three required courses for the minor.
Political Science Minor

Students outside of political science may earn a political science minor in conjunction with their graduate program by taking 9 credit hours of graduate-level political science courses. All courses are the student's choosing, however, all 9 of the credit hours must be political science seminars. Students must earn a B or above in all political science courses taken for the minor. Students must apply for this minor through the proper procedures.

Religion Minor

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student's transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Spanish Minor

A student is not required by the graduate faculty to have a minor. However, a student may elect a minor with permission of the major department/school and the minor department/school.

The minor must consist of no fewer than nine graduate hours. The courses must be included on the Change in Plan of Study form and the minor department must sign off on this form. The minor will be reflected on the student's transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

GOAL C: UNO Graduate Studies will be recognized for excellence in regional, national, and global engagement and contributions.

OBJECTIVE 1: UNO Graduate Studies will be recognized for excellence in engagement.

OBJECTIVE 2: UNO Graduate Studies will support students’ success in their internships, training, and other community centered opportunities for learning.

Graduate Studies Organization
In 1971, at the direction of the Board of Regents, the Graduate College of the University of Nebraska (UNL and UNMC) and the Graduate College of the University of Nebraska at Omaha were merged to form one University-wide Graduate College with one Graduate Faculty. The ultimate academic authority for all graduate programs within the University is vested in the approximately 1700 members of the Graduate Faculty.

The Bylaws of the Board of Regents state that the Executive Vice President and Provost of the University of Nebraska shall serve as Dean of the University-wide Graduate College and as presiding officer of the Graduate Faculty and councils thereof. The legislative and academic authority of the Graduate Faculty is vested in the Executive Graduate Council, comprised of eight members elected by the graduate faculty. Specific responsibilities of the Dean and of the Executive Graduate Council can be found in the University of Nebraska Graduate College Governance document.

On each campus of the University in which graduate programs are housed, there is a campus Dean for Graduate Studies, a campus Graduate Faculty and a campus Graduate Council. The UNO Dean for Graduate Studies administers graduate programs and policies on that campus; serves as presiding officer of the UNO Graduate Faculty and the UNO Graduate Council; and forwards to the Dean of the Graduate College matters which are of University-wide concern. The UNO Graduate Faculty consists of those members of the University-wide Graduate Faculty administratively assigned to UNO. The UNO Graduate Council acts as an advisory body to the UNO Dean for Graduate Studies, coordinates the graduate studies on the UNO campus and recommends to the Executive Graduate Council actions affecting students and programs on more than one campus. This Council consists of 22 elected or appointed faculty members and two graduate student members. Specific responsibilities of the Dean for Graduate Studies and of the UNO Graduate Council may be found in the document “Organization of Graduate Studies: University of Nebraska at Omaha”.

Historical View
For over 100 years since its founding in 1908, UNO has provided Omaha, the state of Nebraska and the nation with men and women of sound intellectual training and preparation for life. Its goal for its students, “To earn a living and live a cultured life not as two processes, but as one” has been its guide over the years.

The University of Omaha was founded in 1908 as a private, nonsectarian college. The University awarded its first master’s degrees in 1919 by special vote of the Board of Trustees. In 1960 the Board of Regents of the University authorized the Specialist in Education degree, and in 1965 they authorized the Master of Business Administration degree. In 1983 the University of Omaha became the Municipal University of Omaha; in that same year the Master of Science in Information Assurance was approved. In 1992 the Board of Regents and the Coordinating Commission for Higher Education approved a joint EdD in Educational Administration degree program (UNL and UNO). In 1993, the PhD in Criminal Justice was approved, and in 1994 the PhD in Public Administration was approved. In 2004, the PhD in Information Technology was approved. In 2005, the Master of Arts in Language Teaching was approved. In 2011, the Master of Arts in Athletic Training was approved. In 2012, the PhD in Exercise Science, and the Master of Science in Information Assurance were approved. In 2013, a Master of Science and PhD in Biomedical Informatics was approved. In 2015, a Master of Arts in Critical and Creative Thinking and the Executive Master of Science in Information Technology were approved. During the 2016-17 academic year, the PhD in Gerontology was moved from UNL to UNO, and the Computer Science Education MS and certificate were approved.

Graduate studies provide more advanced education than the undergraduate work upon which all graduate programs are based. At UNO graduate students:

- Work toward the various graduate certificates and/or degrees offered by the University;
- Earn graduate credit for the issuance or renewal of certificates for teachers, administrators and educational psychologists; and
- Obtain personal or professional enhancement.

To enable the student to attain these objectives, the Graduate Faculty at the University of Nebraska at Omaha provide graduate courses, workshops, institutes, seminars, practica, research and special problems courses, and the supervision of theses or special projects. Thus, they promote the spirit of free investigation in the various disciplines and, at the same time, serve to unite the various branches of the University in advancing human knowledge and providing intelligent, capable leadership for society.

Profile
University of Nebraska at Omaha
The University of Nebraska Omaha (UNO) is a premier metropolitan university that combines the resources of a doctoral research institution with a thriving community in the heart of Omaha.

With a global reach and vision, UNO is large enough to provide opportunities students seek, yet personal enough to include the mentorship they need to achieve academic excellence, creativity, and engaged learning at competitive tuition rates.

UNO is committed to and engaged with the city surrounding it, allowing students unique hands-on opportunities, internships, service learning, applied research, and other collaborative activities that enhance time in the classroom.

This is the “O” we want you to know – forward thinking, student centered, and devoted to the city we call home. #KnowTheO

Academics
Our more than 15,000 students have access to more than 200 programs at the baccalaureate, master’s and doctoral levels, many of which have national rankings. UNO’s six colleges are dedicated to providing rigorous undergraduate and graduate academic programs taught by faculty who are national and international experts in their fields. All of UNO’s colleges offer unique opportunities in research and hands-on experiences that are critical to gaining an edge in a competitive global marketplace.

Ranked as the No. 1, 4-Year University for military friendliness by “The Military Times,” UNO has many options for military and veteran students online, on base, and on campus. UNO is also home to the nation’s best business school for veterans.

UNO is the nation’s leader in community engagement. In 2014, UNO received the Presidential Award for economic opportunity for our work in
the metro area. UNO has also received a Doctoral Research University and Community Engagement classification by the Carnegie Foundation.

Facilities
UNO has added more than 1.8 million square feet of new or renovated facilities since 2006, investing over a quarter of a billion dollars. Recent projects include: Baxter Arena, a new home for Maverick athletics and community events; Mammel Hall, the only LEED gold-certified academic building in the state; the Biomechanics Building and the Barbara Weitz Community Engagement center, both serving as the only buildings of their kind in the country. Additionally, we boast an updated recreation center; apartment style housing; and our renovated Criss Library.

Student Life
UNO is a student-centered campus located in one of America’s best-ranked cities for value and quality of life. We’re the most diverse campus in the state, with numerous opportunities to study abroad or interact with international students from more than 117 countries. Our more than 150 student organizations, learning communities and service learning programs are partnered with businesses and leaders in Omaha’s vibrant community. Students can choose from internships and future full-time employment opportunities in a variety of industries. UNO is constantly adapting to serve student needs including newer degree programs in biomedical informatics, information assurance, and emergency management while providing an affordable and accessible education to all students.

Omaha
Omaha is more than simply our location; the city truly functions as part of the UNO campus. With a population of more than 1.2 million within a 50-mile radius, Omaha is integral to what UNO is as a university and offers unlimited opportunities for collaboration. UNO and Omaha enjoy a dynamic, fruitful, long-term partnership with a shared goal: changing the lives of students and residents while enriching the global community.

Students find internships, careers and other opportunities in the heart of Nebraska’s largest city. While it is a thriving metropolitan center, Omaha is quintessentially Midwestern. Residents enjoy the benefit of four seasons and find outdoor activities plentiful year-round.

Located on the eastern border of Nebraska, near the Missouri River, the city of Omaha is a center of creativity, business and philanthropy. This is where Fortune 500 companies, visionary nonprofits, award-winning arts and culture, and innovative start-ups flourish, and attract a range of world-class talent—from entrepreneurs to artists.

You can take in a concert at the CenturyLink Center or the world famous Holland Performing Arts Center, catch an art house film at the internationally recognized Film Streams, stroll the more than 100 acres at Lauritzen Gardens, or shop and dine to your heart’s content in the Old Market, Midtown Crossing or Aksarben Village. Take a walk from Nebraska to Iowa—and back again on the Bob Kerrey Bridge. This landmark offers a memorable view of Omaha’s skyline and is a prominent feature of our newly reinvigorated waterfront.

For more information visit unomaha.edu (http://unomaha.edu).

Accreditation
The accreditations named herein demonstrate the commitment of the faculty and administration of the University of Nebraska at Omaha to meet rigorous higher education standards. These standards include such factors as faculty credentials, program quality, and general support by funding authorities. Students can be assured their educational experiences at UNO will meet high standards of quality.

The University of Nebraska at Omaha is accredited by the Higher Learning Commission which is an independent corporation founded in 1895 as one of six regional institutional accreditors in the United States. The commission can be contacted at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604-1413; telephone 800-621-7440/312-263-0456; fax 312-263-7462; email info@hlcommission.org. Course credits from the University of Nebraska at Omaha are accepted by other member colleges and universities of the Higher Learning Commission and by member institutions of other regional accrediting agencies. Higher Learning Commission accreditation applies to the entire institution and all its programs.

In addition, UNO also has been granted the following program-specific accreditations:

- Art History (BA): National Association of Schools of Art and Design (NASAD)
- Athletic Training: Commission on Accreditation of Athletic Training Education (CAATE), on probation
- Aviation: Specialization in Air Transport Administration (BS): Aviation Accreditation Board International (AABI)
- Business Administration (BSBA, MBA, EMBA, MAcc, MEcon): AACSB International – The Association to Advance Collegiate Schools of Business.
- Chemistry (BA/BS): American Chemical Society (ACS)
- Computer Science (BSCS): ABET
- Counseling: Concentration in Community Counseling (MA/MS): Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Counseling: Concentration in School Counseling (MA/MS): Council for Accreditation of Counseling and Related Educational Programs (CACREP)
- Elementary Education (BSED; MS): National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
- Library Science (BSED): National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
- Management Information Systems (BIS): ABET
- Music Composition (BM): National Association of Schools of Music (NASM)
- Music Conducting (MM): National Association of Schools of Music (NASM)
- Music Education (BM; MM): National Association of Schools of Music (NASM); National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
- Music Performance (BM; MM): National Association of Schools of Music (NASM)
- Public Administration (MPA): Network of Schools of Public Policy, Affairs and Administration (NASPAA)
- Public Health (BS): Council on Education for Public Health (CEPH)
- Reading/Literacy (MS): National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
- School Library (MS/Endorsement): American Library Association/ American Association of School Librarians; National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
- School Psychology (MA/MS/EdS): National Association of School Psychologists (NASP); National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
Secondary Education (BSED; MS): National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
Social Work (BSW; MSW): Council on Social Work Education (CSWE)
Special Education (BSED; MS): National Council for Accreditation of Teacher Education (NCATE)/Council for Accreditation of Educator Preparation (CAEP)
Speech-Language Pathology (MA/MS): Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA)
Studio Art (BASA; BFA; k-12 Certification): National Association of Schools of Art and Design (NASAD)

State Authorization/Financial Reporting

Coordinating Commission for Postsecondary Education
An institution that participates in the Federal student aid programs authorized under Title IV of the Higher Education Act of 1965, as amended, must be authorized to operate by the State where it is located. There are two basic requirements for an institution to be legally authorized by the state for Title IV funding eligibility purposes. The State must authorize an institution to operate educational programs beyond secondary education, and the State must have a process to review and appropriately act on complaints concerning the institution, including enforcement of applicable State laws. Nebraska’s Coordinating Commission for Postsecondary Education is responsible for responding to these formal complaints at http://www.ccpe.state.ne.us/PublicDoc/Ccpe/Complaint.asp.

Governance/Financial Information
The University of Nebraska is one university, governed by a Board of Regents whose members are elected by Nebraska voters. The board appoints a chief executive officer—the president of the University of Nebraska—who is the single administrative officer responsible to the board. The university conducts its programs primarily on its four campuses (UNO, UNMC, UNL, UNK). The president’s office provides overall leadership to the university in academic affairs, budget development and control, business and finance, physical planning, policy development, external affairs, diversity and equity, and legal affairs. The chancellors of the four campuses, who are appointed by the president, also serve as vice presidents of the university and as chief operating officers on their own campus.

General Services

Information Center
The Information Center, located on the first floor of the Eppley Administration Building, provides general information and referrals to appropriate offices. Hours are Monday through Friday 8:00 a.m. - 5:00 p.m.

Courtesy telephones are located in each major building on campus for contacting Campus Security, placing on-campus calls, as well as local Omaha calls.

Free notary services are available for faculty, staff and students during normal business hours.

The general information number is 402-554-2800. Persons outside the local Omaha calling area can reach the University of Nebraska at Omaha Information Operator during normal business hours by calling 1-800-858-8648.

The Dr. C.C. and Mabel L. Criss Library
The University of Nebraska Omaha (UNO) libraries include the Dr. C.C. and Mabel L. Criss Library (Criss Library) and the KANEKO-UNO Library.

The KANEKO-UNO library, located within KANEKO at 11th and Jones Streets in Omaha’s Old Market is a distinctive space for study, research, collaboration, and investigation. The space and the collection of over 1,000 items address the theme of creativity, and they combine to inspire visitors to expand their horizons across many disciplines.

Criss Library is centrally located on UNO’s Dodge campus, and offers services and facilities for study, teaching, creativity, collaboration and research. Criss Library is open 98 hours per week during the fall and spring semesters, with adjusted hours observed during the summer and intercessions.

Collaborative spaces include: high-tech group study rooms equipped with wide-screen monitors and whiteboards; three four classroom labs; a new flexible Classroom lab featuring 40 dual-boot MacBook Pro laptops, Apple TV, theater seating to accommodate over 40 participants, HD projection on a 120" screen and surround sound; and individual study rooms.

Additional amenities features include: a beautiful outdoor garden patio; café; theater room equipped with a Blu-ray disc player, surround sound, HD projector, 110 inch projection screen, cable television, iPod docking station, and PC; the H. Don and Connie Osborne Family Art Gallery; new Creative Production Lab complete with 3D printers laser cutter, top-of-the-line video and audio editing software, poster-size scanner and color printer, graphic design software, HD camcorders with wireless microphones, green screen, whisper booth, and numerous software choices for multi-media production.

The library’s collection supports the teaching, learning, research, and creative needs of students, faculty, and staff through a variety of formats including, print and e-books, physical and streaming media, digital image collections, journals, newspapers, electronic databases, and government documents. Material not available in the Criss Library collection can be borrowed from other libraries via Interlibrary Loan.

The library’s collection is located on open shelves and arranged according to the Library of Congress classification system. The library’s newly improved Archives & Special Collections has been updated to include more space and adjustable seating arrangements for individual or large group visits. The department’s diverse collections include the University Archives, U.S. Senator Chuck Hagel Archives, as well as other special collections including regional history material, rare books, and the Arthur Paul Afghanistan Collection.

The Library’s holdings are accessible through the library’s website, library.unomaha.edu. UNO students, faculty and staff may check out materials with their UNO ID card at any of the four University of Nebraska campuses, as well as 41 other Nebraska college and university libraries. Additional media items available for checkout are: video cameras, tripods, audio recorders, laptops, Kindles and iPads.

Research and Instruction librarians are available via text, chat, phone, email, and in person to answer questions, help students and faculty use library resources, and assist with research when and where it’s needed. Librarians also offer instruction sessions tailored toward a particular course or assignment. These sessions focus on key concepts for conducting research, including how to identify, navigate, and evaluate information resources.

For additional information, visit library.unomaha.edu (http://library.unomaha.edu).
Information Services (IS)

Technical Support
Eppley Administration Building Room 104
Hours: 8:00 am - 5:00 pm Monday through Friday
Phone: 402-554-4357
866-866-2721
Email: unohelpdesk@unomaha.edu
Internet: http://is.unomaha.edu
Knowledge base: http://requestcenter.unomaha.edu

Administrative Offices
Eppley Administration Building Room 110
Hours: University business hours
Phone: 402-554-4357
FAX: 402-554-3475

Services Available at IS Technical Support
IS Technical Support can help with account issues and technical services such as Blackboard and Email. Other services include:

- Laptop Check Out Program
- Computer Lab with Scanners

IS Technical support does not fix personal computers, but they can make recommendations and have negotiated UNO discounts with local computer repair facilities.

For help:

Walk-in
- Eppley Administration Building, Room 104
- Open: Monday - Friday 8:00 am to 5:00 pm

Phone
- 402-554-4357
- Toll Free: 1-866-866-2721

Online
- Email: unohelpdesk@unomaha.edu

If you have a problem you need to report or need an account changed, you can do it online. Submit a ticket at http://requestcenter.unomaha.edu for common requests such as: Account Status Change Requests, Voicemail Password Resets, and Group & Org Email Requests

UNO NetID
The UNO NetID is your username and password for online services that are specific to UNO. Every student, faculty and staff member has a UNO NetID. Your NetID and all associated accounts are automatically generated upon enrollment of class, registration for orientation, or as part of the hiring process. It typically takes 2 to 3 days for accounts to be completely generated and accessible.

How can I get my NetID Username and Password?
You will need your NUID and password to look up your username and set your password.

- To look up your NetID username visit https://idm.unomaha.edu/idm/user/netidlookup.jsp
- To set your NetID password visit: https://idm.unomaha.edu/idm/user/forgotpassword.jsp

What Services use the NetID?
- Email - gMAV for students and Office 365 for faculty and staff
- Blackboard
- Box

For a list of others services please visit my.unomaha.edu (http://my.unomaha.edu).

NUID
The NUID (Nebraska University Identification Number) is a unique 8-digit number assigned to all students, faculty and staff members during the admissions or hiring process. This number remains the same across the University of Nebraska and Nebraska State College system. If you've taken classes or worked at another University of Nebraska or state college campus, you may already have an NUID.

How can I get my NUID Number and a Password?
TrueYou Self-Service is the quickest and easiest way to look up your NUID and set your password. You can access TrueYou at https://trueyou.unomaha.edu/idm/user/selfservice.jsp.

Other Ways to get your NUID
- If you are in the Omaha metro area, you can obtain you NUID in person by showing your photo ID at the Records and Registration Office, Eppley Administration Building (EAB) 105.
- If you are outside the Omaha metro area, you can send a SIGNED letter to UNO Records, and Registration, 6001 Dodge St, EAB 105, Omaha, NE 68182-0286 or a SIGNED FAX to 402-554-3472 requesting your NUID be mailed to you (home address for students, department address for faculty/staff). We DO NOT accept email requests. Please include your name and date of birth for identification purposes.

What Systems do I use my NUID for?
- MavLINK - The Student Information System for UNO. This is where you register for classes, check your balance, and get your grades
- Firefly - The Human Resources system for the University of Nebraska system. This is where you find pay stubs and handle benefits.
- TrueYou - The password reset system for MavLINK and Firefly. This is where you can look up your NUID and reset your password.

Things to Remember about your NUID Number and Password
- Together your NUID and password authorize you to access information that is not considered public information by the Family Educational Rights and Privacy Act. Treat the password in the same manner you would a banking pin number.
- Always have the same NUID number. Students who later become faculty or staff will continue to use the same number.
- NUID information WILL NOT be released via telephone or FAX.
- NUID information WILL NOT be given to anyone but the student, faculty or staff member.
- Retain your NUID even if you are not enrolled in courses. Along with your NUID number, your NUID allows you to access MavLINK and make transcript requests.

Computer Labs
Information Services maintains several computer labs across campus in partnerships with several colleges on campus to provide expanded access.

On Campus Labs
- Criss Library
- Durham Science Center (DSC), Room 104
- Health, Physical Ed and Recreation (HPER), Room 211
- Mammel Hall (MH), Room 213
- Peter Kiewit Institute, Rooms 145, 149, 151, 158, 249, 352
Visit the IS website is.unomaha.edu (http://is.unomaha.edu) for the latest lab schedules.

**Computer Checkout**
Information Services has computer equipment for students to rent, free of charge, for up to one week at a time.

**Eligibility**
- must be a current UNO student enrolled in classes during the duration of the loan period
- must not have access to a working computer or laptop at home
- must possess a current and valid UNO MavCard or Driver’s License
- must be at least 18 years of age or older; if not, then must have parent’s consent

**Where can I check them out?**
Information Services Technical Support in Eppley Administration Building room 104 during normal business hours (8:00 AM – 5:00 PM) Monday through Friday.

Visit the IS website is.unomaha.edu (http://is.unomaha.edu) for a list of computers available for checkout.

**University Communications**
The Office of University Communications (UComm) provides integrated, client-focused marketing, communications, and media relations support services that further the goals and priorities of the university and its academic units.

As a central resource for the university, UComm connects and supports a network of communicators across campus. Services include marketing and advertising; digital communications; internal communications; media relations; event coordination; and photography/videography. UComm also partners with Information Services to maintain UNO’s web presence at unomaha.edu (http://unomaha.edu).

For more information about the Office of University Communications, visit online at ucomm.unomaha.edu (http://ucomm.unomaha.edu), call 402.554.2358, or email ucomm@unomaha.edu. UComm is located in Eppley Administration Building 102.

**Environmental Health and Safety**
It is the goal of the University to provide a safe, healthful environment in which to work and study. In order to achieve this, Environmental Health and Safety (EHS) provides a number of training programs and consultation services for students, faculty and staff. Programs directed by EHS include: employee safety and passenger van training, hazardous waste management, emergency preparedness, fire protection and accident investigations.

Safety Data Sheets and other information related to the safe handling and disposal of chemicals can be obtained from the EHS website. Students can help maintain a safe environment at UNO by reporting unsafe conditions on campus. For more information about EHS, visit online at www.unomaha.edu/ehs (http://www.unomaha.edu/ehs); call 402.554.3596 or visit EHS in the Eppley Administration Building, Room 211.

**Ombudsman**
The Ombudspersons’ role is to assist you informally when you have a conflict, problem or complaint with individuals or offices at the University. Help with identifying your options to solve a problem, referrals to persons or offices that have expertise you may need, and impartial assistance with resolving a conflict are just some of the services of this office.

Communication with this office is confidential and “off the record,” except when there is an imminent risk of serious harm or where laws do not provide for the information to be considered privileged. If you wish to make a record, or to make UNO formally aware of a particular problem, the Ombudspersons can provide information on how to do so.

To contact an Ombudsperson, find the web page on UNO’s website or call the University operator at 402-554-2800. The service is free to all UNO students and employees.

**Student Affairs**

**Student Services**
The services provided through the departments in Student Affairs are designed to promote the growth and development of the whole student – intellectually, physically, emotionally, socially, financially, environmentally, occupationally and spiritually – to allow the student to develop behaviors that can lead to healthier functioning both during school and throughout his/her life. An integrated, holistic wellness program that links student curricular and co-curricular activities enriches the student experience on campus and better prepares the student to be an active citizen in our global community.

**Office of Civic & Social Responsibility (CSR)**
The UNO Office of Civic & Social Responsibility (CSR) is dedicated to developing engaged, civic-minded citizens and leaders of our communities. UNO believes service and engagement are vital components for the educational development of all students and for a sustainable, healthy community. CSR is locally and nationally recognized for the service impact of our volunteers. As the campus service resource to the university and community, CSR provides ongoing information for the university community to learn how they can serve in specific areas of interest. The student-centered programs provided through CSR include:

**The Collaborative**
The Collaborative aims to create programs that empower students to affect positive change within the community. The Collaborative is a program that connects UNO students with nonprofit organizations for an all-encompassing professional experience during the academic year. The Collaborative has several student worker positions available, and they receive on-going education about the nonprofit sector.

**Maverick Food Pantry**
UNO’s Maverick Food Pantry contributes to UNO’s culture of caring by providing food to those in immediate need and connecting them with resources in the greater Omaha area for long-term support. UNO students, faculty, and staff can anonymously request a food package on MavSYNC and pick up the package in CEC 130. Maverick Food Pantry volunteers sort donations, assemble food packages, and assist those picking up packages.

**Signature Service Days**
Each academic year, UNO sponsors multiple days of service in which volunteers engage in service projects around the community for a day. Signature Service Days have expanded to over sixteen days dedicated to service throughout the academic year. On a Signature Service Day, UNO students, faculty, and staff, along with our K-12 partners, Metro Community College, and community volunteers, come to the CEC and are transported into the community to complete service projects.

**Social Entrepreneurship**
Students who wish to initiate their own service project receive support from CSR’s Seed Projects, which provide a stipend and guidance on how to make your project come to life. CSR also provides support to Clinton Global Initiative University (CGI U) applicants. CGI U connects students from all over the world and helps them become better social innovators and leaders.

**Volunteer Connections Center**
The Volunteer Connections Center (VCC) helps UNO students find their passion and purpose by finding their “choice” service opportunity or organization. VCC coordinates Volunteer Fairs to show students how
Academic & Career Development Center (ACDC)

The mission of the Academic & Career Development Center is to facilitate academic success and career development through:

- Academic advising for undeclared students who have completed less than 36 credit hours
- Career advising and coaching for all UNO students and alumni
- Job and internship exploration and preparation
- Academic and career events, workshops, class presentations, and community/employer outreach
- College & Career Success curriculum and programs

We serve as a resource for students, alumni, faculty, staff, and employers. We empower students and alumni to make decisions regarding potential majors, internships, jobs, and graduate programs. Through collaboration with faculty, staff and employers, we help students and alumni explore possibilities, find their passions and realize their career potential.

Academic Advising for Undecided Majors

Academic Advising in ACDC provides a setting in which students who are in the process of deciding on an academic major or college have the opportunity to enroll in an exploratory program of studies. Academic and Career Advisors work with students to explore courses and activities based on General Education curriculum, exploratory courses, career development and first year experience programming.

Requirements:

1. ACDC students are required to meet with an Academic and Career Advisor in ACDC at least once each semester in order to enroll in classes for the upcoming semester.
2. All ACDC students follow the University General Education curriculum.
3. All students entering ACDC for the first time are strongly encouraged to enroll in and successfully complete the US 1010: College & Career Success (CCS) course.
4. ACDC students are required to have a plan in place for completing UNO English & Math fundamental academic skill requirements before the end of their first semester of enrollment.
5. ACDC students are required to transfer to the degree-granting college of their choice by no later than the end of the semester in which 36 credit hours are earned. Exceptions to this must be approved in writing by the Director of the Academic & Career Development Center (ACDC).

Procedures for Transitioning from ACDC:

- ACDC students who have made a decision concerning an academic major or college should transition to that college as soon as possible.
- To switch majors, students must complete the following:
  - Set up a meeting with an advisor in the new college/department.
  - Complete the Change of Program form with the new college/department advisor.
  - Turn in the Change of Program form at the Registrar’s Office (Eppley Building, 105)
  - NOTE: Students do not need to meet with their ACDC advisor to switch majors, only their new college/department advisor

- A student may not be admitted to, readmitted to or enrolled as a student in ACDC after he/she has earned a total of 36 credit hours of college coursework. Exceptions to this must be approved in writing by the Director of the Academic & Career Development Center (ACDC).

- Procedures for Transitioning to University Division:

  Students from UNO colleges desiring to transition into ACDC must meet the following criteria:
  - Have a cumulative grade point average of no less than 1.75.
  - Have earned fewer than 36 credit hours.
  - Obtain the approval of an Academic and Career Advisor in ACDC and complete the Change of Program form.

Career Services

ACDC guides all UNO students in making career plans, obtaining career-related experience, and in navigating next steps upon graduation. This guidance is provided through individual advising, presentations, and special events that bring employers and students together.

ACDC Academic & Career Advisors facilitate career development through one-on-one interaction, offering a variety of services to UNO students, faculty, staff, and alumni including:

- Career/major exploration
- Resume and cover letter reviews
- Mock interviews
- Job and internship search strategies
- Career assessments

Employer Relations

ACDC facilitates relationships with employers, providing them opportunities to:

- Hire talented students
- Post jobs and internships on UNO Career Connect (https://unomaha-csm.symplicity.com)
- Conduct on-campus interviews
- Participate in UNO Career Fairs
- Offer networking opportunities

Employment Opportunities

Students can access part-time, full-time and internship opportunity listings through the online job board, UNO Career Connect: careerconnect.unomaha.edu

All University Career & Internship Fairs

ACDC hosts All-University Career and Internship Fairs during the fall and spring semesters each academic year. These events allow UNO students and alumni of all majors to connect with career, internship and graduate school opportunities from various fields.

On-Campus Interviews

As a service to employers and students, ACDC hosts on-campus interviews. Interviews take place regularly during the fall and spring semesters for a variety of full-time, part-time and internship positions. To apply for on-campus interviews students must register on UNO Career Connect (https://unomaha-csm.symplicity.com).

Informational Tables

Employers regularly set up informational tables on campus, allowing students to gather information and network with recruiters. Employer
Student Conduct and Community Standards

With a focus on student success, the Office of Student Conduct and Community Standards provides leadership to the conduct process and promotes UNO’s shared commitment to community standards. As members of the academic community, students have rights and responsibilities which accrue to them. Student Conduct and Community Standards provides for the adjudication of any alleged violation of these responsibilities detailed in the UNO Student Code of Conduct. For more information, contact the Office of Student Conduct and Community Standards at unoconduct@unomaha.edu or call 402-554-3537.

Health Services

Health Services, your on-campus health care provider, offers medical services from the disciplines of family medicine, psychiatry, and gynecology. Additionally, inter-office referrals to CAP’s are available. Services can be paid for by your personal health insurance, or a reasonably priced fee-for-service system is available. Utilization of Health Services is offered to all students who pay related UPF fees.

Routine preventive health services include vaccinations, examinations for wellness, well-woman, men’s health, and sexually transmitted disease & HIV testing. Treatment for illness and injuries including x-ray is available on-site. Emergencies are treated on a walk-in basis with referral to community partners when necessary. In addition, Health Services coordinates campus health-related programs including alcohol and drug prevention and the Recovery Community.

Health and wellness education is offered - questions about your health are welcome.

Health Services is located in the Wellness Center HPER 102. Hours on Monday and Friday are 8 a.m. to 5 p.m., and Tuesday, Wednesday, and Thursday hours are from 8 a.m. to 7 p.m. To schedule an appointment, please call (402) 554-2374.

A reasonably priced major medical health and dental insurance plan is available for students enrolled in on-campus classes. Please refer to Health Services web site for coverage details and pricing by the semester.

Student Health Insurance

UNO offers a reasonably priced insurance plan designed to provide benefits for medical, dental and prescription expenses. This insurance is available for purchase by the semester for degree seeking students attending on-campus classes. Please check the Health Services web site to view the enrollment qualifications.

Office of Military and Veteran Services (OMVS)

The Office of Military and Veteran Services (OMVS) is a one-stop office for military, veteran, and dependent students at UNO. OMVS is responsible for providing support services and student programming that ensures the successful transition, academic progress, and graduation of students who are military-affiliated. Our office is located on the UNO Dodge St campus in the Milo Bail Student Center, Room 117.

Some key services of The Office of Military and Veteran Services include assisting students with applying for and using their VA education benefits, as well as answering any questions about transferability of benefits to dependents, the Yellow Ribbon Program, and using state and federal military tuition assistance. Military, veteran, and dependent students will also work with the OMVS staff for assistance in the admissions process, enrollment, academic program selection, transfer credit, career guidance, and academic support.

The Office of Military and Veteran Services will also connect students with other departments on campus for student services, counseling, or academic advising, as needed.
participation in university awareness and intellectual growth. The purpose of The Brotherhood is to assist the male students of African American events.

The Brotherhood

The Brotherhood is a comprehensive support program that collaborates with Links Inc. The campus wide initiative aims to give young women an opportunity to celebrate and enhance their strengths, creativity and intelligence. The Sisterhood empowers young women to develop a successful life plan for college and their career. Students attend monthly conferences and workshops on financial literacy, life planning, and intelligence. The Brotherhood

The purpose of The Brotherhood is to assist the male students of African ancestry in the realization of their academic and personal goals while providing a network for Black/African American student representation and participation in university awareness and intellectual growth.
college career through workshops on self-advocacy training, note-taking and test preparation strategies, time management, creating learning communities through groups and networking with peers, faculty and career professionals.

**Advising** academic and personal

**Extended Office Hours** Tuesdays and Thursdays until 8:00pm

**Computer Lab and Printing**

**Tutoring**

**Mid Term Follow-up**

**FAFSA** to assist families and students as they go through the process of applying for financial aid

**Welcome Breakfast** Gives students the opportunity to meet other new students, current students, the Multicultural Affairs staff and other student affairs professionals

**Cultural Programs**
Diversity of programs to meet the needs of our diverse student body.

**Community Outreach**
Partnering with our various diverse population to ensure there is a connection between the community and the university.

**New Student and Family Programs**
New Student and Family Programs provides support for all new undergraduate students, both entering freshmen and transfer students, and their families as they get acquainted with the University. Orientation is the mandatory program that prepares students for a successful start at UNO. This experience introduces students to campus resources, academic expectations, and tools to thrive during your time at UNO.

There are a variety of options for students to complete orientation including: first year student orientation, transfer student orientation, adult learner orientation (students 21 years of age or older; those with dependents), Military/Veteran orientation, and online orientation (available to all transfer students, students 21 years of age or older, or those who live outside of 250 miles from campus).

For additional information, contact New Student and Family Programs, located in the Welcome Center, at 402-554-2667 or by email at unoorientation@unomaha.edu. More information is also available online at nsfp.unomaha.edu (http://nsfp.unomaha.edu).

**Academic Support Services**

**Math-Science Learning Center**
The MSLC provides UNO students (http://www.unomaha.edu/college-of-arts-and-sciences/math-science-learning-center/about-us/hours.php) the assistance they need to conquer academic challenges in Math and Science. Model students serve as tutors, supplemental instruction leaders and study group facilitators trained to assist their peers in achieving academic success. The MSLC houses meeting alcoves, study/tutoring space, tutorial computers and reserve study materials. It also offers academic consultation for students seeking to increase their overall learning effectiveness and efficiency.

The Math-Science Learning Center is located in Durham Science Center 107

**Speech Center**
The UNO Speech Center assists all UNO students, faculty, and staff in preparing oral presentations and/or incorporating them into their courses.

Speech Consulting Room provides consulting and coaching services for all UNO students, graduate students, faculty, and staff from all disciplines, assistance to faculty in support of Speaking Across the Curriculum effort at UNO and assessment documentation for the UNO oral communication general education requirement.

The Speech Center is located in Arts & Science Hall 183 & 185 or can be reached at 402-554-3201.

**Writing Center**
The Writing Center invites UNO student, faculty, and staff in all university divisions to work with a writing consultant on any university-related writing project. You may use this free service to work on your writing assignments, application essays, business letters or other projects. Our goal is to help you become an effective, independent writer; we will not edit papers for you: instead we will help you develop the ability to edit your own work.

Since graduate-level essays are often lengthy, you may reserve an hour-long appointment instead of the standard half hour. You may wish to work with one of our Graduate Consultants. To schedule an appointment, call the Writing Center at 402-554-2946 or visit them online at http://www.unomaha.edu/college-of-arts-and-sciences/writing-center/index.php

**Testing Center**
The University of Nebraska at Omaha Testing Center provides a variety of services to UNO students, faculty and staff. These services extend into the Omaha community and beyond to persons needing testing related assistance.

The types of services include university placement exams, certification/licensure exams, online distance education exams, admission exams, proficiency exams, national exams, career assessments, personality indicators, departmental challenge exams, correspondence exams and testing accommodations for students with disabilities. The Testing Center will also consider special requests associated with individual needs.

For more information regarding testing services, please contact:

The University of Nebraska at Omaha Testing Center
522 Kayser Hall
Omaha, NE 68182-0318
402-554-4800
http://testingcenter.unomaha.edu/

**National Exams**
The Testing Center may be able to provide information for many nationally administered exams including computer-based testing for Educational Testing Service exams.

Among exams offered are the Graduate Record Exam (GRE), PRAXIS series exams, Law School Admission Test (LSAT), ACT Assessment, Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Test of English for International Communications (TOEIC), College-Level Examination Program (CLEP), DSST exams formerly known as DANTES Subject Standardized Tests, NCAA Coaches Certification Exam, Major Field Test (MFT), and many other certification/licensure exams.

**Placement Exams**
Placement exams include the English Placement Proficiency Exam (EPPE), Math Placement Exam, French Placement Exam (FPE), and the Spanish Placement Exam (SPE).

**English Placement**
The English Placement/Proficiency Exam (EPPE) is required for undergraduate students (first-time freshmen and transfer students) and international students, including some applying for graduate studies.

These students should check with their UNO academic advisor to see whether they are exempt from taking the EPPE:
Students who took an Advanced Placement (AP) English course and a corresponding AP test in high school and present an English AP score of 3 or higher

Students with composition credit deemed equivalent to UNO’s ENGL 1150 and/or ENGL 1160.

International students with an Associate’s degree or higher from a U. S. accredited post-secondary institution

The EPPE is a 90 minute essay. Examinees should allow approximately 2 hours for an exam session. A student may take the EPPE twice in a calendar year.

Chemistry Placement

Entrance into CHEM 1180 General Chemistry I, depends on a student’s ACT or SAT Math Sub-Score or their score on the Math Placement Exam. CHEM 1180 placement is determined according to the following criteria.

ACT Math Sub-Score – 25+

SAT Math Sub-Score Placement of 570+ (590+ for 2012-2016 scores)

OR

Math Exam Score – 6 with placement into:

A student may challenge their ACT or SAT Math Sub-Score placement by taking the Math Placement Exam.

The Math Placement Exam is an adaptive, computer based tests is untimed. A 2-5 hour testing window is scheduled which includes check-in, instructions, testing, and check-out. An on screen calculator is available during the exam, therefore personal calculators are not allowed. A student may take the Math Placement Exam twice in a two year period. ACT or SAT Math Sub-Score placement is valid for 5 years after the test date. Math Placement Exam results are valid for 2 years.

Foreign Language Placement

French and Spanish placement is required for any student with prior language experience who wants to enroll in their first UNO French or Spanish course. Native speakers should contact a French or Spanish advisor in the Foreign Language Department for permission to enroll.
A student with no prior French or Spanish experience does not need to take a placement exam.

A student who is placed into French or Spanish at the 1120-level or higher may be eligible for retroactive credit for UNO courses they test out of. The student must earn a final course grade of "C" or better in the course they are placed into in order to receive retroactive credit.

Both exams include a short listening comprehension section; a written section; and a short composition section. Exam time is 1 hour and 30 minutes, not including check-in, instructions, and check-out. Examinees should allow approximately 2 hours for an exam session. A retest is not permitted less than 1 year after the prior test. Results are valid for 1 year.

**Credit by Examination at UNO**

Credit by Examination allows students the opportunity to gain academic credit for prior learning they have acquired by self-study or experience. Tests may be taken in many subject areas and credit may be earned by achieving acceptable scores on these tests. Benefits include saving tuition dollars and shortening the time it takes to earn a degree.

Two types of examinations may be taken for credit at UNO: The College-Level Examination Program (CLEP) and UNO’s Special Examination Program.

Many postsecondary institutions now offer credit on the basis of CLEP examinations annually. The CLEP exams include General Examinations and Subject Examinations. Both are designed to measure factual knowledge and understanding, problem-solving ability, and mastery of college-level, introductory course content in a wide range of disciplines.

UNO’s Special Examination procedure involves “challenging” one of the courses taught at this University by attempting a Departmental Examination. These examinations are constructed by the Department for the purpose of measuring knowledge in a particular course being offered at UNO. Credit is granted for the course upon successful completion of the examination.

- An examination may not be attempted more than once.
- A student who has failed to earn credit in an attempted college course may not receive Credit by Examination in the same course. Neither will credit be granted to raise a grade earned in any course.
- A maximum of 30 hours Credit by Examination (the College of Business has a limit of 24 hours) may be applied toward graduation, i.e., CLEP, by Challenge, etc.
- Credits earned by examination may not be used as part of the terminal residency requirements, so you should check the requirements of your college.
- Students taking Departmental Examinations must be registered at UNO at the time they attempt the exam. (Registration is not required to take CLEP exams.) You must be a UNO student to have the credit applied to UNO.
- Students attempting Credit by Examination in courses in which they are currently enrolled must do so before they have completed one month of the course.
- Credit by examination will not be given for courses that are prerequisites for courses that the student has already earned credit. For exceptions, check with the Department.
- Credit earned on a General Examination will be reduced by the amount of comparable credit already earned in the division.

The fee for each CLEP exam is $80.00, plus a separate nonrefundable service fee of $25.00. There is a $10.00 fee for optional essays. You must pay separately for each exam you take. CLEP exams and optional essays are free for military personnel with proper ID (the Center’s $25.00 fee is still required). There is a $25.00 charge for each Departmental Exam (Challenge Exam). In addition to the cost of taking the examinations, payment for recording hours earned through CLEP and Challenge Exams shall be assessed at the rate of one-half resident tuition per credit hour. The $25.00 fee for Departmental Exams is applied to the overall payment for credit earned. Visit http://clep.collegeboard.org/ to see the CLEP informational bulletin for more details. (Fees are subject to change.)

Credit earned by examination will be recorded as “CR” on the transcript, and this credit will not be used in calculating grade point average.

If you need additional information or have any questions, feel free to stop by (KH 522) or call the Testing Center (402/554-4800). Questions regarding Departmental Challenge Examinations other than those noted should be directed to the appropriate department.

**Project Achieve**

The Project Achieve Student Support Services Program addresses the unique needs of any UNO student who qualifies as a first-generation college student (neither parent earned a bachelor’s degree), low-income and/or disabled and is pursuing an undergraduate degree program in the university. The program, funded through a grant from the United States Department of Education, provides supportive services mostly for increasing the rates of retention and graduation of the students in the program. Other program activities aim at fostering an institutional climate supportive of the success of the students. Participants in the program must have the desire, self-motivation and commitment to improve their academic abilities and skills through study and participation. The program offers a variety of services, including teaching, tutoring, counseling, academic advisement and non-credit seminars and workshops. To apply, contact Project Achieve in Kayser Hall 330, or call 402-554-3492.

**Campus Recreation**

campusrec.unomaha.edu (https://www.unomaha.edu/student-life/wellness/campus-recreation)

Campus Recreation is located in the Health and Kinesiology building near the Field House. The mission of Campus Recreation is to enhance the UNO community's quality of life through participation in fun, diverse recreational and leisure opportunities. Campus Recreation's staff, programs and facilities are recognized locally, regionally and nationally as leaders in the leisure and recreational sports profession. Campus Recreation provides programming and services to the UNO community through the operation of the following program and service areas: Strength & Fitness, Intramural Sports, Sport Clubs, the Outdoor Venture Center, Injury Prevention & Care, Aquatics, Mav Kids - Youth Programs and Instructional Programs. All currently enrolled students who pay UPF fees are automatically members. Students may sponsor spouses and friends to purchase Campus Recreation membership as well. Check our website for full membership details and prices.

An expansive renovation and addition project was completed on the Health & Kinesiology Building in September 2010, ranking it alongside the premier wellness facilities in the country. The expansion presented an exciting opportunity to create programs that positively impact the quality of life for students at the University of Nebraska at Omaha. New and renovated space was dedicated to recreational activities, student health and wellness, nonacademic education programs, and administrative space supporting these student services. The facility houses five multi-activity courts, a 50-meter pool, a jogging track, seven racquetball and two squash courts, two state-of-the-art fitness centers, men's and women's locker rooms, two inclusive locker rooms, a 25-person spa pool, four group exercise and spinning rooms, a 4,200 square foot climbing wall and an Injury Prevention and Care clinic. Equipment necessary to participate in a variety of activities is available for checkout free of charge at the Guest Services desk.

The HPER Building strives to be accessible and inclusive to all members of the UNO community. Notable features of the building that assist in accomplishing this goal include private, accessible showers in the Inclusion Locker Rooms, wheelchair-accessible weight machines and racquetball courts, sport wheel chairs and ADA lifts in the pool. The Campus Recreation
staff are ready to assist all individuals in developing programs to meet their individual needs.

As the largest employer of students on campus, Campus Recreation offers employment opportunities to more than 150 students each year. Positions include building manager, guest services, office worker, central issue clerk, OVC rental clerk, lifeguard, climbing wall supervisor, sports official, weight room supervisors, fitness instructors, personal trainers, building manager and injury prevention and care staff. Check the employment section of the Campus Recreation website for a listing of open positions.

Campus Recreation believes it has something for everyone. Get involved by visiting the Campus Recreation Guest Services desk in the Health and Kinesiology Building or call 402.554.2539. Information is also online at campusrec.unomaha.edu (https://www.unomaha.edu/student-life/wellness/campus-recreation).

**Fitness/Wellness**

The Strength and Fitness program offers open fitness times, Personal Training, and Group Exercise programs. The fitness facility has open fitness time for more than 107 hours per week and has nearly 30,000 visits per month. There are two separate fitness spaces that provide unique environments and meet most fitness needs. The Personal Training program offers a certified trainer who can create a customized program to meet and accomplish individual goals. The Group Exercise program offers 30 classes per week and has nearly 300 unique participants per month. Classes vary in intensity - light, moderate to high intensity and include classes such as Yoga, Boot Camp, HIIT, Cycling and Zumba.

**Intramural Sports**

Intramural Sports runs leagues and tournaments for the on-campus population. It provides exercise, recreation, completion and fun to all participants in a relaxed, yet structured environment. The Intramural Sports program is designed to match equally skilled teams and persons in various sports; keep the thrill of completion within its limits; and place emphasis on having fun, good sportsmanship, and fair play. Team, individual, and dual competition takes place in the following divisions: men’s, women’s, open and co-recreational. Intramural sports currently include: flag football, basketball, outdoor/indoor soccer, softball, broomball, floor hockey, dodgeball and outdoor/indoor volleyball. Other events and activities are added throughout the year. Check the Campus Recreation website for updated schedules. Please call Intramural Sports at 402.554.3030 for more information on how to register.

There also are opportunities for individuals with disabilities to actively participate in competitive games throughout the academic year. Campus Recreation will provide sport chairs for use to all valid members who participate in wheelchair based activities within the facility.

**Sport Clubs**

Sport clubs promote interest in a specific sport or activity, and are registered and sponsored by Campus Recreation. Clubs may provide a program of instruction, recreation and/or competition in their specified sport; and usually travel to other campuses to compete. Sport clubs assume a variety of types and sizes in order to meet many different sporting needs and interests of students, faculty and staff. Each club establishes its own organizational framework, leadership and performance level. Each sport club is a student organization that is administered by its members. To join an existing club or start your own sport club, please call 402.554.3030 or stop by HPER 104. Check out the Campus Recreation website for a current listing of recognized sport clubs.

**Outdoor Venture Center**

Visit the Outdoor Venture Center (OVC) to push yourself and explore the outdoors in a new way. The OVC offers trips and instruction in rock climbing, backpacking, canoeing, kayaking, cross-country skiing and many other activities. Programs may be as short as an evening or as long as a week for extended trips. Workshop options are located on or near campus and last a few hours. OVC adventures take place locally in Nebraska and across the USA in states like Colorado, Utah, Arkansas, Minnesota, Wyoming, South Dakota and Montana. Anyone that desires to get out on their own adventure can make use of the OVC’s equipment rental. The OVC provides a series of classes in outdoor leadership, basic rescue principles and outdoor emergency care for students interested in leading such trips or further refining existing skills.

**Climbing Wall**

The 28-foot high wall and accompanying 12-foot high “boulder” combine for a total of 4,200 square feet of available climbing space. The climbing wall is open all week, and several climbing workshops are offered throughout the year. Helmets, climbing harnesses, delay devices and ropes are provided free of charge. Climbing shoes are required and are available for rent. The climbing wall is one of the few Campus Recreations services available to non-members as well. Non-members must pay a daily admission price.

**Aquatics**

The pool is available to students, campus recreation members, and a limited amount of general public participants. The pool is open seven days a week for recreational and lap swimming. Aquatics offers both youth and adult swim lessons, Lifeguard Trainings and a recreational adult league called “Maverick Swimmers.” All aquatic activities are conducted under the guidance and supervision of Campus Recreation personnel and staffed by skilled and qualified Lifeguards.

**Injury Prevention and Care**

The Injury Prevention and Care (IPC) program is a state-of-the-art athletic training facility. The program is designed to provide injury prevention and care services to all students, faculty and staff participating in Campus Recreation activities. IPC staffs two Certified Athletic Trainers (ATCs) who can provide injury evaluations, injury rehabilitations, education and assistance to all Campus Recreation members in regard to previous or current sports injuries. The IPC program offers the following services:

- First aid (wound care, band aids, ice bags and Ace bandage wraps)
- Injury evaluations (acute and chronic)
- Free Crutch Checkout
- Taping (Free with your own tape)
- Referral services
- Rehabilitation education

Call IPC at 402.554.3170 to schedule an appointment or for more information.

**Mav Kids Youth Programming**

Mav Kids is a youth-targeted program open to children of UNO students, faculty and the general public. The Mav Kids Summer Day Camp runs week-long camps incorporating various activities into a “theme” for that week including rock climbing, swimming, field trips, arts and crafts and educational sessions. An annual Halloween Party, rock climbing evenings, and craft days are run during the school year. The Mav Kids is a sport development program for preschool age children and is run under the guidelines of the National Alliance for Youth Sports Start Smart program.

**Instructional Programs**

We offer a variety of non-fitness and specialty focused instructional programs. Offerings may vary semester to semester but are likely to include the following:

- The Martial Arts Academy meets every Tuesday and Thursday year-round. Practices mainly focus on Taekwondo.
- Red Cross First Aid and CPR/AED classes are offered throughout the year. We are able to offer web-based instruction with in-person skills testing as well as the traditional classroom instruction.
- Self-defense workshops
• Cooking demonstrations
• Adult craft sessions and programs

Contact the Campus Recreation office if there is an Instructional Program that you would like to see offered that is not listed here.

Student Involvement
In the Office of Student Involvement, students are our top priority. We provide a multitude of opportunities that afford students the chance to develop as a whole person in order to have a well-rounded college experience that is enhanced by their involvement in co-curricular activities.

No matter what your interests are there is something for you. So get involved in Student Government & the Agencies, Maverick Productions (UNO student programming board), Fraternity and Sorority Life, or our many student organizations. If you have questions or want to get involved, stop by our office on the first floor of the Milo Bail Student Center, call 402-554-2711, or visit MavSync at mavsync.unomaha.edu (http://mavsync.unomaha.edu). We look forward to connecting with you.

A list of current Student Organizations can be found at http://www.unomaha.edu/student-life/involvement/student-organizations/browse-organizations.php.

Milo Bail Student Center
The Milo Bail Student Center (MBSC) is the student involvement hub located in the heart of Dodge Campus. MBSC is where you can take care of business at MavCARD Services or the Bookstore, connect with student services like Accessibility Services or Multicultural Affairs, and join programs geared specifically toward students like the Fraternity and Sorority Life and Student Government. Inside MBSC you can find:

First Floor
Accessibility Services Center
Bookstore
Convenient Store
The Maverick Den
Gender and Sexuality Resources Center
Military and Veteran Services
Multicultural Affairs
Student Involvement
Clubs and Organizations
Fraternity and Sorority Life
Maverick Productions
MavGATION Station

Second floor
Durango’s Grill
Catering and Food Services
Food Court
Ballroom
MavCARD Services
Chapel
Meeting Rooms

Third floor
Meeting Rooms

Student Services in MBSC
Success isn’t just something we talk about. It’s something we believe in, and MBSC offers resources and groups for every student at UNO, so you can achieve your goals. Student services located in MBSC include the Office of Military and Veteran Services, Multicultural Affairs, the Gender and Sexuality Resources Center, Accessibility Services, and Student Involvement. Stop by any one of these offices and get connected with services and resources dedicated to your overall success at UNO.

UNO Bookstore
The UNO Bookstore, owned and operated by the University of Nebraska at Omaha, is located on the first level of MBSC. The Bookstore offers new and used textbooks, rental books, digital e-books, Omaha’s largest selection of UNO apparel, gifts, and home décor. The UNO Bookstore website, unobookstore.com (http://unobookstore.com), offers free in-store pickup and free residence hall delivery for textbooks, apparel and more.

UNO Food Services
UNO Food Services strives to offer high quality food at a reasonable price to UNO students, faculty, staff, and community. The majority of our food is made in-house, from scratch, and uses simple ingredients with no extenders, fillers, or preservatives. UNO Food Services recycles all of its cardboard and oil and all of the disposable ware offered is compostable and biodegradable. We keep our food local whenever possible and purchase products from companies like Omaha Steaks, Rotella and Hiland Dairy. UNO Food Services operates MBSC Food Court, Maverick Den, Durango’s Grill, Library Café, Maverick Café, and UNO Catering.

MBSC Food Court
Offers a wide variety of freshly made options including: house-made pizza, pasta, Tex-Mex, wok-cooked stir-fry and much more! Grab-and-go options are available like Eat Fit Go, sushi, and sandwiches, for when you need a quick meal or snack. View Menu (https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/food-menus-specials.php)

Maverick Den and Convenience Store
Stop at the grill to get quick, grab-and-go hamburgers, chicken tenders, fries, custom-made salads, and more. Get your caffeine fix at our coffee bar serving shade-grown, direct-trade coffee from the Arbor Day Foundation. Premium ice cream, shakes, and sundaes available made to order. The Convenience Store is always fully stocked with beverages, snacks, and other essentials. View Menu (https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/convenience-store.php)

Durango’s Grill
Durango’s Grill is a full, culinary experience and serves made-to-order dishes. Highlights include in-house smoked BBQ, fresh-made soups and salads, gourmet burgers and rotating, weekly specials that are all prepared in an open kitchen. View Menu (https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/durangos-grill.php)

Library Café
The Library Café is convenient for long study days. Enjoy a toasted sandwich, hot soup, a variety of salads, pastries and much more. The Library Café also serves Starbucks Coffee and drinks. View Menu (https://www.unomaha.edu/milo-bail-student-center/library-cafe.php)

MavREC Café
The MavREC Café offers fast and delicious options like smoothies, coffee, yogurt, soups, sandwiches, salads and Arbor Day Foundation coffee. Grab a meal from Eat Fit Go before class or after a workout! View Menu (https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/mavrec-cafe.php)

UNO Catering
Offers catering services for small meetings to large banquets, providing great food, professional and friendly service, and outstanding presentation. View Menu (https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/catering.php)

MavCARD Services
MavCARD is your key to campus life at UNO as your official ID card, Criss Library card, access to Campus Recreation, entrance in to campus-sponsored events, free ticket into Maverick home athletic events, and is free bus pass for the Omaha Metro Transit System. It also provides access to applicable campus buildings, parking garages, and residence halls.
Download the “GET Mobile” app in order to access your MavCARD account 24/7 to add funds, check balances, report your card as lost or stolen, and get information on all of the fantastic locations you can use your MavCARD as payment!

Visit mavcard.com (https://www.unomaha.edu/milo-bail-student-center/mavcard) for more information!

**Housing**

**On-Campus Housing**
UNO offers six residential communities for on-campus living. Maverick and University Villages are on the Dodge Campus and Scott Village, Court, Crossing, and Hall are on the Scott Campus. The majority of housing consists of four bedrooms, two baths, furnished apartments that provide each student with a private bedroom while sharing common space with three other students. Cable, internet, and utilities are included with rent. Dodge Campus housing also includes laundry. Scott Hall and part of Scott Crossing offer more traditional suites that have a partial kitchen and include an on-campus meal plan. Resident Assistants, who are live-in upper class students, are dedicated to making the on-campus living the best possible experience for residents. On-Campus Housing provides many opportunities to get involved with campus life! For more information on amenities, options, and to view floor plans, please visit Housing and Residential Life at housing.unomaha.edu (http://housing.unomaha.edu).

**Off-Campus Housing Referral Service**
For information regarding housing options (houses, apartments, etc.) available in the greater Omaha area see https://offcampushousinglistings.unomaha.edu/ or contact us at unohousing@unomaha.edu.

**Department of Public Safety**
Department of Public Safety, located in the Eppley Administration Building, Room 100, provides service to the University community 24-hours a day. The number to call for information about any of its services is 402-554-2648.

The duties and responsibilities of the Department of Public Safety are: to protect life and property; provide building and grounds patrol; enforce Traffic and Parking Rules & Regulations; enforce University regulations; control the University key system; and provide general safety for all persons on campus.

**Parking Traffic**
All accidents should be reported to Department of Public Safety immediately.

**University Building Keys**
Department of Public Safety is responsible for the control of the University key system. Eligible University employees should make requests for University keys through their department chairperson.

**Security**
Buildings are patrolled 24 hours daily. Anyone found in a UNO building after established closing hours, without a UNO identification card, will be asked to leave. Report items stolen or damaged to the Department of Public Safety.

**Lost and Found**
Department of Public Safety maintains the lost and found system. Lost and found items are held for 30 days.

**Services**
The Department of Public Safety provides assistance to motorists 24 hours daily, to jump-start your vehicle, open a locked vehicle, and assist in changing a tire in certain situations, for vehicles on campus only.

**Personal Escorts**
Escort persons at their request while on campus.

**Personal Safety Checks**
Individuals who may be working alone, outside normal working hours are encouraged to contact Department of Public Safety. Security officers will periodically check on your safety while you are here.

**Operation I.D.**
Your personal belongings may be engraved to aid in finding lost or stolen property. Stop by the Department of Public Safety Office and check out an engraver and instructions to engrave your property.

**Fingerprints**
The Department of Public Safety provides a fingerprinting service for individuals who require finger prints for job applications and military needs. This service also applies for children of students, staff, faculty and alumni. It is strictly for the benefit of the parents should a child ever be missing; no record will be maintained by Department of Public Safety. Contact Department of Public Safety for times of service or an appointment at 402-554-2648.

**For ON-CAMPUS EMERGENCIES dial ext. 4-2911.**

**Parking Services**

**PARKING SERVICES INFORMATION**

Unomaha.edu.parking (https://www.unomaha.edu/business-and-finance/support-services/parking-services/) 402-554-PARK (7275) / EAB 107

**UNO SHUTTLE SERVICES**

Direct shuttle routes connect the UNO Campuses, run every 7-10 minutes (except for Lot 26) and operate when classes are in session. Plan accordingly if you need to take a shuttle.

<table>

</tbody>
</table>

* Lot 26 is a permit-free lot, as such, service hours are 7 A.M. to 5 P.M. and shuttle frequency is limited from this location.

**MAVRIDE**
Say Goodbye to parking concerns on campus. Use your MavCard to ride all Metro bus routes free of charge. All current students have MavRide activated on their MavCard.

**CARPOOL**
Discounted carpool permits are available for student carpools of 2+ riders. A reserved space is assigned in one of the UNO garages and the carpool group must park in this stall from 7 A.M. to 5 P.M.

**PARKING PERMITS**
A valid permit is required to park on UNO Campuses.

- Permits go on sale July 1
- You must wait 48 hours to purchase a permit after registering for classes
- Permits are purchased only online from the UNO Parking Services website
- New in Fall 2017, your license plate is your permit, have your vehicle and plate information when you apply
- You may have more than one vehicle on the permit, but only one vehicle on campus at the same time
- Permits for the East Garage are limited and sell out early
- **Purchasing a permit does not guarantee a place to park**

*resident permits must park in designated resident parking from 7 A.M. to 5 P.M. (Monday-Friday)

**Valid in West or Pacific St Garage with payment via Park Omaha App or Garage Kiosks

**GATELESS GARAGES**
The West and Pacific Street Garages will not have entry/exit gates. A virtual permit is required, whether an annual or semester permit purchased online, or a daily/hourly permit purchased at the garage via the mobile app or kiosk. More information on the Park Omaha App will be available on the Parking Services Website this summer.

**International Programs**

International Programs (INPR) was established in 1973 to provide for the encouragement, development, and coordination of the University’s international programs. Current programs under INPR include:

**UNO Education Abroad**

UNO Education Abroad offers a variety of information on study, internship, and travel abroad opportunities. The office assists students in choosing an education abroad program, identifying sources of financial aid, scholarship sources, and obtaining visas and passports. For further information, contact the Education Abroad Office at 402-554-3168, Arts & Sciences Hall 220, or by email at unostudyabroad@unomaha.edu (world@unomaha.edu).

**The Center for Afghanistan Studies**

The Center for Afghanistan Studies (CAS) serves as the only institutional base in the United States specifically and exclusively concerned with Afghan affairs. The Center has unique resources in the following areas: research concerning Afghan geology/geography, natural resources; culture and education; collecting, classifying and writing of materials on Afghanistan; disseminating information on Afghanistan to other institutions; language translations; and providing consultation and expert advice on matters related to Afghanistan.

Center staff assisted in establishing the Arthur Paul Afghanistan Collection (http://www.unomaha.edu/international-studies-and-programs/center-for-afghanistan-studies/academics/arthur-paul.php) at UNO’s Criss Library. This collection is considered by many to be the finest collection of Afghan primary and secondary materials in North America.

The Center serves as a base for Afghan university capacity building, teacher training, literacy, and basic skills vocational education projects in Afghanistan with funding from the United States government and other donors. The CAS also conducts short- and long-term orientation seminars for personnel from American government and private organizations preparing to work in Afghanistan. For additional information, contact the Center for Afghanistan Studies at 402-554-2376, Arts & Sciences Hall 238, or by email at srhamzai@unomaha.edu.

**Intensive Language Program (ILUNO)**

UNO’s Intensive English Language Program (ILUNO) offers instruction in English as a Second Language to international students who plan to pursue academic degrees in the United States. This pre-academic program provides 21 hours of instruction per week over five eight-week sessions or one seven-week summer session scheduled throughout the year. Classes are offered at five levels of proficiency, with emphasis on the development of writing, listening, pronunciation, reading, and communication skills. Students with TOEFL scores of 460 or higher may take university coursework along with English as a Second Language classes. For further information, please contact the Director of Intensive English at 402-554-2293, Arts & Sciences Hall 241, or by email at world@unomaha.edu.

**Faculty and Student Exchange Programs**

Faculty and student exchanges with sister universities around the globe are important components of UNO’s commitment to global education. For further information, contact the Education Abroad Office at 402-554-3168, Arts & Sciences Hall 220, or by email at unostudyabroad@unomaha.edu (world@unomaha.edu).

**International Student Advising**

International Student Advising has the responsibility for the full range of advising services for all UNO international students and scholars. These support services include orientation, airport pickup, housing assistance, immigration advising, planning and conducting cross-cultural activities, serving as liaison with volunteer community support groups, and medical and health insurance referrals. For further information, please contact International Programs by phone at 402-554-2293, Arts & Sciences Hall 241, or by email at world@unomaha.edu.

**International Professional Development**

International Professional Development (IPD) is designed for working professionals who want to improve their English language skills for business purposes. Participants are typically sponsored by transnational corporations seeking to develop their global workforce. IPD offers classes in Global Business Communication, Business Management Practices, Business Writing, and Business Reading. The program also designs and conducts customized training for clients from around the world, including faculty and staff development workshops. For further information, please contact the Director of Intensive English at 402-554-2293, Arts and Sciences Hall 241, or by email at world@unomaha.edu.

**Critical Languages Instruction**

In collaboration with the UNO Department of Foreign Languages, International Programs provides opportunities for students to study crucial languages and cultures. Japanese and Arabic Language classes are offered each academic year. Dari language is also offered to participants of the Afghanistan Immersion Seminars. For Dari language information, contact the Center for Afghanistan Studies at 402-554-2376, Arts & Sciences Hall 238, or by email at srhamzai@unomaha.edu.
Tuition Due: Sept. 23

Global Studies Conference
This annual gathering of scholars and students from around the world and across the US meets each October in Omaha to discuss issues concerning the developing nations of the world and global strategic and security issues. For further information, please contact International Programs at 402-554-2293, Arts and Sciences Hall 241, or by email at gsc@unomaha.edu.

Community and Civic Engagement
International Programs (INPR) occupies a visible community profile, primarily through its educational outreach efforts and international student and scholar activities. Special grant projects allow INPR to bring students and scholars to UNO or take UNO faculty, staff, and students abroad. INPR maintains a speakers bureau for international issues and events. The state of world affairs ensures a constant stream of requests from service clubs, elementary and secondary schools, community organizations, and businesses for UNO staff, faculty and international participants to serve as informed presenters at their meetings.

International students and scholars are hosted by Nebraska communities for visits under the innovative Nebraska Neighbors program. International participants serve as ambassadors for UNO through presentations in local schools and service organizations. INPR hosts several State Department sponsored institutes teaching civic engagement and service learning to international students and scholars. For further information, contact International Programs at 402-554-2293, Arts & Sciences Hall 241, or by email at world@unomaha.edu.

For additional information about all of INPR’s activities, check out: world.unomaha.edu (http://world.unomaha.edu).

Tuition and Fees

Tuition, Fees, Refunds and Deposits
Tuition and fees for the Fall and Spring semesters are payable in full on Sept. 23 (Fall semester) and Feb. 23 (Spring semester). Please see the schedule below for approximate billing dates and due dates. Each time a student fails to meet a payment due date, a Late Payment Fee will be assessed to the tuition account. Note: Failure to receive the billing notice will not excuse the student from payment responsibility, nor the late payment penalties. Students may review their tuition and fees account using MavLINKor at cashiering.unomaha.edu (http://cashiering.unomaha.edu).

UNO accepts major credit cards for payment of tuition and fees. Credit card payments may be made via the Web at cashiering.unomaha.edu (http://cashiering.unomaha.edu). Payments by credit card, check, cashier’s check or money order may also be mailed to the Cashiering/Student Accounts Office, 109 Eppley Administration Building, 6001 Dodge Street, Omaha, NE 68182. When mailing credit card payments, please use the remittance form on the tuition and fees statement. This remittance form must be signed by the cardholder. Payments may also be brought to the Cashiering/Student Accounts Office during regular business hours or deposited in the after hours drop box located outside of the office.

Fall Semester
• For students who register March through the first week of the semester:
  Bill Date: end of August
  Tuition Due: Sept. 23

Spring Semester
• For students who register November through the first week of the semester:
  Bill Date: end of January
  Tuition Due: Feb. 23

Summer Sessions
Students will be billed at the end of each month through July for their summer registrations. Tuition and fees will be due and payable in full by the 23rd of each month.

Students who fail to pay tuition and fees by the due date will be assessed a Late Payment Fee.

Failure to make payment on an account will prohibit registration for future semesters. If an account remains unpaid, it may be forwarded to a collection agency.

Students waiting until after the initial due date for payment of tuition and fees to register or add courses will be required to pay the late registration fee and the late payment fees retroactively.

Registration is not complete until cleared by the cashier. Failure to pay tuition or fees when due, or to meet payments on loans when due, may result in cancellation of registration, legal action, collection efforts and withholding of transcripts. Outstanding financial obligations from previous semesters must be paid prior to registration. Failure to do so will prohibit registration for future semesters.

The University reserves the right to change the amount of tuition or fees at any time and to assess charges for special instructional fees, breakage, lost property, fines, penalties, parking, books, supplies, food or special services not listed in this schedule.

Application Fee
The application fee is payable at the time the application for admission form is filed. This fee is non-refundable and does not apply toward tuition or any other fee. Residency for the purpose of assessing tuition is determined by the status of the applicant at the time the application for admission is filed. The undergraduate application fee is not applicable toward the graduate application fee and vice versa.

Undergraduate Application Fee
Application Fee $45.00

Graduate Application Fee (Graduate College)
Application Fee $45.00

Tuition (Per Semester Credit Hour)
Tuition and fee rates listed are for the 2017-18 academic year established by the Board of Regents in June 2017.

Programs Administered by the University of Nebraska at Omaha

Undergraduate
Resident of Nebraska (see residency statute) $216.25
Maverick Advantage Program $324.37
Non-Resident $677.25

College of Business
Resident of Nebraska (see residency statute) $270.25
Maverick Advantage Program $405.37
Non-Resident $758.00

238, or by email at srahmanzai@unomaha.edu. For Japanese language and culture, contact the program coordinator at 402-554-3548, Arts and Sciences Hall 220, or by email at world@unomaha.edu.

**Audit Fee**

The audit fee is set at one-half of the resident undergraduate or graduate tuition rate. The audit tuition rate is effective only during the first week of the semester. In addition, students registering for audit must pay all student fees. Registration for audit requires the permission of the instructor and is subject to available class space after credit registration ends. Students who register to take a course for credit and who later change to audit registration will be required to pay the full resident or non-resident tuition rate. Audit fees are refundable in accordance with the Tuition Refund Schedule.

**Mandatory Fees**

Fees rates listed are for the 2016-17 academic year. Fees for the 2017-18 academic year are subject to change.

**University Program and Facilities Fees**

The University Program and Facilities Fees (UPFF) support a wide variety of programs and services on campus.

**Late Fees and Penalties (non-refundable)**

Late Payment Fee

 Returned checks must be redeemed in cash or money order. Failure to honor returned checks may result in additional late fees or legal action.

MavCard Replacement

$10.00

All students enrolled in 0 to 6 credit hours for on-campus courses are charged a flat fee of $278.59. Students enrolled in 7 or more credit hours are charged a flat fee of $449.89.

Students enrolled only in off-campus and distance-learning courses (800 and 900 section numbers) do not pay UPF Fees and do not have use of fee supported services.

The UPFF receipts are divided into two separate funds: Fund A and Fund B. Fund A fees are established and allocated by the elected Student Government subject to the approval of the Chancellor in accordance with Board of Regents policy. Fund A student fees ($18.39) are refundable upon request by applying at the Cashiering/Student Accounts office during the third through sixth weeks of the fall or spring semester and during the third week of each day session in the summer.

The Fund B portion of the UPFF is designated for services, staff salaries, maintenance of facilities and related expenses, and those additional items designated by the Chancellor. This portion is budgeted separately with emphasis upon continuing support. The Vice Chancellor for Academic and Student Affairs submits the projections to the President and Board of Regents for their final approval.

**MavCard Fee**

$7.75

Charged once per semester to all students

**Student Access & Success Fee**

$92.95

Charged once per semester to all students. The Student Access and Success Fee funds direct services to students in admissions, registration, and other campus support services. Through these programs, students are provided resources to assist them in being successful in their educational endeavors.

**Technology Fee**

$11.00

Charged per credit hour each semester to all students, regardless of residency or campus location. Upon withdrawal from a course, the Technology Fee is refundable at the same percentage as tuition. The purpose of this fee is to provide educational information technology resources to UNO students.

**Library Fee**

$6.25

Charged per credit hour each semester to all students, regardless of residency or campus location. Upon withdrawal from a course, the Library Fee is refundable at the same percentage as tuition.

**Research Fee**

$1.50

Charged per Credit hour and is non-refundable

**Cultural Enrichment Fee**

$7.50

Charged once per semester to provide access for all UNO students to the cultural events offered by theatre, music, art and Writers Workshop.

**International Student Fee**

$26.25

Charged once per semester to students on a visa.

**Late Fees and Penalties (non-refundable)**

**Late Registration Fee (day or evening class)**

$25.00

A Late Registration Fee will be charged to a student registering on or after the first day of the semester.

**Late Payment Fee**

Billing amounts of $100.00 to $999.99 $25.00

Billing amounts over $1000.00 $50.00

Returned Check Charge $30.00

Returned checks must be redeemed in cash or money order. Failure to honor returned checks may result in additional late fees or legal action.

MavCard Replacement

$10.00
**Distance Education Fees (non-refundable)**

Revenue from these fees goes directly toward defraying the additional costs of providing Distance Education programs.

</table>

1 Please see the schedule of student charges on the web at cashiering.unomaha.edu/tuition.php (http://cashiering.unomaha.edu/tuition.php).

**Laboratory/Special Instructional Fees (Non-refundable)**

Students enrolling in the following course sections are advised that laboratory/special instructional fees are mandatory for services and are charged accordingly.

- In addition to tuition and student fees, certain courses may be assessed special fees related to that course. These fees can include cost of laboratory equipment, special materials used by students or materials used by the instructor to present the course. All fees are flat fees unless designated "per credit hour"

- Trip fees may not include deposit and may change based upon the department and the trip costs.

Summer Sessions (5 and 6 Week)
Before first official day of semester, 100 percent refunded.
First three days of classes, 100 percent refunded.
Remainder of first week, 50 percent refunded.

Other laboratory/special instructional fees may be charged as authorized by the University. Please refer to the semester Class Schedule to determine which of the above fees are related to specific courses.

Conference, non-credit and off-campus contract course fees are determined for each offering based upon the cost factors and particular circumstances involved.

Refund Schedule
Students who drop one or more courses or who completely withdraw will be obligated to the University for that portion of tuition cost based on the refund schedule. Students who completely withdraw are obligated to pay the non-refundable portion of tuition and fees for the course(s) from which they are withdrawing. Refunds are computed from the date application is received by the Registrar, not from the date of withdrawal of classes.

See Withdrawal from Classes policy. Only tuition, technology and library per credit fees are refunded. The UPF flat fee is non-refundable. No other fees are refundable after the first week of classes. Trip fees may not be refundable after a certain point. Please check with the department sponsoring the trip for refundability timelines, otherwise for all other fees, please see fee schedule.

Students are not relieved from the payment of tuition and fees if they withdraw before a tuition due date, or if payment of tuition and fees has been extended by the Office of Financial Support and Scholarships. Students who have received financial aid are subject to special refund rules as established by the U.S. Department of Education. A financial aid recipient should first contact the Office of Financial Support and Scholarships prior to any official withdrawal from the University, in order that he or she fully understands the financial implications of withdrawal.

Failure to make payment will prohibit registration for future semesters and the release of academic transcripts. If an account remains unpaid, it may be forwarded to a collection agency.

Regular Semester
Before the first official day of the semester, 100 percent refunded.
First week of classes, 100 percent refunded.
Second week of classes, 75 percent refunded.
Third week of classes, 50 percent refunded.
Fourth week of classes, 25 percent refunded.
Fifth week of classes, 0 percent refunded.

Summer Sessions (5 and 6 Week)
Before first official day of semester, 100 percent refunded.
First three days of classes, 100 percent refunded.
Remainder of first week, 50 percent refunded.

Second week of classes, 25 percent refunded.
Third week of classes, 0 percent refunded.

Summer Evening and Special Contract (7 and 8 Week)
Before first official day of semester, 100 percent refunded.
First three days of classes, 100 percent refunded.
Remainder of first week, 75 percent refunded.
Second week of classes, 50 percent refunded.
Third week of classes, 25 percent refunded.
Fourth week of classes, 0 percent refunded.

Courses that run less than ten weeks have unique refund schedules. Students considering withdrawal from such a course should check with the Registrar’s Office for the applicable refund schedule.

Special Service Fees
Graduation Fee $35.00
Late Application for Degree $70.00

Residency for Tuition Purposes

Regulations for Determination of Residency for Tuition Purposes
Residency requirements are subject to change by the Board of Regents and/or Nebraska State Legislature.

Preamble
Pursuant to Article VII, Section 10 of the Constitution of the State of Nebraska, and Neb. Rev. Stat., 85-501 and 85-502 (1980 Supp.), the University has been authorized to develop regulations and make determinations regarding Nebraska residency for tuition purposes. These regulations provide the basis upon which University staff shall determine, on a uniform intercampus basis, whether an individual qualifies as a Nebraska resident for tuition purposes.

It should be emphasized the statutes provide a set of minimum standards which will govern a determination of resident status for tuition purposes only. In some instances, it will be possible an individual may qualify as a “resident” of Nebraska for one purpose (such as securing a Nebraska driver’s license) and still not meet the standards established by the Board of Regents for resident tuition status. Individuals seeking a Nebraska residency determination for tuition purposes should, therefore, carefully study all aspects of the law and these regulations before seeking resident tuition status.

Who Should Apply for Residence?
All applicants for admission to the University of Nebraska should be aware recent arrivals to the state may be classified as residents for most intents and purposes and still be non-residents for tuition purposes under University of Nebraska Board of Regents residency policy (revised 1994). Therefore, when first applying for admission, all students who did not graduate from a Nebraska high school or who have not lived in Nebraska for a period of time long enough to determine resident status may be considered non-residents until evidence is shown of having completed all requirements for resident tuition.

A change in resident status for tuition purposes is not granted automatically. Students who have been classified as non-residents must submit Applications for Residence Classification and all applicable support documentation before resident status can be determined. A student
applying for residence for any semester or term beginning with the Fall Semester 1995-1996 will be required to have established a home in Nebraska at least 12 months since their most recent Nebraska residency start date prior to the term or semester for which residence status is sought. Any individual who has moved to Nebraska primarily to enroll in a post-secondary institution in Nebraska will be considered a non-resident for tuition purposes for the duration of his/her attendance.

The University reserves the right to question and/or request a residency application and supporting documentation from any individual who wishes to be considered for resident tuition status.

How and When do you Apply for Residence?
Students who have been classified as non-residents but believe they qualify for resident status should review the various categories outlined in the section Residence Tuition Categories. After determining the appropriate category, each applicant should: (1) complete and submit an Application for Residence Classification, (2) provide photocopies of appropriate support documentation, and (3) apply within the published time period. (Note: Merely changing residence information on any other University form will not change your resident status.)

Applications for residence for a specific semester or summer session can be submitted to the Office of Admissions prior to the first day of classes for that period of enrollment. The last day to qualify for residency for a specific term is the last day of the registration “add period.” The last day to apply for residency (including the submitting of all supporting documentation) is the end of the third week of classes for the semester for which the tuition was charged. For summer sessions, the application deadline is the end of the first week of classes.

All students must register and enroll in classes for the term in which residency is sought. Failure to register for the term for which residency is sought will result in the cancellation of the residency application.

Applications determined to be incomplete after the last day to apply will be voided. To apply for a subsequent semester or term, one must submit a new application and provide appropriate updated support documentation.

What Regulations Determine Residence?
Students’ rights to become residents for tuition purposes at the University of Nebraska are determined according to provisions of the Nebraska Revised Statutes (reissued 1987). In accordance with these statutes, the University has been authorized to develop regulations and to make decisions regarding Nebraska residence for tuition purposes. These regulations provide the basis upon which the Director of Admissions or the Director’s designee determines whether students qualify as Nebraska residents for tuition purposes.

Individuals seeking residence for tuition purposes need to attest to the accuracy of their statements and will be required to have their applications signed before a notary public. If it is subsequently determined the information on an application has been falsified, the applicant may be subject to disciplinary action by the University before the individual will be permitted to continue to enroll at the University. Such disciplinary action will be determined on an individual basis, and may include measures such as disciplinary probation or suspension, expulsion from the University, or reimbursement to the University for the difference between the tuition paid and the non-resident tuition rate.

Appeals
Individuals who believe they have incorrectly been denied residence for tuition purposes may appeal the decision through the Residency Committee.

Definition of Terms
For the purpose of these regulations, the following definitions shall apply:

Resident Fees: The resident tuition rate as set by the Board of Regents and applicable to the academic program in which an individual intends to enroll.

Non-resident Fees: The non-resident tuition rate as set by the Board of Regents and applicable to the academic program in which an individual intends to enroll.

Legal Age: The age of majority (19 and older) set by Nebraska statute

Emancipated Minor: An individual who by virtue of marriage, financial status or for other reasons has become independent of his or her parent(s) or guardian(s).

Established Home: The place of abode in Nebraska an individual continuously maintains a primary place of residence and where he/she is habitually present.

Legal Residence: The place of domicile or permanent abode as distinguished from temporary residence.

Dependent (qualifying child): A person who is claimed as a dependent for federal income tax purposes by a parent, guardian or spouse.

Residence Tuition Categories
For further reference within this document, all residency categories require the student, spouse and/or parent/guardian be either a U.S. citizen or a person who has been granted permanent resident, asylee or refugee status by the Immigration and Naturalization Service.

A. Legal Age or Emancipated Minor: A person of legal age (19 or older) or an emancipated minor who, for a period of 12 months, has established a home in Nebraska where he or she is habitually present, and shall verify by documentary proof that he or she intends to make Nebraska his or her permanent residence. An emancipated minor is a person who by virtue of marriage, financial status or other reasons, has become independent of his or her parents or guardians. Note: An individual who moves to Nebraska primarily to enroll in a post-secondary institution in Nebraska will be considered a non-resident for tuition purposes for the duration of his/her attendance. Additionally, an individual claiming Nebraska resident status under this category will not be granted such a determination if he or she has claimed resident status in any other state within the past 12 months. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent.

B. Dependent Minor: A minor (less than 19 years of age) whose parent/guardian has established a home in Nebraska where they are habitually present with the bona fide intention of making Nebraska their permanent place of residence. There is no minimum period of residence for the parent/guardian under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent and a signed copy of parent’s/guardian’s most recent federal income tax return as proof the applicant is a dependent.

C. Legal Age Dependent: A person of legal age (19 - 24) who is a (qualifying child) dependent for federal income tax purposes of a parent/legal guardian who has established a home in Nebraska. There is no minimum period of residence for the parent/guardian under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent and proof that the applicant is a dependent.

D. Married to a Nebraska Resident: A person shall be required to verify he/she is married to an individual who, prior to the marriage, had already established a home in Nebraska. The spouse must also meet all standard qualifications for residency for tuition purposes. There is no minimum period of residence for the applicant under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent; provide a copy of your valid marriage license.

E. Asylee, Refugee or Permanent Resident Alien: An individual who has become a permanent resident alien of the United States of America, has been granted asylee or refugee status, or has applied for such status

B. Dependent Minor: A minor (less than 19 years of age) whose parent/guardian has established a home in Nebraska where they are habitually present with the bona fide intention of making Nebraska their permanent place of residence. There is no minimum period of residence for the parent/guardian under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent and a signed copy of parent’s/guardian’s most recent federal income tax return as proof the applicant is a dependent.

C. Legal Age Dependent: A person of legal age (19 - 24) who is a (qualifying child) dependent for federal income tax purposes of a parent/legal guardian who has established a home in Nebraska. There is no minimum period of residence for the parent/guardian under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent and proof that the applicant is a dependent.

D. Married to a Nebraska Resident: A person shall be required to verify he/she is married to an individual who, prior to the marriage, had already established a home in Nebraska. The spouse must also meet all standard qualifications for residency for tuition purposes. There is no minimum period of residence for the applicant under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent; provide a copy of your valid marriage license.

E. Asylee, Refugee or Permanent Resident Alien: An individual who has become a permanent resident alien of the United States of America, has been granted asylee or refugee status, or has applied for such status
and has established a home in Nebraska for a period of at least 12 months. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent. Asylees or refugees must provide a photocopy of Form I-94 or other appropriate documentation which must verify asylee or refugee status has been granted or applied for. Permanent Resident Aliens must provide a photocopy of Form I-551.

F. University or State College Staff Member or Dependent/Spouse: A staff member or the dependent or spouse of a staff member of the University of Nebraska or one of the Nebraska state colleges. The employee must be PERMANENT and have at least part-time (.5 FTE) employment status. Instructions: Provide Affidavit of Intent, and submit verification from the human resources/personnel office indicating employment date and status. If qualifying by dependent or spouse status, proof of dependent/spouse status must be provided.

G. Active Duty Military and Dependents: A person on active duty with the armed services of the United States of America who has been assigned a permanent duty station in Nebraska, maintains Nebraska as their permanent home of record, or claims Nebraska for income tax purposes, or the spouse or dependent of an individual who has been assigned permanent duty station in Nebraska. Instructions: Provide official documentation from the military personnel office indicating active duty and permanent duty station in Nebraska. A person who is a dependent of a Nebraska resident on active military duty will be granted resident tuition status if he/she verifies he/she is a spouse or a dependent for federal income tax purposes of an individual meeting the qualifications. Instructions: Provide an Affidavit of Intent, and official documentation from the military personnel office indicating active duty and verifying that Nebraska is the state of legal residence.

H. Nebraska High School Graduate/Nebraska Dream Act: A person who is a graduate of a Nebraska high school and who meets the requirements of Nebraska law found in Neb. Rev. Stat. §85-502(8): a. Graduated from a public or private high school in this state or received the equivalent of a high school diploma in this state; b. Resided in this state for at least three years before the date the student graduated from the high school or received the equivalent of a high school diploma; c. Registered as an entering student in the state post-secondary education institution not earlier than the 2006 fall semester; and d. Provided an affidavit stating he or she will file an application to become a permanent resident at the earliest opportunity he or she is eligible to do so.

If the parent, guardian or conservator with whom the student resided ceases to reside in this state, such student shall not lose his or her resident status under this subsection if the student has a bona fide intention to make this state his or her permanent residence. For the purposes of this section, documentary proof of a Nebraska resident shall consist of documentation the individual has established a home or residence in Nebraska; an official transcript form the Nebraska high school the individual graduated from; indicating the individual graduated from that school (or the equivalent high school diploma)

I. Former University/State College Resident Student: A person who has been enrolled at the University of Nebraska or one of the Nebraska state colleges as a resident for tuition purposes, and re-enrolls within two (2) years of the last date of enrollment on is residing in Nebraska. There is no minimum period of residency for the individual under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent, and a statement from the University or the state college indicating resident classification.

J. Native Americans: A person not residing in Nebraska who is a member of a Native American tribe which is indigenous to or has historically migrated to or from the State of Nebraska. A list of these tribes is available in this catalog (see "Native Americans"). Instructions: Provide documentation attesting to the applicant’s affiliation with one of the qualifying tribes.

K. Recruited or Transferred Employees: Individuals who, because of their special talents and skills, were recruited to Nebraska for full-time employment in the state, or were transferred to Nebraska by a business entity, and the spouses or dependents of such individuals are exempted from the 12 month domicile rule. There is no minimum period of residence for the individual under this category. Instructions: Provide Documentation 1 and 2 and an Affidavit of Intent, and furnish a letter from the employer indicating permanent full-time employment status, the employee was either recruited or transferred to Nebraska by the business, date of initial employment in Nebraska and proof of dependent/spouse status if applicable.

L. Nebraska High School Graduate-Veteran: A person who has served the military who has been honorably discharged, is a graduate of a Nebraska high school, and has established a home in Nebraska with the intent to make Nebraska a permanent residence. There is no minimum period of residence for individuals in this category.

M. Military Veteran or Dependent/Spouse: A person who has served the military and who has been off active duty for three (3) years or less, or a dependent or spouse of such a veteran, if the person is registered to vote in Nebraska and demonstrates objective evidence of intent to be a resident of Nebraska. In-state residency is preferred status for military veterans and dependents rather than benefits pursuant to 38 U.S.C. §3317 (the Yellow Ribbon program). There is no minimum period of residence for individuals in this category.

Documentation
The appropriate required documentation as identified under each residence category must be provided with the completed Application for Residence Classification for Tuition Purposes. Original documents will not be accepted; please furnish only legible photocopies. Submitting appropriate documents in an organized and chronological order will aid in the decision-making process. The University reserves the right to request the student provide additional documentation in support of an Application for Residency.

Documentation 1 (Proof of Home)
To be completed by applicants in category A, B, C, D, E, H, I, K or L. Some categories indicate required proof of an established home in Nebraska for at least 12 months since the most recent Nebraska residency start date. A combination of the following documentation may be accepted:

• Current lease agreements (covering the entire 12 months)
• Canceled checks or proof of payment for rent
• Documentation showing residence in a home owned in Nebraska
• Notarized Landlord Verification Form or other notarized documentation approved by UNO’s residence officer

Documentation 2 (Supporting Documents)
To be completed by applicants in category A, B, C, D, E, H, I, K, or L. When applying as a dependent, documentation might be required in the parent, guardian or spouse’s name instead of applicant as indicated. At least three of the following support documents must be obtained and kept current:

• Nebraska driver’s license
• Nebraska voter’s registration (voter’s registration card or certificate)
• Checking or Savings bank account (voided personal check or bank statement)
• Nebraska vehicle registration (pink slip, NOT title)
• Employment showing Nebraska state income tax withheld (most recent pay stub showing name and Nebraska employer)
• Nebraska state income tax return for the most current year (or W-2 form with latest paycheck showing state income tax withheld.)
• The University Residency Office may require additional documentation for residency consideration.

Additional documentation might be required for categories waiving the 12 month domicile rule or other special circumstances.

Affidavit of Intent
Individuals requesting resident tuition status shall be required to complete a notarized affidavit outlining the reasons under which they believe they qualify and attesting to the accuracy of their statements. Completion of a falsified affidavit shall subject the individual to possible University disciplinary action.

Proof of Dependent and/or Spouse Status
If an individual is trying to qualify for residency status based upon dependent or spouse status (sections B, C, D, F, G, K or M), documentation proving this status must be provided. Dependents of a parent/guardian must provide a signed copy of the parent’s/guardian’s most recent federal income tax return as proof the applicant is a dependent (qualifying child). If applying based upon spouse’s status, a copy of the marriage certificate must be provided. Dependents or spouses of active duty military should provide a copy of the military orders of the spouse, parent or guardian verifying dependent status.

Fraudulent Residency Documentation
The University reserves the right to deny or revoke admission, including dismissal from the University, if any residency information is given falsely or withheld on the application for admission or if transcripts/documents submitted in support of an application for admission or to obtain residency are discovered to be altered or fraudulent.

Nebraska State Income Tax Credit
Individuals who do not qualify for resident tuition status and/or reside outside of Nebraska but pay Nebraska income tax, and the spouses or dependents of such individuals, are entitled to tuition credit upon documented evidence of such payment to the State. The tuition credit granted shall equal the amount of Nebraska income tax paid for the immediately preceding calendar year except that the remaining obligation cannot be less than the amount of the resident tuition.

Applications for the Nebraska State Income Tax Credit are available at UNO’s Cashiering/Student Accounts Office, Eppley Administration Building 109, 402-554-2324. Specific qualifications and guidelines regarding the tax credit are provided on the applications.

Pursuant to Article VII, Section 10 of the Constitution of the State of Nebraska, and Neb. Rev. Stat., 85-501 and 85-502 (1980 Supp.), the University has been authorized to develop regulations and make determinations regarding Nebraska residency for tuition purposes. These regulations provide the bases upon which University staff shall determine, on a uniform intercampus basis, whether an individual qualifies for resident tuition purposes.

Severability
If any section of these regulations or any part of any section shall be declared invalid or unconstitutional, such declaration shall not affect the validity or constitutionality of the remaining portions thereof.

Midwest Student Exchange Program
UNO is a participant in the Midwest Student Exchange Program (MSEP), an interstate educational opportunity for students in Nebraska, Illinois, Indiana, Kansas, Missouri, Michigan, Minnesota, North Dakota and Wisconsin. This program enables residents from these nine states to enroll in participating institutions at reduced tuition levels. Tuition for MSEP students who attend participating public institutions is equal to no more than 150 percent of the regular in-state tuition rate. In all cases, the cost to MSEP students is lower than regular non-resident tuition.

To be eligible for MSEP status at UNO, students must meet the following guidelines:

• The student must be admitted to UNO;
• The student must contact the UNO Admissions Office and request MSEP consideration;
• Meet one of the following academic criteria:
  • First-Year: ACT Composite score of 21 / SAT Critical Reading & Math score of 990 OR ranked in the upper 1/3 of their high school graduation class.
  • Transfer: Cumulative transfer GPA of 3.00 with a minimum of 12 semester hours from a regionally accredited institution.
• The student must be admitted to a degree program and have provided the required credentials necessary to determine academic qualification for the MSEP program; and
• MSEP participants cannot establish residency for the purposes of paying in-state tuition.

Highly qualified students may also be granted a UNO Advantage scholarship. A 2.50 minimum cumulative GPA must be maintained for the MSEP status to be continued. For more information about the MSEP, contact the Office of Admissions.

Metropolitan Advantage Program (MAP)
Tuition Reduction Program for Eligible Iowa Students
UNO students who are US citizens or permanent residents, and currently reside in or graduated from a high school located in one of eleven Iowa counties - Cass, Crawford, Fremont, Harrison, Mills, Monona, Montgomery, Page, Pottawattamie, Shelby or Woodbury - and who also meet UNO’s admission requirements are eligible to receive a reduced tuition rate. Included for eligibility consideration are students of Iowa school districts with high schools which reside in a county other than, but whose district boundaries include areas in the participating counties, regardless of their county of residence. Transfer students who are currently full-time and residing on one of the Iowa community college campuses may be eligible. Metropolitan Advantage Students will pay 150 percent of resident tuition. MAP rates apply only to courses taken on the UNO campus.

In addition to the Metropolitan Advantage Program, UNO also offers the Maverick Advantage Scholarship. To qualify for the Maverick Advantage Scholarship, incoming students must present a 23 or higher ACT score or rank in the top 25 percent of their high school class. Transfer students must present a 3.0 cumulative GPA on a 4.0 scale.

Native Americans
The following have been identified as Native American tribes that are indigenous to or have historically migrated to or from the State of Nebraska. Members of these tribes who live outside the State of Nebraska qualify for in-state tuition rates upon providing documentation of membership.

• Arapaho
• Arikara
• Northern Cheyenne
• Southern Cheyenne
• Comanche
• Crow
• Hidatsa
• Jicarilla Apache
• Iowa
• Kickapoo
The University of Nebraska at Omaha declares and affirms a policy of equal education and employment opportunities, affirmative action in employment, and nondiscrimination in providing services to the public. Therefore, the University of Nebraska at Omaha shall not discriminate against anyone based upon race, color, ethnicity, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation or any unlawful reason shall not be tolerated.

In keeping with this commitment, the University also will not tolerate discrimination prohibited under this policy against students, faculty, staff and visitors by anyone acting on behalf of the University of Nebraska at Omaha.

**Statement on Sexual Harassment**

Sexual Misconduct, which includes dating violence, domestic assault, domestic violence, rape, sexual assault, sexual harassment (including hostile environment and quid pro pro) and stalking, is covered under UNO Student Sexual Misconduct Policy.

Unwelcome sexual advances, requests for sexual favors, and other physical, verbal or visual conduct based on sex constitute sexual harassment when (1) submission to the conduct is an explicit or implicit term or condition of employment or academic standing, (2) submission to or rejection of the conduct is used as the basis for an employment or academic decision or (3) the conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile, or offensive working/academic environment. This statement is in keeping with federal employment and educational opportunity guidelines.

**Statement on Consensual Relationships**

Although the University of Nebraska at Omaha does not prohibit romantic or sexual relationships between employees, it does discourage such consensual relationships between faculty and student or supervisor and employee.

All faculty, supervisors and other employees should understand that there are substantial risks in even an apparently consensual relationship where a power differential exists. That is, one of the parties is likely to have influence over the other’s assignments, grades or terms of employment. The inherent power differential between the parties may compromise freedom of choice.

The University of Nebraska at Omaha reaffirms the generally accepted ethical principle that situations in which one makes official evaluations of “intimates” should be avoided. If a close relationship with emotional ties develops, the faculty member or supervisor bears a special burden of accountability. That individual is advised to make suitable arrangements for the objective evaluation, for example, of the student, employee or the prospective student or employee.

**Procedures for Resolution of Complaints**

The University of Nebraska at Omaha declares and affirms a policy of equal education and employment opportunities, affirmative action in employment, and nondiscrimination in providing services to the public. Therefore, the University of Nebraska at Omaha shall not discriminate against anyone based upon race, color, ethnicity, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its programs, activities, or employment.

**Purpose**

The purpose of these procedures is to secure, at the lowest possible level, equitable solutions to the problems which may affect students, faculty, staff, administrators, visitors, or other invitees, licensees, or university volunteers who believe they have been discriminated against within the university’s prohibited discrimination policy. Resolution of any concern or complaint is encouraged, but not required, at each step of the procedures. Any form of retaliation for filing or assisting with an investigation or charge is not permitted. The university reserves the right to take appropriate action in cases of alleged prohibited discrimination affecting the academic or work environment in the absence of a complaint from an individual.
Oversight and Information
The Assistant to the Chancellor, EAD is the established office of the University on prohibited discrimination issues.

The University’s nondiscrimination policy and complaint procedures will be widely disseminated through a variety of media and clearly posted in strategic locations throughout the university campus. Anyone seeking information about the nondiscrimination policy or complaint procedures should contact the Assistant to the Chancellor, EAD or designee.

Informal Resolution
If appropriate, persons are encouraged first to speak about their concerns with the party in question: relevant manager/supervisor, administrator or academic department chair/school director, or university ombudsperson to attempt to resolve the issue(s). A satisfactory resolution may be readily found.

Notification and Initial Investigation
Complainants who believe they have been discriminated against have thirty (30) working days after the occurrence of the alleged prohibited discrimination to informally resolve the issue(s) to their satisfaction or to contact the Assistant to the Chancellor, EAD. This time deadline can be extended if there are extenuating circumstances that must be documented by the complainant and determined by the Assistant to the Chancellor, EAD to justify a delay.

Informal Investigation
From the time the Assistant to the Chancellor, EAD or designee is made aware of a complaint, the Assistant to the Chancellor, EAD or designee will immediately notify the respondent, in writing, that a complaint has been received and will explain the nature of the complaint. The Assistant to the Chancellor, EAD or designee will have ten (10) working days to conduct an informal confidential investigation and determine whether or not the complaint merits further action. If it is determined by the Assistant to the Chancellor, EAD that further action is warranted, the formal procedures listed below will be begun within seven (7) working days of the decision. Both parties will be notified in writing as to the nature of this decision.

If the Assistant to the Chancellor, EAD or designee deems that the complaint merits no further action, the Chancellor or Chancellor’s designee will appoint one individual, judged most qualified by the Chancellor or Chancellor’s designee, from among the three (3) university ombudspersons and the Academic and Student Affairs, and Business and Finance Vice Presidents or their designated representatives to review the decision. The reviewer will have ten (10) working days to examine the case and respond to the Chancellor or designee and the Assistant to the Chancellor, EAD or designee. If the reviewer agrees with the Assistant to the Chancellor, EAD decision of no further action, no further action will be taken by the university. If the reviewer disagrees with the Assistant to the Chancellor, EAD decision of no further action, the formal procedures listed below will be begun within seven (7) working days of the reviewer’s decision.

Formal Procedures
Formal Complaint
Within seven (7) working days of the decision of the Director, EAD or the reviewer determining further action is warranted, the complainant must meet with the Director, EAD or designee to review/discuss the incident or situation, attempts at resolution (if any), as well as to learn about formal procedures. If the complainant wants to file a formal complaint, he or she must do so in writing directly to the Director, EAD or designee within seven (7) working days following this consultation. If the complainant is unable to write the complaint, it will be related orally or via the appropriate medium, transcribed into written form, and verified for accuracy by the complainant.

Notification of the Respondent and the Equal Opportunity Review Panel
Within three (3) working days of receiving the written complaint, the Director, EAD or designee will notify the respondent that a formal written complaint has been filed, supply a copy of the written complaint to the respondent, and provide a description of the procedures to be followed. This notification will be made by certified or registered letter, postage prepaid, and return receipt requested, addressed to the most recent address listed in university records. Within five (5) working days of receiving the written complaint, the Director, EAD or designee will select and notify the Equal Opportunity Review Panel that a formal inquiry will be required.

Equal Opportunity Review Panel Composition
The Equal Opportunity Review Panel will consist of five members - two full-time faculty, two staff (administrative, managerial/professional, and office/service), and one student selected by the Director, EAD from a pool of six faculty selected by the Faculty Senate, six staff selected by the Staff Advisory Council, and six students selected by Student Government. Students must be currently enrolled in at least 6 credit hours (undergraduate and/or graduate) and in good academic standing.

The pool of names will be used until the beginning of the following academic year. If during the year, a nominated person becomes ineligible to be in the pool, the appropriate body, (i.e., Faculty Senate, Staff Advisory Council or Student Government) will nominate a replacement for that person in the pool. Selection of pool members and actual Panel members will be done in a manner that attempts to provide the widest possible diversity with respect to gender, ethnic background and other relevant socio/demographic traits. Should a selected member of the panel identify himself/herself as having a legitimate conflict of interest, the Director, EAD shall select a different member from the pool of names so as to maintain the required representation.

Formal Inquiry
Upon selection and contact by the Director, EAD, panel members will have ten (10) working days to convene, select a chair (student members are not eligible to chair), and schedule the start of the formal inquiry. The inquiry will be conducted as expeditiously as possible. During the inquiry the Panel will review the complaint in its entirety and conduct an impartial inquiry on the complaint. Documents and other information relevant to the complaint may be requested by the Panel, and witnesses may be called by the Panel. The complainant (and his/her representative[s], the respondent (and his/her representative[s]), and witnesses (if any) will only be present in the inquiry when their own testimony is being sought by the Panel. The inquiry will be audio taped.

The Panel has five (5) working days after the inquiry to reach a preliminary recommendation. In the event that it concludes that the complaint should proceed further, both parties will have access to all evidence presented before the Panel, including the audio tape. When the Panel concludes no additional action is warranted, neither of the parties will have access to the evidence. In cases where the Panel concludes that the complaint should go forward, both parties will have five (5) working days to rebut the evidence. The Panel then will have ten (10) working days to consider rebuttals and present its advice in writing to the appropriate Vice Chancellor. This written advice should report any dissenting views or include a written minority statement if the minority on the Panel chooses to do so. The Panel’s advice will be forwarded to the Vice Chancellor of the administrative unit in which the respondent is assigned (i.e., Senior Vice Chancellor for Academic Affairs for faculty respondents, Vice Chancellor of Business and Finance for staff respondents, Associate Vice Chancellor for Student Affairs for student respondents).

Upon receipt of the Panel’s advice, the Vice Chancellor will have seven (7) working days in which to reach a conclusion whether or not this set of circumstances warrants additional investigation. The Vice Chancellor will communicate his/her decision in writing to the complainant and to the respondent and shall have the authority to implement such action as is
deemed appropriate for non-faculty respondents. If the Vice Chancellor's conclusion is that no further action be taken, no further action will be taken by the university. If, on the other hand, for faculty respondents the conclusion is that additional investigation should be undertaken, it will be in accord with and/or follow procedures detailed in the Bylaws of the Board of Regents of the University of Nebraska and policies promulgated pursuant thereto, and, in the case of faculty respondents who are members of the bargaining unit, in accord with the Collective Bargaining Agreement between the Board of Regents of the University of Nebraska and the University of Nebraska at Omaha Chapter American Association of University Professors.

Guidelines/Clarification

1. Accusations of prohibited discrimination are of utmost seriousness and should not be made casually or without cause. This policy shall not be used to bring frivolous or malicious charges against students, faculty, staff, administrators, visitors or other invitees, licensees, or university volunteers. The university reserves the right to take appropriate action against individuals who are determined to have brought frivolous or malicious charges. However, this provision shall not be construed in any manner that might unreasonably deter any person from bringing forth a concern. No person shall be retaliated against for exercising his/her rights under these procedures.

2. In cases of alleged harassment, the protections of the First Amendment must be considered if issues of speech or expression are involved. Free speech rights apply in the classroom and in all other education programs and activities of the university. In addition, First Amendment rights apply to the speech of students and faculty. (Federal Register/Vol. 62, No. 49, March 13, 1997)

3. Working days are those days that the university offices are scheduled to be open.

4. Time limits can be extended by the Assistant to the Chancellor, EAD if there are extenuating circumstances which must be documented and determined by the Assistant to the Chancellor, EAD to justify a delay.

5. Failure by University representatives to communicate the decision on a complaint within the specified time limits at any step of these procedures will not prejudice the complaint.

6. Failure by the complainant to pursue a complaint to the next step within the specified time limits at any step of the procedures, barring any extenuating circumstances which must be documented by the Assistant to the Chancellor, EAD to justify a delay, will be considered acceptance of the last decision rendered.

7. All documents, communications, and records dealing with a complaint and processing of a complaint (except for those materials allowed in personnel files by existing policies or agreements) will be kept confidential and secured in the office of the Assistant to the Chancellor, EAD. The records will be retained for such time as may be legally required and/or deemed appropriate by the university; thereafter, all records will be destroyed.

8. All meetings and inquiries under this procedure will be conducted privately and will include only the parties specified in the procedure for that stage of the procedure.

9. If, as determined by the Panel, additional highly relevant facts that might alter the outcome of the decision are presented during the Panel's proceedings, a recess of reasonable length as determined by the Panel may occur.

10. These are regarded as administrative, not legal procedures. However, in the formal stage(s) the complainant and/or the respondent have the right to legal representation in the form of an adviser at his/her own expense.

11. For hourly paid employees, time spent during scheduled working hours in meeting with the the Assistant to the Chancellor, EAD or designee or in the formal steps of the procedure is treated as time worked for pay purposes.

12. For faculty respondents, any decision on the part of the Vice Chancellor that additional investigation is warranted that could lead to disciplinary action must be forwarded to the Professional Conduct Committee. (Such sanctions could include sensitivity training, formal or informal reprimands, and an oral or written apology.)

13. Inquiry panels will not include faculty members currently serving on the Professional Conduct or Academic Freedom and Tenure Committees.

14. Failure or lack of clarity of the audio tape will not compromise the proceedings. In order to avoid such circumstances, two separate recordings will be made.

Affirmative Action/Policies Prohibiting Discrimination and Sexual Harassment

Students on each campus of the University of Nebraska shall be admitted and enjoy the programs and privileges of the University without regard to individual characteristics other than qualifications for admission, academic performance and conduct in accord with University policies and rules and laws applicable to student conduct.

Employees on each campus of the University of Nebraska shall be employed and equitably treated in regard to the terms and conditions of their employment without regard to individual characteristics other than qualifications for employment, quality of performance of duties and conduct in regard to their employment in accord with University policies and rules and applicable law.

The University of Nebraska at Omaha is committed to maintaining an environment for all students, faculty, staff and visitors that is fair and responsible; an environment which is based on one's ability and performance. To that end, it is the policy of the University of Nebraska at Omaha that any form of discrimination because of race or ethnicity, color, age, disability, religion, sex (including sexual harassment and pregnancy), national origin, marital status, genetic information, Vietnam-era veteran status, political affiliation, sexual orientation or any unlawful reason shall not be tolerated. In keeping with this commitment, the University also will not tolerate discrimination prohibited under this policy against students, faculty, staff and visitors by anyone acting on behalf of the University of Nebraska at Omaha.

Unwelcome sexual advances, requests for sexual favors, and other physical, verbal or visual conduct based on sex constitute sexual harassment when (1) submission to the conduct is an implicit or explicit term or condition of employment or academic standing, (2) submission or rejection of the conduct is used as the basis for an employment or academic decision or (3) the conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working/academic environment. This statement is in keeping with federal employment and educational opportunity guidelines.

Appropriate corrective action will be taken in those instances where the foregoing policies have been violated. Any student or employee who is found to have violated any of the foregoing policies will be subject to disciplinary action.

The University of Nebraska at Omaha complies with all applicable laws promoting equal educational and employment opportunity and prohibiting unlawful discrimination, including those addressing the obligations of the institution under Title VII of the Civil Rights Act of 1964, as amended, Title IX of the Education Amendments of 1972, as amended, Sections 503 and 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990, as amended.

Further information on these policies, as well as the Statement on Consensual Relationships and Procedures for Resolution of Complaints can be found on the Discrimination Policies page (p. 59). Inquiries regarding compliance with these statutes may be directed to Equity, Access & Diversity, 2078 Eppley Administration Building; (402) 554-3490. Students who have concerns may contact the Title IX Coordinator/Assistant to
Academic Integrity

Academic Integrity Policy

The maintenance of academic honesty and integrity is a vital concern of the University community. Any student found responsible for violating the policy on Academic Integrity may be subject to both academic and disciplinary sanctions. Violations of the policy on Academic Integrity include, but are not limited to, the following:

1. **Cheating**
   - Copying or attempting to copy from an academic test or examination of another student; using or attempting to use unauthorized materials, information, notes, study aids or other devices for an academic test, examination or exercise; engaging or attempting to engage the assistance of another individual in misrepresenting the academic performance of a student; or communicating information in an unauthorized manner to another person for an academic test, examination or exercise.

2. **Fabrication and Falsification**
   - Falsifying or fabricating any information or citation in any academic exercise, work, speech or examination. Falsification is the alteration of information, while fabrication is the invention or counterfeiting of information.

3. **Plagiarism**
   - Presenting the work of another as one's own (i.e., without proper acknowledgment of the source) and submitting examinations, theses, reports, speeches, drawings, laboratory notes or other academic work in whole or in part as one's own when such work has been prepared by another person or copied from another person. Materials covered by this prohibition include, but are not limited to, text, video, audio, images, photographs, websites, electronic and online materials, and other intellectual property.

4. **Abuse of Academic Materials and/or Equipment**
   - Destroying, defacing, stealing, or making inaccessible library or other academic resource material.

5. **Complicity in Academic Dishonesty**
   - Helping or attempting to help another student to commit an act of academic dishonesty.

6. **Falsifying Grade Reports**
   - Changing or destroying grades, scores or markings on an examination or in an instructor's records.

7. **Misrepresentation to Avoid Academic Work**
   - Misrepresentation by fabricating an otherwise justifiable excuse such as illness, injury, accident, etc., in order to avoid timely submission of academic work or to avoid or delay the taking of a test or examination.

8. **Originality**
   - Misrepresenting work as newly created original work, when the work already has been submitted for another assignment or course without substantial revision.

9. **Other**
   - Academic units and members of the faculty may prescribe and give students prior notice of additional standards of conduct for academic honesty in a particular course, and violation of any such standard of conduct shall constitute violation of this policy.

Academic Integrity Procedures

Under the Bylaws of the Board of Regents of the University of Nebraska (Sections 2.9 and 4.1(i)), the respective colleges of the University have jurisdiction over procedural matters concerning academic dishonesty. Just as the task of inculcating values of academic honesty resides with the faculty, the faculty is entrusted with the discretionary authority to decide how incidents of academic dishonesty are to be resolved.

In cases where a faculty member finds that a student has committed any form of academic dishonesty, the faculty member may, in the exercise of his or her professional judgment, impose an academic sanction as severe as giving the student a failing grade in the course. In cases involving an academic sanction, the faculty member shall initiate the following procedures, starting at Step 1 and continuing only as necessary to Steps 2 or 3.

**Step 1: Determination and Reporting of Offense and Sanctions**

The faculty member shall discuss the matter with the student either in person or through e-mail, and shall:

1. Explain to the student the basis for the suspicion of academic dishonesty; and
2. Give the student a reasonable opportunity to explain the matter.

If the student offers an unsatisfactory explanation, does not respond within seven school days after first being notified (in person or through e-mail) of the suspected academic dishonesty, or if the faculty member otherwise concludes that the student has violated the academic integrity policy, the faculty member shall notify the student of any sanction for the offense through a letter or e-mail. The faculty member shall explain to the student his or her rights to mediation, as described in step 2, and appeal, as described in step 3.

Any sanction imposed by the faculty member, such as retaking a test or rewriting a paper, or failure in the entire course, shall be limited to the course. If the student does not respond or make a request for mediation or appeal within ten school days after the date of first being notified in writing of any sanction for academic dishonesty, then the student is considered to have accepted the sanction, and the faculty member shall make a written report of the facts of the case, including any pertinent materials related to the academic dishonesty. This report shall be retained by the faculty member for one year following the last day of the semester in which the sanction for academic dishonesty was imposed, in keeping with the records policy of the NU Board of Regents referenced below.

Whenever an academic sanction is imposed that directly results in a grade of ‘F’ in the entire course, the faculty member’s report shall be conveyed to the department chair and dean of the college in which the course is offered, and to the UNO Office of Student Conduct & Community Standards, and the faculty member shall inform the student in writing that a report has been made. Student conduct proceedings shall be initiated, and students may be subject to disciplinary action up to and including expulsion under the UNO Student Code of Conduct. Students shall be informed of their right to appeal, in accordance with the procedures established by the UNO Student Code of Conduct. In keeping with Board of Regents policy, records of cases resulting in expulsion or suspension shall be retained indefinitely, and records of other cases shall be retained for six years. Upon graduation or after two years of separation from the university, students may request that records of any cases not resulting in expulsion or suspension be expunged.

Cases involving lesser sanctions that do not result in a grade of ‘F’ in the entire course, such as retaking a quiz or rewriting a paper, may be reported at the discretion of the faculty member. However, if a faculty member reports any sanction imposed for academic dishonesty to the department
chair or dean of the college in which the course is offered, or to the Office of Student Conduct & Community Standards, then the faculty member shall inform the student in writing that a report has been made.

The Office of Student Conduct & Community Standards shall maintain a record of students who are reported to have violated the policy on Academic Integrity. Student conduct proceedings shall be initiated whenever a student is reported for violating the policy on Academic Integrity in more than one course. If a student is found not responsible for violating the academic integrity policy after mediation (Step 2) or appeal (Step 3), any records related to the incident shall be destroyed.

When academic dishonesty occurs in courses that are taught for a learning community, such as the Honors Program or a scholarship-based learning community, the faculty member may convey the report of any sanction to that learning community’s director or academic adviser, and if so, the faculty member shall inform the student in writing that a report has been made.

Step 2: Mediation
If the faculty member and student cannot reach agreement as to the matter of an alleged incident of academic dishonesty, then either party may request the departmental chair or UNO Ombudsperson to serve as a confidential mediator, exploring the student’s intentions, the gravity of the suspected offense, and the appropriateness of the sanction. This request must be made within ten school days after the first notification of any form of sanction. If the matter is satisfactorily resolved among these three parties, then a written record of the resolution shall be prepared by the mediator, communicated to both the faculty member and student, and retained by the faculty member for one year following the end of the course, in keeping with the Board of Regents policy on records retention. Any form of sanction agreed to in mediation that directly results in a grade of ‘F’ in the entire course shall be reported to the Office of Student Conduct & Community Standards as described in Step 1, and the mediator shall inform the student in writing that a report has been made. Lesser sanctions shall not be reported further.

Step 3: Appeal within the College
If the matter of an alleged incident of academic dishonesty cannot be resolved satisfactorily through mediation (Step 2), or if either the faculty member or the student do not wish the departmental chair to mediate, then either party may request the dean of the college to convene an appropriate college standing committee with student representation or impanel a committee with student representation to consider the matter of the alleged academic dishonesty. The request for appeal shall be made within ten school days after the date of the first notification of any form of sanction for academic dishonesty or, if Step 2 is pursued, within ten school days after the date of any unsuccessful attempt to resolve the issue through mediation. The membership of the college committee shall be drawn from the college in which the course is taught. The college committee shall function in accordance with the procedural guarantees provided in Section 5.4 of the Bylaws of the Board of Regents of the University of Nebraska.

If the committee finds the student did not violate the UNO academic integrity policy, the faculty member shall award a grade for the student’s work and course without prejudice, and all records related to the incident, apart from those normally retained for grading purposes, shall be destroyed. This includes any report of the incident which had been conveyed (see Step 1) to the department chair, dean of the college in which the course is offered, Office of Student Conduct & Community Standards, or learning community for which the course is offered.

If the committee finds that the student has violated the policy, it shall uphold the faculty member’s sanction. The dean shall convey a report of the incident, including the sanction and the committee’s decision that the student has violated the policy, to the Office of Student Conduct & Community Standards, the student, and the faculty member. The dean shall retain the evidence and records of the committee’s proceedings in accordance with the policies of the Board of Regents and UNO on the retention of disciplinary records.

Withdrawals
The procedures described above still apply if a student who is suspected of violating the UNO academic integrity policy withdraws from the course at any point.

Repeat Offenses
The Office of Student Conduct & Community Standards shall maintain a record of students who have violated the UNO academic integrity policy. Students who are reported for violating the policy on Academic Integrity in more than one course are subject to disciplinary action up to and including expulsion under the UNO Student Code of Conduct. Students shall be informed of their right to appeal such disciplinary action, in accordance with the procedures established by the UNO Student Code of Conduct. The disposition of such cases shall be communicated to any faculty members who communicated a report to the Office of Student Conduct & Community Standards concerning that student’s violation of the academic integrity policy, and to the dean of the student’s College. When students graduate or are separated from the University, any record of sanctions for academic integrity violations retained by the Office of Student Conduct and Community Standards shall be destroyed.

Annual Report
Each year near the beginning of the Fall semester, the Office of Student Conduct & Community Standards shall convey an anonymized report to the UNO Faculty Senate including the total number of academic integrity cases reported during the preceding academic year, the number that involved failure in the entire course, as well as the number and final disposition of any academic integrity cases adjudicated under the UNO Student Code of Conduct.

Records Retention and Communication
Records shall be retained when the student is found in violation of this policy in accordance with applicable Board of Regents policy. Records may be communicated outside the immediately concerned parties (Department, Dean’s Office, Office of Student Conduct & Community Standards, Learning Community, etc.) only if the student has been found to violate the academic integrity policy and no further mediation or appeal may be made under the procedures described above.

Syllabus Language
“UNO has an academic integrity policy and procedures available at https://www.unomaha.edu/student-life/student-conduct-and-community-standards/policies/academic-integrity.php”, in addition to any other comments on academic integrity that may be included in the syllabus.

(UNO Faculty Senate policy as of 5/2017)

Statement of Student Rights and Responsibilities

I. University of Nebraska Bylaws

Students, like all members of the academic community, have the responsibility to create and support an educational environment. Each member of the community should be treated with respect and dignity. Each has the right to learn. This right imposes a duty not to infringe upon the rights of others. The academic community should assure its members those opportunities, protections and privileges that provide the best climate for learning. (Bylaws of the Board of Regents, Section 5.0.) UNO shall publicize and keep current all rules, regulations, and policies concerning students, and insure that they are readily available to all students and other interested persons. (Bylaws of the Board of Regents, Section 5.1.)
1. **Admissions Criteria** UNO shall publish the criteria for admission, academic progress, certificates, and degrees for all colleges and schools of the University. Admission to the University and the privileges of University students shall not be denied to any person because of age, sex, race, color, national origin, or religious or political beliefs. (Bylaws of the Board of Regents, Section 5.2.)

2. **Academic Evaluation** Students shall be informed of the requirements, standards, objectives and evaluation procedures at the beginning of each individual course. Each student shall be given a performance evaluation during the progress of the course if requested. Each college or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student's evaluation upon the committee's finding that an academic evaluation by a member of the faculty has been improper. Procedures for appealing evaluation of academic progress are provided by each college or school unit. Generally, but not necessarily conclusively, the procedures are similar to the following: Students wanting to appeal a grade (evaluation that has been prejudiced or capricious), shall attempt to discuss the matter directly with the instructor. If the student and the instructor do not reach a satisfactory agreement, the student may submit an appeal in writing to the chairperson of the department in which the course is offered. If the student and chairperson do not reach a satisfactory agreement, the student may submit an appeal in writing to the Dean of the College in which the course was offered. The decision made at this level, which would include a hearing by a faculty-student appeals committee, will be final. Each college or school shall provide a mechanism by which students have an opportunity to report their perceptions of courses and the methods by which they are being taught, provided, however, that such mechanism shall protect members of the faculty from capricious and uninformed judgments. (Bylaws of the Board of Regents, Section 5.3)

3. **Public Information Regarding Students** In compliance with the federally-enacted Privacy Act and as defined by the Board of Regents, public information regarding students attending UNO shall be the (i) student's name, (ii) local address, (iii) permanent address, (iv) telephone listings, (v) year at the University, (vi) dates of attendance, (vii) academic college and major field of study, (viii) enrollment status (e.g. undergraduate or graduate; full-time or part-time), (ix) participation in officially recognized activities and sports, (x) degrees, honors and awards received, and (xi) most recent educational agency or institution attended. The names of students mentioned in some kinds of campus security reports concerning accidents and incidents may also be released to the public. UNO administrators shall define the kind of reports and information that may be released to the public. Information contained in personal files of the student is considered confidential and requires written authorization by the student for release; provided such records with names and personal identification deleted, and kept confidential, may be made available for governmental or University-approved research and analysis. Public information will be released by the Registrar to anyone upon inquiry, unless the student has requested that specific items be not released. The student's request to have public information withheld should be filed at the Office of the Registrar. (Bylaws of the Board of Regents, Section 5.6.) An explanation of this Act and its application at UNO is available to all students. Copies may be obtained at the Office of the Registrar.

4. **Release of Information** Information concerning students obtained through counseling or disciplinary activities will not be made available to unauthorized persons within the University, or to any person outside the University without the expressed consent of the student involved, except under legal compulsion or where the safety of others is involved; provided such records with names deleted, and kept confidential, may be made available for governmental or University-approved research and analysis. UNO may disclose to an alleged victim of any crime of violence the results of any disciplinary proceeding conducted against the alleged perpetrator of such crime with respect to such crime. (Bylaws of the Board of Regents, Section 5.6.1)

5. **Disciplinary Records** Subject to any requirements of the Records Management Act, the University shall provide for the periodic destruction of noncurrent disciplinary records. (Bylaws of the Board of Regents, Section 5.7.)

6. **Student Communications Media** Student publications and broadcasting stations shall be supervised in a manner such that editorial freedom will be maintained and that the corollary responsibilities will be governed by the canons of ethical journalism. Student publications financed in whole or in part by fees collected from all students at UNO shall be supervised by a Public Communications Committee. This committee shall have full responsibility of a publisher and the power of decision on the proper application of the canons of ethics. Students shall comprise a majority of the membership, but the committee shall also include members of the faculty and professional journalists from outside the University. (Bylaws of the Board of Regents, Section 5.9.)

6. **Eligibility for and Participation in Co-Curricular Activities** UNO shall permit students to organize and join associations to promote their common interests and shall establish procedures for the official recognition of these organizations for use of campus facilities. Each such recognized student organization shall be required to comply with all applicable federal and state statutes and University regulations. (Bylaws of the Board of Regents, Section 5.10.) Co-curricular activities are offered by the University to meet the needs and interests and to promote the development of special skills of its student population. To participate as a member in any recognized University organization, a student must be enrolled in at least one credit course, excluding audit hours. To participate as a member in any recognized co-curricular activity, a student must maintain a cumulative grade point average of at least 1.75 for the first 45 hours attempted and at least 2.00 for 46 or more hours attempted, including all college level courses taken at the University of Nebraska. To be eligible to run for or hold an elected or appointed position in the Student Government/UNO, a student must be enrolled in at least six credit hours, maintain a minimum cumulative grade point average of 2.00 and not be on disciplinary probation. These requirements supersede the membership rules, constitutions and bylaws of all organizations. Sponsors and officers of all organizations shall establish and enforce membership requirements which may be more, but not less, stringent than the foregoing. Under all circumstances, however, University policy prohibits denial of University privileges to students on the basis of race, color, religion, gender, disability, age, national origin or other factors, which, lawfully, cannot be taken into consideration.

7. **Campus Speakers** The purpose of a speakers program is to advance the general educational purposes of the University by putting before the University community a broad range of ideas in a variety of contexts. The organizations administering speaker programs should make every attempt to provide balance on all subjects presented. Institutional procedures will insure the orderly and adequate preparation for the event. However, the control of campus facilities will not be used as a device of censorship. (Bylaws of the Board of Regents, Section 5.11.)

II. **University of Nebraska Policies**

1. **Academic Degree Completion** The requirements for graduation from a bachelor’s degree program shall be those listed in the Catalog effective at the time of matriculation provided continuous enrollment (excluding summer sessions) was maintained. However, the University reserves the right to withdraw and substitute courses, to reallocate instructors and to change the nature of instruction, as deemed necessary. In some cases, prerequisites for courses offered at the University are effective even if they are not listed in a given catalog. (See the current schedule of classes or your adviser for details.) A student may meet requirements listed in a subsequent Catalog if written approval is granted by the dean of the college in which the student is enrolled. Acceptance of registration by the
University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue indefinitely to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out, or discontinue any program. The listing of courses contained in any University bulletin, catalog or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to 1) add or delete courses from its offerings, 2) change times or locations of courses or programs, 3) change academic calendars without notice, 4) cancel any course for insufficient registrations, or 5) revise or change rules, charges, fees, schedules, courses, requirements for degrees and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University. (Policies of the Board of Regents, Section 5.1.3)

2. Right to Public Hearing It shall be the right of any individual member or group of members of the University (i.e., students, faculty, or administrators) to be granted, upon petition to the appropriate policy making body or office, a public hearing at which the policy indicated by the group of petitioners in their petition shall be discussed. The policy-making body or office petitioned shall schedule the hearing for some time convenient to the interested parties if possible, no later than two weeks after the petition is submitted during periods when the University is in session, and shall announce publicly in advance the time and place of the hearing. At the hearing, that body responsible for the policy indicated in the petition shall clarify said policy, offer the reasons which justify the policy in view of the objections or questions raised about it in the petition, and respond to any additional questions or criticisms of the policy or related policies raised at the hearing by any member of the University. It is expected that before such a petition is submitted, all other normal channels for raising questions about the policy have been exhausted. If, in the view of the policy-making body or office to whom the petition is submitted, the petition is merely a form of harassment or adequate answers are available through other normal channels, the petition may be referred to the relevant committee to determine whether the hearing must be held. A decision by the Committee not to hold a public hearing shall be overruled by the submission to that committee of a petition requesting such hearing and signed by at least 100 members of the University community. (Policies of the Board of Regents, Section 2.1.3)

III. UNO Policies

1. Counseling/Medical Records Information exchanged with and/or maintained by a professional counselor/psychologist or medical personnel about a student client will remain confidential, except under legal compulsion.

2. Demonstrations The University acknowledges the rights of members to express their views by peaceful demonstration. UNO is an academic community founded upon a belief in rational dialogue and mutual respect among its members. The opportunities for communication within the University are many and varied, and the University welcomes suggestions for enlarging or improving them. The nature of the academic community demands that all members strive to maintain the rational dialogue which is the cornerstone of the University. There is no conceivable issue, be it a question of academic and administrative policy or of students rights and freedoms, that cannot be approached within the framework of free discussion.

a. Demonstration Procedures

Members of the academic community, including the guests of the University, have the right of extensive latitude in making their opinions known. It is understood, however, that in exercising this right the rights of others must not be jeopardized. The public exploration and resolution of differing views can be successful only when groups and individuals discuss the issues in forums where the right to disagree and to speak freely and be heard is preserved. Within this context, the University community recognizes peaceful demonstration as a legitimate means of expressing one's opinion.

The preservation of freedom of speech, and the recognition of the right to peaceful demonstration as part of that freedom, is possible only in an orderly environment in which individuals are not endangered by force or violence and in which they are free from coercion and interference in the exercise of their rights or in carrying out their legitimate activities.

Campus demonstration forms are available in the Administrative Office of the Milo Bail Student Center and must be submitted and approved with all necessary signatures at least 48 hours (two business days) before the proposed demonstration. Board of Regents bylaws state that, in cases of the disruption of normal University activities, the Chancellor or his/her designee will, in accordance with University policies and procedures, take necessary steps to restore the University to its normal function. The Chancellor or his/her designee may, in the event of refusal to disperse upon request, impose temporary action, including suspension of those persons disrupting the normal function of the University. The determination as to whether disciplinary action will be initiated for violations of University rules and regulations by students will be made by the Vice Chancellor for Academic and Student Affairs.

The University community may impose behavioral restrictions which are necessary to preserve the orderly functioning of the University and the right of all to be heard. Such restrictions fall into two categories:

i. Prevention of violence or the use of force:

Demonstrations which coerce individuals or which constitute a hazard to the safety of any persons or which threaten destruction of property are not protected by freedom of speech provisions and will not be tolerated. Similarly, a hostile audience will not be allowed to interfere with a peaceful demonstration.

ii. Protection from interference with University operations:

The University community may restrict conduct which interferes with the holding of classes, the carrying forward of University business, properly organized and scheduled University events, or the discharge of responsibility by any University officer, employee or student. Although the mere presence of demonstrators in public areas within buildings does not necessarily constitute interference, demonstrators cannot be allowed physically to obstruct access to University facilities. Noise and boisterous activity is objectionable when it prevents others from exercising their rights and duties.

Persons engaging in disruptive action shall be subject to disciplinary measures, including separation from the University, and also to charges of violation of the law.

b. Response to Disruptive Behavior

The response of the University to any disruptive behavior must ultimately depend on the judgment of the officials who are in charge. However, the following guidelines should be observed:

i. Every effort will be made to end the disruption through reason and persuasion. These efforts shall include a clear indication of the willingness to discuss issues and to make clear the procedures for discussion and arbitration of the issues involved. Discussion of the issues will not be conducted under conditions of duress.

ii. If the discussion method fails, the individuals involved will be notified that they are in violation of University regulations and they will be asked to cease the activity. In the event the alleged violators do not cease the activity within a reasonable length of time, temporary sanctions, which may include conduct probation and if necessary, suspension, may be imposed on the scene. However, unless both the student and the University officials agree to a postponement, the
University must hold disciplinary hearings within five (5) school days or the temporary sanctions will be dissolved. Such disciplinary hearing shall be held, as far as possible, in accordance with the established disciplinary procedures of the University. No temporary sanction shall be made part of a student’s permanent record. If a student is found innocent of the action for which temporary sanctions were imposed, no record of the temporary sanction or of the hearing shall become part of any of the student’s files or records and the student shall be given the opportunity to make up work which was not completed because of the disciplinary action.

iii. If the use of institutional sanctions and discussion methods are not effective in ending the disruptions, or when alleged violators are not members of the University community, extra-institutional methods (including the invoking of police force) may be used. Non-members of the University community who are engaged in disruptive behavior may be referred to civil authorities for appropriate action.

iv. Evidence regarding the activity of nonstudent members of the University community who are alleged to have engaged in disruptive behavior may be referred to their supervisors for appropriate action.

The University community abhors the use of force as a method for settling disagreement and will always make exhaustive attempts to deal with issues by rational methods. When, however, such rational efforts prove ineffective or when imminent danger to life or property exists, more forceful methods shall be used to protect the rights and property of members of the community.

3. Distribution of Printed and Other Materials. Students are free to express their beliefs and concerns in a variety of ways. Printed and other materials offered free of charge may be distributed at any location on the campus as long as such distribution does not interfere with normal traffic or functions of the University. Such materials may be distributed by any UNO-affiliated person provided such is accomplished in an orderly manner within the framework of University policies and the law. If specific space for distribution of material is desired, a location may be reserved in a designated area of the Milo Bail Student Center, in accordance with existing policies and procedures governing space reservations. Special care is requested of any and all parties distributing literature to prevent littering of the campus and surrounding areas. Such activity shall be conducted so as not to interfere with the rights of others or the normal activities of the University. Any material offered for sale, solicitation of donations, or posting on University bulletin boards must comply with UNO policy concerning these matters. Contact the Director of the Milo Bail Student Center if more specific information is desired.

4. Information Services. The facilities of UNO Information Services are available to students, faculty and staff of this institution for the purpose of instruction, research, and other activities as defined by the Chancellor. The computer facilities are University property and their operation is part of University operations. Executive Memorandum No. 16 of the President of the University of Nebraska states the University policy on responsible use of University computers and information systems. Executive Memorandum No. 16 may be accessed on the Internet at: www.nebraska.edu/about/exec_memo16.pdf. The Student Code of Conduct addresses offenses related to the properties and operation of the University, and, therefore, also applies to computer use and facilities as it applies to all other University resources.

5. Title IX. How Title IX Affects Your Educational Experience.

a. Admissions. Women and men must be given equal opportunities for admission to undergraduate public institutions, graduate and professional programs. Applicants may not be ranked separately on the basis of gender nor may numerical limitations be applied on the number or preparation of students of either gender who may be admitted.

b. Athletics. Women and men must be provided with equal opportunities in intercollegiate, club, or intramural athletics and access to athletic facilities. Separate teams may be offered for members of each gender where selection for such teams is based upon competitive skill or activity involved is a contact sport. Women and men must have separate shower facilities and sports equipment.

c. Career and Counseling Services. Women and men may not be discriminated against on the basis of gender in the counseling and guidance of students. Gender-biased assessment or test materials may not be employed. The Career Center must be assured that employment is made available without gender discrimination and may not list and publicize employment opportunities which discriminate on the basis of gender.

d. Course Offerings. Classes must be offered to both women and men on an equal basis and must be open to both genders. This includes health, physical education, industrial, business, vocational, technical, home economics, music and continuing education courses. Students may be separated by gender within physical education classes during participation in contact sports.

e. Financial Aid. Women and men must be given equal opportunities to receive financial aid, which includes scholarships, grants, loans and participation in work-study programs. Gender restricted scholarships may be offered only as long as the total amount of money offered to both genders is equal. Reasonable opportunities must be provided for athletic scholarship for members of each gender in proportion to the number of each gender participating in athletics.

f. Health Services. Women and men must have equal access to health services.

g. Housing. The University may not offer different rules or regulations or other different services or benefits related to housing on the basis of gender.

h. Student Activities. Women and men may not be subject to separate or different rules of behavior, sanctions, or treatment in academic, co-curricular and research activities on the basis of gender. Membership requirements for student activities and organizations must be the same for women and men with the exception of social fraternities and sororities. As members of organizations, students must be allowed to participate equally and may not be assigned or denied office or benefits on the basis of gender.

i. Student Employment. Women and men must be allowed equal opportunities for and access to student employment and subsequent raises and promotions. Benefits for employment must be equally provided, regardless of gender.

j. Complaint Procedure. Any student having a complaint regarding discrimination is urged to bring the complaint to the attention of the Assistant to the Chancellor for Equity, Access, and Diversity, Epplie Administration Building. The phone number is 402-554-3490.

Student Code of Conduct

Preamble

The community of scholars at the University of Nebraska at Omaha is dedicated to providing a safe and positive learning experience that is student-centered and focused on academic excellence and engagement with urban, rural, national, and global communities. By choosing to join the community, each member agrees to comply with certain standards of civilized behavior; and therefore, the University of Nebraska at Omaha adopts this Student Code of Conduct, in order that it might:

1. Reflect the values of UNO and promote a campus environment that supports its educational, research, and outreach missions;
2. Protect the members of the community and its resources from
disruption and harm;
3. Provide a guide to appropriate individual and group behavior; and
4. Foster ethical standards and civic virtues.

Sanctionable Misconduct by Individual Students or by Student Organizations

A. Jurisdiction of the University Student Code

1. The Student Code shall apply to conduct that occurs:
   a. On University premises, including all University of Nebraska
      locations, physical campuses and any University affiliated
      programs, events or activities, including those located in other
      states or countries.
   b. Off University premises, if the conduct is determined by the Director
      of Student Conduct and Community Standards to adversely affect
      a substantial University interest. A substantial University interest
      is defined to include:
         i. Any situation where it appears that a student's or student
            organization's conduct may present a danger to threat to the
            health or safety of him/herself or others; and/or
         ii. Any situation that significantly impinges upon the rights,
            property or achievements of self or others or significantly
            breaches the peace and/or causes social disorder; and/or
         iii. Any situation that is detrimental to the educational mission
            and/or interests of the University.

2. The Student Code applies to student conduct which occurs from the
time of enrollment through the actual awarding of a degree, even if
the conduct occurs prior to the start of classes or is discovered after a
degree is awarded.

3. An RSO is responsible for a member's conduct from the time the
student officially affiliates with the RSO until the student is permanently
terminated from membership or is awarded a degree.

4. All allegations of sexual misconduct, including sexual assault, sexual
violence, dating violence, domestic violence, or stalking are investigated
and addressed in accordance with Board of Regents Policy 2.1.8
and following the procedures set forth in the "University of Nebraska
at Omaha Response to Allegations of Student Sexual Misconduct",
adopted pursuant to Board of Regents Policy 5.3.3, attached to this
Student Code as Appendix "A," or as Appendix "A" may be hereafter
amended.

B. Conduct - Rules and Regulations

Any student found to have committed or to have attempted to commit the
following misconduct is subject to the disciplinary sanctions outlined in
Article IV:

1. Acts of academic dishonesty, including but not limited to the following:
   a. Cheating: Copying or attempting to copy from an academic test
      or examination of another student; using or attempting to use
      unauthorized materials, information, notes, study aids or other
devices for an academic test, examination or exercise, engaging
      or attempting to engage the assistance of another individual
      in misrepresenting the academic performance of a student; or
      communicating information in an unauthorized manner to another
      person for an academic test, examination or exercise.
   b. Fabrication of Falsification: Falsifying or fabricating any
      information or citation in any academic exercise, work, speech,
      research, test or examination. Falsification is the alteration of
      information, while fabrication is the invention or counterfeiting or
      information.
   c. Plagiarism: Presenting the work of another as one's own (i.e.,
      without proper acknowledgment of the source) and submitting
      examinations, theses, reports, speeches, drawings, laboratory notes
      or other academic work in whole or in part as one's own when
      such work has been prepared by another person or copied from
      another person. Materials covered by this prohibition include, but
      are not limited to, text, video, audio, images, photographs, websites,
      electronic and online materials, and other intellectual property.
   d. Abuse of Academic Materials: Destroying, defacing, stealing, or
      making inaccessible library or other academic resource material.
   e. Complicity in Academic Dishonesty: Helping or attempting to
      help another student to commit an act of academic dishonesty.
   f. Falsifying Grade Reports: Changing or destroying grades, scores
      or markings on an examination or in a faculty member's records.
   g. Impermissible Collaboration: Collaborating on any academic
      exercise, work, speech, test or examination unless expressly
      authorized by the faculty member. It is the obligation of the student
      to know whether collaboration is permitted.
   h. Misrepresentation to Avoid Academic Work: Misrepresentation by fabricating an otherwise justifiable excuse such as illness, injury, accident, etc., in order to avoid or delay timely submission of academic work or to avoid or delay the
taking of a test or examination.
   i. Other: Academic units and members of the faculty may prescribe
      and give students prior notice or additional standards of conduct
      for academic honesty in a particular course, and violation of any
      such standard of conduct shall constitute misconduct under this
      Student Code and the University Disciplinary Procedures.
      Any student found responsible for academic dishonesty may be
      subject to both academic and disciplinary sanctions. Academic
      sanctions are issued in accordance with the Undergraduate
      Academic Integrity Policy or the Graduate Academic Integrity Policy.

2. Furnishing false information to any University official, faculty member,
or office.

3. Forgery, alteration, or misuse of any University document, record, or
   instrument of identification.

4. Disruption or obstruction of teaching, research, administration,
disciplinary proceedings, and other University activities on or off-
campus, including its public service functions on or off-campus, or of
other authorized non-University activities.

5. Physical abuse, verbal abuse, threats, intimidation, harassment,
   coercion, and/or other conduct that threatens or unreasonably
   endangers the mental or physical health or safety of any person or
   oneself, including any such conduct achieved through means of social
   media or any other means of electronic communication.

6. Attempted or actual theft of and/or damage to property of the
   University or property of a member of the University community on or
   off campus.

7. Hazing, defined as any activity by which a person intentionally or
   recklessly endangers the physical or mental health or safety of an
   individual for the purpose of initiation into, admission into, affiliation
   with, or continued membership with any student organization, sports
   team or other organized group. Such hazing activity shall include, but
   not be limited to, whipping, beating, branding, forced and prolonged
   calisthenics, prolonged exposure to the elements, forced consumption
   of any food, liquor, beverage, drug or harmful substance not generally
   intended for human consumption, prolonged sleep deprivation, or any
   brutal treatment of the performance of any act which endangers the
   physical or mental health or safety of any person.

8. Improper initiation rituals, more specifically described as, intentionally
   adopting or implementing a practice of activity for the purpose of
   initiation, admission into, affiliation with, or as a condition for continued
   membership in a group or RSO that requires exertion or deprivation or
   embarrassment over a sustained period of time that can reasonably be
   expected to interfere with a student's academic performance, whether
   within or outside of the University. The express or implied consent of
   the victim will not be a defense.

9. Failure to comply with directions of University officials or law
   enforcement officers acting in the course and scope of their University
job duties and/or failure to identify oneself to these persons when requested to do so.

10. Unauthorized possession, duplication or use of keys and/or keycards to any University premises or unauthorized entry to or use of University premises.

11. Violation of any UNO or University of Nebraska policy, rule, or regulation published in hard copy or available electronically on the UNO or University of Nebraska websites. Electronic copy published on the UNO or University of Nebraska websites shall supersede hard copy.

12. Violation of any federal, state or local law.

13. Use, possession, manufacturing, or distribution of marijuana, heroin, narcotics, or other controlled substances, or drug paraphernalia, except as expressly permitted by law.

14. Use, possession, manufacturing, or distribution of alcoholic beverages on University premises (except as expressly permitted by the University), or public intoxication. Alcoholic beverages may not, in any circumstance, be used by, possessed by, or distributed to any person under twenty-one (21) years of age in the State of Nebraska.
   a. University Student Diversion Policy (seeking emergency treatment for alcohol poisoning or drug reactions)
      i. Students acting in the best interest of themselves or others by calling Campus Security or 911 (or similar police/emergency medical services) to assist another person experiencing adverse drug reactions, acute alcohol poisoning or other serious alcohol-related injury are eligible to participate in an alternative Student Code procedure. Students seeking to participate in this alternative must meet with a designated Conduct Officer to honestly and openly discuss the circumstances surrounding the incident and the decision to call Campus Security or 911/seek emergency medical services.
      ii. Students who receive emergency medical assistance for acute alcohol poisoning or a serious alcohol-related injury are eligible for an alternative to the normal Student Code procedure. In lieu of discipline, the student must complete the Brief Alcohol Screening and Intervention for College Students (BASICS) program or such other similar program designated by the University.
      iii. Students who qualify for and complete these alternative requirements will have their Student Code charges set aside and the incident will not be recorded in the behavioral conduct record of the student, provided the student commits no additional major violations of the Student Code within a twelve month period.

b. Procedure
   i. In order for this policy to be in effect, emergency medical services must be summoned and must respond directly to the situation.
   ii. Students will receive a letter from the Director of Student Conduct and Community Standards or appropriate Residence Hall Director informing them of misconduct charges. Upon meeting with the designated Conduct Officer, it will be determined if the student may be eligible for the UNO Student Diversion Policy/Program.
   iii. If the student is deemed eligible for the UNO Student Diversion Policy/Program by the Conduct Officer, then upon the student fulfilling the requirements of the policy, the student’s record will indicate no violation of the Student Code.

c. While the policy diverts sanctions within the Disciplinary Procedures, students may still be charged by law enforcement officials with violations of federal, state or local laws. Additionally, this policy is not a means to excuse students from egregious Student Code violations.

15. Illegal or unauthorized possession of firearms, explosives, other weapons, or dangerous chemicals on University premises or, the use of any such item, even if legally possessed, in a manner that harms, threatens or causes fear to others.

16. Participating in an on-campus demonstration, riot or activity that infringes, or incites others to infringe, on the rights of other members of the University community and impacts the educational environment or blocks access to or from educational services, including, but not limited to, the ability to legally express oneself, to attend classes or other University activities and programs, or to engage in one’s University job duties.

17. Obstruction of the free flow of pedestrian or vehicular traffic on University Premises or at University sponsored or supervised functions.

18. Conduct that is disorderly or indecent, including public urination; breach of peace; or aiding, abetting, or procuring another person to breach the peace on University premises or at functions sponsored by, or participated in by, the University or members of the University community.

19. Theft or other misuse of computer facilities and resources, including but not limited to:
   a. Unauthorized entry into a file, to copy, use, read, or change the contents, or for any other purpose.
   b. Unauthorized transfer of a file.
   c. Use of another individual’s identification and/or password.
   d. Use of computing facilities and resources to interfere with the work of another student, faculty member or University Official.
   e. Use of computing facilities and resources to send obscene or abusive messages.
   f. Use of computing facilities and resources to interfere with normal operation of the University computing system.
   g. Any violation of the University Computer Use Policy (Executive Memorandum No. 16).

20. Violation of the On-Campus Smoke and Tobacco Use Policy. (The Smoking Policy is found at www.unomaha.edu (http://www.unomaha.edu)).

21. Turning in false fire alarm or bomb threat or misusing fire safety equipment on University Premises, including any student housing unit.

22. Failing to report a fire or any other extremely dangerous condition when known or recognized on the campus.

23. Violation of any student housing unit policy or regulation. (The Housing Handbooks are found at housing.unomaha.edu (http://housing.unomaha.edu)).

24. Sexual assault or any other uninvited behavior of a sexually explicit nature including but not limited to sexual harassment, dating or domestic violence, and stalking. All allegations of sexual misconduct, including sexual assault, sexual violence, dating violence, domestic violence, or stalking are investigated and addressed in accordance with Board of Regents Policy 2.1.8 and following the procedures set forth in the “University of Nebraska at Omaha Response to Allegations of Student Sexual Misconduct”, adopted pursuant to Board of Regents Policy t.3.3, attached to this Student Code as Appendix “A,” or as Appendix “A” may be hereafter amended.

25. Abuse of the University Disciplinary Proceedings, including but not limited to:
   a. Failure to comply with the notice from a conduct Board or University official to appear for a meeting or hearing as part of the Disciplinary Proceedings.
   b. Falsification, distortion, or misrepresentation of information before a Conduct Board.
   c. Disruption or interference with the orderly conduct of a Conduct Board proceeding.
   d. Filing a malicious or frivolous complaint.
   e. Attempting to discourage an individual’s desire or efforts to engage in a permitted participation or use of the Disciplinary Procedures.
f. Attempting to influence the impartiality of a member of a Conduct Board prior to, and/or during the course of, the Conduct Board proceeding.

g. Harassment (verbal or physical) and/or intimidation of a member of a Conduct Board prior to, during, and/or after a disciplinary proceeding for purposes of disruption of the conduct process.

h. Failure to comply with the sanction(s) imposed under the Student Code.

C. Violation of Law and University Discipline.

When a student is charged by federal, state, or local authorities with a violation of law, the University will not request or agree to special consideration for that individual because of his or her status as a student. If the alleged offense is also being processed under the Student Code, the University may advise off-campus authorities of the existence of the Student Code and of how such matters are typically handled within the University community. The University will attempt to cooperate with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators. Individual students and other members of the University community remain free to interact with governmental representatives as they deem appropriate.

### Admissions

#### Application Process

An online [Application for Graduate Admission](https://applynow.unomaha.edu) must be filed with the UNO Office of Graduate Studies for students who:

- Desire a graduate degree or graduate certificate, or to change degree program or certificate program
- Desire graduate credit for renewal of a teaching certificate or professional development
- Desire to transfer graduate credit to another university
- Desire to fulfill prerequisites for a future degree-seeking program

**Special Note:** All students, except current junior- and senior-level undergraduate students, must complete a graduate application (or intercampus registration form for those students admitted to graduate programs at the other University of Nebraska campuses) to receive graduate credit for any graduate level courses taken at UNO. Special permission is required for junior- or senior-level undergraduate students to register for graduate courses.

#### How to Apply

- The Application for Graduate Admission must be completed online [here](https://applynow.unomaha.edu). The online application will specify all of the required documentation for the specific program prior to the program application deadline.
- A non-refundable application fee of $45.00 (U.S. dollars) is required for all new applicants to UNO Graduate Studies, including undergraduates within the University of Nebraska system, and students who have been previously admitted as graduate students at the University of Nebraska-Lincoln, the University of Nebraska at Kearney or the University of Nebraska Medical Center. **Special Note:** The application fee will be waived once for:
  - Students admitted as non-degree graduate students to UNO who within four years, wish to apply to a UNO degree program or as an unclassified student.
  - Students who applied to a degree program, were denied admission to that program, and, within a two-year period, re-apply to the same program.
  - **Military and Veteran Applicants:**
    - The application fee is waived for all Military and Veteran applicants and dependents with proof of military status. Please provide one of the following documents as proof of military status:
      - DD214
      - Notice of Basic Eligibility (NOBE)
      - Military orders
      - All military includes: Active Duty, Guard, Reserve, and Veterans
    - Unofficial transcripts and exam scores can be uploaded with the application. If offered admission, official transcripts and exam scores are required prior to enrolling in courses.
    - Notification of acceptance by a department/school Graduate Program Committee or faculty member is advisory only. Admission is granted solely by the Dean for Graduate Studies.

**Students Applying to Graduate Certificate Programs** will follow the same procedure as above with the following exceptions related to the application and fee requirement:

- Students pursuing a certificate program who later apply to a graduate degree program must complete a new application and submit all other required credentials. If the degree is within the same department(s)/school(s) as the certificate program, no application fee will be charged. If the student applies for a graduate degree program after the certificate is completed, he/she must submit a new application, application fee, and all other required credentials.
- A student pursuing a graduate degree program can be awarded a certificate while completing the degree; however, the student must complete a new application to be admitted to the certificate program. He/she will not be charged an application fee if the certificate is within the same department(s)/school(s) as the graduate program in which he/she is already enrolled. However, if a student applies for a certificate program after the graduate degree is completed, he/she will need to submit a new application, application fee and all other required documents.
- Students must be enrolled in a graduate degree-seeking program in addition to a graduate certificate in order to be eligible for financial aid.

**Students applying for a Second Master’s Degree, Graduate Certificate or taking additional graduate courses** must complete a new graduate application and submit an application fee and other required documents.

**Students applying for a Master’s Degree with a Double Major** can pursue their professional/scholastic goals by acquiring more knowledge in a second field than provided by the option of earning a minor, yet not be required to complete a dual degree program (i.e., two master degrees in separate majors, typically 60+ hours). Students are allowed to pursue a double major within the same degree (e.g., a Master of Arts in two different majors). For instance, a student may be permitted, with proper approvals, to pursue a Master of Arts degree in the majors of History and Geography because these majors lead only to the Master of Arts degree. One cannot attain a double major in History and Biology because these majors lead to a Master of Arts and Master of Science degrees, respectively. To apply:

- Students must submit two separate applications and only one application fee. An email must then be sent to gradschool@unomaha.edu, clearly specifying they are seeking a double major, which department/school is to consider the application first, and if support from both of the departments/schools is being sought.
- The graduate committee of the first department/school will pass the application to the second graduate committee with the result of its decision (recommendation for acceptance with support, recommendation for acceptance without support, refusal of admission.) The decision to recommend admission by one of the graduate
committees does not affect the decision of the other. The criteria for admission for acceptance may differ between programs; admission to one or both of the department’s/school’s programs does not guarantee acceptance for a double major master degree. Final approval of all applicants rests with the Dean for Graduate Studies.

• If one major is approved and one denied, the student must submit another application with an additional application fee to apply to another major.

**Students who wish to change programs**, must complete a new graduate application and submit with it a non-refundable graduate application fee, a graduate non-degree student would only need to submit a new graduate application along with an additional documents required by the program that they are applying to. The decision as to whether students will be accepted shall be left to the graduate committee of the department/school in which they are seeking admission and to the Dean for Graduate Studies. Admission to a new program is not automatically granted.

**Criteria for Admission**

Those applicants who have earned, or will have earned, a bachelor’s or master’s degree at a regionally accredited college or university in the US, or the equivalent of such degrees in another country, will be considered for admission. Prospective students may apply for admission during or after the final year of undergraduate study, but must submit the official baccalaureate degree transcript to the Office of Graduate Studies before the end of the first year of enrollment.

**Special Note:** Non-immigrant applicants must contact the Office of Graduate Studies concerning the filing of required financial documents. International students with a 3-year degree are referred to the program in which they wish to pursue graduate studies for evaluation of their transcripts to determine possible additional course work. They can be considered for graduate admission.

The decision to admit an applicant to a program is based primarily on a combination of the following criteria according to the requirements of the specific program.

- **Quality of previous undergraduate and graduate work.** The Graduate College requires as a minimum standard a “B” average of 3.0 on a 4.0 scale, in a program of study resulting in the award of a baccalaureate degree from a regionally accredited college or university. Applicants who have earned a minimum cumulative GPA of 2.7 on a 4.0 scale can be considered for provisional admission. If an applicant has studied at the graduate level and performed satisfactorily, less weight may, but not necessarily, be placed on the quality of the undergraduate academic record. Some programs require a higher minimum grade point average for admission.

- **Strength of letters of recommendation** from persons competent to judge the applicant’s probable success in graduate school. These letters are usually from the applicant’s former professors who are able to give an in-depth evaluation of the applicant’s strengths and weaknesses with respect to academic work. Additional recommendations may come from employers or supervisors who are familiar with the applicant’s work experience.

- **Official scores on required aptitude or advanced knowledge examination(s).**
  - Students whose language of nurture is not English must have a command of oral and written English adequate for graduate work. All applicants to Graduate Studies at UNO whose language of nurture is not English must present a score on the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Pearson Test of English (PTE).
  - Automatic waivers from this policy are granted for persons who have already received a baccalaureate or equivalent degree from an English-speaking institution of higher education in the United States, the United Kingdom, Canada, English-speaking Africa, Australia, Ireland or New Zealand.
  - While individual programs may require a higher score, the UNO Graduate Council has set a minimum score for admission to graduate studies of 550 written TOEFL, 80 internet-based TOEFL, 6.5 IELTS, or 53 PTE, with no exceptions to this policy.
  - **Statement by the applicant** of academic career objectives and their relation to the intended program of study. These statements help the department/school identify students whose goals are consistent with its objectives.
  - **Other evidence of graduate potential.** Some programs require other evidence of graduate potential, such as a portfolio of creative work, completion of specialized examinations or personal interviews.

**Special Note:** If a currently enrolled graduate student is admitted to a graduate program prior to receipt of their final grades for the current semester, the program may re-evaluate its admission decision if the student receives a grade of “C-” or lower in any course work (undergraduate or graduate) for that semester.

**Admission to the Graduate College**

Responsibility for admitting applicants to graduate programs rests with the Dean for Graduate Studies. Academic departments/schools review admission applications and credentials and make admission recommendations to the Dean. The standards maintained by the Graduate College and individual departments/schools are applied to ensure that applicants admitted to the University are well qualified for graduate study and have a reasonable expectation of successfully completing a graduate program. Standards for admission to doctoral degree programs are generally higher than those for admission to master’s degree programs. In many degree programs, the number of applications received from qualified applicants for graduate study exceeds the number of applicants who can be accommodated. In such cases, only the most highly qualified are offered admission. The number of spaces available in various departments/schools is limited according to the availability of faculty and resources.

**Categories of Admission**

**Unconditional Admission**

Unconditional Admission status may be granted to students considered fully qualified to undertake the program to which they were admitted. A student must have a baccalaureate degree from a regionally accredited institution. Other qualifications might include, but are not limited to, academic foundation requirements, an interview, area of subject tests, advanced tests, a portfolio or performance, grade point average and/or letters of recommendation.

**Provisional Admission**

Provisional Admission status may be granted to students who have not met all of the conditions for unconditional admission. Departments/schools and/or the Dean for Graduate Studies may impose certain requirements which must be fulfilled by the student in order to maintain this status.

- **Provisional admission may be granted** to an applicant who has less than a “B” average (3.0 on a 4.0 scale) in the undergraduate work in the proposed graduate major and minor (but in no case less than a 2.7 GPA). This admission may be granted for reasons of maturity, experience or other circumstances under which the student may be deemed capable of high quality graduate study.
  - **Provisional admission remains in effect** until the student has earned at least the grade of "B" (3.0 on a 4.0 scale) in each course involved in the first 12 hours of graduate study. The provisions are noted in DegreeWorks for reference.
• Provisional admission may occasionally be granted to an applicant who has graduated from an unaccredited institution. Unconditional status may be attained upon completion of 12 hours of graduate courses with a "B" (3.0 on a 4.0 scale) average, providing all other requirements are met.

• Provisional admission may occasionally be granted to seniors at UNO needing not more than nine hours of undergraduate credit to complete their baccalaureate degree and wishing to register for graduate credit, subject to their receiving a baccalaureate degree within the twelve-month period immediately following such registration. They must, however, apply for admission to graduate studies and, if admitted, they should register as graduate students. Graduate course work taken prior to receipt of the baccalaureate degree may not always be accepted for transfer to other institutions as graduate work or for completion of degree requirements at UNO.

• Provisional admission may occasionally be granted to an applicant who has not submitted the required aptitude or advanced knowledge test score(s). The student must, however, submit the score prior to the second registration as a graduate student.

Provisional status will continue until provisions of admission are fulfilled or changed by the recommendation of the Graduate Program Committee and approved by the Dean for Graduate Studies.

Non-Degree Admission

Verified Non-Degree Admission Status

Verified non-degree admission status may be available for an individual with an undergraduate or graduate degree from a regionally accredited institution who is not seeking a graduate degree from UNO. Applicants applying for the verified non-degree admission status need only submit an application for admission, the required application fee and official degree transcript. A cumulative GPA of at least 2.7 is also required.

Limited Express Non-Degree Admission Status

Limited express non-degree admission status allows students to register for classes without waiting for Graduate Studies to receive official transcripts. Applicants applying for the limited express non-degree admission status need only submit an application for admission, and the required application fee. Applicants requesting limited express non-degree admission will be eligible to register for one term only. The admission may be extended beyond the one term only upon receipt of official degree transcript with a cumulative GPA of at least 2.7 on a 4.0 scale.

Special Notes: UNO does not allow intercampus registration for non-degree students who are admitted under the Limited Express category. Non-degree students are not eligible for financial aid. Advisors are not assigned to non-degree students.

Non-Degree students are advised to consult with the appropriate department/school concerning class availability and prerequisites before attempting to register. Because of limited class size and resources, certain academic units may limit the enrollment of non-degree students. To determine whether a non-degree student is allowed to enroll in a graduate course, please check the course descriptions listed on the web.

Admission to a degree program or to unclassified admission from non-degree status is not guaranteed. Graduate-level hours taken as a non-degree graduate student prior to admission to a degree program may be included in the program of study at the discretion of the major department/school and the graduate dean. Students changing from non-degree status also may be required to take certain prerequisite courses by the major department/school and the Dean for Graduate Studies.

International students on F1 visas, except graduate visiting students, are not eligible to enroll under non-degree status. Non-degree students must maintain the same academic standards as degree seeking students or unclassified students.

Students dismissed from a graduate program who then re-apply as non-degree students may only do so if they request and receive permission in accordance with departmental/school graduate program policy to enroll as a non-degree student.

Dual-Degree Programs

Dual-degree programs must be approved by the Graduate Council and Dean for Graduate Studies. Dual-degree programs are a specifically approved combination of two Master’s degree programs as distinguished from a master’s degree with a double major (e.g., Master of Arts in English and History).

Unclassified Admission

Unclassified admission is available in limited departments/schools for students who:

• Are taking courses for professional growth or personal interest, but do not intend to pursue an advanced degree.

• Are enrolled in a graduate degree program at another institution and wish to transfer credits earned at UNO.

• Are working toward certification, additional endorsement, or renewal of certification in professional education.

Students applying for the unclassified category are not automatically entitled to this status upon application for it. The department/school reviews these applications and the student may be turned down for this category, as with other categories of admission. International students on F1 visas, except graduate visiting students, are not eligible to enroll as unclassified students. Students admitted as unclassified are not eligible for financial aid.

Special Note: Successful completion of graduate courses as an unclassified student does not obligate a graduate department/school to accept those courses for credit toward the fulfillment of degree requirements. Students who enroll under the unclassified designation and subsequently decide they wish to pursue a graduate degree must consult with their advisor and the chair of the graduate program committee. If admission to the degree program is recommended, the department/school will advise the Office of Graduate Studies of the decision and the credits to be accepted toward the degree through a change in plan of study form.

Immunization Requirements

To prevent the possibility of a measles epidemic throughout the UNO campus, all new students born on or after January 1, 1957 are required to:

1. Provide family documents or private physician records as proof of two (2) doses of the vaccine (MMR)

2. Submit the University of Nebraska at Omaha Pre-Enrollment Health Requirement Document

For forms and information, visit the Immunization Requirements website at http://studenthealth.unomaha.edu/preenrollment.php.

University of Nebraska Omaha (http://www.unomaha.edu)

Financing a Graduate Education

Scholarship and Financial Aid Information

Scholarships, Fellowships, Awards and Waivers

Please visit the Office of Graduate Studies website (http://www.unomaha.edu/graduate-studies/financing-your-degree/)
Office of Financial Support and Scholarships

Federal Student Aid

Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Direct Stafford Loan, University Tuition Grant, state grant, certain scholarships, Federal Perkins Loan and Federal Work-Study are all forms of financial assistance for which UNO undergraduate students may be considered on the basis of financial need. In order to apply, a student should submit a Free Application for Federal Student Aid (FAFSA) by April 1 prior to the academic year for which assistance is needed.

In order to comply with these regulations, the University of Nebraska at Omaha has established the following Satisfactory Academic Progress (SAP) policy.

Satisfactory Academic Progress Requirements

Satisfactory Academic Progress standards are reviewed annually after the final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or final posting of Spring semester grades and apply to a student’s entire academic record.

1. Grade Point Average (GPA) Standard
   You must be in “good academic standing” at UNO. For undergraduates, this is defined as having an earned UNO cumulative GPA of at least 2.00. For graduate students, this is defined as having an earned UNO cumulative GPA of at least 3.00.

2. Pace of Progress
   You must have successfully completed (“D” grade or higher) at least 67% of the total credit hours for which you have attempted at UNO, plus any transfer hours accepted from other schools, upon completion of the Spring semester.
   • Grades of Failing (F); No-Credit (NC); No Report (NR); Unsatisfactory (U); Incomplete (I); In Progress (IP); Audit (AU); and Withdraw (W); are considered unsuccessful completion of credit hours attempted. A grade of Failing (F) is used in calculating grade point averages.

3. Maximum Time to Degree Completion
   Undergraduate students must complete degree requirements within 180 attempted credit hours. Graduate students must complete degree requirements within 70 credit hours at the graduate level and Doctoral students must complete degree requirements within 125 credit hours.

   Attempted hours include both hours attempted at UNO and any transfer hours accepted from other schools you have attended. All credit hours for repeated courses will be included in the attempted hours calculation. Also, if the number of credit hours you still need to graduate, in addition to the number of hours you have already attempted exceeds the maximum attempted hour total above, your aid eligibility will be cancelled.

A course retaken beyond the first retake of a previously passed course cannot be included in the credit hour total when determining the total number of hours for disbursement of aid. "W" grades are not considered in this retake calculation, even though they are considered in the completion rate calculation in §2 above.

Reinstatement of Eligibility

Students who do not meet one or more of the SAP standards are no longer eligible to receive federal student aid and will be notified by email. Financial aid programs include, but are not limited to, all federal grants, loans and work-study, state grants, and most University of Nebraska at Omaha need-based grants and scholarships.

If you have incurred circumstances such as a death of a close family member, serious illness or injury to yourself, or other serious extenuating circumstances that you feel have significantly contributed to your academic situation, you may appeal the Grade Point Average Standard or Pace of Progression. Appeals will not be allowed for maximum credit hour issues or multiple retake issues.

Appeal Procedures:

1. Appeals must be typed and submitted to the UNO Office of Financial Support and Scholarships using the UNO SAP Appeal Form. The appeal should be submitted within 30 days of the SAP email notification. The appeal form is available at http://www.unomaha.edu/admissions/financial-support-and-scholarships/tools-and-resources/satisfactory-academic-progress.php.

2. The appeal must provide a full explanation of why the standards were not originally met, and what changes students have made to ensure all SAP standards will be met in future semesters. Supporting documentation may be supplied with their appeal submission.

3. No more than three appeals will be allowed per student per entire academic career at UNO.

Possible Appeal Outcomes:

1. Appeal Denied: If your appeal is denied, you will receive an email notification to the steps you can take, if any, to regain aid eligibility.

2. SAP Probation: Financial aid eligibility is reinstated for one semester only, with the expectation that all SAP standards will be met after that semester. Upon review, if all SAP standards are not being met in this timeframe, students will then become ineligible for aid.

3. SAP Academic Plan: In cases where an appeal is approved, but it is not possible to meet all SAP standards in one semester, you will be prescribed an individualized academic plan. You will remain aid eligible as long as you continue to meet the plan. If you cease to meet the plan criteria before you meet the minimum SAP standards, you will then become ineligible for aid.

ALL APPEAL DETERMINATIONS BY THE OFFICE OF FINANCIAL SUPPORT & SCHOLARSHIPS ARE FINAL

The University of Nebraska and its campuses have promulgated various policies, regulations, statements of purpose and operation, while adhering to the principles deemed necessary for functioning as institutions of higher education. The University of Nebraska at Omaha, with the counsel and advice of students, faculty and staff, has identified and compiled what are thought to be some of the most basic and important statements of policy especially as they relate to students.

To create greater awareness among and for convenience to students, a number of basic policies have been compiled into a Statement of Student Rights and Responsibilities. While most, but not necessarily all, policies pertaining to students’ rights and responsibilities are contained herein, students are urged to become familiar with all documents pertinent to the University of Nebraska in general and to UNO in particular.

For more information...

Office of Financial Support and Scholarships
Graduate Assistant Policy

Academic Standards
The graduate assistantship is intended as an award to students who have demonstrated high academic performance and potential either at the graduate or undergraduate level.

- Graduate assistants must be students in good standing in a degree or certificate program in the Graduate College.
- Dismissal from a graduate program for any reason shall result in simultaneous dismissal from any graduate assistantship position.
- The student will not be eligible for an assistantship thereafter until fully reinstated in a graduate degree or certificate program.

Recruitment, Selection and Renewal of Graduate Assistants

- Each graduate department/school or other departmental unit, as appropriate, shall establish its own procedure for graduate assistantship recruitment and selection in accordance with University policy on affirmative action/equal opportunity.
- Assistantships are not automatically renewable and are dependent upon assessment of work and classroom performance. The student is reminded that, whether or not outside work commitments are involved, graduate assistantships may not be renewed if either graduate class work or assistantship duties are not carried out in a satisfactory manner.

Workload

- The workload for a graduate assistant should average 20 hours per week for the duration of the appointment and shall be construed to be the equivalent of .33 FTE.
- The department/school or unit in which the graduate assistant is employed should make arrangements with its assistants regarding vacation periods.
- The Graduate Faculty considers a student who is pursuing graduate study and holding a graduate assistantship to be carrying the equivalent of a full-time workload (see course load below) and, therefore, discourages the practice of holding additional jobs which may interfere with satisfactory performance of assigned duties.

Course Load

- Graduate Assistants are expected to carry a minimum of six graduate hours in each of the fall and spring semesters; graduate assistants working in the summer semester are not required to be concurrently enrolled.
- Graduate assistants may not register for more than 12 semester hours without the approval of both their supervisor and the Graduate Dean. The graduate assistantship will not pay for more than 12 semester hours in a semester.
- The six-hour minimum may be waived if the student is in the last semester of graduate work and needs less than six hours of graduate credit in order to complete requirements for graduation. For doctoral candidates, the six-hour minimum enrollment also may be waived with the approval of their supervisor and Graduate Dean, if all required course hours except dissertation have been completed. In either case, students still must register for one course.

Duties

Duties assigned to graduate assistants should be directly related to and in support of graduate studies in their chosen field of study. Typical examples would be one or more of the following:

1. Teaching courses or discussion sections at the undergraduate level.
2. Instructing and supervising undergraduate level laboratories or tutorial sections.
3. Grading or otherwise evaluating performance of undergraduate students.
4. Collecting and/or processing research data for faculty members.
5. Preparing materials for laboratories or classroom presentations.

In general, other duties which involve a direct knowledge and application of knowledge related to the student’s field of study would be acceptable. Graduate assistants should not be utilized solely for clerical duties.

It shall be the responsibility of each Graduate Program Committee, in consultation with the cognizant department chairperson or program director, to draw up an agreement with each graduate assistant at the time of the appointment which shall specify the stipend, duration and method of payment, the assistant’s duties, and the general conditions of employment. The agreement shall be reviewed by the graduate assistant before it is signed by him/her and the chairperson of the Graduate Program Committee. The Graduate Program Committee, upon the recommendation of the graduate assistant’s faculty supervisor and/or the department chairperson/school director or unit director, shall have the responsibility to review the assistant’s performance and to terminate the appointment for failure to discharge satisfactorily the duties specified in the agreement.

Lengths of Appointments

Assistantships may be awarded on an academic-calendar-or semester-by-semester basis.

FAQ: Graduate Assistantships

What is a Graduate Assistantship?

Graduate Assistantships are intended as awards to students who have demonstrated high academic performance and potential at the graduate level. Graduate Students, or “GAs,” work 20 hours each week. The duties of a GA could be teaching; instructing and supervising undergraduate level labs; grading or evaluating performance of undergraduate students; collecting and processing research data for faculty; or preparing presentation materials. GA’s must carry a minimum of six graduate hours each semester. In addition to the tuition remission, they receive a monthly stipend and are eligible for subsidized health insurance. GA’s are selected by each department individually, so please contact your department’s office to apply.

How Do I Apply for an Assistantship?

Contact the department/school/office you are interested in for any available positions and their application procedures. Also, check with Human Resources (Student Employment), 205 Eppley Administration Bldg., they may have a list of the current open assistantships. You must be admitted to a graduate degree or certificate program to be a graduate assistant; non-degree & unclassified students are ineligible. Graduate Assistants must be in good standing in a degree or certificate program to receive or continue with an assistantship.

What Do I Receive Monetary Compensation for & When do I Get Paid?

Graduate Assistants receive compensation for performing the duties and responsibilities outlined in the assistantship agreement. Graduate Assistants average 20 hours per week. On the last working day of the month, your paycheck will be electronically deposited directly into your bank.

How Many Graduate Hours Do I Need to Take During the Fall & Spring Semesters?

Graduate Assistants are required to carry a minimum of six (6) graduate hours in the fall and spring semesters (please note that undergraduate deficiencies do not count toward this minimum requirement). You must be
aware that nine (9) graduate hours is a full-time course load for graduate students and, in order to defer some student loans, you must register for nine (9) graduate hours; however, most require only ½ time course load. Please check with the Office of Financial Support and Scholarships regarding the details of your particular loan. Please note: in order to complete your degree within two years you will need to register for nine (9) graduate hours per semester. The minimum of six (6) graduate credit hours may be waived if you are in your last semester & need less than six (6) graduate credit hours to complete the requirements for graduation. The Office of Graduate Studies will review your plan of study and contact you to complete the “Student Social Security Tax Exemption Statement—Last Semester.”

The minimum of six (6) graduate credit hours also may be waived for doctoral candidates, with the approval of their adviser & the Graduate Dean, if all required courses except dissertation have been completed and the student will not be employed for more than 20 hours per week. The Office of Graduate Studies will review your plan of study and contact you to complete the “Student Social Security Tax Exemption Statement—Certification of Full-Time Graduate Status.”

**What is the Maximum Number of Graduate Hours I Can Take Each Semester?**

Your Assistantship will pay for a maximum of twelve (12) graduate hours a semester.

**Can I Register for an Undergraduate Course and Have the Tuition Paid?**

Yes, if the undergraduate course is required to fulfill a deficiency which is listed on your original plan of study and you are enrolled for a minimum of six (6) graduate hours. This can be accessed in MavLINK under the DegreeWorks link. If the undergraduate course is not listed as a deficiency in your original plan of study, your assistantship will not pay for the tuition.

**How Many Graduate Hours Does a Graduate Assistant Have to Take in the Summer?**

None.¹ You are allowed to take a maximum of twelve (12) graduate hours.

¹ If you are working as a Graduate Assistant during the summer & are not registered at least ½ time (4 hours), you will be required to pay Social Security taxes.

**Will My Assistantship Pay the Tuition for Graduate Courses in the Summer?**

Yes, if you were a Graduate Assistant for the preceding fall and spring semesters or are working as a graduate assistant during the summer. If you were a Graduate Assistant for the spring semester only and will be one in the upcoming fall, you will be eligible for reimbursement for your summer graduate courses. Please consult with the Office of Graduate Studies.

**How Do I Pay For Classes?**

Once the necessary paperwork has been submitted to the Office of Graduate Studies by your department/school/offices, Cashiering/Student Accounts will be notified of your assistantship. Your account will then be credited for the classes which are covered by your assistantship. Please be sure you pay the fees and any other charges not covered by your assistantship.

**Will My Assistantship Pay for Graduate Courses Taken at the Other Three University of Nebraska Campuses (UNL, UNK, & UNMC)?**

Yes, if the courses are required in your plan of study, a tuition voucher will be completed by the Office of Graduate Studies at the time of verifying enrollment. You will need to complete the online Intercampus Registration form available here (https://intercampus.nebraska.edu/pre_inter_campus.aspx).

**What Happens if I Resign My Assistantship?**

The Office of Graduate Studies will send you a prorated bill from the date you resigned your assistantship. You will be placed on stop enrollment until the bill is paid.

**What Happens if I Don’t Start My Assistantship at the Beginning of the Semester?**

Assistantships may be awarded on an academic-year basis, a calendar-year basis, or semester-by-semester basis. Normally these appointments start at the beginning of a semester. If the late hiring is approved, the Office of Graduate Studies will send you a prorated bill for the graduate courses you are enrolled in; beginning with the date you started your assistantship.

**May I Hold Another Job (Additional Employment) in Addition to My Assistantship?**

The Graduate Faculty considers a student who is pursuing graduate study and holding a Graduate Assistantship to be carrying the equivalent of a full-time work load and therefore, discourages the practice of holding additional jobs which may interfere with satisfactory performance of assigned duties. With the approval of your graduate program committee and the Dean for Graduate Studies, an additional assignment may be accepted if professionally relevant and if your total FTE does not exceed .49.

**What If I Become Sick and Miss Work or Take a Vacation?**

Graduate Assistants do not earn sick or vacation hours, please consult with your department/school/offices concerning their policies.

**Do Graduate Assistants Work When Offices Are Open, but the University is Closed for Classes?**

As a graduate assistant averages 20 hours per week they are treated like faculty depending on your assignment you may be expected to work and this must specifically be stated in their workload agreement and discussed well in advance. You should check with your department/school/offices regarding their policy.

**How Long May I Hold a Graduate Assistantship?**

Assistantships may be awarded on an academic-year basis, a calendar-year basis, or semester by semester basis. Students working towards a master’s degree may not hold an assistantship for more than four (4) semesters; Educational Specialist students are limited to four (4) semesters beyond their master’s degree; doctoral students are limited to six (6) semesters beyond their master’s degree. These appointments exclude summer sessions. An assistantship may be extended on an individual basis upon the recommendation of the Graduate Program Committee of the department and the approval of the Dean for Graduate Studies.

**Where Do I Park My Car?**

You may purchase a student pass but are eligible to purchase a faculty/staff pass from Parking (http://www.unomaha.edu/business-and-finance/support-services/parking-services).

---

**Registration and Records**

**Enrollment**

All persons who attend classes at the University must first be admitted to the University, and are required to register and pay the established tuition and fees. The dates, times, locations and procedures for registration are listed each semester on the Registrar’s office web page (http://www.unomaha.edu/registrar/students).
MavLINK

MavLINK is the online self-service application providing students with an array of information and direct access to their academic, financial, and personal data. Access to MavLINK is gained by the use of your NUID and password.

NUID

The NUID (Nebraska Unique Identification) is a unique 8 digit number assigned to all students, faculty, and staff members during either admission or hiring. This number remains the same across the University of Nebraska and Nebraska State College system. More information about the NUID is available at the following address: http://www.unomaha.edu/nuid/.

Registration Requirements

Prior to the start of classes each semester, students must register for courses according to instructions published on the University of Nebraska at Omaha (UNO) website. To be eligible to register, a new or re-admitted student (one who has not enrolled during the previous two years) must have completed all admission requirements. Prior to registering, a student should seek assistance from an academic advisor within his/her college. Some colleges and departments require advising prior to registering. Every student is encouraged to review the requirements for his/her intended degree with an assigned academic advisor. This review should be scheduled in preparation for and prior to each registration.

Students who have outstanding debts or fees owed to the University will not be permitted to register until these obligations have been met. Academically suspended students may not register for additional course work until an application for reinstatement has been filed with and approved by their collegiate dean. Due to limited facilities and staff, the University cannot guarantee all students will be able to enroll for every course they wish in each semester.

How to Enroll and Make Changes to Enrollment

All adding, swapping, dropping, or withdrawing from courses is completed in MavLINK.

Adding a Class

A class can be added to a student’s schedule via MavLINK until the 100% refund period ends. Start dates are found on the class schedule. Refund dates can be found on the Cashiering/Student Accounts (http://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/tuition-refund-schedule.php) site. Late adds begin after the 100% refund period ends and require permission from the instructor prior to enrollment in MavLINK. A $25.00 Late Registration Fee will be assessed to those students whose initial enrollment takes place after the start of the session. Exceptions to this are thesis, internship, or independent study.

Dropping/Withdrawing From a Class

A class can be dropped or withdrawn from a student’s schedule via MavLINK up until the last day to withdraw. The last day to withdraw can be found on the Academic Calendar. Students can also contact the Office of the University Registrar to verify the last day to withdraw. Requests to drop a class submitted via fax or U.S. mail will be processed based on the dates appearing on the fax or U.S. mail postmark.

Drops can only be completed in the 100% refund period of your course. If students drop the course from their schedule during this period, it will not be listed on their academic transcript.

Withdraws can be completed up until the last day to withdraw for the semester. The last day to withdraw can be found on the Academic Calendar. If students withdraw from a course, a grade of “W” will be listed on their academic transcript. “W” grades have no impact on the academic GPA.

Students who drop or withdraw from one or more classes, or who completely withdraw from all courses will be obligated to UNO for that portion of tuition that is indicated on the refund schedule. Students who completely withdraw are also obligated to pay the non-refundable portion of tuition and fees for the class(es) from which they are withdrawing. Students who are currently enrolled can click on the “refund” link next to each class in their schedule inside MavLINK to check refund percentage dates.

Swapping a Class

Swapping a class allows students to save their space in the original class while trying to enroll for a new course. It’s a safer way to make changes to their existing class schedule during periods in which a lot of other students are also enrolling for their classes.

1. Swaps must be done on the same day.
2. Swaps are allowed during the first week of the standard semester. For classes that are outside the regular session, it will be necessary to contact the Office of the University Registrar to complete a swap.
3. Swaps are only allowed for classes in the same session.
4. Classes used for swaps cannot be used again for another swap.

Permission Numbers

A Permission Number is entered via MavLINK. A permission number must be entered for any courses that require instructor or department consent. A permission number will also override any prerequisite or GPA requirement, as well as a closed course. A permission number will NOT override a time conflict. The instructor or advisor must request a time conflict override through the Office of the University Registrar on the student’s behalf.

Receiving a permission number does not register the student for the course. It only means they are able to proceed with enrollment for that course. Once the permission number is issued, the student must register via MavLINK for the course using the number provided.

Permission numbers are BOTH course section and term specific. The student must ensure the permission is issued for the exact course he/she wants. The student will NOT be able to register for a different section of the same course. For example, if a permission is issued for ENGL 1160-003, they will not be able to register for ENGL 1160-006. A new number will need to be issued for the student by their advisor or department contact. Remember, permission numbers can only be used once.

Permission numbers not used before the end of the 100% refund period will be deleted. A new number will need to be issued to enroll after the 100% refund period.

Registration WaitList

A registration waitlist is an electronic process that auto-enrolls students in closed classes as seats become available. This enables students to get into the classes they want without having to continuously check for possible openings. Waitlists operate on a first-come, first-served basis, so this process ensures that students who register for the waitlist sooner have a better chance of getting into a closed course. Waitlists are only available once the class is full. For high-demand classes, this may be the first day of registration or, for other classes, as late as the week before the term starts.

Waitlisted classes do not count toward a student’s enrolled hours. If a student’s financial aid requires full-time enrollment, he/she needs be sure to enroll in enough credits without counting waitlisted classes. Each department is responsible for determining if their class offerings should have a waitlist or not.

For courses with no waitlist available, students will need to check regularly for possible openings. Students may add themselves to any number of waitlists but will not be enrolled beyond the maximum number of hours allowed for that term. Students may remove themselves from a waitlist by following the same process as dropping a class. More information on the
Audit Registration Policies and Procedures

All persons wishing to audit a course must be admitted and eligible to enroll in classes for the term in question. Students may only register to audit a course on or after the first day of the semester. Audit students may not participate in recitation, turn in papers, or take examinations. Academic credit is not awarded for audited courses nor do they apply in counting hours for full- or half-time status. Foreign language and physical education activity courses cannot be taken on an audit basis. Audit registration is subject to available class space, requires the written permission of the instructor, and must be done in person at the Office of the University Registrar, Eppley Administration Building 105. Audit tuition is one half of the applicable resident undergraduate or graduate tuition rate. The half-price tuition rate for audit courses is available only during the first week of the semester. Audit enrollments are assessed the same student fees as credit enrollments. Likewise, audits are refunded at the same rate as credit enrollments.

Students who register to take a course for credit and change to audit after the first week of class will be required to pay the full applicable tuition rate.

Attendance

Classes are conducted on the premise that regular attendance is desirable. The individual instructor has responsibility for managing student attendance and for communicating at the beginning of each semester those class attendance policies which prevail in that course.

If a student is absent or anticipates on absence, the student’s primary responsibility is directly to the instructors and the student should consult with them accordingly. If a student anticipates absence for an extended period, the student should promptly notify instructors and be prepared to document the reason for extended absences.

Instructors or other University officials who may require students, individually or collectively, to be absent from their classes due to a field trip or similar officially-recognized activity are responsible for providing adequate information to the students involved so they may provide notice to other instructors.

Should there be cause on the part of the individuals involved to feel the reasons for absence were not considered with equity, a decision with punitive consequences may be appealed. The appeals procedure is the same as that provided for in each collegial unit for other academic, classroom-related items (grades, cheating, etc.). The student should submit the justification for the appeal in writing to the department chair and, if unsatisfactory, to the collegial dean. The final step in the appeals process rests with the student submitting a written statement requesting the consideration of the respective dean’s advisory council, indicating the specific nature of the appeal to be considered. The advisory council’s recommendation to the respective dean will be the last step for the student, and the dean’s decision will constitute the final determination for the University.

The routing of appeals shall be in the department and collegial unit offering the course in which the student is enrolled.

Student Holds

A hold can be placed on a student’s record for reasons including but not limited to:

• Non-payment of debt (tuition payments, parking tickets, library fines, etc.)
• Academic suspension
• Failure to meet immunization requirements
• Required academic advising

• Missing admission information
• Non-compliance with other university regulations/obligations

A hold on the record can impact one or more of the following:

• Enrollment – ability to register for classes (Dropping and withdrawing from classes will need to be completed in person at the Office of the University Registrar.)
• Receiving a transcript
• Refund from Student Accounts

Online Class Definition

UNO offers two types of online courses. Totally Online courses are 100% online and students are never expected to meet face-to-face. Partially Online courses are 50% or more online and students are required to meet face-to-face at least once.

Academic Course Credit

All credit courses offered by the University may be applied toward any degree or certificate granted, except as stated by each department.

The amount of credit assigned to a course is determined by the number of hours per week a class is in session, with some exceptions such as laboratory, physical education, band and choir. A course scheduled to meet three hours per week for a semester, therefore, merits three semester hours credit. No more credit than the amount stated in the catalog is permitted in any course.

To receive credit, all work must be done under the supervision of a member of the faculty.

Course Prerequisites

Course prerequisites are automatically met based on previous coursework completed while at UNO or through transfer credit as determined by the student’s advisor.

If the attempted enrollment results in an error indicating that prerequisites have not been met, students must contact their academic advisor or college advising office.

If a student is allowed to enroll without the necessary prerequisites, a permission number must be issued by the academic advisor or the department and entered into MavLINK during the enrollment process.

Course prerequisites can be found by viewing the online catalog, or by logging into MavLINK, selecting “Class Search” and clicking on the title of a course listed.

Credit Hour Definition

The University of Nebraska at Omaha uses the Federal definition\(^1\) of a credit hour, which states:

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally-established equivalency that reasonably approximates not less than:

• One hour\(^2\) of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks;
• Or at least an equivalent amount of work as required in paragraph (1) of this definition for other activities as established by an institution, including laboratory work, internships, practica, studio work and other academic work leading toward the awarding of credit hours.

---

\(^1\) Electronic Code of Federal Regulations
\(^2\) A class hour at the University of Nebraska at Omaha is typically 50 minutes.
How to View Official Grades
Students can view grades via MavLINK immediately after they are posted by the instructor. Official Grades are available in MavLINK under the Academics tab or on the Unofficial Transcript. Final grade reports are not mailed out to students nor can grades be provided over the phone.

Grading Scale
Grades are determined by the daily record of the student and the record made on quizzes, mid-semester and semester examinations. The weight attached to each of these factors is determined solely by the instructor of the course.

The grading system is as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>outstanding</td>
<td>4.0</td>

Academic Calendar
Website (https://www.unomaha.edu/registrar/academic-calendar.php?utm_campaign=vanity&utm_source=vanity&utm_medium=vanity&utm_content=registrar.unomaha.edu/)

The Academic Year
Two semesters of approximately 15 weeks each constitute the academic year. The unit of instruction is the semester hour, which signifies one recitation a week throughout the semester, or equivalent.

Prep Week
The last week of regularly scheduled classes during fall and spring semesters is designated as Prep Week. Except for makeup examination tests in self-paced courses, post-tests in the English Composition Program or laboratory exams, no major examinations (accounting for more than 20 percent of a student’s grade) may be given during this period. Papers, projects or presentations assigned well in advance (at least two weeks) of Prep Week may be due during this period. (Faculty Senate Resolution)

Final Exams
The last week of fall and spring semesters is designated as Final Examination Week. Exams for classes may be scheduled at other times during Final Exam Week upon mutual agreement of all concerned. Instructors of totally online classes should arrange their final exams during Final Exam Week. Instructors of partially online classes should contact the Office of the University Registrar to find an on-campus exam location if necessary. Exams for summer or special session courses will be held on the last meeting day of the course.

Class Schedule
The UNO public class search is available online at http://www.unomaha.edu/class-search/index.php. Course offerings are subject to change. Final authority for changes in course offerings rests with academic departments. For questions concerning course offerings, contact the academic department. For general information about enrollment or instructions on how to use MavLINK, visit the Office of the University Registrar’s Enrollment page at: http://www.unomaha.edu/registrar/students/during-enrollment/how-to-enroll.php.

Designation of Full-Time Status
Full-time graduate students at the University of Nebraska shall be defined as those students enrolled for at least nine credit hours during an academic semester, whether or not the student holds a graduate assistantship.

Students enrolling for more than 12 hours must have the approval of the Dean for Graduate Studies. In some programs special permission may be granted to take more than 12 hours as a regular load. Students should consult with the department/school for provisions.

Explanation of Graduate Credit Course Numbers
Courses available for graduate credit are those which have been approved by the UNO Graduate Faculty or its designee. Students will not be allowed to upgrade or retake courses previously taken for undergraduate credit so that they can be used for any purpose where graduate credit is required. Undergraduate courses cannot be used toward a graduate degree.

A numbering system is used to indicate the availability and level of courses for graduate credit, as follows:

3--/8--5 (e.g. 3110/8115) or 4--/8--6

Courses with these numbers are open to both undergraduate and graduate students. Only 8--5 and 8--6 receive graduate credit; it is expected that students enrolled for graduate credit will do work at a higher level than that which is expected of undergraduate students in the same course.

No more than two 3--/8--5 courses are allowed on a plan of study.

8--0 or 9--
Courses with these numbers are normally restricted to graduate students only. At least one-half the hours of course work on a plan of study must be in courses normally restricted to graduate students only.

With special permission from the Dean for Graduate Studies, exceptional juniors and seniors may enroll in graduate courses.

OR

8--/9--1 (e.g. 8030/9031)

Courses with these numbers are normally for masters and doctoral level students. If taken at the master’s level the course cannot be taken again at the doctoral level.

Identification Card – MavCard

Upon first registering at UNO, students must have their pictures taken in MavCard Services (in the Student Center) for your MavCard (Student ID Card). This card is expected to last the student’s entire time at UNO and should be carried at all times. MavCards serve as identification for services in the Library, Bookstore, HPER building and other places on campus. Students may be required to show their MavCards before being served in any of these facilities. MavCards are not transferable, and use by anyone other than the student to whom the card issued is subject to disciplinary action. Lost cards may be replaced by contacting MavCard Services in the Milo Bail Student Center. A $10.00 charge will be made for replacement cards.

Information about the UNO student identification card is available here (http://mavcard.unomaha.edu).

Credit/No Credit Option for Courses Offered for Graduate Credit

The UNO Graduate Faculty does not, in general, allow the Credit/No Credit option for courses offered for graduate credit. However, each Graduate Program Committee shall have the right to designate courses such as practica, independent studies or research courses on which this option could apply. Inquire in the Office of Graduate Studies about the availability of this option for specific courses.

The grade of “Credit” is interpreted to mean the equivalent of a grade of “B” (3.0 on a 4.0 scale) or better and is not considered in the calculation of grade point averages.

Dropping Courses

Students cannot drop courses after the date identified in the academic calendar for that semester. Exceptions may be made when there are extenuating circumstances. Students requesting an exception must obtain the instructor’s certification that work in progress was at the “B” (3.0 on a 4.0 scale) level or higher. Approval of the request must be obtained from the Dean of Graduate Studies before the request to drop is submitted to the Office of the Registrar.

Civil Leave (Statutory Leave)

When a student receives a written notice to provide mandated community service as an election official, juror or witness, he or she must notify the course instructor of the time when the service will be required, within five business days after notice of mandated service is received by the student (or at the start of the semester if notice is received prior to the semester). A copy of the notice must be provided to the instructor.

The instructor will allow the student summoned to mandatory community service an excused absence from the course on the day(s) required for Statutory Leave.

Upon request of the student taking leave, the instructor will ask for another class member to take notes during the period of Statutory Leave.

If Statutory Leave occurs during a critical period in the course (e.g. an exam; in-class graded assignment; group project; participation-required day), the instructor will work with the summoned student to determine if the missed day(s) will likely have a negative impact on the student’s grade and whether the assignment or exam can be accommodated at a later time.

If Statutory Leave causes an extensive loss of class time for the student or will likely negatively impact the student’s grade or learning experience, the instructor and student will determine whether it is best for the student to receive a grade of Incomplete or Withdrawal for the course.

If a grade of Incomplete is chosen, the instructor and student will formally document the procedure required to complete the course.

If a grade of Withdrawal is chosen, the student should receive a prorated refund of tuition and fees paid for the course.

Student Called into Military Service

Executive Memorandum No. 23

1. GENERAL

This Policy shall be implemented in order that the University of Nebraska might provide equitable, consistent treatment to its students who are called into military service and to facilitate their ability to continue their education once that military service is completed.

2. ELIGIBILITY

Students who are regularly enrolled in any class or program offered by the University of Nebraska are eligible for the benefits described in this Policy, if they: (a) belong to a military unit that is called into active duty, or (b) are drafted and not eligible for deferment; such that the date upon which they are required to report to active duty prohibits them, as a practical matter, from completing the term in which they are enrolled.

3. COURSE AND GRADE OPTIONS

An eligible student may elect to cancel registration in all classes in which he or she is enrolled at the time the call for duty is received. In such case, the student shall receive a full refund for all tuition and student fees paid on behalf of that student. In the alternative, the student may request his or her instructors to award a grade or an incomplete for all classes. If an incomplete is given, then the instructor shall file in the student’s educational records and provide to the student specific instructions regarding the study and activities required to complete the course. If a grade and credit are awarded, then the instructor shall award a grade reflective of the student’s performance, taking into consideration the quantity and nature of the curriculum through the time of the student’s departure. Finally, the student shall have the option of withdrawing from selected courses, receiving a prorated refund of tuition and fees for those courses, while also opting to receive a grade or incomplete in other courses in which the student is enrolled.

4. STUDENTS RECEIVING FINANCIAL AID

Notwithstanding any provision to the contrary in this Policy, administration of financial aid with respect to any eligible student shall be consistent with federal and state law. Students otherwise eligible for these benefits and receiving financial aid should immediately contact the financial aid office on their respective campuses, where each case must be addressed individually based upon the particular rules applicable to the relevant student. The campus financial aid offices shall address these matters in such a way so as to minimize the financial hardships to the student, while complying with the applicable law and regulations.

5. PUBLICATION

This Policy shall appear in all student catalogs and placed on the websites of Central Administration and each Campus.

6. SYSTEM APPLICATION

This Policy applies to all administrative units of the University of Nebraska. Each campus may provide supplemental policy guidance, consistent with this Policy, designed to implement the provisions herein,
including guidance relating to fees associated with meals and housing, textbooks, parking, lab and course fees, as well as other ancillary fees.

Dated this 17th day of October, 2001.

Incomplete Grades

Purpose
The grade "Incomplete" ("I") is to be used by an instructor at the end of a term to designate incomplete work in a course. It should only be used when a student, due to extenuating circumstances (such as illness, military service, hardship or death in the immediate family), is unable to complete the requirements of the course in the term in which the student is registered for credit. An "Incomplete" should only be given if the student has already substantially completed the major requirements of the course. Each instructor must judge each situation as to whether an "I" is appropriate.

To receive an "incomplete," students must contact their professor prior to the end of the semester, request a grade of incomplete, and make arrangements to complete the work. The rules which govern the issuance of the incomplete are as follows:

1. The grade "I" is used by an instructor at the end of a semester or summer session to designate incomplete work in a course. It is given when a student, due to circumstances such as illness, military service, hardship or death in the immediate family, is unable to complete the requirements of the course in the term in which the student is registered for credit. Incompletes will only be given if the student has already substantially completed the major requirements of the course.

2. Each instructor will judge each situation. The instructor will also indicate by a departmental record, with a copy to the student, how the incomplete is to be removed, and if the instructor is at the University at the time of removal, supervise the makeup work and report the permanent grade.

3. In the event the instructor is not available at the time of the student’s application for removal of an incomplete, the department chairperson will supervise the removal of the incomplete and turn in the permanent grade for the student.

Removal
Normally there is no time limit for graduate students to remove a grade of “Incomplete”. However, the instructor does have the option of determining the requirements for completing the course and requisite date for removal of an incomplete. It is helpful to have these requirements in writing to ensure there is no miscommunication between the instructor and student.

Intercampus Enrollment
Graduate students within the University of Nebraska system who have been admitted to a graduate program of study at another UN campus may register for graduate courses at UNO by using an Intercampus Registration Form, which can be found on-line (https://intercampus.nebraska.edu/pre_inter-campus.aspx).

Repeating a Graduate Course
A student, upon the consent of his or her advisor, may repeat a course in which he/she has previously received a grade of “C+” (2.33 on a 4.0 scale) or below. Both grades will appear on the transcript, but only the second grade will be counted in determining the grade point average.

Readmission to Graduate Studies
A student who has not been enrolled as a graduate student at UNO for 4 years or more must apply as a new graduate student and submit the graduate application, the required non-refundable application fee, and all other required credentials. Applicants cannot apply to the same degree/certificate program once the degree/certificate has been awarded.

Permission for Undergraduates to Register for Graduate Credit
This process does not include approved 4+1 undergraduate/graduate degree programs.

Juniors at an Accredited Institution
Exceptional juniors at the University of Nebraska at Omaha who have obtained, in advance, the approval of their advisor, department chair, the course instructor of record, and the Dean of Graduate Studies may receive up to 12 hours of graduate credit for courses taken at the University of Nebraska at Omaha in addition to the courses necessary to complete their undergraduate work. Juniors are allowed to enroll only in courses designated 8- - -. The student must have at least a "B" (3.0 on a 4.0 scale) average in the undergraduate major. Graduate course work taken prior to receipt of the baccalaureate degree may not always be accepted for transfer to other institutions as graduate work or for completion of degree requirements.

Seniors at an Accredited Institution
Seniors at an accredited institution (including UNO) who have obtained, in advance, the approval of the appropriate campus Dean of Graduate Studies may receive up to 12 hours of graduate credit for courses taken at any campus of the University of Nebraska in addition to the courses necessary to complete their undergraduate work, provided that such credits are earned within the 12 months prior to receipt of the baccalaureate degree and that the student has at least a "B" (3.0 on a 4.0 scale) average in the undergraduate major. Graduate course work taken prior to receipt of the baccalaureate degree may not always be accepted for transfer to other institutions as graduate work or for completion of degree requirements at UNO.

Change of Program
Except for non-degree students, students are admitted to specified programs for specified objectives. Therefore students who wish to transfer to another department/school must complete a new graduate application and submit it with the required non-refundable application fee. The decision as to whether students will be accepted shall be left to the graduate program committee of the department/school in which they are seeking admission and to the Dean for Graduate Studies. Admission to a new program is not automatically granted.

If a currently enrolled graduate student is admitted to a graduate program prior to receipt of their final grades for the current semester, the program may reevaluate its admission decision, if the student receives a grade of C- or lower in any coursework (undergraduate or graduate) for that semester.

Prohibition of Simultaneous Matriculation
Normally, no graduate student may be a degree-seeking student in more than one graduate program at the University of Nebraska, unless enrolled in an approved dual-degree program. Any exception must have prior approval of every graduate program committee and every campus Dean for Graduate Studies through which the programs are administratively assigned. When there is an approved simultaneous matriculation, the same course credit will not be accepted for more than one degree without prior approval of every graduate program committee and every campus Dean of Graduate Studies through which the programs are administratively assigned.

Official Academic Transcripts
Transcripts contain academic information such as course work, grades, credit hours, Grade Point Average and UNO degrees earned.

Before an official transcript can be released, all financial or administrative obligations to the University must be resolved. Holds can be viewed through MavLINK.
UNO transcript requests can only be completed online. Requests made via phone, email, or fax are not accepted. Transcripts can be ordered by students via their MavLINK.

To learn more about ordering your transcripts online visit: transcripts.unomaha.edu (http://transcripts.unomaha.edu).

**Family Education Rights and Privacy Act (FERPA)**
The Family Educational Rights and Privacy Act (FERPA) of 1974 affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records.
2. The right to request the amendment of the student’s education records to ensure they are not inaccurate, misleading, or otherwise in violation of the student’s privacy or other rights.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent FERPA authorizes disclosure without consent.
4. The right to file a complaint concerning alleged failures by the University of Nebraska at Omaha to comply with the requirements of FERPA.
5. The right to obtain a copy of the University of Nebraska at Omaha’s Student Records Policy. A copy of the policy is available at the Office of the University Registrar, 105 Eppley Administration Building.

**Record Maintenance and Disposition**
All records, including academic records from other institutions, become part of the official file and can neither be returned nor duplicated for any purpose. Students may wish to obtain an additional copy of their official credentials to keep in their possession for advisory purposes or for other personal requirements. Transcripts provided to the university in support of a graduate application will be maintained for two years if the student does not enroll in to program to which they applied.

**Discontinuance of Program Offerings**
Acceptance of registration by the University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out or discontinue any program.

The listing of courses contained in any University bulletin, catalog or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to:

1. add or delete courses from its offerings,
2. change times or locations of courses or programs,
3. change academic calendars without notice,
4. cancel any course for insufficient registrations, or
5. revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University.

**University Regulations**
The University and its various colleges, divisions and departments reserve the right to change the rules controlling admission to, instruction in and graduation from the University or its various divisions. Such regulations are operative whenever University authorities deem necessary and apply not only to prospective students but also to currently enrolled students.

The University also reserves the right to withdraw courses, to reassign instructors and to change tuition and fees at any time. In some cases prerequisites for courses offered at the University are effective even if they are not listed in this catalog. See the current class schedule or your adviser for more information.

**Policies Governing Graduate Study**

**Master’s, EdS, Certificates Dual Degrees and Second Master’s Degree Programs**

**Plan of Study**
At the time of admission to a degree and/or certificate program, an individual plan of study, also called a degree audit, will be sent to the student with their official letter of admission from the Dean for Graduate Studies. This individual plan of study will list all requirements for the completion of the degree program. These requirements may include deficiency courses and other provisions of admission, as well as specific courses to be completed to graduate and comprehensive examinations, if applicable.

Any deviations to this plan of study, including transfer credit must be approved by the student’s advisor, graduate program committee chair, and Dean for Graduate Studies. Any changes must be submitted by the graduate program chair to the Office of Graduate Studies via a petition in DegreeWorks. Upon approval, the student will be able to see the changes on their degree audit through DegreeWorks in MavLINK (https://mavlink.nebraska.edu/psp/mavlink/NEB/HRMS/?cmd=login&languageCd=ENG&).

**Policies applicable to the Plan of Study**
- Grade point average: Students must maintain an overall GPA of “B” (3.0) in all graduate coursework required for the degree/certificate program of study. Some departments/schools have higher grade requirements as noted in this catalog and DegreeWorks. Grades of “C-” or below result in dismissal from Graduate Studies and may not be used on a graduate plan of study. If a student re-registers for a course to improve his/her grade he/she must work with the Office of Records and Registration to note this on his/her transcript.
- Graduate course requirement: At least one-half of the graduate coursework required for the degree/certificate program must be restricted to graduate students only (8-0 or 9-0). No more than two 3-0-8-5 courses are allowed on a plan of study.
- Foundation courses may not be used on any plan of study.
- Provisions of admission are included in the plan of study report.
- **Time Limit:** The degree, certificate, or EdS program must be completed within ten consecutive calendar years. Coursework that is over ten years old (30 consecutive terms) at the completion of the degree program (as defined by the plan of study and including any necessary comprehensive exams) cannot be used for a Master's or EdS degree.
- The first day of class of the earliest course which appears on the student’s plan of study is the beginning of the student’s graduate education.
- If completing a thesis, thesis-equivalent project, or EdS field project: Refer to the Guidelines for Preparing Theses, Thesis-Equivalent Projects, EdS Field Projects below for information pertaining to approval of a supervisory committee, proposal approval, formatting, and deadlines.
Transfer of Graduate Credit
Approval of the transfer of graduate credit for course work taken at another regionally accredited university (including extension credit but not including correspondence courses) must be recommended by the appropriate advisor and graduate program chair, and submitted to the Office of Graduate Studies via petition through DegreeWorks for final approval by the Dean for Graduate Studies. Grades received in courses for transfer credit must be the equivalent of "B" (3.0 on a scale of 4.0) or higher. Transfer of graduate credits from a course taken with a pass/fail option must be recommended by the relevant Graduate Program Committee, supported by a written evaluation from the instructor and approved by the Dean for Graduate Studies. All work accepted for transfer of credit must have been taken within the prescribed time limits for graduate degrees and is subject to restriction if previously used to satisfy requirements for another graduate degree.

The only course work from other institutions posted on the UNO transcript will be those recommended by the appropriate graduate program chair and approved by the Dean for Graduate Studies.

Transfer of Credits Taken Outside the University of Nebraska
Up to one-third of the coursework required for a graduate degree program may be accepted from an accredited institution other than that of the University of Nebraska when the transfer is supported by the student’s adviser and the appropriate Graduate Program Committee. Final approval will be made by the UNO Dean of Graduate Studies. All other policies regarding graduate programs will apply. An official transcript must be forwarded to the Office of Graduate Studies documenting that the course(s) were taken for graduate credit.

Transfer of Credits Taken at the University of Nebraska
There are no a priori limits on the transfer and applicability of credits earned in one program of the University of Nebraska toward meeting degree requirements in another such program, except as they are used to earn distinct degrees. However, such credits must be individually evaluated and approved by the appropriate Graduate Program Committee and campus Dean for Graduate Studies before they can actually be transferred. UNO students who wish to take courses at the University of Nebraska-Lincoln, the University of Nebraska Medical Center, or the University of Nebraska at Kearney for transfer of credit should complete the intercampus application process available here (https://www.unomaha.edu/admissions/undergraduate/intercampus.php).

Master’s Degree with a Double Major
Students accepted to a double major must meet, at least, the minimum requirements for each of the majors:

- Course work of no less than 18 credit hours is required in each of the two disciplines
- Courses cross-listed in both majors may only be counted once.
- The precise number of credits may vary depending on the total required hours for a particular major.
- For each of the two majors, students must take at least nine credits in courses open only to graduate students (8000- or 9000-level), excluding thesis hours.
- The student is required to successfully satisfy the thesis/comprehensive examination or equivalent requirements for each major. In the event that both programs have a thesis requirement, either:
  - Two theses may be written or
  - The content of the thesis may reflect the content of both majors.
- If a joint thesis is elected, the thesis committee shall then consist of two graduate faculty members from each of the major departments/schools and shall be co-chaired by a faculty member from each of the major departments/schools.

- If a student is already pursuing a major in a degree program, then decides he or she would like to obtain a second major, a new application and admission fee is required. The new application must be approved by the original graduate committee prior to review by the second graduate committee. However, once the master’s degree is conferred, a second major cannot be attained. Students would then be required to apply for admission to a second master’s degree program, and upon acceptance, complete all requirements of a full, independent program.

Minor Field
A student is not required by the graduate faculty to have a minor. However, a student may elect to complete a minor with the permission of both the major department/school and the minor department/school.

The minor must consist of no fewer than nine (9) graduate hours. The courses must be included in the DegreeWorks petition and the minor department must provide approval. The minor will be reflected on the student’s transcript at the time of graduation.

Students who elect to complete a minor may be required to take a comprehensive examination over the minor field. This requirement will be at the discretion of the minor advisor. If such an examination is given, it should be given at a date arranged at the convenience of both the student and the minor advisor, but falling within the limits established for all comprehensive examinations.

Concentrations
A department/school may offer specialized areas of concentration of at least nine (9) hours to graduate students pursuing degrees in that department/school. The area of concentration must appear on the approved plan of study. The Registrar will identify this area of concentration on the student’s transcript.

Second Master’s Degree
Use of graduate credit earned for the first degree will be treated in the same manner as transfer credit from another institution if applied to the requirements for the second degree. Up to one-third of the course work required for the second master’s degree may consist of courses from a previous graduate degree. All other policies regarding graduate programs apply.

Thesis, Thesis-Equivalent Project and EdS Field Project
A Master’s Thesis, Thesis-Equivalent Project, or EdS Field Project provides the opportunity for students to acquire first-hand experience in research or creative activities with the supervision of experienced faculty. A thesis or thesis-equivalent project is equivalent to six semester hours of credit. The Specialist in Education (EdS) field project is equivalent to three semester hours of credit. Required course hours must be indicated on each student’s plan of study.

Grades for a thesis, thesis-equivalent project, or EdS field project are recorded on the permanent record after completion and approval by the department/school and the Office of Graduate Studies. For a thesis or thesis-equivalent project, grades will be either “S” for “Satisfactory” or “U” for “Unsatisfactory”. A letter grade will be recorded for the EdS field project.

The thesis, thesis-equivalent project, or EdS field project is not considered to be a publication; thus, it may be published, in whole or in part, and either quoted or paraphrased by giving appropriate credit to the relevant department/school, the Graduate College, and the University of Nebraska at Omaha.

Students must file a Proposed Supervisory Committee form and a Thesis Proposal Approval form with the Office of Graduate Studies before initiating the thesis, thesis-equivalent project, or EdS field project.
least one semester prior to the student’s anticipated graduation date.

Thesis, Thesis-Equivalent Project, and EdS Field Project (ETD) Submission Procedures

The Supervisory Committee guides the student in the conduct and development of the thesis, thesis-equivalent project, or EdS field project and approves the final product. Typically, final recommendations from the supervisory committee or the Supervisory Committee Chair are provided to the student at the time of the final oral examination, although details vary among departments/schools and individual faculty. Final approval of the ETD, in PDF format, is contingent upon approval by the supervisory committee and the Office of Graduate Studies.

Procedures

When the final PDF version of the thesis/project has been approved by the supervisory committee, the student must submit the following to the Office of Graduate Studies for the final administrative step in the approval process:

- One paper copy of the Title Page
- One paper copy of the Abstract
- Report on Completion of Degree form, signed by the supervisory committee.

NOTE: If the thesis/project is to be held pending patent issuances, etc., the student must specify this at the time the PDF file is submitted to ProQuest (UMI).

An electronic version of the thesis, thesis-equivalent project, or EdS field project (collectively referred to as ETDs) is required. An ETD is a document expressed in a format simultaneously suitable for machine archives and worldwide retrieval. Preparation of the ETD may be done using most word processor or document preparation systems that incorporate relevant multimedia objects.

The ETD has many benefits, including:

- More access to research, both on campus and worldwide
- Lower expense to authors as there are no paper costs
- Can provide a better presentation of the research than available in a traditional paper format

Students who wish to order bound copies may do so through ProQuest, or they may make other arrangements.

As part of the ETD submission, students’ abstracts are published in UMI’s Master’s Theses or Dissertations Abstracts publications. Upon submission, the student authorizes ProQuest to produce copies of his or her work on demand for a fee. However, the student may request that UMI not distribute (or embargo) his or her ETD until further notice (up to two years). Some reasons for this include if there is a patent pending, the student’s employer requires a review of the work, or a publishing agreement requires initial publication. The ETD will also be included in the ProQuest Dissertations and Theses Database (PQDT), which includes more than 2.3 million citations, of which 870,000 are available in PDF. Each submission includes an abstract, citation, a preview, and a PDF if available. About 3000 libraries subscribe to the PQDT.

After the documents are submitted to the Office of Graduate Studies, the student must upload the thesis/project to ProQuest. Instructions for the upload can be found at http://www.etdadmin.com/cgi-bin/school?siteld=81.

For help with conversion of files from word processing to PDF, see the Library staff. Since errors may occur when converting from a word processor file to a PDF file, it is essential that the student review the final version of the PDF.

NOTE: There may be a fee to submit the ETD through ProQuest. The amount is noted on the website.

After successfully uploading the thesis/project, the Office of Graduate Studies will be notified electronically by ProQuest of the submission and asked to provide final approval. Final approval of the thesis/project will not be granted if the paper copy and the Report on Completion of Degree form are not already completed and on file in the Office of Graduate Studies.

NOTE: These steps must be completed prior to the end of the day of the Graduate deadline, 12 working days prior to the commencement ceremony at the end of each semester.

Submission Instructions (http://www.unomaha.edu/graduate-studies/current-students/thesis-submit.php)

Doctoral Programs

Supervisory Committee

In order to assure that students are under careful advisement and mentoring throughout their careers, a Supervisory Committee must be established before a doctoral student begins the last 45 credit hours of their program of study. The supervisory committee is appointed by the Dean for Graduate Studies, based upon the recommendation of the Graduate Program Committee in the student’s major prior to the approval of the program of study. The establishment of a supervisory committee is based on the student’s demonstrated ability in the fundamental subject matter of his/her major field and professional promise.

The supervisory committee consists of at least four Graduate Faculty members, one of whom must be from outside the student’s academic department/school or area in which the doctorate is to be granted. The chair of the supervisory committee must be a member of the Graduate Faculty. In addition to the minimum requirement of four Graduate Faculty members, other eligible persons may be recommended by the Graduate Program Committee for appointment by the Dean to the supervisory committee, provided at least two-thirds of the membership of each committee is Graduate Faculty.

Changes to the Supervisory Committee

Any changes to the supervisory committee after initial approval must be submitted via a new Supervisory Committee form and submitted to the Office of Graduate Studies for approval by the Dean for Graduate Studies.

If the chair of a supervisory committee leaves the employ of the University, or retires, the Office of Graduate Studies must be notified immediately and a change in the supervisory committee must be made as follows:

- If the student has already achieved Candidacy, the former chair who has left the employ of the University may be permitted to continue as co-chair of the supervisory committee, with the agreement of the departmental/school Graduate Program Committee and the Dean for Graduate Studies. A second co-chair must be appointed who is a resident Graduate Faculty member.
- If the student has not yet achieved Candidacy, a new chair of the supervisory committee who is a resident Graduate Faculty member must be appointed immediately, with the agreement of the departmental/school Graduate Program Committee and the Dean for Graduate Studies.
- If a member of the supervisory committee other than the chair leaves the employ of the University, or retires, a replacement should normally
be appointed who is a resident Graduate Faculty member. In certain circumstances where a special and needed continuing expertise is involved and the staff member is willing to continue serving, he/she may continue as a member of the supervisory committee, with the approval of the departmental/school Graduate Program Committee and the Dean for Graduate Studies.

**Plan of Study**

Within the same semester of its appointment, the supervisory committee will meet to designate and subsequently file in the Office of Graduate Studies a complete plan of study, including any language or research tool requirements (if applicable), and the reading committee. The reading committee consists of two members from the supervisory committee, excluding the chair of the committee.

Generally, courses taken before admission to the doctoral program cannot be included in the Doctoral Requirements section of the program of study form. At least 45 hours of the student’s doctoral course work is to be completed after the approval of the program of study by the Dean for Graduate Studies. Any subsequent change in the program must be approved by the supervisory committee and the Dean for Graduate Studies.

The minimum amount of graduate credit for the PhD is 90 semester hours, including a dissertation. Some programs require more dissertation hours. Please refer to the degree requirements for your individual degree.

**Residency**

A residency requirement has been established for the purpose of ensuring that the doctoral program be reasonably compact, continuous, and coherent; and that a substantial portion be done at and under the close supervision of the university. The residency requirement is part of the student’s approved program.

In exceptional circumstances, where it is clear that the purpose of residency is being fulfilled but the formal conditions are not met, the student’s supervisory committee may, with the approval of the Dean for Graduate Studies, designate an alternative procedure for satisfying the residency requirement.

**Requirements for PhD in Biomedical Informatics, PhD in Criminology and Criminal Justice, PhD in Exercise Science, PhD in Gerontology, PhD in Information Technology, and PhD in Psychology**

- For a student beginning a doctoral program in the University of Nebraska system with a bachelor’s degree, the residency requirement for the PhD is 27 hours of graduate work within a consecutive 18-month period or less, with the further provision that 15 of these hours must be taken after receiving the master’s degree or equivalent.
- For a student who transfers to the University of Nebraska system with a master’s degree from another institution, or who takes a break in his/her graduate work between the time the master’s degree is awarded and the time he/she starts work on a doctoral program, the residency requirement for the PhD is 27 hours of graduate work in a consecutive 18-month period or less.
- For a member of the University staff who is engaged at least half-time in instruction or research in his/her major area, or a person employed in his/her major field, the residency requirement is 24 hours of graduate work within a consecutive two-year period with the further provision he/she takes at least 12 of these hours after receiving the master’s degree or its equivalent.
- Not more than one-third of the work for residency, or nine credit hours, may be taken during the summer sessions.

**Requirements for the PhD in Public Administration and EdD degree**

- The residency requirement for doctoral students in Educational Administration and Public Administration is 24 hours in 24 consecutive months. The supervisory committee may determine how many of the required residency hours may be taken during the summer sessions.

**Time Limit for Completion of Degree**

A minimum of three full years of graduate study is normally required to complete a program for the degrees Doctor of Philosophy and Doctor of Education. The time limit on granting the PhD or EdD degree is ten years from the beginning of the doctoral course work. Individual programs may have other deadlines for completion. Neither the courses taken nor the time spent in study determines the granting of the degree. It is given primarily for high attainment in some special field of scholarship and for demonstrated power of independent research in a subdivision of this field.

**Comprehensive Examination**

**PhD**

When a student has substantially completed studies in the program, he/she must pass a written comprehensive examination. The written comprehensive examination is not a repetition of course examinations; rather, it is an investigation of the student’s breadth of understanding of the field of knowledge of which his/her special subject is a part. The student will also be required to pass an oral comprehensive examination.

The supervisory committee arranges for written or oral examinations. As soon as possible after passing those examinations, the committee convenes and reports to the Office of Graduate Studies the results of those examinations and the specific area of research for the dissertation and progress to date by submitting the Application for Candidacy. Should the student fail the comprehensive examination or a part thereof, he or she may be allowed to re-take it during the following academic term upon specific recommendation by the supervisory committee.

**EdD**

When the applicant’s program of coursework is substantially completed, comprehensive examinations that cover the appropriate field of study and related subjects will be administered. These examinations will thoroughly test for an understanding of the field of knowledge designated by the student. If an applicant fails the comprehensive examination, another attempt to pass such examination may not be made in the same academic term.

**Admission to Candidacy**

When the doctoral student has passed the comprehensive examination, the supervisory committee will recommend to the Office of Graduate Studies his/her admission to Candidacy for the doctoral degree, noting in that recommendation the dates upon which the comprehensive examination was completed. This report must be filed at least seven months prior to the final oral examination. If the term of Candidacy is extended beyond three years (excluding summer terms), the Candidate must pass another comprehensive examination. Following admission to Candidacy, the student must register during each academic year semester until he/she receives the PhD or EdD degree. Students not in residence may register for a minimum of one semester credit in dissertation. Failure to register during each academic year semester will result in termination of Candidacy.

**Final Examination**

The final examination is oral. It is given by the supervisory committee after the Candidate’s studies have been completed and the dissertation has been accepted for examination. The committee also determines its character and length. The examination may be devoted to the special field of the dissertation or to the Candidate’s general knowledge, or it may be designed to test judgment and critical powers.

The final oral examination will not be scheduled unless the chair of the supervisory committee and at least two other members of the committee are available for the examination. Exceptions may be made only by permission of the Dean for Graduate Studies. In any event, the supervisor
and readers of the dissertation must have seen and approved the completed dissertation before the final oral examination will be scheduled.

The final oral examination over the dissertation may be waived only with the unanimous consent of the supervisory committee and only in extremely unusual circumstances. The committee reports the results of the final oral examination or the reason for its waiver to the Office of Graduate Studies by using the Report on Completion of Degree form.

In the event that members of an oral examining committee are not unanimous regarding the passing of a Candidate, the student is to be approved for the degree only if one examiner dissents. However, in each case, the dissenting member of the committee will be expected to file a letter of explanation to the Office of Graduate Studies.

Dissertation

The Doctoral Dissertation should make a creative contribution to knowledge in your field while also demonstrating mastery of relevant resources and methods. It is expected the dissertation will have a single topic, however broadly defined, and all parts of the dissertation will be interrelated. This, however, does not prevent sections of the dissertations from being discrete units.

The dissertation also should demonstrate your potential to make future, original contributions to knowledge, understanding, or methodologies in your discipline. For example, the originality of a dissertation may involve the discovery of significant new information or principles of organization, the achievement of a new synthesis, the development of new methods or theories, or the application of established methods to new materials or procedures.

Given the diverse nature of the fields in which dissertations are written and the wide variety of topics that are explored, it is impossible to designate an ideal length for the dissertation. A long dissertation is not necessarily better than a shorter one since the value and scale of the dissertation topic ultimately depends on the quality of its thought and the clarity of its exposition. Your dissertation supervisory committee will determine the appropriateness of these and other issues.

Grades for a doctoral dissertation are recorded on the permanent record after completion and approval by the department/school and the Office of Graduate Studies. Grades will be either "S" for satisfactory or "U" for unsatisfactory.

The dissertation is not considered to be a publication thus it may be published, in whole or in part, and either quoted or paraphrased, by giving appropriate credit to the relevant Department/School, the Graduate College, and the University of Nebraska at Omaha.

NOTE: The doctoral supervisory committee guides your progress toward the completion of the dissertation, but it is your responsibility to follow instructions on the preparation of the document and to observe filing deadlines.

Dissertation Submission Procedures

The Doctoral Supervisory Committee guides the student in the conduct and development of the dissertation and approves the final product. Typically, final recommendations from the supervisory committee, or Supervisory Committee Chair, are provided to the student at the time of the final oral examination, although details vary among department/schools and individual faculty. Final approval of the dissertation is contingent upon approval by the supervisory committee and the Office of Graduate Studies.

Procedures:
At least three weeks prior to the last published date for holding oral exams, bring the following to the Office of Graduate Studies:

- Application for Final Oral Examination or Waiver
- One copy of each of the Abstract and the Title Page of the dissertation.
  If the Final Oral Examination is waived, these documents must be presented to the Office of Graduate Studies at least three weeks prior to the last published date for holding oral examinations.

When the final dissertation has been approved by the supervisory committee, the student must submit hardcopies of the following to the Office of Graduate Studies for the final, administrative step in the approval process:

- One paper copy of the final Abstract and Title Page
- Report on Completion of Degree form, signed by supervisory committee
- Completed Survey of Earned Doctorates form.
- NOTE: Mac users should open the form in Adobe Acrobat and use the “save via email” link at the bottom.

NOTE: If the dissertation is to be held pending patent issuance, etc., the student must specify this at the time the PDF file is submitted to ProQuest.

After the documents are submitted to the Office of Graduate Studies, the student must upload their dissertation to ProQuest. Instructions for the upload at http://dissertations2.umi.com/unomaha/.

Be certain the electronic version, in PDF format is exactly as was approved by the Supervisory Committee. ETDs are to be checked for formatting, pagination, spelling, grammar, and typos by the student and the student’s Supervisory Committee.

For help with conversion of files from word processing to PDF, see the Library staff. Since errors may occur when converting from a word processor file to a PDF file, it is essential the student review the final version of the PDF file.

PLEASE NOTE: There maybe a fee to submit the dissertation through ProQuest. The amounts are noted on their website.

After successfully uploading the dissertation, The Office of Graduate Studies will be notified electronically by ProQuest of the submission and asked to provide final approval. Final approval of the dissertation will not be granted if steps 1-4 above are not completed.

Note: these steps must be completed prior to the end of the day of the Graduate Studies deadline which is 12 working days prior to the commencement ceremony.

Policies Governing Graduate Student Responsibilities

Quality of Work Standards
A "B" (3.0 on a 4.0 scale) average must be maintained in all graduate work taken as part of the degree or certificate program.

Automatic Dismissal
Graduate students are expected to do work of high caliber. Failure to do so will result in dismissal. In particular, the following will result in automatic dismissal from the degree or certificate program:

- Receiving a grade of "C-" (1.67 on a 4.0 scale) or below in any course taken in the student's major field of study or in any course included in the plan of study/program of study.
• Departments/schools may have additional and more stringent criteria for evaluating a student's performance and progress and may demand a higher level of performance than that demanded by the Graduate College. A department/school or program unit may, under some circumstances, recommend dismissal of a student from a graduate program even though quality of work standards have been maintained. Grounds for dismissal could include, but are not limited to:
  • Failure to be accepted by an appropriate thesis or dissertation adviser within stipulated time limitations;
  • Failure to make timely progress toward the degree or certificate; and
  • Failure to perform in course work, qualifying examination or research at an acceptable level in the respective department/school or program unit.

Probation or Dismissal
A department/school will recommend that the Dean of Graduate Studies either dismis a student or place him or her on probation (with conditions for reinstatement as a student in good standing), in the following cases:

• A Grade of "C+" (2.33 on a 4.0 scale) or below in any course involved in the first 12 hours of graduate study for provisionally admitted students;
• Receiving at least nine (9) hours of graduate credit with the grade of "C +" (2.33 on a 4.0 scale) or below in any courses taken in the student's major field of study or in any courses included in the plan of study for master's degrees, specialist's degrees or graduate certificates, regardless of the average;
• Receiving at least six (6) hours of graduate credit with the grade of "C +" (2.33 on a 4.0 scale) or below in any courses taken in the student's major field of study or in any courses included in the program of study for doctoral degrees, regardless of the average;
• Failure to maintain a "B" (3.0 on a 4.0 scale) average in all graduate work taken as part of the degree or certificate program.

Unclassified and Non-Degree Students
• For students with unclassified or non-degree admission, the above quality of work standards apply to course work taken, just as if all such courses were included in a graduate plan of study.
• A student will be automatically dismissed from all graduate standing or placed on probation should any of the above conditions occur.

Additional Requirements
Some departments/schools apply additional criteria for satisfactory performance beyond the requirements of the Graduate College.

Monitoring
• The Graduate Program Committees or the Supervisory Committees in their respective departments/schools shall be responsible for monitoring quality of work in degree, certificate and unclassified programs and for recommending action.
• The Office of Graduate Studies will send a report to each department/school at the start of each semester with the names of students who have received at least nine (9) hours of graduate credit with a grade of "C+" (2.33 on a 4.0 scale) or below as of the end of the previous semester.
• The Office of Graduate Studies will send a report to each department/school at the start of each semester with the names of doctoral students who have received at least six (6) hours of graduate credit with a grade of "C+" (2.33 on a 4.0 scale) or below as of the end of the previous semester.
• The Office of Graduate Studies shall be responsible for monitoring quality of work in non-degree programs.
• The Dean for Graduate Studies will make the final decision and notify graduate students of their status.

Student Responsibilities
• Students should be aware of the Quality of Work Standards of the Graduate College, as well as any additional criteria of satisfactory performance in their respective department/school programs.
• It is the student's responsibility to know when his or her previous course work has failed to meet those standards.
• Students who are attending classes are still subject to dismissal if their department/school recommends that action based on its review of their previous performance.

Automatic Dismissal for a Grade of "U" (Unsatisfactory) or "Fail"
A grade of "U" or "Fail" in any graduate course taken by a graduate student shall be treated the same as for a grade of "C-" or below and shall result in automatic dismissal from the graduate program.

The Plan of Study and Grades Which Result in Automatic Dismissal
Grades which result in automatic dismissal from a program (e.g., grade of "C-" or below, "U", "Fail") may not be applied towards a graduate plan of study.

Students Dismissed from a Graduate Program Who then Re-apply as Non-Degree Students
Students will be placed on stop enrollment for the department/school from which they were dismissed unless they request and receive permission in accordance with departmental/school graduate program policy to enroll as a non-degree student in that program.

Policy on Petitioning for Reinstatement into a Graduate Program
The process for petitioning and evaluating petitions for reinstatement into a graduate program is the responsibility of each department's/school's Graduate Program Committee. For a current copy of procedures, please contact your department/school Graduate Program Committee Chair.

Plagiarism
The prevention of plagiarism and the imposition of sanctions upon those who resort to plagiarism are necessary in any university that espouses the ideals embodied in the concept of academic freedom. Plagiarism is the appropriation of the work (be it ideas or words) of another without crediting the source. Such a practice is particularly reprehensible in a community dedicated to the pursuit and advancement of knowledge.

Plagiarism by Students
The investigation of allegations of plagiarism by a student or appeals therefrom, at any major administrative unit of the University of Nebraska, shall be carried out under the appropriate faculty-student appeals committee at that campus. Please refer to the General Appeals Procedures.

Appeals
Appeal of Grades in Graduate-Level Courses
An appeal of grades in graduate-level courses shall be made through the graduate student grade appeal procedures for the campus through which the grade was awarded. Students who believe their evaluation in a course has been prejudiced or capricious must first attempt to resolve the matter with the course instructor and then the department through which the course was offered.
Appeal of General Academic Matters Related to Student Programs

1. Graduate students holding admission with Unclassified status in the Graduate College, admission with a master’s objective or admission with a doctoral objective (but prior to the appointment of a doctoral supervisory committee) should appeal as follows:
   a. Initially, the appeal may be submitted to the student's advisor.
   b. If denied, the appeal may be submitted to the department/area Graduate Program Committee administratively responsible for the student's graduate program.
   c. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student's graduate program. Normally, this is the final appeals body (for exceptions, see the last part of this section).

2. Graduate students holding admission with a doctoral objective in the Graduate College and for whom a doctoral supervisory committee has been appointed should appeal as follows:
   a. Initially, the appeal should be submitted to the student's advisor.
   b. If denied, the appeal may be submitted to the student’s supervisory committee.
   c. If denied, the appeal may be submitted to the department/area Graduate Program Committee administratively responsible for the student's graduate program.
   d. If denied, an appeal may be made to the Graduate Council for the campus administratively responsible for the student's graduate program. Normally, this is the final appeals body (for exceptions, see the last part of this section).

3. When a student's graduate program consists of registrations essentially or entirely on one campus, the Graduate Council of the campus administratively responsible for the program will constitute the appeal board. When a student's graduate program includes substantial registrations on a campus other than the one administratively responsible for the program, three members of the Graduate Council for the other campus will be designated by the Dean for Graduate Studies on that campus to augment the Graduate Council on the campus administratively responsible for the program. In this case, the augmented Council will constitute the appeal board. The decision concerning augmentation of a campus Graduate Council for a specific appeal involving registrations on a campus other than the one administratively responsible for the student's program will be made by the Deans for Graduate Studies on the campuses involved.

4. In all cases, appeals should be made in writing to the appropriate advisor, committee or council. In those cases where the appeal concerns graduate-level qualifying exams, comprehensive exams or final oral exams, the following deadlines must be observed. It is the responsibility of the student to make reasonable efforts to ascertain the results of the examination within 30 days after its completion.

The initiation of the appeal, in writing, by the student must be filed within 30 days following the student's receipt of notification of the evaluation.

In those cases involving an appeal of termination of program, initiation of the appeal, in writing, by the student must be filed within 30 days following the student’s receipt of the official written notification by the Office of Graduate Studies.

There is no absolute right of appeal to the Executive Graduate Council. The Executive Graduate Council will accept appeals only in those cases where, in the exercise of its sole discretion, it shall first find that one or more of the following grounds for accepting the appeal exist:

That the campus Graduate Council has violated some element of fair procedure (example: has failed to allow the parties concerned to present their cases fully to their campus Graduate Council);

That the campus Graduate Council has failed to examine or give adequate weight to important evidence relevant to one party’s position;

That the campus Graduate Council has given undue weight to evidence not pertinent to the case; or

That some gross miscarriage of justice would be perpetrated if the decision of the campus Graduate Council is allowed to stand. A decision by the Executive Graduate Council not to accept jurisdiction of an appeal shall be final and is not subject to further appeal.

Appeals to the Executive Graduate Council must be made in writing and must specifically outline the grounds for appeal. Such appeals must be made within 20 working days of the day on which the decision of the campus council is received (working days shall not include those days the University is not in session).

The Executive Graduate Council must make a decision to hear the appeal or not to hear the appeal within 30 working days after receipt of the appeal. Acceptance or denial of jurisdiction over the appeal will be made in writing.

The decision of the Executive Graduate Council on the merits of the case will be made and transmitted to the concerned parties within 40 working days after the decision to hear the appeal.

No person who was a member of the department or campus graduate council involved in the case will be eligible to participate in the decisions of the Executive Graduate Council, either to decide whether the case should be heard or to decide the merits of the case. However, the Dean for Graduate Studies may replace members of the Executive Graduate Council not eligible for participation in the decision to hear the appeal or in the appeal itself.

Graduate Student Academic Appeal Policy

Introduction

This document outlines the UNO Graduate Council policies and procedures for student academic appeals in situations such as comprehensive exams, plagiarism, and reinstatements. For grade appeals, see the “Grade Appeal Policy at the Graduate College Level for Graduate-Level Courses.”
This document is divided into three sections:

1. Documentation from Student and Faculty Representative (or Department)
2. a description of the initial review of the appeal case by the Graduate Student Academic Appeals Committee; and
3. details of the operating guidelines for the UNO Graduate Council to follow in conducting a full appeal.

1.0 Documentation from Student and from Faculty Representative

1.1 Student Documentation

The student shall provide documentation that proves the student’s appeal. In addition to the documentation deemed relevant by the student to prove the student’s appeal and provided by the student, the student shall complete a single-page cover sheet for the appeal. That cover sheet shall be designed by the Graduate Dean and provided to the student. On that cover sheet, in less than 2,000 characters (i.e., including spaces), the student shall specifically identify in three separate paragraphs:

1. the procedural error(s) being appealed;
2. the substantive error(s) being appealed; and
3. the remedy requested.

The student’s appeal is not submitted until the Graduate Dean determines that the student’s cover sheet has been completed as required.

1.2 Faculty Representative Documentation

The Graduate Dean shall deliver the student’s section 1.1 cover sheet, along with other notice of the student’s appeal, to the decision maker whose decision is being appealed. The decision maker shall promptly notify the Graduate Dean of the decision maker’s appointment of a Faculty Representative.

Ordinarily the student’s appeal is necessarily limited to an appeal of the decision of a single decision maker (e.g., graduate program committee). However, if the student is appealing decisions of more than one decision maker, then there might be more than one Faculty Representative. The Faculty Representative of a committee may be, but is not necessarily, a member of that committee. If no such notice of appointment is delivered to the Graduate Dean, then the Faculty Representative of an individual decision maker shall be that individual, and for a committee the current chair of that committee.

The Faculty Representative shall provide documentation relevant to the student’s appeal as defined in the student’s section 1.1 cover sheet in a timely manner. After the student has submitted an appeal, and after the Faculty Representative has replied by providing relevant documentation, the Graduate Dean shall review that documentation for completeness. Prior to the Graduate Dean delivering that documentation to the Graduate Student Academic Appeals Committee, the Graduate Dean, in the interest of completeness, may request the Faculty Representative(s) to provide specific additional documentation that the Graduate Dean reasonably believes is readily available to the decision maker whose decision is being appealed.

2.0 Graduate Student Academic Appeals Committee

2.1 Function of the Committee

The Associate Vice Chancellor for Academic Affairs and Dean for Graduate Studies shall appoint a committee which will review student academic appeals that are filed in the Office of Graduate Studies. The task of the Graduate Student Academic Appeals Committee will be to determine whether the appeal merits a hearing by the Graduate Council.

2.2 Composition of the Committee

The Associate Vice Chancellor for Academic Affairs and Dean for Graduate Studies shall appoint two faculty members from each of the two standing committees of the Graduate Council, and one of the student representatives on the Graduate Council, to serve on the committee. The duration of appointment to the committee shall be for one year. (In cases where a student from the home department of one of the members of the committee has initiated an appeal, the Dean shall appoint a replacement for that committee member from the Graduate Council to hear that specific appeal. All other cases of potential conflict of interest shall be treated in a similar fashion).

2.3 Procedures for the Committee

The committee is charged with the responsibility of determining the merits of the student academic appeal, based on the letter of appeal and any other documentation requested and received by either the Dean of Graduate Studies or the Graduate Student Academic Appeals Committee. The committee shall vote on whether the appeal merits a hearing by the Graduate Council. Affirmative vote of the majority of the members is required to bring the appeal before the Graduate Council for a full hearing. The decision of the committee will be communicated to the Office of Graduate Studies for appropriate action.

3.0 UNO Graduate Council and Graduate Student Academic Appeals

3.1 Purpose and Limitation of Scope

The Graduate Council will hear only those appeals forwarded by the Graduate Student Academic Appeals Committee. The purpose of the hearing shall be to decide the merit of a student’s request for redress of the academic issue being appealed. The appealing student bears the burden of proof to prove: (1) by clear and convincing evidence that the faculty member’s decision being appealed was prejudicial or capricious; and (2) by the preponderance of the evidence that the Graduate Program Committee’s decision being appealed was prejudicial or capricious.

3.2 Composition of the Council for Hearing Student Appeals

The full membership of the Graduate Council (quorum required) shall hear academic appeals of graduate students.

3.3 Possible Conflicts of Interest by Graduate Council Members

Graduate Council members who feel a conflict of interest might result from their participation in an academic appeal hearing shall exercise the necessary professional steps to avoid influencing the vote of the Council.

3.4 Timeliness of Council Decision

The Graduate Council shall hear appeals forwarded by the Graduate Student Academic Appeals Committee at its next scheduled meeting unless a delay is approved.

3.5 Student and Faculty Freedom to Present Arguments

The student and the faculty representative shall have freedom to present their viewpoints, limited only to the requirement that facts and opinions presented shall pertain to the academic issue being appealed.

3.6 Guidelines for Hearing Procedures

The following shall be made known to persons present at the hearing:

The time: _________ The date: _________ The place: _________.

This hearing will be conducted in compliance with the UNO Graduate Student Academic Appeal Policy. The student, _______, has filed an appeal in conformity with the policies of the Graduate Council pertaining to the findings of a Graduate Program Committee. The Graduate Program
Committee or other designated committee consisted of Professor ________, Chair; and Professors ________ and ________ as members. That committee heard the appeal on ________ and denied the appeal. The student disagreed with the decision of the departmental appeals committee and continued the appeal process by submitting a letter detailing supporting reasons to the Dean for later consideration by the Graduate Student Academic Appeals Committee. That committee reviewed the student's request on ________ and, under conformity with its guidelines, has forwarded the student's appeal to the Graduate Council for action. The Graduate Council members present at this hearing have had an opportunity to review the documents provided by the person(s) involved. The agenda for the UNO Graduate Student Academic Appeal is:

Student's presentation: 10 minutes

Faculty Representative's presentation: 10 minutes

Council Members' questions to Student and Faculty Representative: up to 20 minutes

Student's concluding remarks: 5 minutes

Faculty Member's concluding remarks: 5 minutes

The participants of this appeal shall leave following the above hearing and the Council will deliberate the issue(s) involved. The Council's decision will be determined by secret ballot of those members who were present and voted. As soon as the votes are counted by the Associate Vice Chancellor for Academic Affairs and Dean for Graduate Studies, the ballots shall be destroyed and the final decision announced to the Council by the Dean. In no case shall the number of votes cast on either side of the issue be disclosed.

3.7 Administration of the Council's Decision:
The Associate Vice Chancellor for Academic Affairs and Dean for Graduate Studies shall provide the parties of an appeal a written statement of the Graduate Council's decision within three working days.

II. Course Grades that Are Eligible for Appeal

1. A grade appeal policy applies to final course grades. Course grades which result from alleged violations of the Code of Student Academic Integrity may also be appealed under this policy.

2. A course grade is deemed to have been assigned in an arbitrary or capricious manner if, by a preponderance of the evidence, a student establishes that:
   3. The course grade was based upon the student's age, color, creed, disability, gender, national origin, race, religion, sexual orientation, or other personal characteristic, or for some other arbitrary or personal reason unrelated to the instructor's exercise of his or her professional academic judgment in the evaluation of the academic performance of the student; or
   4. The course grade was assigned in a manner not consistent with the standards and procedures for evaluation established by the instructor, usually at the beginning of the course in the course outline, commonly called the course syllabus (a course outline is primarily the information provided by the instructor at the beginning of the course, and not necessarily the master syllabus generated by the department which may be applied to multiple offerings of a course in time or place), but supplemented on occasion during the semester in other written or oral communications directed to the class as a whole; or
   5. The course grade assigned by the instructor was the result of a clear and material mistake in calculating or recording grades. Individual elements (e.g., assignments, tests, activities, projects) which contribute to a course grade are generally NOT subject to appeal or subsequent review during a grade appeals procedure. However, individual elements may be appealed under these procedures providing the following conditions are met:
      a. The student presents compelling evidence that one or more individual elements were graded on arbitrary or capricious grounds (defined above);
      b. Grounds can be established for determining a professionally sound grade for the appealed element(s); and
      c. The ensuing grade for each appealed element would have resulted in a different course grade than that assigned by the faculty member.

III. Grade Appeal Procedures
Each department or program will establish its own grade appeal procedures. These procedures must:
1. Articulate and protect both the rights of students for fair and impartial evaluation of their academic performance and the responsibilities of faculty members as those who determine student grades.
2. Include timelines.
3. Be made readily available to all students.
4. Be documented in the Office of Graduate Studies.

**Academic Support Services**

**Orientation and Workshops**

As you begin your experience as a graduate student at UNO, we are here to support you along the way. This begins with a New Graduate Student Welcome in August and a variety of graduate student workshops offered throughout your time as a UNO graduate student. At the New Graduate Student Welcome, you will have the opportunity to learn about important campus resources, and meet graduate faculty and staff and other incoming graduate students in a variety of UNO graduate programs. Then, as you progress through your graduate program, you will have the opportunity to attend graduate workshops. In the 2016/17 school year, 21 workshops were offered eared toward topics important to graduate students, in partnership with the UNO Criss Library and UNO Writing Center.

**Graduate Student Conference Travel Support**

Graduate students who have been accepted to present at an academic conference are eligible to apply for travel awards. The maximum amount of an award is $500.00. Applications are reviewed at the beginning of the fall and spring semesters by the Dean for Graduate Studies. Funds are limited and applications are encouraged as soon as students are aware of their conference presentations. To apply, students must complete the Student Conference Travel Proposal Form that is available on our website at http://www.unomaha.edu/graduate-studies/_files/graduate-student-travel-proposal-form.pdf.

**Research Grants**

**Graduate Research and Creative Activity (GRCA)**

GRACA grants support faculty-mentored graduate student research and creative activity. For more information, please visit http://www.unomaha.edu/office-of-research-and-creative-activity/students/graco.php.

**Use of Human Subjects or Animals in Research**

All campus research that involves the use of human subjects or animals must be reviewed and approved by the Institutional Review Board or the Animal Research Committee, respectively. This policy applies to both funded and non-funded faculty and student research. Any individual research project that involves human subjects or animals must be approved by the appropriate committee prior to initiation of the research. For additional information, visit or contact the Office of Research and Creative Activity, Eppeley Administration Building 203.

**Speech Center**

The UNO Speech Center assists all UNO students, faculty, and staff in preparing oral presentations and/or incorporating them into their courses.

Speech Consulting Room provides consulting and coaching services for all UNO students, graduate students, faculty, and staff from all disciplines, assistance to faculty in support of Speaking Across the Curriculum effort at UNO and assessment documentation for the UNO oral communication general education requirement.

The Speech Center is located in Arts & Science Hall 183 & 185 or can be reached at 402-554-3201.

**Writing Center**

The Writing Center invites UNO student, faculty, and staff in all university divisions to work with a writing consultant on any university-related writing project. You may use this free service to work on your writing assignments, application essays, business letters or other projects. Our goal is to help you become an effective, independent writer; we will not edit papers for you; instead we will help you develop the ability to edit your own work.

Since graduate-level essays are often lengthy, you may reserve an hour-long appointment instead of the standard half hour. You may wish to work with one of our Graduate Consultants. To schedule an appointment, call the Writing Center at 402-554-2946 or visit them online at http://www.unomaha.edu/college-of-arts-and-sciences/writing-center/index.php

**Graduation and Commencement**

As students prepare to graduate from UNO, there are several things they should know. Please check with the Office of Graduate Studies for specific deadlines, and review the following information and checklist. Please be aware of all relevant deadlines.

UNO students have the opportunity to graduate in May, August, or December, and the choice of participating in one of two commencement ceremonies held annually in May and December. Students graduating in May are eligible to participate in the May commencement ceremony, while students graduating in August and December are eligible to participate in the December commencement ceremony. Participation in a commencement ceremony is not required in order to graduate from any degree program or receive a diploma.

Deadlines to apply for graduation are included in the academic calendar.

- Students must complete an Application for Degree during the semester in which they plan to graduate. Log onto mavlink and fill out the application on or before the deadline.
- There is a $35.00 Application for Degree Fee, payable at the time the application is submitted.
- After applying for the degree, students should visit the UNO Bookstore as soon as possible to order their caps and gowns and graduation announcements (if planning to participate in commencement). Deadlines to order various items will differ depending on the ceremony in which a student plans to participate. Please contact the Bookstore at (402) 554-2336 with any questions.
- Students have 15 working days after the commencement ceremony, (or 15 working days after the final day of the summer semester, in the case of August graduation) to complete all degree requirements in which they are currently enrolled for that semester. Diplomas will be mailed as soon as possible after the 15 working days have passed. Please be sure all holds are cleared and that the address listed on the degree application is correct, as this is the address to which diplomas are mailed.
- Please contact the Registrar's Office, (402) 554-2314, with any additional questions.

**Checklist for Graduation**

Apply for the degree through MavLINK on or before the deadline. Information can be found at http://www.unomaha.edu/Registrar/students/graduation-and-diplomas/graduation-general-information.php

ACCT 8026 ADVANCED ACCOUNTING INFORMATION SYSTEMS (3 credits)
Specialized issues in computerized accounting information systems.
Principal topics include advanced spreadsheet analysis, data capture and cleansing, database development and implementation, and the use of accounting information for business decisions. Emphasis is on reporting objectives, documentation, security, internal controls, and the evaluation and selection of software. (Cross-listed with ACCT 4020)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8036 TAX ISSUES FOR DECISION MAKING (3 credits)
An introduction to the basic taxation principles for the non-accountant. This course is designed to elevate the tax awareness of and to provide tax knowledge for future decision makers. (Cross-listed with ACCT 4030.)

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)
Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070.)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ACCT 8080 ADVANCED ACCOUNTING TOOLS & DATA ANALYTICS (3 credits)
This course will cover tools and methods that facilitate business analytic techniques, including database development and use, data mining, and information analysis for decision-making. A working understanding of spreadsheet software is assumed.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. Not open to non-degree students. MBA students must have successfully completed BSAD8110 or its equivalent.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)
This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.
Prerequisite(s)/Corequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.
ACCT 8210  **FINANCIAL ACCOUNTING THEORY** (3 credits)
The development of accounting, current accounting theory and present controversies and suggested theory and practice.
Prerequisite(s)/Corequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220  **GRADUATE TOPICS IN INCOME TAXATION** (3 credits)
This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230  **MANAGEMENT ACCOUNTING ISSUES** (3 credits)
An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8250  **SEMINAR IN ACCOUNTING** (3 credits)
A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260  **FEDERAL TAX RESEARCH AND PLANNING** (3 credits)
This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8280  **SEMINAR IN ACCOUNTING INFORMATION SYSTEMS** (3 credits)
This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8290  **ADVANCED FINANCIAL AUDITING** (3 credits)
This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8900  **INDEPENDENT STUDY** (3 credits)
Individual research supplementing graduate study in a specific area within the Accounting discipline. May be repeated to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Completed contract and permission needed from director of MAcc program.

ACCT 8910  **SPECIAL TOPICS IN ACCOUNTING** (3 credits)
A variable content course with accounting topics selected in accordance with student and faculty interest. May be repeated to a maximum of six (6) hours.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

**Anthropology (ANTH)**

ANTH 8206  **URBAN ANTHROPOLOGY** (3 credits)
The course is intended to examine the city from an anthropological point of view. Included will be an overview of its history and the processes by which cities are formed and grow as well as the internal structure and processes within the city. The course is intended to be comparative geographically and temporarily. Topics covered will include urbanization and cities in both the so-called "third-world" &quot;countries as well as in the developed, industrialized ones. Graduate students will be required to do a substantive term paper on a topic mutually acceptable to both the instructor and the student. In addition to the written work, the student will also be required to make an oral presentation in class of the research done and the major findings. (Cross-listed with ANTH 4200)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ANTH 8216  **CULTURAL ANTHROPOLOGY** (3 credits)
Arts, economics, family, kinship, politics, religion, subsistence, technology, war and world view approached as parts of an integrated whole, a way of life in human society. Illustrations will be drawn from a number of societies, anthropological theories and methods of study. (Cross-listed with ANTH 4210)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ANTH 8226  **NORTH AMERICAN ARCHAEOLOGY** (3 credits)
Utilizing the archaeological record, this course explores more than 20,000 years of Native American culture and lifeways in North America, from Paleo-Indian big game hunters to complex, agricultural societies. Within this broad context, a range of archaeological concepts, methods and theoretical perspectives central to American archaeology will be presented. (Cross-listed with ANTH 4220)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ANTH 8246  **MEDICAL ANTHROPOLOGY** (3 credits)
Medical anthropology is the cross-cultural study of human culture, health and illness. Using multiple theoretical perspectives, this course examines how cultural, social, environmental, and biological factors interact to produce patterns of health and illness in past and present human societies. (Cross-listed with ANTH 4240)
Prerequisite(s)/Corequisite(s): ANTH1050 and junior or senior standing; or permission of the instructor.

ANTH 8256  **ENVIRONMENTAL ANTHROPOLOGY AND NATIVE PEOPLES OF THE GREAT PLAINS** (3 credits)
Environmental anthropology seeks to understand the interrelationships between human societies and their biophysical and social environments. This course introduces students to basic concepts and theories used by anthropologists to study environmental influences upon both past and present Native American societies on the North American Great Plains. Particular attention will be given to the rapid and dramatic environmental changes that continue to challenge Native Americans in the Great Plains today. (Cross-listed with ANTH 4250)

ANTH 8526  **PSYCHOLINGUISTICS** (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with ANTH 4520)

ANTH 8926  **SEMINAR IN ANTHROPOLOGICAL PROBLEMS** (3 credits)
Seminar will cover a specific topic which will be announced each time the course is offered. The students will work with the instructor on projects designed to increase the student's depth of knowledge in specific areas. (Cross-listed with ANTH 4920)
Prerequisite(s)/Corequisite(s): Permission of instructor.
**ANTH 8980 INDEPENDENT STUDY IN ANTHROPOLOGY (1-3 credits)**
This course is guided reading or independent research in special topics in Anthropology under the supervision of a member of the Anthropology faculty. This course is designed primarily for the student interested in topics not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated once for credit.

**Prerequisite(s)/Corequisite(s):** Permission of the instructor. Not open to non-degree graduate students.

---

**Architectural Engineering (AE)**

**AE 8000 ARCHITECTURAL ENGINEERING GRADUATE SEMINAR (1 credit)**

Literature Review, reading and evaluation of technical publications concerned with theory and/or experimental data in various areas of Architectural Engineering, attendance at Architectural Engineering Graduate Project and Team Design presentations, preparation of the Master of Architectural Engineering graduate project proposal, assignments related to improving written and oral communication skills.

**AE 8010 GRADUATE DESIGN PROJECT I (3 credits)**

Requires a professionally written report and oral presentation that demonstrates both mastery of the subject and a high level of writing and oral communication skills. Perform a detailed investigation in the option area of the master of architectural engineering degree. Students are permitted to enroll in this course twice. Those who fail to earn a passing grade after enrolling in this course a second time will be referred to the AE Graduate Committee, and may result in termination of their program of graduate studies.

**Prerequisite(s)/Corequisite(s):** AE 8000, and AE 4010 or AE 4020 or CIVE 314, and permission. Not open to non-degree graduate students.

**AE 8020 GRADUATE DESIGN PROJECT II (1 credit)**

Second of two-course capstone design project for the MAE degree. Requires a professionally written report and oral presentation that demonstrates both mastery of the subject and a high level of writing and oral communication skills.

**Prerequisite(s)/Corequisite(s):** AE 8010 and permission. Not open to non-degree graduate students.

**AE 8030 INTERDISCIPLINARY TEAM DESIGN PROJECT I (4 credits)**

This course is the first semester of the capstone design sequence in architectural engineering. Develop and design the electrical, lighting, mechanical, and structural systems for a building, from programming through design development phase, as an interdisciplinary team effort.

**Prerequisite(s)/Corequisite(s):** (Acoustics/Mechanical option) AE 4150 and AE 4300 or; (Electrical/Lighting option) AE 4250 and AE 8220 or; (Structural option) CIVE 444. Not open to nondegree graduate students.

**AE 8040 INTERDISCIPLINARY TEAM DESIGN 2 (3 credits)**

Is the second semester of the capstone design sequence in architectural engineering. Develop and design the electrical, lighting, mechanical, and structural systems for a building, from the design development phase through construction documents, as an interdisciplinary team effort. This course is intended to be taken the semester following AE 8030.

**Prerequisite(s)/Corequisite(s):** AE 8030. Not open to non-degree graduate students.

**AE 8050 INTERNSHIP IN ARCHITECTURAL ENGINEERING (3 credits)**

This course requires participation in a full time summer internship associated with an Architectural Engineering related entity. The course includes weekly assignments and a final presentation designed to create interaction between the AE entity and the intern associated with the business side of the entity. General topics include Business Plans, Marketing, Finance and Budgets, Contacts, Legal issues and professionalism.

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**AE 8060 ARCHITECTURAL ENGINEERING PROFESSIONAL PRACTICE I (3 credits)**

Investigation of issues related to the integration of building design processes with professional architectural engineering practice. Aspects of building design project finance, budgets, contracts, legal issues, professional licensure, and professional responsibility. The perspective of life-cycle costing. Professional ethics will be thoroughly integrated with all course topics.

**Prerequisite(s)/Corequisite(s):** ISMG 2060 and ORTH 2060.

**AE 8070 ARCH ENGR PROFESSIONAL PRAC II (3 credits)**

Continuation of investigation of issues related to the integration of building design processes with professional architectural engineering design practice. Building design specifications, estimating, bidding, building construction contract negotiations, building design project management, project team personnel management, project risk, and key regulatory measures.

**Prerequisite(s)/Corequisite(s):** ISMG 2060 and AE 8060

**AE 8080 APPLIED EXPERIMENTAL DESIGN AND STATISTICAL ANALYSIS (3 credits)**

Overview of advanced experimental design methods and statistical analysis techniques. Application of these to the planning, execution, analysis, and description of research in architectural engineering.

**Prerequisite(s)/Corequisite(s):** STAT 3800

**AE 8090 SUSTAINABLE BUILDING DESIGN (3 credits)**

Integrates building design with the principles of minimum resource use, energy conservation, and healthy indoor environments.

**Prerequisite(s)/Corequisite(s):** CIVE 341 and (AE 3100 or AE 8410). Not open to non-degree graduate students.

**AE 8110 INDOOR AIR QUALITY ENGINEERING (3 credits)**

Indoor air quality, codes, standards, HVAC equipment, commissioning, operation, maintenance, investigation, and remediation.

**Prerequisite(s)/Corequisite(s):** AE 3100

**AE 8120 BUILDING CONTROL & AUTO SYS (3 credits)**

Fundamental concepts of building control theory and automation. Building control: state-variable plant and closed-loop system representation, time and frequency response, stability, root-locus methods and design of building control systems. Automation: thermostats, dampers, valves, direct digital control, control of air handling units, terminal units, primary building systems, supervisory control and system optimization, communication systems, BACnet, and DDC system design and implementation.

**AE 8140 SPECIAL TOPICS IN ARCHITECTURAL ENGINEERING - BUILDING ENERGY III (3 credits)**

Advanced Analysis, Modeling, Dynamics and Optimization of Building Energy Systems. Be familiar with Engineering Equation Solver (EES) Programming; Be able to build models for Air Handling Unit Systems and Vapor Compression Cycle Equipment; Be able to analyze building operating efficiency and identify faulty operating conditions; Be able to conduct retrofit energy efficiency analysis and feasibility study.

**Prerequisite(s)/Corequisite(s):** MENG 3000, MENG 4200, AE 3100, AE 4120, or permission.
AE 8150 BUILDING ENERGY SIMULATION AND PERFORMANCE CONTRACTING (3 credits)
Integrated approach to deliver energy improvement retrofit projects that provide economical and ecological benefits. Proficiency in EnergyPlus or DOE-2 and in retrofit cost estimation will be attained and integrated into an engineering economic analysis. Partnering configurations, contracts, financing, and measurement and verification. Concepts applied to a practical class project.

AE 8170 THRY & APPL THERM SYS MEAS (3 credits)
Analysis, theory, and methods of instrumentation for thermal system energy consumption measurement and scientific research testing. Emphasis placed on sensors, transducers, and error analysis.
Prerequisite(s)/Corequisite(s): STAT8805

AE 8180 INDOOR AIR QUALITY DESIGN (3 credits)
Engineering approach to indoor air quality design. Topics include modeling and calculation methods to predict and design for acceptable indoor air quality.
Prerequisite(s)/Corequisite(s): AE 3120 and (AE 4110 or AE 8116)

AE 8206 LIGHTING II: THEORY, DES & APP (3 credits)
Design and analysis of lighting systems; the emphasis is on the integration between the lighting design process and the technical foundations for building lighting; topics include design criteria; lighting design procedures, lighting modes and subjective effects; calculation tools. Lab sessions include photometric measurements and computer applications. (Cross-listed with AE 4200)
Prerequisite(s)/Corequisite(s): AE 3200

AE 8210 LIGHTING III: ADV DESIGN PRACT (3 credits)
Design and analysis of lighting for outdoor sports, floodlighting and interior applications; economic analysis; modeling algorithms; advanced photometrics.
Prerequisite(s)/Corequisite(s): AE 8206.

AE 8220 ELECTRICAL SYS FOR BLDGS II (3 credits)
Power systems analysis and design, integration of electrical system components into functional, safe, and reliable power distribution systems for commercial and industrial facilities. Per Unit Analysis, Fault Analysis, Power Quality, Grounding, Overcurrent Protection Coordination, Complete power system design.
Prerequisite(s)/Corequisite(s): AE 3220

AE 8230 LIGHT SOURCES (3 credits)
Fundamental science and principles of light generation in modern electric light sources; characteristics that influence applications of light sources.
Prerequisite(s)/Corequisite(s): AE 8206.

AE 8240 LIGHTING METRICS (3 credits)
Use of natural light in building design. Solar position, sky luminance, distribution models, daylighting equipment, calculation methods, and psychological concepts. Extensive use of computer modeling and scale models.
Prerequisite(s)/Corequisite(s): AE 8206.

AE 8250 DAYLIGHTING (3 credits)
Integration of voice, data and video systems into overall building design. Topics include: scalability, wireless systems; interference; project management; current industry standards and protocols.
Prerequisite(s)/Corequisite(s): AE 3220. Not open to non-degree graduate students.

AE 8306 ADVANCED NOISE CONTROL (3 credits)
Characterization of acoustic sources; use and measurement of sound power and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control. (Cross-listed with AE 4300)
Prerequisite(s)/Corequisite(s): AE 3300

AE 8330 ADV ARCHITECTURAL ACOUSTICS (3 credits)
Advanced study of the behavior of sound in rooms. Design of acoustical spaces; physical and computational modeling; measurement techniques; and introduction to sound reinforcement in rooms.
Prerequisite(s)/Corequisite(s): AE 3300

AE 8350 ELECTROACOUSTICS (3 credits)
Electrical/mechanical-acoustical circuit analogies; transducers, loudspeakers, microphones, and accelerometers; directivity; calibration techniques; and sound reinforcement systems in rooms.

AE 8510 MASONRY AND TIMBER DESIGN (3 credits)
Masonry as a structural material, unreinforced masonry design, reinforced masonry design, state-of-the-art assessment methods for existing masonry structures, timber as a structural material, timber design.
Prerequisite(s)/Corequisite(s): CIVE 440 and CIVE 441 or equivalents

AE 8800 GRADUATE SEMINAR IN ARCHITECTURAL ENGINEERING AND CONSTRUCTION (1 credit)
The objectives of this course are to broaden student knowledge on engineering topics, improve presentation and professional skills, as well as learn about professional development resources available on campus. To pass the course, a student must attend a minimum of 15 Durham School Graduate Student Seminars, MAE project presentations, and/or MS/PhD thesis presentations in the College of Engineering. The student must also present one seminar within the Durham School Graduate Student Seminar series, prior to the final oral examination. All MS and PhD graduate students in architectural engineering must enroll within their first 3 semesters of matriculation.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

AE 8920 INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING (1-3 credits)
Individual instruction in Architectural Engineering at the graduate level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 8940 SPECIAL TOPICS IN AE (3 credits)
Special topics in Architectural Engineering at the graduate level that are not yet covered in other courses in the Architectural Engineering curriculum.

AE 8950 INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING (1-3 credits)
Individual instruction in Architectural Engineering at the graduate level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AE 8990 MASTER’S THESIS (1-10 credits)
Masters Thesis.
Prerequisite(s)/Corequisite(s): Admission to Architectural Engineering masters degree program and permission of major advisor. Not open to nondegree students.

AE 9160 BUILDING ENERGY SYSTEMS MODELING, CONTROL, AND OPTIMIZATION (3 credits)
Modeling, control and optimization of the secondary building energy systems; building envelope, room comfort zones, air handling units, cooling and heating water loops.
Prerequisite(s)/Corequisite(s): AE 4100 or AE 8120

AE 9180 COMPUTATIONAL FLUID DYNAMICS MODELING OF INDOOR ENVIRONMENTS (3 credits)
Application of computational fluid dynamics software to modeling of indoor environments. Topics include turbulence modeling, boundary conditions, natural and forced convection flows, species transport, and fire modeling.
Prerequisite(s)/Corequisite(s): AE 4110 or AE 8116
AE 9200 COLOR THEORY (3 credits)
Theories of color vision; theoretical and mathematical basis for chromaticity, color temperature, color rendering metrics, color matching functions, and color spaces; spectral weighting functions; measurement of color.
Prerequisite(s)/Corequisite(s): AE 4200 or AE 8206

AE 9210 CURRENT RES IN ILLUMINATING ENG (3 credits)
Examination of the most current research in illuminating engineering. Study of experimental methodologies and research practices. Analysis of technical papers from current lighting journals.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of instructor.

AE 9220 BEHAVIORAL SCIENCES FOR LIGHTING RESEARCH (3 credits)
Overview of experimental design methods and statistical analysis techniques, specifically as these are applied to the planning, execution, analysis and description of lighting experiments.

AE 9300 CURRENT TPCS IN ARCH ACOUSTICS (3 credits)
A review of current topics in architectural acoustics. Subjects may include objective versus subjective measures in performance spaces, electronic enhancement of rooms, advanced computational modeling techniques, and auralization.
Prerequisite(s)/Corequisite(s): AE 8330

AE 9970 RESEARCH OTHER THAN THESIS (1-6 credits)
Supervised non-thesis research and independent study.

AE 9980 SPECIAL TOPICS (1-3 credits)
Advanced topics in architectural engineering not covered in other 9000 level courses.

AE 9990 DOCTORAL DISSERTATION (1-24 credits)
(1-24 credits, max 55)
Prerequisite(s)/Corequisite(s): Admission to doctorate degree program and permission of supervisory committee chair

Art (ART)

ART 8006 SPECIAL SEMINARS IN ART EDUCATION (1-3 credits)
A series of intensive courses in the history and theory of art education designed specifically for elementary and secondary school art teachers. These courses are scheduled as special seminars or workshops according to purpose. (Cross-listed with ART 4000)

ART 8310 GRADUATE SCULPTURE (3 credits)
Advanced problems in sculptural media.
Prerequisite(s)/Corequisite(s): ART 8316. Lab fee required.

ART 8316 ADVANCED SCULPTURE (3 credits)
Advanced work in area of student's choice with facilities for oxyacetylene welding, arc welding and wood working. Lab fee required. (Cross-listed with ART 4310)
Prerequisite(s)/Corequisite(s): For 8316, ART 3310 and permission of instructor.

ART 8416 ADVANCED PAINTING (3 credits)
Advanced instruction in oil painting permits students the time and environment to work and develop individually. Emphasis on developing cohesive body of work as continuation from work done in Intermediate painting. Knowledge of contemporary painting integral to painting practice. Lab fee required. (Cross-listed with ART 4410)
Prerequisite(s)/Corequisite(s): ART 3420

ART 8510 SPECIAL PROCESSES IN PRINTMAKING (3 credits)
Advanced problems in printmaking stressing special processes in lithography, intaglio and collograph. Strong emphasis on image and content development.
Prerequisite(s)/Corequisite(s): ART 4510 and permission. Lab fee required.

ART 8516 ADVANCED TECHNIQUES IN PRINTMAKING (3 credits)
This course allows students to develop their skills in both lithography and intaglio and the color processes for each printmaking technique. Lab fee required. (Cross-listed with ART 4510)
Prerequisite(s)/Corequisite(s): ART 3510.

ART 8616 ADVANCED CERAMICS (3 credits)
This course will consist of advanced work on the potter's wheel, casting and preparations in glaze composition, as well as loading and firing of a high-fire kiln. Lab fee required. (Cross-listed with ART 4610)
Prerequisite(s)/Corequisite(s): ART 3610.

ART 8706 CROSS-CULTURAL ART HISTORY FOR TEACHERS (3 credits)
An exploration of the arts of five cultures: Pre-Columbian, Native American, African, Asian, and European. A comparative approach will be taken to allow students to explore the reasons for making art and its relationship to the religion, politics and everyday life of the cultures. The influence of these cultures on contemporary American art also will be explored. (Cross-listed with ART 4700)

ART 8736 CLASSICAL ART HISTORY (3 credits)
A study of painting, sculpture, architecture and minor arts of the classical world beginning with Cycladic art and including Minoan, Mycenaean, Greek, Etruscan and Roman art through 300 A.D. Lab fee required. (Cross-listed with ART 4730)

ART 8756 LATE ROMAN AND BYZANTINE ART HISTORY (3 credits)
A study of painting, sculpture and architecture of the Eastern Roman Empire from the founding of Constantinople, and of Western Europe from the time of Constantine to the dissolution of the Western Roman Empire. Lab fee required. (Cross-listed with ART 4750)

ART 8836 ITALIAN RENAISSANCE ART HISTORY (3 credits)
A study of painting, sculpture and architecture in Italy during the 14th, 15th and 16th centuries. Lab fee required. (Cross-listed with ART 4830)

ART 8856 BAROQUE AND ROCOCO ART HISTORY (3 credits)
This course is a study of painting, sculpture and architecture in Europe during the 17th and 18th centuries. Lab fee required. (Cross-listed with ART 4850)

ART 8876 NORTH AMERICAN ART (3 credits)
The study of art, architecture, and material culture produced in the United States before 1913 approached through varied contexts (artistic, religious, political, economic, etc.) and methodologies. (Cross-listed with ART 4870)

ART 8886 MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920) (3 credits)
A study of the most significant developments in European art and architecture dating from the early Modern period and examined in varied contexts (artistic, religious, political, economic, etc.). (Cross-listed with ART 4880)

ART 8896 MODERN ART II (ART OF EUROPE AND THE AMERICAS, 1918-1968) (3 credits)
This course explores the major artistic movements and artists active in Europe and the Americas between the end of WWI and the Vietnam Era circa 1968. (Cross-listed with ART 4890)

ART 8906 CONTEMPORARY ART HISTORY SINCE 1968 (3 credits)
This course introduces contemporary visual arts in a global context from 1968 to the present with topics of discussion including art, aesthetics, politics, gender and sexuality, race and economics. (Cross-listed with ART 4900)

ART 8910 INDEPENDENT STUDY IN ART HISTORY (1-3 credits)
Independent research under the direct supervision of the sponsoring faculty member, generally involving the writing of a paper. The topic of the research and the expectations for credit should be jointly agreed upon in writing by the student and the faculty member at the beginning of the semester.
Prerequisite(s)/Corequisite(s): Permission of instructor.
ART 8930 SPECIAL TOPICS IN ART HISTORY (3 credits)
An illustrated lecture course dealing with a limited topic in art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.
Prerequisite(s)/Corequisite(s): To be determined by the instructor, based upon the preparation required for an adequate understanding of the material of the course

ART 8936 SPECIAL TOPICS IN ART HISTORY (3 credits)
These illustrated lecture courses deal with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip. Lab fee required. (Cross-listed with ART 4930)
Prerequisite(s)/Corequisite(s): ART 2060 or instructor permission.

Aviation (AVN)

AVN 8020 AVIATION MANAGEMENT AND POLICY (3 credits)
The purpose of the course is to acquaint students with advanced concepts of aviation administration and the implementation of aviation policy within the public sector and to identify key concepts and critical issues both domestic and international. The primary focus is to explore the various affects that have resulted from the formation and enactment of major aviation and transportation regulatory issues. (Cross-listed with PA 8020).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

AVN 8030 INTERNSHIP IN AVIATION ADMINISTRATION (1-6 credits)
A maximum of 6 hours to be granted upon completion of written report on internship. The internship will be in some area of aviation administration: national, state, local or non-profit agency and in some instances public-oriented private agencies. Students will take the course as Credit/No Credit. May be taken for a maximum of 6 hours of credit.
Prerequisite(s)/Corequisite(s): Permission of aviation graduate program coordinator.

AVN 8040 INTERN IN AVN ADMIN (1-6 credits)
A maximum of 6 hours to be granted upon completion of written report on internship. The internship will be in some area of aviation administration: national, state, local or non-profit agency and in some instances public-oriented private agencies. Students will take the course as Credit/No Credit. May be taken for a maximum of 6 hours of credit.
Prerequisite(s)/Corequisite(s): Permission of aviation graduate program coordinator.

AVN 8060 TRANSPORTATION SECURITY (3 credits)
This course explores contemporary issues in transportation by applying lessons learned from the historical development of national and international transportation security in the post 9/11 world. Topics include the influences of crime and terrorism on the conduct of transportation operations; the role of government in the formulation of transportation security policies, procedures, and practices; the study of individual airport, seaport, rail, and highway security systems; and contemporary passenger and cargo screening issues. Strategies and efforts to counter current and emerging threats will also be examined.
Prerequisite(s)/Corequisite(s): PA 8050, PA 8100, PA 8090 (May be taken concurrently with AVN 8045)

AVN 8070 CASE RESEARCH (3 credits)
The purpose of this course is to introduce the student to key concepts through the casewriting method of interactive learning. Issues within the public sector will be explored. The casewriting experience integrates key issues and concepts. This opportunity allows the student to explore specific topical areas through the case research method. (Cross-listed with PA 8070)

AVN 8086 AIRPORT SAFETY AND SECURITY (3 credits)
This course will explore the role of airports in relation to safety and security. Topics will include regulations, responsibilities, security issues, ramp safety, disaster preparedness, and emergency management. (Cross-listed with AVN 4080)
Prerequisite(s)/Corequisite(s): AVN 1000 or its equivalent or permission of the instructor.

AVN 8095 AIRPORT ADMINISTRATION AND PLANNING (3 credits)
The course covers the principles of airport master planning. Fundamental principles of airport layout and design include runway configuration, airside/landside technology, passenger and cargo terminal. Capacity and delay effects will be emphasized. (Cross-listed with AVN 3090).

AVN 8100 ADVANCED MANAGEMENT AND LEADERSHIP FOR PUBLIC AND NONPROFIT PROFESSIONALS (3 credits)
This course is designed to advance students' understanding and techniques about the role of leadership and ethics in the public and nonprofit sectors. Special attention will be paid on the application of theories of leadership and ethics to manage various boundary spanning activities including managing external relationships, collaborations/networks, performance, and innovation and change. (Cross-listed with PA 8100)
Prerequisite(s)/Corequisite(s): PA 8050 and PA 8090. Not open to non-degree graduate students.

AVN 8106 MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with AVN 4100)
Prerequisite(s)/Corequisite(s): Graduate and permission of instructor, and PA 8010, PA 8090.

AVN 8120 ANALYSIS AND DECISION MAKING (3 credits)
This course assists students to develop their skills in research design and data analysis, covering both qualitative and quantitative data relevant to public affairs. The course introduces students to the fundamentals of research design, data collection, data and statistical analysis, and drawing pertinent policy and management recommendations. (Cross-listed with PA 8120).
Prerequisite(s)/Corequisite(s): Not open to non-degree Graduate Students.

AVN 8155 AVIATION LAW (3 credits)
This course will increase the student's knowledge of aviation law. Particular attention will focus on the manner in which legal forces affect the aviation system. (Cross-listed with AVN 3150).
Prerequisite(s)/Corequisite(s): AVN 1000 or equivalent or instructor permission.

AVN 8220 AIRPORT ADMINISTRATION (3 credits)
AVN 8220 provides an extensive overview of the responsibilities associated with the operation and administration of public airports. Federal policies and regulations, contemporary and emerging management issues, and accepted practices related to the operation and management of commercial service and general aviation airports as an integral component of the national and international transportation system will be examined.

AVN 8255 AVIATION MAINTENANCE ADMINISTRATION (3 credits)
This course is designed to introduce the student to the basic concepts related to managing an aviation maintenance facility. Topics to be covered include regulatory requirements, responsibilities, procedures, applications of maintenance concepts, professional development, safety, and current issues related to the field of maintenance management. (Cross-listed with AVN 3250).
Prerequisite(s)/Corequisite(s): AVN 8020.
AVN 8360 TRANSPORTATION SAFETY (3 credits)
Safety is a fundamental concern in any transportation mode and a required competency for individuals working in any transportation or public works field. This course provides a thorough overview of the development and maintenance of safety policies and procedures for transportation activities. The federal Safety Management System (SMS) process including Quality Management Strategies using safety risk management (hazard identification, risk assessment and control) serves as the foundation for understanding the need to implement a safety culture stressing proactive vs. reactive transportation safety program development and management. Predictive tools and methods such as Gap Analysis (GA), Fault Tree Analysis (FTA), and data sharing approaches are explored. Environmental Protection and Occupational Health and Safety policy and programs affecting transportation mode safety are also examined.
Prerequisite(s)/Corequisite(s): PA 8050

AVN 8370 AIRPORT DEVELOPMENT (3 credits)
AVN 8370 focuses on the planning process and applied design criteria associated with the development of public airports. Federal, state and regional systems, and specific airport master planning initiatives will be examined. Application of airport design standards and recommendations for the development of appropriate navigable airspace, airfield facilities, passenger terminals, and other components of the airport’s physical plant will be covered.
Prerequisite(s)/Corequisite(s): AVN 8250.

AVN 8480 SEMINAR IN PUBLIC FINANCIAL ADMINISTRATION (3 credits)
The study of public finance administration policy and technique areas. Emphasis is placed on the technical aspects of public finance administration with particular emphasis on the purposes, processes, and issues associated with particular techniques or technique areas. (Cross-listed with PA 8480).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of department.

AVN 8510 AEROSPACE EDUCATION WORKSHOP (3 credits)
This course will focus on aviation and space education and its impact on society. It will seek to communicate knowledge, impart skill, and develop attitudes relative to the scientific, engineering and technical as well as the social, economic and political aspects of aviation and space flight efforts. (Cross-listed with TED 8510, STEM 8510)
Prerequisite(s)/Corequisite(s): Graduate standing.

AVN 8605 INTERNATIONAL AVIATION (3 credits)
This course examines global air transport and its impact on the development of the global economy. Lectures and readings will provide a solid foundation of historical knowledge about international air transport and its development in various countries, before exploring current policy debates about liberalization, global alliances, and other critical issues. (Cross-listed with AVN 3600).
Prerequisite(s)/Corequisite(s): AVN 8020 or permission of the instructor.

AVN 8626 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carryer airports. Land-side components include vehicle ground access systems, vehicle circulation, parking and terminal buildings. Air-side components include airport apron-gate area, taxiway system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with AVN 4620)
Prerequisite(s)/Corequisite(s): CIVE 361 or permission from instructor.

AVN 8750 TRANSPORTATION FINANCE (3 credits)
This course focuses on the financial administration of public transportation facilities with a strong emphasis on commercial service airports. Areas of emphasis include: fiscal and managerial accounting strategies, capital development financing, revenue and cost centers, the economic impact of airports, airport performance measures. Current trends and issues associated with transportation finance are discussed.
Prerequisite(s)/Corequisite(s): PA 8010 and AVN 8020

AVN 8896 CRITICAL ISSUES IN AVN ADMIN (3 credits)
A study of timely as well as timeless issues in aviation. Topics will cover dynamic critical issues in the field of aviation. These issues emphasize recent and significant changes and evolutionary developments found in various components of the aviation industry. Students will need access to and a working knowledge of the World Wide Web. (Cross-listed with AVN 4890, PA 4890, PA 8896)

AVN 8906 SPECIAL TOPICS IN AVIATION (1-3 credits)
This course will address various topics in the Aviation Industry, determined each time the course is offered. Possible topics include international aviation, current issues and regulatory agencies within the industry, along with other topics. (Cross-listed with AVN 4900)

AVN 8920 READINGS IN AVIATION ADMINISTRATION (1-3 credits)
Specially planned readings in public administration for the graduate student who encounters scheduling problems in the completion of his degree program, or who has special preparatory needs and who is adjudged by the department to be capable of pursuing a highly independent course of study.
Prerequisite(s)/Corequisite(s): Eighteen hours in the MPA program or permission of graduate program committee.

AVN 8940 RESEARCH IN AVIATION ADMINISTRATION (1-3 credits)
The course is intended for advanced graduate students in public administration. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of public administration rather than additional classroom courses.
Prerequisite(s)/Corequisite(s): Twenty-one hours in the MPA program or permission of the graduate program committee.

AVN 8980 THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and members of the graduate student’s Thesis Advisory Committee. In this project, the student will develop and perfect a number of skills including the ability to design, conduct, analyze, and report the results in writing (i.e., thesis) of an original, independent scientific investigation. The project plan must be approved by the student’s Thesis Advisory Committee. (Cross-listed with PA 8980)
Prerequisite(s)/Corequisite(s): Graduate major in Public Administration and approval of Thesis Advisory Committee.

AVN 8996 AIR TRANSPORTATION (3 credits)
This course fulfills the Aviation Institute capstone projects for undergraduates. Lectures and readings will cover contemporary issues and problems in air transportation, as well as material related to research design and implementation. (Cross-listed with AVN 4990).

AVN 9900 ADVANCED TOPICS (3 credits)
This course provides a format for exploration of topics of interest to advanced students in public administration. Topics covered will change periodically in keeping with the interests of faculty and students. (Cross-listed with PA 9900)
Prerequisite(s)/Corequisite(s): Admission to PhD program in Public administration or permission of instructor.

AVN 9970 DIRECTED RESEARCH IN PUBLIC ADMINISTRATION (1-6 credits)
This course offers a structure for doctoral students to conduct advanced research in their chosen area of specialization. (Cross-listed with PA 9970).
Prerequisite(s)/Corequisite(s): Admission to Ph.D. program in public administration and permission of instructor.

AVN 9980 DIRECTED READINGS IN PUBLIC ADMINISTRATION (1-6 credits)
This course is designed to provide the advanced graduate student with the opportunity to do extended readings on a specialized public administration topic. (Cross-listed with PA 9980).
Prerequisite(s)/Corequisite(s): Admission to Ph.D. program in public administration and permission.
Bioinformatics (BIOL)

BIOL 8850 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)
This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOL 8850 designation will focus on evolving subject areas in bioinformatics.
Prerequisite(s)/Corequisite(s): Course prerequisites of a specific offering of BIOL 8850 will be determined by the supervising faculty member and will be identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required.

Biology (BIOL)

BIOL 8010 SEMINAR IN BIOLOGY (1 credit)
A study of current research in any of the divisions of biology. Graduate students will complete this course once for credit.
Prerequisite(s)/Corequisite(s): Not open to nondegree students

BIOL 8020 INDEPENDENT RESEARCH IN BIOLOGY (1-3 credits)
Research work under supervision of a member of the graduate faculty. May be taken more than once for credit; up to 4 credits for thesis option of M.S. degree and up to 6 credits for the non-thesis option of the M.S. degree.
Prerequisite(s)/Corequisite(s): Graduate and written permission of graduate faculty supervisor. Not open to nondegree students.

BIOL 8060 ADVANCED TOPICS IN BIOLOGY (1-3 credits)
Lecture and/or laboratory courses for graduate students designed to provide exposure to biological specialties not offered in the regular curriculum.
Prerequisite(s)/Corequisite(s): Graduate and permission. Not open to nondegree students.

BIOL 8070 ADVANCED READINGS IN BIOLOGY (1-3 credits)
An in-depth study of the literature in a limited segment of the biological sciences under the supervision of a graduate faculty member. May be taken more than once for credit up to a total of six credits.
Prerequisite(s)/Corequisite(s): Graduate and written permission of graduate faculty member. Not open to nondegree students.

BIOL 8106 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with BIOL 4100, GEOG 4100, GEOG 8106, GEOL 4100, GEOL 8106)
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750 or GEOL 3100 or BIOL 3100, junior-senior.

BIOL 8116 STATISTICS FOR BIOLOGICAL SCIENCES (4 credits)
Introduction to statistical methods and software used to display, summarize, analyze, and interpret biological and medical data. (Cross-listed with BIOL 4110)
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750, and Math 1310 or equivalent, or permission by the instructor.

BIOL 8126 CONSERVATION BIOLOGY (3 credits)
Study of biological diversity at the genetic, species and ecosystem levels, its values, and the factors that threaten it. We will explore the scientific basis of conservation biology and how it can be applied to the maintenance of biological diversity. Usually offered every year. (Cross-listed with BIOL 4120)
Prerequisite(s)/Corequisite(s): Graduate in biology. BIOL 1750; Recommended: BIOL 3340/8345. Not open to nondegree students.

BIOL 8136 MOLECULAR GENETICS (4 credits)
A lecture and lab course that explores the frontiers of molecular genetics research. Topics addressed will include DNA replication, gene function, gene expression, genetic manipulation, cloning, mutational analysis, genome sequencing, and epigenetics. Research techniques will include DNA/RNA isolation, PCR, cloning, gel electrophoresis, transgene generation, data analysis, and quantitative rtPCR. Students will get a solid grounding in scientific writing and presentations, as well as reading and assessing primary scientific literature. Lecture, discussion, and laboratory. Usually offered fall semester. (Cross-listed with BIOL 4130)
Prerequisite(s)/Corequisite(s): BIOL 2140, 3020 and CHEM 2210 or 2260 or their equivalents. Not open to nondegree students.

BIOL 8146 CELLULAR BIOLOGY (4 credits)
This course is a modern study of mammalian cell function. Focus will be placed on developing skills in experimental cellular biology. Material covered will include tissue culture techniques, cell staining applications, fluorescent microscopy, determination of gene expression, and high-throughput assay design. (Cross-listed with BIOL 4140)
Prerequisite(s)/Corequisite(s): BIOL 2140, 3020 and CHEM 2210 or 2250. Junior or senior undergraduate standing or graduate standing. Must enroll in laboratory section and lecture for this course. Not open to nondegree graduate students.

BIOL 8156 CANCER BIOLOGY (3 credits)
This is a 100% online course devoted to understanding Cancer Biology. The etiology of cancers, differences between types of malignancies, oncogenes and genetic modifiers, treatments, susceptibility, and tumor-induced immunosuppression are discussed. This is an active course focused on inquiry-based learning and the purpose of this course is to provide students a foundation in cancer biology while applying tools learned through cell biology, genetics, and immunology courses. (Cross-listed BIOL 4150)
Prerequisite(s)/Corequisite(s): Undergraduate and Graduate: Molecular Biology of the Cell (BIOL3020) and Genetics (BIOL 2140). Recommended: Introduction to Immunology (BIOL3240).

BIOL 8170 ECOSYSTEM ANALYSIS FOR EDUCATORS (3 credits)
This course is designed for education graduate students who wish to take a field-based biology course that uses an interdisciplinary approach to understanding the ecosystem of the tallgrass prairie. This course engages graduate students in methods reflecting multidisciplinary STEM strategies (e.g. scientific inquiry, modeling, geographic information system mapping, etc.) associated with research taking place at the Glacier Creek Preserve. Graduate students completing this course will develop advanced knowledge of ecology, restoration ecology, and monitoring of prairie habitat restoration. Graduate students will focus on the technical, biogeochemical, ecological and cultural aspects of analyzing and restoring the prairie ecosystem and its various habitats. (Cross-listed with STEM 8170)
Prerequisite(s)/Corequisite(s): Graduate Standing or Permission from the Instructor.

BIOL 8186 LIMNOLOGY (4 credits)
A study of the physical, chemical and biotic relationships that serve to establish and maintain plant and animal communities in a freshwater environment. (Cross-listed with BIOL 4180)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750, and organic chemistry. Not open to nondegree students.

BIOL 8190 COMMUNITIES AND ECOSYSTEMS (3 credits)
Advanced study of populations, communities and ecosystems; may require overnight weekend field trips.
Prerequisite(s)/Corequisite(s): BIOL 3340/8345, graduate in biology. Not open to nondegree students.

BIOL 8200 PLANT ECOLOGY (4 credits)
Advanced study of plant communities and of individual plant species including relationships with the environment and vegetative dynamics. Emphasizes on methods of evaluation and analysis. May require overnight field trips.
Prerequisite(s)/Corequisite(s): BIOL 3340/8345, graduate in biology. Recommended: BIOL 3530/8535. (Fall) Not open to nondegree students.
BIOL 8216 FIRE ECOLOGY (3 credits)
Study of fire in ecosystems including characteristics of fire, effects on flora, fauna and the abiotic environment, and use in maintaining native ecosystems. May include two weekend field exercises. (Cross-listed with BIOL 4210)
Prerequisite(s)/Corequisite(s): BIOL 3340, graduate in biology. Not open to nondegree students.

BIOL 8226 POPULATION BIOLOGY (4 credits)
An examination of topics in population ecology and population genetics including selection on individuals and groups, mating systems, life history characteristics, growth and regulation of populations and population interactions. Outside research project required. (Cross-listed with BIOL 4220)
Prerequisite(s)/Corequisite(s): BIOL 2140 and 3340, junior-senior. Not open to nondegree students.

BIOL 8236 ORGANIC EVOLUTION (3 credits)
A study of organic evolution in terms of evidences which support the theory and the mechanisms involved in the process. (Cross-listed with BIOL 4230)
Prerequisite(s)/Corequisite(s): BIOL 2140. Lecture and discussion only. Not open to nondegree students.

BIOL 8246 MARINE BIOLOGY (3 credits)
An introduction to the marine environment, this course explores physical conditions of the ocean including ocean chemistry, salinity, waves and currents, and tides as well as the ecology of planktonic, nektonic and benthic organisms— their communities and environments. Impacts of humans on the marine environment will also be covered. (Cross-listed with BIOL 4240)
Prerequisite(s)/Corequisite(s): BIOL 1750

BIOL 8250 DESIGN AND ANALYSIS OF BIOLOGICAL RESEARCH (3 credits)
This course examines the statistical aspects of the design of laboratory and field experiments in biology. Basic statistical methods are reviewed and advanced methods presented. Statistical computer packages are used.
Prerequisite(s)/Corequisite(s): Undergraduate course in statistics is recommended. Not open to nondegree students.

BIOL 8256 FIELD MARINE BIOLOGY (1 credit)
This lab is a hands-on introduction to the marine environment using a field trip to the Gulf Coast. Students will observe first-hand examples of local marine habitats and organisms. Students will be required to take a trip to the Gulf Coast of Texas, Louisiana, Mississippi, and Alabama during Spring Break. Students will be required to provide their own basic camping and snorkeling gear. (Cross-listed with BIOL 4250)
Prerequisite(s)/Corequisite(s): BIOL 1750, previous or concurrent enrollment in BIOL 4240 and permission of instructor.

BIOL 8266 BEHAVIORAL ECOLOGY (3 credits)
Behavioral ecology is the study of behavior from an evolutionary and ecological point of view. Through the integration of research at different organizational levels and the use of many different organisms, behavioral ecology is one of the most integrative fields in biological sciences. This course will provide an introduction to the basic concepts of behavioral ecology and the integrative approaches used in behavioral ecology. Further, the course will train students in critical reading and discussion of primary literature in writing and in an oral setting. (Cross-listed with BIOL 4260)
Prerequisite(s)/Corequisite(s): Admission into the graduate college. Not open to non-degree graduate students.

BIOL 8276 ANIMAL BEHAVIOR (3 credits)
Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. Lecture only. (Cross-listed with BIOL 4270, PSYC 4270, PSYC 8276)
Prerequisite(s)/Corequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

BIOL 8286 ANIMAL BEHAVIOR LABORATORY (3 credits)
Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with BIOL 4280, PSYC 4280, PSYC 8286)
Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273. Not open to non-degree graduate students.

BIOL 8300 ECOLOGY OF RUNNING WATER (4 credits)
This course will cover current topics in stream ecology with an emphasis on the impact of modern human management of prairie and Midwestern streams. Students will read, analyze, and discuss selected articles from major journals. Several field trips will be conducted to allow students to examine actual streams of different types throughout the Midwest.
Prerequisite(s)/Corequisite(s): BIOL 3340/8345 or BIOL 4180/8186. Not open to nondegree students.

BIOL 8326 HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with BIOL 4320, PSYC 4320, PSYC 8326)
Prerequisite(s)/Corequisite(s): Admission to graduate level PSYC program or permission of dept. Not open to non-degree graduate students.

BIOL 8330 ADVANCED TOPICS IN GENERAL PHYSIOLOGY (3 credits)
Studies in general physiology including such topics as photo-physiology, hormonal regulation of metabolic pathways, temperature-related phenomena, and cytogenetic physiology. Lecture, laboratory, and written report.
Prerequisite(s)/Corequisite(s): Graduate in biology. Not open to nondegree students.

BIOL 8345 ECOLOGY (4 credits)
Study of interrelationships between organisms and their biotic and abiotic environment; includes population biology, community dynamics, biotic interactions and evolution. Labs include field exercises. (Cross-listed with BIOL 3340)
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750. Not open to nondegree students.

BIOL 8346 ICHTHYOLOGY (4 credits)
A study of the biology of fishes, including their evolution, anatomy, physiology, ecology, distribution, classification and identification with emphasis on North American freshwater fishes. (Cross-listed with BIOL 4340)
Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

BIOL 8356 LICHENOLOGY (3 credits)
Taxonomy, morphology and ecology of lichenized fungi with laboratory emphasis on identification of the local species. Other topics for discussion will include symbiosis, air pollution and lichens, chemosystematics and modern herbarium techniques for lichens and other cryptograms. (Cross-listed with BIOL 4350)
Prerequisite(s)/Corequisite(s): BIOL 1450/1750, graduate in biology. Not open to nondegree students.

BIOL 8376 PHYCOLOGY (3 credits)
A survey of the algae dealing with their ecology, morphology, physiology, taxonomy and evolution. (Cross-listed with BIOL 4370)
Prerequisite(s)/Corequisite(s): BIOL 1450/1750 or permission of instructor, graduate in biology. Not open to nondegree students.
BIOL 8386 MORPHOLOGY OF NON-VASCULAR PLANTS (4 credits)
Structural, reproductive, ecological and evolutionary features of the major non-vascular plant groups including prokaryotes, algae, fungi, lichens and bryophytes. (Cross-listed with BIOL 4380)
Prerequisite(s)/Corequisite(s): BIOL 1450-1750, graduate. Not open to nondegree students.

BIOL 8396 VASCULAR PLANT MORPHOLOGY (3 credits)
A survey of living and fossil vascular plants with emphasis on their comparative anatomy and morphology and their evolution. (Cross-listed with BIOL 4390)
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750 or equivalent, graduate in biology.

BIOL 8416 WETLAND ECOLOGY AND MANAGEMENT (3 credits)
This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with ENVN 4410 and BIOL 4410)
Prerequisite(s)/Corequisite(s): BIOL 3340 or instructor permission.

BIOL 8426 RESTORATION ECOLOGY (3 credits)
Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 4420, ENVN 4420)
Prerequisite(s)/Corequisite(s): Graduate standing.

BIOL 8436 BIOLOGY OF FUNGI (3 credits)
A functional and developmental approach to the study of fungi. Fungal structure, growth, physiology and biotic interactions will be examined. (Cross-listed with BIOL 4430)
Prerequisite(s)/Corequisite(s): BIOL 1450-1750, graduate. Not open to nondegree students.

BIOL 8446 PLANT PHYSIOLOGY (4 credits)
A study of plant processes and functions with emphasis on photosynthesis, growth and development, metabolism and mineral nutrition. (Cross-listed with BIOL 4440)
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750, and CHEM 2210 or CHEM 2250; or permission of instructor.

BIOL 8450 BIOLOGY EDUCATION RESEARCH METHODS (3 credits)
In this course, students will learn the methods of conducting pedagogical research in Biology, understand how people learn the concepts, practices, and ways of thinking in science and engineering; understand the nature and development of expertise in a discipline; help identify and measure appropriate learning objectives and instructional approaches that advance students toward those objectives; contribute to the knowledge base in a way that can guide the translation of statistical findings to classroom practice; and identify approaches to make science and engineering education broad and inclusive. Students will work with live data sets to evaluate effective pedagogical approaches in the biology classroom of various audiences (K-16).

BIOL 8454 VIROLOGY LABORATORY (1 credit)
A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include host cell characterization, viral infection, virus purification from infected cells, viral genome isolation and viral transfection. Sequence analysis and sequence comparison will also be introduced. Laboratory exercises will emphasize fundamental molecular biology techniques and instrumentation. Usually offered in Fall semester. (Cross-listed with BIOL 4454)
Prerequisite(s)/Corequisite(s): BIOL 8456 - Virology is a prerequisite or co-requisite.

BIOL 8456 VIROLOGY (3 credits)
A comprehensive course about viruses. The course will address principles of viral infection, virus-host interaction, viral evolution and viral disease processes. Cellular and molecular aspects of viral infection will be the primary focus. This will include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will also be addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with BIOL 4450)
Prerequisite(s)/Corequisite(s): CHEM 2260 and 2274 or CHEM 2210 and 2214, BIOL 3020 and 2140. Recommended: Biochemistry.

BIOL 8496 MEDICINAL USES OF PLANTS (3 credits)
A scientific study of the biochemical properties and physiological effects of medicinal plants, including their historical uses, current applications to varying systems of the human body, and pathways by which today's potent drugs have transitioned from wild flora. Usually offered Fall semesters of even-numbered years. (Cross-listed with BIOL 4490)

BIOL 8535 FLORA OF THE GREAT PLAINS (4 credits)
A study of common vascular plants found in the Great Plains region, including identification, description, and classification techniques and an introduction to the plant communities of Nebraska. Usually offered every Fall and Summer. (Cross-listed with BIOL 3530.)
Prerequisite(s)/Corequisite(s): BIOL 1450-1750. Not open to nondegree students.

BIOL 8576 PALEOBOTANY (4 credits)
A comprehensive study of the biology and evolution of plants through geologic time, including fossil plant structure, function and paleoecology. (Cross-listed with BIOL 4570)
Prerequisite(s)/Corequisite(s): BIOL 1450-1750, graduate status or permission of instructor. Not open to nondegree students.

BIOL 8606 GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 4600, ENVN 4600)
Prerequisite(s)/Corequisite(s): BIOL 3340 or permission of instructor.

BIOL 8635 PLANT ANATOMY AND DEVELOPMENT (4 credits)
A study of cells, tissues and organs of vascular plants with particular emphasis on internal structure of seed plants, their development, and structure-function relationships. Must enroll in lab. Usually offered in alternate years. (Cross-listed with BIOL 3630)
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750 and junior-senior.

BIOL 8646 MICROBIAL PHYSIOLOGY (4 credits)
Examination of physiological diversity found among microorganisms with an emphasis on experimental procedures and practical applications. Lecture and laboratory. (Cross-listed with BIOL 4640)
Prerequisite(s)/Corequisite(s): BIOL 3020. Not open to nondegree students.
B I O L 8 6 5 4  B I O C H E M I S T R Y  I  L A B O R A T O R Y (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 4654, CHEM 4654, CHEM 8654).

Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 8654 must be taken concurrently.

B I O L 8 6 5 6  B I O C H E M I S T R Y  I I  L A B O R A T O R Y (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 4664, CHEM 4664, CHEM 8664).

Prerequisite(s)/Corequisite(s): CHEM 8654 and CHEM 8656 or BIOL 8654 and BIOL 8656 with a grade of B- or better. Concurrent enrollment in CHEM 8666.

B I O L 8 6 6 6  B I O C H E M I S T R Y  I I (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipid, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 4660, CHEM 4660, CHEM 8666).

Prerequisite(s)/Corequisite(s): CHEM 8654 and CHEM 8656 or BIOL 8656 and BIOL 8656 with a grade of B- or better. Concurrent enrollment in CHEM 8666.

B I O L 8 7 1 6  T O X I C O L O G Y (3 credits)
An overview of the fundamentals of toxicology. Concepts include the dose-response relationship, absorption, distribution and excretion of toxicants, and the biotransformation of xenobiotics. Emphasis will be given to metals, pesticides, pharmaceutical compounds, chemical carcinogenesis and endocrine disruption. Usually offered Fall. (Cross-listed with BIOL 4710)

Prerequisite(s)/Corequisite(s): CHEM 2210 or 2260 and BIOL 1750, BIOL 3020 or equivalent.

B I O L 8 7 3 5  F A U N A  O F  T H E  G R E A T  P L A I N S  (3 credits)
A survey of the common animal groups found in the Great Plains, including their evolution, ecology, distribution and specific adaptations to the environment of the temperate North American grasslands. (Cross-listed with BIOL 3730)

Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

B I O L 8 7 3 6  V E R T E B R A T E  E N D O C R I N O L O G Y  (3 credits)
An overview of the fundamentals of vertebrate endocrinology. Concepts include: the mammalian hypothalamus-pituitary system, the endocrinology of mammalian reproduction, the mammalian adrenal glands, endocrine disruption, endocrinology and metabolism. (Cross-listed with BIOL 4730)

Prerequisite(s)/Corequisite(s): Organic chemistry, BIOL 1750, BIOL 3020 or equivalent.

B I O L 8 7 4 5  H I S T O L O G Y  (4 credits)
Analysis of the microscopic anatomy of tissues and organs, their adaptations and functional significance. (Cross-listed with BIOL 3740)

Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

B I O L 8 7 4 6  A N I M A L  P H Y S I O L O G Y  (3 credits)
An overview of the fundamentals of animal physiology. Concepts include: the physiology of nerve and muscle function, endocrine function, cardiovascular and respiratory function, oxygen and carbon dioxide delivery by the blood, and osmoregulation and excretion. The course is comparative in nature, including examples from humans, mammals, vertebrates and invertebrate animals. Usually offered Spring. (Cross-listed with BIOL 4740.)

Prerequisite(s)/Corequisite(s): Organic Chemistry, BIOL 1750, BIOL 3020 or equivalent.

B I O L 8 7 6 0  C L I N I C A L  R E A S O N I N G  (3 credits)
This is an intensive class in which students will translate biological concepts into solving case-based scenarios in clinical medicine. Relevant readings will prepare students to address these challenges in small-group settings. Intended as an advanced preparatory course for healthcare professionals or students desiring exposure to clinical decision-making. Usually offered during Summer semester.

Prerequisite(s)/Corequisite(s): Molecular Biology; Microbiology or Immunology; plus instructor approval.

B I O L 8 7 6 6  G E N O M E  T E C H N O L O G Y  A N D  A N A L Y S I S  (3 credits)
This course will introduce the latest genome sequencing technologies and their broad applications in biology and medicine. Students will learn how genome sequencing is conducted by different platforms and obtain practical experience of how to use bioinformatics tools for genome analysis. Students are expected to be able to perform sequence analysis efficiently and interpret the results properly. (Cross-listed with BIOL 4760)

Prerequisite(s)/Corequisite(s): BIOL2140 Genetics; or Permission of instructor

B I O L 8 7 7 0  C L I N I C A L  R E A D I N G S  (3 credits)
This course is a rigorous study of current biomedical, translational, and clinical primary literature spanning a wide range of human health and disease.

Prerequisite(s)/Corequisite(s): Graduate and written permission of graduate faculty member.

B I O L 8 7 8 6  V E R T E B R A T E  Z O O L O G Y (4 credits)
A study of the general biology of the subphylum vertebrata including the morphology, anatomy, physiology and ecology of vertebrate representatives. (Cross-listed with BIOL 4780)

Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.

B I O L 8 7 9 6  M A M M A L O G Y  (4 credits)
The biology of mammals, including their evolution, functional morphology, physiology, ecology, zoogeography, behavior, classification and identification with emphasis on North American groups. Field trips. (Cross-listed with BIOL 4790)

Prerequisite(s)/Corequisite(s): BIOL 1750. Not open to nondegree students.
**Biol 8826 Introduction to Environmental Law & Regulations (3 credits)**
Seminar on environmental law and regulation. The course will address federal regulations, implementing instructions, legal principles and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation will be discussed. Usually offered Fall semesters. Cross-listed with (BIOL 4820, ENVN 4820, GEG 4820, GEG 8826, PA 4820, PA 8826)

**Prerequisite(s)/Corequisite(s):** Junior-senior and permission.

**Biol 8830 Environmental Physiology (3 credits)**
A detailed study of selected dynamic environmental factors and mechanisms of physiologic adaptation by organisms of various taxa. General physics, algebra, animal physiology, or permission of instructor.

**Prerequisite(s)/Corequisite(s):** General physics, algebra, animal physiology. Not open to non-degree students.

**Biol 8836 Developmental Genetics (2 credits)**
This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics. (Cross-listed to BIOL 4830)

**Prerequisite(s)/Corequisite(s):** This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics.

**Biol 8846 Herpetology (4 credits)**
The biology of amphibians and reptiles, including their evolution, classification, anatomy, physiology, ecology, distribution and identification with emphasis on North American groups. (Cross-listed with BIOL 4840)

**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to non-degree students.

**Biol 8856 Developmental Biology (3 credits)**
This course explores principles underlying the development of multicellular organisms, stressing the environmental, genetic, molecular, cellular, tissue, and evolutionary mechanisms of animal development. Usually offered once per year. (Cross-listed with BIOL 4850)

**Prerequisite(s)/Corequisite(s):** BIOL 1450, 1750, 2140, 3020, and CHEM 3650 or BIOL 4650 or CHEM 4650 and junior-senior status.

**Biol 8866 Comparative Genomics (3 credits)**
This course will introduce fundamental concepts in genomics and genome comparison. Students will learn how genomes are constructed, how they evolve, how individual genomes are unique, and what genomic knowledge means in terms of human health and medicine. (Cross-listed with BIOL 4860)

**Biol 8876 Molecular and Cellular Neurobiology (3 credits)**
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with NEUR 4870, BIOL 4870, NEUR 8878)

**Prerequisite(s)/Corequisite(s):** NEUR 1500 and BIOL 3020 or permission of instructor.

**Biol 8886 Invertebrate Zoology (4 credits)**
A comprehensive study of the invertebrate animals. (Cross-listed with BIOL 4880)

**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to non-degree students.

**Biol 8896 Genes, Brain, and Behavior (3 credits)**
This course will evaluate the complex interaction between an organism’s genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with BIOL 4890, NEUR 4890, PSYC 8896)

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**Biol 8926 Parasitology (4 credits)**
Taxonomy, morphology, physiology, life history dissemination and control of the parasitic protozoans, helminths and arthropods. (Cross-listed with BIOL 4920)

**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to non-degree students.

**Biol 8946 Entomology (4 credits)**
The study of insects; their classification, morphology, physiology, behavior, life histories, ecology and evolution. (Cross-listed with BIOL 4940)

**Prerequisite(s)/Corequisite(s):** BIOL 1750.

**Biol 8956 Vertebrate Embryology and Anatomy (4 credits)**
Development and phylogeny of vertebrate organ systems. Dissection of major vertebrate types, and study of developmental stages from fertilized egg to adult condition. (Cross-listed with BIOL 4950)

**Prerequisite(s)/Corequisite(s):** BIOL 1750. Not open to non-degree students.

**Biol 8966 Advanced Genetics (3 credits)**
An in-depth consideration of topics in genetics, including the conceptual and molecular definition of a gene, cytogenetics, mutation, population genetics, developmental genetics, gene regulation and the application of genetics to other areas of biology. (Cross-listed with BIOL 4960).

**Prerequisite(s)/Corequisite(s):** BIOL 2140 and BIOL 3020 and concurrent enrollment or completion of either CHEM 3650 or CHEM 4610 or CHEM 4650 or BIOL 4650, or permission of the instructor.

**Biol 8986 Ornithology (4 credits)**
An introduction to the general biology of birds, including their anatomy, physiology, behavior, ecology, classification and identification with emphasis on North American groups. Usually offered in alternate years. (Cross-listed with BIOL 4980)

**Prerequisite(s)/Corequisite(s):** BIOL 1750.

**Biol 8990 Thesis (1-6 credits)**
An original and independent research project written under the supervision of a faculty thesis advisory committee.

**Prerequisite(s)/Corequisite(s):** Not open to non-degree students.

---

**Biomechanics (BMCH)**

**BMCH 8000 Seminar in Biomechanics (0 credits)**
Required non-credit course for graduate students in biomechanics. Intended to familiarize the graduate student with current ongoing biomechanical research at UNO and other institutions. The seminar will additionally include topics focusing on professional development, job and educational opportunities, and biomechanical methodologies.

**Prerequisite(s)/Corequisite(s):** Must be a student in BMCH graduate program. Not open to non-degree graduate students.

**BMCH 8030 Biostatistics in Biomechanics I (3 credits)**
The focus of the course is to prepare students to understand and apply research and biostatistical methods needed in the design and analysis of biomechanical investigations. The major topics to be covered include research design and multiple linear regression. (Cross-listed with BMCH 9031)

**Prerequisite(s)/Corequisite(s):** Graduate Standing in Biomechanics program or Department Permission.
BMCH 8100 NONLINEAR ANALYSIS FOR MOVEMENT STUDIES (3 credits)
This course is to introduce different nonlinear methods for the analysis of biological and movement time series. Emphasis will be given on understanding the algorithms behind each nonlinear method. (Cross-listed with BMCH 9101)
Prerequisite(s)/Corequisite(s): Instructor Permission.

BMCH 8200 MATLAB FOR MOVEMENT SCIENCES (3 credits)
Introduction to Matlab software, plotting data, spectral analysis and the Fourier transform, data smoothing, and image analysis of movement related data. All topics will be implemented using Matlab. (Cross-listed with BMCH 9201)
Prerequisite(s)/Corequisite(s): Instructor permission.

BMCH 8400 MOTOR LEARNING I (3 credits)
Discussion and analysis of scientific principles related to the learning of motor skills; review related literature and research in motor learning. The focus of the course is on recent theories of how movements are acquired and performed, and on factors that have implications for motor learning throughout the life span. (Cross-listed with BMCH 9401)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 8410 MOTOR CONTROL I (3 credits)
The focus of the course is to explore the study of the conditions and factors that influence the control and performance of motor skills from both neurophysiological and psychobiological perspectives. (Cross-listed with BMCH 9411)
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 8420 MOTOR DEVELOPMENT (3 credits)
This course focuses on the study of motor development, the processes that underlie this development and the factors that influence it. Students will gain an understanding of the major theoretical perspectives of motor development across the life span with special emphasis given in child development. (Cross-listed with BMCH 9421)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 8450 ADVANCED BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance including mechanical analysis of human gait, fundamental movement patterns and techniques used for collecting biomechanical data. (Cross-listed with BMCH 9451)
Prerequisite(s)/Corequisite(s): BMCH 4630 (Biomechanics) [previously PE 4630] or Instructor Permission.

BMCH 8900 INDEPENDENT RESEARCH IN BIOMECHANICS (1-6 credits)
In this course individuals or groups will conduct research projects for the study and analysis of biomechanical topics.
Prerequisite(s)/Corequisite(s): Permission of the Department and approval by Faculty Advisor. Not open to non-degree graduate students.

BMCH 8910 INDEPENDENT STUDY IN BIOMECHANICS (1-6 credits)
This is a variable credit course designed for graduate students in Biomechanics who would benefit from independent reading assignments and problems. Independent study enables individual students or a small group of students to focus on topics typically not explored in other offerings or to explore topics currently offered in further depth. (Cross-listed with BMCH 9911)
Prerequisite(s)/Corequisite(s): Graduate student in BMCH and approval by Faculty Advisor. Not open to non-degree graduate students.

BMCH 8990 THESIS IN BIOMECHANICS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student's advisory committee. In this project the student will develop skills in research design, research conduct, data analysis, and reporting. The final product of this course will be an original thesis of independent scientific investigation.
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 9031 BIOSTATISTICS IN BIOMECHANICS I (3 credits)
The focus of the course is to prepare students to understand and apply research and biostatistical methods needed in the design and analysis of biomechanical investigations. The major topics to be covered include research design and multiple linear regression. (Cross-listed with BMCH 8030)
Prerequisite(s)/Corequisite(s): Graduate Standing in Biomechanics program or Department Permission.

BMCH 9101 NONLINEAR ANALYSIS FOR MOVEMENT STUDIES (3 credits)
This course is to introduce different nonlinear methods for the analysis of biological and movement time series. Emphasis will be given on understanding the algorithms behind each nonlinear method. (Cross-listed with BMCH 8100)
Prerequisite(s)/Corequisite(s): Instructor Permission.

BMCH 9201 MATLAB FOR MOVEMENT SCIENCES (3 credits)
Introduction to Matlab software, plotting data, spectral analysis and the Fourier transform, data smoothing, and image analysis of movement related data. All topics will be implemented using Matlab. (Cross-listed with BMCH 8200)
Prerequisite(s)/Corequisite(s): Instructor permission.

BMCH 9401 MOTOR LEARNING I (3 credits)
Discussion and analysis of scientific principles related to the learning of motor skills; review related literature and research in motor learning. The focus of the course is on recent theories of how movements are acquired and performed, and on factors that have implications for motor learning throughout the life span. (Cross-listed with BMCH 8400)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 9411 MOTOR CONTROL I (3 credits)
The focus of the course is to explore the study of the conditions and factors that influence the control and performance of motor skills from both neurophysiological and psychobiological perspectives. (Cross-listed with BMCH 8410)
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 9421 MOTOR DEVELOPMENT (3 credits)
The focus of the course is to explore the study of the conditions and factors that influence this development and the factors that influence it. Students will gain an understanding of the major theoretical perspectives of motor development across the life span with special emphasis given in child development. (Cross-listed with BMCH 8421)
Prerequisite(s)/Corequisite(s): Department Permission.

BMCH 9450 ADVANCED BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance including mechanical analysis of human gait, fundamental movement patterns and techniques used for collecting biomechanical data. (Cross-listed with BMCH 8450)
Prerequisite(s)/Corequisite(s): Department Permission. Not open to non-degree graduate students.

BMCH 9451 ADVANCED BIOMECHANICS (3 credits)
The course will address the biomechanical basis of human performance including mechanical analysis of human gait, fundamental movement patterns and techniques used for collecting biomechanical data. (Cross-listed with BMCH 8450)
Prerequisite(s)/Corequisite(s): BMCH 4630 (Biomechanics) [previously PE 4630] or Instructor Permission.
BMCH 9460 ADVANCED BIOMECHANICS II (3 credits)
A comprehensive and advanced detailed investigation of the biomechanics of motor performance in special populations such as stroke, Parkinson’s disease, and amputees. Includes advanced study of the mechanical analysis of motor skills and movement patterns and the research techniques for collecting and interpreting biomechanical data. Detailed lectures will cover etiology of such special populations with a focus on the endpoint movement disorders.
Prerequisite(s)/Corequisite(s): BMCH 8450 or BMCH 9451 or Instructor Permission. Not open to non-degree graduate students.

BMCH 9500 MOTOR LEARNING II (3 credits)
The focus of the course is to further explore the study of the conditions and factors that influence the learning and performance of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8400, BMCH 9401 or Instructor Permission. Not open to non-degree graduate students.

BMCH 9510 MOTOR CONTROL II (3 credits)
The focus of the course is to further explore the study of the conditions and factors that influence the control and performance of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8410, BMCH 9411 or Department Permission. Not open to non-degree graduate students.

BMCH 9520 MOTOR DEVELOPMENT II (3 credits)
This course focuses on the study of motor development, the processes that underlie this development and the factors that influence it. This course will focus on exploring motor development in clinical populations of people with autism, down syndrome, cerebral palsy, etc. and the factors that influence the progression of motor skills.
Prerequisite(s)/Corequisite(s): BMCH 8420 or permission from instructor.

BMCH 9910 DOCTORAL SEMINAR (3 credits)
The major goal of this course is to teach the graduate student how to write manuscripts/grants and be an effective academician with strong ethics. The outcome of this course is for the student to produce a manuscript based on data acquired in the laboratory from the ideas developed in the seminar or submit a grant that will support the research ideas developed in at least one semester. The material covered is intended to equip students with the skills necessary to be successful in their academic careers with emphasis given on writing scientific papers. (Cross-listed with PE 9910)
Prerequisite(s)/Corequisite(s): Admission into the PhD program. Not open to non-degree graduate students.

BMCH 9911 INDEPENDENT STUDY IN BIOMECHANICS (1-6 credits)
This is a variable credit course designed for graduate students in Biomechanics who would benefit from independent reading assignments and problems. Independent study enables individual students or a small group of students to focus on topics typically not explored in other offerings or to explore topics currently offered in further depth. (Cross-listed with BMCH 8910)
Prerequisite(s)/Corequisite(s): Graduate student in BMCH and approval from Faculty Advisor. Not open to non-degree graduate students.

BMCH 9990 DISSERTATION (1-15 credits)
The course provides doctoral candidates in Exercise Science with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation. (Cross-listed with PE 9990)
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science, successful completion of doctoral coursework & comprehensive exams, approval of the dissertation supervisory committee chair & advancement to candidacy. Not open to non-degree graduate students.
BMI 8896 GENETIC SEQUENCE ANALYSIS (3 credits)
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the course will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny. 
Prerequisite(s)/Corequisite(s): Permission from the instructor.

BMI 8900 INDEPENDENT RESEARCH IN BIOMEDICAL INFORMATICS (1-3 credits)
The purpose of this course is to provide students with an opportunity for practical application and further development of knowledge and skills acquired in the Biomedical Informatics graduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Permission of instructor, and at least 12 hours of course work toward the MS BMI program should be completed.

BMI 8910 INTERNSHIP (1-3 credits)
The purpose of this course will vary, however both the student and the faculty member must sign an Independent Research Agreement and file it with the Biomedical Informatics Graduate Program Committee before registration for the course. This agreement will detail the project, the schedule for its completion, the form of the output, the method of evaluation and other relevant information pertaining to the project.
Prerequisite(s)/Corequisite(s): Permission from the instructor.

BMI 8970 INDEPENDENT STUDY IN BIOINFORMATICS (1-3 credits)
This is a variable-credit course designed for graduate students in bioinformatics who would benefit from independent reading assignments and research-type problems. Independent study enables coverage of topics not taught in scheduled course offerings.
Prerequisite(s)/Corequisite(s): Students must have completed a minimum of 12 credit hours towards the M5 in BMI program. Not open to non-degree graduate students.

BMI 8990 THESIS IN BIOMEDICAL INFORMATICS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student’s thesis advisory committee. In this project the student will develop and perfect a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation.
Prerequisite(s)/Corequisite(s): Graduate major in BMI and approval of the Thesis Advisory Committee. Not open to non-degree graduate students.

BMI 9990 ADVANCED RESEARCH IN BIOMEDICAL INFORMATICS (1-3 credits)
This course provides a format for exploring advanced research areas for doctoral students in Biomedical Informatics and related fields. Specific topics will vary in keeping with research interest of faculty and students. 
Prerequisite(s)/Corequisite(s): Admission to graduate program in Biomedical Informatics. Not open to non-degree graduate students.

BMI 9990 DISSERTATION (1-12 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee supervisory committee. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge in health or bioinformatics and demonstrate technical mastery of the discipline. 
Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in Biomedical Informatics and candidacy for the Ph.D. degree. Prior to enrolling for dissertation hours, the students must have permission of the supervisory committee. Not open to non-degree graduate students.

Black Studies (BLST)

BLST 8020 RACE, ETHNICITY, AND AMERICAN CULTURE (3 credits)
This course explores two central themes, race and ethnicity, which have played a dominant role in the shaping of American society and American culture. (Cross-listed with UBNS 8020). 
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 1100, or permission by the instructor.

BLST 8040 AFRO-AMERICAN SOCIOLINGUISTICS (3 credits)
The aim of this course is to examine Black American English (i.e., vernacular theory) and the contributions of language to our understanding of sociolinguistic theory. The course demonstrates how Black American English reveals the complexities of the African American experience. The course also examines significant theories and arguments concerning the genesis, maintenance and social function of African American English.
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2100 or permission of instructor.

BLST 8070 ADVANCED AFRICAN AMERICAN HISTORIOGRAPHY (3 credits)
The purpose of this course is to examine the conceptual and historical foundations of Afro-American historiography. To achieve this, the course takes as its point of departure the concept of vindication as it has traditionally been used by African American scholars, namely the conflict between white racism and the African American assertion of a counter identity. 
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 1100, or permission by the instructor.BLS8070

BLST 8080 SPECIAL TOPICS IN BLACK STUDIES (3 credits)
The content of this course will change periodically. Each time this course is offered it will focus, in detail and in depth, on some aspect of the black experience, such as language and dialect, historiography and historicity, theology and religion, musicology, literature, etc. Students may repeat this course as often as they like, as long as a specific subject is not duplicated. 

BLST 8096 BLACK STUDIES ORAL HISTORY (3 credits)
The focus of this course is to examine the oral history research. Emphasis will be directed toward describing and evaluating the variables of memory, history and cultural authority, to produce written source materials collected from oral interviews. (Cross-listed with BLST 4090.)

BLST 8110 GLOBAL-LOCAL: OPPORTUNITIES, BARRIERS, ENGAGEMENT (3 credits)
This course focuses on global cultural and social forces and how they interact to form nexuses of both opportunity and obstacle to constructive human engagement on a wide array of social issues. An overview of topics covered in the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. This course will provide students with the analytical tools, collaborative engagement skills, and applied problem-solving techniques that will help students succeed in this concentration and program. (Cross-listed with CACT 8110)

Prerequisite(s)/Corequisite(s): Graduate standing.
BLST 8205 BLACK NATIONALISM AND PAN AFRICANISM (3 credits)
A study of the development of movements for self-determination in Afro-
America and analysis of various nationalistic conceptual frameworks in the
Diaspora and on the continent. (Cross-listed with BLST 3200).
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2410, or permission of
instructor.

BLST 8266 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce graduate students to the
multicultural, literary experience, creativity and contributions of women of
color writers to contemporary world literature. (Cross-listed with BLST 4260)

BLST 8560 BLACK LEADERS OF THE TWENTIETH CENTURY (3 credits)
This course is an intellectual study of selected African American leaders of
the 20th century, such as: Booker T. Washington, T. Thomas Fortune, Ida
Wells-Barnett, W.E.B. DuBois, James Weldon Johnson, Marcus Garvey, Mary
McLeod Bethune and Charles Hamilton Houston. Direct emphasis will focus
on examining issues and schemes of race, gender and class, relative to the
selected subjects and their participation in mass social movements.

BLST 8570 SEMINAR IN BLACK STUDIES (3 credits)
This course introduces the student to the professional background of the
academic field of Africana Studies. Among the topics to be covered are the
predecessors to the current field, the main proponents of the intellectual
traditions of Africana studies, the fundamental philosophical bases of the
field, the key documents and texts, the professional journals and associations,
the Afrocentric perspective and critique, and the protocols of academic and scholarly work in Africana studies.
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 1050, BLST 3950.

BLST 8580 SEMINAR IN RESEARCH AND WRITINGS OF W.E.B.
DUBOIS (3 credits)
This course examines the life and writings of W.E.B. DuBois, who stands as
the most eminent intellectual produced by people of African descent in the
United States. Perhaps, next to Cheikh Anta Diop, DuBois is the most
respected and honored African scholar of the 20th century. Within the
context of Western traditions, DuBois is in the top category of prodigious
intellectuals developed in the West. He is the father of modern American sociology, the founder of reconstruction history, the leader in urban
analysis, the first serious student of inter-racial relations, as well as a
novelist, poet, playwright, and essayist.

BLST 8586 COMMUNICATING RACE, ETHNICITY & IDENTITY (3
credits)
This is an undergraduate/graduate course that provides students with
definitional and experiential knowledge about the origin of racial concepts,
theories, and practices, definitions of ethnicity and identity, and the
communicative relationship between race, ethnicity, and identity. (Cross-
listed with BLST 4580, CMST 4580, CMST 8586).
Prerequisite(s)/Corequisite(s): Graduate major/minor in Communication or Black Studies or instructor permission.

BLST 8655 SLAVERY AND RACE RELATIONS IN AMERICA (3 credits)
This course focuses on the black experience in the Americas outside the
U.S. Four major geographical areas are studied: Canada, Central America,
the Caribbean and South America. Black life is considered with regard to
historical background and geographical factors, and in comparison to
white and native American experiences. An effort is made to trace common
themes by using the cross cultural approach. (Cross-listed with BLST 3650).
Prerequisite(s)/Corequisite(s): Graduate standing.

BLST 8700 AFRICAN PHILOSOPHY (3 credits)
Explores ancient, traditional and contemporary philosophical/theological
concepts and doctrines of Africans through an investigation of their
cosmological, metaphysical, ontological, and ethical world view.
Prerequisite(s)/Corequisite(s): Graduate status.

BLST 8886 SEMINAR ON BLACK LEADERSHIP IN AMERICA (3
credits)
Designed as a senior and graduate seminar, this course will examine the
meaning and attributes of effective leadership. The role of black leadership
in the African American experience will be examined. Profiles of selected
African American leaders and their political strategies also will be analyzed
in the seminar. (Cross-listed with BLST 4880).
Prerequisite(s)/Corequisite(s): Senior or graduate student or instructor
permission.

Business Administration (BSAD)

BSAD 8000 BUSINESS ETHICS: ACHIEVING SOCIAL RESPONSIBILITY
(2 credits)
This core MBA course will explore the relationship between law and ethics,
will examine the generally-accepted theoretical principles associated with
doing business ethically, and will examine practical ethical issues associated
with various facets of business.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or
concurrent) or admission to the MAcc program. Students with an
undergraduate major or a graduate degree in Low may not include this
course in a plan of study for the MBA degree. Not open to non-degree
students

BSAD 8010 LEGAL, ETHICAL & SOC ENV (3 credits)
Focus upon law and ethics. Business law, legal processes, and regulation
will be the subject matter focus. Business ethics will be a recurring focus of
analysis. Analysis of the social environment will include public policy. Both
subject matter and analysis will be integrated to build the student's critical
thinking skills.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation
requirements and BSAD 8060 (BSAD 8060 prior to or concurrent); or
admission to the MAcc program. Not open to nondegree students.

BSAD 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3
credits)
This course covers topics related to environmental economics and policy,
with an emphasis on comparative policy analysis and business strategies
towards the environment. (Cross-listed with ECON 8020).
Prerequisite(s)/Corequisite(s): Principles of Microeconomics
(ECON 2200) and Principles of Macroeconomics (ECON 2220), or Analytical
Foundations of Economics (BSAD 8180), or permission of the instructor. Not
open to non-degree graduate students.

BSAD 8026 RESEARCH METHODS IN ECONOMICS AND BUSINESS
(3 credits)
Covers the methodology of economics: choosing a research topic, literature
search tools, data source identification, data summary techniques, basic
statistical data analysis using statistical packages, and clear economics
writing. The student will become familiar with these techniques through text
materials, journal studies, and completion of an empirical economics paper.
(Cross-listed with ECON8296.)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to
nondegree students.

BSAD 8030 INFORM TECH IN BUSINESS (3 credits)
The premise of this course is that today's managers must learn to use
information technology to create competitive firms, manage global
corporations and provide useful products and services to customers.
Accordingly, the content of this course is focused on use of information
technology for competitive advantage. Students will develop case studies of
firms who have achieved this objective. Furthermore, the course will address
emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses
and BSAD 8060 (prior to or concurrent). Not open to nondegree students.

BSAD 8060 or BSAD 8070 (prior to or concurrent). Not open to non-degree
students.

Graduate status. Not open to

undergraduate major or a graduate degree in Law may not include this
course in a plan of study for the MBA degree. Not open to non-degree
students.
BSAD 8040 BUSINESS AND INFORMATION TECHNOLOGY: CONNECTING PEOPLE AND INFORMATION (2 credits)
The premise of this course is that today’s managers must learn to use information technology to create competitive firms, manage global corporations, and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management information systems may not include this course in a plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8050 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, and the adoption of business policies to changing business conditions. Emphasis is placed upon the practical application of the statistical techniques of analysis to the business situation, within the framework of the aggregate economy.
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8180. Not open to nondegree students.

BSAD 8060 PEOPLE: CULTIVATING SKILLS FOR LEADERSHIP (2 credits)
This course will prepare students with the skills to effectively enact the critical leadership skills of listening, employee feedback and coaching, goal-setting, empowerment/delegation, influencing, interviewing, conflict, negotiation, intercultural awareness, team/group discussions, and business etiquette.
Prerequisite(s)/Corequisite(s): Admission to the MBA program. Not open to non-degree students.

BSAD 8070 EXECUTIVE COMMUNICATION (1 credit)
This course emphasizes both strategic and practical approaches to business communication from an executive perspective and provides students with tools to improve their business communication skills. This course will focus on composing effective executive/business documents business reports, and briefings.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8080 BUSINESS FORECASTING (3 credits)
This course includes a comprehensive survey of forecasting methods and in-depth study of selected techniques most commonly used in business environments. Emphasis is given upon an application and therefore students will be required to develop forecasting models and test their performance as part of their course. (Cross-listing with ECON 8310).
Prerequisite(s)/Corequisite(s): Admission to Graduate College and one semester of statistics. Not open to non-degree graduate students.

BSAD 8090 ESSENTIAL LEADERSHIP SKILLS (3 credits)
This course will teach students the interpersonal skills necessary to effectively manage others. Second, this course will serve as a vehicle to assess the business content knowledge and computer literacy of incoming MBA students in order to provide customized remediation recommendations for each student. Third, the course will collect information that will be used for assessment and accreditation purposes to evaluate the effectiveness of the MBA program. This course will address the following MBA program themes: communication, change agent, teamwork, information technology, critical thinking and information gathering and analysis.
Prerequisite(s)/Corequisite(s): Admission to the MBA program and completion of MBA foundation courses (or equivalent) or may be taken concurrently with the final foundation course. Not open to nondegree students.

BSAD 8096 PRINCIPLES OF COLLABORATION (3 credits)
Students will work with techniques for team leadership, interpersonal collaboration, consensus-building, creative problem solving, negotiation, facilitation, group process design, collaborative workspace design, and collaboration engineering. Students will gain hands-on experience with collaboration technologies. (Cross-listed with MGMT 4090, ITIN 4090)
Prerequisite(s)/Corequisite(s): Admission to a graduate program at UNO or the STRATCOM Leader Fellow Program. Not open to non-degree students.

BSAD 8100 MANAGERIAL ECONOMICS (3 credits)
The course will offer students tools of analysis drawn from consumer theory and the theory of the firm in order to improve the understanding of human behavior as it is constrained in the context of business decision-making. This course is intended for students who are seeking the degree of Master of Science in Economics or the degree of Master of Business Administration. (Cross-listed with ECON 8210).
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180 and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.

BSAD 8110 ACCT & FINANCIAL FUNDAMENTALS (3 credits)
The course is designed to give incoming graduate students the foundation in accounting that is necessary for subsequent graduate courses. Emphasis is on introducing the students to as many accounting concepts as possible.
Prerequisite(s)/Corequisite(s): Graduate admission or permission of the appropriate graduate advisor. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8150 ECONOMICS: ESSENTIAL CONCEPTS FOR MANAGERS (2 credits)
This course exposes MBA students to fundamental economic concepts necessary for successful business planning and financial success. Topics include: Comparative advantage and international trade, market dynamics, the role that the competitive landscape plays in company decision-making, macroeconomic growth and development, and monetary and fiscal policy and their impact on business activity.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in economics may not include this course on their plan of study for the MBA degree.

BSAD 8180 ANALYTICAL FOUNDATIONS OF ECON (3 credits)
To familiarize students with the basic economic theory and policy analysis (principles level) required to analyze economic problems and to understand and evaluate recommendations designed to solve those problems. This is a course for students and professionals seeking a degree of Master of Business Administration with little or no formal background in economics.
Prerequisite(s)/Corequisite(s): Graduate. This course cannot be used in a plan of study for any graduate program at UNO. Not open to nondegree students.

BSAD 8200 MANAGERIAL ACCOUNTING (3 credits)
A study of concepts, analysis and procedures of accounting utilizing internal financial and non-financial data which provides management with information for planning and controlling routine operations, for non-routine decisions, policy-making and long-range planning; and for external reporting to stockholders, governments and interested parties.
Prerequisite(s)/Corequisite(s): ACCT 2010 and 2020 or BSAD 8110, and BSAD 8060. BSAD 8060 may be taken prior to or concurrent. Not open to nondegree students.
BSAD 8206 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with MKT 4200)
Prerequisite(s)/Corequisite(s): MKT 3310 with 'C-' or better; MKT 3100 with C+ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

BSAD 8210 ACCOUNTING: DECISIONS & CONSEQUENCES (2 credits)
Managers and administrators must be able to understand, analyze, and use accounting information to make operational and strategic business decisions. In this course, we will study practical uses of accounting information to address the problems and decisions managers face in business. Emphasis is placed on the user of accounting information rather than the preparer. Upon completion of this course, a student should be able to use accounting information to make management decisions, understand how accounting rules inform those decisions, and consequently, how those decisions affect a company's financial reports.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or graduate degree in accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree students.

BSAD 8216 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with MKT 4210)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

BSAD 8226 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long-term growth and profitability with a base of core strategic buyers.
Prerequisite(s)/Corequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

BSAD 8230 CHANGE MANAGEMENT (2 credits)
This course provides a theoretical as well as pragmatic approach to change management for executive and senior level leaders in all types of organizations. Focus is given to organizational structure, managing culture, and critical components of senior level management effectiveness in leading change.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8240 EXECUTIVE LEADERSHIP DEVELOPMENT (2 credits)
This course aims to enhance the leadership effectiveness of students by developing executive competencies in problem solving, collaborative behaviors, teamwork, and conflict resolution. Students will gain crucial experience in using effective leadership tools to become leaders who act with a deeper understanding of themselves, their organizations, and their communities, and contribute positively to the growth of each.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA program. Not open to non-degree graduate students.

BSAD 8250 ORGANIZATIONAL BEHAVIOR: ENHANCING HUMAN & ORGANIZATIONAL CAPABILITIES (2 credits)
This course will prepare students with the knowledge necessary to manage and lead organizations effectively. Students will learn management theories, understand important research findings in organizational behavior, and apply both theory and research results to real organizational situations, thus giving them the capacity to use OB theories to enhance organizational effectiveness.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in management may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8260 ACCOUNTING THEORY & PRACTICE (2 credits)
This course is designed to enhance students' understanding of financial statements and how executive decisions can influence these statements. Financial statements, including footnotes and explanatory material, are the primary instruments utilized by parties external to the enterprise in making judgments about the enterprise. By understanding how management decisions are reflected in the financial statements, managers will understand how they can influence their judgment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA program. Not open to non-degree graduate students.

BSAD 8270 CONTEMPORARY ECON FOR BUS MGMT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. This course will familiarize students and professionals with the microeconomic and the macroeconomic principles relevant to: (a) individual and business firm decision-making; (b) the domestic and international environment in which economic decisions are made; (c) the evaluation of policies designed to solve economic problems.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8280 STEWARDSHIP OF THE FIRM'S RESOURCES: HR MANAGEMENT (2 credits)
This course provides a comprehensive review of effective human resource theory and practice with an emphasis on managerial influence on attracting, retaining, developing, and rewarding employees.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8290 MARKETING MANAGEMENT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. As this course is the initial course of marketing in the degree program, it establishes the basic foundation of the marketing discipline as well as provides the basis for further exploration and study of the discipline of marketing. The foundation of principles, concepts and nomenclature of marketing are the primary structure of the course. It is intended to provide a comprehensive knowledge of marketing. Further, the course challenges the students to explore further the applications of the foundation knowledge of the course.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8300 ORGANIZATION THEORY & DESIGN (3 credits)
A study of theories and guidelines for enhancing organizational effectiveness by matching an organization's structure to its environment, strategy, technology and size.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8310 MANAGING PERFORMANCE IN ORGANIZATIONS (3 credits)
A human behavior course emphasizing the areas of individual behavior, interpersonal behavior, group behavior and the interplay of human and non-human factors.
Prerequisite(s)/Corequisite(s): Essential Leadership Skills (BSAD 8060) or admission to the MAcc program. Not open to nondegree students.
BSAD 8320 SEMINAR IN HUMAN RESOURCE MGMT (3 credits)
Extensive treatment of the relevant developing theories and coverage of certain new methods, techniques and procedures that relate to personnel management and human resource management. Efforts are made to select and present material to illustrate the practical, applied aspects of resource management and personnel administration, as related to human problems in organizations.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8326 SALES MANAGEMENT (3 credits)
The student will be exposed to the current research findings in sales management and to business cases where the theories and concepts will be applied. The cases will come from either academic sources such as the Harvard Business School or from business owners and managers from the local business community. (Cross-listed with MKT 4320.)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program. Not open to nondegree students.

BSAD 8330 STRATEGIC COLLABORATION: LEADING HIGH IMPACT TEAMS (1 credit)
This course is designed to enhance students’ understanding of collaboration principles, practices and processes. In this interactive course, students will learn how to utilize collaboration tools and techniques and creative problem solving methods to enhance strategic decision making. Other concepts that will be introduced include building and assessing high-performing teams, managing and leading teams, identifying and resolving team dysfunctions, and team decision making approaches. Ultimately, students will learn how to be more influential and improve interactions so people and organizations can work together more efficiently.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8336 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with MGMT 4330, SCMT 4330)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program; or by permission of the instructor. Not open to non-degree students.

BSAD 8340 INTL BUS STUDY ABROAD (3 credits)
This course provides students with an international business and cultural experience through a study tour in a selected international location. Students will develop an understanding of the factors that affect international business decisions by visiting American companies operating abroad and foreign companies that export goods and services to the U.S. Typically, travel is conducted during Spring Break.
Prerequisite(s)/Corequisite(s): Not open to nondegree students.

BSAD 8350 SEMINAR IN MANAGEMENT (3 credits)
A student participation course emphasizing current issues and problems in the areas of management theory and operation.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8356 GLOBAL SOURCING AND INNOVATION (3 credits)
This course will focus on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems focused on new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with SCMT 4350)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8360 FINANCIAL MANAGEMENT FOR EXECUTIVES (3 credits)
Students will develop strategic decision making skills by using financial concepts including time value of money, capital budgeting processes, cash flow forecasting and project risk analysis. Topics covered include: capital budgeting, financial statement analysis, capital structure, financial risk analysis and others.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA program. Not open to non-degree graduate students.

BSAD 8366 E-MARKETING (3 credits)
The focus of this course is understanding the Internet as a marketing tool. The content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, and distributions thereof. The larger impact of the Internet on businesses and future trends also is discussed. (Cross-listed with MKT 4360.)
Prerequisite(s)/Corequisite(s): BSAD 8400 with a grade of ‘B’ or above. Not open to nondegree students.

BSAD 8370 BUSINESS LAW AND ETHICS (2 credits)
Only students who have been admitted to the Executive MBA program may take this course. A comprehensive examination of the existing structure and mechanisms used to resolve disputes in the United States, which allows the student to understand the strengths and weaknesses of this system. It will specifically examine the body of substantive law that affects management, including court decisions, statutes (federal and state), traditional ethical theories as they relate to the law, and international problems that exist in the legal environment.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to nondegree students.

BSAD 8376 SUPPLY CHAIN ANALYTICS (3 credits)
This course focuses on the integration of supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with SCMT 4370)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8380 STRATEGIC OPERATIONS MANAGEMENT (2 credits)
Students will learn how effective decision making skills can be used to create a long-term competitive advantage for an organization through operational excellence. Key concepts in this course will include operations management, quality management, and data analytics. Specific topics will include process improvement, quality assurance, supply chain management, project management, and performance assessment.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8386 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, SCMT 4380)
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree graduate students.
BSAD 8390 CONT ACCT SYSTEMS: MGMT ACCT (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. The course is designed to give students an in-depth understanding of how accounting information is used by management decision-makers. The accounting information system generates information managers use for pricing, budgeting, performance appraisal, purchasing production, capital acquisition, etc. The course focuses on both theoretical and practical dimensions of the topic.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8400 MARKETING POLICIES (3 credits)
This course provides an introduction to the fundamental concepts of marketing, including a customer orientation, matched with attention to competition and core strengths. The course will illustrate strategies and principles that will help you understand how marketing managers, product managers or service managers must think through their situations, determine their goals and lay a course to achieve those goals.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation courses and BSAD 8060 (prior to or concurrent); or admission to MAcc program. Not open to nondegree students.

BSAD 8420 MARKETING: UNDERSTANDING CONSUMERS AND MARKETS (2 credits)
This course exposes MBA students to the fundamental concepts, practices and issues of marketing. A wide range of marketing practices and structures will be explored including product and service firms, consumer and business markets, profit and not-for-profit organizations, domestic and global companies, and small and large businesses.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent). Students with an undergraduate major or a graduate degree in marketing may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8426 BUSINESS DEMOGRAPHICS (3 credits)
The development of a demographic perspective to assist in understanding the business environment and business policy. How population change impacts upon consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with MKT 4420.)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8430 STRATEGIC BRAND MANAGEMENT (3 credits)
An exploration of the characteristics, meanings, and management of brands in the business world. The course examines brands as a strategic asset, and draws on managerial, consumer, and cultural perspectives.
Prerequisite(s)/Corequisite(s): BSAD 8420 or permission of instructor. Not open to Nondegree students.

BSAD 8440 DECISION ANALYTICS (2 credits)
Students will learn to use statistical and decision making tools to interpret data to solve practical management problems and gain desired results. Areas of focus will include market research, decision analysis, data analytics, and business forecasting.
Prerequisite(s)/Corequisite(s): Enrollment in Executive MBA Program. Not open to non-degree graduate students.

BSAD 8450 SEMINAR IN MARKETING (3 credits)
Exploration, study and critical analysis of contemporary marketing problems, trends, methods and approaches for seminar discussion and written report.
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8456 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with MGMT 4450, SCMT 4450.)
Prerequisite(s)/Corequisite(s): Admittance to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8460 MGMT & ORGANIZATION THEORY (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. A systematic analysis of the principles and concepts of organization and management theory including the basic process of management and the fundamentals of organization design. From a micro perspective, the course focuses on the planning, organizing, directing and controlling functions of management with emphasis on the classical, neoclassical, behavioral and systems schools of thought. From a macro perspective, the course focuses on the relationships between such factors as environment, goals, strategy, management process and organizational structure.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8470 INVEST MGMT FOR EXECUTIVES (3 credits)
Only students who have been admitted to the Executive MBA program may take this course. Investigation of the principles involved in building an investment portfolio of securities, and financial analysis of securities, and in learning practices of the securities markets.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8480 APPLICATIONS IN ECONOMICS (2 credits)
Students will learn how to apply micro-economic concepts to corporate strategy. Topics covered include demand analysis and consumer behavior, cost efficiencies such as economies of scale and scope, market structure and strategic pricing, applications of game theory to strategy, and others. The course will also cover macroeconomic conditions and concepts that affect business decisions such as the detection, measurement, and determinants of business cycles and the resulting impact of macroeconomic policy.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8490 IT: LEVERAGING TECH FOR COMP ADV (2 credits)
The premise of this course is that today's executives and managers must learn to use information technology to create competitive firms, manage global corporations and provide useful products and services to customers. Accordingly, the content of this course is focused on use of information technology for competitive advantage. Students will develop case studies of firms who have achieved this objective. Furthermore, the course will address emerging technologies and their current and potential application.
Prerequisite(s)/Corequisite(s): Admittance to the Executive MBA Program. Not open to nondegree students.

BSAD 8500 FINANCIAL MANAGEMENT (3 credits)
This course is an introduction to corporate financial management. Lectures and case studies will be used to acquaint the student with financial decision-making involving such topics as capital budgeting, working capital management, financial statement analysis, capital structure policy and others. This course is required for all students working toward the Master of Business Administration degree.
Prerequisite(s)/Corequisite(s): Completion of MBA foundation requirements and BSAD 8060, 8100 and 8200; or admission to the MAcc program. Not open to nondegree students.
BSAD 8510  SECURITY ANALYSIS (3 credits)
Study of the efficient market, fundamental and technical analysis approaches for the valuation of marketable securities. Methods of analysis are considered for the economy, industry groups and individual corporations.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8520  SEMINAR INVESTMENT MANAGEMENT (3 credits)
Modern Portfolio Theory of Investment Management and its application in formulation of policies for individuals and institutional investors. Qualitative and quantitative analysis of the risks and returns of portfolio management using efficient market, fundamental and technical analysis approaches.
Prerequisite(s)/Corequisite(s): BSAD 8510. Not open to nondegree students.

BSAD 8530  BANK & FINANCIAL MARKETS (3 credits)
A comprehensive study of the structure and functioning of financial firms and markets; recent policies affecting the financial system; proposals for structural and functional changes of the financial system.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8540  MULTINATIONAL FIN MGMT (3 credits)
The focus of this course is on multinational financial management as viewed and practiced by the multinational firm and on current developments in international financial markets, including global banking. Familiarity with certain areas of the firm's environment, such as the international monetary system, the European Monetary System, and determination of exchange rates under alternative regimes, is essential to the international financial manager.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8550  SEMINAR IN FINANCE (1-3 credits)
Selected topics from areas of business finance.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8550  SEMINAR IN BUSINESS ADMIN (3 credits)
This course centers around the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. Students will develop the strategic thinking skills needed to formulate and execute successful strategies for firms/organizations in a variety of industries and dynamic environments. Emphasis is given to the contributions of several business disciplines of study, such as marketing, finance and management, to understanding both the internal operations of the organization and the influences of the external environment. This course is integrative and introduces both the theory and practice that enables that integrative process.
Prerequisite(s)/Corequisite(s): Enrollment in UNO's Executive MBA Program. Not open to non-degree graduate students.

BSAD 8560  STRATEGIC MANAGEMENT (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with FNBK 4570)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8560  INTERNATIONAL: COMPETING IN GLOBAL MARKETS (3 credits)
Students will develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage intercultural conflicts and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to nondegree students.

BSAD 8565  RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
This course provides students with an intermediate level analysis of financial institutions. (Cross-listed with FNBK 4560.)
Prerequisite(s)/Corequisite(s): BSAD 8500 and 8510 or their equivalent, and graduate standing. Not open to nondegree students.

BSAD 8570  STRATEGIC MANAGEMENT (3 credits)
This course centers around the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. Students will develop the strategic thinking skills needed to formulate and execute successful strategies for firms/organizations in a variety of industries and dynamic environments. Emphasis is given to the contributions of several business disciplines of study, such as marketing, finance and management, to understanding both the internal operations of the organization and the influences of the external environment. This course is integrative and introduces both the theory and practice that enables that integrative process.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8576  INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with FNBK 4570)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8580  SECURITY ANALYSIS (3 credits)
Study of the efficient market, fundamental and technical analysis approaches for the valuation of marketable securities. Methods of analysis are considered for the economy, industry groups and individual corporations.
Prerequisite(s)/Corequisite(s): BSAD 8500. Not open to nondegree students.

BSAD 8590  SEMINAR IN BUSINESS ADMIN (3 credits)
This course centers around the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. Students will develop the strategic thinking skills needed to formulate and execute successful strategies for firms/organizations in a variety of industries and dynamic environments. Emphasis is given to the contributions of several business disciplines of study, such as marketing, finance and management, to understanding both the internal operations of the organization and the influences of the external environment. This course is integrative and introduces both the theory and practice that enables that integrative process.
Prerequisite(s)/Corequisite(s): Enrollment in UNO’s Executive MBA program. Not open to non-degree graduate students.

BSAD 8596  RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with FNBK 4570)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

BSAD 8600  REAL ESTATE & LAND USE THEORY (3 credits)
This course brings together the best of the technical literature dealing with the development of advanced tools of analysis and concepts of Real Estate and Land Use Economics. The tools are presented and developed which assist real estate decision-makers in identifying and evaluating professionally the complex factors which determine real estate productivity, value, investment and land-use patterns.
Prerequisite(s)/Corequisite(s): ECON 2200 and 2220 or BSAD 8180. Not open to nondegree students.

BSAD 8606  FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with FNBK 4600.)
Prerequisite(s)/Corequisite(s): BSAD 8500 and 8510 or their equivalent, and graduate standing. Not open to nondegree students.
BSAD 8610 CURRENT PROBLEMS IN RELU (3 credits)
A study of current problems in real estate markets affecting decision policies in the private and public sectors. Analysis of economics of land development and use and re-use of real property to provide a viable environment for all citizens.
Prerequisite(s)/Corequisite(s): RELU 2410, 4400, 4410 and LAWS 3460 or equivalent experience. Not open to nondegree students.

BSAD 8620 VALUATION OF INTELLECTUAL PRP (3 credits)
Intellectual Property (IP) is critical to business success. Accounting, economics, and finance all struggle to quantify “value” of individual IP (e.g., trademark) and bundles of IP (e.g., patent pool). Value depends on the context (e.g., infringement versus depreciation versus sole). This course focuses on application of theory.
Prerequisite(s)/Corequisite(s): BSAD 8010 or BSAD 8100 or BSAD 8110 or BSAD 8500. Not open to nondegree students.

BSAD 8630 FINANCE: UNDERSTANDING CAPITAL AND CASH (2 credits)
As a comprehensive introduction to financial management, the course will cover various fields of finance and discuss topics including the time value of money, bond and stock valuation, capital budgeting.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070, 8150 and 8210. Students with an undergraduate major or a graduate degree in finance or accounting may not include this course on their plan of study for the MBA degree. Not open to non-degree graduate students.

BSAD 8640 IT: STRATEGIC DEVELOPMENT AND DEPLOYMENT (1 credit)
Students will gain a strategic perspective of information technology management, including current trends and best practices, and understand how technology can be used in competitive positioning. Processes for innovation and research and development spending and new business models will be covered.

BSAD 8650 INTERNATIONAL: COMPETING IN GLOBAL MARKETS (2 credits)
This course allows students to develop an understanding of the evolution of the global political economy, challenges faced when operating in the global business environment, and how to evaluate the risks and returns of global expansion. Students will also learn how to effectively communicate in international settings, to successfully manage international conflicts, and to conduct effective cross-border business negotiations.
Prerequisite(s)/Corequisite(s): Enrollment in the Executive MBA Program. Not open to non-degree graduate students.

BSAD 8700 BUSINESS ANALYTICS: MAKING SENSE OF DATA (2 credits)
The purpose of this course is to provide business managers with an understanding of the important role data analytics has assumed in today’s organizations. Data analytics has become a key component in accomplishing strategic and operational goals. This course is designed to familiarize students with the concepts and principles of analytics. It is targeted for graduate or MBA students who have little or no background in analytics. Therefore, it focuses on breadth of coverage rather than depth in any specific area.
Prerequisite(s)/Corequisite(s): BSAD 8060 or BSAD 8070 (prior to or concurrent); or admission to the MAcc program. Not open to non-degree graduate students.

BSAD 8706 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted mainly as a seminar with ample student participation, including a research paper. A “New Economy” has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 4700, ECON 8706.)
Prerequisite(s)/Corequisite(s): Admission to the MBA program or the Economics graduate program. Not open to non-degree students.

BSAD 8710 SUPPLY CHAIN MANAGEMENT (3 credits)
This course will focus on supply chain management as a key functional area of organizational success. Students will learn about current techniques used by supply chain practitioners to make strategic and tactical decisions that support the overall strategy and day-to-day operations of an organization. Students will develop an understanding of how supply chain decisions and appropriate metrics of performance can be utilized to improve the operational efficiency and effectiveness of an organization.
Prerequisite(s)/Corequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor. Not open to non-degree students.

BSAD 8720 STRATEGIC FINANCIAL MANAGEMENT (2 credits)
This course is intended to be advanced financial management. It will stress the theory and application of topics including, but not limited to capital budgeting, cash flow estimation, real options, capital structure, dividends and share repurchases, working capital management, budgeting, planning and forecasting, and lease management. The material covered in Strategic Financial Management will increase the student's knowledge of how to strategically manage financial resources to increase the intrinsic value of the organization.
Prerequisite(s)/Corequisite(s): For MBA students, BSAD 8630. For MAcc students, completion of all Master of Accounting (MAcc) foundation courses. Not open to non-degree students.

BSAD 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter’s theory of creative destruction. The main focus of the seminar will be on the “high-level” entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, ECON 8436)
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students

BSAD 8750 TELECOMM IN BUSINESS (3 credits)
This course is designed to introduce students to basic technology of modern telecommunications, including voice, data and video, as well as the contemporary issues of telecommunication policy. In addition, the course will address managerial issues of modern telecommunications in business.
Prerequisite(s)/Corequisite(s): Graduate. Not open to non-degree students.

BSAD 8766 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth as other pressing issues such as financing, staffing, product development are addressed. This course will focus on consultative solution-based sales fundamentals that can be applied in the entrepreneurial selling environment. (Cross-listed with ENTR 4760, MKT 4760)
Prerequisite(s)/Corequisite(s): GPA 2.5 or better; MKT 3100 with a 2.5 grade or better; MKT 3310 with a 2.5 grade or better; or permission of instructor. Not open to non-degree graduate students.

BSAD 8800 MBA PROJECT-FOCUSED CAPSTONE (2-3 credits)
As the project-focused capstone course for the Master’s of Business Administration (MBA) degree, this course will focus on students completing a service-learning consulting project for a non-profit or other organization. This consulting project will focus on the application of the knowledge and skills learned in the MBA program.
Prerequisite(s)/Corequisite(s): Students must complete this course in the final semester or within the last 9 hours of their MBA program courses. A minimum B grade required to complete the course successfully and qualify for graduation. Not open to non-degree graduate students.
BSAD 8810 APP STRATEGIC LEADERSHIP (3 credits)
Applied and integrative course in the MBA program, with an emphasis on field experiences when possible.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in, or completion of, BSAD 8060. Not open to nondegree students.

BSAD 8830 STRATEGY: DEVELOPING SUSTAINABLE COMPETITIVE ADVANTAGE (2 credits)
This course centers on the theme that a company achieves sustained success if and only if its managers (1) develop, and revise as needed, an action-oriented strategic plan and (2) implement and execute the plan with some proficiency. The primary objective of this course is to sharpen the ability of students to think strategically, to diagnose situations from a strategic perspective and to develop creative solutions to enable firms to achieve a sustainable competitive advantage.
Prerequisite(s)/Corequisite(s): Students must successfully complete BSAD 8150 and BSAD 8210 before enrolling in this course. This course must be taken within the first 20 hours of the MBA program. Not open to nondegree graduate students.

BSAD 8880 ARTS AND THE EXECUTIVE (3 credits)
The course will provide the graduate student with an understanding of the organizational and managerial issues involved in an arts organization as the role of the arts in the business community. (Cross-listed with FINA 8010.)
Prerequisite(s)/Corequisite(s): Graduate. Not open to nondegree students.

BSAD 8900 INDEPENDENT STUDY (1-6 credits)
Individual research in an academic area in business administration.
Prerequisite(s)/Corequisite(s): Requires submission of completed Independent Study Contract to MBA Advisor prior to registration. Not open to nondegree students.

BSAD 8910 SPECIAL STUDIES IN BUSINESS (1-3 credits)
May be repeated up to (6). A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Graduate in good standing and as indicated for specific workshop or seminar. Not open to nondegree students.

BSAD 8916 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with ECON 8916, ECON 4910).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

BSAD 8990 THESIS (1-6 credits)
A research project, under the supervision of a faculty thesis adviser in the College of Business Administration, in which the student establishes his capacity to design, conduct and complete an independent, scholarly investigation of a high order of originality. The research topic and the completed project must be approved by the student's faculty thesis adviser and two other faculty members, one of whom must be from outside the program area.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser. Not open to nondegree students.

Chemical Engineering (CHME)

CHME 8306 CHEMICAL ENGINEERING LAB (4 credits)
Selected experiments in chemical engineering. Emphasis on experimental design, interpretation of results, and formal oral and written reports. (Cross-listed with CHME4300)
Prerequisite(s)/Corequisite(s): CHME2030 and CHME3330 and (coreq CHME4420 or CHME8426)

CHME 8346 DIFFUSIONAL OPERATIONS (3 credits)
Application of diffusional theory to the design of processing equipment required for absorption, adsorption, leaching, drying, and chemical reactions. (Cross-listed with CHME4340)
Prerequisite(s)/Corequisite(s): CHME3330 and CHME4420 and MATH2350

CHME 8426 CHEMICAL REACTOR ENGR & DESIGN (3 credits)
Basic principles of chemical kinetics are coupled with models descriptive of rates of energy and mass transfer for the analysis and design of reactor systems. (Cross-listed with CHME4420)
Prerequisite(s)/Corequisite(s): CHME3220

CHME 8896 AIR POLLUTION, ASSESSMENT AND CONTROL (3 credits)
Survey of the present status of the air pollution problem and the application of engineering and scientific principles to its practical and effective coordinated control. (Cross-listed with CHME 4890).
Prerequisite(s)/Corequisite(s): Senior standing, not open to nondegree students

Chemistry (CHEM)

CHEM 8040 SEMINAR IN TEACHING ADVANCED PLACEMENT CHEMISTRY (2 credits)
This course provides an introduction to the Advanced Placement high-school chemistry course and includes instruction on content and methods specific to teaching an Advanced Placement chemistry course. Emphasis will be placed on subject content and adaptations of college-level laboratory experiments to the high-school level.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in the Advanced Placement Chemistry Institute at UNO and current employment as a high-school science teacher or instructor permission.

CHEM 8215 INTRODUCTION TO MOLECULAR MODELING (3 credits)
The course covers the advantages and limitations of current modeling systems, the criteria for choosing the appropriate modeling system to best solve a given problem and the computer resources needed to conduct the modeling experiments. Following an introduction to the theory behind a variety of modeling systems, students model organic and bioorganic compounds in projects designed to mimic real world applications. (Alternate Spring semesters). (Cross-listed with CHEM 3210).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 8236 ADVANCED ORGANIC CHEMISTRY - SYNTHESIS (3 credits)
An advanced lecture course in modern theories and organic reactions with application to synthesis. (Alternate Fall semesters) (Cross-listed with CHEM 4230).

CHEM 8246 ADVANCED ORGANIC CHEMISTRY - MECHANISM (3 credits)
An advanced lecture course in organic chemical reactions. (Cross-listed with CHEM 4240).

CHEM 8316 POLYMER CHEMISTRY (3 credits)
An introduction to the chemical and physical properties of polymers. Emphasis will be on physical properties and structure/property relationships. Topics will include kinetics and synthesis. Students will gain an understanding of the characteristics of polymers and their applications.
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 3350 with a grade of C or better, or instructor permission.

CHEM 8355 PHYSICAL CHEMISTRY I (3 credits)
A presentation of selected topics from the areas of classical thermodynamics and electrochemistry. (Fall) (Cross-listed with CHEM 3350).
Prerequisite(s)/Corequisite(s): Concurrent enrollment in CHEM 8359.
CHEM 8359 PHYSICAL CHEMISTRY I LABORATORY (1 credit)
Physical chemistry laboratory covering topics in thermodynamics, kinetics and electrochemistry, to be taken concurrently with CHEM 3350/8355. Instruction and practice in scientific writing is also an emphasis of the course. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall). (Cross-listed with CHEM 3354).
Prerequisite(s)/Corequisite(s): CHEM 2404, CHEM 2274; Coreq: CHEM 3350.

CHEM 8365 PHYSICAL CHEMISTRY II (3 credits)
A presentation of selected topics from the areas of quantum mechanics, spectroscopy, kinetics and statistical mechanics. (Cross-listed with CHEM 3360).
Prerequisite(s)/Corequisite(s): CHEM 3350 and CHEM 3354 with a grade of C- or better.

CHEM 8369 PHYSICAL CHEMISTRY II LABORATORY (1 credit)
Physical chemistry laboratory covering topics in quantum mechanics, computational chemistry, spectroscopy, and kinetics, to be taken concurrently with CHEM 3360. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring). (Cross-listed with CHEM 3364).
Prerequisite(s)/Corequisite(s): CHEM 3350 and 3354 with a grade of C- or better; to be taken concurrently with CHEM 3360.

CHEM 8406 INSTRUMENTAL ANALYSIS (3 credits)
Study of instrumentation for use in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 4400).
Prerequisite(s)/Corequisite(s): Concurrent enrollment in CHEM 8409.

CHEM 8409 INSTRUMENTAL ANALYSIS LABORATORY (1 credit)
Investigation of instrument performance and use of instrumentation in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 4404).
Prerequisite(s)/Corequisite(s): Concurrent enrollment in CHEM 8406.

CHEM 8419 INSTRUMENTAL METHODS (1 credit)
Laboratory course involving use of modern instrumentation to conduct analytical determinations following standard methods. Topics include use of standards, field sampling and sample storage. (Fall, Spring) (Cross-listed with CHEM 3414.)
Prerequisite(s)/Corequisite(s): CHEM 2400 and CHEM 2404 with a grade of C or better.

CHEM 8429 SPECTROMETRIC CHARACTERIZATIONS (1 credit)
Laboratory course involving the use of spectrometric instrumentation for the identification of compounds containing organic functional groups. (Cross-listed with CHEM 3424).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274, CHEM 2400 and CHEM 2404 with a grade of C or better.

CHEM 8506 ADVANCED INORGANIC CHEMISTRY (3 credits)
The application of bonding models for understanding of the composition, structure, and reactions of inorganic molecules, including organometallic and bioinorganic complexes. (Cross-listed with CHEM 4500).
Prerequisite(s)/Corequisite(s): CHEM 8555 or may be taken concurrently.

CHEM 8519 INORGANIC PREPARATIONS (1 credit)
Laboratory preparation and characterization of representative types of inorganic compounds by various standard and special techniques.
Prerequisite(s)/Corequisite(s): CHEM 2274, CHEM 2400, CHEM 2404, CHEM 2500 with a grade of C or better.

CHEM 8564 BIOCHEMISTRY I LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 4654, BIOL 8654, CHEM 4654).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 8654 must be taken concurrently.

CHEM 8656 BIOCHEMISTRY I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 4650, BIOL 8656, CHEM 4650).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 8654 must be taken concurrently.

CHEM 8664 BIOCHEMISTRY II LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 4664, BIOL 8664, CHEM 4664).
Prerequisite(s)/Corequisite(s): CHEM 8656 and CHEM 8654 or BIOL 8654 and BIOL 8664 with a grade of B- or better. Concurrent enrollment in CHEM 8666.

CHEM 8666 BIOCHEMISTRY II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 4660, BIOL 8666, CHEM 4660).
Prerequisite(s)/Corequisite(s): CHEM 8656 and CHEM 8654 or BIOL 8656 and BIOL 8664 with a grade of B- or better. CHEM 8664 must be taken concurrently.

CHEM 8676 PROTEIN PURIFICATION AND CHARACTERIZATION (2 credits)
This course is a study of protein biochemistry, protein purification techniques, and characterization strategies with an emphasis on chromatography and crystallography. The course has a significant laboratory component. (Cross-listed with CHEM 4670).
Prerequisite(s)/Corequisite(s): CHEM 8656 and CHEM 8654 (grade of B or better), or permission of instructor.

CHEM 8936 SPECIAL TOPICS IN CHEMISTRY (1-3 credits)
Selected special topics in chemistry. (Cross-listed with CHEM 4930).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2400 with a grade of C or better. Some topics will require more advanced prerequisites and will be accepted for advanced course work in chemistry.

CHEM 8966 CHEMISTRY PROBLEMS (1-3 credits)
Independent student research and communication of results. (Cross-listed with CHEM 4960).
Prerequisite(s)/Corequisite(s): CHEM 4950 with a grade of C or better and permission of instructor.
CHEM 8990 RESEARCH IN CHEMISTRY (0 credits)
Experimental or theoretical work in chemistry or an interdisciplinary field involving chemical content, analysis and communication of results.
Prerequisite(s)/Corequisite(s): Permission of instructor, graduate, and sufficient grounding in the research area to fully support successful project accomplishment.

College of Information Science & Technology (CIST)

CIST 8106 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
To examine the frameworks and tools used to develop an organization’s information systems architecture. To provide the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information systems architecture. (Cross-listed with CIST 4100).
Prerequisite(s)/Corequisite(s): CIST3100, ISQA3310 or ISQA8050

CIST 9040 COLLOQUIUM ON IT RESEARCH (1 credit)
The purpose of the course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as researchers. Topics to be discussed include: nature of research in information technology; research problem selection, development, and presentation with special emphasis on the doctoral dissertation; dissertation process; development and crafting of papers for journals; collaboration on research projects; and review process for journal papers.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9050 COLLOQUIUM ON IT TEACHING (1 credit)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as teachers/educators in university settings.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9060 COLLOQUIUM ON IT PROFESSION AND ETHICS (1 credit)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to professional success as members of the academy.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Information Technology or permission of instructor. Not open to non-degree graduate students.

CIST 9080 RESEARCH DIRECTIONS IN IT (3 credits)
The purpose of this course is to provide a forum for interaction among doctoral students and faculty on topics of relevance to IT research and make them familiar with current and future research directions in IT.
Prerequisite(s)/Corequisite(s): Doctoral standing in Information Technology or permission of course coordinators. CIST 9040 is recommended. Not open to non-degree graduate students.

CIST 9900 SPECIAL TOPICS IN INFORMATION TECHNOLOGY (1-3 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the information technology area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
Prerequisite(s)/Corequisite(s): Permission of the instructor. Additional prerequisite courses may be required for particular topic offerings.

CIST 9980 INDEPENDENT STUDY IN INFORMATION TECHNOLOGY (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.
Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

CIST 9990 DISSERTATION (1-12 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee “supervisory committee”. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge in information systems and/or information technology.
Prerequisite(s)/Corequisite(s): Admission to the Ph.D. program in Information Technology. Admission to candidacy for the Ph.D. degree. Prior to enrolling for dissertation hours, the students must have permission of the supervisory committee. Not open to non-degree graduate students.

Communication (COMM)

COMM 8010 SEMINAR IN COMMUNICATION RESEARCH: QUANTITATIVE EMPHASIS (3 credits)
Philosophy of scientific investigation from a quantitative standpoint, including process and products, in comparison to other ways of knowing. Introduces students to quantitative designs and statistical applications for communication research and to data gathering methods appropriate for such designs. Emphasis is placed on preparing, evaluating and writing quantitatively oriented communication research proposals and reports.
Prerequisite(s)/Corequisite(s): Graduate majoring in communication or permission of instructor.

COMM 8020 SEMINAR IN COMMUNICATION RESEARCH: QUALITATIVE EMPHASIS (3 credits)
This course is an introduction to the methodology and practice of qualitative research. Within the course, students will be exposed to research paradigms, approaches to qualitative research, and ways to collect and analyze qualitative data. Students will be required to design and carry out their own qualitative research project.

COMM 8030 TOPICS IN COMMUNICATION METHODS (1-6 credits)
This variable-content course provides students with in-depth knowledge about such topics as communication research methods (e.g., survey or experimental, content analysis, legal) or other communication methods and assessment in contexts such as instructional, health, media, interpersonal, or organizational.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. Graduate non-degree students not allowed.

COMM 8110 SEMINAR IN MODERN PUBLIC ADDRESS (3 credits)
Studies in figures, movements and institutions prominent in modern public address.

COMM 8180 TOPICS IN SPEECH COMMUNICATION (3 credits)
A variable content course dealing with speech communication. Each offering will treat a single aspect of speech communication in-depth, e.g., interpersonal conflict, gender and communication, organizational culture, health systems communication, relational communication, political communication, marital and family communication, communication education, etc. Course may be repeated.

COMM 8200 SEMINAR IN POPULAR CULTURE, MASS MEDIA AND VISUAL RHETORIC (3 credits)
This course studies how discursive meaning is made through established and emerging visual technologies and the impact visual symbol systems are having upon the field of rhetoric in general. Students will investigate how visual technologies, discourse theory, and semiotic theory has intersected with and expanded contemporary rhetorical theories, and they will apply these theories to visual texts. (Cross-listed with ENGL8760)
COMM 8300  TOPICAL SEMINAR  MASS MEDIA (3 credits)
Substantive study of specialized areas and modes of broadcasting, film and
print communication. Content will vary. Course may be repeated.
Prerequisite(s)/Corequisite(s): Graduate and majoring in communication or permission of instructor.

COMM 8436  GLOBAL MEDIA COMMUNICATION (3 credits)
In-depth study of global media communication systems. This course will
examine cultural influence of dominant global media, the changing global
media climates, information flow, regulation and censorship of media
worldwide. Students will look at the various aspects of mass communication
including advertising, public relations, radio, television, movies and social
media. There will be an emphasis on global communication theories and on
critical examinations of media systems. (Cross-listed with JMC 4430)

COMM 8470  FOUNDATIONS SEMINAR: COMMUNICATION STUDIES
(3 credits)
This course is part of the Communication graduate degree core coursework.
The course exposes students to the structure and historical development of the
Communication Studies discipline. It also addresses issues involved in
conceptualizing, evaluating, and doing research in Communication Studies
from post-positive, interpretive, and critical perspectives. Additionally, the
course examines Communication Studies in selected contexts and sub-
disciplines. Finally, current and future directions in the development of the
Communication Studies discipline are addressed.
Prerequisite(s)/Corequisite(s): Communication graduate students admitted to program; others may enroll only with instructor permission

COMM 8500  SEMINAR IN COMMUNICATION THEORY (3 credits)
This course has a twofold purpose: (1) to expose students to different
perspectives on building and critiquing theory (e.g., the classical versus
the interpretive naturalistic perspectives.) (2) to apply perspectives to
the analysis and critique of a range of influential theoretical approaches
employed in the communication discipline (e.g., systems theory, semiotics,
message reception/processing theories).
Prerequisite(s)/Corequisite(s): Graduate and majoring in communication, or permission of instructor.

COMM 8570  FOUNDATIONS OF MASS COMMUNICATION (3 credits)
This course is part of the Communication graduate degree core coursework. This course presents a broad-based historical, theoretical,
and methodological introduction to Mass Communication research and
interconnection with Communication Studies. Course content moves from
the initial, early 20th century research through contemporary studies and
critique.
Prerequisite(s)/Corequisite(s): Communication graduate students admitted to program; others may enroll only with instructor permission. Not open to non-degree graduate students.

COMM 8970  GRADUATE PROJECT (3 credits)
Project Option students must complete a three-hour graduate project
written under the supervision of an adviser. A two-member graduate
committee must approve the project.
Prerequisite(s)/Corequisite(s): COMM 8010, 8020, 8470, 8570 and
student must be admitted to candidacy.

COMM 8980  INDEPENDENT STUDY (1-3 credits)
Students conduct independent research under the supervision of an adviser.
May be taken multiple times with approval of graduate adviser.

COMM 8990  THESIS (1-6 credits)
Independent research project written under the supervision of an adviser.

COMM 9400  SEMINAR IN COMMUNICATION & TECHNOLOGY (3
credits)
A synthesis of speech and mass communication research as it relates to the
study of computers and technology. Computer Mediated Communication
(CMC) will be emphasized. Students write a research paper appropriate for
submission to an academic conference. (Cross-listed with ISQA 9900)
Prerequisite(s)/Corequisite(s): COMM 8470 or 8570, and COMM 8010
or 8020, or permission of instructor.

Communication Studies
(CMST)

CMST 8116  RHETORICAL THEORY AND CRITICISM (3 credits)
Rhetorical theory and criticism, emphasizing ways of evaluating oral
communication. (Cross-listed with CMST 4110)

CMST 8126  COMMUNICATION AND SOCIAL PROTEST (3 credits)
This class will examine the role played by communication in movements for
social change in contemporary society. We will examine social movements
which rely on speeches (i.e. women’s rights movements), social movements
which rely on the grassroots political efforts of their members (i.e. the
environmental rights movement) and the overall strategies of persuasion
utilized in movements which seek social change, including emerging
communication technologies. (Cross-listed with CMST 4120)
Prerequisite(s)/Corequisite(s): Non-degree or admission to School of Communication M.A. program.

CMST 8136  FAMILY COMMUNICATION (3 credits)
This course emphasizes the role of communication in family relationships.
Theories, models, and research methods will be used to examine the
family in various cultures and contexts (e.g., nuclear families, single-parent
families, and blended families). Topics that will be covered in this course
include: family conflict, family roles, family stories, family stress, family well-
being, genograms, marriage, and divorce. (Cross-listed with CMST 4130)
Prerequisite(s)/Corequisite(s): Graduate majoring in the School of Communication or permission of instructor. Not open to non-degree graduate students.

CMST 8146  COMMUNICATION AND HUMAN RELATIONSHIPS (3
credits)
This course applies theories of interpersonal processes and communication
principles to the study of close, significant and personal human
relationships. Discussion focuses on the communication in different types
of relationships and relational stages, e.g., strangers, acquaintances,
friendships and intimates. (Cross-listed with CMST 4140)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-
degree graduate students.

CMST 8156  CORPORATE TRAINING AND DEVELOPMENT (3 credits)
This course introduces students to the process of designing communication
training programs and workshops for a variety of professional settings.
It provides students, especially those who are prospective trainers and/
or consultants, with experiential and cognitive knowledge about needs
assessment, adult learning, communication training research, objectives
writing, module design, interactive delivery methods and program
evaluation. (Cross-listed with CMST 4150)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-
degree graduate students.

CMST 8166  COMMUNICATION FOR INSTRUCTIONAL SETTINGS (3
credits)
This course is designed to help prospective instructors and/or trainers
understand and apply the principles of communication in instructional
settings (i.e., classrooms, workshops, training programs). It introduces
students to the research area in the speech communication discipline
called ‘Instructional Communication’ by covering these five units:
1) Communication Strategies, Objectives, & Content; 2) Student
Communication Needs & Expectations; 3) Feedback, Reinforcement, &
Discussion; 4) Context, Climate, & Influence; and 5) Teacher Communicator
Style, Characteristics, & Behaviors. (Cross-listed with CMST 4160)
Prerequisite(s)/Corequisite(s): Graduate standing.

CMST 8176  ORGANIZATIONAL COMMUNICATION (3 credits)
This course will help students understand organizational communication
theories, models, and processes; apply these principles in organizational
communication speaking exercises; and learn management and leadership
skills. (Cross-listed with CMST 4170)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-
degree graduate students.
CMST 8186 COMMUNICATION LEADERSHIP AND POWER AND ORGANIZATIONS (3 credits)
This course provides theoretical and experiential knowledge about such topics as communication leadership styles and tactics, superior and subordinate interactions, power, ethical responsibilities, and diversity gender issues related to communication leadership. (Cross-listed with CMST 4180)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8196 COMPUTER-MEDIATED COMMUNICATION (3 credits)
Computer-Mediated Communication addressing emerging issues of virtual communities, identity, civic life and participation, online relationships, collaborative work environments, digital networks, gender race class issues, legal and ethical considerations of technology, and commodification of mediated communication. (Cross-listed with CMST 4220)
Prerequisite(s)/Corequisite(s): Admission into the graduate program

CMST 8226 HEALTH COMMUNICATION (3 credits)
This course introduces students to the interdisciplinary field of health communication. In this course, students will learn various theories of health communication as well as current research and trends in health communication and its related fields. To speak to the complexity and dynamism of health communication, this course will expose students to the multiple voices and perspectives involved in the delivery of health and healthcare. (Cross-listed with CMST 4220)
Prerequisite(s)/Corequisite(s): Junior standing; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 8516 PERSUASION AND SOCIAL INFLUENCE (3 credits)
The primary goal of this course is to provide students with a solid grounding in theories, principles, and strategies of persuasion social influence as they apply to everyday contexts in which influence attempts take place. Students should gain familiarity with findings from empirical investigations on persuasion, social influence, and compliance gaining, and will learn about strategies and techniques of persuasion relating. (Cross-listed with CMST 4510)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

CMST 8526 PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with CMST 4520)
Prerequisite(s)/Corequisite(s): Admission into graduate program. Not open to non-degree graduate students.

CMST 8536 INTERCULTURAL COMMUNICATION (3 credits)
This course will provide a foundation that leads to Intercultural Communication competence. Specifically, this course is to introduce the concepts of cross-cultural communication. Theory and research are integrated with application and necessary skills are identified and developed. (Cross-listed with CMST 4530)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CMST 8546 CONTEMPORARY SYSTEMS OF COMMUNICATION (3 credits)
An adaptation of General Systems Theory concepts to the study of human communication processes with emphasis on systems analysis of contemporary interpersonal communication perspectives. (Cross-listed with CMST 4540)
Prerequisite(s)/Corequisite(s): Graduate standing and major in communication; or permission of instructor.

CMST 8556 NONVERBAL COMMUNICATION (3 credits)
This course is designed to familiarize the student with current knowledge and research about nonverbal communication and to provide a wide variety of practical experiences through which the student can analyze and evaluate his or her own nonverbal behavior and that of others. The course, also, reviews the functions, areas and applied contexts of nonverbal communication. (Cross-listed with CMST 4550)
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

CMST 8566 COMMUNICATION, TEAMWORK, & FACILITATION (3 credits)
This course focuses on the communication practices, process tools, and theory associated with team problem solving. group discussion, facilitation skills, facilitative leadership, meeting management, and training in effective group interaction. (Cross-listed with CMST 4560)
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to nondegree students.

CMST 8576 INTERCULTURAL COMMUNICATION IN THE GLOBAL WORKPLACE (3 credits)
This course examines the intercultural perspective of organizational communication in a modern global world by focusing on the management of cultural differences in the global workplace. The trend towards a global economy is bringing people of different ethnic and cultural background together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. (Cross-listed with CMST 4570)
Prerequisite(s)/Corequisite(s): Graduate standing.

CMST 8586 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with CMST 4580, BLST 4580, BLST 8586)
Prerequisite(s)/Corequisite(s): Graduate major/minor in Communication or Black Studies or instructor permission.

CMST 8606 COMMUNICATION THEORY AND APPLICATION (3 credits)
This course begins by introducing students to two broad categories of theory development - objective and interpretive. Then concepts and assumptions associated with each of these two perspectives are employed to critically evaluate several specific theories that fall within different of the sub-disciplines of the field of communication: interpersonal, organizational, mass, public/theoretical, cultural, and intercultural/gender. Along with critically evaluating and comparing/contrasting different communication theories, emphasis is placed on how the theories can be effectively applied in concrete settings and circumstances. (Cross-listed with CMST 4600)
Prerequisite(s)/Corequisite(s): Graduate standing

CMST 8626 DIRECTING FORENSICS (3 credits)
To provide students planning to teach speech in high school or college with a philosophy and detailed knowledge of how to direct a forensic program. (Cross-listed with CMST 4620)
CMST 8706 INTERPERSONAL CONFLICT (3 credits)
This course provides an overview of interpersonal conflict processes. It examines perspectives on conflict, patterns of constructive and destructive conflict, conflict styles and tactics, interpersonal power, negotiation strategies, conflict assessment, and conflict skill development. (Cross-listed with CMST 4700)
Prerequisite(s)/Corequisite(s): Communication major
CMST 8806 CONFLICT MEDIATION (3 credits)
This course develops knowledge of mediation theory, research, and practice and communication skills essential to the effective mediation of disputes in various contexts. (Cross-listed with CMST 4800)
Prerequisite(s)/Corequisite(s): Graduate major in Communication or Master of Business Administration (MBA) program, or instructor permission.

Community & Regional Planning (CRP)

CRP 8006 INTRODUCTION TO PLANNING (3 credits)
The field of community and regional planning is introduced and is studied in relation to the history of cities, urbanization, and regionalization. The course explores the origins and evolution of American urban and regional planning practice. The planning process as a response to social, political, physical, and economic factors is analyzed. The course introduces the community comprehensive planning process, plan implementation, and functional areas of planning. Cross-listed with CRP 4000.

CRP 8020 PLANNING THEORY (3 credits)
Linkages between knowledge and organized action in planning practice are analyzed in terms of philosophical underpinnings, decision theory, programming, policy formulation, politics, goals, values and social change. The historical traditions of contemporary planning theory are studied. The identities, roles, and relationships of planners with society are explored.
Prerequisite(s)/Corequisite(s): CRP 4000/8006

CRP 8040 LEGAL ASPECTS OF PLANNING (3 credits)
Applications of constitutional, common, administrative, and statutory law in the planning process are studied. The roles of the branches of American government in the regulation and control of land use and development, as well as in the planning, development, and delivery of public services and facilities are examined. Legal theories, issues, cases, and applications relevant to planning are included.
Prerequisite(s)/Corequisite(s): CRP 4000/8006

CRP 8050 SOCIAL PLANNING & POLICY (3 credits)
The area of social planning and policy is introduced and studied through a historical presentation of U.S. social welfare policy, an exploration of models and methods utilized by government and human service agencies in the planning of social programs, and an analysis of contemporary social policy issues. Areas to be covered include privatization, universalism vs. selectivity, race and ethnicity, homelessness, and poverty. Cross-listed with CRP 4500.

CRP 8606 PLANNING & DESIGN BUILT ENVIR (3 credits)
The course introduces principles and practices of planning, design, and implementation for multiple-structure built environments. The influences of physical, social, environmental, and economic factors upon planned and designed environments are studied. Various planning and design methods, processes, and products are introduced. Means of project implementation are explored, and examples of existing and proposed projects are studied. Cross-listed with CRP 4500.

CRP 8706 ENVIRONMENTAL PLANNING & POLICY (3 credits)
The course introduces environmental planning, including its history and origins. Major environmental issues throughout the world, and the roles of planning in addressing these problems, are discussed. The environmental planning process and environmental legislation are studied. Cross-listed with CRP 4700.

CRP 8806 ECON DVLP & REGIONAL PLANNING (3 credits)
This course introduces the theory and principles of economic development planning and regional planning involving multiple jurisdictions. Concepts, analytical approaches, and theories of economic growth of local communities and multijurisdictional regions are introduced. The course includes consideration of local economic development plans for small communities, as well regional plans for multijurisdictional areas. International perspectives of economic development and regional planning are also discussed. Cross-listed with CRP 4800.

CRP 8900 PROFESSIONAL SEMINAR (1 credit)
Diverse issues relating to contemporary professional planning practice are studied through abbreviated case studies and presentations by visiting specialists and participants in the planning process. Interrelated social, economic, political, and physical factors affecting specific planning situations are studied. Current and emerging roles for professional planners are discussed and analyzed.
Prerequisite(s)/Corequisite(s): CRP major

CRP 8976 SELECTED TOPICS COMM REG PLNG (1-6 credits)
Group investigation of a topic in community and regional planning and development. Cross-listed with CRP 4970.

CRP 8980 SPECIAL PROBLEMS IN COMMUNITY AND REGIONAL PLANNING (1-6 credits)
Individual or group investigations of problems relating to community and regional planning.
Prerequisite(s)/Corequisite(s): MCRP degree candidate

Computer Science (CSCI)

CSCI 8000 ADVANCED CONCEPTS IN PROGRAMMING LANGUAGES (3 credits)
This course studies the concepts and properties of programming languages in general. It covers the syntax of major programming languages such as the imperative, functional, and logic programming languages, and the semantics of programming languages such as those dealing with concurrency and object oriented programming. Topics in formal language theory, parsing, and formal methods of syntax description are also covered.
Prerequisite(s)/Corequisite(s): CSCI 3320. Not open to non-degree graduate students.

CSCI 8010 FOUNDATIONS OF COMPUTER SCIENCE (3 credits)
This is a foundational course for students enrolled in the graduate program in computer science. The objectives are to introduce students to a large body of concepts so that they are better prepared for undertaking the core courses in the graduate program. It is assumed that student would have programmed in a high-level language and have exposure to basic college level mathematical concepts such as logarithms, exponents, sequences, and counting principles.
Prerequisite(s)/Corequisite(s): Students are expected to have written programs using a high-level programming language and should understand basic mathematical concepts including exponents, logarithms, sequences, and counting principles. Not open to non-degree graduate students.

CSCI 8016 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with MATH 4010, MATH 8016, CSCI 4010).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor's permission.
CSCI 8040 LARGE SCALE NETWORK ANALYSIS ALGORITHMS (3 credits)
The course will provide a review of the properties of large complex network systems, such as those occurring in social networks, epidemiology and biological systems. We will discuss algorithms to analyze these properties, their implementations, their stability under information fluctuation and how information spreads through networks.
Prerequisite(s)/Corequisite(s): Students should be comfortable w/ programming, have knowledge of data structures, preliminary graph algorithms, & linear algebra. Suggest Prep Courses: CSCI 4150 or CSCI 8156; MATH 4050 or Permission. Not open to non-degree graduate students.

CSCI 8050 ALGORITHMIC GRAPH THEORY (3 credits)
Review of the basic concepts of graph theory. Introduction to perfect graphs and their characterizations. Main classes of perfect graphs and their properties. Algorithms for main problems of perfect graphs. Applications of perfect graphs in several fields such as scheduling, VLSI and communication networks. (Cross-listed with MATH 8050).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and MATH 4150 or MATH 8156 or permission of instructor. Not open to non-degree graduate students.

CSCI 8060 ALGORITHMIC COMBINATORICS (3 credits)
This course includes classical combinatorial analysis graph theory, trees, network flow, matching theory, external problems, and block designs. (Cross-listed with MATH 8060).
Prerequisite(s)/Corequisite(s): MATH 3100, CSCI 3100, MATH 8105 or CSCI 8105 or instructor's permission.

CSCI 8070 GENETIC ALGORITHMS (3 credits)
This course introduces the student to the fast growing field of genetic algorithms. The course covers the basic concepts of genetic algorithms and their implementations. Case studies from different fields such as chip design, scheduling, and information gathering are used to illustrate how genetic algorithms can be used to solve important problems effectively.
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325; bachelor's degree and permission from the graduate program committee. Not open to non-degree graduate students.

CSCI 8080 DESIGN AND ANALYSIS OF ALGORITHMS (3 credits)
The study of algorithms important in computer programming. Principles and underlying concepts of algorithm design, fundamental techniques of algorithm analysis, typical types of algorithms and computer architecture. (Cross-listed with MATH 8080).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or equivalent. Not open to non-degree graduate students.

CSCI 8100 EXPERT SYSTEMS (3 credits)
A study of the theoretical basis and practical design of expert systems. Knowledge engineering. Foundations in logic programming, the architecture of expert systems, languages (Prolog, LISP) for expert systems, expert system shells, knowledge acquisition, current issues.
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456 or equivalent. Not open to non-degree graduate students.

CSCI 8105 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya’s formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with MATH 8105, MATH 3100, CSCI 3100).
Prerequisite(s)/Corequisite(s): MATH 2030 with a C- or better or MATH 2040 with a C- or better or MATH 2230 with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

CSCI 8110 ADVANCED TOPICS IN ARTIFICIAL INTELLIGENCE (3 credits)
An in-depth study of one or more topics selected from: search techniques, knowledge representation, knowledge programming, parallel processing in Artificial Intelligence, natural language processing, image processing, current and future directions, etc. May be repeated with different topics, with permission of adviser.
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456 or equivalent. Not open to non-degree graduate students.

CSCI 8150 ADVANCED COMPUTER ARCHITECTURE (3 credits)
Various parallel architectures, models of parallel computation, processor arrays, multiprocessor systems, pipelined and vector processors, dataflow computers and systolic array structures.
Prerequisite(s)/Corequisite(s): CSCI 4350, CSCI 4500 and graduate. Not open to non-degree graduate students.

CSCI 8156 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 4150, MATH 4150, MATH 8156).
Prerequisite(s)/Corequisite(s): CSCI 2030 or permission of instructor.

CSCI 8160 INTRODUCTION TO VLSI DESIGN (3 credits)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and CSCI 4350 or CSCI 8356. Not open to non-degree graduate students.

CSCI 8170 VLSI TESTING (3 credits)
This course covers topics in VLSI testing. In particular, topics covered include fault modeling, fault simulation, test generation, testability profiles, built-in tests, and binary decision diagrams.
Prerequisite(s)/Corequisite(s): Bachelor's degree and permission from the Graduate Program Committee; CSCI 4350. Not open to non-degree graduate students.

CSCI 8200 INTERCONNECTION NETWORKS (3 credits)
This course is to introduce the technology of interconnection networks from topology of networks, through routing and flow control, to a discussion of hardware/software fault tolerance, and to understand parameters affecting performance.
Prerequisite(s)/Corequisite(s): Bachelor's degree and permission from the Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8210 ADV COMMUNICATIONS NETWORKS (3 credits)
Advanced study of communication networks, analysis of communication needs, special problems encountered in different types of networks, efficiency and traffic analysis and emerging hardware software technologies. Detailed “hands-on” study of the TCP/IP networking protocols.
Prerequisite(s)/Corequisite(s): CSCI 3550 or 8555 or equivalent. Not open to non-degree graduate students.
CSCI 8220 TELECOMMUNICATIONS MANAGEMENT (3 credits)
This course will focus on the management required to operate today's complex telecommunications networks. The course will be based on the standards that are currently in place as well as examining the future directions. The student, upon the successful completion of this course, will have: an operational knowledge of the components of complex telecommunications networks, the management structures and computer systems needed to maintain that network, and the security solutions used to protect that network. (Cross-listed with ISQA 8230)
Prerequisite(s)/Corequisite(s): Acceptance into the Graduate program of CSCI or MIS or by permission of the instructor. Not open to non-degree graduate students

CSCI 8256 HUMAN COMPUTER INTERACTION (3 credits)
Human-computer interaction is concerned with the joint performance of tasks by humans and machines; human capabilities to use machines (including learnability of interfaces); algorithms and programming of the interface; engineering concerns that arise in designing and building interfaces; the process of specification, design, and implementation of interfaces; and design trade-offs. (Cross-listed with CSCI 4250).
Prerequisite(s)/Corequisite(s): CSCI 4830 (may be taken concurrently). Knowledge of object-oriented programming concepts. Demonstrated fluency in any visual programming language.

CSCI 8266 USER INTERFACE DESIGN AND DEVELOPMENT (3 credits)
Graphical user interface (GUI) design is concerned with the application of user-centered design principles to graphical computer interfaces. Topics covered include user-centered design, establishing usability criteria and measures, usability testing, psychology of the user, rapid prototyping, iterative design, and design tools. This course is an extension and application of its prerequisite, Human Computer Interaction. (Cross-listed with CSCI 4260).
Prerequisite(s)/Corequisite(s): CSCI 4250 or instructor’s permission and CSCI 4830. C++ or demonstrated fluency in any visual programming language is preferred.

CSCI 8300 IMAGE PROCESSING COMPTR VISION (3 credits)
This course introduces the computer system structures and programming methodologies for digital image processing and computer vision. The course will cover the mathematical models of digital image formation, image representation, image enhancement and image understanding. Techniques for edge detection, region growing, segmentation, two-dimensional and three-dimensional description of object shapes will be discussed. The course will concentrate on the study of knowledge-based approaches for computer interpretation and classification of natural and man-made scenes and objects.
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 3220. Not open to non-degree graduate students.

CSCI 8305 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with CSCI 3300, MATH 3300, MATH 8305).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor

CSCI 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, MATH 4300, MATH 8306).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor

CSCI 8316 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations research models and algorithms. Topics include Markov chains, queueing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, MATH 4310, MATH 8316).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

CSCI 8325 DATA STRUCTURES (3 credits)
This is a core that will cover a number of data structures such as tree, hashing, priority queues and graphs as well as different algorithm design methods by examining common problem-solving techniques. (Cross-listed with CSCI 3320)
Prerequisite(s)/Corequisite(s): CSCI 1620 and CSCI 2030 or MATH 2030. Programming Languages: Java or C++ Topics: Arrays, Pointers, Introductory Lists, Storage Allocation

CSCI 8340 DATABASE MANAGEMENT SYSTEMS II (3 credits)
A continuation of the study of Data Base Management Systems. Extended discussion of logical data base design, normalization theory, query optimization, concurrent issues. Advanced topics including distributed data bases, deductive data bases, data base machine, and others.
Prerequisite(s)/Corequisite(s): CSCI 8856 or equivalent. Not open to non-degree graduate students.

CSCI 8350 DATA WAREHOUSING AND DATA MINING (3 credits)
Covers topics related to decision support queries. In particular, topics covered include building data warehouses, On-Line Analysis Processing (OLAP), maintenance of materialized views, indexing, various data mining techniques, and integration of OLAP and data mining.
Prerequisite(s)/Corequisite(s): CSCI 8856; bachelors degree and permission from Graduate Committee. Not open to non-degree graduate students.

CSCI 8360 INFORMATION STORAGE AND RETRIEVAL (3 credits)
The course presents basic techniques for analyzing, indexing, representing, storing, searching, retrieving, and presenting desired information in information storage and retrieval systems. Models, document processing, thesauri, evaluation of system effectiveness, as well as special hardware will be discussed. Selected advanced topics will also be covered.
Prerequisite(s)/Corequisite(s): CSCI 4850 or CSCI 8856; bachelors degree and permission from Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8366 FOUNDATIONS OF INFORMATION ASSURANCE (3 credits)
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption programs; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYB 4360, CYB 8366)
Prerequisite(s)/Corequisite(s): CSCI 3320 OR CSCI 8325 OR ISQA 3300 OR By instructor permission

CSCI 8390 ADVANCED TOPICS IN DATA BASE MANAGEMENT (3 credits)
An in-depth study of one or more topics in the field of Data Base Management Systems, such as logical and/or physical data base design, query optimization, distributed data bases, intelligent knowledge-based systems, emerging technologies and applications. May be repeated with different topics with permission of adviser.
Prerequisite(s)/Corequisite(s): CSCI 4850 or CSCI 8856 or equivalent. Not open to non-degree graduate students.
CSCI 8400 ADVANCED COMPUTER GRAPHICS (3 credits)
This course covers advanced rendering and modeling techniques. Topics covered include: three-dimensional viewing, visible-surface detection methods, illumination models and surface rendering methods, color models and color applications, and computer animation.
Prerequisite(s)/Corequisite(s): Bachelor’s degree and permission from the Graduate Program Committee; CSCI 4620 or CSCI 8626. Not open to non-degree graduate students.

CSCI 8410 DISTRIBUT SYSTEM & NETWORK SEC (3 credits)
The course aims at understanding the issues surrounding data security, integrity, confidentiality and availability in distributed systems. Further, we will discuss various network security issues, threats that exist and strategies to mitigate them. This course will cover topics in cryptography, public key infrastructure, authentication, hashing, digital signatures, ARP protection, IP and IPSEC, IP Tables, SSL/TLS, firewalls, etc. (Cross-listed with CYBR 8410)
Prerequisite(s)/Corequisite(s): CSCI 8366 or equivalent(s). Not open to non-degree graduate students.

CSCI 8420 SOFTWARE ASSURANCE (3 credits)
Software assurance is a reasoned, auditible argument created to support the belief that the software will operate as expected. This course is an intersection of knowledge areas necessary to perform engineering activities or aspects of activities relevant for promoting software assurance. This course takes on a software development lifecycle perspective for the prevention of flaws. (Cross-listed with CYBR 8420)
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836 OR by permission of the Instructor. Not open to non-degree graduate students.

CSCI 8430 TRUSTED SYSTEM DESIGN, ANALYSIS AND DEVELOPMENT (3 credits)
This course examines in detail: the principles of a security architecture, access control, policy and the threat of malicious code; the considerations of trusted system implementation to include hardware security mechanisms, security models, security kernels, and architectural alternatives; the related assurance measures associated with trusted systems to include documentation, formal specification and verification, and testing, and approaches that extend the trusted system, into applications and databases and into networks and distributed systems.
Prerequisite(s)/Corequisite(s): CSCI 8366 or equivalent(s), or instructor permission. Not open to non-degree graduate students.

CSCI 8440 SECURE SYSTEMS ENGINEERING (3 credits)
This course takes a global risk-based view of the process of defining, verifying, validating and continuously monitoring secure information systems. The course will investigate a number of secure system solutions, starting with the definition of the system security needs, and tracing through methods of verification and validation of security controls, as well as ways to continuously monitor the corresponding assurances. (Cross-listed with CYBR 8440)
Prerequisite(s)/Corequisite(s): CSCI 8366 or IASC 8366

CSCI 8446 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
Need for higher-performance computers. Topics discussed include: classification of parallel computers; shared-memory versus message passing matchings; for ms of parallelism, measure of performance; designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel computers. (Cross-listed with CSCI 4440)
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506 (May be taken concurrently). Not open to non-degree graduate students.

CSCI 8450 ADVANCED TOPICS IN NATURAL LANGUAGE UNDERSTANDING (3 credits)
The course will provide in depth study of the topics in natural language processing and understanding, such as syntax, lexical and computational semantics, natural language ambiguities and their disambiguation, logical form construction and inference. The course will survey state-of-the-art natural language processing toolkits and knowledge bases that boost the development of modern language processing and understanding applications.
Prerequisite(s)/Corequisite(s): CSCI 3320 OR CSCI 3660 OR CSCI 4450. Not open to non-degree graduate students.

CSCI 8456 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3 credits)
An introduction to artificial intelligence. The course will cover topics such as machine problem solving, uninformed and informed searching, propositional logic, first order logic, approximate reasoning using Bayesian networks, temporal reasoning, planning under uncertainty and machine learning. (Cross-listed with CSCI 4450).
Prerequisite(s)/Corequisite(s): CSCI 8325

CSCI 8476 PATTERN RECOGNITION (3 credits)
Structures and problems of pattern recognition. Mathematics model of statistical pattern recognition, multivariate probability, Bay's decision theory, maximum likelihood estimation, whitening transformations. Parametric and non-parametric techniques, linear discriminant function, gradient-descent procedure, clustering and unsupervised learning, and feature selection algorithms. (Cross-listed with CSCI 4470)
Prerequisite(s)/Corequisite(s): CSCI 1620, MATH 2050. Recommended: MATH 3740 or MATH 8745 or STAT 3080 or STAT 8085. Not open to non-degree graduate students.

CSCI 8480 MULTI-AGENT SYSTEMS AND GAME THEORY (3 credits)
This course covers advanced topics in the area of coordination of distributed agent-based systems with a focus on computational aspects of game theory. The main topics covered in this course include distributed constraint satisfaction, distributed constraint optimization, and competitive and cooperative game theory. (Cross-listed with MATH 8480)
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456. Suggested background courses: CSCI 4480 or CSCI 8486; CSCI 8080. Not open to non-degree graduate students.

CSCI 8486 ALGORITHMS FOR ROBOTICS (3 credits)
This course provides an introduction to software techniques and algorithms for autonomously controlling robots using software programs called controllers. Students will be taught how to program and use software controllers on simulated as well as physical robots. (Cross-listed with CSCI 4480)
Prerequisite(s)/Corequisite(s): CSCI 3320. CSCI 4450/8456 is a recommended but not essential pre-requisite.

CSCI 8500 NUMERICAL ANALYSIS I (3 credits)
Topics covered in this course include error propagation, solutions of nonlinear equations, solutions of linear and nonlinear systems by various schemes, matrix norms and conditioning, and computation of eigenvalues and eigenvectors. (Cross-listed with MATH 8500).
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2050, or permission of instructor. Familiarity with computer programming is assumed.

CSCI 8506 OPERATING SYSTEMS (3 credits)
Operating System principles. The operating system as a resource manager; I/O programming, interrupt programming and machine architecture as it relates to resource management; memory management techniques for unis multiprogrammed systems; process description and implementation; processor management (scheduling); I/O device, controller and channel management; file systems. Operating system implementation for large and small machines. (Cross-listed with CSCI 4500).
Prerequisite(s)/Corequisite(s): CSCI 3710, CSCI 3320 or CSCI 8325; MATH 1950; and CSCI 4350 or CSCI 8356.
CSCI 8510 NUMERICAL ANALYSIS II (3 credits)
Topics covered in this course include interpolation and approximations, numerical differentiation, numerical integration, and numerical solutions of ordinary and partial differential equations. (Cross-listed with MATH 8510)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or permission of instructor. Familiarity with computer programming is assumed.

CSCI 8520 ADVANCED TOPICS IN OPERATIONS RESEARCH (3 credits)
Advanced treatment of a specific topic in the area of operations research not available in the regular curriculum. Topics, developed by individual faculty members, will reflect their special interests and expertise. The course may be repeated for credit as topics differ. (Cross-listed with MATH 8520).
Prerequisite(s)/Corequisite(s): MATH 4300 or MATH 8306 or CSCI 4300 CSCI 8306 or permission of the instructor.

CSCI 8530 ADVANCED OPERATING SYSTEMS (3 credits)
State of the art techniques for operating system structuring and implementation. Special purpose operating systems. Pragmatic aspects of operating system design, implementation, and use. (Cross-listed with CSCI 4510).
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506. Not open to nondegree graduate students.

CSCI 8536 FILE STRUCTURES (3 credits)
Files are an introduction to the principles behind the design and manipulation of file structures. This course gives special emphasis to the complexity analysis of algorithms used to implement the storage and retrieval of data to/from bulk storage devices and programming techniques for large data manipulation.
Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 1840. Not open to nondegree graduate students.

CSCI 8540 ADVANCED DATA STRUCTURES (3 credits)
A theoretical study of the design and analysis of data structures and efficient algorithms for manipulating them. Emphasis is placed on developing the fundamental principles underlying efficient algorithms and their analysis.
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8326 or equivalent. Not open to non-degree graduate students.

CSCI 8550 ADVANCED OPERATING SYSTEM THEORY (3 credits)
An advanced study of modern operating systems. Intended for graduate students who have mastered the fundamental material in an undergraduate course. Emphasis on advanced theoretical material on topics introduced in undergraduate courses, and material not generally covered in undergraduate courses. Advanced material on process synchronization, deadlock, virtual memory, and new material on parallel processing, security, distributed systems and control, object-oriented programming, and modeling and analysis.
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506. Recommended: CSCI 4510 or CSCI 8516. Not open to non-degree graduate students.

CSCI 8555 COMMUNICATION NETWORKS (3 credits)
This course is designed to bring students up to the state of the art in networking technologies with a focus on Internet. It will cover the principles of networking with an emphasis on protocols, implementations and design issues. (Cross-listed with CSCI 3550)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325. Data structures and algorithms. C or C++ programming.

CSCI 8566 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 4560, MATH 4560, MATH 8566).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor.

CSCI 8610 FAULT TOLERANT DISTRIBUTED SYSTEMS (3 credits)
This course is to study the theory and practice of designing computer systems in the presence of faulty components. Emphasizes the basics of how faults can affect systems and what is required to mask or compensate for their efforts.
Prerequisite(s)/Corequisite(s): CSCI 4500 and CSCI 4505. Not open to non-degree graduate students.

CSCI 8620 MOBILE COMPUTING AND WIRELESS NETWORKS (3 credits)
Contemporary issues in mobile computing and wireless networks, including the differences between mobile computing and the traditional distributed computing paradigm, impediments of the mobile and wireless environments, problems and limitations due to such impediments, using the spectrum, wireless data networks, various network layers solutions, location management techniques, mobile IP, wireless LANs, wireless TCP, ad hoc networks, performance issues, security issues.
Prerequisite(s)/Corequisite(s): CSCI 3550 or CSCI 8555. Not open to non-degree graduate students.

CSCI 8626 COMPUTER GRAPHICS (3 credits)
An introduction to the acquisition, manipulation and display of graphical information using digital techniques. Topics include discussion of the various hardware devices used for input and output, the classical algorithms and data structures used in manipulation of graphical objects, the user interface to the graphics system, and applicable standards. (Cross-listed with CSCI 4620).
Prerequisite(s)/Corequisite(s): ISQA 3300 or CSCI 3320.

CSCI 8666 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, MATH 4660, MATH 8666).
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/ CSCI 8325.

CSCI 8690 ADVANCED TOPICS IN PARALLEL AND DISTRIBUTED COMPUTING (3 credits)
This course offers advanced study of parallel computing at the graduate level. It covers several parallel programming paradigms such as: shared-memory programming, distributed-memory programming, object oriented programming, data parallel programming, functional dataflow programming. The course also covers other advanced topics such as: scheduling parallel programs, parallel tools, parallelizing sequential programs, parallel programming support environments, and design and analysis of parallel algorithms. The course gives the students the opportunity to re-think programming from an entirely fresh perspective.
Prerequisite(s)/Corequisite(s): CSCI 4500 or CSCI 8506 or equivalent. Not open to non-degree graduate students.
CSCI 8700 SOFTWARE SPECIFICATIONS AND DESIGN (3 credits)
A continuation of the study of software engineering with an emphasis on early phases of software development, namely requirements engineering/ specification and design. Fundamentals of quality software design. In-depth study of various software requirements specification and design techniques. Related topics such as metrics and CASE tools.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836. Not open to non-degree graduate students.

CSCI 8706 COMPILER CONSTRUCTION (3 credits)
Assemblers, interpreters and compilers. Compilation of simple expressions and statements. Analysis of regular expressions. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation and error diagnostics. (Cross-listed with CSCI 4700).
Prerequisite(s)/Corequisite(s): CSCI 3320 and CSCI 4220. CSCI 4500 is recommended.

CSCI 8710 MODERN SOFTWARE DEVELOPMENT METHODOLOGIES (3 credits)
Designed to introduce students to advanced object technology and other modern methodologies for developing software systems. Intended for graduate students who have mastered the basic concepts and issues of software engineering. Course covers advanced object-oriented software development. The course also covers several offshoots of object technology, including: component-based software engineering, aspect-oriented software development, software product line engineering, service-oriented computing, etc.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836.

CSCI 8760 FORMAL METHODS IN SOFTWARE ENGINEERING (3 credits)
In the high consequence system domain, a primary objective of any construction technique employed is to provide sufficiently convincing evidence that the system, if put into operation, will not experience a high consequence failure or that the likelihood of such a failure falls within acceptable probabilistically defined limits. Systems for which such evidence can be provided are called high assurance systems. The objective of this course is to examine software-engineering techniques across the development life cycle that are appropriate for high assurance systems. The course will analyze the nature of the evidence provided by various techniques (e.g., does a given technique provide sufficiently strong evidence in a given setting).
Prerequisite(s)/Corequisite(s): CSCI 8000 and CSCI 8836 or CSCI 4830

CSCI 8766 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with CSCI 4760, MATH 4760, MATH 8766).
Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

CSCI 8790 ADVANCED TOPICS IN SOFTWARE ENGINEERING (3 credits)
An in-depth study of one or more topics in the field of software engineering such as human factors in software engineering, software specifications and modeling, reuse and design recovery, software valuations, software management, emerging technology and applications.
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836. Not open to non-degree graduate students.

CSCI 8836 INTRODUCTION SOFTWARE ENGINEERING (3 credits)
Basic concepts and major issues of software engineering, current tools and techniques providing a basis for analyzing, designing, developing, maintaining and evaluating the system. Technical, administrative and operating issues. Privacy, security and legal issues. (Cross-listed with CSCI 4830).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325.

CSCI 8850 ADVANCED AUTOMATA AND FORMAL LANGUAGES (3 credits)
A continuation of MATH 4660/MATH 8666/CSCI 4660/CSCI 8666. The course will be an introduction to Computational Complexity. Topics that will be covered include space and time complexities of Turing Machines, deterministic versus non-deterministic machines, NP-Complete problems, alternating Turing machines, and concepts of reducibility. (Cross-listed with MATH 8850).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

CSCI 8856 DATABASE MANAGEMENT SYSTEMS (3 credits)
Basic concepts of data base management systems (DBMSs). The relational, hierarchical and network models and DBMSs which use them. Introduction to data base design. (Cross-listed with CSCI 4850).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325.

CSCI 8876 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)
The course provides students basic knowledge on database aspects related to bioinformatics. In order to make this course self-contained, it starts with a brief introduction on key concepts in computational molecular biology, as well as a review of database management systems, artificial intelligence and related aspects in computer science. The major part of this course will cover various issues related to biobase search and pattern discovery. (Cross-listed with BIOR 4870)
Prerequisite(s)/Corequisite(s): CSCI 3320. Not open to non-degree graduate students.

CSCI 8910 MASTER OF SCIENCE CAPSTONE (3 credits)
The capstone course is to integrate coursework, knowledge, skills and experimental learning to enable the student to demonstrate a broad mastery of knowledge, skills, and techniques across the Master degree curriculum of Computer Science for a promise of initial employability and further career advancement. The course is designed to be in a student-centered and student-directed manner which requires the command, analysis and synthesis of knowledge and skills. Students may apply their knowledge and skill to a project which serves as an instrument of evaluation. Students are encouraged to foster an interdisciplinary research and cultivate industry alliances and cooperation in this course. This capstone course should be taken only after students have completed at least 3/4 of course requirements for the major.
Prerequisite(s)/Corequisite(s): Master’s degree of Computer Science with course-only option (program III). Not open to nondegree students.

CSCI 8915 DATA STRUCTURES AND ALGORITHMS (3 credits)
The purpose of this course is to introduce the student to several basic and advanced data structures and their use in modeling and solving practical problems. The course also introduces basic techniques in algorithm design such as recursion, divide and conquer, and greedy techniques. Searching, sorting graph algorithms and the main concept of complexity theory are presented.
Prerequisite(s)/Corequisite(s): CSCI 1910 or knowledge of C++ and a baccalaureate degree and approval of the computer science graduate program committee. Not open to non-degree graduate students.

CSCI 8920 ADVANCED TOPICS COMPUTER SCIENCE (3 credits)
An in-depth study, at the graduate level, of one or more topics that are not treated in other courses. May be repeated with different topics with permission of adviser.
Prerequisite(s)/Corequisite(s): Permission of instructor; will vary with offering. Not open to non-degree graduate students.
CSCI 8950 GRADUATE INTERNSHIP IN COMPUTER SCIENCE (1-3 credits)
The purpose of this course is to provide students with opportunities to apply their academic studies in environments such as those found in business, industry, and other non-academic organizations. The student interns will sharpen their academic focus and develop better understanding of non-academic application areas. Prerequisite(s)/Corequisite(s): Permission of the graduate program chairperson and a minimum grade point average of 3.0 (B), with at most one grade below B, but not lower than C+ for all CS graduate classes. Not open to non-degree graduate students.

CSCI 8960 THESIS EQUIVALENT PROJECT IN COMPUTER SCIENCE (1-6 credits)
This course allows a graduate student to conduct a research project in computer science or a related area. The project is expected to place an emphasis on applied, implementations-based, or experimental research. The process for development and approval of the project must include: appointment of supervisory committee (chaired by project adviser), a proposal approved by the supervisory committee, monitoring of the project by the supervisory committee, an oral examination over the completed written product conducted by the supervisory committee, & final approval by the supervisory committee. The approved written project will be submitted to the Office of Graduate Studies by the advertised deadlines. Prerequisite(s)/Corequisite(s): Permission of Graduate Adviser. Not open to non-degree graduate students.

CSCI 8970 INDEPENDENT STUDY (1-3 credits)
Under this number a graduate student may pursue studies in an area that is not normally available in a formal course. The topics to be studied will be in a graduate area of computer science to be determined by the instructor. Prerequisite(s)/Corequisite(s): Permission of the Graduate Program Committee. Not open to non-degree graduate students.

CSCI 8980 GRADUATE SEMINAR (1-3 credits)
This course offers an up-to-date coverage of the contemporary and emerging concepts, models, techniques and methodologies, and/or the current research results in the fundamental areas of computer science. Topics to be covered by the course will vary in different semesters. Prerequisite(s)/Corequisite(s): Permission of Instructor. Not open to non-degree graduate students.

CSCI 8986 TOPICS IN COMPUTER SCIENCE (1-3 credits)
A variable topic course in computer science at the senior/graduate level. Topics not normally covered in the computer science degree program, but suitable for senior/graduate-level students. (Cross-listed with CSCI 4980). Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

CSCI 8990 THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student’s thesis advisory committee. In this project the student will develop and perfect a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation. Prerequisite(s)/Corequisite(s): Permission of Graduate Adviser. Not open to non-degree graduate students.

CSCI 9210 TYPE SYSTEMS BEHIND PROGRAMMING LANGUAGES (3 credits)
Empirical evidence suggests that a large number of errors made when writing software can be detected by analyzing the behavior of the program from the perspective of type. This course provides an in-depth exploration of various type systems for programming languages. Prerequisite(s)/Corequisite(s): CSCI 8000. Not open to non-degree graduate students.

CSCI 9220 REWRITING AND PROGRAM TRANSFORMATION (3 credits)
This course begins by exploring the foundations of term rewriting. Topics such as unification, confluence, completion and termination are covered. Then a strategic framework is considered in which the application of rewrite rules can be controlled. Prerequisite(s)/Corequisite(s): CSCI 8000. Not open to non-degree graduate students.

CSCI 9340 COMPUTATIONAL INTELLIGENCE FOR DATA MANAGEMENT (3 credits)
The course provides students advanced knowledge on computational intelligence methods related to various aspects of data management. Rather than treating computational intelligence and database management separately, the course allows students to examine the integration of these two research disciplines. The emphasis is on how to apply computational intelligence methods to various data management problems. Prerequisite(s)/Corequisite(s): CSCI 8456 and CSCI 8856 Not open to non-degree graduate students.

CSCI 9350 MATHEMATICAL AND LOGICAL FOUNDATIONS OF DATA MINING (3 credits)
With the maturity of data mining techniques, it is extremely important to examine the foundations of data mining. Instead of providing coverage of basic data mining methods, the course will focus on methodology employed in data mining, logical and mathematical foundations of data mining, as well as other issues related to the intrinsic nature of data mining. Prerequisite(s)/Corequisite(s): CSCI 8456, CSCI 8856, and CSCI 8390. Not open to non-degree graduate students.

CSCI 9410 ADVANCED TOPICS IN LOGIC PROGRAMMING (3 credits)
This course will examine some advanced topics in logic programming, inductive logic programming, and their parallel and distributed implementation. Each advanced topic will be followed by how it has been applied in practice to software development research. Advanced applications such as program analysis and verification will be covered in detail. Prerequisite(s)/Corequisite(s): CSCI 8000 and doctoral student standing in Information Technology or the permission of the instructor. Not open to non-degree graduate students.

CSCI 9420 INTELLIGENT AGENT SYSTEMS (3 credits)
This course covers the principles of interaction between agents in multi-agent systems using game theory. Relevant topics studied in this course include competitive games, statistical Bayesian games, cooperative games, and mechanism design. Students will have to implement projects related to the material studied in the course. Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and CSCI 4450 or CSCI 8456. Not open to non-degree graduate students.

CSCI 9710 FOUNDATIONS OF SOFTWARE ENGINEERING RESEARCH (3 credits)
This course provides guidelines on how to conduct research in the field of software engineering by presenting the research methods, classic readings, and development of theories and their application to real life problems. The main emphasis of the course is to provide opportunity for in-depth study of topics such as modern software engineering development methodologies and process. Prerequisite(s)/Corequisite(s): CSCI 8836 or equivalent course and doctoral student standing in Information Technology or permission of the instructor. Not open to non-degree graduate students.
CSCI 9810 RESEARCH FOUNDATIONS IN THEORETICAL COMPUTING (3 credits)
This course offers an up-to-date coverage of the contemporary and emerging concepts, models, techniques, and methodologies, and/or the current research results in the fundamental areas of theoretic computing. The course will examine advanced research topics in computer science and engineering, including foundations of automata theory, computability, complexity analysis, computational logics and algorithmic analysis, hybrid dynamic systems theory, number theory, adaptation and learning theory, concepts and principles in computational geometry, stochastic processes, and random optimization. Each topic will be discussed with a perspective of research issues and directions. Active student participation in investigation of the research topics, survey of the current state-of-art, and identifying the future research insights is required. Students will take turn presenting their research results on specific topics. Topics to be covered by the course will vary in different semesters.
Prerequisite(s)/Corequisite(s): The prerequisites of this course vary depending on the areas to be covered in the semester the course is offered. Good standing in Ph.D. program is required. Permission of the instructor may be required. Not open to non-degree graduate students.

CSTE 8970 CS ED INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently.
Prerequisite(s)/Corequisite(s): Permission of the department and graduate faculty member.

CSTE 8990 THESIS (1-6 credits)
This course is an independent research project completed under the direction of a thesis advisor and required of all candidates pursuing a Master of Science with Thesis option. Thesis credits must be completed over two or more academic terms.
Prerequisite(s)/Corequisite(s): Completion of Required Core Courses and approval of advisor. Not open to non-degree graduate students.

Construction Engineering (CONE)

CONE 960 PROFESSIONAL PRACTICE (0 credits)
CONE 960 is required of CONE majors prior to graduation. The work experience must be pre-approved by the faculty adviser in the CONE department. Work experience in a construction related work area.
Prerequisite(s)/Corequisite(s): Senior standing

CONE 8166 WOOD/CONTEMPORARY MATERIALS DESIGN (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design. Masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 4160)
Prerequisite(s)/Corequisite(s): CIVE 341

CONE 8176 FORMWORK SYSTEMS (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design, masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 4170)
Prerequisite(s)/Corequisite(s): CIVE 4160; Pre/co-req.: CIVE 441

CONE 8210 CONSTRUCTION RISK ASSESSMENT AND MANAGEMENT (3 credits)
The overall process of hazards risk management (risk identification, risk analysis, risk assessment, risk communication), risk based decision making and risk mitigation. Classification of building stock, defining vulnerability, risk assessment methods, assessing economic losses and cost benefit analysis. Case studies will be used to demonstrate the application of risk management principles/techniques in practice.
Prerequisite(s)/Corequisite(s): STAT 3800. Not open to non-degree graduate students.

CONE 8506 SUSTAINABLE CONSTRUCTION (3 credits)
Sustainable construction and its application to the green building industry. Topics include: the LEED certification process, sustainable building site management, efficient wastewater applications, optimizing energy performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials. (Cross-listed with CONE 4500)

CONE 8596 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
This course instructs CAD users on the effective use of Building Information Model (BIM) for integration of design, document and construction estimate. Topics include: the LEED certification process, sustainable building site management, efficient wastewater applications, optimizing energy performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials. (Cross-listed with CONE 4590)
Prerequisite(s)/Corequisite(s): CNST 1120, or Graduate standing in AE, CIVE, CNST or CONE.

CONE 8666 HEAVY &/OR CIVIL ESTIMATING (3 credits)
Estimating techniques and strategies for heavy and/or civil construction. Unit pricing, heavy and civil construction takeoffs and estimating, equipment analysis, overhead cost and allocations, estimating software and government contracts. (Cross-listed with CONE 4660)
Prerequisite(s)/Corequisite(s): CONE 2410 and CONE 3780 and CONE 4850
CONE 8816 HIGHWAY & BRIDGE CONSTRUCTION (3 credits)
The methods and equipment required in the construction of roads and bridges. Methods and equipment necessary for roads and bridges. Substructure and superstructures, precast and cast-in-place segments, and standard and specialized equipment. (Cross-listed with CONE4810)
Prerequisite(s)/Corequisite(s): CONE2410 or CNST2410

CONE 8826 HEAVY &/OR CIVIL CONSTRUCTION (3 credits)
Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production. (Cross-listed with CNST4820, CNST8826, CONE4820)
Prerequisite(s)/Corequisite(s): (ARCH major or AE major or CIVE major or CNST major or CONE major), not open to nondegree students

CONE 8836 SUPPORT OF EXCAVATION (3 credits)
The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, heat piling and cofferdams. Soil mechanics, lateral loads, hydrology, and pumping methods. (Cross-listed with CONE4830)

CONE 8856 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling and monitoring project activities. (Cross-listed with CNST 4850, CNST 8856, CONE 4850)
Prerequisite(s)/Corequisite(s): CNST 3780 and CNST 2250.

CONE 8890 GRADUATE INTERNSHIP (3 credits)
Open only to Construction Management graduate students. Participation in a full-time summer internship with an approved Construction Engineering or Construction Management related entity. Includes weekly assignments and a final presentation that are designed to create interaction between the Construction entity and the intern, and associated with the business aspects of the entity. General topics include Business Plans, Marketing, Finance and Budgets, Contracts, Legal Issues and Professionalism. (Cross-listed with CNST 8950)
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CONE 8980 SPECIAL TOPICS IN CONSTRUCTION ENGINEERING (1-6 credits)
Individual and small group investigation of special topics in construction engineering. A signed student-instructor learning contact is required. Topics vary.
Prerequisite(s)/Corequisite(s): Master of engineering in construction or related discipline and permission. Not open to non-degree graduate Students.

CONE 9990 DOCTORAL DISSERTATION (1-24 credits)
None provided
Prerequisite(s)/Corequisite(s): Admission to doctoral degree program and permission of supervisory committee chair. Not open to nondegree students.

Construction Management (CNST)

CNST 8116 PROJECT ADMINISTRATION (3 credits)
An introduction to construction project administration. Ownership and organization of construction companies, construction documentation specifications, type of contracts, takeoffs, estimating, bidding, bonds, insurance, project management and administration, scheduling, time and cost management, labor law and labor relations, and project safety. (Cross-listed with CNST 4110.)
Prerequisite(s)/Corequisite(s): CIV 378 or CNST 3790. Not open to non-degree graduate students.

CNST 8156 MECHANICAL/ELECTRICAL PROJECT MANAGEMENT (3 credits)
Fundamentals of project management within the mechanical and electrical contracting industry. Codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, from a specialty contracting perspective. (Cross-listed with CNST 4150)
Prerequisite(s)/Corequisite(s): CNST 3050, CNST 3060 and CNST 3790.
CNST 4050 and CNST 4060 are recommended.

CNST 8206 PROFESSIONAL PRACTICE AND ETHICS (3 credits)
Orientation to professional practice through a study of the designers’ and the contractors’ relationship to society, specific clients, their professions, and other collaborators in environmental design and construction fields. Ethics, professional communication and responsibility, professional organization, office management, construction management, professional registration, and owner-designer-contractor relationships. (Cross-listed with CNST 4200)
Prerequisite(s)/Corequisite(s): CNST 3790; and LAWS 3930

CNST 8260 OCCPNTNL HLTH/SAFETY FOR CNST (3 credits)
Investigation of occupational health and safety hazards in the construction environment. Accident causation and illness exposure models, construction safety programs and contract requirements, project safety and health management, special problems in construction safety, OSHA/EPD/ADA regulation and compliance issues, health assessment and monitoring, safe building methods design, toxic substance exposures, abatement methods, and worker training and protection.
Prerequisite(s)/Corequisite(s): Permission; open only to students in engineering, construction management, architecture, or other closely related fields

CNST 8346 PROFESSIONAL TRENDS IN DESIGN/BUILD (3 credits)
The organizational, managerial, ethical, and legal principles involved in design/build as a construction project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system. (Cross-listed with CNST 4340)
Prerequisite(s)/Corequisite(s): CNST 3790.

CNST 8350 DESIGN/BUILD MTHDS & APPLCNTS (3 credits)
Investigation, documentation, and application of current Design/Build processes and methodology used in commercial construction. Principles and practices of Design/Build as a project delivery system.
Prerequisite(s)/Corequisite(s): Permission; open only to students in engineering, construction management, architecture, or other closely related field

CNST 8366 INTENT AND APPLICATION OF INTERNATIONAL BUILDING CODE (3 credits)
This course is designed to provide a fundamental understanding of how to research, interpret and apply building code requirements to the design and construction of new and renovated structures. (Cross-listed with CNST 4360)
Prerequisite(s)/Corequisite(s): CNST 1120 and 2510.
CNST 8406  BUILDING INFORMATION MODELING (BIM) II (3 credits)  
Advance topics in building information modeling, including structural and MEP modeling, 4/5 dimensional construction animations and visualization. Good knowledge of Revit Architectural Modeling and knowledge of construction estimating and scheduling is required before registering in this class. (Cross-listed with CNST 4400)  
Prerequisite(s)/Corequisite(s): CNST 2250 and CNST 3780.

CNST 8446  CONSTRUCTION SITE SAFETY MANAGEMENT (3 credits)  
Provides introductory construction site safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers' compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA record-keeping and reporting. Satisfactory completion will partially qualify the individual to be designated by their employer as a construction site "competent person" by successfully completing the OSHA 30-hour Construction Safety Card as well as additional certifications in basic first aid, CPR and AED. (Cross-listed with CNST 4440)  
Prerequisite(s)/Corequisite(s): CNST 2420.

CNST 8500  SUSTAINABLE CONSTRUCTION (3 credits)  
Application of Leadership in Energy and Environmental Design (LEED) best practices in building procurement and delivery systems. History, theory, and state-of-the-art practices in designing and constructing green buildings. Basic principles required to make the multitude of decisions when designing or constructing a green building. LEED construction practices (emerging practices that are economical, produce esthetically pleasing structures, and are environmentally sound).  
Prerequisite(s)/Corequisite(s): ARCH major or CIVE major or CNST major. Not open to non-degree graduate students.

CNST 8790  CONSTRUCTION MANAGEMENT & CONSTRUCTION SYSTEMS (3 credits)  
Quantity survey methods, production rate and cost analysis, bidding, contingency and risk analysis. Computer applications of estimating and research topics. Monte Carlo simulation, Virtual 3D, BIM applications relevant to construction estimating and risk analysis.

CNST 8806  PRODUCTIVITY AND HUMAN FACTORS IN CONSTRUCTION (3 credits)  
Motivation and productivity improvement methods in the management of construction workers in their typical job environments. Methods to improve working environment in the field and in the office. Procedures and mechanisms to implement human behavior concepts and ergonomic concepts for enhanced productivity and safety. (Cross-listed with CNST 4800)  
Prerequisite(s)/Corequisite(s): Senior standing; CNST 3780; MGMT 3490

CNST 8825  HEAVY AND/OR CIVIL CONSTRUCTN (3 credits)  
Application of management principles to the construction of heavy and/or civil projects. History, theory, and methods of planning and constructing heavy and/or civil projects. Emerging equipment and new equipment capabilities. Economical use of equipment and managing costs associated with production. (Cross-listed with CNST 4820, CONE 4820, CONE 8826)  
Prerequisite(s)/Corequisite(s): ARCH major or AE major or CIVE major or CNST major or CONE major), not open to non-degree graduate students.

CNST 8830  MGMT OF LIMITED SCOPE PERMITTG (3 credits)  
Building code permitting process associated with all projects. Phased projects that require one or more limited scope permits prior to receiving the final full construction permit. How to improve coordination and reduce the confusion and risk associated with managing the permitting process. The permitting process that is applicable to both large and small projects and that can be easily adapted and used in all jurisdictions throughout the United States.  
Prerequisite(s)/Corequisite(s): ARCH major or CIVE major or CNST major). Not open to non-degree graduate students.

CNST 8856  CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)  
Planning and scheduling a construction project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, network construction, time estimates, critical path, float time, crash programs, scheduling and monitoring project activities. (Cross-listed with CNST 4850, CONE 4850, CONE 8856)  
Prerequisite(s)/Corequisite(s): CNST 3780 and CNST 2250.

CNST 8866  CONSTRUCTION MANAGEMENT SYSTEMS (3 credits)  
Application of selected topics in systems analysis (operations research) to construction management. Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis and analytic hierarchy processes as used in the construction industry. (Cross-listed with CNST 4860)  
Prerequisite(s)/Corequisite(s): CNST 3780.

CNST 8870  CNSTRCTN LRDSHP & STRATG PLNG (3 credits)  
New models of construction leadership for the 21st Century. Application of transformational leadership to strategic planning and marketing in construction contracting. Leadership and strategic problem solving constructs and methods.  
Prerequisite(s)/Corequisite(s): Permission; open only to students in engineering, construction management, architecture, or other closely related fields.

CNST 8885  RESIDENTIAL CONSTRUCTION AND REAL ESTATE DEVELOPMENT (3 credits)  
Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the preconstruction and bidding process. (Cross-listed with CNST 4880)  
Prerequisite(s)/Corequisite(s): CNST 3780.

CNST 8900  MASTERS PROJECT (3 credits)  
First course in a two-course sequence required for the masters degree. Technical report, technical paper, or portfolio project, culminating in a final document or oral presentation.  
Prerequisite(s)/Corequisite(s): Permission; admission to the master of engineering degree program with an emphasis in construction. Not open to non-degree graduate students.

CNST 8910  MASTERS PROJECT II (3 credits)  
Second course in a two-course sequence required for the masters degree. Technical report, technical paper, or portfolio project, culminating in a final document or oral presentation.  
Prerequisite(s)/Corequisite(s): CNST 8900 and permission.

CNST 8950  GRADUATE INTERNSHIP (3 credits)  
Open only to Construction Management graduate students. Participation in a full-time summer internship with an approved Construction Engineering or Construction Management related entity. Includes weekly assignments and a final presentation that are designed to create interaction between the Construction entity and the intern, and associated with the business aspects of the entity. General topics include Business Plans, Marketing, Finance and Budgets, Contracts, Legal Issues and Professionalism. (Cross-listed with CNST 4950)  
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

CNST 8986  SPECTOPS IN CONSTRUCTION MGMT (1-6 credits)  
Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST 4980, CONE 4980)  
Prerequisite(s)/Corequisite(s): Master of engineering in construction management or related discipline and permission.
COUN 8030 COUNSELING PRACTICES (3 credits)
The major purpose of Counseling 8030 is to assist students in skill development as noted in Ivey's Intentional Interviewing and Counseling Model. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism. Candidates will continue to develop counseling skills through additional coursework leading to practicum and internship experiences.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and the Counseling Department. Not open to non-degree graduate students

COUN 8040 ETHICAL ISSUES FOR PROFESSIONAL COUNSELORS (3 credits)
This course examines the ethical, professional, and legal aspects of individual, couple and family counseling including liabilities incurred by the professional. The course addresses the appropriate ethical guidelines as stated by the American Counseling Association (ACA) code of ethics in a participatory format.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and permission to enroll in the Counseling program or related academic graduate programs.

COUN 8050 INTRODUCTION TO PROFESSIONAL SCHOOL COUNSELING (1 credit)
This is an exploratory course for candidates considering entering the field of professional school counseling. This introductory course is required for candidates majoring in counseling, with a concentration in school counseling. Selected issues underlying the school counseling profession are studied.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and/or the Counseling Department.

COUN 8100 RESEARCH PROJECT IN COUNSELING (1-3 credits)
Individual or group study and analysis of specific problems/issues in the field.
Prerequisite(s)/Corequisite(s): Admission to Counseling program and permission of instructor. Not open to non-degree graduate students.

COUN 8110 HUMAN DEVELOPMENT AND PSYCHO-SOCIAL INTERVENTION STRATEGIES (3 credits)
This course is designed to examine theories of human development covering the lifespan of the individual and the psychosocial interventions appropriate to various phases of the lifespan. The course will emphasize human development as an interactive process involving individuals in a number of contexts; hence human diversity factors (racial ethnic groups, gender, sexual orientation) also will be considered.
Prerequisite(s)/Corequisite(s): Graduate status.

COUN 8150 STUDENT AND STAFF PERSONNEL WORK IN HIGHER EDUCATION (3 credits)
An overview of the characteristics of college students and their interaction with campus environmental influences. The impact of student personnel work is considered as it affects personality growth, social development and career planning by college students.
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree graduate students.

COUN 8160 ALCOHOL & OTHER DRUG PREVENTION/EDUCATION IN SCHOOLS & COMMUNITIES (3 credits)
This course will focus on a team approach to address alcohol and other drug education, prevention, referral techniques and counseling strategies through the cooperation of school staff and community representatives who work with children from pre-school through 12th grade. Topics will include etiology of alcohol and other drug problems, current factual information concerning alcohol and other drugs, strategies for instruction, gaining parental and community support, developing youth leadership for prevention, intervention techniques for school youth, multicultural factors in prevention education, alternatives to drug use, referral and support resources, and the development of mini-networks for dissemination of information within the school and community. (Cross-listed with HED 8160).
Prerequisite(s)/Corequisite(s): Graduate. Not open to non-degree graduate students.
COUN 8190 RESEARCH PROJECT IN COUNSELING (1-3 credits)
Research study on a problem in the area of guidance and counseling.
Prerequisite(s)/Corequisite(s): Admission to Counseling program and permission of instructor. Not open to non-degree graduate students.

COUN 8200 COUNSELING THEORIES (3 credits)
This course is designed to examine counseling theories and the historical and geographic influence on counseling theory development.
Prerequisite(s)/Corequisite(s): Admission to counseling program or permission of department. Not open to non-degree graduate students.

COUN 8210 ORGANIZATION & ADMINISTRATION OF SCHOOL COUNSELING PROGRAMS (3 credits)
The course introduces graduate candidates to an administrative systems approach to organizing comprehensive and developmental school counseling programs for all k-12 students. The American School Counselor Association’s (ASCA) National Model for School Counseling Programs provides the foundation for content. Topics include, but are not limited to, school counseling programs: Foundation, Delivery System, Management System, and Accountability domains. Special focus is also placed on developing educational leadership skills, advocacy for k-12 students, and bringing about positive systemic change. Teaching counselor candidates to effectively manage school counseling programs is an important part of our effort to prepare individuals to become professionals who are ready for positions as educational leaders.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College and/or the Counseling Department. Not open to non-degree graduate students.

COUN 8220 COUNSELING PRACTICUM (3 credits)
This course is the first of the clinical applications of counseling knowledge, techniques, and specialty areas in community settings. Candidates practice, develop and improve counseling skills in an environment of professional constructive criticism.
Prerequisite(s)/Corequisite(s): COUN 8040, COUN 8920, COUN 8610, a grade of B or higher in COUN 8030. Students must also complete the block of techniques courses (COUN 8306, COUN 8316, COUN 8406) or COUN 8280 Crisis Intervention Techniques. Not open to non-degree graduate students.

COUN 8226 CAREER DEVELOPMENT AND LIFESTYLE (3 credits)
This course will serve as an introduction to the topics of career counseling and career development.
Prerequisite(s)/Corequisite(s): Graduate standing; open to non-degree seeking students.

COUN 8230 APPRAISAL TECHNIQUES IN COUN (3 credits)
Appraisal Techniques in Counseling includes the history of individual appraisal, the major technical considerations governing assessments, and a survey of measurement devices in the cognitive and affective domains. The course will include uses and implications of standardized and non-standardized assessment devices. Additionally, this course will cover the responsible use and interpretation of ability, aptitude, interest, personality, and career development assessment tools. Whenever it is applicable, a strengths-based, positive psychology approach will be integrated and utilized throughout this course.
Prerequisite(s)/Corequisite(s): Counseling Major and TED 8010. Not open to non-degree students.

COUN 8250 INTERNSHIP: CLINICAL MENTAL HEALTH COUNSELING (3 credits)
This course is the first of the clinical applications of knowledge, techniques, and specialty areas in community settings. Students practice, develop and improve counseling skills in an environment of professional constructive criticism. This course is required for all graduate students in counseling who meet the prerequisites.
Prerequisite(s)/Corequisite(s): COUN 8040, COUN 8230, COUN 8270, COUN 8406, COUN 8610, a grade of B or higher in COUN 8030. Not open to non-degree graduate students.

COUN 8260 ADVANCED INTERNSHIP: CLINICAL MENTAL HEALTH COUNSELING (3 credits)
Field experience in an approved agency program under the supervision of a licensed counselor and university instructor.
Prerequisite(s)/Corequisite(s): Successful completion of COUN 8250. Not open to non-degree graduate students.

COUN 8270 GROUP TECHNIQUES (1 credit)
This course is intended to prepare students to effectively incorporate group principles appropriate to various counseling settings including schools, treatment centers, and agencies. This class includes a group experience.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Counseling or permission of instructor. Not open to non-degree graduate students.

COUN 8280 CRISIS INTERVENTION STRATEGIES AND TECHNIQUES (3 credits)
This course will present approaches to crisis intervention which include definitions and characteristics of a crisis, a brief history of crisis intervention and associated theories/models and a practice of skills for intervention and crisis case management. Topics will include applied therapeutic counseling strategies in general casework and in crisis intervention cases, in particular, which describe actual techniques to alleviate the crisis.
Prerequisite(s)/Corequisite(s): Graduate status and admitted to program. Not open to non-degree graduate students.

COUN 8306 COUNSELING TECHNIQUES I (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Adlerian counseling (specified in this syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4300).
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree students; must take prior to practicum.

COUN 8316 COUNSELING TECHNIQUES II (1 credit)
This course will present the counseling process, knowledge of beginning skills development and application of techniques related to a specific approach. Topics may include Rational Emotive Behavior Therapy (REBT) (specified in the syllabus), anger management, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4310)
Prerequisite(s)/Corequisite(s): Admission to Counseling program; must take prior to practicum. Not open to non-degree students.

COUN 8330 PRACTICUM FOR SCHOOL COUNSELORS (3 credits)
This course is the first of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of 20 hours in the Counseling Program. Grade of B in COUN 8030 and COUN 8040. Not open to non-degree graduate students.

COUN 8350 ADVANCED ELEMENTARY SCHOOL COUNSELING PRACTICUM (1-6 credits)
Advanced clinical experience in counseling in the elementary school setting under the supervision of a school site supervisor and a counseling professor from the Counseling Department.
Prerequisite(s)/Corequisite(s): Counseling Major and COUN8330. Not open to non-degree students.

COUN 8360 GROUP THEORY & TECHNIQUES (3 credits)
This course is intended to prepare students to effectively incorporate group principles appropriate to various counseling settings including schools, treatment centers, and agencies. This class includes a group experience.
Prerequisite(s)/Corequisite(s): Undergraduate Degree. Successful admission into the Counseling Graduate Program and Consent of the Instructor. Not open to non-degree graduate students.
COUN 8370 GROUP COUNSELING: THEORY AND PRACTICE (2 credits)
A course designed primarily for counselors with a combination of theory and experiences necessary to the understanding of effective leadership skills involved in the group counseling process.
Prerequisite(s)/Corequisite(s): Counseling Major and COUN 8030 and COUN 8200. Not open to non-degree graduate students.

COUN 8400 ADVANCED THEORY AND TECHNIQUES IN COUNSELING (3 credits)
This course introduces students to the basic knowledge and skills necessary to understand and apply counseling techniques related to differential approaches to treatment. Topics may include Solution-Focused, Adlerian, Cognitive-Behavioral (CBT), Dialectical Behavioral (DBT), Motivational Interviewing, and other techniques as deemed to be relevant/appropriate.
Prerequisite(s)/Corequisite(s): Graduate Level - Admission to Counseling program. Not open to non-degree students; must take prior to practicum.

COUN 8406 COUNSELING TECHNIQUES III (1 credit)
This course will assist candidates in developing more systematic integration of previously learned information and skills and the application to specific counseling situations related to various approaches. Topics may include Solution Focused Counseling - SFC (specified in the syllabus), Dialectical Behavioral Therapy, anger management, art therapy, play therapy, solution focused, cognition, and other topics as needed. (Cross-listed with COUN 4400)
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Not open to non-degree students.

COUN 8430 INTERNSHIP IN SCHOOL COUNSELING (3 credits)
This course is the second of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of COUN 8330. Not open to non-degree graduate students.

COUN 8450 COLLEGE STUDENT PERSONNEL INTERNSHIP (1-6 credits)
This course is designed to provide practical work experience under supervision in various areas within student personnel services.
Prerequisite(s)/Corequisite(s): Admission to counseling program and permission of instructor. Not open to non-degree students.

COUN 8460 ADVANCED INTERNSHIP IN SCHOOL COUNSELING (3-6 credits)
This course is the third of the clinical applications to provide the prospective school counselor with supervision in a school counseling setting. Candidates will continue to develop counseling skills and will become immersed in the work of a professional school counselor. Candidates practice, develop and improve counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Completion of COUN 8330 and COUN 8430. Not open to non-degree graduate students.

COUN 8500 CONSULTATION IN PROFESSIONAL COUNSELING (2 credits)
Instruction in this course is founded upon commitment to the beliefs that individuals are valuable, responsible and capable, and that all human service professionals should work to create the conditions in which people value themselves as human beings and behave accordingly. As reflective decision-makers, such professionals value human potential and purposefully design policies, processes and programs that facilitate the realization of that potential. The counselor learns that consultation and collaboration are first and foremost helping relationships that have as their foundation the dignity and respect of individuals/groups involved. Consultation and collaboration are characterized as problem-solving processes that involve a variety of key decision points. A generic model is provided for students as a "cognitive map" upon which they can reflect when attempting to determine effective practice.
Prerequisite(s)/Corequisite(s): Admission to the Counseling Program. Not open to non-degree graduate students

COUN 8516 TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality, and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, SOWK 4510, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.

COUN 8520 COUNSELING MULTICULTURAL AND DIVERSE POPULATIONS (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality, and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, SOWK 4510, SOWK 8516).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. Not open to non-degree graduate students.

COUN 8540 PARENT-STAFF DEVELOPMENT & CONSULTATION (3 credits)
The study of information, research, consultation and programs for the development of effective parenting skills and effective school staff interaction skills.
Prerequisite(s)/Corequisite(s): This course is intended for Graduate candidates in counseling or other areas of education. Not open to non-degree students.

COUN 8610 INTRODUCTION TO MARITAL AND FAMILY THERAPY (3 credits)
This course is the first of the clinical mental health applications to provide the prospective mental health counselor with instruction in marital and family therapy. Students will continue to develop counseling skills and will become immersed in the work of a professional counselor. Students practice, develop and improve marital and family counseling skills in an environment of professional and constructive criticism.
Prerequisite(s)/Corequisite(s): Admission to Counseling program. Course prerequisites include good standing as a graduate student. Not open to non-degree graduate students.
COUN 8620 SURVEY OF ISSUES IN SCHOOL COUNSELING (2 credits)
This course is designed to provide school counselors with information on topics that are current and relevant to secondary school settings. It will allow candidates and practicing counselors the opportunity to study and evaluate what activities school counselors are currently engaged in and consideration of strategies to deal with students and families.
**Prerequisite(s)/Corequisite(s):** Admission to counseling program. Not open to non-degree graduate students.

COUN 8630 FOUNDATIONS AND ISSUES IN SECONDARY COUNSELING (3 credits)
This course is designed to introduce the history, current ASCA (American School Counselor Association) model, and the role of a professional school counselor; and to provide information on and practice with topics that are current and relevant to secondary school settings.
**Prerequisite(s)/Corequisite(s):** Admission to the Graduate College and/or the Counseling Department. Not open to non-degree graduate students.

COUN 8650 ISSUES IN ELEMENTARY AND MIDDLE SCHOOL COUNSELING (3 credits)
This course is intended to prepare students to effectively implement an elementary and/or middle school counseling program. Candidates will develop awareness and skill sets through an overview of the unique issues, approaches, systems and practice of elementary and middle school counseling.
**Prerequisite(s)/Corequisite(s):** Admission to graduate study in counseling, COUN 8050 or permission. Not open to non-degree graduate students.

COUN 8656 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with SPED 4650 and SPED 8656)
**Prerequisite(s)/Corequisite(s):** EDUC 2510 or SPED 1500.

COUN 8670 CAREER DEVELOPMENT AND POST-SECONDARY TRANSITIONS (3 credits)
This course is an introduction to career counseling and career development, post-secondary planning, and crisis intervention. 1.2 This course is required for all graduate students who are seeking a master's degree in counseling with a concentration in school counseling.
**Prerequisite(s)/Corequisite(s):** Graduate status, COUN 8200, COUN 8210, COUN 8300 (co-requisite), COUN 8040

COUN 8686 MEDICAL AND PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 4680, SOWK 8686, COUN 4680).
**Prerequisite(s)/Corequisite(s):** Admission to the MSW program or permission of the School. Open to those admitted to the Counseling program or by permission.

COUN 8696 ASSESSMENT AND CASE MANAGEMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, SOWK 4690, SOWK 8696).
**Prerequisite(s)/Corequisite(s):** Admission to the Counseling program or by permission.

COUN 8700 CHILD AND ADOLESCENT COUNSELING (3 credits)
This course is an introduction to counseling children and adolescents and will examine the theories, techniques, professional settings, cultural, and ethical/legal issues associated with counseling children and adolescents in a diverse society. Although diagnosis of mental disorders will be discussed, the course is designed to build competencies in counseling children and adolescents, with specific attention to social, developmental, and behavioral issues across professional settings.
**Prerequisite(s)/Corequisite(s):** COUN 8006 or COUN 8630; and COUN 8030, COUN 8200, COUN 8110, and COUN 8040. Not open to non-degree graduate students.

COUN 8720 INDIVIDUAL COUNSELING WITH CHILDREN AND CONSULTATION (3 credits)
The study of individual counseling with children and consultation with parents and professionals.
**Prerequisite(s)/Corequisite(s):** Counseling Major and COUN 8030 and COUN 8040 and COUN 8200 and COUN 8306 and COUN 8316 and COUN 8406. Not open to non-degree graduate students.

COUN 8730 ORGANIZATION AND ADMINISTRATION OF ELEMENTARY COUNSELING PROGRAMS (3 credits)
The study of organization and administration of elementary guidance and counseling programs.
**Prerequisite(s)/Corequisite(s):** Open to graduate level candidates. Not open to non-degree students.

COUN 8740 SCHOOL COUNSELING GROUPS (3 credits)
This course is designed to provide the school counselor candidate with a focused study of small group counseling and enrichment programs in schools.
**Prerequisite(s)/Corequisite(s):** Admission to graduate study in counseling, COUN 8030 or permission. Not open to non-degree graduate students.

COUN 8750 SCHOOL COUNSELING GROUPS & ENRICHMENT PROGRAMS (2 credits)
This course is intended to prepare students to effectively incorporate small group design, implementation, and assessment as part of a school counseling program. Candidates will develop small group counseling skills and strategies for enrichment program development and delivery.
**Prerequisite(s)/Corequisite(s):** Counseling Major. COUN 8030 and COUN 8270 and COUN 8406 or permission. Not open to non-degree graduate students.

COUN 8756 MID-LIFE, CAREER CHANGE, RETIREMENT PLANNING (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implication of retirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with GERO 4750 and GERO 8756)
**Prerequisite(s)/Corequisite(s):** Junior Standing, permission of instructor. Not open to non-degree graduate students.

COUN 8800 CLINICAL MENTAL HEALTH COUNSELING (3 credits)
This course is an introduction to the specialization of clinical mental health counseling. The course content examines the historical, philosophical, educational, ethical, and psychological concepts and foundations of clinical mental health counseling. Additionally, the course will explore key public and private professional settings and programs within the clinical mental health paradigm, professional advocacy and leadership, and the personal and professional skills and traits expected of professional counselors.
**Prerequisite(s)/Corequisite(s):** COUN 8006, COUN 8030, COUN 8200, and COUN 8040. Not open to non-degree graduate students.
COUN 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles practices underlying how schools can better prepare students for the workplaces of the future. The emphasis will be on the integration of career education within broader academic preparation. Roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined.

COUN 8920 TREATMENT PLANNING AND THE DSM (3 credits)
This course is designed to orient students to the stages of treatment planning and use of the DSM-5 as a part of the treatment process in mental health settings. The course will examine the stages of treatment planning and offer opportunities to integrate counseling theories into practice. Factors such as psychopathology/pharmacology, ethics, and human diversity will be considered.

Prerequisite(s)/Corequisite(s): Course prerequisites include good standing as a graduate student, completion of COUN 8200 and completion of or concurrent enrollment in PSYC 8446. Not open to non-degree graduate students.

COUN 8986 COUNSELING SKILLS IN GERONTOLOGY (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with GERO 4980, GERO 8986).

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

COUN 8990 THERAPEUTIC CASE MANAGEMENT (1-6 credits)
To develop the candidate's ability to carry out accepted procedures associated with the research process.

Prerequisite(s)/Corequisite(s): Permission of instructor committee chairperson. Not open to non-degree graduate students.

COUN 9200 INDEPENDENT STUDY IN COUNSELING THEORIES AND TECHNIQUES (1-3 credits)
Guided study of counseling theory and techniques under supervision of faculty member.

Prerequisite(s)/Corequisite(s): Counseling Major, TED 8010 and permission of instructor. Not open to non-degree graduate students.

Criminology and Criminal Justice (CRCJ)

CRCJ 8010 NATURE OF CRIME (3 credits)
This course provides an overview of the major dimensions of crime in the U.S. Content areas included are the epidemiology of crime, the costs of crime and typologies of crime and criminals.

Prerequisite(s)/Corequisite(s): Admission to UNO Graduate College.

CRCJ 8020 SEMINAR IN ADMINISTRATION OF JUSTICE (3 credits)
This course is designed to provide students with a critical understanding of responses to crime. Particular emphasis is placed on theory and research bearing upon the effectiveness of the policies and strategies of the principal institutions of the criminal justice system - the police, courts and corrections. Additionally, philosophical and practical matters pertaining to "justice" and "fairness" in the administration of the criminal law are explored.

Prerequisite(s)/Corequisite(s): Admission to UNO Graduate College.

CRCJ 8030 CRIMINAL JUSTICE RESEARCH THEORY AND METHODOLOGY (3 credits)
Research theory and methodology in the social sciences as applicable to criminal justice; preparation of research designs, conceptual models; sampling procedures; and development of individual research papers.

Prerequisite(s)/Corequisite(s): Admission to UNO Graduate College.

CRCJ 8040 SEMINAR IN POLICE AND SOCIETY (3 credits)
This course is designed to explore the role of the police in American society. Attention is given to the origins of policing, the nature of police organizations and police work, and patterns of relations between the police and the public. The values of a democratic society as they affect the law enforcement role are discussed.

Prerequisite(s)/Corequisite(s): Admission to the graduate program in Criminal and Criminal Justice; or admission to the UNO graduate program and permission of instructor.

CRCJ 8050 SEMINAR IN CORRECTIONS (3 credits)
This course is designed to give an analytical perspective to the history, development, implementation and future of critical issues in the field of corrections. Primary focus will be directed toward an exploration of the various theoretical approaches to corrections and the research intended to support or refute these perspectives.

Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminal and Criminal Justice; or admission to UNO graduate program and permission of instructor.

CRCJ 8060 SEMINAR IN THE CRIMINAL COURT SYSTEM (3 credits)
This course is designed to provide a social science perspective on the role of the courts in the criminal justice system. The ideals of the system will be compared with actual functioning, and court reform programs and proposals will be critically examined.

Prerequisite(s)/Corequisite(s): Admission to Criminal and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8070 SEMINAR IN CRIMINAL LAW AND PROCEDURE (3 credits)
This course is designed to examine substantive criminal law as the basis of social control in our country. Contemporary issues such as the insanity defense, decriminalization of so-called victimless crimes, sexual assault and abortion, and current proposals to assist victims of crimes will be among the topics explored. In addition, current criminal procedure problems relating to right to counsel, search and seizure and interrogation will be examined.

Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminal and Criminal Justice; or admission to UNO graduate program and permission of instructor.

CRCJ 8080 SEMINAR IN JUVENILE JUSTICE (3 credits)
An inquiry in the social ramifications of the entire juvenile delinquency process including labeling, detention, incarceration and tolerance. Pre- and post-adjudicatory issues are dealt with as well as a realistic perspective given to delinquency prevention strategies.

Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 8090 SEMINAR IN THEORETICAL CRIMINOLOGY (3 credits)
A study of the etiology of crime as a social phenomenon and an objective analysis of the historical influences and thought which molded its development into an accepted contemporary science.

Prerequisite(s)/Corequisite(s): Admission to graduate program in criminology and criminal justice; or admission to UNO graduate program and instructor permission.

CRCJ 8100 CRIMINAL JUSTICE ORGANIZATION, ADMINISTRATION AND MANAGEMENT (3 credits)
This course will deal with issues in the organization and administration of modern justice agencies. The students will be exposed to theories, concepts, and issues relating to the administration and organization of justice agencies.

Prerequisite(s)/Corequisite(s): Admission to the graduate program in Criminal and Criminal Justice; or admission to UNO graduate program and permission of instructor.
CRCJ 8130 SEMINAR IN WOMEN AND CRIMINAL JUSTICE (3 credits)
This course focuses on the experiences of women in the criminal justice system. It will cover the history of criminological theory on women, application of mainstream criminological theory to women, and women as offenders, victims, and professionals in the criminal justice system.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8136 SOCIOLOGY OF DEVIANT BEHAVIOR (3 credits)
This course is designed to investigate the etiology of many forms of norm-violating conduct. Emphasis will be placed on rule-breaking behavior as defined in the criminal statutes. (Cross-listed with CRCJ 4130).
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8180 CRIMINAL JUSTICE INTERNSHIP (3 credits)
This course is designed to provide supervised individualized learning experiences in a selected criminal justice agency. The principal objective of the internship is to provide students with the opportunity to apply theoretical and methodological principles acquired in graduate courses to the analysis of problems in local criminal justice agencies.
Prerequisite(s)/Corequisite(s): Admission to program in Criminology and Criminal Justice, successful completion of 15 hours of graduate work, and permission of instructor. Not open to non-degree graduate students.

CRCJ 8190 INDEPENDENT STUDY (1-3 credits)
Individual projects in research, literature review or creative production which may or may not be an extension of course work. The work will be supervised and evaluated by departmental graduate faculty members.
Prerequisite(s)/Corequisite(s): Admission to graduate program at UNO, and permission of instructor.

CRCJ 8210 PROGRAM EVALUATION AND POLICY ANALYSIS (3 credits)
This course is a survey of program evaluation and policy analysis techniques. The focus is on theoretical foundations of the Criminal Justice policy process, program development and implementation, research designs specific to program evaluation and policy research, and methodological techniques commonly used to evaluate criminal justice programs and policies
Prerequisite(s)/Corequisite(s): Admission to doctoral program in Criminology and Criminal Justice; or admission to graduate program at UNO and CRCJ 8030; or instructor permission.

CRCJ 8230 TERRORISM (3 credits)
A course devoted to an exploration and analysis of contemporary special problems in the broad spectrum of law enforcement and corrections.

CRCJ 8356 COMMUNITY-BASED CORRECTIONS (3 credits)
This course is intended for advanced students with a special interest in the correctional process as applied in a community setting. It is designed to focus on innovative community-based strategies for dealing with the offender as well as the traditional processes of probation and parole. (Cross-listed with CRCJ 4350).
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 8516 VIOLENCE (3 credits)
This course is a survey of the nature and extent of violence. The focus is on patterns of violence across social groups, the causes and correlates of violence and violent behavior, and programs/policies geared toward violence prevention and reduction. Also of interest is the relationship between theory and violence research. (Cross-listed with CRCJ 4510).
Prerequisite(s)/Corequisite(s): Upper-division CRCJ major; CRCJ minor; or CRCJ 1010 and jr/sr standing.

CRCJ 8800 SPECIAL PROBLEMS IN CRIMINAL JUSTICE (3 credits)
A course devoted to an exploration and analysis of contemporary special problems in the broad spectrum of criminal justice philosophy. This course looks at philosophical issues related to social control. The purpose of this course is to foster a deeper understanding of the reasons, justifications, and problems related to societal approaches to the control of its citizens.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or UNO graduate student and permission of instructor.

CRCJ 8850 RISK/NEEDS ASSESSMENT INSTRUMENTS (3 credits)
This course is designed to provide students with advanced knowledge and understanding in the area of risk/needs assessment tools used in the juvenile and adult justice system.
Prerequisite(s)/Corequisite(s): Admission to graduate program in criminology and criminal justice; or, instructor permission.

CRCJ 8950 STATISTICAL APPLICATIONS IN CRIMINAL JUSTICE & PUBLIC ADMIN (3 credits)
This is a required course which provides a foundation for the use of statistical methods in criminal justice and public affairs research. It will review fundamentals of research, showing the interplay between the theory, the research, the statistical method, and the interpretation.
Prerequisite(s)/Corequisite(s): Admission to UNO Graduate college.

CRCJ 8970 CAPSTONE PROJECT IN CRIMINOLOGY AND CRIMINAL JUSTICE (3 credits)
The Capstone Project offers each student the opportunity to demonstrate mastery of the theory and practice of Criminal and Criminal Justice by applying the knowledge and skills gained in the Master of Science program to a project of the student’s choice. This involves completing a project report reflecting the cumulative knowledge gained from these experiences. This class is intended only for students who are completing their Master of Science degree in Criminal and Criminal Justice.
Prerequisite(s)/Corequisite(s): Admission to Criminal and Criminal Justice MS program, and completion of a minimum of 24 credit hours; or permission of Masters Program Coordinator. Not open to non-degree graduate students.

CRCJ 8990 MASTERS THESIS (1-6 credits)
The thesis is required for all students in the MA program. It provides students with an opportunity to integrate theories, concepts, and aspects of the criminology and criminal justice literature with methods and techniques for conducting research, through the completion of an original research project. The thesis project should constitute original research and is conducted under the supervision of a Masters Thesis Committee.
Prerequisite(s)/Corequisite(s): Admission to the MA program in Criminal and Criminal Justice; and, CRCJ 8010, CRCJ 8020, CRCJ 8030, CRCJ 8950 and 6 other 8000+ CRCJ courses. Not open to non-degree graduate students.

CRCJ 9010 SEMINAR ON LAW & SOCIAL CONTROL (3 credits)
This is a required course which will examine the relationships between the state, the law, and the citizen in a democratic society. It will also examine the relationship between social control, law and social change.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminal and Criminal Justice; or UNO graduate student and permission of instructor.

CRCJ 9020 SEMINAR ON THEORIES OF CRIME (3 credits)
This is a required course which emphasizes conceptual and theoretical issues in contemporary criminological theory. It also provides students with a working knowledge of theory construction.
Prerequisite(s)/Corequisite(s): Admission to Criminal and Criminal Justice MA or PhD graduate programs; or admission to UNO graduate program and instructor permission.
CRCJ 9030 SEMINAR ON RACE, ETHNICITY, AND CRIMINAL JUSTICE (3 credits)
This is a required course which introduces students to current empirical research and theory on racial minorities and the criminal justice system. It focuses on racial minorities as victims of crime, as offenders, and as criminal justice professionals.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 9040 COMPARATIVE CRIMINOLOGY AND CRIMINAL JUSTICE SYSTEMS (3 credits)
This course provides a cross-national examination of the dynamics of criminality and the social response to crime. It also describes the extent and nature of crime in different countries.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or admission to UNO graduate program and instructor permission.

CRCJ 9050 ACADEMIC WRITING (3 credits)
This course is designed to familiarize students with academic and professional writing with the goal of promoting the development of formal writing and organizational skills. Students will learn how to construct and organize scholarly papers to better prepare them for the comprehensive examination, the doctoral dissertation, the development of scholarly journal articles and monographs, and the development of funded project proposals.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and permission of instructor.

CRCJ 9080 ADVANCED STATISTICAL APPLICATIONS (3 credits)
This is a required course which will provide the student with fundamentals of modern statistical techniques used in criminal justice and public affairs research. (Cross-listed with PA 9080.)
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and CRCJ 8950 or PA 8950 and instructor permission.

CRCJ 9090 SPECIAL PROBLEMS IN RESEARCH METHODS (3 credits)
This course will explore specialized topics in research methodology. The course assumes that participants have a firm understanding of the basic principles of research methods and statistics.
Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CRCJ 9100 SPECIAL PROBLEMS IN STATISTICAL ANALYSIS (3 credits)
This course will explore advanced techniques of statistical analysis within the field of criminal justice. It assumes that participants have taken courses in basic descriptive and inferential statistics and advanced multivariate analysis of variance and regression.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in Criminology and Criminal Justice and CRCJ 9080; or admission to UNO graduate program, CRCJ 9080, and permission of the instructor.

CRCJ 9130 ADVANCED RESEARCH ON POLICING (3 credits)
This course will explore critical research issues in American policing. The focus of the course may vary and cover topics such as police discretion, police use of force, labor unions in law enforcement, gender differences in policing, and police organization management.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and permission of the instructor.

CRCJ 9150 SPECIAL TOPICS IN CRIMINAL JUSTICE RESEARCH (3 credits)
This course will focus on specialized topics in criminology & criminal justice research. The purpose of the course is to provide students with an opportunity to read and critique current research on topics such as the history of the criminal justice system, civilian review of the police, sentencing, or the application of the death penalty.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CRCJ 9160 SEMINAR IN COMMUNITY-BASED CORRECTIONS (3 credits)
This course will deal with strategies of correctional reform and with models and practices of community-based corrections. Recent innovations in community-based corrections will be examined to demonstrate how they fit into an overall correctional strategy.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program.

CRCJ 9170 SEMINAR ON INSTITUTIONAL CORRECTIONS (3 credits)
This course will examine the role of correctional institutions in the criminal justice system. The student will be exposed to the historical, current, and projected role of these institutions.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 9180 SEMINAR ON THE CRIMINAL COURT SYSTEM (3 credits)
This course will focus on the structure, organization, and operation of the state and federal court systems in the United States. The purpose of the course is to survey recent research on the dynamics of courthouse justice—charging, plea bargaining, bail decision making, jury decision making, and sentencing.
Prerequisite(s)/Corequisite(s): Admission to graduate program in Criminology and Criminal Justice; or admission to UNO graduate program and permission of instructor.

CRCJ 9200 SEMINAR ON VIOLENT CRIME AND CRIMINAL BEHAVIOR (3 credits)
This course exposes students to the leading theories and research in the area of violent criminal behavior. It addresses major violent crimes including rape, homicide, and child sexual physical abuse.
Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice graduate program; or admission to UNO graduate program and instructor permission.

CRCJ 9220 ADVANCED CRIMINOLOGICAL THEORY AND THEORY CONSTRUCTION (3 credits)
This course is designed to extend students' knowledge of theory and theory construction beyond the basics of the elements and propositions of particular criminological theories. Students will have an opportunity to examine in depth topics such as theory construction, theory integration, theory compatibility and synthesis, and new directions in criminological theory.
Prerequisite(s)/Corequisite(s): CRCJ 8090 or CRCJ 9020 and admission to graduate program in Criminology and Criminal Justice; or permission of instructor.

CRCJ 9250 SEMINAR ON VICTIMIZATION ACROSS THE LIFE-COURSE (3 credits)
The Seminar on Victimization across the Life-course provides graduate students a survey of the primary topics regarding the predictors and consequences of victimization at various points in life. This an elective course for graduate students in Criminology and Criminal Justice. By the end of the course, students will understand major theories, research methods, and seminal research studies in the victimology field. Furthermore, students will learn how to critically analyze and interpret primary research regarding victimization.
Prerequisite(s)/Corequisite(s): Admission to UNO graduate program. Not open to non-degree graduate students.
Critical and Creative Thinking (CACT)

CACT 9700 TEACHING CRIMINAL JUSTICE AT THE COLLEGE/UNIVERSITY LEVEL (3 credits)
This course is a required course for doctoral students in criminal justice. The purpose of the course is to provide students with the knowledge and skills that will enable them to become informed, effective, and stimulating teachers. A variety of pedagogical issues will be covered during the course of the semester; theories of learning and student motivation; constructing a course syllabus; designing effective writing assignments and in-class exercises; leading class discussions; testing and grading; and managing the classroom.

Prerequisite(s)/Corequisite(s): Admission to Criminology and Criminal Justice PhD graduate program; or admission to Criminology and Criminal Justice MA or MS graduate program and instructor permission. Not open to non-degree students.

CACT 9800 ADVANCED RESEARCH DESIGN (3 credits)
This is a required course which will expose students to advanced topics in research methods in preparation for writing their doctoral dissertation. It will also apply advanced methodological techniques to problems in the field.

Prerequisite(s)/Corequisite(s): Admission to PhD program in Criminology and Criminal Justice; or UNO graduate student and instructor permission.

CACT 9980 INTRODUCTION TO CRITICAL AND CREATIVE THINKING (3 credits)
This course focuses on global cultural and social forces and how they interact to form nexus of both opportunity and obstacle to constructive human engagement on a wide array of social issues. An overview of topics covered in the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. This course will provide students with the analytical tools, collaborative engagement skills, and applied problem-solving techniques that will help students succeed in this concentration and leverage tools, resources, and ideas towards finding innovative solutions to everyday problems.

Prerequisite(s)/Corequisite(s): Graduate status and acceptance into MA CACT program or permission of instructor. CACT 8000

CACT 9990 DISSERTATION (1-20 credits)
The dissertation is an original research project conducted and written under the direction of a faculty dissertation committee. The dissertation provides the student with an opportunity to do original research that contributes to advancing the body of knowledge on crime and criminal justice.

Prerequisite(s)/Corequisite(s): Completion of all coursework, completion of the comprehensive examination, and permission of Supervisory Committee Chair. Not open to non-degree graduate students.

CACT 8080 INDEPENDENT STUDY (1-3 credits)
This course is designed for those students who are independently pursuing an area of study that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the MA in Critical and Creative Thinking program. All course assignments, readings, requirements, and expectations will be clearly communicated to the student in advance. May be repeated for credit for a total of six credit hours.

Prerequisite(s)/Corequisite(s): Admission into the MA CCT program, successful completion of 6 hours of CACT coursework, including CACT 8000, and permission of faculty member. Not open to non-degree graduate students.

CACT 8090 CRITICAL AND CREATIVE THINKING GRADUATE PROJECT (3 credits)
The Graduate Project is an applied student project under the direction of a faculty advisor. In the project, the student will apply interdisciplinary knowledge and skills gained within the program to address a problem or to expand knowledge within or across disciplines. The product or artifact produced by the student may take a variety of forms.

Prerequisite(s)/Corequisite(s): Permission of faculty advisor and Graduate Program Committee Leadership (or its designee). Not open to non-degree graduate students.

CACT 8100 GLOBAL CINEMA (3 credits)
A critical and analytic study of foreign films focusing on overlapping global issues. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking.

CACT 8106 CULTURAL PSYCHOLOGY (3 credits)
This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about “culture” can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals’ psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4530, PSYC 8536).

Prerequisite(s)/Corequisite(s): Enrollment in MA in Critical & Creative Thinking program or by permission of the instructor.

CACT 8110 GLOBAL-LOCAL: OPPORTUNITIES, BARRIERS, ENGAGEMENT (3 credits)
This course focuses on global cultural and social forces and how they interact to form nexus of both opportunity and obstacle to constructive human engagement on a wide array of social issues. An overview of topics covered in the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. This course will provide students with the analytical tools, collaborative engagement skills, and applied problem-solving techniques that will help students succeed in this concentration and program. (Cross-listed with BLST 8110)

Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8116 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)
A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 4550, GEOG 8556)

Prerequisite(s)/Corequisite(s): Graduate status.
CACT 8200 SEMINAR IN POLITICAL THEORY (3 credits)
This course introduces students to the history of political theory, from its origins in ancient Greece to its manifestations in contemporary thought. (Cross-listed with PSCI 8300)
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

CACT 8206 COMPARATIVE RELIGIOUS ETHICS (3 credits)
An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4200, RELI 8206)

CACT 8215 VALUES AND VIRTUES (3 credits)
This course explores advanced topics in ethics with particular emphasis on value theory and virtue ethics. Topics to be considered include the meaning and status of value claims, sources of value, intrinsic goods, agent-relative goods, practical reason, moral development, happiness, moral ambiguity, moral luck, the identification of virtues, and relationships of care, trust, and responsibility. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PHIL 3060)

CACT 8226 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)
This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4220, RELI 8226)

CACT 8306 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 4290, PSCI 8296)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

CACT 8310 ECOLOGICAL WRITING AND ANALYSIS (3 credits)
This course provides students with the opportunity to develop expertise in a wide range of foundational works and key techniques of ecological writing and theory in English. By engaging mindfully with these works and techniques, students will develop advanced skills in ecologically oriented critical analysis and creative thinking. This course supports the Writing and Critical Reflection and the Health and the Environment concentrations in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8310)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8316 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)
This course emphasizes a critical analysis of our energy options and their environmental, economic and ethical connections. The course includes the underlying chemistry necessary to accurately assess energy positions described in the mainstream media and ultimately to make informed, creative energy choices. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 4310, ENVN 8316)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8326 ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH (3 credits)
The course will explore and develop the complex context of the systemic links among ecosystems and human health (and more broadly human well-being) using case studies including climate change, water quality, infectious diseases and agricultural production. Students will develop skills in critical thinking and applied research by studying biological connections between humans and ecosystems and how social, economic and cultural processes and practices mediate these connections. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 4320)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8400 A HISTORY OF AMERICAN IMMIGRATION POLICIES AND LAWS (3 credits)
This seminar will examine the evolution of American immigration policies and laws from the colonial period to the present day. Where appropriate, the course will examine American immigration laws in a comparative context. It will pay particular attention to how state policies create and/or sustain inclusionary or exclusionary practices for members of different racial, ethnic, religious, or gender groups in American society.
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8410 IMMIGRATION, MIGRATION, AND DIASPORA: CRITICAL APPROACHES AND THEORIES OF MOVEMENT IN LITERATURE (3 credits)
This seminar in literature and some film analyzes the depictions in non-fiction and fiction of displacement as a result of immigration, migration, refugee status, or any other considered movement, intentional or imposed. It will focus largely on the U.S. experiences of those displaced from all locales. (Cross-listed with ENGL 8410)
Prerequisite(s)/Corequisite(s): Graduate standing.

CACT 8416 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/ Culture: Central America and the Caribbean 1898-2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 4150, SPAN 8156)

CACT 8420 MEXICO AND THE U.S. BORDERLANDS: TWO HISTORIES, ONE DESTINY (3 credits)

CACT 8430 INTERNATIONAL MIGRATION, DEVELOPMENT AND CITIZENSHIP (3 credits)
The course allows students to gain an understanding of the forces driving contemporary world migration, the policies and practices of development expelling or attracting migrants from and to different parts of the world, and migrants' relative success in their quest for belonging and citizenship in their host communities. This course supports the International Migration, Development and Citizenship concentration in the Master of Arts in Critical and Creative Thinking.

CACT 8500 COMPLEX ORGANIZATIONS (3 credits)
This graduate seminar provides an overview focused on the understanding and analysis of intricate internal and external organizational forces such as organizational bureaucracy, organizational culture, autonomy and control systems, which affect performance of organizational members as well as influence organizational survival. (Cross-listed with SOC 8500)
Prerequisite(s)/Corequisite(s): Graduate enrollment or permission of class instructor.
CAct 8506 Creativity and Innovation in Organizations (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4650, PSYC 8656)

CAct 8510 Seminar in Leadership (3 credits)
This course introduces students to classical and contemporary scholarship on leadership theory, research, and application. Students gain a foundation in models of leadership, assess their own leadership styles, and learn to integrate what they learn in corporate, governmental, non-profit, or community organizations. (Cross-listed with PSCI 8120)
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

CAct 8520 Organizational Psychology and Leadership (3 credits)
This course is a graduate seminar on organizational psychology and leadership that focuses on the understanding and critical analysis of theory and practice pertaining to individual functioning at work. Positive organizational psychology theories and practices will provide the overarching framework in understanding potential solutions to challenges and problems facing leaders and their employees. (Cross-listed with PSYC 9421)
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

CAct 8530 Personnel Psychology and Leadership (3 credits)
This course provides an overview of personnel psychology from a leadership perspective. Topics include methodology, employee selection, performance appraisal, organizational attitudes and behavior, motivation, and leadership style.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor

CAct 8610 Professional and Technical Writing (3 credits)
This course will introduce students to the theory, research, and practices of professional and technical writing. Through readings, discussions, and assignments, students will gain an understanding of the types and circumstances of communication challenges encountered in the workplace. The course will also consider the roles of persuasion and ethics in written communication. (Cross-listed with ENGL 8610)
Prerequisite(s)/Corequisite(s): Graduate standing.

CAct 8630 Digital Rhetoric (3 credits)
This course provides students with the opportunity to develop expertise in the theory and practice of digital rhetoric by considering technology's deep impact on how we define and engage in writing. Students examine contemporary writing practices as part of a rich rhetorical tradition while they design and create effective multimodal compositions and analyze foundational works in digital rhetoric. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8630)
Prerequisite(s)/Corequisite(s): Graduate standing.

CAct 8640 Creative Nonfiction in Digital Environments (3 credits)
Students in this course will study creative nonfiction in digital environments, analyze rhetorical situations created in digital environments, and create individual creative nonfiction blogs—which might include, in addition to other modalities, sounds, animations, and hypertext. The course will also focus on the study and analysis of craft-elements of creative nonfiction: narrative persona, tone, rhythm and style, scenic construction, among others. Students taking this course will learn to read with interpretative and analytical proficiency a broad range of creative nonfiction in digital environments. (Cross-listed with ENGL 8640)
Prerequisite(s)/Corequisite(s): Graduate standing.

CAct 8650 Writing Across Differences: Rhetorical Theory for Persuasion and Public Advocacy (3 credits)
This course provides students a theoretical foundation for understanding how language is used in various types of discourses and texts as a means of convincing others of a given viewpoint or idea. Students will apply this theory to real-world writing scenarios in their scholarly areas of interest, to advocacy and social issues movements, or to address workplace needs and goals. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENGL 8650)
Prerequisite(s)/Corequisite(s): Graduate standing.

Cybersecurity (CYBR)

CYBR 8000 Center of Academic Excellence-Cyber Operations Completion Certificate (0 credits)
This course is utilized to provide a specific designation for students that have completed the Center of Academic Excellence - Cyber Operations coursework. It is a zero credit hour class used to designate the completion of this focus area in the cybersecurity curriculum.
Prerequisite(s)/Corequisite(s): Instructor Permission. The program committee will work with the CG advisors to ascertain that the student has fulfilled all requirements for this designation-if he/she has or will within the last semester, they will be allowed to register for this class.

CYBR 8080 Special Topics in Information Assurance (1-6 credits)
The course provides a format for exploring advanced research areas for graduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research.
Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 8366 Foundations of Information Assurance (3 credits)
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption systems; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 4360, CSCI 8366)
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or ISQA 3300 OR By instructor permission.
CYBR 8386 COMPUTER AND NETWORK FORENSICS (3 credits)
Computer forensics involves the preservation, identification, extraction and documentation of computer evidence stored on a computer. This course takes a technical, legal, and practical approach to the study and practice of incident response, computer forensics, and network forensics. Topics include legal and ethical implications, duplication and data recovery, steganography, network forensics, and tools and techniques for investigating computer intrusions. This course is intended as a second course in information assurance for undergraduate students as well as other qualified students. It is also intended as a foundation course for graduate digital forensics studies. (Cross-listed with CYBR 4380, CSCI 4380)
Prerequisite(s)/Corequisite(s): CYBR 1100, CIST 3600, CSCI 3500 or ISQA 3400, CYBR 3350 or CYBR 3370; or instructor permission.

CYBR 8410 DISTRIBUTED SYSTEMS AND NETWORK SECURITY (3 credits)
The course aims at understanding the issues surrounding data security, integrity, confidentiality and availability in distributed systems. Further, we will discuss various network security issues, threats that exist and strategies to mitigate them. This course will cover topics in cryptography, public key infrastructure, authentication, hashing, digital signatures, ARP protection, IP and IPSec, IP Tables, SSL/TLS, firewalls, etc. (Cross-listed with CSCI 8410)
Prerequisite(s)/Corequisite(s): IASC 8366 or equivalent(s); or instructor permission. Not open to non-degree graduate students.

CYBR 8420 SOFTWARE ASSURANCE (3 credits)
Software assurance is a reasoned, auditable argument created to support the belief that the software will operate as expected. This course is an intersection of knowledge areas necessary to perform engineering activities or aspects of activities relevant for promoting software assurance. This course takes on a software development lifecycle perspective for the prevention of flaws. (Cross-listed with CSCI 8420)
Prerequisite(s)/Corequisite(s): CSCI 4830 or CSCI 8836 OR by permission of the Instructor. Not open to non-degree graduate students.

CYBR 8436 QUANTUM COMPUTING AND CRYPTOGRAPHY (3 credits)
The course aims at understanding the exciting concepts behind quantum computing and quantum cryptography. The course will introduce the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that built using these principles. We will discuss the security definitions and protocols within the quantum realm. We will discuss what advantages quantum computing and cryptography offers compared to classical computing and cryptography and limitations thereof. It will cover the integration of quantum cryptography into existing public key infrastructure. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course students will also implement several of the quantum algorithms. (Cross-listed with CYBR 4430)
Prerequisite(s)/Corequisite(s): Co-requisites: CYBR 3570 or CSCI 4560; or Instructor permission

CYBR 8440 SECURE SYSTEMS ENGINEERING (3 credits)
This course takes a global risk-based view of the process of defining, verifying, validating and continuously monitoring secure information systems. The course will investigate a number of secure system solutions, starting with the definition of the system security needs, and tracing through methods of verification and validation of security controls, as well as ways to continuously monitor the corresponding assurances. (Cross-listed with CSCI 8440)
Prerequisite(s)/Corequisite(s): CSCI 8366 or IASC 8366.

CYBR 8446 INDUSTRIAL CONTROL SYSTEM SECURITY (3 credits)
The objective of this course is to research vulnerabilities into, and provide guidance for securing, industrial control systems (ICS). ICS is a general term that encompasses several types of control systems, including supervisory control and data acquisition (SCADA) systems, distributed control systems (DCS), and other control system items such as Programmable Logic Controllers (PLC). The student will learn to identify network and device vulnerabilities and potential countermeasures to these weaknesses. (Cross-listed with CYBR 4440)
Prerequisite(s)/Corequisite(s): CSCI 3550.

CYBR 8450 APPLIED CRYPTOGRAPHY (3 credits)
In this course we will implement stream and block ciphers in different modes, public key algorithms, hash functions, message authentication codes, random number generators, etc. Along the way we will also explore weaknesses of these algorithms and implement well-known attacks on them. We will also solve crypto challenges and puzzles. This is a hand-on course and will require programming proficiency. The preferred language will be Python; you can, however, use other object oriented languages.
Prerequisite(s)/Corequisite(s): CSCI 2030, CSCI 3320, CYBR 3570 or equivalent or Instructor Permission.

CYBR 8456 HOST-BASED VULNERABILITY DISCOVERY (3 credits)
The class will cover security issues at an implementation and hardware level. The students will learn assembly language and the use of a reverse assembler and debugger. This will allow the student to analyze various "packing" algorithms for computer viruses, the viruses themselves, operating system "hooking", "fuzzing", and other machine code, host-based exploits. The class will be using both Windows and Linux as operating systems. (Cross-listed with CYBR 4450.)
Prerequisite(s)/Corequisite(s): Permission of the instructor and CSCI 3710.

CYBR 8460 SECURITY OF EMBEDDED SYSTEMS (3 credits)
An embedded system is some combination of computer hardware and software, either fixed in capability or programmable, which is specifically designed for a particular function. Industrial machines, automobile electronic systems, medical equipment, cameras, household appliances, airplanes, vending machines, cellular phones and PDAs are among the myriad possible hosts of an embedded system. This class concerns itself with the security aspects of these often computationally restricted computing platforms
Prerequisite(s)/Corequisite(s): IASC 8366, CYBR 4450 or CYBR 8456.

CYBR 8466 NETWORK-BASED VULNERABILITY DISCOVERY (3 credits)
The course is an advanced class in which the students learn various techniques for testing for and identifying security flaws in network software and web applications. Internet technologies such as HTTP, DNS, DHCP, and others are examined in the context of cyber security. Students are expected to participate in numerous hands-on experiments related to Information Assurance with respect to web technologies. (Cross-listed with CYBR 4460)
Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 8470 SECURE WEB APPLICATION DEVELOPMENT (3 credits)
Web applications are pervasive fixtures of 21st century culture. Web application security is an inclusive, amorphous, term that spans application level security, i.e. ensuring high level code cannot be exploited, server level security, i.e. ensuring server resources such as databases and file systems cannot be exploited, and network security, i.e. ensuring unauthorized parties cannot access a server or tamper with user sessions. This course cross-cuts the web application security concepts across the different categories above and takes a heavily hands-on approach to introduce students to the world of secure web app. design and development.
Prerequisite(s)/Corequisite(s): Instructor Permission
CYBR 8546  COMPUTER SECURITY MANAGEMENT (3 credits)
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 4540, ISQA 8546)
Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

CYBR 8570  INFORMATION SECURITY POLICY AND ETHICS (3 credits)
The course will cover the development and need for information security policies, issues regarding privacy, and the application of computer ethics. (Cross-listed with ISQA 8570)
Prerequisite(s)/Corequisite(s): CIST 2100 or BSAD 8030, or permission of instructor.

CYBR 8900  INDEPENDENT STUDY IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring advanced research areas for graduate students in Information Assurance and related fields. The class is designed for students that would like to explore specific Information Assurance topics at a greater depth, or topics that are not currently a part of the IA curriculum. The class is proposed and organized by the student, with participating faculty mentoring.
Prerequisite(s)/Corequisite(s): Instructor Permission

CYBR 8910  INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the MS in CyberSecurity (CYBR) program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Students must have completed a minimum of 12 credit hours towards the MS in CYBR program. Instructor permission is required to register. Not open to non-degree graduate students.

CYBR 8950  GRADUATE CAPSTONE IN INFORMATION ASSURANCE (3 credits)
This is the graduate capstone course where students extend and apply their knowledge in defining, implementing, and assessing secure information systems. Students will demonstrate their ability to specify, apply, and assess different types of countermeasures at different points in the enterprise with a special focus on system boundaries. Students will complete and defend a Certification and Accreditation package. This course is intended for graduate students in the MS in IA degree program, coursework option, that are close to graduation (see prerequisites). This course replaces the MS in IA comprehensive examination requirement.
Prerequisite(s)/Corequisite(s): CYBR 8366, CYBR 8410, and CYBR 8456 and concentration area (systems or management and policy). Students must have 6 credit hours or less left in the program.

CYBR 8986  SPECIAL TOPICS IN INFORMATION ASSURANCE (1-3 credits)
The course provides a format for exploring advanced research areas for undergraduate students in Information Assurance and related fields. Specific topics vary, in keeping with research interests of faculty and students. Examples include applied data mining, mobile security, web services and applications, vulnerability assessments, cloud computing security, and other issues in Information Assurance research. (Cross-listed with CYBR 4980)
Prerequisite(s)/Corequisite(s): Instructor Permission.

CYBR 8990  THESIS IN INFORMATION ASSURANCE (1-6 credits)
A research project, designed and executed under the supervision of the chair and approval by members of the graduate student's thesis advisory committee. In this project the student will develop and perform a number of skills including the ability to design, conduct, analyze and report the results in writing (i.e., thesis) of an original, independent scientific investigation.
Prerequisite(s)/Corequisite(s): Instructor Permission.

Economics (ECON)

ECON 8010  SEMINAR PUBLIC FINANCE (3 credits)
This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes will be emphasized.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission

ECON 8020  ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with BSAD 8020).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220 or BSAD 8180, or permission of the instructor. Not open to non-degree graduate students.

ECON 8050  ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles and how they can be related to the teacher's classroom presentation. This course is designed to furnish the public school teacher (K-12) with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles.
Prerequisite(s)/Corequisite(s): No previous course work in economics. Not open to Economics majors.

ECON 8160  SEMINAR IN LABOR ECONOMICS (3 credits)
A study of the demand for labor, the supply of labor, the theory of compensating differentials, investment in human capital, worker mobility, discrimination, unions, inequality and unemployment.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission.

ECON 8200  SEMINAR IN MICRO THEORY (3 credits)
This course deals with the current state of microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, distribution theory and welfare theory.
Prerequisite(s)/Corequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.

ECON 8210  MANAGERIAL ECONOMICS (3 credits)
Microeconomics for graduate students of business. Economic analysis of the business firm and its environments, with emphasis on market structure, production possibilities and cost factors. Additional consideration is given to the theory of the firm under conditions of uncertainty. (Cross-listed with BSAD 8100).
Prerequisite(s)/Corequisite(s): Graduate student in economics and ECON 2200 or equivalent.

ECON 8216  INDUSTRIAL ORGANIZATION (3 credits)
This course applies economic analysis to public policy issues in industrial economics. It is concerned with the strategic behavior of firms: the nature of interaction among competing firms within a game-theory framework. Among the topics covered are: discriminatory pricing, predatory conduct, product design, patent infringement, price wars, location decisions, and entry-deterrence. (Cross-listed with ECON 4210).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8220  SEMINAR IN MACRO THEORY (3 credits)
This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.
ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, and the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical techniques of analysis to the business situation, within the framework of the aggregate economy. **Prerequisite(s)/Corequisite(s):** ECON 2200 or BSAD 8180.

ECON 8266 HISTORY OF ECONOMIC THOUGHT (3 credits)
The first half of the course focuses on the development of economics from Adam Smith in 1776 to John Maynard Keynes in the 1930s. The second half of the course uses the history sketched in the first half as a partial basis for addressing important questions about the methodology, institutional structure and policy impact of economics. (Cross-listed with ECON 4260). **Prerequisite(s)/Corequisite(s):** ECON 2200 and ECON 2220, or BSAD 8180, or equivalent.

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper. **Prerequisite(s)/Corequisite(s):** ECON 3200, ECON 3220, or equivalents, or permission of the instructor. Not open to non-degree graduate students.

ECON 8300 ECONOMETRICS (3 credits)
The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics. **Prerequisite(s)/Corequisite(s):** Basic Statistics, ECON 8306/ECON 4300 and ECON 8290/ECON 4290, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. (Cross-listed with ECON 4300). **Prerequisite(s)/Corequisite(s):** ECON 2200 and ECON 2220, or BSAD 8180.

ECON 8310 BUSINESS FORECASTING (3 credits)
This course includes a comprehensive survey of forecasting methods and in-depth study of selected techniques most commonly used in business environments. Emphasis is given to applications and therefore students will be required to develop forecasting models and test their performance as part of the course. (Cross-listed with BSAD 8080). **Prerequisite(s)/Corequisite(s):** BSAD 8000 or equivalent or ECON 8300 or permission of instructor. Not open to non-degree graduate students.

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)
The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course. **Prerequisite(s)/Corequisite(s):** ECON 2200 or BSAD 8150 (or equivalent); BSAD 2130 or equivalent; or instructor approval.

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)
Energy, minerals, fisheries, water, land, pollution and congestion are among the topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors which determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320). **Prerequisite(s)/Corequisite(s):** ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8330 DATA ANALYSIS FROM SCRATCH (3 credits)
Econometrics is routinely taught as an application class ¿ using a `black box¿ like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators from scratch. Additionally, we introduce numerous non-parametric and simulation techniques. This approach to econometrics results in a stronger understanding of statistical assumptions and methods, a better understanding of when a method is appropriate, and stronger programming techniques. Furthermore, a deeper understanding of the underlying mechanics provides the student the ability to program custom procedures not already built into popular software packages. **Prerequisite(s)/Corequisite(s):** A multivariate or regression analysis course such as ECON 8300, ISQA 9130 or STAT 8436, and a programming class such as ECON 8320 or equivalent programming experience; or instructor approval. Not open to non-degree graduate students.

ECON 8346 ECONOMICS OF TECHNOLOGY (3 credits)
The seminar discusses whether innovation is more driven by demand or supply forces, the optimal timing of adoption of new technology, whether new technology benefits workers and consumers, and whether government is successful at supporting promising new technology. (Cross listed with ECON 4340). **Prerequisite(s)/Corequisite(s):** ECON 2200 or BSAD 8180 or permission of the instructor.

ECON 8450 SEMINAR IN MONEY & BANKING (3 credits)
Original research and writing of papers on basic problems in the area of money and banking. **Prerequisite(s)/Corequisite(s):** Six hours in undergraduate monetary courses or permission of the instructor.

ECON 8456 MONETARY THEORY AND POLICY (3 credits)
Monetary policy has an important effect on economic magnitudes, including the level of output, interest rates, inflation rates, exchange rates, and many other variables. This course provides an in-depth analysis of the role that the Federal Reserve plays in our economy. This involves how monetary policy is transmitted to various markets. (Cross-listed with ECON 4450). **Prerequisite(s)/Corequisite(s):** ECON 3220, or permission of the instructor.

ECON 8500 INFORMATION ECONOMICS (3 credits)
This class provides an overview of various issues that can arise under the general heading of information economics. It encompasses a wide range of literature as the absence of information is often a key feature of analysis in fields such as industrial organization, labor economics, experimental economics, and financial economics, as well as various areas in management. **Prerequisite(s)/Corequisite(s):** ECON 2200

ECON 8566 STATE AND LOCAL FINANCE (3 credits)
Theoretical and policy analysis of state and local government fiscal relations. Applications to education, transportation, and economic development. (Cross-listed with ECON 4560). **Prerequisite(s)/Corequisite(s):** ECON 2200 and ECON 2220, or BSAD 8180, or equivalent, or permission of the instructor.

ECON 8600 HEALTH ECONOMICS (3 credits)
This course is designed to help students understand how the theories and models of economics can be applied to the study of health and health care. The examination of the markets (demand and supply) for health, health care and health insurance is stressed. In addition, the economic analytic tools such as microeconomic theories and economic evaluation methods also will be reviewed and introduced. The objective of this course is to equip students with the knowledge tools to examine and analyze the problems issues of health care from the perspective of economics. **Prerequisite(s)/Corequisite(s):** ECON 2200 or equivalent.
ECON 8616 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration, and economic growth. (Cross-listed with ECON 4610).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8626 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, alternative exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 4620).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8650 SEMINAR IN INTERNATIONAL ECONOMICS (3 credits)
An analysis of the theory of international trade and the working of the international monetary system.
Prerequisite(s)/Corequisite(s): ECON 3600 or ECON 4660 or permission of instructor.

ECON 8666 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course deals with the economics of developing countries. It introduces theories of development and endogenous growth. It analyzes domestic problems such as income distribution, population growth, unemployment, urbanization and education. It also analyzes international economic issues such as trade, foreign investment and debt. It discusses government development policies. (Cross-listed with ECON 4660).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8690 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economic education i.e., economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, students develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. (Cross-listed with TED 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.

ECON 8706 ECONOMICS OF EBUSINESS (3 credits)
The course will be conducted mainly as a seminar with ample student participation, including a research paper. A “New Economy” has often been identified with the rise of e-business. We will examine whether the rise of e-business has brought with it a change in the rules of the economy, and we will look at the effects of e-business on business, labor, consumers, and the stock market. (Cross-listed with ECON 8706, BSAD 8706).
Prerequisite(s)/Corequisite(s): Admission to the MBA program or the Economics graduate program or permission of the instructor.

ECON 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter’s theory of creative destruction. The main focus of the seminar will be on the “high-level” entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736).
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8856 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).
Prerequisite(s)/Corequisite(s): MATH 1310, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8870 SEMINAR IN REGIONAL ECONOMICS (3 credits)
An examination of the current developments and issues involving regional economic development and planning. These courses provide the theoretical basis for understanding and analyzing economic problems of a regional nature. In addition, policy alternatives, decision-making and measurement techniques are examined.
Prerequisite(s)/Corequisite(s): At least six hours of upper division course work in economics or permission of instructor.

ECON 8910 SPECIAL STUDIES IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses, each designed to focus on current major issues and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8916 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6 hours) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with BSAD 8916, ECON 4910).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research under tutorial supervision.
Prerequisite(s)/Corequisite(s): Graduate student in economics and permission of instructor.

ECON 8930 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research under tutorial supervision.
Prerequisite(s)/Corequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)
Guided internship in a firm or organization that makes use of, or extends, the student’s skill in economics.
Prerequisite(s)/Corequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.

ECON 8990 THESIS (1-6 credits)
An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.

Educational Leadership (EDL)

EDL 8000 SPECIAL STUDIES IN EDUCATIONAL LEADERSHIP (3 credits)
This course will provide candidates in educational leadership with the opportunities and experiences of in-depth study of a specialized area of practice and research in school leadership.
Prerequisite(s)/Corequisite(s): Admission to Graduate Studies or permission of instructor.
EDL 8020 EDUCATIONAL POLICY AND LEADERSHIP (1 credit)
This course explores the expanded federal and state presence in local school districts. Historical and political factors influencing the governance of today's schools are explored, as well as current trends and policy decisions.
Prerequisite(s)/Corequisite(s): Acceptance to Graduate Studies or department permission.

EDL 8030 INTRODUCTION TO EDUCATIONAL LEADERSHIP (3 credits)
This course is designed to introduce the beginning school leadership candidate to theories and practices of organization, motivation, leadership, and change processes, in order to develop an understanding of schools as complex organizations and the nature and challenges of leadership.
Prerequisite(s)/Corequisite(s): Admission to UNO Graduate Studies or department permission.

EDL 8050 SCHOOL-COMMUNITY CONNECTIONS (3 credits)
School leaders engage the external and internal communities in their buildings and districts. This course assists candidates in developing an understanding of school-community relations, practicing the skills of positive influence with education stakeholders, and refining the dispositions of responsible citizenship by connecting to diverse community needs.
Prerequisite(s)/Corequisite(s): Admission to Graduate Studies or department permission.

EDL 8060 PLANNING FOR SAFE AND ORDERLY SCHOOLS (3 credits)
This course examines the components of school wide discipline policies, programs, and problems from an administrative point of view. Candidates will assess strengths and weaknesses of policies and approaches to student behavior management, and will have an opportunity to apply ideas through case study situations.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

EDL 8100 INDEPENDENT STUDY IN EDUCATIONAL LEADERSHIP (1-6 credits)
This course is designed to allow graduate candidates in educational leadership to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities are mutually agreed upon by the candidate and instructor. This course will prepare school leaders as practitioners and researchers who can meet the dynamic challenges of education.
Prerequisite(s)/Corequisite(s): Admittance to the doctoral program in educational administration/leadership, or instructor permission.

EDL 8250 TECHNOLOGY FOR SCHOOL LEADERS (3 credits)
A course designed for current and aspiring school leaders. The course content will relate to the ways in which technology can support the leadership and management of schools. Embracing the College of education theme, "Preparing Professionals to Serve the Community", the course for school leaders is planned to include administration of the school site and system. This course is specifically designed to address the problems, issues, and opportunities of building level leadership.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8410 SECONDARY SCHOOL INTERNSHIP IN EDUCATIONAL LEADERSHIP (3 credits)
Secondary school internship is designed to provide practice in 7-12 and general administration and supervision according to the interests and needs of the candidates. Candidates will work with practicing administrators and a university supervisor.
Prerequisite(s)/Corequisite(s): Candidates must be enrolled in the Master's and/or the School Administration Endorsement program in Educational Leadership and be in their last year of the program or have department permission.

EDL 8470 ADMINISTRATION AND SUPERVISION IN SCHOOLS (3 credits)
This course is designed to prepare educational leaders as dedicated practitioners, reflective scholars, and responsible citizens as they relate to the administration of a school site and system. This course is specifically designed to address the problems, issues, and opportunities of building level leadership.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8490 INSTRUCTIONAL LEADERSHIP (3 credits)
School leaders serve as instructional leaders in their buildings and districts. This course assists candidates in developing knowledge and practicing skills necessary to lead educators and schools in the areas of instruction and curriculum.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College

EDL 8550 SCHOOL BUSINESS MANAGEMENT (3 credits)
This course will analyze the functions of school business management: budgetary processes, financial accounting, auditing and reporting, management of funds, purchasing procedures, transportation, food services, insurance and inventory control.
Prerequisite(s)/Corequisite(s): EDAD8030 (previously or concurrently). Not open to non-degree graduate students.

EDL 8560 SCHOOL FINANCE (3 credits)
This course provides a study of the current sources of school financing: local, state, and federal. In addition to a review of the history of school finance, emphasis is placed on current problems in school finance, especially those related to overseeing the financial aspects of a school district.
Prerequisite(s)/Corequisite(s): Admission to Graduate College

EDL 8620 SCHOOL PLANTS AND EQUIPMENT (3 credits)
This course is designed for aspiring superintendents and central office leaders. It will prepare school leaders to be proactive in developing specifications for school buildings that will enhance educational processes. It includes planning procedures for new and remodeled buildings, soliciting support for projects, site selection, design, maintenance and operations of school buildings.
Prerequisite(s)/Corequisite(s): EDL 8550 or permission of the instructor.

EDL 8700 LEADING HUMAN RESOURCES IN SCHOOLS (3 credits)
Many human resources functions that had previously belonged to the central office are now the responsibility of school leaders. The field of human resources administration is changing. This course serves as a guide to exemplary practices in leading a school.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8710 INTERPERSONAL RELATIONSHIPS IN EDUCATIONAL LEADERSHIP (3 credits)
This course deals with the establishment of quality interpersonal and group relations among adults in school settings. Candidates will develop an increased awareness of their own and others' perspectives and will develop dispositions and skills that will allow them to work more productively. This course does not meet the requirements of Nebraska law LB 250 (Multi-Cultural and Interpersonal Relations).
Prerequisite(s)/Corequisite(s): Admission to the Graduate Studies and Department of Educational Leadership or department permission.
EDL 8720 MULTICULTURAL AND NON-SEXIST AWARENESS (1 credit)
This course is designed for certificated educational employees, both teachers and administrators, seeking renewal of Nebraska certification under Nebraska LB 250 (Multi-Cultural and Interpersonal Relations). This course meets the requirements of Nebraska law LB 250 (Multi-Cultural and Interpersonal Relations). The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate level. Permit of department required.

EDL 8730 COMMUNICATION AND CULTURE IN EDUCATIONAL HUMAN RESOURCES (1 credit)
This course focuses upon the interpersonal and professional knowledge, skills, and dispositions of human resources issues and functions for effective leadership in education.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8740 PROFESSIONAL DEVELOPMENT FOR SCHOOL LEADERSHIP (1 credit)
This course addresses strategies and models of planning, implementing, and evaluating adult and organizational learning for effective leadership in education.
Prerequisite(s)/Corequisite(s): Admittance to Graduate College. Not open to non-degree graduate students.

EDL 8750 FUNDAMENTALS OF HUMAN RESOURCES IN EDUCATION (1 credit)
This course examines the frameworks that schools utilize to recruit, select, place, and support faculty and staff. School leaders need human resources skills and knowledge in order to effectively implement strategies and polices related to staff management, motivation, and evaluation.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. Not open to non-degree graduate students.

EDL 8780 CAPSTONE IN EDUCATIONAL LEADERSHIP (2 credits)
The capstone in educational leadership synthesizes the program of school administration, supervision, and management in a manner that can be professionally presented and clearly articulated.
Prerequisite(s)/Corequisite(s): Twenty four credit hours must be completed or taken concurrently in educational leadership. Not open to non-degree graduate students.

EDL 8800 SCHOOL LEADERSHIP ACADEMY (3 credits)
A leadership course designed for current and aspiring school administrators and teacher-leaders. The course content will relate administrative theory to operations of schools drawing on research, models, and various organizational structures. This course is specifically designed to bridge leadership and management theory to the practical operations of schools.
Prerequisite(s)/Corequisite(s): Advisor's approval.

EDL 8810 URBAN SCHOOL LEADERSHIP (3 credits)
This course is designed to acquaint candidates with urban concerns and issues which most significantly affect the administration of schools in and around metropolitan areas.
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

EDL 9000 SEMINAR IN RESEARCH DESIGN (3 credits)
This course will provide support and assistance concerning principles of research design as related to topics in educational leadership. Instruction as to appropriate format, style, and content of educational research as well as designing methodology for dissertation proposal will be emphasized.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. EDL 9610 or permission from instructor. Not open to non-degree students.

EDL 9010 ADVANCED SEMINAR IN EDUCATIONAL RESEARCH (3 credits)
This seminar will provide support for doctoral candidates in applying skills of educational research to the creation of a successful dissertation.
Prerequisite(s)/Corequisite(s): Admission to Graduate College. EDL 9000 or permission from instructor. Not open to non-degree graduate students.

EDL 9020 CONCEPTS AND CONTEXTS FOR LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
Concepts and Context for School Libraries will introduce candidates to the broad landscape of school librarianship and its relationship to the greater library and information profession.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Doctoral Program in Educational Administration or other University of Nebraska doctoral program in education, and instructor permission. Not open to non-degree graduate students.

EDL 9110 FIELD PROJECT IN EDUCATIONAL ADMINISTRATION (1-3 credits)
Administrative practitioners will study a current or anticipated educational problem using research techniques. Candidates will review a change process to their school or district that has recently been implemented or is under consideration for future implementation as the capstone work for the Educational Specialist degree.
Prerequisite(s)/Corequisite(s): Admission to the Ed.S. program and completion of EDL 9200. Candidates are encouraged, but not required, to utilize the project from EDL 9200 for the focus of the field project. Not open to non-degree students.

EDL 9200 ADVANCED PRACTICUM IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is an independent, advanced practicum course meant to help practitioners prepare to be reflective scholars. It builds upon theory and practice of educational leadership and provides a guided experience.
Prerequisite(s)/Corequisite(s): Admittance to the Ed.S. program and completion of EDL 9200. Candidates are encouraged, but not required, to utilize the project from EDL 9200 for the focus of the field project. Not open to non-degree students.

EDL 9500 FRAMEWORKS OF BEST PRACTICE: LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
This class will explore best practice in school libraries using the framework of current national standards for school librarianship preparation programs. Major areas for exploration include but are not limited to teaching for learning, literacy and reading, information access, advocacy and leadership, and program management and administration.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Joint Doctoral Program in Educational Administration pursuing studies in educational leadership with an emphasis in school librarianship or with instructor permission. Not open to non-degree graduate students.

EDL 9510 SEMINAR IN CULTURE AND CONTEXT OF SCHOOLING (3 credits)
An advanced seminar designed to enhance understanding of the cultural and social forces, trends, and issues that influence the delivery and effectiveness of schooling.
Prerequisite(s)/Corequisite(s): Admission to the Department of Educational Administration and Supervision and the UNL-UNO Joint Ed.D. Program. Not open to non-degree graduate students.

EDL 9520 ACHIEVING SCHOOL EXCELLENCE (3 credits)
An advanced seminar on the pursuit of improvement in education and the role of administration in guiding positive school change through influence, persuasion, power, ethics, and research.
Prerequisite(s)/Corequisite(s): Admission to the University of Nebraska Joint Doctoral Degree program or admission to another University of Nebraska doctoral program. Not open to non-degree graduate students.
EDL 9530 PARADIGMS AND PRACTICES OF SCHOOLING (3 credits)
This is an advanced seminar to explore leadership and supervisory practices. Particular attention will be given to organizational conceptualizations (paradigms) for addressing current educational problems and issues. Candidates will be encouraged to think outside the traditional frames of education in order to improve student achievement in PK-12 schools. When a paradigm shifts, the way we view the world and what we assume to be true dramatically changes. When faced with shifting circumstances, school leaders can turn change into opportunity and opportunity into success.
**Prerequisite(s)/Corequisite(s):** Admission to the UNO-UNL Joint Doctorate Program. Not open to non-degree graduate students.

EDL 9540 SCHOOL LAW (3 credits)
This course is concerned with laws related to schools. Topics include certification, contract, negligence, student rights, due process, curriculum, and discipline. Each topic is approached through study of most recent court cases.
**Prerequisite(s)/Corequisite(s):** EDL 8030 (previously or concurrently) or instructor permission. Not open to non-degree graduate students.

EDL 9550 SYMPOSIUM ON SCHOOL LEADERSHIP (3 credits)
The purpose of this seminar is to relate research, theory, and practice in educational organizations. The course is designed to engage candidates with a systematic examination of school reform, best practices, and the implications for practitioners. The symposium will involve candidates with the changing roles and functions of educational leaders in rapidly changing metropolitan educational environments.
**Prerequisite(s)/Corequisite(s):** Permission of instructor.

EDL 9610 APPLIED INTERMEDIATE STATISTICS IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is designed to develop competence in using intermediate-level statistics. Topics include descriptive and inferential statistics including measures of central tendency and variability, independent and dependent t-tests, correlation analysis, and regression. Emphasis is placed on the appropriateness of statistical methods relative to the type of data involved.
**Prerequisite(s)/Corequisite(s):** Admission to the UNO-UNL Joint Doctoral Program in Educational Administration or instructor's permission. Not open to non-degree or non-degree graduate students.

EDL 9620 APPLIED ADVANCED STATISTICS IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is designed to develop competence in using advanced-level statistics. The course includes parametric and nonparametric inferential statistics and scale development. The statistical analyses include: analyses of variance, regression analyses, factor and reliability analyses, chi-square, Mann-Whitney U, Wilcoxon Signed-Ranks, and Kruskal-Wallis.
**Prerequisite(s)/Corequisite(s):** EDL 9610 and must be admitted to the UNO-UNL Joint Doctoral Program in Educational Administration, or instructor’s permission. Not open to non-degree or non-degree graduate students.

EDL 9650 PROGRAM EVALUATION FOR EDUCATIONAL ADMINISTRATORS (3 credits)
This course provides an introduction to program evaluation theory and practice. It will address the range of approaches within education human service program evaluation, the standards established by the profession, the "how to" of program evaluation, and the skills needed to conduct program evaluation.
**Prerequisite(s)/Corequisite(s):** Admission to the Graduate College and successful completion of TED 8010 or instructor’s permission.

EDL 9670 INQUIRY AND RESEARCH FOR LEADERSHIP IN SCHOOL LIBRARIES (3 credits)
Inquiry and Research for Leadership in School Librarianship will examine current research in the school library field and focus on action research based on authentic need.
**Prerequisite(s)/Corequisite(s):** Admission to the University of Nebraska Joint Doctoral Program in Educational Administration or to any other doctoral program in the University of Nebraska, or instructor permission. Not open to non-degree graduate students.

EDL 9980 SUPERINTENDENT INTERNSHIP IN EDUCATIONAL ADMINISTRATION (3 credits)
This course is a guided, field-based internship for candidates seeking the school superintendent endorsement from the Nebraska Department of Education (NDE). The internship will provide candidates with experiences in the various roles and responsibilities of a superintendent.
**Prerequisite(s)/Corequisite(s):** Admission to the UNO-UNL Joint Doctoral Program in Educational Administration or departmental permission. Candidates must submit an internship application.

EDL 9990 DISSERTATION (1-12 credits)
The course provides doctoral candidates in Educational Administration and Supervision with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation.
**Prerequisite(s)/Corequisite(s):** Admittance to the UNO-UNL Joint Doctoral Program in Educational Administration and successful completion of doctoral coursework, EDL 9980, doctoral comprehensive examinations, EDL 9000, and EDL 8100. Not open to non-degree graduate students.

**Electrical and Computer Engineering (ECEN)**

ECEN 8006 ELECTRONIC INSTRUMENTATION (3 credits)
Applications of analog and digital devices to electronic instrumentation. Includes transducers, instrumentation amplifiers, mechanical and solid state switches, data acquisition systems, phase-lock loops, and modulation techniques. Demonstrations with working circuits and systems. (Cross-listed with ECEN 4000)
**Prerequisite(s)/Corequisite(s):** Senior Standing in Engineering or Permission. Not open to non-degree graduate students.

ECEN 8066 POWER SYSTEMS ANALYSIS (3 credits)
Symmetrical components and fault calculations, power system stability, generator modeling (circuit view point), voltage control system, high voltage DC transmission, and system protection. (Cross-listed with ECEN 4060)
**Prerequisite(s)/Corequisite(s):** ECEN 3380. Not open to non-degree graduate students.

ECEN 8076 POWER SYSTEMS PLANNING (3 credits)
Economic evaluation, load forecasting, generation planning, transmission planning, production simulation, power plant reliability characteristics, and generation system reliability. (Cross-listed with ECEN 4076)
**Prerequisite(s)/Corequisite(s):** ECEN 3050. Not open to non-degree graduate students.

ECEN 8086 ENGINEERING ELECTROMAGNETICS (3 credits)
Applied electromagnets: Transmission lines in digital electronics and communication. The quasistatic electric and magnetic fields; electric and magnetic circuits and electromechanical energy conversion. Guided waves; rectangular and cylindrical metallic waveguides and optical filters. Radiation and antennas; line and aperture antennas and arrays. (Cross-listed with ECEN 4080)
**Prerequisite(s)/Corequisite(s):** ECEN 3060. Not open to non-degree graduate students.
ECEN 8106 MULTIVARIATE RANDOM PROCESSES (3 credits)
Probability space, random vectors, multivariate distributions, moment
generating functions, conditional expectations, discrete and continuous-
time random processes, random process characterization and
representation, linear systems with random inputs. (Cross-listed with
ECEN 4100)
Prerequisite(s)/Corequisite(s): ECEN 3050. Not open to non-degree
graduate students.

ECEN 8150 DIGITAL IMAGE PROCESSING (3 credits)
Topics covering the spatial and spectral analysis of digital image processing
systems, the design of multi-dimensional digital filters and systems, and
advanced theories and technologies in digital image processing systems.
Prerequisite(s)/Corequisite(s): ECEN 4240 or ECEN 8246 or permission.

ECEN 8166 MATERIALS AND DEVICES FOR COMPUTER MEMORY,
LOGIC, AND DISPLAY (3 credits)
Survey of fundamentals and application of devices used for memory, logic,
and display. Magnetic, superconductive, semi-conductive, and dielectric
materials. (Cross-listed with ECEN 4160)
Prerequisite(s)/Corequisite(s): ECEN 4240 or ECEN 8246 or permission.

ECEN 8176 SEMICONDUCTOR FUNDAMENTALS II (3 credits)
Analysis of BJTs and MOSFET’s from a first principle materials viewpoint.
Static and dynamic analysis and characterization. (Cross-listed with
ECEN 4170.)
Prerequisite(s)/Corequisite(s): ECEN 4210 or ECEN 8216. Not open to
non-degree graduate students.

ECEN 8206 PLASMA PROCESSING OF SEMICONDUCTORS (3
credits)
Physics of plasmas and gas discharges developed. Includes basic collisional
theory, the Boltzman equation and the concept of electron energy
distribution. Results are related to specific gas discharge used in
semiconductor processing, such as sputtering, etching, and deposition
systems. (Cross-listed with ECEN 4200)
Prerequisite(s)/Corequisite(s): Senior or graduate Standing. Not open to
non-degree graduate students.

ECEN 8216 PRINCIPLES OF SEMICONDUCTOR MATERIALS AND
DEVICES I (3 credits)
Introduction to semiconductor fundamentals, charge carrier concentration
and carrier transport, energy bands, and recombination. PN junction, static
and dynamic, and special PN junction diode devices. (Cross-listed with
ECEN 4210)
Prerequisite(s)/Corequisite(s): PHYS 2120. Not open to non-degree
graduate students.

ECEN 8246 DIGITAL SIGNAL PROCESSING (3 credits)
The temporal and spectral analysis of digital signals and systems, the
design of digital filters and systems, and advanced systems including multi-
rate digital signal processing techniques. (Cross-listed with ECEN4240)
Prerequisite(s)/Corequisite(s): ECEN 3550

ECEN 8286 POWER ELECTRONICS (3 credits)
Basic analysis and design of solid-state power electronic devices and
converter circtuity. (Cross-listed with ECEN 4280)
Prerequisite(s)/Corequisite(s): ECEN 3040, ECEN 3160.

ECEN 8306 WIND ENERGY (3 credits)
This broad multidisciplinary course will combine engineering principles
of both the mechanical/aerodynamical and electrical components and
systems, along with economic and environmental considerations for siting
and public policy, to appropriately cover the relevant topics associated with
all scales of wind energy implementations. (Cross-listed with ECEN 4300)
Prerequisite(s)/Corequisite(s): Senior standing or permission.

ECEN 8336 MICROPROCESSOR SYSTEM DESIGN (4 credits)
Microprocessor based systems. Architecture; design and interfacing.
Memory design, input/output ports, serial communications, and interrupts.
Generating assembly ROM code, assembly/C firmware generation, and
designing device drivers. (Cross-listed with ECEN 4330)
Prerequisite(s)/Corequisite(s): ECEN 3100 with grade of C or better and
ECEN 3320 with grade of C or better.

ECEN 8356 EMBEDDED MICROCONTROLLER DESIGN (4 credits)
Microcontroller architecture: design, programming, and interfacing for
embedded systems. Timing issues, memory interfaces, serial and parallel
interfacing, and functions for common microcontrollers. (Cross-listed with
ECEN 4360)
Prerequisite(s)/Corequisite(s): ECEN 4330/8336, STAT 3800. Pre-req:
CSCI 4500.

ECEN 8366 ELECTRIC MACHINES (3 credits)
Provides a solid background in electric machine analysis, covering
fundamental concepts, techniques, and methods for analysis and design.
Discussion of transformers and presentation of some new systems and
applications. (Cross-listed with ECEN 4160)
Prerequisite(s)/Corequisite(s): PHYS 2120 and ECEN 2160

ECEN 8376 PARALLEL AND DISTRIBUTED PROCESS (3 credits)
Parallel and Distributed Processing concepts, principles, techniques and
machines. Cross-listed with ECEN 4370.)
Prerequisite(s)/Corequisite(s): ECEN 4350 or ECEN 83665

ECEN 8426 BASIC ANALYTICAL TECHNIQUES IN ELECTRICAL
ENGINEERING (3 credits)
Applications of partial differential equations, matrices, vector analysis,
complex variables, and infinite series to problems in electrical engineering.
(Cross-listed with ECEN 4420)
Prerequisite(s)/Corequisite(s): MATH 2350. Not open to non-degree
graduate students.

ECEN 8446 LINEAR CONTROL SYSTEMS (3 credits)
Classical (transfer function) and modern (state variable) control techniques.
Both time domain and frequency domain techniques are studied.
Traditional, lead, lag, and PID compensators are examined, as well as state
variable feedback. (Cross-listed with ECEN 4440)
Prerequisite(s)/Corequisite(s): ECEN 3040. Not open to non-degree
graduate students.

ECEN 8486 DECISION ANALYSIS (3 credits)
Principles of engineering economy including time value of money, net
present value, and internal rate of return. Use of influence diagram
and decision tree to structure and analyze decision situations under
uncertainty including use of stochastic dominance, value of information,
and utility theory. Fundamentals of two-person matrix games including
Nash equilibrium. (Cross-listed with ECEN 4480)
Prerequisite(s)/Corequisite(s): ECEN 3050 or STAT 3800

ECEN 8506 BIOINFOMATICS (3 credits)
This course examines how information is organized in biological sequences
such as DNA and proteins and will look at computational techniques which
make use of this structure. During this class various biochemical processes
that involve these sequences are studied to understand how these processes
effect the structure of these sequences. In the process bioinformatics
algorithms, tools, and techniques which are used to explore genomic and
amino acid sequences are also introduced. (Cross-listed with ECEN 4500)
Prerequisite(s)/Corequisite(s): Computer programming language and
ECEN 3050 or STAT 3800 or equivalent.

ECEN 8516 INTRODUCTION TO VLSI SYSTEM DESIGN (3 credits)
The concepts, principles, and methodology at all levels of digital VLSI system
design and focused on gate-level VLSI implementation. (Cross-listed with
ECEN 4510).
Prerequisite(s)/Corequisite(s): ECEN 3100
ECEN 8526 INTRODUCTION TO COMPUTER-AIDED DIGITAL DESIGN (3 credits)
The concepts, simulation techniques and methodology in computer-aided
design at system and logic levels. (Cross-listed with ECEN4520)
Prerequisite(s)/Corequisite(s): ECEN 3100

ECEN 8546 POWER SYSTEMS OPERATIONS AND CONTROL (3 credits)
Characteristics and generating units. Control of generation, economic
dispatch, transmission losses, unit commitment, generation with limited
supply, hydrothermal coordination, and interchange evaluation and power
pool. (Cross-listed with ECEN 4540)
Prerequisite(s)/Corequisite(s): ECEN 8386. Not open to non-degree
graduate students.

ECEN 8606 LABVIEW PROGRAMMING (3 credits)
Labview as a programming language and for applications to acquire data,
to access the network, control lab instruments, and for video and sound
applications. (Cross-listed with ECEN 4600)
Prerequisite(s)/Corequisite(s): Prior programming experience.

ECEN 8616 DIGITAL COMMUNICATIONS MEDIA (4 credits)
Topics related to the transport of bit streams from one geographical
location to another over various physical media such as wire pairs, coaxial
cable, optical fiber, and radio waves. Transmission characteristics, media
interfacing, delay, distortion, noise, and error detection and correction
techniques. (Cross-listed with ECEN 4610)
Prerequisite(s)/Corequisite(s): ECEN 3250 or ECEN 4620

ECEN 8626 COMMUNICATION SYSTEMS (3 credits)
Mathematical descriptions of signals in communication systems. Principles
of analog modulation and demodulation. Performance analysis of analog
communication systems in the presence of noise. (Cross-listed with
ECEN 4620)
Prerequisite(s)/Corequisite(s): ECEN 3040 and ECEN 3050. Not open to
non-degree graduate students.

ECEN 8636 DIGITAL SIGNAL PROCESSING (3 credits)
Discrete system analysis using Z-transforms. Analysis and design of digital
filters. Discrete Fourier transforms. (Cross-listed with ECEN 4630)
Prerequisite(s)/Corequisite(s): ECEN 3040. Not open to non-degree
graduate students.

ECEN 8646 DIGITAL COMMUNICATION SYSTEMS (3 credits)
Principles of digital transmission of information in the presence of noise.
Design and analysis of baseband PAM transmission systems and various
carrier systems including ASK, FSK, PSK. (Cross-listed with ECEN 4640)
Prerequisite(s)/Corequisite(s): ECEN 4620. Not open to non-degree
graduate students.

ECEN 8656 INTRODUCTION TO DATA COMPRESSION (3 credits)
Introduction to the concepts of Information Theory and Redundancy
removal. Simulation of various data compression schemes such as Delta
Modulation, Differential Pulse Code Modulation, Transform Coding and
Run-length Coding. (Cross-listed with ECEN 4650)
Prerequisite(s)/Corequisite(s): ECEN 3050. Not open to non-degree
graduate students.

ECEN 8666 TELECOMMUNICATION ENGINEERING I (4 credits)
Standard telecommunications protocols, architecture of long distance
integrated data networks, local area networks, wide area networks, radio
and satellite networks. Network management, internetworking, system
modeling and performance analysis. (Cross-listed with ECEN 4660).
Prerequisite(s)/Corequisite(s): ECEN 3620; ECEN 4610/8616 prior to or
concurrent.

ECEN 8676 ELECTROMAGNETIC THEORY AND APPLICATIONS (3 credits)
Engineering application of Maxwell’s equations. Fundamental Parameters
of Antennas, Radiation analysis, and synthesis of antenna arrays. Aperture
Antennas. (Cross-listed with ECEN 4670)
Prerequisite(s)/Corequisite(s): ECEN 3060. Not open to non-degree
graduate students.

ECEN 8686 MICROWAVE ENGINEERING (3 credits)
Applications of active and passive devices to microwave systems. Includes
impedance matching, resonators, and microwave antennas. (Cross-listed
with ECEN 4680)
Prerequisite(s)/Corequisite(s): ECEN 3060. Not open to non-degree
graduate students.

ECEN 8696 ANALOG INTEGRATED CIRCUITS (3 credits)
Analysis and design of analog integrated circuits both bipolar and MOS.
Basic circuit elements such as differential pairs, current sources, active
loads, op-amp drivers used in the design of more complex analog integrated
circuits. (Cross-listed with ECEN 4690)
Prerequisite(s)/Corequisite(s): ECEN 3610. Not open to non-degree
graduate students.

ECEN 8706 DIGITAL AND ANALOG VLSI DESIGN (3 credits)
Introduction to VLSI design techniques for analog and digital circuits.
Fabrication technology and device modeling. Design rules for integrated
circuit layout. LSI design options with emphasis on the standard cell
approach of digital and analog circuits. Lab experiments, computer
simulation and layout exercises. (Cross-listed with ECEN 4700)
Prerequisite(s)/Corequisite(s): ECEN 3610. Not open to non-degree
graduate students.

ECEN 8716 COMPUTER COMMUNICATION NETWORKS (4 credits)
This course investigates the standard protocols and hardware solutions
defined by the International Standard Organization (ISO) and Institute of
Electrical and Electronic Engineers (IEEE) for the computer communications
networks. Included are ISO OSI model, IEEE 802.X (Ethernet, token bus,
token ring) and Asynchronous Transfer Mode (ATM) networks. (Cross-listed
with ECEN 4710)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 8736 MOBILE AND PERSONAL COMMUNICATIONS (4 credits)
Concepts on mobile and personal communications. Modulation techniques
for mobile radio, equalization, diversity, channel coding, and speech coding.
(Cross-listed with ECEN 4730)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 8746 DIGITAL SYSTEMS (3 credits)
Synthesis using state machines; design of digital systems; micro
programming in small controller design; hardware description language for
design and timing analysis. (Cross-listed with ECEN 4740)
Prerequisite(s)/Corequisite(s): ECEN 3700. Not open to non-degree
graduate students.

ECEN 8756 SATELLITE COMMUNICATIONS (4 credits)
The fundamental concepts of satellite communications. Orbits, launching
satellites, modulation and multiplexing, multiple access, earth stations,
coding, interference and special problems in satellite communications.
(Cross-listed with ECEN 4750)
Prerequisite(s)/Corequisite(s): ECEN 3520

ECEN 8766 WIRELESS COMMUNICATIONS (3 credits)
The fundamental concepts of wireless communications. Basic
communications concepts such as multiple access, and spectrum.
Propagation, radio, standards, and internetworking. Current issues in
wireless communications. (Cross-listed with ECEN 4760)

ECEN 8776 DIGITAL SYSTEMS ORGANIZATION AND DESIGN (3 credits)
Hardware development languages, hardware organization and realization,
microprogramming, interrupt, intersystem communication, and peripheral
interfacing. (Cross-listed with ECEN 4770)
Prerequisite(s)/Corequisite(s): ECEN 4750 or ECEN 8746. Not open to
non-degree graduate students.
ECEN 8796 OPTICAL FIBER COMMUNICATIONS (4 credits)
Fundamentals of lightwave communication in optical fiber waveguides, physical description of fiber optic systems. Properties of the optical fiber and fiber components. Electro-optic devices: light sources and modulators, detectors and amplifiers; optical transmitter and receiver systems. Fiber optic link design and specification; fiber optic networks. (Cross-listed with ECEN 4790)
Prerequisite(s)/Corequisite(s): ECEN 4630.

ECEN 8806 INTRODUCTION TO LASERS AND LASER APPLICATIONS (3 credits)
Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering. (Cross-listed with ECEN 4800)
Prerequisite(s)/Corequisite(s): PHYS 2130.

ECEN 8826 ANTENNAS AND RADIO PROPAGATION FOR WIRELESS COMMUNICATIONS (4 credits)
Fundamental theory of antennas and radio propagation for wireless communications. Basic antenna characteristics and various antennas and antenna arrays. Basic propagation mechanisms and various channel models, such as Friis free space model, Hata model, lognormal distribution, and multipath model. Includes practical antenna design for high radio frequency (RF) with modeling software tools such as Numerical Electromagnetic Code (NEC) and ADvanced Design System (ADS). Design projects will be assigned as the main part of course. (Cross-listed with ECEN 4820)
Prerequisite(s)/Corequisite(s): ECEN 3280

ECEN 8830 RANDOM PROCESSES IN ENGINEERING (3 credits)
Topics related to the concept of random variables, functions of random variables and random processes.
Prerequisite(s)/Corequisite(s): STAT3800

ECEN 8846 NETWORK SECURITY (4 credits)
Network security and cryptographic protocols. Classical encryption techniques, block ciphers and stream ciphers, public-key cryptography, authentications digital signatures, key management and distributions, network vulnerabilities, transport-level security, IP security. (Cross-listed with ECEN 4840)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 8850 SPREAD SPECTRUM COMMUNICATIONS (3 credits)
Introduction to the theory of spread spectrum communications: direct sequence, frequency and time hopping techniques. Topics include properties of pseudo-random binary sequences, low-probability-of-intercept (LPI) and anti-jamming (AJ) methods, performance of spread spectrum systems, applications of spread spectrum techniques in radio frequency and optical code-division multiple access (CDMA) systems.
Prerequisite(s)/Corequisite(s): ECEN 4630 or ECEN 8610 or permission.

ECEN 8866 APPLIED PHOTONICS (3 credits)
Introduction to the use of electromagnetic radiation for performing optical measurements in engineering applications. Basic electromagnetic theory and light interaction with matter are covered with corresponding laboratory experiments conducted. (Cross-listed with ECEN 4860)
Prerequisite(s)/Corequisite(s): ECEN 3060 or permission. Not open to non-degree graduate students.

ECEN 8886 WIRELESS SECURITY (4 credits)
A comprehensive overview on the recent advances in wireless network and system security. Covers security issues and solutions in emerging wireless access networks and systems as well as multi-hop wireless networks. (Cross-listed with ECEN 4880)
Prerequisite(s)/Corequisite(s): ECEN 3250

ECEN 8916 SPECIAL TOPICS IN COMPUTER AND ELECTRONICS ENGINEERING IV (1-4 credits)
Special topics in the emerging areas of computer and electronics engineering at the upper level which may not be covered in the other courses in the computer and electronics engineering curriculum. (Cross-listed with ECEN 4910)
Prerequisite(s)/Corequisite(s): Senior standing

ECEN 8926 INDIVIDUAL STUDY IN COMPUTER AND ELECTRONICS ENGINEERING IV (1-3 credits)
Individual study at the senior level in a selected computer or electronics engineering area under the supervision and guidance of a Computer and Electronics Engineering faculty member. (Cross-listed with ECEN 4920)
Prerequisite(s)/Corequisite(s): Senior or graduate standing and departmentally approved proposal.

ECEN 8930 INDEPENDENT STUDY IN COMPUTER AND ELECTRONICS ENGINEERING (1-3 credits)
Individual study at the graduate level in a selected computer or electronics engineering area under the supervision and guidance of a Computer and Electronics Engineering faculty member.
Prerequisite(s)/Corequisite(s): Departmentally approved proposal.

ECEN 8950 SPECIAL TOPICS (1-3 credits)
Special topics in the newly emerging areas of computer and electronics engineering not covered in the other courses in the computer and electronics engineering curriculum.

ECEN 8986 SPECIAL TOPICS IN ELECTRICAL ENGINEERING IV (1-6 credits)
Offered as the need arises to meet electrical engineering topics for fourth-year and graduate students not covered in other courses. (Cross-listed with ECEN 4986)

ECEN 8990 MASTERS THESIS (1-10 credits)
Masters thesis work.
Prerequisite(s)/Corequisite(s): Admission to masters degree program and permission of supervisory committee chair. Not open to non-degree graduate students.

ECEN 9110 COMMUNICATION THEORY (3 credits)
Applications of probability and statistics to signals and noise; correlation; sampling; shot noise; spectral analysis; Gaussian processes; filtering.
Prerequisite(s)/Corequisite(s): ECEN 8626, and ECEN 8646 or ECEN 8106.

ECEN 9120 ERROR CONTROL CODING (3 credits)
Fundamentals of error correction and detection in digital communication and storage systems. Linear and algebraic block codes; Hamming, BCH and Reed Solomon codes; algebraic decoding techniques; structure and performance of convolutional codes, turbo codes, and trellis coded modulation; MAP, Viterbi, and sequential decoding techniques.
Prerequisite(s)/Corequisite(s): ECEN 4100 or ECEN 8106, and ECEN 4640 or ECEN 8646, or Permission.

ECEN 9130 ADVANCED ANALOG AND MIXED-SIGNAL INTEGRATED CIRCUITS (3 credits)
Prerequisite(s)/Corequisite(s): ECEN 8696 and permission. Not open to non-degree graduate students.

ECEN 9150 ADAPTIVE SIGNAL PROCESSING (3 credits)
Adaptive filtering algorithms, frequency and transform domain adaptive filters, and simulation and critical evaluation of adaptive signal processing for real world applications.
Prerequisite(s)/Corequisite(s): ECEN 4100 or ECEN 8106, ECEN 4630 or ECEN 8636, and permission. Not open to non-degree graduate students.
ECEN 9260 STATISTICAL SIGNAL PROCESSING FOR WIRELESS COMMUNICATION (3 credits)
Statistical signal processing and applications for wireless communications covering the characteristics of random signals, optimum linear filters, statistical parameter estimation using maximum likelihood (ML) and minimum mean-square error (MMSE) methods, adaptive signal processing using least-mean-square (LMS) and recursive least-square (RLS) approaches, Kalman filtering, and eigenanalysis algorithms. Applications of the statistical signal processing techniques in wireless communications will be explored.
Prerequisite(s)/Corequisite(s): ECEN 4240 or ECEN 8246, ECEN 4760 or ECEN 8766, and ECEN 8800. Not open to non-degree graduate students.

ECEN 9320 ADVANCED POWER ELECTRONICS AND APPLICATIONS (3 credits)
Analysis and design of power electronic circuits and their applications, including: snubber circuits, resonant converters and soft switching techniques, pulse-width modulation techniques, control of power electronic circuits, power electronics and control for electric machines and wind energy systems, flexible AC-transmission system (FACTS) devices, and high-voltage DC (HVDC) transmission.
Prerequisite(s)/Corequisite(s): ECEN 4360 or ECEN 8366, ECEN 4280 or ECEN 8286, and ECEN 4260 or ECEN 8366.

ECEN 9350 COMPUTATIONAL INTELLIGENCE (3 credits)
Computational intelligence paradigms and their applications, including: artificial neural networks, fuzzy logic systems, swarm intelligence, evolutionary computation (e.g., genetic algorithms), machine learning (e.g., supervised learning, unsupervised learning, and reinforcement learning), neurocontrol and adaptive critic designs, and applications of computational intelligence for system identification, state estimation, time series prediction, signal processing, adaptive control, optimization, diagnostics, prognostics, etc.
Prerequisite(s)/Corequisite(s): MATH 1970, 2350 and 2050. Good skills using MATLAB. Not open to non-degree graduate students.

ECEN 9460 OPTIMAL FILTERING ESTIMATION AND PREDICTION (3 credits)
Techniques for optimally extracting information about the past, present, or future status of a dynamic system from noise-corrupted measurements on that system.
Prerequisite(s)/Corequisite(s): ECEN 8106 or permission. Not open to non-degree graduate students.

ECEN 9570 ADVANCED COMPUTER METHODS IN POWER SYSTEM ANALYSIS (3 credits)
Power System matrices, sparsity techniques, network equivalents, contingency analysis, power flow optimization, state estimation, and power system restructuring examined via computer methods.
Prerequisite(s)/Corequisite(s): ECEN 8066. Not open to non-degree graduate students.

ECEN 9590 WIRELESS COMMUNICATIONS (3 credits)
Principles of wireless communications, including: description of the wireless channel characteristics; ultimate performance limits of wireless systems; performance analysis of digital modulation techniques over wireless channels; diversity techniques; adaptive modulation; multiple-antenna communications; multi-carrier modulation; and multi-user wireless communications.
Prerequisite(s)/Corequisite(s): ECEN 8646 and permission. Not open to non-degree graduate students.

ECEN 9600 SOLID STATE DEVICES (3 credits)
Gallium arsenide and silicon devices. Device properties based on structure and physical properties of the materials.
Prerequisite(s)/Corequisite(s): ECEN 3150, not open to non-degree graduate students.

ECEN 9650 PASSIVE MICROWAVE COMPONENTS (3 credits)
Application of Maxwell’s Equations to the analysis of waveguides, resonant cavities, filters and other passive microwave devices.
Prerequisite(s)/Corequisite(s): ECEN 8670 or ECEN 8686. Not open to non-degree graduate students.

ECEN 9670 INTRODUCTION TO QUANTUM ELECTRONICS (3 credits)
Introduction to the quantum aspects of electron devices.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

ECEN 9710 SEMINAR (1-12 credits)
Selected topics.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 9750 OPTICAL PROPERTIES OF MATERIALS (3 credits)
Quantum mechanical description of the optical properties of solids (complex refractive index and its dispersion, effects of electric and magnetic fields, temperature, stress; additional special topics as desired).
Prerequisite(s)/Corequisite(s): ECEN 9670 or permission. Not open to non-degree graduate students.

ECEN 9770 SPACE-TIME WIRELESS COMMUNICATIONS (3 credits)
Theory of space-time (ST) wireless communication systems. Emphasis will be placed on spatial diversity, smart antenna systems, MIMO capacity of multi-antenna fading channels, space-time signaling, space-time receivers and interference mitigation. Includes overview of more advanced topics such as MIMO-OFDM and current trends in research and industry.
Prerequisite(s)/Corequisite(s): ECEN 4610, ECEN 4630, ECEN 4760.

ECEN 9790 NON-LINEAR FIBER OPTIC SYSTEMS (3 credits)
Linear and non-linear propagations in optical fibers. Topics include fiber non-linearity, fundamentals of optical amplifiers, semiconductor and fiber amplifiers, soliton communications. Applications include high capacity and long distance transmissions, all-optical networks.
Prerequisite(s)/Corequisite(s): ECEN 4670 or permission.

ECEN 9860 OPTOELECTRONICS (3 credits)
Modern phenomena associated with optoelectronics Electro-optical effect such as Pocket effect, Kerr effect, and nonlinear optical phenomena. Material and devices used in modern communications, femtosecond lasers, and optical computer systems.
Prerequisite(s)/Corequisite(s): ECEN 8866. Not open to non-degree graduate students.

ECEN 9910 INDEPENDENT STUDY (1-24 credits)
Selected topic under the direction and guidance of a faculty member.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 9920 RESEARCH OTHER THAN THESIS (1-6 credits)
Supervised non-thesis research and independent study.
Prerequisite(s)/Corequisite(s): Permission and graduate standing.

ECEN 9960 TOPICS IN ELECTRICAL ENGINEERING (3 credits)
Selected topics in electrical engineering.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ECEN 9980 ADVANCED SPECIAL TOPICS (1-3 credits)
Advanced topics in computer and electronics engineering not covered in other 9000 level courses.
Prerequisite(s)/Corequisite(s): Permission.

ECEN 9990 DOCTORAL DISSERTATION (1-24 credits)
Dissertation research.
Prerequisite(s)/Corequisite(s): Admission to doctoral degree program and permission of supervisory committee chair. Not open to non-degree graduate students.
Electrical Engineering (ELEC)

ELEC 8226 INTRODUCTION TO PHYSICS AND CHEMISTRY OF SOLIDS (3 credits)
Introduction to structural, thermal, electrical, and magnetic properties of solids, based on concepts of atomic structure, chemical bonding in molecules, and electron states in solid state devices. (Cross-listed with ELEC 4220)
Prerequisite(s)/Corequisite(s): PHYS 2130 or CHEM 3350, MATH 2350 or permission. Not open to non-degree graduate students.

ELEC 9680 ELECTRON THEORY OF SOLIDS (3 credits)
Quantitative development of the fundamentals of the quantum mechanical theory of electrons in solids.
Prerequisite(s)/Corequisite(s): ELEC 9670 or permission. Not open to non-degree graduate students.

ELEC 9730 INTRODUCTION TO NANOTECHNOLOGY (3 credits)
The content of this course will be updated annually based on new scientific findings. Topics in nanotechnology as defined by the National Nanotechnology Initiative, with emphasis on topics related to electrical engineering.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

Engineering (ENGR)

ENGR 8056 ANALYSIS OF ENGINEERING MANAGEMENT (3 credits)
General concepts and principles of engineering management applied to cases. (Cross-listed ENGR 4050).
Prerequisite(s)/Corequisite(s): CONE 2060.

ENGR 8076 PROJECT MANAGEMENT (3 credits)
Project development, role of the project manager, project selection, project planning, budgeting and cost estimation, project scheduling, and project termination. (Cross-listed with ENGR 4070)

ENGR 8100 ERGONOMICS (3 credits)
Introduction to the principles of ergonomics. Information processing, human output and control, workplace design and environmental conditions. Not open to students with credit in ISMG 3150.

ENGR 8156 COGNITIVE ERGONOMICS (3 credits)
Human factors affecting work. Focus on humans: energy requirements, lighting, noise, monotony and fatigue, learning, simulations versus sequential tasks. Experimental evaluation of concepts. (Cross-listed with ENGR 4150)

ENGR 8166 PHYSICAL ERGONOMICS (3 credits)
Human performance in work. Human response to various environmental and task-related variables with emphasis on physical and physiological effects. (Cross-listed with ENGR 4160)
Prerequisite(s)/Corequisite(s): ENGR 4300 or permission

ENGR 8176 OCCUPATIONAL SAFETY HYGIENE ENGINEERING (3 credits)
Introduction to occupational hygiene engineering with emphasis on workplace environmental quality. Heat, illumination, noise, and ventilation. (Cross-listed with ENGR 4170)
Prerequisite(s)/Corequisite(s): Senior standing or permission.

ENGR 8230 RELIABILITY ENGINEERING (3 credits)

ENGR 8306 APPLIED STATISTICS AND QUALITY CONTROL (3 credits)
Systematic analysis of processes through the use of statistical analysis, methods, and procedures; statistical process control, sampling, regression, ANOVA, quality control, and design of experiments. Use of software for performing a statistical analysis. (Cross-listed with ENGR 4300).
Prerequisite(s)/Corequisite(s): ENGR 3210.

ENGR 8310 STOCHASTIC PROCESSES (3 credits)

ENGR 8406 DISCRETE EVENT SIMULATION MODELING (3 credits)
Development of simulation models of discrete systems. Model development, Monte Carlo techniques, random number generators, and output analysis. (Cross-listed with ENGR 4400)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210 and CIST 1400 or CSCI 1620 or CSCI 2240 or permission

ENGR 8606 PACKAGING ENGINEERING (3 credits)
Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packing and environmental regulations, and material selection. (Cross-listed with ENGR 4600)
Prerequisite(s)/Corequisite(s): CONE 2060, MENG 3210, MENG 3730

ENGR 8616 RFID SYSTEMS IN THE SUPPLY CHAIN (3 credits)
Foundations of Radio Frequency Identification Systems (RFID). The fundamentals of how RFID components of tab, transponder, and antennae are utilized to create RFID systems. Best practices for implementation of RFID systems in common supply operations. (Cross-listed with ENGR 4610)
ENGR 8696 TECH, SCIENCE & CIVILIZATION (3 credits)
(Lect 2 Dis. 2) This course studies the development of technology as a trigger of change upon humankind, from the earliest tools of Homo Habilis to the advent of the radio telescope in exploring the creation of the universe. The course traces the paths from early science to development of the sciences and technologies that will dominate the new millennium. (8696 is for non SET students.) (Cross-listed with ENGR4690)
Prerequisite(s)/Corequisite(s): Senior

ENGR 8816 SUPPLY CHAIN OPTIMIZATION (3 credits)
Foundations of supply chain network modeling. The concepts that support the economic and service trade-offs in supply chain and logistics management. Using decision support system (DSS) to design optimal logistics network models given data requirements and operational parameters. Using leading software packages to model problems arising in strategic management of logistics networks. (Cross-listed with ENGR 4810)

ENGR 8820 MATERIAL PLAN IN LOGISTIC SYSTEMS (3 credits)
Theory, practice and application of inventory, demand and supply planning techniques in multistage environments. Managing economies of scale, uncertainties, capacity constraints, and product availability in a supply chain. Integrated planning, supply chain coordination and technology enablers.
Prerequisite(s)/Corequisite(s): MENG 3210, ISMG 3280

ENGR 8836 LOGISTICS IN THE SUPPLY CHAIN (3 credits)
The process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption. Domestic transportation systems, distribution centers and warehousing, international logistics, logistic system controls, and reengineering logistics systems. (Cross-listed with ENGR 4830)

ENGR 8910 SPECIAL TOPICS IN ENGINEERING MANAGEMENT (1-6 credits)
Subject matter in emerging areas of engineering management and closely related areas not covered in other courses within the MEM curriculum. Topics, activities, and delivery methods vary.

ENGR 9010 TOTAL QUALITY MANAGEMENT USING SIX SIGMA TECHNIQUES (3 credits)
Introduction to advanced topics in Engineering Management and the foundations of Total Quality Management (TQM). Costs of quality, statistical tools, initiating change, advanced topics, and TQM in practice. Using DMAIC, DFSS, and CQPO along with the other industry accepted Six Sigma Quality Techniques.

ENGR 9050 ANALYSIS OF ENGINEERING MANAGEMENT (3 credits)
Continuation of concepts and principles of engineering management applied to production cases.

ENGR 9060 FINANCIAL ENGINEERING (3 credits)
Applications of principle and financial economics in industrial and systems engineering. Term structure of interest, capital asset pricing and other capital allocation modes. Evaluation of real-options using binomial lattice, Black Scholes and other pricing models.
Prerequisite(s)/Corequisite(s): ISMG 8066.

ENGR 9190 DETERMINANTS OF OCCUPATIONAL PERFORMANCE (3 credits)
Focus on the individual in the industrial working environment. Emphasis on evaluation of fatigue, training, shift work, perception, vigilance, and work rest scheduling as they relate to the working environment.
Prerequisite(s)/Corequisite(s): Permission.

Engineering Mechanics (EMEC)

EMEC 8616 SP TOP IN ENG MECHANICS (1-6 credits)
Treatment of special topics in engineering mechanics by experimental, computation and/or theoretical methods. Topics will vary from semester to semester. See current schedule of classes for offerings.

EMEC 9610 ADV INV IN ENG MECH (1-12 credits)

English (ENGL)

ENGL 8010 SEMINAR: LITERARY RESEARCH (3 credits)
A survey of the resources, methodologies, and protocol for conducting and reporting the results of research appropriate to graduate-level study in English and its related disciplines.

ENGL 8020 SEMINAR: COLLEGE WRITING INSTRUCTION (5 credits)
The seminar in college writing instruction prepares Graduate Teaching Assistants to fulfill their responsibilities as teachers of first-year composition.
Prerequisite(s)/Corequisite(s): Graduate status and a teaching assistantship. Not open to non-degree graduate students.

ENGL 8026 AMERICAN POETRY (3 credits)
The practice and theory of American poetry from the colonial period up to the contemporary period. Formerly ENGL 4930/8936. (Cross-listed with ENGL 4020).

ENGL 8030 FIELD-BASED RESEARCH METHODS IN ENGLISH STUDIES (3 credits)
An overview of resources and methods for conducting qualitative, field-based research in English and related disciplines; students gain experience collecting data and analyzing data and reporting findings.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in English or permission of instructor. Not open to non-degree graduate students.

ENGL 8046 CONTEMPORARY POETRY OF ENGLAND AND AMERICA (3 credits)
A study of English and American poetry, the important ideas it contains, and the relevant critical theory of the contemporary period. Formerly ENGL 4910/8916. (Cross-listed with ENGL 4040).

ENGL 8066 THE AMERICAN NOVEL (3 credits)
A comprehensive survey of the evolution of the American Novel from 1789 to the present day. Special emphasis will be placed on how authors have responded to changing cultural circumstances and expressed widely varying viewpoints depending on their own gender, race, geographic region, and/or ethnicity. (Cross-listed with ENGL 4060).

ENGL 8100 SEMINAR: TOPICS IN AMERICAN LITERATURE (3 credits)
Individual research and group discussion relating to a general topic in American literature. (The course may be repeated for additional credits under different topics.) Formerly ENGL 8060.

ENGL 8146 AMERICAN LITERARY REALISM AND NATURALISM (3 credits)
This course examines a wide range of 19th- and 20th-century American literary works, written by male and female authors of various races, geographic regions, and ethnicities. The influence of cultural, economic, political, and social environments on the construction and reception of these works will be emphasized. (Cross-listed with ENGL 4140).

ENGL 8160 SEMINAR: POSTMODERN FICTION OF THE UNITED STATES (3 credits)
A seminar in American Fiction from the second half of the twentieth century into the twenty-first century which presents and discusses some of the major trends and issues associated with postmodern culture in America.
ENGL 8166 TOPICS IN AMERICAN REGIONALISM (3 credits)
A study of major trends in American literary regionalism, with special emphasis on social, cultural, and ecological contexts. Focus will be determined by instructor, but may include particular authors, literary themes, historical periods, or geographic regions. (Cross-listed with ENGL 4160).

ENGL 8180 SEMINAR: CONTEMPORARY AMERICAN POETRY (3 credits)
A study of the work of selected contemporary American poets, especially the technical aspects of the poetry. Texts usually will be a full single volume by each poet or in some cases the selected or collected works of a poet. Formerly ENGL 8920.

ENGL 8186 MAJOR MOVEMENTS IN CONTEMPORARY LITERATURE (3 credits)
A critical study of selected major literary figures or major literary movements which have appeared since World War II. Formerly ENGL 4950/8956 Contemporary Literature: Major Figures and Major Movements. (Cross-listed with ENGL 4180).

ENGL 8200 SEMINAR: MIDDLE ENGLISH LITERATURE (3 credits)
A study of selected writings in Middle English.
Prerequisite(s)/Corequisite(s): Graduate and one course in Middle English language or writings.

ENGL 8236 LATINO LITERATURE (3 credits)
A study of representative works of Mexican-American, Spanish-American, and American writers, along with their cultural and historical antecedents. Formerly ENGL 4180/8186 Chicano Literature and Culture. (Cross-listed with ENGL 4230).
Prerequisite(s)/Corequisite(s): Graduate, permission.

ENGL 8246 TEACHING LATINO LITERATURE (3 credits)
This course is designed specifically for current or future teachers of high school students. It introduces pedagogical approaches of contemporary literature by Latinos/as in the United States. The course provides an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from mid-19th Century to the present and complement that with social, cultural, historical and other approaches to developing teaching strategies. (Cross-listed with ENGL 4240)
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 8250 SEMINAR: CHAUCER (3 credits)
A study of selected works of Geoffrey Chaucer.
Prerequisite(s)/Corequisite(s): Graduate and one course in Middle English language or writings.

ENGL 8256 INTRODUCTION TO WOMEN'S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluate standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 2450).

ENGL 8266 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray women. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with ENGL 4260).
Prerequisite(s)/Corequisite(s): Graduate English major or permission of instructor.

ENGL 8276 WOMEN WRITERS OF THE WEST (3 credits)
A survey of American and Canadian women writers who explore issues of settlement, land use, cultural displacement, and survival in western territories, states, and provinces. Readings span 19th and 20th-Century literacy and reflect the cultural diversity of the American and Canadian wests. (Cross-listed with ENGL 4270 and WGST 4270).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalent; ENGL 2410 recommended.

ENGL 8300 SEMINAR: SHAKESPEARE (3 credits)
Critical analysis of ten tragedies, ten histories, or ten comedies of Shakespeare. Formerly ENGL 9120.

ENGL 8310 ECOLOGICAL WRITING AND ANALYSIS (3 credits)
This course provides students with the opportunity to develop expertise in a wide range of foundational works and key techniques of ecological writing and theory in English. By engaging mindfully with these works and techniques, students will develop advanced skills in ecologically oriented critical analysis and creative thinking. This course supports the Writing and Critical Reflection and the Health and the Environment concentrations in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8310)

ENGL 8326 CHAUCER (3 credits)
A literary, linguistic, and historical study of the works of Geoffrey Chaucer: his dream visions, Troilus and Criseyde, and the Canterbury Tales. Formerly ENGL 4340/8346. (Cross-listed with ENGL 4320).

ENGL 8346 SHAKESPEARE (3 credits)
A critical study of selected plays from among the four traditional Shakespearean genres: comedy, history, tragedy, and romance. Formerly ENGL 4600/8606. (Cross-listed with ENGL 4340).

ENGL 8356 SHAKESPEARE'S CONTEMPORARIES (3 credits)
A study of the development of the English drama, exclusive of Shakespeare, from the beginning to 1642. Formerly ENGL 4500/8506. (Cross-listed with ENGL 4350).

ENGL 8376 RESTORATION AND 18TH CENTURY LITERATURE (3 credits)
Poetry, prose (exclusive of the novel), and drama of England in the Restoration and 18th century (1660-1800), with emphasis on Swift and Johnson. Formerly ENGL 4620/8626. (Cross-listed with ENGL 4370).

ENGL 8396 MEDIEVAL CELTIC LITERATURE (3 credits)
This course considers the literature and culture of the Celtic civilizations. The course examines the archeological record and texts about the Celts by Greek and Roman authors, as well as later medieval tales from the Irish, Welsh, and Breton traditions. All texts are in translation with guided reference to the original languages. (Cross-listed with ENGL 4390).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420 and one ENGL course above 3299, or instructor permission; ENGL 2410 recommended. Not open to non-degree graduate students.

ENGL 8400 SEMINAR: ENGLISH RENAISSANCE (3 credits)
A seminar in a few significant literary figures of the English Renaissance. Formerly ENGL 8080.

ENGL 8410 IMMIGRATION, MIGRATION, AND DIASPORA: CRITICAL APPROACHES AND THEORIES OF MOVEMENT IN LITERATURE (3 credits)
This seminar in literature and some film analyzes the depictions in non-fiction and fiction of displacement as a result of immigration, migration, refugee status, or any other considered movement, intentional or imposed. It will focus largely on the U.S. experiences of those displaced from all locales. (Cross-listed with CACT 8410).
Prerequisite(s)/Corequisite(s): Graduate standing.
ENGL 8416 LITERATURE OF THE ROMANTIC PERIOD (3 credits)
Poetry and prose (excluding the novel) of England from 1798 to 1830. Formerly ENGL 4810/8816. (Cross-listed with ENGL 4410).

ENGL 8426 LITERATURE OF VICTORIAN PERIOD (3 credits)
English poetry and prose (excluding the novel) from 1830 to 1900. Formerly ENGL 4820/8826. (Cross-listed with ENGL 4420).

ENGL 8436 THE 19TH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Jane Austen to Thomas Hardy. Formerly: ENGL 4650/8656. (Cross-listed with ENGL 4430).

ENGL 8450 SEMINAR: JOHN MILTON (3 credits)
Intensive seminar in the major works of John Milton and investigation of specific critical and scholarly problems. Formerly ENGL 8140.

ENGL 8486 20TH CENTURY ENGLISH LITERATURE (3 credits)
Readings in English literature from Shaw and Yeats to the present. Formerly: ENGL 4850/8856. (Cross-listed with ENGL 4480).

ENGL 8500 SEMINAR: RESTORATION AND 18TH CENTURY (3 credits)
A detailed study of selected English authors and works of the Restoration and the 18th century (1660-1800). Formerly ENGL 8090.

ENGL 8600 SEMINAR: 19TH CENTURY ENGLISH LITERATURE (3 credits)
An intensive study of selected Victorian authors and their works. Formerly ENGL 8100.

ENGL 8610 PROFESSIONAL AND TECHNICAL WRITING (3 credits)
This course will introduce students to the theory, research, and practices of professional and technical writing. Through readings, discussions, and assignments, students will gain an understanding of the types and circumstances of communication challenges encountered in the workplace. The course will also consider the roles of persuasion and ethics in written communication. (Cross-listed with CACT 8610).

ENGL 8615 INTRODUCTION TO LINGUISTICS (3 credits)
An introduction to the concepts and methodology of the scientific study of language; includes language description, history, theory, variation, and semantics as well as first and second language acquisition. Formerly ENGL 8616. (Cross-listed with ENGL 3610).

Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent

ENGL 8620 SEMINAR: JANE AUSTEN (3 credits)
This seminar examines Jane Austen's oeuvre from her juvenilia to her posthumous fragments, giving particular emphasis to her six great novels, Northanger Abbey, Sense and Sensibility, Pride and Prejudice, Mansfield Park, Emma, and Persuasion. Austen biography and scholarship provide the framework for studying her literary career.

ENGL 8626 HISTORY OF ENGLISH (3 credits)
A critical study of both the internal and external histories of English. Includes historical development of English phonology, morphology, graphics, syntax, diction, dialects, and semantics. (Cross-listed with ENGL 4620).

ENGL 8630 DIGITAL RHETORIC (3 credits)
This course provides students with the opportunity to develop expertise in the theory and practice of digital rhetoric by considering technology's deep impact on how we define and engage in writing. Students examine contemporary writing practices as part of a rich rhetorical tradition while they design and create effective multimodal compositions and analyze foundational works in digital rhetoric. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8630).

ENGL 8640 CREATIVE NONFICTION IN DIGITAL ENVIRONMENTS (3 credits)
Students in this course will study creative nonfiction in digital environments, analyze rhetorical situations created in digital environments, and create individual creative nonfiction blogs—which might include, in addition to other modalities, sounds, animations, and hypertext. The course will also focus on the study and analysis of craft-elements of creative nonfiction: narrative persona, tone, rhythm and style, scenic construction, among others. Students taking this course will learn to read with interpretative and analytical proficiency a broad range of creative nonfiction in digital environments. Cross-listed with CACT 8640).

ENGL 8646 APPLIED LINGUISTICS (3 credits)
This course is designed to develop knowledge and skills for second language instructors and others interested in second language learning and instruction. Content covers relevant second language acquisition (SLA) theory and second language pedagogy. (Cross-listed with ENGL 4640)

Prerequisite(s)/Corequisite(s): ENGL 3610 and Junior standing or with permission from instructor.

ENGL 8650 WRITING ACROSS DIFFERENCES: RHETORICAL THEORY FOR PERSUASION AND PUBLIC ADVOCACY (3 credits)
This course provides students a theoretical foundation for understanding how language is used in various types of discourses and texts as a means of convincing others of a given viewpoint or idea. Students will apply this theory to real-world writing scenarios in their scholarly areas of interest, to advocacy and social issues movements, or to address workplace needs and goals. This course supports the Writing and Critical Reflection concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8650).

ENGL 8655 STRUCTURE OF ENGLISH (3 credits)
A study of grammar as it has been conceived through history, including traditional prescriptive and descriptive approaches as well as transformational-generative grammar. Formerly ENGL 4780/8786. (Cross-listed with ENGL 4650).

Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8676 SOCIOLINGUISTICS (3 credits)
An exploration of interconnections between language, culture, and communicative meaning, stressing interactional, situational, and social functions of language as they take place and are created within social contexts. Formerly ENGL 4880/8886. (Cross-listed with ENGL 4670).

Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8696 TOPICS IN LINGUISTICS (3 credits)
Studies in a selected subfield or problem area of linguistics such as sociolinguistics, generative semantics, applied linguistics, descriptive linguistics, teaching English as a foreign language, etc. Formerly ENGL 4960/8966. (Cross-listed with ENGL 4690).

Prerequisite(s)/Corequisite(s): ENGL 4610/ENGL 8616, or permission.

ENGL 8736 RHETORIC (3 credits)
A study of contemporary theories of invention, form, and style and their application in written discourse. Formerly ENGL 4530/8536. (Cross-listed with ENGL 4730).

ENGL 8740 SEMINAR: DISCOURSE, CULTURE, AND POWER (3 credits)
A graduate-level introduction to theories and methodologies of analyzing spoken and written discourse. This seminar will prepare students to conduct field research and analyze natural language data based on theoretical orientations to discourse analysis.

ENGL 8750 OXBOB WRITING PROJECT (3 credits)
Oxbow Writing Project summer institute immerses K-16 educators in writing pedagogy via their own writing, presentations about writing and pedagogy, reading and discussing professional literature, designing and implementing an in-depth inquiry project, and developing leadership strengths. Oxbow is a National Writing Project Site.

Prerequisite(s)/Corequisite(s): Acceptance into Oxbow Writing Project Summer Institute
ENGL 8756 COMPOSITION THEORY & PEDAGOGY (3 credits)
Students will review and evaluate 20th century theories with an emphasis on theories developed since 1968. Students will investigate current research practices and design and execute their own research projects. Formerly ENGL 4760/8766. (Cross-listed with ENGL 4750).

ENGL 8760 SEMINAR IN POPULAR CULTURE, MASS MEDIA AND VISUAL RHETORIC (3 credits)
This course studies how discursive meaning is made through established and emerging visual technologies and the impact visual symbol systems are having upon the field of rhetoric in general. Students will investigate how visual technologies, discourse theory, and semiotic theory has intersected with and expanded contemporary rhetorical theories, and they will apply these theories to visual texts. (Cross-listed with COMM 8200).

ENGL 8775 WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH (3 credits)
This course is an introduction to writing center theory, pedagogy, research, and history. The course is designed for undergraduate and graduate students interested in or already working in a writing center. Throughout the course we will explore a wide range of models for writing center work and the often problematic metaphors associated with those models. The overall aim in this course will be to help students develop multiple strategies for teaching writing one-to-one, for conducting research in writing centers, and for understanding writing center administration. (Cross-listed with ENGL 3770).

ENGL 8796 PEDAGOGIC FIELD EXPERIENCE IN TESOL (3 credits)
A semester of observation and participation in a service-learning and/or classroom situation in Teaching English to Speakers of Other Languages (TESOL). The course will emphasize the orchestration of the learning environment in a multicultural and global society.
Prerequisite(s)/Corequisite(s): Graduate Standing and TED 4000 / TED 8006

ENGL 8800 SEMINAR: TOPICS IN ENGLISH LANGUAGE AND LITERATURE (3 credits)
An intensive study of one or more authors, genres, literary movements, or literary problems not covered by regular period or genre courses. (This course may be repeated for additional credits under different topics.) Formerly ENGL 8130.

ENGL 8806 ENGLISH INTERNSHIP (1-3 credits)
Supervised internship in a professional setting with a local employer or nonprofit organization. Hands-on experience. Work hours, activities, and responsibilities must be specified in a written agreement between the employer and the student in consultation with the internship director. Some internships will be paid and some will not. (Cross-listed with ENGL 4800).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, an ENGL 4000-level writing course, and permission of internship director.

ENGL 8816 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110, or permission of instructor.

ENGL 8826 AUTOBIOGRAPHY (3 credits)
Students will read as well as write autobiography. Students will read texts representing various social, political, and religious points of view. Students will also study these texts for theoretical principles and autobiographical techniques which they will use to inform their own autobiographical essays. (Cross-listed with ENGL 4820).
Prerequisite(s)/Corequisite(s): ENGL 2450 or ENGL 2460

ENGL 8836 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, JMC 4830, JMC 8836).
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

ENGL 8846 TRAVEL WRITING (3 credits)
Travel Writing is a course in professional writing. Although the course includes critical examinations of texts, the primary focus is on the composition of various kinds of travel essays. (Cross-listed with ENGL 4840, JMC 4840, JMC 8846).

ENGL 8850 SEM: SPIRITUAL NONFICTION (3 credits)
Spiritual Nonfiction is a creative nonfiction writing seminar where students study and practice various forms and styles of spiritual nonfiction. The comparative study of spirituality and religion is not the focus of this course. Writing is the focus. Discussion of the characteristics of spiritual experiences and ideas will be limited to their formalistic treatment within individual works.
Prerequisite(s)/Corequisite(s): Graduate Standing. At least one creative nonfiction writing course at 4000/8000 level.

ENGL 8856 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, JMC 4850, JMC 8856).
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

ENGL 8866 THE MODERN FAMILIAR ESSAY (3 credits)
A study of the modern familiar essay, with an emphasis on writing the informal essay. Formerly ENGL 4700/8706. (Cross-listed with ENGL 4860).

ENGL 8870 SEMINAR: PUBLISHING NON-FICTION (3 credits)
A seminar in the process leading to publication of essays in one or more of the following genres: scholarly essay, personal essay, travel essay, pedagogical essay, autobiographical essay.
Prerequisite(s)/Corequisite(s): Graduate standing and 6 hours of graduate credit.

ENGL 8876 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, JMC 4870, JMC 8876).
ENGL 8880 ADVANCED PLACEMENT INSTITUTE: ENGLISH & COMPOSITIONS (3 credits)
An intensive workshop devoted to the organization, planning, implementation and improvement of advanced placement courses in literature and composition. Intended for secondary school teachers of English who are presently teaching or are planning to propose and/or teach advanced placement courses in their school.
Prerequisite(s)/Corequisite(s): Graduate in English.

ENGL 8886 COMMUNITY SERVICE WRITING (3 credits)
A study of the relationship between texts and the social contexts in which they function, with particular attention to differences between academic and non-academic discourse communities. This is a service-learning course: students work as volunteers at community organizations. (Cross-listed with ENGL 4880).

ENGL 8890 SEM: EXPERIMENTS IN CREATIVE NONFICTION (3 credits)
This is a graduate seminar in creative nonfiction. This course explores, through an intensive engagement with long and short forms of creative nonfiction, the ways in which contemporary practitioners of the genre have experimented with form and meaning. Students will attempt their own experiments in writing.
Prerequisite(s)/Corequisite(s): Graduate Standing, Two graduate-level creative nonfiction courses from ENGL 8846, ENGL 8866, ENGL 8870, or ENGL 8880, when topic is appropriate.

ENGL 8896 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. ENGL 8816, ENGL 8836, ENGL 8856 and ENGL 8876 highly recommended.

ENGL 8900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or language, carried out under the supervision of a member of the graduate faculty. Designed primarily for the student who has need of work not currently available in the departmental offering and who has demonstrated capability of working independently. May be repeated for credit once.
Formerly ENGL 8980.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. No "incompletes" outstanding.

ENGL 8910 SEMINAR: CRITICAL THEORY (3 credits)
Seminar in theories of literary criticism, with emphasis on modern approaches. Formerly ENGL 8040.

ENGL 8926 GREAT CHARACTERS (3 credits)
Great Characters is a study of literary characters in fiction and drama from the standpoint of temperament theory. The course uses Keirsey’s model of temperament to focus on conflict and conflict resolution between characters as this constitutes the dynamics of plot. The course uses Keirsey’s model of temperament to focus on conflict and conflict resolution between characters as this constitutes the dynamics of plot. Formerly ENGL 4060/8060. (Cross-listed with ENGL 4920).
Prerequisite(s)/Corequisite(s): One 4000 level English course.

ENGL 8966 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
Specific subjects (when offered) appear in class schedules. Complete syllabus available in English Department. Formerly ENGL 4940/8946. (Cross-listed with ENGL 4960).

ENGL 8990 THESIS (3-6 credits)
Independent research project written under the supervision of an adviser.
Prerequisite(s)/Corequisite(s): Graduate, permission of thesis director.

Environmental Engineering (ENVE)

ENVE 8980 SPECIAL PROBLEMS IN ENVE (1-6 credits)
Special research-oriented problems in current topics in environmental engineering.

ENVE 8990 MASTER’S THESIS (6-10 credits)
Master’s thesis work

ENVE 9900 SEMINAR IN ENVIRONMENTAL ENGR (1 credit)
Presentation and discussion of current research topics and projects in environmental engineering and closely allied areas.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

ENVE 9980 SPECIAL TOPICS IN ENVR ENGR (1-6 credits)
Independent library and/or experimental research, analysis, evaluation and presentation of current and advanced topics in environmental engineering and closely related areas.

Environmental Studies (ENVN)

ENVN 8316 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)
This course emphasizes a critical analysis of our energy options and their environmental, economic and ethical connections. The course includes the underlying chemistry necessary to accurately assess energy positions described in the mainstream media and ultimately to make informed, creative energy choices. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with ENVN 4310, CACT 8316)
Prerequisite(s)/Corequisite(s): Graduate standing.

Executive Master of Science/Information Technology (EMIT)

EMIT 8000 MANAGING & LEADING IN A DIGITAL WORLD (2 credits)
This course introduces Executive Master of Science in Information Technology (EMIT) students to the challenges and opportunities of managing and leading in a digital world within the context of a dynamic environment of technology workforce diversity, a global and emerging collaborative economy, and concern for ethics and social responsibility in the development of systems/technologies.

EMIT 8050 IT LEADERSHIP (2 credits)
This course equips students with the knowledge, skills and tools to be an effective information technology (IT) leader. The primary focus of the course is on developing leadership capability and ability to contribute, both strategically and operationally, to the performance of an organization through IT.
Prerequisite(s)/Corequisite(s): This course is intended exclusively for IT professionals in the EMIT program. Not open to non-degree graduate students.

EMIT 8100 IT STRATEGY AND CHANGE MANAGEMENT (2 credits)
This course introduces students to a critical view of both strategic and tactical levels of IT management. The course also addresses the challenges of managing IT-enabled change and the complexities associated with managing people, processes, and technology.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program is required. Not open to non-degree graduate students.
EMIT 8150 BIG DATA ANALYTICS AND VISUALIZATION (2 credits)
This course introduces students to data analytics including big data analytics, data quality, and visualization. Topics will include concepts, exercises, tools and techniques surrounding data analytics, quality, visualization, IoT and cloud computing within the context of addressing business challenges and/or to create competitive advantage.
Prerequisite(s)/Corequisite(s): This course is intended exclusively for IT professionals in the EMIT program. Not open to non-degree graduate students.

EMIT 8200 MANAGING INFORMATION TECHNOLOGY INNOVATION (2 credits)
This course introduces students to the concepts, applications and tools for facilitating IT Innovation, Creativity, Entrepreneurship and Risk Taking.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8250 MANAGING INFORMATION ASSURANCE (2 credits)
This course introduces Executive Master of Science in Information Technology (EMIT) students to information assurance topics including areas such as managing cloud and mobile security, IT governance and policy, and information assurance planning and deployment.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8300 SYSTEMS DEVELOPMENT AND MAINTENANCE (2 credits)
This course introduces Executive Master of Science in Information Technology (EMIT) students to the development and maintenance of software-intensive systems.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8350 ENTERPRISE COMPUTING IN THE ERA OF BIG DATA (2 credits)
This course explores design, managerial and technical issues relevant to creating big data based solutions from a holistic viewpoint. Students will develop an understanding of both the technical and business aspects by exploring a balanced view of the theoretical foundation and practical implications of Enterprise Computing in the context of Big Data and other related (emerging) technologies.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8400 LEADING TEAMS AND MANAGING VIRTUAL WORK (2 credits)
This course introduces students in the Executive Master of Science in Information Technology (EMIT) program to fundamental concepts, principles, theories, and practices related to organizational teamwork. Students will learn and practice skills to run productive & effective collaborative problem solving efforts, using modern collaboration technology.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8450 EVALUATION OF ENTERPRISE I.T. (2 credits)
This course introduces students to concepts associated with evaluation of enterprise IT investments. Topics addressed will include understanding financial statements, IT investment value vs risk tradeoffs, understanding cost of adopting IT innovations and/or emerging technologies, designing reports, designing of IT-KPIs, performance measurement systems such as balanced scorecard and more.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8500 MANAGING AND LEVERAGING EMERGING TECHNOLOGIES (2 credits)
This course introduces Executive Master of Science in Information Technology (EMIT) students to industry models and processes to identify, track, pilot and eventually adopt business innovations and/or emerging technologies that could provide an advantage for a business. Students will also learn how IT can facilitate business process change. Concepts and exercises surrounding Lean IT will be covered to optimize the processes in the IT organization.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8700 EMERGING CHALLENGES FOR IT EXECUTIVES (2 credits)
This course introduces Executive Master of Science in Information Technology (EMIT) students to emerging challenges that will be faced by IT executives.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program. Not open to non-degree graduate students.

EMIT 8990 INTEGRATED EMIT CAPSTONE PROJECT (2-6 credits)
This course serves as the integrated capstone project for the Executive Master of Science in Information Technology (EMIT) program.
Prerequisite(s)/Corequisite(s): Admission to the executive Master of Science in IT (EMIT) program and completion of all cohort modules prior to submission of integrated project. Concurrent enrollment with other EMIT modules will be required. Not open to non-degree graduate students.

Fine Arts (FINA)

FINA 8010 ARTS AND THE EXECUTIVE (3 credits)
The course will provide the graduate student with an understanding of the organizational and managerial issues involved in arts organization and the role of the arts in the business community. (Cross-listed with BSAD8880)

Foreign Language & Literature (FLNG)

FLNG 8020 SEMINAR:FL/TESOL RESEARCH (3 credits)
A survey of Second Language Acquisition theory and methodology culminating in a student-designed, classroom-based research project.

FLNG 8030 SEMINAR: SECOND LANGUAGE ACQUISITION THEORY (3 credits)
An advanced introduction to second language acquisition theories based in neurolinguistics, psycholinguistics, and sociolinguistics. Students will explore various schools of thought about how people learn languages other than their language(s) of nurture; this includes languages that are acquired by adolescents and adults, both inside and outside the classroom.

FLNG 8040 SEMINAR: ASSESSMENT & CURRICULUM DESIGN (3 credits)
This course will familiarize (future) language educators with current trends in the assessment of language skills as well as expose them to the design, implementation, and evaluation of second language curricula.

FLNG 8900 DIRECTED READINGS (3 credits)
Special directed readings arranged individually with students on topics not explored in other graduate offerings.
Prerequisite(s)/Corequisite(s): Permission of instructor and/or at least twelve graduate hours completed. Graduate non-degree students not allowed.

FLNG 8960 SEMINAR: SPECIAL TOPICS (3 credits)
This course provides a format for the exploration of topics of interest to advanced foreign language/TESOL students.
FREN 8036 ADVANCED FRENCH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with FREN 4030).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

FREN 8046 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition, and stylistics. (Cross-listed with FREN 4040).
Prerequisite(s)/Corequisite(s): FREN 3040 or departmental permission. Not open to non-degree graduate students.

FREN 8056 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3-6 credits)
Resident study in Quebec City, Quebec, with emphasis on total immersion in the language, homestays, intensive classroom instruction and cultural activities. Summer, 5-week term, 5 hours daily. (Cross-listed with FREN 4050).
Prerequisite(s)/Corequisite(s): FREN 2120 or departmental permission. Not open to non-degree graduate students.

FREN 8156 CONTEMPORARY FRENCH NOVEL (3 credits)
Selected contemporary French novels are analyzed and discussed. (Cross-listed with FREN 4150).
Prerequisite(s)/Corequisite(s): FREN 3150 and FREN 3160, or departmental permission. Not open to non-degree graduate students.

FREN 8176 CONTEMPORARY FRENCH THEATER (3 credits)
Selected contemporary French plays are analyzed and discussed.
Prerequisite(s)/Corequisite(s): FREN 3150 and FREN 3160, or departmental permission. Not open to non-degree graduate students.

FREN 8226 THE STRUCTURE OF FRENCH (3 credits)
A survey of the linguistic structure of modern French, including phonology, morphology, and syntax. (Cross-listed with FREN 4220).
Prerequisite(s)/Corequisite(s): FREN 3040 and FREN 4610. Not open to non-degree graduate students.

FREN 8440 SEMINAR: FRENCH COMPOSITION (3 credits)
This course provides opportunities for students to refine their composition skills in French through extensive writing workshops and peer editing. Computer applications to composition will be employed.
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

FREN 8866 MODERN FRENCH WOMEN AUTHORS (3 credits)
A comparative treatment of works by women in contemporary and recent French literature; the “feminine” perspective on society, politics and human values as expressed in those works. (Cross-listed with FREN 4860).
Prerequisite(s)/Corequisite(s): FREN 3150 or FREN 3160, or departmental permission. Not open to non-degree graduate students.

FREN 8900 FRENCH INDEPENDENT STUDY (1-3 credits)
Specifically planned projects and readings in a well-defined field of French literature or linguistics carried out under the supervision of a member of the foreign languages faculty holding graduate faculty status.

FREN 8906 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with FREN 4900).
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior standing, and no incompletes outstanding. Not open to non-degree graduate students.

FREN 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 4950).
Prerequisite(s)/Corequisite(s): Graduate student status.

FREN 8966 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address narrow field of study of the civilization, history, film, contemporary culture, art, politics, and or cultural studies of the Francophone world. (Cross-listed with FREN 4960).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 4970).
Prerequisite(s)/Corequisite(s): Graduate student status.

GEOG 8000 HISTORY AND PHILOSOPHY GEOGRAPHY (3 credits)
Introduction to history of geography. Emphasis on significant ideas, concepts, methodologies and philosophies in geography from classical Greeks to present.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8016 CONSERVATION OF NATURAL RESOURCES (3 credits)
A study of conservation techniques and problems with particular emphasis on the United States. Includes philosophical and economic aspects of resource management and a systematic survey of traditional conservation types including soils, forestry, water resources and energy. (Cross-listed with GEOG 4010).
Prerequisite(s)/Corequisite(s): Three hours of geography

GEOG 8026 QUANTITATIVE ANALYSIS IN GEOGRAPHY (3 credits)
An introduction to multivariate statistical analysis and spatial statistics. Emphasis will be placed on the nature of geographic data, sampling theory and design, descriptive and spatial statistics, inferential statistics, correlation and regression analysis. Students will receive hands-on experience working with statistical data sets, software and scientific visualization numerical results. (Cross-listed with GEOG 4020).
Prerequisite(s)/Corequisite(s): MATH 1530 or permission

GEOG 8036 COMPUTER MAPPING AND VISUALIZATION (3 credits)
Computer techniques in the mapping and visualization of spatial data. Various forms of spatial data manipulation and computer graphic output techniques are examined. Particular attention is given to the incorporation of interaction and animation in the display of maps as well as the creation of maps for distribution through the internet. (Cross-listed with GEOG 4030).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540

GEOG 8040 SEMINAR IN EDUCATION GEOGRAPHY (3 credits)
A survey of methods, instruction aids and goals for teaching geography. Designed to aid the teacher in the improvement of geographic instruction in elementary and secondary schools as well as in higher education.
Prerequisite(s)/Corequisite(s): Permission

GEOG 8046 GEOARCHEOLOGY (3 credits)
The study of archaeology with the use of geological and geographical methodology. (Cross-listed with GEOL 4040, GEOG 4040).

GEOG 8056 GEOGRAPHIC INFORMATION SYSTEMS I (4 credits)
An introduction to the concepts and principles and geographic information systems (GIS). Emphasis will be placed on geographic data inputs, manipulation, analysis, and output functions. Exercises introduce students to GIS software and applications. (Cross-listed with GEOG 4050).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540 or 6 hours in Geography
**GEOG 8106 BIOGEOGRAPHY (3 credits)**
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with BIOL 4100, GEOL 4100, BIOL 8106, GEOL 8106, GEOG 4100).

Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior

**GEOG 8126 URBAN GEOGRAPHY (3 credits)**
A geography of the city from the viewpoint of history, site and situation, external relations, internal relations, and the comparative study of cities. (Cross-listed with GEOG 4120).

**GEOG 8130 SEMINAR IN ECONOMIC GEOGRAPHY (3 credits)**
A seminar course which investigates the development of current world economic systems through the elements of primary, secondary, tertiary, quaternary and quinary production on a micro and macro scale. Exchange and transactional systems, consumption linkages, resource management, economic health on global and local scales, and location decision-making are major topics.

Prerequisite(s)/Corequisite(s): Graduate in geography and permission of instructor

**GEOG 8146 URBAN SOCIOLOGY (3 credits)**
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with GEOG 4140).

Prerequisite(s)/Corequisite(s): Permission

**GEOG 8156 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)**
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with GEOG 4150).

Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor

**GEOG 8166 URBAN SUSTAINABILITY (3 credits)**
Using sustainability as a conceptual framework, students in this course will investigate a variety of social, economic, and environmental challenges facing cities of the 21st century. Topics and issues explored include urban growth and expansion, livability, equity & gentrification, energy use & production, urban farming, poverty, affordability & transportation, water security, urban pollution, and the role of cities in climate change. (Cross-listed with GEOG 4160)

Prerequisite(s)/Corequisite(s): Graduate standing.

**GEOG 8176 ADVANCED CULTURAL GEOGRAPHY (3 credits)**
This course examines current theoretical debate and research practice in a select topic in Cultural Geography. Emphasis will be on readings and discussion with students engaging in original research. Specific thematic focus will vary from year to year. This course may be taken multiple times as long as topics differ. (Cross-listed with GEOG 4170).

Prerequisite(s)/Corequisite(s): Graduate standing and permission of the instructor.

**GEOG 8210 SEMINAR IN CULTURAL GEOGRAPHY (3 credits)**
The philosophy of cultural and historical geography with emphasis on describing and interpreting the cultural landscape.

Prerequisite(s)/Corequisite(s): Permission

**GEOG 8236 GREAT PLAINS & NEBRASKA (3 credits)**
A study of the major physical and cultural attributes of the region. Emphasizes settlement history and the role of agriculture on the regional economy. (Cross-listed with GEOG 4230).

**GEOG 8256 THEORY AND STRUCTURAL GEOMORPHOLOGY (3 credits)**
Primarily a lecture course with emphasis on the historical development of theories in evolution of earth surface features and processes, coupled with underlying structural controls of landforms. (Cross-listed with GEOG 4250).

Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOG 1170

**GEOG 8266 PROCESS GEOMORPHOLOGY (3 credits)**
Primarily a lecture and laboratory course. Emphasis on methodology and modern process-oriented geomorphology. (Cross-listed with GEOG 4260).

Prerequisite(s)/Corequisite(s): GEOG 1070 or GEOG 1170

**GEOG 8310 GEOGRAPHY OF AGRICULTURE (3 credits)**
A systematic study of the characteristics and patterns of world agriculture.

Prerequisite(s)/Corequisite(s): Permission

**GEOG 8326 CLIMATOLOGY (3 credits)**
A study of climatic processes and their effect on shaping the physical landscape. Emphasis on physical and applied aspects of the field. (Cross-listed with GEOG 4320).

Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1060 or GEOG 3510

**GEOG 8336 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)**
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOL 4330).

Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1050, GEOL 1010, GEOL 1170 or instructor permission.

**GEOG 8346 WATER RESOURCES (3 credits)**
A study of the applied principles of hydrology, water systems modeling, river basin development, and water management issues and practices in the United States and other parts of the world. Two local Saturday field trips will be required. (Cross-listed with GEOG 4340).

Prerequisite(s)/Corequisite(s): Six hours of Physical Geography or equivalent and graduate standing.

**GEOG 8500 SPECIAL TOPICS IN GEOGRAPHY (1-3 credits)**
This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Subjects will be offered as sections of GEOG 8500, but will be separate from one another. Students may repeat GEOG 8500 as often as they like as long as no specific subject is duplicated. Course to be offered with approval of Graduate Program Committee and Dean for Graduate Studies.

Prerequisite(s)/Corequisite(s): Variable

**GEOG 8510 ADVANCED GEOMORPHOLOGY (3 credits)**
A seminar and lecture course on the current concepts and literature in the field of landform studies. Discussion will emphasize classic ideas as well as the modern concepts of climatic, dynamic and quantitative geomorphology. Some study of Quaternary chronology will be necessary. Several optional Saturday field trips.

Prerequisite(s)/Corequisite(s): GEOG 8256 or GEOG 8266 and GEOL 1170 or GEOG 1070. Permission.

**GEOG 8535 CARTOGRAPHY & GIS (2 credits)**
An introduction to the concepts and techniques of map construction and computer-based geographic information systems. Topics include map scale, map projections, thematic cartography, history of cartography, computer mapping, and global positioning systems. Particular attention is given to the processing and presentation of spatial data by the computer and the distribution of maps through the Internet. (Cross-listed with GEOG 3530).

Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020, GEOG 1060 or GEOG 1070, and a course in statistics.
GEOG 8536 HISTORICAL GEOGRAPHY OF U.S. (3 credits)
An analysis of historical circumstances behind contemporary patterns of American cultural geography. (Cross-listed with GEOG 4530).
Prerequisite(s)/Corequisite(s): Graduate and HIST 1110 and HIST 1120 or GEOG 1020 or GEOG 3330.

GEOG 8545 CARTOGRAPHY & GIS LAB (2 credits)
An introduction to the methods and techniques of map construction using both graphic design and geographic information system software. Topics include map design for both general reference and thematic maps. Particular attention is given to the processing, compilation, data classification, and symbolization of various types of spatial data. This course is the lab component of GEOG 8535.
Prerequisite(s)/Corequisite(s): Concurrent or previous registration in GEOG 8535.

GEOG 8556 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)
A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 4550, CACT 8116).
Prerequisite(s)/Corequisite(s): Graduate status.

GEOG 8580 SOILS (3 credits)
An examination of the older geographical concepts of the distribution and morphology of soil and the new works concerned with soil forms on a regional, rather than zonal, basis.
Prerequisite(s)/Corequisite(s): GEOG 1060 or GEOG 1070 and permission.

GEOG 8600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major research project. Students are required to submit a written proposal and gain written approval of the supervising faculty member and Graduate Program Committee. In addition to a formal written report, the student is required to make an oral presentation of research results to General Seminar or a professional meeting.
Prerequisite(s)/Corequisite(s): Fifteen graduate hours in geography and permission.

GEOG 8616 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOL 4610, GEOE 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOG 8626 GEOGRAPHICAL FIELD STUDIES (3 credits)
Field experience course based on variable topics and themes. Students must attend the multiple day field trip that will require overnight stays. (Cross-listed with GEOG 4620).
Prerequisite(s)/Corequisite(s): Instructor Permission. Not open to non-degree graduate students.

GEOG 8636 ENVIRONMENTAL REMOTE SENSING (4 credits)
An introduction to remote sensing science and technology. Emphasis will be placed on multispectral data, matter/energy interactions, sensor system characteristics, photogrammetry, image interpretation, digital image processing and environmental applications. Formal laboratory instruction will provide students with problem-solving skills and hands-on experience with remote sensing and GIS software. (Cross-listed with GEOG 4630).
Prerequisite(s)/Corequisite(s): GEOG 1060 or GEOG 1070 or GEOL 1170. Introductory statistics highly recommended.

GEOG 8640 REMOTE SENSING ADVANCED CONCEPTS AND APPLICATIONS (3 credits)
Designed for the graduate student desiring to do advanced work in remote sensing. The emphasis of the course is on non-photographic sensors and especially digital processing of multispectral satellite data. The applications are multidisciplinary in nature.
Prerequisite(s)/Corequisite(s): GEOG 4120 / GEOG 8126

GEOG 8646 CRITICAL ZONE SCIENCE (4 credits)
This course examines the Critical Zone (CZ), Earth’s permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZO) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 4640, GEOE 4640)
Prerequisite(s)/Corequisite(s): GEOI 1170, GEOI 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOG 8650 LAND USE (3 credits)
A field course designed to understand, by actual field investigation, land use patterns in urban areas through the comprehension of social, physical and economic factors which tend to shape the land use of a given place. The major emphasis will be placed upon field investigations in the urban area, with the functional region receiving the major consideration.
Prerequisite(s)/Corequisite(s): GEOG 4120 / GEOG 8126

GEOG 8666 GEOGRAPHIC INFORMATION SYSTEMS II (4 credits)
An introduction to advanced geographic information systems (GIS) topics. Emphasis will be placed on algorithms and analysis for information extraction. Topics include spatial interpolation, remote sensing GIS integration, software development, spatial analysis, GIS modeling, and future advances in GIS. Formal laboratory instruction will provide students with GIS experience to solve application problems. (Cross-listed with GEOG 4660).
Prerequisite(s)/Corequisite(s): GEOG 4050 / GEOG 8056

GEOG 8670 CARTOGRAPHIC METHODS (3 credits)
Teaches effective map layout and the latest cartographic techniques, leading to a high level of competence in the design and interpretation of maps.

GEOG 8700 RESEARCH METHODS (3 credits)
A course designed to provide students with an overview of the discipline of geography with two purposes in mind: (1) a graduate-level introduction to the chief issues and concepts on the research frontiers of geography; and (2) preparation by the graduate students to begin their own thesis research.

GEOG 8800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING (1-6 credits)
(repeatable up to six hours) Internship with local planning agencies enabling students to gain knowledge and experience in comprehensive regional or environmental planning.
Prerequisite(s)/Corequisite(s): Permission and 12 graduate hours in geography.
**GEOG 8810 SEMINAR IN METROPOLITAN PLANNING (3 credits)**
An overview of metropolitan planning with special emphasis on the planning process and current problems encountered by planning officials.

**Prerequisite(s)/Corequisite(s):** Permission

**GEOG 8826 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)**
Seminar on environmental law and regulation. The course will address federal regulations, implementing instructions, legal principles, and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation will be discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, GEOG 4820, ENVN 4820, PA 4820, PA 8826).

**Prerequisite(s)/Corequisite(s):** Junior-senior and permission.

**GEOG 8830 SEMINAR IN URBAN STUDIES (3 credits)**
This course provides an interdisciplinary overview of the forces influencing and influenced by urbanization and urbanism. (Cross-listed with UBNS 8900).

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students.

**GEOG 8840 DIRECTED RESEARCH IN URBAN STUDIES (3 credits)**
The course is intended for advanced graduate students in urban studies. It is especially suited for those in career-oriented students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with UBNS 8940).

**Prerequisite(s)/Corequisite(s):** Completed 9 graduate hours in Urban Studies. Permission from the School.

**GEOG 8850 GISCIENCE PRACTICUM (3 credits)**
This course is designed to provide students with geographic information system (GIS) application experience. Emphasis will be placed on advanced topics and GIS technology. Students will integrate scientific theory, GIS technology and application knowledge. Student internships or independent projects will provide students with practical software system expertise and GIS industry experience.

**Prerequisite(s)/Corequisite(s):** GEOG 8026, GEOG 8036, GEOG 8056, GEOG 8636, GEOG 8666, or consent of professor.

**GEOG 8906 URBANIZATION IN DEVELOPING AREAS (3 credits)**
The functions and morphology of various types of cities found in presently developing areas of the world. Emphasis will be upon contrasting the cities of the developed and developing areas. (Cross-listed with GEOG 4900).

**Prerequisite(s)/Corequisite(s):** Six hours of geography and GEOG 8126.

**GEOG 8990 THESIS (1-6 credits)**
Independent research project written under the supervision of an adviser.

**GEOG 9550 TOPICS IN GEOMORPHOLOGY AND THE QUATERNARY (3 credits)**
A seminar on the landforms of a particular area from the perspective of a particular geomorphic process operating through Quaternary time. Writing of research grant proposals emphasized as well.

**Prerequisite(s)/Corequisite(s):** Permission

**Geology (GEOL)**

**GEOL 8106 BIOGEOGRAPHY (3 credits)**
This course is intended as an introduction to biogeography, the study of the distribution of organisms in space and time. Usually offered every year. (Cross-listed with GEOL 4100, BIOL 4100, BIOL 8106, GEOG 4100, GEOG 8106).

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior.

**GEOL 8266 PROCESS GEOMORPHOLOGY (3 credits)**
Primarily a lecture and laboratory course. Emphasis on methodology and modern process-oriented geomorphology. (Cross-listed with GEOG 4260).

**Prerequisite(s)/Corequisite(s):** GEOG 1070 or GEOL 1170.

**GEOL 8616 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)**
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOG 8616, GEOG 4610).

**Prerequisite(s)/Corequisite(s):** Permission of instructor.

**German (GERM)**

**GERM 8036 ADVANCED GERMAN CONVERSATION (3 credits)**
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with GERM 4030).

**Prerequisite(s)/Corequisite(s):** GERM 3030 or departmental permission.

Not open to non-degree graduate students.

**GERM 8046 ADVANCED GERMAN COMPOSITION AND STYLISTICS (3 credits)**
Advanced grammatical principles, composition and stylistics.

**GERM 8226 THE STRUCTURE OF GERMAN (3 credits)**
A survey of the linguistic structure of modern German, including phonology, morphology, and syntax. (Cross-listed with GERM 4220).

**Prerequisite(s)/Corequisite(s):** GERM 3040 and GERM 4610, or permission.

**GERM 8386 GERMAN CIVILIZATION FROM THE 18TH CENTURY TO THE PRESENT (3 credits)**
Detailed analysis of German art, architecture, literature, music and philosophy. The influence of the sciences and of technology upon modern German civilization and culture. (Cross-listed with GERM 4380).

**Prerequisite(s)/Corequisite(s):** GERM 3370 or departmental permission.

Not open to non-degree graduate students.

**GERM 8440 SEMINAR: GERMAN COMPOSITION (3 credits)**
This course will provide opportunities for students to refine their composition skills in German through extensive writing practice, writing workshops, and peer editing. Computer applications to composition will be employed.

**Prerequisite(s)/Corequisite(s):** Admission to Graduate College.

**GERM 8906 INDEPENDENT STUDY (1-3 credits)**
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with GERM 4900).

**Prerequisite(s)/Corequisite(s):** Permission of the instructor, junior or senior standing, and no incompletes outstanding.

**GERM 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)**
This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 4950).

**Prerequisite(s)/Corequisite(s):** Graduate student status.

**GERM 8966 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)**
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 4960).

**Prerequisite(s)/Corequisite(s):** GERM 3030, GERM 3040, and GERM 3060.
GERM 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 4970).
Prerequisite(s)/Corequisite(s): Graduate student status.

GERontology (GERO)

GERO 8020 INTRODUCTION TO RESEARCH METHODS (3 credits)
An introduction to research methods and statistical procedures in the social and behavioral sciences.

GERO 8106 EDUCATIONAL GERONTOLOGY (3 credits)
An introduction to the field of education for and about the aging. The institutions and processes of education will be analyzed to determine their relationships and value to persons who are now old and those who are aging. (Cross-listed with GERO 4100).

GERO 8280 COUNSELING OLDER ADULTS AND THEIR FAMILIES (2 credits)
A study of issues related to the counseling of older adults and their families.

GERO 8356 ISSUES IN AGING (3 credits)
This course is intended for students in gerontology and in other fields who are interested in a humanistic approach to understanding significant issues which affect the lives of older people. (Cross-listed with GERO 4350).
Prerequisite(s)/Corequisite(s): Graduate.

GERO 8426 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with GERO 4420, RLS 4420, RLS 8426).

GERO 8466 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, PSYC 4460)

GERO 8476 MENTAL HEALTH AND AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with GERO 4470, PSYC 4470, PSYC 8476).
Prerequisite(s)/Corequisite(s): Junior or senior.

GERO 8486 COMPARATIVE GERONTOLOGY (3 credits)
The study of aging around the world by a comparative method in a cross-cultural and cross-national framework. An explanation of some practical experiences and developments in Europe, Asia and Africa will be examined. (Cross-listed with GERO 4480).

GERO 8500 POLITICS IN AGING (3 credits)
The purpose of this course is to provide an understanding of the role of the political process in the emergence of public policy towards older adults in the United States, particularly during the past century.

GERO 8506 LEGAL ASPECTS OF AGING (3 credits)
Consideration of the legal concerns which are likely to arise as people age. Includes introduction to American legal system, and emphasis on underlying legal concepts and issues of special importance to older persons. (Cross-listed with GERO 4500).

GERO 8516 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, PA 4510, PA 8516).

GERO 8526 SENIOR HOUSING (3 credits)
The senior housing course is designed to provide students with an in-depth understanding of the various housing options available to older adults including aging in place to hospice. At the end of the course students will have a working knowledge of the needs of older adults and how this is used in making decisions about housing. (Cross-listed with GERO 4520.)
Prerequisite(s)/Corequisite(s): Graduate student

GERO 8556 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550, HED 4550, HED 8556, WGST 4550).

GERO 8566 NUTRITION AND AGING (3 credits)
The goal of this course is to provide an understanding of the relationship between nutrition and successful or usual aging. This course will review the basics of good nutrition and relate them to the usual food intake of older adults. It will identify the impact of poor nutrition. This course will also look at the role nutrition plays in various disease processes that are associated with aging. It will provide information about support services that are available to assure good nutrition into old age for those living independently. (Cross-listed with GERO 4560).

GERO 8596 DISORDERS OF COMMUNICATION IN OLDER ADULTS (3 credits)
This course is designed to familiarize the student with the identification and symptomatology, basic assessment and intervention strategies associated with disorders of communication affecting older adults and geriatric patients. It is beneficial to students majoring in gerontology or speech pathology, as an elective course, or as a professional enrichment course for persons working in these or related fields. Graduate: Students are assigned contacts with and written reports of contacts with an older adult who manifests a disorder of communication. (Cross-listed with GERO 4590).

GERO 8676 PROGRAMS AND SERVICES FOR THE ELDERLY (3 credits)
This course is provided to give the student a historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GERO 4670).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8696 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly. (Cross-listed with GERO 4690, SOWK 4040, SOWK 8046).

GERO 8726 BABY BOOMERS AND THE 21ST CENTURY (3 credits)
Marketing decisions and strategies apply to all businesses and are influenced by the target market. The economic realities and the character of America will change due to shifting demographics of baby boomers. Businesses that understand the power of the baby boomers will succeed; failure to understand that power may lead to economic consequences. Students from many disciplines will benefit from this cross-referenced course blending the realities of gerontology with the predictions of baby boomer behavior and the resulting impact to all businesses. (Cross-listed with GERO 4720).
Prerequisite(s)/Corequisite(s): Junior, Senior and Graduate Level Standing.
GERO 8730 Dying, Death & Grieving (3 credits)
An examination of theory and research relevant to interaction with the older, terminally ill person, focusing on communication with widows and other survivors as well as the dying patient. (Cross-listed with HED 8730).

GERO 8756 Mid-Life, Career Change, Pre-retirement Planning (3 credits)
This course is designed to involve candidates in the exploration of the developmental tasks of mid-life, myths and realities related to career change as well as the implications of pre-retirement planning. Factual information, as well as model examination and evaluation are presented to aid the candidate in becoming better equipped to understand some of the forces which affect the well-being of middle aged persons as they prepare for the later years. (Cross-listed with COUN 8756, GER 4750).
Prerequisite(s)/Corequisite(s): Junior, permission of instructor. Not open to non-degree graduate students.

GERO 8856 Hospice & Other Services for the Dying Patient/Family (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, SOWK 4850, SOWK 8856).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8920 Special Studies in Gerontology (1-3 credits)
Special studies designed around the interests and needs of the individual student in such areas as the psychology, sociology, economics or politics of aging, as well as operation of various service systems. The studies may be either a literature review project or a field project in which experience is gained in the community identifying and analyzing needs and services related to older people.
Prerequisite(s)/Corequisite(s): Six hours of gerontology, or permission

GERO 8940 Graduate Practicum (3 credits)
This course provides the opportunity to students to share field experiences; to obtain guidance concerning various relationships with agency, staff and clients; and to develop a broadly based perspective of the field of aging.
Prerequisite(s)/Corequisite(s): Nine hours in gerontology and permission. Students must be enrolled in the certificate or degree program (MA, PhD) as well as have a minimum GPA of 3.0. Not open to non-degree students.

GERO 8960 Directed Readings Counseling and Gerontology (1-3 credits)
A study of recent and current literature on counseling with older people.
Prerequisite(s)/Corequisite(s): GERO 8986 or COUN 8986, counseling major, or permission

GERO 8970 Personal Values and Aging (1 credit)
Course designed to increase students’ self-awareness of personal values and feelings related to aging and the aged.

GERO 8986 Counseling Skills in Gerontology (3 credits)
This course is intended to help develop basic counseling skills for application in gerontology. (Cross-listed with COUN 8986, GER 4980).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

GERO 8990 Thesis (1-6 credits)
Independent research project required of all students working toward the Master of Arts degree. The thesis is written under the supervision of the thesis adviser and the thesis committee.
Prerequisite(s)/Corequisite(s): Permission from adviser.

GERO 9020 Graduate Seminar in Statistical Applications (3 credits)
Provides an introduction to statistical methods and data management used in the social, behavioral and health sciences.

GERO 9110 Applied Social Gerontology (3 credits)
An overview of social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life. Restricted to graduate students only; required of gerontology students. (Cross-listed with SOC 9110).
Prerequisite(s)/Corequisite(s): Graduate.

GERO 9460 Seminar in Aging and Human Behavior (3 credits)
This course will examine in detail age-related changes in psychological processes and explore the implications of these changes for behavior. The course is intended primarily for graduate students in psychology and gerontology. (Cross-listed with PSYC 9460).
Prerequisite(s)/Corequisite(s): Graduate standing in gerontology or psychology or permission of the instructor.

GERO 9480 Geropsychology (3 credits)
To become familiar with the psychology of aging from a research perspective. The focus will be on psychological research in the middle years and in later years. (Cross-listed with PSYC 9480).

GERO 9560 Seminar: The Older Woman (3 credits)
This course is designed to provide students with a critical understanding of older women. Primary focus will be directed towards an exploration of lifestyles, needs and interests of women in the later half of life. Reading and discussion of current literature will provide a basis for continued exploration through the preparation, administration and analysis of a group research project.

GERO 9990 Dissertation (1-6 credits)
This course provides doctoral students pursuing the PhD in Human Sciences with a specialization in gerontology to complete a dissertation research plan. The course learning activities will focus on the completion of an approved dissertation.
Prerequisite(s)/Corequisite(s): Admittance to the PhD in Human Sciences with a specialization in gerontology. Not open to non-degree graduate students.

Health Education (HED)

HED 8050 Applied Research in Public Health (3 credits)
This course will assist candidates to develop the basic skills to conduct applied research to address contemporary problems in public health. The course will emphasize proposal writing, data collection, research design, statistical analysis, computer application, and writing of research reports.
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HED 8080 Topics in Health Education (3 credits)
This course will explore important current issues in Health Education. Candidates will explore economic, political, ethical and technological developments that affect the practice of Health Education. There is no limit to the number of times a candidate may enroll in HED 8080 as long as a different topic is offered each time.
Prerequisite(s)/Corequisite(s): Graduate.

HED 8160 Alcohol & Other Drug Prevention/Education in Schools & Communities (3 credits)
This course will focus on a team approach to address alcohol and other drug education, prevention, referral techniques and counseling strategies through the cooperation of school staff and community representatives who work with children from pre-school through 12th grade. Topics will include etiology of alcohol and other drug problems, current factual information concerning alcohol and other drugs, strategies for instruction, gaining parental and community support, developing youth leadership for prevention, intervention techniques for school youth, multicultural factors in prevention education, alternatives to drug use, referral and support resources, and the development of mini-networks for dissemination of information within the school and community. (Cross-listed with COUN 8160).
Prerequisite(s)/Corequisite(s): Graduate. Not open to non-degree graduate students.
HED 8250 HUMAN SEXUALITY (3 credits)
This graduate-level course is aimed at providing an overview of the current scientific knowledge concerning human sexuality. The course is designed to be interdisciplinary in nature, providing the biological, behavioral, and cultural aspects of human sexuality. Priority will be given to candidates from the helping professions. Qualified candidates from other related disciplines must have permission of instructor.  
Prerequisite(s)/Corequisite(s): Undergraduate Anatomy and Physiology

HED 8270 INTERVENTIONS IN HEALTH EDUCATION (3 credits)
This course will provide health behavior candidates with an opportunity to investigate, contrast, develop, implement and evaluate a variety of intervention activities, to be applied in different settings. Theories regarding methods to enhance behavior change and teaching strategies to meet the health needs of a diverse population will be explored.  
Prerequisite(s)/Corequisite(s): Graduate status.

HED 8330 ALCOHOL EDUCATION (3 credits)
A study of the problems associated with alcohol use, misuse and abuse. The patterns and trends of use, theories of dependence, pharmacological aspects and health consequences are explored. Emphasis is given to the identification of people with alcohol related problems and the role of the private and public sectors in prevention, education, intervention, and referral. Methods of assessing needs, prescribing, implementing, and evaluating alcohol education programs will be explored.

HED 8360 COMMUNITY HEALTH (3 credits)
An in-depth examination of community health and determinants of community health issues. The epidemiology, statistical sciences, environmental health, political influences on health, and behavioral social sciences for community health are examined. Students are expected to be able to apply concepts addressed in class to contemporary health issues.

HED 8400 HEALTH PROMOTION PROGRAM PLANNING (3 credits)
An in-depth application of the health promotion program planning process utilizing a choice of planning models. Students develop a comprehensive plan in response to an actual grant announcement and follow appropriate guidelines.

HED 8450 EPIDEMIOLOGY & PREVENTION OF DISEASE (3 credits)
The course is designed for health behavior graduate students and others who are interested in public health. The causes, prevention, treatment and control of prevalent communicable and non-communicable disease in a culturally diverse and global society will be emphasized. Special emphasis will be given to diseases and health problems that can be prevented or controlled through education and advocacy. Students will apply skills to contemporary issues.

HED 8556 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with HED 4550, GERO 4550, GERO 8556, WGST 4550).

HED 8600 HEALTH BEHAVIOR (3 credits)
The purpose of this course is to study the theoretical foundations of health behavior. Candidates will develop an understanding of the determinants of health behavior, the models and theories that provide a framework for predicting health behavior, and the strategies employed to bring about behavioral changes for health and disease prevention in individuals and groups.

HED 8706 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with HED 4700, SOC 4700, SOC 8706).  
Prerequisite(s)/Corequisite(s): Graduate standing.

HED 8730 DYING, DEATH & GRIEVING (3 credits)
An examination of theory and research relevant to interaction with the terminally ill person, focusing on communication with widows and other survivors as well as the dying person. (Cross-listed with GERO 8730).

HED 8750 PROGRAM EVALUATION AND INSTRUMENTATION (3 credits)
This course will build skills for selection, development and analysis of various types of instruments and techniques for conducting process, impact, and outcome evaluations in health promotion, education, and behavior. Evaluation of health behavior change and its antecedents, changes in community services programs, and community health status will be discussed. Candidates will learn methods for developing choosing psychometric tools, choosing appropriate evaluation designs, procedures for data collection, and describing evaluation results. Emphasis will be placed on political, statistical, and theoretical aspects of instrumentation and evaluation practices.  
Prerequisite(s)/Corequisite(s): HED 8270 or permission of instructor.

HED 8850 HEALTH ASPECTS OF STRESS MANAGEMENT (3 credits)
The health-related aspects of stress management and control will be the focus of this course. Selected techniques for self-regulating stress will be demonstrated, practiced and analyzed. Candidates will be introduced to current scientific research in human stress.  
Prerequisite(s)/Corequisite(s): Graduate.

HED 8890 PUBLIC HEALTH LEADERSHIP AND ADVOCACY (3 credits)
This course incorporates public health leadership theory and practices that are grounded in biomedical and social science and sanctioned by public law. Also included is the politics of communities and organizations. Advocacy is emphasized as a key tool to secure funding and to help assure that local, state, and federal policy-makers will adopt, implement, and maintain important public health regulations, policies and programs.  
Prerequisite(s)/Corequisite(s): Fifteen (15) health education graduate credits. Not open to non-degree graduate students.

HED 8890 HEALTH EDUCATION PRACTICUM (1-3 credits)
This course offers graduate candidates in health education an opportunity to gain practical, on-the-job training in health education in local schools, businesses, hospitals, clinics, voluntary health agencies or governmental health agencies.  
Prerequisite(s)/Corequisite(s): Candidates must have completed 21 credit hours at the undergraduate or graduate level (3.0 GPA or above) in health education prior to enrolling in this course. Not open to non-degree graduate students.

Health, Physical Education & Recreation (HPER)

HPER 8000 SPECIAL STUDIES (1-3 credits)
A series of intensive courses - scheduled as regular seminars or workshops according to purpose.  
Prerequisite(s)/Corequisite(s): Permission of department.

HPER 8030 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master's thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 9031).  
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 8100 RESEARCH PROJECT (1-3 credits)
Individual or group study and analysis of specific problems in health, physical education or recreation.  
Prerequisite(s)/Corequisite(s): Permission of instructor.
HPER 8220 PROBLEMS & ISSUES IN HPER (3 credits)
An examination of current problems and issues in HPER that relate to the general aims and purposes of HPER.

HPER 8300 ANALYSIS OF RESEARCH AND LITERATURE IN HUMAN MOVEMENT (3 credits)
Survey of research and literature in Human Movement for the purpose of orienting the candidate to possible areas of research and developing an understanding of and appreciation for writings in the field. The course may be offered focusing on only one specific area in HPER.
Prerequisite(s)/Corequisite(s): HPER 8030

HPER 8500 QUALITATIVE RESEARCH METHODS (3 credits)
An examination of qualitative research methods. Emphasis on the broad application of qualitative research in public health, education, and social sciences. Course topics include research design, data collection, data analysis, and reporting.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HPER 8850 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will examine the physiological and medical limitations imposed on people with various common chronic diseases/conditions including arthritis, osteoporosis, exercise-induced asthma, obesity, diabetes, hypertension and pregnancy. Special groups such as children and elders will be discussed. Content will emphasize the etiology and guidelines for exercise testing, prescription, and supervision. (Cross-listed with HPER 9851).
Prerequisite(s)/Corequisite(s): PE 4940 or PE 8946

HPER 8990 THESIS (1-6 credits)
The thesis experience is designed to help develop the candidate's ability to execute accepted procedures associated with the research process appropriate to the Master's degree.
Prerequisite(s)/Corequisite(s): Permission. Not open to non-degree graduate students.

HPER 9031 RESEARCH IN HEALTH, PHYSICAL EDUCATION AND RECREATION (3 credits)
The course deals with scientific writing, research techniques, statistics, and quantitative research design and technique. Considerable emphasis is placed on evaluation of research in scholarly publications. A research proposal in a form of a master's thesis or doctoral dissertation is written as one of the course requirements. (Cross-listed with HPER 8030).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HPER 9851 EXERCISE FOR SPECIAL POPULATIONS (3 credits)
The course will examine the physiological and medical limitations imposed on people with various common chronic diseases/conditions including arthritis, osteoporosis, exercise-induced asthma, obesity, diabetes, hypertension and pregnancy. Special groups such as children and elders will be discussed. Content will emphasize the etiology and guidelines for exercise testing, prescription, and supervision. (Cross-listed with HPER 8850).
Prerequisite(s)/Corequisite(s): PE 4940 or PE 8946.

History (HIST)

HIST 8016 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010, RELI 4050).
Prerequisite(s)/Corequisite(s): Must be a graduate student enrolled in History MA program. Not open to non-degree graduate students.

HIST 8020 GRADUATE INTERNSHIP (1-3 credits)
The graduate student is supervised by a member of the faculty in a project involving part-time employment or service with a museum, historic site, historical society or other institution. Work hours, activities, reporting requirements, and responsibilities must be specified in written agreement between employer, student, Graduate Program Chair, and/or supervising faculty member. Normally taken for 3 hours. If a hosting institution cannot commit to a supervised workload which the departmental advisor and/or Graduate Program Chair believe to be equivalent to 3 hours, course may be taken for fewer hours. In such circumstances, student may repeat course up to a total of 3 hours.
Prerequisite(s)/Corequisite(s): Student must be enrolled in the History MA program and have completed at least 6 hours of graduate credit. Student must have approval of Graduate Program Chair (GPC) and/or supervising faculty before enrolling. Not open to non-degree graduate students.

HIST 8030 GRADUATE HISTORICAL METHODOLOGY (3 credits)
This course will examine various historical methodologies which have been employed by historians to provide structural interpretations of the past. Although exact content may vary, examples of methodologies include the Whig Interpretation, Marxism, Structuralism, Postmodernism, and the New Social History.
Prerequisite(s)/Corequisite(s): Students must be enrolled in the MA program in history. Not open to non-degree graduate students.

HIST 8046 HOMESCAPES: THE MATERIAL CULTURE OF EVERYDAY LIFE IN AMERICA, 1600-1860 (3 credits)
This course examines the culture and technologies of house forms and work landscapes in North America, 1600-1860. (Cross-listed with HIST 4040).
Prerequisite(s)/Corequisite(s): Graduate student in history, or permission of the graduate chair.

HIST 8056 HISTORY OF WOMEN IN AMERICA TO 1875 (3 credits)
This course examines the history of women in what is now the United States from the seventeenth century to 1875. Topics include law, work, sexuality and reproduction, slavery, cross-cultural encounters, religion, political activism, and the transformation of gender by the market and industrial revolutions. (Cross-listed with HIST 4050).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HIST 8066 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 4060, WGST 8066).
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

HIST 8125 AMERICAN SOCIAL AND INTELLECTUAL HISTORY SINCE 1865 (3 credits)
Primarily a non-political approach to American history, this course will examine significant topics in American thought and society. (Cross-listed with HIST 4120).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
HIST 8136 THE REVOLUTIONARY ERA, 1763-89 (3 credits)
An analysis of the imperial and internal forces which led to the revolution and an examination of the economic, social and political problems of the emerging nation. (Cross-listed with HIST 4130).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8146 COLONIAL AMERICAN HISTORY (3 credits)
This course provides a study of the settlement and development of North America to c. 1763 with an emphasis on the British colonies. (Cross-listed with HIST 4140).

HIST 8166 THE U.S.: EARLY NATIONAL PERIOD: 1789-1828 (3 credits)
An interpretative study of the middle period of American history. (Cross-listed with HIST 4160).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8176 AMERICAN FRONTIER 1800-1900 (3 credits)
The Trans-Mississippi West from the Rocky Mountain Fur Trade days to the disappearance of the frontier around 1900. (Cross-listed with HIST 4170).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8186 CIVIL WAR AND RECONSTRUCTION (3 credits)
A period study from 1845 to 1877. The background of the Civil War, the war years and the reshaping of the Union during reconstruction. (Cross-listed with HIST 4180).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8246 EMERGENCE OF MODERN AMERICA (3 credits)
A study of a transitional period in American history, this course considers the importance of industrialization, urbanization, immigration and the emergence of the United States as a significant world power. (Cross-listed with HIST 4240).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8276 20TH CENTURY AMERICA TO 1932 (3 credits)
A study of the history of the United States from the end of the 19th century to the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 4270).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8286 TWENTIETH CENTURY AMERICA SINCE 1932 (3 credits)
A study of the history of the United States since the election of Franklin D. Roosevelt to the presidency in 1932. (Cross-listed with HIST 4280).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8336 U.S. CONSTITUTIONAL HISTORY TO 1860 (3 credits)
A history of constitutional theory and practice to 1860. (Cross-listed with HIST 4340).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8346 U.S. CONSTITUTIONAL HISTORY SINCE 1860 (3 credits)
A history of constitutional theory and practice since 1860. (Cross-listed with HIST 4340).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8356 AMERICAN DIPLOMATIC HISTORY (3 credits)
A history of the foreign relations of the United States. (Cross-listed with HIST 4350).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8406 HISTORY OF NORTH AMERICAN INDIANS (3 credits)
A survey of traditional North American Indian cultures, their contact with transplanted European peoples, and the continuing problems faced today. (Cross-listed with HIST 4400).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8416 HISTORY OF NEBRASKA (3 credits)
From the earliest known records to the present. (Cross-listed with HIST 4416).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8426 THE SIOUX TRIBE (3 credits)
A cultural and historical study of the Sioux tribes emphasizing the earliest historic period to the present. (Cross-listed with HIST 4426).

HIST 8446 HISTORY OF THE SOUTH (3 credits)
Economic, social and political development of the south as a region. (Cross-listed with HIST 4446).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8456 NATIVE AMERICAN ENVIRONMENTALISM (3 credits)
This course studies North American tribal subsistence and natural resource use practices from the early historic period to the present, Native Americans as environmentalists, and modern tribal environmentalism. (Cross-listed with HIST 4456).

HIST 8476 AMERICAN MEDICINE AND PUBLIC HEALTH (3 credits)
Analysis of the relationship and interaction of medical thought and practice, public health problems and institutional development, and the changes in American society and culture from the 17th to the 20th century. (Cross-listed with WGST 8476, WGST 4470, HIST 4470).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8486 THE UNITED STATES IN THE 1960S (3 credits)
This course is a review of the economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 4480).

HIST 8516 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of enduring political, religious, economic, scientific and philosophical ideas in their historical setting. (Cross-listed with HIST 4516).

HIST 8526 INTELLECTUAL HISTORY OF MODERN EUROPE: FRENCH REVOLUTION TO PRESENT (3 credits)
A study of leading political, religious, economic, scientific and philosophical ideas in times of extraordinary social change. (Cross-listed with HIST 4526).

HIST 8536 THE AGE OF THE RENAISSANCE-REFORMATION (3 credits)
A study of the politics and economics of the 15th and 16th centuries as well as the achievements of Renaissance culture and the emergence of the Protestant churches and the Tertine Catholicism. (Cross-listed with HIST 4530).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8546 MEDIEVAL EUROPE (3 credits)
An examination of medieval European history with emphasis upon social and economic developments. (Cross-listed with HIST 4540).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students
HIST 8556 THE AGE OF ENLIGHTENMENT (3 credits)
A study of the politics and economics of the late-17th century and of the 18th century as well as the emergence of modern secular thought and its impact upon traditional European society. (Cross-listed with HIST 4550).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8566 THE FRENCH REVOLUTION AND THE NAPOLEONIC ERA, 1789-1815 (3 credits)
Particular attention is given to the development of democratic practice concurrently with the development of modern authoritarianism. (Cross-listed with HIST 4560).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8576 EUROPE: 1815-1890 (3 credits)
A study of reform and reaction with resulted in the Balkanization of Europe. (Cross-listed with HIST 4570).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8616 TUDOR AND STUART ENGLAND (3 credits)
A study of England under the Tudors when the English people solidified the monarchy and experienced a golden age, and the Stuarts continued modernization and formulated the new institutions foreshadowing those of our world today. (Cross-listed with HIST 4610).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8626 ENGLAND: FROM EMPIRE TO WELFARE STATE (3 credits)
A study of the change and development in Great Britain from the late 18th century to 1918. (Cross-listed with HIST 4620).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8646 BRITISH EMPIRE AND COMMONWEALTH (3 credits)
Britain in America, Africa, India and the Pacific. The development of a dependent empire and transformation into independent nations. (Cross-listed with HIST 4640).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8656 HISTORY OF MODERN IRELAND (3 credits)
A survey of Irish history from the Act of Union of 1801 through the civil rights movement of "Troubles" of Northern Ireland in the 1970s. (Cross-listed with HIST 4650).

HIST 8716 EUROPE AND AMERICA IN TWO WORLD WARS (3 credits)
A military, social and political history analyzing the causes, conduct and consequences of each war, the war time transformation of European and American society, and the emergence of the United States as a world power. (Cross-listed with HIST 4710).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8726 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with HIST 4720, RELI 4160, RELI 8166).

HIST 8736 ISRAEL AND PALESTINE (3 credits)
This course will outline the history of the conflict over Palestine/Israel, examine its present status, and explore its likely unfolding in the future. It seeks to provide a broad and concise understanding of the historical events which have shaped the relations between Israelis and Palestinians, as well as a keen awareness of the challenges and prospects related to their future. (Cross-listed with HIST 4730).

HIST 8746 COMPARATIVE GENOCIDE (3 credits)
This course explores genocide and its many forms throughout history. It begins by considering the varied elements and definitions of the term. Next it looks at what makes people kill before going on to examine many different genocides throughout history. Finally, the course addresses the prosecution and prevention of genocide. (Cross-listed with HIST 4740).
Prerequisite(s)/Corequisite(s): Graduate student enrolled in History MA program. Not open to non-degree graduate students

HIST 8776 EUROPE: 1890-1932 (3 credits)
A study of the conditions and forces immediately precedent to World War I, the war itself, the peace following the war and the rise of the modern dictatorships. (Cross-listed with HIST 4770).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8786 EUROPE: 1933 TO THE PRESENT (3 credits)
A study of the ever increasing tensions between the Fascist and Communist dictatorships and the Western democracies, World War II, the resultant dislocation of power and the emergence of the balance of terror. (Cross-listed with HIST 4780).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8806 U.S. AND THE MIDDLE EAST (3 credits)
This course focuses on the evolution of US relations with and Foreign Policy vis-a-vis the Middle East over the last six decades. It seeks to illuminate the constant features in contrast to the changes in direction, examining the agendas of varying administrations as well as the treatment by the media of this region. It follows a chronological framework with particular emphasis on key thematic topics. While emphasizing the political dimensions of international relations, the class will also explore cultural and social aspects of the ties between the US and the peoples of the Middle East. (Cross-listed with HIST 4800).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

HIST 8826 MESOPOTAMIA AND PRE-ISLAMIC PERSIA (3 credits)
Examination of the Ancient Near East from the emergence of its earliest civilizations–Sumer, Akkad and Babylonia–through the Bronze and Iron Ages, concluding with Persia in the Common Era (CE) just before the rise of Islam. (Cross-listed with HIST 4820).

HIST 8846 ALEXANDER THE GREAT AND THE MACEDONIAN ORIGIN (3 credits)
A study of the conquests of Alexander the Great, as well as controversies in Alexander studies. Includes discussion of both the Macedonian culture that produced him and the career of his father, Philip II. (Cross-listed with HIST 4840).

HIST 8916 TOPICS IN HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/ WGST 8916 when topics are appropriate to Women's and Gender Studies. (Cross-listed with HIST 4910).

HIST 8990 THESIS (1-6 credits)
Thesis research project written under supervision of an adviser.
Prerequisite(s)/Corequisite(s): Completion of twenty-four hours of history graduate work. Approval of Graduate Program Chair. Not open to non-degree graduate students

HIST 9100 SEMINAR IN HISTORY (3 credits)
This seminar guides advanced graduate students through critical readings and practices in historical research or historiography. Topics will vary and course can be repeated under different topics.
Prerequisite(s)/Corequisite(s): Open only to History MA students who have completed HIST 3930 or equivalent. Non-History MA students may be admitted after consultation with History GPC and instructor. Not open to non-degree graduate students.
HIST 9200 COLLOQUIUM (3 credits)
The colloquium guides advanced graduate students through the historiography of a specific subject. Topics will vary and course can be repeated under different topics. Open only to students enrolled in MA program in history unless permission granted by History Department Graduate Program Chair.  
Prerequisite(s)/Corequisite(s): Open only to History MA students who have completed HIST 2980, HIST 3930 or equivalent. Non-History MA students may be admitted after consultation with History GPC and instructor. Not open to non-degree graduate students.

Industrial & Management Systems Engineering (ISMG)

ISMG 8066 DECISION AND RISK ANALYSIS (3 credits)
Prerequisite(s)/Corequisite(s): ISMG 2060; STAT 3800 or STAT 8805 or ISMG 3210

ISMG 8126 OCCUP SAFETY-SYSTEMS ANALYSIS (3 credits)
Analysis of safety performance, attribution of cost, identification and analysis of accident potential. Fault Tree analysis. Systems safety and reliability. (Cross-listed with ISMG4120)
Prerequisite(s)/Corequisite(s): ISMG 3210

ISMG 8286 STOCHASTIC OPERATIONS RESEARCH MODELS (3 credits)
Techniques for understanding and predicting stochastic system behavior. Probability, Markov chains, queueing analysis, dynamic programming, and reliability.
Prerequisite(s)/Corequisite(s): ISMG 3210

ISMG 8600 PACKAGING ENGINEERING (3 credits)
Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packing and environmental regulations, and material selection.
Prerequisite(s)/Corequisite(s): ISME206 and ISME321 and ENGM373 (UNL)

ISMG 8760 COMPUTERS IN MANUFACTURING (3 credits)
Interfacing issues; data acquisition; A/D-D/A conversions; sensors and sensor-based computing; control systems and adaptive control; and real time control of mechanical devices.
Prerequisite(s)/Corequisite(s): ELEC2310

ISMG 8770 ROBOTICS (3 credits)
Basic robotics technology; application in manufacturing, manipulators and mechanical design; programming languages; intelligence and control.
Prerequisite(s)/Corequisite(s): IMSE375

ISMG 8886 LABORATORY INVESTIGATION (1-6 credits)
Investigation and written report of research into a specific problem in any area of industrial or management systems engineering.

Information Assurance - Science (IASC)

ISQA 8016 BUSINESS INTELLIGENCE (3 credits)
This course intends to provide graduate students in-depth exposure to the growing field of business intelligence. Business intelligence (BI) consists of the set of concepts and techniques used to analyze business data in support of decision-making and planning. BI spans a number of areas of management information systems, including Decision Support Systems (DSS), Enterprise Resource Planning (ERP), Data Warehousing, Knowledge Management, Customer Relationship Management, Data Mining, and others.
Prerequisite(s)/Corequisite(s): (ISQA 4150 or ISQA 8156) and ISQA 8040 and ISQA 8050. Not open to non-degree graduate students.

ISQA 8030 INFORMATION SYSTEMS AND ETHICS (3 credits)
This course gives you an introduction to organizations and the role that information and information systems play in supporting an organization's operations, decision-making processes, quality management, and strategic activities. The course provides an introduction to the management of information systems function, the strategic and regulatory issues of telecommunications, and ethical and legal issues related to information systems.
Prerequisite(s)/Corequisite(s): Admission into the MS in MIS program.

ISQA 8040 AN OVERVIEW OF SYSTEMS DEVELOPMENT (3 credits)
The course presents an overview of information systems and the systems development lifecycle. Course emphasis will focus on theory, current tools and techniques that the programmer or analyst can use to develop and document information systems. This course may not be used in a plan of study for any graduate program at UNO.
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent

ISQA 8050 DATA ORGANIZATION AND STORAGE (3 credits)
The course will provide concepts of data organization, data storage, and data transfer through computer networks. The performance implications of various design decisions will be explored. The purpose of this course is to prepare the student for further graduate-level study of information systems. This course may not be used in a plan of study for any graduate program at UNO.

ISQA 8060 RESEARCH IN MIS (3 credits)
This course covers research methods and their application to the development and evaluation of management information systems. Also covered is the relationship between organization theory and IS research.
Prerequisite(s)/Corequisite(s): CIST 2500, CIST 2100, and ISQA 8040, or permission of the instructor.

ISQA 8080 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
Prerequisite(s)/Corequisite(s): 1) Permission of the instructor. 2) Additional prerequisite courses may be required for particular course offerings.

ISQA 8086 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ISQA 4000)
Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.
ISQA 8106 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
This course examines the frameworks and tools used to develop an organization’s information system architecture. It provides the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information system architecture. (Cross-listed with ISQA 4100)
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 3310

ISQA 8136 INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social and human development. In this service-learning course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. (Cross-listed with ISQA 4130)
Prerequisite(s)/Corequisite(s): Though not required, the following courses or their equivalent would provide the necessary background: CIST 1100, CIST 1300, ISQA 3210, ISQA 3310, ISQA 3400. Not open to non-degree graduate students.

ISQA 8156 ADVANCED STATISTICAL METHODS FOR IS&T (3 credits)
This course emphasizes the application and interpretation of statistical methods including design of experiments, analysis of variance, multiple regression, and nonparametric procedures and the use of statistical computer packages. The intent is to develop quantitative abilities needed for quantitatively intensive jobs and for advanced study in management information systems, computer science and information technology. (Cross-listed with ISQA 4150)
Prerequisite(s)/Corequisite(s): CIST2500 or equivalent (at least one course in statistics), and an understanding of basic calculus (a calculus review will be conducted at the beginning of class).

ISQA 8160 APPLIED DISTRIBUTN FREE STATS (3 credits)
The primary objective of this course is to expose students to methods of analyzing data from non-normal populations including binomial tests, contingency tables, use of ranks, Kolmogorov-Smirnov type statistics and other selected topics.
Prerequisite(s)/Corequisite(s): ISQA4150 or ISQA8156

ISQA 8166 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross functional nature of ERP software. In the process of learning about ERPs, the students develop “hands on” experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 4160, SCMT 4160)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

ISQA 8180 ELECTRONIC COMMERCE (3 credits)
Electronic Commerce is the digital enablement of transactions between multiple parties. A multitude of technologies, tools and applications have brought about changes in business, and society that require careful consideration. Students are given an overview of electronic commerce business models and required to apply these to solve business problems or take on opportunities presented. They will cover topics such as social networking, electronic markets, and political and ethical issues associated with electronic commerce, and business plans for technology ventures. They will apply these concepts using Web 2.0 tools, mobile applications and website design assignments.

ISQA 8196 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY (3 credits)
Business process reengineering issues are examined. Reengineering concepts and methods are introduced. Additional special project(s) are required. SAP will be introduced. (Cross-listed with ISQA 4190)
Prerequisite(s)/Corequisite(s): ISQA 2500; prerequisite, co-requisite ISQA 4110.

ISQA 8206 INFORMATION AND DATA QUALITY MANAGEMENT (3 credits)
The course primarily focuses on developing an in-depth understanding of Data and Information Quality (DQ and IQ) concepts and issues. On completing this course students will be able to understand and use DQ and IQ Concepts in Information Systems projects, be able to recognize various patterns of Data and Design Deficiencies in Systems and be able to suggest appropriate DQ and IQ improvement plans in light of known deficiencies in systems. (Cross-listed with ISQA 4200)
Prerequisite(s)/Corequisite(s): CIST 2500 and CIST 2100.

ISQA 8210 MANAGEMENT OF SOFTWARE DEVELOPMENT (3 credits)
This course will integrate concepts and techniques from software engineering, management science, psychology, organization behavior, and organization change to identify, understand, and propose solutions to the problems of software project management. The purpose of the course is to prepare the student for leadership positions in software development and software maintenance.
Prerequisite(s)/Corequisite(s): ISQA 8040 or equivalent. Not open to non-degree graduate students.

ISQA 8220 ADVANCED SYSTEMS ANALYSIS AND DESIGN (3 credits)
This course is a systems analysis and design course for systems and business analysts. The course presents an overview of object-oriented system analysis and design. The course will then focus on theory, best practices, and modern methodologies that analysts can use to analyze and design information systems.
Prerequisite(s)/Corequisite(s): ISQA 8040 or (ISQA 4110 and ISQA 4120) or equivalent.

ISQA 8230 TELECOMMUNICATIONS MANAGEMENT (3 credits)
This course will focus on the management required to operate today’s complete telecommunications networks. The course will be based on the standards that are currently in place as well as examining the future directions. The student, upon the successful completion of this course, will have: an operational knowledge of the components of complex telecommunications networks, the management structures & computer systems needed to maintain that network, and the security solutions used to protect that network. (Cross-listed with CSCI 8220)
Prerequisite(s)/Corequisite(s): Acceptance into the graduate program of MIS or CSCI or by permission of the instructor. Not open to non-degree graduate students.

ISQA 8240 TELECOMMUNICATIONS PLANNING, ANALYSIS AND DESIGN (3 credits)
This course presents an in-depth discussion of systems analysis, design and implementation of telecommunication systems with a special emphasis on wide area networking and internetworking systems. The primary purpose of this course is to introduce students to methods, tools, techniques, and technology choices for telecommunication systems planning, analysis, design and implementation.
Prerequisite(s)/Corequisite(s): ISQA 8220 and ISQA 8310, not open to non-degree graduate students.

ISQA 8250 FACILITATION OF COLLABORATIVE PROBLEM SOLVING (3 credits)
The course focuses on the facilitation of collaborative problem solving and decision making processes. Students learn how to design and facilitate collaborative workshops, with support from both paper-based and electronic meeting tools. The course is hands-on and experiential, with students working in small teams to conduct real workshops.
ISQA 8306 DATABASE ADMINISTRATION (3 credits)
This course is designed to give students an applied, practical introduction to database administration. Students will gain an understanding of the functioning of a database management system and its relationship to the computing environment in which it runs. They will learn the concepts, principles, and techniques necessary to carry out such functions as database object creation, storage management, capacity planning, performance tuning, backup and recovery, and security management. Each semester the course will focus on one commercial database management system (DBMS), such as Oracle. (Cross-listed with ISQA 4300)
Prerequisite(s)/Corequisite(s): ISQA 8050. Not open to non-degree graduate students.

ISQA 8310 DATA COMMUNICATIONS (3 credits)
This course will provide a comprehensive review of data and computer communications for business information systems within the framework of the ISO OSI model, evolving techniques for effective data communications, telecommunications infrastructure and services, and the design and management of organizational data and voice communications resources.
Prerequisite(s)/Corequisite(s): ISQA 8050. Not open to non-degree graduate students.

ISQA 8340 APPLIED REGRESSION ANALYSIS (3 credits)
The primary objective of this course is to expose students to regression models and applications with particular emphasis on applying these concepts to IT research. Topics to be discussed include: Foundations of regression analysis using least squares procedures; model formulation, stepwise regression, transformations; graphical methods, estimation; inference; influence diagnosis; matrix formulation, multicollinearity, time series, and nonlinear models.
Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156, not open to non-degree graduate students.

ISQA 8380 ENTERPRISE ARCHITECTURE AND SYSTEMS INTEGRATION (3 credits)
This course is designed to give students grounding in the concepts, issues, and tools needed to manage enterprise architecture, distributed systems & Internet-based environments. The goal of the course is to equip students to make the architecture and infrastructure-related decisions needed for successful development and use of contemporary client/server and Internet-based systems. Topics include middleware, architecture, XML, JSON, web services, service-oriented architecture, enterprise application integration, distributed computing services, Model View Controller (MVC) development frameworks.
Prerequisite(s)/Corequisite(s): ISQA 8310 and ISQA 8050 or equivalent; permit required.

ISQA 8400 CLINICAL SYSTEMS ARCHITECTURE AND FUNCTION (3 credits)
This course serves to integrate multiple topics into an understanding of clinical health care information system history, architecture, and design. The needs of multiple disciplines will be explored to understand how they can share, communicate, and manage patient information using clinical information standards.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

ISQA 8410 DATA MANAGEMENT (3 credits)
The course provides in-depth coverage of such areas as: the relational model, SQL, data modeling, data quality management, database design, data warehousing, business intelligence, document and content management, NoSQL systems, and data governance. The course offers a mix of theoretical treatment and hands-on application. Current DBMS and data modeling software will be used.
Prerequisite(s)/Corequisite(s): ISQA 8050 or equivalent, permit only.

ISQA 8420 MANAGING THE IS FUNCTION (3 credits)
The course provides a focus on the business management implications of the information explosion. The course is organized around a management audit of the information services activity to help present and future managers recognize and implement effective information services management.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8040. Not open to non-degree graduate students.

ISQA 8450 NOSQL AND BIG DATA TECHNOLOGIES (3 credits)
The course will cover topics in the area of NoSQL and Big Data management. The course is intended to get students familiarized with NoSQL and Big Data technologies, explore how these database technologies differ conceptually from traditional relational database technologies, understand their applications, uses, advantages, and disadvantages, and provide hands-on experience with NoSQL and Big Data databases. The course offers a mix of theoretical treatment and hands-on application of the discussed NoSQL and Big Data technologies.
Prerequisite(s)/Corequisite(s): Prior exposure to data management is expected. The prereq is: ISQA 3310, ISQA 8050, CSCI 4850, or work experience that has given you a comparable grounding in database concepts and technologies; in this case permission by the instructor is needed.

ISQA 8500 READINGS IN CLINICAL INFORMATICS (3 credits)
An overview of clinical informatics topics with readings covering history, foundation knowledge and current developments in the field. The purpose of this course is to provide integrative knowledge of theory and applications in clinical informatics. NOTE: This course is crosslisted with UNMC’s SURG 850.
Prerequisite(s)/Corequisite(s): Student must have completed all MS in IS core courses and have permission of the department to enroll in courses for the Health Informatics concentration.

ISQA 8510 MANAGING USABILITY FUNCTIONS IN SYSTEMS DEVELOPMENT ORGANIZATION (3 credits)
This course deals with usability of information systems, from the perspective of organizing and managing usability functions in a systems development organization. After briefly introducing the background to system usability and usability principles, the course focuses specifically on the introduction, organization, support, management and evaluation of usability functions in systems development organizations. The role of the usability professional in the organization is emphasized.
Prerequisite(s)/Corequisite(s): Two semesters of programming or demonstrable experience and ISQA 8040 or equivalent, not open to non-degree graduate students.

ISQA 8525 GRAPHICAL USER INTERFACE DESIGN (3 credits)
This course is an introduction to interaction design with a primary emphasis on designing usable and useful computer interfaces. Students will learn the principles of interface design grounded in a fundamental understanding of human cognitive processes. They will learn how end-users develop and use mental models of interaction and will apply this knowledge to the design of interfaces for real-world applications. A design project will challenge students to plan their own designs, to develop interfaces and to integrate them into a working application prototype, to test their application with real users, and to effectively communicate the overall results. (Cross-listed with ISQA 3520)
Prerequisite(s)/Corequisite(s): CIST 1300

ISQA 8530 E-COMMERCE SECURITY (3 credits)
The course will integrate concepts, principles, and technologies from business, telecommunications, and computer science to identify, understand, and propose solutions to the security threats to e-commerce.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8310. Not open to non-degree graduate students.
ISQA 8546 COMPUTER SECURITY MANAGEMENT (3 credits)
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 4540, CYBR 8546)
Prerequisite(s)/Corequisite(s): IASC 4360 or permission of the instructor.

ISQA 8560 INFORMATION WARFARE AND SECURITY (3 credits)
This course will study the nature of information warfare, including computer crime and information terrorism, as it relates to international, national, economic, organizational, and personal security. Information warfare policy and ethical issues will be examined.
Prerequisite(s)/Corequisite(s): CIST 2100 or BSAD 8030, or permission of instructor required.

ISQA 8570 INFORMATION SECURITY POLICY AND ETHICS (3 credits)
The course will cover the development and need for information security policies, issues regarding privacy, and the application of computer ethics. (Cross-listed with IASC 8570)
Prerequisite(s)/Corequisite(s): CIST 2100 or BSAD 8030, or permission of instructor.

ISQA 8580 SECURITY RISK MANAGEMENT AND ASSESSMENT (3 credits)
The purpose of this course is to prepare the student for managing information security at the organizational level. This course will combine concepts from strategic management, decision science and risk analysis to prepare the student to integrate security issues into an organizational strategic planning process.
Prerequisite(s)/Corequisite(s): ISQA 8060 or ISQA A8546 or equivalents, not open to non-degree graduate students.

ISQA 8596 IT AUDIT AND CONTROL (3 credits)
This course explores organizational and managerial issues relevant to planning and conducting IT audit and control activities. The course covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, and the basic type of controls required in a business system in order to control IT risks. Issues associated with new risks created by the use of the internet for business applications and electronic business are also covered. (Cross-listed with ISQA 4590)
Prerequisite(s)/Corequisite(s): A solid understanding of business foundations such as accounting and introductory auditing and exposure to the IS discipline is essential for success in this course. Permission of instructor is required to enroll.

ISQA 8700 DATA MINING: THEORY AND PRACTICE (3 credits)
This course provides students theoretical issues as well as practical methods for conducting data mining process, including the implementation of a warehouse. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehousing architecture. This course also promotes students to conduct a real-life data analyzing project in Big Data Era.
Prerequisite(s)/Corequisite(s): ISQA 8050 and ISQA 8310 and ISQA 8040, not open to non-degree graduate students.

ISQA 8736 DECISION SUPPORT SYSTEMS (3 credits)
This course examines a set of information systems which specifically support managerial decision makers: Decision Support Systems, Group Decision Support Systems, Executive Information Systems, Data Warehouses, Expert Systems, and Neural Networks. This course explores the development, implementation, and application of these systems, how these systems can be applied to current business problems, as well as how organizational issues impact the implementation and usage of these systems. (Cross-listed with ISQA 4730)
Prerequisite(s)/Corequisite(s): CIST 2100 or equivalent.

ISQA 8810 INFORM TECHNOLOGY PROJECT FUNDAMENTALS (3 credits)
The course will integrate concepts and techniques from management science, psychology, organizational behavior, & administration change to identify, understand & propose solutions to the problems of project management. The purpose of the course is to prepare the graduate for project participation and leadership.
Prerequisite(s)/Corequisite(s): CIST 2100 and ISQA 8040. Not open to non-degree graduate students.

ISQA 8820 PROJECT RISK MANAGEMENT (3 credits)
This course will cover project risk management, i.e., the process of measuring or assessing risk in projects and then developing strategies to manage the risk. The topics covered will include: Risk Management Planning, Risk Identification, Quantitative Risk Analysis, Qualitative Risk Analysis, Risk Response Planning, and Risk Monitoring and Control will be covered in detail. Students will learn how to apply and use the tools and techniques needed to perform these project management tasks. A collection of readings on risk management from the empirical literature coupled with risk management standards from organizations such as IEEE and the Project Management Institute (PMI) will be used to provide the student with an excellent foundation in risk management and control.
Prerequisite(s)/Corequisite(s): ISQA 8810 or permission of instructor.

ISQA 8900 INDEPENDENT RESEARCH IN MANAGEMENT INFORMATION SYSTEMS (1-3 credits)
The content of the course will vary. However, both the student and the faculty member must sign an Independent Research Agreement and file it with the Master of Science in Management Information Systems Graduate Program Committee before registration for the course. This agreement will detail the project, the schedule for its completion, the form of the output, the method of evaluation and other relevant information pertaining to the project.
Prerequisite(s)/Corequisite(s): Permission of instructor, and at least 12 hours of course work toward a M.S. in MIS should be completed.

ISQA 8910 INFORMATION SYSTEMS INTERNSHIP (1-3 credits)
Information Systems Internship provides students with an opportunity for practical application and further development of knowledge and skills acquired in the MS MIS degree program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s)/Corequisite(s): Permission of the instructor required. Students must have completed a minimum of 12 credit hours towards the MS MIS program. Not open to non-degree graduate students.

ISQA 8950 CAPSTONE MANAGEMENT INFORMATION SYSTEMS (3 credits)
The course consists of a student executed Information Systems design project providing an in-depth practical experience. It typically covers system conceptualization, analysis, and design. It may also involve prototyping. The project will typically not include the actual implementation of the system. This course replaces the MS in MIS comprehensive exam requirement.
Prerequisite(s)/Corequisite(s): Students must have 6 credit hours or fewer left in the program. Students must have completed all core classes except ISQA 8380. Not open to non-degree graduate students.

ISQA 8990 THESIS (3 credits)
A research project designed and executed under supervision of a Thesis Advisory Committee. Student will develop skills, including the ability to design, conduct, analyze, and report results in writing (i.e., thesis) of an original, independent, scientific investigation. Student's Thesis Advisory Committee must approve the project plan.
Prerequisite(s)/Corequisite(s): Graduate major in MIS and approval of the Thesis Advisory Committee. Not open to non-degree graduate students.
ISQA 9010 FOUNDATIONS OF INFORMATION SYSTEMS RESEARCH (3 credits)
This course covers the following areas: (1) information systems as an academic discipline including classic readings in IS and its reference disciplines, (2) theory development and evaluation, (3) research methods and data collection and analysis. This course is required of Doctoral students in IS. Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 8065 or equivalent. Not open to non-degree graduate students.

ISQA 9020 TECHNICAL AND PROCESS ISSUES IN INFORMATION SYSTEMS RESEARCH (3 credits)
This seminar is a survey course on the technical and process issues in information systems research. The course balances the acquisition of knowledge about the conduct of research in technical and process issues with the application of that knowledge to research on information systems. Major topics include: software engineering, programming, data base systems, decision support systems, data warehousing and mining systems, object-oriented systems, adaptive and expert systems, client-service systems, information filtering and multimedia systems, information agents, mobile computing, telecommunications, and electronic commerce. Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 9010. Not open to non-degree graduate students.

ISQA 9030 BEHAVIORAL AND ORGANIZATIONAL ISSUES IN INFORMATION SYSTEMS (3 credits)
This seminar is a survey course on the behavioral and organizational issues in information systems research. The course balances the acquisition of knowledge about the conduct of research in technical and process issues with the application of that knowledge to research on information systems. Major topics include: foundations of behavioral and organizational research in Information Systems; general research on systems design and problem solving; cognitive perspectives; decision making processes; human aspects of computing; computer-mediated communication; systems development; IS implementation; organizational change; organizational structure and new forms; information systems adoption; management of the information systems function; social, cultural, and ethical issues in information systems; and project management. Prerequisite(s)/Corequisite(s): Doctoral student standing in the information systems area or with the permission of the instructor; ISQA 9010. Recommended. Not open to non-degree graduate students.

ISQA 9120 APPLIED EXPERIMENTAL DESIGN AND ANALYSIS (3 credits)
Constructing and analyzing designs for experimental investigations; completely randomized, randomized complete block and Latin-square designs, split-plot designs, incomplete block designs, confounded factorial designs, nested designs, and treatment of missing data, comparison of designs. The course will use computer-assisted analysis and graphic techniques included in software such as SAS or SPSS. Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156 or consent of instructor. Not open to non-degree graduate students.

ISQA 9130 APPLIED MULTIVARIATE ANALYSIS (3 credits)
The use of multivariate analysis for solving business problems. MANOVA, factor, cluster, and discriminant analysis techniques in IT research. The course will use computer-assisted analysis and graphic techniques included in software such as SAS or SPSS. Prerequisite(s)/Corequisite(s): ISQA 4150 or ISQA 8156 or consent of instructor. Not open to non-degree graduate students.

ISQA 9150 RESEARCH IN INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social, and human development. In this course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

ISQA 9900 SEMINAR IN COMMUNICATION & TECHNOLOGY (3 credits)
A synthesis of speech and mass communication research as it relates to the study of computers and technology. Computer Mediated Communication (CMC) will be emphasized. Students write a research paper appropriate for submission to an academic conference. (Cross-listed with COMM 9400) Prerequisite(s)/Corequisite(s): COMM 8470 or COMM 8570, and COMM 8010 or COMM 8020, or permission of instructor.

International Studies (INST)

INST 8015 ISEP EXCHANGE - SEMESTER (1-18 credits)
Study Abroad course - graduate version of INST 1010.

IT Innovation (ITIN)

ITIN 8006 SPECIAL TOPICS IN IT INNOVATION (1-6 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the IT Innovation area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ITIN 4001). Prerequisite(s)/Corequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ITIN 8100 INTERMEDIA (3 credits)
This is an ongoing course that brings together students of the arts and students of scientific disciplines in order to facilitate and promote the creation of intermedia art, and to further explore shared resources, joint research, and exhibition/performance opportunities. Prerequisite(s)/Corequisite(s): Instructor permission

Journalism and Media Communication (JMC)

JMC 8016 HISTORY OF MASS COMMUNICATION (3 credits)
This class covers development of the U.S. media from 1690 to present day, including newspapers, magazines, radio, television, the new media of the Internet, advertising and public relations. A special emphasis is placed on freedom of the press. (Cross-listed with JMC 4010).

JMC 8046 SOCIAL MEDIA MEASUREMENT AND MANAGEMENT (3 credits)
Social Media Measurement and Management explores the dynamic development of social media platforms within a journalism and media communication context. Students of journalism, broadcasting, public relations, advertising and marketing will examine theories and best practices of social media interaction and engagement. (Cross-listed with JMC 4040). Prerequisite(s)/Corequisite(s): Good standing as a UNO graduate student.

JMC 8226 LITERARY JOURNALISM (3 credits)
Survey of the journalistic works of pertinent American writers through readings, lectures, discussions, plus creative writing assignments. (Cross-listed with JMC 4220).
JMC 8235 PRINCIPLES OF PUBLIC RELATIONS (3 credits)
This course will focus primarily on techniques to garner and sustain public understanding, acceptance and support for an organization. This course will explain the merits of these techniques through theory and application, and will offer constant reminders of the relationship between theory and practice. Understanding theory can result in more efficient and effective use of techniques. (Cross-listed with JMC 3230).
Prerequisite(s)/Corequisite(s): JMC 2100, JMC 2104 and minimum GPA of 2.25

JMC 8246 PUBLIC RELATIONS CASE STUDIES (3 credits)
The course is designed to enable the student: 1) to integrate issue-management and decision-making theoretical models with the communication theory and research techniques presented in JMC 2420/ JMC 2436 and 2) to apply professional judgement to the public relations problem-solving process through the development of structured analysis of historical cases. (Cross-listed with JMC 4240).
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; JMC 2200; JMC 2300; JMC 2370; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 8266 MEDIA RELATIONS (3 credits)
This course focuses on the communication tools used in media relations, the nuances of working with reporters from press and various media, the application of communication theories in understanding the relationship between news organizations and media relations representatives for organizations and corporations. (Cross-listed with JMC 4260).
Prerequisite(s)/Corequisite(s): JMC 3230 and minimum cumulative GPA of 2.25

JMC 8316 MEDIA & POLITICS (3 credits)
An in-depth study of the impact of the media on political communication. This course will explore the symbiotic relationship of media and political communication, including the influence of traditional mass media, digital media, and social media on the political communication process. Students will delve into media theories and critically examine the influence of the media on the political communication process. (Cross-listed with JMC 4310).

JMC 8346 MEDIA REGULATION & FREEDOM (3 credits)
Media and Internet regulation and free expression as defined and interpreted through First Amendment rights, prior restraint and obscenity case law, advertising and public relations, broadcast and cable TV regulation and deregulation policy, new telecommunication media, and privacy. (Cross-listed with JMC 4340).
Prerequisite(s)/Corequisite(s): ENGL 1160

JMC 8376 COMMUNICATION WORKSHOP (3 credits)
A workshop to explore communication theory and processes and to develop skills in their application. (Cross-listed with JMC 4370).

JMC 8386 FILM THEORY AND CRITICISM (3 credits)
Study of major trends in film criticism and theory in Europe and America, with concentrated analysis of selected films. (Cross-listed with JMC 4380).
Prerequisite(s)/Corequisite(s): JMC 1050/THEA 1050, ENGL 1160, and Junior standing. Minimum overall GPA of 2.25

JMC 8396 MEDIA ENTREPRENEURSHIP (3 credits)
4390 Media Entrepreneurship (3) explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 4390).
Prerequisite(s)/Corequisite(s): Minimum cumulative GPA- 2.25; Junior standing, ENGL 1160 or equivalent, or instructor permission.

JMC 8406 MASS MEDIA ETHICS (3 credits)
The course examines ethical standards and practices of the media - print, electronic and online media, as well as advertising, public relations and entertainment media. It includes development of ethical decision-making skills. (Cross-listed with JMC 4400).

JMC 8416 COMMUNICATION LAW AND POLICY (3 credits)
Communication practitioners need to understand legal protections and constraints. This course explores legal concepts, frameworks and principles to understand constitutional, statutory, regulatory and case law and policies. The student must have a basic understanding of government, social studies and human rights principles. The First Amendment and international law provide a framework for exploring current cases and issues. (Cross-listed with JMC 4410).

JMC 8426 SPORTS WRITING (3 credits)
Students will learn all aspects of the specialized aspect of sports media communication. Areas covered will include writing, interviewing, storytelling, using multiple media platforms and the ethics of sports reporting. Various writing experiences across the media spectrum, from traditional media to the new forms of online journalism, will be addressed. (Cross-listed with JMC 4420)
Prerequisite(s)/Corequisite(s): JMC 2100 and JMC 2104; JMC 2200; JMC 2300; JMC 2370; and minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

JMC 8506 MASS COMMUNICATION AND PUBLIC OPINION (3 credits)
This class represents a study of the philosophy, process and effects of mass communication; the relationship between the mass media and public opinion and propaganda; and the nature, function and measurement of public opinion.. (Cross-listed with JMC 4500).

JMC 8816 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues about digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810, ENGL 8816, JMC 4810).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110

JMC 8826 POLICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with PSCI 4820, JMC 4820, PSCI 8826).

JMC 8836 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, ENGL 8836, JMC 4830).

JMC 8856 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgement necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, ENGL 8856, JMC 4850).

JMC 8876 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, ENGL 8876, JMC 4870).
Prerequisite(s)/Corequisite(s): ENGL 4830 or ENGL 3980, and ENGL 4850, or permission of instructor.
**JMC 8896 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)**

In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency of the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating. Complex technical documents for specific purpose and audience. (Cross-listed with ENGL 4890, ENGL 8896, JMC 4890.)

Prerequisite(s)/Corequisite(s): JMC 8816 and JMC 8836 and JMC 8856 and JMC 8876 highly recommended

---

**JMC 8906 SEMINAR MASS COMMUNICATION (3 credits)**

A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 4900)

---

**JMC 8916 SEMINAR MASS COMMUNICATION (3 credits)**

A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 4910)

---

**JMC 8926 MEDIA LITERACY (3 credits)**

An advanced seminar on the study of media and information literacy through deconstruction of mass communication content, meaning construction, framing analyses, and critical/cultural approaches. (Cross-listed with JMC 4920.)

Prerequisite(s)/Corequisite(s): Must be enrolled in the School of Communication program or receive permission of instructor.

---

**Latino/Latin American Studies (LLS)**

---

**LLS 8145 LATINO/-A POLITICS (3 credits)**

This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, LLS 3140, PSCI 3140.)

Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

---

**LLS 8286 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)**

Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying, and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. This course fulfills the department’s international politics requirement. (Cross-listed with LLS 4280, PSCI 4280, PSCI 8286)

Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

---

**LLS 8685 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)**

This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with LLS 3680, PSCI 3680, PSCI 8685)

Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

---

**LLS 8906 INDEPENDENT STUDY (1-3 credits)**

This course is designed for those students who are independently pursuing an area of Latino/Latin American Studies that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the LLS program. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.

Prerequisite(s)/Corequisite(s): Permission of LLS faculty member required.

---

**LLS 8916 CONTEMPORARY TOPICS IN LLS: SOCIAL SCIENCES (3 credits)**

This course is an interdisciplinary topical approach that explores various aspects of Latino/Latin American Studies. Selected topics will be suitable for examination from the perspective of the humanities (literature, art, dance, music, theatre, and philosophy topics). Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to nine credits if content differs. (Cross-listed with LLS 4910.)

Prerequisite(s)/Corequisite(s): A graduate student in good standing and instructor permission.

---

**LLS 8926 CONTEMPORARY TOPICS IN LLS: HUMANITIES (3 credits)**

This course is designed as an international study abroad course that will introduce undergraduate and graduate students to the dynamism of socio-cultural, economic and political changes taking place across Latin America. Note: International travel and special fees required. (Cross-listed with LLS 4950)

Prerequisite(s)/Corequisite(s): Senior standing or Junior standing with permission of the department. LLS 1000 or LLS 1010 or equivalent and departmental permission.

---

**Master of Fine Arts Writing (MFAW)**

---

**MFAW 8700 RESIDENCY SESSION (3 credits)**

A ten-day colloquium presenting lectures, classes, workshops, readings and individual conferences with seminar faculty. Taken 4 times, the Residency Session ends one seminar session and begins the next. The session affords students intensive contact with faculty and peers before returning to their writing projects.

Prerequisite(s)/Corequisite(s): Admission to MFA in Writing program. Permission of the Program Director. Not open to non-degree graduate students.

---

**MFAW 8710 GRADUATING RESIDENCY SESSION (0 credits)**

The Graduation Residency Session is the final residency for MFA students who have successfully completed their seminars and creative thesis. In the ten days of this residency, students will give a graduating lecture, “mentor” new students in their first residency, and give a reading from their thesis. A graduating ceremony will cap their activities during this session.

---

**MFAW 8720 ENRICHMENT RESIDENCY SESSION (2 credits)**

An eight-day creative writing symposium-style course presenting lectures, workshops, readings and individual conferences with faculty. The Enrichment Residency affords advanced writing students additional intensive contact with published and apprentice writers to reinforce and enrich their life-long commitment to the art of writing and to the continuing development of their craft.

Prerequisite(s)/Corequisite(s): MFA Program Director’s permission. Must have completed MFA/PhD with writing emphasis. Writers with MA in English and emphasis in writing, or writers with an extensive background in writing may also be considered. Not open to non-degree graduate students.
MFAW 8820 POETRY SEMINAR (6-12 credits)
An individualized course in poetry writing. Taken 4 times, the required seminar offers practical instruction in writing and criticism. Using distance technology, student and instructor work through individualized projects designed to sharpen the student's writing skills. Each student will compose both original poetry and critical analyses of poetry by other writers preparatory to submitting an original book-length manuscript of publishable quality by the final semester.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8830 FICTION SEMINAR (6-12 credits)
An individualized course in fiction writing. Taken four times, the seminar offers practical instruction in fiction writing and criticism. Using distance technology, student and instructor work through individualized writing projects designed to sharpen the student's writing skills to a professional edge. Students will compose both original fiction and critical analyses of fiction preparatory to submitting an original book-length manuscript of publishable quality by their final semester's work.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8840 NONFICTION SEMINAR (6-12 credits)
An individualized course in nonfiction writing. Taken 4 times, the seminar offers practical instruction in writing and criticism. Students will compose both original nonfiction and critical analyses of nonfiction.
Prerequisite(s)/Corequisite(s): Permission of Program Director. Not open to non-degree graduate students.

MFAW 8850 PLAYWRITING SEMINAR (6-12 credits)
An individualized seminar in playwriting. Taken 4 times, the seminar offers practical instruction in playwriting and criticism. Using distance technologies, student and instructor work through independent projects designed to sharpen the student's writing and staging skills. Each student will compose both original scripts and critical analyses of plays by other playwrights preparatory to submitting at minimum a full-length play script, a one-act play script, and a ten-minute play script by the final semester.
Prerequisite(s)/Corequisite(s): Acceptance into the MFA in Writing Program and permission of the MFA program director. Not open to non-degree graduate students.

MFAW 8870 ENRICHMENT SEMINAR IN WRITING (6 credits)
An advanced writing semester for those who want assistance launching a new writing project; or have a degree in one genre and want to pursue study of another, in poetry, fiction and young adult fiction, creative nonfiction or playwriting; or would like to spend a semester of intense practical study in a radical departure from one's prior literary aesthetic. An advanced writing semester for those who want assistance launching a new writing project; or have a degree in one genre and want to pursue study of another, in poetry, fiction and young adult fiction, creative nonfiction or playwriting; or would like to spend a semester of intense practical study in a radical departure from one's prior literary aesthetic. An advanced writing semester for those who want assistance launching a new writing project; or have a degree in one genre and want to pursue study of another, in poetry, fiction and young adult fiction, creative nonfiction or playwriting; or would like to spend a semester of intense practical study in a radical departure from one's prior literary aesthetic.
Prerequisite(s)/Corequisite(s): Acceptance into the MFA in Writing Program and permission, U of NE MFA-Writing or MFA/PhD w/ writing emphasis at other coll/univ. Writers w/ MA-English & emphasis-writing or writers w/ extnsv bkgrd in writing may also be considered. Not open to non-degree graduate students.

Mathematics (MATH)

MATH 8016 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice’s Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post’s theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with CSCI 4010, CSCI 8016, MATH 4010).
Prerequisite(s)/Corequisite(s): MATH 2230 or CSCI 3660 or instructor’s permission.

MATH 8036 MODERN ALGEBRA (3 credits)
Algebra is the study of mathematical manipulations that preserve something (like equality - when solving equations). The areas in which Algebra finds application are quite diverse, from Ancient Greek Geometry through to Modern Information Protection and Security (error correcting codes, data compression, and cryptography). This course begins with topics that should be familiar (such as ruler-and-compass constructions, and modular arithmetic) and builds upon this foundation through polynomial rings up to finite fields and basic group theory. (Cross-listed with MATH 4030).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better.

MATH 8050 ALGORITHMIC GRAPH THEORY (3 credits)
Review of the basic concepts of graphy theory. Introduction to perfect graphs and their characterizations. Main classes of perfect graphs and their properties. Algorithms for main problems of perfect graphs. Applications of perfect graphs in several fields such as scheduling, VLSI and communication networks. (Cross-listed with CSCI 8050).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 and MATH 4150 or MATH 8156 or permission of instructor. Not open to non-degree graduate students.

MATH 8056 LINEAR ALGEBRA (3 credits)
The theory of vectors, vectorspaces, inner product spaces, linear transformations, eigenvalues, canonical forms, complex vectors and matrices and orthogonality. Unlike MATH 2050, this course emphasizes the theoretical aspects of linear algebra. (Cross-listed with MATH 4050).
Prerequisite(s)/Corequisite(s): MATH 2050; MATH 2030 or MATH 2230 or equivalent; or permission.

MATH 8060 ALGORITHMIC COMBINATORICS (3 credits)
This course includes classical combinatorial analysis graph theory, trees, network flow, matching theory, external problems, and block designs. (Cross-listed with CSCI 8060).
Prerequisite(s)/Corequisite(s): MATH 3100, CSCI 3100, MATH 8105 or CSCI 8105 or instructor’s permission.

MATH 8080 DESIGN AND ANALYSIS OF ALGORITHMS (3 credits)
The study of algorithms important in computer programming. Principles and underlying concepts of algorithm design, fundamental techniques of algorithm analysis, typical types of algorithms. Related topics such as algorithms and computer architecture. (Cross-listed with CSCI 8080).
Prerequisite(s)/Corequisite(s): CSCI 3320 or CSCI 8325 or equivalent. Not open to non-degree graduate students.

MATH 8105 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya’s formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with CSCI 3100, CSCI 8105, MATH 3100).
Prerequisite(s)/Corequisite(s): MATH 2030 with a C- or better or MATH 2040 with a C- or better or MATH 2230 with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

Materials Engineering (MATL)

MATL 8616 MATERIALS LABORATORY II (3 credits)
Application of scientific principles in the laboratory to the analysis of materials problems and selection of engineering materials. (Cross-listed with MATL 4610)
Prerequisite(s)/Corequisite(s): MATL 3600. Not open to non-degree graduate students.

MATL 8656 APPLIED PHYSICAL METALLURGY AND DESIGN (3 credits)
Principles of alloying; alloy selection; modification of the physical properties of structural alloys by thermal, mechanical, and chemical treatment; solidification and joining phenomena. (Cross-listed with MATL 4650)
Prerequisite(s)/Corequisite(s): MATL 3600. Not open to non-degree graduate students.
MATH 8116 ABSTRACT ALGEBRA I (3 credits)
An introduction to group theory. Various classes of group are studied: symmetric groups, abelian, cyclic, and permutation groups. Basic tools are developed and used: subgroups, normal subgroups, cosets, the Lagrange theorem, group homomorphisms, quotient groups, direct products, and group actions on a set. The course culminates with the Sylow theorems in finite group theory. The theory is illustrated with examples from geometry, linear algebra, number theory, crystallography, and combinatorics. (Cross-listed with MATH 4110).
Prerequisite(s)/Corequisite(s): MATH 4050/MATH 8056 with a C- or better or MATH 4560/MATH 8566 with a C- or better or permission of instructor

MATH 8126 ABSTRACT ALGEBRA II (3 credits)
An introduction to ring and field theory. Various classes of commutative rings are considered including polynomial rings, and the Gaussian integers. Examples of fields include finite fields and various extensions of the rational numbers. Concepts such as that of an ideal, integral domain, characteristic and extension field are studied. The course culminates with an introduction to Galois theory. Applications include the resolution of two classical problems: the impossibility of angle-trisection and the general insolvability of polynomial equations of degree 5 or higher. (Cross-listed with MATH 4120)
Prerequisite(s)/Corequisite(s): MATH 4110/MATH 8116 with a C- or better or permission of instructor

MATH 8156 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 4150, CSCI 8156, MATH 4150).
Prerequisite(s)/Corequisite(s): MATH 2030 or permission of instructor

MATH 8235 INTRODUCTION TO ANALYSIS (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include the real number system, topology of the real line, limits, functions of one variable, continuity, differentiation, integration. (Cross-listed with MATH 3230).
Prerequisite(s)/Corequisite(s): MATH 1970, and MATH 2030 or MATH 2230 or equivalent.

MATH 8236 MATHEMATICAL ANALYSIS I (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include ordered fields and the real number system, basic properties of complex numbers, metric space topology, sequences and series in Rk, limits and continuity in a metric space, monotonic functions. (Cross-listed with MATH 4230).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or equivalent

MATH 8246 MATHEMATICAL ANALYSIS II (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include differentiation and Riemann-Stieltjes Integration, sequences and series of functions, uniform convergence, power series, functions of several variables, Implicit Function Theorem. (Cross-listed with MATH 4240).
Prerequisite(s)/Corequisite(s): MATH 4230/MATH 8236

MATH 8250 PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
Partial differential equations (PDEs) are fundamental in the application of mathematics to science and engineering. Topics to be covered will include: Linear and nonlinear first-order equations, classification of second-order linear equations, elliptic, hyperbolic and parabolic equations and boundary value problems, and Green’s functions.
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or instructor’s permission. MATH 4330/MATH 8336 is recommended, but not required.

MATH 8276 COMPLEX VARIABLES (3 credits)
Differentiation, integration and power series expansions of analytic functions, conformal mapping, residue calculus, and applications. (Cross-listed with MATH 4270).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or equivalent

MATH 8305 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with CSCI 3300, CSCI 8305, MATH 3300).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor

MATH 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, CSCI 8306, MATH 4300).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor.

MATH 8316 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations, research models and algorithms. Topics include Markov chains, queuing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, CSCI 8316, MATH 4310).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

MATH 8326 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)
Survey of computational methods used in the solution of operations research problems. Topics include scripting to guide optimization software, metaheuristics for optimization, and basic machine learning algorithms. (Cross-listed with MATH 4320).
Prerequisite(s)/Corequisite(s): MATH 3200 and MATH 4300 each with a grade of C- or better or permission of instructor.

MATH 8336 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
This course introduces the basic methods of PDEs guided by applications in physics and engineering. The main topics to be covered include The Linear First order PDEs, Transport equations, Characteristics, Classification of PDEs, Separation of variables, Heat conduction, vibrating membranes, boundary value problems, Maximum principle, Sturm-Liouville problems, Fourier series, Fourier integrals, Harmonic functions, Legendre polynomials, Distributions, Green’s functions. (Cross-listed with MATH 4330).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better, or permission of instructor; MATH 2050 recommended, not required.

MATH 8356 ORDINARY DIFFERENTIAL EQUATIONS (3 credits)
Ordinary Differential Equations develops the theory of initial-, boundary-, and eigenvalue problems, existence theorems, real and complex linear systems of differential equations, and stability theory. There will be a strong emphasis on methods for finding solutions of initial and boundary value problems and analyzing properties of these solutions for various differential equations. (Cross-listed with MATH 4350).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better and MATH 2350 with a C- or better or instructor’s permission. It is recommended, but not required, that students take MATH 3230, which would require a C- or better.

MATH 8370 FUZZY SET THEORY AND ITS APPLICATIONS (3 credits)
The course is focused on the fundamental theory of fuzzy sets and its applications to data mining and decision making.
Prerequisite(s)/Corequisite(s): MATH 2030, MATH 2230, MATH 3230/MATH 8235, or permission of instructor.

MATH 8400 DYNAMICAL SYSTEMS AND CHAOS (3 credits)
Review of difference equations and differential equations, stability theory, periodic orbits, lyapunov exponents, fractals, chaos, state reconstruction from time series data.
Prerequisite(s)/Corequisite(s): Permission from Instructor
MATH 8406 FINITE ELEMENT METHODS FOR SOLVING ORDINARY AND PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or instructor's permission. MATH 3300/MATH 8305 and MATH 4330/MATH8336 are recommended, but not required. Familiarity with MATLAB programming is assumed.

MATH 8410 TOPICS IN DESCRIPTIVE DYNAMICAL NETWORKS: BOOLEAN NETWORKS (3 credits)
This course is focused on introduction to discrete dynamical networks, in particular logical networks, and their applications.
Prerequisite(s)/Corequisite(s): MATH 1960 (Calculus II), MATH 2230 (proof writing skills), MATH 4740 or equivalent (basic probability theory), basic computer skills, or permission of the instructor.

MATH 8430 LINEAR PROGRAMMING (3 credits)
This course includes a complete development of theoretical and computational aspects of linear programming. Basic theoretical foundations covered include polyhedra, convexity, linear inequalities and duality. Advanced topics such as decomposition and column generation are covered. Both simplex methods and interior point methods are included.
Prerequisite(s)/Corequisite(s): MATH 4300/MATH 8306

MATH 8440 NETWORK PROGRAMMING (3 credits)
A presentation of network flow models and optimization algorithms. Topics include pure, generalized, integer, and constrained network problems, plus special cases of each, including transportation, assignment, shortest-path, transshipment, and multimodality.
Prerequisite(s)/Corequisite(s): MATH 4300/MATH 8306

MATH 8450 CALCULUS OF VARIATIONS (3 credits)
Functionals, the Euler-Lagrange Equation, the Brachistochrone, minimum surface of revolution, isoperimetric problem, Fermat's Principle, Hamilton's Principle, least action, the vibrating string and membrane, max-min characterization of eigenvalues, further applications.
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 and MATH 3350/MATH 8355.

MATH 8460 INTEGER PROGRAMMING (3 credits)
Advanced study in mathematical programming with integer or mixed integer variables. Topics include integer programming, model creation, developing solution algorithms, and applications of integer programming.
Prerequisite(s)/Corequisite(s): MATH 2030 or MATH 2230. Not open to non-degree graduate students.

MATH 8480 MULTI-AGENT SYSTEMS AND GAME THEORY (3 credits)
This course covers advanced topics in the area of coordination of distributed agent-based systems with a focus on computational aspects of game theory. The main topics covered in this course include distributed constraint satisfaction, distributed constraint optimization, and competitive and cooperative game theory. (Cross-listed with CSCI 8480).
Prerequisite(s)/Corequisite(s): CSCI 4450 or CSCI 8456. Suggested background courses: CSCI 4480 or CSCI 8486; CSCI 8080. Not open to non-degree graduate students.

MATH 8490 APPLIED COMPLEX VARIABLES (3 credits)
Applications of complex variables to potential theory, Fourier and Laplace transforms, ordinary and partial differential equations, number theory, chaotic dynamical systems, etc.
Prerequisite(s)/Corequisite(s): MATH 4270/MATH 8276

MATH 8500 NUMERICAL ANALYSIS I (3 credits)
Topics covered in this course include error propagation, solutions of nonlinear equations, solutions of linear and nonlinear systems by various schemes, matrix norms and conditioning, and computation of eigenvalues and eigenvectors. (Cross-listed with CSCI 8500).
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2050, or permission of instructor. Familiarity with computer programming is assumed.

MATH 8505 SELECTED TOPICS IN MATHEMATICS (1-6 credits)
This is a variable content course with selected topics in the mathematical sciences which may be of interest to students in other disciplines such as mathematics education, psychology and business. The course may be taken more than once for credit provided topics differ, with a maximum credit of nine hours. Mathematics majors may apply no more than three hours of MATH 3500 toward the minimum major requirements. MATH 8505 does not apply to M.A. or M.S. in mathematics. (Cross-listed with MATH 3500).
Prerequisite(s)/Corequisite(s): Permission of instructor

MATH 8510 NUMERICAL ANALYSIS II (3 credits)
Topics covered in this course include interpolation and approximations, numerical differentiation, numerical integration, and numerical solutions of ordinary and partial differential equations. (Cross-listed with CSCI 8510)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2350, or permission of instructor. Familiarity with computer programming is assumed.

MATH 8520 ADVANCED TOPICS IN OPERATIONS RESEARCH (3 credits)
Advanced treatment of a specific topic in the area of operations research not available in the regular curriculum. Topics, developed by individual faculty members, will reflect their special interests and expertise. The course may be repeated for credit as topics differ. (Cross-listed with CSCI 8520).
Prerequisite(s)/Corequisite(s): MATH 4300 or MATH 8306 or CSCI 4300 or CSCI 8306 or permission of the instructor.

MATH 8530 NONLINEAR OPTIMIZATION WITH NONLINEAR INTEGRALS (3 credits)
The course is focused on using a new mathematical aggregation tool, the nonlinear integral, in nonlinear optimizations and on its applications in information fusion and data mining, where a soft computing technique (genetic algorithms and/or neural networks) is adopted to search numerical optimal solutions approximately.
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 4740. Preferred MATH 4300 and CIST 1400 or equivalent.

MATH 8566 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 4560, CSCI 8566, MATH 4560).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor

MATH 8586 TENSOR ANALYSIS (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2050, MATH 2350
MATH 8606 DIFFERENTIAL GEOMETRY (3 credits)
Curvature, torsion, Frenet frames, Fundamental theorem of curve theory, Frenchel's theorem, tangent spaces, first and second fundamental forms, shape operator, Fundamental theorem of surfaces theory, covariant derivative, parallel transport, geodesics. (Cross-listed with MATH 4600).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better. MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or permission of instructor.

MATH 8616 ELEMENTARY TOPOLOGY (3 credits)
This course covers topological spaces, connectedness, compactness, homotopy of paths, covering spaces, and fundamental groups. (Cross-listed with MATH 4610).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better and MATH 3230 with a C- or better or permission of instructor.

MATH 8620 GENERAL TOPOLOGY (3 credits)
The concepts of MATH 4610/MATH 8616 are studied at an advanced level in conjunction with ordinal and cardinal numbers, open and closed maps, separation axioms and countable compactness.
Prerequisite(s)/Corequisite(s): MATH 4610/MATH 8616

MATH 8645 MODERN GEOMETRY (3 credits)
Axiomatic systems, finite geometries, modern foundations of Euclidean geometry, hyperbolic and other non-Euclidean geometries, projective geometry. (Cross-listed with MATH 3640).
Prerequisite(s)/Corequisite(s): MATH 2230 or MATH 2030, or equivalent mathematical maturity.

MATH 8650 INTRODUCTION TO PROBABILITY MODELS (3 credits)
This is an introduction to probability modeling including Poisson Processes, Markov chains, birth-death processes, queuing models and renewal theory. Applications will be an important part of the course.
Prerequisite(s)/Corequisite(s): MATH 4740/MATH 8746, MATH 4760/MATH 8766/CSCI 4760/CSCI 8766, STAT 3800/STAT 8805, or permission of instructor.

MATH 8656 TRANSFORM METHODS & APPLICATIONS (3 credits)
Laplace transform and the inversion integral. Fourier transform. Other transforms and special techniques. Applications to differential equations, boundary value problems of mathematical physics, and signal analysis. (Cross-listed with MATH 4650).
Prerequisite(s)/Corequisite(s): MATH 3350/MATH 8355 and MATH 4270/MATH 8276

MATH 8666 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, CSCI 8666, MATH 4660).
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/CSCI 8325.

MATH 8670 TOPICS IN PROBABILITY AND STATISTICS (3 credits)
A variable topics course in probability and or statistics. Topics covered will include one or more of the following: reliability theory and applications in engineering and science, advanced probability and statistical models, theory of parametric estimation and applications, and advanced probability theory and application.
Prerequisite(s)/Corequisite(s): MATH 4740/MATH 8740 or STAT 3800/STAT 8800 or permission from instructor.

MATH 8746 INTRODUCTION TO PROBABILITY AND STATISTICS I (3 credits)
A mathematical introduction to probability theory including the properties of probability; probability distributions; expected values and moments; specific discrete and continuous distributions; and transformations of random variables. (Cross-listed with MATH 4740).
Prerequisite(s)/Corequisite(s): MATH 1970 and MATH 2030 or MATH 2230

MATH 8756 INTRODUCTION TO PROBABILITY AND STATISTICS II (3 credits)
Theory and methods of statistical inference including estimators, statistical hypotheses, multivariate estimation, chi-square tests, analysis of variance, and statistical software. (Cross-listed with MATH 4750).
Prerequisite(s)/Corequisite(s): MATH 4740/MATH 8746

MATH 8766 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with CSCI 4760, CSCI 8766, MATH 4760).
Prerequisite(s)/Corequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

MATH 8850 ADVANCED AUTOMATA AND FORMAL LANGUAGES (3 credits)
A continuation of MATH 4660/MATH 8666/CSCI 4660/CSCI 8666. The course will be an introduction to computational complexity. Topics that will be covered include space and time complexities of Turing Machines, deterministic versus non-deterministic machines, NP-Complete problems, alternating Turing machines, and concepts of reducibility. (Cross-listed with CSCI 8850).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

MATH 8855 HISTORY OF MATHEMATICS (3 credits)
An overview of the historical development of mathematical concepts and methods. Brief biographies of major mathematicians, descriptions of the cultural context of selected major advances, and examples of the solution of problems using the knowledge and methods appropriate for each time period will be included. (Cross-listed with MATH 3850).
Prerequisite(s)/Corequisite(s): Students who enroll in this course should have completed MATH 1970 and MATH 2230 in order to have the minimum amount of mathematical background needed to appreciate the mathematical content of the course.

MATH 8880 ADVANCED PLACEMENT INSTITUTE: CALCULUS (3 credits)
A workshop for teachers planning to offer an advanced placement course in calculus. Objectives include increasing teacher competencies in single-variable calculus, discussion and study of AP calculus exams, implementations of AP courses in calculus, and development and presentation of projects for graduate credit. (This course will not count toward the M.A. or M.S. degrees in Mathematics.)
Prerequisite(s)/Corequisite(s): Graduate in mathematics or mathematics education.

MATH 8960 MASTER'S PROJECT (1-6 credits)
An applied project, designed and executed under the supervision of both a faculty and industry advisor. In the project the student will apply their mathematical and/or statistical skills to an applied problem. The student will present their results via a written report and oral presentation. (Cross-listed with STAT 8960).
Prerequisite(s)/Corequisite(s): Permission of faculty advisor and graduate program chair. Not open to non-degree graduate students.
MATH 8970 INDEPENDENT GRADUATE STUDIES (1-3 credits)
Under this number a graduate student may pursue studies in an area that is not normally available to him/her in a formal course. The topics studied will be a graduate area in mathematics to be determined by the instructor.
Prerequisite(s)/Corequisite(s): Permission of instructor and graduate classification.

MATH 8980 GRADUATE SEMINAR (1-3 credits)
A graduate seminar in mathematics.

MATH 8990 THESIS (1-6 credits)
Master’s Thesis.

MATH 9110 ADVANCED TOPICS IN APPLIED MATHEMATICS (3 credits)
This course focuses on the current state-of-the-art technology that is either designed for or is uniquely suitable for teaching mathematics. (Cross-listed with MENG 4380)
Prerequisite(s)/Corequisite(s): STAT 8015 and TED 8010.

MTCH 8010 STATISTICAL RESEARCH FOR MATHEMATICS TEACHERS (3 credits)
This course is designed for graduate students in the MAT program who select the statistics option to complete their degree. The student will do a literature review, design a study involving mathematics education, gather and analyze the data, and prepare a manuscript for submission to a refereed journal. (The course will not count toward a major in the MA or MS program.) To prepare for the course, interested students should contact the instructor of the course several months before (8 is the norm) to have time to do the groundwork for the study.
Prerequisite(s)/Corequisite(s): STAT 8015 and TED 8010.

MTCH 8020 TOPICS IN GEOMETRY AND TOPOLOGY (3 credits)
Symmetry, Platonic solids, Symmetry groups including finite Dihedral groups the Euclidean group and lattice point groups, graph theory, topology of the plane, Euler Characteristic and classification of closed surfaces. Connections to the high school classroom will be explored.
Prerequisite(s)/Corequisite(s): Secondary teacher certification or working toward it, or permission of instructor.

MTCH 8030 PROBLEM SOLVING WITH NUMBER SENSE & GEOMETRY FOR TEACHERS (3 credits)
Rigorous mathematical thought in games and puzzles, advanced number sense, the notion of infinity, and novel interpretations and geometric properties
Prerequisite(s)/Corequisite(s): Admission to the Graduate Program

MTCH 8040 TOPICS IN MATHEMATICAL COMPUTING (3 credits)
This course focuses on the current state-of-the-art technology that is either designed for or is uniquely suitable for teaching mathematics. (Cross-listed with STEM 8040)
Prerequisite(s)/Corequisite(s): MATH 2200 or equivalent or approval of instructor.

MTCH 8100 NUMBERS AND OPERATIONS I (3 credits)
This course is designed to give elementary teachers a fundamental and conceptual understanding of numbers and operations used in the elementary mathematics curriculum. The course also offers a foundation for developing “habits of mind of a mathematical thinker” as they are related to reasoning, writing mathematical ideas, and problem solving.
Prerequisite(s)/Corequisite(s): Be a current or former elementary teacher or have a state certification to teach elementary.

MTCH 8120 GEOMETRY AND ALGEBRA FOR ELEMENTARY TEACHERS (3 credits)
This course is designed to give elementary teachers a fundamental and conceptual understanding of geometry and algebra used in the elementary mathematics curriculum. The course also offers a foundation for developing “habits of mind of a mathematical thinker” as they are related to reasoning, writing mathematical ideas, and problem solving.
Prerequisite(s)/Corequisite(s): B- or higher in MTCH 8100

MTCH 8806 MATHEMATICS EDUCATION CAPSTONE (3 credits)
This capstone course for preservice and inservice teachers is intended to help connect the undergraduate mathematics curriculum to the secondary mathematics curriculum. Course topics include functions, equations, algebraic structures, congruence, trigonometry, and calculus. Topics are explored via strategies useful for studying mathematics called concept analysis and problem analysis. (Cross-listed with MTCH 4800).
Prerequisite(s)/Corequisite(s): MATH 4030 with a C or better or MATH 3640 with a C or better.

Mechanical Engineering (MENG)

MENG 8066 AIR CONDITIONING SYSTEM DESIGN (3 credits)
Application of thermodynamic principles to the design of air conditioning systems. A comprehensive design project will be an integral part of the course. (Cross-listed with MENG4060)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 8076 POWER PLANT SYSTEM DESIGN (3 credits)
Application of the thermodynamic and fluid dynamic principles to the design of power plants. A comprehensive design project will be an integral part of the course. (Cross-listed with MENG4070)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 8086 HEAT EXCHANGER DESIGN (3 credits)
Design methodology for various heat exchangers employed in mechanical engineering. Introduction to computer-aided design as applied to heat exchangers. Hands-on exercises in actual design tasks. (Cross-listed with MENG4080)
Prerequisite(s)/Corequisite(s): MENG3000

MENG 8206 HEAT TRANSFER (3 credits)
Heat Transfer by conduction, convection, and radiation. Correlation of theory with experimental data and engineering design. (Cross-listed with MENG4200)
Prerequisite(s)/Corequisite(s): (CIVE310 or MENG3100), not open to nondegree students

MENG 8226 INDUSTRIAL QUALITY CONTROL (3 credits)
Statistical process control and quality assurance techniques in manufacturing. Control charts, acceptance sampling, and analyses and design of quality control systems. (Cross-listed with MENG 4220)
Prerequisite(s)/Corequisite(s): MENG 3210 or STAT 3800

MENG 8386 MECHANICS OF BIOMATERIALS (3 credits)
Theory, application, simulation, and design of biomaterials that apply mechanical principles for solving medical problems (case studies in artery, brain, bone, etc.). Tentative topics include Mechanical characterization of biomaterials; Bio-manufacturing a tissue; Function-structure relationship; Design and analysis of medical implants; Active response of biomaterials; growth and remodeling mechanism; Cellular behavior and measurements, etc. (Cross-listed with MENG 4380)
Prerequisite(s)/Corequisite(s): MENG 3430. Not open to non-degree graduate students.
MENG 8456 MECHANICAL ENGINEERING DESIGN CONCEPTS (3 credits)
Development of design concepts. Introduction to synthesis techniques and mathematical analysis methods. Application of these techniques to mechanical engineering design projects. (Cross-listed with MENG 4450)
Prerequisite(s)/Corequisite(s): MENG 2000, MENG 3420, MENG 3500, and MENG 3100 or CIVE 310. Not open to non-degree graduate students.

MENG 8476 MECHANICAL ENGINEERING DSGN II (2 credits)
Definition, scope, analysis, synthesis, and the design for the solution of a comprehensive engineering problem in any major area of mechanical engineering. (Cross-listed with MENG 4470)
Prerequisite(s)/Corequisite(s): MENG 4460, not open to non-degree students.

MENG 8486 ADVANCED MECHANICS OF MATERIALS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC3250; and MENG 3730 or EMEC3730.

MENG 8496 ADVANCED DYNAMICS (3 credits)
Particle dynamics using Newton’s laws, energy principles, momentum principles. Rigid body dynamics using Euler’s equations and Lagrange’s equations. Variable mass systems. Gyroscopic motion. (Cross-listed with MENG 4470)
Prerequisite(s)/Corequisite(s): MENG 3730 or EMEC 3730; and MATH 2350. Not open to non-degree graduate students.

MENG 8506 MECHANICAL ENGINEERING CONTROL SYSTEMS DESIGN (3 credits)
Applications of control systems analysis and synthesis for mechanical engineering equipment. Control systems for pneumatic, hydraulic, kinematic, electromechanical, and thermal systems. (Cross-listed with MENG 4500)
Prerequisite(s)/Corequisite(s): MENG 3500. Not open to non-degree graduate students.

MENG 8510 INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 3250 and MENG 8806 or permission

MENG 8526 EXPERIMENTAL STRESS ANALYSIS I (3 credits)
Investigation of the basic theories and techniques associated with the analysis of stress using mechanical strain gages, electric strain gages, brittle lacquer, photoelasticity and membrane analogy. (Cross-listed with MENG 4520)
Prerequisite(s)/Corequisite(s): MENG 3250 or EMEC 3250.

MENG 8546 INTRODUCTION TO CONTINUUM MODELING (3 credits)
Basic concepts of continuum modeling. Development of models and solutions to various mechanical, thermal and electrical systems. Thermomechanical and electro-mechanical coupling effects. Differential equations, dimensional methods and similarity. (Cross-listed with MENG 4540)
Prerequisite(s)/Corequisite(s): MATH 2350; MENG 3250 or EMEC 3250; MENG 3730 or EMEC 3730. Not open to non-degree graduate students.

MENG 8556 VEHICLE DYNAMICS (3 credits)
Introduction to basic mechanics governing automotive vehicle dynamic acceleration, braking, ride, handling and stability. Analytical methods, including computer simulation, in vehicle dynamics. The different components and subsystems of a vehicle that influence vehicle dynamic performance. (Cross-listed with MENG 4550)
Prerequisite(s)/Corequisite(s): MENG 3430, MENG 3500. Not open to non-degree graduate students.

MENG 8586 DIGITAL CONTROL OF MECHANICAL SYSTEMS (3 credits)
Introduction to digital measurement and control of mechanical systems. Applications of analysis and synthesis of discrete time systems. (Cross-listed with MENG 4580)
Prerequisite(s)/Corequisite(s): MENG 4500. Not open to non-degree graduate students.

MENG 8706 THEORY AND PRACTICE OF MATERIALS PROCESSING (3 credits)
Theory, practice and application of conventional machining, forming, and non-traditional machining processes with emphasis on tool life, dynamics of machine tools and adaptive control. (Cross-listed with MENG 4700)

MENG 8746 MANUFACTURING SYSTEMS I (3 credits)
Principles of automated production lines; analysis of transfer lines; group technology; flexible manufacturing systems; and just-in-time; and optimization strategies for discrete parts manufacturing. (Cross-listed with MENG 4740)

MENG 8750 VIBRATION THEORY AND APPLICATIONS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 3730; and MATH 3350 or MATH 8355

MENG 8766 MANUFACTURING INFORMATION SYSTEMS (3 credits)
An exploration of information systems and their impact in a manufacturing environment. Software, hardware, database systems, enterprise resource planning, networking, and the internet. (Cross-listed with MENG 4760)
Prerequisite(s)/Corequisite(s): Senior standing, and CIST 1400 or CSCI 1620 or CSCI 2240.

MENG 8806 NUMERICAL METHODS IN ENGINEERING (3 credits)
Numerical algorithms and their convergence properties in: solving nonlinear equations; direct and iterative schemes for linear systems of equations; eigenvalue problems; polynomial and spline interpolation; curve fitting; numerical integration and differentiation; initial and boundary value problems for Ordinary Differential Equations (ODE’s) and systems of ODE’s with applications to engineering; finite difference methods for partial differential equations (potential problems, heat-equation, wave-equation).
(Cross-listed with MENG 4800)
Prerequisite(s)/Corequisite(s): MATH2350 or MATH8355

MENG 8836 ENGINEERING ANALYSIS WITH FINITE ELEMENTS (3 credits)
Analysis of engineering systems using finite elements; a critical and challenging task performed during the design process for many engineering systems. Four very distinct domains are studied: Structural stress analysis, heat transfer, fluid flow, and modal analysis. (Cross-listed with MENG 4830)
Prerequisite(s)/Corequisite(s): MENG 3100, MENG 3430, MENG 3500; Pre/Coreq: MENG4200. Not open to non-degree graduate students.

MENG 8916 SPECIAL TOPICS IN ENGINEERING MECHANICS (1-6 credits)
Treatment of special topics in engineering mechanics by experimental, computational and/or theoretical methods. Topics will vary from term to term. (Cross-listed with MENG 4910)

MENG 8986 LABORATORY AND ANALYTICAL INVESTIGATIONS (0-6 credits)
Investigation and written report of research into specific problem in any major area of mechanical engineering (Cross-listed with MENG 4980)

MENG 9100 FUNDAMENTALS IN FINITE ELEMENTS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 8486, MENG 8806, or CIVE 851
MENG 9210 QUALITY ENGINEERING: USE OF EXPER DESIGN & TECHNIQUES (3 credits)
Extension of industrial quality control methods and techniques. Off-line and on-line quality control methods. Development of quality at the design stage through planned experiments and analyses. Experimental design methods will include factorial, 2k, 3k, and fractional factorials designs. The course will include an applied project in design of quality.

MENG 9250 MANUFACTURING AND DYNAMIC SYSTEMS MODELING (3 credits)
Prerequisite(s)/Corequisite(s): MATH 8356.

MENG 9300 MECHANICS OF COMPOSITE MATERIALS (3 credits)
Prerequisite(s)/Corequisite(s): MENG 4480 or MENG 8486

MENG 9330 THEORY OF ELASTICITY I (3 credits)
Prerequisite(s)/Corequisite(s): MENG 4480 or MENG 8486, MATH 2350.

MENG 9370 THEORY OF PLATES AND SHELLS (3 credits)
Basic equations for the bending and stretching of thin plates with small deformations. General theory of deformation of thin shells with small deflections. Large deformations theories of plates and shells. Effect of edge conditions.
Prerequisite(s)/Corequisite(s): MENG 8486, MATH 8336

MENG 9420 THEORY OF PLASTICITY (3 credits)
Prerequisite(s)/Corequisite(s): MENG 9330

MENG 9700 ADVANCED MANUFACTURING PROCESSING (3 credits)
Theory, practice and technology of advanced manufacturing processes, with emphasis on process mechanism, surface integrity, tool and machine design, adaptive control and expert systems.
Prerequisite(s)/Corequisite(s): Permission.

Music (MUS)

MUS 815A BASSOON (1-3 credits)
This course, applied cello, is intended for private study of the double bass at the university graduate level.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring cello as their major instrument.

MUS 815B CELLO (1-3 credits)
This course, applied cello, is intended for private study of the double bass at the university graduate level.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring cello as their major instrument.

MUS 815C APPLIED CLARINET (1-3 credits)
This course consists of advanced private study in applied clarinet. This course is intended for Master of Music candidates.
Prerequisite(s)/Corequisite(s): Permission and audition consisting of excerpts of advanced etudes or solos such as Rose, Cavallini, von Weber, Brahms, Poulenc, Debussy, Hindemith, Copland or Stravinsky.

MUS 815D DOUBLE BASS (1-3 credits)
This course, applied bass, is intended for private study of the double bass at the university graduate level.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring bass as their major instrument.

MUS 815E EUPHONIUM (1-3 credits)

MUS 815F APPLIED FLUTE (1-3 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors), two credit hours (music education majors), or three credit hours (music performance majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty, or successful completion of at least 1 credit of MUS 815F. Students enrolled in this course must also enroll in an instrumental ensemble.

MUS 815G FRENCH HORN (1-3 credits)

MUS 815H GUITAR (1-3 credits)
The primary goal of the guitar student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring guitar as their major instrument.

MUS 815I HARP (1-3 credits)
The primary goal of the harp student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring harp as their major instrument.

MUS 815J OBOE (1-3 credits)

MUS 815K PERCUSSION (1-3 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Admission into the graduate college. Not open to non-degree graduate students.

MUS 815L PIANO (1-3 credits)

MUS 815M PIPE ORGAN (1-3 credits)

MUS 815N SAXOPHONE (1-3 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors), two credit hours (music education majors), or three credit hours (music performance majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s)/Corequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty, or successful completion of at least 1 credit of 815N. Students enrolled in this course must also enroll in an instrumental ensemble.

MUS 815O APPLIED TROMBONE (1-3 credits)

MUS 815P APPLIED TRUMPET (1-3 credits)

MUS 815Q APPLIED TUBA (1-3 credits)

MUS 815R APPLIED VIOLIN (1-3 credits)

MUS 815S APPLIED VIOLONCELLO (1-3 credits)

MUS 815T APPLIED VOICE (1-3 credits)

A lab fee is required.
MUS 815P TRUMPET (1-3 credits)
MUS 815Q TUBA (1-3 credits)
MUS 815R VIOLA (1-3 credits)
This course, applied viola, is intended for private study of the double bass at the university graduate level.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring viola as their major instrument.

MUS 815S VIOLIN (1-3 credits)
This course, applied violin, is intended for private study of the double bass at the university graduate level.
Prerequisite(s)/Corequisite(s): An audition is required of all students registering for three hours of study and declaring violin as their major instrument.

MUS 815T VOICE (1-3 credits)
MUS 815Z BARITONE HORN (1-3 credits)
MUS 8006 SPECIAL STUDIES IN MUSIC (1-3 credits)
Seminars or workshops in Theory, History, Performance, and Music Education designed to meet specific interests and needs of students. Topics and number of credits for each specific offering will be announced during the prior semester. (Cross-listed with MUS 4000).
Prerequisite(s)/Corequisite(s): Graduate and permission of department.

MUS 8160 PERFORMING ENSEMBLES (0-1 credits)
This course is designed to provide high quality performance experience for the graduate level string, voice and instrumental students. In addition to the series concerts on campus, there are frequent appearances at professional music conferences and community/statewide events. Students will be exposed to a wide variety of music from appropriate style periods.
Prerequisite(s)/Corequisite(s): Graduate standing, audition. Not open to non-degree graduate students.

MUS 8406 ADVANCED COMPOSITION (3 credits)
Individualized applied study of the craft of musical composition in larger media and various styles.

MUS 8446 MUSIC SINCE 1945 (3 credits)
This course covers important developments in music in the United States and Europe since 1945. The purpose of the course is to familiarize students with the issues, techniques, composers and literature found in this period. (Cross-listed with MUS 4440).
Prerequisite(s)/Corequisite(s): Graduate standing or permission of the instructor.

MUS 8460 MUSIC ANALYSIS FOR PERFORMANCE (3 credits)
The study of performance practice and music analysis.
Prerequisite(s)/Corequisite(s): Graduate.

MUS 8476 COUNTERPOINT (3 credits)
Counterpoint will deal with topics of species counterpoint. Emphasis will be on masterpieces of the literature and study will be through analysis and composition. (Cross-listed with MUS 4470).
Prerequisite(s)/Corequisite(s): Completion of MUS 2420 with a C or better, or permission by instructor.

MUS 8520 MUSIC BIBLIOGRAPHY (3 credits)
This course includes a study of music reference and research materials. Basic procedures and tools of investigative studies are treated, culminating in a research project.
Prerequisite(s)/Corequisite(s): Graduate and permission.

MUS 8536 HISTORY OF OPERA (3 credits)
This course will consist of significant music theater works in the Western world from 1600 to the present. (Cross-listed with MUS 4530).
Prerequisite(s)/Corequisite(s): Junior standing.

MUS 8546 RENAISSANCE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature c. 1350-1600. (Cross-listed with MUS 4540).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8556 BAROQUE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1600-1750. (Cross-listed with MUS 4550).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8566 CLASSICAL MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1750-1815. (Cross-listed with MUS 4560).
Prerequisite(s)/Corequisite(s): MUS 2550, 2560, 2570 and graduate.

MUS 8576 ROMANTIC MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of Music from 1815-1912. (Cross-listed with MUS 4570).
Prerequisite(s)/Corequisite(s): MUS 2550, MUS 2560 and graduate.

MUS 8586 MUSIC FROM 1900 - 1945 (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music from the post-romantic period to 1945. The objective will be to provide the student with a broad overview with special attention given to composers and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live, film and/or television performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 4850).
Prerequisite(s)/Corequisite(s): MUS 2560.

MUS 8606 PIANO PEDAGOGY (3 credits)
This course is designed for piano majors and private music teachers in "how to teach piano," from the beginning stages through elementary and advanced levels. Procedures of instruction, basic principles of technique and materials used in teaching piano are covered. (Cross-listed with MUS 4600).
Prerequisite(s)/Corequisite(s): Permission of instructor.

MUS 8610 ORGANIZATION AND ADMINISTRATION IN MUSIC (3 credits)
Course is designed to acquaint students with the knowledge and concepts necessary for understanding and developing music education programs in the public schools and specific knowledge pertaining to policies and procedures for administering and supervising programs of music education.

MUS 8616 VOICE PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of the vocal mechanism and of the various techniques used in developing the "singing" voice. Also, it will apply knowledge acquired about the voice through studio teaching and observations of other voice teachers. (Cross-listed with MUS 4610).
Prerequisite(s)/Corequisite(s): MUS 815T or permission of instructor.

MUS 8630 RESEARCH IN MUSIC EDUCATION (3 credits)
A study of research techniques and literature in music and music education toward the objectives of reading and evaluating music education research and doing independent work in the area.
Prerequisite(s)/Corequisite(s): Graduate standing in the UNO School of Music.

MUS 8640 FOUNDATIONS OF MUSIC EDUCATION (3 credits)
A study of psychological and historical backgrounds of music education through attention to relevant topics in the psychology of music and learning theory and through relevant readings in the history of music education as well as sociological trends in American schools.
Prerequisite(s)/Corequisite(s): Graduate.
MUS 8660 PEDAGOGY OF MUSIC THEORY (3 credits)
Designed to introduce teachers to the techniques and problems of teaching music theory in elementary and secondary schools and colleges. This will be accomplished through a variety of methods to include a review of texts, teaching, and research.
Prerequisite(s)/Corequisite(s): Acceptance to the graduate program in music.

MUS 8670 KODALY I: METHODOLOGY (3 credits)
This course provides strategies for teaching music based on the philosophies and practices of musician-composer-educator Zoltan Kodaly. Level I courses focus specifically on pedagogy, repertoire, and materials for grades prekindergarten through grade 4.
Prerequisite(s)/Corequisite(s): Successful completion of MUS 8670

MUS 8680 KODALY II: METHODOLOGY (3 credits)
This course provides strategies for teaching music based on the philosophies and practices of musician-composer-educator Zoltan Kodaly. Level I courses focus specifically on pedagogy, repertoire, and materials for grades 2 through grade 4.
Prerequisite(s)/Corequisite(s): Acceptance into the graduate program for conducting majors. Permission of instructor for performance or music education majors.

MUS 8725 CHORAL LITERATURE (3 credits)
A survey course in the study of significant choral genre of the various periods of musical composition from plain song to contemporary music. This course is intended for senior level students in the K-12 music education track and for students working on a masters degree in music education with emphasis in choral music. (Cross-listed with MUS 4720).
Prerequisite(s)/Corequisite(s): MUS 2570, 3640 and graduate.

MUS 8736 KEYBOARD LITERATURE (3 credits)
Survey and study of major piano repertoire from the Baroque keyboard composers to the 20th century composers. Included are keyboard concertos and a group seminar component. This course may be repeated for credit.
Prerequisite(s)/Corequisite(s): Acceptance into the graduate program for majoring majors. Permission of instructor for performance or music education majors.

MUS 8746 VOICE LITERATURE (3 credits)
This course is a study of the development of art song in Europe and America. Emphasis will be given to German and French song literature and their influences on English and American song. (Cross-listed with MUS 4740).
Prerequisite(s)/Corequisite(s): MUS 815T or permission of graduate instructor.

MUS 8980 RECITAL (3-6 credits)
This course involves the selection, preparation and public performance of a full recital in the student's major applied area. The recital should demonstrate the student's competency in a variety of styles and make advanced technical and interpretive demands. The course also includes a written project on the music performed at the recital. A full public recital and related written project as approved by the appropriate departmental committee is a graduation requirement for masters-level students in the performance track. Method of grading will be a designation of "satisfactory" or "unsatisfactory".
Prerequisite(s)/Corequisite(s): A written proposal for the recital and related written project must be approved by the appropriate departmental committee.

MUS 8990 THESIS (3 credits)
The purpose of this course is to allow graduate students in Music Education (Option I) to develop a substantive thesis which employs and mirrors research or original thought of a quality and quantity appropriate to advanced work in music education. This course will be handled on an individual study basis with aid and consultation from a faculty thesis adviser and thesis committee. Method of grading will be a designation of "satisfactory" or "unsatisfactory".
Prerequisite(s)/Corequisite(s): Permission of Graduate Committee and twenty-four (24) hours of graduate course work completed.

Natural Sciences (NSCI)

NSCI 8140 CHEMISTRY FOR HIGH SCHOOL TEACHERS (4 credits)
This course is a study of the chemistry concepts essential to high school chemistry courses which meet the National Science Education Standards. Taking this course will help high school chemistry teachers increase their understanding of chemistry to become more effective teachers of chemistry.
Prerequisite(s)/Corequisite(s): Current employment as a high school teacher and instructor permission based on adequate chemistry background.

Neuroscience (NEUR)

NEUR 8006 SYSTEMS NEUROSCIENCE (3 credits)
This is an advanced course for the Neuroscience major designed to provide a solid understanding of the peripheral and central connections that make the systems of the body function. Data and theories of brain-behavior relationships from current research in neuroscience will be discussed. (Cross-listed with NEUR 4000).
Prerequisite(s)/Corequisite(s): NEUR 1500, BIOL 1450, BIOL 1750, and PSYC 1010; or permission. Not open to non-degree graduate students.

NEUR 8876 MOLECULAR AND CELLULAR BIOLOGY (3 credits)
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with NEUR 4870, BIOL 4870, BIOL 8878)
Prerequisite(s)/Corequisite(s): NEUR 1500 and BIOL 3020 or permission of instructor.

Philosophy (PHIL)

PHIL 8225 PHILOSOPHY OF ART (3 credits)
An inquiry into historical and contemporary philosophical perspectives on the making, interpreting and criticizing of works of art, including relations of the arts to other dimensions of cultures. (Cross-listed with PHIL 3220)
Prerequisite(s)/Corequisite(s): Graduate standing
PHIL 8655 PHILOSOPHY OF MIND (3 credits)
A discussion of various accounts of the nature of minds which focuses upon philosophical problems such as whether the mind is identical with the brain, the extent of similarities between human minds and computers, the nature of personal identity and the relationship of mental activity to behavior. (Cross-listed with PHIL 3650)
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 8900 READINGS IN PHILOSOPHY (3 credits)
An individually organized program of readings pertinent to one or more topics subordinate to the heading of Philosophy. To be carried out under the supervision of a member of the graduate faculty. May be repeated once for credit.
Prerequisite(s)/Corequisite(s): Graduate, permission of instructor, and no "incompletes" outstanding.

Physical Education (PE)

PE 8040 ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in descriptive and experimental research in physical education and exercise science. Application, particularly regarding the purpose, selection, and interpretation of statistical procedures will be emphasized. (Cross-listed with PE 9041)
Prerequisite(s)/Corequisite(s): HPR8030

PE 8076 OPTIMIZING SPORTS PERFORMANCE (3 credits)
The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration of several disciplines in sports medicine aimed at preparing one for optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed with PE 4070)
Prerequisite(s)/Corequisite(s): PE 4630 with a grade of C- or better or BMCH 4630 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 8086 CLINICAL EXERCISE PHYSIOLOGY (3 credits)
This course will offer students the knowledge, skills, and abilities to take the American College of Sports Medicine's health fitness instructor certification exam. This course will emphasize health risk assessment, exercise testing, and exercise prescription for healthy and clinical populations. (Cross-listed with PE 4080)
Prerequisite(s)/Corequisite(s): PE 2210 with a grade of C- or better, PE 2500 with a grade of C- or better or BMCH 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better and PE 4940 with a grade of C- or better.

PE 8120 CURRENT TOPICS IN WEIGHT MANAGEMENT (3 credits)
This course will focus on current issues related to weight management. Candidates will review the guidelines for physical activity and nutrition, apply them to current reading material sold in book stores, and develop a best practice for weight management using what they have learned.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PE 8130 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 9131)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.

PE 8140 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 9141)

PE 8176 MOTOR ASSESSMENT & PRESCRIPTN (3 credits)
An in-depth survey of motor and fitness assessment instruments for use with pre-school, elementary, and secondary school students. The use of test scores for diagnosis and prescription of physical education activities for special populations will be addressed. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs. (Cross-listed with PE 4170)
Prerequisite(s)/Corequisite(s): PE 4150

PE 8186 PRACT PE FOR DISABLED CHILD (3 credits)
This course is designed as a practicum with theoretical and practical experience in addressing the motor needs of young disabled children in a physical education setting. This course will enhance the skills of the teacher to orchestrate the learning environment for students with special needs.
Prerequisite(s)/Corequisite(s): PE 4170 or PE 8176

PE 8206 PLANNING WORKSITE WELLNESS PROGRAM (3 credits)
This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs also will be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care. (Cross-listed with PE 4200)
Prerequisite(s)/Corequisite(s): Junior standing.

PE 8210 EMERGENCY MANAGEMENT OF INJURY AND ILLNESS (2 credits)
The purpose of this course is to prepare students to respond to emergent conditions that affect patients involved in physical activity. Students will learn to recognize the signs and symptoms of acute injury and illness, assess patients using evidence-based methods, apply appropriate treatments, make appropriate referral decisions, and implement effective prevention strategies to reduce the risk of injury and illness.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training program. Not open to non-degree graduate students.

PE 8240 SPORT IN AMERICAN CULTURE (3 credits)
Sport in American culture is a study of sport from a theoretical perspective. The relationship between sport and sub-cultures (to include disadvantaged American cultures), economics, global influences, and technology will be analyzed.

PE 8266 INCL INDIV W/DISABILITIES IN PE (3 credits)
This course is for physically handicapped and other students interested in the inclusion of children with disabilities in physical education programs. (Cross-listed with PE 4260)
Prerequisite(s)/Corequisite(s): PE 3060 or PE 4000 and PE 4150

PE 8280 CURRICULUM IN PE (3 credits)
A study of the foundations for curriculum development. Special consideration is given to curriculum change, curriculum patterns and programs in physical education which will meet a culturally diverse, global society.

PE 8310 ATHLETIC TRAINING TECHNIQUES (2 credits)
Overview course including basic components of the athletic training profession including the prevention, recognition, evaluation and immediate care of athletic injuries. Medical terminology, tissue healing, taping procedures, and professional considerations will be covered.
Prerequisite(s)/Corequisite(s): Admission to the Master of Arts in Athletic Training. Not open to non-degree graduate students.
PE 8316 LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, hip, and lower extremities. (Cross-listed with PE 4310)
Prerequisite(s)/Corequisite(s): PE 8326 and 8710. Not open to non-degree graduate students.

PE 8326 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with PE 4320)
Prerequisite(s)/Corequisite(s): PE 8316, PE 8336, and PE 8720. Not open to non-degree graduate students.

PE 8336 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with PE 4330)
Prerequisite(s)/Corequisite(s): PE 8326 and 8710. Not open to non-degree graduate students.

PE 8346 REHAB TECH IN ATH TRAINING (3 credits)
The use of basic theories and principles of athletic injury rehabilitation including therapeutic exercise and the use of physical agents. The development of rehabilitation programs including hands-on practical application. (Cross-listed with PE 4340)
Prerequisite(s)/Corequisite(s): Written Permission Required

PE 8356 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with PE 4350)
Prerequisite(s)/Corequisite(s): PE 3430, PE 4320.

PE 8360 ADV ORTHO & MED ASPECTS (3 credits)
This course will enhance the candidate’s knowledge of orthopedic aspects and general medical conditions of the athlete. Involves lecture, directed observation, experiential learning, literature review and hands-on experience. Local medical professionals will be providing instruction and supervision within their specialties. The candidate will be exposed to advanced evaluation and treatment skills, including imaging techniques, surgical procedures, rehabilitation and athletic training management.
Prerequisite(s)/Corequisite(s): PE 8316 and PE 8326

PE 8370 ANALYZING PE TCH & SPORT INST (3 credits)
This course will examine the teaching and coaching in physical education and sport. It will identify assessment techniques utilized in teaching and coaching behavior research as well as typical prescriptions in an effort to improve one’s performance.
Prerequisite(s)/Corequisite(s): PE 4630 or equivalent and PE 2880. Not open to non-degree students.

PE 8506 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with PE 9701)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.

PE 8710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, instructor permission, & continued compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite with enrollment in PE 8326. Not open to non-degree graduate students.

PE 8720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8710 Clinical Practicum AT I, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8316 & 8336. Not open to non-degree grad.

PE 8730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admitted to MA in Athletic Training program, PE 8720 Clinical Practicum AT II, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-reqs: PE 8346 & 8356. Not open to non-degree grad.

PE 8740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Master of Arts in Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills.
Prerequisite(s)/Corequisite(s): Admission to the MA in Athletic Training program, PE 8730 Clinical Practica in Athletic Training III, instructor permission, and continued compliance with published Athletic Training Program Technical Standards for Admission. Co-req: PE 8966.
PE 8800 RISK MGT HLTH/FIT PROFESSIONS (3 credits)
A study of risk management for health fitness professionals with a focus on minimizing liability exposures for health fitness facilities and their personnel. Principles of risk management such as the assessment of liability exposures, the development and implementation of risk management strategies, and the evaluation of these strategies will be explored as well as the law as it pertains to health fitness liability. Candidates will develop the knowledge and skill to manage high quality health fitness programs in various settings.
Prerequisite(s)/Corequisite(s): PE 4010 or PE 8016

PE 8856 CARDIOVASCULAR DISEASE PREVENTION & REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with PE 4850)
Prerequisite(s)/Corequisite(s): PE 8946

PE 8865 SCIENTIFIC ASPECTS STRENGTH DEV (3 credits)
This course is designed to explore the nature of muscular strength development, to investigate the physiological basis of physical conditioning, and to provide teachers, coaches and trainers with practical experience in designing specialized conditioning programs for a variety of sports and cultures. (Cross-listed with PE 3860)

PE 8900 MGMT & LEAD SKILLS FOR FIT MGRS (3 credits)
This course is a study of management and leadership skills necessary for the successful management of fitness and wellness facilities and programs. Candidates will develop knowledge and practical skills in the areas of personnel and financial management, marketing, and operating policies procedures as well as develop a personal leadership philosophy based on sound principles of leaders.
Prerequisite(s)/Corequisite(s): PE 8016 or ACSM Health Fitness Certification.

PE 8910 INTERNSHIP IN EXERCISE SCIENCE (3 credits)
This course is an off-campus, supervised, educational work experience of at least 150 clock hours at an approved worksite offering programs and experiences in fitness development or health promotion. Candidates must have current CPR certification.
Prerequisite(s)/Corequisite(s): The prerequisites for this course include 90 hours completed, 2.5 GPA, PE 4900 and permission of instructor.

PE 8950 ADVANCED EXERCISE PHYSIOLOGY (3 credits)
A detailed analysis of selected topics including acute and chronic effects of exercise on metabolic, pulmonary, and cardiovascular function; and sports nutrition. Current research findings and methodology will be emphasized. (Cross-listed with PE 9951)
Prerequisite(s)/Corequisite(s): PE 4940 or equivalent

PE 8966 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition. (Cross-listed with PE 4960)
Prerequisite(s)/Corequisite(s): PE 8346, PE 8356, and PE 8730, or Instructor consent.

PE 9040 PHYSICAL ACTIVITY EPIDEMIOLOGY (3 credits)
This course will cover the broad scope of the issues related to epidemiological methods that are relevant to the study of physical activity populations. It is intended to enhance students' ability to understand and apply epidemiological methods to physical activity related research.
Prerequisite(s)/Corequisite(s): PE 8130 Implementing Physical Activity I and PE 8040 Advanced Statistics in PE or related course or permission by the instructor; not open to non-degree graduate students

PE 9041 ADVANCED STATISTICS (3 credits)
This course will be a study in the statistical methods commonly used in descriptive and experimental research in physical education and exercise science. Application, particularly regarding the purpose, selection, and interpretation of statistical procedures will be emphasized. (Cross-listed with PE 9041)
Prerequisite(s)/Corequisite(s): HPER 9031 or equivalent.

PE 9131 IMPLEMENTING PHYSICAL ACTIVITY IN DIVERSE POPULATIONS (3 credits)
This course will focus on information necessary to assess, design, implement, and evaluate the need for and effectiveness of physical activity interventions in diverse populations, races, and ethnicities. These populations will include: African American, Native American, Hispanic, Asian American, Pacific Islanders, and Caucasian. Additionally, candidates will complete a health and physical activity service learning project in which they will work with diverse populations in the community. (Cross-listed with PE 8130)
Prerequisite(s)/Corequisite(s): PE 3900 or PE 8905 or PE 8700 or HED 8600. Not open to non-degree graduate students.

PE 9141 PHYSICAL ACTIVITY ASSESSMENT AND HEALTH RELATED RESEARCH (3 credits)
This course will cover the broad scope of research on physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques. (Cross-listed with PE 8140)

PE 9701 PSYCHOLOGY OF PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological antecedents and consequences of exercise and physical activity behaviors. The course will focus on traditional theories/principles of psychology as they relate to various physical activity settings. (Cross-listed with PE 8700)
Prerequisite(s)/Corequisite(s): Undergraduate or graduate course in either: Motivation for Physical Activity (PE 3900), or equivalent; Behavioral Aspects of Coaching (PE 4500/8506), or equivalent; or instructor permission.

PE 9810 HIGHER EDUCATION TEACHING SEMINAR (3 credits)
The seminar is designed to prepare students for entry into a higher education teaching career. This seminar requires doctoral students to teach an undergraduate or graduate lecture course relevant to their field of preparation. The seminar includes an examination of the roles, responsibilities, and privileges associated with teaching in higher education.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral Program in Exercise Science and successful completion of 24 hours of doctoral coursework and approval from advisor. Not open to non-degree students.

PE 9820 SERVICE EXPERIENCE IN HIGHER EDUCATION (3 credits)
This seminar will allow students the opportunity to gain valuable knowledge of the service expectations of faculty in higher education settings. The seminar will focus on service opportunities within the university, within the profession and within the community. Participants in the seminar will complete appropriate service activities.
Prerequisite(s)/Corequisite(s): Admittance to the UNO Doctoral program in Exercise Science, successful completion of 24 hours of doctoral coursework, and approval from advisor. Not open to non-degree students.

PE 9910 DOCTORAL SEMINAR (3 credits)
The major goal of this course is to teach the graduate student how to write manuscripts/grants and be an effective academian with strong ethics. The outcome of this course is for the student to produce a manuscript based on data acquired in the laboratory from the ideas developed in the seminar or submit a grant that will support the research ideas developed in at least one semester. The material covered is intended to equip students with the skills necessary to be successful in their academic careers with emphasis given on writing scientific papers. (Cross-listed with BMCH 9910)
Prerequisite(s)/Corequisite(s): Admission into the PhD program. Not open to non-degree graduate students.
Physics (PHYS)

PHYS 8055 THE PHILOSOPHY OF SPACE EXPLORATION (3 credits)
This course deals mainly with the justification of space exploration in the face of conflicting needs. Topics to be studied include objections to the space program and responses to them, spin-off benefits, space industrialization, planetary and interstellar exploration, space colonies, search for life elsewhere, and other related theoretical issues. (Cross-listed with PHYS 3050)
Prerequisite(s)/Corequisite(s): Graduate or permission of instructor.

PHYS 8155 MODERN DEVELOPMENTS IN PHYSICS (3 credits)
A resume of the most important discoveries, changes and new concepts gleaned from the last decade of research in physics. Superconductivity, lasers, masers, superfluidity, ultra large magnetic fields, space plasmas, nuclear fusion power, etc. Designed for updating physical science concepts for science majors and for science teachers. (Cross-listed with PHYS 3150)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120.

PHYS 8165 CURRENT TOPICS IN SCIENCE (1-3 credits)
The subject matter of this course will generally not be presented in a standard physics course and may be of an interdisciplinary nature. The specific topics and prerequisites will be listed in the schedule. (Cross-listed with PHYS 3160)
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHYS 8206 INTRODUCTION TO QUANTUM MECHANICS (3 credits)
This course provides an introduction to the historical development of modern physics and to the Schroedinger formulation of quantum mechanics. Specific topics will include square wells potential barriers, the simple harmonic oscillator potential and the hydrogen atom. Characteristics of multi-electron atoms, including angular momentum coupling schemes, spectra and transition rules will also be included. (Cross-listed with PHYS 4200)
Prerequisite(s)/Corequisite(s): PHYS 3250 or permission.

PHYS 8216 QUANTUM THEORY (3 credits)
The matrix operator formalism is covered along with philosophical implications of this approach. The methods developed will be applied to simple harmonic oscillator and hydrogen atom potentials. Raising and lowering operators, creation-annihilation operators, and first and second order perturbation theory will be discussed. (Cross-listed with PHYS 4210)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 8226 PHYSICS OF MOLECULES AND SOLIDS (3 credits)
This course covers the various types of atomic bonding found in molecules and solids. Electronic energy levels and spectra of molecules will be discussed. Topics in solid state physics will include mechanics and thermodynamics of crystals, the scattering of waves including x-ray and neutron scattering, electron scattering and phonon and photon interactions. (Cross-listed with PHYS 4220)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 8236 SPECIAL RELATIVITY AND NUCLEAR PHYSICS (3 credits)
This course includes a brief historical background of the development of relativity theory and the importance of the experiments performed in conjunction with it. Lorentz transformations and covariant formalism will be developed and applied to certain problems in mechanics and electricity and magnetism. The nuclear physics portion of the course will include the historical development of the concept of the nuclear atom. Theoretical models of nuclear structure will be discussed, along with the theory of alpha, beta and gamma decay. Fission and fusion discussed as time permits. (Cross-listed with PHYS 4230)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 8306 GENERAL RELATIVITY (3 credits)
A study of general relativity theory and its leading applications. Physical motivations and conceptual foundations will be explored. Students will be guided step-by-step to mastery of the tensor analysis required by this theory. Topics covered will include the equivalence principle, recap of special relativity, tensors, curvature and geodesics, Einstein field equations, black holes, cosmology, and gravitational waves. (Cross-listed with PHYS 4300)
Prerequisite(s)/Corequisite(s): PHYS 3750 and PHYS 4230, or permission of instructor.

PHYS 8356 ASTROPHYSICS (3 credits)
This course introduces the fundamental of astrophysics to students with a prior knowledge of physics and mathematics. A review will be given of light and telescopes, classical and quantum mechanics and special relativity. Basic laws of physics will be applied to various topics such as: the sun, nuclear fusion and particle physics, evolution and end state of stars, interstellar medium, galaxies and cosmology. (Cross-listed with PHYS 4350)
Prerequisite(s)/Corequisite(s): PHYS 2130 or 4200 and MATH 1970. Recommended: PHYS 1350.

PHYS 8455 CLASSICAL MECHANICS (3 credits)
Statics and dynamics of particles and rigid bodies including the equations of Lagrange and Hamilton. (Cross-listed with PHYS 8455)
Prerequisite(s)/Corequisite(s): MATH 1970, PHYS 3250 or permission.

PHYS 8505 ELEMENTS OF ELECTRONICS (3 credits)
The topics covered will include basic circuit theory, principles and operation of electronic devices such as diodes, transistors and integrated circuits. Application of these devices in various electronic circuits. Both analog and digital circuitry will be studied. (Cross-listed with PHYS 3500)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 8605 THERMODYNAMICS AND STATISTICAL PHYSICS (3 credits)
Topics include: empirical and absolute temperature, equations of state, work, heat, entropy, the four laws of thermodynamics, phase changes, thermodynamic potentials, classical and quantum statistics of an ideal gas (e.g., blackbody radiation). Possible applications to be included: Einstein theory of a solid, paramagnetism, blackbody radiation, and conduction of electrons. (Cross-listed with PHYS 3600)
Prerequisite(s)/Corequisite(s): PHYS 2120 and MATH 1970.
PHYS 8755 ELECTRICITY AND MAGNETISM I (3 credits)
An advanced study of electrostatics and magnetostatics, including Coulomb's law, Gauss' law, the scalar potential, conductors and dielectrics, electrostatic energy, special methods, electric currents, Ampere's law, the magnetic induction, Faraday's law, and the electromagnetic wave equation as obtained from Maxwell's equations, with simple examples such as transmission lines and antennae. (Cross-listed with PHYS 3750)
Prerequisite(s)/Corequisite(s): MATH 1950, MATH 1960, MATH 1970, PHYS 3250, or permission.

PHYS 8765 ELECTRICITY AND MAGNETISM II (3 credits)
A selection of more advanced topics from electromagnetic theory, including a deeper treatment of the electromagnetic wave equations derived from Maxwell's equations, extending to propagation, reflection, and refraction of plane waves, waves in wave guides, and radiation. Other topics covered might be magnetism and magnetic energy, plasmas, and special relativity. (Cross-listed with PHYS 3760)
Prerequisite(s)/Corequisite(s): PHYS 3750.

PHYS 8805 OPTICS (3 credits)
The behavior of electromagnetic radiation as formulated in the ray, wave, and quantum models. Topics will include: reflection and refraction, vergence, matrix method, optical instruments, scalar waves, electromagnetic waves, blackbody radiation, interference, diffraction, and lasers; if time permits, fiber optics and holography will also be included. (Cross-listed with PHYS 3800)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970.

PHYS 8956 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4950, PHYS 4960, PHYS 8966)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

PHYS 8960 TOPICS IN THE TEACHING OF NATURAL SCIENCE (1-4 credits)
This course is for K-12 science teachers with emphasis on content appropriate to the educational standards of the State of Nebraska and the National Science Education Standards. Teaching methodologies and technologies will be integrated with the subject matter. The format varies but is that of a workshop using lecture, individual mentoring, group study, laboratory exercises and presentations. The number of credits offered will vary.
Prerequisite(s)/Corequisite(s): Permission of Instructor.

PHYS 8966 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4950, PHYS 4960, PHYS 8965)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

Political Science (PSCI)
PSCI 8000 SEMINAR IN THE RESEARCH METHODS IN POLITICAL SCIENCE (3 credits)
This course introduces students to the methods of data collection and analysis for political science research.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser

PSCI 8005 QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE (3 credits)
This course introduces students to the techniques that political scientists use to answer research questions with quantitative data, as well as issues of research design, hypothesis formation, and causation. The course emphasizes the methods used to collect, analyze, and extract information from data using statistical computer software. (Cross-listed with PSCI 3000)
Prerequisite(s)/Corequisite(s): PSCI 2000 or permission of instructor.

PSCI 8015 URBAN POLITICS (3 credits)
This course introduces students to the development, powers, forms of government, and functions of cities and their suburbs as well as the problems faced by elected officials, business and community leaders, and citizens in the urban setting. (Cross-listed with PSCI 3010)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8036 THE PRESIDENCY (3 credits)
This course introduces students to the development and modern application of presidential leadership through examination of presidential selection, presidential decision-making, the relationship of the presidency with other governmental and non-governmental actors, and the role of the presidency in making public policy. (Cross-listed with PSCI 4030)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8040 SEMINAR IN AMERICAN GOVERNMENT AND POLITICS (3 credits)
This course introduces students to classic and contemporary scholarship on the principles, institutions, processes, and policies of national government in the United States with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser

PSCI 8045 GOVERNMENT AND POLITICS OF NEBRASKA (3 credits)
This course introduces students to the development, structures, functions and public policies of the government of the state of Nebraska. (Cross-listed with PSCI 3040)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8046 CONGRESS AND THE LEGISLATIVE PROCESS (3 credits)
This course introduces students to the development of the Congress and modern application of the legislative process through examination of congressional elections, congressional leadership, congressional decision-making, legislative rules and procedures, the relationship of the Congress with other governmental and non-governmental actors, and the role of the Congress in making public policy. (Cross-listed with PSCI 4040)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8055 STATE GOVERNMENT AND POLITICS (3 credits)
This course introduces students to the development, structures, functions and public policies of states. (Cross-listed with PSCI 3050)
Prerequisite(s)/Corequisite(s): PSCI 1100.

PSCI 8056 THE JUDICIAL PROCESS (3 credits)
This course introduces students to the administration of law in federal and state courts with respect to the organization of the courts, judicial selection, judicial powers, judicial decision-making, judicial policy-making, the bar, and reform movements in the pursuit of justice. (Cross-listed with PSCI 4050)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 8100 SEMINAR IN POLITICAL ECONOMY (3 credits)
A comprehensive study of theories of political economy, linkages between politics and economics, and major contemporary issues.
Prerequisite(s)/Corequisite(s): Permission of the graduate adviser

PSCI 8105 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 3100, WGST 3100, WGST 8105)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8116 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSYC 4110, PSYC 8116)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
PSCI 8120 SEMINAR IN LEADERSHIP (3 credits)
This course introduces students to classical and contemporary scholarship on leadership theory, research, and application. Students gain a foundation in models of leadership, assess their own leadership styles, and learn to integrate what they learn in corporate, governmental, non-profit, or community organizations. (Cross-listed with CACT 8510).
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

PSCI 8126 PUBLIC OPINION AND POLLING (3 credits)
This course introduces students to the origins, nature, measurement, and consequences of public opinion on policymaking. (Cross-listed with PSCI 4120).
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8135 WOMEN AND POLITICS (3 credits)
This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, WGST 3130, WGST 8135).
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8145 LATINO/A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 3140, LLS 3140, LLS 8145).
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSCI 8146 CONSTITUTIONAL LAW: CIVIL RIGHTS (3 credits)
This course introduces students to the history, principles, and judicial interpretation of key constitutional provisions and federal statutes regarding civil rights in the United States. (Cross-listed with PSCI 4140).
Prerequisite(s)/Corequisite(s): PSCI 1100 or equivalent.

PSCI 8150 SEMINAR IN CONSTITUTIONAL LAW (3 credits)
This course introduces students to the Constitution and the Supreme Court's exercise of judicial review in relation to governmental powers, civil rights, and civil liberties.
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8165 POLITICAL PARTIES (3 credits)
This course introduces students to the origin, development, structure, and functions of political parties in the United States as political organizations, coalitions of voters, and governing coalitions that seek to hold office and influence public policy. (Cross-listed with PSCI 3160).
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8175 INTEREST GROUPS (3 credits)
This course introduces students to the theories, formation, organization, and activities of interest groups and their impact on public policy, particularly through their role in campaigns and elections and lobbying. (Cross-listed with PSCI 3170)
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8176 CONSTITUTIONAL LAW: FOUNDATIONS (3 credits)
This course introduces students to the principles, design and operation of the American constitutional system with emphasis on analysis of the Declaration of Independence, the Articles of Confederation, the proceedings of the Constitutional Convention, and the Federalist Papers. (Cross-listed with PSCI 4170)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 8185 CAMPAIGNS AND ELECTIONS (3 credits)
This course introduces students to the evolution and modern application of campaigns and elections in the United States through examination of campaign management and campaign strategy in congressional and presidential elections. (Cross-listed with PSCI 3180).
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8186 CONSTITUTIONAL LAW: THE FEDERAL SYSTEM (3 credits)
This course introduces students to American constitutional law as it relates to issues of federalism, the relation of the nation and the states, and separation of powers, the relation of the three branches of the national government. (Cross-listed with PSCI 4180).
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8196 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3 credits)
This course introduces students to the philosophy, history, and development of the personal liberties guaranteed by the Constitution including freedom of speech, religion, assembly, petition, and the right of privacy, primarily through examination of Supreme Court decisions. (Cross-listed with PSCI 4190).
Prerequisite(s)/Corequisite(s): PSCI 1100

PSCI 8200 SEMINAR IN FOREIGN POLICY AND NATIONAL SECURITY (3 credits)
This course introduces students to classic and contemporary scholarship on the formulation and implementation of foreign and national security policy in the United States with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of the graduate adviser.

PSCI 8206 INTERNATIONAL RELATIONS OF EAST ASIA (3 credits)
This course introduces students to the international politics of East Asia with an emphasis on the contemporary relations among major East Asian states (China, Japan, the Korean peninsula) and the United States. (Cross-listed with PSCI 4200).
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8216 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3 credits)
This course focuses on the international politics of the Middle East region, specifically looking at conditions for peace and causes of war. It examines how the international system, domestic politics, ideologies, and leaders influence international politics in the Middle East. (Cross-listed with PSCI 4210).
Prerequisite(s)/Corequisite(s): PSCI 2210 is recommended.

PSCI 8225 INTERNATIONAL ORGANIZATIONS (3 credits)
This course introduces students to the history, principles, structures, and processes developed to organize and legitimize peaceful reconciliation of the differences of nation-states and to advance their mutual interests in the contemporary global political and economic system. (Cross-listed with PSCI 3220).
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8235 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, WGST 3230, WGST 8235).
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.

PSCI 8245 THE POLITICS AND PRACTICE OF HUMAN RIGHTS (3 credits)
This course introduces students to human rights issues across the globe and explores the theoretical foundations of human rights as well as human rights institutions and transitional justice. (Cross-listed with PSCI 3240).
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.
PSCI 8246 INTERNATIONAL CONFLICT RESOLUTION (3 credits)
This course introduces students to different approaches to peace, their basic assumptions, and their application to current conflicts. (Cross-listed with PSCI 4240)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8250 SEMINAR IN INTERNATIONAL RELATIONS (3 credits)
This course introduces students to classic and contemporary scholarship on the issues, theories, and methodological approaches associated with the study of the nation-state system, international law, international organizations, international security, and globalization.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser

PSCI 8255 GLOBAL SECURITY ISSUES (3 credits)
This course introduces students to issues of national and international security that cross boundaries and threaten all countries including issues such as climate change, environmental deterioration, population and demographics, gender issues, disease and public health, the media, asymmetrical warfare, drugs/organized crime, and cyberthreats. (Cross-listed with PSCI 3250)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8256 INTELLIGENCE AND NATIONAL SECURITY (3 credits)
This course introduces students to the United States intelligence services, and their relation to broader U.S. national security policy. (Cross-listed with PSCI 4250)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8265 UNITED STATES FOREIGN POLICY (3 credits)
This course introduces students to the analysis of foreign and defense policy processes in the United States, including the role of the President, Congress, Departments of State and Defense, the intelligence community, and other actors/factors affecting policy formulation and implementation. (Cross-listed with PSCI 4260)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8266 INTERNATIONAL LAW (3 credits)
The course introduces students to the general principles of international law, including the key actors, the creation and sources of international law, the interpretation of international law by courts and tribunals, and its enforcement. (Cross-listed with PSCI 4260)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8276 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with ENVN 4270, PSCI 4270)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8286 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional institutional and ideological environment, power relations, policies, and contemporary problems. (Cross-listed with PSCI 4280, LLS 4280, LLS 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8296 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 4290, CACT 8306)
Prerequisite(s)/Corequisite(s): PSCI 2210 or equivalent is recommended.

PSCI 8300 SEMINAR IN POLITICAL THEORY (3 credits)
This course introduces students to the history of political theory, from its origins in ancient Greece to its manifestations in contemporary thought. (Cross-listed with CACT 8300)
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8316 CLASSICAL POLITICAL THEORY (3 credits)
This course introduces students to key works representative of premodern political philosophy. Authors examined may include Plato, Aristotle, Xenophon, Cicero, Augustine, and Aquinas. (Cross-listed with PSCI 4310)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8326 EARLY MODERN POLITICAL THEORY (3 credits)
This course introduces students to key works of the 16th through mid-18th centuries. Authors examined may include Machiavelli, Hobbes, Hume, Smith and Montesquieu. (Cross-listed with PSCI 4320)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8336 LATE MODERN POLITICAL THEORY (3 credits)
This course introduces students to key texts of the mid-18th through 19th centuries. Authors to be examined may include Rousseau, Burke, Mill, Tocqueville, Marx, and Nietzsche. (Cross-listed with PSCI 4330)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8345 AMERICAN POLITICAL THOUGHT (3 credits)
This course introduces students to the ideas, ideologies, identities, and institutions of American political thought from the country’s origins to the present. Topics to be covered may include the political thought of the early American settlers and of the founding generation, the debates over the creation and implementation of the Constitution, the 19th century arguments over slavery, the rise of progressivism, the New Deal and its critics, and contemporary American conservatism and liberalism. (Cross-listed with PSCI 3340)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8346 CONTEMPORARY POLITICAL THEORY (3 credits)
This course introduces students to leading works of contemporary political philosophy including Marx, Spencer, Dahl, Rawls, feminism, and rational choice. The theories, their interrelationships, the theorists, and the manifestations of these works will be discussed and analyzed. (Cross-listed with PSCI 4340)
Prerequisite(s)/Corequisite(s): PSCI 2310 or equivalent is recommended.

PSCI 8355 DEMOCRACY (3 credits)
A basic study of theory, practice and practitioners of political democracy, its roots, development, present application and problems and future. (Cross-listed with PSCI 4350)

PSCI 8500 SEMINAR IN COMPARATIVE POLITICS (3 credits)
This course introduces students to classic and contemporary scholarship on the issues, theories, and methodological approaches associated with the systematic and comparative study of nation-states and their political systems with an emphasis on engaging in thoughtful discussion and individual research.
Prerequisite(s)/Corequisite(s): Permission of graduate adviser.

PSCI 8505 EUROPEAN POLITICS (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Europe, including the European Union. (Cross-listed with PSCI 3500)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.
PSCI 8506 GOVERNMENT AND POLITICS OF GREAT BRITAIN (3 credits)
A comprehensive study of British politics and government. Emphasis will be focused on the formal institutions and informal customs and practices of the British political system. (This course satisfies the department’s comparative politics requirement). (Cross-listed with PSCI 4500)

PSCI 8526 POLITICS OF FRANCE (3 credits)
This course introduces students to the political heritage of France, contemporary political institutions and problems, and political and policy responses to these problems. (Cross-listed with PSCI 4520)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.

PSCI 8585 GOVERNMENT AND POLITICS OF RUSSIA AND THE POST-SOVETI STATES (3 credits)
This course introduces students to the political cultures, institutions, processes, and public policies of Russia and the states of the former Soviet Union. (Cross-listed with PSCI 3580)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8626 ISLAM AND POLITICS (3 credits)
This course introduces students to the interaction between religion and politics in the Muslim world, covering various political ideologies in the Muslim world and different experiences of Muslim-majority countries such as Saudi Arabia, Pakistan, Iran, Turkey, Indonesia, and Egypt. It will also analyze mainstream and radical transnational Islamic movements. (Cross-listed with PSCI 4620)
Prerequisite(s)/Corequisite(s): PSCI 2210 or 2500 is recommended.

PSCI 8645 GOVERNMENT AND POLITICS OF CHINA AND EAST ASIA (3 credits)
This course introduces students to the political cultures, institutions, processes, policies, and other characteristics of China and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 3640)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8685 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with PSCI 3680, LLS 3680, LLS 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 8705 GOVERNMENT AND POLITICS OF THE MIDDLE EAST (3 credits)
This course introduces students to government and politics in the contemporary Middle East, including considerations of state formation, authoritarianism and democratization, state-society relations, religion, culture, gender, and economy. (Cross-listed with PSCI 3700)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.

PSCI 8826 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with JMC 4820, JMC 8826, PSCI 4820)

PSCI 8900 READING IN POLITICAL SCIENCE (1-3 credits)
This course provides students an opportunity to study an advanced and specialized subject matter in the field of political science not covered in existing courses. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Consent of instructor. PSCI 8910 is recommended.

PSCI 8910 POLITICAL SCIENCE INTERNSHIP (3 credits)
This course offers students an opportunity to experience the resolution of public issues through direct involvement in career-oriented policy organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor. PSCI 8910 is recommended.

PSCI 8920 SEMINAR IN SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of twelve credit hours.
Prerequisite(s)/Corequisite(s): Permission of graduate advisor.

PSCI 8926 ADVANCED SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with PSCI 4920)

PSCI 8980 RESEARCH IN POLITICAL SCIENCE (3 credits)
This course provides students an opportunity to conduct research in a specialized subject matter in the field of political science. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of graduate advisor, not open to non-degree graduate students.

PSCI 8990 THESIS (3-6 credits)
A research project, written under the supervision of a graduate advisor in the Department of Political Science, in which the students establish their capacity to design, conduct and complete an original, independent, scholarly investigation of a high order. The research topic and the completed project must be approved by the student’s departmental committee.
Prerequisite(s)/Corequisite(s): Permission of graduate program chair. Not open to non-degree graduate students.

Psychology (PSYC)

PSYC 8000 THE PROFESSION OF PSYCHOLOGY (0 credits)
Required non-credit course for graduate students in psychology. Intended to familiarize the beginning graduate student with the profession of psychology including such topics as ethics, professional organizations, job and educational opportunities, use of reference materials, licensing and certification and other relevant material.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 8016 HISTORY OF PSYCHOLOGY (3 credits)
A study of the origins, development and nature of psychology and its relation to external events; emphasis on the period since 1875. (Cross-listed with PSYC 4010)
Prerequisite(s)/Corequisite(s): Admission to graduate program in Psychology or permission of instructor. Not open to non-degree students or students in other departments or programs.

PSYC 8060 COMPUTER CONCEPTS IN PSYCHOLOGY AND BEHAVIORAL SCIENCES (3 credits)
Introductory course emphasizing the applications of computers in the areas of psychology, sociology and education. Includes a functional description of computers and a discussion of programming languages as well as specific uses.
Prerequisite(s)/Corequisite(s): PSYC 3130 or equivalent. Not open to non-degree graduate students.
PSYC 8116 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSCI 8116, PSYC 4110)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

PSYC 8140 NONPARAMETRIC STATISTICS (3 credits)
Study of distribution-free statistics with particular emphasis on application of distribution-free tests to research problems in social behavioral sciences.
Prerequisite(s)/Corequisite(s): PSYC 3130 or equivalent. Not open to non-degree graduate students.

PSYC 8250 FAMILY ANALYSIS AND TREATMENT (3 credits)
This course covers theories and techniques for family therapy, with special reference to adapting individual and group therapeutic, as well as consultation, principles for family interventions. Case analyses and evaluation methods are considered.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8256 LIMITS OF CONSCIOUSNESS (3 credits)
A course focusing on the scientific study of the psychology, neurology, and philosophy of mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 4250, PHIL 3250)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 8276 ANIMAL BEHAVIOR (3 credits)
Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. Lecture only. (Cross-listed with PSYC 4270, BIOL 4270, BIOL 8276)
Prerequisite(s)/Corequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

PSYC 8286 ANIMAL BEHAVIOR LABORATORY (3 credits)
Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with PSYC 4280, BIOL 4280, BIOL 8286)
Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273 and not open to non-degree graduate students.

PSYC 8316 PSYCHOLOGICAL AND EDUCATIONAL TESTING (3 credits)
The use of standardized tests in psychology and education is considered with special regard to their construction, reliability and validity. (Cross-listed with PSYC 4310)
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior/senior and not open to non-degree graduate students.

PSYC 8326 HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with PSYC 4320, BIOL 4320, BIOL 8326)
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of department. Not open to non-degree graduate students.

PSYC 8336 SOCIAL NEUROSCIENCE (3 credits)
This course will evaluate the biological substrates of sociality and social behavior, and explore the impact of social environments on brain function and development. Students in the course will explore the molecular, cellular, neurotransmitter, and endocrine influences on social behavior, including affiliative care, aggression, social bonding, altruism, and social cognition. (Cross-listed with NEUR 4330)
Prerequisite(s)/Corequisite(s): PSYC 4310, BIOL 1450, and NEUR 1500. Not open to non-degree graduate students.

PSYC 8446 ABNORMAL PSYCHOLOGY (3 credits)
A course designed to examine the aberrant behavior of individuals. Symptoms, dynamics, therapy and prognosis of syndromes are considered. (Cross-listed with PSYC 4440)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 8456 PERSONALITY THEORIES (3 credits)
A comparative approach to the understanding and appreciation of personality theories considering history, assertions, applications, validations and prospects. (Cross-listed with PSYC 4450)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 8476 MENTAL HEALTH AND AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families also are discussed. (Cross-listed with PSYC 4470, GERO 4470, GERO 8476)
Prerequisite(s)/Corequisite(s): Junior or senior.

PSYC 8500 PROFESSIONAL, LEGAL, AND ETHICAL FOUNDATIONS OF SCHOOL PSYCHOLOGY (3 credits)
This course covers the role description and job activities of a school psychologist, as well as theories, assessment and intervention techniques, certification requirements, employment opportunities, public policy, legislation, and ethics relevant to school psychology. School-based field experiences will also be included in the course.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of dept. Not open to non-degree graduate students.

PSYC 8520 FOUNDATIONS OF ASSESSMENT (3 credits)
Course content covers traditional psychometric concepts (e.g., norms, reliability, validity) and their application to various areas of human behavior that are assessed (e.g., cognitive ability, personality, achievement). Clinical considerations are applied to how assessment information is integrated into a problem-solving process.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8526 PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with PSYC 4520)
Prerequisite(s)/Corequisite(s): Permission of instructor and not open to non-degree graduate students.

PSYC 8530 EARLY CHILDHOOD ASSESSMENT (3 credits)
This course is an introduction to the assessment of children during early development including infancy, toddler, preschool and early primary ages. Assessment will be discussed as it relates to problem-solving and data-based decision making (i.e., diagnosis, treatment, program evaluation). Students will learn the principles of working with young children and their families and how these principles will be used in conducting valid and reliable assessments that, in turn, lead to appropriate interventions.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.
PSYC 8536 CULTURAL PSYCHOLOGY (3 credits)
This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about "culture" can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals' psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4530, CACT 8106).
Prerequisite(s)/Corequisite(s): Enrollment in MA in Critical & Creative Thinking program or by permission of the instructor.

PSYC 8540 SCHOOL AGE ASSESSMENT (3 credits)
This course covers data-based decision-making as it applies to schools. Students will learn and practice the skills of reviewing records, interviewing, systematically observing, and testing. They will be exposed to the following types of assessments: academic, behavior, curriculum-based, intellectual, social-emotional, and screening measures.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8550 PSYCHOTHERAPEUTIC INTERVENTIONS (3 credits)
This course provides graduate students knowledge in the application of evidence-based therapeutic interventions that can be utilized with children and adolescents in school, home, and family settings. Various approaches and techniques are presented along with supporting research. Observation and participation in clinical cases may be arranged.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8576 BEHAVIOR ANALYSIS AND INTERVENTIONS (3 credits)
Introduction to experimental methodology, rationale and research literature of changing behavior through behavior modification techniques. Particular attention will be paid to methodological concerns regarding single subject design, ethical considerations and ramifications of behavior intervention with children and youth. (Cross-listed with PSYC 4570)
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8590 PSYCHOLOGY OF EXCEPTIONAL CHILDREN (3 credits)
The content of this course will focus on children who are identified as "exceptional"; in terms of behavioral, cognitive, and learning problems. Exceptionality in this sense includes students who are in need of preventative and/or intervention-based services. The topics will be approached from a multidisciplinary perspective and emphasis will be placed on utilizing a response to intervention approach in working with exceptional individuals. The service-learning component of the course will require students to learn about the educational environment by spending time in an elementary classroom, consulting with school staff and addressing the educational needs of students.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8616 HUMAN FACTORS ENGINEERING (3 credits)
Based on knowledge of human strengths and limitations, this course will provide an overview of how basic principles of human factors can be utilized to reduce error, increase productivity, and enhance safety, comfort, and health. Applications to real-world equipment design, task design, environmental design, selection and training will be included. (Cross-listed with PSYC 4610)
Prerequisite(s)/Corequisite(s): PSYC 1010 or permission of instructor, not open to non-degree graduate students.

PSYC 8636 ORGANIZATIONAL PSYCHOLOGY (3 credits)
This is a survey course which will cover the major concepts, theories and empirical research relevant to organizational psychology. Specific topics will include: work motivation, leadership, decision making and job satisfaction as well as more recent trends such as cultural diversity, work teams, work-family and quality issues. (Cross-listed with PSYC 4630)
Prerequisite(s)/Corequisite(s): Admission to a graduate program or graduate certificate program. Not open to non-degree graduate students.

PSYC 8646 PERSONNEL PSYCHOLOGY (3 credits)
A survey of psychological principles, theories and research related to personnel issues. Course includes discussion of personnel selection, performance appraisal, recruitment, training and health and safety. (Cross-listed with PSYC 4640)
Prerequisite(s)/Corequisite(s): Admission to a graduate program or graduate certificate program, not open to non-degree graduate students.

PSYC 8656 CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 4650, CACT 8506)

PSYC 8700 ETHICS AND LAW FOR PSYCHOLOGY AND APPLIED BEHAVIOR ANALYSIS (3 credits)
This course provides graduate students with advanced knowledge of ethical codes, legal statutes, and case law that guide the profession of psychology and related applied fields with particular attention to the practice of applied behavior analysis. The primary emphasis of the class is on clinic, community- and school-based practice with children and adolescents.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 8806 LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE (3 credits)
This course presents legal principles relevant to all psychological specialties, with special reference to mental health services. Ethical reasoning and the APA ethics code are considered. (Cross-listed with PSYC 4800)
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 8896 GENES, BRAIN, AND BEHAVIOR (3 credits)
This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 4890, BIOL 4890, BIOL 8896)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
PSYC 8900 PROBLEMS IN PSYCHOLOGY (1-6 credits)
A faculty-supervised research project, involving empirical or library work and oral or written reports.
Prerequisite(s)/Corequisite(s): Written permission of department. Not open to non-degree graduate students.

PSYC 8950 PRACTICUM FOR MASTER'S STUDENTS (1-6 credits)
Faculty-supervised experience in industry or business designed to bridge the gap between the classroom and a job, emphasizing use of previously acquired knowledge in dealing with practical problems for master's students.
Prerequisite(s)/Corequisite(s): Written permission of your practicum committee. Not open to non-degree graduate students.

PSYC 8970 MASTER'S LEVEL PRACTICUM IN SCHOOL PSYCHOLOGY (1-6 credits)
Faculty-supervised experience designed to provide experience in academic and behavioral assessment and intervention with children, and consultation with parents and school personnel.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 8980 PRACTICUM IN DEVELOPMENTAL PSYCHOLOGY (1-6 credits)
Faculty-supervised experience in a setting designed to provide a practical understanding of theoretical concepts of human development. Emphasizes direct observation and personal interaction as a means of training, and can be directed toward various populations within the developmental life span (e.g., infants, preschoolers, middle childhood, adolescents, adults, aged persons).
Prerequisite(s)/Corequisite(s): PSYC 9560 and permission of Developmental Psychology Area Committee. Not open to non-degree graduate students.

PSYC 8990 THESIS (1-6 credits)
Independent research project written under supervision of a faculty committee. May be repeated up to a total of six hours.
Prerequisite(s)/Corequisite(s): Written permission of your thesis committee. Not open to non-degree graduate students.

PSYC 9010 PROSEMINAR: STATISTICAL METHODS I (3 credits)
The purpose of this course is to introduce students to the statistical concepts of correlation and regression. The course will cover basic understanding of these techniques, their applications, and interpretations of results.
Prerequisite(s)/Corequisite(s): Graduate standing and an undergraduate course in basic statistics which included an introduction to correlation and linear regression. Not open to non-degree graduate students.

PSYC 9020 PROSEMINAR: STATISTICAL METHODS II (3 credits)
An advanced approach to experimental design and inferential statistics using the analysis of variance models.
Prerequisite(s)/Corequisite(s): A course in basic statistics which included an introduction to analysis of variance. Not open to non-degree graduate students.

PSYC 9030 SEMINAR: TOPICS IN INDUSTRIAL ORGANIZATIONAL PSYCHOLOGY (3-9 credits)
A topic area within field of Industrial Organizational Psychology will be explored in depth.
Prerequisite(s)/Corequisite(s): Admission to Industrial Organizational graduate program and permission of instructor. Not open to non-degree graduate students.

PSYC 9040 PROSEMINAR LEARNING (3 credits)
A comprehensive and intensive coverage of experimental literature on learning in humans and animals.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

PSYC 9070 PROSEMINAR: COGNITIVE PSYCHOLOGY (3 credits)
This course will be a comprehensive overview of the field of cognitive psychology including the topics of attention and performance, memory, problem solving, and language. In addition, there will be a more in-depth coverage of selected issues.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor. Not open to non-degree graduate students.

PSYC 9090 THEORY OF MEASUREMENT AND DESIGN (3 credits)
Study of theoretical and practical problems related to the development and use of psychological measures and research designs covering such topics as scaling, test development, reliability, validity, interpretation of results and generalizability.
Prerequisite(s)/Corequisite(s): PSYC 3130 or equivalent. Not open to non-degree graduate students.

PSYC 9100 SMALL N RESEARCH DESIGNS (3 credits)
This course uses applications of research methodology that involve direct observation and single-subject designs to identify evidence-based practices that address clinical problems experienced by individuals across a variety of settings. Topics covered include behavioral assessment techniques, graphing data, single subject experimental designs, and consumer satisfaction with interventions.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor.

PSYC 9120 MULTIVARIATE STATISTICAL ANALYSIS (3 credits)
An examination of statistical techniques for describing and analyzing multivariate data commonly collected in behavioral research. Analytic techniques derived from general linear model will be considered, focusing on proper interpretation and use. The course is intended for doctoral students in psychology and (selectively) for advanced masters students in behavioral sciences.
Prerequisite(s)/Corequisite(s): PSYC 9090, 9010 and 9020 or permission of instructor. Not open to non-degree graduate students.

PSYC 9130 APPLICATIONS OF ADVANCED STATISTICS IN PSYCHOLOGY (3 credits)
This course covers a variety of statistical tools that may be used to answer research questions for group designs. A primary focus of the class is the application of statistical tools to psychology research and practice.
Prerequisite(s)/Corequisite(s): Admission to a graduate program in Psychology. Not open to non-degree graduate students.

PSYC 9210 PROSEMINAR: PERCEPTION (3 credits)
A comprehensive and intensive coverage of the experimental literature on perception in humans and animals.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9230 PROSEMINAR: BEHAVIORAL NEUROSCIENCE (3 credits)
A study of the biological substrates of behavior with emphasis upon neuroanatomy, neurophysiology and neuropharmacology.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9240 PROSEMINAR: EVOLUTIONARY PSYCHOLOGY (3 credits)
A comprehensive overview of behavioral biology including topics of evolution and behavior, behavioral ecology, physiology and genetics of behavior, and learning.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9290 SEMINAR IN DEVELOPMENTAL PSYCOBILOGY (3-6 credits)
An in-depth analysis of a specific topic in psychobiology.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
**PSYC 9320 SEMINAR IN PROGRAM EVALUATION (3 credits)**
This course is intended to help advanced graduate students in the applied social sciences understand the literature and conduct evaluation research. The history of program evaluation and philosophies manifest in evaluation research are reviewed, alternative evaluation models are discussed, and relevant methodological and practical issues such as quasi-experimental design and utilization are explored.
Prerequisite(s)/Corequisite(s): Students should have prior graduate-level course work or experience in research design and statistics in the applied social sciences. Not open to non-degree graduate students.

**PSYC 9421 ORGANIZATIONAL PSYCHOLOGY AND LEADERSHIP (3 credits)**
This course is a graduate seminar on organizational psychology and leadership that focuses on the understanding and critical analysis of theory and practice pertaining to individual functioning at work. Positive organizational psychological theories and practices will provide the overarching framework in understanding potential solutions to challenges and problems facing leaders and their employees. (Cross-listed with CACT 8520)
Prerequisite(s)/Corequisite(s): Graduate standing or permission of instructor.

**PSYC 9430 PROSEMINAR: PERSONALITY (3 credits)**
A course considering the effects of personality variables on behavior. A historical, theoretical, psychometric and experimental approach will be emphasized.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**PSYC 9440 PROSEMINAR: SOCIAL PSYCHOLOGY (3 credits)**
Examination of theories, research findings and controversies in social psychology. Topics will include socialization; person perception; interpersonal attraction, leadership and group effectiveness; attitudes, attitude measurement, and attitude change; intergroup relations, power and social influence. New topics will be added as they become part of the research interests of social psychologists.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

**PSYC 9460 SEMINAR IN AGING AND HUMAN BEHAVIOR (3 credits)**
This course will examine in detail age-related changes in psychological processes and explore the implications of these changes for behavior. The course is intended for graduate students in psychology and gerontology. Students from other programs may enroll with permission of the instructor. (Cross-listed with GERO 9460)
Prerequisite(s)/Corequisite(s): Graduate standing in gerontology or psychology. Not open to non-degree graduate students.

**PSYC 9470 PRACTICUM IN APPLIED BEHAVIOR ANALYSIS (1-6 credits)**
The practicum in applied behavior analysis provides students with intensive supervised experience providing behavior analytic services to improve the well-being of children and their families. Students will be assigned to practicum sites based on their respective interests, career goals, and availability of positions.
Prerequisite(s)/Corequisite(s): One semester of coursework in the Applied Behavior Analysis Master’s degree program or admission to the Applied Behavior Analysis Certificate program. Not open to non-degree graduate students.

**PSYC 9500 SOCIOEMOTIONAL DEVELOPMENT (3 credits)**
This seminar is designed to provide an in-depth examination of the research literature on socioemotional development (emotional development that influences social behavior & development), with particular emphasis on both classic issues and current topics of debate. The course topics cover issues of importance in infancy, childhood, and adolescence. Research methods, as they apply to socioemotional development, will be emphasized throughout the course.
Prerequisite(s)/Corequisite(s): Graduate standing and PSYC 9560. Not open to non-degree graduate students.

**PSYC 9510 RESEARCH METHODS IN DEVELOPMENTAL PSYCHOLOGY (3 credits)**
This course is designed to provide graduate students in developmental psychology and school psychology with the necessary skills to enable them to frame a research question and to design a study to answer that question. In addition, students will become familiar with methodologies for specialized areas within developmental psychology. Research ethics is a major component in the course.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

**PSYC 9520 LANGUAGE DEVELOPMENT (3 credits)**
Students will explore the course of language development as well as current theoretical views attempting to explain how language is acquired. Coverage includes all aspects of language including phonology, syntax, semantics, and pragmatics. A portion of this course will be devoted to current computer-based methods in the analysis of child language.
Prerequisite(s)/Corequisite(s): PSYC 9560 or a background in linguistics or communication disorders. Not open to non-degree graduate students.

**PSYC 9530 COGNITIVE DEVELOPMENT (3 credits)**
This course covers contemporary issues in theory and research concerning the development of processes by which environmental information is perceived, attended to, stored, transformed and used. Both Piagetian and information processing orientations will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

**PSYC 9540 MEMORY AND MECHANISM OF DEVELOPMENT (3 credits)**
The focus of this course is on research and theory concerning transition processes in cognitive development. Topics include the role of memory in development and the mechanisms underlying children’s advancing cognitive abilities. The emphasis on memory is based on the assumption that mental representations are crucial for development to take place.
Prerequisite(s)/Corequisite(s): PSYC 9560. Not open to non-degree graduate students.

**PSYC 9550 PSYCHOSOCIAL DEVELOPMENT (3 credits)**
A seminar focusing on research methods, theory and the empirical literature as they apply to social and personality development across the life span. All students will be expected to design and conduct a mini-observational experimental study in some specific area of social and personality development.
Prerequisite(s)/Corequisite(s): Graduated standing and PSYC 9560. Not open to non-degree graduate students.

**PSYC 9560 PROSEMINAR: DEVELOPMENTAL PSYCHOLOGY (3 credits)**
A survey of developmental processes across the life-span, with a particular emphasis on the interface of biological, cognitive and social influences. Theories of human development and issues pertaining to developmental processes are examined. The primary focus in the course is on the research literature pertaining to developmental psychology. Special emphasis is given to the role of context in development and to the topics of research methods, multicultural factors in development and social policy.
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

**PSYC 9570 APPLIED BEHAVIOR ANALYSIS (3 credits)**
A comprehensive introduction to experimental methodology in applied behavior analysis. Topics covered include observational recording systems, reliability indices, procedural implementation of behavioral techniques, single-subject research designs and a broad review of the research literature.
Prerequisite(s)/Corequisite(s): A minimum of one course in learning theory (PSYC 8560, PSYC 8576, PSYC 9040, or equivalent) and permission. Not open to non-degree graduate students.
PSYC 9580 PSYCHOLOGICAL ASSESSMENT IV: ADULTHOOD (3 credits)
This course deals with intelligence, perceptual, and achievement tests and projective and objective personality methods for the psychological assessment of adults. It is intended for advanced graduate students in psychology preparing to be clinical practitioners in schools and mental health facilities.
Prerequisite(s)/Corequisite(s): PSYC 8520; PSYC 8530 and/or PSYC 8540; PSYC 8590 or PSYC 8446; and permission of instructor. Not open to non-degree graduate students.

PSYC 9590 SEMINAR IN DEVELOPMENTAL PSYCHOLOGY (3-9 credits)
Faculty and student presentations organized around one of the following three major subdivisions of child psychology: (1) Social and personality development, (2) Developmental changes in memory and learning, (3) Cognitive growth and functioning. The course may be repeated each time a different topic is covered, up to a maximum total of nine credit hours.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PSYC 9600 DEVELOPMENTAL PSYCHOPATHOLOGY: RESEARCH AND PRACTICE (3 credits)
This advanced course provides an overview of developmental factors relevant to psychopathology across the life span. Emphasis is on analysis of research, and adoption of research findings to therapeutic interventions and programs.
Prerequisite(s)/Corequisite(s): PSYC 4440 or 8446, 9010 or 9020, 9560; admission to program in PSYC or a related field and permission of instructor. Not open to non-degree graduate students.

PSYC 9610 INDUSTRIAL MOTIVATION & MORALE (3 credits)
A course focusing on theory and research in the areas of work motivation, work behavior and job satisfaction. Emphasis is placed on such topics as expectancy theory, job redesign, leadership, absenteeism, turnover, goal setting and behavior modification.
Prerequisite(s)/Corequisite(s): Admission into industrial/organizational psychology graduate program and permission of instructor. Not open to non-degree graduate students.

PSYC 9620 INDUSTRIAL TRAINING AND ORGANIZATIONAL DEVELOPMENT (3 credits)
This course will review theory and research relevant to training and organizational development, with emphasis on diagnosis, design, implementation, and evaluation. Practical concerns associated with intervention will be addressed.
Prerequisite(s)/Corequisite(s): Admission into industrial/organizational psychology graduate program and PSYC 9090, PSYC 9010, and PSYC 9020. Not open to non-degree graduate students.

PSYC 9630 LEADERSHIP THEORIES AND RESEARCH (3 credits)
The purpose of this course is to provide the student with a thorough review of the theories and research in the area of leadership. Theories reviewed will be those that focus on the role of the individual in effective leadership, the role of the situation, and the role of the followers. Special attention will be given to the psychological theories of leadership. The application of leadership research and theory to areas such as selection and training will also be reviewed.
Prerequisite(s)/Corequisite(s): Admission into the psychology graduate program or graduate standing and instructor permission. Not open to non-degree graduate students.

PSYC 9640 PROBLEM SOLVING & DECISION MAKING (3 credits)
The primary objective of the course is to acquaint students with some of the major conceptual, methodological, and measurement issues within the field of problem solving and decision making. Due to the scope of this field, the course will focus on the psychological research on individual decision making, with special emphasis on the cognitive and motivational processes underlying problem solving and decision making. The second major objective of the course is to encourage students to creatively integrate and apply decision making approaches and findings to traditional areas of concern to the industrial-organizational psychologist (e.g., employee selection, performance appraisal, training, leadership, motivation). The third objective is to hone students’ critical thinking skills and their ability to present their ideas in a clear and coherent manner using oral and written formats.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 9650 RESEARCH METHODS IN PSYCHOLOGY (3 credits)
A course designed to allow students to integrate and extend their knowledge and understanding of psychological research. Students will develop skills in writing research proposals, conducting research, and preparing manuscripts for publications.
Prerequisite(s)/Corequisite(s): PSYC 9010 or PSYC 9020. Not open to non-degree graduate students.

PSYC 9660 CRITERION DEVELOPMENT AND PERFORMANCE APPRAISAL (3 credits)
An in-depth examination of the fundamentals of personnel psychology including job analysis, criterion development and performance measurement and appraisal in organizations. Practical experience in the application of techniques and procedures is emphasized through group projects and individual projects in organizational settings.
Prerequisite(s)/Corequisite(s): Admission to industrial/organizational psychology graduate program and PSYC 9090 (may be taken concurrently). Not open to non-degree graduate students.

PSYC 9670 PERSONNEL SELECTION (3 credits)
An exploration of current theory and practice in personnel selection. Problem solving strategies are emphasized through the design, analysis, and interpretation of selection research and the implementation of selection programs consistent with Equal Opportunity Guidelines and federal law.
Prerequisite(s)/Corequisite(s): Admission to industrial organizational psychology graduate program, PSYC 9660. Not open to non-degree graduate students.

PSYC 9780 ADVANCED CONSULTATION IN PSYCHOLOGY AND EDUCATION (3 credits)
The course is designed to provide education and psychology professionals a comprehensive understanding of foundational theories and processes of consultation applied to education and psychology problems of children. A major objective is to focus on developing consultation skills considered necessary to be an effective consultant through direct practice and feedback. The course will emphasize the relationship between the consultant and parents, teachers, and other professionals within the school and child mental health settings.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 9790 SEMINAR IN SCHOOL PSYCHOLOGY: ADMINISTRATION OF PSYCHOLOGICAL SERVICES (3 credits)
This course is designed to give the advanced student in the School Psychology Program an overview of significant professional topics in the field, particularly administration of psychological services. Ordinarily topics such as state licensing laws, state of Nebraska certification requirements, public and state laws, special education department guidelines, roles and functions and ethics will be included in the course.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program. Not open to non-degree graduate students.
PSYC 9910 TOPICAL SEMINAR IN PSYCHOLOGY (1-3 credits)
A discussion of specific advanced topics which will be announced whenever the course is offered.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

PSYC 9940 SCHOOL PSYCHOLOGY APPLIED RESEARCH PROJECT (1-7 credits)
The applied research project consists of students conducting an independent research project from start to finish. This project should have relevance to a practical aspect of school psychology and provide a unique contribution to the field. It may be quantitative or qualitative in nature, and must rely on sound research methodology.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

PSYC 9950 PRACTICUM FOR DOCTORAL STUDENTS (1-6 credits)
Faculty-supervised experience in industry or business designed to bridge the gap between the classroom and a job, emphasizing use of previously acquired knowledge in dealing with practical problems for doctoral students.
Prerequisite(s)/Corequisite(s): Admission to industrial/organizational psychology graduate program. Not open to non-degree graduate students.

PSYC 9960 RESEARCH OTHER THAN THESIS (1-12 credits)
Research work under supervision of a faculty member. May be repeated up to a total of 12 credit hours.
Prerequisite(s)/Corequisite(s): Enrollment in a graduate program beyond the master’s level. Not open to non-degree graduate students.

PSYC 9970 ED.S. LEVEL PRACTICUM IN SCHOOL PSYCHOLOGY (1-6 credits)
School Psychology School-Based Practicum is a capstone course in school psychology intended for students who have completed their Master’s degree in School Psychology. This course is designed to reflect the scientist-practitioner model of training and practice in School Psychology. To accomplish this goal, students will be assigned to a practicing school psychologist employed by the public schools. The content of this course will focus on integrating previous and concurrent training experiences from courses and field experiences.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 9980 INTERNSHIP IN SCHOOL PSYCHOLOGY (3-6 credits)
School Psychology Internship is the final course in school psychology intended for students who have completed all of their other coursework. It is a 1200 hour culminating experience leading to licensure/certification as a school psychologist in most states, and eligibility for the NCSP exam. The internship requires that students apply the domains of training and practice that are outlined in the School Psychology program philosophy and training objectives. University and site-based supervision is required.
Prerequisite(s)/Corequisite(s): Admission to School Psychology Graduate Program and/or permission of instructor. Not open to non-degree graduate students.

PSYC 9990 PSYCHOLOGY DISSERTATION (1-24 credits)
The course provides doctoral candidates in Psychology with a process to complete a dissertation research plan. The course learning activities will focus on the completion of a candidate’s dissertation. The course is designed to allow advanced doctoral candidates to demonstrate technical mastery of the discipline and to advance knowledge by completing an investigation.
Prerequisite(s)/Corequisite(s): Must be admitted to a graduate level PSYC program or permission of instructor. Not open to non-degree graduate students.

Public Administration (PA)

PA 8010 THE PUBLIC ECONOMY (3 credits)
This course focuses on microeconomics and its application to policy and management in the public and non-profit sectors. The concept of efficiency is developed along with the goal of social equity to help determine the roles of the public, private, and non-profit sectors. Some key issues examined are: the balance between equity and efficiency, government intervention in the market, privatization of public services, and cost benefit analysis.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8020 AVIATION MANAGEMENT AND POLICY (3 credits)
The purpose of the course is to acquaint students with advanced concepts of aviation administration and the implementation of aviation policy within the public sector and to identify key concepts and critical issues both domestic and international. The primary focus is to explore the various effects that have resulted from the formation and enactment of major aviation and transportation regulatory issues. (Cross-listed with AVN 8020).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8030 INTERNSHIP IN PA (1-6 credits)
Maximum of 3 hours to be granted upon completion of written report on internship. Internship in some government: national, state, local or nonprofit agency and in some instances public-oriented private agencies. Students will take course as Satisfactory/Unsatisfactory. An additional 3 hours may be taken through PA 8040.
Prerequisite(s)/Corequisite(s): Nine hours of MPA coursework and permission of school. Not open to nondegree students

PA 8040 INTERNSHIP IN PA (1-6 credits)
Maximum of 3 hours to be granted upon completion of written report on internship. Internship in some government: national, state, local or nonprofit agency and in some instances public-oriented private agencies. Students will take the course as Satisfactory/Unsatisfactory. An additional 3 hours may be taken through PA 8030.
Prerequisite(s)/Corequisite(s): Nine hours of MPA course work and permission of the school. Not open to nondegree students.

PA 8050 FOUNDATIONS OF PUBLIC ADMINISTRATION (3 credits)
The purpose of this course is to introduce the student to the art and science of public administration and to enable the student to develop the knowledge, skills and abilities requisite to the pursuit of graduate education in public administration.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8060 ACCOUNTING AND FINANCIAL REPORTING FOR PUBLIC MANAGERS (3 credits)
This course focuses on the basic elements of governmental and non-profit accounting and their managerial implications. The course is directed toward students who have entered the Master’s of Public Administration Program and who have little if any academic course work in accounting.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8070 CASE RESEARCH (3 credits)
The purpose of this course is to introduce the student to key concepts through the casewriting method of interactive learning. Issues within the public sector will be explored. The casewriting experience integrates key issues and concepts. This opportunity allows the student to explore specific topical areas through the case research method. (Cross-listed with AVN 8070)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students

PA 8090 ORG THEORY & BEHAVIOR (3 credits)
a study of the various approaches to understanding public organizations and people in them with special emphasis on the design, functioning and management of public agencies.
Prerequisite(s)/Corequisite(s): Not open to nondegree students
PA 8100 ADVANCED MANAGEMENT AND LEADERSHIP FOR PUBLIC AND NONPROFIT PROFESSIONALS (3 credits)
This course is designed to advance students' understanding and techniques about the role of leadership and ethics in the public and nonprofit sectors. Special attention will be paid on the application of theories of leadership and ethics to manage various boundary spanning activities including managing external relationships, collaborations/networks, performance, and innovation and change. (Cross-listed with AVN 8100)
Prerequisite(s)/Corequisite(s): PA 8050 and PA 8090. Not open to non-degree graduate students.

PA 8106 MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS (3 credits)
This course will focus on developing a working knowledge of marketing and its component parts as they may be applied to non-profit organizations. Emphasis will be placed on understanding the marketing process and applying marketing principles to real organizational settings. (Cross-listed with PA 4100).
Prerequisite(s)/Corequisite(s): Graduate and permission of instructor, and PA 8010, PA 8090; or permission of department.

PA 8110 MANAGING INFORMATION IN THE PUBLIC SECTOR (3 credits)
This course is directed toward in-career and pre-career students in public administration who wish to acquire knowledge of issues in the management of information in the public sector and the basics of computing applications in the public sector. Its primary focus is on special issues in the management of information.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090, or permission of school. Not open to non-degree graduate students.

PA 8120 ANALYSIS AND DECISION MAKING (3 credits)
This course assists students to develop their skills in research design and data analysis, covering both qualitative and quantitative data relevant to public affairs. The course introduces students to the fundamentals of research design, data collection, data and statistical analysis, and drawing pertinent policy and management recommendations. (Cross-listed with AVN 8120).
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8130 MANAGING DIGITAL GOVERNANCE (3 credits)
This course equips current and future public and nonprofit managers with capabilities and strategies to evaluate, participate in, and/or lead an information technology (digital governance) project to improve or even transform public service and governance. Because information technology has become increasingly integrated into public service and governance, understanding the role of information and information technology in government has become a necessity. This course provides the concepts and tools for public and nonprofit managers to succeed in the information age by better managing information as a resource and information technology as an enabler for public services and governance. The topics include digital divide, online participation, strategic IT management and change management, information resource and knowledge management, financing IT projects, IT project and performance management, management of IT outsourcing, and business process management. Basic literacy in computing and information technology is an integral part of the course. The discussion of these topics will address the growing use of information and communication technologies such as social media, smart mobile devices, and internet of things. Moreover, this course addresses the interplay of management, technology, and policy in the context of public service organizations, including governmental and non-profit organizations. This course offers the best of both practical and academic worlds via assigned readings and exercises, discussions, and a service-oriented project. The emphasis is on research-based knowledge and best practices informing one another. The class discussion is aimed at integrating professional experience with quality research to generate additional insights.
Prerequisite(s)/Corequisite(s): PA 8050. Not open to non-degree graduate students.

PA 8206 COMMUNITY ORGANIZING & SOCIAL CHANGE (3 credits)
This course will focus on various theories and applications of organizing communities and neighborhoods to effect change. Of particular interest is the role of engaging citizens in improving their communities. (Cross-listed with PA 4200).
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

PA 8300 POLICY DESIGN AND IMPLEMENTATION (3 credits)
This course examines the formulation, adoption, implementation and evaluation of public policy. Important topics include the basic features of American government, the causes and determinants of public policies, the dynamics of decision-making in the public sector, the obstacles to "successful" public programs, and the criteria for the assessment of a public program’s impact. Special emphasis is given to the role public managers play within the policy process.
Prerequisite(s)/Corequisite(s): PA 8050, 8090 and 8120, not open to non-degree graduate students.

PA 8320 PUBLIC POLICY EVALUATION (3 credits)
This course is designed to have the students understand the role of evaluation in the policy process, to demonstrate how to conduct and implement evaluations of public programs, to illustrate the procedures for presenting an evaluation report to public officials and citizens, to introduce operational issues and problems associated with management of an office of policy evaluation, and to insure the exploration of conflicts and limitations inherent to public policy evaluation.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120 and completion of at least 24 hours in the MPA program, not open to non-degree students.

PA 8330 SEMINAR IN POLICY ANALYSIS (3 credits)
Application of analytical techniques to the assessment of alternative courses of public action and the development and design of public programs; utilization and impact of expert analysis by public officials and political groups; impact and role of technical analysis in a democracy; management of policy analysis units within government.
Prerequisite(s)/Corequisite(s): PA 8050 and PA 8120, not open to non-degree graduate students.

PA 8400 PUBLIC BUDGETING (3 credits)
The purpose of the course is to familiarize public administration students with the basic characteristics and features of public budgets and enable them to deal competently with them.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree graduate students.

PA 8410 PUBLIC HUMAN RESOURCE MGMT (3 credits)
A study of the personnel process in American governmental administration. The processes and problems of recruiting, structuring and operating public bureaucracies are examined as well as problems in personnel leadership, neutrality, accountability and performance.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree students.

PA 8420 PUBLIC WORKS MANAGEMENT (3 credits)
This course is designed to develop an understanding of the profession of public works management, and its relationship with urban service delivery. Students will learn substantive specialty areas of public works, as well as management techniques to improve service delivery efficiency.
Prerequisite(s)/Corequisite(s): PA 8050. Not open to non-degree graduate students.

PA 8436 MUNICIPAL ADMINISTRATION (3 credits)
The administrative structure and administrative practices of American cities covering such areas as finance, personnel, public works, public safety, health, utilities and planning. (Cross-listed with PA 4430).
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 or permission of school. Not open to non-degree graduate students.
PA 8440 ORGANIZATION DEVELOP. & PLANNED CHANGE IN THE PUBLIC SECTOR (3 credits)
This course provides students with the theories and skills necessary to manage organizational change in the public sector. To accomplish this will require that the student become versed in the strategies of organizational development (OD) and planning in the public sector while at the same time mastering intervention techniques.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090, PA 8120 and completion of at least 24 hours in the MPA, not open to non-degree graduate students.

PA 8450 SEMINAR IN ADVANCED MANAGEMENT ANALYSIS IN PUBLIC AGENCIES (3 credits)
A study of theory and method related to analysis of problems of organization and workflow in public agencies. The course includes problem analysis, field study methods, design of improved methods, selecting alternatives and developing decision packages.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090, PA 8120 and completion of at least 24 hours in the MPA program.

PA 8460 SEMINAR IN PUBLIC PERSONNEL ADMINISTRATION (3 credits)
This course focuses on the principal considerations affecting the selection and utilization of personnel by government agencies. The emphasis is less in terms of description of processes than in terms of identifying and exploring solutions to problems.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8090, PA 8410 or permission of school. Not open to non-degree graduate students.

PA 8470 ADMINISTRATIVE ETHICS AND LEADERSHIP (3 credits)
Ethical action and effective leadership are especially important in public service and they are closely related. This course introduces students to concepts from public sector ethics and from leadership theory. Emphasis is placed on decision-making processes, relationships between public and nonprofit sector professionals and elected officials and citizens, and the role of the career public service professional in a democratic society.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8480 SEMINAR IN PUBLIC FINANCIAL ADMINISTRATION (3 credits)
The study of public finance administration policy and techniques areas. Emphasis is placed on the technical aspects of public finance administration with particular emphasis on the purposes, processes and issues associated with particular techniques or technique areas. (Cross-listed with AVN 8480).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of department.

PA 8496 PUBLIC SECTOR LABOR RELATIONS (3 credits)
This course deals with the origin, characteristics and implications of public sector employee unions and how they relate to public sector personnel practices. (Cross-listed with PA 4490).
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8500 ISSUES IN PUBLIC-PRIVATE SECTOR COOPERATION (3 credits)
This course introduces students to the organization and processes, as well as the tools and techniques, of public-private sector cooperation. The objective of such a course is to familiarize students with the concepts and skills needed to develop and administer joint activities between the public and private sectors. Such cooperative activities have become an important aspect of public administration in recent years.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050, PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8516 LONG-TERM CARE ADMINISTRATION (3 credits)
An investigation of the broad range of policy issues, theoretical concerns and practical management strategies influencing the design, organization and delivery of long-term care services. (Cross-listed with GERO 4510, GERO 8516, PA 4510).
Prerequisite(s)/Corequisite(s): Permission of instructor and PA 8050, PA 8090 or permission of school. Not open to non-degree graduate students.

PA 8520 SEMINAR IN GRANT WRITING (3 credits)
This course explores the grant-writing process from initial conceptualization through submission and award to final report. The purposes of the course are to provide graduate students with the expertise and tools needed to fund their own research, to provide effective grant-writing assistance to faculty mentors and other colleagues, and to compete more effectively in the job market and/or for acceptance into doctoral and post-doctoral programs.
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090. Not open to non-degree graduate students.

PA 8530 PLANNING AND EVALUATION (3 credits)
The basic question presented in this course is how we can use strategic planning and evaluation to build public and nonprofit organizations that function creatively and effectively, and that enhance the overall public value of their services.
Prerequisite(s)/Corequisite(s): PA 8100, PA 8050, PA 8090, and PA 8120 and PA 8300, not open to nondegree students

PA 8550 INTRO NONPROFIT SECTOR (3 credits)
This course focuses on the contribution and importance of philanthropy, volunteerism and nonprofit organizations in society. Includes the differentiation between both public and private nonprofit organizations and the for profit sector. Management issues regarding nonprofit agencies is introduced.
Prerequisite(s)/Corequisite(s): Permission of adviser and PA 8010 and PA 8090, not open to nondegree students

PA 8550 NONPROFIT FINANCIAL MANAGEMENT (3 credits)
The focus of this course is on developing an understanding of the managing of financial resources within a nonprofit organization. A special emphasis is also placed on developing and executing budgets for such organizations.
Prerequisite(s)/Corequisite(s): Graduate standing and PA 8550 or permission of instructor. Not open to non-degree graduate students.

PA 8566 INTERGOVERNMENTAL MANAGEMENT (3 credits)
This course is directed at those who wish to improve their knowledge and understanding of intergovernmental relations as it impacts policy and administration in the United States. The course will look at history and theoretical underpinnings of intergovernmental relations, the different elements of these relationships and review specific management arenas that are affected by these relationships. (Cross-listed with PA 4560).
Prerequisite(s)/Corequisite(s): PA 8010, PA 8050 and PA 8090; or permission of school. Not open to non-degree graduate students.

PA 8580 NONPROFIT HUMAN RESOURCES MANAGEMENT (3 credits)
This graduate-level course provides an introduction to the theories, principles, policies and practices related to leading and managing human resources in nonprofit organizations, including personnel, board and volunteer management and development.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of adviser; PA 8050; or permission of school. Not open to non-degree graduate students.
PA 8596 TECHNIQUES TOPICS IN NONPROFIT MANAGEMENT (1-3 credits)
A variable content course emphasizing nonprofit management techniques and topics. Topics include nonprofit leadership, board executive staff, roles and relationships, personnel and volunteer management, financial management, proposal and grant writing, community resources, special events planning and administration, needs assessments and legal ethical aspects. (Cross-listed with PA 4590).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8600 ADMINISTRATIVE LAW (3 credits)
A review of the principal elements of the role and character of legal processes in government administration, including delegation of powers, legal forms of administrative action, liability of government units and officers and judicial review of administrative action.
Prerequisite(s)/Corequisite(s): PA 8050, not open to non-degree graduate students.

PA 8616 MUNICIPAL LAW (3 credits)
This course is directed at both graduates and undergraduates who wish to have some exposure to the legal issues which affect public administrators. At the conclusion of the course, each student should have a basic understanding of municipal law which defines the parameters within which a public administrator must function, as well as other laws or legal concepts which will affect them on a day-to-day basis. Upon completion of the course, the student should be able to identify potential legal problems with their proposed actions. (Cross-listed with PA 4610).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8676 PRGRMS & SERVICES FOR ELDERLY (3 credits)
This course is provided to give the student a historical overview of programs for the elderly; examine the national policy process as it relates to the older American; and review the principles and practices relative to the existing national programs for the aged. (Cross-listed with GER08676)
Prerequisite(s)/Corequisite(s): Not open to nondegree students

PA 8710 FUND RAISING IN PUBLIC AND NON-PROFIT ORGANIZATIONS (3 credits)
The purpose of this course is to introduce students to a variety of fund raising methods, provide the context in which these methods might be used, and provide an understanding of how fund raising operates within public and not-for-profit organizations.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of instructor, PA 8010, and PA 8090; or permission of school. Not open to non-degree graduate students.

PA 8720 HEALTH CARE FINANCE (3 credits)
Health care finance represents an analysis of health care concepts, issues and trends from a health care and an organizational perspective. Application of specific principles, concepts, and techniques of financial management to health care systems will be addressed. Examination of the role and responsibilities of health care administrators in relation to financial management will also be explored.
Prerequisite(s)/Corequisite(s): PA 8120; not open to non-degree graduate students.

PA 8730 ADMINISTRATION OF HEALTH CARE SYSTEMS (3 credits)
This course is designed to familiarize students with the structure and administration of health services systems in the United States. It addresses quality, access and cost of the health services delivery, personnel and funding resources, traditional and alternative health services delivery settings, and forces that shape the current and future health care sector.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of school. Not open to non-degree graduate students.

PA 8740 HEALTH CARE POLICY (3 credits)
This course helps students understand major health care policy making and related issues. It focuses on the history/background; physical, social, and economic environment; policy process; and political marketplace of contemporary U.S. health care policies. Topics include health care reform, cost containment, indigent health care and urban vs. rural health care. A health care background is helpful, but not required.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8760 THE U.S. HEALTH CARE SYSTEM (3 credits)
Overview of the U.S. health and medical care delivery system. Topics are covered from a historical, economic, sociological, and policy perspective and include the following: social values in health care; need, use, and demand for services; providers of health systems; public and private payment systems; alternative delivery systems; and models from other countries.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

PA 8810 SEMINAR IN METROPOLITAN PLANNING (3 credits)
An overview of the present status of planning in metropolitan areas with special emphasis on structure of planning departments, comprehensive plans and problems of annexation.
Prerequisite(s)/Corequisite(s): PA 8050 or permission of instructor or permission of school. Not open to non-degree graduate students.

PA 8825 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
Seminars on environmental law and regulations. Addresses federal regulations, implementing instructions, legal principles, and requirements. The major federal environmental laws, air and water quality, solid and hazardous waste, and pollution prevention and remediation are discussed. Usually offered Fall semesters. (Cross-listed with BIOL 4820, BIOL 8826, ENVN 4820, GEOG 4820, GEOG 8826, PA 4820).
Prerequisite(s)/Corequisite(s): Junior-senior and permission.

PA 8896 SPECIAL TOPICS PUBLIC ADMIN (3 credits)
A course with the purpose of acquainting the student with key issues and topics of special concern to public and non-profit management that they otherwise would not receive elsewhere. No more than six hours of total credit in PA 8896 and PA 8906 can be taken without prior permission by the graduate program committee. Further, each topic in the course will need the approval of the Dean of Graduate Studies prior to being offered. (Cross-listed with AVN 4890, AVN 8896, PA 4890)

PA 8906 SPECIAL TOPICS IN PUBLIC ADMINISTRATION (1-3 credits)
A variable content course with Public Administration and Urban Studies topics selected in accordance with student and faculty interest. Possible topics include urban homesteading, administrative federalism and economic development and the public sector. (Cross-listed with PA 4900).
Prerequisite(s)/Corequisite(s): PA 8050 or permission of the school. Not open to non-degree graduate students.

PA 8920 READINGS IN PUBLIC ADMIN (1-3 credits)
Specially planned readings in public administration for the graduate student who encounters scheduling problems in the completion of his degree program, or who has special preparatory needs and who is adjudged by the department to be capable of pursuing a highly independent course of study.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120, not open to nondegree students.

PA 8930 NEGOTIATION SKILLS MANAGEMENT (3 credits)
This course will focus on the theories of negotiation and the negotiating process.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090, not open to nondegree students.
PA 8940 RESEARCH IN PUBLIC ADMIN (1-3 credits)
The course is intended for advanced graduate students in public administration. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of public administration rather than additional classroom courses.
Prerequisite(s)/Corequisite(s): PA 8010 and PA 8050 and PA 8090 and PA 8120, not open to nondegree students

PA 8970 INTRO TO QUAL RESEARCH (3 credits)
The purpose of this course is to provide an introduction to qualitative research and its application in public administration. Students will learn the philosophic assumptions underlying qualitative research methods, especially as they differ from quantitative methods. Students will study the process of qualitative inquiry— including the formulation of research questions, collection and analysis of data, various strategies (e.g. case studies and ethnographies), verification, and the place of theory and literature in the research process.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program and PA 8050, not open to nondegree students

PA 8980 THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and members of the graduate student's Thesis Advisory Committee. In this project, the student will develop and perfect a number of skills including the ability to design, conduct, analyze, and report the results in writing (i.e., thesis) of an original, independent scientific investigation. The project plan must be approved by the student's Thesis Advisory Committee. (Cross-listed with AVN 8980)
Prerequisite(s)/Corequisite(s): Graduate major in Public Administration and approval of Thesis Advisory Committee, not open to nondegree students

PA 8990 CAPSTONE PROJECT IN PUBLIC ADMINISTRATION (3 credits)
The Capstone Project offers each student the opportunity to demonstrate mastery of the theory and practice of public administration by applying the knowledge and skills gained in the MPA program to a project of the student's choice. This involves completing a project report reflecting the cumulative knowledge gained from these experiences. The course is intended only for students who are completing their Masters of Public Administration (MPA).
Prerequisite(s)/Corequisite(s): Completion of at least 30 hours in the M.P.A., PA 8050, 8100, 8090, 8120, 8300, 8400, 8530 and school permission. Not open to nondegree students

PA 9000 FOUNDATIONS OF PUBLIC ADMIN (3 credits)
This course is designed as a doctoral seminar that surveys the development of public administration from its earliest antecedents to the present day, taking both a historical and topical approach.
Prerequisite(s)/Corequisite(s): Admission into the doctoral program. Not open to nondegree students

PA 9080 ADVANCED STATISTICAL APPLICATIONS (3 credits)
This is a required course which will provide the student with fundamentals of modern statistical techniques used in criminal justice and public affairs research. Cross-listed with CJUS 9080.
Prerequisite(s)/Corequisite(s): CJUS/PA 8950. Not open to nondegree students

PA 9200 THEORIES OF THE POLICY PROCESS (3 credits)
Proseminar in public policy with emphasis on the development and application of theories of the formulation, adoption, and implementation of public policy.
Prerequisite(s)/Corequisite(s): Completion of a Master's degree in Public Administration or a related field, and permission of the instructor. Not open to nondegree students.

PA 9300 KNOWLDG DEV/USE PUB SERV PROFF (3 credits)
This course will examine current issues in knowledge, development and use in the public service professions. Emphasis is placed on understanding various systematic research to affect social change.
Prerequisite(s)/Corequisite(s): Admission to doctoral program. Not open to nondegree students

PA 9400 THE ENVRMNT OF PUBLIC ADMIN (3 credits)
The purpose of this course is to enable the doctoral student to understand the role and responsibility of public administration in the context of the broader political economy.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students

PA 9420 ORGANIZATIONAL DYNAMICS (3 credits)
This course is designed as a doctoral seminar which expands the student's knowledge of organizations and the people in them. It will equip the student to understand and develop the behavior necessary for success at upper levels of administration in the public sector.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students

PA 9600 SMNR:ADVANCED MANAGEMENT THRNY (3 credits)
This course examines how recent advances in management theory may be incorporated into the practice of public administration.
Prerequisite(s)/Corequisite(s): Admission to doctoral program and PA 8090. Not open to nondegree students

PA 9700 PUB BUDGETING FIN THEORY (3 credits)
This seminar is focused on theoretical issues in public budgeting and governmental finance. The aim of the seminar is for the student to understand the central issues in public budgeting and finance, and the place of this field of study within public administration.
Prerequisite(s)/Corequisite(s): Admission to doctoral program. Not open to nondegree students

PA 9800 ADVANCED RESEARCH DESIGN (3 credits)
This is a required course which will expose students to advanced topics in research methods in preparation for writing their doctoral dissertation. It will also apply advanced methodological techniques to problems in the field.
Prerequisite(s)/Corequisite(s): Admission to the doctoral program. Not open to nondegree students

PA 9900 ADVANCED TOPICS (3 credits)
This course provides a format for exploration of topics of interest to advanced students in public administration. Topics covered will change periodically in keeping with the interests of faculty and students. (Cross-listed with AVN 9900)
Prerequisite(s)/Corequisite(s): Admission to PhD program in Public Administration. Not open to nondegree students

PA 9920 TCH’G & PROF SKILLS WKSHOP (1 credit)
The workshop offers training for a career in higher education. Instruction and practice in teaching includes creating and presenting lecture material, facilitating discussion, constructing syllabi, and related matters. Instruction in professional skills includes topics such as interviewing for positions, writing and publishing, and the tenure process.
Prerequisite(s)/Corequisite(s): Admission to Ph.D. program. Not open to nondegree students

PA 9950 QUANTITATIVE METHODS IN PA (3 credits)
This course is designed to prepare the student to understand and apply advanced statistical methods needed in the design and analysis of public administration investigations. The major topics to be covered include research designs, nonexperimental research and specialized research designs, multiple linear regression, analysis of covariance, and logistic regression.
Prerequisite(s)/Corequisite(s): CJUS 8030 or equivalent, PA 8050. Not open to nondegree students.
Recreation-Leisure Study (RLS)

RLS 8000 SPECIAL STUDIES IN RECREATION AND LEISURE STUDIES (1-3 credits)
A series of intensive courses especially designed for (1) practitioners within recreation, parks and leisure services and/or (2) candidate majors within recreation and leisure studies; scheduled as seminars or workshops, according to purpose.
Prerequisite(s)/Corequisite(s): Graduate.

RLS 8050 SEMINAR IN RECREATION THERAPY (3 credits)
Seminars especially designed for recreational therapy majors within recreation and leisure studies and/or practitioners within therapeutic recreation and leisure services.
Prerequisite(s)/Corequisite(s): Graduate standing

RLS 8060 PERSPECTIVES OF LEISURE EDUCATION (3 credits)
A survey approach which will focus on an awareness and understanding of leisure values, lifestyles, contributions, and basic concepts associated with the clinical application of leisure education.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of the instructor.

RLS 8076 CAMPUS RECREATION MANAGEMENT (3 credits)
A review of the knowledge, skills, and abilities required for the management of typical campus recreation programs and facilities. This course will prepare students for entry level positions managing campus recreation employees, programs, facilities and services. (Cross-listed with RLS 4070)

RLS 8080 RT: CLINICAL ASSESSMENT, EVALUATION & RESEARCH (3 credits)
An overview of the role of assessment, evaluation and research and their relevance to the priorities of the field of recreational therapy (RT). A seminar approach that will include historical and philosophical concepts as well as practical experience related to these areas. Special attention will be given to implications for developing a comprehensive understanding of the roles that assessment and evaluation play in the research process in providing information about RT efficacy and outcomes. The course will also provide the candidate an opportunity to develop a research agenda that is consistent with current recreation therapy efficacy needs.
Prerequisite(s)/Corequisite(s): Graduate standing.

RLS 8246 RECREATION ADMINISTRATION (3 credits)
Designed to provide a background of information on public, private, and commercial recreation with special attention to organization, promotion, and development from the administrative aspect. (Cross-listed with RLS 4240)
Prerequisite(s)/Corequisite(s): RLS major and senior status.

RLS 8306 RECREATION PROGRAMMING AND LEADERSHIP (3 credits)
An advanced study of recreational programming and planning through practical applications. Emphasis is upon understanding proven programming and leadership knowledge and skills, understanding participant leisure behavior, understanding participant leisure needs, and skill development in ways through which organizations, agencies and businesses create service to respond to the leisure needs of the consumer. (Cross-listed with RLS 4300)
Prerequisite(s)/Corequisite(s): Junior, senior or graduate.

RLS 8406 TRAVEL AND TOURISM (3 credits)
This course is designed to provide the recreation major or practitioner, and other interested candidates, with an awareness of the major components of the travel and tourism industry, including its costs and benefits to a resident community. (Cross-listed with RLS 4400)
Prerequisite(s)/Corequisite(s): Junior standing.

RLS 8420 LEISURE, PLAY AND HUMAN DEVELOPMENT (3 credits)
An examination of leisure and play as conditions of human development, reflections of human development, and as buffers for adjusting to age-related life events. These three foci will be considered in relationship to the entire life span, and implications will be drawn for recreation and leisure services.
Prerequisite(s)/Corequisite(s): Graduate standing.

RLS 8426 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with RLS 4420, GERO 4420, GERO 8426)

Religion (RELI)

RELI 8156 JUDAISM IN THE MODERN AGE (3 credits)
A critical investigation of Judaism since the Enlightenment emphasizing historical, intellectual and religious-legal developments. Pivotal movements (e.g., Hassidism, Reform, Historical Conservative Judaism, Modern Orthodoxy, Zionism) and major historical events (e.g., the American and French Revolutions, Tsarist oppression, the Holocaust and the establishment of the State of Israel) will be analyzed for their ongoing impact. (Cross-listed with RELI 4150)
Prerequisite(s)/Corequisite(s): Nine hours in religion or permission of instructor.
RELI 8166 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the ‘final solution.’ It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 4160, HIST 4720, HIST 8726)

RELI 8206 COMPARATIVE RELIGIOUS ETHICS (3 credits)
An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4200, CACT 8206)

RELI 8226 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)
This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 4220, CACT 8226)

RELI 8306 EXISTENTIALISM AND RELIGIOUS THOUGHT (3 credits)
A study of existentialism in its theistic (e.g., Kierkegaard) and atheistic (e.g., Sartre) forms, and its impact on recent Jewish and Christian thought. (Cross-listed with RELI 4300)
Prerequisite(s)/Corequisite(s): Junior.

RELI 8406 WOMEN IN ISLAM (3 credits)
This course examines the religious, political and cultural assignments ascribed to Muslim women. Starting with the Qur'an, social, legal, and scriptural norms will be explored through the voices of Muslim women around the world. Passages of the Qur'an, hadiths and the commentaries that lead to the elevation and/ or demise of Muslim women and their rights are studied. Examining the role of the female body, sexuality and seclusion within a historical context will lead to an understanding of the gendering of women in Islam. (Cross-listed with RELI 4400)
Prerequisite(s)/Corequisite(s): Graduate standing.

RELI 8426 MUSLIMS IN AMERICA (3 credits)
This course is designed to familiarize the student with the multiplicity of Muslim voices in the United States and to examine the myths created through stereotyping and orientalizing. The course will also investigate how Muslims in America form identities as hybrids and transnationals and follows the chronological development of American Muslims including their identity construction, religious issues, and politics. (Cross-listed with RELI 4420)
Prerequisite(s)/Corequisite(s): Graduate Standing.

RELI 8900 READINGS IN RELIGION (1-6 credits)
An individually organized program of readings pertinent to one or more topics subordinate to the heading of Religion. To be carried out under the supervision of a member of the graduate faculty. May be repeated twice for credit.
Prerequisite(s)/Corequisite(s): Graduate, permission of instructor, and no incompleted outstanding.

Russian (RUSS)

RUSS 8946 RUSSIAN MASTERPIECES (3 credits)
Russian literature in translation. Critical study of artistic achievements, thought, and values of modern Russian culture through analysis of representative literary texts by major Russian 19th and 20th century writers. (Cross-listed with RUSS 4940)
Prerequisite(s)/Corequisite(s): Junior or permission.

Social Work (SOWK)

SOWK 8026 SOCIAL WORK WITH THE AFRICAN AMERICAN FAMILY (3 credits)
This course seeks to develop in students an awareness and understanding of some of the social and psychological/cognitive realities influencing the behavior of African American youth and families across the lifespan. The content draws new theories, research and social work practice skills relevant to African American youth and families, as well as the cognitive process and social systems which impact African youth and families. Cross-listed with SOWK 4020.
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8046 WORKING WITH MINORITY ELDERLY (3 credits)
This course is designed to provide the student with knowledge of the differing status, attitudes and experiences of the elderly within minority groups. This course examines various service systems and practice models in terms of their relevance and effectiveness in meeting needs of the minority elderly (Cross-listed with GERO 4690, GERO 8696, SOWK 4040)

SOWK 8056 ETHNIC DIVERSITY AND SOCIAL WORK PRACTICE (3 credits)
This course focuses on effective generalist social work practice with clients of ethnic diversity. (Cross-listed with SOWK 4050)
Prerequisite(s)/Corequisite(s): MSW degree students only. Not open to non-degree graduate students.

SOWK 8070 HUMAN BEHAVIOR & THE SOCIAL ENVIRONMENT I (3 credits)
This course covers the major contributions of theories from the biological, behavioral and social sciences relevant to understanding human functioning across the lifespan, particularly infancy through adolescence, within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities) as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): Admission to the MSW program and undergraduate human biology content. Not open to non-degree graduate students.

SOWK 8080 HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT II (3 credits)
This course covers the major contributions of theories from the biological, behavioral and social sciences relevant to understanding human functioning across the life span, particularly young adulthood through late adulthood within the social environment at the micro- and macro-level (e.g., individuals, families, groups, organizations, institutions, and communities) as they relate to effective generalist social work practice.
Prerequisite(s)/Corequisite(s): SOWK 8070. Not open to non-degree graduate students.

SOWK 8090 SOCIAL WELFARE POLICY (3 credits)
This course is an introduction to social welfare policy analysis. The course examines social welfare policy taking into account historical, political, economic, social, and cultural perspectives. Basic concepts and choices are examined in relation to values, ethics, context, social functioning and social consequences.
Prerequisite(s)/Corequisite(s): Admission to the MSW program. Not open to non-degree graduate students.
SOWK 8110 INSTITUTIONAL OPPRESSION (3 credits)
This course is about institutional racism, sexism and classism as it relates to social policy and social injustice. The focus is on how institutional oppressions are related and are mutually reinforcing. The consequences of institutional racism, sexism and classism are examined at the individual, group, family, and agency levels.
Prerequisite(s)/Corequisite(s): Admission to MSW Program or permission of the School of Social Work. Not open to non-degree graduate students.

SOWK 8120 GENERALIST PRACTICE I (3 credits)
This course provides an introduction to the values, ethics, knowledge, and skills of generalist social work practice. Using constructs from the Generalist Intervention Model, systems theory, and the strengths-based perspective, students learn about engagement, assessment, planning and contracting, intervention, evaluation, and termination. Diversity and case management are emphasized as part of bringing planned change to client systems, including individuals and families.
Prerequisite(s)/Corequisite(s): SOWK 8070 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8130 GENERALIST PRACTICE II (3 credits)
This practice course is an introduction to a goal-oriented planned change process with an emphasis on educational, support, and task groups, organizations, and communities. The focus is on building knowledge and developing indirect practice skills in collaboration, planning, empowerment, and advocacy to effect social change using the Generalist Intervention Model.
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or, and SOWK 8080 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8140 GENERALIST SOWK PRACTICUM I (3 credits)
This course is designed to provide supervised, individual and experiential learning offered within the setting of a selected social service agency. The student will be introduced to a variety of social work practice roles, develop professional relationships with client systems and learn to apply different interventions to effect change across the life span. In order to facilitate integration of classroom theory with practice, students will attend a seven-week practicum seminar (2 hours per week).
Prerequisite(s)/Corequisite(s): Prior: (deficiencies determined at admission) grad/undergrad research and grad/undergrad statistics, and permission of the School. Prior to or concurrent: SOWK 8070, SOWK 8090, and SOWK 8130. Not open to non-degree graduate students.

SOWK 8150 GENERALIST SOWK PRACTICUM II (3 credits)
This course is designed to provide supervised, individual, experiential learning offered within the setting of a social service agency, typically the same agency as in SOWK 8140. This course builds upon opportunities provided and competence achieved in Generalist Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 8140, SOWK 8080, SOWK 8110, and SOWK 8150 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8160 RESEARCH & COMPUTER APPLICATIONS (3 credits)
This course focuses on the use of research and computer programs in social work practice. Social and behavioral science research methods are reviewed. Students learn to analyze existing data using SPSS and to write an empirical research report. The use of Microsoft Word, Excel, and PowerPoint in social work practice are explored.
Prerequisite(s)/Corequisite(s): Undergraduate or graduate research course, undergraduate or graduate statistics course. Not open to non-degree graduate students.

SOWK 8220 CLINICAL SOCIAL WORK WITH INDIVIDUALS (3 credits)
This advanced course provides an in-depth study of several theories of personality and behavior, and of therapeutic approaches derived from the theories. Major focus is on therapy with individuals across the life span, but application to family systems is also considered, as well as the fit of each theory within the broader social systems framework.
Prerequisite(s)/Corequisite(s): SOWK 8160 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8230 CLINICAL SOCIAL WORK WITH GROUPS (3 credits)
This advanced course provides knowledge of and experience in working with groups as systems. It includes both assessment of dynamics as well as developing skills in intervention modalities appropriate for working with various types of groups.
Prerequisite(s)/Corequisite(s): SOWK 8220; Not open to non-degree graduate students.

SOWK 8240 SOCIAL WORK PRACTICE WITH CHILDREN (3 credits)
This advanced practice course provides an overview of several social work interventions used with children and adolescents. A brief review of normal child development and the family life cycle is the context for presenting a range of children's problems and special needs. The course will cover several intervention models and address their application in various service settings and in individual, family, group, and social action formats. Children in diverse family settings, institutions, and in minority families and cultures are considered to understand unique therapeutic issues present for them.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8250 SOCIAL WORK PRACTICE WITH FAMILIES (3 credits)
This course considers the family context as a system for therapeutic intervention. The family unit and its diverse forms are defined; theories for assessment and understanding family's interactions across the lifespan are considered, and the alternative modalities useful for treating family dysfunction are presented. As a practice-oriented course, it emphasizes the development of professional skills in working with the family across the lifespan.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8260 SOCIAL WORK PRACTICE WITH OLDER ADULTS (3 credits)
This course in the advanced social work practice curriculum focuses on micro- and macro-level practice skills essential to effective social work practice with older adults. This course emphasizes clinical interventions that focus on individuals and small groups as well as community practice skills that involve social marketing and community organizing, networking, and collaborating with community professionals.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8270 SOCIAL WORK PRACTICE WITH SEXUAL CONCERNS (3 credits)
This course provides a survey of the current knowledge base, theory and research in human sexuality with a focus on advanced practice intervention and prevention approaches for a variety of sexuality issues faced by individuals, couples, and families throughout the lifespan.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8280 SOCIAL WORK PRACTICE WITH COUPLES AND CHANGING FAMILY STRUCTURES (3 credits)
This is an advanced practice course designed to prepare students to provide therapy for couples and families at all life stages who are experiencing problems in intimacy, marital, divorce, or remarriage adjustment.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.

SOWK 8290 SOCIAL WORK PRACTICE IN HEALTH AND MENTAL HEALTH (3 credits)
This course emphasizes the development of advanced level clinical and social work practice skills for working with selected acute and chronic health and mental health conditions affecting individuals across the life cycle.
Prerequisite(s)/Corequisite(s): SOWK 8220. Not open to non-degree graduate students.
SOWK 8400 ADVANCED SOWK PRACTICUM I (3 credits)
This course is designed to provide supervised, individual professional learning experiences offered within the setting of a selected social service agency in the student's chosen concentration. The student will be introduced to a variety of advanced direct and indirect social work practices. The Dual Degree Program is a part of Integrated Practice. Dual Degree students may take SOWK 8400 as their administrative practicum. If so, then PA 8010, 8050 and 8090 must be taken prior to and one course from concentration prior to or concurrently.
Prerequisite(s)/Corequisite(s): SOWK 8190, SOWK 8220, and permission of the School. Not open to non-degree graduate students.

SOWK 8410 ADVANCED SOWK PRACTICUM II (3 credits)
This course is designed to provide supervised, individual professional learning experiences offered within the setting of a social service agency in the student's chosen concentration, typically the same agency as in SOWK 8400. This course builds upon opportunities provided and competence achieved in Advanced Social Work Practicum I.
Prerequisite(s)/Corequisite(s): SOWK 8400 prior to or concurrent. Not open to non-degree graduate students.

SOWK 8420 ADVANCED SOWK PRACTICUM III (1-3 credits)
This course is designed to provide a third supervised, individual professional learning experience offered within the setting of a social service agency in the student's chosen concentration. This course builds upon opportunities provided and competence achieved in Advanced Social Work Practicum II.
Prerequisite(s)/Corequisite(s): SOWK 8410 prior to or concurrent, and permission of the School. Not open to non-degree graduate students.

SOWK 8510 SUPERVISION AND PERSONNEL ADMINISTRATION (3 credits)
This course is an introduction to the administration of social welfare programs in the areas of clinical supervision, administrative leadership, and personnel practices. It provides a basic understanding for professionals who work in agency settings and a foundation for supervisory and administrative practice. It is expected that those who become administrators will build upon this base with specific legal, technical, and procedural knowledge related to their type of agency and level of responsibility.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8516 TREATMENT ISSUES IN CHEMICAL DEPENDENCY (3 credits)
This course addresses chemical dependency treatment issues including denial, minimization, relapse and its prevention, resistance, family dynamics, poly-substance abuse, co-occurring disorders, spirituality and the influence of self-help groups. The education will include the clinical treatment needs of individuals suffering from chemical dependency, taking into consideration diversity, gender, culture and lifestyle. (Cross-listed with COUN 4510, COUN 8516, SOWK 4510).
Prerequisite(s)/Corequisite(s): Admission to counseling program or social work programs or permission of instructor. For social work students, SOWK 8686 or COUN 8696 and SOWK 8696 or COUN 8696 must be taken prior to COUN 8516 or SOWK 8516. Not open to non-degree graduate students.

SOWK 8540 SOCIAL WELFARE PLANNING (3 credits)
This course is a macro practice course in social planning in the context of strategic planning and its application to social policy and program change, administrative planning for social services, and planning at the program, agency, and community level.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8550 SOCIAL JUSTICE AND SOCIAL ADVOCACY (3 credits)
This course provides a perspective on national and international social and economic injustices experienced by people under corporate globalization. Practice implications for social workers are addressed.
Prerequisite(s)/Corequisite(s): SOWK 8170 or admitted as an Advanced Standing student or permission of the School. Not open to non-degree graduate students.

SOWK 8560 ADVANCED COMMUNITY PRACTICE (3 credits)
The course uses a community-based service-learning pedagogy designed to help students develop an analytical and empirical approach to empowering communities. The course builds on the social work “person-in-environment” perspective by focusing on the client system and their environmental contexts as a partner in practice. This course is particularly relevant to direct practice with and advocacy for diverse disempowered groups in society.
Prerequisite(s)/Corequisite(s): 85 Degree or SOWK 8170. Not open to non-degree graduate students.

SOWK 8570 ADMINISTRATION OF SOCIAL WELFARE AGENCIES (3 credits)
This course is an advanced macro practice course in administration of social welfare agencies and programs which focuses on resource acquisition, leadership, and financial management in public, non-profit, and for-profit social agencies.
Prerequisite(s)/Corequisite(s): SOWK 8540. Not open to non-degree graduate students.

SOWK 8600 PERMANENCE FOR CHILDREN (3 credits)
This course is about the child welfare system and focuses on policies, laws, and agency structures designed to help abused and neglected children and their families.
Prerequisite(s)/Corequisite(s): SOWK 8170 prior to or concurrent, or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8610 FAMILY AND COMMUNITY VIOLENCE (3 credits)
This course covers family and community violence across the life span with an emphasis on gaining knowledge of the issue, skills in policy analysis, and a broad framework for developing effective services in various service settings.
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8620 TRAUMA AND RESILIENCE (3 credits)
This course provides an overview of issues related to trauma including: the factors related to development of trauma, definitions of trauma, the impact of trauma on individuals, families and communities, and the programs and practices that are most effective and appropriate regarding the social work role in responding to trauma. (Cross-listed with SOWK 4620)
Prerequisite(s)/Corequisite(s): SOWK 8070 and SOWK 8080

SOWK 8650 HEALTH/MENTAL HEALTH POLICIES FOR SOCIAL WORK (3 credits)
This course emphasizes the development of health and mental health policy analysis skills and knowledge for social work students. Major topics include government response to health care, cultural and historical perspectives, service provision, and epidemiological trends across the life span. It provides a framework for clinical interventions in a variety of health and mental health settings.
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.
SOWK 8686 MEDICAL & PSYCHOSOCIAL ASPECTS OF ALCOHOL/DRUG USE AND ADDICTION (3 credits)
This course introduces students to substance abuse disorders and their impact on the individual, family, and society. It covers psychopharmacology, alcohol and drug interactions, drug classifications, theories of chemical dependency, various models of treatment, vulnerable populations, and ethical and legal issues. (Cross-listed with SOWK 4680, COUN 4680, COUN 8686)
Prerequisite(s)/Corequisite(s): Admission to the MSW program or permission of the School. Open to those admitted to the Counseling program or by permission.

SOWK 8696 ASSESSMENT AND CASE ASSESSMENT IN SUBSTANCE ABUSE (3 credits)
This course focuses on assessment of clients and their environment, and diagnosis and referral for substance abuse treatment. Emphasis is given to assessment instruments, treatment levels, treatment planning, case management, and social justice. (Cross-listed with COUN 4690, COUN 8696, SOWK 4690).
Prerequisite(s)/Corequisite(s): Admission to MSW program or permission of the School and SOWK 8686 or COUN 8686 (or equivalent course) prior to or concurrent.

SOWK 8806 SOCIAL WORK AND THE LAW (3 credits)
This course presents the fundamental principles of criminal and civil law that have relevance to the practice of social work. Topics include the legal system; legal research methods; professional ethical/legal responsibilities and liabilities; family law; elder law; criminal law; juvenile law; personal injury law; employment discrimination law; capacity to make contracts and wills; rights of institutionalized patients; and rights of handicapped children to an education. (Cross-listed with SOWK 4800)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8816 SPIRITUALITY AND SOCIAL WORK PRACTICE (3 credits)
Social work literature defines spirituality as the human striving for a sense of meaning, purpose, values, and fulfillment. Spirituality is expressed through diverse forms throughout a client's lifespan; it is central to clients' understanding of suffering and their attempts to resolve it. This course examines major issues pertaining to spiritually-sensitive social work practice with clients of diverse religious and non-religious (i.e., outside sectarian institutional contexts) perspectives. (Cross-listed with SOWK 4810)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or BSW degree. Not open to non-degree graduate students.

SOWK 8826 CRISIS INTERVENTION (3 credits)
This course is designed to increase knowledge and skills for practice with crisis situations. The prevalence of crisis experiences within our society and lifespan development necessitates that social workers acquire a knowledge and skill-base for effective and professional crisis intervention practice. Students will study the ABC Model of Crisis Intervention and how to ethically practice with diverse and vulnerable populations. Students will apply crisis intervention theory and models of intervention to various concern areas including but not limited to: suicide, sexual assault, domestic violence, substance abuse, grief and loss, and violence. A systems, strengths, and cultural emphasis will be applied to the various crisis situations covered. (Cross-listed with SOWK 4830)
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student. Not open to non-degree graduate students.

SOWK 8856 HOSPICE & OTHER SERVICES FOR THE DYING PATIENT/FAMILY (3 credits)
This course examines the hospice concept and other related services available in the community. The student will learn that hospice is an alternative to the traditional medical model. (Cross-listed with GERO 4850, GERO 8856, SOWK 4850.)
Prerequisite(s)/Corequisite(s): SOWK 8130 prior to or concurrent, or admitted as Advanced Standing. Not open to non-degree graduate students.

SOWK 8880 TOPICAL SEMINAR IN SOCIAL WORK (3 credits)
Specific seminar topics will focus on advanced content in social work theory and practice. The course description will be announced when a specific topical seminar is proposed. The topics selected will be consistent with School of Social Work program objectives, faculty expertise, and student needs. This course may be repeated for up to nine hours credit.
Prerequisite(s)/Corequisite(s): SOWK 8130 or admitted as an Advanced Standing student.

SOWK 8900 SPECIAL STUDIES IN SOCIAL WELFARE (1-3 credits)
This independent study course allows students to pursue a special selected area or topic within social welfare in order to deepen knowledge and/or skills in that particular area.
Prerequisite(s)/Corequisite(s): Admission to the School, and permission of the School. Not open to non-degree graduate students.

SOWK 8940 EVALUATION OF SOCIAL PROGRAMS (3 credits)
This is an advanced research course in the evaluation of social programs and social agencies which focuses on agency organizational structure, program design and effectiveness, and social impact.
Prerequisite(s)/Corequisite(s): SOWK 8190 prior to.

SOWK 8950 RESEARCH METHODS IN CLINICAL PRACTICE (3 credits)
This course provides a study of the issues involved in clinical research methodology. Students are introduced to the tools for documenting the effects of clinical practice interventions for individuals, couples, families and groups (including qualitative and quantitative methodologies: single-case design, standardized measurement, self-report data, self-monitoring, case study, grounded theory etc.).
Prerequisite(s)/Corequisite(s): SOWK 8190 and SOWK 8220. Not open to non-degree graduate students.

SOWK 8960 RESEARCH OTHER THAN THESIS (3 credits)
This course enables students, under faculty supervision, to prepare a research proposal, carry out the study, and prepare a detailed report of the purpose, design, outcome, and significance of the study.
Prerequisite(s)/Corequisite(s): SOWK 8190 and permission of the School. Not open to non-degree graduate students.

SOWK 8990 MASTER'S THESIS (3-6 credits)
The Master's thesis provides students the opportunity to acquire first-hand experience in research methods under faculty direction. With the guidance of the thesis coordinator and a supervisory committee, the student prepares a research proposal, conducts the proposed study, and prepares a detailed report of the purpose, design, results, and implications of the findings.
Prerequisite(s)/Corequisite(s): SOWK 8190 and permission of the School. Not open to non-degree graduate students.

Sociology (SOC)

SOC 8010 CLASSICAL SOCIOLOGICAL THEORY (3 credits)
This course surveys the nineteenth century writers whose ideas have had a strong influence on the development of contemporary sociology and sociological theories. It examines work in such areas as: structural functionalism; conflict theory; rationalism; and the beginnings of modern symbolic interaction, feminist, and race theory. The course emphasizes a close reading of original texts, as well as seminar-style class discussions.
Prerequisite(s)/Corequisite(s): Graduate; permission of instructor if outside Sociology MA program.
SOC 8020 CONTEMPORARY SOCIOLOGICAL THEORY (3 credits)
This course reviews some of the most important developments in contemporary sociological theory. It examines work in such areas as: symbolic interactionism, phenomenology and ethnomethodology; dramaturgical analysis; functionalism and neo-functionalism; structuralism, post-structuralism and postmodernity; postcolonial and subaltern studies; neo-marxism; critical theory; critical race studies; feminist theory; cultural theory; and world systems and globalization theory. The course emphasizes a close reading of original texts, as well as seminar-style class discussions. 
Prerequisite(s)/Corequisite(s): Graduate; permission of instructor if outside Sociology MA program.

SOC 8026 COLLECTIVE BEHAVIOR (3 credits)
Group and individual processes of ephemeral social action and institution formation are studied. The development of transitory groups and ideologies in new movements and organizations through opinion formation; case and comparative investigations of the origins and growth of collective movements are made and relevant social theories are applied. (Cross-listed with SOC 4020)

SOC 8030 SOCIOLOGICAL INQUIRY & RESEARCH DESIGN (3 credits)
This course focuses on the research design process from a sociological perspective. It gives broad, intermediate-level coverage to social science research methodology, with an emphasis on the logic of research procedures. Topics covered include the relationship of theory and research, causal analysis, sampling, and quantitative and qualitative design approaches.
Prerequisite(s)/Corequisite(s): Graduate; undergraduate course in research methods; permission of instructor if outside Sociology MA program.

SOC 8040 SOCIOLOGICAL STATISTICS (3 credits)
This course focuses on intermediate statistics and data analysis as applied to social research. Topics include descriptive statistics, probability, significance tests, multiple regression, and more advanced topics as time permits. Students will also learn how to utilize computer software packages to perform statistical analyses.
Prerequisite(s)/Corequisite(s): Graduate; undergraduate statistics course; permission of instructor if outside Sociology MA program.

SOC 8050 SEMINAR ON TEACHING: PEDAGOGICAL THEORY AND PRACTICE (3 credits)
A survey of various approaches to teaching at the college level (including critical, feminist, and other pedagogical theories) as well as strategies that can be employed in teaching. Topics include: syllabus and course design, evaluation and assessment strategies, developing a teaching style and philosophy, and the scholarship of teaching and learning. Emphasis is on preparing new teachers in sociology, but the course is intended for any graduate student who may already be teaching or anticipates teaching in the future.
Prerequisite(s)/Corequisite(s): Enrollment in the graduate program in sociology or permission of the instructor.

SOC 8060 QUALITATIVE METHODS (3 credits)
This course familiarizes students with contemporary qualitative methodologies and techniques by which the social sciences explore social and cultural relations in natural settings. Students will conduct individual and or group field projects.
Prerequisite(s)/Corequisite(s): Graduate standing or permission of the instructor.

SOC 8080 THEORIES OF FAMILIES (3 credits)
A core course in sociology and anthropology of the family. Gender and kinship systems are analyzed in the comparative study of family institutions and relationships. In addition to substantive material on the family in various societies, the course covers theoretical perspectives on the family and the history of family studies in sociology and anthropology.
Prerequisite(s)/Corequisite(s): Enrollment in the graduate program in sociology or permission of the instructor.

SOC 8100 SOCIAL INEQUALITY (3 credits)
This course examines social inequality from a sociological vantage point. Students will review theoretical frameworks for studying social inequality, processes that result in the unequal distributions of individual resources, empirical analyses of inequality, and the consequences of various inequalities for intergenerational social mobility. While the course focuses on inequality in the United States, global and international dimensions of social inequality are also covered.
Prerequisite(s)/Corequisite(s): Graduate; permission of instructor if outside of Sociology MA program.

SOC 8106 THE COMMUNITY (3 credits)
A basic course in community sociology. Sociological theory and the techniques of empirical research are applied to published studies of communities in the United States and elsewhere. The comparative social scientific method is elaborated as it pertains to data derived from community investigation. (Cross-listed with SOC 4100)

SOC 8110 SOCIAL PROBLEMS OF THE DISADVANTAGED (3 credits)
A survey of the social problems existing in disadvantaged communities. The effects upon individuals of such settings. The subculture of poverty.
Prerequisite(s)/Corequisite(s): SOC 8110

SOC 8120 SEMINAR IN SOCIAL GERONTOLOGY (3 credits)
A topical seminar focusing on the sociology of aging. Students are encouraged to develop proposals for research, programs or social policy. Focus is upon generational differences and age changes throughout the adult life.
Prerequisite(s)/Corequisite(s): Permission of instructor.

SOC 8136 SOCIOLOGY OF DEViant BEHAVIOR (3 credits)
A theoretical analysis of the relation of deviant group behavior and subcultures to community standards of conventional behavior as expressed in law and norms. (Cross-listed with SOC 4130)

SOC 8146 URBAN SOCIOLOGY (3 credits)
Examines urban theoretical perspectives, urbanization processes, the diversity of metropolitan communities, urban stratification, metropolitan growth, urban neighborhoods, community power and urban policy and planning. (Cross-listed with SOC 4140)

SOC 8156 AMERICAN FAMILY PROBLEMS (3 credits)
This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both “family” and “problems” is addressed throughout the course. (Cross-listed with SOC 4150)
Prerequisite(s)/Corequisite(s): SOC 8156 Graduate standing. Not open to non-degree graduate students.

SOC 8176 SOCIOLOGY OF FATHERHOOD (3 credits)
This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children’s and men’s well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 4170)
Prerequisite(s)/Corequisite(s): SOC 8176 Graduate standing. Not open to non-degree graduate students.

SOC 8200 SOCIETY & HEALTH (3 credits)
The course provides a critical sociological understanding of health, illness, healing, and medical care within a social context. The focus ranges from examining health and illness behavior and patient-provider interaction to issues addressing the social organization of health care and medicine.
Prerequisite(s)/Corequisite(s): Enrollment in sociology graduate program or permission of the instructor.
SOC 8216 DISABILITY AND SOCIETY (3 credits)
This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 4210)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 8256 LATINO/A MIGRATION (3 credits)
The course covers major issues related to: 1) the political-economic and socio-cultural factors that have shaped Latino migration streams historically and in today's world economy and, 2) contemporary empirical methodologies and findings related to the causes and multiple socioeconomic costs and benefits of migration streams for immigrants as well as "sending" and "receiving" communities.

SOC 8316 SOCIOLOGY OF SEXUALITIES (3 credits)
This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomena such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 4310)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

SOC 8356 WORK & FAMILY (3 credits)
This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 4350)

SOC 8500 COMPLEX ORGANIZATIONS (3 credits)
This graduate seminar provides an overview focused on the understanding and analysis of intricate internal and external organizational forces such as organizational bureaucracy, organizational culture, autonomy and control systems, which affect performance of organizational members as well as influence organizational survival. (Cross-listed with CACT 8500)
Prerequisite(s)/Corequisite(s): Graduate enrollment or permission of class instructor.

SOC 8506 LAW, THE FAMILY AND PUBLIC POLICY (3 credits)
This course analyzes law and public policy affecting the family in a variety of areas, which include: family violence; divorce, child custody, and child support; reproductive technology, contraception, and abortion; unmarried couples' and parents' rights; welfare; care and support of the aged; rights of parents to determine education and health care of their children; adoption and foster care, etc. New policy proposals and likely changes in law are considered, as well as the process of policy formation and legal change. The role of the professional in this system, including legal regulation and ethical issues, is considered. (Cross-listed with SOC 4500)
Prerequisite(s)/Corequisite(s): Six hours social science or human services or permission.

SOC 8550 ORGANIZATIONAL CULTURE (3 credits)
As a core course in sociology of organizations, this course provides a sociological understanding of the processes of cultural formation as well as the nature of cultures within organizations. Emphasis will be placed on the roles of organizational culture and subcultures to organizational processes.
Prerequisite(s)/Corequisite(s): Graduate standing, graduate certificate enrollment or permission.

SOC 8556 SOCIAL DIVERSITY IN ORGANIZATIONS (3 credits)
This course focuses on the sociological understanding, analysis and management of social diversity in the workplace. Major issues and attitudes toward racial and ethnic minorities, older workers and workers with disabilities, as well as strategies for implementing diversity in the workplace are examined. (Cross-listed with SOC 4550)
Prerequisite(s)/Corequisite(s): Graduate students or certificate students.

SOC 8600 SEMINAR IN SOCIAL ORGANIZATION (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in social organization selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Permission.

SOC 8626 SOCIOLOGY OF FORMAL ORGANIZATIONS (3 credits)
Examines organizational theory and research. Analyzes organizational problems such as goals and effectiveness; authority, leadership and control; professionals in organizations; communications; clients; organizational change; and organizations and their environments. Comparative analysis of many types of organizations such as business, industry, schools, prisons and hospitals with special attention given to human-service organizations. (Cross-listed with SOC 4620)
Prerequisite(s)/Corequisite(s): Nine hours of sociology including SOC 1010 or permission of instructor.

SOC 8650 SEMINAR IN OCCUPATIONS AND PROFESSIONS (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in sociological theory selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Graduate and permission of instructor.

SOC 8700 SEMINAR IN SOCIOLOGICAL THEORY (3 credits)
Assigned reading, discussion, specialized individual work leading to the writing and presentation of a paper applicable to a general topic in sociological theory selected by the instructor. As seminar topics change, this course may be repeated in a student's program without implying duplication.
Prerequisite(s)/Corequisite(s): Permission.

SOC 8706 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral health policy perspective. (Cross-listed with SOC 4700, HED 4700, HED 8706)
Prerequisite(s)/Corequisite(s): Graduate standing.

SOC 8746 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)
This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 4740)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 8756 SOCIAL CHANGE AND GLOBALIZATION (3 credits)
A historical and comparative review of theories, models, and political ideologies of social change. Topics include the globalization model of social change and the role that governments, transnational corporations, multilateral agencies, and local groups and organizations play today in creating and responding to social change. (Cross-listed with SOC 4750)

SOC 8806 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)
This course reviews research and writing in an area which is of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topic will vary, students may elect to take this course more than once. (Cross-listed with SOC 4800)
Prerequisite(s)/Corequisite(s): Permission.
SOC 8826 TEAM RESEARCH SEMINAR (3 credits)
Students participate in a semester-long class research project. Students will be involved in all stages of research: problem formulation, literature review, research design, measurement construction, data collection, data analysis, report writing and presentation of findings. The project's focus will vary, but it may often involve issues confronting Omaha, a particular organization or a specific group of people. (Cross-listed with SOC 4820)
Prerequisite(s)/Corequisite(s): Junior and SOC 2510 and permission of instructor.

SOC 8836 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)
This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 4830)
Prerequisite(s)/Corequisite(s): SOC 1010, and junior standing; or permission of the instructor.

SOC 8856 SOCIOLOGY OF RELIGION (3 credits)
Analysis of religious behaviors from a sociological and social-psychological perspective and utilizing both theoretical and empirical materials. The class is designed as an introductory approach to the sociology of religion, and the first in a two-step sequence, undergraduate and graduate. (Cross-listed with SOC 4850)

SOC 8950 PRACTICUM IN APPLIED SOCIOLOGY (3 credits)
A practical work experience under supervision which provides opportunity for applying principles from the student's academic area of concentration. (Cross-listed with SOC 4950)
Prerequisite(s)/Corequisite(s): Graduate sociology major for the MS degree.

SOC 8960 PRACTICUM IN APPLIED SOCIOLOGY (3 credits)
A practical work experience under supervision which provides opportunity for applying principles from the student's academic area of concentration. (Cross-listed with SOC 4960)
Prerequisite(s)/Corequisite(s): Graduate sociology major for the MS degree.

SOC 8980 INDEPENDENT STUDY IN SOCIOLOGY (1-3 credits)
Guided reading or independent research in special topics in Sociology under the supervision of a member of the Sociology faculty. This course is designed primarily for the student interested in topics not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated once for credit. (Cross-listed with SOC 4980)
Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

SOC 8990 THESIS (1-6 credits)

SOC 9110 APPLIED SOCIAL GERONTOLOGY (3 credits)
An overview of social gerontology with an emphasis on the interplay between social, psychological and physical elements in later life. Restricted to graduate students only; required of Gerontology students. (Cross-listed with GERO 9110)
Prerequisite(s)/Corequisite(s): Graduate.

Spanish (SPAN)

SPAN 8036 ADVANCED SPANISH CONVERSATION (3 credits)
Oral practice employing complex and sophisticated conversational structures in formal speeches and discussions of readings. (Cross-listed with SPAN 4030)
Prerequisite(s)/Corequisite(s): SPAN 3030 or departmental permission.

SPAN 8046 ADVANCED COMPOSITION AND STYLISTICS (3 credits)
Advanced grammatical principles, composition, and stylistics. (Cross-listed with SPAN 4040)
Prerequisite(s)/Corequisite(s): SPAN 3040 or departmental permission, and ENGL 1160.

SPAN 8156 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/Culture: Central America and the Caribbean 1898-2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 4150, CACT 8156)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040 and SPAN 3060 or permission of instructor.

SPAN 8166 LATIN AMERICAN LITERATURE OF THE 20TH CENTURY (3 credits)
Critical and analytical study of Spanish-American dramatists, poets, and essayists from modernism to the present. (Cross-listed with SPAN 4160)
Prerequisite(s)/Corequisite(s): SPAN 3220 or departmental permission.

SPAN 8226 THE STRUCTURE OF SPANISH (3 credits)
A survey of the linguistic structure of Spanish. Topics include phonology, morphology, syntax, and semantics. (Cross-listed with SPAN 4220)

SPAN 8356 LATIN AMERICAN SHORT STORY (3 credits)
Representative stories of the 19th and 20th centuries, from Romanticism to the present. (Cross-listed with SPAN 4350)
Prerequisite(s)/Corequisite(s): SPAN 3210 and SPAN 3220 or departmental permission.

SPAN 8440 SEMINAR: SPANISH COMPOSITION (3 credits)
This course provides opportunities for students to refine their composition skills in Spanish through extensive writing workshops and peer editing. Computer applications to composition will be employed. (Cross-listed with SPAN 4440)
Prerequisite(s)/Corequisite(s): Admission to the Graduate College.

SPAN 8456 INTRODUCTION TO LITERARY CRITICISM (3 credits)
An introduction to modern literary theory, from Ferdinand de Saussure's course in general linguistics and Russian formalism, to postmodernism. Theory will be read in English and Spanish. Literature for discussion and analysis will be read in Spanish. (Cross-listed with SPAN 4450)
Prerequisite(s)/Corequisite(s): SPAN 3030 and SPAN 3040, or permission.

SPAN 8900 SPANISH INDEPENDENT STUDY: GRADUATE ONLY (1-3 credits)
Specifically planned projects and readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign languages faculty holding graduate faculty status. (Cross-listed with SPAN 4900)
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission.

SPAN 8906 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. (Cross-listed with SPAN 4900)

SPAN 8956 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 4950)
Prerequisite(s)/Corequisite(s): Graduate standing.

SPAN 8966 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 4960)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060.
SPAN 8976 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONALS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 4970)
Prerequisite(s)/Corequisite(s): Graduate standing.

Special Education & Communication Disorders (SPED)

SPED 8000 SPECIAL PROJECTS (1-3 credits)
This course is designed to allow graduate candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.
Prerequisite(s)/Corequisite(s): Permission by the instructor. Not open to non-degree graduate students.

SPED 8016 MENTAL HEALTH IN SCHOOLS: RICK FACTORS AND INTERVENTIONS (3 credits)
This course prepares candidates to exercise their responsibility as mandatory reporters of child maltreatment. More importantly, it will also help them to prevent the occurrence of maltreatment through a range of classroom, school, and community interventions. (Cross-listed with COUN 4010, COUN 8016, and SPED 4010).

SPED 8030 TEACHING STUDENTS WITH EXCEPTIONALITIES (3 credits)
This course is designed to describe the characteristics and learning styles of students with various exceptional learning needs. This course also is intended to provide candidates with a knowledge base for the foundation of special education including the basic procedural flow of referral, identification and instruction and strategies for modifying the learning environment and individualizing instruction.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8046 WORKSHOP IN SPECIAL EDUCATION OR SPEECH PATHOLOGY (1-6 credits)
The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4040).
Prerequisite(s)/Corequisite(s): Must have graduate status and permission.

SPED 8100 RESEARCH PROJECTS (1-3 credits)
The purpose of this course is to allow candidates to participate in research activities other than those related to the thesis. Specific course content and type of research will be dependent on the nature of the intended research and must be approved by the supervising advisor and Department Chair prior to registration.
Prerequisite(s)/Corequisite(s): Graduate standing and admitted into a special education or speech-language pathology program of study.

SPED 8120 HIGH INCIDENCE DISABILITIES (3 credits)
This introductory course is designed to examine characteristics of learners with high incidence disabilities and the impact of those characteristics on learning. The focus will be on the manifestation of disabilities including learning disabilities, behavior disorders, mild to moderate intellectual disabilities, speech and language disorders, attention-deficit hyperactivity disorders, and autism spectrum disorders.
Prerequisite(s)/Corequisite(s): Graduate Standing.

SPED 8156 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)
This course is designed to provide preservice teacher candidates and graduate candidates skills and strategies for instructing students with mild to moderate disabilities that struggle to acquire literacy skills. Emphasis is placed on diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education or permission of the instructor. Not open to non-degree graduate students.

SPED 8236 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)
This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 4230).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8240 LANGUAGE DISORDERS IN SCHOOL-AGE CHILDREN (3 credits)
This course focuses on the relationship between spoken and written language and its role in language-based learning disabilities in school-age students. It addresses the characteristics of language and reading impairments; the subtypes of these disorders; and the different diagnostic strategies, assessment tools, and intervention approaches used with them. Various models of language and reading as they relate to development and disorders will be reviewed.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology and a course in later (school age) language development. Not open to non-degree graduate students.

SPED 8300 READINGS IN SPECIAL EDUCATION (1-3 credits)
Reading and discussion of current methodological developments, research, and innovations in special education.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8396 HEARING SCIENCE (3 credits)
This course is designed for undergraduate majors in speech-language pathology and audiology and for graduate candidates in education of the deaf/hard of hearing. The course will include basic terminology, anatomy and physiology of the hearing mechanism, acoustics and physics of sound, the processes of human hearing, elements of basic hearing measurements, psychophysics. This course will prepare speech-language pathology candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 4390).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8400 LEARNING DISABILITIES (3 credits)
The purpose of this course is to introduce students to the field of learning disabilities. The course covers the laws that affect students with learning disabilities (No Child Left Behind Act, and the Individuals with Disabilities Education Improvement Act of 2004), characteristics of learning disabilities, definitions, history, assessment, medical aspects, teaching of preschoolers and adolescents, and teaching strategies for pre-academic learning, oral language, reading, writing, mathematics, and social-emotional development. This course will prepare special education candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing.
SPED 8410 MOTOR SPEECH DISORDERS (3 credits)
This course is designed to integrate background information from neurophysiology related to motor speech disorders (MSDs). The term motor speech disorders refers to speech deficits and differences resulting from injury to the human nervous system. This course will focus on acquired and developmental movement-based disorders of speech production that impact one or more of the following subsystems of speech: respiration, phonation, resonance, and/or articulation, including the dysarthrias and apraxia of speech. This course will entail clinical description and characteristics of the impairments as well as the psychosocial changes in life activities and participation of individuals who live with MSDs.
Prerequisite(s)/Corequisite(s): SPED 4470 or SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8420 VOICE DISORDERS (3 credits)
The purpose of this course is to provide candidates the opportunity to study the disorders of voice in depth so that they are able to effectively orchestrate caseloads including this disorder type. Voice disorders of both organic and functional etiology will be studied. Candidates will have opportunities to conduct instrumental voice evaluation techniques. The disorders will be discussed to cover the range of topics including etiology, symptomology, assessment and diagnosis, prognosis, and treatment, both medical and non-medical. Phonatory and resonatory aspects will be included.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8430 FLUENCY DISORDERS (3 credits)
This course examines the types and causes of rate, rhythm, and stress pattern differences as they relate to child, adolescent, and adult fluency disorders.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8440 APHASIA & RELATED LANGUAGE DISORDERS (3 credits)
This course is designed to integrate background information from neurophysiology to aphasia and related disorders such as right hemisphere syndrome, traumatic brain injury (TBI), and dementia. The term aphasia refers to linguistic deficits resulting from injury to the human nervous system. This course will focus on acquired cognitive and linguistic-based disorders of the human communication system and will entail clinical description and characteristics of the impairments as well as on the psychosocial changes in life activities and participation of individuals who live with aphasia and/or related disorders.
Prerequisite(s)/Corequisite(s): SPED 4470, SPED 8470 or equivalent; graduate standing in Speech-Language Pathology. Not open to non-degree graduate students.

SPED 8470 NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE (3 credits)
The purpose of this course is to provide speech-language pathology graduate candidates an introduction to human neuroanatomy and neurophysiology of the speech, language and hearing mechanisms, across the lifespan. Emphasis is placed on developing an understanding of the neurophysiological underpinnings of human communication and its disorders. Ultimately, the course will prepare speech-language pathology graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate Standing Speech-Language Pathology Majors Only. Not open to non-degree graduate students.

SPED 8486 RESEARCH METHODS IN COMMUNICATION DISORDERS (3 credits)
This course will provide candidates with an introductory set of skills to interpret and evaluate research in communication disorders and closely related fields. In addition, this course will provide candidates with basic knowledge regarding research designs and analyses commonly used in communication disorders and related fields. The content addressed in this course will prepare candidates to judiciously evaluate evidence-based practice and apply the scientific method to clinical decision-making. It offers an opportunity to cultivate critical thinking skills imperative to becoming dedicated practitioners, reflective scholars, and responsible citizens who can adeptly meet the ever-evolving challenges of their profession. (Cross-listed with SPED 4480).
Prerequisite(s)/Corequisite(s): This course is designed for graduate and undergraduate students majoring in speech-language pathology and is a required course for speech-language pathology candidates.

SPED 8500 BASIC CLINICAL PRACTICUM IN SPEECH-LANGUAGE PATHOLOGY (2 credits)
These courses are designed to provide the speech-language pathology candidate with experiences of a clinical nature prior to intensive participation in practice in the educational, medical, clinical, and/or other rehabilitation settings.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology, 3.0 GPA overall. Permission from program faculty. Not open to non-degree graduate students.

SPED 8510 EDUCATIONAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language pathology candidate with experiences of a clinical nature in educational settings. The purpose of the course is to advance the candidate’s skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED 8500 unless otherwise indicated plus permission. Not open to non-degree graduate students.

SPED 8520 MEDICAL EXTERNSHIP IN COMMUNICATION DISORDERS (4 credits)
This course is designed to provide the speech-language pathology candidate with experiences of a clinical nature in medical settings. The purpose is to advance the candidates’ skills in the evaluation and management of communication and swallowing disorders.
Prerequisite(s)/Corequisite(s): Three semesters of SPED8500 unless otherwise indicated plus permission. Not open to non-degree students.

SPED 8530 SEMINAR IN SPEECH-LANGUAGE PATHOLOGY (3 credits)
This course is designed to provide intensive discussion of research or problems of current professional interest based on current literature in speech-language pathology. This course will prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8540 AUTISM SPECTRUM DISORDERS (2 credits)
This course is designed to familiarize candidates with the features of and interventions for individuals with autism spectrum disorders. The course will emphasize current research into various methodologies for social and communication skills.
Prerequisite(s)/Corequisite(s): Co-requisite: SPED 8560. Admission to the Graduate College. Not open to non-degree graduate students.

SPED 8555 SPECIAL NEEDS STUDENTS FROM DIVERSE COMMUNITIES (3 credits)
The purpose of this course is to study the impact of cultural and linguistic diversity on communication, learning, and behavior. The contrast between what is considered ‘normal’ language / learning development and in the presence of culturally and linguistically diverse (CLD) P-12 students will receive special emphasis. (Cross-listed with SPED 4550).
SPED 8560 AUGMENTATIVE & ALTERNATIVE COMMUNICATION (2 credits)
This course is designed to introduce the candidate to the nature and process of augmentative and alternative communication (AAC), current theories and models of AAC, basic elements of AAC systems, and contemporary AAC clinical practices and principles. Topics will be examined from educational and rehabilitational perspectives as they relate to assessment, prescription, implementation and evaluation. The course will emphasize practical solutions in AAC for children and adults using both high technology and other less-complex communication strategies. This content is intended to prepare candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world.
Prerequisite(s)/Corequisite(s): Graduate standing in Speech-Language Pathology program; co-requisite: SPED 8540.

SPED 8570 DYSPHAGIA (3 credits)
This course is designed to integrate background information from neurophysiology to dysphagia. The term dysphagia refers to swallowing disorders resulting from congenital birth anomalies (i.e., cleft palate, cerebral palsy, etc.) as well as acquired injury to the central nervous system (i.e., stroke, head injury, etc.). This course will introduce candidates to bedside, radiographic, and endoscopic assessment procedures as well as direct, indirect, and medical management techniques of dysphagia. Additionally, this course will provide clinical description and characteristics of swallowing impairments as well as on the psychosocial changes in life activities and participation of individuals who live with dysphagia. (i.e., stroke, head injury, etc.).
Prerequisite(s)/Corequisite(s): SPED 4470 or equivalent, graduate standing in speech-language pathology. Not open to non-degree graduate students.

SPED 8590 LANGUAGE DISORDERS: BIRTH TO FIVE (3 credits)
This course is designed to provide candidates with knowledge about communicative disorders in young children within a multicultural and global framework. It will cover assumptions underlying current approaches to the evaluation and treatment of language disorders in the developing child. Major emphasis will be upon the theoretical foundations of the study and treatment of communication disorders in children from birth to age five.
Prerequisite(s)/Corequisite(s): SPED 4420 or equivalent.

SPED 8600 MENTAL RETARDATION (3 credits)
This course introduces candidates to concepts related to mental retardation/developmental disabilities such as definitions, identification, etiology, and assessment of persons with mental retardation as well as current models and research in the areas of residential, vocational, educational, and recreation/leisure programming in least restrictive settings. This course will prepare undergraduate and graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPE4600)
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8646 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)
This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and many evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL). (Cross-listed with SPED 4640).
Prerequisite(s)/Corequisite(s): Admission into a Special Education Master’s program and SPED 8120. Not open to non-degree students.

SPED 8656 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with COUN 8656, SPED 4650).
Prerequisite(s)/Corequisite(s): Graduate standing

SPED 8670 MATH INTERVENTIONS (3 credits)
The purpose of this course is to prepare graduate candidates to teach, co-teach or consult in the area of mathematics interventions. Graduate candidates will examine and apply the existing research in mathematics instruction for students with exceptional needs.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in Special Education. Not open to non-degree graduate students.

SPED 8700 SEMINAR IN SPECIAL EDUCATION (3 credits)
The seminar in Special Education is designed to be one of the very last courses taken by a master’s degree candidate. Content covers a wide range of topics such as: 1) continuum of care; 2) educational and community service systems; 3) legislation; 4) family concerns; and 5) comparative special education. Each candidate develops a teaching module on one of the course topics, which is discussed and evaluated in class.
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8716 INTERACTIONS AND COLLABORATION (3 credits)
This course is offered to investigate the building blocks of collaboration. Effective interpersonal communication and collaboration skills are presented as the foundation necessary to build relationships among school personnel, families and community members. (Cross-listed with SPED 4710).
Prerequisite(s)/Corequisite(s): Admission to Graduate College

SPED 8720 INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This special education internship course provides candidates with either supervised field experience or placement in a school program for students with exceptionalities at an academic level commensurate with the candidate’s desired level of endorsement (K-6 or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in the desired endorsement, completion of 30 hours of required course work, and permission. Not open to non-degree graduate students.

SPED 8730 ADVANCED INTERNSHIP IN SPECIAL EDUCATION (3 credits)
This course provides candidates with a second semester of classroom experience teaching students with disabilities. This experience is for graduate candidates who are extending their initial endorsement to complete a PK-12 endorsement.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in the desired endorsement and completion of SPED 8720 or equivalent. Not open to non-degree graduate students.

SPED 8805 SOCIAL EMOTIONAL DEVELOPMENT OF CHILDREN AND YOUTH (3 credits)
This course is designed to prepare teacher candidates and graduate candidates with the understanding of the psychological, biological and environmental factors that affect the social-emotional development of children and adolescents. Emphasis is placed on the interaction of these factors for children with exceptional learning needs and the implications for the learning environment. (Cross-listed with SPED 4800).
Prerequisite(s)/Corequisite(s): Graduate standing.

SPED 8810 RESEARCH METHODS IN SPECIAL EDUCATION (3 credits)
This course is designed to provide an examination of the theoretical approaches to conducting educational research, research design and analysis, and interpretation and evaluation of existing research in special education and related fields.
Prerequisite(s)/Corequisite(s): SPED 8120 or permission from the instructor. Not open to non-degree graduate students.
SPED 8816 BEHAVIOR INTERVENTIONS AND SUPPORT (3 credits)
This course introduces a variety of practical interventions that teachers may use to support the positive classroom behavior of all students within a tiered model. Universal, targeted, and individualized strategies are presented. (Cross-listed with SPED 4810).

SPED 8820 CHARACTERISTICS OF EMOTIONAL AND BEHAVIORAL DISORDERS (3 credits)
This course is designed to assess and examine the causes and characteristics of behavioral disorders, which constitute internalizing, externalizing, and pervasive developmental disorders. Extensive use of the case study method will be used. 
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education.

SPED 8830 INTERNSHIP IN BEHAVIORAL DISORDERS (3 credits)
This course provides candidates with either in-service experience or placement in a school program for students with Behavioral Disorders at an academic level commensurate with the candidate's desired level of endorsement (PK-9, or 7-12).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education with an emphasis in behavior intervention specialist, completion of 30 hours of the required coursework, and permission by the department. Not open to non-degree graduate students.

SPED 8840 ADVANCED PRACTICUM IN BEHAVIOR INTERVENTION SPECIALIST (3 credits)
This course provides candidates with additional experiences in working with students with disabilities who present challenging behaviors, including emotional disturbance and autism, at an academic level (PK-6, or 7-12) that is at a different level from their previous clinical practice or internship.
Prerequisite(s)/Corequisite(s): Behavior Intervention Specialist program and permission. Not open to non-degree graduate students.

SPED 8850 INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH EMOTIONAL AND BEHAVIORAL DISORDERS (3 credits)
The focus of the course will be on interventions which have been effective with students with behavior disorders which include life space intervention, social skills training, anger management, and cognitive behavior modification in multi-cultural settings.
Prerequisite(s)/Corequisite(s): Graduate standing and successful completion of SPED 8820, not open to non-degree students.

SPED 8860 BEHAVIOR MODIFICATION (3 credits)
This course is designed to equip candidates with the skills necessary to assess, modify, and evaluate behavior in accordance with best practice and research-based approaches. In addition, this course will train candidates on how to conduct a functional behavioral assessment and create behavioral intervention plans in accordance with IDEA.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8870 AUTISM SPECTRUM DISORDERS: BEHAVIORAL SUPPORT AND INTERVENTIONS (3 credits)
This course is designed to provide information on the behavioral characteristics, instructional needs and necessary curriculum development specifically for children and youth with autism spectrum disorder (ASD).
Prerequisite(s)/Corequisite(s): Admission to the graduate program in special education. Not open to non-degree graduate students.

SPED 8900 SPECIAL EDUCATION LAW (3 credits)
The purpose of this course is to research and explore legal and policy issues affecting special education within our schools. Case law will be examined to ensure effective special education programs for children and youth with disabilities.
Prerequisite(s)/Corequisite(s): Graduate Standing. Not open to non-degree graduate students.

SPED 8910 ASSESSMENT IN SPECIAL EDUCATION (3 credits)
This course provides an overview of measurement and evaluation concepts, strategies, and techniques that are appropriate for students with special needs. Graduate candidates will implement and analyze formal and informal assessments using a systematic and comprehensive approach. Emphasis is placed on those assessment strategies that yield objective data regarding individual learning characteristics that provide a basis for educational decision making.
Prerequisite(s)/Corequisite(s): Graduate standing and SPED 8120

SPED 8920 SPECIAL EDUCATION LEADERSHIP (3 credits)
The purpose of this course is to examine special education administration and leadership issues. This course will focus on policies and procedures necessary to effectively provide leadership to programs for children and youth with disabilities.
Prerequisite(s)/Corequisite(s): Graduate standing. Not open to non-degree graduate students.

SPED 8930 INCLUSION/COLLABORATION PRACTICUM (3 credits)
This course provides candidates with a practicum experience in the inclusion/collaboration specialty area with emphasis across PK-12 settings.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in inclusion/collaboration and permission by the department. Not open to non-degree graduate students.

SPED 8960 ADVANCED ASSESSMENT AND INTERVENTION (3 credits)
This course provides graduate candidates with in-depth practicum experiences in the administration and interpretation of standardized academic achievement measures, criterion-referenced tests, informal assessments, and progress monitoring with children experiencing learning difficulties. Emphasis is placed on utilizing assessment information in order to develop and monitor intervention plans.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree program in special education; SPED 8910, SPED 8646, SPED 8156, and SPED 8970; or have permission from the instructor. Not open to non-degree graduate students.

SPED 8970 INSTRUCTIONAL STRATEGIES (3 credits)
This course is designed to prepare graduate candidates with in-depth information regarding effective teaching strategies for students with high-incidence disabilities. Primary emphasis is placed on providing students with theoretical and practical foundations in the design and implementation of cognitive strategy instruction and the use of evidence-based practices and the selection and monitoring of individualized interventions.
Prerequisite(s)/Corequisite(s): Admission to the Master of Science degree in special education, SPED 8120, SPED 8646 or equivalent or permission of the instructor. Not open to non-degree graduate students.

SPED 8980 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with TED 8850).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

SPED 8990 THESIS (1-6 credits)
This course is intended for all graduate candidates in the Department of Special Education and Communication Disorders who are seeking a Master of Arts degree. The candidate is expected to generate and complete an independent research project under the guidance of a thesis advisor.
Prerequisite(s)/Corequisite(s): Permission of Thesis Committee Chair and TED 8010. Not open to non-degree graduate students.
Statistics (STAT)

STAT 8005 STATISTICAL METHODS I (3 credits)
Distributions; introduction to measures of central value and dispersion; population and sample; the normal distribution; inference: single population, inference: two populations; introduction to analysis of variance. Statistical packages on the computer will also be utilized in the course. Cross-listed with STAT 3000
Prerequisite(s)/Corequisite(s): MATH 1310 or equivalent.

STAT 8015 STATISTICAL METHODS II (3 credits)
Regression and correlation, analysis of covariance, chi-square type statistics, more analysis of variance, questions of normality, introduction to non-parametric statistics. Statistical packages are used when appropriate. (Cross-listed with STAT 3010)
Prerequisite(s)/Corequisite(s): STAT 3000 or STAT 8005 or equivalent.

STAT 8416 INTRODUCTION TO DATA SCIENCE (3 credits)
Topics covered in this course include Data Technology, Methods of gathering and cleaning structured or unstructured data, Exploratory data analysis & Dynamic and interactive data visualization, Modeling data for prediction, forecasting or classification. (Cross-listed with STAT 4410)
Prerequisite(s)/Corequisite(s): MATH 4750 with a C- or better or STAT 3800 with a C- or better or permission of instructor. Students planning to enroll in this course should be comfortable with computer programming & have knowledge of data structures & preliminary statistical methods.

STAT 8426 EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION (3 credits)
Topics covered in this course include Exploratory Data Visualization for categorical/qualitative single/multivariate data, Grammar of Graphics, Organizing Data for Visualization, Methods of Displaying Data that include dynamic and interactive visualization, Visual Diagnostics of Statistical Models and Visual Statistical Inference. Students planning to enroll in this course should be comfortable with computer programming and have knowledge of data structures and preliminary statistical methods. (Cross-listed with STAT 4420)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8005 w/ a C- or better or another introductory probability/statistics course w/ a C- or better, & CSCI 1620 or equivalent with a grade of C- or better, or permission of instructor.

STAT 8436 LINEAR MODELS (3 credits)
This is an introduction to linear statistical models which will include: simple linear regression models, multiple linear regression models, ANOVA models including one way ANOVA, randomized block design, and other designs. Also, logistic regression models, Poisson regression models, bootstrapping/resampling models, survival analysis. Some necessary linear algebra and mathematical statistics ideas will be covered in the course also. If time allows, some mixed models and/or survival models. Much use of computer software will be made. (Cross-listed with STAT 4430)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8005 w/ a C- or better or instructor permission based on students' having taken a basic statistics course w/ a grade of C- or better & having at least a basic knowledge of calculus.

STAT 8446 TIME SERIES ANALYSIS (3 credits)
The objective of this course is to learn and apply statistical methods for the analysis of data that have been observed over time. Topics covered include: Models for Stationary and Non-Stationary Time Series, Model Specification, Parameter Estimation, Model Diagnostics, Forecasting, Seasonal Models, Time Series Regression, and Spectral Analysis. Statistical software will be used. (Cross-listed with STAT 4440)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8005 w/ a C- or better or another introductory probability/statistics course w/ a C- or better, & CSCI 1620 or equivalent with a grade of C- or better, or permission of instructor.

STAT 8700 BAYESIAN STATISTICS (3 credits)
The objective of this course is to introduce the Bayesian approach to statistical inference. Topics covered include: Review of probability, Bayes theorem, and Likelihood; The Bayesian methodology, prior and posterior distributions; Choices of prior distribution, conjugate and Jeffreys priors; Credible intervals and inference; Bayesian computation - Markov Chain Monte Carlo and the Gibbs Sampler; Hierarchical models; Regression models.
Prerequisite(s)/Corequisite(s): MATH 8756 or equivalent or permission of instructor.

STAT 8710 DESIGN AND ANALYSIS OF EXPERIMENTS (3 credits)
Introduction to design and analysis of controlled experiments. The goal of experimental design is to be able to construct an experiment to identify which factors most impact the response and do so in an efficient manner. Statistical software will be used. Types of designs studied include: Randomized Block Designs, Latin Square Designs, Incomplete Block Designs, Factorial Designs, and Nested Designs.
Prerequisite(s)/Corequisite(s): MATH 4750/8756 or permission of instructor.

STAT 8805 APPLIED ENGINEERING PROBABILITY AND STATISTICS (3 credits)
An introduction to the application of probability and statistics to engineering problems. Topics include: probability and probability distributions, mathematical expectation, distribution of random variables, binomial, Poisson, hypergeometric, gamma, normal, and t-distributions, Central Limit Theorem, confidence intervals, hypothesis testing, linear regression, contingency tables. Credit for both MATH 4740 and STAT 3800 will not be given. (Cross-listed with STAT 3800)
Prerequisite(s)/Corequisite(s): MATH 1970

STAT 8960 MASTER'S PROJECT (1-6 credits)
An applied project, designed and executed under the supervision of both a faculty and industry advisor. In the project the student will apply their mathematical and/or statistical skills to an applied problem. The student will present their results via a written report and oral presentation. (Cross-listed with MATH 8960)
Prerequisite(s)/Corequisite(s): Permission of faculty advisor and graduate program chair. Not open to non-degree graduate students.

Teacher Education (TED)

TED 8000 SPECIAL STUDIES (1-3 credits)
A series of intensive studies especially for in-service teachers scheduled as regular seminars or classes, according to purpose.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8006 SPECIAL METHODS IN THE CONTENT AREA (3 credits)
This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 4000).
Prerequisite(s)/Corequisite(s): TED 3690 and TED 3550
TED 8010 INTRODUCTION TO RESEARCH (3 credits)
This course will introduce advanced degree candidates to (1) an understanding of the scientific method as applied to behavioral research, (2) assessment, evaluation, descriptive, causal-comparative, experimental and historical data gathering procedures and analytical strategies, (3) sampling theory, techniques, distribution and hypothesis testing, (4) specific designs, methods, and tools of research, (5) search and retrieval of published research, both American and international (global), in the library and over the Internet, (6) critical evaluation of research studies, (7) basic statistics, both descriptive and inferential, and (8) preparation of a research proposal containing three chapters: Problem, Review of Related Research (from an international global perspective with particular sensitivity toward multicultural issues), and Methodology.
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8020 HISTORY AND PHILOSOPHY OF EDUCATION (3 credits)
This course is designed to provide a critical perspective, both historical and philosophical, for understanding education in the United States. The course examines critically the evolution of educational thought and practice from the Colonial era to the present U.S.
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8030 SEMINAR IN EDUCATION: SPECIAL TOPICS (1-3 credits)
This is a variable content course focusing on topics of current relevance to PK-12 teachers.
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8040 SEMINAR ON STUDENT TEACHING/NEW TEACHER INDUCTION (3 credits)
The seminar is designed for experienced teachers who are, or may be, serving as cooperating teachers for student teachers or as mentor teachers for beginning teachers. Participants will study the purposes, techniques, and trends involved in serving as a cooperating teacher or as a mentor.
Prerequisite(s)/Corequisite(s): Successful teaching experience is required for this course.

TED 8050 DATA-DRIVEN DECISION MAKING FOR EDUCATORS (3 credits)
This course provides graduate students with hands-on experiences that model data-driven decision making for building educational success in today's classroom. Graduate students will learn how to create valid and reliable assessments; to interpret standardized test data; to build data models that identify student, classroom, program, and school needs; and in general, to systematically enhance educational decision making from a base of carefully collected information. Graduate students will also explore data collection and analysis strategies associated with technologies such as cloud computing, tablet computers and smart phones. In addition, they will experience data-driven decision-making models that can be integrated into student lessons to not only teach more effectively with data-driven decisions, but to also be able to teach students about data-driven decision making. The course will use real data sets and cases, in interesting, hands on and technology-rich activities, to help educators learn how to find the "educational story" represented by a set of carefully collected data points.
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8055 FOUNDATIONS OF ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)
This course is designed to enhance candidates' understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Language Learners (ELLs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Language Learners (ELLs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education's English as a Second Language (ESL) teaching endorsement; required for undergraduate students pursuing the ESL endorsement. (Cross-listed with TED 3050).
Prerequisite(s)/Corequisite(s): TED 2300 (EDUC 2010) prior to or concurrent enrollment.

TED 8060 CURRENT ISSUES AND TRENDS IN EDUCATION (3 credits)
The course is an advanced study of current issues and trends which have substantial impact on PK-12 education. The graduate candidates who take this class will read, analyze, and evaluate relevant research in order to become conversant in those issues.
Prerequisite(s)/Corequisite(s): Graduate status is required.

TED 8070 TEACHING MULTIPLE INTELLIGENCE (3 credits)
This course focuses on the utilization of the multiple intelligences (MI) theory by teachers to enhance children's understanding of various disciplines. Graduate candidates will have the opportunity to explore, evaluate, and develop various methodologies that foster understanding.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8080 STORYTELLING AND EDUCATION (3 credits)
This course is designed to consider the importance of storytelling, to provide teacher candidates with the background materials for storytelling, to study resource material for storytelling from a variety of cultures, and to develop techniques for storytelling. Actual experience in storytelling and opportunities for evaluating storytelling experiences will be provided.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8090 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles, teaching strategies, and curriculum materials and how they can be related to the teacher's classroom presentation. This course is designed to furnish the teachers with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles to help the teacher become more effective in teaching economics K-12.
Prerequisite(s)/Corequisite(s): Open to any graduate candidates with no previous college work in economics who are teaching K-12. Not open to majors in economics.

TED 8100 RESEARCH PROJECT (1-3 credits)
This course is designed for individual or group study and analysis of specific problems in schools dealing with curriculum and instruction in areas which have a broad scope of application rather than a specific level.
Prerequisite(s)/Corequisite(s): Approval of Advisor.

TED 8110 INTRODUCTION TO MULTICULTURAL EDUCATION (1 credit)
This course is designed for certificated teachers seeking renewal of Nebraska certification under Nebraska LB 250. The purpose of the course is to develop awareness of cultural diversity in American society and to develop skills to effectively meet the needs of students, parents, and school community members.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8130 LANGUAGE, CULTURE, AND POWER (3 credits)
This course will focus on the intersection of language, culture, and power in the schools. This seminar will research how each component impacts the students and teachers in the classroom.
TED 8150 ANTI-RACISM EDUCATION: PRINCIPLES AND PRACTICES (3 credits)
This course provides a theoretical analysis of race, racism in the United States, and the implications for anti-racist education. In addition to exploring the key features of anti-racism education, the course also addresses other axes of oppression, namely, class and gender, with a critical focus on racialized power and privilege, and how such features function in the broader U.S. context as well as the schooling environment. Of equal importance is a critical interrogation of the historical, ideological, and political processes that produce and maintain racism. Course participants explore pedagogies, curriculum, and school leadership strategies as mechanisms for instituting anti-racism work in schools and communities.
Prerequisite(s)/Corequisite(s): Graduate Status

TED 8170 DEVELOPMENTAL ASSESSMENT OF THE YOUNG CHILD (3 credits)
This course is designed as a survey of developmental assessment in early childhood education (ages birth to eight years). Selection of assessment tools and strategies, implementation, data collection, analysis of results, and teaching impact are addressed in context of key assessment purposes in the early childhood field.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8180 CULTURALLY RESPONSIVE TEACHING (3 credits)
This course includes an introductory analysis of the societal and institutional processes and problems which have bearing upon the education of children in urban settings. In addition, the course will focus on knowledge, skills and dispositions related to instructional strategies and classroom management needed for effective teaching in an urban environment.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8190 CONTEMPORARY ISSUES IN URBAN EDUCATION (3 credits)
This course is designed for candidates who wish to keep abreast of contemporary issues which confront the educational institution and teaching profession within the urban milieu.
Prerequisite(s)/Corequisite(s): Graduate Status

TED 8200 SOCIAL WORLDS OF THE YOUNG CHILD (3 credits)
This course will explore theoretical and cultural perspectives on the social and emotional development of young children. This course will also examine the relationship between social emotional development, guidance practices, democratic life skills, and school readiness.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8210 THE PRINCIPLES OF MULTICULTURAL EDUCATION (3 credits)
This course will develop practicing teachers’ awareness of and skill in meeting the needs of P-12 students with regards to the areas of human understanding, acceptance and value. Candidates will examine existing attitudes towards various minority groups such as racial, ethnic, gender, exceptionality, etc. School materials and attitudes will also be examined in determining the effect they have on PK-12 students.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8220 PLAY AS A LEARNING MEDIUM IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides an in-depth examination of young children’s play and its curricular role in the early childhood classroom. The origins, developmental outcomes, assessment, curricular implementation, and evaluation of play will be covered, with an emphasis on play as a major component of developmentally appropriate practice with young children. The focus is on teachers learning to help children become partners in the operation of the learning environment.

TED 8230 LITERATURE FOR THE YOUNG CHILD (3 credits)
Literature for the young child is examined through the lens of developmentally appropriate practice for informing educators’ interactions with children and also for developing high-quality, literature-related projects of study across the early childhood (birth-through-age-eight) continuum.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8240 FAMILY, SCHOOL, AND COMMUNITY PARTNERS (3 credits)
This course will examine the purposes and methods for developing family, school and community partnerships. Candidates will explore characteristics of diverse families and develop the skills necessary for planning, design, implementation, and evaluation of effective partnerships in early childhood settings.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8250 ASSESSMENT FOR CLASSROOM TEACHER (3 credits)
This course studies assessment principles, effective practices, and classroom assessment processes throughout the curriculum. The research regarding assessment for learning is studied and application is made to classroom practices.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8260 ADVANCED CURRICULUM IN EARLY CHILDHOOD (3 credits)
This course is designed to provide an in-depth examination of the processes used in selecting and implementing appropriate curricular content in programs for children ages three to eight years. Particular emphasis is on the role of the teacher as a dedicated practitioner and reflective scholar in the early learning environment.

TED 8270 TRENDS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course provides a context for examining socio-political and research-based influences underlying trends in early childhood education at the local, national and international levels.
Prerequisite(s)/Corequisite(s): Graduate Status.

TED 8286 PATTERNS OF CARE IN EARLY CHILDHOOD EDUCATION (3 credits)
Exploration of contemporary patterns of home and school care of the young child from birth to six years.

TED 8296 LEARNING MATERIALS FOR EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed to promote the development of sound criteria for use in selecting appropriate learning materials for children from three to eight years of age.
Prerequisite(s)/Corequisite(s): TED 8260

TED 8300 EFFECTIVE TEACHING PRACTICES (3 credits)
This course focuses on specific characteristics and behaviors of effective teachers. Course content will be derived from research on teaching and learning.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8330 ANALYSIS OF TEACHER BEHAVIOR (3 credits)
This course is designed for educators who want to study, implement, reflect upon and share best practice. Candidates will examine the role and responsibilities of teachers as educational leaders and assume a role in advancing the scholarship of teaching.

TED 8376 TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. This course is designed to introduce candidates to the unique characteristics of the middle student, school, curriculum, history, and philosophy. (Cross-listed with TED 4370).
Prerequisite(s)/Corequisite(s): TED 2300 or EDUC 2010.

TED 8390 CLASSROOM MANAGEMENT IN PRACTICE (3 credits)
This course will provide graduate students with a survey of general classroom management methods for classrooms. Candidates will enhance their understanding of three basic components of effective pedagogy: 1) proactive classroom management, 2) high-impact instructional strategies that impact student engagement and learning, 3) behavior management techniques that incorporate practice, feedback, research, and reflection.
Prerequisite(s)/Corequisite(s): Graduate standing
TED 8396 TEACHING AT THE MIDDLE SCHOOL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. (Cross-listed with TED 4390).
Prerequisite(s)/Corequisite(s): Junior standing, TED 4370, EDUC 2510, EDUC 2520, EDUC 2524

TED 8410 IMPROVEMENT OF INSTRUCTION: SPECIAL TOPICS (3 credits)
This course provides an in-depth study of instructional theory, research, and methodology designed to extend teachers' professional knowledge base and enhance their pedagogical skills. When offered, a course may be limited to improvement of instruction in a selected subject area. (Cross-listed with STEM 8410).
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8420 TRENDS AND TEACHING STRATEGIES IN SCIENCE EDUCATION (3 credits)
This course is designed for the graduate candidate in the Department of Teacher Education whose study program emphasis is in the area of science education. The course will describe and analyze past and present trends in science education, including curricula, teaching-learning strategies, the laboratory and instructional materials. The course focus will be K-12 and as such is meant to serve both elementary and secondary graduate candidates. (Cross-listed with STEM 8420).

TED 8430 SCHOOL CURRICULUM PLANNING (3 credits)
This course is designed to provide advanced degree candidates with an understanding of the theory, principles, and practices utilized in curriculum planning in American schools. This course focuses on the principles and practices of effective curriculum planning and teachers' part in these processes as curriculum developers. (Cross-listed with STEM 8430).

TED 8470 TEACHING THE LANGUAGE ARTS (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching reading, writing, listening, and speaking. Candidates will learn about research supported appropriate language arts instruction strategies and assessments. This course will inform graduate students as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

TED 8480 FOUNDATIONS OF BILINGUAL EDUCATION (3 credits)
This course is designed to give future and current teachers a thorough understanding of the theoretical, political, historical, and practical foundations of bilingual/multicultural education in the United States. As dedicated practitioners, reflective scholars, and responsible citizens, graduate students will have knowledge of factors that contribute to effective multilingual and multicultural learning environments that promote individual and societal bilingualism. Advanced Spanish language proficiency required.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8490 SPANISH LANGUAGE ARTS (3 credits)
This course is designed to reinforce first and second language acquisition theory as it relates to dual immersion settings. Best practices for developing and reinforcing bilingualism and biliteracy are presented and used for planning and delivering instruction. Spanish fluency is required for the course.
Prerequisite(s)/Corequisite(s): Graduate status required for graduate students pursuing the bilingual education endorsement and concentration (does not lead to a Nebraska Department of Education teaching endorsement). Advanced Spanish language proficiency required.

TED 8510 AEROSPACE EDUCATION WORKSHOP (3 credits)
This course will focus on aviation and space education and its impact on society. It will seek to communicate knowledge, impart skill, and develop attitudes relative to the scientific, engineering and technical as well as the social, economic and political aspects of aviation and space flight efforts. (Cross-listed with AVN 8510, STEM 8510).
Prerequisite(s)/Corequisite(s): Graduate standing.

TED 8520 SCHOOL LIBRARY CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their schools and communities.
Prerequisite(s)/Corequisite(s): There are no course prereqs for the Capstone Practicum but candidates must be in the final 2 semesters of their library media program & must complete an application for the Practicum the semester prior to their practicum. Not open to non-degree grads.

TED 8530 INSTRUCTIONAL DESIGN STRATEGIES FOR STEM EDUCATORS (3 credits)
This course is designed to provide graduate candidates with the opportunity to enhance interdisciplinary instructional strategies, curricular understanding, and lesson preparation in the areas of science, technology, engineering, and mathematics (STEM) through analysis and reflective practices in STEM. This course provides hands-on experiences that model STEM integration techniques, including how to effectively engage with community agencies and partners to bring STEM into the classroom. Teacher professionals will be provided with tools, resources, and strategies to help them explore and enhance current, new, or supplemental curriculum activities that will enhance STEM learning, student engagement, and motivation. (Cross-listed with STEM 8530).
Prerequisite(s)/Corequisite(s): Graduate Standing

TED 8540 INTRO TO TECHNOLOGY TOOLS FOR LEARNING (3 credits)
This course is designed to help educators become comfortable and competent with infusing a wide variety of computer-mediated educational technologies into the learning environments of the students with whom they work, as well as become familiar with philosophical, psychological and sociological notions of the impacts of computer applications upon social institutions, such as schools.

TED 8550 DIGITAL MULTI-MEDIA IN LEARNING (3 credits)
This course provides participants with an introduction to the use of multimedia for teaching and learning. Participants will research and share the current knowledge base on the issues and effectiveness of various multimedia learning programs, gain experience with multimedia applications, create multimedia learning materials, evaluate existing multimedia learning opportunities and articulate personal principles concerning multimedia instruction and learning.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8560 SUPPORTING INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for educators who wish to become better advocates of technology integration in the classroom and/or to become a Technology Coordinator or Educational Technician in all curricular areas and all grade levels. Course candidates will learn to use problem-solving skills to evaluate and implement strategies to keep technology up to date, effectively use technology in the classroom, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): This course requires a permit for registration. Please contact Dr. Becky Pasco at rpasco@unomaha.edu for more information.

TED 8570 INTERNET IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators activley explore instructional implementations of Internet use appropriate for use in K-12 classrooms, successful diffusion of Internet innovations in educational environments, and emerging multicultural “breaking down the walls of the classroom” concepts available to educators through Internet use.
TED 8580 COLLABORATION TOOLS IN THE LEARNING PROCESS (3 credits)
This course is designed to help educators design, author, and utilize collaborative web-based instructional materials that will implement active learning and will be appropriate for use in K-12 classrooms.
Prerequisite(s)/Corequisite(s): TED 8570 or equivalent

TED 8596 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course introduces technology and technical literacies required of educators and information specialists in 21st Century libraries and classrooms. Course topics include information literacy, instructional design in digital environments, Web page design and construction, social networking and learning, and academic integrity. (Cross-listed with TED 4590).

TED 8600 ADVANCED SEMINAR IN EDUCATIONAL TECHNOLOGY (1-3 credits)
This is a variable content course focusing on selected advanced topics in educational technology. Course topics will include such subjects as optical technologies, robotics, distance education, and virtual realities. The course may be taken more than once for credit, provided that the topics differ, with a maximum of 6 credit hours.

TED 8610 TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing genres extend throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8620 ADVANCED SUPPORT OF INSTRUCTIONAL TECHNOLOGY ENVIRONMENTS (3 credits)
This course is designed for P-12 educators who wish to become better advocates of technology integration or become technology coordinators or school technicians. Course enrollees will evaluate and implement advanced strategies to keep technology up to date, effectively use technology, and properly manage technology in a school setting.
Prerequisite(s)/Corequisite(s): TED 8560

TED 8650 CHILDREN’S LITERATURE AND EDUCATION (3 credits)
Candidates in this graduate course will explore story, poetry, drama, and informational materials for elementary students with an emphasis on methods for including literature in school curricula with an awareness of diverse children’s lives, discourses, and understandings. Examines current issues, recent materials, and the theoretical and research base of this field to develop meaningful and creative learning, literacy, and library experiences for children.

TED 8660 YOUNG ADULT LITERATURE (3 credits)
This course extends candidates’ knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8690 SPECIAL TOPICS IN ECONOMICS EDUCATION (1-3 credits)
This course focuses on instructional innovations in K-12 economics education, i.e. economic issues, new teaching strategies, and innovative curriculum materials. In addition to learning about these issues, strategies, and materials, candidates develop plans for introducing them into their classrooms and assessing the impact of these instructional innovations. Not open to economics majors. (Cross-listed with ECON 8690).
Prerequisite(s)/Corequisite(s): Not open to economics majors. Permission of the course instructor.

TED 8695 LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 3690).
Prerequisite(s)/Corequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550.

TED 8700 ELEMENTARY EDUCATION CAPSTONE COURSE (3 credits)
This course is designed as a required, final capstone course for Elementary Education graduate students to be taken in the last nine hours of the Master of Science program. A grade of B or better must be received in TED 8700 to show satisfactory completion of the course and for program completion.
Prerequisite(s)/Corequisite(s): TED 8010 and permission of the Elementary Education Program Chair. Not open to non-degree graduate students.

TED 8710 RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 8726 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 4720).

TED 8746 ORGANIZATION OF INFORMATION (3 credits)
Candidates will demonstrate a basic understanding of the theories, concepts and activities of descriptive and subject cataloging and classification procedures of information resources in 21st Century libraries and information agencies. (Cross-listed with TED 4740).

TED 8756 ADVANCED CATALOGING AND CLASSIFICATION (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities of descriptive and subject cataloging of non-book materials (including serials and digital resources) in 21st Century libraries and information agencies using the Library of Congress and Dewey Decimal classification schemes and Library of Congress subject headings. (Cross-listed with TED 4750).
Prerequisite(s)/Corequisite(s): TED 8746

TED 8760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources.
TED 8770 INTEGRATING TECHNOLOGY INTO INSTRUCTIONAL DESIGN (3 credits)
The purpose of this course is to introduce participants to effective methods for the integration of educational media into instructional design, thereby further developing themselves as dedicated practitioners, reflective scholars and community leaders. The course provides participants (1) knowledge of broad instructional design theories and models with a concentration on constructivism, (2) experience in designing instruction that effectively integrates technology into the teaching-learning process, and (3) experience in producing instructional media. The course is intended to provide fundaments in the selection, evaluation, production, application and utilization of educational media. This course is designed for in-service library media or instructional technology specialists as well as regular classroom teachers. It is also useful for others interested in learning about the various types and applications of educational media.
Prerequisite(s)/Corequisite(s): Graduate status

TED 8800 MULTICULTURAL LITERATURE FOR CHILDREN AND YOUTH (3 credits)
This is designed as a graduate-level course dealing with utilization of literary materials representing authors and content from multiple perspectives, particularly authors whose cultural and ethnic backgrounds differ from the mainstream.

TED 8806 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
Candidates will demonstrate an understanding of the concepts and activities integral to leading and managing 21st Century libraries and information agencies. Candidates will demonstrate an understanding of leadership principles and management strategies that engage policies and procedures in support of the personal, academic and professional information needs for a diverse array of patrons and stakeholders. (Cross-listed with TED 4800).
Prerequisite(s)/Corequisite(s): Graduate status or non-degree graduate student

TED 8810 STEM IN EARLY CHILDHOOD EDUCATION: CURRICULUM AND RESEARCH (3 credits)
This course will explore theoretical and foundational pedagogical strategies in early childhood education used to deliver integrative STEM education in the preK-12 setting. In order to understand the research and practice of STEM disciplines in preK-12, it is necessary to examine the social, cultural, political, and functional aspects that influence them. Candidates will investigate the nature of STEM education, Early Childhood Education (ECE) pedagogy and perspectives of learning, content knowledge and dispositions for educators of STEM topics, and issues of access and equity for STEM education through literature, discussion, and practice. This course includes a community outreach component in which candidates will use qualitative methods to observe class topics in public settings. (Cross-listed with STEM 8810)
Prerequisite(s)/Corequisite(s): Graduate status

TED 8816 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 4810).

TED 8820 CAPSTONE IN STEM EDUCATION (3 credits)
This course will prepare graduate students for the integration, articulation, and differentiation of curriculum and instruction in and between the STEM core areas of Science, Technology, Engineering, and Mathematics. Special emphasis will be on using the STEM core content to help provide applications and context to existing science and mathematics curriculum and instruction and on providing leadership in developing curriculum for mathematics and science dependent courses in engineering and technology.
Prerequisite(s)/Corequisite(s): The student must be enrolled in one of the following concentrations: STEM, mathematics, science, technology; and be enrolled in the last six hours of their program of study. Not open to non-degree graduate students.

TED 8840 ENGINEERING EDUCATION EXTERNSHIP (3 credits)
This graduate course will address the best practice of effective teaching and learning in Engineering Education through professional collaboration between K-12 STEM (Science, Technology, Engineering, and Mathematics) teachers and practicing engineering professionals. K-12 STEM teachers, as graduate students in the course, will learn about and address real-world applications and career opportunities in STEM education through the externship. K-12 STEM teachers will research and develop authentic, experiential learning opportunities and projects for the classroom through course supports associated with lecture, discussion, and partnerships with practicing engineering professionals. The externship will be integral to the K-12 STEM teachers' experiences and work in this course, as the course models effective professional collaboration founded on experience, knowledge, and skills to achieve a curriculum enhancement goal. K-12 STEM teachers' project-development work will align closely with current national and Nebraska science, technology, and mathematics standards as well as with the interdisciplinary context of STEM instruction, through the instructional lens and context of utilizing the engineering design process. (Cross-listed with STEM 8840)
Prerequisite(s)/Corequisite(s): Graduate status. Not open to non-degree graduate students.

TED 8850 PROFESSIONAL COLLABORATION (3 credits)
This course is designed to prepare candidates to work in collaboration with other professionals and parents to create a learning environment that enhances the potential for academic success and improvement of instructional practices. The focus will be on collaborative problem solving. (Cross-listed with SPED 8980).
Prerequisite(s)/Corequisite(s): Admission to Graduate College.

TED 8856 COORDINATION TECHNIQUES IN VOCATIONAL EDUCATION (3 credits)
This course reviews responsibilities and techniques of coordination for the vocational teacher-coordinator and/or vocational coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 4850).

TED 8860 INVENTION & INNOVATION IN ENGINEERING EDUCATION (3 credits)
This course will address emerging trends in STEM education for in-service K-12 STEM teachers with a focus on the use of engineering education practices in teaching and learning content. STEM teachers will receive applicable, hands-on, classroom-ready experiences through lecture, professional instruction, and projects that will emphasize product design and creation through the Engineering Design Process. The Engineering Design Process will be central to the candidates' experiences in this course and will be used by the candidates to develop curriculum utilizing emerging trends to supplement current course content and standards. Interdisciplinary planning will be central to the course. (Cross-listed with STEM 8860).
Prerequisite(s)/Corequisite(s): Graduate status is required.
TED 8880 LEADERSHIP IN EARLY CHILDHOOD EDUCATION (3 credits)
This course seeks to prepare candidates with leadership skills in the early childhood field that will empower them to initiate and implement changes in programs serving young children and families. Candidates will explore and apply frameworks of leadership and analyze policy, governance, and power structures that can impact change. Candidates will also learn effective advocacy skills to positively influence policies and practices in program and governance structures. Lastly, candidates will examine approaches for developing new leaders in early childhood education through reflective supervision and mentorship.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 8900 SECONDARY EDUCATION GRADUATE CAPSTONE (3 credits)
The Secondary Education Graduate Capstone course provides candidates with an opportunity to apply the knowledge, skills, and dispositions acquired during their program to content specific synthesis activities in their respective disciplines. Candidates will demonstrate their ability to integrate information from program coursework in the design, development and presentation of a final capstone project related to teaching and learning in 21st Century educational environments.
Prerequisite(s)/Corequisite(s): 30 credit hours towards degree completion; Permission required by Program Advisor. Not open to non-degree graduate students.

TED 8970 INDEPENDENT STUDY (1-3 credits)
This is a specially designed course taken under the supervision of a graduate faculty member to accommodate the student who has identified a focus of study not currently available in the departmental offerings and who has demonstrated capability for working independently.
Prerequisite(s)/Corequisite(s): Permission of Department and Graduate Faculty member.

TED 8980 PRACTICUM: VARIOUS CONTENT AREAS (1-6 credits)
This course is designed to provide school professionals with a guided, supervised, field experience that will develop and enhance the knowledge, skills, and dispositions requisite of a successful educational practitioner.
Prerequisite(s)/Corequisite(s): Prerequisites for the course will vary, depending on the content/discipline area. See syllabus for specific discipline area.

TED 8990 THESIS (1-6 credits)
This course is an independent research project completed under the direction of a thesis advisor and required of all candidates pursuing a Master of Science with Thesis option.
Prerequisite(s)/Corequisite(s): Completion of Selective Retention and approval of advisor. Not open to non-degree graduate students.

TED 9100 THEORIES, MODELS, AND PRACTICES OF LITERACY (3 credits)
This course develops a framework about the theories, models, practices, processes, and related research associated with literacy. The content looks across grade levels and student populations, and across social and cultural contexts in an examination of factors that impact theories and processes of literacy.
Prerequisite(s)/Corequisite(s): Graduate status.

TED 9110 PRINCIPLES AND PRACTICES FOR TEACHING READERS (3 credits)
This graduate course for both elementary and secondary teachers is open to any candidate who has graduate standing in education. The purpose of the course is to develop a broad understanding of the reading process as well as materials and instructional strategies that support students who are emerging, developing, and maturing as readers in all areas of the curriculum.

TED 9130 ASSESSMENTS AND INTERVENTIONS - ELEMENTARY (3 credits)
This course is designed for graduate candidates enrolled in the Literacy Masters or Reading Specialist endorsement program. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches that support reading development. This knowledge is applied through a practicum experience with elementary students in which candidates integrate knowledge and practices related to assessment and evaluation of readers’ strengths and needs.

TED 9140 ASSESSMENT AND INTERVENTION - SECONDARY (3 credits)
This course is designed for graduate candidates in literacy endorsement and Master's programs. The purpose of this course is to develop an understanding of theory and research as it relates to assessment and evaluation and instructional approaches as they relate to reading difficulties among middle and high school students. Included in this course is knowledge about the role and responsibility of a literacy leader as it relates to coaching, mentoring, supervision, and evaluation of a reading program. Application of this information is demonstrated through a practicum experience with middle and high school students in which candidates integrate knowledge and practices related to assessment and evaluation of readers’ strengths and needs.

TED 9180 LITERACY RESEARCH SEMINAR (3 credits)
This course will develop advanced degree candidates' understanding and ability to critically examine current literacy research through work with (1) scientific methods of quantitative and qualitative research (2) discussion of historical trends in literacy research, (3) designs, methods, and tools of research, and (4) reviewing and critically examining current research studies in literacy. These examinations will be conducted from the perspectives of knowledge about literacy processes, classroom practice, and influence of previous research results. Teacher candidates will apply these issues in an action research project they design.

TED 9190 LITERACY GRADUATE CAPSTONE (3 credits)
This course is designed to help Literacy Masters students synthesize the knowledge gained from the program in order to serve as literacy leaders within the complex organizations of classrooms, schools, and school districts. In this course students will integrate their learning across the program in order to organize their future activities in teaching, leadership, advocacy, and engagement opportunities in ways that honor the interrelationships among classroom, school, sociocultural and economic contexts. They will prepare to engage with all literacy education stakeholders in cutting edge, innovative ways that advance both the learning of PK-12 students and the literacy education field.
Prerequisite(s)/Corequisite(s): This course is designed as a capstone event. Accordingly, students must have no more than 6 additional remaining credit hours of coursework. Permit to enroll required.

TED 9200 CRITICAL PEDAGOGY: TEACHING FOR SOCIAL JUSTICE (3 credits)
This course examines ways in which ideology, power, and culture intersect in P-12 educational settings. Undemocratic, inequitable, and oppressive structures are identified. Possibilities for democratic, equitable transformations are proposed.
Prerequisite(s)/Corequisite(s): Graduate status

Theatre (THEA)
THEA 8000 SPECIAL TOPICS IN THEATRE AND DRAMA (3 credits)
A variable content course dealing with theatre and drama. Each offering will treat a single aspect of theatre or drama in depth - e.g., Shakespeare in performance, the history of acting theory, the history of theatrical design, etc.
Prerequisite(s)/Corequisite(s): Graduate or permission of instructor.
THEA 8016 ADVANCED PROJECTS IN THEATRE (1-3 credits)
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 4010)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 8026 ADVANCED PROJECTS IN THEATRE (1-3 credits)
Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum. (Cross-listed with THEA 4020)
Prerequisite(s)/Corequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 8030 INTERNSHIP IN THEATRE (1-6 credits)
Maximum of six hours to be granted upon completion of written report on internship. The internship will be in some area of theatre. Students will receive a letter grade for the course. May be taken for a maximum of six hours of credit.
Prerequisite(s)/Corequisite(s): Permission of the theatre graduate program committee chair

THEA 8040 INTERNSHIP IN THEATRE (1-6 credits)
Maximum of six hours to be granted upon completion of written report on internship. The internship will be in some area of theatre. Students will receive a letter grade for the course. May be taken for a maximum of six hours of credit.
Prerequisite(s)/Corequisite(s): Permission of the theatre graduate program committee chair

THEA 8130 GLOBAL CITIZENSHIP IN THE ARTS (3 credits)
This course is about artistic excellence married to ethical practices and responsible world citizenship. Students will analyze and evaluate how to use art to address community issues and discover a road map that allows for authentic, consistent and sustainable commitment to the community and its needs.

THEA 8316 ADVANCED ACTING: POST REALISM (3 credits)
Advanced work in the technical skills of voice, speech, movement and textual analysis needed for post-realistic material. (Cross-listed with THEA 4310)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 8326 ADVANCED ACTING: GREEKS TO RESTORATION (3 credits)
The fundamental theories and practices of major styles of acting from ancient Greece to the Restoration, including interpretation of outstanding dramatic literature. (Cross-listed with THEA 4320)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 8336 ADVANCED ACTING: ENSEMBLE PLAY PRODUCTION (3 credits)
In-depth exploration of a play or playwright’s work to connect acting class with performance. Special emphasis on creating a working process that allows the ensemble to emerge. The class will culminate in public performance. (Cross-listed with THEA 4330)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 8346 ADVANCED ACTING: AUDITIONING (3 credits)
An acting class designed to develop auditioning skills and material as well as cultivate a working knowledge of the business of acting. (Cross-listed with THEA 4340)
Prerequisite(s)/Corequisite(s): Graduate with an undergraduate major or minor in theatre or permission of the instructor.

THEA 8436 DIRECTING I (3 credits)
Directing I examines the development of the role of director in Western Theatre; provides practice in the directing process including script analysis, dramaturgical research, staging visual composition, collaboration with designers and performers; considers alternative approaches to directing and encourages students to begin to develop a personal directing style. (Cross-listed with THEA 4430)
Prerequisite(s)/Corequisite(s): Graduate standing with an undergraduate major or minor in theatre or permission of the instructor.

THEA 8446 DIRECTING II (3 credits)
A practicum in play selection, analysis, casting, rehearsing and performing. (Cross-listed with THEA 4440)
Prerequisite(s)/Corequisite(s): THEA 8436.

THEA 8506 COSTUME DESIGN (3 credits)
An introduction to the fundamentals of stage costume design, including line, silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with life drawing and rendering technique. (Cross-listed with THEA 4500)
Prerequisite(s)/Corequisite(s): THEA 4550 and ART 1100 and ART 1210 or permission of instructor.

THEA 8516 COSTUME DESIGN (3 credits)
An introduction to the fundamentals of stage costume design, including line, silhouette, movement, color, texture and theatricality. Emphasis on the visual presentation of designs, including considerable work with life drawing and rendering technique. (Cross-listed with THEA 4510)
Prerequisite(s)/Corequisite(s): THEA 4550 and ART 1100 and ART 1210 or permission of instructor.

THEA 8556 PERIOD STYLES IN DRESS AND DECOR (3 credits)
An historical survey course introducing students to the major periods and iconic styles and trends in western architecture, dress and interior décor of the past 2000 years; and to the social, cultural and technological influences on those trends. Particularly as they relate to theatrical and production design. (Cross-listed with THEA 4550)
Prerequisite(s)/Corequisite(s): Graduate standing.

THEA 8615 COLLABORATIVE DESIGN STUDIES (3 credits)
Collaborative Design Studies explores the integration and process of theatrical production including scenery, lighting, costume, projection and sound. It chronicles their individual and collective impact on storytelling. While developing the skills of the Scenographer, students will work collaboratively as they foster their individual artistic design talents, and recognize the impact of design on society through storytelling. (Cross-listed with THEA 3610)
Prerequisite(s)/Corequisite(s): THEA 1510.

THEA 8616 SCENE DESIGN (3 credits)
Principles of composition, perspective and color for the stage; the designer’s approach to the play, production of ground plans, elevations, sketches and models. (Cross-listed with THEA 4610)
Prerequisite(s)/Corequisite(s): THEA 1510.

THEA 8650 TECHNICAL THEATRE PROBLEMS (3 credits)
Research and dialogue in the aesthetics and physical results of the relationships between dramatic form, theatre architecture and scenic design and lighting from historical and contemporary points of view.
Prerequisite(s)/Corequisite(s): THEA 1010 and THEA 3660 and THEA 4610 and THEA 4710 and THEA 4720 or permission.

THEA 8665 STAGE AND TV LIGHTING (3 credits)
Characteristics and control of light and color and their application to the theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems; automation. (Cross-listed with THEA 3660)
Prerequisite(s)/Corequisite(s): THEA 1630 or permission of instructor.
THEA 8755 THEATRE AND SOCIAL JUSTICE (3 credits)
This service-learning course will combine both research and practice in theatre that involves social change. Students will study the history of such theatre, with special focus on developments in the 20th century. All research will be accompanied by several community-based projects whereby students will create theatre with specific populations (schools, community centers, health centers, senior homes, etc.). (Cross-listed with THEA 3750)
Prerequisite(s)/Corequisite(s): Graduate in theatre. Graduate outside theatre with sufficient background in theatre and sociology political science requires permission of the instructor.

THEA 8900 THEATRE RESEARCH METHODS (2 credits)
This course is designed to introduce graduate students in theatre to basic techniques of scholarly research: gathering material, defining the problem, and improving basic writing. Special emphasis will be placed on computer searches, resources available at UNOmaha, and community-based research.
Prerequisite(s)/Corequisite(s): Admission to the graduate program in theatre.

THEA 8910 RESEARCH METHODS II (1 credit)
Research Methods II is a follow-up course to Research Methods. In this one credit course, graduate students will write drafts of their final thesis project proposals with the intention of being able to use them for official submission at the end of the spring semester.
Prerequisite(s)/Corequisite(s): Graduate student in theatre and THEA 8900.

THEA 8920 DRAMATIC THEORY & CRITICISM (3 credits)
An introduction to selected dramatic theories and criticism from antiquity to the nineteenth century. This course is intended for graduate students with a strong background in dramatic literature and interest in theatre production.
Prerequisite(s)/Corequisite(s): Graduate standing, in THEA. Graduate students outside of theatre must have the permission of the instructor.

THEA 8930 THEATRE IN OUR COMMUNITY: THEORY & CRITICISM (3 credits)
Students will apply dramatic theory and criticism to the theatre in our area. Students will visit different area theatres, analyze their work, and have discussions with their artistic directors.
Prerequisite(s)/Corequisite(s): Graduate student.

THEA 8940 MODERN THEATRE AESTHETICS: REALISM & NATURALISM TO 1980 (3 credits)
Research and discussion on the aesthetic theories and movements in the modern theatre (Realism & Naturalism of the 20th Century). Emphasis on primary source material from Meyerhold, Brecht, Artaud, Grotowski, Schechner and others.
Prerequisite(s)/Corequisite(s): Graduate standing.

THEA 8950 CONTEMPORARY THEATRE AESTHETICS: 1980-PRESENT AND BEYOND (3 credits)
This seminar is the chronological capstone for the theatre department graduate seminar series. It focuses on theories and practice in theatre during the last two decades with the aim of acquainting students with the most recent forces shaping current theatre in the U.S. and selected areas of the world.
Prerequisite(s)/Corequisite(s): Graduate standing, in THEA. Graduate students outside of theatre must have permission of the instructor.

THEA 8980 FINAL PROJECT (1-3 credits)
Final project for Option II or III.
Prerequisite(s)/Corequisite(s): Admission to candidacy and approval of the project proposal

THEA 8990 THESIS (1-3 credits)
Independent research project written under the supervision of an adviser.

Urban Studies (UBNS)

UBNS 8000 SEMINAR IN URBAN STUDIES (3 credits)
This course provides an interdisciplinary overview of the forces influencing and influenced by urbanization and urbanism. (Cross-listed with GEOG 8830)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

UBNS 8020 RACE, ETHNICITY, AND AMERICAN URBAN CULTURE (3 credits)
This course explores two central themes, race and ethnicity, which have played a dominant role in the shaping of American society and American culture. (Cross-listed with BLST 8020).
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 1100, or permission by the instructor.

UBNS 8060 INTRODUCTION TO URBAN PLANNING (3 credits)
This course is an introduction to the development of urban planning as it has shaped and reacted to major trends in U.S. history. It provides students with major themes and traditions in the field of planning and includes planning practice, planning procedures and methods and contemporary issues in the field.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

UBNS 8200 COMMUNITY ORGANIZING AND DEVELOPMENT (3 credits)
This course focuses on various theories and applications of organizing communities and neighborhoods to effect change. Of particular interest is the role of engaging citizens in improving their communities.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

UBNS 8820 COMPARATIVE URBAN STUDIES (3 credits)
Emphasis is upon contrasting the cities of the developed and developing areas of the world.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

UBNS 8830 INTRODUCTION TO URBAN PLANNING (3 credits)
The course is designed to introduce graduate students in urban studies. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with GEOG 8840).

Prerequisite(s)/Corequisite(s): Completed 9 graduate hours in Urban Studies. Permission from the School. Not open to non-degree graduate students.

UBNS 8940 DIRECTED RESEARCH IN URBAN STUDIES (1-3 credits)
The course is intended for advanced graduate students in urban studies. It is especially suited for those in-career students who have had their internships waived and who might profit more by in-depth research on a problem of urban studies rather than additional classroom courses. (Cross-listed with GEOG 8840).

Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

UBNS 8980 THESIS (1-6 credits)
A research project, designed and executed under the supervision of the chair and members of the graduate student's Thesis Advisory Committee. In this project, the student will develop and perfect a number of skills including the ability to design, conduct, analyze, and report the results in writing (i.e., thesis) of an original, independent scientific investigation. The project plan must be approved by the student's Thesis Advisory Committee.

Prerequisite(s)/Corequisite(s): Graduate student in UBNS and approval of Thesis Advisory Committee.
Women's and Gender Studies (WGST)

WGST 8066 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 4060, and HIST 8066).
Prerequisite(s)/Corequisite(s): Graduate standing

WGST 8105 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 3100, PSCI 8105, WGST 3100)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

WGST 8135 WOMEN AND POLITICS (3 credits)
This course introduces students to women’s political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 3130)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.

WGST 8156 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with WGST 4150, ENTR 4150, ENTR 8156, GEOG 4150 and GEOG 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 8235 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 3230)
Prerequisite(s)/Corequisite(s): PSCI 2500 recommended

WGST 8476 AMERICAN MEDICINE AND PUBLIC HEALTH (3 credits)
Analysis of the relationship and interaction of medical thought and practice, public health problems and institutional development, and the changes in American society and culture from the 17th to the 20th century. (Cross-listed with WGST 4470, HIST 4470 and HIST 8476).
Prerequisite(s)/Corequisite(s): Junior.

WGST 8886 WOMEN'S ISSUES IN SOCIAL WORK (3 credits)
Topics and experiences in social work theory and practice pertaining to women’s issues. Specifics will be announced when the course is offered. The topics selected will be consistent with faculty expertise and student needs. This course may be repeated for up to 9 hours credit.
Prerequisite(s)/Corequisite(s): Permission of the School

WGST 8910 TOPICS IN WOMEN'S HISTORY (3 credits)
A pro-seminar on selected topics based on a consideration of interpretive historical writings and or source materials.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

WGST 8976 PRO-SEMINAR (1-3 credits)
Detailed study of narrower phases of literature, language, or culture. (Cross-listed with WGST 4970).
Prerequisite(s)/Corequisite(s): Permission

Writer's Workshop (WRWS)

WRWS 8106 FICTION STUDIO (4 credits)
An advanced course in fiction writing. Emphasis on refining the techniques of developing short fiction or the novel.
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor.

WRWS 8116 FICTION STUDIO-ADVANCED (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others’ work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4100, WRWS 4110)
Prerequisite(s)/Corequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 8206 POETRY STUDIO (4 credits)
An advanced course in poetry writing. Emphasis on refining poetic technique. (Cross-listed with WRWS 4200)
Prerequisite(s)/Corequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

WRWS 8216 POETRY STUDIO (4 credits)
A graduate workshop in poetry writing with emphasis on such elements of craft as rhythm, imagery, lineation, diction, and metaphor. The course presumes the student is familiar with principles and practice of Twentieth Century poetry in English.
Prerequisite(s)/Corequisite(s): Graduate standing and permission of instructor based on writing sample.
