Bring your story to life with the American Community Survey

The following national statistics are examples of the estimates available from the 2010 American Community Survey (ACS) 1-year estimates. The ACS produces social, economic, housing, and demographic statistics that are available for areas within the United States and Puerto Rico.

- 53.9% of married-couple families have both husband and wife in the labor force
- 4.3% of workers, 16 years and older, work at home
- 67.2% of owner-occupied housing units are owned with a mortgage
- 16.0% of total housing units were built between 1970 and 1979
- 87.1% of children, 3 to 17 years, are enrolled in public schools
- 19.8% of children, 5 to 17 years, speak a language other than English at home
- 12.5% of children under 18 years, are without health insurance coverage
- 73.5% of people, 16 years and older, in education, training, and library occupations are women
- 8.5% of people, 65 years and older, are Black or African American
- 43.9% of people, 65 years and older, live alone
- 16.1% of people, 65 years and older, are in the civilian labor force
- 36.7% of people, 65 years and older, have a disability

Make your own datasets with ACS PUMS files

The ACS provides Public Use Microdata Sample (PUMS) Files for more advanced data users. These files contain individual-level datasets that you can tabulate on your own computer.

You can access the files in two ways:

Download the files from American FactFinder for use with software such as SAS or SPSS.

www.census.gov/acs/www/data_documentation/public_use_microdata_sample/

Use the online access tool, DataFerrett, to create your own tabulations for download.
