For 107 years, UNO has served as this state’s point of access for excellence in higher education.

Our equation for distinction is quite simple: hire extraordinary faculty and staff; offer a broad range of relevant and unique programs; enroll committed and passionate undergraduate and graduate students; build state-of-the-art learning, teaching and living spaces; offer the most competitively priced tuition in the region; infuse engagement, creativity, diversity and community into the culture; leverage the opportunities of a great city; and build a network of more than 116,000 alumni across the globe.

Okay, not so simple. Yet, that is the Maverick way.

We put this book together to share the value of UNO with students, parents, alumni, businesses, and community partners. We want everyone to get to “Know the O” and see how our momentum is building.

Our value is a direct result of our unwavering dedication to our mission: deliver excellence in academics; commit fully to students; and remain locally and globally engaged.

We call this the UNO advantage.
Warren Buffett, past instructor at The University of Nebraska at Omaha (formerly Omaha University)

Price is what you pay, value is what you get.

The University of Nebraska at Omaha (UNO) is a premier metropolitan university that combines the resources of a doctoral research institution with a thriving community in the heart of Omaha.

With a global reach and vision, UNO is large enough to provide opportunities students seek, yet personal enough to include the mentorship they need to achieve academic excellence, creativity, and engaged learning at competitive tuition rates.

UNO is committed to and engaged with the city surrounding it, allowing students unique hands-on opportunities, internships, service learning, applied research, and other collaborative activities that enhance time in the classroom.

This is the “O” we want you to know — forward thinking, student centered, and devoted to the city we call home.
KNOW THE O :: THE UNO ADVANTAGE

OMAHA & UNO: PARTNERS FOR MORE THAN A CENTURY

UNO is located in the heart of Omaha, Nebraska, its roads winding through city parks and thriving neighborhoods, creating an extraordinary connection that few universities have achieved.

The city itself has truly become a part of the UNO campus. With a population of more than 1.2 million people within a 50-mile radius, UNO both offers and receives unlimited opportunities for collaboration.

The shared goal of Omaha and UNO has always been to empower students and residents, while enriching the global community. Our dynamic and rewarding partnership will no doubt flourish and grow for another 100 years.

UNO IS NEBRASKA’S METROPOLITAN UNIVERSITY.

A Metropolitan University, defined in its simplest terms, is an institution that accepts all of higher education’s traditional values in teaching, research, and service, but takes upon itself the additional responsibility of providing engaged leadership within the metropolitan region by using its human and financial resources as partners to improve the region’s quality of life.

More than 800 colleges and universities applied, and it is the highest honor a university or college can receive by the U.S. government for its commitment to volunteering, service learning, and civic engagement. On top of this award, every year since 2005, UNO has been named to the President’s Higher Education Honor Roll.

UNO has achieved the prestigious elective classification for “Community Engagement” by the Carnegie Foundation for excellence in collaboration with the Omaha metro area for the second time. This classification places UNO among the top universities in the nation for service learning, community service, and civic engagement initiatives.

Once a Maverick, always a Maverick.
TRADITION

Where does momentum begin? For us, it was the determination to tell our story—and once we started telling our story, people started to see the successes UNO students have achieved.

And that success is inspiring. It inspires our faculty to find new and creative ways to teach our students. It allows our students to remain independent thinkers who will find unlimited opportunities before them.

The Maverick Monument, (shown at right) was a gift from the Alumni Association on the occasion of their 100th anniversary, and stands in front of the Health, Physical Education, and Recreation Building. This eight-foot high bronze bull statue doesn’t just represent the university’s mascot—it symbolizes the determination, pride, and success of our students, graduates, and the community.

Go Mavs!
