Index .................................................................................. 1517
Undergraduate Programs A-Z

A
- Accounting Concentration (p. 374)
- Ancient Mediterranean Studies Minor (p. 74)
- Anthropology Minor (p. 338)
- Architectural Engineering, Bachelor of Science (p. 600)
- Art History Minor (p. 479)
- Art History, Bachelor of Arts (p. 476)
- Artificial Intelligence Concentration (p. 649)
- Aviation, Bachelor of Science (p. 693)

B
- Bachelor of Multidisciplinary Studies (p. 706)
- Bachelor of Science in Business Administration (BSBA) Degree (p. 348)
- Banking and Financial Markets Concentration (p. 383)
- Bioinformatics Minor (p. 672)
- Bioinformatics, Bachelor of Science (College of Arts and Sciences) (p. 77)
- Bioinformatics, Bachelor of Science (College of Information Science & Technology) (p. 668)
- Biology Minor (p. 94)
- Biology, Bachelor of Arts (p. 86)
- Biology, Bachelor of Science (p. 88)
- Biology, Bachelor of Science with a Concentration in Education (p. 91)
- Biomechanics Minor (p. 519)
- Biomechanics, Bachelor of Science (p. 517)
- Black Studies Minor (p. 100)
- Black Studies, Bachelor of Science (p. 98)
- BSBA as a Second Bachelor’s Degree (p. 366)
- Business Analytics Concentration (p. 384)
- Business Analytics Minor for Non-Business Majors (p. 369)
- Business Finance Concentration (p. 386)
- Business for Non-Business Majors Minor (p. 369)

C
- Chemistry Minor (p. 113)
- Chemistry, Bachelor of Arts (p. 104)
- Chemistry, Bachelor of Science (p. 106)
- Chemistry, Bachelor of Science with a Concentration in Chemistry Education (p. 108)
- Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry (p. 111)
- Chicano/Latino Studies Minor (p. 217)
- Civil Engineering, Bachelor of Science (p. 603)
- Communication Disorders (p. 593)
- Communication Studies Minor (p. 425)
- Communication Studies, Bachelor of Arts (p. 421)
- Communication Studies, Bachelor of Science (p. 423)
- Computer Engineering, Bachelor of Science (p. 615)
- Computer Science Minor (p. 650)
- Computer Science, Bachelor of Science (p. 644)
- Construction Engineering, Bachelor of Science (p. 629)
- Construction Management, Bachelor of Science (p. 631)
- Creative Writing Minor (p. 511)
- Creative Writing, Bachelor of Fine Arts (p. 508)
- Criminology & Criminal Justice Minor (p. 704)
- Criminology & Criminal Justice, Bachelor of Science (p. 702)
- Cybersecurity Minor (p. 678)
- Cybersecurity, Bachelor of Science (p. 673)

D
- Data Management Certificate (p. 660)

E
- Economics Concentration (p. 379)
- Economics Minor (p. 120)
- Economics, Bachelor of Arts (p. 117)
- Economics, Bachelor of Science (p. 118)
- Education - Deaf/Hard of Hearing Program (p. 593)
- Education - Early Childhood Inclusive, Bachelor of Science (p. 541)
- Education - Elementary Education, Bachelor of Science (p. 544)
- Education - Library Science, Bachelor of Science (p. 552)
- Education - Secondary Education, Bachelor of Science (p. 553)
- Education - Special Education, Bachelor of Science (p. 589)
- Electrical Engineering, Bachelor of Science (p. 617)
- Emergency Management (BSEM), Bachelor of Science (p. 724)
- Emergency Management Minor (p. 729)
- Engineering Leadership Minor (p. 620)
- English Minor (p. 135)
- English, Bachelor of Arts (p. 126)
- Enterprise Resource Planning (ERP) Systems Minor (p. 660)
- Entrepreneurship Concentration (p. 405)
- Entrepreneurship for Non-Business Majors Minor (p. 369)
- Environmental Science Minor (p. 147)
- Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences (p. 138)
- Environmental Science, Bachelor of Science with a Concentration in Earth Sciences (p. 140)
- Environmental Science, Bachelor of Science with a Concentration in Geography and Planning (p. 143)
- Environmental Science, Bachelor of Science with a Concentration in Life Science (p. 145)
- Ethics Minor (p. 284)

F
- Fire Service Management Minor (p. 729)
- Foreign Languages and Literature, Bachelor of Arts (p. 157)
- French Minor (p. 161)

G
- Game Programming Concentration (p. 649)
- General Science, Bachelor of Science (p. 162)
- Geography Minor (p. 176)
- Geography, Bachelor of Arts (p. 171)
- Geography, Bachelor of Science (p. 173)
• Geology Minor (p. 187)
• Geology, Bachelor of Arts (p. 179)
• Geology, Bachelor of Science (p. 183)
• German Minor (p. 161)
• Gerontology Certificate (p. 736)
• Gerontology Minor (p. 737)
• Gerontology, Bachelor of Science (p. 734)

H
• History Minor (p. 194)
• History, Bachelor of Arts (p. 191)
• History, Bachelor of Science (p. 193)
• Holocaust and Genocide Studies Minor (p. 194)
• Human Resource Management Concentration (p. 398)
• Human Rights Studies Minor (p. 195)

I
• Information Assurance Concentration (p. 650)
• Information Technology (IT) Innovation, Bachelor of Science (p. 679)
• Information Technology Administration Certificate (p. 661)
• Interdisciplinary Studies, Bachelor of Arts (p. 197)
• Interdisciplinary Studies, Bachelor of Science (p. 200)
• International Business Concentration (p. 367)
• International Studies Minor (p. 210)
• International Studies, Bachelor of Arts (p. 205)
• Internet Technologies (IT) Concentration for Computer Science Majors (p. 650)
• Investment Science and Portfolio Management Concentration (p. 388)
• Islamic Studies Minor (p. 211)
• IT Innovation Minor (p. 684)

J
• Journalism and Media Communication Minor (p. 435)
• Journalism and Media Communication, Bachelor of Arts (p. 426)
• Journalism and Media Communication, Bachelor of Science (p. 430)

K
• Kinesiology, Bachelor of Science in Education (p. 531)

L
• Latino/Latin American Studies, Bachelor of Arts (p. 214)
• Leadership and Public Policy Minor (p. 308)
• Legal Studies Concentration (p. 389)
• LGBTQ/Sexuality Studies Minor (p. 344)
• Logistics & Supply Chain Management Concentration (p. 399)
• Logistics & Supply Chain Management for Non-Business Majors Minor (p. 370)

M
• Management Concentration (p. 396)
• Management Information Systems Minor (p. 659)
• Management Information Systems, Bachelor of Science (p. 655)
• Marketing Concentration (p. 406)
• Marketing for Non-Business Majors Minor (p. 369)
• Mathematics Minor (p. 252)
• Mathematics, Bachelor of Arts (p. 225)
• Mathematics, Bachelor of Science (p. 238)
• Medical Humanities Minor (p. 259)
• Medical Humanities, Bachelor of Arts (p. 254)
• Medical Humanities, Bachelor of Science (p. 257)
• Medieval/Renaissance Studies Minor (p. 261)
• Molecular and Biomedical Biology, Bachelor of Science (p. 263)
• Molecular and Biomedical Biology, Minor (p. 267)
• Music Education, Bachelor of Music, K-12 Certification (p. 461)
• Music Performance, Bachelor of Music (p. 453)
• Music, Bachelor of Arts (p. 446)

N
• Native American Studies Minor (p. 267)

Catalog Introduction

Catalog Purpose

The catalog is a comprehensive resource that provides important information for students’ academic careers at UNO. The catalog contains official descriptions of academic programs, prerequisites, courses, and degree requirements. In addition, the catalog provides an overview of academic policies and procedures, including admissions, enrollment, grading, and financial information.

Catalog Disclaimers

Discontinuance of Program Offerings

Acceptance of registration by the University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out, or discontinue any program.

The listing of courses contained in any University bulletin, catalog, or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to:

1. Add or delete courses from its offerings;
2. Change times or locations of courses or programs;
3. Change academic calendars without notice;
4. Cancel any course for insufficient registrations, or
5. Revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University.

University’s Right to Change

The University and its various colleges, divisions, and departments reserve the right to change the rules controlling admission to, instruction in, and graduation from the University or its various divisions. Such regulations are operative whenever University authorities deem necessary and apply not only to prospective students, but also to currently enrolled students.

The University also reserves the right to withdraw courses, to reassign instructors and to change tuition and fees at any time. In some cases, prerequisites for courses offered at the University are effective even if they are not listed in this catalog. See the current class schedule or your advisor for more information.

NOTE: Modifications in the academic calendar and program could be necessitated by emergency conditions.

About UNO

Located in one of America’s best cities to live, work and learn, the University of Nebraska at Omaha (UNO) is Nebraska’s premier metropolitan university. With more than 15,000 students enrolled in 200-plus programs of study, UNO is recognized nationally for its online education, graduate education, military friendliness, and community engagement efforts. Founded in 1908, UNO has served learners of all backgrounds for more than 100 years and is dedicated to another century of excellence both in the classroom and in the community.

Metropolitan University Mission

Mission Statement

As a metropolitan university of distinction, Carnegie Doctoral Research Institution, and one of the first universities to earn the Carnegie Community Engagement Classification, the University of Nebraska at Omaha (UNO) transforms and improves the quality of life locally, nationally and globally.

The “metropolitan university,” defined in its simplest terms, is an institution that accepts all of higher education’s traditional values in teaching, research, and service, but takes upon itself the additional responsibility of providing engaged leadership within the metropolitan region by using its human and financial resources as partners to improve the region’s quality of life. Adapted from Paige E. Mulhollan’s “Aligning Missions with Public Expectations: The Case of the Metropolitan Universities,” Metropolitan Universities, 1995.
Learn more about the UNO metropolitan mission (https://www.unomaha.edu/about-uno/mission.php).

**Accreditation**

The University of Nebraska at Omaha (UNO) is accredited by the Higher Learning Commission, which is an independent corporation founded in 1895. The commission can be contacted at 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604; telephone 800.621.7440/312.263.0456; fax 312.263.7462; email info@hlcommission.org. Higher Learning Commission accreditation applies to the entire institution, all its programs, and all its locations.

In addition, a number of programs have been awarded discipline-specific accreditation. Learn more about the comprehensive listing (https://www.unomaha.edu/accreditation/programs/). Prospective and enrolled students are encouraged to check with department/school advisors for additional information about program accreditation in relation to specific programs.

**Community Engagement**

UNO is Nebraska’s metropolitan university – a university with strong academic values and significant relationships with our community that transforms and improves life. Community engagement and service are fundamental components of UNO’s identity. This commitment to engagement is reflected in UNO’s academics, student body, partnerships, and institutional framework.

Learn more about the commitment to engagement (https://www.unomaha.edu/campus-commitment-to-community-engagement/).

**University Structure**

UNO is part of the Nebraska University system. The system has four university campuses: UNK, UNL, UNMC, and UNO. The campuses are led by the University President and the president reports to the Board of Regents which is an elected body. Each campus is led by a chancellor who manages an administrative team of vice chancellors who, in turn, oversee different aspects of campus, including academic affairs and student success.

Within UNO, there are six different colleges, each containing different departments or schools. The deans are the top administrators of the colleges. Department chairs or school directors oversee the faculty, staff, and academic processes of the department/school. If you are unsure of your college affiliation, your advisor can assist you in determining the college in which your degree resides.

- College of Arts and Sciences (https://www.unomaha.edu/college-of-arts-and-sciences/)
- College of Business Administration (https://www.unomaha.edu/college-of-business-administration/)
- College of Communication, Fine Arts, and Media (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/)
- College of Education, Health, and Human Sciences (https://www.unomaha.edu/college-of-education/)

**President**

Walter, "Ted" Carter, Jr. - President, University of Nebraska
Meet the President (https://nebraska.edu/president/meet-the-president/)

**UNO Administration**

**Chancellor**

Joanne Li, Ph.D., CFA Chancellor

**Vice Chancellors**

Sacha Kopp, Ph.D., Senior Vice Chancellor for Academic Affairs
Daniel Shipp, Ed.D., Vice Chancellor for Student Success
Doug Ewald, Vice Chancellor for Business, Finance and Business Development
Robert Bartee, Vice Chancellor for External Relations

**Deans**

David Boocker, Ph.D., Dean of the College of Arts and Sciences
Michelle Trawick, Ph.D., Dean of the College of Business Administration
Michael Hilt, Ph.D., Dean of the College of Communication, Fine Arts and Media
Nancy Edick, Ed.D., Dean of the College of Education
Martha Garcia-Murillo, Ph.D., Dean of the College of Information Science & Technology
John Bartle, Ph.D., Dean of the College of Public Affairs and Community Service
Freedom of Expression

The University of Nebraska honors the First Amendment of the U.S. Constitution and has long dedicated itself to the free exchange of ideas. The purpose of this policy is to articulate, clarify and underscore that long-standing commitment in a manner that furthers both freedom of expression and the University’s mission of teaching, research and public service. The first section of this policy sets forth the University’s and the Board of Regents’ commitment to the tenets of Free Expression; the second section provides a framework for campuses to provide what are referred to as “facilities use plans” or programs applicable to particular spaces and resources on their campuses, consistent with that commitment, the law, and the University’s mission; and the final section is a mandate for education with respect to the rights surrounding the First Amendment.

Adopted by the Board of Regents of the University of Nebraska on December 4, 2020 (RP 6.4.10).

Family Education Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) of 1974 affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records.
2. The right to request the amendment of the student’s education records to ensure they are not inaccurate, misleading, or otherwise in violation of the student’s privacy or other rights.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent FERPA authorizes disclosure without consent.
4. The right to file with the U.S. Department of Education a complaint concerning alleged failures by the University of Nebraska at Omaha to comply with the requirements of FERPA.
5. The right to obtain a copy of the University of Nebraska at Omaha’s Student Records Policy. A copy of the policy is available at the Office of the University Registrar, 105 Eppley Administration Building.

Learn more about FERPA (http://www.unomaha.edu/Registrar/students/transcripts-and-records/student-privacy-information-ferpa.php).

Student Right to Know/Consumer Information

The Higher Education Opportunity Act of 2008 (HEOA) requires that postsecondary institutions participating in federal student aid programs, including the University of Nebraska at Omaha (UNO), make certain disclosures to enrolled and prospective students, parents, employees, and the public. The following information is disclosed to you in compliance with federal law. To request paper copies of any of the information listed below, please contact the Office of Financial Support and Scholarships. The information on this page is reviewed and updated annually to ensure it is accurate, timely, and appropriate.

Learn more about the Student Right to Know (https://www.unomaha.edu/admissions/financial-support-and-scholarships/tools-and-resources/consumer_info.php#nces).

State Authorization/Governance Financial Reporting

Coordinating Commission for Postsecondary Education

An institution that participates in the federal student aid programs authorized under Title IV of the Higher Education Act of 1965, as amended, must be authorized to operate by the state where it is located. There are two basic requirements for an institution to be legally authorized by the state for Title IV funding eligibility purposes. The state must authorize an institution to operate educational programs beyond secondary education, and the state must have a process to review and appropriately act on complaints concerning the institution, including enforcement of applicable state laws. Nebraska’s Coordinating Commission for Postsecondary Education is responsible for responding to these formal complaints at http://www.ccpe.state.ne.us/PublicDoc/Ccpe/Complaint.asp (https://ccpe.nebraska.gov/).

State Licensure

The US Department of Education requires the University of Nebraska at Omaha to notify both prospective and enrolled students in degree programs that lead to state licensure or certification required for entry into a profession in the state in which students are located.

Certification and licensure requirements differ from state to state. We are required to notify students if the program you are interested in or enrolled in will meet educational requirements to apply for certification or licensure in your home state.

Learn more about State Licensure (https://www.unomaha.edu/academic-affairs/curriculum-development/licensure.php).

Governance/Financial Information

The University of Nebraska is one university, governed by a Board of Regents whose members are elected by Nebraska voters. The board appoints a chief executive officer—the president of the University of Nebraska—who is the single administrative officer responsible to the board. The university conducts its programs primarily on its four campuses (UNO, UNMC, UNL, UNK). The president’s office provides overall leadership to the university in academic affairs, budget development and control, business and finance, physical planning, policy development, external affairs, diversity and equity, and legal affairs. The chancellors of the four campuses, who are appointed by the president, also serve as vice presidents of the university and as chief operating officers on their own campus.
Admissions

- Application Deadline Dates (p. 17)
- Application Process (p. 17)
- Admission Requirements (p. 17)
- Admission Fees (p. 21)
- International Applicants (p. 21)
- Admission Decisions (p. 22)
- Frequently Asked Questions (p. 23)

Application Deadline Dates

First-Year applicants are encouraged to apply during the first semester of their senior year of high school to be considered for scholarships. Transfer students should apply during the semester preceding their intended enrollment.

Undergraduate Admission Application deadline dates:

- Fall Semester - August 22
- Spring Semester - January 24
- Summer Session - July 1

NOTE: View the Academic Calendar (https://www.unomaha.edu/registrar/academic-calender.php) for the official first day of classes.

All applications must be submitted online at apply.unomaha.edu (http://apply.unomaha.edu) by the deadline to be considered.

Application Process

1. Apply for admission online at apply.unomaha.edu (http://apply.unomaha.edu).
2. Pay your $45 non-refundable application fee.
3. Submit all required documentation.

Submitting an application or being granted admission to UNO does not guarantee enrollment in any specific course. All inquiries and correspondence relating to the admission of students should be addressed to:

UNO Office of Undergraduate Admissions
111 Eppley Administration Building
6001 Dodge Street
Omaha, NE 68182
unoadmissions@unomaha.edu
402.554.2393

All credentials received in connection with applications for admission become the property of UNO. They cannot be duplicated, returned to the applicant, or forwarded to any agency or other college or university. Hand-carried or student submitted transcripts are considered unofficial. All official transcripts must be submitted. The university reserves the right to change existing admissions policies and applicable deadline dates without prior notice.

Admission Requirements

First-Year Applicants

The Board of Regents (https://nebraska.edu/-/media/unca/docs/offices-and-policies/policies/board-governing-documents/board-of-regents-policies.pdf) of the University of Nebraska establishes minimum admission requirements for prospective students. Individual colleges may require additional credentials or have other requirements for specific programs. It also should be noted these requirements may not pertain to transfer students, international applicants, readmission, or non-degree students.

Documentation Needed

1. Final official high school transcript and/or official GED Equivalency Scores
   a. A final official high school transcript must be sent to the UNO Office of Undergraduate Admissions directly from the high school. The high school transcript must be a cumulative record of all high school coursework completed. If the high school transcript does not verify graduation at the time the application is submitted, a final high school transcript must be sent following graduation. Hand-carried or student-submitted transcripts are considered unofficial. All official transcripts must be submitted.
   b. GED (General Education Diploma): The University of Nebraska at Omaha (UNO) acknowledges the General Educational Diploma (GED) as equivalent to a high school diploma. Some credit can be assigned to meet the admission requirements based on subject area scores on the GED exam but this alone may not be sufficient to meet the 16 core course requirements.
   c. Homeschooled students are required to submit a typed transcript (semester format) of all coursework the student has completed. Grades or averages earned in each course must be included on the transcript. The transcript should include an anticipated/final completion date as well as a signature of the administrator of grades. Additional supporting documents may be requested by the university to assist officials in making an admission decision.

2. Official transcripts from college credit earned during high school should be sent directly to the UNO Undergraduate Admissions Office. If you attended UNO in the Early Entry or Dual Enrollment Program, it is not necessary for you to request a transcript.

Assured Admission (First-Year Applicants)

Graduates of a regionally-accredited high school or who have completed the equivalent training (General Education Diploma - GED) and students who are home-schooled must meet the following criteria for assured admission:

Core Course Requirements

All students are expected to have met the following 16 core course requirements in high school or a combination of high school and college coursework. Resource or special education classes completed in high school cannot be used to satisfy the core requirements. A list of eligible high school classes in Nebraska is available online at: schoolcounselors.unl.edu/curriculum/curriculum-list/ (https://schoolcounselors.unl.edu/curriculum/curriculum-list/)

1. English - 4 units Must include intensive reading and writing experience. Innovative interdisciplinary courses and courses in speech and journalism may be substituted if they include substantial amounts of reading and writing. Dual language or ELL English classes completed in high school do not satisfy the English core course requirement.
2. Mathematics - 3 units Must include Algebra I, II, and Geometry.
3. Social sciences - 3 units At least one unit of American and/or world history and one additional unit of history, American government, and/or geography; and a third unit of any social science discipline or subject.
To be eligible for admission, transfer students must be in good standing at accredited or unaccredited institution, coursework that was withdrawn, failed, or previously attempted. This applies to studies completed at any accredited post-secondary institution.

6. Additional requirement - 1 unit

A unit is equivalent to one school year in a class, grades 9-12.

**Performance Requirements**

In addition to meeting the above core course requirements, students applying for admission should be:

1. Be ranked in the 50th percentile or higher of their graduating class in an accredited high school; or
2. Have received an ACT composite score of 20 (enhanced) or greater, or its SAT equivalent; or
   a. Official scores are to be sent to UNO directly from the testing service; the UNO ACT code is 2464. The UNO SAT code is 6420.
3. Have earned a minimum of 3.00 cumulative high school GPA at the conclusion of their sixth semester of high school or later.

**Transfer Applicants**

If you have attempted any collegiate coursework after high school, all attendance must be disclosed on the application for admission. Students may not choose to disregard prior postsecondary coursework previously attempted. This applies to studies completed at any accredited or unaccredited institution, coursework that was withdrawn, failed, or incomplete. Failure to do so will result in a denied application and/or disenrollment from the university.

To be eligible for admission, transfer students must be in good standing at the college or university last attended.

Many of UNO’s undergraduate colleges have a minimum GPA requirement of 2.00 or above and additional admission requirements. Review the specific college and program requirements within this catalog.

**Documentation Needed**

1. Official college transcript(s) must be sent directly to the UNO Office of Undergraduate Admissions from the Registrar’s Office of each previous college or university attended regardless of whether credit was earned. Hand-carried or student-submitted transcripts are not acceptable. If you are currently enrolled in college courses, please request (prior to finishing classes) an official transcript sent when final grades are posted, to the Office of Undergraduate Admissions. If the records are not in English, an official translation must be provided by the student.
2. All previous college coursework attempted or completed must be reported on the application regardless of whether credit was earned. Transfer students may not choose to disregard prior postsecondary coursework previously attempted. This applies to studies completed at any accredited or unaccredited institution, coursework that was withdrawn, failed, or incomplete. Failure to provide this information will be considered fraudulent and may result in withdrawal of admission or dismissal from the university.
3. Transfer students must be graduates of a regionally-accredited (North Central or equivalent) high school or have completed the equivalent training (GED). An Associate of Arts (AA) degree or Associate of Science (AS) degree from a community college in Nebraska will satisfy the proof of high school graduation requirement. Official transcripts showing proof of graduation or equivalent training will be required.
4. Students who transfer to UNO with 24 credit hours of transferable coursework will not be required to have met the core course requirements, either in high school or in their previous postsecondary studies.
5. Students placed on academic suspension or dismissed from any institution within the last calendar year will be denied admission. Any student providing a transcript indicating suspension or dismissal within the last year will be disenrolled from classes and any tuition paid to date for the semester would be refunded.
6. Transcripts sent to the UNO Office of Undergraduate Admissions for students who do not enroll will be retained for one year. If the student applies for admission beyond that, new transcripts will need to be provided for admission consideration.
7. Students who are granted provisional admission must submit all documents required for admission within the first eight weeks of the first term enrollment. Failure to do so will result in an enrollment hold blocking further registration. Only one term of provisional admission/ enrollment is allowed. No extensions or waivers of the enrollment hold will be granted. It is the student’s responsibility to provide all credentials required for admission.
8. Several UNO colleges have minimum GPA and additional requirements. Failure to meet minimum requirements for a program may result in admission delays. To avoid delays, select a college/major program for which all requirements have been met.
9. If you have previously attended or are currently attending UNK, UNL, or UNMC, please refer to the University of Nebraska System Change of Campus instructions (https://intercampus.nebraska.edu/ccnotice.aspx).
10. Nebraska Community College students who want to continue their education are encouraged to take advantage of Associate to Bachelor articulation agreements that allow students who have completed or plan to complete an associate’s degree, the opportunity to work directly toward their bachelor’s degree. More information can be found at unomaha.edu/registrar (http://unomaha.edu/registrar/).

**Awarding of Transfer Credits**

1. Credits submitted only on official transcripts from other colleges or universities will be evaluated for admission to an undergraduate college by the Office of Undergraduate Admissions. Transcripts will become a part of the student’s permanent record maintained in the University Registrar’s Office. The dean of the UNO College will determine the manner in which transfer credits will apply toward degree requirements.
2. In general, credits and grades earned at other University of Nebraska campuses will be accepted, computed into the student’s grade point average, and will become a part of the permanent record from which official transcripts will be made.
3. Only courses with a grade of “C-” or better will be accepted for transfer from accredited two and four-year colleges and universities.
4. Sixty-four (64) semester credit hours is the maximum allowed for transfer to most undergraduate UNO colleges from regionally accredited two-year colleges. The College of Engineering will allow a maximum of sixty-six (66) semester hours of credit from a two-year college.
5. Each UNO college has a required number of credit hours to be completed at UNO prior to graduation.
6. Students wishing to transfer credits from recognized institutions outside the United States may need to provide a course syllabus with translation, if applicable, for evaluation of transfer credits.

**Nebraska System Students**

Transferring/Change of Campus in the NU System

Nebraska System Students
Change of Campus Students Transferring to UNO

1. If you have previously attended within the last 5 years or are a current UNL, UNK, or UNMC student wanting to transfer to UNO, please complete the Change of Campus Form (http://intercampus.nebraska.edu/CCNotice.aspx) and a UNO undergraduate admission application (http://apply.unomaha.edu/). NOTE: Credits and grades earned at other University of Nebraska campuses will be accepted, computed into the student’s NU grade point average, and will become a part of the permanent record from which official transcripts will be made.

2. Application Fee is Waived.

3. Approval from the home campus is required to have them send your documents to UNO. Approval does not ensure admission to the campus.

4. Students must certify they will meet the minimum admission criteria for the college/major to which they are admitted. The office of Undergraduate admissions may change the program of study if a student does not meet the minimum required grade point average.

5. Review the specific college and program requirements within this catalog. Failure to meet the minimum GPA requirement for the desired program may result in admission delays. To avoid these delays, select a college/major program for which requirements have been met.
   a. College of Arts and Sciences (p. 69) 2.0 GPA
   b. College of Business Administration (p. 345) 2.5 GPA
   c. College of Communication, Fine Arts and Media (p. 409) 2.25 GPA
   d. College of Education, Health, and Human Sciences (p. 511) 2.5 GPA
   e. College of Engineering (p. 595) 2.5 GPA
   f. College of Information Science & Technology (p. 635) 2.5 GPA
   g. College of Public Affairs and Community Service (p. 684) 2.5 GPA

6. A delay or failure to provide an official transcript from each institution previously attended will result in an enrollment hold. Any student providing a transcript indicating suspension or dismissal within the last year will be disenrolled from classes and any tuition paid to date for the semester would be refunded.

7. Students placed on academic suspension or those dismissed from any institution within the last calendar year will be denied admission regardless of the student’s eligibility to return to the prior institution.

Visiting Intercampus Students

1. All visiting students from any of the University of Nebraska campuses must complete the Intercampus Application form (http://intercampus.nebraska.edu/ccnotice.aspx).

2. Approval from the home campus is required to enroll as an Intercampus student.

3. A new online Intercampus Application form must be submitted to the UNO Office of Undergraduate Admissions each semester a student wishes to enroll as an Intercampus student.

4. Financial holds at the degree-granting campus must be cleared before submitting the Intercampus Application.

5. Intercampus students who have been placed on academic suspension at any of the University of Nebraska campuses during the last calendar year are not eligible to enroll at UNO.

Former UNO Students

Readmission Criteria

1. Former UNO students who have not been enrolled at UNO within the last two years must complete an Application for Undergraduate Admission (https://www.unomaha.edu/admissions/apply/). Another application fee is not required.

2. The Undergraduate Admissions Office denies readmission to any student under academic suspension who has been out of school less than one calendar year.

3. Students who have been academically suspended from UNO should contact the University Registrar Office for reinstatement information.

4. Many of UNO’s undergraduate colleges have additional admission requirements. Review the specific college and program requirements within this catalog.

5. If the student has attended other colleges since last attending UNO, official college transcripts are required.

6. UNO graduates must submit a new application to continue their undergraduate studies.

English Proficiency Policy

Applicants are able to fulfill the English proficiency admission requirement with the following:

1. Applicants expecting to graduate from an accredited U.S. high school must show acceptable performance in four units (years) of standard high school English courses.

2. Completion of an Associate of Arts or Associate of Science degree from a regionally accredited U.S. post-secondary institution. A grade of C or better must be earned with a 2.5 or higher grade point average. Official U.S. college transcripts must be sent directly to UNO.

3. Completion of English Composition I and English Composition II from a regionally accredited U.S. post-secondary institution. A grade of C or better must be earned with a 2.5 or higher grade point average. Official U.S. college transcripts must be sent directly to UNO.

All undergraduate students must take the UNO English Placement and Proficiency Exam (EPPE) before they are allowed to enroll in English courses. They must enroll in the course or sequence of courses indicated by their placement exam. Exceptions from taking EPPE may apply to students who have qualifying transfer credit.

Undergraduate Applicants Whose Language of Nurture is Not English

For admission purposes, applicants whose language of nurture is not English must demonstrate English proficiency. Applicants who have graduated from a U.S. high school or are transferring from the U.S. regionally accredited college or university may be required to take the English Placement and Proficiency exam before an admission decision can be made.

All other students are able to fulfill the English proficiency admission requirement by submitting scores from the below-testing agencies. Students are responsible for contacting the appropriate testing agency to submit official scores. UNO will only accept scores that come directly from the testing agency.

Some opportunities a student may gain by enrolling in the UNO Early Entry Program is meant to enhance the students' educational programs, not to replace any part of them. The University of Nebraska at Omaha Early Entry Program allows currently enrolled high school students of high academic achievement and potential the opportunity to enroll in regular college courses on the university campus. This program encourages high school students whose maturity, achievement, aptitude, and goals warrant special consideration to enroll in the UNO Early Entry Program. Early Entry Students enroll in university courses at a level not available to them through their high schools. This program is meant to enhance the students’ educational programs, not to replace any part of them.

Some opportunities a student may gain by enrolling in the UNO Early Entry Program are:

- The college credits earned may be applied toward a UNO degree and are usually transferrable to other colleges, giving students a head start on their college programs. The program is not restricted to high school students planning to attend UNO after graduation.
- Enrolling as an Early Entry student allows advanced high school students the opportunity to broaden their college education by getting an early start and enhances the successful transition to college.

### Non-Degree/Visiting Student Applicants

1. Individuals who do not intend to complete a degree at UNO may apply as a non-degree/visiting student.
2. A visiting student from another institution or a summer session applicant interested in enrolling for personal or professional enrichment may be admitted as a non-degree student.
3. Non-Degree/Visiting Admission Criteria
   a. Non-degree students from another college or university are expected to be in good academic standing. Any student who has been placed on academic dismissal or suspension from any college or university within the last year will be denied admission regardless of the student’s eligibility to return to the prior institution. The student would be eligible to reapply for admission to UNO after one full year following the end of the term in which the student was last suspended.
   b. Any student denied admission as a degree-seeking student is not eligible to apply as a Non-Degree/Visiting student.
   c. A Non-Degree student must be a high school graduate or hold a high school equivalency diploma (GED).
4. Students changing from a Non-Degree classification to a degree program will be expected to provide additional documentation and meet admission requirements. An Application for Undergraduate Admission (https://www.unomaha.edu/admissions/apply/) to the degree program must be submitted to the Office of Undergraduate Admissions.
5. The Non-Degree classification is not recommended for certification, recertification, or for enrolling in professional education courses.
6. Non-Degree students are not eligible for scholarships or financial aid.

### Early Entry Admissions Program

The University of Nebraska at Omaha Early Entry Program allows currently enrolled high school students of high academic achievement and potential the opportunity to enroll in regular college courses on the university campus. This program encourages high school students whose maturity, achievement, aptitude, and goals warrant special consideration to enroll in the UNO Early Entry Program. Early Entry Students enroll in university courses at a level not available to them through their high schools. This program is meant to enhance the students’ educational programs, not to replace any part of them.

The college credits earned may be applied toward a UNO degree and are usually transferrable to other colleges, giving students a head start on their college programs. The program is not restricted to high school students planning to attend UNO after graduation.

#### Requirements for Admission to the Early Entry Program

To be admitted to this program, the UNO Office of Admissions must receive the following:

- An application must be submitted online at applyearly.unomaha.edu (https://applyearly.unomaha.edu/).
- A $45.00 non-refundable application fee (once a student has enrolled at UNO, an application fee for future terms of enrollment would not be required).
- An unofficial high school transcript of all coursework completed to date must accompany the Early Entry Application. All correspondence relating to the Early Entry Program should be addressed to:
  
  Kelly Malone  
  Office of General Education and Dual Enrollment  
  University of Nebraska at Omaha  
  6001 Dodge Street  
  Omaha, NE 68182

- The student must have achieved a minimum ‘B’ average in all high school academic coursework (3.00 on a 4.00 scale). If a GPA from an accredited high school is not available, the ACT or SAT (or equivalent achievement test) may be required to determine the student’s academic potential/eligibility.
- Online approval of courses from the high school counselor based on the student’s academic performance. Recommendations for home-schooled students are handled on an individual basis.
- Online approval from the parent or guardian as indicated on the online application.
- Students whose language of nurture is not English are required to demonstrate English proficiency. Additionally, all education records presented to the university must be in English.

### Additional Information Regarding the Early Entry Program

- A maximum of two UNO classes may be taken each term.
- A new Early Entry application must be completed each semester a student wishes to be considered for this program. A new application fee would not be required.
- Once a student has graduated from high school, in order to continue enrollment at the university, the student must submit an Application for Undergraduate Admission, complete official high school transcript and ACT or SAT results, and meet the minimum freshman admission requirements established by the University of Nebraska Board of Regents.

Inquiries regarding the Early Entry program should be directed to the UNO Early Entry Program coordinator at 402.554.3810. For more information, please visit the Early Entry (https://www.unomaha.edu/early-entry/) website.

### Dual Enrollment Program

Dual Enrollment allows academically-talented students to earn college credit while still in high school. The courses are taught at the area high schools by high school staff who have been approved by their respective UNO academic departments to be adjunct faculty.
Since the courses are the result of an alignment between the area high school and college courses requiring college-level work, not all high school courses are eligible. Check with your high school counselor to find out which courses are approved and if your school is participating in the UNO Dual Enrollment Program. For more information, please go to the Dual Enrollment (https://www.unomaha.edu/dual-enrollment/) website.

### Admission Fees

#### Application Fee

A $45.00 undergraduate application fee is expected for all new and transfer students and must be paid when the application is submitted. Applications will not be processed unless the fee is included.

The following information applies:

- The application fee is non-refundable and does not guarantee admission or enrollment in any specific classes.
- Check, money order (payable to the University of Nebraska at Omaha), or credit card payment are accepted.
- Application fees submitted to any University of Nebraska system campus are valid for one year and are transferable to UNO.
- Applicants who pay the $45.00 application fee but who do not enroll within one year must reapply for admission and resubmit the application fee.
- Previously enrolled undergraduate students on any University of Nebraska system campus (UNK, UNL, UNO and UNMC) need not submit the application fee.

Students who participated in UNO’s Dual Enrollment program are required to pay the $45.00 application when applying for undergraduate admission.

#### Enrollment Deposit

All newly admitted students to the University of Nebraska at Omaha will be expected to pay the $100 Enrollment Deposit fee to reserve a space in the upcoming class. Paying the deposit allows the university to more effectively plan for class offerings and student resources in preparation for each semester.

**Priority Deadlines to pay your Enrollment Deposit**

- Fall and Summer applicants May 1
- Spring applicants December 1

**NOTE:** If you are admitted after the priority deadline, you can submit your enrollment deposit within two weeks of admission in order to save your spot in the upcoming class.

**Enrollment Deposit Refund Policy**

- The Enrollment Deposit is fully refundable if paid by the priority deposit deadlines.
- If you choose not to enroll at UNO and do not request a refund on or before the priority deadline, you will forfeit the full amount of your Enrollment Deposit.
- Request for the Enrollment Deposit refunds must be in writing before the priority deadline.

**Enrollment Deposit Deferral Policy**

- Students may request a deferral of the $100.00 Enrollment Deposit by submitting a formal request by May 1 (fall/summer applicants) or December 1 (spring applicants). Consideration is determined by Estimated Family Contribution (FASFA) or need. Please email unoadmissions@unomaha.edu for more details.

**SPECIAL NOTE:** Admitted Students who pay the enrollment deposit fee to the University of Nebraska at Omaha campus and do not enroll in classes, the fee will be honored and can transfer one full year from the original application term.

### International Applicants

#### Applying Online

Applications for admission are available on-line at apply.unomaha.edu (http://www.unomaha.edu/admissions/apply/).

A non-refundable application fee of $45.00 (U.S. dollars) paid by check, money order, PayPal, or credit card is required from all new undergraduate students at the time an application is submitted. Applications will not be processed unless an application fee is included. Applicants who do not enroll within one year must reapply and resubmit the application fee. Submitting an application and application fee to UNO does not guarantee admission to the university.

#### Documentation Needed

**International Applicants Admission Requirements**

**Official Transcripts.** International students must submit complete, official academic records and graduation examination results for all secondary and post-secondary institutions attended with any certificates and/or diplomas awarded. Official academic records, certificates and diplomas not issued in English also require certified English translations. Post-secondary institutions include colleges, universities, professional schools, vocational schools, trade schools, and technical institutes. If a student has attended a post-secondary institution, the academic records are required even if a certificate and/or degree was not awarded and/or transfer credit is not desired by the student. These documents should be sent directly from the foreign institution or translation service when possible. When it is impossible to have records sent from the foreign institution or agency, documents may be emailed by the student to unoadmissions@unomaha.edu or mailed to the address below. Students enrolled in other U.S. institutions must have official transcripts sent directly to UNO from the U.S. institutions. Official transcripts can be sent electronically from the U.S. institution to unoadmissions@unomaha.edu or sent via courier to:

**Undergraduate Admissions**  
Eppley Administration Building, Room 111  
6001 Dodge Street  
Omaha, NE 68182-0080

**Passport.** All international students need to send a copy of their passport’s information page to unoadmissions@unomaha.edu.

**Proof of English Proficiency.** Undergraduate applicants whose native language is not English must demonstrate English proficiency through one of the options listed on the English Proficiency Requirements (https://www.unomaha.edu/admissions/undergraduate/international-students/english-proficiency.php#text) webpage. Students who do not have a qualifying English proficiency score can apply for conditional admissions (https://www.unomaha.edu/admissions/undergraduate/international-students/conditional-admission.php) through UNO’s Intensive English program, ILUNO (https://www.unomaha.edu/international-studies-and-programs/iluno/). English proficiency test results can be emailed to unoadmissions@unomaha.edu or sent directly to UNO from the testing agency.

**Proof of Financial Support for F-1 or J-1 Visa Applicants or Holders.** U.S. Federal law requires international students applying for an F-1 or J-1 visa to demonstrate adequate funding through personal, family and/or a sponsor’s financial resources. Students must provide evidence of sufficient funds in their possession to finance their first year of study when applying for admission. Student and/or sponsor bank statements with original signatures and bank seals or stamps must be provided. In addition to a
bank statement, a UNO financial affidavit signed by the student and all sponsors is required. Bank statements and UNO Financial Affidavits should be no more than six months old at the time they are submitted. Failure to submit a completed financial affidavit and an original bank statement will prevent UNO from issuing an I-20 or DS-2019. Financial documents should be submitted electronically to unoadmissions@unomaha.edu

Conditional Undergraduate Admission

International students applying for undergraduate admission that do not meet the English proficiency requirement may be eligible for Conditional Undergraduate Admission (https://www.unomaha.edu/admissions/undergraduate/international-students/conditional-admission.php). Full undergraduate admission will be granted upon successful completion of UNO’s Intensive English Language Program (https://www.unomaha.edu/international-studies-and-programs/iluno/) (ILUNO) and with a qualifying English proficiency score.

Students will be eligible for admission to an undergraduate program:
1. Upon successful completion of UNO’s Intensive English Program with a qualifying English proficiency score.
2. A minimum of one ILUNO session is expected.
3. Non-qualifying English proficiency score within range may be eligible for full admission with ILUNO consideration and permission from the ILUNO Director.

SPECIAL NOTE: A change of status of the Form I-20 will be made upon full undergraduate admission. The student is responsible for requesting a change of status to their Form I-20 upon full undergraduate admission.

F-1 or J-1 Visa Applicants Applying as a Non-Degree Seeking Students

International students who are F-1 or J-1 visa applicants or holders may apply as non-degree students if they:
• Have permission letter from their current institution to be enrolled part-time at UNO while remaining on the I-20 of their current school;
• Are referred as a participant in an international exchange program between UNO and their home institution; OR
• Have a recommendation letter from their home institution or employer. Students applying under this option should contact International Admissions at unoadmissions@unomaha.edu for details about content requirements for the letter.

Health Insurance

Due to the high cost of healthcare in the U.S., UNO offers health insurance to its international students at a reasonable rate. Students who do not have a university-approved policy from overseas are required to participate in this plan.

Admission Packets for International Students

Most admissions decisions are made within one week after all required documentation is received. Upon admission to UNO, the student will receive a notification to order a shipping label so we can mail the I-20 and admission packet. Once confirmation of the shipping label is received the I-20 and admission packet is sent directly to the student. Please note the I-20 and admission packet will not be released to friends or family members. For those who are J-1 visa applicants, the admission packet will include the DS-2019. For those who are visiting F-1 visa holders enrolling part-time at UNO while remaining on an I-20 at your current school, no I-20 will be issued.

Admission Decisions

Admission by Review

Students who do not qualify for Assured Admission by meeting all entrance criteria may be considered for Admission by Review (ABR). Each applicant will be reviewed and considered for admission on an individual basis. The student’s cumulative high school grade point average, class rank, ACT/ SAT scores, and the grades received in the core course requirements are all considered a primary factor in the admission evaluation and decision. The student may be asked to provide letters of recommendation from the high school counselor or principal, as well as an educational purpose statement.

Students presenting fewer than 24 semester hours of transferable coursework from a regionally-accredited collegiate institution following high school graduation will be required to meet the freshman admission requirements for assured admission or under any Admission by Review category that applies.

Those who do not fully meet these requirements may still qualify for admission to the university under Admission by Review. The Undergraduate Admissions Office will determine how deficiencies in the prior record of these students will be made up. All applicants must meet the admissions requirements as set by the college to which they apply.

Your enrollment at the university will be accepting the terms of your admission. All students admitted under Admission by Review will be monitored for academic success. Some students may be admitted with requirements to complete specific courses and/or use academic support to compensate for their deficiencies.

Provisional Admission

Students who are admitted pending the receipt of final admission documents are considered to be Provisionally Admitted to the University.

All offers of admission are provisional if you have high school or collegiate coursework in progress. Final admission is dependent on receipt and review of your final transcripts. Admission offers are subject to cancellation if your final coursework does not meet admission requirements.

Required documents needed to complete your admission can be viewed on MavLINK. All documents must be submitted within the first eight weeks of the first term of enrollment. Failure to do so will result in an enrollment hold blocking further registration. Only one term of provisional admission/enrollment is allowed. No extensions or waivers of the enrollment hold will be granted. It is the student’s responsibility to provide all credentials required for admission.

Applicants with Academic Suspension or Dismissal Record

Students whose academic records reflect they were placed on academic suspension or dismissal during the last calendar year at any college or university are not eligible for admission to UNO. Once the university has received a transcript or other notification indicating suspension or dismissal within the last calendar year admission will be cancelled and/or the student will be disenrolled from classes and any tuition paid to date for the semester would be refunded. The student would be eligible to reapply for admission to UNO after one full year from the end of the last term in which the student was suspended.
Deferred Admission
For those students who do not meet the admission requirements, admission will be deferred for future additional academic preparation at another postsecondary institution before being eligible for admission to UNO.

Fraudulent and Incomplete Applications
The University reserves the right to deny or revoke admission, including dismissal from the university, if any information is given falsely or withheld on the admission application or if transcripts/documents submitted in support of an admission application or to obtain residency are discovered to be altered or fraudulent.

Frequently Asked Questions

Nebraska Unique Identification Number (NUID)/Password and Use of Social Security Number
A social security number is requested on the application for admission for the sole purpose of verifying credentials, document matching, and determining eligibility for and awarding financial aid or scholarships. Applicants who do not have a social security number may still apply for admission but are not eligible to apply for federal financial aid. For security reasons, students applying for admission are assigned a Nebraska Unique Identification (NUID) number for campus services, logging onto MavLINK (UNO’s online student services system), and for student photo identification purposes. The NUID number is an eight-digit, unique number within the University of Nebraska system and is transferable among University of Nebraska system campuses. For more information, visit https://www.unomaha.edu/information-technology-services/accounts-and-passwords/NUID1/index.php (https://www.unomaha.edu/information-technology-services/accounts-and-passwords/NUID1/)

During the application process, an NUID and temporary password will be assigned to you. You will be asked to select a personal MavLINK password.

Health Requirement Information
All new, incoming students born on or after Jan. 1, 1957, must provide official documentation of two (2) MMR vaccinations (measles, mumps, rubella) before registering for classes. Failure to comply with this requirement may result in the withholding of future registrations. For further information, please contact UNO Health Services, 402.554.2374.

U.S. Citizens, Permanent Residents, Immigrants, Refugees, Asylees and Other Status Types
All students who are not on a nonimmigrant visa are eligible to apply for domestic undergraduate admission. If a student has applied for or has been granted permanent residency, asylee status or refugee status, or Temporary Protected Status (TPS) then documentation of such status is required for admission. If the student cannot provide such documentation and is a Nebraska high school graduate, options for paying resident tuition are available. Refer to the “Residency for Tuition Purposes” section of this catalog for additional information. All students on an international student nonimmigrant visa must apply through the Office of Undergraduate Admission at apply.unomaha.edu (http://apply.unomaha.edu).

Residency for Tuition Purposes
Initial residency classification for tuition purposes is determined by the information you provide when you apply for admission. If you are living or attending school outside Nebraska or if you graduated from high school outside the State of Nebraska, you will be initially classified as a non-resident for tuition purposes. It is the student’s responsibility to provide any additional information that may be required to make an accurate residency determination prior to the deadline. A student may view the residency application eForm (https://csprdnu.nebraska.edu/psc/csprdnu/NBX/HRMS/s/WEBIWB_ENTREDIR.ISCRIPT1.FieldFormula.IScript_Redirect/?nba-product=EF&cref=NBA_NVC_DS_EFORM_RESAPP) for deadlines of when the Application For Residency Classification is due.

In 2006, the Nebraska state legislature passed a law granting resident tuition to students who do not hold official U.S. status and meet certain criteria. Students must meet the following qualifications: (1) graduated from a Nebraska high school or received the equivalent of a high school diploma in Nebraska, (2) resided in Nebraska with a parent, guardian, or conservator for at least three years prior to the graduate date and (3) provide an affidavit stating he or she will file an application to become a U.S. Permanent Resident at the earliest opportunity at which he or she is eligible to do so. More details can be found in Application For Residency Classification via eForm (https://csprdnu.nebraska.edu/psc/csprdnu/NBX/HRMS/s/WEBIWB_ENTREDIR.ISCRIPT1.FieldFormula.IScript_Redirect/?nba-product=EF&cref=NBA_NVC_DS_EFORM_RESAPP) or Paper Form (https://www.unomaha.edu/admissions/undergraduate/docs/residency-application.pdf) or contact the UNO Office of Undergraduate Admissions.

UNO participates in some reduced tuition programs based on the state or county the student is from such as the Midwest Student Exchange Program (MSEP) and the Metropolitan Advantage Program (MAP). Students must meet UNO’s general admission requirements and, for the MSEP program, meet minimum academic eligibility requirements. For more information on requirements for these programs, email unoadmissions@unomaha.edu.

Applicants Who Apply for Admission and Decide Not to Enroll
Students who apply for admission and decide not to enroll for the indicated term should do the following:

• Applicants can notify the UNO Office of Undergraduate Admissions via e-mail (unoadmissions@unomaha.edu) indicating they will not be attending. Upon receipt of this notification, the student’s application will be withdrawn.
• If the student wishes to enroll for a future term, a new application for admission must be submitted.
• A previously paid application fee is valid for one year from the term it was originally submitted.
• Transcripts that have been sent to the UNO Office of Undergraduate Admissions for students who do not enroll will be retained for one year. If the student applies for admission beyond that, new transcripts need to be provided for admission consideration.
• If the student has been awarded any financial aid from a non-UNO source, the student should notify the Office of Financial Support and Scholarships which may cancel or reduce UNO financial aid.

Enrollment

Enrollment (p. 23) • Course Information (p. 27) • Academic Calendar (p. 28)

Enrollment
All persons who attend classes at the university must be admitted to the University; they are required to register and pay the established tuition and fees. The dates, times, locations, and procedures for registration are listed
each semester on the Office of the University Registrar’s website (http://www.unomaha.edu/registrar/students/).

MavLINK
MavLINK is the online self-service application providing students with an array of information and direct access to their academic, financial, and personal data. Access to MavLINK is granted by the use of your UNO NetID or NUID and password. Access MavLINK here (https://mavlink.nebraska.edu/psp/mavlink/NBO/HRMS/?cmd=login&languageCd=EN&G8).

NetID
The UNO NetID is a combination of letters using your first and last name and is the username assigned to you by UNO. Learn more about NetIDs (https://www.unomaha.edu/information-technology-services/accounts-and-passwords/NetID1/).

NUID
The NUID (Nebraska Unique Identifier) is a unique eight-digit number assigned to all students, faculty, and staff members during either admission or hiring. This number remains the same across the University of Nebraska and Nebraska State College system. Learn more about NUIDs (https://www.unomaha.edu/information-technology-services/accounts-and-passwords/NUID1/).

Registration Requirements
Prior to the start of classes each session, students must register for courses according to instructions published on the University of Nebraska at Omaha (UNO) website. To be eligible to register, a new or re-admitted student (one who has not enrolled during the previous two years) must have completed all admission requirements. Prior to registering, a student should seek assistance from an academic advisor within his/her college. Some colleges and departments require advising prior to registering. Every student is encouraged to review the requirements for his/her intended degree with an assigned academic advisor. This review should be scheduled in preparation for and prior to each registration period.

Students who have outstanding debts or fees owed to the University of Nebraska System will not be permitted to register until these obligations have been met. Academically suspended students will serve a one-year suspension. Following this suspension period, these students will need to schedule an advising/reinstatement meeting with the College from which they were suspended in order to have their reinstatement hold released and be eligible to register for classes. If academically suspended students have not taken classes within the last two years, they will need to reapply to UNO first and then schedule their advising/reinstatement meeting.

Due to limited facilities and staff, the university cannot guarantee all students will be able to enroll for every course they wish in each semester.

How to Enroll and Make Changes to Enrollment
All adding, swapping, dropping, or withdrawing from courses is completed in MavLINK.

Adding a Class
A class can be added to a student’s schedule via MavLINK until the 100% refund period ends. Start dates are found on the class schedule. Refund dates can be found on the Cashiering and Student Accounts (http://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/tuition-refund-schedule.php) site. Late adds begin after the 100% refund period ends and require permission from the instructor prior to enrollment in MavLINK. A $25.00 Late Registration Fee will be assessed to those students whose initial enrollment takes place after the start of the session. Exceptions to this are thesis, internship, or independent study.

Dropping/Withdrawing From a Class
A class can be dropped or withdrawn from a student’s schedule via MavLINK up until the last day to withdraw. The last day to withdraw can be found on the Academic Calendar (http://www.unomaha.edu/registrar/academic-calendar.php). Students can also contact the Office of the University Registrar to verify the last day to withdraw. Requests to drop a class submitted via fax or U.S. mail will be processed based on the dates appearing on the fax or U.S. mail postmark.

Drops can only be completed in the 100% refund period of your course. If students drop the course from their schedule during this period, it will not be listed on their academic transcript.

Withdraws can be completed up until the last day to withdraw for the semester. The last day to withdraw can be found on the Academic Calendar (http://www.unomaha.edu/registrar/academic-calendar.php). If students withdraw from a course, a grade of “W” will be listed on their academic transcript. “W” grades have no impact on the academic GPA.

Students who drop or withdraw from one or more classes, or who completely withdraw from all courses will be obligated to UNO for the portion of tuition indicated on the refund schedule. Students who completely withdraw are also obligated to pay the non-refundable portion of tuition and fees for the class(es) from which they are withdrawing. Students who are currently enrolled can click on the “refund” link next to each class in their schedule inside MavLINK to check refund percentage dates.

Swapping a Class
Swapping a class allows students to save their space in the original class while trying to enroll for a new course. It is a safer way to make changes to their existing class schedule during periods in which many other students are also enrolling for their classes.

1. Swaps must be done on the same day.
2. Swaps are allowed during the first week of the standard semester.
3. Swaps are only allowed for classes in the same session.
4. Classes used for swaps cannot be used again for another swap.

Permission Numbers
A permission number must be entered for any courses that require instructor or department consent. A Permission Number is entered via MavLINK. A permission number may also override any prerequisite or GPA requirement, as well as a closed course. A permission number will NOT override a time conflict. The instructor or advisor must request a time conflict override through the Office of the University Registrar on the student’s behalf.

Receiving a permission number does not register the student for the course. It only means that students are able to proceed with enrollment for the course. Once the permission number is issued, the student must register via MavLINK for the course by using the number provided.

Permission numbers are BOTH course section and term specific. The student must ensure the permission is issued for the exact course he/she wants. The student will NOT be able to register for a different section of the same course. For example, if a permission number is issued for ENGL 1160-003, they will not be able to register for ENGL 1160-006. A new number will need to be issued for the student by their advisor or department contact. Remember, permission numbers can only be used once.
Permission numbers not used before the end of the 100% refund period will expire. A new number will need to be issued to enroll after the 100% refund period.

**Registration Waitlist**

A registration waitlist is an electronic process that auto-enrolls students in closed classes as seats become available. Waitlists operate on a first-come, first-served basis, so this process ensures that students who register for the waitlist sooner have a better chance of getting into a closed course. Waitlists are only available once the class is full. For high-demand classes, this may be the first day of registration or, for other classes, as late as the week before the term starts.

Waitlisted classes do not count toward a student’s enrolled hours. If a student’s financial aid requires full-time enrollment, he/she needs to ensure to enroll in enough credits without counting waitlisted classes. Each department is responsible for determining if their class offerings should have a waitlist or not.

For courses with no waitlist available, students will need to check regularly for possible openings. Students may add themselves to any number of waitlists but will not be enrolled beyond the maximum number of hours allowed for that term. Students may remove themselves from a waitlist by following the same process as dropping a class. Learn more about the Registration Waitlist (http://www.unomaha.edu/registrar/students/during-enrollment/registration-waitlist.php).

**Audit Registration Policies and Procedures**

All persons wishing to audit a course must be admitted and eligible to enroll in classes for the term in question. Students may only register to audit a course on or after the first day of the semester. Audit students may not participate in recitation, turn in papers, or take examinations. Academic credit is not awarded for audited courses nor do they apply in counting hours for full- or half-time status. Foreign language and physical education activity courses cannot be taken on an audit basis. Audit registration is subject to available class space, requires the written permission of the instructor, and must be done in person at the Office of the University Registrar, 105 Eppley Administration Building. Audit tuition is one-half of the applicable resident undergraduate or graduate tuition rate. The half-price tuition rate for audit courses is available only during the first week of the semester. Audit enrollments are assessed the same student fees as credit enrollments. Likewise, audits are refunded at the same rate as credit enrollments.

Students who register to take a course for credit and change to audit after the first week of class will be required to pay the full applicable tuition rate.

**Undergraduate Students Taking Graduate Classes**

An undergraduate junior or senior who is pursuing a baccalaureate degree at the university may be granted permission to take one or more graduate courses if they meet the following conditions outlined below. Students pursuing Fast Track (previously known as integrated programs) will not complete this form.

1. No credit earned under this provision may be used to fulfill any of the requirements for the undergraduate degree.
2. A maximum of 12 credit hours at UNO may be earned under this provision.
3. Juniors must have a minimum average GPA of 3.5 in the undergraduate major, and seniors must have a minimum average GPA of 3.0 in the undergraduate major.
4. The student must secure the required Department/School Representative signature before presenting the form to the Graduate College.
5. In order to register for the course(s) noted on the form, the student must return to the department/school for a permit number after receiving the dean for graduate studies permission. Once a permit number has been provided by the department/school, the student will then be able to register via MavLINK.

Please find the form on the Graduate Studies Student Forms & Resources (https://www.unomaha.edu/graduate-studies/current-students/graduate-forms-and-resources.php) webpage.

The graduate program determines after admission if graduate credits taken as an undergraduate student will fulfill the requirements of a graduate program. There is no guarantee that graduate credits taken as an undergraduate student will count toward a graduate program.

**Class Schedule**

The UNO public class search is available online at www.unomaha.edu/class-search/index.php (http://www.unomaha.edu/class-search/). Course offerings are subject to change. Final authority for changes in course offerings rests with academic departments. For questions concerning course offerings, contact the academic department. For general information about enrollment or instructions on how to use MavLINK, visit the Office of the University Registrar’s Enrollment page at: www.unomaha.edu/registrar/students/during-enrollment/how-to-enroll.php (http://www.unomaha.edu/registrar/students/during-enrollment/how-to-enroll.php).

**Student Attendance Policy**

Classes are conducted on the premise that regular attendance is desirable. The individual instructor has responsibility for managing student attendance and for communicating at the beginning of each semester those class attendance policies which prevail in that course.

UNO Student Attendance Policy https://www.unomaha.edu/campus-policies/student-attendance.php

**Student Holds**

A hold can be placed on a student’s record for reasons including but not limited to:

- Non-payment of debt (tuition payments, parking tickets, library fines, etc.)
- Academic suspension
- Failure to meet immunization requirements
- Required academic advising
- Missing admission information
- Non-compliance with other university regulations/obligations

**A hold on the record can impact one or more of the following:**

- Enrollment – ability to register for classes (Dropping and withdrawing from classes will need to be completed in person at the Office of the University Registrar.)
- Receiving a transcript or diploma
- Refund from Student Accounts

**Class Standing**

A student’s academic classification is determined by the number of semester hours of academic credit earned.
Academic Classification | Range in Semester Hours
--- | ---
Freshman | 0 through 26
Sophomore | 27 through 57
Junior | 58 through 90
Senior | 91 or above

**Student Academic Course Load**

1. A normal student load is 12 to 17 credit hours.
2. **Full-Time** Undergraduate students must be enrolled for a minimum of 12 credit hours in a fall semester, spring semester, or summer term to be considered a full-time student. **Half-Time** Undergraduate students must be enrolled for a minimum of 6 credit hours in a fall semester, spring semester, or summer term to be considered a half-time student.
3. Students shall not carry 18 or more semester hours of work during the fall and spring semester and 12 semester hours during the summer sessions unless they have maintained an average of "B" (3.0) in a regular 15-hour load during the preceding semester. Permission to register for 18 hours or more should be obtained from the student’s academic advisor.
4. Audit hours do not apply in counting hours for full-time status.

**Declaring and Changing a Major**

Undergraduate students are strongly encouraged to identify major areas of study in conjunction with their academic advisors early in their academic career. In order for an undergraduate student to make a change to the declared major or minor program of study, he/she will need to speak to the department that houses the program.

An appointment with an academic advisor may be required and is suggested in order to review requirements. Once a student has decided to make the change official, a Change of Undergraduate Academic Program form (https://www.unomaha.edu/Registrar/_Forms/ChangeAcademicProgram.pdf) must be signed by the necessary departmental representative as well as the student and turned into the Office of the University Registrar.

**Athletic Certification Office**

The Athletic Certification Office is responsible for obtaining, evaluating, and documenting the academic credentials in accordance with the National Collegiate Athletic Association (NCAA) and conference eligibility rules for approximately 300 student-athletes.

The NCAA has specified satisfactory progress requirements to determine the eligibility of continuing student-athletes, and these requirements must be met each semester. The Athletic Certification Office, housed in the Office of the University Registrar, works directly with academic advisors and the Athletics Department Academics and Compliances offices to determine athletic eligibility for each semester.

The Athletic Certification Office is also responsible for financial aid certification. This includes maintaining the accuracy of the aid package, processing the approved Athletic Grant-In-Aid scholarships, and posting all financial aid data into MavLINK and both financial aid and academic eligibility data into the NCAA’s CAi software program.

**Civil Leave (Statutory Leave)**

When a student receives a written notice to provide mandated community service as an election official, juror or witness, he or she must notify the course instructor of the time when the service will be required, within five business days after notice of mandated service is received by the student (or at the start of the semester if notice is received prior to the semester). A copy of the notice must be provided to the instructor.

The instructor will allow the student summoned to mandatory community service an excused absence from the course on the day(s) required for Statutory Leave. Upon request of the student taking leave, the instructor will ask for another class member to take notes during the period of Statutory Leave.

If Statutory Leave occurs during a critical period in the course (e.g. an exam; in-class graded assignment; group project; participation-required day), the instructor will work with the summoned student to determine if the missed day(s) will likely have a negative impact on the student’s grade and whether the assignment or exam can be accommodated at a later time.

If Statutory Leave causes an extensive loss of class time for the student or will likely negatively impact the student’s grade or learning experience, the instructor and student will determine whether it is best for the student to receive a grade of Incomplete or Withdrawal for the course.

If a grade of Incomplete is chosen, the instructor and student will formally document the procedure required to complete the course.

If a grade of Withdrawal is chosen, the student should receive a prorated refund of tuition and fees paid for the course.

**Student Called into Military Service**

Executive Memorandum No. 23

1. **GENERAL**
   This Policy shall be implemented in order that the University of Nebraska might provide equitable, consistent treatment to its students who are called into military service and to facilitate their ability to continue their education once that military service is completed.

2. **ELIGIBILITY**
   Students who are regularly enrolled in any class or program offered by the University of Nebraska are eligible for the benefits described in this Policy, if they: (a) belong to a military unit that is called into active duty, or (b) are drafted and not eligible for deferment; such that the date upon which they are required to report to active duty prohibits them, as a practical matter, from completing the term in which they are enrolled.

3. **COURSE AND GRADE OPTIONS**
   An eligible student may elect to cancel registration in all classes in which he or she is enrolled at the time the call for duty is received. In such case, the student shall receive a full refund for all tuition and student fees paid on behalf of that student. In the alternative, the student may request his or her instructors to award a grade or an incomplete for all classes. If an incomplete is given, then the instructor shall file in the student’s educational records and provide to the student specific instructions regarding the study and activities required to complete the course. If a grade and credit are awarded, then the instructor shall award a grade reflective of the student’s performance, taking into consideration the quantity and nature of the curriculum through the time of the student’s departure. Finally, the student shall have the option of withdrawing from selected courses, receiving a prorated refund of tuition and fees for those courses, while also opting to receive a grade or incomplete in other courses in which the student is enrolled.

4. **STUDENTS RECEIVING FINANCIAL AID**
   Notwithstanding any provision to the contrary in this Policy, administration of financial aid with respect to any eligible student shall be consistent with federal and state law. Students otherwise eligible for these benefits and receiving financial aid should immediately contact the financial aid office on their respective campuses, where each case must be addressed individually based upon the particular rules applicable to the relevant student. The campus financial aid offices shall address these matters in such a way as to minimize the financial
hardships to the student, while complying with the applicable law and regulations.

5. **Publication**
   This Policy shall appear in all student catalogs and placed on the websites of Central Administration and each Campus.

6. **System Application**
   This Policy applies to all administrative units of the University of Nebraska. Each campus may provide supplemental policy guidance, consistent with this Policy, designed to implement the provisions herein, including guidance relating to fees associated with meals and housing, textbooks, parking, lab and course fees, as well as other ancillary fees.

Dated this 17th day of October, 2001.

## Course Information

### Course Numbering System

The system of course numbers is arranged to indicate the level of instruction. The first figure in each number designates the group to which a course belongs:

<table>
<thead>
<tr>
<th>Numbering</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1000-1990</td>
<td>Courses open primarily to freshmen</td>
</tr>
<tr>
<td>2000-2990</td>
<td>Courses open primarily to sophomores</td>
</tr>
<tr>
<td>3000-3990</td>
<td>Courses open primarily to juniors</td>
</tr>
<tr>
<td>4000-4990</td>
<td>Courses open primarily to seniors</td>
</tr>
<tr>
<td>8000-9990</td>
<td>Courses open only to graduate students</td>
</tr>
</tbody>
</table>

From time to time courses may be added or dropped from a curriculum. All courses listed in this catalog cannot be offered each semester. Some departments indicate which semester the course is normally offered. While the departments will attempt to follow the guidelines established for periods of course offerings, there is no guarantee the course will be offered during the semester indicated. Furthermore, students cannot be guaranteed placement in a course offered during a particular semester.

### Explanation of Credit Course Numbers

Courses available for graduate credit are those which have been approved by the UNO graduate faculty or its designee. Students will not be allowed to upgrade or retake courses previously taken for undergraduate credit so that they can be used for any purpose where graduate credit is required. Undergraduate courses cannot be used toward a graduate degree.

### Dual-listed Courses

Dual-listed courses are courses open to both undergraduate and graduate students. There are two types of dual-listed courses:

1. Courses numbered at the 3000 level which are dual listed with courses starting with the number eight (8) and ending with a five (5) – (3xxx/8x5).
   a. No more than two (3xxx/8xx5) courses are allowed on a master's degree plan of study.
2. Courses numbered at the 4000 level which are dual listed with courses starting with the number eight (8) and ending with a six (6) – (4xxx/8x6).

It is expected that students enrolled for graduate credit will do work at a higher level than that which is expected of undergraduate students in the same course.

### Graduate-only Courses

Courses numbered with an eight (8) and nine (9) and ending with a zero (0) – (8xxx or 9xx1) are normally for advanced master's and doctoral-level students. If taken at the master's level, the course cannot be taken again at the doctoral level.

With special permission from the dean for graduate studies, exceptional juniors and seniors may enroll in graduate courses.

Courses numbered (8xxx or 9xx1) are normally for advanced master’s and doctoral-level students. If taken at the master's level, the course cannot be taken again at the doctoral level.

### Credit Hour Definition

#### Federal Definition

The University of Nebraska at Omaha (UNO) uses the federal definition of a credit hour, which states:

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally-established equivalency that reasonably approximates not less than:

1. One hour² of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks;
2. Or at least an equivalent amount of work as required in paragraph (1) of this definition for other activities as established by an institution, including laboratory work, internships, practica, studio work and other academic work leading toward the awarding of credit hours.

#### Hour Definition

One credit hour is equivalent to one hour (50 minutes minimum) of lecture and two (2) hours of out-of-class work each week. For all standard 15-week semesters of instruction, and for non-standard (condensed) and online courses the following contact times (minimums) are assigned for every one (1) credit hour based upon the specific type of learning activity:

- **Synchronous Classroom**: one hour of contact time and two hours of out-of-class work for each week of instruction
- **Laboratory**: two to four hours of contact time per week of instruction
- **Research/Field Work/Internships/Practica**: two to four hours of contact time for each week of instruction
- **Clinical**: two to four hours of contact time per week of instruction
- **Simulation**: two to four hours of contact time for each week of instruction
- **Other Activities**: three hours of contact time for each week of instruction (exam time can be considered part of contact time if an instructor chooses to count time spent on assessment as part of contact time)
- **Asynchronous Education**: three hours of student work for each week. Student work includes reading, research, online discussion, instruction, and assigned group activities, preparation of papers or presentations, and exams.
- **Hybrid Classes**: combination of synchronous and asynchronous education. Combination of face-to-face and assigned student work (see asynchronous) equivalent to three hours for each week.
- **Non-standard semesters**: eight week; five week, etc: Contact hours will be equivalent to the contact time established for the standard 15-week semester.

### Process

Credit hours for all UNO for-credit courses are established as part of the course development and approval process. The process begins with the departments/schools and then approval by the appropriate college(s)
Course Components

- **Activity** - Instructor-facilitated course generally focused on "learning by doing" with significant student/instructor interaction. Musical or dance groups or fitness-related courses often are assigned this course component.
- **Discussion** - A regularly scheduled section of a larger course, designed for activities such as group discussion, demonstrations or case studies. Discussions do not carry credit and are not stand alone courses. They are linked to a credit bearing course. Discussion sections generally contain fewer students than the course to which they are linked.
- **Dissertation** - Course is taken as part of a student's individual research project, generally in preparation for a written presentation of research results and required for completion of a specific degree program or special distinction in that program. (May be eligible as variable credit).
- **Ensemble** - Course is facilitated by the instructor and generally focused on significant small group or individual student/instructor interaction. Musical groups often are assigned this course component.
- **Field Experience** - Field experiences are generally required as part of an academic program such as counseling, psychology, or education. (May be eligible as variable credit)
- **Independent Study** - Course is designed to meet the needs of an individual student and may include individualized instruction or directed readings. (May be eligible as variable credit)
- **Internship** - Course includes work experiences related to a student's major or career goal. The internship typically involves a student working in a professional setting under the supervision of practicing professionals. (May be eligible as variable credit)
- **Laboratory** - Course is a classroom session(s) associated with a credit bearing course, often a lecture, which requires separate enrollment. Students participate in hands-on experiments or activities that illustrate or augment the material presented in the corresponding lecture or in their program overall.
- **Lecture** - Course is instructor-led course and may include interactive pedagogy to engage students but is primarily guided by the instructor.
- **Lecture/Lab** - A class that contains an integrated lecture and some hands-on components but does not require a separate meeting time like a traditional lab. The lecture/lab (combo) is scheduled like a lecture.
- **Master's Thesis** - Course hours are taken as part of a student's individual research project, generally in preparation for a written presentation of research results and required for completion of a specific degree program or special distinction in that program. (May be eligible as variable credit)
- **Practicum** - Course hours are practical, supervised training designed to supplement formal study. Students learn practical applications of classroom material and gain skills and knowledge relevant to their course of study. (May be eligible as variable credit)
- **Research** - Course is research directed all, or in part, by student(s) with instructor supervision. (May be eligible as variable credit)
- **Studio** - Course is instructor led and generally focused on significant small group or individual student/instructor interaction. Music or Art courses often are assigned this course component
- **Seminar** - Course is instructor led with a small number of students collectively exploring a topic or field of study, and may be directed all, or in part, by the enrolled students.

Course Prerequisites

Course prerequisites are automatically met based on previous coursework completed while at UNO or through transfer credit as determined by the student’s advisor.

If the attempted enrollment results in an error indicating that prerequisites have not been met, students must contact their academic advisor or college advising office.

If a student is allowed to enroll without the necessary prerequisites, a permission number must be issued by the academic advisor or the department and entered into MavLINK during the enrollment process.

Course prerequisites can be found by viewing the online catalog, or by logging into MavLINK, selecting "Class Search" and clicking on the title of a course listed.

Course Syllabus

Students should receive, or have access to, the course syllabus with basic information about the course, including textbooks required, assignments, evaluation protocols, and the basic schedule.

Course syllabi are aligned with the master syllabus, but provide specific information for a particular semester and instructor. Master syllabi are on file with the university and are used for accreditation purposes. Contact your instructor or the department chair/school director for a copy of the master syllabus. Review Board of Regents Bylaw 5.3 about Academic Evaluation which can be found in the Statement of Student Rights and Responsibilities section in this catalog.

Academic Calendar

Visit the Academic Calendar website (https://www.unomaha.edu/registrar/academic-calendar.php).

The Academic Year

Typically, an academic year consists of the fall and spring semesters, each consisting of approximately 15 weeks. The unit of instruction is the semester hour. Learn more about the Credit Hour Definition (https://www.unomaha.edu/registrar/faculty-and-staff/class-schedule/credit-hour-definition.php).

Prep Week Policy

The last week of regularly scheduled classes during fall and spring semesters is designated as Prep Week. Except for makeup examinations, tests in self-paced courses, or laboratory exams, no major examination accounting for more than 20% of a student’s grade may be given during this period. Papers, projects or presentations assigned at least two weeks in advance of Prep Week may be due during this period.

No final exams are to be given during this period as final exams must be offered during Final Exam week at the time assigned by the Registrar.

The final two days of Prep Week are designated as Study Days, during which organized classes do not meet and no new content can be assigned. For the 2021-22 academic year, laboratories may require attendance during Study Days and will state expectations for Study Days on the course syllabus.
Office hours and optional review sessions may be offered during Study Days.

https://www.unomaha.edu/campus-policies/prep-week.php

**Final Exams**
The last week of fall and spring semesters is designated as Final Examination Week. Instructors of totally online classes should arrange their final exams during Final Exam Week. Instructors of partially online classes should contact the Office of the University Registrar to find an on-campus exam location if necessary. Exams for summer or special session courses will be held on the last meeting day of the course.

Students should check the Final Exam schedule (https://www.unomaha.edu/registrar/students/after-enrollment/final-exam.php) at the beginning of each semester. Finals exam days and times may vary from the regular class days/times. If there are conflicts with the scheduled exams, students should contact their instructor early in the semester to resolve the conflict.

**Transfer Credit**

**Transfer Credit Policies and Procedures**

- Credits submitted only on official transcripts from other colleges or universities will be evaluated for admission to an undergraduate college by the Office of Admissions. Transcripts will become a part of the student’s permanent record maintained in the Office of the University Registrar. Transfer hours (and hours not accepted for transfer) from another institution are included in the overall GPA when determining honors for graduation. Final determination of transfer credit acceptance is ultimately made by an academic advisor in the student’s area of study.

- In general, credits and grades earned at other University of Nebraska campuses will be accepted, computed into the student’s grade point average, and will become a part of the permanent record from which official transcripts will be made.

- Only college-level courses with a grade of “C-” or better, CR (Credit), S (Satisfactory), and P (Pass) will be accepted for transfer from regionally accredited two- and four-year colleges and universities. (The College of Business Administration requires a grade of “C” or better for transfer.)

- Sixty-four (64) semester credit hours is the maximum allowed for transfer to most undergraduate UNO colleges from regionally accredited two-year colleges. The College of Engineering will allow a maximum of sixty-six (66) semester hours of credit.

- All credit hours transferable are converted to semester credit hours (e.g., one-quarter hour equals 2/3 of a semester credit).

- Each UNO college has a required number of credit hours to be completed at UNO prior to graduation.

- Students wishing to transfer credits from recognized institutions outside the United States may need to provide a course syllabus and catalog for evaluation of transfer credits.

**Change of Campus**
A Change of Campus application will need to be completed for any student who is attending or has attended one of the four campuses of the University of Nebraska System within the last five years and is applying for admission as a degree-seeking student at a new UNO campus. A new application for admission will need to be completed to the new campus. Learn more about the Change of Campus application (https://intercampus.nebraska.edu/ccnotice.aspx).

**Intercampus**
An Intercampus application will need to be completed for students planning to attend a new Nebraska System Campus on a temporary visiting basis, with the intention of returning to their current/home campus. Students should complete the Intercampus application on this website (https://csprdnu.nebraska.edu/psc/csprdnu/NBX/SA/s/WEBLIB_PTBR.ISCRIPT1.FieldFormula.iScript_StartPage/?ghcmd=saml). Intercampus is for one term of enrollment only.

**Advanced Placement Credit**
The Advanced Placement Program is based on the belief that many students are capable of completing college-level courses while still in high school. With this belief in mind, the College Entrance Examination Board assists high schools in planning such courses and provides examinations for them.

The University of Nebraska at Omaha (UNO) participates in the Advanced Placement (AP) program of the College Entrance Examination Board (CEEB). Advanced Placement credit is based on criterion examination(s) administered by CEEB.

Students should contact their college advisor regarding the application of these credits to their academic program. Students must have official copies of their scores submitted to the Office of Undergraduate Admissions by College Board in order for credit to be awarded. To obtain copies of official grade reports, you can contact College Board directly at 888.CALL.4.AP.

The Office of University Registrar manages the Advanced Placement Program (http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/advanced-placement-credit.php) at UNO.

**College Level Examination Program**
The University of Nebraska at Omaha (UNO) grants college credit for specific College Level Examination Program (CLEP) Exams with an acceptable score.

CLEP exams are given by appointment in the UNO Testing Center. Learn more about UNO CLEP exams and how UNO grants credit (http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/clep-credit.php).

**Military Credit**
Students must submit official transcripts to UNO to have military credit considered for evaluation:

- Army, Coast Guard, Navy and Marine service members, reservists, guard and veterans can request the Joint Services Transcript.

- Air Force Active Duty, Guard and Reservists or retired or separated Air Force Members may request transcripts from the Community College of the Air Force (http://www.airuniversity.af.mil/Barnes/CCAF/).

Military Credit will be evaluated by the student’s advisor in the college upon admission.
**Retroactive Credit**

Students may be eligible to apply for Retroactive Credit in English, Spanish, and French based on test scores in:

- English Placement / Proficiency Exam (EPPE)
- Advanced Placement
- Spanish and French Placement Exams

Students may be eligible to apply for Retroactive Credit in Mathematics based on successful completion of advanced Calculus courses.

Successful completion of a specific upper level UNO course is also required. Credit is granted through the specific department:

Please contact the specific department for more information.

**International Baccalaureate**

The International Baccalaureate (IB) program is a comprehensive and rigorous curriculum leading to exams for students aged between 16 and 19. Students who participate in this program enroll in specially designed courses through their high school and take international exams in May.

Students with an IB Diploma earn an average of 25-28 university credits, including three (3) hours of credit in philosophy for completing the Theory of Knowledge course.

- The University of Nebraska at Omaha (UNO) cooperates with the International Baccalaureate Program (IB) in its curriculum and examinations program.
- The results of the IB scores are furnished to UNO at the request of the student.
- The number of earned credits a student will receive at UNO will be determined by the performance in the IB course and the score received on the exam.
- To earn transfer credit, a score of five (5) or higher, in most exams, is required.
- Credit will be granted for both the Standard Level (SL) and the Higher Level (HL) scores if an IB Diploma has been earned. HL scores for all other candidates will be awarded accordingly.

More detailed information can be found on the International Baccalaureate website.

Learn more about how UNO accepts International Baccalaureate ([http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/international-baccalaureate-program.php](http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/international-baccalaureate-program.php)) exams.

**Grades**

**Grading Scale**

Grades are determined by the daily record of the student and the record made on quizzes, mid-semester and semester examinations. The weight attached to each of these factors is determined solely by the instructor of the course.

The grading system is as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>outstanding</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>outstanding</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>outstanding</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>proficient</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>proficient</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>proficient</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>satisfactory</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>satisfactory</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>satisfactory</td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>below standard</td>
<td>1.33</td>
</tr>
<tr>
<td>D</td>
<td>below standard</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>below standard</td>
<td>.67</td>
</tr>
<tr>
<td>F</td>
<td>failing</td>
<td>0</td>
</tr>
<tr>
<td>CR</td>
<td>credit</td>
<td>*</td>
</tr>
<tr>
<td>NC</td>
<td>no-credit, failing</td>
<td>*</td>
</tr>
<tr>
<td>NR</td>
<td>no grade reported</td>
<td>*</td>
</tr>
<tr>
<td>S</td>
<td>satisfactory: Grade of “C” or better for graduate “D” or better for undergraduate</td>
<td>*</td>
</tr>
<tr>
<td>U</td>
<td>unsatisfactory, failing</td>
<td>*</td>
</tr>
<tr>
<td>AU</td>
<td>audit</td>
<td>*</td>
</tr>
<tr>
<td>I</td>
<td>incomplete: Follow rules listed in catalog; cannot be changed to &quot;IP&quot;; can be extended by one semester by instructor request to Registrar.</td>
<td>*</td>
</tr>
<tr>
<td>IP</td>
<td>course in progress: Used for thesis, independent study, research project, or other arranged course; applies to both graduate and undergraduate; remains indefinitely.</td>
<td>*</td>
</tr>
<tr>
<td>W</td>
<td>withdrew (good standing)</td>
<td>*</td>
</tr>
<tr>
<td>R</td>
<td>repeated course</td>
<td>*</td>
</tr>
</tbody>
</table>

* — not used in calculating grade point averages

**Incompletes**

To receive an “incomplete,” students must contact their professor prior to the end of the semester, request a grade of incomplete, and make arrangements to complete the work. The rules which govern the issuance of the incomplete are as follows:

1. The grade “I” is used by an instructor at the end of a semester or summer session to designate incomplete work in a course. It is given when a student, due to circumstances such as illness, military service, hardship or death in the immediate family, is unable to complete the requirements of the course in the term in which the student is registered for credit. Incompletes will only be given if the student has already substantially completed the major requirements of the course.
2. Each instructor will judge each situation. The instructor will also indicate by a departmental record, with a copy to the student, how the incomplete is to be removed, and if the instructor is at the University at the time of removal, supervise the makeup work and report the permanent grade.
3. In the event the instructor is not available at the time of the student’s application for removal of an incomplete, the department chairperson will supervise the removal of the incomplete and turn in the permanent grade for the student.

4. A student shall have no longer than the end of the next regular semester following receipt of the “I” to remove the incomplete. After that time, the “I” will automatically become a “W,” or such other grade specified by the instructor depending on the amount and quality of the course work previously completed. Exceptions to this rule will be permitted if initiated by the student and approved by the instructor, department chairperson, and dean. Exceptions to this rule will be made only in response to circumstances over which the student has no control, and these must be detailed.

5. In registering for courses, students receiving one or more “I” grades from the previous semester should take into account the time needed to complete the required work and plan their schedules accordingly.

6. Courses with Incompletes do not count towards credit hours in future semester’s when determining enrollment status.

Credit/No-Credit (CR/NC)

For information on Credit/No Credit Grades and Rules Governing Credit/No Credit, visit the Credit/No Credit Policy website (https://www.unomaha.edu/registrar/students/grading-grades/credit-no-credit-option.php).

Grade Appeals Procedure

Each program/college has an official grade appeal process. Students should contact the department/school or dean’s office to receive a copy of the policy. Students should appeal the grade to the department/school/college in which the course was offered.

Repeating Courses - UNO Policy on Grades

Undergraduate Courses

When an undergraduate course is repeated, only the most recent grade will be calculated into the GPA.

- Letter-graded courses must be repeated for a letter grade.
- ALL courses and grades will continue to be a part of the student’s permanent record (transcript).
- When determining eligibility for graduation with honors, every grade awarded is computed into the GPA.
- Repeats must be completed before a degree is granted. Once a degree is granted, repeated courses will not change the GPA established at the time the degree was awarded.
- Students may replace grades earned at another University of Nebraska system campus if the articulated equivalent course is taken at UNO. Students should consult with an advisor prior to enrolling in courses at UNO to ensure that the direct equivalent course is taken. Upon completion of the course, either the student or the advisor must contact the Office of the University Registrar, 105 Eppley Administration Building, to have the previous grade removed from the GPA.

Undergraduate Courses - Special Exceptions

Some courses, such as thesis, internship, physical activity, special topics, or independent study may be repeated without removing the previous grade. Visit the repeatable courses website (https://www.unomaha.edu/registrar/students/during-enrollment/repeatable-courses.php) for a complete list of these courses. For these undergraduate courses, only grades of F will be removed automatically when these courses are repeated. All other repeats must be done by contacting the Office of the University Registrar, 105 Eppley Administration Building, and completing the “Removal of Previous Grades” form.

Graduate Courses - General Rule

Only grades of Cs, Ds, and F can be repeated, and only the most recent grade will be counted into the GPA.

- Letter-graded courses must be repeated for a letter grade.
- All courses and grades will continue to be a part of the student’s permanent record (transcript).
- Repeats must be completed before a degree is granted. Once a degree is granted, repeated courses will not change the GPA established at the time the degree was awarded.

Graduate Courses - Special Exceptions

For courses such as thesis, internship or independent study, repeats are subject to the same rules as listed above under General Rule. Repeats in this category cannot be done automatically. Students must contact the Office of the University Registrar, 105 Eppley Administration Building, and complete the “Removal of Previous Grades” form.

Grade Point Averages (GPA)

UNO GPA

The GPA included on the student’s transcript reflects courses taken only in the University of Nebraska System (UNO, UNL, UNMC and UNK).

Degrees with Honors GPA

Grades awarded in ALL courses taken at ALL colleges and universities attended are included in computing the GPA for determining eligibility for graduation honors. This cumulative GPA takes into account a student’s complete academic history, including course repeats.

No Report "NR" Grades

If a No Report “NR” grade is reflected on a grade report, the student should immediately report it to the faculty member. A grade of “NR” is not a terminal grade and must be changed to the appropriate letter grade.

Academic Amnesty

Each college has established a policy and procedures for students who wish to declare academic amnesty for one or more semesters. Students should read the Academic Amnesty policy for their college in this catalog or contact their Dean’s Office. Students who declare Academic Amnesty are not eligible to graduate with honors.

Academic Performance

A student must maintain a cumulative Grade Point Average (GPA) of 2.00 or above to remain in “good academic standing” at the university. However, the colleges may require a higher grade point average.

For purposes of participation in recognized extracurricular activities, “good academic standing” is defined as a cumulative GPA of at least 1.75 for the first 45 hours attempted and at least 2.00 for 46 or more hours attempted, including all college-level courses taken for credit at the University of Nebraska.

Probation and Suspension

Academic Probation

A student whose cumulative grade point average is below 2.00 after having attempted six or more semester hours will be placed on probation. Probationary status will remain in effect as long as the student’s cumulative Grade Point Average (GPA) remains below 2.00. No student will be allowed to enroll for any course on a pass/fail or Credit/No-Credit basis while on probation. Probation constitutes a period of formal warning that the student is doing unsatisfactory work.
The student is encouraged to use every opportunity during time on probation to seek counsel and guidance from various university agencies which have been established to offer assistance in study and academic planning. For information on such services, the student should consult with his or her academic advisor or counselor.

**Academic Suspension**

Students will only be suspended at the end of the spring term. This rule applies to all UNO colleges, including the Academic and Career Development Center and all University of Nebraska-Lincoln based programs in the Colleges of Architecture, Agriculture, and Engineering.

Students who are on probation will be suspended at the end of the spring semester when their semester Grade Point Average is lower than 2.0 and the cumulative Grade Point Average (GPA) falls below the following standards:

<table>
<thead>
<tr>
<th>Hours Attempted</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-12</td>
<td>No Suspension</td>
</tr>
<tr>
<td>13-45</td>
<td>1.75</td>
</tr>
<tr>
<td>46 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Suspensions under these conditions will be automatic. Academic suspension will be for a minimum period of one year.

Students will be notified by their primary academic college of their suspension and given instructions on how to appeal, should they choose to do so, and any appropriate deadlines associated with an appeal.

Appeals properly filed shall delay implementation of the suspension until the appropriate appeals committee has acted. However, if the appeal is denied the student shall be dis-enrolled and tuition shall be refunded.

**Reinstatement Following Academic Suspension**

Students wishing to be reinstated following their one-year suspension from the University of Nebraska at Omaha shall schedule an advising/reinstatement meeting with the College from which the student was suspended. It is recommended the student schedule an advising/reinstatement meeting at least one month prior to the official beginning of the semester or term for which the student is applying (refer to academic calendar for specific dates) in order to have their reinstatement hold released and be eligible to register for classes. If academically suspended students have not taken classes within the last two years, they will need to reapply to UNO first and then schedule their advising/reinstatement meeting.

**Academic Honors**

**Full-Time Dean's List and Part-Time Dean's List**

Students seeking their first bachelor's degree are eligible for this academic honor. Students must earn a minimum of 12 quality hours with a minimum Grade Point Average (GPA) of 3.50 in a given fall or spring semester for full-time students, and consecutive fall or spring semesters for part-time students. These academic honors are not offered during the summer term. Students earning the Chancellor's List honor will also earn the corresponding full-time or part-time Dean's List honor. Contact UNO's Office of the University Registrar, 105 Eppley Administration Building, with any questions.

**Part-Time Dean's List**

Part-time students whose honors are considered on a continuous enrollment will have summer hours included in their calculations for Dean's Lists. Dean's Lists are posted to the academic record only during the fall and spring semesters. Contact UNO's Office of the University Registrar, 105 Eppley Administration Building, with any questions.

**How to View Official Grades**

Students can view grades via MavLINK immediately after they are posted by the instructor. Official Grades are available in MavLINK under the Academics tab or on the Unofficial Transcript. Final grade reports are not mailed out to students nor can grades be provided over the phone.

**Official Academic Transcripts**

Transcripts contain academic information such as coursework, grades, credit hours, Grade Point Average, and UNO degrees earned.

Before an official transcript can be released, all financial and administrative obligations to the University of Nebraska System must be resolved. Holds can be viewed through MavLINK.

UNO transcript requests can only be completed online. Requests made via phone, email, or fax are not accepted. Transcripts can be ordered by students via MavLINK.

Learn more about ordering your transcripts online (https://www.unomaha.edu/registrar/students/transcripts-and-records/order-a-transcript.php).

**Academic Integrity Policy**

Under the Bylaws of the Board of Regents of the University of Nebraska [Sections 2.9 and 4.1(i)], the respective colleges of the University have jurisdiction over procedural matters concerning academic dishonesty. Just as the task of inculcating values of academic honesty resides with the faculty, the faculty is entrusted with the discretionary authority to decide how incidents of academic dishonesty are to be resolved.

This policy applies to all colleges and academic units at the University of Nebraska at Omaha (“UNO” or “University”). Each college and academic unit, including its faculty members, have the responsibility to educate its students about this policy and any additional standards of conduct for academic integrity in a particular course. Students are responsible for understanding and adhering to the requirements of this policy and any additional academic integrity standards prescribed by a college and academic unit, including its faculty members.

**Statement of Student Rights and Responsibilities**

**I. University of Nebraska Bylaws**

Students, like all members of the academic community, have the responsibility to create and support an educational environment. Each member of the community should be treated with respect and dignity. Each has the right to learn. This right imposes a duty not to infringe upon the rights of others. The academic community should assure its members those opportunities, protections and privileges that provide the best climate for learning. (Bylaws of the Board of Regents, Section 5.0.) UNO shall publicize and keep current all rules, regulations, and policies concerning
students, and insure that they are readily available to all students and other interested persons. (Bylaws of the Board of Regents, Section 5.1.)

1. **Admissions Criteria** UNO shall publish the criteria for admission, academic progress, certificates, and degrees for all colleges and schools of the University. Admission to the University and the privileges of University students shall not be denied to any person because of age, sex, race, color, national origin, or religious or political beliefs. (Bylaws of the Board of Regents, Section 5.2.)

2. **Academic Evaluation** Students shall be informed of the requirements, standards, objectives and evaluation procedures at the beginning of each individual course. Each student shall be given a performance evaluation during the progress of the course if requested. Each college or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student’s evaluation upon the committee’s finding that an academic evaluation by a member of the faculty has been improper. Procedures for appealing evaluation of academic progress are provided by each college or school unit. Generally, but not necessarily conclusively, the procedures are similar to the following: Students wanting to appeal a grade (evaluation that has been prejudiced or capricious), shall attempt to discuss the matter directly with the instructor. If the student and the instructor do not reach a satisfactory agreement, the student may submit an appeal in writing to the chairperson of the department in which the course is offered. If the student and chairperson do not reach a satisfactory agreement, the student may submit an appeal in writing to the Dean of the College in which the course was offered. The decision made at this level, which would include a hearing by a faculty-student appeals committee, will be final. Each college or school shall provide a mechanism by which students have an opportunity to report their perceptions of courses and the methods by which they are being taught, provided, however, that such mechanism shall protect members of the faculty from capricious and uninformed judgments. (Bylaws of the Board of Regents, Section 5.3)

3. **Public Information Regarding Students** Public information regarding students, rules with respect to confidentiality, and any release of information will be governed in accordance with Federal and State law. The Board is authorized to develop policies and procedures consistent with that law. (Bylaws of the Board of Regents, Section 5.6.)

4. **Disciplinary Records** Subject to any requirements of the Records Management Act, the University shall provide for the periodic destruction of noncurrent disciplinary records. (Bylaws of the Board of Regents, Section 5.7.)

5. **Student Communications Media** Student publications and broadcasting stations shall be supervised in a manner such that editorial freedom will be maintained and that the corollary responsibilities will be governed by the canons of ethical journalism. Student publications financed in whole or in part by fees collected from all students at UNO shall be supervised by a Publications Committee. This committee shall have full responsibility of a publisher and the power of decision on the proper application of the canons of ethics. Students shall comprise a majority of the membership, but the committee shall also include members of the faculty and professional journalists from outside the University. (Bylaws of the Board of Regents, Section 5.9.)

6. **Eligibility for and Participation in Co-Curricular Activities.** Co-curricular activities and registered student organizations are offered by the University to meet the needs of interests and promote the development of special skills of its student population. To participate as a member in any recognized student organization, at a minimum, a student must be enrolled in at least one credit course, excluding audit hours.

Additional membership criteria may be established by UNO based on the nature of the organization and/or set by the organization themselves. Membership requirements set by organizations may be more, but not less, stringent than those laid out by the University but must be in compliance with any federal laws and/or restrictions. Interested students should contact the leadership of the student organization or co-curricular activity for specific membership guidelines/requirements. Officers of all organizations, in conjunction with the support of their faculty and staff advisors, are tasked with enforcing membership requirements.

The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its programs, activities, or employment.

7. **Campus Speakers** Students are allowed to invite and hear any person of their own choosing. Institutional procedures will insure the orderly and adequate preparation for the event. However, the control of campus facilities will not be used as a device of censorship. (Bylaws of the Board of Regents, Section 5.1.1)

II. **University of Nebraska Policies**

1. **Academic Degree Completion** The requirements for graduation from a bachelor’s degree program shall be those listed in the Catalog effective at the time of matriculation provided continuous enrollment (excluding summer sessions) was maintained. However, the University reserves the right to withdraw and substitute courses, to reassign instructors and to change the nature of instruction, as deemed necessary. In some cases, prerequisites for courses offered at the University are effective even if they are not listed in a given catalog. (See the current schedule of classes or your adviser for details.) A student may meet requirements listed in a subsequent Catalog if written approval is granted by the dean of the college in which the student is enrolled. Acceptance of registration by the University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue indefinitely to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out, or discontinue any program. The listing of courses contained in any University bulletin, catalog or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to 1) add or delete courses from its offerings, 2) change times or locations of courses or programs, 3) change academic calendars without notice, 4) cancel any course for insufficient registrations, or 5) revise or change rules, charges, fees, schedules, courses, requirements for degrees and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University. (Policies of the Board of Regents, Section 5.1.3)

2. **Right to Public Hearing** It shall be the right of any individual member or group of members of the University (i.e., students, faculty, or administrators) to be granted, upon petition to the appropriate policy making body or office, a public hearing at which the policy indicated by the group of petitioners in their petition shall be discussed. The policy-making body or office petitioned shall schedule the hearing for some time convenient to the interested parties if possible, no later than two weeks after the petition is submitted during periods when the University is in session, and shall announce publicly in advance the time and place of the hearing. At the hearing, that body responsible for the policy indicated in the petition shall clarify said policy, offer the reasons which justify the policy in view of the objections or questions raised about it in the petition, and respond to any additional questions or criticisms of the policy or related policies raised at the hearing by any member of the University. It is expected that before such a petition is submitted, all other normal channels for raising questions about the policy have been exhausted. If, in the view of the policy-making body or office to whom the petition is submitted, the petition is merely a form of harassment or adequate answers are available through other normal channels, the petition may be referred to the relevant committee to determine whether the hearing must be held. A decision by the Committee not to hold a public hearing shall be overruled by the submission to that committee of a petition requesting such hearing and signed by at
least 100 members of the University community. (Policies of the Board of Regents, Section 2.1.3)

3. Directory Information In compliance with the federally-enacted Privacy Act and as defined by the Board of Regents, public directory information regarding students attending UNO shall be the (i) student’s name, (ii) year at the University, (iii) dates of attendance, (iv) academic college and major field of study, (v) enrollment status (e.g. undergraduate or graduate; full-time or part-time), (vi) participation in officially recognized activities and sports, (vii) degrees, honors and awards received, (viii) most recent educational agency or institution attended, (ix) University email address, and (x) hometown. Non-public directory information regarding students attending UNO shall be the (i) local address, (ii) permanent address, and (iii) telephone listings. Public directory information will be available to the public upon request and may be included in student directories published electronically. Non-public directory information is not available to the public, but is available to University faculty, staff, and students for University purposes. Directory information will be released by the Registrar in accordance with this policy upon inquiry, unless the student has requested that specific items not be released. The student’s request to have directory information withheld should be filed at the Office of the Registrar. (Policies of the Board of Regents, Section 5.10.) An explanation of this Act and its application at UNO is available to all students. Copies may be obtained online at https://www.unomaha.edu/registrar/ferpa (https://www.unomaha.edu/registrar/ferpa/)

3.1 Mandated Release of Information UNO shall disclose to a victim of any crime of violence the results of any disciplinary proceeding conducted against the alleged perpetrator of such crime with respect to such crime. (Policies of the Board of Regents, Section 5.10)

4. Sponsorship of Speakers with Student Fees The purpose of a speakers program is to advance the general educational purposes of the University by putting before the University community a broad range of ideas in a variety of contexts. The organizations administering speaker programs should make every attempt to provide balance on all subjects presented. All students are encouraged to join programming groups and/or give their input on speaker selection. (Policies of the Board of Regents, Section 5.6.1)

III. UNO Policies

1. Counseling/Medical Records Information exchanged with and/or maintained by a professional counselor/psychologist or medical personnel about a student client will remain confidential, except under legal compulsion.

2. Demonstrations The University acknowledges the rights of members to express their views by peaceful demonstration. UNO is an academic community founded upon a belief in rational dialogue and mutual respect among its members. The opportunities for communication within the University are many and varied, and the University welcomes suggestions for enriching or improving them. The nature of the academic community demands that all members strive to maintain the rational dialogue which is the cornerstone of the University. There is no conceivable issue, be it a question of academic and administrative policy or of students rights and freedoms, that cannot be approached within the framework of free discussion.

a. Demonstration Procedures

Members of the academic community, including the guests of the University, have the right of extensive latitude in making their opinions known. It is understood, however, that in exercising this right the rights of others must not be jeopardized. The public exploration and resolution of differing views can be successful only when groups and individuals discuss the issues in forums where the right to disagree and to speak freely and be heard is preserved. Within this context, the University community recognizes peaceful demonstration as a legitimate means of expressing one’s opinion.

The preservation of freedom of speech, and the recognition of the right to peaceful demonstration as part of that freedom, is possible only in an orderly environment in which individuals are not endangered by force or violence and in which they are free from coercion and interference in the exercise of their rights or in carrying out their legitimate activities.

Campus demonstration forms are available in the Administrative Office of the Milo Bail Student Center and must be submitted and approved with all necessary signatures at least 48 hours (two business days) before the proposed demonstration. Board of Regents bylaws state that, in cases of the disruption of normal University activities, the Chancellor or his/her designee will, in accordance with University policies and procedures, take necessary steps to restore the University to its normal function. The Chancellor or his/her designee may, in the event of refusal to disperse upon request, impose temporary action, including suspension of those persons disrupting the normal function of the University. The determination as to whether disciplinary action will be initiated for violations of University rules and regulations by students will be made by the Vice Chancellor for Student Success.

The University community may impose behavioral restrictions which are necessary to preserve the orderly functioning of the University and the right of all to be heard. Such restrictions fall into two categories:

i. Prevention of violence or the use of force:

Demonstrations which coerce individuals or which constitute a hazard to the safety of any persons or which threaten destruction of property are not protected by freedom of speech provisions and will not be tolerated. Similarly, a hostile audience will not be allowed to interfere with a peaceful demonstration.

ii. Protection from interference with University operations:

The University community may restrict conduct which interferes with the holding of classes, the carrying forward of University business, properly organized and scheduled University events, or the discharge of responsibility by any University officer, employee or student. Although the mere presence of demonstrators in public areas within buildings does not necessarily constitute interference, demonstrators cannot be allowed physically to obstruct access to University facilities. Noise and boisterous activity is objectionable when it prevents others from exercising their rights and duties.

Persons engaging in disruptive action shall be subject to disciplinary measures, including separation from the University, and also to charges of violation of the law.

b. Response to Disruptive Behavior

The response of the University to any disruptive behavior must ultimately depend on the judgment of the officials who are in charge. However, the following guidelines should be observed:

i. Every effort will be made to end the disruption through reason and persuasion. These efforts shall include a clear indication of the willingness to discuss issues and to make clear the procedures for discussion and arbitration of the issues involved. Discussion of the issues will not be conducted under conditions of duress.

ii. If the discussion method fails, the individuals involved will be notified that they are in violation of University regulations and they will be asked to cease the activity. In the event the alleged violators do not cease the activity within a reasonable length of time, temporary sanctions, which may include conduct probation and if necessary, suspension, may be imposed on the scene. However, unless both the student and the University officials agree to a postponement, the University must hold disciplinary hearings within five (5) school days or the temporary sanctions will be dissolved. Such disciplinary hearing shall be held, as far as possible, in accordance with the established disciplinary procedures of the University. No temporary
sanction shall be made part of a student’s permanent record. If a student is found innocent of the action for which temporary sanctions were imposed, no record of the temporary sanction or of the hearing shall become part of any of the student’s files or records and the student shall be given the opportunity to make up work which was not completed because of the disciplinary action.

iii. If the use of institutional sanctions and discussion methods are not effective in ending the disruptors, or when alleged violators are not members of the University community, extra-institutional methods (including the invoking of police force) may be used. Non-members of the University community who are engaged in disruptive behavior may be referred to civil authorities for appropriate action.

iv. Evidence regarding the activity of nonstudent members of the University community who are alleged to have engaged in disruptive behavior may be referred to their supervisors for appropriate action.

The University community abhors the use of force as a method for settling disagreement and will always make exhaustive attempts to deal with issues by rational methods. When, however, such rational efforts prove ineffective or when imminent danger to life or property exists, more forceful methods shall be used to protect the rights and property of members of the community.

3. Distribution of Printed and Other Materials. Students are free to express their beliefs and concerns in a variety of ways. Printed and other materials offered free of charge may be distributed at any location on the campus as long as such distribution does not interfere with normal traffic or functions of the University. Such materials may be distributed by any UNO-affiliated person provided such is accomplished in an orderly manner within the framework of University policies and the law. If specific space for distribution of material is desired, a location may be reserved in a designated area of the Milo Bail Student Center, in accordance with existing policies and procedures governing space reservations. Special care is requested of any and all parties distributing literature to prevent littering of the campus and surrounding areas. Such activity shall be conducted so as not to interfere with the rights or the normal activities of the University. Any material offered for sale, solicitation of donations, or posting on University bulletin boards must comply with UNO policy concerning these matters. Contact the Director of the Milo Bail Student Center if more specific information is desired.

4. Information Services. The facilities of UNO Information Services are available to students, faculty and staff of this institution for the purpose of instruction, research, and other activities as defined by the Chancellor. The computer facilities are University property and their operation is part of University operations. Executive Memorandum No. 16 of the President of the University of Nebraska states the University policy on responsible use of University computers and information systems. Executive Memorandum No. 16 may be accessed on the Internet at: www.nebraska.edu/about/exec_mem16.pdf. The Student Code of Conduct addresses offenses related to the properties and operation of the University, and, therefore, also applies to computer use and facilities as it applies to all other University resources.

5. Title IX. How Title IX Affects Your Educational Experience.

1. It is the policy of the University of Nebraska to administer all of its educational programs and related supporting services in a manner which does not discriminate based upon age, race, ethnicity, color, national origin, gender, gender identity, sex, pregnancy, disability, sexual orientation, genetic information, veteran’s status, marital status, religion or political affiliation.

Any unwanted conduct of a sexual nature, whether verbal, physical, written, or pictorial, which has the purpose or effect of creating a hostile environment for the person subjected to the conduct, or any solicitation of sexual conduct of any nature when submission to or rejection of such contact is used as the basis for either implicitly or explicitly imposing favorable or adverse terms and conditions of academic standing constitutes sexual harassment and will not be condoned or tolerated. Moreover, sexual misconduct including stalking, dating or domestic violence, sexual exploitation, and sexual assault is prohibited.

b. Appropriate corrective action will be taken toward any student or employee who is found to have violated UNO’s non-discrimination, sexual harassment, and/or sexual misconduct policies. Further, UNO commits itself toward the assurance of non-retaliation toward any person who reports harassment, sexual misconduct, or discrimination or who participates in an investigation of such conduct.

c. If you suspect or experience discrimination, sexual harassment, or retaliation toward yourself or others, please keep records or other evidence of specifics and report the conduct.

If you do not feel comfortable telling a person to stop inappropriate behavior, or if the behavior does not cease once you have made the request to do so, you may seek assistance from an administrator, professor, or counselor. Persons designated by the University as Officials with Authority are required to report sexual discrimination, harassment, or misconduct reported to them. Other employees are expected to provide assistance and report.

d. Title IX, Disability or Discrimination Inquiries:

• Associate Vice Chancellor for Diversity, Equity, Access and Inclusion
  • Eppley Administration Building #211
  • Phone: 402.554.3664

• Title IX Coordinator
  • Eppley Administration Building #211
  • Phone: 402.554.2120
  • Email: equity@unomaha.edu

Student Code of Conduct

University of Nebraska Student Code of Conduct ("Code")

Students at the University of Nebraska are members of an academic community in which academic integrity and responsible conduct are essential for the community to function. To ensure that students know what is expected of them, the University has adopted the Standards of Academic Integrity and Responsible Conduct ("Standards").

- Section I - Persons & Organizations Subject to the Standards
- Section II - Standards of Academic Integrity and Responsible Conduct
- Section III - University Responses to a Violation of the Standards
- Section IV - Enforcement of Standards
- Section V - Temporary Suspension
- Section VI - Miscellaneous Procedural Matters

All allegations of sexual misconduct, including sexual harassment under Title IX of the Education Amendments of 1972 (Title IX), sexual assault, sexual harassment, sexual violence, dating violence, domestic violence, or stalking are investigated and addressed following the procedures set forth in Executive Memorandum No. 38.

SECTION I

Persons & Organizations Subject to the Standards

A. Students

1. The term "student" includes all persons enrolled at the University, including online and non-degree seeking individuals.
2. All students are subject to the Standards of Academic Integrity and Responsible Conduct as set forth in this Code while they are enrolled as an undergraduate student or a graduate student.

3. For purposes of the Standards, a student is considered to be enrolled starting one (1) week before the first day of classes of the first semester or session for which the student has registered for classes, or when the student engages in University sponsored activities whichever occurs first. A student's enrollment ends when the student graduates, withdraws from the University, or fails to register for classes for three (3) consecutive semesters, with summer term considered to be a semester, or no longer has a continuing student relationship with the University.

4. As a general rule, the Standards do not apply to graduate students when the graduate students are fulfilling their employment responsibilities, -- but the Standards of Academic Integrity apply to conduct that is related to the courses in which graduate students are enrolled. Further, as a general rule, the Standards apply to graduate students with assistantships, but they do not apply to conduct that is related to teaching responsibilities. Therefore, the Standards do not affect graduate student academic freedom.

   a. The Standards of Responsible Conduct apply to students enrolled at the College of Law, but students at the College of Law are subject to the Law College Honor Code and not the Standards of Academic Integrity set forth in this Code.

   b. The Standards of Responsible Conduct do not apply to post-doctoral fellows and medical/health profession residents not enrolled in credit courses.

5. Students who are accused of committing a violation of the Standards while they are enrolled at the University may still be held responsible for the violation even if they later withdraw from the University prior to a resolution of the alleged violation.

B. Organizations - The Standards apply to recognized student organizations, which are organizations that have been authorized by the University to use University facilities. An organization that is registered with the University, including student clubs, student organizations operating online and on social media, fraternities and sororities, or similar programs, is a recognized student organization for purposes of the Code.

C. Effect on Academic Sanctions - The University may address academic misconduct through proceedings under the Code as well as through proceedings implemented by an instructor or academic department. Specifically, imposition of academic sanctions on a student by an instructor or academic program does not prevent the University from instituting proceedings against the student under the Code. In addition, the Code does not prevent an academic program from imposing academic sanctions on students who engage in unprofessional conduct as defined by program specific policies or professional licensure requirements.

D. Locations in which the Standards Apply

   1. The term “on-campus” includes all University premises, including all University of Nebraska locations; physical campuses, including all adjacent streets and sidewalks, and any University affiliated programs; events or activities, including those located in other states or countries; and the use of any University electronic systems. The term “off-campus” means any location that is not on-campus.

   2. The Standards of Academic Integrity apply regardless of where the conduct occurs.

   3. The Student Code of Conduct applies to conduct that occurs on-campus and, in the situations set out below, to conduct that occurs off-campus.

      a. Pursuant to Regents By-Law 5.5, the Student Code of Conduct should not be applied as a matter of course to off-campus conduct simply because the conduct also violates federal, state, or local law.

      b. The Student Code of Conduct applies to conduct that occurs off-campus in the following situations:

1. The Code states that it applies to conduct that occurs off-campus.

2. The conduct occurs in or on the grounds of a university-approved housing unit.

3. The conduct occurs at events or during travel authorized, funded, or sponsored by the University.

4. The conduct occurs at events or during travel funded or sponsored by a student organization.

5. The conduct poses a risk to the health and safety of individuals and application of the Code is reasonably necessary to educate the student about the risks of the conduct or to help the student avoid engaging in the conduct in the future.

6. The conduct poses a serious risk to the health or safety of individuals and is of the type that the student could easily engage in on-campus.

7. The conduct was intentional and caused, or attempted to cause, physical injury to a university employee or another student.

8. The conduct could, or was intended to, cause harm on-campus.

9. A conduct officer:

   1. determines that the conduct in a particular matter distinctly and clearly implicates the University’s interests;

   2. prepares a written explanation of the interests and how the conduct implicates them; and

   3. provides the written explanation to the student or student organization.

SECTION II

Standards of Academic Integrity and Responsible Conduct

The Standards are all structured in the same way. They contain a general category of conduct that violates the Code, followed by a list of specific types of conduct. The list is not exhaustive and does not reflect all conduct that may be in violation of the Code. The word “include(s)” before a list should be read as saying that the types of conduct in the list are examples of conduct that is covered by the general category rather than an exclusive list. For example, the first violation that appears below is “Cheating.” The words “which includes” come next, followed by ten (10) examples. If a student engages in conduct that is similar to those examples and that people would normally think of as cheating, then that student has engaged in cheating in violation of the Code.

The words “means” before a list should be read as saying that the general category covers only the types of conduct in the list. In other words, the list is exclusive. For example, one of the general categories is “Hazing Students.” The words “which means” come next, followed by a definition and three situations in which hazing may occur. A student may be found responsible for Hazing under the Code only if the conduct occurs in one of those three situations.

Nothing in the Standards of Responsible Conduct may be construed to apply to conduct or words that are protected by the First Amendment to the United States Constitution or by Article I of the Nebraska Constitution. Likewise, nothing in the Standards of Responsible Conduct may be construed in a manner that is inconsistent with the Board of Regents Policy, Commitment to Free Expression; Guide for Facilities Use; and Education. [link; update name and link as necessary]

A. Standards of Academic Integrity

Students are expected to approach and complete their academic work with integrity. They are expected to do their own work, to be honest in the statements they make, to refrain from harming others, to refrain from...
improperly helping others, and to follow the rules. Students must read instructions and syllabi carefully so that they know what their instructors expect in terms of academic integrity.

Students who are unsure whether or not particular conduct is appropriate should ask their instructors or university administrators. Failing to act with integrity is a violation of the Code. A student fails to act with integrity when they engage in or attempt to engage in any of the following conduct.

1. **Cheating**, which includes, but is not limited to:
   a. Copying from another student’s exam, assignment, or project.
   b. Using materials during an exam or for an assignment that are not authorized by the instructor.
   c. Using devices during an exam that are not authorized by the instructor.
   d. Taking any materials out of the exam room (for example, the exam itself or scratch paper) that the exam instructions prohibit students from taking.
   e. Making an electronic copy of part or all of an exam, unless the instructions authorize making a copy.
   f. Possessing a copy of an exam or assignment that the student knows or should have known that they are not authorized to have.
   g. Working on an exam or assignment with someone else, unless group work has been authorized by the instructor.
   h. Taking an exam for another student, or allowing their exam to be taken by someone else.
   i. Taking all or part of work that someone else prepared and submitting it as one’s own.
   j. Taking all or a substantial part of an assignment submitted for one course and submitting it in another course, without the authorization of the instructor for that course.

2. **Dishonesty, Falsification, and Fabrication**, which includes, but is not limited to:
   a. Making false statements to avoid taking an exam or submitting an assignment at the scheduled time.
   b. Making false statements to avoid a penalty for failing to take an exam or submit an assignment at the scheduled time.
   c. Making up or purposefully misstating information or sources in any assignment or research project.
   d. Engaging in plagiarism by presenting the words or ideas of another person as one’s own.
   e. Making changes to a graded exam or assignment and then representing that the changes were part of the original exam or assignment.

3. **Harmful Academic Action Towards Others**, which includes, but is not limited to:
   a. Interfering with another person’s research or academic work.
   b. Knowingly making false charges that another student violated these Standards.

4. **Improperly Helping Others**, which includes, but is not limited to:
   a. Helping another student on an exam or an assignment when the student is not authorized to receive help.
   b. Knowingly helping another student violate these Standards, including, but not limited to, sharing an instructor’s teaching materials without permission.
   c. Unauthorized distribution, electronically or otherwise, of an instructor’s course materials.

5. **Failing to Follow the Rules**, which includes, but is not limited to:
   a. Failing to follow the instructions of an exam proctor.
   b. Failing to follow testing center rules.

**B. Standards of Responsible Conduct**

Students are expected to conduct themselves responsibly. Students must remember that they are members not only of the University community but also of the community in which the University is located. This means that students are expected to make responsible decisions about the use of drugs and alcohol, to behave appropriately as a member of the academic community, and to refrain from conduct that threatens the safety of the community.

Failing to act responsibly is a violation of this Code. Engaging in any of the following conduct is considered a failure to act responsibly:

1. **Using, Possessing, Manufacturing, Selling, or Distributing Illegal Drugs, Narcotics or Controlled Substances, except as expressly permitted by law.**
2. **Using, Possessing, Selling, or Distributing Prescription Drugs when not legally permitted or authorized.**
3. **Using, Possessing, or Distributing Drug Paraphernalia.**
4. **Being in the physical presence of unauthorized alcohol or in the physical presence of illegal drugs**, which includes, but is not limited to:
   a. Being in a residential room of a University residence hall or university-approved housing in which illegal drugs or unauthorized alcohol are present.
   b. Being on campus in a vehicle in which illegal drugs or alcohol are being used.
   c. Being off campus on University approved activities, or otherwise representing the University, in which illegal drugs or unauthorized alcohol are present.
   d. Being in the presence of illegal drugs or unauthorized alcohol in these locations may not be a violation if the student establishes they were unaware of the presence of illegal drugs or unauthorized alcohol.
5. **Misuse of Alcoholic Beverages**, which includes, but is not limited to:
   a. Using, possessing, or providing alcoholic beverages on campus without University authorization.
   b. Being intoxicated to the point of becoming incapacitated or posing a danger to oneself or others.
   c. Driving while under the influence of alcoholic beverages or drugs in violation of law.
   d. Possessing or consuming alcoholic beverages while under the age of twenty-one (21), except when expressly permitted by law.
6. **Providing Alcoholic Beverages to Underage Students at Off-Campus Parties and Events**, which includes, but is not limited to:
   a. Providing alcoholic beverages to underage individuals.
   b. Making alcoholic beverages available on premises that the students control when they know that underage individuals are likely to be present, the beverages are left in a place easily accessible to underage individuals, and some or all of the beverages are consumed by underage individuals.
      i. A student will be considered to have control of premises if they were on the premises at the time alcoholic beverages were furnished to underage individuals and
         1. they are the lessee or owner of the premises;
         2. they obtained authorization from the lessee or owner to use the premises; or
         3. they have legal access to the premises.
      ii. A student will be considered the lessee if they lease the premises for any purpose, regardless of the length of the lease.
   c. Purchasing or delivering alcoholic beverages for an event where some or all of the beverages are consumed by underage individuals when the student knew that underage individuals would likely be present and that the alcoholic beverages would likely be easily accessible to them.
   d. Putting out alcoholic beverages at an event where some or all of the beverages are consumed by underage individuals when the student
knew that underage individuals would likely be present and that the alcoholic beverages would likely be easily accessible to them.

7. **Engaging in, or attempting to engage in, behavior that may cause harm to an individual or property**, which includes, but is not limited to:
   a. Physical abuse or unwelcome contact, such as hitting, pushing, kicking, choking, biting, or spitting.
   b. Threatening to commit an act of violence for the purpose of terrorizing another person or persons.
   c. Threatening another person with imminent physical harm.
   d. Restraining another person, without legal authority to do so unless it can be shown that there was a reasonable basis to believe that restraining the person was necessary to protect the restrained person, self or others from physical harm.
   e. Harassing another person, by intentionally engaging in a course of conduct that serves no legitimate purpose and that would seriously terrify, threaten, or intimidate a reasonable person.
   f. Harassing another person due to their status as a member of a protected class in a manner that is so severe, persistent, or pervasive as to limit or deny a reasonable person’s ability to participate or benefit from the University’s programs, activities, or employment.
   g. Taking pictures or making recordings of another person without the person’s consent in any place where a person would have a reasonable expectation of privacy, including, but not limited to: the person’s bedroom; in the person’s living quarters in a residence hall; in a locker room; or in a restroom.
   h. Taking without permission, destroying, damaging, or vandalizing property that belongs to the University, to University employees, to a student organization, or to others.
   i. Taking money without permission that belongs to others.
   j. Accessing, transferring, altering, or destroying without authorization electronic files or devices that belong to the University, or other persons.
   k.Taking, duplicating, or using the identification card, keys, or credentials of another without authorization.
   l. Failing to comply with the campus tobacco policy.

8. **Engaging in Conduct that Disrupts Classes, University Operations, Activities, or Order**, which includes, but is not limited to:
   a. Interfering with an instructor’s ability to conduct class by failing to follow the instructor’s rules or instructions regarding behavior.
   b. Being present in a location on campus without proper authorization.
   c. Obstructing, impeding, or blocking entrances to or hallways in University buildings, roads, sidewalks or windows on campus, or entrances to campus.
   d. Yelling, screaming, or making loud noises with bullhorns or other such devices.
   e. Engaging in protests, sit-ins, or demonstrations at times or in locations where those kinds of activities are not permitted.

9. **Failing to Comply with University Housing Policies**, which means:
   a. Violating any student housing unit policy or regulation whether as a resident or visitor. Visit [housing.unomaha.edu](http://housing.unomaha.edu) for applicable policies and regulations.

10. **Hazing Students**, which means:
    a. Any action taken or situation created that intentionally or recklessly endangers the physical or mental health or safety of a student when that activity is performed:
       i. in the course of a student organization member considering the student for membership, continued membership, or affiliation with the organization;
       ii. in the course of a student organization considering the student for membership, continued membership, or affiliation with the organization; or
    b. Hazing is a violation regardless of whether it occurs on or off campus.
    c. Permission or approval of the student being hazed is not a defense to hazing.
    d. Examples of hazing activity include, but are not limited to, paddling, beating, or branding a student, depriving a student of sleep for a prolonged period, sexually penetrating a student or touching the student in a lewd manner, subjecting the student to prolonged exposure to the elements, depriving the student of food or water, leaving the student in a remote location without a means of return, subjecting the student to conduct designed to shock the student, or having the student engage in criminal conduct, engage in humiliating conduct, perform prolonged calisthenics, consume items that are not normally consumed by people, consume items in quantities that are not normally consumed by people, or consume alcohol.

11. **Doing Private Acts in Public**, which includes, but is not limited to:
    a. Engaging in sexual acts such as intercourse or masturbation in public, exposing one’s private body parts in public, or urinating or defecating in public.

12. **Misusing University Computer and Network Systems**, which includes, but is not limited to:
    a. Engaging in conduct prohibited by Sections 5 and 6 of the Policy for Responsible Use of University Computers and Information Systems. (Executive Memorandum 16).

13. **Falsification**, which includes, but is not limited to:
    a. Knowingly providing false information to the University for the purpose of obtaining something of value, such as admission to the University or a University program, an award, a scholarship, an identification card, membership on an athletic team, or the use of University facilities.
    i. This Standard applies from the time of application for admission to the University, regardless of when the student actually enrolls.

14. **Engaging in Conduct that Creates a Threat to Community Safety**, which includes, but is not limited to:
    a. Possessing weapons in violation of Campus Weapons Policies. [link; update name and link as necessary]
    b. Using weapons to cause physical harm to others.
    c. Possessing or using fireworks.
    d. Making, possessing, or using false forms of identification such as driver licenses and University identification cards.
    e. Tampering with fire or safety equipment.
    f. Intentionally making false reports of fires, bombs, or other emergencies.
    g. Failing to comply with requests for identification or other lawful commands from emergency personnel, police officers, or University employees that are reasonably related to the employee’s job responsibilities.

15. **Failing to Comply with any University or Campus Policy, Rule or Regulation**, which means the violation of any University policy, rule, or regulation published in hard copy or available electronically on any University website. Electronic copy published on any University website shall supersede hard copy.

16. **Violation of Law**, which means:
    a. Engaging in conduct that is sufficient to constitute a violation of federal, state, or local law that causes, or could cause, harm to the campus community to the extent the University’s interests are distinctly and clearly involved.

17. **Abuse of University Disciplinary Proceedings**, which includes but is not limited to:
a. Failing to comply with the notice from a Conduct Board or University official to appear for a meeting or hearing as part of the Disciplinary Proceedings.
b. Knowingly falsifying, distorting, or misrepresenting information before a Conduct Board.
c. Disrupting or interfering with the orderly conduct of a Conduct Board proceeding.
d. Filing a frivolous or knowingly false report(s).
e. Attempting to intimidate or coerce an individual from reporting potential violations of the Code, participating in an investigation or disciplinary proceeding, or otherwise making use of the Disciplinary Procedures.
f. Attempting to influence the impartiality of a member of a Conduct Board prior to, and/or during the course of, the Conduct Board proceeding.
g. Attempting to harass (verbal or physical) and/or intimidate a member of a Conduct Board prior to, during, and/or after a disciplinary proceeding for purposes of disruption of the conduct process.
h. Failing to comply with the University response(s) imposed under the Student Code.

18. Sexual misconduct or any other unwelcome sexual, sex based, or gender-based conduct which includes, but is not limited to:
   a. Sexual assault;
   b. Sexual harassment;
   c. Dating violence;
   d. Domestic violence;
   e. Stalking or;
   f. Sexual exploitation
   g. Sexual harassment under Title IX.

The definitions of terms in 18(a-g) appear in Board of Regent Policy 2.1.8. and Executive Memorandum No. 38. All allegations of sexual misconduct, including sexual assault, sexual harassment, sexual violence, dating violence, domestic violence, stalking and sexual exploitation are investigated and addressed following the procedures set forth in the University of Nebraska Response to Allegations of Student Sexual Misconduct, adopted pursuant to Executive Memorandum No. 38.

C. Exception for Seeking Emergency Help

Students should seek emergency help for themselves or other individuals if they have been drinking alcohol or using illegal drugs and suffer a physical injury or have problems functioning.

Those problems include difficulty walking, talking, breathing, or staying conscious. They also include being mentally confused, having a seizure, or being cold or pale. Students have died from alcohol poisoning and drug overdoses. Students should seek emergency assistance by contacting 911.

The University will not take disciplinary action against students for using or possessing alcohol, if the use or possession was part of the incident for which they received emergency help or sought emergency help for another person, or if they were involved in the care of that person. The University will not take disciplinary action against students for using or possessing illegal drugs or unauthorized prescription drugs if the use or possession was part of the incident for which they received emergency help or sought emergency help for another person, or they were in the immediate vicinity of that person.

The Conduct Officer will determine if the student is eligible for this exception after meeting with the student. Students may still be charged by law enforcement officials for violations of federal, state, or local laws. Additionally, the policy is not a means to excuse students from other violations of the Student Code.

As a condition of not taking action against them, however, the University may require students to meet with a Conduct Officer and to participate in an alcohol or drug educational program that is designed to help increase their awareness of their alcohol or drug-related behavior.

D. Responsibility of Student Organizations

1. A student organization is responsible for conduct that the organization engaged in, facilitated, or authorized, whether expressly or impliedly. Whether an organization engaged in, facilitated, or authorized conduct is a factual question that requires an evaluation of the totality of the circumstances to determine whether it is fair and reasonable to hold the organization itself responsible. The relevant circumstances include, but are not limited to, the following:
   a. Whether the conduct was planned, approved, or engaged in by one or more officers or authorized representatives of the organization who were acting in their capacities as officers or authorized representatives.
   b. Whether the conduct was the result of a policy or practice of the organization.
   c. Whether a significant number of members were involved or engaged in the conduct.
   d. Whether the conduct occurred at or in connection with an activity or event funded, sponsored, publicized, or advertised by the organization.
   e. Whether the conduct occurred at a location over which the organization had control at the time of the conduct.
   f. Whether the conduct occurred at an event that reasonable people would associate with the organization.
   g. Whether the officers or authorized representatives of the organization could have reasonably foreseen that the conduct could occur and, if so, whether they failed to take reasonable steps to prevent the conduct.
   h. Whether the conduct is attributable to the organization under the organization's own policies, including local or national risk management guidelines.

SECTION III

University Responses to Violations of the Standards

If a student or student organization is found to be responsible for a violation of the Standards, the University’s response may involve requirements designed to educate the student about the risks of the conduct, to assist the student in refraining from the conduct in the future, or to protect others. The University’s response may also involve sanctions to the student or the student organization for engaging in the conduct and to deter the student or student organization from engaging in the conduct in the future.

A. University’s Response

1. The University’s response may include one (1) or more of the following:
   a. Written Warning
      i. This is a warning by a Hearing Officer or the University Conduct Board that the student receiving the warning committed a violation of the Standards and that future violations may result in a harsher response.
      ii. The warning may also include advice on steps that the student may take to avoid future violations.
   b. Probation for a specified period of time
      i. Probation may include conditions that must be satisfied.
      ii. The conditions must be reasonably related to the violation or the reasons for the violation.
      1. Examples of conditions for students include the completion of educational programs and behavioral evaluations.
      2. Examples of conditions for student organizations include completing educational programs and adopting policies
and procedures to minimize the risk of the wrongful conduct occurring in the future. Other examples include not engaging in specified recruitment practices holding specified events, or participating in specified events.

iii. The failure to satisfy a condition of probation may be treated as an independent violation of the Standards of Responsible Conduct

iv. A violation of the Standards while a student or student organization is on probation may result in a more severe response to the new violation than if the new violation was considered in isolation.

c. Expulsion from University Housing
i. The student is permanently barred from living in or being present on the premises of any University residence hall or housing unit.

d. Suspension from University Housing
i. The student may not live in or be present on the premises of any University residence hall or housing unit for a specified period of time.

ii. Conditions may be imposed on the student returning at the end of the specified period, but any such conditions must be reasonably related to the reasons for the suspension.

e. Mandatory Relocation
i. The student is required to move to a different room, University residence hall, or housing unit.

f. Loss of Privileges for a Specified Period of Time
i. Loss of a privilege to engage in any activity or experience not required to satisfy graduation requirements, including but not limited to:

1. Prohibition or limitation on the use of University electronic resources such as, internet access, email access, computers, or tablets.

2. Prohibition or limitation on the use of University media resources, such as communal televisions, projectors, etc.

3. Prohibition or limitation on the use of University wellness/recreation center equipment.

4. Prohibition or limitation on on-campus dining.

5. Prohibition or limitation on use of on-campus transportation.

6. Prohibition or limitation on use of University purchasing cards or accounts.

7. Prohibition or limitation on use of University keys and/or card access.

8. Prohibition or limitation on the use of personal media devices.

9. Restriction on access to campus.

g. Restitution
i. Requiring the student to return to the owner money or property that the student wrongfully took.

ii. Requiring the student to pay the owner for property destroyed or damaged.

h. Performance of Service to the University Community
i. The service must be reasonable in type and duration.

ii. When possible, the service should be designed to make amends for the violation, to educate the student about the harmful consequences of the violation, or to allow the student to develop their academic or professional skills.

i. Completion of Educational Programs, Assignments, or Behavioral Evaluations that are reasonably related to the violation

These may include, but are not limited to, academic integrity programs, anger management programs, completing presentations or written assignments, substance abuse evaluations, and other such programs and evaluations that are designed to help the student identify and address factors that may have contributed to the violation. Students may be responsible for the costs or fees associated with any such programs or evaluations.

j. Employment Restrictions
i. Prohibition or limitation on University student employment.

k. Revocation of Admission and/or Degree
i. Admission to or a degree awarded from the University may be revoked for fraud, misrepresentation, or other violation of the Standards in obtaining the degree, or for other serious violations committed by a student prior to graduation that may have resulted in suspension or expulsion.

l. Withholding Degree
i. The University may permanently withhold awarding of a degree or withhold the award of a degree pending the completion of Disciplinary Procedures, including the completion of all University responses imposed.

m. No Contact
i. A No Contact order may prohibit, but is not limited to, the following:

1. Approaching one (1) or more specified individuals at any time.

2. Calling one (1) or more specified individuals at any time.

3. Sending via email or by any other means, any communication to one (1) or more specified individuals at any time.

4. Contacting or communicating with one (1) or more specified individuals through a third-party.

ii. If the student subject to the No Contact order believes contact with one (1) or more of the specified individuals is necessary, any such contact must be made through the Student Conduct Office or with the expressed permission of a Conduct Officer.

n. Loss of Status as a Recognized Student Organization
i. The loss may be permanent or for a specified period of time.

ii. Conditions may be imposed on the organization for regaining its status at the end of the specified period, including the condition that the members comply with the Code of Conduct during the specified period.

o. Suspension for a Period of Time
i. Suspension is a temporary separation from the University of Nebraska.

ii. During the suspension period the student is prohibited from entering University property, functions, events, and activities without prior written approval of the Vice Chancellor responsible for student conduct or their designee. The University response may be enforced with a trespass action as necessary.

iii. A notation will be made on the student’s transcript but will be removed after the suspension period ends.

iv. Conditions, including the reapplication for admission, may be imposed on the student returning at the end of the specified period, but any such conditions must be reasonably related to the reasons for the suspension.

p. Expulsion
i. Expulsion is a permanent separation from the University of Nebraska.

ii. An expelled student is precluded from registration, class attendance or participation, and residence on campus.

iii. An expelled student is prohibited from entering University property, functions, events, and activities without prior written approval of the Vice Chancellor responsible for student conduct or their designee. This University response may be enforced with a trespass action as necessary.

iv. A notation will be made on the student’s transcript.
2. If there is a dispute about whether a student or a student organization complied with any of the conditions imposed as part of the response to a violation, the dispute must be resolved at a hearing before a Hearing Officer.

3. The factors relevant to the determination of the appropriate response(s) include, among others, the nature and seriousness of the conduct, the harm that the conduct caused or might have caused, the student’s academic progress or experience, the student or student organization’s acceptance of responsibility for the conduct, the student or student organization’s efforts to conceal or avoid responsibility for the conduct, the student or student organization’s explanations for the conduct, the student or student organization’s prior record of violations, the interests of the University, and the imposition of any sanctions pursuant to procedures other than those authorized by this Code (for example, sanctions imposed by a faculty member or by civil authorities).

SECTION IV

Enforcement of the Standards

A. Definitions

1. University Day. This section contains various deadlines that are stated in days. The term “University Day” means a weekday on which the campus offices are open. Check the academic calendar on the campus website to determine the days on which the campus offices are closed. [link to calendar]

2. E-Mail Address of Record. This section also contains references to the “e-mail address of record.” That term means the student’s University assigned e-mail address. Because important notices may be sent to students by e-mail, it is extremely important that students make sure they check that email regularly.

B. The Persons Involved in Enforcement of the Standards

1. Conduct Officer. A Conduct Officer is responsible for investigating alleged violations of the Standards, for presenting the University’s information and position in hearings, and for exercising the discretion that the Code specifically grants to Conduct Officers. The Conduct Officer may propose administrative resolutions.

2. Hearing Officer. A Hearing Officer has the authority to hear and resolve allegations that a student or student organization violated the Standards and if the Officer determines that a violation occurred, for determining the University’s response. Unless otherwise agreed upon through an administrative resolution, a Hearing Officer may not designate suspension or expulsion as a response to a violation by a student or loss of status as a response to a violation by a student organization. Only the University Conduct Board may do so.

3. University Conduct Board. The University Conduct Board has the authority to hear and resolve charges that a student or a student organization violated the Standards and if the Board determines that a violation occurred, for determining the University’s response. The procedures for selecting the members of the Board and the requirements for a quorum are set out in Section VI.

4. Appeals Officer or Board. An Appeals Officer or Appeals Board may hear appeals authorized by this Code. The procedures for selecting members of the Appeals Board and the requirements for a quorum are set out in Section VI. An appeal heard by the Appeals Board must be heard before an appeals panel of no fewer than three (3) members of the Appeals Board. The appeals panel shall select its own Chair. All members of the appeals panel possess voting privileges.

5. Appointments. Conduct Officers, Hearing Officers, and Appeals Officers are appointed by the Vice Chancellor responsible for student conduct or by their designee. A person may be appointed as a Hearing Officer, Conduct Officer, or Appeals Officer regardless of whether the person is an employee of the University. The person may be appointed for all types of cases or may be appointed for a particular case or type of case. Although a person may be appointed as a Hearing Officer, a Conduct Officer, and an Appeals Officer, the person may only serve as one of those in the same case.

C. Investigating Potential Violations

1. When the University receives information about a potential violation of the Standards, a Conduct Officer may conduct an investigation to determine if there is a reasonable basis to believe that a student or a student organization has engaged in conduct that violates the Standards.

2. In the course of the investigation, the Conduct Officer may contact the student or the officers of the student organization that is the subject of the investigation. Before discussing the alleged violation(s) with the student or officers, the Conduct Officer must state in writing:

   a. that the Conduct Officer is investigating an alleged violation of the Standards;
   b. what the alleged violation is;
   c. that the student or officer is not required to discuss the alleged violation with the Conduct Officer;
   d. that the student or officer has the right to be accompanied by an advisor when the student meets with the Conduct Officer; and
   e. that the student or the organization may choose as the advisor anyone, including an attorney, but that the student or the organization is responsible for any fees that the advisor may charge. The student’s advisor may provide guidance to the student, but may not otherwise directly participate in the conduct process.

3. The Conduct Officer must complete the investigation within thirty (30) University days after written notice about a possible violation was first received by the Conduct Officer. The Vice Chancellor responsible for student conduct or their designee may grant the Conduct Officer extensions of no more than an additional sixty (60) University days if the Conduct Officer applies in writing for an extension within the initial thirty (30) day period and shows that exceptional circumstances exist that warrant an extension of time. More than one (1) extension may be granted.

4. If the Conduct Officer determines that there is not a reasonable basis to believe that the student or student organization violated the Standards, the Conduct Officer should not take any further action in the matter.

5. If the Conduct Officer determines that there is a reasonable basis to believe that student or the student organization engaged in conduct that violates the Standards, the Conduct Officer has the discretion:
   a. to take no further action in the matter;
   b. to seek an administrative resolution of the matter; or
   c. to set the matter for hearing.

   • In exercising discretion, the Conduct Officer should consider all the relevant circumstances, including the nature and seriousness of the alleged violation, any sanctions that may have been imposed pursuant to procedures other than those authorized by this Code (for example, sanctions imposed by a faculty member or by the civil authorities), the past conduct of the student or student organization, the ease or difficulty of proving the alleged violation, the interests of fairness, the interests of those harmed by the alleged violation, and the interests of the University.

6. If the Conduct Officer determines that suspension or expulsion may be an appropriate University response, and unless an administrative resolution is agreed upon, the Conduct Officer must set the matter for hearing before the University Conduct Board. If suspension or expulsion is not a potential University response, the matter will be set before a Hearing Officer unless either the Conduct Officer or the student requests the matter be set before a University Conduct Board.
a. During the week preceding final examinations and the week(s) of final examinations, University breaks, and summer sessions a University Conduct Board may not be available. Accordingly, a Respondent may waive their right to a hearing before a University Conduct Board.

7. A matter that is set for hearing before a University Conduct Board must consist of no fewer than three (3) members of the Conduct Board, at least one (1) of whom must be a faculty member and at least one (1) of whom must be a student. The Chair of the Conduct Board is responsible for conducting the hearing and resolving any procedural and evidentiary issues that may arise. The Conduct Board shall select its own Chair. All members of Conduct Board possess voting privileges.

D. Instituting Proceedings
1. A Conduct Officer institutes a proceeding under this Code by sending a request for an informal meeting, an administrative resolution, or a notice of hearing to a student or student organization. The student or student organization against whom a Code violation has been alleged is referred to as the "Respondent."

2. The request or notice of hearing must be in writing and sent by e-mail to the Respondent's e-mail address of record. If the Respondent is a student organization, the request or notice of hearing must be sent by e-mail to:
   a. one of the officers of the organization at the officer's e-mail address of record, and
   b. the organization's faculty advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter's advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life.

3. The contents of the request are set out below in subsection E. The contents of the notice are set out below in subsection F.

E. Informal Meeting
1. An informal meeting is an opportunity for the Respondent to discuss the alleged misconduct with a Conduct Officer. During an informal meeting, the Conduct Officer may proceed with administrative resolution of a complaint pursuant to Section F(1) if the Conduct Officer determines administrative resolution is appropriate and is accepted by the Respondent.

2. A written request for an informal meeting must inform the Respondent:
   a. that the Conduct Officer intends to address an alleged violation(s) of the Standards;
   b. what the alleged violation(s) is;
   c. that the student or officer is not required to discuss the alleged violation(s) with the Conduct Officer;
   d. that the student or officer has the right to be accompanied by an advisor when the student meets with the Conduct Officer; and
   e. that the student or the organization may choose as the advisor anyone, including an attorney, but that the student or the organization is responsible for any fees that the advisor may charge. The student's advisor may provide guidance to the student, but may not otherwise directly participate in the conduct process. The process shall not be unduly delayed based on the availability of the Respondent's advisor.

F. Administrative Resolutions
1. An administrative resolution is an agreement between the University, through the Conduct Officer, and the Respondent in which:
   a. the Respondent admits the violation and agrees to the response(s) stated in the agreement, or
   b. the Respondent does not admit the violation but agrees to the responses stated in the agreement. If the parties reach an agreement, the agreement must be in writing and signed by the parties. An electronic signature is sufficient.

2. A written request for an administrative resolution must contain:
   a. an explanation of what an administrative resolution is;
   b. a statement of the charge(s) against the Respondent, including the time and place of the alleged violation(s); and
   c. a statement of the response(s) proposed by the Conduct Officer.

The request must also explain what the Respondent must do to accept or reject the proposal and inform the Respondent that the matter may be set for hearing if the Respondent rejects the proposal. If the parties fail to reach an administrative resolution, the Conduct Officer has the discretion to take no further action in the matter or to set the matter for hearing.

3. If the Respondent does not respond to the written request for an administrative resolution within five (5) University days, and unless the University's proposed response is suspension or expulsion, the proposed administrative resolution will be deemed accepted by the Respondent. The Conduct Officer may grant the Respondent an extension of time to respond to the Administrative Resolution, upon the request of the Respondent and at the sole discretion of the Conduct Officer.

4. The Conduct Officer may propose an administrative resolution at any time prior to the beginning of a hearing before a Hearing Officer or the University Conduct Board. A proposal for an administrative resolution that is made after a notice of hearing is sent may be made orally or in writing.

G. Hearings - A hearing is an opportunity for the parties to be heard before a Hearing Officer or the University Conduct Board. A University Conduct Board will hear matters that may result in suspension or expulsion. All other matters will be heard by a single Hearing Officer, unless a University Conduct Board is requested by the Conduct Officer or the Respondent. If a matter is set for a hearing, a written notice of hearing must be sent regardless of whether a written request for an administrative resolution was previously sent.

Notice of Hearing
1. The notice of hearing for a student must contain the following information:
   a. Source of the misconduct complaint(s).
   b. Statement of alleged facts constituting misconduct under the Code or other policy.
   c. Citation of the specific provision(s) of the Code or other policy alleged to have been violated.
   d. Description of the pertinent information (e.g. records, statements, images or other information) to be presented.
   e. Date, time and place of the hearing before the Hearing Officer or Conduct Board. Each hearing shall be scheduled at least five (5) University days after the date the notice has been sent.
   f. A statement that the student or student organization accused of misconduct may be accompanied by legal counsel or other advisor at the hearing before the Conduct Board, to be provided at the expense of the student or student organization, and that such legal counsel or advisor may advise the student or student organization, but may not directly participate in the hearing.
   g. That the student or student organization accused of misconduct is under no obligation to make any statement at the hearing relevant to the alleged misconduct, and that refusal to make a statement will not be considered as an indication of responsibility.
   h. That the student or student organization accused of misconduct has the right to inspect any pertinent information the Conduct Officer intends to present at the hearing, no fewer than five (5) University days prior to the hearing, in the Office of Student Conduct and Community Standards and that the student or student organization will be advised in writing prior to the hearing of any pertinent information subsequently discovered, which the Conduct Officer intends to present at the hearing and given an opportunity to inspect such information.
i. A statement that if the student or student organization intends to present evidence, including witnesses, that information must be provided to the Conduct Officer no fewer than two (2) University days in advance of the hearing.

2. The notice of hearing must be sent at least five (5) University days before the hearing date. The hearing must be held no later than thirty (30) University days after the notice of hearing was sent. The time limits in this paragraph may be lengthened or shortened if the parties agree to do so. The time limits may also be lengthened if one of the parties makes a written request to the Vice Chancellor responsible for student conduct and the Vice Chancellor or their designee determines that there is a good reason for doing so. Under no circumstances may the hearing be held more than sixty (60) University days after the notice of hearing is sent.

Disqualification

1. The notice of hearing must be provided to the Hearing Officer or to the members of the hearing panel at least three (3) University days before the hearing so that the officer or members can decide whether they need to disqualify themselves.

2. Hearing Officers or panel members must disqualify themselves if they believe that they cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the officers or members as being unable to decide the matter fairly and impartially.

3. The name of the Hearing Officer or a list of the names of the members of the hearing panel must be provided to the Respondent at least three (3) University days before the hearing so that the Respondent can decide whether to challenge the Hearing Officer or any member of the hearing panel on grounds of lack of fairness or impartiality. The list of names of the members of the hearing panel must identify the Conduct Board Chair ("the Chair") and must also state the member's status (faculty, staff, or student). The e-mail address of the Hearing Officer or the Chair must also be provided to the Respondent.

4. The Respondent may make a challenge by sending an e-mail to the Conduct Officer and to the Hearing Officer or the Chair in which the Respondent states the factual basis for challenging the impartiality or fairness of the officer or member. The e-mail must be sent no later than two (2) University days before the hearing. The failure to make a timely challenge to the officer or member waives the challenge unless the Respondent shows, as determined by the Vice Chancellor responsible for student conduct or their designee, that there are extraordinary circumstances that excuse the Respondent's failure.

5. If the Respondent challenges the Hearing Officer, the officer must withdraw from the proceeding if the officer believes that the officer cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the officer as being unable to decide the matter fairly and impartially.

6. If the Respondent challenges a member of the hearing panel, the Chair must promptly forward the Respondent's e-mail to the members of the panel. The member who is the subject of the challenge must withdraw from the proceeding if the member believes that the member cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the member as being unable to decide the matter fairly and impartially. If the member does not withdraw from the proceeding, the other members of the hearing panel may disqualify the member if they conclude by a majority vote that the standard for disqualification has been met.

7. If the Hearing Officer withdraws from the proceeding, the hearing must be conducted by a different Hearing Officer and the name of that officer must be promptly provided to the Respondent. If a Conduct Board member withdraws or is disqualified from the proceeding, the member must be replaced by a new Conduct Board member and the name of the new Conduct Board member must be promptly provided to the Respondent.

Pre-hearing Conference

1. Prior to a hearing a pre-hearing conference may be held to answer procedural questions and settle those matters which may be agreeably concluded.

Recording & Conducting the Hearing

1. The electronic or printed items that the Conduct Officer plans to use at the hearing may be made available to the Hearing Officer or Conduct Board for review before the hearing. The Respondent, however, must be given the opportunity to review the items before they are made available to the Hearing Officer or Conduct Board no fewer than five (5) University days in advance of the hearing. Any items that are made available to the Hearing Officer or Conduct Board must be presented as evidence at the hearing. If the Respondent intends to present evidence, including witnesses, that information must be provided to the Conduct Officer no fewer than two (2) University days in advance of the hearing. Any evidence not disclosed within the deadlines set forth in this paragraph will only be considered at the sole discretion of the Hearing Officer or Chair of the Conduct Board. Regents By-Law 5.4(f) provides that the "decision of the [conduct] board must be based solely upon evidence introduced at the hearing."

2. The Conduct Board shall make a confidential verbatim record of each hearing. Such verbatim record shall be made by such method of recording or recording device as the University deems suitable. The recording shall be the property of the University. The Vice Chancellor responsible for student conduct or their designee has the authority to decide which recording means will be used.

3. At the beginning of the hearing, the Hearing Officer or Chair should state for the record:
   a. the date, time, and place; and
   b. their name and role as the Chair or Hearing Officer.

4. If the hearing is before a hearing panel, the Chair should:
   a. have the other members of the Conduct Board identify themselves, and
   b. state whether there is a quorum. If there is not a quorum, then the hearing must be rescheduled unless all parties waive on the recording any objection to the lack of a quorum.

5. The Hearing Officer or Chair should then identify the other persons present, ask the Conduct Officer to read the alleged violation(s), and ask the Respondent if the Respondent admits to the alleged violation(s).

6. The Hearing Officer or Chair must conduct the hearing in a manner that facilitates the presentation of relevant evidence by both the Conduct Officer and the Respondent. Both the Conduct Officer and the Respondent have the right to call witnesses and present their respective cases. The Hearing Officer or Chair has the discretion to allow the use of a question-and-answer format or allow a witness to make an oral statement about what the witness knows about the matter. The Hearing Officer or the members of the hearing panel may then ask questions to clarify what the witness said or to elicit more detailed information.

7. The Hearing Officer or Chair has the discretion to allow the parties to question the witnesses directly or to require the parties to submit suggested questions for the Hearing Officer or Chair to ask. In exercising this discretion, the Hearing Officer or Chair should consider all the relevant circumstances, including whether there is animosity between the Respondent and the witness, whether the charges involve violence, threats, or harassment of the witness by the Respondent, and whether direct questioning would be more efficient or would better enable the Respondent to present their information.

8. The Hearing Officer or Chair has the discretion to:
   a. allow the parties to make opening statements, closing statements, or both, with reasonable time limits;
   b. allow witnesses to testify by videoconferencing technology;
c. require that the witnesses who have not yet testified wait somewhere other than the hearing room until they are called to testify; and

d. schedule separate hearings if charges have been brought against multiple respondents or multiple charges have been brought against a single respondent.

9. The Respondent has the right to be present for the hearing. If the Respondent is a student organization, then one of its officers has the right to be present for the hearing. The hearing is closed to the public.

10. The Conduct Officer has the burden of demonstrating the alleged violation(s) by the greater weight of the evidence. The greater weight of the evidence means evidence sufficient to make the alleged violation(s) more likely true than not true. If the evidence is evenly balanced, or if it weighs in favor of the Respondent, then the Respondent is not responsible for the alleged violation(s).

11. The Conduct Officer will present evidence first, followed by the Respondent. Courtroom rules of evidence do not apply. Evidence may be presented if:
   a. it is relevant to the charges, the University response, or the credibility of the witnesses; and
   b. it is sufficiently reliable that a reasonable person would take it into account in making an important decision. Evidence may be excluded if it merely repeats evidence that has already been presented. The Hearing Officer or Chair will be solely responsible for the determination of the admissibility of evidence.

12. The Respondent’s advisor may not speak on behalf of the Respondent during the hearing and may not directly participate in any aspect of the hearing. The Respondent, however, may consult with the Respondent’s advisor during the hearing. The Hearing Officer or Chair may limit the length and frequency of consultations so that they do not unreasonably delay the hearing or unreasonably interfere with the presentation of evidence.

**Hearing Stages**

1. If the Respondent is present and contests the charge(s), a hearing must be conducted in two (2) stages. At the end of each stage a Conduct Board must go into closed session to deliberate and make its decisions by majority vote. If the Respondent is contesting only the appropriate response, the hearing will move immediately to the second stage.
   a. The first stage is to decide whether the Respondent is responsible for the violation. If the Respondent is a student organization, the Hearing Officer or Conduct Board must also conclude that it is more likely than not that the student organization engaged in, facilitated, or authorized the wrongful conduct, either expressly or impliedly.
      i. If the Hearing Officer or Conduct Board decides that the Respondent is not responsible, the hearing is over.
      b. The second stage is to decide the appropriate response(s). The hearing will move to the second stage only if the Hearing Officer or Conduct Board determines that the Respondent is responsible or if the Respondent admits the charges. The second stage shall be conducted immediately after the Conduct Board decides the Respondent is responsible. Only evidence that is relevant to the issue of the appropriate response(s) may be presented during the second stage.

2. At the conclusion of the hearing, the Conduct Board must go into closed session to deliberate and make its decision. The decision must be made by a majority vote.

3. If the Respondent fails to appear at the hearing, the Hearing Officer or Conduct Board shall proceed with the hearing if the Hearing Officer or a quorum of the hearing panel members are present.

**Notice of Decision**

1. No later than seven (7) University days after the hearing, the Respondent must be notified by letter of the decision(s) and response(s), if any. The letter must inform the Respondent of the right to appeal and include a copy of subsection G. The letter must also inform the Respondent of the name and e-mail address of the person to whom the documents required to appeal must be sent. The person must be the Vice Chancellor responsible for student conduct or their designee.

2. The letter must be sent to the Respondent’s e-mail address of record. If the Respondent is a student organization, then the letter must be sent to one of the officers at the officer’s e-mail address of record and to the organization’s faculty advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter’s advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life.

3. In the case of a crime of violence, the University shall provide to the victim the final results of any institutional disciplinary proceeding against the alleged perpetrator. Crimes of violence include:
   a. arson;
   b. assault offenses;
   c. burglary;
   d. criminal homicide – manslaughter by negligence;
   e. criminal homicide-murder and nonnegligent manslaughter;
   f. destruction, damage or vandalism of property;
   g. kidnapping; and
   h. robbery.

**Effective Date of Response & Request to Suspend Response**

1. The response to a violation takes effect on the day when the letter of decision is sent. The Respondent may request that the response be suspended while the appeal is pending by delivering a letter to the Vice Chancellor responsible for student conduct or their designee no later than five University days after the letter of decision was sent. In the letter, the Respondent should state that they are appealing the decision, explain why the Respondent will be harmed if the response is not suspended, and also explain why suspending the response will not adversely affect the University or other persons. The Respondent should also attach a copy of the letter of decision.

2. The Vice Chancellor or their designee should promptly review the letter and decide whether to grant or deny the request. In making the decision, the Vice Chancellor or their designee should consider whether the harm that the Respondent may suffer if the response is not suspended outweighs the harm that the University and other persons may suffer if the response is suspended. Before making the decision, the Vice Chancellor or their designee may request that the Conduct Officer explain why they believe that the request should be granted or denied.

3. If the request is granted but the Respondent waives their right of appeal, the response will be immediately reinstated. Waiver of the right of appeal is discussed below in subsection H.

**H. Appeals**

1. The Respondent may appeal the decision of the Hearing Officer or University Conduct Board to the Appeals Officer unless the Respondent requests the appeal be heard by an Appeals Board. An appeal by the Respondent is limited to the following grounds:
   a. the evidence presented at the hearing was insufficient to allow a reasonable person to conclude that the charges were more likely true than not;
   b. the response was clearly excessive in light of all the circumstances; or
   c. the Hearing Officer or University Conduct Board failed to follow the procedures and as a result of the failure, there is a substantial likelihood that the decision is wrong.

2. Evidence that was not presented at the hearing may not be considered on appeal. Newly discovered evidence may be grounds for a rehearing. Newly discovered evidence is discussed below in subsection J.
3. In order to appeal, a Respondent must send an e-mail to the person identified in the letter of decision and attach a letter that explains in detail the reasons why the decision should be overturned within ten (10) University days of the date of the letter of decision. A Respondent who does not comply with this section waives the right of appeal.

4. Upon receipt of an appeal the Appeals Officer or Chair of the Appeals Board will correspond with the parties regarding the Respondent’s appeal. The Conduct Officer may send an e-mail to both the Respondent and to the Appeals Officer or Chair and attach a letter that explains in detail the reasons why the decision should or should not be affirmed. The e-mail must be sent by the date specified by the Appeals Officer or Chair in their correspondence.

5. The Appeals Officer or Chair has the discretion to request the Respondent and the Conduct Officer to make an oral presentation. The presentation may be made to the Appeals Officer or the Appeals Board in person, by telephone, or by videoconferencing technology. The Appeals Officer or the Chair should inform the parties beforehand of any time limitations on their presentations and also inform them that the Appeals Officer or any member of the Appeals Board may ask the parties questions during or after their presentations, and that the Respondent’s advisor, if any, may not make a presentation. If there is a presentation, the University will record the presentation and any subsequent questions.

6. The Appeals Officer or Appeals Board must decide the appeal within twenty (20) University days after the receipt of the notice of appeal. Upon notice to the parties, the Appeals Officer or Chair may extend the deadline for the date of the decision letter by up to twenty (20) University days. The decision may affirm the decision being appealed, overturn the decision being appealed and specify that the charges be dismissed or that a new hearing be held, or modify any University response that was clearly excessive. The decision of the Appeals Officer or Appeals Board is final.

7. The Respondent and the Conduct Officer must be notified of the decision by an e-mail sent to the Conduct Officer and the Respondent at their e-mail addresses of record. If the Respondent is a student organization, then the email must be sent to one of the officers at the officer’s e-mail address of record and to the organization’s advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter’s advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life. The letter must inform the Conduct Officer and Respondent that the decision is final.

I. **Effect on Graduation or Transcript Request**

The University may withhold a degree or transcript until conduct proceedings (including appeals) have ended. The University should confer the degree or release the transcript after all investigations and proceedings have ended unless the response to the violation affects the student’s eligibility for the degree (for example, the student is expelled or must complete an educational program prior to receiving the degree).

J. **New Evidence**

1. The Respondent or Conduct Officer may seek a rehearing if the Respondent or Conduct Officer discovers new evidence after the hearing. To obtain a rehearing, the Respondent or Conduct Officer must meet three requirements:
   a. the evidence is in fact new
   b. the evidence could not have been discovered with reasonable diligence before the hearing; and
   c. there is a reasonable basis to believe that the new evidence would have changed the decision(s) and/or response(s).

2. The Respondent or Conduct Officer must explain in a letter to the Vice Chancellor responsible for student conduct or their designee why the three (3) requirements are met. The letter must be emailed to the Vice Chancellor or their designee no later than sixty (60) University days after the letter of decision was sent to the Respondent.

3. If the Vice Chancellor or their designee determines that the requirements have not been met, then the request must be denied.

4. If the Vice Chancellor or their designee determines that the requirements have been met, then a new hearing must be held before a Hearing Officer or Conduct Board. If suspension or expulsion was sought in the original hearing, however, the new hearing must be held before a Conduct Board.

5. The new hearing may be held before the same Hearing Officer or Conduct Board that originally heard the matter or before a different Hearing Officer or Conduct Board. The decision in the new hearing must be based on the recording of the original hearing and the new evidence presented at the new hearing.

6. After the expiration of the sixty-day (60) period, a student who was expelled may seek a rehearing by sending a letter by certified mail to the Vice Chancellor or their designee. In that letter, the student must explain why the three (3) requirements listed above are satisfied and also explain why it would be manifestly unjust not to grant the student a new hearing. The letter must be sent no later than one year after the letter of decision was sent to the student.

7. If the Chancellor or their designee determines that the requirements have not been met, then the request must be denied. The decision of the Chancellor or their designee is final. If the Chancellor determines that the requirements have been satisfied, then a new hearing must be held before a Conduct Board.

**SECTION V - Temporary Suspensions**

A. **Grounds**

1. The Vice Chancellor responsible for student conduct or their designee may temporarily suspend a student if there is credible information that the student’s conduct or presence on campus presents a clear threat to the physical safety of individuals, or is so disruptive that temporary suspension is necessary to preserve the rights of other students to pursue an education. A student may be temporarily suspended for the reasons stated in this paragraph even though the student’s conduct may not violate the Student Code of Conduct or Appendix A to the Code (Response to Allegations of Student Sexual Misconduct).

2. In determining whether to suspend a student temporarily, the Vice Chancellor or their designee should consider whether measures other than suspension would be adequate to address the threat to physical safety or the right of individuals to pursue an education. Those measures include, among others:
   a. requiring the student to leave University Housing or to move to a different room or residence hall;
   b. preventing the student from attending class;
   c. limiting the areas on campus in which the student may be present; and
   d. prohibiting the student from having contact with one or more specified individuals.

3. If one or more of those measures would be adequate, then the Vice Chancellor or their designee should require that they be implemented instead of suspending the student temporarily. A student may request at any time to meet with the Vice Chancellor or their designee to contest the implementation or continued implementation of the measures.

4. If a student is temporarily suspended, the Vice Chancellor or their designee must provide the student with a Notice of Temporary Suspension. The notice must be sent to the student’s e-mail address of record and must:
   a. state the factual basis for the student’s temporary suspension and explain why the student’s conduct or presence on campus presents a clear threat, significant risk, or is so disruptive that temporary suspension is necessary; merely reiterating the language of the Code is insufficient;
b. state that the student has a right to a meeting with the Vice Chancellor or their designee within three (3) University days after the temporary suspension becomes effective to present information to show that the requirements for a temporary suspension have not been satisfied and that the temporary suspension should therefore be lifted;
c. state the time, date, and place of the meeting with the Vice Chancellor or their designee and state that the student may be accompanied by an adult advisor of their choosing, including an attorney, but that the student is responsible for any fees that the advisor may charge;
d. state that after the expiration of the three (3) -day period, a student may seek to have the temporary suspension lifted by making a Request for Reinstatement; and
e. include a copy of Section V of the Code.

5. After the expiration of the three (3) -day period, a student who has been temporarily suspended may seek reinstatement by making a Request for Reinstatement ("the Request") on the ground that:
a. the requirements for a temporary suspension were not met when the student was temporarily suspended and are not currently met, or
b. circumstances have changed such that the requirements for a temporary suspension are no longer met.

6. The Request must be in writing, state the reasons for request, and include the evidence that supports the Request. The Request must be sent to the Vice Chancellor responsible for student conduct or their designee by e-mail or certified mail or may be hand-delivered to the Vice Chancellor’s office.

7. The Vice Chancellor or their designee must make a decision on the Request as soon as reasonably practicable. Before making a decision, the Vice Chancellor or their designee has the discretion to seek additional information, to ask a Conduct Officer to review and comment on the Request, or to schedule a meeting with the student and their advisor.

8. If the temporary suspension was based on alleged conduct that constitutes a violation of the Code and formal proceedings have not been instituted against a student who has been temporarily suspended, proceedings must be instituted within five (5) University days of the effective date of the temporary suspension. The conduct process must be resolved within twenty (20) University days of the effective date of the temporary suspension. The Vice Chancellor or their designee may extend the time limit for the hearing for up to an additional fifteen (15) University days if the parties agree to an extension or if either party establishes that extraordinary circumstances exist that warrant an extension. The Vice Chancellor or their designee may extend the time limit for the hearing for a longer period if the student consents.

9. The fact that a student was temporarily suspended should not be taken into account by the Hearing Officer or Conduct Board in determining whether the student violated the Code.

SECTION VI - Miscellaneous Procedural Matters

A. Inter-Institutional Authority

1. If University students or student organizations engage in conduct that violates the Standards on any University campus or in a course offered by another University campus, the University campuses may enter into an agreement whereby:
   a. the University campuses agree which campus will conduct an investigation in whole or in part, institute formal proceedings, and conduct those proceedings; and
   b. if the proceedings result in the issuance of a University response, which campus will enforce the University response.

B. University Conduct Board Membership and Quorum

1. The Vice Chancellor responsible for student conduct of each University institution will specify the number, qualifications, term, and selection process for members of the University Conduct Board.

2. The Vice Chancellor responsible for student conduct at each University institution must determine whether the institution will have an Appeals Officer, an Appeals Board, or both. If the Vice Chancellor determines that the institution will have an Appeals Board, then the Vice Chancellor for each institution will specify the number, qualifications, term, and selection process for the members of the Board.

3. The Vice Chancellor responsible for student conduct must specify the number of members that a Conduct Board or Appeals Board must have and, if the number is more than three (3), the number that will constitute a quorum.

C. Interpretations of the Code

1. Words in this Code should be given their ordinary meaning unless the context indicates that a different meaning was intended.

2. Any question of interpretation or application of the Code shall be referred to the Vice Chancellor responsible for student conduct or their designee.

D. Amendments

1. The Board of Regents may amend this Code at any time, in whole or in part. There may be times when unexpected issues arise that require prompt action or that involve errors or omissions in the Code. Examples include a change in federal, state, or local law, the adoption of a new Campus or University policy, the repeal of an existing Campus or University policy, the discovery of a drafting error, or the failure to anticipate a particular situation or type of conduct.

2. If an unexpected issue arises, the Code may be amended pursuant to the following procedure:
   a. First, the Provost of the University of Nebraska must approve the amendment.
   b. Second, the General Counsel of the University of Nebraska must approve the amendment.
   c. Third, the amendment must be reported to the Board of Regents at the next regularly scheduled meeting of the Board.

3. The Provost and the General Counsel may approve an amendment only if each of them separately determines that:
   a. the content of the amendment is appropriate and reasonably necessary, and
   b. the subject matter of the amendment either requires prompt action or involves minor changes that correct errors or omissions in a manner consistent with the purpose and scope of the Code. An amendment takes effect when both the Provost and the General Counsel have approved the amendment. The Board has the authority to rescind any such amendment when the amendment is reported to the Board.

E. Effective Date - The provisions of this Code apply to cases in which formal charges are brought after the date on which this Code was approved by the Board of Regents. Amendments to this Code apply to cases in which formal charges are brought after the date that the amendment takes effect.

F. Periodic Review - The University of Nebraska Student Code Conduct will be reviewed at least every four (4) years.

Discrimination and Sexual Harassment Policies

The University of Nebraska at Omaha does not discriminate in its academic, admissions or employment policies and abides by all federal, state, and regental regulations pertaining to the same. The University of Nebraska at Omaha is an affirmative action/equal opportunity institution.
Discrimination Policies

Americans with Disabilities Act (ADA) & Section 504 Grievance Procedure: https://www.unomaha.edu/office-of-equity-access-and-diversity/_docs/grievance-procedure.pdf

Sexual Harassment Policies

The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in the education program or activity that the University operates. The University is required by Title IX of the Education Amendments of 1972 (Title IX) and the accompanying regulations not to discriminate in such a manner. This requirement not to discriminate extends to admission and employment. Inquiries about the application of Title IX and the accompanying regulations may be referred to a University Title IX Coordinator or the Assistant Secretary for Civil Rights of the Department of Education or both.

Beginning with the University of Nebraska charter in 1869, Nebraska law has provided that no person shall be deprived of the privileges of this institution because of sex. Discrimination on the basis of sex is also prohibited by federal law. All members of the University community are expected to conduct themselves in a manner that maintains an environment free from sexual misconduct. Sexual misconduct, which includes domestic violence, dating violence, sexual harassment, sexual assault, sexual exploitation, and stalking, is unacceptable behavior under University of Nebraska policy and against the law. The University of Nebraska has programs to promote awareness of and to help prevent sexual misconduct, and to assist members of the university community who are affected by such behavior.

Graduation

120-Hour Requirement for Undergraduate Degree

The number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. See Degree Completion Guarantee below.

Bachelor’s

An undergraduate degree awarded by a college or university upon successful completion of a program of study. Common degree types include bachelor of arts (B.A. or A.B.), and bachelor of science (B.S.). A bachelor’s is required before starting graduate studies.

Major

A program of courses that meets the requirements for a degree in a particular field of study.

• Majors consist of a minimum of 30 hours of undergraduate or graduate coursework;
• Majors are discipline and content specific with a coherent plan of study;
  (Ensure that the program of study follows the appropriate undergraduate or graduate academic guidelines)
• Majors have limited overlap with other majors;
• Majors provide both depth and breadth within a specific-content area; and
• Majors are not printed on diplomas, but recognized on transcripts.

Concentrations

Are a subset of a major with a limited number of hours required in a focused area.

• Concentrations generally consist of 12-18 undergraduate credit hours or at least 9 graduate credit hours. The BMS concentrations have 30 hours of coursework;
• Concentrations share a core set of requirements for the major;
• Concentrations may overlap with other concentrations within a major;
• Concentrations have some distinct or unique requirements that differentiate from other concentrations or within the major; and
• Concentrations are recognized on transcripts.

Minors

A program of study requiring fewer courses than a major. Some majors require a minor and other majors do not require a minor.

• Minors generally consist of 15-18 hours of undergraduate coursework, must include 9 hours as 3000 level or higher, or 9 hours of graduate coursework;
• Minors provide an opportunity for a secondary set of skills and knowledge in addition to a major;
• Minors cover an area outside of the major; and
• Minors are recognized on transcripts.

Certificates

• Certificates generally consist of 12-18 hours of coursework;
  (Ensure that the program of study follows the appropriate undergraduate or graduate academic guidelines)
• Certificates provide an opportunity for a recognized specific set of skills and knowledge;
• With departmental approval, the certificate coursework may be applied to a graduate or undergraduate degree program; and
• Certificates provide an independent or professional credential that is awarded in addition to, or independently from, a graduate or undergraduate degree.

Degree Completion Guarantee

Board of Regents Resolution

The four-year guarantee for graduation relies on mutual commitment from the student to follow a list of practical guidelines while attending college,
and from the university to ensure that required courses or acceptable alternatives are available.

Students must have appropriate high school preparation, pursue a course of study that is intended for four-year completion and follow these prudent practices:

- Select a major early in college and stay with that major.
- Work closely with academic advisors to develop a four-year curricular plan.
- Sign up early for classes during each semester’s pre-registration period.
- Register for and complete 15-18 credit hours per semester with acceptable grades.
- Work at a job fewer than 20 hours per week.
- When a required course is not available, notify the department chair in a timely fashion.

In turn, the university guarantees the student will be able to enroll in courses that permit graduation in four years. If that is not possible, the university will provide mutually acceptable alternatives or substitutions. Of course, not all students are in a position to graduate in four years. Some may need or prefer to work more hours and attend school part-time, or they may be enrolled in a program that requires more than four years. Others may just choose a different pace or the opportunity to take a wider range of courses that are not directly related to their field of study. This program is designed for those who want to complete their degree program as quickly as possible.

The Four-Year Graduation Guarantee (https://nebraska.edu/offices-polices/provosts-office/academic-affairs/four-year-graduation-guarantee/) was approved by the University of Nebraska Board of Regents in 2002. The program recognizes the importance of Nebraska undergraduate students being able to earn their bachelor’s or first-professional degrees in timely fashion.

Double Major

To pursue a double major, a student only needs to fulfill the college requirements of his/her primary college. The degree awarded will be associated with the major pursued at the primary college. The student will also have to fulfill the university general education curriculum, as well as the major requirements for both subject areas. The student would be awarded one degree (e.g. a BSED) with the double majors (e.g. in Secondary Education and English).

*Note: No additional hours are required if the student can complete the additional major within the minimum hours required for the degree.

Process of Declaring Additional Majors

A student wanting to declare an additional major must first check with the department of the desired major to determine if it is allowed, then the student must complete a Change of Program form (https://www.unomaha.edu/registrar/.forms/ChangeAcademicProgram.pdf) with the appropriate signature and file it with the Office of the University Registrar.

Double Degree ¹

For UNO to award a double degree, a student needs to meet all the college requirements for both degrees. The student also must fulfill the university general education curriculum. In addition, the student must complete at least 30 semester hours in each field and a minimum total of 150 semester hours.

The University awards double degrees to students who are earning different degrees. For example, it is possible for a student to be awarded both a Bachelor of Science (BS) degree with a major in Biology and a Bachelor of Science in Education (BSED) degree with a major in Elementary Education since these are two separate degrees.

The University does not award the same degree twice. For example, it is not possible for a student to be awarded two Bachelor of Science (BS) degrees with majors in Biology and Political Science or two Bachelor of Science in Education (BSED) degrees with majors in Secondary Education and Library Science. Instead, the student would be awarded one BS degree with two respective majors or one BSED degree with two respective majors.

¹ A double degree is not the same as a dual degree. A dual-degree program refers to a specifically approved combination of degree programs.

Candidacy for a Second Baccalaureate Degree

A student who has met the requirements for a baccalaureate degree at the University of Nebraska at Omaha may earn additional, different baccalaureate degrees by completing a minimum of 30 additional semester hours at the University for each additional degree, and by also satisfying all degree requirements for each degree. At the undergraduate level, each degree earned must be unique.

A plan of study for the additional hours, approved by the department head primarily concerned, must be filed in the Office of the Dean of the College offering the degree by the completion of the fifteenth (15th) additional hour. Students must consult an academic advisor prior to starting this program. Two baccalaureate degrees may be awarded simultaneously when the student becomes eligible to receive them.

Application for Degrees

Every student working toward a degree or certificate program at UNO, must apply for their degree in order to receive degree conferral and their diploma. All applications for degree must be filed via MavLINK. Deadlines can be found on the Academic Calendar (https://www.unomaha.edu/registrar/academic-calendar.php). Directions and guidelines on completing this process can be found on the Registrar website at http://registrar.unomaha.edu/graduate.php.

All requirements for graduation must be completed and certification by the appropriate College must be on file in the Office of the University Registrar no later than the close of business on the fifteenth (15th) working day, following the last day of finals for a particular semester. This includes the satisfaction of all grades of Incomplete.

Outstanding Debts and Fees Owed to the University

Diplomas and official transcripts will not be released for students who have outstanding debts or fees owed to the University of Nebraska System. The student is responsible for contacting the Office of Cashiering and Student Accounts at the respective campus to make arrangements to clear his/her account.

Degrees with Honors

The baccalaureate degrees with honors are awarded as follows:

- Cum laude: Have a scholastic average for their entire undergraduate career of 3.51 or above, but below 3.63
- Magna cum laude: Have a scholastic average for their entire undergraduate career of 3.63 or above, but below 3.87
- Summa cum laude: Have a scholastic average for their entire undergraduate career of 3.87 or above
To qualify for honors, a student must have earned at least 60 semester hours within the University of Nebraska system, 30 hours of which must be completed at the University of Nebraska at Omaha and in which letter grades of “A,” “B,” “C,” or “D” are received.

Students who declare Academic Amnesty are not eligible to graduate with honors.

Grades awarded in all courses taken at all colleges and universities attended are included in computing the Grade Point Average (GPA) for determining eligibility for honors. It should be noted that the GPA included on the UNO transcript reflects only courses taken at UNO, UNL, UNMC, and UNK.

**Degrees with Honors Extra Muros**

These degrees are awarded to transfer students who have not completed the required 60 semester hours of credit within the University of Nebraska system required for cum laude, magna cum laude, or summa cum laude honors.

To be eligible for Honors Extra Muros the transfer students must meet both the following standards and requirements:

- Have a minimum of 24 graded credit hours from UNO
- Have a minimum of 77 graded credit hours

If those requirements have been met, baccalaureate degrees with Honors Extra Muros are awarded as follows:

- Cum laude: Have a scholastic average for their entire undergraduate career of 3.51 or above, but below 3.63
- Magna cum laude: Have a scholastic average for their entire undergraduate career of 3.63 or above, but below 3.87
- Summa cum laude: Have a scholastic average for their entire undergraduate career of 3.87 or above

**Attendance at Commencement**

Two commencement ceremonies are held at the University of Nebraska at Omaha during the academic year – one in May and one in December. Academic regalia is required for degree candidates to participate in the ceremony. Students not wearing academic regalia will not be permitted to participate in the ceremony.

**Financing Your Education**

- Office of Financial Support and Scholarships (p. 49)
- Federal Financial Aid Policies (p. 49)

**Office of Financial Support and Scholarships**

The Office of Financial Support and Scholarships is committed to making higher education accessible by minimizing financial barriers for students so they may realize their educational goals. We strive to provide services of the highest quality to support the academic mission and goals of the university and its students.

For information about the various forms of scholarships, grants, work-study and loans, and how to apply:

**Federal Financial Aid Policies**

**Treatment of Title IV Aid When a Student Withdraws**

**Return of Funds Policy for Title IV Aid Recipients Who Withdraw**

The Higher Education Amendments of 1998, as well as the program integrity regulations in 2010, established provisions which may require a certain percentage of federal financial aid (Title IV funds) to be returned to the Department of Education when a student completely withdraws from all classes. When a student is considered to have withdrawn, the University is required to determine the amount of earned and unearned Title IV aid.

Federal financial aid funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws from all courses for any reason – including medical withdrawals – the student may no longer be eligible for the full amount of Title IV funds that they were originally scheduled to receive. If a student has received Title IV financial aid, a refund must be calculated under the Federal Return of Title IV Funds policy. The refunds are based on the number of days attended for the semester, divided by the total number of days in the semester (minus any scheduled breaks of at least five days in length). Funds are deposited back to the financial aid accounts in accordance with federal regulations.

There are three types of withdrawals that fall under the return to Title IV (R2T4) federal calculation regulations:

1. **Official Withdrawals** – student withdraws from all courses through MavLINK or contacts the Office of the University Registrar to initiate an official withdrawal.

2. **Unofficial Withdrawal** – If a student began attendance and has not officially withdrawn fails to earn a grade in at least one course offered over an entire period, the institution must assume, for Title IV purposes, that the student has unofficially withdrawn. UNO grading policy requires faculty to differentiate between two different types of failing grades – either an F (earned failing grade awarded to students who complete the course but fail to achieve the course objectives; and an FW grade (awarded to students who did not officially withdraw from the course, but who failed to participate in course activities through the end of the term). For FW grades, faculty report the last date a student last participated in any academically related activity. This date then becomes the basis for the withdrawal calculation. Therefore, a student cannot avoid the federally required return of Title IV Financial Aid by stopping out of classes but remaining enrolled and taking failing marks.

3. **Modular Withdrawals** – A student does not complete all modules the student was scheduled to attend (modules are classes that do not span an entire semester).

- If a student is enrolled in a standard, term-based program offered in modules and ceases attendance at any point prior to completing the payment period or period of enrollment, unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment, the student is considered a withdrawal for Title IV purposes.

- If written confirmation of future attendance is received from the student but the student does not return as scheduled, the student is considered to have withdrawn from the payment period or period of enrollment and the student's withdrawal date and the total number of calendar days in the payment period or period of enrollment would be the withdrawal date.

date and total number of calendar days that would have applied if the student had not provided written confirmation of future attendance.

How a Withdraw from Class or School Affects Financial Aid

Though your aid is posted to your account at the start of each period, you earn the funds as you complete the period. If you withdraw during your payment period or period of enrollment, the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or your school or parent received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you.

How “Earned” Financial Aid is Calculated

The amount of assistance that you have earned is determined on a pro rata basis. This calculation must be completed within 30 days of the date the school determines that the student has withdrawn. The school is required to return any unearned funds within 45 days. The calculation is completed by the Office of Financial Support and Scholarships. For example, if you completed 25% of your payment period or period of enrollment, you earn 25% of the assistance you were originally scheduled to receive. That means that 75% of the disbursed aid is considered to be “unearned” and must be returned to the federal government. The total number of days used in the calculation will exclude any scheduled breaks of 5 or more days.

Once you have completed more than 60% of the payment period or period of enrollment, you earn all the assistance that you were scheduled to receive for that period.

IMPORTANT: You may receive a partial cancellation of your tuition and fees because of your withdraw. UNO’s refund policy is separate from the federal regulations on repayment of unearned aid. It is possible that financial aid will not cover a student’s balance following the return of funds calculation – even after the tuition and fees cancellation policy has been applied.

What Happens When a Student Fails to Begin Attendance?

Federal regulations require that a procedure be in place to know whether a student has begun attendance in all classes for purposes of the Federal Pell Grant Program. Instructors will be contacted to verify attendance for all Pell Grant recipients if they withdraw from class. The Pell Grant will be recalculated based on the student’s enrollment status to reflect only those classes for which the student actually began attendance. Instructors will also be contacted to verify attendance for Federal Direct Loan recipients if they withdraw from all classes. If a student does not begin attendance in any class in the loan period they will lose eligibility and the Federal Direct Loan will be canceled.

Student Notification of Results of Calculation

Upon completion of the Return of Title IV Funds calculation, students will receive notification indicating the amount of aid that will be returned. UNO will return the required funds on the student’s behalf to the appropriate federal program(s) by charging the student’s account. Students will be able to view the return and any resulting account balance on MoveLink after the return of funds has been processed. The student is responsible for all charges resulting from a Return of Title IV calculation.

Which Funds are Subject to the Return of Funds Calculation?

The Title IV funds that are covered by this law, in order of their required return are:

1. Unsubsidized Direct Loans
2. Subsidized Direct Loans
3. Federal Perkins Loan
4. Direct PLUS Loan
5. Federal Pell Grant
6. Federal Supplemental Educational Opportunity Grant (FSEOG)
7. Federal TEACH Grant
8. Federal Iraq Afghanistan Service Grant

Post-Withdrawal Disbursements

If a student has accepted Title IV, HEA financial aid by the date of the withdrawal, but the financial aid has not disbursed, the student may be eligible for a post-withdrawal disbursement. If the amount disbursed to the student is less than the amount the student earned, and for which the student is otherwise eligible, he or she is eligible to receive a post-withdrawal disbursement for the earned aid that was not received.

Under these circumstances, a R2T4 calculation must be performed to determine whether the student is actually eligible for a post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, the University must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you don’t incur additional debt. The University may automatically use all or a portion of your post-withdrawal disbursement of grant funds for tuition, fees, and room and board charges (as contracted with the school). The University needs your permission to use the post-withdrawal grant disbursement for all other school charges.

Students will be notified of post-withdrawal disbursement eligibility within 30 days of the date of withdrawal determination. The school must return the Title IV funds within 45 days of the date the school determines the student withdrew.

Return of Title IV Funds Procedure

When a student officially, or unofficially withdraws (i.e. quits attending class), during the first 60 percent of the semester, and has received or was eligible to receive federal Title IV funds, the Office of Financial Support and Scholarships is required to perform a Return of Title IV funds calculation. Each semester the Office of Financial Support and Scholarships will review those students who have received, or could have received Title IV assistance, and who have officially withdrawn from all classes.

Additional students who must also be considered are those who have not formally withdrawn, but have stopped attending classes (unofficial withdrawals). UNO grading policy requires faculty to report the last date a student who failed a class participated in any academic activity. Each semester an “All F” report will be run to determine students who have not officially withdrawn, but instead have unofficially withdrawn from all of their classes.

The calculation steps are as follows:

Step One: Establish the withdrawal date and determine how much Title IV aid was earned by the student. The percentage of enrollment period completed by the student is calculated by dividing the number of days a student attended by the total number of days in the semester (percent of aid earned), and then multiplying that percentage by the total amount of Title IV aid disbursed, or could have been disbursed.

Step Two: Determine the Title IV aid to be disbursed to student. If the student received less Title IV aid than earned from step one, a post-withdrawal disbursement may be made. This situation may occur in a case where federal aid was approved, or a loan certified, but not yet disbursed before the student withdrew.

Step Three: Determine the amount of unearned Title IV aid that must be returned by UNO. UNO must return the lesser of the amount of Title IV aid which the student does not earn, or the amount of institutional charges the student incurred for the semester multiplied by the percentage of Title IV aid not earned. Title IV funds that have to be returned by the school will result in
a university obligation to the student. The student will receive a bill from the Cashiering and Student Accounts Office.

Step Four: Determine the amount of unearned Title IV aid to be returned by student. Any federal grant and federal loan funds that are calculated to be returned by the student will be returned by the school so a federal overpayment situation does not result and will be included in the amount billed in step three. The balance of any loan not paid by the school will go into repayment in accordance with the terms of the promissory note.

An aid recipient should contact the Office of Financial Support and Scholarships prior to withdrawal from the University. Upon request, the Office of Financial Support and Scholarships will provide written examples of various return of funds calculations.

Below is an example of the Return of Title IV Funds calculation.

<table>
<thead>
<tr>
<th>Title IV Return of Funds</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Institutional Charges</td>
<td>$5,000</td>
</tr>
<tr>
<td>Title IV Loans</td>
<td>$2,000</td>
</tr>
<tr>
<td>Title IV Grants</td>
<td>$1,000</td>
</tr>
<tr>
<td>Total Title IV aid</td>
<td>$3,000</td>
</tr>
</tbody>
</table>

Student withdrew on 29th day of a 116-day enrollment period.

Percent Earned 29/116 = 25%
Percent Unearned 100% - 25% = 75%

Amount of Title IV aid unearned $3,000 x 75% = $2,250

UNO is responsible for returning the lesser of unearned Title IV aid ($2,250 from above) or unearned institutional charges ($5,000 x 75% = $3,750). UNO will return aid as follows:

- Title IV Loans $2,000
- Title IV Grants $250

Aid the student must personally return - student’s aid is returned on his/her behalf by the school and therefore becomes part of the bill that must be repaid to the school. The balance of student’s loan not paid by the school will go into repayment in accordance with the terms of the promissory note.

**Standards of Satisfactory Academic Progress**

Federal regulations require a student to maintain satisfactory academic progress in the course of study he/she is pursuing in order to receive federal financial assistance. The Satisfactory Academic Progress Policy standards are applied consistently within all institutionally-defined categories of students (undergraduate, master’s and doctoral level students) and enrollment levels (full-time and part-time), regardless of whether the student previously received financial aid.

In order to comply with these regulations, the University of Nebraska at Omaha has established the following Satisfactory Academic Progress (SAP) policy.

**Satisfactory Academic Progress Requirements**

Satisfactory Academic Progress standards are reviewed annually after the final posting of Spring semester grades and apply to a student’s entire academic record. Students returning to UNO following a withdrawal or dismissal will be evaluated upon receipt of the electronic Student Aid Report. To maintain eligibility, you must meet the following criteria:

1. **Grade Point Average (GPA) Standard** You must be in “good academic standing” at UNO. For undergraduates, this is defined as having an earned UNO cumulative GPA of at least 2.00. For graduate students, this is defined as having an earned UNO cumulative GPA of at least 3.00.

2. **Pace of Progress** You must have successfully completed (“D” grade or higher) at least 57% of the total credit hours which you have attempted at UNO, plus any transfer hours accepted from other schools, upon completion of the Spring semester.
   - Grades of Failing (F): No-Credit (NC); No Report (NR);
   - Unsatisfactory (U); Incomplete (I); In Progress (IP); Audit (AU); and Withdraw (W) are considered unsuccessful completion of credit hours attempted. A grade of Failing (F) is used in calculating grade point averages.

3. **Maximum Time to Degree Completion** Undergraduate student must complete degree requirements within 180 attempted credit hours. Master’s degree students must complete degree requirements within 70 credit hours at the graduate level and doctoral students must complete degree requirements within 125 credit hours. For this requirement, students will be suspended from financial aid eligibility if the semester following the semester their attempted hours exceed their limit.

   Attempted hours include both hours attempted at UNO and any transfer hours accepted from other schools you have attended. All credit hours for repeated courses will be included in the attempted hours calculation. Also, if the number of credit hours you still need to graduate, in addition to the number of hours you have already attempted exceeds the maximum attempted hour total above, your aid eligibility will be cancelled.

   A course retaken beyond the first retake of a previously passed course cannot be included in the credit hour total when determining the total number of hours for disbursement of aid. “W” grades are not considered in this retake calculation, even though they are considered in the completion rate calculation in #2 above.

Please be aware of how each of the following affect your GPA and Pace of Progression:

**Impact of earning an incomplete grade:** An incomplete course counts as credit hours attempted but will not count as credit hours completed/earned until a passing grade has been assigned. An incomplete grade such as a withdrawn course can negatively affect a student’s Pace and financial aid eligibility.

**Impact of withdrawing from a course:** Withdrawing from a course counts as credit hours attempted but will not count as credit hours completed/earned. A withdrawn course can negatively affect a student’s Pace and financial aid eligibility.

**Impact of repeating courses on GPA and Pace of Progression:** Repeating a course counts as attempted credit hours for each time the course is taken. If credit is earned (repeats as well), it will also count as completed/earned credit hours in Pace and Maximum Time to Degree Completion calculations. However, a course retaken beyond the first retake of a previously passed course cannot be included in the credit hour total when determining the total number of hours for disbursement of aid.

**Impact of transfer credits on GPA and Pace of Progression:** Only transfer credits accepted by UNO will be counted as both attempted and completed hours.

**Reinstatement of Eligibility**

Students who do not meet one or more of the SAP standards are no longer eligible to receive federal student aid and will be notified by email. Financial aid programs include, but are not limited to, all federal grants, loans and
work-study, state grants, and most University of Nebraska at Omaha need-based grants and scholarships.

If you have incurred circumstances such as a death of a close family member, serious illness or injury to yourself, or other serious extenuating circumstances that you feel have significantly contributed to your academic situation, you may appeal the Grade Point Average Standard or Pace of Progression. **Appeals will not be allowed for maximum credit hour issues or multiple retake issues.**

**Appeal Procedures:**

1. All appeals are completed via your To-Do List in MavLINK.
2. The appeal must provide a full explanation of why the standards were not originally met, and what changes students have made to ensure all SAP standards will be met in future semesters. Supporting documentation is required and can be uploaded via MavLINK after you submit the appeal.
3. No more than three appeals will be allowed per student for his/her entire academic career at UNO.
4. Appeals and supporting documentation must be submitted by the following deadlines: Fall semester by October 1st, Spring semester by March 1st, and Summer semester by July 1st.

**Possible Appeal Outcomes:**

1. **Appeal Denied:** If your appeal is denied, you will receive an email notification as to what steps you can take, if any, to regain aid eligibility.
2. **SAP Probation:** Financial aid eligibility is reinstated for one semester only, with the expectation that all SAP standards will be met after that semester. Upon review, if all SAP standards are not met in this timeframe, students will then become ineligible for aid.
3. **SAP Academic Plan:** In cases where an appeal is approved, but it is not possible to meet all SAP standards in one semester, you will be prescribed an individualized academic plan. You will remain aid eligible as long as you continue to meet the plan requirements. If you cease to meet the plan criteria before you meet the minimum SAP standards, you will become ineligible for aid.

ALL APPEAL DETERMINATIONS BY THE OFFICE OF FINANCIAL SUPPORT & SCHOLARSHIPS ARE FINAL.

**Veteran Standards of Progress Policy**

A veteran and/or eligible person must make satisfactory progress toward an approved educational objective. Standard of Progress will be determined utilizing the Satisfactory Academic Progress policy as listed in the college catalog consisting of overall grade point average, pace, program length, maximum time for completion, attendance and/or conduct.

**Tuition and Fees**

- Tuition and Fees (p. 52)
- Residency for Tuition Purposes (p. 54)

**Tuition and Fees**

**Tuition, Fees, Refunds, and Deposits Deadlines**

Tuition and fees for the fall and spring semesters are payable in full on Sept. 23 (fall semester) and Feb. 23 (spring semester). Please see the schedule below for approximate billing dates and due dates. Each time a student fails to meet a payment due date, a Late Payment Fee (https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/late-payment-fees.php) will be assessed to the tuition account. Note: Failure to receive the billing notice will not excuse the student from payment responsibility, nor the late payment penalties. Students may review their tuition and fees account using MavLINK or on Cashiering and Student Accounts website (http://cashiering.unomaha.edu/).

UNO accepts major credit cards for payment of tuition and fees online only. Credit card payments may be made via MavLINK and are subject to a 2.75% convenience fee on domestic credit cards and 4.25% on international credit cards. Payments by check, cashier’s check, or money order may be mailed to the Cashiering and Student Accounts Office, 109 Eppley Administration Building, 6001 Dodge Street, Omaha, NE 68182. When mailing, please use the remittance form on the tuition and fees statement. Payments of cash, check, money order, or cashier’s check may also be brought to the Cashiering and Student Accounts Office during regular business hours or deposited in the after-hours drop box located outside of the office.

**Fall Semester**

- For students who register March through the first week of the semester:
  
  **Bill Date:** end of August

  **Tuition Due:** Sept. 23

  **Spring Semester**

- For students who register November through the first week of the semester:

  **Bill Date:** end of January

  **Tuition Due:** Feb. 23

**Summer Sessions**

Students will be billed at the end of each month through July for their summer registrations. Tuition and fees will be due and payable in full by the 23rd of each month.

Students who fail to pay tuition and fees by the due date will be assessed a Late Payment Fee.

Failure to make payment on an account will prohibit registration for future semesters. If an account remains unpaid, it may be forwarded to a collection agency.

Students waiting until after the initial due date for payment of tuition and fees to register or add courses will be required to pay the late registration fee and the late payment fees retroactively.

Failure to pay tuition or fees when due, or to meet payments on loans when due, may result in cancellation of registration, legal action, collection efforts and withholding of transcripts. Outstanding financial obligations from previous semesters must be paid prior to registration. Failure to do so will prohibit registration for future semesters.

The university reserves the right to change the amount of tuition or fees at any time and to assess charges for laboratory/special instructional fees, breakage, lost property, fines, penalties, parking, books, supplies, food or special services not listed in this schedule.

**Application Fee**

The application fee is payable at the time the application for admission form is filed. This fee is non-refundable and does not apply toward tuition or any other fee. Residency for the purpose of assessing tuition is determined by the status of the applicant at the time the application for admission is filed.
The undergraduate application fee is not applicable toward the graduate application fee and vice versa.

**Undergraduate Application Fee**
Application Fee $45.00

**Graduate Application Fee (Graduate College)**
Application Fee $45.00

---

**Tuition**
Tuition rates are established by the Board of Regents. Tuition is subject to change. Tuition charges are assessed per credit hour.

---

**Audit Fees**
The audit fee is set at one-half of the resident undergraduate or graduate tuition rate. The audit tuition rate is effective only during the first week of the semester. In addition, students registering for audit must pay all student fees. Registration for audit requires the permission of the instructor and is subject to available class space after credit registration ends. Students who register to take a course for credit and who later change to audit registration will be required to pay the full resident or non-resident tuition rate. Audit fees are refundable in accordance with the Tuition Refund Schedule.

---

**Refund Schedule**
Students who drop one or more courses or who completely withdraw will be obligated to the university for that portion of tuition cost based on the refund schedule. Students who completely withdraw are obligated to pay the non-refundable portion of tuition and fees for the course(s) from which they are withdrawing. Refunds are computed from the date application is received by the Registrar, not from the date of withdrawal of classes.

See Withdrawal from Classes policy. Only tuition, technology and library per credit fees are refunded. The UPF flat fee is non-refundable. No other fees are refundable after the first week of classes. Trip fees may not be refundable after a certain point. Please check with the department sponsoring the trip for refundability timelines, otherwise for all other fees, please refer to the fee schedule.

Students are not relieved from the payment of tuition and fees if they withdraw before a tuition due date, or if payment of tuition and fees has been extended by the Office of Financial Support and Scholarships. Students who have received financial aid are subject to special refund rules as established by the U.S. Department of Education. A financial aid recipient should first contact the Office of Financial Support and Scholarships prior to any official withdrawal from the university to ensure he or she fully understands the financial implications of withdrawal.

Failure to make payment will prohibit registration for future semesters and the release of academic transcripts. If an account remains unpaid, it may be forwarded to a collection agency.

**Regular Semester**
Before the first official day of the semester, 100 percent refunded.
First week of classes, 100 percent refunded.
Second week of classes, 75 percent refunded.
Third week of classes, 50 percent refunded.
Fourth week of classes, 25 percent refunded.
Fifth week of classes, 0 percent refunded.

**Summer Sessions (5 and 6 weeks)**
Before first official day of semester, 100 percent refunded.
First three days of classes, 100 percent refunded.
Remainder of first week, 50 percent refunded.
Second week of classes, 25 percent refunded.
Third week of classes, 0 percent refunded.

**Summer Evening and Special Contracts (7 and 8 weeks)**
Before first official day of semester, 100 percent refunded.
First three days of classes, 100 percent refunded.
Remainder of first week, 75 percent refunded.
Second week of classes, 50 percent refunded.
Third week of classes, 25 percent refunded.
Fourth week of classes, 0 percent refunded.

Courses that run less than ten weeks have unique refund schedules. Students considering withdrawal from such a course should check with the Office of the University Registrar for the applicable refund schedule.

---

**University and Student Fees**
Fees rates listed are for the 2021-2022 academic year and are subject to change.

Residency for Tuition Purposes

Regulations for Determination of Residence for Tuition Purposes
Residency requirements are subject to change by the Board of Regents and/or the Nebraska State Legislature.

Preamble
Pursuant to Article VII, Section 10 of the Constitution of the State of Nebraska, and Neb. Rev. Stat., 85-501 and 85-502, the University has been authorized to develop regulations and make determinations regarding Nebraska residency for tuition purposes. These regulations provide the bases upon which university staff shall determine, on a uniform intercampus basis, whether an individual qualifies as a Nebraska resident for tuition purposes.

It should be emphasized that the statutes provide a set of minimum standards which will govern a determination of resident status for tuition purposes only. In some instances, it will be possible that an individual may qualify as a "resident" of Nebraska for one purpose (such as securing a Nebraska driver’s license) and still not meet the standards established by the Board of Regents for resident tuition status. Individuals seeking a Nebraska residency determination for tuition purposes should, therefore, carefully study all aspects of the law and these regulations before seeking resident tuition status.

Applying for Residence Classification for Tuition Purposes
The statutes of Nebraska provide that all state educational institutions shall charge nonresident tuition for each nonresident of Nebraska who matriculates at any state institution. Nonresident status is determined in accordance with these statutes and current institutional policies, and is based upon evidence provided in the application for admission and related documents. Additional written documents, affidavits, verification, or other evidence may be required as deemed necessary to establish the status of any applicant. The burden of establishing exemption from nonresident tuition is the responsibility of the student. Erroneous classification as a resident or willful evasion of nonresident tuition may result in disciplinary action as well as payment of required tuition for each semester attended.

Individuals seeking to establish resident status for tuition purposes will be required to have established a home in Nebraska for at least 12 months unless it is not required by the specific category listed on the residency application form. However, any individual who has moved to Nebraska primarily to enroll in a post-secondary institution in Nebraska will be considered a nonresident for tuition purposes for the duration of his/her attendance. Enrolling more than halftime for any term at a university, college, or community college in Nebraska during the 12 months immediately preceding the term or semester for which residence status is sought, will be considered as strong evidence that an individual moved to Nebraska primarily to enroll in a post-secondary institution in Nebraska. Students who have been classified as a nonresident and feel they qualify for resident status should review the "Application for Residence Classification for Tuition Purposes" and submit both the application and supporting documentation by the deadline noted within the application.

Nebraska State Income Tax Credit
Individuals who do not qualify for resident tuition status and/or reside outside of Nebraska but pay Nebraska income tax, and the spouses or dependents of such individuals, are entitled to tuition credit upon documented evidence of such payment to the State. The tuition credit granted shall equal up to the amount of Nebraska income tax paid for the immediately preceding calendar year except that the remaining obligation cannot be less than the amount of the resident tuition.

Applications for the Non-Resident Nebraska Income Tax Tuition Credit are available at UNO’s Cashiering and Student Accounts Office, 109 Eppley Administration Building, 402.554.2324. Additionally, the form can be downloaded from the Cashiering and Student Accounts website (https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tax-information/). Specific qualifications and guidelines regarding the tax credit are provided on the applications.

Midwest Student Exchange Program
The University of Nebraska at Omaha (UNO) participates in the Midwest Student Exchange Program (MSEP), an interstate initiative established by the Midwestern Higher Education Compact (https://www.mhec.org/) to increase educational opportunities for students in its member states. This program serves residents from Indiana, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Ohio, and Wisconsin.

Graduate students: The MSEP program enables residents from these states to enroll at reduced tuition rates. Students may review eligibility requirements/guidelines and complete the MSEP Agreement Form (https://www.unomaha.edu/graduate-studies/financing-your-degree/midwest-student-exchange-program.php)

Undergraduate students: Those who are academically qualified are awarded scholarships to help offset the costs of out-of-state tuition. For more information visit the UNO Advantage Scholarship (https://www.unomaha.edu/admissions/financial-support-and-scholarships/types-of-aid/scholarships/uno.php?advantage).

Metropolitan Advantage Program (MAP) Tuition Reduction Program for Eligible Iowa Students
Eligible students include current residents and/or graduates of high schools within specific Iowa counties who meet UNO’s admission requirements. The following counties are currently eligible for the Metropolitan Advantage Program: Cass, Crawford, Fremont, Harrison, Mills, Monona, Montgomery, Page, Pottawattamie, Shelby, and Woodbury. International students on a visa are not eligible for Metropolitan Advantage Program rates. Additionally, these rates are not applicable toward distance education (online) courses.

Undergraduate students: Transfer students who are currently full-time and residing on one of the Iowa community college campuses may be eligible. In addition to Metropolitan Advantage Program, a student may be eligible for the UNO Advantage Scholarship. Please visit the website (https://www.unomaha.edu/admissions/financial-support-and-scholarships/types-of-aid/scholarships/uno.php?advantage) for more information.

Graduate Students
General Education Curriculum

University General Education Requirements

To ensure that each graduate of UNO possesses certain academic skills, experiences the breadth of a liberal education and develops an appreciation for the diversity that exists in the nation and world, the faculty have adopted University general education requirements. The requirements apply to all incoming first-year and transfer students. Students enrolled in UNL-administered programs should contact their advisors to determine the applicable requirements.

Learn more (https://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/a-b-agreements.php) about Institution-Wide General Education Agreements, Community College General Education Guides, and Program-Specific Transfer Agreements by Institution.

Choice of Catalog Policy

Students will be required to complete the General Education requirements outlined in the catalog year in which the student enters the University. The General Education requirements for those students who do not enroll for one consecutive academic year will be updated to the catalog year in which the student re-enrolls at the University.

The University General Education Curriculum consists of:

- Fundamental Academic Skills (p. 55)
- Distribution Requirements (p. 56)
- Diversity Requirements (p. 56)

Some diversity courses may simultaneously count toward Humanities/Fine Arts and Social Science general education requirements.

UNO has 5 Academic Focus Areas These help organize UNO’s many different academic majors and general education courses into broadly related, interdisciplinary fields of study. These can help you identify academic majors and general education courses most relevant to you given your specific strengths and interests.

**Students must earn a grade of C- or better for the course to count toward general education completion.

Learn more (http://www.unomaha.edu/general-education/approved-courses/) about the approved general education courses.

Fundamental Academic Skills

Fundamental Academic Skills (15 Hours Total)

Proficiency in reading, quantitative skills, and written/oral expression are essential for professional success and effective citizenship. The courses in fundamental academic skills are designed to provide the foundation for advanced academic study.

English and Writing:

9 Hours

Nine hours, to include ENGL 1150/ENGL 1154 and ENGL 1160/ENGL 1164 and one additional three-hour Single Writing Instruction course or a minimum of three (3) writing intensive courses that contains multiple writing assignments and written instruction. Writing in the Discipline course(s) are determined by the student’s major. Students must “test out” of ENGL 1150/ENGL 1154 and/or ENGL 1160/ENGL 1164. Contact the Department of English for more information.

The work of the university is to construct and share knowledge. Because this work is done largely by means of the written word, it is important for students to gain control over written language. Proficiency in reading, research, and written expression is essential for professional success and effective citizenship. The foundational writing courses (Composition I and Composition II) provide instruction in general academic literacy while writing in the discipline course(s), preferably taken in the student’s major, introduce research and language practices specific to the disciplines.

After completing Composition I, successful students shall be able to do the following:

- Closely read, critically interpret, evaluate, and respond to other writers’ texts;
- Write papers with a clear thesis, logical structure, and cohesive, well-developed paragraphs;
- Write papers with clear, varied, well-constructed sentences, with usage and mechanics conforming to standard edited English; and
- Demonstrate an understanding of writing as a complex, recursive process whereby ideas are explored, developed, and communicated to a particular audience for a particular purpose.

After completing Composition II, successful students shall be able to do the following:

- Demonstrate further development of the writing skills learned in Composition I;
- Locate and evaluate information in print and electronic sources and integrate the information into their own texts, citing the sources appropriately;
- Analyze arguments in other writers’ texts; and
- Craft well-informed, carefully reasoned arguments of their own, using the genre appropriate for the rhetorical context (e.g. position paper, proposal, evaluation).

After completing the writing in the discipline course(s), students shall be able to do the following:

- Demonstrate further development of the writing skills learned in foundational composition courses;
- Engage in the major discipline’s research practices, using the databases, bibliographies, and documentation conventions appropriate to the discipline;
- Use the writing strategies and genres expected in the relevant academic and professional communities; and
- Demonstrate command of the major discipline’s discourse practices, vocabulary, and style.

Note: Consult with an advisor in your major to determine the appropriate writing in the discipline course(s).
Distribution Requirements

Distribution Requirements (25 Hours Total)

Beyond the fundamental academic skills, courses within the distribution requirements provide students with the opportunity to: 1) understand, analyze, and explore the human condition; 2) understand the complex dynamics that make up the world particularly the challenges, problems, and factors that lead to social stability and change as essential for contributing to and living in contemporary society; and 3) understand the nature of scientific inquiry and the operation of the natural, physical and technological world for making personal and public policy decisions.

Quantitative Literacy:
3 Hours

Students must complete one of the following 3-credit hour courses – MATH 1120, MATH 1130, MATH 1220, STAT 1100 or STAT 1530

Quantitative Literacy involves using mathematical, computational, or statistical methods, with significant applications across a wide variety of disciplines. It emphasizes the process of formulating, solving, interpreting, and applying equations of different types to solve many different real-world problems.

Successful students shall be able to do the following:

• Solve real-world problems;
• Draw inferences based on a set of data or quantitative information; and
• Justify conclusions derived from quantitative information

All students will still be required to meet any additional math requirement and/or math prerequisites in their program of study, and are highly encouraged to consult with their academic advisor before enrolling in a particular course.

Students are considered proficient in meeting their general education Quantitative Literacy requirement if they have an ACT MATH score of 23 or higher or an SAT MATH score of 540 or higher or SAT2016 of 570 or higher. Click here (https://www.unomaha.edu/college-of-arts-and-sciences/mathematics/academics/advising/ug-advising/?placement) for additional information about how Math courses can fulfill Quantitative Literacy requirements, and for information about Math placement exams. Placement exams are designed to help ensure that you are in the correct course based on your academic skill level.

Public Speaking:
3 Hours

Students must complete one of the following 3-credit hour courses – CMST 1110 or CMST 2120. Students may “test out” of CMST 1110. Contact the School of Communication for more information.

The goal of the public speaking requirement is to help students acquire the knowledge and skills needed for effective oral communication in academic, career or community life.

Successful students shall be able to do the following:

• Create and develop messages demonstrating effective audience analysis and adaptation;
• Create and develop messages demonstrating effective information gathering, analysis, and evaluation;
• Create and deliver messages demonstrating effective organizational development and use of supporting materials from credible sources; and
• Present appropriate messages, including effective use of language, nonverbal delivery, and visual information/technology.

Humanities/Fine Arts:
9 Hours from at Least Two Disciplines

The humanities and fine arts seek to help students understand, analyze, and explore the human condition. Studying the humanities and fine arts thus contributes to personal growth and well-being as well as to living in and contributing to various communities.

Successful students shall be able to do the following:

• Demonstrating knowledge of the human condition using discipline appropriate criteria;
• Respond to the human condition using discipline specific criteria;
• Explaining how context (historical, cultural, etc.) influences the creation or interpretation of the topic of study.

Social Sciences:
9 Hours from at Least Two Different Disciplines

Understanding the complex dynamics that make up the world, particularly the challenges, problems, and factors that lead to social stability and change is essential for contributing to and living in contemporary society.

Successful students shall be able to do the following:

• Describing signature ideas, concepts, theories, or perspectives using the language of the discipline;
• Analyzing Implications, conclusions, or consequences of a particular issue relevant to the discipline
• Evaluating evidence of truth-claims;

Many of the courses within the distribution requirements can also be used to satisfy the diversity requirement.

Diversity Requirements

Diversity Requirements (6 hours total with 3 credit hours in each of the following areas)

A general education requires exposure to cultures and institutions around the world, as well as within one’s own society, in order to promote intellectual flexibility, cultural understanding, and informed citizenship. The university seeks to foster cultural understanding to assist its students to become responsible citizens in a diverse world.

Natural and Physical Sciences:
7 Hours from at least Two Different Disciplines with One Lab

Understanding the nature of scientific inquiry and the operation of the natural, physical, and technological world is essential for making personal and public policy decisions.

Successful students shall be able to do the following:

• Identifying appropriate methods to solve problems related to various natural/physical phenomena
• Synthesizing evidence using discipline specific criteria;
• Drawing conclusions, limitations, and/or implications related to the phenomena being investigated

Distribution Requirements

Distribution Requirements (25 Hours Total)

Beyond the fundamental academic skills, courses within the distribution requirements provide students with the opportunity to: 1) understand, analyze, and explore the human condition; 2) understand the complex dynamics that make up the world particularly the challenges, problems and factors that lead to social stability and change as essential for contributing to and living in contemporary society; and 3) understand the nature of scientific inquiry and the operation of the natural, physical and technological world for making personal and public policy decisions.

Quantitative Literacy:
3 Hours

Students must complete one of the following 3-credit hour courses – MATH 1120, MATH 1130, MATH 1220, STAT 1100 or STAT 1530

Quantitative Literacy involves using mathematical, computational, or statistical methods, with significant applications across a wide variety of disciplines. It emphasizes the process of formulating, solving, interpreting, and applying equations of different types to solve many different real-world problems.

Successful students shall be able to do the following:

• Solve real-world problems;
• Draw inferences based on a set of data or quantitative information; and
• Justify conclusions derived from quantitative information

All students will still be required to meet any additional math requirement and/or math prerequisites in their program of study, and are highly encouraged to consult with their academic advisor before enrolling in a particular course.

Students are considered proficient in meeting their general education Quantitative Literacy requirement if they have an ACT MATH score of 23 or higher or an SAT MATH score of 540 or higher or SAT2016 of 570 or higher. Click here (https://www.unomaha.edu/college-of-arts-and-sciences/mathematics/academics/advising/ug-advising/?placement) for additional information about how Math courses can fulfill Quantitative Literacy requirements, and for information about Math placement exams. Placement exams are designed to help ensure that you are in the correct course based on your academic skill level.

Public Speaking:
3 Hours

Students must complete one of the following 3-credit hour courses – CMST 1110 or CMST 2120. Students may “test out” of CMST 1110. Contact the School of Communication for more information.

The goal of the public speaking requirement is to help students acquire the knowledge and skills needed for effective oral communication in academic, career or community life.

Successful students shall be able to do the following:

• Create and develop messages demonstrating effective audience analysis and adaptation;
• Create and develop messages demonstrating effective information gathering, analysis, and evaluation;
• Create and deliver messages demonstrating effective organizational development and use of supporting materials from credible sources; and
• Present appropriate messages, including effective use of language, nonverbal delivery, and visual information/technology.

Humanities/Fine Arts:
9 Hours from at Least Two Disciplines

The humanities and fine arts seek to help students understand, analyze, and explore the human condition. Studying the humanities and fine arts thus contributes to personal growth and well-being as well as to living in and contributing to various communities.

Successful students shall be able to do the following:

• Demonstrating knowledge of the human condition using discipline appropriate criteria;
• Respond to the human condition using discipline specific criteria;
• Explaining how context (historical, cultural, etc.) influences the creation or interpretation of the topic of study.

Social Sciences:
9 Hours from at Least Two Different Disciplines

Understanding the complex dynamics that make up the world, particularly the challenges, problems, and factors that lead to social stability and change is essential for contributing to and living in contemporary society.

Successful students shall be able to do the following:

• Describing signature ideas, concepts, theories, or perspectives using the language of the discipline;
• Analyzing Implications, conclusions, or consequences of a particular issue relevant to the discipline
• Evaluating evidence of truth-claims;

Many of the courses within the distribution requirements can also be used to satisfy the diversity requirement.

Diversity Requirements

Diversity Requirements (6 hours total with 3 credit hours in each of the following areas)

A general education requires exposure to cultures and institutions around the world, as well as within one’s own society, in order to promote intellectual flexibility, cultural understanding, and informed citizenship. The university seeks to foster cultural understanding to assist its students to become responsible citizens in a diverse world.
U.S. Diversity:  
**3 Hours**

Courses in this category focus on significant cultural, economic, historical, political, and/or sociological aspects of one or more underrepresented groups in the United States.

Successful students shall be able to do the following:

- Demonstrate knowledge of the role and contributions of one or more underrepresented groups in the development of the United States;
- Demonstrate specific knowledge of cultural, historical, social, economic, and/or political factors that shape aspects of one or more diverse groups;
- Recognize and articulate differences, expectations, and/or challenges experienced by one or more underrepresented groups; and
- Explain ways in which identity is developed and how it is transmitted within and by members of the group or groups.

Global Diversity:  
**3 Hours**

Courses in this category focus on significant cultural, economic, geographical, historical, political, and/or sociological aspects of one or more countries or nations (including indigenous nations) other than or in comparison to the United States.

Successful students shall be able to do the following:

- Recognize the cultural, historical, social, economic, and/or political circumstances that produce different social and cultural systems;
- Demonstrate specific knowledge of the cultural, historical, social, economic, and/or political aspects of one or more countries or nations other than the United States;
- Explain the interrelations among global economic, political, environmental and/or social systems; and
- Explain ways in which identity is developed and how it is transmitted within and by members of the group or groups.

NOTE: Many of the courses within the diversity requirements can be used to satisfy the distribution requirement.

Community Engagement Opportunities

As a UNO student, community engagement activities provide you with diverse ways to achieve your education while building your resume and networking in the community. Some examples include volunteering, taking a class that brings you out into the community to complete your coursework, capstone projects and research involving a community organization, and much more.

Office of Civic and Social Responsibility

The Office of Civic and Social Responsibility (OCSR) is dedicated to developing engaged, civic-minded citizens and leaders for our communities. UNO believes service and engagement are vital components for the educational development of all students and for a sustainable, healthy community. Learn more on the Civic and Social Responsibility website (https://www.unomaha.edu/student-life/civic-and-social-responsibility/).

Service Learning Academy

Service learning is an experiential, collaborative method of teaching that incorporates community projects that promote academic learning. These projects are directly linked to academic curriculum and meet community-identified needs while engaging students in their community and provide real-world context to coursework. As such, service learning course "classrooms" often exist in the community and engage community partners as co-teachers. Throughout the course students reflect on their experiences, consider the relationship to their reading and research, relevance to community growth, and impact on their personal values, development, and professional skills.

Every semester, there are a variety of courses in all UNO colleges that use service learning as a method of instruction. By choosing a service learning course, students are able to:

- Apply textbook knowledge to the real world and engage with homework
- Use and develop strengths
- Discover new skills & talents
- Explore their leadership style
- Learn to communicate with others and work in teams
- Sharpen skills that employers want such as problem solving, critical thinking, innovation, and creativity
- Explore the assets in the community
- Build their résumé

To search for service learning courses, choose service learning under the Program tab in the class search function.

To explore service learning course options and project examples, please visit the Service Learning Academy (http://www.unomaha.edu/servicelearning/) website.

Community Engaged Scholarship Transcript Designation (CESTD)

The CESTD is a transcript designation that documents and recognizes undergraduate students for their community engagement experiences. This designation offers incentive and competitive edge for students who choose to tailor their involvement and academic work in a way that capitalizes on UNO’s comparative advantage.

- Completion of 1 community based-learning experience (3 credit hours)
- Completion of 6 hours of service-learning coursework
- Completion of 135 volunteer/community service hours (outside of the classroom)
- Completion of written reflection piece (one for each category along with a final reflection).
- Minimum 3.0 Cumulative GPA at graduation

Barbara Weitz Community Engagement Center (CEC)

As a metropolitan university, UNO encourages its students to be active and civicly engaged members and leaders in a diverse and evolving society. The CEC is a unique place where UNO students can access
volunteer opportunities, service events, service learning inquiries, service
learning projects and events, student jobs and internships, and community
engagement-based events. The CEC is home to over 35 university and
community building partner organizations that work side by side in flexible
office spaces to improve the quality of life for those they serve.

Learn more about the CEC (https://www.unomaha.edu/community-
engagement-center/).

Universitywide Learning Communities

An Academic Learning Community (ALC) is a group of students who learn
together. Students take coursework together, participate in projects with
one another, and work to build learning in a particular area.

UNO Air Force ROTC

What is Air Force ROTC?

Air Force ROTC (AFROTC) is an educational program designed to train
leaders of character for tomorrow’s Air and Space Force and build better
citizens for America. Here at AFROTC Detachment 470, we offer small,
seminar classes with emphasis placed on individual training and leadership
development.

Through UNO’s Department of Aerospace Studies, AFROTC offers students
a course of study leading to a commission as a Second Lieutenant in
the United States Air Force and United States Space Force. Students
have opportunities to explore and evaluate Air and Space Force career
opportunities while earning a college degree.

Program Details:
The AFROTC program consists of two phases: the General Military Course
(GMC) and the Professional Officer Course (POC). Each phase requires four
semesters of study. Each semester consists of an Aerospace Studies class,
a two-hour Leadership Lab (LLAB), and three hours of physical training (PT)
per week. Currently, the program can be modified to meet the academic
needs of the student, to include a three-year model. NOTE: In very special
situations with very driven and capable students, two-and-a-half-year-
students can compress the GMC phase into one semester.

During summer breaks, AFROTC cadets have various training and internship
opportunities allowing them to shadow Air and Space Force officers. These
opportunities expose students to various real-world leadership challenges
and help students make informed choices regarding their future careers.

Interested?

Students interested in the program may enroll in the GMC with no military
obligation; however, students new to AFROTC must speak with a member
of the Department of Aerospace Studies faculty or staff for enrollment
approval and instructions

If you are interested, please call 402.554.2318 or email
unoafrotc@unomaha.edu.

Air Force ROTC official website (https://www.afrotc.com/)

Arm

Army ROTC

Military Science Studies

Military science is an elective managerial training program designed
to develop college men and women for positions of leadership and
responsibility as junior officers in the U.S. Army, Army Reserve or Army
National Guard, or for subsequent managerial careers in civilian industry.
Its curriculum encourages reflective thinking, goal setting, and problem
solving through an interdisciplinary study of leadership and managerial
principles. Specifically, the program is structured to develop skills in the
following areas: interpersonal-motivation, decision making, communication
and general supervision. Compatible with any academic major, the
program enhances the student’s development in college and is open to
undergraduate and graduate students.

The Army ROTC Program offers two-, three- and four-year programs of
instruction. The program itself is essentially divided into two parts: the basic
course (1000- to 2000-level courses) and the advanced course (3000-
to 4000-level courses). The program includes a Leadership Lab that is
mandatory for all cadets of two hours per week designed to provide hands
on practical exercises to support the classroom portion LEADERSHIP
LAB (0 Credit Hours). The basic course, normally taken during the
freshman and sophomore years, is designed to familiarize the student with
the military, the role of an Army officer and the fundamentals of effective
leadership. It is open to all students, and incurs no obligation whatsoever.
Thus, it affords an opportunity to see what ROTC is all about, at the same
time qualifying one to enter the advanced course.

It is the advanced course, however, which represents the real officer
development portion of ROTC. While the basic course provides fundamental
knowledge in leadership, the advanced course refines and further develops
managerial talents through leadership seminars and extensive practical
application. Additionally, the student develops basic military skills common
to the Army. Students successfully completing the advanced course will be
commissioned as Second Lieutenants in the U.S. Army, Army Reserves or
Army National Guard. Students desiring active duty must first complete
their baccalaureate degree. Admission into the advanced course is by
Military Science Department approval.

Nurse Program

Army ROTC at Creighton University provides a Nurse Program that offers
students the opportunity to earn their nursing degrees, acquire their
commission and continue on to their residency before beginning to serve.
This program provides guaranteed employment with competitive wages
and benefits for 8 – 12 years and retirement as early as 20 years. This is an
excellent choice as most Officers will still be young enough to do another
complete retirement in the civilian sector while collection their military
pension (50% of their base pay). The nursing program at Creighton ROTC
is one of the best in the nation and cadets will be challenged to perform to
their full potential.
Students with prior military service, Reserve/National Guard service or four years of high school JROTC, however, may be given equivalency credit for the basic course and allowed to proceed directly into the advanced course. Likewise, other students are afforded the same opportunity for the two-year program through an accelerated six-week summer program in lieu of the basic course. All ROTC students are eligible to compete for two- and three-year scholarships. Advanced course students receive $150 a month for a living allowance.

Prior to commissioning, all contracted cadets must complete at least one undergraduate course from each of the following three fields of study: written/oral communication, military history and computer literacy. (See the military science department for a list of UNO courses which satisfy this requirement).

The Army Reserve Officer Training Corps Program was established at the University of Nebraska at Omaha in July 1975, when an agreement between Creighton University, the University of Nebraska at Omaha and the Department of the Army was signed. This agreement affords UNO students the opportunity to participate in the Army ROTC Program at Creighton University. The department of military science, an accredited instructional department of the College of Arts and Sciences at Creighton University. The department functions in accordance with the academic standards and policies of Creighton University and the Department of the Army, and adheres to the rules of the University of Nebraska at Omaha in the administration of the program for UNO students.

Army Reserve/Army National Guard Program

Students who are members of the Army Reserve or National Guard and who have attained sophomore status may enroll in the ROTC advanced course without taking any basic course classes. They must graduate not later than eight months after commissioning.

Those students qualifying for this two-year program may receive $150 per month for a living allowance and will also receive 50 percent tuition assistance if in the Army National Guard.

For more information, go to the Creighton Army ROTC website (https://www.creighton.edu/groups/armyrotc/) or call us at 402.280.1176

Goodrich Scholarship Program

The Goodrich Scholarship Program began in 1972 through Senator Glenn Goodrich’s enabling budget amendment. The program offers a merit-and-need-based scholarship to eligible students who will attend only the University of Nebraska at Omaha.

The Goodrich Scholarship Program now boasts over 1,900 alumni who, for over 45 years, have continued to connect with and contribute to their communities as lawyers, educators, doctors, social workers, engineers, artists, business professionals, elected officials, directors of non-profit organizations, technologists, writers, and law enforcement officers, among many others.

Learn more about the Goodrich Scholarship Program (http://www.unomaha.edu/goodrich/)

University Honors Program

The mission of the University of Nebraska at Omaha’s University Honors Program is to foster an enhanced and supportive learning environment responsive to the educational needs of highly able and/or exceptionally motivated undergraduate students. This is accomplished through participation in interdisciplinary Honors colloquia (special seminars), small Honors-only sections of general education courses, collaborative projects with faculty noted for excellence, and through increased opportunity for undergraduate research and creative activity.

The University Honors Program is university wide. Students are admitted to the University Honors Program as entering first-year students by holistic review of an essay and letter of support (received directly from the recommender) as well as ACT or SAT scores and high school GPA. Students already enrolled at UNO are admitted to the University Honors Program after considering their UNO performance and GPA as well as a recommendation from a UNO faculty member.

Transfer students from other universities’ Honors Programs will be eligible if they were members in good standing in their previous programs and meet the UNO Honors Program entrance and transfer requirements. Students who transfer to UNO with at least 50 credit hours may be admitted to the University Honors Program with a cumulative or transfer GPA of 3.5 and with a letter of support from a faculty member at their previous institution or UNO.

Participants who complete a minimum of 24 credit hours in University Honors Program work with a 3.5 GPA or higher will have the notation “University Honors Program” printed on their diplomas, on the official transcript of credits and in the graduation program. Transfer students who complete a minimum of 15 credit hours in University Honors Program work with a 3.5 GPA or higher will receive similar printed recognition.

Program Options and Requirements

Only Honors students are able to enroll in Honors sections of courses (section numbers in the 90s, such as HIST 1120-098 or CMST 1110-099).

The requirements below apply to students in both the first-year and transfer programs:

- Students must complete an Honors portfolio documenting their undergraduate research experience, community engagement, and campus citizenship by the end of the fifth week of the semester in which they plan to graduate.
- Students must present at the Honors Symposium (usually in the semester in which they graduate).
- The GPA needed for graduation with University Honors Program completion is 3.5 or higher.
- All Honors work must be completed with a grade of B or better.
- Students are expected to undertake at least one Honors course/option each semester at UNO.
- No more than 10 Honors credit hours may be undertaken in any single semester.
- Students may sit out of Honors for ONE semester without losing Honors priority registration privileges.

Entering First-Year Students

Students in the University Honors Program complete the curricular requirements below (full details are available on the University Honors Program’s website).

Curriculum Requirements (24 hours):

- 1 Honors-only general education course in the first semester (section numbers in the 90s)
- 2 colloquia courses (either HONR 3000, HONR 3020, or HONR 3030)
- 3 credit hours of thesis/capstone/creative project/practicum
- 12 further Honors credit hours (options include coursework, internship, extending thesis hours, etc.)
• Presentation at the Honors Symposium and completion of Honors Portfolio

Transfer Students
Transfer students (already earned 50+ credits) in the University Honors Program complete the curricular requirements below (full details are available on the University Honors Program’s website).

Transfer Students’ Curriculum Requirements (15 hours):
• 2 colloquium courses (either HONR 3000, HONR 3020, or HONR 3030)
• 3 credit hours of thesis/capstone/creative project/practicum
• 6 further Honors credit hours (options include coursework, internship, extending thesis hours, etc.)
• Presentation at the Honors Symposium and completion of Honors Portfolio

Students may also participate in the National Collegiate Honors Council National Honors Semesters. Honors credit is limited to members of the Honors Program.

UNO Success Academy
The UNO Success Academy is a learning community aimed at supporting select groups of first-year and incoming transfer students. The Success Academy provides students with a foundation for future success through a wide range of meaningful activities, including participation in the US 1010 (Critical Thinking for the Modern Day College Student) class. The program exists to help prepare students to take advantage of their time on campus and support their transition to university life.

Success Academy aims to help students make connections with other students, staff, faculty, and the UNO campus, with program benefits including access to one-on-one academic and career coaching, support from a peer mentor, access to the program office in the Milo Bail Student Center, and the opportunity to earn scholarship dollars through an incentive program.

Learn more about the Success Academy (https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/success-academy/)

Thompson Learning Community
Students receiving a college scholarship from the Susan T. Buffett Foundation and attending UNO are William H. Thompson Scholars. William H. Thompson was the father of Susan T. Buffett and served as Professor of Psychology and Dean of the College of Arts and Sciences at Omaha University, which became UNO.

The Susan T. Buffett Foundation and the University of Nebraska are collaborating to provide Thompson Scholars a unique educational experience aimed at enhancing their academic success. TLC aims to make your transition to college and your entry into a major field of study as smooth and educationally rewarding as it can be. TLC will promote your academic success through common courses, academic workshops, and connections with faculty. Additionally, your transition will be supported through your relationship with other scholars, an upper-class UNO Mentor, social programming and other opportunities for you to connect with UNO.

Learn more about the Thompson Learning Community (https://www.unomaha.edu/academic-affairs/thompson-learning-community/)

TRIO Project Achieve
Project Achieve is open to University of Nebraska Omaha undergraduates who qualify as first-generation, limited income, and/or disabled college students. The program consists of academic skills development as well as financial aid, academic, career, and personal counseling. Activities and services emphasize development of skills necessary for becoming more efficient and independent learners.

Project Achieve uses a flexible and personalized approach. Each student is encouraged to participate in activities which meet his, her, or their own learning needs. Students and staff work together in assessing students’ skills in relation to education and career goals. Personal interviews, review of academic records, checklists and diagnostic tests may be used in this process.

Learn more about Project Achieve (https://www.unomaha.edu/project-achieve/)

Jim and Shirley Young Scholars Program
The Jim and Shirley Young Scholars Program is a scholarship program that supports a select group of first-generation college students attending UNO. Students in Young Scholars participate in a variety of activities such as weekly study sessions, various social and academic events, and service projects throughout the school year, and have a support system at UNO that includes a mentor with whom they meet regularly. In addition to this support, the program provides a financial scholarship to the students selected for the program.

Learn more about the Jim and Shirley Young Scholars Program (http://www.unomaha.edu/youngscholars/)

Student Success and Academic Support Services

Student Success Services

Student Success Services

The services provided by the Division of Student Affairs are designed to promote the growth and development of the whole student – intellectually, physically, emotionally, socially, financially, environmentally, occupationally and spiritually – to allow students to develop skills that lead to success both during school and throughout life. An integrated, holistic approach to inclusion, civic and social responsibility, wellness, achievement, and involvement programs links students to both curricular and co-curricular learning by providing support, activities, and engagement that enriches the student experience on campus and better prepares them to be an active and engaged citizens in our global community.
Wellness

Counseling and Psychological Services (CAPS)

Caring Staff

Our office is staffed by licensed mental health practitioners and a graduate assistant who are eager to create a vibrant and safe campus community. Each person is committed to providing you support and encouraging your personal success in identifying and reaching your goals.

Personal Counseling

Concerns, struggles, and changes are all normal parts of life. Sometimes we can work through them on our own; other times, talking to a professional can help. CAPS offers a safe, confidential atmosphere in which personal concerns can be openly explored and discussed. Topics often include anxiety, depression, alcohol and drug issues, goal setting, grief and loss, relationships, sexual identity, self-esteem, and stress. CAPS also provide referrals, making available a large number of professional resources at UNO and in the community. Appointments may be made by stopping by the office at the Wellness Center, 102 H&K, or by calling 402.554.2409. Learn more on the Counseling and Psychological Services website (https://www.unomaha.edu/student-life/wellness/counseling-center/).

Health Services

Health Services offers on-campus appointments with Board Certified Professionals and various medical services. These medical services include examinations for wellness, women’s reproductive health, men’s health, illness, injury, and STI/HIV testing. Labs, x-rays, and vaccinations are offered on-site and over the counter medications are available upon request. Provider visit costs are included in your student fees. In addition to medical services, Health Services offers health and wellness education. We welcome questions about your health. Appointments with a physician, nurse practitioner, or registered nurse can be made in person or by phone. Walk-in patients are seen as schedules permit. Health Services is located in the Wellness Center, 102 H&K. Hours are Monday through Friday, 8 A.M. to 5 P.M. To schedule an appointment, please call 402.554.2374.

Costs

Most services offered by Health Services are included in student fees, with the exception of x-rays, physicals, immunizations, and laboratory tests. For these services, either students can pay at the time of service or the clinic can submit a claim to the student’s insurance plan. Health services accepts insurance plans from United Healthcare, Blue Cross Blue Shield, Aetna, Coventry, Midlands Choice, and Tricare; Medicare and Medicaid are not accepted.

Immunizations

Health Services offers Flu shots, Measles, Mumps, Rubella, Chickenpox, Meningococcal, Tetanus, and Hepatitis A and B.

Student Health Insurance

The major medical student insurance policy is available to UNO undergraduate students enrolled in at least seven (7) credit hours or a degree-seeking graduate student. This reasonably priced policy is designed to provide benefits for medical and dental expenses.

Graduate Assistants

All new graduate assistants (GAs) receive insurance information. GAs are offered a subsidized plan. GAs must return the form accepting the Bronze Plan or decline all insurance; otherwise they will be automatically enrolled in the student plan which provides more extensive coverage for lower cost. The GA’s cost is added to their MavLINK tuition statements and paid per semester with their student fees. GAs should refer to their graduate packet for more information or call the Health Services office.

Campus Recreation

Campus Recreation (Campus Rec) supports students on their journey to living a healthy and balanced lifestyle while at UNO. If you are enrolled in at least one credit hour on-campus, a Campus Rec membership is included as part of your University Program and Facilities (UPF) Fees. There is no need to purchase a membership separately while taking an on-campus class. A valid membership is determined on a semester basis. If you are enrolled in an online, remote, research, or thesis class, a Campus Rec membership would need to be purchased. Campus Rec is located in the H&K Building. Learn more on the Campus Recreation website (https://www.unomaha.edu/student-life/wellness/campus-recreation/).

Accessibility Services

The Accessibility Services Center (ASC) provides leadership in facilitating equal access to all campus opportunities for students with disabilities.

Student Accommodations

ASC provides individualized services to students with disabilities to establish appropriate accommodations and supports, and to remove barriers through consultation, collaboration, and accommodations. ASC inspires students to become responsible decision makers, problem-solvers, and self-advocates to request and access their accommodations.

Requesting Accommodations

Once you are admitted to UNO, requesting accommodations can be done in three easy steps. If you are not sure if you qualify for support services, do not hesitate to contact ASC at 402.554.2872 or stop by the ASC in 104 Health and Kinesiology Building. Learn more about requesting accommodations on the Accessibility Services Center website (https://www.unomaha.edu/student-life/inclusion/disability-services/).

Request for Reasonable Accommodation in Field Placements

The University of Nebraska at Omaha (UNO) supports students with disabilities and encourages their full participation in all academic programs, including field placements of all kinds. “Field placements” for the purpose of this document include any practicum, field experience, clinical practice, internship, training, clinic, or work experiences (or similar) conducted for academic credit. In accordance with Section II of the Americans Disabilities Act and Section 504 of the Rehabilitation Act, UNO’s Accessibility Services Center is the designated office to work with students with disabilities to provide reasonable accommodation so they may enjoy the same benefits, experiences, and opportunities as persons without disabilities.

Student Conduct and Community Standards

The university has an obligation to maintain conditions under which the work of UNO can go forward freely, in accordance with the highest standards of quality, institutional integrity, and freedom of expression, with full recognition by all concerned of the right and privileges, as well as the responsibilities, of those who comprise the UNO community. UNO expects students to maintain standards of personal integrity that are in accordance with the goals of the institution. This means that students are expected to assume responsibility for their actions; observe national, state, and local laws and university policies; and respect the rights and property of other people. As members of the academic community, students are subject to the responsibilities laid out by the university and are urged to become familiar with all documents that pertain to your rights and responsibilities. View the full Student Code of Conduct (https://www.unomaha.edu/student-life/students-conduct-and-community-standards/policies/code-of-
Inclusion
The Office of Military & Veteran Services
The Office of Military and Veteran Services exists to encourage a military community on campus, online, and overseas. This office supports UNO’s military community by providing military and veteran students with resources and services developed to help them succeed. Learn more on the Military and Veteran Services website (https://www.unomaha.edu/student-life/inclusion/military-and-veteran-services/).

Gender & Sexuality Resource Center
The Gender and Sexuality Resource Center welcomes and encourages people of all genders and sexualities to participate in the center’s offerings. The GSRC fosters and promotes equity, access, and inclusion for all genders and sexualities through education, resources, advocacy, and activism. This office provides specific programs and services for women, lesbian, gay, bisexual, queer spectrum, trans spectrum, intersex, asexual spectrum, nonstraight, and gender non-conforming (LGBTQA+) peoples, and survivors of interpersonal violence in the UNO community. Learn more on the Gender and Sexuality Resource Center website (https://www.unomaha.edu/student-life/inclusion/gender-and-sexuality-resource-center/).

Multicultural Affairs
The Office of Multicultural Affairs (MCA) is responsible for developing and maintaining programs and services to ensure the successful recruitment, retention, and graduation of underrepresented students on UNO’s campus. Through scholarship aid, academic services, and personal support, students are empowered to attain their educational and professional goals. Cultural programming includes celebrating cultural months (including Black History Month, Latino Heritage Month, Native Heritage Month, and Diversity Month) as well as three annual Native American events. MCA is inclusive of all UNO students. Learn more on the Multicultural Affairs website (https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/).

Summer Scholars Pre-College Program
The Summer Scholars Program provides college bound high school juniors the opportunity to enroll in a course at UNO to earn college credits, prepare for college life and connect with University of Nebraska at Omaha faculty, staff, and students. The goal of the Summer Scholars Program is to expose high school students to the dynamics of a college campus environment through a five-week pre-college summer session. Participants learn about college academic coursework, time management, college admissions, ACT/SAT preparation, college scholarships, and the financial aid process. They interact with university faculty and staff, explore career options and participate in community service activities. In addition to the academic benefit of the program, the scholars receive an increased awareness of social and cultural issues. Outside of the classroom, the Summer Scholars spend a week living at the Scott Residence Hall on UNO’s Scott Campus. Learn more about Summer Scholars (https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/bridge-program-and-scholarships.php).

Office of Civic & Social Responsibility
The Office of Civic and Social Responsibility (OCSR) is dedicated to developing engaged, civic-minded citizens and leaders for our communities. UNO believes service and engagement are vital components for the educational development of all students and for a sustainable, healthy community. Learn more on the Civic and Social Responsibility website (https://www.unomaha.edu/student-life/civic-and-social-responsibility/).

The Collaborative
The Collaborative creates programs that empower students to affect positive change within the community. The Collaborative is a program that connects UNO students with nonprofit organizations for an all-encompassing professional experience during the academic year. The Collaborative has several student worker positions available, and they receive ongoing education about the nonprofit sector.

Maverick Food Pantry
The Maverick Food Pantry contributes to UNO’s culture of caring by providing healthy, sustainable, and culturally sensitive food items to those in immediate need as well as connecting them with resources in the greater Omaha area for long-term support. UNO students, faculty, and staff can anonymously request a food package online and pick up the package in the Barbara Weitz Community Engagement Center within 24 hours of the request. Maverick Food Pantry’s model uses volunteers to sort donations, assemble food packages, and assist those picking up packages.

60 Minutes of Service
OCSR offers monthly opportunities for students to complete service projects. Stop by the CEC on the first Wednesday of every month from 12 P.M. to 1 P.M. to serve with Omaha nonprofit organizations and enjoy a free lunch.

Signature Service Days
Each academic year, UNO sponsors multiple days of service in which volunteers engage in service projects around the community for a day. On a Signature Service Day, UNO students, faculty, and staff, along with our K-12 partners, Metro Community College, and community volunteers, come to the CEC and are transported into the community to complete service projects.

Clinton Global Initiative University
OCSR provides support to Clinton Global Initiative University (CGI U) applicants. CGI U connects students, university representatives, topic experts, and celebrities to discuss and develop innovative solutions to pressing local and global challenges. OCSR provides mentorship to students creating their own commitments to action that address issues on campus, in local communities, or around the world.

New Student and Family Programs (NSFP)
New Student and Family Programs helps you and your family transition to UNO. Learn more on the New Student and Family Programs website (https://www.unomaha.edu/student-life/achievement/new-student-and-family-programs/). NSFP is primarily responsible for Campus Visit (https://www.unomaha.edu/admissions/visit/) experiences and New Student Orientation (https://www.unomaha.edu/student-life/achievement/new-student-and-family-programs/orientation/).

Ambassadors
Our Ambassadors serve as guides for your transition experience. They are university students committed to helping first-year and transfer students by sharing all of the need-to-know information about policies and procedures, student services, academic support programs, and opportunities for involvement. The goal of our Ambassadors is to ensure that you know all about the university and to inspire you to make the most of your college experience.

Academic & Career Development
The Academic and Career Development Center (ACDC) empowers students to explore, develop, and succeed at UNO and beyond. ACDC builds bridges between students and on-campus support, community members, and local
employers. Learn more on the Academic and Career Development Center website (https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/).

Undeclared Majors
It's great to be undeclared at UNO! ACDC is dedicated to advising undeclared students and helping them choose a major before the completion of 36 credit hours. ACDC guides students to choose an academic major with confidence and keep on track for graduation. In addition to advising appointments, ACDC offers a variety of resources to support students in the exploration process.

Career Development
ACDC is here to help you transition successfully from backpack to briefcase. ACDC advisors help with résumé and cover letter reviews, and you can even schedule a mock interview to help prepare for interviews. Students also have access to exclusive job postings in Handshake (https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/career-development/handshake.php) to find part-time jobs, internships, and full-time careers.

Student Involvement
Getting involved is an important part of the college experience. With new organizations being created almost every week, there is something for everyone. Learn more on the Student Involvement website (https://www.unomaha.edu/student-life/involvement/).

Student Organizations
There are tons of ways to get involved at UNO. Joining organizations that complement your studies or appeal to your personal interests can enrich your college experience. Organizations on campus are created to suit the diverse interests of students that range from academics to volunteerism to art and music and beyond. They are a great way to get involved, make new connections, and share a common interest with your peers.

Fraternity & Sorority Life
OMAHA GREEKS shapes amazing individuals with fascinating life stories into students who are independent thinkers and hard workers. OMAHA GREEKS operate up the five pillars of leadership opportunities, lifelong friendship, commitment to philanthropy, reach beyond Omaha, and academic achievement.

Student Government
Student Government represents UNO students to administration, faculty, and staff, as well as the University of Nebraska Board of Regents and the community. They strive to lead, support, and make lasting, positive contributions to the student body.

Maverick Productions
Concerts, comedians, great giveaways, and tons of interactive events are just some of what Maverick Productions (MavPro) offers to UNO students. As the programming board at UNO, MavPro strives to bring the best events to campus. In doing so, the Maverick Community is brought together through #MavSPIRIT.

Team Maverick: Student Employment Program
Team Maverick is an intentional student employment program within the Division of Student Affairs at UNO. There are numerous positions on campus that allow students to gain work experience and develop their leadership skills. Team Maverick student employees are dedicated to guaranteeing excellence in the programs and services offered across the Division of Student Affairs. Team Maverick takes pride in helping offices hire outgoing, friendly individuals who are seeking an engaging and challenging employment experience. Students interested can view on-campus job opportunities by visiting UNO Human Resources website (https://unomaha.peopleadmin.com/) to get started.

Housing & Residence Life
Housing and Residence life creates a positive residential experience and supports the evolving needs of students at UNO. Six different on-campus housing options are available to UNO students: Maverick Village (MV) and University Village (UV) on Dodge Campus; Scott Court (SC), Scott Crossing (SX), Scott Hall (SH), and Scott Village (SV) on Scott Campus. Housing and Residence life is proud to offer apartment, traditional, and graduate-style housing to UNO students. Learn more on the Housing and Residence Life website (https://www.unomaha.edu/student-life/housing-and-residential-life/).

Gender-Inclusive Housing
Students and allies of all sexual orientations, gender identities, and gender expressions are eligible to live in designated Gender-Inclusive Housing. Apartment features are the same as other housing facilities.

Academic Support Services
Math-Science Learning Center
The Math-Science Learning Center (https://www.unomaha.edu/college-of-arts-and-sciences/math-science-learning-center/) (MSLC) provides UNO students the assistance they need to conquer academic challenges in Math and Science. Model students serve as tutors, supplemental instruction leaders and study group facilitators trained to assist their peers in achieving academic success. The MSLC houses meeting alcoves, study / tutoring space, tutorial computers and reserve study materials. It also offers academic consultation for students seeking to increase their overall learning effectiveness and efficiency.

The Math-Science Learning Center is located in 107 Durham Science Center.

Speech Center
The UNO Speech Center assists all UNO students, faculty, and staff in preparing oral presentations and/or incorporating them into their courses.

The UNO Speech Center provides consultation and coaching services for all UNO students, graduate students, faculty, and staff from all disciplines, with a focus on supporting students and faculty in speaking across the University of Nebraska at Omaha curriculum effort at UNO and assessment documentation for the UNO oral communication general education requirement.

The Speech Center (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/speech-center/) is located in 183 and 185 Arts & Science Hall, or can be reached at 402.554.3201.

Writing Center
The Writing Center invites UNO students, faculty, and staff in all university divisions to work with a writing consultant on any university-related writing project. You may use this free service to work on your writing assignments, application essays, business letters or other projects. Our goal is to help you become an effective, independent writer; we will not edit papers for you; instead we will help you develop the ability to edit your own work.

Graduate students may reserve an hour-long appointment instead of the standard half hour, since graduate-level essays are often lengthy. You may wish to work with one of our Graduate Consultants. To schedule an appointment, call the Writing Center at 402.554.2946 or visit the Writing Center website (http://www.unomaha.edu/college-of-arts-and-sciences/writing-center/).
UNO Libraries
The University of Nebraska Omaha (UNO) libraries include the Dr. C.C. and Mabel L. Criss Library (Criss Library) and the KANEKO-UNO Library. The Libraries fulfill the UNO mission through our dynamic services, highly qualified and adaptive personnel, unique and extensive collections, and accessible learning spaces and environments.

The KANEKO-UNO library, located within the KANEKO gallery at 11th and Jones Streets in Omaha’s Old Market, is a distinctive space for study, research, collaboration, and investigation. With a focus on stimulating and celebrating creativity, the space and collection inspire visitors to expand their awareness and knowledge within an atmosphere of flexible learning.

Criss Library is centrally located on UNO’s Dodge campus, and is an inclusive and engaged space for teaching, learning, research, and service. Collaborative spaces include: flexible seating on our lower and main levels; group study rooms equipped with monitors, screen sharing technology, and whiteboards; and four instruction labs, including two with laptops and configurable seating. For focused learning, the library has individual study rooms, and maintains quiet study space throughout the third floor.

The Creative Production Lab offers one-on-one help for students, faculty, and staff to explore their creative interests and learn how to use cutting-edge hardware and software, including virtual reality, laser cutting, 3D printing and scanning, and multi-media production.

The Archives & Special Collections acquires and preserves unique, rare, and specialized materials, and provides expertise on incorporating these materials into creative projects. The department’s diverse collections include the University Archives, U.S. Senator Chuck Hagel Archives, as well as other special collections including regional history, rare books, and the Arthur Paul Afghanistan Collection.

Additional spaces of note include: an outdoor garden patio, café, theater room, and the H. Don and Connie Osborne Family Art Gallery.

The library’s collection supports the teaching, learning, research, and creative needs of students, faculty, and staff through a variety of formats including, print and e-books, physical and streaming media, digital image collections, journals, newspapers, electronic databases, and government documents. Material not available in the Criss Library collection can be borrowed from other libraries via Interlibrary Loan.

Librarians are available both in person and online to answer questions, help students and faculty use library resources, and assist with research when and where it is needed. Librarians also offer instruction sessions tailored toward a particular course or assignment.

For additional information, visit library.unomaha.edu (http://library.unomaha.edu/).

Testing Center
Testing Center
The University of Nebraska at Omaha (UNO) Testing Center provides a variety of services to UNO students, faculty and staff. These services extend into the Omaha community and beyond to persons needing testing related assistance. The types of services include university placement exams, certification/licensure exams, online distance education exams, admission exams, proficiency exams, national exams, career assessments, personality indicators, departmental challenge exams, correspondence exams and testing accommodations for students with disabilities. The Testing Center will also consider special requests associated with individual needs. For more information regarding testing services, please contact:

The University of Nebraska at Omaha
Testing Center
522 Kayser Hall

Omaha, NE 68182-0318
402.554.4800
testingcenter.unomaha.edu (http://testingcenter.unomaha.edu/)

National Exams
The Testing Center may be able to provide information for many nationally administered exams including computer-based testing for Educational Testing Service exams. Among exams offered are the Graduate Record Exam (GRE), PRAXIS series exams, Low School Admission Test (LSAT), ACT Assessment, Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Test of English for International Communications (TOEIC), College-Level Examination Program (CLEP), DSST exams formerly known as DANTES Subject Standardized Tests, NCAA Coaches Certification Exam, Major Field Test (MFT), and many other certification/licensure exams.

Placement Exams
Placement exams include the English Placement Proficiency Exam (EPPE), Math Placement Exam, French Placement Exam (FPE), and the Spanish Placement Exam (SPE).

English Placement
The English Placement/Proficiency Exam (EPPE) is required for undergraduate students (first-time freshmen and transfer students) and international students, including some applying for graduate studies. Students should check with their UNO academic advisor to see whether they are exempt from taking the EPPE. The EPPE is a 90-minute essay. Examinees should allow approximately two hours for an exam session. A student may take the EPPE twice in a calendar year.

Chemistry Placement
Entrance into CHEM 1180 General Chemistry I depends on a student’s ACT or SAT Math Sub-Score or their score on the Math Placement Exam. CHEM 1180 placement is determined according to the following criteria.

ACT Math Sub-Score – 25+
SAT Math Sub-Score Placement of 570+ (590+ for 2012-2016 scores)
OR
Math Exam Score – 6 with placement into:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1220</td>
<td>COLLEGE ALGEBRA</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1320</td>
<td>PRE-CALCULUS ALGEBRA</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1330</td>
<td>TRIGONOMETRY</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1340</td>
<td>ALGEBRA AND TRIGONOMETRY FOR CALCULUS</td>
<td>5</td>

</tr>
</tbody>
</table>
A student may challenge their ACT or SAT Math Sub-Score placement by taking the Math Placement Exam. The exam must be taken before the opening of enrollment for the term in which CHEM 1180 is to be taken. Math Placement scores within the last two years are acceptable for placement into CHEM 1180.

Alternative CHEM 1180 Criteria:

Math Exam Placement above or completion of MATH 1320 or MATH 1340 (with a C- or greater)

OR Completion of CHEM 1120 (with a B- or greater)

OR Completion of CHEM 1140 (with a C- or greater)

Please refer to the Math Placement section for additional information on the Math Placement exams.

Math Placement

Entrance into certain Math courses is contingent on a student’s ACT or SAT Math Sub-Score, or their score on the Math Placement Exam. Placement is determined according to the following criteria.

<table>
<thead>
<tr>
<th>ACT Math Sub-Score</th>
<th>SAT Math Sub-Score</th>

The Math Placement Exam is an adaptive, computer-based test and is untimed. A two to five-hour testing window is scheduled which includes check-in, instructions, testing, and check-out. An on-screen calculator is available during the exam, therefore personal calculators are not allowed. A student may take the Math Placement Exam twice in a two-year period. ACT or SAT Math Sub-Score placement is valid for five years after the test date. Math Placement Exam results are valid for two years.

Foreign Language Placement

French and Spanish placement is required for any student with prior language experience who wants to enroll in their first UNO French or Spanish course. Native speakers should contact a French or Spanish advisor in the Foreign Language Department for permission to enroll. A student with no prior French or Spanish experience does not need to take a placement exam. A student who is placed into French or Spanish at the 1120-level or higher may be eligible for retroactive credit for UNO courses they test out of. The student must earn a final course grade of “C” or better in the course they are placed into in order to receive retroactive credit.

Both exams include a short listening comprehension section; a written section; and a short composition section. Exam time is one hour and 30 minutes, not including check-in, instructions, and check-out. Examinees should allow approximately two hours for an exam session. A retest is not permitted less than one year after the prior test. Results are valid for one year.

Accommodated Testing

The University of Nebraska at Omaha (UNO) supports students with disabilities and encourages their full participation in all academic programs, including field placements of all kinds. “Field placements” for the purpose of this document include any practicum, field experience, clinical practice, internship, training, clinic, or work experiences (or similar) conducted for academic credit. In accordance with Section II of the Americans Disabilities Act and Section 504 of the Rehabilitation Act, UNO’s Accessibility Services Center is the designated office to work with students with disabilities to provide reasonable accommodation so they may enjoy the same benefits, experiences, and opportunities as persons without disabilities. For more information please visit the Accessibility Services Center website (https://www.unomaha.edu/student-life/inclusion/disability-services/).

Credit by Examination at UNO

Credit by Examination allows students the opportunity to gain academic credit for prior learning they have acquired by self-study or experience. Tests may be taken in many subject areas and credit may be earned by achieving acceptable scores on these tests. Benefits include saving tuition dollars and shortening the time it takes to earn a degree.

Two types of examinations may be taken for credit at UNO: The College-Level Examination Program (CLEP) and UNO’s Special Examination Program.

Many postsecondary institutions now offer credit on the basis of CLEP examinations annually. The CLEP exams include General Examinations and Subject Examinations. Both are designed to measure factual knowledge and understanding, problem-solving ability, and mastery of college-level, introductory course content in a wide range of disciplines.

UNO’s Special Examination procedure involves “challenging” one of the courses taught at this university by attempting a Departmental Examination. These examinations are constructed by the department for the purpose of measuring knowledge in a particular course being offered at UNO. Credit is granted for the course upon successful completion of the examination.
• An examination may not be attempted more than once.
• A student who has failed to earn credit in an attempted college course may not receive Credit by Examination in the same course. Neither will credit be granted to raise a grade earned in any course.
• A maximum of 30 hours Credit by Examination (the College of Business has a limit of 24 hours) may be applied toward graduation, e.g., CLEP, by Challenge, etc.
• Credits earned by examination may not be used as part of the terminal residency requirements, so you should check the requirements of your college.
• Students taking Departmental Examinations must be registered at UNO at the time they attempt the exam. (Registration is not required to take CLEP exams.) You must be a UNO student to have the credit applied to UNO.
• Students attempting Credit by Examination in courses in which they are currently enrolled must do so before they have completed one month of the course.
• Credit by examination will not be given for courses that are prerequisites for courses that the student has already earned credit. For exceptions, check with the department.
• Credit earned on a General Examination will be reduced by the amount of comparable credit already earned in the division.

The fee for each CLEP exam is $80.00, plus a separate nonrefundable service fee of $25.00. There is a $10.00 fee for optional exams. You must pay separately for each exam you take. CLEP exams and optional exams are free for military personnel with proper ID (the Center’s $25.00 fee is still required). There is a $25.00 charge for each Departmental Exam (Challenge Exam). In addition to the cost of taking the examinations, payment for recording hours earned through CLEP and Challenge Exams shall be assessed at the rate of one-half resident tuition per credit hour. The $25.00 fee for Departmental Exams is applied to the overall payment for credit earned. Visit the CLEP informational bulletin (http://clep.collegeboard.org/) for more details. (Fees are subject to change.)

Credit earned by examination will be recorded as “CR” on the transcript, and this credit will not be used in calculating grade point average.

If you need additional information or have any questions, feel free to stop by (522 KH) or call the Testing Center at 402.554.4800. Questions regarding Departmental Challenge Examinations other than those noted should be directed to the appropriate department.

Additional Campus Services and Support

Academic & Career Development Center (ACDC)
The Academic and Career Development Center (ACDC) empowers students to explore, develop, and succeed at UNO and beyond. ACDC builds bridges between students and on-campus support, community members, and local employers. Learn more on the Academic and Career Development Center website (https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/).

Ombuds Services
Ombuds Services provides informal, confidential help when you have a conflict or problem with individuals, offices, or policies at the university. The Ombuds (Ombudspersons) help you analyze your situation, obtain information, identify your options, and develop a plan to address your concerns. The Ombuds do not take sides in a dispute; they are advocates for fairness and the equitable resolution of conflicts and problems. Communicating with an Ombuds is off-the-record. If you wish to make a record, or to make UNO aware of a problem, the Ombuds can provide information and help you do so. Exceptions to Ombuds confidentiality occur only when there is an imminent risk of serious harm and no other reasonable option to prevent it.

For more information or to make an appointment, please go to the Ombuds Services (https://www.unomaha.edu/ombuds-services/) web page. Services are free to all UNO students and employees.

Diversity, Equity, Access and Inclusion
The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its programs, activities, or employment.

Learn more about the Office of Diversity, Equity, Access and Inclusion (https://www.unomaha.edu/office-of-equity-access-and-diversity/)

Title IX
Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex (including gender identity) in any federally funded education program or activity.

To contact the Title IX Coordinator:
Phone: 402.554.2120
Email: equity@unomaha.edu

Learn more about Title IX (https://www.unomaha.edu/office-of-equity-access-and-diversity/title-ix-information/)

International Programs (INPR)
Current programs under INPR include:

International Student Advising (https://www.unomaha.edu/international-studies-and-programs/student-support/advising.php) for all international students and scholars.

The Education Abroad (https://www.unomaha.edu/international-studies-and-programs/study-abroad/) office assists students in exploring their many options for overseas academic programs.

The International Studies Major (https://www.unomaha.edu/international-studies-and-programs/academics/major.php) offers an interdisciplinary, career-focused bachelor's degree for students seeking to work in diplomacy, national security, non-governmental organizations, and international businesses.

ILUNO Intensive English (https://www.unomaha.edu/international-studies-and-programs/iluno/) is one of the oldest and most highly regarded English as a Second Language programs in the region.

The International Professional Development (IPD) Program (https://www.unomaha.edu/international-studies-and-programs/ipd/) offers an alternative way to learn English that is uniquely tailored to professionals.

The Center for Afghanistan Studies (https://www.unomaha.edu/international-studies-and-programs/center-for-afghanistan-studies/) continues to serve as America's primary cultural and scholarly link between the two countries.

For further information, contact the International Programs office at 402.554.2293 or world@unomaha.edu

Multicultural Affairs
The Office of Multicultural Affairs (MCA) is responsible for developing and maintaining programs and services to ensure the successful recruitment, retention, and graduation of underrepresented students on UNO's campus.
Through scholarship aid, academic services, and personal support, students are empowered to attain their educational and professional goals. Cultural programming includes celebrating cultural months (including Black History Month, Latino Heritage Month, Native Heritage Month, and Diversity Month) as well as three annual Native American events. MCA is inclusive of all UNO students. Learn more on the Multicultural Affairs website (https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/).

**UNO Graduate Studies**

UNO Graduate Studies offers over 70 graduate programs at Doctoral, Master’s, and Certificate levels. UNO is recognized as a Carnegie Doctoral Research University. Our graduate faculty represents the very best in their fields, earning national teaching awards, and they are dedicated to individual student instruction and mentoring. For additional information, visit the Graduate Studies website (https://www.unomaha.edu/graduate-studies/).

**Scholarships**

UNO has established a wide range of scholarship programs to recognize excellent high school achievement by first-year students and exceptional scholastic performance by upper-class students already in attendance at the university. For more information:

- Office of Financial Support and Scholarships
  103 Eppley Administration Building
  Omaha, NE, 68182
  402.554.2327
  financialaid.unomaha.edu (http://financialaid.unomaha.edu/)

**Digital Learning**

The Office of Digital Learning provides strategic direction to the campus for online and hybrid programs and courses, in addition to providing tier-two technology support for faculty. Digital Learning considers the areas of student support and preparedness for online learners, quality and instructional support for online instructors, and growth and process improvement for online initiatives at the institution. Working in close collaboration with UNO’s Center for Faculty Excellence, the instructional designers in the Office of Digital Learning support UNO faculty in developing and re-envisioning the delivery of courses in online and blended formats.

Jaci Lindburg - Director of Digital Learning • 402.554.2020 • jlindburg@unomaha.edu

**UNO Libraries**

The University of Nebraska Omaha (UNO) libraries include the Dr. C.C. and Mabel L. Criss Library (Criss Library) and the KANEKO-UNO Library. The Libraries fulfill the UNO mission through our dynamic services, highly qualified and adaptive personnel, unique and extensive collections, and accessible learning spaces and environments. For additional information, visit library.unomaha.edu (http://library.unomaha.edu/).

**Research**

At UNO, research is thriving because our students have access to resources they might not find at another university. Undergraduate and graduate students work with our faculty to understand and uncover new and innovative methods for solving problems. Learn more about the research at UNO (https://www.unomaha.edu/research/).

**MavIGATION Station**

The MavIGATION Station, located on the first floor of the Eppley Administration Building, provides general information and referrals to appropriate offices. The general information number is 402.554.2800 or 1.800.858.8648.

**Information Technology Services**

Information Technology Services supports most of the major computer systems on campus including email and Canvas, as well as the campus network and telecommunications. Email unohelpdesk@unomaha.edu for assistance.

**Milo Bail Student Center**

**Bookstore**

The UNO Bookstore, owned and operated by the University of Nebraska at Omaha, is located on the first level of MBSC. The Bookstore offers new and used textbooks, rental books, digital e-books, Omaha’s largest selection of UNO apparel, gifts, and home décor. The UNO Bookstore website, unobookstore.com (http://unobookstore.com/), offers free in-store pickup and free residence hall delivery for textbooks, apparel and more.

**Campus Recreation**

Campus Recreation (Campus Rec) supports students on their journey to living a healthy and balanced lifestyle while at UNO. If you are enrolled in at least one credit hour on-campus, a Campus Rec membership is included as part of your University Program and Facilities (UPF) Fees. There is no need to purchase a membership separately while taking an on-campus class. A valid membership is determined on a semester basis. If you are enrolled in an online, remote, research, or thesis class, a Campus Rec membership would need to be purchased. A purchase is necessary since these classes do not pay the University Program and Facilities (UPF) Fees. Campus Rec is located in the H&K Building. Learn more on the Campus Recreation website (https://www.unomaha.edu/student-life/wellness/campus-recreation/).

**Housing & Residence Life**

Housing and Residence life creates a positive residential experience and supports the evolving needs of students at UNO. Six different on-campus housing options are available to UNO students: Maverick Village (MV) and University Village (UV) on Dodge Campus; Scott Court (SC), Scott Crossing (SX), Scott Hall (SH), and Scott Village (SV) on Scott Campus. Housing and Residence life is proud to offer apartment, traditional, and graduate-style housing to UNO students. Learn more on the Housing and Residence Life
Website (https://www.unomaha.edu/student-life/housing-and-residential-life/)

**Parking Services**

For information on parking services, visit the parking services website (https://www.unomaha.edu/business-and-finance/support-services/parking-services/).

**Facilities**

Visit the UNO Buildings and Maps (https://www.unomaha.edu/about-uno/buildings-and-maps/) website for detailed information on buildings and locations.

**Alumni Engagement/NU Foundation**

The UNO Alumni Association (https://unoalumni.org/) and the University of Nebraska Foundation have partnered to advance the overall mission and priorities of UNO, and to connect the dreams and passions of alumni and friends with the mission of the university. Click here for more information (https://nufoundation.org/uno/areas/uno-alumni-association/).

**Public Safety**

Department of Public Safety

6001 Dodge St.

Eppley Administration Building Room 100

402.554.2648

For ON-CAMPUS EMERGENCIES dial 402.554.2911.

UNO Department of Public Safety is available to the University community 24-hours a day, protecting life and property, providing building and grounds patrol; enforcing traffic and parking rules and regulations, and encouraging everyone to follow University regulations; UNODPS also maintains the University key system, manages the safety of youth on campus, and provides crime prevention programs for all persons on campus.

**Title IX**

Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex (including gender identity) in any federally funded education program or activity.

To contact the Title IX Coordinator:

Phone: 402.554.2120

Email: equity@unomaha.edu

Learn more about Title IX (https://www.unomaha.edu/office-of-equity-access-and-diversity/resources/title-ix/).

**Security**

Buildings are patrolled 24 hours daily. Anyone found in a UNO building after established closing hours, without a UNO identification card, will be asked to leave. Report items stolen or damaged to the Department of Public Safety.

**University Building Access**

Department of Public Safety is responsible for the control of the university electronic access and key system. Eligible University employees should make requests for access (electronic or keyed) through their department chairperson.

**Services**

The Department of Public Safety provides assistance to motorists 24 hours daily. Officers respond to help get your vehicle started, open a locked vehicle, and will assist in a tire inflation where possible.

**Parking Traffic**

All accidents should be reported to Department of Public Safety immediately.

**Personal Escorts**

Officers are available to escort individuals to/from campus buildings 24 hours a day for anyone who has a safety concern.

**Personal Safety Checks**

Individuals who may be working alone, outside normal working hours are encouraged to contact Department of Public Safety. Security officers will periodically check on your safety while you are here.

**Operation I.D.**

Your personal belongings may be engraved to aid in finding lost or stolen property. Stop by the Department of Public Safety Office and check out an engraver and instructions to engrave your property.

**Lost and Found**

Department of Public Safety maintains the lost and found system. Lost and found items are held for 30 days.

**Fingerprints**

The Department of Public Safety provides a fingerprinting service for individuals who require fingerprint for job applications and military needs. This service also applies for children of students, staff, faculty, and alumni. It is strictly for the benefit of the parents should a child ever be missing; no record will be maintained by Department of Public Safety. Contact Department of Public Safety for times of service or an appointment at 402.554.2648.

**Environmental Health and Safety**

It is the goal of the university to provide a safe, healthy environment to work and study. In order to achieve this, Environmental Health and Safety (EHS) provides a number of training programs and consultation services for students, faculty and staff. Programs directed by EHS include: employee safety and passenger van training, hazardous waste management, emergency preparedness, fire protection, and accident investigations.

Safety Data Sheets and other information related to the safe handling and disposal of chemicals can be obtained from the EHS website. Students can help maintain a safe environment at UNO by reporting unsafe conditions on campus. Visit the EHS website (https://www.unomaha.edu/business-and-finance/support-services/environmental-health-and-safety/); call 402.554.3596, or visit EHS in 211 Eppley Administration Building.
Academic Focus Areas

An "Academic Focus Area" is a broad, interdisciplinary grouping of academic majors and courses that share similar themes. This framework allows UNO to provide coherence to our academic offerings and advising so that students can pursue their academic and professional goals while staying on-track for graduation. The courses recommended in these areas will count towards a degree in that respective area and fulfill general education requirements.

UNO has 5 Academic Focus Areas that expose students to introductory coursework, concepts, ideas, and professional skills within broadly related, interdisciplinary fields of study. Through advising, faculty guidance, and programmatic support, students are encouraged to cultivate their strengths, interests, and professional goals in pursuit of selecting a major program of study.

- Public Service, Healthcare, and Helping Professions (https://www.unomaha.edu/academics/academic-focus-areas/public-service-healthcare-helping-professions.php#psphp)
- Science, Technology, Engineering and Math (STEM) (https://www.unomaha.edu/academics/academic-focus-areas/steam.php#stem)
- Business and Innovation (https://www.unomaha.edu/academics/academic-focus-areas/business-and-innovation.php#bti)
- Culture, Ethnicity, and Social Justice (https://www.unomaha.edu/academics/academic-focus-areas/culture-ethnicity-social-justice.php#cesj)
- Creative Production and Performative Arts (https://www.unomaha.edu/academics/academic-focus-areas/creative-production-performing-arts.php#cppa)

College of Arts and Sciences

Vision Statement

To be recognized and respected throughout the United States as one of the premier Colleges of Arts and Sciences at a metropolitan university, maximizing our resources to build exceptional programs related to teaching, scholarship, creative activity, outreach, and service.

Mission Statement

The College of Arts and Sciences is a liberal arts college within a metropolitan university. The College serves as UNO’s standard-bearer for the tradition of liberal education, which emphasizes the importance of breadth of knowing and ways of knowing as central to a student’s education, and defending this view of education from critics who see the tradition as outdated, impractical, and unable to prepare students for the 21st century workforce. Courses of instruction are offered in the humanities, social sciences, natural sciences/mathematics, and interdisciplinary areas that cross traditional disciplinary lines in order to support a liberal education for the students of the College and to provide a significant portion of the general education requirements of the university.

We offer disciplinary and interdisciplinary majors and minors as well as programs at the bachelor’s, master’s, and doctoral levels. The College is committed to outstanding teaching and to significant scholarship and research activities of its faculty and students and encourages involvement with our metropolitan community and the world at large.

The College endorses the goals articulated by the Strategic Plan of the University of Nebraska Omaha to (1) achieve academic excellence, (2) place students at the center of our academic enterprise, and (3) actively engage our community.

General Information

The College of Arts and Sciences offers Bachelor of Arts and Bachelor of Science degrees, with a diversity of majors from the humanities, social sciences and natural sciences. The College also offers advising for many pre-professional programs preparing students for graduate or professional schools in medicine, allied health and law.

Academic majors are available in the following fields: bioinformatics, biology, molecular and biomedical biology, block studies, chemistry, economics, English, environmental science, foreign languages and literature, general science, geography, geology, history, interdisciplinary studies, international studies, Latino/Latin American studies, mathematics, medical humanities, neuroscience, philosophy, pharmaceutical sciences, physics, political science, psychology, religion, sociology, and women’s and gender studies.

The pre-professional programs of study are determined largely by the requirements of the graduate or professional schools which students intend to enter. If planned carefully, the requirements for a pre-professional program can also meet many of the requirements for a B.A. or B.S. degree. These pre-professional programs are not academic majors and a student seeking a degree from UNO must complete the requirements of a major as well. Pre-professional information can be found on the Arts and Sciences website (https://www.unomaha.edu/college-of-arts-and-sciences/).

Choice of Catalog Policy

A student registering in the College of Arts & Sciences for the first time may, except for the limitations described below, complete work for the degree according to the requirements of the catalog in effect during that year or during any subsequent year prior to and including the year the student applies for the degree.

Returning students who have not been enrolled for two or more years will complete work for the degree according to the requirements of the catalog in effect during the year they re-enroll or any subsequent year prior to and including the year the student applies for the degree.

The College of Arts & Sciences reserves the right to institute and make effective, after due notice, during the course of a student’s work toward a degree, any new ruling which may be necessary for the general good of the college and to substitute courses currently offered for those no longer offered.

Contact Information:
Arts and Sciences Advising Center

College Website (http://www.unomaha.edu/college-of-arts-and-sciences/)

Admission Requirements

All students who have not yet earned any college credit and who are eligible to enter the university are accepted for admission to the college. However, admission of transfer students or students who have previously been enrolled at UNO is evaluated on an individual basis. A 2.0 grade point average in previous course work is required for non-exploratory students.
Application deadline for admission: August 1 for fall semester, December 1 for spring semester.

**Academic Requirements for the College Degrees**

**Number of Hours to Graduate**

**College Rules**

**Upper-Division Rule**
Students must have at least 18 hours of upper-division course work in their major and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses).

**Forty-Five Hour Rule**
No candidate may count more than 45 credits in any one discipline toward completion of a major.

**Four Hour Rule**
No candidate may count more than four out of 120 credits in physical education activity classes.

**Minimum GPA/Additional Requirements**
Students seeking a degree must maintain an average grade of at least "C" (2.0) in all college work, including work transferred from other institutions.

**College of Arts & Sciences Requirements**

**Students must complete one of the three following alternatives:**

1. **Minor**
   - Students may complete any UNO minor. Arts and Sciences minors must contain at least 9 hours of upper-division work. In some cases, courses counting toward the minor may also be used toward the student’s cognate requirements when approved by the Educational Policy Committee of the College. See the respective departmental requirements for details. Minors are offered in the following Arts and Sciences fields: ancient Mediterranean studies, anthropology, biology, molecular and biomedical biology, black studies, chemistry, Chicano-Latino/a studies, economics, English, environmental science, ethics, foreign language and literature (French, German, Spanish), geography, geology, history, holocaust & genocide studies, human rights studies, international studies, Islamic studies, leadership & public policy, LGBTQ-Sexuality studies, mathematics, medical humanities, Medieval/Renaissance studies, Native American studies, philosophy, physics, political science, psychology, religion, sociology, sustainability, and women’s and gender studies. See the respective programs for details.

2. **Additional General Education**
   - The University has established minimum General Education requirements. This alternative is designed to further the purposes of liberal education by encouraging students to explore coursework in other areas.

   **Humanities/Fine Arts** (nine additional credit hours)
   - Three additional credit hours from a third discipline
   - HIST 1000 – World Civilizations I is required
   - HIST 1010 – World Civilizations II is required

   Transfer students who have taken two semesters of Western Civilization may count three hours toward the World Civilizations II requirement (HIST 1010) and then take three hours of HIST 1000 to complete their World Civilizations requirement, or they may take HIST 2190

   **Social Sciences** (three additional credit hours)
   - Three additional credit hours from a third discipline.

   **Natural and Physical Sciences** (four additional credit hours with a lab)
   - Four additional credit hours with a corresponding lab.

   **Quantitative Literacy** (three additional credit hours)
   - One additional three credit hour course in mathematics, computer science, statistics, logic or other quantitative topic as specified by the student’s major and approved by the college.

3. **Comprehensive/Double Major**
   - Students may earn more than one major or complete a comprehensive major approved by the College curriculum committee for this alternative. These comprehensive majors will require more than 50 credit hours total. Approved comprehensive majors are Bioinformatics, Biology B.S. with Education Concentration, Chemistry B.S. with a Concentration in Chemistry Education, Environmental Science, Interdisciplinary Studies with Individualized or Integrative Concentrations, Mathematics B.A. or B.S. with Mathematics Education Concentration, Neuroscience, and Physics B.S. with a Concentration in Physics Education.

**Requirements for the Bachelor of Arts Degree**

Students pursuing a Bachelor of Arts degree must complete a major, including at least 18 credit hours of upper-division work, (3000 or 4000-level courses) designated as appropriate by the faculty in one of the following fields: biology, chemistry, economics, English, foreign language and literature, geography, geology, history, interdisciplinary studies, international studies, Latin/Latin American studies, mathematics, medical humanities, philosophy, physics, political science, psychology, religion, sociology, and women and gender studies. A student meeting the requirements in each of two fields may present a double major in these fields, provided that the disciplines do not overlap significantly in requirements and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses) is completed.

For Bachelor of Arts students, foreign language through the intermediate level is required, as described in the next paragraph.

**Foreign Language**

For Bachelor of Arts degree-seeking students only, students must complete 16 credit hours of college work in one foreign language, American Sign Language, or equivalent. Up to five credit hours may be used toward the general education requirements. Successful completion of four years of a single language in high school or four college semesters will satisfy this requirement. For unusual circumstances, please contact the Arts & Sciences Advising Center. Speakers of native languages should contact their advisor to discuss options.

A student fulfilling the foreign language requirement through a combination of high school and college work must complete the fourth semester college course of their chosen language.

To enroll in any French, German, Japanese, or Spanish course beyond 1110, a student who has not successfully completed the prerequisite courses at UNO must take the appropriate placement exam and qualify for the desired course. All students are subject to this requirement including transfer students (including those from UNK/UNL). The Department of Foreign Languages reserves the right to cancel the registration of any student who has not met the prerequisites for a course. Transfer courses at the 3000/4000 level are subject to the approval of a departmental adviser and the department chair. All foreign language courses must be completed with a grade of “C-” or better to continue to the next course.
The Department of Foreign Languages will grant retroactive credit for French, German, Japanese, or Spanish 1110, 1120, 2110, or 2120 subject to the following conditions:

- a student who completes any French, German, Japanese, or Spanish course in the 1120-2120 sequence with a grade of "C−" (1.67) or better at UNO without having completed the previous courses may be granted credit for those previous courses;
- a student who completes a 3000-level course in French, German, or Spanish with a grade of "C−" (1.67) or better at UNO without having completed the 1110-2120 sequence may be granted credit for any of the courses 1110, 1120, 2110, and 2120 for which credit has not already been earned.

Requirements for the Bachelor of Science Degree

The Bachelor of Science degree provides greater opportunity for concentrated and specialized study in a particular field, generally in the natural or social sciences. The requirements for the Bachelor of Science degree are the same as those for the Bachelor of Arts degree except as follows: Each degree candidate must complete a major including at least 18 credit hours of upper-division work (3000 or 4000-level) designated as appropriate by the faculty in one of the following fields: bioinformatics, biology, block studies, chemistry, economics, environmental science, general science, geography, geology, history, interdisciplinary studies, mathematics, medical humanities, molecular and biomedical biology, neuroscience, pharmaceutical sciences, physics, political science, psychology, and sociology. A student meeting the requirements in each of two fields may present a double major in these fields, provided that the disciplines do not overlap significantly in requirements and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses) is completed.

Foreign language is not required for students completing a B.S. degree. Instead, students must complete cognate courses as described in the next paragraph.

Cognate Courses

Each Bachelor of Science degree requires a minimum of 15 credit hours from cognate fields, outside the student’s major department. Up to six credit hours may be used toward the general education requirements. These cognate courses must support the student’s work within the major. Each department shall determine criteria and procedures for the selection of courses for each student; these criteria and procedures should be approved by the Educational Policy Committee of the College. In most cases, students completing a minor or double major for the College of Arts and Sciences Requirements may not count the coursework for the same minor or double major toward their cognate coursework, unless approved by the Educational Policy Committee of the College. See the respective departmental requirements for details.

Transfer Credit Policy

The University allows transfer of a maximum of 64 credit hours from community colleges. STEM majors may transfer 67 credit hours from community colleges. The Arts and Sciences Advising Center should be contacted for information on transferability of courses applying to College of Arts and Sciences requirements. Students may be referred to departmental advisors for transferability of courses toward major or minor requirements.

Unacceptable Credits

Remedial, developmental, or technical coursework may not be used toward the fulfillment of the 120 credit hour requirement.

Courses taken at a community college that are upper-division level courses in the College of Arts and Sciences may not be counted as equivalent to upper-division Arts and Sciences courses. At the discretion of the advisor and the department, these courses may be used toward required or elective coursework but may not be used to meet upper-division requirements.

Retroactive Credit Policy

Placement Exams and Credit by Examinations Policies/Practices

https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/testing-center/ (p. 64)

Residency Requirement

At least 30 credits of a student’s bachelor’s degree must be taken at UNO. Some majors and minors may have residency requirements in addition to this and the chairperson for the department of the major or minor should be contacted for information.

Quality of Work

Students seeking a degree must maintain an average grade of at least “C” (2.0) in all college work, including work transferred from other institutions. Students must earn a grade of at least “C−” (1.67) in all coursework intended to satisfy general education, major or minor requirements, however some majors may require a minimum of a “C” (2.0). (Courses passed with less than a C− can still count as elective credit used towards the 120 credits needed to graduate, but will not satisfy specific requirements.) To qualify for a grade of “CR” in any course in the College of Arts and Sciences, a student must earn a grade of at least “C−” (1.67) in that course. All grades reported by the faculty to the registrar become part of the students’ permanent records and are included in the computation of their grade point averages, even though some of these grades may be for work done in excess of the 120 hours required for graduation. In order to graduate, students must attain a minimum cumulative GPA of 2.0 (“C”). The only exception to this rule is provided in the section of these requirements entitled “Amnesty Clause.”

Appeal Process

Summary

The College of Arts and Sciences establishes the following procedures for review of grade appeal cases for all Arts & Sciences courses. In keeping with The University of Nebraska Board of Regents Bylaws and Policies,
the College provides an appeals procedure for students who believe that evaluation of their academic progress has been prejudiced or capricious. If all attempts at informal resolution fail, a student may file a formal written grade appeal with the appropriate department chair or program administrator within the first four weeks of the next regular semester.[1] (https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#college) If either a student or an instructor wishes to appeal a department or program grade appeal decision, the student or instructor may file a formal appeal with the College. The College appeal (https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#college) is the final level of grade appeal.

I. Department or Program-level Procedure

1. A student wishing to contest a grade should first consult the instructor for the course to make certain that the disputed grade is not the result of simple error or misunderstanding. It is recommended that the student contact the instructor immediately after the final course grade is posted. If the instructor is unavailable, the student should contact the department chair or program administrator.

2. If the student and instructor are unable to resolve the conflict informally, the student should contact the department chair or program administrator who may attempt informal mediation. It is recommended that all informal consultations be concluded within the first two to three weeks of the next regular semester. Timeline (https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#timeline)

3. If attempts at informal resolution fail, a student may file a formal written appeal with the department chair or program administrator within the first four weeks of the next regular semester. The written appeal must include explanation and evidence of prejudice or caprice in grading and an explicit statement regarding the outcome the student seeks. Evidence should include pertinent course materials, such as the course outline or syllabus, written instructions for assignments, and graded student work. The chair or administrator will form a grade appeal committee and provide a copy of the written appeal to the instructor.

4. Following receipt of the written appeal, the instructor has up to one week to provide a written response to the appeal to the department or program committee.

5. The department or program appeal committee must conclude appeal deliberations and communicate a decision to the student and instructor within two weeks of receipt of the instructor’s response. The appeal committee must be composed of at least three faculty and at least one student. If the committee finds that prejudice or caprice affected the final grade, the department chair or program administrator will change the student’s grade.

6. The department or program committee must submit a report to the associate dean of undergraduate education for the College of Arts & Sciences. Submissions may be sent to the Dean’s Office at unocasdean@unomaha.edu or Arts & Sciences Hall, Room #280 within one week of its final decision. The report must include the following:

- the student appeal
- the instructor response
- a list of all grade appeal committee members
- copies of any documents consulted in developing the final grade appeal decision
- a statement from the chair, administrator, or grade appeal committee chair including an explanation of how the department’s procedures were followed, a timeline of the appeals process, a rationale for the final decision, and an explanation of how the final course grade was calculated.

[1] Regular semesters are fall and spring semesters. To appeal a grade from a fall course, the student must file a written appeal within the first four weeks of the next spring semester. To appeal a grade from a spring course, the student must file a written appeal within the first four weeks of the next fall semester. To appeal a grade from a summer course, the student must file a written appeal within the first four weeks of the next fall semester.

II. College-level Procedure

A. UNO Graduate Studies (graduate courses) Students and faculty wishing to file an appeal of a department or program grade appeal decision for a graduate course should contact the Graduate Studies Office at UNO (https://www.unomaha.edu/graduate-studies/) for information on Graduate College procedure. The following College of Arts & Sciences procedure does not apply.

B. College of Arts & Sciences (undergraduate courses)

1. Any student or instructor wishing to file an appeal of a department or program appeal committee decision must submit a written appeal to the associate dean of undergraduate education for the College of Arts & Sciences within one week after that decision. Such appeals may be sent to the Dean’s Office at unocasdean@unomaha.edu or Arts & Sciences Hall, Room #280 and must include the following:

   - an account of the facts surrounding the awarding of the disputed grade;
   - a complete account of steps taken at the department or program level to resolve the dispute;
   - copies of documents relevant to the grade appeal, including a copy of the course syllabus;
   - an explanation of how the relevant grades were calculated/ miscalculated.

2. Upon receiving the written appeal, the associate dean of undergraduate education will notify the chair of the College of Arts & Sciences Educational Policy Committee (EPC) of the need to convene an appeal committee and will forward the department’s report as well as the written appeal to the EPC chair. The associate dean of undergraduate education will also notify the dean of the need to appoint two student committee members.

3. The College appeal committee will include all members of the EPC who are not members of the department in question and at least two student members who are appointed by the dean. A final decision on the appeal by this committee will be due two weeks after the EPC chair receives the written appeal and the department or program report.

4. In ruling on grade appeals, the College committee will not attempt to resolve disputes about a student’s knowledge of a particular subject matter. The committee’s responsibilities do extend, however, to matters of both substance and process. Regarding substance, the committee will determine whether evaluation of a student has been prejudiced or capricious. Regarding process, the committee will determine whether or not grade appeal procedures have been followed.

5. In response to an appeal of a department or program process, the committee will determine whether grade appeal procedures have been completed in a reasonable manner. If procedures are not complete, the committee may require the department or program appeal committee to reconvene.

6. In response to an appeal based on charges of caprice or prejudice in grading, the committee may determine that it concurs with the judgment of the department or program appeal committee and will adopt the original recommendation on the matter as its own. OR The committee may determine that an academic evaluation by an instructor has been improper, or that the instructor’s evaluation was wrongly held to be improper as the result of the original grade appeal,
and it will advise the dean that the student’s grade should be changed accordingly.

Grade Appeal Policy
1. The College of Arts & Sciences will set grade appeal policies and procedures that operate within the University of Nebraska Board of Regents Bylaws and Policies

Byllaws of the University of Nebraska Board of Regents Chapter V—(January 25, 2018) 5.3 Academic Evaluation.

“Each College or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student’s evaluation upon the committee’s finding that an academic evaluation by a member of a faculty has been improper.”

University of Nebraska Board of Regents Policies Chapter 5.—(October 3, 2018) Instructional and Grading Procedures 2b.

“...The faculty of each department, school, or equivalent unit shall provide a committee to consider the appeal of those cases in which a student feels the performance evaluation was unfair. Colleges shall provide standing committees to consider cases in which the student or faculty member chooses to appeal the initial decision. Any of these committees shall have the authority to direct changes in the grade based upon its findings.”

2. The College of Arts & Sciences will maintain department and program grade appeal policies and procedures that operate within the University of Nebraska at Omaha Graduate Office grade appeal policies and procedures so that, at the department/program level, there is one procedure for both undergraduate and graduate appeals.

3. The College of Arts & Sciences will operate within the parameters set by the Board of Regents and the Graduate Office but will set additional requirements and deadlines.

4. The College of Arts & Sciences will set deadlines and procedures for grade appeals that will allow resolution of both the department/program appeal and the undergraduate college appeal within the first ten weeks of regular semesters, allowing students filing appeals to make informed decisions for early registration and to move forward with their academic careers.

5. Departments and programs within the College of Arts & Sciences will maintain grade appeal policies and procedures that operate within the College of Arts & Sciences Grade Appeal Policies and Procedures for Departments and Programs.

Academic Amnesty
A student who didn’t perform well during one or both of their first two semesters at UNO, UNL or UNK, may petition the Educational Policy Committee to have either or both of their first two semesters’ grades removed from their cumulative grade point average (GPA). No other semesters may be considered. Students may choose to keep courses taken during those first two semesters in which a minimum grade of “C-” (1.67) was earned. If a student chooses to keep these courses, they will count towards degree requirements, credits towards graduation and they will contribute to the cumulative grade point average.

This petition is subject to the following stipulations:

• The student is responsible for initiation of the petition.
• The student must complete at least 24 consecutive semester hours of coursework with a GPA of 2.5 or higher from any of the University of Nebraska system universities (UNO, UNL and UNK) before a petition will be considered.
• The only semesters eligible for amnesty are the first two semesters from any of the University of Nebraska system universities (UNO, UNL or UNK).
• The Arts and Sciences Advising Center will make the calculations based on college rules and report cases in question to the Educational Policy Committee.
• Students who are granted academic amnesty cannot be considered for degrees with honors at graduation.
• Even if academic amnesty is granted, grades that are removed from the student’s GPA will still show on their academic transcripts, therefore will be seen by anyone evaluating those transcripts.

Therefore, students may petition to have grades from courses in either or both semesters of their University of Nebraska freshman year removed from their cumulative grade point averages, but may count courses in which they earn at least a “C-” toward graduation requirements. Academic amnesty is not allowed after a student has graduated.

Academic Probation and Suspension
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 30)

Reinstatement Policy Following Academic Suspension
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 30)

Academic Advising
Advising in the College of Arts and Sciences is shared between the Arts and Sciences Advising Center, Health Careers Resource Center, departmental major advisors, and the Academic and Career Development Center,

• Bioinformatics, Biology, and Mathematics majors will have all their advising done with their major advisor.
• Pre-dental hygiene, pre-nursing, and pre-radiation science technology students will have all their advising done with the Health Careers Resource Center.
• Exploratory Studies students will have all their advising done with the Academic Career Development Center up until 45 earned credits or the declaration of either the Integrative Studies or Individualized Studies concentration within the Interdisciplinary Studies major, or declaration of a different major entirely.
• All other pre-health students and majors will begin with the Arts & Sciences Advising Center and transition to a major advisor once they have a declared major and at least 27 earned credits, which is sophomore standing.

Advising Holds
https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/ (p. 23)

Student Holds
https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/ (p. 23)

Senior Check
After completing 91 hours of course work, students must request a Senior Check/Graduation Check from the Arts & Sciences Advising Center. Provided that the student follows the guidance on the form and assuming satisfactory completion of all approved courses, this process
will assure the student’s graduation date. Should this procedure not be followed, responsibility for meeting graduation requirements falls on the student; if errors are made they can prevent graduation at the anticipated date. Multiple options exist for Senior Checks to be conducted, and are outlined on the Arts and Sciences Advising Center website (https://www.unomaha.edu/college-of-arts-and-sciences/academic-advising-center/).

**Arts and Sciences Minors**

- Ancient Mediterranean Studies Minor (p. 74)
- Anthropology Minor (p. 338)
- Biology Minor (p. 94)
- Black Studies Minor (p. 100)
- Chemistry Minor (p. 113)
- Chicano/Latino Studies Minor (p. 217)
- Economics Minor (p. 120)
- English Minor (p. 135)
- Environmental Science Minor (p. 147)
- Ethics Minor (p. 284)
- French Minor (p. 161)
- Geography Minor (p. 176)
- Geology Minor (p. 187)
- German Minor (p. 161)
- History Minor (p. 194)
- Holocaust and Genocide Studies Minor (p. 194)
- Human Rights Studies Minor (p. 195)
- International Studies Minor (p. 210)
- Islamic Studies Minor (p. 211)
- Leadership and Public Policy Minor (p. 308)
- LGBTQ Sexuality Studies Minor (p. 344)
- Mathematics Minor (p. 252)
- Medical Humanities Minor (p. 259)
- Medieval/Renaissance Studies Minor (p. 261)
- Molecular and Biomedical Biology, Minor (p. 267)
- Native American Studies Minor (p. 267)
- Philosophy Minor (p. 284)
- Physics Minor (p. 296)
- Political Science Minor (p. 308)
- Psychology Minor (p. 320)
- Religion Minor (p. 326)
- Sociology Minor (p. 338)
- Spanish Minor (p. 162)
- Sustainability Minor (p. 148)
- Women’s and Gender Studies Minor (p. 344)

**Ancient Mediterranean Studies Minor**

**Description**
The interdisciplinary Ancient Mediterranean Studies (AMS) minor was designed to give students an in-depth understanding of the history of the Mediterranean and Ancient Near East from the beginning of the Bronze Age through the Roman Empire in the West, and the Byzantine Empire in the East.

**Other Information**
All coursework taken for the Ancient Mediterranean Studies minor must be completed with a grade of C- or better.

**Contact**
Jeanne Reames, PhD, Ancient Mediterranean Studies Director
mreames@unomaha.edu

Website (http://www.unomaha.edu/ams/)

**Requirements**
Undergraduate students will be expected to complete 15 credit hours of AMS courses with a grade of C- or higher in at least three departments, including art history, English, history, philosophy, political science, or religious studies. 12 hours of these must be courses at the 3000-4000 level. A course in another department than those listed may be permissible with review and approval by AMS faculty. See below for a list of approved courses.

While a language is not required for the minor, taking Latin is strongly recommended, especially for graduate students and any undergraduates who have plans to continue their studies in graduate school. Other relevant languages (Greek, Hebrew, Aramaic, etc.), acquired through other venues, are equally acceptable.

Bioinformatics

Bioinformatics is an interdisciplinary scientific field that addresses problems related to the collection, processing, and analysis of the vast amounts of data describing the structure and function of biological systems, combining aspects of computer science, molecular biology, chemistry and mathematics. Bioinformatics merges computer and information science with the study of genetic information and biological structures. Bioinformatics allows researchers to open new windows of insight into our genetic makeup, providing pathways to understanding disease processes, and creating novel diagnostic and treatment strategies. To capitalize on the growing body of knowledge regarding the genome, there is an immense and growing need for experts in this field.

A graduate of the UNO bioinformatics program will possess a solid background in a wide variety of positions throughout the biomedical and biotechnology industries, providing a solid foundation for graduate studies in bioinformatics or related areas and, with the addition of a few courses, medical school. One of the benefits of completing the Arts and Sciences major in bioinformatics will be the opportunity to conduct a research project with a faculty member in Arts and Sciences, applying bioinformatics skills to address a central question in the life sciences.

Other Information

All coursework taken for the Bioinformatics major must be completed with a grade of “C-” or better.

Contact Information

114 Allwine Hall

Website (http://www.unomaha.edu/college-of-arts-and-sciences/biology/academics/bioinformatics.php)

Degrees Offered

• Bioinformatics, Bachelor of Science (p. 77)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the bioinformatics major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline-specific writing as part of their requirements. To satisfy the requirement for writing in the discipline, students must complete BIOL 1450 and BIOL 1750, both BIOL 2140 and BIOL 3020 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. For the bioinformatics major, the two additional approved 3000/4000 level courses will be BIOL 4130/BIOL 4140 and BIOL 4560. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing ENGL 2400 or ENGL 3980.

Bioinformatics is an interdisciplinary scientific field that addresses problems related to the collection, processing, and analysis of the vast amounts of data describing the structure and function of biological systems, combining aspects of computer science, molecular biology, chemistry and mathematics. Bioinformatics merges computer and information science with the study of genetic information and biological structures. Bioinformatics allows researchers to open new windows of insight into our genetic makeup, providing pathways to understanding disease processes, and creating novel diagnostic and treatment strategies. To capitalize on the growing body of knowledge regarding the genome, there is an immense and growing need for experts in this field.

*Other possible job titles:

• Bioinformatics Analyst
• Bioinformatics Database Developer
• Bioinformatics Scientist
• Genomics Data Analyst
• Biostatistician

*Some positions may require graduate study

BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)

Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics will include an overview of the biology, mathematics and computer science needed to understand these and tools.

Distribution: Natural/Physical Science General Education course

BIOI 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)

Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.

Prerequisite(s)/Corequisite(s): BIOI 1000 or BIOI 1450
**BIOI 3000 APPLIED BIOINFORMATICS (3 credits)**
This course will provide students with the practical skills needed for the analysis of -omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computation tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.

**Prerequisite(s)/Corequisite(s):** BIOI 2000 and CIST 1400; or permission of instructor.

**BIOI 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)**
Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.

**Prerequisite(s)/Corequisite(s):** BIOI 3000 and CSCI 1620; or permission of instructor. CSCI 3320 is strongly recommended but not required.

**BIOI 4500 INDEPENDENT STUDY (1-3 credits)**
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.

**Prerequisite(s)/Corequisite(s):** Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

**BIOI 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)**
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.

**Prerequisite(s)/Corequisite(s):** Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

**BIOI 4860 BIOINFORMATICS ALGORITHMS (3 credits)**
The main objective of this course is to provide an organized forum for students to learn recent developments in Bioinformatics, particularly, from the algorithmic standpoint. The course will present basic algorithmic concepts in Bioinformatics and show how they are connected to molecular biology and biotechnology. Standard topics in the field such as restriction mapping, motif finding, sequence comparison, and database search will be covered. The course will also address problems related to Bioinformatics like next generation sequencing, DNA arrays, genome rearrangements and biological networks. (Cross-listed with BMI 8866).

**Prerequisite(s)/Corequisite(s):** CSCI 3320 and BIOL 1450; Or permission of instructor.

**BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)**
This required course for undergraduate bioinformatics majors provides foundational knowledge on database aspects used in the field and an overview of their applications in bioinformatics, biomedical informatics, and health/clinical informatics. The course begins with a brief review of key concepts in computational molecular biology related to database search/development, database management systems, the difference between primary and secondary databases, and bioinformatics-related aspects of modeling and theory in computer science. The major focus is on the multiple challenges and aspects of bio-database development, search, and pattern discovery. The course uses problem-based learning to help students develop database management skills as they apply to high throughput -omics data, the basics of data management, data provenance and governance, standards, and analysis through KDD-based workflows. This course will also consider the fundamentals of artificial intelligence and machine learning as they pertain to bioinformatics, from the perspective of database storage, I/O, and analysis. (Cross-listed with CSCI 8876).

**Prerequisite(s)/Corequisite(s):** CSCI 4850 or permission of instructor. Not open to non-degree graduate students.

**BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)**
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the class will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny.

**Prerequisite(s)/Corequisite(s):** Junior or senior-level standing in the Bioinformatics program or permission from the instructor. Not open to nondegree students.

**BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)**
This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.

**Prerequisite(s)/Corequisite(s):** Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.

**BIOI 4970 SENIOR PROJECT IN BIOINFORMATICS I (1 credit)**
This course is the first part of a two-part series that allows students to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to decide on a research topic and to write a detailed proposal based on this topic that outlines the goals and objectives of the proposed research. The topic and proposal will be approved by the supervising faculty member.

**Prerequisite(s)/Corequisite(s):** BIOI 4860 and BIOI 4870; BIOI 4870 can be taken concurrently. Senior level status in the Bioinformatics program. Not open to nondegree students.

**BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II (2 credits)**
This course is the second part of a two-part series that allows the student to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to perform the research proposed in Part I of the course and to present the results of his or her work. Presentations will be made in the form of a report, written as a scientific research paper, and an oral defense.

**Prerequisite(s)/Corequisite(s):** Junior or senior-level standing in the Bioinformatics program or permission from the instructor.
**BIOI 4990 INDEPENDENT STUDY IN BIOINFORMATICS (1-3 credits)**
This is a variable-credit course designed for the junior or senior bioinformatics major who would benefit from independent reading assignments and research-type problems. Independent study enables coverage of topics not taught in scheduled course offerings.
**Prerequisite(s)/Corequisite(s):** Junior/senior standing, permission of supervising faculty member & approval of Bioinformatics UG Prog Comm Chair. A formal description of the problem area to be investigated, the resources to be used, & the results to be produced must be prepared.

---

**Bioinformatics, Bachelor of Science (College of Arts and Sciences)**

To obtain a BS in Bioinformatics, a student must fulfill university, college, and departmental requirements. Bioinformatics is an interdisciplinary major and, as such, satisfies the college requirement for breadth. Other hour requirements follow:

- 46 hours of University General Education courses –Most commonly, Bioinformatics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often do the following:
  - Test out of at least three hours of fundamental academic skills,
  - Take courses that meet both the six hours of diversity requirements and six hours of distribution requirements,
  - Meet the seven-hour natural sciences distribution requirement through completing major courses.
In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

- 77-79 hours of major courses
- 0-13 hours of electives

**TOTAL HOURS: 120**

**Double Majors**
For a double major in Bioinformatics and Biology or Bioinformatics and Molecular and Biomedical Biology, beyond BIOI 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both majors.

**Major and Minors**
For a Bioinformatics major and a Biology or Molecular and Biomedical Biology minor, beyond: BIOI 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both major and minor.

**Requirements**
The Bachelor of Science in bioinformatics degree requires a minimum of 120 credit hours for its completion. Required courses are below.

The required courses are:

*CHEM 1140:** Requires MATH 1220 or higher or appropriate ACT/SAT/Math Placement Exam within the last 2 years. Must take CHEM 1144 concurrently.

**BIOI 1750:** Requires BIOI 1450.

***BIOI 3500:** Requires BIOI 3000 and CSCI 1620. CSCI 3320 is strongly recommended but not required.

**CSCI 3320:** Requires CSCI 1620 with a grade of C or better and CSCI 2030 or MATH 2030 or MATH 2230 with a grade of C- or better.

Social Sciences

**CIST 3110:** Counts as a Humanities/Fine Arts and required major course.

**SS:** Must be in a 2nd discipline.

## Students must have a minimum of 120 credits to graduate

With no less than 27 credits of 3000/4000 level coursework throughout the entire degree. Electives may be needed to reach these minimums.

### Credits 15-17

### Total Credits 120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for
the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**“Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:** 2.0

### Biology

The biology degree allows students to explore biological topics that span the breadth of biology. A diverse selection of courses enable students to obtain a very broad expertise or to follow a specialized area of the discipline. The biology major prepares students for a wide range of career choices.

#### Other Information

All coursework taken for the Biology major or minor must be completed with a grade of "C" or better.

### Double Majors

For a double major in **Biology and Molecular and Biomedical Biology**, beyond BIOL 1450, BIOL 1750, BIOL 2140 and BIOL 3020, no other biology courses may count for both majors.

For a double major in **Biology and Bioinformatics**, beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both majors.

For a double major in **Biology and Environmental Studies—Life Sciences**, students may not count the same 3000-4000 level Biology courses towards both majors. Double majors are required to take a minimum of 5 additional upper division BIOL courses that are not part of the other major. These courses must be approved by the advisor and at least three of these must be lab courses. BIOL 3150 may not count as part of these upper division courses.

For a double major in **Biology and Psychology or Biology and Neuroscience**, beyond the required fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors.

For a double major in **Biology and Chemistry**, 3000/4000 level courses may count toward both majors. In cases where students are earning two distinct degrees (a BA and BS) with one major in Biology and the other in Chemistry, 3000/4000 level courses will not count toward both programs.

### Majors and Minors

For a major in **Biology and a minor in Psychology**, with the exception of PSYC 3130, students cannot use a 3000/4000 level course to count toward both programs.

For a major in **Neuroscience and a minor in Biology**, students cannot use a 3000/4000 level course to count toward both programs.

Students may not earn a **Molecular and Biomedical Biology major and a Biology minor**.

For a major in **Biology and minor in Chemistry**, 3000/4000 level courses may count toward both programs.

### Residency Requirement for Biology Majors

To fulfill degree requirements, upper level courses with labs need to be taken at UNO.

### Contact

114 Allwine Hall
402.554.2641

Website (http://www.unomaha.edu/college-of-arts-and-sciences/biology/)

### Degrees Offered

Students may choose to pursue a Bachelor of Arts in Biology or a Bachelor of Science in Biology. Each degree option requires at least 36 credits of biology courses of which 18 credits must be 3000-4000 level courses.

- Biology, Bachelor of Arts (p. 86)
- Biology, Bachelor of Science (p. 88)
- Biology, Bachelor of Science with a Concentration in Education (p. 91)

### Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the biology major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline specific writing as part of their requirements. To satisfy the requirement for the writing in the discipline course students must complete BIOL 1450 and BIOL 1750, two courses from BIOL 2140, BIOL 3020 and BIOL 3340 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing BIOL 3150 or another college-approved advanced writing course.

### Minors Offered

- Biology Minor (p. 94)

Biology is broadly speaking the science of life (living and past) and it encompasses many specializations. The curriculum provides a foundation across the discipline along with the opportunity for in depth training in specialty areas in molecular and cell biology, animal and plant biology, genetics, and ecology. The curriculum emphasizes hands-on laboratory and research experiences.

- Laboratory Research Technician
- Genetic counselor
- Health communications
- Wildlife biologist
- Research scientist
- Technical writer
- Environmental consultant
- Health professions
- Educator

### BIOL 1020 PRINCIPLES OF BIOLOGY (4 credits)

Principles of Biology introduces fundamental concepts at all levels of organization in biology. The laboratory emphasizes inquiry-based and problem-oriented approaches to these concepts. Must enroll in one laboratory. Usually offered Fall, Spring, Summer.

**Prerequisite(s)/Corequisite(s):** ENGL 1150 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in English 1050 or 1100, ACT English subscore of 20 or higher, or permission of the department.

**Distribution:** Natural/Physical Sci General Education lecture&lab
BIOL 1060 INTRODUCTION TO MEDICAL CAREERS & ETHICS (2 credits)
A general overview of modern healthcare professions, plus foundational career concepts which include vocational discernment, undergraduate preparation, healthcare ethics, HIPAA certification, challenges and opportunities in healthcare, and evidence-based medicine. An exploration of various careers in healthcare is included. Intended as a preparatory healthcare professional course. Usually offered during the Fall, Spring, and Summer semesters.

BIOL 1160 TERMINOLOGY OF HUMAN HEALTH & DISEASE (2 credits)
This completely online course is designed to help students learn clinical terminology in relation to human health and disease. The course will cover root words, terms, and phrases relating to human anatomy, disease conditions, and clinical procedures. The course will also serve as a survey of human diseases across all major organ systems, and common procedural diagnostics and treatments.

BIOL 1330 ENVIRONMENTAL BIOLOGY (3 credits)
This course is a study of human ecology with emphasis on the effects of human populations on the earth's resources and on the environment. Usually offered Fall, Spring, Summer. Distribution: Natural/Physical Science General Education course

BIOL 1350 SCIENCE OF FOOD (3 credits)
A basic and applied science, general education course emphasizing scientific concepts in biology, chemistry and physics using food as a model. Students will study food from its chemical and nutritional perspectives and the fate of food from production to consumption. (Cross-listed with FSCI 1310).
Distribution: Natural/Physical Science General Education course

BIOL 1450 BIOLOGY I (5 credits)
First semester of a two semester series on the general principles of biology. Concepts including the chemical and physical basis of living systems, cell structure and function, energy and metabolism, genetics and molecular genetics, and evolution of biological diversity will be presented. Laboratory will provide inquiries into these same topics. Intended as the first course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.
Prerequisite(s)/Corequisite(s): High school biology and chemistry. College level chemistry recommended.
Distribution: Natural/Physical Science General Education lecture&lab

BIOL 1750 BIOLOGY II (5 credits)
Second semester of a two semester series on the general principles of biology. Introduction to the study of life, concentrating on whole organisms and their interactions with the environment. This course will focus on evolution and natural selection, biodiversity, physiologic responses to the environment, organ systems, population dynamics, community ecology, and energy and material flow through ecosystems. Laboratory will provide inquiries into these same topics. Intended as the second course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.
Prerequisite(s)/Corequisite(s): Prerequisite is BIOL 1450. College level chemistry is recommended.

BIOL 2030 INTRODUCTORY TOPICS IN BIOLOGY (3 credits)
This course is a lecture and/or laboratory course for Biology and non-Biology majors pertaining to a specific biological topic not available in the regular curriculum. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit if the topic differs.
Prerequisite(s)/Corequisite(s): Instructor permission.

BIOL 2060 ART AND SCIENCE OF MEDICAL DECISION-MAKING (3 credits)
The course explores multiple facets of medical decision-making, including the perspective of the patient, the family, and the healthcare provider. Topics include basic anatomy and medical terminology, which will be used to understand decision-making in the context of the provider. Students use literature and other records to generate and critically evaluate clinical decisions. The course does not satisfy requirements for degree programs in the Department of Biology minor, BA, BS in Biology; BS in Biotechnology. (Cross-listed with MEDH 2060).

BIOL 2120 SUSTAINABLE LANDSCAPE PLANTS (4 credits)
This course focuses on the identification of native and adapted landscape plants, including herbaceous perennials, groundcovers, vines, trees and shrubs in natural and urbanized landscapes. In addition, it covers the ecological and design contexts for the landscape roles, sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with ENVN 2120).
Prerequisite(s)/Corequisite(s): BIOL 1060 or concurrent.

BIOL 2140 GENETICS (4 credits)
This course provides students with a foundational understanding of genetics. First, students will learn to analyze patterns of Mendelian inheritance. Then, they will develop molecular explanations for these patterns and understandings of how gene genes are defined and identified. They will also learn how variations in inheritance patterns arise, using analytical and statistical tools to distinguish between variations on inheritance patterns and to analyze quantitative traits. Then, students will focus in on the nucleus to examine the structure, organization, packaging, and inheritance of chromosomes. They will consider the consequences of genetic recombination on inheritance patterns and for genetic mapping.
Prerequisite(s)/Corequisite(s): Prerequisites are BIOL 1450 and 1750, CHEM 1140 or 1180 or the equivalent or permission of the instructor. Must enroll in discussion.

BIOL 2440 THE BIOLOGY OF MICROORGANISMS (4 credits)
An introduction to the structure and properties of different types of microorganisms, the importance of microorganisms to our society and our environment, the methods used to control microorganisms, the diseases caused by microorganisms and the defenses of the human body against microorganisms including immune cells. Must enroll in one lab section. Usually offered in Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): High school biology and chemistry.

BIOL 2740 HUMAN ANATOMY AND PHYSIOLOGY I (4 credits)
This course is designed for students interested in human healthcare professions and anyone interested in learning about the structures and functioning of the human body. Material covered will include introductory terminology as well as the anatomy and physiology of the integumentary, skeletal, muscular, and nervous systems and the special senses. Usually offered Fall, Summer.
Prerequisite(s)/Corequisite(s): High school or college biology or zoology and high school or college chemistry. Must enroll in one lab section.

BIOL 2840 HUMAN ANATOMY AND PHYSIOLOGY II (4 credits)
This course is designed for students interested in human healthcare professions and anyone interested in learning about the structures and functioning of the human body. Material covered will include the anatomy and physiology of the endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive systems. Usually offered Spring, Summer.
Prerequisite(s)/Corequisite(s): BIOL 2740 or permission of instructor. Must enroll in one lab section.
**BIOL 3020 MOLECULAR BIOLOGY OF THE CELL (3 credits)**
A study of molecular and cellular biology. Topics to be covered include gene expression and regulation, structure and function of biological macromolecules, metabolism, membrane function and transport, and cell differentiation. Usually offered Fall, Spring, Summer.

**Prerequisite(s)/Corequisite(s):** BIOL 2140 and at least one semester of general chemistry.

**BIOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)**
An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with GEOL 3104/BIOL 3104. (Cross-listed with GEOL 3100.)

**Prerequisite(s)/Corequisite(s):** GEOL 1180. Must be taken concurrently with GEOL 3104/BIOL 3104.

**BIOL 3104 INVERTEBRATE PALEONTOLOGY LAB (1 credit)**
An examination of representative specimens of groups of organisms important in the fossil record and an introduction to analytical techniques in paleontology.

**Prerequisite(s)/Corequisite(s):** GEOL 1180 or permission; coreq BIOL 3100.

**BIOL 3150 WRITING AND COMMUNICATION IN THE BIOLOGICAL SCIENCES (3 credits)**
This is a course in writing for students majoring in the biological sciences. It is designed primarily to prepare students to report results of original research in a scientific, scholarly format. Topics will include scientific literature, the organization and presentation of data in biological reports, as well as the preparation of posters and oral presentations for scientific meetings. Usually offered Fall, Spring.

**Prerequisite(s)/Corequisite(s):** Biology major, junior or senior standing, ENGL 1150 and ENGL 1160 or equivalent.

**Distribution:** Writing in the Discipline Single Course

**BIOL 3240 INTRODUCTION TO IMMUNOLOGY (3 credits)**
An introduction to the fundamentals of immunology including the immune system, the immune response, humoral and cellular immunity, and antibodies. In addition, immunoassay, immunopathology, cancer immunology, and histocompatibility will be considered. Usually offered Fall and Spring.

**Prerequisite(s)/Corequisite(s):** Prerequisites are BIOL 1450, 1750 and 2140 and junior-senior standing. Recommended: BIOL 3020. Not open to non-degree graduate students.

**BIOL 3340 ECOLOGY (4 credits)**
Study of interrelationships between organisms and their biotic and abiotic environment; includes the physical environment, population biology, community dynamics, biotic interactions and evolution. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 8345.)

**Prerequisite(s)/Corequisite(s):** Prerequisites are BIOL 1450 and BIOL 1750, junior-senior. Must enroll in one lab section. Not open to non-degree graduate students.

**BIOL 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)**
The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, NEUR 3500)

**Prerequisite(s)/Corequisite(s):** Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

**BIOL 3530 FLORA OF THE GREAT PLAINS (4 credits)**
A study of common vascular plants found in the Great Plains region, including identification, description, and classification techniques and an introduction to the plant communities of Nebraska. Usually offered every Fall and Summer. (Cross-listed with BIOL 8535.)

**Prerequisite(s)/Corequisite(s):** Prerequisite(s): BIOL 1450, 1750 and junior-senior. Must enroll in lab.

**Distribution:** OBIOWRT3 - Tier III Biology Writing Course

**BIOL 3660 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN (3 credits)**
This course provides an overview of graphic techniques and process for landscape design; the analysis and conceptual design of the landscape; and the exploration of the design characteristics of plants, landform, and structures through discussion, case studies and applied design development. A focus on sustainable design components and applications is included, including native and adapted plant selection, stormwater management, water conservation, efficient irrigation concepts, and practical landscape management and maintenance considerations. (Cross-listed with ENVN 3660)

**Distribution:** Humanities and Fine Arts General Education course

**BIOL 3670 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN LABORATORY (1 credit)**
This course covers the basic use of graphic techniques for landscape design; the analysis and process for conceptual design of the landscape; studio problems in value, texture, form and space; and the exploration of the design characteristics of plants, landform, and structures supporting sustainable landscape design and management principles. (Cross-listed with ENVN 3670)

**Prerequisite(s)/Corequisite(s):** Prerequisite(s): ENVN 3660 or BIOL 3660 (prior or concurrent).

**BIOL 3680 BIOLOGY OF AFRICA (3 credits)**
Biology of Africa (3) Introduction to the plants, animals, and habitats of Africa. Although other groups are included, this course will focus on the large mammals of east Africa and will pay particular attention to elephant reproduction and biology. Other topics include Serengeti migrations, hippo, lions and other large cats, reptiles, and human evolution. Usually offered alternate Spring semesters. (Cross-listed with BIOL 8685.)

**Prerequisite(s)/Corequisite(s):** Prerequisite(s): BIOL 1750 or permission of the instructor

**BIOL 3730 FAUNA OF THE GREAT PLAINS (3 credits)**
A survey of the common animal groups found in the Great Plains, including their evolution, ecology, distribution and specific adaptations to the environment of the temperate North American grasslands. Must enroll in lab. Usually offered in alternate years. (Cross-listed with BIOL 8735.)

**Prerequisite(s)/Corequisite(s):** BIOL 1450 and BIOL 1750.

**BIOL 3800 ANATOMY ACADEMIC ASSISTANTSHIP PRACTICUM (1 credit)**
Assistantships for students participating in the Anatomy Academic Assistantship (AAA) program provide advanced Human Anatomy and Physiology and Anatomy students with the opportunity to apply their knowledge while gaining leadership and communication skills via the mentorship of current Human Anatomy and Physiology I and II students. Additionally, STEM service learning activities will be offered. This course is not intended to replace other biology courses required for degrees offered by the Department of Biology.

**Prerequisite(s)/Corequisite(s):** Students must have a cumulative GPA of 3.0 or above, a grade of B in BIOL 2740, and be accepted to the Anatomy Academic Assistantship (AAA) Practicum. Students must receive permission of instructor. Not open to non-degree graduate students.
Biol 3830 Biology of Pathogenic Microorganisms (3 credits)
A study of the biology, epidemiology and pathogenicity of bacteria, viruses, fungi and protozoan, with emphasis on human pathogens. Usually offered in Spring semesters.
Prerequisite(s)/Corequisite(s): Biol 2440 or 3240, or 2140 or the equivalent.

Biol 4030 Special Topics in Biology (3 credits)
A lecture and/or laboratory course for biology majors pertaining to a specific biological topic not available in the regular curriculum. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit. (Cross-listed with Biol 8036).
Prerequisite(s)/Corequisite(s): Junior-senior, Biol 1450 and Biol 1750 with a grade of C- or higher.

Biol 4040 Directed Readings in Biology (1-3 credits)
A faculty directed study of a biological subject based on selected readings, oral reports and a final written report. May be repeated up to a total of six hours for 4040 and 4050 combined.
Prerequisite(s)/Corequisite(s): Junior-senior and written permission of instructor.

Biol 4050 Supervised Research in Biology (1-3 credits)
Completion of a faculty supervised research project involving experimental design, data collection and analysis, and a final written report. May be repeated up to a total of six hours of Biol 4040 and Biol 4050 combined.
Prerequisite(s)/Corequisite(s): Junior-senior and written permission of instructor.

Biol 4100 Biogeography (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with Biol 8106, Geog 4100, Geog 8106, Geol 4100, Geol 8106)
Prerequisite(s)/Corequisite(s): Biol 1450 and 1750 or Geol 3100 or Biol 3100, junior-senior.

Biol 4110 Statistics for Biological Sciences (4 credits)
Introduction to statistical methods and software used to display, summarize, analyze, and interpret biological and medical data. (Cross-listed with Biol 8116)
Prerequisite(s)/Corequisite(s): Biol 1450 and Biol 1750 and Math 1220, Math 1130, or Math 1530

Biol 4120 Conservation Biology (3 credits)
Study of biological diversity at the genetic, species and ecosystem levels, its values, and the factors that threaten it. We will explore the scientific basis of conservation biology and how it can be applied to the maintenance of biological diversity. Usually offered every year. (Cross-listed with Biol 8126).
Prerequisite(s)/Corequisite(s): Biol 1450, 1750, 2140 and Junior-Senior in biology. Not open to non-degree graduate students.

Biol 4130 Molecular Genetics (4 credits)
A lecture and lab course that explores the frontiers of molecular genetics research. Topics addressed will include DNA replication, gene function, gene expression, genetic manipulation, cloning, mutational analysis, genome sequencing, and epigenetics. Research techniques will include DNA/RNA isolation, PCR, cloning, gel electrophoresis, transgene generation, data analysis, and quantitative rTPCR. Students will get a solid grounding in scientific writing and presentations, as well as reading and assessing primary scientific literature. Lecture, discussion, and laboratory. (Cross-listed with Biol 8136)
Prerequisite(s)/Corequisite(s): Biol 2140, 3020 and Chem 2210 or 2260; or their equivalents. Must enroll in one lab section.

Biol 4140 Cellular Biology (4 credits)
This course is a modern study of mammalian cell function. Focus will be placed on developing skills in experimental cellular biology. Material covered will include tissue culture techniques, cell staining applications, fluorescent microscopy, determination of gene expression, and high-throughput assay design. (Cross-listed with Biol 8146)
Prerequisite(s)/Corequisite(s): Biol 2140, 3020 and Chem 2210 or 2250. Junior or senior undergraduate standing. Must enroll in laboratory section and lecture for this course. Not open to non-degree graduate students.

Biol 4150 Cancer Biology (3 credits)
The etiology of cancers, differences between types of malignancies, oncogenes and genetic modifiers, treatments, susceptibility, and tumor-induced immunosuppression are discussed. This is an active course focused on inquiry-based learning and the purpose of this course is to provide students a foundation in cancer biology while applying tools learned through cell biology, genetics, and immunology courses. (Cross-listed with Biol 8156).
Prerequisite(s)/Corequisite(s): Biol 3020 and Biol 2140. Recommended: Biol 3240.

Biol 4160 Bioinformatics for Biologists (3 credits)
This course intends to introduce fundamental concepts in bioinformatics with an emphasis on how to use biological databases and computational tools to solve common bioinformatics problems in biology and biomedicine. The topics consist of sequence database access and searching, sequence alignment and phylogeny, functional prediction of DNA and protein sequences, and genome sequencing and annotation. Students are expected to learn fundamental concepts in bioinformatics and gain extensive experience with the use of bioinformatics analysis tools. (Cross-listed with Biol 8166).
Prerequisite(s)/Corequisite(s): Biol 2140 Genetics; Biol 3020 Molecular Biology of the Cell; Or Permission of instructor

Biol 4180 Freshwater Ecology (4 credits)
A study of the physical, chemical and biological relationships that serve to establish and maintain plant and animal communities in freshwater environments. (Cross-listed with Biol 8186, Envn 4180).
Prerequisite(s)/Corequisite(s): Biol 1450 and Biol 1750, junior-senior, or permission of instructor. Must enroll in lab. Not open to non-degree graduate students.

Biol 4210 Fire Ecology (3 credits)
Study of fire in ecosystems including characteristics of fire, effects on flora, fauna, and the abiotic environment, and use in maintaining native ecosystems. Includes an optional 4-day fieldtrip. Usually offered in alternate years. (Cross-listed with Biol 8216)
Prerequisite(s)/Corequisite(s): Biol 3340, junior-senior.

Biol 4220 Population Biology (4 credits)
Population biology takes a conceptual approach to study the dynamics, ecology, genetics, and evolution of populations. Topics include the growth and regulation of populations, population interactions, selection on individuals and groups, mating systems, and life history evolution. Implications of these topics for areas such as the ecology and evolution of disease, conservation, and resource management will be highlighted. Concepts are reinforced through labs emphasizing interpretation of results from population simulations and the relationship between theory and experimentation in population biology. Usually offered in alternate years. (Cross-listed with Biol 8226).
Prerequisite(s)/Corequisite(s): Biol 2140 and 3340, junior-senior, or permission of instructor
Biology 4450 - Virology is a prerequisite

Biology 4450 VRIOLOGY LABORATORY (1 credit)
A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will be also addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with BIOL 8456)

Prerequisite(s)/Corequisite(s): Prerequisites are CHEM 2260 and 2274 or CHEM 2210 and 2214, BIOL 3020 and 2140. Recommended: Biochemistry.

Biology 4454 VIROLOGY LABORATORY (1 credit)
A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will be also addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with BIOL 8454)

Prerequisite(s)/Corequisite(s): Biology 4450 - Virology is a prerequisite or co-requisite.
BIOL 4460  COMPARATIVE IMMUNOLOGY (4 credits)
This course is an exploration of comparative immunology across kingdoms. There will be a strong focus on human as well as mouse immunology. Laboratory sessions require dissections to determine lymphoid anatomy of representative organisms. Samples will be prepared and analyzed using immunological techniques such as flow cytometry. (Cross-listed with BIOL 8466).
Prerequisite(s)/Corequisite(s): BIOL 3240 or consent of the instructor. Two classroom sessions and one laboratory session per week. Permit code required to register. Not open to non-degree graduate students.

BIOL 4490  MEDICINAL USES OF PLANTS (3 credits)
A scientific study of the biochemical properties and physiological effects of medicinal plants, including their historical uses, current applications to varying systems of the human body, and pathways by which today's potent drugs have transitioned from wild flora. Usually offered Fall semesters of even-numbered years. (Cross-listed with BIOL 8496).
Prerequisite(s)/Corequisite(s): BIOL 1450, 1750 and junior-senior.

BIOL 4540  PRINCIPLES OF SYSTEMATICS (3 credits)
A thorough study of phylogenetics, including tree inference techniques, proper interpretation of evolutionary relationships and character evolution, and applications to investigations in various fields of study. Usually offered in fall semesters of odd-numbered years.
Prerequisite(s)/Corequisite(s): BIOL 1450 and 1750, junior-senior.

BIOL 4550  MOLECULAR AND BIOMEDICAL BIOLOGY INTERNSHIP (3 credits)
Practical laboratory experience for students in the bachelor's of science program in Molecular and Biomedical Biology. In consultation with the MBB adviser and principal investigators, students will select a research laboratory where they will carry out an independent investigation for one semester. Most placements will be at UNMC or UNO. Recommended: Biochemistry. Usually offered Fall, Spring, Summer.
Prerequisite(s)/Corequisite(s): Prerequisite of at least one 4000 level BIOL laboratory course.

BIOL 4560  BIOINFORMATICS INTERNSHIP (1-3 credits)
This course is a practical experience for students in the Bachelor of Science program in Bioinformatics. In consultation with the bioinformatics adviser and principal investigators, students will select a research laboratory and conduct an independent research project in bioinformatics for one or two semesters. Students will write a report describing their research methods, project implementation, and results. The course is limited to Bioinformatics majors and does not satisfy any requirements for other programs in the Department of Biology.
Prerequisite(s)/Corequisite(s): BIOL 2140 Genetics, BIOL 3500 Advanced Bioinformatics Programming, and Permission of Instructor. The course is for students in the Bachelor of Science program in Bioinformatics. Not open to non-degree graduate students.

BIOL 4600  GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 8606, ENVN 4600)
Prerequisite(s)/Corequisite(s): BIOL 3340 or permission of instructor.

BIOL 4610  ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. Cross-listed with ENVN 4610, GEOG 4610, GEOG 8616, GEOL 4610, GEOL 8616.
Prerequisite(s)/Corequisite(s): Permission of instructor.

BIOL 4640  MICROBIAL PHYSIOLOGY (4 credits)
This course will cover the diversity in structures, genetics, metabolism, and regulation observed in microorganisms with a focus on bacteria. Usually offered Fall semesters. (Cross-listed with BIOL 8646).
Prerequisite(s)/Corequisite(s): Prerequisites are BIOL 2140 and BIOL 3020 or equivalents. Not open to non-degree graduate students.

BIOL 4650  BIOCHEMISTRY I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 8650, CHEM 4650, CHEM 8656).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. BIOL 4654 must be taken concurrently.

BIOL 4654  BIOCHEMISTRY I LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 8654, CHEM 4654, CHEM 8654).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 4650 must be taken concurrently with BIOL 4654. CHEM 4650 must be taken concurrently with CHEM 4654.

Distribution: Writing in the Discipline Sequested Course

BIOL 4660  BIOCHEMISTRY II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 8666, CHEM 4660, CHEM 8666).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. BIOL 4664 must be taken concurrently.
BIOL 4664 BIOCHEMISTRY II LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 8664, CHEM 4664, CHEM 8664).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654 with a C- or better. BIOL 4660 must be taken concurrently with BIOL 4664. CHEM 4660 must be taken concurrently with CHEM 4664.
Distribution: Writing in the Discipline Sequenced Course

BIOL 4710 TOXICOLOGY (3 credits)
An overview of the fundamentals of toxicology. Concepts include the dose-response relationship, absorption, distribution and excretion of toxicants, and the biotransformation of xenobiotics. Emphasis will be given to metals, pesticides, pharmaceutical compounds, chemical carcinogenesis and endocrine disruption. Usually offered Fall. (Cross-listed with BIOL 8716)
Prerequisite(s)/Corequisite(s): CHEM 2210 or 2260 and BIOL 1750, BIOL 3020 or equivalent.

BIOL 4730 VERTEBRATE ENDOCRINOLOGY (3 credits)
An overview of the fundamentals of vertebrate endocrinology. Concepts include: the mammalian hypothalamus-pituitary system, the endocrinology of mammalian reproduction, the mammalian adrenal glands, endocrine disruption, endocrinology and metabolism. (Cross-listed with BIOL 8736)
Prerequisite(s)/Corequisite(s): CHEM 2250, BIOL 1750, BIOL 3020 or equivalent.

BIOL 4740 ANIMAL PHYSIOLOGY (3 credits)
An overview of the fundamentals of animal physiology. Concepts include: the physiology of nerve and muscle function, endocrine function, cardiovascular and respiratory function, oxygen and carbon dioxide delivery by the blood, and osmoregulation and excretion. The course is comparative in nature, including examples from humans, mammals, vertebrates and invertebrate animals. Usually offered Spring. (Cross-listed with BIOL 8746).
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750, and BIOL 2140 or permission of the instructor.

BIOL 4760 GENOME TECHNOLOGY AND ANALYSIS (3 credits)
This course will introduce the latest genome sequencing technologies and their broad applications in biology and medicine. Students will learn how genome sequencing is conducted by different platforms and obtain practical experience of how to use bioinformatics tools for genome analysis. Students are expected to be able to perform sequence analysis efficiently and interpret the results properly. (Cross-listed with BIOL 8766)
Prerequisite(s)/Corequisite(s): BIOL2140 Genetics; or Permission of instructor

BIOL 4780 VERTEBRATE ZOOLOGY (4 credits)
A study of the general biology of the subphylum vertebrata including the morphology, anatomy, physiology and ecology of vertebrate representatives. (Cross-listed with BIOL 8786)
Prerequisite(s)/Corequisite(s): Prerequisites are BIOL 1450, BIOL 1750, and junior-senior.

BIOL 4790 MAMMALOLOGY (4 credits)
The biology of mammals, including their evolution, functional morphology, physiology, ecology, zoogeography, behavior, classification and identification, with emphasis on North American groups. Field trips. Usually offered in alternate years. (Cross-listed with BIOL 8796)
Prerequisite(s)/Corequisite(s): BIOL 1450, BIOL 1750, junior or senior standing. Must enroll in lab.

BIOL 4800 INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)
Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with ENVN 4800)
Prerequisite(s)/Corequisite(s): Permission of the Environmental Studies Program.

BIOL 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, ENVN 4820, GEOG 4820, GEOG 8826, PA 8826).
Prerequisite(s)/Corequisite(s): Junior-senior or permission of the instructor.

BIOL 4830 DEVELOPMENTAL GENETICS (2 credits)
This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics. (Cross-listed with BIOL 8836)
Prerequisite(s)/Corequisite(s): Completion of, or concurrent registration in, BIOL 4850.

BIOL 4840 HERPETOLOGY (4 credits)
The biology of amphibians and reptiles, including their evolution, classification, anatomy, physiology, ecology, distribution and identification, with emphasis on North American groups. Methods for studying herptiles are examined. Usually offered in Spring semesters of even years. (Cross-listed with BIOL 8846).
Prerequisite(s)/Corequisite(s): Prerequisites are BIOL 1450 and BIOL 1750. Must enroll in lab. Not open to non-degree graduate students.

BIOL 4850 DEVELOPMENTAL BIOLOGY (3 credits)
This course explores principles underlying the development of multicellular organisms, stressing the environmental, genetic, molecular, cellular, tissue, and evolutionary mechanisms of animal development. Usually offered once per year. (Cross-listed with BIOL 8856)
Prerequisite(s)/Corequisite(s): Prerequisites are BIOL 1450, 1750, 2140, 3020, and CHEM 3650 or BIOL 4650 or CHEM 4650 and junior-senior status.

BIOL 4860 COMPARATIVE GENOMICS (3 credits)
This course will introduce fundamental concepts in genomics and genome comparison. Students will learn how genomes are constructed, how they evolve, how individual genomes are unique, and what genomic knowledge means in terms of human health and medicine. (Cross-listed with BIOL 8866)
Prerequisite(s)/Corequisite(s): BIOL2140 Genetics; BIOL3020 Molecular Biology of the Cell; Or Permission of instructor. Not open to nondegree students.

BIOL 4870 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with BIOL 8876, NEUR 4870, NEUR 8876).
Prerequisite(s)/Corequisite(s): NEUR 1500, or both NEUR 1520 and NEUR 1540, or BIOL 3020, or permission of instructor.
Biology, Bachelor of Arts

To obtain a BA with a major in Biology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—Most commonly, Biology majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often do the following:
  - Test out of at least three hours of fundamental academic skills,
  - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
  - Apply up to five hours of foreign language coursework toward meeting the nine-hour General Education humanities requirement,

- Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.

In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 25 or fewer.

- 16 hours foreign language requirement (Four years of a single language in high school or four college semesters will satisfy this requirement.)
- 12 hours college breadth requirement
- 51 hours of major courses
- Elective hours as required to reach a total of 120 hours

TOTAL HOURS: 120

The remaining 18 elective credits in biology should be chosen in consultation with a Biology advisor and must include at least 14 credits from BIOL 3000-4000 level courses, including at least one lab course (in addition to BIOL 3340). Up to three credits of BIOL 4030, up to three credits of either BIOL 4050 or BIOL 4800 and one credit of BIOL 4040 can be included. BIOL 3150 may not be used to satisfy the requirement for 3000-4000 level biology credits. Courses at the 1000-2000 level are restricted to:

- BIOL 2440, THE BIOLOGY OF MICROORGANISMS
- BIOL 2740, HUMAN ANATOMY AND PHYSIOLOGY I
- BIOL 2840, HUMAN ANATOMY AND PHYSIOLOGY II

Chemistry Requirements

Select one of the following required chemistry sequences: 14-16

Sequence 1:

- CHEM 1140 & CHEM 1144, FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY

Sequence 2:

- CHEM 2210 & CHEM 2214, FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

Sequence 3:

- CHEM 3650 & CHEM 3654, FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY

Biology, Bachelor of Arts

This course will evaluate the complex interaction between an organism’s genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 8969, PSYC 8896).

Prerequisite(s)/Corequisite(s): NEUR 1520, NEUR 1540, and BIOL 2140. Or by permission of instructor. Not open to non-degree graduate students.

The study of insects, their classification, morphology, physiology, behavior, life histories, ecology and evolution. (Cross-listed with BIOL 8946)

Prerequisite(s)/Corequisite(s): BIOL 1750, junior-senior.

Biology, Bachelor of Arts

An in-depth consideration of topics in genetic analysis. Through reading and discussion of primary and secondary literature in genetics, students will develop a deeper understanding of genetic principles, including mutation, recombination, complementation, gene regulation, the genetic structure of populations and the genetic contributions to complex traits, and how these principles and associated methodologies, including next-generation sequencing and high throughput "omics" approaches, can be used to gain insight into fundamental biological questions. (Cross-listed with BIOL 8966).

Prerequisite(s)/Corequisite(s): BIOL 2140 and BIOL 3020 and concurrent enrollment or completion of either CHEM 3650 or CHEM 4610 or CHEM 4650 or BIOL 4650, or permission of the instructor.

Biology, Bachelor of Arts

Advanced Botany examines plant structures (cells, tissues, and organs) and their connections with plant functions (growth, reproduction, photosynthesis, respiration, and dispersal). Topics covered include energy metabolism, development and morphogenesis, genetics, ecology, and the latest in plant taxonomy and phylogeny, keeping students on the forefront of cutting-edge botanical research. In lab, students conduct activities such as dissecting plant organs, making microscope slides, and conducting plant-based experiments, using plants from the local area, from native Great Plains collections, and from around the world and grown in the greenhouse. Students compare and contrast both physiological and morphological adaptations to varying environments. (Cross-listed with BIOL 8976, ENVN 4970).

Prerequisite(s)/Corequisite(s): BIOL 1750 and junior or senior student status or above or instructor permission.

**Required Lecture and Lab Coursework in Physics**

Select one of the following pairings or groupings: 5-10

**Option 1:**
- PHYS 1050 & PHYS 1054: INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY

**Option 2:**
- PHYS 1110 & PHYS 1154: GENERAL PHYSICS I WITH ALGEBRA and GENERAL PHYSICS LABORATORY I
- PHYS 1120 & PHYS 1164: GENERAL PHYSICS and GENERAL PHYSICS LABORATORY II

**Option 3:**
- PHYS 2110 & PHYS 1154: GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I
- PHYS 2120 & PHYS 1164: GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II

**Additional Requirements**

- One approved course in statistics from the following options: BIOL 4110, STAT 3000, PSYC 3130, SOC 2130 (3-4)
- One approved math or computer science course from the following options: MATH 1220, 1320, 1330, 1340, 1930, 1940, 1950; CSCI 1200 or above (3-5)

**Total Credits:** 61-71

For a B.A., the college requires completion of a foreign language through the intermediate level.

**Freshman**

**Fall**
- ENGL 1150: ENGLISH COMPOSITION I (*) | 3
- CMST 1110: PUBLIC SPEAKING FUNDS or CMST 2120: ARGUMENTATION AND DEBATE | 3
- MATH 1220: COLLEGE ALGEBRA (**) | 3
- BIOL 1450: BIOLOGY I (***) | 5

**Spring**
- ENGL 1160: ENGLISH COMPOSITION II (*) | 3
- PHYS 1050 & PHYS 1054: INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY (** | 5
- BIOL 1750: BIOLOGY II | 5

**Sophomore**

**Fall**
- CHEM 1140 or CHEM 1144: FUNDAMENTALS OF COLLEGE CHEMISTRY (*) or FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY | 5

**Social Science with US Diversity**
- 3

**Spring**
- CHEM 2210: FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY | 5

**Junior**

**Fall**
- CHEM 3650 & CHEM 3654: FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (*) | 4
- BIOL 3340: ECOLOGY (**) | 4

**Elective**
- 3

**Senior**

**Fall**
- CHEM 3650 or CHEM 2210: FUNDAMENTALS OF BIOCHEMISTRY or FUNDAMENTALS OF ORGANIC CHEMISTRY, or both | 4

**Total Credits:** 14

*ENGL 1150: requires placement via EPPE or AP.

**MATH 1220: requires appropriate placement. Higher levels of Math may substitute. Please see your advisor for options.

**BIOL 1450: counts as a Natural & Physical Science Lecture and Lab course as well as a major requirement.

**There are other options for this major requirement – make sure you talk with an advisor before planning to take this class. The Physics requirement will satisfy the 2nd Natural and Physical Science requirement.

**Credits:** 16

**Credits:** 14

**Credits:** 14

**Credits:** 3
This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

**Biology, Bachelor of Science**

To obtain a BS with a major in Biology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—Most commonly, Biology majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often do the following:
  - Test out of at least three hours of fundamental academic skills,
  - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
  - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.

- In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.
- 12 hours college breadth requirement
- 51 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

**Requirements**

A total of at least 36 Biology credits is required. At least 18 of those 36 credits must come from upper-division biology courses (3000-4000 level).

**Code** | **Title** | **Credits**
---|---|---
BIOL 1450 | BIOLOGY I | 5
BIOL 1750 | BIOLOGY II | 5
BIOL 2140 | GENETICS | 4
BIOL 3020 | MOLECULAR BIOLOGY OF THE CELL | 3
BIOL 3340 | ECOLOGY | 4

**Advanced Themes in Biology**

Select one course from Group I and at least three courses from Group II (see below) to obtain at least 12 credits of advanced study beyond the Biology Core. Two advanced courses must have approved laboratories.

**Cognate Requirements in Chemistry**

Select one of the following required chemistry sequences: 14-16
Sequence 1:
CHEM 1140 & CHEM 1144  FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY

CHEM 2210 & CHEM 2214  FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

CHEM 3650 & CHEM 3654  FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY

Sequence 2:

CHEM 1180 & CHEM 1184  GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY

CHEM 1190 & CHEM 1194  GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY

CHEM 2250  ORGANIC CHEMISTRY I

CHEM 2260  ORGANIC CHEMISTRY II

CHEM 2274  ORGANIC CHEMISTRY LABORATORY

Sequence 3:

CHEM 1180 & CHEM 1184  GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY

CHEM 1190 & CHEM 1194  GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY

CHEM 2210 & CHEM 2214  FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

CHEM 3650 & CHEM 3654  FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY

Cognate Requirements in Physics

Required Lecture and Lab Coursework in Physics

Select one of the following pairings or groupings: 5-10

Sequence 1:

PHYS 1050 & PHYS 1054  INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY

Sequence 2:

PHYS 1110 & PHYS 1154  GENERAL PHYSICS I WITH ALGEBRA and GENERAL PHYSICS LABORATORY I

PHYS 1120 & PHYS 1164  GENERAL PHYSICS and GENERAL PHYSICS LABORATORY II

Sequence 3:

PHYS 2110 & PHYS 1154  GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I

PHYS 2120 & PHYS 1164  GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II

Math and Statistics

Complete at least one approved course in statistics and select 6 additional hours of approved courses in mathematics, statistics, or computer science from the following options—MATH 1220, 1320, 1330, 1340, 1930, 1940, and 1950; CSCI 1200 or above

Approved courses in statistics:

BIOL 4110  STATISTICS FOR BIOLOGICAL SCIENCES

STAT 3000  STATISTICAL METHODS I

PSYC 3130  STATISTICS FOR THE BEHAVIORAL SCIENCES

SOC 2130  SOCIAL STATISTICS

Total Credits 61-68

@ CHEM 1140 requires MATH 1220 or higher within last 2 years and concurrent enrollment in CHEM 1144. CHEM 1180 requires MATH 1320 or higher within last 2 years and concurrent enrollment in CHEM 1184. Appropriate ACT, SAT, AP or Math Placement Exam scores may be used for Math proficiency toward CHEM prereqs. Please refer to your advisor for options.

# Approved Statistics Courses: BIOL 4110, STAT 3000, PSYC 3130, SOC 2130. Requires placement.

*HFA must be in a second discipline.

**A&S College Requirement Options.
ELECTIVE** 3
Electives only if needed to reach 120

** See Catalog or "purple sheet" from Biology advisors for Group I and Group II course list.

% Physics Course options – Sequence I: PHYS 1050+1054. Sequence II: PHYS 1110+1154.

**Students must have a minimum of 27 upper level credits throughout their A&S degree, with at least 18 upper level credits within their major. Depending on options selected throughout degree, electives may need to be upper level in order to reach this minimum credit requirement.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

---

# Biology, Bachelor of Science with a Concentration in Education

To obtain a B.S. with a major in Biology with a concentration in Education, a student must fulfill university, College of Arts & Sciences, College of Education and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses–Most commonly, Biology majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often do the following:
  - Test out of at least three hours of fundamental academic skills,
  - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
  - Meet the seven-hour University General Education natural sciences distribution requirement through completing major and cognate courses.

In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

- 66 major hours
- Elective hours won't be needed. Total will be 132-133, more than the 120 credit minimum.

TOTAL CAS HOURS: 93-94
TOTAL COE HOURS: 39

** Requirements

A Bachelor of Science in Biology with a Concentration in Education requires a minimum of 37 credits of coursework in Biology. At least 18 Biology credits must be at the 3000 or 4000 level.

A minimum of 42 credits in the College of Education are required for the Concentration and state aligned certification requirements.

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program.

In order to graduate on time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on the 2021-2022 catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study.

GPA Requirements: Cumulative 2.5 GPA for Educator Preparation Program initial acceptance, cumulative 2.75 GPA for formal admission and graduation.

Graduation Requirements: Students must have a cumulative GPA of at least 2.75, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.
Biology Minor

Requirements
A minor in biology requires a minimum of 21 semester credit hours. All courses counted toward a minor in biology must be applicable toward a major in biology. Students may not earn a Biology minor and a Molecular and Biomedical Biology major.

Students majoring in neuroscience or psychology may not count any upper-division biology courses toward both disciplines.

Required hours include:

</tbody>
</table>

In addition, at least 7 credit hours of courses at the 3000- or 4000-level are required. At least one of the 3000- or 4000-level courses must have a laboratory; BIOL 3340 (Ecology) laboratory may not be used to fill this requirement. Students transferring biology credits are required to take a minimum of two 3000 or 4000-level courses at UNO.

Total Credits: 21

Black Studies

The central mission of the Black Studies program is to prepare students to critically understand, conduct research concerning, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa, and the Diaspora. We situate this knowledge within a general discourse concerning what it teaches us about the totality of the human experience.

Other Information
All coursework taken for the Black Studies major or minor must be completed with a grade of “C-” or better. Majors and minors in BLST are not allowed to receive departmental credit towards that designation for courses they complete on either a Credit/No Credit, Audit, or Satisfactory/Unsatisfactory basis. In such cases, students will be asked to add additional BLST coursework to their academic curriculum as surrogates for the number of hour credits earned under such alternative arrangements.

Upper Division Course Contingency
In the event that an insufficient number of courses are available at the upper division level for a student to complete a major or minor, the chair of the department may, at his or her discretion, accept alternative departmental courses, external courses dealing with subject matter related to the major or minor or external experiences in course settings like internships, study abroad, and/or community engagement as acceptable for meeting the requirements.

Assessment
As part of its assessment program, the Department requires the following of majors:

- Each major must complete at least one community-based activity consisting of a study abroad, service learning, and/or internship experience under the appropriate department course numbers.
- Each major must select one paper from their 3000 or 4000 level courses as their major departmental project.
- Specifications for all of these assessment requirements are available from the department.

Student Groups
Black Studies student groups cater to the interests of majors and minors as well as other students interested in the field of Black Studies and membership is open to all students.

Degrees Offered
- Black Studies, Bachelor of Science (p. 98)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the Black Studies major, this is BLST 3700 or another approved course.

Minors Offered
- Black Studies Minor (p. 100)

The central mission of the Department of Black Studies at the University of Nebraska-Omaha is to prepare students to conduct inter- and multidisciplinary research on topics involving histories, societies, cultures and cultural productions of Africana people (Continental and Diasporic Africans and their descendants); and to employ theoretical and methodological tools drawn out of the Africana experience in addressing relevant natural and social issues across the globe on behalf of humanity.

- Business, Entrepreneurship, Marketing
- Cultural Resources Manager
- Education
- Government
- Law & Criminal Justice
- Literature
- Media & Journalism
- Medicine & Health
- Performing Arts & Entertainment
- Politics
- Professor
- Religion
- Social & Community Services
- Visual & Decorative Arts

BLST 1000 INTRODUCTION TO BLACK STUDIES (3 credits)
BLST 1000 provides students with an overview of African culture and history and the black Diaspora. A key component of this course is to interrogate the meanings and dimensions of slavery and colonialism, and their continuing political, social and cultural implications. Approaches essentially include historical examination of African and African American societies and cultures from pre-colonial and slavery periods to the present.

Distribution: U.S. Diversity General Education course and Social Science General Education course
BLST 1050 CLASSICAL AFRICAN CIVILIZATIONS (3 credits)
Classical African Civilization is an introductory survey of the civilizations of Africa and African people prior to 1500 C.E., with emphasis on the evolution of the peoples and nations, their civilizations, and the rise and fall of indigenous states. In particular, this course will cover the classical civilizations of Kemet (Ancient Egypt), Nubia, Axum, Carthage, Ghana, Mali, and Songhay. (Cross-listed with HIST 1050)
Distribution: Global Diversity General Education course

BLST 1260 SURVEY OF BLACK LITERATURE (3 credits)
This course will give students a general background in black literature and will encourage them to take advanced courses in this field. It consists of black literature not only in the U.S. but also in the West Indies and Africa. The main themes common to the black experience will be analyzed through an interesting study of some of the major works of some important black writers.

BLST 1340 INTRODUCTION TO CONTEMPORARY AFRICA (3 credits)
A survey of the geography, population and cultural traditions of contemporary Africa. Economic, political, cultural and social changes in the second half of the 20th century, including the problems and the struggle for national integration and economic adjustments will also be examined.

BLST 1950 BLACK WOMEN IN AMERICA (3 credits)
This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and "Me Too" Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with WGST 1950)
Distribution: U.S. Diversity General Education course

BLST 2100 BLACK AMERICAN CULTURE (3 credits)
The course surveys the cultural forms, expressions, and patterns developed by African Americans, as well as the social contexts of their development. The course will introduce students to the cultural life of African Americans, and how that life has influenced the nature of the community, and its triumphs and tragedies in the larger socio-political context of U.S. American culture.
Distribution: U.S. Diversity General Education course

BLST 2110 CRITICAL ISSUES IN BLACK EDUCATION (3 credits)
Critical Issues in Black Education is an undergraduate course which provides students with foundational knowledge of the historical, legal, social, political, and economic conditions influencing pedagogical and epistemological experiences that impact educational opportunities of Black students.
Prerequisite(s)/Corequisite(s): BLST 1000 or Sophomore standing or permission of the instructor
Distribution: U.S. Diversity General Education course

BLST 2120 HISTORY OF MODERN AFRICA (3 credits)
This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of alien cultures on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - the Islamic, Western and Indigenous. (Cross-listed with HIST 2920).

BLST 2130 AFRICAN POLITICS (3 credits)
African Politics examines the socio-cultural and economic environments which characterize political life in contemporary Africa. This course examines contemporary African politics and government in post-independence Africa, and the pre-colonial political and economic systems which influence contemporary African politics. The course assesses the various approaches used to study the political development of the African continent; examines the processes, features, and institutions of the African states; addresses key and persistent issues about African politics; and examines dimensions of social change and political reform. (Cross-listed with PSCI 2130).
Distribution: Global Diversity General Education course

BLST 2210 THE BLACK FAMILY IN THE UNITED STATES (3 credits)
Analysis of historical, social, and institutional and comparative elements of family life in the United States with particular emphasis on social science theory.
Prerequisite(s)/Corequisite(s): BLST 1000.

BLST 2260 BLACK SHORT STORY (3 credits)
A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with ENGL 2260.)
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2350 AFRICAN AMERICAN LITERATURE 1746-1939 (3 credits)
This course traces the development of black literature from 1746 to 1939. Included will be a study of multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem Renaissance and Depression era schools of thought. (Cross-listed with ENGL 2350).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.

BLST 2360 AFRICAN AMERICAN LITERATURE 1940-PRESENT (3 credits)
This course traces the development of the literary contribution that black Americans have made from 1940 to the present. The course will study multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied include an evolution in resistance in writing, a movement toward literary assimilation in the 1940s-1950s, and the subsequent movement toward "Black Arts" from the 1960s to the present. (Cross-listed with ENGL 2360).
Prerequisite(s)/Corequisite(s): ENGL 1160 or instructor permission

BLST 2410 AFRICAN AMERICAN HISTORY I: TO 1865 (3 credits)
The course examines the history of the earliest Africans in the Americas and briefly examines traditional African societies. It covers the transatlantic slave trade and its effects on Europe, Africa and the Americas, and analyzes the development of Afro-American culture and the struggle for freedom. (Cross-listed with HIST 2040)
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

BLST 2420 AFRICAN-AMERICAN HISTORY II: EMANCIPATION TO BROWN (3 credits)
A survey of Afro-American history from the Civil War to the present. Covers Reconstruction and its overthrow, including the new methods of control which replaced slavery. Discusses the development of black ideologies and institutions. Traces urban migration and its impact on black society and culture. Follows black progress through World War II, the 1954 Supreme Court Decision, and rising militancy. (Cross-listed with HIST 2050)
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course
BLST 2430 AFRICAN AMERICAN HISTORY III: FROM CIVIL RIGHTS TO MODERN DAY (3 credits)
This course is divided into three main parts: the Civil Rights Phase (1954-1963), during which the dominant mood was optimism over the possibilities of integration; the Black Power Phase (1963-1974), and the Pragmatist Phase (1972-present), characterized by attempts to preserve and maintain gains already won. (Cross-listed with HIST 2060).
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2510 MUSIC AND THE BLACK EXPERIENCE (3 credits)
The course will examine the origin and deeper meanings of black music as cultural history of Africans and people of African descent.

BLST 2550 BUSINESS AND ECONOMICS IN AFRICAN AMERICAN COMMUNITIES (3 credits)
This course traces the evolution of African American business and economic development systems in the U.S. and will examine historical economic and political influences which impact African American business communities. Students will be exposed to various aspects of African American business and economics, including Black entrepreneurship and Black owned businesses before, during, and after slavery; an analysis of the role of Black churches in African-American communities; and the impact of modern economic and political systems on American African business communities. (Cross-listed with ENTR 2550).
Distribution: U.S. Diversity General Education course

BLST 2700 AFRICAN PHILOSOPHY (3 credits)
This course explores the great philosophers and the traditions of African philosophy, and the condition of certain traditional philosophies and the philosophical writings of Africans. Students will develop an understanding of traditional African philosophical thought and its relationship to modern African intellectual thought and its role in social change.

BLST 2710 AFRICANA WORLDVIEWS (3 credits)
This course presents the basic elements of the Africana worldview, which focuses on African centered theories of knowledge and ways of being. Africana theories are contrasted with classical Eurocentric theories of knowledge and being, with the focus on explaining why these differences are significant to the discipline of Black Studies.
Prerequisite(s)/Corequisite(s): BLST 1000 or permission of the instructor.

BLST 2730 RELIGION AND THEOLOGY IN AFRO-AMERICA (3 credits)
Examines the development of the black church in America from the period of the First Great Awakening and investigates and analyses the theological foundation, the nature and source of African-American religious expression.
Distribution: Humanities and Fine Arts General Education course

BLST 2830 CONTEMPORARY NOVEL (EMPHASIS ON BLACK WRITERS) (3 credits)
A study of some of the most important ideas and techniques of the novel as genre, using primarily the black-authored novel.

BLST 2900 AFRICAN CIVILIZATION - THE MIDDLE PERIOD (3 credits)
This course traces the development of African History from the beginning of the Civilization of Ghana (800 B.C.) to the period of European exploration of Africa (mid 15th century). It examines the main achievements, events and individuals in the Empires of Ghana, Mali, Songhay, Zimbabwe, etc. (Cross-listed with HIST 2900)

BLST 3000 SURVEY OF BLACK EDUCATION (3 credits)
Prerequisite(s)/Corequisite(s): BLST 1000 or permission of instructor.

BLST 3030 GEOGRAPHY OF AFRICA (3 credits)
The political, physical, economic and demographic features of Africa with emphasis on the effect of these factors in development. The major features of the broad geographical regions of Africa.
Prerequisite(s)/Corequisite(s): Junior.

BLST 3120 THE AFRICAN AMERICAN EXPERIENCE IN POLITICS (3 credits)
This course will provide a historical and contemporary survey of the African American political experience in the United States, from the passage of the 15th Amendment in the late 1800s, to the 1965 Voting Rights Act, and continuing into the 21st century. Students will examine the evolution of the Black political experience, with emphasis on the fight against enslavement, segregation, lynching and mass incarceration, and the long struggle of African Americans against institutional and structural racism in the American political system. (Cross-listed with PSCI 3120).
Prerequisite(s)/Corequisite(s): BLST 1000
Distribution: U.S. Diversity General Education course

BLST 3200 BLACK NATIONALISM AND PANAFRICANISM (3 credits)
A study of the development of movements for self-determination in Afro-America and an analysis of various nationalistic conceptual frameworks in the Diaspora and on the Continent. (Cross-listed with BLST 8205)
Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2410, or permission of instructor.

BLST 3410 LAW AND THE BLACK COMMUNITY (3 credits)
Law and the Black Community provides an in-depth examination of the racialized American legal process as it pertains to and affects African Americans in the U.S. From the formation of the U.S. Constitution to present day, this course analyzes intersections of race, law, politics and culture, and explores the administration of justice and Black experiences through a critical legal perspective. (Cross-listed with CRCJ 3410, PSCI 3410).
Prerequisite(s)/Corequisite(s): BLST 1000 OR CRCJ 1010 OR Junior standing OR instructor permission.
Distribution: U.S. Diversity General Education course

BLST 3500 ECONOMIC DEVELOPMENT IN AFRICA (3 credits)
This course traces the evolution of modern African economic systems. Methods of production, distribution, and exchange are examined. There will also be a survey of the processes and problems of colonial economic exploitation to post-independence underdevelopment. The nature of economic development, planning, regional cooperation, international trade and foreign aid will be critically analyzed.
Prerequisite(s)/Corequisite(s): BLST 2130 and BLST 3030 or GEOG 3030 or junior.

BLST 3510 CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)
This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema. (Cross-listed with CMST 3510)
Prerequisite(s)/Corequisite(s): Sophomore standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course
BLST 3700 CRITICAL WRITING FOR CULTURAL STUDIES (3 credits)
Critical Writing for Cultural Studies (BLST 3700) is a Writing in the Disciplines (WID) course that prepares undergraduate students, whose fields of interest include any area of humanities and/or social sciences, for the specific writing styles and research methodologies expected in cultural studies disciplines. This preparation includes instruction in resource evaluation, organization strategies, sentence style and vocabulary, documentation styles, and revision strategies.

Prerequisite(s)/Corequisite(s): ENGL 1164 or by permission of the instructor.

Distribution: Writing in the Discipline Single Course

BLST 3750 ISSUES IN BLACK LITERATURE (3 credits)
This course is designed to provide a forum for consideration of critical issues in black literature. An examination of some of the theoretical issues in black aesthetics will be undertaken, including: the role of the black artist as purposeful agent and guardian of image; the role of literature in the black community; and the audience. Recent trends in the black novel will be studied, especially the emergence of contemporary African writers as modern technicians of language and literary form through the development of new forms from old narrative ones.

Prerequisite(s)/Corequisite(s): BLST 1260 and BLST 2360 or permission.

BLST 3920 BLACK AESTHETICS (3 credits)
This is a critical study of the theories of artistic beauty and their application in the poetic, fictional and dramatic works of Afro-Americans from the 18th century to the present. Special attention will be paid to the role of the black artist in American society.

Prerequisite(s)/Corequisite(s): BLST 1260 or permission of instructor.

BLST 3970 INTERNSHIP IN BLACK STUDIES (1-3 credits)
A department-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of department head and/or Internship Coordinator and completion of an internship project form required.

Prerequisite(s)/Corequisite(s): Completion of BLST 1000, enrollment either as a BLST major or minor or as a BGS concentration in BLST, permission of Department Head and/or Internship Coordinator and completion of an internship project form required.

BLST 3980 SPECIAL TOPICS IN BLACK STUDIES (3 credits)
Intensive research into specific but unrelated topics germane to the black experience. Since the topics are of a variable nature, this course may be repeated for credit as long as the topics are different.

Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

BLST 3990 COMMUNITY STUDY PROJECT (3 credits)
Designed for the student to do field work in a community-based project in the areas of housing, education or social services.

Prerequisite(s)/Corequisite(s): Junior or above, or permission of instructor.

BLST 4030 AFRICANA RELIGIONS (3 credits)
An introduction to religions in Africa and the diaspora, including African Traditional Religions, Christianity, Islam, and Afro-Caribbean religious traditions, using anthropological, historical, and other academic approaches to the study of religious and spiritual traditions. In particular, students will learn about the role of spirits, ancestors, witches, and other invisible agents in ideas and practices regarding health and healing. Finally, the class will examine the complex inter-relationships between religious ideas and practices and contemporary post-colonial political-economic realities, including the consequences of genocide and other human rights violations and the role of religious communities in social and economic development.

Prerequisite(s)/Corequisite(s): RELI 8036, RELI 4030, BLST 8036.

BLST 4090 BLACK STUDIES ORAL HISTORY (3 credits)
The focus of this course is to examine the methods, procedure, transcription and use of oral history in black studies research. Emphasis will be directed toward describing and evaluating the variables of memory, history and cultural authority to produce written source materials collected from oral interviews. (Cross-listed with BLST 8096).

Prerequisite(s)/Corequisite(s): BLST 1000, BLST 2100, BLST 2430 or permission of the instructor.

BLST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)
This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Especial focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with WGST 4120)

Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

BLST 4150 AFRICAN-AMERICAN PSYCHOLOGY (3 credits)
African American Psychology traces the psychological history of Africans and African Americans from self-attributes and identity, through race and racism, to cognition, learning, and language. This course will review concepts relevant to understanding the psychology of African Americans, methodological and research issues, and best practices. (Cross-listed with BLST 8156, PSYC 4150, PSYC 8156)

Prerequisite(s)/Corequisite(s): BLST 1000 and Junior standing or Instructor permission

BLST 4260 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray woman. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with BLST 8266)

Prerequisite(s)/Corequisite(s): Black studies major or permission of instructor.

BLST 4580 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with BLST 8586, CMST 4580, CMST 8586)

Prerequisite(s)/Corequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.

Distribution: U.S. Diversity General Education course

BLST 4590 AFRICAN-AMERICAN POPULAR MUSIC FROM BEBOP TO HIP-HOP (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of African-American popular music literature from c. 1900-present. The objective will be to provide the student with a broad overview with special attention given to musicians and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 8596, MUS 4590, BLST 8596).

Prerequisite(s)/Corequisite(s): Music major standing or permission of instructor.
BLST 4650 SLAVERY AND RACE RELATIONS IN THE AMERICAS (3 credits)
Slavery and Race Relations in the Americas examines the historical relationship between the trans-Atlantic slave trade and American race relations, connecting the enslavement of Africans in the Americas to race relations in the Caribbean, Latin America, and the United States. (Cross-listed with BLST 8656, HIST 4070, HIST 8076, LLS 8656).
Prerequisite(s)/Corequisite(s): BLST 1000 and junior standing or permission of instructor
Distribution: U.S. Diversity General Education course
BLST 4710 BROWN V. BOARD OF EDUCATION (3 credits)
Brown v. Board of Education traces the educational history of African Americans from segregation to desegregation to re-segregation. This course will review the legal cases before and after the Supreme Court’s Brown decision, their aftermath, and the effects on educational policies and practices. (Cross-listed with BLST 8716).
Prerequisite(s)/Corequisite(s): For undergrad/grad, ONE or ALL of the following courses must be taken as prerequisite: BLST 1000, CRCJ 1010, BLST/CRCJ 3410. Must have Junior standing OR permission of instructor.
Distribution: U.S. Diversity General Education course
BLST 4750 CRITICAL QUANTITATIVE RESEARCH METHODS (3 credits)
This online undergraduate/graduate course is a comprehensive source for foundational concepts in quantitative behavioral research. The course is designed to expose students to the role and importance of critical quantitative research of marginalized and underrepresented groups. Students will examine and gain definitional and empirical knowledge about conducting culturally relevant quantitative research and will learn both the logic behind and procedures for critical quantitative research, including research ethics, correlational and experimental designs, data collection, sampling, analysis, and reporting. (Cross-listed with BLST 8756).
Prerequisite(s)/Corequisite(s): PSYC 3140 or Junior standing or instructor permission.
BLST 4880 SEMINAR ON BLACK LEADERSHIP IN AMERICA (3 credits)
Designed as a senior and graduate seminar, this course will examine the meaning and attributes of effective leadership. The role of black leadership in the African American experience will be examined. Profiles of selected African American leaders and their political strategies also will be analyzed in the seminar. (Cross-listed with BLST 8886).
Prerequisite(s)/Corequisite(s): Senior or graduate student or instructor permission.
BLST 4900 INDEPENDENT STUDY (1-3 credits)
This course is designed for those students who are capable of pursuing, independently, an area of Black Studies that is not covered under the existing curriculum. The student will be supervised by a member of the BLS department. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.

Black Studies, Bachelor of Science
The central mission of the Black Studies program is to prepare students to critically understand, conduct research concerning, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa, and the Diaspora. We situate this knowledge within a general discourse concerning what it teaches us about the totality of the human experience.

Other Information
All coursework taken for the Black Studies major or minor must be completed with a grade of "C-" or better. Courses taken on a Credit/No Credit, Audit, or Satisfactory/Unsatisfactory basis may not go toward the Black Studies major or minor. In such cases, students will be asked to add additional BLST coursework to their academic curriculum as surrogates for the number of hour credits earned under such alternative arrangements.

Upper Division Course Contingency
In the event that an insufficient number of courses are available at the upper division level for a student to complete a major or minor, the chair of the department may, at his or her discretion, accept alternative departmental courses, external courses dealing with subject matter related to the major or minor or external experiences in course settings like internships, study abroad, and/or community engagement as acceptable for meeting the requirements.

Assessment
As part of its assessment program, the Department requires the following of majors:
- Each major must complete at least one community-based activity consisting of a study abroad, service learning, and/or internship experience under the appropriate department course numbers.
- Each major must select one paper from their 3000 or 4000 level courses as their major departmental project.
- Specifications for all of these assessment requirements are available from the department.

Student Groups
Black Studies student groups cater to the interests of majors and minors as well as other students interested in the field of Black Studies and membership is open to all students.

Website (http://www.unomaha.edu/blst/)

To obtain a B.S. with a major in Black Studies, a student must fulfill university, college, and departmental requirements. Hour requirements follow:
- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 48 hours of major courses
- 7-14 hours of electives

TOTAL HOURS: 120

Requirements
The Black Studies department currently offers a major leading to the B.S. degree. Black Studies majors must complete 33 hours of course work in the discipline.

Students are required to complete 15 hours of cognate coursework outside of Black Studies. Cognates are designed by the student in consultation with the undergraduate advisor.

### Additional Information About this Plan:

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

Black Studies Minor

Requirements

A Black Studies minor may be obtained by successful completion of fifteen (15) credits of course work, of which at least nine (9) hours must be composed of upper division (3000 and 4000 level) departmental courses.

Chemistry

The Department of Chemistry, which is approved by the American Chemical Society (ACS), offers both Bachelor of Science (B.S.) and Bachelor of Arts (B.A.) degrees. Students can choose among three B.S. degree options. The B.S. degree in Chemistry is designed for majors planning to be industrial or government chemists, planning to pursue a graduate degree in chemistry or biochemistry, or considering professional degrees in fields such as medicine. The B.S. degree with Concentration in Medicinal Chemistry is designed for students interested in health fields, graduate programs in life sciences or professional study such as pharmacy or medicine. The B.S. degree with Concentration in Education is designed for students planning to teach high school chemistry or plan to teach at a more advanced level and want to develop their teaching skills as part of their undergraduate education. The B.A. degree is appropriate for chemical technologists and pre-professional students, particularly fields other than the health sciences.

Other Information

Students working toward a degree in Chemistry or a Chemistry minor must earn a grade of "C" or better in all courses used to fulfill Chemistry major or minor requirements. A GPA of 2.0 or higher in chemistry and cognate courses is required to graduate with a Chemistry major or minor.

The department highly encourages students to engage in undergraduate research with a faculty mentor. Students can start undergraduate research with CHEM 2950 or CHEM 4950 depending on their background and the needs of their faculty supervisor.

To make room for students making regular academic progress, those students who have been enrolled in a course three or more times: 1) will not be allowed to enroll prior to the first week of classes; and 2) will need permission of the instructor to enroll.

High school students who have successfully completed advanced high school chemistry courses (AP and/or IB) and are considering a modified course of study should consult with the department.

Student Groups

The Department of Chemistry has an active student led Chemistry Club. For more information visit [https://www.unomaha.edu/college-of-arts-and-sciences/chemistry/student-opportunities/student-organizations.php](https://www.unomaha.edu/college-of-arts-and-sciences/chemistry/student-opportunities/student-organizations.php)

Contact Information

337 Durham Science Center
402.554.2651

Degrees Offered

- Chemistry, Bachelor of Arts (p. 104)
- Chemistry, Bachelor of Science (p. 106)
- Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry (p. 111)
- Chemistry, Bachelor of Science with a Concentration in Chemistry Education (p. 108)

Writing in the Discipline

All students are required to take a writing in the discipline course within their discipline. For the chemistry major, this is NSCI 3940 along with any two of the following courses: CHEM 3354, CHEM 3364, CHEM 4654, CHEM 4664, or another approved course.

Minors Offered

- Chemistry Minor (p. 113)

Love chemistry? Take the challenge and become a chemistry major! A career in chemistry is exciting. Most of our graduate majors go to professional schools (medical, dental and pharmacy schools and other health related careers), some pursue graduate schools, and the rest land a job in industry. Companies that hire chemists include pharmaceutical companies, bulk commodity chemical companies, food manufacturers, personal, and household care product companies, and some of our students enjoy their teaching in the K-12 schools!

Career options include, but are not limited to

- Professional (medical doctor, nursing, pharmacy, and dentistry);*
- Professor after graduate schools;*
- Lab Chemist
- Lab Technician
- Quality Assurance Specialist
- Science Teacher

*Advanced Degree Required

CHEM 1010 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY (3 credits)

A study of modern society’s impact on our environment and the chemistry needed to understand it. The primary focus is the underlying chemistry of the effects of energy production and properties of fuels while including social, political and economic connections. Impacts on air and water quality, climate change, and fossil fuels are discussed. Additional course topics may also include the ozone layer, plastics, medicine and nutrition. (Fall, spring) Fulfills a University General Education Natural/Physical Science Requirement.

Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 with a grade of C or better or equivalent.

Distribution: Natural/Physical Sci General Education lecture

CHEM 1014 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY LABORATORY (1 credit)

Laboratory for CHEM 1010, a survey of the relationship of chemistry to current problems in environmental control, medicine, technology and energy production. (Fall, Spring)

Prerequisite(s)/Corequisite(s): CHEM 1010 to be taken concurrently or completed previously with grade of C or better.

Distribution: Natural/Physical Sci General Education lab course
CHEM 1120 STRATEGIES IN CHEMICAL PROBLEM SOLVING (2 credits)
This course focuses on the development of problem solving skills and learning strategy tools in the context of first semester college chemistry topics. It is primarily intended for students seeking a stronger background before enrolling in CHEM 1140 or CHEM 1180. However, the content should be valuable for a variety of courses. Not available for natural science credit, nor intended to meet chemistry requirements for other programs. (Fall)
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 with C-or better or equivalent. MATH 1310 or MATH 1220 may also be taken concurrently. Not open to non-degree graduate students.

CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY (4 credits)
A comprehensive introduction to the basic principles of chemistry. This course is intended for all students needing a one-semester introductory course with laboratory including allied health students continuing to CHEM 2210, or those seeking a stronger background before enrollment in CHEM 1180. (Fall, spring, possibly summer). Fulfills a University General Education Natural/Physical Science Requirement.
Prerequisite(s)/Corequisite(s): MATH 1220 or equivalent within last two years (C-or better); or ACT Math subscore of at least 23 within last two years; or ALEKS/Accuplacer score of at least 4 within last two years. CHEM 1144 concurrent or prior with C-or better.
Distribution: Natural/Physical Sci General Education Lecture

CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (1 credit)
Laboratory explorations of chemical measurements, modeling, reactions and analyses. To be taken with CHEM 1140. (Fall, spring, possibly summer).
Prerequisite(s)/Corequisite(s): CHEM 1140 concurrent or prior with C-or better.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1170 GENERAL CHEMISTRY I-II (5 credits)
Intended for students with significant backgrounds in chemistry, the course is a combination of CHEM 1180 and CHEM 1190 completed in one semester. This course also includes a lab section. During lecture, the following topics will be covered: introductory quantum theory, electronic structures, bonding theory, gas laws, solution properties and reactions, acid-base theory, ionic equilibria, complexation, oxidation-reduction, thermodynamics and kinetics. The laboratory will include the introduction of basic laboratory skills and scientific experimental design.
Prerequisite(s)/Corequisite(s): MATH 1330 or equivalent in the last two years (C-or better); or ACT Math subscore of at least 26 within last two years; or ALEKS/Accuplacer score of at least 6 in the last two years; or MATH 1310 or MATH 1220 with C-or better within last two years; or ALEKS/Accuplacer score of at least 4 within last two years. CHEM 1144 concurrent or prior with C-or better.
Distribution: Natural/Physical Sci General Education Lecture&Lab

CHEM 1180 GENERAL CHEMISTRY I (3 credits)
A comprehensive survey of chemical principles; the first course in a two-semester sequence primarily for majors and those in the sciences. It is assumed that students will have a good background in elementary chemical principles. CHEM 1184 normally to be taken concurrently. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science Requirement.
Prerequisite(s)/Corequisite(s): MATH 1320 or equivalent in the last two years (C-or better); OR CHEM 1140 in last two years (C-or better); OR ACT Math subscore of 25 in last two years; OR ALEKS/Accuplacer score of at least 5 in last two years. CHEM 1184 concurrent/prior (C-or better).
Distribution: Natural/Physical Sci General Education Lecture

CHEM 1184 GENERAL CHEMISTRY I LABORATORY (1 credit)
A laboratory program designed to enhance laboratory skills and illustrate chemical principles. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science requirement.
Prerequisite(s)/Corequisite(s): CHEM 1180 concurrent or prior with a grade of C-or better.
Distribution: Natural/Physical Sci General Education lab course

CHEM 1190 GENERAL CHEMISTRY II (3 credits)
A study of acid-base theory, ionic equilibria, complexation, oxidation-reduction, thermodynamics and kinetics. CHEM 1194 to be taken concurrently. (Fall, Spring, Summer)
Prerequisite(s)/Corequisite(s): CHEM 1180 and 1184 with a grade of C-or better AND Math 1320. Concurrent enrollment in CHEM 1194.

CHEM 1194 GENERAL CHEMISTRY II LABORATORY (1 credit)
Quantitative analysis and study of solution equilibria. Includes statistics applied to quantitative analysis. (Fall, Spring, Summer)
Prerequisite(s)/Corequisite(s): CHEM 1180 and 1184 with a grade of C-or better or department recommendation of advanced placement. Prereq or coreq: CHEM 1190 (if prereq must be with a grade of C or better).

CHEM 2210 FUNDAMENTALS OF ORGANIC CHEMISTRY (4 credits)
Chemistry 2210 is a course on basic organic chemistry, a one-semester course designed primarily for students in biology, elementary science education, and allied health fields.
Prerequisite(s)/Corequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C-or better in each. CHEM 2214 to be taken concurrently.

CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (1 credit)
Elementary organic chemistry laboratory to be taken concurrently with CHEM 2210. This course is for students in biology (non-premed, non-pre-dental tracks), elementary education and allied health majors.
Prerequisite(s)/Corequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C- or better in each. CHEM 2210 to be taken concurrently.

CHEM 2250 ORGANIC CHEMISTRY I (3 credits)
The fundamental chemistry of carbon compounds. (Fall, Spring, Summer)
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C or better.

CHEM 2260 ORGANIC CHEMISTRY II (3 credits)
A continuation of the foundational study of the compounds of carbon. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 2250 with a grade of C- or better, obtained within the prior twelve months. CHEM 2274 concurrent or prior with a grade of C- or better.

CHEM 2274 ORGANIC CHEMISTRY LABORATORY (2 credits)
A laboratory course in the skills and techniques of experimentation in organic chemistry. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 1194 with a grade of C-or better and CHEM 2260 concurrent or prior with C-or better.

CHEM 2400 QUANTITATIVE ANALYSIS (3 credits)
Theory of quantitative analysis applied to gravimetric and volumetric analysis; theory of error and evaluation of analytical data; introduction to instrumental analysis and separation methods. (Fall)
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C-or better or equivalent. CHEM 2404 to be taken concurrently.

CHEM 2404 QUANTITATIVE ANALYSIS LAB (1 credit)
Laboratory application of principles of quantitative analysis and experience with sample preparations, titrations, and instrumental methods of analysis. Use of reaction chemistry, separations, and spectrophotometry in determinations. Introduction to quality control. (Fall)
Prerequisite(s)/Corequisite(s): CHEM 1190 and CHEM 1194 with a grade of C- or better or equivalent. CHEM 2404 to be taken concurrently.

CHEM 2500 INTRODUCTION TO INORGANIC CHEMISTRY (3 credits)
A survey of the inorganic chemistry of metallic and nonmetallic species, including atomic, molecular and crystal structures, composition, properties and reactivities. (Spring).
Prerequisite(s)/Corequisite(s): CHEM1190 with a grade of C- or better.
CHEM 2930 APPLIED TOPICS IN CHEMISTRY (1-3 credits)
More thorough examination of a chemistry topic than in the regular curriculum. Content (e.g. polymers, forensics, brewing and cooking, chemical industry, historical chemistry, art and chemistry, glassblowing) will vary with offering. 
Prerequisite(s)/Corequisite(s): Completion 4 credit hours of university chemistry with grade(s) of C- or better, or 8 CH credit of chemistry with grades of C or better.

CHEM 2950 INTRODUCTION TO RESEARCH IN CHEMISTRY (1 credit)
This course is intended to give students, possessing at least a high school background in chemistry, the opportunity to work with faculty and/or advanced students on an established research project. The creativity and communication expectations of these students will be less than for students enrolled in the 4000 level research courses. Guided laboratory/library work on an established research project.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

CHEM 3030 ENVIRONMENTAL CHEMISTRY (3 credits)
This course connects fundamental chemical principles to processes observed in the environment. The environmental processes studied may or may not be anthropogenic in nature and will include every environmental domain (air, water, soil/minerals/rocks) and interactions between domains.
Prerequisite(s)/Corequisite(s): CHEM 1180 and CHEM 1184, CHEM 1190 and CHEM 1194, CHEM 2400 and CHEM 2404, or consent of the instructor

CHEM 3210 INTRODUCTION TO MOLECULAR MODELING (3 credits)
The course covers the advantages and limitations of current modeling systems, the criteria for choosing the appropriate modeling system to best solve a given problem and the computer resources needed to conduct the modeling experiments. Following an introduction to the theory behind a variety of modeling systems, students model organic and bioorganic compounds in projects designed to mimic real world applications. (Alternate Spring semesters). (Cross-listed with CHEM 8215)
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 3350 PHYSICAL CHEMISTRY I (3 credits)
A survey of biochemistry emphasizing: cell structure, energy, and water; amino acid and protein structure/function, enzymes, and protein isolation; carbohydrates and carbohydrate metabolism (glycolysis, glycogen metabolism); aerobic metabolism (citric acid cycle and oxidative phosphorylation); lipids, membranes, transport, cholesterol, and lipid metabolism; and nucleic acids. (Fall, Spring)

CHEM 3354 PHYSICAL CHEMISTRY I LABORATORY (1 credit)
Physical chemistry laboratory covering topics in thermodynamics, kinetics and electrochemistry, to be taken concurrently with CHEM 3350/3355. 
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404, PHYS 2120; MATH 1960. (Chemistry courses must be with a grade of C or better). Concurrent enrollment in CHEM 3354.

CHEM 3360 PHYSICAL CHEMISTRY II (3 credits)
A presentation of selected topics from the areas of quantum mechanics, spectroscopy, kinetics and statistical mechanics. (Spring) (Cross-listed with CHEM 8365).
Prerequisite(s)/Corequisite(s): CHEM 3350 and CHEM 3354 with a grade of C- or better.

CHEM 3364 PHYSICAL CHEMISTRY II LABORATORY (1 credit)
Physical chemistry laboratory covering topics in quantum mechanics, computational chemistry, spectroscopy, and kinetics, to be taken concurrently with CHEM 3360. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. Offered in Spring. (Cross-listed with CHEM 8369).
Prerequisite(s)/Corequisite(s): CHEM 3350 and 3354 with a grade of C- or better, to be taken concurrently with CHEM 3360.

CHEM 3424 SPECTROMETRIC CHARACTERIZATIONS (1 credit)
Laboratory course involving the use of spectrometric instrumentation for the identification of compounds containing organic functional groups. (Fall, alternate years) (Cross-listed with CHEM 8429).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2274, CHEM 2400 and CHEM 2404 with a grade of C- or better.

CHEM 3514 INORGANIC PREPARATIONS (1 credit)
Laboratory preparation and characterization of representative types of inorganic compounds by various standard and special techniques. (Spring)
Prerequisite(s)/Corequisite(s): CHEM 2274, CHEM 2400, CHEM 2404, CHEM 2500 with a grade of C- or better.

CHEM 3560 FUNDAMENTALS OF BIOCHEMISTRY (3 credits)
A survey of biochemistry emphasizing: cell structure, energy, and water; amino acid and protein structure/function, enzymes, and protein isolation; carbohydrates and carbohydrate metabolism (glycolysis, glycogen metabolism); aerobic metabolism (citric acid cycle and oxidative phosphorylation); lipids, membranes, transport, cholesterol, and lipid metabolism; and nucleic acids. (Fall, Spring)

CHEM 3650 FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in the fundamentals of biochemistry lecture with the development of biochemical laboratory skills including data analysis. (Fall, Spring)
Prerequisite(s)/Corequisite(s): CHEM 2210 and CHEM 2214 or CHEM 2260 and CHEM 2274 with a grade of C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 3650 must be taken concurrently.

CHEM 3710 ESSENTIALS OF MEDICINAL CHEMISTRY (3 credits)
This course is an introduction to human drug discovery, mechanism of action, metabolism, and drug-drug interaction, while demonstrating the interdisciplinary nature of medicinal chemistry. An emphasis is placed on drug design, drug structure, and the relationship of structure to drug action and metabolism. (Spring)
Prerequisite(s)/Corequisite(s): ENGL 1160 and CHEM 2260/ CHEM 2274 with a grade of C- or better.

CHEM 4230 ADVANCED ORGANIC CHEMISTRY - SYNTHESIS (3 credits)
An advanced lecture course in modern theories and organic reactions with application to synthesis. (Alternate Fall semesters) (Cross-listed with CHEM 8236).
CHEM 4240 ADVANCED ORGANIC CHEMISTRY - MECHANISM (3 credits)
An advanced lecture course in organic chemical reactions. (Cross-listed with CHEM 8246).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2400 with a C- or better.

CHEM 4250 ADVANCED ORGANIC CHEMISTRY: MECHANISMS AND MODELING (4 credits)
Presentation of advanced topics in organic chemistry focused on structure, bonding and reaction mechanisms. The use of molecular modeling software as means to predict structure, relative stabilities and reaction thermodynamics are covered in a hands-on environment. The course will survey various modeling methods and show its relevance to molecular orbital theory. The basic methodologies used to explore organic mechanisms are presented and then used to study mechanistic details of various reaction types. Students cannot count both Chem 4250 and Chem 4240 toward their degree. (Cross-listed with CHEM 8256).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a C- or better.

CHEM 4310 POLYMER CHEMISTRY (3 credits)
An introduction to the chemical and physical properties of polymers. Emphasis will be on physical properties and structure/property relationships. Topics will include kinetics and synthesis. Students will gain an understanding of the characteristics of polymers and their applications.
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 3350, each with a grade of C- or better, or instructor permission. Not open to non-degree graduate students.

CHEM 4400 INSTRUMENTAL ANALYSIS (3 credits)
Study of instrumentation for use in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 8406).
Prerequisite(s)/Corequisite(s): CHEM 3360, CHEM 3364 and CHEM 3414 with a grade of C or better. Concurrent enrollment in CHEM 4404.

CHEM 4404 INSTRUMENTAL ANALYSIS LABORATORY (1 credit)
Use of instrumentation in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 8409).
Prerequisite(s)/Corequisite(s): CHEM 3360, CHEM 3364, CHEM 3414 with a grade of C or better. Concurrent enrollment in CHEM 4400.

CHEM 4500 ADVANCED INORGANIC CHEMISTRY (3 credits)
The application of bonding models for understanding of the composition, structure, and reactions of inorganic molecules, including organometallic and bioinorganic complexes. (Cross-listed with CHEM 8506).
Prerequisite(s)/Corequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better. CHEM 3350 may be taken concurrently.

CHEM 4510 SOLID STATE INORGANIC CHEMISTRY (3 credits)
A study of the structural and electronic basis of materials properties in the solid state. Properties examined include electrical conductivity, ferromagnetism, ferroelectricity, and superconductivity. Some experimental work will be conducted.
Prerequisite(s)/Corequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better; or permission of instructor.

CHEM 4540 GEOCHEMISTRY (3 credits)
This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of igneous, metamorphic and sedimentary rocks and ore deposits.
Prerequisite(s)/Corequisite(s): GEOL 1170, MATH 1950, CHEM 1190 and GEOL 2750 or CHEM 2500 (chemistry courses must have a grade of C or better).

CHEM 4610 BIOCHEMISTRY OF METABOLISM (4 credits)
The course covers the structure-function relationships of proteins, carbohydrates, lipids and nucleotides, with an emphasis on the biochemistry of metabolism and molecules of metabolism. It is primarily intended to prepare students for health-related professional schools. (Spring)
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 4650 BIOCHEMISTRY I (3 credits)
A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 4650, BIOL 8656, CHEM 8656).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 4654 must be taken concurrently.

CHEM 4654 BIOCHEMISTRY I LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 4654, BIOL 8654, CHEM 8654).
Prerequisite(s)/Corequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 4650 must be taken concurrently with BIOL 4654. CHEM 4650 must be taken concurrently with CHEM 4654.

Distribution: Writing in the Discipline

CHEM 4660 BIOCHEMISTRY II (3 credits)
A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 4660, BIOL 8666, CHEM 8666).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. CHEM 4664 must be taken concurrently (Chemistry courses must have a grade of C- or better)

CHEM 4664 BIOCHEMISTRY II LABORATORY (1 credit)
A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 4664, BIOL 8664, CHEM 8664).
Prerequisite(s)/Corequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654 with a C- or better. BIOL 4660 must be taken concurrently with BIOL 4664. CHEM 4660 must be taken concurrently with CHEM 4664.

Distribution: Writing in the Discipline

CHEM 4670 PROTEIN PURIFICATION AND CHARACTERIZATION (2 credits)
This course is a study of protein biochemistry, protein purification techniques, and characterization strategies with an emphasis on chromatography and crystallography. The course has a significant laboratory component. (Cross-listed with CHEM 8676).
CHEM 4810 CHEMISTRY INTERNSHIP (1-6 credits)
Application of chemical skills in a non-academic laboratory or workplace through part-time employment or contracted work; written report required. Grading will be 'S' or 'U' only.
Prerequisite(s)/Corequisite(s): Major in Chemistry, CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404 with a grade of C or better and permission of department chair.

CHEM 4930 SPECIAL TOPICS IN CHEMISTRY (1-3 credits)
Selected special topics in chemistry. (Cross-listed with CHEM 8936).
Prerequisite(s)/Corequisite(s): CHEM 2260, CHEM 2400 with a grade of C or better. Some topics will require more advanced prerequisites and will be accepted for advanced course work in chemistry.

CHEM 4950 CHEMISTRY PROJECTS (1 credit)
Initiation of an independent student research project, and communication of the results.
Prerequisite(s)/Corequisite(s): Depends on the project. Generally, junior standing.

CHEM 4960 CHEMISTRY PROBLEMS (1-3 credits)
Independent student research and communication of the results in a written report. If NSCI 4960 is taken concurrently, the CHEM 4960 report is replaced by an oral presentation. (Cross-listed with CHEM 8966).
Prerequisite(s)/Corequisite(s): CHEM 4950 with a grade of C or better and permission of instructor.

Chemistry, Bachelor of Arts
To obtain a B.A. with a major in Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 34 or fewer.)
- 16 hours foreign language requirement
- 12 hours college breadth requirement
- 36 hours of major courses
- 20 hours of cognate courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements
A B.A. degree in chemistry requires a minimum of 36 credit hours of approved chemistry courses.

### Total Credits
**119-121**

---

1. CHEM 1180: Requires appropriate Math placement. Must take 1184 concurrently.
2. MATH 1950: Requires appropriate Math placement. MATH 1950 is part of the BS Cognate.
3. ENGL 1150: Requires appropriate English Placement.
4. CHEM 1190 requires 1194 be taken concurrently. Pre-req is Math 1320 or higher and CHEM 1180-1184.
5. MATH 1960 prereq is MATH 1950. MATH 1960 is part of the BS Cognate.
6. PHYS 2110 requires MATH 1950, and PHYS 1110 requires MATH 1220. PHYS 2110/1110 is part of the BS Cognate.
7. CHEM 2250: Requires CHEM 1190+1194.
8. CHEM 2400: Requires CHEM 1190-1194. Lab of 2404 must be taken concurrently.
9. CHEM 2260: Requires CHEM 2250. 2274 must be taken concurrently. CHEM 2260-2274 must be taken within one year of CHEM 2250.
10. CHEM 2500: Requires CHEM 1190.
11. CAS College Requirement
12. PHYS 2120 requires MATH 1960 and PHYS 2110. PHYS 1120 requires MATH 1220 and PHYS 1110. PHYS 2120/1120 is part of the BS Cognate.
14. CHEM 4650: Requires CHEM 2260+2274, and either CHEM 2400 or BIOL 3020.
15. Social Science Course must be in the 2nd discipline.
16. CAS College Requirement
17. NSCI 3940: Requires ENGL 1160, and CHEM 2400 or 2500.
18. Must take 5 credit hours of Advanced Chemistry courses from the approved list of courses for the BS Chemistry.
19. CAS College Requirement: Add’l Humanity must be from 3rd discipline.
20. CAS College Requirement: Add’l Social Science must be from 3rd discipline.
21. Students need a minimum of 120 total credits. May need to select electives to reach this minimum.
22. CHEM 3360: Requires CHEM 3350 and 3354

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study.**
**Chemistry, Bachelor of Science**

To obtain a B.S. with a major in Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses
- 12 hours college breadth requirement
- 42 hours of major courses
- 20 hours of cognate courses
- Elective hours as required to total 120 hours

**TOTAL HOURS: 120**

**Requirements**

A B.S. degree in chemistry requires a minimum of 42 credit hours of approved chemistry courses.

CHEM 3360 & CHEM 3364
PHYSICAL CHEMISTRY II and PHYSICAL CHEMISTRY II LABORATORY (*)

Additional Social Science* or Minor/2nd Major Course 3
Elective 3

• CAS Requirement: Additional Social Science must come from a 3rd discipline.

• CHEM 4400: Requires CHEM 3360+3364, and CHEM 3414.

• CHEM 3360: Requires CHEM 3350+3354

Students need a minimum of 120 credits to graduate. Electives may be needed to reach this minimum.

Credits 14
Total Credits 121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Chemistry, Bachelor of Science with a Concentration in Chemistry Education

To obtain a B.S. with a major in Chemistry and a concentration in Chemistry Education, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

• 46 hours of University General Education courses
• 39 hours of major courses
• 20 hours of cognate courses
• Elective hours as required to total 120 hours

TOTAL HOURS: 120 plus the optional 39 hour concentration

Requirements
A Bachelor of Science Degree in Chemistry with a Concentration in Education requires a minimum of 39 credits of course work in Chemistry and a minimum of 39 credits in the College of Education.

Total Credits  131-136

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study
Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry

To obtain a B.S. with a major in Chemistry and a concentration in Medicinal Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 34 or fewer.)
- 12 hours college breadth requirement
- 51 hours of major courses (including the optional concentration)
- 20 hours of cognate courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A Bachelor of Science Degree in Chemistry with a Concentration in Medicinal Chemistry requires a minimum of 51 credit hours of course work in both chemistry and biology.

**GPA Requirements:**
2.0

### GPA Requirements

### Chemistry Minor

**Requirements**

A minor in chemistry requires 18 credit hours of approved chemistry courses.

All chemistry courses counted toward a minor must be taken from classes approved for chemistry majors. In addition to General Chemistry I and II, students must take 10 additional hours of chemistry courses from the list below, with at least 7 hours at the 2000 level or higher taken in residence at UNO.

This minor requires a minimum of 120 credits to graduate. Electives, minors, or a 2nd major may be used to reach this minimum.
Economics

Economics is concerned with how resources are allocated in production, prices are determined, incomes are distributed and growth occurs. Economists examine such issues as how fiscal and monetary policies affect prices and employment, the effect on international trade of international trade agreements and the international price of the dollar, the size and future composition of the labor force, the effects of government regulations on the price, quantity and quality of goods and services, and costs and benefits of environmental policies.

Economists are employed by private businesses, utilities, railroads, government at all levels, educational institutions, labor unions, trade associations and non-profit organizations. In businesses, economists’ duties include analyzing and forecasting industry and market conditions, and making recommendations and decisions relative to capital investments, marketing new products, employee compensation, and the impact of government regulation. In addition, economics is superb preparation for graduate work in areas such as business law, political science, international relations, gerontology, and public administration. Economics also is an excellent dual major or minor for many areas of study.

Other Information

All coursework taken for the Economics major or minor must be completed with a grade of “C” or better.

Option for Degree Completion

The Department of Economics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

• The program is available for undergraduate students pursuing the Bachelor of Science in Business Administration (with a concentration in Economics), Bachelor of Science in Economics, or Bachelor of Arts in Economics, desiring to pursue a Master of Science in Economics.
• Students must have completed no less than 60 undergraduate hours.
• Students must have a minimum undergraduate GPA of 3.50.
• Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
• Students will work with their undergraduate advisor to register for the graduate courses.
• A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
• Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
• Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  • Admission to Fast Track does NOT guarantee admission to the graduate program.
  • The admit term must be after the completion term of the undergraduate degree.

Students in the Fast Track program must only enroll in dual-level ECON courses (ECON 8xx6) as their graduate coursework prior to admittance to the graduate program.

Student Groups

Economics Club

The main purpose of the UNO Economics Club (Econ Club, for short) is to increase awareness and knowledge of economic issues among Econ Club members and the overall UNO community. The organization also provides a venue for student-members to examine issues related to academic success, career success, and related matters. The organization shall work towards increasing the membership’s engagement with the Omaha community.

Website (http://www.unomaha.edu/college-of-arts-and-sciences/economics/)

Degrees Offered

• Economics, Bachelor of Arts (p. 117)
• Economics, Bachelor of Science (p. 118)
Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the economics major this is ENGL 3050, ENGL 3980 or other approved course.

Minors Offered
- Economics Minor (p. 120)

By nature, Liberal Arts majors make great employees in any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers in all walks of society. Specifically though, Economics majors often pursue careers as:
- Commodities broker
- Credit analyst
- Data analyst
- Data scientist
- Economic forecaster
- Financial analyst
- Insurance underwriter
- Management consultant
- Market research analyst
- Public relations/media organizer
- Securities broker

ECON 1200 AN INTRODUCTION TO THE U.S. ECONOMY (3 credits)
An introduction to U.S. economy and an investigation of U.S. and international economic problems and policies.
Prerequisite(s)/Corequisite(s): Not available to students who have completed either ECON 2200 or 2220.
Distribution: Social Science General Education course

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)
An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.
Prerequisite(s)/Corequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with C+ (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)
An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C minus (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)
This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)
A comprehensive study of production, consumption and exchange in primary, secondary and tertiary economic activities as related to spatial factors. (Cross-listed with GEOG 3130).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better. or Majoring in Geography

ECON 3190 SPORTS ECONOMICS (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as labor market, discrimination, monoply power, game theory, and more in the context of sports, giving the student a deeper understanding of these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.
Prerequisite(s)/Corequisite(s): ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)
Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a “C” (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)
This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.
Prerequisite(s)/Corequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic influences sporting competitions and the businesses surrounding them. Students will explore topics such as labor market, discrimination, monoply power, game theory, and more in the context of sports, giving the student a deeper understanding of these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.
Prerequisite(s)/Corequisite(s): ECON 2200 AND ECON 2220) OR ECON 1200 OR ECON 2400 OR Instructor Approval.
ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)
An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BAD 2130 or BAD 3160, each with a “C” (2.0) or better, or permission of instructor.

ECON 3310 SQL DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)
Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programatically combine multiple datasets, and learn advanced programatic data cleaning techniques, such as regular expression.
Prerequisite(s)/Corequisite(s): ECON 2200 with a “C” or better

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)
This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a “C” (2.0) or better.

ECON 3550 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)
An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact the economics department for specific course offerings.

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like “Why does everyone hate the cable company?” and “Why are CEOs given so many stock options?” (Cross-listed with ECON 8216).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2222, each with a “C” (2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth’s natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)
The seminar discusses whether innovation is more driven by demand or supply forces, the optimal timing of adoption of new technology, whether new technology benefits workers and consumers, and whether government is successful at supporting promising new technology. (Cross-listed with ECON 8346).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a “C” (2.0) or better, or BAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).
Prerequisite(s)/Corequisite(s): ECON 3310 OR ECON 8320 (or concurrent enrollment) AND BAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).
Prerequisite(s)/Corequisite(s): ECON 3220, or permission of instructor.
ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)
Individual investigation of specific problems in the field of economics under the supervision of a faculty member.
Prerequisite(s)/Corequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)
Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or permission of the instructor

ECON 4610 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, alternative exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 8626).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the Department's Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.
Prerequisite(s)/Corequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

Economics, Bachelor of Arts

To obtain a BA with a major in Economics in the College of Arts & Sciences, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours.)
- 16 hours foreign language requirement
- Four years of a single language in high school or four college semesters will satisfy this requirement.
- 12-19 hours college breadth requirement
- 30 hours of major courses
- 6-16 hours of electives

TOTAL HOURS: 120

Requirements

A Bachelor of Arts in Economics consists of a minimum of 30 credit hours, as outlined below.

Select nine hours of Economics electives from 3000-4000 level courses 2

Select six hours of Economics electives from 4000 level courses 2

Students are encouraged to take the following:

MATH 1930  | CALCULUS FOR THE MANAGERIAL LIFE, AND SOCIAL SCIENCES
or MATH 1370 | APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS

ECON 3300  | INTRODUCTION TO ECONOMETRICS

Total Credits 30

1 Equivalent courses include: SOC 2130, PSYC 3130, STAT 3000, STAT 1530, CIST 2500, STAT 3800, CRCJ/PA/SOWK 3000, and PSCI 3000.
A minimum grade of "C" (2.0) is necessary in each required and elective course.

**For the B.A. degree, foreign language is required through the intermediate level.**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

- **University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

- **Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

- **Transfer credit or placement exam scores may change suggested plan of study**

**Economics, Bachelor of Science**

To obtain a BS with a major in Economics in the College of Arts & Sciences, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours.)
- 12-19 hours college breadth requirement
- 51 hours of major courses
- 4-11 hours of electives

**TOTAL HOURS: 120**

**Requirements**

A Bachelor of Science in Economics consists of a minimum of 36 credit hours.

**Total Credits: 36**
### Required Cognate Courses

For the B.S. degree, students are required to complete at least 15 hours of related cognate coursework, 3-5 credits of which must come from one of the following math courses:

- MATH 1930: CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES
- MATH 1950: CALCULUS I
- MATH 1370: APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS

The rest of the 15 credit cognate requirement may be drawn from the following fields: business administration, computer science, geography, history, international studies, mathematics, political science, public administration, sociology, statistics and urban studies. No more than 6 credits of cognate coursework may double-count within the general education requirements. Cognate courses from other fields must be approved by the Economics advisor.

### Total Credits

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

#### Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study.**
Economics Minor

Requirements

<td>12</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>

Any course that may be used for the major may be used for the minor.

A grade of “C” (2.0) or better is required in each course counting toward the minor.

English

The Department of English at UNO works to increase the general literacy and cultural awareness of UNO students and also the citizens of Omaha and its immediate surroundings. Faculty are considerably involved in the Service Learning Academy, in area public high schools, in city- and state-wide cultural and literary societies, in public readings and lectures, in area literary competitions and a wide array of publication outlets, and at national and international venues, such as Fulbright and CLEPS.

Across all of our efforts in teaching, research, creative activity, and service, the UNO Department of English is a vital component of the university’s strategic mission: to make students our focus, to promote academic excellence, and to engage with our community.

Other Information
All coursework taken for the English major or minor must be completed with a grade of “C-” or better.

Student Groups
Sigma Tau Delta (English Honor Society)

Contact
192 Arts and Sciences Hall

Website (http://www.unomaha.edu/college-of-arts-and-sciences/english/)

Degrees Offered
- English, Bachelor of Arts (p. 126)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the English major this is either ENGL 2410 or ENGL 2420, depending on the concentration selected.

Minors Offered
- English Minor (p. 135)

Certificates Offered
- Certificate in Course in Teaching English to Speakers of Other Languages (TESOL) (p. 134)

Students who graduate with a BA from UNO’s English department have gained so much more than an appreciation of language and literature. They are community leaders whose understanding of oral and written composition, linguistic and cultural norms, and rhetoric and argumentation are applied to a wide range of occupations. English graduates have not only gone on to organize data for marketing or engineering firms, but have also started businesses, joined political campaigns, and integrated with community institutions in teaching, writing, and other fields of community involvement.

Although the skills gained with an English major are applicable to many fields, English graduates most commonly pursue and succeed in fields such as:

- Marketing Director
- Speech Writer
- Technical Publications Manager
- Technical Writer
- Underwriter
- Account Manager
- Editor
- Research Analyst
- Copywriter
- Grant Specialist
- Journalist
- Web Content Specialist
- Press Secretary
- Program Coordinator Non-Profit

ENGL 1010 INTRODUCTION TO GENRE STUDIES: PROSE (3 credits)
This course introduces students to the study of short stories, novels, and creative non-fiction (optional; inclusion may vary by instructor).
Distribution: Humanities and Fine Arts General Education course

ENGL 1020 INTRODUCTION TO GENRE STUDIES: POETRY, DRAMA, FILM (3 credits)
This course introduces students to the study of poetry, drama, and film (optional; inclusion may vary by instructor).
Distribution: Humanities and Fine Arts General Education course

ENGL 1030 US CULTURES IN LITERATURE (3 credits)
The course introduces students to literary texts representing diverse U.S. groups: their ideologies, norms, and behaviors. Students will study conventions of various genres; ways in which those genres portray group identities; and attitudes toward group identities. Students will engage with texts through analysis, interpretation, and personal reflection.
Prerequisite(s)/Corequisite(s): Placement of 4 or higher on the English Placement and Proficiency Exam (EPPE)
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 1090 ENGLISH AS A SECOND LANGUAGE I (3 credits)
This class is an intermediate writing-intensive course that will help students learn about the nature of the academic essay in American university settings; it is intended for students whose language of nurture is not English. Students receive intensive instruction in vocabulary and grammatical conventions appropriate for writing in a variety of disciplines as they engage in expository essay writing. In addition, students study the conventions of a thesis-driven argument and appropriate use of evidence to support their assertions.
Prerequisite(s)/Corequisite(s): A Score >= 500 on the paper TOEFL, 61 on the Internet TOEFL, 6.0 on the IELTS, 44 on the PTE (Pearson Test of English), or a placement of 2 (ENGL 1090) by Dept of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE).
ENGL 1100 ENGLISH AS A SECOND LANGUAGE II (3 credits)
This class is an advanced writing-intensive course in which students learn about the nature of the academic essay in American university settings; it is intended for students whose language of nurture is not English. Through a study of cultural rhetorics, students become acclimated to the more advanced academic environments they will encounter in American universities and learn the conventions of the writing they will be asked to perform in their major courses, for example, research standards demanded by US professors, including appropriate selection and integration of sources into a student's own writing and navigation of an academic library.
Prerequisite(s)/Corequisite(s): Placement of 3 (ENGL 1100) by Department of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE), or C- or better in ENGL 1090

ENGL 1150 ENGLISH COMPOSITION I (3 credits)
Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts.
Sections identified as "ENGL 1154" are taught in a computer classroom. (Cross-listed with ENGL 1150).
Prerequisite(s)/Corequisite(s): Placement of 5 (ENGL 1150/ENGL 1154) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition I

ENGL 1154 ENGLISH COMPOSITION I (3 credits)
Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts.
Sections identified as "ENGL 1154" are taught in a computer classroom. (Cross-listed with ENGL 1150).
Prerequisite(s)/Corequisite(s): Placement of 5 (ENGL 1150/ENGL 1154) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.
Distribution: Fundamental Academic Skills-Composition I

ENGL 1160 ENGLISH COMPOSITION II (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom. (Cross-listed with ENGL 1160).
Prerequisite(s)/Corequisite(s): Placement of 6 (ENGL 1160/ENGL 1164) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in Composition I, or permission of the department.
Distribution: Fundamental Academic Skills-Composition II

ENGL 1164 ENGLISH COMPOSITION II (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom. (Cross-listed with ENGL 1160).
Prerequisite(s)/Corequisite(s): Placement of 6 (ENGL 1160/ENGL 1164) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in Composition I, or permission of the department.
Distribution: Fundamental Academic Skills-Composition II

ENGL 1200 AUTOBIOGRAPHICAL READING AND WRITING (3 credits)
This course helps students to write effectively by focusing on their own personal experience and by examining a variety of autobiographical writings. Students are exposed to multicultural perspectives throughout the course.
Distribution: Humanities and Fine Arts General Education course

ENGL 2000 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
A variety of topics primarily for the non-major. (For example, this course might study the image of the American businessman in American literature.) One or two such topics may be offered each term, depending upon current student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term. (Cross-listed with WGST 2000 when topic is appropriate).
Prerequisite(s)/Corequisite(s): Variable according to topic.

ENGL 2110 INTRODUCTION TO CREATIVE NONFICTION WRITING (3 credits)
ENGL 2110 is an introduction to creative nonfiction writing. This course focuses on the study and analysis of creative nonfiction, which will focus primarily on the foundational elements of creative nonfiction writing, including characterization, dialogue, mood, rhythm and style, point-of-view, and voice.
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or equivalent, or special permission from instructor. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

ENGL 2160 HONORS COMPOSITION: REASON AND RESEARCH (3 credits)
Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. A variant of Composition II for honors students.
Prerequisite(s)/Corequisite(s): Reserved for students in the Honors Program. Admission to the Honors Program and placement of 6 on the English Proficiency Placement Exam (EPPE), grade of C- or better in Composition I, or permission of the Honors Program.
Distribution: Fundamental Academic Skills-Composition II

ENGL 2230 ETHNIC LITERATURE (3 credits)
An introduction to the literature of Native Americans, black Americans, Hispanic Americans (Chicanos, Puerto Ricans or Cubans), and Asian Americans (Chinese and Japanese). Explains and defines cultural terms and practices, and attempts to prepare students for multicultural living.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2250 THE SHORT STORY (3 credits)
Readings in the modern short story with particular attention to literature as a reflection of life and to form as an outgrowth of content.
Prerequisite(s)/Corequisite(s): ENGL 1160 / ENGL 1164 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2260 BLACK SHORT STORY (3 credits)
A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with BLST 2260).
Prerequisite(s)/Corequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

ENGL 2280 INTRODUCTION TO LANGUAGE (3 credits)
A study of the nature of language and its role in human affairs.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Social Science General Education course

ENGL 2310 INTRODUCTION TO BRITISH LITERATURE I (3 credits)
A survey of British literature from c.600 to the end of the 18th century.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2320 INTRODUCTION TO BRITISH LITERATURE II (3 credits)
A survey of English literature from the Romantic period to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2350 AFRICAN AMERICAN LITERATURE 1746-1939 (3 credits)
This course traces the development of black literature from 1746 to 1939. Included will be a study of multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem Renaissance and Depression era schools of thought. (Cross-listed with BLST 2350).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
ENGL 2360 AFRICAN AMERICAN LITERATURE 1940-PRESENT (3 credits)
This course traces the development of the literary contribution that black Americans have made from 1940 to the present. The course will study multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied include an evolution in resistance in writing, a movement toward literary assimilation in the 1940s-1950s, and the subsequent movement toward "Black Arts" from the 1960s to the present. (Cross-listed with BLST 2360).
Prerequisite(s)/Corequisite(s): ENGL 1160 or instructor permission

ENGL 2400 ADVANCED COMPOSITION (3 credits)
This course is an advanced study of writing, including careful examination of 1) written genres generally, 2) discourse conventions of a student's academic discipline, and 3) a student's own reading and writing strategies, processes, habits, and preferences. Students will develop understanding of how writing functions in academic and professional communities as well as gain proficiency in discipline-specific research and writing, including identification of audience and rhetorical situation.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 2410 CRITICAL APPROACHES TO LITERATURE (3 credits)
An introduction to research, theory, and writing about literary and cultural studies; includes, but is not limited to, reading literary works and a variety of critical interpretations of those works, specialized library research, learning the discipline's documentation style, and writing in diverse genres (e.g. synopses, abstracts, poetry explications, prose analyses, reviews, essay exams and research papers).
Prerequisite(s)/Corequisite(s): ENGL 1160
Distribution: Writing in the Discipline Single Course

ENGL 2420 CRITICAL APPROACHES TO LANGUAGE STUDIES (3 credits)
This course introduces students to Language Studies, including disciplinary theories and discourses, key issues, and methodologies in rhetoric, composition, technical communication, and linguistics. Students will also practice and become familiar with the writing conventions within Language Studies.
Prerequisite(s)/Corequisite(s): ENGL 1160.
Distribution: Writing in the Discipline Single Course

ENGL 2450 AMERICAN LITERATURE I (3 credits)
A survey of American literature to the Civil War.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission of instructor.
Distribution: Humanities and Fine Arts General Education course

ENGL 2460 AMERICAN LITERATURE II (3 credits)
A survey of American literature since the Civil War.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2470 SURVEY OF NATIVE AMERICAN LITERATURE (3 credits)
An introduction to the literature of the oral tradition among the Native American peoples and to the written literature of post-contact and contemporary times.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ENGL 2480 THE AMERICAN LANGUAGE (3 credits)
A study of the historical development, current condition, and diversity of English language varieties in America, including both linguistic and sociocultural factors that have influenced them.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission
Distribution: U.S. Diversity General Education course

ENGL 2490 LATINO/A LITERATURE (3 credits)
This course is an introduction to contemporary literature by Latinos/as in the United States, providing an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from the mid-19th Century to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or by permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2500 LITERATURE OF WESTERN CIVILIZATION: THE ANCIENT WORLD (3 credits)
A study of European literature in English translation. Includes the works of such writers as Homer, Sophocles, Sappho, Virgil, Horace, Ovid and St. Augustine.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission.
Distribution: Humanities and Fine Arts General Education course

ENGL 2510 GLOBAL EXPLORATIONS: MEDIEVAL TO EARLY MODERN WORLD (3 credits)
A study of world (excluding English) literature and culture in English translation. May include the study of Norse mythology, medieval Jewish and Muslim writers of southern Spain, or the works of such writers as Dante, Chretien de Troyes, Averroes (Ibn Rushid), Maimonides, Christine de Pisan, Maria de Zayas, or Rousseau.
Prerequisite(s)/Corequisite(s): ENGL 1150 or permission.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ENGL 2520 LITERATURE OF WESTERN CIVILIZATION: THE MODERN WORLD (3 credits)
A study of the modern period in European literature (exclusive of English literature) from the 18th century Romantic movement to recent 20th century developments, including writings from Rousseau through Solzhenitsyn.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 3000 SPECIAL TOPICS IN ENGLISH (3 credits)
This course introduces students to a specialized subject matter in the disciplines of English Studies not covered in existing courses. This course may be repeated for different topics.
Prerequisite(s)/Corequisite(s): Variable according to topic.

ENGL 3050 WRITING FOR THE WORKPLACE (3 credits)
In this course students learn to write polished, professional communication, focusing content for specific audiences and contexts. Instruction stresses audience and situational analysis, clarity, and professional tone and style as well as elements of format and pattern, research, and revision techniques.
Prerequisite(s)/Corequisite(s): ENGL 1160, ENGL 1164, or permission of instructor.
Distribution: Writing in the Discipline Single Course

ENGL 3100 NATIVE AMERICAN LITERATURE: MAJOR FIGURES (3 credits)
An in-depth study of elements of Native American literature or of particular poets, novelists, biographers or short story writers.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission

ENGL 3130 AMERICAN NONFICTION (3 credits)
This is an intermediate literature course intended to give students broad exposure to American nonfiction. Students will study and analyze a variety of literary forms, including the personal essay, memoir, and literary journalism, from a wide range of historical periods.
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course
ENGL 3150 FORM AND STYLE IN CREATIVE NONFICTION (3 credits)
This is an introduction to creative nonfiction. This course focuses on the study and analysis of the art of creative nonfiction and its various subgenres: personal essay, memoir, literary journalism, travel writing, segmented/collage essay, and literary/cultural analysis.
Prerequisite(s)/Corequisite(s): ENGL 1160 or ENGL 1164 or a composition II equivalent. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

ENGL 3170 SUCCESSFUL FREELANCE JOURNAL WRITING (3 credits)
This course will address the steps necessary to successful freelance writing: selecting an interesting topic, choosing an innovative angle, understanding audience, researching a suitable publication, drafting a compelling query, editing work and rewriting all or parts of the essay, working with editors, understanding and accepting rejection letters. Ultimately, students in this course will work toward the end goal of submitting their polished work for publication in both paying and non-paying markets.
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalents

ENGL 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)
Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA+ creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with WGST 3180).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

ENGL 3280 IRISH LITERATURE I (3 credits)
This course explores Irish literature from the early medieval period (c. 600) to the late nineteenth century and the Irish Literary Renaissance. Texts include works written in Irish as well as in English, and cover a variety of genres, including but not limited to: early medieval monastic nature poetry, medieval prose saga literature, the Irish bardic and aisling traditions, political satire and laments, Anglo-Irish Ascendancy novels, and the Irish Gothic.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission required; ENGL 2410 and ENGL 2310 recommended.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ENGL 3290 IRISH LITERATURE II (3 credits)
A survey of Irish literature in both English and Irish from the beginning of the Irish Literary Renaissance (c. 1880) to the present.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission required; ENGL 2410, and ENGL 2320 or ENGL 5280 recommended. Not open to non-degree graduate students.
Distribution: Global Diversity General Education course

ENGL 3300 JUNIOR TOPICS IN AMERICAN LITERATURE (3 credits)
This course is an introduction to topics in American literature, to include colonial, modern, and postmodern literature and also Native American and immigrant/diaspora literature written in English or read in translation. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420

ENGL 3400 JUNIOR TOPICS IN BRITISH/IRISH/ANGLOPHONE LITERATURE (3 credits)
This course introduces students to topics in British or Irish literature or the literature of the former British commonwealths. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3500 JUNIOR TOPICS IN GLOBAL LITERATURE (3 credits)
Topics in world literature, to include trans-national and trans-continental literature written in English or read in translation. Readings will vary according to the topic specified.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3610 INTRODUCTION TO LINGUISTICS (3 credits)
An introduction to the concepts and methodology of the scientific study of language; includes language description, history, theory, variation, and semantics as well as first and second language acquisition. (Cross-listed with ENGL 8615).
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent.
Distribution: U.S. Diversity General Education course and Social Science General Education course

ENGL 3770 WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH (3 credits)
This course is an introduction to writing center theory, pedagogy, research, and history. The course is designed for undergraduate and graduate students interested in or already working in a writing center. Throughout the course we will explore a wide range of models for writing center work and the often problematic metaphors associated with those models. The overall aim in this course will be to help students develop multiple strategies for teaching writing one-to-one, for conducting research in writing centers, and for understanding writing center administration. (Cross-listed with ENGL 8775).

ENGL 3800 JUNIOR TOPICS IN LANGUAGE STUDIES (3 credits)
This is a special topics course in language studies intended primarily for juniors in the English major. Topics include specific study in the areas of composition, rhetoric, technical communication, and/or linguistics, and will often include considerations of other cultures and languages. Readings may vary according to the topic.
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3980 TECHNICAL WRITING ACROSS THE DISCIPLINES (3 credits)
This course emphasizes the problem-solving processes of producing effective written documents and visuals in technical professions. Students will study the genres, situations, and audiences related to professional settings, the contexts in which writing occurs, the process involved in individual and collaborative projects, and the production of technical documents.
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission required
Distribution: Writing in the Discipline Single Course

ENGL 4020 AMERICAN POETRY TO 1900 (3 credits)
A comprehensive survey of the American poetic tradition from the 17th to the end of the 19th century. (Cross-listed with ENGL 8026).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, or another writing in the major course recommended.

ENGL 4030 AMERICAN POETRY SINCE 1900 (3 credits)
A survey of the American poetic tradition from the turn of the twentieth-century to the present, focusing on various “schools” such as Imagism, High Modernism, the Harlem Renaissance, Confessional, Beats, and New Formalism. (Cross-listed with ENGL 8036).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, or another writing in the major course recommended.

ENGL 4060 THE AMERICAN NOVEL (3 credits)
A comprehensive survey of the evolution of the American Novel from the 1780s to the present day. Special emphasis will be placed on how a broad range of authors have responded to changing cultural and historical circumstances, and on how they have expressed widely varying viewpoints depending on their own gender, race, geographic region, and/or ethnicity. (Cross-listed with ENGL 8066).
Prerequisite(s)/Corequisite(s): ENGL 1150 and 1160; ENGL 2410 recommended
ENGL 4140 AMERICAN LITERARY REALISM AND NATURALISM (3 credits)
In the late nineteenth and early twentieth century two major literary
genres - Realism and Naturalism - emerged in the United States not only to
challenge the primacy of Romanticism and its generally optimistic view of
life but also to actively engage with the modern America created after the
Civil War. This course examines a wide range of realist and naturalist works,
written between 1865 and 1914, by an extremely diverse group of male
and female authors from different races, ethnicities, regions, religions, and
socioeconomic classes. Emphasis will be placed on how various cultural,
economic, political, and social factors influenced the construction and
reception of these works. (Cross-listed with ENGL 8146).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, and
ENGL 2450 or ENGL 2460.

ENGL 4160 TOPICS IN AMERICAN REGIONALISM (3 credits)
A study of major topics in American literary regionalism, with special
emphasis on particular social, cultural, and geographical contexts. Focus
will be determined by instructor, but may include particular historical
periods, geographic regions, authors, or literary themes. (Cross-listed with
ENGL 8166).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or
equivalent; ENGL 2410 highly recommended.

ENGL 4230 LATINO LITERATURE (3 credits)
A study of representative works of Mexican-American, Spanish-American,
and American writers, along with their cultural and historical antecedents.
Formerly ENGL 4180/8186 Chicano Literature and Culture. (Cross-listed
with ENGL 8236).
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENGL 4240 TEACHING LATINO LITERATURE (3 credits)
This course is designed specifically for current or future teachers of high
school students. It introduces pedagogical approaches of contemporary
literature by Latinos/as in the United States. The course provides an
overview of Mexican American, Chicano/a, and other Latino/a voices in
American literature from mid-19th Century to the present and complement
that with social, cultural, historical and other approaches to developing
teaching strategies. (Cross-listed with ENGL 8246).
Prerequisite(s)/Corequisite(s): ENGL 1150 or permission.
Distribution: U.S. Diversity General Education course

ENGL 4250 WOMEN’S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and/or about women in which students learn
about contributions of women to literature, ask what literature reveals
about the identity and roles of women in various contexts, and evaluates
standard interpretations from the perspectives of current research and
individual experience. (Cross-listed with ENGL 8250, WGST 4250).
Prerequisite(s)/Corequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420
recommended.

ENGL 4260 WOMEN OF COLOR WRITERS (3 credits)
Women of Color Writers is designed to introduce students to the
multicultural, literary experience and contributions of women of color
writers. The course will elucidate the multi-ethnic and feminist/womanist
perspectives reflected in literary works by examining the themes, motifs
and idioms about a womanist perspective. The course examines critically
the implications and conceptual grounds of literary study which have been
based almost entirely on white, male literary experiences and criteria.
(Cross-listed with ENGL 8266).
Prerequisite(s)/Corequisite(s): English major. ENGL 1150 or ENGL
11160 required; ENGL 2410 highly recommended

ENGL 4270 WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)
A survey of U.S. and Canadian women writers (18th century to the present)
enabling students to examine issues of gender and sexuality across a wide
thematic range, including settlement, land use, cultural displacement, and
survival in western territories, states, and provinces of North America.
(Cross-listed with ENGL 8276, WGST 4270).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or
equivalent; completion of ENGL 2410 or other writing in the major course
recommended.

ENGL 4280 QUEER AMERICAN WESTS (3 credits)
A survey of queer literatures about the American West. The course will
explore a variety of genres, including poetry, short stories, plays, novels,
creative nonfiction, and, depending on time, film/television. "Queer" will be
construed as including any "non-normative" sexualities and sexual identities
(e.g., genderqueer, winkte, two-spirit, 3rd/4th gender). Non-western writers
(e.g., Walt Whitman) imagining the West queerly may also be included.
(Cross-listed with ENGL 8286, WGST 3160).
Prerequisite(s)/Corequisite(s): ENGL 1160; completion of writing in the
major course recommended.

ENGL 4300 ANGLO-SAXON LITERATURE (3 credits)
From the sixth to the eleventh centuries, a people known collectively as the
Anglo-Saxons ruled Britain, giving it a new name and establishing the roots
of the modern English language. Anglo-Saxon culture continues to haunt
the modern imagination. We study the historic, artistic and intellectual
environment that produced this influential literary tradition. We also place
these people, their language, and their writings within the context of the
broader early medieval world. Finally, we engage with some of the foremost
modern scholars of this fascinating culture. (Cross-listed with ENGL 8306).
Prerequisite(s)/Corequisite(s): ENGL 1160 and ENGL 2410 or 2420;
ENGL 2310 recommended; or instructor permission

ENGL 4320 CHAUCER (3 credits)
A literary, linguistic, and historical study of the works of Geoffrey Chaucer:
his dream visions, Troilus and Criseyde, and the Canterbury Tales. (Cross-
listed with ENGL 8326).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320 or permission.

ENGL 4330 RENAISSANCE SATIRE (3 credits)
Satirical traditions and the literature of critique and inveective as inherited
from medieval and classical forms. Considerations will include satire as an
aesthetic, philosophical, and political mode of expression; topicality as it
relates to and portrays cultural history; and self-representation through
humanist learning and response. (Cross-listed with ENGL 8336).
Prerequisite(s)/Corequisite(s): ENGL 1160 or equivalent. ENGL 2410
or ENGL 2420 and ENGL 2310 are recommended.

ENGL 4340 SHAKESPEARE (3 credits)
A critical study of selected plays and poetry from Shakespeare’s works in
the context of the historical and cultural moment of the English Renaissance
and as a set of texts inherited and reinvented by modernity. (Cross-listed
with ENGL 8346).
Prerequisite(s)/Corequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420
and ENGL 2310 are recommended.

ENGL 4360 RENAISSANCE LYRIC (3 credits)
A study of the meaning and form of the short poetry of the Renaissance,
including the sonnet, epitaph, elegy, mock epic, pastoral, satire, city
poem, ballad, song, sestina, country poem, libel, complaint, psalm,
devotional lyric, epistle, and epigram. (Cross-listed with ENGL 8366).
Prerequisite(s)/Corequisite(s): ENGL 1160 required and ENGL 2410 and
2310 recommended.

ENGL 4370 RESTORATION AND EIGHTEENTH CENTURY LITERATURE
(3 credits)
Poetry, prose (exclusive of the novel), and drama of England in the
Restoration and 18th century (1660-1800), with emphasis on Swift and
Johnson. Formerly ENGL 4620/8626. (Cross-listed with ENGL 8376).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320 or permission.
ENGL 4380 THE EIGHTEENTH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Daniel Defoe to Jane Austen. Formerly ENGL 4640/8646. (Cross-listed with ENGL 8386).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320

ENGL 4390 MEDIEVAL CELTIC LITERATURE (3 credits)
This course examines the literature and culture of the Celtic civilizations. The course examines the archeological record and texts about the Celts by Greek and Roman authors, as well as later medieval tales from the Irish, Welsh, and Breton traditions. All texts are in translation with guided reference to the original languages. (Cross-listed with ENGL 8396).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420 and one ENGL course above 3299; or instructor permission; ENGL 2310 recommended. Not open to non-degree graduate students.

ENGL 4410 LITERATURE OF THE ROMANTIC PERIOD (3 credits)
Poetry and prose (excluding the novel) of England from 1798 to 1830. Formerly ENGL 4810/8816. (Cross-listed with ENGL 8416).
Prerequisite(s)/Corequisite(s): ENGL 2310 or ENGL 2320.

ENGL 4420 NINETEENTH-CENTURY ENGLISH AND ANGLOPHONE LITERATURES (3 credits)
English and Anglophone poetry and prose (excluding the novel) in the nineteenth century. (Cross-listed with ENGL 8426).
Prerequisite(s)/Corequisite(s): ENGL 2320 or permission

ENGL 4440 THE BRITISH AND ANGLOPHONE NOVEL (19TH AND 20TH CENTURY) (3 credits)
Introduction to the British and Anglophone novel in the nineteenth and twentieth century. (Cross-listed with ENGL 8436).
Prerequisite(s)/Corequisite(s): ENGL 2320 or permission of the instructor

ENGL 4460 THE 20TH CENTURY ENGLISH NOVEL (3 credits)
Readings in the English novel from Joseph Conrad to the present. Formerly ENGL 4660/8666. (Cross-listed with ENGL 8466).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420; ENGL 2320 is recommended.

ENGL 4490 GREAT WORKS OF BRITISH LITERATURE (3 credits)
This course pursues a trans-historical approach to literary study while interrogating what makes a literary work "great" within the field of British Literature. It allows students to engage with great works of British literature from across the ages - starting with the foundations of British literary history in the medieval period and extending to the present. Attending to formal, thematic, and historical dimensions of a wide array of literary texts, we will increase our appreciation of the many ways texts make meaning while developing a deep understanding of the British literary tradition. Reading literature with a sense of purpose and comparatively across time will allow us not only to appreciate great works but also to enhance the impact they have on us. Furthermore, we will recognize how culture and politics inform what literary works become deemed "great," thereby developing a critical understanding of the process of canon formation. (Cross-listed with ENGL 8496).
Prerequisite(s)/Corequisite(s): ENGL 1150 or ENGL 1160, ENGL 2410 recommended

ENGL 4520 HISTORY OF ENGLISH (3 credits)
A critical study of both the internal and external histories of English. Includes historical development of English phonology, morphology, graphs, syntax, diction, dialects, and semantics. (Cross-listed with ENGL 8626).
Prerequisite(s)/Corequisite(s): Junior or permission

ENGL 4640 APPLIED LINGUISTICS (3 credits)
This course is designed to develop knowledge and skills for second language instructors and others interested in second language learning and instruction. Content covers relevant second language acquisition (SLA) theory and second language pedagogy. (Cross-listed with ENGL 8646).
Prerequisite(s)/Corequisite(s): ENGL 3610 and Junior standing or with permission from instructor.

ENGL 4650 STRUCTURE OF ENGLISH (3 credits)
A study of grammar as it has been conceived through history, including traditional prescriptive and descriptive approaches as well as transformational-generative grammar. (Cross-listed with ENGL 8656).
Prerequisite(s)/Corequisite(s): ENGL 3610 / ENGL 8615 or permission.

ENGL 4670 SOCIOLINGUISTICS (3 credits)
An exploration of interconnections between language, culture, and communicative meaning, stressing interactional, situational, and social functions of language as they take place and are created within social contexts. (Cross-listed with ENGL 8676).
Prerequisite(s)/Corequisite(s): ENGL 3610/ENGL 8615, or permission.

ENGL 4690 TOPICS IN LINGUISTICS (3 credits)
Studies in a selected subfield or problem area of linguistics such as sociolinguistics, generative semantics, applied linguistics, descriptive linguistics, teaching English as a foreign language, etc. Formerly ENGL 4960/8966 Studies in Linguistics. (Cross-listed with ENGL 8696).

ENGL 4730 RHETORIC (3 credits)
A study of contemporary theories of invention, form, and style and their application in written discourse. Formerly ENGL 4750/8756. (Cross-listed with ENGL 8756, ENGL 8736).
Prerequisite(s)/Corequisite(s): Any 2000 or above writing course or permission

ENGL 4750 COMPOSITION THEORY & PEDAGOGY (3 credits)
This course is an overview of composition theories and pedagogies since 1968 and focuses on how historical movements in education and theoretical frameworks (rhetorical, expressivist, socio-cognitivist, collaborative, social constructionist, critical pedagogy, cultural studies, feminist, technological, and linguistic theories) both enrich and complicate the teaching of composition. (Cross-listed with ENGL 8756).
Prerequisite(s)/Corequisite(s): Any 2000 or above writing course or permission

ENGL 4790 ENGLISH CAREER PREPARATION (1 credit)
This course will prepare students for an internship or a career, addressing topics such as finding and applying for internships, workplace and industry, resume and cover letters, interviewing techniques, developing a professional portfolio, and statement of goals. Taking this course prior to an internship is highly recommended. (Cross-listed with ENGL 8796).
Prerequisite(s)/Corequisite(s): Junior or senior level, one 4000-level English course, or permission of instructor.

ENGL 4800 ENGLISH INTERNSHIP (1-3 credits)
Supervised internship in a professional setting with a local employer or nonprofit organization. Hands-on experience. Work hours, activities, and responsibilities must be specified in a written agreement between the employer and the student in consultation with the internship director. Some internships will be paid and some will not. (Cross-listed with ENGL 8806).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2420, an ENGL 4000-level writing course, Junior/Senior standing, and permission of internship director.

ENGL 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues in digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 8816, JMC 4810, JMC 8816).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 1110 or permission of instructor
ENGL 4820 AUTOBIOGRAPHY (3 credits)
In this creative nonfiction writing course, students will craft, workshop, and revise original works of autobiographical nonfiction. Students will read, discuss and critically analyze writing techniques found in diverse autobiographical prose by published authors and student peers. A final project will invite students to research and summarize a book-length autobiography of their own. (Cross-listed with ENGL 8826).
Prerequisite(s)/Corequisite(s): ENGL 2110 or ENGL 3150 or ENGL 2410 or ENGL 2420 or Instructor Permission

ENGL 4830 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 8836).
Prerequisite(s)/Corequisite(s): ENGL 1160 and CMST 4830, or permission of instructor.

ENGL 4840 TRAVEL WRITING (3 credits)
Travel Writing is a course in professional writing. Although the course includes critical examinations of texts, the primary focus is on the composition of various kinds of travel essays. (Cross-listed with ENGL 8846).
Prerequisite(s)/Corequisite(s): ENGL 2410, ENGL 2420, or ENGL 3150

ENGL 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 8856).
Prerequisite(s)/Corequisite(s): ENGL 4810 or ENGL 4830, or permission of instructor.

ENGL 4860 THE MODERN FAMILIAR ESSAY (3 credits)
Students in this course will read as well as write the Modern Familiar Essay, a sub-genre of Creative Nonfiction, with an emphasis on writing the informal essay. Essays will represent a wide scope of perspectives and issues, including gender, social class, education, politics, culture, sexuality, health, race, and ethnicity, and will range from the 16th century “inventor” of the modern essay to twenty-first century practitioners of the form. This course will also cover a wide range of sub-genres and stylistic forms, such as memoir, autobiography, flash, experimental, and more. (Cross-listed with ENGL 8866).
Prerequisite(s)/Corequisite(s): ENGL 2410 or ENGL 2110 or ENGL 3150 or instructor permission for Arts, 7-12; Secondary English, 7-12; and/or English as a Second Language, 7-12

ENGL 4870 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 8876, JMC 4870, JMC 8876).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission of the instructor.

ENGL 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency in the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 8896, JMC 4890, JMC 8896).
Prerequisite(s)/Corequisite(s): ENGL 4810, ENGL 4830, ENGL 4870 and ENGL 4850, or permission of instructor.

ENGL 4930 NARRATIVE NONFICTION (3 credits)
Students will read, discuss, and write critical analyses of narrative nonfiction by published and student writers. They will craft, workshop, and revise original works of narrative nonfiction. (Cross-listed with ENGL 8936).
Prerequisite(s)/Corequisite(s): One creative nonfiction course or permission from the instructor.

ENGL 4950 BRINGING THE WAR HOME: DEPICTIONS OF WAR VETERANS IN LITERATURE AND FILM (3 credits)
Course explores the impact of war on combatants, their families and communities as represented in literary fiction, film, historical documentation, first-person accounts, and other texts written in or translated to English. (Cross-listed with ENGL 8956).
Prerequisite(s)/Corequisite(s): ENGL 1160

ENGL 4960 TOPICS IN LANGUAGE AND LITERATURE (3 credits)
This course introduces students to a specialized subject matter in the discipline of English Studies not covered in existing courses. This course may be repeated for different topics. (Cross-listed with ENGL 8966).
Prerequisite(s)/Corequisite(s): Will vary depending on what the topic is.

ENGL 4970 WRITING ABOUT SICKNESS AND HEALTH (3 credits)
Students will explore many themes of the human experience in healthcare through reading and discussion of selected poems, short stories, excerpts from fiction, and essays and creative nonfiction. To help students generate their own poems, stories, and essays, the class will incorporate the work of community writing programs and projects. (Cross-listed with ENGL 8976).
Prerequisite(s)/Corequisite(s): ENGL 1160 or permission of the instructor.

ENGL 4980 TOPICS: INDEPENDENT STUDY (3 credits)
Specially planned readings in a well-defined field of literature or language, carried out under the supervision of a member of the English faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit.
Prerequisite(s)/Corequisite(s): Permission of the instructor, junior or senior, and no incompletes outstanding.

ENGL 4990 SENIOR PAPER OR PROJECT (1 credit)
Attached to an existing 4000-level English course in which a student is currently enrolled and normally added during the first six weeks of the academic semester, the Senior Paper or Project contracts a student to produce a culminating paper or project in an area of the English major. The paper or project produced in conjunction with this course will constitute a student’s most dedicated accomplishment at the end of her or his undergraduate career.
Prerequisite(s)/Corequisite(s): Permission of the instructor and senior standing. Not open to non-degree graduate students.

English, Bachelor of Arts

Hour Requirements

To obtain a BA with a major in English, a student must fulfill university, college, and departmental requirements:

• 46 University General Education Hours (Testing out of academic skills requirements and enrolling in major courses that satisfy distribution
• 16 Foreign Language Hours
• 12-19 College Breadth Requirement Hours
• 36-39 Major Hours
• 0-10 Elective Hours

TOTAL HOURS: 120

Core Requirements

Each concentration has its own core requirements including ENGL 2410 or ENGL 2420, foundational English courses. All concentrations also include a literature, language studies, or creative nonfiction course. All concentrations require a capstone experience, including an internship, the senior paper/project, or student teaching.

The Bachelor of Arts in English may be completed through one of five concentrations, each with some overlap in course requirements to allow students to migrate efficiently between concentrations.

• Concentration in Creative Nonfiction
• Concentration in Language Studies
• Concentration in American Literature
• Concentration in British/Irish/Anglophone Literature
• Concentration in Secondary English Teaching

The English major is also offered as a double major with the College of Education. Students are able to earn a B.S. from the College of Education with a double major in Secondary Education (Secondary English 7-12 Endorsement) and English, along with Nebraska State Certification to teach in this area. For details, see the Concentration in Secondary English Teaching.

**Total Credits**: 31-33

The B.A. degree requires completion of a foreign language through the intermediate level.

## Secondary English Teaching

The English major with a concentration in Secondary Education 7-12 is ONLY offered as a double major with the College of Education. Students are able to earn a B.S. from the College of Education with a double major in Secondary Education (Secondary English 7-12 Endorsement) and English, along with Nebraska State Certification to teach in this area.
Complete 36 credit hours in English with grades of C or above (this is different from the English Department’s requirement of a minimum grade of C- or above).

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study.**

*Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.
ENGL 1000-level or higher elective  3
  *HFA must come from 2nd discipline
  **SS must come from 2nd discipline
  ***A&S College Requirement Options

Credits  15

Spring
Additional Natural/Physical Science w/Lab for A&S OR Minor/2nd Major Course*  4
ENGL 3130  AMERICAN NONFICTION  3
Additional Social Science for A&S OR Minor/2nd Major course**  3
ENGL 1000-level or higher elective  3
  *A&S College Requirement Options
  **A&S College Requirement Option. Additional SS must come from 3rd discipline
  Note: Students need a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.

Credits  16

Senior
Fall
Additional Humanities & Fine Arts course for A&S OR Minor/2nd Major Course*  3
ENGL 4000-Level Creative Nonfiction course  3
ENGL 4000-Level Creative Nonfiction course  3
ENGL 4990  SENIOR PAPER OR PROJECT (**)
  or ENGL 4800  or ENGLISH INTERNSHIP  1-3
Elective  3
  *A&S College Requirement Option. Additional HFA must come from 3rd discipline
  **ENGL 4800: requires ENGL 2410 or 2420, an ENGL 4000-level writing course, Jr/Sr standing, and permission of internship director. ENGL 4990 requires permission of the department.
  Note: Students need a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.

Credits  13-16

Spring
ENGL 1000-level or higher elective  3
ENGL 4000-Level Brit Creative Nonfiction course  3
ENGL 1000-level or higher elective  3
Elective  3
  *Students need a minimum of 120 total credits with at least 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.

Credits  15

Total Credits  119-122

Note: Students need a minimum of 120 total credits with at least 27 upper level credits throughout the entire degree. As a part of the 27 credit upper level minimum, the major/concentration must include at least 18 credits of upper level coursework. May need to select 3000/4000 level major options and possibly 3000/4000 level free electives if a minor is not selected.

### Credits 13-17

### Total Credits 118-122

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

### Teaching English to Speakers of Other Languages (TESOL) Certificate

#### Vision Statement

In the United States, the need for well-prepared language teachers is constant. Teachers are more likely than ever to have the opportunity to teach students who come from a variety of cultural and linguistic backgrounds.

The Department of English offers students the opportunity to obtain a certificate in Teaching English to Speakers of Other Languages (TESOL). This is a 15-hour/5-course certificate. Normally, students are able to complete the certificate requirements within three or four semesters.

The TESOL faculty have designed the certificate to help students get up to speed on language theory and pedagogy. You’ll start with ENGL 3610 Introduction to Linguistics, which sets the foundation for upper-division courses. Then, you’ll learn specifics about the English language so that you can explain sounds, words, sentences, and meanings to your students. In addition, you’ll study theories about how adults learn languages as well as strategies for teaching language and designing curriculum.

A TESOL certificate does not certify a graduate to teach in Nebraska public schools. Instead, it is an academic credential meant (1) for teachers already certified in other areas, (2) for people who plan to teach in venues other than public schools, and (3) for anyone who works in some capacity with non-native speakers of English. The TESOL Certificate is a rigorous program that will make you very attractive to future employers, whether you remain in the U.S. or work overseas. But learning how to be a good teacher isn’t easy. Are you ready for the challenge?

Students in Teacher Education or in Speech/Language Pathology should contact the TESOL director before applying to this program.

#### Program Contact Information

Sarah Osborn, PhD, Director
1895 Arts & Sciences Hall (ASH)
402.554.2955
srfoosborn@unomaha.edu
Program Website (https://www.unomaha.edu/college-of-arts-and-sciences/english/academics/undergraduate-programs.php)

Application Deadlines
Applications for this program are accepted on a rolling basis. To apply, write an email to the TESOL Director (tesoldirector@unomaha.edu) and include the following information:

- Your major (and minor if applicable)
- Your overall GPA at UNO
- Your reasons for wanting to complete the TESOL Certificate.

If you’re accepted into the program, you will see this change reflected in your UNO DegreeWorks within a few days.

Note that UNO also offers a Graduate TESOL Certificate, which has a separate application process. Visit the Graduate Studies page for more information. (https://catalog.unomaha.edu/graduate/degree-programs-certificates-minors/english/teaching-english-speakers-other-languages-certificate/index.html#text)

Requirements
Students seeking a certificate in Teaching English to Speakers of Other Languages (TESOL) must take one course from each of the five categories below for a total of 15 credit hours.

Students in Teacher Education or in Speech/Language Pathology should contact the TESOL director before applying to this program.

Take one course from each of the 5 categories below:

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

Total Credits 15

¹ With a TESOL-focused project.

- Note 1: Graduate students may not repeat any courses already taken at the undergraduate level. See the TESOL Certificate Director to plan a course of study.
- Note 2: Under some circumstances, the TESOL Certificate Director may allow substitute courses.
- Note 3: Students who earn less than a B in 3610 Introduction to Linguistics may be disenrolled from the program.

The linguistics faculty strongly recommends that students become proficient in a second language.

Environmental Studies

The field of Environmental Studies recognizes that finding solutions to the environmental challenges facing our society requires individuals with experience and training in a broad array of disciplines. Success in the field requires not only a scientific background to develop technical solutions but also an understanding of the social and economic implications of solutions and decisions. The Environmental Studies Program at UNO offers interdisciplinary undergraduate degrees that provide students with training in the breadth of disciplines required to understand the complex nature of solving environmental challenges, as well as the scientific expertise needed to successfully pursue a career relating to the environment.

Other Information
All coursework taken for the Environmental Science major or minor must be completed with a grade of “C-” or better.

Double Majors

ENVN–Geography & Planning and Geography double majors: Students completing both of these majors may count all geography courses toward both majors.

ENVN–Life Sciences and Biology double majors: Students may not count the same 3000-4000 level Biology courses towards both majors. Double majors are required to take a minimum of 5 additional upper division BIOL courses that are not part of the other major. These courses must be approved by the advisor and at least three of these must be lab courses. BIOL 3150 may not count as part of these upper division courses.

Website (http://www.unomaha.edu/college-of-arts-and-sciences/environmental-studies/)

Degrees Offered
- Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences (p. 138)
- Environmental Science, Bachelor of Science with a Concentration in Earth Sciences (p. 140)
- Environmental Science, Bachelor of Science with a Concentration in Geography and Planning (p. 143)
- Environmental Science, Bachelor of Science with a Concentration in Life Sciences (p. 145)

Writing in the Discipline
See concentrations.

Hour Requirements
To obtain a BS in Environmental Sciences, a student must fulfill university, college, and departmental requirements. As an interdisciplinary major, Environmental Sciences meets the college breadth requirement without the addition of a minor or additional General Education courses. Other hour requirements follow:

1. 46 hours of University General Education courses - Environmental Sciences majors who work with their advisor to select courses do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they select courses to ensure that they:
   - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
   - Meet the three-hour University General Education mathematics requirement through completing statistics as part of their major courses,
   - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.
   By doing so, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

2. Minimum of 69-80 hours of major courses depending on the concentration selected.

3. 10 - 21 hours of electives. Total elective credit is determined by the General Education courses taken, concentration selected, and the selection of courses used to fulfill major requirements.

TOTAL HOURS: 120

Core Requirements

All majors complete a set of core courses in the environmental sciences, in addition to completing courses specific to their concentration. Core requirements include:

<table>

Minors Offered

- Environmental Science Minor (p. 147)

The Environmental Studies Program at UNO offers interdisciplinary undergraduate degrees that provide students with training in the breadth of disciplines required to understand the complex nature of solving environmental challenges. Students acquire the scientific expertise to effectively pursue a career relating to the environment by focusing on one of four areas of concentration. The Environmental Studies Program is committed to preparing students for careers helping to meet the environmental challenges facing us locally, nationally and globally.

Environmental Science – Analytical Sciences concentration

The analytical sciences concentration is designed to produce environmental scientists with a strong background in chemistry preparing them to find solutions to problems associated with chemical pollutants that are being released into the air, earth and water environments of our planet.

Environmental Science – Earth Sciences concentration

The earth sciences concentration is designed to prepare students for a career in environmental geology, working on land, soil, and water conservation.

Environmental Science – Geography and Planning concentration

The geography and planning concentration is designed to produce local and regional planning specialists who understand the best approaches for preventing environmental problems.

Environmental Science – Life Sciences concentration

The life sciences concentration is designed to prepare a student for jobs as environmental biologists protecting natural ecosystems and promoting a healthy environment.

Some career options

- Air and Water quality scientist
- City and Regional Planning aide
- Conservation Biologist
- Environmental consultant
- Environmental educator
- Natural Resource Manager
- Environmental and Public Health Specialist
- Geospatial Information Systems technician
- Restoration Ecologist
- Soil and Water Conservationist
- Sustainability Coordinator
- Wildlife & Fisheries Biologist

ENVN 2000 LANDSCAPE APPRECIATION AND ENVIRONMENTAL SUSTAINABILITY (3 credits)

This course enables students to observe, document and critically examine the values and processes associated with human-designed landscapes and their connection to natural environments. Through concepts and tools presented in the course, students understand the environmental, social and economic context of local and global environments. Emphasis is placed on landscape as an indicator of aesthetic quality; the preference and restorative attributes of nature; design principles and processes as integrators of humans and nature in sustainable urbanized landscapes; and the various ways that sustainability can define a framework for multi-functional landscapes.

Distribution: Humanities and Fine Arts General Education course

ENVN 2010 ENVIRONMENTAL PROBLEMS AND SOLUTIONS (1 credit)

An overview of current environmental problems and the efforts to solve those problems. Intended for Environmental Studies majors and other students with an interest in conservation, the human environment, and management of natural resources. This course examines current local, regional, and global environmental issues and explores work being done to improve environmental quality. The purpose of the course is to give students a broad, interdisciplinary overview of environmental topics to prepare them for advanced course work in the field. Usually offered Spring.

Prerequisite(s)/Corequisite(s): BIOL 1330 or GEOL 1010 (or concurrent enrollment). Not open to non-degree graduate students.
ENVN 2120 SUSTAINABLE LANDSCAPE PLANTS (4 credits)
This course focuses on the identification of native and adapted landscape plants, including herbaceous perennials, groundcovers, vines, trees and shrubs in natural and urbanized landscapes. In addition, it covers the ecological and design concepts for the landscape roles, sustainable usage and management of identified plants in the Great Plains region. (Cross-listed with BIOL 2120)
Prerequisite(s)/Corequisite(s): High school biology
Distribution: Natural/Physical Sci General Education lecture&lab

ENVN 3180 ENVIRONMENTAL ETHICS (3 credits)
This course introduces students to the thinkers and issues that make environmental ethics what it is today. It includes the analysis and evaluation, from ethical viewpoints, of such topics as: intrinsic value of animals, plants and ecosystems; animal rights; climate change; conservation and preservation; environmental law and politics; obligations to future generations; sustainability and new technologies; war, immigration, and the environment; human rights and the environment; nature and the built environment; and environmental activism. (Cross-listed with PHIL 3180).
Prerequisite(s)/Corequisite(s): Junior or 3 hours of philosophy.

ENVN 3660 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN (3 credits)
This course provides an overview of graphic techniques and process for landscape design; the analysis and conceptual design of the landscape; and the exploration of the design characteristics of plants, landform, and structures through discussion, case studies and applied design development. A focus on sustainable design components and applications is included, including native and adapted plant selection, stormwater management, water conservation, efficient irrigation concepts, and practical landscape management and maintenance considerations. (Cross-listed with BIOL 3660)
Distribution: Humanities and Fine Arts General Education course

ENVN 3670 INTRODUCTION TO SUSTAINABLE LANDSCAPE DESIGN LABORATORY (1 credit)
This course covers the basic use of graphic techniques for landscape design; the analysis and process for conceptual design of the landscape; studio problems in value, texture, form and space; and the exploration of the design characteristics of plants, landform, and structures supporting sustainable landscape design and management principles. (Cross-listed with BIOL 3670)
Prerequisite(s)/Corequisite(s): ENVN 3660 or BIOL 3660 (prior or concurrent).

ENVN 4090 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (1-5 credits)
A variable credit lecture and/or laboratory course pertaining to a specific topic in environmental studies or sustainability not available in the regular curriculum. May be repeated as topics change.
Prerequisite(s)/Corequisite(s): Junior or senior standing.

ENVN 4180 FRESHWATER ECOLOGY (4 credits)
A study of the physical, chemical and biological relationships that serve to establish and maintain plant and animal communities in freshwater environments. (Cross-listed with BIOL 8186, BIOL 4180).
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750, junior-senior, or permission of instructor. Must enroll in lab. Not open to non-degree graduate students.

ENVN 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with PSCI 4270, PSCI 8276)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

ENVN 4310 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)
In this course, students will analyze our energy options including the environmental, economic, and ethical connections with a particular emphasis on electrical energy. The course doesn't prescribe a particular energy future but rather emphasizes development of the knowledge and skills to more effectively contribute to the conversation. To understand our future, the course begins with the present energy landscape and its historical underpinnings, then focuses on developing a student's ability to critically assess energy options by examining the associated implications, consequences, intent, origins, and bias. Students' own work, life, and academic experience are used in the course to underscore the individual relevance of these energy choices. The course includes the necessary science, but the greater emphasis is on the associated critical and creative thinking so that ultimately students can make informed, creative, sustainable energy choices. (Cross-listed with ENVN 8316, CACT 8316)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENVN 4320 ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH (3 credits)
The course will explore and develop the complex context of the systemic links among ecosystems and human health (and more broadly human well-being) using case studies including climate change, water quality, infectious diseases and agricultural production. Students will develop skills in critical thinking and applied research by studying biological connections between humans and ecosystems and how social, economic and cultural processes and practices mediate these connections. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8326)
Prerequisite(s)/Corequisite(s): Junior or Senior standing

ENVN 4330 INTRODUCTION TO GREEN INFRASTRUCTURE (3 credits)
This course provides an overview of green infrastructure including issues managed with green infrastructure (storm water quality and quantity, urban habitat value, urban sustainability, etc.); basic design and management parameters for best management practices (BMPs); case study applications of BMPs; treatment train assessment and evaluation; and regulatory and cost considerations. (Cross-listed with ENVN 8336).
Prerequisite(s)/Corequisite(s): Junior/Senior standing or instructor permission

ENVN 4350 GLOBAL CLIMATE CHANGE (3 credits)
The primary objective of this course is for students to form a scientific, evidence-based, stance on current and future changes to the Earth's climate. To this end, this course will be based on scientific inquiry into the current state of knowledge. Particular emphases are placed on evidence and causes of change, and the associated environmental and social impacts, including: water resources, extreme weather, human health, and others of interest to the class. (Cross-listed with GEOG 8356, GEOG 4350, ENVN 8356).
Prerequisite(s)/Corequisite(s): At least 1 of the following: GEOG 1030, GEOG 1050, GEOG 3510, GEOG 4320, or permission of instructor

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT (3 credits)
This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with BIOL 4410 and BIOL 8416)
Prerequisite(s)/Corequisite(s): BIOL 3340 or instructor permission.
ENVN 4420 RESTORATION ECOLOGY (3 credits)
Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 4420, BIOL 8426)
Prerequisite(s)/Corequisite(s): Junior or Senior standing.

ENVN 4600 GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)
This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 4600, BIOL 8606)
Prerequisite(s)/Corequisite(s): BIOL 3340 or permission of instructor.

ENVN 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, GEOL 4610, GEOL 8616, GEOL 4610, GEOL 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

ENVN 4700 SUSTAINABLE SOLUTIONS CAPSTONE (3 credits)
This is a capstone experience for students interested in sustainability and related fields. Students work as part of a multidisciplinary team under the guidance of faculty mentors to develop sustainable solutions to challenges faced by local, regional, or global organizations.
Prerequisite(s)/Corequisite(s): Instructor permission.

ENVN 4800 INTERNSHIP ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)
Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 4800)
Prerequisite(s)/Corequisite(s): Permission of the Environmental Studies Program.

ENVN 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, BIOL 4820, GEG 4820, GEG 8826, PA 8826)
Prerequisite(s)/Corequisite(s): Junior-senior or permission of the instructor.

ENVN 4970 ADVANCED BOTANY (4 credits)
Advanced Botany examines plant structures (cells, tissues, and organs) and their connections with plant functions (growth, reproduction, photosynthesis, respiration, and dispersal). Topics covered include energy metabolism, development and morphogenesis, genetics, ecology, and the latest in plant taxonomy and phylogeny, keeping students on the forefront of cutting-edge botanical research. In lab, students conduct activities such as dissecting plant organs, making microscope slides, and conducting plant-based experiments, using plants from the local area, from native Great Plains collections, and from around the world and grown in the greenhouse. Students compare and contrast both physiological and morphological adaptations to varying environments. (Cross-listed with BIOL 8976, BIOL 4970)
Prerequisite(s)/Corequisite(s): BIOL 1750 and junior or senior student status or above or instructor permission.

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT (3 cr)

Total Credits 80-87

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the environmental science major with a concentration in analytical science, the writing in the discipline requirement can be fulfilled by completing NSCI 3940 along with CHEM 3354 and an additional approved lab or by completing ENGL 3980.

Freshman

Fall Credits
ENGL 1150 ENGLISH COMPOSITION I (*) 3
CHEM 1180 & CHEM 1184 GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY (*) 4
PHYS 1110 & PHYS 1154 GENERAL PHYSICS I WITH ALGEBRA and GENERAL PHYSICS LABORATORY I (5) 5

Humanities and Fine Arts/US Diversity 3
- PHYS 1110 requires MATH 1220 or equivalent with grade of C- or better.
- ENGL 1150 requires proper placement.
- CHEM 1180 requires MATH 1320 or equivalent in last two years. See advisor for other placement options.

Credits 15

Spring

CHEM 1190 & CHEM 1194 GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY (*) 4
BIOL 1330 ENVIRONMENTAL BIOLOGY 3
PHYS 1120 & PHYS 1164 GENERAL PHYSICS and GENERAL PHYSICS LABORATORY II (*) 5
ENVN 2010 ENVIRONMENTAL PROBLEMS AND SOLUTIONS 1
- ENVN 2010: requires BIOL 1330 or GEOL 1010 prior or concurrent enrollment
- CHEM 1190: requires CHEM 1180 and 1184 with a grade of C- or better AND Math 1320 or equivalent. Concurrent enrollment in CHEM 1194.
- PHYS 1120 requires PHYS 1110 with grade of C- or better.

Credits 13

Sophomore

Fall

CHEM 2250 ORGANIC CHEMISTRY I (*) 3
CHEM 2400 QUANTITATIVE ANALYSIS and QUANTITATIVE ANALYSIS LAB (*) 4
CMST 1110 or CMST 2120 PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE 3

Social Science/Global Diversity 3
- CHEM 2250: requires CHEM 1190 and CHEM 1194 with a grade of C or better.
- CHEM 2400: requires CHEM 1190 and CHEM 1194 with a grade of C or better or equivalent. CHEM 2404 to be taken concurrently.

Credits 13

**SS #3 – must be in a 2nd discipline

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

**This plan is not a contract and curriculum is subject to change

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study.

**Environmental Science, Bachelor of Science with a Concentration in Earth Sciences**

## Code | Title | Credits
--- | --- | ---
### Required core courses:
(No note in the case of cross-listed courses, Environmental Science major must enroll in the ENVN section)
- ENVN 2010 | ENVIRONMENTAL PROBLEMS AND SOLUTIONS | 1
- BIOL 1330 | ENVIRONMENTAL BIOLOGY | 3
- CHEM 1010 | CHEMISTRY IN THE ENVIRONMENT AND SOCIETY | 3
  or CHEM 3030 | ENVIRONMENTAL CHEMISTRY | 3
- ENVN/GEOG/GEOL/BIO 4610 | ENVIRONMENTAL MONITORING AND ASSESSMENT | 3
Minimum of 3 credit hours of ENVN 4800 must be completed
- ENVN/BIO 4800 | INTERNSHIP ENVIRONMENTAL MANAGEMENT AND PLANNING | 3
- ENVN/BIOL/GEOG/PA 4820 | INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS | 3
### Also required:
- An approved course in statistics | 3-4
- An approved GIS course | 1-4
### Earth Sciences Concentration requirements:
- GEOL 1170 | INTRODUCTION TO PHYSICAL GEOLOGY | 4
One course covering surface processes:
- GEOL 4260 | PROCESS GEOMORPHOLOGY | 4
  or GEOL 4330 | SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION | 4
  or GEOL 4640 | CRITICAL ZONE SCIENCE | 4
Select an ADDITIONAL 27 hours of geography/geology courses | 27
- GEOL 1180 | INTRODUCTION TO HISTORICAL GEOLOGY | 4
- GEOL 2300 | GEOSCIENCE DATA ANALYSIS AND MODELING | 4
- GEOL 2500 | SPECIAL TOPICS IN GEOGRAPHY-GEOLGY | 4
- GEOL 2600 | GEOSCIENCE DATA ANALYSIS AND MODELING | 4
- GEOL 2750 | MINERALOGY | 4
- GEOL 2754 | MINERALOGY LABORATORY | 4
- GEOL 2760 | IGNEOUS AND METAMORPHIC PETROLOGY | 4
- GEOL 2764 | IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY | 4
- GEOL 3300 | STRUCTURAL GEOLOGY | 4
- GEOL 3310 | STRUCTURAL GEOLOGY FIELD METHODS | 4
- GEOL 3400 | INTRODUCTION TO SEDIMENTARY GEOLOGY | 4
- GEOL/GEOG 4260 | PROCESS GEOMORPHOLOGY | 4
- GEOL 4400 | GEOPHYSICS | 4
- GEOL 4540 | GEOCHEMISTRY | 4
- GEOL/GEOG 4640 | CRITICAL ZONE SCIENCE | 4
- GEOG 3510 | METEOROLOGY | 4
- GEOG 4010 | CONSERVATION OF NATURAL RESOURCES | 4
- GEOG/BIO 4100 | BIODEGEOGRAPHY | 4
- GEOL/GEOG 4330 | SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION | 4
- GEOG 4630 | ENVIRONMENTAL REMOTE SENSING | 4

## Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Environmental Science major with a concentration in Earth Science, the writing in the discipline requirement can be fulfilled by completing GEOL 4950 or ENGL 3980.

### Freshman

#### Fall

Humanities and Fine Arts/US Diversity

- ENGL 1150: requires EPPE score of 5 or appropriate placement via AP.
Environmental Science, Bachelor of Science with a Concentration in Earth Sciences

- **MATH 1220**: requires appropriate Math placement within last 2 years.
- **CHEM 1010**: requires MATH 1220 or equivalent.

### Credits 15

**Spring**

- GEOL 1170 **INTRODUCTION TO PHYSICAL GEOLOGY** 4
- ENVN 2010 **ENVIRONMENTAL PROBLEMS AND SOLUTIONS (*)** 1
- CMST 1110 or CMST 2120 **PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE** 3
- ENGL 1160 **ENGLISH COMPOSITION II (*)** 3

Social Science / Global Diversity (GEOG 1020 suggested) 3

- **ENVN 2010**: requires BIOL 1330 or GEOL 1010 or concurrent enrollment
- **ENGL 1160**: requires ENGL 1150, EPPE score of 6, or AP Score of 4

### Credits 14

**Sophomore**

**Fall**

- CHEM 1140 & CHEM 1144 **FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (*)** 5
- Approved GEOG/GEOL Elective 3
- Approved GEOG/GEOL Elective 4
- Humanities and Fine Arts 3

Note: CHEM 1180/1184 and 1190/1194 together can substitute for CHEM 1140/1144.

### Credits 15

**Spring**

- CHEM 2210 & CHEM 2214 **FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (*)** 5
- Approved GEOG/GEOL Elective 4
- Approved GEOG/GEOL Elective 3
- Social Science 3

Note: CHEM 2250 and 2260/2274 together can substitute for CHEM 2210/2214.

### Credits 15

**Junior**

**Fall**

- CHEM 3650 & CHEM 3654 **FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (*)** 4
- Approved GIS Course 4
- Approved GEOG/GEOL Elective 4
- Humanities and Fine Arts 3

- **CHEM 3650**: requires CHEM 2210/2214 or CHEM 2260/2274 with C- or better. CHEM 3654 must be taken concurrently.

Note: CHEM 3650/3654 will not be required if student has completed through CHEM 2260/2274 of the general chemistry sequence.

^ HFA – must be in a 2nd discipline

### Credits 15

**Spring**

- PHYS 1050 & PHYS 1054 **INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY (*)** 5
- ENGL 3980 **TECHNICAL WRITING ACROSS THE DISCIPLINES (*)** 3
- Approved GEOG/GEOL Elective 4
- Social Science^ 3

• **PHYS 1050**: HS algebra or equivalent
• **PHYS 1054**: HS algebra or equivalent; PHYS 1050 prior or concurrent

Note: The two-semester sequence of PHYS 1110/1154 and 1120/1164 can be taken in place of PHYS 1050/1054.

^ SS – must be in a 2nd discipline

### Credits 15

**Summer**

- ENVN 4800 **INTERNSHIP ENVIRONMENTAL MANAGEMENT AND PLANNING (*)** 3

• **ENVN 4800**: requires permission of instructor.

### Credits 3

**Senior**

**Fall**

- ENVN/GEOG/GEOL/BIO 4610 **ENVIRONMENTAL MONITORING AND ASSESSMENT (*)** 3
- ENVN 4820 **INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (*)** 3
- Approved GEOG/GEOL Elective** 3
- Approved GEOG/GEOL Elective** 3
- Elective course** 3

• **ENVN 4820** – requires permission of instructor.
• **ENVN/GEOG/GEOL/BIO 4610** – requires permission of instructor.

**120 total credits are required for a degree, with a minimum of 18 upper level (3000-4000) credits in the major and 27 upper level credits throughout the degree. Selecting 3000-4000 level electives or course options can help you reach these minimums.

<tr>
<td>BIOL 3020</td>
<td>MOLECULAR BIOLOGY OF THE CELL</td>
<td>3-4</td>
</tr>
</tbody>
</table>

Select two additional upper division courses in biology approved by an advisor. At least one course must include a lab. BIOL 3150 may not count as part of these upper division courses. 7-8

### Required cognate courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1010</td>
<td>CHEMISTRY IN THE ENVIRONMENT AND SOCIETY</td>
<td>3</td>
</tr>
<tr>
<td>or CHEM 3030</td>
<td>ENVIRONMENTAL CHEMISTRY</td>
<td></td>
</tr>
</tbody>
</table>

In addition, select one of the following chemistry sequences: 14-18

**Sequence One:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1140  &amp; CHEM 1144</td>
<td>FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY</td>
<td></td>
</tr>
<tr>
<td>CHEM 2210  &amp; CHEM 2214</td>
<td>FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY</td>
<td></td>
</tr>
<tr>
<td>CHEM 3650  &amp; CHEM 3654</td>
<td>FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY</td>
<td></td>
</tr>
</tbody>
</table>

**Sequence Two:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1180  &amp; CHEM 1184</td>
<td>GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY</td>
<td></td>
</tr>
<tr>
<td>CHEM 1190  &amp; CHEM 1194</td>
<td>GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY</td>
<td></td>
</tr>
<tr>
<td>CHEM 2210  &amp; CHEM 2214</td>
<td>FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY</td>
<td></td>
</tr>
<tr>
<td>CHEM 3650  &amp; CHEM 3654</td>
<td>FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY</td>
<td></td>
</tr>
</tbody>
</table>

**Sequence Three:**
CHEM 1180 & CHEM 1184  
GENERAL CHEMISTRY I  
and GENERAL CHEMISTRY I  
LABORATORY

CHEM 1190 & CHEM 1194  
GENERAL CHEMISTRY II  
and GENERAL CHEMISTRY II  
LABORATORY

CHEM 2250 & CHEM 2274  
ORGANIC CHEMISTRY I  
and ORGANIC CHEMISTRY LABORATORY

CHEM 2260 & CHEM 2274  
ORGANIC CHEMISTRY II  
and ORGANIC CHEMISTRY LABORATORY

Select one of the following physics sequences: 5-10

Sequence One:
PHYS 1050 & PHYS 1054
INTRODUCTION TO PHYSICS
and INTRODUCTION TO PHYSICS
LABORATORY

Sequence Two:
PHYS 1110 & PHYS 1154
GENERAL PHYSICS I WITH ALGEBRA
and GENERAL PHYSICS LABORATORY I

PHYS 1120 & PHYS 1164
GENERAL PHYSICS
and GENERAL PHYSICS LABORATORY II

Total Credits 78-93

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the environmental science major with a concentration in life sciences, the writing in the discipline requirement can be fulfilled through one of the two options for biology majors:

Option I
Complete two courses from each of the three tiers below. All courses used to meet the writing requirement must be taken at UNO. Only courses completed in 2010 or later qualify.

Tier I

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 1450</td>
<td>BIOLOGY I</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 1750</td>
<td>BIOLOGY II</td>
<td>5</td>
</tr>
</tbody>
</table>

Tier II

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 2140</td>
<td>GENETICS</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 3020</td>
<td>MOLECULAR BIOLOGY OF THE CELL</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 3340</td>
<td>ECOLOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

Tier III two writing in the discipline 3000 or 4000 level biology courses designated as Tier III courses.

Option II
Complete either:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 3150</td>
<td>WRITING AND COMMUNICATION IN THE BIOLOGICAL SCIENCES</td>

Sustainability Minor

Sustainability is an interdisciplinary field that explores, from multiple perspectives, the interconnectedness of every system on the planet and how to maintain and improve earth’s resources for current and future generations. Environmental science provides the basis for understanding Earth’s systems and how humans impact them. Humanities values our physical and ethical connection to these systems. Social sciences allows us to understand political, economic, and cultural sustainability, as well as formulate workable policies for a sustainable future.

Sustainability integrates a broad range of topics, including:

- green business practices
- ecology
- natural resources management
- city planning (including land development, housing, transportation, and urban infrastructure)
- international law, policy, and politics
- ethics, values, and environmental justice
- energy and international development
- food security
- human health and quality of life.

A minor in sustainability can be combined with any major in any college at UNO, offering students a flexible and interdisciplinary curriculum. Students who complete this minor will be able to:

- Understand sustainability, its various sub-disciplines, major themes, and analytical techniques as it relates to virtually any career field
- Recognize the political, economic, and cultural forces acting upon the global ecosystem
- Appreciate the significant value of the global ecosystem services provided by a healthy environment
- Identify ways to advance equity, improve quality of life, and lower our personal and collective environmental footprint, on campus and in the community.

Other Information

All coursework taken for the sustainability minor must be completed with a grade of "C-" or better.

Please be advised that students who elect to complete both the ENVN major and Sustainability minor may only count 1000-level classes for both the major and minor. For other majors, students may count one lower-level course and one upper-level course for both the major and minor.

**Foreign Languages and Literature**

The Department of Foreign Languages & Literature offers a Bachelor of Arts (B.A.) in Foreign Languages and Literature with concentrations in: French, German, or Spanish. For all languages, a total of 30 upper-division (3000-4000 level) credit hours are required.

The department offers introductory through advanced courses in French, German, and Spanish, as well as courses through the intermediate level in Japanese. It should be noted that the Spanish minor may be earned on campus, entirely online, or a combination of the two. Chinese is offered at the beginning level. In addition, the department participates in such interdisciplinary programs as International Studies, Latino and Latin American Studies, Women’s and Gender Studies, Medical Humanities, and also offers summer courses in France, Germany, Canada, Mexico and Spain.

**Double Majors for Secondary Education World Language Majors**

Students pursuing a B.S. from the College of Education with a first major in Secondary Education (World Language-French or German or Spanish 7-12 Endorsement) and working toward Nebraska State Certification to teach in this area may also earn a second major in Foreign Languages and Literature by declaring that major with the College of Arts & Sciences Advising Center (https://www.unomaha.edu/college-of-arts-and-sciences/academic-advising-center/).

Students will complete 30 credit hours in French, German, or Spanish with grades of C or above (this is different from the Foreign Languages & Literature Department’s requirement of a minimum grade of C- or above). Students declaring this second major should work with their advisor to select courses that align with both programs and require no additional coursework on the part of the student.

**Other Information**

Courses in the 1110, 1120, 2110, 2120 sequences may not be taken out of order. Students must pass the prerequisite course with a grade of “C” or better before taking the next course in the sequence, and may not take an earlier course in any sequence for credit once they have received credit in a later course in any sequence. All 3000 and 4000 level courses may be taken for honors credit in cooperation with the University Honors Program.

There is a laboratory fee for all foreign language courses at the 1000 and 2000 levels.

**Special Requirements**

The Department of Foreign Languages and Literature does not accept transfer credits from any institution for its 1000/2000 level courses except for those as allowed by the College of Arts and Sciences. To enroll in any French, German, or Spanish course beyond 1110, a student who has not successfully completed the prerequisite courses at UNO must take the appropriate placement exam and qualify for the desired course. Native and heritage speakers of French, German or Spanish wishing to take a course in their language of nurture are exempt from this requirement. They are advised to make an appointment with an advisor in the Department of Foreign Languages and Literature for appropriate placement. All other students are subject to this requirement including transfer students. UNK/UNL students are not exempt from this requirement. The Department of Foreign Languages and Literature reserves the right to cancel the registration of any student who has not met the prerequisites for a course. Transfer courses at the 3000/4000 level are subject to the approval of
a departmental adviser and the department chair. All foreign language courses must be completed with a grade of C- or better in order for the student to continue to the next course.

Residency
All majors in Foreign Languages and Literature must complete a minimum of 12 credit hours in their major language at the 3000 or 4000 level in residence at UNO.

All minors in Foreign Languages and Literature must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO.

Student Groups

Option for Degree Completion
Fast Track Program
The Department of Foreign Languages and Literature has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:
• This program is available for undergraduate students pursuing the BA degree with Foreign Languages & Literature major with concentrations in Spanish and/or French desiring to pursue an MA in Language Teaching
• Students must have completed no fewer than 60 undergraduate hours
• Students must have a minimum undergraduate GPA of 3.0.
• Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
• Students will work with their undergraduate advisor to register for the graduate courses
• A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good academic standing
• Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted to undergraduate status including financial aid
• Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code
• Admission to Fast Track does NOT guarantee admission to the graduate program.
• The admit term must be after the completion term of the undergraduate degree.
• Students can complete 9 credit hours in the target language (cross-listed courses at the 4000 level).

Contact
301 Arts & Sciences Hall

Website (http://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/)

Degrees Offered
• Foreign Languages and Literature, Bachelor of Arts (p. 157)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the foreign language and literature major, FREN 4040, GERM 4040, and SPAN 4040 are the approved university writing courses for French, German and Spanish. Students must have completed ENGL 1160 in order to take their writing in the discipline course (of the university core curriculum) in a foreign language.

Minors Offered
• French Minor (p. 161)
• German Minor (p. 161)
• Spanish Minor (p. 162) -Available online or on campus

Minor in Foreign Languages
A minimum of 15 credit hours in courses at the 3000 and 4000 level are required for a minor in French, German, or Spanish. All foreign language minors must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO. Students may earn the Spanish minor by taking courses on campus, online, or a combination of the two.

In the Department of Foreign Languages and Literature at UNO, our goal is to provide students with the linguistic and cultural proficiency required of a global education. Language study at UNO provides a myriad of opportunities to use the language you are studying both within and outside of the classroom through study abroad opportunities and engagement in the Omaha community. Foreign Languages & Literature majors often pursue career paths such as the following:

• business: human resources, sales, marketing, logistics, international business
• law/law enforcement: police, immigration, law (international, immigration or environmental law)
• government and non-profit services: non-profit management or administration, Peace Corps, Foreign Service, linguistics, social work, environmental justice, research (for think tanks, non-profits, government)
• healthcare: healthcare navigation, patient relations, nursing, medicine, dentistry, speech therapy
• education (p-16): teaching, bilingual assistance, administration (OPS requires that principals be or become bilingual), counseling, special education, library services
• communication/journalism: radio, television, publishing (e.g. newspapers, magazines, blogs, books), and advertising. Specialized areas include writing, editing, proofreading, transcribing, subtitling, voice-over recording
• travel and hospitality: travel agency services, tour guiding, event coordination, concierge services

French
FREN 1110 ELEMENTARY FRENCH I (5 credits)
Elementary French I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues from the francophone world.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course
**FREN 1120 ELEMENTARY FRENCH II (5 credits)**
French 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including listening, writing, speaking, and reading.

**Prerequisite(s)/Corequisite(s):** FREN 1110 with a grade of C- or better or placement by diagnostic examination. Department permission is needed for transfer credit.

**FREN 2110 INTERMEDIATE FRENCH I (3 credits)**
Grammar review, continued oral practice, and introduction to literary readings.

**Prerequisite(s)/Corequisite(s):** FREN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

**FREN 2120 INTERMEDIATE FRENCH II (3 credits)**
Grammar review, continued oral practice, and introduction to literary readings.

**Prerequisite(s)/Corequisite(s):** FREN 2110 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

**FREN 3020 SPECIAL TOPICS IN FRENCH (3 credits)**
Topics for this course will include French grammar review, conversation practice, composition, and structure. This course is a bridge course designed for students who have completed FREN 2120, FREN 3030, or FREN 3040, to prepare them for 3000/4000-level content courses in French.

**Prerequisite(s)/Corequisite(s):** FREN 2120 or equivalent. Not open to non-degree graduate students.

**FREN 3030 FRENCH CONVERSATION (3 credits)**
Practice in a variety of conversational situations and levels.

**Prerequisite(s)/Corequisite(s):** FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

**FREN 3040 FRENCH GRAMMAR AND COMPOSITION (3 credits)**
Review of grammatical principles, practice in written composition.

**Prerequisite(s)/Corequisite(s):** FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

**FREN 3050 INTRODUCTION TO TRANSLATION (3 credits)**
Introduction to the theory and various techniques of translation from French into English. Students will review specific differences between French and English grammar and lexicon. Students will first practice translating sentences, moving to paragraphs to end on translating various genres of literary works. Throughout the course, students will translate a great variety of texts such as news articles, administrative forms, official records, business documents, brochures, operating instructions, and how to translate subtitles.

**Prerequisite(s)/Corequisite(s):** FREN 3040 or permission

**FREN 3060 READINGS IN FRENCH (3 credits)**
This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

**Prerequisite(s)/Corequisite(s):** FREN 2120. Not open to non-degree graduate students.

**FREN 3160 INTRODUCTION TO FRENCH LITERATURE (3 credits)**
Readings in this survey course will include a selection of French authors from the medieval period to the present. This selection will vary depending on the instructor. The main objective of this course is the development of critical reading skills and an understanding of major authors, movements, and themes in French literature. Students will read selections from numerous authors in a variety of genres, including short stories, theater, poetry, and the novel. The course also focuses on continuing to develop French language skills, in particular through reading for comprehension and interpretation of metaphorical meaning. Discussion will help to hone speaking skills.

**Prerequisite(s)/Corequisite(s):** FREN 3060 or instructor permission.

**FREN 3370 FRENCH CIVILIZATION (3 credits)**
A historical view of France through its political, artistic, musical, literary, architectural and philosophical development from prehistory to the present.

**Prerequisite(s)/Corequisite(s):** FREN 2120 or permission

**FREN 3580 BUSINESS FRENCH (3 credits)**
An introduction to the French business world. Students will acquire the necessary vocabulary, skills and cultural strategies to perform adequately in a French business environment so they can understand the cultural differences between the American and French business worlds.

**Prerequisite(s)/Corequisite(s):** FREN 2120 or equivalent

**FREN 4030 ADVANCED FRENCH CONVERSATION (3 credits)**
This course focuses on the development of oral skills in French through the use of complex and sophisticated conversational structures and nuanced lexicon. Students will be involved in expressing or presenting their ideas and opinions, interpersonal speaking activities, and a variety of activities including reading short literary and cultural texts and screening films.

**Prerequisite(s)/Corequisite(s):** FREN 3030 or departmental permission. Not open to non-degree graduate students.

**FREN 4040 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)**
In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.

**Prerequisite(s)/Corequisite(s):** French majors with Junior or Senior standing. Not open to non-degree graduate students.

**Distribution:** Writing in the Discipline Single Course

**FREN 4050 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3 credits)**
An introduction to the many facets of Quebec Culture & Civilization, through readings on Quebec's history and contemporary culture and also through films and other media related to Quebec. (Cross-listed with FREN 8056).

**Prerequisite(s)/Corequisite(s):** FREN 2120 or permission, and ENGL 1160

**FREN 4150 CONTEMPORARY FRENCH NOVEL (3 credits)**
Selected contemporary French novels are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. In addition, students will examine the sociopolitical and cultural contexts of these literary works. (Cross-listed with FREN 8156).

**Prerequisite(s)/Corequisite(s):** FREN 3060 or permission. Not open to non-degree graduate students.

**FREN 4170 CONTEMPORARY FRENCH THEATER (3 credits)**
Selected contemporary French plays are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. (Cross-listed with FREN 8176).

**Prerequisite(s)/Corequisite(s):** FREN 3060 or permission of instructor. Not open to non-degree graduate students.

**FREN 4220 THE STRUCTURE OF FRENCH (3 credits)**
A survey of the linguistic structure of modern French, including phonology, morphology, and syntax. (Cross-listed with FREN 8226).

**Prerequisite(s)/Corequisite(s):** FREN 3040 or departmental permission. Not open to non-degree graduate students.
FREN 4860 MODERN FRENCH WOMEN AUTHORS (3 credits)
Selected contemporary French literary texts written by women are analyzed and discussed. This may include novels, short stories, poetry, and graphic novels. The primary objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the works under consideration. In addition, students will examine the sociopolitical and cultural contexts of these works. (Cross-listed with FREN 8866).
Prerequisite(s)/Corequisite(s): FREN 3060 or permission. Not open to non-degree graduate students.

FREN 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student’s regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work. (Cross-listed with FREN 8906).
Prerequisite(s)/Corequisite(s): Senior status, no incompleted outstanding, and departmental permission.

FREN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 8956).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address narrow field of study of the civilization, history, film, contemporary culture, art, politics, and or cultural studies of the Francophone world. (Cross-listed with FREN 8966).
Prerequisite(s)/Corequisite(s): FREN 2120, FREN 3030, FREN 3040, and FREN 3060

FREN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 8976).
Prerequisite(s)/Corequisite(s): FREN 3030, FREN 3040, and FREN 3060

German

GERM 1110 ELEMENTARY GERMAN I (5 credits)
Elementary German I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural issues from the German-speaking world.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

GERM 1120 ELEMENTARY GERMAN II (5 credits)
German 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.
Prerequisite(s)/Corequisite(s): GERM 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2110 INTERMEDIATE GERMAN I (3 credits)
German 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.
Prerequisite(s)/Corequisite(s): GERM 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2120 INTERMEDIATE GERMAN II (3 credits)
German 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It includes a culture component.
Prerequisite(s)/Corequisite(s): GERM 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 3030 GERMAN CONVERSATION (3 credits)
This course focuses on improving students' oral production of German including improvements to pronunciation, fluidity, and vocabulary.
Prerequisite(s)/Corequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 3040 GERMAN GRAMMAR & COMPOSITION (3 credits)
The course will review previously studied grammar topics in the German language, as well as cover more advanced grammar points that are essential for expressing complex ideas. It will focus on writing strategies for writing in a foreign language, for developing a descriptive essay and a narrative.
Prerequisite(s)/Corequisite(s): GERM 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission.

GERM 3060 READINGS IN GERMAN (3 credits)
This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.
Prerequisite(s)/Corequisite(s): GERM 2120; Not open to non-degree graduate students

GERM 3190 LISTENING COMPREHENSION (3 credits)
Students will strengthen their listening comprehension skills in a wide variety of genres.
Prerequisite(s)/Corequisite(s): GERM 2120 or placement into the 3000-level in German or permission from the instructor

GERM 3250 CONTEMPORARY CULTURE IN GERMAN SPEAKING COUNTRIES (3 credits)
In this course students will learn about the political, social, economic, and aesthetic life in German-speaking countries.
Prerequisite(s)/Corequisite(s): GERM 2120 with a grade of C- or better, placement by department diagnostic exam, or instructor permission. Department permission is needed for transfer credit.

GERM 3370 GERMAN HISTORY FROM THE BEGINNINGS UNTIL THE EARLY MODERN PERIOD (3 credits)
This course covers history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from prehistory until the early 18th century.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3380 GERMAN HISTORY FROM THE ENLIGHTENMENT TO THE PRESENT (3 credits)
This course will cover the history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from the Enlightenment until the present.
Prerequisite(s)/Corequisite(s): GERM 2120 or permission.

GERM 3580 GERMAN FOR PROFESSIONAL LIFE (3 credits)
This course focuses upon the development of German language skills and concomitant cultural awareness that can be utilized to conduct oneself appropriately in professional situations in German-speaking countries.
Prerequisite(s)/Corequisite(s): GERM 2120 or the equivalent.

GERM 3650 INTRODUCTION TO GERMAN FILM (3 credits)
This course introduces students to seminal works in the history of German film.
Prerequisite(s)/Corequisite(s): GERM 2120 or by permission.
GERM 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)
In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.
Prerequisite(s)/Corequisite(s): Last two semesters of the major or permission of the department. Not open to non-degree graduate students. Distribution: Writing in the Discipline Single Course

GERM 4150 INTRODUCTION TO GERMAN LITERATURE (3 credits)
Introduction to the history of literature of Germany, Austria, and German-speaking Switzerland. Students will read selections from the 18th, 19th and 20th centuries. Prerequisite(s)/Corequisite(s): GERM 3060 or instructor permission.

GERM 4210 TRANSLATING GERMAN (3 credits)
Students learn basic translation theory and techniques from the German to the English language. Prerequisite(s)/Corequisite(s): GERM 3030 and GERM 3040 or by permission

GERM 4220 THE STRUCTURE OF GERMAN (3 credits)
A survey of the linguistic structure of modern German, including phonology, morphology, and syntax. (Cross-listed with GERM 8226). Prerequisite(s)/Corequisite(s): GERM 3040 and GERM 4610, or permission of instructor.

GERM 4900 INDEPENDENT STUDY (1-3 credits)
This is a course in which an individual student or a small group of students complete specially planned readings in a well-defined field of study, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once. Prerequisite(s)/Corequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 8956). Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060.

GERM 4960 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 8966). Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060.

GERM 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 8976). Prerequisite(s)/Corequisite(s): GERM 3030, GERM 3040, and GERM 3060.

Russian

RUSS 1110 ELEMENTARY RUSSIAN I (5 credits)
Elementary Russian I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues in Russia. Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course.

RUSS 1120 ELEMENTARY RUSSIAN II (5 credits)
Russian 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Prerequisite(s)/Corequisite(s): RUSS 1110 with a grade of C- or better or three years of high school Russian. Department permission is needed for transfer credit.

RUSS 2110 INTERMEDIATE RUSSIAN I (3 credits)
Russian 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Prerequisite(s)/Corequisite(s): RUSS 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

RUSS 2120 INTERMEDIATE RUSSIAN II (3 credits)
Russian 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Prerequisite(s)/Corequisite(s): RUSS 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

RUSS 3030 RUSSIAN CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels. Prerequisite(s)/Corequisite(s): RUSS 2120 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners.

RUSS 3040 RUSSIAN GRAMMAR AND COMPOSITION (3 credits)
Review of grammatical principles, practice in written composition. Prerequisite(s)/Corequisite(s): RUSS 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners.

RUSS 3050 WOMEN IN RUSSIAN SOCIETY & CULTURE: A HISTORICAL PERSPECTIVE (3 credits)
This course discusses the history of women in Russia beginning from early Russia (10th Century) to the present. It includes the study of feminist activists, female educational, professional, and employment opportunities, historical and current status of women, and their social, cultural, and intellectual influences on Russian society. Course offered in English. (Cross-listed with WGST 3050). Prerequisite(s)/Corequisite(s): Junior or permission.

RUSS 3150 INTRODUCTION TO RUSSIAN LITERATURE I (3 credits)
This course is designed to acquaint students with some of the highlights of Russian literature and develop their abilities to distinguish between various literary styles, ideas, and individual techniques and aesthetics of most prominent Russian authors. Readings in this survey course will include a selection of Russian authors from the 19th and 20th centuries. The main objective of this course is the development of critical reading skills and an understanding of major authors, movements, and themes in Russian literature. Students will read selections from numerous authors in a variety of genres, including short stories, theater, poetry, and the novel. The course also focuses on continuing to develop Russian language skills, in particular through reading for comprehension and interpretation of metaphorical meaning. Discussion will help to hone speaking skills. Prerequisite(s)/Corequisite(s): RUSS 2120 or department permission.

RUSS 3370 RUSSIAN CULTURE AND CIVILIZATION (3 credits)
A historical view of Russia through its political, literary, musical, religious and philosophical development from the 10th to the 20th centuries. Prerequisite(s)/Corequisite(s): Junior standing or permission.
RUSS 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work.
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission. Not open to non-degree graduate students.

RUSS 4940 RUSSIAN MASTERPIECES (3 credits)
This course introduces Russian literature in translation and will be conducted in English. Readings in this survey course will include a selection of Russian authors from the early 19th century period to the present. The main objective of this course is the development of critical reading skills and an in-depth understanding of major authors, movements, and themes in Russian literature. Students will read selections from numerous authors in a variety of genres, including short stories, theater, poetry, and the novel. (Cross-listed with RUSS 8946)
Prerequisite(s)/Corequisite(s): ENGL 1160

Spanish

SPAN 1100 ELEMENTARY SPANISH I FOR HEALTHCARE PROFESSIONALS (5 credits)
Spanish 1100 presents an introduction to the Spanish language and fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing, via a communicative approach. It also promotes an understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.

SPAN 1110 ELEMENTARY SPANISH I (5 credits)
Elementary Spanish I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural topics from across the Spanish-speaking world.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

SPAN 1120 ELEMENTARY SPANISH II (5 credits)
Spanish 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.
Prerequisite(s)/Corequisite(s): SPAN 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 1200 ELEMENTARY SPANISH 2 HEALTHCARE PROFESSIONALS (5 credits)
Spanish 1200 is built on the content introduced in Spanish 1100 and presents students with more complex communicative tasks that are typical of interactions between patient/client and healthcare providers. The course fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing. It also promotes understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.
Prerequisite(s)/Corequisite(s): SPAN 1100 or SPAN 1100 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2110 INTERMEDIATE SPANISH I (3 credits)
Spanish 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.
Prerequisite(s)/Corequisite(s): SPAN 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2120 INTERMEDIATE SPANISH II (3 credits)
Spanish 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.
Prerequisite(s)/Corequisite(s): SPAN 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2130 ACCELERATED SECOND-YEAR SPANISH (6 credits)
This accelerated course combines the content of Intermediate Spanish I and Intermediate Spanish II. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Successful completion of this course fulfills the College of Arts and Sciences foreign language requirement. The entire course must be completed to receive credit.
Prerequisite(s)/Corequisite(s): SPAN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

SPAN 2150 INTRODUCTION TO HISPANIC LITERATURES AND CULTURES (3 credits)
In this course, students become acquainted with canonical texts within the Spanish and Spanish American literary traditions. The course focuses on developing reading and writing skills, and on helping students distinguish between literal and metaphorical meanings, which serves as a preparation for the development of more advanced interpretive skills.
Prerequisite(s)/Corequisite(s): Placement exam results or advisor permission

SPAN 3010 SPANISH FOR HERITAGE SPEAKERS I (3 credits)
This course is designed to offer Spanish-speaking students an opportunity to study Spanish in an academic setting. Students will acquire Spanish literacy skills, develop their academic language skills in Spanish, and learn more about the Spanish language and their cultural heritage.
Prerequisite(s)/Corequisite(s): Placement exam results or advisor permission

SPAN 3020 SPANISH FOR HERITAGE SPEAKERS II (3 credits)
This course will continue to build upon the Spanish language skills students have covered in Spanish for Heritage Speakers I. Students will develop strategic academic vocabulary, learn to critically analyze a text, produce a variety of written texts, and acquire new information in different academic content areas.
Prerequisite(s)/Corequisite(s): SPAN 3010 or advisor permission

SPAN 3030 SPANISH CONVERSATION (3 credits)
Practice in a variety of conversational situations and levels.
Prerequisite(s)/Corequisite(s): SPAN 2120 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.

SPAN 3040 SPANISH GRAMMAR AND COMPOSITION (3 credits)
Review of grammatical principles and practice in written composition.
Prerequisite(s)/Corequisite(s): SPAN 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.
SPAN 3050 LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE (3 credits)
This course focuses on the development and intensive practice of oral expression in Spanish, and is intended for students interested in the fields of business, health, education, environmental sciences, social work, and cultural studies, who are either heritage speakers of Spanish or who are completing a major/minor in Spanish. The class provides a broad context of current relevant issues in Latin America, including politics and society; the state of the economy after decades of neoliberalism; racism; indigenous and Afro-descendent identities; domestic and gender violence; health and disabilities; adult, youth, & child immigration; and ecology and the environment. (Cross-listed with LLS 3050).
Prerequisite(s)/Corequisite(s): SPAN 3010 or SPAN 3030 & SPAN 3040

SPAN 3060 READINGS IN SPANISH (3 credits)
This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission. Not open to non-degree graduate students.

SPAN 3170 SURVEY OF SPANISH LITERATURE I (3 credits)
Introduction to the principal authors and works of Spanish literature from El Cid to the 17th century.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission. Not open to non-degree graduate students.

SPAN 3180 SURVEY OF SPANISH LITERATURE II (3 credits)
Spanish 3180, Introduction to Spanish Literature II, aims to familiarize students with the most important writers and literary movements from the 18th to the 21st centuries, giving an overview of the history, society and culture of these times. This course will also focus on the continued development of students' listening, speaking, reading, and essay skills. In pursuit of these goals, students will have the opportunity to read not only the specific texts but critical and introductory articles that will help them situate themselves within this particular historical and literary context. Students will also have to write essays, take tests, and develop their critical skills.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3410 SPANISH CIVILIZATION (3 credits)
History, geography, national economy, politics, society, education, art, music and literature of Spain.
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060.

SPAN 3420 LATIN AMERICAN CIVILIZATION (3 credits)
What do we know about Latin American culture, geography, politics and languages? How has Latin America been imagined from the United States? Does it make sense to think of Latin America as one space brought together by a similar history or is it better to imagine it as twenty particular countries with intersecting pasts and futures? This course will attempt to answer these questions by introducing you to a number of key topics and debates common to contemporary Latin American culture, including issues such as democracy, class, race/ethnicity, gender/sexuality, religion, family and globalization. (Cross-listed with LLS 3420).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, SPAN 3060.

SPAN 3510 SPANISH PHONETICS AND PHONOLOGY (3 credits)
Introduction to basic concepts in phonetics and phonology, and intensive practice in Spanish pronunciation.
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3040. Not open to non-degree graduate students.

SPAN 3570 SPANISH FOR HEALTHCARE PROFESSIONALS (3 credits)
Spanish for Healthcare Professionals provides an introduction of specialized communication in the healthcare context. Course objectives include the development of essential informal and formal vocabulary and expressions, and sociocultural competencies necessary for successful interaction with patients and other healthcare providers.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040 or SPAN 3010, SPAN 3020

SPAN 3580 BUSINESS SPANISH (3 credits)
An introduction to the Spanish business world. Students will acquire the necessary skills and strategies to understand the differences in business practices and cultures between the US and Spanish-speaking countries. No prior business knowledge is required.
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or permission from a Spanish advisor.

SPAN 4020 LANGUAGE ENHANCEMENT THROUGH VOCABULARY LEARNING (3 credits)
This class aims to expand students' vocabulary in Spanish. This will be achieved through doing an overview of current research that investigates how vocabulary is learned; identifying effective vocabulary learning strategies; and exploring topics not commonly encountered in Spanish classes such as commerce and science. The course also includes points of contact with the Spanish-speaking community in Omaha, where students can participate in interactions that connect what has been learned in the classroom to language use in real life. (Cross-listed with SPAN 8026).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060 OR SPAN 3010, SPAN 3020, and SPAN 3060

SPAN 4030 ADVANCED SPANISH CONVERSATION (3 credits)
This course targets the development of oral skills in Spanish through the incorporation of complex and sophisticated conversational structures and nuanced lexicon. In particular, the course focuses on presentational (i.e., expressing or exposing ideas or opinions), and interpersonal speaking (i.e., engaging in conversation where learners narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with control of aspect). (Cross-listed with SPAN 8036)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060 or departmental permission

SPAN 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)
In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics. (Cross-listed with SPAN 8046).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020 and SPAN 3060; Majors only, senior standing. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

SPAN 4060 INTRODUCTION TO TRANSLATION AND INTERPRETATION (3 credits)
This course offers an introduction to the translation and interpretation field. Course objectives include (a) understanding translation theory; (b) comprehending the role of communication in translation and interpretation; (c) targeting common grammatical and pragmatic errors; (d) increasing vocabulary knowledge in a variety of fields; and (e) gaining an increased awareness of the rigor and demands innate to the translation and interpretation fields. (Cross-listed with SPAN 8066).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060
SPAN 4070 HISPANIC BILINGUALISM (3 credits)
This course explores bilingualism among Spanish speaking populations. Topics include societal bilingualism, the history of Spanish and language policy in Spain, Latin America, and the U.S., psychological aspects of bilingualism, monolingual vs. bilingual acquisition, first vs second language acquisition, and Spanish as a heritage language in the U.S. (Cross-listed with SPAN 8076).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, SPAN 3060 or SPAN 3010, SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4080 INTRODUCTION TO HISPANIC LINGUISTICS (3 credits)
This course introduces students to the field of linguistics by exploring the following areas: phonetics and phonology (sound systems), morphology (word formation), historical linguistics (language development over time), and sociolinguistics and pragmatics (language in society and context), among others, as framed within the study of the Spanish language. (Cross-listed with SPAN 8086).
Prerequisite(s)/Corequisite(s): SPAN 3030 and SPAN 3040 OR SPAN 3010 and SPAN 3020

SPAN 4120 HISPANIC SOCIOLINGUISTICS (3 credits)
This course introduces sociolinguistics, the study of the relationship between language and society, with an emphasis on the Spanish language. Its focus will be on correlational linguistics (how social factors such as age, gender and socioeconomic status affect language) and language and society (the role language plays in human conduct and social organization). Course topics will include the concept of speech communities, sociolinguistic variables, phonological and syntactic variation as well as languages in contact, bilingualism, Spanish in the U.S., Spanish as a heritage language, and language attitudes and ideologies. (Cross-listed with SPAN 8126).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4130 SPANISH IN THE UNITED STATES (3 credits)
This course looks at Spanish in the U.S. from a sociolinguistic perspective. Course topics include: Dialectal/regional differences, dialect contact, Spanish-English bilingualism and code-switching, “Spanglish”, language maintenance, language ideologies surrounding Spanish in the U.S., and Spanish in public spheres (e.g., TV, movies, radio, music, stand-up comedy). (Cross-listed with SPAN 8136).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4140 INTRODUCTION TO LATIN AMERICAN FILM (3 credits)
The course will be a thematic study of significant Latin American films emphasizing and further investigating their relationship to history, culture, society and political issues that have often given rise to social movements. Films from a variety of Spanish-speaking countries including Mexico, Argentina, Chile, Cuba, Bolivia, etc. will be studied in their socio-political context. At the 8146 level, students will be introduced to theoretical approaches such as early film theory, montage theory, feminist theory, race theory, and phenomenological film theory in order to deepen their understanding of these themes. (Cross-listed with SPAN 8146, LLS 4140).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4150 LITTERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)
"Literature/ Culture: Central America and the Caribbean 1898-2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 8156, CACT 8416)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040 and SPAN 3060 or permission of instructor

SPAN 4170 INTRODUCTION TO LATIN AMERICAN LITERATURES (3 credits)
The course is intended as an introduction to the study of canonical and non-canonical texts in Latin American literatures, from the 16th to 21st centuries. It seeks to acquaint students with the rich literary traditions of a large region, from South America to Central America and Mexico, as well as with the historical challenges posed by the salient heterogeneity of texts included in the Latin American corpus, from the standpoint of ethnicity, gender, social class, and literary genre. The course also focuses on continuing to develop Spanish language skills, specifically reading for comprehension and interpretation of metaphorical meaning, writing, and presentational speaking skills in Spanish. (Cross-listed with SPAN 8176, LLS 4170).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, or SPAN 3010, SPAN 3020; SPAN 3060.

SPAN 4220 THE STRUCTURE OF SPANISH (3 credits)
This course introduces students to the structure of the Spanish language with a focus on its morphology and syntax as seen in the study of constituents of a sentence, lexical categories, content and function words, the pronominal system, the structure of simple and complex sentences, and the verbal system, among others. It reviews frequent syntactical errors in Spanish L2 and Heritage learners with the purpose of advancing their linguistic competence. (Cross-listed with SPAN 8226).
Prerequisite(s)/Corequisite(s): SPAN 3030 and 3040 or SPAN 3010 and SPAN 3020

SPAN 4800 INTERNSHIP IN SPANISH (3 credits)
This course is a supervised internship in a professional setting with a for-profit, government or non-profit organization. Students will receive hands-on experience involving translation, interpretation, community outreach, planning of educational opportunities or community events in Spanish. Internship specific projects and goals will be decided between employer and student and approved by the Spanish internship director. Some internships will be paid, but most will not.
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060, junior or senior standing, and internship director permission. Not open to non-degree graduate students.

SPAN 4900 INDEPENDENT STUDY (1-3 credits)
Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work.
Prerequisite(s)/Corequisite(s): Senior status, no incompletes outstanding, and departmental permission.

SPAN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)
This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 8956)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)
This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 8966)
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060.

SPAN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)
This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 8976)
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060.
Foreign Languages and Literature, Bachelor of Arts

To obtain a B.A. with a major in Foreign Languages and Literature, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages (elementary and intermediate)
- 12-19 hours college breadth requirement
- 30 hours of major courses
- 9-16 hours of electives

TOTAL HOURS: 120

All majors take the following:

- 3 hours in Conversation (FREN 3030, GERM 3030, or SPAN 3030)
- 6 hours in Grammar, Composition, and Stylistics (FREN 3040 and FREN 4040, GERM 3040 and GERM 4040, or SPAN 3040 and SPAN 4040)
- 3 hours in Readings (FREN 3060, GERM 3060, or SPAN 3060)
- 18 hours of electives chosen from three tracks:
  - Literature and Film
  - Culture and Society
  - Linguistics and Language for the Professions

A minimum of 3 hours must be taken within each of the three tracks. As long as students complete at least 3 hours in each track, they may fulfill their elective course requirements in whichever track or tracks they choose.

A total of 30 upper-division (3000-4000 level) credit hours is required.

It is strongly recommended that all foreign language majors include a study abroad component of at least one month during the second half of their program of study. All courses credited to a major or minor in a foreign language must be passed with a grade of "C-" or better.

Electives
Select 18 credits from the following three tracks, with a minimum of 3 credits in each of the tracks:

1. **Track 1: Literature and Film**
   - SPAN 3170 SURVEY OF SPANISH LITERATURE I
   - SPAN 3180 SURVEY OF SPANISH LITERATURE II
   - SPAN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM

2. **Track 2: Culture and Society**
   - SPAN 3410 SPANISH CIVILIZATION
   - SPAN 3420 LATIN AMERICAN CIVILIZATION
   - SPAN 4960 PRO-SEMINAR: CULTURE AND SOCIETY

3. **Track 3: Linguistics and Language for the professions**
   - SPAN 3510 SPANISH PHONETICS AND PHONOLOGY
   - SPAN 3580 BUSINESS SPANISH
   - SPAN 4060 INTRODUCTION TO TRANSLATION AND INTERPRETATION
   - SPAN 4080 INTRODUCTION TO HISPANIC LINGUISTICS
   - SPAN 4220 THE STRUCTURE OF SPANISH
   - SPAN 4800 INTERNSHIP IN SPANISH
   - SPAN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS

Total Credits: 30

1 Senior status and advisor permission required to enroll into SPAN 4040.
2 As long as students complete at least 3 credits in each track, they may fulfill their elective course requirements in whichever track or tracks they choose.

Native speakers of Spanish should speak with a departmental advisor regarding major requirements.

General Science

The Bachelor of Science in General Science is offered with or without a concentration. Without a concentration, it is a major with courses taken from multiple disciplines: biology, chemistry, physics, mathematics and geology. It is ideal for the student who enjoys a variety of sciences, preferring breadth over depth. A concentration in Medical Laboratory Science is available for students planning to apply to UNMC’s program, and allows for more specificity as it applies to Medical Laboratory Science prerequisites.

Contact
Arts and Sciences Advising Center
240 ASH
402.554.2458

Degrees Offered

• General Science, Bachelor of Science (p. 162)

All coursework taken for the General Science major must be completed with a grade of "C-" or better.

Writing in the Discipline

Writing in the discipline course: All students are required to take a writing in the discipline course within their major. For the general science major this is ENGL 3980 or another approved course.

The General Science major is designed to help students gain a broad scientific background and develop fundamental skills in mathematics and science. Few students choose General Science initially. Instead, they transfer into it after finding one of the other natural or physical science majors to be more demanding or more narrowly focused than expected.

The major in General Science is appropriate for students who are preparing for careers in some health professions (Pre-Occupational Therapy, Pre-Physical Therapy, Pre-Nursing, Pre-Medical Laboratory Science, etc.) for those who wish to enter graduate school programs at the Masters or Doctoral degree levels, for those students who wish to attain Teacher Certification, and those preparing for employment in a variety of science or science-related career areas.

When combined with other more specific majors or minors, a degree in general science can also be excellent preparation for careers in law, business, public relations, and writing careers in science, technology or natural history.

Career options include, but are not limited to

• Healthcare
• Technical Writing
• Research
• Environmental Science
• Natural History
• Business
• Public Relations
• Law
• High School Science Teacher

General Science, Bachelor of Science

Requirements

To obtain a B.S. with a major in General Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

• 46 hours of General Education courses
  Most commonly, General Science majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements and meet the seven-hour University General Education natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.

• 12-19 hours college breadth requirement
• 64-65 hours major courses
• 3-11 hours electives

Total Hours: 120

The B.S. degree with a major in general science consists of 49-50 credits of natural science courses as outlined below and 15 credits of cognate coursework selected in collaboration with the advisor from complementary disciplines.

Arts and Sciences students must complete 27 credits of upper division coursework within their degree.

<table>

</table>
Those, 15 credits must come from the natural and physical sciences.

Students must have a minimum of 30 credits in residence at UNO and of degree of BS MLS from UNMC/BS GSCI-MLS concentration from UNO. Students may transfer their UNMC coursework back to UNO to earn a dual in specific MLS courses. After completion of the MLS program at UNMC, students will complete 11 months of studies into UNMC’s MLS program, students will complete 11 months of studies guaranteed an interview with UNMC’s MLS program. Upon acceptance and maintained a cumulative or math/science GPA of 3.0, he/she will be provided that the student has followed the curriculum as laid out below, in no more than three years. Near the beginning of the student’s third year of UNO studies, they will need to apply to UNMC’s MLS program. Following the guide below allows the student to complete UNO’s general Science program and add on the medical laboratory science concentration. Degrees in as little as 122 credits. Students will apply to UNO’s General Laboratory Science Program (MLS). This program was designed in collaboration with UNMC to allow a student to complete two bachelor’s degrees in medical laboratory science for students planning to apply to UNMC’s Medical Laboratory Science Concentration.

BIOL 2140 GENETICS 4
BIOL 2440 THE BIOLOGY OF MICROORGANISMS 4
BIOL 3240 INTRODUCTION TO IMMUNOLOGY 3

CHEMISTRY (14 credits)
CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY 5
CHEM 1144 and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY CHEM 1180-1184 and CHEM 1190-1194 may be substituted for CHEM 1140-1144.
CHEM 2210 FUNDAMENTALS OF ORGANIC CHEMISTRY 5
CHEM 2214 and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY CHEM 2250 and CHEM 2260-2274 may be substituted for CHEM 2210-2214.
CHEM 3650 FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY 4

MATHEMATICS (3 credits)
MATH 1220 COLLEGE ALGEBRA (~Not required if student has MATH ACT sub score of 23 or higher) 3

STATISTICS (3 credits)
Select one of the following:
PSYC 3130 STATISTICS FOR THE BEHAVIORAL SCIENCES 3
STAT 3000 STATISTICAL METHODS I 3
PA 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR 3
ENGLISH COMPOSITION (3 credits)
ENGL 1160 ENGLISH COMPOSITION II (~UNMC will accept ENGL 1150 or 1160 but UNO requires at least ENGL 1160 or placement beyond via Advanced Placement or EPPE.) 3

PUBLIC SPEAKING (3 credits)
CMST 1110 PUBLIC SPEAKING FUNDS or CMST 2120 ARGUMENTATION AND DEBATE 3

HUMANITIES & FINE ARTS (9 credits)
3 Humanities & Fine Arts courses of choice from UNO’s University Gen Ed list and coming from at least 2 different disciplines –One should be a U.S. Diversity or Global Diversity

SOCIAL SCIENCES (6 credits)
2 Social Sciences of choice from UNO’s University Gen Ed list –At least one should be a U.S. Diversity or Global Diversity (whichever one wasn’t taken as a humanities)

COGNATE COURSES (15 credits minimum)
Selected in collaboration with UNO advisor. May not be transferred back from UNMC. Suggested courses are:
BIOL 1060 INTRODUCTION TO MEDICAL CAREERS & ETHICS 2
BIOL 2740 HUMAN ANATOMY AND PHYSIOLOGY I 4
BIOL 2840 HUMAN ANATOMY AND PHYSIOLOGY II 4
MATH 1320 PRE-CALCULUS ALGEBRA 3
Social Science of choice (3)

Upon acceptance to the Bachelor of Science in Medical Laboratory Science program at UNMC, students will take at least 43 credits of professional MLS coursework to transfer back toward the completion of this additional
UNO degree—a B.S. in general science—medical laboratory science concentration.

If the student is not accepted to UNMC, the following will need to be added to complete the GSCI major: PHYS 1110-1154, GEOL 1170, an additional 3 credits of social sciences if not taken within the cognate, an Advanced Writing course, a minor or additional College of Arts & Sciences Gen Eds, and electives to reach 120 credits total. Students must have a minimum of 27 credits at the 3000/4000 level throughout the entire degree.

Humanities and Fine Arts

*BIOL 1450: Requires high school biology and chemistry. College level chemistry recommended. This course will count as a Natural & Physical Science Lecture/Lab course as well as major requirement.

**MATH 1930: Requires MATH 1320 within the last two years, or Math ACT sub-score of 25 within the last two years, or appropriate Math Placement Exam score within the last 2 years. (Student may take MATH 1950, as an alternative, with proper placement.) This course is higher than the general education Math/QL requirement, so would count as that and the College of Arts and Sciences QL requirement for the Addl Gen Eds, in addition to counting as a calculus course for the major.

**ENGL 1150: Requires appropriate placement via EPPE or AP.

**Spring**

BS Cognate Course***

*CHEM 1190: Requires CHEM 1180/1184 and MATH 1320 or equivalent. Must take CHEM 1194 concurrently.

**Advanced General Science Electives: 12 credits minimum needed from at least 2 disciplines between BIOL, CHEM, GEOL, & PHYS. Must be at the 2000 level or higher.

***15 credits minimum of Cognate courses needed. Cognate courses should be selected in consultation with your advisor. Ideally, courses are upper-level, to help you reach the 27 credit upper level minimum throughout the degree.
**Medical Laboratory Science Concentration**

**Freshman**

**CHEM 3650: Requires concurrent enrollment in CHEM 3654. Requires CHEM 2210-2214 or CHEM 2260-2274, either of which needs to be a C- or better.**

**PSYC 3130 or STAT 3000 or PA 3000 or SOWK/CRJC 3000**
all require MATH 1220 or MATH 1120 as a prereq, but MATH 1220 or higher is needed for this program.

**BIOL 1160** is helpful prior to or concurrent with enrollment in BIOL 2740, but not required.

NOTE: It is suggested that students have a parallel plan involving another major or at least a minor. Taking a course toward that major or minor here or an upper-level elective is suggested.

**UNMC’S Medical Laboratory Science Program Application needs to be started this semester.**
Typically applications are due early October, and the program begins late May in the following year. BEGIN APPLICATION NOW. Students must have taken the required courses, even if in a different plan of study, and must have a cumulative or math/science GPA of 3.0 minimum for a guaranteed interview with UNMC.

*It is suggested that students have a parallel plan involving another major or at least a minor. Taking a course toward that major or minor here or an upper-level elective is suggested.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

**Additional Information About this Plan:**
**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**Graduation Requirements:** The B.S. in general science is offered with a concentration in medical laboratory science for students planning to apply to UNMC’s Medical Laboratory Science Program (MLS). This program was designed in collaboration with UNMC to allow a student to complete two bachelor’s degrees in as little as 122 credits. Students will apply to UNO’s General Science program and add on the medical laboratory science concentration. Following the guide below allows the student to complete UNO’s general education requirements and UNMC’s MLS prerequisites coursework in no more than three years. Near the beginning of the student’s third year of UNO studies, they will need to apply to UNMC’s MLS program. Provided that the student has followed the curriculum, for example, as laid out above, maintained a cumulative or math/science GPA of 3.0, he/she will be guaranteed an interview with UNMC’s MLS program.

Upon acceptance into UNMC’s MLS program, students will complete 11 months of studies in specific MLS courses. After completion of the MLS program at UNMC, students may transfer their UNMC coursework back to UNO to earn a dual degree of BS MLS from UNMC/ BS GSCI-MLS concentration from UNO. Students must have a minimum of 30 credits in residence at UNO and of those, 15 credits must come from the natural and physical sciences.

**Geography**

The Department offers both a Bachelor of Arts and a Bachelor of Science in Geography. We also offer concentrations in Geographic Information Systems and Travel & Tourism, and a Minor in Geography. The geography program at UNO prepares students for careers in urban and environmental...
planning, geographic information systems, cartography, remote sensing, and other areas of geographic research.

**Other Information**

All coursework taken for the Geography major or minor must be completed with a grade of "C" or better.

**Note for students double majoring in both A&S Geography and Environmental Science-Geography and Planning:**

All geography courses may count toward both majors.

**Double-counting rule for Geography majors with a Geology minor:**

Only one course at the upper level may be counted as credit for both the Geography major and Geology minor. All other upper level courses can only count in either the major or minor.

Geography may also be studied through the College of Public Affairs and Community Service in the Division of Continuing Studies. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The concentration consists of a minimum of 30 credit hours in geography, details of which are found here (https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/geography.php).

**Option for Degree Completion**

**Fast Track Program**

The Department of Geography/Geology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**

- This program is available for undergraduate students pursuing a BA/BS in Geography desiring to pursue an MS in Geography.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must have a graduate faculty member in the department of Geography/Geology provide a short letter of support for their application to Fast Track as a faculty sponsor/mentor.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 for graduate coursework is required to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- The admit term must be after the completion term of the undergraduate degree.

**Student Groups**

University of Nebraska Omaha Geography Club (https://www.unomaha.edu/college-of-arts-and-sciences/geography/student-opportunities/student-organizations.php)

**Contact**

260 DSC
402.554.2662

Website (https://www.unomaha.edu/college-of-arts-and-sciences/geography/)

**Degrees Offered**

- Geography, Bachelor of Arts (p. 171)
- Geography, Bachelor of Science (p. 173)

**Writing in the Discipline**

All students are required to take a writing in the discipline course within their major. For the geography major, students may choose from the following: ENGL 3050 or ENGL 3980.

Geography is offered as a Bachelor of Arts in geography or a Bachelor of Science in geography. Students who wish more concentrated applications in geography may choose an optional concentration of either geographic information systems or travel and tourism. The specific course requirements for these concentrations may also be used to satisfy the major requirements.

The geography major requires a minimum of 29 credit hours of geography at the 3000 level or higher. All 3000 level or higher courses taken in the Geography Fundamentals and Geography Diversity Requirements count toward this requirement.

For the B.A. degree: Foreign language is required through the intermediate level.

For the B.S. degree: In lieu of foreign language, a 15 credit hour cognate is required, consisting of 6 credit hours of approved computer science coursework and an additional 9 credit hours of coursework complementary to the major and chosen in consultation with a departmental adviser.

**Minors Offered**

- Geography Minor (p. 176)

**Writing in the Discipline**

Geographers are on the front line, tackling some of the most urgent issues facing our world, such as climate change, rapid urbanization, and the spread of infectious diseases. Want to make a difference in our world? – become a geographer!

Geography is the study of the earth as the home to humans, from the environment and landscape to the ways in which humans depend on, adapt to, and modify our world. It mixes the physical sciences (landforms, climate, biology), with the social sciences (population, land use, culture, economic development), using cutting-edge spatial technologies (geographic information systems, global positioning systems, remote sensing). We are interested not only in where things are, but why they are there, and “why should we care?” To study geography means honing both observational and analytical skills. With these skills, our graduates work in a wide range of fields, including:

- urban planning
- environmental management (for state and federal agencies)
- cartography and spatial analysis (for state and federal agencies as well as private companies)
- emergency planning
- meteorology
- education.
GEOG 1000 FUNDAMENTALS OF WORLD REGIONAL GEOGRAPHY (3 credits)
An introductory course designed to acquaint students with the basic concepts of geography and to examine the interrelationships between people and their environments.

**Distribution:** Social Science General Education course and Global Diversity General Education course

GEOG 1020 INTRODUCTION TO HUMAN GEOGRAPHY (3 credits)
An introductory course which studies the geography of human activity through a topic by topic coverage of cultural traits and complexes that characterize different societies in the world. Major cultural topics of focus are the geography of population, agricultural systems, settlement, language, religion, political patterns, and man’s ways of occupying urban and industrial space, among others.

**Distribution:** Social Science General Education course and Global Diversity General Education course

GEOG 1030 INTRODUCTION TO PHYSICAL GEOGRAPHY (4 credits)
This course is designed to acquaint the student with those processes active in shaping the surface of the earth and their relationship to one another. Includes the study of the atmosphere, river systems and hydrology, glaciers, climate, plate tectonics and landforms. Includes weekly laboratory sessions. One half-day field trip is included.

**Distribution:** Natural/Physical Sci General Education lecture&lab

GEOG 1050 HUMAN-ENVIRONMENT GEOGRAPHY (4 credits)
Learn about how sustainability and quality of life depend on human interactions with environmental phenomena such as Climate, Drought, Energy, Water, and Biodiversity. These interactions influence patterns of Urbanization, Technology, Consumption, and Agriculture that can improve or degrade quality of life and sustainability. Lecture emphasizes concepts for understanding and explaining human-environment interaction. Labs focus on fundamentals of physical earth science and how these offer possibilities for sustainable development.

**Distribution:** Natural/Physical Sci General Education lecture&lab

GEOG 1090 INTRODUCTION TO GEOSPATIAL SCIENCES (4 credits)
An introductory lecture/lab that has students learn and apply the principles of geospatial science within the frameworks of Geographic Information Science (GISC), Remote Sensing, Aerial Photography, Photogrammetry, Global Positioning Systems and Cartography/Visualization. The course focuses on the underlying scientific basis that is shared across all of these frameworks. Students will produce both maps and spatial analysis by the end of the course using all of the above frameworks.

**Prerequisite(s)/Corequisite(s):** Not open to non-degree graduate students

**Distribution:** Natural/Physical Sci General Education lecture&lab

GEOG 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLOGY (1 credit)
This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Various classes will be offered as sections of GEOG 2500/GEOL 2500, but will be separate from one another. Students may repeat GEOG 2500/GEOL 2500 as often as they like as long as no specific subject is duplicated.

**Prerequisite(s)/Corequisite(s):** Variable.

GEOG 2620 AERIAL PHOTOGRAPHIC INTERPRETATION (3 credits)
A practical application of various types of air photographs to the interpretation and analysis of both physical and cultural landscapes. Provides a fundamental tool for those interested in geography, geology, ecology and the environment. Recommended: Three hours in geography or geology.

GEOG 3000 TRAVEL STUDY IN GEOGRAPHY (3 credits)
The course examines the development of travel as a human endeavor and the process of planning a trip to a foreign country. A major objective of the course is the use and evaluation of Internet travel resources. This is accomplished by searching for relevant sources and assembling this material for presentation to others through the Internet.

**Prerequisite(s)/Corequisite(s):** An introductory course in geography is highly recommended along with a basic knowledge of online tools available through the Internet.

GEOG 3020 GEOGRAPHY OF AFRICA (3 credits)
A comprehensive and systematic survey of the environments, natural resources, populations, their cultures, and histories of the geographic regions of Africa and their development.

**Prerequisite(s)/Corequisite(s):** Junior

GEOG 3050 GEOGRAPHY IN FILM (3 credits)
Our views of the world are largely shaped by images that we see through popular media. This course examines contemporary films from around the world and how they depict places, the environment, and the lives of people. Critical and constructive examination of film will enable students to understand how images produce powerful ideological messages and how they shape the representation of entire cultures and people.

**Prerequisite(s)/Corequisite(s):** Junior standing. Introductory courses in regional, human, physical geography are highly recommended.

GEOG 3070 GEOGRAPHY OF LATIN AMERICA (3 credits)
This course surveys the physical and human environments of Latin America. Emphasis is placed upon the persistence of cultural factors in the use of land and on the difficulty in developing the various areas of Latin America.

**Prerequisite(s)/Corequisite(s):** Junior

GEOG 3080 EAST & SOUTHEAST ASIA (3 credits)
An introduction to the physical and human landscape of East, and Southeast Asia, encompassing countries from Japan to Myanmar. Emphasis is placed upon the sequence of occupancy of the land, agrarian traditional economies and contemporary development. Dominated by China, the region represents a major area for economic development.

**Prerequisite(s)/Corequisite(s):** Junior

GEOG 3130 ECONOMIC GEOGRAPHY (3 credits)
A comprehensive study of production, consumption and exchange in primary, secondary and tertiary economic activities as related to spatial factors. (Cross-listed with ECON 3130)

**Prerequisite(s)/Corequisite(s):** MATH 1310 or MATH 1220, ECON 2200, and ECON 2220, each with a “C” (2.0) or better.

GEOG 3220 GEOGRAPHY OF EUROPE (3 credits)
This course is a comprehensive examination of contemporary Europe from a geographical perspective. The course covers physical, cultural, political, urban, population and economic geography of Europe as well as the recent political and economic transformations in both Western and Eastern Europe.

**Prerequisite(s)/Corequisite(s):** GEOG 1000, GEOG 1020, GEOG 1030 or GEOG 1050, and junior.

GEOG 3240 GEOGRAPHY OF RUSSIA AND ITS NEIGHBORS (3 credits)
A comprehensive examination of Russia and the former Soviet republics from a geographical perspective. The course is organized topically to cover physical, historical, political, urban, population, economic and environmental geography. Special attention is given to geographical and environmental effects of the collapse of the former Soviet Union and the post-Communist transformation.

**Prerequisite(s)/Corequisite(s):** GEOG 1000 or GEOG 1020 or GEOG 3130 and junior, or permission of instructor
GEOG 3330 UNITED STATES & CANADA (3 credits)
GEOG 3330: UNITED STATES & CANADA involves the analysis of the natural environment, historical development, economic systems, cultural patterns, and political structures of the Canada geographic region. The course provides a regional geographic perspective on these two countries by examining the expression of culture on the landscape. The course is designed for students wishing to gain regional geographical knowledge, while expanding their understanding of the interconnections among people and place within the United States and Canada.
Prerequisite(s)/Corequisite(s): Junior

GEOG 3440 NEBRASKA NATURAL RESOURCEN AMAGMENT (3 credits)
Method and actual application of managing natural resources in Nebraska, with emphasis on individual stewardship. The course will focus on the most current political, physical and economic developments in resources management.
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

GEOG 3510 METEOROLOGY (3 credits)
A course designed to acquaint the student with the atmospheric environment. The course deals with atmospheric processes, their relationship and variation in both time and space, and their effect on the overall environment of the earth.
Distribution: Natural/Physical Sci General Education lecture

GEOG 3514 INTRODUCTION TO METEOROLOGY LABORATORY (1 credit)
This lab is designed to give students practice with atmospheric processes using scientific principles techniques, procedures and data associated with meteorology. Offered on-line only.
Prerequisite(s)/Corequisite(s): Concurrent or previous enrollment in GEOG 3510
Distribution: Natural/Physical Sci General Education lab course

GEOG 3530 CARTOGRAPHY AND DATA VISUALIZATION (4 credits)
An introduction to the concepts and techniques of map construction and visual data communication. Topics include map scale, map projections, thematic cartography, history of cartography, computer mapping, and global positioning systems. Particular attention is given to designing both paper and Internet distributed maps. This course is offered in both the Fall and Spring semesters. (Cross-listed with GEOG 8535).
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020 and GEOG 1030 or GEOG 1050, a statistics course, and a programming course.

GEOG 3540 CARTOGRAPHY & GIS LAB (2 credits)
An introduction to the methods and techniques of map construction using both graphic design and geographic information system software. Topics include map design for both general reference and thematic classification, and symbolization of various types of spatial data. This course is the lab component of GEOG 3530.
Prerequisite(s)/Corequisite(s): Concurrent registration in GEOG 3530.

GEOG 3560 POLITICAL GEOGRAPHY (3 credits)
An introduction to the basic concepts and approaches in contemporary political geography at the global, national and local scales. Core topics to be examined include geopolitics, imperialism, war and peace, global geopolitics, states, nationalism and electoral geography.
Prerequisite(s)/Corequisite(s): Junior

GEOG 4010 CONSERVATION OF NATURAL RESOURCES (3 credits)
This course provides a diverse overview of the principles and contemporary issues related to ecology and management of wildlife, fisheries, forests, soil, rangeland, minerals, and water. It includes the philosophical, economic and social aspects of resource management. Current local, regional, and global issues are examined. (Cross-listed with GEOG 8016).
Prerequisite(s)/Corequisite(s): Three hours of geography.

GEOG 4020 SPATIAL ANALYSIS IN GEOGRAPHY (3 credits)
An introduction to spatial analysis with a focus on spatial statistics. Emphasis will be placed on the nature of geographic data, spatial data handling, modeling logic, sampling theory, and design. Both descriptive and spatial statistics methods are covered. Students will receive hands-on experience working with statistical data sets, software, and scientific visualization of research results. (Cross-listed with GEOG 8026).
Prerequisite(s)/Corequisite(s): STAT 1530 or equivalent

GEOG 4030 COMPUTER MAPPING AND VISUALIZATION (3 credits)
Computer techniques in the mapping and visualization of spatial data. Various forms of spatial data manipulation and computer graphic output techniques are examined. Particular attention is given to the creation of maps for the Internet and the incorporation of interaction and animation in their display. (Cross-listed with GEOG 8036).
Prerequisite(s)/Corequisite(s): GEOG 1090 or permission of instructor. Background in programming, particularly JavaScript, highly recommended.

GEOG 4040 GEOARCHAEOLOGY (3 credits)
An introduction to geoarchaeology: the application of methods and techniques of geography, geology and other earth sciences to solve archaeological problems and reconstruct past environments. (Cross-listed with GEOG 8046, GEOL 4040).
Prerequisite(s)/Corequisite(s): Major in geology or geography; or major in anthropology, philosophy or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEOL 1010; or permission

GEOG 4050 GEOGRAPHIC INFORMATION SYSTEMS I (4 credits)
An introduction to the concepts and principles of geographic information systems (GIS). Emphasis will be placed on geographic data inputs, manipulation, analysis, and output functions. Exercises introduce students to GIS software and applications. Usually offered Fall, Spring, Summer. (Cross-listed with GEOG 8056).
Prerequisite(s)/Corequisite(s): GEOG 3530 and GEOG 3540 or 6 credit hours of GEOG course.

GEOG 4100 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with BIOI 4100, GEOL 4100, BIOI 8106, GEOG 8106, GEOL 8106).
Prerequisite(s)/Corequisite(s): BIOI 1450 and BIOI 1750 or GEOL 3100 or BIOI 3100, junior-senior.

GEOG 4120 URBAN GEOGRAPHY (3 credits)
This course is designed to serve as an introduction to the complex and dynamic urban system, including the physical, economic, political, cultural, social, and environmental forces that shape the form and function of cities, as well as how individuals and groups experience urban life. We make ample use of geographic information systems (GIS) to analyze cities and better understand crucial urban concepts such as urban growth and development, patterns of urban form, segregation and neighborhood change, economic specialization and agglomeration, urban sprawl, and environmental justice. (Cross-listed with GEOG 8126).

GEOG 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with WGST 4150, ENTR 4150, ENTR 8156, GEOG 8156 and WGST 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.
GEOG 4160 URBAN SUSTAINABILITY (3 credits)
Using sustainability as a conceptual framework, students in this course will investigate a variety of social, economic, and environmental challenges facing cities of the 21st century. Topics and issues explored include urban growth and expansion, livability, equity & gentrification, energy use & production, urban farming, poverty, automobile & transportation, water security, urban pollution, and the role of cities in climate change. (Cross-listed with GEOG 8166)
Prerequisite(s)/Corequisite(s): Junior

GEOG 4170 ADVANCED CULTURAL GEOGRAPHY (3 credits)
This course examines current theoretical debate and research practice in a select topic in Cultural Geography. Emphasis will be on readings and discussion with students engaging in original research. Specific thematic focus will vary from year to year. This course may be taken multiple times as long as topics differ. (Cross-listed with GEOG 8176).
Prerequisite(s)/Corequisite(s): GEOG 1000 or GEOG 1020, junior standing, or permission of the instructor.

GEOG 4230 GREAT PLAINS & NEBRASKA (3 credits)
This course is a comprehensive examination of the Great Plains region from a geographical perspective. It considers both the physical and human geography of the Plains, with particular attention to our home, Nebraska. Topics to be covered include: the Plains' unique ecosystems, its early human inhabitants, its later settlers, its evolving land-use patterns, and current issues. (Cross-listed with GEOG 8236).

GEOG 4260 PROCESS GEOMORPHOLOGY (4 credits)
A lecture and laboratory course focused on understanding Earth surface processes and the evolution of landforms across spatial and temporal scales. The course emphasizes applying unifying concepts in geomorphology, quantitative methodology and modern process-oriented geomorphology to interpret landscape evolution. (Cross-listed with GEOG 8266, GEOL 4260).
Prerequisite(s)/Corequisite(s): One of the following: GEOL 1010, GEOL 1170, GEOG 1030, GEOG 1050 or instructor permission.

GEOG 4320 CLIMATOLOGY (3 credits)
A study of climatic processes and their effect on shaping the physical landscape. Emphasis on physical and applied aspects of the field. (Cross-listed with GEOG 8326).
Prerequisite(s)/Corequisite(s): GEOG 1030, GEOG 1050, GEOG 3510, or permission of instructor.

GEOG 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOL 4330, GEOG 8336).
Prerequisite(s)/Corequisite(s): One of the following: GEOG 1030, GEOG 1050, GEOG 1010, GEOL 1170 or instructor permission.

GEOG 4340 WATER RESOURCES (3 credits)
This course explores the applied principles of hydrology, water systems modeling, river basin development, and water management issues and practices in the United States and other parts of the world. Two local Saturday field trips will be required. (Cross-listed with GEOG 8346).
Prerequisite(s)/Corequisite(s): GEOG 1060 and Junior standing

GEOG 4350 GLOBAL CLIMATE CHANGE (3 credits)
The primary objective of this course is for students to form a scientific, evidence-based, stance on current and future changes to the Earth's climate. To this end, this course will be based on scientific inquiry into the current state of knowledge. Particular emphases are placed on evidence and causes of change, and the associated environmental and social impacts, including: water resources, extreme weather, human health, and others of interest to the class. (Cross-listed with GEOG 8356, ENVN 8356, ENVN 4350).
Prerequisite(s)/Corequisite(s): At least one of the following: GEOG 1030, GEOG 1050, GEOG 3510, GEOG 4320, or permission from instructor

GEOG 4530 HISTORICAL GEOGRAPHY OF THE UNITED STATES (3 credits)
This course examines the geography, physical and human, real, perceived, or theoretical, of the United States' historical development. It considers the ways history has and has not been affected by geography. It will also cover the field of historical geography, its theories and practices. (Cross-listed with GEOG 8536).
Prerequisite(s)/Corequisite(s): Junior and HIST 1110 and HIST 1120 or GEOG 1020 or GEOG 3330

GEOG 4550 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)
A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 8556, CACT 8116).
Prerequisite(s)/Corequisite(s): An introductory level human geography course: GEOG 1020 or GEOG 1000

GEOG 4600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional, and/or primary materials on a topic. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOL 4600).
Prerequisite(s)/Corequisite(s): Permission of department chair.

GEOG 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOL 4610, GEOG 8616, GEOG 8616)
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOG 4620 GEOGRAPHICAL FIELD STUDIES (3 credits)
Field experience course based on variable topics and themes. Students must attend the multiple day field trip that will require overnight stays. (Cross-listed with GEOG 8626).
Prerequisite(s)/Corequisite(s): Instructor Permission. Not open to non-degree graduate students.
GEOG 4630 ENVIRONMENTAL REMOTE SENSING (4 credits)
An introduction to remote sensing science and technology. Emphasis will be placed on multispectral data, matter/energy interactions, sensor system characteristics, photogrammetry, image interpretation, digital image processing, and environmental applications. Formal laboratory instruction will provide students with problem-solving skills and hands-on experience with remote sensing and GIS software. (Cross-listed with GEOG 8636).
**Prerequisite(s)/Corequisite(s):** GEOG 1060 or GEOG 1070 or GEOL 1170. Introductory statistics highly recommended.

GEOG 4640 CRITICAL ZONE SCIENCE (4 credits)
This course examines the Critical Zone (CZ), Earth’s permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZOIs) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 8646, GEO 4640)
**Prerequisite(s)/Corequisite(s):** One of the following: GEOL 1170, GEOG 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOG 4660 GEOGRAPHIC INFORMATION SYSTEMS II (4 credits)
An introduction to advanced geographic information systems (GIS) topics. Emphasis will be placed on algorithms and analysis for information extraction. Topics include spatial interpolation, remote sensing GIS integration, software development, spatial analysis, GIS modeling, and future advances in GIS. Formal laboratory instruction will provide students with GIS experience to solve application problems. Usually offered in Fall. (Cross-listed with GEOG 8666).
**Prerequisite(s)/Corequisite(s):** GEOG 4050 / GEOG 8056

GEOG 4800 INTERNSHIP IN ENVIRONMENTAL REGIONAL PLANNING EARTH SCIENCE (1-6 credits)
Internships with local agencies or corporations enable students to gain knowledge and experience and apply their learning in comprehensive regional or environmental planning or environmental science.
**Prerequisite(s)/Corequisite(s):** Senior, major or area of concentration in geography or environmental science and permission

GEOG 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)
An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, ENVN 4820, BIOL 4820, GEOG 8826, PA 8826).
**Prerequisite(s)/Corequisite(s):** Junior-senior or permission of the instructor.

Geography Diversity Requirements

Select a minimum of one course from each of the groups of Geography Diversity courses (see below).

Cognate Requirement

Select 6 credit hours of approved computer science coursework.

Select 9 credit hours of coursework complementary to the major and chosen in consultation with a departmental adviser.

Total Credits 54-55

Optional method of completing GEOG 4620.

Geographical Field Studies Requirement

Students who have completed study abroad, or military service for more than six months outside the USA can complete the course without going on the multiple day field trip. Contact the department for the details regarding this alternative method. GEOG 4620 can also apply to the upper level Global or North American category, depending on the field study destination.

Elective

**Credits**: 12-13

**Notes**

- MATH 1320: Requires MATH 1220 with grade of C- or better within last 2 years or appropriate placement. Other options may exist for the computer science requirement. Please see catalog for options.
- CIST 1400: Requires either CSCI 1200 or CSCI 1280 or CSCI 1300 with C- or better. More options may exist for the computer science requirement. Please see a major advisor.
- **Social Science must not be Geography**
- **HFA must come from 2nd discipline**

**Total Credits**: 15

**Total Credits**: 15

**Total Credits**: 15

**Total Credits**: 15

**Total Credits**: 15

**Total Credits**: 15
• CAS College Requirement Option. HFA must come from 3rd discipline.

• ENGL 3050 or 3980: Requires ENGL 1160 with grade of C- or better or placement via AP or EPPE.

** Students need a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach those specific minimums.

Total Credits 120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Geography Minor

Requirements

A minor in geography requires a minimum of 16 credit hours. Required coursework includes:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 1000</td>
<td>FUNDAMENTALS OF WORLD REGIONAL GEOGRAPHY</td>
<td>3</td>
</tr>
<tr>
<td>or GEOG 1020</td>
<td>INTRODUCTION TO HUMAN GEOGRAPHY</td>
<td></td>
</tr>
</tbody>
</table>

Choose one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 1030</td>
<td>INTRODUCTION TO PHYSICAL GEOGRAPHY</td>
<td>4</td>

<td>GEOG 1050</td>
<td>HUMAN-ENVIRONMENT GEOGRAPHY</td>
<td></td>
</tr>
<tr>
<td>GEOG 1090</td>
<td>INTRODUCTION TO GEOSPATIAL SCIENCES</td>
<td></td>
</tr>
</tbody>
</table>

Select a minimum of 9 credit hours of geography coursework at the 3000 level or higher.

<table>
<thead>
<tr>
<th>Credits</th>
<th>16</th>
</tr>
</thead>
</table>

Geology

The Geology Program in the Department of Geography/Geology at UNO is dedicated to educating students in the Geological Sciences. This program not only prepares students for a variety of geoscience careers, but also provides a broad education in the Arts & Sciences, which prepares students for careers in other fields and areas.

Other Information

All coursework taken for a Geology major or minor must be completed with a grade of "C-" or better.

Student Groups

Contact

260 DSC
402.554.2662

Website (http://www.unomaha.edu/college-of-arts-and-sciences/geology/)

Degrees Offered

• Geology, Bachelor of Arts (p. 179)
• Geology, Bachelor of Science (p. 183)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the geology major, this is GEOL 4950 or other approved course.

Minors Offered

• Geology Minor (p. 187)

Graduates from UNO’s Geology Program will be well-prepared to enter the workforce and pursue a career in the geosciences field. This could include working in the environmental geology and environmental engineering field, exploration for energy and mineral resources, in the policy and education areas, as well as being prepared to continue on to graduate school. Because our graduates are educated in the broad sciences as well as
Geology, they are also uniquely qualified for careers outside of traditional fields (for example, environmental law, administrative positions in science related organizations, K-12 education, etc.).

- Environmental Consulting + Engineering Firms
- Groundwater Management
- Petroleum Exploration
- Geology/Earth Science Education
- Mineral Exploration
- Natural Resource Management
- Museums/Curation of Fossils
- National Park Education or Research

**GEOL 1010 ENVIRONMENTAL GEOLOGY (3 credits)**

This is an introductory course for non-majors designed to make students aware of their physical environment and those factors that should influence where we site our home and communities. Topics will include hazards associated with volcanoes, earthquakes, landslides, floodplains and the problems associated with toxic waste disposal.

**Distribution:** Natural/Physical Science General Education course

**GEOL 1100 EARTH SYSTEM SCIENCE (3 credits)**

This course is an introduction to system science as applied to the earth. Students learn about simple earth system models, focusing on the hydrologic, rock and carbon cycles and energy flow through and linkages among them. Students also learn how short and long term global changes result from system interactions.

**Distribution:** Natural/Physical Science General Education lecture

**GEOL 1104 EARTH SYSTEM SCIENCE LAB (1 credit)**

This laboratory course is an optional companion to GEOL 1100, Earth System Science, but can be taken alone. Computer and web based exercises lead students through scientific investigation of Earth components, processes and systems. Topics include: scientific visualization and methodology, energy flow in the earth environment, convection in fluids, population dynamics, plate tectonics, river systems, coastal systems, biodiversity and Earth system history.

**Distribution:** Natural/Physical Science General Education lab course

**GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY (4 credits)**

Fundamentals of geology. The study of the internal geologic processes and external and erosional and depositional processes which create the subsurface and surface features of the earth. Fundamentals of contour mapping, topographic map interpretation and identification of common minerals and rocks will be covered in a required laboratory period. One field trip required.

**Distribution:** Natural/Physical Science General Education lecture&lab

**GEOL 1180 INTRODUCTION TO HISTORICAL GEOLOGY (4 credits)**

Basic fundamentals for interpretation of earth history. Deduction of history of earth-moon system through interpretation of geologic phenomena using principles of stratigraphy, sedimentation, structure and fossil content. Global tectonics, encompassing theories of sea-floor spreading and continental drift are presented. Fundamentals and interpretation of geologic environments and geologic maps, coupled with identification of fossils will be covered in a required laboratory period. One Saturday field trip required.

**Prerequisite(s)/Corequisite(s):** GEOL 1170 or GEOL 1070 or permission of Geography-Geology Department.

**GEOL 2014 ENVIRONMENTAL GEOLOGY LAB (1 credit)**

Basic topics such as geohydrology, water quality, waste management (including landfill siting and design), flood frequency, slope stability and earthquake hazards are covered via labs and field trips at a detailed introductory level. Local sites and associated data are used where possible to illustrate fundamental principles and commonly used analytic techniques.

**Prerequisite(s)/Corequisite(s):** GEOL 1010 or GEOG 1170 or GEOG 1030 or permission of instructor.

**GEOL 2100 GEOLOGY OF NEBRASKA (3 credits)**

An introduction to the geologic features of Nebraska, and how the evidence they provide can be used to scientifically interpret the ancient history of the region. A review of the geologic history of Nebraska as it is currently understood will place the events documented in the larger context of Earth history.

**Distribution:** Natural/Physical Science General Education course

**GEOL 2300 GEOSCIENCE DATA ANALYSIS AND MODELING (3 credits)**

Introduction to foundation geoscience analysis and modeling techniques and conceptual frameworks. Topics covered include: describing and comparing populations, geologic map construction, fractals, surface contouring and modeling, non-linear behavior, GIS, graphic representation, photogrammetry, and computer modeling. Examples and exercises work with actual geoscience data. Students also gain experience with data retrieval from geoscience databases.

**Prerequisite(s)/Corequisite(s):** GEOL 1010 or GEOL 1170, or GEOG 1030 or GEOG 1060 or GEOG 1070, or permission of instructor.

**GEOL 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLGY (1 credit)**

This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Various classes will be offered as sections of GEOL 2500, but will be separate from one another. Students may repeat GEOL 2500 as often as they like as long as no specific subject is duplicated.

**Distribution:** Natural/Physical Science General Education course

**GEOL 2600 GEOHYDROLOGY (3 credits)**

A course dealing with geology, chemistry and hydraulics of groundwater. Designed mainly for Geology majors but can be helpful to other disciplines where groundwater is involved.

**Prerequisite(s)/Corequisite(s):** GEOL 1170, MATH 1320 or higher, or permission of instructor

**GEOL 2750 MINERALOGY (3 credits)**

Introduction to crystallography and mineralogy. Crystallography section is a study of crystal structure, symmetry and crystal systems. Mineralogy section is devoted to the description, identification and classification of minerals based on their crystal forms, physical properties, chemical composition and occurrence in nature. Must be taken concurrently with GEOL 2754.

**Prerequisite(s)/Corequisite(s):** GEOL 1170. Must be taken concurrently with GEOL 2754.

**GEOL 2754 MINERALOGY LABORATORY (1 credit)**

A systematic investigation of minerals and the techniques of studying minerals to be taken concurrently with GEOL 2750. (Fall)

**Prerequisite(s)/Corequisite(s):** Concurrent enrollment in GEOL 2750

**GEOL 2760 IGNEOUS AND METAMORPHIC PETROLOGY (3 credits)**

A study of the nature, origin, and significance of igneous and metamorphic rocks. Topics include genesis and crystallization of magmas, phase equilibria of mineral assemblages, and pressure and temperature conditions of metamorphism. One weekend field trip will be required. Must be taken concurrently with GEOL 2764.

**Prerequisite(s)/Corequisite(s):** GEOL 2750. Must be taken concurrently with GEOL 2764.

**GEOL 2764 IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY (1 credit)**

Petrology Laboratory is an introduction to the methods of petrology with emphasis on hand specimen identification and use of the petrographic microscope. Must be taken concurrently with GEOL 2760. (Spring)

**Prerequisite(s)/Corequisite(s):** Concurrent enrollment in GEOL 2760

**GEOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)**

An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with GEOL 3104/BIOL 3104. (Cross-listed with BIOL 3100)

**Prerequisite(s)/Corequisite(s):** GEOL 1180. Must be taken concurrently with GEOL 3104/BIOL 3104.
GEOL 3104 INVERTEBRATE PALEONTOLOGY LABORATORY (1 credit)
An examination of representative specimens of groups of organisms important in the fossil record and an introduction to analytical techniques in paleontology. Must be taken concurrently with GEOL 3100.
Prerequisite(s)/Corequisite(s): GEOL 1180 or permission; Concurrent enrollment in GEOL 3100

GEOL 3300 STRUCTURAL GEOLOGY (3 credits)
A study of the deformation of rocks in the earth's crust. Recognition of structural features such as types of fractures, folds, faults and foliations. Analysis of stress and strain in rocks under physical conditions occurring in the earth's crust that form structural features. Knowledge of structural associations for crustal shortening, extension and other kinematic regimes.
Prerequisite(s)/Corequisite(s): GEOL 2750

GEOL 3310 STRUCTURAL GEOLOGY FIELD METHODS (1 credit)
A lab course to accompany GEOL 3300. Field trip is included. Emphasis will be on collection, interpretation and presentation of field and lab data. Must be taken concurrently with GEOL 3300.
Prerequisite(s)/Corequisite(s): GEOL 2750, concurrent enrollment in GEOL 3300.

GEOL 3400 INTRODUCTION TO SEDIMENTARY GEOLOGY (3 credits)
An introduction to the basic principles and concepts of sedimentology and stratigraphy. It will include a review of sedimentary processes and depositional environments and principles and techniques of stratigraphy, such as biostratigraphy and radiometric dating.
Prerequisite(s)/Corequisite(s): GEOL 2750 and GEOL 2754

GEOL 3700 PLATE TECTONICS (3 credits)
An introduction to and analysis of the paradigm that has revolutionized the Earth Sciences, the theory of plate tectonics; includes polar wandering and magnetic reversals, structure and life cycle of the oceanic crust, origin of major topographic and structural features of the earth, arc volcanism, continental collisions, mineral deposits, supercontinent cycles and mantle convection.
Prerequisite(s)/Corequisite(s): GEOL 1170, GEOL 1180 and upper division standing.

GEOL 4040 GEOARCHAEOLOGY (3 credits)
An introduction to geoarchaeology: the application of methods and techniques of geography, geology and other earth sciences to solve archaeological problems and reconstruct past environments. (Cross-listed with GEOG 4040, GEOG 8046).
Prerequisite(s)/Corequisite(s): Major in geology or geography; or major in anthropology, philosophy, or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEO 1010; or permission.

GEOL 4100 BIOGEOGRAPHY (3 credits)
This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with GEOL 8106, BIOL 4100, BIOL 8106, GEOG 4100, GEOG 8106).
Prerequisite(s)/Corequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior.

GEOL 4260 PROCESS GEOMORPHOLOGY (4 credits)
A lecture and laboratory course focused on understanding Earth surface processes and the evolution of landforms across spatial and temporal scales. The course emphasizes applying unifying concepts in geomorphology, quantitative methodology and modern process-oriented geomorphology to interpret landscape evolution. (Cross-listed with GEOG 8260, GEOG 4260).
Prerequisite(s)/Corequisite(s): One of the following: GEOL 1010, GEOL 1170, GEOG 1030, GEOG 1050 or instructor permission.

GEOL 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)
This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOG 8336)
Prerequisite(s)/Corequisite(s): One of the following: GEOG 1030, GEOG 1050, GEOG 1010, GEOG 1170 or instructor permission.

GEOL 4400 GEOPHYSICS (3 credits)
A study of geophysical techniques used to understand the earth, study environmental problems, and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock rheology and plate tectonics will also be addressed. Interpretive skills will be emphasized.
Prerequisite(s)/Corequisite(s): GEOL 1170, PHYS 1110 or higher, or permission of instructor

GEOL 4540 GEOCHEMISTRY (3 credits)
This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of soils, igneous, metamorphic and sedimentary rocks and ore deposits. (Every third semester).
Prerequisite(s)/Corequisite(s): GEOL 1170, CHEM 1140 or CHEM 1180, and either GEOL 2750 or CHEM 2500, or permission of Instructor

GEOL 4600 INDEPENDENT RESEARCH (1-3 credits)
Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional, and/or primary materials on a topic. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOG 4600).
Prerequisite(s)/Corequisite(s): Permission of department chair.

GEOL 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)
An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOG 8616, GEOG 8616).
Prerequisite(s)/Corequisite(s): Permission of instructor.

GEOL 4620 ADVANCED FIELD COURSE (6 credits)
Six weeks of advanced study on selected field problems. Conducted in a geologically classic area where all the major rock types and structures may be studied in a variety of geological situations. Reports, which integrate the geology, surface processes and literature of the studied areas, is required. Recommended to follow the junior year.
Prerequisite(s)/Corequisite(s): GEOL 1170, GEOL 1180, GEOL 2750, GEOL 2760, GEOL 3300: GEOL 3450 recommended.
GEOL 4640 CRITICAL ZONE SCIENCE (4 credits)
This course examines the Critical Zone (CZ), Earth’s permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZO) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOL 4640, GEOG 8646)
Prerequisite(s)/Corequisite(s): One of the following: GEOL 1170, GEOL 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/Earth Science (1-6 credits)
Internship with local agencies or corporations enabling students to gain knowledge and experience in comprehensive regional or environmental planning or environmental science.
Prerequisite(s)/Corequisite(s): Senior, major or area of concentration in geography or environmental science and permission.

GEOL 4950 SENIOR THESIS (3 credits)
An independent research project undertaken by all geology majors during their final year. Topics will be selected in consultation with appropriate faculty and researched through field work, laboratory work and/or library sources.
Prerequisite(s)/Corequisite(s): Senior, ENGL 1150/ENGL 1154 and ENGL 1160/ENGL 1164
Distribution: Writing in the Discipline Single Course

Geology, Bachelor of Arts

To obtain a B.A. with a major in Geology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses - (Most commonly, Geology majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least six hours of fundamental academic skills, take courses that meet both the three hours of U.S. Diversity requirements and three hours of social sciences requirements, meet five hours of humanities and 3 hours of global diversity requirements with a language course, and meet the seven-hour natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 22 or fewer.)
- 12 hours of college breadth requirement
- 16 hours of foreign language
- 70 hours of major courses

TOTAL HOURS: 120

Requirements
Geology is offered as a Bachelor of Arts or a Bachelor of Science degree. Students may choose one of two tracks to follow: a general Geology Track and a Geology Career Track. Requirements for each are below.

The required core courses for either the B.A. or B.S. degree in geology are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 1170</td>
<td>INTRODUCTION TO PHYSICAL GEOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL 1180</td>
<td>INTRODUCTION TO HISTORICAL GEOLOGY</td>
<td>4</td>
</tr>
</tbody>
</table>

For a B.A., the college requires completion of a foreign language through the intermediate level.

General Geology Track

In addition to the core geology requirements, students wishing to follow the general geology track must also take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 4260</td>
<td>PROCESS GEOMORPHOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL/GEOL 4640</td>
<td>CRITICAL ZONE SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>GEOL/GEOL 4330</td>
<td>SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, students in the General geology track must take one of the following:

- GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/Earth Science 3
- GEOL 4950 SENIOR THESIS 3

In addition, the major must select at least 12 hours of geology or geography courses that should be chosen after consultation with an adviser.

Required cognate courses are:
- An approved statistics course 3
- CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY 4
- CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY 1
- PHYS 1110 GENERAL PHYSICS I WITH ALGEBRA 4
- PHYS 1154 GENERAL PHYSICS LABORATORY I 1

Select one of the following options:

Option 1:
- PHYS 1120 GENERAL PHYSICS 4
- PHYS 1164 GENERAL PHYSICS LABORATORY II 1

Option 2:
- GEOL 4400 GEOPHYSICS 3

Geology Career Track

In addition to the core geology requirements, students wishing to follow the Geology career track must also take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 2300</td>
<td>GEOSCIENCE DATA ANALYSIS AND MODELING 3</td>
<td></td>
</tr>
<tr>
<td>GEOL 2750</td>
<td>MINERALOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 2754</td>
<td>MINERALOGY LABORATORY</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 3300</td>
<td>STRUCTURAL GEOLOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 3310</td>
<td>STRUCTURAL GEOLOGY FIELD METHODS</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 3400</td>
<td>INTRODUCTION TO SEDIMENTARY GEOLOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 4620</td>
<td>ADVANCED FIELD COURSE</td>
<td>6</td>
</tr>
</tbody>
</table>

Students must choose one of the tracks below.

Additionally, students in the Geology career track must take one of the following:

- GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/Earth Science 3
- GEOL 4950 SENIOR THESIS 3
Students must also take additional Geology/Geography/related-field courses, which add up to at least 12 credits, and should be chosen after consultation with an advisor.

Required cognate courses:

**Chemistry**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1180</td>
<td>GENERAL CHEMISTRY I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 1184</td>
<td>GENERAL CHEMISTRY I LABORATORY</td>
<td>1</td>
</tr>
</tbody>
</table>

Select one of the following options:

**Option 1:**
- CHEM 1190  GENERAL CHEMISTRY II 3
- CHEM 1194  GENERAL CHEMISTRY II LABORATORY 1

**Option 2:**
- GEOL 4540  GEOCHEMISTRY 3

**Math**

Select one of the following options:

**Option 1:**
- MATH 1950  CALCULUS I 5
- MATH 1960  CALCULUS II 5

**Option 2:**
- MATH 1930  CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES 3

**Physics**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 2110</td>
<td>GENERAL PHYSICS I - CALCULUS LEVEL</td>
<td>4</td>
</tr>
<tr>
<td>PHYS 1154</td>
<td>GENERAL PHYSICS LABORATORY I</td>
<td>1</td>
</tr>
</tbody>
</table>

Select one of the following options:

**Option 1:**
- PHYS 2120  GENERAL PHYSICS-CALCULUS LEVEL 4
- PHYS 1164  GENERAL PHYSICS LABORATORY II 1

**Option 2:**
- GEOL 4400  GEOPHYSICS 3

**Career Geology Track**

**Spring**

- GEOL 4260 | PROCESS GEOMORPHOLOGY (*) | 4
GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE 3
or GEOL 4950 INTERNATIONAL/REGIONAL PLANNING/EARTH SCIENCE (*) or SENIOR THESIS
ENGL 3980 TECHNICAL WRITING ACROSS THE DISCIPLINES (3
• OR Upper Level Elective (**) Approved GEOL elective 3

• GEOL 4260: Requires GEOL 1170; GEOL 1180; GEOL 2750; GEOL 2760; GEOL 3300

• GEOL 4800: Requires Senior status, major or area of concentration in geography or environmental science AND permission.

• GEOL 4950: Requires Senior status.

Note: If students take GEOL 4950, the Writing in the Discipline requirement will be fulfilled. If students select GEOL 4800, they must take a separate WID course, such as ENGL 3980. ENGL 3980 or other approved WID courses require ENGL 1160.

• ENGL 3980: Requires ENGL 1160 with grade of C- or better or appropriate placement via EPPE or AP.

**120 total credits are required for a degree, with a minimum of 18 upper level (3000-4000) credits in the major and 27 upper level credits throughout the degree. Selecting 3000-4000 level electives can help you reach these minimums.

Credits 13
Total Credits 122-125

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study.

Geology, Bachelor of Science

To obtain a B.S. with a major in Geology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

• 46 hours of University General Education courses - (Most commonly, Geology majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements.

Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet the seven-hour natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

• 12 hours of college breadth requirement
• 74 hours of major courses
• Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

Geology is offered as a Bachelor of Arts or a Bachelor of Science degree. Students may choose one of two tracks to follow: a general geology track and a geology career track. Requirements for each are below.

The required core courses for either the B.A. or B.S. degree in geology are:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 1170</td>
<td>INTRODUCTION TO PHYSICAL GEOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL 1180</td>
<td>INTRODUCTION TO HISTORICAL GEOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL 2300</td>
<td>GEOSCIENCE DATA ANALYSIS AND MODELING</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 2750</td>
<td>MINERALOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 2754</td>
<td>MINERALOGY LABORATORY</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 3300</td>
<td>STRUCTURAL GEOLOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 3310</td>
<td>STRUCTURAL GEOLOGY FIELD METHODS</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 3400</td>
<td>INTRODUCTION TO SEDIMENTARY GEOLOGY</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 4620</td>
<td>ADVANCED FIELD COURSE</td>
<td>6</td>
</tr>
</tbody>
</table>

Students must choose one of the tracks below.

General Geology Track

In addition to the core geology requirements, students wishing to follow the general geology track must also take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 4260</td>
<td>PROCESS GEOMORPHOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL/GEOG 4640</td>
<td>CRITICAL ZONE SCIENCE</td>
<td>4</td>
</tr>
<tr>
<td>GEOL/GEOG 4330</td>
<td>SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

In addition, students in the General geology track must take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 4800</td>
<td>INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 4950</td>
<td>SENIOR THESIS</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, the major must select at least twelve hours of geology or geography courses that should be chosen after consultation with an advisor.

Required cognate courses are:

• An approved statistics course 3
• CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY 4
• CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY 1
• PHYS 1110 GENERAL PHYSICS I WITH ALGEBRA 4
• PHYS 1154 GENERAL PHYSICS LABORATORY I 1

Select one of the following options:

Option 1:
PHYS 1120  GENERAL PHYSICS  4
PHYS 1164  GENERAL PHYSICS LABORATORY II  1

Option 2:
GEOL 4400  GEOPHYSICS  3

Geology Career Track

In addition to the core geology requirements, students wishing to follow the geology career track must also take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 4260</td>
<td>PROCESS GEOMORPHOLOGY</td>
<td>4</td>
</tr>
<tr>
<td>GEOL/GEOG 4330</td>
<td>SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION</td>
<td>4</td>
</tr>
</tbody>
</table>

Additionally, students in the geology career track must take one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 4800</td>
<td>INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/Earth Science</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 4950</td>
<td>SENIOR THESIS</td>
<td>3</td>
</tr>
</tbody>
</table>

Students must also take additional geology/geography/related-field courses, which add up to at least twelve credits, and should be chosen after consultation with an advisor.

Required cognate courses:

Chemistry
CHEM 1180  GENERAL CHEMISTRY I  3
CHEM 1184  GENERAL CHEMISTRY I LABORATORY  1
Select one of the following options:

Option 1:
CHEM 1190  GENERAL CHEMISTRY II  3
CHEM 1194  GENERAL CHEMISTRY II LABORATORY  1

Option 2:
GEOL 4540  GEOCHEMISTRY  3

Math
Select one of the following options:

Option 1:
MATH 1950  CALCULUS I  5
MATH 1960  CALCULUS II  5

Option 2:
MATH 1930  CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES  3

Physics
PHYS 2110  GENERAL PHYSICS I - CALCULUS LEVEL  4
PHYS 1154  GENERAL PHYSICS LABORATORY I  1
Select one of the following options:

Option 1:
PHYS 2120  GENERAL PHYSICS-CALCULUS LEVEL  4
PHYS 1164  GENERAL PHYSICS LABORATORY II  1

Option 2:
GEOL 4400  GEOPHYSICS  3

Career Geology Track

Freshman
Fall
GEOL 1170  INTRODUCTION TO PHYSICAL GEOLOGY  4
MATH 1930  CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (*)  3
ENGL 1150  ENGLISH COMPOSITION I (*)  3

CMST 1110 or CMST 2120  PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE  3

Humanities and Fine Arts

- MATH 1930: Requires MATH 1320 within the last two years, or Math ACT sub-score of 25 within the last two years, or appropriate Math Placement Exam score within the last two years. (As an alternative, students may opt to take MATH 1950 and MATH 1960 with proper placement.)
- ENGL 1150: Requires appropriate placement via EPPE or AP.

Credits

Spring
GEOL 1180  INTRODUCTION TO HISTORICAL GEOLOGY (*)  4
CHEM 1180 & CHEM 1184  GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY (*)  4
ENGL 1160  ENGLISH COMPOSITION II (*)  3

Social Science

- GEOL 1180: Requires GEOL 1170
- CHEM 1180: Requires MATH 1320, or Math ACT sub-score of 25 or higher, or appropriate Math Placement Exam score within the past 2 years. Must take CHEM 1184 concurrently. CHEM 1180 & 1184 are part of the BS Cognate.
- ENGL 1160: Requires ENGL 1150 or appropriate placement via EPPE or AP.

Credits

Sophomore
Fall
GEOL 2750 & GEOL 2754  MINERALOGY and MINERALOGY LABORATORY (*)  4
GEOL 2300  GEOSCIENCE DATA ANALYSIS AND MODELING (*)  3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Geology Minor**

An additional 9 hours at or above the 3000-level courses from selected optional courses under specific faculty advisement is also required.

**Total Credits** 17

**History**

The mission of the Department of History is to develop in our students a thorough appreciation of the historical events, personalities, and patterns that have coalesced through the centuries to create the world we live in today. In addition to the all-important sense of perspective and context that an understanding of the past provides, students of history also gain important tangible skills that equip them to succeed in a wide array of careers. Specifically, our majors learn to find and critically analyze source materials, to interpret evidence in subtle and nuanced ways, and to communicate their findings effectively, both orally and in writing. Study after study reveals that these are the skills that employers in countless fields value most in their workforce.

**Other Information**

All coursework taken for a History major or minor must be completed with a grade of “C-” or better.

**Student Groups**

Eligible students are encouraged to join the National History Honorary Society, Phi Alpha Theta. Our local chapter sponsors a variety of enrichment activities throughout the year.

**Contact**

287 Arts and Sciences Hall
402.554.2593

Website (http://www.unomaha.edu/college-of-arts-and-sciences/history/)

**Degrees Offered**

- History, Bachelor of Arts (p. 191)
- History, Bachelor of Science (p. 193)

**Writing in the Discipline**

All students are required to take a writing in the discipline course within their major. For the history major, this is HIST 2980.

**Bachelor of Arts and Bachelor of Science in History**

For the Bachelor of Arts or the Bachelor of Science in history, a minimum of 36 hours in history are required. Specific requirements are below.

**B.A. degree seeking students** must take foreign language through the intermediate level.
B.S. degree seeking students, in lieu of foreign language, must complete a 15 hour “cognate field.” The cognate should consist of 12 hours at the 3000/4000 level in one or more related disciplines selected to complement the student’s interests in history. Additionally, one 3-hour course in logic or statistics or one 3-hour writing course from another department must also be taken. The specific composition of a student’s cognate field will be determined in consultation with the student’s faculty advisor.

Bachelor of Multidisciplinary Studies
Students who wish to complete a Bachelor of Multidisciplinary Studies degree with a concentration in history should consult with an advisor in the Division of Continuing Studies. This degree requires 30 credit hours in history, of which nine hours must be at the 3000/4000 level. HIST 2980 and HIST 4990 are recommended for every student who plans to pursue a graduate degree in history. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The major consists of a minimum of 30 credit hours in history, details of which are here (https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/history.php)

Minors Offered
• History Minor (p. 194)

If you seek to understand how and why the world came to be the way that it is today, then the study of History is your starting point, and the Department of History should become your academic home.

At the most fundamental level, History majors ask “How did we get to this point?” And in seeking the answers to that question, they gain deep and rich insights into both the great diversity and the binding commonalities of the human experience. Ultimately, then, the study of History helps us to define and understand the most essential elements of our own identity – who we are, where we come from, and how we are connected. Who could ask for a more important, dramatic, or rewarding academic endeavor?

• Attorney
• Analyst in a wide variety of industries such as insurance and banking
• Paralegal
• Federal, state, and local governments
• Politics
• Teaching
• Federal Bureau of Investigation
• Archivists
• Museum work

HIST 1000 WORLD CIVILIZATIONS I (3 credits)
An examination of selected traditional and pre-industrial civilizations in the context of their regional, cultural and historical roots.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 1010 WORLD CIVILIZATIONS II (3 credits)
An examination of selected societies since the beginning of the modern era.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 1050 CLASSICAL AFRICAN CIVILIZATIONS (3 credits)
Classical African Civilization is an introductory survey of the civilizations of Africa and African people prior to 1500 C.E., with emphasis on the evolution of the peoples and nations, their civilizations, and the rise and fall of indigenous states. In particular, this course will cover the classical civilizations of Kemet (Ancient Egypt), Nubia, Axum, Carthage, Ghana, Mali, and Songhay. (Cross-listed with BLST 1050).

Distribution: Global Diversity General Education course

HIST 1110 AMERICAN HISTORY TO 1865 (3 credits)
A survey of North American history from the Indigenous and pre-contact era to the end of the Civil War.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 1120 AMERICAN HISTORY SINCE 1865 (3 credits)
A general survey of American history since the Civil War, emphasizing social and political change and the emergence of the United States as a global power.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2040 AFRICAN AMERICAN HISTORY I: TO 1865 (3 credits)
The course examines the history of the earliest Africans in the Americas and briefly examines traditional African societies. It covers the transatlantic slave trade and its effects on Europe, Africa and the Americas, and analyzes the development of Afro-American culture and the struggle for freedom. (Cross-listed with BLST 2410)

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2050 AFRICAN-AMERICAN HISTORY II: EMANCIPATION TO BROWN (3 credits)
A survey of Afro-American history from the Civil War to the present. Covers Reconstruction and its overthrow, including the new methods of control which replaced slavery. Discusses the development of black ideologies and institutions. Traces urban migration and its impact on black society and culture. Follows black progress through World War II, the 1954 Supreme Court Decision, and rising militancy. (Cross-listed with BLST 2420)

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2060 AFRICAN AMERICAN HISTORY III: FROM CIVIL RIGHTS TO MODERN DAY (3 credits)
This course is divided into three main parts: the Civil Rights Phase (1954-1963), during which the dominant mood was optimism over the possibilities of integration; the Black Power Phase (1963-1974), and the Pragmatist Phase (1972-present), characterized by attempts to preserve and maintain gains already won. (Cross-listed with BLST 2430)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2190 THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with RELI 2190, SOC 2190).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 2480 HISTORY OF LATIN AMERICA: PRECONQUEST TO THE PRESENT (3 credits)
A history of the nations of Latin America from the pre-Columbian indigenous cultures to the present time. Among the topics included will be the nature of indigenous cultures, the various European incursions, regional revolutions against European empires, nation-building, and the place of Latin America in global history.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2510 ANCIENT GREECE: BRONZE AGE TO CLASSICAL ERAS (3 credits)
A study of cultures in the Aegean/Eastern Mediterranean, from the Bronze Age through Classical-era Greece, to better appreciate their influence on later cultures, especially those of Rome, Europe, and North America.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course
HIST 2520 ANTIQUE HISTORY - ROME (3 credits)
A survey of Roman history including Rome’s wars of expansion, the rise and fall of the Republican government, the reorganization of the state under the emperors, and the nature of Rome’s Empire and its peoples. The course will also examine aspects of Roman society, including living conditions, family organization, religion, and the diversity of Roman culture, including in the visual arts.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Global Diversity General Education course

HIST 2920 HISTORY OF MODERN AFRICA (3 credits)
This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of alien cultures on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - the Islamic, Western and Indigenous. (Cross-listed with BLST 2120).

HIST 2820 JAPAN: FROM WARRING STATES TO THE MODERN DAY (3 credits)
This course examines the Roman Empire (30 BC to AD 476), also known as the Principate, with the class’s main focus on its first three centuries. The course covers the rise of the Imperial government, its development, and the challenges it faced in the reigns of different emperors. Included will be discussion of Rome’s relationship with neighboring kingdoms, with the peoples in its own provinces, and with religious minority groups such as the Jews and Christians.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HIST 3520 HISTORY OF ROMAN EMPIRE (3 credits)
This course examines the Western history of the great reforms ushered in under Alexander II to the present day. Among the topics covered are the crisis of Imperial Russia, the Bolshevik Revolution, life in the USSR, the USSR in the Second World War, the USSR in the Cold War, the collapse of communism, and the changes in Russian society since 1991.
Distribution: Global Diversity General Education course

HIST 2810 HISTORY OF CHINA: FROM THE MANCHU CONQUEST TO THE PRESENT (3 credits)
This course examines Chinese history from the seventeenth-century Manchu conquests to the present. Topics covered will include the nature of the Manchu-Qing Dynasty, the destabilization which began in the nineteenth century, growing pressure exerted by other powers, and the rise and role of the Chinese Communist Party.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 2820 JAPAN: FROM WARRING STATES TO THE MODERN DAY (3 credits)
This course will examine the course of Japanese history beginning with the Warring States (Sengoku) era of fifteen and sixteenth centuries. It will then continue by assessing unified Japan under the Tokugawa bakufu, the initial stability of this period, then the growing tensions which led to the collapse of the bakufu state in the 1860s. From there, the course will analyze the emergence of modern Japan during the Meiji Restoration, its evolution to a military state, and then conclude with an assessment of Japan’s transformation in the post-World War II era.
Distribution: Global Diversity General Education course

HIST 2900 AFRICAN CIVILIZATION - THE MIDDLE PERIOD (3 credits)
This course traces the development of African history from the beginning of the Civilization of Ghana (800 B.C.) to the period of European exploration of Africa (Mid 15th C.). It examines the main achievements, events and individuals in the Empires of Ghana, Mali, Songhay, Zimbabwe and other states. (Cross-listed with BLST 2900).

HIST 2980 HISTORICAL METHODOLOGY (3 credits)
The critical method in collecting, organizing, and presenting historical material. Required for history majors. Students are encouraged to enroll in this course as soon as possible after declaring their major.
Prerequisite(s)/Corequisite(s): ENGL 1160 and permission of department chair or chair’s designee. Not open to non-degree graduate students.
Distribution: Writing in the Discipline Single Course

HIST 2990 PEOPLE AND ISSUES IN HISTORY (3 credits)
An in-depth investigation of a topic as announced in the course subtitle. Students may enroll for different sections as long as no specific subject is duplicated.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

HIST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 8016, RELI 4050).
Prerequisite(s)/Corequisite(s): Junior or senior standing. Not open to non-degree graduate students.

HIST 4010 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 8016, RELI 4050).
Prerequisite(s)/Corequisite(s): Junior or senior standing. Not open to non-degree graduate students.

HIST 4040 HOMESCAPES: THE MATERIAL CULTURE OF EVERYDAY LIFE IN AMERICA, 1600-1860 (3 credits)
This course examines the culture and technologies of house forms and work landscapes in North America, 1600-1860. (Cross-listed with HIST 8046).
Prerequisite(s)/Corequisite(s): 60 hours. Not open to non-degree graduate students.

HIST 4050 HISTORY OF WOMEN IN AMERICA TO 1875 (3 credits)
This course examines the history of women in what is now the United States from the seventeenth century to 1875. Topics include law, work, sexuality and reproduction, slavery, cross-cultural encounters, religion, political activism, and the transformation of gender by the market and industrial revolutions. (Cross-listed with HIST 8056).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor. Not open to non-degree graduate students.

HIST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with WGST 4060, WGST 8066, and HIST 8066).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor; Not open to non-degree graduate students.
HIST 4070 SLAVERY AND RACE RELATIONS IN THE AMERICAS (3 credits)
Slavery and Race Relations in the Americas examines the historical relationship between the trans-Atlantic slave trade and American race relations, connecting the enslavement of Africans in the Americas to race relations in the Caribbean, Latin America, and the United States. (Cross-listed with BLST 4650, BLST 8656, HIST 8076, LLS 8656).
Prerequisite(s)/Corequisite(s): Junior or senior standing
Distribution: U.S. Diversity General Education course

HIST 4140 COLONIAL AMERICAN HISTORY (3 credits)
This course provides a study of the settlement and development of North America to c. 1763 with an emphasis on the British colonies. (Cross-listed with HIST 8146).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor

HIST 4150 THE AMERICAN REVOLUTIONARY ERA, 1763-89 (3 credits)
This course examines the period of the American Revolution beginning with the changed circumstances in the British North American colonies following the end of the French and Indian War and concluding with the ratification of the United States Constitution. The course analyses social, political, and military themes from this period. (Cross-listed with HIST 8156).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor

HIST 4160 THE EARLY AMERICAN REPUBLIC: FROM THE CONSTITUTION TO THE SECOND PARTY SYSTEM (3 credits)
This course covers an important period of American history beginning with the first federal government and ending with an analysis of the consolidation of the Second American Party system. Topics to be covered include the earliest debates over the nature of the federal government, foreign relations, the emergence of political parties, and the rise of the Jacksonian democracy. (Cross-listed with HIST 8166).
Prerequisite(s)/Corequisite(s): Junior or senior standing

HIST 4170 HISTORY OF THE AMERICAN WEST (3 credits)
An examination of the unique aspects of the region of the United States known as "the west." Students will learn about the multiple peoples, cultures, and environments which combined to form this region. Content will also include an examination of how the myths of the west were created. (Cross-listed with HIST 8176).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4180 THE AMERICAN CIVIL WAR PERIOD: FROM THE TEXAS REVOLUTION THROUGH RECONSTRUCTION (3 credits)
This course focuses on the period of the American Civil War. It will begin with the background to, and events of the Texas Revolution. It will then consider the growing national tensions over slavery, particularly as a consequence of the Mexican-American War before examining the immediate causes of the civil war. The course will then examine the war itself before concluding with analysis of Reconstruction. (Cross-listed with HIST 8186).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4240 EMERGENCE OF MODERN AMERICA (3 credits)
This course examines American history from the end of Reconstruction to the end of World War II. Among the topics covered are western expansion, industrialization, immigration, and the expanding international footprint of the United States. (Cross-listed with HIST 8246).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4330 U.S. CONSTITUTIONAL HISTORY TO 1860 (3 credits)
This course will examine the history of the United States constitution from its promulgation in 1787 through the end of the Civil War. This will include consideration of both English and colonial precedents. The course will analyze the process of writing and ratifying the document in the late 1780s and will then look at some of the key legal decisions between 1790 and 1860. (Cross-listed with HIST 8336).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4340 U.S. CONSTITUTIONAL HISTORY SINCE 1860 (3 credits)
This course examine the increasingly important role played by competing interpretations of the United States constitution since the outbreak of the Civil War. This will include the emergence of the idea of a "living constitution," the extension of constitutional guarantees to the states, and examination of critical Supreme Court cases. (Cross-listed with HIST 8346).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4360 THE U.S. IN THE COLD WAR (3 credits)
This course will examine the impact of the Cold War in modern American history on two levels. First it will seek to understand how the Cold War influenced American foreign policy decisions since the end of World War II and examine the long term consequences of those policies for both the U.S. and the world. Secondly, this course will examine how the Cold War impacted or shaped American culture, domestic politics, and social movements in the postwar period. (Cross-listed with HIST 8366).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor

HIST 4400 HISTORY OF NORTH AMERICAN INDIGENOUS CULTURES (3 credits)
A survey of traditional North American Indigenous cultures, their interaction with the environment, with one another, and with other people groups. This course covers indigenous societies to the present day. (Cross-listed with HIST 8406).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4410 HISTORY OF NEBRASKA (3 credits)
An examination of the history of Nebraska from Native American occupation to the present, with emphasis on environmental factors that have shaped the region and its people. (Cross-listed with HIST 8416).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4420 THE SIOUX TRIBE (3 credits)
A cultural and historical study of the Sioux tribes emphasizing the earliest historic period to the present. (Cross-listed with HIST 8426).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor

HIST 4450 NATIVE AMERICAN ENVIRONMENTALISM (3 credits)
This course studies North American tribal subsistence and natural resource use practices from the early historic period to the present, Native Americans as environmentalists, and modern tribal environmentalism. (Cross-listed with HIST 8456).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor

HIST 4460 AMERICAN IMMIGRATION HISTORY (3 credits)
A study of American immigration from the colonial era to the present. Topics covered include Old World origins of migration, the old immigrants from western Europe, the new immigrants from southern and eastern Europe, non-European immigrants, native-born American responses to immigrants, the periods of immigrant adjustment in the new physical environment, and the contemporary revival of ethnicity. (Cross-listed with HIST 8466).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor

HIST 4480 THE UNITED STATES IN THE 1960S (3 credits)
This course is a review of the economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 8486).
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor

HIST 4530 EUROPE: RENAISSANCE & REFORMATION (3 credits)
This course will examine European history from the fifteenth through the seventeenth centuries. Among the topics which will be covered are the Renaissance, the Protestant Reformation, the Catholic Reformation, Wars of Religion, the beginning of European overseas expansion, and the Scientific Revolution. In addition to examining the religious ideas and revolutions of the period, there will also be analysis of economic, social, and political change. (Cross-listed with HIST 8536).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor
HIST 4540 MEIDEVAL EUROPE (3 credits)
A dive into the history of medieval Europe through the stories of men and women, their beliefs, struggles, contradictions and achievements. (Cross-listed with HIST 8546).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4610 TUDOR AND STUART ENGLAND (3 credits)
English history from the end of the Wars of the Roses in 1485 to the death of Queen Anne in 1714. The course will examine the efforts of the Tudors and Stuarts to establish dynasties, the religious upheavals in the sixteenth and seventeenth centuries, changes in the role of Parliament, the Civil Wars, and the beginning of English overseas expansion. (Cross-listed with HIST 8616).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4650 HISTORY OF MODERN IRELAND (3 credits)
A survey of Irish history from the Act of Union of 1801 through the civil rights movement of "Troubles" of Northern Ireland in the 1970s. (Cross-listed with HIST 8656).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

HIST 4720 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 4160, RELI 8166, HIST 8726).
Prerequisite(s)/Corequisite(s): Junior standing or instructor permission.

HIST 4730 ISRAEL AND PALESTINE (3 credits)
This course will outline the history of the conflict over Palestine/Israel, examine its present status, and explore its likely unfolding in the future. It seeks to provide a broad and concise understanding of the historical events which have shaped the relations between Israelis and Palestinians, as well as a keen awareness of the challenges and prospects related to their future. (Cross-listed with HIST 8736).
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor.

HIST 4740 COMPARATIVE GENOCIDE (3 credits)
This course explores genocide and its many forms throughout history. It begins by considering the varied elements and definitions of the term. Next it looks at what makes people kill before going on to examine many different genocides throughout history. Finally, the course addresses the prosecution and prevention of genocide. (Cross-listed with HIST 8746).
Prerequisite(s)/Corequisite(s): Junior. Not open to non-degree graduate students.

HIST 4800 U.S. AND THE MIDDLE EAST (3 credits)
This course focuses on the evolution of US relations with and Foreign Policy vis-à-vis the Middle East over the last six decades. It seeks to illuminate the constant features in contrast to the changes in direction, examining the agendas of varying administrations as well as the treatment by the media of this region. It follows a chronological framework with particular emphasis on key thematic topics. While emphasizing the political dimensions of international relations, the class will also explore cultural and social aspects of the ties between the US and the peoples of the Middle East. (Cross-listed with HIST 8806).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

HIST 4820 MESOPOTAMIA AND PRE-ISLAMIC PERSIA (3 credits)
Examination of the Ancient Near East from the emergence of its earliest civilizations—Sumer, Akkad and Babylonia—through the Bronze and Iron Ages, concluding with Persia in the Common Era (CE) just before the rise of Islam. (Cross-listed with HIST 8826).
Prerequisite(s)/Corequisite(s): Junior standing.

HIST 4830 ANCIENT GREEK MYTH, RELIGION & MAGIC (3 credits)
Students will examine the impact of ancient Greek myth and belief on actual religious practice: e.g., “lived” religion. Areas covered include formal civic sacrifice, wartime religion, family and personal devotions, mystery cults, oracles and seers, plus the popular pursuit of magic. (Cross-listed with HIST 8836, RELI 4830, RELI 8836).
Prerequisite(s)/Corequisite(s): Junior standing.

HIST 4840 ALEXANDER THE GREAT AND THE MACEDONIAN ORIGIN (3 credits)
Examination of the conquests of Alexander the Great, as well as controversies in Alexander studies. Includes discussion of both the Macedonian culture that produced him and the career of his father, Philip II. (Cross-listed with HIST 8846).
Prerequisite(s)/Corequisite(s): Junior standing.

HIST 4850 ROME AND THE EARLY CHURCH (3 credits)
This course explores genocide and its many forms throughout history. It students will cover Roman-Christian-Jewish interactions from just before the birth of Jesus of Nazareth to c. 450 CE, with an emphasis on social and political history. We catalogue Christianity’s transformation from its origins as a Jewish movement and an illegal "superstition" to the dominant religion of the Roman empire. (Cross-listed with HIST 8856, RELI 4850, RELI 8856).
Prerequisite(s)/Corequisite(s): Junior standing.

HIST 4900 PROBLEMS IN HISTORY (1-3 credits)
Project arranged individually with undergraduate students. May be repeated as long as the subject differs, to a maximum of six hours.
Prerequisite(s)/Corequisite(s): Written permission of instructor.

HIST 4910 TOPICS IN HISTORY (3 credits)
This course introduces students to specialized subject matter not available in existing History courses. Course may be repeated as long as the topic is substantially different each time. Course may be cross-listed with other programs e.g. Native American Studies (NAMS), Women’s and Gender Studies (WGST) when topics are appropriate. (Cross-listed with HIST 8916).
Prerequisite(s)/Corequisite(s): Junior standing.

HIST 4920 INTERNSHIP IN HISTORICAL STUDIES (1-3 credits)
The undergraduate student is supervised by a member of the faculty in a project involving part-time employment or service with a museum, historic site, historical society or other institution. Work hours, activities, reporting requirements, and responsibilities must be specified in written agreement between employer, student, and/or History Intern Program Coordinator. This course is normally taken for 3 hours. If a hosting institution cannot commit to a supervised workload which the departmental advisor believes to be equivalent to 3 hours, course may be taken for fewer hours. In such circumstances, students may repeat the course up to a total of 3 hours.
Prerequisite(s)/Corequisite(s): Student must have completed or enrolled in at least 6 hours of upper-division history courses (3000-4000). Student must have approval of History Intern Program Coordinator before enrolling. Not open to non-degree graduate students.

HIST 4990 SENIOR SEMINAR (3 credits)
Capstone research course for history majors. Students will be required to produce an original research paper. Each section of this course will be offered with a specific subject or theme.
Prerequisite(s)/Corequisite(s): HIST 2980 and permission of department chair or chair’s designee. Not open to non-degree graduate students.

History, Bachelor of Arts

To obtain a B.A. with a major in History, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:
1. 46 hours of University General Education courses
2. 16 hours of foreign languages
3. 12 hours college breadth requirement
4. 36 hours of major courses
5. Elective hours as required to total 120 hours.
TOTAL HOURS: 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php
**Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements: 2.0

History, Bachelor of Science

To obtain a B.S. with a major in History, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

1. 46 hours of University General Education courses
2. 12 hours college breadth requirement
3. 51 hours of major courses
4. Elective hours as required to total 120 hours.

In Lieu of Foreign Language, Cognate Requirements for B.S. 2

For the B.S. degree, students are required to complete at least 15 hours of related cognate coursework that must be approved by a History Department Academic Advisor. Students will choose one course in advanced writing or statistics, in consultation with their advisor. Twelve hours must be courses at the 3000/4000 level. Students may choose any UNO Minor to satisfy their upper-level cognate requirement, however this cannot double-count with Option 1 minor for the College of Arts & Sciences Degree Requirements.

Total Credits 51

1 Within the courses taken at the 2000 level or above, the following “geographic distribution” requirements also apply:
   • at least 3 hrs. in US History courses
   • at least 3 hrs. in European History courses
   • at least 3 hrs. in “Wider World” courses (not US or European)

2 The specific composition of a student’s cognate field will be determined in consultation with the student’s departmental advisor.

History Minor

**Requirements**

Students may earn a minor in history by completing 15 hours in history, with at least 9 hours in 3000-4000 level courses.

### Holocaust and Genocide Studies Minor

**Description**

The mission of the Holocaust and Genocide Studies Faculty is to promote and facilitate the scholarly study of the Holocaust and other historical genocides throughout history. One of its chief mandates is to provide an interdisciplinary approach in which the topic of HGS is covered in a variety of departments/programs and from a variety of perspectives. The HGS minor is intended to both create a student who is more aware of the importance of genocide in both past and present and to prepare them for potential careers in fields related to the HGS. The following are key objectives of the minor:

- Learn the history of genocide from a global and comparative perspective
- Learn the history of genocide in an interdisciplinary context
- Master core competencies in other disciplines and majors with the Holocaust and Genocide as the subject matter
- Recognize the current relevance of the study of the Holocaust and genocide
- Gain a working knowledge of methods of prevention, intervention, and justice for instances of genocide throughout history
- Develop "moral muscles" that enable students to recognize and react to injustices occurring at home and abroad
- Prepare students for a variety of careers in both public and private sector that focus on the recognition, prevention, intervention, amelioration, and prosecution of genocide and mass atrocity.

### Other Information

All coursework taken for the Holocaust and Genocide Studies minor must be completed with a grade of "C-" or better.

### Contact

Holocaust and Genocide Studies Director, Lana Obradovic, Ph.D.
275G Arts and Sciences Hall
402.554.3027
lobradovic@unomaha.edu

**Requirements**

Undergraduate students will be expected to complete at least 18 credit hours of HGS courses with a grade of C- or higher in at least three departments, including Anthropology, Black Studies, History, Philosophy, Political Science, Religious Studies and Sociology. A course in another department may be permissible with review and approval by the HGS director.

**Human Rights Studies Minor**

**Description**

The interdisciplinary human rights studies minor provides students with a fuller understanding of the origins, theories, and contemporary realities of human rights through the exploration of multiple intellectual spaces of human rights discourse. Having an understanding of human rights will help students to address issues such as migration and refugees, ethnic cleansing and genocide, discrimination, terrorism, poverty, children’s rights, surveillance, torture, humanitarian intervention, armed conflict, and capital punishment.

Although the breadth of this program complements majors across the disciplinary spectrum, it is particularly valuable for those majoring in fields related to society, politics, and the law, such as sociology, political science, philosophy, religious studies, history, and anthropology. Not only is it relevant to those students seeking careers in the public, private, and non-profit sectors, it is well-suited for those who have an interest in human rights research and advocacy both locally and globally. The human rights studies minor is ideally suited for students who want to put their knowledge and skills to use through local internships and study abroad programs available to UNO students. It will also serve to enhance research skills and experiences for students who plan to pursue further education in graduate programs.

**Other Information**

All coursework taken for the human rights studies minor must be completed with a grade of “C” or better.

**Contact**

Rory J. Conces, PhD, Philosophy
205C ASH
rconces@unomaha.edu

**Requirements**

Undergraduates seeking to minor in human rights studies must complete a total of 18 credit hours with a grade of C or higher. A minimum of 12 credit hours must be from courses at the 3000 and/or 4000 level.

Interdisciplinary Studies

Solving the challenges of our increasingly complex world requires interdisciplinary thinking, methods, and solutions. Choosing to major in Interdisciplinary Studies offers you an opportunity to customize your bachelor’s degree by designing your own program of study. You will select complementary courses or minors from academic disciplines that allow you to focus on the subjects and topics that interest you.

Core coursework in the major explores diverse subjects that share a strong interdisciplinary theme. By emphasizing the importance of studying complex issues from multiple perspectives, these courses equip students with skills in critical thinking, interpretation, problem-solving, and multi-faceted analysis.

You may choose to pursue either a Bachelor of Science with a cognate requirement or a Bachelor of Arts with a foreign language requirement in either the Integrative or Individualized Studies concentrations:

**Integrative Studies Concentration:** This academic plan must include two minors (https://www.unomaha.edu/college-of-arts-and-sciences/academics/minors-at-uno.php) (or more, depending on the student’s interest) from any academic programs in the university to build content knowledge in specific areas of focus. Students must complete all requirements of each minor program of study, with at least 18 credit hours coming from upper-division courses.

**Individualized Studies Concentration:** This academic plan allows you to create your own major and must include a total of at least 18 credits of upper-division coursework and 36 total credits from any academic programs in the university to build content knowledge in specific areas of focus. Students are required to draft an intentional plan of study, including a rationale and course outline.

**Exploratory Studies Concentration:** If you are a first-year student with fewer than 45 credits who has not declared a major or been admitted to the major of your choice, you will be admitted to Exploratory Studies. In this concentration, you will enjoy an immediate academic home that allows you to explore different disciplines and programs by taking Exploratory Studies 1000, designed to give you knowledge about various majors and minors at UNO, as well as enroll in general education courses that help you explore a best-fit major while satisfying your general education requirements. You will engage in cross-curricular academic advising, career assessment, guided exploration of majors and careers, mentoring, and programming designed to provide you the support you need as you figure out your best-fit major.

**Total Credits: 18**

¹ BLST 3980 Special Topic: History of Genocide in Darfur and Sudan
² SPAN 4960 Human Rights Literature in Latin America
You will have the opportunity to interact with advisors, faculty, upper-class students, and professionals from different fields in order to discover your passions and make an informed decision on a major. Exploratory Studies majors are required to declare a major within their first 45 credit hours in any college, which includes the option to switch to either the Integrative Studies or Individualized Studies concentrations in Interdisciplinary Studies (see above).

**Double Majors**

Students choosing either the Integrative or Individualized Studies Concentration may not pursue another UNO program that overlaps substantially with those concentrations.

**Residency**

Students choosing either the Integrative or Individualized Studies Concentration must complete EXPL 1000 or IND 1000 and IND 4950 and at least 12 additional hours of major requirements at UNO. Students choosing the Integrative Studies Concentration must complete at least 6 hours of coursework in each minor that fulfills the concentration requirements.

**Contact Information**

Exploratory Studies:  
Tammie Kennedy, Director  
tmkenney@unomaha.edu  
website [https://www.unomaha.edu/college-of-arts-and-sciences/interdisciplinary-studies/](https://www.unomaha.edu/college-of-arts-and-sciences/interdisciplinary-studies/)

Integrative and Individualized Concentrations:  
Michelle Quick, Advisor  
mquick@unomaha.edu  
website [https://www.unomaha.edu/college-of-arts-and-sciences/interdisciplinary-studies/](https://www.unomaha.edu/college-of-arts-and-sciences/interdisciplinary-studies/)

- Interdisciplinary Studies, Bachelor of Arts (p. 197)
- Interdisciplinary Studies, Bachelor of Science (p. 200)

**Writing in the Discipline**

Students choosing either the Integrative or Individualized Studies Concentration should take a WID course that is relevant to the focus of their studies. Consult with the Interdisciplinary Studies advisor for approved courses.

Because the Interdisciplinary Studies major is uniquely crafted by each student through either the Individualized or Integrative Concentration, students can apply their skills gained to numerous occupational fields including, but not limited to the following:

- business
- the arts and non-profit sector
- environmental policy
- urban studies
- language and culture studies
- social justice
- helping professions
- information and technology
- education
- law
- medicine and allied health professions
- human resources
- public service sector

### Interdisciplinary Studies, Bachelor of Arts

To obtain a B.A. with a major in Interdisciplinary Studies, a student must fulfill university, college, and program requirements. As an interdisciplinary major of at least 50 hours, this major meets the College breadth requirement. Other hour requirements follow:

- 46 hours of University General Education courses  
  *Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.*
- 16 hours foreign language requirement
- 50 hours of major courses
- At least 8 hours of electives

**TOTAL HOURS: 120**

3-4

Approved courses include but are not limited to the following:

- BSAD 3160 MANAGERIAL STATISTICS FOR BUSINESS  
  (4 credit hours)
- CRCJ 2510 RESEARCH METHODS
- CRCJ/SOWK/PA 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR
- PSCI 2000 INTRODUCTION TO POLITICAL INQUIRY AND WRITING
- PSCI 3000 QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE
Concentration in Exploratory Studies

If you are a first-year student with fewer than 45 credits who has not declared a major or been admitted to the major of your choice, you will be admitted to Exploratory Studies. In this concentration, you will enjoy an immediate academic home that allows you to explore different disciplines and programs by taking Exploratory Studies 1000, designed to give you knowledge about various majors and minors at UNO, as well as enroll in general education courses that help you explore a best-fit major while satisfying your general education requirements. You will engage in cross-curricular academic advising, career assessment, guided exploration of majors and careers, mentoring, and programming designed to provide you the support you need as you figure out your best-fit major. You will have the opportunity to interact with advisors, faculty, upper-class students, and professionals from different fields in order to discover your passions and make an informed decision on a major. Exploratory Studies majors are required to declare a major within their first 45 credit hours in any college, which includes the option to switch to either the Integrative Studies or Individualized Studies concentrations in Interdisciplinary Studies (see below).

Concentration in Individualized Studies

This academic plan allows you to create your own major and must include a total of at least 18 credits of upper-division coursework and 36 total credits from any academic programs in the university to build content knowledge in specific areas of focus. Students are required to draft an intentional plan of study, including a rationale and course outline.

Concentration in Integrative Studies

This academic plan must include two minors (https://www.unomaha.edu/college-of-arts-and-sciences/academics/minors-at-uno.php) (or more, depending on the student's interest) from any academic program in the university to build content knowledge in specific areas of focus. Students must complete all requirements of each minor program of study, with at least 18 credit hours coming from upper-division courses.

Bachelor of Science Interdisciplinary Studies –

Bachelor of Science Interdisciplinary Studies –

- Concentration in Integrative Studies
- Concentration in Individualized Studies
- Concentration in Exploratory Studies

**Concentration in Exploratory Studies**

If you are a first-year student with fewer than 45 credits who has not declared a major or been admitted to the major of your choice, you will be admitted to Exploratory Studies. In this concentration, you will enjoy an immediate academic home that allows you to explore different disciplines and programs by taking Exploratory Studies 1000, designed to give you knowledge about various majors and minors at UNO, as well as enroll in general education courses that help you explore a best-fit major while satisfying your general education requirements. You will engage in cross-curricular academic advising, career assessment, guided exploration of majors and careers, mentoring, and programming designed to provide you the support you need as you figure out your best-fit major. You will have the opportunity to interact with advisors, faculty, upper-class students, and professionals from different fields in order to discover your passions and make an informed decision on a major. Exploratory Studies majors are required to declare a major within their first 45 credit hours in any college, which includes the option to switch to either the Integrative Studies or Individualized Studies concentrations in Interdisciplinary Studies (see below).

**Course Requirement**

- **Fall**
  - ENGL 1150: Appropriate English placement required.
  - ENGL 1160: ENGLISH COMPOSITION II
  - STAT 1530: ELEMENTARY STATISTICS
  - CMST 1110 or CMST 2120
  - PSYC 3130: STATISTICS FOR THE BEHAVIORAL SCIENCES
  - SOC 2130: SOCIAL STATISTICS
  - SOC 3510: RESEARCH METHODS
  - STAT 1530: ELEMENTARY STATISTICS
  - STAT 3000: STATISTICAL METHODS I

Elective hours to be determined in consultation with the advisor

**Concentration in Exploratory Studies**

  - 15

- **Senior**
  - Fall
    - Approved Statistics/Research Course

- **Credits**
  - 3
** Students should take a Statistics/Research class that best fits their chosen areas of study. STEM and Social Science Statistic/Research courses have a mathematics/quantitative literacy prerequisite. Humanities Research courses generally have a composition prerequisite. Meet with an advisor for options.

- Fifteen hours of Cognate courses are required for the Bachelor of Science degree and should be taken in one discipline that the student is not already studying. Cognates should be approved by the major advisor.

International Studies

The International Studies (INST) Major at UNO is an interdisciplinary program that provides an international focus and foundation for professional careers in the private, nonprofit, and public sectors, as well as graduate studies. Among these careers and further studies are international management and business, diplomacy and foreign service, national security and intelligence, international law and policy, conflict mediation, humanitarian aid, international development, non-profit organizations, international education, and public affairs. The members of the International Studies Faculty encourage students majoring in International Studies to place significant emphasis on the study of foreign language and other cultures. Many INST majors have a double major or a minor in a foreign language.

At a minimum, in order to satisfy the INST foreign language requirement, majors who are completing an Area Studies Concentration must complete the equivalent of three years of one university-level foreign language study
For students who are completing the general curriculum option, the Global Strategic Studies concentration and/or the International Management and Business Leadership concentration, the foreign language requirement will be two years of one foreign language (16 hours) or one year of foreign language (10 hours) supplemented with 6 hours of language credits in the same language from studying abroad.

If a student is a native speaker of another language, formal foreign language study may not be required.

**Student Groups**
Sigma Iota Rho (International Studies Honorary Society)

**Option for Degree Completion**
The Department of Political Science has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**
- This program is available for undergraduate students pursuing BA/BS in Political Science or BA in International Studies desiring to pursue a MS in Political Science.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

**Contact**
241 ASH
402.554.2966
Vickie Stone vicstone@unomaha.edu

[Website](https://www.unomaha.edu/college-of-arts-and-sciences/international-studies/)

**Degrees Offered**
- International Studies, Bachelor of Arts (p. 205)

**Writing in the Discipline**
All students are required to take a writing course within their major. For the INST major, the following are some of the recommended courses:
ENGL 2420 Critical Approaches to Language Studies, ENGL 3050 Writing for the Workplace, ENGL 3980 Technical Writing, or JMC 2100 + JMC 2104 Media Writing Lecture + Lab.

Check with the INST advisor for additional approved advanced writing courses.

**Minors Offered**
- International Studies Minor (p. 210)

As an International Studies major, a world of opportunities open up that span the globe. The International Studies major cultivates skills that are translatable across continents and cultures. Even within the United States, there are a wealth of possibilities for International Studies Majors.

College graduates need to be prepared for a new world - one digitally linked, partnered in trade, and demanding transnational solutions. UNO’s International Studies Major (INST), an interdisciplinary Bachelor of Arts degree program, provides undergraduate students with the necessary background in global affairs and intercultural communications. The degree is individualized, flexible and marketable.

**Career Opportunities**
By nature, International Studies majors make exceptional employees in virtually any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers in all walks of society. Specifically, International Studies majors tend to pursue careers in the following fields:
- Airlines
- Analyst
- Civil Service Worker
- Conflict Mediation
- Congressional Aide
- Consultant
- Cross Cultural Communications
- Cultural Diversity Training
- Diplomacy and Foreign Service
- Economist
- English as a Second Language (ESL) Teacher
- Environmental Specialist
- Executive
- Human Resources Specialist
- Humanitarian Relief Worker
- Human Rights
- Immigration Agent
- International Art Connoisseur
- International Commerce/Global Business
- International Development Consultant
- International Educator
- International Law and Policy
- International Non-profit Organization
- International Spy
- International Student Advisor
- Lobbyist
- Military
- National Security and Intelligence Specialist
- Peace Corps
- Public Service Officer
- Think Tank/Consultant
- Travel Coordinator
INST 2130 GLOBAL CHALLENGES (3 credits)
An interdisciplinary, team-taught course which examines the seven global challenges - population, resources, technology, information, economies, conflict, governance - facing the world in the 21st century. The class introduces students to a range of interdependent factors and forces that influence international affairs.

Distribution: Social Science General Education course and Global Diversity

INST 3000 PERSPECTIVES IN INTERNATIONAL STUDIES (1-6 credits)
Topical and/or general analysis of selected countries and regions offered in conjunction with possible study tours in those areas under investigation. Internships and/or study abroad experiences usually form the basis for the course. Can be repeated up to 12 hours. This course may be taken for honors credit.

INST 4140 TOPICS IN INTERNATIONAL STUDIES (3 credits)
This course examines a topic involving a wide range of international studies theories, methods, and fields to provide international studies majors a sense of how the elements of international studies fit together to form a coherent interdiscipline. A student may take the course more than once as topics will change each semester.

Prerequisite(s)/Corequisite(s): ENGL 1160, junior or above

INST 4990 SENIOR E-PORTFOLIO (0 credits)
This E-Portfolio course is part of International Studies' Student Outcomes effort. It is designed to help monitor the success of the program through monitoring students' performance in the program. Graduating seniors must register for and complete INST 4990 - Senior E-Portfolio in the term in which they plan to graduate.

Prerequisite(s)/Corequisite(s): Students must register for INST 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

International Studies, Bachelor of Arts

A major in international studies must meet or exceed the requirements for a major as specified by the College of Arts and Sciences. Beyond the core courses and foreign language classes, the curriculum for INST majors is constructed of those courses that have an international focus in disciplines such as history, political science, information technology, geography/geology, sociology, management, marketing, economics, philosophy and religion, English, and related courses in the fine arts and humanities.

INST majors can choose either a general curriculum INST degree or choose a concentration in global strategic studies, area studies or international management and business leadership.

Degree Requirements
To obtain a B.A. with a major in International Studies, a student must fulfill university, college, and departmental requirements. Other hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 49-55 hours of major courses
- 0-13 hours of electives

TOTAL HOURS: 120

All coursework taken for the international studies major must be completed with a grade of "C-" or better. There is a minimum of 30 credits of required coursework to be taken in residence here at UNO, plus the foreign language requirement which is described in more detail below.

Foreign Language Requirements:

At a minimum, in order to satisfy the INST foreign language requirement, majors who are completing an area studies language requirement must complete the equivalent of three years of one university-level foreign language study (completion of a minor is recommended) or two years each of two foreign languages. At least one foreign language studied by those completing an area studies concentration must be associated with the area chosen.

For students who are completing the general curriculum INST major, the Global Strategic Studies concentration and/or the International Management and Business Leadership concentration, the foreign language requirement will be two years of one foreign language (16 hours) or one year of foreign language (10 hours) supplemented with 6 hours of language credits of the same language from studying abroad.

If a student is a native speaker of another language, formal foreign language study may not be required.

There are options for majors to choose general curriculum or from one of three concentrations:

- Area Studies (p. 205)
- Global Strategic Studies (p. 205)
- International Management and Business Leadership (p. 205)

General Curriculum Option

This option is meant to provide the possibility of majoring in INST but not having to declare a specific concentration. The INST core courses listed above are required then at least 15 hours of 3000-4000 level international studies coursework that is designed in coordination with the academic advisors must be completed. Students must complete the e-portfolio requirements during their last semester.

Area Studies

This Concentration offers the opportunity to focus on one or more areas of regional interest. Examples include Latin America, Europe and the Middle East. Please discuss with an academic advisor the possibility of other areas of concentration, including Africa, Central Asia-South Asia (CASA), and East Asia which will depend on the availability of relevant courses at a given time. In addition to the INST core courses, at least 15 hours of 3000-4000 level coursework that focuses on the region selected must be completed. At a minimum, majors who choose this concentration must complete the equivalent of three years of one university-level foreign language study (completion of a minor is recommended) or two years each of two foreign languages. At least one foreign language studied by those choosing this concentration must be associated with the area chosen. Study abroad in your area of interest is strongly recommended. Course lists for Area Studies will differ according to the area and availability of courses offered.

Global Strategic Studies

This concentration is designed for individuals interested in careers in government, national security and intelligence, in teaching in secondary and higher education, and in graduate school studies in any of these areas. The foreign language requirement for this concentration will be two
years of one foreign language (16 hours) or one year of foreign language (10 hours) supplemented with 6 hours of language credits in the same language from studying abroad.

**International Management and Business Leadership**

This concentration is recommended for individuals interested in careers in the global business sector, in government, with international organizations and foundations, and international hotel management. Students choosing this concentration may take courses from the areas of International Finance, International Marketing, International Management, and International Economics, as well as related courses in Political Science, Geography, History, and Sociology. The foreign language requirement for this concentration is two years of one foreign language (16 hours) or one year of foreign language (10 hours) supplemented with 6 hours of language credits of the same language from studying abroad.

Students must add the following to their core courses:

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

#### Placement Exams:
For Math, English, or Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study.

**GPA Requirements:** 2.0

### International Studies Minor

The international studies minor will open up a world of opportunities. Research confirms that employers today look for people who understand diversity, can connect multidisciplinary perspectives, and think critically to create transnational solutions to complex problems. The international studies minor demonstrates that you are ready for work at a 21st century organization.

### Additional Courses

Select an additional 15 credits of approved coursework—12 credits of which must be at the 3000-4000 level from at least two different disciplines. Several approved courses are listed below, and students may speak with an International Studies advisor to inquire about additional courses that may apply to the minor:

- CMST 2010 INTERPERSONAL COMMUNICATION
- CMST 4510 PERSUASION AND SOCIAL INFLUENCE
Islamic Studies Minor

The Islamic Studies Program is an interdisciplinary program that is focused on Islam and Muslim societies across the globe.

The Islamic Studies Program has the following three objectives:

1. Equip undergraduate students with knowledge on Muslim states and societies through its minor program. To this end, the program continuously increases the number of courses at UNO about Islam and Muslims.
2. Develop research projects to better understand historical, cultural and political factors that explain the challenging issues in the Muslim world.
3. Organize events to disseminate knowledge regarding the Muslim world to the broader metropolitan community of Omaha and beyond.

Given the importance of Islam in world politics and the global economy, our minor program is beneficial for those students who plan to pursue a career in business, education, history, anthropology, international studies, religious studies, communication, political science, social work, public administration, art and art history, medicine, criminal justice, sociology and other fields.

Other Information

All coursework taken for the Islamic Studies minor must be completed with a grade of “C” or better.

Note: RELI 3500 when taught as an Islamic Studies topic.

Other courses may be acceptable toward the Islamic Studies minor, as approved by the Islamic Studies director.

Latino/Latin American Studies (LLS)

Mission

LLS is an interdisciplinary program that seeks to combine academic excellence with real-world engagement in order to enhance our understanding of Latino and Latin American peoples and critical issues.

Organization’s Primary Goals, Major Programs or Services

LLS’ main goals are to: 1) develop policy-oriented and community-relevant research, 2) create learning opportunities for students and communities beyond the classroom and across borders and 3) establish strategic and egalitarian community partnerships to strengthen our capacity to address local and global concerns. In accomplishing these goals, we seek to assist Nebraska and the Great Plains region, as well as the growing Latino population, in reaching a shared prosperous present and future in a context of cultural understanding, respect of differences, and promotion of human rights.

The Latino/Latin American Studies Program

Prepares undergraduate students for a wide variety of career options. A major in Latino/Latin American Studies (LLS) or a minor in Chicano/ Latino Studies (CLS) may be particularly useful to those students planning a career in public service, non-profits, education, law, health, counseling, and business. LLS offers student research, study abroad and internship opportunities which help prepare them for their chosen careers and graduate school. In sum, the program offers what we like to call "the LLS Job Credential":

LLS offers what 21st century employers want and what the world needs:
• Individuals who are knowledgeable about local Latino cultures and issues while understanding the global contexts which influence them today.
• Professionals with increased proficiency in languages as well as excellent writing and critical thinking skills.
• Problem-solvers, team players and ethical professionals ready to meet the challenges of the dynamic changes taking place in the 21st century here and abroad.
• Individuals ready to continue their learning process beyond a bachelor’s degree

Other Information
All coursework taken for the LLS major or CLS minor must be completed with a grade of “C-” or better.

The Senior Capstone
In the spring of their senior year, students must complete the Senior Capstone. This capstone has two components. On the one hand, students need to complete an e-Portfolio. In this e-Portfolio, students will gather documents and “artifacts” that are representative of their learning process as LLS majors. Students must also write prompted reflections regarding these documents and “artifacts.” On the other hand, students need to complete an internship in a relevant community organization, as research assistant for an OLLAS faculty member, or in any of the areas of the OLLAS office; research, community engagement, or communications.

unollas@unomaha.edu

Website (http://www.unomaha.edu/college-of-arts-and-sciences/ollas/)

Degrees Offered
• Latino/Latin American Studies, Bachelor of Arts (p. 214)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the LLS major, this is LLS 4990. Three hours are earned through the completion of a senior capstone project that also fulfills the departmental writing course requirement (three hours).

Minors Offered
• Chicano/Latino Studies Minor (p. 217)

LLS is an interdisciplinary program that seeks to combine academic excellence with real-world engagement in order to enhance our understanding of Latino and Latin American peoples and critical issues. Our major uses an interdisciplinary approach to prepare our students for multiple careers that require a cultural, historical, social, and political grounded knowledge of Latinos in the United States and the Latin American region. In an ever-changing world, our program prepares critical thinkers, researchers, and practitioners, ready to engage with the fastest growing minority in the United States and with a world region of historical relevance to the nation.

Our majors are well prepared to continue graduate and professional programs in the social sciences and the humanities, including sociology, political sciences, history, public health, social work, and law among others. In addition, when chosen as a complementary major, we provide an excellent set of tools to those pursuing careers in education, the arts, local and international business, diplomacy, medical sciences, technology design, and government to name a few. Some of our graduates are currently working in
• community-based non-profit organizations
• large private foundations
• schools
• law offices
• local government
• and hospitals.

LLS 1000 LATIN AMERICA: AN INTRODUCTION (3 credits)
The course introduces the students to the study of Latin America. Its main focus is on contemporary Latin American societies and regional dynamics, but historical forces and the impact of globalization are continuously evaluated. Students will learn about the region’s dominant forces and trends associated with development policies, political regimes, population changes, urbanization, and a whole host of social problems, challenges and perspectives. Topics for readings, discussions and assignments include social inequality, gender, race, violence, the environment, food, health, education, social media, religion, emigration and international relations. Students will have opportunities to explore in more depth specific topics as well.

Distribution: Social Science General Education course and Global Diversity General Education course

LLS 1010 INTRO TO CHICANO-LATINO STUDIES: SOCIAL SCIENCES (3 credits)
The course introduces the students to key social, political, economic, and cultural issues related to the Latino experience in the U.S., and it utilizes conceptual, analytical, and methodological tools from the social sciences in order to promote their understanding.

Distribution: Social Science General Education course and U.S. Diversity General Education course

LLS 1020 INTRODUCTION TO CHICANO-LATINO STUDIES: HUMANITIES (3 credits)
The course introduces students to intellectual, artistic, literary, musical, and other cultural traditions and contributions of Chicanos Latinos in the U.S. and in their historical crossing of real and imaginary borders. The unique contributions of different racial, ethnic, gender, and other social groups within the Latino population are discussed.

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

LLS 2800 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES: HUMANITIES (3 credits)
An interdisciplinary topical approach that explores various aspects of Latino/Latin American Studies. Selected topics will be suitable for examination from an inter- and multidisciplinary humanities perspective (literature, visual and performance arts, music, religion, history, philosophy). Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to six credits if content differs.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

LLS 2900 SPECIAL TOPICS IN LATINO/LATIN AMERICAN STUDIES: SOCIAL SCIENCES (3 credits)
The course introduces students to in-depth examinations of novel topics related to Latin American societies, U.S. Latinos and migrants. The courses draw from varying combinations of social sciences (sociology, anthropology, political science, psychology, law, economics and international studies). Topics vary from term to term and examples include: Immigration Laws and Latinos across the Americas, Violence and human security in Central America. Repeatable up to nine credits if content differs

Distribution: Global Diversity General Education course and Social Science General Education course
LLS 3050 LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE (3 credits)
This course focuses on the development and intensive practice of oral expression in Spanish, and is intended for students interested in the fields of business, health, education, environmental sciences, social work, and cultural studies, who are either heritage speakers of Spanish or who are completing a major/minor in Spanish. The class provides a broad context of current relevant issues in Latin America, including politics and society; the state of the economy after decades of neoliberalism; racism; indigenous and Afro-descendent identities; domestic and gender violence; health and disabilities; adult, youth, & child immigration; and ecology and the environment. (Cross-listed with SPAN 3050).
Prerequisite(s)/Corequisite(s): SPAN 3010 or SPAN 3030 & SPAN 3040

LLS 3140 LATINO/-A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, PSCI 3140, LLS 8145)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

LLS 3420 LATIN AMERICAN CIVILIZATION (3 credits)
What do we know about Latin American culture, geography, politics and languages? How has Latin America been imagined from the United States? Does it make sense to think of Latin America as one space brought together by a similar history or is it better to imagine it as twenty particular countries with intersecting pasts and futures? This course will attempt to answer these questions by introducing you to a number of key topics and debates common to contemporary Latin American culture, including issues such as democracy, class, race/ethnicity, gender/sexuality, religion, family and globalization. (Cross-listed with SPAN 3420).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, SPAN 3060.

LLS 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with LLS 8685, PSCI 3680, PSCI 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

LLS 3800 TOPICS IN LATINO/LATIN AMERICAN STUDIES:
HUMANITIES (3 credits)
An interdisciplinary topical approach that explores various aspects of Latino/Latin American humanistic expressions. Selected topics will be suitable for examination from an inter and multidisciplinary humanities perspective (literature, visual and performing arts, history, music, religion, and philosophy). Topics and disciplines will vary from term to term. Repeatable up to six credits if content differs.
Prerequisite(s)/Corequisite(s): Junior standing or permission of the instructor

LLS 3900 TOPICS IN LATINO/LATIN AMERICAN STUDIES: SOCIAL SCIENCES (3 credits)
A discussion-led course on current and evolving issues and questions related to Latin American societies, U.S. Latinos, and migrants. The courses draw from varying combinations of social sciences (sociology, anthropology, political science, psychology, law, economics, and international studies). Topics fall within the social sciences and vary from term to term and examples include Immigration Laws and Latinos across the Americas, Violence and human security in Central America, among others. The course may also include service-learning assignments when appropriate.
Prerequisite(s)/Corequisite(s): A social science course.

LLS 4140 INTRODUCTION TO LATIN AMERICAN FILM (3 credits)
The course will be a thematic study of significant Latin American films emphasizing and further investigating their relationship to history, culture, society and political issues that have often given rise to social movements. Films from a variety of Spanish-speaking countries including Mexico, Argentina, Chile, Cuba, Bolivia, etc. will be studied in their socio-political context. At the 8146 level, students will be introduced to theoretical approaches such as early film theory, montage theory, feminist theory, race theory, and phenomenological film theory in order to deepen their understanding these themes. (Cross-listed with SPAN 8146, SPAN 4140).
Prerequisite(s)/Corequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060

LLS 4170 INTRODUCTION TO LATIN AMERICAN LITERATURES (3 credits)
The course is intended as an introduction to the study of canonical and non-canonical texts in Latin American literatures, from the 16th to 21st centuries. It seeks to acquaint students with the rich literary traditions of a large region, from South America to Central America and Mexico, as well as with the historical challenges posed by the salient heterogeneity of texts included in the Latin American corpus, from the standpoint of ethnicity, gender, social class, and literary genre. The course also focuses on continuing to develop Spanish language skills, specifically reading for comprehension and interpretation of metaphorical meaning, writing, and presentational speaking skills in Spanish. (Cross-listed with SPAN 8176, SPAN 4170).
Prerequisite(s)/Corequisite(s): SPAN 3030, SPAN 3040, SPAN 3010, SPAN 3020; SPAN 3060.

LLS 4240 SOCIAL TRANSFORMATIONS IN LATIN AMERICA (3 credits)
The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's position in the global economy are examined. (Cross-listed with SOC 8246, SOC 4240, LLS 8246).
Prerequisite(s)/Corequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

Distribution: Global Diversity General Education course

LLS 4250 CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS (3 credits)
In this course we will use an interdisciplinary lens to study the changes and continuities of migration in the Americas. The course starts with an overview of immigration to the Americas during the first era of mass migration (1850-1920) to explore the relevance of European migrations for national and identity constructions in the Southern Cone of America. Students then will be introduced to the impacts of social and political change on migration flows, both regionally and beyond the region. They will also explore migration related policies at the national and regional level. We will also study the changes and continuities in the migration system of the Americas. Lastly, we will analyze the new North-South migration, as well as immigration to Latin America from Asia (recent and historical), Europe, and Africa. (Cross-listed with SOC 4250, SOC 8256, LLS 8256).
Prerequisite(s)/Corequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

Distribution: Global Diversity General Education course
LLS 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department’s international politics requirement). (Cross-listed with LLS 8286, PSCI 4280, PSCI 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of the instructor.
Distribution: Global Diversity General Education course

LLS 4780 URBAN LATIN AMERICA (3 credits)
This course examines the experience of Latin American urbanization, attending to its contributions to urban sociology, social movements, and policymaking. Topics include urban transitions (e.g. pre-Hispanic to colonial, post-colonial to industrial, and the neoliberal turn), socio-spatial configurations (e.g. plazas, squatter settlements), urban marginality and expectation debates, urban politics, and planning as well as governance innovations (e.g. bus rapid transit systems, participatory budgeting). Students will compare city case studies across the region and to urban life in the United States. (Cross-listed with SOC 4780, SOC 8786, LLS 8786).
Prerequisite(s)/Corequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.
Distribution: Global Diversity General Education course

LLS 4900 INDEPENDENT STUDY (3 credits)
This course is designed for those students who are capable of pursuing, independently, an area of Latino/Latin American Studies that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the LLS department. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.
Prerequisite(s)/Corequisite(s): Permission of LLS faculty member required.

LLS 4910 CONTEMPORARY TOPICS IN LLS: SOCIAL SCIENCES (3 credits)
This is a discussion-led course on current and evolving issues and questions pertaining to the Latino and Latin American immigrant population in the United States and its transnational ties to Latin America and the Caribbean. Topics fall within the social sciences. The course may also include service-learning assignments when appropriate. (Cross-listed with LLS 8916.)
Prerequisite(s)/Corequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above and/or permission of the instructor.

LLS 4920 CONTEMPORARY TOPICS IN LLS: HUMANITIES (3 credits)
This course is an interdisciplinary topical approach that explores various aspects of Latin/Latin American Studies. Selected topics will be suitable for examination from the perspective of the humanities (literature, art, dance, music, theatre, and philosophy topics). Topics and disciplines will vary from term to term. Course description will be announced in advance. Repeatable up to nine credits if content differs. (Cross-listed with LLS 8926.)
Prerequisite(s)/Corequisite(s): One humanities and one LLS course and junior standing or permission of the instructor.

LLS 4950 LATIN AMERICAN STUDY ABROAD (1-3 credits)
This course is designed as an international study abroad course that will introduce undergraduate and graduate students to the dynamism of socio-cultural, economic and political changes taking place across Latin America. Note: International travel and special fees required. (Cross-listed with LLS 8956)
Prerequisite(s)/Corequisite(s): Senior standing or Junior standing with permission of the department. LLS 1000 or LLS 1010 or equivalent and departmental permission.

LLS 4990 LATINO/LATIN AMERICAN STUDIES CAPSTONE (3 credits)
This is the final course in the LLS major. As such it is a writing-intensive course for students majoring in Latino/Latin American Studies. The purpose of this course is to allow students to integrate their course experiences into an activity that reflects the cumulative knowledge gained from their class instruction. Students will have to complete three activities: 1. Develop an e-portfolio. 2. Participate in an internship. 3. Write a report and prepare a poster presentation in direct relation to the internship.
Prerequisite(s)/Corequisite(s): Senior standing (or students in junior standing with permission from the instructor) and LLS 1000, LLS 1010 or 1020, and a research methods course approved for LLS credit, and ENGL 1160 or equivalent. Not open to non-degree graduate students.

Latino/Latin American Studies, Bachelor of Arts
Requirements
The major in Latino/Latin American Studies (LLS) prepares students with a comprehensive understanding of Latino and Latin American critical issues, peoples, societies and cultures. Students learn about critical issues such as: urban segregation; education; health and socioeconomic disparities; environmental justice; political mobilization; human rights; migration; language shifts; and cultural creations. Employers and post-graduate programs today seek to recruit students with the kind of integral knowledge an LLS degree provides. Students can easily double major in Spanish, social sciences, humanities, natural sciences and more.

Although the Office of Latino/Latin American Studies (OLLAS) does not yet offer a graduate degree, it does offer a number of graduate courses. Students pursuing graduate programs in other colleges and departments are encouraged to concentrate on Latinos or Latin America and take advantage of Latino/Latin American Studies course offerings.

To obtain a B.A. with a major in LLS, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

(Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours to 40 or fewer.)

46 hours of University General Education courses
16 hours of foreign languages
12 hours college breadth requirement
48 hours of major courses
Elective hours as required to total 120 hours

TOTAL HOURS: 120

The major requires a total of 30 credit hours. Not included in the 30 credit hours: at least 16 credit hours of Spanish or Portuguese (also fulfill Arts & Sciences language requirement). Students whose primary major is in a college other than Arts & Sciences must complete at least two semesters in Spanish or Portuguese. If Native/heritage speakers of Spanish may be exempt from this requirement. Such students should contact the Foreign Languages & Literature Department for correct placement to determine if additional coursework is necessary.

Residency requirement: No student may transfer into the major more than 9 credits. Students must complete at least 21 of the 30 credit hours at UNO.

Senior Project

LLS 4990  LATINO/LATIN AMERICAN STUDIES CAPSTONE  3

Electives

Select 18 hours of LLS-approved elective courses (see below).  18

Total Credits  30

Electives

An additional 18 hours of LLS-approved elective courses, from the list below. A maximum of 9 of the 18 elective hours may be taken from a single department. At least 18 of the 30 credit hours must be taken at the 3000 or 4000 level.

See approved courses for Latin/Latin American Studies below. For Special Topics courses, since the topics may change often, not all titles may be listed below. In general, a Special Topics course relating to Latinos or Latin America may be accepted toward LLS electives if approved by the OLLAS Director.

  • LLS 4990: Requires Senior standing, LLS 100, LLS 1010 or 1020, approved Research Methods or Statistics course, and ENGL 1160.

*Students need 27 upper level credits throughout the degree.
Electives may need to be selected at the 3000-4000 level to reach this minimum.
120 credits minimally needed for a degree. Take as many electives as is needed to reach this minimum.

Credit 15-16

Total Credits 119-121

1 LLS requires 16 hours of Spanish or Portuguese language coursework.
UNO does not offer Portuguese, but does offer Spanish. A student beginning with level 1 would take SPAN 1110 (which also counts as a Humanity/Fine Arts course), SPAN 1120, SPAN 2110 and 2120. A student who has taken up through Level IV Spanish in high school would be exempt from taking Spanish at UNO but would not earn any credit. The student could take the Foreign Language Placement Exam and try to test into level SPAN 2120 or even 3000. By taking one 3-credit 3000 level Spanish course or SPAN 2120, and passing it with a C- or better, the non-native Spanish speaker would be able to request 13-16 free retroactive credits for the Spanish courses they passed over. Those credits and courses would fill the gap of credits and earn them a Humanity/Fine Arts course. On a similar note, a native Spanish or Portuguese speaking student would be exempt from this requirement completely but would not earn any college credit toward their degree. The native Spanish speaker could gain permission to take SPAN 3010-Spanish for Heritage Speakers for 3 credits and after passing it, receive 16 free retroactive credits toward their degree. A student who fulfills the language requirement by virtue of native Spanish or Portuguese language speaking abilities, or Spanish/Portuguese through high school up through level IV and who chooses not to attempt SPAN 2120, a 3000-level Spanish or SPAN 3010 (for native Spanish speakers) at UNO will need to fill the 16 credit gap in their degree plan which will be as a result of not taking the FLNG courses planned in this 4-year plan. The student will need to include an additional Humanities/Fine Arts Gen Ed course within those 16 credits. Please consult with your advisor to discuss your options.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Chicano/Latino Studies Minor

Requirements

The OLLAS minor is the "perfect" complement to a wide variety of majors across campus where the work of the discipline intersects with the growing presence and importance of Latinos (Mexicanos, Chicanos, Central Americans, and South Americans) here in the U.S. and our local communities. These include Business and Finance, Social Work, Criminal
Justice, Journalism, Education, Fine Arts, Spanish, Sociology, History and Political Science to name a few. CLS focuses primarily on U.S. Mexican and Latino communities.

Residency requirement: No student may transfer into the minor more than 6 credits. Students must complete at least 12 of the 18 credit hours at UNO.

A total of 18 credit hours to include:

<td>3</td>
</tr>
</tbody>
</table>

**Electives**

An additional 15 hours of LLS approved elective courses. Unless approved by the OLLAS director/academic advisor, a maximum of nine hours of elective courses may be taken from a single department. At least 12 of the 15 credit hours must be taken at the 3000 or 4000 level.

1. See approved courses for Latin/Latin American Studies below.
2. For Special Topics courses, since the topics may change often, not all titles may be listed below. In general, a Special Topics course relating to Latinos or Latin America may be accepted toward LLS electives if approved by the OLLAS Director.

Mathematics

Students interested in specializing in mathematics and intending to do either graduate work in Mathematics or work in business or industry will be interested in this degree. The Mathematics Department Degree Program prepares students for employment in the private or public sector, graduate school, and scientific research. Studying mathematics naturally develops quantitative thinking and analytic problem solving, talents with universal application. Demand will always be high for individuals with these universal talents to solve society’s diverse and complex problems.

Eight concentrations and a No Concentration Option are available for a Bachelor of Arts and a Bachelor of Science.

Other Information

All coursework taken for the mathematics major or minor must be completed with a grade of C- or better.

Double Majors

If planned correctly, some disciplines, such as computer science and math 6-12 teaching endorsement, require few, if any, additional math courses beyond what is required for the major. Talk to your advisor about double majoring with Mathematics to expand your educational opportunities!

Bachelor of Arts and Bachelor of Science in Mathematics

The B.A. and B.S. Degrees with a major in Mathematical Sciences consists of 47 credits of required courses in Mathematics. Approved Statistics courses may also be included. Either degree option has eight possible concentrations and a No Concentration Option. The concentrations are defined by the required upper division courses.

Degrees Offered

• Mathematics, Bachelor of Arts (p. 225)
• Mathematics, Bachelor of Science (p. 238)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the math major, select one of the following:

Code   Title                        Credits
ENGL 3980 TECHNICAL WRITING ACROSS THE DISCIPLINES 3
ENGL 3050 WRITING FOR THE WORKPLACE 3
CIST 3000 ADVANCED COMPOSITION FOR IS&T 3

The Bachelor of Arts Degree requires foreign language through the intermediate level (16 credits).

The Bachelor of Science Degree requires at least 15 hours of related Cognate coursework that must be approved by the Math Academic Advisor/Coordinator. Students can also choose any UNO Minor to satisfy their Cognate requirement; however, this Cognate minor cannot double-
count as the Option 1 minor for the College of Arts & Sciences College Breadth Requirement. A Computer Science Minor cannot satisfy the Cognate requirement for Mathematics. No more than 6 credits of Cognate coursework may double-count within the general education requirements.

**Minors Offered**

• Math Minor (p. 252)

The Mathematics Department Degree Program prepares students for employment in the private or public sector, graduate school, and scientific research. Studying Mathematics naturally develops quantitative thinking and analytic problem solving, skills with universal application. Mathematics majors learn to make critical observations, organize, analyze, and interpret data, and extract information and patterns. Demand will always be high for individuals with these universal skills to solve society’s diverse and complex problems.

Mathematics majors often pursue careers as a:

• Cryptanalyst – developing encryption for cyber security for the Defense Department.
• Data scientist – analyzing data to make predictive decisions for a retailer.
• Operations Research Analyst – optimally determining which aircraft an airline should purchase.
• Teacher – teaching Math at the 7-12 level.
• Actuary – evaluate risk and help companies make decisions.

When the Mathematics major is matched with complementary minors and thoughtful internships, new possibilities arise. A few examples are:

• Math + Biology = Biomathematician: modeling biological processes for a Biotech company.
• Math + Graphic Design = Animator: making realistic graphics for a movie.
• Math + Forensics = Forensics Analyst: solve crimes for the FBI.
• Math + Geology = Hydrologist: solving problems related to water quantity, quality, and availability for the U.S. Geological Survey.
• Math + English = Technical writer: writing documents for industries that need writers fluent with numbers and calculations.

**MATH 1120 INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING (3 credits)**

This course embraces the visual arts to introduce students to the foundational elements of mathematical and computational thinking. Visual patterns form the basis for explorations in arithmetic and geometric sequences, from which algebraic functions and corresponding functions in computer programs are reasoned.

**Distribution:** Math

**MATH 1130 QUANTITATIVE LITERACY (3 credits)**

Designed to equip students with the mathematical, statistical, and computational skills necessary to explore real-life situations. Students will learn and practice critical-thinking and problem-solving skills needed to use quantitative information to make responsible decisions in a variety of areas such as finance, health, and the environment.

**Distribution:** Math

**MATH 1210 INTERMEDIATE ALGEBRA (3 credits)**

This course is designed to prepare students to be successful in MATH 1220. Topics include simplifying mathematical expressions, the properties of equality, solving linear equations in one variable, using linear equations to solve problems, fractions, ratios and proportions, graphing and the rectangular coordinate system, relations and functions, systems of linear equations and inequalities in two variables, polynomial expressions and functions, factoring and solving polynomial equations. Credit earned in MATH 1210 will not count toward degree requirements.

**Prerequisite(s)/Corequisite(s):** One of the following within the last two years: ALEKS score of 1 or 2, ACT Math sub score of 18 or less, Math SAT sub score at least 220, Math SAT2016 sub score at least 230, Accuplacer score of 1 or 2, or MATH 1210.

**MATH 1220 COLLEGE ALGEBRA (3 credits)**

This course presents properties of real numbers, linear equations and graphing, systems of equations, linear inequalities, polynomials, algebraic fractions, exponents, logarithms, and an Introduction to Statistics. This course is designed to prepare students to be successful in MATH 1320 or MATH 1370. Students who have passed MATH 1310 with a C- or better should not take this course.

**Prerequisite(s)/Corequisite(s):** Within the last two years: ALEKS score at least 3, ACT Math at least 19, SAT Math at least 460, SAT2016 Math at least 500, Accuplacer at least 3, MATH 1210 C- or better or MATH 1220. Students who passed MATH 1310 (C- or better) should not take MATH 1220.

**Distribution:** Math

**MATH 1230 PRE-CALCULUS ALGEBRA (3 credits)**

An advanced algebra course that teaches the following topics: algebraic operations, functions, graphs, linear and quadratic equations and inequalities, polynomial and rational functions, systems of equations, binomial theorem, complex numbers, exponentials, logarithms, sequences, series, and combinatorics.

**Prerequisite(s)/Corequisite(s):** One of the following within the last two years: ALEKS score of at least 4, ACT Math at least 23, Math SAT at least 540, Math SAT2016 at least 570, Accuplacer score at least 4, MATH 1220 or MATH 1310 each with C- or better, or MATH 1320

**MATH 1320 TRIGONOMETRY (3 credits)**

This course introduces elements of plane trigonometry, including trigonometric and circular functions, inverse trigonometric functions, solutions of triangles, identities and conditional equations, vectors, and conic sections.

**Prerequisite(s)/Corequisite(s):** One of the following within the last two years: ALEKS score of at least 5, ACT Math at least 25, Math SAT at least 570, Math SAT2016 at least 590, Accuplacer score at least 4, MATH 1220 or MATH 1310 each with C- or better, or MATH 1330

**MATH 1340 ALGEBRA AND TRIGONOMETRY FOR CALCULUS (5 credits)**

A combined algebra and trigonometry course for science and engineering students planning to enroll in MATH 1950. Topics include: systems of equations, polynomials and rational functions, exponential and logarithmic functions, trigonometric functions and their inverses, trigonometric identities and applications, conic sections, and complex numbers. Credit for both MATH 1320/MATH 1324 and MATH 1340, or both MATH 1330 and MATH 1340 will not be given.

**Prerequisite(s)/Corequisite(s):** One of the following within the last two years: ALEKS score of at least 4, ACT Math at least 23, Math SAT at least 540, Math SAT2016 at least 570, Accuplacer at least 5, MATH 1310 or MATH 1220 C- or better, or MATH 1340
MATH 1370 APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS (4 credits)
This is an applied algebra course with optimization, teaching the following topics with an emphasis on data analysis and application: algebraic, exponential, and logarithmic functions; derivatives and applications thereof; and statistics. The course will emphasize data analysis and applications of covered topics in order to demonstrate the relevance of mathematics to solving real-world problems.
Prerequisite(s)/Corequisite(s): One of the following within the last two years: ALEKS score of at least 4, ACT MATH sub score at least 23, SAT MATH at least 540, SAT2016 Math at least 570, Accuplacer at least 4, MATH 1310 or MATH 1220 with C- or better, or MATH 1370

MATH 1930 CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (3 credits)
Topics covered include functions, limits, derivatives, integrals, and applications. Trigonometry is not required. May not be used as a prerequisite for MATH 1960. Credit will not be granted for both MATH 1930 and 1950.
Prerequisite(s)/Corequisite(s): One of the following within the last two years: ALEKS score of at least 5, ACT MATH sub score at least 25, SAT MATH at least 570, or Math SAT2016 at least 590, Accuplacer score at least 6, MATH 1320 with C- or better, or MATH 1930

MATH 1940 CALCULUS FOR BIOMEDICINE (5 credits)
Introductory calculus with an emphasis on dynamical systems analysis applied to biological systems. Topics include differential and integral calculus, elementary chaos theory, discrete modeling, neural networks, and elementary differential equations, population dynamics, and biochemical signal transduction.
Prerequisite(s)/Corequisite(s): One of the following within the last two years: ALEKS score of at least 5, ACT MATH sub score at least 25, SAT MATH at least 570, SAT2016 at least 590, Accuplacer score at least 6, MATH 1320 with C- or better; or permission of instructor

MATH 1950 CALCULUS I (5 credits)
This is a course in plane analytic geometry emphasizing the study of functions, limits, derivatives and applications, and an introduction to integration.
Prerequisite(s)/Corequisite(s): One of the following within the last two years: ALEKS score of at least 6, ACT MATH at least 26, SAT MATH at least 590, SAT2016 at least 610, Accuplacer score of 7, MATH 1320 and MATH 1330 or MATH 1340 with C- or better; or permission of instructor

MATH 1960 CALCULUS II (5 credits)
This course introduces applications of integration, techniques of integration, infinite sequences and series, vectors in the plane, and polar functions. A mathematical software package is introduced, with required assignments.
Prerequisite(s)/Corequisite(s): MATH 1950 with a grade of C- or better or permission of instructor.

MATH 1970 CALCULUS III (4 credits)
This course presents vector functions, parametric equations, solid analytic geometry, partial differentiation, multiple integration, and an introduction to vector calculus. A mathematical software package is introduced with required assignments.
Prerequisite(s)/Corequisite(s): MATH 1960 with a grade of C- or better, or MATH 1970 with a grade of F or better, or permission of instructor.

MATH 2030 DISCRETE MATHEMATICS (3 credits)
A foundations course in discrete mathematics for applied disciplines, including computer science and computer engineering. Topics include: logic, sets, relations, functions, complexity functions and big congruences, induction and recursive definitions, elementary combinatorics, discrete probability, graphs and trees.
Prerequisite(s)/Corequisite(s): MATH 1950 or MATH 1930.

MATH 2050 APPLIED LINEAR ALGEBRA (3 credits)
This course presents Matrix algebra, simultaneous equations, vector spaces, with applications of linear algebra and computational considerations. Mathematical software is utilized, with required assignments.
Prerequisite(s)/Corequisite(s): MATH 1940 or MATH 1950 with a grade of C- or better

MATH 2200 MATHEMATICAL COMPUTING I (3 credits)
This is a first course in mathematical computing. It covers the basic elements of scientific programming in both a computer algebra system and a high-level programming language. Explored are implementation issues, problem description, model building, method development, and solution assessment.
Prerequisite(s)/Corequisite(s): MATH 1950

MATH 2230 INTRODUCTION TO ABSTRACT MATH (3 credits)
This course provides a transition from the calculus to more abstract mathematics. Topics include logic, sets and functions, an introduction to mathematical proof, mathematical induction, relations. Important prerequisite material for a number of more advanced mathematics courses is studied. Credit will not be given for both MATH 2030 or MATH 2040) and MATH 2230.
Prerequisite(s)/Corequisite(s): MATH 1960 or permission

MATH 2235 DIFFERENTIAL EQUATIONS (3 credits)
Topics include solutions of linear and first-order nonlinear differential equations with applications, higher-order linear differential equations with applications, power series solutions, and Laplace transform methods.
Prerequisite(s)/Corequisite(s): MATH 1960 with a grade of C- or better or permission of instructor.

MATH 3100 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya's formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with MATH 8105, CSCI 3100, CSCI 8105).
Prerequisite(s)/Corequisite(s): MATH 2030, MATH 2040, MATH 2230, or CSCI 2030 all with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

MATH 3200 MATHEMATICAL COMPUTING II (3 credits)
This course is a second course in mathematical computing. It covers the design and development of algorithms and more advanced elements of programming in a mathematical context. The programming language Python will be used. The programming assignments are primarily based on data science and calculus concepts and are designed to reinforce and deepen the understanding of these concepts.
Prerequisite(s)/Corequisite(s): CIST 1400 or MATH 2200, and MATH 1970 (the latter may be taken concurrently)

MATH 3230 INTRODUCTION TO ANALYSIS (3 credits)
This course provides a theoretical foundation for the concepts of elementary calculus. Topics include real number system, topology of the real line, limits, functions of one variable, continuity, differentiation. (Cross-listed with MATH 8235).
Prerequisite(s)/Corequisite(s): MATH 1960 and MATH 2230 each with a grade of C- or better.

MATH 3300 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with MATH 8305, CSCI 3300, CSCI 8305).
Prerequisite(s)/Corequisite(s): MATH 1960 with a C- or better or permission of instructor

MATH 3400 THEORY OF INTEREST (3 credits)
A study of the measurement of interest, annuities, amortization schedules and other financial mathematics topics.
Prerequisite(s)/Corequisite(s): MATH 1970
MATH 3640 MODERN GEOMETRY (3 credits)
This course will study the modern foundations of Euclidean and Non-Euclidean Geometry. Included will be a study of the principles of axiomatic systems. Euclidean Geometry will be investigated using Hilbert's axioms for Euclidean geometry (or another equivalent Euclidean geometry axiom set). Hyperbolic geometry will be encountered through the models of Klein and Poincare. Neutral geometry with Lambert and Saccheri quadrilaterals will be studied. Finite geometries and projective geometries will also be explored. (Cross-listed with MATH 8645).
Prerequisite(s)/Corequisite(s): MATH 2230 with a grade of C- or better.

MATH 3850 HISTORY OF MATHEMATICS (3 credits)
An overview of the history of mathematics and famous mathematicians via studying and solving famous mathematical problems, exploring famous mathematical theorems, and studying the biographies of famous mathematicians. (Cross-listed with MATH 8855).
Prerequisite(s)/Corequisite(s): Students who enroll in this course should have completed MATH 1970 and MATH 2230 in order to have the minimum amount of mathematical background needed to appreciate the mathematical content of the course.

MATH 4010 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with CSCI 4010, CSCI 8016, MATH 8016).
Prerequisite(s)/Corequisite(s): MATH 2230 or MATH 2030 with a C- or better or CSCI 3660 with a C- or better or instructor's permission.

MATH 4030 MODERN ALGEBRA (3 credits)
Algebra is the study of mathematical manipulations that preserve something (like equality - when solving equations). The areas in which Algebra finds application are quite diverse, from Ancient Greek Geometry through to Modern Information Protection and Security (error correcting codes, data compression, and cryptography). This course begins with topics that should be familiar (such as ruler-and-compass constructions, and modular arithmetic) and builds upon this foundation through polynomial rings up to finite fields and basic group theory. (Cross-listed with MATH 8036).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better

MATH 4050 LINEAR ALGEBRA (3 credits)
Linear algebra is extensively utilized in the mathematical modeling of many natural phenomena. Many scientific and engineering disciplines, such as data science, chemical engineering and biology, make extensive use of the theory and techniques commonly present in basic to advanced linear algebra courses. The goal of this course is to help students to grasp a solid theoretical understanding of vectors, vector spaces, inner product spaces, linear transformations, eigenvalues, canonical forms, complex vectors, matrices, and orthogonality. By going through the materials in a mathematically rigorous way, students will develop deeper and more accurate intuitions of the basic concepts in linear algebra. Consequently, the applications of linear algebra will become much more transparent. (Cross-listed with MATH 8056).
Prerequisite(s)/Corequisite(s): MATH 2050 with a grade of C- or better; MATH 2030 or MATH 2230 or equivalent with a grade of C- or better; or permission

MATH 4110 ABSTRACT ALGEBRA I (3 credits)
An introduction to group theory. Various classes of group are studied: symmetric groups, abelian, cyclic, and permutation groups. Basic tools are developed and used: subgroups, normal subgroups, cosets, the Lagrange theorem, group homomorphisms, quotient groups, direct products, and group actions on a set. The course culminates with the Sylow theorems in finite group theory. The theory is illustrated with examples from geometry, linear algebra, number theory, crystallography, and combinatorics. (Cross-listed with MATH 8116).
Prerequisite(s)/Corequisite(s): MATH 4050/MATH 8056 with a C- or better or MATH 4560/MATH 8566 with a C- or better or permission of instructor

MATH 4120 ABSTRACT ALGEBRA II (3 credits)
An introduction to ring and field theory. Various classes of commutative rings are considered including polynomial rings, and the Gaussian integers. Examples of fields include finite fields and various extensions of the rational numbers. Concepts such as that of an ideal, integral domain, characteristic and extension field are studied. The course culminates with an introduction to Galois theory. Applications include the resolution of two classical problems: the impossibility of angle-trisection and the general insolvability of polynomial equations of degree 5 or higher. (Cross-listed with MATH 8126).
Prerequisite(s)/Corequisite(s): MATH 4110/MATH 8116 with a C- or better or permission of instructor

MATH 4150 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with MATH 8156, CSCI 4150, CSCI 8156).
Prerequisite(s)/Corequisite(s): CSCI 2030 with a C- or better, or MATH 2030 with a C- or better, or MATH 2230 with a C- or better, or permission of instructor.

MATH 4230 MATHEMATICAL ANALYSIS I (3 credits)
Provides a theoretical foundation for the concepts of elementary calculus. Topics include ordered fields and the real number system, basic properties of complex numbers, metric space topology, sequences and series in Rk, limits and continuity in a metric space, monotonic functions. (Cross-listed with MATH 8236).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235

MATH 4240 MATHEMATICAL ANALYSIS II (3 credits)
Provides a theoretical foundation for the concepts of classical Calculus (vector calculus included). Topics include sequences and series of functions, uniform convergence, power series, Fourier series, multivariable real differential and integral calculus, the Implicit Function Theorem, integration of different forms, and the important formulas, connecting those integrals, due to: Green, Gauss, Riemann, and Ostrogradski. (Cross-listed with MATH 8246).
Prerequisite(s)/Corequisite(s): MATH 4230/MATH 8236

MATH 4270 COMPLEX ANALYSIS (3 credits)
This course is an introduction to the theory of functions of a complex variable, a fundamental area of mathematics with multiple applications to science and engineering. Topics include the field of complex numbers, complex differentiation, the complex contour integral and Cauchy’s integral formula, Taylor expansions and analytic functions, conformal mapping and Riemann’s conformal equivalence theorem, residue theory and Laurent series, harmonic functions, and applications. (Cross-listed with MATH 8276).
Prerequisite(s)/Corequisite(s): MATH 3230/MATH 8235 or permission of the instructor.
MATH 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, CSCI 8306, MATH 8306).
Prerequisite(s)/Corequisite(s): MATH 2050 with a C- or better or permission of instructor.

MATH 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations, research models and algorithms. Topics include Markov chains, queueing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, CSCI 8316, MATH 8316).
Prerequisite(s)/Corequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

MATH 4320 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)
Survey of computational methods used in the solution of operations research problems. Topics include scripting to guide optimization software, metaheuristics for optimization, and basic machine learning algorithms. (Cross-listed with MATH 8326).
Prerequisite(s)/Corequisite(s): MATH 3200 and MATH 4300 each with a grade of C- or better or permission of instructor.

MATH 4330 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS (3 credits)
This course introduces the basic methods of PDEs guided by applications in physics and engineering. The main topics to be covered include The Linear First order PDEs, Transport equations, Characteristics, Classification of PDEs, Separation of variables, Heat conduction, vibrating membranes, boundary value problems, Maximum principle, Sturm-Liouville problems, Fourier series, Fourier integrals, Harmonic functions, Legendre polynomials, Distributions, Green's functions. (Cross-listed with MATH 8336).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better, or permission of instructor; MATH 2050 recommended, not required.

MATH 4350 ORDINARY DIFFERENTIAL EQUATIONS (3 credits)
This course covers the theory of initial-, boundary-, and eigenvalue problems, existence theorems, real and complex linear systems of differential equations, and stability theory. There will be a strong emphasis on methods for finding solutions of initial and boundary value problems and analyzing properties of these solutions for various ordinary differential equations. (Cross-listed with MATH 8356).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C- or better, or instructor's permission.

MATH 4400 THE FINITE ELEMENT METHOD (3 credits)
Prerequisite(s)/Corequisite(s): MATH 1970, MATH 2050 and MATH 2350 all with a C- or better or instructor permission. MATH 3300/ MATH 8305 and MATH 4330/MATH 8336 recommended. Students should be able to use a programming language (ie MATLAB) to complete computational assignments

MATH 4450 INTRODUCTION TO MACHINE LEARNING AND DATA MINING (3 credits)
This is an introduction to machine learning and data mining which covers the following topics with an emphasis on mathematical and statistical analysis: linear and nonlinear regression models, model selection and regularization methods, resampling methods, classification models, tree-based models, and unsupervised learning topics. If time allows, text mining and deep learning will also be introduced in the course. Statistical software will be used. (Cross-listed with MATH 8456, STAT 4450, STAT 8456)
Prerequisite(s)/Corequisite(s): MATH 4740/8746 with a C- or better or STAT 3800/8805 with a C- or better or permission of instructor.

MATH 4560 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with MATH 8566, CSCI 4560, CSCI 8566).
Prerequisite(s)/Corequisite(s): MATH 2230 with a C- or better or MATH 2303 with a C- or better or STAT 2305 with a C- or better or permission of instructor.

MATH 4610 INTRODUCTION TO TOPOLOGY (3 credits)
This is a proof-oriented course presenting the foundations of topology. Metric spaces and general topological spaces are introduced. The course explores the properties of connectedness, compactness and completeness, and operations of Tychonoff product and hyperspace. (Cross-listed with MATH 8616).
Prerequisite(s)/Corequisite(s): MATH 3230 with a C- or better or permission of instructor.

MATH 4620 ITERATED FUNCTION SYSTEMS AND FRACTALS (3 credits)
This is a proof-oriented course presenting the foundations of fractal geometry. It introduces students to the beauty, magic, and applications of fractals and iterated function systems, with emphasis on the mathematics behind it all. Topics range from contractions on hyperspaces and their fixed points to fractal dimensions to Julia and Mandelbrot sets. (Cross-listed with MATH 8626).
Prerequisite(s)/Corequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better, or permission of instructor.

MATH 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, CSCI 8666, MATH 8666)
Prerequisite(s)/Corequisite(s): MATH 2030. Recommended: CSCI 3320/ CSCI 8325.

MATH 4740 INTRODUCTION TO PROBABILITY AND STATISTICS I (3 credits)
A mathematical introduction to probability theory including the properties of probability; probability distributions; expected values and moments; specific discrete and continuous distributions; and transformations of random variables. (Cross-listed with MATH 8746).
Prerequisite(s)/Corequisite(s): MATH 1970 and either MATH 2230 or MATH 2303 or permission of instructor.
MATH 4750 INTRODUCTION TO PROBABILITY AND STATISTICS II (3 credits)
Theory and methods of statistical inference including sampling distributions, estimation, estimation, and statistical hypotheses. (Cross-listed with MATH 8756).
Prerequisite(s)/Corequisite(s): MATH 4740/MATH 8746

MATH 4760 TOPICS IN APPLIED MATHEMATICS (3 credits)
Selection of such topics as dynamical systems and chaos, Boolean networks, modeling of discrete or continuous systems, matrix theory, difference equations, information theory, discrete events simulation and other approved by Upper Curriculum Committee. (Cross-listed with MATH 8766).
Prerequisite(s)/Corequisite(s): MATH 3100/CSCI 3100

MATH 4900 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent research assignments and research-type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the MATH/STAT Undergraduate Curriculum Committee at least one week prior to registration.
Prerequisite(s)/Corequisite(s): Junior and permission of the chair

MATH 4970 SEMINAR IN APPLIED MATHEMATICS (3 credits)
A seminar in Applied Mathematics, where the students would read and present research in applied math and write their exposition of those topics.
Prerequisite(s)/Corequisite(s): MATH 3100/CSCI 3100

MATH 4980 SEMINAR (1-3 credits)
A seminar in mathematics. This course introduces students to an important form of mathematical activity and culture, where a specialized mathematical subject matter (not covered in typical courses) is studied and discussed in a collaborative setting. The course may be repeated for different topics up to a maximum of six credit hours. The specific topics will vary, depending upon when the course is offered. One example of a seminar topic is Current Trends in Set Theory of the Reals.
Prerequisite(s)/Corequisite(s): Permission of instructor.

STAT 1100 DATA LITERACY AND VISUALIZATION (3 credits)
Designed to help students become familiar with different types of data that are available in business, non-profit, and governmental organizations. Students will learn basic data organization and manipulation as well as appropriate visualization techniques including charts, maps, and dashboards using cutting edge software tools. Students will apply this knowledge and skills to real-world data and develop skills in presentation of research results, strategic decision making and forecasting analysis.
Distribution: Math

STAT 1530 ELEMENTARY STATISTICS (3 credits)
An elementary introduction to the basic concepts of probability, descriptive statistics, and statistical inference, including point estimation, confidence intervals, and hypotheses testing.
Prerequisite(s)/Corequisite(s): One of the following within the last two years: ALEKS score of at least 3, ACT Math sub score at least 19, Math SAT at least 460, Math SAT2016 at least 500, Accuplacer score at least 3, or MATH 1000 or MATH 1210 (each with a C- or better).
Distribution: Math

STAT 3000 STATISTICAL METHODS I (3 credits)
An introduction to descriptive statistics, measures of central value and dispersion, probability and distributions, population and sample, simple linear regression, statistical inference: point estimation, confidence intervals, hypotheses testing, two population comparison, goodness-of-fit tests, analysis of variance. Statistical software like Minitab or Excel will be utilized in the course. (Cross-listed with STAT 8005).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 or equivalent with a grade of C- or better.

STAT 3800 APPLIED ENGINEERING PROBABILITY AND STATISTICS (3 credits)
An introduction to the application of probability and statistics to engineering problems. Topics include: probability and probability distributions, mathematical expectation, distribution of random variables, binomial, Poisson, hypergeometric, gamma, normal, and t-distributions, Central Limit Theorem, confidence intervals, hypothesis testing. If time allows, some linear regression and contingency tables. Credit for both MATH 4740 and STAT 3800 will not be given. (Cross-listed with STAT 8805)
Prerequisite(s)/Corequisite(s): MATH 1970

STAT 4410 INTRODUCTION TO DATA SCIENCE (3 credits)
Topics covered in this course include Data Technology, Methods of gathering and cleaning structured or unstructured data, Exploratory data analysis & Dynamic and interactive data visualization, Modeling data for prediction, forecasting or classification. (Cross-listed with STAT 8416)
Prerequisite(s)/Corequisite(s): MATH 4740 with at least C- or concurrent or STAT 3800 with at least C- or permission of instructor. Students enrolling in this course should be comfortable with computer programming & have knowledge of data structures & preliminary statistical methods.

STAT 4420 EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION (3 credits)
Topics covered in this course include Exploratory Data Visualization for categorical/qualitative single/multivariate data, Grammar of Graphics, Organizing Data for Visualization, Methods of Displaying Data that include dynamic and interactive visualization, Visual Diagnostics of Statistical Models and Visual Statistical Inference. Students planning to enroll in this course should be comfortable with computer programming and have knowledge of data structures and preliminary statistical methods. (Cross-listed with STAT 8426)
Prerequisite(s)/Corequisite(s): STAT 3800 or STAT 8805 or MATH 4740 or MATH 8746 with a grade of C- or better or another introductory probability/statistics course with a grade of C- or better, and MATH 3200 or CSCI 1620 with a grade of C- or better, or permission of instructor.

STAT 4430 LINEAR MODELS (3 credits)
This is an introduction to linear statistical models which will include: simple linear regression models, multiple linear regression models, ANOVA models including one way ANOVA, randomized block design, and other designs. Also, logistic regression models, Poisson regression models, bootstrapping/resampling models, survival analysis. Some necessary linear algebra and mathematical statistics ideas will be covered in the course also. If time allows, some mixed models and/or survival models. Much use of computer software will be made. (Cross-listed with STAT 8436)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a C- or better or STAT 3800 or STAT 8805 w/ a C- or better or instructor permission based on students’ having taken a basic statistics course w/ a grade of C- or better & having at least a basic knowledge of calculus.

STAT 4440 TIME SERIES ANALYSIS (3 credits)
The objective of this course is to learn and apply statistical methods for the analysis of data that have been observed over time. Topics covered include: Models for Stationary and Non-Stationary Time Series, Model Specification, Parameter Estimation, Model Diagnostics, Forecasting. Seasonal Models, Time Series Regression, and Spectral Analysis. Statistical software will be used. (Cross-listed with STAT 8446)
Prerequisite(s)/Corequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8805 w/ a C- or better or another introductory probability/statistics course w/ a grade of C- or better, or permission of instructor.
**Requirements**

**STAT 4450 INTRODUCTION TO MACHINE LEARNING AND DATA MINING (3 credits)**

This is an introduction to machine learning and data mining which covers the following topics with an emphasis on mathematical and statistical analysis: linear and nonlinear regression models, model selection and regularization methods, resampling methods, classification models, tree-based models, and unsupervised learning topics. If time allows, text mining and deep learning will also be introduced in the course. Statistical software will be used. (Cross-listed with MATH 4450, MATH 8456, STAT 8456)

**Prerequisite(s)/Corequisite(s):** MATH 4740/8746 with a C- or better or STAT 3800/8805 with a C- or better or permission of instructor.

**Mathematics, Bachelor of Arts**

To obtain a B.A. with a major in Mathematics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 40 or fewer.)
- 16 hours foreign language requirement
- 12 hours college breadth requirement
- 47 hours of major courses
- Elective hours as required to total 120 hours

**TOTAL HOURS: 120**

**Requirements**

1 May not include both CIST 1400 and MATH 2200.

**Applied Mathematics Concentration**

This concentration is recommended for students interested in inherently interdisciplinary subjects which apply to many problems that arise in the physical, biological, economic, social, and network sciences as well as in engineering. Applied Mathematics provides a set of qualitative and quantitative skills and knowledge for use in these fields.

Applied Mathematics has a profound impact on our daily lives. Whether it is weather forecasts, genetic or neural networks, search engines, climate research, evolution of species, stock market and finance, ground or air transportation, architecture, or movie recommendations, none of these would work the way they do without algorithms and tools from the mathematical sciences. The concentration in Applied Mathematics allows students to investigate the mathematics of problems arising in the physical, biological, economic, social, and network sciences as well as in engineering.

Applied Mathematics appeals to people with a variety of different interests, ranging from those with a desire to obtain a good quantitative background for use in some future career, to those who are interested in the basic techniques and approaches in themselves.

47

**Data Science Concentration**

This concentration is recommended for students interested in a career as a Data Science professional or pursuing graduate study in disciplines with a strong data analysis component. Data Science is the art and science of transforming raw data into deliverable data products in order to help businesses or government agencies make more informed decisions.
Mathematics, Bachelor of Arts

**Requirements:**

**Mathematics Education Concentration**

This concentration is recommended for students interested in pursuing a career in Secondary Education. In some cases it is possible to simultaneously earn a B.S. or a B.A. in Math and a B.S. in Secondary Education.

<table>

</tbody>
</table>

**Pre-Actuarial Math Concentration**

This concentration is recommended for students interested in a career as an Actuary and who plan on taking the Actuarial exams.

An actuary evaluates the financial impact of risk by evaluating the likelihood of future events, designing creative ways to reduce the likelihood of undesirable events, and decreasing the impact of undesirable events that do occur.

Actuaries work for insurance companies, government, and consulting firms. In the Actuarial profession you can earn while you learn. Many students receive on-the-job training while enrolled in the examination process. Employers are generally supportive and may give students study time during working hours, pay exam fees, and award raises for each exam passed. However, most employers prefer to hire people who have started the series of examinations on their own and have already passed at least two or three.

**Total Credits: 15**

**Operations Research Concentration**

This concentration is recommended for students interested in a career as an Operations Research Analyst or in pursuing a graduate degree in Operations Research or a related field.

The broad real-world applicability of Operations Research makes it an attractive choice for Math majors. In Operations Research courses students get a solid background in mathematical modeling of decision-making problems, algorithms for solving different types of these problems, as well as experience using appropriate software tools.

Operations Research is the application of advanced analytical methods to enable better decision making. A plethora of problems may be solved using Operations Research; among these are (1) determining the route a delivery truck should take in order to make all deliveries while traveling the fewest number of miles; (2) determining the best location for a new facility such as a fire station; (3) scheduling airline flights and crew; and (4) determining the optimal distribution of bicycles in a bike sharing system. Operations Research includes problem-solving methods such as deterministic and stochastic optimization, machine learning, and simulation.
Statistics Concentration

This concentration is recommended for students interested in the theoretical and practical aspects of Statistics, particularly those students who are interested in pursuing graduate study in Statistics or Biostatistics.

Statistics, the study of data, is of growing importance. Students who have the skills to properly collect, analyze, interpret, and present data are in high demand around the country.

The objectives of this concentration are: (1) to gain an understanding of the mathematical underpinnings of statistics; (2) to use appropriate statistical modeling to solve practical problems; (3) to develop an understanding of how to use statistical software; (4) to communicate statistical results to non-statisticians.

Statistics is used in many fields, including biology, sociology, psychology, medicine, economics, quality control, and sports. This diversity, along with the growing need for people with statistical knowledge makes it an attractive choice for mathematics students.

Computational Mathematics Concentration

This concentration is recommended for students interested in Computational Science, particularly those students who are interested in pursuing graduate study in Applied and Computational Mathematics at the graduate level.

A Concentration in Computational Mathematics may be useful in a wide range of areas including Science, Engineering, Government, Health Care, Business, and Information Technology. The specialization in Computational Mathematics is designed for students with a strong interest in Mathematics and in mathematical applications to areas of Science and Engineering. By choosing elective courses carefully, students completing this specialization will be prepared for a career in a variety of Computing and/or Engineering areas. Students will also be prepared to continue on to a graduate program in Applied Mathematics.

Computational Mathematics involves the use of math and computers to solve problems and predict outcomes. The concentration in Computational Mathematics is intended for any student who is interested in applications to solving practical and physical problems in Engineering, Science, and Business. This concentration is also recommended for students who wish to work in the research and development area of industry. The concentration is especially intended for students seeking a career as Quantitative Analysts, Computational Scientists, and Applied Mathematicians, and for those thinking of continuing the study of Applied and Computational Mathematics at the graduate level.

Pure Mathematics Concentration

What do UNO Alumni Chief Operating Officer Matt Culek of Citadel Securities, Senior Industrial Logician Andrew Gacek of Rockwell Collins, Microsoft Data Scientist Daniel Miller and University of Toronto Post-doc Melissa Emory have in common? They sought out the strongest foundation in mathematics available here at UNO, taking the courses required for the Pure Mathematics Concentration.

This concentration is strongly recommended for students interested in pursuing a graduate degree in mathematics, but as indicated above, is
highly recommended for any student interested in getting the most out of their mathematics major.

Students pursuing a graduate degree are expected to have a strong foundation based in analysis, topology, and abstract algebra. This is what this concentration provides.

Challenging yourself has other advantages. Matt Culek credits his ability to trouble-shoot proposals brought to him by quantitative analysts at Citadel Securities to the habits of thought developed in his undergraduate course in number theory here at UNO.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.

Spring

ENGL 1160 ENGLISH COMPOSITION II 3
MATH 1960 CALCULUS II 5
Foreign Language Course 1120 5
Social Science 3

Credits 16

Sophomore

Fall

MATH 1970 CALCULUS III 4
MATH 2050 APPLIED LINEAR ALGEBRA (*) 3
MATH 2230 INTRODUCTION TO ABSTRACT MATH (**) 3
Foreign Language Course 2110 3
Humanities/Fine Arts Course with US Diversity 3

*MATH 2050: Requires MATH 1960

**MATH 2230: Requires MATH 1960

Credits 16

Spring

MATH 4050 LINEAR ALGEBRA (*) 3
MATH 3230 INTRODUCTION TO ANALYSIS (**) 3
MATH 2350 DIFFERENTIAL EQUATIONS (***) 3
Foreign Language Course 2120 3

*MATH 4050: Requires MATH 2050 and MATH 2230. Offered only Spring of even-numbered years.

**MATH 3230: Requires MATH 2230

***MATH 2350: Requires MATH 1960. MATH 2050 Recommended but not required.

Credits 12

Junior

Fall

MATH 4110 ABSTRACT ALGEBRA I (*) 3
Pure Math Elective or Elective 3
CIST 1400 or MATH 2200 INTRODUCTION TO COMPUTER SCIENCE I (**) or MATHEMATICAL COMPUTING I 3
Natural/Physical Science 3
Social Science 3

*SS Must be in a 2nd discipline

*MATH 4110: Requires MATH 4050. Offered only in fall of even-numbered years.

**Must take 2 Pure Math Electives. This semester options: MATH 4270 Complex Variables (requires MATH 3230); MATH 4610 Intro to Topology (requires MATH 3230)

***CIST 1400: Requires prior coding experience, CSCI 1200, CSCI 1280, or CIST 1300

Credits 15

Spring

Pure Math Elective or Elective 3
CSCI 1620 or MATH 3200 INTRODUCTION TO COMPUTER SCIENCE II or MATHEMATICAL COMPUTING II 3
Social Science 3
Humanities/Fine Arts Course 3
HIST 1000 or Minor/2nd Major Course** 3

*SS Must be in a 2nd discipline

*MUST take 2 Pure Math Electives. This semester options: MATH 4120 Abstract Algebra II (requires MATH 4110); MATH 4560 Number Theory & Cryptography (requires MATH 3230)
**A&S College Requirement Options**

### Credits
To obtain a B.S. with a major in Mathematics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in General Education courses that satisfy both distribution and diversity requirements are likely to reduce the total number of General Education hours to 40 or fewer.)

12 hours college breadth requirement

65 hours of major courses

Elective hours as required to total 120 hours

TOTAL HOURS: 120

Select two of the following: 1

- CIST 1400 | INTRODUCTION TO COMPUTER SCIENCE I | 3 |
- CSCI 1620 | INTRODUCTION TO COMPUTER SCIENCE II | 3 |
- MATH 2200 | MATHEMATICAL COMPUTING I | 3 |
- MATH 3200 | MATHEMATICAL COMPUTING II | 3 |

### Additional Coursework: Concentration or No Concentration Option

An additional 15 credits of approved upper-level MATH/STAT courses which must include at least 9 credits at the 4000 level

### Optional Concentrations Include:

- Applied Mathematics
- Pre-Actuarial Mathematics
- Computational Mathematics
- Data Science
- Mathematics Education
- Operations Research
- Statistics
- Pure Mathematics

### B.S. Degree Additional Requirement

15

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.
The Bachelor of Science Degree requires at least 15 hours of related cognate coursework that must be approved by the Math Academic Advisor/Coordinator. Students can also choose a UNO Minor to satisfy their cognate requirement; however, this cognate minor cannot double-count as the Option 1 minor for the College of Arts & Sciences College Breadth Requirement. A Computer Science Minor cannot satisfy the Cognate requirement for Mathematics. No more than 6 credits of cognate coursework may double-count within the general education requirements.

### Applied Mathematics Concentration

This concentration is recommended for students interested in inherently interdisciplinary subjects which apply to many problems that arise in the physical, biological, economic, social, and network sciences as well as in engineering. Applied Mathematics provides a set of qualitative and quantitative skills and knowledge for use in these fields.

Applied Mathematics has a profound impact on our daily lives. Whether it is weather forecasts, genetic or neural networks, search engines, climate research, evolution of species, stock market and finance, ground or air transportation, architecture, or movie recommendations, none of these would work the way they do without algorithms and tools from the mathematical sciences. The concentration in Applied Mathematics allows students to investigate the mathematics of problems arising in the physical, biological, economic, social, and network sciences as well as in engineering.

Applied Mathematics appeals to people with a variety of different interests, ranging from those with a desire to obtain a good quantitative background for use in some future career, to those who are interested in the basic techniques and approaches in themselves.

</table>

**Along with one 3 credit elective from the following:**

- MATH 3300: NUMERICAL METHODS
- MATH 3400: THEORY OF INTEREST
- MATH 4150: GRAPH THEORY & APPLICATIONS
- MATH 4300: DETERMINISTIC OPERATIONS RESEARCH MODELS
- MATH 4310: PROBABILISTIC OPERATIONS RESEARCH MODELS
- MATH 4320: COMPUTATIONAL OPERATIONS RESEARCH
- MATH 4330: INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS
- MATH 4350: ORDINARY DIFFERENTIAL EQUATIONS
- MATH 4400: THE FINITE ELEMENT METHOD
- MATH 4560: NUMBER THEORY & CRYPTOGRAPHY
- MATH 4750: INTRODUCTION TO PROBABILITY AND STATISTICS II
- MATH 4760: TOPICS IN APPLIED MATHEMATICS
- MATH 4900: INDEPENDENT STUDIES (Must be in a chosen Applied Mathematics Topic)

### Data Science Concentration

This concentration is recommended for students interested in a career as a data science professional or pursuing graduate study in disciplines with a strong data analysis component. Data science is the art and science of transforming raw data into deliverable data products in order to help businesses or government agencies make more informed decisions.

<table>

<td>INTRODUCTION TO DATA SCIENCE</td>
<td>3</td>
</tr>
<tr>
<td>STAT 4420</td>
<td>EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one of the following elective courses:

- MATH/CSCI 4300: DETERMINISTIC OPERATIONS RESEARCH MODELS
- MATH/CSCI 4310: PROBABILISTIC OPERATIONS RESEARCH MODELS
- STAT 4430: LINEAR MODELS
- STAT 4440: TIME SERIES ANALYSIS
- MATH/STAT 4450: INTRODUCTION TO MACHINE LEARNING AND DATA MINING

**Total Credits**

1 May not include both CIST 1400 and MATH 2200.

### Mathematics Education Concentration

This concentration is recommended for students interested in pursuing a career in Secondary Education. In some cases it is possible to simultaneously earn a B.S. or a B.A. in Math and a B.S. in Secondary Education.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 3640</td>
<td>MODERN GEOMETRY</td>

<td>3</td>
</tr>
</tbody>
</table>

Select one of the following elective courses:

- MATH/CSCI 3100: APPLIED COMBINATORICS
- MATH 4560: NUMBER THEORY & CRYPTOGRAPHY

**Total Credits**

### Second Computing Course

This concentration also requires the following course, which counts as the Math major's second computing course.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 4410</td>
<td>INTRODUCTION TO DATA SCIENCE</td>
<td>3</td>
</tr>
</tbody>
</table>

### Additional Requirement

Students must include the following Educator Preparation Program Requirements:
The objectives of this concentration are: (1) to gain an understanding of the mathematical underpinnings of statistics; (2) to use appropriate statistical modeling to solve practical problems; (3) to develop an understanding of how to use statistical software; (4) to communicate statistical results to non-statisticians.

Statistics is used in many fields, including biology, sociology, psychology, medicine, economics, quality control, and sports. This diversity, along with the growing need for people with statistical knowledge, makes it an attractive choice for mathematics students.

**Operations Research Concentration**

This concentration is recommended for students interested in a career as an operations research analyst or in pursuing a graduate degree in operations research or a related field.

The broad real-world applicability of operations research makes it an attractive choice for math majors. In operations research courses students get a solid background in mathematical modeling of decision-making problems, algorithms for solving different types of these problems, as well as experience using appropriate software tools.

Operations research is the application of advanced analytical methods to enable better decision making. A plethora of problems may be solved using operations research; among these are (1) determining the route a delivery truck should take in order to make all deliveries while traveling the fewest number of miles; (2) determining the best location for a new facility such as a fire station; (3) scheduling airline flights and crew; and (4) determining the optimal distribution of bicycles in a bike sharing system. Operations research includes problem-solving methods such as deterministic and stochastic optimization, machine learning, and simulation.

**Pre-Actuarial Math Concentration**

This concentration is recommended for students interested in a career as an actuary and who plan on taking the actuarial exams.

An actuary evaluates the financial impact of risk by evaluating the likelihood of future events, designing creative ways to reduce the likelihood of undesirable events, and decreasing the impact of undesirable events that do occur.

Actuaries work for insurance companies, government, and consulting firms. In the actuarial profession you can earn while you learn. Many students receive on-the-job training while enrolled in the examination process. Employers are generally supportive and may give students study time during working hours, pay exam fees, and award raises for each exam passed. However, most employers prefer to hire people who have started the series of examinations on their own and have already passed at least two or three.

**Statistics Concentration**

This concentration is recommended for students interested in the theoretical and practical aspects of statistics, particularly those students who are interested in pursuing graduate study in statistics or biostatistics.

Statistics, the study of data, is of growing importance. Students who have the skills to properly collect, analyze, interpret, and present data are in high demand around the country.

The broad real-world applicability of statistics makes it an attractive choice for math majors. In statistics courses students get a solid background in the mathematical underpinnings of statistics, as well as experience using appropriate software tools.
The 15 credits of upper-level courses must include:

- **MATH 4900**: INDEPENDENT STUDIES
- **MATH/STAT 4450**: STATISTICAL METHODS I
- **MATH/CSCI 4310**: NUMERICAL METHODS
- **MATH/CSCI 3100**: APPLIED COMBINATORICS
- **MATH/CSCI 4560**: NUMERICAL METHODS
- **MATH 4270**: COMPLEX ANALYSIS
- **MATH 4240**: PROBABILISTIC OPERATIONS RESEARCH MODELS
- **MATH 4230**: MATHEMATICAL ANALYSIS II
- **MATH 4120**: ABSTRACT ALGEBRA II
- **MATH 4110**: ABSTRACT ALGEBRA I
- **MATH 4050**: MATHEMATICAL ANALYSIS I
- **MATH 4990**: INDEPENDENT STUDIES ¹
- **MATH/STAT 4450**: STATISTICAL METHODS I
- **MATH/CSCI 4310**: NUMERICAL METHODS
- **MATH/CSCI 3100**: APPLIED COMBINATORICS
- **MATH/CSCI 4560**: NUMERICAL METHODS
- **MATH 4270**: COMPLEX ANALYSIS
- **MATH 4240**: PROBABILISTIC OPERATIONS RESEARCH MODELS
- **MATH 4230**: MATHEMATICAL ANALYSIS II
- **MATH 4120**: ABSTRACT ALGEBRA II
- **MATH 4110**: ABSTRACT ALGEBRA I
- **MATH 4050**: MATHEMATICAL ANALYSIS I
- **MATH 4990**: INDEPENDENT STUDIES ²

**Total Credits**: 15

**Computational Mathematics Concentration**

This concentration is recommended for students interested in computational science, particularly those students who are interested in pursuing graduate study in applied and computational mathematics at the graduate level.

A concentration in computational mathematics may be useful in a wide range of areas including science, engineering, government, healthcare, business, and information technology. The specialization in computational mathematics is designed for students with a strong interest in mathematics and in mathematical applications to areas of science and engineering. By choosing elective courses carefully, students completing this specialization will be prepared for a career in a variety of computing and/or engineering areas. Students will also be prepared to continue on to a graduate program in applied mathematics.

Computational mathematics involves the use of math and computers to solve problems and predict outcomes. The concentration in computational mathematics is intended for any student who is interested in applications to solving practical and physical problems in engineering, science, and business. This concentration is also recommended for students who wish to work in the research and development area of industry. The concentration is especially intended for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied and computational mathematics at the graduate level.

**The 15 credits of upper-level courses must include:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH/CSCI 3300</td>
<td>NUMERICAL METHODS</td>
<td>3</td>
</tr>
<tr>

<tr>
<td>MATH 4400</td>
<td>THE FINITE ELEMENT METHOD</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4900</td>
<td>INDEPENDENT STUDIES ¹</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one of the following:

- MATH 4050: LINEAR ALGEBRA
- MATH 4230: MATHEMATICAL ANALYSIS I
- MATH 4240: MATHEMATICAL ANALYSIS II
- MATH 4350: ORDINARY DIFFERENTIAL EQUATIONS
- MATH 4900: INDEPENDENT STUDIES ²

**Total Credits**: 15

1. Independent Study must be related to computational mathematics, developed and supervised by the advisor.

2. Optional second Independent Study must be a continuation of the first required Independent Study and adhere to the same requirements as in (1).

**Pure Mathematics Concentration**

What do UNO Alumni Chief Operating Officer Matt Culek of Citadel Securities, Senior Industrial Logician Andrew Gacek of Rockwell Collins, Microsoft Data Scientist Daniel Miller and McGill University Post-doc Melissa Emory have in common? They sought out the strongest foundation in mathematics available here at UNO, taking the courses required for the Pure Mathematics Concentration.

This concentration is strongly recommended for students interested in pursuing a graduate degree in mathematics, but as indicated above, is highly recommended for any student interested in getting the most out of their mathematics major.

Students pursuing a graduate degree are expected to have a strong foundation based in analysis, topology, and abstract algebra. This is what this concentration provides.

Challenging yourself has other advantages. Matt Culek credits his ability to trouble-shoot proposals brought to him by quantitative analysts at Citadel Securities to the habits of thought developed in his undergraduate course in number theory here at UNO.

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php
**Transfer credit or placement exam scores may change suggested plan of study**

*Must take one Operations Research Elective. Fall options:
MATH 4750 Probability & Statistics II, MATH 4900
Independent Studies, STAT 4410 Intro to Data Science,
STAT 4430 Linear Models

**A&S College Requirement Options

#Students need at least 120 credits and a minimum of 27
upper level credits throughout the entire degree, with
at least 18 credits of upper level coursework taken within the
major/concentration. May need to select 3000/4000 level
free electives and/or cognate courses to reach the 27 credit
minimum.

Total Credits 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

Computational Mathematics Concentration

Freshman
Fall
Credits

MATH 1950 CALCULUS I (*) 5
ENGL 1150 ENGLISH COMPOSITION I (*) 3
CMST 1110 or CMST 2120 PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE 3
HIST 1000 WORLD CIVILIZATIONS I 3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for
the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

“Transfer credit or placement exam scores may change suggested plan of study

# Mathematics Minor

## Requirements

All coursework must be completed with a grade of C- or better. Three tracks are available.

The **Traditional Track** Mathematics Minor allows for the most flexibility in Upper Division courses. Several programs including Engineering, Computer Science, and Secondary Education: Math Endorsement can complete a Traditional Track Mathematics Minor with few or no additional courses.

The **Discrete Mathematics Track** Mathematics Minor bypasses MATH 1960 Calculus II and instead guides students towards courses that are relevant to their specific fields. These include Biology, Neuroscience, Philosophy, Political Science, Physics, Economics, Finance, Social Sciences, Network Sciences, Computer Science, and Engineering.

The **Cybersecurity Track** Mathematics Minor bypasses MATH 1960 Calculus II and instead guides students towards courses that are relevant to work in Cybersecurity.

## Traditional Track

The Traditional Track minor in mathematics may be obtained by successful completion of 19-20 credits in mathematics courses consisting of:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1950</td>
<td>CALCULUS I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1960</td>
<td>CALCULUS II</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2030</td>
<td>DISCRETE MATHEMATICS (or CSCI 2030</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE)</td>
<td></td>
</tr>
<tr>
<td>or MATH 2230</td>
<td>INTRODUCTION TO ABSTRACT MATH</td>
<td></td>
</tr>
<tr>
<td>One 3000-4000 level Math/Stat course 1</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>One additional math course 1970 or above</td>
<td>3-4</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits 19-20**

1. STAT 3000 does not count towards the Mathematics Minor.

If planned correctly, some disciplines require few, if any, additional math courses beyond what is required for the major. Please see specific examples below.

## Engineering Majors

### Architectural

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1950</td>
<td>CALCULUS I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1960</td>
<td>CALCULUS II</td>
<td>5</td>
</tr>
<tr>
<td>MATH 2350</td>
<td>DIFFERENTIAL EQUATIONS</td>
<td>3</td>
</tr>
<tr>
<td>STAT 3800</td>
<td>APPLIED ENGINEERING PROBABILITY AND STATISTICS</td>
<td>3</td>
</tr>

<td>DISCRETE MATHEMATICS (or CSCI 2030</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE)</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits 20**

## Secondary Education Majors with Math 6-12 Endorsement

These students automatically fulfill the 20 credits required for a math minor with required coursework for the major.
Information Science and Technology Majors

Computer Science

In addition to MATH 1950 and MATH 1960, all MATH/CSCI cross-listed courses qualify, but credit will not be given for both MATH 2230 and MATH 2030/CSCI 2030.

Bioinformatics

<table>
<thead>

<td>INTRODUCTION TO ABSTRACT MATH</td>
<td>3</td>
</tr>
<tr>
<td>MATH 4560</td>
<td>NUMBER THEORY &amp; CRYPTOGRAPHY</td>
<td>3</td>
</tr>
<tr>
<td>One additional MATH/STAT course MATH 1960 level or higher</td>
<td>3-5</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 17-19

1 STAT 3000 does not count towards the Mathematics Minor.

Medical Humanities

General Information

The Medical Humanities major helps students increase their understanding of the nature of illness, health, wellness, healing, and medicine by exploring these topics in three blocks of classes that share a commonality of focus. The Major in Medical Humanities is intentionally flexible and interdisciplinary, reflecting both the needs of students and the nature of the field.

To ensure cohesion, all majors take the introductory course, a Medical Humanities Commons course, which is an interdisciplinary examination of a single relevant topic (e.g. “Suffering” or “Compliance”) and a Capstone course in Medical Humanities that includes a project integrating their chosen coursework with community engagement.

Block 1: Inclusivity & Diversity: Courses in this block allow students to explore how race, ethnicity, gender, sex, age and income affect the experience of health, illness and medicine. Demographically, the population of the United States is aging and diversifying and this affects who seeks health care and how they interact with the system. Poverty has an enormous impact on the health and well-being of individuals, communities and populations. Students pursuing careers in health care will therefore benefit from a foundational understanding of these concepts and perspectives.

Block 2: Ethics, Religion & Culture: Courses in this block provide students with a foundation in the values, beliefs and concepts that define how health, illness, disease and medicine are experienced at a social and cultural level by individuals and societies. It prepares students to confront ethical questions of meaning and value that arise in the context of medical research and practice. Spirituality and religion for many patients, practitioners and communities are the heart of health care. Exploring cross-cultural perspectives on medical beliefs, practices and systems encourages students to reflect on the diverse ways humans approach, experience and solve problems of health and health care delivery.

Block 3: Narrative Medicine, Communication & Fine Arts: Courses in this block allow students the opportunity to explore different ways of observing, communicating and understanding health, illness and healing. Narrative medicine encourages students to write, reflect and find meaning in their own and others experiences with health and medicine. Literature introduces students to life situations associated with illness and disability in an intimate and intuitive way. Communication skills are essential for interprofessional teams, and working with clients and patients. Music, visual art and drama courses encourage students to express and experience the human condition in unique ways, as well as improving listening, observation and communication skills.

Other Information

All coursework taken for the medical humanities major must be completed with a grade of “C-” or better.

Residency

A maximum of three credit hours can be transferred from another university to count towards the medical humanities major, unless the Director agrees to additional credit transfer.

Contact Information

Steve Langan, Director of Medical Humanities
slangan@unomaha.edu

Website (http://www.unomaha.edu/college-of-arts-and-sciences/medical-humanities/)

- Medical Humanities, Bachelor of Arts (p. 254)
- Medical Humanities, Bachelor of Science (p. 257)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the medical humanities major this course is ENGL 2400, WRWS 3500, ENGL 4970 or another approved course.

- Medical Humanities Minor (p. 259)
An education with a humanities perspective on health and medicine shapes individuals to think critically, compassionately and knowledgeably about the human condition, appreciate and respect diverse communities, and develop reflective and resilient habits of the mind. A major in Medical Humanities prepares graduates for health care occupations through its focus on the humanistic aspects of medicine that promote patient centered care and resilient professionals.

Students could benefit from this program if they are planning careers in

- medicine
- public health
- mental health
- counseling
- nursing
- health education
- bioethics
- health care administration
- health communications and public relations
- patient advocacy
- human resources
- wellness
- chaplaincy.

MEDH 1000 INTRODUCTION TO MEDICAL HUMANITIES (3 credits)
This is an interdisciplinary survey course in Medical Humanities. It focuses on the contributions and perspectives of arts and humanities in providing a broad and culturally diverse understanding of health, illness, healing, and medicine.

Distribution: Humanities and Fine Arts General Education course

MEDH 260 ART AND SCIENCE OF MEDICAL DECISION-MAKING (3 credits)
The course explores multiple facets of medical decision-making, including the perspective of the patient, the family, and the healthcare provider. Topics include basic anatomy and medical terminology, which will be used to understand decision-making in the context of the provider. Students use literature and other records to generate and critically evaluate clinical decisions. The course does not satisfy requirements for degree programs in the Department of Biology minor, BA, BS in Biology; BS in Biotechnology. (Cross-listed with BIOL 260).

Prerequisite(s)/Corequisite(s): BIOL 1060 or concurrent.

MEDH 2300 HUMAN VALUES IN MEDICINE (3 credits)
Human Values in Medicine examines questions of value and meaning that arise in medical contexts. This course provides an opportunity for philosophy majors, medical humanities majors / minors, and students preparing for health professions to confront ethical and social issues in medicine and biomedical research. (Cross-listed with PHIL 2300).

MEDH 3000 MEDICAL HUMANITIES COMMONS (3 credits)
A multidisciplinary study of a health-related topic from the perspective of medical humanities. Each semester the course will focus on a different topic or problem for exploration and inquiry. The course topic or problem is examined using disciplinary perspectives, interdisciplinary intersections, and translational opportunities.

Prerequisite(s)/Corequisite(s): MEDH 1000 or Permission of the instructor.

MEDH 3450 PHILOSOPHY OF MEDICINE (3 credits)
This course considers a range of philosophical questions raised by and within the practice of medicine. The course begins with a conceptual investigation of the meaning of “health” from “illness.” Is the classification of individuals as healthy or ill an objective, scientific matter? Or is it instead a matter of social and ethical values? What follows from answering this question one way, versus another? This introduction forms the backdrop against which we move on to investigate a range of further topics. Examples of some of the topics that may be covered include: medical and social models of disability; the role morality of doctors and other medical providers; abortion, euthanasia, and conscientious objection in the healthcare professions; health measurement and quality of life; “death panels” and health resource rationing; conditions on appropriately voluntary and informed consent to medical procedures; and the ethics of biomedical research. (Cross-listed with PHIL 3450).

Prerequisite(s)/Corequisite(s): 6 hours of Philosophy OR Sophomore status OR permission of the instructor

MEDH 4000 TOPICS IN MEDICAL HUMANITIES (3 credits)
This course introduces students to a specialized subject matter in the disciplines of medical humanities not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

Prerequisite(s)/Corequisite(s): Permission of the instructor

MEDH 4900 CAPSTONE IN MEDICAL HUMANITIES (3 credits)
In this capstone course for students majoring in Medical Humanities, students will curate and complete their portfolio of educational experiences in the discipline. To integrate and apply their previous course work and experience, students will participate in a community-focused medical humanities project.

Prerequisite(s)/Corequisite(s): Senior standing (or students in junior standing with permission from the instructor) and MEDH 1000, MEDH 3000 and a writing in the discipline course approved for the major. Not open to non-degree graduate students.

MEDH 4950 BRINGING THE WAR HOME: DEPICTIONS OF WAR VETERANS IN LITERATURE AND FILM (3 credits)
Course explores the impact of war on combatants, their families and communities as represented in literary fiction, film, historical documentation, first-person accounts, and other texts written in or translated to English. (Cross-listed with ENGL 8956, ENGL 4950).

Prerequisite(s)/Corequisite(s): ENGL 1160 prerequisite

MEDH 4990 INDEPENDENT STUDY IN MEDICAL HUMANITIES (1-3 credits)
This course is guided reading or independent research in special topics in Medical Humanities under the supervision of a member of the Medical Humanities faculty. This course is designed primarily for the student interested in topics not currently available in the program offerings and who has demonstrated ability to work independently. May be repeated once for credit.

Prerequisite(s)/Corequisite(s): Permission of the instructor. Not open to non-degree graduate students.

Medical Humanities, Bachelor of Arts

To obtain a B.A. with a major in Medical Humanities, a student must fulfill university, college, and program requirements. Hour requirements follow:

- 46 hours of University General Education courses
  
  Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 12-19 hours college breadth requirement
- 16 hours foreign language requirement
• 30 hours of major courses
• At least 9 hours of electives

TOTAL HOURS: 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.
Additional Information About this Plan:

University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Medical Humanities, Bachelor of Science

To obtain a B.S. with a major in Medical Humanities, a student must fulfill university, college, and program requirements. Hour requirements follow:

- 46 hours of University General Education courses
  Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 12-19 hours college breadth requirement
- 15 hours cognate requirement
- 30 hours of major courses
- At least 10 hours of electives

TOTAL HOURS: 120

</tbody>
</table>

*ENGL 1150: Requires EPPE or AP score.

**MEDH 1000 counts as a Humanities/Fine Arts course and toward the major.

**MATH 1220 and STAT 1530: Require Math Placement Exam or SAT/ACT scores.

**MEDH QL Options are PSYC 3130, SOC 2130 or PHIL 2010. Any of these options will also satisfy the CAS Additional Gen Ed QL Requirement, if that option is selected. PSYC 3130 and SOC 2130 prerequisite is Math 1120, 1220 or STAT 1530.

**Taking PSYC 1010, SOC 1010 and ANTH 1050 is recommended for Social Science Gen Eds due to being common prerequisites for future MEDH Block courses.

**Out of 18 credits of Block courses in major, 12 must be 3000/4000 level.

**BS Cognate is 15 credits of complementary courses, approved in consultation with advisor.

Total Credits 120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study.

GPA Requirements: 2.0

Graduation Requirements: Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (https://catalog.unomaha.edu/search/?P=PHYS%204950) or PHYS 4960 (https://catalog.unomaha.edu/search/?P=PHYS%204960).

Medical Humanities Minor

Description

Medical humanities is an interdisciplinary field that explores, from multiple perspectives, connections between humans, cultures, medicine and allied health sciences. Medical humanities complements the health sciences, and encompasses the humanities, social sciences and the arts. It includes topics related to: health and illness; the interactions between health practices and conceptions of personhood, gender, and community; beliefs; practices, healing and ethics across cultures; the nature of suffering; and models of wellness.

The minor in medical humanities provides students who are interested in careers in medicine, nursing, public health, psychology, social work, health education, and other allied health sciences, with courses that complement and support their studies. The minor is intentionally flexible and interdisciplinary, reflecting both the needs of students and the nature of the discipline. It includes options and opportunities such as distance education and service learning. The medical humanities minor helps students to increase their understanding of the nature of illness, health, wellness, healing and medicine by exploring these topics in relation to:

- inclusivity and diversity
- ethics, religion and culture
- narrative medicine, communication, fine arts

Other Information

All coursework taken for the medical humanities minor must be completed with a grade of “C-” or better.

Contact Information

Steve Langan, Director of Medical Humanities
slangan@unomaha.edu

Website (http://www.unomaha.edu/college-of-arts-and-sciences/medical-humanities/)

Requirements

Undergraduate students seeking to minor in medical humanities must complete at least 15 credit hours of medical humanities courses with a grade of C- or higher, and include at least one course from each of three core areas or blocks related to the study and practice of medical humanities: 1) inclusivity and diversity; 2) ethics, religion and culture; 3) narrative medicine, communication, fine arts. Nine credit hours of course work must be upper division (3000 or higher) courses.

Please note: As this is a new minor, courses are being added. As new courses are being added on an on-going basis, students should select medical humanities courses in consultation with their minor advisor who will provide them with the most recent list of course options.

Courses Fulfilling the Core Area Requirements

Students must choose at least one course from each of the three core areas or blocks below. The rest of the 15 credit minor requirement may consist of coursework chosen from the medical humanities minor full course listings.

MEDH 1000 Introduction to Medical Humanities will fulfill one Block requirement. That is, a MEDH minor taking MEDH 1000 may use it to satisfy the requirement of three hours of coursework from Block 1,2, or 3.
MEDH 3000 Medical Humanities Commons will fulfill one Block requirement. Attribution to Block 1, 2, or 3 will be handled through advisement as the topic may change from semester to semester.

**Medieval/Renaissance Studies Minor**

The minor in Medieval/Renaissance Studies is designed to help students understand and appreciate the thirteen centuries belonging to the Middle Ages and the Renaissance through the disciplines of history, English and other European languages, art history, history of music, theatre, history of science, Middle Eastern studies, philosophy, and theology. Students
explore the Medieval and Renaissance era and their crucial developments, from the invention of eye glasses to the printing by moveable type, from Gothic cathedrals to the discovery of America, from the birth of university to the development of all the modern European vernacular languages, from King Arthur and Robin Hood to Shakespeare’s plays and Michelangelo’s paintings and sculpture.

Minors Offered

Medieval/Renaissance Studies Minor

Other Information

All coursework taken for the Medieval/Renaissance Studies minor must be completed with a grade of "C" or better.

Contact

Martina Saltamacchia, PhD, Medieval and Renaissance Studies Director
msaltamacchia@unomaha.edu

Website (http://www.unomaha.edu/mrs/)

Requirements

Undergraduate students seeking to minor in Medieval and Renaissance Studies must complete at least 15 credit hours of coursework from at least three of the following areas: 1) Fine and Performing Arts; 2) Literature and Language; 3) History; and 4) Philosophy and Religion. See below for a list of approved courses. A minimum of 9 credits must be at the upper-division (3000/4000) level.

Please note: As new courses are being added to this minor on an on-going basis, students should select Medieval/Renaissance Studies courses in consultation with their minor advisor or with the minor director, who will provide them with the most recent list of course options.

No more than 3 credits of independent study, directed readings, or internships may be applied toward the minor, and such study is subject to approval by the program director.

Only one course in Latin may be applied to the minor, for a maximum of 3 credits.

Molecular and Biomedical Biology

Students seeking biomedical careers can pursue specialized studies in cellular and molecular biology. Molecular and Biomedical Biology majors gain real-world experience in biomedical research during the required biotechnology internship under the Molecular Biotechnology Pathway. Under the Biomedical Humanities Pathway, Molecular and Biomedical Biology majors gain...
Biology majors explore perspectives that connect the human condition to biomedicine. The Molecular and Biomedical Biology major is an outstanding way to prepare for graduate programs in cellular and molecular biology, a career in the biotechnology industry, or the health professions.

**Other Information**

All coursework taken for the Molecular and Biomedical Biology major or minor must be completed with a grade of "C-" or better.

Students may not earn a Molecular and Biomedical Biology major and a Biology minor.

**Double Majors**

For a double major in Biology and Molecular and Biomedical Biology or Bioinformatics and Molecular and Biomedical Biology, beyond: BIOL 1450, BIOL 1750, BIOL 2140 and BIOL 3020, no other biology courses may count for both majors.

**Contact Information**

Allwine Hall 114
402.554.2641

Website (http://www.unomaha.edu/college-of-arts-and-sciences/biology/academics/biotechnology.php)

**Degrees Offered**

- Molecular and Biomedical Biology, Bachelor of Science (p. 263)

**Writing in the Discipline**

All students are required to take a writing in the discipline course within their major. For the Molecular and Biomedical Biology major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline specific writing as part of their requirements. To satisfy the requirement for the writing in the discipline course students must complete BIOL 1450 AND BIOL 1750, two courses from BIOL 2140, BIOL 3020 and BIOL 3340 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing BIOL 3150 or, ENGL 3980, or another college-approved advanced writing course.

**Minors Offered**

- Molecular and Biomedical Biology, Minor (p. 267)

At a most basic level molecular and biomedical biology involves the use of biological organisms, systems, or processes to develop technologies and products to improve the quality of life. Nowhere is this more apparent than in healthcare and new avenues to diagnose, treat, and study disease. The curriculum focuses on molecular biology, genetics and genomics, cellular biology, and biochemistry. Through the Molecular Biotechnology track, students are able to participate in research through a semester-long internship in an academic, commercial, clinical, or government laboratory in the region. Within the Biomedical Humanities track, students are exposed to perspectives that connect the human condition to biomedicine.

- Laboratory Technologist
- Research Technician
- Biomedical Scientist
- Pharmaceutical/Medical Product Sales Representative
- Health Professional
- Health Educator
- Data Analyst

**Specialized fields include:**

- Agricultural or animal biotechnology
- Bio-based fuels
- Pharmaceuticals
- Conservation and the environment
- Medical technology
- Healthcare
- Biomedical consulting

**Molecular and Biomedical Biology, Bachelor of Science**

To obtain a BS in Molecular and Biomedical Biology (MBB), a student must fulfill university, college, and department requirements. Minimum hour requirements follow:

In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

1. 46 hours of University General Education courses
   Most commonly, MBB majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often do the following:
   - Test out of at least three hours of fundamental academic skills,
   - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
   - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.

   In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

2. 12 hours college breadth requirement (Track 1 only)
3. 70-73 hours of major courses
4. Elective hours as required for a total of 120 hours

**TOTAL HOURS: 120**

**Requirements**

The Bachelor of Science in Molecular and Biomedical Biology degree requires 36-45 credits of biology courses of which 18 credits must be 3000-4000 level courses. The course requirements are below.

**Code** | **Title** | **Credits**
--- | --- | ---
**Required Courses**
BIOL 1450 | BIOLOGY I | 5
BIOL 1750 | BIOLOGY II | 5
BIOL 2140 | GENETICS | 4
BIOL 3020 | MOLECULAR BIOLOGY OF THE CELL | 3
BIOL 3240 | INTRODUCTION TO IMMUNOLOGY | 3

**Biochemistry Lecture and Lab**

Select one of the following: 4
- BIOL/CHEM 4650 BIOCHEMISTRY I (with the following lab)
- BIOL/CHEM 4654 BIOCHEMISTRY I LABORATORY
- CHEM 4610 BIOCHEMISTRY OF METABOLISM

**Additional Courses**

Select three of the following, at least two must be lab-based: 10-13
- BIOL 4130 MOLECULAR GENETICS

(ends on page 263)
Track 1: Molecular Biotechnology

This track will position students to excel in graduate or professional schools, as well as industry jobs in Biotechnology. Students will have about 10 hours of free electives with this track.

Track 2: Biomedical Humanities

This is a path to prepare students for success in medical school programs. Students will have approximately 4 hours of free electives with this track. Requires completion of minor in Medical Humanities (p. 259). BIOL 1060 Intro to Health Careers and Ethics must be taken as part of the minor and nine credits must be in upper division (3000 or higher) courses.

Course towards Minor/2nd Major or Elective*

*Chem 2260: Requires Chem 2250 with grade of C- or better within last 12 months. Must take Chem 2274 concurrently.

***Approved Upper Level Biol courses include: Biol 4130, 4140, 4450/4454, 4640, 4760, 4850, 4830, 4860, Neur 4870, or Chem 4660/4664.

NOTE: Students in A&S are required to earn a minor or double major or to take additional general education requirements in various areas. Molecular & Biomedical Biology majors can meet this requirement by taking their required Chemistry courses at UNO and earning a Chemistry minor. Students may earn additional minors or majors, if desired.

Upper Level Biol course with Lab w
requirements for your specific program to determine all requirements for a UNO undergraduate degree is 120 credit hours. Please review the University Degree Requirements:

Additional Information About this Plan:

This plan is not a contract and curriculum is subject to change in your major program for further guidance. Please consult an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**GPA Requirements:** 2.0

## Molecular and Biomedical Biology, Minor

### Requirements

**Courses required for Molecular and Biomedical Biology Minor.**

A minor in molecular and biomedical biology, requires a minimum of 21 semester credit hours. All courses counted toward a minor in molecular and biomedical biology, must be applicable toward a major in molecular and biomedical biology. These hours must include:

- **Code**
- **Title**
- **Credits**

Students transferring biology credit hours are required to take a minimum of two 3000 or 4000-level courses at UNO. Students may not earn a molecular and biomedical biology minor if they earn a biology major.

### Native American Studies Minor

**Mission**

Native American Studies offers students an opportunity to learn about Native American cultures, literatures, histories, arts, values, lifeways,
Neuroscience

The study of neuroscience is one of the most rapidly growing areas of life sciences, reflecting the importance of the fundamental and applied interest in how the nervous system is coordinated and regulated. The field of neuroscience examines the physiology, anatomy, pharmacology, development, growth, maintenance, and evolution of nervous system processes.

Students working toward completion of this degree will be able to concentrate in one of two tracks (Molecular/Cellular Neuroscience or Integrative/Behavioral Neuroscience) or take courses that provide a blended combination of these complementary areas of neuroscience. The major provides both content and hands-on experience in various areas of neuroscience, and is an excellent choice for students with interests in pursuing neuroscience-related graduate programs, health careers (for example, students with post-graduate aspirations for attending medical, PA, dental, veterinary, or nursing school), or careers in private industry. Students will emerge from the major with the ability to think across disciplines, to formulate questions and seek answers, to interpret data and draw conclusions, and to effectively communicate the outcome of these processes to a larger audience. This suite of skills makes neuroscience majors eligible for a variety of career opportunities both within and outside the discipline of neuroscience.

Other Information

All coursework taken for the neuroscience major must be completed with a grade of "C" or better.

Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors.

Note for Double Majors in Neuroscience and Psychology: Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors. Students may overlap 3000/4000 level PSYC courses between the Psychology Neuroscience & Behavior concentration and the Neuroscience major.

Note for Students Completing a Neuroscience Major and Psychology Minor:

No psychology coursework will be allowed to count toward both programs.

Note for Students Completing a Neuroscience Major and Biology Minor:

No 3000/4000 level course(s) may count toward both programs.

Additional Laboratory Experiences

Students wishing additional laboratory experiences can enroll in Experiential Study in Neuroscience (NEUR 4960) or seek independent research opportunities with faculty conducting neuroscience research at UNO, UNMC, Creighton University, or Boys Town National Research Hospital.

Degrees Offered

• Neuroscience, Bachelor of Science (p. 270)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Neuroscience major this is fulfilled with PSYC 3140.

Neuroscience is a rapidly growing field, with a faster than average projected jobs growth of 8% in the next ten years (U.S. Department of Labor). Students in our program have been highly successful in admissions to graduate and medical schools, and obtaining employment in neuroscience-related fields. Alumni from our Neuroscience Program have outstanding jobs as physicians, researchers, nurses, physician assistants, teachers, dentists, medical industry experts, technicians, and CEO’s of neuroscience-related businesses.

Within your Neuroscience Program, you will gain knowledge in all aspects of how the brain and body function, with tracks in cellular and molecular neuroscience, and integrative behavioral neuroscience. Built within the curriculum are opportunities for hands-on experimental experiences. We currently have faculty with expertise in neuropharmacology, development, endocrinology, gerontology, genetics, sensory systems, behavior, and biomechanics. Your curriculum will focus on understanding and engaging with new and innovative research within neuroscience, science writing, data analysis, and applications of the latest concepts in the field.

Career Opportunities:

• Research & Development
• Hospitals
• Universities/Colleges
• Laboratories
NEUR 1520 INTRODUCTION TO NEUROSCIENCE I (3 credits)
The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 1 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the cellular and molecular levels: anatomy and function of neurons, communication within and between neurons, and how neurons interact to perceive and process sensory information.
Prerequisite(s)/Corequisite(s): High school biology and chemistry. Not open to non-degree graduate students.

NEUR 1540 INTRODUCTION TO NEUROSCIENCE II (3 credits)
The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 2 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the organismal, behavioral and cognitive levels: how the nervous system develops, how the motor system, hormones, and physiology influences behavior, and how cognition and systems neuroscience leads to understanding of the mind.
Prerequisite(s)/Corequisite(s): NEUR 1520 or permission of instructor. Not open to non-degree graduate students.

NEUR 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)
The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, BIOL 3500)
Prerequisite(s)/Corequisite(s): Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

NEUR 4000 SYSTEMS NEUROSCIENCE (3 credits)
This is an advanced course for the Neuroscience major designed to provide a solid understanding of the peripheral and central connections that make the systems of the body function. Data and theories of brain-behavior relationships from current research in neuroscience will be discussed. (Cross-listed with NEUR 8006)
Prerequisite(s)/Corequisite(s): NEUR 1520 and NEUR 1540, BIOL 1450, BIOL 1750; or permission. Not open to non-degree graduate students.

NEUR 4050 ADVANCED BIOLOGY OF AGING (3 credits)
This course covers biological aging topics at an advanced level, and is designed for undergraduate and graduate students who have some prior knowledge about biology or aging. The course will be interdisciplinary in nature and focus on topics relevant to gerontology, biology, psychology, and exercise science. Students will learn how to think critically about primary research in the biology of aging. Furthermore, they will apply their knowledge of the biology of aging field by creating a handbook of healthy aging for older adults. (Cross-listed with GERO 4050, GERO 8056).

NEUR 4200 ADVANCED NEUROSCIENCE LABORATORY (3 credits)
This course is designed as a capstone laboratory course for Neuroscience majors. The course will provide students with hands-on experience in collecting data in diverse areas of neuroscience, analyzing these data, interpreting the data, and preparing written and verbal presentations of the data.
Prerequisite(s)/Corequisite(s): NEUR 1520, NEUR 1540, PSYC 3130, PSYC 3140, and BIOL 1450. Not open to non-degree graduate students.

NEUR 4230 BEHAVIORAL NEUROSCIENCE (3 credits)
A comprehensive study of the relationship of the nervous and other organ systems to behavior. Research on both human and other animal species is considered. (Cross-listed with PSYC 4230).
Prerequisite(s)/Corequisite(s): BIOL 1450 OR PSYC 1010

NEUR 4290 NEUROETHOLOGY (3 credits)
In the field of Neuroethology a major goal is to understand the neural bases of animal behaviors in a natural context. In this course students will investigate how behaviors are generated and modulated by the nervous system in organisms ranging from insects to mammals. We will explore the neural mechanisms underlying a variety of animal behaviors as they interact with their natural environment ranging from sensory perception of the world (e.g. echolocation, electrolocation), to locomotor movements (e.g. flying, swimming), to more complex behaviors (e.g. learning, memory). (Cross-listed with BIOL 4290, BIOL 8296, PSYC 8296).
Prerequisite(s)/Corequisite(s): NEUR 1520, NEUR 1540 and BIOL 1750; or by permission of instructor. Not open to non-degree graduate students.

NEUR 4330 SOCIAL NEUROSCIENCE (3 credits)
This course will evaluate the biological substrates of sociality and social behavior, and explore the impact of social environments on brain function and development. Students in the course will explore the molecular, cellular, neurotransmitter, and endocrine influences on social behavior, including affiliative care, aggression, social bonding, altruism, and social cognition. (Cross-listed with PSYC 8336)
Prerequisite(s)/Corequisite(s): NEUR 1520 or NEUR 1540, and BIOL 1450, or permission of instructor. Not open to non-degree graduate students.

NEUR 4650 NEUROMECHANICS OF HUMAN MOVEMENT (3 credits)
A study of basic principles of neural process as they relate to human voluntary movement. Applications of neural and mechanical principles through observations and assessment of movement, from learning to performance, as well as development. (Cross-listed with BMCH 4650).
Prerequisite(s)/Corequisite(s): NEUR 1540 or permission of instructor

NEUR 4870 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)
This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with BIOL 4870, BIOL 8876, NEUR 8876).
Prerequisite(s)/Corequisite(s): NEUR 1500, or both NEUR 1520 and NEUR 1540, or BIOL 3020, or permission of instructor.

NEUR 4890 GENES, BRAIN, AND BEHAVIOR (3 credits)
This course will evaluate the complex interaction between an organism’s genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 8896, BIOL 4890, BIOL 8896, PSYC 8896).
Prerequisite(s)/Corequisite(s): NEUR 1520, NEUR 1540, and BIOL 2140. Or by permission of instructor. Not open to non-degree graduate students.
NEUR 4910 SPECIAL TOPICS IN NEUROSCIENCE - BLOCK 1 (3 credits)
Fulfills Neuroscience BLOCK 1 or Neuroscience Elective requirement. A study of designated special topic in neuroscience. Students may repeat this class as long as the specific topic is not duplicated.
Prerequisite(s)/Corequisite(s): NEUR 1520, junior-senior status (sophomore status by permission), or instructor permission. Not open to non-degree graduate students.

NEUR 4920 SPECIAL TOPICS IN NEUROSCIENCE - BLOCK 2 (3 credits)
This course fulfills Neuroscience BLOCK 2 or Neuroscience Elective requirements. A study of designated special topic in neuroscience. Students may repeat this class as long as the specific topic is not duplicated.
Prerequisite(s)/Corequisite(s): NEUR 1520 or NEUR 1540, junior-senior status (sophomore status by permission), or instructor permission. Not open to non-degree graduate students.

NEUR 4960 EXPERIENTIAL STUDY IN NEUROSCIENCE (1-3 credits)
Focused research projects, data analysis, and/or directed readings with faculty supervision. Oral and written reports based on empirical research are expected outcomes.
Prerequisite(s)/Corequisite(s): NEUR 1520; PSYC 3130. PSYC 3140 recommended. Instructor permission required.

Neuroscience, Bachelor of Science

To obtain a BS with a major in Neuroscience, a student must fulfill university, college, and departmental requirements. As an interdisciplinary major, Neuroscience major requirements meet the college breadth requirement. Other hour requirements follow:

- 46 hours of University General Education courses (Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours and allow for additional elective hours.)
- 70 hours of major courses
- 0-4 hours of electives

TOTAL HOURS: 120

Total Credits 43

1 Pre-requisite to BIOL 2140 is CHEM 1140-CHEM 1144 or CHEM 1180-CHEM 1184, and BIOL 1450 & BIOL 1750.

2 CHEM 1180/ CHEM 1184 + CHEM 1190/ CHEM 1194 can be substituted for CHEM 1140/ CHEM 1144. Both are required prerequisites for CHEM 2210/ CHEM 2214. CHEM 2250 + CHEM 2260/ CHEM 2274 can substitute for CHEM 2210/ CHEM 2214.

Supporting Neuroscience Elective Courses
In addition to the required core courses, 12 credit hours as a combination from the Block I and Block II lists below must be selected. At least 3 credits must come from Block I and at least 3 credits must come from Block II. The remaining minimum of 6 credits can be taken from either Block I or II. Three hours of Experiential Study in Neuroscience (NEUR 4960) may be applied to the Additional Neuroscience Electives category.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.
This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study.**

### Philosophy

*Fulfills Prerequisites for Pharmacy School*

The study of philosophy is an attempt to understand the world in as unified and general a way as possible. Philosophers want to know what there is, how it works, how we know, how we should live, what is good, what is immoral, whether or not there is a God, and many other things—and, especially, how all these things fit together. One reason the study of philosophy is useful is that the methodology of philosophy—careful reasoning, precise application of logic, and thorough analysis of concepts—is applicable to any subject matter whatsoever.

The philosophy major may be earned in one of three ways: (1) the traditional major with requirements covering the core areas of the discipline—metaphysics, theory of knowledge, ethical theory, and history of philosophy, (2) the major with a concentration in the philosophy of brains, minds, and machines, particularly suited to students with interests in subjects like psychology, neuroscience, cognition, or artificial intelligence, and (3) the major with a concentration in ethics, law, and social/political philosophy, particularly suited to students with interests in these areas, some of whom intend to earn advanced degrees in law, criminal justice, sustainability, or other related fields. The philosophy minor offers options for electives suited to nearly any companion major. The interdisciplinary ethics minor enhances and complements most other degrees.

### Other Information

All coursework taken for the philosophy major or minor must be completed with a grade of "C-" or better.

### Residency Requirement

A maximum of three credit hours can be transferred from another university to count towards the philosophy major, unless the chair agrees to additional credit transfer.

### Student Groups

Philosophy Club; Platonic Society

### Contact

205 Arts and Sciences Hall
402.554.2628

Website (http://www.unomaha.edu/college-of-arts-and-sciences/philosophy/)

### Degrees Offered

- Philosophy, Bachelor of Arts (p. 278)
- Philosophy, Bachelor of Arts Concentration in the Philosophy of Brains, Minds, and Machines (p. 280)
- Philosophy, Bachelor of Arts Concentration in Ethics, Law and Social-Political Philosophy (p. 282)

### Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the philosophy major this is PHIL 3000 or PHIL 4000.

### Minors Offered

- Philosophy Minor (p. 284)
- Ethics Minor (p. 284)

Philosophy builds the core skills that employers most value: critical thinking, creative thinking, and analytic writing. This means that study in Philosophy
provides a solid foundation for a career in almost anything that you can imagine.

Just a few examples...

- Law: Philosophy majors have among the highest average scores on the Law School Admission Exam (LSAT) and have among the highest acceptance rates to law school.
- Medicine: Philosophy and other humanities majors have among the highest average scores on the Medical College Admission Test (MCAT) and among the highest acceptance rates to medical school.
- Business: Philosophy majors have among the highest average scores on the Graduate Management Admission Test (GMAT).
- Graduate School: Philosophy majors have among the highest average scores on the Graduate Record Examination (GRE) and have the highest average scores on both the verbal section and the analytic writing section.
- Technology: Philosophy majors often go to work in technology related fields such as computer programming and artificial intelligence (AI) where their background in logic and language, as well as ethics, is highly prized. In particular, philosophy courses are a central part of prestigious programs in Artificial Intelligence.
- Public administration and social services
- Criminal Justice
- Education

When the study of Philosophy is paired with other areas of study, the foundation for success is even greater. In short, double-majoring in Philosophy multiplies the skills and knowledge provided by both majors. This is an especially attractive option since a double-major in Philosophy only requires 30 credit hours.

**PHIL 1010 INTRODUCTION TO PHILOSOPHY: MEANING OF LIFE (3 credits)**

We all find ourselves at one point or another wondering what everything adds up to. This sentiment manifests itself as different questions: 'why are we here?', 'what's my purpose?', 'how can I lead a fulfilling life?', or, perhaps most relevantly, 'what is the meaning of life?'. Now that you're in college, these questions are of the essence. Where will you go from here? Which skills should you develop? Which major should you choose? What should you pursue? Love? Family? Friendship? Education? Career? Fame? Fortune? Religious devotion? Service to others? Fulfillment? Happiness? What does it mean to be happy or fulfilled? In this course, we're going to set all else aside and dedicate real effort to coming to grips with these questions. Our focus will be on developing our ability to think about what we're asking and acquiring the tools necessary to assess the responses on offer.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 1020 CONTEMPORARY MORAL PROBLEMS (3 credits)**

Introduction to the application of basic moral concepts and theories to contemporary moral issues. Discussion topics will vary and may include: distribution of wealth and resources, environmental ethics and sustainability, animal rights, capital punishment, torture, euthanasia, abortion, cloning, genetic engineering, privacy rights, drug laws, marriage and sexuality, gun control, and affirmative action.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 1030 INTRODUCTION TO PHILOSOPHY: BRAINS, MINDS, AND MACHINES (3 credits)**

Introduction to Philosophy: Brains, Minds, and Machines examines central questions in philosophy about the nature of the mind, the self, human rationality, perception/experience, and technology through the lens of work in cognitive science, neuroscience, artificial intelligence, and psychology. Some major topics and questions include: What are minds? Is the human mind a digital computer? Could a machine - e.g., a robot or a computer - be truly intelligent, or have experiences like humans and animals do? How does the brain "represent" its environment? In engaging these questions, the course also introduces students to foundational issues in cognitive science and artificial intelligence including: nativism vs. empiricism, mental representation, classical artificial intelligence vs. neural networks, modularity, evolutionary psychology, embodied cognition, and extended cognition.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 1040 INTRODUCTION TO PHILOSOPHY: LAW, POLITICS, AND SOCIETY (3 credits)**

A first course in philosophy designed to introduce students to the foundational theories and concepts of legal philosophy, ethics, and social/political philosophy. Students engage theories and concepts by exploring how they are relevant to life in contemporary society. Discussion topics may include free speech, immigration, racism, authoritarianism and populism, human rights, and humanitarian intervention.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 1210 CRITICAL REASONING (3 credits)**

A study of the principles of correct reasoning: induction, deduction, formal and informal fallacies. Critical reasoning is excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 2010 SYMBOLIC LOGIC (3 credits)**

A first course in symbolic logic designed to introduce students to formal systems of propositional and predicate logic. Logic is excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.

**PHIL 2020 INTRODUCTION TO PHILOSOPHY OF MIND (3 credits)**

This course is an introductory overview of fundamental issues in the study of mind, thinking and consciousness. Provides a forum for students to explore these philosophical issues from the perspective of current research in psychology, neuroscience, linguistics and computer science.

**Prerequisite(s)/Corequisite(s):** 3 hours in philosophy or permission of instructor.

**PHIL 2030 INTRODUCTION TO ETHICS (3 credits)**

A critical study of basic moral concepts and problems contained in ethical theories of important western philosophers: relativism, egoism, happiness, obligation, justice, freedom, conscience, love, religious precepts, moral rules, moral attitudes and moral language.

**Distribution:** Humanities and Fine Arts General Education course

**PHIL 2040 INTRODUCTION TO EAST ASIAN PHILOSOPHY (3 credits)**

This course makes a critical and philosophical inquiry into the fundamental questions raised in East Asian Philosophy, typically including a critical evaluation of the traditional theories in Confucianism, Buddhism, and Taoism of China, Korea, and Japan, as well as contemporary responses to those theories, e.g., Kyoto School or Maoism.

**Distribution:** Humanities and Fine Arts General Education course and Global Diversity General Education course

**PHIL 2300 HUMAN VALUES IN MEDICINE (3 credits)**

Human Values in Medicine examines questions of value and meaning that arise in medical contexts. This course provides an opportunity for philosophy majors, medical humanities majors / minors, and students preparing for health professions to confront ethical and social issues in medicine and biomedical research. (Cross-listed with MEDH 2300).
PHIL 3000 PHILOSOPHY WRITING SEMINAR (3 credits)
This course focuses on writing instruction, with a particular emphasis on logical argument, editing and revision, and research methods in the discipline of philosophy. It is designed for students who are beginning to take upper-level coursework and is suitable for Philosophy majors, minors, and non-majors, particularly those who seek additional preparation in argument-focused writing.
Prerequisite(s)/Corequisite(s): Composition II or the equivalent, and three hours of Philosophy, are required.
Distribution: Writing in the Discipline Single Course

PHIL 3010 PHILOSOPHY OF JUSTICE (3 credits)
An examination of the concept of justice from Greek moral philosophy to modern moral philosophy with focus on the problems of modern moral philosophy and the application of those ideas in government and society.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3020 THE JUSTIFICATION OF PUNISHMENT (3 credits)
The course examines the major philosophical arguments concerning the conditions under which punishment is justifiable, and provides a background of ethical theory in order to make these arguments comprehensible.
Prerequisite(s)/Corequisite(s): Junior, or 3 credits in philosophy, or 1 course in criminology & criminal justice.

PHIL 3040 PHILOSOPHY OF LAW (3 credits)
An overview of central issues in the philosophy of law, including the nature, source, and legitimacy of law, the relationship between law and morality, competing theories of legal reasoning and interpretation, the sources and structure of rights and responsibilities, and theories of punishment.
Prerequisite(s)/Corequisite(s): Junior standing or 6 hours in Philosophy.

PHIL 3050 ETHICAL THEORY (3 credits)
This course surveys issues and controversies in meta-ethics, that is, in the theoretical understanding of ethics. A central organizing question is whether or not there are objective ethical facts that we use ethical language to report and discuss. If there are ethical facts, what kind of facts are they and how could we know them? There seems to be no scientific experiment or mathematical proof which could demonstrate an ethical claim. If there are no ethical facts, is ethics simply a matter of emotional self-expression, arbitrary cultural norms, or the like? If so, can there be significant ethical truth and substantive ethical knowledge? All in all, students will survey a variety of proposals on the fundamental nature of ethics and develop an understanding of their relative strengths and weaknesses.
Prerequisite(s)/Corequisite(s): PHIL 2030 or 6 hours in philosophy or permission of instructor.

PHIL 3060 VALUES AND VIRTUES (3 credits)
This course explores advanced topics in ethics with particular emphasis on value theory and virtue ethics. Topics to be considered include the meaning and status of value claims, sources of value, intrinsic goods, agent-relative goods, practical reason, moral development, happiness, moral ambiguity, moral luck, the identification of virtues, and relationships of care, trust, and responsibility. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8215)

PHIL 3110 HISTORY OF ANCIENT PHILOSOPHY (3 credits)
A survey of philosophy from its beginning to the Middle Ages: pre-Socrates, Plato, Aristotle, Cynics, Epicureans, Stoics, Skeptics, Neo-Platonists.

PHIL 3130 HISTORY OF MODERN PHILOSOPHY (3 credits)
The Modern Period (roughly 1600 to 1800) was a time of great scientific advancement, political upheaval, and philosophical progress. During this period, philosophers wrestled with fundamental metaphysical questions about the nature of matter, causation, mind, and God, key epistemological questions regarding the nature and grounds of knowledge, and central ethical and political questions about our rights and duties. As such, the philosophical work of this period provides the foundations for contemporary work in epistemology, metaphysics, philosophy of mind, philosophy of science, ethics, and political philosophy. In this course, students will explore the interpretation and implications of work by some of the most influential thinkers of the period such as Descartes, Spinoza, Locke, Leibniz, Berkeley, Hume, Reid, and Kant.
Prerequisite(s)/Corequisite(s): 3 hours in Philosophy or permission of the instructor.

PHIL 3140 NINETEENTH CENTURY PHILOSOPHY (3 credits)
An examination of major views in 19th century philosophy including the development of German idealism, British empiricism and Marxism. Special attention will be paid to the origins of existentialism, pragmatism and modern empiricism as reactions to 19th century positions.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

PHIL 3150 PHILOSOPHY OF HISTORY (3 credits)
This course is designed to introduce students to the thinkers and issues in the philosophy of history (and historiography). After being coined by Voltaire, the term ‘philosophy of history’ has taken on different meanings. Prior to the twentieth century, philosophy of history meant speculation over the course and aims of history. It sought to investigate the subject matter of history, that is, the historical process itself. Consequently, philosophers of history aimed at comprehensive views of this process. During the twentieth century, however, philosophy of history became “analytical or critical.” The aim of this approach is to question and criticize the ways that historians work, so issues of knowledge and explanation have become very important for the present-day philosopher of history. Although the course takes a thematic approach to the study of the philosophy of history, prominent philosophers who have investigated history will be introduced throughout the course.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3170 ETHICS IN BUSINESS (3 credits)

PHIL 3180 ENVIRONMENTAL ETHICS (3 credits)
This course introduces students to the thinkers and issues that make environmental ethics what it is today. It includes the analysis and evaluation, from ethical viewpoints, of such topics as: intrinsic value of animals, plants and ecosystems; animal rights; climate change; conservation and preservation; environmental law and politics; obligations to future generations; sustainability and new technologies; war, immigration, and the environment; human rights and the environment; nature and the built environment; and environmental activism. (Cross-listed with ENVN 3180).
Prerequisite(s)/Corequisite(s): Junior or 3 hours of philosophy.

PHIL 3200 PHILOSOPHY OF RELIGION (3 credits)
A study of the major arguments for and against the existence of God, religious knowledge, miracles, morality without religion and immortality.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3210 SOCIAL PHILOSOPHY (3 credits)
An examination of the problems and concepts of social and political philosophy.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy or junior or permission of instructor.
PHIL 3220 PHILOSOPHY OF ART (3 credits)
An inquiry into historical and contemporary philosophical perspectives on the making, interpreting and criticizing of works of art, including relations of the arts to other dimensions of cultures. (Cross-listed with PHIL 8225)
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3250 LIMITS OF CONSCIOUSNESS (3 credits)
A course focusing on the scientific study of the psychology, neurology, and philosophy of the mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 4250, PSYC 8256)
Prerequisite(s)/Corequisite(s): PSYC 1010; or 6 hours in Philosophy.

PHIL 3260 HISTORY OF AMERICAN PHILOSOPHY: 20TH CENTURY (3 credits)
A study of the thinkers and movements in 20th century American thought: pragmatism, critical realism, new realism; along with selected readings from contemporary American thinkers.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3300 EARLY ANALYTIC PHILOSOPHY (3 credits)
This course focuses on the foundations of the Analytic tradition (from 1879 to 1930). During this period, central figures such as Gottlob Frege, Bertrand Russell, G.E. Moore, Ludwig Wittgenstein, and Frank Ramsey aimed to bring clarity and precision to a wide range of philosophical problems by focusing on fundamental issues in the philosophy of logic and the philosophy of language. Understanding the developments of this period is essential to understanding the development of philosophy in the 20th and 21st centuries.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy or permission of instructor.

PHIL 3370 CONCEPTS OF NATURE (3 credits)
An examination of key philosophical conceptions of nature from the Greeks through the 21st century. Topics covered include concepts of time, the cosmos, causation, determinism, natural law, the relationship between God and nature, and the place of humans and animals in nature.
Prerequisite(s)/Corequisite(s): Previous experience in philosophy, especially PHIL 3110, would be helpful.

PHIL 3400 PHILOSOPHY OF NATURAL SCIENCE (3 credits)
An examination of the philosophical problems associated with the methods of the natural sciences, the presuppositions of scientific inquiry, and the nature of scientific laws and theories.
Prerequisite(s)/Corequisite(s): 3 credits in philosophy or permission of instructor.

PHIL 3410 PHILOSOPHY OF SOCIAL SCIENCE (3 credits)
This course introduces students to central philosophical issues that are raised by and within the practice of social science. Some key questions are: In which respects is social science similar to natural science and in which respects is it dissimilar? Does social science aim at forming generalizable explanations, or does it seek to provide humanistic understanding? Can social science be conducted in a purely objective, disinterested way, or does the practice of social science always rely on at least implicit value assumptions? Must responsible researchers interrogate their research for such assumptions, and, if so, what does it take for research to "pass?"
Prerequisite(s)/Corequisite(s): 3 credits in philosophy and junior, or permission of instructor.

PHIL 3430 PHILOSOPHY OF BIOLOGY (3 credits)
An examination and evaluation of contrasting views on philosophical issues in the biological sciences, including explanation, observation, reduction, units of description analysis and the role of values. Attention will be paid to ways in which the study of biology has produced a new understanding of the nature of scientific inquiry.
Prerequisite(s)/Corequisite(s): 6 hours in philosophy or biology or permission of instructor.

PHIL 3450 PHILOSOPHY OF MEDICINE (3 credits)
This course considers a range of philosophical questions raised by and within the practice of medicine. The course begins with a conceptual investigation of the meaning of "health" from "illness." Is the classification of individuals as healthy or ill on objective, scientific matters? Or is it instead a matter of social and ethical values? What follows from answering this question one way, versus another? This introduction forms the backdrop against which we move on to investigate a range of further topics. Examples of some of the topics that may be covered include: medical and social models of disability; the role morality of doctors and other medical providers; abortion, euthanasia, and conscientious objection in the healthcare professions; health measurement and quality of life; "death panels" and health resource rationing; conditions on appropriately voluntary and informed consent to medical procedures; and the ethics of biomedical research. (Cross-listed with MEDH 3450).
Prerequisite(s)/Corequisite(s): 6 hours of Philosophy OR Sophomore status OR permission of the instructor

PHIL 3480 PHILOSOPHY OF RACE (3 credits)
Where does the concept of race come from? How has the concept of race influenced scientific theories? Do empirical findings of genetic differences between racial groups show that races are biologically real? Why are racial categories used in medicine? Is some particular concept of race necessary for political and social opposition to racism? The course will involve reading original articles and book extracts from a range of disciplines, including history, philosophy, and several sciences. These articles will be explained and discussed in class. The course aims to provide you with the tools and concepts to think about race and racism in a nuanced and reflective way.
Prerequisite(s)/Corequisite(s): 6 credit hours Philosophy OR Sophomore Status OR Permission of the Instructor

PHIL 3490 GENDER AND PHILOSOPHY (3 credits)
This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. (Cross-listed with WGST 3490).
Prerequisite(s)/Corequisite(s): Junior or 6 hours in PHIL or 6 hours in WGST.

PHIL 3500 PROBLEMS IN PHILOSOPHY (3 credits)
Seminar on specialized topic in philosophy. (See “Topic” in class search for specification of particular topic.)
Prerequisite(s)/Corequisite(s): Junior or 6 hours in philosophy.

PHIL 3510 PHENOMENOLOGY AND EXISTENTIALISM (3 credits)
A critical examination of phenomenology and existentialism as historical and philosophical movements. Course focus includes such thinkers as Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, and Simone de Beauvoir.
Prerequisite(s)/Corequisite(s): Junior or 3 credits in philosophy.

PHIL 3520 HERMENEUTICS IN PHILOSOPHY (3 credits)
Introduction to hermeneutics or the notion of interpretation in certain thinkers and philosophy movements since the late 19thC. Focus includes Nietzsche, pragmatism, Peirce, James, Dewey, Gadamer, Frankfurt School, and Derrida. Course to exclude topics or things covered in PHIL3510.
Prerequisite(s)/Corequisite(s): 3 hours in philosophy, junior or permission of instructor.

PHIL 3570 UNDERSTANDING SELF-DECEPTION (3 credits)
This course is designed to introduce students to a variety of problems associated with the special issue of self-deception. Conceptual and linguistic issues concerning the paradox of self-deception, as well as epistemological issues concerning self-deception are considered.
Prerequisite(s)/Corequisite(s): Junior or 6 hours in philosophy or permission.
PHIL 3600  EPistemology (3 credits)
The course covers major theories and debates in Epistemology (i.e., the study of evidence, reasons, justification, warrant, knowledge, explanation, and understanding). The course covers both foundational structural debates (e.g., the structure of justification, the analysis for knowledge, the requirements of explanation, and the nature of understanding) and applied issues (e.g., expertise and testimony, peer disagreement, burden of proof, group deliberation and voting, epistemic bubbles and conspiracy theories, and the value of feelings of confidence, surety, and certainty).
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3650  PHILOSOPHY OF MIND (3 credits)
A discussion of various accounts of the nature of minds which focuses upon philosophical problems such as whether the mind is identical with the brain, the extent of similarities between human minds and computers, the nature of personal identity and the relationship of mental activity to behavior. (Cross-listed with PHIL 8655).
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3700  METAPHYSICS (3 credits)
This course introduces students to the critical study of selected philosophical theories of reality. Some representative views from the history of philosophy will be covered as well as contemporary debates. The course includes examination of the relation of metaphysical positions to other areas of knowledge and belief and the critical evaluation of metaphysics as an intellectual enterprise.
Prerequisite(s)/Corequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3960  READINGS IN PHILOSOPHY (1-3 credits)
Readings in specialized areas or individual problems in philosophy.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHIL 4000  ADVANCED PHILOSOPHY WRITING SEMINAR (3 credits)
This is the capstone course of the philosophy major, designed to teach students to write at an advanced level. Students will present their own writing and critique the writing of others, under close guidance of the instructor. By the end of the seminar, each student will have produced a "journal-length" (approximately 20 page) paper on a philosophical topic, and gained extensive experience in revising papers and editing the work of others.
Prerequisite(s)/Corequisite(s): Junior standing and 15 hours in philosophy including 9 hours consisting of 3000-level courses, or instructor permission. Not open to non-degree graduate students.

PHIL 4220  NEUROETHICS (3 credits)
Neuroscience is a burgeoning field that yields new insights into the workings of the human mind and brain. Work in basic neuroscience also yields technological innovations - brain scans, smart pills, brain modification techniques, etc. - that have profound ethical and social implications. In this upper level philosophy course, we will primarily examine the social, legal, medical, and ethical implications of current and emerging neuroscience technologies and research practices. The emerging field of "neuroethics" examines the ethical ramifications of neuroscience using the concepts of normative and applied ethics. The course will discuss the ethics of neuroscientific technologies - e.g., the use of neuroimaging in the clinical and legal contexts - using the major ethical theories (utilitarianism, virtue ethics, deontological ethics) and principles central to biomedical ethics (autonomy, beneficence, justice, non-maleficence, competence, and informed consent).
Prerequisite(s)/Corequisite(s): Prior Philosophy coursework, particularly PHIL 2300, or prior coursework in Neuroscience, is recommended but not required. Sophomore standing or above.
Students completing the philosophy major (without a concentration) as a second or double major must complete 33 credit hours in philosophy, 21 hours of which must be upper division (3000-4990).

**Courses Required for Major (Core Curriculum)**

The Bachelor of Arts in Philosophy requires 33 credit hours, 21 hours of which must be upper division (3000-4990).

**Lower division courses must include the following:**

- PHIL 2030: INTRODUCTION TO ETHICS
- PHIL 1210: CRITICAL REASONING
- or PHIL 2010: SYMBOLIC LOGIC

**Upper division courses must include the following:**

- PHIL 3110: HISTORY OF ANCIENT PHILOSOPHY
- PHIL 3130: HISTORY OF MODERN PHILOSOPHY
- PHIL 3600: EPISTEMOLOGY
- PHIL 3700: METAPHYSICS
- PHIL 3050: ETHICAL THEORY
- PHIL 3000: PHILOSOPHY WRITING SEMINAR
- or PHIL 4000: ADVANCED PHILOSOPHY WRITING SEMINAR

**Electives:**

Select 9 additional credit hours in PHIL, with a minimum of 3 credit hours at the 3000/4000 level.

**Total Credits:** 33

**Freshman**

**Fall**

- Foreign Language Course 1110*
- ENGL 1150: ENGLISH COMPOSITION I (*
- MATH 1120: INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING (**) or MATH 1220 or STAT 1100 or STAT 1530 or COLLEGE ALGEBRA or DATA LITERACY AND VISUALIZATION or ELEMENTARY STATISTICS
- PHIL 1010 or PHIL 1030 or PHIL 1040: INTRODUCTION TO PHILOSOPHY: MEANING OF LIFE (***) or INTRODUCTION TO PHILOSOPHY: BRAINS, MINDS, AND MACHINES or INTRODUCTION TO PHILOSOPHY: LAW, POLITICS, AND SOCIETY

**Elective**

- *Level 1110 foreign language courses count as a Humanity/Fine Arts course, Global Diversity, and toward the student’s BA requirement. If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.
- **MATH 1220 and STAT 1530: Require Math Placement Exam or SAT/ACT scores.
- ***Any of the three: PHIL 1010, PHIL 1030, and PHIL 1040 may count as a Humanities/Fine Arts course and major elective.

**Credits:** 15

**Spring**

- Foreign Language Course 1120
- ENGL 1160: ENGLISH COMPOSITION II (*)
- PHIL 2030: INTRODUCTION TO ETHICS (**)
- Social Science

**Sophomore**

**Fall**

- Foreign Language Course 2110
- Social Science + U.S. Diversity
- PHIL 1210 or PHIL 2010: CRITICAL REASONING (*)
- or PHIL 2010: SYMBOLIC LOGIC
- PHIL 3110: HISTORY OF ANCIENT PHILOSOPHY
- Elective

**Credits:** 15

**Spring**

- PHIL 3130: HISTORY OF MODERN PHILOSOPHY (**)
- PHIL 3000: PHILOSOPHY WRITING SEMINAR (**) or CMST 1110: PUBLIC SPEAKING FUNDS
- Foreign Language Course 2120
- Social Science***

**Credits:** 15

**Junior**

**Fall**

- PHIL 3700: METAPHYSICS (**)
- Additional Humanities/Fine Arts Course for A&S or Minor/2nd Major**
- HIST 1000 or Minor/2nd Major course***
- Natural and Physical Science with Lab
- Elective

**Credits:** 14

**Spring**

- PHIL 3050: ETHICAL THEORY (*)
- PHIL 3000/4000 Elective, for example PHIL 3220 Philosophy of Art
- Additional Q.L. course for A&S or Minor/2nd Major***
- Natural and Physical Science without Lab
- HIST 1010 or Minor/2nd Major course*

**Credits:** 14

**Elective**

- *PHIL 3130: Requires 3 hours PHIL or permission of instructor.
- **PHIL 3000: Requires ENGL 1160 or equivalent and 3 hours of PHIL.
- ***Social Science must come from a 2nd discipline.

**Credits:** 15

**Senior**

**Fall**

- PHIL 3000/4000 Elective, for example PHIL 3220 Philosophy of Art
- Additional Humanities/Fine Arts Course for A&S or Minor/2nd Major**
- Natural and Physical Science without Lab
- HIST 1010 or Minor/2nd Major course*

**Credits:** 15

**Spring**

- Foreign Language Course 1120
- ENGL 1160: ENGLISH COMPOSITION II (*)
- PHIL 2030: INTRODUCTION TO ETHICS (**)
- Social Science

**Credits:** 15

**Elective**

- *ENGL 1160: requires ENGL 1150 or placement via EPPE or AP.
- **PHIL 2030 counts as a Humanities/Fine Arts course and required major course.

**Credits:** 15

**Sophomore**

**Fall**

- Foreign Language Course 2110
- Social Science + U.S. Diversity
- PHIL 1210 or PHIL 2010: CRITICAL REASONING (*)
- or PHIL 2010: SYMBOLIC LOGIC
- PHIL 3110: HISTORY OF ANCIENT PHILOSOPHY
- Elective

**Credits:** 15

**Spring**

- PHIL 3130: HISTORY OF MODERN PHILOSOPHY (**)
- PHIL 3000: PHILOSOPHY WRITING SEMINAR (**) or CMST 1110: PUBLIC SPEAKING FUNDS
- Foreign Language Course 2120
- Social Science***

**Credits:** 15

**Junior**

**Fall**

- PHIL 3700: METAPHYSICS (**)
- Additional Humanities/Fine Arts Course for A&S or Minor/2nd Major**
- HIST 1000 or Minor/2nd Major course***
- Natural and Physical Science with Lab
- Elective

**Credits:** 14

**Spring**

- PHIL 3050: ETHICAL THEORY (*)
- PHIL 3000/4000 Elective, for example PHIL 3220 Philosophy of Art
- Additional Q.L. course for A&S or Minor/2nd Major***
- Natural and Physical Science without Lab
- HIST 1010 or Minor/2nd Major course*

**Credits:** 14

**Elective**

- *PHIL 3050: Requires PHIL 2030 or 6 hours in Philosophy or permission of instructor.
- **A&S College Requirement Options. Additional HFA course must come from 3rd discipline.
- ***A&S College Requirement Options. A&S Additional QL course not needed if you took PHIL 2010 for the major.

Otherwise, several options exist - please refer to your advisor.

#NPS without Lab must be from 2nd discipline.
Philosophy, Bachelor of Arts Concentration in Philosophy of Brains, Minds and Machines

Requirements

The philosophy major with a concentration in the philosophy of brains, minds, and machines requires 33 credit hours of which 21 hours must be upper level (3000-4000) in philosophy.

### Additional Information About this Plan:

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

#### Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

#### GPA Requirements:

2.0
PHIL 3500  PROBLEMS IN PHILOSOPHY  3
PHIL 3510  PHENOMENOLOGY AND EXISTENTIALISM  3
PHIL 3960  READINGS IN PHILOSOPHY (Social/Political Philosophy)  1-3
PSCI 3340  AMERICAN POLITICAL THOUGHT  3
PSCI 4310  CLASSICAL POLITICAL THOUGHT  3
PSCI 4320  EARLY MODERN POLITICAL THOUGHT  3
PSCI 4330  LATE MODERN POLITICAL THOUGHT  3
PSCI 4340  CONTEMPORARY POLITICAL THOUGHT  3

Freshman

Fall  Credits

MATH 1120  INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING (*)  3
or MATH 1130  3
or MATH 1220  or QUANTITATIVE LITERACY  3
or STAT 1100  or COLLEGE ALGEBRA  3
or STAT 1530  or DATA LITERACY AND VISUALIZATION  3
or ELEMENTARY STATISTICS  3

ENGL 1150  ENGLISH COMPOSITION I (**)  3

PHIL 1040  INTRODUCTION TO PHILOSOPHY: LAW, POLITICS, AND SOCIETY (***)  3

*Level 1110 foreign language courses count as a Humanity/Fine Arts course, Global Diversity, and toward the student’s BA requirement. If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.

*MATH 1220 and STAT 1530: Require Math Placement Exam or SAT/ACT scores.

**ENGL 1150: Requires EPPE or AP score.

***PHIL 1040 counts as a Humanities/Fine Arts course and approved major elective.
Philosophy Minor

Requirements

The requirements for the minor in philosophy are 15 hours in philosophy, of which no more than 6 may be below the 3000 level, completed with a grade of C- or higher.

Ethics Minor

Requirements

The requirements for the minor in ethics are 15 hours of approved coursework, of which no more than 6 may be below the 3000 level, completed with a grade of C- or higher. No more than 6 hours counted as credit toward a major or another minor may be counted as credit toward the ethics minor. All special topics courses and independent studies are permitted only upon review and approval.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Practical and Applied Requirement

3 hours minimum, selected from the following:

The Physics Department at UNO is a vibrant program well-known for offering quality education, diverse research activities, and broad community outreach programs.

The variety of options students have in the physics program makes our graduates well prepared to thrive in modern industries. Additionally, about a third of physics graduates are accepted into top graduate degree programs where they can pursue a master’s or doctoral degree in physics, physics education, engineering, chemistry, astrophysics, biophysics and medical physics. Our curriculum is flexible and provides students with a number of options to better prepare them for the career of their choice.

In addition to our Bachelors of Science program we offer concentrations in Biomedical Physics and Physics education. The Physics Department emphasizes involving its physics majors in undergraduate research as well as the education process. Working closely with the faculty provides students a valuable experience. Beyond-the-classroom learning opportunities engage students and create a sense of community. Research projects are available in the following areas: astrophysics, biophysics, medical physics, computational physics, quantum computing, materials for energy applications, solid-state physics, and physics education.

Other Information
All coursework taken for the Physics major or minor must be completed with a grade of “C+” or better.

Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

Apart from PHYS 1154, PHYS 1164 and PHYS 1950, no 1000-level courses may count toward the major requirements in physics. However, they do count as electives for various other college degrees.

Physics majors should strive to take as many of the courses in modern physics (PHYS 4210, PHYS 4220, PHYS 4230) and electronics (PHYS 3500) as their program will permit.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 or PHYS 4960.

Upper division courses (3000-level or higher) will assume that students have at least some experience with, and ability to use, computers for solving physics problems. Physics is also offered as a concentration in the Division of Continuing Studies.

Website (http://www.physics.unomaha.edu/)

Degrees Offered
• Physics, Bachelor of Arts (p. 288)
• Physics, Bachelor of Science (p. 290)
• Physics, Bachelor of Science with a Concentration in Biomedical Physics (p. 292)
• Physics, Bachelor of Science with a Concentration in Physics Education (p. 294)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the Physics major this is: ENGL 3980.

Minors Offered
• Physics Minor (p. 296)

Physics is one of the broadest scientific disciplines. Most students develop expertise with a great variety of hands-on experiences with instrumentation, fabrication, analytical techniques and computer modeling. These practical skills make physicists attractive to employers in physics, engineering, financial and computer science fields.

Particular skills include: research and problem solving, fluency in using scientific equipment, refined mathematical skills, programming, modeling and simulation, quality control protocol.

“Soft skills” are also vital to successful career. Soft skills you would be trained in at the university include: cultivating strategic written and oral communication skills, learning to work well on a team, being a good listener.

Some common jobs for those who have a bachelor’s degree in physics include:
• Design or Process engineer
• Software engineer
• Applications engineer
• Inside sales engineer
• Research analyst
• Lab technician
• IT developer (administrator, consultant)
• Programmer
• High school science teacher
• Accelerator Operator
• Data Analyst
• Systems Analyst
• Technical Specialist.

If students choose to continue and receive a graduate degree the 10 most common jobs are

• Research scientist (at tech companies, national laboratories or universities)
• Professor, Physics Teacher
• Data Scientist
• Lab Manager
• Medical Physicist
• Aerospace Engineer
• Astronomer
• Environmental Scientist
• Geophysicist.

**PHYS 1030 PHYSICS OF EVERYDAY LIFE (3 credits)**
A conceptual course in the principles of physics and their relationship to man and his environment. Topics included relate the basic laws of physics and recent developments in science to their effects on man. This course is intended for students not majoring in the sciences and may be used in partial fulfillment of the natural science requirement.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent.
**Distribution:** Natural/Physical Science General Education lecture

**PHYS 1034 PHYSICS OF EVERYDAY LIFE LABORATORY (1 credit)**
A physics laboratory consisting of a series of concise experiments which relate man directly to his physical environment.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent; PHYS 1030, prior or concurrent.
**Distribution:** Natural/Physical Science General Education lab course

**PHYS 1050 INTRODUCTION TO PHYSICS (4 credits)**
A terminal one-semester course covering major topics in mechanics, heat, sound, electricity, magnetism, light and modern physics. Designed particularly for non-science liberal arts majors or others for whom such a one-semester coverage might be deemed adequate. (Does not count towards physics requirement for chemistry, physics and engineering majors.)

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent.
**Distribution:** Natural/Physical Science General Education lecture

**PHYS 1054 INTRODUCTION TO PHYSICS LABORATORY (1 credit)**
A series of concise experiments on varied topics in physics, such as scientific sampling, optics, elasticity, motion, sound, light and electricity are covered in this one-semester course. Emphasis is placed on data collection and graphing, and error reduction.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent; PHYS 1050, prior or concurrent, or permission of the instructor.
**Distribution:** Natural/Physical Science General Education lab course

**PHYS 1110 GENERAL PHYSICS I WITH ALGEBRA (4 credits)**
First part of a two-semester continuing course designed for students with no prior background in physics. Mechanics, heat and sound are covered in this semester.

**Prerequisite(s)/Corequisite(s):** MATH 1310 or MATH 1220 or equivalent, or MPE score above 2 or permission of instructor.
**Distribution:** Natural/Physical Science General Education lecture

**PHYS 1120 GENERAL PHYSICS II (4 credits)**
Second part of a two-semester continuing course designed for students with no prior background in physics. Electricity and magnetism, light, and a little modern physics are covered.

**Prerequisite(s)/Corequisite(s):** PHYS 1110 or permission.

**PHYS 1154 GENERAL PHYSICS LABORATORY I (1 credit)**
One-semester laboratory course for students enrolled in PHYS 1110 or PHYS 2110. Covers experiments in mechanics, wave motion and heat.

**Prerequisite(s)/Corequisite(s):** PHYS 1110 or PHYS 2110, prior or concurrent.
**Distribution:** Natural/Physical Science General Education lab course

**PHYS 1164 GENERAL PHYSICS LABORATORY II (1 credit)**
One-semester laboratory course for students enrolled in PHYS 1120 or PHYS 2120. Second semester covers experiments in electricity and magnetism, optics, and modern physics.

**Prerequisite(s)/Corequisite(s):** PHYS 1120 or PHYS 2120, prior or concurrent.

**PHYS 1350 PRINCIPLES OF ASTRONOMY (3 credits)**
An introductory course that satisfies divisional requirements in natural science. Topics discussed include the night sky, gravity, telescopes, atoms and radiation, the solar system, the sun and stars; and cosmology.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent.
**Distribution:** Natural/Physical Science General Education lecture

**PHYS 1354 INTRODUCTORY ASTRONOMY LAB (1 credit)**
Laboratory sessions acquaint students with basic phenomena, methods and data acquisition in astronomy. By use of the experiments, students will be able to explore and add to what has been discussed in lecture. Several night observing sessions will also be available for students to use telescopes.

**Prerequisite(s)/Corequisite(s):** PHYS 1350 prior or concurrent.
**Distribution:** Natural/Physical Science General Education lab course

**PHYS 1750 FUNDAMENTAL PHYSICS OF SOUND (4 credits)**
A course designed for music and communication majors. It covers transmission of sound, wave motion, pitch, quality, sound synthesis, acoustics, resonance, interference, musical scales, string and wind instruments, recording and reproduction of sound. Three lectures and one discussion per week.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent.

**PHYS 1754 FUNDAMENTAL PHYSICS OF SOUND LABORATORY (1 credit)**
A laboratory that accompanies PHYS 1750. The experiments are coordinated with the music-related portions of lecture course. The laboratory is designed for music majors.

**Prerequisite(s)/Corequisite(s):** PHYS 1750 prior or concurrent and music major or permission of instructor.

**PHYS 1950 PHYSICS GATEWAY COURSE (1 credit)**
Designed for first year physics majors, a one-semester introduction to concepts and tools to be encountered and used in earning a physics degree.

**Prerequisite(s)/Corequisite(s):** High School algebra or equivalent.

**PHYS 2030 ENERGY AND FUELS (3 credits)**
This one semester course focuses on energy from a macroscopic perspective. Viewpoints based on the law of physics are distinguished from unsupported opinion. Topics include: electricity production and consumption; mineral and fossil fuel resources; nuclear, solar, fossil fuel and biomass energies; pollution, conservation and recycling; extrapolation and interconnections.

**Prerequisite(s)/Corequisite(s):** MATH 1310 or MATH 1220

**PHYS 2040 RADIATION FUNDAMENTALS (3 credits)**
This one-semester course examines the ways radiation affects our daily lives. Topics include: structure of matter and types of radiation, half-life and activity, biological effects of radiation, radiation standards and protection, uses of isotopes and radiation, nuclear wastes life-cycle, nature of risk versus benefit, dose calculations and shielding fundamentals.

**Prerequisite(s)/Corequisite(s):** MATH 1310 or MATH 1220, minimum of PHYS 1050.

**PHYS 2110 GENERAL PHYSICS I - CALCULUS LEVEL (4 credits)**
First part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Mechanics, molecular properties of matter and heat are covered in the first semester.

**Prerequisite(s)/Corequisite(s):** MATH 1950 (MATH 1930 for Geology majors) or permission of the instructor. High school physics or PHYS 1050 is recommended.
**Distribution:** Natural/Physical Science General Education lecture

**PHYS 2120 GENERAL PHYSICS-CALCULUS LEVEL (4 credits)**
Second part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Wave motion, electricity, magnetism and light are considered during the second semester.

**Prerequisite(s)/Corequisite(s):** PHYS 2110 and MATH 1960 (MATH 1930 for Geology majors) or permission of the instructor.

**PHYS 2130 MODERN PHYSICS (4 credits)**
The course is composed of introductions to relativity theory and quantum theory with applications to atomic and nuclear structure. Topics include: Planck radiation law; Compton Effect; photoelectric effect; the Rutherford experiments and Bohr model of the atom; the Schroedinger electronic structure of atoms; nuclear reactions, nuclear models, radioactive decay, fission, fusion and elementary particles.

**Prerequisite(s)/Corequisite(s):** PHYS 2110, PHYS 2120, MATH 1950, & MATH 1960; or permission.
PHYS 2350 SPECIAL TOPICS IN ASTRONOMY: OBSERVATIONAL ASTRONOMY (2-3 credits)
This one semester course emphasizes personal study of the sky, including observing, measuring and recording celestial positions. Students will be shown how to observe and measure the Sun, the Moon, visible planets, and stars, and how to document astronomical observations. Students will be required to study outdoors on their own and will also use the department’s observing facilities.
Prerequisite(s)/Corequisite(s): PHYS 1350 or instructor permission.

PHYS 3050 THE PHILOSOPHY OF SPACE EXPLORATION (3 credits)
This course deals mainly with the justification of space exploration in the face of conflicting needs. Topics to be studied include objections to the space program and responses to them, spin-off benefits, space industrialization, planetary and interstellar exploration, space colonies, search for life elsewhere, and other related theoretical issues. (Cross-listed with PHYS 8055)
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

PHYS 3150 MODERN DEVELOPMENTS IN PHYSICS (3 credits)
A resume of the most important discoveries, changes and new concepts gleaned from the last decade of research in physics. Superconductivity, lasers, masers, superfluidity, ultra large magnetic fields, space plasmas, nuclear fusion power, etc. Designed for updating physical science concepts for science majors and for science teachers. (Cross-listed with PHYS 8155)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120

PHYS 3160 CURRENT TOPICS IN SCIENCE (1-3 credits)
The subject matter of this course will generally not be presented in a standard physics course and may be of an interdisciplinary nature. The specific topics and prerequisites will be listed in the schedule. (Cross-listed with PHYS 8165)
Prerequisite(s)/Corequisite(s): Permission of instructor.

PHYS 3250 MATHEMATICAL METHODS OF PHYSICS (3 credits)
Training in the use of mathematical techniques applicable to physics problems encountered in upper-level physics courses. Vector operators, Fourier analysis, frequently used differential equations (ordinary and partial), orthogonal functions, and matrix methods of coordinate transformation are included. Emphasis is given to solving problems from mechanics such as vectorial mechanics, oscillatory systems, wave motion, potential theory, etc.
Prerequisite(s)/Corequisite(s): MATH 1950, MATH 1960, MATH 1970 and PHYS 2160 or 2120 or permission.

PHYS 3260 COMPUTER TOOLS FOR PHYSICISTS (2 credits)
This course will introduce a wide selection of computer-powered mathematical tools for doing physics or any upper level science courses. It will introduce software packages in real and complex algebra, trigonometry, calculus I & II, linear algebra, statistics, differential equations, special functions, graphics, document preparation, and programming in the manner of a research scientist.
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1960.

PHYS 3300 INTRODUCTION TO BIOMEDICAL PHYSICS (3 credits)
This course is designed primarily for students desiring to specialize in Biomedical Physics. The course emphasizes an understanding of the fundamental principles of physics and the use of these principles in a variety of biological and medical applications with the major goal to merge physics, biology, and medicine in a unified perspective. PHYS 3300 covers various topics relating basic physics to living systems, including mechanics, fluid mechanics, thermodynamics, sound, electricity, optics, atomic physics, nuclear physics, and nanotechnology. It also describes various technologies widely used in modern medicine such as laser surgery, ultrasound imaging, X-ray, computed tomography, and magnetic resonance imaging. Each topic briefly introduces related background of physics principles as well as comprehensive overview of biological/medical application, thus (although highly recommended) very little background in physics or biology is required. This course will benefit students with interests in medicine, biology, biophysics, or medical physics.
Prerequisite(s)/Corequisite(s): PHYS 1110 is required. PHYS 2110 and PHYS 1120 or PHYS 2120 are recommended.

PHYS 3450 CLASSICAL MECHANICS (3 credits)
Statics and dynamics of particles and rigid bodies including the equations of Lagrange and Hamilton. (Cross-listed with PHYS 8455)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120

PHYS 3500 ELEMENTS OF ELECTRONICS (3 credits)
The topics covered will include basic circuit theory, principles and operation of electronic devices such as diodes, transistors and integrated circuits. Application of these devices in various electronic circuits. Both analog and digital circuitry will be studied. (Cross-listed with PHYS 8505)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 3524 EXPERIMENTAL PHYSICS II (1 credit)
A set of experiments designed to complement PHYS 3760 and PHYS 4210.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3544 EXPERIMENTAL PHYSICS III (1 credit)
A set of experiments designed to complement PHYS 3450, PHYS 3850, and PHYS 4200.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3564 EXPERIMENTAL PHYSICS IV (1 credit)
A set of experiments designed to complement PHYS 3020 and PHYS 4220.
Prerequisite(s)/Corequisite(s): PHYS 2120

PHYS 3660 THERMODYNAMICS AND STATISTICAL PHYSICS (3 credits)
Topics include: empirical and absolute temperature, equations of state, work, heat, entropy, the four laws of thermodynamics, phase changes, thermodynamic potentials, classical and quantum statistics of an ideal gas. Applications to be included: Einstein theory of a solid, paramagnetism, blackbody radiation, and conduction electrons. (Cross-listed with PHYS 8605)
Prerequisite(s)/Corequisite(s): PHYS 2120 and MATH 1970.

PHYS 3750 ELECTRICITY AND MAGNETISM I (3 credits)
An advanced study of electrostatics and magnetostatics, including Coulomb's law, Gauss' law, the scalar potential, conductors and dielectrics, electrostatic energy, special methods, electric current, Ampere's law, the magnetic induction, Faraday's law, and the electromagnetic wave equation as obtained from Maxwell's equations, with simple examples such as transmission lines and antennas. (Cross-listed with PHYS 8755)
Prerequisite(s)/Corequisite(s): MATH 1950, MATH 1960, MATH 1970, PHYS 3250, or permission.
PHYS 3760 ELECTRICITY AND MAGNETISM II (3 credits)
A selection of more advanced topics from electromagnetic theory, including a deeper treatment of the electromagnetic wave equations derived from Maxwell's equations, extending to propagation, reflection and refraction of plane waves, waves in wave guides, and radiation. Other topics covered might be magnetism and magnetic energy, plasmas and special relativity. (Cross-listed with PHYS 8765)
Prerequisite(s)/Corequisite(s): PHYS 3750

PHYS 3800 OPTICS (3 credits)
The behavior of electromagnetic radiation as formulated in the ray, wave, and quantum models. Topics will include: reflection and refraction, vergence, matrix method, optical instruments, scalar waves, electromagnetic waves, blackbody radiation, interference, diffraction, and lasers; if time permits, fiber optics and holography will also be included. (Cross-listed with PHYS 8805)
Prerequisite(s)/Corequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 4200 INTRODUCTION TO QUANTUM MECHANICS (3 credits)
This course provides an introduction to the historical development of modern physics and to the Schroedinger formulation of quantum mechanics. Specific topics will include square wells potential barriers, the simple harmonic oscillator potential and the hydrogen atom. Characteristics of multi-electron atoms, including angular momentum coupling schemes, spectra and transition rules will also be included. (Cross-listed with PHYS 8206)
Prerequisite(s)/Corequisite(s): PHYS 3250 or permission.

PHYS 4210 QUANTUM THEORY (3 credits)
The matrix operator formalism is covered along with philosophical implications of this approach. The methods developed will be applied to simple harmonic oscillator and hydrogen atom potentials. Raising and lowering operators, creation-annihilation operators, and first and second order perturbation theory will be discussed. (Cross-listed with PHYS 8216)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4220 PHYSICS OF MOLECULES AND SOLIDS (3 credits)
This course covers the various types of atomic bonding found in molecules and solids. Electronic energy levels and spectra of molecules will be discussed. Topics in solid state physics will include mechanics and thermodynamics of crystals, the scattering of waves, including x-ray and neutron scattering, electron scattering and phonon and photon interactions. (Cross-listed with PHYS 8226)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4230 SPECIAL RELATIVITY AND NUCLEAR PHYSICS (3 credits)
This course includes a brief historical background of the development of relativity theory and the importance of the experiments performed in conjunction with it. Lorentz transformations and covariant formalism will be developed and applied to certain problems in mechanics and electricity and magnetism. The nuclear physics portion of the course will include the historical development of the concept of the nuclear atom. Theoretical models of nuclear structure will be discussed, along with the theory of alpha, beta and gamma decay. Fission and fusion discussed as time permits. (Cross-listed with PHYS 8236)
Prerequisite(s)/Corequisite(s): PHYS 4200 or permission.

PHYS 4300 GENERAL RELATIVITY (3 credits)
A study of general relativity theory and its leading applications. Physical motivations and conceptual foundations will be explored. Students will be guided step-by-step to mastery of the tensor analysis required by this theory. Topics covered will include the equivalence principle, recap of special relativity, tensors, curvature and geodesics, Einstein field equations, black holes, cosmology, and gravitational waves. (Cross-listed with PHYS 8306)
Prerequisite(s)/Corequisite(s): PHYS 3750 and PHYS 4230, or permission of instructor.

PHYS 4350 ASTROPHYSICS (3 credits)
This course introduces the fundamentals of astrophysics to students with a prior knowledge of physics and mathematics. A review will be given of light and telescopes, classical and quantum mechanics and special relativity. Basic laws of physics will be applied to various topics such as: the sun, nuclear fusion and particle physics, evolution and end state of stars, interstellar medium, galaxies and cosmology. (Cross-listed with PHYS 8356)
Prerequisite(s)/Corequisite(s): PHYS 2130 or 4200 and MATH 1970. Recommended: PHYS 1350.

PHYS 4400 GEOPHYSICS (3 credits)
A study of geophysical techniques used to understand the earth and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock, rheology, and plate tectonics will also be addressed. Interpretive skills will be emphasized.
Prerequisite(s)/Corequisite(s): PHYS 3100 and MATH 1950, MATH 1960 or permission of instructor.

PHYS 4500 BIOLOGICAL PHYSICS (3 credits)
This course is designed primarily for students specializing in Biomedical Physics. As a part of Biomedical Physics program at the Department of Physics, the course introduces the fundamental principles of physics and the use of these principles for various biological applications.
PHYS 4500/8506 covers various topics including cells, polymers, polyelectrolytes, membranes, mesoscopic forces, self-assembly, photonics, fluid mechanics, motility, chemical kinetics, enzyme kinetics, modern experimental techniques of biophysics. Each topic connects biomolecules with their functions and relevant biological phenomena from a physics perspective. This course will benefit students with interests in biological and medical physics, as well as chemistry, biology. (Cross-listed with PHYS 8506).
Prerequisite(s)/Corequisite(s): PHYS 2110 is required. PHYS 2120 and PHYS 3300 are recommended.

PHYS 4550 PHYSICS IN MEDICINE (3 credits)
This course is designed primarily for students desiring to specialize in Biomedical Physics. The course introduces principles and applications of various medical imaging modalities and medical physics based therapies. Topics include such imaging techniques as ultrasound, X-ray imaging, Computed Tomography (CT), MRI imaging, and positron emission tomography. The course discusses physical principles behind medical imaging and therapeutic applications and covers interaction of different kinds of radiation with biological matter. (Cross-listed with PHYS 8556).
Prerequisite(s)/Corequisite(s): PHYS 2110; PHYS 2120, and PHYS 2130 for Physics majors or permission of the instructor. PHYS 3300 and PHYS 4500 are recommended.

PHYS 4800 INTERNSHIP (1-6 credits)
Internship with agencies or corporations enabling students to gain knowledge and experience in practical applications of physics and/or environmental principles.
Prerequisite(s)/Corequisite(s): Junior or senior standing. Permission.

PHYS 4950 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4960, PHYS 8956, PHYS 8966)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

PHYS 4960 PROBLEMS IN PHYSICS (1-3 credits)
Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4950, PHYS 8956, PHYS 8966)
Prerequisite(s)/Corequisite(s): PHYS 2120 and permission of instructor.

Physics, Bachelor of Arts

To obtain a B.A. with a major in Physics, a student must fulfill university, college, and departmental requirements. Hour requirements follow:
• 46 hours of University General Education courses
  Most commonly, Physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet 4 hours of the natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.

• 16 hours of a foreign language

• 12-19 hours college breadth requirement

• 50 hours of major courses

• 0-9 hours of electives

TOTAL HOURS: 120

### Requirements

#### Code | Title | Credits
---|---|---
PHYS 1950 | PHYSICS GATEWAY COURSE | 1
PHYS 2110 & PHYS 1154 | GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I | 5
PHYS 2120 & PHYS 1164 | GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II | 5
PHYS 2130 | MODERN PHYSICS | 4
PHYS 3250 | MATHEMATICAL METHODS OF PHYSICS | 3
MATH 1950 | CALCULUS I | 5
MATH 1960 | CALCULUS II | 5
MATH 1970 | CALCULUS III | 4
PHYS 3450 | CLASSICAL MECHANICS | 3
PHYS 3600 | THERMODYNAMICS AND STATISTICAL PHYSICS | 3
PHYS 3750 | ELECTRICITY AND MAGNETISM | 3
PHYS 3800 | OPTICS | 3
PHYS 4200 | INTRODUCTION TO QUANTUM MECHANICS | 3

#### Advanced Laboratory

PHYS 3504 | EXPERIMENTAL PHYSICS I | 1
Select one of the following: 1

PHYS 3524 | EXPERIMENTAL MATERIALS SCIENCE | 1
PHYS 3544 | EXPERIMENTAL PHYSICS III | 1
PHYS 3564 | EXPERIMENTAL PHYSICS IV | 1

#### Senior Project

In addition to the above requirements, a senior project is required, which students must register for PHYS 4950 or PHYS 4960. 2

PHYS 4950 | PROBLEMS IN PHYSICS | 1
or PHYS 4960 | PROBLEMS IN PHYSICS | 1

**For the B.A. degree, foreign language is required through the intermediate level.**

#### Freshman

</table>

*Level 1110 foreign language courses count as a Humanity/ Fine Arts course, Global Diversity, and toward the student's BA requirement. If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.

**ENGL 1150: Requires appropriate placement.

**MATH 1950: Requires placement through the Accuplacer or ALEKS Exam or ACT or SAT scores OR grades of C- or better within the past 2 years in both Math 1320 and 1330 or Math 1340.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

**Additional Information About this Plan:

**University Degree Requirements:**
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:**
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:** 2.0

**Graduation Requirements:** Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (https://catalog.unomaha.edu/search/?P=PHYS%204950) or PHYS 4960 (https://catalog.unomaha.edu/search/?P=PHYS%204960).

**Physics, Bachelor of Science Requirements**
The Bachelor of Science (B.S.) degree in physics is offered with three different options for students to follow: Option I is for the student who intends to go on to graduate school in physics; Option II allows for the degree to be enhanced by a second discipline; and finally, the Bachelor of Science in physics with a concentration in education leads to a physics teaching certificate at the secondary-school level. To help the prospective physics majors make optimal decisions, they are encouraged to speak with a departmental adviser as early as possible.

To obtain a B.S. with a major in Physics, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- Most commonly, Physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet 4 hours of the natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.
~ 12-19 hours college breadth requirement
~ 56 hours of major courses
~ 0-19 hours of electives

TOTAL HOURS: 120

**Option I**

Physics, Bachelor of Science with a Concentration in Biomedical Physics

Requirements

The Bachelor of Science (B.S.) degree in physics with concentration in biomedical physics is offered for students who intend to continue education in biological physics, medical physics or go to medical school. To help the prospective physics majors make optimal decisions, they are encouraged to speak with a departmental adviser as early as possible.

To obtain a B.S. with a major in Physics and a concentration in biomedical physics, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 0-19 hours of electives
- 12-19 hours college breadth requirement
- 56 hours of major courses
- 0-19 hours of electives

University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Graduation Requirements: Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (https://catalog.unomaha.edu/search/?P=PHYS%204950) or PHYS 4960 (https://catalog.unomaha.edu/search/?P=PHYS%204960).

### Physics, Bachelor of Science with a Concentration in Physics Education

To obtain a B.S. with a major in Physics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses

Most commonly, Physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet the 7 hour natural sciences distribution
requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.

- 62 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements
A Bachelor of Science in physics with a concentration in education leads to a physics teaching certificate at the secondary-school level. In some cases, it is possible to earn both a B.S in physics and a B.S. in secondary education.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

### Additional Information About this Plan:

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

#### Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

#### GPA Requirements: 2.75

#### Graduation Requirements:

Major Field Test, Local Test. For Teaching Certificate: Completion of Praxis CORE

### Physics Minor

#### Requirements

The physics minor requires 18 credit hours in physics coursework, as outlined below. Minimum grade required for each course is "C-".

<table>
<thead>
<tr>
<th>Code</th>

The Division of Continuing Studies offers the Bachelor of General Studies degree with an area of concentration in political science. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The major consists of a minimum of 30 credit hours in political science, details of which are here. (https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/political-science.php)

**Student Groups**
Phi Alpha Delta, International Pre-law Fraternity
Pi Gamma Mu, International Social Science Honor Society

**Option for Degree Completion**

**Fast Track Program**
The Department of Political Science has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**
- This program is available for undergraduate students pursuing BA/BS in Political Science or BA in International Studies desiring to pursue a MS in Political Science.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

**Contact Information**
275 Arts & Sciences Hall
402.554.2624
Website (http://www.unomaha.edu/college-of-arts-and-sciences/political-science/)

**Degrees Offered**
- Political Science, Bachelor of Arts (p. 303)
- Political Science, Bachelor of Science (p. 305)

**Writing in the Discipline**
All students are required to take a writing in the discipline course within their major. PSCI 2000 is required to satisfy the writing in the discipline course requirement for all Political Science Bachelor of Arts and Bachelor of Science students.
Minors Offered

- Political Science Minor (p. 308)
- Leadership and Public Policy Minor (p. 308)

Political Science majors make great employees in any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers in all walks of society. Specifically though, Political Science majors often pursue careers in:

- Government
- Public Sector Jobs
- National Security
- Journalism and Media
- Law
- Diplomacy & International Affairs
- Business
- Human Rights
- Education
- Military
- Nonprofit & International Organizations

PSCI 1000 INTRODUCTION TO POLITICAL SCIENCE (3 credits)
This course introduces students to political ideas, behaviors, processes, institutions, and issues on a national and global level.
Distribution: Social Science General Education course and Global Diversity General Education course

PSCI 1100 INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT (3 credits)
This course introduces students to the foundational principles, institutions, processes, and policies of national government in the United States.
Distribution: Social Science General Education course and U.S. Diversity General Education course

PSCI 2000 INTRODUCTION TO POLITICAL INQUIRY AND WRITING (3 credits)
This course introduces students to how political scientists conduct inquiry into political questions and how they write about the results of their investigations for various kinds of audiences. Students will learn the basics of quantitative and qualitative research methods in political science, will learn how to use the library and other available sources of information, and will produce the various kinds of writings by which political scientists communicate their findings to the public, to other scholars, and to political and governmental actors.
Prerequisite(s)/Corequisite(s): PSCI 1100 or PSCI 1000 preferred. ENGL 1150 required and ENGL 1160 recommended.
Distribution: Writing in the Discipline Single Course

PSCI 2110 INTRODUCTION TO PUBLIC POLICY (3 credits)
An introduction to the formation and evaluation of public policy, with particular focus on the stages of public policy development.
Distribution: Social Science General Education course

PSCI 2120 INTRODUCTION TO LEADERSHIP (3 credits)
This course introduces students to civic leadership in a public setting, including theories of leadership, models of leadership, cases of success and failure, and the inherent tensions among democracy, leadership, and administration.
Distribution: Social Science General Education course

PSCI 2130 AFRICAN POLITICS (3 credits)
African Politics examines the socio-cultural and economic environments which characterize political life in contemporary Africa. This course examines contemporary African politics and government in post-independence Africa, and the pre-colonial political and economic systems which influence contemporary African politics. The course assesses the various approaches used to study the political development of the African continent; examines the processes, features, and institutions of the African states; addresses key and persistent issues about African politics; and examines dimensions of social change and political reform. (Cross-listed with BLST 2130).
Distribution: Global Diversity General Education course

PSCI 2150 CAREERS IN LAW AND POLITICS (3 credits)
This course introduces students to a diversity of career paths in both the public and private sector that are available in the fields of law and politics, and the motivations, qualifications, and expertise necessary for each.
Prerequisite(s)/Corequisite(s): PSCI 1000 or PSCI 1100 is recommended. Not open to non-degree graduate students.
Distribution: Social Science General Education course

PSCI 2180 INTRODUCTION TO LAW (3 credits)
This course introduces students to the foundations, principles, functions, institutions, processes, issues, and fields of law with a special emphasis on the American political and legal systems.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

PSCI 2210 INTRODUCTION TO INTERNATIONAL RELATIONS (3 credits)
This course introduces students to historical and contemporary questions and major theoretical approaches to world affairs through examination of the international system in terms of the economic, military, and political forces between states, international organizations, and transnational actors.
Distribution: Global Diversity General Education course and Social Science General Education course

PSCI 2310 INTRODUCTION TO POLITICAL THOUGHT (3 credits)
This course introduces students to the nature and scope of politics, the foundations of political thought, and competing traditions of political theory through the ideas of major political philosophers, the interpretation of their ideas, and the possible application of their ideas today.
Distribution: Humanities and Fine Arts General Education course

PSCI 2500 INTRODUCTION TO COMPARATIVE POLITICS (3 credits)
This course introduces students to the fundamental concepts and theoretical approaches used to study political institutions, processes, and public policies in different country settings. This course also illustrates the rich diversity of political life and the importance of global political and economic change.
Distribution: Global Diversity General Education course and Social Science General Education course

PSCI 3000 QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE (3 credits)
This course introduces students to the techniques that political scientists use to answer research questions with quantitative data, as well as issues of research design, hypothesis formation, and causation. The course emphasizes the methods used to collect, analyze, and extract information from data using statistical computer software. (Cross-listed with PSCI 8005)
Prerequisite(s)/Corequisite(s): MATH 1120, MATH 1130, MATH 1530, MATH 1220 or MATH 1310 or permission of department.

PSCI 3010 URBAN POLITICS (3 credits)
This course introduces students to the development, powers, forms of government, and functions of cities and their suburbs as well as the problems faced by elected officials, business and community leaders, and citizens in the urban setting. (Cross-listed with PSCI 8015)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.
PSCI 3040 GOVERNMENT AND POLICIES OF NEBRASKA (3 credits)
This course introduces students to the development, structures, functions and public policies of the government of the state of Nebraska. (Cross-listed with PSCI 8045)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3050 STATE GOVERNMENT AND POLITICS (3 credits)
This course introduces students to the development, structures, functions and public policies of states. (Cross-listed with PSCI 8055)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3100 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, WGST 3100, WGST 8105)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

PSCI 3120 THE AFRICAN AMERICAN EXPERIENCE IN POLITICS (3 credits)
This course will provide a historical and contemporary survey of the African American political experience in the United States, from the passage of the 15th Amendment in the late 1800s, to the 1965 Voting Rights Act, and continuing into the 21st century. Students will examine the evolution of the Black political experience, with emphasis on the fight against enslavement, segregation, lynchings and mass incarceration, and the long struggle of African Americans against institutional and structural racism in the American political system. (Cross-listed with BLST 3120)
Prerequisite(s)/Corequisite(s): PSCI 1000 or PSCI 1100
Distribution: U.S. Diversity General Education course

PSCI 3130 WOMEN AND POLITICS (3 credits)
This course introduces students to women’s political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 8135, WGST 3130, WGST 8135)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

PSCI 3140 LATINOS/A POLITICS (3 credits)
This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, LLS 3140, LLS 8145)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

PSCI 3150 ASIAN PACIFIC AMERICANS AND THE NEW MINORITY POLITICS (3 credits)
This course will be devoted to a broad discussion about the emergence of Asian Pacific Americans by birth and immigration, the fastest growing minority in the U.S., as a significant factor in American politics. (This course fulfills the department's American politics requirement).
Prerequisite(s)/Corequisite(s): Junior standing or by professor's permission.

PSCI 3160 POLITICAL PARTIES (3 credits)
This course introduces students to the origin, development, structure, and functions of political parties in the United States as political organizations, coalitions of voters, and governing coalitions that seek to hold office and influence public policy. (Cross-listed with PSCI 8165)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3170 INTEREST GROUPS (3 credits)
This course introduces students to the theories, formation, organization, and activities of interest groups and their impact on public policy, particularly through their role in campaigns and elections and lobbying. (Cross-listed with PSCI 8175)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3180 CAMPAIGNS AND ELECTIONS (3 credits)
This course introduces students to the evolution and modern application of campaigns and elections in the United States through examination of campaign management and campaign strategy in congressional and presidential elections. (Cross-listed with PSCI 8185)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3210 GEPOLITICS OF CENTRAL ASIA AND SOUTH ASIA (3 credits)
This course will focus on the geographic area of Central Asia-South Asia (CASA) and provide students with opportunity to understand the dynamics that made this region a traditional contest area between regional and global powers for centuries. Central Asia-South Asia region is home to successful democracies, a monarchy, and dictatorships. This course is designed to help students analytically assess the geopolitical variables concerning the CASA region and the players involved. Post 9/11 developments in Afghanistan have brought the whole region once again to the forefront of geopolitical struggle between global and regional players, thus reigniting the struggle of the New Great Game in the region. These multiple elements of regional, development, stability and instability will be discussed in this course.
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor. Recommended: INST 2130: Introduction to International Studies.

PSCI 3220 INTERNATIONAL ORGANIZATIONS (3 credits)
This course introduces students to the history, principles, structures, and processes developed to organize and legitimize peaceful reconciliation of the differences of nation-states and to advance their mutual interests in the contemporary global political and economic system. (Cross-listed with PSCI 8225)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3230 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 8235, WGST 3230, WGST 8235)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.
Distribution: Global Diversity General Education course

PSCI 3240 THE POLITICS AND PRACTICE OF HUMAN RIGHTS (3 credits)
This course introduces students to human rights issues across the globe and explores the theoretical foundations of human rights as well as human rights institutions and transitional justice. (Cross-listed with PSCI 8245)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of the instructor.
PSCI 3250 GLOBAL SECURITY ISSUES (3 credits)
This course introduces students to issues of national and international security that cross boundaries and threaten all countries including issues such as climate change, environmental deterioration, population and demographics, gender issues, disease and public health, the media, asymmetrical warfare, drugs/organized crime, and cyberthreats. (Cross-listed with PSCI 8255)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 3260 UNITED STATES FOREIGN POLICY (3 credits)
This course introduces students to the analysis of foreign and defense policy processes in the United States, including the role of the President, Congress, Departments of State and Defense, the intelligence community, and other actors/factors affecting policy formulation and implementation. (Cross-listed with PSCI 8265)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3340 AMERICAN POLITICAL THOUGHT (3 credits)
This course introduces students to the ideals, ideologies, identities, and institutions of American political thought from the country's origins to the present. Topics to be covered may include the political thought of the early American settlers and of the founding generation, the debates over the creation and implementation of the Constitution, the 19th century arguments over slavery, the rise of progressivism, the New Deal and its critics, and contemporary American conservatism and liberalism. (Cross-listed with PSCI 8345)
Prerequisite(s)/Corequisite(s): PSCI 1100 or PSCI 2310 or junior standing or permission of instructor.

PSCI 3410 LAW AND THE BLACK COMMUNITY (3 credits)
Law and the Black Community provides an in-depth examination of the racialized American legal process as it pertains to and affects African Americans in the U.S. From the formation of the U.S. Constitution to present day, this course analyzes intersections of race, law, politics and culture, and explores the administration of justice and Black experiences through a critical legal perspective. (Cross-listed with BLST 3410, CRCJ 3410).
Prerequisite(s)/Corequisite(s): BLST 1000 OR Junior standing OR instructor permission.
Distribution: U.S. Diversity General Education course

PSCI 3500 EUROPEAN POLITICS (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Europe, including the European Union. (Cross-listed with PSCI 8505)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3580 GOVERNMENT AND POLITICS OF RUSSIA AND THE POST-SOVIET STATES (3 credits)
This course introduces students to the political cultures, institutions, processes, and public policies of Russia and the states of the former Soviet Union. (Cross-listed with PSCI 8585)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3640 GOVERNMENT AND POLITICS OF CHINA AND EAST ASIA (3 credits)
This course introduces students to the political cultures, institutions, processes, policies, and other characteristics of China and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 8645)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3660 GOVERNMENT AND POLITICS OF JAPAN AND EAST ASIA (3 credits)
This course introduces students to the political cultures, institutions, processes, policies and other characteristics of Japan and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 8665)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)
This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with PSCI 8685, LLS 3680, LLS 8685)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior status or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3700 GOVERNMENT AND POLITICS OF THE MIDDLE EAST (3 credits)
This course introduces students to government and politics in the contemporary Middle East, including considerations of state formation, authoritarianism and democratization, state-society relations, religion, culture, gender, and economy. (Cross-listed with PSCI 8705)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 3920 SPECIAL TOPICS IN POLITICAL SCIENCE (3 credits)
This course introduces students to a specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

PSCI 4030 THE PRESIDENCY (3 credits)
This course introduces students to the development and modern application of presidential leadership through examination of presidential selection, presidential decision-making, the relationship of the presidency with other governmental and non-governmental actors, and the role of the presidency in making public policy. (Cross-listed with PSCI 8036)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4040 CONGRESS AND THE LEGISLATIVE PROCESS (3 credits)
This course introduces students to the development of the Congress and modern application of the legislative process through examination of congressional elections, congressional leadership, congressional decision-making, legislative rules and procedures, the relationship of the Congress with other governmental and non-governmental actors, and the role of the Congress in making public policy. (Cross-listed with PSCI 8046)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior status or permission of instructor.

PSCI 4050 THE JUDICIAL PROCESS (3 credits)
This course introduces students to the administration of law in federal and state courts with respect to the organization of the courts, judicial selection, judicial powers, judicial decision-making, judicial policy-making, the bar, and reform movements in the pursuit of justice. (Cross-listed with PSCI 8056)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior status or permission of instructor.

PSCI 4110 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 8116, PSYC 4110, PSYC 8116)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.
PSCI 4120 PUBLIC OPINION AND POLLING (3 credits)
This course introduces students to the origins, nature, measurement, and consequences of public opinion on policymaking. (Cross-listed with PSCI 8126)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of the instructor.

PSCI 4140 CONSTITUTIONAL LAW: CIVIL RIGHTS (3 credits)
This course introduces students to the history, principles, and judicial interpretation of key constitutional provisions and federal statutes regarding civil rights in the United States. (Cross-listed with PSCI 8146)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4150 LAW AND THE COURTS: MOCK TRIAL (3 credits)
This course introduces students to the American legal system, including its courtroom aspects, through preparation of and participation in a mock trial case.
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4160 LAW AND THE COURTS: MOCK TRIAL PRACTICUM (1-3 credits)
This course introduces students to the American legal system through participation in mock trial competition.
Prerequisite(s)/Corequisite(s): PSCI 4150 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4170 CONSTITUTIONAL LAW: FOUNDATIONS (3 credits)
This course introduces students to the principles, design and operation of the American constitutional system with emphasis on analysis of the Declaration of Independence, the Articles of Confederation, the proceedings of the Constitutional Convention, and the Federalist Papers. (Cross-listed with PSCI 8176)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4180 CONSTITUTIONAL LAW: THE FEDERAL SYSTEM (3 credits)
This course introduces students to American constitutional law as it relates to issues of federalism, the relation of the nation and the states, and separation of powers, the relation of the three branches of the national government. (Cross-listed with PSCI 8186)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4190 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3 credits)
This course introduces students to the philosophy, history, and development of the personal liberties guaranteed by the Constitution including freedom of speech, religion, assembly, petition, and the right of privacy, primarily through examination of Supreme Court decisions. (Cross-listed with PSCI 8196)
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4200 INTERNATIONAL RELATIONS OF EAST ASIA (3 credits)
This course introduces students to the international politics of East Asia with an emphasis on the contemporary relations among major East Asian states (China, Japan, the Korean peninsula) and the United States. (Cross-listed with PSCI 8206)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor. Distribution: Global Diversity General Education course

PSCI 4210 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3 credits)
This course focuses on the international politics of the Middle East region, specifically looking at conditions for peace and causes of war. It examines how the international system, domestic politics, ideologies, and leaders influence international politics in the Middle East. (Cross-listed with PSCI 8216)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4220 GLOBAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 8296, CACT 8306)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4240 INTERNATIONAL CONFLICT RESOLUTION (3 credits)
This course introduces students to different approaches to peace, their basic assumptions, and their application to current conflicts. (Cross-listed with PSCI 8246)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4250 INTELLIGENCE AND NATIONAL SECURITY (3 credits)
This course introduces students to the United States intelligence services, and their relation to broader U.S. national security policy. (Cross-listed with PSCI 8256)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4260 INTERNATIONAL LAW (3 credits)
The course introduces students to the general principles of international law, including the key actors, the creation and sources of international law, the interpretation of international law by courts and tribunals, and its enforcement. (Cross-listed with PSCI 8266)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)
This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with ENVN 4270, PSCI 8276)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)
Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department’s international politics requirement). (Cross-listed with PSCI 8286, LLS 4280, LLS 8286)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of the instructor. Distribution: Global Diversity General Education course

PSCI 4290 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)
This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 8296, CACT 8306)
Prerequisite(s)/Corequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4310 CLASSICAL POLITICAL THOUGHT (3 credits)
This course introduces students to key works representative of premodern political thought. Authors examined may include Plato, Aristotle, Xenophon, Cicero, Augustine, and Aquinas. (Cross-listed with PSCI 8316)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.
PSCI 4320 EARLY MODERN POLITICAL THOUGHT (3 credits)
This course introduces students to key works of the 16th through mid-18th centuries. Authors examined may include Machiavelli, Hobbes, Hume, Smith and Montesquieu. (Cross-listed with PSCI 8326)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor

PSCI 4330 LATE MODERN POLITICAL THOUGHT (3 credits)
This course introduces students to key texts of the mid-18th through 19th centuries. Authors to be examined may include Rousseau, Burke, Mill, Tocqueville, Marx, and Nietzsche. (Cross-listed with PSCI 8336)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4340 CONTEMPORARY POLITICAL THOUGHT (3 credits)
This course introduces students to leading works of contemporary political thought, including Marx, Spencer, Dahl, Rawls, feminism, and rational choice. The theories, their interrelationships, the theorists, and the manifestations of these works will be discussed and analyzed. (Cross-listed with PSCI 8346)
Prerequisite(s)/Corequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4350 DEMOCRACY (3 credits)
A basic study of theory, practice and practitioners of political democracy, its roots, development, present application and problems and future. (Cross-listed with PSCI 8356)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor is required.

PSCI 4360 AUTHORITARIAN REGIMES (3 credits)
An analysis of various types of authoritarian regimes, their differences from democratic governments, and the causes of their establishment, maintenance, and failure. (Cross-listed with PSCI 8366).
Prerequisite(s)/Corequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 4370 GENERALS AND POLITICIANS: CIVIL-MILITARY RELATIONS (3 credits)
This course introduces students to civil-military relations and military politics across the globe. (Cross-listed with PSCI 8376).
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of the instructor.

PSCI 4380 TOPICS IN POLITICAL THEORY (3 credits)
This course will conduct an in-depth exploration of an important issue, movement, thinker, or work in political theory. The particular subject matter will vary and will be chosen by the instructor.
Prerequisite(s)/Corequisite(s): Junior, or permission of instructor. Junior, or permission of instructor. Not open to non-degree graduate students.

PSCI 4500 GOVERNMENT AND POLITICS OF GREAT BRITAIN (3 credits)
A comprehensive study of British politics and government. Emphasis will be focused on the formal institutions and informal customs and practices of the British political system. (This course satisfies the department's comparative politics requirement). (Cross-listed with PSCI 8506)
Prerequisite(s)/Corequisite(s): Junior

PSCI 4520 POLITICS OF FRANCE (3 credits)
This course introduces students to the political heritage of France, contemporary political institutions and problems, and political and policy responses to these problems. (Cross-listed with PSCI 8526)
Prerequisite(s)/Corequisite(s): PSCI 2500 or junior standing or permission of instructor.
Distribution: Global Diversity General Education course

PSCI 4550 POLITICAL VIOLENCE, INSURGENCY, AND TERRORISM (3 credits)
This course is a survey on the types of violence used within a political context, focusing on its causes, forms and consequences. Specifically, this course details why and how violence occurs, and its impact on institutions and the people operating within that system. (Cross-listed with PSCI 8556).
Prerequisite(s)/Corequisite(s): PSCI 2210 or PSCI 2500

PSCI 4620 ISLAM AND POLITICS (3 credits)
This course introduces students to the interaction between religion and politics in the Muslim world, covering various political ideologies in the Muslim world and different experiences of Muslim-majority countries such as Saudi Arabia, Pakistan, Iran, Turkey, Indonesia, and Egypt. It will also analyze mainstream and radical transnational Islamic movements. (Cross-listed with PSCI 8626)
Prerequisite(s)/Corequisite(s): PSCI 2210 or 2500 is recommended.
Distribution: Global Diversity General Education course

PSCI 4710 COMPARATIVE INTERNATIONAL DEVELOPMENT AND INNOVATION (3 credits)
Comparative International Development and Innovation will analyze the rise and fall of civilizations from a historical and theoretical perspective in a comparative manner. The course will address issues concerning political, social, economic, and environmental change in national, and international contexts. Among its major emphases are state institutions, economic growth, entrepreneurship, and the transformation of social structure and culture. (Cross-listed with PSCI 8716, ENTR 4710, ENTR 8716).

PSCI 4770 POLITICAL SOCIOLOGY (3 credits)
This course explores political sociology, focusing on political processes and power. Political sociologists investigate relationships between political institutions and various other institutions, including but not limited to the economy, education, media, and religion, and the impacts that these relationships have on society and the individuals that comprise the society. This course will explore the concepts, theories, and knowledge that comprise this field such as power, legitimacy, the state, networks, stratification, and collective action. (Cross-listed with PSCI 8776, SOC 4770, SOC 8776).
Prerequisite(s)/Corequisite(s): SOC 1010, junior standing or permission of instructor

PSCI 4820 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with JMC 4820, JMC 8826, PSCI 8826)

PSCI 4900 READINGS IN POLITICAL SCIENCE (1-3 credits)
This course provides students an opportunity to study an advanced and specialized subject matter in the field of political science not covered in existing courses. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PSCI 4910 POLITICAL SCIENCE INTERNSHIP (1-6 credits)
This course offers students an opportunity to experience the resolution of public issues through direct involvement in career-oriented policy organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

PSCI 4920 ADVANCED SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)
This course introduces students to an advance and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with PSCI 8926)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.
PSCI 4950 SENIOR ASSESSMENT IN POLITICAL SCIENCE (0 credits)
This zero-credit-hour course is used to assess the knowledge and skills that are imparted by the Political Science program to its students. Seniors must enroll in the class, take the major field test, and submit a writing assignment from one of their upper level political science courses. Because this is a 0 credit course, these items will not be graded, but they will be scored for purposes of program assessment.
Prerequisite(s)/Corequisite(s): Senior standing. Permission of Department Chair required.
Distribution: Writing in the Discipline Single Course

Political Science, Bachelor of Arts

To obtain a B.A. with a major in Political Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
- 36 hours of major courses
- 3-10 hours of electives

TOTAL HOURS: 120

Requirements

The major consists of a minimum of 36 credit hours in political science. At least 18 hours of political science courses must be taken at the 3000 and 4000 levels.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

### Political Science, Bachelor of Science

To obtain a B.S. with a major in Political Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 51 hours of major courses
- 4-11 hours of electives

TOTAL HOURS: 120

### Requirements

The major consists of a minimum of 36 credit hours in political science. At least 18 hours of political science courses must be taken at the 3000 and 4000 levels.

</tbody>
</table>

*Students need a minimum of 120 total credits with no less than 27 upper level credits throughout the entire degree. Students may need to select 3000/4000 level free electives or may earn minors or second majors to reach these specific minimums.

**PSCI 4950: Senior standing required, as well as permission of political science department chair.

### Electives

Remaining hours in political science shall be elected by students in accordance with their interests.

### Cognate Courses

Select a minimum of 15 credit hours of cognate course work in other disciplines.

**Total Credits: 120**
Cognate Courses
A minimum of 15 credit hours of cognate course work in other disciplines must also be taken to support the student's work in the major. This requirement is the same as that of the College of Arts and Sciences.

Students should consult with departmental advisers and the department chair to determine which courses are suitable for inclusion in the cognate. Students should be aware that some courses require pre-requisites. In addition, no more than six hours of courses at the 1000 level nor courses used to satisfy general education requirements will be credited as cognate course work.

Optional Concentrations
The Bachelor of Arts and Bachelor of Science degrees are available with or without a concentration. If students choose, a concentration may be pursued in government affairs and civic engagement, foreign and national security affairs, law and the courts, political thought, or race, ethnicity and gender politics.

1 Other appropriate upper-division courses may also be used with the permission of an advisor.

Psychology
The Department of Psychology offers the Bachelor of Arts and the Bachelor of Science degrees. The psychology course requirements are identical in these two degree programs, emphasizing training and hands-on experience in the research process centered on a four-course sequence capped by a laboratory in one of six areas of psychology: learning, cognition, development, sensation and perception, behavioral neuroscience, or animal behavior. The B.A. and B.S. degree programs differ in additional course requirements, as described below. Both programs prepare the student for graduate study in psychology.

Psychology majors may declare a concentration in any one of the following seven areas: cognitive science, developmental psychology, forensic psychology, industrial/organizational psychology, mental health, neuroscience and behavior, and school psychology. Each concentration is
Other Information

All coursework taken for the psychology major or minor must be completed with a grade of "C-" or better.

For the psychology minor, 9 credits must be taken in residence at UNO. Permission of the Department must be obtained to substitute another course for one in which a grade of less than "C-" is earned.

Students who come from community colleges with psychology courses that are taught at the upper division level here: The courses will count toward the psychology major, but will not count toward the 27-credit upper division psychology requirement.

One of the required non-psychology courses for the B.S. degree may be taken CR/NC.

For psychology courses that are cross-listed with another discipline, (biology, sociology, gerontology) only one course per discipline may count toward the cross-listed discipline and the psychology major or minor.

Note for Double Majors in Neuroscience and Psychology:

Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors. Students may overlap 3000/4000 level PSYC courses between the PSYC Neuroscience and Behavior Concentration and the Neuroscience major.

Note for Students Completing a Neuroscience Major and Psychology Minor:

No upper-level (3000/4000 level) PSYC courses will be allowed to count toward both programs.

Student Groups

Nu Rho Psi – National Honor Society in Neuroscience (https://nurhapsi.org/)

Psychology Student Interest Group – Canvas Page where students can learn about events, activities, meetings, or opportunities related to psychology happening on campus or in the Omaha community! Psychology students will automatically receive an invitation to join the canvas page near the start of the semester from the Canvas portal. Students can also request to be added to this group by submitting their email address here (https://unomaha.az1.qualtrics.com/jfe/form/SV_1SUvaqjKEDZGiYd/).

Website (http://www.unomaha.edu/college-of-arts-and-sciences/psychology/)

Degrees Offered

• Psychology, Bachelor of Arts (p. 312)
• Psychology, Bachelor of Science (p. 316)

Writing in the Discipline

PSYC 3140 fulfills the requirement for a writing in the discipline course within the Psychology major.

Minors Offered

• Psychology Minor (p. 320)

As most people know, a primary focus in psychology is in the diagnosis and treatment of mental health issues. But that’s just one of many specialties within the field. In addition to Clinical and Counseling Psychology, other popular subdisciplines include Industrial-Organizational Psychology, School psychology, Applied Behavior Analysis, Behavioral Neuroscience, Developmental Psychology, Social Psychology, and Cognitive Psychology.

Because Psychology is so diverse in its focus and research, a Bachelor’s degree in Psychology prepares students for a wide variety of careers. This major helps students develop universally useful skills like communication, critical-thinking, an understanding of the scientific process, and a proficiency with statistics and data. A Bachelor’s degree in Psychology is also a great choice for those interested in pursuing a graduate degree in Psychology, Counseling, Law and Criminal Justice, Social Work, or Medicine and Health Sciences. So if you’re curious about why we do the things that we do and ready for a rewarding career, join us in Psychology.

Psychology majors who have completed a Bachelor’s degree often pursue careers in the following fields:

• Mental health services
• Social services
• Human resources
• Case management
• Physical Health and wellness
• Crisis work
• Rehabilitation services
• Testing and assessment
• Business administration
• Research and data analysis
• Nonprofit and charitable organizations

PSYC 1010 INTRODUCTION TO PSYCHOLOGY I (3 credits)

An overview of scientific understanding of the human mind and behavior. Theories and empirical tests of explanations for how we think, feel, and act. This course is a prerequisite to all subsequent, more specialized courses in Psychology.

Distribution: Social Science General Education course

PSYC 1020 INTRODUCTION TO PSYCHOLOGY II (3 credits)

Provides students who have completed a course in introductory psychology with an opportunity for in-depth study of selected areas of psychology along with related laboratory experiences. Research methodology is emphasized.

Prerequisite(s)/Corequisite(s): PSYC 1010. The proposed course is designed to build upon the content knowledge gained in a first introductory psychology course.

PSYC 2000 CAREER PATHS IN PSYCHOLOGY (1 credit)

A course that introduces the student to the different career paths available to psychology majors, both within and outside of the psychology field and those including graduate or professional school as well as career paths for those with bachelor's degrees. Required of psychology majors. This is a one (1) hour credit course.

Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 2024 EXPLORATIONS IN THE SCIENCE OF PSYCHOLOGY (2 credits)

This course explores the scientific foundation of psychology representing several topic areas such as Learning, Developmental, Cognitive, and Physiological Psychology. Basic application of statistics and APA manuscript writing will build a solid background for upper-level courses in Psychology.

Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.
PSYC 2100 LEARNING ASSISTANT SEMINAR (0 credits)
This course focuses on effective methods of college teaching and instructional strategies. Students participate in activities designed to increase their understanding of the role of a Learning Assistant.
Prerequisite(s)/Corequisite(s): PSYC 1010 and permission of instructor. Not open to non-degree graduate students.

PSYC 2500 LIFESPAN PSYCHOLOGY (3 credits)
A lifespan approach to development focusing on the biological, cognitive, and social emotional changes in development occurring from infancy through old age. The impact of these changes on the individual’s behavior and interactions with society will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3130 STATISTICS FOR THE BEHAVIORAL SCIENCES (3 credits)
An introduction to statistics with particular emphasis on models and hypothesis testing covering analysis of variance, chi-square, F and t-tests, first-order regression and correlation.
Prerequisite(s)/Corequisite(s): MATH 1120, MATH 1530, MATH 1310 or MATH 1220. Psychology Majors Only: PSYC 2024 (prior to, or concurrent with).

PSYC 3140 RESEARCH METHODS IN PSYCHOLOGY (4 credits)
An introduction to the methods by which psychologists attempt to create, disseminate and integrate knowledge about behavior. PSYC 3140 fulfills the Writing in the Discipline Requirement for Psychology and Neuroscience majors.
Prerequisite(s)/Corequisite(s): Psychology majors require PSYC 2000, PSYC 3130 and ENGL 1160. Neuroscience majors require PSYC 3130 and ENGL 1160.
Distribution: Writing in the Discipline Single Course

PSYC 3410 CLINICAL PSYCHOLOGY (3 credits)
A broad survey of problems and practices in the diagnosis and treatment of emotional and behavioral disorders.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3430 PERSONALITY AND ADJUSTMENT (3 credits)
The study of persons in a social context and their resultant effective and ineffective behavior, with emphasis on types of adjustment.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3450 SOCIAL PSYCHOLOGY (3 credits)
Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods and applications of varied substantive topics are examined. (Cross-listed with SOC 3450).
Prerequisite(s)/Corequisite(s): SOC 1010 or PSYC 1010.

PSYC 3510 EDUCATIONAL PSYCHOLOGY (3 credits)
A study of the capacities and interests of children and their individual differences. Factors that influence learning and evaluation of learning and classroom procedures are included.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3520 CHILD PSYCHOLOGY (3 credits)
A study of the biological, social, emotional and cognitive development of the child emphasizing infancy and childhood.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 3540 ADOLESCENT PSYCHOLOGY (3 credits)
A review of theory and available evidence useful in understanding changes and problems in the physical, intellectual, social and emotional adjustment of individuals in adolescence.
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4010 HISTORY OF PSYCHOLOGY (3 credits)
A study of the origins, development and nature of psychology and its relation to external events; emphasis on the period since 1875. (Cross-listed with PSYC 8016).
Prerequisite(s)/Corequisite(s): at least 15 hours of Psychology credits including PSYC 1010 or approval of instructor. Not open to non-degree students or students in other departments or programs.

PSYC 4020 LEARNING (3 credits)
A comprehensive coverage of the experimental literature and theories on human and animal learning.
Prerequisite(s)/Corequisite(s): PSYC 1020.

PSYC 4024 LABORATORY IN PSYCHOLOGY: LEARNING (3 credits)
Classical experiments and a service-learning project designed to apply general learning principles. Systematic techniques used to assess behavior changes associated with the learning process, research design, and scientific report writing will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 3140 and PSYC 4020. Not open to nondegree students.

PSYC 4070 COGNITIVE PSYCHOLOGY (3 credits)
An exploration of historical and contemporary research and theory concerned with cognitive processes including attention, memory, problem solving and concept formation.
Prerequisite(s)/Corequisite(s): PSYC 1020.

PSYC 4074 LABORATORY IN PSYCHOLOGY: COGNITION (3 credits)
Laboratory work coordinated with PSYC 4070, emphasizing a presentation of methods of research assessing human attention, memory and problem-solving processes. Research design, data analysis and research report writing are also emphasized.
Prerequisite(s)/Corequisite(s): PSYC 3140 and PSYC 4070 or PSYC 4090 or PSYC 4210.

PSYC 4090 COGNITIVE NEUROSCIENCE (3 credits)
This course is concerned with the relationship between cognition and the brain. Special attention will be devoted to the techniques used to study specific relationships and the theoretical perspectives that have guided research in the area. Topics for the course include history, neural mechanisms, methods, lateralization of function, sensation and perception, memory, language, action and movement, executive processes, computer models, and the social brain.
Prerequisite(s)/Corequisite(s): PSYC 1020 or NEUR 1520 or NEUR 1540. Not open to non-degree graduate students.

PSYC 4110 POLITICAL PSYCHOLOGY (3 credits)
This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSCI 8116, PSYC 8116).
Prerequisite(s)/Corequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSYC 4150 AFRICAN AMERICAN PSYCHOLOGY (3 credits)
African American Psychology traces the psychological history of Africans and African Americans from self-attributes and identity, through race and racism, to cognition, learning, and language. This course will review concepts relevant to understanding the psychology of African Americans, methodological and research issues, and best practices. (Cross-listed with PSYC 8156, BLST 4150, BLST 8156).
Prerequisite(s)/Corequisite(s): PSYC 1010 and Junior standing or Instructor permission.

PSYC 4210 SENSATION AND PERCEPTION (3 credits)
Reading and discussion concerning psychophysical methods, sensory physiology, phenomenology of various sensory systems and theories of the perceptual process.
Prerequisite(s)/Corequisite(s): PSYC 1020 or NEUR 1520 or NEUR 1540.

PSYC 4214 LABORATORY IN PSYCHOLOGY: SENSATION AND PERCEPTION (3 credits)
Laboratory work coordinated with PSYC 4210 which is designed to increase comprehension of psychology as a laboratory science in general and the experimental study of the perceptual process in particular. Emphasis will be placed on the development of skills involved in the design of experiments, data collection, data analysis, reasoning about experimental results and scientific report writing.
Prerequisite(s)/Corequisite(s): PSYC 3140 and PSYC 4210 or PSYC 4070 or PSYC 4090.
PSYC 4230 BEHAVIORAL NEUROSCIENCE (3 credits)
A comprehensive study of the relationship of the nervous and other organ systems to behavior. Research on both human and other animal species is considered. (Cross-listed with NEUR 4230).
Prerequisite(s)/Corequisite(s): PSYC 1010 OR BIOL 1450

PSYC 4234 LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE (3 credits)
Laboratory course designed to introduce the students to the techniques and procedures of physiological psychology. Scientific report writing, problems of research design and data analysis also will be emphasized.
Prerequisite(s)/Corequisite(s): PSYC 3140. Psych majors PSYC 4230; Neuroscience majors NEUR 1520 or NEUR 1540.

PSYC 4250 LIMITS OF CONSCIOUSNESS (3 credits)
A course focusing on the scientific study of the psychology, neurology and philosophy of mind. This course is designed for students who are interested in thinking about thinking. (Cross-listed with PSYC 8256, PHIL 3250)
Prerequisite(s)/Corequisite(s): PSYC 1010; or 6 hours in Philosophy.

PSYC 4270 ANIMAL BEHAVIOR (3 credits)
Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. (Cross-listed with PSYC 8276, BIOL 4270, BIOL 8276)
Prerequisite(s)/Corequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

PSYC 4280 ANIMAL BEHAVIOR LABORATORY (3 credits)
Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with PSYC 8286, BIOL 4280, BIOL 8286)
Prerequisite(s)/Corequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273. Not open to non-degree graduate students.

PSYC 4310 PSYCHOLOGICAL AND EDUCATIONAL TESTING (3 credits)
The use of standardized tests in psychology and education is considered with special regard to their construction, reliability and validity. (Cross-listed with PSYC 8316)
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior/senior. Not open to non-degree graduate students.

PSYC 4320 HORMONES & BEHAVIOR (3 credits)
In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with PSYC 8326, BIOL 4320, BIOL 8326)
Prerequisite(s)/Corequisite(s): PSYC 1010 and either BIOL 1020 or 1750. Not open to non-degree graduate students.

PSYC 4440 ABNORMAL PSYCHOLOGY (3 credits)
A course designed to examine the aberrant behavior of individuals. Symptoms, dynamics, therapy and prognosis of syndromes are considered. (Cross-listed with PSYC 8446)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4450 PERSONALITY THEORIES (3 credits)
A comparative approach to the understanding and appreciation of personality theories considering history, assertions, applications, validations and prospects. (Cross-listed with PSYC 8456)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4460 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)
The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, GERO 8466)
Prerequisite(s)/Corequisite(s): Junior or Senior.

PSYC 4470 MENTAL HEALTH AND AGING (3 credits)
The goal of this course is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with PSYC 8476, GERO 4470, GERO 8476)
Prerequisite(s)/Corequisite(s): Junior or senior

PSYC 4510 PSYCHOLOGY IN THE SCHOOLS (3 credits)
This course introduces students to the academic and mental health needs of children and youth in schools, as well as how these needs are addressed individually and systematically. A service learning experience enables students to work directly with school-age children.
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4520 PSYCHOLINGUISTICS (3 credits)
A discussion of the literature concerned with how such psychological variables as perception, learning, memory and development relate to the linguistic variables of sentence structure, meaning and speech sounds. (Cross-listed with PSYC 8526)
Prerequisite(s)/Corequisite(s): Senior or graduate or permission of instructor. Not open to non-degree graduate students.

PSYC 4530 CULTURAL PSYCHOLOGY (3 credits)
This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about "culture" can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals' psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8536, CACT 8106).
Prerequisite(s)/Corequisite(s): PSYC 1010.

PSYC 4544 LABORATORY IN DEVELOPMENTAL PSYCHOLOGY (3 credits)
Laboratory work coordinated with PSYC 3520 and PSYC 3540 emphasizing the methods of research and statistical analyses used in the study of human development. Emphasis will be placed on the development of skills involved in the design of experiments, data collection, data analysis, reasoning about results, and scientific report writing.
Prerequisite(s)/Corequisite(s): PSYC 3140, PSYC 3520, and PSYC 3540 or permission of instructor. Not open to non-degree graduate students.

PSYC 4550 FORENSIC PSYCHOLOGY (3 credits)
The roles and functions of forensic psychologists, as participants in the legal system, are studied, with special emphasis on the relevance of theories and principles from social psychology. Psychological concepts, theories, data, research methods and applications to varied substantive topics are examined (e.g., forensic careers, police psychology, violence, criminal profiling, sociopathy and psychopathy, risk assessment, expert testimony, and corrections).
Prerequisite(s)/Corequisite(s): PSYC 1010 or SOC 1010 and PSYC 3450 or SOC 3450.
PSYC 4570  BEHAVIOR ANALYSIS AND INTERVENTIONS (3 credits)
Introduction to experimental methodology, rationale and research literature of changing behavior through behavior modification techniques. Particular attention will be paid to methodological concerns regarding single subject design, ethical considerations and ramifications of behavior intervention with children and youth. (Cross-listed with PSYC 8576)
Prerequisite(s)/Corequisite(s): PSYC 1010, PSYC 4020 and permission of instructor. Not open to non-degree graduate students.

PSYC 4590  PSYCHOLOGY OF EXCEPTIONAL CHILDREN (3 credits)
A study of exceptional children and adolescents with sensory or motor impairments, intellectual retardations or superiorities, talented or gifted abilities, language or speech dysfunctions, emotional or behavioral maladjustments, social or cultural differences, or major specific learning disabilities.
Prerequisite(s)/Corequisite(s): PSYC 1010 and junior/senior.

PSYC 4630  ORGANIZATIONAL PSYCHOLOGY (3 credits)
This is a survey course which will cover the major concepts, theories and empirical research related to organizational psychology. Specific topics will include: work motivation, leadership, decision making and job satisfaction as well as more recent trends such as cultural diversity, work teams, workfamily and quality issues. (Cross-listed with PSYC 8636)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4640  PERSONNEL PSYCHOLOGY (3 credits)
A survey of psychological principles, theories and research related to personnel issues. Course includes discussion of personnel selection, performance appraisal, recruitment, training and health and safety. (Cross-listed with PSYC 8646)
Prerequisite(s)/Corequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4644  LABORATORY IN PSYCHOLOGY: SOCIAL/INDUSTRIAL-ORGANIZATIONAL (3 credits)
Laboratory work coordinated with PSYC 3450 and PSYC 4630 or PSYC 4640, emphasizing a presentation of methods of research assessing human social behavior and applied psychological processes. Research design, data analysis and research report writing are also emphasized.
Prerequisite(s)/Corequisite(s): PSYC 3140, PSYC 3450 and PSYC 4630 or PSYC 4640.

PSYC 4650  CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)
To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8656, CACT 8506)

PSYC 4800  LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE (3 credits)
This course presents legal principles relevant to all psychological specialties, with special reference to mental health services. Ethical reasoning and the APA ethics code are considered. (Cross-listed with PSYC 8806)
Prerequisite(s)/Corequisite(s): 15 hours of Psychology credits including PSYC 1010 or approval of the instructor. Not open to non-degree graduate students.

PSYC 4920  SPECIAL TOPICS IN PSYCHOLOGY (1-3 credits)
A discussion of specific topics which will be announced whenever the course is offered. May be repeated as topics change, but six hours is the maximum that may be applied toward a psychology major.
Prerequisite(s)/Corequisite(s): Variable according to topic.

PSYC 4960  INDEPENDENT STUDY IN PSYCHOLOGY (1-6 credits)
A faculty-supervised special research project and or directed readings involving empirical research and appropriate oral and written reports arranged individually with students on topics not explored in other offerings. If students do not complete the work during the semester they enroll in the course, they must complete all the work within an academic year of their enrollment.
Prerequisite(s)/Corequisite(s): A minimum of 10 hours of Psychology including PSYC 1010 & PSYC 1020 and 1 additional course. Completion of the Independent Study Form and permission from the Undergraduate Program Committee (UPC).

PSYC 4990  SENIOR THESIS (3-6 credits)
The course is designed to provide the student with the opportunity to initiate, design, analyze, and write-up an original experimental study in an area of interest to the student. Although the course is intended primarily for students who need to satisfy the requirement of a second experimental/laboratory course in the Bachelor of Science degree program, all students interested in this course will be considered on an individual basis.
Prerequisite(s)/Corequisite(s): PSYC 3140 with a ‘B’ or better; ‘B’ average in major; signed statement from faculty member of Psychology Department who is willing to serve as adviser; written approval from chair of undergraduate program committee. Must be a 2nd semester junior or later.

Psychology, Bachelor of Arts
To obtain a B.A. with a major in Psychology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours foreign language requirement
- 12-19 hours college breadth requirement
- 37 hours of major courses
- 2-9 hours of electives

TOTAL HOURS: 120

Requirements
The psychology major requires 37 psychology credits, 27 credits of which must be upper-division. There are additional B.A. requirements, as detailed below.

### Credits 13-15

| Total Credits | 118-120 |

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.
Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

## Psychology, Bachelor of Science

To obtain a B.S. with a major in Psychology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 52 hours of major courses
- 3-10 hours of electives

**Total Hours: 120**

### Requirements

The psychology major requires 37 psychology credits, 27 credits of which must be upper-division. Additional B.S. requirements include completion of 15 hours of cognate coursework, as detailed below.

### Psychology Distribution Requirements

Select four courses from the Psychology Distribution Areas as outlined below.

#### Upper-Level Psychology Laboratory Courses

Select one of the following:

- PSYC 4024 LABORATORY IN PSYCHOLOGY: LEARNING 3
- PSYC 4074 LABORATORY IN PSYCHOLOGY: COGNITION 3
- PSYC 4214 LABORATORY IN PSYCHOLOGY: SENSATION AND PERCEPTION 3
- PSYC 4234 LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE 3
- PSYC/BIOL 4280 ANIMAL BEHAVIOR LABORATORY 3
- PSYC 4544 LABORATORY IN DEVELOPMENTAL PSYCHOLOGY 3
- PSYC 4644 LABORATORY IN PSYCHOLOGY: SOCIAL/INDUSTRIAL-ORGANIZATIONAL 3
- PSYC 4990 SENIOR THESIS 3

#### Upper-Level Psychology Electives

Two additional 3-credit hour 3000- or 4000-level Psychology courses are required. These may be selected from the Psychology Distribution Requirements, the Labs, or any other 3000- or 4000-level Psychology courses offered.

### Additional B.S. Requirements (Cognate) Courses listed below.

**Total Credits 52**

1. These six courses should be taken early in the student’s degree program. Concepts learned in these courses will benefit the student in upper-level Psychology classes.
2. PSYC 4990 –Senior Thesis Part II: Data Analysis, Interpretations and Conclusions. Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

### Psychology Distribution Areas

Four courses (12 credit hours) are required, one course (3 credit hours) each from four of the following five areas.

#### Applied Psychology

<table>

</tr>
</tbody>
</table>

1. PSYC 4960 requires special permission from a faculty mentor, approval of the UPC, and a final paper, project or conference presentation.

2. PSYC 4990—Senior Thesis Part I: Thesis Proposal (3 credit hours). Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

### Cognate Coursework

Students pursuing a BS in psychology must complete 15 credit hours of a cognate set of courses. Students will select one of the five cognate sets below. Course selection must include at least three different departments or programs. No more than 6 hours of courses may be at the 1000 level, with the remaining 9 hours taken at the 2000 level or above. Six (6) hours of cognate coursework may double count with General Education requirements. Students may take a minor in place of the cognate requirement; OR 2) Students pursuing Option 2 College Requirements, which require additional general education courses, may add a minor to satisfy the cognate requirement.

**Transfer credit or placement exam scores may change suggested plan of study**

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

120-123
Religious Studies

“Religious studies” introduces students both to the academic study of religion and spirituality and also to the variety of religious traditions around the world (e.g., Hinduism and Buddhism; Judaism, Christianity, and Islam; Chinese religious traditions; indigenous religious traditions in North America and in Africa; atheism and agnosticism, pagan and other nature-based traditions). In addition, students with a particular thematic interest may pursue the study of “religion and film,” “spirituality and wellness,” and/or “religion and human rights.” Because religion is deeply implicated in history, culture, politics, literature, and medicine the study of religion is critical to understanding and explaining complex global issues in both the past and the present. One does not have to be “religious” or “spiritual” to study religion, nor is the study of religion directed toward establishing the truth of one religion over another.

To major in religion (i.e., religious studies) means to engage some of the most profound questions people ask themselves: What does it mean to be human? How are we part of a world of animals and plants, water and earth? What are our responsibilities to other persons and the earth? How do we decide? Is there a world of invisible agents (e.g., ancestors, spirits, gods, and God) or ultimate meaning and value? If so, what difference does it make? With these questions in mind, we pursue the academic study of religion and spirituality from a variety of theoretical and methodological perspectives, including anthropology, archaeology, cognitive sciences, fine arts, history, philosophy, psychology, sociology, and textual analysis.

Because religious studies is an interdisciplinary field of study, students may use the major in religion in many different ways: as preparation for graduate school; as a stand-alone or second major in a program of study leading to a career in business, healthcare, public service, social services, or teaching; or, simply and most profoundly, to enrich personal knowledge and skills and understanding of others.

Consistent with this interdisciplinary emphasis, religious studies faculty teach courses supporting a variety of major and minor programs, including Ancient Mediterranean Studies, International Studies, Islamic Studies, Medieval and Renaissance Studies, Latino/a Latin American Studies, Native American Studies, Women’s and Gender Studies, Medical Humanities, and Human Rights Studies.

Underlying the practical applications in different fields and professions, the basic intellectual purpose of religious studies is to develop an appreciation for, an understanding of, and a critical insight into the rich variety of the world’s religious and spiritual traditions in the complex global realities (cultural, social, economic, political, and environmental) of the twenty-first century.

Other Information

All coursework taken for the Religion major or minor must be completed with a grade of “C-” or better.

Online Option

The Religion major and minor are both flexible programs, offering students the option to earn either while taking courses in-person on UNO’s campus, entirely online, or as a combination of the two.

Contact

205 Arts and Sciences Hall
402.554.2628

Website (http://www.unomaha.edu/college-of-arts-and-sciences/religion/)

Degrees Offered

• Religion, Bachelor of Arts (p. 325)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Religion major, this is the “Senior Seminar in Religion” (RELI 4010) course.

Minors Offered

• Religion Minor (p. 326)

Religious Studies majors graduate with valuable knowledge and skills, including opportunities to gain experience through service learning classes and internships. A major in Religious Studies at UNO cultivates skills that employers say are particularly important: written and verbal communication, problem-solving, teamwork, and leadership. In diverse professional roles, Religious Studies alums find their knowledge of religious, spiritual, and other cultural traditions extremely helpful in their ability to communicate clearly and respectfully with diverse coworkers, managers, patients, clients, family, and friends.

These advantages can propel students into a number of different careers:

• business
• counseling
• education
• healthcare
• public service
• social services
• writer and/or poet.

UNO Religious Studies graduates may move into masters and doctoral level work in any one of many different fields (e.g., history, political science, sociology/anthropology, social work, etc.). The majority of our graduates have taken their knowledge and experience into a spectrum of careers and professions. Some of these careers currently pursued by graduates, and other former students, of Religious Studies at UNO include:

• accountant
• business owner
• chaplain
• farmer
• musician
• librarian
• non-profit administrator
• physician
• poet and writer
• and university professor

RELI 1000 TOPICS IN RELIGION AND SPIRITUALITY (1 credit)

As a first year topics course, the main purpose is to introduce students to some aspect of the academic study of religion and spirituality. The specific topics will vary considerably; however, the objectives include training students in study methods generally and how to study religion as a scholarly subject in particular.
RELI 1050 FIRST YEAR SEMINAR IN RELIGION (3 credits)
The purpose of this course is to introduce students to a particular topic in the study of religion. Although the topic for this course will vary from semester to semester, students will be expected to read, to write, and to discuss the assigned texts and the ideas they contain. Students will learn basic skills in reading academic literature, writing about significant issues, and speaking articulately about the questions and issues. These skills will be helpful in other university and professional work.

RELI 2000 ARCHAEOLOGY OF BIBLICAL LANDS (3 credits)
This course introduces students to the purpose and methods of biblical archaeology and includes a survey of the material culture of the land of the Bible from the Chalcolithic (5th - 4th millennia BCE) to the Persian periods (4th century BCE). Special emphasis will be placed on the relationship between biblical narratives and the archaeological reconstruction of ancient social and natural environments.

RELI 2010 RELIGION AND CRITICAL THOUGHT (3 credits)
This class introduces students to critical approaches to the study of religion. Students are exposed to a variety of social scientific, scientific, philosophical, indigenous, and critical literary approaches to the study of wide-ranging religious beliefs and practices. The course is required for majors and recommended for minors in Religion as well as others with high interest in the field of Religious Studies.
Prerequisite(s)/Corequisite(s): 3 hours in Religion or permission of instructor.

RELI 2020 RELIGION AND HUMAN RIGHTS (3 credits)
This course introduces students to the intersection of religion and human rights. It takes human rights as a moral tradition and asks how it impacts and is impacted by religious moral thought.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2060 THE RELIGION OF ANCIENT EGYPT AND MESOPOTAMIA (3 credits)
This course is designed to familiarize the student with the religions of ancient Egypt and Mesopotamia. The course will use archaeological discoveries together with ancient Egyptian and Mesopotamian texts to explore the religions of these two civilizations. It will deal with Mesopotamian and Egyptian beliefs surrounding issues such as creation, afterlife, ethics, morality and rituals.
Prerequisite(s)/Corequisite(s): Intro to World Religion is recommended but not necessary.

RELI 2120 HINDU SCRIPTURES (3 credits)
An introduction to some of the foundational scriptures of Hinduism (Sanatana Dharma) from traditional and modern perspectives, including the Vedas, the Upanishads, and the Bhagavad-Gita.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

RELI 2150 HEBREW SCRIPTURES (3 credits)
A historical introduction to the study of the Hebrew Scriptures from the Biblical to Talmudic period in the light of recent scholarship.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

RELI 2160 NEW TESTAMENT: HISTORY, LITERATURE, AND SOCIETY (3 credits)
Who were Jesus, Peter, Mary, and Paul in the Roman empire of the early first century? How did these Jews of the Second Temple Period become the earliest generation of a 2,000 year history of Christianity? How did early Christian understandings of God and humanity shape or constrain their interpretations of and responses to affliction, healing, and death, both conceptually and in practice? Finding answers to these questions requires students to study the literature of the New Testament and other early Christian literature, along with scholarly analyses of key issues related to authorship, dating, textual analysis, literary genres, historical contexts, and varying interpretations. The purpose of the course is to train students in the content of the texts as well as critical tools related to documentary analysis, archaeological methods, and various literary and social scientific approaches, interdisciplinary tools which also enhance one's skills in a variety of careers and professions.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2170 QUR'AN (3 credits)
This course provides an introduction to the academic study of the Qur'an, its uses, interpretations, and applications in society from its earliest appearance up to the present.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

RELI 2190 THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with HIST 2190, SOC 2190).
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2200 GLOBAL RELIGIOUS ETHICS: THE BASICS (3 credits)
An introduction to the main types of ethical thought in religious traditions worldwide. The course will consider both historical and contemporary approaches and will relate ideas and practices of religious ethics to contemporary moral problems.

RELI 2400 RELIGION IN AMERICA (3 credits)
The role of religion in American culture, seen in the interaction between the inherited religious traditions and the crucial events in American experience and how this affects American identity - past and present.
Prerequisite(s)/Corequisite(s): Sophomore or permission of instructor.

RELI 2500 SPIRITUALITY AND WELLNESS (3 credits)
This course provides an introduction to the emerging field of spirituality and wellness. Utilizing perspectives from multiple disciplines and incorporating both third-person (research, theory) and first-person (experiential, reflective) approaches, students will explore topics such as: the nature of spirituality; mindfulness, meditation and wellness; spirituality and public health; spiritual wellness on campuses; and ecospirituality.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
RELI 3020 NATIVE AMERICAN RELIGIONS (3 credits)
This course examines the life-ways, oral narratives, ceremonies, and philosophies of selected Native American tribal nations and communities from the major cultural regions of North America, utilizing historical, anthropological, and literary approaches. No single Native spiritual tradition or culture represents all Native North American beliefs and customs. Thus, attention will be given both to similarities among different tribal groups, and also the great diversity among the hundreds of indigenous ways of life on the North American continent, both ancient and modern. Particular topics addressed include the following: healing traditions and maintaining personal and communal balance, pilgrimages to sacred sites, and, critically, Native American creation stories inform the manner in which Native communities approach the natural world, including plants and animals as "other-than-human" persons.

RELI 3030 SHAMANISM (3 credits)
Study of the forms and techniques of shamanic experience from its Paleolithic and Neolithic origins to its contemporary practice among indigenous peoples, including its role in the development of human religious traditions and systems of healing.

RELI 3050 RELIGIONS OF THE EAST (3 credits)
A study of the major religions that originate in South, Southeast, and East Asia, considering their origins, foundational doctrines, practices, beliefs, rituals and contemporary expressions. Included are the religions of Hinduism, Buddhism, Jainism, Sikhism, Daoism, Confucianism and Shintoism. Knowledge of the religious and spiritual traditions of South, Southeast, and East Asia will help students who intend to travel or work in those regions or who may have friends and colleagues from those regions of the world. A broad grasp of these critical cultural traditions will enhance international, cross-cultural understanding for any career or professional track.

RELI 3060 RELIGIONS OF THE WEST (3 credits)
A study of Judaism, Christianity and Islam, with an introduction to their ancient predecessors.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3130 WOMEN AND THE BIBLE (3 credits)
This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with WGST 3120).

RELI 3180 MODERN CHRISTIAN THOUGHT (3 credits)
The history of Christian thought from the Enlightenment to Vatican II.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3200 ISLAM AND MUSLIMS (3 credits)
What do Muslims believe? How do they practice their faith? What role does Islam and what roles do Muslims play in the 21st century? This course provides an introduction to the history, beliefs, and practices of Islam and Muslim communities, including both Sunni and Shi’i traditions, Sufis and Salafis, from the time of Muhammad ibn Abdullah to the 21st century. Students will examine the ways in which we come to 'know' about Islam and how to approach mediated sources with a critical lens. Thus, in addition to highlighting the many important cultural, scientific, medical, artistic, and architectural contributions of Muslim societies throughout the past millennium, critical contemporary issues will also be addressed, including the role of women in Islam, the meaning of jihad, the legal traditions (shari’a and fiqh), the relationship between religion and politics in Islam, and issues of law, gender, myth, violence, colonialism, modernity, and Islamophobia.

RELI 3330 ROMAN CATHOLIC THEOLOGY TODAY (3 credits)
An investigation of differences and developments in Roman Catholic theology in last decades of the 20th century, with consideration of the bases in the tradition for the progressive and conservative theologies of today.
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3400 RELIGION AND FILM (3 credits)
This course will examine the various ways in which religion and film connect, including the representations of religious groups in films, ways in which films replicate or alter religious concepts, and ways in which film as an aspect of popular culture functions analogously to religions in society. Methods used will include the analysis of film technique, auteur criticism, and audience reception analysis.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

RELI 3500 SPECIAL TOPICS IN RELIGION (3 credits)
The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate various subjects of interest in religious studies. (May be repeated for credit as long as the topic is different.)
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 3960 READINGS IN RELIGION (1-6 credits)
Individual research in selected areas or particular questions in religious studies.
Prerequisite(s)/Corequisite(s): Nine hours in religion and permission of instructor.

RELI 4000 RELIGIOUS STUDIES INTERNSHIP (1-6 credits)
A supervised internship enabling students to develop and apply knowledge and gain expertise related to the field of Religious Studies while working at a non-profit, educational, non-governmental or related organization. The host organization for the student must be approved in advance in consultation with the internship coordinator and the Chair of Religious Studies. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Junior or senior. Religious Studies major, Religious Studies minor, or concentration in Religious Studies. Permission of internship coordinator. Not open to non-degree graduate students.

RELI 4010 SENIOR SEMINAR IN RELIGION (3 credits)
This course provides a capstone experience in religious studies. It serves as the third writing course and is required for Religious Studies majors. The readings will deepen students' understanding of the field of Religious Studies and how it relates to social concerns, as well as guide students through developing a research project. Students will present research both in writing and verbally, in ways that address scholarship in Religious Studies and that are accessible to a general audience. Student will also have opportunities to reflect on experiential learning and career goals.
Prerequisite(s)/Corequisite(s): Five courses in Religion, or permission of instructor.

RELI 4020 BUDDHIST TRADITIONS (3 credits)
This course is an exploration of Buddhist history, thought and practices. It begins with the origins, cultural context, and development of Buddhism in South Asia and then traces the path of Buddhism through Southeast Asia, Tibet, China, Korea, Japan and North America.
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

RELI 4030 AFRICANA RELIGIONS (3 credits)
An introduction to religions in Africa and the diaspora, including African Traditional Religions, Christianity, Islam, and Afro-Caribbean religious traditions, using anthropological, historical, and other academic approaches to the study of religious and spiritual traditions. In particular, students will learn about the role of spirits, ancestors, witches, and other invisible agents in ideas and practices regarding health and healing. Finally, the class will examine the complex inter-relationships between religious ideas and practices and contemporary post-colonial political-economic realities, including the consequences of genocide and other human rights violations and the role of religious communities in social and economic development. (Cross-listed with RELI 8036, BLST 8036, BLST 4030).
RELI 4050 RELIGION IN EARLY AMERICA (3 credits)
This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010, HIST 8016).
Prerequisite(s)/Corequisite(s): Junior or senior standing. Not open to non-degree graduate students.

RELI 4150 JUDAISM IN THE MODERN AGE (3 credits)
A critical investigation of Judaism since the Enlightenment emphasizing historical, intellectual and religious-legal developments. Pivotal movements (e.g., Hasidism, Reform, Historical Conservative Judaism, Modern Orthodoxy, Zionism) and major historical events (e.g., the American and French Revolutions, Tsarist oppression, the Holocaust and the establishment of the State of Israel) will be analyzed for their ongoing impact. (Cross-listed with RELI 8156)
Prerequisite(s)/Corequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 4160 THE HOLOCAUST (3 credits)
An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 8166, HIST 4720, HIST 8726)
Prerequisite(s)/Corequisite(s): Junior or instructor permission.

RELI 4170 HISTORY OF CHRISTIANITY I (3 credits)
The development of Christian theological, ritual, and social practice from the beginnings of Christianity through the Reformation. History of Christianity from its origins in the first century through the sixteenth century movements for reform. (Cross-listed with RELI 8176).

RELI 4200 COMPARATIVE RELIGIOUS ETHICS (3 credits)
An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8206, CACT 8206)

RELI 4220 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)
This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8226, CACT 8226)

RELI 4250 WAR, RELIGION, AND HUMAN RIGHTS (3 credits)
What is the connection between human rights, religion, conflict, and peacebuilding? Does religion cause war or help to stop it? How can human rights violations be prevented or stopped, and can religious actors be engaged in this work? Is the use of force ever appropriate to protect human rights? This course engages all of these questions by examining the ethical thought of multiple religious traditions; the work of human rights organizations; the just war tradition; and questions about sovereignty, peacebuilding, and the use of force worldwide. It includes discussion of historical issues and contemporary case studies. (Cross-listed with RELI 8256).

RELI 4260 THE END OF THE WORLD: RELIGION AND APOCALYPSE (3 credits)
This course introduces students to sacred texts and their interpretation by "end of the world" groups across world history. Several ancient, medieval, and contemporary groups are discussed. Special attention is paid to the connections between apocalyptic and political movements, as well as religion and violence. (Cross-listed with RELI 8266).

RELI 4400 WOMEN IN ISLAM (3 credits)
This course examines the religious, political and cultural assignments ascribed to Muslim women. Starting with the Qur'an, social, legal, and scriptural norms will be explored through the voices of Muslim women around the world. Passages of the Qur'an, hadiths and the commentaries that lead to the elevation and/or demise of Muslim women and their rights are studied. Examining the role of the female body, sexuality and seclusion within a historical context will lead to an understanding of the gendering of women in Islam. (Cross-listed with RELI 8406)
Prerequisite(s)/Corequisite(s): RELI 3200

RELI 4420 MUSLIMS IN AMERICA (3 credits)
This course is designed to familiarize the student with the multiplicity of Muslim voices in the United States and to examine the myths created through stereotyping and orientalizing. The course will also investigate how Muslims in America form identities as hybrids and transnationals and follows the chronological development of American Muslims including their identity construction, religious issues, and politics. (Cross-listed with RELI 8426)
Prerequisite(s)/Corequisite(s): RELI 3200 or permission.

RELI 4500 ANCIENT ISRAEL (3 credits)
Who were the Israelites? Where did they come from? This is one of the most debated topics in biblical studies. This course examines biblical texts, historical documents, archaeological discoveries, and sociological studies.

RELI 4550 JESUS IN FILM (3 credits)
This course is a study of how the life of Jesus of Nazareth has been portrayed in cinema over the past century. Emphasis will be placed upon knowledge of the principal written sources (the canonical gospels), how films emphasize certain themes and offer their own interpretations, the motives or intentions of the actors, and the reception by audiences of some of the main portrayals of Jesus in film. (Cross-listed with RELI 8556).

RELI 4600 WOMEN AND RELIGION (3 credits)
This course on women and religion will focus on the intersections of power and oppression that women experience in four of the major world religions - Judaism, Christianity, Buddhism, and Islam. Students will examine the historical, cultural and religious contexts that highlight women's involvement or exclusion from activity and power within each religion. Students will research case studies from around the world to examine tensions within and between religious and secular societies through the lens of gender. (Cross-listed with RELI 8606).

RELI 4830 ANCIENT GREEK MYTH, RELIGION & MAGIC (3 credits)
Students will examine the impact of ancient Greek myth and belief on actual religious practice: e.g., "lived" religion. Areas covered include formal civic sacrifice, wartime religion, family and personal devotions, mystery cults, oracles and seers, plus the popular pursuit of magic. (Cross-listed with HIST 8836, HIST 4830, RELI 8836).

RELI 4850 ROME AND THE EARLY CHURCH (3 credits)
Students will cover Roman-Christian-Jewish interactions from just before the birth of Jesus of Nazareth to c. 450 CE, with an emphasis on social and political history. We catalogue Christianity's transformation from its origins as a Jewish movement and an illegal "superstition" to the dominant religion of the Roman empire. (Cross-listed with HIST 8856, HIST 4850, RELI 8856).
Prerequisite(s)/Corequisite(s): Junior standing.
Religion, Bachelor of Arts

To obtain a B.A. with a major in Religious Studies, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
- 30 hours of major courses
- 6-16 hours of electives

TOTAL HOURS: 120

Requirements

A Bachelor of Arts in religion consists of a minimum of 30 credit hours in the field, of which at least 18 hours must be in upper division (3000-4000 level) courses.

The B.A. degree requires completion of a foreign language through the intermediate level.

**Religion Minor**

**Requirements**

An undergraduate minor in religion will consist of at least 15 hours in religion, of which at least nine must be upper division (3000-level or above). RELI 1010 is strongly recommended for the minor in religion.

The religion minor may be earned on campus or entirely online.

**Sociology & Anthropology**

Sociology and Anthropology are the broadest of the social sciences. Sociology is the scientific study of human relationships. Sociologists seek to understand the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. Anthropologists typically work within one of four sub-disciplines: archaeology, biological anthropology, linguistic anthropology, and socio-cultural anthropology.

These disciplines are particularly useful to graduates entering the 21st century labor force. Our rapidly changing and increasingly diverse world offers both opportunities and monumental challenges. Sociology and Anthropology give students the analytical skills to understand such challenges and the tools to improve our society at all levels – from the neighborhood to the world community.

**Other Information**

All coursework taken for the Sociology major, minor, and Anthropology minor must be completed with a grade of "C" or better.

UNO Sociology Club – open to all students interested in discussing all things sociological!

UNO Student Anthropology Society – bring yourself, your lunch, and your interest in Anthropology!

Alpha Kappa Delta (AKD) – the Alpha Chapter of Nebraska of the International Sociological Honor Society for students who meet certain academic requirements.

For more information visit our Student Organizations [page](https://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/student-opportunities/student-organizations.php).

**Option for Degree Completion**

**Fast Track Program**

The Department of Sociology & Anthropology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**

- This program is available for undergraduate students pursuing a Sociology BA/BS major who desire to pursue a Sociology MA degree.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0 and a GPA of 3.3 in SOC and ANTH courses.
- Students must complete the Fast Track Approval form, obtain all signatures, and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements**: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams**: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**GPA Requirements**: 2.0

**Religion Minor**

**Requirements**

An undergraduate minor in religion will consist of at least 15 hours in religion, of which at least nine must be upper division (3000-level or above). RELI 1010 is strongly recommended for the minor in religion.

The religion minor may be earned on campus or entirely online.

**Sociology & Anthropology**

Sociology and Anthropology are the broadest of the social sciences. Sociology is the scientific study of human relationships. Sociologists seek to understand the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. Anthropologists typically work within one of four sub-disciplines: archaeology, biological anthropology, linguistic anthropology, and socio-cultural anthropology.

These disciplines are particularly useful to graduates entering the 21st century labor force. Our rapidly changing and increasingly diverse world offers both opportunities and monumental challenges. Sociology and Anthropology give students the analytical skills to understand such challenges and the tools to improve our society at all levels – from the neighborhood to the world community.

**Other Information**

All coursework taken for the Sociology major, minor, and Anthropology minor must be completed with a grade of "C" or better.

UNO Sociology Club – open to all students interested in discussing all things sociological!

UNO Student Anthropology Society – bring yourself, your lunch, and your interest in Anthropology!

Alpha Kappa Delta (AKD) – the Alpha Chapter of Nebraska of the International Sociological Honor Society for students who meet certain academic requirements.

**Option for Degree Completion**

**Fast Track Program**

The Department of Sociology & Anthropology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**

- This program is available for undergraduate students pursuing a Sociology BA/BS major who desire to pursue a Sociology MA degree.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0 and a GPA of 3.3 in SOC and ANTH courses.
- Students must complete the Fast Track Approval form, obtain all signatures, and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
• ANTH 1050, SOC 1010, SOC 2120, SOC 2130, SOC 2134 should be completed before enrolling in the first graduate course.
• SOC 3510 and SOC 3514 should be taken before or concurrently with enrollment in the first graduate course.
• A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
• Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status, including financial aid.
• Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
• Admission to Fast Track does NOT guarantee admission to the graduate program.
• The admit term must be after the completion term of the undergraduate degree.

Contact
383 Arts and Sciences Hall

Website (http://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/)

Degrees Offered
• Sociology, Bachelor of Arts (p. 332)
• Sociology, Bachelor of Science (p. 335)

Writing in the Discipline
All students are required to take a writing in the discipline course within their major. For the sociology major this is SOC 4900.

Bachelor of Arts (BA) and Bachelor of Science (BS) in Sociology

Students are required to complete 33 hours of coursework for the Sociology BA or BS degree: 21 hours of core required courses and 12 hours of additional sociology or anthropology courses. The department offers five optional concentrations that fulfill the 12 hours of additional coursework: anthropology, families and inequality, health and society, inequality and social justice, and work and organizations.

Students in the BA degree program are required to complete foreign language through the intermediate level.

Students in the BS degree program are required to complete 15 hours of cognate coursework, a field of specialization outside of sociology based on their interests and/or career aspirations. Cognates are designed by the student in consultation with the undergraduate adviser.

Online option
The Sociology BA/BS is available on campus or entirely online. Earning a concentration is not required, but online majors do have the option to select the health and society concentration.

Minors Offered
• Sociology Minor (p. 338)
• Anthropology Minor (p. 338)

Both the sociology and anthropology minors are available on campus or entirely online.

Sociology is the scientific study of social life that reveals the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. At a fundamental level, both sociology and anthropology invite us to break through our common sense ideas about the world, allowing us to better understand and potentially improve society. Students who study sociology and anthropology will gain a distinct perspective on social inequality, patterns of behavior, forces for social change and resistance, and how social systems work.

Sociology majors learn the analytical skills needed to understand the challenges of a rapidly changing and increasingly diverse world. And they graduate with the tools to improve our societies at all levels – from the neighborhood to the global community. That’s because a degree in sociology provides students with a well-rounded liberal arts education that emphasizes critical thinking, decision-making skills, and the ability to make connections across disciplines, leading to potential careers in:

• Family and Social Services Program Support
• Business Management and Leadership
• Marketing Analysis and Research
• Survey Research
• Health and Human Services
• Health Care Administration
• Nonprofit Organizational Administration
• Criminal Justice

Sociology

SOC 1010 INTRODUCTORY SOCIOLOGY (3 credits)
An introduction to the study of human societies. The course presents the fundamental concepts and theories that make up the sociological perspective. These serve as tools for the analysis of social inequality, social institutions and social change.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2100 SOCIAL PROBLEMS (3 credits)
An analysis of the origins of social problems in American society. Attention is given to the nature, consequences and solutions of selected social problems.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2120 SOCIOLOGICAL THEORY (3 credits)
SOC 2120 is an intellectual history of sociology as an academic discipline surveying outstanding contributions to its body of theory. The social contexts in which a variety of classical and contemporary theoretical traditions have arisen will be considered. Stress is placed on understanding and applying different approaches to sociological analysis through detailed textual interpretation of theoretical writings.
Prerequisite(s)/Corequisite(s): SOC 1010 and Sociology major or permission of instructor. Not open to non-degree graduate students.

SOC 2130 SOCIAL STATISTICS (3 credits)
An introduction to the fundamental statistical techniques used in the analysis of social data, including descriptive and inferential statistics. The focus is on the production and interpretation of statistical information in the study of social life.
Prerequisite(s)/Corequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 or permission of instructor.
SOC 2134  SOCIAL STATISTICS LAB (1 credit)
A computer-based laboratory course to be taken in conjunction with SOC 2130. The focus is on using computer software to produce and interpret statistical information in the study of social life. 
Prerequisite(s)/Corequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 and SOC 2130 (taken previously or concurrently) or permission of instructor. Not open to non-degree graduate students.

SOC 2150  SOCIOLOGY OF FAMILIES (3 credits)
This course provides a description and analysis of contemporary families from a sociological perspective. A life course perspective traces the development of family life, with special attention to change, choice, and diversity. Topics such as family structure, the functions of the family as an institution, family comparisons across culture and time, and difficulties faced by families in contemporary society will also be explored.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course and U.S. Diversity General Education course

SOC 2190  THE MODERN MIDDLE EAST (3 credits)
An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with RELI 2190, HIST 2190).
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

SOC 2300  SPORT & SOCIETY (3 credits)
This course provides a sociological examination of the contemporary sports world and the ways that the institution of sport both reflects and shapes society. The importance of sports to culture and socialization, the interaction between sports and other social institutions, and the unique role that sports plays in both perpetuating and contesting inequalities of race, gender, class, identity, and ability will be explored.
Distribution: Social Science General Education course

SOC 2400  SOCIOLOGY ON FILM (3 credits)
This course applies the sociological perspective to feature and documentary movies to critically explore social issues presented on film. Students will develop their sociological imaginations as they are introduced to essential sociological concepts such as culture, society, the social construction of reality, socialization, power and inequality, social institutions, and social problems as depicted in classic, contemporary, and foreign film. As social issues are serious and often controversial, the films examined may also be controversial and contain mature themes.
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

SOC 2800  MAJOR SOCIAL ISSUES (3 credits)
The course examines a major social issue from a sociological perspective with content and materials designed for non-majors. The topics will vary from semester to semester, so the course can be taken more than once.

SOC 3300  SOCIOLOGY OF GENDER (3 credits)
This course critically examines the meaning, purpose, and consequences of gender, by using sociological methods and theories to explore the institutions that structure gender relationships and identities, and form the contexts that shape social life in the United States. Particular attention will be given to how social institutions like the state, the economy, family and the mass media shape the definitions of femininity and masculinity, as well as how the gender system intersects with other structures of inequality - race, class, and sexual orientation.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3450  SOCIAL PSYCHOLOGY (3 credits)
Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods and applications of varied substantive topics are examined. (Cross-listed with PSYC 3450).
Prerequisite(s)/Corequisite(s): SOC 1010 or PSYC 1010

SOC 3510  RESEARCH METHODS (3 credits)
This is a laboratory course to be taken in conjunction with SOC 3510. The focus is on applying methodology and basic data analysis learned in SOC 3510 and the development of a sociological research proposal.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 3514  RESEARCH METHODS LAB (1 credit)
This is a laboratory course to be taken in conjunction with SOC 3510. The focus is on applying methodology and basic data analysis learned in SOC 3510 and the development of a sociological research proposal.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 3510, junior standing, and SOC 3510 (taken previously or concurrently); or permission of instructor.

SOC 3610  APPLIED ORGANIZATIONAL SOCIOLOGY (3 credits)
A foundational applied organizational sociology course that focuses on the understanding, analysis, and applications of basic knowledge of organizational structures and systems for solving organizational problems, enhancing organizational performance, and preparing students for leadership roles in organizations.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3690  SOCIAL INEQUALITY (3 credits)
Considers social inequality from a sociological vantage point, introducing students to the structure of inequality, power, and privilege. Attention is paid to the intersections of various forms of inequality, including an examination of class, race, ethnicity, gender, sexuality and sexual orientation, immigration, age, ability, etc. The consequences of social inequality for life chances and social mobility are examined.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3700  INTRODUCTION TO LGBTQ STUDIES (3 credits)
Introduces key themes and critical frameworks in Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Studies. This course examines scholarly contributions from a range of academic disciplines and traces some of the ways that LGBTQ Studies has influenced cultural and social theory more broadly. Topics include LGBTQ histories and social movements; forms of oppression including heterosexism, homophobia, and transphobia; resistance to oppression; queer activism; intersecting identities; and representations in literature, art, and popular media.
Prerequisite(s)/Corequisite(s): SOC 1010 or WGST 2010 or WGST 2020; or permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course
SOC 3800  WORK AND SOCIETY (3 credits)
This course explores the social organization of work in the United States, from pre-industrial times to the present. It addresses how and why current work structures and practices emerged historically within a global context, and the social implications of these structures for various groups (based on race/ethnicity, immigration status, sexuality, and social class). The course grapples with the big questions: “How work is organized the way it is right now, how did we get here, and what might it look like in the future?”
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3820  MEDICAL SOCIOLGY (3 credits)
The study of the social patterning of health and illness, including inequalities in health by stratifying elements such as race, class, and gender. Examines the social definition of health, illness, and the social position of being a sick person in society. Also examines the interaction individuals have with health care providers and the structure of medicine in the U.S. and around the world. Offers a critical examination of the social institution of medicine.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 3840  WORLD POPULATION AND SOCIAL ISSUES (3 credits)
This course introduces students to the scientific study of populations across the world and the social issues derived from population change. It includes basic training on demographic methods and the use of data sources. It covers concepts and theories that connect population dynamics to world economic development, global inequality, refugee and immigration issues, the status of women, intergenerational competition, and population pressure on food and the environment.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing, or permission of instructor. Six hours of social science, or permission of instructor.
Distribution: Global Diversity General Education course

SOC 3900  RACE AND ETHNIC RELATIONS IN THE U.S. (3 credits)
The course explores historical and contemporary meanings of race and ethnicity and introduces students to the ways sociologists think about 'race,' race relations and racism. It views current theoretical issues, and focuses on the recent histories and the current position of several major racial-ethnic populations in the U.S.: African Americans, Latino/a Americans, Native Americans, Asian Americans, and white/European ethnicities. Emphasis is on how race/ethnicity has structured group's experiences in relation to social institutions like health, education, culture and media, the legal system, and the economy.
Prerequisite(s)/Corequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 4130  SOCIOLOGY OF DEVIANCE (3 credits)
This course introduces students to the sociological study of behaviors that have been labeled as “deviant” because they presumably violate social norms. The course takes a constructionist approach, critically analyzing how deviance is socially defined, organized, and managed. Students will be challenged to see the diversity and pervasiveness of deviance in society and to question the labelling of behaviors, individuals, and powerless groups as deviant. We will explore the social processes, powerful actors, and social institutions that create deviance as well as efforts to resist definitions of deviance. (Cross-listed with SOC 8136).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4140  URBAN SOCIOLOGY (3 credits)
This course examines classical and contemporary sociological theories on city formation, the urbanization process, and the interaction of society and the built environment. Topics covered include suburbanization, gentrification, residential segregation, social networks, crime, housing, city culture, and public policy. The focus is on U.S. cities with selected comparisons to other world regions. Students will also get basic knowledge and exposure to research methods to study urban areas locally. (Cross-listed with SOC 8146).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing, or permission from the instructor.

SOC 4150  AMERICAN FAMILY PROBLEMS (3 credits)
This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both “family” and “problems” is addressed throughout the course. (Cross-listed with SOC 8156)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing, or permission of instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 4170  SOCIOLOGY OF FATHERHOOD (3 credits)
This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children’s and men’s well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 8176)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing, or permission of instructor. Not open to non-degree graduate students.

SOC 4180  OCCUPATIONS & CAREERS: FULFILLMENT AND CHALLENGES AT WORK (3 credits)
This course examines what makes individuals and groups happy and satisfied with their jobs, and the factors that can turn “a dead-end job” into a meaningful pursuit that lasts decades. The course utilizes a life course approach and covers early socialization experiences to retirement transitions. It also employs a sociological lens to explore how individual experiences in the work realm are affected by stratification (such as race/ethnicity, gender, sexuality, social class, and parental status) and as well as by occupational norms and structures, workplace relationships, and culture and practices at the organizational and societal levels. (Cross-listed with SOC 8166).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing, or permission of instructor.

SOC 4200  SOCIOLOGY OF THE BODY (3 credits)
This course offers an overview of contemporary sociological theories of the body and uses these theories to explore substantive issues pertaining to the discourses, practices, and politics of the body in modern societies.
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4210  DISABILITY AND SOCIETY (3 credits)
This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 8216)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.
SOC 4240 SOCIAL TRANSFORMATIONS IN LATIN AMERICA (3 credits)
The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's position in the global economy are examined. (Cross-listed with SOC 8246, LLS 4240, LLS 8246).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing or permission of instructor
Distribution: Global Diversity General Education course

SOC 4250 CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS (3 credits)
In this course we will use an interdisciplinary lens to study the changes and continuities of migration in the Americas. The course starts with an overview of immigration to the Americas during the first era of mass migration (1850-1920) to explore the relevance of European migrations for national and identity constructions in the Southern Cone of America. Students then will be introduced to the impacts of social and political change on emigration flows, both regionally and beyond the region. They will also explore migration related policies at the national and regional level. We will also study the changes and continuities in the migration system of the Americas. Lastly, we will analyze the new North-South migration, as well as immigration to Latin America from Asia (recent and historical), Europe, and Africa. (Cross-listed with SOC 8256, LLS 4250, LLS 8256).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.
Distribution: Global Diversity General Education course

SOC 4310 SOCIOLOGY OF SEXUALITIES (3 credits)
This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomenon such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 8316)
Prerequisite(s)/Corequisite(s): SOC 1010 and Junior standing; or permission of the instructor. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

SOC 4350 WORK & FAMILY (3 credits)
This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 8356)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior or senior standing; or permission of instructor.

SOC 4440 HUMAN CONNECTION, LONELINESS, & HEALTH (3 credits)
This course examines the "loneliness epidemic" through a sociological perspective and is based on the premise that loneliness is a public health issue, as research consistently shows it is associated with a vast array of physical and mental health outcomes. After discussing the extent of loneliness and how to define it by distinguishing it from other types of social pain, the course covers: 1) the extent and nature of loneliness and its cultural/social sources; 2) the pathways from loneliness to health outcomes; and 3) possible interventions to reduce loneliness and improve public health. (Cross-listed with SOC 8446).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of the instructor.

SOC 4550 ORGANIZATIONAL DIVERSITY AND INCLUSION (3 credits)
This course provides advanced-level knowledge of the structural understanding, assessment, analysis, and management of social diversity as well as successful inclusion strategies in the workplace. Concepts and theories dealing with structural basis of the creation of difference, consequences of difference, inclusion, affirmative action, and diversity consulting skills are fully examined in this course. This course will prepare students for successful leadership in diverse organizational environments. (Cross-listed with SOC 8556)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4620 APPLIED FORMAL ORGANIZATIONS (3 credits)
An advanced-level applied organizational sociology course that uses organizational theory, concepts, research, and practice to examine the structural bases of organizational effectiveness, efficiency, survival, and actions of organizational members. The course is designed to prepare students for organizational leadership using advanced knowledge and skills of organizational sociology. (Cross-listed with SOC 8626).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4700 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with SOC 8706, PHHB 4700, PHHB 8706)
Prerequisite(s)/Corequisite(s): Junior Standing or permission of the instructor.
Distribution: U.S. Diversity General Education course

SOC 4740 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)
This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 8746)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4760 ENVIRONMENTAL SOCIOLOGY (3 credits)
This course is an introduction to environmental sociology, a field of sociology that explores the interaction between the environment and society. Environmental sociologists consider how political, social, and economic factors have come to shape our patterns of interaction with the natural and built environment. Students will be expected to use the sociological perspective to understand the landscape of environmental problems, focusing on such issues as environment and health, disaster, environmental policy, climate change, environmental risk, human and animal interactions, sustainability, environmental justice and social movements. (Cross-listed with SOC 8766)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing or permission of instructor.
SOC 4770 POLITICAL SOCIOLOGY (3 credits)
This course explores political sociology, focusing on political processes and power. Political sociologists investigate relationships between political institutions and various other institutions, including but not limited to the economy, education, media, and religion, and the impacts that these relationships have on society and the individuals that comprise the society. This course will explore the concepts, theories, and knowledge that comprise this field such as power, legitimacy, the state, networks, stratification, and collective action. (Cross-listed with PSCI 4770, PSCI 8776, SOC 8776).
Prerequisite(s)/Corequisite(s): SOC 1010, junior standing or permission from instructor

SOC 4780 URBAN LATIN AMERICA (3 credits)
This course examines the experience of Latin American urbanization, attending to its contributions to urban sociology, social movements, and policymaking. Topics include urban transitions (e.g. pre-Hispanic to colonial, post-colonial to industrial, and the neoliberal turn), socio-spatial configurations (e.g. plazas, squatter settlements), urban marginality debates, urban politics, and planning as well as governance innovations (e.g. bus rapid transit systems, participatory budgeting). Students will compare city case studies across the region and to urban life in the United States. (Cross-listed with SOC 8786, LLS 4780, LLS 8786).
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing or permission of instructor
Distribution: Global Diversity General Education course

SOC 4800 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)
This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8806)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor

SOC 4830 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)
This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 8836)
Prerequisite(s)/Corequisite(s): SOC 1010, and junior standing; or permission of the instructor.

SOC 4850 SOCIOLOGY OF RELIGION (3 credits)
This course looks at religion as a social and cultural phenomenon, examining how religious beliefs, practices, institutions and movements shape and are shaped by their social context. Topics include: sociological theories and explanations of religion and spirituality; definitions of religion and the distinction between religion and other ideologies or worldviews; the measurement of religiosity and the scientific study of religion; trends in religiosity, spirituality, and the religious landscape historically and globally; sociological insights gained from the study of new religions, secularization, fundamentalism, and other issues related to contemporary religious experience. (Cross-listed with SOC 8856)
Prerequisite(s)/Corequisite(s): SOC 1010 or permission of instructor.

SOC 4880 CONTEMPORARY TOPICS IN SOCIOLOGY (ONE CREDIT HOUR) (1 credit)
This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8886)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4890 CONTEMPORARY TOPICS IN SOCIOLOGY (TWO CREDIT HOURS) (2 credits)
This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8896)
Prerequisite(s)/Corequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4900 SENIOR THESIS (4 credits)
This is a capstone research and writing course designed for Sociology majors who are in their senior year. The major purpose of the course is to produce an original thesis of 20-25 pages, which will be developed through a series of assignments. Students will choose their own thesis topics with the purpose of reflecting on and synthesizing knowledge about sociological concepts, theories, and research methods. This course meets the University requirement of a third writing course.
Prerequisite(s)/Corequisite(s): SOC 1010, 2120, 2130, 2134, 3510, 3514, Sociology major, and senior standing; or permission of instructor. Not open to non-degree graduate students.
Distribution: Writing in the Discipline Single Course

SOC 4910 INTERNSHIP IN SOCIOLOGY (1-3 credits)
This course offers students an opportunity to experience sociology and/or anthropology through direct involvement in non-profit, for profit, government, or other organization. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.
Prerequisite(s)/Corequisite(s): Senior standing and permission of instructor.

SOC 4990 INDEPENDENT STUDY IN SOCIOLOGY (1-3 credits)
Guided readings and/or independent research in a special sociological topic under the supervision of a Sociology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.
Prerequisite(s)/Corequisite(s): Permission of instructor. Not open to non-degree graduate students.

Anthropology

ANTH 1050 INTRODUCTION TO ANTHROPOLOGY (3 credits)
Anthropology is the humanistic and scientific study of humans, past and present. This course will present an overview of the four subdisciplines of anthropology: sociocultural, archaeological, biological, and linguistic.
Distribution: Social Science General Education course

ANTH 2000 ETHNOGRAPHY (1-4 credits)
This is a self-paced course in which the student views films and reads books and articles regarding a specific culture. Each culture will be a one (1) credit hour module. The intent is to acquaint the student in some depth with other cultures in the world.
Prerequisite(s)/Corequisite(s): One course in the social sciences and the instructor’s permission.

ANTH 2990 GUIDED READING (1-6 credits)
The course is designed to allow the student enrolled in an anthropology course to pursue a specialized interest or topic in greater depth than is or was possible for the other course as a whole.
Prerequisite(s)/Corequisite(s): Concurrent enrollment in an anthropology course or enrollment in an anthropology course in the immediately preceding semester and permission of instructor.

ANTH 3210 CULTURES OF AFRICAN PEOPLES (3 credits)
An introduction to cultures and societies of Africa. Analysis of kinship systems; political, economic and religious institutions; social change. Emphasis on the dynamics of social organization of African people.
Prerequisite(s)/Corequisite(s): Sophomore or above with one three-hour introductory social science course
ANTH 3220 PEOPLES AND CULTURES OF NATIVE NORTH AMERICA (3 credits)
A survey of the Native peoples and cultures of North America, past and present. Topics covered include: economics, religion, social organization, kinship, political organization, material culture, gender and culture change through time.
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of Instructor

ANTH 3260 WORLD CULTURES AND PEOPLES (3 credits)
This course utilizes ethnography to examine human cultures in a specific geographic context. The area approach in cultural anthropology reveals how the physical environment shapes culture and how those cultures, in turn, shape their environments. This course will also examine the larger social milieu and cultural change over time. The specific area will be announced each time the course is offered.
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 3910 INTRODUCTION TO PHYSICAL ANTHROPOLOGY (3 credits)
An introduction to physical anthropology through an examination of theories and techniques used to investigate human origins; the relationship between humans and their physical environment; human variation, growth and development; and the evolution of human diseases.
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 3920 ESSENTIALS OF ARCHAEOLOGY (3 credits)
This course introduces students to the essentials of scientific archaeology. Topics addressed include the history of archaeology, site survey, mapping, testing, excavation, laboratory methods, analysis, interpretation, and documentation. Scientific archaeology focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.
Prerequisite(s)/Corequisite(s): Anthropology 1050 or permission of instructor.

ANTH 4210 CULTURAL ANTHROPOLOGY (3 credits)
Cultural Anthropology is the sub-discipline of Anthropology that systematically considers cultural diversity (similarities and differences) in all known human societies. The scope of cultural anthropology is one of the broadest in the social sciences and includes the study of subsistence strategies and economies, kinship and social organization, political organization, religion, gender, language, expressive arts, human-environment relationships, and globalization. (Cross-listed with ANTH 8216).
Prerequisite(s)/Corequisite(s): Junior or senior with a minimum of six hours of social science.

ANTH 4220 NORTH AMERICAN ARCHAEOLOGY (3 credits)
This course explores more than 20,000 years of Native American culture and lifeways in North America. Indigenous peoples faced numerous challenges throughout this vast and diverse continent. Hunters, gatherers, fishers, and horticulturalists adapted to all regions of North America. Students will be introduced to a range of archaeological concepts, methods and theoretical perspectives central to learning about this rich heritage of American archaeology. (Cross-listed with ANTH 8226).
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 4230 ETHNOMEDICINES OF THE AMERICAS (3 credits)
An anthropological approach to the study of the cultural systems of specific American ethnomedicines (traditional medicines) of North, Central and South America. For each ethnomedicine, the historical context, philosophy, practice, therapeutics, and utilization will be examined to understand how and why each ethnomedicine has survived despite tremendous extermination pressure. (Cross-listed with ANTH 8236).
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 4240 MEDICAL ANTHROPOLOGY (3 credits)
Medical anthropology is the cross-cultural study of human culture, health and illness. Using multiple theoretical perspectives, this course examines how cultural, social, environmental, and biological factors interact to produce patterns of health and illness in past and present human societies. (Cross-listed with ANTH 8246).
Prerequisite(s)/Corequisite(s): ANTH 1050 or junior or senior standing; or permission of the instructor.

ANTH 4250 ENVIRONMENTAL ANTHROPOLOGY AND NATIVE PEOPLES OF THE GREAT PLAINS (3 credits)
Environmental anthropology seeks to understand the interrelationships between human societies and their biophysical and social environments. This course introduces students to basic concepts and theories used by anthropologists to study environmental influences upon both past and present Native American societies on the North American Great Plains. Particular attention will be given to the rapid and dramatic environmental changes that continue to challenge Native Americans in the Great Plains today. (Cross-listed with ANTH 8256)
Prerequisite(s)/Corequisite(s): Anthropology 1050 and junior standing; or permission of instructor.

ANTH 4260 TOPICS IN CULTURAL ANTHROPOLOGY (3 credits)
Cultural Anthropology (Ethnology) is the comparative study of cultures. Each semester the course is offered, one topic will be selected from the subfield of Cultural Anthropology, such as: Applied Anthropology, Economic Anthropology, Political Anthropology, Visual Anthropology, Anthropology of Gender and Sexualities, Comparative Analysis of Kinship, or the Anthropology of Religion. Since the topic will vary, students may elect to take this course more than once.
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 4920 SEMINAR IN ANTHROPOLOGY (3 credits)
This course reviews research and writing in an area of current interest in the field of anthropology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with ANTH 8926).
Prerequisite(s)/Corequisite(s): ANTH 1050 or permission of instructor.

ANTH 4940 ARCHAEOLOGICAL FIELD METHODS (3 credits)
This course introduces students to the field methods of scientific archaeology. These field methods include map reading, use of satellite and aerial photographs, instrument survey and mapping, pedestrian survey or reconnaissance, site survey data collection, identification of artifacts (stone tools, ceramics, etc.) and ecofacts (animal remains, macrobotanicals, etc.), systematic artifact collection and documentation, soil probes and coring methods, GPS-based mapping, excavation methods, and data recording. Additional topics include laboratory methods (artifact and ecofact analysis, interpretation, and documentation). This field course ultimately focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.
Prerequisite(s)/Corequisite(s): ANTH 1050 and junior standing; Not open to non-degree graduate students.

ANTH 4990 INDEPENDENT STUDY IN ANTHROPOLOGY (1-3 credits)
Guided readings and/or independent research in a special anthropological topic under the supervision of an Anthropology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.
Prerequisite(s)/Corequisite(s): Permission of instructor.

Sociology, Bachelor of Arts

To obtain a BA with a major in Sociology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
• 33 hours of major courses
• 3-13 hours of electives

TOTAL HOURS: 120

*SOC 4900: requires SOC 1010, 2120, 2130+2134, 3510+3514 and 6 additional hours of upper division sociology or anthropology courses. Sociology majors and senior standing.
**Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach the 27 credit minimum.

**Credits**  13-14

**Total Credits**  119-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**Sociology, Bachelor of Science**
To obtain a BS with a major in Sociology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 48 hours of major courses
- 4-14 hours of electives

**TOTAL HOURS: 120**

**Requirements**

**Credits** 16
**Women's and Gender Studies Mission**

The UNO Women’s and Gender Studies Program offers individuals and communities paths to transformation and empowerment through the collaborative work of students and faculty, who together study and explore all women’s lives and all constructions of gender across time, place, and culture, using a feminist lens. Our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality across time, place, and culture, using a feminist lens and/or queer lens.

We envision a world in which differences offer paths to meaningful and fulfilling contributions. Thus, our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality with race/ethnicity, nationality, socioeconomic class, ability levels, and additional dimensions of difference.

Our program employs the tools of different disciplines, including communication, arts and humanities, social sciences, natural sciences and history. Graduating students are prepared for many opportunities beyond graduation.

**Description**

Women's and Gender Studies is a liberal arts degree that prepares students for a wide variety of career and avocational paths. Majors, minors, and certificate holders find employment in a variety of areas, choosing to work in advocacy or social services-related positions, community development, large and small business, and government.

**Other Information**

All coursework taken for the Women’s and Gender Studies major or minor, or for the LGBTQ/Sexuality Studies minor or the Gender and Leadership Certificate must be completed with a grade of "C-" or better.

**Special Requirements**

Courses presented for credit toward the minor or major, or toward the Gender and Leadership Certificate must have been taught by a member of the Women’s and Gender Studies faculty. Students should select WGST electives in consultation with their major adviser.

**Residency**

Students may transfer in no more than 9 credits earned at other institutions to the WGS minor and no more than 15 credits earned at other institutions to the WGS major.

**Student Groups**

Iota Iota Iota (Triota) is a club and honorary society that recognizes excellence in Women’s and Gender Studies. Membership is available to any student who has completed two introductory courses in Women’s and Gender Studies and has a cumulative GPA of at least 3.0. In addition, students pursuing the major or minor in Women’s and Gender Studies can be involved with campus organizations such as the Women’s and Gender Equity Resource Center, and the Queer and Trans Services.

- WGST 4130 GENDER & LEADING SOCIAL CHANGE

Total Credits: 15

Women, gender, and sexuality studies majors may find employment in a variety of areas depending on their skills and experience. Some of our majors pursue post-baccalaureate training in medicine, law, education, and other graduate programs. Others choose employment directly after graduation, following career paths in advocacy or social services-related positions, community development, business, and government. Some career-path examples include:

Business

- Human Resources Manager
- Financial Planner
- Business Manager
- Office Manager
- Convention/Event Planner

Education

- K-12 School Teacher (with additional certification)
- Childcare Center Lead Teacher

Health

- Community Health Outreach Worker
- Community Health Advocate
- Public Health Coordinator
- Health Services Project Administrator

Law

- Victim Assistance Case Manager
- Mediator

Media/Publications

- Magazine Freelance Writer/Researcher
- Independent Film Maker/Producer
- Editor
- Social Media Specialist
- Film Publicist
- Production Artist

Social and Public Service

- Counseling Services Director
- Training Coordinator
- Rape Crisis Center/Community Education Coordinator
- Women's Crisis Support Center Community Educator
- Girl Scouts of America Program Officer
- Food Bank Program Manager
- Community Service Agency Case Manager

WGST 1950 BLACK WOMEN IN AMERICA (3 credits)

This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and “Me Too” Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with BLST 1950)

Distribution: U.S. Diversity General Education course

WGST 2000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)

A variety of topics primarily for the non-major. (For example, this course might study the image of businesswomen in American literature.) One or two such topics may be offered each term, depending upon student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term.

Prerequisite(s)/Corequisite(s): None. ENGL 1160 recommended

WGST 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE (3 credits)

A survey course which explores social science perspectives on women, men, and gender, including the biological contribution to human behavior and the impact of science as an institution. Examines challenges to traditional definitions of women's place and movements for change. Includes historical and multicultural materials.

Prerequisite(s)/Corequisite(s): ENGL 1150 is recommended.

Distribution: Social Science General Education course and U.S. Diversity General Education course

WGST 2020 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES (3 credits)

An introduction to women's and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women's and gender studies.

Prerequisite(s)/Corequisite(s): ENGL 1150 is recommended.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course
WGST 3000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)
A study of designated specific topics related to gender and sexuality studies within the disciplines of English. (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s)/Corequisite(s): Variable according to topic.

WGST 3020 PERSPECTIVES ON LEADERSHIP (3 credits)
This course studies leadership on and the practices of gender and leadership for undergraduate students. It is a service-learning course.
Prerequisite(s)/Corequisite(s): WGST 2010 or WGST 2020

WGST 3050 WOMEN IN RUSSIAN SOCIETY & CULTURE: A HISTORICAL PERSPECTIVE (3 credits)
This course discusses the history of women in Russia beginning from early Russia (10th Century) to the present. It includes the study of feminist activists, female educational, professional, and employment opportunities, historical and current status of women, and their social, cultural, and intellectual influences on Russian society. Course offered in English. (Cross-listed with RUSS 3050)
Prerequisite(s)/Corequisite(s): Junior or permission.

WGST 3080 HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)
An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today’s culturally diverse, global society. (Cross-listed with PHHB 3080).

WGST 3100 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, WGST 1000)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3120 WOMEN AND THE BIBLE (3 credits)
This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with RELI 3130).

WGST 3130 WOMEN AND POLITICS (3 credits)
This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 8135)
Prerequisite(s)/Corequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3160 QUEER AMERICAN WESTS (3 credits)
A survey of queer literatures about the American West. The course will explore a variety of genres, including poetry, short stories, plays, novels, creative nonfiction, and, depending on time, film/television. "Queer" will be construed as including any "non-normative" sexualities and sexual identities (e.g., genderqueer, winkte, two-spirit, 3rd/4th gender). Non-western writers (e.g., Walt Whitman) imagining the West queerly may also be included. (Cross-listed with ENGL 4280, ENGL 8286).
Prerequisite(s)/Corequisite(s): ENGL 1160; completion of writing in the major course recommended.

WGST 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)
Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA-plus creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with ENGL 3180).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

WGST 3220 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 8235)
Prerequisite(s)/Corequisite(s): PSCI 2500 is recommended.
Distribution: Global Diversity General Education course

WGST 3390 WOMEN, CRIME AND JUSTICE (3 credits)
This course focuses on women’s experiences in the criminal justice system. The course will examine women’s experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with CRCJ 3390)
Prerequisite(s)/Corequisite(s): WGST major; CRCJ or WGST minor; CRCJ 1010, ENGL 1160 and 45 credit hours; or instructor permission.
Distribution: U.S. Diversity General Education course

WGST 3490 GENDER AND PHILOSOPHY (3 credits)
This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. (Cross-listed with PHIL 3490)
Prerequisite(s)/Corequisite(s): Junior or 6 hours in PHIL or 6 hours in WGST.

WGST 3750 GENDER AND COMMUNICATION (3 credits)
This course provides a survey of literature on communication about, by, and between women and men in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with CMST 3750).
Prerequisite(s)/Corequisite(s): Junior standing; minimum cumulative GPA of 2.25. Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

WGST 4010 SENIOR SEMINAR (3 credits)
This course provides a capstone experience in women’s studies. It serves as the third writing course, and is required for women's studies majors. It is open to seniors who have completed five courses in women's studies, including WGST 2010 and WGST 2020, with a ‘C’ or better; others may enroll with permission.
Prerequisite(s)/Corequisite(s): Senior standing, completion of five women's studies courses, including WGST 2010 and WGST 2020, with a grade of ‘C’ or better; or permission.

WGST 4020 INTERNSHIP IN WOMEN’S AND GENDER STUDIES (1-6 credits)
A faculty-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of instructor is required.
Prerequisite(s)/Corequisite(s): WGST 2010 and WGST 2020, enrollment either as a WGST major or minor or a BMS concentration in WGST, a 3.0 GPA, and permission of instructor.

WGST 4030 PERSONAL LEADERSHIP (3 credits)
In addition to a survey of leadership styles and theories, this course provides historical and contemporary perspectives of gender and leadership, barriers to women's leadership, bias, and discrimination. Individual leadership is examined within the context of being a change agent. This is a service learning course.
Prerequisite(s)/Corequisite(s): WGST 2010 or WGST 2020
WGST 4050  SPECIAL TOPICS IN WOMEN'S AND GENDER STUDIES (3 credits)
This course will give instructor and students the opportunity to investigate a variety of advanced topics in Women's Studies. The content will vary from semester to semester, according to instructor. May be repeated for credit as long as topic differs.
Prerequisite(s)/Corequisite(s): WGST 2010 and WGST 2020 or permission of instructor.

WGST 4060  HISTORY OF WOMEN IN AMERICA FROM 1875 - 1922 (3 credits)
This course examines the history of women in the United States from 1875 to 1922. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 8066, and HIST 8066).
Prerequisite(s)/Corequisite(s): Junior or permission of instructor.

WGST 4070  GENDER AND LEADERSHIP CAPSTONE: COMMUNITY ACTION PROJECT (3 credits)
This course is designed for students in the final stage of the Gender and Leadership Certificate. Activities focus on practical experience in an organization that will allow students to exercise, observe, and later share lessons with classmates about leadership qualities and skills.
Prerequisite(s)/Corequisite(s): WGST 2010 or WGST 2020 and either WGST 3020 or WGST 4030

WGST 4120  BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)
This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women’s roles in liberation movements in the U.S. and worldwide. Special focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with BLST 4120)
Prerequisite(s)/Corequisite(s): Junior standing or permission of instructor.

WGST 4130  GENDER & LEADING SOCIAL CHANGE (3 credits)
This course will cover theories, philosophies, movements, and concepts related to social change as a process and outcome. It is a service-learning course.
Prerequisite(s)/Corequisite(s): WGST 2010 or 2020. Junior standing or permission.

WGST 4150  GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 4150, ENTR 8156, GEOG 4150, GEOG 8156 and WGST 8156).
Prerequisite(s)/Corequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 4270  WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)
A survey of U.S. and Canadian women writers (18th century to the present) enabling students to examine issues of gender and sexuality across a wide thematic range, including settlement, land use, cultural displacement, and survival in western territories, states, and provinces of North America. (Cross-listed with ENGL 8276, ENGL 4270).
Prerequisite(s)/Corequisite(s): ENGL 1150 and ENGL 1160 or equivalent; completion of ENGL 2410 or other writing in the major course recommended.

WGST 4550  HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with PHHB 4550, PHHB 8556, GER 4550, GER 8556)

WGST 4910  TOPICS IN WOMEN'S HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/WGST 8916 when topics are appropriate to Women's and Gender Studies.
Prerequisite(s)/Corequisite(s): Junior

WGST 4920  SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)
An illustrated lecture course dealing with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.
Prerequisite(s)/Corequisite(s): To be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course. Lab fee required.

WGST 4930  SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)
Specific subjects (when offered) appear in class schedules. Complete syllabi available in English Department. Formerly ENGL4940 / ENGL 8946 Studies in Language and Literature.
Prerequisite(s)/Corequisite(s): Will vary depending on what the topic is.

WGST 4990  INDEPENDENT STUDY (1-3 credits)
An individualized course of study with a member of the Women's and Gender Studies Faculty. Either independent research or advanced readings may be pursued. No more than 6 hours of independent study may be used towards the minor.
Prerequisite(s)/Corequisite(s): Permission from the Women's Studies director and the supervising faculty member is required.

Women’s and Gender Studies, Bachelor of Arts

Requirements
A minimum of 120 credit hours is required for a Bachelor of Arts degree in women’s and gender studies (BAWGS). At least 30 credits of a student's bachelor's degree must be taken in residence at UNO. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BAWGS, a student must fulfill the university, college and departmental requirements. Some courses may satisfy requirement in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

- 40-46 hours of university General Education courses (9 hours of which can be satisfied by courses in the required areas below)
- 12-19 hours of College of Arts and Sciences requirements
- 16 hours of Foreign Language or American Sign Language courses
The Bachelor of Arts in women's and gender studies requires a minimum of 33 credits as outlined below.

Total Credits 119-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
Universities Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

LGBTQ/Sexuality Studies Minor

LGBTQ (lesbian, gay, bisexual, transgender, and queer)/sexuality studies is an interdisciplinary field that examines the identities, experiences, and social positions of people often referred to as sexual/gender minorities. The field also examines sexual behaviors, identities, and communities as sex plays a key role in many people’s lives. LGBTQ/sexuality studies has origins in many disciplines, including anthropology, art, English, history, media studies, psychology, public health, sociology, theatre, and women’s and gender studies, among others. The field includes topics such as: identity formation of nonheterosexual sexualities, non-binary gender identities, health and well-being of sexual/gender minorities, subcultural groups, the politics of identity, and representations of queer lives in popular culture. This minor acknowledges that sexuality is an important distinguishing factor of our lives on par with race, social class, and gender.

The LGBTQ/sexuality studies minor will offer students courses that complement and support their majors in many ways. The minor is intentionally flexible and interdisciplinary. Students who complete this minor will gain increased knowledge in the following:

- sexual identity, orientation, and behaviors, including heterosexualities, homosexualities, gay sexualities, lesbian sexualities, bisexualities, queer sexualities, etc.
- gender identities including trans identities, including but not limited to: genderqueer, non-binary, trans man, trans woman, gender non-conforming, gender creative, etc.
- sexology, or the study of sex and sexual behaviors, and human sexuality broadly
- sexual health such as STIs, HIV, and sexual reproduction
- theories of identity development, queer theory, and other social theories related to sexuality
- intersectionality of sexuality with race, class, gender, religion, ability, nationality, and other social characteristics
- diversity of human behavior and experience as it relates to sex and sexuality.

Minors Offered

LGBTQ/Sexuality Studies Minor

Other Information

All coursework taken for the LGBTQ/Sexuality Studies minor must be completed with a grade of "C" or better.
Contact
The LGBTQ/Sexuality Studies minor is a minor option under Women’s and Gender Studies. The advisor for the program is Dr. Jay Irwin. For more information, please contact him at jirwin@unomaha.edu.

Requirements
Undergraduate students will be expected to complete at least 15 credit hours of LGBTQ/Sexuality courses with a grade of C or higher. Nine credit hours must be upper division (3000 or higher) courses. No more than nine credit hours will be accepted as transfer credit.

Courses not on the list can be petitioned to be accepted by approval of the Advisor of the minor.

College of Business Administration (CBA)

College of Business Administration Mission
UNO CBA provides a balance of academic perspectives with practical applications.

"We engage our students in learning experiences that enable them to become knowledgeable, motivated, and resourceful business professionals."

"We impact and transform practice and advance scholarly thought through research and diverse community engagement."

College of Business Administration Vision
As a premier College of Business Administration, UNO CBA will further our reputation as the region’s leading provider of business education and expertise.

Other Information Relevant to the College of Business Administration

Attendance at First CBA Class Meeting
Students not present at the first class meeting of a College of Business Course, without prior notification to the instructor, may be administratively withdrawn from the course.

Accreditation Information
The UNO College of Business Administration undergraduate and graduate programs are accredited by AACSB - the International Association to Advance Collegiate Schools of Business. This is the highest level of accreditation possible for a College of Business.

The Accounting Programs in the UNO College of Business Administration hold specialized Accounting Accreditation by AACSB. Less than 200 Accounting Programs worldwide have earned specialized AACSB Accounting Accreditation.

Choice of Catalog Policy
A student registering in the College of Business Administration of UNO for the first time may, except for the following limitations, complete work for the degree according to:

- The requirements of the catalog of the year in which you last entered the College and have since been in continuous enrollment (i.e., no enrollment gap of more than two consecutive semesters) OR
- The catalog current at the time the student applied for the BSBA degree. For students continuously enrolled, a seven-year rule applies in that the catalog for students who have been continuously enrolled can only extend back seven years.
- The earliest catalog available to an intra-University transfer will be the catalog in use when the student transferred to the College of Business Administration.

### Program Contact Information
CBA Advising Office
UNO College of Business Administration  
134H Mammel Hall  
University of Nebraska at Omaha  
6708 Pine Street  
Omaha, Nebraska 68182

**Advising Phone:** 402.554.3419  
**e-mail:** unocbaadvising@unomaha.edu

**Program Website** ([https://www.unomaha.edu/college-of-business-administration/](https://www.unomaha.edu/college-of-business-administration/))

### Admission Requirements
Incoming freshman must meet general university admission requirements to be admitted into the College of Business Administration. Transfer students and current UNO students must have a minimum 2.50 cumulative GPA to be admitted into the College of Business Administration.

### Academic Requirements for the College Degree
#### Number of Hours to Graduate
Students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration to earn a BSBA degree.

42 semester hours must be earned in upper-division courses (3000-4000 level classes).

BSBA students earn 24 upper-division (3000/4000 level) credit hours in the business core curriculum and 18-24 hours in their BSBA concentrations.

The last 30 of 36 consecutive semester hours for a degree must be earned following admission to the College of Business Administration. A minimum of nine (9) of the twenty-four (24) required business core hours and one-half of the required concentration hours must be completed at UNO.

No more than 12 semester hours may be taken in any one department outside the College of Business Administration. Students who have completed a declared major or minor from a department outside of CBA can apply more than 12 hours.

Students completing an additional major or minor in French, German or Spanish may apply all foreign language credit toward a BSBA degree. Otherwise, no more than 16 semester hours in any one foreign language

### Careers
Business is a broad, flexible, and valuable field of study. Students who graduate with a business degree can choose from a variety of professions in a number of industries and fields. Individuals with business degrees may find career opportunities working in government, large, mid-size, and small companies, nonprofit organizations, and institutions of higher education.

A business degree prepares students for a fulfilling and flexible career, matching personal interests with professional ambitions, and allowing for the ability to pivot and flex careers as opportunities arise. Although a business degree applies to a vast array of careers, allowing an individual to work in any number of industries or roles, for ease of use, a list of possible business-related careers is broken down by department.

For more information about Business careers, please contact the CBA Career Center. Website ([https://www.unomaha.edu/college-of-business-administration/career-center/](https://www.unomaha.edu/college-of-business-administration/career-center/)):

</table>
may be applied toward a degree. More than one foreign language is allowed.

A maximum of eight (8) semester hours in music laboratory courses such as band, chorus or orchestra may be applied toward the degree.

The College of Business does not require any physical education activity (PEA) courses. A total of four hours of PEA courses from different areas may be applied toward the degree.

A maximum of 24 hours of combined Credit/No Credit, credit by examination, College Level Examination (CLEP) and professional development course credit may be applied.

**Requirements for a Bachelor of Science in Business Administration (BSBA) Degree**

Undergraduate students who complete a degree from UNO’s College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a “C+” or better in a specific foundation courses. Specifically, MGMT 3490 is the foundation course for the Management and Human Resource Management concentration as well as for the Management secondary concentration. MKT 3310 is the foundation course for the Marketing & Sales concentration as well as for the Marketing & Sales secondary concentration. Finally, FNBK 3250 is the foundation course for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance secondary concentration.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration & secondary concentration.
- Must earn a “C” or better in classes for it to count towards the BSBA degree
- The grade of “C+” or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2200 & ECON 2220))

**Transfer Credit Policy**

CBA will accept upper-division core courses completed at AACSB institutions.

In order for an upper-division core course to be accepted from non-AACSB institutions, the student must complete an additional upper-division course from an AACSB accredited school within the same department to validate the transfer course. Please contact your CBA advisor to learn more about validation.

Courses completed for validation must be completed with a grade of C (2.00) or better.

Only transfer courses with a grade of “C” or higher will be applied toward the BSBA degree.

**Unacceptable Credits**

Remedial courses and orientation courses at other institutions will not apply to the 120 minimum credit hours.

No business course may be taken on a Credit/No Credit basis.

A maximum of six hours of professional development course credit may be taken from any educational body if evaluated by the American Council on Education (ACE) as equivalent to collegiate credit, and then may be applied toward the degree. Such credit may be used for non-business electives. The department chair must give written approval if a course is to be used for concentration elective hours or as a substitute for a required concentration course.

Business core requirements taken as professional development courses are not applicable to the BSBA degree.

**Retroactive Credit Policy**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 29)

**Advanced Placement Credits**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 29)

**Military Credit**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 29)

**IB Credit**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 29)

**Placement Exams and Credit by Examinations Policies/Practices**

https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/testing-center/ (p. 64)

**Residency Requirement**

The last 30 of 36 consecutive semester hours for a degree must be earned following admission to the College of Business Administration. A minimum of nine (9) of the twenty-four (24) required business core hours and one-half of the required concentration hours must be completed at UNO.

**Quality of Work**

Any students earning below a 2.50 cumulative GPA for any semester while enrolled in the BSBA degree program will be placed on a “warning status.” No grade below a C (2.00) will be counted as satisfactory completion of CBA courses.

**Good Academic Standing Policy**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 30)

**Credit/No Credit (CR/NC) Grades**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 30)

**Completion of Incomplete Grade**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 30)

**Repeatable Grades/Courses**

Effective Fall 2002, a student may only attempt each required business core course three times.

This policy applies to the following courses:
Academic Amnesty

Any grade earned, excluding CR, W, NC, NR, I, IP, AU, S, U or R will count as an attempt for the three times limit.

If the student does not earn a C (2.00) or better on the third attempt of that required core course, the student is no longer eligible to receive a business degree at UNO.

The Undergraduate Program Council will only consider appeals of the three-attempt rule when the circumstances for the appeal are documented and the reason for the appeal is extraordinary.

Upper-division accounting courses may be taken only twice.

Academic Advising

The aim and purpose of academic advising is to assist students in meeting the requirements of the degree program and to interpret college policies regarding academic requirements. In the College of Business Administration, academic advising is carried out by CBA’s undergraduate advisors. Students should see an academic advisor whenever questions arise concerning academic programs, but especially prior to registering for freshman year and registering for senior year.

Declaring a Concentration

Students may declare a BSBA concentration when applying to the university or at any point.

Students who did not declare a BSBA concentration when applying to the university must meet with a CBA advisor to complete the BSBA declaration process.

Senior Check

A senior check will be processed for each BSBA student upon completion of 90 credit hours. This audit provides an official list of the student’s remaining degree requirements. Students will be required to meet with an advisor to review the senior check. Final responsibility for scheduling courses and satisfactorily completing curriculum requirements for any degree rests with the student.

Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO’s College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a “C-” or better in a specific foundation course. Specifically, MGMT 3490 is the foundation course for the Management and Human Resource Management concentration as well as for the Management secondary concentration. MKT 3310 is the foundation course for the Marketing & Sales concentration as well as for the Marketing & Sales secondary concentration. Finally, FNBK 3250 is the foundation course for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance secondary concentration.
To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration
- Must earn a "C" or better in classes, for it to count towards the BSBA degree
- The grade of "C" or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2220 & ECON 2220))

An Advising hold will be placed if a student does not meet the 2.5 GPA. The hold will not be removed until the requirements are met or the student chooses a major outside the College of Business Administration.

**Writing in the Discipline**
All students are required to take a writing in the discipline course within their major. For the BSBA degree, this is MKT 3200.

**MBA Fast Track**
The College of Business Administration MBA program has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a BSBA degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**
- This program is available for undergraduate students pursuing a BSBA degree and desiring to pursue an MBA.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- The admit term must be after the completion term of the undergraduate degree.

Students must complete at least six hours of course work beyond the general education diversity requirement with a global perspective (i.e., history, political science, literature or geography of foreign countries, foreign languages, international business, etc.). Global courses include all university general education global diversity courses listed on the General Education website, plus the international business courses shown on the student’s DegreeWorks website.

Students must complete MGMT 4480 their last semester. Students who have not completed FNBK 3250, MKT 3310, MKT 3200 and MGMT 3490 with a C (2.00) or better or who have a GPA below 2.50 will be administratively withdrawn from MGMT 4480. Preference is given to students who will graduate that semester.

The college reserves the right to institute and make effective, after due notice, during the course of a student’s work toward a degree, any new ruling which may be necessary for the general good of the college, and to substitute courses currently offered for those no longer offered.

Each student admitted to the college is responsible for becoming familiar with the procedures and regulations in the undergraduate catalog.

Specific requirements for each CBA concentration are identified in the following section of this catalog.

Credits not required under general education requirements, the required business core curriculum, or a BSBA concentration can be taken as electives in business and/or in non-business areas to complete the required 120 hours for the BSBA degree.

**Concentrations Offered**

- Accounting Concentration (p. 372)
- Banking and Financial Markets Concentration (p. 383)
- Business Analytics Concentration (p. 384)
- Business Finance Concentration (p. 386)
- Economics Concentration (p. 379)
- Entrepreneurship Concentration (p. 405)
- Human Resource Management Concentration (p. 398)
- International Business Concentration (p. 367)
- Investment Science and Portfolio Management Concentration (p. 388)
- Legal Studies Concentration (p. 389)
- Logistics & Supply Chain Management Concentration (p. 399)
- Management Concentration (p. 396)
- Marketing Concentration (p. 406)
- Real Estate and Land Use Economics Concentration (p. 391)
- Sales Concentration (p. 408)

**Program Certificate Offered**

- Real Estate and Land Use Economics Program Certificate (p. 393)
- UNO Real Estate Certificate (p. 393)
Accounting

ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)
This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.
Prerequisite(s)/Corequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with a 'C' (2.0) or better. Not open to non-degree graduate students
Distribution: Social Science General Education course

ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)
Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners' equity; analysis and reporting of cash flows; financial statement analysis.
Prerequisite(s)/Corequisite(s): ENGL 1150 with a 'C' (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930 with a 'C' (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930

ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)
A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.
Prerequisite(s)/Corequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a 'C' (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)
This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)
Prerequisite(s)/Corequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)
This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.
Prerequisite(s)/Corequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)
A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)
This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.
Prerequisite(s)/Corequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)
The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)
Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)
Prerequisite(s)/Corequisite(s): ACCT 3030 and ACCT 3040 with "C" (2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)
Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions. (Cross-listed with ACCT 8026)
Prerequisite(s)/Corequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with 'C' (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)
Prerequisite(s)/Corequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)
Prerequisite(s)/Corequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.
ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)
Prerequisite(s)/Corequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)
An introduction to auditing. Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.
Prerequisite(s)/Corequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)
This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.
Prerequisite(s)/Corequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific problems in the field of accounting.
Prerequisite(s)/Corequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)
A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)
Prerequisite(s)/Corequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010).
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of "C" (2.33) or better in each. Not open to non-degree graduate students.

ACCT 8026 ANALYTICS FOR ACCOUNTING (3 credits)
Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions. (Cross-listed with ACCT 4020).
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3080 with a grade of "C" (2.0) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040).
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)
Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060).
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4076).
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8078 DATABASE DEVELOPMENT AND USE IN AIS (3 credits)
This course will cover tools and methods that facilitate business analytic techniques, including database development and use, data mining, and information analysis for decision-making. A working understanding of spreadsheet software is assumed.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)
This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.
Prerequisite(s)/Corequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)
The development of accounting, current accounting theory and present controversies and suggested theory and practice.
Prerequisite(s)/Corequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)
This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.
Prerequisite(s)/Corequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.
ACCT 8230  MANAGEMENT ACCOUNTING ISSUES (3 credits)
An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.
Prerequisite(s)/Corequisite(s): Admission to MACc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) of better. Not open to non-degree graduate students.

ACCT 8250  SEMINAR IN ACCOUNTING (3 credits)
A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.
Prerequisite(s)/Corequisite(s): Admission to MACc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260  FEDERAL TAX RESEARCH AND PLANNING (3 credits)
This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.
Prerequisite(s)/Corequisite(s): Admission to MACc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8280  SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)
This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.
Prerequisite(s)/Corequisite(s): Admission to MACc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8290  ADVANCED FINANCIAL AUDITING (3 credits)
This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.
Prerequisite(s)/Corequisite(s): Admission to MACc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8990  INDEPENDENT RESEARCH (1-3 credits)
This is an independent research course in which the student completes a focused project, typically individual research, under faculty supervision to supplement graduate study in a specific area within the Accounting discipline.
Prerequisite(s)/Corequisite(s): Completed contract and permission needed from director of MACc program. Not open to non-degree graduate students.

ACCT 8910  SPECIAL TOPICS IN ACCOUNTING (3 credits)
A variable content course with accounting topics based on student and faculty interest. May be repeated to a maximum of six (6) hours.
Prerequisite(s)/Corequisite(s): Admission to MACc program and permission of instructor. Not open to non-degree graduate students.

Economics

ECON 1200  AN INTRODUCTION TO THE U.S. ECONOMY (3 credits)
An introduction to U.S. economy and an investigation of U.S. and international economic problems and policies.
Prerequisite(s)/Corequisite(s): Not available to students who have completed either ECON 2200 or 2220.
Distribution: Social Science General Education course

ECON 2200  PRINCIPLES OF ECONOMICS (MICRO) (3 credits)
An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.
Prerequisite(s)/Corequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with a "C" (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2220  PRINCIPLES OF ECONOMICS (MACRO) (3 credits)
An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2400  PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)
This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

ECON 3130  ECONOMIC GEOGRAPHY (3 credits)
A comprehensive study of production, consumption and exchange in primary, secondary and tertiary economic activities as related to spatial factors. (Cross-listed with GEOG 3130).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better. or Majoring in Geography

ECON 3190  SPORTS ECONOMICS (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.
Prerequisite(s)/Corequisite(s): ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

ECON 3200  ECONOMIC THEORY: MICRO (3 credits)
Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220  ECONOMIC THEORY: MACRO (3 credits)
This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.
Prerequisite(s)/Corequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better
ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.
Prerequisite(s)/Corequisite(s): ECON 2200 AND ECON 2220 OR ECON 1200 OR ECON 2400 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)
An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)
Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and build advanced programatic data cleaning techniques, such as regular expression.
Prerequisite(s)/Corequisite(s): ECON 2200 with a "C" or better

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)
This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3350 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)
An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (1-5 credits)
The course content and topic will vary. Please contact the economics department for specific course offerings.

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role to markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)
The seminar discusses whether innovation is more driven by demand or supply forces, the optimal timing of adoption of new technology, whether new technology benefits workers and consumers, and whether government is successful at supporting promising new technology. (Cross-listed with ECON 8346).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are taught to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).
Prerequisite(s)/Corequisite(s): ECON 3310 OR ECON 8320 (or concurrent enrollment) AND BSAD 2130 (or equivalent) OR Instructor Approval.
ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).
Prerequisite(s)/Corequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)
Individual investigation of specific problems in the field of economics under the supervision of a faculty member.
Prerequisite(s)/Corequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)
Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or permission of the instructor.

ECON 4610 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, alternative exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 8626).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4640 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the Department’s Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.
Prerequisite(s)/Corequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

ECON 8010 SEMINAR IN PUBLIC FINANCE (3 credits)
This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes, social security and healthcare system will be emphasized. Government debt and deficits will also be discussed.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission

ECON 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with BSAD 8020).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220 or BSAD 8180, or permission of the instructor. Not open to non-degree graduate students.

ECON 8050 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles and how they can be used to aid in the recognition of economic issues and the teaching of economic concepts and principles.
Prerequisite(s)/Corequisite(s): No previous course work in economics. Not open to Economics majors.

ECON 8200 SEMINAR IN MICRO ECONOMIC THEORY (3 credits)
The course covers major topics in microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, pure exchange economy, general equilibrium, and welfare theory.
Prerequisite(s)/Corequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.
ECON 8210 MANAGERIAL ECONOMICS (3 credits)
Microeconomics for graduate students of business. Economic analysis of the business firm and its environments, with emphasis on market structure, production possibilities and cost factors. Additional consideration is given to the theory of the firm under conditions of uncertainty. (Cross-listed with BSAD 8100).
Prerequisite(s)/Corequisite(s): Graduate student in economics and ECON 2200 or equivalent.

ECON 8216 INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like “Why does everyone hate the cable company?” and “Why are CEOs given so many stock options?” (Cross-listed with ECON 4210).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 8220 SEMINAR IN MACRO THEORY (3 credits)
This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, as well as the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical analysis techniques to business situations within the framework of the aggregate economy.
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220.

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.
Prerequisite(s)/Corequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8300 ECONOMETRICS (3 credits)
The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.
Prerequisite(s)/Corequisite(s): Basic Statistics, ECON 8306/ECON 4300, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 4300).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180.

ECON 8310 BUSINESS FORECASTING (3 credits)
The course will cover forecasting tools and applications applied to business settings. We will cover traditional Econometric forecasting methods in the first half of the class. In the second half of the course, we will focus on models in predictive analytics and machine learning, since these models are quickly becoming critical tools for forecasters in many settings. The course will include lecture and lab time, and labs will be focused on teaching students how to implement the models discussed in lectures. (Cross-listed with BSAD 8080).
Prerequisite(s)/Corequisite(s): ECON 8320 (or equivalent programming experience) AND ECON 8300 (or equivalent multivariate regression analysis coursework) or permission of instructor. Not open to non-degree graduate students.

ECON 8316 BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 4350).
Prerequisite(s)/Corequisite(s): ECON 3310 OR ECON 8320 (or concurrent enrollment) AND BSAD 2130 (or equivalent) OR Instructor Approval

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)
The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.
Prerequisite(s)/Corequisite(s): ECON 2200 or ECON 2220 (or equivalent) AND BSAD 8150 (or equivalent) OR Instructor Approval

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth’s natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, BSAD 8150 or permission of instructor.
ECON 8330  DATA ANALYSIS FROM SCRATCH (3 credits)
Econometrics is routinely taught as an application class using a ‘black box’ like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators from scratch. Additionally, we introduce numerous non-parametric and simulation techniques. This approach to econometrics results in a stronger understanding of statistical assumptions and methods, a better understanding of when a method is appropriate, and stronger programming techniques. Furthermore, a deeper understanding of the underlying mechanics provides the student the ability to program custom procedures not already built into popular software packages. 
Prerequisite(s)/Corequisite(s): A multivariate or regression analysis course such as ECON 8300, ISQA 9130 or STAT 8436, and a programming class such as ECON 8320 or equivalent programming experience; or instructor approval. Not open to non-degree graduate students.

ECON 8346 ECONOMICS OF TECHNOLOGY (3 credits)
The seminar discusses whether innovation is more driven by demand or supply forces, the optimal timing of adoption of new technology, whether new technology benefits workers and consumers, and whether government is successful at supporting promising new technology. (Cross-listed with ECON 4340).
Prerequisite(s)/Corequisite(s): ECON 2200 or BSAD 8180 or permission of the instructor.

ECON 8456 DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 4450).

ECON 8576 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 4570).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or Permission from the instructor

ECON 8600 HEALTH ECONOMICS (3 credits)
This course is designed to help students understand how the theories and models of economics can be applied to the study of health and health care. The examination of the markets (demand and supply) for health, health care and health insurance is stressed. In addition, the economic analytic tools such as microeconomic theories and economic evaluation methods also will be reviewed and introduced. The objective of this course is to equip students with the knowledge tools to examine and analyze the problems issues of health care from the perspective of economics.
Prerequisite(s)/Corequisite(s): ECON 2200 or equivalent.

ECON 8616 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 4610).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8626 INTERNATIONAL MONETARY ECONOMICS (3 credits)
An analysis of the international monetary system. Subjects covered include the balance of payments adjustment mechanism, alternative exchange rate systems, external effects of monetary and fiscal policy, foreign investments and international monetary reform. (Cross-listed with ECON 4620).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8666 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 4660).
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter’s theory of creative destruction. The main focus of the seminar will be on the “high-level” entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736.)
Prerequisite(s)/Corequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8856 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 8910 SPECIAL STUDIES IN ECONOMICS (1-3 credits)
(May be repeated up to 6) A series of special courses, each designed to focus on current major issues and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose.
Prerequisite(s)/Corequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8916 SPECIAL TOPICS IN ECONOMICS (1-3 credits)
(May be repeated up to 6 hours) A series of special courses each designed to focus on current major topics and developments in a specific area of economics or business, scheduled as a workshop or seminar according to purpose. (Cross-listed with BSAD 8916, ECON 4910).
Prerequisite(s)/Corequisite(s): Graduate student in good standing or advanced undergraduate student and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research.
Prerequisite(s)/Corequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)
Guided internship in a firm or organization that makes use of, or extends, the student’s skill in economics.
Prerequisite(s)/Corequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.
ECON 8990 THESIS (1-6 credits)
An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.
Prerequisite(s)/Corequisite(s): Approval of the topic and the completed project by departmental committee is required.

Finance and Banking
FNBK 2280 PERSONAL FINANCE (3 credits)
This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)
This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)
Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.
Prerequisite(s)/Corequisite(s): ACCT 2020 with 'C' (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)
As a comprehensive introduction to financial management, the course will cover various fields of finance and discuss topics including the time value of money, bond and stock valuation, capital budgeting.
Prerequisite(s)/Corequisite(s): ACCT 2020, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)
This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330).
Prerequisite(s)/Corequisite(s): FNBK 3250 with 'C' (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)
A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)
Prerequisite(s)/Corequisite(s): FNBK 3250 with 'C+' (2.33) or better, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)
An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with 'C' or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550).
Prerequisite(s)/Corequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)
This course focuses on the theory and practice of managing commercial banks. Topics covered include, but are not limited to, Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry.
Prerequisite(s)/Corequisite(s): FNBK 3250 with 'C+' (2.33) or better, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)
This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer).
Prerequisite(s)/Corequisite(s): FNBK 3250 with 'C+' (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

FNBK 4150 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)
Seeks to develop the students' ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).
Prerequisite(s)/Corequisite(s): FNBK 3250 with 'C+' (2.33) or better, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210).
Prerequisite(s)/Corequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)
Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).
Prerequisite(s)/Corequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; 'C+' or better in FNBK 3250; 2.5 cumulative gpa; junior or senior standing.
FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).
Prerequisite(s)/Corequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).
Prerequisite(s)/Corequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with BSAD 8606).
Prerequisite(s)/Corequisite(s): FNBK 3400 and FNBK 3500 both with a 'C' (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)
This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.
Prerequisite(s)/Corequisite(s): FNBK 3400 with a "C+" (2.33) or above, and a 2.5 GPA.

Law and Society

LAWS 2000 SPECIAL TOPICS IN LAW AND SOCIETY (1-5 credits)
The course content and topic will vary. Please contact the CBA for specific course offerings.

LAWS 3170 ETHICS IN BUSINESS (3 credits)
Application of ethical concepts and principles to moral issues in business including corporate responsibility, discrimination, advertising, competition, whistle-blowing, trade secrets, multinationals, environment, workers’ rights, government regulation, investment, bribes, product liability, and consumerism.
Prerequisite(s)/Corequisite(s): ECON 2200 and ECON 2220.

LAWS 3460 REAL ESTATE LAW (3 credits)
Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with RELU 3460)
Prerequisite(s)/Corequisite(s): RELU 2410 or RELU 3410.

LAWS 3930 BUSINESS LAW FUNDAMENTALS (3 credits)
LAWS 3930 introduces students to the legal system governing business transactions. This course emphasizes constitutional law, the Common Law, and relevant statutory law. The legal topics covered include litigation and ADR, torts, contracts, Sale of Goods, insurance, international law, and regulation of business.
Prerequisite(s)/Corequisite(s): ENGL 1160, CMST 1110, ECON 2200, & MGMT 3200 or MKT 3200 all with 'C'(2.0) or better, 2.5 GPA.

LAWS 3940 LEGAL AND ETHICAL APPLICATIONS (3 credits)
LAWS 3940 exposes students to business organization law and ethics. Emphasis is on business organizations (e.g., agency, partnerships, corporations), financial transactions (e.g., checks, liens, securities), and property (e.g., environment, intellectual). Ethics is a discrete subject area studied and its analytical tools are applied to all of these areas of law.
Prerequisite(s)/Corequisite(s): LAWS 3930 and ACCT 2020 both with C+ (2.3) or better; 2.5 GPA

LAWS 4220 LEGAL ISSUES IN MANAGEMENT (3 credits)
Overview of the general nature of legal knowledge in human resources administration. The course is designed to alert students of the legal considerations when an employer-employee relationship is established. Discusses how human resource practices have been impacted by recent legal developments, anti-discrimination laws, affirmative action and labor relations. (Spring)
Prerequisite(s)/Corequisite(s): MGMT 3490 with a C+ or better, MGM 3510 or MGM 4030 with a C(2.0) or better, and a 2.5 GPA

LAWS 4500 SPECIAL PROBLEMS IN LAW AND SOCIETY (1-6 credits)
Individual investigation of specific problems in the field of business law. (Fall, Spring)
Prerequisite(s)/Corequisite(s): Senior and permission of program chair.

LAWS 4510 LAW AND SOCIETY INTERNSHIP (1-3 credits)
(maximum of 3 credits) Students engage in part time employment in their area of specialization to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and or reading may be required.
Prerequisite(s)/Corequisite(s): Permission of internship coordinator; 'C' (2.0) or better in Laws 3930; 2.5 cumulative gpa; junior or senior standing.

LAWS 4910 SEMINAR ON BUSINESS LAW (3 credits)
Contact the instructor since the content will vary from semester to semester, but will have a strong emphasis on current events. The course will focus on one aspect of relationship between government and business, and its related ethical and international law issues. A major student research project is included.
Prerequisite(s)/Corequisite(s): LAWS 3930 and ECON 2200, its equivalent, or permission of department chair.
