STEP 1: Reading, listening, and speaking to the text in rhythm

Utilizing your downloaded score, follow along with the following audio file:

Track with metronome

Track without metronome

STEP 2: Learning the Melody line

Use the following recording to assist in learning the melody. You may try to learn the melody on a neutral syllable (dee, dah, etc), or you may find for your learning style that is easier to try and sing the text as you learn the pitches and rhythms of the melody.

Track without metronome

Step 3: Putting rhythm, melody, and text together

Use the previous tracks to sing rhythm, melody, and text together.

Step 4: Singing with the piano line

This recording includes both the vocal track and the piano track. You are able to hear the melody track while you sing with the piano accompaniment. Please note the tempo varies as there are slower parts marked in the music for expression.

Track w/ melody & piano

Step 5: Singing with the piano line only

This recording takes away the vocal line melody. This step will challenge your melodic independence.

Step 6: Practice and then record/submit your audition

Practice with these tracks until you are secure in your learning and memory.
