# 2010 Nebraska Population Reports

David Drozd and Jerry Deichert  
UNO Center for Public Affairs Research

2011

This report compiles a selection of data analysis tables that were created throughout 2011 and 2012 by staff at the UNO Center for Public Affairs Research using data from the 2000 Census.

## **Nebraska**

Nebraska Population Change by Age: 2000 to 2010, with Comparison to U.S.

Comparison of Nebraska Households by Type: 2000 to 2010

Nebraska Population and Components of Change by Decade: 1990 to 2010

Comparison of Nebraska Population by Race/Ethnicity and Age: 2000 and 2010, with Changes and Percent Changes

2010 Census Release of Detailed Demographics: Findings and Possible Storylines

## **Nebraska Counties**

Nebraska County Populations: 1860 to 2010

Comparison of 2010 Nebraska County Population to that in Highest Census Year

Rankings of Nebraska County Percentage Change in Population: 1980-1990, 1990-2000, 2000-2010

Comparisons of Nebraska Population Change for Counties by Race/Ethnicity: 2000 to 2010

Family Households with Own Children under age 18 by Family type: 2000 to 2010

Nebraska County Census Populations with Changes and Percent Changes: 1980 to 2010

Nebraska County Ranking of Various Statistics: 2010

## **Nebraska Cities/Towns and Incorporated Places**

2010 Census Data for Nebraska Cities/Towns: Total population, Hispanic Population and Percent Hispanic Population

Nebraska Incorporated Place Census Populations with Changes and Percent Changes: 1980 to 2010

### Nebraska Population Change by Age: 2000 to 2010, with Comparison to U.S.

Sources: 2000 and 2010 Decennial Censuses, U.S. Census Bureau

Nebraska	2000	2010	Change	% Change	US % Ch.	Difference	NE Rank

65+	232,195	246,677	14,482	6.2	15.1	-8.8	44

Note: In the difference column, green highlighting shows categories where Nebraska exceeded the U.S. by 3.0% or more, while pink shows Nebraska trailing the U.S. by 3.0% or more. In the state ranking column, green shading shows a ranking of 20 or better while red shows a ranking of 40 or worse, both being a differential of 10 ranking spots from Nebraska's overall state growth ranking of number 30.

### Comparison of Nebraska Households by Type: 2000 to 2010

Sources: 2000 and 2010 Censuses (DP-1, PCT14, PCT15), Same Sex Revised Tables, U.S. Census Bureau

**2010 CENSUS RELEASE OF DETAILED DEMOGRAPHICS**

**Findings and Possible Storylines**

Age Data by Race and Gender

1. The percentage of the population that is minority (non-White or Hispanic/Latino) increased between 2000 and 2010 in each 5-year age category (under 5 years through age 85 or older). The minority population comprises more than 30 percent of those under age 5 in 2010, roughly triple the percentage in 1990. *See pages 3-4.* Four Nebraska counties are “majority-minority” for those under age 5, and eight counties have 40 percent or more of their youngest children being minority. *See pages 5-6.*
2. Minority females increased at a slightly faster rate than minority males, with larger differences among those aged 15-34 (early working ages). *See pages 7-8.* All female 5-year age groups below age 70 increased by at least 40 percent over the decade. *See page 7.* All minority 5-year age groups increased by at least 35 percent from 2000 to 2010, whereas some White non-Hispanic 5-year age groups lost population and children under 5 had virtually no change. *See page 8.*
3. 2000 to 2010 population increases among Nebraska’s fastest growing racial/ethnic group of Hispanic/Latino were evenly divided among men and women. *See page 12.* This stands in stark contrast to the 1990s when gains among Hispanic men (32,280) were about 7,100 more than for Hispanic women (25,176).
4. The Nebraska White non-Hispanic (majority) population actually had a decline in the number of females. While the White non-Hispanic (WnH) population grew overall by about 5,300 over the decade, this stemmed from an increase of about 7,300 WnH men while WnH females declined by 2,000. *See page 7.* Differences exist by size of county, with less populous counties tending to lose relatively more females, while metropolitan counties gained both WnH males and females. *See pages 9-10.* There are more males than females in Nebraska for each 5-year age group under age 45, while older age groups became somewhat more similar regarding numbers of males and females than in the recent past. *See page 8.*
5. While 50 percent of the state’s White non-Hispanic population resides in the state’s most populous three counties of Douglas, Lancaster, and Sarpy, these “big 3” counties contain

more than 60 percent of the state's population ages 20-24 and 25-29. Conversely, they only contain 35 percent of the state's 85 and older population. *See page 11.*

6. There were more Black non-Hispanic men than women in 2010; in 2000 the opposite was true. The change stems mostly from larger gains among men aged 15-34. *See pages 12-13.*
7. Population pyramids show vast differences in the age structure of the majority and minority populations—minority is younger; majority greatly impacted by the babyboom. *See page 14.*

### Origins and Heritage

8. Of the 167,405 Hispanic/Latino Nebraskans in 2010, more than 128,000 listed a Mexican heritage. This equates to slightly more than 75 percent, similar to 2000. More than 8,600 state Guatemalan, along with 6,000 Salvadoran, 3,200 Puerto Rican, 2,100 Cuban, and nearly 1,000 listing Columbian – each of these groups besides Puerto Rican increased by at least 145 percent since 2000, roughly double the overall Hispanic/Latino increase of 77%. *See page 15.*
9. Nebraskans listed specific Asian categories of 7,900 Vietnamese, 5,900 Asian Indians, 4,500 Chinese, 2,700 each listing Filipino and Korean, and a new category for 2010 shows nearly 2,200 Burmese. Asian Indian was the fastest growing of these groups, increasing by more than 80 percent over the decade. *See page 16.*

### Multigenerational households and household relationship

10. Households that contain three or more generations are becoming more prevalent in Nebraska. There are now more than 16,000 “multigenerational” Nebraska households in 2010, an increase of nearly 50 percent versus 11,000 in 2000. *See page 17.*
11. Likewise, grandchildren to the person completing the census questionnaire (referred to as the householder) increased by 50 percent (16,600 in 2000 to 24,900 in 2010). [Note that grandchildren living with grandparents do not necessarily mean that the grandparent is responsible for their financial well-being or care.] Those who were “parents” to the householder also increased 50 percent (5,800 in 2000 to 8,600 in 2010). *See page 17.*

### Homeownership versus renting

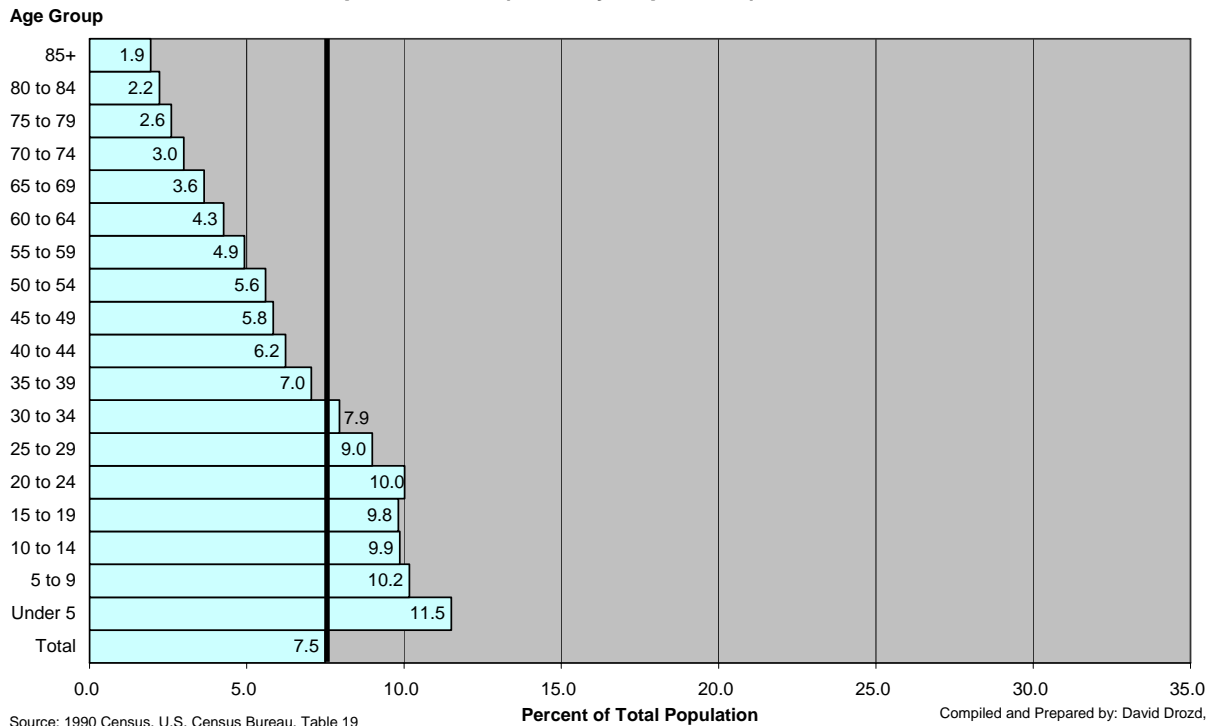

12. Nebraska 2010 homeownership rates were higher than in 2000 for households headed by someone relatively younger (under 35), while homeownership rates declined among older households. As in 2000, those aged 65 to 74 are most likely to own their residence, with more than 80 percent of Nebraska householders of this age being a homeowner. *See page 18.*
13. Homeownership rates increased most among Asian non-Hispanic households (+4.5 percentage points), followed by Hispanic households (+3.0 percentage points) and White non-Hispanic households (+0.6 percentage points). The homeownership rate among Black non-Hispanics declined 4.2 percentage points. More than 70 percent of White non-Hispanic households own their residences, compared to less than 45 percent of minority households. *See page 19.*

<sup>1</sup> The state counts are final resident counts. In December 2010, the Census Bureau released Nebraska's reapportionment count at 1,831,825. This number includes persons who are U.S. military or federal employees and their dependents stationed overseas and who listed Nebraska as their home state.

<sup>2</sup> The 1990 population totals for Nebraska as well as Howard, Knox, Merrick, and Polk Counties are corrected counts. The Census Bureau issued corrected population counts for these areas after the original 1990 counts and associated data products were published. Other detailed population tabulations were not revised to reflect the corrections, so the final counts reported here will differ slightly from the population totals in other tabulations.

<sup>3</sup> The state total is more than the sum of the counties because several areas never had a legal existence and were dropped or reorganized in subsequent years.

<sup>4</sup> The 2000 Census figure for Red Willow County was corrected, resulting in an increase of 2 people. The 2000 population counts listed do not reflect a change in the boundary between Platte and Butler Counties which took effect Jan. 1, 2001. This boundary change would effect the Census figures as follows: Butler gains 96 people while Platte loses 96. The 2010 Census counts reflect the Platte and Butler County boundary change.

<sup>5</sup> The 1890 Nebraska population count includes population (3,746 persons) of Indian reservations specially enumerated, not distributed to specific counties. Thus, the population sum of the counties only equals 1,058,910. The population of old Arthur County (91) was annexed to McPherson County between 1890 and 1900.

### Comparison of 2010 Nebraska County Population to that in Highest Census Year

<sup>1</sup>The state counts are for residents. Nebraska's 2010 reapportionment count was 1,831,825, which includes military or federal employees and their dependents stationed overseas who list Nebraska as their home state.

<sup>2</sup>The 1990 populations for Nebraska as well as Howard, Knox, Merrick, and Polk Counties are corrected counts and thus will differ from other published Census products.

<sup>3</sup>The 2000 Census count for Red Willow County and Nebraska were corrected, resulting in an increase of 2 people.

<sup>1</sup> The 1990 population totals for Beatrice, Bellevue, Cedar Rapids, Dixon, Elba, Falls City, Grand Island, Gross, Hartington, Herman, Lexington, Malcolm, Marquette, Niobrara, Omaha, Palmer, Papillion, Plattsmouth, Ponca, Rockville, Scottsbluff, Seward, Silver Creek, Thurston, Wakefield, and York are corrected counts. The Census Bureau issued corrected population counts for these areas after the original 1990 counts and associated data products were published. Other detailed population tabulations were not revised to reflect the corrections, so the final counts reported here will differ slightly from the population totals in other tabulations.

<sup>2</sup> Farwell formerly known as Posen.

<sup>3</sup> Garland formerly known as Germantown.

<sup>4</sup> Giltner formerly known as Huntington.

<sup>5</sup> Howard City also known as Boelus.

<sup>6</sup> Otoe formerly known as Berlin.

<sup>7</sup> The original 2000 Census count was revised for Beatrice, Hickman, McCook, and Peru. The revised count is listed. See note 1 also.

<sup>8</sup> The city of Elkhorn, NE was annexed by the city of Omaha, NE in 2007. Thus, figures for Omaha for 2000 and prior years do not include data for Elkhorn, with the 2010 count does include the population for what used to be called the city of Elkhorn.
