Provide Feedback

UNO will require involvement and feedback on the progress of its sustainability efforts. It is a critical component to a successful, systematic process for planning and executing strategies identified in the Sustainability Master Plan.

If you have comments, questions, or concerns about UNO's sustainability efforts we would love to hear from you!

UNO / Sustainability / Sustainability Dashboard

UNO Building Dashboard

This engaging, interactive tool demonstrates UNO's commitment to energy conservation, environmental stewardship, and sustainability. This tool provides real-time utility data in an effort to reduce the University's consumption and carbon footprint.

The dashboard below shows the energy consumption of the Barbara Weitz Community Engagement Center, the home of the Office of Sustainability. To see how other buildings on campus are performing, click on the box in the upper right corner of the dashboard to launch the full building dashboard website.

Sustainability Master Plan Dashboard

UNO has several sustainability goals related to energy consumption, greenhouse gas emissions, water consumption, waste & recycling, sustainable transportation, and more.

The dashboard below provides transparency on UNO's progress towards each sustainability goal. Each dashboard tab can be clicked on in order to view UNO's progress towards each performance metric.
