Chapter V. Responsibilities and Rights of Students

- 5.0 **Statement of Responsibility.** Students, like all members of the academic community, have the responsibility to create and support an educational environment. Each member of the community should be treated with respect and dignity. Each has the right to learn. This right imposes a duty not to infringe upon the rights of others. The academic community should assure its members those opportunities, protections, and privileges that provide the best climate for learning.
- 5.1 **Publicity of Rules Affecting Students.** Each major administrative unit shall publicize and keep current all rules, regulations, and policies concerning students, and insure that they are readily available to all students and other interested persons.
- 5.2 **Admissions Criteria.** The University shall publish the criteria for admission, academic progress, certificates, and degrees for all colleges and schools of the University. Admission to the University and the privileges of the University students shall not be denied to any person because of age, sex, race, color, national origin, or religious or political beliefs.
- 5.3 **Academic Evaluation.** Students shall be informed of the requirements, standards, objectives, and evaluation procedures at the beginning of each individual course. Each student shall be given a performance evaluation during the progress of the course if requested. Each College or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student's evaluation upon the committee's finding that an academic evaluation by a member of a faculty has been improper. Each college or school shall provide a mechanism by which students have an opportunity to report their perceptions of courses and the methods by which they are being taught, provided, however, that such mechanism shall protect members of the faculty from capricious and uninformed judgments.
- 5.4 **Student Disciplinary Procedures.** Notwithstanding the provisions of Section 1.2 relating to the adoption of rules and regulations by officers, groups or agencies of the University, the process described in this section shall govern the adoption of rules in relation to student discipline. Each major administrative unit shall adopt, subject to the approval of the Board, rules relating to student discipline and activities. Said rules shall be subject to approval or modification by the Board. Public hearing shall be held by the Board with reference to such rules and regulations, and when approved or modified by the Board after such hearing, shall be effective as part of the Rules of the Board. Each major administrative unit shall formulate such rules in consultation with appropriate student representatives. Rules relating to student discipline shall be enforced through clearly defined channels, and shall provide students with the following minimum procedural guarantees prior to any disciplinary action:
- (a) The right to be informed, in writing, of the specific charges against the student in sufficient time to insure the opportunity to prepare a defense.
 - (b) The right to be informed of the evidence against the student.
 - (c) An opportunity to present evidence in his or her own behalf.
 - (d) The right to maintain status as a student and to attend classes while the case is pending, unless continued presence constitutes an immediate harm to the student or others.
 - (e) The right to be given a hearing before a regularly constituted board in all cases involving expulsion or suspension.
