DATA OVERVIEW

MAY 2019 MONTHLY DATA: OVERALL PARTICIPATION AND COMPLETIONS

OVERVIEW

Grantees use an online data management system to submit data on participants served under their Vocational and Life Skills programming. This data is due monthly and reflects all services provided during the previous month to participants. Evaluators at the Nebraska Center for Justice Research work with grantees directly to manage data entry errors on an ongoing basis during monthly update calls and regular site visits.

The current data derives from an active database, from which data is being entered and updated daily. Data values, including previously submitted information, may fluctuate depending on changes made from data entry oversight. One common example of this is when participants begin programming near the end of the month and grantee staff do not yet have intake information to enter for participants before the next data pull date. These changes will be reflected in future monthly reports.

NOTES ON DATA

- Individuals participating in multiple programs are counted as a unique individual for each grantee.
- There are some duplicate participants in this report. This is due to some participants leaving programming and subsequently returning to receive additional services. The participant data presented in this report reflects only the first participation for each grantee. Program areas are reported for all participations.
- Program areas with an end date past the end of the current month are switched to “in progress” instead of “complete” or “incomplete”. Any completions past the end date will be reported in the next monthly data report.
- Questions on data presented below may be directed to the Research Coordinator, Katelynn Towne, at the Nebraska Center for Justice Research (ktowne@unomaha.edu).

CONTENT AND DEFINITIONS

PARTICIPANTS SERVED

New Participants: Participants beginning programming in the specified month.

Total Served: Unique individuals served by grantee during the specified month. This is the summation of 1) participants that completed programming during the month with 2) those who have not yet completed, but who are receiving services and were listed as active during the month.

Successfully Completed: Participants who have completed overall programming during the month. Completion status is determined by grantee. Successful completions vary widely both within grantees and across grantees. Most grantees develop individualized programming plans for each participant. Therefore, curricula that results in a successful completion are not comprised of the same program areas for every individual.

Grant Cycle 3 Receiving Programming: Unique participants served by VLS through Grant Cycle 3.

Grant Cycle 3 Successful Completions: Participants who have successfully completed overall programming through Grant Cycle 3.

PARTICIPANTS EXITING PROGRAM

This table provides information on the exit status of participants who ended their participation with a grantee during the month. The exit status totals by grantee are presented.

PROGRAM AREAS

Program areas were developed for each grantee this grant cycle to be able to provide a more complete picture of participation for each VLS participant. Each grantee divides their programming into different areas where participants receive services. Some participants only need one service while others may receive a multitude of services which may affect their program length. Beyond successfully completing the entire program, program areas show how participants are still actively participating in programming. They may complete one program area while still being actively involved in other program areas. They will not be shown as successfully completing the program until they have completed their program plan established by the grantee. In these monthly reports, a cumulative count of participants served in each program area is presented along with the status of those in that program area (completed, in progress, incomplete). Participants can be served in multiple program areas. These reports will show changes over time in how participants are moving through VLS programming. VLS quarterly reports provide more detailed descriptions of program areas.

GRANT CYCLE 3 PROGRAM AREAS THROUGH MAY 2019

METRO COMMUNITY COLLEGE (MCC)

Metro Community College added a National Career Readiness Certificate program area in March '17. MCC classes were not offered for the 2017 summer quarter due to grant funding. Many of the incomplete program areas below (3 MCC Core Courses, Career Certification) are due to the break in programming in those areas. These participants were closed out and MCC will add in another program participation if they continue these programs in the future. Trauma Informed Peer Support began in February '18. Always Growing was added as a new program area in March '18. A continuation of Always Growing, Always Growing II, was started in April '18. Job Readiness and Orientation were also added as new program areas in April '18. MCC 180 RAP continues to collaborate with community employers to expand employment opportunities for the re-entry population.
