### 3.8 Conflict of Interest

No employee of the University shall engage in any activity that in any way conflicts with duties and responsibilities at the University of Nebraska. The Board of Regents has adopted Regents Policy 3.2.8 and authorized the implementation of related policies and directives to properly avoid, disclose and manage potential conflicts of interest.

### 3.9 Political Activities of Employees

Employees of the University enjoy the full right of citizens to participate in the political life of the State of Nebraska and the United States. The welfare of the University, however, requires that each employee perform University duties without the interference of outside activities. The following policies, therefore, will apply to employees engaging in political activity.

(a) An employee of the University, contemplating filing as a candidate for any part-time public office, or entering upon the performance of the duties of any part-time public office to which the employee may be elected or appointed, shall notify the President or the Chancellor, as appropriate, and appropriate Dean or division head of his or her intention to do so. It shall be the duty of the President or the Chancellor, as appropriate, to determine to what extent such political activities will interfere with the employee's regular duties, and to decide to what extent the employee's duties and compensation shall be curtailed.

The criteria to be used in determining the extent to which such political activities interfere with the performance of regular duties of the employee shall be: (1) the time that he or she will be required to devote to such political activities during the period assigned for the performance of University duties; (2) the time which, in the absence of such political activities, would be devoted to University duties, such as administrative, class, laboratory, research, extension, counseling, meeting schedules, necessary preparation for the performance of such duties, etc.; and (3) the duration of such political activities and duties.

The curtailment of an employee's duties and compensation shall follow the principle that adjustments in duties and compensation shall be commensurate with the degree of interference with an employee's regular duties.

(b) Any employee of the University contemplating filing as a candidate for any full-time public office shall notify the President or the Chancellor, as appropriate, and appropriate Dean or division head of his or her intention to do so. It shall be the duty of the President or the Chancellor, as appropriate, to determine to what extent campaign activities associated with such candidacy will interfere with the employee's regular duties, and to decide to what extent the employee's duties and compensation shall be curtailed.

The criteria to be used in determining the extent to which campaign activities associated with such candidacy interferes with the performance of regular duties of the employee shall be: (1) the time that he or she will be required to devote to such campaign activities during the period assigned for the performance of University duties; and (2) the time which, in the absence of such campaign activities, would be devoted to University duties, such as administrative, class, laboratory, research, extension, counseling, meeting schedules, necessary preparation for the performance of such duties.

32
The curtailment of an employee's duties and compensation shall follow the principle that adjustments in
duties and compensation shall be commensurate with the degree of interference with an employee's regular
duties.

In the event the employee shall be elected or appointed to a full-time public office, he or she must resign his
or her position with the University effective on the date of commencing his or her new office.

3.10 **Ownership and Commercialization of Inventions and Discoveries.** The Board encourages the
commercialization of inventions and discoveries arising from research activities of the University, and when
appropriate, the pursuit of patents or other intellectual property protection, as a method of bringing
recognition and remuneration to the University's inventors and to the University itself. Every invention or
discovery by members of the faculty and staff that results from the performance of duties within the scope of
their University employment, or from the use of University personnel, property, facilities, or other resources,
except where such use is minimal, shall be solely owned by the University provided that the inventor or
inventors shall have a share of no less than one-third (1/3) of the net proceeds received by the University
resulting from licensing or sale of University owned intellectual property rights associated with such
invention or discovery. Further, and unless otherwise explicitly and specifically agreed to in writing, should
by operation of law or otherwise it is determined that the inventor or inventors own any rights in the
University's inventions and discoveries beyond that described in this section of these *Bylaws*, then it shall be a
condition of employment at the University of Nebraska that any such rights shall be assigned to the
University. The Board shall adopt a formal Patent and Technology Transfer Policy which shall govern the
disclosure of inventions and discoveries resulting from performance of duties by faculty or staff within the
scope of their employment, or from the use of University personnel, property, facilities, or resources. The
President, or any administrative officers designated by the President, shall have authority to act for the
University with respect to inventions or discoveries owned by the University as required by this section and
the Board's Patent and Technology Transfer Policy.

3.11 **Sale of Books and Supplies to Students; Copyrights and Royalties.** No member of the University staff
shall have any financial interest in or receive any compensation from the sale of books, pamphlets, other
educational material, or supplies used by students at the University, except royalties on books or other
educational material from publishing houses of standing, when copyright has been secured or when otherwise
provided by agreement with the University for University-sponsored education materials. Except as to those
works that are University-sponsored "made for hire" educational materials, the University shall claim no
right of ownership of such copyright or such royalties. It shall be the policy of the University to encourage
publication of textbooks, if there is no exploitation of University students resulting therefrom.
