INTRODUCTION

The Center for Applied Urban Research found 1982-1983 to be a busy year. Past users of CAUR services continued to seek assistance in the areas of applied research, service/technical assistance, and training. CAUR's clientele was expanded to include a number of new communities, state and local government agencies, and non-profit organizations. Communities such as Scottsbluff, Grand Island, and Hooper, Nebraska were provided technical assistance. CAUR conducted two major studies for the City of Omaha. Assistance was provided for state agencies such as the Department of Economic Development, the Department of Public Welfare, the Nebraska Equal Opportunity Commission, and the Nebraska Arts Council. A number of projects were undertaken for non-profit groups such as the Omaha Economic Development Corporation, the Sarpy County Development Corporation, Calvin Ed-U-Care, Inc., Omaha Hospice, and the YMCA. CAUR provided census data and related services to nearly 75 different clients during this past year.

Major CAUR projects included the implementation of the survey phase of the Kellogg Foundation project on micro-computers and local governments. Demonstration sites were also selected for this project, and the project's national advisory group also met.

CAUR's project for providing training for foster parents met its intended goals: CAUR offered 55 workshops that provided training to over 500 foster parents.

The first year of a project to provide service to the Academy of Criminal Justice Sciences met with success. Services were provided to nearly 1,500 members. Coordination was provided for the annual meeting held in San Antonio, Texas. The ACJS newsletter, which was distributed to a list of 11,000 educators, was published six times by CAUR.

A project funded by the Nebraska Equal Opportunity Commission on insurance and mortgage lending practices is especially noteworthy. This is the first time that CAUR has contracted with the Nebraska EOC to provide research services.

CAUR staff contributed to the governance of CPACS and the university by serving on a variety of committees. In addition, CAUR staff helped to carry out the CPACS instructional mission by staffing courses in criminal justice and public administration.

CAUR anticipates a productive 1983-1984. One of the primary objectives will be to produce a significant increase in the amount of external funding. This will enable CAUR better to carry out its mission of providing applied research, service, and training.

CAUR ACTIVITIES

Academy of Criminal Justice Sciences Secretariat (5/1/82 to present)

The contract to house the secretariat of ACJS has been renewed for another year. Patricia DeLancey will continue as executive secretary and CAUR will provide support staff. Approximately \$80,000 is budgeted for this office annually.

Analysis of Personnel Management in the City of Omaha

(11/12/82 to 4/30/83)

This project involves a study of the knowledge of and experience with the Omaha Hospice by physicians and other health care professionals.

Carole Davis is the principal investigator assisted by Wilda Stephenson. Funding is by CAUR.

Omaha Revenue Study (10/1/82 to 6/30/83)

This study of potential revenue sources for the city of Omaha resulted in two reports: Omaha's Revenue Sources: A Comparison to Other Cities and Evaluation of Alternate Revenue Sources. A survey was made of revenue sources in the 50 cities in the United States closest in size to Omaha. Sources examined could serve as the basis for increasing revenue, replacing revenue to be lost with the end of the federal revenue sharing program, or for restructuring the present system.

Murray Frost was the principal investigator. Funding was by the city of Omaha. (\$7,450)

Omaha's Neighborhood Housing Services Area: A Needs Assessment (5/1/82 to 1/31/83)

This survey of housing and environmental conditions for a 245 square block area in northeast Omaha resulted in a physical property analysis of land parcels in the area from Lake Street to Ames and from 30th Street to Fontenelle Blvd. In addition, an attitude survey of area residents was conducted to identify improvement priorities. The study was made for Neighborhood Housing Services, Inc. of Omaha.

Jack Ruff and R. K. Piper were the principal investigators. (\$4,000)

Procedures for Investigating Mortgage Lending and Residential Insurance Practices in Omaha (3/1/83 to present)

This study for the Nebraska Equal Opportunity Commission is designed to assess mortgage lending and residential insurance practices in Omaha.

Jack Ruff is the principal investigator. Funding is by the Nebraska Equal Opportunity Commission. (\$24,986)

South/Southwest YMCA Health and Fitness Survey (4/83 to present)

This research project will determine the needs for expanded health and fitness facilities in the local service area. A survey is being conducted of adult health and wellness needs.

David DiMartino is the principal investigator. Funding is by the YMCA. (\$1,300)

Southwest Iowa Regional Ridesharing Study (1/1/82 to 9/30/82)

This study determined the feasibility of a ridesharing program in the eight county area of the Southwest Iowa Transit Agency. Population and employment characteristics were investigated and assistance given in planning.

R. K. Piper and Jack Ruff were the principal investigators. Funding was by the Southwest Iowa Regional Planning Council. (\$4,060)

Survey of Child Care Rates for Greater Omaha Community Action (9/82)

This report examined rates for child care in the Omaha area. Data were based on results of a telephone survey of

ten day care centers, 30 licensed home care providers, and ten babysitters, chosen randomly.

Rebecca Fahrlander was the principal investigator. GOCA was the funding agency.

Survey of Maintenance and Management Needs in Omaha Housing Authority's Apartments for Senior Citizens (1/82 to 8/82)

This study obtained input from residents of OHA apartments for senior citizens regarding maintenance and management needs.

The principal investigators were Joan V. Holley and Rebecca S. Fahrlander. Funding was by the OHA Board of Commissioners.

A Survey of UNO Alumni (3/83 to present)

A sample of UNO alumni is being surveyed to determine opinions about educational experiences and programs.

Rebecca Fahrlander is the principal investigator. Funding is by the office of the Chancellor. (\$2,500)

Training and Technical Assistance Program in Microcomputers and Local Government (6/1/82 to 6/1/84)

Major activities in this two-year project include a survey of data processing uses in small local governments in seven plains and mountain states, three demonstration projects in microcomputer acquisition and use in small local governments, and development of training and technical assistance materials.

Donald Norris is principal investigator assisted by David DiMartino. Funding is by the Kellogg Foundation. (\$72,000)
