CPAR’s formal relationship with the U.S. Census Bureau gives it first-hand knowledge about the decennial census and ongoing survey efforts. CPAR helps Nebraskans learn about the latest population trends and new data products, provides engagement opportunities, and generates statewide connections/ collaborations between elected officials, planners, educators, the business community, media, policymakers, and others. We are so thankful for their creative, top quality, and team approach while serving as a key driver in the 2020 Census leading Nebraska to the 4th best self-response in the country.
