WORLD TRADE TALKS
IN EARLY 1964

U.N. Assembly Votes
Resolution

New York, Dec. 8.—(AP) — The U.N. General Assembly yesterday adopted a resolution
at the International Trade and Development
Conference in 1965 to speed up the trade problems between
the various countries of the world. The resolution
was proposed by the United States and supported
by many other countries.

The vote was the first of many that will be taken
during the conference. The resolution was supported
by 72 votes and defeated by 12. The vote was not
a foregone conclusion, and there was considerable
doubt about the outcome.

The resolution would provide for the establishment
of a commission to study the problems of international
trade and make recommendations for solutions.

The commission would be composed of representatives
from all the countries of the world.

The vote was taken after a long debate that
lasted all night. There were many amendments
proposed, but they were all defeated.

The resolution was adopted by voice vote. The
result was 72 in favor and 12 against. There were
no abstentions.

The resolution will be taken up again at a later
date. The conference is expected to continue
for several months.

THE WEATHER

No Accord On Halt To Tests

17-NATION DISARM BODY
REPORTS TO U.N.

GENEVA, Dec. 8.—The Disarmament Conference
yesterday voted to request the United Nations to
consider the proposal to halt nuclear tests.

The report, from the American delegation, was
received favorably by the conference, which
voted to consider the proposal further.

The United States had earlier proposed
that all 17 nations of the conference
consider the question of halting nuclear tests.

The vote was taken after a long debate
that lasted all night. There were many
amendments proposed, but they were all defeated.

The report will be taken up again at a later
date. The conference is expected to continue
for several months.

Three Weeks In Soviet Union

By R. KHALIL

The open air museum has recently been created at Leningrad with gigantic exhibits of Soviet monuments and famous factories. Since the first opening day, the museum has attracted thousands of people. The exhibits include the Palace of the Soviets, the Lenin Mausoleum, and the Palace of Farmers, among others. The museum is a popular destination for tourists and locals alike.

Human Rights Day

December 20, 1968

HUMAN RIGHTS DAY

It is celebrated all over the world in various ways, but one day has been designated by the United Nations to focus attention on human rights. This day serves as a reminder of the importance of upholding the fundamental freedoms and rights enshrined in international law.

Kabul's Power Supply System To Be Changed By 1966

Kabul's electricians are working on a new system of electric power to be installed in 1966. The current system, which is outdated and inefficient, will be replaced with a modern, reliable system that will provide more electricity to the growing population of Kabul.

Nyere Says He Has To "Change Country Quickly"

Dr. Julius Nyere, the president of Tanzania, said in an interview that he feels the need to change the country quickly. He expressed concerns about the slow pace of development and the need for urgent action to address the country's economic challenges.

New Ship

The new ship was built at the Port of Leningrad. It is the largest icebreaker in the world and is designed to navigate through the Arctic and Antarctic oceans. The ship is expected to be a significant asset for Russia's naval operations.

Emergency in Nepal

The situation in Nepal is critical, and the government is working closely with international organizations to provide relief to the affected population.

Life On Earth - 3 Billion Years Ago

Evidence that there was life on Earth nearly three billion years ago has been reported on December 20, 1968. The evidence comes from the latest findings of biologists and archaeologists, who have discovered evidence of ancient microorganisms.
COLOMBO TALKS TODAY OPEN TODAY Atmosphere - Of Caution

COLOMBO, Dec. 16.—The atmosphere of the China conflict was today reflected in the activities of the six nations meeting here in the two-day conference. In the last few days it has been evident that the conference is concerned with the Chinese situation, and that it is likely to be a major factor in the next phase of the conflict. The conference is also concerned with the situation in the Far East and the rest of the world.

The Chinese situation is of great concern to the nations meeting here. The Chinese government, which has been in power for almost 20 years, is facing a serious challenge from an internal opposition. The Chinese government has been trying to maintain its power, but it is not clear whether it will be able to do so. The nations meeting here are concerned with the possibility of a Chinese revolution, which could have serious consequences for the rest of the world.

The nations meeting here are also concerned with the situation in the Far East. The nations of the region are facing a number of challenges, including the rising power of China, the threat of nuclear weapons, and the possibility of a war in the region.

The nations meeting here are also concerned with the rest of the world. The nations are concerned with the possibility of a war in the Middle East, the situation in Europe, and the possible consequences of the Soviet Union's nuclear weapons.

The nations meeting here are also concerned with the possible consequences of the Chinese revolution. The nations are concerned with the possibility of a Chinese revolution, which could have serious consequences for the rest of the world. The nations are also concerned with the possibility of a war in the region, which could have serious consequences for the rest of the world.
