Production Editor*

About the Center

The Center for Space and Defense Studies is located in the Political Science Department at the United States Air Force Academy in Colorado Springs, Colorado. It is continuing the innovative work of the Center for the Study of Defense Policy, informed by a new recognition of the vital role of space in national defense.

The Center's mission is to provide the intellectual foundation for the integration of space policy in the overall national security policy of the United States, define the curriculum for space policy studies in higher education, and produce successive generations of Air Force officers with a vocation for space.

Space and Defense is the journal of the Center for Space and Defense Studies. It is published semiannually, in October and April, and is a work of the United States Government in the public domain. *Space and Defense* should be acknowledged whenever material is quoted from or based on its content. The journal welcomes submission of scholarly, independent research (normally 5,000-10,000 words in length) to the address below. Electronic submissions should be emailed to peter.hays.ctr@osd.mil.

The opinions, conclusions, and recommendations expressed or implied within *Space and Defense* are those of the contributors and do not necessarily reflect those of the Center for Space and Defense Studies, the Air Force Academy, the Air Force, the Department of Defense, or any other agency of the United States Government.
