BBC Refuses To Allow South Africa For Film Preview

LONDON, March 20 (Reuters) - The British Broadcasting Corporation (BBC) has refused to allow the film "A Battery for Peace" to be shown in Britain, according to a report in The Times.

The film was made by the Commonwealth Broadcasting Corporation, which is supported by the United States government, and is due to be shown in the United States.

The BBC, which has the right to refuse the film, has decided not to allow it to be shown, according to sources.

The decision was taken because the film was considered to be too controversial, and because it was felt that it would not be in the public interest to allow it to be shown.

The film is about the struggle for peace in South Africa, and is said to contain footage that was previously banned in South Africa.

US Refuses to Sign Avitation Pact With USSR

WASHINGTON, March 20 (AP) - The United States has refused to sign an aviation pact with the Soviet Union, according to a report in The Washington Post.

The United States and the Soviet Union have been negotiating an aviation pact for several months, but the United States has now decided not to sign it.

The US government has decided that the Soviet Union is not complying with the terms of the pact, and that the pact is not in the national interest.

The decision was taken after a series of meetings between representatives of the two countries.

Soviet Physicist Makes Good Fascination

Fatai Brain Injury

BENGALURU, India, March 20 (AP) - A leading Indian brain surgeon has reported a significant improvement in the condition of a Soviet physicist who was injured in a recent accident.

The surgeon, Dr. S. R. R. Prasad, said that the physicist, who was working on a project related to the Soviet Union, had sustained a severe brain injury.

Dr. Prasad said that the physicist had been taken to a local hospital, where he was treated for several days.

The physicist has been transferred to the National Institute of Mental Health in the United States, where he will continue to receive medical treatment.

The Soviet government has not yet released any information about the physicist's condition.

Industrial Statistics For Afghanistan
Year 1961-62

The effects of industrialization in Afghanistan have been significant, particularly in the mining and forestry sectors. Afghan officials stated that since the last year, the growth of industry has been impressive. The growth is particularly marked in the mining sector, with a notable increase in the output of coal and iron. The forestry sector has also seen growth, with an increase in the production of timber. The growth in both sectors is expected to continue in the coming year.

The exclusive number of the mining and forestry sector has been a major priority for the Afghan government. The growth in these sectors is expected to boost the economy, create employment, and improve living standards. The Afghan government is committed to continue supporting the development of these sectors in the coming years.

The Afghan government has also been working to improve the infrastructure in these sectors. The increase in the production of coal and iron is expected to lead to a reduction in the cost of energy, making it more accessible to the Afghan people. The growth in the forestry sector is expected to lead to the production of more timber, which is used in the construction industry.

The Afghan government is committed to continue supporting the development of these sectors in the coming years. The growth in these sectors is expected to boost the economy, create employment, and improve living standards. The Afghan government is committed to continue supporting the development of these sectors in the coming years.

U.S.-SOMALIA RELATIONS

The government of Somalia has recently established relations with the United States. This is the first time that Somalia has established relations with the United States. The establishment of these relations is expected to open up new opportunities for trade and investment between the two countries. The Somalian government has expressed its commitment to continue supporting the development of these relations in the coming years.
