Three Major Trends in Population

1. Nebraska’s population is becoming more and more concentrated in its most populous counties.

2. The state’s population is getting older and will continue to age.

3. The state’s population is becoming more racially and ethnically diverse.
State Population Summary

• In 2016, Nebraska’s estimated population was 1,907,116.
  – Record high; first time above the 1.9 million mark
  – Up 4.4% since 2010 (ranks 24th highest)
  – Compares to 4.7% national growth rate

• In 2010, Nebraska had a population count of 1,826,341 persons, an increase of 115,076 or 6.7% from the 2000 count of 1,711,265.
  – Nebraska ranked 30th highest in percentage change in population (an increase from 37th highest in 1990s).

• Nebraska’s growth rate of 6.7% in the 2000s was not as strong as the 8.4% rise seen in the 1990s.
  – However, it did exceed the average decade growth rate between 1950 and 2000 (5.3%).
  – The growth rate in the 1990s was the highest since the 1910s.

County Population Summary

• 30 Nebraska counties gained population while 63 lost population between 2010 and 2016.
  – Compares to 24 growing counties in the 2000s, 40 in the 1990s, and only 10 in the 1980s.

• Nebraska’s 3 most populous counties, Douglas, Lancaster, and Sarpy counties are among the state’s fastest growing
  – In 2016, Douglas, Lancaster, and Sarpy surpassed 1 million residents, accounting for 54.7% of Nebraska’s population, up from 52.6% in 2010 and 48.9% in 2000.
  – These 3 counties grew 8.2% between 2010 and 2016 while the remaining 90 counties fell 0.2%.
  – These 3 counties grew 14.9% between 2000 and 2010 while the remaining 90 counties lost 1.1%.
County Population Summary (Continued)

- Between 2000 and 2010 and between 2010 and 2016 metropolitan counties (2013 definitions) added population, but nonmetropolitan counties lost population.

Race and Hispanic/Latino Origin

• Nebraska’s population growth is predominately in its minority racial and ethnic groups.

• In 2016, the minority population was 20.4% of the state’s population
  – Up from 17.9% in 2010, 12.7% in 2000 and 7.4% in 1990

• Minority population is much younger
  – Relatively more under age 45
  – Relatively fewer age 45+
