At the same time it is well known that the existence of the United Nations has been one of the most punctual members in fulfilling its financial obligations with regard to the United Nations budget.

I would like to stress once again that the Soviet Union wants the United Nations to fulfill with honour its role in preserving peace. We believe in this and Mr. Khrushchev also said: "to insist that peace-loving states should pay for the consequences of the relations of aggressors and colonialists would mean the encouragement of colonial policy and interference into the internal affairs of other peoples."

Mr. Khrushchov once again reaffirmed Soviet support for the cause of U.N. He said: "The victorious peoples, it is claimed in the anthology, will create at an extremely fast rate, times higher than that which existed under the capitalist system, and will build their truly splendid future."

One may ask the Chinese comrades whether they realise what sacrifice hundreds of millions of people in war, it said. "The victorious peoples, it is claimed in the anthology, will create at an extremely fast rate, times higher than that which existed under the capitalist system, and will build their truly splendid future."

According to the sources this interest is caused by two reasons: They want to prevent the Israeli Secret Service from getting hold of the documents and second these documents are supposed to contain information worth many million dollars in cash. It is known that the SS and high Nazi leaders, already before World War Two, transferred huge sums of money to Swiss banks, these accounts were held under code names and still exist as nobody has carried them.

U.S.S.R. Refuses To Pay UN Congo And M.E. Costs To Discourage Peace Violations

Khrushchov's Letter to Russell

The U.S.S.R. has refused to pay the United Nations costs for peacekeeping operations in Congo and the Middle East, according to Russell.

Russell stated that the U.S.S.R. has refused to pay the costs for peacekeeping operations in Congo and the Middle East, and that this decision is aimed at discouraging the UN from taking action in these regions.

The U.S.S.R. has a history of non-payment of UN costs in the past, and this decision is seen as a continuation of that pattern.

Treasure Hunting

According to Russell, the Soviet Union has been accused of stealing valuable treasures from the Middle East and the Congo.

Russell stated that the U.S.S.R. has been accused of stealing valuable treasures from the Middle East and the Congo, and that this is seen as a continuation of their history of theft and exploitation.

Russell emphasized that the U.S.S.R. is not interested in gold and diamonds but in the treasures themselves.

Khrushchov's letter to Russell

Khrushchov's letter to Russell was published in the "Pravda" newspaper.

In his letter, Khrushchov denied all accusations of theft and exploitation.

He stated that the U.S.S.R. has always been committed to the protection of the interests of the countries where the treasures were found.

He emphasized that the U.S.S.R. is not interested in the physical possession of the treasures, but rather in the recognition of their cultural and historical value.

Khrushchov's letter was widely criticized, with many accusing him of being trying to hide the truth.

The Meeting Between Russell and Khrushchov

Russell met with Khrushchov in Moscow to discuss the situation.

They discussed the accusations against the U.S.S.R. and the need for a resolution to the situation.

Russell stated that the U.S.S.R. should be held accountable for their actions, and that the international community should work towards a solution.

Khrushchov rejected the accusations and stated that the U.S.S.R. is committed to working towards a resolution.

The meeting was seen as a significant step towards resolving the situation, with both sides expressing a commitment to working towards a resolution.
