Soviet Union replies to last month's Chinese note on continuing to aggravate situation.

At the same time, it is well known that the existence of the United Nations has been one of the most punctual members in filling its financial contributions with regard to the United Nations budget.

I would like to stress once again that the Soviet Union wants the United Nations to fulfill with honour its role in promoting peace. We believe in Mr. Khrushchov also said: "to insist that peace-loving states should pay for the consequences of the relations of aggressors and colonialists would mean the encouragement of colonial and interference into the internal affairs of other peoples."

Mr. Khrushchov once again reaffirmed Soviet support for the cause of U.N. He said: "According to the sources the interest is caused by two reasons - they want to prevent the Israeli Secret Service from getting hold of the documents and second, these documents are supposed to contain information worth many million dollars in cash."

It is known that the SS - amongst Nazi leaders, as before World War Two, transferred huge sums of money to Swiss banks. These accounts were held under code names and still exist as nobody has carried them.

Pompidou arrives in Ankara.

Izohari, Parmer, July 15-The French President, Mr. Pompidou, arrived in Ankara yesterday afternoon. He was welcomed by Mr. Parmer, the Prime Minister of Turkey.

The talks between the two leaders are expected to centre around the future of the prestige of the United Nations.

Mr. Khrushchov warned that the UN system would become less important if the major powers did not cooperate. He said that the UN should be used to promote peace and to prevent aggression.

Mr. Pompidou, on the other hand, said that the UN should be strengthened and made more effective.

Construction Of Irrigation Facilities And Land Development

During the First Five-Year Plan implementation period in the Central Plateau, an area of 80,000 acres of desert land was reclaimed, a 1,200-acre irrigation project was completed, and a 20,000-acre land development project was initiated.

A comprehensive analysis of the irrigation and land development projects was conducted during the planning phase. The projects were designed to integrate agricultural development, water resources management, and rural infrastructure.

The central objective of the irrigation projects was to provide water for crops, livestock, and irrigation systems. The land development projects aimed to increase agricultural productivity and improve rural living conditions.

The projects were implemented in collaboration with international partners, including the United Nations and other organizations.

In conclusion, the irrigation and land development projects during the First Five-Year Plan contributed significantly to the growth and development of the Central Plateau region. These projects laid the foundation for further advancements in agriculture and rural development.

Soviet made Diesel tractors will be distributed by
the Ministry of Agriculture to the farmers in
Mazar-i-Sharif in the near future. The tractors have
a four cylinder engine with a traction capacity of
45 horse power; in one hour it can plough more than
one acre of land.

Mr. Mohammad Ali Akbarzadeh, director of the
technicum and engineering section of the Ministry,
told a Bakhtar reporter that there were two classes of
agricultural machinery at the Ministry including
manually operated machines such as weeding,
sewing and felling tools. This equipment increases
work efficiency about 20 percent as compared with the
local tools available. Heavy and light traction machines;
these machines range in traction capacity between five
and twenty five horsepower.

Referring to import of these machines, he said
samples were requested and put into experimental use.
Those which were most suited for the agricultural
conditions of the country were then ordered.

The contract for the purchase of 100 tractors for
Mazar-i-Sharif farmers has already been signed with a
Soviet tractor firm. The farmers will pay for the
tractors in installments.

facilities operated manually are partly being manufactured in the
country or they are being imported, he added.

No Plans For De Gaulle To Visit USA, Says Salinger

WASHINGTON, July 16 (AP) - Pierre Salinger,
assistant to President Johnson, said Thursday that
there were no plans for De Gaulle to visit the United States by the end of
this year.

Mr. Salinger said that any visit by De Gaulle to the United States would be
made only if it were at the President's request and if it would serve
some purpose.

The White House had announced earlier that
De Gaulle was expected to visit the United States in
September.
