EYE WITNESS ACCOUNT OF APARTHEID IN SOUTH AFRICA.

"The court of justice will be held in the eyes of the world.

A report of the International Benefactors Committee (IBC) on South Africa has been published by the Information Research Council in London. This report, which is based on interviews and observations made by the committee's representative in South Africa, provides a detailed account of the apartheid system and its impact on the lives of the people of South Africa.

The report notes that the apartheid system is based on the principle of racial separation and is enforced through a system of laws and discrimination in all aspects of life, including housing, education, employment, and government services.

It highlights the ongoing struggle of the people of South Africa for freedom and equality, and the international community's role in supporting their fight for justice and human rights.

The report concludes that the apartheid system is a violation of human rights and a barrier to peace and development in South Africa, and calls for a comprehensive approach to ending apartheid and promoting human rights and democracy in the region.

The committee's representative emphasized the importance of international solidarity and cooperation in supporting the struggle for freedom and equality in South Africa.

In conclusion, the report provides a valuable resource for understanding the reality of the apartheid system and its impact on the lives of the people of South Africa, and serves as a reminder of the ongoing struggle for justice and human rights in the region.

Significance of Transport Development In Afghanistan

Transportation is one of the fundamental elements of the economy of Afghanistan. It is essential for the development of infrastructure, trade, and industry. Proper transportation infrastructure is necessary for the movement of goods and services, and plays a crucial role in the development of the country's economy.

The government of Afghanistan has been working on the development of transportation infrastructure in recent years. The construction of new roads and bridges, as well as the rehabilitation of existing ones, is a priority for the government.

Water transport development is also important in Afghanistan, with a network of rivers and lakes providing a significant transportation route for goods and services.

The development of transportation infrastructure is crucial for the economic growth and development of Afghanistan. It is essential for the movement of goods and services, and plays a crucial role in the development of the country's economy.

South Africa Denounced As An "Outlaw Nation" By Ghana In Security Council

UNITED NATIONS, Saturday, Aug. 4 (AP)—
Ghana denounced South Africa as an outlaw nation today and asked the Security Council to consider expelling it from the United Nations.

Mrs. Abika Graham-Makani, the Ghana delegate, urged the Council under U.N. member nations to impose an arms embargo against South Africa because of that nation's attempts to change its white supremacist government.

because of the racial policies, South Africa is considered as a member "product of a country that has not achieved true independence and that has made a mockery of the United Nations."

The measure was introduced by a foreign minister, Mr. P.J. Small, who accused South Africa of "deliberately creating tension in the region" in defiance of the United Nations' "enemy list." S.

The charge was made in a statement delivered at the United Nations, which accuses South Africa of "deliberately creating tension in the region" in defiance of the United Nations' "enemy list." S.

Meanwhile, the official New China News Agency again denied Indian reports of Chinese troop concentrations along the border, saying they were "already an exploded rumor." S.

The Chinese protest was submitted by the Foreign Ministry, saying: "We have received a report from the Chinese government that South African forces have been" S.

Agricultural Bank

To Supply Water

Pumps To Katuwaz

KARUL, Aug. 4—The Government of Afghanistan announced the establishment of an Agricultural Bank, with headquarters in Kabul.

Mr. Mohammad Yousuf, a former minister of agriculture, told a press conference that the bank would be established with a capital of $100,000, which would be used to provide loans to farmers for the purchase of seeds, tools, and equipment.

The bank would also provide credit for the construction of irrigation systems and the establishment of agricultural cooperatives.

"We must realize that without adequate agricultural services, the lives of the people will be miserable," Mr. Yousuf said. "We shall not be able to meet the food needs of the people."
