Work on Tunnel To Finish By End of This Year

KARSEL, Aug. 12 (AP)—The Salung Tunnel, which is being dug to link Afghanistan with Pakistan, is expected to be completed by the end of this year.

The tunnel is being financed by the United States government.

Law on Nationalization of Golf

A law on nationalization of golf was passed by the Afghan Parliament yesterday.

The law, which was introduced by Mr. Mohammad Nazar, Minister of Education, provides for the nationalization of golf clubs and courses in Afghanistan.

The law is expected to create thousands of jobs and boost the economy.
The staff of a big firm in Gulmabaad in Federal Capital are now being housed in a newly developed apartment. The firm is one of the largest in the country and has a number of branches in different parts of the country. The new apartment is expected to be occupied by the firm's officers and employees within the next few weeks.

In the meantime, the Ministry of Education and Science has announced that the firm's employees will be able to live and work in the new apartments without any problem. The Ministry has also advised the firm to take all necessary precautions to ensure the safety of its employees while they are living in the new apartments.

The Ministry of Education and Science has also recommended that the firm should provide adequate facilities for its employees, such as well-equipped classrooms, libraries, and laboratories. The Ministry has also advised the firm to ensure that its employees are provided with adequate housing facilities while they are living in the new apartments.

The firm has also been advised to ensure that its employees are provided with adequate medical facilities, such as well-equipped hospitals and clinics. The Ministry has also advised the firm to ensure that its employees are provided with adequate recreational facilities, such as well-equipped sports facilities and community centers.

In conclusion, the Ministry of Education and Science has been very happy with the new apartment and has recommended that the firm should provide adequate facilities to ensure the safety and comfort of its employees while they are living in the new apartments. The Ministry has also advised the firm to ensure that its employees are provided with adequate housing facilities, medical facilities, and recreational facilities while they are living in the new apartments.
Hydrological Work In Afghanistan

(Continued from page 2)

Another important factor for Afghanistan's economy is agriculture, which is the most common occupation in the country. However, the weather conditions are often not favorable for agriculture, which affects the country's crops and production. The availability of water resources is crucial for the agricultural sector in Afghanistan, as it determines the productivity of crops and livestock.

FRENCH AIRLINER CRASHES KILLING 10 PERSONS

At least 10 people were killed and 11 others injured when a French Airline flight crashed near the airport in Kabul, Afghanistan. The accident occurred during takeoff, when the plane hit a construction site.

PORTUGUESE COLONIES ARE NOT FOR SALE, SAYS SALAZAR

President Mario Soares of Portugal has stated that his country will not sell its colonial territories to any nation. This statement is seen as a response to pressure from some countries, including the United States, to divest from the Portuguese colonies.

VIOLENT CLASHES TAKE PLACE IN BRAZILIAN AS STRIKING WORKERS STORM PRISON & RELEASE INMATES

Brazilian workers have clashed with police in Sao Paulo, Brazil, as they storm a prison in a protest against government policies. The workers have demanded better wages and working conditions.

BRASILIA, Aug. 17—Brazilian workers and police clashed on the streets of Sao Paulo today, as thousands of workers marched to a prison to demand better wages and working conditions.

The workers attacked the police, who responded with tear gas and rubber bullets. At least 10 people were injured, and several were arrested.

The government has been criticized for its economic policies, which have led to a decline in wages and living standards for many workers. The workers' demands for better wages and working conditions have been met with resistance from the government.

The clash is part of a larger wave of protests and strikes across Brazil, as workers demanding better wages and working conditions.

U.S. Nuclear Supremacy Not To Be Impaired By Test Ban, Says McNamara

WASHINGTON, Aug. 17—The United States will not be impeded by the nuclear test ban treaty, Defense Secretary Robert McNamara said today. He said that the treaty would not affect the United States' nuclear capabilities.

McNamara said that the treaty would not affect the United States' nuclear capabilities.

French Government Discusses Moscow Test Ban Accord

PARIS, Aug. 17—French officials have discussed the implications of the Moscow Test Ban Accord. The accord would limit the number of nuclear tests that can be conducted.

The French government has been cautious about the treaty, and has indicated that it will not ratify it until more information is available.

There have been concerns that the treaty would affect France's nuclear capabilities, as it would limit the number of nuclear tests that can be conducted. The French government has been cautious about the treaty, and has indicated that it will not ratify it until more information is available.
