POPEATION GROWTH AFFECTS PLANNING ESTIMATES

By N. E.

Some data are now available in the Ministry of Planning under the Survey of Program Review, which will guide us if we continue to grow in our population. The survey will also help the Ministry of Planning to estimate the growth of the population which now is about 2 billion, and will be used as the base for the future predictions of the population.

In this way, the Ministry of Planning will be able to prepare a more accurate population growth prediction for the country.

The survey will also provide a better understanding of the population's growth and development over time, allowing for better planning and decision-making.

The survey is expected to provide valuable insights into the population's growth, and will be used to guide future development plans and policies.

Free Exchange Rates At Da Afghanistan Bank

Mr. Ahmadzai, Governor of the Central Bank of Afghanistan, announced today that the bank is introducing floating exchange rates.

Mr. Ahmadzai said that the new rates will be based on market conditions and will be updated daily.

He added that the move was necessary to bring the country closer to international financial markets.

Mr. Ahmadzai also said that the bank will continue to monitor the new rates and make adjustments as needed.

He stressed that the new rates are expected to promote more efficient use of resources and contribute to economic growth.

Mr. Ahmadzai said that the bank will continue to work closely with other institutions to ensure the success of the new system.

The bank has already begun to implement the new rates, and has urged all parties to work together to support the new system.

CARE And Afghanistan

Last week, a joint statement was released by CARE and the United Nations High Commissioner for Refugees (UNHCR) announcing the launch of a joint program to provide assistance to Afghan refugees in Pakistan.

The statement said that the program will provide support to over 1 million Afghan refugees in Pakistan, and will focus on the needs of the most vulnerable groups.

The program will leverage the expertise of both organizations to address the multifaceted challenges facing Afghan refugees in Pakistan.

The statement said that the program will prioritize the provision of food, shelter, and education, as well as the protection of human rights.

CARE and UNHCR will work in close coordination to ensure the program is effective and efficient.

At present, there are 200 CARE and UNHCR staff working on the program.

Death Rate From Lung Cancer Higher Among Smokers

Results of a recent study conducted in the United States show that the lung cancer death rate among smokers is significantly higher than among non-smokers.

The study, published in the Journal of the American Medical Association, found that smokers have a 10 times higher risk of dying from lung cancer compared to non-smokers.

The researchers analyzed data from 1.4 million deaths in the U.S. between 1968 and 2006, and found that smokers had a 10.7 times higher risk of dying from lung cancer than non-smokers.

The study controlled for age, gender, race, and other factors that could influence the risk of lung cancer.

It is estimated that smoking causes 350,000 deaths per year in the U.S., making lung cancer the leading cause of cancer-related deaths.

The findings highlight the importance of quitting smoking and reducing exposure to tobacco smoke.

Increased Interest Shown In Kharul By Higher Sales

Eaked, Dec. 7—The Kharul, a new brand of cigarettes launched by the Afghan Tobacco Company, has been well received by smokers, according to the company.

Mr. Ahmadzai, who was appointed as the new head of the company in December, said that the company has seen a significant increase in sales since the introduction of the new brand.

He added that the company is working to improve the quality of its products and expand its market reach.

The Kharul was launched in December as part of the company's efforts to meet the increasing demand for cigarettes in Afghanistan.

Osvald May Have Become Innocent Involved in Kennedy's Assassination

Says Mother in News Conference

Arlington, Va., Nov. 26—Mrs. Robert F. Kennedy, whose son died Nov. 22, said yesterday that the bullet that killed her son was not the end, but the beginning of a series of events that will be investigated, and that the truth will ultimately be discovered.

"I believe in the system," she said, "and I believe in the American people." She added that she would continue to work for justice and truth.

Mrs. Kennedy, who is a lawyer, said she would not rest until the truth was known. She also said she would not be satisfied until the President's assassination was fully investigated.

Mrs. Kennedy's statement was made during a news conference at the Kennedy Center, where she was joined by her husband, Senator Robert F. Kennedy, and her son, Robert F. Kennedy Jr.

Mrs. Kennedy said that she was not satisfied with the way the investigation was being conducted, and that she would continue to work for justice and truth. She added that she would not be satisfied until the President's assassination was fully investigated.
