SCHMIDT: Astronauts change Gemini's course manually in space

Astronauts in the Gemini X spacecraft, which separated from the Saturn rocket on Friday, have manually changed the spacecraft's course for an orbit which will pass over the moon with such precision that astronauts can tell the time of day by seeing the moon's reflection of sunlight. The maneuvers were made in preparation for the upcoming rendezvous with the target vehicle in the space港区.

Final Decision on Gemini Take Off Depends on Clouds

The launch of the Gemini X spacecraft, which is scheduled to take off from Kennedy Space Center on May 21, might be delayed because of uncertain weather conditions. The launch of the spacecraft is dependent on the weather conditions.

Pakistan National Day is observed with great pride and patriotic fervor. The day celebrates the country's independence from British colonial rule. The Pakistan National Day is celebrated with great enthusiasm and national pride.
**Formation Of Political Parties In Afghanistan**

NEED FOR CODE OF ETHICS

The existence of political parties can be traced back to the earliest times in history. In ancient times, political parties emerged as a means of organizing political power and promoting the interests of various social groups. Over time, political parties have evolved to become more complex and diverse, reflecting the changing nature of society and the political landscape.

In Afghanistan, the establishment of political parties is a process that has been ongoing since the country's independence in 1921. However, the political landscape in Afghanistan has been marked by instability and conflict, which has made the formation of political parties a challenging task.

In addition to the challenges posed by the political landscape, the lack of a strong political culture and the absence of a comprehensive legal framework have also hindered the formation of political parties in Afghanistan. As a result, political parties in Afghanistan have struggled to gain traction and influence.

The need for a code of ethics for political parties is therefore a pressing issue. A code of ethics would help to establish a common set of rules and principles that govern the behavior of political parties and their members. It would also help to promote transparency, accountability, and integrity in the political process.

The establishment of a code of ethics for political parties would not only help to establish a more stable and democratic political system in Afghanistan, but it would also help to foster a culture of political engagement and participation among the Afghan people.

**The COMPLEX OF EUROPEAN POLITICS**

By MAURO TOVATINA

The complex of European politics is a phenomenon that can be traced back to the early days of the European Union. Since its establishment in 1993, the Union has undergone significant changes, with the addition of new member states and the expansion of its influence. However, the complex of European politics remains a source of ongoing political debate and controversy.

The complex of European politics involves a wide range of issues, including economic policy, social issues, and security concerns. In recent years, the Union has been faced with challenges such as the refugee crisis, the eurozone debt crisis, and the BREXIT vote.

The complex of European politics is also characterized by the presence of different political parties and ideologues, each with their own agenda and goals. The United Kingdom, Germany, France, and Italy are among the countries that have been most affected by the complex of European politics.

The complex of European politics is a phenomenon that continues to evolve, with new challenges and opportunities arising at each stage. As the European Union continues to grow and develop, it is clear that the complex of European politics will remain a source of political debate and controversy for many years to come.

**How To Reach The People**

They are ignored people, more than anything else. They do not have the opportunity to participate in the democratic process. We need to reach out to them and listen to their concerns. We need to make sure that their voices are heard. It is only through dialogue and engagement that we can build a more inclusive and representative democracy.

In order to reach out to the people, we need to approach them on their own terms. We need to understand their concerns and work with them to find solutions. We need to be open and transparent in our approach, and we need to be prepared to listen to their feedback.

We also need to ensure that the people have access to the information and resources they need to participate in the democratic process. This includes access to education, media, and other forms of communication.

Finally, we need to ensure that the people are represented fairly in the political process. This includes ensuring that they have equal access to political parties and to the highest offices of government.

By reaching out to the people and listening to their concerns, we can build a more inclusive and representative democracy. It is only through this process that we can truly achieve the values of democracy and freedom that we hold so dear.
Four Tribes Hold Talks On Defence In Pakhtunistan

KABUL, March 29—Four representatives of the Afghan government, including the Mahfuz, the Naka, the Orya and the Ula tribes, met in Kabul yesterday at the invitation of the Ministry of Defence. They discussed the possibility of forming a co-operative tribal defence force and the establishment of tribal tribal defense units within the framework of the national army. The representatives agreed to work towards a common goal of developing a strong tribal defense system.

Soviet Leaders Warn U.S. To Stop Intervention In Vietnam At Reception For Cosmonauts

Moscow, March 29—The Soviet leaders, including President Brezhnev and Premier Kosygin, met with the American cosmonauts who arrived in Moscow yesterday for the reception. They expressed their concern about the situation in Vietnam and warned the United States against any further intervention in the country. The leaders emphasized the importance of a peaceful resolution of the conflict in Vietnam through diplomatic means.

Finance Ministry Explains Reasons For Imposing Tolls On Kabul-Torkham Highway

KABUL, March 29—The Finance Ministry explained the reasons for imposing tolls on the Kabul-Torkham highway. The minister stated that the tolls are necessary to meet the expenses of maintaining the highway and to finance the construction of new highways. The minister added that the tolls will also help to finance the repayment of loans taken by the government for the construction of highways.

China Extends $10 Million Loan Bearing No Interest For Development Projects

KABUL, March 29—The Chinese government extended a $10 million loan to Afghanistan with no interest for development projects. The loan will be used for the construction of new highways and other development projects in the country. The minister of finance said that the loan will help to develop the country and improve the living standards of the Afghan people.
