Alternative to danger of war
TOKYO, Jan 22 (Tass) - Governor of Tokyo S. Suzuki announced the decision to dissolve the near future more than 900 workers and employees of the Tokyo municipal branch. The consent alive governor thus tries to reduce at the expense of the working people the huge financial deficit of the capital of Japan.

The trade union organizations of Tokyo resolutely denounced the decision and intend to intensively strike actions in reply to the authorities' arbitrary rule about the so-called "Afghan", "Cameroon" and "Polish" issues. These have made the US activity at major international meetings and conferences look like attempts to "get a free hand for direct interference in the internal affairs of sovereign states, while openly ignoring the basic provisions of the UN Charter," said an official.

Another considerable achievement of the Washington rulers is that 195 million Americans are now on the files at the FBI and special services.

"It is 'characteristic," said the World Youth forum's member of the Helsinki Forum's committee against the arms race and transmutation to war and camouflage.
