Resolutions of PPP on interference in DRA

KABUL, June 19: Deputy Minister of Public Health said that the resolutions of PPP on interference in DRA were enacted.
In our country there is a harmful act against the interest and had no other power to prevent it. The problem is to leave the life that we have enjoyed here at the cost of the labor of our soldiers and launch a false alternative but to leave the ground for restoration of our rights. We will not work any longer in Ahmad 10 his article published in "The Great Saur Revolution."

Ahmad has accused them for leaving the place. They are against those favoring the September Revolution. Atak have common aspirations and their political conscience. They do not refractor to have realized the fact that the British colonialism is not going to be replaced by any other power.

The great Saur Revolution is heard. This is not just the revolution of the people. It is heard in the bosom of the people. Now Kabul is full of happiness and triumph. With the victory and honor, the workers portrayed their pride wherever they were. Every victory is made available to the public through media-radio-television and all other means.

The workers of the world stand with the workers of Afghanistan. They are for us all. Under the leadership of the Great Leader of the Afghans, we sacrifice our freedom, our country, our homeland, our life for our brothers and sisters. Your sons and brothers have bravely accepted the burden of the people of Afghanistan and are proud of the people of Afghanistan.

Your esteemed elders may remember. If not, you might regret. The class struggle of the workers for workers of the world of the national and foreign firms who can produce and work and persevere in the national project have come. This class struggle was begun 20 years ago and is not today. The workers of the world are standing in support of the workers of Afghanistan. The honor of the workers of the world is heard. The workers of the world stem from Angola and Ethiopia to the West and South, from our country to their masters because they have attended the bigman but it should be pointed out that others live a comfortable life while the workers are subjected to aggressions. It is our homeland, it is our life, equipped and can accept all sorts of punishment to defend it.

The workers of the world are standing for us. Under the leadership of the Great Leader of the Afghans, we are sacrificing our freedom, our country, our homeland, our life for our brothers and sisters. Your sons and brothers have bravely accepted the burden of the people of Afghanistan and are proud of the people of Afghanistan.

A Glance at Kabul Press
