An Examination of Faculty-Student Consensual Sexual Relationship Policy Prevalence in a Nationally Representative Sample (Working Title)
Alyssa Nystrom, B.S.¹
School of Criminology and Criminal Justice, University of Nebraska at Omaha

Overview

- Social movements such as #MeToo and Times Up have brought academia under scrutiny for the manner by which they handle sexual harassment.
- Consensual sexual relationship policies (CSRPs) are one way IHEs have attempted to prevent sexual harassment.
- Using typologies created by Mack (1999) and Richards & Nystrom (under review) this work intends to determine the presence and typologies of CSRPs in the U.S.

Method

Data

- Primary data from IHE websites
- N = 451

Analysis

- Atlas.ti(8)
- Coded for presence, typology, IHE type

Coding Scheme

Policy Presence
Yes..................................................PY
No..................................................PN

Policy Type
Advisory..............................................A
Limited Ban.................................LB
Hybrid Limited Ban & Advisory.....HLBA
Hybrid Limited Ban & Prohibition.....HLBP
Prohibition........................................P

IHE Type
Historically Black College or University....0
Tribal Institution..............................1
Four Year Public..............................2
Four Year Private, nonprofit...............3
Two Year Public..............................4

Research Questions

1. What is the Prevalence of CSRPs among IHEs across the U.S.?
2. How does the prevalence of CSRPs vary across subtype of IHE?
3. Which type of CSRPs is most prevalent at IHEs in the U.S.?
4. Does CSRP policy typology vary in occurrence/prevalence across subtype of IHE?

Results
