GENEVA SUMMIT TALKS

FRANCE-ALGERIA CEASE-FIRE TALKS NEXT WEEK

FORMAL AGREEMENT LIKELY

PARIS, Mar. 1. (DPA)—Representatives of the French Government and the Algerian Provisional Government will meet next week for an official conference to conclude a formal agreement on a cease-fire in Algeria. The French information Minister, M. Terrenoire, announced here yesterday after a session of the Ministerial Council.

The Minister indicated that no new negotiations would be necessary in order to prepare the draft treaty already agreed upon as the basis of the negotiations would be the only point on the conference agenda.

M. Terrenoire said the date and venue of the conference have not yet been fixed but that announcement could be expected very soon. The Ministerial Council was informed in detail of the current government action against the O.A.S. underground. The Soviet Union supported the O.A.S. and the movement. The Interior Minister, M. Roger Frey, reported to the Council that police action against the O.A.S. member was very successful in the last week.

A leading O.A.S. member was arrested in Paris on Sunday last. In his possession were plastic bomb components which were expected to be implemented on the day of the cease-fire which was established by the agreement. The plan was to use plastic bomb explosive consisting of tamper plastic bombs in Paris alone.

19 Moslems Killed In Algiers

ALGIERS, Mar. 1. (DPA)—Two plastic bombs exploded yesterday in the Moslem quarters of Algiers. Nineteen Moslems were killed and 31 injured.

Police said it was the first time that O.A.S. agents had exploded time-bombs.

Following the bomb exploation, hundreds of French paratroopers in full battle dress and supported by armoured vehicles were moved into the underground resistance areas and began the revenge actions of the Algerian liberation movement.

Machine-guns were set up at all street corners in the eastern quarters. The streets are lined with paratroopers.

Nehru Returned To Parliament

NEW DELHI, Mar. 1. (Reuters.)—Indian Prime Minister S. J. Nehru returned to the Lower House of Parliament yesterday following his recent illness in the United Kingdom. Mr. Nehru, who had been ill for a month, is now in a stable condition and is expected to make a full recovery.

The Prime Minister's return is seen as a significant development in the ongoing negotiations between India and Pakistan.

Pakistanis In London Support Pakhtunistani Independence Struggle

KABUL, Mar. 1.—According to reports in Urdu papers of Pakistan, the issue of the independence of Pakhtunistan was discussed at a gathering of Pakistanis nationals and students in Saint Pancras Hall, London, on February 21.

The gathering was addressed by a Pakistani nationalist who stressed the importance of self-determination for the people of East Bengal. Several speakers expressed the sympathy of the people of East Bengal towards it and their readiness to support the liberation struggle of the people of the region.

According to the same source, it appears that Mr. Kennedy has been exerting some pressure on the Dutch to make greater efforts towards a compromise with Indonesia. It was believed by those quarters that the scheduled visit to Washington of the Dutch Foreign Minister, Mr. Joseph Lams, must be viewed in this light.

Afghanistan And International Law Commission

by M. Mansour

The press and radio at a glance

One of the international laws, the International Law Commission, is to hold its 10th session in The Hague from March 1 to 28. The commission will consider the following problems:

1. The effects of the Secretary-General's report on the draft convention on the law of the sea.
2. The problem of the relationship between the International Court of Justice and the International Court of Justice.
3. The problem of the relationship between the International Court of Justice and the International Criminal Court.
4. The problem of the relationship between the International Court of Justice and the International Criminal Court.
5. The problem of the relationship between the International Court of Justice and the International Criminal Court.

Development Of Vegetable Oil Industries In Kunduz

Kunduz is in the middle of modern technology that is being used on a vast scale and on a large scale. About the production of cotton seed fourteen times as many are considered to be one of the most important problems.

The history of the city Kunduz bears witness to the fact that ever since the time of the accession of the Afghan, the city of Kunduz has been an important center of economic and cultural development. Kunduz is also the center of the agricultural and industrial development of the country. The establishment of several large-scale industries has been further enhanced by the prospects of growing cotton, which is grown in abundance in the Kunduz district.

The oil is then processed at the Kunduz state run factory and turned into refined products. The production of the Kunduz state run factory and the Kunduz state run factory is a major source of income for the Kunduz district.
