FALLACY OR POLICY

It is not a strange phenomenon that voices of dissent and opposition are heard against the military regime of Pakistan from Pakistanis living outside the country. For within the country, the dictatorial regime has succeeded in silencing such an extent that even a whispering word is kept within the prison walls.

An organization formed in London, New York and Paris, to keep the totality of the increasing number of Pakistanis who are living in those countries informed of the situation in Pakistan, began to work. The Pakistan Solidarity Movement, as it is called, has been trying to disseminate the truth and to convince the people of the situation in Pakistan. The PSM has been involved in organizing meetings in these countries to raise awareness about the situation in Pakistan.

PSM is a non-political and non-governmental organization which is working to promote the cause of democracy and human rights in Pakistan. It is dedicated to advocating for the rights of the citizens of Pakistan and promoting peaceful resolution of conflicts in the country.

The PSM has been successful in raising awareness about the situation in Pakistan and has been able to organize meetings and events in countries around the world. The organization has been working towards creating a platform for Pakistanis living outside the country to come together and share their experiences and concerns.
