4-11-1962
Kabul Times (April 11, 1962, vol. 1, no. 35)

Bakhtar News Agency
National Employment Service.

The establishment of the first National Employment Centre in Kabul is expected to increase the number of employment opportunities for the many young Afghans who have completed their studies but have found it difficult to find work. The Centre, which was opened on April 11, 1962, will provide vocational training and job placement services for young people. The Centre is expected to help reduce unemployment rates and promote economic development in the country.

The Centre will offer vocational training in various fields, including agriculture, handicrafts, and manufacturing. It will also provide job placement services for graduates and other job seekers. The Centre will work closely with the Ministry of Education and the Ministry of Labor to ensure that the services offered are in line with the needs of the job market.

The Centre is located in the heart of Kabul and is easily accessible to young people from all parts of the city. It is hoped that the Centre will help to reduce unemployment rates and promote economic development in the country.

The Centre will be open from Monday to Saturday, from 8:00 am to 5:00 pm. For more information, please contact Mr. M. Y. Farhang, Director of the Centre.

Science Faculty Possesses Fifteen Fully-Equipped Laboratories

The Science Faculty at the University of Kabul is proud to possess fifteen fully-equipped laboratories. These laboratories are equipped with the latest technology and are designed to provide students with the best possible learning experience.

The laboratories are used for a variety of courses, including chemistry, physics, and biology. Each laboratory is equipped with state-of-the-art equipment, including microscopes, calculators, and computers.

The laboratories are open to students during regular class hours and are supervised by experienced professors. Students are encouraged to use the laboratories for their own research and study.

The Science Faculty is committed to providing its students with the highest quality education. The faculty is proud of its state-of-the-art laboratories and is excited to offer its students the best possible learning experience.
