AFGHANISTAN'S HISTORY AT A GLANCE

The term "Aryans" was first used by Greek and Persian historians to refer to the people who had migrated from what is now Iran to the region that is now Afghanistan and Pakistan. The term was derived from the Sanskrit word "aryas," which means "noble." The Aryans are believed to have migrated to the Indian subcontinent around 2000 BC, and they eventually gave rise to the Vedic culture, which is the basis of Hinduism.

The Aryans are known for their contributions to the development of Hinduism and Sanskrit literature. They are believed to have been the first to develop a written language in the Indian subcontinent, and their influence can be seen in the development of later Indian languages. The Aryans are also credited with developing the caste system, which is a complex system of social hierarchy that is still present in modern-day India.

The Aryans were farmers and traders, and they are believed to have brought with them new crops and technologies, such as the plow and irrigation systems. They are also credited with developing the first urban centers, such as Harappa and Mohenjo-Daro, which were connected by a network of trade routes known as the "Indus Valley Civilization."
UN Ready To Control Three Other Katangese Towns By Force If Tshombe Resisted

NEW YORK, Jan. 7.—United Nations troops entered the first of three Katangese towns today after efforts to negotiate a cease-fire with Moise Tshombe proved fruitless, according to a United Nations official source said on Sunday.

Arthur Dean's

The function was also attended by Foreign Secretary Lord Home, the Dean of the Faculty of Foreign Office students, and others.

Another Ghanaian Protest Against Race

The act of 1739 imposed restrictions on the export of African slaves from Britain, and the subsequent slave trade was abolished in 1807.

Further Balance Between Food Production And Market Demand Predicted For 1963

The report said that the agricultural sector was to maintain its output of food at the same level as in 1962, thus providing a steady supply of food to the market.
