Strong President For Brazil

GOUJARAT MAY HAVE TO BE FULL POWERFUL

KP: (AP) - President João Goulart of Brazil has indicated that he will seek a second term in office. The announcement comes in the middle of a political crisis in Brazil, where the president's opponents are calling for his resignation.

If Goulart seeks a second term, he will face a tough re-election battle. His opponents, led by Deputy Pedro Passos, have been calling for his resignation for weeks, citing his handling of the economy and his foreign policy.

Goulart's administration has been facing a recession, with inflation reaching double-digit levels. His government has been accused of corruption and has been criticized for its handling of the COVID-19 pandemic.

However, Goulart's supporters argue that he has made significant progress in Brazil, including the implementation of a new social welfare program and the expansion of public services.

The election is scheduled for later this year, and it will be watched closely by both Brazil and the international community.
