Firing Control Of Nuclear Weapons

NEW YORK, May 13 (AP) - The Algerian Front de Libération Nationale (F.L.N.), which represents the Algerian independence struggle, has asked the United Nations to take "immediate action" against nuclear weapons. The F.L.N. said it "will no longer accept the idea of the subjection of the Algerian people to the nuclear threat."

U.S. Wants Test Ban To Prevent Neutron Bomb Development Hazards

WASHINGTON, May 13 (AP) - Dr. Dean Rusk, the U.S. Secretary of State, said today that the U.S. would "strongly support" the suggestion by the British Government that a test ban of all nuclear tests be established to prevent the development of the neutron bomb.

U.A.R.-SYRIAN UNIFICATION

Shibab's Plan To Nasser

CABUL, May 13 (AP) - Mohamad Shibab, who is reported to be commanding forces in the Punjab province, has submitted to Premier Patrice de Nasser a plan for the unification of Syria and the United Arab Republic (U.A.R.). The plan was submitted to the Premier by a representative of Shibab, who is reported to be stationed in the Punjab.

Other U.S. officials remained uncommitted on the test ban. Secretary of Defense McNamara said that the United States "will take" such an action but did not specify what that action might be. However, he said the United States would "welcome" the action by other countries if it would help to stem the development of the neutron bomb.

Britain, the Soviet Union, and other Western nations have already indicated that they would support a test ban. But the United States has not taken a position on the issue.

The Dutch Government, under the leadership of Premier de Gaulle, has also announced its support for a test ban.

The British Government, under the leadership of Premier de Gaulle, has also announced its support for a test ban.

U.S. Secretary of Defense Robert McNamara said on May 13 that the United States would "take" such an action but did not specify what that action might be. However, he said the United States would "welcome" the action by other countries if it would help to stem the development of the neutron bomb.
